

HOUSE OF REPRESENTATIVES STAFF ANALYSIS

BILL #: CS/HB 7041 PCB PIE 21-05 Elections

SPONSOR(S): Appropriations Committee, Public Integrity & Elections Committee, Ingoglia

TIED BILLS: **IDEN./SIM. BILLS:**

REFERENCE	ACTION	ANALYST	STAFF DIRECTOR or BUDGET/POLICY CHIEF
Orig. Comm.: Public Integrity & Elections Committee	11 Y, 6 N	Pardo	Rubottom
1) Appropriations Committee	17 Y, 8 N, As CS	Evans	Pridgeon
2) State Affairs Committee			

SUMMARY ANALYSIS

Florida has greatly improved election administration and operations since the 2000 Presidential recount.

HB 7041 builds on that recent history. The bill increases security in elections by:

- Improving security and reliability of registration records and voter changes; requiring signature matches be to a signature less than 4 years old or the most recent wet signature registration records; and eliminating voter solicitation of any kind within 150 feet of polling places, or drop box site.
- Improving security and integrity of vote-by-mail (VBM) requests; requiring better monitoring of all VBM drop boxes; and making it a misdemeanor for anyone to possess VBM ballots without authorization.

The bill increases transparency by:

- Requiring all election records be retained 22 months
- Requiring name on VBM return envelopes; requiring a record of identity of designees requesting VBM ballots for another; recording the address to which VBM ballots are mailed; requiring supervisors to report on uncounted VBM ballots received; and
- Requiring publication of canvassing board members on official website and each board meeting notice.

The bill amends statutes that have been ruled unconstitutional including:

- Third party voter registration regulation. Under the bill:
 - Registration applications will have to be delivered to supervisors within 14 days of collection; and
 - Organization must inform applicants of the possible registration delay and of the opportunity to register online or to deliver the application themselves.
- Cleans up the voter registration application checkbox regarding felony convictions.

The bill improves election administration by:

- Clarifying that Party Executive Committee role in filling district and circuit nomination vacancies;
- Extending time allowed for the Department of State to validate new voting equipment and consolidates certain post-election reports; and
- Prohibiting private funding of official election activities.

Finally, the bill clarifies state political party roles in filling nomination vacancies in state district and circuit offices, and requires all single-member county commission districts to be filled by voters in the general election following decennial redistricting.

The bill is expected to have an indeterminate negative fiscal impact, primarily on county election offices. There appears to be minimal impact on state government, but should be able to be absorbed within existing resources.

The bill has an effective date of July 1, 2021.

DATE: 4/9/2021

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Voter registration security: signatures, changes of residence, name, or party affiliation

Present Situation

Voter registration changes

In order for an elector to change his or her residence address, he or she must submit a voter registration application.¹ However, if the address change is within the state, the voter may contact the supervisor of elections (supervisor) of the county where the voter has moved via telephone or through electronic means and provide their date of birth.² Alternatively, the voter may submit the change on a voter registration application or another signed written notice.³

In order to change party affiliation, the elector must notify the supervisor of the county in which they are registered by using a signed written notice that contains the elector's date of birth or voter registration number.⁴

In order to change his or her name, the elector must notify the supervisor by using a signed written notice that contains the elector's date of birth or voter registration number.⁵

In 2015, the Legislature passed legislation that requires an online voter registration system to be available for registering first-time voters and updating voter registrations.⁶ The online registration system allows a voter to submit the necessary information listed above to register or update their voter registration records.⁷

Current law allows any signature in a voter's records to be used for signature matching when verifying signed voter documents including registration change requests. In October 2020, the Tallahassee residence of Governor Ron DeSantis was changed without his authorization to an address in West Palm Beach.⁸ The change was directed by a Naples man using Governor DeSantis' name, address, and date of birth.⁹

Voter registration by the Department of Highway Safety and Motor Vehicles

The Department of Highway Safety and Motor Vehicles (DHSMV) provides an opportunity to register or update voter registration information whenever a Floridian applies for or renews a driver license or identification card or changes an address on an existing license or card. Changes in voter registration through the DHSMV process is on an "opt in" basis. One's domicile constitutes one's legal residence in Florida for both motor vehicle and voting purposes. It is a nonmoving violation with a penalty for failure to obtain a replacement driver license or identification card reflecting a change in legal residence or mailing address within 30 days of such change.¹⁰ Legal residence is a qualification to vote in Florida and the address of legal residence is a requirement to register to vote.

The Division of Elections (Division) has no express duty to compare residence addresses in DHSMV records as part of maintaining the statewide voter registration database. The DHSMV has no express duty

⁹ *Id.*

¹⁰ S. 322.19(3), F.S.

to report to the Division or to a supervisor when a Floridian changes her or his residence in the DHSMV records but does not indicate a desire, or sign an application, to update voter registration information.

Supervisors have specific duties to update an address whenever a change in address is indicated from reports by the U.S. Postal service through the National Change of Address Program or through the return of non-forwardable mail addressed to a voter, or when change-of-address information is provided by the courts regarding jury notices signed by the voter, or from DHSMV or other sources. State law requires a particular process to confirm such address changes. If a voter does not confirm or correct such change, the voter is designated “inactive” in the statewide voter registration system.

Effect of Proposed Changes

The bill requires additional verifying information for a voter who wishes to change their address, name or political party affiliation. A voter making a change by telephone, must supply identifying information verifiable by the supervisor. Otherwise, a voter wishing to change their address, name or political party affiliation must submit a completed voter registration application and include their Florida driver license number, Florida identification number or last four digits of their social security number. Once a voter registration application is completed, the Department of State (DOS) must verify the authenticity of the information. A voter also has the option of using the DOS online voter registration system to update their registration information.

The bill creates new guidelines for the signature verification process conducted by supervisors. Specifically, the bill provides that anytime a signature is verified with the signature on file in the voter’s registration records, the verifier may only use a signature in the registration books or precinct register from the preceding four years. If no wet signature is available within the preceding four years, the verifier may also use the most recent wet signature on record. The bill defines wet signature as one that a voter physically signed on paper with pen or another writing utensil.

The bill provides that anytime a signature is verified, the person verifying the signature must not have any knowledge of the political affiliation of the voter whose signature they are verifying.

Finally, the bill requires DHSMV to assist the DOS to identify changes in residence address on driver licenses and Florida identification cards. The DOS must report identified changes to supervisors who have a duty under current law¹¹ to notify voters and correct the voting records.

