Almighty God, you have been our dwelling place throughout every generation. Before the foundations of the world were laid, from everlasting to everlasting, you are our Creator and Sustainer. This morning, we come before you with grateful hearts, mindful of your abundant grace in our lives. We thank you for the many freedoms we enjoy in this country. Help us never to take them for granted.

Senator Avila moved the following amendment which was adopted:

Amendment 1 (740346) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 937.0401, Florida Statutes, is created to read:

937.0401 *Spectrum Alert.*—

(1) *The Legislature finds that autism spectrum disorder (ASD) significantly affects children in this country, creating unique challenges that can lead to critical safety risks, such as elopement or wandering behaviors in children. Children with ASD are prone to wander from safe environments at a higher rate than their non-autistic peers. Elopement frequently results in severe consequences, including fatal traffic accidents and drownings. Notably, drowning is the leading cause of death of children with ASD in this country, with Florida ranking fifth in the nation. The high propensity for elopement and the ineffectiveness of traditional search and response methods necessitate a robust system that will swiftly locate and ensure the safety of missing children with ASD. The Legislature finds that a standardized system is necessary to aid in the search for a missing child with ASD.*

(2) *By July 1, 2026, the Department of Law Enforcement, in cooperation with the Department of Transportation, the Department of Highway Safety and Motor Vehicles, the Department of the Lottery, and local law enforcement agencies, shall establish and implement the Spectrum Alert to enhance the safety and well-being of children with ASD through immediate and effective community and emergency response.*

(3) *By July 1, 2026, the Department of Law Enforcement, in cooperation with the Department of Transportation, the Department of Highway Safety and Motor Vehicles, the Department of the Lottery, and local law enforcement agencies, shall:*

(a) *Develop a training program and alert system for missing children with ASD which is compatible with existing alert systems. The training program must implement crisis intervention team training to equip law enforcement officers with the skills to understand ASD and other mental illnesses, to de-escalate interactions with children in crisis, to facilitate appropriate interventions, and to respond effectively to a reported missing child emergency when the child has ASD.*

(b) *Establish policies and procedures for responding to a reported missing child emergency when the child has ASD. The policies and procedures must, at a minimum, provide for all of the following:*

1. *Immediate and widespread dissemination of critical information when a child with ASD is reported missing.*

2. *Enhancement of emergency response teams' competence by informing them of the unique behaviors and needs of children with ASD.*

3. *Measures to increase public awareness and understanding of the risks associated with autism-related elopement, to foster community support for children with ASD.*

(c) *Require a law enforcement agency, at a minimum, to do all of the following upon receiving such a report:*

1. *Contact media outlets in the affected area or surrounding jurisdictions.*

2. *Inform all on-duty law enforcement officers of the reported missing child with ASD.*

3. *Communicate the report to all other law enforcement agencies in the counties surrounding the county in which the report was filed.*

(4) *The Department of Law Enforcement may adopt rules to implement and administer this section.*

Section 2. *For the 2025-2026 fiscal year, the sum of \$190,000 in nonrecurring funds is appropriated from the Operating Trust Fund within the Department of Law Enforcement to the Department of Law Enforcement for the purpose of implementing the Spectrum Alert.*

Section 3. This act shall take effect July 1, 2025.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to the Spectrum Alert; creating s. 937.0401, F.S.; providing legislative findings; requiring the Department of Law Enforcement, in cooperation with the Department of Transportation, the Department of Highway Safety and Motor Vehicles, the Department of the Lottery, and local law enforcement agencies, to establish and implement the Spectrum Alert by a specified date; requiring the department, in cooperation with specified entities, to develop a training program and alert system for missing children with autism spectrum disorder which is compatible with existing alert systems by a certain date; specifying requirements for the training program; requiring the Department of Law Enforcement to establish specified policies and procedures; authorizing the department to adopt rules; providing an appropriation; providing an effective date.

(5) SPONSOR; DUTIES.—

(b) Sponsor duties.—

- 1.a. The sponsor shall monitor and review the charter school in its progress toward the goals established in the charter.
- b. The sponsor shall monitor the revenues and expenditures of the charter school and perform the duties provided in s. 1002.345.
- c. The sponsor may approve a charter for a charter school before the applicant has identified space, equipment, or personnel, if the applicant indicates approval is necessary for it to raise working funds.
- d. The sponsor may not apply its policies to a charter school unless mutually agreed to by both the sponsor and the charter school. If the sponsor subsequently amends any agreed-upon sponsor policy, the version of the policy in effect at the time of the execution of the charter, or any subsequent modification thereof, shall remain in effect and the sponsor may not hold the charter school responsible for any provision of a newly revised policy until the revised policy is mutually agreed upon.
- e. The sponsor shall ensure that the charter is innovative and consistent with the state education goals established by s. 1000.03(5).
- f. The sponsor shall ensure that the charter school participates in the state's education accountability system. If a charter school falls

short of performance measures included in the approved charter, the sponsor shall report such shortcomings to the Department of Education.

g. The sponsor is not liable for civil damages under state law for personal injury, property damage, or death resulting from an act or omission of an officer, employee, agent, or governing body of the charter school.

h. The sponsor is not liable for civil damages under state law for any employment actions taken by an officer, employee, agent, or governing body of the charter school.

i. The sponsor's duties to monitor the charter school do not constitute the basis for a private cause of action.

j. The sponsor may not impose additional reporting requirements on a charter school as long as the charter school has not been identified as having a deteriorating financial condition or financial emergency pursuant to s. 1002.345.

k. *The sponsor may not impose upon a charter school administrative deadlines that are earlier than the sponsor's own corresponding deadlines for similar reports or submissions. Any deadline imposed upon a charter school for financial audits or other administrative requirements may not be earlier than 15 days before the sponsor's own deadline for similar submissions to the department.*

l. ~~k.~~ The sponsor shall submit an annual report to the Department of Education in a web-based format to be determined by the department.

