26 purposes of this subparagraph, the term "secure login 27 credentials" means information held by the department for 28 purposes of authenticating a user logging into a user account on 29 a computer, a computer system, a computer network, or an 30 electronic device; an online user account accessible over the 31 Internet, whether through a mobile device, a website, or any 32 other electronic means; or information used for authentication 33 or password recovery. 34 2. Internet protocol addresses, geolocation data, and 35 other information held by the Department of Highway Safety and Motor Vehicles which describes the location, computer, computer 36 37 system, or computer network from which a user accesses a public-38 facing portal, and the dates and times that a user accesses a 39 public-facing portal, are exempt from s. 119.07(1) and s. 24(a), 40 Art. | 54 | necessity that secure login credentials, Internet protocol |
| 55 | addresses, geolocation data, and other information which |
| 56 | describes the location, computer, computer system, or computer |
| 57 | network from which a user accesses a public-facing portal, and |
| 58 | the dates and times that a user accesses a public-facing portal, |

| 60 | made exempt from s. 119.07(1), Florida Statutes, and s. 24(a), |
| 61 | Article I of the State Constitution. The Legislature finds that |
| 62 | safeguarding the integrity and accuracy of data systems |
| 63 | maintained by the Department of Highway Safety and Motor |
| 64 | Vehicles is of paramount public importance. Those systems |
| 65 | comprise critical information related to driver licenses, state |

| 67 | Highway Patrol law enforcement records. Those systems also |
| 68 | comprise personal information restricted from public disclosure |

| 73 | personal information contained in those systems may subject |
| 74 | users to identity theft, financial harm, or other adverse |

| 78 | available to the public through expanded use of online user |

| 86 | systems vulnerable to unauthorized access. The Legislature finds |
| 87 | that, to safeguard user accounts from unauthorized access and |