Changes to Felony Conviction Disclosures on Uniform Voter Registration Application:

Present Situation

Prior to the 2018 election, Article VI, section 4 of the Florida Constitution disqualified a person convicted of a felony from voting or holding office until his or her civil rights were restored.¹² In the 2018 General Election, Florida voters approved Amendment 4 with 64 percent of the vote, amending the Florida Constitution to provide voting rights restoration to specified voters. Specifically, the ballot language provided that “any disqualification arising from a felony conviction shall terminate and voting rights shall be restored upon completion of all terms of sentence including parole or probation.”¹³ The provision excludes a “person convicted of murder or a felony sexual offense” from restoration of voting rights unless and until his or her civil rights are restored.¹⁴

Legislative Implementation

¹¹ S. 98.065(4), F.S.

¹² Article VI, s. 4, FLA. CONST.

¹³ *Id.* See also Time, ‘Our Voice Will Count.’ Former Felon Praises Florida Passing Amendment 4, Which Will Restore Voting Rights to 1.4 Million People, Alejandro De Le Garza, November 7, 2018, available at <http://time.com/5447051/florida-amendment-4-felon-voting/>.

¹⁴ The Department of State, Division of Elections, *Proposed Constitutional Amendments and Revisions for the 2018 General Election*, p. 10-11, <https://dos.myflorida.com/media/699824/constitutional-amendments-2018-general-election-english.pdf>.

Prior to 2019, Florida's voter registration form required that an applicant mark a checkbox affirming that he or she was not a convicted felon, or, if so, that he or she had his or her voting rights restored.

In 2019, the Legislature adopted Amendment 4 implementing language, including changes to the felon declaration of voter eligibility in the voter registration application. The changes were designed to more closely track the language of the Amendment. Specifically, the 2019 bill provided that the statewide voter registration application must elicit:

1. Whether the applicant has never been convicted of a felony by including the statement "I affirm I have never been convicted of a felony." and providing a box for the applicant to check to affirm the statement.
2. Whether the applicant has been convicted of a felony, and if convicted, has had his or her civil rights restored through executive clemency, by including the statement "If I have been convicted of a felony, I affirm my voting rights have been restored by the Board of Executive Clemency." and providing a box for the applicant to check to affirm the statement.
3. Whether the applicant has been convicted of a felony and, if convicted, has had his or her voting rights restored pursuant to s. 4, Art. VI of the State Constitution, by including the statement "If I have been convicted of a felony, I affirm my voting rights have been restored pursuant to s. 4, Art. VI of the State Constitution upon the completion of all terms of my sentence, including parole or probation." and providing a box for the applicant to check to affirm the statement.

Judicial Action

In October 2019, Judge Robert Hinkle of the United States District Court for the Northern District of Florida invalidated the new statutory language. He stated that, not only was the language inartfully drawn but defective for failing to "reach felons whose rights have been restored in other states or through other methods, including executive pardons."

Subsequently, the Secretary of State represented to Judge Hinkle that Florida's 67 county supervisors of elections had reverted to accepting the old voter registration felon voting declaration language, which currently appears on a registration form on the Division's website.

Effect of Proposed Changes:

The bill amends the language on the voter registration application, specifically: Whether the applicant has been convicted of a felony, and if convicted, has had his or her voting rights restored by including the statement "I affirm that I am not a convicted felon or, if I am, my right to vote has been restored" and providing a box for the applicant to check to affirm the statement.

Third-Party Voter Registration Changes:

Present Situation

Under the National Voting Rights Act, an organization has a federal right to conduct a voter-registration drive, collect voter-registration applications, and mail in the application to a state voter-registration office.¹⁵ In 2011, the Legislature passed HB 1355 which amended section 97.0575, F.S., and added additional responsibilities for third-party voter registration organizations. Specifically, the bill imposed a 48-hour

¹⁵ See *Charles H. Wesley Education Foundation, Inc. v. Cox*, 408 F.3d 1349 (11th Cir. 2005).
STORAGE NAME: h7041a.APC
DATE: 4/9/2021

deadline for an organization to deliver applications to a voter-registration office and increased the record-keeping and reporting requirements.

Section 97.0575(1)(c), F.S., requires all third-party voter registration organizations to provide the names, permanent addresses, and temporary addresses of each registration agent registering persons to vote in Florida on behalf of the organization.

Section 97.0575(1)(d), F.S., requires “a sworn statement from each registration agent employed by or volunteering for the organization stating that the agent will obey all state laws and rules regarding the registration of voters.”

Section 97.0575(3)(a), F.S., requires an application to be delivered to the voter-registration application within 48 hours.

Section 97.0575(5), F.S., requires the division to adopt rules to ensure the integrity of the registration process, including rules requiring third-party voter registration organizations to account for all state and federal registration forms used by their registration agents.

In 2011, Judge Robert Hinkle entered a preliminary injunction against the DOS precluding enforcement of several rules, and blocking enforcement of the above-mentioned provisions of section 97.0575, F.S. The DOS amended its rules to conform to the Court’s order and agreed to a permanent injunction barring enforcement of the offending provisions of statute.

It has been reported that third party registration organizations in 2020 delivered a large number of out of county applications to some supervisors.

Effect of Proposed Change:

The bill reforms and amends the sections of the code invalidated by the federal court. Specifically, the bill provides that those who only solicit applications and do not collect or handle voter registration applications are not required to register with the DOS.

The bill repeals section 97.0575(1)(d), F.S., the mandatory sworn statement regarding obedience to the laws.

The bill extends the 48 hour deadline to submit the voter registration applications to 14 days. In addition, the bill requires the organization to notify the applicant that their application may not be submitted within 14 days. In addition, the bill requires the organization to inform the applicant that he or she may submit their own application or register online with the Division and how he or she may determine whether their application has been delivered.

The bill clarifies that a voter registration application can only be delivered to the Division or to the supervisor of the county of residence of the voter.

The bill repeals the provision of the current law requiring the Division to implement certain rules replacing the directive to ensure that all completed forms are promptly delivered to the Division or an appropriate supervisor.

The bill imposes additional requirements that a state or county agency must satisfy before they can settle a case, consent to a decree, or agree to a condition that nullifies or invalidates any provision of the Florida Election Code. The bill provides that no state or county agency or agent may settle an action, consent to a condition, or agree to an order unless they notify, promptly report in writing, and give 10 days’ notice before entering a settlement to the President of the Senate, the Speaker of the House, and the Attorney General. The bill provides a general direction to the agency that enters into any consent decree or settlement agreement to promptly move to terminate any ongoing jurisdiction after the Legislature amends the sections in code ruled invalid.

