Amendment 1 (145148)(with title amendment)—On page 1, line 10, insert:

Section 1. (1) *The Legislature intends to ensure that all high schools provide supportive services to students and their parents to determine the comprehensive program of study that will best meet the needs and goals of each student. At a minimum, these services must include access to a guidance counselor and assistance in developing an educational and career plan. Each high school shall provide a variety of comprehensive, relevant programs of study which will meet the needs of all students and enable each student to pursue his or her individual educational and career goals.*

(2) *Key components of this process are:*

(a) *A variety of programs of study which are based on individual educational and career goals.*

(b) *Parental involvement in the identification of the appropriate program of study.*

(c) *Assurance that all programs of study are designed to provide a seamless transition to an appropriate postsecondary education and employment.*

Section 2. (1) *A career and technical education program within a comprehensive high school program of study must be certified or endorsed by the appropriate industry to ensure that all components of the program are relevant and appropriate to prepare the student for further education and employment in that industry.*

(2) *Effective July 1, 2006, each career and technical program preparing for postsecondary education and employment offered as part of a comprehensive program of study in a high school must be industry-certified or endorsed, except for courses classified as exploratory, orientation, or practical arts. A student enrolled in a course within a career and technical program that is not industry-certified may not be reported for full-time equivalent funding through the Florida Education Finance Program unless the course is classified as exploratory, orientation, or practical arts. The Department of Education shall assure that each program is certified by July 1, 2006, and recertified at least every 5 years. The department shall adopt rules for the certification process, and the rules*

must establish any necessary procedures for obtaining appropriate business partners and requirements for business and industry involvement in curriculum oversight and equipment procurement.

(3) Each full-time equivalent student in an industry-certified or endorsed career and technical program generates 1.15 times the cost factor for students enrolled in the basic program for grades 9-12, as provided by section 236.081, Florida Statutes, and the annual General Appropriations Act.

(4) Effective July 1, 2006, each career and technical education program offered by a high school and able to be articulated to a postsecondary level must also have an articulation agreement with one or more appropriate postsecondary education institutions to ensure a seamless transition to a related postsecondary program without a loss of credit for the student. Students enrolled in a program that is not articulated to a postsecondary program may not be reported for full-time equivalent student funding through the Florida Education Finance Program unless the course is classified as exploratory, orientation, or practical arts or terminates at the high school level.

Section 3. (1) A comprehensive program of study in career and technical education must be designed to ensure that, upon completion of the program of study and graduation from high school, a student is prepared to continue his or her education at a postsecondary education institution and obtain employment. Therefore, a comprehensive career and technical program of study must require of each student:

(a) Completion of academic courses with a designation from the Department of Education of level two or above. All credits earned to meet graduation requirements in mathematics, science, and communication must have that designation.

(b) Attainment of at least one occupational completion point in an industry-certified or endorsed career and technical education program or completion of at least two courses in a technology education program.

(c) Completion of a one-credit core course addressing workplace-readiness skills. The Department of Education shall define in rule the content of the course and shall assure that the course meets graduation requirements for performing arts or practical arts. The course requirement may be satisfied through infusing course content into existing select career and technical education course.

(d) Participation in work-based learning experiences, as defined in rule by the Department of Education.

(e) Participation in a capstone activity that includes a project related to a career. This activity is designed to apply and demonstrate the competencies and concepts attained in the student's program of study. The Department of Education may specify in rule characteristics of capstone activities that meet the intent of this paragraph.

(2) The Legislature intends to recognize with an endorsement on the high school diploma a student who:

(a) Completes the requirements for high school graduation as provided in section 232.246, Florida Statutes, and the additional requirements for a comprehensive career and technical program of study provided in subsection (1).

(b) Passes the college entry-level placement test or an equivalent test identified by the department with a score adequate to enroll in a public postsecondary education program without the need for college preparatory or vocational preparatory instruction.

(3) The endorsement indicates that the student is prepared to continue into postsecondary education without the need for remediation and that the student has marketable employment skills. The Department of Education may adopt by rule a standard format for the endorsement.

(4) For each student who receives the endorsement on his or her diploma, the school district shall receive incentive funding, as provided in section 236.081, Florida Statutes, and the annual General Appropriations Act.

(5) A school district that generates funds as a result of industry-certified programs or incentive funding for student achievement of the endorsement must expend the total amount on the comprehensive career

and technical program of study. The district may not apply indirect charges to incentive funds earned.

Section 4. The Legislature finds that, to adequately assist students in advanced technical and academic career planning, high school guidance counselors and career specialists require preservice and inservice professional development programs that contain sufficient information on career education.

(1) Each guidance counselor and career specialist in a school with technical education programs certified as provided in section 2 of this act shall complete 12 inservice points in technical education and career development which include:

(a) An emphasis on labor-market trends and projections;

(b) A practicum that focuses on development of a career-awareness program; and

(c) Content related to a career or employment within the counselor's work experience.

(2) The Department of Education shall assist guidance counselors and career specialists in attaining the additional inservice required. The State Board of Education shall revise rules governing the certification and recertification of guidance counselors to allow substitution of personal work-based experiences and temporary-employment opportunities in business and industry for the required classroom instruction. A minimum of 12 hours of inservice in career and technical education will be required for each 5-year period.

(3) To implement the requirements of this act through preservice education, the Legislature encourages colleges of education to provide for the additional courses required without increasing the total number of credit hours needed to complete a program. Instead, the colleges are encouraged to infuse course content required for ethics courses into courses required for introduction, theory, and practicum.

Section 5. Paragraph (b) of subsection (9) of section 228.041, Florida Statutes, is amended to read:

228.041 Definitions.—Specific definitions shall be as follows, and wherever such defined words or terms are used in the Florida School Code, they shall be used as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(c) Determination of programs.—Cost factors based on desired relative cost differences between the following programs shall be established in the annual General Appropriations Act. *A secondary career or technical education program certified as required by section 2 of this act generates funding as provided in paragraph (m). Effective July 1, 2006, a full-time equivalent student in a career or technical education program that is not industry-certified or endorsed shall not generate any state funding unless the student is in a course classified as exploration, orientation, or practical arts and the General Appropriations Act contains a cost factor for such courses. The Department of Education shall complete a study by January 2002 to determine if career and technical education programs should have differentiated funding weights.* The Commissioner of Education shall specify a matrix of services and intensity levels to be used by districts in the determination of the two weighted cost factors for exceptional students with the highest levels of need. For these students, the funding support level shall fund the exceptional students' education program, with the exception of extended school year services for students with disabilities.

1. Basic programs.—

- a. Kindergarten and grades 1, 2, and 3.
- b. Grades 4, 5, 6, 7, and 8.
- c. Grades 9, 10, 11, and 12.

2. Programs for exceptional students.—

- a. Support Level IV.
- b. Support Level V.

3. Secondary career and technical education programs, *industry-certified or endorsed.*—

4. *Career and technical education programs, all other programs.*—

5.4. English for Speakers of Other Languages.—

(d) Annual allocation calculation.—

1. The Department of Education ~~shall be authorized and directed to~~ review all district programs and enrollment projections and calculate a

maximum total weighted full-time equivalent student enrollment for each district for the K-12 FEFP.

2. Maximum enrollments calculated by the department shall be derived from enrollment estimates used by the Legislature to calculate the FEFP. If two or more districts enter into an agreement under the provisions of s. 230.23(4)(d), after the final enrollment estimate is agreed upon, the amount of FTE specified in the agreement, not to exceed the estimate for the specific program as identified in paragraph (c), may be transferred from the participating districts to the district providing the program.

3. As part of its calculation of each district's maximum total weighted full-time equivalent student enrollment, the department shall establish separate enrollment ceilings for each of two program groups. Group 1 shall be composed of grades K-3, grades 4-8, and grades 9-12. Group 2 shall be composed of students in exceptional student education programs, English for Speakers of Other Languages programs, all basic programs other than the programs in group 1, and all vocational programs in grades 6-12 ~~7-12~~.

a. The weighted enrollment ceiling for group 2 programs shall be calculated by multiplying the final enrollment conference estimate for each program by the appropriate program weight. The weighted enrollment ceiling for program group 2 shall be the sum of the weighted enrollment ceilings for each program in the program group, plus the increase in weighted full-time equivalent student membership from the prior year for clients of the Department of Children and Family Services and the Department of Juvenile Justice.

b. If, for any calculation of the FEFP, the weighted enrollment for program group 2, derived by multiplying actual enrollments by appropriate program weights, exceeds the enrollment ceiling for that group, the following procedure shall be followed to reduce the weighted enrollment for that group to equal the enrollment ceiling:

(I) The weighted enrollment ceiling for each program in the program group shall be subtracted from the weighted enrollment for that program derived from actual enrollments.

(II) If the difference calculated under sub-sub-subparagraph (I) is greater than zero for any program, a reduction proportion shall be computed for the program by dividing the absolute value of the difference by the total amount by which the weighted enrollment for the program group exceeds the weighted enrollment ceiling for the program group.

(III) The reduction proportion calculated under sub-sub-subparagraph (II) shall be multiplied by the total amount of the program group's enrollment over the ceiling as calculated under sub-sub-subparagraph (I).

(IV) The prorated reduction amount calculated under sub-sub-subparagraph (III) shall be subtracted from the program's weighted enrollment. For any calculation of the FEFP, the enrollment ceiling for group 1 shall be calculated by multiplying the actual enrollment for each program in the program group by its appropriate program weight.

c. For program group 2, the weighted enrollment ceiling shall be a number not less than the sum obtained by:

(I) Multiplying the sum of reported FTE for all programs in the program group that have a cost factor of 1.0 or more by 1.0, and

(II) By adding this number to the sum obtained by multiplying the projected FTE for all programs with a cost factor less than 1.0 by the actual cost factor.

4. Following completion of the weighted enrollment ceiling calculation as provided in subparagraph 3., a supplemental capping calculation shall be employed for those districts that are over their weighted enrollment ceiling. For each such district, the total reported unweighted FTE enrollment for group 2 programs shall be compared with the total appropriated unweighted FTE enrollment for group 2 programs. If the total reported unweighted FTE for group 2 is greater than the appropriated unweighted FTE, then the excess unweighted FTE up to the unweighted FTE transferred from group 2 to group 1 for each district by the Public School FTE Estimating Conference shall be funded at a weight of 1.0 and added to the funded weighted FTE computed in subparagraph 3. This adjustment shall be calculated beginning with the third calculation of the 1998-1999 FEFP.

(l) Instruction in career education.—~~Effective for the 1985-1986 school year and thereafter,~~ District pupil progression plans shall provide for the substitution of vocational courses for the nonelective courses required for high school graduation pursuant to s. 232.246. *Beginning July 1, 2006, a career and technical course may not be substituted for another required course unless it is part of an industry-certified or endorsed program certified as provided in section 2 of this act.* A student in grades 9 through 12 who enrolls in and satisfactorily completes a job-preparatory course program may substitute credit for a portion of the required four credits in English, three credits in mathematics, *any credits in social studies,* and three credits in science. The credit substituted for English, mathematics, *social studies,* or science earned through the vocational job-preparatory course program shall be on a curriculum equivalency basis as provided for in the State Course Code Directory. The State Board of Education shall authorize by rule vocational course substitutions not to exceed two credits in each of the nonelective academic subject areas of English, mathematics, *social studies,* and science. School districts shall provide for vocational course substitutions not to exceed two credits in each of the nonelective academic subject areas of English, mathematics, *social studies,* and science, upon adoption of vocational student performance standards by the school board pursuant to s. 232.2454. ~~A career and technical course vocational program~~ which has been used as a substitute for a nonelective academic credit in one subject area may not be used as a substitute for any other subject area. The credit in practical arts or exploratory career education required for high school graduation pursuant to s. 232.246(1) shall be funded as a career education course. *Such a course is eligible for funding at 1.15 times the cost factor for students enrolled in the basic program for grades 9-12 only if it is part of a program certified or endorsed as required by section 2 of this act.*

(m) *Calculation of full-time equivalent membership for an industry-certified or endorsed technical program.—Funding for students enrolled in an industry-certified program as provided in section 2 of this act is calculated at 1.15 times the cost factor for students enrolled in the program for grades 9-12 and multiplying that number by the number of full-time equivalent students in an industry-certified or endorsed career and technical program. A student who earns the endorsement authorized by section 3 of this act generates additional incentive funding for the program, as provided in subsection (5). During the transition from the 2001-2002 school year until July 1, 2006, all career and technical education programs not industry-certified or endorsed or articulated to postsecondary institutions will continue to earn weighted funding as determined in the General Appropriations Act.*

(5) CATEGORICAL PROGRAMS.—The Legislature hereby provides for the establishment of selected categorical programs to assist in the development and maintenance of activities giving indirect support to the programs previously funded. These categorical appropriations may be funded as general and transitional categorical programs. The monthly reports detail the names of claimants and facilities, the alleged type of injury or violation and dates of occurrence. Such claims are preliminary allegations that may not result in a finding of liability or fault on the part of the facility. Consequently, release of such information to the public may unnecessarily and unfairly impact the business operation of the facility. The Legislature finds that it is not in the best interests of the claimants and facilities to make such sensitive information publicly available. Claimants will be forced to choose between either filing a claim regarding a facility to protect their rights, or alternatively, maintain their privacy regarding long-term care provided to themselves or a relative. The Legislature finds that the public will have the benefit of aggregated facility claims data by access to the agency's annual reports on long-term care claims to the Legislature, presented on a by-county basis. The Legislature also finds that those claims with sufficient merit will result in a formal legal complaint filed in a court of law, will as well be public information. Accordingly, the Legislature finds that the harm to facility residents and facilities due to the release of preliminary claims substantially outweighs any minimal public benefit derived therefrom.*

Section 3. This act shall take effect on the date Committee Substitute for Committee Substitute for Committee Substitute for Senate Bill 1202, relating to long-term care, or similar legislation becomes a law, and shall not take effect if such legislation does not become a law.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to public records; providing an exemption from the public-records law for reports of liability claims involving nursing

homes and assisted living facilities that are provided to the Agency for Health Care Administration as required by law; providing a finding of public necessity; providing a contingent effective date.

PRAYER

The following prayer was offered by Chaplain Dick Jenkins, Tomoka Correctional Institution, Daytona Beach:

Lord in Heaven, hear my prayer. We can trust our future to you. Contrary to popular opinion, it takes strength to be gentle.

We seek your blessings to exceed our natural ability and to be consistent in our loyalty to the citizens of Florida and concern motivation to all America. Add to our surprises of this day. May we all be sensitive to think and speak and act the truth in love.

“To God Be The Glory!” That is all a good person ever needs to say about yesterday, today, and tomorrow. Amen.

MOTION

On motion by Senator Sullivan, the following remarks were ordered spread upon the Journal:

Senator Sullivan: Mr. President and members, on television today watching this from her home is Sheila Hill. I had the good fortune to meet Sheila in 1995, six years ago; it hardly seems possible. She came to us from the House where she was on the Education staff. She was one of our hardest workers, but she was also one of our happiest workers. She was a wonderful person who worked night and day. In the Special

Session, at one point she never went home throughout the entire session as she was so dedicated to her work. Sheila worked for us, and unfortunately, several years ago had the misfortune that all of us fear in our hearts that would happen to us. Within a period of eighteen months, she had three separate serious diseases and two operations. She has never been able to return back to the Senate and the Legislature, a place that she loved. She's at home today as I understand it, still very ill, confined to her house. We wanted to take this opportunity to greet her, wave at her, let her see that all of her friends wish her the best, offer our prayers, and say that we miss her.

I don't want to go on too long with this because Sheila is a direct, to-the-point type person. But there is a true story about a fellow who was in Viet Nam who was shot down in combat. He was shot down in enemy territory. Over a long period of time, he was able to survive and eventually make it back. Many years later, he was in a restaurant when a man walked up to him and introduced himself and said, "I know you. I'm the guy that packed the parachute that you used the day that you went down." Of course, there was a reunion and everything. The point of the story is that after this reunion, he started to think about how his life depended upon the man who packed his parachute. He said, "You know I walked by that man everyday. He was down in the lower parts of the ship working. I don't know how many people's lives he saved, but I didn't ever say hello to him. I didn't ever get a chance to thank him. We just kind of took it for granted that he was there and he was doing his job."

Well, you know every once in a while in this process, we have to slow down the train and stop and thank the people who have helped us. We are kind of family up here and Sheila was part of our family. She has had the worst luck and the worst problems that any of us could face, and I'm told that she remains cheerful and happy. She has always been a very generous person. She was a foster parent for animals for a local veterinarian. She has two children of her own.

Sheila, we are all sitting here on the floor. The staff of the Education Committee is here. We are all thinking about you. You have our best wishes and our prayers. We have this Resolution which is an insufficient symbol of our affection for you and what you mean to us. And Sheila, thank you for all your years of hard work, and our best wishes and all our prayers be with you. Thank you, Mr. President.

Mr. President: Well said, Senator from the twenty-second.

Senator Cowin: When I came into the Senate, obviously being on the Education Committee was very important to me. When I chaired it, I really did look to staff. Sheila, you really did provide a lot of guidance. I fear that the staff there, and especially Sheila, had worked through all the pain that she was having. And nobody really knew at the time. There she was, still plugging away and taking a few days off here and there just to gather herself together, but she was always there for us. Sheila, you are truly loved. We certainly miss your work and certainly miss you and your smile.

Senator Wasserman Schultz: Thank you, Mr. President. I've been a part of the legislative process for thirteen years and served as a staff person as well. My experience with Sheila was during the special legislative session on school overcrowding. As a member of the minority on the House side, that session was a little rough for someone who kind of swung from the treetops during that special session and thought very strongly about some of the things that were going on there. I think all of us have experienced relationships with staff on different levels. You know how sometimes a staff person who's working just as hard as you, but sees the frustration on your face, and the difficulty that you are having, and just kind of touches your elbow and says, "Hang in there, don't worry." That's the kind of thing that Sheila did and would still do if she were here. She did that for me. She always gave you an encouraging word, made you feel like you were here for a reason, and she was standing right there with you backing you up. I didn't know she was suffering. I'm very sorry for it. I'm just so glad that the Senator from the twenty-second has done this for her on the floor this afternoon.

Senator Pruitt: Thank you, Mr. President and Senators. I want to say a few words on behalf of our extremely professional and very capable Education staff who do a wonderful job for us, just like all of our professional staff. You know our Sheila Hill exemplifies what is really the strength of this body. They are all professionals who day-in and day-out sacrifice, many times their families, to make sure that we look good. Sheila Hill is one of those individuals who will go the extra mile and do whatever it takes to make sure the job gets done.

I remember as a freshman in 1991 in the House, I came on with these wild-haired ideas and brought these charts with me. I thought they would work. While some laughed at me, Sheila Hill always told me to persevere and to keep moving forward. That is the type of person that she is. You know when you look at what Sheila Hill is all about, she is about dedication. She is about loyalty. She is one of the most inspiring souls that I have had the pleasure to work with. She is all that is good in life. When you look at what she has brought to so many children and so many families throughout this state, she has provided these children with hope for the future and an opportunity to succeed. She has left her mark on so many children throughout this state, and they are all much better off for it. I know that Florida is a better state because of Sheila Hill. Sheila, we can't replace you. There is absolutely no way. You are such an integral part. I want you to know that you have not only left your mark, but also a lasting legacy on the children of Florida and also on the Legislature as well. God speed.

Mr. President: Members and guests in the gallery, we love our staff dearly. There is much that we would not accomplish on behalf of the people of the state if it were not for our staff. We thank the Senator from the twenty-second for bringing this resolution to the floor. It's an honor for me to preside over this Chamber at a time when we are recognizing one of our staff. Our thoughts and prayers are with you, Sheila, and we wish you well.

(2) *The amendments to the introductory paragraph, to paragraph (p), and to the final, flush-left passage of subsection (7) of section 212.08, Florida Statutes, which are made by section 2 of this act are made to*

clarify rather than change existing law, and these amendments apply retroactively to January 1, 2001.

Section 4. Effective upon this act becoming a law and applying retroactively to July 1, 1996, paragraph (c) of subsection (5) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(5) EXEMPTIONS; ACCOUNT OF USE.—

(c) Machinery and equipment used in production of electrical or steam energy.—

1. The purchase of machinery and equipment for use at a fixed location which machinery and equipment are necessary in the production of electrical or steam energy resulting from the burning of boiler fuels other than residual oil is exempt from the tax imposed by this chapter. Such electrical or steam energy must be primarily for use in manufacturing, processing, compounding, or producing for sale items of tangible personal property in this state. Use of a de minimis amount of residual fuel to facilitate the burning of nonresidual fuel shall not reduce the exemption otherwise available under this paragraph.

2. In facilities where machinery and equipment are necessary to burn both residual and nonresidual fuels, the exemption shall be prorated. Such proration shall be based upon the production of electrical or steam energy from nonresidual fuels as a percentage of electrical or steam energy from all fuels. If it is determined that 15 percent or less of all electrical or steam energy generated was produced by burning residual fuel, the full exemption shall apply. Purchasers claiming a partial exemption shall obtain such exemption by refund of taxes paid, or as otherwise provided in the department's rules.

3. The department may adopt rules that provide for implementation of this exemption. Purchasers of machinery and equipment qualifying for the exemption provided in this paragraph shall furnish the *vendor department* with an affidavit stating that the item or items to be exempted are for the use designated herein. Any person furnishing a false affidavit to the vendor for the purpose of evading payment of any tax imposed under this chapter shall be subject to the penalty set forth in s. 212.085 and as otherwise provided by law. Purchasers with self-acrual authority shall maintain all documentation necessary to prove the exempt status of purchases.

Section 5. Effective July 1, 2001, paragraphs (b), (d), and (f) of subsection (5) of section 212.08, Florida Statutes, are amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(5) EXEMPTIONS; ACCOUNT OF USE.—

(b) Machinery and equipment used to increase productive output.—

1. Industrial machinery and equipment purchased for exclusive use by a new business in spaceport activities as defined by s. 212.02 or for use in new businesses which manufacture, process, compound, or produce for sale items of tangible personal property at fixed locations are exempt from the tax imposed by this chapter upon an affirmative showing by the taxpayer to the satisfaction of the department that such items are used in a new business in this state. Such purchases must be made prior to the date the business first begins its productive operations, and delivery of the purchased item must be made within 12 months of that date.

2.a. Industrial machinery and equipment purchased for exclusive use by an expanding facility which is engaged in spaceport activities as defined by s. 212.02 or for use in expanding manufacturing facilities or plant units which manufacture, process, compound, or produce for sale items of tangible personal property at fixed locations in this state are exempt from any amount of tax imposed by this chapter in excess of

\$50,000 per calendar year upon an affirmative showing by the taxpayer to the satisfaction of the department that such items are used to increase the productive output of such expanded facility or business by not less than 10 percent.

b. Notwithstanding any other provision of this section, industrial machinery and equipment purchased for use in expanding printing manufacturing facilities or plant units that manufacture, process, compound, or produce for sale items of tangible personal property at fixed locations in this state are exempt from any amount of tax imposed by this chapter upon an affirmative showing by the taxpayer to the satisfaction of the department that such items are used to increase the productive output of such an expanded business by not less than 10 percent.

3.a. To receive an exemption provided by subparagraph 1. or subparagraph 2., a qualifying business entity shall apply to the department for a temporary tax exemption permit. The application shall state that a new business exemption or expanded business exemption is being sought. Upon a tentative affirmative determination by the department pursuant to subparagraph 1. or subparagraph 2., the department shall issue such permit.

b. The applicant shall be required to maintain all necessary books and records to support the exemption. Upon completion of purchases of qualified machinery and equipment pursuant to subparagraph 1. or subparagraph 2., the temporary tax permit shall be delivered to the department or returned to the department by certified or registered mail.

c. If, in a subsequent audit conducted by the department, it is determined that the machinery and equipment purchased as exempt under subparagraph 1. or subparagraph 2. did not meet the criteria mandated by this paragraph or if commencement of production did not occur, the amount of taxes exempted at the time of purchase shall immediately be due and payable to the department by the business entity, together with the appropriate interest and penalty, computed from the date of purchase, in the manner prescribed by this chapter.

d. In the event a qualifying business entity fails to apply for a temporary exemption permit or if the tentative determination by the department required to obtain a temporary exemption permit is negative, a qualifying business entity shall receive the exemption provided in subparagraph 1. or subparagraph 2. through a refund of previously paid taxes. No refund may be made for such taxes unless the criteria mandated by subparagraph 1. or subparagraph 2. have been met and commencement of production has occurred.

4. The department shall promulgate rules governing applications for, issuance of, and the form of temporary tax exemption permits; provisions for recapture of taxes; and the manner and form of refund applications and may establish guidelines as to the requisites for an affirmative showing of increased productive output, commencement of production, and qualification for exemption.

5. The exemptions provided in subparagraphs 1. and 2. do not apply to machinery or equipment purchased or used by electric utility companies, communications companies, oil or gas exploration or production operations, publishing firms that do not export at least 50 percent of their finished product out of the state, any firm subject to regulation by the Division of Hotels and Restaurants of the Department of Business and Professional Regulation, or any firm which does not manufacture, process, compound, or produce for sale items of tangible personal property or which does not use such machinery and equipment in spaceport activities as required by this paragraph. The exemptions provided in subparagraphs 1. and 2. shall apply to machinery and equipment purchased for use in phosphate or other solid minerals severance, mining, or processing operations only by way of a prospective credit against taxes due under chapter 211 for taxes paid under this chapter on such machinery and equipment.

6. For the purposes of the exemptions provided in subparagraphs 1. and 2., these terms have the following meanings:

a. "Industrial machinery and equipment" means *tangible personal property or other property that has a depreciable life of 3 years or more and that is used as an integral part in the manufacturing, processing, compounding, or production of tangible personal property for sale or is exclusively used in spaceport activities. A building and its structural components are not industrial machinery and equipment unless the*

building or structural component is so closely related to the industrial machinery and equipment that it houses or supports that the building or structural component can be expected to be replaced when the machinery and equipment itself is replaced. Heating and air conditioning systems are not industrial machinery and equipment, unless the sole justification for their installation is to meet the requirements of the production process, even though the system may provide incidental comfort to employees or serves, to an insubstantial degree, nonproduction activities. ~~“section 38 property” as defined in s. 48(a)(1)(A) and (B)(i) of the Internal Revenue Code, provided “industrial machinery and equipment” shall be construed by regulations adopted by the Department of Revenue to mean tangible property used as an integral part of spaceport activities or of the manufacturing, processing, compounding, or producing for sale of items of tangible personal property.~~ Such term includes parts and accessories only to the extent that the exemption thereof is consistent with the provisions of this paragraph.

b. “Productive output” means the number of units actually produced by a single plant or operation in a single continuous 12-month period, irrespective of sales. Increases in productive output shall be measured by the output for 12 continuous months immediately following the completion of installation of such machinery or equipment over the output for the 12 continuous months immediately preceding such installation. However, if a different 12-month continuous period of time would more accurately reflect the increase in productive output of machinery and equipment purchased to facilitate an expansion, the increase in productive output may be measured during that 12-month continuous period of time if such time period is mutually agreed upon by the Department of Revenue and the expanding business prior to the commencement of production; provided, however, in no case may such time period begin later than 2 years following the completion of installation of the new machinery and equipment. The units used to measure productive output shall be physically comparable between the two periods, irrespective of sales.

(d) Machinery and equipment used under federal procurement contract.—

1. Industrial machinery and equipment purchased by an expanding business which manufactures tangible personal property pursuant to federal procurement regulations at fixed locations in this state are partially exempt from the tax imposed in this chapter on that portion of the tax which is in excess of \$100,000 per calendar year upon an affirmative showing by the taxpayer to the satisfaction of the department that such items are used to increase the implicit productive output of the expanded business by not less than 10 percent. The percentage of increase is measured as deflated implicit productive output for the calendar year during which the installation of the machinery or equipment is completed or during which commencement of production utilizing such items is begun divided by the implicit productive output for the preceding calendar year. In no case may the commencement of production begin later than 2 years following completion of installation of the machinery or equipment.

2. The amount of the exemption allowed shall equal the taxes otherwise imposed by this chapter in excess of \$100,000 per calendar year on qualifying industrial machinery or equipment reduced by the percentage of gross receipts from cost-reimbursement type contracts attributable to the plant or operation to total gross receipts so attributable, accrued for the year of completion or commencement.

3. The exemption provided by this paragraph shall inure to the taxpayer only through refund of previously paid taxes. Such refund shall be made within 30 days of formal approval by the department of the taxpayer's application, which application may be made on an annual basis following installation of the machinery or equipment.

4. For the purposes of this paragraph, the term:

a. “Cost-reimbursement type contracts” has the same meaning as in 32 C.F.R. s. 3-405.

b. “Deflated implicit productive output” means the product of implicit productive output times the quotient of the national defense implicit price deflator for the preceding calendar year divided by the deflator for the year of completion or commencement.

c. “Eligible costs” means the total direct and indirect costs, as defined in 32 C.F.R. ss. 15-202 and 15-203, excluding general and administrative

costs, selling expenses, and profit, defined by the uniform cost-accounting standards adopted by the Cost-Accounting Standards Board created pursuant to 50 U.S.C. s. 2168.

d. “Implicit productive output” means the annual eligible costs attributable to all contracts or subcontracts subject to federal procurement regulations of the single plant or operation at which the machinery or equipment is used.

e. “Industrial machinery and equipment” means *tangible personal property, or other property, that has a depreciable life of 3 years or more, that qualifies as an eligible cost under federal procurement regulations, and that is used as an integral part of the process of production of tangible personal property. A building and its structural components are not industrial machinery and equipment unless the building or structural component is so closely related to the industrial machinery and equipment that it houses or supports that the building or structural component can be expected to be replaced when the machinery and equipment itself is replaced. Heating and air conditioning systems are not industrial machinery and equipment, unless the sole justification for their installation is to meet the requirements of the production process, even though the system may provide incidental comfort to employees or serves, to an insubstantial degree, nonproduction activities.* ~~“section 38 property” as defined in s. 48(a)(1)(A) and (B)(i) of the Internal Revenue Code, provided such industrial machinery and equipment qualified as an eligible cost under federal procurement regulations and are used as an integral part of the tangible personal property production process.~~ Such term includes parts and accessories only to the extent that the exemption of such parts and accessories is consistent with the provisions of this paragraph.

f. “National defense implicit price deflator” means the national defense implicit price deflator for the gross national product as determined by the Bureau of Economic Analysis of the United States Department of Commerce.

5. The exclusions provided in subparagraph (b)5. apply to this exemption. This exemption applies only to machinery or equipment purchased pursuant to production contracts with the United States Department of Defense and Armed Forces, the National Aeronautics and Space Administration, and other federal agencies for which the contracts are classified for national security reasons. In no event shall the provisions of this paragraph apply to any expanding business the increase in productive output of which could be measured under the provisions of subparagraph (b)6.b. as physically comparable between the two periods.

(f) Motion picture or video equipment used in motion picture or television production activities and sound recording equipment used in the production of master tapes and master records.—

1. Motion picture or video equipment and sound recording equipment purchased or leased for use in this state in production activities is exempt from the tax imposed by this chapter. The exemption provided by this paragraph shall inure to the taxpayer upon presentation of the certificate of exemption issued to the taxpayer under the provisions of s. 288.1258.

2. For the purpose of the exemption provided in subparagraph 1.:

a. “Motion picture or video equipment” and “sound recording equipment” includes only *tangible personal property, or other property, that has a depreciable life of 3 years or more and equipment meeting the definition of “section 38 property” as defined in s. 48(a)(1)(A) and (B)(i) of the Internal Revenue Code* that is used by the lessee or purchaser exclusively as an integral part of production activities; however, motion picture or video equipment and sound recording equipment does not include supplies, tape, records, film, or video tape used in productions or other similar items; vehicles or vessels; or general office equipment not specifically suited to production activities. In addition, the term does not include equipment purchased or leased by television or radio broadcasting or cable companies licensed by the Federal Communications Commission. *Furthermore, a building and its structural components are not motion picture or video equipment and sound recording equipment unless the building or structural component is so closely related to the motion picture or video equipment and sound recording equipment that it houses or supports that the building or structural component can be expected to be replaced when the motion picture or video equipment and sound recording equipment itself is replaced. Heating and air conditioning systems are not motion picture or video equipment and sound record-*

ing equipment, unless the sole justification for their installation is to meet the requirements of the production activities, even though the system may provide incidental comfort to employees or serves, to an insubstantial degree, nonproduction activities.

b. "Production activities" means activities directed toward the preparation of a:

(I) Master tape or master record embodying sound; or

(II) Motion picture or television production which is produced for theatrical, commercial, advertising, or educational purposes and utilizes live or animated actions or a combination of live and animated actions. The motion picture or television production shall be commercially produced for sale or for showing on screens or broadcasting on television and may be on film or video tape.

Section 6. (1) *It is the intent of the Legislature to provide guidance in tax matters which is current and useful. Accordingly, the continued reference to a federal regulation that no longer exists causes confusion and an undue burden on persons affected by section 212.08, Florida Statutes.*

(2) *It is the purpose of the amendment to section 212.08(5)(b), (d), and (f), Florida Statutes, by this act to replace specific references therein to "section 38 property" as defined in s. 48(a)(1)(A) and (B)(i) of the Internal Revenue Code with a general description of such property, and such new description shall have the same meaning as the former federal Internal Revenue Code regulation without limitation.*

Section 7. Effective July 1, 2001, subsection (10) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(10) PARTIAL EXEMPTION; MOTOR VEHICLE SOLD TO RESIDENT OF ANOTHER STATE.—

(a) The tax collected on the sale of a new or used motor vehicle in this state to a resident of another state shall be an amount equal to the sales tax which would be imposed on such sale under the laws of the state of which the purchaser is a resident, except that such tax shall not exceed the tax that would otherwise be imposed under this chapter. At the time of the sale, the purchaser shall execute a notarized statement of his or her intent to license the vehicle in the state of which the purchaser is a resident within 45 days of the sale and of the fact of the payment to the State of Florida of a sales tax in an amount equivalent to the sales tax of his or her state of residence and shall submit the statement to the appropriate sales tax collection agency in his or her state of residence. Nothing in this subsection shall be construed to require the removal of the vehicle from this state following the filing of an intent to license the vehicle in the purchaser's home state if the purchaser licenses the vehicle in his or her home state within 45 days after the date of sale.

(b) *Notwithstanding the partial exemption allowed in paragraph (a), a vehicle is subject to this state's sales tax at the applicable state sales tax rate plus authorized surtaxes when the vehicle is purchased by a nonresident corporation or partnership and:*

1. *An officer of the corporation is a resident of this state;*
2. *A stockholder of the corporation who owns at least 10 percent of the corporation is a resident of this state; or*
3. *A partner in the partnership who has at least 10 percent ownership is a resident of this state.*

However, if the vehicle is removed from this state within 45 days after purchase and remains outside the state for a minimum of 180 days, the vehicle may qualify for the partial exemption allowed in paragraph (a) despite the residency of owners or stockholders of the purchasing entity.

Section 8. Effective July 1, 2001, paragraph (b) of subsection (14) of section 212.06, Florida Statutes, is amended to read:

212.06 Sales, storage, use tax; collectible from dealers; "dealer" defined; dealers to collect from purchasers; legislative intent as to scope of tax.—

(14) For the purpose of determining whether a person is improving real property, the term:

(b) "Fixtures" means items that are an accessory to a building, other structure, or land and that do not lose their identity as accessories when installed but that do become permanently attached to realty. However, the term does not include the following items, whether or not such items are attached to real property in a permanent manner: ~~trade fixtures~~; property of a type that is required to be registered, licensed, titled, or documented by this state or by the United States Government, including, but not limited to, mobile homes, except mobile homes assessed as real property; or *industrial machinery or equipment. For purposes of this paragraph, industrial machinery or equipment is not limited to machinery and equipment used to manufacture, process, compound, or produce tangible personal property.* For an item to be considered a fixture, it is not necessary that the owner of the item also own the real property to which it is attached.

