(11) *EFFECTIVE DATES.*—This section does not apply to any case in which the accident causing the subsequent injury or death or the disablement or death from a subsequent occupational disease occurred prior to July 1, 1955, or on or after January 1, 1998. In no event shall the Special Disability Trust Fund be liable for, or reimburse employers or carriers for, any case in which the accident causing the subsequent injury or death or the disablement or death from a subsequent occupational disease occurred on or after January 1, 1998. The Special Disability Trust Fund shall continue to reimburse employers or carriers for subsequent injuries occurring prior to January 1, 1998, and the *department division* shall continue to assess for and the *department division* or administrator shall fund reimbursements as provided in subsection (9) for this purpose.

Section 46. Section 440.491, Florida Statutes, is amended to read:

440.491 Reemployment of injured workers; rehabilitation.—

(1) *DEFINITIONS.*—As used in this section, the term:

(a) “Carrier” means group self-insurance funds or individual self-insureds authorized under this chapter and commercial funds or insurance entities authorized to write workers' compensation insurance under chapter 624.

(b) “Medical care coordination” includes, but is not limited to, coordinating physical rehabilitation services such as medical, psychiatric, or therapeutic treatment for the injured employee, providing health training to the employee and family, and monitoring the employee's recovery. The purposes of medical care coordination are to minimize the disability and recovery period without jeopardizing medical stability, to assure that proper medical treatment and other restorative services are timely provided in a logical sequence, and to contain medical costs.

(c) “Qualified rehabilitation provider” means a rehabilitation nurse, rehabilitation counselor, vocational evaluator, rehabilitation facility, or agency approved by the *Department of Education division* as qualified to provide reemployment assessments, medical care coordination, reemployment services, or vocational evaluations under this chapter.

(d) “Reemployment assessment” means a written assessment performed by a qualified rehabilitation provider which provides a comprehensive review of the medical diagnosis, treatment, and prognosis; includes conferences with the employer, physician, and claimant; and recommends a cost-effective physical and vocational rehabilitation plan to assist the employee in returning to suitable gainful employment.

(e) “Reemployment services” means services that include, but are not limited to, vocational counseling, job-seeking skills training, ergonomic job analysis, transferable skills analysis, selective job placement, labor market surveys, and arranging other services such as education or training, vocational and on-the-job, which may be needed by the employee to secure suitable gainful employment.

(f) “Reemployment status review” means a review to determine whether an injured employee is at risk of not returning to work.

(g) “Suitable gainful employment” means employment or self-employment that is reasonably attainable in light of the employee's age, education, work history, transferable skills, previous occupation, and injury, and which offers an opportunity to restore the individual as soon as practicable and as nearly as possible to his or her average weekly earnings at the time of injury.

(h) “Vocational evaluation” means a review of the employee's physical and intellectual capabilities, his or her aptitudes and achievements, and his or her work-related behaviors to identify the most cost-effective means toward the employee's return to suitable gainful employment.

(2) *INTENT.*—It is the intent of this section to implement a systematic review by carriers of the factors that are predictive of longer-term disability and to encourage the provision of medical care coordination and reemployment services that are necessary to assist the employee in returning to work as soon as is medically feasible.

(3) REEMPLOYMENT STATUS REVIEWS AND REPORTS.—

(a) When an employee who has suffered an injury compensable under this chapter is unemployed 60 days after the date of injury and is receiving benefits for temporary total disability, temporary partial disability, or wage loss, and has not yet been provided medical care coordination and reemployment services voluntarily by the carrier, the carrier must determine whether the employee is likely to return to work and must report its determination to the *Department of Education division*. The carrier must thereafter determine the reemployment status of the employee at 90-day intervals as long as the employee remains unemployed, is not receiving medical care coordination or reemployment services, and is receiving the benefits specified in this subsection.

(b) If medical care coordination or reemployment services are voluntarily undertaken within 60 days of the date of injury, such services may continue to be provided as agreed by the employee and the carrier.

(4) REEMPLOYMENT ASSESSMENTS.—

(a) The carrier may require the employee to receive a reemployment assessment as it considers appropriate. However, the carrier is encouraged to obtain a reemployment assessment if:

1. The carrier determines that the employee is at risk of remaining unemployed.
2. The case involves catastrophic or serious injury.

(b) The carrier shall authorize only a qualified rehabilitation provider to provide the reemployment assessment. The rehabilitation provider shall conduct its assessment and issue a report to the carrier, the employee, and the *Department of Education division* within 30 days after the time such assessment is complete.

(c) If the rehabilitation provider recommends that the employee receive medical care coordination or reemployment services, the carrier shall advise the employee of the recommendation and determine whether the employee wishes to receive such services. The employee shall have 15 days after the date of receipt of the recommendation in which to agree to accept such services. If the employee elects to receive services, the carrier may refer the employee to a rehabilitation provider for such coordination or services within 15 days of receipt of the assessment report or notice of the employee's election, whichever is later.

(5) MEDICAL CARE COORDINATION AND REEMPLOYMENT SERVICES.—

(a) Once the carrier has assigned a case to a qualified rehabilitation provider for medical care coordination or reemployment services, the provider shall develop a reemployment plan and submit the plan to the carrier and the employee for approval.

(b) If the rehabilitation provider concludes that training and education are necessary to return the employee to suitable gainful employment, or if the employee has not returned to suitable gainful employment within 180 days after referral for reemployment services or receives \$2,500 in reemployment services, whichever comes first, the carrier must discontinue reemployment services and refer the employee to the *Department of Education division* for a vocational evaluation. Notwithstanding any provision of chapter 289 or chapter 627, the cost of a reemployment assessment and the first \$2,500 in reemployment services to an injured employee must not be treated as loss adjustment expense for workers' compensation ratemaking purposes.

(c) A carrier may voluntarily provide medical care coordination or reemployment services to the employee at intervals more frequent than those required in this section. For the purpose of monitoring reemployment, the carrier or the rehabilitation provider shall report to the *Department of Education division*, in the manner prescribed by the *Department of Education division*, the date of reemployment and wages of the employee. The carrier shall report its voluntary service activity to the *Department of Education division* as required by rule. Voluntary services offered by the carrier for any of the following injuries must be considered benefits for purposes of ratemaking: traumatic brain injury; spinal cord injury; amputation, including loss of an eye or eyes; burns of 5 percent or greater of the total body surface.

(d) If medical care coordination or reemployment services have not been undertaken as prescribed in paragraph (3)(b), a qualified rehabili-

tation service provider, facility, or agency that performs a reemployment assessment shall not provide medical care coordination or reemployment services for the employees it assesses.

(6) TRAINING AND EDUCATION.—

(a) Upon referral of an injured employee by the carrier, or upon the request of an injured employee, the *Department of Education division* shall conduct a training and education screening to determine whether it should refer the employee for a vocational evaluation and, if appropriate, approve training and education or other vocational services for the employee. The *Department of Education division* may not approve formal training and education programs unless it determines, after consideration of the reemployment assessment, pertinent reemployment status reviews or reports, and such other relevant factors as it prescribes by rule, that the reemployment plan is likely to result in return to suitable gainful employment. The *Department of Education division* is authorized to expend moneys from the Workers' Compensation Administration Trust Fund, established by s. 440.50, to secure appropriate training and education or other vocational services when necessary to satisfy the recommendation of a vocational evaluator. The *Department of Education division* shall establish training and education standards pertaining to employee eligibility, course curricula and duration, and associated costs.

(b) When it appears that an employee who has attained maximum medical improvement requires training and education to obtain suitable gainful employment, the employer shall pay the employee additional temporary total compensation while the employee receives such training and education for a period not to exceed 26 weeks, which period may be extended for an additional 26 weeks or less, if such extended period is determined to be necessary and proper by a judge of compensation claims. However, a carrier or employer is not precluded from voluntarily paying additional temporary total disability compensation beyond that period. If an employee requires temporary residence at or near a facility or an institution providing training and education which is located more than 50 miles away from the employee's customary residence, the reasonable cost of board, lodging, or travel must be borne by the *Department of Insurance division* from the Workers' Compensation Administration Trust Fund established by s. 440.50. An employee who refuses to accept training and education that is recommended by the vocational evaluator and considered necessary by the *Department of Education division* is subject to a 50-percent reduction in weekly compensation benefits, including wage-loss benefits, as determined under s. 440.15(3)(b).

(7) PROVIDER QUALIFICATIONS.—

(a) The *Department of Education division* shall investigate and maintain a directory of each qualified public and private rehabilitation provider, facility, and agency, and shall establish by rule the minimum qualifications, credentials, and requirements that each rehabilitation service provider, facility, and agency must satisfy to be eligible for listing in the directory. These minimum qualifications and credentials must be based on those generally accepted within the service specialty for which the provider, facility, or agency is approved.

(b) The *Department of Education division* shall impose a biennial application fee of \$25 for each listing in the directory, and all such fees must be deposited in the Workers' Compensation Administration Trust Fund.

(c) The *Department of Education division* shall monitor and evaluate each rehabilitation service provider, facility, and agency qualified under this subsection to ensure its compliance with the minimum qualifications and credentials established by the *Department of Education division*. The failure of a qualified rehabilitation service provider, facility, or agency to provide the *Department of Education division* with information requested or access necessary for the *Department of Education division* to satisfy its responsibilities under this subsection is grounds for disqualifying the provider, facility, or agency from further referrals.

(d) A qualified rehabilitation service provider, facility, or agency may not be authorized by an employer, a carrier, or the *Department of Education division* to provide any services, including expert testimony, under this section in this state unless the provider, facility, or agency is listed or has been approved for listing in the directory. This restriction does not apply to services provided outside this state under this section.

(e) The *Department of Education division*, after consultation with representatives of employees, employers, carriers, rehabilitation providers, and qualified training and education providers, shall adopt rules governing professional practices and standards.

(8) CARRIER PRACTICES.—The *department division* shall monitor the selection of providers and the provision of services by carriers under this section for consistency with legislative intent set forth in subsection (2).

(9) PERMANENT DISABILITY.—The judge of compensation claims may not adjudicate an injured employee as permanently and totally disabled until or unless the carrier is given the opportunity to provide a reemployment assessment.

Section 47. Section 440.50, Florida Statutes, is amended to read:

440.50 Workers' Compensation Administration Trust Fund.—

(1)(a) There is established in the State Treasury a special fund to be known as the "Workers' Compensation Administration Trust Fund" for the purpose of providing for the payment of all expenses in respect to the administration of this chapter, including the vocational rehabilitation of injured employees as provided in s. 440.49 and the payments due under s. 440.15(1)(f), the funding of the fixed administrative expenses of the plan, and the funding of the Bureau of Workers' Compensation Fraud within the Department of Insurance. Such fund shall be administered by the *department division*.

(b) The *department division* is authorized to transfer as a loan an amount not in excess of \$250,000 from such special fund to the Special Disability Trust Fund established by s. 440.49(9), which amount shall be repaid to said special fund in annual payments equal to not less than 10 percent of moneys received for such Special Disability Trust Fund.

(2) The Treasurer is authorized to disburse moneys from such fund only when approved by the *department division* and upon the order of the Comptroller.

(3) The Treasurer shall deposit any moneys paid into such fund into such depository banks as the *department division* may designate and is authorized to invest any portion of the fund which, in the opinion of the *department division*, is not needed for current requirements, in the same manner and subject to all the provisions of the law with respect to the deposit of state funds by such Treasurer. All interest earned by such portion of the fund as may be invested by the Treasurer shall be collected by him or her and placed to the credit of such fund.

(4) All civil penalties provided in this chapter, if not voluntarily paid, may be collected by civil suit brought by the *department division* and shall be paid into such fund.

Section 48. Section 440.51, Florida Statutes, is amended to read:

440.51 Expenses of administration.—

(1) The *department division* shall estimate annually in advance the amounts necessary for the administration of this chapter, in the following manner.

(a) The *department division* shall, by July 1 of each year, notify carriers and self-insurers of the assessment rate, which shall be based on the anticipated expenses of the administration of this chapter for the next calendar year. Such assessment rate shall take effect January 1 of the next calendar year and shall be included in workers' compensation rate filings approved by the Department of Insurance which become effective on or after January 1 of the next calendar year. Assessments shall become due and be paid quarterly.

(b) The total expenses of administration shall be prorated among the carriers writing compensation insurance in the state and self-insurers. The net premiums collected by carriers and the amount of premiums calculated by the *department division* for self-insured employers are the basis for computing the amount to be assessed. When reporting deductible policy premium for purposes of computing assessments levied after July 1, 2001, full policy premium value must be reported prior to application of deductible discounts or credits. This amount may be assessed as a specific amount or as a percentage of net premiums payable as the *department division* may direct, provided such amount so assessed shall

not exceed 2.75 percent, beginning January 1, 2001, except during the interim period from July 1, 2000, through December 31, 2000, such assessments shall not exceed 4 percent of such net premiums. The carriers may elect to make the payments required under s. 440.15(1)(f) rather than having these payments made by the *department division*. In that event, such payments will be credited to the carriers, and the amount due by the carrier under this section will be reduced accordingly.

(2) The *department division* shall provide by regulation for the collection of the amounts assessed against each carrier. Such amounts shall be paid within 30 days from the date that notice is served upon such carrier. If such amounts are not paid within such period, there may be assessed for each 30 days the amount so assessed remains unpaid, a civil penalty equal to 10 percent of the amount so unpaid, which shall be collected at the same time and a part of the amount assessed. For those carriers who excluded ceded reinsurance premiums from their assessments prior to January 1, 2000, the *department division* shall not recover any past underpayments of assessments related to ceded reinsurance premiums prior to January 1, 2001, against such carriers.

(3) If any carrier fails to pay the amounts assessed against him or her under the provisions of this section within 60 days from the time such notice is served upon him or her, the Department of Insurance ~~upon being advised by the division~~ may suspend or revoke the authorization to insure compensation in accordance with the procedure in s. 440.38(3)(a). The *department division* may permit a carrier to remit any underpayment of assessments for assessments levied after January 1, 2001.

(4) All amounts collected under the provisions of this section shall be paid into the fund established in s. 440.50.

(5) Any amount so assessed against and paid by an insurance carrier, self-insurer authorized pursuant to s. 624.4621, or commercial self-insurance fund authorized under ss. 624.460-624.488 shall be allowed as a deduction against the amount of any other tax levied by the state upon the premiums, assessments, or deposits for workers' compensation insurance on contracts or policies of said insurance carrier, self-insurer, or commercial self-insurance fund. Any insurance carrier claiming such a deduction against the amount of any such tax shall not be required to pay any additional retaliatory tax levied pursuant to s. 624.5091 as a result of claiming such deduction. Because deductions under this subsection are available to insurance carriers, s. 624.5091 does not limit such deductions in any manner.

(6)(a) The *department division* may require from each carrier, at such time and in accordance with such regulations as the *department division* may prescribe, reports in respect to all gross earned premiums and of all payments of compensation made by such carrier during each prior period, and may determine the amounts paid by each carrier and the amounts paid by all carriers during such period.

(b) The Department of Insurance may require from each self-insurer, at such time and in accordance with such regulations as the Department of Insurance prescribes, reports in respect to wages paid, the amount of premiums such self-insurer would have to pay if insured, and all payments of compensation made by such self-insurer during each prior period, and may determine the amounts paid by each self-insurer and the amounts paid by all self-insurers during such period. For the purposes of this section, the payroll records of each self-insurer shall be open to annual inspection and audit by the Department of Insurance or its authorized representative, during regular business hours; and if any audit of such records of a self-insurer discloses a deficiency in the amounts reported to the Department of Insurance or in the amounts paid to the Department of Insurance by a self-insurer pursuant to this section, the Department of Insurance may assess the cost of such audit against the self-insurer.

(7) The *department division* shall keep accumulated cost records of all injuries occurring within the state coming within the purview of this chapter on a policy and calendar-year basis. For the purpose of this chapter, a "calendar year" is defined as the year in which the injury is reported to the *department division*; "policy year" is defined as that calendar year in which the policy becomes effective, and the losses under such policy shall be chargeable against the policy year so defined.

(8) The *department division* shall assign an account number to each employer under this chapter and an account number to each insurance carrier authorized to write workers' compensation insurance in the

state; and it shall be the duty of the ~~department division~~ under the account number so assigned to keep the cost experience of each carrier and the cost experience of each employer under the account number so assigned by calendar and policy year, as above defined.

(9) In addition to the above, it shall be the duty of the ~~department division~~ to keep the accident experience, as classified by the ~~department division~~, by industry as follows:

- (a) Cause of the injury;
- (b) Nature of the injury; and
- (c) Type of disability.

(10) In every case where the duration of disability exceeds 30 days, the carrier shall establish a sufficient reserve to pay all benefits to which the injured employee, or in case of death, his or her dependents, may be entitled to under the law. In establishing the reserve, consideration shall be given to the nature of the injury, the probable period of disability, and the estimated cost of medical benefits.

(11) The ~~department division~~ shall furnish to any employer or carrier, upon request, its individual experience. ~~The division shall furnish to the Department of Insurance, upon request, the Florida experience as developed under accident year or calendar year.~~

(12) In addition to any other penalties provided by this law, the failure to submit any report or other information required by this law shall be just cause to suspend the right of a self-insurer to operate as such, or, ~~upon certification by the division to the Department of Insurance that a carrier has failed or refused to furnish such reports,~~ shall be just cause for the Department of Insurance to suspend or revoke the license of such carrier.

(13) As used in s. 440.50 and this section, the term:

- (a) "Plan" means the workers' compensation joint underwriting plan provided for in s. 627.311(4).
- (b) "Fixed administrative expenses" means the expenses of the plan, not to exceed \$750,000, which are directly related to the plan's administration but which do not vary in direct relationship to the amount of premium written by the plan and which do not include loss adjustment premiums.

(14) Before July 1 in each year, the plan shall notify the ~~department division~~ of the amount of the plan's gross written premiums for the preceding calendar year. Whenever the plan's gross written premiums reported to the ~~department division~~ are less than \$30 million, the ~~department division~~ shall transfer to the plan, subject to appropriation by the Legislature, an amount not to exceed the plan's fixed administrative expenses for the preceding calendar year.

Section 49. Section 440.52, Florida Statutes, is amended to read:

440.52 Registration of insurance carriers; notice of cancellation or expiration of policy; suspension or revocation of authority.—

~~(1) Each insurance carrier who desires to write such compensation insurance in compliance with this chapter shall be required, before writing such insurance, to register with the division and pay a registration fee of \$100. This shall be deposited by the division in the fund created by s. 440.50.~~

~~(1)(2)~~ A carrier or self-insurance fund that receives notice pursuant to s. 440.05 shall notify the contractor of the cancellation or expiration of the insurance.

~~(2)(3)~~ If the ~~department division~~ finds, after due notice and a hearing at which the insurance carrier is entitled to be heard in person or by counsel and present evidence, that the insurance carrier has repeatedly failed to comply with its obligations under this chapter, the ~~department division~~ may request the Department of Insurance to suspend or revoke the authorization of such insurance carrier to write workers' compensation insurance under this chapter. Such suspension or revocation shall not affect the liability of any such insurance carrier under policies in force prior to the suspension or revocation.

~~(3)(4)~~ In addition to the penalties prescribed in subsection (3), violation of s. 440.381 by an insurance carrier shall result in the imposition of a fine not to exceed \$1,000 per audit, if the insurance carrier fails to act on said audits by correcting errors in employee classification or accepted applications for coverage where it knew employee classifications were incorrect. Such fines shall be levied by the Department of Insurance and deposited into the Insurance Commissioner's Regulatory Trust Fund.

Section 50. Section 440.525, Florida Statutes, is amended to read:

~~440.525 Examination of carriers.—Beginning July 1, 1994, The Division of Workers' Compensation of the department of Labor and Employment Security may examine each carrier as often as is warranted to ensure that carriers are fulfilling their obligations under the law, and shall examine each carrier not less frequently than once every 3 years. The examination must cover the preceding 3 fiscal years of the carrier's operations and must commence within 12 months after the end of the most recent fiscal year being covered by the examination. The examination may cover any period of the carrier's operations since the last previous examination.~~

The net worth of the individual self-insurer shall include the assets of the self-insurer's parent company and its subsidiaries, sister companies, affiliated companies, and other related entities, located within the geographic boundaries of the state.~~

On or before September 15 of each year, the department shall submit a copy of the report to the Governor, the President of the Senate, the Speaker of the House of Representatives, the Democratic and Republican Leaders of the Senate and the House of Representatives, and the chairs of the legislative committees having jurisdiction over workers' compensation.~~

SUMMARY OF CONFERENCE COMMITTEE ACTION

The Conference Committee Amendment for CS for SB 466 accepts the Senate position on retention of the current law standard of just cause as a disciplinary standard, and maintenance of the burden or proof on the public employer. It modifies the employee grievance process to reduce time frames for completion but limits the ability of a hearing tribunal to mitigate the actions of the agency head.

The Conference Committee Amendment eliminates the special master in labor impasse proceedings and changes the legislative disposition of labor and management disagreements.

The House recedes from its positions on changes to affirmative action and decertification of a police labor union. It further accedes to two Senate positions on developing federally approved tax shelters for accrued leave payments and alternative retirement plans for casual labor employees.

The Senate recedes from its position on management pay tied to performance and accedes to the House positions on the transfer of PERC to the Department of Management Services and on limitations in the use of casual labor (OPS).

The Senate accepts a House position on a smaller and less formalized advisory body for private sector management review of career service changes.

The Conference Committee Amendment coordinates the payment of employee incentives with policies established in the Appropriations Bill and permits year-end redemption of annual leave.

Alternative language is incorporated in the Conference Committee Amendment to specify the conditions under which the public employer will pay for work-related training in public universities and community colleges.

The Conference Committee Amendment provides for the transfer of some 16,000 management, supervisory, and confidential employees from the Career Service System to the Selected Exempt Service System and raises the formula from .5 percent to 1 percent of career service positions which may be placed in this Senior Management Service Class.

Conference Committee Amendment 1 (172259)(with title amendment)—Remove from the bill: Everything after the enacting clause and insert in lieu thereof:

If the driver is not issued a *10-day 30-day* permit pursuant to this section or s. 322.64 because he or she is ineligible for the permit and the suspension for failure to submit to a breath, urine, or blood test is not invalidated by the department, the driver is not eligible to receive a business or employment license pursuant to s. 322.271 until 90 days have elapsed from the date of the suspension.

(b) If the suspension of the driver's license of the person arrested for a violation of s. 316.193, relating to unlawful blood-alcohol level, is sustained, the person is not eligible to receive a license for business or employment purposes only pursuant to s. 322.271 until 30 days have elapsed after the expiration of the last temporary permit issued. Section 19. Paragraph (a) of subsection (11) of section 320.60, Florida Statutes, is amended and a new subsection (15) is added to read:

320.60 Definitions for ss. 320.61-320.70.—Whenever used in ss. 320.61-320.70, unless the context otherwise requires, the following words and terms have the following meanings:

(15) “*Sell,*” “*selling,*” “*sold,*” “*exchange,*” “*retail sales,*” and “*leases*” *includes any transaction where the title of motor vehicle or used motor vehicle is transferred to a retail consumer, and also any retail lease transaction where a retail customer leases a vehicle for a period of at least 12 months. Establishing a price for sale pursuant to s. 320.64(24) does not constitute a sale or lease.*

Section 20. Subsection (4) of section 320.61, Florida Statutes, is amended to read:

320.61 Licenses required of motor vehicle manufacturers, distributors, importers, etc.—

(4) When a complaint of unfair or *prohibited* cancellation or *non-renewal* of a dealer agreement is made by a motor vehicle dealer against a licensee and *such complaint is pending is in the process of being heard* pursuant to ss. 320.60-320.70 ~~by the department~~, no replacement application for such agreement shall be granted and *no license shall be issued by the department under s. 320.27 to any replacement dealer until a final decision is rendered by the department on the complaint of unfair cancellation, so long as the dealer agreement of the complaining dealer is in effect as provided under s. 320.641(7).*

Section 21. Subsections (13) and (16) are repealed, subsections (14), (15), and (17)-(23) are renumbered, subsection (20) is amended and renumbered as (18), and subsections (22)-(33) are added to section 320.64, Florida Statutes, to read:

320.64 Denial, suspension, or revocation of license; grounds.—A license of a licensee under s. 320.61 may be denied, suspended, or revoked within the entire state or at any specific location or locations within the state at which the applicant or licensee engages or proposes to engage in business, *upon a proof that the section was violated with sufficient frequency to establish a pattern of wrongdoing and a licensee or applicant shall be liable for claims and remedies provided in s. 320.695 and s. 320.697 for any violation of any of the following provisions. A licensee is prohibited from committing the following acts: upon proof that an applicant or licensee has failed to comply with any of the following provisions with sufficient frequency so as to establish a pattern of wrongdoing on the part of the applicant:*

(13) ~~The applicant or licensee has refused to deliver, in reasonable quantities and within a reasonable time, to any duly licensed motor vehicle dealer who has an agreement with such applicant or licensee for the retail sale of new motor vehicles and parts for motor vehicles sold or distributed by the applicant or licensee, any such motor vehicles or parts as are covered by such agreement specifically publicly advertised by~~

~~such applicant or licensee to be available for immediate delivery. However, the failure to deliver any motor vehicle or part will not be considered a violation of this section if the failure is due to act of God, work stoppage, or delay due to a strike or labor difficulty, a freight embargo, product shortage, or other cause over which the applicant or licensee has no control. The failure to deliver parts or components for the current and 5 preceding years’ models within 60 days from date of order shall be deemed prima facie unreasonable.~~

(16) ~~Notwithstanding the terms of any franchise agreement, and unless it can be shown that the licensee’s franchised dealer is actively negligent, the applicant or licensee has failed to indemnify and hold harmless its franchised motor vehicle dealer against any judgment for damages or settlement agreed to in writing by the applicant or licensee, including, but not limited to, court costs and reasonable attorney’s fees of the motor vehicle dealer, which judgment or settlement arose out of complaints, claims, or lawsuits based upon such grounds as strict liability; negligence; misrepresentation; warranty, express or implied; or rescission of the sale as described in s. 672.608, less any offset for use recovered by the licensee’s franchised motor vehicle dealer, and only to the extent that the judgment or settlement relates to the alleged defective or negligent manufacture, assembly, or design of new motor vehicles, parts, or accessories or other functions of the manufacturer.~~

(18)(20) The applicant or licensee has established a system of motor vehicle allocation or distribution or has implemented a system of allocation or distribution of motor vehicles to one or more of its franchised motor vehicle dealers which is unfair, inequitable, unreasonably discriminatory, or not supportable by reason and good cause after considering the equities of the affected motor vehicles dealer or dealers. *An applicant or licensee shall maintain for 3 years records that describe its methods or formula of allocation and distribution of its motor vehicles and records of its actual allocation and distribution of motor vehicles to its motor vehicle dealers in this state.*

(22) *The applicant or licensee has refused to deliver, in reasonable quantities and within a reasonable time, to any duly licensed motor vehicle dealer who has an agreement with such applicant or licensee for the retail sale of new motor vehicles and parts for motor vehicles sold or distributed by the applicant or licensee, any such motor vehicles or parts as are covered by such agreement. Such refusal includes the failure to offer to its same line-make franchised motor vehicle dealers all models manufactured for that line-make, or requiring a dealer to pay any extra fee, require a dealer to execute a separate franchise agreement, purchase unreasonable advertising displays or other materials, or remodel, renovate, or recondition the dealer’s existing facilities, or provide exclusive facilities as a prerequisite to receiving a model or series of vehicles. However, the failure to deliver any motor vehicle or part will not be considered a violation of this section if the failure is due to an act of God, work stoppage, or delay due to a strike or labor difficulty, a freight embargo, product shortage, or other cause over which the applicant or licensee has no control. An applicant or licensee may impose reasonable requirements on the motor vehicle dealer, other than the items listed above, including, but not limited to, the purchase of special tools required to properly service a motor vehicle, the undertaking of sales person or service person training related to the motor vehicle.*

(23) *The applicant or licensee has competed or is competing with respect to any activity covered by the franchise agreement with a motor vehicle dealer of the same line-make located in this state with whom the applicant or licensee has entered into a franchise agreement, except as permitted in s. 320.645.*

(24) *The applicant or licensee has sold a motor vehicle to any retail consumer in the state except through a motor vehicle dealer holding a franchise agreement for the line-make that includes the motor vehicle. This section does not apply to sales by the applicant or licensee of motor vehicles to its current employees, employees of companies affiliated by common ownership, charitable not-for-profit organizations, and the federal government.*

(25) *The applicant or licensee has undertaken an audit of warranty payments or incentive payment previously paid to a motor vehicle dealer in violation of this section or has failed to comply with s. 320.696. An applicant or licensee may reasonably and periodically audit a motor vehicle dealer to determine the validity of paid claims. Audit of warranty payments shall only be for the 1-year period immediately following the date the claim was paid. Audit of incentive payments shall only be for an*

18-month period immediately following the date the incentive was paid. An applicant or licensee shall not deny a claim or charge a motor vehicle dealer back subsequent to the payment of the claim unless the applicant or licensee can show that the claim was false or fraudulent or that the motor vehicle dealer failed to substantially comply with the reasonable written and uniformly applied procedures of the applicant or licensee for such repairs or incentives.

(26) Notwithstanding the terms of any franchise agreement, the applicant or licensee has refused to allocate, sell, or deliver motor vehicles, charged back or withheld payments or other things of value for which the dealer is otherwise eligible under a sales promotion, program, or contest, or prevented the motor vehicle dealer from participating in any promotion, program, or contest for selling a motor vehicle to a customer who was present at the dealership and the motor vehicle dealer did not know or should not have reasonably known that the vehicle would be shipped to a foreign country. There will be a rebuttable presumption that the dealer did not know or should not have reasonably known that the vehicle would be shipped to a foreign country if the vehicle is titled in one of the fifty United States.

(27) Notwithstanding the terms of any franchise agreement, the applicant or licensee has failed or refused to indemnify and hold harmless any motor vehicle dealer against any judgment for damages, or settlements agreed to by the applicant or licensee, including, without limitation, court costs and reasonable attorneys fees, arising out of complaints, claims, or lawsuits, including, without limitation, strict liability, negligence, misrepresentation, express or implied warranty, or revocation or rescission of acceptance of the sale of a motor vehicle, to the extent the judgment or settlement relates to the alleged negligent manufacture, design, or assembly of motor vehicles, parts, or accessories. Nothing herein shall obviate the licensee's obligations pursuant to chapter 681.

(28) The applicant or licensee has published, disclosed, or otherwise made available in any form information provided by a motor vehicle dealer with respect to sales prices of motor vehicles or profit per motor vehicle sold. Other confidential financial information provided by motor vehicle dealers shall not be published, disclosed, or otherwise made publicly available except in composite form. However, this information may be disclosed with the written consent of the dealer or in response to a subpoena or order of the Department, a court or a lawful tribunal, or introduced into evidence in such a proceeding, after timely notice to an affected dealer.

(29) The applicant or licensee has failed to reimburse a motor vehicle dealer in full for the reasonable cost of providing a loaner vehicle to any customer who is having a vehicle serviced at the motor vehicle dealer, if a loaner is required by the applicant or licensee, or a loaner is expressly part of an applicant or licensee's customer satisfaction index or computation.

(30) The applicant or licensee has conducted or threatened to conduct any audit of a motor vehicle dealer in order to coerce or attempt to coerce the dealer to forego any rights granted to the dealer under ss. 320.60-320.70 or under the agreement between the licensee and the motor vehicle dealer. Nothing in this section shall prohibit an applicant or licensee from reasonably and periodically auditing a dealer to determine the validity of paid claims.

(31) From and after the effective date of enactment of this provision, the applicant or licensee has offered to any motor vehicle dealer a franchise agreement that:

(a) Requires that a motor vehicle dealer bring an administrative or legal action in a venue outside of this state;

(b) Requires that any arbitration, mediation, or other legal proceeding be conducted outside of this state; or

(c) Requires that a law of a state other than Florida be applied to any legal proceeding between a motor vehicle dealer and a licensee.

(32) Notwithstanding the terms of any franchise agreement, the applicant or licensee has rejected or withheld approval of any proposed transfer in violation of s. 320.643 or a proposed change of executive management in violation of s. 320.644.

Section 22. Section 320.641, Florida Statutes, is amended and a new subsection (8) is added to read:

320.641 *Discontinuations, cancellations, nonrenewals, modifications, and replacement* ~~Unfair cancellation~~ of franchise agreements.—

(1)(a) An applicant or licensee shall give written notice to the motor vehicle dealer and the department of the licensee's intention to discontinue, cancel, or fail to renew a franchise agreement or of the licensee's intention to modify a franchise or replace a franchise with a succeeding franchise, which modification or replacement will adversely alter the rights or obligations of a motor vehicle dealer under an existing franchise agreement or will substantially impair the sales, service obligations, or investment of the motor vehicle dealer, at least 90 days before the effective date thereof, together with the specific grounds for such action.

(b) The failure by the licensee to comply with the 90-day notice period and procedure prescribed herein shall render voidable, at the option of the motor vehicle dealer, any discontinuation, cancellation, nonrenewal, modification, or replacement of any franchise agreement. Designation of a franchise agreement at a specific location as a "non-designated point" shall be deemed an evasion of this section and constitutes an unfair cancellation.

(2) Franchise agreements are deemed to be continuing unless the applicant or licensee has notified the department of the discontinuation of, cancellation of, failure to renew, modification of, or replacement of the agreement of any of its motor vehicle dealers; and annual renewal of the license provided for under ss. 320.60-320.70 is not necessary for any cause of action against the licensee.

(3) Any motor vehicle dealer who receives a notice of intent to discontinue, cancel, not renew, modify, or replace ~~whose franchise agreement is discontinued, canceled, not renewed, modified, or replaced~~ may, within the 90-day notice period, file a petition or complaint for a determination of whether such action is an unfair or prohibited discontinuation, cancellation, nonrenewal, modification, or replacement. Agreements and certificates of appointment shall continue in effect until final determination of the issues raised in such petition or complaint by the motor vehicle dealer. A discontinuation, cancellation, or nonrenewal of a franchise agreement is unfair if it is not clearly permitted by the franchise agreement; is not undertaken in good faith; is not undertaken for good cause; or is based on an alleged breach of the franchise agreement which is not in fact a material and substantial breach; or, if the grounds relied upon for termination, cancellation, or nonrenewal have not been applied in a uniform and consistent manner by the licensee. A modification or replacement is unfair if it is not clearly permitted by the franchise agreement; is not undertaken in good faith; or is not undertaken for good cause. The applicant or licensee shall have burden of proof that such action is fair and not prohibited.

(4) Notwithstanding any other provision of this section, the failure of a motor vehicle dealer to be engaged in business with the public for 10 consecutive business days constitutes abandonment by the dealer of his or her franchise agreement. If any motor vehicle dealer abandons his or her franchise agreement, he or she has no cause of action under this section. For the purpose of this section, a dealer shall be considered to be engaged in business with the public if a sales and service facility is open and is performing such services 8 hours a day, 5 days a week, excluding holidays. However, it will not be considered abandonment if such failure to engage in business is due to an act of God, a work stoppage, or a delay due to a strike or labor difficulty, a freight embargo, or other cause over which the motor vehicle dealer has no control, including any violation of ss. 320.60-320.70.

(5) Notwithstanding any other provision of this section, if a motor vehicle dealer has abandoned his or her franchise agreement as provided in subsection (4), the licensee may give written notice to the dealer and the department of the licensee's intention to discontinue, cancel, or fail to renew the franchise agreement with the dealer at least 15 days before the effective date thereof, specifying the grounds for such action. A motor vehicle dealer receiving such notice may file a petition or complaint for determination of whether in fact there has been an abandonment of the franchise.

(6) If the complainant motor vehicle dealer prevails, he or she shall have a cause of action against the licensee for reasonable attorneys' fees and costs incurred by him or her in such proceeding, and he or she shall have a cause of action under s. 320.697.

(7) Except as provided in s. 320.643, no replacement motor vehicle dealer shall be named for this point or location to engage in business and the franchise agreement shall remain in effect until a final judgment is entered after all appeals are exhausted, provided that, when a motor vehicle dealer appeals a decision upholding a discontinuation, cancellation, or nonrenewal based upon abandonment or revocation of the dealer's license pursuant to s. 320.27, as lawful reasons for such discontinuation, cancellation, or nonrenewal, the franchise agreement shall remain in effect pending exhaustion of all appeals only if the motor vehicle dealer establishes a likelihood of success on appeal and that the public interest will not be harmed by keeping the franchise agreement in effect pending entry of final judgment after such appeal. ~~prior to the final adjudication by the department on the petition or complaint and the exhaustion of all appellate remedies by the canceled or discontinued dealer, if a stay is issued by either the department or an appellate court.~~

(8) If a transfer is proposed pursuant to s. 320.643(1) or (2) after a notice of intent to discontinue, cancel, or not renew a franchise agreement is received but, prior to the final determination, including exhaustion of all appellate remedies of a motor vehicle dealer's complaint or petition contesting such action, the termination proceedings shall be stayed, without bond, during the period that the transfer is being reviewed by the licensee pursuant to s. 320.643.; During the period that the transfer is being reviewed by the licensee, pursuant to s. 320.643, the franchise agreement shall remain in full force and effect, and the motor vehicle dealer shall retain all rights and remedies pursuant to the terms and conditions of the franchise agreement and applicable law, including all rights of transfer until such time as the licensee has accepted or rejected the proposed transfer. If the proposed transfer is rejected, the motor vehicle dealer shall retain all of its rights pursuant to s. 320.643 to an administrative determination as to whether the licensee's rejection is in compliance with the provisions of s. 320.643, and during the pendency of any such administrative proceeding, and any related appellate proceedings, the termination proceedings shall remain stayed without bond, the franchise agreement shall remain in full force and effect and the motor vehicle dealer shall retain all rights and remedies pursuant to the terms and conditions of the franchise agreement and applicable law, including all rights of transfer. If a transfer is approved by the licensee or mandated by law, the termination proceedings shall be dismissed with prejudice as moot. The subsection (8) applies only to the first two proposed transfers pursuant to s. 320.643(1) or (2) after notice of intent to discontinue, cancel, or not renew is received.

Section 23. Section 320.643, Florida Statutes, is amended to read:

320.643 Transfer, assignment, or sale of franchise agreements.—

(1) A motor vehicle dealer shall not transfer, assign, or sell a franchise agreement to another person unless the dealer first notifies the licensee of the dealer's decision to make such transfer, by written notice setting forth the prospective transferee's name, address, financial qualification, and business experience during the previous 5 years. The licensee shall, in writing, within 60 days after receipt of such notice, inform the dealer either of the licensee's approval of the transfer, assignment, or sale or of the unacceptability of the proposed transferee, setting forth the material reasons for the rejection. If the licensee does not so inform the dealer within the 60-day period, its approval of the proposed transfer is deemed granted. No such transfer, assignment, or sale will be valid unless the transferee agrees in writing to comply with all requirements of the franchise then in effect. ~~Notwithstanding the terms of any franchise agreement, the acceptance by the licensee of the proposed transferee shall not be unreasonably withheld.~~ For the purposes of this section, the refusal by the licensee to accept a proposed transferee who is of good moral character and who otherwise meets the written, reasonable, and uniformly applied standards or qualifications, if any, of the licensee relating to financial qualifications of the transferee and the business experience of the transferee or the transferee's executive management required by the licensee of its motor vehicle dealers is presumed to be unreasonable. A motor vehicle dealer whose proposed sale is rejected licensee who receives such notice may, within 60 days following such receipt of such rejection, file with the department a ~~verified~~ complaint for a determination that the proposed transferee has been rejected in violation of ~~is not a person qualified to be a transferee under~~ this section. The licensee has the burden of proof with respect to all issues raised by such ~~verified~~ complaint. The department shall determine, and enter an order providing, that the proposed transferee is either qualified or is not and cannot be qualified for specified reasons, or the order may provide the conditions under which a proposed transferee would be qualified. If the licensee fails to file such a response to the

~~motor vehicle dealer's verified~~ complaint within 30 ~~such 60~~ days after receipt of the complaint, unless the parties agree in writing to an extension, period or if the department, after a hearing, ~~dismisses the complaint or~~ renders a decision other than one disqualifying the proposed transferee, the franchise agreement between the motor vehicle dealer and the licensee shall be deemed amended to incorporate such transfer or amended in accordance with the determination and order rendered, effective upon compliance by the proposed transferee with any conditions set forth in the determination or order.

(2)(a) Notwithstanding the terms of any franchise agreement, a licensee shall not, by contract or otherwise, fail or refuse to give effect to, prevent, prohibit, or penalize, or attempt to refuse to give effect to, prevent, prohibit, or penalize, any motor vehicle dealer or any proprietor, partner, stockholder, owner, or other person who holds or otherwise owns an interest therein from selling, assigning, transferring, alienating, or otherwise disposing of, in whole or in part, the equity interest of any of them in such motor vehicle dealer to any other person or persons, including a corporation established or existing for the purpose of owning or holding the stock or ownership interests of other entities, unless the licensee proves at a hearing pursuant to this section that such sale, transfer, alienation, or other disposition is to a person who is not, or whose controlling executive management is not, of good moral character. A motor vehicle dealer, or any proprietor, partner, stockholder, owner, or other person who holds or otherwise owns an interest in the motor vehicle dealer, who desires to sell, assign, transfer, alienate, or otherwise dispose of any interest in such motor vehicle dealer shall notify, or cause the proposed transferee to so notify, the licensee, in writing, of the identity and address of the proposed transferee. A licensee who receives such notice may, within 60 days following such receipt, ~~notify the motor vehicle dealer in writing file with the department a verified complaint for a determination~~ that the proposed transferee is not a person qualified to be a transferee under this section and setting forth the material reasons for such rejection. Failure of the licensee to notify the motor vehicle dealer within the 60-day period of such rejection shall be deemed an approval of the transfer. Any person whose proposed sale of stock is rejected may file within 60 days of receipt of such rejection a complaint with the department alleging that the rejection was in violation of the law or the franchise agreement. The licensee has the burden of proof with respect to all issues raised by such ~~verified~~ complaint. The department shall determine, and enter an order providing, that the proposed transferee either is qualified or is not and cannot be qualified for specified reasons; or the order may provide the conditions under which a proposed transferee would be qualified. ~~If the licensee fails to file a response to the motor vehicle dealer's complaint within 30 days of receipt of the complaint, unless the parties agree in writing to an extension, or if the licensee fails to file such verified complaint within such 60-day period or if the department, after a hearing, dismisses the complaint or renders a decision on the complaint other than one disqualifying the proposed transferee, the transfer shall be deemed approved franchise agreement between the motor vehicle dealer and the licensee shall be deemed amended to incorporate such transfer or amended in accordance with the determination and order rendered, effective upon compliance by the proposed transferee with any conditions set forth in the determination or order.~~

(b) During the pendency of any such hearing, the franchise agreement of the motor vehicle dealer shall continue in effect in accordance with its terms. The department shall expedite any determination requested under this section.

(3) ~~Notwithstanding the terms of any franchise agreement, the acceptance by the licensee of the proposed transferee shall not be unreasonably withheld. For the purposes of this section, the refusal by the licensee to accept a proposed transferee who satisfies the criteria set forth in subsection (1) or (2) is presumed to be unreasonable.~~

Section 24. Section 320.645, Florida Statutes, is amended to read:

320.645 Restriction upon ownership of dealership by licensee.—

(1) No licensee, ~~including a distributor~~, manufacturer, or agent of a manufacturer or distributor, or any parent, subsidiary, common entity, or officer or representative of the licensee shall own or operate, either directly or indirectly, a motor vehicle dealership in this state for the sale or service of motor vehicles which have been or are offered for sale under a franchise agreement with a motor vehicle dealer in this state. A licensee may not be issued a motor vehicle dealer license pursuant to s.

320.27. However, no such licensee will be deemed to be in violation of this section:

(a) When operating a motor vehicle dealership for a temporary period, not to exceed 1 year, during the transition from one owner of the motor vehicle dealership to another;

(b) When operating a motor vehicle dealership temporarily for a reasonable period for the exclusive purpose of broadening the diversity of its dealer body and enhancing opportunities for qualified persons who are part of a group that has historically been underrepresented in its dealer body, or for other qualified persons who the licensee deems lack the resources to purchase or capitalize the dealership outright, ~~not to exceed 1 year, or~~ in a bona fide relationship with an independent person, other than a licensee or its agent or affiliate, who has made a significant investment that is subject to loss in the dealership within the dealership's first year of operation and who can reasonably expect to acquire full ownership of the dealership on reasonable terms and conditions; or

(c) If the department determines, after a hearing on the matter, pursuant to chapter 120, at the request of any person, that there is no independent person available in the community or territory to own and operate the motor vehicle dealership in a manner consistent with the public interest.

In any such case, the licensee must continue to make the motor vehicle dealership available for sale to an independent person at a fair and reasonable price. Approval of the sale of such a motor vehicle dealership to a proposed motor vehicle dealer shall not be unreasonably withheld.

(2) As used in this section, the term:

(a) "Independent person" is a person who is not an officer, director, or employee of the licensee.

(b) "Reasonable terms and conditions" requires that profits from the dealership are reasonably expected to be sufficient to allow full ownership of the dealership by the independent person within a reasonable time period not to exceed 10 years, which time period may be extended if there is a reasonable basis to do so and is not being sought to evade the purpose of this section; that the independent person has sufficient control to permit acquisition of ownership; and that the relationship cannot be terminated solely to avoid full ownership. The terms and conditions are not reasonable if they preclude the independent person from an expedited purchase of the dealership using a monetary source other than profits from the dealership's operation; provided, however, that the independent person must pay or make an agreement to pay to the licensee any and all reasonable prepayment charges and costs, including all unrecouped restored losses, associated with the expedited purchase of the dealership. For the purpose of this section, unrecouped restored losses are monies that the manufacturer has provided to the dealership to restore losses of the dealership that the manufacturer has not been paid back through profits of the dealership.

(c) "Significant investment" means a reasonable amount, considering the reasonable capital requirements of the dealership, acquired and obtained from sources other than the licensee or any of its affiliates and not encumbered by the person's interest in the dealership.

(3) Nothing in this section shall prohibit, limit, restrict, or impose conditions on:

(a) The business activities, including, without limitation, the dealings with motor vehicle manufacturers and their representatives and affiliates, of any person that is primarily engaged in the business of short term not to exceed 12 months rental of motor vehicles and industrial and construction equipment and activities incidental to that business, provided that:

1. Any motor vehicles sold by such person are limited to used motor vehicles that have been previously used exclusively and regularly by such person in the conduct of its rental business and used motor vehicles traded in on motor vehicles sold by such person;

2. Warranty repairs performed under any manufacturer's new vehicle warranty by such person on motor vehicles are limited to those motor vehicles that it owns. As to previously owned vehicles, warranty repairs can be performed only if pursuant to a motor vehicle service agreement as defined in chapter 634, part I, issued by such person or an express

warranty issued by such person on the retail sale of those vehicles previously owned; and

3. Motor vehicle financing provided by such person to retail consumers for motor vehicles is limited to used motor vehicles sold by such person in the conduct of its business; or

(b) The direct or indirect ownership, affiliation or control of a person described in paragraph (a) of this subsection.

(4) Nothing in this section shall prohibit a licensee-distributor as defined in s. 320.60(5) that is not a manufacturer, a division of a manufacturer, an entity that is controlled by a manufacturer, or a common entity of a manufacturer, and that is not owned, in whole or in part, directly or indirectly, by a manufacturer, as defined in section 320.60(9), and that has owned and operated a motor vehicle dealer in this state on or before July 1, 1996, other than a motor vehicle dealer permitted by s. 320.645(1)(b), from receiving a license as defined in s. 320.27 while owning and operating a motor vehicle dealership that sells or services motor vehicles other than any line-make of motor vehicles distributed by the licensee-distributor.

~~(2) This section shall not be construed to prohibit any licensee from owning or operating a motor vehicle dealership in this state if such dealership was owned or operated by the licensee on May 31, 1984.~~

Section 25. Subsection (2) of section 320.699, Florida Statutes, is amended to read:

320.699 Administrative hearings and adjudications; procedure.—

(2) If a written objection or notice of protest is filed with the department under paragraph (1)(b), a hearing shall be held not sooner than 180 days nor later than 240 days from within 180 days of the date of filing of the first objection or notice of protest, unless the time is extended by the Administrative Law Judge for good cause shown. This subsection shall govern the schedule of hearings in lieu of any other provision of law with respect to administrative hearings conducted by the Department of Highway Safety and Motor Vehicles or the Division of Administrative Hearings, including performance standards of state agencies, which may be included in current and future appropriations acts. ~~hearing officer for good cause shown. If a hearing is not scheduled within said time, any party may request such hearing which shall be held forthwith by the hearing officer.~~

Section 26. Section 320.6991, Florida Statutes, is created to read:

320.6991 Severability.—If a provision of ss. 320.60-320.70 or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of ss. 320.60-320.70 that can be given effect without the invalid provision or application, and to this end the provisions of ss. 320.60-320.70 are severable.

Section 27. Section 320.275, Florida Statutes, is created to read:

- (3) “Replacement item” means a tire, bumper, bumper fascia, glass, in-dashboard equipment, seat or upholstery cover or trim, exterior illumination unit, grill, sunroof, external mirror and external body cladding. The replacement of up to three of these items does not constitute repair of damage if each item is replaced because of a product defect or damaged due to vandalism while the new motor vehicle is under the control of the dealer and the items are replaced with original manufacturer equipment, unless an item is replaced due to a crash, collision, or accident.
- (4) “Threshold amount” means 3 percent of the manufacturer’s suggested retail price of a motor vehicle or \$650, whichever is less.
- (5) “Vehicle” means any automobile, truck, bus, recreational vehicle or motorcycle required to be licensed under chapter 320, Florida Statutes, for operation over the roads of Florida, but does not include trailers, mobile homes, travel trailers or trailer coaches without independent motive power.

Section 29. It is an unfair or deceptive act or practice, actionable under the Florida Deceptive and Unfair Trade Practices Act, for a dealer to:

(1) Represent directly or indirectly that a motor vehicle is a factory executive vehicle or executive vehicle unless such vehicle was purchased directly from the manufacturer or a subsidiary of the manufacturer and the vehicle was used exclusively by the manufacturer, its subsidiary, or a dealer for the commercial or personal use of the manufacturer’s, subsidiary’s, or dealer’s employees.

(2) Represent directly or indirectly that a vehicle is a demonstrator unless the vehicle was driven by prospective customers of a dealership selling the vehicle and such vehicle complies with the definition of a demonstrator in section 320.60(3), Florida Statutes.

(3) Represent the previous usage or status of a vehicle to be something that it was not, or make usage or status representations unless the dealer has correct information regarding the history of the vehicle to support the representations.

(4) Represent the quality of care, regularity of servicing, or general condition of a vehicle unless known by the dealer to be true and supportable by material fact.

(5) Represent orally or in writing that a particular vehicle has not sustained structural or substantial skin damage unless the statement is made in good faith and the vehicle has been inspected by the dealer or his agent to determine whether the vehicle has incurred such damage.

(6) Sell a vehicle without fully and conspicuously disclosing in writing at or before the consummation of sale any warranty or guarantee terms, obligations, or conditions that the dealer or manufacturer has given to the buyer. If the warranty obligations are to be shared by the dealer and the buyer, the method of determining the percentage of repair costs to be assumed by each party must be disclosed. If the dealer intends to disclaim or limit any expressed or implied warranty, the disclaimer must be in writing in a conspicuous manner and in layman’s terms in accordance with chapter 672, Florida Statutes, and the Magnuson-Moss Warranty - Federal Trade Commission Improvement Act.

(7) Provide an express or implied warranty and fail to honor such warranty unless properly disclaimed pursuant to subsection (6).

(8) Misrepresent warranty coverage, application period, or any warranty transfer cost or conditions to a customer.

(9) Obtain signatures from a customer on contracts that are not fully completed at the time the customer signs or which do not reflect accurately the negotiations and agreement between the customer and the dealer.

(10) Require or accept a deposit from a prospective customer prior to entering into a binding contract for the purchase and sale of a vehicle unless the customer is given a written receipt that states how long the dealer will hold the vehicle from other sale and the amount of the deposit, and clearly and conspicuously states whether and upon what conditions the deposit is refundable or nonrefundable.

(11) Add to the cash price of a vehicle as defined in section 520.02(2), Florida Statutes, any fee or charge other than those provided in that section and in Rule 3D-50.001, Florida Administrative Code. All fees or charges permitted to be added to the cash price by Rule 3D-50.001, Florida Administrative Code, must be fully disclosed to customers in all binding contracts concerning the vehicle’s selling price.

(12) Alter or change the odometer mileage of a vehicle.

(13) Sell a vehicle without disclosing to the customer the actual year and model of the vehicle.

(14) File a lien against a new vehicle purchased with a check unless the dealer fully discloses to the purchaser that a lien will be filed if purchase is made by check and fully discloses to the buyer the procedures and cost to the buyer for gaining title to the vehicle after the lien is filed.

(15) Increase the price of the vehicle after having accepted an order of purchase or a contract from a buyer, notwithstanding subsequent receipt of an official price change notification. The price of a vehicle may be increased after a dealer accepts an order of purchase or a contract from a buyer if:

(a) A trade-in vehicle is reappraised because it subsequently is damaged, or parts or accessories are removed;

(b) *The price increase is caused by the addition of new equipment, as required by state or federal law;*

(c) *The price increase is caused by the revaluation of the U.S. dollar by the Federal Government, in the case of a foreign-made vehicle;*

(d) *The price increase is caused by state or federal tax rate changes; or*

(e) *Price protection is not provided by the manufacturer, importer, or distributor.*

(16) *Advertise the price of a vehicle unless the vehicle is identified by year, make, model, and a commonly accepted trade, brand, or style name. The advertised price must include all fees or charges that the customer must pay, including freight or destination charge, dealer preparation charge, and charges for undercoating or rustproofing. State and local taxes, tags, registration fees, and title fees, unless otherwise required by local law or standard, need not be disclosed in the advertisement. When two or more dealers advertise jointly, with or without participation of the franchiser, the advertised price need not include fees and charges that are variable among the individual dealers cooperating in the advertisement, but the nature of all charges that are not included in the advertised price must be disclosed in the advertisement.*

(17) *Charge a customer for any pre-delivery service required by the manufacturer, distributor, or importer for which the dealer is reimbursed by the manufacturer, distributor, or importer.*

(18) *Charge a customer for any pre-delivery service without having printed on all documents that include a line item for pre-delivery service the following disclosure: "This charge represents costs and profit to the dealer for items such as inspecting, cleaning, and adjusting vehicles, and preparing documents related to the sale."*

(19) *Add an additional charge for pre-delivery service other than those shown on a conspicuous label attached to the window of the vehicle specifying any charges for pre-delivery services and describing the charges as pre-delivery services, delivery and handling, dealer preparation, or in similar terms the dealer's charge for each dealer-installed option, and a total price line.*

(20) *Fail to disclose damage to a new motor vehicle, as defined in subsection 319.001(4), Florida Statutes, of which the dealer had actual knowledge, if the dealer's actual cost of repairs exceeds the threshold amount, excluding replacement items.*

In any civil litigation resulting from a violation of this section, when evaluating the reasonableness of an award of attorney's fees to a private person, the trial court shall consider the amount of actual damages in relation to the time spent.

Section 30. *Sections 28 and 29 shall be codified as part VI of chapter 501, and applies to any vehicle sold after October 1, 2001.*

Section 31. *Paragraph (n) of subsection (9) of section 320.27, Florida Statutes, is repealed.*

Section 32. A new subsection (3) is added to section 520.12, Florida Statutes, to read:

520.12 Penalites.—

(3) *Section 520.12(2) does not apply to any violation of the requirement in s. 520.07(1)(c) that the seller deliver or mail to the buyer a copy of the contract signed by the seller, if the seller delivered to the buyer at the time the buyer signed the contract an exact copy of the contract that the buyer signed.*

Section 33. Subsection (1) of section 681.1096, Florida Statutes, is amended to read:

681.1096 Pilot RV Mediation and Arbitration Program; creation and qualifications.—

(1) This section and s. 681.1097 shall apply to disputes determined eligible under this chapter involving recreational vehicles acquired on or after October 1, 1997, and shall remain in effect until September 30, 2002 ~~2001~~, at which time recreational vehicle disputes shall be subject to the provisions of ss. 681.109 and 681.1095. The Attorney General

shall report ~~annually~~ to the President of the Senate, the Speaker of the House of Representatives, the Minority Leader of each house of the Legislature, and appropriate legislative committees regarding the ~~effectiveness efficiency and cost effectiveness~~ of the pilot program.

Section 34. Subsections (5) and (7) of section 681.1097, Florida Statutes, are amended to read:

681.1097 Pilot RV Mediation and Arbitration Program; dispute eligibility and program function.—

(5) If the mediation ends in an impasse, or if a manufacturer fails to comply with the settlement entered into between the parties, the program administrator shall schedule the dispute for an arbitration hearing. Arbitration proceedings shall be open to the public on reasonable and nondiscriminatory terms.

(a) The arbitration hearing shall be conducted by a single arbitrator assigned by the program administrator. The arbitrator shall not be the same person as the mediator who conducted the prior mediation conference in the dispute. The parties may factually object to an arbitrator based on the arbitrator's past or present relationship with a party or a party's attorney, direct or indirect, whether financial, professional, social, or of any other kind. The program administrator shall consider any such objection, determine its validity, and notify the parties of any determination. If the objection is determined valid, the program administrator shall assign another arbitrator to the case.

(b) The arbitrator may issue subpoenas for the attendance of witnesses and for the production of records, documents, and other evidence. Subpoenas so issued shall be served and, upon application to the court by a party to the arbitration, enforced in the manner provided by law for the service and enforcement of subpoenas in civil actions. Fees for attendance as a witness shall be the same as for a witness in the circuit court.

(c) At all program arbitration proceedings, the parties may present oral and written testimony, present witnesses and evidence relevant to the dispute, cross-examine witnesses, and be represented by counsel. The arbitrator shall record the arbitration hearing and shall have the power to administer oaths. The arbitrator may inspect the vehicle if requested by a party or if the arbitrator considers such inspection appropriate.

(d) The program arbitrator may continue a hearing on his or her own motion or upon the request of a party for good cause shown. A request for continuance by the consumer constitutes a waiver of the time period set forth in s. 681.1096(3)(k) for completion of all proceedings under the program.

(e) Where the arbitration is the result of a manufacturer's failure to perform in accordance with a ~~settlement mediation~~ agreement, any relief to the consumer granted by the arbitration will be no less than the relief agreed to by the manufacturer in the settlement agreement.

(f) The arbitrator shall grant relief if a reasonable number of attempts have been undertaken to correct a nonconformity or nonconformities.

(g) The program arbitrator shall render a decision within 10 days of the closing of the hearing. The decision shall be in writing on a form prescribed or approved by the department. The program administrator shall send a copy of the decision to the consumer and each involved manufacturer by registered mail. The program administrator shall also send a copy of the decision to the department within 5 days of mailing to the parties.

(h) A manufacturer shall comply with an arbitration decision within 40 days of the date the manufacturer receives the written decision. Compliance occurs on the date the consumer receives delivery of an acceptable replacement motor vehicle or the refund specified in the arbitration award. If a manufacturer fails to comply within the time required, the consumer must notify the program administrator in writing within 10 days. The program administrator shall notify the department of a manufacturer's failure to comply. The department shall have the authority to enforce compliance with arbitration decisions under this section in the same manner as is provided for enforcement of compliance with board decisions under s. 681.1095(10). In any civil action arising

under this chapter and relating to a dispute arbitrated pursuant to this section, the decision of the arbitrator is admissible in evidence.

(i) *Either party may request that the program arbitrator make a technical correction to the decision by filing a written request with the program administrator within 10 days after receipt of the written decision. Technical corrections shall be limited to computational errors, correction of a party's name or information regarding the recreational vehicle, and typographical or spelling errors. Technical correction of a decision shall not toll the time for filing an appeal or for manufacturer compliance.*

~~(7) A decision of the arbitrator is binding unless appealed by either party by filing a petition with the circuit court within the time and in the manner prescribed by s. 681.1095(10) and (12). Section 681.1095(13) and (14) apply to appeals filed under this section. Either party may make application to the circuit court for the county in which one of the parties resides or has a place of business or, if neither party resides or has a place of business in this state, the county where the arbitration hearing was held, for an order confirming, vacating, modifying, or correcting any award, in accordance with the provisions of this section and ss. 682.12, 682.13, 682.14, 682.15, and 682.17. Such application must be filed within 30 days of the moving party's receipt of the written decision or the decision becomes final. Upon filing such application, the moving party shall mail a copy to the department and, upon entry of any judgment or decree, shall mail a copy of such judgment or decree to the department. A review of such application by the circuit court shall be confined to the record of the proceedings before the program arbitrator. The court shall conduct a de novo review of the questions of law raised in the application. In addition to the grounds set forth in ss. 682.13 and 682.14, the court shall consider questions of fact raised in the application. In reviewing questions of fact, the court shall uphold the award unless it determines that the factual findings of the arbitrator are not supported by substantial evidence in the record and that the substantial rights of the moving party have been prejudiced. If the arbitrator fails to state findings or reasons for the stated award, or the findings or reasons are inadequate, the court shall search the record to determine whether a basis exists to uphold the award. The court shall expedite consideration of any application filed under this section on the calendar.~~

(a) If a decision of a program arbitrator in favor of a consumer is confirmed by the court, recovery by the consumer shall include the pecuniary value of the award, attorney's fees incurred in obtaining confirmation of the award, and all costs and continuing damages in the amount of \$25 per day for each day beyond the 40-day period following a manufacturer's receipt of the arbitrator's decision. If a court determines the manufacturer acted in bad faith in bringing the appeal or brought the appeal solely for the purpose of harassment, or in complete absence of a justiciable issue of law or fact, the court shall double, and may triple, the amount of the total award.

~~(b) An appeal of a judgment or order by the court confirming, denying confirmation, modifying or correcting, or vacating the award may be taken in the manner and to the same extent as from orders or judgments in a civil action.~~

Section 35. Section 681.115, Florida Statutes, is amended to read:

681.115 Certain agreements void.—Any agreement entered into by a consumer that waives, limits, or disclaims the rights set forth in this chapter, or that requires a consumer not to disclose the terms of such agreement as a condition thereof, is void as contrary to public policy. The rights set forth in this chapter shall extend to a subsequent transferee of such motor vehicle.

Section 36. Subsections (4) and (6) of section 713.78, Florida Statutes, are amended to read:

713.78 Liens for recovering, towing, or storing vehicles and ~~documented~~ vessels.—

(4)(a) Any person regularly engaged in the business of recovering, towing, or storing vehicles or vessels who comes into possession of a vehicle or vessel pursuant to subsection (2), and who claims a lien for recovery, towing, or storage services, shall give notice to the registered owner, the insurance company insuring the vehicle notwithstanding the provisions of s. 627.736, and to all persons claiming a lien thereon, as disclosed by the records in the Department of Highway Safety and Motor Vehicles or of a corresponding agency in any other state.

(b) *Whenever any law enforcement agency authorizes the removal of a vehicle or whenever any towing service, garage, repair shop, or automotive service, storage, or parking place notifies the law enforcement agency of possession of a vehicle pursuant to s. 715.07(2)(a)2., the applicable law enforcement agency shall contact the Department of Highway Safety and Motor Vehicles, or the appropriate agency of the state of registration, if known, within 24 hours through the medium of electronic communications, giving the full description of the vehicle. Upon receipt of the full description of the vehicle, the department shall search its files to determine the owner's name, the insurance company insuring the vehicle, and whether any person has filed a lien upon the vehicle as provided in s. 319.27(2) and (3) and notify the applicable law enforcement agency within 72 hours. The person in charge of the towing service, garage, repair shop, or automotive service, storage, or parking place shall obtain such information from the applicable law enforcement agency within 5 days from the date of storage and shall give notice pursuant to paragraph (a). The department may release the insurance company information to the requestor notwithstanding the provisions of s. 627.736.*

(c)(b) Notice by certified mail, return receipt requested, shall be sent within 7 business days after the date of storage of the vehicle or vessel to the registered owner, the insurance company insuring the vehicle notwithstanding the provisions of s. 627.736, and to all persons of record claiming a lien against the vehicle or vessel. It shall state the fact of possession of the vehicle or vessel, that a lien as provided in subsection (2) is claimed, that charges have accrued and the amount thereof, that the lien is subject to enforcement pursuant to law, and that the owner or lienholder, if any, has the right to a hearing as set forth in subsection (5), and that any vehicle or vessel which remains unclaimed, or for which the charges for recovery, towing, or storage services remain unpaid, may be sold after 35 days free of all prior liens after 35 days if the vehicle or vessel is more than 3 years of age and after 50 days if the vehicle or vessel is 3 years of age or less.

(d)(e) If attempts to locate the owner or lienholder prove unsuccessful, the towing-storage operator shall, after 7 working days, excluding Saturday and Sunday, of the initial tow or storage, notify the public agency of jurisdiction in writing by certified mail or acknowledged hand delivery that the towing-storage company has been unable to locate the owner or lienholder and a physical search of the vehicle or vessel has disclosed no ownership information and a good faith effort has been made. For purposes of this paragraph and subsection (9), and s. 715.05, "good faith effort" means that the following checks have been performed by the company to establish prior state of registration and for title:

1. Check of vehicle or vessel for any type of tag, tag record, temporary tag, or regular tag.
2. Check of law enforcement report for tag number or other information identifying the vehicle or vessel, if the vehicle or vessel was towed at the request of a law enforcement officer.
3. Check of trip sheet or tow ticket of tow truck operator to see if a tag was on vehicle at beginning of tow, if private tow.
4. If there is no address of the owner on the impound report, check of law enforcement report to see if an out-of-state address is indicated from driver license information.
5. Check of vehicle or vessel for inspection sticker or other stickers and decals that may indicate a state of possible registration.
6. Check of the interior of the vehicle or vessel for any papers that may be in the glove box, trunk, or other areas for a state of registration.
7. Check of vehicle for vehicle identification number.
8. Check of vessel for vessel registration number.
9. Check of vessel hull for a hull identification number which should be carved, burned, stamped, embossed, or otherwise permanently affixed to the outboard side of the transom or, if there is no transom, to the outmost seaboard side at the end of the hull that bears the rudder or other steering mechanism.
- (6) Any vehicle or vessel which is stored pursuant to subsection (2) and which remains unclaimed, or for which reasonable charges for recovery, towing, or storing remain unpaid or for which a lot rental amount is due and owing to the mobile home park owner, as evidenced by a

judgment for unpaid rent, and any contents not released pursuant to subsection (10), may be sold by the owner or operator of the storage space for such towing or storage charge or unpaid lot rental amount after 35 days from the time the vehicle or vessel is stored therein *if the vehicle or vessel is more than 3 years of age and after 50 days from the time the vehicle or vessel is stored therein if the vehicle or vessel is 3 years of age or less*. The sale shall be at public auction for cash. If the date of the sale was not included in the notice required in subsection (4), notice of the sale shall be given to the person in whose name the vehicle, vessel, or mobile home is registered, to the mobile home park owner, and to all persons claiming a lien on the vehicle or vessel as shown on the records of the Department of Highway Safety and Motor Vehicles or of the corresponding agency in any other state. Section 38. Subsection (10) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(10) PARTIAL EXEMPTION; MOTOR VEHICLE SOLD TO RESIDENT OF ANOTHER STATE.—The tax collected on the sale of a new or used motor vehicle in this state to a resident of another state shall be an amount equal to the sales tax which would be imposed on such sale under the laws of the state of which the purchaser is a resident, except that such tax shall not exceed the tax that would otherwise be imposed under this chapter. At the time of the sale, the purchaser shall execute a notarized statement of his or her intent to license the vehicle in the state of which the purchaser is a resident within 45 days of the sale and of the fact of the payment to the State of Florida of a sales tax in an amount equivalent to the sales tax of his or her state of residence and shall submit the statement to the appropriate sales tax collection agency in his or her state of residence. Nothing in this subsection shall be construed to require the removal of the vehicle from this state following the filing of an intent to license the vehicle in the purchaser's home state if the purchaser licenses the vehicle in his or her home state within 45 days after the date of sale. *Nothing herein shall require the payment of tax to the State of Florida for assessments made prior to July 1, 2001, if the tax imposed by this section has been paid to the state in which the vehicle was licensed and the department has assessed a like amount of tax on the same transactions. This provision shall apply retroactively to assessments that have been protested prior to August 1, 1999, and have not been paid on the date this act takes effect.*

Section 39. Subsection (1) of section 320.01, Florida Statutes, is amended to read:

320.01 Definitions, general.—As used in the Florida Statutes, except as otherwise provided, the term:

(1) "Motor vehicle" means:

(a) An automobile, motorcycle, truck, trailer, semitrailer, truck tractor and semitrailer combination, or any other vehicle operated on the roads of this state, used to transport persons or property, and propelled by power other than muscular power, but the term does not include

traction engines, road rollers, such vehicles as run only upon a track, bicycles, or mopeds.

(b) A recreational vehicle-type unit primarily designed as temporary living quarters for recreational, camping, or travel use, which either has its own motive power or is mounted on or drawn by another vehicle. Recreational vehicle-type units, when traveling on the public roadways of this state, must comply with the length and width provisions of s. 316.515, as that section may hereafter be amended. As defined below, the basic entities are:

1. The "travel trailer," which is a vehicular portable unit, mounted on wheels, of such a size or weight as not to require special highway movement permits when drawn by a motorized vehicle. It is primarily designed and constructed to provide temporary living quarters for recreational, camping, or travel use. It has a body width of no more than 8½ feet and an overall body length of no more than 40 feet when factory-equipped for the road.

2. The "camping trailer," which is a vehicular portable unit mounted on wheels and constructed with collapsible partial sidewalls which fold for towing by another vehicle and unfold at the campsite to provide temporary living quarters for recreational, camping, or travel use.

3. The "truck camper," which is a truck equipped with a portable unit designed to be loaded onto, or affixed to, the bed or chassis of the truck and constructed to provide temporary living quarters for recreational, camping, or travel use.

4. The "motor home," which is a vehicular unit which does not exceed ~~the 40 feet in length, and the height, and the width limitations provided in s. 316.515,~~ is a self-propelled motor vehicle, and is primarily designed to provide temporary living quarters for recreational, camping, or travel use.

5. The "private motor coach," which is a vehicular unit which does not exceed the length, width, and height limitations provided in s. 316.515(9), is built on a self-propelled bus type chassis having no fewer than three load-bearing axles, and is primarily designed to provide temporary living quarters for recreational, camping, or travel use.

6. The "van conversion," which is a vehicular unit which does not exceed the length and width limitations provided in s. 316.515, is built on a self-propelled motor vehicle chassis, and is designed for recreation, camping, and travel use.

7. The "park trailer," which is a transportable unit which has a body width not exceeding 14 feet and which is built on a single chassis and is designed to provide seasonal or temporary living quarters when connected to utilities necessary for operation of installed fixtures and appliances. The total area of the unit in a setup mode, when measured from the exterior surface of the exterior stud walls at the level of maximum dimensions, not including any bay window, does not exceed 400 square feet when constructed to ANSI A-119.5 standards, and 500 square feet when constructed to United States Department of Housing and Urban Development Standards. The length of a park trailer means the distance from the exterior of the front of the body (nearest to the drawbar and coupling mechanism) to the exterior of the rear of the body (at the opposite end of the body), including any protrusions.

8. The "fifth-wheel trailer," which is a vehicular unit mounted on wheels, designed to provide temporary living quarters for recreational, camping, or travel use, of such size or weight as not to require a special highway movement permit, of gross trailer area not to exceed 400 square feet in the setup mode, and designed to be towed by a motorized vehicle that contains a towing mechanism that is mounted above or forward of the tow vehicle's rear axle.

Section 40. Paragraph (c) of subsection (1) of section 320.27, Florida Statutes, is amended, paragraph (f) is added to said subsection, and subsections (7) and (9) of said section are amended, to read:

320.27 Motor vehicle dealers.—

(1) DEFINITIONS.—The following words, terms, and phrases when used in this section have the meanings respectively ascribed to them in this subsection, except where the context clearly indicates a different meaning:

(c) "Motor vehicle dealer" means any person engaged in the business of buying, selling, or dealing in motor vehicles or offering or displaying motor vehicles for sale at wholesale or retail, or who may service and repair motor vehicles pursuant to an agreement as defined in s. 320.60(1). Any person who buys, sells, or deals in three or more motor vehicles in any 12-month period or who offers or displays for sale three or more motor vehicles in any 12-month period shall be prima facie presumed to be engaged in such business. The terms "selling" and "sale" include lease-purchase transactions. A motor vehicle dealer may, at retail or wholesale, sell a recreational vehicle as described in s. 320.01(1)(b)1.-6. and 8., acquired in exchange for the sale of a motor vehicle, provided such acquisition is incidental to the principal business of being a motor vehicle dealer. However, a motor vehicle dealer may not buy a recreational vehicle for the purpose of resale unless licensed as a recreational vehicle dealer pursuant to s. 320.771. A motor vehicle dealer may apply for a certificate of title to a motor vehicle required to be registered under s. 320.08(2)(b), (c), and (d), using a manufacturer's statement of origin as permitted by s. 319.23(1), only if such dealer is authorized by a franchised agreement as defined in s. 320.60(1), to buy, sell, or deal in such vehicle and is authorized by such agreement to perform delivery and preparation obligations and warranty defect adjustments on the motor vehicle; provided this limitation shall not apply to recreational vehicles, van conversions, or any other motor vehicle manufactured on a truck chassis. The transfer of a motor vehicle by a dealer not meeting these qualifications shall be titled as a used vehicle. The classifications of motor vehicle dealers are defined as follows:

1. "Franchised motor vehicle dealer" means any person who engages in the business of repairing, servicing, buying, selling, or dealing in motor vehicles pursuant to an agreement as defined in s. 320.60(1).

2. "Independent motor vehicle dealer" means any person other than a franchised or wholesale motor vehicle dealer who engages in the business of buying, selling, or dealing in motor vehicles, and who may service and repair motor vehicles.

3. "Wholesale motor vehicle dealer" means any person who engages exclusively in the business of buying, selling, or dealing in motor vehicles at wholesale or with motor vehicle auctions. Such person shall be licensed to do business in this state, shall not sell or auction a vehicle to any person who is not a licensed dealer, and shall not have the privilege of the use of dealer license plates. Any person who buys, sells, or deals in motor vehicles at wholesale or with motor vehicle auctions on behalf of a licensed motor vehicle dealer and as a bona fide employee of such licensed motor vehicle dealer is not required to be licensed as a wholesale motor vehicle dealer. In such cases it shall be prima facie presumed that a bona fide employer-employee relationship exists. A wholesale motor vehicle dealer shall be exempt from the display provisions of this section but shall maintain an office wherein records are kept in order that those records may be inspected.

4. "Motor vehicle auction" means any person offering motor vehicles or recreational vehicles for sale to the highest bidder where both sellers and buyers are licensed motor vehicle dealers. Such person shall not sell a vehicle to anyone other than a licensed motor vehicle dealer.

5. "Salvage motor vehicle dealer" means any person who engages in the business of acquiring salvaged or wrecked motor vehicles for the purpose of reselling them and their parts.

The term "motor vehicle dealer" does not include persons not engaged in the purchase or sale of motor vehicles as a business who are disposing of vehicles acquired for their own use or for use in their business or acquired by foreclosure or by operation of law, provided such vehicles are acquired and sold in good faith and not for the purpose of avoiding the provisions of this law; persons engaged in the business of manufacturing, selling, or offering or displaying for sale at wholesale or retail no more than 25 trailers in a 12-month period; public officers while performing their official duties; receivers; trustees, administrators, executors, guardians, or other persons appointed by, or acting under the judgment or order of, any court; banks, finance companies, or other loan agencies that acquire motor vehicles as an incident to their regular business; motor vehicle brokers; and motor vehicle rental and leasing companies that sell motor vehicles to motor vehicle dealers licensed under this section. Vehicles owned under circumstances described in this paragraph may be disposed of at retail, wholesale, or auction, unless otherwise restricted. A manufacturer of fire trucks, ambulances, or school buses may sell such vehicles directly to governmental agencies or to persons who contract to perform or provide firefighting, ambulance,

or school transportation services exclusively to governmental agencies without processing such sales through dealers if such fire trucks, ambulances, school buses, or similar vehicles are not presently available through motor vehicle dealers licensed by the department.

(f) "Bona fide employee" means a person who is employed by a licensed motor vehicle dealer and receives annually an Internal Revenue Service Form W-2, or an independent contractor who has a written contract with a licensed motor vehicle dealer and receives annually an Internal Revenue Service Form 1099, for the purpose of acting in the capacity of or conducting motor vehicle sales transactions as a motor vehicle dealer.

(7) CERTIFICATE OF TITLE REQUIRED.—For each used motor vehicle in the possession of a licensee and offered for sale by him or her, the licensee either shall have in his or her possession or control a duly assigned certificate of title from the owner in accordance with the provisions of chapter 319, from the time when the motor vehicle is delivered to the licensee and offered for sale by him or her until it has been disposed of by the licensee, or shall have reasonable indicia of ownership or right of possession, or shall have made proper application for a certificate of title or duplicate certificate of title in accordance with the provisions of chapter 319. A motor vehicle dealer may not sell or offer for sale a vehicle in his or her possession unless the dealer satisfies the requirements of this subsection. Reasonable indicia of ownership shall include a duly assigned certificate of title; in the case of a new motor vehicle, a manufacturer's certificate of origin issued to or reassigned to the dealer; a consignment contract between the owner and the dealer along with a secure power of attorney from the owner to the dealer authorizing the dealer to apply for a duplicate certificate of title and assign the title on behalf of the owner; a court order awarding title to the vehicle to the dealer; a salvage certificate of title; a photocopy of a duly assigned certificate of title being held by a financial institution as collateral for a business loan of money to the dealer ("floor plan"); a copy of a canceled check or other documentation evidencing that an outstanding lien on a vehicle taken in trade by a licensed dealer has been satisfied and that the certificate of title will be, but has not yet been, received by the dealer; a vehicle purchase order or installment contract for a specific vehicle identifying that vehicle as a trade-in on a replacement vehicle; or a duly executed odometer disclosure statement as required by Title IV of the Motor Vehicle Information and Cost Savings Act of 1972 (Pub. L. No. 92-513, as amended by Pub. L. No. 94-364 and Pub. L. No. 100-561) and by 49 C.F.R. part 580 bearing the signatures of the titled owners of a traded-in vehicle.

Section 41. This act shall take effect upon becoming a law.

The Honorable John M. McKay, President

John B. Phelps, Clerk

CS for SB 2—A bill to be entitled An act relating to retirement; providing a declaration of an important state interest; providing for a one-time cost-of-living increase for certain retired members of the Florida Retirement System who have service credit earned between Septem-

ber 30, 1978, and January 1, 1993, in the Special Risk Class of the Florida Retirement System; providing an effective date.

House Amendment 1 (101723)(with title amendment)—On page 1, line 13, insert:

Section 1. Paragraph (b) of subsection (1) of section 121.053, Florida Statutes, is amended to read:

121.053 Participation in the Elected Officers' Class for retired members.—

(1)

(b) Any retired member of the Florida Retirement System, or any existing system as defined in s. 121.021(2), who, on or after July 1, 1990, is serving in, or is elected or appointed to, an elective office covered by the Elected Officers' Class shall be enrolled in the appropriate subclass of the Elected Officers' Class of the Florida Retirement System, and applicable contributions shall be paid into the Florida Retirement System Trust Fund as provided in s. 121.052(7). Pursuant thereto:

1. Any such retired member shall be eligible to continue to receive retirement benefits as well as compensation for the elected officer service for as long as he or she remains in an elective office covered by the Elected Officers' Class.

2. If any such member serves in an elective office covered by the Elected Officers' Class and becomes vested under that class, he or she shall be entitled to receive an additional retirement benefit for such elected officer service.

3. Such member shall be entitled to purchase additional retirement credit in the Elected Officers' Class for any postretirement service performed in an elected position eligible for the Elected Officers' Class prior to July 1, 1990, or in the Regular Class for any postretirement service performed in any other regularly established position prior to July 1, 1991, by paying the applicable Elected Officers' Class or Regular Class employee and employer contributions for the period being claimed, plus 4 percent interest compounded annually from the first year of service claimed until July 1, 1975, and 6.5 percent interest compounded thereafter, until full payment is made to the Florida Retirement System Trust Fund. The contribution for postretirement Regular Class service between July 1, 1985, and July 1, 1991, for which the reemployed retiree contribution was paid, shall be the difference between such contribution and the total applicable contribution for the period being claimed, plus interest. The employer of such member may pay the applicable employer contribution in lieu of the member. If a member does not wish to claim credit for all of the postretirement service for which he or she is eligible, the service the member claims must be the most recent service.

4. Creditable service for which credit was received, or which remained unclaimed, at retirement may not be claimed or applied toward service credit earned following renewed membership. However, service earned in accordance with the renewed membership provisions in s. 121.122 may be used in conjunction with creditable service earned under this paragraph, provided applicable vesting requirements and other existing statutory conditions required by this chapter are met.

5. Any elected officer who is a participating member of DROP may terminate participation at any time during the 60-month DROP participation period and elect to enroll in the appropriate subclass of the Elected Officers' Class, including participating in the Senior Management Service Class, effective the first day of the following month.

Section 2. Paragraph (b) of subsection (13) of section 121.091, Florida Statutes, is amended to read:

121.091 Benefits payable under the system.—Benefits may not be paid under this section unless the member has terminated employment as provided in s. 121.021(39)(a) or begun participation in the Deferred Retirement Option Program as provided in subsection (13), and a proper application has been filed in the manner prescribed by the department. The department may cancel an application for retirement benefits when the member or beneficiary fails to timely provide the information and documents required by this chapter and the department's rules. The department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application when the required information or documents are not received.

(13) DEFERRED RETIREMENT OPTION PROGRAM.—In general, and subject to the provisions of this section, the Deferred Retirement Option Program, hereinafter referred to as the DROP, is a program under which an eligible member of the Florida Retirement System may elect to participate, deferring receipt of retirement benefits while continuing employment with his or her Florida Retirement System employer. The deferred monthly benefits shall accrue in the System Trust Fund on behalf of the participant, plus interest compounded monthly, for the specified period of the DROP participation, as provided in paragraph (c). Upon termination of employment, the participant shall receive the total DROP benefits and begin to receive the previously determined normal retirement benefits. Participation in the DROP does not guarantee employment for the specified period of DROP.

(b) Participation in the DROP.—

1. An eligible member may elect to participate in the DROP for a period not to exceed a maximum of 60 calendar months immediately following the date on which the member first reaches his or her normal retirement date or the date to which he or she is eligible to defer his or her election to participate as provided in subparagraph (a)2. However, a member who has reached normal retirement date prior to the effective date of the DROP shall be eligible to participate in the DROP for a period of time not to exceed 60 calendar months immediately following the effective date of the DROP, except a member of the Special Risk Class who has reached normal retirement date prior to the effective date of the DROP and whose total accrued value exceeds 75 percent of average final compensation as of his or her effective date of retirement shall be eligible to participate in the DROP for no more than 36 calendar months immediately following the effective date of the DROP.

2. Upon deciding to participate in the DROP, the member shall submit, on forms required by the division:

- a. A written election to participate in the DROP;
- b. Selection of the DROP participation and termination dates, which satisfy the limitations stated in paragraph (a) and subparagraph 1. Such termination date shall be in a binding letter of resignation with the employer, establishing a deferred termination date. The member may change the termination date within the limitations of subparagraph 1., but only with the written approval of his or her employer;
- c. A properly completed DROP application for service retirement as provided in this section; and
- d. Any other information required by the division.

3. The DROP participant shall be a retiree under the Florida Retirement System for all purposes, except for paragraph (5)(f) and subsection (9) and ss. 112.3173, 112.363, 121.053, and 121.122. However, participation in the DROP does not alter the participant's employment status and such employee shall not be deemed retired from employment until his or her deferred resignation is effective and termination occurs as provided in s. 121.021(39).

4. Elected officers shall be eligible to participate in the DROP subject to the following:

- a. An elected officer who reaches normal retirement date during a term of office may defer the election to participate in the DROP until the next succeeding term in that office. Such elected officer who exercises this option may participate in the DROP for up to 60 calendar months or a period of no longer than such succeeding term of office, whichever is less.
- b. An elected or a nonelected participant may run for a term of office while participating in DROP and, if elected, extend the DROP termination date accordingly, except, however, if such additional term of office exceeds the 60-month limitation established in subparagraph 1., and the officer does not resign from office within such 60-month limitation, the retirement and the participant's DROP shall be null and void as provided in sub-subparagraph (c)5.d.

c. An elected officer who is dually employed and elects to participate in DROP shall be required to satisfy the definition of termination within the 60-month limitation period as provided in subparagraph 1. for the nonelected position and may continue employment as an elected officer as provided in s. 121.053. The elected officer will be enrolled as a renewed member in the Elected Officers' Class or the Regular Class, as

provided in ss. 121.053 and 121.22, on the first day of the month after termination of employment in the nonelected position and termination of DROP. Distribution of the DROP benefits shall be made as provided in paragraph (c).

d. An elected officer who is elected or appointed to an elective office is not subject to termination limitations as provided in chapter 121.

And the title is amended as follows:

On page 1, line 2, after "disabilities;" insert: amending s. 121.053, F.S.; authorizing elected officers participating in DROP to terminate participation in DROP and enroll in a subclass of the Elected Officers' Class; amending s. 121.091, F.S.; increasing the time for participation in the Deferred Retirement Option Program for members of the Elected Officers' Class of the Florida Retirement System; providing that elected officers are not subject to termination limitations;

House Amendment 2 (511277)(with title amendment)—On page 1, line 13, of the bill insert:

Section 1. Subsection (1), paragraph (a) of subsection (2), paragraph (e) of subsection (4), paragraph (b) of subsection (8), and paragraphs (a) and (b) of subsection (9) of section 121.4501, Florida Statutes, are amended, and paragraph (f) is added to subsection (9) of said section, to read:

121.4501 Public Employee Optional Retirement Program.—

(1) The Trustees of the State Board of Administration shall establish an optional defined contribution retirement program for members of the Florida Retirement System under which retirement benefits will be provided for eligible employees who elect to participate in the program. The benefits to be provided for or on behalf of participants in such optional retirement program shall be provided through employee-directed investments, in accordance with s. 401(a) of the Internal Revenue Code and its related regulations. The employers shall contribute, as provided in this section and s. 121.571, to the *Public Employee Optional Retirement Program Trust Fund* toward the funding of such optional benefits.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Approved provider" or "provider" means a private sector company that is selected and approved by the state board to offer one or more investment products or services to the Public Employee Optional Retirement Program, including a "bundled provider" that offers participants a range of individually allocated or unallocated investment products and may offer a range of administrative and customer services, which may include accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions; direct advice and guidance on its investments options; a broad array of distribution options; and asset allocation and retirement counseling and education. Private sector companies include investment management companies, insurance companies, depositories, and mutual fund companies.

(4) PARTICIPATION; ENROLLMENT.—

(e) After the period during which an eligible employee had the choice to elect the defined benefit program or the Public Employee Optional Retirement Program, the employee shall have one opportunity, that is, a second election, at the employee's discretion, to choose to move from the defined benefit program to the Public Employee Optional Retirement Program or from the Public Employee Optional Retirement Program to the defined benefit program. This paragraph shall be contingent upon approval from the Internal Revenue Service for including the choice described herein within the programs offered by the Florida Retirement System.

1. If the employee chooses to move to the Public Employee Optional Retirement Program, the applicable provisions of this section shall govern the transfer.

2. If the employee chooses to move from the *Public Employee Optional Retirement Program* to the defined benefit program, the employee

must transfer from his or her *optional program* ~~Public Employee Optional Retirement Program~~ account and from other employee moneys as necessary, a sum representing all contributions that would have been made to the defined benefit plan for that employee and the actual return that would have been earned on those contributions had they been invested in the defined benefit program.

If, at the time of a member's election to transfer to the defined benefit program, the member's optional program account does not contain the total amount required to be transferred to the defined benefit program, the member must pay the remaining balance. If the member's optional program account contains more than the amount required to be transferred to the defined benefit program, such additional amount shall remain in the member's optional program account.

(8) ADMINISTRATION OF PROGRAM.—

(b)1. The state board shall select and contract with one third-party administrator to provide administrative services, *where those services do not duplicate services provided by the Division of Retirement within the Department of Management Services.* With the approval of the state board, the third-party administrator may subcontract with other organizations or individuals to provide components of the administrative services. As a cost of administration, the board may compensate any such contractor for its services, in accordance with the terms of the contract, as is deemed necessary or proper by the board. The third-party administrator may not be an approved provider or be affiliated with an approved provider.

2. *These administrative services may include, but are not limited to, enrollment of eligible employees, collection of employer contributions, disbursement of such contributions to approved providers in accordance with the allocation directions of participants; services relating to consolidated billing; individual and collective recordkeeping and accounting; asset purchase, control, and safekeeping; and direct disbursement of funds to and from the third-party administrator, the division, the board, employers, participants, approved providers, and beneficiaries. Nothing in this section shall prevent or prohibit a bundled provider from providing any administrative or customer service, including accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions.*

3. The state board shall select and contract with one or more organizations to provide educational services. With approval of the board, the organizations may subcontract with other organizations or individuals to provide components of the educational services. As a cost of administration, the board may compensate any such contractor for its services in accordance with the terms of the contract, as is deemed necessary or proper by the board. The education organization may not be an approved provider or be affiliated with an approved provider.

4. Educational services shall be designed by the board and department to assist employers, eligible employees, participants, and beneficiaries in order to maintain compliance with United States Department of Labor regulations under s. 404(c) of the Employee Retirement Income Security Act of 1974 and to assist employees in their choice of defined benefit or defined contribution retirement alternatives. Educational services include, but are not limited to, disseminating educational materials; providing retirement planning education; explaining the differences between the defined benefit retirement plan and the defined contribution retirement plan; and offering financial planning guidance on matters such as investment diversification, investment risks, investment costs, and asset allocation. An approved provider may also provide educational information, including retirement planning and investment allocation information concerning its products and services.

(9) INVESTMENT OPTIONS OR PRODUCTS; PERFORMANCE REVIEW.—

(a) The board shall develop policy and procedures for selecting, evaluating, and monitoring the performance of approved providers and investment products to which employees may direct retirement contributions under the program. In accordance with such policy and procedures, the board shall designate and contract for a number of investment products as determined by the board. The board shall *also* select one or more

bundled providers, each of whom who offer nine multiple investment options and related services products when such an approach is determined by the board to afford value to the participants otherwise not available through individual investment products. Each approved bundled provider may offer investment options that provide participants with the opportunity to invest in each of the following asset classes, to be composed of individual options that represent either a single asset class or a combination thereof: money markets, U.S. fixed income, U.S. equities, and foreign stock. The board shall review and manage all educational materials, contract terms, fee schedules, and other aspects of the approved provider relationships to ensure that no provider is unduly favored or penalized by virtue of its status within the plan.

(b) The board shall consider investment options or products it considers appropriate to give participants the opportunity to accumulate retirement benefits, subject to the following:

1. The Public Employee Optional Retirement Program must offer a diversified mix of low-cost investment products that span the risk-return spectrum, *and may include a guaranteed account as well as investment products such as individually allocated guaranteed and variable annuities, that meet the requirements of this subsection and that combine the ability to accumulate investment returns with the option of receiving lifetime income consistent with the long-term retirement security of a pension plan and similar to the lifetime income benefit provided by the Florida Retirement System.*

2. Investment options or products offered by the group of approved providers may include mutual funds, group annuity contracts, individual retirement annuities, interests in trusts, collective trusts, separate accounts, and other such financial instruments, *and shall include products that give participants the option of committing their contributions for an extended time period in an effort to obtain higher returns than could be obtained from investment products offering full liquidity.*

3. The board shall not contract with any provider that imposes a front-end, back-end, contingent, or deferred sales charge, or any other fee that limits or restricts the ability of participants to select any investment product available in the optional program. *This prohibition shall not apply to fees or charges that are imposed on withdrawals from products that give participants the option of committing their contributions for an extended time period in an effort to obtain higher returns than could be obtained from investment products offering full liquidity, provided that the product in question, net of all fees and charges, produces material benefits relative to other comparable products in the program offering full liquidity.*

4. *Fees or charges for insurance features, such as mortality and expense risk charges, shall be reasonable relative to the benefits provided.*

(f)1. An approved provider shall comply with all applicable federal and state securities and insurance laws and regulations, as well as the applicable rules and guidelines of the National Association of Securities Dealers (NASD) governing the ethical marketing of investment products. In furtherance of this mandate, an approved provider must agree in its contract with the board to establish and maintain a compliance education and monitoring system to supervise the activities of all personnel who directly communicate with individual participants and recommend investment products, which system is consistent with National Association of Security Dealers rules.

2. *Approved provider personnel who directly communicate with individual participants and who recommend investment products shall make an independent and unbiased determination as to whether an investment product is suitable for a particular participant.*

3. *The board shall develop procedures to receive and resolve participant complaints against a provider or approved provider personnel, and, when appropriate, refer such complaints to the appropriate regulatory agency.*

4. *Approved providers are prohibited from selling or in any way distributing any customer list or participant identification information generated through their offering of products or services through the optional retirement program.*

Section 2. *The appointment of the executive director of the State Board of Administration shall be subject to the approval by a majority vote of the Board of Trustees of the State Board of Administration and*

the Governor must vote on the prevailing side. Such appointment must be reaffirmed in the same manner by the Board of Trustees on an annual basis.

And the title is amended as follows:

On page 1, line 2, after the semicolon insert: amending s. 121.4501, F.S.; redefining the term "approved provider"; providing requirements for the State Board of Administration in carrying out its duties under the program; providing requirements for approved providers regarding federal and state laws and regulations, and for communications with participants; providing requirements for the appointment of the executive director of the State Board of Administration;

This service credit may be purchased by the employer on behalf of the member.

Section 3. Subsection (1), paragraph (a) of subsection (2), paragraph (e) of subsection (4), paragraph (b) of subsection (8), and paragraphs (a) and (b) of subsection (9) of section 121.4501, Florida Statutes, are amended, and paragraph (f) is added to subsection (9) of that section, to read:

121.4501 Public Employee Optional Retirement Program.—

(1) The Trustees of the State Board of Administration shall establish an optional defined contribution retirement program for members of the Florida Retirement System under which retirement benefits will be provided for eligible employees who elect to participate in the program. The benefits to be provided for or on behalf of participants in such optional retirement program shall be provided through employee-directed investments, in accordance with s. 401(a) of the Internal Revenue Code and its related regulations. The employers shall contribute, as provided in this section and s. 121.571, to the *Public Employee Optional Retirement Program Trust Fund* toward the funding of such optional benefits.

(2) DEFINITIONS.—As used in this section, the term:

(a) “Approved provider” or “provider” means a private sector company that is selected and approved by the state board to offer one or more investment products or services to the Public Employee Optional Retirement Program. *The term includes a bundled provider that offers participants a range of individually allocated or unallocated investment products and may offer a range of administrative and customer services, which may include accounting and administration of individual participant benefits and contributions; individual participant recordkeeping;*

asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions; guidance, advice, and allocation services directly relating to its own investment options or products, but only if the bundled provider complies with the standard of care of s. 404(a)(1)(A-B) of the Employee Retirement Income Security Act of 1974 (ERISA) and if providing such guidance, advice, or allocation services does not constitute a prohibited transaction under s. 4975(c)(1) of the Internal Revenue Code or s. 406 of ERISA, notwithstanding that such prohibited transaction provisions do not apply to the optional retirement program; a broad array of distribution options; asset allocation; and retirement counseling and education. Private sector companies include investment management companies, insurance companies, depositories, and mutual fund companies.

(4) PARTICIPATION; ENROLLMENT.—

(e) After the period during which an eligible employee had the choice to elect the defined benefit program or the Public Employee Optional Retirement Program, the employee shall have one opportunity, at the employee's discretion, to choose to move from the defined benefit program to the Public Employee Optional Retirement Program or from the Public Employee Optional Retirement Program to the defined benefit program. This paragraph shall be contingent upon approval from the Internal Revenue Service for including the choice described herein within the programs offered by the Florida Retirement System.

1. If the employee chooses to move to the Public Employee Optional Retirement Program, the applicable provisions of this section shall govern the transfer.

2. If the employee chooses to move to the defined benefit program, the employee must transfer from his or her Public Employee Optional Retirement Program account and from other employee moneys as necessary, a sum representing *the present value of that employee's accumulated benefit obligation immediately following the time of such movement, determined assuming that attained service equals the sum of service in the defined benefit program and service in the Public Employee Optional Retirement Program all contributions that would have been made to the defined benefit plan for that employee and the actual return that would have been earned on those contributions had they been invested in the defined benefit program. Benefit commencement occurs on the first date the employee would become eligible for unreduced benefits, using the discount rate and other relevant actuarial assumptions that were used to value the Florida Retirement System defined benefit plan liabilities in the most recent actuarial valuation. For any employee who, at the time of the second election, already maintains an accrued benefit amount in the defined benefit plan, the then-present value of such accrued benefit shall be deemed part of the required transfer amount described in this subparagraph. The division shall ensure that the transfer sum is prepared using a formula and methodology certified by an enrolled actuary.*

3. *Notwithstanding subparagraph 2., an employee who chooses to move to the defined benefit program and who became eligible to participate in the Public Employee Optional Retirement Program by reason of employment in a regularly established position with a state employer after June 1, 2002; a district school board employer after September 1, 2002; or a local employer after December 1, 2002, must transfer from his or her Public Employee Optional Retirement Program account and, from other employee moneys as necessary, a sum representing that employee's actuarial accrued liability.*

4. *Employees' ability to transfer from the Florida Retirement System defined benefit program to the Public Employee Optional Retirement Program pursuant to paragraphs (a) through (d), and the ability for current employees to have an option to later transfer back into the defined benefit program under subparagraph 2., shall be deemed a significant system amendment. Pursuant to s. 121.031(4), any such resulting unfunded liability arising from actual original transfers from the defined benefit program to the optional program shall be amortized within 30 plan years as a separate unfunded actuarial base independent of the reserve stabilization mechanism defined in s. 121.031(3)(f). For the first 25 years, no direct amortization payment shall be calculated for this base. During this 25-year period, such separate base shall be used to offset the impact of employees exercising their second program election under this*

paragraph. It is the legislative intent that the actuarial funded status of the Florida Retirement System defined benefit plan is neither beneficially nor adversely impacted by such second program elections in any significant manner, after due recognition of the separate unfunded actuarial base. Following this initial 25-year period, any remaining balance of the original separate base shall be amortized over the remaining 5 years of the required 30-year amortization period.

(8) ADMINISTRATION OF PROGRAM.—

(b)1. The state board shall select and contract with one third-party administrator to provide administrative services *if those services cannot be competitively and contractually provided by the Division of Retirement within the Department of Management Services*. With the approval of the state board, the third-party administrator may subcontract with other organizations or individuals to provide components of the administrative services. As a cost of administration, the board may compensate any such contractor for its services, in accordance with the terms of the contract, as is deemed necessary or proper by the board. The third-party administrator may not be an approved provider or be affiliated with an approved provider.

2. *These administrative services may include, but are not limited to, enrollment of eligible employees, collection of employer contributions, disbursement of such contributions to approved providers in accordance with the allocation directions of participants; services relating to consolidated billing; individual and collective recordkeeping and accounting; asset purchase, control, and safekeeping; and direct disbursement of funds to and from the third-party administrator, the division, the board, employers, participants, approved providers, and beneficiaries. This section does not prevent or prohibit a bundled provider from providing any administrative or customer service, including accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; or periodic reporting to participants, at least quarterly, on account balances and transactions, if these services are authorized by the board as part of the contract.*

3. The state board shall select and contract with one or more organizations to provide educational services. With approval of the board, the organizations may subcontract with other organizations or individuals to provide components of the educational services. As a cost of administration, the board may compensate any such contractor for its services in accordance with the terms of the contract, as is deemed necessary or proper by the board. The education organization may not be an approved provider or be affiliated with an approved provider.

4. Educational services shall be designed by the board and department to assist employers, eligible employees, participants, and beneficiaries in order to maintain compliance with United States Department of Labor regulations under s. 404(c) of the Employee Retirement Income Security Act of 1974 and to assist employees in their choice of defined benefit or defined contribution retirement alternatives. Educational services include, but are not limited to, disseminating educational materials; providing retirement planning education; explaining the differences between the defined benefit retirement plan and the defined contribution retirement plan; and offering financial planning guidance on matters such as investment diversification, investment risks, investment costs, and asset allocation. An approved provider may also provide educational information, including retirement planning and investment allocation information concerning its products and services.

