REDISTRICTING COMMITTEE

MONDAY, JUNE 20, 2011

1:00 P.M.

412 KNOTT BUILDING

TALLAHASSEE, FLORIDA

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 CHAIRMAN WEATHERFORD: The Administrative
3 Assistant, please call the roll.

4 ADMINISTRATIVE ASSISTANT: Representative
5 Precourt.

6 REPRESENTATIVE PRECOURT: Here.

7 ADMINISTRATIVE ASSISTANT: Adkins.

8 REPRESENTATIVE ADKINS: Here.

9 ADMINISTRATIVE ASSISTANT: Albritton.

10 REPRESENTATIVE ALBRITTON: Here.

11 ADMINISTRATIVE ASSISTANT: Baxley.

12 REPRESENTATIVE BAXLEY: Here.

13 ADMINISTRATIVE ASSISTANT: Bernard.

14 REPRESENTATIVE BERNARD: Here.

15 ADMINISTRATIVE ASSISTANT: Boyd.

16 REPRESENTATIVE BOYD: Here.

17 ADMINISTRATIVE ASSISTANT: Brodeur.

18 REPRESENTATIVE BRODEUR: Here.

19 ADMINISTRATIVE ASSISTANT: Caldwell.

20 REPRESENTATIVE CALDWELL: Here.

21 ADMINISTRATIVE ASSISTANT: Campbell.

22 REPRESENTATIVE CAMPBELL: Here.

23 ADMINISTRATIVE ASSISTANT: Clarke-Reed.

24 REPRESENTATIVE CLARKE-REED: Here.

25 ADMINISTRATIVE ASSISTANT: Corcoran.

1 Cruz.

2 REPRESENTATIVE CRUZ: Here.

3 ADMINISTRATIVE ASSISTANT: Drake.

4 REPRESENTATIVE DRAKE: Here.

5 ADMINISTRATIVE ASSISTANT: Frishe.

6 REPRESENTATIVE FRISHE: Here.

7 ADMINISTRATIVE ASSISTANT: Fullwood.

8 REPRESENTATIVE FULLWOOD: Here.

9 ADMINISTRATIVE ASSISTANT: Holder.

10 REPRESENTATIVE HOLDER: Here.

11 ADMINISTRATIVE ASSISTANT: Hooper.

12 REPRESENTATIVE HOOPER: Here.

13 ADMINISTRATIVE ASSISTANT: Hukill.

14 REPRESENTATIVE HUKILL: Here.

15 ADMINISTRATIVE ASSISTANT: Jones.

16 REPRESENTATIVE JONES: Here.

17 ADMINISTRATIVE ASSISTANT: Julien.

18 REPRESENTATIVE JULIEN: Present.

19 ADMINISTRATIVE ASSISTANT: Legg.

20 REPRESENTATIVE LEGG: Here.

21 ADMINISTRATIVE ASSISTANT: Nehr.

22 REPRESENTATIVE NEHR: Here.

23 ADMINISTRATIVE ASSISTANT: Passidomo.

24 REPRESENTATIVE PASSIDOMO: Here.

25 ADMINISTRATIVE ASSISTANT: Reed.

1 REPRESENTATIVE REED: Here.

2 ADMINISTRATIVE ASSISTANT: Rogers.

3 REPRESENTATIVE ROGERS: Here.

4 ADMINISTRATIVE ASSISTANT: Schenck.

5 REPRESENTATIVE SCHENCK: Here.

6 ADMINISTRATIVE ASSISTANT: Stargel.

7 REPRESENTATIVE STARGEL: Here.

8 ADMINISTRATIVE ASSISTANT: Taylor.

9 REPRESENTATIVE TAYLOR: Here.

10 ADMINISTRATIVE ASSISTANT: Trujillo.

11 REPRESENTATIVE TRUJILLO: Here.

12 ADMINISTRATIVE ASSISTANT: Williams, A.

13 REPRESENTATIVE WILLIAMS: Present.

14 ADMINISTRATIVE ASSISTANT: Young.

15 REPRESENTATIVE YOUNG: Here.

16 ADMINISTRATIVE ASSISTANT: Mr. Chairman.

17 CHAIRMAN WEATHERFORD: The Senate, if we

18 could get the roll call for the Senate as well.

19 ADMINISTRATIVE ASSISTANT: Senator Gaetz.

20 SENATOR GAETZ: Here.

21 ADMINISTRATIVE ASSISTANT: Senator

22 Margolis.

23 SENATOR MARGOLIS: Here.

24 ADMINISTRATIVE ASSISTANT: Senator

25 Braynon.

1 SENATOR BRAYNON: Here.

2 ADMINISTRATIVE ASSISTANT: Senator Flores.

3 SENATOR FLORES: Here.

4 ADMINISTRATIVE ASSISTANT: Senator Hays.

5 SENATOR HAYS: Here.

6 ADMINISTRATIVE ASSISTANT: Senator Joyner.

7 SENATOR JOYNER: Here.

8 ADMINISTRATIVE ASSISTANT: Senator Lynn.

9 SENATOR LYNN: Here.

10 ADMINISTRATIVE ASSISTANT: Senator

11 Montford.

12 SENATOR MONTFORD: Here.

13 ADMINISTRATIVE ASSISTANT: Senator Negron.

14 SENATOR NEGRON: Here.

15 ADMINISTRATIVE ASSISTANT: Senator Sobel.

16 SENATOR SOBEL: Here.

17 ADMINISTRATIVE ASSISTANT: Senator

18 Thrasher?

19 SENATOR THRASHER: Here.

20 CHAIRMAN WEATHERFORD: Thank you very

21 much. We are also pleased to be joined today

22 by names of non committee Legislators attending

23 the hearing. Would you please read those as

24 well?

25 ADMINISTRATIVE ASSISTANT: Representative

1 Abruzzo?

2 REPRESENTATIVE ABRUZZO: Here.

3 ADMINISTRATIVE ASSISTANT: Klar?

4 REPRESENTATIVE KLAR: Here.

5 ADMINISTRATIVE ASSISTANT: Mr. Chairman.

6 CHAIRMAN WEATHERFORD: Thank you very
7 much. First of all, I want to thank everyone
8 for coming out today. We are very grateful to
9 both the House and Senate staff for setting up
10 this great facility.

11 We are grateful to have such a terrific
12 turn out, and we are also here to share what I
13 believe and come to share the comments and
14 recommendations to help shape both the
15 Congressional and the Senate and House
16 Districts for the next decade.

17 My name is Will Weatherford, and I along
18 with my Senate colleague, Senator Don Gaetz,
19 will be chairing today's hearing which is also
20 being webcast statewide by the Florida Channel
21 over the Internet.

22 Ladies and gentlemen, our sole purpose
23 here is to hear from the public about how you
24 believe the legal standards governing
25 redistricting should be applied in your

1 community so that you are represented in both
2 Washington and in Tallahassee fairly, equitably
3 and sensibly.

4 Our procedures today are simple but they
5 are very important. It is important that you
6 sign in so that we can create an accurate
7 public record of all attendees and speakers.

8 Also you may opt to join our e-mail lists
9 so that we can keep you informed about how the
10 redistricting process is working over the next
11 few months. If you have not signed in, please
12 raise your hand and a staff member will give
13 you an attendance card.

14 If you wish to speak today and you haven't
15 yet filled out an attendance card, please raise
16 your right hand and we will get you a card so
17 you can be called on and we will make sure not
18 to miss your testimony. It is the same
19 attendance card, whether you want to speak or
20 if I want to just sit and listen.

21 Before we begin the Chair will recognize
22 Co-Chairman, Senator Don Gaetz to explain how
23 today's hearings fit into the redistricting
24 process. Chairman Gaetz.

25 CHAIRMAN GAETZ: Thank you very much,

1 Mr. Speaker, and I notice there are a couple of
2 folks there who need to have either appearance
3 cards or speaker cards, and will a member of
4 the professional staff please get to those
5 folks as soon as possible.

6 Mr. Speaker, and those of us who are
7 gathered here today, every ten years the
8 Legislature is required by the Constitution to
9 redistrict the state based on increases,
10 decreases, or movements of population within
11 the state.

12 Because Florida has grown more than other
13 states in the last ten years we will move up
14 from 25 to 27 members of the U.S. House of
15 Representatives, and because some parts of our
16 state have increased or decreased
17 disproportionately, many Senate and House
18 Districts will change, either by adding or
19 losing population.

20 When redistricting is complete
21 Congressional Districts must be equal in size
22 and each Congressional District plus contain
23 696,345 people. The 40 Senate Districts must
24 also be nearly equal at 470,033 people, and our
25 120 House Districts must also be nearly equal

1 at 156,678 persons.

2 There is a map at the front of the room
3 that you can see over there. You are welcome
4 when we take our breaks come up and have a look
5 at it that shows this area of the state, north
6 Florida, particularly northwest Florida.

7 The map shows the current boundaries of
8 existing districts and the number of persons of
9 which each district is short or the number of
10 excess population to be adjusted in order to
11 achieve equal representation.

12 But Mr. Speaker, equality of
13 representation is not the only requirement that
14 redistricting plans have to meet. The laws and
15 important court cases governing redistricting
16 are explained in detail on the House and Senate
17 websites.

18 Those websites are listed on the
19 Redistricting 2012 brochure that was available
20 when you came in. If you didn't get one of
21 those brochures you can get them on your way
22 out.

23 The Redistricting 2012 brochure summarizes
24 Federal and State laws and outlines topics we
25 hope you will discuss at today's hearing and

1 the other 25 hearings across Florida. If you
2 didn't get a brochure our staff will be happy
3 to get you one.

4 Those same websites have available to the
5 public all of the demographic information from
6 the U.S. Bureau of the Census that will be used
7 in drawing districts and the redistricting
8 software the Legislators will be using.

9 These websites will allow any member of
10 the public to see all of the district maps
11 proposed by Legislators and for citizens,
12 themselves, to propose their own district maps
13 for their own communities, or for the whole
14 state using all of the tools available to the
15 Legislature.

16 Before, during, and after this hearing,
17 Senate and House professional staff are
18 available to show you the simple steps to
19 getting on-line and making your submission for
20 your suggestions now or in the weeks to come.

21 Every recommendation from any member of
22 the public or any group will be made publicly
23 available to everyone else. In fact, some
24 public submissions are already available on the
25 web.

1 The submission of proposed maps that make
2 sense for your community is the single most
3 effective form of public participation in this
4 process.

5 The redistricting schedule under which we
6 are operating is imposed by our State
7 Constitution. This is critical. The
8 Constitution does not permit our Legislature to
9 act on legislative maps before the second year
10 after the census.

11 In other words, the Constitution doesn't
12 permit us to act on legislative or
13 congressional maps before 2012. We have
14 accelerated this process as much as possible by
15 moving up the 2012 legislative session from
16 March to January, and beginning our statewide
17 hearings today, five months in advance of the
18 2012 session.

19 It has been suggested that the Legislature
20 should draw maps first and then ask the public
21 to comment on the Legislature's maps. We
22 believe that puts the answer ahead of the
23 question.

24 There should be no preconceptions created
25 by politicians, but rather public testimony

1 should be free and unrestricted.

2 Our intent is to use the recommendations
3 made of the 26 public hearings and through the
4 Internet sites where we are gathering input as
5 the basis for developing one or more options
6 for district maps.

7 We will share those options in open public
8 meetings before any vote is taken, even in
9 Committee.

10 Throughout the process we will solicit
11 additional public comment so that proposed maps
12 can mature with the public involved all before
13 the Legislature approves any maps.

14 Whatever the Legislature votes on is then
15 submitted for judicial review to insure that
16 the plans meet every legal requirement.

17 Because our mission today is to hear from
18 you, all of the remaining time between now and
19 8:00 p.m. tonight will be used to insure that
20 every member of the public who is here and
21 wishes to speak will have time to present
22 testimony and be listened to respectfully
23 without interruption or argument.

24 If, after every citizen has his or her
25 say, there is time remaining before our

1 scheduled adjournment, then any member of the
2 Committee may make any statement or offer any
3 observation, and, of course, any member of the
4 Legislature may today or at any time propose a
5 map or a plan and we will make it available to
6 the public immediately on our websites.

7 Mr. Speaker, I hope this description of
8 our schedule and process helps set the stage
9 for successful hearings across Florida.

10 CHAIRMAN WEATHERFORD: Thank you very
11 much, Mr. Chairman. By Senate and House rules
12 we will adjourn promptly at this first meeting
13 at 4:00 p.m. There are already dozens of
14 individuals signed up to speak.

15 If there is anyone else who wishes to
16 speak that has not gotten their public
17 appearance card, please make sure and get one
18 by raising your right hand again.

19 To insure that each person is heard we
20 will divide the time equally and ask that each
21 testifier to limit his or her remarks to three
22 to five minutes.

23 That being said, as we get more cards in
24 if time becomes crunched we may come to a hard
25 clock of three minutes.

1 Our first speaker is Ms. Diane Wilson,
2 Ms. Diane Wilson is with Wakulla County
3 Democratic Women's Club, and after Diane we
4 have Ms. Carolyn Land and Ms. Marty Monroe.

5 What we would like, Ms. Marty Monroe, what
6 we would like, Mr. Marty Monroe. What we would
7 like to do is we will announce the first
8 speaker and then the two subsequent speakers to
9 follow to make sure that you can be prepared to
10 bring your comments forward.

11 So we would ask as we announce your name,
12 that you get in the cue and be prepared to
13 speak.

14 Ms. Wilson, the floor is yours and you are
15 recognized for three to five minutes. Thank
16 you, Ms. Wilson declines to speak at this time.

17 Next up we have Ms. Carolyn Land followed
18 by Mr. Marty Monroe. Ms. Land.

19 MS. LAND: Thank you for asking --

20 CHAIRMAN WEATHERFORD: I would like, just
21 for the record purposes we would love it if you
22 could come and speak at the podium. Thank you
23 very much.

24 MS. LAND: Thank you.

25 CHAIRMAN WEATHERFORD: There is a button

1 to turn the microphone on there. Thank you,
2 Ms. Land.

3 MS. LAND: Try that. One more time.
4 Thank you for asking for public input on a very
5 important decision, and I am from Lafayette
6 County. When you compare population,
7 registered voters to most of the counties, we
8 are one of the smallest counties in the state,
9 and to me it is extremely important as we draw
10 the districts that our entire county be within
11 one district.

12 Also, as much as possible, that we be
13 grouped with people who share the same
14 industries and issues that we share as a small
15 rural county. Thank you.

16 CHAIRMAN WEATHERFORD: Thank you very
17 much, Ms. Land, we appreciate your comments.
18 Next up we have Marty Monroe, followed by
19 Mr. Herb Shelton.

20 Ms. Monroe, you are recognized?

21 MS. MONROE: Thank you. Thank you very
22 much. Good afternoon. Marty Monroe. I have
23 lived in Tallahassee since the 1980s, and it
24 almost makes me home grown. I am proud to be a
25 recovering Civics teacher, and I care a great

1 deal about a healthy democracy.

2 And I am here today because I think this
3 is a very sick process. My parents are in
4 their 80s. They, too, live here in
5 Tallahassee. They live in the Westminster
6 Oaks.

7 Now, there are more trees between my house
8 and Westminster Oaks than there are people, and
9 my parents don't have a Senator Bill Montford,
10 thank you very much, I am proud to have you,
11 and they were very upset.

12 They moved from a garden apartment to the
13 main building, and you know what that created,
14 a change of address. Now, a change of address
15 seems very simple to people, but when you are
16 in your 80s, it gets very complicated.

17 Most people do not have driver's license,
18 thankfully, in retirement communities, and my
19 parents, they don't pay bills, Westminster does
20 all of that.

21 So they had to go find paid staff to write
22 them a letter to say my parents live there, and
23 fortunately, my parents travel a lot and they
24 had a passport. I am telling you folks this is
25 suppressing votes, creating problems in the

1 democracy.

2 That is very difficult for people in their
3 80s. You all think it is just a, well, you
4 just go down there and get a change of address,
5 but for real people that is real problems.

6 Monday morning, I am in chemotherapy, I
7 just came out of it this morning. Cancer
8 doesn't discriminate, and I sit in chemotherapy
9 with homeless people, the working core. I sit
10 in there with all types of people. In fact, it
11 breaks my hard to see the classroom teacher in
12 there grading papers and writing lesson plans
13 during a six-hour chemo treatment.

14 Our lives are very complicated navigating
15 the medical model. And we talk a lot. I
16 always talk politics, I am a recovering Civics
17 teacher. So we talk and we share our concerns,
18 and, yes, we are sick, but we are basically
19 heart sick, heart sick about the declining
20 democracy in the state.

21 Yes, I read the leadership letter to
22 instruct you not to speak and I don't think you
23 need to. I was laid up on the couch in chemo
24 and watched the day in the Legislature every
25 day, and I think you have spoken real loud.

1 I think your actions speak louder than
2 yours words. You had no money for the working
3 core, no money for state employees, and no
4 money for public education, and now I learn you
5 got \$30 million set aside to fight the will of
6 the voter. That is \$30 million to fight me and
7 my 80-year-old parents. \$30 million to leave
8 no lawyer behind is what I think.

9 The leadership in Florida talks about
10 saving the state money, money, money, and
11 running it like a business.

12 CHAIRMAN WEATHERFORD: Ms. Monroe,
13 Ms. Monroe, if I could for just one second, I
14 am sorry to interrupt you. We are trying to
15 focus the comments today on redistricting and
16 on the future of Florida's maps, and we
17 certainly want to hear your thoughts in regards
18 to the budget and in regards to the different
19 issues that we face as a state, but we would
20 really ask you to focus your comments today on
21 the redistricting, on the redistricting
22 process.

23 MS. MONROE: This is part of the
24 redistricting process as far as I am concerned,
25 Representative Weatherford. Okay.

1 CHAIRMAN WEATHERFORD: Just please keep it
2 tailored to the redistricting process, thank
3 you.

4 MS. MONROE: I will try if you will let
5 me. I want to know what business in Florida
6 sends their employees on a road show to ask
7 other people to do their jobs. I want to be
8 perfectly clear, it is the job of the
9 Legislature to draw the Congressional
10 legislative maps, and I understand that many
11 other states out there have completed their
12 redistricting process.

13 Their citizens were able to comment on
14 actually proposed maps, and by the way, that
15 has been the practice in Florida for the past
16 years.

17 There were prepared maps here at these
18 meetings that we could speak on. That has been
19 the practice in the past.

20 Fair District Amendment was won by a super
21 majority of voters to clarify how we want the
22 maps drawn. That is a lot of input, folks.
23 That is -- that is how we amended the
24 Constitution, because we wanted to give you
25 direction on how to draw those maps, and I am

1 just going to gently suggest what our Governor
2 always likes to say, let's get to work and quit
3 wasting time in drawing those maps.

