SUMMARY ANALYSIS

The bill conforms law to the appropriations provided in HB 5001, the House General Appropriations Act for Fiscal Year 2023-2024 for prekindergarten through grade 12 education. Specifically, the bill:

- Conforms the calculation methodology for funding in the Florida Education Finance Program (FEFP) for the Florida Virtual School and the developmental research schools to changes made by the bill.
- Requires the Department of Education (DOE) to report, as part of the determination of full-time equivalent (FTE) membership, all students who are receiving a Family Empowerment Scholarship (FES) for funding in the FEFP.
- Conforms the calculation methodology for the scholarships awarded for the FES program to the changes made by the bill.
- Repeals the enrollment ceiling on the Group 2 education programs to include: (a) Exceptional Student Education (ESE) Support Level IV; (b) ESE Support Level V; (c) English for Speakers of Other Languages (ESOL); and (d) Secondary Career Education.
- Renames the district cost differential (DCD) to the comparable wage factor (CWF) and modifies its application by authorizing the use of the CWF in the calculation of the base FEFP funding only when a school district's CWF is greater than 1.000.
- Repeals the following FEFP categoricals:
  - Funding Compression and Hold Harmless;
  - Sparsity Supplement; and
  - Turnaround Supplemental Services Allocation.
- Repeals the following FEFP categoricals but retains the underlying funding policies:
  - Instructional Materials;
  - Mental Health Assistance Allocation;
  - Reading Instruction Allocation; and
  - Safe Schools Allocation.
- Repeals the Teacher Salary Increase Allocation but retains the requirement of $47,500 as the minimum base salary for full-time classroom teachers.
- Deletes the inclusion of the Teacher Classroom Supply Assistance categorical in the FEFP and modifies the underlying funding policy.
- Retains the DJJ Supplement Allocation and modifies the eligible uses of the categorical to include uses previously only included in proviso in the General Appropriations Act.
- Retains the ESE Guaranteed Allocation and establishes a calculation methodology in law.
- Retains the State-Funded Discretionary Contribution for the Florida Virtual School and the developmental research schools and modifies the calculation methodology of the contribution.
- Renames the Supplemental Academic Instruction categorical the Supplemental Academic and Support Services categorical and modifies its eligible uses to include the uses previously included in the Turnaround Supplemental Services Allocation.
- Creates the State-Funded Discretionary Supplement and establishes its calculation methodology.
- Requires the DOE to provide a one-time, sign-on bonus to honorably discharged and retired military veterans and retired first responders who commit to joining the teaching profession as full-time classroom teachers.

The bill provides for an effective date of July 1, 2023.

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Florida Education Finance Program

Present Situation

The FEFP is the state’s formula to appropriate funds to school districts for kindergarten through grade 12 public school operations, which includes charter schools, and to fund the Family Empowerment Scholarship (FES) program. The FEFP is composed of state and local revenues and takes into account various factors such as the individual educational needs of students, the local property tax base, the costs of educational programs, district cost differentials, and sparsity of student population.1

State FEFP revenues are derived from the following three sources:2

- General Revenue Fund – comprised of several state taxes and selected fees; the state’s sales tax is the primary source of general revenue.
- Educational Enhancement Trust Fund (EETF) – comprised of the net proceeds from the Florida Lottery and the tax proceeds on slot machines in Broward and Miami-Dade counties.
- State School Trust Fund (SSTF) – comprised of revenue from unclaimed property that has escheated to the state.

Local FEFP revenue is derived almost entirely from property taxes levied by Florida’s 67 counties, each of which constitutes a school district. To participate in the state allocation of FEFP funds, a school district must levy the millage rate set for its required local effort (RLE) from property taxes.3 The Legislature sets the aggregate RLE amount in the General Appropriations Act (GAA). Each school district’s share of this amount is based on the school district’s certified property tax valuations, and each school district’s required millage rate as established by the Commissioner of Education (commissioner).4

In addition to the RLE millage, each school district is authorized to levy a nonvoted current operating discretionary millage.5 The Legislature annually prescribes in the GAA the maximum amount of millage a school may levy.6 For Fiscal Year 2022-2023, the Legislature prescribed 0.748 as the maximum millage rate.7