(9) INVESTMENT OPTIONS OR PRODUCTS; PERFORMANCE REVIEW.—

(a) The board shall develop policy and procedures for selecting, evaluating, and monitoring the performance of approved providers and investment products to which employees may direct retirement contributions under the program. In accordance with such policy and procedures, the board shall designate and contract for a number of investment products as determined by the board. The board shall *also* select one or more *bundled providers each of whom may offer multiple* ~~who offer multiple~~ investment options and related services ~~products~~ when such an approach is determined by the board to afford value to the participants otherwise not available through individual investment products. *Each approved bundled provider may offer investment options that provide participants*

with the opportunity to invest in each of the following asset classes, to be composed of individual options that represent either a single asset class or a combination thereof: money markets, United States fixed income, United States equities, and foreign stock. The board shall review and manage all educational materials, contract terms, fee schedules, and other aspects of the approved provider relationships to ensure that no provider is unduly favored or penalized by virtue of its status within the plan.

(b) The board shall consider investment options or products it considers appropriate to give participants the opportunity to accumulate retirement benefits, subject to the following:

1. The Public Employee Optional Retirement Program must offer a diversified mix of low-cost investment products that span the risk-return spectrum *and may include a guaranteed account as well as investment products, such as individually allocated guaranteed and variable annuities, which meet the requirements of this subsection and combine the ability to accumulate investment returns with the option of receiving lifetime income consistent with the long-term retirement security of a pension plan and similar to the lifetime-income benefit provided by the Florida Retirement System.*

2. Investment options or products offered by the group of approved providers may include mutual funds, group annuity contracts, individual retirement annuities, interests in trusts, collective trusts, separate accounts, and other such financial instruments, *and may include products that give participants the option of committing their contributions for an extended time period in an effort to obtain returns higher than those that could be obtained from investment products offering full liquidity.*

3. The board shall not contract with any provider that imposes a front-end, back-end, contingent, or deferred sales charge, or any other fee that limits or restricts the ability of participants to select any investment product available in the optional program. *This prohibition does not apply to fees or charges that are imposed on withdrawals from products that give participants the option of committing their contributions for an extended time period in an effort to obtain returns higher than those that could be obtained from investment products offering full liquidity, provided that the product in question, net of all fees and charges, produces material benefits relative to other comparable products in the program offering full liquidity.*

4. *Fees or charges for insurance features, such as mortality and expense-risk charges, must be reasonable relative to the benefits provided.*

(f)1. *An approved provider shall comply with all federal and state securities and insurance laws and regulations applicable to the provider, as well as the applicable rules and guidelines of the National Association of Securities Dealers which govern the ethical marketing of investment products. In furtherance of this mandate, an approved provider must agree in its contract with the board to establish and maintain a compliance education and monitoring system to supervise the activities of all personnel who directly communicate with individual participants and recommend investment products, which system is consistent with rules of the National Association of Securities Dealers.*

2. *Approved provider personnel who directly communicate with individual participants and who recommend investment products shall make an independent and unbiased determination as to whether an investment product is suitable for a particular participant.*

3. *The board shall develop procedures to receive and resolve participant complaints against a provider or approved provider personnel, and, when appropriate, refer such complaints to the appropriate agency.*

4. *Approved providers may not sell or in any way distribute any customer list or participant identification information generated through their offering of products or services through the optional retirement program.*

Section 4. Subsection (9) is added to section 121.0515, Florida Statutes, to read:

121.0515 Special risk membership.—

(9) CREDIT FOR UPGRADED SERVICE.—*Any member of the Special Risk Class who has earned creditable service in another membership*

class of the Florida Retirement System as an emergency medical technician or paramedic, which service is within the purview of the Special Risk Class, may purchase additional retirement credit to upgrade such service to Special Risk Class service, to the extent of the percentages of the member's average final compensation provided in s. 121.091(1)(a)2. Contributions for upgrading such service to Special Risk Class credit under this subsection shall be equal to the difference in the contributions paid and the Special Risk Class contribution rate as a percentage of gross salary in effect for the period being claimed, plus interest thereon at the rate of 6.5 percent a year, compounded annually until the date of payment. This service credit may be purchased by the employer on behalf of the member.

Section 5. It is the intent of the Legislature that any additional cost attributable to the upgrade in the retirement benefits for emergency medical technicians and paramedics above the contributions paid in accordance with section 4 of this act shall be funded by recognition of the necessary amount from the excess actuarial assets of the Florida Retirement System Trust Fund.

Section 6. Paragraph (e) of subsection (3) of section 121.052, Florida Statutes, is amended to read:

121.052 Membership class of elected officers.—

(3) PARTICIPATION AND WITHDRAWAL, GENERALLY.—Effective July 1, 1990, participation in the Elected Officers' Class shall be compulsory for elected officers listed in paragraphs (2)(a)-(d) and (f) assuming office on or after said date, unless the elected officer elects membership in another class or withdraws from the Florida Retirement System as provided in paragraphs (3)(a)-(d):

(e) Effective July 1, 2001 ~~1997~~, the governing body of a municipality or special district may, by majority vote, elect to designate all its elected positions for inclusion in the Elected Officers' Class. Such election shall be made between July 1, 2001 ~~1997~~, and December 31, 2001 ~~1997~~, and shall be irrevocable. The designation of such positions shall be effective the first day of the month following receipt by the department of the ordinance or resolution passed by the governing body.

Section 1. Paragraph (c) of subsection (2) of section 231.621, Florida Statutes, is amended to read:

231.621 Critical Teacher Shortage Student Loan Forgiveness Program.—

(2) From the funds available, the Department of Education may make loan principal repayments as follows:

(c) All repayments shall be contingent on continued proof of employment in the designated subject areas in this state and shall be made directly to the holder of the loan *or, in case of a loan being paid in full, directly to the teacher*. The state shall not bear responsibility for the collection of any interest charges or other remaining balance. In the event that designated critical teacher shortage subject areas are changed by the State Board of Education, a teacher shall continue to be eligible for loan forgiveness as long as he or she continues to teach in the subject area for which the original loan repayment was made and otherwise meets all conditions of eligibility.

Section 2. Effective July 1, 2002, paragraph (e) of subsection (3) of section 240.209, Florida Statutes, is amended to read:

240.209 Board of Regents; powers and duties.—

(3) The board shall:

(e) Establish student fees.

1. By no later than December 1 of each year, the board shall raise the systemwide standard for resident undergraduate matriculation and financial aid fees for the subsequent fall term, up to but no more than 25 percent of the prior year's cost of undergraduate programs. In implementing this paragraph, fees charged for graduate, medical, veterinary, and dental programs may be increased by the Board of Regents in the same percentage as the increase in fees for resident undergraduates. However, in the absence of legislative action to the contrary in an appropriations act, the board may not approve annual fee increases for resident students in excess of 10 percent. The sum of nonresident student matriculation and tuition fees must be sufficient to defray the full cost of undergraduate education. Graduate, medical, veterinary, and dental fees charged to nonresidents may be increased by the board in the same percentage as the increase in fees for nonresident undergraduates. However, in implementing this policy and in the absence of legislative action

to the contrary in an appropriations act, annual fee increases for nonresident students may not exceed 25 percent. In the absence of legislative action to the contrary in the General Appropriations Act, the fees shall go into effect for the following fall term.

2. When the appropriations act requires a new fee schedule, the board shall establish a systemwide standard fee schedule required to produce the total fee revenue established in the appropriations act based on the product of the assigned enrollment and the fee schedule. The board may approve the expenditure of any fee revenues resulting from the product of the fee schedule adopted pursuant to this section and the assigned enrollment.

3. Upon provision of authority in a General Appropriations Act to spend revenue raised pursuant to this section, the board shall approve a university request to implement a matriculation and out-of-state tuition fee schedule which is calculated to generate revenue which varies no more than 10 percent from the standard fee revenues authorized through an appropriations act. In implementing an alternative fee schedule, the increase in cost to a student taking 15 hours in one term shall be limited to 5 percent. Matriculation and out-of-state tuition fee revenues generated as a result of this provision are to be expended for implementing a plan for achieving accountability goals adopted pursuant to s. 240.214 and for implementing a Board of Regents-approved plan to contain student costs by reducing the time necessary for graduation without reducing the quality of instruction. The plans shall be recommended by a universitywide committee, at least one-half of whom are students appointed by the student body president. A chairperson, appointed jointly by the university president and the student body president, shall vote only in the case of a tie.

4. The board may implement individual university plans for a differential out-of-state tuition fee for universities that have a service area that borders another state.

5. The board is authorized to collect for financial aid purposes an amount not to exceed 5 percent of the student tuition and matriculation fee per credit hour. The revenues from fees are to remain at each campus and replace existing financial aid fees. Such funds shall be disbursed to students as quickly as possible. *These funds may not be used for direct or indirect administrative purposes or salaries.* The board shall specify specific limits on the percent of the fees collected in a fiscal year which may be carried forward unexpended to the following fiscal year. A minimum of 75 ~~50~~ percent of funds from the student financial aid fee *for new financial aid awards* shall be used to provide financial aid based on absolute need. A student who has received an award prior to July 1, 1984, shall have his or her eligibility assessed on the same criteria that was used at the time of his or her original award. *The Board of Regents shall develop criteria for making financial aid awards. Each university shall report annually to the Department of Education on the revenue collected pursuant to this subparagraph, the amount carried forward, the criteria used to make awards, the amount and number of awards for each criterion, and a delineation of the distribution of such awards. The report shall include an assessment by category of the financial need of every student who receives an award, regardless of the purpose for which the award is received. Awards which are based on financial need shall be distributed in accordance with a nationally recognized system of need analysis approved by the Board of Regents. An award for academic merit shall require a minimum overall grade point average of 3.0 on a 4.0 scale or the equivalent for both initial receipt of the award and renewal of the award.*

6. The board may recommend to the Legislature an appropriate systemwide standard matriculation and tuition fee schedule.

7. The Education and General Student and Other Fees Trust Fund is hereby created, to be administered by the Department of Education. Funds shall be credited to the trust fund from student fee collections and other miscellaneous fees and receipts. The purpose of the trust fund is to support the instruction and research missions of the State University System. Notwithstanding the provisions of s. 216.301, and pursuant to s. 216.351, any balance in the trust fund at the end of any fiscal year shall remain in the trust fund and shall be available for carrying out the purposes of the trust fund.

8. The board is further authorized to establish the following fees:

a. A nonrefundable application fee in an amount not to exceed \$30.

b. An admissions deposit fee for the University of Florida College of Dentistry in an amount not to exceed \$200.

c. An orientation fee in an amount not to exceed \$35.

d. A fee for security, access, or identification cards. The annual fee for such a card may not exceed \$10 per card. The maximum amount charged for a replacement card may not exceed \$15.

e. Registration fees for audit and zero-hours registration; a service charge, which may not exceed \$15, for the payment of tuition in installments; and a late-registration fee in an amount not less than \$50 nor more than \$100 to be imposed on students who fail to initiate registration during the regular registration period.

f. A late-payment fee in an amount not less than \$50 nor more than \$100 to be imposed on students who fail to pay or fail to make appropriate arrangements to pay (by means of installment payment, deferment, or third-party billing) tuition by the deadline set by each university. Each university may adopt specific procedures or policies for waiving the late-payment fee for minor underpayments.

g. A fee for miscellaneous health-related charges for services provided at cost by the university health center which are not covered by the health fee set under s. 240.235(1).

h. Materials and supplies fees to offset the cost of materials or supplies that are consumed in the course of the student's instructional activities, excluding the cost of equipment replacement, repairs, and maintenance.

i. Housing rental rates and miscellaneous housing charges for services provided by the university at the request of the student.

j. A charge representing the reasonable cost of efforts to collect payment of overdue accounts.

k. A service charge on university loans in lieu of interest and administrative handling charges.

l. A fee for off-campus course offerings when the location results in specific, identifiable increased costs to the university.

m. Library fees and fines, including charges for damaged and lost library materials, overdue reserve library books, interlibrary loans, and literature searches.

n. Fees relating to duplicating, photocopying, binding, and microfilming; copyright services; and standardized testing. These fees may be charged only to those who receive the services.

o. Fees and fines relating to the use, late return, and loss and damage of facilities and equipment.

p. A returned-check fee as authorized by s. 832.07(1) for unpaid checks returned to the university.

q. Traffic and parking fines, charges for parking decals, and transportation access fees.

r. An Educational Research Center for Child Development fee for child care and services offered by the center.

s. Fees for transcripts and diploma replacement, not to exceed \$10 per item.

Section 3. Effective July 1, 2002, subsection (11) of section 240.35, Florida Statutes, is amended to read:

(6)(4)(a) The funds appropriated for the Florida Public Student Assistance Grant shall be distributed to eligible institutions in accordance with a formula recommended by the Department of Education's Florida Council of Student Financial Aid Advisors and reviewed by the Postsecondary Education Planning Commission, the State Board of Community Colleges, and the Board of Regents. The formula shall consider at least the prior year's distribution of funds, the number of full-time eligible applicants who did not receive awards, *the number of eligible applicants who met the application deadline*, the standardization of the expected family contribution, and provisions for unused funds.

(b) Payment of Florida public student assistance grants shall be transmitted to the president of the state university or community college, or to his or her representative, in advance of the registration period. Institutions shall notify students of the amount of their awards.

(c) The eligibility status of each student to receive a disbursement shall be determined by each institution as of the end of its regular registration period, inclusive of a drop-add period. (4) FLORIDA PREPAID COLLEGE TRUST FUND.—There is created within the State Board of Administration the Florida Prepaid College Trust Fund. The goals of the board in selecting a trustee services firm shall be to obtain the highest standards of professional trustee services, to allow all qualified firms interested in providing such services equal consideration, and to provide such services to the state at no cost and to the purchasers at the lowest cost possible. The trustee services firm shall agree to meet the obligations of the board to qualified beneficiaries if moneys in the fund fail to offset the obligations of the board as a result of imprudent selection or supervision of investment programs by such firm. Evaluations of proposals submitted pursuant to this paragraph shall include, but not be limited to, the following criteria:

(a)1. Through the community college plan, the advance payment contract shall provide prepaid registration fees for a specified number of undergraduate semester credit hours not to exceed the average number of hours required for the conference of an associate degree. The cost of participation in the community college plan shall be based primarily on the average current and projected registration fees within the Florida Community College System and the number of years expected to elapse between the purchase of the plan on behalf of a qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. Qualified beneficiaries shall bear the cost of any laboratory fees associated with enrollment in specific courses. Each qualified beneficiary shall be classified as a resident for tuition purposes, pursuant to s. 240.1201, regardless of his or her actual legal residence.

degree, in conjunction with advance payment contracts for registration fees. Such contracts shall provide prepaid coverage for the sum of such fees, to a maximum of 45 percent of the cost of registration fees. The costs of purchasing such fees shall be based primarily on the average current and projected cost of these fees within the State University System and the number of years expected to elapse between the purchase of the plan on behalf of the qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. University plan contracts purchased prior to July 1, 1998, shall be limited to the payment of registration fees as defined in subsection (2).

Qualified beneficiaries shall have the highest priority in the assignment of housing within university residence halls. Each state university may specify the residence halls or other university-held residences eligible for inclusion in the plan. In addition, any state university may request immediate termination of a dormitory residence contract based on a violation or multiple violations of rules of the residence hall or other university-held residences. In the event that sufficient housing is not available for all qualified beneficiaries, the board shall refund the purchaser or qualified beneficiary an amount equal to the fees charged for dormitory residence during that semester. If a qualified beneficiary fails to be admitted to a state university or chooses to attend a community college that operates one or more dormitories or residency opportunities, or has one or more dormitories or residency opportunities operated by the community college direct-support organization, the qualified beneficiary may transfer or cause to have transferred to the community college, or community college direct-support organization, the fees associated with dormitory residence. 411.01 Florida Partnership for School Readiness; school readiness coalitions.—

(1) SHORT TITLE.—This section may be cited as the "School Readiness Act."

(2) LEGISLATIVE INTENT.—

(a) The Legislature recognizes that school readiness programs increase children's chances of achieving future educational success and becoming productive members of society. It is the intent of the Legislature that such programs be developmentally appropriate, research-based, involve parents as their child's first teacher, serve as preventive measures for children at risk of future school failure, enhance the educational readiness of eligible children, and support family education. Each school readiness program shall provide the elements necessary to prepare at-risk children for school, including health screening and referral and an appropriate educational program.

(b) It is the intent of the Legislature that school readiness programs be operated on a full-day, year-round basis to the maximum extent possible to enable parents to work and become financially self-sufficient.

(c) It is the intent of the Legislature that school readiness programs not exist as isolated programs, but build upon existing services and work in cooperation with other programs for young children, and that school readiness programs be coordinated and funding integrated to achieve full effectiveness.

(d) It is the intent of the Legislature that the administrative staff at the state level for school readiness programs be kept to the minimum necessary to carry out the duties of the Florida Partnership for School Readiness, as the school readiness programs are to be locally designed, operated, and managed, with the Florida Partnership for School Readiness adopting a system for measuring school readiness; developing school readiness program performance standards, outcome measurements, and data design and review; and approving and reviewing local school readiness coalitions and plans.

(e) It is the intent of the Legislature that appropriations for combined school readiness programs shall not be less than the programs would receive in any fiscal year on an uncombined basis.

(f) It is the intent of the Legislature that the school readiness program coordinate and operate in conjunction with the district school systems. However, it is also the intent of the Legislature that the school readiness program not be construed as part of the system of free public schools but rather as a separate program for children under the age of kindergarten eligibility, funded separately from the system of free public schools, utilizing a mandatory sliding fee scale, and providing an integrated and seamless system of school readiness services for the state's birth-to-kindergarten population.

(g) It is the intent of the Legislature that the federal child care income tax credit be preserved for school readiness programs.

(h) It is the intent of the Legislature that school readiness services shall be an integrated and seamless system of services with a developmentally appropriate education component for the state's eligible birth-to-kindergarten population described in subsection (6) and shall not be construed as part of the seamless K-20 education system except for the administration of the uniform screening system upon entry into kindergarten.

(3) SCHOOL READINESS PROGRAM.—

(a) The school readiness program shall be phased in on a coalition-by-coalition basis. Each coalition's school readiness program shall have available to it funding from all the coalition's early education and child care programs that are funded with state, federal, lottery, or local funds, including but not limited to Florida First Start programs, Even-Start

literacy programs, prekindergarten early intervention programs, Head Start programs, programs offered by public and private providers of child care, migrant prekindergarten programs, Title I programs, subsidized child care programs, and teen parent programs, together with any additional funds appropriated or obtained for purposes of this section. These programs and their funding streams shall be components of the coalition's integrated school readiness program, with the goal of preparing children for success in school.

(b) *Nothing contained in this act is intended to:*

1. *Relieve parents and guardians of their own obligations to ready their children for school; or*
2. *Create any obligation to provide publicly funded school readiness programs or services beyond those authorized by the Legislature.*

The measurement, the data collection, and the use of the data must serve the statewide school readiness goal. The criteria for determining which data to collect should be the usefulness of the data to state policymakers and local program administrators in administering programs and allocating state funds, and must include the tracking of school readiness system information back to individual school readiness programs to assist in determining program effectiveness.

b. ~~By December 31, 2000,~~ the partnership shall also Adopt a system for evaluating the performance of students through the third grade to

Children who enter public school for the first time in first grade must undergo a uniform screening approved by the partnership for use in first grade. Because children with disabilities may not be able to meet all of the identified expectations for school readiness, the plan for measuring school readiness shall incorporate mechanisms for recognizing the potential variations in expectations for school readiness when serving children with disabilities and shall provide for communities to serve children with disabilities.

When a district superintendent of schools or a district administrator for the Department of Children and Family Services appoints a designee to a school readiness coalition, the designee will be the voting member of the coalition, and any individual attending in his or her place, including the district administrator or superintendent, will have no voting privileges.

~~4. The school readiness coalition shall replace the district interagency coordinating council required under s. 230.2305.~~

Plan implementation is subject to approval of the coalition and the plan by the Florida Partnership for School Readiness.

2. Each school readiness coalition shall develop a plan for implementing the school readiness program to meet the requirements of this section and the performance standards and outcome measures established by the partnership. The plan must include a written description of the role of the program in the coalition's effort to meet the first state education goal, readiness to start school, including a description of the plan to involve the prekindergarten early intervention programs, Head Start Programs, programs offered by public or private providers of child care, preschool programs for children with disabilities, programs for migrant children, Title I programs, subsidized child care programs, and teen parent programs. The plan must also demonstrate how the program will ensure that each 3-year-old and 4-year-old child in a publicly funded school readiness program receives scheduled activities and instruction designed to prepare children to enter kindergarten ready to learn. Prior to implementation of the program, the school readiness coalition must submit the plan to the partnership for approval. h. Direct enhancement services to families and children. System support and direct enhancement services shall be in addition to payments for the placement of children in school readiness programs.

Coalitions may contract with other coalitions to achieve efficiency in multiple-county services, and such contracts may be part of the coalition's business plan.

j. Strategies to meet the needs of unique populations, such as migrant workers.

As part of the plan, the coalition may request the Governor to apply for a waiver to allow the coalition to administer the Head Start Program to accomplish the purposes of the school readiness program. If any school readiness plan can demonstrate that specific statutory goals can be achieved more effectively by using procedures that require modification of existing rules, policies, or procedures, a request for a waiver to the partnership may be made as part of the plan. Upon review, the partnership may grant the proposed modification.

4. Persons with an early childhood teaching certificate may provide support and supervision to other staff in the school readiness program.

5. The coalition may not implement its plan until it submits the plan to and receives approval from the partnership. 8. A coalition may, subject to approval of the partnership as part of the coalition's plan, receive subsidized child care funds for all children eligible for any federal subsidized child care program and be the provider of the program services.

9. Coalitions are authorized to enter into multiparty contracts with multicounty service providers in order to meet the needs of unique populations such as migrant workers.

3. The community college has the facilities and academic resources to deliver the program.

The proposal must be submitted to the Council for Education Policy Research and Improvement for review and comment. Upon approval of the Florida Board of Education for the specific degree program or programs, the community college shall pursue regional accreditation by the Commission on Colleges of the Southern Association of Colleges and Schools. Any additional baccalaureate degree programs the community college wishes to offer must be approved by the Florida Board of Education.

(b) A community college may develop a proposal to deliver specified baccalaureate degree programs in its district. The proposal must be submitted to the Florida Board of Education for approval. The community college's proposal must include the following information:

1. Demand for the baccalaureate degree program is identified by the workforce development board, local businesses and industry, local chambers of commerce, and potential students.
2. Unmet need for graduates of the proposed degree program is substantiated.
3. The community college has the facilities and academic resources to deliver the program.

The proposal must be submitted to the Council for Education Policy Research and Improvement for review and comment. Upon approval of the Florida Board of Education for the specific degree program or programs, the community college shall pursue regional accreditation by the Commission on Colleges of the Southern Association of Colleges and Schools. Any additional baccalaureate degree programs the community college wishes to offer must be approved by the Florida Board of Education.

(3) A community college may not terminate its associate in arts or associate in science degree programs as a result of the authorization provided in subsection (2). The Legislature intends that the primary mission of a community college, including a community college that offers baccalaureate degree programs, continues to be the provision of associate degrees that provide access to a university.

(2) Categorical funding is authorized for the site-determined baccalaureate degree access program created by this section. Funds may not be used to support the construction, renovation, or remodeling of facilities. This program is voluntary and does not preclude other mutually agreed upon arrangements between community colleges and 4-year institutions for the delivery of baccalaureate degrees on community college sites.

(3) Each community college wishing to participate in the site-determined baccalaureate degree access program must:

(a) Identify baccalaureate degree programs that are not currently offered at the community college but are proposed for delivery at the college to meet the academic and economic development needs of one or more communities within the college's service area. When assessing local needs, the college should seek input from the appropriate chamber of commerce, workforce development council, and other civic and business groups. As used in this section, the term "economic development"

means entrepreneurial efforts, the attraction of new business and industry to the area, and the expansion of existing business and industry.

(b) Determine the number of students interested in pursuing each proposed baccalaureate degree program and identify the enrollment patterns, any special characteristics of those students, and any unique combination or modification of course offerings that may be necessary to meet student enrollment needs.

(c) Submit a proposal to the Postsecondary Education Planning Commission requesting validation of the need for the proposed baccalaureate degree program and tentative approval for program funding. The proposal must include:

1. A description of each proposed baccalaureate degree program identifying the junior-level and senior-level courses to be offered and designating whether the program should be offered for a cohort group or as an ongoing degree program.
2. Evidence that local occupational forecasts support the existence of jobs for graduates of the proposed baccalaureate degree programs.
3. An estimated number of students to be served by each proposed degree program.
4. An assurance that the community college's existing facilities are sufficient to meet the additional demands for classroom and laboratory space for the proposed degree programs.

5. Evidence that the college has requested the participation of no fewer than three regionally accredited 4-year postsecondary institutions, including at least one member of the State University System. Any member of the State University System and any independent, regionally accredited, 4-year institution that is chartered in, and has its primary campus located in, Florida may be a partner in a site-determined baccalaureate degree access program at any community college.

6. A tentative agreement between the community college and the 4-year postsecondary institution selected to offer the upper-level courses leading to the proposed degree or degrees.

7. Any additional provisions that the Postsecondary Education Planning Commission considers pertinent to the proposal.

(4) The Postsecondary Education Planning Commission, after soliciting comments from the Board of Regents and the State Board of Community Colleges, shall validate the need for each baccalaureate degree program proposed for delivery according to this section and shall notify the community college that its proposal has been approved or rejected. The commission shall establish procedures for the timely submission, review, and approval of the proposals and agreements required by this section. These procedures must be designed to allow the initiation of approved baccalaureate degree programs at least 3 times each fiscal year.

(5) Once the Postsecondary Education Planning Commission validates the need for the proposed baccalaureate degree program and notifies the community college that its proposal has been approved, the community college shall finalize an agreement with the regionally accredited, public or nonpublic, 4-year postsecondary institution selected to provide the upper-level instructional services in the approved baccalaureate degree program. The commission shall identify the common aspects that each agreement must address, including, but not limited to:

(a) A course delivery pattern based on the student enrollment patterns and characteristics included in the approved proposal.

(b) An articulation provision that guarantees acceptance of students who hold an associate in arts or associate in science degree and satisfy any other prerequisites for admission to the specific baccalaureate degree program.

(c) The provision of library services and student support services.

(d) An agreement that the participating 4-year postsecondary institution will continue offering instructional services at least until all qualified members of the initial group of students have had an opportunity to complete the degree program.

(e) The specific and measurable performance criteria that the Postsecondary Education Planning Commission may use to evaluate the outcomes and outputs of the baccalaureate degree program within an identified timeframe.

(f) An agreement that in-state student tuition for the degree program will not exceed the matriculation fee for the State University System unless the proposal approved by the Postsecondary Education Planning Commission allows the participating institutions to charge differentiated tuition and fees to encourage student attendance and participation. Out-of-state students shall pay full costs. Notwithstanding s. 240.605, students participating in a site-determined baccalaureate degree program may not receive a Florida Resident Access Grant.

(6) Each participating community college must submit the agreement required by this section to the Postsecondary Education Planning Commission for review and final approval before initiating an approved site-determined baccalaureate degree access program. Subject to the availability of legislative appropriations specifically provided for this purpose, the Postsecondary Education Planning Commission must recommend to the Commissioner of Education the total funds to be released to each participating community college for the initiation of the approved site-determined baccalaureate degree access program. The community college shall distribute funds to the participating 4-year postsecondary institution at the rate specified in the approved agreement. The Postsecondary Education Planning Commission shall not recommend the release of funding for any program that is terminated before or after the evaluation required by this section. The total funds to be released for the initiation of an approved program shall be based on the number of fundable upper-level student credit hours for each term. Unless otherwise provided in an appropriations act, the funding per credit hour shall be an amount equal to the state funds, excluding student fees, appropriated to the State University System for each full-time equivalent student enrolled in upper-level course work. Student credit hours funded under this program may not be duplicated in any other calculation of state funding for the 4-year institution.

(7) The Postsecondary Education Planning Commission may require the participating community colleges and 4-year postsecondary institutions to submit information necessary to monitor the annual performance of the program. Within 90 days after the 2nd and 4th year of the site-determined baccalaureate degree access program, the commission shall submit to the chairs of the education and fiscal committees of the Legislature a progress report, including an evaluation of the funding mechanism created by this section. The commission shall review each site-determined baccalaureate degree access program funded under this section to ascertain whether the performance measures specified in the agreement between the participating community college and the 4-year institution have been met. Each program must be reviewed 4 years after initiation unless a shorter timeframe is specified in the agreement. The performance measures must include the student graduation rate, the employment rate of program graduates both within and outside the community college service area, the continuing need to offer the specific baccalaureate degree program in the community college service area, and such other information as the Postsecondary Education Planning Commission may determine necessary for program and performance evaluation. Based on its evaluation, the commission shall either approve continuation of the program, require modifications prior to program approval, or recommend that the participating institutions terminate the program after all qualified members of the initial group of students have an opportunity to complete the degree program. The commission must submit to the Commissioner of Education for inclusion in the legislative budget a request for funding for approved site-determined baccalaureate degree access programs.

(8) If no accredited 4-year institution is willing to provide a baccalaureate degree program approved by the Postsecondary Education Planning Commission under this section, the community college board of trustees may ask the commission to evaluate the college's request to offer the degree program. If the commission is satisfied that the community college should offer the degree program, it shall recommend to the Legislature the enactment of statutory authority for the community college to offer that specific baccalaureate degree program.

Section 36. Effective July 1, 2001, subsection (5) of section 240.2011, Florida Statutes, is amended, and subsection (12) is added to said section, to read:

Section 39. *New College of Florida.*—

(1) **MISSION AND GOALS.**—As a member of the State University System of Florida, *New College of Florida* preserves its distinctive mission as a residential liberal arts honors college. To maintain this mission, *New College of Florida* has the following goals:

(a) To provide a quality education to students of high ability who, because of their ability, deserve a program of study that is both demanding and stimulating.

(b) To engage in undergraduate educational reform by combining educational innovation with educational excellence.

(c) To provide programs of study that allow students to design their educational experience as much as possible in accordance with their individual interests, values, and abilities.

(d) To challenge undergraduates not only to master existing bodies of knowledge but also to extend the frontiers of knowledge through original research.

(2) **ACCREDITATION.**—As soon as possible, *New College of Florida* shall apply to the Commission on Colleges of the Southern Association of Colleges and Schools for separate accreditation.

(3) **BOARD OF TRUSTEES.**—The Governor shall appoint 12 members to the Board of Trustees, to serve 4-year staggered terms, as follows:

(a) Three residents of Sarasota County.

(b) Two residents of Manatee County.

(c) Until the expiration date of the terms of office of the members who are on the board June 30, 2001, seven members selected from the Board of Trustees of the *New College Foundation*.

In addition, a student body president shall be a voting member of the board.

Section 40. *St. Petersburg College.*—

(1) **LEGISLATIVE INTENT.**—The Legislature intends to create an innovative means to increase access to baccalaureate degree level education in populous counties that are underserved by public baccalaureate degree granting institutions. This education is intended to address the state's workforce needs, especially the need for teachers, nurses, and business managers in agencies and firms that require expertise in technology.

(2) **ST. PETERSBURG COLLEGE; MISSION; POLICIES.**—*St. Petersburg Junior College* is redesignated as *St. Petersburg College*. The college shall immediately seek accreditation from the Southern Association of Colleges and Schools as a baccalaureate degree granting college.

(a) The primary mission of *St. Petersburg College* is to provide high-quality undergraduate education at an affordable price for students and the state. The purpose is to promote economic development by preparing people for occupations that require a bachelor's degree and are in demand by existing or emerging public and private employers in this state.

(b) *St. Petersburg College* shall maintain the mission and policies of a Florida community college, including the open-door admissions policy and the authority to offer all programs consistent with a public community college's authority.

(c) *St. Petersburg College* shall maintain the distinction between the college and its university center. *St. Petersburg College* is limited to community college programs and to selected baccalaureate degree level programs that meet community needs and are authorized as provided by this section. The University Center may make available more diverse program offerings, but those programs are offered by a participating college or university and are not to be classified or funded as programs of *St. Petersburg College*.

(d) The academic policies of the upper-division program at *St. Petersburg College* must be in accordance with policies of the State University System.

(e) Sections 240.293 and 240.2945, Florida Statutes, apply to *St. Petersburg College*.

(3) **STUDENTS; FEES.**—

(a) *St. Petersburg College* shall maintain separate records for students who are enrolled in courses classified in the upper division and lower division of a baccalaureate program, according to the common course numbering and designation system. A student shall be reported as a community college student for enrollment in a lower-division course and as a baccalaureate degree program student for enrollment in an upper-division course.

(b) The Board of Trustees of *St. Petersburg College* shall establish the level of matriculation, tuition, and other authorized student fees.

1. For each credit hour of enrollment in a certificate level course or lower-division level college credit course, matriculation and tuition fees must be within the range authorized in law and rule for a community college student at that level.

2. For each credit hour of enrollment in an upper-division level course, matriculation and tuition fees must be in an amount established by the Board of Trustees of *St. Petersburg College*. However, fees for upper-division students must reflect the fact that the college does not incur the costs of major research programs. Therefore, the board shall establish fees for upper-division students within a range that is lower than the fees established for students at a public university but higher than the fees for community college students.

3. Other mandatory fees and local fees must be at the same level for all lower-division students. For upper-division students, other mandatory fees and local fees must be at a level less than fees established for University of South Florida students, regardless of program enrollment or level. However, students in workforce development education courses maintain the authorized fee exemptions described in s. 239.117, Florida Statutes, and may be exempt from local fees imposed by the Board of Trustees, at the board's discretion.