Section 9. *It is the intent of the Legislature that the amendment to section 212.06(14)(b), Florida Statutes, relating to industrial machinery or equipment, which is made by section 7 of this act is remedial in nature and merely clarifies existing law.*

Section 10. Paragraph (a) of subsection (8) and subsection (9) of section 212.08, Florida Statutes, are amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(8) PARTIAL EXEMPTIONS; VESSELS ENGAGED IN INTERSTATE OR FOREIGN COMMERCE.—

(a) The sale or use of vessels and parts thereof used to transport persons or property in interstate or foreign commerce, including commercial fishing vessels, is subject to the taxes imposed in this chapter only to the extent provided herein. The basis of the tax shall be the ratio of intrastate mileage to interstate or foreign mileage traveled by the carrier's vessels which were used in interstate or foreign commerce and which had at least some Florida mileage during the previous fiscal year. The ratio would be determined at the close of the carrier's fiscal year. *However, during the fiscal year in which the vessel begins its initial operations in this state, the vessel's mileage apportionment factor may be determined on the basis of an estimated ratio of anticipated miles in this state to anticipated total miles for that year, and, subsequently, additional tax must be paid on the vessel, or a refund may be applied for, on the basis of the actual ratio of the vessel's miles in this state to its total miles for that year.* This ratio shall be applied each month to the total Florida purchases of such vessels and parts thereof which are used in Florida to establish that portion of the total used and consumed in intrastate movement and subject to the tax at the applicable rate. The basis for imposition of any discretionary surtax shall be as set forth in s. 212.054. Items, appropriate to carry out the purposes for which a vessel is designed or equipped and used, purchased by the owner, operator, or agent of a vessel for use on board such vessel shall be deemed to be parts of the vessel upon which the same are used or consumed. Vessels and parts thereof used to transport persons or property in interstate and foreign commerce are hereby determined to be susceptible to a distinct and separate classification for taxation under the provisions of this chapter. Vessels and parts thereof used exclusively in intrastate commerce do not qualify for the proration of tax.

(9) PARTIAL EXEMPTIONS; RAILROADS AND MOTOR VEHICLES ENGAGED IN INTERSTATE OR FOREIGN COMMERCE.—

(a) Railroads which are licensed as common carriers by the ~~Surface Transportation Board Interstate Commerce Commission~~ and parts thereof used to transport persons or property in interstate or foreign commerce are subject to tax imposed in this chapter only to the extent provided herein. The basis of the tax shall be the ratio of intrastate mileage to interstate or foreign mileage traveled by the carrier during the previous fiscal year of the carrier. Such ratio is to be determined at the close of the carrier's fiscal year. *However, during the fiscal year in*

which the railroad begins its initial operations in this state, the railroad's mileage apportionment factor may be determined on the basis of an estimated ratio of anticipated miles in this state to anticipated total miles for that year, and, subsequently, additional tax must be paid on the railroad, or a refund may be applied for, on the basis of the actual ratio of the railroad's miles in this state to its total miles for that year. This ratio shall be applied each month to the Florida total purchases of the railroad which are used in this state to establish that portion of the total used and consumed in intrastate movement and subject to tax under this chapter. The basis for imposition of any discretionary surtax is set forth in s. 212.054. Railroads which are licensed as common carriers by the Surface Transportation Board Interstate Commerce Commission and parts thereof used to transport persons or property in interstate and foreign commerce are hereby determined to be susceptible to a distinct and separate classification for taxation under the provisions of this chapter.

(b) Motor vehicles which are engaged in interstate commerce as common carriers, and parts thereof, used to transport persons or property in interstate or foreign commerce are subject to tax imposed in this chapter only to the extent provided herein. The basis of the tax shall be the ratio of intrastate mileage to interstate or foreign mileage traveled by the carrier's motor vehicles which were used in interstate or foreign commerce and which had at least some Florida mileage during the previous fiscal year of the carrier. Such ratio is to be determined at the close of the carrier's fiscal year. *However, during the fiscal year in which the carrier begins its initial operations in this state, the carrier's mileage apportionment factor may be determined on the basis of an estimated ratio of anticipated miles in this state to anticipated total miles for that year, and, subsequently, additional tax must be paid on the carrier, or a refund may be applied for, on the basis of the actual ratio of the carrier's miles in this state to its total miles for that year.* This ratio shall be applied each month to the Florida total purchases of such motor vehicles and parts thereof which are used in this state to establish that portion of the total used and consumed in intrastate movement and subject to tax under this chapter. The basis for imposition of any discretionary surtax is set forth in s. 212.054. Motor vehicles which are engaged in interstate commerce, and parts thereof, used to transport persons or property in interstate and foreign commerce are hereby determined to be susceptible to a distinct and separate classification for taxation under the provisions of this chapter. Motor vehicles and parts thereof used exclusively in intrastate commerce do not qualify for the proration of tax. For purposes of this paragraph, parts of a motor vehicle engaged in interstate commerce include a separate tank not connected to the fuel supply system of the motor vehicle into which diesel fuel is placed to operate a refrigeration unit or other equipment.

Section 11. Subsection (5) is added to section 212.11, Florida Statutes, to read:

212.11 Tax returns and regulations.—

(5)(a) *Each dealer that claims any credits granted in this chapter against that dealer's sales and use tax liabilities, which credits are granted by reason of the dealer's hiring employees, purchasing property, improving property, paying increased ad valorem taxes, operating a business, or otherwise engaging in activity in an urban high-crime area, an enterprise zone, an empowerment zone, a Front Porch Community, a designated brownfield area, or an urban infill area, must submit to the department with the return on which such credits are claimed a report in a format prescribed by the department which provides the information and documentation required to verify the dealer's entitlement to the credits. All information must be broken down by the urban high-crime area, enterprise zone, empowerment zone, Front Porch Community, designated brownfield area, or urban infill area to which it relates. In the case of any credit that is granted in the form of a refund of previously paid taxes, supporting documentation must be provided with the application for refund.*

(b) *The department may adopt rules prescribing the form in which the report required by this subsection is to be submitted, which form may include magnetic tape or other means of electronic transmission.*

(c) *The department shall disallow any credit that is not supported by the report required by this subsection.*

Section 12. If the amendment to subsection (6) of section 212.20, Florida Statutes, by section 35 of chapter 2000-260, Laws of Florida,

does not take effect, paragraph (e) of subsection (6) of section 212.20, Florida Statutes, is amended to read:

212.20 Funds collected, disposition; additional powers of department; operational expense; refund of taxes adjudicated unconstitutionally collected.—

(6) Distribution of all proceeds under this chapter shall be as follows:

(e) The proceeds of all other taxes and fees imposed pursuant to this chapter shall be distributed as follows:

1. In any fiscal year, the greater of \$500 million, minus an amount equal to 4.6 percent of the proceeds of the taxes collected pursuant to chapter 201, or 5 percent of all other taxes and fees imposed pursuant to this chapter shall be deposited in monthly installments into the General Revenue Fund.

2. Two-tenths of one percent shall be transferred to the Solid Waste Management Trust Fund.

3. After the distribution under subparagraphs 1. and 2., 9.653 percent of the amount remitted by a sales tax dealer located within a participating county pursuant to s. 218.61 shall be transferred into the Local Government Half-cent Sales Tax Clearing Trust Fund.

4. After the distribution under subparagraphs 1., 2., and 3., 0.065 percent shall be transferred to the Local Government Half-cent Sales Tax Clearing Trust Fund and distributed pursuant to s. 218.65.

5. For proceeds received after July 1, 2000, and after the distributions under subparagraphs 1., 2., 3., and 4., 2.25 percent of the available proceeds pursuant to this paragraph shall be transferred monthly to the Revenue Sharing Trust Fund for Counties pursuant to s. 218.215.

6.a. For proceeds received after July 1, 2000, and after the distributions under subparagraphs 1., 2., 3., and 4., 1.0715 percent of the available proceeds pursuant to this paragraph shall be transferred monthly to the Revenue Sharing Trust Fund for Municipalities pursuant to s. 218.215.

b. If the total revenue to be distributed pursuant to this subparagraph is at least as great as the amount due from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000, no municipality shall receive less than the amount due from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000.

c. If the total proceeds to be distributed are less than the amount received in combination from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000, each municipality shall receive an amount proportionate to the amount it was due in state fiscal year 1999-2000.

d. *Each newly incorporated municipality that meets the eligibility requirements established in s. 218.23 or in the local act establishing the municipality is eligible to receive a share of revenue sharing funds under s. 218.245. If the total proceeds to be distributed are less than the amount received in combination from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in the 1999-2000 fiscal year, plus the share for any new municipalities, each municipality shall receive a proportionate amount.*

7. Of the remaining proceeds:

a. Beginning July 1, 2000, and in each fiscal year thereafter, the sum of \$29,915,500 shall be divided into as many equal parts as there are counties in the state, and one part shall be distributed to each county. The distribution among the several counties shall begin each fiscal year on or before January 5th and shall continue monthly for a total of 4 months. If a local or special law required that any moneys accruing to a county in fiscal year 1999-2000 under the then-existing provisions of s. 550.135 be paid directly to the district school board, special district, or a municipal government, such payment shall continue until such time that the local or special law is amended or repealed. The state covenants with holders of bonds or other instruments of indebtedness issued by local governments, special districts, or district school boards prior to July 1, 2000, that it is not the intent of this subparagraph to adversely

affect the rights of those holders or relieve local governments, special districts, or district school boards of the duty to meet their obligations as a result of previous pledges or assignments or trusts entered into which obligated funds received from the distribution to county governments under then-existing s. 550.135. This distribution specifically is in lieu of funds distributed under s. 550.135 prior to July 1, 2000.

b. The department shall distribute \$166,667 monthly pursuant to s. 288.1162 to each applicant that has been certified as a "facility for a new professional sports franchise" or a "facility for a retained professional sports franchise" pursuant to s. 288.1162. Up to \$41,667 shall be distributed monthly by the department to each applicant that has been certified as a "facility for a retained spring training franchise" pursuant to s. 288.1162; however, not more than \$208,335 may be distributed monthly in the aggregate to all certified facilities for a retained spring training franchise. Distributions shall begin 60 days following such certification and shall continue for not more than 30 years. Nothing contained in this paragraph shall be construed to allow an applicant certified pursuant to s. 288.1162 to receive more in distributions than actually expended by the applicant for the public purposes provided for in s. 288.1162(6). However, a certified applicant is entitled to receive distributions up to the maximum amount allowable and undistributed under this section for additional renovations and improvements to the facility for the franchise without additional certification.

c. Beginning 30 days after notice by the Office of Tourism, Trade, and Economic Development to the Department of Revenue that an applicant has been certified as the professional golf hall of fame pursuant to s. 288.1168 and is open to the public, \$166,667 shall be distributed monthly, for up to 300 months, to the applicant.

d. Beginning 30 days after notice by the Office of Tourism, Trade, and Economic Development to the Department of Revenue that the applicant has been certified as the International Game Fish Association World Center facility pursuant to s. 288.1169, and the facility is open to the public, \$83,333 shall be distributed monthly, for up to 168 months, to the applicant. This distribution is subject to reduction pursuant to s. 288.1169. A lump sum payment of \$999,996 shall be made, after certification and before July 1, 2000.

(e) The proceeds of all other taxes and fees imposed pursuant to this chapter or remitted pursuant to s. 202.18(1)(b) and (2)(b) shall be distributed as follows:

1. In any fiscal year, the greater of \$500 million, minus an amount equal to 4.6 percent of the proceeds of the taxes collected pursuant to chapter 201, or 5 percent of all other taxes and fees imposed pursuant to this chapter or remitted pursuant to s. 202.18(1)(b) and (2)(b) shall be deposited in monthly installments into the General Revenue Fund.

4. After the distribution under subparagraphs 1., 2., and 3., 0.065 percent shall be transferred to the Local Government Half-cent Sales Tax Clearing Trust Fund and distributed pursuant to s. 218.65.

5. For proceeds received after July 1, 2000, and after the distributions under subparagraphs 1., 2., 3., and 4., 2.25 percent of the available proceeds pursuant to this paragraph shall be transferred monthly to the Revenue Sharing Trust Fund for Counties pursuant to s. 218.215.

6.a. For proceeds received after July 1, 2000, and after the distributions under subparagraphs 1., 2., 3., and 4., 1.0715 percent of the available proceeds pursuant to this paragraph shall be transferred monthly to the Revenue Sharing Trust Fund for Municipalities pursuant to s. 218.215.

b. If the total revenue to be distributed pursuant to this subparagraph is at least as great as the amount due from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000, no municipality shall receive less than the amount due from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000.

c. If the total proceeds to be distributed are less than the amount received in combination from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000, each municipality shall receive an amount proportionate to the amount it was due in state fiscal year 1999-2000.

d. *Each newly incorporated municipality that meets the eligibility requirements established in s. 218.23 or in the local act establishing the municipality is eligible to receive a share of revenue sharing funds under s. 218.245. The distribution among the several counties shall begin each fiscal year on or before January 5th and shall continue monthly for a total of 4 months. If a local or special law required that any moneys accruing to a county in fiscal year 1999-2000 under the then-existing provisions of s. 550.135 be paid directly to the district school board, special district, or a municipal government, such payment shall continue until such time that the local or special law is amended or repealed. The state covenants with holders of bonds or other instruments of indebtedness issued by local governments, special districts, or district school boards prior to July 1, 2000, that it is not the intent of this subparagraph to adversely affect the rights of those holders or relieve local governments, special districts, or district school boards of the duty to meet their obligations as a result of previous pledges or assignments or trusts entered into which obligated funds received from the distribution to county governments under then-existing s. 550.135. This distribution specifically is in lieu of funds distributed under s. 550.135 prior to July 1, 2000.

b. Distributions shall begin 60 days following such certification and shall continue for not more than 30 years. Nothing contained in this paragraph shall be construed to allow an applicant certified pursuant to s. 288.1162 to receive more in distributions than actually expended by the applicant for the public purposes provided for in s. 288.1162(6). However, a certified applicant is entitled to receive distributions up to the maximum amount allowable and undistributed under this section for additional renovations and improvements to the facility for the franchise without additional certification.

c. to the applicant. This distribution is subject to reduction pursuant to s. 288.1169. A lump sum payment of \$999,996 shall be made, after certification and before July 1, 2000.

8. All other proceeds shall remain with the General Revenue Fund.

(b)1. No eligible municipality shall receive less funds from the Revenue Sharing Trust Fund for Municipalities in any fiscal year than the aggregate amount it received from the state in fiscal year 1971-1972 under the provisions of the then-existing s. 210.20(2)(a), tax on cigarettes; s. 323.16(3), road tax; and s. 206.605, tax on motor fuel.

2. Any government exercising municipal powers under s. 6(f), Art. VIII of the State Constitution may not receive less than the aggregate amount it received from the Revenue Sharing Trust Fund for Municipalities in the preceding fiscal year, plus a percentage increase in such amount equal to the percentage increase of the Revenue Sharing Trust Fund for Municipalities for the preceding fiscal year. *However, for the distributions made during the 2001-2002 fiscal year, the percentage increase shall be calculated as the revenues from the Revenue Sharing Trust Fund for Municipalities for the 2001-2002 fiscal year, divided by the sum of the revenues from the Revenue Sharing Trust Fund for Municipalities for the 1999-2000 fiscal year and the revenues from the Municipal Financial Assistance Trust Fund for the 1999-2000 fiscal year, minus one.*

For the year in which an election is made pursuant to s. 1361(b)(3) of the Internal Revenue Code, the qualified subchapter S subsidiary shall file an informational return with the department, which return shall be restricted to information identifying the subsidiary, the electing S corporation parent, and the effective date of the election.*

In furtherance of the agreement, the executive director of the department or his or her designee shall act jointly with other states that are members of the agreement to establish standards for certification of a certified service provider and certified automated system and establish performance standards for multistate sellers.*

(b) *The executive director of the department or his or her designee shall take other actions reasonably required to administer this section. Other actions authorized by this section include, but are not limited to, the adoption of rules and the joint procurement, with other member states, of goods and services in furtherance of the cooperative agreement.*

(c) *The executive director of the department or his or her designee may represent this state before the other states that are signatories to the agreement.*

(e) *The agreement must provide for reduction of the burdens of complying with local sales and use taxes through:*

1. *Restricting variances between the state and local tax bases.*
2. *Requiring states to administer any sales and use taxes levied by local jurisdictions within the state so that sellers who collect and remit these taxes will not have to register or file returns with, remit funds to, or be subject to independent audits from local taxing jurisdictions.*

For purposes of such discussions, this state shall be represented by three delegates, one appointed by the President of the Senate, one appointed by the Speaker of the House of Representatives, and the executive director of the department or his or her designee.

(5) No provision of the agreement authorized by this section in whole or in part invalidates or amends any provision of the laws of this state. Adoption of the agreement by this state does not amend or modify any law of the state. Implementation of any condition of the agreement in this state, whether adopted before, at, or after membership of this state in the agreement, must be by the action of the state.

(6) The agreement authorized by this section is an accord among individual cooperating sovereigns in furtherance of their governmental functions. The agreement provides a mechanism among the member states to establish and maintain a cooperative, simplified system for the application and administration of sales and use taxes under the duly adopted law of each member state.

(7)(a) The agreement authorized by this act binds and inures only to the benefit of this state and the other member states. No person, other than a member state, is an intended beneficiary of the agreement. Any benefit to a person other than a state is established by the laws of this state and of other member states and not by the terms of the agreement.

(b) Consistent with paragraph (a), no person has any cause of action or defense under the agreement or by virtue of this state's approval of the agreement. No person may challenge, in any action brought under any provision of law, any action or inaction by any department, agency, or other instrumentality of this state, or of any political subdivision of this state, on the ground that the action or inaction is inconsistent with the agreement.

(b) A seller that contracts with a certified service provider is not liable to the state for sales or use tax due on transactions processed by the certified service provider unless the seller has misrepresented the type of items it sells or has committed fraud. In the absence of probable cause to believe that the seller has committed fraud or made a material misrepresentation, the seller is not subject to audit on the transactions processed by the certified service provider. A seller is subject to audit for transactions that have not been processed by the certified service provider. The member states acting jointly may perform a system check of the seller and review the seller's procedures to determine if the certified service provider's system is functioning properly and to determine the extent to which the seller's transactions are being processed by the certified service provider.

(c) A person that provides a certified automated system is responsible for the proper functioning of that system and is liable to the state for underpayments of tax attributable to errors in the functioning of the certified automated system. A seller that uses a certified automated sys-

tem remains responsible and is liable to the state for reporting and remitting tax.

(d) A seller that has a proprietary system for determining the amount of tax due on transactions and has signed an agreement establishing a performance standards for that system is liable for the failure of the system to meet the performance standard.

(9) Disclosure of information necessary under this section must be pursuant to a written agreement between the executive director of the department or his or her designee and the certified service provider. The certified service provider is bound by the same requirements of confidentiality as the department. (10) On or before January 1 annually, the department shall provide recommendations to the President of the Senate, the Senate Minority Leader, the Speaker of the House of Representatives, and the Minority Leader of the House of Representatives for provisions to be adopted for inclusion within the system which are necessary to bring it into compliance with the Streamlined Sales and Use Tax Agreement.

(b) As an incentive for taxpayers to incur the costs of a certified audit, the department shall compromise penalties and abate interest due on any tax liabilities revealed by a certified audit as provided in s. 213.21. This authority to compromise penalties or abate interest shall not apply to any liability for taxes that were collected by the participating taxpayer but that were not remitted to the department.

(c) The certified audits project is repealed on July 1, 2006 ~~2002~~, or upon completion of the project as determined by the department, whichever occurs first.

Property shall be deemed to be used or occupied predominantly for space flight business purposes if more than 50 percent of the property, or improvements thereon, is used for one or more space flight business purposes. Possession by a landlord, lessor, or licensor of a signed written statement from the tenant, lessee, or licensee claiming the exemption shall relieve the landlord, lessor, or licensor from the responsibility of collecting the tax, and the department shall look solely to the tenant, lessee, or licensee for recovery of such tax if it determines that the exemption was not applicable.

Section 33. Effective July 1, 2003, paragraph (a) of subsection (1) of section 212.031, Florida Statutes, as amended by section 3 of chapter 2000-345, Laws of Florida, is amended to read:

For purposes of this subparagraph, the term "sale" shall not include the leasing of tangible personal property.

11. Section 34. Subsection (1) and paragraph (a) of subsection (2) of section 201.08, Florida Statutes, are amended to read:

201.08 Tax on promissory or nonnegotiable notes, written obligations to pay money, or assignments of wages or other compensation; exception.—

(1)(a) On promissory notes, nonnegotiable notes, written obligations to pay money, or assignments of salaries, wages, or other compensation made, executed, delivered, sold, transferred, or assigned in the state, and for each renewal of the same, the tax shall be 35 cents on each \$100 or fraction thereof of the indebtedness or obligation evidenced thereby. *The tax on any document described in this paragraph shall not exceed \$2,450.*

(b) On mortgages, trust deeds, security agreements, or other evidences of indebtedness filed or recorded in this state, and for each renewal of the same, the tax shall be 35 cents on each \$100 or fraction thereof of the indebtedness or obligation evidenced thereby. Mortgages, including, but not limited to, mortgages executed without the state and recorded in the state, which incorporate the certificate of indebtedness, not otherwise shown in separate instruments, are subject to the same tax at the same rate. When there is both a mortgage, trust deed, or security agreement and a note, certificate of indebtedness, or obligation, the tax shall be paid on the mortgage, trust deed, or security agreement at the time of recordation. A notation shall be made on the note, certificate of indebtedness, or obligation that the tax has been paid on the mortgage, trust deed, or security agreement. If the mortgage, trust deed, security agreement, or other evidence of indebtedness subject to the tax levied by this section secures future advances, as provided in s. 697.04, the tax shall be paid at the time of recordation on the initial debt or obligation secured, excluding future advances; at the time and so often as any future advance is made, the tax shall be paid on all sums then advanced regardless of where such advance is made. Notwithstanding the aforesaid general rule, any increase in the amount of original indebtedness caused by interest accruing under an adjustable rate note or mortgage having an initial interest rate adjustment interval of not less than 6 months shall be taxable as a future advance only to the extent such increase is a computable sum certain when the document is executed. Failure to pay the tax shall not affect the lien for any such future advance given by s. 697.04, but any person who fails or refuses to pay such tax due by him or her is guilty of a misdemeanor of the first

degree. The mortgage, trust deed, or other instrument shall not be enforceable in any court of this state as to any such advance unless and until the tax due thereon upon each advance that may have been made thereunder has been paid.

(2)(a) On promissory notes, nonnegotiable notes, written obligations to pay money, or other compensation, made, executed, delivered, sold, transferred, or assigned in the state, in connection with sales made under retail charge account services, incident to sales which are not conditional in character and which are not secured by mortgage or other pledge of purchaser, the tax shall be 35 cents on each \$100 or fraction thereof of the gross amount of the indebtedness evidenced by such instruments, payable quarterly on such forms and under such rules and regulations as may be promulgated by the Department of Revenue. *The tax on any document described in this paragraph shall not exceed \$2,450.*

Section 35. Effective upon this act becoming a law and applying retroactively to December 21, 2000, section 443.1315, Florida Statutes, is created to read:

443.1315 *Treatment of Indian tribes.—*

(1) *As used in this section, the term:*

(a) *"Employer" includes any Indian tribe for which service in employment as defined by this chapter is performed.*

(b) *"Employment" includes service performed in the employ of an Indian tribe, as defined by s. 3306(u) of the Federal Unemployment Tax Act, provided such service is excluded from "employment," as defined by that act, solely by reason of s. 3306(c)(7) of said act and is not otherwise excluded from "employment" under this chapter. For purposes of this section, the exclusions from employment under s. 443.036(21)(d) shall be applicable to services performed in the employ of an Indian tribe.*

(2) *Benefits based on service in employment, as defined by this section, shall be payable in the same amount, on the same terms, and subject to the same conditions as benefits payable on the basis of other service subject to this chapter.*

(3)(a) *Indian tribes or tribal units, including subdivisions, subsidiaries, or business enterprises wholly owned by such Indian tribes, subject to this chapter shall pay contributions under the same terms and conditions as all other subject employers, unless they elect to pay into the Unemployment Compensation Trust Fund amounts equal to the amount of benefits attributable to service in the employ of the Indian tribe.*

(b) *Indian tribes electing to make payments in lieu of contributions must make such election in the same manner and under the same conditions as provided by s. 443.131 for state and local governments and nonprofit organizations subject to this chapter. Indian tribes shall determine if reimbursement for benefits paid will be elected by the tribe as a whole, by individual tribal units, or by combinations of individual tribal units.*

(c) *Indian tribes or tribal units shall be billed for the full amount of benefits attributable to service in the employ of the Indian tribe or tribal unit on the same schedule as other employing units that have elected to make payments in lieu of contributions.*

(d) *At the discretion of the director of the Agency for Workforce Innovation or his or her designee, any Indian tribe or tribal unit that elects to become liable for payments in lieu of contributions shall be required, within 90 days after the effective date of its election, to:*

1. *Execute and file with the director or his or her designee a surety bond approved by the director or his or her designee; or*

2. *Deposit with the director or his or her designee money or securities on the same basis as other employers with the same election option.*

(4)(a)1. *Failure of the Indian tribe or tribal unit to make required payments, including assessments of interest and penalty, within 90 days after receipt of the bill, will cause the Indian tribe to lose the option to make payments in lieu of contributions, as described in subsection (3), for the following tax year, unless payment in full is received before contribution rates for the next tax year are computed.*

2. *Any Indian tribe that loses the option to make payments in lieu of contributions due to late payment or nonpayment, as described in sub-*

paragraph 1., shall have such option reinstated if, after a period of 1 year, all contributions have been made timely, provided no contributions, payments in lieu of contributions for benefits paid, penalties, or interest remain outstanding.

(b)1. Failure of the Indian tribe or any tribal unit thereof to make required payments, including assessments of interest and penalty, after all collection activities deemed necessary by the director of the Agency for Workforce Innovation or his or her designee have been exhausted, will cause services performed for such tribe to not be treated as "employment" for purposes of paragraph (1)(b).

2. The director or his or her designee may determine that any Indian tribe that loses coverage under subparagraph 1. may have services performed for such tribe again included as "employment" for purposes of paragraph (1)(b) if all contributions, payments in lieu of contributions, penalties, and interest have been paid.

(c) If an Indian tribe fails to make payments required under this section, including assessments of interest and penalty, within 90 days after a final notice of delinquency, the director of the Agency for Workforce Innovation shall immediately notify the United States Internal Revenue Service and the United States Department of Labor.

(5) Notices of payment and reporting delinquency to Indian tribes or their tribal units shall include information that failure to make full payment within the prescribed timeframe:

(a) Will cause the Indian tribe to be liable for taxes under the Federal Unemployment Tax Act.

(b) Will cause the Indian tribe to lose the option to make payments in lieu of contributions.

(c) Could cause the Indian tribe to be excepted from the definition of "employer," as provided in paragraph (1)(a), and services in the employ of the Indian tribe, as provided in paragraph (1)(b), to be excepted from "employment."

(6) Extended benefits paid that are attributable to service in the employ of an Indian tribe and not reimbursed by the Federal Government shall be financed in their entirety by such Indian tribe.

(7) The Agency for Workforce Innovation is authorized to adopt any rules it deems necessary to implement this section.

Section 36. Paragraph (e) of subsection (3) of section 443.131, Florida Statutes, is amended to read:

443.131 Contributions.—

(3) CONTRIBUTION RATES BASED ON BENEFIT EXPERIENCE.—

(e)1. Variations from the standard rate of contributions shall be assigned with respect to each calendar year to employers eligible therefor. In determining the contribution rate, varying from the standard rate to be assigned each employer, adjustment factors provided for in sub-subparagraphs a.-c. will be added to the benefit ratio. This addition will be accomplished in two steps by adding a variable adjustment factor and a final adjustment factor as defined below. The sum of these adjustment factors provided for in sub-subparagraphs a.-c. will first be algebraically summed. The sum of these adjustment factors will then be divided by a gross benefit ratio to be determined as follows: Total benefit payments for the previous 3 years, as defined in subparagraph (b)1., charged to employers eligible to be assigned a contribution rate different from the standard rate minus excess payments for the same period divided by taxable payroll entering into the computation of individual benefit ratios for the calendar year for which the contribution rate is being computed. The ratio of the sum of the adjustment factors provided for in sub-subparagraphs a.-c. to the gross benefit ratio will be multiplied by each individual benefit ratio below the maximum tax rate to obtain variable adjustment factors; except that in any instance in which the sum of an employer's individual benefit ratio and variable adjustment factor exceeds the maximum tax rate, the variable adjustment factor will be reduced so that the sum equals the maximum tax rate. The variable adjustment factor of each such employer will be multiplied by his or her taxable payroll entering into the computation of his or her benefit ratio. The sum of these products will be divided by the taxable payroll of such

employers that entered into the computation of their benefit ratios. The resulting ratio will be subtracted from the sum of the adjustment factors provided for in sub-subparagraphs a.-c. to obtain the final adjustment factor. The variable adjustment factors and the final adjustment factor will be computed to five decimal places and rounded to the fourth decimal place. This final adjustment factor will be added to the variable adjustment factor and benefit ratio of each employer to obtain each employer's contribution rate; however, at no time shall an employer's contribution rate be rounded to less than 0.1 percent.

a. An adjustment factor for noncharge benefits will be computed to the fifth decimal place, and rounded to the fourth decimal place, by dividing the amount of benefit payments noncharged in the 3 preceding years as defined in subparagraph (b)1. by the taxable payroll of employers eligible to be considered for assignment of a contribution rate different from the standard rate that have a benefit ratio for the current year less than the maximum contribution rate. The taxable payroll of such employers will be the taxable payrolls for the 3 years ending June 30 of the current calendar year that had been reported to the division by September 30 of the same calendar year. Noncharge benefits for the purpose of this section shall be defined as benefit payments to an individual which were paid from the Unemployment Compensation Trust Fund but which were not charged to the unemployment record of any employer.

b. An excess payments adjustment factor will be computed to the fifth decimal place, and rounded to the fourth decimal place, by dividing the total excess payments during the 3 preceding years as defined in subparagraph (b)1. by the taxable payroll of employers eligible to be considered for assignment of a contribution rate different from the standard rate that have a benefit ratio for the current year less than the maximum contribution rate. The taxable payroll of such employers will be the same as used in computing the noncharge adjustment factor as described in sub-subparagraph a. The term "excess payments" for the purpose of this section is defined as the amount of benefit payments charged to the employment record of an employer during the 3 preceding years, as defined in subparagraph (b)1., less the product of the maximum contribution rate and his or her taxable payroll for the 3 years ending June 30 of the current calendar year that had been reported to the division by September 30 of the same calendar year. The term "total excess payments" is defined as the sum of the individual employer excess payments for those employers that were eligible to be considered for assignment of a contribution rate different from the standard rate.

c. If the balance in the Unemployment Compensation Trust Fund as of June 30 of the calendar year immediately preceding the calendar year for which the contribution rate is being computed is less than 3.74 percent of the taxable payrolls for the year ending June 30 as reported to the division by September 30 of that calendar year, a positive adjustment factor will be computed. Such adjustment factor shall be computed annually to the fifth decimal place, and rounded to the fourth decimal place, by dividing the sum of the total taxable payrolls for the year ending June 30 of the current calendar year as reported to the division by September 30 of such calendar year into a sum equal to one-fourth of the difference between the amount in the fund as of June 30 of such calendar year and the sum of 4.75 percent of the total taxable payrolls for that year. Such adjustment factor will remain in effect in subsequent years until a balance in the Unemployment Compensation Trust Fund as of June 30 of the year immediately preceding the effective date of such contribution rate equals or exceeds 3.74 percent of the taxable payrolls for the year ending June 30 of the current calendar year as reported to the division by September 30 of that calendar year. If the balance in the Unemployment Compensation Trust Fund as of June 30 of the year immediately preceding the calendar year for which the contribution rate is being computed exceeds 4.75 percent of the taxable payrolls for the year ending June 30 of the current calendar year as reported to the division by September 30 of that calendar year, a negative adjustment factor will be computed. Such adjustment factor shall be computed annually to the fifth decimal place, and rounded to the fourth decimal place, by dividing the sum of the total taxable payrolls for the year ending June 30 of the current calendar year as reported to the division by September 30 of such calendar year into a sum equal to one-fourth of the difference between the amount in the fund as of June 30 of the current calendar year and 4.75 percent of the total taxable payrolls of such year. Such adjustment factor will remain in effect in subsequent years until the balance in the Unemployment Compensation Trust Fund as of June 30 of the year immediately preceding the effective date of such contribution rate is less than 4.75 percent but more than 3.74 percent of the taxable

payrolls for the year ending June 30 of the current calendar year as reported to the division by September 30 of that calendar year.

d. The maximum contribution rate that can be assigned to any employer shall be 5.4 percent, except those employers participating in an approved short-time compensation plan in which case the maximum shall be 1 percent above the current maximum contribution rate, with respect to any calendar year in which short-time compensation benefits are in the employer's employment record.

2. In the event of the transfer of employment records to an employing unit pursuant to paragraph (g) which, prior to such transfer, was an employer, the division shall recompute a benefit ratio for the successor employer on the basis of the combined employment records and reassign an appropriate contribution rate to such successor employer as of the beginning of the calendar quarter immediately following the effective date of such transfer of employment records.

Section 37. Subsection (1) of section 561.501, Florida Statutes, is amended to read:

561.501 Surcharge on sale of alcoholic beverages for consumption on the premises; penalty.—

(1) Notwithstanding s. 561.50 or any other provision of the Beverage Law, a surcharge of 3.34 cents is imposed upon each ounce of liquor and each 4 ounces of wine, a surcharge of 2 cents is imposed on each 12 ounces of cider, and a surcharge of 1.34 cents is imposed on each 12 ounces of beer sold at retail for consumption on premises licensed by the division as an alcoholic beverage vendor. However, the surcharges imposed under this subsection need not be paid upon such beverages when they are sold by a nonprofit organization that is licensed by the division under s. 561.422 or s. 565.02(4) as an alcoholic beverage vendor and that is determined by the Internal Revenue Service to be currently exempt from federal income tax under s. 501(c)(2), (3), (4), (5), (6), (7), (8), (10), or (19) of the Internal Revenue Code of 1986, as amended.

Section 38. Effective July 1, 2001, subsection (6) is added to section 236.25, Florida Statutes, to read:

236.25 District school tax.—

(6) *In addition to the maximum millage levied under this section and the General Appropriations Act, a school district may levy, by local referendum or in a general election, additional millage for school operational purposes up to an amount that, when combined with nonvoted millage levied under this section, does not exceed the 10-mill limit established in s. 9(b), Art. VII of the State Constitution. Any such levy shall be for a maximum of 4 years and shall be counted as part of the 10-mill limit established in s. 9(b), Art. VII of the State Constitution. Millage elections conducted under the authority granted pursuant to this section are subject to ss. 236.31 and 236.32. Funds generated by such additional millage do not become a part of the calculation of the Florida Education Finance Program total potential funds in 2001-2002 or any subsequent year and must not be incorporated in the calculation of any hold-harmless or other component of the Florida Education Finance Program formula in any year.*

Section 39. Effective July 1, 2001, section 236.31, Florida Statutes, is amended to read:

236.31 District millage elections.—

(1) The school board, pursuant to resolution adopted at a regular meeting, shall direct the county commissioners to call an election at which the electors within the school districts may approve an ad valorem tax millage as authorized in s. 9, Art. VII of the State Constitution. Such election may be held at any time, except that not more than one such election shall be held during any 12-month period. Any millage so authorized shall be levied for a period not in excess of 2 years or until changed by another millage election, whichever is the earlier. In the event any such election is invalidated by a court of competent jurisdiction, such invalidated election shall be considered not to have been held.

(2) *The school board, pursuant to resolution adopted at a regular meeting, shall direct the county commissioners to call an election at which the electors within the school district may approve an ad valorem tax millage as authorized under s. 236.25(6). Such election may be held at any time, except that not more than one such election shall be held*

during any 12-month period. Any millage so authorized shall be levied for a period not in excess of 4 years or until changed by another millage election, whichever is earlier. If any such election is invalidated by a court of competent jurisdiction, such invalidated election shall be considered not to have been held.

Section 40. Effective July 1, 2001, section 236.32, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 236.32, F.S., for present text.)

236.32 *Procedures for holding and conducting school district millage elections.—*

(1) *HOLDING ELECTIONS.—All school district millage elections shall be held and conducted in the manner prescribed by law for holding general elections, except as provided in this chapter.*

(2) *FORM OF BALLOT.—*

(a) *The school board may propose a single millage or two millages, with one for operating expenses and another for a local capital improvement reserve fund. When two millage figures are proposed, each millage must be voted on separately.*

(b) *The school board shall provide the wording of the substance of the measure and the ballot title in the resolution calling for the election. The wording of the ballot must conform to the provisions of s. 101.161.*

(3) *QUALIFICATION OF ELECTORS.—All qualified electors of the school district are entitled to vote in the election to set the school tax district millage levy.*

(4) *RESULTS OF ELECTION.—When the school board proposes one tax levy for operating expenses and another for the local capital improvement reserve fund, the results shall be considered separately. The tax levy shall be levied only in case a majority of the electors participating in the election vote in favor of the proposed special millage.*

(5) *EXPENSES OF ELECTION.—The cost of the publication of the notice of the election and all expenses of the election in the school district shall be paid by the school board.*

Section 41. Except as otherwise expressly provided in this act, this act shall take effect upon becoming a law.

—as amended May 1 was read the third time by title.

Senator Horne moved the following amendment which was adopted by two-thirds vote:

Amendment 1 (072544)(with title amendment)—On page 3, line 30, insert:

Section 1. (1) *The Legislature intends to ensure that all high schools provide supportive services to students and their parents to determine the comprehensive program of study that will best meet the needs and goals of each student. At a minimum, these services must include access to a guidance counselor and assistance in developing an educational and career plan. Each high school shall provide a variety of comprehensive, relevant programs of study which will meet the needs of all students and enable each student to pursue his or her individual educational and career goals.*

(2) *Key components of this process are:*

(a) *A variety of programs of study which are based on individual educational and career goals.*

(b) *Parental involvement in the identification of the appropriate program of study.*

(c) *Assurance that all programs of study are designed to provide a seamless transition to an appropriate postsecondary education and employment.*

Section 2. (1) *A career and technical education program within a comprehensive high school program of study must be certified or endorsed by the appropriate industry to ensure that all components of the program are relevant and appropriate to prepare the student for further education and employment in that industry.*

(2) *Effective July 1, 2006, each career and technical program preparing for postsecondary education and employment offered as part of a comprehensive program of study in a high school must be industry-certified or endorsed, except for courses classified as exploratory, orientation, or practical arts. A student enrolled in a course within a career and technical program that is not industry-certified may not be reported for full-time equivalent funding through the Florida Education Finance Program unless the course is classified as exploratory, orientation, or practical arts. The Department of Education shall assure that each program is certified by July 1, 2006, and recertified at least every 5 years. The department shall adopt rules for the certification process, and the rules must establish any necessary procedures for obtaining appropriate business partners and requirements for business and industry involvement in curriculum oversight and equipment procurement.*

(3) *Each full-time equivalent student in an industry-certified or endorsed career and technical program generates 1.15 times the cost factor for students enrolled in the basic program for grades 9-12, as provided by section 236.081, Florida Statutes, and the annual General Appropriations Act.*

(4) *Effective July 1, 2006, each career and technical education program offered by a high school and able to be articulated to a postsecondary level must also have an articulation agreement with one or more appropriate postsecondary education institutions to ensure a seamless transition to a related postsecondary program without a loss of credit for the student. Students enrolled in a program that is not articulated to a postsecondary program may not be reported for full-time equivalent student funding through the Florida Education Finance Program unless the course is classified as exploratory, orientation, or practical arts or terminates at the high school level.*

Section 3. (1) *A comprehensive program of study in career and technical education must be designed to ensure that, upon completion of the program of study and graduation from high school, a student is prepared to continue his or her education at a postsecondary education institution and obtain employment. Therefore, a comprehensive career and technical program of study must require of each student:*

(a) *Completion of academic courses with a designation from the Department of Education of level two or above. All credits earned to meet graduation requirements in mathematics, science, and communication must have that designation.*

(b) *Attainment of at least one occupational completion point in an industry-certified or endorsed career and technical education program or completion of at least two courses in a technology education program.*

(c) *Completion of a one-credit core course addressing workplace-readiness skills. The Department of Education shall define in rule the content of the course and shall assure that the course meets graduation*

requirements for performing arts or practical arts. The course requirement may be satisfied through infusing course content into existing select career and technical education course.

(d) Participation in work-based learning experiences, as defined in rule by the Department of Education.

(e) Participation in a capstone activity that includes a project related to a career. This activity is designed to apply and demonstrate the competencies and concepts attained in the student's program of study. The Department of Education may specify in rule characteristics of capstone activities that meet the intent of this paragraph.

(2) The Legislature intends to recognize with an endorsement on the high school diploma a student who:

(a) Completes the requirements for high school graduation as provided in section 232.246, Florida Statutes, and the additional requirements for a comprehensive career and technical program of study provided in subsection (1).

(b) Passes the college entry-level placement test or an equivalent test identified by the department with a score adequate to enroll in a public postsecondary education program without the need for college preparatory or vocational preparatory instruction.

(3) The endorsement indicates that the student is prepared to continue into postsecondary education without the need for remediation and that the student has marketable employment skills. The Department of Education may adopt by rule a standard format for the endorsement.

(4) For each student who receives the endorsement on his or her diploma, the school district shall receive incentive funding, as provided in section 236.081, Florida Statutes, and the annual General Appropriations Act.

(5) A school district that generates funds as a result of industry-certified programs or incentive funding for student achievement of the endorsement must expend the total amount on the comprehensive career and technical program of study. The district may not apply indirect charges to incentive funds earned.

Section 4. The Legislature finds that, to adequately assist students in advanced technical and academic career planning, high school guidance counselors and career specialists require preservice and inservice professional development programs that contain sufficient information on career education.

(1) Each guidance counselor and career specialist in a school with technical education programs certified as provided in section 2 of this act shall complete 12 inservice points in technical education and career development which include:

(a) An emphasis on labor-market trends and projections;

(b) A practicum that focuses on development of a career-awareness program; and

(c) Content related to a career or employment within the counselor's work experience.

(2) The Department of Education shall assist guidance counselors and career specialists in attaining the additional inservice required. The State Board of Education shall revise rules governing the certification and recertification of guidance counselors to allow substitution of personal work-based experiences and temporary-employment opportunities in business and industry for the required classroom instruction. A minimum of 12 hours of inservice in career and technical education will be required for each 5-year period.

(3) To implement the requirements of this act through preservice education, the Legislature encourages colleges of education to provide for the additional courses required without increasing the total number of credit hours needed to complete a program. Instead, the colleges are encouraged to infuse course content required for ethics courses into courses required for introduction, theory, and practicum.

Section 5. Paragraph (b) of subsection (9) of section 228.041, Florida Statutes, is amended to read:

228.041 Definitions.—Specific definitions shall be as follows, and wherever such defined words or terms are used in the Florida School Code, they shall be used as follows:

(9) INSTRUCTIONAL PERSONNEL.—“Instructional personnel” means any staff member whose function includes the provision of direct instructional services to students. Instructional personnel also includes personnel whose functions provide direct support in the learning process of students. Included in the classification of instructional personnel are:

(b) Pupil personnel services.—Pupil personnel services include staff members responsible for: advising students with regard to their abilities and aptitudes, educational and occupational opportunities, and personal and social adjustments; providing placement services; performing educational evaluations; and similar functions. Included in this classification are guidance counselors, social workers, ~~career occupational placement~~ ~~placement~~ specialists, and school psychologists.

Section 6. Paragraph (c) of subsection (2) of section 229.601, Florida Statutes, is amended to read:

229.601 Career education program.—

(2) There is hereby established a career education program in the state educational system. The Commissioner of Education and his or her designated staff shall administer this program. In developing and administering the career education program, the purpose of which is to promote positive career opportunities for all students regardless of their race, color, creed, national origin, ancestry, socioeconomic status, or gender, the commissioner shall:

(c) Develop programs for preservice and inservice training for the purpose of infusing career education concepts into the basic curricula of public schools and core curricula of community colleges and state universities and programs for preservice and inservice training for counselors and ~~career occupational and placement~~ ~~placement~~ specialists to assist in career counseling and placement and followup activities.

Section 7. Paragraph (a) of subsection (5) of section 229.602, Florida Statutes, is amended to read:

229.602 Florida private sector and education partnerships.—

(5) Each school district shall designate one or more persons to coordinate local private sector and education partnership activities. The general activities of these coordinators shall be to enhance private sector and education partnership activities. The specific duties of the district coordinators shall include, but not be limited to, the following:

(a) Maintaining contact with local businesses and industries, local chamber of commerce organizations, regional workforce boards ~~private industry councils with Job Training Partnership Act programs~~, ~~district, career occupational~~ ~~specialists~~, guidance personnel, economics educators, volunteer coordinators, community education coordinators, appropriate governmental personnel, and any others interested in private sector and education partnerships.

Section 8. Paragraphs (c), (d), and (l) of subsection (1) of section 236.081, Florida Statutes, are amended, present paragraphs (m) through (p) of that subsection are redesignated as paragraphs (n) through (q), respectively, and a new paragraph (m) is added to that subsection, and paragraph (a) of subsection (5) of that section is amended, to read:

236.081 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(c) Determination of programs.—Cost factors based on desired relative cost differences between the following programs shall be established in the annual General Appropriations Act. A *secondary career or technical education program certified as required by section 2 of this act generates funding as provided in paragraph (m). Effective July 1, 2006, a full-time equivalent student in a career or technical education program that*

is not industry-certified or endorsed shall not generate any state funding unless the student is in a course classified as exploration, orientation, or practical arts and the General Appropriations Act contains a cost factor for such courses. The Department of Education shall complete a study by January 2002 to determine if career and technical education programs should have differentiated funding weights. The Commissioner of Education shall specify a matrix of services and intensity levels to be used by districts in the determination of the two weighted cost factors for exceptional students with the highest levels of need. For these students, the funding support level shall fund the exceptional students' education program, with the exception of extended school year services for students with disabilities.

1. Basic programs.—
 - a. Kindergarten and grades 1, 2, and 3.
 - b. Grades 4, 5, 6, 7, and 8.
 - c. Grades 9, 10, 11, and 12.
2. Programs for exceptional students.—
 - a. Support Level IV.
 - b. Support Level V.
3. Secondary career and technical education programs, industry-certified or endorsed.—
4. Career and technical education programs, all other programs.—
 - 5.4. English for Speakers of Other Languages.—
 - (d) Annual allocation calculation.—

1. The Department of Education ~~shall be authorized and directed to~~ review all district programs and enrollment projections and calculate a maximum total weighted full-time equivalent student enrollment for each district for the K-12 FEFP.

2. Maximum enrollments calculated by the department shall be derived from enrollment estimates used by the Legislature to calculate the FEFP. If two or more districts enter into an agreement under the provisions of s. 230.23(4)(d), after the final enrollment estimate is agreed upon, the amount of FTE specified in the agreement, not to exceed the estimate for the specific program as identified in paragraph (c), may be transferred from the participating districts to the district providing the program.

3. As part of its calculation of each district's maximum total weighted full-time equivalent student enrollment, the department shall establish separate enrollment ceilings for each of two program groups. Group 1 shall be composed of grades K-3, grades 4-8, and grades 9-12. Group 2 shall be composed of students in exceptional student education programs, English for Speakers of Other Languages programs, all basic programs other than the programs in group 1, and all vocational programs in grades 6-12 ~~7-12~~.

a. The weighted enrollment ceiling for group 2 programs shall be calculated by multiplying the final enrollment conference estimate for each program by the appropriate program weight. The weighted enrollment ceiling for program group 2 shall be the sum of the weighted enrollment ceilings for each program in the program group, plus the increase in weighted full-time equivalent student membership from the prior year for clients of the Department of Children and Family Services and the Department of Juvenile Justice.

b. If, for any calculation of the FEFP, the weighted enrollment for program group 2, derived by multiplying actual enrollments by appropriate program weights, exceeds the enrollment ceiling for that group, the following procedure shall be followed to reduce the weighted enrollment for that group to equal the enrollment ceiling:

(I) The weighted enrollment ceiling for each program in the program group shall be subtracted from the weighted enrollment for that program derived from actual enrollments.

(II) If the difference calculated under sub-sub-subparagraph (I) is greater than zero for any program, a reduction proportion shall be com-

puted for the program by dividing the absolute value of the difference by the total amount by which the weighted enrollment for the program group exceeds the weighted enrollment ceiling for the program group.

(III) The reduction proportion calculated under sub-sub-subparagraph (II) shall be multiplied by the total amount of the program group's enrollment over the ceiling as calculated under sub-sub-subparagraph (I).

(IV) The prorated reduction amount calculated under sub-sub-subparagraph (III) shall be subtracted from the program's weighted enrollment. For any calculation of the FEFP, the enrollment ceiling for each group 1 shall be calculated by multiplying the actual enrollment for each program in the program group by its appropriate program weight.

c. For program group 2, the weighted enrollment ceiling shall be a number not less than the sum obtained by:

(I) Multiplying the sum of reported FTE for all programs in the program group that have a cost factor of 1.0 or more by 1.0, and

(II) By adding this number to the sum obtained by multiplying the projected FTE for all programs with a cost factor less than 1.0 by the actual cost factor.

4. Following completion of the weighted enrollment ceiling calculation as provided in subparagraph 3., a supplemental capping calculation shall be employed for those districts that are over their weighted enrollment ceiling. For each such district, the total reported unweighted FTE enrollment for group 2 programs shall be compared with the total appropriated unweighted FTE enrollment for group 2 programs. If the total reported unweighted FTE for group 2 is greater than the appropriated unweighted FTE, then the excess unweighted FTE up to the unweighted FTE transferred from group 2 to group 1 for each district by the Public School FTE Estimating Conference shall be funded at a weight of 1.0 and added to the funded weighted FTE computed in subparagraph 3. This adjustment shall be calculated beginning with the third calculation of the 1998-1999 FEFP.

(l) Instruction in career education.—~~Effective for the 1985-1986 school year and thereafter,~~ District pupil progression plans shall provide for the substitution of vocational courses for the nonelective courses required for high school graduation pursuant to s. 232.246. *Beginning July 1, 2006, a career and technical course may not be substituted for another required course unless it is part of an industry-certified or endorsed program certified as provided in section 2 of this act.* A student in grades 9 through 12 who enrolls in and satisfactorily completes a job-preparatory course program may substitute credit for a portion of the required four credits in English, three credits in mathematics, *any credits in social studies*, and three credits in science. The credit substituted for English, mathematics, *social studies*, or science earned through the vocational job-preparatory course program shall be on a curriculum equivalency basis as provided for in the State Course Code Directory. The State Board of Education shall authorize by rule vocational course substitutions not to exceed two credits in each of the nonelective academic subject areas of English, mathematics, *social studies*, and science. School districts shall provide for vocational course substitutions not to exceed two credits in each of the nonelective academic subject areas of English, mathematics, *social studies*, and science, upon adoption of vocational student performance standards by the school board pursuant to s. 232.2454. ~~A career and technical course vocational program~~ which has been used as a substitute for a nonelective academic credit in one subject area may not be used as a substitute for any other subject area. The credit in practical arts or exploratory career education required for high school graduation pursuant to s. 232.246(1) shall be funded as a career education course. *Such a course is eligible for funding at 1.15 times the cost factor for students enrolled in the basic program for grades 9-12 only if it is part of a program certified or endorsed as required by section 2 of this act.*

(m) Calculation of full-time equivalent membership for an industry-certified or endorsed technical program.—*Funding for students enrolled in an industry-certified program as provided in section 2 of this act is calculated at 1.15 times the cost factor for students enrolled in the program for grades 9-12 and multiplying that number by the number of full-time equivalent students in an industry-certified or endorsed career and technical program. A student who earns the endorsement authorized by section 3 of this act generates additional incentive funding for the program, as provided in subsection (5). During the transition from the 2001-*

2002 school year until July 1, 2006, all career and technical education programs not industry-certified or endorsed or articulated to postsecondary institutions will continue to earn weighted funding as determined in the General Appropriations Act.

(5) CATEGORICAL PROGRAMS.—The Legislature hereby provides for the establishment of selected categorical programs to assist in the development and maintenance of activities giving indirect support to the programs previously funded. These categorical appropriations may be funded as general and transitional categorical programs. It is the intent of the Legislature that no transitional categorical program be funded for more than 4 fiscal years from the date of original authorization. Such programs are as follows:

(a) General.—

1. Comprehensive school construction and debt service as provided by law.
2. Community schools as provided by law.
3. School lunch programs as provided by law.

6. Student development services as provided by law.
7. Diagnostic and learning resource centers as provided by law.
8. Comprehensive health education as provided by law.
9. Excellent Teaching Program as provided by law.
10. *Attainment of the high school career and technical endorsement authorized by section 3 of this act and rules of the State Board of Education.*

Section 9. Section 239.121, Florida Statutes, is amended to read:

239.121 ~~Career Occupational~~ specialists.—

(1) District school boards and community college boards of trustees may employ ~~career occupational~~ specialists to provide student counseling services and occupational information to students and to provide information to local business and industry regarding the availability of vocational programs through local educational institutions. Under the supervision of a certified counselor, ~~career occupational~~ specialists may undertake special assignments that include, but are not limited to, the identification and intensive counseling of current and former students and the parents of such students, as well as counseling students and all education personnel regarding job and career opportunities.

(2) ~~Career Occupational~~ specialists shall receive certification pursuant to State Board of Education rule and s. 231.1725. A ~~career No occupational~~ specialist may not be paid less than any other member of the instructional personnel who has equivalent qualifications and provides similar services. ~~Career Occupational~~ specialists may receive salary supplements upon documentation that such supplements are necessary for recruiting or retaining suitable personnel.

(3) *The Department of Education and each school district that employs a career specialist shall assist that person in preparing a professional development plan designed to provide the skills necessary to perform the duties associated with implementing a comprehensive technical education program of study.*

Section 10. Paragraph (a) of subsection (2) of section 239.229, Florida Statutes, is amended to read:

239.229 Vocational standards.—

(2)(a) *Each school board and superintendent shall direct the smooth transition of high school career and technical education programs to industry-certified or endorsed programs of study included in a comprehensive course of study. Each school board and superintendent shall also direct the implementation of all components required to obtain the endorsement authorized in section 3 of this act if the district chooses to offer*

the endorsement. School board, superintendent, and school accountability for career education within elementary and secondary schools includes, but is not limited to:

(4) PARTICIPATION; ENROLLMENT.—

(e) After the period during which an eligible employee had the choice to elect the defined benefit program or the Public Employee Optional Retirement Program, the employee shall have one opportunity, at the employee’s discretion, to choose to move from the defined benefit program to the Public Employee Optional Retirement Program or from the Public Employee Optional Retirement Program to the defined benefit program. This paragraph shall be contingent upon approval from the Internal Revenue Service for including the choice described herein within the programs offered by the Florida Retirement System.

1. If the employee chooses to move to the Public Employee Optional Retirement Program, the applicable provisions of this section shall govern the transfer.

2. If the employee chooses to move to the defined benefit program, the employee must transfer from his or her Public Employee Optional Retirement Program account and from other employee moneys as necessary, a sum representing the present value of that employee’s accumulated benefit obligation immediately following the time of such movement, determined assuming that attained service equals the sum of service in the defined benefit program and service in the Public Employee Optional Retirement Program ~~all contributions that would have been made to the defined benefit plan for that employee and the actual return that would have been earned on those contributions had they been invested in the defined benefit program.~~ *Benefit commencement occurs on the first date the employee would become eligible for unreduced benefits, using the discount rate and other relevant actuarial assumptions that were used to value the Florida Retirement System defined benefit plan liabilities in the most recent actuarial valuation. For any employee who, at the time of the second election, already maintains an accrued benefit amount in the defined benefit plan, the then-present value of such accrued benefit shall be deemed part of the required transfer amount described in this subparagraph. The division shall ensure that the transfer sum is prepared using a formula and methodology certified by an enrolled actuary.*

3. *Notwithstanding subparagraph 2., an employee who chooses to move to the defined benefit program and who became eligible to participate in the Public Employee Optional Retirement Program by reason of employment in a regularly established position with a state employer after June 1, 2002; a district school board employer after September 1, 2002; or a local employer after December 1, 2002, must transfer from his or her Public Employee Optional Retirement Program account and, from other employee moneys as necessary, a sum representing that employee’s actuarial accrued liability.*

4. *Employees’ ability to transfer from the Florida Retirement System defined benefit program to the Public Employee Optional Retirement Program pursuant to paragraphs (a) through (d), and the ability for current employees to have an option to later transfer back into the defined benefit program under subparagraph 2., shall be deemed a significant system amendment. Pursuant to s. 121.031(4), any such resulting unfunded liability arising from actual original transfers from the defined benefit program to the optional program shall be amortized within 30 plan years as a separate unfunded actuarial base independent of the reserve stabilization mechanism defined in s. 121.031(3)(f). For the first 25 years, no direct amortization payment shall be calculated for this base.*

During this 25-year period, such separate base shall be used to offset the impact of employees exercising their second program election under this paragraph. It is the legislative intent that the actuarial funded status of the Florida Retirement System defined benefit plan is neither beneficially nor adversely impacted by such second program elections in any significant manner, after due recognition of the separate unfunded actuarial base. Following this initial 25-year period, any remaining balance of the original separate base shall be amortized over the remaining 5 years of the required 30-year amortization period.

And the title is amended as follows:

On page 1, line 18, after the semicolon (;) insert: providing for amortization of any unfunded liability;

The authorization, unless sooner suspended or revoked, shall automatically expire 2 years after the date of issuance unless renewed by the insurer. The authorization shall be renewed upon application for renewal and payment of a renewal fee of \$1,000, provided that the insurer is in compliance with the requirements of this section and any rules adopted hereunder. An application for renewal of the authorization shall be made 90 days prior to expiration of the authorization, on forms provided by the agency. The renewal application shall not require the resubmission of any documents previously filed with the agency if such documents have remained valid and unchanged since their original filing.

Section 14. Subsection (5) is added to section 440.14, Florida Statutes, to read:

The submission of policy information or notices of cancellation or expiration to the contracted private entity satisfies the filing requirements of this subsection and s. 440.42(3).*

Section 16. Subsections (1), (2), (5), and (8) of section 440.192, Florida Statutes, are amended to read:

440.192 Procedure for resolving benefit disputes.—

(1) Subject to s. 440.191, any employee who has not received a benefit to which the employee believes she or he is entitled under this chapter shall ~~file by certified mail, or by electronic means approved by the Deputy Chief Judge, with the Office of the Judges of Compensation Claims a petition for benefits which meets the requirements of this section. The division shall inform employees of the location of the Office of the Judges of Compensation Claims for purposes of filing a petition for benefits. The employee shall also serve copies of the petition for benefits by certified mail, or by electronic means approved by the Deputy Chief Judge, upon the employer and, the employer's carrier, and the division in Tallahassee a petition for benefits that meets the requirements of this section. The Deputy Chief Judge shall refer the petitions to the judges of compensation claims. The division shall refer the petition to the Office of the Judges of Compensation Claims.~~

(2) Upon receipt, the Office of the Judges of Compensation Claims shall review each petition and shall dismiss each petition or any portion of such a petition, upon the judge's ~~its~~ own motion or upon the motion of any party, that does not on its face specifically identify or itemize the following:

(a) Name, address, telephone number, and social security number of the employee.

(b) Name, address, and telephone number of the employer.

(c) A detailed description of the injury and cause of the injury, including the location of the occurrence *and the date or dates of the accident.*

(d) A detailed description of the employee's job, work responsibilities, and work the employee was performing when the injury occurred.

(e) The time period for which compensation *and the specific classification of compensation were* ~~was~~ not timely provided.

(f) Date of maximum medical improvement, character of disability, and specific statement of all benefits or compensation that the employee is seeking.

(g) All *specific* travel costs to which the employee believes she or he is entitled, including dates of travel and purpose of travel, means of transportation, and mileage *and including the date the request for mileage was filed with the carrier and a copy of the request filed with the carrier.*

(h) Specific listing of all medical charges alleged unpaid, including the name and address of the medical provider, the amounts due, and the specific dates of treatment.

(i) The type or nature of treatment care or attendance sought and the justification for such treatment.

(j) Specific explanation of any other disputed issue that a judge of compensation claims will be called to rule upon.

The dismissal of any petition or portion of such a petition under this section is without prejudice and does not require a hearing.

(5) All motions to dismiss must state with particularity the basis for the motion. The judge of compensation claims shall enter an order upon such motions without hearing, unless good cause for hearing is shown. When any petition or portion of a petition is dismissed for lack of specificity under this subsection, the claimant must be allowed 20 days after the

date of the order of dismissal in which to file an amended petition. Any grounds for dismissal for lack of specificity under this section *which are* not asserted within 30 days after receipt of the petition for benefits are thereby waived.

(8) Within 14 days after receipt of a petition for benefits by certified mail, the carrier must either pay the requested benefits without prejudice to its right to deny within 120 days from receipt of the petition or file a *response to petition notice of denial* with the Office of the Judges of Compensation Claims ~~division~~. The carrier must list all benefits requested but not paid and explain its justification for nonpayment in the *response to petition notice of denial*. A carrier that does not deny compensability in accordance with s. 440.20(4) is deemed to have accepted the employee's injuries as compensable, unless it can establish material facts relevant to the issue of compensability that could not have been discovered through reasonable investigation within the 120-day period. The carrier shall provide copies of the *response notice* to the filing party, employer, and claimant by certified mail.

Section 17. Paragraph (a) of subsection (1) and subsections (4), (6), and (11) of section 440.20, Florida Statutes, are amended to read:

440.20 Time for payment of compensation; penalties for late payment.—

(1)(a) Unless it denies compensability or entitlement to benefits, the carrier shall pay compensation directly to the employee as required by ss. 440.14, 440.15, and 440.16, in accordance with the obligations set forth in such sections. *If authorized by the employee, the carrier's obligation to pay compensation directly to the employee is satisfied when the carrier directly deposits, by electronic transfer or other means, compensation into the employee's account at a financial institution. As used in this paragraph, the term "financial institution" means a financial institution as defined in s. 655.005(1)(h). Compensation by direct deposit is considered paid on the date the funds become available for withdrawal by the employee.*

(4) If the carrier is uncertain of its obligation to provide benefits or compensation, it may initiate payment without prejudice and without admitting liability. The carrier shall immediately and in good faith commence investigation of the employee's entitlement to benefits under this chapter and shall admit or deny compensability within 120 days after the initial provision of compensation or benefits *as required under subsection (2) or s. 440.192(8)*. Upon commencement of payment *as required under subsection (2) or s. 440.192(8)*, the carrier shall provide written notice to the employee that it has elected to pay all or part of the claim pending further investigation, and that it will advise the employee of claim acceptance or denial within 120 days. A carrier that fails to deny compensability within 120 days after the initial provision of benefits or payment of compensation *as required under subsection (2) or s. 440.192(8)* waives the right to deny compensability, unless the carrier can establish material facts relevant to the issue of compensability that it could not have discovered through reasonable investigation within the 120-day period. *The initial provision of compensation or benefits, for purposes of this subsection, means the first installment of compensation or benefits to be paid by the carrier under subsection (2) or pursuant to a petition for benefits under s. 440.192(8).*

(6) If any installment of compensation for death or dependency benefits, disability, permanent impairment, or wage loss payable without an award is not paid within 7 days after it becomes due, as provided in subsection (2), subsection (3), or subsection (4), there shall be added to such unpaid installment a punitive penalty of an amount equal to 20 percent of the unpaid installment or \$5, which shall be paid at the same time as, but in addition to, such installment of compensation, unless notice is filed under subsection (4) or unless such nonpayment results from conditions over which the employer or carrier had no control. When any installment of compensation payable without an award has not been paid within 7 days after it became due and the claimant concludes the prosecution of the claim before a judge of compensation claims without having specifically claimed additional compensation in the nature of a penalty under this section, the claimant will be deemed to have acknowledged that, owing to conditions over which the employer or carrier had no control, such installment could not be paid within the period prescribed for payment and to have waived the right to claim such penalty. However, during the course of a hearing, the judge of compensation claims shall on her or his own motion raise the question of whether such penalty should be awarded or excused. The division may assess without

a hearing the punitive penalty against either the employer or the insurance carrier, depending upon who was at fault in causing the delay. The insurance policy cannot provide that this sum will be paid by the carrier if the division or the judge of compensation claims determines that the punitive penalty should be made by the employer rather than the carrier. Any additional installment of compensation paid by the carrier pursuant to this section shall be paid directly to the employee *by check or, if authorized by the employee, by direct deposit into the employee's account at a financial institution. As used in this subsection, the term "financial institution" means a financial institution as defined in s. 655.005(1)(h).*

(11)(a) *When a claimant is not represented by counsel*, upon joint petition of all interested parties, a lump-sum payment in exchange for the employer's or carrier's release from liability for future medical expenses, as well as future payments of compensation expenses and any other benefits provided under this chapter, shall be allowed at any time in any case in which the employer or carrier has filed a written notice of denial within 120 days after the *employer receives notice date* of the injury, and the judge of compensation claims at a hearing to consider the settlement proposal finds a justiciable controversy as to legal or medical compensability of the claimed injury or the alleged accident. The employer or carrier may not pay any attorney's fees on behalf of the claimant for any settlement under this section unless expressly authorized elsewhere in this chapter. Upon the joint petition of all interested parties and after giving due consideration to the interests of all interested parties, the judge of compensation claims may enter a compensation order approving and authorizing the discharge of the liability of the employer for compensation and remedial treatment, care, and attendance, as well as rehabilitation expenses, by the payment of a lump sum. Such a compensation order so entered upon joint petition of all interested parties is not subject to modification or review under s. 440.28. If the settlement proposal together with supporting evidence is not approved by the judge of compensation claims, it shall be considered void. Upon approval of a lump-sum settlement under this subsection, the judge of compensation claims shall send a report to the Chief Judge of the amount of the settlement and a statement of the nature of the controversy. The Chief Judge shall keep a record of all such reports filed by each judge of compensation claims and shall submit to the Legislature a summary of all such reports filed under this subsection annually by September 15.

(b) *When a claimant is not represented by counsel*, upon joint petition of all interested parties, a lump-sum payment in exchange for the employer's or carrier's release from liability for future medical expenses, as well as future payments of compensation and rehabilitation expenses, and any other benefits provided under this chapter, may be allowed at any time in any case after the injured employee has attained maximum medical improvement. An employer or carrier may not pay any attorney's fees on behalf of the claimant for any settlement, unless expressly authorized elsewhere in this chapter. A compensation order so entered upon joint petition of all interested parties shall not be subject to modification or review under s. 440.28. However, a judge of compensation claims is not required to approve any award for lump-sum payment when it is determined by the judge of compensation claims that the payment being made is in excess of the value of benefits the claimant would be entitled to under this chapter. The judge of compensation claims shall make or cause to be made such investigations as she or he considers necessary, in each case in which the parties have stipulated that a proposed final settlement of liability of the employer for compensation shall not be subject to modification or review under s. 440.28, to determine whether such final disposition will definitely aid the rehabilitation of the injured worker or otherwise is clearly for the best interests of the person entitled to compensation and, in her or his discretion, may have an investigation made by the Rehabilitation Section of the Division of Workers' Compensation. The joint petition and the report of any investigation so made will be deemed a part of the proceeding. An employer shall have the right to appear at any hearing pursuant to this subsection which relates to the discharge of such employer's liability and to present testimony at such hearing. The carrier shall provide reasonable notice to the employer of the time and date of any such hearing and inform the employer of her or his rights to appear and testify. ~~When the claimant is represented by counsel or when the claimant and carrier or employer are represented by counsel, final approval of the lump-sum settlement agreement, as provided for in a joint petition and stipulation, shall be approved by entry of an order within 7 days after the filing of such joint petition and stipulation without a hearing, unless the judge of compensation claims determines, in her or his discretion, that additional testimony is needed before such settlement can be approved or~~

disapproved and so notifies the parties. The probability of the death of the injured employee or other person entitled to compensation before the expiration of the period during which such person is entitled to compensation shall, in the absence of special circumstances making such course improper, be determined in accordance with the most recent United States Life Tables published by the National Office of Vital Statistics of the United States Department of Health and Human Services. The probability of the happening of any other contingency affecting the amount or duration of the compensation, except the possibility of the remarriage of a surviving spouse, shall be disregarded. As a condition of approving a lump-sum payment to a surviving spouse, the judge of compensation claims, in the judge of compensation claims' discretion, may require security which will ensure that, in the event of the remarriage of such surviving spouse, any unaccrued future payments so paid may be recovered or recouped by the employer or carrier. Such applications shall be considered and determined in accordance with s. 440.25.

(c) *Notwithstanding s. 440.21(2), when a claimant is represented by counsel, the claimant may waive all rights to any and all benefits under this chapter by entering into a settlement agreement releasing the employer and the carrier from liability for workers' compensation benefits in exchange for a lump-sum payment to the claimant. The settlement agreement requires approval by the judge of compensation claims only as to the attorney's fees paid to the claimant's attorney by the claimant. The parties need not submit any information or documentation in support of the settlement, except as needed to justify the amount of the attorney's fees. Neither the employer nor the carrier is responsible for any attorney's fees relating to the settlement and release of claims under this section. Payment of the lump-sum settlement amount must be made within 14 days after the date the judge of compensation claims mails the order approving the attorney's fees. Any order entered by a judge of compensation claims approving the attorney's fees as set out in the settlement under this subsection is not considered to be an award and is not subject to modification or review. The judge of compensation claims shall report these settlements to the Deputy Chief Judge in accordance with the requirements set forth in paragraphs (a) and (b). Settlements entered into under this subsection are valid and apply to all dates of accident.*

(d) *With respect to any payment provision under this chapter, a judge of compensation claims must consider whether any and all benefits, including settlements, provide for appropriate recovery of any child support arrearage.*

(e) This section applies to all claims that the parties have not previously settled, regardless of the date of accident.

Section 18. Section 440.22, Florida Statutes, is amended to read:

440.22 Assignment and exemption from claims of creditors.—No assignment, release, or commutation of compensation or benefits due or payable under this chapter except as provided by this chapter shall be valid, and such compensation and benefits shall be exempt from all claims of creditors, and from levy, execution and attachments or other remedy for recovery or collection of a debt, which exemption may not be waived. *However, the exemption of workers' compensation claims from creditors does not extend to claims based on an award of child support or alimony.*

Section 19. Subsections (1), (2), (3), and (4) and paragraph (b) of subsection (5) of section 440.25, Florida Statutes, are amended to read:

440.25 Procedures for mediation and hearings.—

(1) Within 21 days after a petition for benefits is filed under s. 440.192, a mediation conference concerning such petition shall be held. Within 7 days after such petition is filed, the judge of compensation claims shall notify the interested parties that a mediation conference concerning such petition will be held. Such notice shall give the date, time, and location of the mediation conference. Such notice may be served personally upon the interested parties or may be sent to the interested parties by mail. *The claimant or the adjuster of the employer or carrier may, at the mediator's discretion, attend the mediation conference by telephone or, if agreed to by the parties, other electronic means.*

(2) Any party who participates in a mediation conference shall not be precluded from requesting a hearing following the mediation conference should both parties not agree to be bound by the results of the mediation conference. A mediation conference is required to be held unless this requirement is waived by the Deputy Chief Judge. No later

than 3 days prior to the mediation conference, all parties must submit any applicable motions, including, but not limited to, a motion to waive the mediation conference, to the judge of compensation claims.

(3) Such mediation conference shall be conducted informally and does not require the use of formal rules of evidence or procedure. Any information from the files, reports, case summaries, mediator's notes, or other communications or materials, oral or written, relating to a mediation conference under this section obtained by any person performing mediation duties is privileged and confidential and may not be disclosed without the written consent of all parties to the conference. Any research or evaluation effort directed at assessing the mediation program activities or performance must protect the confidentiality of such information. Each party to a mediation conference has a privilege during and after the conference to refuse to disclose and to prevent another from disclosing communications made during the conference whether or not the contested issues are successfully resolved. This subsection and paragraphs (4)(a) and (b) shall not be construed to prevent or inhibit the discovery or admissibility of any information that is otherwise subject to discovery or that is admissible under applicable law or rule of procedure, except that any conduct or statements made during a mediation conference or in negotiations concerning the conference are inadmissible in any proceeding under this chapter. The Deputy Chief Judge shall select a mediator. The mediator shall be employed on a full-time basis by the Office of the Judges of Compensation Claims. A mediator must be a member of The Florida Bar for at least 5 years and must complete a mediation training program approved by the Deputy Chief Judge. Adjunct mediators may be employed by the Office of the Judges of Compensation Claims on an as-needed basis and shall be selected from a list prepared by the Deputy Chief Judge. An adjunct mediator must be independent of all parties participating in the mediation conference. An adjunct mediator must be a member of The Florida Bar for at least 5 years and must complete a mediation training program approved by the Deputy Chief Judge. An adjunct mediator shall have access to the office, equipment, and supplies of the judge of compensation claims in each district. In the event both parties agree, the results of the mediation conference shall be binding and neither party shall have a right to appeal the results. In the event either party refuses to agree to the results of the mediation conference, the results of the mediation conference as well as the testimony, witnesses, and evidence presented at the conference shall not be admissible at any subsequent proceeding on the claim. The mediator shall not be called in to testify or give deposition to resolve any claim for any hearing before the judge of compensation claims. The employer may be represented by an attorney at the mediation conference if the employee is also represented by an attorney at the mediation conference.

(4)(a) If, on the 10th day following commencement of mediation, the questions in dispute have not been resolved, the judge of compensation claims shall hold a pretrial hearing. The judge of compensation claims shall give the interested parties at least 7 days' advance notice of the pretrial hearing by mail. At the pretrial hearing, the judge of compensation claims shall, subject to paragraph (b), set a date for the final hearing that allows the parties at least 30 days to conduct discovery unless the parties consent to an earlier hearing date.

(b) The final hearing must be held and concluded within 45 days after the pretrial hearing. Continuances may be granted only if the requesting party demonstrates to the judge of compensation claims that the reason for requesting the continuance arises from circumstances beyond the party's control. *The written consent of the claimant must be obtained before any request is granted for an additional continuance after the initial continuance has been granted.*

(c) The judge of compensation claims shall give the interested parties at least 7 days' advance notice of the final hearing, served upon the interested parties by mail.