4 By the way, I want to comment on your
5 timeline. It really looks like an incumbent
6 protection plan here, because you are delaying
7 and prolonging the process to the last possible
8 date. This creates chaos for candidates and
9 very little time for the education of
10 campaigns.

11 It is very highly unlikely that
12 Floridians, the voters, will know their new
13 districts before qualifying, and, of course,
14 the process could take much longer if you don't
15 draw maps that comply with the law.

16 So I am wondering today, Senators, House
17 Reps, aren't you just tired of being Flori-da,
18 the stupid state that holds up National
19 elections just because we can?

20 I want you to stop the delays. I want you
21 to stop stalling and I want you to get to work
22 as the Governor likes to say, let's get to
23 work. I have been ready. I think you should,
24 too.

25 CHAIRMAN WEATHERFORD: Thank you very

1 much, Ms. Monroe. Next up we have Herb
2 Shelton, followed by Barbara Day, Herb is
3 representing himself.

4 Mr. Shelton, thank you for being here.
5 You are recognized, sir.

6 MS. SHELTON: Thank you for this time, but
7 actually there is a fellow here that is much
8 more knowledgeable about this than I am and I
9 would love to cede my time to him, and his name
10 is Matthew Isbell, if that is permissible.

11 CHAIRMAN WEATHERFORD: What we could do,
12 sir, is if he will fill out a card we will
13 certainly make sure and find time for him, but
14 we are reading the cards off in the order that
15 they were turned in.

16 And so if he would fill out a card we will
17 make sure and give him an opportunity to speak.

18 MR. SHELTON: Okay, sorry.

19 CHAIRMAN WEATHERFORD: Would you still
20 like to speak, sir?

21 MR. SHELTON: Sure, I can speak a thing or
22 two. You know, it takes courage to do this.
23 You folks are learned, lawyers and whatever,
24 but, you know, I am just a citizen of Leon
25 County here, and you know, I want to first of

1 all thank you for this forum, you know, to
2 discuss fair districting.

3 I just want to add my voice to the sister
4 that just spoke about getting the job soon,
5 please. Sixty-three percent of Florida voters
6 wanted to see this thing finished and fairly.

7 As you know, I am Herb Shelton. I have
8 friends across the state from Pensacola to
9 Lauderdale. They vote, we have watched a tax
10 on early voting, I have watched State employee
11 pension funds being attacked. There is an
12 ultrasound mandate, there is a Supreme Court
13 attack, the Supreme Court of Florida is being
14 attacked.

15 I have watched distinguished clergy and
16 vote God for guidance on your behalf and yet
17 seen policies that are to me reveal a deep
18 sickness, and the burden of my soul for you
19 today can be best described, summed up in the
20 words of Isaiah, 520, "Woe unto them that call
21 evil good and good evil. That pit darkness for
22 light and light for darkness, that pit bitter
23 for sweet and sweet for bitter. Woe unto them
24 that are wise in their own eyes and prudent in
25 their own sight, but God's invitation to you is

1 this, come into me and be healed, for why will
2 you die." And there is a quote from a man
3 named Uriah Smith back in 1884.

4 I don't know if I should say this, but
5 anyway, he spoke and wrote, "Fraud, dishonesty,
6 usurpation lying, cheating and stealing will
7 largely determine the count and the party which
8 can do most of this work will probably win."
9 Thank you for your time.

10 CHAIRMAN WEATHERFORD: Thank you very
11 much, Mr. Shelton. Next up we have Ms. Barbara
12 Day from the AARP, followed by Henry Kelly.

13 Ms. Day, thank you very much for being
14 here today. You are recognized.

15 MS. DAY: Good afternoon, Chairman Gaetz
16 and Chairman Weatherford and the Committee
17 members.

18 My name is Barbara Day. I live in Panama
19 City, Bay County. I appear today as a
20 volunteer for -- as a volunteer for AARP.

21 I urge the Legislature to make
22 redistricting process to be all you can be. As
23 you exercise your constitutional duty to draw
24 voting districts for ten years beginning with
25 the 2012 elections, AARP urges you to insure

1 transparency of the legislative redistricting
2 process every stay of the way.

3 Keep transparency in place with
4 redistricting discussions among members and by
5 members, should be noticed and open to the
6 public, too.

7 Also keep transparency in place, meaning
8 the public has opportunity to comment and to
9 have those comments meaningfully considered by
10 the Legislature during our legislative --
11 legislative redistricting proceedings and on
12 redistricting proposals, that is before
13 Legislators make decisions.

14 Insure timeliness of the redistricting
15 process and insure public input. The
16 Legislature has an obligation to meet the
17 constitutional dictates as already expressed by
18 the Florida voters. The Legislator owes
19 Florida's residents and voters professionalism
20 and timely completion of the redistricting
21 process.

22 The Legislature knows the procedural steps
23 that redistricting plans will need to complete
24 in order for there to be a timely qualification
25 of the 2012 candidates under the new district

1 and for the vigorous campaigns before voters
2 cast their ballots.

3 That means the Legislature should complete
4 its portion of the process sooner rather than
5 later.

6 Remember to take steps to insulate the
7 redistricting process from the appearance of a
8 conflict of interest. For example,
9 subcommittees of Legislators could research and
10 develop alternative redistricting proposals for
11 areas of the state remote from the sub
12 committee members.

13 Geographic residence, perhaps, just as an
14 example, perhaps four areas of the state and
15 then refine and reconcile for two halves of the
16 state, then refine and reconcile by the full
17 chambers into one state plan.

18 When it is time for your performance, the
19 Florida voters will not count as undue expense
20 and delay in that performance. It is up to the
21 Legislator.

22 What will it be? Will it be
23 redistricting, presentment or voter resentment?
24 I am confident the Legislature and its staff
25 have professional competence and technical

1 assistance to research and propose new voting
2 districts in accord with all the constitutional
3 and Federal requirements.

4 Wishing you good luck and make your best
5 effort. Thank you so much for your time.

6 CHAIRMAN WEATHERFORD: Thank you very
7 much, Ms. Day. We appreciate your comments.
8 Next up we have Ms. Debbie Walsh from the
9 Center for American Women in Politics.
10 Followed up by Mr. Daryl Nall.

11 Ms. Walsh, thank you very much for being
12 here.

13 MS. WALSH: Thank you very much for having
14 me. I want to thank the members of the
15 Commission and good afternoon. I am Debbie
16 Walsh, Director of the Center for American
17 Women and Politics, a unit of the Eagleton
18 Institute of Politics at Rutgers, the State
19 University of New Jersey and I probably used up
20 half my time, right?

21 For 40 years, CAWP or the Center, has been
22 monitoring and analyzing women's status and
23 prospects in American politics, tracking the
24 numbers of women office-holders and conducting
25 research about their impact.

1 I am here today because in recent years we
2 have noticed a deeply disturbing trend. The
3 stagnation and even decline in the number of
4 elected women, and we want to make sure that
5 trend is not exacerbated by the redistricting
6 process, yet the early evidence suggests that
7 unless careful attention is paid, women may
8 lose even more ground.

9 As part of our 2012 project a non partisan
10 campaign to increase the number of women in
11 Congress and State Legislatures across the
12 country, we are monitoring the redistricting
13 process nationwide.

14 We have analyzed the new map in New
15 Jersey, the first state to complete its
16 legislative redistricting and the results are
17 alarming.

18 In a state where 28 percent of the current
19 Legislature is female, women make up at least
20 57 percent of the Legislators who will retire
21 as a result of redistricting.

22 In other words, women incumbents were
23 disproportional forced out by redrawn district
24 lines. We all know that women are more than
25 half the nation's population, and on that basis

1 alone, the paucity of elected women is a
2 problem.

3 Today women hold 16.6 percent of the seats
4 in Congress, six Governorships out of 50,
5 24 percent of seats in State Legislatures, and
6 Mayor's offices in eight of the 100 largest
7 cities in the nation.

8 Here in Florida women hold one quarter of
9 State Legislative seats making it rank 20th in
10 the nation and just over a quarter of the
11 Congressional seats.

12 So although Florida has done better than
13 many states, it still fails to represent women
14 in anywhere near their proportions in the
15 population, but we are not just playing a
16 numbers game.

17 Research carried out by scholars and CAWP
18 and elsewhere demonstrates clearly that gender
19 balance changes the way government works,
20 altering the policy agenda, procedures, content
21 and outcomes on issues as varied as job loss,
22 national security and health.

23 Adding women makes a difference, and this
24 is not a partisan divide, both Democratic and
25 Republican women bring distinctive experiences,

1 prospectives and priorities to public office.

2 That is not only good for women, it is
3 good for Florida. Studies cutting across the
4 public and private sectors underscore the value
5 of gender balance. A recent article on
6 Forbes.com cited a Harvard conference that used
7 extensive scholarly research to make the
8 business case for gender equality.

9 The author reported, there is irrefutable
10 verifiable evidence that women in greater than
11 token proportions improve decision-making,
12 improve shareholder value and lower risk
13 taking. While the business of government does
14 not have shareholders, it certainly does have
15 stakeholders.

16 Citizens for whom better decision-making
17 and improved value are critically important.
18 Under the circumstances we can ill-afford to
19 diminish women's representation in government.

20 That is why I wanted to bring to your
21 attention this issue. We understand that women
22 are not legally protected in the redistricting
23 rules, but I would ask you to adhere to a
24 higher standard than merely following the basic
25 requirements which should be seen as a floor,

1 not a ceiling.

2 As you assess the various options before
3 you, don't simply do the least harm, instead,
4 aim to do the most good. I encourage you to
5 insure that women incumbents present only
6 through hard won progress are treated fairly in
7 the redistricting process. Thank you very
8 much.

9 CHAIRMAN WEATHERFORD: Thank you very
10 much, Ms. Walsh, and thank you for making the
11 trip all of the way down from New Jersey. We
12 appreciate you being here.

13 Actually, I skipped Mr. Kelley, Mr. Henry
14 Kelly. You are recognized, sir, and then we
15 will follow that up by Daryl Nall. Sorry about
16 that, Mr. Kelley. You are recognized, sir.

17 MR. KELLEY: Thank you, Mr. Chairman, and
18 I would like to on behalf of the Ft. Walton
19 Beach Tea Party thank the Joint Committee for
20 having an open and transparent process, and I
21 would like to thank Representative Weatherford
22 and the Senator from my district, Don Gaetz,
23 for their leadership on this.

24 Tea parties around the state will be
25 participating in all of the meetings and we

1 will be submitting plans, and I for one, it was
2 very disappointed to see criticism of the
3 committee process already.

4 With the growth of our population I am
5 glad to start with a blank slate and that the
6 public will have the opportunity to input
7 plans.

8 I have personally created already a
9 Congressional District and a Senate House plan.
10 I have to be honest, Representative
11 Weatherford, 120 is a lot of districts in the
12 House, but I have found the software easy to
13 use.

14 It took me about 15 minutes with the help
15 of the videos to become proficient and several
16 hours to draw the plans.

17 I will have some comments specific to the
18 panhandle tomorrow night at the meeting in Ft.
19 Walton Beach, but I wanted to say that it is my
20 view, having actually worked on the software,
21 that any group in the state of Florida,
22 particularly those with a complete staff, have
23 no excuse for not spending a few hours, which
24 is all it requires, to at least put together a
25 plan.

1 And we prefer that the redistricting be
2 resolved here in the Legislature where the
3 people have a voice rather than going to the
4 courts where they appear to be the worse
5 gerrymanders of all. Thank you, Mr. Chairman.

6 CHAIRMAN WEATHERFORD: Thank you very
7 much, Mr. Kelley. We appreciate your comments,
8 sir. Next up we have Mr. Nall, Mr. Daryl Nall,
9 Ms. Nall, I am sorry, I apologize. Followed up
10 by Peter Butzin.

11 MS. NALL: Okay, I didn't prepare any
12 remarks, but I got signatures for the Petition
13 that got the issues on the ballot and I was
14 really happy that the people of Florida want to
15 have fair redistricting and that is why I am
16 here.

17 I really want the process to be fair and
18 not -- I am a Democrat, but even if the
19 Democrats were in power it should be fair to
20 everybody and not slanted anymore than you have
21 to to comply with the Federal laws, because the
22 State Constitution doesn't allow it be slanted.
23 Thank you very much.

24 CHAIRMAN WEATHERFORD: Thank you very much
25 for your comments. We have Peter Butzin up

1 next, followed by Chris Moore. Peter Butzin
2 with Common Cause. Thank you for being here,
3 Mr. Butzin.

4 MR. BUTZIN: Thank you, Mr. Chairman.
5 Good afternoon, everyone, my name is Peter
6 Butzin.

7 CHAIRMAN WEATHERFORD: I am sorry.

8 MR. BUTZIN: I am on the national
9 governing board of Common Cause. I reside here
10 in Tallahassee and I have been involved in
11 reapportionments process that goes way back to
12 1982, and I wanted to talk a little bit about
13 my experience in 1982, when the Republicans had
14 about 30 percent of the Legislature under its
15 control and worked very closely with Common
16 Cause to try to insure the fair drawing of the
17 legislative districts.

18 And I worked with people like Pete Dunbar
19 and Curt Kiser, John Guthrie, Jack Latvala was
20 one of our organizers. We worked closely
21 together around the state to encourage people
22 to be involved in this process, and I remember
23 asking Pete Dunbar, I said, well, why are the
24 Republicans working so closely with Common
25 Cause on this issue.

1 And he said, look, we have been -- we have
2 been unfairly treated by reapportionment for as
3 long as the reapportionment process has existed
4 in Florida.

5 All we want is a fair process, because we
6 know that if it is a fair process, we will be
7 able to better represent our constituents, and
8 that is really all Common Cause is asking for
9 in this process, is that you be fair in the
10 drawing of legislative district lines.

11 That you not draw lines for incumbent
12 protection, that you not draw lines to protect
13 political parties or even communities of
14 interest, but instead that you follow the
15 standards, the 63 percent of Florida voters
16 added to the Florida Constitution in the form
17 of Sections 20 and 21, and if you uphold your
18 oath to uphold the Constitution, you will abide
19 by those anti gerrymandering standards to
20 insure a fair reapportionment process for
21 everyone.

22 I would also hope that you have a second
23 round of public hearings and encourage the
24 public to comment on your plans.

25 Now, I realize that you can't pass the

1 plans until the 2012 Legislative session, but
2 that does not mean that you can't go ahead and
3 in committee pass plans prior to January 1st of
4 2012, have another round of public hearings
5 where we are encouraged to react to those plans
6 and to have our public input.

7 Also, I would say produce those plans
8 early in the session so that we can accelerate
9 the process of court review, so the candidates
10 and voters will know the district boundaries
11 well before the elective process, and
12 ultimately I encourage you to remember that
13 Legislative Districts, Congressional Districts,
14 belong to the people, not to individual
15 Legislators or to political parties.

16 So I encourage you to uphold your oath of
17 office, support the Florida Constitution,
18 including Sections 20 and 21, the 63 percent of
19 Floridians added to the Constitution in
20 November of 2010. Thank you.

21 CHAIRMAN WEATHERFORD: Thank you much,
22 Mr. Butzin. I appreciate you being here today,
23 sir.

24 Next up we have Mr. Chris Moore, who is
25 the Leon County Supervisor of Elections, works

1 with the Leon County Supervisor of Elections,
2 and also we have former Senator Al Lawson is up
3 after that.

4 Thank you very much for being here,
5 Mr. Moore.

6 MR. MOORE: Thank you. My name is Chris
7 Moore. I am the demographics and GIS manager
8 for the Leon County Elections Office here in
9 Tallahassee, and I am here to talk about the
10 technical and financial ramifications of
11 redistricting, not so much the demographics and
12 the mandates that you have in front of you. I
13 think those are well documented.

14 I have a unique perspective of looking at
15 districts, in that I have to look at them
16 collectively. I have to look at the Senate,
17 the House, the Congressional Districts as well
18 as Local Districts and one thing that I haven't
19 seen talked about that I would like to submit
20 for consideration is looking at these districts
21 collectively, because when you look at the
22 districts collectively there is places in Leon
23 County that the House District and the Senate
24 District may be very close by, and if there is
25 opportunities to get those lines in sync then,

1 you know, that is a financial savings to the
2 taxpayers.

3 We have to have ballots for every precinct
4 specific style, everywhere there is a hard
5 district line there is a precinct line. So the
6 more you can get that in line with each other,
7 we have an opportunity for financial savings at
8 the county level.

9 The other thing I would like to say about
10 the savings, it is the course of a decade. It
11 is not just for one year, it is for ten years,
12 and it affects equipment, it affects supplies,
13 it affects training. It ripples its way all of
14 the way through our system for a very long
15 time.

16 And as far as the statistics for the
17 districts, I think last time around you were
18 able to get down to like a zero deviation or a
19 one person deviation in the numbers, and I
20 would implore you not to hide behind the
21 numbers being so close, because what happens
22 oftentimes when you are trying to get to those
23 numbers you start to ignore other criteria that
24 is out in front of you, and if you just need to
25 get the numbers right, you start grabbing

1 pieces out of neighborhoods here and there and
2 that is where some of the fracturing that you
3 see of neighborhoods occurs, because you are
4 trying to get to a deviation that, to me is not
5 the most important criteria, nor should it be.

6 So those -- those are my suggestions for
7 -- from the Leon County Supervisor of
8 Election's Office and I thank you for your
9 time.

10 CHAIRMAN WEATHERFORD: Thank you very much
11 for those good suggestions, Mr. Moore.

12 Next up we have an old friend and former
13 Senator and House Speaker, Senator Al Lawson.
14 Senator, you are recognized.

15 Thank you for being here, sir.

16 SENATOR LAWSON: Thank you very much,
17 Mr. Chairman Weatherford and Chairman Gaetz.
18 To members I would like to say good afternoon.

19 It is a real privilege for me to appear
20 before this committee today, especially having
21 gone through reapportionment twice in the last
22 28 years, and it is very encouraging to see
23 many of you that I know on this committee,
24 because I have had the opportunity to work with
25 you.

1 And one of the things I would like to say
2 before I get started is that I know that there
3 is going to be numerous hearings. I don't want
4 any of the public to really think that just
5 because we have a hearing here, that there are
6 not other hearings, because there will be many
7 committee meetings for the opportunity for you
8 to have input.

9 And I know the last two times I have been
10 through reapportionment, it hasn't been any
11 difference. I had an opportunity to go through
12 reapportionment with the Democratic majority,
13 had opportunity to go through reapportionment
14 with the Republican majority, and there haven't
15 been any changes in those regards.

16 I want to thank you, Mr. Chairman, for
17 your time to listen to the citizens of Leon
18 County today. I know firsthand tasks what you
19 all are faced with, and I know that you all are
20 going to make the right decision.