The DOE is required to distribute state FEFP funds to school districts on or about the 10th and 26th of each month.8 For purposes of this distribution, the FEFP is calculated five times throughout the year as follows:9

- 1st Calculation (also referred to as the conference calculation) is completed by the Legislature and used to fund the FEFP in the GAA. The July 10th FEFP distribution is based on this calculation.
- 2nd Calculation is completed upon receipt of the certified tax roll from the Department of Revenue. The July 26th through January FEFP distributions are based on this calculation.
- 3rd Calculation is completed upon receipt of school districts’ October FTE membership survey. The January through April FEFP distributions are based on this calculation.
- 4th Calculation is completed upon receipt of school districts’ February FTE membership survey. The April through June FEFP distributions are based on this calculation.

In addition to the 67 school districts, the Florida Virtual School\(^{10}\) and the state’s developmental research (laboratory) schools\(^{11}\) are funded in the FEFP.

The FEFP is comprised of two main parts: (a) base FEFP funding and (b) categoricals.

The base FEFP funding is derived by multiplying the FTE in each program by the: (a) cost factor for that program, (b) district cost differential, and (c) base student allocation.\(^{12}\)

Program cost factors assure that each program funded in the FEFP receives an equitable share of funds in relation to its relative cost per student.\(^{13}\) Through the annual cost report, school districts report the expenditures for each program.\(^{14}\) Multiplying the number of FTE students for a program by its cost factor produces “weighted FTE.” This calculation weights the FTE to reflect the relative costs of the programs, as represented by the program cost factors.\(^{15}\)

The commissioner is required to annually compute the DCD for each school district.\(^{16}\) The DCD is used to increase or decrease each school district’s base FEFP funding to reflect the relative cost of hiring comparably qualified school personnel across Florida’s school districts. To calculate the DCD, the Florida Price Level Index is used which is a comparable wage index. The calculation is based on wage data for hundreds of occupations across Florida’s 67 counties collected by the Florida Department of Economic Opportunity’s Bureau of Labor Market Statistics as part of the U.S. Bureau of Labor Statistics’ Occupational Employment Statistics survey.\(^{17}\)

The base student allocation (BSA) for the FEFP is determined annually by the Legislature\(^{18}\) and represents the “base” or minimum amount of funds each student generates for the school district. For the Fiscal Year 2022-2023 FEFP, the BSA is $4,587.40.\(^{19}\)

Based on the 3\(^{rd}\) calculation of the Fiscal Year 2022-2023 FEFP, the total base FEFP funding is $15.0 billion.

The second main part of the FEFP is referred to as categoricals which are individual allocations provided in the FEFP. There are two types of categoricals:

- Categoricals that have either a district- or student-eligibility requirement in order for the school district to receive the funds.
- Categoricals that have a statutorily-established funding policy that directs how the funds must be used.

There are 17 categoricals funded in the Fiscal Year 2022-2023 FEFP.\(^{20}\) The following chart lists the nine categoricals that have either a district- or student-eligibility requirement:

</tbody>
</table>

Based on the 3rd calculation of the Fiscal Year 2022-2023 FEFP, the total amount for these eight categoricals is $5.2 billion.

Effect of the Bill

The bill renames the DCD as the comparable wage factor (CWF) and modifies its application by authorizing the use of the CWF in the calculation of the base FEFP funding only when a school district's CWF is greater than 1.000. The bill also authorizes the application of the modified adjustment to any categorical provided in the FEFP that has a calculation methodology that includes the CWF.

The bill makes the following changes to the categoricals currently funded in the FEFP:

**Group Two Education Programs**

---

These eligible uses have previously been included in proviso associated with the DJJ Supplement Allocation.
Present Situation

There are seven education programs for purposes of determining funding in the FEFP:24

- **(1) Basic Programs:**
  - Kindergarten and Grades 1 – 3.
  - Grades 4 – 8.
  - Grades 9 – 12.

- **(2) Programs for Exceptional Student Education (ESE):**
  - Support Level IV.
  - Support Level V.