(d) The hearing shall be held in the county where the injury occurred, if the injury occurred in this state, unless otherwise agreed to between the parties and authorized by the judge of compensation claims in the county where the injury occurred. If the injury occurred without the state and is one for which compensation is payable under this chapter, then the hearing above referred to may be held in the county of the employer's residence or place of business, or in any other county of the state which will, in the discretion of the Deputy Chief Judge, be the most convenient for a hearing. The hearing shall be conducted by a judge of compensation claims, who shall, within 30 44 days after final hearing or

closure of the hearing record, unless otherwise agreed by the parties, ~~enter a final order on the merits of the disputed issues determine the dispute in a summary manner. The judge of compensation claims may enter an abbreviated final order in cases in which compensability is not disputed. Either party may request separate findings of fact and conclusions of law.~~ At such hearing, the claimant and employer may each present evidence in respect of such claim and may be represented by any attorney authorized in writing for such purpose. When there is a conflict in the medical evidence submitted at the hearing, the provisions of s. 440.13 shall apply. The report or testimony of the expert medical advisor shall be made a part of the record of the proceeding and shall be given the same consideration by the judge of compensation claims as is accorded other medical evidence submitted in the proceeding; and all costs incurred in connection with such examination and testimony may be assessed as costs in the proceeding, subject to the provisions of s. 440.13. No judge of compensation claims may make a finding of a degree of permanent impairment that is greater than the greatest permanent impairment rating given the claimant by any examining or treating physician, except upon stipulation of the parties.

(e) The order making an award or rejecting the claim, referred to in this chapter as a "compensation order," shall set forth the findings of ultimate facts and the mandate; and the order need not include any other reason or justification for such mandate. The compensation order shall be filed in the Office of the *Judges of Compensation Claims* ~~division~~ at Tallahassee. A copy of such compensation order shall be sent by mail to the parties and attorneys of record at the last known address of each, with the date of mailing noted thereon.

(f) Each judge of compensation claims is required to submit a special report to the *Deputy Chief Judge* in each contested workers' compensation case in which the case is not determined within 30 14 days of final hearing or *closure of the hearing record*. Said form shall be provided by the *director of the Division of Administrative Hearings* ~~Chief Judge~~ and shall contain the names of the judge of compensation claims and of the attorneys involved and a brief explanation by the judge of compensation claims as to the reason for such a delay in issuing a final order. ~~The Chief Judge shall compile these special reports into an annual public report to the Governor, the Secretary of Labor and Employment Security, the Legislature, The Florida Bar, and the appellate district judicial nominating commissions.~~

(1) **GENERAL.—**The division shall carry out all of the provisions of this chapter and all other applicable laws and rules relating to the inspection or regulation of public lodging establishments and public food service establishments for the purpose of safeguarding the public health, safety, and welfare. The division shall be responsible for ascertaining that an operator licensed under this chapter does not engage in any misleading advertising or unethical practices.

(2) **INSPECTION OF PREMISES.—**

(a) The division has responsibility and jurisdiction for all inspections required by this chapter. The division has responsibility for quality assurance. Each licensed establishment shall be inspected at least biannually and at such other times as the division determines is necessary to ensure the public's health, safety, and welfare. The division shall establish a system to determine inspection frequency. Public lodging units classified as resort condominiums or resort dwellings are not subject to this requirement, but shall be made available to the division upon request. If, during the inspection of a public lodging establishment classified for renting to transient or nontransient tenants, an inspector identifies vulnerable adults who appear to be victims of neglect, as defined in s. 415.102, or, in the case of a building that is not equipped with automatic sprinkler systems, tenants or clients who may be unable to self-preserve in an emergency, the division shall convene meetings with the following agencies as appropriate to the individual situation: the Department of Health, the Department of Elderly Affairs, the area agency on aging, the local fire marshal, the landlord and affected tenants and clients, and other relevant organizations, to develop a plan which improves the prospects for safety of affected residents and, if necessary, identifies alternative living arrangements such as facilities licensed under part II or part III of chapter 400.

(b) For purposes of performing required inspections and the enforcement of this chapter, the division has the right of entry and access to public lodging establishments and public food service establishments at any reasonable time.

(c) Public food service establishment inspections shall be conducted to enforce provisions of this part and to educate, inform, and promote cooperation between the division and the establishment.

(d) The division shall adopt and enforce sanitation rules consistent with law to ensure the protection of the public from food-borne illness in those establishments licensed under this chapter. These rules shall provide the standards and requirements for obtaining, storing, preparing, processing, serving, or displaying food in public food service establishments, approving public food service establishment facility plans, conducting necessary public food service establishment inspections for compliance with sanitation regulations, cooperating and coordinating with the Department of Health in epidemiological investigations, and initiating enforcement actions, and for other such responsibilities deemed necessary by the division. The division may not establish by rule any regulation governing the design, construction, erection, alteration, modification, repair, or demolition of any public lodging or public food service establishment. It is the intent of the Legislature to preempt that function to the Florida Building Commission and the State Fire Marshal through adoption and maintenance of the Florida Building Code and the Florida Fire Prevention Code. The division shall provide technical assistance to the commission and the State Fire Marshal in updating the construction standards of the Florida Building Code and the Florida Fire Prevention Code which govern public lodging and public food service establishments. Further, the division shall enforce the provisions of the Florida Building Code and the Florida Fire Prevention Code which apply to public lodging and public food service establishments in conducting any inspections authorized by this part.

(e)1. Relating to facility plan approvals, the division may establish, by rule, fees for conducting plan reviews and may grant variances from construction standards in hardship cases, which variances may be less restrictive than the provisions specified in this section or the rules adopted under this section. A variance may not be granted pursuant to this section until the division is satisfied that:

- a. The variance shall not adversely affect the health of the public.
- b. No reasonable alternative to the required construction exists.
- c. The hardship was not caused intentionally by the action of the applicant.

2. The division's advisory council shall review applications for variances and recommend agency action. The division shall make arrangements to expedite emergency requests for variances, to ensure that such requests are acted upon within 30 days of receipt.

3. The division shall establish, by rule, a fee for the cost of the variance process. Such fee shall not exceed \$150 for routine variance requests and \$300 for emergency variance requests.

(f) In conducting inspections of establishments licensed under this chapter, the division shall determine if each coin-operated amusement machine that is operated on the premises of a licensed establishment is properly registered with the Department of Revenue. Each month the division shall report to the Department of Revenue the sales tax registration number of the operator of any licensed establishment that has on location a coin-operated amusement machine and that does not have an identifying certificate conspicuously displayed as required by s. 212.05(1)(i).

(g) In inspecting public food service establishments, the department shall provide each inspected establishment with the food-recovery brochure developed under s. 570.0725.

(3) **SANITARY STANDARDS; EMERGENCIES; TEMPORARY FOOD SERVICE EVENTS.**—The division shall:

(a) Prescribe sanitary standards which shall be enforced in public food service establishments.

(b) Inspect public lodging establishments and public food service establishments whenever necessary to respond to an emergency or epidemiological condition.

(c) Administer a public notification process for temporary food service events and distribute educational materials that address safe food storage, preparation, and service procedures.

1. Sponsors of temporary food service events shall notify the division not less than 3 days prior to the scheduled event of the type of food service proposed, the time and location of the event, a complete list of food service vendor owners and operators participating in each event, and the current license numbers of all public food service establishments participating in each event. Notification may be completed orally, by telephone, in person, or in writing. A public food service establishment or food service vendor may not use this notification process to circumvent the license requirements of this chapter.

2. The division shall keep a record of all notifications received for proposed temporary food service events and shall provide appropriate educational materials to the event sponsors, including the food-recovery brochure developed under s. 570.0725.

3.a. A public food service establishment or other food vendor must obtain a license from the division for each temporary food service event in which it participates.

b. Public food service establishments holding current licenses from the division may operate under the regulations of such a license at temporary food service events of 3 days or less in duration.

(4) **STOP-SALE ORDERS.**—The division may stop the sale, and supervise the proper destruction, of any food or food product when the director or the director's designee determines that such food or food product represents a threat to the public safety or welfare. If the operator of a public food service establishment licensed under this chapter has

received official notification from a health authority that a food or food product from that establishment has potentially contributed to any instance or outbreak of food-borne illness, the food or food product must be maintained in safe storage in the establishment until the responsible health authority has examined, sampled, seized, or requested destruction of the food or food product.

(5) **REPORTS REQUIRED.**—The division shall send the Governor a written report, which shall state, but not be limited to, the total number of inspections conducted by the division to ensure the enforcement of sanitary standards, the total number of inspections conducted in response to emergency or epidemiological conditions, the number of violations of each sanitary standard, and any recommendations for improved inspection procedures. The division shall also keep accurate account of all expenses arising out of the performance of its duties and all fees collected under this chapter. The report shall be submitted by September 30 following the end of the fiscal year.

(6) **RULEMAKING AUTHORITY.**—The division shall adopt such rules as are necessary to carry out the provisions of this chapter.

(7) **PREEMPTION AUTHORITY.**—The regulation of public lodging establishments and public food service establishments, the inspection of public lodging establishments and public food service establishments for compliance with the sanitation standards adopted under this section, and the regulation of food safety protection standards for required training and testing of food service establishment personnel are preempted to the state. This subsection does not preempt the authority of a local government or local enforcement district to conduct inspections of public lodging and public food service establishments for compliance with the Florida Building Code and the Florida Fire Prevention Code, pursuant to ss. 553.80 and 633.022.

Section 4. Section 402.3031, Florida Statutes, is created to read:

402.3031 Infant crib safety.—No child care facility, family day care home, large family child care home, or specialized child care facility for the care of mildly ill children shall offer or provide for use a full-size or non-full-size crib that is not in conformity with the requirements of s. 501.144. The department shall enforce the provisions of this section and may adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this section.

Such license, permit, or authorization is not transferable. Each license or permit must bear on its face in indelible ink the name of the person to whom it is issued and other information requested by the commission. Such license, permit, or authorization issued by the commission or any agent must be in the personal possession of the person to whom issued while taking game, freshwater fish, or fur-bearing animals. The fee for this permit shall be based upon economic compensation desired by the landowner, game population levels, desired hunter density, and administrative costs. The permit fee shall be set by commission rule on a per-acre basis. ~~On property currently in the private landowner payment program, the prior year's landowner payment shall be used to augment the recreational user permit fee so as to decrease the permit fee for the users of that property.~~ One minor dependent child, 16 years old or under, per permittee may hunt under the supervision of the permittee and is exempt from the permit fee. The spouse and dependent children of a permittee are exempt from the permit fee when engaged in outdoor recreational activities other than hunting in the company of the permittee. 287.057 Procurement of commodities or contractual services.—

(3) *If an agency determines that the use of an invitation to bid or a request for a proposal is not practical, commodities or contractual services may be procured by an invitation to negotiate or provided by a request for a quote.*

(4)(3) When the purchase price of commodities or contractual services exceeds the threshold amount provided in s. 287.017 for CATEGORY TWO, no purchase of commodities or contractual services may be made without receiving competitive sealed bids, ~~or~~ competitive sealed proposals, *or responses to an invitation to negotiate or a request for a quote unless:*

(a) The agency head determines in writing that an immediate danger to the public health, safety, or welfare or other substantial loss to the state requires emergency action. After the agency head makes such a written determination, the agency may proceed with the procurement of commodities or contractual services necessitated by the immediate danger, without competition. However, such emergency procurement shall be made with such competition as is practicable under the circumstances. The agency shall furnish copies of the written determination certified under oath and any other documents relating to the emergency action to the department. A copy of the statement shall be furnished to the Comptroller with the voucher authorizing payment. The individual purchase of personal clothing, shelter, or supplies which are needed on an emergency basis to avoid institutionalization or placement in a more restrictive setting is an emergency for the purposes of this paragraph, and the filing with the department of such statement is not required in such circumstances. In the case of the emergency purchase of insurance, the period of coverage of such insurance shall not exceed a period of 30 days, and all such emergency purchases shall be reported to the department.

(b) Purchasing agreements and contracts executed by the department or by agencies under authority delegated by the department in writing are excepted from bid requirements.

(c) Commodities or contractual services available only from a single source may be excepted from the bid requirements if it is determined that such commodities or services are available only from a single source and such determination is documented. However, if such contract is for an amount greater than the threshold amount provided in s. 287.017 for CATEGORY FOUR, the agency head shall file a certification of conditions and circumstances with the department and shall obtain the prior approval of the department. The failure of the department to approve or disapprove the request of an agency for prior approval within 21 days after receiving such request or within 14 days after receiving from the agency additional materials requested by the department shall constitute prior approval of the department. To the greatest extent practicable, but no later than 45 days after authorizing the exception in writing, the department shall combine single-source procurement authorizations for identical information technology resources for which the purchase price exceeds the threshold amount provided in s. 287.017 for CATEGORY FOUR, and shall negotiate and execute volume purchasing agreements for such procurements on behalf of the agencies.

(d) When it is in the best interest of the state, the Secretary of Management Services or his or her designee may authorize the Support Program to purchase insurance by negotiation, but such purchase shall be made only under conditions most favorable to the public interest.

(e) Prescriptive assistive devices for the purpose of medical, developmental, or vocational rehabilitation of clients are excepted from competitive sealed bid and competitive sealed proposal requirements and shall be procured pursuant to an established fee schedule or by any other method which ensures the best price for the state, taking into consideration the needs of the client. Prescriptive assistive devices include, but are not limited to, prosthetics, orthotics, and wheelchairs. For purchases made pursuant to this paragraph, state agencies shall annually file with the department a description of the purchases and methods of procurement.

However, in acquiring such services, the agency shall consider the ability of the contractor, past performance, willingness to meet time requirements, and price.
8. Medicaid services delivered to an eligible Medicaid recipient by a health care provider who has not previously applied for and received a Medicaid provider number from the Agency for Health Care Administration. However, this exception shall be valid for a period not to exceed 90 days after the date of delivery to the Medicaid recipient and shall not be renewed by the agency.
9. Family placement services.
10. Prevention services related to mental health, including drug abuse prevention programs, child abuse prevention programs, and shelters for runaways, operated by not-for-profit corporations. For the purposes of compensating the provider, the department may authorize the provider to collect and retain a portion of the fees. The providers may withhold the portion retained from the amount of fees to be remitted to the department. The department may negotiate the retainage as a percentage of such fees charged to users, as a flat amount, or as any other method the department deems feasible. The digital-media industry represents a strategic economic development opportunity for the state to become a global leader in this emerging and dynamic field. The ability of the state to succeed in developing the digital-media sector, however, depends upon having a workforce with skills necessary to meet the demands of the industry. The Legislature further finds that the convergence of media and the collaboration of businesses and multi-disciplinary academic research programs will enable this state to compete more successfully with other digital-media innovation centers around the country and around the world. Therefore, it is the intent of the Legislature to support the establishment and maintenance of joint-use advanced digital-media research and production facilities in the state to provide regional focal points for collaboration between research and education programs and digital-media industries.*

(2) *Subject to legislative appropriation, the Office of Tourism, Trade, and Economic Development is authorized to create and administer a program to facilitate the establishment and maintenance of joint-use advanced digital-media research and production facilities at strategic locations around the state. In identifying, approving, and executing such contracts, the office shall attempt to maximize the use and integration of existing facilities and programs in the state that are suitable for application as joint-use advanced digital-media facilities. Funds awarded under such contracts may be used to lease or refurbish existing facilities to create state-of-the-art digital-media design, production, and research laboratories that shall be shared by public and private educational institutions and industry partners.*

(c) *Shall ensure that funds appropriated for the program authorized in this section are expended in a manner consistent with the priority*

needs for developing the digital-media industry in this state, as identified by the organizations listed in subsection (2).

(d) *Shall require any entity or organization receiving state funding under this section to match such funding with non-state sources.*

(e) *Shall require any joint-use advanced digital-media research and production facility receiving state funds to submit for approval by the office a detailed plan for the operation of such facility. (f) *Shall require any joint-use advanced digital-media research and production facility receiving state funding to submit an annual report to the office by a date established by the office. Upon receipt of such annual reports, the office shall provide copies to the Governor, the President of the Senate, and the Speaker of the House of Representatives.*

(5) *For the purposes of this section, the term "digital media" is defined as a discipline based on the creative convergence of art, science, and technology for human expression, communication, and social interaction. The Office of Tourism, Trade, and Economic Development, in cooperation and consultation with the organizations identified in subsection (2), shall identify specific types of businesses or types of business activity to be included within the term "digital media."*

Proceeds in excess of that necessary to support such expenditures may be deposited in the State Treasury to support need-based student aid or to support information technology infrastructure.*

Amendment 2 (255388)(with title amendment)—Delete everything after the enacting clause and insert:

Section 1. *Legislative findings.*—*The Legislature finds that the Florida Motor Vehicle No-Fault Law is intended to deliver medically necessary and appropriate medical care quickly and without regard to fault, and without undue litigation or other associated costs. The Legislature further finds that this intent has been frustrated at significant cost and harm to consumers by, among other things, fraud, medically inappropriate over-utilization of treatments and diagnostic services, inflated charges, and other practices on the part of a small number of health care providers and unregulated health care clinics, entrepreneurs, and attorneys. Many of these practices are described in the second interim report of the Fifteenth Statewide Grand Jury entitled "Report on Insurance Fraud Related to Personal Injury Protection." The Legislature hereby adopts and incorporates in this section by reference as findings the entirety of this Grand Jury report. The Legislature further finds insurance fraud related to personal injury protection takes many forms, including, but not limited to, illegal solicitation of accident victims; brokering patients among doctors, lawyers, and diagnostic facilities; unnecessary medical treatment of accident victims billed to insurers by clinics; billing of insurers by clinics for services not rendered; the intentional overuse or misuse of legitimate diagnostic tests; inflated charges for diagnostic tests or procedures arranged through brokers; and filing fraudulent motor vehicle tort lawsuits. As a result, the Legislature declares it necessary, among other things, to increase the punishment for certain offenses related to solicitation of accident victims and use of police reports, register certain clinics; subject certain diagnostic tests to maximum reimbursement allowances; prohibit the brokering of magnetic resonance imaging services; allow providers and insurers additional time to bill and pay claims in certain situations; require notification of insurers prior to initiating litigation for an overdue claim for benefits; and provide insurers with a civil cause of action for insurance fraud. The Legislature further declares the problem of fraud addressed in the Grand Jury report and in this act and matters connected therewith are matters of great public interest and importance to public health, safety, and welfare, and that the specific provisions of this act are the least-restrictive reasonable means by which to solve these problems.*

Section 2. Subsection (3) is added to section 119.10, Florida Statutes, to read:

119.10 Violation of chapter; penalties.—

(3) *Any person who willfully and knowingly violates s. 119.105 commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.*

Section 3. Effective October 1, 2001, section 456.0375, Florida Statutes, is created to read:

456.0375 *Registration of certain clinics; requirements; discipline; exemptions.*—

(1)(a) *As used in this section, the term "clinic" means a business operating in a single structure or facility, or in a group of adjacent structures or facilities operating under the same business name or management, at which health care services are provided to individuals and which tender charges for reimbursement for such services.*

(b) *For purposes of this section, the term "clinic" does not include and the registration requirements herein do not apply to:*

1. *Entities licensed or registered by the state pursuant to chapter 390, chapter 394, chapter 395, chapter 397, chapter 400, chapter 463, chapter 465, chapter 466, chapter 478, chapter 480, or chapter 484.*

2. *Entities exempt from federal taxation under 26 U.S.C. s. 501(c)(3).*

3. *Sole proprietorships, group practices, partnerships, or corporations that provide health care services by licensed health care practitioners pursuant to chapters 457, 458, 459, 460, 461, 462, 463, 466, 467, 484, 486, 490, 491, or parts I, III, X, XIII, or XIV of chapter 468, or s. 464.012, which are wholly owned by licensed health care practitioners or the licensed health care practitioner and the spouse, parent, or child of a licensed health care practitioner, so long as one of the owners who is a licensed health care practitioner is supervising the services performed*

therein and is legally responsible for the entity's compliance with all federal and state laws. However, no health care practitioner may supervise services beyond the scope of the practitioner's license.

(2)(a) *Every clinic, as defined in paragraph (1)(a), must register, and must at all times maintain a valid registration, with the Department of Health. Each clinic location shall be registered separately even though operated under the same business name or management, and each clinic shall appoint a medical director or clinical director.*

(b) *The department shall adopt rules necessary to implement the registration program, including rules establishing the specific registration procedures, forms, and fees. Registration fees must be reasonably calculated to cover the cost of registration and must be of such amount that the total fees collected do not exceed the cost of administering and enforcing compliance with this section. Registration may be conducted electronically. The registration program must require:*

1. *The clinic to file the registration form with the department within 60 days after the effective date of this section or prior to the inception of operation. The registration expires automatically 2 years after its date of issuance and must be renewed biennially.*

2. *The registration form to contain the name, residence and business address, phone number, and license number of the medical director or clinical director for the clinic.*

3. *The clinic to display the registration certificate in a conspicuous location within the clinic readily visible to all patients.*

(3)(a) *Each clinic must employ or contract with a physician maintaining a full and unencumbered physician license in accordance with chapter 458, chapter 459, chapter 460, or chapter 461 to serve as the medical director. However, if the clinic is limited to providing health care services pursuant to chapter 457, chapter 484, chapter 486, chapter 490, or chapter 491 or part I, part III, part X, part XIII, or part XIV of chapter 468, the clinic may appoint a health care practitioner licensed under that chapter to serve as a clinical director who is responsible for the clinic's activities. A health care practitioner may not serve as the clinical director if the services provided at the clinic are beyond the scope of that practitioner's license.*

(b) *The medical director or clinical director shall agree in writing to accept legal responsibility for the following activities on behalf of the clinic. The medical director or the clinical director shall:*

1. *Have signs identifying the medical director or clinical director posted in a conspicuous location within the clinic readily visible to all patients.*

2. *Ensure that all practitioners providing health care services or supplies to patients maintain a current active and unencumbered Florida license.*

3. *Review any patient referral contracts or agreements executed by the clinic.*

4. *Ensure that all health care practitioners at the clinic have active appropriate certification or licensure for the level of care being provided.*

5. *Serve as the clinic records holder as defined in s. 456.057.*

6. *Ensure compliance with the recordkeeping, office surgery, and adverse incident reporting requirements of chapter 456, the respective practice acts, and rules adopted thereunder.*

7. *Conduct systematic reviews of clinic billings to ensure that the billings are not fraudulent or unlawful. Upon discovery of an unlawful charge, the medical director shall take immediate corrective action.*

(c) *Any contract to serve as a medical director or a clinical director entered into or renewed by a physician or a licensed health care practitioner in violation of this section is void as contrary to public policy. This section shall apply to contracts entered into or renewed on or after October 1, 2001.*

(d) *The department, in consultation with the boards, shall adopt rules specifying limitations on the number of registered clinics and licenses for which a medical director or a clinical director may assume respon-*

sibility for purposes of this section. In determining the quality of supervision a medical director or a clinical director can provide, the department shall consider the number of clinic employees, clinic location, and services provided by the clinic.

(4)(a) All charges or reimbursement claims made by or on behalf of a clinic that is required to be registered under this section, but that is not so registered, are unlawful charges and therefore are noncompensable and unenforceable.

(b) Any person establishing, operating, or managing an unregistered clinic otherwise required to be registered under this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(c) Any licensed health care practitioner who violates this section is subject to discipline in accordance with chapter 456 and the respective practice act.

(d) The department shall revoke the registration of any clinic registered under this section for operating in violation of the requirements of this section or the rules adopted by the department.

(e) The department shall investigate allegations of noncompliance with this section and the rules adopted pursuant to this section.

Section 4. Paragraph (c) of subsection (4) of section 626.989, Florida Statutes, is amended to read:

626.989 Investigation by department or Division of Insurance Fraud; compliance; immunity; confidential information; reports to division; division investigator's power of arrest.—

(4)

(c) In the absence of fraud or bad faith, a person is not subject to civil liability for libel, slander, or any other relevant tort by virtue of filing reports, without malice, or furnishing other information, without malice, required by this section or required by the department or division under the authority granted in this section, and no civil cause of action of any nature shall arise against such person:

2. For any information relating to suspected fraudulent insurance acts or persons suspected of engaging in such acts furnished to or received from other persons subject to the provisions of this chapter; or

3. For any such information furnished in reports to the department, the division, the National Insurance Crime Bureau, or the National Association of Insurance Commissioners, or any local, state, or federal enforcement officials or their agents or employees; or

4. For other actions taken in cooperation with any of the agencies or individuals specified in this paragraph in the lawful investigation of suspected fraudulent insurance acts.

Section 5. Section 627.732, Florida Statutes, is amended to read:

627.732 Definitions.—As used in ss. 627.730-627.7405, the term:

(1) “Broker” means any person not possessing a license under chapter 395, chapter 400, chapter 458, chapter 459, chapter 460, chapter 461, or chapter 641 who charges or receives compensation for any use of medical equipment and is not the 100-percent owner or the 100-percent lessee of such equipment. For purposes of this section, such owner or lessee may be an individual, a corporation, a partnership, or any other entity and any of its 100-percent-owned affiliates and subsidiaries. For purposes of this subsection, the term “lessee” means a long-term lessee under a capital or operating lease, but does not include a part-time lessee. The term “broker” does not include a hospital or physician management company whose medical equipment is ancillary to the practices managed, a debt collection agency, or an entity that has contracted with the insurer to obtain a discounted rate for such services; nor does the term include a management company that has contracted to provide general management services for a licensed physician or health care facility and whose compensation is not materially affected by the usage or frequency of usage

of medical equipment or an entity that is 100-percent owned by one or more hospitals or physicians.

(2) “Medically necessary” refers to a medical service or supply that a prudent physician would provide for the purpose of preventing, diagnosing, or treating an illness, injury, disease, or symptom in a manner that is:

(a) In accordance with generally accepted standards of medical practice;

(b) Clinically appropriate in terms of type, frequency, extent, site, and duration; and

(c) Not primarily for the convenience of the patient, physician, or other health care provider.

(3)(1) “Motor vehicle” means any self-propelled vehicle with four or more wheels which is of a type both designed and required to be licensed for use on the highways of this state and any trailer or semitrailer designed for use with such vehicle and includes:

(a) A “private passenger motor vehicle,” which is any motor vehicle which is a sedan, station wagon, or jeep-type vehicle and, if not used primarily for occupational, professional, or business purposes, a motor vehicle of the pickup, panel, van, camper, or motor home type.

(b) A “commercial motor vehicle,” which is any motor vehicle which is not a private passenger motor vehicle.

The term “motor vehicle” does not include a mobile home or any motor vehicle which is used in mass transit, other than public school transportation, and designed to transport more than five passengers exclusive of the operator of the motor vehicle and which is owned by a municipality, a transit authority, or a political subdivision of the state.

(4)(2) “Named insured” means a person, usually the owner of a vehicle, identified in a policy by name as the insured under the policy.

(5)(3) “Owner” means a person who holds the legal title to a motor vehicle; or, in the event a motor vehicle is the subject of a security agreement or lease with an option to purchase with the debtor or lessee having the right to possession, then the debtor or lessee shall be deemed the owner for the purposes of ss. 627.730-627.7405.

(6)(4) “Relative residing in the same household” means a relative of any degree by blood or by marriage who usually makes her or his home in the same family unit, whether or not temporarily living elsewhere.

(7)(5) “Recovery agent” means any person or agency who is licensed as a recovery agent or recovery agency and authorized under s. 324.202 to seize license plates.

Section 6. Subsections (1), (4), (5), (7), and (8) of section 627.736, Florida Statutes, and paragraph (b) of subsection (6) of that section, are amended, and subsections (11) and (12) are added to that section, to read:

627.736 Required personal injury protection benefits; exclusions; priority; claims.—

(1) REQUIRED BENEFITS.—Every insurance policy complying with the security requirements of s. 627.733 shall provide personal injury protection to the named insured, relatives residing in the same household, persons operating the insured motor vehicle, passengers in such motor vehicle, and other persons struck by such motor vehicle and suffering bodily injury while not an occupant of a self-propelled vehicle, subject to the provisions of subsection (2) and paragraph (4)(d), to a limit of \$10,000 for loss sustained by any such person as a result of bodily injury, sickness, disease, or death arising out of the ownership, maintenance, or use of a motor vehicle as follows:

(a) Medical benefits.—Eighty percent of all reasonable expenses for medically necessary medical, surgical, X-ray, dental, and rehabilitative services, including prosthetic devices, and medically necessary ambulance, hospital, and nursing services. Such benefits shall also include necessary remedial treatment and services recognized and permitted under the laws of the state for an injured person who relies upon spiritual means through prayer alone for healing, in accordance with his or

her religious beliefs; however, this sentence does not affect the determination of what other services or procedures are medically necessary.

(b) Disability benefits.—Sixty percent of any loss of gross income and loss of earning capacity per individual from inability to work proximately caused by the injury sustained by the injured person, plus all expenses reasonably incurred in obtaining from others ordinary and necessary services in lieu of those that, but for the injury, the injured person would have performed without income for the benefit of his or her household. All disability benefits payable under this provision shall be paid not less than every 2 weeks.

(c) Death benefits.—Death benefits of \$5,000 per individual. The insurer may pay such benefits to the executor or administrator of the deceased, to any of the deceased's relatives by blood or legal adoption or connection by marriage, or to any person appearing to the insurer to be equitably entitled thereto.

Only insurers writing motor vehicle liability insurance in this state may provide the required benefits of this section, and no such insurer shall require the purchase of any other motor vehicle coverage other than the purchase of property damage liability coverage as required by s. 627.7275 as a condition for providing such required benefits. Insurers may not require that property damage liability insurance in an amount greater than \$10,000 be purchased in conjunction with personal injury protection. Such insurers shall make benefits and required property damage liability insurance coverage available through normal marketing channels. Any insurer writing motor vehicle liability insurance in this state who fails to comply with such availability requirement as a general business practice shall be deemed to have violated part X of chapter 626, and such violation shall constitute an unfair method of competition or an unfair or deceptive act or practice involving the business of insurance; and any such insurer committing such violation shall be subject to the penalties afforded in such part, as well as those which may be afforded elsewhere in the insurance code.

(4) BENEFITS; WHEN DUE.—Benefits due from an insurer under ss. 627.730-627.7405 shall be primary, except that benefits received under any workers' compensation law shall be credited against the benefits provided by subsection (1) and shall be due and payable as loss accrues, upon receipt of reasonable proof of such loss and the amount of expenses and loss incurred which are covered by the policy issued under ss. 627.730-627.7405. When the Agency for Health Care Administration provides, pays, or becomes liable for medical assistance under the Medicaid program related to injury, sickness, disease, or death arising out of the ownership, maintenance, or use of a motor vehicle, benefits under ss. 627.730-627.7405 shall be subject to the provisions of the Medicaid program.

(a) An insurer may require written notice to be given as soon as practicable after an accident involving a motor vehicle with respect to which the policy affords the security required by ss. 627.730-627.7405.

(b) Personal injury protection insurance benefits paid pursuant to this section shall be overdue if not paid within 30 days after the insurer is furnished written notice of the fact of a covered loss and of the amount of same. If such written notice is not furnished to the insurer as to the entire claim, any partial amount supported by written notice is overdue if not paid within 30 days after such written notice is furnished to the insurer. Any part or all of the remainder of the claim that is subsequently supported by written notice is overdue if not paid within 30 days after such written notice is furnished to the insurer. *When an insurer pays only a portion of a claim or rejects a claim, the insurer shall include with the partial payment or rejection an itemized specification of each item that the insurer had reduced, omitted, or declined to pay and any information that the insurer desires the claimant to consider related to the medical necessity of the denied treatment or to explain the reasonableness of the reduced charge, provided that this shall not limit the introduction of evidence at trial; and the insurer shall include the name and address of the person to whom the claimant should respond and a claim number to be referenced in future correspondence.* However, notwithstanding the fact that written notice has been furnished to the insurer, any payment shall not be deemed overdue when the insurer has reasonable proof to establish that the insurer is not responsible for the payment, notwithstanding that written notice has been furnished to the insurer. For the purpose of calculating the extent to which any benefits are overdue, payment shall be treated as being made on the date a draft or other valid instrument which is equivalent to payment was placed in the United States mail in a properly addressed, postpaid envelope or, if

not so posted, on the date of delivery. *This paragraph does not preclude or limit the ability of the insurer to assert that the claim was unrelated, was not medically necessary, or was unreasonable or that the amount of the charge was in excess of that permitted under, or in violation of, subsection (5). Such assertion by the insurer may be made at any time, including after payment of the claim or after the 30-day time period for payment set forth in this paragraph.*

(c) All overdue payments shall bear simple interest at the rate established by the Comptroller under s. 55.03 or the rate established in the insurance contract, whichever is greater, for the year in which the payment became overdue, calculated from the date the insurer was furnished with written notice of the amount of covered loss. *Interest shall be due at the time payment of the overdue claim is made of 10 percent per year.*

(d) The insurer of the owner of a motor vehicle shall pay personal injury protection benefits for:

1. Accidental bodily injury sustained in this state by the owner while occupying a motor vehicle, or while not an occupant of a self-propelled vehicle if the injury is caused by physical contact with a motor vehicle.

2. Accidental bodily injury sustained outside this state, but within the United States of America or its territories or possessions or Canada, by the owner while occupying the owner's motor vehicle.

3. Accidental bodily injury sustained by a relative of the owner residing in the same household, under the circumstances described in subparagraph 1. or subparagraph 2., provided the relative at the time of the accident is domiciled in the owner's household and is not himself or herself the owner of a motor vehicle with respect to which security is required under ss. 627.730-627.7405.

4. Accidental bodily injury sustained in this state by any other person while occupying the owner's motor vehicle or, if a resident of this state, while not an occupant of a self-propelled vehicle, if the injury is caused by physical contact with such motor vehicle, provided the injured person is not himself or herself:

a. The owner of a motor vehicle with respect to which security is required under ss. 627.730-627.7405; or

b. Entitled to personal injury benefits from the insurer of the owner or owners of such a motor vehicle.

(e) If two or more insurers are liable to pay personal injury protection benefits for the same injury to any one person, the maximum payable shall be as specified in subsection (1), and any insurer paying the benefits shall be entitled to recover from each of the other insurers an equitable pro rata share of the benefits paid and expenses incurred in processing the claim.

~~(f) Medical payments insurance, if available in a policy of motor vehicle insurance, shall pay the portion of any claim for personal injury protection medical benefits which is otherwise covered but is not payable due to the coinsurance provision of paragraph (1)(a), regardless of whether the full amount of personal injury protection coverage has been exhausted. The benefits shall not be payable for the amount of any deductible which has been selected.~~

~~(f)(g)~~ It is a violation of the insurance code for an insurer to fail to timely provide benefits as required by this section with such frequency as to constitute a general business practice.

(5) CHARGES FOR TREATMENT OF INJURED PERSONS.—

(a) Any physician, hospital, clinic, or other person or institution lawfully rendering treatment to an injured person for a bodily injury covered by personal injury protection insurance may charge only a reasonable amount for the products, services, and supplies accommodations rendered, and the insurer providing such coverage may pay for such charges directly to such person or institution lawfully rendering such treatment, if the insured receiving such treatment or his or her guardian has countersigned the invoice, bill, or claim form approved by the Department of Insurance upon which such charges are to be paid for as having actually been rendered, to the best knowledge of the insured or his or her guardian. In no event, however, may such a charge be in excess of the amount the person or institution customarily charges for like products, services, or supplies accommodations in cases involving no insurance. ~~provided that~~

(b)1. An insurer or insured is not required to pay a claim made by a broker or by a person making a claim on behalf of a broker.

2. Charges for medically necessary cephalic thermograms, and peripheral thermograms, spinal ultrasounds, extremity ultrasounds, video fluoroscopy, and surface electromyography shall not exceed the maximum reimbursement allowance for such procedures as set forth in the applicable fee schedule or other payment methodology established pursuant to s. 440.13.

3. Payments by an insurer for medically necessary nerve conduction testing when done in conjunction with a needle electromyography procedure and both are performed and billed solely by a physician licensed under chapter 458, chapter 459, chapter 460, or chapter 461 who is also certified by the American Board of Electrodiagnostic Medicine or by a board recognized by the American Board of Medical Specialties or who holds diplomate status with the American Chiropractic Neurology Board or its predecessors shall not exceed 200 percent of the allowable amount under Medicare Part B for year 2001, adjusted annually by an additional amount equal to the medical Consumer Price Index for Florida.

4. Payments by an insurer for medically necessary nerve conduction testing that does not meet the requirements of subparagraph 3. shall not exceed the applicable fee schedule or other payment methodology established pursuant to s. 440.13.

