(2) (a) The funeral director who first assumes custody of a dead body or fetus shall file the certificate of death or fetal death. In the absence of the funeral director, the physician, advanced practice registered nurse registered under s. 464.0123, or other person in attendance at or after the death or the district medical examiner of the county in which the death occurred or the body was found shall file the certificate of death or fetal death. The medical certification of cause of death shall be furnished to the funeral director, either in person or via certified mail or electronic transfer, by the physician, advanced practice registered nurse registered under s. 464.0123, or medical examiner responsible for furnishing such information. For fetal deaths, the physician, advanced practice registered nurse registered under s. 464.0123, midwife, or hospital administrator shall provide any medical or health information to the funeral director within 72 hours after expulsion or extraction.

(3) Within 72 hours after receipt of a death or fetal death

3. The identity of the decedent is unknown and further investigation or identification is required.

(b) If the decedent’s primary or attending practitioner physician or the district medical examiner of the county in which the death occurred or the body was found indicates that he or she will sign and complete the medical certification of cause of death but will not be available until after the 5-day registration deadline, the local registrar may grant an extension of 5 days. If a further extension is required, the funeral director must provide written justification to the
registrar.

(4) If the department or local registrar grants an extension of time to provide the medical certification of cause of death, the funeral director shall file a temporary certificate of death or fetal death which shall contain all available information, including the fact that the cause of death is pending. The decedent’s primary or attending practitioner or the district medical examiner of the county in which the death occurred or the body was found shall provide an estimated date for completion of the permanent certificate.

(5) A permanent certificate of death or fetal death, containing the cause of death and any other information that was previously unavailable, shall be registered as a replacement for the temporary certificate. The permanent certificate may also include corrected information if the items being corrected are noted on the back of the certificate and dated and signed by the funeral director, physician, advanced practice registered nurse registered under s. 464.0123, or district medical examiner of the county in which the death occurred or the body was found, as appropriate.

other person to whose attention the death may come shall refer
the case to the district medical examiner of the county in which

1. A circuit or county court may enter an ex parte order
stating that a person appears to meet the criteria for
involuntary examination and specifying the findings on which
that conclusion is based. The ex parte order for involuntary
examination must be based on written or oral sworn testimony
that includes specific facts that support the findings. If other
less restrictive means are not available, such as voluntary
appearance for outpatient evaluation, a law enforcement officer,
or other designated agent of the court, shall take the person
into custody and deliver him or her to an appropriate, or the
nearest, facility within the designated receiving system
pursuant to s. 394.462 for involuntary examination. The order of
the court shall be made a part of the patient’s clinical record.
A fee may not be charged for the filing of an order under this
subsection. A facility accepting the patient based on this order
must send a copy of the order to the department within 5 working
days. The order may be submitted electronically through existing
data systems, if available. The order shall be valid only until
the person is delivered to the facility or for the period specified in the order itself, whichever comes first. If no time limit is specified in the order, the order shall be valid for 7 days after the date that the order was signed.

2. A law enforcement officer shall take a person who appears to meet the criteria for involuntary examination into custody and deliver the person or have him or her delivered to an appropriate, or the nearest, facility within the designated receiving system pursuant to s. 394.462 for examination. The officer shall execute a written report detailing the circumstances under which the person was taken into custody, which must be made a part of the patient’s clinical record. Any facility accepting the patient based on this report must send a copy of the report to the department within 5 working days.

3. A physician, a clinical psychologist, a psychiatric nurse, an advanced practice registered nurse registered under s. 464.0123, a mental health counselor, a marriage and family therapist, or a clinical social worker may execute a certificate stating that he or she has examined a person within the preceding 48 hours and finds that the person appears to meet the criteria for involuntary examination and stating the observations upon which that conclusion is based. If other less restrictive means, such as voluntary appearance for outpatient evaluation, are not available, a law enforcement officer shall take into custody the person named in the certificate and deliver him or her to the appropriate, or nearest, facility within the designated receiving system pursuant to s. 394.462 for involuntary examination. The law enforcement officer shall execute a written report detailing the circumstances under which
the person was taken into custody. The report and certificate shall be made a part of the patient’s clinical record. Any facility accepting the patient based on this certificate must send a copy of the certificate to the department within 5 working days. The document may be submitted electronically through existing data systems, if applicable.

When sending the order, report, or certificate to the department, a facility shall, at a minimum, provide information about which action was taken regarding the patient under paragraph (g), which information shall also be made a part of the patient’s clinical record.

Any service under this section shall be provided only when medically necessary and in accordance with state and federal law. Mandatory services rendered by providers in mobile units to Medicaid recipients may be restricted by the agency. Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, number of services, or any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216.

(1) ADVANCED PRACTICE REGISTERED NURSE SERVICES.—The agency shall pay for services provided to a recipient by a licensed advanced practice registered nurse who has a valid collaboration agreement with a licensed physician on file with the Department of Health or who provides anesthesia services in accordance with established protocol required by state law and approved by the medical staff of the facility in which the anesthetic service is performed. Reimbursement for such services must be provided in an amount that equals not less than 80 percent of the

authorized by the patient or his or her legal representative,
except as provided in s. 766.103 or s. 768.13.

that, by the prevailing standards of advanced or specialized
nursing practice in the community, would constitute
experimentation on a human subject, without first obtaining
full, informed, and written consent.

when the advanced practice registered nurse delegating such
responsibilities knows or has reason to believe that such person
is not qualified by training, experience, or licensure to