21 I had the privilege to serve during the
22 time where we had great strides in the
23 representation of racial and language
24 minorities in the State Legislature and
25 Congressional Districts.

1 My hope is that the work that we started
2 with will continue. The way I read the
3 amendment, the new standards of intent gives
4 priority over -- give priority over to the
5 preservation -- does not give priority over to
6 the preservation of minority access districts.

7 Though the organization claims that this
8 does not exist, but from the way I interpret
9 the law, it does not give claims to those
10 access seats.

11 Let me give you a good example. Prior to
12 1982, there was no African-Americans or
13 Hispanics in Congress, none in the Senate, and
14 only five in the Legislature, but because we
15 took minority access districts into
16 consideration, after 1982, we had two
17 African-Americans that was elected to the
18 Senate and we had three African-American that
19 was elected to Congress.

20 So that become very critical, and I want
21 to make sure that as we address these issues,
22 that we preserve and do not have retrogression.

23 Although paragraph three says that the
24 standard is not listed in order of priority, it
25 is clear that several minority access seats are

1 at risk, and I have said that these minority
2 access seats have been at risk for the last
3 three years, and especially the last year when
4 I served on reapportionment.

5 It is very important that you recognize
6 that and you identify that. My point today as
7 a citizen, I will just state is to use this
8 public hearing to tell you one simple message,
9 preserve minority districts in Leon County and
10 throughout the state of Florida.

11 When I got elected in 1982, they hadn't
12 been an African-American elected since
13 Reconstruction, but because the Legislature in
14 its wisdom during reapportionment saw to make a
15 minority access seat, this was the first time
16 that an African-American had been elected since
17 Reconstruction.

18 We have come too far to see some
19 considered vague standards that does not come
20 to the right interpretation. We have worked
21 too hard and too long to allow this to really
22 happen.

23 As a citizen of this state I am begging
24 you not to stop the progress that has been made
25 for racial equality in this state. To not stop

1 the good work that we have accomplished
2 together, Republicans and Democrats over the
3 last 30 years.

4 Please apply what these new standards may
5 say, I want it very clear, that the citizens of
6 this state, especially the minority citizens,
7 African-American and Hispanic, would like to
8 have preserved minority access seats.

9 I think it is very important for this
10 state because we are a very diverse state, and
11 we should have the representation of our
12 citizens.

13 Thank you very much and it is an honor for
14 me to appear before you today.

15 CHAIRMAN WEATHERFORD: Thank you very
16 much, Mr. Lawson. We appreciate your services
17 to the state and for you sharing the historical
18 perspective with us. Thank you very much. It
19 is good to see you, sir.

20 Next up we have Ms. Deirdre Macnab.
21 Deirdre, I apologize, I didn't tell you ahead
22 of time, but you are recognized to be our next
23 speaker, and following Ms. Macnab, I apologize
24 if I don't say this right, but Juvais
25 Harrington from the NAACP.

1 First up we have Ms. Deirdre Macnab with
2 the League of Women Voters. Thank you very
3 much for being here today.

4 MS. MACNAB: Thank you very much. Chair
5 Gaetz and Chair Weatherford, thank you for
6 having us here today, and esteemed members of
7 this Committee.

8 I am Deirdre Macnab, and I am the State
9 President of the League of Women Voters of
10 Florida.

11 There is an old Chinese saying, "The
12 journey of 1,000 miles begins with one step."
13 The League of Women Voters has a lot of
14 experience in the area of 1,000-mile journeys,
15 and one of them began almost 200 years ago when
16 we fought for the right for women to vote, and
17 Susan B. Anthony was one of my favorite heros,
18 criss-crossed America, not by automobile, but
19 by foot, by stage coach and she had to sit on
20 the stage usually with a Sheriff with his guns
21 drawn so that she could speak. Luckily we are
22 not in that situation today, nor do we have to
23 travel in this same mode.

24 However, I am here to talk today about a
25 different 1,000-mile journey. This one started

1 a long time ago, also for the League of Women
2 Voters of Florida, almost 70 years ago when we
3 began, and that was back in 1939, when we did
4 our first study of government, which had two
5 findings.

6 One, an outdated Constitution, and two, a
7 malapportioned Legislature. Since those days
8 we have worked on the subject of redistricting
9 and the need for fair standards and we have
10 continued that fight to today.

11 With a vote in November, we have come very
12 close to the end of that journey. The League
13 of Women Voters has fought for this effort when
14 the Democrats were in charge in Tallahassee,
15 and we have fought for that effort with the
16 Republicans today in charge of Tallahassee.
17 This is a non partisan issue. It is also not
18 an anti incumbent issue.

19 The League of Women Voters opposed term
20 limits when it was proposed as an amendment.
21 We believe simply in fairness and fair rules.
22 After four Petition drives over these last many
23 years and with our members across the state of
24 Florida asking other Floridians to sign their
25 Petition, some might say, accosting, I have two

1 friends who are in their 80s who would stop
2 people in their nursing home elevator to sign
3 the petitions.

4 We were, along with our partner groups,
5 able to succeed in collecting 1,600,000
6 petitions and in persuading 63 percent of
7 Florida's voters in a conservative election
8 year to support and ask the Legislature to
9 follow these simple and straightforward rules.

10 Today, on behalf of our thousands of
11 members across the state of Florida who have
12 collected signatures, who have spoken to
13 groups, who have written to newspapers and
14 explained the importance of these changes to
15 their neighbors, we ask you to do the
16 following.

17 Number one, stop using taxpayer dollars to
18 fight the amendments. Imagine your family's
19 horror if you came home and told them that you
20 were paying attorneys to both fight and defend
21 the same case. That is what you are doing for
22 your constituents.

23 We the voters are paying to both prosecute
24 and to defend that which 63 percent of
25 Floridians have instructed you to follow.

1 Please drop these lawsuits and follow the will
2 of the voters.

3 Number two, move the timeline up. We
4 agree completely with your attorney who
5 encouraged you to start drawing the maps
6 immediately, and that to do otherwise is likely
7 to result in chaos and confusion in the 2012
8 election.

9 The current timeline makes it very likely
10 that there will be little or no time for
11 candidates to know what districts they are in
12 before the filing deadline to be able to
13 organize and prepare their campaigns, and
14 importantly, to communicate and inform voters
15 before they make their choices.

16 Florida deserves elections where the
17 people have time to understand their choices.
18 This timeline benefits only incumbents and is
19 likely to diminish competitive election and
20 certainly the time that our voters need to
21 inform themselves about their choices.

22 The current plan is to vote on final maps
23 at the end of session next year. Why not draw
24 them earlier, debate and discuss them in
25 committee meetings in the fall, and vote on

1 them in the first week of session in early
2 January of 2012.

3 This would add two months for court and
4 Justice Department reviews, and will create a
5 real chance for voters and prospective
6 candidates to know the districts before
7 qualifying.

8 CHAIRMAN WEATHERFORD: Ms. Macnab.

9 MS. MACNAB: Yes.

10 CHAIRMAN WEATHERFORD: We are over five
11 minutes. I certainly want to allow you to
12 finish, but if you could, just try to wrap it
13 up as much as you can for us so we can get to
14 all of the other speakers.

15 MS. MACNAB: Thank you. It would be my
16 pressure.

17 CHAIRMAN WEATHERFORD: Yes, ma'am, thank
18 you.

19 MS. MACNAB: Finally, we ask you to lift
20 the gag order placed on the Legislators during
21 these redistricting hearings. The people of
22 Florida deserve a chance to hear what is on
23 your mind. Let's make these hearings
24 substantive and productive.

25 We urge you to get your staff to work now

1 drawing the district maps so that we can have a
2 substantive conversation and discussion as you
3 follow the rules that the people of Florida
4 voted on in November by 63 percent. Let's get
5 to work. Thank you very much.

6 CHAIRMAN WEATHERFORD: Thank you very
7 much, Ms. Macnab, thank you for being here and
8 for participating. We appreciate it. Next up
9 we have Juvais Harrington and after
10 Mr. Harrington we have a Bishop Holifield will
11 be next.

12 Mr. Harrington is with the NAACP. Thank
13 you very much for being here, sir, you are
14 recognized.

15 MR. HARRINGTON: Thank you, and that is
16 Juvais, but when in doubt phonetics always
17 works, oftentimes people put letters in there
18 that aren't there, so thank you very much.

19 The comments from the NAACP here in Leon
20 County, the Tallahassee branch and as we will
21 be speaking throughout the state, first of all,
22 I want to echo what AARP said that this forum
23 remains and this process remains transparent,
24 that everyone knows what is going on, when it
25 is going on, and when it happens.

1 Also, that the -- we keep in mind that
2 63 percent of the voters voted on this. So
3 that the intent of the voters come forth and we
4 have and we process and we do what the voters
5 said.

6 It is almost like, you know, when you are
7 growing up someone takes, they don't get picked
8 to play on a team, it is like, I am going to
9 take my ball and go home.

10 Well, the Legislature, you cannot take
11 your ball and go home. The people have spoken
12 and they say this is what we want. Also, we
13 want to look at the anti gerrymandering
14 portions that we want to make sure that
15 everyone is included, that everyone is fairly
16 represented and that everyone has a right.

17 NAACP is non partisan, so we speak not on
18 behalf of Democrats nor Republicans, we are
19 policy centric, so we speak to the issues, not
20 to the parties.

21 We want to make sure that fairness -- that
22 we know that and we realize that fairness
23 should be, it is not party centric, but it
24 should be to both parties, Republican,
25 Democrat, Independent, what-have-you, and that

1 we move forward in the spirit of fairness which
2 means that some of you may lose your seats, but
3 if you are being fair, if you are serving the
4 public, does it matter if you lose your seats
5 or not?

6 Nearly 30 years ago one of the statesman
7 from Florida told me that the first job of an
8 elected official is to get reelected. That is
9 your very first job.

10 Well, let flip that script. Let the first
11 job be to serve your constituents, let that be
12 the first job, to serve the people of Florida,
13 to make sure that they get what they voted for.

14 And finally I would like to say that,
15 again, stop using the taxpayers money to fight.
16 It doesn't make sense. It doesn't make sense.
17 For those of you who say that you have, you
18 weren't chosen and you want to take your ball
19 and go home with it, well, don't go home, just
20 come back, you get to play next time, but this
21 time the people have spoken.

22 CHAIRMAN WEATHERFORD: Thank you,
23 Mr. Harrington. We appreciate those comments,
24 sir.

25 Bishop Holifield is next, followed up by

1 Mimi Jones. Mr. Holifield is with Leon County
2 Democratic Black Caucus. Thank you very much
3 for being here, sir.

4 MR. HOLIFIELD: Thank you for the
5 opportunity. My name is Bishop Holifield. I
6 am appearing before you as the President of the
7 Leon County Democratic Black Caucus.

8 I would like for my fellow members to
9 stand, please, and be recognized. The Florida
10 Legislature -- thank you.

11 The Florida Legislature has the duty of
12 creating legislative and congressional
13 districts that, A, at the very least, preserve
14 current levels of black membership in the
15 Florida Legislature and the United States House
16 of Representatives.

17 B, the Legislature also has the duty to
18 end and correct the current situation in the
19 State of Florida that sees the votes of those
20 living in densely populated urban areas diluted
21 in a fashion that confirms, that confers an
22 unfair and disproportionate number of districts
23 on more sparsely populated suburban and rural
24 areas.

25 The Legislature should utilize available

1 scientifically measurable numbers to achieve
2 these laudable goals. The articulated outcomes
3 should be made required deliverables on the
4 part of anyone the Legislature contracts with
5 to draw its redistricting maps.

6 Finally, the Florida Legislature should
7 conduct meaningful public hearings after its
8 redistricting maps are drawn. That would allow
9 for a substantive rather than an illusory
10 public comment. Thank you.

11 CHAIRMAN WEATHERFORD: Thank you very
12 much, Mr. Holifield. We appreciate that, sir.
13 Next up we have Ms. Mimi Jones, followed up by,
14 it is Rachel Sutz Pienta, I believe that is
15 right, but Ms. Rachel Sutz, but first we have
16 Ms. Jones. Thank you, Ms. Jones, for being
17 here, you are recognized.

18 MS. JONES: Hello, thank you. Thank you
19 to the Committee Chairs and to the Committee.
20 I speak to you as a private citizen who has
21 been involved in the political process for, I
22 think it started in middle school, okay.

23 I have done everything from serve, even
24 though I speak for myself, as President of the
25 League of Women Voters in Florida, all of the

1 way down to carrying trash and being a
2 petitioner. I have done it and I have enjoyed
3 it, and I still have faith in the process.

4 I would like to give you just a little bit
5 of my history. In 1982, I was working at the
6 State level. I was involved in the Petition --
7 excuse me, in the reapportionment process.
8 That was the first year that Florida had come
9 into the computer age with redistricting.

10 We then as now suggested fair and
11 equitable standards that we take from our
12 studies of government. We joined other groups
13 around the state, including Peter Butzin, we
14 worked together long and hard, and we came to
15 no avail.

16 And I have to tell you that I was pretty
17 upset with the Democrats, and I don't want to
18 be upset with the Republicans.

19 It is all a matter of who is in charge,
20 but I will tell you what, I think the people
21 are in charge. Sixty-three percent of those
22 who voted, that is a good solid majority, and
23 they have told you they want it fair and they
24 want it square, and I hope that we can thank
25 you for it when we are through with the

1 process. Thank you.

2 CHAIRMAN WEATHERFORD: Thank you very
3 much, Ms. Jones. Next up we have Ms. Rachel, I
4 apologize if I am not saying this correctly,
5 Pienta, Ms. Rachel Sutz Pienta with the Wakulla
6 Democratic Executive Committee.

7 Ms. Pienta, thank you very much for being
8 here. She will be followed by Joe Conte. You
9 are recognized, thank you.

10 MS. PIENTA: Thank you, Representative
11 Weatherford. I am really here as a citizen of
12 Wakulla County today, full disclosure, yes, I
13 am a Democrat.

14 One of my -- one of my State Legislators I
15 see here today, Senator Montford, but I don't
16 see Representative Bermbry and Representative
17 Coley, and that is a shame.

18 As a citizen of Wakulla sometimes I feel a
19 little bit like a red-headed stepchild, because
20 Representative Coley and Representative
21 Bermbry's districts meet in Wakulla. And on
22 the eastern side we are a part of a district
23 that goes all the way along the coast in
24 Wakulla, down to Cedar Key, and then up to the
25 Georgia border and it sort of curves and winds,

1 sort of does this half circle thing around
2 Alachua County.

3 And so that is the east side, and then on
4 the west side my Representative goes all of the
5 way in the southern part of Leon County, like I
6 really wonder if the people in Woodville and
7 Southwood know that Representative Coley is
8 actually their Representative and not Senator
9 Rehwinkel, I am sorry, Representative
10 Rehwinkel-Vasilinda, and then that district on
11 the west side goes all the way over into the
12 panhandle over towards Destin.

13 So my Representatives are really nice
14 people and they do their best, but it is a lot
15 of ground to cover, and we don't see them very
16 often in Wakulla. And I am a fairly engaged
17 citizen, so both Representatives, Republican
18 and Democrat to their credit, both take my
19 calls.

20 So I get to talk to them, but I know that
21 the constituents, the average person in Wakulla
22 does not see them very often, and Senator
23 Montford, bless his heart, does his best, but
24 he also has a pretty large district that covers
25 a lot of ground.

1 So down in Wakulla we sit there on the
2 coast, a bedroom community for Leon County,
3 that doesn't really have full representation,
4 and I have to give some kudos actually to my
5 Leon County Representative delegation, because
6 Alan Williams and Michelle Vasilinda actually
7 speak for Wakulla quite often, because they
8 know that so many citizens in Wakulla drive
9 north on Woodville Highway and Crawfordville
10 Highway every day to work in Leon County.

11 So they are working here and they are kind
12 of subject to things that happen here in the
13 state government. It is sort of like not being
14 fully represented though.

15 So again, as one of the red-headed
16 step-children living down in Wakulla county I
17 would like to see some changes. I would like
18 to see my Representatives once in a while, and
19 again, it is not their fault. Those are
20 ridiculous districts, they cover way too much
21 ground.

22 So I would like to see something changed
23 with redistricting so that I can be fully
24 represented down in Wakulla county. Thank you
25 very much for your time today.

1 CHAIRMAN WEATHERFORD: Thank you very
2 much, Ms. Pienta, we appreciate those comments.
3 Next up we have Jo Conte, and followed by --
4 following Jo will be Joseph Schweitzer.

5 MS. CONTE: Just a couple of comments, I
6 am Jo Conte, I am from Tallahassee. I ask you
7 to follow the will of the people on this, show
8 us some maps and then we can talk seriously. I
9 waive the remainder of my time.

10 CHAIRMAN WEATHERFORD: Thank you very
11 much. Next up we have Mr. Joseph Schweitzer.
12 Mr. Schweitzer, thank you very much for being
13 here.

14 Following Mr. Schweitzer will be Walt
15 Dartland, and Joseph Schweitzer, it looks like
16 a student at Florida State University.

17 MR. SCHWEITZER: Yes, sir.

18 CHAIRMAN WEATHERFORD: Thank you very much
19 for being here, sir.

20 MR. SCHWEITZER: Thank you. I am just
21 here to really wave against a lot of the ways
22 this process has taken place. I speak on
23 behalf of many of the students of Florida State
24 University, and as the founder of The Student
25 Caucus of Florida to say that from, again, the

1 Legislature's opposition, through suits against
2 the Fair Districts Amendments, the lack of
3 really any visible map for a long time to come
4 to see what we are basing our future lines and
5 future districts off of.

6 A complicated process is already overly
7 complicated for constituents of everybody in
8 the room. In my age group redistricting is
9 going to have a similar effect as the Voter
10 Registration Bill did in this past legislative
11 session, and again and again we find that it
12 becomes more difficult to mobilize a
13 constituency, a constituency that takes much
14 longer to mobilize than many others do.

15 We have a shorter time frame and we don't
16 know what we are working with. So as
17 complicated as the districts are and as
18 vehemently as I might disagree with the way
19 that they might be drawn as well as, I am sure,
20 the majority of the people in this room, the
21 timeline that is being presented in this effort
22 is going to cause a lot of struggle for many
23 who wish to organize on both sides of the
24 aisle. So thank you.

25 CHAIRMAN WEATHERFORD: Thank you very

1 much, Mr. Schweitzer. We appreciate your
2 comments, sir. Next up we have a Walt
3 Dartland.

4 Walt, thank you very much for being here,
5 sir, following Mr. Dartland we are going to
6 have Paul Harvill. You are recognized, sir.

7 MR. DARTLAND: Thank you so much, sir,
8 Walt Dartland. Just as a matter of disclosure,
9 I served on the Board of Common Cause, National
10 Board for about eight years, with such really
11 great people that I would hope you all had a
12 chance to meet like Archibald Cox, and with
13 John Gardner, a Republican who actually founded
14 Common Cause.