(I) The report ~~must~~ *shall* include the following information:

(A) The number of applications received during the school year and up to August 1 and each applicant's contact information.

(B) The date each application was approved, denied, or withdrawn.

(C) The date each final contract was executed.

(II) Annually, by November 1, the sponsor shall submit to the department the information for the applications submitted the previous year.

(III) The department shall compile an annual report, by sponsor, and post the report on its website by January 15 of each year.

2. Immunity for the sponsor of a charter school under subparagraph 1. applies only with respect to acts or omissions not under the sponsor's direct authority as described in this section.

3. This paragraph does not waive a sponsor's sovereign immunity.

4. A Florida College System institution may work with the school district or school districts in its designated service area to develop charter schools that offer secondary education. These charter schools must include an option for students to receive an associate degree upon high school graduation. If a Florida College System institution operates an approved teacher preparation program under s. 1004.04 or s. 1004.85, the institution may operate charter schools that serve students in kindergarten through grade 12 in any school district within the service area of the institution. District school boards shall cooperate with and assist the Florida College System institution on the charter application. Florida College System institution applications for charter schools are not subject to the time deadlines outlined in subsection (6) and may be approved by the district school board at any time during the year. Florida College System institutions may not report FTE for any students participating under this subparagraph who receive FTE funding through the Florida Education Finance Program.

5. For purposes of assisting the development of a charter school, a school district may enter into nonexclusive interlocal agreements with federal and state agencies, counties, municipalities, and other governmental entities that operate within the geographical borders of the school district to act on behalf of such governmental entities in the inspection, issuance, and other necessary activities for all necessary permits, licenses, and other permissions that a charter school needs in order for development, construction, or operation. A charter school may use, but may not be required to use, a school district for these services. The interlocal agreement must include, but need not be limited to, the

identification of fees that charter schools will be charged for such services. The fees must consist of the governmental entity's fees plus a fee for the school district to recover no more than actual costs for providing such services. These services and fees are not included within the services to be provided pursuant to subsection (20). Notwithstanding any other provision of law, an interlocal agreement or ordinance that imposes a greater regulatory burden on charter schools than school districts or that prohibits or limits the creation of a charter school is void and unenforceable. An interlocal agreement entered into by a school district for the development of only its own schools, including provisions relating to the extension of infrastructure, may be used by charter schools.

6. The board of trustees of a sponsoring state university or Florida College System institution under paragraph (a) is the local educational agency for all charter schools it sponsors for purposes of receiving federal funds and accepts full responsibility for all local educational agency requirements and the schools for which it will perform local educational agency responsibilities. A student enrolled in a charter school that is sponsored by a state university or Florida College System institution may not be included in the calculation of the school district's grade under s. 1008.34(5) for the school district in which he or she resides.

(c) Sponsor accountability.—

1. The department shall, in collaboration with charter school sponsors and charter school operators, develop a sponsor evaluation framework that must address, at a minimum:

- a. The sponsor's strategic vision for charter school authorization and the sponsor's progress toward that vision.
- b. The alignment of the sponsor's policies and practices to best practices for charter school authorization.
- c. The academic and financial performance of all operating charter schools overseen by the sponsor.
- d. The status of charter schools authorized by the sponsor, including approved, operating, and closed schools.

2. The department shall compile the results by sponsor and include the results in the report required under sub-sub-subparagraph (b) 1.1.(III) ~~(b) 1.1.(III)~~.

(9) CHARTER SCHOOL REQUIREMENTS.—

(s) *A charter school governing board may adopt its own code of student conduct. The code of student conduct must meet or exceed the minimum standards set forth in the sponsor's code of student conduct. Any provision of the code of student conduct which is more stringent than the sponsor's code of student conduct must align with the mission of the charter school. The sponsor may review the code and offer recommendations. Any complaint or appeal related to the code of student conduct must be resolved by the charter school's governing board using the board's established procedures and must be in compliance with applicable law and rules.*

(10) ELIGIBLE STUDENTS.—

(d) A charter school may give enrollment preference to the following student populations:

1. Students who are siblings of a student enrolled in the charter school.
2. Students who are the children of a member of the governing board of the charter school.
3. Students who are the children of an employee of the charter school.

8. Students who are the children of a safe-school officer, as defined in s. 1006.12, at the school.

9. Students who transfer from a classical school in this state to a charter classical school in this state. For purposes of this subparagraph, the term "classical school" means a traditional public school or charter school that implements a classical education model that emphasizes the development of students in the principles of moral character and civic virtue through a well-rounded education in the liberal arts and sciences which is based on the classical trivium stages of grammar, logic, and rhetoric.

(h) The capacity of the charter school shall be determined annually by the governing board, in conjunction with the sponsor, of the charter school in consideration of the factors identified in this subsection *and subsection (18)* unless the charter school is designated as a high-performing charter school pursuant to s. 1002.331. A sponsor may not require a charter school to waive the provisions of s. 1002.331 or require a student enrollment cap that prohibits a high-performing charter school from increasing enrollment in accordance with s. 1002.331(2) as a condition of approval or renewal of a charter.

(16) EXEMPTION FROM STATUTES.—

(b) Additionally, a charter school shall be in compliance with the following statutes:

deleting obsolete provisions that provide legislative findings and require the Department of Environmental Protection to review and update a specified report; preempting the regulation of auxiliary containers to the state; permitting rules, regulations, or ordinances restricting the use of glass auxiliary containers within the boundaries of a public beach; authorizing the Division of Recreation and Parks to regulate auxiliary containers within state parks; amending ss. 403.706 and 403.707, F.S.; prohibiting a local government and the Department of Environmental Protection, respectively, from issuing a construction permit for certain solid waste disposal facilities in certain counties; providing applicability; conforming a provision to changes made by the act; conforming cross-references; amending ss. 403.7049 and 403.705, F.S.; conforming cross-references; providing an effective date.

—was read the second time by title.

Senator Smith moved the following amendment which failed:

Amendment 1 (225580) (with title amendment)—Delete lines 100-130 and insert: 403.7033 *Regulation of auxiliary containers* ~~Departmental analysis of particular recyclable materials. The Legislature finds that prudent regulation of recyclable materials is crucial to the ongoing welfare of Florida's ecology and economy. As such, the Department of Environmental Protection shall review and update its 2010 report on retail bags analyzing the need for new or different regulation of auxiliary containers, wrappings, or disposable plastic bags used by consumers to carry products from retail establishments. The updated report must include input from state and local government agencies, stakeholders, private businesses, and citizens and must evaluate the efficiency and necessity of both statewide and local regulation of these materials. To ensure consistent and effective implementation, the department shall submit the updated report with conclusions and recommendations to the Legislature no later than December 31, 2021. Until such time that the Legislature adopts the recommendations of the department,~~

(1) *The department shall develop uniform ordinances for the use, disposition, sale, or distribution of single-use, non recyclable auxiliary containers which may be adopted and enforced by local governments.*

(2) *The development of the uniform ordinances pursuant to this section must be a collaborative process that involves a broad range of stakeholders, with the objective of encouraging cooperation and achieving consensus on standards for auxiliary container regulation. In developing the uniform ordinances, the department shall hold at least two public workshops with stakeholders, local governments, environmental groups, businesses, and other members of the public. The department shall allow public participation in person and through communications media technology. To maximize public participation, a workshop may not be held in the same geographic region of this state more than once before all other regions have hosted a workshop.*

(3) *In developing the uniform ordinances pursuant to this section, the department shall consider all of the following:*

(a) *Limiting the distribution and use of single-use, non recyclable auxiliary containers by requiring that such containers be provided only upon customer request or for a mandatory fee.*

(b) *Promoting the use of recyclable or compostable auxiliary containers and encouraging businesses to offer voluntary incentives for customers using reusable auxiliary containers.*

(c) *Establishing waste reduction and collection programs for single-use auxiliary containers.*

(d) *Creating enforcement mechanisms, including penalties, for businesses that do not comply with auxiliary container ordinances.*

(4) *The department shall begin engaging with stakeholders to develop uniform ordinances no later than October 1, 2025, and shall enact them by October 1, 2026.*

(5) *A local government or, local governmental agency, or state governmental agency may not enact any rule, regulation, or ordinance regarding the use, disposition, sale, prohibition, restriction, or tax of such auxiliary containers which is inconsistent with the uniform ordinances developed pursuant to this section. This subsection does not apply to rules, regulations, or ordinances restricting the use of glass auxiliary*

containers within the boundaries of any public beach within the jurisdiction of a local government or local governmental agency; wrappings, or disposable plastic bags.

And the title is amended as follows:

Delete lines 8-14 and insert: update a specified report; requiring the department to develop uniform ordinances for the use, disposition, sale, or distribution of single-use, non recyclable auxiliary containers; requiring that the development of such ordinances be a collaborative process; requiring the department to hold a specified number of public workshops with certain groups; requiring the department to allow in-person and electronic public participation in the workshops; prohibiting a workshop from being held in the same geographic region more than once under certain circumstances; requiring the department to consider certain information when developing the uniform ordinances; requiring the department to engage with stakeholders and develop the uniform ordinances by a certain date; prohibiting certain entities from enacting certain laws relating to the use, disposition, sale, prohibition, restriction, or tax of auxiliary containers which are inconsistent with specified provisions; providing applicability; amending ss. 403.706 and 403.707, F.S.;

Pending further consideration of **CS for CS for SB 1822**, pursuant to Rule 3.11(3), there being no objection, **CS for HB 1609** was withdrawn from the Committee on Rules.

On motion by Senator Martin, the rules were waived and—

CS for HB 1609—A bill to be entitled An act relating to waste incineration; amending ss. 403.706 and 403.707, F.S.; prohibiting a local government or the Department of Environmental Protection, respectively, from issuing a construction permit for a certain new solid waste disposal facility or a waste-to-energy facility in specified areas; providing applicability; conforming cross-references; amending ss. 403.703, 403.7049, and 403.705, F.S.; conforming cross-references; providing an effective date.

—a companion measure, was substituted for **CS for CS for SB 1822** and read the second time by title.

Senator Martin moved the following amendment:

Amendment 1 (397706) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Present subsections (2) through (48) of section 403.703, Florida Statutes, are redesignated as sections (3) through (49), respectively, a new subsection (2) is added to that section, and present subsections (6), (7), (21), and (35) of that section are amended, to read:

403.703 Definitions.—As used in this part, the term:

(2) *“Auxiliary container” means a reusable or single-use bag, cup, bottle, can, or other packaging that meets both of the following requirements:*

(a) *Is made of cloth; paper; plastic, including, but not limited to, foamed plastic, expanded plastic, or polystyrene; cardboard; corrugated material; molded fiber; aluminum; glass; postconsumer recycled material; or similar material or substrates, including coated, laminated, or multilayer substrates.*

(b) *Is designed for transporting, consuming, or protecting merchandise, food, or beverages from or at a public food service establishment as defined in s. 509.013(5), a food establishment as defined in s. 500.03(1), or a retailer as defined in s. 212.02(13).*

(7)(6) *“Construction and demolition debris” means discarded materials generally considered to be not water-soluble and nonhazardous in nature, including, but not limited to, steel, glass, brick, concrete, asphalt roofing material, pipe, gypsum wallboard, and lumber, from the construction or destruction of a structure as part of a construction or demolition project or from the renovation of a structure, and includes rocks, soils, tree remains, trees, and other vegetative matter that normally results from land clearing or land development operations for a construction project, including such debris from construction of structures at a site remote from the construction or demolition project site. Mixing of construction and demolition debris with other types of solid*

waste will cause the resulting mixture to be classified as other than construction and demolition debris. The term also includes:

(a) Clean cardboard, paper, plastic, wood, and metal scraps from a construction project;

(b) Except as provided in s. 403.707(10)(j) ~~s. 403.707(9)(j)~~, yard trash and unpainted, nontreated wood scraps and wood pallets from sources other than construction or demolition projects;

(c) Scrap from manufacturing facilities which is the type of material generally used in construction projects and which would meet the definition of construction and demolition debris if it were generated as part of a construction or demolition project. This includes debris from the construction of manufactured homes and scrap shingles, wallboard, siding concrete, and similar materials from industrial or commercial facilities; and

(d) De minimis amounts of other nonhazardous wastes that are generated at construction or destruction projects, provided such amounts are consistent with best management practices of the industry.

(8)(7) “County,” or any like term, means a political subdivision of the state established pursuant to s. 1, Art. VIII of the State Constitution and, when s. 403.706(20) ~~s. 403.706(19)~~ applies, means a special district or other entity.

(22)(21) “Municipality,” or any like term, means a municipality created pursuant to general or special law authorized or recognized pursuant to s. 2 or s. 6, Art. VIII of the State Constitution and, when s. 403.706(20) ~~s. 403.706(19)~~ applies, means a special district or other entity.

(36)(35) “Solid waste” means sludge unregulated under the federal Clean Water Act or Clean Air Act, sludge from a waste treatment works, water supply treatment plant, or air pollution control facility, or garbage, rubbish, refuse, special waste, or other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from domestic, industrial, commercial, mining, agricultural, or governmental operations. Recovered materials as defined in subsection (29) ~~(28)~~ and post-use polymers as defined in subsection (25) ~~(24)~~ are not solid waste.

Section 2. Section 403.7033, Florida Statutes, is amended to read:

403.7033 *Preemption of regulation for auxiliary containers* ~~Departmental analysis of particular recyclable materials. The Legislature finds that prudent regulation of recyclable materials is crucial to the ongoing welfare of Florida's ecology and economy. As such, the Department of Environmental Protection shall review and update its 2010 report on retail bags analyzing the need for new or different regulation of auxiliary containers, wrappings, or disposable plastic bags used by consumers to carry products from retail establishments. The updated report must include input from state and local government agencies, stakeholders, private businesses, and citizens and must evaluate the efficacy and necessity of both statewide and local regulation of these materials. To ensure consistent and effective implementation, the department shall submit the updated report with conclusions and recommendations to the Legislature no later than December 31, 2021. Until such time that the Legislature adopts the recommendations of the department,~~

(1) *The regulation of auxiliary containers is expressly preempted to the state.* A local government, local governmental agency, or state governmental agency may not enact or enforce any rule, regulation, or ordinance regarding the use, disposition, sale, prohibition, restriction, or tax of such auxiliary containers *unless explicitly permitted by statute.*

(2) *Rules, regulations, or ordinances restricting the use of glass auxiliary containers within the boundaries of any public beach are explicitly permitted.*

(3) *The Division of Recreation and Parks of the Department of Environmental Protection may regulate auxiliary containers within state parks consistent with its grant of authority in s. 258.004, wrappings, or disposable plastic bags.*

