	PROGRAM: WATER POLICY AND ECOSYSTEMS RESTORATION			
	WATER POLICY AND ECOSYSTEMS RESTORATION			
	1581 SPECIAL CATEGORIES - WATER QUALITY ENHANCEMENT AND ACCOUNTABILITY			
42	Funds in Specific Appropriation 1581 are provided for increased water quality monitoring, creation of a water quality public information portal, and for the establishment of the Blue-Green Algae Task Force. Funds may be used for administration and planning costs. The task force will support key funding and restoration initiatives to expedite nutrient reduction in Lake Okeechobee and the St. Lucie and Caloosahatchee estuaries. The task force will identify priority projects for funding that are based on scientific data and build upon Basin Management Action Plans (BMAPs) to provide the largest and most meaningful nutrient reductions in key waterbodies, as well as make recommendations for regulatory changes.	Identical	Identical	The funds in Specific Appropriation 1581 are provided for increased water quality monitoring, creation of a water quality public information portal, and for the establishment of the Blue-Green Algae Task Force. 43	From the funds in Specific Appropriation 1581, up to \$4,000,000 in nonrecurring funds is provided to <u>may be used by</u> the Department of Environmental Protection to continue to expand statewide water quality analytics for the nutrient over-enrichment analytics assessment and water quality information portal.	House Modified Language	Senate	From the funds in Specific Appropriation 1581, \$4,000,000 in nonrecurring funds is provided to the Department of Environmental Protection to continue to expand statewide water quality analytics for the nutrient over-enrichment analytics assessment and water quality information portal to include a comprehensive statewide flood vulnerability and sea level rise data set.
	1588 GRANTS AND AIDS TO LOCAL GOVERNMENTS AND NONSTATE ENTITIES - FIXED CAPITAL OUTLAY - GRANTS AND AIDS - INNOVATIVE TECHNOLOGIES			
47	Funds in Specific Appropriation 1588 are provided to the Department of Environmental Protection for the purpose of supporting the evaluation and implementation of innovative technologies and short-term solutions to combat or clean up harmful algal blooms and nutrient enrichment of Florida's fresh waterbodies, including lakes, rivers, estuaries and canals. This program supports the efforts of the Blue-Green Algae Task Force consensus findings to address nutrient loads to impaired waterbodies affected by blue-green algae. Funds may be used for the Department's red tide emergency grant program to support local governments in cleaning beaches and coastal areas to minimize the impacts of red tide to residents and visitors. Funds may also be used to implement water quality treatment technologies, identified by the Department, near water control structures in Lake Okeechobee.	House	Senate Modified	Funds in Specific Appropriation 1588 are provided to the Department of Environmental Protection for the purpose of supporting the evaluation and implementation of innovative technologies and short-term solutions to combat or clean up harmful algal blooms and nutrient enrichment of Florida's fresh waterbodies, including lakes, rivers, estuaries and canals. 	WATER SCIENCE AND LABORATORY SERVICES			
	1633 FIXED CAPITAL OUTLAY - TOTAL MAXIMUM DAILY LOADS			
71	Funds provided in Specific Appropriation 1633 shall be used to monitor and assess water quality, set scientific water quality restoration goals (Total Maximum Daily Loads), and accelerate the implementation of the projects and actions set forth in restoration plans, such as Basin Management Action Plans (BMAPs) to address nutrient pollution, including green infrastructure and land acquisition projects. This program supports the efforts of the Blue-Green Algae Task Force consensus findings to address nutrient loads to impaired waterbodies affected by blue-green algae.	House	Senate	From the funds in Specific Appropriation 1633, the department may include innovative water treatment projects that demonstrate the ability to most rapidly achieve department verified phosphorous and/or nitrogen load reductions consistent with the nutrient load reduction goals and total maximum daily loads established by the department. The department may also provide cost-share funding for innovative nutrient removal projects.

	Back of the Bill			
116		House	Senate	SECTION 25. The Office of Economic and Demographic Research (EDR) shall perform a review of all land management activities performed on state owned lands, including but not limited to: prescribed burns, invasive plant and animal control, restoration and maintenance of natural habitats, mowing, reforestation, and maintenance of roads and bridges on state owned property. EDR shall analyze the costs, efficiencies, duplications of effort, or conflicts among managing entities and shall recommend whether land management activities shall be consolidated into one or more state entities. The report and recommendations shall be submitted to the Governor, President of the Senate, and Speaker of the House of Representatives by December 1, 2021. This section is effective upon becoming a law.
