s. 101.657(1). Drop boxes must be geographically located so as to provide all voters in the county with an equal opportunity to cast a ballot, insofar as is practicable. Except for secure drop boxes located at an office of the supervisor, any other secure drop box may only be used during the county’s early voting hours of operation and, provided, however, that any such site must be staffed during the county’s early voting hours of operation by
an employee of the supervisor’s office or a sworn law
enforcement officer. A secure drop box at a supervisor’s office
must be continuously monitored in person by an employee of the
supervisor during regular business hours. During other hours, a
secure drop box at an office of the supervisor may only be
accessed if it is secure from tampering and monitored by video
surveillance. The supervisor must keep recordings of video
surveillance of such secure drop boxes and provide a copy to any
candidate or political party representative who submits a
written request for such recordings within 24 hours after
receipt of the request.

(b) A supervisor shall designate each drop box site at
least 30 days before an election. The supervisor shall provide
the address of each drop box location to the division at least
30 days before an election. After a drop box location has been
designated, it may not be moved or changed except as approved by
the division in order to correct a violation of this subsection.

And the title is amended as follows:
