

1 A bill to be entitled
2 An act relating to transportation; amending s. 212.20,
3 F.S.; requiring the Department of Revenue to make
4 monthly distributions from certain tax proceeds to the
5 State Transportation Trust Fund; providing for future
6 repeal; creating s. 218.3211, F.S.; requiring counties
7 to annually provide the Department of Transportation
8 with certain project data; providing requirements for
9 such data; providing duties of the department;
10 creating s. 320.0849, F.S.; requiring the Department
11 of Highway Safety and Motor Vehicles to issue
12 expectant mother parking permits; specifying the
13 validity period thereof; providing design requirements
14 for expectant mother parking permit placards or
15 decals; providing application requirements;
16 authorizing such permitholders to park in certain
17 spaces; amending s. 331.3051, F.S.; conforming
18 provisions to changes made by the act; amending s.
19 334.044, F.S.; revising conditions under which the
20 Department of Transportation may acquire property
21 through eminent domain; amending s. 334.065, F.S.;
22 revising membership of the Center for Urban
23 Transportation Research advisory board; creating s.
24 334.63, F.S.; providing requirements for certain
25 project concept studies and project development and

26 environmental studies; amending s. 337.11, F.S.;

27 specifying that certain contractors provide a service

28 to the department; revising advertisement requirements

29 for certain construction contracts; providing

30 competitive bidding and award requirements for

31 contracts for certain projects; providing

32 construction; revising requirements for requests for

33 proposals for design-build contracts; revising

34 requirements for selection and award of phased design-

35 build contracts; removing provisions relating to

36 design-build and phased design-build contracts and

37 construction; requiring contracts to contain

38 protection and indemnity coverage; amending s.

39 337.1101, F.S.; prohibiting the department from

40 creating a new contract that is not competitively

41 procured; amending s. 337.14, F.S.; authorizing the

42 department to waive certain requirements for push-

43 button or task work order contracts; revising the

44 amount of contracts for which the department may waive

45 bonding requirements; requiring a contractor seeking

46 to bid on a certain maintenance contract to possess

47 certain qualifications; amending s. 337.185, F.S.;

48 revising the amount of a contract that may be subject

49 to arbitration; revising the timeframe in which

50 arbitration requests must be made to the State

51 Arbitration Board; amending s. 337.19, F.S.; revising
52 the timeframe in which certain suits by and against
53 the department must commence; removing an obsolete
54 provision; amending s. 337.401, F.S.; requiring
55 certain underground utilities to be electronically
56 detectable by specified techniques; revising
57 requirements for the installation, removal, or
58 relocation of utilities; requiring the utility owner
59 to pay certain reasonable damages and reimburse
60 certain costs; defining the term "as-built plans";
61 requiring as-built plans to be submitted within a
62 certain timeframe with specific requirements;
63 requiring as-built plans to be submitted for
64 reimbursement of certain costs; amending s. 337.403,
65 F.S.; authorizing the department to reimburse a
66 portion of utility relocation costs under certain
67 circumstances; providing requirements for department
68 rules and procedures for engaging with utility owners;
69 requiring utility owners to submit utility relocation
70 schedules to the department; requiring the department
71 to grant an extension to the utility relocation
72 schedule during a state of emergency; authorizing the
73 department to give final notice if the utility owner
74 does not initiate work within a specified timeframe;
75 authorizing the department to withhold amounts due or

76 | exercise injunctive relief under certain
77 | circumstances; requiring a supplementary utility
78 | relocation schedule under certain circumstances;
79 | providing that the utility owner is liable to the
80 | department for certain damages; specifying utility
81 | relocation procedures; providing for mediation between
82 | the department and the utility owner; authorizing the
83 | department to develop certain mediation rules and
84 | procedures; amending s. 339.175, F.S.; revising
85 | legislative intent; revising requirements for the
86 | designation of additional M.P.O.'s; revising projects
87 | and strategies to be considered in developing an
88 | M.P.O.'s long-range transportation plan and
89 | transportation improvement program; removing obsolete
90 | provisions; requiring the department to convene
91 | M.P.O.'s of similar size to exchange best practices;
92 | authorizing such M.P.O.'s to develop committees or
93 | working groups; requiring training for new M.P.O.
94 | governing board members to be provided by the
95 | department or another specified entity; removing
96 | provisions relating to M.P.O. coordination mechanisms;
97 | including public-private partnerships in authorized
98 | financing techniques; revising proposed transportation
99 | enhancement activities that must be indicated by the
100 | long-range transportation plan; authorizing each

101 M.P.O. to execute a written agreement with the
102 department regarding state and federal transportation
103 planning requirements; requiring the department and
104 M.P.O.'s to establish certain quality performance
105 metrics and develop certain performance targets;
106 requiring the department to evaluate and post on its
107 website whether each M.P.O. has made significant
108 progress toward such targets; removing provisions
109 relating to the Metropolitan Planning Organization
110 Advisory Council; amending s. 339.65, F.S.; requiring
111 the department to prioritize certain Strategic
112 Intermodal System highway corridor projects; amending
113 s. 339.84, F.S.; authorizing the department to expend
114 certain funds for grants for the purchase of certain
115 equipment within a specified timeframe; providing
116 requirements for grant recipients; requiring the
117 department to give certain priority in awarding
118 grants; amending ss. 202.20, 331.310, and 610.106,
119 F.S.; conforming cross-references; providing
120 legislative findings regarding widening of a certain
121 roadway; requiring the department to develop and
122 submit to the Governor and Legislature a report with
123 certain specifications; requiring the department to
124 submit to the Governor and Legislature a report
125 regarding department districts; creating s. 332.135,

126 F.S.; providing definitions; providing construction;
127 requiring airport authorities to prepare and adopt an
128 airport master plan; requiring such plans to address
129 specified public facilities and services; requiring
130 such plans to make a specified determination;
131 requiring an airport authority to send such plan to
132 host local governments; requiring host local
133 governments to review such plan and provide comments
134 within a specified timeframe; requiring an airport
135 authority to advertise such review period and hold an
136 informal informational session for public
137 participation; requiring an airport authority to hold
138 a public hearing, after which it may adopt such plan;
139 requiring an airport authority to post the adopted
140 plan on its website and update such website at a
141 specified time; requiring an airport authority to
142 submit to a host local government a written request
143 for a determination of consistency with the host local
144 government comprehensive plan; requiring such host
145 local government to make such determination within a
146 specified timeframe; providing an assumption if such
147 host local government fails to make such
148 determination; providing that the airport master plan
149 may not conflict with the host local government
150 comprehensive plan; requiring notice to host local

151 governments for proposals to expand the boundaries of
152 the airport site; authorizing host local governments
153 to impose reasonable development standards and
154 conditions within the expanded area; providing that an
155 airport authority is the exclusive local enforcement
156 agency and has certain jurisdiction; creating s.
157 332.136, F.S.; establishing an airport pilot program
158 at the Sarasota Manatee Airport Authority; requiring
159 such authority to prepare and adopt an airport master
160 plan; requiring such plan to address specified public
161 facilities and services; requiring such plan to make a
162 specified determination; requiring such authority to
163 send such plan to host local governments; requiring
164 host local governments to review such plan and provide
165 comments within a specified timeframe; requiring such
166 authority to advertise the review period and hold an
167 informal informational session; requiring such
168 authority to hold a public hearing, after which it may
169 adopt such plan; requiring such authority to post the
170 adopted plan on its website and update such website at
171 a specified time; requiring such authority to submit
172 to a host local government a written request for a
173 determination of consistency with the host local
174 government comprehensive plan; requiring the host
175 local government to make such determination within a

176 specified timeframe; providing an assumption if the
 177 host local government fails to make such
 178 determination; providing that the airport master plan
 179 may not conflict with the host local government
 180 comprehensive plan; requiring notice to host local
 181 governments for proposals to expand the boundaries of
 182 the airport site; authorizing host local governments
 183 to impose reasonable development standards and
 184 conditions within such expanded area; providing that
 185 the SMAA is the exclusive local enforcement agency and
 186 has certain jurisdiction; requiring the Department of
 187 Transportation to adopt rules; requiring the
 188 department, by a specified date, to submit a report to
 189 the Governor and the Legislature for specified
 190 purposes; providing for repeal on a specified date;
 191 providing an effective date.

192

193 Be It Enacted by the Legislature of the State of Florida:

194

195 **Section 1. Paragraph (d) of subsection (6) of section**
 196 **212.20, Florida Statutes, is amended to read:**

197 212.20 Funds collected, disposition; additional powers of
 198 department; operational expense; refund of taxes adjudicated
 199 unconstitutionally collected.—

200 (6) Distribution of all proceeds under this chapter and

201 ss. 202.18(1)(b) and (2)(b) and 203.01(1)(a)3. is as follows:

202 (d) The proceeds of all other taxes and fees imposed
203 pursuant to this chapter or remitted pursuant to s. 202.18(1)(b)
204 and (2)(b) shall be distributed as follows:

205 1. In any fiscal year, the greater of \$500 million, minus
206 an amount equal to 4.6 percent of the proceeds of the taxes
207 collected pursuant to chapter 201, or 5.2 percent of all other
208 taxes and fees imposed pursuant to this chapter or remitted
209 pursuant to s. 202.18(1)(b) and (2)(b) shall be deposited in
210 monthly installments into the General Revenue Fund.

211 2. After the distribution under subparagraph 1., 8.9744
212 percent of the amount remitted by a sales tax dealer located
213 within a participating county pursuant to s. 218.61 shall be
214 transferred into the Local Government Half-cent Sales Tax
215 Clearing Trust Fund. Beginning July 1, 2003, the amount to be
216 transferred shall be reduced by 0.1 percent, and the department
217 shall distribute this amount to the Public Employees Relations
218 Commission Trust Fund less \$5,000 each month, which shall be
219 added to the amount calculated in subparagraph 3. and
220 distributed accordingly.

221 3. After the distribution under subparagraphs 1. and 2.,
222 0.0966 percent shall be transferred to the Local Government
223 Half-cent Sales Tax Clearing Trust Fund and distributed pursuant
224 to s. 218.65.

225 4. After the distributions under subparagraphs 1., 2., and

226 3., 2.0810 percent of the available proceeds shall be
 227 transferred monthly to the Revenue Sharing Trust Fund for
 228 Counties pursuant to s. 218.215.

229 5. After the distributions under subparagraphs 1., 2., and
 230 3., 1.3653 percent of the available proceeds shall be
 231 transferred monthly to the Revenue Sharing Trust Fund for
 232 Municipalities pursuant to s. 218.215. If the total revenue to
 233 be distributed pursuant to this subparagraph is at least as
 234 great as the amount due from the Revenue Sharing Trust Fund for
 235 Municipalities and the former Municipal Financial Assistance
 236 Trust Fund in state fiscal year 1999-2000, no municipality shall
 237 receive less than the amount due from the Revenue Sharing Trust
 238 Fund for Municipalities and the former Municipal Financial
 239 Assistance Trust Fund in state fiscal year 1999-2000. If the
 240 total proceeds to be distributed are less than the amount
 241 received in combination from the Revenue Sharing Trust Fund for
 242 Municipalities and the former Municipal Financial Assistance
 243 Trust Fund in state fiscal year 1999-2000, each municipality
 244 shall receive an amount proportionate to the amount it was due
 245 in state fiscal year 1999-2000.

246 6. Of the remaining proceeds:

247 a. In each fiscal year, the sum of \$29,915,500 shall be
 248 divided into as many equal parts as there are counties in the
 249 state, and one part shall be distributed to each county. The
 250 distribution among the several counties must begin each fiscal

251 year on or before January 5th and continue monthly for a total
252 of 4 months. If a local or special law required that any moneys
253 accruing to a county in fiscal year 1999-2000 under the then-
254 existing provisions of s. 550.135 be paid directly to the
255 district school board, special district, or a municipal
256 government, such payment must continue until the local or
257 special law is amended or repealed. The state covenants with
258 holders of bonds or other instruments of indebtedness issued by
259 local governments, special districts, or district school boards
260 before July 1, 2000, that it is not the intent of this
261 subparagraph to adversely affect the rights of those holders or
262 relieve local governments, special districts, or district school
263 boards of the duty to meet their obligations as a result of
264 previous pledges or assignments or trusts entered into which
265 obligated funds received from the distribution to county
266 governments under then-existing s. 550.135. This distribution
267 specifically is in lieu of funds distributed under s. 550.135
268 before July 1, 2000.

269 b. The department shall distribute \$166,667 monthly to
270 each applicant certified as a facility for a new or retained
271 professional sports franchise pursuant to s. 288.1162. Up to
272 \$41,667 shall be distributed monthly by the department to each
273 certified applicant as defined in s. 288.11621 for a facility
274 for a spring training franchise. However, not more than \$416,670
275 may be distributed monthly in the aggregate to all certified

276 applicants for facilities for spring training franchises.
277 Distributions begin 60 days after such certification and
278 continue for not more than 30 years, except as otherwise
279 provided in s. 288.11621. A certified applicant identified in
280 this sub-subparagraph may not receive more in distributions than
281 expended by the applicant for the public purposes provided in s.
282 288.1162(5) or s. 288.11621(3).