Partisan elections and nomination vacancies

Present Situation

When in particular circumstances a party has a vacancy in nomination for a statewide office, the state party chair calls the meeting of the executive board to consider a designation of a nominee to fill the vacancy.¹⁶

When there occurs a vacancy nomination for United States Representative, state senator, state representative, state attorney, or public defender, the state party chair notifies the appropriate county chair or chairs.¹⁷ Within five days, the appropriate county chair calls a meeting of the members of the executive committee in the affected county or counties to consider the designation of a nominee to fill the vacancy.¹⁸ This provision is ambiguous as to the executive committee members entitled to participate in the decision.

Effect of Proposed Change

The bill clarifies that when a vacancy in nomination for United States Representative, state senator, state representative, state attorney, or public defender occurs, the state party chair calls a meeting of the state executive committee members residing in the affected county or counties to consider designation of a nominee to fill the vacancy.

Election of County Commissioner in single member districts

Present Situation

Article 8 of the Florida Constitution provides that each county board of commissioners consists of five or seven members serving staggered terms of four years.¹⁹ After each decennial census the board of county commissioners divides the county into districts of contiguous territory as nearly equal in population as practicable.²⁰ One commissioner residing in each district must be elected as provided by law.²¹

Each county commissioner from an odd numbered district is elected at the general election every 4 years for a 4-year term commencing on the second Tuesday following the election. Current law provides that all commissioners are elected for 4-year staggered terms.²² Each county commissioner from an odd-numbered district is elected at the general election in each year the number of which is a multiple of 4, for a 4-year term commencing on the second Tuesday following the election.²³ Each county commissioner from an even-numbered district is elected at the general election in each even-numbered year the number of which is not a multiple of 4, for a 4-year term commencing on the second Tuesday following the election.²⁴ District Commissioners may be elected at-large in some counties and from single-member districts in other counties.²⁵

Effect of Proposed Change

The bill provides that in the next election following each constitutionally required, decennial redistricting,²⁶ a commissioner for each district must be elected again and terms will be staggered as provided in s. 100.041, F.S. This will divide in half the four year terms of 2 or 3 single-district commissioners in each county, with even or odd numbered districts affected depending on the redistricting year. The change will not affect at-large commissioners or district commissioners elected county-wide. Miami-Dade County and

Vote by Mail Ballots

Requests for vote-by-mail ballots

Present Situation

The supervisor must accept a request for a vote-by-mail (VBM) ballot from an elector in person or in writing.²⁷ The request from a voter for a VBM ballot is sufficient to receive a VBM ballot for all elections through the end of the calendar year of the second ensuing regularly scheduled general election, unless the voter indicates at the time of the request the elections for which he or she would like to receive a VBM ballot.²⁸ For example, under the current law, if, during 2021, a voter makes a general request to vote by mail, then he or she would receive VBM ballots for all elections through the end of 2024.

The voter may request a VBM ballot in person or by phone to be sent to the residence or mailing address on file in the Florida Voter Registration System.²⁹ If the person wishes the ballot to be sent to an address other than one on file, the elector must make a signed request in writing.³⁰ The elector may directly instruct the supervisor to accept a request for a VBM ballot by a member of the elector's immediate family, or the elector's legal guardian.³¹ If the elector chooses someone, the person must disclose:

1. The name of the elector for whom the ballot is requested.
2. The elector's address.
3. The elector's date of birth.
4. The requester's name.
5. The requester's address.
6. The requester's driver license number, if available.
7. The requester's relationship to the elector.
8. The requester's signature (written requests only).³²

A supervisor is required to record the date the request was made, the date the VBM ballot was delivered to the voter or the voter's designee or the date the VBM ballot was delivered to the post office or other carrier, the date the ballot was received by the supervisor, the absence of the voter's signature on the voter's certificate, if applicable, and such other information he or she may deem necessary.³³ This information is confidential and exempt from s. 119.07(1), F.S. and is available only to the voter requesting the ballot, a canvassing board, an election official, a political party or official thereof, a candidate who has filed qualification papers and is opposed in an upcoming election, and registered political committees for political purposes only.³⁴

Not later than 45 days before each election, the supervisor must send a VBM ballot to each absent uniformed voter.³⁵ The supervisor must mail VBM ballots to absent qualified voters who have requested ballots between the 40th and 33rd day before the election.³⁶ The supervisor must enclose with each VBM ballot two envelopes: a secrecy envelope into which the absent elector shall enclose his or her marked ballot; and a mailing envelope, into which the elector shall then place the secrecy envelope, which shall be

³⁶ S. 101.62(4)(a), F.S.

addressed to the supervisor and also bear on the back side a voter's certificate that the elector must sign.³⁷ All ballots must be received by the supervisor no later than 7:00 p.m. on Election Day.³⁸

An elector may designate in writing another person to pick up the VBM ballot from the supervisor.³⁹ However, no designee may pick up more than two VBM ballots per election, other than the designee's own ballot or that of an immediate family member.⁴⁰

It is a first degree misdemeanor for a paid ballot collector to possess more than 2 ballots belonging to someone other than the collector or the collector's "immediate family."⁴¹ There is no limit on the possession of ballots by unpaid collectors.

Effect of Proposed Change

The bill provides that anytime an elector requests a VBM ballot by phone, they must provide the elector's Florida driver license number, the elector's Florida identification card number, or the last four digits of the elector's social security number, whichever of these the supervisor can verify.

The bill requires additional verifying information anytime an elector make a request to have their VBM ballot sent to an address not on file. An elector must now submit a signed written request and must provide one of the following: 1) last four digits of the elector's social security number, 2) Florida driver license number, or 3) Florida identification card number, whichever of these the supervisor can verify.

The bill imposes additional requirements for a designee making a VBM request for another elector. In addition to the current requirements in statute, a designee must also provide the elector's Florida driver license number, the elector's Florida identification card number, or the last four digits of the elector's social security number, whichever of these the supervisor can verify.

The bill requires the supervisors to document the identity of the voter's designee or the address to which the ballot was mailed. In addition, the supervisor must document if there was a mismatched signature on a ballot.

The bill reduces the period an elector's VBM ballot request is valid. The bill provides that a VBM request is sufficient to receive a VBM ballot through the end of the calendar year of the next regularly scheduled election. After the effective date of the act, if a voter makes a general request to vote by mail in 2021, he or she would receive VBM ballots for all elections through the end of the 2022 calendar year. The bill preserves the period under current law for a VBM request made after November 6, 2018 and before July 1, 2021. The bill preserves the current life of every request received prior to the effective date of the act.

The bill explicitly spells out that no county, municipality, or state agency may send a VBM ballot to a voter unless the voter has requested the VBM as authorized under law. The bill makes exemptions for VBM ballots under s.101.662, F.S., relating to voters having disability, s. 101.697, F.S., relating to overseas voters, and under ss. 101.6102-101.6103, F.S., relating to local referenda.

