about us

FairDistrictsFlorida.org is a nonpartisan state committee working to reform the way our state draws legislative congressional district lines by establishing constitutionally mandated fairness standards.

Mission statement

FairDistrictsFlorida.org has drafted two amendments to the Florida Constitution which it plans to put or through the citizen initiative process. These amendments would establish fairness standards for use in congressional and congressional district boundaries. While protecting minority voting rights, the standards would prohibit lines to favor or disfavor any incumbent or political party. Districts would have to be compact and utilize natural and geographical boundaries. In other words, natural competitiveness and fairness would be required.

Under Florida law, these proposed amendments can be placed on the ballot after Supreme Court approval of approximately 676,811 signed petitions for each amendment.

With your support, FairDistrictsFlorida.org will have the resources to end the political free-for-all and rigged system that requires natural fairness and competition in legislative and congressional elections. Florida has a chance to choose their representatives in Congress and the legislature. Legislators will no longer be permitted the system to preserve their own power and the dominance of their party.
