Conference Committee Amendment 1 (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. *It is the intent of the Legislature that the implementing and administering provisions of this act apply to the General Appropriations Act for fiscal year 2001-2002.*

Section 2. *In order to implement Specific Appropriation 171 of the 2001-2002 General Appropriations Act, the funds provided for workforce development shall be initially allocated to the school district or community college as designated. If, for any reason, a program in whole or in part is moved from a community college to a school district or moved from a school district to a community college, the Commissioner of Education or the Executive Director of the Division of Community Colleges shall submit a budget amendment pursuant to chapter 216, Florida Statutes, to transfer the appropriate amount of the 2001-2002 appropriation between the affected district and community college. The amount transferred shall be as near as practicable to the actual amount appropriated for the FTE funded for that program. This section expires July 1, 2002.*

Section 3. In order to implement Specific Appropriation 118 of the 2001-2002 General Appropriations Act, paragraph (k) of subsection (1) and subsection (8) of section 236.081, Florida Statutes, are amended to read:

236.081 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(k) Calculation of additional full-time equivalent membership based on international baccalaureate examination scores of students.—A value of 0.24 full-time equivalent student membership shall be calculated for each student enrolled in an international baccalaureate course who receives a score of 4 or higher on a subject examination. A value of 0.3 full-time equivalent student membership shall be calculated for each student who receives an international baccalaureate diploma. Such value shall be added to the total full-time equivalent student membership in basic programs for grades 9 through 12 in the subsequent fiscal year. ~~During the 1997-1998, 1998-1999, and 1999-2000 school years of the pilot program authorized in s. 240.116, Students enrolled in the Advanced International Certificate of Education Program shall generate full-time equivalent student membership in a manner that is equitable to the manner in which students enrolled in the International Baccalaureate Program generate full-time equivalent student membership. During 1997-1998, a maximum of 40 students in each participating school district is authorized to generate full-time equivalent student membership in the pilot program, and in 1998-1999 and 1999-2000 a maximum of 80 students per year in each participating school district is authorized to generate full-time equivalent student membership in the pilot program.~~

(8) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 ~~unweighted~~ ^{weighted} FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per ~~unweighted~~ ^{weighted} FTE student which shall include the adjusted FTE dollars as provided in subsection (9),

quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per *unweighted weighted* FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (9) and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per *unweighted weighted* FTE to prior year funds per *unweighted weighted* FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per *unweighted weighted* FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

Section 4. *The amendment of paragraph (k) of subsection (1) and subsection (8) of section 236.081, Florida Statutes, by this act shall expire on July 1, 2002, and the text of those provisions shall revert to that in existence on June 30, 2001, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of such text which expire pursuant to the provisions of this act.*

Section 5. In order to implement Specific Appropriation 118 of the 2001-2002 General Appropriations Act, subsection (6) of section 240.116, Florida Statutes, is amended to read:

240.116 Articulated acceleration.—

(6) The International Baccalaureate Program shall be the curriculum in which eligible secondary students are enrolled in a program of studies offered through the International Baccalaureate Program administered by the International Baccalaureate Office. The State Board of Education shall establish rules which specify the cutoff scores and International Baccalaureate Examinations which will be used to grant postsecondary credit at community colleges and universities. Any such rules, which have the effect of raising the required cutoff score or of changing the International Baccalaureate Examinations which will be used to grant postsecondary credit, shall only apply to students taking International Baccalaureate Examinations after such rules are adopted by the State Board of Education. Students shall be awarded a maximum of 30 semester credit hours pursuant to this subsection. The specific course for which a student receives such credit shall be determined by the community college or university that accepts the student for admission. Students enrolled pursuant to this subsection shall be exempt from the payment of any fees for administration of the examinations. ~~During the 1997-1998, 1998-1999, and 1999-2000 school years, the Department of Education shall assist up to three school districts in conducting a pilot of the Advanced International Certificate of Education Program administered by the University of Cambridge Local Examinations Syndicate. The department shall produce an evaluation report and recommendations regarding the comparability of the Advanced International Certificate of Education Program to the International Baccalaureate Program and submit the report to the President of the Senate and the Speaker of the House of Representatives on or before October 1, 2000.~~

Section 6. *The amendment of subsection (6) of section 240.116, Florida Statutes, by this act shall expire on July 1, 2002, and the text of that subsection shall revert to that in existence on June 30, 2001, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of such text which expire pursuant to the provisions of this act.*

Section 7. In order to implement Specific Appropriation 178 of the 2001-2002 General Appropriations Act, subsection (7) of section 240.35, Florida Statutes, is amended to read:

240.35 Student fees.—Unless otherwise provided, the provisions of this section apply only to fees charged for college credit instruction leading to an associate in arts degree, an associate in applied science degree, or an associate in science degree and noncollege credit college-preparatory courses defined in s. 239.105.

(7) Each community college board of trustees shall establish matriculation and tuition fees, which may vary no more than 10 percent below and 15 percent above *the combined total* of the fee schedule adopted by the State Board of Community Colleges *and the technology fee adopted by a board of trustees*, provided that any amount from 10 to 15 percent

above the fee schedule is used only to support safety and security purposes. In order to assess an additional amount for safety and security purposes, a community college board of trustees must provide written justification to the State Board of Community Colleges based on criteria approved by the local board of trustees, including but not limited to criteria such as local crime data and information, and strategies for the implementation of local safety plans. For 1999-2000, each community college is authorized to increase the sum of the matriculation fee and technology fee by not more than 5 percent of the sum of the matriculation and local safety and security fees in 1998-1999. However, no fee in 1999-2000 shall exceed the prescribed statutory limit. Should a college decide to increase the matriculation fee, the funds raised by increasing the matriculation fee must be expended solely for additional safety and security purposes and shall not supplant funding expended in the 1998-1999 budget for safety and security purposes.

Section 8. *The amendment of subsection (7) of section 240.35, Florida Statutes, by this act shall expire on July 1, 2002, and the text of that subsection shall revert to that in existence on June 30, 2001, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of such text which expire pursuant to the provisions of this act.*

Section 9. In order to implement Specific Appropriation 93 of the 2001-2002 General Appropriations Act, paragraph (e) of subsection (3) of section 240.209, Florida Statutes, is amended to read:

240.209 Board of Regents; powers and duties.—

(3) The board shall:

(e) Establish student fees.