15 It was a great experience. I learned a
16 lot. I also served as Deputy Attorney General
17 for Bob Butterworth. So I am somewhat familiar
18 with the process that we all go through and
19 appreciate the opportunity to participate.

20 However, I want to first say this. I want
21 to -- I don't want it cover the same stuff that
22 everybody else covered, and I just want to --
23 in the Public Service Commission hearings we
24 use the, I adopt, I adopt the other testimony,
25 and I certainly adopt the testimony of the

1 League of Women Cities -- League of Women
2 Voters, I am sorry, and of Common Cause and
3 Peter Butzin, I think they are right on, and
4 there are a number of other people I think are
5 right on.

6 So I will just focus on a few things to
7 sort of bring, that I want to cover that wasn't
8 covered so far.

9 One is that common, I chaired Florida
10 Common Cause for about eight years. At that
11 time we initiated our own petition, if you
12 remember, and we moved right along until, and
13 we had an independent commission, sort of
14 modeled after California, and at that point
15 what happened is the Supreme Court ruled that
16 there is no such thing as an independent
17 commission, and therefore, it was an
18 unconstitutional -- they were not going to
19 allow us to vote on that deal.

20 Now, that may have been correct.
21 California still has it, and I will say this,
22 that I follow the California situation closely
23 because Arnold Schwarzenegger offered to come
24 here and testify on behalf of our initial
25 Common Cause Petition. They did pass it.

1 You have an independent commission and I
2 read the L. A. Times, I have two children and
3 grandchildren in California, so I follow what
4 is going on, and what they have found is that
5 what they have done is that the Independent
6 Commission meeting, they are going to -- the L.
7 A. Times has opined that even if they do the
8 very best job of doing it, there is not going
9 to be that much change in this stuff, itself,
10 even though there are a lot of Democrats
11 control Legislature there.

12 Now, I got to tell you, whoever has this
13 lady as a Civics teacher, I think that is the
14 greatest thing ever. We need more civic
15 education and I want to put my -- my word in
16 here that civic education is really critical.

17 I want to also comment on the second
18 effort that we are doing now, and try to set it
19 a little differently. You know, Bobby Kennedy
20 one time said that our population is the most
21 entertained and less informed, least informed
22 population in the world, and that is probably
23 true.

24 And one of the reasons I want to emphasize
25 here on this thing is that having taught at the

1 Law School in Miami and having taught at a
2 number of others, Florida International
3 University, the teaching process of the public
4 is going to be difficult for you.

5 Here we have informed people, people
6 really engaged. How about the general public?
7 That is why I would have preferred that you had
8 a map put up, and a Tea Party person said, hey,
9 this is simple, anybody can do it, get on the
10 web.

11 Like -- why couldn't the Legislature have
12 come up with a map that we could then look at
13 and see how it affects Wakulla County and
14 Lafayette County and then have them testify and
15 see what is going on.

16 The scary thing is that we may not get a
17 second chance if this thing prolongs itself and
18 we may not get a chance to comment on what is
19 eventually done.

20 The procedures as you all know who have
21 been in government, and I think Senator
22 Montford has, most of you had, know that what
23 we did in the Attorney General's Office or the
24 Department of Motor Vehicles or if you are
25 preparing an ordinance, you first prepare the

1 ordinance and you put it out for public
2 comment, I mean, that is the way it works.

3 You have the comments, they come in, you
4 take a look at the comments, you decide what is
5 reasonable, not reasonable, you adjust it and
6 then you vote on what you think is now the
7 appropriate, you know, legislation that should
8 go forward.

9 That is not going to happen here without a
10 second round of hearings. It is not going to
11 happen with a map that can be distributed to
12 all of the dealers and wheelers and dealers and
13 shakers in all of these communities are going
14 to look at that district and have a chance to
15 do an input on it.

16 You know, when I -- when I look at what we
17 are trying to accomplish here, I don't doubt
18 and I have made this clear, we are going to end
19 up in the courts. We always have. We always
20 will, and the sooner we get the process
21 resolved and the Legislature has a map and the
22 public is informed, I think at that time the
23 courts are going to deal with it and it will be
24 an extensive process this time, because it
25 involves Federal law, and you are talking about

1 the Department of Justice and it involves our
2 Constitutional Amendment, which is, by the way,
3 just so you will know, this isn't just a couple
4 of people sat down to come up with these
5 standards.

6 This was a very deliberate process in
7 which we have two former Chief Justices
8 participate, we had learned counsel, we had
9 academics come in and we worried and worked on
10 these standards for months and months and
11 months to try to come up with something that
12 would help guide this Legislature.

13 So we hope you will follow through on
14 this, you will do your best. Just remember
15 this, it won't be long, you will all be gone.
16 All of your friends will be gone and what you
17 accomplish here will probably last. So it is
18 your heritage to make this happen. Thank you
19 so much.

20 CHAIRMAN WEATHERFORD: Thank you very
21 much, Mr. Dartland, we appreciate that, sir.
22 Next up we have Mr. Paul Harvill and following
23 Mr. Harvill we have Joseph Sierra.
24 Mr. Harvill, you are recognized, sir.

25 MR. HARVILL: Thank you, Senator Margolis,

1 a long time ago. I was born and bred here in
2 Florida, Tampa and Tallahassee. I was involved
3 intimately with the '81 and '82 redistricting
4 battles, with H. Lee Moffit and Dempsey Barron
5 as the respective Chairs.

6 In fact, Dempsey about punched me out, he
7 got so mad with me over the reapportionment
8 battles.

9 Now, for the real brief important
10 comments. Today and for essentially all of our
11 states and our nation's history we have had a
12 cancer on the body politic.

13 Amendments V and VI are radiation and
14 chemotherapy. The cancer will hopefully go
15 into remission, yet cancer is always lurking in
16 the body politic.

17 Another cancer is legalized extortion,
18 legalized bribery in this legislative process.
19 Remember that you are sworn to both uphold and
20 obey the Florida and United States
21 Constitutions.

22 As the old ad campaign said, come to
23 Florida, the rules are different here. The
24 rules here now are Amendments V, VI and all of
25 the other constitutional law, statutory law and

1 case law.

2 One suggestion from '81/'82, was Lee
3 Moffit came up with a very interesting idea,
4 and that would be to nest three House Districts
5 within one Senate District.

6 I think that was brilliant and I hope this
7 Legislature will adopt that concept, too. Last
8 thing, any questions? Any comments?

9 CHAIRMAN WEATHERFORD: Thank you very
10 much, Mr. Harvill, we appreciate those
11 comments, sir. Next up we have Mr. Joseph
12 Sierra, followed by Linda Edson and after
13 Ms. Edson goes we will probably have a five
14 minute recess for members to use the restroom
15 and stretch for a moment, but it will only be
16 for five minutes and we will get going again.

17 But before that, Mr. Joseph Sierra, you
18 are recognized, sir, unless you are not here.
19 You are not recognized. Okay, he is not here
20 so we are going to move forward to Ms. Linda
21 Edson.

22 Ms. Edson has asked not to speak at this
23 time, okay, so what we will do is we will take
24 a five minute recess, members, and we will be
25 back here in five minutes. Please do not go

1 far. Thank you very much.

2 (Brief recess taken.)

3 CHAIRMAN WEATHERFORD: If we could get
4 everyone to grab their seats, we are going to
5 get started again. Please grab your seats.

6 (Brief pause.)

7 CHAIRMAN WEATHERFORD: If we could get
8 everyone to grab their seats, please, we are
9 going to start, please grab your seats.

10 (Brief pause.)

11 CHAIRMAN WEATHERFORD: Members, please
12 grab your seats. We want to get started.
13 Representative Rehwinkel Vasilinda, if you
14 could please grab your seat. Representative
15 Williams, if you could please grab your seat,
16 Senator Smith, if we could get you to grab your
17 seat, sir.

18 If you could please grab your seats, thank
19 you, please. Representative Baxley, if you
20 could grab your seat, please, sir.

21 Okay, ladies and gentlemen, thank you for
22 allowing us to take that break real quickly.
23 There was a Joseph Sierra who we missed earlier
24 and if Mr. Sierra is here I would like to give
25 you an opportunity to speak.

1 You were not here when we called your name
2 before. If you are here, please raise your
3 hand, we will have you come first, Mr. Sierra,
4 I do not believe you are here.

5 Okay, moving on, we are going to go to
6 Mr. Doug Croley, Mr. Croley is with the Gadsden
7 County, he is a Gadsden County Commissioner.

8 Mr. Croley, thank you very much for being
9 here, sir. You are recognized for your
10 comments.

11 MR. CROLEY: Thank you. I do appreciate
12 the opportunity to appear here and many of you
13 I do know and I thank you for your service.

14 And let me start by -- I have some
15 handouts here for the Chair, and if I may,
16 Mr. Chair, present this to you, I would
17 appreciate it.

18 CHAIRMAN WEATHERFORD: Thank you, sir.

19 MR. CROLEY: Mr. Chair, as a County
20 Commissioner for a large segment of northeast
21 Gadsden County, I appear before this Honorable
22 Committee to request your most sincere and
23 serious consideration of the Havana area within
24 the Florida House of Representatives District
25 serving northern Leon County, that this be

1 included.

2 This request for realignment is based upon
3 the serious need to better join together in a
4 traditional manner communities of common
5 interest and to do so in compliance with State
6 and Federal law.

7 To this were the end, please allow me to
8 reference the following key points in support
9 of this redistricting request.

10 One, because of its geographical location,
11 northeast Gadsden County is closely aligned
12 with northern Leon County, as evidenced by a
13 shared county line on the eastern side and with
14 all east, west connector roads tying together
15 both counties.

16 Two, most of the business interest,
17 employment, higher education, retail consumer
18 shopping, social, medical, transportation,
19 recreational and cultural needs and
20 requirements of northeast Gadsden County are
21 closely tied to northern Leon County.

22 And third, northeast Gadsden County has
23 transitioned into a suburb of northern Leon
24 County with most families having a close
25 day-to-day presence within the Tallahassee area

1 north of west Tennessee Street, and north of
2 east Mahan Drive.

3 The attached Florida Department of
4 Transportation county map has been highlighted
5 in yellow to indicate northeast Gadsden County
6 in a manner that lends both simplicity and
7 reasonableness to this specific redistricting
8 request, and a description of the boundaries
9 are set forth in the attachment two.

10 Now, having discussed this matter with
11 numerous citizens, I am confident that this
12 proposal will be well received if implemented.
13 I have also touched upon this subject with each
14 of our present State Representatives, both
15 Representative Williams and Representative
16 Vasilinda, who are now serving Gadsden County
17 as well as Representative Coley, on the west
18 side, and I believe that each of them fully
19 appreciate the rationale that underlies this
20 proposal.

21 Now, I want to thank this committee for
22 its time and its attentiveness, and should any
23 member now have any questions I would be happy
24 to respond, otherwise I will be available to
25 your staff to provide any information needed.

1 And I thank you very much for the
2 opportunity, Mr. Chairs, Chairs, to present
3 this information to you. And I would like, if
4 I may, provide a copy to Representative
5 Vasilinda. I missed her earlier.

6 CHAIRMAN WEATHERFORD: Yes, please do so,
7 and thank you for being here today and for your
8 comments and for your public service to Gadsden
9 County and our state.

10 MR. CROLEY: Yes, thank you.

11 CHAIRMAN WEATHERFORD: Thank you. We also
12 have next up Ms. Betsy Barfield with the
13 Jefferson County Commission. Commissioner
14 Barfield, thank you very much for being here
15 and followed after Ms. Barfield will be Susan
16 Watson.

17 COMMISSIONER BARFIELD: I did not bring
18 enough copies for everybody.

19 CHAIRMAN WEATHERFORD: We will get copies
20 made, Ms. Barfield, thank you very much. You
21 are recognized to speak.

22 COMMISSIONER BARFIELD: Thank you very
23 much. I am honored to come before you today
24 and speak out for common sense and the
25 constitutional principle of one person and one

1 vote. I am Betsy Barfield, Commissioner for
2 District IV in Jefferson County.

3 Jefferson County is your neighbor to
4 Tallahassee, Leon County to the east. I come
5 before you to speak about two topics on
6 redistricting.

7 First, the unbalanced aspect of including
8 prisoners in the drawing of the district lines.
9 And second, the gerrymandering of Congressional
10 Districts II and IV.

11 I have given you some statistics for the
12 Jefferson County voting districts, and I am
13 sorry I don't have more for everybody else.

14 I am asking that you do not include in the
15 prison populations the drawing of the
16 districts. The reason for redistricting is to
17 make sure that everyone is properly
18 represented, and normally the voter numbers
19 somewhat track with the district population,
20 except when the prison population is included
21 in the counts.

22 Here are some facts. Prisoners are
23 convicted felons and they cannot vote. They
24 should not have district representation.

25 Prisoners are temporarily housed in Jefferson

1 County and are not residents of the surrounding
2 community and they should not be placed on an
3 equal footing of law abiding citizens.

4 Including the prison population in the
5 drawing of the districts drastically affects
6 small counties like Jefferson which I am going
7 to use as my example today.

8 Our population base is 14,000 people plus.
9 Jefferson County is split in to five single
10 member districts.

11 Each commission district should represent
12 approximately 2,100 voters, a very manageable
13 size. If all is even on the dais in Jefferson
14 County, then each Commissioner should represent
15 20 percent of the population and the voters,
16 not so in District III, because the prison
17 population is included in the drawing of that
18 district.

19 That Commissioner represents only
20 14 percent of the voters. Therefore, he is a
21 super voter on the Commission. There are two
22 Commissioners that represent 51 percent of the
23 voting population in Jefferson County.

24 So when super Commissioner votes, his vote
25 is weighted and the voters in that district

1 have more political clout than the other voters
2 in the county.

3 People, this is wrong. The practice of
4 including prisons in local districting plans
5 lead to serious distortion of political power
6 in county and state governments. How fair is
7 this to the people to whom we all represent and
8 answer to?

9 I ask you, please, do not include the
10 prison populations while drawing the lines for
11 the district in the state of Florida.

12 Next, I am not quite finished. Next,
13 Congressional District II and IV. It is
14 182 miles from Tallahassee to Jacksonville
15 Beach.

16 In this corridor there is a swath cut out
17 of the middle of north Florida that is
18 gerrymandered for Congressional District IV.
19 If you take a look at the district map for this
20 example you might wonder what do rural
21 communities in this swath have in common with
22 Jacksonville? None. I ask that you take a
23 hard look at correcting the representation of
24 these congressional districts.

25 I respectfully submit these comments to

1 you. Thank you. I am Betsy Barfield,
2 Commissioner, District IV.

3 CHAIRMAN WEATHERFORD: Commissioner, thank
4 you very much for your comments and for your
5 public service. We appreciate you being here.
6 Next up we have Ms. Susan Watson followed by
7 Bradley Maxwell.

8 Ms. Watson, you are recognized. Thank you
9 very much for being here.

10 MS. WATSON: Thank you very much.
11 Chairman Gaetz, Chair Weatherford and Committee
12 members, my name is Susan Watson. I am the
13 Regional Director of the American Civil
14 Liberties Union.

15 This process and these hearings are very
16 troubling. The Legislature has invited the
17 public to comment, but you don't give us
18 anything to comment on. Where are the maps?
19 This isn't a conversation.

20 You are not saying anything and you are
21 not giving us anything to talk about. I would
22 love to meet and talk to some of the people
23 running to represent me, but you have to draw
24 the districts to let me know who they are.

25 Make a map now. Present it to the public

1 now and start a meaningful conversation.
2 Otherwise, you are just wasting everybody's
3 time. We don't want fake hearings and
4 meaningless talk. We want fair, non partisan
5 districts.

6 The people of Florida overwhelmingly voted
7 to add Amendments V and VI to our Constitution.
8 Don't make a mockery of our vote and don't make
9 a mockery of democracy. Thank you.

10 CHAIRMAN WEATHERFORD: Thank you,
11 Ms. Watson. Next up we have Mr. Bradley
12 Maxwell. Followed by Mr. Maxwell we will have
13 Nathalie Shortal or Shortal. Mr. Maxwell, you
14 are recognized, sir.

15 MR. MAXWELL: Thank you, Representative
16 Weatherford. My name is Bradley Maxwell. I am
17 a local business owner here in Tallahassee and
18 I want to thank all of you all for taking your
19 time to be here and to hear from the citizens,
20 and the main thing I wanted to say is I
21 appreciate the process.

22 I appreciate the opportunity for us to --
23 to have some input on these districts. I have
24 been to the website and I feel bad for you
25 guys, because in a lot of ways you are in a no

1 win situation.

2 If you would -- if you would come in with
3 maps drawn then we would be hearing from all of
4 the naysayers that, you know, you met in a back
5 room, smoke filled room and drew the maps
6 yourself and now you are just wanting us to
7 rubber stamp them.

8 So I appreciate the process, I appreciate
9 the website and the opportunity for us to have
10 input and thank you all for being here.

11 CHAIRMAN WEATHERFORD: Thank you very
12 much, Mr. Maxwell. We appreciate that, sir.
13 Next up we have Ms. Nathalie Shortal, I hope I
14 am saying that right, Ms. Nathalie. She is not
15 speaking? Okay, well, thank you.

16 Thank you very much for being here. We
17 have Matthew Isbell. Did I say that right,
18 Isbell? Okay, thank you very much for being
19 here, Mr. Isbell, and after that we have got
20 Mr. Bob Fulford. Matthew is a student at FSU.

21 Thank you for being here, sir, you are
22 recognized.

23 MR. FULFORD: I have got to give you
24 credit, you are one of the few people that ever
25 get my last name right.

1 I do want to thank you for holding these
2 hearings. But the first thing I do want to
3 comment is I do feel like we should have a map
4 by now.

5 I understand that the Constitution does
6 say that a map cannot be voted on before 2012,
7 but I do feel like there is no real reason that
8 we can't see a proposed map, an idea.

9 Bigger states like California and Texas
10 already have maps coming out and I do suggest
11 this one thing.

12 I understand that the Constitution says
13 that we can't vote, you guys can't vote on a
14 map, then I highly recommend that we put you
15 guys who can do this as the Legislature, put it
16 on the ballot to become for the next ten years
17 from now redistricting, a map can be voted on a
18 year beforehand, because there is really no
19 reason to wait until the year of the elections
20 to have the vote.

21 The census came out a while ago. We have
22 the data, and maps can be done now. I don't
23 understand that delay, but beside the point,
24 basically I just want to advocate -- excuse me,
25 I just want to advocate that fair districts be

1 upheld as we passed it.

2 As many people have said, 63 percent of
3 us, of us voters supported fair districts which
4 say that parties, politicians, where they live
5 should have no effect on how the boundaries are
6 drawn.