5. Effective upon this act becoming a law and before November 1, 2001, payments for magnetic resonance imaging services shall not exceed 200 percent of the allowable amount under Medicare Part B for year 2001. Beginning November 1, 2001, payments for magnetic resonance imaging services shall not exceed 175 percent of the allowable amount under Medicare Part B for year 2001, adjusted annually by an additional amount equal to the medical Consumer Price Index for Florida, except that payments for magnetic resonance imaging services provided in facilities accredited by the American College of Radiology or the Joint Commission on Accreditation of Healthcare Organizations shall not exceed 200 percent of the allowable amount under Medicare Part B for year 2001, adjusted annually by an additional amount equal to the medical Consumer Price Index for Florida. This paragraph does not apply to charges for magnetic resonance imaging services and nerve conduction testing for inpatients and emergency services and nerve conduction testing for inpatients and emergency services and care as defined in chapter 395 rendered by facilities licensed under chapter 395.

(c)(b) With respect to any treatment or service, other than medical services billed by a hospital or other provider for emergency services as defined in s. 395.002 or inpatient services rendered at a hospital-owned facility, the statement of charges must be furnished to the insurer by the provider and may not include, and the insurer is not required to pay, charges for treatment or services rendered more than 35 30 days before the postmark date of the statement, except for past due amounts previously billed on a timely basis under this paragraph, and except that, if the provider submits to the insurer a notice of initiation of treatment within 21 days after its first examination or treatment of the claimant, the statement may include charges for treatment or services rendered up to, but not more than, 75 60 days before the postmark date of the statement. The injured party is not liable for, and the provider shall not bill the injured party for, charges that are unpaid because of the provider's failure to comply with this paragraph. Any agreement requiring the injured person or insured to pay for such charges is unenforceable. If, however, the insured fails to furnish the provider with the correct name and address of the insured's personal injury protection insurer, the provider has 35 days from the date the provider obtains the correct information to furnish the insurer with a statement of the charges. The insurer is not required to pay for such charges unless the provider includes with the statement documentary evidence that was provided by the insured during the 35-day period demonstrating that the provider reasonably relied on erroneous information from the insured and either:

1. A denial letter from the incorrect insurer; or
2. Proof of mailing, which may include an affidavit under penalty of perjury, reflecting timely mailing to the incorrect address or insurer.

For emergency services and care as defined in s. 395.002 rendered in a hospital emergency department or for transport and treatment rendered by an ambulance provider licensed pursuant to part III of chapter 401, the provider is not required to furnish the statement of charges within the time periods established by this paragraph; and the insurer shall not

be considered to have been furnished with notice of the amount of covered loss for purposes of paragraph (4)(b) until it receives a statement complying with paragraph (e) (5)(d), or copy thereof, which specifically identifies the place of service to be a hospital emergency department or an ambulance in accordance with billing standards recognized by the Health Care Finance Administration. Each notice of insured's rights under s. 627.7401 must include the following statement in type no smaller than 12 points:

BILLING REQUIREMENTS.—Florida Statutes provide that with respect to any treatment or services, other than certain hospital and emergency services, the statement of charges furnished to the insurer by the provider may not include, and the insurer and the injured party are not required to pay, charges for treatment or services rendered more than 35 30 days before the postmark date of the statement, except for past due amounts previously billed on a timely basis, and except that, if the provider submits to the insurer a notice of initiation of treatment within 21 days after its first examination or treatment of the claimant, the statement may include charges for treatment or services rendered up to, but not more than, 75 60 days before the postmark date of the statement.

(d)(e) Every insurer shall include a provision in its policy for personal injury protection benefits for binding arbitration of any claims dispute involving medical benefits arising between the insurer and any person providing medical services or supplies if that person has agreed to accept assignment of personal injury protection benefits. The provision shall specify that the provisions of chapter 682 relating to arbitration shall apply. The prevailing party shall be entitled to attorney's fees and costs. For purposes of the award of attorney's fees and costs, the prevailing party shall be determined as follows:

1. When the amount of personal injury protection benefits determined by arbitration exceeds the sum of the amount offered by the insurer at arbitration plus 50 percent of the difference between the amount of the claim asserted by the claimant at arbitration and the amount offered by the insurer at arbitration, the claimant is the prevailing party.

2. When the amount of personal injury protection benefits determined by arbitration is less than the sum of the amount offered by the insurer at arbitration plus 50 percent of the difference between the amount of the claim asserted by the claimant at arbitration and the amount offered by the insurer at arbitration, the insurer is the prevailing party.

3. When neither subparagraph 1. nor subparagraph 2. applies, there is no prevailing party. For purposes of this paragraph, the amount of the offer or claim at arbitration is the amount of the last written offer or claim made at least 30 days prior to the arbitration.

4. In the demand for arbitration, the party requesting arbitration must include a statement specifically identifying the issues for arbitration for each examination or treatment in dispute. The other party must subsequently issue a statement specifying any other examinations or treatment and any other issues that it intends to raise in the arbitration. The parties may amend their statements up to 30 days prior to arbitration, provided that arbitration shall be limited to those identified issues and neither party may add additional issues during arbitration.

(e)(d) All statements and bills for medical services rendered by any physician, hospital, clinic, or other person or institution shall be submitted to the insurer on a Health Care Finance Administration 1500 form, UB 92 forms, or any other standard form approved by the department for purposes of this paragraph. All billings for such services shall, to the extent applicable, follow the Physicians' Current Procedural Terminology (CPT) in the year in which services are rendered. No statement of medical services may include charges for medical services of a person or entity that performed such services without possessing the valid licenses required to perform such services. For purposes of paragraph (4)(b), an insurer shall not be considered to have been furnished with notice of the amount of covered loss or medical bills due unless the statements or bills comply with this paragraph.

(6) DISCOVERY OF FACTS ABOUT AN INJURED PERSON; DISPUTES.—

(b) Every physician, hospital, clinic, or other medical institution providing, before or after bodily injury upon which a claim for personal

injury protection insurance benefits is based, any products, services, or accommodations in relation to that or any other injury, or in relation to a condition claimed to be connected with that or any other injury, shall, if requested to do so by the insurer against whom the claim has been made, furnish forthwith a written report of the history, condition, treatment, dates, and costs of such treatment of the injured person *and why the items identified by the insurer were reasonable in amount and medically necessary*, together with a sworn statement that the treatment or services rendered were reasonable and necessary with respect to the bodily injury sustained and identifying which portion of the expenses for such treatment or services was incurred as a result of such bodily injury, and produce forthwith, and permit the inspection and copying of, his or her or its records regarding such history, condition, treatment, dates, and costs of treatment; *provided that this shall not limit the introduction of evidence at trial.* Such sworn statement shall read as follows: "Under penalty of perjury, I declare that I have read the foregoing, and the facts alleged are true, to the best of my knowledge and belief." No cause of action for violation of the physician-patient privilege or invasion of the right of privacy shall be permitted against any physician, hospital, clinic, or other medical institution complying with the provisions of this section. The person requesting such records and such sworn statement shall pay all reasonable costs connected therewith. If an insurer makes a written request for documentation or information under this paragraph within 30 29 days after having received notice of the amount of a covered loss under paragraph (4)(a), *the amount or the partial amount which is the subject of the insurer's inquiry shall become overdue if the insurer does not pay the insurer shall pay the amount or partial amount of covered loss to which such documentation relates* in accordance with paragraph (4)(b) or within 10 days after the insurer's receipt of the requested documentation or information, whichever occurs later. For purposes of this paragraph, the term "receipt" includes, but is not limited to, inspection and copying pursuant to this paragraph. *Any insurer that requests documentation or information pertaining to reasonableness of charges or medical necessity under this paragraph without a reasonable basis for such requests as a general business practice is engaging in an unfair trade practice under the insurance code.*

(7) MENTAL AND PHYSICAL EXAMINATION OF INJURED PERSON; REPORTS.—

(a) Whenever the mental or physical condition of an injured person covered by personal injury protection is material to any claim that has been or may be made for past or future personal injury protection insurance benefits, such person shall, upon the request of an insurer, submit to mental or physical examination by a physician or physicians. The costs of any examinations requested by an insurer shall be borne entirely by the insurer. Such examination shall be conducted within the municipality where the insured is receiving treatment, or in a location reasonably accessible to the insured, which, for purposes of this paragraph, means any location within the municipality in which the insured resides, or any location within 10 miles by road of the insured's residence, provided such location is within the county in which the insured resides. If the examination is to be conducted in a location reasonably accessible to the insured, and if there is no qualified physician to conduct the examination in a location reasonably accessible to the insured, then such examination shall be conducted in an area of the closest proximity to the insured's residence. Personal protection insurers are authorized to include reasonable provisions in personal injury protection insurance policies for mental and physical examination of those claiming personal injury protection insurance benefits. An insurer may not withdraw payment of a treating physician without the consent of the injured person covered by the personal injury protection, unless the insurer first obtains a *valid* report by a physician licensed under the same chapter as the treating physician whose treatment authorization is sought to be withdrawn, stating that treatment was not reasonable, related, or necessary. *A valid report is one that is prepared and signed by the physician examining the injured person or reviewing the treatment records of the injured person and is factually supported by the examination and treatment records if reviewed and that has not been modified by anyone other than the physician. The physician preparing the report must be in active practice, unless the physician is physically disabled. Active practice means that during the 3 years immediately preceding the date of the physical examination or review of the treatment records the physician must have devoted professional time to the active clinical practice of evaluation, diagnosis, or treatment of medical conditions or to the instruction of students in an accredited health professional school or accredited residency program or a clinical research program that is affil-*

ated with an accredited health professional school or teaching hospital or accredited residency program.

(b) If requested by the person examined, a party causing an examination to be made shall deliver to him or her a copy of every written report concerning the examination rendered by an examining physician, at least one of which reports must set out the examining physician's findings and conclusions in detail. After such request and delivery, the party causing the examination to be made is entitled, upon request, to receive from the person examined every written report available to him or her or his or her representative concerning any examination, previously or thereafter made, of the same mental or physical condition. By requesting and obtaining a report of the examination so ordered, or by taking the deposition of the examiner, the person examined waives any privilege he or she may have, in relation to the claim for benefits, regarding the testimony of every other person who has examined, or may thereafter examine, him or her in respect to the same mental or physical condition. If a person unreasonably refuses to submit to an examination, the personal injury protection carrier is no longer liable for subsequent personal injury protection benefits.

(8) APPLICABILITY OF PROVISION REGULATING ATTORNEY'S FEES.—With respect to any dispute under the provisions of ss. 627.730-627.7405 between the insured and the insurer, or between an assignee of an insured's rights and the insurer, the provisions of s. 627.428 shall apply, except as provided in subsection (11).

(11) DEMAND LETTER.—

(a) *As a condition precedent to filing any action for an overdue claim for benefits under paragraph (4)(b), the insurer must be provided with written notice of an intent to initiate litigation; provided, however, that, except with regard to a claim or amended claim or judgment for interest only which was not paid or was incorrectly calculated, such notice is not required for an overdue claim that the insurer has denied or reduced, nor is such notice required if the insurer has been provided documentation or information at the insurer's request pursuant to subsection (6). Such notice may not be sent until the claim is overdue, including any additional time the insurer has to pay the claim pursuant to paragraph (4)(b).*

(b) *The notice required shall state that it is a "demand letter under s. 627.736(11)" and shall state with specificity:*

1. *The name of the insured upon which such benefits are being sought.*

2. *The claim number or policy number upon which such claim was originally submitted to the insurer.*

3. *To the extent applicable, the name of any medical provider who rendered to an insured the treatment, services, accommodations, or supplies that form the basis of such claim; and an itemized statement specifying each exact amount, the date of treatment, service, or accommodation, and the type of benefit claimed to be due. A completed Health Care Finance Administration 1500 form, UB 92, or successor forms approved by the Secretary of the U.S. Department of Health and Human Services may be used as the itemized statement.*

(c) *Each notice required by this section must be delivered to the insurer by U.S. certified or registered mail, return receipt requested. Such postal costs shall be reimbursed by the insurer if so requested by the provider in the notice, when the insurer pays the overdue claim. Such notice must be sent to the person and address specified by the insurer for the purposes of receiving notices under this section, on the document denying or reducing the amount asserted by the filer to be overdue. Each licensed insurer, whether domestic, foreign, or alien, may file with the department designation of the name and address of the person to whom notices pursuant to this section shall be sent when such document does not specify the name and address to whom the notices under this section are to be sent or when there is no such document. The name and address on file with the department pursuant to s. 624.422 shall be deemed the authorized representative to accept notice pursuant to this section in the event no other designation has been made.*

(d) *If, within 7 business days after receipt of notice by the insurer, the overdue claim specified in the notice is paid by the insurer together with applicable interest and a penalty of 10 percent of the overdue amount paid by the insurer, subject to a maximum penalty of \$250, no action for nonpayment or late payment may be brought against the insurer. To the*

extent the insurer determines not to pay the overdue amount, the penalty shall not be payable in any action for nonpayment or late payment. For purposes of this subsection, payment shall be treated as being made on the date a draft or other valid instrument that is equivalent to payment is placed in the United States mail in a properly addressed, postpaid envelope, or if not so posted, on the date of delivery. The insurer shall not be obligated to pay any attorney's fees if the insurer pays the claim within the time prescribed by this subsection.

(e) The applicable statute of limitation for an action under this section shall be tolled for a period of 15 business days by the mailing of the notice required by this subsection.

(f) Any insurer making a general business practice of not paying valid claims until receipt of the notice required by this section is engaging in an unfair trade practice under the insurance code.

(12) **CIVIL ACTION FOR INSURANCE FRAUD.**—An insurer shall have a cause of action against any person convicted of, or who, regardless of adjudication of guilt, pleads guilty or nolo contendere to insurance fraud under s. 817.234, patient brokering under s. 817.505, or kickbacks under s. 456.054, associated with a claim for personal injury protection benefits in accordance with s. 627.736. An insurer prevailing in an action brought under this subsection may recover compensatory, consequential, and punitive damages subject to the requirements and limitations of part II of chapter 768, and attorney's fees and costs incurred in litigating a cause of action against any person convicted of, or who, regardless of adjudication of guilt, pleads guilty or nolo contendere to insurance fraud under s. 817.234, patient brokering under s. 817.505, or kickbacks under s. 456.054, associated with a claim for personal injury protection benefits in accordance with s. 627.736.

Section 7. Effective October 1, 2001, subsections (8) and (9) of section 817.234, Florida Statutes, are amended to read:

817.234 False and fraudulent insurance claims.—

(8) It is unlawful for any person, in his or her individual capacity or in his or her capacity as a public or private employee, or for any firm, corporation, partnership, or association, to solicit or cause to be solicited any business from a person involved in a motor vehicle accident by any means of communication other than advertising directed to the public in or about city receiving hospitals, city and county receiving hospitals, county hospitals, justice courts, or municipal courts; in any public institution; in any public place; upon any public street or highway; in or about private hospitals, sanitariums, or any private institution; or upon private property of any character whatsoever for the purpose of making motor vehicle tort claims or claims for personal injury protection benefits required by s. 627.736. Charges for any services rendered by a health care provider or attorney who violates this subsection in regard to the person for whom such services were rendered are noncompensable and unenforceable as a matter of law. Any person who violates the provisions of this subsection commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(9) It is unlawful for any attorney to solicit any business relating to the representation of a person involved in a motor vehicle accident for the purpose of filing a motor vehicle tort claim or a claim for personal injury protection benefits required by s. 627.736. The solicitation by advertising of any business by an attorney relating to the representation of a person injured in a specific motor vehicle accident is prohibited by this section. Any attorney who violates the provisions of this subsection commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. Whenever any circuit or special grievance committee acting under the jurisdiction of the Supreme Court finds probable cause to believe that an attorney is guilty of a violation of this section, such committee shall forward to the appropriate state attorney a copy of the finding of probable cause and the report being filed in the matter. This section shall not be interpreted to prohibit advertising by attorneys which does not entail a solicitation as described in this subsection and which is permitted by the rules regulating The Florida Bar as promulgated by the Florida Supreme Court.

The Committee on Commerce and Economic Opportunities recommended the following amendment which was moved by Senator Garcia:

Amendment 1 (382074)(with title amendment)—Delete everything after the enacting clause and insert:

Section 1. *Legislative intent.*—

(1) *The Legislature has found that it is in the best interest of the people and businesses in the state to adopt Revised Article 9 of the Uniform Commercial Code as proposed by the National Conference of Commissioners on Uniform State Law, subject to certain modifications. Revised Article 9 (chapter 679, Florida Statutes) almost exclusively affects secured transactions and the relationships among secured creditors,*

debtors, or other creditors, and purchasers of personal property subject to a security interest. Both individuals and business entities are intended to benefit from the enactment of Revised Article 9.

(2) *Revised Article 9 is intended to create a more straightforward and efficient system for documenting the perfection, amendment, continuance, termination, assignment, and transfer of security interests, requiring less governmental involvement than that which is necessary under existing law. Under Revised Article 9, states may delegate their historical administrative and operational responsibilities over financing-statement filings to a nongovernmental entity. This principle accords with the Legislature's policy of reducing government's detailed regulation and involvement with private commerce and business transactions. Consistent with other revisions to current chapter 679, Florida Statutes, adopted by this act, the requirement for exclusive administration and operations by the state of the system of filing and maintaining documents evidencing secured transactions no longer exists. However, the fulfillment of the duties of the filing office and filing officer remain essential to the uninterrupted flow of secured transactions, and the State of Florida retains ownership of all records filed and maintained under chapter 679, Florida Statutes, and databases evidencing such documents, and the Secretary of State retains governmental oversight over the private filing agency to which the filing office's and filing officer's duties under Revised Article 9 are transferred. The Legislature, therefore, enacts this act as part of chapter 679, Florida Statutes.*

Section 2. Subsections (1) and (5) of section 679.401, Florida Statutes, are amended to read:

679.401 Place of filing; erroneous filing; removal of collateral.—

(1) The proper place to file in order to perfect a security interest is as follows:

(a) If the collateral is farm products, or accounts, or general intangibles arising from or relating to the sale of farm products by a farmer, by recording:

1. In the office of the clerk of the circuit court in the county of the debtor's place of business if he or she has one, in the county of the debtor's chief executive office if he or she has more than one place of business, otherwise in the county of the debtor's residence; or

2. If the debtor is not a resident of this state, in the office of the clerk of the circuit court in the county where the collateral is located; and

3. In addition, if the collateral is crops, in the office of the clerk of the circuit court in the county where the land is located on which the crops are growing or to be grown.

(b) When the collateral is timber to be cut or is minerals or the like (including oil and gas) or is accounts subject to s. 679.103(5) or is goods which are or are to become fixtures, then in the office where a mortgage on the real estate would be filed or recorded.

(c) In all other cases, by filing ~~under the Florida Secured Transaction Registry in the office of the Department of State.~~

(5) Notwithstanding the preceding subsections, and subject to s. 679.302(3), the proper place to file in order to perfect a security interest in collateral, including fixtures, of a transmitting utility is ~~under the Florida Secured Transaction Registry in the office of the Department of State.~~

Section 3. Section 679.4015, Florida Statutes, is created to read:

679.4015 *Florida Secured Transaction Registry.*—

(1) *The Florida Secured Transaction Registry is the centralized database in which all initial financing statements, amendments, assignments, and other statements of change authorized to be filed under this chapter are filed and maintained and from which they are retrieved. The Florida Secured Transaction Registry shall include the date and other information pertaining to Uniform Commercial Code Records filed with the Secretary of State and effective under this chapter before October 1, 2001, or filed with the Secretary of State or with the private filing agency or UCC filing agent as authorized in this section after October 1, 2001. Consistent with s. 679.401, this section does not apply to initial financing statements, amendments, assignments, and other statements of change filed under this chapter with an office of the clerk of the circuit court.*

(2) Except as otherwise provided in this section, the duties of the filing office and filing officer under this chapter may be performed by an entity that is qualified to transact business in this state (the private filing agency) and that has entered into a written contract with the Department of State satisfying the minimum requirements provided in this section. The private filing agency, among its other duties conferred by contract or this part, shall have the responsibility for acting as the filing officer under this chapter and overseeing the continued existence and maintenance of the Florida Secured Transaction Registry.

(3) The Secretary of State, or the private filing agency if authorized by the Secretary of State in the contract or another writing, may enter into a separate contract approved by the Secretary of State and satisfying the minimum requirements provided in this section with another entity qualified to transact business in this state (the UCC filing agent) for the purpose of physically performing the filing officer's duties under this part. However, the private filing agency, unless displaced by the Secretary of State or a subsequent private filing agency, shall remain the filing office under this chapter.

(4) Upon the effective date of the contract with the private filing agency or on October 31, 2001, whichever is later, the Secretary of State and the Department of State, respectively, shall cease acting as the filing officer and filing office under this part, although the Secretary of State shall retain authority and powers as otherwise provided in this section or by other applicable law.

(5) The Secretary of State shall immediately develop and issue a request for qualifications seeking qualified entities to perform the duties of the private filing agency and UCC filing agent under this part. The qualifications and any contract must, at a minimum, require:

(a) The creation and maintenance of a central filing, recording, retrieval, and response system as part of the Florida Secured Transaction Registry which is capable of satisfying the filing-officer and filing-office requirements under this chapter, which system must be comparable and compatible with the filing system in existence immediately prior to the effective date of this section to the fullest extent possible as determined by the Secretary of State.

(b) Continuous and easy access by the public, including review at no charge through the Internet or such other substitute medium as is acceptable to the Secretary of State, of all UCC records filed and maintained by the Department of State under this chapter as of the effective date of this section and of all UCC records filed and maintained after the effective date of this section, subject to any requirements or limitations of chapter 119 and this chapter.

(c) Record maintenance in compliance with this part and chapter 119.

(d) Oversight by the Secretary of State, including compliance audits of the performance standards described in subsection (7).

(e) Maintenance of the current level of filing fees and procedures for the deposit of revenues, net of operating costs, consistent with chapter 15.

(f) A bond by the private filing agency and UCC filing agent in an amount acceptable to the Secretary of State.

(6) Except as otherwise provided in a contract approved by the Secretary of State, the private filing agency and UCC filing agent are not liable to any person harmed by their failure to comply with the filing-officer or filing-office requirements under this chapter unless such failure is due to specific acts or omissions done recklessly or committed knowingly and with malicious intent, and then only to the extent that such acts or omissions directly and proximately cause ascertainable damages.

(7) The Secretary of State shall develop performance standards to ensure that the Florida Secured Transaction Registry and its central filing system implemented and maintained by the private filing agency or UCC filing agent are accurate and complete and that the system implemented and maintained satisfies the responsibilities of the filing office and filing officer under this chapter and meets the needs of various persons and entities using or affected by the filing system.

(8) Any contract between the Secretary of State and the private filing agency or UCC filing agent or between the private filing agency and the UCC filing agent is not assignable, absolutely or for security, or otherwise

transferable without the express written consent of the Secretary of State, which consent may be withheld in his or her sole and absolute discretion.

(9) The Secretary of State shall, as soon as practicable, either assume temporarily or permanently the duties of the filing office and filing officer under this chapter or assign the duties of the filing office and filing officer under this chapter to a new private filing agency or UCC filing agent, as applicable, which meets the requirements of this section and which enters into a new contract with the Secretary of State satisfying the requirements of this section:

(a) If:

1. A private filing agency or UCC filing agent has not been approved by the Secretary of State and a contract required by this section has not been executed;

2. The private filing agency or UCC filing agent ceases, is unable, or fails to perform the duties of the filing office or filing officer which are required under this chapter or which are provided for in any contract, as determined by the Secretary of State in accordance with the terms of the contract; or

3. An assignee for the benefit of creditors is appointed for the private filing agency or UCC filing agent or its assets or a receiver is appointed for the private filing agency or UCC filing agent or its assets other than by the Secretary of State; and

(b) Notwithstanding:

1. That a bankruptcy case or other insolvency proceeding has been commenced by the private filing agency or UCC filing agent; or

2. That an involuntary bankruptcy case or other insolvency proceeding has been commenced against the private filing agency or UCC filing agent and the case or proceeding has not been dismissed within 5 business days after the petition's filing.

(10) Immediately upon the occurrence of an event described in subsection (9)(a)1. or 3. or (b), any rights of the private filing agency or UCC filing agent, as applicable, pertaining to the contract or otherwise with respect to this chapter shall terminate without any further action being required. Upon the occurrence of an event described in subsection (9)(a)2., any rights of the private filing agency or UCC filing agent, as applicable, pertaining to the contract or otherwise with respect to this chapter may terminate, in the discretion of the Secretary of State, upon written notice to the private filing agency or UCC filing agent.

(11) If required by the Secretary of State, any contract with the private filing agency or UCC filing agent entered into pursuant to this section must provide that any exclusive rights of the private filing agency and UCC filing agent terminate automatically without further action upon any default under the contract, even if the default is capable of being cured under law.

(12) The Florida Secured Transaction Registry; databases, source or object codes, and any software relating to the Florida Secured Transaction Registry and system for central filing under this part and all information contained in any of the foregoing; all documents and records, in whatever form or medium, filed with, created by, or maintained by the private filing agency or UCC filing agent under this chapter, including all UCC records and any other records or documents relating to the UCC records, in whatever form or medium, whether existing prior to the effective date of this section or thereafter (collectively, the UCC filing office materials and records), shall be and remain the sole and exclusive property of the state, and upon demand the originals and all copies are subject to immediate return by the private filing agency or UCC filing agent, as applicable, to the Secretary of State upon the occurrence of any of the events enumerated in subsection (9). The Secretary of State also has the right to inspect at any time and make copies of the UCC filing office materials and records, and the cost shall be borne as provided in the contracts with or approved by the Secretary of State. (a) The agency head determines in writing that an immediate danger to the public health, safety, or welfare or other substantial loss to the state requires emergency action. After the agency head makes such a written determination, the agency may proceed with the procurement of commodities or contractual services necessitated by the immediate danger, without competition. However, such emergency procurement shall be made with such competition as is practicable under the circumstances. The agency shall furnish copies of the written determination certified under oath and any other documents relating to the emergency action to the department. To the greatest extent practicable, but no later than 45 days after authorizing the exception in writing, the department shall combine single-source procurement authorizations for identical information technology resources for which the purchase price exceeds the threshold amount provided in s. 287.017 for CATEGORY FOUR, and shall negotiate and execute volume purchasing agreements for such procurements on behalf of the agencies.

c. *The allegations and other factual contentions have evidentiary support or, if specifically identified, are likely to have evidentiary support after a reasonable opportunity for further investigation or discovery; and*

d. *The denials of factual contentions are warranted on the evidence or, if specifically identified, are reasonably based on a lack of information or belief.*

3. *If, after notice and a reasonable opportunity to respond, the presiding officer determines that subparagraph 2. has been violated, the presiding officer may impose an appropriate sanction against the person who signed it, the represented party, or both, which may include an order to pay the other party or parties the amount of reasonable expenses incurred because of the filing of the pleading, motion, or other paper, including reasonable attorney's fees. However:*

a. *Monetary sanctions may not be awarded against a represented party for a violation of sub-subparagraph 2.b.*

b. *Monetary sanctions may not be awarded under this paragraph based on a violation of discovery rules.*

c. *This paragraph does not authorize the award of sanctions against any person who comments on or objects to a draft permit during an authorized period for public comment or at a public hearing.*

4. *Sanctions under this paragraph may be initiated at any time after the initiation of a proceeding either by motion or on the presiding officer's own initiative. A motion shall describe the specific conduct alleged to violate subparagraph 2. The motion shall be served upon the attorney or qualified representative of a party or an unrepresented party against whom such sanctions are sought and shall be filed with the presiding officer. However, such motion shall not be acted upon by the presiding officer or called up for hearing by the movant unless, within 14 days after service of the motion or such other period as the presiding officer may prescribe, the challenged paper, claim, defense, contention, allegation, or denial is not withdrawn or appropriately corrected. A presiding officer's own initiative to impose sanctions may be undertaken only after entering an order describing the specific conduct that appears to violate subparagraph 2. and directing the attorney or qualified representative of a party or the unrepresented party to show cause why subparagraph 2. has not been violated. When imposing sanctions, the presiding officer shall describe the conduct determined to constitute a violation of subparagraph 2. and explain the basis for the sanction imposed. ~~All pleadings, motions, or other papers filed in the proceeding must be signed by the party, the party's attorney, or the party's qualified representative. The signature constitutes a certificate that the person has read the pleading, motion, or other paper and that, based upon reasonable inquiry, it is not interposed for any improper purposes, such as to harass or to cause unnecessary delay, or for frivolous purpose or needless increase in the cost of litigation. If a pleading, motion, or other paper is signed in violation of these requirements, the presiding officer shall impose upon the person who signed it, the represented party, or both, an appropriate sanction, which may include an order to pay the other party or parties the amount of reasonable expenses incurred because of the filing of the pleading, motion, or other paper, including a reasonable attorney's fee.~~*

Section 3. Paragraphs (c) and (e) of subsection (1) of section 120.595, Florida Statutes, are amended to read:

120.595 Attorney's fees.—

(1) CHALLENGES TO AGENCY ACTION PURSUANT TO SECTION 120.57(1).—

(c) In proceedings pursuant to s. 120.57(1), and upon motion, the administrative law judge shall determine whether any party participated in the proceeding for an improper purpose as defined by this subsection and s. 120.569(2)(c). In making such determination, the administrative law judge shall consider whether the nonprevailing adverse party has participated in two or more other such proceedings involving the same prevailing party and the same project as an adverse party and in which such two or more proceedings the nonprevailing adverse party did not establish either the factual or legal merits of its position, and shall consider whether the factual or legal position asserted in the instant proceeding would have been cognizable in the previous proceedings. In such event, it shall be rebuttably presumed that the nonprevailing adverse party participated in the pending proceeding for an improper purpose.

(e) For the purpose of this subsection:

1. "Improper purpose" means participation in a proceeding pursuant to s. 120.57(1) primarily to harass or to cause unnecessary delay or for frivolous purpose or to needlessly increase the cost of litigation, licensing, or securing the approval of an activity.

2. "Costs" has the same meaning as the costs allowed in civil actions in this state as provided in chapter 57.

3. "Nonprevailing adverse party" means a party that has failed to have substantially changed the outcome of the proposed or final agency action which is the subject of a proceeding. In the event that a proceeding results in any substantial modification or condition intended to resolve the matters raised in a party's petition, it shall be determined that the party having raised the issue addressed is not a nonprevailing adverse party. The recommended order shall state whether the change is substantial for purposes of this subsection. In no event shall the term "nonprevailing party" or "prevailing party" be deemed to include any party that has intervened in a previously existing proceeding to support the position of an agency.

Section 4. Subsection (1) of section 373.114, Florida Statutes, is amended to read:

373.114 Land and Water Adjudicatory Commission; review of district rules and orders; department review of district rules.—

(1) Except as provided in subsection (2), the Governor and Cabinet, sitting as the Land and Water Adjudicatory Commission, have the exclusive authority to review any order or rule of a water management district, other than a rule relating to an internal procedure of the district, *an order resulting from an evidentiary hearing held under s. 120.569 or s. 120.57, or a rule that has been adopted after issuance of an order resulting from an evidentiary hearing held under s. 120.56, to ensure consistency with the provisions and purposes of this chapter.* Subsequent to the legislative ratification of the delineation methodology pursuant to s. 373.421(1), this subsection also shall apply to an order of the department, or a local government exercising delegated authority, pursuant to ss. 373.403-373.443, except an order pertaining to activities or operations subject to conceptual plan approval pursuant to chapter 378 or an order resulting from an evidentiary hearing held under s. 120.569 or s. 120.57.

(a) Such review may be initiated by the department or by a party to the proceeding below by filing a request for review with the Land and Water Adjudicatory Commission and serving a copy on the department and on any person named in the rule or order within 20 days after adoption of the rule or the rendering of the order. For the purposes of this section, the term "party" means any affected person who submitted oral or written testimony, sworn or unsworn, of a substantive nature which stated with particularity objections to or support for the rule or order that are cognizable within the scope of the provisions and purposes of this chapter, ~~or any person who participated as a party in a proceeding instituted pursuant to chapter 120.~~ In order for the commission to accept a request for review initiated by a party below, with regard to a specific order, four members of the commission must determine on the basis of the record below that the activity authorized by the order would substantially affect natural resources of statewide or regional significance. Review of an order may also be accepted if four members of the commission determine that the order raises issues of policy, statutory interpretation, or rule interpretation that have regional or statewide significance from the standpoint of agency precedent. The party requesting the com-

mission to review an order must allege with particularity, and the commission must find, that:

1. The order is in conflict with statutory requirements; or
2. The order is in conflict with the requirements of a duly adopted rule.

(b) Review by the Land and Water Adjudicatory Commission is appellate in nature and shall be based solely on the record below. If there was no evidentiary administrative proceeding below, the facts contained in the proposed agency action, including any technical staff report, shall be deemed undisputed. The matter shall be heard by the commission not more than 60 days after receipt of the request for review, unless waived by the parties.

(c) If the Land and Water Adjudicatory Commission determines that a rule of a water management district is not consistent with the provisions and purposes of this chapter, it may require the water management district to initiate rulemaking proceedings to amend or repeal the rule. If the commission determines that an order is not consistent with the provisions and purposes of this chapter, the commission may rescind or modify the order or remand the proceeding for further action consistent with the order of the Land and Water Adjudicatory Commission only if the commission determines that the activity authorized by the order would substantially affect natural resources of statewide or regional significance. In the case of an order which does not itself substantially affect natural resources of statewide or regional significance, but which raises issues of policy that have regional or statewide significance from the standpoint of agency precedent, the commission may direct the district to initiate rulemaking to amend its rules to assure that future actions are consistent with the provisions and purposes of this chapter without modifying the order.

(d) In a review under this section of a construction permit issued pursuant to a conceptual permit under part IV, which conceptual permit is issued after July 1, 1993, a party to the review may not raise an issue which was or could have been raised in a review of the conceptual permit under this section.

(e) A request for review under this section shall not be a precondition to the seeking of judicial review pursuant to s. 120.68 or the seeking of an administrative determination of rule validity pursuant to s. 120.56.

(f) The Florida Land and Water Adjudicatory Commission may adopt rules to set forth its procedures for reviewing an order or rule of a water management district consistent with the provisions of this section.

(g) For the purpose of this section, it shall be presumed that activity authorized by an order will not affect resources of statewide or regional significance if the proposed activity:

1. Occupies an area less than 10 acres in size, and
2. Does not create impervious surfaces greater than 2 acres in size, and
3. Is not located within 550 feet of the shoreline of a named body of water designated as Outstanding Florida Waters, and
4. Does not adversely affect threatened or endangered species.

This paragraph shall not operate to hold that any activity that exceeds these limits is presumed to affect resources of statewide or regional significance. The determination of whether an activity will substantially affect resources of statewide or regional significance shall be made on a case-by-case basis, based upon facts contained in the record below.

Section 5. Subsection (5)(a) of section 403.412, Florida Statutes, is amended to read:

403.412 Environmental Protection Act.—

(5)(a) In any administrative, licensing, or other proceedings authorized by law for the protection of the air, water, or other natural resources of the state from pollution, impairment, or destruction, the Department of Legal Affairs, a political subdivision or municipality of the state, or a citizen of the state shall have standing to intervene as a party on the filing of a verified pleading asserting that the activity, conduct, or product to be licensed or permitted has or will have the effect of impairing,

polluting, or otherwise injuring the air, water, or other natural resources of the state.

(b) *Citizen initiation of a proceeding under s. 120.569 or s. 120.57 shall not be authorized by paragraph (a), but shall be governed by the provisions of chapter 120.*

(c) *However, a nonprofit corporation or association organized in whole or in part to promote conservation, to protect the environment or other biological values, or to preserve historical sites may petition to initiate a proceeding under s. 120.569 or s. 120.57 with regard to an agency action or a proposed agency action in any administrative, licensing, or other proceedings described in paragraph (a) without demonstrating that its substantial interests have been or will be determined, if:*

1. *Such corporation or association was in existence at least 1 year before the filing of the application to license or permit an activity, conduct, or product which resulted in the agency action or proposed agency action that is the subject of the petition;*

2.a. *Such corporation or association has an office for the transaction of its customary business or owns real property, within the same county where the activity, conduct, or product to be permitted or licensed is located, or*

b. *At least 25 members of the corporation or association reside or own real property within the same county where the activity, conduct, or product to be permitted or licensed is located; and*

3. *Such corporation or association files a verified pleading asserting that the activity, conduct, or product to be licensed or permitted has or will have the effect of impairing, polluting, or otherwise injuring the air, water, or other natural resources of the state.*

—was read the second time by title.

