ARTICLE XII

CONSTRUCTION AND SEVERABILITY

The compact must be liberally construed so as to carry out the purposes thereof. The provisions of the compact are severable, and if any phrase, clause, sentence, or provision of the compact is declared to be contrary to the constitution of any party member state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of the compact and the applicability thereof to any government, agency, person, or circumstance is not affected thereby. If the compact is held contrary to the constitution of any party member state, the compact remains in full force and effect as to the remaining party member states and in full force and effect as to the party member state affected as to all severable matters.