(4) **DEGREES.**—

(a) In addition to the certificates, diplomas, and degrees authorized in s. 240.301, Florida Statutes, *St. Petersburg College* may offer selected baccalaureate degrees. Initially, the college may offer programs that lead to a baccalaureate degree in the following fields:

1. Bachelor of Science in Nursing. This program must be designed to articulate with the associate in science degree in nursing. *St. Petersburg College* shall continue to offer the associate in science degree in nursing.

2. Bachelor of Arts and Bachelor of Science in Elementary Education.

3. Bachelor of Arts and Bachelor of Science in Special Education.

4. Bachelor of Arts and Bachelor of Science in Secondary Education.

5. Bachelor of Applied Science in fields selected by the Board of Trustees of *St. Petersburg College*. The Board of Trustees shall base the selection on an analysis of workforce needs and opportunities in the following counties: Pinellas, Pasco, Hernando, and other counties approved by the Florida Department of Education. For each program selected, *St. Petersburg College* must offer a related associate in science or associate in applied science degree program, and the baccalaureate degree level program must be designed to articulate fully with at least one associate in science degree program. The college is encouraged to develop articulation agreements for enrollment of graduates of related associate in applied science degree programs.

(b) *St. Petersburg College* may offer courses that enable teachers to qualify for certification and recertification as required by law or rule.

(c) *St. Petersburg College* may offer programs to provide opportunities for a person who holds a baccalaureate degree, but is not certified to teach, to obtain any additional courses required for teacher certification.

(d) Master's degree level programs and doctoral programs may be provided by agreement with a college or university participating in the University Center of *St. Petersburg College*.

(e) For those students living outside Pinellas County, St. Petersburg College shall recruit for the upper-division only those students who have earned an associate degree. In recruiting upper-division students in Pasco and Hernando Counties, St. Petersburg College shall work cooperatively with Pasco-Hernando Community College and shall seek to offer courses and programs at Pasco-Hernando Community College when feasible. The nursing programs, in particular, must be conducted cooperatively, and programs at St. Petersburg College shall not conflict with Pasco-Hernando Community College's and the University of South Florida's cooperative nursing program.

(5) **BOARDS.—**

(a) The Board of Trustees of St. Petersburg Junior College is renamed the Board of Trustees of St. Petersburg College and serves as its governing board. The Governor shall appoint members as provided in s. 240.313, Florida Statutes, and the board has the duties and authorities granted in ss. 240.315 and 240.319, Florida Statutes, and by rules of the Florida Board of Education.

(b) The Board of Trustees of St. Petersburg College may authorize direct-support organizations as authorized in ss. 240.299 and 240.331, Florida Statutes.

(c) The Board of Trustees of St. Petersburg College may continue to award degrees, diplomas, and certificates as authorized for St. Petersburg Junior College, and in the name of St. Petersburg Junior College, until St. Petersburg College receives its accreditation.

(d) A coordinating board shall assist the Board of Trustees in its deliberations concerning issues that affect the upper-division of St. Petersburg College. The coordinating board consists of the President of the University of South Florida, the President of St. Petersburg College, the President of Pasco-Hernando Community College, and the chairs of the boards of trustees of those institutions.

(e) Beginning 4 years after the college receives accreditation to offer baccalaureate degrees, the Board of Trustees of St. Petersburg College may determine additional programs to be offered, with the approval of the coordinating board. The determination must consider community needs and economic opportunities.

(f) The coordinating board shall meet at the request of the President of the University of South Florida or the President of St. Petersburg College.

(g) If the coordinating board cannot decide an issue of importance to the programs designed for upper-division students, the chief educational officer of this state shall resolve the issue.

(6) **EMPLOYEES.—**

(a) Employment at St. Petersburg College is governed by the same laws that govern community colleges, except that upper-division faculty are eligible for continuing contracts upon the completion of the fifth year of teaching.

(b) Employee records for all personnel shall be maintained as required by s. 240.337, Florida Statutes.

(7) **FACILITIES.—**St. Petersburg College may request funding from the Public Education Capital Outlay and Debt Service Trust Fund as a community college and as a university. The municipalities in Pinellas County, the Board of County Commissioners of Pinellas County, and all other governmental entities are authorized to cooperate with the Board of Trustees of St. Petersburg College in establishing this institution. The acquisition and donation of lands, buildings, and equipment for the use of St. Petersburg College are authorized as a public purpose. The Board of County Commissioners of Pinellas County and all municipalities in Pinellas County may exercise the power of eminent domain to acquire lands, buildings, and equipment for the use of St. Petersburg College, regardless of whether such lands, buildings, and equipment are located in a community redevelopment area.

(8) **STATE FUNDING.—**

(a) The Legislature intends to fund St. Petersburg College as a community college for its workforce development education programs and for its lower-division level college credit courses and programs.

(b) The Legislature intends to fund St. Petersburg College as a baccalaureate degree level institution for its upper-division level courses and programs.

(c) During the 2001-2002 fiscal year, St. Petersburg College shall estimate the appropriate level of funding for these programs. By March 1, 2002, the college shall complete a cost study and shall submit to the Legislature a proposal for cost accounting and legislative budget requests designed to acknowledge its unique classification. The cost study must indicate actual costs projected for the first 4 years of operation as a baccalaureate degree level institution, with the first students expected to enroll in the upper division in the fall semester of 2002.

Section 41. Nothing contained within this act shall be construed to adversely impact the accreditation of the University of South Florida.

Section 42. Florida Bright Futures Scholarship Testing Program.—

(1) By January 1, 2002, the Articulation Coordinating Committee shall identify the minimum scores, maximum credit, and course or courses for which credit is to be awarded for each College Level Examination Program (CLEP) general examination, CLEP subject examination, College Board Advanced Placement Program examination, and International Baccalaureate examination. In addition, the Articulation Coordinating Committee shall identify such courses in the general education core curriculum of each state university and community college.

(2) Each community college and state university must award credit for specific courses for which competency has been demonstrated by successful passage of one of these examinations unless the award of credit duplicates credit already awarded. Community colleges and universities may not exempt students from courses without the award of credit if competencies have been so demonstrated.

(3) Beginning with initial award recipients for the 2002-2003 academic year and continuing thereafter, students eligible for a Florida Academic Scholars award or a Florida Medallion Scholars award who are admitted to and enroll in a community college or state university shall, prior to registering for courses that may be earned through a CLEP examination and no later than registration for their second term, complete at least five examinations from those specified in subsection (1) in the following areas: English; humanities; mathematics; natural sciences; and social sciences. Successful completion of dual enrollment courses, Advanced Placement examinations, and International Baccalaureate examinations taken prior to high school graduation satisfy this requirement. The Articulation Coordinating Committee shall identify the examinations that satisfy each component of this requirement.

(4) Initial award recipients for the 2001-2002 academic year who are eligible for a Florida Academic Scholars award or a Florida Medallion Scholars award and who are admitted to and enroll in a community college or state university may choose, prior to registering for courses that may be earned through CLEP examination, to complete up to five CLEP examinations, one in each of the following areas: English; humanities; mathematics; natural sciences; and social sciences.

(5) Each community college and state university shall pay for the CLEP examinations required pursuant to this section from the funds appropriated from the Educational Enhancement Trust Fund. Institutions shall pay no more than \$46 per examination for the program, which shall include access to a student guide to prepare for the test. The Department of Education shall negotiate with the College Board for a reduced rate for the examinations. The institution shall not charge the student for preparation and administration of the test, access to a student guide to prepare for the test, or recordkeeping and reporting of each student's test results to the department.

(6) The credit awarded pursuant to this section shall apply toward the 120 hours of college credit required pursuant to s. 240.115(6).

(7) The maximum number of credit hours for which a student is eligible to receive a Florida Bright Futures Scholarship Program award shall be reduced by the number of hours for which credit is awarded pursuant to this section.

(8) Beginning with the 2002-2003 award recipients, the Department of Education shall track and annually report on the effectiveness of the program, and include information on the number of students participating in the program; the CLEP examinations taken and the passage rate

of Florida Academic Scholars and Florida Medallion Scholars award recipients; the use of Advanced Placement and International Baccalaureate examinations and dual enrollment courses to satisfy the requirements of the program; and the course credit provided.

Section 43. Notwithstanding subsection (7) of section 3 of chapter 2000-321, Laws of Florida, section 240.551, Florida Statutes, shall not stand repealed on January 7, 2003, and is reenacted and amended to read:

240.551 Florida Prepaid College Program.—

(1) **LEGISLATIVE INTENT.**—The Legislature recognizes that educational opportunity at the postsecondary level is a critical state interest. It further recognizes that educational opportunity is best ensured through the provision of postsecondary institutions that are geographically and financially accessible. Accordingly, it is the intent of the Legislature that a program be established through which many of the costs associated with postsecondary attendance may be paid in advance and fixed at a guaranteed level for the duration of undergraduate enrollment. It is similarly the intent of the Legislature to provide a program that fosters timely financial planning for postsecondary attendance and to encourage employer participation in such planning through program contributions on behalf of employees and the dependents of employees.

(9) **PREPAID COLLEGE PLANS.**—At a minimum, the board shall make advance payment contracts available for two independent plans to be known as the community college plan and the university plan. The board may also make advance payment contracts available for a dormitory residence plan.

(a)1. Through the community college plan, the advance payment contract shall provide prepaid registration fees for a specified number

of undergraduate semester credit hours not to exceed the average number of hours required for the conference of an associate degree. The cost of participation in the community college plan shall be based primarily on the average current and projected registration fees within the Florida Community College System and the number of years expected to elapse between the purchase of the plan on behalf of a qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. Qualified beneficiaries shall bear the cost of any laboratory fees associated with enrollment in specific courses. Each qualified beneficiary shall be classified as a resident for tuition purposes, pursuant to s. 240.1201, regardless of his or her actual legal residence.

2. Effective July 1, 1998, the board may provide advance payment contracts for additional fees delineated in s. 240.35, not to exceed the average number of hours required for the conference of an associate degree, in conjunction with advance payment contracts for registration fees. Community college plan contracts purchased prior to July 1, 1998, shall be limited to the payment of registration fees as defined in subsection (2).

(b)1. Through the university plan, the advance payment contract shall provide prepaid registration fees for a specified number of undergraduate semester credit hours not to exceed the average number of hours required for the conference of a baccalaureate degree. Qualified beneficiaries shall bear the cost of any laboratory fees associated with enrollment in specific courses. Each qualified beneficiary shall be classified as a resident for tuition purposes pursuant to s. 240.1201, regardless of his or her actual legal residence.

Effective July 1, 1998, the board may provide advance payment contracts for additional fees delineated in s. 240.235(1), for a specified number of undergraduate semester credit hours not to exceed the average number of hours required for the conference of a baccalaureate degree, in conjunction with advance payment contracts for registration fees. Such contracts shall provide prepaid coverage for the sum of such fees, to a maximum of 45 percent of the cost of registration fees. The costs of purchasing such fees shall be based primarily on the average current and projected cost of these fees within the State University System and the number of years expected to elapse between the purchase of the plan on behalf of the qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. University plan contracts purchased prior to July 1, 1998, shall be limited to the payment of registration fees as defined in subsection (2).

Dormitory residence plans shall be purchased in increments of 2 semesters. The cost of participation in the dormitory residence plan shall be based primarily on the average current and projected housing fees within the State University System and the number of years expected to elapse between the purchase of the plan on behalf of a qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. Qualified beneficiaries shall have the highest priority in the assignment of housing within university residence halls. Qualified beneficiaries shall bear the cost of any additional elective charges such as laundry service or long-distance telephone service. Each state university may specify the residence halls or other university-held residences eligible for inclusion in the plan. In addition, any state university may request immediate termination of a dormitory residence contract based on a violation or multiple violations of rules of the residence hall or other university-held residences. In the event that sufficient housing is not available for all qualified beneficiaries, the board shall refund the purchaser or qualified beneficiary an amount equal to the fees charged for dormitory residence during that semester. If a qualified beneficiary fails to be admitted to a state university or chooses to attend a community college that operates one or more dormitories or residency opportunities, or has one or more dormitories or residency opportunities operated by the community college direct-support organization, the qualified benefi-

ciary may transfer or cause to have transferred to the community college, or community college direct-support organization, the fees associated with dormitory residence. Any remaining amount shall be transferred in subsequent semesters until the transfer value is depleted. A transfer authorized under this paragraph may not exceed the number of semester credit hours or semesters of dormitory residence contracted on behalf of a qualified beneficiary.

For purposes of this section, a school year partially attended but not completed shall mean any one semester whereby the student is still enrolled at the conclusion of the official drop-add period, but withdraws before the end of such semester. If a beneficiary does not complete a community college plan or university plan for reasons other than specified in paragraph (c), the purchaser shall receive a refund of the amount paid into the fund for the remaining unattended years of the advance payment contract pursuant to rules promulgated by the board.

(14) CONFIDENTIALITY OF ACCOUNT INFORMATION.—Information that identifies the purchasers or beneficiaries of any plan promulgated under this section and their advance payment account activities is exempt from the provisions of s. 119.07(1). However, the board may authorize the program's records administrator to release such information to a community college, college, or university in which a beneficiary may enroll or is enrolled. Section 1. Subsection (1) of section 163.3174, Florida Statutes, is amended to read:

163.3174 Local planning agency.—

(1) The governing body of each local government, individually or in combination as provided in s. 163.3171, shall designate and by ordinance establish a "local planning agency," unless the agency is otherwise established by law. *Notwithstanding any special act to the contrary, all local planning agencies or equivalent agencies that first review rezoning and comprehensive plan amendments in each municipality and county shall include a representative of the school district appointed by the school board as a nonvoting member of the local planning agency or equivalent agency to attend those meetings at which the agency considers comprehensive plan amendments and rezonings that would, if approved, increase residential density on the property that is the subject of the application, provided that nothing contained in this subsection shall prevent a local agency from granting voting status to the school board member.* The governing body may designate itself as the local planning agency pursuant to this subsection *with the addition of a nonvoting school board representative.* The governing body shall notify the state land planning agency of the establishment of its local planning agency. All local planning agencies shall provide opportunities for involvement by ~~district school boards and~~ applicable community college boards, which may be accomplished by formal representation, membership on technical advisory committees, or other appropriate means. The local planning agency shall prepare the comprehensive plan or plan amendment after hearings to be held after public notice and shall make recommendations to the governing body regarding the adoption or amendment of the plan. The agency may be a local planning commission, the planning department of the local government, or other instrumentality, including a county-wide planning entity established by special act or a council of local government officials created pursuant to s. 163.02, provided the composition of the council is fairly representative of all the governing bodies in the county or planning area; however:

(a) If a joint planning entity is in existence on the effective date of this act which authorizes the governing bodies to adopt and enforce a land use plan effective throughout the joint planning area, that entity

shall be the agency for those local governments until such time as the authority of the joint planning entity is modified by law.

(b) In the case of chartered counties, the planning responsibility between the county and the several municipalities therein shall be as stipulated in the charter.

Section 2. Paragraph (a) of subsection (4), paragraphs (a), (c), and (h) of subsection (6) of section 163.3177, Florida Statutes, are amended to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(4)(a) Coordination of the local comprehensive plan with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region; *with the appropriate water management district's regional water supply plans adopted pursuant to s. 373.0361, or successor plans required by legislative directive;* with adopted rules pertaining to designated areas of critical state concern; and with the state comprehensive plan shall be a major objective of the local comprehensive planning process. To that end, in the preparation of a comprehensive plan or element thereof, and in the comprehensive plan or element as adopted, the governing body shall include a specific policy statement indicating the relationship of the proposed development of the area to the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region and to the state comprehensive plan, as the case may require and as such adopted plans or plans in preparation may exist.

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements:

(a) A future land use plan element designating proposed future general distribution, location, and extent of the uses of land for residential uses, commercial uses, industry, agriculture, recreation, conservation, education, public buildings and grounds, other public facilities, and other categories of the public and private uses of land. The future land use plan shall include standards to be followed in the control and distribution of population densities and building and structure intensities. The proposed distribution, location, and extent of the various categories of land use shall be shown on a land use map or map series which shall be supplemented by goals, policies, and measurable objectives. Each land use category shall be defined in terms of the types of uses included and specific standards for the density or intensity of use. The future land use plan shall be based upon surveys, studies, and data regarding the area, including the amount of land required to accommodate anticipated growth; the projected population of the area; the character of undeveloped land; *the availability of ground water and surface water resources for present and future water supplies and the potential for development of alternative water supplies;* the availability of public services; the need for redevelopment, including the renewal of blighted areas and the elimination of nonconforming uses which are inconsistent with the character of the community; and, in rural communities, the need for job creation, capital investment, and economic development that will strengthen and diversify the community's economy. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this act. In addition, for rural communities, the amount of land designated for future planned industrial use shall be based upon surveys and studies that reflect the need for job creation, capital investment, and the necessity to strengthen and diversify the local economies, and shall not be limited solely by the projected population of the rural community. The future land use plan of a county may also designate areas for possible future municipal incorporation. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. The future land use element must clearly identify the land use categories in which public schools are an allowable use. When delineating the land use categories in which public schools are an allowable use, a local government shall include in the categories sufficient land proximate to residential development to meet the projected needs for schools in coordination with public school boards and may establish differing criteria for schools of different type or size. Each local government shall include lands contiguous to existing school sites, to the maximum extent possible, within the land use categories in which public schools are an allowable use. All comprehensive plans must comply with the school siting requirements of this paragraph no later than October

1, 1999. The failure by a local government to comply with these school siting requirements by October 1, 1999, will result in the prohibition of the local government's ability to amend the local comprehensive plan, except for plan amendments described in s. 163.3187(1)(b), until the school siting requirements are met. *Amendments* ~~An amendment~~ proposed by a local government for purposes of identifying the land use categories in which public schools are an allowable use *or for adopting or amending the school-siting maps pursuant to s. 163.31776(6) are is* exempt from the limitation on the frequency of plan amendments contained in s. 163.3187. The future land use element shall include criteria *that which* encourage the location of schools proximate to urban residential areas to the extent possible and shall require that the local government seek to collocate public facilities, such as parks, libraries, and community centers, with schools to the extent possible *and to encourage the use of elementary schools as focal points for neighborhoods.*

(c) A general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element correlated to principles and guidelines for future land use, indicating ways to provide for future potable water, drainage, sanitary sewer, solid waste, and aquifer recharge protection requirements for the area. The element may be a detailed engineering plan including a topographic map depicting areas of prime groundwater recharge. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs. The element shall also include a topographic map depicting any areas adopted by a regional water management district as prime groundwater recharge areas for the Floridan or Biscayne aquifers, pursuant to s. 373.0395. These areas shall be given special consideration when the local government is engaged in zoning or considering future land use for said designated areas. For areas served by septic tanks, soil surveys shall be provided which indicate the suitability of soils for septic tanks. *By October 1, 2002, the element shall also include data and analysis, including, but not limited to, the appropriate water management district's regional water supply plan adopted pursuant to s. 373.0361, which evaluates the availability of potable water compared to population growth projected by the local government comprehensive plan.*

(h)1. An intergovernmental coordination element showing relationships and stating principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing services but not having regulatory authority over the use of land, with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region, and with the state comprehensive plan, as the case may require and as such adopted plans or plans in preparation may exist. This element of the local comprehensive plan shall demonstrate consideration of the particular effects of the local plan, when adopted, upon the development of adjacent municipalities, the county, adjacent counties, or the region, or upon the state comprehensive plan, as the case may require.

a. The intergovernmental coordination element shall provide for procedures to identify and implement joint planning areas, especially for the purpose of an annexation, municipal incorporation, and joint infrastructure service areas.

b. The intergovernmental coordination element shall provide for recognition of campus master plans prepared pursuant to s. 240.155.

c. The intergovernmental coordination element may provide for a voluntary dispute resolution process as established pursuant to s. 186.509 for bringing to closure in a timely manner intergovernmental disputes. A local government may develop and use an alternative local dispute resolution process for this purpose.

2. The intergovernmental coordination element shall further state principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing facilities and services but not having regulatory authority over the use of land. In addition, the intergovernmental coordination element shall describe joint processes for collaborative planning and decisionmaking on population projections and public school siting, the location and extension of public facilities subject to concurrency, and siting facilities with countywide significance, including locally unwanted land uses whose nature and identity are established in an agreement. Within 1 year of adopting their intergovernmental coordination elements, each county, all the municipalities

within that county, the district school board, and any unit of local government service providers in that county shall establish by interlocal or other formal agreement executed by all affected entities, the joint processes described in this subparagraph consistent with their adopted intergovernmental coordination elements.

3. To foster coordination between special districts and local general-purpose governments as local general-purpose governments implement local comprehensive plans, each independent special district must submit a public facilities report to the appropriate local government as required by s. 189.415.

4. The state land planning agency shall establish a schedule for phased completion and transmittal of plan amendments to implement subparagraphs 1., 2., and 3. from all jurisdictions so as to accomplish their adoption by December 31, 1999. A local government may complete and transmit its plan amendments to carry out these provisions prior to the scheduled date established by the state land planning agency. The plan amendments are exempt from the provisions of s. 163.3187(1).

5. *Intergovernmental coordination between local governments and the district school board shall be governed by ss. 163.31776 and 163.31777 for those local governments adopting a public educational facilities element pursuant to s. 163.31776.*

Section 3. Section 163.31776, Florida Statutes, is created to read:

163.31776 *Public educational facilities element.—*

(1) *The intent of the Legislature is to establish a systematic process for school boards and local governments to:*

(a) *Share information concerning the growth and development trends in their communities in order to forecast future enrollment and school needs;*

(b) *Cooperatively plan for the provision of educational facilities to meet the current and projected needs of the public education system population, including the needs placed on the public education system as a result of growth and development decisions by local government; and*

(c) *Cooperatively identify and meet the infrastructure needs of public schools to assure healthy school environments and safe school access.*

(2) *The Legislature finds that:*

(a) *Public schools are a linchpin to the vitality of our communities and play a significant role in thousands of individual housing decisions that result in community growth trends.*

(b) *Growth and development issues transcend the boundaries and responsibilities of individual units of government, and often no single unit of government can plan or implement policies to deal with these issues without affecting other units of government.*

(3) *A public educational facilities element shall be adopted in cooperation with the applicable school district by all local governments meeting the criteria identified in paragraph (a). The public educational facilities elements shall be transmitted no later than January 1, 2003, for those local governments initially meeting the criteria in paragraph (a).*

(a) *A local government must adopt a public educational facilities element if the local government is located in a county where:*

1. *The number of districtwide capital outlay full-time-equivalent students equals 80 percent or more of the most current year's school capacity and the projected 5-year student growth is 1,000 students or greater; or*

2. *The projected 5-year student growth rate is 10 percent or greater.*

(b)1. *The Department of Education shall issue a report notifying the state land planning agency and each county and school district that meets the criteria in paragraph (a) on June 1 of each year. Local governments and school boards will have 18 months following notification within which to comply with the requirements of ss. 163.31776 and 163.31777.*

2. *By January 1, 2007, remaining local governments that have not been notified by June 1, 2005, that they have met the criteria in paragraph (a) shall adopt, in cooperation with the applicable school district,*

a limited public educational facilities element. The state land planning agency shall by rule specify the contents of the limited public educational facilities element. The rule specifying the contents of the limited public facilities element must incorporate the future land use element requirements of s. 163.3177(6)(a), including school-siting requirements, requirements for intergovernmental coordination and interlocal agreements with school boards contained in s. 163.3177(6)(h)1.-2., and requirements for evaluation and appraisal reports contained in s. 163.3191(2)(k). The agency rule must ensure effective planning with school boards, but recognize that the needs for school planning differ for those local governments that have lower population and student-population growth rates. The sanctions of subsection (9) apply to local governments that fail to adopt a limited public educational facilities element. Any local government that, after complying with this rule, reaches the criteria in paragraph (a) shall have 18 months within which to comply with subsections (4) and (5). Nothing in this subsection shall supersede the other requirements of this chapter.

(c) Each municipality shall adopt its own element or accept by resolution or ordinance the public educational facilities element adopted by the county which includes the municipality's area of authority as defined in s. 163.3171. However, a municipality is exempt from this requirement if it meets all the following criteria:

1. The municipality has issued development orders for fewer than 50 residential dwelling units during the last 5 years or it has generated fewer than 25 additional public school students during the last 5 years;
2. The municipality has not annexed new land during the last 5 years in land use categories that permit residential uses that may affect school attendance rates;
3. The municipality has no public schools located within its boundaries;
4. At least 80 percent of the developable land within the boundaries of the municipality has been built upon; and
5. The municipality has not adopted a land use amendment that increases residential density for more than 50 residential units.

Any municipality that is exempt shall notify the county and the school board of any planned annexation into residential or proposed residential areas or other change in condition and must comply with this subsection within 1 year following a change in conditions that renders the municipality no longer eligible for exemption or following the identification of a proposed public school in the school board's 5-year district facilities work program in the municipality's jurisdiction.

(4) No later than 6 months prior to the deadline for transmittal of a public educational facilities element, the county, the non-exempt municipalities, and the school board shall enter into an interlocal agreement that establishes a process for developing coordinated and consistent local government public educational facilities elements and a district educational facilities plan, including a process:

(a) By which each local government and the school district agree and base the local government comprehensive plan and educational facilities plan on uniform projections of the amount, type, and distribution of population growth and student enrollment;

(b) To coordinate and share information relating to existing and planned public school facilities and local government plans for development and redevelopment;

(c) To ensure that school siting decisions by the school board are consistent with the local comprehensive plan, including appropriate circumstances and criteria under which a school district may request an amendment to the comprehensive plan for school siting and for early involvement by the local government as the school board identifies potential school sites;

(d) To coordinate and provide timely formal comments during the development, adoption, and amendment of each local government's public educational facilities element and the educational facilities plan of the school district to ensure a uniform countywide school facility planning system;

(e) For school district participation in the review of comprehensive plan amendments and rezonings that increase residential density and

that are reasonably expected to have an impact on public school facility demand pursuant to s. 163.31777. The interlocal agreement must specify how the school board and local governments will develop the methodology and criteria for determining whether school facility capacity will be readily available at the time of projected school impacts, and must specify uniform, districtwide level-of-service standards for all public schools of the same type and availability standards for public schools. The interlocal agreement must ensure that consistent criteria and capacity-determination methodologies including student generation multipliers are adopted into the school board's district educational facilities plan and the local government's public educational facilities element. The interlocal agreement must also set forth the process and uniform methodology for determining proportionate-share mitigation pursuant to s. 163.31777; and

(f) For the resolution of disputes between the school district and local governments.

(5) The public educational facilities element must be based on data and analysis, including the interlocal agreement required by subsection (4), and on the educational facilities plan required by s. 235.185. Each local government public educational facilities element within a county must be consistent with the other elements and must address:

(a) The need for, strategies for, and commitments to addressing improvements to infrastructure, safety, and community conditions in areas proximate to existing public schools.

(b) The need for and strategies for providing adequate infrastructure necessary to support proposed schools, including potable water, wastewater, drainage, solid waste, transportation, and means by which to assure safe access to schools, including sidewalks, bicycle paths, turn lanes, and signalization.

(c) Colocation of other public facilities, such as parks, libraries, and community centers, in proximity to public schools.

(d) Location of schools proximate to residential areas and to complementary patterns of development, including using elementary schools as focal points for neighborhoods.

(e) Use of public schools to serve as emergency shelters.

(f) Consideration of the existing and planned capacity of public schools when reviewing comprehensive plan amendments and rezonings that are likely to increase residential development and that are reasonably expected to have an impact on the demand for public school facilities pursuant to s. 163.31777, with the review to be based on uniform, districtwide level-of-service standards for all public schools of the same type, availability standards for public schools, and the financially feasible 5-year district facilities work program adopted by the school board pursuant to s. 235.185.

(g) A uniform methodology for determining school capacity and proportionate-share mitigation consistent with the requirements of s. 163.31777(4) and the interlocal agreement.

(h) The response of the school board to the financial management and performance audit required by s. 235.185(2)(f).

(6) The future land-use map series must incorporate maps that are the result of a collaborative process for identifying school sites in the educational facilities plan adopted by the school board pursuant to s. 235.185 and must show the locations of existing public schools and the general locations of improvements to existing schools or new schools anticipated over the 5-year, 10-year, and 20-year time periods, or such maps shall be data and analysis in support of the future land-use map series. Maps indicating general locations of future schools or school improvements should not prescribe a land use on a particular parcel of land.

(7) The process for adopting a public educational facilities element shall be as provided in s. 163.3184. The state land planning agency shall submit a copy of the proposed public school facilities element pursuant to the procedures outlined in s. 163.3184(4) to the Office of Educational Facilities of the Commissioner of Education for review and comment.

(8) In any proceeding to challenge the adoption of the public educational facilities element pursuant to s. 163.3184, the petitioner may also challenge the data and analysis used to support the processes set forth in the interlocal agreement executed pursuant to this section.

(9)(a) If the county, school board and nonexempt municipalities within the county cannot reach agreement regarding the interlocal agreement required by subsection (4), the parties shall seek mediation through the appropriate regional planning council or the state land planning agency. The bad-faith failure of any party to enter into an interlocal agreement within 60 days after referral to mediation shall result in the prohibition of that local government's ability to amend its comprehensive plan until the dispute is resolved.

(b) The failure by a local government to comply with the requirement to transmit and adopt a public educational facilities element will result in the prohibition of the local government's ability to amend the local comprehensive plan until the public school facilities element is adopted.

(c) If a local government fails to comply with the requirements of this section to enter into the interlocal agreement or to transmit a public educational facilities element by the required date, or if the Administration Commission finds that the public educational facilities element is not in compliance, the local government shall be subject to sanctions imposed by the Administration Commission pursuant to s. 163.3184(11).

(d) The failure of a school board to provide the required plans or information or to enter into the interlocal agreement under this section shall subject the school board to sanctions pursuant to s. 235.193(3).

(e) A local government or school board's bad-faith failure to enter into the interlocal agreement does not subject another local government or school board to sanctions.

(10) Any local government that has executed an interlocal agreement for the purpose of adopting public school concurrency before the effective date of this act is not required to amend the public school element or any interlocal agreement to conform with the provisions of this section or s. 163.31777 if such amendment is ultimately determined to be in compliance.

Section 4. Section 163.31777, Florida Statutes, is created to read:

163.31777 Public school capacity for plan amendments and rezonings.—

(1) Local governments shall consider public school facilities when reviewing proposed comprehensive plan amendments and rezonings that increase residential densities and that are reasonably expected to have an impact on the demand for public school facilities.

(2) For each proposed comprehensive plan amendment or rezoning that increases residential densities and is reasonably expected to have an impact on the demand for public school facilities, the school board shall provide the local government with a school-capacity report based on the district educational facilities plan adopted by the school board pursuant to s. 235.185, which must provide data and analysis on the capacity and enrollment of affected schools based on standards established by state or federal law or judicial orders, projected additional enrollment attributable to the density increase resulting from the amendment or rezoning, programmed and financially feasible new public school facilities or improvements for affected schools identified in the educational facilities plan of the school board and the expected date of availability of such facilities or improvements, and available reasonable options for providing public school facilities to students if the rezoning or comprehensive plan amendment is approved. The options must include, but need not be limited to, the school board's evaluation of school schedule modification, school attendance zones modification, school facility modification, and the creation of charter schools. The report must be consistent with this section, any adopted interlocal agreement and public educational facilities element, and must be submitted no later than 3 working days before the first public hearing by the local government to consider the comprehensive plan amendment or rezoning.

(3) The local government shall deny a request for a comprehensive plan amendment or rezoning which would increase the density of residential development allowed on the property subject to the amendment or rezoning and is reasonably expected to have an increased impact on the demand for public school facilities, if the school facility capacity will not be reasonably available at the time of projected school impacts as determined by the methodology established in the public educational facilities element. However, the application for a comprehensive plan amendment or a rezoning may be approved if the applicant executes a legally binding commitment to provide mitigation proportionate to the demand for public

school facilities to be created by actual development of the property, including, but not limited to, the options described in subsection (4).

(4)(a) Options for proportionate-share mitigation of public school facility impacts from actual development of property subject to a plan amendment or rezoning that increases residential density shall be established in the educational facilities plan and the public educational facilities element. Appropriate mitigation options include the contribution of land; the construction, expansion, or payment for land acquisition or construction of a public school facility; or the creation of mitigation banking based on the construction of a public school facility in exchange for the right to sell capacity credits. Such options must include execution by the applicant and the local government of a binding development agreement pursuant to ss. 163.3220-163.3243 which constitutes a legally binding commitment to pay proportionate-share mitigation for the additional residential units approved by the local government in a development order and actually developed on the property, taking into account residential density allowed on the property prior to the plan amendment or rezoning that increased overall residential density. The district school board may be a party to such an agreement. As a condition of its entry into such a development agreement, the local government may require the landowner to agree to continuing renewal of the agreement upon its expiration.

(b) If the educational facilities plan and the public educational facilities element authorize a contribution of land; the construction, expansion, or payment for land acquisition; or the construction or expansion of a public school facility, or a portion thereof, as proportionate-share mitigation, the local government shall credit such a contribution, construction, expansion, or payment toward any other impact fee or exaction imposed by local ordinance for the same need, on a dollar-for-dollar basis at fair market value.

(c) Any proportionate-share mitigation must be directed by the school board toward a school capacity improvement that is identified in the financially feasible 5-year district work plan and that will be provided in accordance with a binding developers agreement.