Section 3. Present subsections (2) through (23) of section 403.706, Florida Statutes, are redesignated as subsections (3) through (24), re-

spectively, a new subsection (2) is added to that section, and present subsections (4), (6), (7), and (20) of that section are amended, to read:

403.706 Local government solid waste responsibilities.—

(2) *A local government may not issue a construction permit pursuant to this section for a new solid waste disposal facility that uses an ash-producing incinerator or for a waste-to-energy facility, if the proposed location of such facility is sited within a 1-mile radius of any school or any property zoned for residential use within that same county which has a density of one or more dwelling units per acre. The 1-mile radius must be measured from the stack of the facility. This subsection applies only to a county as defined in s. 125.011(1).*

(5)(a)(4)(a) In order to promote the production of renewable energy from solid waste, each megawatt-hour produced by a renewable energy facility using solid waste as a fuel shall count as 1 ton of recycled material and shall be applied toward meeting the recycling goals set forth in this section. If a county creating renewable energy from solid waste implements and maintains a program to recycle at least 50 percent of municipal solid waste by a means other than creating renewable energy, that county shall count 1.25 tons of recycled material for each megawatt-hour produced. If waste originates from a county other than the county in which the renewable energy facility resides, the originating county shall receive such recycling credit. Any byproduct resulting from the creation of renewable energy that is recycled shall count towards the county recycling goals in accordance with the methods and criteria developed pursuant to paragraph (3)(h) ~~(2)(h)~~.

(b) A county may receive credit for one-half of the recycling goal set forth in subsection (3) ~~(2)~~ from the use of yard trash, or other clean wood waste or paper waste, in innovative programs including, but not limited to, programs that produce alternative clean-burning fuels such as ethanol or that provide for the conversion of yard trash or other clean wood waste or paper waste to clean-burning fuel for the production of energy for use at facilities other than a waste-to-energy facility as defined in s. 403.7061. The provisions of this paragraph apply only if a county can demonstrate that:

1. The county has implemented a yard trash mulching or composting program, and

2. As part of the program, compost and mulch made from yard trash is available to the general public and in use at county-owned or maintained and municipally owned or maintained facilities in the county and state agencies operating in the county as required by this section.

(c) A county with a population of 100,000 or less may provide its residents with the opportunity to recycle in lieu of achieving the goal set forth in this section. For the purposes of this section, the “opportunity to recycle” means that the county:

1.a. Provides a system for separating and collecting recyclable materials prior to disposal that is located at a solid waste management facility or solid waste disposal area; or

b. Provides a system of places within the county for collection of source-separated recyclable materials.

2. Provides a public education and promotion program that is conducted to inform its residents of the opportunity to recycle, encourages source separation of recyclable materials, and promotes the benefits of reducing, reusing, recycling, and composting materials.

(7)(6) The department may reduce or modify the municipal solid waste recycling goal that a county is required to achieve pursuant to subsection (3) ~~(2)~~ if the county demonstrates to the department that:

(a) The achievement of the goal set forth in subsection (3) ~~(2)~~ would have an adverse effect on the financial obligations of a county that are directly related to a waste-to-energy facility owned or operated by or on behalf of the county; and

(b) The county cannot remove normally combustible materials from solid waste that is to be processed at a waste-to-energy facility because of the need to maintain a sufficient amount of solid waste to ensure the financial viability of the facility.

The goal shall not be waived entirely and may only be reduced or modified to the extent necessary to alleviate the adverse effects of achieving the goal on the financial viability of a county's waste-to-energy facility. Nothing in this subsection shall exempt a county from developing and implementing a recycling program pursuant to this act.

(8)(7) In order to assess the progress in meeting the goal set forth in subsection (3) ~~(2)~~, each county shall, by April 1 each year, provide information to the department regarding its annual solid waste management program and recycling activities.

(a) The information submitted to the department by the county must, at a minimum, include:

1. The amount of municipal solid waste disposed of at solid waste disposal facilities, by type of waste such as yard trash, white goods, clean debris, tires, and unseparated solid waste;

2. The amount and type of materials from the municipal solid waste stream that were recycled; and

3. The percentage of the population participating in various types of recycling activities instituted.

(b) Beginning with the data for the 2012 calendar year, the department shall by July 1 each year post on its website the recycling rates of each county for the prior calendar year.

(21)(20) In addition to any other penalties provided by law, a local government that does not comply with the requirements of subsections (3) and (5) ~~is (2) and (4) shall~~ not be eligible for grants from the Solid Waste Management Trust Fund, and the department may notify the Chief Financial Officer to withhold payment of all or a portion of funds payable to the local government by the department from the General Revenue Fund or by the department from any other state fund, to the extent not pledged to retire bonded indebtedness, unless the local government demonstrates that good faith efforts to meet the requirements of subsections (3) and (5) ~~(2) and (4)~~ have been made or that the funds are being or will be used to finance the correction of a pollution control problem that spans jurisdictional boundaries.

