(1) At all times that it offers geological services to the public, the firm, corporation, or partnership is qualified by having on file with the department the name and license number of one or more individuals who hold a current, active license as a professional geologist in the state and are serving as a geologist of record for the firm, corporation, or partnership. A geologist of record may be any principal officer or employee of such firm or corporation, or any partner or employee of such partnership, who holds a current, active license as a professional geologist in this state, or any other Florida-licensed professional geologist with whom the firm, corporation, or partnership has entered into a long-term, ongoing relationship, as defined by rule of the board, to serve as one of its geologists of record.