(5) Subsections (3) and (4) shall not take effect within a jurisdiction until:

(a) The local governments and the school board have entered into an interlocal agreement pursuant to ss. 163.31776 and 235.193;

(b) The local government has adopted a public education facilities element required under s. 163.31776 and the element has been found in compliance;

(c) The school board has revised its district education facilities plan to comply with s. 235.185; and

(d) One of the following revenue sources is levied or committed for the purpose of funding public educational facilities consistent with the public educational facilities plan and interlocal agreement adopted pursuant to s. 163.31776, and the district educational facilities plan pursuant to s. 235.185:

1. The half-cent school capital outlay surtax authorized by s. 212.055(6); or

2. An amount of broad-based revenue from state or local sources is committed to the implementation of the financially feasible work program adopted by the school board pursuant to s. 235.185.

(6) Under limited circumstances dealing with educational facilities, countervailing planning and public policy goals may come into conflict with the requirements of subsections (3) and (4). Often the unintended results directly conflict with the goals and policies of the state comprehensive plan and the intent of this part. Therefore, a local government may grant an exception from the requirements of subsections (3) and (4) if the proposed development is otherwise consistent with the adopted local government comprehensive plan and is a project located within an area designated in the comprehensive plan for:

(a) Urban infill development;

(b) Urban redevelopment;

(c) Downtown revitalization; or

(d) *Urban infill and redevelopment under s. 163.2517.*

(7) *This section does not prohibit a local government from using its home-rule powers to deny a comprehensive plan amendment or from rezoning.*

Section 5. Subsection (4) of section 163.3180, Florida Statutes, is amended to read:

163.3180 Concurrency.—

(4)(a) The concurrency requirement as implemented in local comprehensive plans applies to state and other public facilities and development to the same extent that it applies to all other facilities and development, as provided by law.

(b) The concurrency requirement as implemented in local comprehensive plans does not apply to public transit facilities. For the purposes of this paragraph, public transit facilities include transit stations and terminals, transit station parking, park-and-ride lots, intermodal public transit connection or transfer facilities, and fixed bus, guideway, and rail stations. As used in this paragraph, the terms “terminals” and “transit facilities” do not include airports or seaports or commercial or residential development constructed in conjunction with a public transit facility.

(c) *The concurrency requirement as implemented in local government comprehensive plans may be waived by a local government for urban infill and redevelopment areas designated pursuant to s. 163.2517 if such a waiver does not endanger public health or safety as defined by the local government in its local government comprehensive plan.*

Section 6. Subsections (1), (3), (4), and (6) of section 163.3184, Florida Statutes, are amended to read:

163.3184 Process for adoption of comprehensive plan or plan amendment.—

(1) DEFINITIONS.—As used in this section, *the term:*

(a) “Affected person” includes the affected local government; persons owning property, residing, or owning or operating a business within the boundaries of the local government whose plan is the subject of the review; *owners of real property abutting real property that is the subject of a proposed change to a future land use map;* and adjoining local governments that can demonstrate that the plan or plan amendment will produce substantial impacts on the increased need for publicly funded infrastructure or substantial impacts on areas designated for protection or special treatment within their jurisdiction. Each person, other than an adjoining local government, in order to qualify under this definition, shall also have submitted oral or written comments, recommendations, or objections to the local government during the period of time beginning with the transmittal hearing for the plan or plan amendment and ending with the adoption of the plan or plan amendment.

(b) “In compliance” means consistent with the requirements of ss. 163.3177, 163.31776, 163.3178, 163.3180, 163.3191, and 163.3245, with the state comprehensive plan, with the appropriate strategic regional policy plan, and with chapter 9J-5, Florida Administrative Code, where such rule is not inconsistent with this part and with the principles for guiding development in designated areas of critical state concern.

(3) LOCAL GOVERNMENT TRANSMITTAL OF PROPOSED PLAN OR AMENDMENT.—

(a) Each local governing body shall transmit the complete proposed comprehensive plan or plan amendment to the state land planning agency, the appropriate regional planning council and water management district, the Department of Environmental Protection, *the Department of State,* and the Department of Transportation, *and, in the case of municipal plans, to the appropriate county, and, in the case of county plans, to the Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services,* immediately following a public hearing pursuant to subsection (15) as specified in the state land planning agency’s procedural rules. The local governing body shall also transmit a copy of the complete proposed comprehensive plan or plan amendment to any other unit of local government or government agency in the state that has filed a written request with the governing body for the plan or plan amendment. *The local government may request a review by the state land planning agency pursuant to subsection (6) at the time of the transmittal of an amendment.*

(b) A local governing body shall not transmit portions of a plan or plan amendment unless it has previously provided to all state agencies designated by the state land planning agency a complete copy of its adopted comprehensive plan pursuant to subsection (7) and as specified in the agency’s procedural rules. In the case of comprehensive plan amendments, the local governing body shall transmit to the state land planning agency, the appropriate regional planning council and water management district, the Department of Environmental Protection, *the Department of State,* and the Department of Transportation, *and, in the case of municipal plans, to the appropriate county, and, in the case of county plans, to the Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services,* the materials specified in the state land planning agency’s procedural rules and, in cases in which the plan amendment is a result of an evaluation and appraisal report adopted pursuant to s. 163.3191, a copy of the evaluation and appraisal report. Local governing bodies shall consolidate all proposed plan amendments into a single submission for each of the two plan amendment adoption dates during the calendar year pursuant to s. 163.3187.

(c) A local government may adopt a proposed plan amendment previously transmitted pursuant to this subsection, unless review is requested or otherwise initiated pursuant to subsection (6).

(d) In cases in which a local government transmits multiple individual amendments that can be clearly and legally separated and distinguished for the purpose of determining whether to review the proposed amendment, and the state land planning agency elects to review several or a portion of the amendments and the local government chooses to immediately adopt the remaining amendments not reviewed, the amendments immediately adopted and any reviewed amendments that the local government subsequently adopts together constitute one amendment cycle in accordance with s. 163.3187(1).

(4) INTERGOVERNMENTAL REVIEW.—~~*The If review of a proposed comprehensive plan amendment is requested or otherwise initiated pursuant to subsection (6), the state land planning agency within 5 working days of determining that such a review will be conducted shall transmit a copy of the proposed plan amendment to various government agencies, as appropriate, for response or comment, including, but not limited to, the Department of Environmental Protection, the Department of Transportation, the water management district, and the regional planning council, and, in the case of municipal plans, to the county land planning agency. These governmental agencies specified in paragraph (3)(a) shall provide comments to the state land planning agency within 30 days after receipt by the state land planning agency of the complete proposed plan amendment. If the plan or plan amendment includes or relates to the public school facilities element required by s. 163.31776, the state land planning agency shall submit a copy to the Office of Educational Facilities of the Commissioner of Education for review and comment. The appropriate regional planning council shall also provide its written comments to the state land planning agency within 30 days after receipt by the state land planning agency of the complete proposed plan amendment and shall specify any objections, recommendations for modifications, and comments of any other regional agencies to which the regional planning council may have referred the proposed plan amendment. Written comments submitted by the public within 30 days after notice of transmittal by the local government of the proposed plan amendment will be considered as if submitted by governmental agencies. All written agency and public comments must be made part of the file maintained under subsection (2).*~~

(6) STATE LAND PLANNING AGENCY REVIEW.—

(a) The state land planning agency shall review a proposed plan amendment upon request of a regional planning council, affected person, or local government transmitting the plan amendment. ~~*The request from the regional planning council or affected person must be if the request is received within 30 days after transmittal of the proposed plan amendment pursuant to subsection (3). The agency shall issue a report of its objections, recommendations, and comments regarding the proposed plan amendment.*~~ A regional planning council or affected person requesting a review shall do so by submitting a written request to the agency with a notice of the request to the local government and any other person who has requested notice.

(b) The state land planning agency may review any proposed plan amendment regardless of whether a request for review has been made,

if the agency gives notice to the local government, and any other person who has requested notice, of its intention to conduct such a review within 35 90 days *after receipt of transmittal* of the *complete* proposed plan amendment pursuant to subsection (3).

(c) The state land planning agency shall establish by rule a schedule for receipt of comments from the various government agencies, as well as written public comments, pursuant to subsection (4). *If the state land planning agency elects to review the amendment or the agency is required to review the amendment as specified in paragraph (a), the agency shall issue a report giving its objections, recommendations, and comments regarding the proposed amendment within 60 days after receipt of the complete proposed amendment by the state land planning agency. The state land planning agency shall have 30 days to review comments from the various government agencies along with a local government's comprehensive plan or plan amendment. During that period, the state land planning agency shall transmit in writing its comments to the local government along with any objections and any recommendations for modifications.* When a federal, state, or regional agency has implemented a permitting program, the state land planning agency shall not require a local government to duplicate or exceed that permitting program in its comprehensive plan or to implement such a permitting program in its land development regulations. Nothing contained herein shall prohibit the state land planning agency in conducting its review of local plans or plan amendments from making objections, recommendations, and comments or making compliance determinations regarding densities and intensities consistent with the provisions of this part. In preparing its comments, the state land planning agency shall only base its considerations on written, and not oral, comments, from any source.

(d) The state land planning agency review shall identify all written communications with the agency regarding the proposed plan amendment. If the state land planning agency does not issue such a review, it shall identify in writing to the local government all written communications received 30 days after transmittal. The written identification must include a list of all documents received or generated by the agency, which list must be of sufficient specificity to enable the documents to be identified and copies requested, if desired, and the name of the person to be contacted to request copies of any identified document. The list of documents must be made a part of the public records of the state land planning agency.

Section 7. Effective October 1, 2001, subsections (7), (8), and (15) and paragraph (d) of subsection (16) of section 163.3184, Florida Statutes, as amended by this act, are amended to read:

163.3184 Process for adoption of comprehensive plan or plan amendment.—

(7) LOCAL GOVERNMENT REVIEW OF COMMENTS; ADOPTION OF PLAN OR AMENDMENTS AND TRANSMITTAL.—The local government shall review the written comments submitted to it by the state land planning agency, and any other person, agency, or government. Any comments, recommendations, or objections and any reply to them shall be public documents, a part of the permanent record in the matter, and admissible in any proceeding in which the comprehensive plan or plan amendment may be at issue. The local government, upon receipt of written comments from the state land planning agency, shall have 120 days to adopt or adopt with changes the proposed comprehensive plan or s. 163.3191 plan amendments. In the case of comprehensive plan amendments other than those proposed pursuant to s. 163.3191, the local government shall have 60 days to adopt the amendment, adopt the amendment with changes, or determine that it will not adopt the amendment. The adoption of the proposed plan or plan amendment or the determination not to adopt a plan amendment, other than a plan amendment proposed pursuant to s. 163.3191, shall be made in the course of a public hearing pursuant to subsection (15). The local government shall transmit the *complete* adopted comprehensive plan or ~~adopted~~ plan amendment, *including the names and addresses of persons compiled pursuant to paragraph (15)(c),* to the state land planning agency as specified in the agency's procedural rules within 10 working days after adoption. The local governing body shall also transmit a copy of the adopted comprehensive plan or plan amendment to the regional planning agency and to any other unit of local government or governmental agency in the state that has filed a written request with the governing body for a copy of the plan or plan amendment.

(8) NOTICE OF INTENT.—

(1) DEFINITIONS.—As used in this section, the term:

(a) “Adopted educational facilities plan” means the comprehensive planning document that is adopted annually by the district school board as provided in subsection (2) and that contains the educational plant survey.

~~(a) “Adopted district facilities work program” means the 5-year work program adopted by the district school board as provided in subsection (3).~~

(b) “~~Tentative~~ District facilities work program” means the 5-year listing of capital outlay projects, adopted by the district school board as provided in subparagraph (2)(a)2. and paragraph (2)(b) as part of the district educational facilities plan, which is required in order to:

1. ~~To~~ Properly maintain the educational plant and ancillary facilities of the district.

2. ~~To~~ Provide an adequate number of satisfactory student stations for the projected student enrollment of the district in K-12 programs in accordance with the goal in s. 235.062.

(c) “Tentative educational facilities plan” means the comprehensive planning document prepared annually by the district school board and submitted to the Office of Educational Facilities of the Commissioner of Education and the affected general-purpose local governments.

(2) PREPARATION OF TENTATIVE DISTRICT EDUCATIONAL FACILITIES PLAN ~~WORK PROGRAM~~.—

(a) Annually, prior to the adoption of the district school budget, each school board shall prepare a tentative district educational facilities plan that includes long-range planning for facilities needs over 5-year, 10-year, and 20-year periods. The plan must be developed in coordination with the general-purpose local governments and be consistent with the local government comprehensive plans. The school board’s plan for provision of new schools must meet the needs of all growing communities in the district, ranging from small rural communities to large urban cities. The plan must include ~~work program that includes~~:

1. Projected student populations apportioned geographically at the local level. The projections must be based on information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136, where available, as modified by the district based on development data and agreement with the local governments and the Office of Educational Facilities of the Commissioner of Education. The projections must be apportioned geographically with assistance from the local governments using local development trend data and the school district student enrollment data.

2. An inventory of existing school facilities. Any anticipated expansions or closures of existing school sites over the 5-year, 10-year, and 20-year periods must be identified. The inventory must include an assessment of areas proximate to existing schools and identification of the need for improvements to infrastructure, safety, including safe access routes, and conditions in the community. The plan must also provide a listing of major repairs and renovation projects anticipated over the period of the plan.

3. Projections of facilities space needs, which may not exceed the norm space and occupant design criteria established in the State Requirements for Educational Facilities.

4. Information on leased, loaned, and donated space and relocatables used for conducting the district’s instructional programs.

5. The general location of public schools proposed to be constructed over the 5-year, 10-year, and 20-year time periods, including a listing of the proposed schools’ site acreage needs and anticipated capacity and maps showing the general locations. The school board’s identification of general locations of future school sites must be based on the school siting requirements of s. 163.3177(6)(a) and policies in the comprehensive plan which provide guidance for appropriate locations for school sites.

6. The identification of options deemed reasonable and approved by the school board which reduce the need for additional permanent student stations. Such options may include, but need not be limited to:

a. Acceptable capacity;

b. Redistricting;

c. Busing;

d. Year-round schools; and

e. Charter schools.

7. The criteria and method, jointly determined by the local government and the school board, for determining the impact to public school capacity in response to a local government request for a report pursuant to s. 235.193(4).

(b) The plan must also include a financially feasible district facilities work program for a 5-year period. The work program must include:

1. A schedule of major repair and renovation projects necessary to maintain the educational facilities ~~plant~~ and ancillary facilities of the district.

2. A schedule of capital outlay projects necessary to ensure the availability of satisfactory student stations for the projected student enrollment in K-12 programs. This schedule shall consider:

a. The locations, capacities, and planned utilization rates of current educational facilities of the district. The capacity of existing satisfactory facilities, as reported in the Florida Inventory of School Houses must be compared to the capital outlay full-time-equivalent student enrollment as determined by the department including all enrollment used in the calculation of the distribution formula in s. 235.435(3).

b. The proposed locations of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. The provisions of ss. 235.19 and 235.193(6), (7), and (8) must be addressed for new facilities planned within the first 3 years of the work plan, as appropriate.

c. Plans for the use and location of relocatable facilities, leased facilities, and charter school facilities.

d. Plans for multitrack scheduling, grade level organization, block scheduling, or other alternatives that reduce the need for additional permanent student stations.

e. Information concerning average class size and utilization rate by grade level within the district which ~~that~~ will result if the tentative district facilities work program is fully implemented. ~~The average shall not include exceptional student education classes or prekindergarten classes.~~

f. The number and percentage of district students planned to be educated in relocatable facilities during each year of the tentative district facilities work program. For determining future needs, student capacity may not be assigned to any relocatable classroom that is scheduled for elimination or replacement with a permanent educational facility in the current year of the adopted district educational facilities plan and in the district facilities work program adopted under this section. Those relocatable classrooms clearly identified and scheduled for replacement in a school-board-adopted, financially feasible, 5-year district facilities work program shall be counted at zero capacity at the time the work program is adopted and approved by the school board. However, if the district facilities work program is changed and the relocatable classrooms are not replaced as scheduled in the work program, the classrooms must be reentered into the system and be counted at actual capacity. Relocatable classrooms may not be perpetually added to the work program or continually extended for purposes of circumventing this section. All relocatable classrooms not identified and scheduled for replacement, including those owned, lease-purchased, or leased by the school district, must be counted at actual student capacity. The district educational facilities plan must identify the number of relocatable student stations scheduled for replacement during the 5-year survey period and the total dollar amount needed for that replacement.

g. Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

h. Projects for which capital outlay and debt service funds accruing under s. 9(d), Art. XII of the State Constitution are to be used shall be identified separately in priority order on a project priority list within the district facilities work program.

3. The projected cost for each project identified in the tentative district facilities work program. For proposed projects for new student stations, a schedule shall be prepared comparing the planned cost and square footage for each new student station, by elementary, middle, and high school levels, to the low, average, and high cost of facilities constructed throughout the state during the most recent fiscal year for which data is available from the Department of Education.

4. A schedule of estimated capital outlay revenues from each currently approved source which is estimated to be available for expenditure on the projects included in the tentative district facilities work program.

5. A schedule indicating which projects included in the tentative district facilities work program will be funded from current revenues projected in subparagraph 4.

6. A schedule of options for the generation of additional revenues by the district for expenditure on projects identified in the tentative district facilities work program which are not funded under subparagraph 5. Additional anticipated revenues may include effort index grants, SIT Program awards, and Classrooms First funds.

(c)(b) To the extent available, the tentative district educational facilities plan work program shall be based on information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136.

(d)(e) Provision shall be made for public comment concerning the tentative district educational facilities plan work program.

(e) The district school board shall coordinate with each affected local government to ensure consistency between the tentative district educational facilities plan and the local government comprehensive plans of the affected local governments during the development of the tentative district educational facilities plan.

(f) Commencing on October 1, 2001, and not less than once every 5 years thereafter, the district school board shall contract with a qualified, independent third party to conduct a financial management and performance audit of the educational planning and construction activities of the district. An audit conducted by the Auditor General satisfies this requirement.

(3) SUBMITTAL OF TENTATIVE DISTRICT EDUCATIONAL FACILITIES PLAN TO LOCAL GOVERNMENT.—The district school board shall submit a copy of its tentative district educational facilities plan to all affected local governments prior to adoption by the board. The affected local governments shall review the tentative district educational facilities plan and comment to the district school board on the consistency of the plan with the local comprehensive plan, whether a comprehensive plan amendment will be necessary for any proposed educational facility, and whether the local government supports a necessary comprehensive plan amendment. If the local government does not support a comprehensive plan amendment for a proposed educational facility, the matter shall be resolved pursuant to the interlocal agreement required by ss. 163.31776(4) and 235.193(2). The process for the submittal and review shall be detailed in the interlocal agreement required pursuant to ss. 163.31776(4) and 235.193(2).

(4)(3) ADOPTED DISTRICT EDUCATIONAL FACILITIES PLAN WORK PROGRAM.—Annually, the district school board shall consider and adopt the tentative district educational facilities plan work program completed pursuant to subsection (2). Upon giving proper public notice to the public and local governments and opportunity for public comment, the district school board may amend the plan program to revise the priority of projects, to add or delete projects, to reflect the impact of change orders, or to reflect the approval of new revenue sources which may become available. The adopted district educational facilities plan work program shall:

(a) Be a complete, balanced, and financially feasible capital outlay financial plan for the district.

(b) Set forth the proposed commitments and planned expenditures of the district to address the educational facilities needs of its students and to adequately provide for the maintenance of the educational plant and ancillary facilities, including safe access ways from neighborhoods to schools.

(5)(4) EXECUTION OF ADOPTED DISTRICT EDUCATIONAL FACILITIES PLAN WORK PROGRAM.—The first year of the adopted district educational facilities plan work program shall constitute the capital outlay budget required in s. 235.18. The adopted district educational facilities plan work program shall include the information required in subparagraphs *(2)(b)1., 2., and 3.* ~~*(2)(a)1., 2., and 3.,*~~ based upon projects actually funded in the program.

~~**(5) 10 YEAR AND 20 YEAR WORK PROGRAMS.**—In addition to the adopted district facilities work program covering the 5 year work program, the district school board shall adopt annually a 10 year and a 20 year work program which include the information set forth in subsection (2), but based upon enrollment projections and facility needs for the 10 year and 20 year periods. It is recognized that the projections in the 10 year and 20 year timeframes are tentative and should be used only for general planning purposes.~~

Section 20. Section 235.188, Florida Statutes, is amended to read:

235.188 Full bonding required to participate in programs.—Any district with unused bonding capacity in its Capital Outlay and Debt Service Trust Fund allocation that certifies in its district educational facilities plan work program that it will not be able to meet all of its need for new student stations within existing revenues must fully bond its Capital Outlay and Debt Service Trust Fund allocation before it may participate in Classrooms First, the School Infrastructure Thrift (SIT) Program, or the Effort Index Grants Program.

Section 21. Section 235.19, Florida Statutes, is amended to read:

235.19 Site planning and selection.—

(1) If the school board and local government have entered into an interlocal agreement pursuant to ss. 163.31776(4) and 235.193(2) and have developed a process to ensure consistency between the local government comprehensive plan and the school district educational facilities plan and a method to coordinate decisionmaking and approved activities relating to school planning and site selection, the provisions of this section do not apply to such school board and local government.

~~*(2)(1)*~~ Before acquiring property for sites, each board shall determine the location of proposed educational centers or campuses for the board. In making this determination, the board shall consider existing and anticipated site needs and the most economical and practicable locations of sites. The board shall coordinate with the long-range or comprehensive plans of local, regional, and state governmental agencies to assure the consistency compatibility of such plans with site planning. Boards are encouraged to locate schools proximate to urban residential areas to the extent possible, and shall seek to collocate schools with other public facilities, such as parks, libraries, and community centers, to the extent possible and to encourage using elementary schools as focal points for neighborhoods.

~~*(3)(2)*~~ Each new site selected must be adequate in size to meet the educational needs of the students to be served on that site by the original educational facility or future expansions of the facility through renovation or the addition of relocatables. ~~The Commissioner of Education shall prescribe by rule recommended sizes for new sites according to categories of students to be housed and other appropriate factors determined by the commissioner. Less than recommended site sizes are allowed if the board, by a two-thirds majority, recommends such a site and finds that it can provide an appropriate and equitable educational program on the site.~~

~~*(4)(3)*~~ Sites recommended for purchase, or purchased, in accordance with chapter 230 or chapter 240 must meet standards prescribed therein and such supplementary standards as the school board commissioner prescribes to promote the educational interests of the students. Each site must be well drained and suitable for outdoor educational purposes as appropriate for the educational program or collocated with facilities to serve this purpose. As provided in s. 333.03, the site must not be located within any path of flight approach of any airport. Insofar as is practicable, the site must not adjoin a right-of-way of any railroad or through

highway and must not be adjacent to any factory or other property from which noise, odors, or other disturbances, or at which conditions, would be likely to interfere with the educational program. *To the extent practicable, sites must be chosen that will provide safe access from neighborhoods to schools.*

(5)(4) It shall be the responsibility of the board to provide adequate notice to appropriate municipal, county, regional, and state governmental agencies for requested traffic control and safety devices so they can be installed and operating prior to the first day of classes or to satisfy itself that every reasonable effort has been made in sufficient time to secure the installation and operation of such necessary devices prior to the first day of classes. It shall also be the responsibility of the board to review annually traffic control and safety device needs and to request all necessary changes indicated by such review.

(6)(5) Each board may request county and municipal governments to construct and maintain sidewalks and bicycle trails within a 2-mile radius of each educational facility within the jurisdiction of the local government. When a board discovers or is aware of an existing hazard on or near a public sidewalk, street, or highway within a 2-mile radius of a school site and the hazard endangers the life or threatens the health or safety of students who walk, ride bicycles, or are transported regularly between their homes and the school in which they are enrolled, the board shall, within 24 hours after discovering or becoming aware of the hazard, excluding Saturdays, Sundays, and legal holidays, report such hazard to the governmental entity within the jurisdiction of which the hazard is located. Within 5 days after receiving notification by the board, excluding Saturdays, Sundays, and legal holidays, the governmental entity shall investigate the hazardous condition and either correct it or provide such precautions as are practicable to safeguard students until the hazard can be permanently corrected. However, if the governmental entity that has jurisdiction determines upon investigation that it is impracticable to correct the hazard, or if the entity determines that the reported condition does not endanger the life or threaten the health or safety of students, the entity shall, within 5 days after notification by the board, excluding Saturdays, Sundays, and legal holidays, inform the board in writing of its reasons for not correcting the condition. The governmental entity, to the extent allowed by law, shall indemnify the board from any liability with respect to accidents or injuries, if any, arising out of the hazardous condition.

Section 22. Section 235.193, Florida Statutes, is amended to read:

235.193 Coordination of planning with local governing bodies.—

(1) It is the policy of this state to require the coordination of planning between boards and local governing bodies to ensure that plans for the construction and opening of public educational facilities are facilitated and coordinated in time and place with plans for residential development, concurrently with other necessary services. Such planning shall include the integration of the educational facilities plan ~~plant survey~~ and applicable policies and procedures of a board with the local comprehensive plan and land development regulations of local governments ~~governing bodies~~. The planning must include the consideration of allowing students to attend the school located nearest their homes when a new housing development is constructed near a county boundary and it is more feasible to transport the students a short distance to an existing facility in an adjacent county than to construct a new facility or transport students longer distances in their county of residence. The planning must also consider the effects of the location of public education facilities, including the feasibility of keeping central city facilities viable, in order to encourage central city redevelopment and the efficient use of infrastructure and to discourage uncontrolled urban sprawl. *In addition, all parties to the planning process must consult with state and local road departments to assist in implementing the Safe Paths to Schools program administered by the Department of Transportation.*

(2) *No later than 6 months prior to the transmittal of a public educational facilities element by general purpose local governments meeting the criteria of s. 163.31776(3), the school district, the county, and the non-exempt municipalities shall enter into an interlocal agreement that establishes a process for developing coordinated and consistent local government public educational facilities elements and a district educational facilities plan, including a process:*

(a) *By which each local government and the school district agree and base the local government comprehensive plan and educational facilities*

plan on uniform projections of the amount, type, and distribution of population growth and student enrollment.

(b) *To coordinate and share information relating to existing and planned public school facilities and local government plans for development and redevelopment.*

(c) *To ensure that school-siting decisions by the school board are consistent with the local comprehensive plan, including appropriate circumstances and criteria under which a school district may request an amendment to the comprehensive plan for school siting, and to ensure early involvement by the local government as the school board identifies potential school sites.*

(d) *To coordinate and provide timely formal comments during the development, adoption, and amendment of each local government's public educational facilities element and the educational facilities plan of the school district to ensure a uniform, countywide school facility planning system.*

(e) *For school-district participation in the review of comprehensive plan amendments and rezonings that increase residential density and that are reasonably expected to have an impact on public school facility demand pursuant to s. 163.31777. The interlocal agreement must specify how the school board and local governments will develop the methodology and the criteria for determining whether school facility capacity will be reasonably available at the time of projected school impacts, including uniform, districtwide level-of-service standards for all public schools of the same type and availability standards for public schools. The interlocal agreement shall ensure that consistent criteria and capacity-determination methodologies including student generation multipliers are adopted into the school board's district educational facilities plan and the local government's public educational facilities element. The interlocal agreement shall also set forth the process and uniform methodology for determining proportionate-share mitigation pursuant to s. 163.31777.*

(f) *For the resolution of disputes between the school district and local governments.*

Any school board entering into an interlocal agreement for the purpose of adopting public school concurrency prior to the effective date of this act is not required to amend the interlocal agreement to conform to the provisions of this subsection if the comprehensive plan amendment adopting public school concurrency is ultimately determined to be in compliance.

(3) *Failure to enter into an interlocal agreement as required by s. 235.193(2) shall result in the withholding of funds for school construction available pursuant to ss. 235.187, 235.216, 235.2195, and 235.42 and a prohibition from siting schools. Before the Office of Educational Facilities of the Commissioner of Education may withhold any funds, the office shall provide the school board with a notice of intent to withhold funds, which the school board may appeal under chapter 120. The office shall withhold funds when a final order is issued finding that the school board has failed to enter into an interlocal agreement that meets the requirements of this section.*

(4) *The school board shall report to the local government on school capacity when the local government notifies the school board that it is reviewing an application for a comprehensive plan amendment or a rezoning that seeks to increase residential density. The report must provide data and analysis as required by s. 163.31777(2) for the local government's review of the proposed plan amendment or rezoning.*

(5)(2) A school board and the local governing body must share and coordinate information related to existing and planned public school facilities; proposals for development, redevelopment, or additional development; and infrastructure required to support the public school facilities, concurrent with proposed development. A school board shall use information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136 ~~Department of Education enrollment projections~~ when preparing the 5-year district educational facilities plan ~~work program~~ pursuant to s. 235.185, as modified and agreed to by the local governments and the Office of Educational Facilities of the Commissioner of Education, ~~in and a school board shall affirmatively demonstrate in the educational facilities report~~ consideration of local governments' population projections, to ensure that the district educational facilities plan ~~5-year work program~~ not only reflects enrollment projections but also considers applicable municipal and county

growth and development projections. *The projections shall be apportioned geographically with assistance from the local governments using local government trend data and the school district student enrollment data.* A school board is precluded from siting a new school in a jurisdiction where the school board has failed to provide the annual educational facilities *plan report* for the prior year required pursuant to s. 235.185 s. ~~235.194~~ unless the failure is corrected.

(6)(~~3~~) The location of public educational facilities shall be consistent with the comprehensive plan of the appropriate local governing body developed under part II of chapter 163 and *consistent with the plan's implementing land development regulations, to the extent that the regulations are not in conflict with or the subject regulated is not specifically addressed by this chapter or the State Uniform Building Code, unless mutually agreed by the local government and the board.*

(7)(4) To improve coordination relative to potential educational facility sites, a board shall provide written notice to the local government that has regulatory authority over the use of the land at least 120 ~~60~~ days prior to acquiring or leasing property that may be used for a new public educational facility. The local government, upon receipt of this notice, shall notify the board within 45 days if the site proposed for acquisition or lease is consistent with the land use categories and policies of the local government's comprehensive plan. This preliminary notice does not constitute the local government's determination of consistency pursuant to subsection (8) (~~5~~).

(8)(~~5~~) As early in the design phase as feasible, but at least before commencing construction of a new public educational facility, the local governing body that regulates the use of land shall determine, in writing within 90 days after receiving the necessary information and a school board's request for a determination, whether a proposed public educational facility is consistent with the local comprehensive plan and *consistent with local land development regulations, to the extent that the regulations are not in conflict with or the subject regulated is not specifically addressed by this chapter or the State Uniform Building Code, unless mutually agreed.* If the determination is affirmative, school construction may proceed and further local government approvals are not required, except as provided in this section. Failure of the local governing body to make a determination in writing within 90 days after a school board's request for a determination of consistency shall be considered an approval of the school board's application.

(9)(~~6~~) A local governing body may not deny the site applicant based on adequacy of the site plan as it relates solely to the needs of the school. If the site is consistent with the comprehensive plan's *future* land use policies and categories in which public schools are identified as allowable uses, the local government may not deny the application but it may impose reasonable development standards and conditions in accordance with s. 235.34(1) and consider the site plan and its adequacy as it relates to environmental concerns, health, safety and welfare, and effects on adjacent property. Standards and conditions may not be imposed which conflict with those established in this chapter or the State Uniform Building Code, unless mutually agreed.

(10)(~~7~~) This section does not prohibit a local governing body and district school board from agreeing and establishing an alternative process for reviewing a proposed educational facility and site plan, and offsite impacts *pursuant to an interlocal agreement adopted in accordance with this section.*

(11)(~~8~~) Existing schools shall be considered consistent with the applicable local government comprehensive plan adopted under part II of chapter 163. ~~The collocation of a new proposed public educational facility with an existing public educational facility, or the expansion of an existing public educational facility is not inconsistent with the local comprehensive plan, if the site is consistent with the comprehensive plan's future land use policies and categories in which public schools are identified as allowable uses, and levels of service adopted by the local government for any facilities affected by the proposed location for the new facility are maintained.~~ If a board submits an application to expand an existing school site, the local governing body may impose reasonable development standards and conditions on the expansion only, and in a manner consistent with s. 235.34(1). Standards and conditions may not be imposed which conflict with those established in this chapter or the State Uniform Building Code, unless mutually agreed. Local government review or approval is not required for:

- (a) The placement of temporary or portable classroom facilities; or
- (b) Proposed renovation or construction on existing school sites, with the exception of construction that changes the primary use of a facility, includes stadiums, or results in a greater than 5 percent increase in student capacity, or as mutually agreed.

Section 23. *Section 235.194, Florida Statutes, is repealed.*

Section 24. Section 235.218, Florida Statutes, is amended to read:

235.218 School district *educational facilities plan* ~~work program~~ performance and productivity standards; development; measurement; application.—

(1) The SMART Schools Clearinghouse shall develop and adopt measures for evaluating the performance and productivity of school district *educational facilities plans* ~~work programs~~. The measures may be both quantitative and qualitative and must, to the maximum extent practical, assess those factors that are within the districts' control. The measures must, at a minimum, assess performance in the following areas:

- (a) Frugal production of high-quality projects.
- (b) Efficient finance and administration.
- (c) Optimal school and classroom size and utilization rate.
- (d) Safety.
- (e) Core facility space needs and cost-effective capacity improvements that consider demographic projections.
- (f) Level of district local effort.

(2) The clearinghouse shall establish annual performance objectives and standards that can be used to evaluate district performance and productivity.

(3) The clearinghouse shall conduct ongoing evaluations of district educational facilities program performance and productivity, using the measures adopted under this section. If, using these measures, the clearinghouse finds that a district failed to perform satisfactorily, the clearinghouse must recommend to the district school board actions to be taken to improve the district's performance.