283 c. The department shall distribute up to \$83,333 monthly
284 to each certified applicant as defined in s. 288.11631 for a
285 facility used by a single spring training franchise, or up to
286 \$166,667 monthly to each certified applicant as defined in s.
287 288.11631 for a facility used by more than one spring training
288 franchise. Monthly distributions begin 60 days after such
289 certification or July 1, 2016, whichever is later, and continue
290 for not more than 20 years to each certified applicant as
291 defined in s. 288.11631 for a facility used by a single spring
292 training franchise or not more than 25 years to each certified
293 applicant as defined in s. 288.11631 for a facility used by more
294 than one spring training franchise. A certified applicant
295 identified in this sub-subparagraph may not receive more in
296 distributions than expended by the applicant for the public
297 purposes provided in s. 288.11631(3).

298 d. The department shall distribute \$15,333 monthly to the
299 State Transportation Trust Fund.

300 e.(I) On or before July 25, 2021, August 25, 2021, and

301 September 25, 2021, the department shall distribute \$324,533,334
302 in each of those months to the Unemployment Compensation Trust
303 Fund, less an adjustment for refunds issued from the General
304 Revenue Fund pursuant to s. 443.131(3)(e)3. before making the
305 distribution. The adjustments made by the department to the
306 total distributions shall be equal to the total refunds made
307 pursuant to s. 443.131(3)(e)3. If the amount of refunds to be
308 subtracted from any single distribution exceeds the
309 distribution, the department may not make that distribution and
310 must subtract the remaining balance from the next distribution.

311 (II) Beginning July 2022, and on or before the 25th day of
312 each month, the department shall distribute \$90 million monthly
313 to the Unemployment Compensation Trust Fund.

314 (III) If the ending balance of the Unemployment
315 Compensation Trust Fund exceeds \$4,071,519,600 on the last day
316 of any month, as determined from United States Department of the
317 Treasury data, the Office of Economic and Demographic Research
318 shall certify to the department that the ending balance of the
319 trust fund exceeds such amount.

320 (IV) This sub-subparagraph is repealed, and the department
321 shall end monthly distributions under sub-sub-subparagraph (II),
322 on the date the department receives certification under sub-sub-
323 subparagraph (III).

324 f. Beginning July 1, 2023, in each fiscal year, the
325 department shall distribute \$27.5 million to the Florida

326 Agricultural Promotional Campaign Trust Fund under s. 571.26,
327 for further distribution in accordance with s. 571.265.

328 g. Beginning October 1, 2025, and on or before the 25th
329 day of each month thereafter, the department shall distribute 6
330 cents per kilowatt hour of electricity used at public electric
331 vehicle charging stations to the State Transportation Trust Fund
332 from the proceeds of the tax imposed under s. 212.05(1)(e)1.c.
333 This sub-subparagraph is repealed June 20, 2030.

334 7. All other proceeds must remain in the General Revenue
335 Fund.

336 **Section 2. Section 218.3211, Florida Statutes, is created**
337 **to read:**

338 218.3211 County transportation project data.—Each county
339 must annually provide the Department of Transportation with
340 uniform project data. The data must conform to the county's
341 fiscal year and must include, but need not be limited to,
342 details on transportation revenues by source of taxes or fees,
343 expenditure of such revenues for projects that were funded, and
344 the unexpended balance of such revenues. The details of projects
345 must include, but need not be limited to, the cost, location,
346 and scope of each project. The scope of each project must be
347 categorized broadly, such as road widening, repair and
348 rehabilitation, addition of sidewalks, or any similarly broad
349 categorization. Revenues not dedicated to specific projects must
350 be detailed as to what programs the revenues are supporting. The

351 Department of Transportation must inform each county of the
352 method and format for submitting the data. The Department of
353 Transportation shall compile the data and publish the
354 compilation of data on its website.

355 **Section 3. Section 320.0849, Florida Statutes, is created**
356 **to read:**

357 320.0849 Expectant mother parking permits.—

358 (1) (a) The department or its authorized agents shall, upon
359 application, issue an expectant mother parking permit placard or
360 decal to an expectant mother. The placard or decal is valid for
361 up to 1 year after the date of issuance.

362 (b) The department shall, by rule, provide for the design,
363 size, color, and placement of the expectant mother parking
364 permit placard or decal. The placard or decal must be designed
365 to conspicuously display the expiration date of the permit.

366 (2) An application for an expectant mother parking permit
367 must include, but need not be limited to:

368 (a) Certification provided by a physician licensed under
369 chapter 458 or chapter 459 that the applicant is an expectant
370 mother.

371 (b) The certifying physician's name and address.

372 (c) The physician's certification number.

373 (d) The following statement in bold letters: "An expectant
374 mother parking permit may be issued only to an expectant mother
375 and is valid for up to 1 year after the date of issuance."

- 376 (e) The signatures of:
 377 1. The certifying physician.
 378 2. The applicant.
 379 3. The employee of the department processing the
 380 application.

381 (3) Notwithstanding any other provision of law, an
 382 expectant mother who is issued an expectant mother parking
 383 permit under this section may park a motor vehicle in a parking
 384 space designated for persons who have disabilities as provided
 385 in s. 553.5041.

386 **Section 4. Subsection (14) of section 331.3051, Florida**
 387 **Statutes, is amended to read:**

388 331.3051 Duties of Space Florida.—Space Florida shall:
 389 ~~(14) Partner with the Metropolitan Planning Organization~~
 390 ~~Advisory Council to coordinate and specify how aerospace~~
 391 ~~planning and programming will be part of the state's cooperative~~
 392 ~~transportation planning process.~~

393 **Section 5. Subsection (6) of section 334.044, Florida**
 394 **Statutes, is amended to read:**

395 334.044 Powers and duties of the department.—The
 396 department shall have the following general powers and duties:
 397 (6) To acquire, by the exercise of the power of eminent
 398 domain as provided by law, all property or property rights,
 399 whether public or private, which it may determine are necessary
 400 to the performance of its duties and the execution of its

401 powers, including advance purchase of property or property
 402 rights to preserve a corridor for future proposed improvements.

403 **Section 6. Subsection (3) of section 334.065, Florida**
 404 **Statutes, is amended to read:**

405 334.065 Center for Urban Transportation Research.—

406 (3) An advisory board shall be created to periodically and
 407 objectively review and advise the center concerning its research
 408 program. Except for projects mandated by law, state-funded base
 409 projects shall not be undertaken without approval of the
 410 advisory board. The membership of the board shall consist of
 411 nine experts in transportation-related areas, as follows:

412 (a) A member appointed by the President of the Senate.

413 (b) A member appointed by the Speaker of the House of
 414 Representatives.

415 (c) The Secretary of Transportation or his or her
 416 designee.

417 (d) The Secretary of Commerce or his or her designee.
 418 ~~including the secretaries of the Department of Transportation,~~
 419 ~~the Department of Environmental Protection, and the Department~~
 420 ~~of Commerce, or their designees, and~~

421 (e) A member of the Florida Transportation Commission.

422 (f) The nomination of the remaining four members of the
 423 board shall be made to the President of the University of South
 424 Florida by the College of Engineering at the University of South
 425 Florida.~~and The appointment of these members must be reviewed~~

426 and approved by the Florida Transportation Commission and
427 confirmed by the Board of Governors.

428 **Section 7. Section 334.63, Florida Statutes, is created to**
429 **read:**

430 334.63 Project concept studies; project development and
431 environmental studies.-

432 (1) All project concept studies and project development
433 and environmental studies for capacity improvement projects on
434 limited-access facilities must include the evaluation of
435 alternatives that provide transportation capacity using elevated
436 roadways above existing lanes.

437 (2) All project development and environmental studies for
438 new alignment projects and new capacity improvement projects
439 must be completed within 18 months after commencement.

440 **Section 8. Paragraphs (d) and (e) of subsection (7) of**
441 **section 337.11, Florida Statutes, are redesignated as paragraphs**
442 **(c) and (d), respectively, and subsection (1), paragraph (a) of**
443 **subsection (3), subsection (4), present paragraphs (a), (b),**
444 **(c), and (e) of subsection (7), and subsection (15) of that**
445 **section are amended to read:**

446 337.11 Contracting authority of department; bids;
447 emergency repairs, supplemental agreements, and change orders;
448 combined design and construction contracts; progress payments;
449 records; requirements of vehicle registration.-

450 (1) The department shall have authority to enter into

451 contracts for the construction and maintenance of all roads
452 designated as part of the State Highway System or the State Park
453 Road System or of any roads placed under its supervision by law.
454 The department shall also have authority to enter into contracts
455 for the construction and maintenance of rest areas, weigh
456 stations, and other structures, including roads, parking areas,
457 supporting facilities and associated buildings used in
458 connection with such facilities. Contractors under contract with
459 the department for such projects provide a service to the
460 department, and ~~However,~~ no such contract shall create any
461 third-party beneficiary rights in any person not a party to the
462 contract.

463 (3) (a) On all construction contracts of \$250,000 or less,
464 and any construction contract ~~of less than \$500,000~~ for which
465 the department has waived prequalification under s. 337.14, the
466 department shall advertise for bids in a newspaper having
467 general circulation in the county where the proposed work is
468 located. Publication shall be at least once a week for no less
469 than 2 consecutive weeks, and the first publication shall be no
470 less than 14 days before ~~prior to~~ the date on which bids are to
471 be received.

472 (4) (a) The department may award the proposed construction
473 and maintenance work to the lowest responsible bidder, or in the
474 instance of a time-plus-money contract, the lowest evaluated
475 responsible bidder, or it may reject all bids and proceed to

476 rebid the work in accordance with subsection (2) or otherwise
477 perform the work.

478 (b)1. Notwithstanding any other provision of law to the
479 contrary, on projects for which the department's estimate is
480 \$100 million or less, the department shall award the proposed
481 construction and maintenance work to the lowest responsive and
482 responsible bidder. If the department receives bids outside the
483 award criteria set forth by the department, the department must
484 arrange an in-person meeting with the lowest responsive and
485 responsible bidder to ascertain reasons for the bids being over
486 the department's estimate. The department may subsequently award
487 the contract to the lowest responsive and responsible bidder,
488 may reject all bids and proceed to rebid the work, or may invite
489 all responsive and responsible bidders to provide best and final
490 offers without filing a protest or posting a bond under
491 paragraph (5) (a). If the department thereafter awards the
492 contract, the award must be to the bidder who provides the best
493 and final offer.

494 2. If the department intends to reject all bids on a
495 project after announcing but before posting official notice of
496 its intent to reject all bids, the department must provide to
497 the lowest responsive and responsible bidder the opportunity to
498 negotiate the scope of work with the corresponding reduction in
499 price, as provided in the bid, to provide a best and final offer
500 without filing a protest or posting a bond under paragraph

501 (5) (a). Upon reaching a decision regarding such bidder's best
502 and final offer, the department must post notice of final agency
503 action to either reject all bids or accept the best and final
504 offer.

505 3. This subsection does not prohibit the filing of a
506 protest by any bidder or alter the deadlines in s. 120.57.

507 4. Notwithstanding s. 120.57(3)(c) and s. 287.057(25),
508 upon receipt of a timely filed formal written protest, the
509 department may continue with the process provided for in this
510 section but may not take final agency action as to the lowest
511 responsive and responsible bidder, except as part of the
512 department's final agency action in the protest or if the
513 protesting party dismisses the protest.

514 (7) (a) If the department determines that it is in the best
515 interests of the public, the department may combine the design
516 and construction phases of a project into a single contract.
517 Such contract is referred to as a design-build contract. For
518 design-build contracts, the department must receive at least
519 three letters of interest, and the department shall request
520 proposals from no fewer than three of the design-build firms
521 submitting such letters of interest. If a design-build firm
522 withdraws from consideration after the department requests
523 proposals, the department may continue if at least two proposals
524 are received.

525 (b) If the department determines that it is in the best

526 interests of the public, the department may combine the design
527 and construction phases of a project fully funded in the work
528 program into a single contract and select the design-build firm
529 in the early stages of a project to ensure that the design-build
530 firm is part of the collaboration and development of the design
531 as part of a step-by-step progression through construction. Such
532 a contract is referred to as a phased design-build contract. For
533 phased design-build contracts, selection and award must include
534 a two-phase process. For phase one, the department shall
535 competitively award the contract to a design-build firm based
536 upon qualifications, provided that the department has received
537 at least three statements of qualifications from qualified
538 design-build firms. If the department elects, during phase one,
539 to enter into contracts with more than one design-build firm
540 based on qualifications, the department shall competitively
541 award the contract for phase two to a single design-build firm.
542 For phase two, the design-build firm may independently perform
543 portions of the work and shall competitively bid construction
544 trade subcontractor packages and, based upon the design-build
545 firm's estimates of its independently performed work and these
546 bids, negotiate with the department a ~~fixed firm price or~~
547 guaranteed maximum price that meets the project budget and scope
548 as advertised in the request for qualifications.