The bill also prohibits any indication of the voter's political party on any envelope used by the supervisor to send a VBM ballot, the return mailing envelope, or the secrecy envelope.

The bill requires the return mailing envelope to bear the name and an encoded mark used by the supervisor's office.

Return of Vote-by-mail ballots

Present Situation

³⁷ S. 101.64(1), F.S.

³⁸ S. 101.65, F.S.

³⁹ S. 101.62(4)(c)4, F.S.

⁴⁰ S. 101.62(4)(c)4, F.S.; An immediate family member means a person's spouse, or the parent, child, grandparent, or sibling of the person or the person's spouse. S. 104.0616(1), F.S.

⁴¹ S. 104.0616, F.S.;

Under current law, upon receipt of a VBM ballot, the supervisor of the county where the absent elector resides must compare the signature on the voter's certificate with the signature of the elector in the registration books or the precinct register to determine whether the elector is duly registered in the county and may record on the elector's registration certificate that the elector has voted.⁴² After a VBM ballot is received by the supervisor, the ballot is deemed to have been cast, and changes or additions may not be made to the voter's certificate.⁴³

A supervisor must allow an elector to physically return their VBM ballot to a secure drop box.⁴⁴ Secure drop boxes must be placed at the supervisor's main office, branch office, and early voting sites.⁴⁵ In addition, secure drop boxes can be placed at any other site that qualifies as an early voting site under s. 101.657(1), F.S., provided that the site is staffed during the county's early voting hours of operation by an employee of the supervisor's office or a sworn law enforcement officer.⁴⁶

The county canvassing board may begin the canvassing of VBM ballots beginning at 7:00 a.m. on the 22nd day before the election, but not later than noon on the day following the election.⁴⁷

The canvassing board must compare the number of ballots in its possession with the number of request for ballots received to be counted according to the supervisor's file.⁴⁸ If the supervisor has not compared the signature on the ballots, the canvassing board must compare the signature on the voter's certificate or the ballot cure affidavit to see that the elector is duly registered in the county and to determine the legality of that VBM ballot.⁴⁹

A VBM ballot may only be counted if: 1) the signature on the voter's certificate or cure affidavit matches the elector's signature in the registration books; 2) the cure affidavit contains a signature that does not match the elector's signature in the registration books or precinct register, but the elector has submitted a current and valid Tier 1 identification which confirms the identity of the elector.⁵⁰

If any elector or candidate present believes that a VBM ballot is illegal due to a defect apparent on the voter's certificate or the cure affidavit, he or she may, at any time before the ballot is separated from the envelope, file with the canvassing board a protest against the canvass of that ballot specifying the reason he or she believes the ballot is illegal.⁵¹ A challenge based upon a defect in the voter's certificate or the cure affidavit may not be accepted after the ballot has been removed from the mailing envelope.⁵²

If the canvassing board determines that a ballot is illegal, they mark the ballot as "rejected as illegal" and preserved in the same manner that official ballots are preserved.⁵³ The canvassing board records the ballot upon the proper record, unless that ballot has already been recorded by the supervisor.⁵⁴ The mailing envelopes shall be opened and the secrecy envelopes shall be mixed so as to make it impossible to determine which secrecy envelope came out of which signed mailing envelope.⁵⁵

If the VBM ballot received does not contain a signature or the signature does not match the elector's signature, the supervisor must notify the voter as soon as possible by first class mail and also either by email, text message, or telephone.⁵⁶ The elector must then complete a cure affidavit and submit it to the supervisor no later than 5:00 p.m. on the 2nd day after the election.⁵⁷ The canvassing board then decides

⁵⁷ Ss. 101.68(4)(a) and 101.68(4)(d), F.S.

on the validity of each cure affidavit. If the ballot is validated following submission of a cure affidavit, the supervisor shall make a copy of the affidavit, affix it to a voter registration application and immediately process it as a valid request for a signature update.⁵⁸

If the ballot is rejected as illegal, after all election results have been certified, the supervisor must notify the elector whose ballot was rejected as illegal and provide the specific reason for why the ballot was rejected.⁵⁹ In addition, the elector must be mailed a voter registration application to be completed indicating the elector's current signature if the signature on the voter's certificate or cure affidavit did not match the elector's signature in the registration books or precinct register.⁶⁰

Effect of the bill

The bill provides that whenever there is a signature deficiency on a voter's certificate and the supervisor is required to notify the elector of such deficiency, the supervisor must also notify the political party of the registered voter via email of the signature deficiency. The political parties must register one email address with every supervisor where they wish to be contacted.

The bill makes it a first degree misdemeanor to possess the ballot of another unless the person possessing the ballot has been designated to do so and has a declaration indicating so. With such declaration(s), a person may carry a ballot belonging to an immediate family member and in any election may carry a maximum of two ballots belonging to persons who are not family members. The declaration must include a statement affirming they have been designated to carry the ballot of another, include the signature of the voter whose ballot is being carried and date signed by the voter, the signature of the designee designated to carry the ballot and date signed by the designee, as well as the relationship the designee has to the voter whose ballot they are carrying. In addition, the declaration must include a provision where the designee acknowledges that falsifying a declaration is a third degree felony. The bill extends the definition of immediate family to include a grandchild.

The bill provides several changes to the current drop boxes provisions in law. Early voting site drop boxes and discretionary drop boxes may only be used as secure drop box locations during early voting hours. In addition, the bill requires all drop boxes not at an officer of a supervisor to be physically manned by an employee of the supervisor at all times.

Secure drop boxes at the office of the supervisor must be monitored by an employee of the supervisor during regular office hours and must be otherwise secure from tampering and monitored by video surveillance during other hours. The supervisor must keep a recording of any surveillance video and provide a copy to a candidate or political party upon request.

The bill requires the supervisors to designate the location of all drop box sites and notify the Division no later than the 30th prior to the election of the location of such sites. Once a drop box location is set, the location may not be moved or changed. No drop box can be placed in a location so as to favor or disfavor any one political party or candidate. The bill requires all drop boxes to be emptied each day at the end of early voting hours. The bill imposes a civil penalty of \$25,000 on any supervisor that leaves a drop box at an early voting site or discretionary drop box site accessible for ballot drop off outside of early voting hours. The Division is authorized to enforce this provision.

The bill allows an elector's designee with a declaration to return an elector's ballot to a drop box. Under the bill, when a person returns a ballot to a drop box they must present their Florida driver license or Florida identification card to the employee monitoring the drop box. The employee monitoring the drop box must ensure that the name on the identification provided matches the printed name on the mailing envelope or the name on the declaration if the person dropping the ballot off is a designee. If an elector dropping off his own ballot does not have their identification when dropping their ballot at a drop box, the elector may still drop off their ballot if the person provides an attestation stating that the elector did not have a Florida driver license or Florida identification card on their person when returning their own ballot. The Division is given

⁵⁸ S. 101.68(4)(g), F.S.