7 Observe county and city boundaries and
8 just draw the lines as equal to population as
9 possible. Forty-eight out of the 67 counties
10 voted for fair districts.

11 Several of these counties, like Hendry,
12 Desoto, Sumter Counties, which always vote
13 Republican, voted for it, it is not a
14 Democratic, Republican issue. It is a non
15 partisan issue.

16 Over 28 counties voted over 60 percent for
17 it. I am from Broward, Palm Beach, we voted
18 over 70 percent because our area is already,
19 our districts look like spiderwebs and so we
20 especially were looking to see some more fair
21 districts that are drawn compactly and
22 succinctly.

23 I live in a small town of Cooper City
24 which is actually divided into two
25 Congressional Districts for no reason at all.

1 It has got like 40,000 people in it and my dad
2 moved across the street and we were in a new
3 district suddenly, and especially here for Leon
4 County and Tallahassee area, right now, as we
5 all know, District IV which goes all of the way
6 down to Jacksonville eats in, not just into
7 Leon County, but into Tallahassee, itself, and
8 I mean, beside the fact that rural Leon County
9 has nothing in common with Jacksonville,
10 Tallahassee especially doesn't.

11 I have actually, when I was in a different
12 apartment complex a few years ago was in
13 District IV and then I am back in District II.
14 I mean, if I move to a different apartment
15 complex because I am a student I shouldn't be
16 changing districts like that. This isn't a big
17 enough town to warrant it.

18 The same thing goes for our State Senate
19 districts. Right now I am in Senator
20 Montford's district. I voted for you in the
21 general election, but I used to actually also
22 be in the Third District back when I was in --
23 when I was in the IV as well, when I was living
24 a little further away outside in the county.
25 There is just no reason for that.

1 Leon County should be especially compact.
2 District IV also eats into part of Monticello
3 in Jefferson County and I know people have
4 talked about preserving compact minority
5 districts.

6 Monticello which is a majority black city
7 is divided between the second and fourth
8 district. I can't figure out why. So there is
9 clearly some problems with the lines now, and I
10 am just hoping that as we move forward that we
11 adhere to fair districts which was passed
12 overwhelmingly, it was passed fairly and by all
13 means, please start looking at these maps now.

14 Have a vote at the very beginning of
15 January, because we don't want to be dragged
16 into a long court battle. We don't want to be
17 waiting and seeing for candidates to see what
18 district they are going to be in.

19 It should be done now, the people have
20 spoken, and you know what, even if this creates
21 more competitive elections, it is good for
22 everybody here.

23 If you get put into a safe seat, you can
24 place and you can never run statewide. If any
25 of you guys end up in a more competitive

1 district because of fair districts, hey, you
2 become a better candidate, you can run for
3 statewide office one day, you can become
4 Governor, you know, Senator, whatever.

5 So there is plenty of benefits for you
6 guys and I just hope you will take that into
7 consideration. Thank you.

8 CHAIRMAN WEATHERFORD: Thank you very
9 much, Mr. Isbell, we appreciate that. Mr. Bob
10 Fulford is up next, followed by Christian
11 Camara.

12 Mr. Fulford, you are recognized, thanks
13 from being here.

14 MR. FULFORD: I am Bob Fulford, I live
15 here in Tallahassee, always have. I am a
16 private citizen. I saw in the paper I guess
17 yesterday my friend Alan Williams, had written
18 a letter and Senator Gaetz had written
19 something, you can be my friend, too, I just
20 don't know you, even though you represent me, I
21 don't know you.

22 Anyway, the substance of those two things
23 in the paper was that this meeting was going to
24 be here, everybody ought to come and it was
25 going to be open and transparent. And has been

1 alluded earlier, I had a notion that open and
2 transparent, I was going to ask Senator
3 Thrasher something, because he is an old pal of
4 mine, and he would be able to answer me.

5 But, I opened up my e-mail last night and
6 I belong to a whole bunch of rebel rouser
7 groups like League of Women Voters and Common
8 Cause and it wasn't them, but somebody said
9 that your leadership, that is to say the
10 President and the Speaker, had put a gag order
11 on you, and so what I want to know, is that
12 true.

13 Is there -- are you not going to be able
14 to talk to us? You can't even answer that,
15 okay, I got it, okay, I got it.

16 CHAIRMAN WEATHERFORD: Why don't you
17 finish your statement and we will answer that
18 question for you, how about that.

19 MR. FULFORD: Okay, one other thing. I
20 used to work in this building. I used to come
21 here every day up on the third floor. I was
22 here when they put the top two floors on. That
23 was interesting.

24 Today is the first time I have been here
25 in over ten years, and the reason I was here

1 ten years ago was for this same thing and we
2 did the same thing and we did it the same way.

3 And if you cross a mule and a jackass, a
4 horse and a jackass, you get a mule, and we
5 crossed mules -- I mean, horses and jackasses,
6 I will get it right here in a minute, but if
7 you want to see the mule, see what came out of
8 the last session like this.

9 Look at these ridiculous districts. No
10 matter what the content is, just to look at
11 them, they are not right. If it is not square
12 or a circle or maybe an oblong or an oval, but
13 these things look like the original gerrymander
14 which was some sort of a dragon.

15 I hope, I hope we can do better. I rather
16 doubt we can, but we will see. Thank you.

17 CHAIRMAN WEATHERFORD: Thank you very
18 much, Mr. Fulford and thank you for asking a
19 very direct question. I am going to give you a
20 very direct answer.

21 The answer is that there is no gag order,
22 and this is a listening tour and our thought is
23 that we are going to spend the next three
24 months hearing from the citizens of Florida
25 just like you talking about what districts look

1 like today and how we can make them better.

2 And that is why we are here and that is
3 why we are giving the public an opportunity to
4 participate.

5 There certainly is no gag order, but we
6 are here to listen first and if there is time
7 afterwards, then to speak. I think that
8 everyone could agree that politicians spend
9 lots of time talking and very little time
10 listening and we are going to change that in
11 this process and we are going to listen more
12 than we talk.

13 So thank you very much for your comments,
14 sir, and we are going to move on to
15 Mr. Christian Camara, and after Christian we
16 are going to go to Ms. Sandra Mortham.

17 Christian, you are recognized, sir.

18 MR. CAMARA: Thank you, Mr. Chairman, my
19 name is Christian Camara. I am a resident of
20 Tallahassee, Florida. And first of all, I want
21 to thank and commend all of you for the
22 opportunity that you have given the public to
23 give input on this very important issue.

24 I personally think the timeline that you
25 all adopted as prescribed by the Constitution

1 is the right one because it gives opportunity
2 for the public to give input before and during
3 the redistricting process in an open manner,
4 you know, like these special hearings that we
5 are having now around the state and through the
6 legislative session.

7 From what I understand, the meetings that
8 you all are going to be conducting during the
9 legislative session will also be open for
10 public testimony. So I do want to commend you
11 for the ample opportunity you all are giving to
12 hear us before you go ahead and deliberate and
13 proceed with the process.

14 I do want to stress, however, the
15 importance in my opinion of ethnic
16 representation. I was born and raised in
17 Miami, Florida. I have been a resident of
18 Tallahassee now for six years, and in -- in
19 Miami I can honestly say that we have in our
20 State and Federal delegation, it is a microcosm
21 of our diverse community, and I think that
22 although Tallahassee is not as complex in the
23 diversity that we see down in south Florida, it
24 is, nevertheless, a diverse community and I
25 would like to see that ethnic representation be

1 taken into account.

2 So I will be brief with my comments, so I
3 want to thank you all for listening to us.
4 Thank you.

5 CHAIRMAN WEATHERFORD: Thank you very
6 much, Mr. Camara. We appreciate your comments,
7 sir. Next up we have Ms. Sandra Mortham. She
8 is here to watch the process.

9 All right, thank you very much,
10 Ms. Mortham. After Ms. Mortham we have
11 Mr. Derron Bennett. Mr. Bennett. Sorry I
12 didn't give you more lead time there, sir, but
13 we will give you time to come up, and after
14 Mr. Bennett we are going to have Darnell
15 Lumpkin will be next.

16 Mr. Bennett, thank you very much for being
17 here, sir. You are recognized to address the
18 Committee.

19 MR. BENNETT: Okay. My question is mainly
20 based on the technical aspects of the software
21 being used. I have seen many errors in it
22 already. With the correctional maps they are
23 meant to be -- there is a goal of a zero, a
24 zero deviation over each map, but the actual,
25 the number that you all have as the mean for

1 each district is wrong.

2 It is one off. So when you get down to,
3 if you draw the maps like they are currently
4 drawn from the northwest corner of the state
5 down to the southeast corner, you will get down
6 to your last district, you will have 21 extra
7 individuals.

8 Well, if you correct the mean you will be
9 left with six extra individuals. So there is a
10 problem in the actual numbers in the software.

11 Also questions are, if other states are
12 using the My Districting Software, they
13 provided a, then called an AMI file, which is
14 so that you can put it on the Amazon web server
15 which is actually listed on the server
16 software.

17 The question is, will the State of Florida
18 actually provide that, because by providing
19 that it will actually save the state money,
20 because the servers, the server will not need
21 to be used at the same level as if they provide
22 it so private industries can actually build
23 their districts by themselves. What else?

24 There is also errors in the software where
25 if you attempt to lock a district that splits a

1 block or a voting district, and then you build
2 something else elsewhere, where you cut into a
3 higher level, say you locked, you attempt to
4 lock a block but you build something with a
5 voting district later or destroy the previous
6 block lock and build the voting district over
7 it.

8 And I had also had a question. Will the
9 State provide a deviant, it is called, it is a
10 type of linux, which My District Builder
11 suggests it is called linux which the State
12 should be providing an image file of the, My
13 District Builder with the appropriate data and
14 datasets so that the private industry could
15 just download a file which would probably be
16 about a gigabyte and no longer have to use
17 their server. That is all.

18 CHAIRMAN WEATHERFORD: That is all? Well,
19 Mr. Bennett, I will tell you, your tech
20 suaveness is much above my pay grade and
21 probably most of the people on this Committee,
22 but you raise very interesting points, and in
23 fact, if you could stick around for a few
24 minutes we have got some staff that is here, we
25 have Mr. Alex Kelley who is one of our, is my

1 Staff Director and can probably answer some of
2 those questions.

3 And members of the Committee, what we will
4 probably do, is once we answer his questions,
5 if he feels like they are, if they suffice, we
6 may at least explain to everybody what the
7 answers are to those, because I frankly don't
8 have that, and, but I do think you bring up
9 good points.

10 We certainly want to have comments on our
11 software. We appreciate you very much for
12 being here, sir, so thank you for your
13 comments. Yes?

14 Next up we have Mr. Darnell Lumpkin.
15 Okay, thank you very much for being here,
16 Mr. Lumpkin. He is going to pass that up.
17 Next we have Mr. David Mock, I believe,
18 M-o-c-k.

19 Mr. Mock? Okay, we will keep moving
20 forward. Next after Mr. Mock we had Ms. Teri
21 Cariota, C-a-r-i-o-t-a. Ms. Teri, great, thank
22 you very much for being here. After Ms. Teri
23 we will have Adam Anthony Biblo, I believe is
24 how you say it, but Ms. Cariota, I hope I am
25 saying that right, you are recognized.

1 MS. CARIOTA: It is close. Good
2 afternoon, yes, it is Teri Cariota. Some of
3 you may recognize me, having seen me walking
4 around the halls during session.

5 For those of you who don't know me, I wear
6 several volunteer hats in Leon County. I am a
7 resident of Leon County, originally from Miami,
8 I am a retired law enforcement officer, but I
9 moved back here five years ago, and in fact,
10 retired on March 4th, 2006, and on March 5th of
11 2006, I was here working in Tallahassee, not
12 because I enjoy the politics but I enjoy the
13 public service.

14 In an interest of open disclosure as my
15 predecessor from Wakulla County did, I, too,
16 just so you are aware, I am a Democrat, and I
17 am in fact the Chair of the Leon County
18 Democratic Party.

19 However, I am not here on behalf of any
20 organization. I am here as an individual
21 citizen, as a resident and registered voter of
22 Leon County, and I am speaking from the heart
23 when I tell you that I consider myself a poster
24 child for unfair districts.

25 I live in Piney Z here in Tallahassee and

1 Senator Garcia can tell you, I see him in the
2 back of the room, if any of you have ever -- if
3 you don't know where Piney Z is, if you have
4 ever been to his house for any events, that is,
5 that is Piney Z and his -- and I don't mean to
6 embarrass you, Senator, but here is why I
7 mention that.

8 When I moved here I didn't realize I was
9 moving into that one tiny sliver of Tallahassee
10 and Leon County that is not represented by
11 people, not from Tallahassee, not from Leon
12 County, not from anywhere even close to
13 Tallahassee or Leon County.

14 And no disrespect intended to Senator
15 Dean, in fact, I appreciate the fact that you
16 actually do show up for delegation hearings
17 here in Tallahassee.

18 I know it is a long drive for you all the
19 way from Citrus County. My Senator lives in
20 Citrus County. Regardless of whether you are a
21 Democrat or Republican or you know, whatever,
22 that is just wrong.

23 When you look at the current maps, I know
24 we don't have the projected maps, but when you
25 look at the current maps, you will see, I call

1 it not that sore thumb that sticks out, but
2 that sore pinkie that sticks out.

3 And I do have respect for you, sir,
4 because, like I said, I, too, am a retired law
5 enforcement officer. And then my Congressman
6 lives all the way over in Jacksonville, and
7 that would be Linda Crenshaw.

8 I think the last time I ever saw
9 Congressman Crenshaw in Tallahassee or Leon
10 County is when he was in the Legislature
11 himself here many years ago, I believe.

12 It would be nice to see my elected
13 officials, the people who I can vote for a
14 little more frequently. Senator Montford can
15 even tell you, I, while I was not a volunteer
16 on his campaign, I was a volunteer for his
17 opponent for a man I couldn't even vote for.

18 I can't even vote for Senator Montford if
19 I wanted to, in the general election and I
20 apologize for that, but again, my Senator lives
21 all the way down in Citrus County, and while I
22 have visited your county, I just think that is
23 a little too far away for my representation.

24 I wholeheartedly believe in a two party
25 system and as strange as this sounds, I think

1 you all need to keep the politics out of
2 redistricting, keep the public service in
3 redistricting.

4 You all elected to serve all of the
5 public, not just the people who happen to be
6 the same registered party as yourselves. It is
7 not fair. Please do the right thing. Thank
8 you.

9 CHAIRMAN WEATHERFORD: Thank you,
10 Ms. Cariota, and if you would, please let us
11 know next time the Senator is having a party,
12 because we never get invited. So if you could
13 let us give us a heads up.

14 Next up we have got Mr. Adam Anthony
15 Biblo, I believe is how you say it, and after
16 Mr. Biblo we have got Charles Parrish.
17 Mr. Biblo, thank you very much for being here,
18 sir, and you have the floor.

19 MR. BIBLO: Thank you, Chairman Gaetz, and
20 it is Biblo for the record, but very close,
21 very close.

22 I am going to make a few quick points,
23 many of them, what has already been said, so I
24 don't want to belabor them.

25 My main point is when you go through the

1 process and you slice up smaller jurisdictions,
2 and I mean smaller than Miami or St. Petersburg
3 or Jacksonville, that is populous and you slice
4 Tallahassee or Leon County into multiple
5 districts and we extend to, for example, Citrus
6 County as pointed out, our representation is
7 not what we -- we would expect.

8 And again, this is not in any way a
9 reflective of our current Senator who is very
10 good and I get e-mail from, and it is not
11 saying that, but in general, urban area should
12 be served by, should be an urban district,
13 should be a compact district, shouldn't be
14 divided.

15 When it is divided, whatever the intent
16 is, it gives the appearance that it is divided
17 for the wrong purpose. That is to dilute,
18 diminish the effect of the voters of the
19 political power of that urban area.

20 The same with a rural area. Why frustrate
21 the intent of the rural area by combining it
22 with slices or trenches of urban areas. So,
23 again, without trying to get into why the
24 districts have been set up that way, it gives
25 the impression that it is not serving the

1 public purpose.

2 So I ask you that as you go about
3 redistricting to make sure that the public
4 purpose is served.

5 When we study demographics one of the
6 things we look at, there is various measures,
7 indexes of similarity and dissimilarity, and
8 when you get two-thirds representation,
9 two-thirds one party an one-third the other,
10 but the population is closely split 50/50
11 throughout the state, it -- something doesn't
12 seem right.

13 I am going to leave you with that point
14 and ask you to fix it since it is in your
15 hands.

16 Lastly, I am going to point out, I agree
17 with Ms. Macnab, Mr. Harrington, and many other
18 speakers, the State voted the last election and
19 there was a consensus, if not overwhelming
20 majority, that passed two new Constitutional
21 Amendments and I would ask you to follow that
22 respectfully.

23 I would ask you to, excuse me, to respect
24 that mandate, and I want to thank you for your
25 time and I want to wish you all of the best in

1 this effort. All right.

2 CHAIRMAN WEATHERFORD: Thank you very
3 much, sir, we appreciate your kind words. Next
4 up we have Mr. Charles Parrish. Mr. Parrish,
5 thank you so much for being here.

6 Mr. Parrish is with the Jefferson County
7 branch of the NAACP. After Mr. Parrish we will
8 have Ms. Linda Williams. Mr. Parrish, you are
9 recognized, sir.

10 MR. PARRISH: Thank you both, gentlemen,
11 from the House and the Senate. My primary
12 purpose here before this hearing is to
13 emphasize the fact that the smaller counties in
14 this state really don't have any representation
15 when you really boil it down to the way the
16 districts are drawn.

17 For example, Jefferson County, we don't
18 really have any representation, and I say it in
19 this manner because if a person, the
20 Representative for one section of our county
21 really doesn't need the few votes that the
22 county has in order to get elected.

23 Therefore, we don't have any
24 representation because that person really is
25 not concerned about us. He doesn't need us to

1 get elected.

2 It seemed to me when we teach in our
3 public schools, our civic classes, we teach one
4 thing about Florida government and we do the
5 opposite.

6 It seemed to me that representation should
7 be based upon population, true enough, but the
8 way our Legislature is designed, we are two
9 Legislature, the population is not really
10 represented in the House of Representatives,
11 especially in the small counties of Florida,
12 whereby a county is cut into three sections.
13 We don't really have representation.

14 You just got us as a figure on the book,
15 but we really don't have representation, and I
16 wish you would consider that when you start
17 redistricting the state.

18 As it was made my Commissioner from
19 Jefferson County made a comment about not
20 including the prison population in District
21 III.

22 In Jefferson County we have five
23 Commissioners who are elected by districts. If
24 you take the population, the prisoner
25 population out of District III, where would you

1 put it?