549 ~~(c) Design-build contracts and phased design-build~~
550 ~~contracts may be advertised and awarded notwithstanding the~~

551 ~~requirements of paragraph (3) (c). However, construction~~
552 ~~activities may not begin on any portion of such projects for~~
553 ~~which the department has not yet obtained title to the necessary~~
554 ~~rights-of-way and easements for the construction of that portion~~
555 ~~of the project has vested in the state or a local governmental~~
556 ~~entity and all railroad crossing and utility agreements have~~
557 ~~been executed. Title to rights-of-way shall be deemed to have~~
558 ~~vested in the state when the title has been dedicated to the~~
559 ~~public or acquired by prescription.~~

560 (d)~~(e)~~ For ~~design-build contracts~~ and phased design-build
561 contracts, the department must receive at least three letters of
562 interest, and ~~in order to proceed with a request for proposals.~~
563 the department shall request proposals from no fewer than three
564 of the design-build firms submitting such letters of interest.
565 If a design-build firm withdraws from consideration after the
566 department requests proposals, the department may continue if at
567 least two proposals are received.

568 (15) Each contract let by the department for performance
569 of bridge construction or maintenance on ~~over~~ navigable waters
570 must contain a provision requiring marine general liability
571 insurance, including protection and indemnity coverage, in an
572 amount to be determined by the department, which covers third-
573 party personal injury and property damage caused by vessels used
574 by the contractor in the performance of the work. Protection and
575 indemnity coverage may be covered by endorsement on the marine

576 general liability insurance policy or may be a separate policy.

577 **Section 9. Subsection (3) is added to section 337.1101,**
 578 **Florida Statutes, to read:**

579 337.1101 Contracting and procurement authority of the
 580 department; settlements; notification required.—

581 (3) The department may not, through a settlement of a
 582 protest filed in accordance with s. 120.57(3) of the award of a
 583 contract being procured pursuant to s. 337.11 or related to the
 584 purchase of personal property or contractual services being
 585 procured pursuant to s. 287.057, create a new contract unless
 586 the new contract is competitively procured.

587 **Section 10. Subsections (1), (2), and (8) of section**
 588 **337.14, Florida Statutes, are amended to read:**

589 337.14 Application for qualification; certificate of
 590 qualification; restrictions; request for hearing.—

591 (1) (a) A ~~Any~~ contractor desiring to bid for the
 592 performance of a ~~any~~ construction contract in excess of \$250,000
 593 which the department proposes to let must first be certified by
 594 the department as qualified pursuant to this section and rules
 595 of the department. The rules of the department must address the
 596 qualification of contractors to bid on construction contracts in
 597 excess of \$250,000 and must include requirements with respect to
 598 the equipment, past record, experience, financial resources, and
 599 organizational personnel of the applying contractor which are
 600 necessary to perform the specific class of work for which the

601 contractor seeks certification.

602 (b) A ~~Any~~ contractor who desires to bid on contracts in
603 excess of \$50 million and who is not qualified and in good
604 standing with the department as of January 1, 2019, must first
605 be certified by the department as qualified and must have
606 satisfactorily completed two projects, each in excess of \$15
607 million, for the department or for any other state department of
608 transportation.

609 (c) The department may limit the dollar amount of any
610 contract upon which a contractor is qualified to bid or the
611 aggregate total dollar volume of contracts such contractor is
612 allowed to have under contract at any one time.

613 (d)1. Each applying contractor seeking qualification to
614 bid on construction contracts in excess of \$250,000 shall
615 furnish the department a statement under oath, on such forms as
616 the department may prescribe, setting forth detailed information
617 as required on the application.

618 2. Each application for certification must be accompanied
619 by audited, certified financial statements prepared in
620 accordance with generally accepted accounting principles and
621 auditing standards by a certified public accountant licensed in
622 this state or another state. The audited, certified financial
623 statements must be for the applying contractor and must have
624 been prepared within the immediately preceding 12 months.

625 3. The department may not consider any financial

626 information of the parent entity of the applying contractor, if
627 any.

628 4. The department may not certify as qualified any
629 applying contractor who fails to submit the audited, certified
630 financial statements required by this subsection.

631 5. If the application or the annual financial statement
632 shows the financial condition of the applying contractor more
633 than 4 months before the date on which the application is
634 received by the department, the applicant must also submit
635 interim audited, certified financial statements prepared in
636 accordance with generally accepted accounting principles and
637 auditing standards by a certified public accountant licensed in
638 this state or another state. The interim financial statements
639 must cover the period from the end date of the annual statement
640 and must show the financial condition of the applying contractor
641 no more than 4 months before the date that the interim financial
642 statements are received by the department. However, upon the
643 request of the applying contractor, an application and
644 accompanying annual or interim financial statement received by
645 the department within 15 days after either 4-month period under
646 this subsection shall be considered timely.

647 6. An applying contractor desiring to bid exclusively for
648 the performance of construction contracts with proposed budget
649 estimates of less than \$2 million may submit reviewed annual or
650 reviewed interim financial statements prepared by a certified

651 public accountant.

652 (e) The information required by this subsection is
 653 confidential and exempt from s. 119.07(1).

654 (f) The department shall act upon the application for
 655 qualification within 30 days after the department determines
 656 that the application is complete.

657 (g) The department may waive the requirements of this
 658 subsection for:

659 1. A project with a diverse set of scopes of work that may
 660 be performed under the project, typically referred to as a
 661 "push-button contract" or a "task work order contract," which
 662 has a contract price of \$1 million or less; or

663 2. A project that has ~~projects having~~ a contract price of
 664 \$500,000 or less if the department determines that the project
 665 is of a noncritical nature and the waiver will not endanger
 666 public health, safety, or property.

667 (2) Certification shall be necessary in order to bid on a
 668 road, bridge, or public transportation construction contract of
 669 more than \$250,000. However, the successful bidder on any
 670 construction contract must furnish a contract bond before ~~prior~~
 671 ~~to~~ the award of the contract. The department may waive the
 672 requirement for all or a portion of a contract bond for
 673 contracts of \$250,000 ~~\$150,000~~ or less under s. 337.18(1).

674 (8) This section does not apply to maintenance contracts.
 675 Notwithstanding any other provision of law, a contractor seeking

676 to bid on a maintenance contract that predominantly includes
677 repair and replacement of safety appurtenances, including, but
678 not limited to, guardrails, attenuators, traffic signals, and
679 striping, must possess the prescribed qualifications, equipment,
680 past record, and experience required to perform such work.

681 **Section 11. Subsections (4) and (5) of section 337.185,**
682 **Florida Statutes, are amended to read:**

683 337.185 State Arbitration Board.—

684 (4) The contractor may submit a claim greater than
685 \$250,000 up to \$1 million per contract or, upon agreement of the
686 parties, greater than ~~up to~~ \$2 million per contract to be
687 arbitrated by the board. An award issued by the board pursuant
688 to this subsection is final if a request for a trial de novo is
689 not filed within the time provided by Rule 1.830, Florida Rules
690 of Civil Procedure. At the trial de novo, the court may not
691 admit evidence that there has been an arbitration proceeding,
692 the nature or amount of the award, or any other matter
693 concerning the conduct of the arbitration proceeding, except
694 that sworn testimony given in connection with ~~at~~ an arbitration
695 hearing may be used for any purpose otherwise permitted by the
696 Florida Evidence Code. If a request for trial de novo is not
697 filed within the time provided, the award issued by the board is
698 final and enforceable by a court of law.

699 (5) An arbitration request may not be made to the board
700 before final acceptance but must be made to the board:

701 (a) Within 820 days after final acceptance; or
 702 (b) Within 360 days after written notice by the department
 703 of a claim related to a written warranty or defect after final
 704 acceptance.

705 **Section 12. Subsection (2) of section 337.19, Florida**
 706 **Statutes, is amended to read:**

707 337.19 Suits by and against department; limitation of
 708 actions; forum.—

709 (2) Suits by and against the department under this section
 710 shall be commenced within 820 days after ~~of~~ the final acceptance
 711 of the work or within 360 days after written notice by the
 712 department of a claim related to a written warranty or defect
 713 after final acceptance. ~~This section shall apply to all~~
 714 ~~contracts entered into after June 30, 1993.~~

715 **Section 13. Subsections (3) through (9) of section**
 716 **337.401, Florida Statutes, are renumbered as subsections (4)**
 717 **through (10), respectively, subsections (1) and (2), paragraphs**
 718 **(a), (c), and (g) of present subsection (3), present subsection**
 719 **(5), paragraph (e) of present subsection (6), and paragraphs (d)**
 720 **and (n) of present subsection (7) are amended, and a new**
 721 **subsection (3) is added to that section, to read:**

722 337.401 Use of right-of-way for utilities subject to
 723 regulation; permit; fees.—

724 (1)(a) The department and local governmental entities,
 725 referred to in this section and in ss. 337.402–337.404 as the

726 "authority," that have jurisdiction and control of public roads
727 or publicly owned rail corridors are authorized to prescribe and
728 enforce reasonable rules or regulations with reference to the
729 placing and maintaining across, on, or within the right-of-way
730 limits of any road or publicly owned rail corridors under their
731 respective jurisdictions any electric transmission, voice,
732 telegraph, data, or other communications services lines or
733 wireless facilities; pole lines; poles; railways; ditches;
734 sewers; water, heat, or gas mains; pipelines; fences; gasoline
735 tanks and pumps; or other structures referred to in this section
736 and in ss. 337.402-337.404 as the "utility." The department may
737 enter into a permit-delegation agreement with a governmental
738 entity if issuance of a permit is based on requirements that the
739 department finds will ensure the safety and integrity of
740 facilities of the Department of Transportation; however, the
741 permit-delegation agreement does not apply to facilities of
742 electric utilities as defined in s. 366.02(4).

743 (b) For aerial and underground electric utility
744 transmission lines designed to operate at 69 or more kilovolts
745 that are needed to accommodate the additional electrical
746 transfer capacity on the transmission grid resulting from new
747 base-load generating facilities, the department's rules shall
748 provide for placement of and access to such transmission lines
749 adjacent to and within the right-of-way of any department-
750 controlled public roads, including longitudinally within limited

751 access facilities where there is no other practicable
752 alternative available, to the greatest extent allowed by federal
753 law, if compliance with the standards established by such rules
754 is achieved. Without limiting or conditioning the department's
755 jurisdiction or authority described in paragraph (a), with
756 respect to limited access right-of-way, such rules may include,
757 but need not be limited to, that the use of the right-of-way for
758 longitudinal placement of electric utility transmission lines is
759 reasonable based upon a consideration of economic and
760 environmental factors, including, without limitation, other
761 practicable alternative alignments, utility corridors and
762 easements, impacts on adjacent property owners, and minimum
763 clear zones and other safety standards, and further provide that
764 placement of the electric utility transmission lines within the
765 department's right-of-way does not interfere with operational
766 requirements of the transportation facility or planned or
767 potential future expansion of such transportation facility. If
768 the department approves longitudinal placement of electric
769 utility transmission lines in limited access facilities,
770 compensation for the use of the right-of-way is required. Such
771 consideration or compensation paid by the ~~electric~~ utility owner
772 in connection with the department's issuance of a permit does
773 not create any property right in the department's property
774 regardless of the amount of consideration paid or the
775 improvements constructed on the property by the utility owner.

776 Upon notice by the department that the property is needed for
777 expansion or improvement of the transportation facility, the
778 electric utility transmission line will be removed or relocated
779 at the utility owner's ~~electric utility's~~ sole expense. The
780 ~~electric~~ utility owner shall pay to the department reasonable
781 damages resulting from the utility owner's ~~utility's~~ failure or
782 refusal to timely remove or relocate its transmission lines. The
783 rules to be adopted by the department may also address the
784 compensation methodology and removal or relocation. As used in
785 this subsection, the term "base-load generating facilities"
786 means electric power plants that are certified under part II of
787 chapter 403.

788 (c) The utility owner shall make all new, replaced, or
789 relocated underground facilities within the right-of-way
790 electronically detectable using techniques approved by the
791 department.