Section 25. Section 235.321, Florida Statutes, is amended to read:

235.321 Changes in construction requirements after award of contract.—The board may, at its option and by written policy duly adopted and entered in its official minutes, authorize the superintendent or president or other designated individual to approve change orders in the name of the board for preestablished amounts. Approvals shall be for the purpose of expediting the work in progress and shall be reported to the board and entered in its official minutes. For accountability, the school district shall monitor and report the impact of change orders on its district *educational facilities plan* ~~work program~~ pursuant to s. 235.185.

Section 26. Paragraph (d) of subsection (5) of section 236.25, Florida Statutes, is amended, and subsection (6) is added to that section, to read:

236.25 District school tax.—

(5)

(d) Notwithstanding any other provision of this subsection, if through its adopted *educational facilities plan* ~~work program~~ a district has clearly identified the need for an ancillary plant, has provided opportunity for public input as to the relative value of the ancillary plant versus an educational plant, and has obtained public approval, the district may use revenue generated by the millage levy authorized by subsection (2) for the *acquisition*, construction, renovation, remodeling, maintenance, or repair of an ancillary plant.

A district that violates these expenditure restrictions shall have an equal dollar reduction in funds appropriated to the district under s. 236.081 in the fiscal year following the audit citation. The expenditure restrictions do not apply to any school district that certifies to the Commissioner of Education that all of the district's instructional space needs for the next 5 years can be met from capital outlay sources that the

district reasonably expects to receive during the next 5 years or from alternative scheduling or construction, leasing, rezoning, or technological methodologies that exhibit sound management.

(6) *In addition to the maximum millage levied under this section and the General Appropriations Act, a school district may levy, by local referendum or in a general election, additional millage for school operational purposes up to an amount that, when combined with nonvoted millage levied under this section, does not exceed the 10-mill limit established in s. 9(b), Art. VII of the State Constitution. Any such levy shall be for a maximum of 4 years and shall be counted as part of the 10-mill limit established in s. 9(b), Art. VII of the State Constitution. Millage elections conducted under the authority granted pursuant to this section are subject to ss. 236.31 and 236.32. Funds generated by such additional millage do not become a part of the calculation of the Florida Education Finance Program total potential funds in 2001-2002 or any subsequent year and must not be incorporated in the calculation of any hold-harmless or other component of the Florida Education Finance Program formula in any year.*

Section 27. Section 236.31, Florida Statutes, is amended to read:

236.31 District millage elections.—

(1) The school board, pursuant to resolution adopted at a regular meeting, shall direct the county commissioners to call an election at which the electors within the school districts may approve an ad valorem tax millage as authorized in s. 9, Art. VII of the State Constitution. Such election may be held at any time, except that not more than one such election shall be held during any 12-month period. Any millage so authorized shall be levied for a period not in excess of 2 years or until changed by another millage election, whichever is the earlier. In the event any such election is invalidated by a court of competent jurisdiction, such invalidated election shall be considered not to have been held.

(2) *The school board, pursuant to resolution adopted at a regular meeting, shall direct the county commissioners to call an election at which the electors within the school district may approve an ad valorem tax millage as authorized under s. 236.25(6). Such election may be held at any time, except that not more than one such election shall be held during any 12-month period. Any millage so authorized shall be levied for a period not in excess of 4 years or until changed by another millage election, whichever is earlier. If any such election is invalidated by a court of competent jurisdiction, such invalidated election shall be considered not to have been held.*

Section 28. Section 236.32, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 236.32, F.S., for present text.)

236.32 *Procedures for holding and conducting school district millage elections.—*

(1) **HOLDING ELECTIONS.**—*All school district millage elections shall be held and conducted in the manner prescribed by law for holding general elections, except as provided in this chapter.*

(2) **FORM OF BALLOT.**—

(a) *The school board may propose a single millage or two millages, with one for operating expenses and another for a local capital improvement reserve fund. When two millage figures are proposed, each millage must be voted on separately.*

(b) *The school board shall provide the wording of the substance of the measure and the ballot title in the resolution calling for the election. The wording of the ballot must conform to the provisions of s. 101.161.*

(3) **QUALIFICATION OF ELECTORS.**—*All qualified electors of the school district are entitled to vote in the election to set the school tax district millage levy.*

(4) **RESULTS OF ELECTION.**—*When the school board proposes one tax levy for operating expenses and another for the local capital improvement reserve fund, the results shall be considered separately. The tax levy shall be levied only in case a majority of the electors participating in the election vote in favor of the proposed special millage.*

Section 29. Paragraph (e) of subsection (2), subsection (12), paragraph (c) of subsection (15), and subsections (18) and (19) of section 380.06, Florida Statutes, are amended to read:

380.06 Developments of regional impact.—

(2) STATEWIDE GUIDELINES AND STANDARDS.—

(e) With respect to residential, hotel, motel, office, and retail developments, the applicable guidelines and standards shall be increased by 50 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163. With respect to multiuse developments, the applicable guidelines and standards shall be increased by 100 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163, if one land use of the multiuse development is residential and amounts to not less than 35 percent of the jurisdiction's applicable residential threshold. With respect to resort or convention hotel developments, the applicable guidelines and standards shall be increased by 150 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163 and where the increase is specifically for a proposed resort or convention hotel located in a county with a population greater than 500,000 and the local government specifically designates that the proposed resort or convention hotel development will serve an existing convention center of more than 250,000 gross square feet built prior to July 1, 1992. *The applicable guidelines and standards shall be increased by 150 percent for development in any area designated by the Governor as a rural area of critical economic concern pursuant to s. 288.0656 during the effective period of the designation. The Administration Commission, upon the recommendation of the state land planning agency, shall implement this paragraph by rule no later than December 1, 1993. The increased guidelines and standards authorized by this paragraph shall not be implemented until the effectiveness of the rule which, among other things, shall set forth the pertinent characteristics of urban central business districts and regional activity centers.*

(12) REGIONAL REPORTS.—

(a) Within 50 days after receipt of the notice of public hearing required in paragraph (11)(c), the regional planning agency, if one has been designated for the area including the local government, shall prepare and submit to the local government a report and recommendations on the regional impact of the proposed development. In preparing its report and recommendations, the regional planning agency shall identify regional issues based upon the following review criteria and make recommendations to the local government on these regional issues, specifically considering whether, and the extent to which:

1. The development will have a favorable or unfavorable impact on state or regional resources or facilities identified in the applicable state or regional plans. For the purposes of this subsection, "applicable state plan" means the state comprehensive plan. For the purposes of this subsection, "applicable regional plan" means an adopted comprehensive regional policy plan until the adoption of a strategic regional policy plan pursuant to s. 186.508, and thereafter means an adopted strategic regional policy plan.

2. The development will significantly impact adjacent jurisdictions. At the request of the appropriate local government, regional planning agencies may also review and comment upon issues that affect only the requesting local government.

3. As one of the issues considered in the review in subparagraphs 1. and 2., the development will favorably or adversely affect the ability of people to find adequate housing reasonably accessible to their places of employment. The determination should take into account information on factors that are relevant to the availability of reasonably accessible adequate housing. Adequate housing means housing that is available for occupancy and that is not substandard.

(b) At the request of the regional planning agency, other appropriate agencies shall review the proposed development and shall prepare reports and recommendations on issues that are clearly within the jurisdiction of those agencies. Such agency reports shall become part of the regional planning agency report; however, the regional planning agency may attach dissenting views. When water management district and Department of Environmental Protection permits have been issued pursuant to chapter 373 or chapter 403, the regional planning council may comment on the regional implications of the permits but may not offer conflicting recommendations.

(c) The regional planning agency shall afford the developer or any substantially affected party reasonable opportunity to present evidence to the regional planning agency head relating to the proposed regional agency report and recommendations.

(d) *Where the location of a proposed development involves land within the boundaries of multiple regional planning councils, the state land planning agency shall designate a lead regional planning council. The lead regional planning council shall prepare the regional report.*

(15) LOCAL GOVERNMENT DEVELOPMENT ORDER.—

(c) The development order shall include findings of fact and conclusions of law consistent with subsections (13) and (14). The development order:

1. Shall specify the monitoring procedures and the local official responsible for assuring compliance by the developer with the development order.

2. Shall establish compliance dates for the development order, including a deadline for commencing physical development and for compliance with conditions of approval or phasing requirements, and shall include a termination date that reasonably reflects the time required to complete the development.

3. Shall establish a date until which the local government agrees that the approved development of regional impact shall not be subject to downzoning, unit density reduction, or intensity reduction, unless the local government can demonstrate that substantial changes in the conditions underlying the approval of the development order have occurred or the development order was based on substantially inaccurate information provided by the developer or that the change is clearly established by local government to be essential to the public health, safety, or welfare.

4. Shall specify the requirements for the ~~biennial~~ annual report designated under subsection (18), including the date of submission, parties to whom the report is submitted, and contents of the report, based upon the rules adopted by the state land planning agency. Such rules shall specify the scope of any additional local requirements that may be necessary for the report.

5. May specify the types of changes to the development which shall require submission for a substantial deviation determination under subsection (19).

6. Shall include a legal description of the property.

(18) ~~BIENNIAL ANNUAL~~ REPORTS.—The developer shall submit a ~~biennial~~ annual report on the development of regional impact to the local government, the regional planning agency, the state land planning agency, and all affected permit agencies *in alternate years* on the date specified in the development order, *unless the development order by its terms requires more frequent monitoring*. If the annual report is not received, the regional planning agency or the state land planning agency shall notify the local government. If the local government does not receive the ~~biennial~~ annual report or receives notification that the regional planning agency or the state land planning agency has not received the report, the local government shall request in writing that the developer submit the report within 30 days. The failure to submit the report after 30 days shall result in the temporary suspension of the development order by the local government. *If no additional development pursuant to the development order has occurred since the submission of the previous report, a letter from the developer stating that no development has occurred satisfies the requirement for a report. Development orders that require annual reports may be amended to require biennial reports at the option of the local government.*

(19) SUBSTANTIAL DEVIATIONS.—

(a) Any proposed change to a previously approved development which creates a reasonable likelihood of additional regional impact, or any type of regional impact created by the change not previously reviewed by the regional planning agency, shall constitute a substantial deviation and shall cause the development to be subject to further development-of-regional-impact review. There are a variety of reasons why a developer may wish to propose changes to an approved development of regional impact, including changed market conditions. The procedures set forth in this subsection are for that purpose.

(b) Any proposed change to a previously approved development of regional impact or development order condition which, either individually or cumulatively with other changes, exceeds any of the following criteria shall constitute a substantial deviation and shall cause the development to be subject to further development-of-regional-impact review without the necessity for a finding of same by the local government:

1. An increase in the number of parking spaces at an attraction or recreational facility by 5 percent or 300 spaces, whichever is greater, or an increase in the number of spectators that may be accommodated at such a facility by 5 percent or 1,000 spectators, whichever is greater.

2. A new runway, a new terminal facility, a 25-percent lengthening of an existing runway, or a 25-percent increase in the number of gates of an existing terminal, but only if the increase adds at least three additional gates. However, if an airport is located in two counties, a 10-percent lengthening of an existing runway or a 20-percent increase in the number of gates of an existing terminal is the applicable criteria.

3. An increase in the number of hospital beds by 5 percent or 60 beds, whichever is greater.

4. An increase in industrial development area by 5 percent or 32 acres, whichever is greater.

5. An increase in the average annual acreage mined by 5 percent or 10 acres, whichever is greater, or an increase in the average daily water consumption by a mining operation by 5 percent or 300,000 gallons, whichever is greater. An increase in the size of the mine by 5 percent or 750 acres, whichever is less.

6. An increase in land area for office development by 5 percent ~~or 6 acres, whichever is greater~~, or an increase of gross floor area of office development by 5 percent or 60,000 gross square feet, whichever is greater.

7. An increase in the storage capacity for chemical or petroleum storage facilities by 5 percent, 20,000 barrels, or 7 million pounds, whichever is greater.

8. An increase of development at a waterport of wet storage for 20 watercraft, dry storage for 30 watercraft, or wet/dry storage for 60 watercraft in an area identified in the state marina siting plan as an appropriate site for additional waterport development or a 5-percent increase in watercraft storage capacity, whichever is greater.

9. An increase in the number of dwelling units by 5 percent or 50 dwelling units, whichever is greater.

10. An increase in commercial development by ~~6 acres of land area or~~ 50,000 square feet of gross floor area; or of parking spaces provided for customers for 300 cars or a 5-percent increase of ~~either any~~ of these, whichever is greater.

11. An increase in hotel or motel facility units by 5 percent or 75 units, whichever is greater.

12. An increase in a recreational vehicle park area by 5 percent or 100 vehicle spaces, whichever is less.

13. A decrease in the area set aside for open space of 5 percent or 20 acres, whichever is less.

14. A proposed increase to an approved multiuse development of regional impact where the sum of the increases of each land use as a percentage of the applicable substantial deviation criteria is equal to or exceeds 100 percent. The percentage of any decrease in the amount of open space shall be treated as an increase for purposes of determining when 100 percent has been reached or exceeded.

15. A 15-percent increase in the number of external vehicle trips generated by the development above that which was projected during the original development-of-regional-impact review.

16. Any change which would result in development of any area which was specifically set aside in the application for development approval or in the development order for preservation or special protection of endangered or threatened plants or animals designated as endangered, threatened, or species of special concern and their habitat, primary dunes, or

archaeological and historical sites designated as significant by the Division of Historical Resources of the Department of State. The further refinement of such areas by survey shall be considered under subparagraph (e)5.b.

The substantial deviation numerical standards in subparagraphs 4., 6., 10., 14., excluding residential uses, and 15., are increased by 100 percent for a project certified under s. 403.973 which creates jobs and meets criteria established by the Office of Tourism, Trade, and Economic Development as to its impact on an area's economy, employment, and prevailing wage and skill levels. The substantial deviation numerical standards in subparagraphs 4., 6., 9., 10., 11., and 14. are increased by 50 percent for a project located wholly within an urban infill and redevelopment area designated on the applicable adopted local comprehensive plan future land use map and not located within the coastal high hazard area.

(c) An extension of the date of buildout of a development, or any phase thereof, by 7 or more years shall be presumed to create a substantial deviation subject to further development-of-regional-impact review. An extension of the date of buildout, or any phase thereof, of 5 years or more but less than 7 years shall be presumed not to create a substantial deviation. These presumptions may be rebutted by clear and convincing evidence at the public hearing held by the local government. An extension of less than 5 years is not a substantial deviation. For the purpose of calculating when a buildout, phase, or termination date has been exceeded, the time shall be tolled during the pendency of administrative or judicial proceedings relating to development permits. Any extension of the buildout date of a project or a phase thereof shall automatically extend the commencement date of the project, the termination date of the development order, the expiration date of the development of regional impact, and the phases thereof by a like period of time.

(d) A change in the plan of development of an approved development of regional impact resulting from requirements imposed by the Department of Environmental Protection or any water management district created by s. 373.069 or any of their successor agencies or by any appropriate federal regulatory agency shall be submitted to the local government pursuant to this subsection. The change shall be presumed not to create a substantial deviation subject to further development-of-regional-impact review. The presumption may be rebutted by clear and convincing evidence at the public hearing held by the local government.

~~(e)1.—A proposed change which, either individually or, if there were previous changes, cumulatively with those changes, is equal to or exceeds 40 percent of any numerical criterion in subparagraphs (b)1.-15., but which does not exceed such criterion, shall be presumed not to create a substantial deviation subject to further development-of-regional-impact review. The presumption may be rebutted by clear and convincing evidence at the public hearing held by the local government pursuant to subparagraph (f)5.~~

1.2. Except for a development order rendered pursuant to subsection (22) or subsection (25), a proposed change to a development order that individually or cumulatively with any previous change is less than 40 percent of any numerical criterion contained in subparagraphs (b)1.-15. and does not exceed any other criterion, or that involves an extension of the buildout date of a development, or any phase thereof, of less than 5 years is not a substantial deviation, is not subject to the public hearing requirements of subparagraph (f)3., and is not subject to a determination pursuant to subparagraph (f)5. Notice of the proposed change shall be made to the regional planning council and the state land planning agency. Such notice shall include a description of previous individual changes made to the development, including changes previously approved by the local government, and shall include appropriate amendments to the development order.

2. The following changes, individually or cumulatively with any previous changes, are not substantial deviations:

- a. Changes in the name of the project, developer, owner, or monitoring official.
- b. Changes to a setback that do not affect noise buffers, environmental protection or mitigation areas, or archaeological or historical resources.
- c. Changes to minimum lot sizes.

d. Changes in the configuration of internal roads that do not affect external access points.

e. Changes to the building design or orientation that stay approximately within the approved area designated for such building and parking lot, and which do not affect historical buildings designated as significant by the Division of Historical Resources of the Department of State.

f. Changes to increase the acreage in the development, provided that no development is proposed on the acreage to be added.

g. Changes to eliminate an approved land use, provided that there are no additional regional impacts.

h. Changes required to conform to permits approved by any federal, state, or regional permitting agency, provided that these changes do not create additional regional impacts.

i. Any other change which the state land planning agency agrees in writing is similar in nature, impact, or character to the changes enumerated in sub-subparagraphs a.-h. and which does not create the likelihood of any additional regional impact.

This subsection does not require a development order amendment for any change listed in sub-subparagraphs a.-i. unless such issue is addressed either in the existing development order or in the application for development approval, but, in the case of the application, only if, and in the manner in which, the application is incorporated in the development order.

3. Except for the change authorized by sub-subparagraph 2.f., any addition of land not previously reviewed or any change not specified in paragraph (b) or paragraph (c) shall be presumed to create a substantial deviation. This presumption may be rebutted by clear and convincing evidence.

4. Any submittal of a proposed change to a previously approved development shall include a description of individual changes previously made to the development, including changes previously approved by the local government. The local government shall consider the previous and current proposed changes in deciding whether such changes cumulatively constitute a substantial deviation requiring further development-of-regional-impact review.

5. The following changes to an approved development of regional impact shall be presumed to create a substantial deviation. Such presumption may be rebutted by clear and convincing evidence.

a. A change proposed for 15 percent or more of the acreage to a land use not previously approved in the development order. Changes of less than 15 percent shall be presumed not to create a substantial deviation.

b. Except for the types of uses listed in subparagraph (b)16., any change which would result in the development of any area which was specifically set aside in the application for development approval or in the development order for preservation, buffers, or special protection, including habitat for plant and animal species, archaeological and historical sites, dunes, and other special areas.

c. Notwithstanding any provision of paragraph (b) to the contrary, a proposed change consisting of simultaneous increases and decreases of at least two of the uses within an authorized multiuse development of regional impact which was originally approved with three or more uses specified in s. 380.0651(3)(c), (d), (f), and (g) and residential use.

(f)1. The state land planning agency shall establish by rule standard forms for submittal of proposed changes to a previously approved development of regional impact which may require further development-of-regional-impact review. At a minimum, the standard form shall require the developer to provide the precise language that the developer proposes to delete or add as an amendment to the development order.

2. The developer shall submit, simultaneously, to the local government, the regional planning agency, and the state land planning agency the request for approval of a proposed change.

3. No sooner than 30 days but no later than 45 days after submittal by the developer to the local government, the state land planning agency, and the appropriate regional planning agency, the local government shall give 15 days' notice and schedule a public hearing to consider

the change that the developer asserts does not create a substantial deviation. This public hearing shall be held within 90 days after submittal of the proposed changes, unless that time is extended by the developer.

4. The appropriate regional planning agency or the state land planning agency shall review the proposed change and, no later than 45 days after submittal by the developer of the proposed change, unless that time is extended by the developer, and prior to the public hearing at which the proposed change is to be considered, shall advise the local government in writing whether it objects to the proposed change, shall specify the reasons for its objection, if any, and shall provide a copy to the developer. ~~A change which is subject to the substantial deviation criteria specified in sub-subparagraph (e)5.c. shall not be subject to this requirement.~~

5. At the public hearing, the local government shall determine whether the proposed change requires further development-of-regional-impact review. The provisions of paragraphs (a) and (e), the thresholds set forth in paragraph (b), and the presumptions set forth in paragraphs (c) and (d) and ~~subparagraph (e)3. subparagraphs (e)1. and 3.~~ shall be applicable in determining whether further development-of-regional-impact review is required.

6. If the local government determines that the proposed change does not require further development-of-regional-impact review and is otherwise approved, or if the proposed change is not subject to a hearing and determination pursuant to subparagraphs 3. and 5. and is otherwise approved, the local government shall issue an amendment to the development order incorporating the approved change and conditions of approval relating to the change. The decision of the local government to approve, with or without conditions, or to deny the proposed change that the developer asserts does not require further review shall be subject to the appeal provisions of s. 380.07. However, the state land planning agency may not appeal the local government decision if it did not comply with subparagraph 4. The state land planning agency may not appeal a change to a development order made pursuant to subparagraph (e)2. for developments of regional impact approved after January 1, 1980, unless the change would result in a significant impact to a regionally significant archaeological, historical, or natural resource not previously identified in the original development-of-regional-impact review.

(g) If a proposed change requires further development-of-regional-impact review pursuant to this section, the review shall be conducted subject to the following additional conditions:

1. The development-of-regional-impact review conducted by the appropriate regional planning agency shall address only those issues raised by the proposed change except as provided in subparagraph 2.

2. The regional planning agency shall consider, and the local government shall determine whether to approve, approve with conditions, or deny the proposed change as it relates to the entire development. If the local government determines that the proposed change, as it relates to the entire development, is unacceptable, the local government shall deny the change.

3. If the local government determines that the proposed change, as it relates to the entire development, should be approved, any new conditions in the amendment to the development order issued by the local government shall address only those issues raised by the proposed change.

4. Development within the previously approved development of regional impact may continue, as approved, during the development-of-regional-impact review in those portions of the development which are not affected by the proposed change.

(h) When further development-of-regional-impact review is required because a substantial deviation has been determined or admitted by the developer, the amendment to the development order issued by the local government shall be consistent with the requirements of subsection (15) and shall be subject to the hearing and appeal provisions of s. 380.07. The state land planning agency or the appropriate regional planning agency need not participate at the local hearing in order to appeal a local government development order issued pursuant to this paragraph.

Section 30. Paragraphs (d) and (f) of subsection (3) of section 380.0651, Florida Statutes, are amended to read:

380.0651 Statewide guidelines and standards.—

2.3. Encompasses more than 600,000 square feet of gross floor area in a county with a population greater than 500,000 and only in a geographic area specifically designated as highly suitable for increased threshold intensity in the approved local comprehensive plan and in the strategic regional policy plan.

(f) Retail and service development.—Any proposed retail, service, or wholesale business establishment or group of establishments which deals primarily with the general public onsite, operated under one common property ownership, development plan, or management that:

Part 150 shall, in fiscal year 2002, establish a noise-mitigation-project fund in an amount of \$7.5 million, which shall be increased by another \$2.5 million in fiscal year 2004. The moneys in the project fund shall be segregated and expended by the airport authority by December 31, 2006, to the extent necessary to comply with development-order commitments to acquire property from or otherwise mitigate property owners adversely affected by the development of regional impact. If moneys are not expended for such purposes by December 31, 2006, the airport authority shall not thereafter amend its development-of-regional-impact development order or commence development of airport infrastructure improvements authorized by such development order until such funds are fully expended for such purposes.*

Section 36. Subsection (1) of section 163.356, Florida Statutes, is amended to read:

The Honorable John M. McKay, President

I am directed to inform the Senate that the House of Representatives has passed CS for CS for SB 1180, with amendment(s), and requests the concurrence of the Senate.

John B. Phelps, Clerk

CS for CS for SB 1180—A bill to be entitled An act relating to scholarships for students with disabilities; amending s. 229.05371, F.S.; creating the scholarship program for students with disabilities; providing for eligibility; establishing obligations of school districts; establishing criteria for private school eligibility; establishing obligations for program participants; providing for funding; authorizing the State Board of Education to adopt rules; providing an effective date.

House Amendment 1 (965965)(with title amendment)—Remove from the bill: Everything after the enacting clause and insert in lieu thereof:

Section 1. Section 229.05371, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 229.05371, F.S., for present text.)

229.05371 The John M. McKay Scholarships for Students with Disabilities Program.—There is established a program that is separate and distinct from the Opportunity Scholarship Program and is named the John M. McKay Scholarships for Students with Disabilities Program, pursuant to this section.

(1) THE JOHN M. MCKAY SCHOLARSHIPS FOR STUDENTS WITH DISABILITIES PROGRAM.—The John M. McKay Scholarships for Students with Disabilities Program is established to provide the option to attend a public school other than the one to which assigned, or to provide a scholarship to a private school of choice, for students with disabilities for whom an individual education plan has been written in accordance with rules of the Commissioner of Education or the State Board of Education. Students with disabilities include K-12 students who are mentally handicapped, speech and language impaired, deaf or hard of hearing, visually impaired, dual sensory impaired, physically impaired, emotionally handicapped, specific learning disabled, hospitalized or homebound, or autistic.

(2) SCHOLARSHIP ELIGIBILITY.—The parent of a public school student with a disability who is dissatisfied with the student's progress may request and receive from the state a John M. McKay Scholarship for the child to enroll in and attend a private school in accordance with this section if:

(a) By assigned school attendance area or by special assignment, the student has spent the prior school year in attendance at a Florida public school. Prior school year in attendance means that the student was enrolled and reported by a school district for funding during the preceding October and February Florida Education Finance Program surveys in kindergarten through grade 12; and

(b) The parent has obtained acceptance for admission of the student to a private school that is eligible for the program under subsection (4) and has notified, in writing, the school district of the request for a scholarship at least 60 days prior to the date of the first scholarship payment.

This section does not apply to a student who is enrolled in a school operating for the purpose of providing educational services to youth in Department of Juvenile Justice commitment programs. For purposes of continuity of educational choice, the scholarship shall remain in force until the student returns to a public school or graduates from high school. However, at any time, the student's parent may remove the student from the private school and place the student in another private school that is eligible for the program under subsection (4) or in a public school as provided in subsection (3).

(3) SCHOOL DISTRICT AND DEPARTMENT OF EDUCATION OBLIGATIONS.—

(a) A school district shall timely notify the parent of the student of all options available pursuant to this section and offer that student's parent an opportunity to enroll the student in another public school within the district. The parent is not required to accept this offer in lieu of requesting a John M. McKay Scholarship to a private school. However, if the parent

chooses the public school option, the student may continue attending a public school chosen by the parent until the student graduates from high school. If the parent chooses a public school consistent with the school board's choice plan under s. 228.057, the school district will provide transportation to the public school selected by the parent. The parent is responsible to provide transportation to a public school chosen that is not consistent with the school board's choice plan under s. 228.057.

(b) For a student with disabilities who does not have a matrix of services under s. 236.025, the school district must complete a matrix that assigns the student to one of the levels of service as they existed prior to the 2000-2001 school year. The school district must complete the matrix of services for any student who is participating in the John M. McKay Scholarships for Students with Disabilities Program and must notify the Department of Education of the student's matrix level within 30 days after receiving notification by the student's parent of intent to participate in the scholarship program. The Department of Education shall notify the private school of the amount of the scholarship within 10 days after receiving the school district's notification of the student's matrix level.

(c) If the parent chooses the private school option and the student is accepted by the private school pending the availability of a space for the student, the parent of the student must notify the school district 60 days prior to the first scholarship payment and before entering the private school in order to be eligible for the scholarship when a space becomes available for the student in the private school.

(d) The parent of a student may choose, as an alternative, to enroll the student in and transport the student to a public school in an adjacent school district which has available space and has a program with the services agreed to in the student's individual education plan already in place, and that school district shall accept the student and report the student for purposes of the district's funding pursuant to the Florida Education Finance Program.

(e) For a student in the district who participates in the John M. McKay Scholarships for Students with Disabilities Program whose parent requests that the student take the statewide assessments under s. 229.57, the district shall provide locations and times to take all statewide assessments.

(f) A school district must notify the Department of Education within 10 days after it receives notification of a parent's intent to apply for a scholarship for a student with a disability.

(4) PRIVATE SCHOOL ELIGIBILITY.—To be eligible to participate in the John M. McKay Scholarships for Students with Disabilities Program, a private school must be a Florida private school, may be sectarian or nonsectarian, and must:

(a) Demonstrate fiscal soundness by being in operation for 1 school year or provide the Department of Education with a statement by a certified public accountant confirming that the private school desiring to participate is insured and the owner or owners have sufficient capital or credit to operate the school for the upcoming year serving the number of students anticipated with expected revenues from tuition and other sources that may be reasonably expected. In lieu of such a statement, a surety bond or letter of credit for the amount equal to the scholarship funds for any quarter may be filed with the department.

(b) Notify the Department of Education of its intent to participate in the program under this section by May 1 of the school year preceding the school year in which it intends to participate. The notice must specify the grade levels and services that the private school has available for students with disabilities who are participating in the scholarship program.

(c) Comply with the antidiscrimination provisions of 42 U.S.C. s. 2000d.

(d) Meet state and local health and safety laws and codes.

(e) Be academically accountable to the parent for meeting the educational needs of the student.

(f) Employ or contract with teachers who hold baccalaureate or higher degrees, or have at least 3 years of teaching experience in public or private schools, or have special skills, knowledge, or expertise that qualifies them to provide instruction in subjects taught.

(g) Comply with all state laws relating to general regulation of private schools.

(h) Adhere to the tenets of its published disciplinary procedures prior to the expulsion of a scholarship student.

(5) OBLIGATION OF PROGRAM PARTICIPANTS.—

(a) A parent who applies for a John M. McKay Scholarship is exercising his or her parental option to place his or her child in a private school. The parent must select the private school and apply for the admission of his or her child.

(b) The parent must have requested the scholarship at least 60 days prior to the date of the first scholarship payment.

(c) Any student participating in the scholarship program must remain in attendance throughout the school year, unless excused by the school for illness or other good cause, and must comply fully with the school's code of conduct.

(d) The parent of each student participating in the scholarship program must comply fully with the private school's parental involvement requirements, unless excused by the school for illness or other good cause.

(e) If the parent requests that the student participating in the scholarship program take all statewide assessments required pursuant to s. 229.57, the parent is responsible for transporting the student to the assessment site designated by the school district.

(f) Upon receipt of a scholarship warrant, the parent to whom the warrant is made must restrictively endorse the warrant to the private school for deposit into the account of the private school.

(g) A participant who fails to comply with this subsection forfeits the scholarship.

(6) SCHOLARSHIP FUNDING AND PAYMENT.—

(a)1. The maximum scholarship granted for an eligible student with disabilities shall be a calculated amount equivalent to the base student allocation in the Florida Education Finance Program multiplied by the appropriate cost factor for the educational program that would have been provided for the student in the district school to which he or she was assigned, multiplied by the district cost differential.

2. In addition, a share of the guaranteed allocation for exceptional students shall be determined and added to the calculated amount. The calculation shall be based on the methodology and the data used to calculate the guaranteed allocation for exceptional students for each district in chapter 2000-166, Laws of Florida. The calculation shall be based on the student's grade, matrix level of services, and the difference between the 2000-2001 basic program and the appropriate level of services cost factor, multiplied by the 2000-2001 base student allocation and the 2000-2001 district cost differential for the sending district. Also, the calculated amount shall include the per-student share of Supplemental Academic Instruction funds, instructional materials funds, technology funds, and other categorical funds as provided for such purposes in the General Appropriations Act.

(b) The amount of the John M. McKay Scholarship shall be the calculated amount or the amount of the private school's tuition and fees, whichever is less. The amount of any assessment fee required by the participating private school may be paid from the total amount of the scholarship.

(c) If the participating private school requires partial payment of tuition prior to the start of the academic year to reserve space for students admitted to the school, that partial payment may be paid by the Department of Education prior to the first quarterly payment of the year in which the John M. McKay Scholarship is awarded, up to a maximum of \$1,000, and deducted from subsequent scholarship payments. If a student decides not to attend the participating private school, the partial reservation payment must be returned to the Department of Education by the participating private school. There is a limit of one reservation payment per student per year.

(d) The school district shall report all students who are attending a private school under this program. The students with disabilities attending private schools on John M. McKay Scholarships shall be reported

separately from other students reported for purposes of the Florida Education Finance Program.

(e) Following notification on July 1, September 1, December 1, or February 1 of the number of program participants, the Department of Education shall transfer, from General Revenue funds only, the amount calculated under paragraph (b) from the school district's total funding entitlement under the Florida Education Finance Program and from authorized categorical accounts to a separate account for the scholarship program for quarterly disbursement to the parents of participating students. When a student enters the scholarship program, the Department of Education must receive all documentation required for the student's participation, including the private school's and student's fee schedules, at least 30 days before the first quarterly scholarship payment is made for the student. The Department of Education may not make any retroactive payments.

(f) Upon proper documentation reviewed and approved by the Department of Education, the Comptroller shall make scholarship payments in four equal amounts no later than September 1, November 1, February 1, and April 15 of each academic year in which the scholarship is in force. The initial payment shall be made after Department of Education verification of admission acceptance, and subsequent payments shall be made upon verification of continued enrollment and attendance at the private school. Payment must be by individual warrant made payable to the student's parent and mailed by the Department of Education to the private school of the parent's choice, and the parent shall restrictively endorse the warrant to the private school for deposit into the account of the private school.

(7) **LIABILITY.**—No liability shall arise on the part of the state based on the award or use of a John M. McKay Scholarship.

(8) **RULES.**—The State Board of Education may adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this section. However, the inclusion of eligible private schools within options available to Florida public school students does not expand the regulatory authority of the state, its officers, or any school district to impose any additional regulation of private schools beyond those reasonably necessary to enforce requirements expressly set forth in this section.

Section 2. This act shall take effect upon becoming a law.