1. By no later than December 1 of each year, the board shall raise the systemwide standard for resident undergraduate matriculation and financial aid fees for the subsequent fall term, up to but no more than 25 percent of the prior year's cost of undergraduate programs. In implementing this paragraph, fees charged for graduate, medical, veterinary, and dental programs may be increased by the Board of Regents in the same percentage as the increase in fees for resident undergraduates. However, in the absence of legislative action to the contrary in an appropriations act, the board may not approve annual fee increases for resident students in excess of 10 percent. The sum of nonresident student matriculation and tuition fees must be sufficient to defray the full cost of undergraduate education. Graduate, medical, veterinary, and dental fees charged to nonresidents may be increased by the board in the same percentage as the increase in fees for nonresident undergraduates. However, in implementing this policy and in the absence of legislative action to the contrary in an appropriations act, annual fee increases for nonresident students may not exceed 25 percent. In the absence of legislative action to the contrary in the General Appropriations Act, the fees shall go into effect for the following fall term.

2. When the appropriations act requires a new fee schedule, the board shall establish a systemwide standard fee schedule required to produce the total fee revenue established in the appropriations act based on the product of the assigned enrollment and the fee schedule. The board may approve the expenditure of any fee revenues resulting from the product of the fee schedule adopted pursuant to this section and the assigned enrollment.

3. Upon provision of authority in a General Appropriations Act to spend revenue raised pursuant to this section, the board shall approve a university request to implement a matriculation and out-of-state tuition fee schedule which is calculated to generate revenue which varies no more than 10 percent from the standard fee revenues authorized through an appropriations act. In implementing an alternative fee schedule, the increase in cost to a student taking 15 hours in one term shall be limited to 5 percent. Matriculation and out-of-state tuition fee revenues generated as a result of this provision are to be expended for implementing a plan for achieving accountability goals adopted pursuant to s. 240.214 and for implementing a Board of Regents-approved plan to contain student costs by reducing the time necessary for graduation without reducing the quality of instruction. The plans shall be recommended by a universitywide committee, at least one-half of whom are students appointed by the student body president. A chairperson, appointed jointly by the university president and the student body president, shall vote only in the case of a tie.

4. The board may implement individual university plans for a differential out-of-state tuition fee for universities that have a service area that borders another state.

5. The board is authorized to collect for financial aid purposes an amount not to exceed 5 percent of the student tuition and matriculation fee per credit hour. The revenues from fees are to remain at each campus and replace existing financial aid fees. Such funds shall be disbursed to students as quickly as possible. The board shall specify specific limits on the percent of the fees collected in a fiscal year which may be carried forward unexpended to the following fiscal year. A minimum of 75 percent of funds from the student financial aid fee for new financial aid awards shall be used to provide financial aid based on absolute need. A student who has received an award prior to July 1, 1984, shall have his or her eligibility assessed on the same criteria that was used at the time of his or her original award. *The Board of Regents shall develop criteria for making financial aid awards. Each university shall report annually to the Department of Education on the revenue collected pursuant to this subparagraph, the amount carried forward, the criteria used to make awards, the amount and number of awards for each criterion, and a delineation of the distribution of such awards. The report shall include an assessment by category of the financial need of every student who receives an award, regardless of the purpose for which the award is received. Awards which are based on financial need shall be distributed in accordance with a nationally recognized system of need analysis approved by the Board of Regents. An award for academic merit shall require a minimum overall grade point average of 3.0 on a 4.0 scale or the equivalent for both initial receipt of the award and renewal of the award.*

6. The board may recommend to the Legislature an appropriate systemwide standard matriculation and tuition fee schedule.

7. The Education and General Student and Other Fees Trust Fund is hereby created, to be administered by the Department of Education. Funds shall be credited to the trust fund from student fee collections and other miscellaneous fees and receipts. The purpose of the trust fund is to support the instruction and research missions of the State University System. Notwithstanding the provisions of s. 216.301, and pursuant to s. 216.351, any balance in the trust fund at the end of any fiscal year shall remain in the trust fund and shall be available for carrying out the purposes of the trust fund.

8. The board is further authorized to establish the following fees:

- a. A nonrefundable application fee in an amount not to exceed \$30.
- b. An admissions deposit fee for the University of Florida College of Dentistry in an amount not to exceed \$200.
- c. An orientation fee in an amount not to exceed \$35.
- d. A fee for security, access, or identification cards. The annual fee for such a card may not exceed \$10 per card. The maximum amount charged for a replacement card may not exceed \$15.
- e. Registration fees for audit and zero-hours registration; a service charge, which may not exceed \$15, for the payment of tuition in installments; and a late-registration fee in an amount not less than \$50 nor more than \$100 to be imposed on students who fail to initiate registration during the regular registration period.
- f. A late-payment fee in an amount not less than \$50 nor more than \$100 to be imposed on students who fail to pay or fail to make appropriate arrangements to pay (by means of installment payment, deferment, or third-party billing) tuition by the deadline set by each university. Each university may adopt specific procedures or policies for waiving the late-payment fee for minor underpayments.
- g. A fee for miscellaneous health-related charges for services provided at cost by the university health center which are not covered by the health fee set under s. 240.235(1).
- h. Materials and supplies fees to offset the cost of materials or supplies that are consumed in the course of the student's instructional activities, excluding the cost of equipment replacement, repairs, and maintenance.
- i. Housing rental rates and miscellaneous housing charges for services provided by the university at the request of the student.

j. A charge representing the reasonable cost of efforts to collect payment of overdue accounts.

k. A service charge on university loans in lieu of interest and administrative handling charges.

l. A fee for off-campus course offerings when the location results in specific, identifiable increased costs to the university.

m. Library fees and fines, including charges for damaged and lost library materials, overdue reserve library books, interlibrary loans, and literature searches.

n. Fees relating to duplicating, photocopying, binding, and micro-filming; copyright services; and standardized testing. These fees may be charged only to those who receive the services.

o. Fees and fines relating to the use, late return, and loss and damage of facilities and equipment.

p. A returned-check fee as authorized by s. 832.07(1) for unpaid checks returned to the university.

q. Traffic and parking fines, charges for parking decals, and transportation access fees.

r. An Educational Research Center for Child Development fee for child care and services offered by the center.