2 If that is the case, where are you going
3 to put all of the prisoners in the state of
4 Florida? Where are you going to put them?

5 So I am saying to you that you need to
6 look at the makeup of the whole state and give
7 the smaller counties better representation.

8 Now, when you legislate you mandate that
9 the 67 counties do this and thus and that, but
10 those small counties don't have representation
11 to really fight for the welfare of that county,
12 because if we are split up the way we are in
13 Jefferson County, we don't have any
14 representation. So I think that you will
15 consider that in your redistricting. Thank
16 you.

17 CHAIRMAN WEATHERFORD: Thank you very
18 much, Mr. Parrish, for your comments, sir. We
19 next up have Ms. Linda Williams with the League
20 of Women Voters, followed by Mr. Don Curtis.

21 MS. WILLIAMS: I am just representing by
22 poor old family.

23 CHAIRMAN WEATHERFORD: Okay.

24 MS. WILLIAMS: In a snaky district of
25 Leon. So it is a pleasure to be here and I am

1 sorry I am not dressed better. Over 50 years
2 ago in high school civics, a nice old lady
3 named Ms. Blair brought up gerrymandering, and
4 I haven't thought about it for a long time,
5 until, say, the last ten years.

6 So we, you know, we are happy for the City
7 of Mayport and Jacksonville when they get
8 Federal funds to do something, but it doesn't
9 do a hang for us in Leon County or our morale.

10 I mean, I don't know whether we are so
11 important they need us in Duval or we are such
12 bad people they don't want us in Leon, but
13 please, be fair, and before I die, let me vote
14 in Leon County, because I live here.

15 I pay taxes here, as do my neighbors at
16 Piney Z and our friend from Wakulla County,
17 give us some local representation, and I am
18 glad to meet my Senator.

19 CHAIRMAN WEATHERFORD: Thank you very
20 much. Thank you very much, Ms. Williams. Very
21 peppy and to the point. Next up we have
22 Mr. Don Curtis, Mr. Curtis, old friend, thank
23 you for being here, sir, and after Mr. Curtis
24 we have got a Ms. Kathleen Wallmeyer, you will
25 be next. So Mr. Curtis, the floor is yours,

1 sir.

2 MR. CURTIS: Well, thank you, and thank
3 you to all of you that are taking your time to
4 spend this summer. I am taking a little time
5 as well. We have been on the wild fires non
6 stop for weeks now, and as soon as I make my
7 comments I will have to leave. We have got a
8 13,000-acre wild fire knocking at our door step
9 above Lake City.

10 Having said that, again, I am Don Curtis
11 from Lake Bird, Florida, which is in Taylor
12 County, about 50 miles from here.

13 In this rural part of Florida we are a
14 conservative group of people, but you can't
15 always tell it from the election choices that
16 we have had, and historically redistricting has
17 been used to accomplish many objectives,
18 including routing past problems and bringing
19 balance to the choices the government have when
20 selecting representation, and we applaud that.

21 However, I am going to make a few comments
22 focused on House District X, Congressional
23 District II and Senate District III. When I
24 was preparing these remarks I was reminded of
25 my grandmother making biscuits.

1 She would roll out the dough, she would
2 take a jar and cookie cut the biscuits, and
3 then she would take the scraps and put them
4 altogether and make the dog biscuit. That was
5 the throw away. You didn't serve that at the
6 table.

7 And when you look at some of our
8 districts, for instance, in 2002, House
9 District X was gerrymandered in such a way that
10 the last time I collected it, it was 70 percent
11 one party, 20 percent another party and
12 10 percent of the miscellaneous.

13 In fact, that party that has had
14 70 percent has elected or reelected itself
15 without interruption since Reconstruction. So
16 for over 100 years.

17 The word disenfranchise comes to mind if
18 you are a conservative. That is wrong and we
19 just want hopefully this time to right a wrong
20 so that when you redraw House Districts in this
21 part of Florida we hope there can be balance so
22 that we want be the throw away House District
23 again.

24 And in 2002, though, a good start was made
25 to draw Congressional District Number II with a

1 bit more balance, and it took eight years, but
2 this past November, we were able to elect a
3 conservative of a different party to Congress
4 and that was the first time since
5 Reconstruction as well.

6 Change comes slow in the rural areas of
7 the Big Bend of Florida. Over 100 years
8 though, that is a little too slow.

9 Now, also in 2002, Senate District III was
10 redrawn with a bit more balance. So we had a
11 choice and we could elect a conservative and
12 Senator Dean is my district, and I am okay with
13 you being from Citrus County. That is not a
14 problem.

15 And just to close, I just, you guys are
16 going to analyze umpteen scenarios, and we just
17 ask for balance in this rural part of Florida
18 just to not be the throw away, to give us
19 something that gives us meaning full
20 representation that changes what we have had
21 for 100 years. Thank you.

22 CHAIRMAN WEATHERFORD: Thank you very
23 much, Mr. Curtis. We have got Ms. Kathleen
24 Wallmeyer up. Did she have to leave? Okay, I
25 am sorry. Okay, well, thank you very much for

1 being here earlier.

2 We have got Mr. Joe Cain. Joe Cain is
3 with the Democratic Executive Committee, and I
4 think Mr. Cain, you have a presentation that we
5 are going to pull up on the screen, is that
6 right? Okay. Come on up.

7 Following Mr. Cain we are going to have
8 Ms. Laura Forster. Mr. Cain, you are
9 recognized, and I believe it is four or five
10 slides I think that you got with it.

11 MR. CAIN: Well, I just wanted to -- I am
12 kind of a newcomer to politics here, though I
13 helped the Obama with communication and my
14 background is science, not politics, and I have
15 only become involved with the Democratic
16 Executive Committee for the past year.

17 But there have been a lot of really good
18 points made and it seems to me that one thing
19 that should come out of this particular session
20 is following the idea that you all should go
21 ahead and make up something to shoot at. I
22 mean, a saw-man to go for.

23 Now, for example, go back a couple of
24 slides if you could do that, and -- we can't
25 get them bigger, okay, well, no problem.

1 I think that the -- what everybody has
2 been saying here and most of you really know,
3 but haven't -- it is really clear that there is
4 no -- not very much compactness and I am
5 thinking just to the technical, in a technical
6 way, draw a circle, that is pretty compact, but
7 for example, like Congressional District III,
8 oh, come on, now, how in the world, why in the
9 world would you draw something like that? Go
10 back another -- the previous one.

11 Now, this is the one that was complained
12 about earlier, Congressional District IV, which
13 has a little finger right into Tallahassee, and
14 that there is no real reason for that either.

15 And go back one more, yes. Well, yes,
16 that one, that is fine. I think that -- well,
17 somehow it didn't get all of it, but that is
18 all right, okay, well, okay, this is District
19 II and that is sort of an absurdity, too, in
20 terms of the topography of it, because why in
21 the world -- look off to the left there,
22 Pensacola and you are splitting a county for no
23 reason at all as far as I can tell.

24 I mean, if you just slice that
25 mathematically down the left edge and added a

1 couple of counties on the right, it would be a
2 lot more compact.

3 Then the last slide is the -- the same
4 thing happens in your State Senate Districts as
5 well as the Congressional Districts. I mean,
6 they don't really make much sense. So what I
7 am suggesting is, go ahead and give it a shot,
8 don't wait until all of the rest of the
9 sessions and the input are here.

10 I think it is real clear from all of us
11 and you will get the same kind of input from
12 the other people, the rest of the people in the
13 state, that go give it a shot, make, put up the
14 strawman and let us -- let us have at it then.
15 Thank you.

16 CHAIRMAN WEATHERFORD: Thank you very
17 much, sir. Thank you very much for that and
18 also for your presentation. We have Ms. Laura
19 Forster. Ms. Forster? Thank you very much.
20 After Ms. Forster we have Ms. Cynthia
21 Henderson.

22 Ms. Forster, you are recognized and thank
23 you very much for being here today. Forster, I
24 am so sorry.

25 MS. FORSTER: Forster.

1 CHAIRMAN WEATHERFORD: I know. It is hit
2 and miss with we up here, I got to tell you.

3 MS. FORSTER: Okay, my name is Laura
4 Forster for the record.

5 Thank you, gentlemen, for being here, and
6 ladies. I came here today originally to say
7 thank you for having this meeting. It was very
8 well advertised. I knew about it.

9 I also was getting e-mails today saying
10 that it wasn't an open session here and you
11 couldn't speak and all of that kind of stuff.
12 So I don't know who is sending that out, but
13 that is not true, because from what I have seen
14 here you are listening well and I have a couple
15 of questions, a couple of other things I wanted
16 to say that I have seen here.

17 I have seen a lot of special interest
18 groups here, and I am not a Tea Party person,
19 per se, I am a registered Republican and I was
20 that up until the 2000 election, I was an
21 Independent and I felt that I needed to take
22 this country, what I saw was happening was
23 going way to the left.

24 And I don't think our forefathers intended
25 that to ever happen and I really feel it is due

1 to special interest groups and redistricting is
2 a very important part of the way we vote in
3 this country.

4 And I do see the funny lines and so forth
5 in all of the different places, but that is
6 based on population, and I really feel that you
7 guys have been hired by the public, you are our
8 Representatives, just like when I was a
9 teacher, I was expected to teach the children.

10 I didn't like, the reason I quit teaching
11 is I did not like the special interest groups
12 that were telling me, the professional, how to
13 teach children.

14 I have hired you. The other people in
15 this room have hired you. If we don't like
16 what you are doing, we will fire you. That is
17 how it works.

18 I expect you to have integrity, if you
19 don't have integrity then I will fire you.
20 Now, the courts are also there to watch you as
21 well, and if you don't have integrity, the
22 courts will step in because someone will sue,
23 that is why we have the right, I don't like
24 lawyers, I am a doctor's wife, I don't like any
25 of you who are lawyers.

1 I feel like I am -- but, you know, I am
2 having to learn that if I want the things to
3 happen in my country I have got to get
4 involved. So I am learning, so here today was
5 a very good learning. I thank you for that. I
6 thank you.

7 I am learning from the people who have
8 gotten up and spoken. I have learned a lot of
9 things from you as well, but I just want to let
10 you know, these special interest groups, the
11 Florida League of Women Voters, the NAACP, I am
12 calling you out, the ACLU, you do not represent
13 me. You do not represent me, and we need to
14 get off this color business. I don't see your
15 color here.

16 I don't see your ethnicity. You are
17 Americans. We need to start acting like
18 Americans and stop this ethnicity thing. I was
19 raised in Miami since 1969, that is not my
20 country anymore. It is chaos down there
21 because there is no leadership.

22 We joke about it up here, the -- down
23 there in Miami. We left Miami because it was
24 chaos during the Illion crisis. That is not
25 America, that is not how we run our --

1 CHAIRMAN WEATHERFORD: Ms. Forster, I
2 would ask you to keep the comments related to
3 redistricting.

4 MS. FORESTER: Yes, but the redistricting
5 area down there is going to have the same
6 problems, they are an olden district. They
7 don't represent the rural districts. I don't
8 know how you guys do that.

9 I can't make -- I have no way of knowing,
10 nobody here knows how to do this. They have
11 been hired to do this. That is my point. You
12 guys have been hired to do this, be informed,
13 listen to the people, the people really want it
14 to be fair.

15 They do, 63 percent wanted it to be fair,
16 but we can't do it without integrity, and the
17 last thing I want to say, I am sorry I got off
18 on a tangent there.

19 Please think about God, think about God,
20 because this is a big task before you and you
21 cannot do it without his help. You really
22 can't.

23 Our forefathers under the Fourth of July
24 presentation at my church, and I have read a
25 lot about George Washington, that is the man

1 you need to read about. He did not make it
2 through that war.

3 He did not make it through coming up the
4 rules of redistricting and things like that
5 without God's help, and that is all I have to
6 say. Thank you.

7 CHAIRMAN WEATHERFORD: Thank you,
8 Ms. Forster, very much.

9 SENATOR GARCIA: Mr. Chairman?

10 CHAIRMAN WEATHERFORD: I am sorry, yes,
11 Senator Garcia, you are recognized.

12 SENATOR GARCIA: Thank you, Mr. Chairman
13 and I do appreciate your comments and I am glad
14 you are getting incorporated into a political
15 process, but I can't go without making a
16 comment in reference to those that you said
17 about Miami-Dade County.

18 I live in Miami-Dade County, and I
19 represent Miami-Dade County and I am proud to
20 represent the diversity that exist in that
21 community.

22 Unfortunately, we spoke, we spoke -- let
23 me speak for a minute. Unfortunately, you may
24 have left, but I stayed there to fight and make
25 sure that we do the things right.

1 We have had our issues in Dade County,
2 absolutely we have, like every part of this
3 state has had their issues, but to stand up
4 here and criticize that Miami-Dade County is a
5 different country, no.

6 Miami-Dade County is part of the United
7 States of America. Miami-Dade County is a lot
8 of --

9 REPRESENTATIVE WEATHERFORD: Thank you,
10 Senator.

11 SENATOR GARCIA: -- citizens that work
12 there, fight there and make sure that we do the
13 right thing. So I don't appreciate, I am
14 sorry, Mr. Chairman. I am sorry, Mr. Chairman,
15 I don't appreciate when those comments are made
16 about a community of hard working people who
17 came to this country to make sure that they
18 leave a better place for their families.

19 REPRESENTATIVE WEATHERFORD: Ma'am, you
20 are not recognized to speak. We have moved on.
21 No, he is not, he is not, he addressed the
22 body, and thank you very much, Senator, we
23 appreciate your comments.

24 SENATOR GARCIA: Thank you very much.

25 REPRESENTATIVE WEATHERFORD: Thank you

1 very much. We are going to continue to move
2 forward in the process. We only have about 30
3 minutes left. We are going to hear from
4 Ms. Cynthia Henderson, Ms. Henderson, you are
5 recognized to address the committee --

6 A VOICE: She had to leave.

7 REPRESENTATIVE WEATHERFORD: -- okay, she
8 had to leave, okay, so we will move forward.
9 Next up we have Mr. Daryl Barowicz.
10 Mr. Barowicz. Thank you very much for being
11 here, sir. After Mr. Barowicz we are going to
12 have Dorothy Inman-Johnson, but Mr. Barowicz,
13 thank you, sir, you are recognized, and you
14 have the floor.

15 MR. BAROWICZ: I don't know how to follow
16 that. My name is Daryl Barowicz, and I am a
17 resident of Tallahassee. I have been a
18 resident of the state of Florida for 40 years,
19 28 down in Pinellas County and the rest of it
20 up here in Tallahassee, and I am a retired
21 proud public servant in the state of Florida
22 for 38 years.

23 Just a few points. Some of them were
24 reiterated but I think they need to be
25 repeated. When your process of redistricting I

1 urge all of these hearings and based on fair
2 distribution of population, that these
3 districts are contiguous with each other, that
4 these districts do not focus on particular
5 parties.

6 They do not focus on particular party
7 Representatives or Senators, and above all,
8 after all of your public hearings and after all
9 of the money that is spent on the public
10 hearings, that you come back to the citizens of
11 the state of Florida with the outcome of these
12 hearings and show us the maps and show us how
13 they were based on, the comments that were
14 derived from these public hearings.

15 These meetings should take place after the
16 maps are drawn and brought back to the
17 citizenry so that they understand how they were
18 based and what they were based on. Thank you
19 for being here.

20 REPRESENTATIVE WEATHERFORD: Thank you
21 very much. Next up we have Ms. Dorothy
22 Inman-Johnson, followed by Ms. Inman-Johnson we
23 have Curtis Baynes. You are recognized, thank
24 you for being here.

25 MS. INMAN-JOHNSON: Good afternoon. First

1 of all I thought I would be speaking on
2 redistricting before a non-political,
3 non-partisan commission that was appointed in
4 accordance with the referendum items that we as
5 citizens voted for.

6 The purpose or intent of that referendum
7 and what the take away was for Florida citizens
8 was that we would have a body that did not have
9 a dog in the hunt on the outcome of this
10 redistricting process.

11 I don't see how that can happen when
12 seated elected officials are overseeing the
13 drawing of these districts.

14 So making that point first, these points
15 cannot be emphasized often enough. There
16 should be no gerrymandering in this process.
17 People have spoken about that over and over
18 again since I have been sitting here.

19 There is no good reason why you have to
20 run a district line down an Interstate highway
21 to pick up some more people in order to elect
22 anybody to the Legislature.

23 Second, all of the districts should be
24 compact and contiguous so that the people that
25 those Representatives are being elected for

1 know their constituents, know the areas they
2 are representing, and can put themselves there
3 often enough so that their citizens have real
4 input into the process.

5 Third, do not divide urban communities.
6 Do not chop up and divide counties.
7 Representatives should represent people who
8 have interests and needs in common. There is
9 no one size fits all in the state of Florida.

10 I hope that at some point in this process
11 I will see that non-political, non-partisan
12 commission we thought we voted for, but if not,
13 I hope at least the body will abide by the
14 principles that ensure fair elections,
15 representative government, and a government
16 that the people can feel really represents
17 their interests. Thank you.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much, Ms. Inman-Johnson. Next up we have
20 Mr. Curtis Baynes, followed by Alejandro
21 Posada.

22 Mr. Baynes, you are recognized, sir.

23 MR. BAYNES: Good afternoon, Mr. Chairman
24 or Mr. Chairman and everybody. My name is
25 Curtis Baynes, 1323 East Tennessee Street in

1 Tallahassee. I am here representing no one
2 other than a group of one. As anyone in
3 Tallahassee can tell you, I represent no one.

4 I, although I don't have represent -- I am
5 representing anyone, I do echo some of the same
6 comments that you have heard here this evening
7 and the only visuals I have got for you are
8 these.

9 My State Representative's office is
10 75 miles west of my house. My Congressman's
11 office is 158 miles east of my house. I think
12 that while they may be nice people, they are
13 not representative of me and I would certainly
14 like to see compact districts. Well, more
15 compact districts anyway.

16 Based upon book closings at last election,
17 now, they may be a little bit different now, I
18 would like to see no district in Florida with
19 more than 37 percent Republican, no more than
20 43 percent Democrat, and at least 20 percent
21 Non-Affiliated voters such as myself. That is
22 what the state registration roles show. I
23 think that would be helpful in producing more
24 fair districts, thank you.

25 REPRESENTATIVE WEATHERFORD: Thank you

1 very much, Mr. Baynes. Next up we have
2 Alejandro Posada, followed by Phillip Howard.

3 Mr. Posada, thank you very much for being
4 here, sir. You are a college student at FSU?

5 MR. POSADA: Yes, sir.

6 REPRESENTATIVE WEATHERFORD: Good to see
7 you.

8 MR. POSADA: First off I would just like
9 to thank the Committee for allowing me the
10 chance to speak.

11 I think one of the primary goals of this
12 whole process has to be transparency and I
13 think ya'll have done a great job here today.

