11 information technology resources to ensure availability,

12 confidentiality, and integrity. The cybersecurity standards must

13 be consistent with generally accepted best practices for

14 cybersecurity, including the National Institute of Standards and

15 Technology Cybersecurity Framework.

16   2. A local government may not impose cybersecurity

17 standards or processes on a vendor that exceed the standards or

18 processes established under this paragraph, except as necessary

19 to comply with state or federal laws, or with industry-specific

20 requirements applicable to regulated sectors. For purposes of

21 this paragraph, "vendor" means a sole proprietorship,

22 partnership, corporation, trust, estate, cooperative,

23 association, or other commercial entity that contracts with a

24 local government to provide information technology commodities

25 or services.

26   3. A local government may not adopt or enforce any

27 cybersecurity standards or processes that are inconsistent with

28 this paragraph for contracts entered into or amended on or after

29 July 1, 2026.