Senator Crist moved the following amendment which was adopted:

Amendment 1 (170520)(with title amendment)—Delete everything after the enacting clause and insert:

Section 1. The City of Tampa is authorized and empowered to enter into a supplemental contract with each and every firefighter or police officer who was an active or contributing member of the City Pension Fund for Firefighters and Police Officers in the City of Tampa on or after the date this act becomes a law, or who may hereafter enter into a pension contract with the City, amending Section 2(D), Section 6(3), and Section 27 of the City of Tampa Firefighters and Police Officers Pension Contract as prescribed by Section 28-17 of the City of Tampa Code [Ordinance No. 4746-A, enacted September 30, 1969], as amended by section 28-19 of the City of Tampa Code [Ordinance No. 6038-A, enacted September 17, 1974] pursuant to chapter 74-613, Laws of Florida, as further amended by chapter 92-231, Laws of Florida, chapter 94-463, Laws of Florida, chapter 98-515, Laws of Florida, and chapter 2000-485, Laws of Florida, to read:

Section 2(D) *Except as provided by subparagraph 2(B)(4) and subparagraph 27(B)(2), the employees covered under this contract shall contribute at the rates set forth below, based upon all of their earnings during each twelve month period commencing on October 1, which contributions shall be deducted from said earnings before the same are paid and shall be promptly deposited in the Fund:*

Earnings in Twelve-Month Period Commencing October 1	Employee Contribution Rate
First \$4,000	6%
Next 1,000	7%
Next 1,000	8%
Next 1,000	9%
Next 1,000	10%
Next 1,000	11%
Next 1,000	12%
Next 2,500	15%
Excess over \$12,500	25%

If the City's rate of contribution, pursuant to Section 2(B), should exceed forty per centum (40%), the employee contribution scale above shall be increased in the ratio of the City's contribution rate, pursuant to Section 2(B), to 40 percent.

Commencing for earnings paid the first pay date after January 1, 2002, all mandatory employee contributions to the Fund shall be picked-up and paid by the City. Such contributions, although designated as employee contributions, will be paid by the City in lieu of contributions by the employee. The contributions so assumed shall be treated as tax-deferred employer "pick-up" contributions pursuant to Section 414(h) of the Internal Revenue Code. Members shall not have the option of receiving the contributed amounts directly instead of having such contributions paid by the City to the Fund.

Section 6(3) That the portfolio, representing the principal or surplus funds of the Pension Fund may be invested in the following securities or other property, real or personal, including, but without being limited to, bonds, notes, or other evidences of indebtedness issued, or assumed or guaranteed in whole or in part by the United States or any of its agencies or instrumentalities; or by the ~~Dominion of Canada or any of its provinces, cities or municipal corporations;~~ any foreign government or political subdivisions or agencies thereof; or by the State of Florida, or by any county, city, school district, municipal corporation, or other political subdivision of the State of Florida, both general and revenue obligations; in mortgages and other interests in realty; or in such corporation bonds, notes, or other evidences of indebtedness, and corporation stocks including common and preferred stocks, of any corporation created or existing under the laws of the United States or any of the states of the United States, or ~~of the Dominion of Canada, of any foreign government or political subdivisions or agencies thereof,~~ provided that in making each and all of such investments the Board of Trustees shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own funds, not in regard to speculation but in regard to the permanent disposition of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as probable safety of their capital; provided, however, that not more than sixty-five per centum (65%) of said fund, based on the total book value of all investments held, shall be invested at any given time in common stocks, and that not more than five per centum (5%) of said fund shall be invested at any given time in the preferred and common, or either, stock of any one corporation and its affiliates *and that not more than ten per centum (10%) of said fund, based on the total book value of all investments held, shall be invested at any given time in the bonds, notes or other evidences of indebtedness of any foreign government or political subdivisions or agencies thereof or corporations created or existing under the laws thereof.*

Section 27. **13TH CHECK PROGRAM.**—Notwithstanding any other provisions of this contract, and subject to the provisions of this section, the 13th Check Program is a program which authorizes the Board of Trustees to establish and make a supplemental pension distribution ~~commencing in January 1999, and in January of each year thereafter,~~ pursuant to the following terms and conditions:

(A) *Eligibility.*—The following persons shall be eligible for the supplemental pension distribution payable *no later than June 30, 2002, and each June 30 annually thereafter:* ~~in January of each year:~~

(1) All retired members who have terminated employment as a firefighter or police officer in the fire department or police department, respectively, who, on the October 1 immediately preceding the *June 30 by January* in which distributions are to be made, were eligible to receive pension benefits for at least 1 year. For purposes of this section only, a DROP participant shall be considered a retired member and, during the DROP calculation period, a DROP participant shall be eligible for the 13th check benefit, provided that, on the October 1 immediately preceding the *June 30 by January* in which distributions are to be made, such DROP participant had participated in the DROP for at least 1 year;

(2) All qualifying spouses who were eligible to receive pension benefits pursuant to Section 8 or Section 9 for at least 1 year on the October 1 immediately preceding the *June 30 by January* in which distributions are to be made; and

(3) All qualifying surviving spouses, who on the October 1 immediately preceding the *June 30 by January* in which distributions are to be made, were eligible for receipt of Section 8 or Section 9 benefits but who have not received such pension benefits for at least 1 year provided that the deceased member was eligible for receipt of pension benefits on October 1 of the prior year.

(B) *13th Check Account.*—

(1) There is hereby created a 13th check account within the Fund, which shall consist of those employees' contributions set forth in subparagraph 27(B)(2) ~~and the City's contributions set forth in subparagraph 27(B)(3)~~ in excess of those contributions otherwise required by Section 2 for the normal annual cost of benefits, other than benefits arising from post retirement adjustments made pursuant to Section 23 and other than benefits arising from the 13th Check Program, plus any interest earnings thereon *up to and including September 30, 2001. Effective for earnings paid on the first pay date after October 1, 2001, employee contributions to the 13th Check Account shall cease, and the 13th Check Account shall be funded by investment returns in excess of 10% (limited to 3%) on the base plan liabilities for persons eligible for the 13th check. For purposes of this Section, the "base plan" shall mean those assets of the Fund excluding the Post Retirement Adjustment Account, DROP account assets, and the 13th check account. The amount available for the 13th check shall be calculated as of fiscal year end commencing September 30, 2001 for the fiscal year ending September 30, 2001 for payment no later than June 30, 2002, and each June 30 annually thereafter; provided, however, the calculation of the amount payable no later than June 30, 2002, shall include employee contributions to the 13th check account for earnings paid through the last pay date immediately prior to October 1, 2001. The City shall not be required to make contributions toward the 13th check program.*

(2) Notwithstanding any other provision of this contract, commencing October 1, 1998, employees covered under this contract shall continue to contribute pursuant to Section 2 at the rates required for employees to fund the normal annual cost of benefits, other than benefits arising from post retirement adjustments made pursuant to Section 23 and other than benefits arising from the 13th check program made pursuant to this section, plus an additional 100 percent of 9.874 percent of the full scale contribution rate (FSCR) set forth in Section 2(D) to the 13th check program. *Employee contributions to the 13th check shall cease effective for earnings paid on the last pay date immediately prior to October 1, 2001.*

(3) ~~Notwithstanding any other provision of this contract, the City shall contribute:~~

(a) ~~An amount required to fund the normal annual cost of benefits, other than benefits arising from post retirement adjustments made pursuant to Section 23 and other than benefits arising from the 13th check program made pursuant to this section, plus;~~

(b) ~~Commencing October 1, 2001, to the 13th check program, 134 percent of 9.874 percent of the full scale contribution rate (FSCR) for employees set forth in Section 2(D); provided, however, if the sum of the City's contribution for the normal annual cost of benefits plus the 134 percent of 9.874 percent of the full scale contribution rate (FSCR) is greater than 134 percent of 28.789 percent of the full scale contribution rate (FSCR), then the City's contribution to the 13th check program shall be the positive difference between 134 percent of 28.789 percent of the full scale contribution rate (FSCR) and the amount set forth in~~

~~subparagraph 27(B)(3)(a) 134 percent of the normal annual cost of benefits of the full scale contribution rate (FSCR) for employees set forth in Section 2(D), but no less than 134 percent of 3 percent of the full scale contribution rate (FSCR).~~

(4) ~~Notwithstanding any other provision of this contract, the City's contributions to the 13th check program shall not require the City to make additional contributions to the 13th check program to reimburse the 13th check account for the contributions the City would have otherwise made to the 13th check program had it contributed thereto for the period of October 1, 1998, through September 30, 2001.~~

(C) *Amount of the 13th Check.*—The amount of the 13th check shall be determined as follows:

(1)(a) The amount of the 13th check shall be the same for all retired members, regardless of years of service, age, years retired, or monthly installment.

(b) All eligible surviving spouses shall be entitled to 50 percent of what the eligible retired member would have received but for death.

(c) If a retired member is eligible on October 1 but dies before payment of the 13th check by ~~in the following June 30 January~~, the retired member's spouse shall receive the full amount of the payment, and if there is no surviving spouse, the retired member's designated beneficiary or beneficiaries, or if none, the retired member's estate shall receive the payment.

(2) The Board of Trustees shall establish by rule adopted no later than *May 31, 2002, and each May 31 thereafter, December 15, 1998*, the amount of the 13th check *funded pursuant to Section 27(B)(1)*, subject to the following:

(a) The amount of the 13th check, or a method for calculating the amount of the 13th check in a manner that is definitely determinable and in accordance with the requirements of the Internal Revenue Code applicable to a qualified governmental plan; and

(b) Certification by the Fund's actuary that the amount of the payment will be funded on a sound actuarial basis as required by Section 14, Article X of the State Constitution.

(D) *Conflict of Laws.*—To the extent that any provision of this section is in conflict with sections 112.60-112.67, Florida Statutes, or those provisions of chapters 175 and 185, Florida Statutes, that apply to local law plans established by municipal ordinance or special act, or provisions of Florida Statutes made applicable to pension funds established by special act, or to the extent that any provision of this section would result in the loss of tax exempt status of the Pension Fund, the Board of Trustees is hereby delegated the authority to adopt by rules changes to this section in order to comply with said laws, which shall have the force of law and shall be considered part of this pension contract.

(E) *Administration of Program.*—The Board of Trustees shall make such rules as are necessary for the effective and efficient administration of this section, provided that such rules are not inconsistent with the terms of any collective bargaining agreement entered into by the City and the certified bargaining agents for firefighters and police officers concerning the 13th Check Program. Notwithstanding any other provision of this section to the contrary, any provision of this section shall be construed and administered in such manner that such program will qualify as a qualified governmental pension plan under existing or hereafter enacted provisions of the Internal Revenue Code of the United States, and the Board of Trustees may adopt any rule to accomplish the purpose of this section as is necessary to retain tax qualification, which rules shall have the force of law and shall be considered part of this pension contract.

Section 2. This act is only an enabling act, and the execution by the City of Tampa of the aforesaid supplemental contract and entitlement to the pension benefits referred to in this act for all firefighters and police officers, regardless of whether or not in the respective certified bargaining unit for firefighters or police officers, is contingent upon contractual agreement through the collective bargaining process between the City of Tampa and each of the respective certified bargaining agents for firefighters and police officers.

Section 5. Notwithstanding the provisions of Section 1, the distribution of the 13th check commencing no later than June 30, 2002, shall be payable within 30 days of receipt of a favorable determination letter from the Internal Revenue Service that the revised 13th check program does not adversely impact the tax qualification of the plan, but no earlier than June 30, 2002.

In an abundance of caution, pursuant to Senate Rule 1.39, I am disclosing that SB 2274 (2001) and/or its companion, HB 869 (2001), could be construed to be of special benefit to my employer.

Once disclosed, it is my duty to vote on final passage of either of these local bills, pursuant to Senate Rule 1.20.

John B. Phelps, Clerk

CS for SB 778—A bill to be entitled An act relating to lawyer assistance programs; providing civil immunity for persons making good-faith reports of information to a lawyer assistance program; providing for a presumption of good faith; providing for immunity for certain persons; providing that certain information is subject to the attorney-client privilege; providing for the confidentiality of certain records, proceedings and communications; providing an effective date.

House Amendment 1 (525319)(with title amendment)—Remove from the bill: Everything after the enacting clause and insert in lieu thereof:

Section 1. *Civil immunity.*—A person who in good faith reports information or takes action in connection with a lawyer assistance program or a person who receives information in connection with a lawyer assistance program is immune from civil liability for reporting the information, taking the action, or taking no action, provided that such person has acted in good faith and without malice.

Section 2. *Presumption of good faith.*—A member of a lawyer assistance program or a person reporting information to a lawyer assistance program is presumed to have acted in good faith and without malice. A person alleging lack of good faith has the burden of proving bad faith and malice.

Section 3. *Persons entitled to immunity.*—The civil immunity provided for in this act shall be liberally construed to accomplish the purposes of this act. The persons entitled to immunity under this act include:

(1) *Florida Lawyers Assistance, Inc., and other lawyer assistance programs approved by the Florida Supreme Court or The Florida Bar which provide assistance to attorneys who may be impaired because of abuse of alcohol or other drugs or because of any other physical or mental infirmity causing impairment.*

(2) *A member, employee, or agent of the program, association, or nonprofit corporation.*

(3) *A person who reports or provides information to the program concerning an impaired legal professional, including, but not limited to,*

a person designated to monitor or supervise the course of treatment or rehabilitation of an impaired professional.

Section 4. Information subject to privilege.—All privileged information, whether attorney-client, work product, or otherwise, in any form, furnished to the lawyer assistance program shall remain privileged.

Section 5. Confidentiality of records, proceedings, and communications.—The records, proceedings, and all communications by and between an individual seeking assistance and the lawyer assistance program shall be deemed confidential and shall not be subject to disclosure or available for court subpoena. This section does not prevent the subpoena of business records that are otherwise available through subpoena, nor does this section preclude release or disclosure of information or communications by the lawyer assistance program when such disclosure is mandated or required as a condition or precondition for entry in the program. Such records are not to be construed as privileged merely because they have been maintained by a lawyer assistance program.

Section 6. This act shall take effect upon becoming a law.

And the title is amended as follows: remove from the title of the bill: everything before the enacting clause and insert in lieu thereof: A bill to be entitled An act relating to lawyer assistance programs; providing civil immunity for persons making good-faith reports of information to a lawyer assistance program; providing for a presumption of good faith; providing for immunity for certain persons; providing that certain information is subject to privilege; providing for the confidentiality of certain records, proceedings, and communications; providing an effective date.

Section 2. Present subsection (15) of section 39.402, Florida Statutes, is redesignated as subsection (16), subsection (9) is amended and a new subsection (15) is added to that section, to read:

(9) At any shelter hearing, *the department shall provide to the court a recommendation for scheduled contact between the child and parents, if appropriate. T* the court shall determine visitation rights absent a clear and convincing showing that visitation is not in the best interest of the child. *If visitation is ordered but will not commence within 72 hours of the shelter hearing, the department shall provide justification to the court.*

(10) The shelter hearing order shall contain a written determination as to whether the department has made a reasonable effort to prevent or eliminate the need for removal or continued removal of the child from the home. If the department has not made such an effort, the court shall order the department to provide appropriate and available services to ensure the protection of the child in the home when such services are necessary for the child's health and safety.

(11) If a child is placed in a shelter pursuant to a court order following a shelter hearing, the court shall require in the shelter hearing order that the parents of the child, or the guardian of the child's estate, if possessed of assets which under law may be disbursed for the care, support, and maintenance of the child, to pay, to the department or institution having custody of the child, fees as established by the department. When the order affects the guardianship estate, a certified copy of the order shall be delivered to the judge having jurisdiction of the guardianship estate. The shelter order shall also require the parents to

provide to the department and any other state agency or party designated by the court, within 28 days after entry of the shelter order, the financial information necessary to accurately calculate child support pursuant to s. 61.30.

(12) In the event the shelter hearing is conducted by a judge other than the juvenile court judge, the juvenile court judge shall hold a shelter review on the status of the child within 2 working days after the shelter hearing.

(13) A child may not be held in a shelter under an order so directing for more than 60 days without an adjudication of dependency. A child may not be held in a shelter for more than 30 days after the entry of an order of adjudication unless an order of disposition has been entered by the court.

(14) The time limitations in this section do not include:

(a) Periods of delay resulting from a continuance granted at the request or with the consent of the child's counsel or the child's guardian ad litem, if one has been appointed by the court, or, if the child is of sufficient capacity to express reasonable consent, at the request or with the consent of the child's attorney or the child's guardian ad litem, if one has been appointed by the court, and the child.

(b) Periods of delay resulting from a continuance granted at the request of the attorney for the department, if the continuance is granted:

1. Because of an unavailability of evidence material to the case when the attorney for the department has exercised due diligence to obtain such evidence and there are substantial grounds to believe that such evidence will be available within 30 days. However, if the department is not prepared to present its case within 30 days, the parent or legal custodian may move for issuance of an order to show cause or the court on its own motion may impose appropriate sanctions, which may include dismissal of the petition.

2. To allow the attorney for the department additional time to prepare the case and additional time is justified because of an exceptional circumstance.

(c) Reasonable periods of delay necessary to accomplish notice of the hearing to the child's parents or legal custodians; however, the petitioner shall continue regular efforts to provide notice to the parents or legal custodians during such periods of delay.

(d) Reasonable periods of delay resulting from a continuance granted at the request of the parent or legal custodian of a subject child.

(15) *The department at the conclusion of the shelter hearing, shall make available to parents or legal custodians seeking voluntary services, any referral information necessary for participation in such identified services. The parents' or legal custodians' participation in the services shall not be considered an admission or other acknowledgement of the allegations in the shelter petition.*

(16)(15) At the conclusion of a shelter hearing, the court shall notify all parties in writing of the next scheduled hearing to review the shelter placement. Such hearing shall be held no later than 30 days after placement of the child in shelter status, in conjunction with the arraignment hearing, and every 15 days thereafter until the child is released from shelter status.

Section 3. Present subsections (5), (6), and (7) of section 39.521, Florida Statutes are redesignated as subsections (6), (7), and (8), respectively, and a new subsection (5) is added to that section, to read:

39.521 Disposition hearings; powers of disposition.—

(5)(a) *In districts 4, 11, and 12 and in the Suncoast Region of the department and, except as provided in s. 39.407, any child 11 years of age or older who has been in licensed family foster care for 6 months or longer and who is then moved more than once must be assessed for placement in licensed residential group care. The assessment procedures shall be conducted by the department or its agent and shall incorporate and address current and historical information from any psychological testing or evaluation that has occurred; current and historical information from the guardian ad litem, if one has been assigned; current and historical information from any current therapist, teacher, or other professional*

who has knowledge of the child and has worked with the child; information regarding the placement of any siblings of the child and the impact of the child's placement in residential group care on the child's siblings; the circumstances necessitating the moves of the child while in family foster care and the recommendations of the former foster families, if available; the status of the child's case plan and a determination as to the impact of placing the child in residential group care on the goals of the case plan; the age, maturity, and desires of the child concerning placement; the availability of any less restrictive, more family-like setting for the child in which the foster parents have the necessary training and skills for providing a suitable placement for the child; and any other information concerning the availability of suitable residential group care. If such placement is determined to be appropriate as a result of this procedure, the child must be placed in residential group care, if available.

(b) The results of the assessment described in paragraph (a) and the actions taken as a result of the assessment must be included in the next judicial review of the child. At each subsequent judicial review, the court must be advised in writing of the status of the child's placement, with special reference regarding the stability of the placement and the permanency planning for the child.

(c) Any residential group care facility that receives children under the provisions of this subsection shall establish special permanency teams dedicated to overcoming the special permanency challenges presented by this population of children. Each facility shall report to the department its success in achieving permanency for children placed by the department in its care at intervals that allow the current information to be provided to the court at each judicial review for the child.

(d) This subsection does not prohibit the department from assessing and placing children who do not meet the criteria in paragraph (a) in residential group care if such placement is the most appropriate placement for such children.

(e) By December 1 of each year beginning in 2001, the department shall report to the Legislature on the placement of children in licensed residential group care during the year, including the criteria used to determine the placement of children, the number of children who were evaluated for placement, the number of children who were placed based upon the evaluation, and the number of children who were not placed. The department shall maintain data specifying the number of children who were referred to licensed residential child care for whom placement was unavailable and the counties in which such placement was unavailable. The department shall include this data in its report to the Legislature due on December 1, so that the Legislature may consider this information in developing the General Appropriations Act.

(f) The provisions of this subsection shall be implemented to the extent of available appropriations contained in the annual General Appropriations Act for such purpose.

Section 4. Subsection (1) of section 409.1671, Florida Statutes, is amended to read:

409.1671 Foster care and related services; privatization.—

(1)(a) It is the intent of the Legislature that the Department of Children and Family Services shall privatize the provision of foster care and related services statewide. It is further the Legislature's intent to encourage communities and other stakeholders in the well-being of children to participate in assuring that children are safe and well-nurtured. However, while recognizing that some local governments are presently funding portions of certain foster care and related services programs and may choose to expand such funding in the future, the Legislature does not intend by its privatization of foster care and related services that any county, municipality, or special district be required to assist in funding programs that previously have been funded by the state. Nothing in this paragraph prohibits any county, municipality, or special district from future voluntary funding participation in foster care and related services. As used in this section, the term "privatize" means to contract with competent, community-based agencies. The department shall submit a plan to accomplish privatization statewide, through a competitive process, phased in over a 3-year period beginning January 1, 2000. This plan must be developed with local community participation, including, but not limited to, input from community-based providers that are currently under contract with the department to furnish community-based foster care and related services, and must include a methodology for determining and transferring all available funds, including federal funds that the

provider is eligible for and agrees to earn and that portion of general revenue funds which is currently associated with the services that are being furnished under contract. The methodology must provide for the transfer of funds appropriated and budgeted for all services and programs that have been incorporated into the project, including all management, capital (including current furniture and equipment), and administrative funds to accomplish the transfer of these programs. This methodology must address expected workload and at least the 3 previous years' experience in expenses and workload. With respect to any district or portion of a district in which privatization cannot be accomplished within the 3-year timeframe, the department must clearly state in its plan the reasons the timeframe cannot be met and the efforts that should be made to remediate the obstacles, which may include alternatives to total privatization, such as public-private partnerships. As used in this section, the term "related services" includes, but is not limited to, means family preservation, independent living, emergency shelter, residential group care, foster care, therapeutic foster care, intensive residential treatment, foster care supervision, case management, postplacement supervision, permanent foster care, and family reunification. Unless otherwise provided for, beginning in fiscal year 1999-2000, either the state attorney or the Office of the Attorney General shall provide child welfare legal services, pursuant to chapter 39 and other relevant provisions, in Sarasota, Pinellas, Pasco, Broward, and Manatee Counties. Such legal services shall commence and be effective, as soon as determined reasonably feasible by the respective state attorney or the Office of the Attorney General, after the privatization of associated programs and child protective investigations has occurred. When a private nonprofit agency has received case management responsibilities, transferred from the state under this section, for a child who is sheltered or found to be dependent and who is assigned to the care of the privatization project, the agency may act as the child's guardian for the purpose of registering the child in school if a parent or guardian of the child is unavailable and his or her whereabouts cannot reasonably be ascertained. The private nonprofit agency may also seek emergency medical attention for such a child, but only if a parent or guardian of the child is unavailable, his or her whereabouts cannot reasonably be ascertained, and a court order for such emergency medical services cannot be obtained because of the severity of the emergency or because it is after normal working hours. However, the provider may not consent to sterilization, abortion, or termination of life support. If a child's parents' rights have been terminated, the nonprofit agency shall act as guardian of the child in all circumstances.

(b) As used in this section, the term "eligible lead community-based provider" means a single agency with which the department shall contract for the provision of child protective services in a community that is no smaller than a county. The secretary of the department may authorize more than one eligible lead community-based provider within a single county when to do so will result in more effective delivery of foster care and related services. To compete for a privatization project, such agency must have:

1. The ability to coordinate, integrate, and manage all child protective services in the designated community in cooperation with child protective investigations.
2. The ability to ensure continuity of care from entry to exit for all children referred from the protective investigation and court systems.
3. The ability to provide directly, or contract for through a local network of providers, all necessary child protective services.
4. The willingness to accept accountability for meeting the outcomes and performance standards related to child protective services established by the Legislature and the Federal Government.
5. The capability and the willingness to serve all children referred to it from the protective investigation and court systems, regardless of the level of funding allocated to the community by the state, provided all related funding is transferred.
6. The willingness to ensure that each individual who provides child protective services completes the training required of child protective service workers by the Department of Children and Family Services.
7. The ability to maintain eligibility to receive all federal child welfare funds, including Title IV-E and IV-A funds, currently being used by the Department of Children and Family Services.

(c)1. *If attempts to competitively procure services through an eligible lead community-based provider as defined in paragraph (b) do not produce a capable and willing agency, the department shall develop a plan in collaboration with the local community alliance. The plan must detail how the community will continue to implement privatization through competitively procuring either the specific components of foster care and related services or comprehensive services for defined eligible populations of children and families from qualified licensed agencies as part of its efforts to develop the local capacity for a community-based system of coordinated care. The plan must ensure local control over the management and administration of the service provision in accordance with the intent of this section and may include recognized best business practices, including some form of public or private partnerships. In the absence of a community alliance, the plan must be submitted to the President of the Senate and the Speaker of the House of Representatives for their comments.*

2.1. The Legislature finds that the state has traditionally provided foster care services to children who have been the responsibility of the state. As such, foster children have not had the right to recover for injuries beyond the limitations specified in s. 768.28. The Legislature has determined that foster care and related services need to be privatized pursuant to this section and that the provision of such services is of paramount importance to the state. The purpose for such privatization is to increase the level of safety, security, and stability of children who are or become the responsibility of the state. One of the components necessary to secure a safe and stable environment for such children is that private providers maintain liability insurance. As such, insurance needs to be available and remain available to nongovernmental foster care and related services providers without the resources of such providers being significantly reduced by the cost of maintaining such insurance.

3.2. The Legislature further finds that, by requiring the following minimum levels of insurance, children in privatized foster care and related services will gain increased protection and rights of recovery in the event of injury than provided for in s. 768.28.

(d) Other than an entity to which s. 768.28 applies, any eligible lead community-based provider, as defined in paragraph (b), or its employees or officers, except as otherwise provided in paragraph (e), must, as a part of its contract, obtain a minimum of \$1 million per claim/\$3 million per incident in general liability insurance coverage. In any tort action brought against such an eligible lead community-based provider, net economic damages shall be limited to \$1 million per claim, including, but not limited to, past and future medical expenses, wage loss, and loss of earning capacity, offset by any collateral source payment paid or payable. In any tort action brought against such an eligible lead community-based provider, noneconomic damages shall be limited to \$200,000 per claim. A claims bill may be brought on behalf of a claimant pursuant to s. 768.28 for any amount exceeding the limits specified in this paragraph. Any offset of collateral source payments made as of the date of the settlement or judgment shall be in accordance with s. 768.76. The lead community-based provider shall not be liable in tort for the acts or omissions of its subcontractors or the officers, agents, or employees of its subcontractors.

(e) The liability of an eligible lead community-based provider described in this section shall be exclusive and in place of all other liability of such provider. The same immunities from liability enjoyed by such providers shall extend as well to each employee of the provider when such employee is acting in furtherance of the provider's business. Such immunities shall not be applicable to a provider or an employee who acts in a culpably negligent manner or with willful and wanton disregard or unprovoked physical aggression when such acts result in injury or death or such acts proximately cause such injury or death; nor shall such immunities be applicable to employees of the same provider when each is operating in the furtherance of the provider's business, but they are assigned primarily to unrelated works within private or public employment. The same immunity provisions enjoyed by a provider shall also apply to any sole proprietor, partner, corporate officer or director, supervisor, or other person who in the course and scope of his or her duties acts in a managerial or policymaking capacity and the conduct that caused the alleged injury arose within the course and scope of those managerial or policymaking duties. Culpable negligence is defined as reckless indifference or grossly careless disregard of human life.

(f) Any subcontractor of an eligible lead community-based provider, as defined in paragraph (b), which is a direct provider of foster care and

related services to children and families, and its employees or officers, except as otherwise provided in paragraph (e), must, as a part of its contract, obtain a minimum of \$1 million per claim \$3 million per incident in general liability insurance coverage. In any tort action brought against such subcontractor, net economic damages shall be limited to \$1 million per claim, including, but not limited to, past and future medical expenses, wage loss, and loss of earning capacity, offset by any collateral source payment paid or payable. In any tort action brought against such subcontractor, noneconomic damages shall be limited to \$200,000 per claim. A claims bill may be brought on behalf of a claimant pursuant to s. 768.28 for any amount exceeding the limits specified in this paragraph. Any offset of collateral source payments made as of the date of the settlement or judgment shall be in accordance with s. 768.76.

(g) The liability of a subcontractor of an eligible lead community-based provider that is a direct provider of foster care and related services as described in this section shall be exclusive and in place of all other liability of such provider. The same immunities from liability enjoyed by such subcontractor provider shall extend as well to each employee of the subcontractor when such employee is acting in furtherance of the subcontractor's business. Such immunities shall not be applicable to a subcontractor or an employee who acts in a culpably negligent manner or with willful and wanton disregard or unprovoked physical aggression when such acts result in injury or death or such acts proximately cause such injury or death; nor shall such immunities be applicable to employees of the same subcontractor when each is operating in the furtherance of the subcontractor's business, but they are assigned primarily to unrelated works within private or public employment. The same immunity provisions enjoyed by a subcontractor shall also apply to any sole proprietor, partner, corporate officer or director, supervisor, or other person who in the course and scope of his or her duties acts in a managerial or policymaking capacity and the conduct that caused the alleged injury arose within the course and scope of those managerial or policymaking duties. Culpable negligence is defined as reckless indifference or grossly careless disregard of human life.

(h) The Legislature is cognizant of the increasing costs of goods and services each year and recognizes that fixing a set amount of compensation actually has the effect of a reduction in compensation each year. Accordingly, the conditional limitations on damages in this section shall be increased at the rate of 5 percent each year, prorated from the effective date of this paragraph to the date at which damages subject to such limitations are awarded by final judgment or settlement.

Section 5. Section 409.1676, Florida Statutes, is created to read:

409.1676 Comprehensive residential services to children who have extraordinary needs.—

(1) *It is the intent of the Legislature to provide comprehensive residential services, including residential care, case management, and other services, to children in the child protection system who have extraordinary needs, such as serious behavioral problems or having been determined to be without the options of either reunification with family or adoption. These services are to be provided in a residential group care setting by a not-for-profit corporation or a local government entity under a contract with the Department of Children and Family Services or by a lead agency as described in s. 409.1671. These contracts should be designed to provide an identified number of children with access to a full array of services for a fixed price.*

(2) *As used in this section, the term:*

(a) *“Residential group care” means a living environment for children who have been adjudicated dependent and are expected to be in foster care for at least 6 months with 24-hour-awake staff or live-in group home parents or staff. Beginning July 1, 2001, all facilities must be appropriately licensed in this state, and they must be accredited by July 1, 2005.*

(b) *“Serious behavioral problems” means behaviors of children who have been assessed by a licensed master's-level human-services professional to need at a minimum intensive services but who do not meet the criteria of s. 394.492(6) or s. 394.492(7). A child with an emotional disturbance as defined in s. 394.492(5) may be served in residential group care unless a determination is made by a mental health professional that such a setting is inappropriate.*

(3) *The department, in accordance with a specific appropriation for this program, shall contract with a not-for-profit corporation, a local*

government entity, or the lead agency that has been established in accordance with s. 409.1671 for the performance of residential group care services described in this section in, at a minimum, districts 4, 11, 12, and the Suncoast Region of the Department of Children and Family Services and with a not-for-profit entity serving children from multiple districts. A lead agency that is currently providing residential care may provide this service directly with the approval of the local community alliance. The department or a lead agency may contract for more than one site in a county if that is determined to be the most effective way to achieve the goals set forth in this section.

(4) The lead agency, the contracted not-for-profit corporation, or the local government entity is responsible for a comprehensive assessment, residential care, transportation, behavioral health services, recreational activities, clothing, supplies and miscellaneous expenses associated with caring for these children, for necessary arrangement for or provision of educational services, and for assuring necessary and appropriate health and dental care.

(5) The department may transfer all casework responsibilities for children served under this program to the entity that provides this service, including case management and development and implementation of a case plan in accordance with current standards for child protection services. When the department establishes this program in a community that has a lead agency as described in s. 409.1671, the casework responsibilities must be transferred to the lead agency.

(6) This section does not prohibit any provider of these services from appropriately billing Medicaid for services rendered, from contracting with a local school district for educational services, or from earning federal or local funding for services provided, as long as two or more funding sources do not pay for the same specific service that has been provided to a child.

(7) The lead agency, not-for-profit corporation, or local government entity has the legal authority for children served under this program, as provided in chapter 39 or this chapter, as appropriate, to enroll the child in school, to sign for a driver's license for the child, to co-sign loans and insurance for the child, to sign for medical treatment, and to authorize other such activities.

(8) The department shall provide technical assistance as requested and contract-management services.

(9) The provisions of this section shall be implemented to the extent of available appropriations contained in the annual General Appropriations Act for such purpose.

Section 6. Section 409.1677, Florida Statutes, is created to read:

409.1677 Model comprehensive residential services programs.—

(1) As used in this section, the term:

(a) "Residential group care" means a living environment for children who have been adjudicated dependent and are expected to be in foster care for a minimum of 6 months with 24-hour-awake staff or live-in group home parents or staff. Beginning July 1, 2001, all facilities must be appropriately licensed in this state, and they must be accredited by July 1, 2005.

(b) "Serious behavioral problems" means behaviors of children who have been assessed by a licensed master's-level human services professional to need at a minimum intensive services but who do not meet the criteria of s. 394.492(6) or s. 394.492(7). A child with an emotional disturbance as defined in s. 394.492(5) may be served in residential group care unless a determination is made by a mental health professional that such a setting is inappropriate.

(2) The department shall establish a model comprehensive residential services program in Dade and Manatee Counties through a contract with the designated lead agency established in accordance with s. 409.1671 or with a private entity capable of providing residential group care and home-based care and experienced in the delivery of a range of services to foster children, if no lead agency exists. These model programs are to serve that portion of eligible children within each county which is specified in the contract, based on funds appropriated, to include a full array of services for a fixed price. The private entity or lead agency is responsible for all programmatic functions necessary to carry out the intent of this section.

(3) Each model must include:

(a) A focus on serving the full range of children in foster care, including those who have specialized needs, such as children who are unlikely to be reunited with their families or placed in adoptive homes; sibling groups; children who have serious behavioral problems; and children who are victims of sexual abuse.

(b) For each child who is in care, the provision of or arrangements for a comprehensive assessment; residential care; transportation; behavioral health services; recreational activities; clothing, supplies, and miscellaneous expenses associated with caring for these children; educational services; necessary and appropriate health and dental care; legal services; and aftercare services.

(c) A commitment and ability to find and use innovative approaches to address the problems in the traditional foster care system, such as high caregiver turnover, disrupted and multiple placements, runaway behavior, and abusive or nontherapeutic care.

(d) The provision of a full range of residential services tailored to the individual needs of each child in care, including group homes for initial assessment and for stabilization; professional and traditional foster homes; residential group care provided in a setting that is homelike and provides care in residences housing no more than 12 children and staffed with full-time, appropriately trained house parents; and independent living apartments. The programs are designed for children who must enter the foster care system, but the use of placement with relatives as part of a child's care is encouraged.

(e) The provision of the full range of administrative services necessary to operate the program.

(f) Specific eligibility criteria established in the contract, including a "no-reject-no-eject" commitment with the described eligible children, unless the court determines that the placement is not in a child's best interest.

(g) An ability, through its trained, multidisciplinary staff, to facilitate the achievement of the permanency goals of the children who are in care.

(h) The design and utilization of a retired-volunteer mentor program that would make use of the skills of retired individuals in helping to meet the needs of both the children in care and their caregivers.

(i) The willingness and ability to assume financial risk for the care of children referred to the program under the contract.

(j) The willingness and ability to serve as a research and teaching laboratory for departmental and community-based care programs throughout the state in an effort to improve the quality of foster care.

(4) This section does not prohibit any provider of these services from appropriately billing Medicaid for services rendered, from contracting with a local school district for educational services, or from earning federal or local funding for services provided, as long as two or more funding sources do not pay for the same specific service that has been provided to a child.

(5) The lead agency, not-for-profit corporation, or local government entity has the legal authority for children served under this program, as provided in chapter 39 or this chapter, as appropriate, to enroll the child in school, to sign for a driver's license for the child, to co-sign loans and insurance for the child, to sign for medical treatment, and to authorize other such activities.

(6) The department shall provide technical assistance as requested and contract-management services.

(7) The provisions of this section shall be implemented to the extent of available appropriations contained in the annual General Appropriations Act for such purpose.

