I. Summary:

SB 1034 designates Bridge number 100850 on S.R. 60/Courtney Campbell Causeway over Old Tampa Bay in Hillsborough County as “Virginia Creighton Bridge” and directs the Florida Department of Transportation (FDOT) to erect suitable markers.

The estimated cost to the FDOT to install the designation markers required under the bill is \$1,000. See Section V, “Fiscal Impact Statement,” for details.

The bill takes effect July 1, 2021.

II. Present Situation:

Section 334.071, F.S., provides that legislative designations of transportation facilities are for honorary or memorial purposes or to distinguish a particular facility. Such designations are not to be construed as requiring any action by local governments or private parties regarding the changing of any street signs, mailing addresses, or 911 emergency telephone number system listings, unless the legislation specifically provides for such changes.¹

When the Legislature establishes road or bridge designations, the FDOT is required to place markers only at the termini specified for each highway segment or bridge designated by the law creating the designation and to erect any other markers it deems appropriate for the transportation facility.²

The FDOT may not erect the markers for honorary road or bridge designations unless the affected city or county commission enacts a resolution supporting the designation. When the

² Section 334.071(2), F.S.

designated road or bridge segment is located in more than one city or county, each affected local government must pass resolutions supporting the designations before installation of the markers.³
