A maximum of 10 percent of the amount appropriated for each project component, excluding the IV&V, SEAS, and MITA Business Architecture project components, may be reallocated once by the agency during Fiscal Year 2025-2026 to one or more project components with the exception of the IV&V, SEAS, and MITA Business Architecture project components. The agency is authorized to request this one-time reallocation of funds between eligible project components

in a quarterly budget amendment by December 31, 2025, pursuant to the provisions of chapter 216, Florida Statutes.

From the funds in Specific Appropriation *****, \$400,000 in nonrecurring funds from the General Revenue Fund and \$3,600,000 in nonrecurring funds from the Medical Care Trust Fund are provided as contingency appropriations for expenditures that are necessary to address an unforeseen technical challenge, security vulnerability, or compliance requirement essential to the implementation of the FX solution. The operational work plan must include project activities needed to continue to address all findings in the 2024 FX Special Assessment Report. Release of contingency funds are contingent upon a certification by the FX Executive Steering Committee that the expenditure addresses an unforeseen technical challenge, security vulnerability, or compliance requirement that poses a significant risk to the project timeline, budget, or successful implementation of the Program.

The agency shall contract with an independent verification and validation (IV&V) provider to provide IV&V services for all agency staff and vendor work needed to implement this project.