And the title is amended as follows:

On page 1, remove the title of the bill: and insert in lieu thereof: A bill to be entitled An act relating to scholarships for students with disabilities; amending s. 229.05371, F.S.; creating the John M. McKay Scholarships for Students with Disabilities Program; providing for eligibility; establishing obligations of school districts and the Department of Education; establishing criteria for private school eligibility; establishing obligations of program participants; providing for funding and payment; limiting liability of the state; authorizing the State Board of Education to adopt rules; providing an effective date.

RECONSIDERATION OF AMENDMENT

On motion by Senator Carlton, the Senate reconsidered the vote by which substitute **Amendment 2 (112476)** by Senator Carlton was adopted May 3. **Amendment 2** was withdrawn.

The question recurred on **Amendment 1 (161740)** by Committee on Finance and Taxation which failed to receive the required two-thirds vote.

Senators Pruitt and Carlton offered the following amendment which was moved by Senator Carlton:

Amendment 3 (042216)(with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Subsection (6) is added to section 236.25, Florida Statutes, to read:

236.25 District school tax.—

(6) In addition to the maximum millage levied under this section and the General Appropriations Act, a school district may levy, by local referendum or in a general election, additional millage for school operational purposes up to an amount that, when combined with nonvoted millage levied under this section, does not exceed the 10-mill limit established in

s. 9(b), Art. VII of the State Constitution. Any such levy shall be for a maximum of 4 years and shall be counted as part of the 10-mill limit established in s. 9(b), Art. VII of the State Constitution. Millage elections conducted under the authority granted pursuant to this section are subject to ss. 236.31 and 236.32. Funds generated by such additional millage do not become a part of the calculation of the Florida Education Finance Program total potential funds in 2001-2002 or any subsequent year and must not be incorporated in the calculation of any hold-harmless or other component of the Florida Education Finance Program formula in any year. If an increase in required local effort, when added to existing millage levied under the 10-mill limit, would result in a combined millage in excess of the 10-mill limit, any millage levied pursuant to this subsection shall be considered to be required local effort to the extent that the district millage would otherwise exceed the 10-mill limit.

Section 2. Section 236.31, Florida Statutes, is amended to read:

236.31 District millage elections.—

(1) The school board, pursuant to resolution adopted at a regular meeting, shall direct the county commissioners to call an election at which the electors within the school districts may approve an ad valorem tax millage as authorized in s. 9, Art. VII of the State Constitution. Such election may be held at any time, except that not more than one such election shall be held during any 12-month period. Any millage so authorized shall be levied for a period not in excess of 2 years or until changed by another millage election, whichever is the earlier. In the event any such election is invalidated by a court of competent jurisdiction, such invalidated election shall be considered not to have been held.

(2) The school board, pursuant to resolution adopted at a regular meeting, shall direct the county commissioners to call an election at which the electors within the school district may approve an ad valorem tax millage as authorized under s. 236.25(6). Such election may be held at any time, except that not more than one such election shall be held during any 12-month period. Any millage so authorized shall be levied for a period not in excess of 4 years or until changed by another millage election, whichever is earlier. If any such election is invalidated by a court of competent jurisdiction, such invalidated election shall be considered not to have been held.

Section 3. Section 236.32, Florida Statutes, is amended to read:

236.32 Procedures for holding and conducting school district millage elections.—

(1) **HOLDING ELECTIONS.**—All school district millage elections shall be held and conducted in the manner prescribed by law for holding general elections, except as provided in this chapter.

(2) **FORM OF BALLOT.**—

(a) The school board may propose a single millage or two millages, with one for operating expenses and another for a local capital improvement reserve fund. When two millage figures are proposed, each millage must be voted on separately.

(b) The school board shall provide the wording of the substance of the measure and the ballot title in the resolution calling for the election. The wording of the ballot must conform to the provisions of s. 101.161.

(3) **QUALIFICATION OF ELECTORS.**—All qualified electors of the school district are entitled to vote in the election to set the school tax district millage levy.

(4) **RESULTS OF ELECTION.**—When the school board proposes one tax levy for operating expenses and another for the local capital improvement reserve fund, the results shall be considered separately. The tax levy shall be levied only in case a majority of the electors participating in the election vote in favor of the proposed special millage.

(5) **EXPENSES OF ELECTION.**—The cost of the publication of the notice of the election and all expenses of the election in the school district shall be paid by the school board.

Section 4. Effective January 1, 2002, subsection (2) of section 199.185, Florida Statutes, is amended to read:

199.185 Property exempted from annual and nonrecurring taxes.—

(2) Every natural person is entitled each year to an exemption of the first \$250,000 ~~\$20,000~~ of the value of property otherwise subject to the annual tax. A husband and wife filing jointly shall have an exemption of \$500,000 ~~\$40,000~~. Every taxpayer that is not a natural person is entitled each year to an exemption of the first \$250,000 of the value of property otherwise subject to the tax. Agents and fiduciaries, other than guardians and custodians under a gifts-to-minors act, filing as such may not claim this exemption on behalf of their principals or beneficiaries; however, if the principal or beneficiary returns the property held by the agent or fiduciary and is a natural person, the principal or beneficiary may claim the exemption. No taxpayer shall be entitled to more than one exemption under this subsection. This exemption shall not apply to that intangible personal property described in s. 199.023(1)(d).

Section 5. Subsection (9) of section 213.27, Florida Statutes, is repealed.

(d) “Certified service provider” means an agent certified jointly by the states that are signatories to the agreement to perform all of the seller’s sales tax functions.

(2)(a) The executive director of the department shall enter into the Streamlined Sales and Use Tax Agreement with one or more states to simplify and modernize sales and use tax administration in order to substantially reduce the burden of tax compliance for all sellers and for all types of commerce. In furtherance of the agreement, the executive director of the department or his or her designee shall act jointly with other states that are members of the agreement to establish standards for certification of a certified service provider and certified automated system and establish performance standards for multistate sellers.

(b) The executive director of the department or his or her designee shall take other actions reasonably required to administer this section. Other actions authorized by this section include, but are not limited to, the adoption of rules and the joint procurement, with other member states, of goods and services in furtherance of the cooperative agreement.

(c) The executive director of the department or his or her designee may represent this state before the other states that are signatories to the agreement.

(3) The executive director of the department may not enter into the Streamlined Sales and Use Tax Agreement unless the agreement requires each state to abide by the following requirements:

(a) *The agreement must set restrictions to limit, over time, the number of state tax rates.*

(b) *The agreement must establish uniform standards for:*

1. *The sourcing of transactions to taxing jurisdictions.*
2. *The administration of exempt sales.*
3. *Sales and use tax returns and remittances.*

(c) *The agreement must provide a central electronic registration system that allows a seller to register to collect and remit sales and use taxes for all signatory states.*

(d) *The agreement must provide that registration with the central registration system and the collection of sales and use taxes in the signatory state will not be used as a factor in determining whether the seller has nexus with a state for any tax.*

(e) *The agreement must provide for reduction of the burdens of complying with local sales and use taxes through:*

1. *Restricting variances between the state and local tax bases.*
2. *Requiring states to administer any sales and use taxes levied by local jurisdictions within the state so that sellers who collect and remit these taxes will not have to register or file returns with, remit funds to, or be subject to independent audits from local taxing jurisdictions.*
3. *Restricting the frequency of changes in the local sales and use tax rates and setting effective dates for the application of local jurisdictional boundary changes to local sales and use taxes.*
4. *Providing notice of changes in local sales and use tax rates and of local changes in the boundaries of local taxing jurisdictions.*

(f) *The agreement must outline any monetary allowances that are to be provided by the states to sellers or certified service providers. The agreement must allow for a joint study by the public and private sectors, which must be completed by July 1, 2002, of the compliance cost to sellers and certified service providers of collecting sales and use taxes for state and local governments under various levels of complexity.*

(g) *The agreement must require each state to certify compliance with the terms of the agreement before joining and to maintain compliance, under the laws of the member state, with all provisions of the agreement while a member.*

(h) *The agreement must require each state to adopt a uniform policy for certified service providers which protects the privacy of consumers and maintains the confidentiality of tax information.*

(i) *The agreement must provide for the appointment of an advisory council of private-sector representatives and an advisory council of non-member state representatives to consult within the administration of the agreement.*

(4) *For the purposes of reviewing or amending the agreement to embody the simplification requirements as set forth in subsection (3), this state shall enter into multistate discussions. For purposes of such discussions, this state shall be represented by three delegates, one appointed by the President of the Senate, one appointed by the Speaker of the House of Representatives, and the executive director of the department or his or her designee.*

(5) *No provision of the agreement authorized by this section in whole or in part invalidates or amends any provision of the laws of this state. Adoption of the agreement by this state does not amend or modify any law of the state. Implementation of any condition of the agreement in this state, whether adopted before, at, or after membership of this state in the agreement, must be by the action of the state.*

(6) *The agreement authorized by this section is an accord among individual cooperating sovereigns in furtherance of their governmental functions. The agreement provides a mechanism among the member states to establish and maintain a cooperative, simplified system for the application and administration of sales and use taxes under the duly adopted law of each member state.*

(7)(a) *The agreement authorized by this act binds and inures only to the benefit of this state and the other member states. No person, other than a member state, is an intended beneficiary of the agreement. Any benefit to a person other than a state is established by the laws of this state and of other member states and not by the terms of the agreement.*

(b) *Consistent with paragraph (a), no person has any cause of action or defense under the agreement or by virtue of this state's approval of the agreement. No person may challenge, in any action brought under any provision of law, any action or inaction by any department, agency, or other instrumentality of this state, or of any political subdivision of this state, on the ground that the action or inaction is inconsistent with the agreement.*

(c) *No law of this state, or the application thereof, may be declared invalid as to any person or circumstance on the ground that the provision or application is inconsistent with the agreement.*

(8)(a) *A certified service provider is the agent of a seller with whom the certified service provider has contracted for the collection and remittance of sales and use taxes. As the seller's agent, the certified service provider is liable for sales and use tax due each member state on all sales transactions it processes for the seller except as set out in this subsection.*

(b) *A seller that contracts with a certified service provider is not liable to the state for sales or use tax due on transactions processed by the certified service provider unless the seller has misrepresented the type of items it sells or has committed fraud. In the absence of probable cause to believe that the seller has committed fraud or made a material misrepresentation, the seller is not subject to audit on the transactions processed by the certified service provider. A seller is subject to audit for transactions that have not been processed by the certified service provider. APPROPRIATION

A minimum guaranteed level of funding shall be calculated to provide each school district a 1.0 percent increase per unweighted full-time equivalent K-12 student over the amount per unweighted full-time equivalent K-12 student funded in the 2000-2001 FEFP. The calculation of this minimum funding shall compare total state and local formula and categorical funds for K-12 programs and actual discretionary local revenue for 2000-2001 with total state and local formula and categorical funds for K-12 programs and maximum potential discretionary local revenue for 2001-2002 and shall include the additional funds gained by reducing district expenditures required for the Florida Retirement System as shown in legislative workpapers for the 2001-02 FEFP. Funds allocated for the District Lottery and School Recognition Program and the 2000-01 District Discretionary Lottery Funds shall not be included in the calculation of the Minimum Guarantee.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of s. 236.081(2), Florida Statutes.

From the funds appropriated in Specific Appropriation 118, \$31,000,000 is provided for the Sparsity Supplement as defined in s. 236.081(6), Florida Statutes, for school districts of 20,000 and fewer K-12 FTE in 2001-2002.

Total unadjusted required local effort taxes for 2001-2002 shall be \$4,435,730,649. The maximum nonvoted discretionary millage which may be levied pursuant to the provisions of s. 236.25(1), Florida Statutes, by district school boards in 2001-2002 shall be:

- 1) 0.510 mills, and
- 2) An additional levy, not to exceed 0.250 mills, that will raise an amount not to exceed \$50 per full-time equivalent student (FTE).

District school boards that levy the entire additional 0.250 mills and raise less than \$50 per K-12 FTE shall receive, from the funds provided in Specific Appropriation 118, an amount that, combined with funds raised by the 0.250 mills, will provide \$50 per K-12 FTE. To be eligible for state funds provided in this paragraph, a district must levy the full 0.250 mills and the full 0.510 mills.

Funds provided in Specific Appropriation 118 are based upon program cost factors for 2001-2002 as follows:

1. Basic Programs	
A. K-3 Basic	1.007
B. 4-8 Basic	1.000
C. 9-12 Basic	1.113
2. Programs for Exceptional Students	
A. Support Level 4	3.948
B. Support Level 5	5.591
3. English for Speakers of Other Languages	1.265
4. Programs for Grades 7-12 Vocational Education	1.206

From the funds appropriated in Specific Appropriation 118, \$955,836,750 is provided to school districts as an Exceptional Student Education (ESE) Guaranteed Allocation to provide educational programs and services for exceptional students. School districts that are providing educational services in 2000-2001 for exceptional students who are residents of other districts shall not discontinue providing such services without the prior approval of the Department of Education. Expenditure

SECTION 2
SPECIFIC
APPROPRIATION

requirements for the ESE Guaranteed Allocation shall be as prescribed in Section 237.34 (3), Florida Statutes, for programs for exceptional students.

From the funds appropriated in Specific Appropriation 118, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than 3 FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEFP allocations for the students being served. The supplemental value shall not exceed 3 FTE.

A student in cooperative education or other types of programs incorporating on-the-job training shall not be counted for more than twenty-five (25) hours per week of membership in all programs when calculating full-time student membership, as provided in s. 236.013, Florida Statutes, for funding under s. 236.081, Florida Statutes.

Safe Schools activities include (1) after school programs for middle school students, (2) other improvements to enhance the learning environment, including implementation of conflict resolution strategies, (3) alternative school programs for adjudicated youth, and (4) other improvements to make the school a safe place to learn. Each district shall determine, based on a review of its existing programs and priorities, how much of its total allocation to use for each authorized Safe Schools activity.

Funds appropriated in Specific Appropriation 118 for inservice personnel training, as prescribed in s. 236.081(3), F.S., are transferred to Specific Appropriation 122.

From the funds appropriated in Specific Appropriation 118, \$676,658,381 is provided for Supplemental Academic Instruction to be provided at appropriate times throughout the school year to help students gain at least a year of knowledge for each year in school and to help students not be left behind. Districts may utilize these funds to implement remedial instruction required by s. 232.245, F.S., and the requirements of s. 232.246, F.S. Schools shall determine the supplemental strategies that are most appropriate for each student. Strategies may include, but are not limited to: modified curriculum, reading instruction, after school instruction, tutoring, mentoring, class size reduction, extended school year, and intensive skills development in summer school. Each district's Supplemental Academic Instruction allocation shall be the amount shown in the legislative work papers for the 2001-2002 appropriation for the FEFP and shall not be recalculated during the school year.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

From its allocation of funds appropriated in Specific Appropriation 118, Duval County may extend the length of the school day for students enrolled in grades one through three by one hour in order to provide additional reading instruction.

No funds are provided in Specific Appropriation 118 for charter school FTE student enrollment for on-line instruction received by students principally in their own homes. However, charter schools may serve students who are temporarily homebound or who receive a portion of their instruction on-line.

SECTION 2
SPECIFIC
APPROPRIATION

From the funds appropriated in Specific Appropriation 118, district school boards and developmental research schools that fail to meet the following minimum student academic performance standards must satisfy the following minimum expenditure requirement for "classroom instruction."

The minimum district academic performance standard is defined as the district weighted performance grade that is at or above the state median district performance grade for elementary schools, middle schools and high schools; and a student non-promotion rate that is at or below the state average non-promotion rate.

District weighted performance grades are based on a district's student and school performance grades required by Section 229.57 (6), Florida Statutes. The three district performance grades will be calculated for 1) all elementary schools; 2) all middle schools; and 3) all high schools. Each of the three district performance grades will be a grade calculated by weighting individual school grades by the school's enrollment.

Expenditures for classroom instruction shall be calculated as a specified percentage of the district's K-12 operating expenditures as reported in the most recent annual financial statement filed with the Commissioner of Education. Classroom instruction expenditures and district total operating expenditures are defined in HB 1545 or similar legislation.

Each school district that fails to meet the minimum district academic performance standards indicated above must increase expenditures for classroom instruction over the percentage expended by 1% for each academic performance standard not met.

From the funds appropriated in Specific Appropriation 118 for Miami-Dade County Public Schools, \$310,000 shall be provided by the Miami-Dade County School Board to the Office of the Auditor General to pay the cost for three auditors who will be located on-site in the school board administrative offices. SECTION 2
SPECIFIC
APPROPRIATION

From the funds in Specific Appropriation 170, \$800,000 is provided to create an instructional training program in information technology, focusing on the needs of k-12 and community college faculty in applying the latest technologies in the classroom. The program will serve the local needs of a rapidly growing community as well as statewide needs through internet and other distance learning strategies. Priority will be given to proposals that make effective use of donated facilities and, as a byproduct, produce revenue by responding to the staff development needs of corporate partners.

From the funds in Specific Appropriation 170, \$400,000 is provided to develop a program in business management with a specialty in tourism and hospitality. Students will design, develop, operate and manage a tourism-related business, which will encompass lodging, food service, and concierge services. Students will also utilize internet technology in marketing and coordinating activities between various hospitality/tourism sectors. This program will provide students with the training and experience necessary to receive wage levels in excess of those received by entry-level employees graduating from traditional programs. Community colleges whose local economy is principally dependent on tourism and special events and who work in partnership with the local tourism industry, will receive priority in being selected for this program.

Pursuant to the provisions of s. 239.117 (5), Florida Statutes, School districts and community colleges may grant fee waivers for programs funded through Workforce Development Education appropriations for up to 8 percent of the fee revenues that would otherwise be collected. School districts and community colleges shall not be required to reduce fees as a result of the fee schedule adopted by the State Board of Education pursuant to s.239.117 (6)(c), Florida Statutes. However, identical fees shall be required for all community colleges students who take a specific course, regardless of the program they are enrolled in.

To provide for performances that may not have been reported in a timely, accurate manner for the FY 2001-2002 Workforce Development Education funding formula, the Department of Education and the State Board of Community Colleges are directed to provide local school districts and community colleges with an opportunity to submit supplemental data for performance payments. The data, once reported, will be evaluated using the same methodology as data reported during the regular reporting cycle. Payments for performances that are not duplicative of performances that have already been paid will be identified in a separate category and will be part of the Department of Education's funding request for FY 2002-2003 unless sufficient balances exist in the 2001-2002 appropriation to make the payment.

From the funds provided in Specific Appropriation 171, \$407,680,556 is provided for school district workforce development programs. None of these funds are to be used to support K-12 programs or the district K-12 administrative indirect costs. PROGRAM: POSTSECONDARY EDUCATION PLANNING
COMMISSION

The funds in Specific Appropriations 187 through 191 shall support the Postsecondary Education Planning Commission in carrying out its statutory responsibilities, including the following specific assignments:

The Postsecondary Education Planning Commission, in conjunction with the Department of Education, State Board of Community Colleges, and Board of Regents or their successors shall continue its longitudinal cohort study of the progression of public high school graduates as they enroll in, advance through, and graduate from the state's postsecondary education delivery system and enter the workforce. A progress report shall be submitted to the Governor, Legislature and the State Board of Education by May 31, 2002.

The Postsecondary Education Planning Commission, in consultation with the State Board of Community Colleges, the Department of Education and the Board of Regents or their successors shall submit to the Governor, the Speaker of the House of Representatives, and the President of the Senate, the following reports:

1. By December 1, 2001, the results of a detailed review that compares the costs of Workforce Development Education programs to the reimbursement received through the workforce formula. The report shall identify changes that are needed to ensure that high cost programs that meet priority workforce needs receive appropriate incentives. Specific recommendations for data collection, including definitions and data collection procedures, specific adjustments to formula calculations, and a timetable for implementation beginning with the 2002-2003 Fiscal Year shall be included in the report.

2. By December 1, 2001, the results of an evaluation of issues related to the productivity of faculty and other instructional positions and the impact on resource allocation at each university. The analysis shall include, but not be limited to:

- (a) The use of resources budgeted for faculty positions for regular faculty, part-time faculty, graduate assistants and other purposes.
- (b) An identification of the fiscal impact of the conversion of funds from the Salaries and Benefits expenditure category to the Other Personal Services expenditure category to support non-faculty instructional positions.

SECTION 2
SPECIFIC
APPROPRIATION

- (c) An identification of the average number of courses taught, the average and median class size of these courses, and the number of student credit hours produced by level per faculty member and other instructional teaching positions.
- (d) Purposes and outcomes of non-teaching assignments.
- (e) An identification of the percent of lower level and upper level courses taught by faculty, by rank, and for other instructional positions, by type.
- (f) Alternative approaches used in other states to address and to increase faculty productivity.
- (g) An analysis of longitudinal trends in the productivity of faculty and other instructional positions.
- (h) Additional information needed to support the zero-based budgeting process.

3. By February 15, 2002, the results of a review of the roles of school districts and community colleges in registered apprenticeship programs and their responsibilities related to program quality and student achievement in basic and technical skills. The review will address the relationship of the number of hours of classroom instruction to on-the-job training; the demographic characteristics of the participants in the programs; the completion rate and average time to completion in the programs; and recommendations related to provisions for the start-up of new apprenticeship programs. The review will address the fiscal advantages and disadvantages of continuing to exempt matriculation and fees for registered apprentices and the impact of the apprenticeship programs on the Workforce Development Education Fund.

4. By December 1, 2001, an evaluation of the cost, benefits, and continued need for state appropriations to match private donations to community colleges and state universities. The evaluation shall consider but not be limited to:

- (a) The net returns on the investment of endowments after subtracting the cost to the institution of supporting the foundation from institutional operating funds, and the overhead cost assessed to the endowment accounts by foundations, the portion of the return on investments that must be reinvested to maintain the corpus of the endowment.
- (b) The degree to which the donor-driven allocation of funds through the matching process responds to the mission of the institution and the priorities of the state.
- (c) A comparison of the benefits derived from the total cumulative expenditures on these programs to benefits which could be expected from alternative investments such as equipping state of the art scientific labs.
- (d) An analysis of the use of the proceeds from the endowments.
- (e) An analysis of the number and type of endowments by program area.

From the funds provided in Specific Appropriations 194 and 196, excluding medical professional headcount, each university may shift enrollment by level in a manner which is revenue neutral, but shall not increase the number of lower level FTEs above the funded enrollment plan.

By May 1, 2002, the Commissioner of Education shall provide to the Speaker of the House of Representatives, the President of the Senate, and the Executive Office of the Governor a comparison of actual enrollment for Final Summer 2001, Final Fall 2001, and Preliminary Spring 2002 to funded enrollment by level. Both the General Revenue and student fee revenue for FTE enrollment for any university, excluding FGCU and medical professional headcount, that is more than 2% under the funded enrollment by level by May 1 shall be redirected by the State Board of Education to areas of the State University System in which demand for courses exceeds the funded enrollment. The Commissioner of Education shall adjust the funded enrollment plan for FTEs associated with this provision and report the FTEs to the fiscal committees of the Senate and the House of Representatives, and the Governor's Office of Policy and Budget.

In the event the actual enrollment for any university exceeds the planned enrollment, resulting in larger student fee collections than anticipated, the Executive Office of the Governor may authorize an increase in spending authority from the Educational & General Student Fees Trust Fund for the purpose of supporting additional students.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive the General Revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Commissioner of Education shall segregate these FTEs and not count them toward the 2001-2002 enrollment plan for the State University System. The Board of Regents may submit a budget amendment requesting student fee trust authority for the student fee revenue associated with the out-of-state students admitted under this policy.

Funds provided in Specific Appropriations 194, 196, 197, 198 and 199 include a 7.5% tuition increase for in-state and out-of-state students.

SECTION 4
SPECIFIC
APPROPRIATION

4. Amount of salaries and benefits lapse funding transferred to cover expenditures other than salaries and benefits, such as expense, OPS, etc., and an explanation why such expenditures were necessary; and

5. Management plan to reduce employee turnover and resulting vacancy rates for FY 02-03.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 669 through 848, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections may allow the public to use the department's shooting ranges when the following conditions are met: use is limited to members of organized gun clubs who sign a waiver of liability and are supervised by a National Rifle Association certified instructor. Public use of the department's shooting ranges shall not interfere with any department or law enforcement agency use of the ranges.

Subject to all applicable provisions of Chapter 216, F.S., the Department of Corrections may transfer funds, positions and salary rate among budget entities and programs within Specific Appropriations 669 through 848 if necessary to ensure public safety and avoid adversely affecting current employees due to the elimination of vacant positions and other approved reductions.

From the funds provided in specific appropriations 669 through 848, the Department of Corrections is authorized to implement a Close Management Consolidation Plan beginning July 1, 2001 and is authorized to utilize up to \$5,583,827 from appropriated funds in order to maximize access to appropriate health care and enhanced program activities for the close management population. Beginning October 1, 2001 and quarterly thereafter, the Department must provide reports to the Senate Appropriations Committee, the House Fiscal Responsibility Council, and the Governor's Office of Policy and Budget detailing its progress in implementing the consolidation plan. At a minimum, these reports should include: (a) the number of additional positions filled, (b) the cost to date of implementing the plan, (c) the projected cost of implementing the plan for Fiscal Year 2001-2002, (d) the total projected operating expenditures for the Department of Corrections for Fiscal Year 2001-2002, and (e) the Department's plan to avoid incurring a deficit if the Department's total projected operating expenditures for Fiscal Year 2001-2002 exceed the amount appropriated.

From the funds in Specific Appropriations 669 through 788F, the Department of Corrections shall maintain accurate records related to motor vehicle inventory, vehicle maintenance, miles traveled, the number of inmates transported and all costs associated with inmate transportation. This information shall be reported semiannually to the House Fiscal Responsibility Council and the Senate Appropriations Committee and shall be sufficient to allow for the examination and evaluation of options to outsource inmate transportation services. These reports shall also include the status of actions taken by the department to correct deficiencies related to fleet management noted by the Auditor General in report number 01-065 and the Office of Program Policy Analysis and Government Accountability in report number 00-23.

PUBLIC DEFENDERS

The Public Defenders' Coordination Office's budgeting needs may be shared by each Public Defender's office within the funds provided in Specific Appropriations 1005 through 1151A. The total funding for this office shall not exceed \$338,250.

From the funds provided in Specific Appropriations 1005 through 1151A, the Public Defenders' Coordination Office shall submit a quarterly report to the Senate Appropriations Committee, the House Fiscal Responsibility Council and the Governor's Office of Policy and Budgeting detailing the number of appellate and trial level conflict cases in each judicial circuit. Such reports must specify the number of "ethical" conflicts and "overload" conflict cases (as described in ss. 27.53(3) and 27.54(2)(b), Florida Statutes, respectively).

From the funds in Specific Appropriations 1005 through 1151A, a Public Defender may reimburse any employee who purchased, at his or her own expense, additional retirement credit in the elected state and county officers class, for time spent as an employee of the Public Defender, in the Florida Retirement System up to the amount actually spent by the employee.

By September 1, 2001, the Department shall determine whether any recipient cannot pursue or complete any project, or portion thereof, due to structural or other considerations and may initiate a budget amendment pursuant to the legislative notice and review requirements set forth in s. 216.177, F.S., to apply any remaining funds to projects which reduce the state's deficit of public hurricane evacuation space.

The Department shall, prior to release of funds, ensure that the affected local government has provided a 12.5 percent local match. Because the location, type of disaster and severity of the event can materially affect the magnitude of costs, a local governments' share may be initially provided by the state with future payment being provided by the appropriate local government or deducted from the local government's state revenue sharing allocation. Additionally, the Executive Office of the Governor may approve a waiver of the 12.5 percent local match, subject to Legislature notice and review under s. 216.177, Florida Statutes, if it determined that such a match cannot be provided or that doing so would effect a documented hardship on the local entity provided the local government applies for the waiver within the first 18 months after the disaster is declared.

ADVOCATING INTERNATIONAL BUSINESS PARTNERSHIPS

2877 SALARIES AND BENEFITS	POSITIONS	10	
FROM GENERAL REVENUE FUND		307,461	
FROM GRANTS AND DONATIONS TRUST FUND			177,574

Funds in Specific Appropriations 2877 through 2887 are provided for the Office of the Secretary and Administrative Services Program in the Department of State. This program includes the Advocating International Business Partnerships Service. As a result of Amendment No. 8 to the State Constitution, the Secretary of State will no longer be an elected constitutional officer or a member of the Cabinet after January 7, 2003. Chapter 2000-258, L.O.F., was based on the recommendations made by the Constitution Transition Task Force regarding which functions the department should continue to perform. One of the recommendations was to transfer responsibility for linkage institutes from the Department of Education to the Department of State. In order to further analyze the various statutory functions of the department during the transition period from a Cabinet agency to an Executive agency, a Joint International Program Review Team, with analytical support from the Office of Program Policy Analysis and Government Accountability shall conduct a review and evaluation of the agency's programs and services. The review team shall consist of the following members: (a) one individual appointed by the Governor; (b) two individuals appointed by the President of the Senate; and (c) two individuals appointed by the Speaker of the House of Representatives. None of the appointees shall be elected officials. The review and evaluation should consider all expenditures from any appropriation made to the Department of State that are related to the Advocating International Business Partnerships Service and the Office of International Affairs for the period of July 1, 1999 through June 30, 2002. SECTION 8. SALARIES AND BENEFITS - Fiscal Year 2001-2002

Statement of Purpose

This section provides instructions for implementing the Fiscal Year 2001-2002 salary and benefit increases provided in Specific Appropriations 194 through 197, 214, and 2102. All allocations and distributions of these funds are to be made in strict accordance with the provisions of this act. For the purpose of calculating and distributing allocations to agencies, all references to "base salary" in this section refer to the base rate of pay as of July 1, 2000, inclusive of the 2000-2001 Fiscal Year appropriated salary increases. References to "eligible" employees refer to employees who are, at a minimum, meeting their required performance standards. If an ineligible employee achieves performance standards subsequent to the salary increase implementation date, the employee may receive an increase; however, such increase shall be effective on the date the employee becomes eligible but not retroactively.

SECTION 8. SALARIES AND BENEFITS
SPECIFIC
APPROPRIATION

Pay Grade Adjustments

It is the intent of the Legislature that minimums and maximums of each pay grade shall be increased by 2.5 percent, effective November 1, 2001; however, minimums and maximums of pay grades applicable to members of the Security Services Bargaining Unit shall be increased by 4.5 percent, effective November 1, 2001.

After the maximum of the pay grade is increased by the competitive pay adjustment, if an employee's base rate of pay is equal to or greater than the adjusted maximum of the employee's pay grade, the employee will be granted a one-time, lump-sum payment in lieu of an increase to the employee's base rate of pay. When an employee's base rate of pay is less than the adjusted maximum of the employee's pay grade, the employee's salary will be increased to the adjusted maximum and the portion of the increase that exceeds the adjusted maximum shall be granted instead in a one-time lump-sum payment.

1. SALARY INCREASES

A. CAREER SERVICE AND EMPLOYEES SUBJECT TO THE CAREER SERVICE

Funds are provided in Specific Appropriation 2102 for pay increases for all eligible employees represented by the Florida Police Benevolent Association, the International Union of Police Associations, the Florida Nurses Association, and the American Federation of State, County, and Municipal Employees, Council 79, and all other eligible Career Service employees not included in a represented collective bargaining unit. Funds are to be distributed as follows:

1) Based on the funds provided in Specific Appropriation 2102 which are different from the funds recommended in the negotiated collective bargaining agreement, it is the intent of the Legislature for all eligible unit and non-unit employees assigned to the Security Services pay plan to receive a competitive pay adjustment of 4.5 percent on each employee's October 31, 2001, base rate of pay, effective November 1, 2001.

2) Based on the funds provided in Specific Appropriation 2102 which are different from the funds recommended in the negotiated collective bargaining agreement, it is the intent of the Legislature for all eligible unit and non-unit employees assigned to the Special Agent pay plan to receive a competitive pay adjustment of 2.5 percent on each employee's October 31, 2001, base rate of pay, effective November 1, 2001.

Each eligible full-time employee shall receive an annualized minimum increase of \$600. If the competitive pay adjustment is less than \$600, each employee shall receive an additional increase which provides the employee a total annualized increase of \$600. Each eligible part-time employee in an authorized position shall receive a prorated portion of the competitive pay adjustment provided to full-time employees and shall receive a prorated portion of the additional amount necessary to assure the annualized minimum adjustment. If an employee's established work schedule is less than 12 months, the pay adjustment shall be prorated based on the number of months approved in the work schedule.

3) Based on the funds provided in Specific Appropriation 2102 which are different from the funds recommended in the negotiated collective bargaining agreement, it is the intent of the Legislature for all eligible unit and non-unit employees assigned to the Law Enforcement pay plan to receive a competitive pay adjustment of 2.5 percent on each employee's October 31, 2001, base rate of pay, effective November 1, 2001.

Each eligible full-time employee shall receive an annualized minimum increase of \$600. If the competitive pay adjustment is less than \$600, each employee shall receive an additional increase which provides the employee a total annualized increase of \$600. Each eligible part-time employee in an authorized position shall receive a prorated portion of the competitive pay adjustment provided to full-time employees and shall receive a prorated portion of the additional amount necessary to assure the annualized minimum adjustment. If an employee's established work schedule is less than 12 months, the pay adjustment shall be prorated based on the number of months approved in the work schedule.

SECTION 8. SALARIES AND BENEFITS
SPECIFIC
APPROPRIATION

4) Based on the funds provided in Specific Appropriation 2102 which are different from the funds recommended in the negotiated collective bargaining agreement, it is the intent of the Legislature for all eligible unit and non-unit employees assigned to the Professional Health Care longevity pay plan to receive an upward competitive pay adjustment of 2.5 percent on each employee's anniversary date. The competitive pay adjustments authorized pursuant to this subparagraph and any lump sum payments agreed to in collective bargaining shall not exceed the cost of an annualized 2.5 percent pay adjustment.