14 You mentioned earlier how a lot of times
15 we hear politicians talk, but rarely do we see
16 them listening to us, so I really appreciate
17 that.

18 I think something that needs to be of
19 primary concern is that we don't rush anything
20 here because I know there have been a few
21 people that have come up and said we need to
22 get this taken care of now, immediately, we
23 need maps now, what-have-you.

24 But I think it is important that in the
25 interest of transparency that everyone's views

1 be allowed to be heard, and it seems like today
2 we have had a good bit of that going on, but I
3 think that needs to continue until, you know, I
4 feel that everyone has gotten a chance to voice
5 their opinion.

6 So essentially I would just like to urge
7 you not to rush this, to think it through, to
8 listen to all of your constituents and to keep
9 that in mind. Thank you.

10 REPRESENTATIVE WEATHERFORD: Thank you
11 very much, Mr. Posada, we appreciate your
12 comments. We have one last comment card from
13 Mr. Phillips Howard. Mr. Howard, you are
14 recognized, sir. It looks like you are also a
15 student at FSU. Thanks for being here.

16 MR. HOWARD: Thank you, thank you
17 Mr. Chairman. I will just keep brief, because
18 I know --

19 REPRESENTATIVE WEATHERFORD: If you could
20 speak into the microphone a little bit, too.

21 MR. HOWARD: Yes, I would just like to
22 also thank you for having such an open
23 procedure between the maps you put online. I
24 have had a lot of fun playing with them and
25 these meetings, it was very well advertised. I

1 was able to hear about it with no problem.

2 One thing that I would just like for the
3 Committee to consider is to make sure more than
4 anything that districts are fair and balanced
5 as opposed to being nearly compact.

6 In this day and age I can take this little
7 device right here and contact my Congressman or
8 any other Representative regardless of where he
9 is. So if districts do have to be divided a
10 bit or certain areas, it is okay as long as it
11 is in the general interest of the people and
12 once again, just thank you for holding these
13 meetings and have a wonderful day.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much. We appreciate those comments.

16 Members, that is the end of the list of
17 the comments of those who told us they wished
18 to speak. Is there anyone in the audience who
19 wishes to speak who has not had the
20 opportunity? Now would be a good time to raise
21 your hand and we would get to you. Anyone who
22 has not had the opportunity to speak?

23 Okay, with that we have actually an e-mail
24 someone who sent us during the meeting, and we
25 are going to try to do this at all of our

1 meetings to give you the opportunity for some
2 public input. So many could not be here from
3 Franklin county.

4 A gentleman by the name of Ned Pooser and
5 Ned is from Sopchoppy, and he said, "First, I
6 would like to thank the Senate President, Mike
7 Haridopolos and this Committee for allowing
8 public access to the redistricting project.

9 Second, I am from Franklin County, and as
10 a small rural county our issues differ from our
11 larger urban neighbors. We would like to be
12 included in the district of other rural
13 counties so that our voices are not smothered
14 by larger urban counties. I hope you will
15 consider this in your redistricting plans.
16 Thank you." Ned Pooser, who could not be here,
17 but asked that that would be on the record.

18 Okay, we had someone who had spoken
19 already but we do have a minute. He asked if
20 he could have one minute, and Mr. Harvill, we
21 will give you one minute, sir, but please make
22 it quick, yes, sir, thank you.

23 MR. HARVILL: Greetings, again, I just
24 want to say as Former Speaker Moffit's
25 brilliant idea to reiterate it. Three House

1 Districts within one Senate District, that
2 would be beautiful. Thank you.

3 REPRESENTATIVE WEATHERFORD: Thank you
4 very much. Okay, members, that is the end of
5 the public testimony and kind of step one in
6 our process.

7 Before we close out I would like to ask
8 the members, is there any, any public comment,
9 any comment from members of the committee or
10 anything specific that anyone would like to
11 address or any questions from any members the
12 of the committee, now would be the time to do
13 that? Real quickly, yes, we have
14 Representative Cruz for a question.

15 REPRESENTATIVE CRUZ: Thank you, Chair
16 Weatherford, thank you very much. I just have
17 a quick question. I notice that we have
18 essentially an interpreter here for the deaf
19 and I appreciate that very much.

20 My question is relative to mostly I would
21 suspect the south Florida population, when
22 these hearings go down in the south Florida
23 area, perhaps in the Haitian communities or in
24 the heavy Hispanic communities, will there also
25 be interpreters for that?

1 REPRESENTATIVE WEATHERFORD: I believe
2 that that is in the plan, Representative Cruz,
3 and we will do everything we can to make sure
4 and accommodate all of the ethnic and language
5 groups that are out there that would need to
6 have some interpretation necessary.

7 So the answer to that is yes, but we will
8 work to try to make sure that that happens at
9 all of the locations.

10 REPRESENTATIVE CRUZ: Thank you very much.

11 REPRESENTATIVE REED: Thank you,
12 Mr. Chair. I had someone to call and wanted to
13 know if they cannot e-mail or do anything with
14 computers, they want to send a handwritten
15 entry to the Committee. Who do they send it to
16 and is that a possibility?

17 REPRESENTATIVE WEATHERFORD: Just to
18 reiterate. Your question is, if someone wants
19 to send a handwritten note or a letter that is
20 typed but they don't have the ability to
21 e-mail, where would they send it?

22 They would -- I will tell you what we will
23 do. We will get you an address, because I
24 don't have that in front of me, but we will get
25 you an actual mailing address and we will get

1 an address for the Committee.

2 I think if you go on to our website, the
3 Redistricting Committee actually has an address
4 that you can mail to. That would be the
5 address, but we will make a public statement
6 about that tonight at the 6:00 hearing.

7 Next we have Representative Rehwinkle
8 Vasilinda for a question. Never mind, am I
9 missing anybody?

10 Okay, I think Senator Gaetz, you had a
11 comment. Mr. Co-Chairman, you are recognized.

12 SENATOR GAETZ: Thank you very much,
13 Mr. Chairman and thank you for the fair and
14 thoughtful way in which you conducted today's
15 hearing. No matter what anyone's point of view
16 might be, I don't think anybody can leave here
17 today saying that they did not have the
18 opportunity to be heard and that is a credit to
19 you, Mr. Chairman, and I know it is the way we
20 will conduct our hearings in the upper 25
21 hearing locations across Florida.

22 I can tell you that I have filled a legal
23 pad with three pages of notes, very good
24 constructive suggestions and comments from
25 individuals who -- who brought concerns from

1 their local community and their neighborhood
2 about problems that need to be rectified in this
3 redistricting process.

4 I wanted to just reiterate something that
5 we indicated in the opening, because there may
6 be folks who weren't here for the opening, and
7 therefore, did not hear what our procedure is
8 going to be.

9 There were some people who asked the
10 question, well, why don't we produce maps first
11 because the public won't have an opportunity to
12 know about or comment on any maps that might be
13 drawn in, later in the process.

14 First of all, as the Chairman indicated,
15 the Speaker indicated, we believe that it is
16 probably better to listen first before we
17 commit ourselves to starting to draw maps so
18 that we will have the benefit of the kind of
19 advice and guidance that we have received today
20 from a number of people who have made some very
21 constructive suggestions about their own
22 neighborhoods.

23 Secondly, let me just reiterate, if I may,
24 Mr. Speaker, what we said at the beginning, and
25 there may be some folks who wanted to know why

1 we didn't have the answer here before we had
2 the question and they may not have been here
3 for the beginning of the hearing.

4 Let me repeat what we said and this is our
5 procedure. Our intent is to use the
6 recommendations made at 26 public hearings and
7 through our Internet sites, and I may say, we
8 are already getting suggestions, including
9 proposed maps on our Internet sites and they
10 are there for you to look at.

11 Our intent is to use the recommendations
12 made at hearings and through our Internet sites
13 as the basis for developing one or more options
14 for district maps. This is important.

15 We will then share those options in open
16 public meetings, take comments from the public
17 before any votes are taken even in Committee,
18 so you will see maps before the first vote is
19 taken even in Committee.

20 And then as we said at the beginning,
21 throughout the process we will solicit
22 additional public comment so that proposed maps
23 can be matured with the public involved at
24 every step all before the Legislature approves
25 any maps.

1 So if there were people who may have had
2 prepared remarks about why we didn't do maps
3 first or maybe you weren't here at the
4 beginning, perhaps this will help clarify what
5 our process is.

6 And then, Mr. Speaker, there was some
7 questions about the timeline and again, let me
8 reiterate what we laid out at the beginning
9 that perhaps not everyone had an opportunity to
10 hear.

11 That is, first, according to the Florida
12 Constitution we cannot meet in legislative
13 assembly to vote on maps until January. What
14 we did is to move up the legislative session by
15 two months so that we could begin voting
16 earlier than we ordinarily would.

17 Some individuals asked and it was a very
18 good question, well, why does some other states
19 have their maps already done? Well, the state
20 of Illinois did theirs in a back room, came out
21 and said here are the maps, and that was that,
22 but the way the Bureau of the Census, and we
23 don't choose to operate that way.

24 The way the Bureau of the Census works,
25 not all of the census information comes to all

1 of the states at once. They come in tranches.
2 They come in groupings, and Florida was in the
3 last grouping to get our census information, so
4 that is why we are a little bit later in the
5 process than some other states.

6 However, our President, President
7 Haridopolos, and our Speaker, Speaker Cannon,
8 told Representative Weatherford and me that we
9 needed to begin immediately after the
10 legislative session and we have begun literally
11 the month after the legislative session to have
12 public hearings to gather input so that we can
13 meet a timeline that we laid out for you.

14 Our timeline is listed on the House and
15 Senate websites so you can see how the timeline
16 works, and you can see the various stops that
17 we are obliged to make by law before we can
18 vote on any maps and before any maps are
19 finalized.

20 Finally, Mr. Speaker, I would mention that
21 any Legislator, any member of this Committee or
22 any Legislator who is not a member of this
23 Committee or any special interest group or any
24 citizen can produce maps at any time and those
25 maps will be immediately placed on our website

1 so that the public can see them.

2 So there is no requirement that people be
3 silent about their views. Any member of this
4 Committee, any Legislator can produce any map,
5 any time and we will make it available to the
6 public.

7 And the groups that are very interested
8 this year, and of course, they are interested
9 each time there is a census in how
10 redistricting is carried out. Those groups as
11 well have the opportunity to produce a map.

12 They did ten years ago, but sadly,
13 apparently not so far this time, but as soon as
14 they do produce a map, those maps will be made
15 available on the website, the Senate and House,
16 as soon as those maps are provided to the
17 Senate and the House.

18 I would just reiterate that there will be
19 an opportunity for the public to review any
20 plan before that plan is voted on. The House
21 has already adopted rules. We will recommend
22 to the Chair to the Senate, that the Senate
23 adopt similar rules so the public has an
24 opportunity to see every amendment, every plan,
25 every iteration and have the opportunity to

1 comment to before it is voted on.

2 So again, Mr. Chairman, I want to thank
3 you for your work today. I want to echo what
4 you said when you were interviewed about
5 Amendments 5 and 6, and that is that they are a
6 part of our Constitution, and I, like you, like
7 all of the members here, swore an oath to
8 preserve, protect and defend the Constitution
9 of the United States and of the State of
10 Florida, and those provisions are in our
11 Constitution. They will be faithfully abided
12 by.

13 But I would also point out that there are
14 other requirements of redistricting, such as
15 the Federal Voting Rights Act and various
16 Federal case law that we must also take into
17 account. Those aren't secret. They are on the
18 Senate and House websites in their entirety.
19 You can read them and see where there may be
20 some opportunities to comment or provide your
21 input on how your neighborhood, your community
22 can be best represented by applying the
23 standards that are in the Federal Voting Rights
24 Act and in our State Constitution.

25 I look forward to the continuation of our

1 hearing tonight beginning at 6:00. If there
2 are those who would like to come back, we would
3 welcome you, and we will be in Pensacola and in
4 Ft. Walton Beach tomorrow, in Panama City the
5 next day, and then moving through the entire
6 state to give all of the people of Florida a
7 chance to be heard on the Internet, as well as
8 face to face with their Legislators.

9 So thank you, Chairman Weatherford, for
10 your presiding at this hearing and for the good
11 work that you have done.

12 REPRESENTATIVE WEATHERFORD: Thank you
13 very much, Mr. Chairman. We are looking
14 forward to working with you. If I could just
15 quickly say, for the members of the public who
16 have had an opportunity to speak or would like
17 to add more, please feel free to e-mail us.

18 You can also mail us, we actually do have
19 a pamphlet representative that has the address
20 on it, if you could pick that up on your way
21 out.

22 We look forward to working with you, and
23 of all of the legal records from today's
24 meeting, video, podcast, transcripts will be
25 available in the coming days on the House and

1 Senate websites.

2 We will be here at 6:00 this evening and
3 going until 8:00. Members, please be on time,
4 and with that, Senator Gaetz moves we rise.

5

6 CHAIRMAN WEATHERFORD: Have a seat,
7 everyone. We appreciate everybody coming back
8 for the part two of our hearing, Joint
9 Redistricting Hearing today.

10 My name is Will Weatherford, and I am one
11 of the Co-Chairs of this Committee, along with
12 Senator Don Gaetz, who is the other Co-Chair.

13 We took three hours of public testimony
14 earlier today. I thought it was very
15 productive and I want to thank again the
16 members of the public who are here today who
17 were here earlier this afternoon and have also
18 come back.

19 We are very grateful for the public
20 participation that you have given us and we are
21 going to continue in that mode.

22 And so, members, what we are going to do
23 is so far we have probably got eight or ten
24 cards here. We expect to get a few more, but
25 we are going to go through them one at a time

1 and give people the opportunity to speak before
2 this Committee, and then we will move forward
3 and move on and hit the road and go to
4 Pensacola.

5 So with that in mind we are going to start
6 with our first person here, and that is
7 Mr. David Best, if Mr. Best is here. Mr. Best
8 represents the Coffee Party, and Mr. Best,
9 thank you for being here, sir.

10 You are recognized to address the
11 Committee. Please give Mr. Best your
12 attention, please.

13 MR. BEST: Thank you.

14 CHAIRMAN WEATHERFORD: Touch the -- there
15 is a button there, sir.

16 MR. BEST: Hello, hello. Better, better.

17 CHAIRMAN WEATHERFORD: Yes, you are on.

18 MR. BEST: Okay. My name is David Best, I
19 am here as a citizen first and a voter. I have
20 voted in every election that I can remember in
21 the last 30 years. I know I have missed one or
22 two, but the ones I remember, in almost all of
23 them.

24 I am also here as a member of the Coffee
25 Party, USA. I work with the Coffee Party of

1 Florida, the local Coffee Party group. The
2 Coffee Party strives to maintain independence
3 from all political parties and labels.

4 We are grassroots volunteers who want to
5 restore stability to the political process that
6 we believe has suffered from extreme
7 polarization by both parties, and we too often
8 see parties, as a matter of fact, every day in
9 the paper I see it.

10 I think parties are working too often in
11 their own interest for the next election rather
12 than the common good of the people. To that
13 end I also want to say I believe in the
14 Constitution of the United States and the
15 Constitution of the State of Florida.

16 My goal here is to insure that the voice
17 of the people, not the power of the dollar and
18 special interests are the most considered and
19 will decide the policies and directions of our
20 state.

21 To that end I wish to compliment the
22 Florida Legislature on the openness that it has
23 shown so far in this process, particularly for
24 the things you have put on-line and made
25 available to me, just the common person, and I

1 want to encourage you to continue with that
2 openness and transparency when the rubber hits
3 the road down the road. Okay.

4 Unfortunatly the absence of maps. I
5 don't know what you heard this afternoon, but
6 it just seems like we could have had some maps
7 with some ideas of where you are going. Have
8 got to believe that you have studied this and
9 probably everyone of you, particularly with
10 incumbency, knows what you are planning to do
11 in this redistricting process.

12 So I would request that rather than wait
13 until the end and receive a lot of public
14 hearing input, that you go ahead and get some
15 maps out there and give us some ideas of where
16 you are going so that at least the people later
17 in the hearing process will have more ideas
18 what is going to happen beyond what we have got
19 now.

20 I believe that the voters have already
21 given you -- whatever we say, the will of the
22 voters was made clear in the last election, V
23 and VI Amendments passed, 63 percent of the
24 vote, that is pretty telling right there.

25 To me when I read them they are fairly

1 clear. So I believe the intent of those
2 amendments is clear, but I also believe that
3 the intent of many political incumbents,
4 particularly those in high ranking positions,
5 has been made clear as well by actions more so
6 than by words. Time is fleeting.

7 I think this timeline is going to be a
8 very difficult one to maintain. I have been on
9 projects where I looked at and I thought this
10 project is going -- there is no room at all for
11 any error.

12 It is going to be hard enough to stay on
13 this timeline as it is. So I encourage you to
14 really get real and certainly you have all
15 worked on these project plans and you have got
16 to know this. I can't tell you this. You know
17 more than I do.

18 So lastly I guess as a Coffee Party
19 activist I pledge to support leaders who work
20 towards positive solutions and to hold
21 accountable those who obstruct them. I am here
22 to ask that you be leaders that I can support,
23 and I thank you very much for the opportunity
24 to comment.

25 CHAIRMAN WEATHERFORD: Thank you very

1 much, Mr. Best. We appreciate your comments
2 here today. One thing I did not point out
3 earlier and you certainly fell within this time
4 frame, Mr. Best, but for those who did not get
5 a chance to speak earlier, we are going to try
6 to keep the comments between three and five
7 minutes.

8 That kind of seems to be the wheelhouse
9 that has worked so far. We are going to
10 continue to work during in that direction and
11 also I will announce the name of the person who
12 is going to be speaking and then try to put you
13 on deck so if you are next, you will hear your
14 name as well and just be prepared it come up
15 and speak when that person ahead of you is
16 done. So again, Mr. Best, thank you very much
17 for being here.

18 The next speaker that we have is, I
19 believe, Jayce Michael Hill, if I am saying
20 that right. It could be Joyce, but I frankly
21 can't tell. I apologize.

22 You are good, okay, all right, he is
23 waiving and I don't know, usually with Bills we
24 say waive in support or so we will just say he
25 waives. We have Matthew Isbell.

1 Matthew spoke to us earlier, certainly you
2 are welcome to come back and speak. No
3 problem, we are happy to have you. Thanks for
4 being here. After Matthew we will have Dan
5 McDaniel.

6 MR. ISBELL: Thank you again for letting
7 me speak. I know I spoke to you guys earlier
8 today. I kept this short earlier because I
9 wanted to let other people speak, but I decided
10 to sign up again just to address some.