792 (2) The authority may grant to any person who is a
793 resident of this state, or to any corporation that ~~which~~ is
794 organized under the laws of this state or licensed to do
795 business within this state, the use of a right-of-way for the
796 utility in accordance with such rules or regulations as the
797 authority may adopt. A utility may not be installed, located, or
798 relocated unless authorized by a written permit issued by the
799 authority. However, for public roads or publicly owned rail
800 corridors under the jurisdiction of the department, a ~~utility~~

801 ~~relocation schedule and~~ relocation agreement may be executed in
802 lieu of a written permit. The permit or relocation agreement
803 must require the utility owner ~~permitholder~~ to be responsible
804 for any damage resulting from the work required ~~issuance of such~~
805 ~~permit~~. The utility owner shall also pay to the authority
806 reasonable damages resulting from the utility owner's failure or
807 refusal to timely remove or relocate its utility lines. Issuance
808 of permits for new installation of utilities within the
809 authority's rights-of-way may be subject to reimbursement of any
810 costs incurred by the authority due to the failure of the
811 utility owner to timely relocate utilities pursuant to an
812 approved utility work schedule or due to work performed by the
813 utility owner which damages existing infrastructure and causes a
814 roadway failure. The authority may initiate injunctive
815 proceedings as provided in s. 120.69 to enforce ~~provisions of~~
816 this subsection or any rule or order issued or entered into
817 pursuant to this subsection ~~thereof~~. A permit application
818 required under this subsection by a county or municipality
819 having jurisdiction and control of the right-of-way of any
820 public road must be processed and acted upon in accordance with
821 the timeframes provided in subparagraphs (8) (d) 7., 8., and 9.
822 ~~(7) (d) 7., 8., and 9.~~

823 (3) (a) As used in this section, the term "as-built plans"
824 means plans that include all changes and modifications that
825 occur during the construction phase of a project. The authority

826 and the utility owner shall agree in writing to an approved
827 installation depth of the as-built plans according to the
828 project scope.

829 (b) The utility owner shall submit as-built plans within
830 20 business days after completion of the utility work which show
831 actual final surface and subsurface utilities, including
832 location, alignment, profile, installation depth, and geodetic
833 datum of each structure. Such plans shall be in an electronic
834 format compatible with department software. Exceptions to this
835 electronic submission requirement must be agreed upon by the
836 department in writing.

837 (c) Submission of the as-built plans is a condition
838 precedent to any reimbursement of costs by the authority
839 pursuant to s. 337.403(1)(a).

840 (4)(a)-(3)(a) Because of the unique circumstances
841 applicable to providers of communications services, including,
842 but not limited to, the circumstances described in paragraph (e)
843 and the fact that federal and state law require the
844 nondiscriminatory treatment of providers of telecommunications
845 services, and because of the desire to promote competition among
846 providers of communications services, it is the intent of the
847 Legislature that municipalities and counties treat providers of
848 communications services in a nondiscriminatory and competitively
849 neutral manner when imposing rules or regulations governing the
850 placement or maintenance of communications facilities in the

851 public roads or rights-of-way. Rules or regulations imposed by a
852 municipality or county relating to providers of communications
853 services placing or maintaining communications facilities in its
854 roads or rights-of-way must be generally applicable to all
855 providers of communications services, taking into account the
856 distinct engineering, construction, operation, maintenance,
857 public works, and safety requirements of the provider's
858 facilities, and, notwithstanding any other law, may not require
859 a provider of communications services to apply for or enter into
860 an individual license, franchise, or other agreement with the
861 municipality or county as a condition of placing or maintaining
862 communications facilities in its roads or rights-of-way. In
863 addition to other reasonable rules or regulations that a
864 municipality or county may adopt relating to the placement or
865 maintenance of communications facilities in its roads or rights-
866 of-way under this subsection or subsection (8) ~~(7)~~, a
867 municipality or county may require a provider of communications
868 services that places or seeks to place facilities in its roads
869 or rights-of-way to register with the municipality or county. To
870 register, a provider of communications services may be required
871 only to provide its name; the name, address, and telephone
872 number of a contact person for the registrant; the number of the
873 registrant's current certificate of authorization issued by the
874 Florida Public Service Commission, the Federal Communications
875 Commission, or the Department of State; a statement of whether

876 the registrant is a pass-through provider as defined in
877 subparagraph (7)(a)1. ~~(6)(a)1.~~; the registrant's federal
878 employer identification number; and any required proof of
879 insurance or self-insuring status adequate to defend and cover
880 claims. A municipality or county may not require a registrant to
881 renew a registration more frequently than every 5 years but may
882 require during this period that a registrant update the
883 registration information provided under this subsection within
884 90 days after a change in such information. A municipality or
885 county may not require the registrant to provide an inventory of
886 communications facilities, maps, locations of such facilities,
887 or other information by a registrant as a condition of
888 registration, renewal, or for any other purpose; provided,
889 however, that a municipality or county may require as part of a
890 permit application that the applicant identify at-grade
891 communications facilities within 50 feet of the proposed
892 installation location for the placement of at-grade
893 communications facilities. A municipality or county may not
894 require a provider to pay any fee, cost, or other charge for
895 registration or renewal thereof. It is the intent of the
896 Legislature that the placement, operation, maintenance,
897 upgrading, and extension of communications facilities not be
898 unreasonably interrupted or delayed through the permitting or
899 other local regulatory process. Except as provided in this
900 chapter or otherwise expressly authorized by chapter 202,

901 chapter 364, or chapter 610, a municipality or county may not
902 adopt or enforce any ordinance, regulation, or requirement as to
903 the placement or operation of communications facilities in a
904 right-of-way by a communications services provider authorized by
905 state or local law to operate in a right-of-way; regulate any
906 communications services; or impose or collect any tax, fee,
907 cost, charge, or exaction for the provision of communications
908 services over the communications services provider's
909 communications facilities in a right-of-way.

910 (c) Any municipality or county that, as of January 1,
911 2019, elected to require permit fees from any provider of
912 communications services that uses or occupies municipal or
913 county roads or rights-of-way pursuant to former paragraph (c)
914 or former paragraph (j), Florida Statutes 2018, may continue to
915 require and collect such fees. A municipality or county that
916 elected as of January 1, 2019, to require permit fees may elect
917 to forego such fees as provided herein. A municipality or county
918 that elected as of January 1, 2019, not to require permit fees
919 may not elect to impose permit fees. All fees authorized under
920 this paragraph must be reasonable and commensurate with the
921 direct and actual cost of the regulatory activity, including
922 issuing and processing permits, plan reviews, physical
923 inspection, and direct administrative costs; must be
924 demonstrable; and must be equitable among users of the roads or
925 rights-of-way. A fee authorized under this paragraph may not be

926 offset against the tax imposed under chapter 202; include the
927 costs of roads or rights-of-way acquisition or roads or rights-
928 of-way rental; include any general administrative, management,
929 or maintenance costs of the roads or rights-of-way; or be based
930 on a percentage of the value or costs associated with the work
931 to be performed on the roads or rights-of-way. In an action to
932 recover amounts due for a fee not authorized under this
933 paragraph, the prevailing party may recover court costs and
934 attorney fees at trial and on appeal. In addition to the
935 limitations set forth in this section, a fee levied by a
936 municipality or charter county under this paragraph may not
937 exceed \$100. However, permit fees may not be imposed with
938 respect to permits that may be required for service drop lines
939 not required to be noticed under s. 556.108(5) or for any
940 activity that does not require the physical disturbance of the
941 roads or rights-of-way or does not impair access to or full use
942 of the roads or rights-of-way, including, but not limited to,
943 the performance of service restoration work on existing
944 facilities, extensions of such facilities for providing
945 communications services to customers, and the placement of micro
946 wireless facilities in accordance with subparagraph (8) (e) 3.
947 ~~(7) (e) 3.~~

948 1. If a municipality or charter county elects to not
949 require permit fees, the total rate for the local communications
950 services tax as computed under s. 202.20 for that municipality

951 or charter county may be increased by ordinance or resolution by
952 an amount not to exceed a rate of 0.12 percent.

953 2. If a noncharter county elects to not require permit
954 fees, the total rate for the local communications services tax
955 as computed under s. 202.20 for that noncharter county may be
956 increased by ordinance or resolution by an amount not to exceed
957 a rate of 0.24 percent, to replace the revenue the noncharter
958 county would otherwise have received from permit fees for
959 providers of communications services.

960 (g) A municipality or county may not use its authority
961 over the placement of facilities in its roads and rights-of-way
962 as a basis for asserting or exercising regulatory control over a
963 provider of communications services regarding matters within the
964 exclusive jurisdiction of the Florida Public Service Commission
965 or the Federal Communications Commission, including, but not
966 limited to, the operations, systems, equipment, technology,
967 qualifications, services, service quality, service territory,
968 and prices of a provider of communications services. A
969 municipality or county may not require any permit for the
970 maintenance, repair, replacement, extension, or upgrade of
971 existing aerial wireline communications facilities on utility
972 poles or for aerial wireline facilities between existing
973 wireline communications facility attachments on utility poles by
974 a communications services provider. However, a municipality or
975 county may require a right-of-way permit for work that involves

976 excavation, closure of a sidewalk, or closure of a vehicular
 977 lane or parking lane, unless the provider is performing service
 978 restoration to existing facilities. A permit application
 979 required by an authority under this section for the placement of
 980 communications facilities must be processed and acted upon
 981 consistent with the timeframes provided in subparagraphs
 982 (8) (d) 7., 8., and 9. ~~(7) (d) 7., 8., and 9.~~ In addition, a
 983 municipality or county may not require any permit or other
 984 approval, fee, charge, or cost, or other exaction for the
 985 maintenance, repair, replacement, extension, or upgrade of
 986 existing aerial lines or underground communications facilities
 987 located on private property outside of the public rights-of-way.
 988 As used in this section, the term "extension of existing
 989 facilities" includes those extensions from the rights-of-way
 990 into a customer's private property for purposes of placing a
 991 service drop or those extensions from the rights-of-way into a
 992 utility easement to provide service to a discrete identifiable
 993 customer or group of customers.

994 (6) ~~(5)~~ This section, except subsections (1) and (2) and
 995 paragraph (4) (g) ~~(3) (g)~~, does not apply to the provision of pay
 996 telephone service on public, municipal, or county roads or
 997 rights-of-way.

998 (7) ~~(6)~~

999 (e) This subsection does not alter any provision of this
 1000 section or s. 202.24 relating to taxes, fees, or other charges

1001 or impositions by a municipality or county on a dealer of
1002 communications services or authorize that any charges be
1003 assessed on a dealer of communications services, except as
1004 specifically set forth herein. A municipality or county may not
1005 charge a pass-through provider any amounts other than the
1006 charges under this subsection as a condition to the placement or
1007 maintenance of a communications facility in the roads or rights-
1008 of-way of a municipality or county by a pass-through provider,
1009 except that a municipality or county may impose permit fees on a
1010 pass-through provider consistent with paragraph (4) (c) ~~(3) (e)~~.

1011 (8) (7)

1012 (d) An authority may require a registration process and
1013 permit fees in accordance with subsection (4) ~~(3)~~. An authority
1014 shall accept applications for permits and shall process and
1015 issue permits subject to the following requirements:

1016 1. An authority may not directly or indirectly require an
1017 applicant to perform services unrelated to the collocation for
1018 which approval is sought, such as in-kind contributions to the
1019 authority, including reserving fiber, conduit, or pole space for
1020 the authority.

1021 2. An applicant may not be required to provide more
1022 information to obtain a permit than is necessary to demonstrate
1023 the applicant's compliance with applicable codes for the
1024 placement of small wireless facilities in the locations
1025 identified in the application. An applicant may not be required

1026 to provide inventories, maps, or locations of communications
1027 facilities in the right-of-way other than as necessary to avoid
1028 interference with other at-grade or aerial facilities located at
1029 the specific location proposed for a small wireless facility or
1030 within 50 feet of such location.

1031 3. An authority may not:

1032 a. Require the placement of small wireless facilities on
1033 any specific utility pole or category of poles;

1034 b. Require the placement of multiple antenna systems on a
1035 single utility pole;

1036 c. Require a demonstration that collocation of a small
1037 wireless facility on an existing structure is not legally or
1038 technically possible as a condition for granting a permit for
1039 the collocation of a small wireless facility on a new utility
1040 pole except as provided in paragraph (i);

1041 d. Require compliance with an authority's provisions
1042 regarding placement of small wireless facilities or a new
1043 utility pole used to support a small wireless facility in
1044 rights-of-way under the control of the department unless the
1045 authority has received a delegation from the department for the
1046 location of the small wireless facility or utility pole, or
1047 require such compliance as a condition to receive a permit that
1048 is ancillary to the permit for collocation of a small wireless
1049 facility, including an electrical permit;

1050 e. Require a meeting before filing an application;

1051 f. Require direct or indirect public notification or a
1052 public meeting for the placement of communication facilities in
1053 the right-of-way;

1054 g. Limit the size or configuration of a small wireless
1055 facility or any of its components, if the small wireless
1056 facility complies with the size limits in this subsection;

1057 h. Prohibit the installation of a new utility pole used to
1058 support the collocation of a small wireless facility if the
1059 installation otherwise meets the requirements of this
1060 subsection; or

1061 i. Require that any component of a small wireless facility
1062 be placed underground except as provided in paragraph (i).

