SUMMARY

Effect of the Bill:

The bill requires that if a school district receives revenues from a local government infrastructure surtax, the school district must share those revenues with eligible charter schools. The bill requires a charter school sponsor to use the standard monitoring tool for reviewing a charter school's progress toward its goals. The bill allows an approved state university or state college to sponsor a School of Hope.

Fiscal or Economic Impact:

There is an indeterminate fiscal impact to the Florida Education Finance Program based upon authorizing a state university or state college to sponsor a School of Hope.

[JUMP TO](#)

[SUMMARY](#)

[ANALYSIS](#)

[RELEVANT INFORMATION](#)

[BILL HISTORY](#)

ANALYSIS

EFFECT OF THE BILL:

The bill requires any interlocal agreement for the distribution of [local government infrastructure surtax](#) revenues that includes a school district must require the surtax revenues allocated to the school district to be shared with eligible charter schools based on the charter school's proportionate share of the total school district enrollment. Surtax revenues must be expended by a charter school consistent with the allowable uses for charter school capital outlay funds.¹ The bill requires that if a school's charter is not renewed or is terminated and the school is dissolved, any unencumbered funds received from such a surtax must be returned to the charter school's sponsor. The bill provides that the requirement that revenues from such a surtax are shared with eligible charter schools applies to levies authorized on or after July 1, 2025. (Sections [1](#) and [2](#)).

The bill requires a charter school sponsor to use the Department of Education (DOE)-developed [standard monitoring tool](#) to monitor and review the school in its progress toward the goals established in the charter. (Section [3](#)).

The bill authorizes that in addition to a school district, a state university or state college may serve as the sponsoring entity for a [School of Hope](#) if it has been approved by the DOE, solicited applications, and accepted a notice of intent for a School of Hope. (Section [4](#)).

The effective date of the bill is July 1, 2025. (Section [5](#)).

RULEMAKING:

Current law requires the State Board of Education (SBE) to adopt rules regarding the charter school standard monitoring tool and Schools of Hope. The bill modifies provisions of law already under the SBE's rulemaking authority, thus allowing the SBE to make rules to implement the bill.

¹ Section [1013.62\(4\), F.S.](#)

Lawmaking is a legislative power; however, the Legislature may delegate a portion of such power to executive branch agencies to create rules that have the force of law. To exercise this delegated power, an agency must have a grant of rulemaking authority and a law to implement.

FISCAL OR ECONOMIC IMPACT:

STATE GOVERNMENT:

The [Florida Education Finance Program](#) (FEFP) is funded with both state and local funds and for certain types of students in the FEFP, they are funded with state FEFP funds only; this includes students enrolled in a charter school sponsored by a state college or state university. Since the bill authorizes a state college or state university to sponsor a School of Hope, which is a charter school, these students would also be funded with only state FEFP funds. Since it is unknown the number of state colleges and state universities interested in sponsoring a School of Hope, the fiscal impact to the FEFP is indeterminate.

RELEVANT INFORMATION

SUBJECT OVERVIEW:

[Local Government Infrastructure Surtax](#)

Background

Counties have been granted limited authority to levy discretionary sales surtaxes for specific purposes on all transactions occurring in the county subject to the state sales tax in ch. 212, F.S.² A discretionary sales surtax is based on the rate in the county where the taxable goods or services are sold, or delivered into, and is levied in addition to the state sales and use tax of 6 percent. The surtax does not apply to the sales price above \$5,000 on any item of tangible personal property.³

There are nine discretionary sales surtaxes that serve as potential revenue sources for county and municipal governments and school districts. They are:⁴

- The charter county and regional transportation system surtax.
- The local government infrastructure surtax.
- The small county surtax.
- The indigent care and trauma center surtax.
- The county public hospital surtax.
- The school capital outlay surtax.
- The voter-approved indigent care surtax.
- The emergency fire rescue services and facilities surtax.
- The pension liability surtax.

Current rates range from 0.5% to 2.0%, and are levied by 65 of the 67 counties.⁵ Many of the levies have restrictions on what combination of taxes can be levied by a single county at one time.⁶

The Local Government Infrastructure Surtax

A county may levy a discretionary sales surtax of 0.5 percent or 1 percent pursuant to ordinance enacted by a majority of the members of the county and approved by a majority of the electors of the county voting in a referendum on the surtax.⁷ Surtax proceeds are distributed to the county and the municipalities within the county according to an interlocal agreement between the county governing authority and the governing bodies of the municipalities representing a majority of the county's municipal population. The agreement may include a school

² The tax rates, duration of the surtax, method of imposition, and proceed uses are individually specified in s. [212.055, F.S.](#) General limitations, administration, and collection procedures are set forth in s. [212.054, F.S.](#)

³ Section [212.054\(2\)\(b\), F.S.](#)

⁴ Section [212.055, F.S.](#)

⁵ Discretionary Sales Surtax Information for Calendar Year 2025, Form DR-15DSS, available at [dr15dss.pdf](#) (last visited Mar. 24, 2025).

