The Committee on Rules (Burgess) recommended the following:

Senate Amendment (with title amendment)

Delete lines 681 - 787
and insert:
declared state of emergency, the Executive Office of the Governor or the appropriate agency shall submit a copy of such contract to the Legislature. For contracts executed during the first 90 days of the emergency, the Executive Office of the Governor or the appropriate agency shall submit a copy to the Legislature within the first 120 days of the declared emergency.
(b) The Executive Office of the Governor or the appropriate agency shall submit monthly reports to the Legislature of all state expenditures, revenues received, and funds transferred by an agency during the previous month to support the declared state of emergency.

(3) Once an emergency exceeds 1 year, the Auditor General shall conduct a financial audit of all associated expenditures and a compliance audit of all associated contracts entered into during the declared emergency. The Auditor General must update the audit annually until the emergency is declared to be ended.

(4) Following the expiration or termination of a state of emergency, the Auditor General shall conduct a financial audit of all associated expenditures and a compliance audit of all associated contracts entered into during the state of emergency.

Section 10. Subsection (3) of section 252.365, Florida Statutes, is amended to read:

252.365 Emergency coordination officers; disaster-preparedness plans.—

(3) Emergency coordination officers shall ensure these individuals shall be responsible for ensuring that each state agency and facility, such as a prison, office building, or university, has a disaster preparedness plan that is coordinated with the applicable local emergency-management agency and approved by the division.

(a) The disaster-preparedness plan must outline a comprehensive and effective program to ensure continuity of essential state functions under all circumstances, including, but not limited to, a pandemic or other public health emergency. The plan must identify a baseline of preparedness for a full
range of potential emergencies to establish a viable capability to perform essential functions during any emergency or other situation that disrupts normal operations. This baseline must consider and include preparedness for rapid and large-scale increases in the public’s need to access government services through technology or other means during an emergency, including, but not limited to, a public health emergency.

(b) The plan must include, at a minimum, the following elements: identification of essential functions, programs, and personnel; procedures to implement the plan and personnel notification and accountability; delegations of authority and lines of succession; identification of alternative facilities and related infrastructure, including those for communications; identification and protection of vital records and databases; provisions regarding the availability of, and distribution plans for, personal protective equipment; and schedules and procedures for periodic tests, training, and exercises.

(c) The division shall develop and distribute guidelines for developing and implementing the plan. By December 31, 2022, each agency must update its plan to include provisions related to preparation for pandemics and other public health emergencies consistent with the plan developed pursuant to s. 381.00315.

Each agency plan must be updated as needed to remain consistent with the state public health emergency management plan.

Section 11. Subsection (3) of section 252.37, Florida Statutes, is amended, subsection (7) is added to that section, and subsection (2) of that section is amended contingent upon SB 1892 or similar legislation creating the Emergency Preparedness and Response Fund taking effect, to read:
252.37 Financing.—

(2) (a) It is the legislative intent that the first recourse be made to funds specifically regularly appropriated to state and local agencies for disaster relief or response.

(b) If the Governor finds that the demands placed upon these funds in coping with a particular disaster declared by the Governor as a state of emergency are unreasonably great, she or he may make funds available by transferring and expending moneys appropriated for other purposes, by transferring and expending moneys out of any unappropriated surplus funds, or from the Emergency Preparedness and Response Budget Stabilization Fund. The Governor may request additional funds to be appropriated to the Emergency Preparedness and Response Fund by a budget amendment, subject to approval of the Legislative Budget Commission.

(c) Following the expiration or termination of the state of emergency, the Governor may transfer moneys with a budget amendment, subject to approval by the Legislative Budget Commission, to satisfy the budget authority granted for such emergency. The transfers and expenditures supporting the amendment must be directly related to the declared disaster or emergency.

(3) Nothing contained in this section shall be construed to limit the authority of the Governor to apply for, administer, and expend any grants, gifts, or payments in aid of emergency prevention, mitigation, preparedness, response, or recovery.

(7) A state agency must submit a detailed spending plan for any grants, gifts, loans, funds, payments, services, equipment, supplies, or materials received under this section in aid of or
for the purpose of emergency prevention, response, recovery, mitigation, and preparedness to the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees. The information must be submitted as soon as practicable, but not later than 30 days after initiation of any expenditures and continuing every 30 days for the duration of the emergency and thereafter while funds continue to be disbursed in response to the emergency.

(8) The division must submit quarterly reports to the President of the Senate, the Speaker of the House of Representatives, and the chairs of the legislative appropriations committees detailing the status of public assistance requests submitted under the federal Public Assistance Program. The report must include information for each agency and local government, including information on requests by event and the status of reimbursement.