Section 4. Present subsections (6) through (14) of section 403.707, Florida Statutes, are redesignated as subsections (7) through (15), respectively, a new subsection (6) is added to that section, and paragraph (j) of present subsection (9) of that section is amended, to read:

403.707 Permits.—

(6) *The department may not issue a construction permit pursuant to this section for a new solid waste disposal facility that uses an ash-producing incinerator or for a waste-to-energy facility, if the proposed location of such facility is sited within a 1-mile radius of any school or any property zoned for residential use within that same county which has a density of one or more dwelling units per acre. The 1-mile radius must be measured from the stack of the facility. This subsection applies only to a county as defined in s. 125.011(1).*

(10)(9) The department shall establish a separate category for solid waste management facilities that accept only construction and demolition debris for disposal or recycling. The department shall establish a reasonable schedule for existing facilities to comply with this section to avoid undue hardship to such facilities. However, a permitted solid waste disposal unit that receives a significant amount of waste prior to the compliance deadline established in this schedule shall not be required to be retrofitted with liners or leachate control systems.

(j) The Legislature recognizes that recycling, waste reduction, and resource recovery are important aspects of an integrated solid waste management program and as such are necessary to protect the public health and the environment. If necessary to promote such an integrated program, the county may determine, after providing notice and an opportunity for a hearing prior to April 30, 2008, that some or all of the material described in s. 403.703(7)(b) ~~s. 403.703(6)(b)~~ shall be excluded from the definition of "construction and demolition debris" in s. 403.703(7) ~~s. 403.703(6)~~ within the jurisdiction of such county. The county may make such a determination only if it finds that, prior to June 1, 2007, the county has established an adequate method for the use or recycling of such wood material at an existing or proposed solid waste management facility that is permitted or authorized by the de-

partment on June 1, 2007. The county is not required to hold a hearing if the county represents that it previously has held a hearing for such purpose, or if the county represents that it previously has held a public meeting or hearing that authorized such method for the use or recycling of trash or other nonputrescible waste materials and that such materials include those materials described in s. 403.703(7)(b) ~~s. 403.703(6)(b)~~. The county shall provide written notice of its determination to the department by no later than April 30, 2008; thereafter, the materials described in s. 403.703(7) ~~s. 403.703(6)~~ shall be excluded from the definition of "construction and demolition debris" in s. 403.703(7) ~~s. 403.703(6)~~ within the jurisdiction of such county. The county may withdraw or revoke its determination at any time by providing written notice to the department.

Section 5. Subsection (5) of section 403.7049, Florida Statutes, is amended to read:

403.7049 Determination of full cost for solid waste management; local solid waste management fees.—

(5) In order to assist in achieving the municipal solid waste reduction goal and the recycling provisions of s. 403.706(3) ~~s. 403.706(2)~~, a county or a municipality which owns or operates a solid waste management facility is hereby authorized to charge solid waste disposal fees which may vary based on a number of factors, including, but not limited to, the amount, characteristics, and form of recyclable materials present in the solid waste that is brought to the county's or the municipality's facility for processing or disposal.

Section 6. Paragraph (c) of subsection (2) and subsection (3) of section 403.705, Florida Statutes, are amended to read:

403.705 State solid waste management program.—

(2) The state solid waste management program shall include, at a minimum:

(c) Planning guidelines and technical assistance to counties and municipalities to aid in meeting the municipal solid waste recycling goals established in s. 403.706(3) ~~s. 403.706(2)~~.

(3) The department shall evaluate and report biennially to the President of the Senate and the Speaker of the House of Representatives on the state's success in meeting the solid waste recycling goal as described in s. 403.706(3) ~~s. 403.706(2)~~.

Section 7. This act shall take effect July 1, 2025.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to waste management; amending s. 403.703, F.S.; defining the term "auxiliary container"; conforming cross-references; amending s. 403.7033, F.S.; deleting obsolete provisions that provide legislative findings and require the Department of Environmental Protection to review and update a specified report; preempting the regulation of auxiliary containers to the state; permitting rules, regulations, or ordinances restricting the use of glass auxiliary containers within the boundaries of a public beach; authorizing the Division of Recreation and Parks to regulate auxiliary containers within state parks; amending ss. 403.706 and 403.707, F.S.; prohibiting a local government and the Department of Environmental Protection, respectively, from issuing a construction permit for certain solid waste disposal facilities in certain counties; providing applicability; conforming a provision to changes made by the act; conforming cross-references; amending ss. 403.7049 and 403.705, F.S.; conforming cross-references; providing an effective date.

1.a. *Provides a system for separating and collecting recyclable materials prior to disposal that is located at a solid waste management facility or solid waste disposal area; or*

b. *Provides a system of places within the county for collection of source-separated recyclable materials.*

2. *Provides a public education and promotion program that is conducted to inform its residents of the opportunity to recycle, encourages source separation of recyclable materials, and promotes the benefits of reducing, reusing, recycling, and composting materials.*

(8)(6) *The department may reduce or modify the municipal solid waste recycling goal that a county is required to achieve pursuant to subsection (4) ~~(2)~~ if the county demonstrates to the department that:*

(a) *The achievement of the goal set forth in subsection (4) ~~(2)~~ would have an adverse effect on the financial obligations of a county that are*

directly related to a waste-to-energy facility owned or operated by or on behalf of the county; and

(b) The county cannot remove normally combustible materials from solid waste that is to be processed at a waste-to-energy facility because of the need to maintain a sufficient amount of solid waste to ensure the financial viability of the facility.

The goal shall not be waived entirely and may only be reduced or modified to the extent necessary to alleviate the adverse effects of achieving the goal on the financial viability of a county's waste-to-energy facility. Nothing in this subsection shall exempt a county from developing and implementing a recycling program pursuant to this act.

