Senator Berman moved the following:

**Senate Amendment (with directory and title amendments)**

Between lines 224 and 225  
insert:

(3) CONSENT ~~CONSENTS~~ REQUIRED.—Except in the case of a medical emergency as provided in paragraph (b), a termination of pregnancy may not be performed or induced except with the voluntary and informed written consent of the pregnant woman or, in the case of a mental incompetent, the voluntary and informed written consent of her court-appointed guardian.

(a) ~~Except in the case of a medical emergency,~~ Consent to a

395128

termination of pregnancy is voluntary and informed only if:

1. The physician who is to perform the procedure, or the referring physician, has, at a minimum, orally, while physically present in the same room, ~~and at least 24 hours before the procedure,~~ informed the woman of:

a. The nature and risks of undergoing or not undergoing the proposed procedure that a reasonable patient would consider material to making a knowing and willful decision of whether to terminate a pregnancy.

b. The probable gestational age of the fetus, verified by an ultrasound, at the time the termination of pregnancy is to be performed.

(I) The ultrasound must be performed by the physician who is to perform the abortion or by a person having documented evidence that he or she has completed a course in the operation of ultrasound equipment as prescribed by rule and who is working in conjunction with the physician.

(II) The person performing the ultrasound must offer the woman the opportunity to view the live ultrasound images and hear an explanation of them. If the woman accepts the opportunity to view the images and hear the explanation, a physician or a registered nurse, licensed practical nurse, advanced practice registered nurse, or physician assistant working in conjunction with the physician must contemporaneously review and explain the images to the woman before the woman gives informed consent to having an abortion procedure performed.

(III) The woman has a right to decline to view and hear the explanation of the live ultrasound images after she is informed

395128

of her right and offered an opportunity to view the images and hear the explanation. If the woman declines, the woman shall complete a form acknowledging that she was offered an opportunity to view and hear the explanation of the images but that she declined that opportunity. The form must also indicate that the woman's decision was not based on any undue influence from any person to discourage her from viewing the images or hearing the explanation and that she declined of her own free will.

(IV) Unless requested by the woman, the person performing the ultrasound may not offer the opportunity to view the images and hear the explanation and the explanation may not be given if, at the time the woman schedules or arrives for her appointment to obtain an abortion, a copy of a restraining order, police report, medical record, or other court order or documentation is presented which provides evidence that the woman is obtaining the abortion because the woman is a victim of rape, incest, domestic violence, or human trafficking or that the woman has been diagnosed as having a condition that, on the basis of a physician's good faith clinical judgment, would create a serious risk of substantial and irreversible impairment of a major bodily function if the woman delayed terminating her pregnancy.

c. The medical risks to the woman and fetus of carrying the pregnancy to term.

~~The physician may provide the information required in this subparagraph within 24 hours before the procedure if requested by the woman at the time she schedules or arrives for her~~

395128

~~appointment to obtain an abortion and if she presents to the physician a copy of a restraining order, police report, medical record, or other court order or documentation evidencing that she is obtaining the abortion because she is a victim of rape, incest, domestic violence, or human trafficking.~~

2. Printed materials prepared and provided by the department have been provided to the pregnant woman, if she chooses to view these materials, including:

a. A description of the fetus, including a description of the various stages of development.

b. A list of entities that offer alternatives to terminating the pregnancy.

c. Detailed information on the availability of medical assistance benefits for prenatal care, childbirth, and neonatal care.

3. The woman acknowledges in writing, before the termination of pregnancy, that the information required to be provided under this subsection has been provided.

Nothing in this paragraph is intended to prohibit a physician from providing any additional information which the physician deems material to the woman's informed decision to terminate her pregnancy.

(b) If a medical emergency exists and a physician cannot comply with the requirements for informed consent, a physician may terminate a pregnancy if he or she has obtained at least one corroborative medical opinion attesting to the medical necessity for emergency medical procedures and to the fact that to a reasonable degree of medical certainty the continuation of the

395128

pregnancy would threaten the life of the pregnant woman. If a second physician is not available for a corroborating opinion, the physician may proceed but shall document reasons for the medical necessity in the patient's medical records.

(c) Violation of this subsection by a physician constitutes grounds for disciplinary action under s. 458.331 or s. 459.015. Substantial compliance or reasonable belief that complying with the requirements of informed consent would threaten the life or health of the patient is a defense to any action brought under this paragraph.
