House

---

The Committee on Environment and Natural Resources (Brodeur) recommended the following:

**Senate Amendment (with title amendment)**

Delete lines 25 - 41

and insert:

might be achieved by efforts to remove accumulated sediments by appropriate means, restore the natural river channel, remove invasive plants, and implement protective measures. The report must include an estimated cost for each improvement and potential funding sources. Local or state agencies or their contractors may conduct restoration efforts during the study

11 period. The department and the water management district shall  
12 immediately review any permits north of SR 436 where the Little  
13 Wekiva River is identified as the "receiving waters" to assess  
14 whether any permittee is in violation of any permit conditions,  
15 take appropriate action to resolve any compliance issues, and  
16 remediate any impacts related to sedimentation in the Little  
17 Wekiva River and its adjacent wetland habitat. If a permittee or  
18 their contractors are found to be in violation of any permit  
19 condition associated with a project that has had an accumulation  
20 of sediments or has been found to have caused ecological harm to  
21 the Little Wekiva River, the permitting agencies shall levy all  
22 finances authorized by law commensurate with restoration costs.

25 And the title is amended as follows:

26 Delete lines 9 - 13  
27 and insert:

28 the Little Wekiva River by a specified date; providing  
29 requirements for the report; authorizing local and  
30 state entities or their contractors to conduct  
31 restoration efforts during the study period; requiring  
32 the department and the water management district to  
33 review certain permits along the Little Wekiva River;  
34 requiring certain enforcement actions to be taken for  
35 permittees found to not be in compliance; providing an