1063 4. Subject to paragraph (r), an authority may not limit
1064 the placement, by minimum separation distances, of small
1065 wireless facilities, utility poles on which small wireless
1066 facilities are or will be collocated, or other at-grade
1067 communications facilities. However, within 14 days after the
1068 date of filing the application, an authority may request that
1069 the proposed location of a small wireless facility be moved to
1070 another location in the right-of-way and placed on an
1071 alternative authority utility pole or support structure or
1072 placed on a new utility pole. The authority and the applicant
1073 may negotiate the alternative location, including any objective
1074 design standards and reasonable spacing requirements for ground-
1075 based equipment, for 30 days after the date of the request. At

1076 the conclusion of the negotiation period, if the alternative
1077 location is accepted by the applicant, the applicant must notify
1078 the authority of such acceptance and the application shall be
1079 deemed granted for any new location for which there is agreement
1080 and all other locations in the application. If an agreement is
1081 not reached, the applicant must notify the authority of such
1082 nonagreement and the authority must grant or deny the original
1083 application within 90 days after the date the application was
1084 filed. A request for an alternative location, an acceptance of
1085 an alternative location, or a rejection of an alternative
1086 location must be in writing and provided by electronic mail.

1087 5. An authority shall limit the height of a small wireless
1088 facility to 10 feet above the utility pole or structure upon
1089 which the small wireless facility is to be collocated. Unless
1090 waived by an authority, the height for a new utility pole is
1091 limited to the tallest existing utility pole as of July 1, 2017,
1092 located in the same right-of-way, other than a utility pole for
1093 which a waiver has previously been granted, measured from grade
1094 in place within 500 feet of the proposed location of the small
1095 wireless facility. If there is no utility pole within 500 feet,
1096 the authority shall limit the height of the utility pole to 50
1097 feet.

1098 6. The installation by a communications services provider
1099 of a utility pole in the public rights-of-way, other than a
1100 utility pole used to support a small wireless facility, is

1101 subject to authority rules or regulations governing the
1102 placement of utility poles in the public rights-of-way.

1103 7. Within 14 days after receiving an application, an
1104 authority must determine and notify the applicant by electronic
1105 mail as to whether the application is complete. If an
1106 application is deemed incomplete, the authority must
1107 specifically identify the missing information. An application is
1108 deemed complete if the authority fails to provide notification
1109 to the applicant within 14 days.

1110 8. An application must be processed on a nondiscriminatory
1111 basis. A complete application is deemed approved if an authority
1112 fails to approve or deny the application within 60 days after
1113 receipt of the application. If an authority does not use the 30-
1114 day negotiation period provided in subparagraph 4., the parties
1115 may mutually agree to extend the 60-day application review
1116 period. The authority shall grant or deny the application at the
1117 end of the extended period. A permit issued pursuant to an
1118 approved application shall remain effective for 1 year unless
1119 extended by the authority.

1120 9. An authority must notify the applicant of approval or
1121 denial by electronic mail. An authority shall approve a complete
1122 application unless it does not meet the authority's applicable
1123 codes. If the application is denied, the authority must specify
1124 in writing the basis for denial, including the specific code
1125 provisions on which the denial was based, and send the

1126 | documentation to the applicant by electronic mail on the day the
1127 | authority denies the application. The applicant may cure the
1128 | deficiencies identified by the authority and resubmit the
1129 | application within 30 days after notice of the denial is sent to
1130 | the applicant. The authority shall approve or deny the revised
1131 | application within 30 days after receipt or the application is
1132 | deemed approved. The review of a revised application is limited
1133 | to the deficiencies cited in the denial. If an authority
1134 | provides for administrative review of the denial of an
1135 | application, the review must be complete and a written decision
1136 | issued within 45 days after a written request for review is
1137 | made. A denial must identify the specific code provisions on
1138 | which the denial is based. If the administrative review is not
1139 | complete within 45 days, the authority waives any claim
1140 | regarding failure to exhaust administrative remedies in any
1141 | judicial review of the denial of an application.

1142 | 10. An applicant seeking to collocate small wireless
1143 | facilities within the jurisdiction of a single authority may, at
1144 | the applicant's discretion, file a consolidated application and
1145 | receive a single permit for the collocation of up to 30 small
1146 | wireless facilities. If the application includes multiple small
1147 | wireless facilities, an authority may separately address small
1148 | wireless facility collocations for which incomplete information
1149 | has been received or which are denied.

1150 | 11. An authority may deny an application to collocate a

1151 small wireless facility or place a utility pole used to support
 1152 a small wireless facility in the public rights-of-way if the
 1153 proposed small wireless facility or utility pole used to support
 1154 a small wireless facility:

1155 a. Materially interferes with the safe operation of
 1156 traffic control equipment.

1157 b. Materially interferes with sight lines or clear zones
 1158 for transportation, pedestrians, or public safety purposes.

1159 c. Materially interferes with compliance with the
 1160 Americans with Disabilities Act or similar federal or state
 1161 standards regarding pedestrian access or movement.

1162 d. Materially fails to comply with the 2017 edition of the
 1163 Florida Department of Transportation Utility Accommodation
 1164 Manual.

1165 e. Fails to comply with applicable codes.

1166 f. Fails to comply with objective design standards
 1167 authorized under paragraph (r).

1168 12. An authority may adopt by ordinance provisions for
 1169 insurance coverage, indemnification, force majeure, abandonment,
 1170 authority liability, or authority warranties. Such provisions
 1171 must be reasonable and nondiscriminatory. An authority may
 1172 require a construction bond to secure restoration of the
 1173 postconstruction rights-of-way to the preconstruction condition.
 1174 However, such bond must be time-limited to not more than 18
 1175 months after the construction to which the bond applies is

1176 completed. For any financial obligation required by an authority
1177 allowed under this section, the authority shall accept a letter
1178 of credit or similar financial instrument issued by any
1179 financial institution that is authorized to do business within
1180 the United States, provided that a claim against the financial
1181 instrument may be made by electronic means, including by
1182 facsimile. A provider of communications services may add an
1183 authority to any existing bond, insurance policy, or other
1184 relevant financial instrument, and the authority must accept
1185 such proof of coverage without any conditions other than consent
1186 to venue for purposes of any litigation to which the authority
1187 is a party. An authority may not require a communications
1188 services provider to indemnify it for liabilities not caused by
1189 the provider, including liabilities arising from the authority's
1190 negligence, gross negligence, or willful conduct.

1191 13. Collocation of a small wireless facility on an
1192 authority utility pole does not provide the basis for the
1193 imposition of an ad valorem tax on the authority utility pole.

1194 14. An authority may reserve space on authority utility
1195 poles for future public safety uses. However, a reservation of
1196 space may not preclude collocation of a small wireless facility.
1197 If replacement of the authority utility pole is necessary to
1198 accommodate the collocation of the small wireless facility and
1199 the future public safety use, the pole replacement is subject to
1200 make-ready provisions and the replaced pole shall accommodate

1201 the future public safety use.

1202 15. A structure granted a permit and installed pursuant to
 1203 this subsection shall comply with chapter 333 and federal
 1204 regulations pertaining to airport airspace protections.

1205 (n) This subsection does not affect provisions relating to
 1206 pass-through providers in subsection (7) ~~(6)~~.

1207 **Section 14. Subsections (2) and (3) of section 337.403,**
 1208 **Florida Statutes, are renumbered as subsections (4) and (5),**
 1209 **respectively, paragraphs (a), (b), (e), and (h) of subsection**
 1210 **(1) are amended, and new subsections (2) and (3) are added to**
 1211 **that section, to read:**

1212 337.403 Interference caused by utility; expenses.—

1213 (1) If a utility that is placed upon, under, over, or
 1214 within the right-of-way limits of any public road or publicly
 1215 owned rail corridor is found by the authority to be unreasonably
 1216 interfering in any way with the convenient, safe, or continuous
 1217 use, or the maintenance, improvement, extension, or expansion,
 1218 of such public road or publicly owned rail corridor, the utility
 1219 owner shall, upon 30 days' written notice to the utility or its
 1220 agent by the authority, initiate the work necessary to alleviate
 1221 the interference at its own expense except as provided in
 1222 paragraphs (a)-(j). The work must be completed within such
 1223 reasonable time as stated in the notice or such time as agreed
 1224 to by the authority and the utility owner.

1225 (a) If the relocation of utility facilities, as referred

1226 to in s. 111 of the Federal-Aid Highway Act of 1956, Pub. L. No.
1227 84-627, is necessitated by the construction of a project on the
1228 federal-aid interstate system, including extensions thereof
1229 within urban areas, and the cost of the project is eligible and
1230 approved for reimbursement by the Federal Government to the
1231 extent of 90 percent or more under the Federal-Aid Highway Act,
1232 or any amendment thereof, then in that event the utility owning
1233 or operating such facilities shall perform any necessary work
1234 upon notice from the department, and the state shall pay the
1235 entire expense properly attributable to such work after
1236 deducting therefrom any increase in the value of a new facility
1237 and any salvage value derived from an old facility. The
1238 department may reimburse up to 50 percent of the costs for
1239 relocation of publicly regulated utility facilities and
1240 municipally owned utility facilities or county-owned utility
1241 facilities, and 100 percent of the costs for relocation of
1242 municipally owned utility facilities or county-owned utility
1243 facilities located in a rural area of opportunity, as defined in
1244 s. 288.0656(2), on the state highway system after deducting
1245 therefrom any increase in the value of a new facility and any
1246 salvage value derived from an old facility when the department
1247 has made the determination that such reimbursement is in the
1248 best interests of the public and necessary to expedite the
1249 construction of the project. The utility owner may opt out of
1250 such reimbursement and solely bear the costs of relocation.

1251 (b) When a joint agreement between the department and the
1252 utility is executed for utility work to be accomplished as part
1253 of a contract for construction of a transportation facility, the
1254 department may participate in those utility work costs that
1255 exceed the department's official estimate of the cost of the
1256 work by more than 10 percent in addition to the costs identified
1257 in paragraph (a). The amount of such participation is limited to
1258 the difference between the official estimate of all the work in
1259 the joint agreement plus 10 percent and the amount awarded for
1260 this work in the construction contract for such work. The
1261 department may not participate in any utility work costs that
1262 occur as a result of changes or additions during the course of
1263 the contract.

1264 (e) If, under an agreement between a utility owner and the
1265 authority entered into after July 1, 2009, the utility owner
1266 conveys, subordinates, or relinquishes a compensable property
1267 right to the authority for the purpose of accommodating the
1268 acquisition or use of the right-of-way by the authority, without
1269 the agreement expressly addressing future responsibility for the
1270 cost of necessary utility work, the authority shall bear the
1271 cost of removal or relocation. This paragraph does not impair or
1272 restrict, and may not be used to interpret, the terms of any
1273 such agreement entered into before July 1, 2009.

1274 (h) If a municipally owned utility or county-owned utility
1275 is located in a rural area of opportunity, as defined in s.

1276 288.0656(2), and the department determines that the utility
1277 owner is unable, and will not be able within the next 10 years,
1278 to pay for the cost of utility work necessitated by a department
1279 project on the State Highway System, the department may pay, in
1280 whole or in part, the cost of such utility work performed by the
1281 department or its contractor.

1282 (2) Before the notice to initiate the work, the department
1283 and the utility owner shall adhere to the department's rules and
1284 procedures, which shall include, but are not limited to, the
1285 following:

1286 (a) The department shall provide the utility owner a
1287 letter and a set of preliminary plans for the proposed highway
1288 improvement project. The utility owner must provide the
1289 department with written acknowledgment of receipt of such plans.

1290 (b) The utility owner shall submit to the department plans
1291 showing existing and proposed locations of facilities within a
1292 reasonable timeframe as specified by the department in the
1293 letter as required under paragraph (a). However, the timeframe
1294 specified by the department may not be sooner than 30 days or as
1295 agreed on by both parties. If the utility owner fails to submit
1296 to the department the plans within 120 days, the department is
1297 no longer required to participate in the costs, may withhold any
1298 amount due to the utility owner on other projects, and may
1299 withhold issuance of any other permits within this state's
1300 rights-of-way.

1301 (c) The utility owner's submission shall include with the
1302 plans a utility relocation schedule in a manner and timeframe
1303 established by the department's written procedures and
1304 instructions for approval by the department.

1305 (d) In the event the Governor declares a state of
1306 emergency, the utility owner shall receive an extension to the
1307 utility relocation schedule that is at least equal to the time
1308 extension granted to the contractor by the department. The
1309 utility owner shall notify the department of any additional
1310 delays associated with causes beyond its control, including, but
1311 not limited to, participation in recovery work as a result of
1312 mutual aid agreements, within 10 days after the commencement of
1313 such delay and shall provide a reasonably complete description
1314 as to the cause and nature of the delay and the possible impacts
1315 to the approved utility relocation schedule. Ten calendar days
1316 after the elimination of the delay, the utility owner shall
1317 submit a revised utility relocation schedule for approval by the
1318 department. Such approval may not be unreasonably withheld,
1319 delayed, or conditioned.