(9)(7) In order to assess the progress in meeting the goal set forth in subsection (4) ~~(2)~~, each county shall, by April 1 each year, provide information to the department regarding its annual solid waste management program and recycling activities.

(a) The information submitted to the department by the county must, at a minimum, include:

1. The amount of municipal solid waste disposed of at solid waste disposal facilities, by type of waste such as yard trash, white goods, clean debris, tires, and unseparated solid waste;

2. The amount and type of materials from the municipal solid waste stream that were recycled; and

3. The percentage of the population participating in various types of recycling activities instituted.

(b) Beginning with the data for the 2012 calendar year, the department shall by July 1 each year post on its website the recycling rates of each county for the prior calendar year.

(22)(20) In addition to any other penalties provided by law, a local government that does not comply with the requirements of subsections (4) and (6) ~~is (2) and (4) shall not be eligible for grants from the Solid Waste Management Trust Fund, and the department may notify the Chief Financial Officer to withhold payment of all or a portion of funds payable to the local government by the department from the General Revenue Fund or by the department from any other state fund, to the extent not pledged to retire bonded indebtedness, unless the local government demonstrates that good faith efforts to meet the requirements of subsections (4) and (6) (2) and (4) have been made or that the funds are being or will be used to finance the correction of a pollution control problem that spans jurisdictional boundaries.~~

Section 4. Present subsections (6) through (14) of section 403.707, Florida Statutes, are redesignated as subsections (8) through (16), respectively, new subsections (6) and (7) are added to that section, and paragraph (j) of present subsection (9) of that section is amended, to read:

403.707 Permits.—

(6) *The department may not issue a construction permit pursuant to this section for a new solid waste disposal facility that uses an ash-producing incinerator or for a waste-to-energy facility, if the proposed location of such facility is sited within a 1-mile radius of any school or any property zoned for residential use within that same county which has a density of one or more dwelling units per acre. The 1-mile radius must be measured from the stack of the facility. This subsection applies only to a county as defined in s. 125.011(1).*

(7) *The department may not issue a construction permit pursuant to this section for the expansion of any existing landfill that was permitted on or before December 2, 1970, the date on which the United States Environmental Protection Agency was established, and that is located within a 1-mile radius of any property zoned residential unless the entirety of the site is remediated and compliant with the department's environmental standards.*

(a) *A feasibility study must be conducted before the issuance of a permit to expand the existing landfill. The feasibility study must do all of the following:*

1. *Identify potential waste-to-energy technologies and processes that reduce landfill dependence and greenhouse gas emissions including, but not limited to, anaerobic digestion, plasma arc technology, and mixed waste processing.*

2. *Evaluate the financial costs of such technologies and processes and the benefits of local siting and government ownership.*

3. *Evaluate the technical feasibility of expansion, considering engineering requirements, infrastructure needs, technological advancements, and regulatory compliance.*

4. *Evaluate relevant and appropriate data and analyses, such as surveys, studies, community goals and vision, and data used in preparation of the comprehensive plan, from professionally accepted sources.*

5. *Identify and evaluate potential risks and challenges associated with the project.*

(b) *The department shall review and discuss in a public meeting the results of the feasibility study and provide a rationale for expanding the landfill.*

(11)(9) The department shall establish a separate category for solid waste management facilities that accept only construction and demolition debris for disposal or recycling. The department shall establish a reasonable schedule for existing facilities to comply with this section to avoid undue hardship to such facilities. However, a permitted solid waste disposal unit that receives a significant amount of waste prior to the compliance deadline established in this schedule shall not be required to be retrofitted with liners or leachate control systems.

(j) The Legislature recognizes that recycling, waste reduction, and resource recovery are important aspects of an integrated solid waste management program and as such are necessary to protect the public health and the environment. If necessary to promote such an integrated program, the county may determine, after providing notice and an opportunity for a hearing prior to April 30, 2008, that some or all of the material described in s. 403.703(7)(b) ~~s. 403.703(6)(b)~~ shall be excluded from the definition of "construction and demolition debris" in s. 403.703(7) ~~s. 403.703(6)~~ within the jurisdiction of such county. The county may make such a determination only if it finds that, prior to June 1, 2007, the county has established an adequate method for the use or recycling of such wood material at an existing or proposed solid waste management facility that is permitted or authorized by the department on June 1, 2007. The county is not required to hold a hearing if the county represents that it previously has held a hearing for such purpose, or if the county represents that it previously has held a public meeting or hearing that authorized such method for the use or recycling of trash or other nonputrescible waste materials and that such materials include those materials described in s. 403.703(7)(b) ~~s. 403.703(6)(b)~~. The county shall provide written notice of its determination to the department by no later than April 30, 2008; thereafter, the materials described in s. 403.703(7) ~~s. 403.703(6)~~ shall be excluded from the definition of "construction and demolition debris" in s. 403.703(7) ~~s. 403.703(6)~~ within the jurisdiction of such county. The county may withdraw or revoke its determination at any time by providing written notice to the department.