MOTION

On motion by Senator Rossin, the following remarks were ordered spread upon the Journal:

Mr. President: The Senator from the 6th is recognized to explain the bill.

Senator Horne: Thank you, Mr. President. This is our one and only constitutional responsibility that we must carry out. It is our budget. As I have mentioned earlier, I think it is something we can certainly be very proud of. A lot of hard work went into it. I think we laid out the guiding principles from which we have built our budget. I think we have stuck to those guiding principles. I think we have built a budget that we can all hold our heads high, be very proud of. When you go back to your districts you can certainly, I think, answer the call that we met the priority needs of the State of Florida. Again, I urge your very positive vote on this great bill.

Mr. President: We agreed to debate by the Senator from the 35th and the Senator from the 8th. The Senator from the 35th is recognized to debate the bill.

Senator Rossin: Thank you, Mr. President. Senators, our Governor submitted what many of you have heard me say many times, what I believe to be an irresponsible budget that we had to try to fix. I am grateful to the Senators here who have worked so hard and have made significant improvements to the inexcusable proposal sent to us by Governor Bush. Because of them, this budget has improved significantly through the conference process.

But this is not how this process is supposed to work. Our Governor should be submitting a budget to us with so much vision that it challenges us to rise to the occasion and make it a reality.

Let me tell you what the Governor should have been concerned with. The State of Florida is 45th in state and local education spending as a percentage of general spending, 43rd in state health rankings, 46th in state and local spending for our education as a percentage of general spending, 40th in per capita Medicaid spending, 50th in state and local spending for higher education overall, and 43rd in average Medicaid spending per child. But the Governor was not concerned with these things. Our President and Appropriations Chairman were put in the position of being a cleanup crew that had to come behind him and cobble together the best budget possible just to cover the basic needs of the state.

Again, I commend the ingenuity and creativity of this Senate to pull us out of a budgetary hole to the extent that they could. But handicapping us with over \$300 million in proposed tax cuts, when we have a huge Medicaid shortfall, was just too much to entirely recover from. The state is not in as deep a hole as we could be, thanks to Senator Horne and the other members of the Appropriations Committee.

But, make no mistake, we are in a hole. I feel the hole will only get bigger and deeper next year. This budget is held together with fund shifts and projected savings which may or may not totally occur. I honestly cannot imagine where we would be without the Tobacco Trust Fund and the Florida Retirement System or the rebates on that.

Democrats were proud to stand behind our Senate President when he said this was not the year to do tax cuts. I continue to agree with that position. Because of the lack of leadership by the Governor, this budget contains many questions. For example, why, in the education budget, has so much revenue been put into categoricals that limit flexibility at the local level while decreasing control funds? Why has our base student allocation gone down \$3 per child this year, the first drop in eight years? What are we going to do about the skyrocketing gas and utility prices, which are not allocated for in this budget? And why, for the first time, are we funding our charter schools out of PECO?

The Governor has sent us a proposal that balances the budget on the backs of our needy citizens so that the rich could have more tax cuts. Democrats have been stressing, since the Governor submitted this budget proposal, that his responsibility is not just to a select few. His responsibility is to all the people of Florida. The Governor's budget and his legislative priorities simply have not reflected that. If Governor Bush wanted a responsible budget for this state, he would have submitted one to the Legislature and he would be taking a leadership role and ensuring that we pass one now. It is about time Governor Bush realized that he is Governor of all the people, young and old, rich and poor, and everyone in between.

My Senate colleagues around this room have gone to unprecedented lengths to salvage the one bill we are required to pass by law. My vote against this budget is a protest aimed directly at the Governor and in no way should be construed as anything but appreciation and gratitude to the Senate leadership for a job well done.

Mr. President, if I may, on a personal note. Although our Senate President, like I, can be difficult at times, I would like to convey that I believe that people in Florida owe him a debt of gratitude for I sincerely believe that they would have been poorly served in the coming year, if not for his leadership. Thank you, Mr. President.

Mr. President: Thank you, Senator. Thank you. Thank you very much for those kind words, Senator. Let me take the opportunity now, that while I appreciate that credit, I do not think I am deserving of it. I think the membership of this body is deserving of it, because it is 40 people working together representing each about 350,000 people that bring experience to this chamber. I think when we listen to each other, and we have done it in a very collegial manner this year, that we can do good things for the people of the State of Florida. Many of you have said on conference reports that, more than anything, that you want a piece of legislation that you might vote for. I think that is probably all right, because none of us are omnipotent in our views. As I heard, if I can paraphrase, as I heard during the memorial service for Representative Doug Jamerson the other day, you ought to be happy when you have a compromise because you walk away with something. Those were wise words that we all ought to remember. It's not whether I have to win, or they have to win, the Senate has to win, or the House has to win, or the Democrats have win, or the Republicans have to win. We need to work for the State of Florida; that is why we are here. Each of you are to be congratulated for your very hard work during this session and for the sacrifices you make. You honor me by allowing me to be your President. I thank you so very much for that honor. The Senator from the 8th is recognized to speak.

Senator King: Thank you, Mr. President and members. I have just found out that, through whatever course of action, perhaps the high cost of leadership, the high cost of negotiations or whatever, I will this legislative session, have passed two trust funds and one department bill. Everything else is down the old pipe. That is a shame because I worked hard and so did a lot of other people. But that is not the point.

The point is that even with what could be looked at as legislative failure, we have got a budget before us that none of us, none of us, six months ago, five months ago, four months ago, thought we could ever have or ever brag about. I like the old adage, you take the lemons and make lemonade. We have done that this time. We have stretched money further than I ever thought we could stretch. I looked at some of the things that we were cutting in the original cuts. If you remember those,

those \$500 or \$600 million worth of cuts. I said, oh my goodness. How would we ever explain to constituents who are looking at those services, those programs and those entities as not only a lifestyle, but for life.

We plodded ahead. Thank goodness for having an Appropriations Chairman who is a CPA and who found little pods here, and little pods there; and we shifted money here, and we shifted there. The end result is that the people of Florida are so much better served with this budget now than any of us ever imagined. The Senate stood tall. We held our position when it was not popular to hold, and it certainly was not popular for the President to hold it, and yet he did. By doing so, in conference committee, we were able, for the most part, to prevail.