⁵⁹ S. 101.68(4)(h), F.S.

⁶⁰ S. 101.68(4)(h), F.S.

authority to provide, by a rule, a form of the attestation that a voter who does not have identification must use to drop off their ballot in a drop box.

The Division and the supervisors must make sure that copies of the forms for an attestation of an elector dropping off his or her own ballot and a declaration of a designee to carry another's ballot are available online and at all supervisor's offices. In addition, the supervisor must ensure that copies of the form for an attestation of a voter dropping off his or her own ballot are available at each drop box location.

The declaration or attestation must be affixed to the return mailing envelope when the ballot is deposited into the drop box.

The supervisor or person checking the signature against the registration books or precinct register must make a record of the substance of the declaration when the voter's certificate is reviewed.

The bill makes it a third degree felony to make a false declaration or attestation.

The bill also requires the supervisor to post on his or her website, at least once every hour while actively counting, the number of VBM ballots that have been received and the number of VBM ballots that remain uncounted beginning at 7:00 p.m. the day before Election Day.

Solicitation-free polling places:

Present Situation

Currently, no person, political committee, or other group or organization may solicit voters inside the polling place or within 150 feet of the entrance to any polling place,⁶¹ polling room⁶² where the polling place is also a polling room, early voting site,⁶³ or an office of the supervisor where VBM ballots are requested and printed on demand.⁶⁴ Each supervisor must inform the clerk⁶⁵ of the area within which soliciting is unlawful based on the particular characteristics of that polling place.⁶⁶ Prior to opening of the polling place or early voting site, the clerk or supervisor must designate the no-solicitation zone and mark the boundaries.⁶⁷ The term "solicitation" includes, but is not limited to, seeking or attempting to seek any vote, fact, opinion, or contribution; distributing or attempting to distribute any political or campaign material, leaflet, or handout; conducting a poll except an exit poll; seeking or attempting to seek a signature on any petition; and selling or attempting to sell any item.⁶⁸

A separate provision of the code discusses the ability of an elector who requires assistance voting. Any voter who needs assistance voting can seek the assistance of either 1) two election officials or 2) some person of their choice.⁶⁹ The person requesting assistance must sign a declaration to secure assistance. If the elector chooses someone of their choice to assist them in voting, then the person assisting must also sign a declaration to provide assistance.⁷⁰ Further the code provides that a person at a polling place or early voting site, or within 100 feet of an early polling place or voting site may not solicit a voter in an effort to provide assistance to vote.⁷¹

⁶¹ The term "polling place" is defined to mean the building that contains the polling room where ballots are cast. Section 97.021(27), F.S.

⁶² The term "polling room" is defined to mean the actual room in which ballots are cast on Election Day and during early voting. S. 97.021(28), F.S.

⁶³ The term "early voting site" is defined to mean those locations specified in s. 101.657, F.S., and the building in which early voting occurs. S. 97.021(11), F.S.

⁶⁴ S. 102.031(4)(a), F.S.

⁶⁵ Each precinct has inspectors and a clerk, each appointed by the supervisor. These poll workers are collectively known as the election board. The clerk is in charge of and responsible for seeing that the election board carries out its duties and responsibilities. S. 102.012(1)(a), F.S.

⁶⁶ S. 102.031(4)(c), F.S.

⁶⁷ S. 102.031(4)(a), F.S.

⁶⁸ S. 102.031(4)(b), F.S.

⁶⁹ S. 101.051(1), F.S.

⁷⁰ S. 101.051(1), F.S.

⁷¹ S. 101.051(4), F.S.

Effect of Proposed Change

The bill amends the voter assistance solicitation section to conform to the other solicitation provision so that no voter may be solicited within 150 feet of the entrance of a polling place, early voting site, or drop box.

The bill expands the definition of solicitation to include that no person may engage in any activity with the intent to influence or effect of influencing a voter.

The bill provides that the owner of a property which has a polling place or early voting site, may not prohibit solicitation of voters by a candidate or a candidate's designee outside of the no-solicitation zone during polling hours.

County Canvassing Boards

Present Situation

The County Canvassing Board (CCB) is the entity responsible for tabulating and canvassing the vote for an election in each county.⁷² The CCB is composed of three members: the supervisor of elections, the chair of the board of county commissioners, and a county court judge, who serves as chair of the CCB.⁷³ The CCB must have alternate members in case of a conflict or if one of the members is unable to serve.⁷⁴ The CCB meets in a building accessible to the public to canvass the VBM ballots and the provisional ballots.⁷⁵ In addition, as soon as the canvass of the provisional and VBM ballots is completed, the CCB proceeds to publicly canvass the votes given to each candidate as shown by the returns on file in the office of the supervisor.⁷⁶ In many counties, the CCB meets several times to canvass ballots.

Public notice of the specific time and place of the CCB board meetings must be posted at least 48 hours prior to publication on the supervisor's website and published in one or more newspapers of general circulation in the county, or, if there is no newspaper of general circulation in the county, by posting such notice in at least four conspicuous places in the county.⁷⁷

During any meeting of the CCB, a physical notice must be placed in a conspicuous area near the public entrance to the building in which the meeting is taking place.⁷⁸ The physical notice must include the names of the individuals officially serving as the CCB, the names of any alternate members, the time of the meeting, and a brief statement as to the anticipated activities of the CCB.⁷⁹

⁷² S. 102.141(1), F.S.

⁷³ S. 102.141(1)(e), F.S.

⁷⁴ See S. 102.141(1), F.S. The chief judge of the judicial circuit in which the county is located shall appoint a county court judge as an alternate member of the county canvassing board or, if each county court judge is unable to serve or is disqualified, shall appoint an alternate member who is qualified to serve as an alternate. If no county judge is able to serve, the chief judge of the judicial circuit shall appoint as a substitute a qualified elector of the county who is not a candidate with opposition in the election being canvassed and who is not an active participant in the campaign or candidacy of any candidate with opposition in the election being canvassed. If the supervisor of elections is unable to serve or is disqualified, the chair of the board of county commissions shall appoint as a substitute a member of the board of county commissions who is not a candidate with opposition in the election being canvassed and who is not an active participant in the campaign or candidacy of any candidate with opposition in the election being canvassed. If the chair of the board of county commissioner is unable to serve or is disqualified, the board of county commissioners shall appoint as a substitute member one of its members who is not a candidate with opposition in the election being canvassed and who is not an active participant in the campaign or candidacy of any candidate with opposition in the election being canvassed. The chair of the board of county commissioners shall appoint a member of the board of county commissions as an alternate member of the canvassing board or, if each member of the board of county commissioners is unable to serve or is disqualified, shall appoint an alternate member who is qualified to serve as a substitute member.