- **(3) Secondary Career Education Programs.**

- **(4) English for Speakers of Other Languages (ESOL).**

As part of its calculation of each school district’s maximum total weighted FTE student enrollment, current law establishes separate enrollment ceilings for each of the two program groups:25

- **Group 1** – is comprised of basic programs for grades K - 3, grades 4 - 8 and grades 9 – 12.
- **Group 2** – is comprised of students in ESE programs Support Levels IV and V, ESOL, and secondary career education programs.

For any calculation of the FEFP, the enrollment ceiling for Group 1 is the actual enrollment for each education program in the program group multiplied by its appropriate program cost factor.26 The result is that there is no “cap” for Group 1 FTE.

However, the enrollment ceiling for Group 2 programs is established based on each school district’s appropriated number of FTE in each program. For purposes of funding in the FEFP, the appropriated FTE in each education program is multiplied by the program’s cost factor and the resulting weighted FTE, aggregated by the program group, is the Group 2 ceiling. After actual FTE is reported in subsequent FTE surveys, Group 2 FTE in excess of the enrollment ceiling receive a program cost factor of 1.0. A statewide “cap” of 385,530.20 weighted FTE was set for the Group 2 enrollment ceiling for Fiscal Year 2022-2023.27

Effect of the Bill

The bill repeals the statutory requirement that the Group 2 ceiling is set at the appropriated number of Group 2 FTE.

Family Empowerment Scholarship Program

Present Situation

The Family Empowerment Scholarship (FES) program provides children of families in Florida with educational options to achieve success in their education, including children of families with limited financial resources, children of law enforcement and military families, and children with disabilities.28 The FES program includes two types of scholarships with one assisting eligible students to pay for the tuition and fees associated with attendance at a private school or transportation to another public school (FES-Educational Options or EO), and the other providing access to additional education options for a students with a qualifying disability by covering the cost of a variety of approved items.

including: contracted services, curriculum, instructional materials, tutoring, specified education programs and specialized services (FES-Unique Abilities or UA). Each type of scholarship has certain student eligibility requirements, program requirements, award calculation methodologies, and allowable expenditures.

FES-EO Eligibility

A student is eligible for a scholarship to attend private school if the student meets the following criteria:

- The student is on the direct certification list (list of children who qualify for the food assistance program, the Temporary Assistance to Needy Families Program, or the Food Distribution on Indian Reservations program) or the student’s household income level does not exceed 185 percent of the federal poverty level (FPL) ($51,337.50 for a family of four) for the 2022-2023 school year;
- The student is currently placed, or during the previous state fiscal year was placed, in foster care or in out-of-home care;
- The student’s household income level does not exceed an adjusted maximum percent of the FPL, which is set at 400 percent of the FPL ($111,000 for a family of four) for the 2022-2023 school year;
- The student is a sibling of a student who is participating in the FES-EO and the siblings reside in the same household;
- The student is a dependent child of a member of the United States Armed Forces, including a reservist, or
- The student is a dependent child of a law enforcement officer.

The FES-EO eligibility continues for a student receiving a scholarship to attend private school until the student returns to a public school, graduates from high school, or turns 21 years old, whichever occurs first, regardless if the student’s household income exceeds the federal poverty level cap in subsequent years.

FES-EO Scholarship Amount

The FES-EO scholarship program is funded through the FEFP with a scholarship awarded by a scholarship-funding organization (SFO). The amount of the scholarship is either the calculated amount or the amount of the private school’s tuition and fees, whichever is less. The calculated amount is based upon the grade level and school district in which the scholarship student was assigned. The amount is equal to 100 percent of the funds per unweighted FTE in the FEFP for a student in the basic program plus a per-FTE share of all categorical funds, except for the ESE

The Gardiner Scholarship was repealed effective July 1, 2021, s. 2, ch. 2021-27, Laws of Florida. The McKay Scholarship was repealed effective July 1, 2022, s. 3, ch. 2021-27, Laws of Florida.

The Federal Poverty Level may be increased by 25 percentage points in the fiscal year following a fiscal year in which more than 5 percent of the allowable scholarships have not been funded. The eligibility for the 2021-2022 school year was set at 375 percent of the FPL.