What about the fairness part of it all? If you look at the moneys that were spent, 36 percent of it went to Democrats in the Senate. Senate Democrats represent 35 percent of the body. What could be more fair than a budget that not only matches the partisan lines, but also meets the expectations of the constituents that we serve. We should leave this chamber, when we leave this chamber, with heads held high, shoulders thrown back, proud of the fact, first of all, we are allowed to be Senators. Secondly, happy that we were able to craft the budget. And thirdly, that we were able to look, forever for this year, at our constituents and say, we did the best that we could and what we did was pretty good. Thank you.

Mr. President: The Senator from the 6th is recognized to close on the bill.

Senator Horne: Thank you, Mr. President. I will not say much. I have already said as much as I think I can say. I am very proud of this budget. A lot of blood, sweat, and tears have gone into it, a lot of hard work. Everybody was part of it. I am very proud of the effort of the subcommittee chairmen and the members that were involved in this process. You have made me look good. And, in turn, I think we have made our President look good. We did this together, united. I think, as we leave here we can all walk out arm-in-arm, that we did our best job. This is a very good budget. The people of Florida, I think, will be proud. We have met the priorities. We have done our job.

Mr. President: For what purpose does the Senator from the 35th rise?

Senator Rossin: Just to request that we spread the reasons for the negative votes on the journal.

Mr. President: Senator, why don't we spread on the journal the remarks of all those who spoke either in favor or in opposition to the Appropriations Bill, both before the hour of 6:00 p.m., as well as now? Without objection, show that motion passing.

By direction of the President, the rules were waived and the Senate reverted to—

320.27 Motor vehicle dealers.—

(1) DEFINITIONS.—The following words, terms, and phrases when used in this section have the meanings respectively ascribed to them in this subsection, except where the context clearly indicates a different meaning:

(c) "Motor vehicle dealer" means any person engaged in the business of buying, selling, or dealing in motor vehicles or offering or displaying motor vehicles for sale at wholesale or retail, or who may service and repair motor vehicles pursuant to an agreement as defined in s. 320.60(1). Any person who buys, sells, or deals in three or more motor vehicles in any 12-month period or who offers or displays for sale three or more motor vehicles in any 12-month period shall be prima facie presumed to be engaged in such business. The terms "selling" and "sale" include lease-purchase transactions. A motor vehicle dealer may, at retail or wholesale, sell a recreational vehicle as described in s. 320.01(1)(b)1.-6. and 8., acquired in exchange for the sale of a motor vehicle, provided such acquisition is incidental to the principal business of being a motor vehicle dealer. However, a motor vehicle dealer may not buy a recreational vehicle for the purpose of resale unless licensed as a recreational vehicle dealer pursuant to s. 320.771. A motor vehicle dealer may apply for a certificate of title to a motor vehicle required to be registered under s. 320.08(2)(b), (c), and (d), using a manufacturer's statement of origin as permitted by s. 319.23(1), only if such dealer is authorized by a franchised agreement as defined in s. 320.60(1), to buy, sell, or deal in such vehicle and is authorized by such agreement to perform delivery and preparation obligations and warranty defect adjustments on the motor vehicle; provided this limitation shall not apply to recreational vehicles, van conversions, or any other motor vehicle manufactured on a truck chassis. The transfer of a motor vehicle by a dealer not meeting these qualifications shall be titled as a used vehicle. The classifications of motor vehicle dealers are defined as follows:

1. "Franchised motor vehicle dealer" means any person who engages in the business of repairing, servicing, buying, selling, or dealing in motor vehicles pursuant to an agreement as defined in s. 320.60(1).

2. "Independent motor vehicle dealer" means any person other than a franchised or wholesale motor vehicle dealer who engages in the business of buying, selling, or dealing in motor vehicles, and who may service and repair motor vehicles.

3. "Wholesale motor vehicle dealer" means any person who engages exclusively in the business of buying, selling, or dealing in motor vehicles at wholesale or with motor vehicle auctions. Such person shall be licensed to do business in this state, shall not sell or auction a vehicle to any person who is not a licensed dealer, and shall not have the privilege of the use of dealer license plates. Any person who buys, sells, or deals in motor vehicles at wholesale or with motor vehicle auctions on behalf of a licensed motor vehicle dealer and as a bona fide employee of such licensed motor vehicle dealer is not required to be licensed as a wholesale motor vehicle dealer. In such cases it shall be prima facie presumed that a bona fide employer-employee relationship exists. A wholesale motor vehicle dealer shall be exempt from the display provisions of this section but shall maintain an office wherein records are kept in order that those records may be inspected.

4. "Motor vehicle auction" means any person offering motor vehicles or recreational vehicles for sale to the highest bidder where both sellers and buyers are licensed motor vehicle dealers. Such person shall not sell a vehicle to anyone other than a licensed motor vehicle dealer.

5. "Salvage motor vehicle dealer" means any person who engages in the business of acquiring salvaged or wrecked motor vehicles for the purpose of reselling them and their parts.

The term "motor vehicle dealer" does not include persons not engaged in the purchase or sale of motor vehicles as a business who are disposing of vehicles acquired for their own use or for use in their business or acquired by foreclosure or by operation of law, provided such vehicles are acquired and sold in good faith and not for the purpose of avoiding the provisions of this law; persons engaged in the business of manufacturing, selling, or offering or displaying for sale at wholesale or retail no more than 25 trailers in a 12-month period; public officers while per-

forming their official duties; receivers; trustees, administrators, executors, guardians, or other persons appointed by, or acting under the judgment or order of, any court; banks, finance companies, or other loan agencies that acquire motor vehicles as an incident to their regular business; motor vehicle brokers; and motor vehicle rental and leasing companies that sell motor vehicles to motor vehicle dealers licensed under this section. Vehicles owned under circumstances described in this paragraph may be disposed of at retail, wholesale, or auction, unless otherwise restricted. A manufacturer of fire trucks, ambulances, or school buses may sell such vehicles directly to governmental agencies or to persons who contract to perform or provide firefighting, ambulance, or school transportation services exclusively to governmental agencies without processing such sales through dealers if such fire trucks, ambulances, school buses, or similar vehicles are not presently available through motor vehicle dealers licensed by the department.