⁷⁵ S. 102.141(2)(a), F.S.

⁷⁶ S. 102.141(2)(a), F.S.

⁷⁷ Ss. 102.141(2)(b) and 101.141(2)(c), F.S.

⁷⁸ S. 102.141(2)(c), F.S.

⁷⁹ S. 102.141(2)(c), F.S.

The CCB may begin meetings to canvass VBM ballots beginning at 7:00 a.m. on the 22nd day before the election, but not later than noon on the day following the election.⁸⁰ In addition, for any county using electronic tabulating equipment, the processing of VBM ballots through such tabulating equipment may begin at 7:00 a.m. on the 22nd day before the election.⁸¹

Effect of Proposed Changes

The bill requires the supervisor to post the names of the CCB members on his or her website before they begin mailing VBM ballots. In addition, the bill requires the CCB to include the names of the members of the CCB and of the alternates on the supervisor's website when they post the notice of time and place of the meeting 48 hours prior to the meeting.

Ballot duplication

Present Situation

As soon as the polls close, the election board must secure the voting devices against further voting. The election board, in the presence of members of the public wishing to witness the counting, must verify the number of voted ballots, unused ballots, provisional ballots, and spoiled ballots to determine whether the number of ballots in their possession correspond with the number of ballots issued by the supervisor. The results of the ballots tabulated at the precinct may be transmitted to the main computer system.⁸²

For each ballot or ballot image on which a write-in vote has been cast, the CCB must compare the write-in voters with the votes cast on the ballot; if the total number of votes for any office exceeds the number allowed by law, such votes shall not be counted.⁸³ All valid votes are tallied by the CCB.⁸⁴

If a VBM ballot is physically damaged so that it cannot be properly counted by the voting system's automatic tabulating equipment, a true duplicate copy of the damaged ballot is created in the presence of witnesses and substituted for the damaged ballot.⁸⁵

A duplicate ballot is also made of a VBM ballot containing an overvoted or undervoted race.⁸⁶ Upon request by a physically present candidate, a political party official, a political committee official, or an authorized designee must be allowed to watch the duplication process.⁸⁷ All duplicate ballots must be clearly labeled "duplicate," bear a serial number which must be recorded on the defective ballot, and be counted in lieu of the defective ballot.⁸⁸ After a ballot has been duplicated, the defective ballot gets placed in an envelope, and the duplicate ballot is tallied with the other ballots for that precinct.⁸⁹

If there is no clear indication on the ballot that the voter has made a definite choice for an office or ballot measure, the elector's ballot must not be counted for those choices which are unclear but the ballot will not be invalidated as to those names or measures that are properly marked.⁹⁰

VBM ballots may be counted by the automatic tabulating equipment if they are marked in a manner that will enable them to be properly counted by the equipment.⁹¹ The return printed by the automatic tabulation equipment to which has been added to the return of write-in, VBM, and manually counted votes and votes from provisional ballots, constitutes the official return upon certification by the CCB.⁹² Upon the completion

⁸⁰ S. 101.68(2)(a), F.S.

⁸¹ S. 101.68(2)(a), F.S.

⁸² S. 101.5614(2), F.S.

⁸³ S. 101.5614(3), F.S.

⁸⁴ S. 101.5614(3), F.S.

⁸⁵ S. 101.5614(4)(a), F.S.

⁸⁶ S. 101.5614(4)(a), F.S.

⁸⁷ S. 101.5614(4)(b), F.S.

⁸⁸ S. 101.5614(4)(b), F.S.

⁸⁹ S. 101.5614(4)(b), F.S.

⁹⁰ S. 101.5614(5), F.S.

⁹¹ S. 101.5614(6), F.S.

⁹² S. 101.5614(7), F.S.

of the count, the returns are made available to the public.⁹³ A copy of the returns may be posted at the central counting place or at the supervisor's office in lieu of the posting of returns at individual precincts.⁹⁴

If anyone releases the results of the election prior to the closing of polls they commit a third degree felony.⁹⁵

Additionally, during an automatic recount, the CCB must put each marksense ballot through the automatic tabulating equipment and determine whether the returns correctly reflect the votes cast.⁹⁶ If any marksense ballot is physically damaged so that it cannot be properly counted by the automatic tabulating equipment during the recount, a duplicate shall be made.⁹⁷

Effect of Proposed Change

The bill requires the duplication process to happen in an open and accessible room where the process can be observed. The bill clarifies that a duplication is to be made of a ballot containing an undervoted race. The bill clarifies that a duplicate must only be made if there is a clear indication on the ballot that the voter made a definite choice in a race or on a ballot measure. A duplicate may not be made if the voter's intent in such a race or measure is not clear. The bill provides that an observer witnessing the duplication process must be allowed in close enough proximity to see the markings on each ballot and the duplication process taking place.

If there is an objection to a duplication, the ballot must be presented to the CCB for a determination on the validity of the duplicate. The CCB must document the serial number in the CCB minutes. The CCB must decide whether the duplication is valid. If the duplicate ballot is determined to be valid, it must be counted. If the duplicate is determined to be invalid, then the ballot must be rejected and a proper duplicate ballot must be made and counted in lieu of the original.

Precinct Level Election Results

Present Situation

Within 30 days following the certification of the election results by the Elections Canvassing Commission,⁹⁸ supervisors are required to collect and submit to DOS precinct-level election results.⁹⁹ The results must be in a uniform electronic format and include the total number of all ballots cast in each precinct for each candidate or nominee to fill a national, state, county, or district office, or proposed constitutional amendment.¹⁰⁰ The results must also contain subtotals for each candidate and ballot type, unless fewer than 30 voters voted a certain type of ballot, in which case that ballot type will be omitted from the results to ensure that the votes for those voters remain secret.¹⁰¹ After DOS has received the results, it must make the information available, through its website, on a searchable, sortable, and downloadable database.¹⁰²

Effect of Proposed Change

The bill provides more clarity to the reporting provision regarding precincts with less than 30 voters voting a certain type of ballot. Specifically the bill makes it clear that only those precincts having fewer than 30 voters voting on the ballot type or in the precinct may not be reported in the results.

State election administration

⁹⁷ S. 102.141(7)(a), F.S.

⁹⁸ The Elections Canvassing Commission is a body that certifies election results for federal, state, and multicounty offices. The commission consists of the Governor and two members of the Cabinet selected by the Governor. The commission meets at 9 a.m. on the 14th day following a general election to certify the returns. Section 102.111, F.S.