37 Section 1002.394(8)(a)2., (11)(a)1., (11)(b)1., and (12)(a), Florida Statutes. The Department of Education must notify the SFO that scholarships may not be awarded in a school district in which the scholarship award will exceed 99 percent of the school district’s share of the state FEFP funds as calculated by the department. Section 1002.394(8)(a)13., Florida Statutes.
Guaranteed Allocation, as funded in the General Appropriations Act (GAA). The DOE determines the calculated amount of the scholarship, by grade level, per school district and cross-checks scholarship students with public school enrollment to avoid duplication.

Upon receiving documentation which verifies a student’s participation in the scholarship from the SFO, the DOE must transfer scholarship funds to the SFO for disbursement to parents of participating FES-EO students. Initial scholarship payments are made after the SFO verifies the student’s admission acceptance to an eligible private school, with all subsequent scholarship payments occurring upon verification of continued enrollment and attendance at the private school.

Upon completion of the FTE membership surveys, the calculated amount of the scholarship is not recalculated when the FEFP is recalculated; rather the calculated scholarship amount is based upon the 1st calculation (GAA conference report) of the FEFP and is continued throughout the fiscal year.

**FES-EO Scholarships Funded**

For the 2019-2020 school year, a maximum program capacity for FES-EO scholarships was established at 18,000 students. Beginning in Fiscal Year 2020-2021, the maximum number of students participating in the scholarship program increases by one percent of the state’s total kindergarten through grade 12 FTE student membership each year. Beginning with Fiscal Year 2021-2022, the following types of students are excluded from counting against the maximum program cap:
- Students who are a dependent child of a law enforcement officer or a member of the United States Armed Forces, a foster child, or an adopted child; or
- Students who meet the eligibility requirements of being on the direct certification list or meet household income requirements or students placed in foster care or out-of-home care and either spent the prior school year in attendance at a Florida public school, or beginning in Fiscal Year 2022-2023, is eligible to enroll in kindergarten.

FES-UA Scholarship Amount

The FES-UA scholarship program is also funded through the FEFP with a scholarship awarded by a SFO. For a student who has a Level I to Level III matrix of services or a diagnosis by a physician or psychologist, the calculated scholarship amount must be based on the grade level and school district in which the student would have been enrolled. The amount is equal to the total funds per unweighted FTE in the FEFP for a student in the basic exceptional student education program plus a per-FTE share of all categorical funds as funded in the GAA, except that for the ESE guaranteed allocation, the funds must be allocated based on the school district’s average ESE guaranteed allocation funds per ESE full-time equivalent student.\(^{45}\)

For a student with a Support Level IV or Support Level V matrix of services, the calculated amount must be based upon the school district to which the student would have been assigned as the total funds per FTE for the Level IV or Level V ESE program, plus a per-FTE share of all categorical funds as funded in the GAA.\(^{46}\)

For a student who received a Gardiner Scholarship or a John M. McKay Scholarship in the 2020-2021 school year, the amount shall be the greater of the calculated amount or the amount the student received for the 2020-2021 school year.\(^{47}\)

FES-UA Scholarships Funded

For the 2021-2022 school year, a maximum program capacity for FES-UA scholarships was established at 20,000 students. For the 2022-2023 school year, the maximum number of FES-UA scholarships is established at 26,500 students.\(^{48}\) Beginning with the 2023-2024 school year, and annually thereafter, the maximum number of students participating in the scholarship program annually increases by one percent of the state’s total exceptional student education full-time equivalent student membership, not including gifted students.\(^{49}\)

The maximum program capacity does not include the following students who are excluded:\(^{50}\)

• Students who received specialized instructional services under the Voluntary Prekindergarten Education Program during the previous school year;
• Students who are a dependent child of a law enforcement officer or a member of the United States Armed Forces, a foster child, or an adopted child; or
• Students who spent the prior school year in attendance at a Florida public school or received a McKay Scholarship in the 2021-2022 school year.

**Funding Family Empowerment Scholarships in the FEFP**

For both the FES-EO and FES-UA scholarships, the SFO must provide to the DOE the documentation necessary to verify the student’s eligible participation in the scholarship program.  