(f) *“Bona fide employee” means a person who is employed by a licensed motor vehicle dealer and receives annually an Internal Revenue Service Form W-2, or an independent contractor who has a written contract with a licensed motor vehicle dealer and receives annually an Internal Revenue Service Form 1099, for the purpose of acting in the capacity of or conducting motor vehicle sales transactions as a motor vehicle dealer.*

A motor vehicle dealer may not sell or offer for sale a vehicle in his or her possession unless the dealer satisfies the requirements of this subsection. L. No. 92-513, as amended by Pub. L. No. 94-364 and Pub. L. No. 100-561) and by 49 C.F.R. part 580 bearing the signatures of the titled owners of a traded-in vehicle.

(e) Unjustifiable refusal to comply with a licensee’s responsibility under the terms of the new motor vehicle warranty issued by its respective manufacturer, distributor, or importer. However, if such refusal is at the direction of the manufacturer, distributor, or importer, such refusal shall not be a ground under this section.

~~(d) When any driver's license or driving privilege has been revoked pursuant to the provisions of this section, the department shall not grant a new license, except upon reexamination of the licensee after the expiration of the period of revocation so prescribed. If such notice is given and no written protest to the department is presented by a subsequent lienholder within 15 days after the date on which the notice was mailed, the certificate of title shall be issued showing no liens. If the former owner or any subsequent lienholder files a written protest under oath within the 15-day period, the department shall not issue the repossessed certificate for 10 days thereafter. If, within the 10-day period, no injunction or other order of a court of competent jurisdiction has been served on the department commanding it not to deliver the certificate, the department shall deliver the repossessed certificate to the applicant, or as is otherwise directed in the application, showing no other liens than those shown in the application.

(b) *Whenever any law enforcement agency authorizes the removal of a vehicle or whenever any towing service, garage, repair shop, or automotive service, storage, or parking place notifies the law enforcement agency of possession of a vehicle pursuant to s. 715.07(2)(a)2., the applicable law enforcement agency shall contact the Department of Highway Safety and Motor Vehicles, or the appropriate agency of the state of registration, if known, within 24 hours through the medium of electronic communications, giving the full description of the vehicle. Upon receipt of the full description of the vehicle, the department shall search its files to determine the owner's name, the insurance company insuring the vehicle, and whether any person has filed a lien upon the vehicle as provided in s. 319.27(2) and (3) and notify the applicable law enforcement agency within 72 hours. The person in charge of the towing service, garage, repair shop, or automotive service, storage, or parking place shall obtain such information from the applicable law enforcement agency within 5 days from the date of storage and shall give notice pursuant to paragraph (a). The department may release the insurance company information to the requestor notwithstanding the provisions of s. 627.736.*

(d)(e) If attempts to locate the owner or lienholder prove unsuccessful, the towing-storage operator shall, after 7 working days, excluding Saturday and Sunday, of the initial tow or storage, notify the public agency of jurisdiction in writing by certified mail or acknowledged hand delivery that the towing-storage company has been unable to locate the owner or lienholder and a physical search of the vehicle or vessel has disclosed no ownership information and a good faith effort has been made. For purposes of this paragraph *and*, subsection (9), ~~and s. 715.05~~, “good faith effort” means that the following checks have been performed by the company to establish prior state of registration and for title:

1. Check of vehicle or vessel for any type of tag, tag record, temporary tag, or regular tag.

2. Check of law enforcement report for tag number or other information identifying the vehicle or vessel, if the vehicle or vessel was towed at the request of a law enforcement officer.

(6) Any vehicle or vessel which is stored pursuant to subsection (2) and which remains unclaimed, or for which reasonable charges for recovery, towing, or storage remain unpaid or for which a lot rental amount is due and owing to the mobile home park owner, as evidenced by a judgment for unpaid rent, and any contents not released pursuant to subsection (10), may be sold by the owner or operator of the storage space for such towing or storage charge or unpaid lot rental amount after 35 days from the time the vehicle or vessel is stored therein *if the vehicle or vessel is more than 3 years of age and after 50 days from the time the vehicle or vessel is stored therein if the vehicle or vessel is 3 years of age or less.* The sale shall be at public auction for cash. If the date of the sale was not included in the notice required in subsection (4), notice of the sale shall be given to the person in whose name the vehicle, vessel, or mobile home is registered, to the mobile home park owner, and to all persons claiming a lien on the vehicle or vessel as shown on the records of the Department of Highway Safety and Motor Vehicles or of the corresponding agency in any other state. Notice shall be sent by certified mail, return receipt requested, to the owner of the vehicle or vessel and the person having the recorded lien on the vehicle or vessel at the address shown on the records of the registering agency and shall be mailed not less than 15 days before the date of the sale. After diligent search and inquiry, if the name and address of the registered owner or the owner of the recorded lien cannot be ascertained, the requirements

of notice by mail may be dispensed with. In addition to the notice by mail, public notice of the time and place of sale shall be made by publishing a notice thereof one time, at least 10 days prior to the date of the sale, in a newspaper of general circulation in the county in which the sale is to be held. The clerk shall be entitled to receive 5 percent of such proceeds for the care and disbursement thereof. The certificate of title issued under this law shall be discharged of all liens unless otherwise provided by court order.

Section 184. *Section 715.05, Florida Statutes, is repealed.*

Section 185. Subsection (1) of section 681.1096, Florida Statutes, is amended to read:

681.1096 Pilot RV Mediation and Arbitration Program; creation and qualifications.—

(1) This section and s. 681.1097 shall apply to disputes determined eligible under this chapter involving recreational vehicles acquired on or after October 1, 1997, and shall remain in effect until September 30, 2002 2001, at which time recreational vehicle disputes shall be subject to the provisions of ss. 681.109 and 681.1095. The Attorney General shall report annually to the President of the Senate, the Speaker of the House of Representatives, the Minority Leader of each house of the Legislature, and appropriate legislative committees regarding the ~~effectiveness efficiency and cost-effectiveness~~ of the pilot program.

Section 186. Subsections (5) and (7) of section 681.1097, Florida Statutes, are amended to read:

681.1097 Pilot RV Mediation and Arbitration Program; dispute eligibility and program function.—

(5) If the mediation ends in an impasse, or if a manufacturer fails to comply with the settlement entered into between the parties, the program administrator shall schedule the dispute for an arbitration hearing. Arbitration proceedings shall be open to the public on reasonable and nondiscriminatory terms.