⁹⁹ Section 98.0981(2)(a), F.S.

¹⁰⁰ *Id.*

¹⁰¹ *Id.*

¹⁰² Section 98.0981(2)(b), F.S.

Electronic or Electromechanical Voting Systems

A “voting system” is a method of casting and processing votes that consists of electromechanical components and, in most instances, utilizes marksense ballots.¹⁰³ The voting system may also include things like procedures, operating manuals, supplies, printouts, and other software necessary for the system’s operation.¹⁰⁴ An “electronic or electromechanical voting system” means a system of casting votes by use of voting devices or marking devices and counting ballots by employing automatic tabulating equipment or data processing equipment.¹⁰⁵

DOS must approve all electronic or electromechanical voting systems used in Florida elections.¹⁰⁶ The Electronic Voting Systems Act¹⁰⁷ in the Florida Election Code prescribes the general standards for the approval of voting systems; DOS rules further detail the complex, technical certification requirements.¹⁰⁸ The certification process tests the reliability of both the hardware and software components of the voting system to make sure it meets rigorous standards. DOS must approve or disapprove any voting system submitted to it within 90 days after the date of its initial submission.¹⁰⁹

Logic and Accuracy Test

Once approved by DOS, the electronic voting systems must be publicly tested to ascertain whether the equipment will correctly count the votes cast.¹¹⁰ The supervisor must give public notice of the testing at least 48 hours before it begins.¹¹¹ Each member of the CCB must convene and certify the results of the test.¹¹² The date the test must be conducted is tied to the start of early voting; it must be conducted no earlier than 25 days before the early voting period begins.¹¹³ Current law provides a mandatory early voting period, during which a supervisor must offer early voting, and a discretionary early voting period, during which a supervisor may offer early voting. The mandatory period begins on the 10th day before an election and ends on the third day before an election.¹¹⁴ The discretionary period extends the early voting period to begin as early as the 15th day before an election and as late as the second day before an election.¹¹⁵

Effect of Proposed Change

The bill extends the timeframe that DOS has for approving electronic voting systems from 90 days to 120 days. The bill allows the CCB to begin the canvassing of VBM immediately upon the completion of the logic and accuracy test. Thus, the CCB will be able to begin canvassing VBM ballots as early as 40 days prior to Election Day.

Private Grants

Present Situation

There is no provision in law to address the acceptance of grants or donations from private or nongovernmental agencies.

¹¹³ Early voting is the casting of a ballot prior to Election Day at an early voting site designated by the supervisor and depositing the voted ballot in the tabulation system. S. 97.021(9), F.S. Early voting must begin on the 10th day before an election and end on the third day before the election. Section 101.657(1)(d), F.S. additionally, a supervisor may choose to have early voting on the 15th, 14th, 13th, 12th, 11th, and second day before an election. *Id.*

¹¹⁴ S. 101.657(1)(d), F.S.

¹¹⁵ *Id.*

Effect of Proposed Change

The bill prohibits any agency, state, or local official responsible for conducting elections from soliciting, accepting, using, or disposing of any donation in the form of money, grants, property, or personal services from an individual or a nongovernmental entity for the purpose of funding election-related expenses or voter education or registration programs.

Retention of Records

Present Situation

Under Florida law, the retention of election materials is governed by the schedule approved by the Division of Library and Information Services of the DOS.¹¹⁶ All ballots, forms, and other election materials must be retained in the custody of the supervisor in accordance with the scheduled approved by Division of Library and Information Services.

Federal law requires every election officer to retain and preserve all election materials for 22-months.¹¹⁷

Effect of Proposed Change

The bill conforms Florida law to the federal law regarding the length of time election records are required to be retained. The new provision requires records to be retained for a minimum of 22 months and in accordance with the schedule approved by the Division of Library and Information Services of the DOS.

Post-election Reports

Present Situation

The CCB or the board certifying the election is required to conduct a post-election audit and submit a report to the DOS. Immediately after the certification of each election, the CCB or the local board responsible for certifying the election shall conduct a manual audit or an automated audit of the voting systems used in select random precincts.¹¹⁸ The manual audit consists of counting all the ballots in one race in not more than 2% of precincts.¹¹⁹ The automated audit consists of 20% of random precincts.¹²⁰ The CCB is required to post a notice of the audit, including the date, time, and place, in four conspicuous places in the county and on the home page of the county supervisor's webpage.¹²¹ The CCB or board certifying the election must submit this report to the DOS 15 days after the audit is completed.¹²²

The supervisor is also required to submit an undervote/overvote report to the DOS not later than December 15 of each general election year. The report must include the total number of overvotes and undervotes in the President and Vice President or Governor and Lieutenant Governor or race that appears first on the ballot.¹²³ The DOS submits a report on the overvotes and undervotes to the Legislature by January 31 of the year following the general election.¹²⁴

Effect of the bill

The bill consolidates the two reports into one, and requires the CCB or supervisor to submit one report to the DOS by December 15 following the election. The information required does not change, the bill only

changes the deadlines for submission of these reports. The bill also extends the deadline for the DOS to submit the overvote/undervote report to the Legislature from January 31 to February 15.

B. SECTION DIRECTORY:

Section 1. creates s. 97.029, F.S., relating to settlement agreements and consent decrees.

Section 2. amends s. 97.052 F.S., relating to the statewide voter registration application.

Section 3. amends s. 97.053 F.S., relating to the criteria for determining whether a voter registration application is complete.

Section 4. amends s. 97.057 F.S., relating to the Department of Highway Safety and Motor Vehicle to transferring information to supervisor of elections.

Section 5. amends s. 97.0575 F.S., relating to the requirements for third-party voter registration organization.

Section 6. amends 97.1031 F.S., relating to the information an elector must provide when changing residency, political affiliation, or name.

Section 7. creates s. 97.106, F.S., relating to funding by organizations for election related activities.

Section 8. amends s. 98.0981, F.S., relating to precinct-level election results.

Section 9. amends s. 100.041, F.S., relating to elections of county commissioners.

Section 10. amends s. 100.111, F.S., relating to vacancies for U.S. Rep., State Rep., State Senator, State Attorney, and Public Defender.

Section 11. creates s. 101.046, F.S., relating to signature verification procedure.

Section 12. amends s. 101.048, F.S., relating to signature deficiencies on provisional ballots.

Section 13. amends s. 101.051, F.S., relating to solicitation of voter's seeking assistance.

Section 14. amends s. 101.545, F.S., relating to retention of election records.

Section 15. amends s. 101.5605, F.S., relating to the timeframe within which the department approves voting systems.

