The Committee on Rules (Brandes) recommended the following:

Senate Amendment to Amendment (262784) (with directory and title amendments)

Between lines 60 and 61

(b) The division shall conduct a comprehensive risk assessment of the online voter registration system before making the system publicly available and every 2 years thereafter. The comprehensive risk assessment must comply with the risk assessment methodology developed by the Department of Management Services for identifying security risks, determining the...
magnitude of such risks, and identifying areas that require safeguards. In addition, the comprehensive risk assessment must incorporate all of the following:

1. Load testing and stress testing to ensure that the online voter registration system has sufficient capacity to accommodate foreseeable use, including during periods of high volume of website users in the week immediately preceding the book-closing deadline for an election.

2. Screening of computers and networks used to support the online voter registration system for malware and other vulnerabilities.

3. Evaluation of database infrastructure, including software and operating systems, in order to fortify defenses against cyberattacks.

4. Identification of any anticipated threats to the security and integrity of data collected, maintained, received, or transmitted by the online voter registration system.