1320 (e) If the utility owner does not initiate work within the
1321 time specified in the utility relocation schedule, the
1322 department may give the utility owner a final notice directing
1323 the utility owner to initiate work within 10 calendar days. If
1324 the utility owner does not, within 10 days after receipt of such
1325 final notice, begin work, or, having begun work, fails to

1326 complete the work within the time specified in the utility
1327 relocation schedule, the department is no longer required to
1328 participate in the work, may withhold any amount due to the
1329 utility owner, or may exercise its right to obtain injunctive
1330 relief as provided in s. 120.69.

1331 (f) If additional utility work is found necessary after
1332 the letting date of the highway improvement project, the utility
1333 owner shall provide a supplementary utility relocation schedule
1334 within 30 calendar days after becoming aware of such additional
1335 work, or upon receipt of the department's written notification
1336 advising of such work. The utility owner's revised utility
1337 relocation schedule must be reviewed and approved by the
1338 department to ensure compliance.

1339 (g) The utility owner is responsible for and liable to the
1340 department for documented damages resulting from the utility
1341 owner's failure to comply with requirements of the utility
1342 relocation schedule, including any delay costs incurred by the
1343 contractor and approved by the department. Upon notification in
1344 writing by the department that the utility owner is liable for
1345 damages, including delay costs, the utility owner has 45 days
1346 after receipt of such notification to either pay the stated
1347 amount to the department or request mediation as provided in
1348 subsection (3).

1349 (3) (a) The department's utility relocation procedures
1350 shall include, in addition to those set forth in subsection (2),

1351 provisions for the establishment of mediation boards to hear and
1352 resolve disputes that may arise between the department and the
1353 utility owner concerning:

1354 1. A utility relocation schedule or revised utility
1355 relocation schedule that has been submitted by the utility owner
1356 but not approved by the department;

1357 2. A contractor's claim for delay costs or other damages
1358 related to the utility owner's work; or

1359 3. Any other matter related to the removal, relocation, or
1360 adjustment of the utility owner's facilities pursuant to this
1361 section.

1362 (b) Such procedures shall include, but not be limited to,
1363 the following:

1364 1. Each mediation board shall consist of one mediator
1365 designated by the department, one mediator designated by the
1366 utility owner, and an independent mediator mutually selected by
1367 the department's designee and the utility owner's designee who
1368 shall serve as the presiding officer of the mediation board.

1369 2. The mediators shall hold a hearing with regard to each
1370 dispute that is submitted to the mediation board for resolution,
1371 shall provide notice of the hearing to each party involved in
1372 the dispute, and shall afford each party an opportunity to
1373 present evidence at the hearing.

1374 3. The mediators shall resolve each issue presented to the
1375 mediation board by a majority vote of the mediators.

1376 4. The mediators shall issue a final decision in writing
 1377 with regard to each dispute that is submitted to the mediation
 1378 board for resolution and shall serve a copy of the final
 1379 decision on each party involved in the dispute.

1380 5. All final decisions of the mediation board shall be
 1381 subject to de novo review in the Second Judicial Circuit Court
 1382 in Leon County by way of a petition for judicial review filed by
 1383 the department or the utility owner within 30 days after service
 1384 of the final decision.

1385 (c) The department may develop rules and procedures
 1386 governing the mediation, including the mediation of a contested
 1387 case and the creation of a list of qualified mediators.

1388 **Section 15. Subsection (10) of section 339.175, Florida**
 1389 **Statutes, is renumbered as subsection (11), subsection (1),**
 1390 **paragraph (a) of subsection (2), paragraphs (b), (i), and (j) of**
 1391 **subsection (6), paragraphs (a), (b), and (d) of subsection (7),**
 1392 **and present subsection (11) are amended, and a new subsection**
 1393 **(10) is added to that section, to read:**

1394 339.175 Metropolitan planning organization.—

1395 (1) PURPOSE.—It is the intent of the Legislature to
 1396 encourage and promote the safe and efficient management,
 1397 operation, and development of multimodal ~~surface~~ transportation
 1398 systems that will serve the mobility needs of people and freight
 1399 and foster economic growth and development within and through
 1400 urbanized areas of this state while balancing conservation of

1401 natural resources ~~minimizing transportation-related fuel~~
1402 ~~consumption, air pollution, and greenhouse gas emissions through~~
1403 ~~metropolitan transportation planning processes identified in~~
1404 ~~this section.~~ To accomplish these objectives, metropolitan
1405 planning organizations, referred to in this section as M.P.O.'s,
1406 shall develop, in cooperation with the state and public transit
1407 operators, transportation plans and programs for metropolitan
1408 areas. The plans and programs for each metropolitan area must
1409 provide for the development and integrated management and
1410 operation of transportation systems and facilities, including
1411 pedestrian walkways and bicycle transportation facilities that
1412 will function as an intermodal transportation system for the
1413 metropolitan area, based upon the prevailing principles provided
1414 in s. 334.046(1). The process for developing such plans and
1415 programs shall provide for consideration of all modes of
1416 transportation and shall be continuing, cooperative, and
1417 comprehensive, to the degree appropriate, based on the
1418 complexity of the transportation problems to be addressed. To
1419 ensure that the process is integrated with the statewide
1420 planning process, M.P.O.'s shall develop plans and programs that
1421 identify transportation facilities that should function as an
1422 integrated metropolitan transportation system, giving emphasis
1423 to facilities that serve important national, state, and regional
1424 transportation functions. For the purposes of this section,
1425 those facilities include the facilities on the Strategic

1426 Intermodal System designated under s. 339.63 and facilities for
 1427 which projects have been identified pursuant to s. 339.2819(4).

1428 (2) DESIGNATION.—

1429 (a)1. An M.P.O. shall be designated for each urbanized
 1430 area of the state; however, this does not require that an
 1431 individual M.P.O. be designated for each such area. Such
 1432 designation shall be accomplished by agreement between the
 1433 Governor and units of general-purpose local government
 1434 representing at least 75 percent of the population of the
 1435 urbanized area; however, the unit of general-purpose local
 1436 government that represents the central city or cities within the
 1437 M.P.O. jurisdiction, as defined by the United States Bureau of
 1438 the Census, must be a party to such agreement.

1439 2. To the extent possible, only one M.P.O. shall be
 1440 designated for each urbanized area or group of contiguous
 1441 urbanized areas. More than one M.P.O. may be designated within
 1442 an existing urbanized area only if the Governor and the existing
 1443 M.P.O. determine that the size and complexity of the existing
 1444 urbanized area makes the designation of more than one M.P.O. for
 1445 the area appropriate. After July 1, 2025, no additional M.P.O.'s
 1446 may be designated in this state except in urbanized areas, as
 1447 defined by the United States Bureau of the Census, where the
 1448 urbanized area boundary is not contiguous to an urbanized area
 1449 designated before the 2020 census, in which case each M.P.O.
 1450 designated for the area must:

1451 ~~a. Consult with every other M.P.O. designated for the~~
1452 ~~urbanized area and the state to coordinate plans and~~
1453 ~~transportation improvement programs.~~

1454 ~~b. Ensure, to the maximum extent practicable, the~~
1455 ~~consistency of data used in the planning process, including data~~
1456 ~~used in forecasting travel demand within the urbanized area.~~

1457
1458 Each M.P.O. required under this section must be fully operative
1459 no later than 6 months following its designation.

1460 (6) POWERS, DUTIES, AND RESPONSIBILITIES.—The powers,
1461 privileges, and authority of an M.P.O. are those specified in
1462 this section or incorporated in an interlocal agreement
1463 authorized under s. 163.01. Each M.P.O. shall perform all acts
1464 required by federal or state laws or rules, now and subsequently
1465 applicable, which are necessary to qualify for federal aid. It
1466 is the intent of this section that each M.P.O. be involved in
1467 the planning and programming of transportation facilities,
1468 including, but not limited to, airports, intercity and high-
1469 speed rail lines, seaports, and intermodal facilities, to the
1470 extent permitted by state or federal law. An M.P.O. may not
1471 perform project production or delivery for capital improvement
1472 projects on the State Highway System.

1473 (b) In developing the long-range transportation plan and
1474 the transportation improvement program required under paragraph
1475 (a), each M.P.O. shall provide for consideration of projects and

1476 strategies that will:

1477 1. Support the economic vitality of the contiguous
1478 urbanized metropolitan area, especially by enabling global
1479 competitiveness, productivity, and efficiency.

1480 2. Increase the safety and security of the transportation
1481 system for motorized and nonmotorized users.

1482 3. Increase the accessibility and mobility options
1483 available to people and for freight.

1484 4. Protect and enhance the environment, conserve natural
1485 resources ~~promote energy conservation~~, and improve quality of
1486 life.

1487 5. Enhance the integration and connectivity of the
1488 transportation system, across and between modes and contiguous
1489 urbanized metropolitan areas, for people and freight.

1490 6. Promote efficient system management and operation.

1491 7. Emphasize the preservation of the existing
1492 transportation system.

1493 8. Improve the resilience of transportation
1494 infrastructure.

1495 9. Reduce traffic and congestion.

1496 ~~(i) By December 31, 2023, the M.P.O.'s serving~~
1497 ~~Hillsborough, Pasco, and Pinellas Counties must submit a~~
1498 ~~feasibility report to the Governor, the President of the Senate,~~
1499 ~~and the Speaker of the House of Representatives exploring the~~
1500 ~~benefits, costs, and process of consolidation into a single~~

1501 ~~M.P.O. serving the contiguous urbanized area, the goal of which~~
1502 ~~would be to:~~

1503 ~~1. Coordinate transportation projects deemed to be~~
1504 ~~regionally significant.~~

1505 ~~2. Review the impact of regionally significant land use~~
1506 ~~decisions on the region.~~

1507 ~~3. Review all proposed regionally significant~~
1508 ~~transportation projects in the transportation improvement~~
1509 ~~programs.~~

1510 ~~(i)1.(j)1.~~ To more fully accomplish the purposes for which
1511 M.P.O.'s have been mandated, the department shall, at least
1512 annually, convene M.P.O.'s of similar size, based on the size of
1513 population served, for the purpose of exchanging best practices.

1514 M.P.O.'s ~~may shall~~ develop committees or working groups as
1515 needed to accomplish such purpose. At the discretion of the
1516 department, training for new M.P.O. governing board members
1517 shall be provided by the department, by an entity pursuant to a
1518 contract with the department, by the Florida Center for Urban
1519 Transportation Research, or by the Implementing Solutions from
1520 Transportation Research and Evaluation of Emerging Technologies
1521 (I-STREET) living lab coordination mechanisms with one another
1522 ~~to expand and improve transportation within the state. The~~
1523 ~~appropriate method of coordination between M.P.O.'s shall vary~~
1524 ~~depending upon the project involved and given local and regional~~
1525 ~~needs. Consequently, it is appropriate to set forth a flexible~~

1526 ~~methodology that can be used by M.P.O.'s to coordinate with~~
1527 ~~other M.P.O.'s and appropriate political subdivisions as~~
1528 ~~circumstances demand.~~

1529 2. Any M.P.O. may join with any other M.P.O. or any
1530 individual political subdivision to coordinate activities or to
1531 achieve any federal or state transportation planning or
1532 development goals or purposes consistent with federal or state
1533 law. When an M.P.O. determines that it is appropriate to join
1534 with another M.P.O. or any political subdivision to coordinate
1535 activities, the M.P.O. or political subdivision shall enter into
1536 an interlocal agreement pursuant to s. 163.01, which, at a
1537 minimum, creates a separate legal or administrative entity to
1538 coordinate the transportation planning or development activities
1539 required to achieve the goal or purpose; provides the purpose
1540 for which the entity is created; provides the duration of the
1541 agreement and the entity and specifies how the agreement may be
1542 terminated, modified, or rescinded; describes the precise
1543 organization of the entity, including who has voting rights on
1544 the governing board, whether alternative voting members are
1545 provided for, how voting members are appointed, and what the
1546 relative voting strength is for each constituent M.P.O. or
1547 political subdivision; provides the manner in which the parties
1548 to the agreement will provide for the financial support of the
1549 entity and payment of costs and expenses of the entity; provides
1550 the manner in which funds may be paid to and disbursed from the

1551 entity; and provides how members of the entity will resolve
1552 disagreements regarding interpretation of the interlocal
1553 agreement or disputes relating to the operation of the entity.
1554 Such interlocal agreement shall become effective upon its
1555 recordation in the official public records of each county in
1556 which a member of the entity created by the interlocal agreement
1557 has a voting member. Multiple M.P.O.'s may merge, combine, or
1558 otherwise join together as a single M.P.O.