(a) The arbitration hearing shall be conducted by a single arbitrator assigned by the program administrator. The arbitrator shall not be the same person as the mediator who conducted the prior mediation conference in the dispute. The parties may factually object to an arbitrator based on the arbitrator's past or present relationship with a party or a party's attorney, direct or indirect, whether financial, professional, social, or of any other kind. The program administrator shall consider any such objection, determine its validity, and notify the parties of any determination. If the objection is determined valid, the program administrator shall assign another arbitrator to the case.

(b) The arbitrator may issue subpoenas for the attendance of witnesses and for the production of records, documents, and other evidence. Subpoenas so issued shall be served and, upon application to the court by a party to the arbitration, enforced in the manner provided by law for the service and enforcement of subpoenas in civil actions. Fees for attendance as a witness shall be the same as for a witness in the circuit court.

(c) At all program arbitration proceedings, the parties may present oral and written testimony, present witnesses and evidence relevant to the dispute, cross-examine witnesses, and be represented by counsel. The arbitrator shall record the arbitration hearing and shall have the power to administer oaths. The arbitrator may inspect the vehicle if requested by a party or if the arbitrator considers such inspection appropriate.

(d) The program arbitrator may continue a hearing on his or her own motion or upon the request of a party for good cause shown. A request for continuance by the consumer constitutes a waiver of the time period set forth in s. 681.1096(3)(k) for completion of all proceedings under the program.

(e) Where the arbitration is the result of a manufacturer's failure to perform in accordance with a ~~settlement mediation~~ agreement, any relief to the consumer granted by the arbitration will be no less than the relief agreed to by the manufacturer in the settlement agreement.

(f) The arbitrator shall grant relief if a reasonable number of attempts have been undertaken to correct a nonconformity or nonconformities.

(g) The program arbitrator shall render a decision within 10 days of the closing of the hearing. The decision shall be in writing on a form prescribed or approved by the department. The program administrator shall send a copy of the decision to the consumer and each involved manufacturer by registered mail. The program administrator shall also send a copy of the decision to the department within 5 days of mailing to the parties.

(h) A manufacturer shall comply with an arbitration decision within 40 days of the date the manufacturer receives the written decision. Compliance occurs on the date the consumer receives delivery of an acceptable replacement motor vehicle or the refund specified in the arbitration award. If a manufacturer fails to comply within the time required, the consumer must notify the program administrator in writing within 10 days. The program administrator shall notify the department of a manufacturer's failure to comply. The department shall have the authority to enforce compliance with arbitration decisions under this section in the same manner as is provided for enforcement of compliance with board decisions under s. 681.1095(10). In any civil action arising under this chapter and relating to a dispute arbitrated pursuant to this section, the decision of the arbitrator is admissible in evidence.

(i) *Either party may request that the program arbitrator make a technical correction to the decision by filing a written request with the program administrator within 10 days after receipt of the written decision. Technical corrections shall be limited to computational errors, correction of a party's name or information regarding the recreational vehicle, and typographical or spelling errors. Technical correction of a decision shall not toll the time for filing an appeal or for manufacturer compliance.*

(7) *A decision of the arbitrator is binding unless appealed by either party by filing a petition with the circuit court within the time and in the manner prescribed by s. 681.1095(10) and (12). Section 681.1095(13) and (14) apply to appeals filed under this section. ~~Either party may make application to the circuit court for the county in which one of the parties resides or has a place of business or, if neither party resides or has a place of business in this state, the county where the arbitration hearing was held, for an order confirming, vacating, modifying, or correcting any award, in accordance with the provisions of this section and ss. 682.12, 682.13, 682.14, 682.15, and 682.17. Such application must be filed within 30 days of the moving party's receipt of the written decision or the decision becomes final. Upon filing such application, the moving party shall mail a copy to the department and, upon entry of any judgment or decree, shall mail a copy of such judgment or decree to the department. A review of such application by the circuit court shall be confined to the record of the proceedings before the program arbitrator. The court shall conduct a de novo review of the questions of law raised in the application. In addition to the grounds set forth in ss. 682.13 and 682.14, the court shall consider questions of fact raised in the application. In reviewing questions of fact, the court shall uphold the award unless it determines that the factual findings of the arbitrator are not supported by substantial evidence in the record and that the substantial rights of the moving party have been prejudiced. If the arbitrator fails to state findings or reasons for the stated award, or the findings or reasons are inadequate, the court shall search the record to determine whether a basis exists to uphold the award. The court shall expedite consideration of any application filed under this section on the calendar.~~*

(a) If a decision of a program arbitrator in favor of a consumer is confirmed by the court, recovery by the consumer shall include the pecuniary value of the award, attorney's fees incurred in obtaining confirmation of the award, and all costs and continuing damages in the amount of \$25 per day for each day beyond the 40-day period following a manufacturer's receipt of the arbitrator's decision. If a court determines the manufacturer acted in bad faith in bringing the appeal or brought the appeal solely for the purpose of harassment, or in complete absence of a justiciable issue of law or fact, the court shall double, and may triple, the amount of the total award.

(b) ~~An appeal of a judgment or order by the court confirming, denying confirmation, modifying or correcting, or vacating the award may be taken in the manner and to the same extent as from orders or judgments in a civil action.~~

Section 187. Section 681.115, Florida Statutes, is amended to read:

681.115 Certain agreements void.—Any agreement entered into by a consumer that waives, limits, or disclaims the rights set forth in this chapter, or that requires a consumer not to disclose the terms of such agreement as a condition thereof, is void as contrary to public policy. The rights set forth in this chapter shall extend to a subsequent transferee of such motor vehicle.

3. If the registered owner or other legally authorized person in control of the vehicle or vessel arrives at the scene prior to removal or towing of the vehicle or vessel, the vehicle or vessel shall be disconnected from the towing or removal apparatus, and that person shall be allowed to remove the vehicle or vessel without interference upon the payment of a reasonable service fee of not more than one-half of the posted rate for such towing service as provided in subparagraph 6., for which a receipt shall be given, unless that person refuses to remove the vehicle or vessel which is otherwise unlawfully parked or located.