Section 5. Subsection (5) of section 403.7049, Florida Statutes, is amended to read:

403.7049 Determination of full cost for solid waste management; local solid waste management fees.—

(5) In order to assist in achieving the municipal solid waste reduction goal and the recycling provisions of s. 403.706(4) ~~s. 403.706(2)~~, a county or a municipality which owns or operates a solid waste management facility is hereby authorized to charge solid waste disposal fees which may vary based on a number of factors, including, but not limited to, the amount, characteristics, and form of recyclable materials present in the solid waste that is brought to the county's or the municipality's facility for processing or disposal.

Section 6. Paragraph (c) of subsection (2) and subsection (3) of section 403.705, Florida Statutes, are amended to read:

403.705 State solid waste management program.—

(2) The state solid waste management program shall include, at a minimum:

(c) Planning guidelines and technical assistance to counties and municipalities to aid in meeting the municipal solid waste recycling goals established in s. 403.706(4) ~~s. 403.706(2)~~.

(3) The department shall evaluate and report biennially to the President of the Senate and the Speaker of the House of Representatives on the state's success in meeting the solid waste recycling goal as described in s. 403.706(4) ~~s.~~

And the title is amended as follows:

Amendment 1 (253202) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Effective July 1, 2026, upon legislative ratification of rules of the Financial Services Commission and the Chief Financial Officer as provided in section 17 of this act, paragraph (j) of subsection (1) of section 212.05, Florida Statutes, is amended to read:

212.05 Sales, storage, use tax.—It is hereby declared to be the legislative intent that every person is exercising a taxable privilege who engages in the business of selling tangible personal property at retail in this state, including the business of making or facilitating remote sales; who rents or furnishes any of the things or services taxable under this chapter; or who stores for use or consumption in this state any item or article of tangible personal property as defined herein and who leases or rents such property within the state.

(1) For the exercise of such privilege, a tax is levied on each taxable transaction or incident, which tax is due and payable as follows:

(j)1. Notwithstanding any other provision of this chapter, there is hereby levied a tax on the sale, use, consumption, or storage for use in this state of any coin or currency, whether in circulation or not, when such coin or currency:

- a. Is not legal tender;
- b. If legal tender, is sold, exchanged, or traded at a rate in excess of its face value; or
- c. Is sold, exchanged, or traded at a rate based on its precious metal content.

2. Such tax shall be at a rate of 6 percent of the price at which the coin or currency is sold, exchanged, or traded, except that, with respect to a coin or currency that ~~which~~ is legal tender of the United States or any gold coin or silver coin recognized as legal tender in this state pursuant to s. 215.986 and that ~~which~~ is sold, exchanged, or traded, such tax shall not be levied. *The person who claims the sales tax exemption bears the burden of determining whether the gold coin or silver coin meets the definitions provided in s. 215.986. In the absence of evidence to the contrary, there is a presumption that the gold coin or silver coin meets the percent purity requirements provided in s. 215.986 based upon:*

- a. *The purity imprinted or stamped on the gold coin or silver coin; or*
- b. *An electronic transfer, as defined in s. 215.986(1)(b), of a gold coin or silver coin or any fraction thereof.*

3. There are exempt from this tax exchanges of coins or currency which are in general circulation in, and legal tender of, one nation for coins or currency which are in general circulation in, and legal tender of, another nation when exchanged solely for use as legal tender and at an exchange rate based on the relative value of each as a medium of exchange.

4. With respect to any transaction that involves the sale of coins or currency taxable under this paragraph in which the taxable amount represented by the sale of such coins or currency exceeds \$500, the entire amount represented by the sale of such coins or currency is exempt from the tax imposed under this paragraph. The dealer must maintain proper documentation, as prescribed by rule of the department, to identify that portion of a transaction which involves the sale of coins or currency and is exempt under this subparagraph.

Section 2. Effective July 1, 2026, upon legislative ratification of rules of the Financial Services Commission and the Chief Financial Officer as provided in section 17 of this act, section 215.986, Florida Statutes, is created to read:

(a) “Debt” means an obligation for the payment of money under express contract.

(b) “Electronic transfer” means any instruction, other than a transaction by check, draft, or similar paper instrument, which is initiated through debit card, mobile application, or computer to order, instruct, or authorize a financial institution as defined in s. 655.005(1)(i) or a money services business as defined in s. 560.103 to debit or credit an account with gold coin or silver coin or any fraction thereof, or the equivalent coin or currency of the United States or foreign currency converted at current market price. An “electronic transfer” includes, but is not limited to, an instruction in a debit card transaction that authorizes the debit or credit of an account in a single, integrated step at the point of sale.

(c) “Gold coin” means a precious metal with the chemical element of atomic number 79 in solid form, in the shape of rounds, bars, ingots, or bullion coins, which is valued for its metal content and stamped or imprinted with its weight and purity and which solid form of chemical element atomic number 79 consists of at least 99.5 percent purity. The term does not include any goods as defined in s. 672.105(1), such as jewelry, other items of utility, such as picture frames, or collectables.

Such coins or currency do not fall within the scope of this section and this section does not reauthorize or redesignate such coins or currency as legal tender. To the extent that any gold coin or silver coin minted or issued by the United States or a foreign government falls within the definitions in this section, federal law recognizing whether the foreign or United States minted or issued coins are legal tender, including any United States coins denominated in United States dollars, shall prevail.