1559 (7) LONG-RANGE TRANSPORTATION PLAN.—Each M.P.O. must
1560 develop a long-range transportation plan that addresses at least
1561 a 20-year planning horizon. The plan must include both long-
1562 range and short-range strategies and must comply with all other
1563 state and federal requirements. The prevailing principles to be
1564 considered in the long-range transportation plan are: preserving
1565 the existing transportation infrastructure; enhancing Florida's
1566 economic competitiveness; and improving travel choices to ensure
1567 mobility. The long-range transportation plan must be consistent,
1568 to the maximum extent feasible, with future land use elements
1569 and the goals, objectives, and policies of the approved local
1570 government comprehensive plans of the units of local government
1571 located within the jurisdiction of the M.P.O. Each M.P.O. is
1572 encouraged to consider strategies that integrate transportation
1573 and land use planning to provide for sustainable development and
1574 reduce greenhouse gas emissions. The approved long-range
1575 transportation plan must be considered by local governments in

1576 the development of the transportation elements in local
 1577 government comprehensive plans and any amendments thereto. The
 1578 long-range transportation plan must, at a minimum:

1579 (a) Identify transportation facilities, including, but not
 1580 limited to, major roadways, airports, seaports, spaceports,
 1581 commuter rail systems, transit systems, and intermodal or
 1582 multimodal terminals that will function as an integrated
 1583 metropolitan transportation system. The long-range
 1584 transportation plan must give emphasis to those transportation
 1585 facilities that serve national, statewide, or regional
 1586 functions, and must consider the goals and objectives identified
 1587 in the Florida Transportation Plan as provided in s. 339.155. If
 1588 a project is located within the boundaries of more than one
 1589 M.P.O., the M.P.O.'s must coordinate plans regarding the project
 1590 in the long-range transportation plan. ~~Multiple M.P.O.'s within~~
 1591 ~~a contiguous urbanized area must coordinate the development of~~
 1592 ~~long-range transportation plans to be reviewed by the~~
 1593 ~~Metropolitan Planning Organization Advisory Council.~~

1594 (b) Include a financial plan that demonstrates how the
 1595 plan can be implemented, indicating resources from public and
 1596 private sources which are reasonably expected to be available to
 1597 carry out the plan, and recommends any additional financing
 1598 strategies for needed projects and programs. The financial plan
 1599 may include, for illustrative purposes, additional projects that
 1600 would be included in the adopted long-range transportation plan

1601 if reasonable additional resources beyond those identified in
1602 the financial plan were available. For the purpose of developing
1603 the long-range transportation plan, the M.P.O. and the
1604 department shall cooperatively develop estimates of funds that
1605 will be available to support the plan implementation. Innovative
1606 financing techniques may be used to fund needed projects and
1607 programs. Such techniques may include the assessment of tolls,
1608 public-private partnerships, the use of value capture financing,
1609 or the use of value pricing. Multiple M.P.O.'s within a
1610 contiguous urbanized area must ensure, to the maximum extent
1611 possible, the consistency of data used in the planning process.

1612 (d) Indicate, as appropriate, proposed transportation
1613 enhancement activities, including, but not limited to,
1614 pedestrian and bicycle facilities, trails or facilities that are
1615 regionally significant or critical linkages for the Florida
1616 Shared-Use Nonmotorized Trail Network, scenic easements,
1617 landscaping, integration of advanced air mobility, and
1618 integration of autonomous and electric vehicles, electric
1619 bicycles, and motorized scooters used for freight, commuter, or
1620 micromobility purposes ~~historic preservation, mitigation of~~
1621 ~~water pollution due to highway runoff, and control of outdoor~~
1622 ~~advertising.~~

1623
1624 In the development of its long-range transportation plan, each
1625 M.P.O. must provide the public, affected public agencies,

1626 representatives of transportation agency employees, freight
1627 shippers, providers of freight transportation services, private
1628 providers of transportation, representatives of users of public
1629 transit, and other interested parties with a reasonable
1630 opportunity to comment on the long-range transportation plan.
1631 The long-range transportation plan must be approved by the
1632 M.P.O.

1633 (10) AGREEMENTS; ACCOUNTABILITY.—

1634 (a) Each M.P.O. may execute a written agreement with the
1635 department, which shall be reviewed, and updated as necessary,
1636 every 5 years, which clearly establishes the cooperative
1637 relationship essential to accomplish the transportation planning
1638 requirements of state and federal law. Roles, responsibilities,
1639 and expectations for accomplishing consistency with federal and
1640 state requirements and priorities must be set forth in the
1641 agreement. In addition, the agreement must set forth the
1642 M.P.O.'s responsibility, in collaboration with the department,
1643 to identify, prioritize, and present to the department a
1644 complete list of multimodal transportation projects consistent
1645 with the needs of the metropolitan planning area. It is the
1646 department's responsibility to program projects in the state
1647 transportation improvement program.

1648 (b) The department must establish, in collaboration with
1649 each M.P.O., quality performance metrics such as safety,
1650 infrastructure condition, congestion relief, and mobility. Each

1651 M.P.O. must, as part of its long-range transportation plan, in
1652 direct coordination with the department, develop targets for
1653 each performance measure within the metropolitan planning area
1654 boundary. The performance targets must support efficient and
1655 safe movement of people and goods both within the metropolitan
1656 planning area and between regions. Each M.P.O. must report
1657 progress toward establishing performance targets for each
1658 measure annually in its transportation improvement plan. The
1659 department shall evaluate and post on its website whether each
1660 M.P.O. has made significant progress toward its target for the
1661 applicable reporting period.

1662 ~~(11) METROPOLITAN PLANNING ORGANIZATION ADVISORY COUNCIL.~~

1663 ~~(a) A Metropolitan Planning Organization Advisory Council~~
1664 ~~is created to augment, and not supplant, the role of the~~
1665 ~~individual M.P.O.'s in the cooperative transportation planning~~
1666 ~~process described in this section.~~

1667 ~~(b) The council shall consist of one representative from~~
1668 ~~each M.P.O. and shall elect a chairperson annually from its~~
1669 ~~number. Each M.P.O. shall also elect an alternate representative~~
1670 ~~from each M.P.O. to vote in the absence of the representative.~~
1671 ~~Members of the council do not receive any compensation for their~~
1672 ~~services, but may be reimbursed from funds made available to~~
1673 ~~council members for travel and per diem expenses incurred in the~~
1674 ~~performance of their council duties as provided in s. 112.061.~~

1675 ~~(c) The powers and duties of the Metropolitan Planning~~

1676 ~~Organization Advisory Council are to:~~

1677 1. ~~Establish bylaws by action of its governing board~~
1678 ~~providing procedural rules to guide its proceedings and~~
1679 ~~consideration of matters before the council, or, alternatively,~~
1680 ~~adopt rules pursuant to ss. 120.536(1) and 120.54 to implement~~
1681 ~~provisions of law conferring powers or duties upon it.~~

1682 2. ~~Assist M.P.O.'s in carrying out the urbanized area~~
1683 ~~transportation planning process by serving as the principal~~
1684 ~~forum for collective policy discussion pursuant to law.~~

1685 3. ~~Serve as a clearinghouse for review and comment by~~
1686 ~~M.P.O.'s on the Florida Transportation Plan and on other issues~~
1687 ~~required to comply with federal or state law in carrying out the~~
1688 ~~urbanized area transportation and systematic planning processes~~
1689 ~~instituted pursuant to s. 339.155. The council must also report~~
1690 ~~annually to the Florida Transportation Commission on the~~
1691 ~~alignment of M.P.O. long-range transportation plans with the~~
1692 ~~Florida Transportation Plan.~~

1693 4. ~~Employ an executive director and such other staff as~~
1694 ~~necessary to perform adequately the functions of the council,~~
1695 ~~within budgetary limitations. The executive director and staff~~
1696 ~~are exempt from part II of chapter 110 and serve at the~~
1697 ~~direction and control of the council. The council is assigned to~~
1698 ~~the Office of the Secretary of the Department of Transportation~~
1699 ~~for fiscal and accountability purposes, but it shall otherwise~~
1700 ~~function independently of the control and direction of the~~

1701 ~~department.~~

1702 ~~5. Deliver training on federal and state program~~
1703 ~~requirements and procedures to M.P.O. board members and M.P.O.~~
1704 ~~staff.~~

1705 ~~6. Adopt an agency strategic plan that prioritizes steps~~
1706 ~~the agency will take to carry out its mission within the context~~
1707 ~~of the state comprehensive plan and any other statutory mandates~~
1708 ~~and directives.~~

1709 ~~(d) The Metropolitan Planning Organization Advisory~~
1710 ~~Council may enter into contracts in accordance with chapter 287~~
1711 ~~to support the activities described in paragraph (c). Lobbying~~
1712 ~~and the acceptance of funds, grants, assistance, gifts, or~~
1713 ~~bequests from private, local, state, or federal sources are~~
1714 ~~prohibited.~~

1715 **Section 16. Subsection (4) of section 339.65, Florida**
1716 **Statutes, is amended to read:**

1717 339.65 Strategic Intermodal System highway corridors.—

1718 (4) The department shall develop and maintain a plan of
1719 Strategic Intermodal System highway corridor projects that are
1720 anticipated to be let to contract for construction within a time
1721 period of at least 20 years. The department shall prioritize
1722 projects that address gaps in a corridor so that the corridor
1723 becomes contiguous. The plan shall also identify when segments
1724 of the corridor will meet the standards and criteria developed
1725 pursuant to subsection (5).

1726 **Section 17. Section 339.84, Florida Statutes, is amended**
1727 **to read:**

1728 339.84 Workforce development.—

1729 (1) Beginning in the 2023-2024 fiscal year and annually
1730 thereafter for 5 years, \$5 million shall be allocated from the
1731 State Transportation Trust Fund to the workforce development
1732 program as provided in s. 334.044(35) to promote career paths in
1733 Florida's road and bridge industry.

1734 (2) In fiscal years 2025-2026 through 2029-2030, the
1735 department may expend up to \$5 million each fiscal year for
1736 grants to Florida College System institutions and high schools
1737 for the purchase of equipment simulators with authentic original
1738 equipment manufacturer controls. Each grant recipient must offer
1739 an elective course in heavy civil construction the curriculum of
1740 which is specifically designed to use the simulator and other
1741 instructional aides to, at a minimum, provide the student with
1742 OSHA 10 Construction certification and an equipment simulator
1743 certification. In awarding such grants, the department shall
1744 give priority to Florida College System institutions and high
1745 schools in rural communities as defined in s. 288.0656(2).

1746 **Section 18. Paragraph (b) of subsection (2) of section**
1747 **202.20, Florida Statutes, is amended to read:**

1748 202.20 Local communications services tax conversion
1749 rates.—

1750 (2)

1751 (b) Except as otherwise provided in this subsection,
 1752 "replaced revenue sources," as used in this section, means the
 1753 following taxes, charges, fees, or other impositions to the
 1754 extent that the respective local taxing jurisdictions were
 1755 authorized to impose them prior to July 1, 2000.

1756 1. With respect to municipalities and charter counties and
 1757 the taxes authorized by s. 202.19(1):

1758 a. The public service tax on telecommunications authorized
 1759 by former s. 166.231(9).

1760 b. Franchise fees on cable service providers as authorized
 1761 by 47 U.S.C. s. 542.

1762 c. The public service tax on prepaid calling arrangements.

1763 d. Franchise fees on dealers of communications services
 1764 which use the public roads or rights-of-way, up to the limit set
 1765 forth in s. 337.401. For purposes of calculating rates under
 1766 this section, it is the legislative intent that charter counties
 1767 be treated as having had the same authority as municipalities to
 1768 impose franchise fees on recurring local telecommunication
 1769 service revenues prior to July 1, 2000. However, the Legislature
 1770 recognizes that the authority of charter counties to impose such
 1771 fees is in dispute, and the treatment provided in this section
 1772 is not an expression of legislative intent that charter counties
 1773 actually do or do not possess such authority.

1774 e. Actual permit fees relating to placing or maintaining
 1775 facilities in or on public roads or rights-of-way, collected

1776 from providers of long-distance, cable, and mobile
1777 communications services for the fiscal year ending September 30,
1778 1999; however, if a municipality or charter county elects the
1779 option to charge permit fees pursuant to s. 337.401(4)(c) ~~s.~~
1780 ~~337.401(3)(e)~~, such fees shall not be included as a replaced
1781 revenue source.

1782 2. With respect to all other counties and the taxes
1783 authorized in s. 202.19(1), franchise fees on cable service
1784 providers as authorized by 47 U.S.C. s. 542.

1785 **Section 19. Paragraph (e) of subsection (2) of section**
1786 **331.310, Florida Statutes, is amended to read:**

1787 331.310 Powers and duties of the board of directors.—

1788 (2) The board of directors shall:

1789 (e) Prepare an annual report of operations as a supplement
1790 to the annual report required under s. 331.3051(15) ~~s.~~

1791 ~~331.3051(16)~~. The report must include, but not be limited to, a
1792 balance sheet, an income statement, a statement of changes in
1793 financial position, a reconciliation of changes in equity
1794 accounts, a summary of significant accounting principles, the
1795 auditor's report, a summary of the status of existing and
1796 proposed bonding projects, comments from management about the
1797 year's business, and prospects for the next year.