4. The words “tow-away zone” must be included on the sign in not less than 4-inch high letters.

c. The notice must also provide the name and current telephone number of the person or firm towing or removing the vehicles or vessels, if the property owner, lessee, or person in control of the property has a written contract with the towing company.

d. The sign structure containing the required notices must be permanently installed with the words “tow-away zone” not less than 3 feet and not more than 6 feet above ground level and must be continuously maintained on the property for not less than 24 hours prior to the towing or removal of any vehicles or vessels.

e. The local government may require permitting and inspection of these signs prior to any towing or removal of vehicles or vessels being authorized.

f. A business with 20 or fewer parking spaces satisfies the notice requirements of this subparagraph by prominently displaying a sign stating “Reserved Parking for Customers Only Unauthorized Vehicles or Vessels Will be Towed Away At the Owner's Expense” in not less than 4-inch high, light-reflective letters on a contrasting background.

A business owner or lessee may authorize the removal of a vehicle or vessel by a towing company when the vehicle is parked in such a manner that restricts the normal operation of business; and if a vehicle or vessel parked on a public right-of-way obstructs access to a private driveway the owner, lessee, or agent may have the vehicle or vessel removed by a towing company upon signing an order that the vehicle or vessel be removed without a posted tow-away zone sign.

6. Any person or firm that tows or removes vehicles or vessels and proposes to require an owner, operator, or person in control of a vehicle or vessel to pay the costs of towing and storage prior to redemption of the vehicle or vessel must file and keep on record with the local law enforcement agency a complete copy of the current rates to be charged for such services and post at the storage site an identical rate schedule and any written contracts with property owners, lessees, or persons in control of property which authorize such person or firm to remove vehicles or vessels as provided in this section.

7. Any person or firm towing or removing any vehicles or vessels from private property without the consent of the owner or other legally authorized person in control of the vehicles or vessels shall, on any trucks, wreckers as defined in s. 713.78(1)(b), or other vehicles used in the towing or removal, have the name, address, and telephone number of the company performing such service clearly printed in contrasting colors on the driver and passenger sides of the vehicle. The name shall be in at least 3-inch permanently affixed letters, and the address and telephone number shall be in at least 1-inch permanently affixed letters.

8. Vehicle entry for the purpose of removing the vehicle or vessel shall be allowed with reasonable care on the part of the person or firm towing the vehicle or vessel. Such person or firm shall be liable for any damage occasioned to the vehicle or vessel if such entry is not in accordance with the standard of reasonable care.

9. When a vehicle *or vessel* has been towed or removed pursuant to this section, it must be released to its owner or custodian within one hour after requested. Any vehicle *or vessel* owner, custodian, or agent shall have the right to inspect the vehicle *or vessel* before accepting its return, and no release or waiver of any kind which would release the person or firm towing the vehicle *or vessel* from liability for damages noted by the owner or other legally authorized person at the time of the redemption may be required from any vehicle *or vessel* owner, custodian, or agent as a condition of release of the vehicle *or vessel* to its owner. A detailed, signed receipt showing the legal name of the company or person towing or removing the vehicle *or vessel* must be given to the person paying towing or storage charges at the time of payment, whether requested or not.

(b) These requirements shall be the minimum standards and shall not preclude enactment of additional regulations by any municipality or county including the right to regulate rates when vehicles *or vessels* are towed from private property.

(3) This section does not apply to law enforcement, firefighting, rescue squad, ambulance, or other emergency vehicles *or vessels* which are marked as such or to property owned by any governmental entity.

(4) When a person improperly causes a vehicle *or vessel* to be removed, such person shall be liable to the owner or lessee of the vehicle *or vessel* for the cost of removal, transportation, and storage; any damages resulting from the removal, transportation, or storage of the vehicle; attorneys' fees; and court costs.

(5) *Failure to make good faith best efforts to comply with the notice requirement of this section, as appropriate, shall preclude the imposition of any towing or storage charges against such vehicle or vessel.*

Section 6. Legislative findings and intent; Digital Divide Council; powers and duties; program objectives and goals; review and assessment of program performances; annual report.—

(1) **LEGISLATIVE FINDINGS AND INTENT.**—*The Legislature finds as follows:*

(a) *Frequent access to use of information technology and possession of the knowledge and skills required to use information technology productively is becoming increasingly more important to being competitively qualified for high-skill, high-wage employment.*

(b) *The availability of reasonable opportunities to have frequent access to use of information technology and to obtain the education and training necessary to acquire the knowledge and skills required to use information technology productively is critical to becoming competitively qualified for high-skill, high-wage employment.*

(c) *Families that are living near or below the poverty level are without adequate economic resources to have reasonable opportunities to obtain frequent access to use of information technology or the education and training necessary to acquire the knowledge and skills required to become competitively qualified for high-skill, high-wage employment.*

(d) *The absence of such economic resources divides such families from those who have adequate economic resources to have such opportunities, places such families at risk of never realizing their employment and income earning potential, and prevents the state's economy from prospering to the extent possible if such families realized their employment and income earning potential.*

(e) *The divide between the members of such at-risk families and those who have adequate economic resources to have reasonable opportunities to obtain access to frequent use of information technology and the education and training necessary to acquire the knowledge and skills required to become competitively qualified for high-skill, high-wage employment could be reduced, and the economy of the state could be enhanced, by designing and implementing programs that provide such opportunities to members of such at-risk families.*

It is the intent of the Legislature to provide the authority and resources reasonably necessary to facilitate design and implementation of such programs.