Section 7. Section 409.1679, Florida Statutes, is created to read:

409.1679 Additional requirements, effective date, reimbursement methodology, and evaluation.—

(1) *The programs established under ss. 409.1676 and 409.1677 are to be operational within 6 months after those sections take effect, and, beginning 1 month after this section takes effect and continuing until full operation of those programs is realized, the department shall provide to the Legislature monthly written status reports on the progress toward implementing those programs.*

(2) *The programs established under ss. 409.1676 and 409.1677 must be included as part of the annual evaluation currently required under s. 409.1671. With respect to these specific programs and models, the annual evaluation must be conducted by an independent third party and must include, by specific site, the level of attainment of the targeted outcomes listed in subsection (3). The evaluation of the model programs must include, at a minimum, an assessment of their cost-effectiveness, of their ability to successfully implement the assigned program elements, and of their attainment of performance standards that include legislatively established standards for similar programs and other standards determined jointly by the department and the providers and stated in a contract.*

(3) *Each program established under ss. 409.1676 and 409.1677 must meet the following expectations, which must be included in its contracts with the department or lead agency:*

(a) *No more than 10 percent of the children served may move from one living environment to another, unless the child is returned to family members or is moved, in accordance with the treatment plan, to a less-restrictive setting. Each child must have a comprehensive transitional plan that identifies the child's living arrangement upon leaving the program and specific steps and services that are being provided to prepare for that arrangement. Specific expectations as to the time period necessary for the achievement of these permanency goals must be included in the contract.*

(b) *Each child must receive a full academic year of appropriate educational instruction. No more than 10 percent of the children may be in more than one academic setting in an academic year, unless the child is being moved, in accordance with an educational plan, to a less-restrictive setting. Each child must demonstrate academic progress and must be performing at grade level or at a level commensurate with a valid academic assessment.*

(c) *Siblings must be kept together in the same living environment 100 percent of the time, unless that is determined by the provider not to be in the children's best interest. When siblings are separated in placement, the decision must be reviewed and approved by the court within 30 days.*

(d) *The program must experience a caregiver turnover rate and an incidence of child runaway episodes which are at least 50 percent below the rates experienced in the rest of the state.*

(e) *In addition to providing a comprehensive assessment, the program must provide, 100 percent of the time, any or all of the following services that are indicated through the assessment: residential care; transportation; behavioral health services; recreational activities; clothing, supplies, and miscellaneous expenses associated with caring for these children; necessary arrangements for or provision of educational services; and necessary and appropriate health and dental care.*

(f) *The children who are served in this program must be satisfied with the services and living environment.*

(g) *The caregivers must be satisfied with the program.*

(4) *Notwithstanding the provisions of s. 409.141, the Department of Children and Family Services shall fairly and reasonably reimburse the programs established under ss. 409.1676 and 409.1677 based on a prospective per-diem rate, which must be specified annually in the General Appropriations Act. Funding for these programs shall be made available from resources appropriated and identified in the General Appropriations Act.*

Section 8. Present paragraph (j) of subsection (5) of section 409.175, Florida Statutes, is redesignated as paragraph (k), paragraphs (h) and (i) of that subsection are amended, and a new paragraph (j) is added to that subsection, to read:

409.175 Licensure of family foster homes, residential child-caring agencies, and child-placing agencies.—

(5)

(h) Upon determination that the applicant meets the state minimum licensing requirements, the department shall issue a license without charge to a specific person or agency at a specific location. A license may be issued if all the screening materials have been timely submitted; however, a license may not be issued or renewed if any person at the home or agency has failed the required screening. The license is non-transferable. A copy of the license shall be displayed in a conspicuous place. *Except as provided in paragraph (j), the license is valid for 1 year from the date of issuance, unless the license is suspended or revoked by the department or is voluntarily surrendered by the licensee. The license is the property of the department.*

(i) A license issued for the operation of a family foster home or agency, unless sooner suspended, revoked, or voluntarily returned, will expire automatically 1 year from the date of issuance *except as provided in paragraph (j)*. Ninety days prior to the expiration date, an application for renewal shall be submitted to the department by a licensee who wishes to have the license renewed. A license shall be renewed upon the filing of an application on forms furnished by the department if the applicant has first met the requirements established under this section and the rules promulgated hereunder.

(j) *The department may issue a license that is valid for longer than 1 year but no longer than 3 years to a family foster home that:*

1. *Has maintained a license with the department as a family foster home for at least the 3 previous consecutive years;*
2. *Remains in good standing with the department; and*
3. *Has not been the subject of a report of child abuse or neglect with any findings of maltreatment.*

A family foster home that has been issued a license valid for longer than 1 year must be monitored and visited as frequently as one that has been issued a 1-year license. The department reserves the right to reduce a licensure period to 1 year at any time.

(k)† The department may not license summer day camps or summer 24-hour camps. However, the department shall have access to the personnel records of such facilities to ensure compliance with the screening requirements.

Section 9. Paragraph (a) of subsection (2) of section 409.176, Florida Statutes, amended to read:

409.176 Registration of residential child-caring agencies and family foster homes.—

(1)(a) A residential child-caring agency or family foster home may not receive a child for continuing full-time care or custody, and a residential child-caring agency may not place a child for full-time continuing care or custody in a family foster home, unless it has first registered with an association that is certified by a Florida statewide child care organization which was in existence on January 1, 1984, and which publishes, and requires compliance with, its standards and files copies thereof with the department as provided in paragraph (5)(b). For purposes of this section, such an association shall be referred to as the "qualified association."

(b) For the purposes of this section, the terms "child," "family foster home," "screening," and "residential child-caring agency" are defined as provided in s. 409.175(2), and the terms "personnel," "operator," and "owner" as they pertain to "residential child-caring agency" are defined as provided in s. 409.175.

(c) As used in this section, the term "facility" means a residential child-caring agency or a family foster home.

(2)(a) Registration shall consist of annually filing with the qualified association, on forms provided by the qualified association, the name and address of the facility; the capacity of, and the number of children being cared for in, the facility; the names and addresses of the officers and the board of directors or other governing body of the organization, if applicable; the name of the officer or person in charge of the facility; and proof that the facility is in compliance with the minimum fire, health, sanitary, and safety standards required by applicable state law or local ordinance, *and the uniform fire safety standards required by*

chapter 633, and in compliance with the requirements for screening of personnel in s. 409.175 and chapter 435. A separate registration form shall be filed for each such facility.

(b) As part of the registration application, each child-caring agency and each family foster home shall annually provide to the qualified association the names and ages of children being cared for in the facility; the names of children who have been received from out of state or who have been sent out of state during the past calendar year; the names of children who have left the facility during the past year, the lengths of their stays, and the nature of the placements; the names of all personnel; and proof that the facility is in compliance with published minimum standards that are filed with the department under the provisions of paragraph (5)(b). The agency shall also attest to the good moral character of the personnel of the facility by providing proof of compliance with the screening requirements of s. 409.175 and chapter 435 and provide the name of any member of the staff having a prior felony conviction.

(c) Upon verification that all requirements for registration have been met, the qualified association shall issue without charge a certificate of registration valid for 1 year.

Section 10. Section 435.045, Florida Statutes, is amended to read:

435.045 Requirements for *placement of dependent children prospective foster or adoptive parents.*—

(1)(a) Unless an election provided for in subsection (2) is made with respect to the state, the department *is authorized to shall* conduct criminal records checks equivalent to the level 2 screening required in s. 435.04(1) for any *person being considered by the department for placement of a child subject to a placement decision pursuant to ch. 39, Florida Statutes. prospective foster or adoptive parent before the foster or adoptive parent may be finally approved for placement of a child on whose behalf foster care maintenance payments or adoption assistance payments under s. 471 of the Social Security Act, 42 U.S.C. s. 671, are to be made.* Approval shall not be granted:

1. In any case in which a record check reveals a felony conviction for child abuse, abandonment, or neglect; for spousal abuse; for a crime against children, including child pornography, or for a crime involving violence, including rape, sexual assault, or homicide but not including other physical assault or battery, if the department finds that a court of competent jurisdiction has determined that the felony was committed at any time; and

2. In any case in which a record check reveals a felony conviction for physical assault, battery, or a drug-related offense, if the department finds that a court of competent jurisdiction has determined that the felony was committed within the past 5 years.

(b) Notwithstanding paragraph (a), the department may place a child in a foster home which otherwise meets licensing requirements if state and local criminal records checks do not disqualify the applicant and the department has submitted fingerprint information to the Florida Department of Law Enforcement for forwarding to the Federal Bureau of Investigation and is awaiting the results of the federal criminal records check.

(c) Prospective and approved foster parents must disclose to the department any prior or pending local, state, or federal criminal proceedings in which they are or have been involved.

(2) For purposes of this section, and ss. 39.401(3) and 39.521(1)(d), the department and its authorized agents or contract providers are hereby designated a criminal justice agency for the purposes of accessing criminal justice information, including National Crime Information Center information, to be used for enforcing Florida's laws concerning the crimes of child abuse, abandonment, and neglect. This information shall be used solely for purposes supporting the detection, apprehension, prosecution, pretrial release, posttrial release, or rehabilitation of criminal offenders or persons accused of the crimes of child abuse, abandonment, or neglect and shall not be further disseminated or used for any other purposes.

(3) Subsection (2) shall not apply if the Governor has notified the Secretary of the United States Department of Health and Human Services in writing that the state has elected to make subsection (2) inappli-

able to the state, or if the Legislature, by law, has elected to make subsection (2) inapplicable to the state.

Section 11. Section 784.081, Florida Statutes, is amended to read:

784.081 Assault or battery on specified officials or employees; reclassification of offenses.—Whenever a person is charged with committing an assault or aggravated assault or a battery or aggravated battery upon any elected official or employee of: a school district; a private school; the Florida School for the Deaf and the Blind; a university developmental research school; a state university or any other entity of the state system of public education, as defined in s. 228.041; ~~or~~ an employee or protective investigator of the Department of Children and Family Services; or an employee of a lead community-based provider and its direct service contract providers, when the person committing the offense knows or has reason to know the identity or position or employment of the victim, the offense for which the person is charged shall be reclassified as follows:

(1) In the case of aggravated battery, from a felony of the second degree to a felony of the first degree.

(2) In the case of aggravated assault, from a felony of the third degree to a felony of the second degree.

(3) In the case of battery, from a misdemeanor of the first degree to a felony of the third degree.

(4) In the case of assault, from a misdemeanor of the second degree to a misdemeanor of the first degree.

Senator Horne offered the following amendment which was moved by Senator Diaz de la Portilla and adopted by two-thirds vote:

Amendment 3 (531976)(with title amendment)—On page 7, line 26, insert:

Section 1. (1) *The Legislature intends to ensure that all high schools provide supportive services to students and their parents to determine the*

comprehensive program of study that will best meet the needs and goals of each student. At a minimum, these services must include access to a guidance counselor and assistance in developing an educational and career plan. Each high school shall provide a variety of comprehensive, relevant programs of study which will meet the needs of all students and enable each student to pursue his or her individual educational and career goals.

(2) *Key components of this process are:*

(a) *A variety of programs of study which are based on individual educational and career goals.*

(b) *Parental involvement in the identification of the appropriate program of study.*

(c) *Assurance that all programs of study are designed to provide a seamless transition to an appropriate postsecondary education and employment.*

Section 2. (1) *A career and technical education program within a comprehensive high school program of study must be certified or endorsed by the appropriate industry to ensure that all components of the program are relevant and appropriate to prepare the student for further education and employment in that industry.*

(2) *Effective July 1, 2006, each career and technical program preparing for postsecondary education and employment offered as part of a comprehensive program of study in a high school must be industry-certified or endorsed, except for courses classified as exploratory, orientation, or practical arts. A student enrolled in a course within a career and technical program that is not industry-certified may not be reported for full-time equivalent funding through the Florida Education Finance Program unless the course is classified as exploratory, orientation, or practical arts. The Department of Education shall assure that each program is certified by July 1, 2006, and recertified at least every 5 years. The department shall adopt rules for the certification process, and the rules must establish any necessary procedures for obtaining appropriate business partners and requirements for business and industry involvement in curriculum oversight and equipment procurement.*

(3) *Each full-time equivalent student in an industry-certified or endorsed career and technical program generates 1.15 times the cost factor for students enrolled in the basic program for grades 9-12, as provided by section 236.081, Florida Statutes, and the annual General Appropriations Act.*

(4) *Effective July 1, 2006, each career and technical education program offered by a high school and able to be articulated to a postsecondary level must also have an articulation agreement with one or more appropriate postsecondary education institutions to ensure a seamless transition to a related postsecondary program without a loss of credit for the student. Students enrolled in a program that is not articulated to a postsecondary program may not be reported for full-time equivalent student funding through the Florida Education Finance Program unless the course is classified as exploratory, orientation, or practical arts or terminates at the high school level.*

Section 3. (1) *A comprehensive program of study in career and technical education must be designed to ensure that, upon completion of the program of study and graduation from high school, a student is prepared to continue his or her education at a postsecondary education institution and obtain employment. Therefore, a comprehensive career and technical program of study must require of each student:*

(a) *Completion of academic courses with a designation from the Department of Education of level two or above. All credits earned to meet graduation requirements in mathematics, science, and communication must have that designation.*

(b) *Attainment of at least one occupational completion point in an industry-certified or endorsed career and technical education program or completion of at least two courses in a technology education program.*

(c) *Completion of a one-credit core course addressing workplace-readiness skills. The Department of Education shall define in rule the content of the course and shall assure that the course meets graduation requirements for performing arts or practical arts. The course requirement may be satisfied through infusing course content into existing select career and technical education course.*

(d) Participation in work-based learning experiences, as defined in rule by the Department of Education.

(e) Participation in a capstone activity that includes a project related to a career. This activity is designed to apply and demonstrate the competencies and concepts attained in the student's program of study. The Department of Education may specify in rule characteristics of capstone activities that meet the intent of this paragraph.

(2) The Legislature intends to recognize with an endorsement on the high school diploma a student who:

(a) Completes the requirements for high school graduation as provided in section 232.246, Florida Statutes, and the additional requirements for a comprehensive career and technical program of study provided in subsection (1).

(b) Passes the college entry-level placement test or an equivalent test identified by the department with a score adequate to enroll in a public postsecondary education program without the need for college preparatory or vocational preparatory instruction.

(3) The endorsement indicates that the student is prepared to continue into postsecondary education without the need for remediation and that the student has marketable employment skills. The Department of Education may adopt by rule a standard format for the endorsement.

(4) For each student who receives the endorsement on his or her diploma, the school district shall receive incentive funding, as provided in section 236.081, Florida Statutes, and the annual General Appropriations Act.

(5) A school district that generates funds as a result of industry-certified programs or incentive funding for student achievement of the endorsement must expend the total amount on the comprehensive career and technical program of study. The district may not apply indirect charges to incentive funds earned.

Section 4. The Legislature finds that, to adequately assist students in advanced technical and academic career planning, high school guidance counselors and career specialists require preservice and inservice professional development programs that contain sufficient information on career education.

(1) Each guidance counselor and career specialist in a school with technical education programs certified as provided in section 2 of this act shall complete 12 inservice points in technical education and career development which include:

(a) An emphasis on labor-market trends and projections;

(b) A practicum that focuses on development of a career-awareness program; and

(c) Content related to a career or employment within the counselor's work experience.

(2) The Department of Education shall assist guidance counselors and career specialists in attaining the additional inservice required. The State Board of Education shall revise rules governing the certification and recertification of guidance counselors to allow substitution of personal work-based experiences and temporary-employment opportunities in business and industry for the required classroom instruction. A minimum of 12 hours of inservice in career and technical education will be required for each 5-year period.

(3) To implement the requirements of this act through preservice education, the Legislature encourages colleges of education to provide for the additional courses required without increasing the total number of credit hours needed to complete a program. Instead, the colleges are encouraged to infuse course content required for ethics courses into courses required for introduction, theory, and practicum.

Section 5. Paragraph (b) of subsection (9) of section 228.041, Florida Statutes, is amended to read:

228.041 Definitions.—Specific definitions shall be as follows, and wherever such defined words or terms are used in the Florida School Code, they shall be used as follows:

(9) INSTRUCTIONAL PERSONNEL.—“Instructional personnel” means any staff member whose function includes the provision of direct instructional services to students. Instructional personnel also includes personnel whose functions provide direct support in the learning process of students. Included in the classification of instructional personnel are:

(b) Pupil personnel services.—Pupil personnel services include staff members responsible for: advising students with regard to their abilities and aptitudes, educational and occupational opportunities, and personal and social adjustments; providing placement services; performing educational evaluations; and similar functions. Included in this classification are guidance counselors, social workers, ~~career occupational/~~ placement specialists, and school psychologists.

Section 6. Paragraph (c) of subsection (2) of section 229.601, Florida Statutes, is amended to read:

229.601 Career education program.—

(2) There is hereby established a career education program in the state educational system. The Commissioner of Education and his or her designated staff shall administer this program. In developing and administering the career education program, the purpose of which is to promote positive career opportunities for all students regardless of their race, color, creed, national origin, ancestry, socioeconomic status, or gender, the commissioner shall:

(c) Develop programs for preservice and inservice training for the purpose of infusing career education concepts into the basic curricula of public schools and core curricula of community colleges and state universities and programs for preservice and inservice training for counselors and ~~career occupational and placement~~ specialists to assist in career counseling and placement and followup activities.

Section 7. Paragraph (a) of subsection (5) of section 229.602, Florida Statutes, is amended to read:

229.602 Florida private sector and education partnerships.—

(5) Each school district shall designate one or more persons to coordinate local private sector and education partnership activities. The general activities of these coordinators shall be to enhance private sector and education partnership activities. The specific duties of the district coordinators shall include, but not be limited to, the following:

(a) Maintaining contact with local businesses and industries, local chamber of commerce organizations, regional workforce boards ~~private industry councils with Job Training Partnership Act programs~~, district, ~~career occupational~~ specialists, guidance personnel, economics educators, volunteer coordinators, community education coordinators, appropriate governmental personnel, and any others interested in private sector and education partnerships.

Section 8. Paragraphs (c), (d), and (l) of subsection (1) of section 236.081, Florida Statutes, are amended, present paragraphs (m) through (p) of that subsection are redesignated as paragraphs (n) through (q), respectively, and a new paragraph (m) is added to that subsection, and paragraph (a) of subsection (5) of that section is amended, to read:

236.081 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(c) Determination of programs.—Cost factors based on desired relative cost differences between the following programs shall be established in the annual General Appropriations Act. A *secondary career or technical education program certified as required by section 2 of this act generates funding as provided in paragraph (m). Effective July 1, 2006, a full-time equivalent student in a career or technical education program that is not industry-certified or endorsed shall not generate any state funding unless the student is in a course classified as exploration, orientation, or practical arts and the General Appropriations Act contains a cost factor*

for such courses. The Department of Education shall complete a study by January 2002 to determine if career and technical education programs should have differentiated funding weights. The Commissioner of Education shall specify a matrix of services and intensity levels to be used by districts in the determination of the two weighted cost factors for exceptional students with the highest levels of need. For these students, the funding support level shall fund the exceptional students' education program, with the exception of extended school year services for students with disabilities.

1. Basic programs.—
 - a. Kindergarten and grades 1, 2, and 3.
 - b. Grades 4, 5, 6, 7, and 8.
 - c. Grades 9, 10, 11, and 12.
2. Programs for exceptional students.—
 - a. Support Level IV.
 - b. Support Level V.
3. Secondary career and technical education programs, industry-certified or endorsed.—
4. Career and technical education programs, all other programs.—
 - 5.4. English for Speakers of Other Languages.—
 - (d) Annual allocation calculation.—
 1. The Department of Education ~~shall be authorized and directed to~~ review all district programs and enrollment projections and calculate a maximum total weighted full-time equivalent student enrollment for each district for the K-12 FEFP.
 2. Maximum enrollments calculated by the department shall be derived from enrollment estimates used by the Legislature to calculate the FEFP. If two or more districts enter into an agreement under the provisions of s. 230.23(4)(d), after the final enrollment estimate is agreed upon, the amount of FTE specified in the agreement, not to exceed the estimate for the specific program as identified in paragraph (c), may be transferred from the participating districts to the district providing the program.
 3. As part of its calculation of each district's maximum total weighted full-time equivalent student enrollment, the department shall establish separate enrollment ceilings for each of two program groups. Group 1 shall be composed of grades K-3, grades 4-8, and grades 9-12. Group 2 shall be composed of students in exceptional student education programs, English for Speakers of Other Languages programs, all basic programs other than the programs in group 1, and all vocational programs in grades 6-12 ~~7-12~~.
 - a. The weighted enrollment ceiling for group 2 programs shall be calculated by multiplying the final enrollment conference estimate for each program by the appropriate program weight. The weighted enrollment ceiling for program group 2 shall be the sum of the weighted enrollment ceilings for each program in the program group, plus the increase in weighted full-time equivalent student membership from the prior year for clients of the Department of Children and Family Services and the Department of Juvenile Justice.
 - b. If, for any calculation of the FEFP, the weighted enrollment for program group 2, derived by multiplying actual enrollments by appropriate program weights, exceeds the enrollment ceiling for that group, the following procedure shall be followed to reduce the weighted enrollment for that group to equal the enrollment ceiling:
 - (I) The weighted enrollment ceiling for each program in the program group shall be subtracted from the weighted enrollment for that program derived from actual enrollments.
 - (II) If the difference calculated under sub-sub-subparagraph (I) is greater than zero for any program, a reduction proportion shall be computed for the program by dividing the absolute value of the difference by the total amount by which the weighted enrollment for the program exceeds the weighted enrollment ceiling for the program group.
 - (III) The reduction proportion calculated under sub-sub-subparagraph (II) shall be multiplied by the total amount of the program group's enrollment over the ceiling as calculated under sub-sub-subparagraph (I).
 - (IV) The prorated reduction amount calculated under sub-sub-subparagraph (III) shall be subtracted from the program's weighted enrollment. For any calculation of the FEFP, the enrollment ceiling for group 1 shall be calculated by multiplying the actual enrollment for each program in the program group by its appropriate program weight.
 - c. For program group 2, the weighted enrollment ceiling shall be a number not less than the sum obtained by:
 - (I) Multiplying the sum of reported FTE for all programs in the program group that have a cost factor of 1.0 or more by 1.0, and
 - (II) By adding this number to the sum obtained by multiplying the projected FTE for all programs with a cost factor less than 1.0 by the actual cost factor.

1. The Department of Education ~~shall be authorized and directed to~~ review all district programs and enrollment projections and calculate a maximum total weighted full-time equivalent student enrollment for each district for the K-12 FEFP.

2. Maximum enrollments calculated by the department shall be derived from enrollment estimates used by the Legislature to calculate the FEFP. If two or more districts enter into an agreement under the provisions of s. 230.23(4)(d), after the final enrollment estimate is agreed upon, the amount of FTE specified in the agreement, not to exceed the estimate for the specific program as identified in paragraph (c), may be transferred from the participating districts to the district providing the program.

3. As part of its calculation of each district's maximum total weighted full-time equivalent student enrollment, the department shall establish separate enrollment ceilings for each of two program groups. Group 1 shall be composed of grades K-3, grades 4-8, and grades 9-12. Group 2 shall be composed of students in exceptional student education programs, English for Speakers of Other Languages programs, all basic programs other than the programs in group 1, and all vocational programs in grades 6-12 ~~7-12~~.

a. The weighted enrollment ceiling for group 2 programs shall be calculated by multiplying the final enrollment conference estimate for each program by the appropriate program weight. The weighted enrollment ceiling for program group 2 shall be the sum of the weighted enrollment ceilings for each program in the program group, plus the increase in weighted full-time equivalent student membership from the prior year for clients of the Department of Children and Family Services and the Department of Juvenile Justice.

b. If, for any calculation of the FEFP, the weighted enrollment for program group 2, derived by multiplying actual enrollments by appropriate program weights, exceeds the enrollment ceiling for that group, the following procedure shall be followed to reduce the weighted enrollment for that group to equal the enrollment ceiling:

(I) The weighted enrollment ceiling for each program in the program group shall be subtracted from the weighted enrollment for that program derived from actual enrollments.

(II) If the difference calculated under sub-sub-subparagraph (I) is greater than zero for any program, a reduction proportion shall be computed for the program by dividing the absolute value of the difference by the total amount by which the weighted enrollment for the program exceeds the weighted enrollment ceiling for the program group.

(III) The reduction proportion calculated under sub-sub-subparagraph (II) shall be multiplied by the total amount of the program group's enrollment over the ceiling as calculated under sub-sub-subparagraph (I).

(IV) The prorated reduction amount calculated under sub-sub-subparagraph (III) shall be subtracted from the program's weighted enrollment. For any calculation of the FEFP, the enrollment ceiling for group 1 shall be calculated by multiplying the actual enrollment for each program in the program group by its appropriate program weight.

c. For program group 2, the weighted enrollment ceiling shall be a number not less than the sum obtained by:

(I) Multiplying the sum of reported FTE for all programs in the program group that have a cost factor of 1.0 or more by 1.0, and

(II) By adding this number to the sum obtained by multiplying the projected FTE for all programs with a cost factor less than 1.0 by the actual cost factor.

4. Following completion of the weighted enrollment ceiling calculation as provided in subparagraph 3., a supplemental capping calculation shall be employed for those districts that are over their weighted enrollment ceiling. For each such district, the total reported unweighted FTE enrollment for group 2 programs shall be compared with the total appropriated unweighted FTE enrollment for group 2 programs. If the total reported unweighted FTE for group 2 is greater than the appropriated unweighted FTE, then the excess unweighted FTE up to the unweighted FTE transferred from group 2 to group 1 for each district by the Public School FTE Estimating Conference shall be funded at a weight of 1.0 and added to the funded weighted FTE computed in subparagraph 3. This adjustment shall be calculated beginning with the third calculation of the 1998-1999 FEFP.

(l) Instruction in career education.—~~Effective for the 1985-1986 school year and thereafter,~~ District pupil progression plans shall provide for the substitution of vocational courses for the nonelective courses required for high school graduation pursuant to s. 232.246. *Beginning July 1, 2006, a career and technical course may not be substituted for another required course unless it is part of an industry-certified or endorsed program certified as provided in section 2 of this act.* A student in grades 9 through 12 who enrolls in and satisfactorily completes a job-preparatory course program may substitute credit for a portion of the required four credits in English, three credits in mathematics, *any credits in social studies*, and three credits in science. The credit substituted for English, mathematics, *social studies*, or science earned through the vocational job-preparatory course program shall be on a curriculum equivalency basis as provided for in the State Course Code Directory. The State Board of Education shall authorize by rule vocational course substitutions not to exceed two credits in each of the nonelective academic subject areas of English, mathematics, *social studies*, and science. School districts shall provide for vocational course substitutions not to exceed two credits in each of the nonelective academic subject areas of English, mathematics, *social studies*, and science, upon adoption of vocational student performance standards by the school board pursuant to s. 232.2454. ~~A career and technical course vocational program~~ which has been used as a substitute for a nonelective academic credit in one subject area may not be used as a substitute for any other subject area. The credit in practical arts or exploratory career education required for high school graduation pursuant to s. 232.246(1) shall be funded as a career education course. *Such a course is eligible for funding at 1.15 times the cost factor for students enrolled in the basic program for grades 9-12 only if it is part of a program certified or endorsed as required by section 2 of this act.*

(m) Calculation of full-time equivalent membership for an industry-certified or endorsed technical program.—*Funding for students enrolled in an industry-certified program as provided in section 2 of this act is calculated at 1.15 times the cost factor for students enrolled in the program for grades 9-12 and multiplying that number by the number of full-time equivalent students in an industry-certified or endorsed career and technical program. A student who earns the endorsement authorized by section 3 of this act generates additional incentive funding for the program, as provided in subsection (5). During the transition from the 2001-2002 school year until July 1, 2006, all career and technical education programs not industry-certified or endorsed or articulated to postsecondary institutions will continue to earn weighted funding as determined in the General Appropriations Act.*

(5) CATEGORICAL PROGRAMS.—The Legislature hereby provides for the establishment of selected categorical programs to assist in the development and maintenance of activities giving indirect support to the programs previously funded. These categorical appropriations may be funded as general and transitional categorical programs. It is the intent of the Legislature that no transitional categorical program be funded for more than 4 fiscal years from the date of original authorization. Such programs are as follows:

(b) *The availability of reasonable opportunities to have frequent access to use of information technology and to obtain the education and training necessary to acquire the knowledge and skills required to use information technology productively is critical to becoming competitively qualified for high skill/high wage employment;*

(c) *Families that are living near or below the poverty level are without adequate economic resources to have reasonable opportunities to obtain frequent access to use of information technology or the education and training necessary to acquire the knowledge and skills required to become competitively qualified for high skill/high wage employment;*

(e) *The divide between the members of such at-risk families and those who have adequate economic resources to have reasonable opportunities to obtain frequent use of information technology and the education and training necessary to acquire the knowledge and skills required to become competitively qualified for high skill/high wage employment could be reduced, and the economy of the state could be enhanced, by the design and implementation of programs that provide such opportunities to members of such at-risk families.*

It is the intent of the Legislature to provide the authority and resources reasonably necessary to facilitate design and implementation of such programs.

(2) *Digital Divide Council.—There is created in the State Technology Office a Digital Divide Council. The Council shall be constituted as follows:*

Successive two year terms shall commence and end on the same schedule in subsequent years. Any vacancy in the membership of the Council resulting from resignation, incapacity or death shall be filled within 30 days from the date the vacancy is effective. The appointed members of the Council shall serve without compensation, but such appointees and the other members of the Council shall be entitled to receive per diem and reimbursement for travel expenses as provided in s. 112.061, Florida Statute. Payment of such per diem and reimbursement of such travel expenses may be made from appropriations authorized to be used for such purposes.*

- (i) *Using information technology to enable members of at-risk families who are no longer enrolled in K-12 schools to obtain the education needed to achieve successful completion of general education development test preparation to earn a high school diploma, an applied technology diploma, a vocational certificate, an associate of arts degree, or a baccalaureate degree;*

PRAYER

The following prayer was offered by Monsignor J. Bernard Caverly, St. Raphael's Church, St. Petersburg:

God, our Heavenly Father, we acknowledge your presence in our midst, and we ask you to bless us, especially on this National Day of Prayer.

Bless in a special way Governor Bush and his family. Bless the Senators who strive to serve you, Lord, by their devoted service to the people of Florida.

God of justice, many who search for truth, as well as the followers of Abraham, Moses, and Jesus, proclaim you as the defender of the widow, the orphan, the poor, the stranger, the oppressed, the afflicted, and the captive.

As we exercise stewardship over the State of Florida resources, may the needs of the poor and the weak be our first concern. Help our Governor and Senators to become more and more conscious of the need to alleviate the poverty amongst our less fortunate brothers and sisters.

God of Peace, whose arms are the methods of non-violence, banish from our state the horrors of crime and violence. Let development, diplomacy, and rehabilitation be the new names for peace. And so we pray:

The Lord bless you and keep you,
The Lord make his face to shine upon you,
And be gracious unto you,
The Lord lift up his countenance upon you
And give you peace. Amen.

PLEDGE

Senate Pages Marissa Barber of Port St. Lucie, Shannon Blizzard and Douglas Thornton of Tallahassee and Elizabeth Smokay of Orlando, led the Senate in the pledge of allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Robert Fedor of Madeira Beach, sponsored by Senator Sullivan, as doctor of the day. Dr. Fedor specializes in Family Practice.

(1)(a) Participation in the Senior Management Service Class shall be limited to and compulsory for any member of the Florida Retirement System who holds a position in the Senior Management Service of the State of Florida, established by part III of chapter 110, unless such member elects, within the time specified herein, to participate in the Senior Management Service Optional Annuity Program as established in subsection (6).

(b)1. Except as provided in subparagraph 2., effective January 1, 1990, participation in the Senior Management Service Class shall be compulsory for the president of each community college, the manager of each participating city or county, and all appointed district school superintendents. This service credit may be purchased by the employer on behalf of the member.

Section 7. Subsection (1), paragraph (a) of subsection (2), paragraph (e) of subsection (4), paragraph (b) of subsection (8), and paragraphs (a) and (b) of subsection (9) of section 121.4501, Florida Statutes, are amended, and paragraph (f) is added to subsection (9) of that section, to read:

121.4501 Public Employee Optional Retirement Program.—

(1) The Trustees of the State Board of Administration shall establish an optional defined contribution retirement program for members of the Florida Retirement System under which retirement benefits will be provided for eligible employees who elect to participate in the program. The benefits to be provided for or on behalf of participants in such optional retirement program shall be provided through employee-directed investments, in accordance with s. 401(a) of the Internal Revenue Code and its related regulations. The employers shall contribute, as provided in this section and s. 121.571, to the *Public Employee Optional Retirement Program Trust Fund* toward the funding of such optional benefits.

(2) DEFINITIONS.—As used in this section, the term:

(a) “Approved provider” or “provider” means a private sector company that is selected and approved by the state board to offer one or more investment products or services to the Public Employee Optional Retirement Program. *The term includes a bundled provider that offers participants a range of individually allocated or unallocated investment products and may offer a range of administrative and customer services, which may include accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions; guidance, advice, and allocation services directly relating to its own investment options or products, but only if the bundled provider complies with the standard of care of s. 404(a)(1)(A-B) of the Employee Retirement Income Security Act of 1974 (ERISA) and if providing such guidance, advice, or allocation services does not constitute a prohibited transaction under s. 4975(c)(1) of the Internal Revenue Code or s. 406 of ERISA, notwithstanding that such prohibited transaction provisions do not apply to the optional retirement program; a broad array of distribution options; asset allocation; and retirement counseling and education.* Private sector companies include investment management companies, insurance companies, depositories, and mutual fund companies.

(4) PARTICIPATION; ENROLLMENT.—

(e) After the period during which an eligible employee had the choice to elect the defined benefit program or the Public Employee Optional Retirement Program, the employee shall have one opportunity, at the employee's discretion, to choose to move from the defined benefit program to the Public Employee Optional Retirement Program or from the Public Employee Optional Retirement Program to the defined benefit program. This paragraph shall be contingent upon approval from the Internal Revenue Service for including the choice described herein within the programs offered by the Florida Retirement System.

1. If the employee chooses to move to the Public Employee Optional Retirement Program, the applicable provisions of this section shall govern the transfer.

2. If the employee chooses to move to the defined benefit program, the employee must transfer from his or her Public Employee Optional

Retirement Program account and from other employee moneys as necessary, a sum representing the present value of that employee's accumulated benefit obligation immediately following the time of such movement, determined assuming that attained service equals the sum of service in the defined benefit program and service in the Public Employee Optional Retirement Program ~~all contributions that would have been made to the defined benefit plan for that employee and the actual return that would have been earned on those contributions had they been invested in the defined benefit program.~~ Benefit commencement occurs on the first date the employee would become eligible for unreduced benefits, using the discount rate and other relevant actuarial assumptions that were used to value the Florida Retirement System defined benefit plan liabilities in the most recent actuarial valuation. For any employee who, at the time of the second election, already maintains an accrued benefit amount in the defined benefit plan, the then-present value of such accrued benefit shall be deemed part of the required transfer amount described in this subparagraph. The division shall ensure that the transfer sum is prepared using a formula and methodology certified by an enrolled actuary.

3. Notwithstanding subparagraph 2., an employee who chooses to move to the defined benefit program and who became eligible to participate in the Public Employee Optional Retirement Program by reason of employment in a regularly established position with a state employer after June 1, 2002; a district school board employer after September 1, 2002; or a local employer after December 1, 2002, must transfer from his or her Public Employee Optional Retirement Program account and, from other employee moneys as necessary, a sum representing that employee's actuarial accrued liability.

4. Employees' ability to transfer from the Florida Retirement System defined benefit program to the Public Employee Optional Retirement Program pursuant to paragraphs (a) through (d), and the ability for current employees to have an option to later transfer back into the defined benefit program under subparagraph 2., shall be deemed a significant system amendment. Pursuant to s. 121.031(4), any such resulting unfunded liability arising from actual original transfers from the defined benefit program to the optional program shall be amortized within 30 plan years as a separate unfunded actuarial base independent of the reserve stabilization mechanism defined in s. 121.031(3)(f). For the first 25 years, no direct amortization payment shall be calculated for this base. During this 25-year period, such separate base shall be used to offset the impact of employees exercising their second program election under this paragraph. It is the legislative intent that the actuarial funded status of the Florida Retirement System defined benefit plan is neither beneficially nor adversely impacted by such second program elections in any significant manner, after due recognition of the separate unfunded actuarial base. Following this initial 25-year period, any remaining balance of the original separate base shall be amortized over the remaining 5 years of the required 30-year amortization period.

(8) ADMINISTRATION OF PROGRAM.—

(b)1. The state board shall select and contract with one third-party administrator to provide administrative services if those services cannot be competitively and contractually provided by the Division of Retirement within the Department of Management Services. With the approval of the state board, the third-party administrator may subcontract with other organizations or individuals to provide components of the administrative services. As a cost of administration, the board may compensate any such contractor for its services, in accordance with the terms of the contract, as is deemed necessary or proper by the board. The third-party administrator may not be an approved provider or be affiliated with an approved provider.