For the FES-EO scholarship program, the DOE transfers, from state FEFP funds only, the amount of the scholarship to the SFO for quarterly disbursement to parents of participating students each school year in which the scholarship is in force. When a student enters the scholarship program, the SFO must receive all documentation required for the student’s participation, including the private school’s and the student’s fee schedule, at least 30 days before the first quarterly scholarship payment is made for the student.

For the FES-UA scholarship program, the DOE releases, from state FEFP funds only, the student’s scholarship funds to the SFO, to be deposited into the student’s account in four equal amounts no later than September 1, November 1, February 1, and April 1 of each school year in which the scholarship is in force.

**Effect of the Bill**

The bill amends the calculation methodology of both the FES-EO and FES-UA scholarships as follows:

- For the FES-EO scholarships, the calculated amount is based upon the grade level and school district in which the student was assigned as 100 percent of the funds per unweighted FTE in the FEFP for a student in the basic program established pursuant to s. 1011.62(1)(c)1., F.S., plus a per FTE share of funds for the 0.748 Discretionary Millage Compression Supplement, State-Funded Discretionary Supplement, and the Supplemental Academic and Support Services Allocation.
  - For a student who has a Level I to Level III matrix of services or a diagnosis by a physician or psychologist, the calculated FES-UA scholarship amount is based upon the grade level and school district in which the student would have been enrolled as the total funds per unweighted FTE in the FEFP for a student in the basic exceptional student education program pursuant to s. 1011.62(1)(c) and (d), F.S., plus a per-FTE share of funds for the 0.748 Discretionary Millage Compression Supplement, the State-Funded Discretionary Supplement, the Supplemental Academic and Support Services Allocation, and the ESE Guaranteed Allocation.
  - For a student who has a Support Level IV or Support Level V matrix of services, the calculated FES-UA scholarship amount is based upon the school district to which the student would have been assigned as the total funds per-FTE for the Level IV or Level V exceptional student education programs pursuant to s. 1011.62(1)(c)2.a.b., F.S., plus a per-FTE share of funds for the 0.748 Discretionary Millage Compression Supplement, the State-Funded Discretionary Supplement, and the Supplemental Academic and Support Services Allocation.

**Other**

51 The John M. McKay Scholarship for Students with Disabilities Program and the Gardiner Scholarship Program were previously offered as two separate scholarships for students with disabilities before the programs were consolidated under the FES-UA. The Gardiner Scholarship Program was repealed effective July 1, 2021, s. 2, ch. 2021-27, Laws of Florida. The John M. McKay Scholarship Program was repealed effective July 1, 2022, s. 3, ch. 2021-27, Laws of Florida.

Recruitment of Heroes Program

Subject to legislative appropriation, the bill requires the DOE to provide a one-time, sign-on bonus to honorably discharged or retired military veterans and retired first responders as defined in s. 112.1815(1), F.S., who commit to joining the teaching profession as full-time classroom teachers. An honorably discharged or retired military veteran or retired first responder may receive an additional bonus for teaching a course in a high-demand teacher need area as identified by the DOE.

To be eligible to receive a sign-on bonus, the bill requires the applicant to provide the following to the DOE:

- Documentation of his or her honorable discharge or retirement.
- Documentation that he or she was not subject to any disciplinary action during the last 5 years of his or her employment as a servicemember in the United States Armed Forces or as a first responder. The term “disciplinary action” includes suspensions, dismissals, and involuntary demotions that were associated with disciplinary actions.
- A copy of his or her professional certificate or temporary certificate issues pursuant to s. 1012.56(7), F.S.
- Documentation that he or she agrees to maintain employment with the school district or charter school for a minimum of two consecutive school years upon receipt of the sign-on bonus. An individual who accepts a sign-on bonus but fails to maintain his or her employment requirement must reimburse the DOE to amount of the sign-on bonus in a manner prescribed by the DOE.

The bill assigns responsibilities to the DOE for purposes of distributing the sign-on bonuses.

A school district that employs an eligible honorably discharged or retired military veteran or retired first responder must provide any necessary information requested by the DOE and notify the eligible honorably discharged or retired military veteran or retired first responder that employment may impact his or her pension from a previous employer.

The bill authorizes the State Board of Education to adopt rules to implement the sign-on bonus program.