⁶ See, e.g., s. [212.055\(4\)\(a\)6., F.S.](#), s. [212.055\(5\)\(f\), F.S.](#), and s. [212.055\(9\)\(g\), F.S.](#)

⁷ Section [212.055\(2\)\(a\)1., F.S.](#)

district with the consent of the county governing authority and the governing bodies of the municipalities.⁸ If there is no interlocal agreement, the proceeds are distributed according to the formula defined in statute.⁹

The proceeds of the surtax and any accrued interest must generally be expended only to:¹⁰

- Finance, plan, and construct infrastructure.
- Acquire land for public recreation, conservation, or protection of natural resources.
- Provide loans, grants, or rebates to residential or commercial property owners who make energy efficiency improvements to their residential or commercial property, if a local government ordinance authorizing the use is approved by referendum.
- Finance the closure of county-owned or municipally owned solid waste landfills that are closed or are required to be closed by order of the Department of Environmental Protection.

The term “infrastructure” includes any fixed capital expenditure or fixed capital outlay associated with the construction, reconstruction, or improvement of public facilities that have a life expectancy of five or more years, any related land acquisition, land improvement, design, and engineering costs, and all other professional and related costs required to bring the public facilities into service.¹¹

“Infrastructure” also includes instructional technology used solely in a school district’s classrooms. Instructional technology is defined as an interactive device that assists a teacher in instructing a class or a group of students. The hardware and software necessary to operate the interactive device and a support system in which an interactive device may mount are also included as authorized expenditures.¹²

This surtax is currently levied in 26 of 67 eligible counties.¹³

[Charter School Standard Monitoring Tool](#)

The DOE is required to provide information to the public, directly and through sponsors, on how to form and operate a charter school and how to enroll in a charter school once it is created. The information must include the standard application form, standard charter and virtual charter contracts, standard evaluation instrument, and standard charter and virtual charter renewal contracts.¹⁴ To fulfill these requirements, the DOE, after consulting with sponsors and charter school directors, must recommend that the SBE adopt rules to implement the forms. The rules must require minimum paperwork and must not limit charter school flexibility authorized by statute. The SBE must adopt rules to implement a standard charter application form, standard application form for the replication of charter schools in a high-performing charter school system, standard evaluation instrument, standard monitoring tool, and standard charter and charter renewal contracts.¹⁵ The requirement for the SBE to adopt rules to implement a standard monitoring tool for conducting annual site review of charter schools was passed by the Legislature in 2023, but the tool has not yet been developed.¹⁶

[Schools of Hope](#)

In 2017, the Legislature established the Schools of Hope Program to provide students in areas of persistently low-performing schools the opportunity to access a high-quality education designed to close the opportunity gap and increase student achievement.¹⁷ A school of hope is defined as a charter school operated by a hope operator to serve students from one or more persistently low-performing schools and students who reside in a Florida

Opportunity Zone;¹⁸ is located within a Florida Opportunity Zone or in the attendance zone of a persistently low-performing school or within a five mile radius of the school, whichever is greater; and is a Title I eligible school.¹⁹ A school of hope may also be a turnaround school operated by a hope operator.²⁰

A hope operator seeking to open a school of hope must submit a notice of intent to the school district in which a persistently low-performing school has been identified by the SBE or in which a Florida Opportunity Zone is located. A school district shall enter into a performance-based agreement with a hope operator to open schools to serve students from persistently low-performing schools and students residing in a Florida Opportunity Zone.²¹

Florida Education Finance Program (FEFP)

The FEFP is the state's funding model that is aligned with the state's school choice policy and appropriates funding to school districts for K-12 public school operations, including charter schools, and Family Empowerment Scholarship students. The FEFP is composed of state and local funds and considers various factors such as the individual educational needs of students, the local property tax base, the costs of educational programs, and a comparable wage factor and a small district factor.²²

Funding for students enrolled in a charter school sponsored by a state university or Florida College System institution, is provided in the FEFP and as specified in the General Appropriations Act.²³ The calculation to determine the amount of state FEFP funds only provided to such a student is defined in s. 1002.33(17)(b)2., F.S. Charter schools whose students or programs meet the eligibility criteria in law are entitled to their proportionate share of categorical program funds included in the total funds available in the FEFP.²⁴

RECENT LEGISLATION:

YEAR	BILL #	HOUSE SPONSOR(S)	SENATE SPONSOR	OTHER INFORMATION
2023	CS/CS/HB 443	Valdés	Burgess	Took effect on July 1, 2023.
2021	CS/CS/SB 1028	McClain	Diaz	Took effect on July 1, 2021, except as otherwise provided.

¹⁸ Section [1002.333\(1\)\(a\), F.S.](#) "Florida Opportunity Zone" means a population census tract that has been designated by the United States Department of the Treasury as a Qualified Opportunity Zone pursuant to s. 1400Z-1(b)(1)(B) of the Internal Revenue Code.