2. These administrative services may include, but are not limited to, enrollment of eligible employees, collection of employer contributions, disbursement of such contributions to approved providers in accordance with the allocation directions of participants; services relating to consolidated billing; individual and collective recordkeeping and accounting; asset purchase, control, and safekeeping; and direct disbursement of funds to and from the third-party administrator, the division, the board, employers, participants, approved providers, and beneficiaries. This section does not prevent or prohibit a bundled provider from providing any administrative or customer service, including accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to

participant account information; or periodic reporting to participants, at least quarterly, on account balances and transactions, if these services are authorized by the board as part of the contract.

3. The state board shall select and contract with one or more organizations to provide educational services. With approval of the board, the organizations may subcontract with other organizations or individuals to provide components of the educational services. As a cost of administration, the board may compensate any such contractor for its services in accordance with the terms of the contract, as is deemed necessary or proper by the board. The education organization may not be an approved provider or be affiliated with an approved provider.

4. Educational services shall be designed by the board and department to assist employers, eligible employees, participants, and beneficiaries in order to maintain compliance with United States Department of Labor regulations under s. 404(c) of the Employee Retirement Income Security Act of 1974 and to assist employees in their choice of defined benefit or defined contribution retirement alternatives. Educational services include, but are not limited to, disseminating educational materials; providing retirement planning education; explaining the differences between the defined benefit retirement plan and the defined contribution retirement plan; and offering financial planning guidance on matters such as investment diversification, investment risks, investment costs, and asset allocation. An approved provider may also provide educational information, including retirement planning and investment allocation information concerning its products and services.

(9) INVESTMENT OPTIONS OR PRODUCTS; PERFORMANCE REVIEW.—

(a) The board shall develop policy and procedures for selecting, evaluating, and monitoring the performance of approved providers and investment products to which employees may direct retirement contributions under the program. In accordance with such policy and procedures, the board shall designate and contract for a number of investment products as determined by the board. The board shall also select one or more bundled providers each of whom may offer multiple ~~who offer multiple~~ investment options and related services ~~products~~ when such an approach is determined by the board to afford value to the participants otherwise not available through individual investment products. Each approved bundled provider may offer investment options that provide participants with the opportunity to invest in each of the following asset classes, to be composed of individual options that represent either a single asset class or a combination thereof: money markets, United States fixed income, United States equities, and foreign stock. The board shall review and manage all educational materials, contract terms, fee schedules, and other aspects of the approved provider relationships to ensure that no provider is unduly favored or penalized by virtue of its status within the plan.

(b) The board shall consider investment options or products it considers appropriate to give participants the opportunity to accumulate retirement benefits, subject to the following:

1. The Public Employee Optional Retirement Program must offer a diversified mix of low-cost investment products that span the risk-return spectrum and may include a guaranteed account as well as investment products, such as individually allocated guaranteed and variable annuities, which meet the requirements of this subsection and combine the ability to accumulate investment returns with the option of receiving lifetime income consistent with the long-term retirement security of a pension plan and similar to the lifetime-income benefit provided by the Florida Retirement System.

2. Investment options or products offered by the group of approved providers may include mutual funds, group annuity contracts, individual retirement annuities, interests in trusts, collective trusts, separate accounts, and other such financial instruments, and may include products that give participants the option of committing their contributions for an extended time period in an effort to obtain returns higher than those that could be obtained from investment products offering full liquidity.

3. The board shall not contract with any provider that imposes a front-end, back-end, contingent, or deferred sales charge, or any other fee that limits or restricts the ability of participants to select any investment product available in the optional program. This prohibition does

not apply to fees or charges that are imposed on withdrawals from products that give participants the option of committing their contributions for an extended time period in an effort to obtain returns higher than those that could be obtained from investment products offering full liquidity, provided that the product in question, net of all fees and charges, produces material benefits relative to other comparable products in the program offering full liquidity.

4. Fees or charges for insurance features, such as mortality and expense-risk charges, must be reasonable relative to the benefits provided.

(f)1. An approved provider shall comply with all federal and state securities and insurance laws and regulations applicable to the provider, as well as the applicable rules and guidelines of the National Association of Securities Dealers which govern the ethical marketing of investment products. In furtherance of this mandate, an approved provider must agree in its contract with the board to establish and maintain a compliance education and monitoring system to supervise the activities of all personnel who directly communicate with individual participants and recommend investment products, which system is consistent with rules of the National Association of Securities Dealers.

2. Approved provider personnel who directly communicate with individual participants and who recommend investment products shall make an independent and unbiased determination as to whether an investment product is suitable for a particular participant.

3. The board shall develop procedures to receive and resolve participant complaints against a provider or approved provider personnel, and, when appropriate, refer such complaints to the appropriate agency.

4. Approved providers may not sell or in any way distribute any customer list or participant identification information generated through their offering of products or services through the optional retirement program.

Section 8. Subsection (9) is added to section 121.0515, Florida Statutes, to read:

121.0515 Special risk membership.—

(9) CREDIT FOR UPGRADED SERVICE.—Any member of the Special Risk Class who has earned creditable service in another membership class of the Florida Retirement System as an emergency medical technician or paramedic, which service is within the purview of the Special Risk Class, may purchase additional retirement credit to upgrade such service to Special Risk Class service, to the extent of the percentages of the member's average final compensation provided in s. 121.091(1)(a)2. Contributions for upgrading such service to Special Risk Class credit under this subsection shall be equal to the difference in the contributions paid and the Special Risk Class contribution rate as a percentage of gross salary in effect for the period being claimed, plus interest thereon at the rate of 6.5 percent a year, compounded annually until the date of payment. This service credit may be purchased by the employer on behalf of the member.

Section 9. It is the intent of the Legislature that any additional cost attributable to the upgrade in the retirement benefits for emergency medical technicians and paramedics above the contributions paid in accordance with section 4 of this act shall be funded by recognition of the necessary amount from the excess actuarial assets of the Florida Retirement System Trust Fund.

Section 10. Paragraph (e) of subsection (3) of section 121.052, Florida Statutes, is amended to read:

121.052 Membership class of elected officers.—

(3) PARTICIPATION AND WITHDRAWAL, GENERALLY.—Effective July 1, 1990, participation in the Elected Officers' Class shall be compulsory for elected officers listed in paragraphs (2)(a)-(d) and (f) assuming office on or after said date, unless the elected officer elects membership in another class or withdraws from the Florida Retirement System as provided in paragraphs (3)(a)-(d):

(e) Effective July 1, 2001 ~~1997~~, the governing body of a municipality or special district may, by majority vote, elect to designate all its elected positions for inclusion in the Elected Officers' Class. Such election shall be made between July 1, 2001 ~~1997~~, and December 31, 2001 ~~1997~~, and shall be irrevocable. The designation of such positions shall be effective

the first day of the month following receipt by the department of the ordinance or resolution passed by the governing body.

The Board of Governors of The Florida Bar shall submit to the Governor three recommended nominees for each position. The Governor shall select the appointee from the list of nominees recommended for that position, but the Governor may reject all of the nominees recommended for a position and request that the Board of Governors submit a new list of three different recommended nominees for that position who have not been previously recommended by the Board of Governors.*

The Governor shall also consider the adequacy of representation of each county within the judicial circuit.*

(5) *A member of a judicial nominating commission may be suspended for cause by the Governor pursuant to uniform rules of procedure established by the Executive Office of the Governor consistent with s. 7 of Art. IV of the State Constitution.*

(6) *A quorum of the judicial nominating commission is necessary to take any action or transact any business. For purposes of this section, a quorum consists of a majority of commission members currently appointed.*

(7) *The Executive Office of the Governor shall provide all administrative support for each judicial nominating commission. The Executive Office of the Governor shall adopt rules necessary to administer this section.*

unconstitutional, illegal, invalid, ineffective, inapplicable, or void portion or portions of this law did not induce its passage, and that without the inclusion of any such unconstitutional, illegal, invalid, ineffective, or void portions of this law, the Legislature would have enacted the valid and constitutional portions thereof.

(2) *It is hereby declared to be the specific legislative intent to impose the public health tobacco equity surcharge on each and every pack of cigarettes sold in the State of Florida after October 1, 2001. It is further declared to be the specific legislative intent that should any credit or attempted credit from the public health tobacco equity surcharge or from the operation or imposition of the public health tobacco equity surcharge be declared to be invalid, ineffective, inapplicable, unconstitutional, or void for any reason, such declaration shall not affect the public health tobacco equity surcharge imposed herein, but such sales of cigarettes for which a credit is given or a credit is attempted to be given from the public health tobacco equity surcharge, shall be subject to the public health tobacco equity surcharge and the operation and imposition thereof to the same extent as if such credit or attempted credit had never been included herein.*

(5) *It being further declared to be the specific legislative intent that in the event any credit or attempted credit from the public health tobacco equity surcharge imposed by this law is for any reason declared to be unconstitutional, ineffective, inapplicable, or void, that then and in such event each and every such sale of cigarettes shall be subject to the public health tobacco equity surcharge imposed by this law as fully and to the same extent as if such credit or attempted credit had never been included herein, it being declared to be the specific legislative intent that no unconstitutional, invalid, ineffective, inapplicable, or void credit or attempted credit induced the passage of this law, it being further declared to be the specific legislative intent that without the inclusion herein of any such unconstitutional, invalid, ineffective, inapplicable, or void credit or attempted credit, the valid portions of this law would have been enacted.*

(6) *It is the legislative intent that the repeal of any provision heretofore providing a credit in whole or part of any item or transaction from the public health tobacco equity surcharge imposed by this law shall result in the full imposition of the public health tobacco equity surcharge to any such item or transaction.*

For the purpose of enforcing s. 316.1001, governmental entities, as defined in s. 334.03, which own or operate a toll facility may employ independent contractors or designate employees as toll enforcement officers; however, any such toll enforcement officer must successfully meet the training and qualifications standards for toll enforcement officers established by the Department of Transportation.

(2) COUNTIES.—

(a) The sheriff's office of each of the several counties of this state shall enforce all of the traffic laws of this state on all the streets and highways thereof and elsewhere throughout the county wherever the public has the right to travel by motor vehicle. In addition, the sheriff's office may be required by the county to enforce the traffic laws of this state on any private or limited access road or roads over which the county has jurisdiction pursuant to a written agreement entered into under s. 316.006(3)(b).

(b) The sheriff's office of each county may employ as a traffic crash investigation officer any individual who successfully completes ~~at least 200 hours of~~ instruction in traffic crash investigation and court presentation through the Selective Traffic Enforcement Program (STEP) as approved by the Criminal Justice Standards and Training Commission and funded through the National Highway Traffic Safety Administration (NHTSA) or a similar program approved by the commission, but who does not necessarily otherwise meet the uniform minimum standards established by the commission for law enforcement officers or auxiliary law enforcement officers under chapter 943. Any such traffic crash investigation officer who makes an investigation at the scene of a traffic crash may issue traffic citations when, based upon personal investigation, he or she has reasonable and probable grounds to believe that a person who was involved has committed an offense under this chapter in connection with the crash. This paragraph does not permit the carrying of firearms or other weapons, nor do such officers have arrest authority other than for the issuance of a traffic citation as authorized in this paragraph.

(c) The sheriff's office of each of the several counties of this state may employ as a parking enforcement specialist any individual who successfully completes a training program established and approved by the Criminal Justice Standards and Training Commission for parking enforcement specialists, but who does not necessarily otherwise meet the uniform minimum standards established by the commission for law enforcement officers or auxiliary or part-time officers under s. 943.12.

1. A parking enforcement specialist employed by the sheriff's office of each of the several counties of this state is authorized to enforce all state and county laws, ordinances, regulations, and official signs governing parking within the unincorporated areas of the county by appropriate state or county citation and may issue such citations for parking in violation of signs erected pursuant to s. 316.006(3) at parking areas

located on property owned or leased by a county, whether or not such areas are within the boundaries of a chartered municipality.

2. A parking enforcement specialist employed pursuant to this subsection shall not carry firearms or other weapons or have arrest authority.

(3) MUNICIPALITIES.—

(a) The police department of each chartered municipality shall enforce the traffic laws of this state on all the streets and highways thereof and elsewhere throughout the municipality wherever the public has the right to travel by motor vehicle. In addition, the police department may be required by a municipality to enforce the traffic laws of this state on any private or limited access road or roads over which the municipality has jurisdiction pursuant to a written agreement entered into under s. 316.006(2)(b). However, nothing in this chapter shall affect any law, general, special, or otherwise, in effect on January 1, 1972, relating to "hot pursuit" without the boundaries of the municipality.

(b) The police department of a chartered municipality may employ as a traffic crash investigation officer any individual who successfully completes ~~at least 200 hours of~~ instruction in traffic crash investigation and court presentation through the Selective Traffic Enforcement Program (STEP) as approved by the Criminal Justice Standards and Training Commission and funded through the National Highway Traffic Safety Administration (NHTSA) or a similar program approved by the commission, but who does not otherwise meet the uniform minimum standards established by the commission for law enforcement officers or auxiliary law enforcement officers under chapter 943. Any such traffic crash investigation officer who makes an investigation at the scene of a traffic crash is authorized to issue traffic citations when, based upon personal investigation, he or she has reasonable and probable grounds to believe that a person involved has committed an offense under the provisions of this chapter in connection with the crash. Nothing in this paragraph shall be construed to permit the carrying of firearms or other weapons, nor shall such officers have arrest authority other than for the issuance of a traffic citation as authorized above.

(c)1. A chartered municipality or its authorized agency or instrumentality may employ as a parking enforcement specialist any individual who successfully completes a training program established and approved by the Criminal Justice Standards and Training Commission for parking enforcement specialists, but who does not otherwise meet the uniform minimum standards established by the commission for law enforcement officers or auxiliary or part-time officers under s. 943.12.

2. A parking enforcement specialist employed by a chartered municipality or its authorized agency or instrumentality is authorized to enforce all state, county, and municipal laws and ordinances governing parking within the boundaries of the municipality employing the specialist, by appropriate state, county, or municipal traffic citation. Nothing in this paragraph shall be construed to permit the carrying of firearms or other weapons, nor shall such a parking enforcement specialist have arrest authority.

(4)(a) Any sheriff's department, or any police department of a municipality, may employ as a traffic control officer any individual who successfully completes at least 8 hours of instruction in traffic control procedures through a program approved by the Division of Criminal Justice Standards and Training of the Department of Law Enforcement, or through a similar program offered by the local sheriff's department or police department, but who does not necessarily otherwise meet the uniform minimum standards established by the Criminal Justice Standards and Training Commission for law enforcement officers or auxiliary law enforcement officers under s. 943.13. A traffic control officer employed pursuant to this subsection may direct traffic or operate a traffic control device only at a fixed location and only upon the direction of a fully qualified law enforcement officer; however, it is not necessary that the traffic control officer's duties be performed under the immediate supervision of a fully qualified law enforcement officer.

(b) In the case of a special event or activity in relation to which a nongovernmental entity is paying for traffic control on public streets, highways, or roads, traffic control officers may be employed to perform such traffic control responsibilities only when off-duty, full-time law enforcement officers, as defined in s. 943.10(1), are unavailable to perform those responsibilities. However, this paragraph may not be con-

strued to limit the use of traffic infraction enforcement officers for traffic enforcement purposes.

(c) This subsection does not permit the carrying of firearms or other weapons, nor do traffic control officers have arrest authority.

(5)(a) Any sheriff's department or police department of a municipality may employ, as a traffic infraction enforcement officer, any individual who successfully completes at least 200 hours of instruction in traffic enforcement procedures and court presentation through the Selective Traffic Enforcement Program as approved by the Division of Criminal Justice Standards and Training of the Department of Law Enforcement, or through a similar program, but who does not necessarily otherwise meet the uniform minimum standards established by the Criminal Justice Standards and Training Commission for law enforcement officers or auxiliary law enforcement officers under s. 943.13. Any such traffic infraction enforcement officer who observes the commission of a traffic infraction or, in the case of a parking infraction, who observes an illegally parked vehicle may issue a traffic citation for the infraction when, based upon personal investigation, he or she has reasonable and probable grounds to believe that an offense has been committed which constitutes a noncriminal traffic infraction as defined in s. 318.14.

(b) The traffic enforcement officer shall be employed in relationship to a selective traffic enforcement program at a fixed location or as part of a crash investigation team at the scene of a vehicle crash or in other types of traffic infraction enforcement under the direction of a fully qualified law enforcement officer; however, it is not necessary that the traffic infraction enforcement officer's duties be performed under the immediate supervision of a fully qualified law enforcement officer.

(c) This subsection does not permit the carrying of firearms or other weapons, nor do traffic infraction enforcement officers have arrest authority other than the authority to issue a traffic citation as provided in this subsection.

(6) MOBILE HOME PARK RECREATION DISTRICTS.—Notwithstanding subsection (2) or subsection (3), the sheriff's office of each of the several counties of this state and the police department of each chartered municipality have authority, but are not required, to enforce the traffic laws of this state on any way or place used for vehicular traffic on a controlled access basis within a mobile home park recreation district which has been created under s. 418.30 and the recreational facilities of which district are open to the general public.

(7) CONSTRUCTION OF CHAPTER 87-88, LAWS OF FLORIDA.—For purposes of traffic control and enforcement, nothing in chapter 87-88, Laws of Florida, shall be construed to classify any road which has been dedicated or impliedly dedicated for public use, and which has been constructed and is open to the use of the public for vehicular traffic, as a private road or driveway.

(8) TRAFFIC ENFORCEMENT AGENCY.—Any agency or governmental entity designated in subsection (1), subsection (2), or subsection (3), including a university, a community college, a school board, or an airport authority, is a traffic enforcement agency for purposes of s. 316.650.

Senator Constantine moved the following amendment:

Amendment 1 (085144)(with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Subsection (1) of section 163.3174, Florida Statutes, is amended to read:

163.3174 Local planning agency.—

(1) The governing body of each local government, individually or in combination as provided in s. 163.3171, shall designate and by ordinance establish a “local planning agency,” unless the agency is otherwise established by law. *All local planning agencies or equivalent agencies that first review rezoning and comprehensive plan amendments in each municipality and county shall include a representative of the school district appointed by the school board as a nonvoting member of the local planning agency or equivalent agency to attend those meetings at which the agency considers comprehensive plan amendments and rezonings that would, if approved, increase residential density on the property that is the subject of the application, provided that nothing contained in this subsection shall prevent a local agency from granting voting status to the school board member.* The governing body may designate itself as the local planning agency pursuant to this subsection *with the addition of a nonvoting school board representative.* The governing body shall notify the state land planning agency of the establishment of its local planning agency. All local planning agencies shall provide opportunities for involvement by ~~district school boards and~~ applicable community college boards, which may be accomplished by formal representation, membership on technical advisory committees, or other appropriate means. The local planning agency shall prepare the comprehensive plan or plan amendment after hearings to be held after public notice and shall make recommendations to the governing body regarding the adoption or amendment of the plan. The agency may be a local planning commission, the planning department of the local government, or other instrumentality, including a countywide planning entity established by special act or a council of local government officials created pursuant to s. 163.02, provided the composition of the council is fairly representative of all the governing bodies in the county or planning area; however:

(a) If a joint planning entity is in existence on the effective date of this act which authorizes the governing bodies to adopt and enforce a land use plan effective throughout the joint planning area, that entity shall be the agency for those local governments until such time as the authority of the joint planning entity is modified by law.

(b) In the case of chartered counties, the planning responsibility between the county and the several municipalities therein shall be as stipulated in the charter.

Section 2. Paragraph (a) of subsection (4), paragraphs (a), (c), and (h) of subsection (6), and subsection (11) of section 163.3177, Florida Statutes, are amended to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(4)(a) Coordination of the local comprehensive plan with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region; *with the appropriate water management district's regional*

water supply plans adopted pursuant to s. 373.0361, or successor plans required by legislative directive; with adopted rules pertaining to designated areas of critical state concern; and with the state comprehensive plan shall be a major objective of the local comprehensive planning process. To that end, in the preparation of a comprehensive plan or element thereof, and in the comprehensive plan or element as adopted, the governing body shall include a specific policy statement indicating the relationship of the proposed development of the area to the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region and to the state comprehensive plan, as the case may require and as such adopted plans or plans in preparation may exist.

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements:

(a) A future land use plan element designating proposed future general distribution, location, and extent of the uses of land for residential uses, commercial uses, industry, agriculture, recreation, conservation, education, public buildings and grounds, other public facilities, and other categories of the public and private uses of land. The future land use plan shall include standards to be followed in the control and distribution of population densities and building and structure intensities. The proposed distribution, location, and extent of the various categories of land use shall be shown on a land use map or map series which shall be supplemented by goals, policies, and measurable objectives. Each land use category shall be defined in terms of the types of uses included and specific standards for the density or intensity of use. The future land use plan shall be based upon surveys, studies, and data regarding the area, including the amount of land required to accommodate anticipated growth; the projected population of the area; the character of undeveloped land; the availability of ground water and surface water resources for present and future water supplies and the potential for development of alternative water supplies; the availability of public services; the need for redevelopment, including the renewal of blighted areas and the elimination of nonconforming uses which are inconsistent with the character of the community; and, in rural communities, the need for job creation, capital investment, and economic development that will strengthen and diversify the community's economy. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this act. In addition, for rural communities, the amount of land designated for future planned industrial use shall be based upon surveys and studies that reflect the need for job creation, capital investment, and the necessity to strengthen and diversify the local economies, and shall not be limited solely by the projected population of the rural community. The future land use plan of a county may also designate areas for possible future municipal incorporation. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. The future land use element must clearly identify the land use categories in which public schools are an allowable use. When delineating the land use categories in which public schools are an allowable use, a local government shall include in the categories sufficient land proximate to residential development to meet the projected needs for schools in coordination with public school boards and may establish differing criteria for schools of different type or size. Each local government shall include lands contiguous to existing school sites, to the maximum extent possible, within the land use categories in which public schools are an allowable use. All comprehensive plans must comply with the school siting requirements of this paragraph no later than October 1, 1999. The failure by a local government to comply with these school siting requirements by October 1, 1999, will result in the prohibition of the local government's ability to amend the local comprehensive plan, except for plan amendments described in s. 163.3187(1)(b), until the school siting requirements are met. ~~Amendments~~ ~~An amendment~~ proposed by a local government for purposes of identifying the land use categories in which public schools are an allowable use or for adopting or amending the school-siting maps pursuant to s. 163.3177(6) are exempt from the limitation on the frequency of plan amendments contained in s. 163.3187. The future land use element shall include criteria that which encourage the location of schools proximate to urban residential areas to the extent possible and shall require that the local government seek to collocate public facilities, such as parks, libraries, and community centers, with schools to the extent possible and to encourage the use of elementary schools as focal points for neighborhoods.

(c) A general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element correlated to princi-

ples and guidelines for future land use, indicating ways to provide for future potable water, drainage, sanitary sewer, solid waste, and aquifer recharge protection requirements for the area. The element may be a detailed engineering plan including a topographic map depicting areas of prime groundwater recharge. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs. The element shall also include a topographic map depicting any areas adopted by a regional water management district as prime groundwater recharge areas for the Floridan or Biscayne aquifers, pursuant to s. 373.0395. These areas shall be given special consideration when the local government is engaged in zoning or considering future land use for said designated areas. For areas served by septic tanks, soil surveys shall be provided which indicate the suitability of soils for septic tanks. *By October 1, 2002, the element shall also include data and analysis, including, but not limited to, the appropriate water management district's regional water supply plan adopted pursuant to s. 373.0361, which evaluates the availability of potable water compared to population growth projected by the local government comprehensive plan.*

(h)1. An intergovernmental coordination element showing relationships and stating principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing services but not having regulatory authority over the use of land, with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region, and with the state comprehensive plan, as the case may require and as such adopted plans or plans in preparation may exist. This element of the local comprehensive plan shall demonstrate consideration of the particular effects of the local plan, when adopted, upon the development of adjacent municipalities, the county, adjacent counties, or the region, or upon the state comprehensive plan, as the case may require.

a. The intergovernmental coordination element shall provide for procedures to identify and implement joint planning areas, especially for the purpose of annexation, municipal incorporation, and joint infrastructure service areas.

b. The intergovernmental coordination element shall provide for recognition of campus master plans prepared pursuant to s. 240.155.

c. The intergovernmental coordination element may provide for a voluntary dispute resolution process as established pursuant to s. 186.509 for bringing to closure in a timely manner intergovernmental disputes. A local government may develop and use an alternative local dispute resolution process for this purpose.

2. The intergovernmental coordination element shall further state principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing facilities and services but not having regulatory authority over the use of land. In addition, the intergovernmental coordination element shall describe joint processes for collaborative planning and decisionmaking on population projections and public school siting, the location and extension of public facilities subject to concurrency, and siting facilities with countywide significance, including locally unwanted land uses whose nature and identity are established in an agreement. Within 1 year of adopting their intergovernmental coordination elements, each county, all the municipalities within that county, the district school board, and any unit of local government service providers in that county shall establish by interlocal or other formal agreement executed by all affected entities, the joint processes described in this subparagraph consistent with their adopted intergovernmental coordination elements.

3. To foster coordination between special districts and local general-purpose governments as local general-purpose governments implement local comprehensive plans, each independent special district must submit a public facilities report to the appropriate local government as required by s. 189.415.

4. The state land planning agency shall establish a schedule for phased completion and transmittal of plan amendments to implement subparagraphs 1., 2., and 3. from all jurisdictions so as to accomplish their adoption by December 31, 1999. A local government may complete and transmit its plan amendments to carry out these provisions prior to the scheduled date established by the state land planning agency. The plan amendments are exempt from the provisions of s. 163.3187(1).

5. *Intergovernmental coordination between local governments and the district school board shall be governed by ss. 163.31776 and 163.31777 for those local governments adopting a public educational facilities element pursuant to s. 163.31776.*

(11)(a) The Legislature recognizes the need for innovative planning and development strategies which will address the anticipated demands of continued urbanization of Florida's coastal and other environmentally sensitive areas, and which will accommodate the development of less populated regions of the state which seek economic development and which have suitable land and water resources to accommodate growth in an environmentally acceptable manner. The Legislature further recognizes the substantial advantages of innovative approaches to development which may better serve to protect environmentally sensitive areas, maintain the economic viability of agricultural and other predominantly rural land uses, and provide for the cost-efficient delivery of public facilities and services.

(b) It is the intent of the Legislature that the local government comprehensive plans and plan amendments adopted pursuant to the provisions of this part provide for a planning process which allows for land use efficiencies within existing urban areas and which also allows for the conversion of rural lands to other uses, where appropriate and consistent with the other provisions of this part and the affected local comprehensive plans, through the application of innovative and flexible planning and development strategies and creative land use planning techniques, which may include, but not be limited to, urban villages, new towns, satellite communities, area-based allocations, clustering and open space provisions, mixed-use development, and sector planning.

(c) It is the further intent of the Legislature that local government comprehensive plans and implementing land development regulations shall provide strategies which maximize the use of existing facilities and services through redevelopment, urban infill development, and other strategies for urban revitalization.

(d)1. *The department, in cooperation with the Department of Agriculture and Consumer Services, shall provide assistance to local governments in the implementation of this paragraph and Rule 9J-5.006(5)(l), Florida Administrative Code. Implementation of those provisions shall include a process by which the department may authorize up to five local governments to designate all or portions of lands classified in the future land use element as predominantly agricultural, rural, open, open-rural, or a substantively equivalent land use, as a rural land stewardship area within which planning and economic incentives are applied to encourage the implementation of innovative and flexible planning and development strategies and creative land use planning techniques, including those contained in Rule 9J-5.006(5)(l), Florida Administrative Code.*

2. *The department shall encourage participation by local governments of different sizes and rural characteristics. It is the intent of the Legislature that rural land stewardship areas be used to further the following broad principles of rural sustainability: restoration and maintenance of the economic value of rural land; control of urban sprawl; identification and protection of ecosystems, habitats, and natural resources; promotion of rural economic activity; maintenance of the viability of Florida's agricultural economy; and protection of the character of rural areas of Florida.*

3. *A local government may apply to the department in writing requesting consideration for authorization to designate a rural land stewardship area and shall describe its reasons for applying for the authorization with supporting documentation regarding its compliance with criteria set forth in this section.*

4. *In selecting a local government, the department shall, by written agreement:*

a. *Ensure that the local government has expressed its intent to designate a rural land stewardship area pursuant to the provisions of this subsection.*

b. *Ensure that the local government has the financial and administrative capabilities to implement a rural land stewardship area.*

5. *The written agreement shall include the basis for the authorization and provide criteria for evaluating the success of the authorization including the extent the rural land stewardship area enhances rural land*

values; control urban sprawl; provides necessary open space for agriculture and protection of the natural environment; promotes rural economic activity; and maintains rural character and the economic viability of agriculture. The department may terminate the agreement at any time if it determines that the local government is not meeting the terms of the agreement.

6. *A rural land stewardship area shall be not less than 50,000 acres and shall not exceed 250,000 acres in size, shall be located outside of municipalities and established urban growth boundaries, and shall be designated by plan amendment. The plan amendment designating a rural land stewardship area shall be subject to review by the Department of Community Affairs pursuant to s. 163.3184 and must provide for the following:*

a. *Criteria for the designation of receiving areas within rural land stewardship areas in which innovative planning and development strategies may be applied. Criteria shall at a minimum provide for the following: adequacy of suitable land to accommodate development so as to avoid conflict with environmentally sensitive areas, resources, and habitats; compatibility between and transition from higher density uses to lower intensity rural uses; the establishment of receiving area service boundaries which provide for a separation between receiving areas and other land uses within the rural land stewardship area through limitations on the extension of services; and connection of receiving areas with the rest of the rural land stewardship area using rural design and rural road corridors.*

b. *Goals, objectives, and policies setting forth the innovative planning and development strategies to be applied within rural land stewardship areas pursuant to the provisions of this section.*

c. *A process for the implementation of innovative planning and development strategies within the rural land stewardship area, including those described in this subsection and Rule 9J-5.006(5)(l), Florida Administrative Code, which provide for a functional mix of land uses and which are applied through the adoption by the local government of zoning and land development regulations applicable to the rural land stewardship area.*

d. *A process which encourages visioning pursuant to s. 163.3167(11) to ensure that innovative planning and development strategies comply with the provisions of this section.*

e. *The control of sprawl through the use of innovative strategies and creative land use techniques consistent with the provisions of this subsection and Rule 9J-5.006(5)(l), Florida Administrative Code.*

7. *A receiving area shall be designated by the adoption of a land development regulation. Prior to the designation of a receiving area, the local government shall provide the Department of Community Affairs a period of 30 days in which to review a proposed receiving area for consistency with the rural land stewardship area plan amendment and to provide comments to the local government.*

8. *Upon the adoption of a plan amendment creating a rural land stewardship area, the local government shall, by ordinance, assign to the area a certain number of credits, to be known as "transferable rural land use credits," which shall not constitute a right to develop land, nor increase density of land, except as provided by this section. The total amount of transferrable rural land use credits assigned to the rural land stewardship area must correspond to the 25-year or greater projected population of the rural land stewardship area. Transferable rural land use credits are subject to the following limitations:*

a. *Transferable rural land use credits may only exist within a rural land stewardship area.*

b. *Transferable rural land use credits may only be used on lands designated as receiving areas and then solely for the purpose of implementing innovative planning and development strategies and creative land use planning techniques adopted by the local government pursuant to this section.*

c. *Transferable rural land use credits assigned to a parcel of land within a rural land stewardship area shall cease to exist if the parcel of land is removed from the rural land stewardship area by plan amendment.*

d. Neither the creation of the rural land stewardship area by plan amendment nor the assignment of transferable rural land use credits by the local government shall operate to displace the underlying density of land uses assigned to a parcel of land within the rural land stewardship area; however, if transferable rural land use credits are transferred from a parcel for use within a designated receiving area, the underlying density assigned to the parcel of land shall cease to exist.

e. The underlying density on each parcel of land located within a rural land stewardship area shall not be increased or decreased by the local government, except as a result of the conveyance or use of transferable rural land use credits, as long as the parcel remains within the rural land stewardship area.

f. Transferable rural land use credits shall cease to exist on a parcel of land where the underlying density assigned to the parcel of land is utilized.

g. An increase in the density of use on a parcel of land located within a designated receiving area may occur only through the assignment or use of transferable rural land use credits and shall not require a plan amendment.

h. A change in the density of land use on parcels located within receiving areas shall be specified in a development order which reflects the total number of transferable rural land use credits assigned to the parcel of land and the infrastructure and support services necessary to provide for a functional mix of land uses corresponding to the plan of development.

i. Land within a rural land stewardship area may be removed from the rural land stewardship area through a plan amendment.

j. Transferable rural land use credits may be assigned at different ratios of credits per acre according to the land use remaining following the transfer of credits, with the highest number of credits per acre assigned to preserve environmentally valuable land and a lesser number of credits to be assigned to open space and agricultural land.

k. The use or conveyance of transferable rural land use credits must be recorded in the public records of the county in which the property is located as a covenant or restrictive easement running with the land in favor of the county and either the Department of Environmental Protection, Department of Agriculture and Consumer Services, a water management district, or a recognized statewide land trust.

9. Owners of land within rural land stewardship areas should be provided incentives to enter into rural land stewardship agreements, pursuant to existing law and rules adopted thereto, with state agencies, water management districts, and local governments to achieve mutually agreed upon conservation objectives. Such incentives may include, but not be limited to, the following:

- a. Opportunity to accumulate transferable mitigation credits.
- b. Extended permit agreements.
- c. Opportunities for recreational leases and ecotourism.

d. Payment for specified land management services on publicly owned land, or property under covenant or restricted easement in favor of a public entity.

e. Option agreements for sale to government, in either fee or easement, upon achievement of conservation objectives.

10. The department shall report to the Legislature on an annual basis on the results of implementation of rural land stewardship areas authorized by the department, including successes and failures in achieving the intent of the Legislature as expressed in this paragraph. It is further the intent of the Legislature that the success of authorized rural land stewardship areas be substantiated before implementation occurs on a statewide basis.

(e)(d) The implementation of this subsection shall be subject to the provisions of this chapter, chapters 186 and 187, and applicable agency rules.

(f)(e) The department may adopt rules necessary to administer ~~shall implement the provisions of this subsection by rule.~~

Section 3. Section 163.31776, Florida Statutes, is created to read:

163.31776 Public educational facilities element.—

(1) The intent of the Legislature is to establish a systematic process for school boards and local governments to:

(a) Share information concerning the growth and development trends in their communities in order to forecast future enrollment and school needs;

(b) Cooperatively plan for the provision of educational facilities to meet the current and projected needs of the public education system population, including the needs placed on the public education system as a result of growth and development decisions by local government; and

(c) Cooperatively identify and meet the infrastructure needs of public schools to assure healthy school environments and safe school access.

(2) The Legislature finds that:

(a) Public schools are a linchpin to the vitality of our communities and play a significant role in thousands of individual housing decisions that result in community growth trends.

(b) Growth and development issues transcend the boundaries and responsibilities of individual units of government, and often no single unit of government can plan or implement policies to deal with these issues without affecting other units of government.

(3) A public educational facilities element shall be adopted in cooperation with the applicable school district by all local governments meeting the criteria identified in paragraph (a). The public educational facilities elements shall be transmitted no later than January 1, 2003, for those local governments initially meeting the criteria in paragraph (a).

(a) A local government must adopt a public educational facilities element if the local government is located in a county where:

1. The number of districtwide capital outlay full-time-equivalent students equals 80 percent or more of the most current year's school capacity and the projected 5-year student growth is 1,000 students or greater; or

2. The projected 5-year student growth rate is 10 percent or greater.

(b)1. The Department of Education shall issue a report notifying the state land planning agency and each county and school district that meets the criteria in paragraph (a) on June 1 of each year. Local governments and school boards will have 18 months following notification within which to comply with the requirements of ss. 163.31776 and 163.31777.

2. By January 1, 2007, remaining local governments that have not been notified by June 1, 2005, that they have met the criteria in paragraph (a) shall adopt, in cooperation with the applicable school district, a limited public educational facilities element. The state land planning agency shall by rule specify the contents of the limited public educational facilities element. The rule specifying the contents of the limited public facilities element must incorporate the future land use element requirements of s. 163.3177(6)(a), including school-siting requirements, requirements for intergovernmental coordination and interlocal agreements with school boards contained in s. 163.3177(6)(h)1.-2., and requirements for evaluation and appraisal reports contained in s. 163.3191(2)(k). The agency rule must ensure effective planning with school boards, but recognize that the needs for school planning differ for those local governments that have lower population and student-population growth rates. The sanctions of subsection (9) apply to local governments that fail to adopt a limited public educational facilities element. Any local government that, after complying with this rule, reaches the criteria in paragraph (a) shall have 18 months within which to comply with subsections (4) and (5). Nothing in this subsection shall supersede the other requirements of this chapter.