(2) **DIGITAL DIVIDE COUNCIL.**—*The Digital Divide Council is created in the State Technology Office. The council shall consist of:*

- (a) *The chief information officer in the State Technology Office.*
- (b) *The director of the Office of Tourism, Trade, and Economic Development in the Executive Office of the Governor.*
- (c) *The president of Workforce Florida, Inc.*
- (d) *The director of the Agency for Workforce Innovation.*
- (e) *The chair of itflorida.com, Inc.*
- (f) *The Commissioner of Education.*
- (g) *The executive director of the State Board of Community Colleges.*
- (h) *The executive director of the State Board for Career Education.*
- (i) *The chair of the Network Access Point of the Americas.*
- (j) *A representative of the information technology industry in this state appointed by the Speaker of the House of Representatives.*
- (k) *A representative of the information technology industry in this state appointed by the President of the Senate.*

(l) *Two members of the House of Representatives, who shall be ex officio, nonvoting members of the council, appointed by the Speaker of the House of Representatives, one of whom shall be a member of the Republican caucus and the other of whom shall be a member of the Democratic caucus.*

(m) *Two members of the Senate, who shall be ex officio, nonvoting members of the council, appointed by the President of the Senate, one of whom shall be a member of the Republican caucus and the other of whom shall be a member of the Democratic caucus.*

(3) **TERMS OF APPOINTED MEMBERS OF COUNCIL; VACANCIES; COMPENSATION OF MEMBERS.**—*The appointed members of*

the council shall serve an initial term of 1 year commencing July 1, 2001, and ending June 30, 2002, and successor appointees shall serve a term of 2 years, the first of which shall commence July 1, 2002, and end June 30, 2004. Successive 2-year terms shall commence and end on the same schedule in subsequent years. Any vacancy in the membership of the council resulting from resignation, incapacity, or death shall be filled within 30 days after the date the vacancy is effective. The appointed members of the council shall serve without compensation, but such appointees and the other members of the council shall be entitled to receive per diem and reimbursement for travel expenses as provided in section 112.061, Florida Statutes. Payment of such per diem and reimbursement of such travel expenses may be made from appropriations authorized to be used for such purposes.

(4) **COUNCIL MEETINGS; ELECTION OF OFFICERS.**—*The council shall conduct its initial meeting by August 1, 2001, and shall meet thereafter at least once every 60 days. In its initial meeting, the members of the council shall elect a member to serve as chair and another to serve as vice chair, each for a term of 1 year from the date of the election. Any vacancy in the offices of chair and vice chair resulting from resignation, incapacity, or death shall be filled by similar election within 30 days after the date the vacancy is effective.*

(5) **ADMINISTRATIVE AND TECHNICAL SUPPORT; PAYMENT OF SUPPORT COSTS.**—*The State Technology Office shall provide such administrative and technical support to the council as is reasonably necessary for the council to effectively and timely carry out its duties and responsibilities. All direct and indirect costs of providing such support and performing the other duties assigned to the State Technology Office related to design and implementation of the programs authorized by this section may be paid from appropriations authorized to be used for such purposes.*

(6) **POWERS AND DUTIES OF COUNCIL.**—*The council, through the State Technology Office, is authorized and empowered to facilitate the design and implementation of programs that are aimed at achieving the objectives and goals stated in this section. The State Technology Office shall present and demonstrate to the council the design characteristics and functional elements of each program proposed to be implemented to achieve the objectives and goals stated in this section and each such program shall be reviewed and approved by the council before being implemented. Such programs shall initially be implemented as pilot programs in a minimum of six different areas of the state to develop model programs that are likely to be successful if implemented throughout the state. The areas of the state where the pilot programs are implemented shall be selected by the council with the objectives of testing the merits of the programs in each geographic region of the state and providing equal exposure of the programs to urban and rural communities alike. Implementation of all such pilot and model programs shall be administered by and through the local workforce development boards and each such board shall coordinate and confirm the ready availability and timely delivery of all elements of such programs to ensure the highest probability of such programs achieving their intended results.*

(7) **PROGRAM OBJECTIVES AND GOALS.**—*The programs authorized by this section shall have the following objectives and goals:*

(a) *Maximizing efficient and productive use of existing facilities, equipment, personnel, programs, and funds available from federal, state, and local government agencies and from any private person or entity.*

(b) *Using innovative concepts employing newly developed technologies in educating and training those who are enrolled in the programs authorized by this section.*

(c) *Developing viable partnerships between public agencies and private persons and entities based on mutual commitment to responsible and dedicated participation in designing and implementing the programs authorized by this section.*

(d) *Recruiting, enrolling, retaining, and graduating as many at-risk family members as feasible to ensure that they have reasonable opportunities to obtain access to frequent use of information technology and the education and training necessary to competitively qualify them for high-skill, high-wage employment.*

(e) *Reducing the number of underachieving and failing students in the state's public school systems who are members of at-risk families.*

(f) Reducing the number of underemployed and unemployed members of at-risk families.

(g) Using information technology to facilitate achievement of the Sunshine State Standards by all children enrolled in the state's K-12 school system who are members of at-risk families.

(h) Training teachers in the state's K-12 school system to efficiently and effectively use information technology to plan, teach, and administer all courses of instruction required and available by election of children enrolled in the system.

(i) Using information technology to enable members of at-risk families who are no longer enrolled in K-12 schools to obtain the education needed to achieve successful completion of general education development test preparation to earn a high school diploma, an applied technology diploma, a vocational certificate, an associate of arts degree, or a baccalaureate degree.

(j) Bridge the digital divide in developing a competitive workforce to meet the employment needs of state-based information technology businesses and establish this state as having the most information technology ready workforce in the western hemisphere.

(8) **MONITORING, REVIEWING, AND EVALUATING PROGRAM PERFORMANCES; REPORTING RESULTS.**—The council, through the State Technology Office, shall continually monitor, review, and evaluate the progress of performances realized from implementation of the programs authorized by this section. The State Technology Office shall prepare and submit a report to the council at least 10 days before each of its meetings subsequent to its initial meeting and each such report shall, at a minimum, identify and describe the functional elements of each program being implemented and identify and describe the facilities, equipment, personnel, programs, and funds used to design and implement the program. For each such program, the report shall also identify by name, address, age, and sex the school-age children, and their older siblings and parents, who are enrolled in the program, state the educational level achieved by each enrollee as of the date he or she enrolled in the program, state the attendance and achievement level recorded for each enrollee in the program, evaluate the progress each enrollee is making toward successful completion of the program, and identify by name, address, age, and sex each enrollee who successfully completes the program. (9) **ANNUAL REPORT.**—By March 1, 2002, the council, through the State Technology Office, shall report to the Executive Office of the Governor, the Speaker of the House of Representatives, and the President of the Senate the results of the council's monitoring, reviewing, and evaluating such programs since their inception and the council's recommendations as to whether such programs should be continued and expanded to achieve the objectives and goals stated in this section.