Section 16. amends s. 101.5614, F.S., relating to the ballot duplication process.

Section 17. amends s. 101.591, F.S., relating to the deadline and submission for the audit report.

Section 18. amends s. 101.595, F.S., relating to the deadline and submission for the overvote/undervote report additional requirements for a specified report.

Section 19. amends s. 101.62, F.S., relating to the requests of vote-by-mail ballots.

Section 20. amends s. 101.64, F.S., relating to the information on vote-by-mail mailing envelopes.

Section 21. amends s. 101.68, F.S., relating to the signature matching process.

Section 22. amends s. 101.69, F.S., relating to secure drop boxes.

Section 23. amends s. 102.031, F.S., relating the definition of the terms "solicit" and "solicitation".

Section 24. creates s. 102.07, F.S., relating to the posting of certain information to the supervisors website.

Section 25. amends s. 102.141, F.S., relating to the publication of the canvassing board members.

Section 26. creates s. 104.032, F.S., relating to penalties for false declaration or attestation regarding vote-by-mail ballots.

Section 27. amends s. 104.0616, F.S., relating to the possession of multiple vote-by-mail ballots.

Section 28. amends s. 124.011, F.S., relating to the election of county commissioners after redistricting.

Section 29. provides an effective date of July 1, 2021.

II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

None.

2. Expenditures:

The fiscal impact on Department of State expenditures is indeterminate, but likely insignificant, and should be able to be absorbed within existing resources.

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

None.

2. Expenditures:

The bill could have a negative fiscal impact on local government expenditures. The bill requires supervisors to comply with new procedures and rules for ballot drop boxes, signature verification, and duplicate ballots. The fiscal impacts on supervisors is indeterminate and cannot be quantified.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

None.

D. FISCAL COMMENTS:

The bill classifies false attestation or declaration regarding vote-by-mail ballots as an unranked third-degree felony, which may increase the prison population by an indeterminate amount, to the extent that a person convicted of false attestation or declaration regarding vote-by-mail ballots receives a state prison sentence as a result of the provisions in the bill.

III. COMMENTS

A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

The bill is exempt from the requirements of Art. VII, S. 18 of the Florida Constitution because it is a law concerning elections.

2. Other:

None.

B. RULE-MAKING AUTHORITY:

None.

C. DRAFTING ISSUES OR OTHER COMMENTS:

None.

IV. AMENDMENTS/ COMMITTEE SUBSTITUTE CHANGES

On Monday, March 22, 2021, the Public Integrity & Elections Committee adopted seven amendments to the proposed committee bill and subsequently reported the bill favorably as amended. The amendments made the following revisions to the bill:

- Instead of requiring DHSMV to notify each supervisor of an address change, DHSMV is only required to assist DOS in gathering residence address change information from DHSMV to DOS for DOS to provide to the county supervisors.
- Clarifies current law to require a duplication of a ballot when there is an undervoted race.
- Removed unnecessary language regarding the canvassing board voting on the validity of a duplicate ballot.
- Preserves the current term of every VBM request received prior to the effective date of the act.
- Preserves current law allowing the provision of VBM ballots under s.101.662, F.S., relating to voters having disability, s. 101.697, F.S., relating to overseas voters, and under ss. 101.6102-101.6103, F.S., relating to local referenda.
- Removes the specific purpose requirement for encoded mark on VBM ballot envelopes and clarifies that any encoded markings may be used by the supervisor's office.
- Clarifies that a signature may only be invalidated by the canvassing board if there is no reasonable doubt that it is invalid.

On Thursday, April 8, 2021, the Appropriations Committee adopted a strike-all amendment and reported the bill favorably as a committee substitute. The committee substitute retained the underlying bill and made the following changes:

- Requires a voter to submit a full voter application anytime they wish to change their name or political party affiliation. Requires all changes made to voter registration information through a voter registration application to be verified by the Department of State.
- Requires third-party voter registration organizations to return completed voter registrations applications to the supervisor in the county where the elector resides.
- Clarifies that ballot type or precinct subtotals in a race or question having fewer than 30 voters voting on the ballot type or in the precinct may not be reported in the precinct results.
- Clarifies that when there is vacancy for United States Representative, state senator, state representative, state attorney, or public defender, the state party chair must call a meeting of state executive committee members residing in the affected county or counties.
- Imposes requirements before a state or county agency may settle, consent to any order, consent to any condition, or agree to any order in a settlement or other legal proceeding.
- Removes references to signature verification being compared with "most recent" signature on file, and instead provides a signature can only be compared with a signature from the preceding 4 years or the most recent wet signature.
- Adds a no-solicitation zone within 150 feet of all drop box sites.
- Provides that observers watching the duplication process must be allowed in close enough proximity to see the markings on each ballot and the duplication process taking place.
- Requires the duplication process to happen in the presence of at least one canvassing board member.
- Removes provisions that required images of all duplicates to be made, and provision that required duplicates to be on different colored paper than the original ballot.
- Extends definition of immediate family member to include a grandchild.

- Removes section of statute that required residence address to be printed on vote-by-mail ballot envelopes.
- Maintains current statutory language allowing a vote-by-mail ballot to be delivered to a designee up to 9 days prior to Election Day.
- Removed section in bill that required all signatures to be scanned and posted on a secure password protected website.
- Provides that no signature verifier may have knowledge of the political affiliation of a voter when they are conducting the signature matching process.
- Removes portions in current law that allow a law enforcement officer to physically man a drop box.
- Requires all drop box locations to be designated no less than 30 days before an election. Once a drop box location is set, it cannot be moved or changed. The supervisors must give notice to the Division of the drop box location no less than 30 days before an election.
- Allows a designee to return a vote-by-mail ballot for another elector so long as they have a written designation, and the designation is attached to each mailing envelope when dropping off the ballot.
- Allows a person to carry the ballot belonging to an immediate family member so long as they have a designation, and up to two ballots per election of a person other than an immediate family member provided they have a written designation.
- Makes it a first degree misdemeanor to possess the ballot of another other than one they have been designated to carry.
- Provides that an elector dropping their ballot off at a drop box without identification may drop off the ballot so long as they sign an attestation affirming they are the voter whose ballot they are dropping off.
- Requires supervisors and the Division to make copies of the declarations and attestations easily available to voters.
- Makes it a third degree felony to falsify a declaration or attestation.
- Defines solicitation to include engaging in any activity with the intent or effect of influencing a voter.
- Exempts commissioners in Miami-Dade County and other counties where the charter limits the terms of a commissioner from having to run again after a decennial redistricting.

This analysis is drafted to the committee substitute as passed by the Appropriations Committee.