1798 **Section 20. Section 610.106, Florida Statutes, is amended**
1799 **to read:**

1800 610.106 Franchise fees prohibited.—Except as otherwise

1801 provided in this chapter, the department may not impose any
1802 taxes, fees, charges, or other impositions on a cable or video
1803 service provider as a condition for the issuance of a state-
1804 issued certificate of franchise authority. No municipality or
1805 county may impose any taxes, fees, charges, or other exactions
1806 on certificateholders in connection with use of public right-of-
1807 way as a condition of a certificateholder doing business in the
1808 municipality or county, or otherwise, except such taxes, fees,
1809 charges, or other exactions permitted by chapter 202, s.
1810 337.401(7) ~~s. 337.401(6)~~, or s. 610.117.

1811 **Section 21.** The Legislature finds that the widening of
1812 that portion of Interstate 4 between U.S. Highway 27 in Polk
1813 County and Interstate 75 in Hillsborough County is in the public
1814 interest and in the strategic interest of the region to improve
1815 the movement of people and goods. The Department of
1816 Transportation shall develop a report that includes, but is not
1817 limited to, detailed costs for project development and
1818 environmental studies, design, acquisition of rights-of-way, and
1819 construction and a schedule to complete the widening as
1820 expeditiously as possible. Such report shall identify funding
1821 shortfalls and strategies to address such shortfalls, including,
1822 but not limited to, using express lane toll revenues generated
1823 on the Interstate 4 corridor and other available department
1824 funds for public-private partnerships. The department shall
1825 submit the report by December 31, 2025, to the Governor, the

1826 President of the Senate, and the Speaker of the House of
 1827 Representatives.

1828 **Section 22.** By October 31, 2025, the Department of
 1829 Transportation shall submit to the Governor, the President of
 1830 the Senate, and the Speaker of the House of Representatives a
 1831 report that provides a comprehensive review of the boundaries of
 1832 each of the department's districts and whether any district's
 1833 boundaries should be redrawn as a result of population growth
 1834 and increased urban density.

1835 **Section 23. Section 332.135, Florida Statutes, is created**
 1836 **to read:**

1837 332.135 Airport authorities created as independent special
 1838 districts; master plans.—

1839 (1) For purposes of this section, the term:

1840 (a) "Airport authority" means a multicounty airport
 1841 authority created as an independent special district.

1842 (b) "Airport development" means the construction,
 1843 reconstruction, conversion, structural alteration, relocation,
 1844 enlargement, or demolition of a structure on property owned by
 1845 an airport authority, whether undertaken by the airport
 1846 authority itself or by one of its tenants.

1847 (c) "Host local government" means:

1848 1. The municipality or county that would, in the absence
 1849 of the exemption provided by this section, exercise jurisdiction
 1850 to enforce permitting requirements, plan reviews, building and

1851 zoning requirements, and inspection fees for existing and
1852 proposed airport development; or

1853 2. A unit of local government that is responsible for
1854 maintaining public facilities serving an airport.

1855 (2) This section is not mandatory, but serves as an
1856 alternative to compliance by an airport authority with local
1857 government land development regulations. However, any airport
1858 authority invoking its authority under this section shall comply
1859 with the requirements of this section.

1860 (3)(a) An airport authority invoking its authority under
1861 this section shall prepare and adopt an airport master plan in
1862 accordance with 49 U.S.C. s. 47101, which shall be subject to
1863 review and acceptance by the Federal Aviation Administration.

1864 (b) The airport master plan must address public facilities
1865 and services including roads, sanitary sewer, solid waste,
1866 drainage, potable water, parks and recreation, and public
1867 transportation. For each such facility or service, the plan
1868 shall:

1869 1. Identify the level-of-service standard established by
1870 the host local government.

1871 2. Identify the entity that will provide the service to
1872 the airport.

1873 3. Describe any financial arrangements between the airport
1874 authority and other entities relating to the provision of the
1875 facility or service.

1876
1877 The plan shall also determine the impact of existing and
1878 proposed airport development reasonably expected over the term
1879 of the airport master plan on each service or facility and any
1880 deficiencies in such service or facility which the development
1881 will create or to which it will contribute.

1882 (c) Before adopting an airport master plan, the airport
1883 authority shall send a draft of the plan to the host local
1884 governments who shall have 90 days to conduct a review and
1885 provide comments to the airport authority. Within 10 days
1886 thereafter, the airport authority shall advertise the
1887 commencement of the review period in a newspaper of general
1888 circulation. The airport authority shall also hold an informal
1889 informational session for public participation, which shall be
1890 announced in the advertisement at least 10 days in advance.
1891 Following receipt and consideration of all comments, the airport
1892 authority shall hold a public hearing, after which it may adopt
1893 the airport master plan as originally drafted or as it might be
1894 revised based on the comments received from the host local
1895 governments and members of the public. The airport master plan
1896 shall be posted on the airport authority's website and updated
1897 at least every 10 years.

1898 (4) (a) Before commencing construction of a new or expanded
1899 airport improvement that will create significant impact on the
1900 public facilities for which the host local government has

1901 maintenance responsibilities, the airport authority shall submit
1902 to the host local government a written request for a
1903 determination of consistency with its comprehensive plan. Within
1904 45 days after receipt of such request, the host local government
1905 shall determine, in writing, whether the proposed improvement is
1906 consistent with its comprehensive plan. If the determination is
1907 affirmative, construction may commence, and further local
1908 government review or approval is not required.

1909 (b) Failure of the host local government to make a
1910 determination in writing within the 45-day period shall be
1911 deemed an affirmative determination of consistency. To the
1912 extent further review by the host local government is required
1913 due to a determination of inconsistency, standards and
1914 conditions may not be imposed which conflict with those
1915 established in the airport master plan or the Florida Building
1916 Code.

1917 (5) An airport master plan may not conflict with the
1918 comprehensive plan of the host local government adopted under
1919 part II of chapter 163 or with the state comprehensive plan.
1920 However, an existing or proposed airport development that is
1921 consistent with the airport master plan may not be deemed
1922 inconsistent with the host local government's comprehensive plan
1923 or the state's comprehensive plan based solely on the
1924 development's design and layout, or its location, intensity,
1925 scale, building size, mass, bulk, height and orientation, lot

1926 coverage, lot size or configuration, architecture, screening,
 1927 buffers, setbacks, signage, lighting, internal traffic
 1928 circulation patterns, loading area locations, operation hours,
 1929 noise, odor, or other factors of compatibility.

1930 (6) If the airport authority proposes to expand the
 1931 boundaries of the airport site, it shall notify the applicable
 1932 host local governments, in writing, in which case the host local
 1933 governments may impose reasonable development standards and
 1934 conditions on new development within the expanded land area, but
 1935 only to address the impacts of the new improvement on public
 1936 facilities for which the host local government has maintenance
 1937 responsibilities. Standards and conditions may not be imposed
 1938 which conflict with those established in this section or the
 1939 Florida Building Code.

1940 (7) An airport authority that has adopted an airport
 1941 master plan pursuant to this section is the exclusive local
 1942 enforcement agency under part IV of chapter 553 and has
 1943 jurisdiction within the lands subject to the airport master plan
 1944 to conduct plan reviews, issue permits, and make inspections of
 1945 buildings and to enforce the Florida Building Code and the
 1946 Florida Fire Prevention Code. The airport authority must use
 1947 personnel or contract providers certified under part XII of
 1948 chapter 468 to conduct the plan reviews and make the inspections
 1949 required by such codes. Developments are exempt from all other
 1950 state building codes and all county and municipal land

1951 development regulations, building codes, permitting
 1952 requirements, plan reviews, or inspection fees, except as
 1953 provided in s. 553.80.

1954 **Section 24. Section 332.136, Florida Statutes, is created**
 1955 **to read:**

1956 332.136 Sarasota Manatee Airport Authority; airport pilot
 1957 program.—

1958 (1) There is established an airport pilot program at the
 1959 Sarasota Manatee Airport Authority (SMAA). The purpose of the
 1960 pilot program is to determine long-term feasibility of
 1961 alternative airport permitting procedures.

1962 (2) (a) The SMAA shall prepare and adopt an airport master
 1963 plan in accordance with 49 U.S.C. s. 47101, which shall be
 1964 subject to review and acceptance by the Federal Aviation
 1965 Administration.

1966 (b) The airport master plan must address public facilities
 1967 and services including roads, sanitary sewer, solid waste,
 1968 drainage, potable water, parks and recreation, and public
 1969 transportation. For each such facility or service, the plan
 1970 shall:

1971 1. Identify the level-of-service standard established by
 1972 the host local government.

1973 2. Identify the entity that will provide the service to
 1974 the SMAA.

1975 3. Describe any financial arrangements between the SMAA

1976 and other entities relating to the provision of the facility or
1977 service.

1978
1979 The plan shall also determine the impact of existing and
1980 proposed airport development reasonably expected over the term
1981 of the airport master plan on each service or facility and any
1982 deficiencies in such service or facility which the development
1983 will create or to which it will contribute.

1984 (c) Before adopting an airport master plan, the SMAA shall
1985 send the plan to the host local governments who shall have 90
1986 days to conduct a review and provide comments to the SMAA.
1987 Within 10 days thereafter, the SMAA shall advertise the
1988 commencement of the review period in a newspaper of general
1989 circulation. The SMAA shall also hold an informal informational
1990 session for public participation, which shall be announced in
1991 the advertisement at least 10 days in advance. Following receipt
1992 and consideration of all comments, the SMAA shall hold a public
1993 hearing, after which it may adopt the airport master plan as
1994 originally drafted or as it might be revised based on the
1995 comments received from the host local governments and members of
1996 the public. The airport master plan shall be published on the
1997 SMAA's website and updated at least every 10 years.

1998 (3) (a) Before commencing construction of a new or expanded
1999 airport improvement that will create significant impact on the
2000 public facilities for which the host local government has

2001 maintenance responsibilities, the SMAA shall submit to the host
2002 local government a written request for a determination of
2003 consistency with its comprehensive plan. Within 45 days after
2004 receipt of such request, the host local government shall
2005 determine, in writing, whether the proposed improvement is
2006 consistent with its comprehensive plan. If the determination is
2007 affirmative, construction may commence, and further host local
2008 government review or approval is not required.

2009 (b) Failure of the host local government to make a
2010 determination, in writing, within the 45-day period shall be
2011 deemed an affirmative determination of consistency. To the
2012 extent further review by the host local government is required
2013 due to a determination of inconsistency, standards and
2014 conditions may not be imposed which conflict with those
2015 established in the airport master plan or the Florida Building
2016 Code.

2017 (4) An airport master plan may not conflict with the
2018 comprehensive plan of the host local government adopted under
2019 part II of chapter 163 or with the state comprehensive plan.
2020 However, an existing or proposed airport development that is
2021 consistent with the airport master plan may not be deemed
2022 inconsistent with the host local government comprehensive plan
2023 or the state comprehensive plan based solely on the
2024 development's design and layout, or its location, intensity,
2025 scale, building size, mass, bulk, height and orientation, lot

2026 coverage, lot size of configuration, architecture, screening,
2027 buffers, setbacks, signage, lighting, internal traffic
2028 circulation patterns, loading area locations, operation hours,
2029 noise, odor, or other factors of compatibility.

2030 (5) If the SMAA proposes to expand the boundaries of the
2031 airport site, it shall notify the applicable host local
2032 governments, in writing, in which case the host local
2033 governments may impose reasonable development standards and
2034 conditions on new development within the expanded land area, but
2035 only to address the impacts of the new improvement on public
2036 facilities for which the host local government has maintenance
2037 responsibilities. Standards and conditions may not be imposed
2038 which conflict with those established in this section or the
2039 Florida Building Code.

2040 (6) The SMAA is the exclusive local enforcement agency
2041 under part IV of chapter 553 and has jurisdiction within the
2042 lands subject to the airport master plan to conduct plan
2043 reviews, issue permits, and make inspections of buildings and to
2044 enforce the Florida Building Code and the Florida Fire
2045 Prevention Code. The SMAA must use personnel or contract
2046 providers appropriately certified under part XII of chapter 468
2047 to conduct the plan reviews and make the inspections required by
2048 such codes. Developments are exempt from all other state
2049 building codes and county and municipal land development
2050 regulations, building codes, permitting requirements, plan

2051 reviews, or inspection fees, except as provided in s. 553.80.

2052 (7) The Department of Transportation shall adopt rules as
 2053 necessary to implement the pilot program.

2054 (8) By December 1, 2027, the Department of Transportation
 2055 shall submit a report to the Governor, the President of the
 2056 Senate, and the Speaker of the House of Representatives
 2057 regarding any recommendations as to how to expand the pilot
 2058 program to additional airports or whether to make legislative
 2059 changes to the pilot program to increase the pilot program's
 2060 effectiveness or to terminate the pilot program.

2061 (9) This section is repealed on June 30, 2028, unless
 2062 reviewed and saved from appeal through reenactment by the
 2063 Legislature.

2064 **Section 25.** This act shall take effect July 1, 2025.
