SkillBridge Program

In 2021, the Legislature directed Veterans Florida, through the Veterans Employment and Training Services Program, to serve as the state's principal assistance organization under the Department of Defense (DoD) SkillBridge program.¹⁴ The DoD SkillBridge program grants servicemembers¹⁵ an opportunity to "gain valuable civilian work experience through specific industry training, apprenticeships, or internships" by matching civilian opportunities to a servicemember's job training and work experience.¹⁶ The goal of providing these opportunities is to enhance the servicemember's marketability and post-separation career prospects following separation from duty.¹⁷ Any rank, enlisted person, or officer may apply. Military spouses and veterans may also participate on a space available basis; however, the DoD will not provide pay, allowances, benefits, or other program support to the military spouse or veteran.¹⁸

Under the SkillBridge program, the servicemember is permitted to use up to the last 180 days of service to train and learn with an industry partner that best matches that applicant's job training and work experience. The training must offer the servicemember a high probability of employment. Throughout the SkillBridge program partnership, the servicemember continues to receive military compensation and benefits. Eligibility for the SkillBridge program is mission-dependent and must be authorized by the unit commander prior to entering into any agreement with interested industry employment partners.¹⁹