11 One other key thing and it was brought up
12 at the end of the meetings and that was the
13 issue of minority districts and minority
14 representation in not only in the Legislature
15 but Congress.

16 Specifically the Congress right now of our
17 25 seats we are going to go to 27 I know. We
18 have three majority African-American districts
19 and several majority Hispanic districts.

20 The comment and there has been questions,
21 okay, well, fair districts has passed, what
22 about things like the Third District which
23 stretches from Jacksonville down to Orlando.

24 You also have the Hastings District which
25 stretches over about three or four counties in

1 south Florida, and, you know, there has been
2 some arguments made by some Legislators, some
3 activists, on both sides of the aisle saying
4 that, you know, if something like the Third
5 District is eliminated that will hurt minority
6 representation.

7 And I just want to offer a different point
8 of view on that, that, you know, especially in
9 terms of the Voting Rights Act which was passed
10 back in '65, to insure minority representation
11 not only being allowed to vote, but also be,
12 drawing majority African-American districts,
13 but the key thing about that is that was
14 designed to insure that, especially in the
15 south where they have been in the process for
16 100 years, Legislators did not draw lines to
17 carve up a compact African-American community
18 that already existed.

19 Where there was a compact area and people
20 would draw three or four districts between it.
21 The VRA does not require those drawings, you
22 know, a district that stretches from
23 Jacksonville all the way to Orlando, basically
24 packing every African-American imaginable in.

25 In fact, there are districts similar to

1 that in North Carolina and Georgia have been
2 struck down in past Supreme Court cases as
3 basically racial gerrymandering where you are
4 packing every Democrat, every African-American
5 in, and I just don't feel, you know, this is
6 not stated for anybody specifically, but I just
7 want to say for the record, I don't feel that
8 is needed.

9 We have plenty of white, majority white
10 districts, majority white states that have
11 elected African-Americans, Hispanics, anybody.
12 We are not, we are no longer in the, pardon my
13 words, the Jim Crow, south, where you needed,
14 you need a majority minority district to elect
15 a minority.

16 It is just not the case and I just want to
17 make that point clear, that is what I feel
18 that, you know, if there is, if you can create
19 a majority minority district that is compact
20 like we have now for the Rico Wilsons down in
21 south Florida where I am from, where I have
22 lived in at different points in my life, that
23 is a compact district, but something, a
24 district that stretches from Jacksonville to
25 Orlando, it is just not needed. Thank you.

1 CHAIRMAN WEATHERFORD: Thank you very
2 much, Mr. Isbell, we appreciate your comments
3 again. Next we have Mr. Dan McDaniel,
4 following Mr. McDaniel we have Dustin Ponder.

5 Mr. McDaniel, thank you very much for
6 being here, sir, you are recognized.

7 MR. MCDANIEL: Yes, thank you,
8 Mr. Chairman, and members of the Committee. I
9 appreciate you taking the comments from the
10 public. I don't envy the job that you have. I
11 know that in past committees, if I can just
12 preface by saying this, the members that I have
13 known of this Committee while the charges have
14 always seemed to be that they are going to do
15 something in their favor, it seems that they
16 always came away and found that it was more of
17 a punitive appointment rather than one that
18 managed to allow them to cash in on any kinds
19 of favor.

20 What I wanted to do in the 30 years of
21 business and government that I have had is just
22 share for a moment a perspective on the, both
23 the analysis and process management sides of
24 the redistricting, or really anything that you
25 wanted to tackle, business or government-wise,

1 at least looking back at some of the more
2 difficult projects I have, and I don't want to
3 compare them with the enormity of your task.

4 But in analysis we are always, my
5 background, just to let you know, is an
6 economist and IT manager, and what we are doing
7 in an analysis is always taking these complex
8 problems and trying to break them down into
9 something manageable, and clearly, at the IT
10 management level or any kind of higher upper
11 management level, you can't understand every
12 detail, even though we try and we want to.

13 On the process management side we are
14 trying to come up with some simple rules that
15 we can follow as we are dealing with the
16 analysis, and what I just wanted to present is
17 what I think would be a fair way to perhaps
18 deal with the constraints, not just of the past
19 and of the political, but also of the
20 amendments that are in place.

21 And in three simple steps what I might
22 propose is to first look at the state of
23 Florida and rather than start drawing from
24 Escambia or start drawing from Key West or
25 somewhere in between, instead recognize that

1 you as members of different districts currently
2 have so many different composite makeups within
3 your district.

4 And it might be best if we tried to keep
5 these districts not just contiguous and not
6 just community oriented, but also to favor the
7 interest within that particular area, whatever
8 they might be, agricultural, urban, whatever,
9 and my proposal simply would be to start with
10 the urban cities in the state of Florida.

11 And by the populations I looked at, if you
12 took the House Districts, for example, I think
13 you would have nine cities in the state of
14 Florida that had populations over the size of
15 one House District.

16 Jacksonville would fit five House
17 Districts, a couple of cities would fit two and
18 the rest one, a couple of cities, I don't know,
19 if my numbers were exactly right, number ten
20 and eleven were about the size of a district,
21 maybe not quite.

22 But if the principles of the redistricting
23 were applied then within each of these cities,
24 then a lot of the political problems and
25 accusations that might arise at a statewide

1 level would at least go away within the locale.
2 You are creating urban.

3 And then the second step would be to look
4 at SMSA's, something of that sort, we have got
5 a lot of them around the state and fill the
6 rest in that way. They would leak over into
7 some of the urban cores, but cover more of the
8 suburban areas and you would have suburban
9 styled districts, and then when you are done,
10 some may argue and some always will that you
11 have a gerrymandered looking district.

12 I would argue that rather than being
13 gerrymandered, they would probably look more
14 like swiss cheese, maybe donuts here and there,
15 but they would be the more rural and exurbia
16 type districts, and I think they would
17 represent a more common interest in that
18 respect, but if you looked at those cities and
19 those SMA's, then the rest of the state, if it
20 filled out and looked like a gerrymander, I
21 think that under the provisions as the way I
22 have read Amendments V and VI, I think it could
23 all be justified and that is just presenting
24 things from an analytical and process
25 management standpoint.

1 I want to thank you all for your time.

2 CHAIRMAN WEATHERFORD: Thank you very
3 much, Mr. McDaniel. We appreciate those
4 comments. Next up we have Mr. Dustin Ponder,
5 who is here. After Mr. Ponder we will have Jay
6 Liles.

7 MR. PONDER: Thank you, sir. I was here
8 earlier, you know, and I have heard a lot of
9 talk today about democracy and listening to the
10 will of the public before we put out maps on
11 redistricting.

12 And I just have to say, I mean, who are we
13 talking about democracy for, you know? I mean,
14 you look at the last redistricting maps and the
15 result was 50 percent of our Senators and
16 Representatives are millionaires. When I think
17 in the general population, it is about five
18 percent, and I don't think people are naive
19 here.

20 I don't expect to convince you all to draw
21 up maps with my arguments and to implement fair
22 districts. I mean, I think we all know how
23 politics works.

24 The politicians have the interest of
25 working families, people of color and the poor

1 in mind first, instead of as one woman per
2 earlier, the people that hire them, we would
3 already have maps.

4 We wouldn't be having a lawsuit where the
5 people are both defending and paying for the
6 prosecution to overturn the Fair Districts
7 Amendment.

8 So all I got to say is you all are saying
9 you are listening to the public. You are
10 saying you support democracy, not just for the
11 top two percent, but for everybody.

12 Well, my father always used to say,
13 actions speak louder than words, no matter how
14 eloquently put. So, I mean, I am hoping that
15 the rest of the public will join me and just
16 say, let's get to it, you know, we know what
17 the game is.

18 The people know what the game is. I mean,
19 we have been through it all already. Let's see
20 the maps, let's move forward.

21 CHAIRMAN WEATHERFORD: Thank you,
22 Mr. Ponder. Next up we have Jay Liles, after
23 Mr. Liles, we have Jack Davis.

24 Mr. Liles, thank you very much for being
25 here, sir.

1 MR. LILES: Thank you, Chairman
2 Weatherford, thank you, Chairman Gaetz, and the
3 members of the Committee.

4 I am Jay Liles. I reside at 1962 Vineland
5 Drive here in Tallahassee. Prior to living in
6 Tallahassee I was raised in Plant City,
7 Florida. I went to school in Gainesville,
8 Florida. I lived in St. Pete for ten years.

9 My father was a member of this august
10 body, along with Ron Saunders's father back in
11 the 1960's.

12 I only say all of that because I want you
13 to know I feel your pain. I understand what
14 you are up against and I appreciate what you
15 have agreed to do, and I hope you will take the
16 input of the citizens of this state and come up
17 with the best plans you can as you go forward.

18 Some of you may know me as an advocate for
19 environmental issues here in the Legislature.
20 I want you to know that today I don't speak for
21 those groups. I speak as a citizen of the
22 state of Florida.

23 Let me further preface my comments with a
24 few facts if you don't mind and I will be very
25 brief about this.

1 I live in the Ninth House District. I am
2 a resident of the Third State Senate District
3 and I am in the Second Congressional District.
4 To visit with my State Senator, Senator Dean,
5 in his home office I would need to travel
6 211 miles, a six-hour trip back and forth.

7 To visit with my Congressman in his home
8 district, that is another 4.5 hour drive,
9 110 miles in Panama City. Some of my
10 neighbors, very near neighbors in eastern
11 Hillsborough County are represented by
12 Congresswoman Corrien Brown who lives in
13 Jacksonville. In a district that some people
14 say is that the most gerrymandered district in
15 the nation.

16 According to the 2010 Census, Senate
17 District III and Congressional Districts II and
18 III need to be reduced in size to be
19 proportional correct.

20 The Fair Amendment District -- the Fair
21 Amendments Amendment, Fair Districts Amendment,
22 pardon me, approved by 63 percent of the voters
23 tells us that the committee should strictly
24 adhere to, quote, compact and contiguous
25 districts in order to end gerrymandering by

1 political parties.

2 In keeping with the amendment I sincerely
3 hope that this Committee and the Legislature
4 will approve a reduced, geographically reduced
5 size, District II, Congressional District II
6 and Senate District III and bring my neighbors
7 in Leon County into the Second Congressional
8 District.

9 In the 2010 election cycle there were
10 4,631,068 registered Democrats. There were
11 4,039,000 registered Republicans and 2,186,000
12 Independents, yet in the State legislature, as
13 you all know, it is 81 to 39 Republicans versus
14 Democrat.

15 In the State Senate it is 28 to 12
16 Republicans versus Democrats. Our
17 Congressional Delegation and most of the major
18 offices, with the exception of one U.S. Senate
19 office are held by Republicans, and I know many
20 of you, some of you anyway on this Committee
21 think that is just because your campaign
22 strategies were better, but honestly, let's get
23 real.

24 There is something wrong in that. As some
25 of my friends have said, the politicians in

1 Florida are picking the voters rather than
2 voters picking their candidates.

3 In a civics lesson would fully tell us
4 that a representative form of government
5 insures the will of the majority is and it
6 prevails, while strenuously protecting the
7 rights of the minority.

8 When people feel their voice is not heard
9 by their elected representatives they begin to
10 lose confidence in the institution as a
11 government, and then they lose interest in the
12 rights of others, and at its lowest point they
13 lose interest in civil law.

14 That is something none of us can afford to
15 have happen no matter what our party. So as
16 you conduct your work I would ask you to
17 suspend your loyalty to party and as I know you
18 are, be loyal Floridians in your thinking and
19 in your efforts.

20 Consider that the decisions you are making
21 here are going to be for ten years, long after
22 many of you are out of this institution, out of
23 this process.

24 Please ask yourselves, how can your
25 successors govern effectively that the policies

1 they craft are the product of an echo chamber.

2 I have worked with many of you on a lot of
3 issues. I know that one to one environment we
4 tend to agree more often than not, or at least
5 find accommodation. It is the group thing that
6 concerns me and I hope we are able to get past
7 that and I thank you for the time.

8 CHAIRMAN WEATHERFORD: Thank you very
9 much, Mr. Liles.

10 Next up, members, we have got Jack Davis.
11 Do you want to say ditto? Okay. We can do
12 that. Ditto for Mr. Jack Davis. Thank you
13 very much, sir, for being here. We appreciate
14 you participating in this process.

15 We next have Alex Belk, I believe that is
16 a K. Alex, did I say that one wrong, buddy?

17 MR. BELLOA: Yes.

18 CHAIRMAN WEATHERFORD: I apologize. 680
19 West Virginia Street. All right.

20 A VOICE: Repeat that.

21 CHAIRMAN WEATHERFORD: That is right,
22 after Alex we have got Mr. Carlos Ray, you are
23 going to be next. You are recognized, sir, and
24 sorry for not pronouncing your name right.

25 MR. BELLOA: I have chicken scratch for

1 writing, that is okay.

2 CHAIRMAN WEATHERFORD: Your handwriting is
3 still better than mine, I can assure you.

4 MR. BELLOA: I want to thank everybody
5 first of all, for giving me the opportunity to
6 speak here today and the rest of the citizens
7 in the room.

8 It is, I want to state that openness is
9 extremely important and that is the key in all
10 of this.

11 I know it is going to be a hard fought
12 battle. There is a lot of disagreement on both
13 sides how things should be run and written, but
14 ultimately if we remain open and this continues
15 to be an open process I think what is going to
16 come out of this, you know, what is good, it is
17 going to be contentious, but hopefully it will
18 be good for everybody.

19 And in addition to this I think that we
20 need to stick to the spirit of the law. We
21 need to have compact districts that are
22 reflective of the people that are living there.
23 I am in Senator Montford's district, and I am
24 in Senator Alan Williams -- I am sorry,
25 Representative Alan Williams' district.

1 If I cross the street, literally 40 feet
2 from my door I am in someone else's district.
3 I think that it is Marti Coley's district. So
4 I mean, we are talking literally 40 feet and it
5 is not like there is a totally different
6 community between us, it is the same community,
7 the same people.

8 A lot of the folks that live on one side
9 are predominantly African-American, the other
10 one are students. And so if we have anything
11 that affects us in this district that has to do
12 with transportation, which is Tennessee Street
13 is a major corridor in Tallahassee, there is a
14 lot of transportation issues with the city, who
15 do we go talk to?

16 If we are African-American you talk to
17 Alan Williams and if you are a student you go
18 talk to Marti Coley, and that to me pits these
19 two groups against each other.

20 There is not one Representative in that
21 district that knows exactly what happens on
22 both sides of the street that pay attention to
23 that, and I think that is wrong for the people
24 that live in that community.

25 I agree with everything that Mr. McDaniel

1 spoke about earlier, that we need to start with
2 the bigger urban cores and work our ways out
3 there, because the situations that effect
4 somebody in the city are not going to be the
5 same that effect somebody out in a rural
6 county, like Union.

7 African-American issue, Hispanic issues
8 are very important to me, and, but they are not
9 the same in Duval County that they are in
10 Orange County. They are not the same that they
11 are in Union, they are not the same that they
12 are in Ocala, that is not a county, in Marion
13 County. So we need to keep our communities
14 together.

15 We all need to work together and we need
16 to encourage that by having districts that
17 encourage us to go talk with one another and
18 our Representatives that are going to know
19 their districts well.

20 When you have somebody who has to travel
21 400 miles from one point of the district to
22 another, how are they really going to get to
23 know anybody other than what is within the
24 20 miles that they live in.

25 So let's use a little bit of a common

1 sense approach. I know sometimes common sense
2 is not very common, but I think that we have
3 come a very long way, as one gentleman
4 mentioned, the Jim Crow south, we have grown a
5 lot from that period in time, and if we have
6 faith in our constituencies and our folks,
7 people are going to do what is best for them
8 and their communities and they are going to
9 come together.

10 We have just got to have a little bit more
11 faith in ourselves to do so. Once again, just
12 thanks again and please keep in mind that the
13 most important in all of this is keeping
14 communities together.

15 We need to have people who are going to be
16 advocating for their communities, not for 65
17 different communities of who they have met
18 maybe five or six people along the way. Thank
19 you very much, and that is all I have.

20 CHAIRMAN WEATHERFORD: Thank you very
21 much, sir. We appreciate that very much. Next
22 up we have Mr. Carlos Rey, followed by Beatriz
23 Macia. Mr. Rey, thank you for being here, sir,
24 you are recognized.

25 MR. REY: Thank you, Chairman Weatherford,

1 thank you, Chairman Gaetz. Again, thank you
2 for this opportunity and making this an open
3 and transparent process.

4 The only reason I am coming up here is to
5 present to you a study that took place in
6 Columbia Law School where they have a program
7 where students are given the opportunity to
8 learn the redistricting laws and given the
9 tools to redistrict certain states.

10 At the end of that program those students
11 are required to take a state and actually
12 redistrict the state based on the projected
13 census reports, and here I have before me the
14 report, itself, which takes into account
15 compactness and the VRA laws as well, and it
16 addresses only congressional districts, but I
17 think it gives you an idea of what are some
18 considerations you can you look at when you are
19 making your decisions, and I don't know if I
20 can present this to the Board.

21 CHAIRMAN WEATHERFORD: We are actually
22 very familiar with that. We actually have it
23 on-line. On our website at Florida
24 redistricting.org. The Senate has it up and to
25 be, to be even more direct, we think that is

1 actually a perfect example of the steps that we
2 have taken to be open and transparent to where
3 we are soliciting that type of participation,
4 and that, the young man, the student who
5 produced that map of the Congressional
6 Districts of Florida spent a lot of time on
7 that and I believe gave it to us three or four
8 weeks ago.

9 MR. REY: Very good.

10 CHAIRMAN WEATHERFORD: We have it, and if
11 you want to give members a copy you can, but I
12 believe, members, you can hand it maybe down
13 here, but it is on-line. We have it up and
14 on-line and there are actually other maps as
15 well, but again, I think that speaks to the
16 process we have created and what technology now
17 allows us to do, to allow people to take
18 advantage of the software we have.

19 So I am glad that you are here to talk
20 about it. I didn't want to interrupt you, but
21 wanted you to know we have it.

22 MR. REY: I wanted to make sure you were
23 aware of that, and also I think that people can
24 look at this report and see the, that the
25 issues that have been brought up in this,

1 before this Board has been addressed and other
2 people are looking at it and it shows that
3 individuals can have an impact as far as what
4 considerations are taken when making these
5 decisions, and you have given us the tools, the
6 redistricting tool, itself, and it is one of
7 those things that we should take advantage of
8 as well.

9 And I want to thank you again for this
10 opportunity and I am kind of embarrassed that
11 this is on there, but thanks again for this
12 opportunity.

13 CHAIRMAN WEATHERFORD: That is quite all
14 right, Mr. Rey. We appreciate you being here
15 and we echo your comments. We think that there
16 will be many opportunities in the future for
17 people to participate and do exactly what this
18 young man from Columbia University has done.

19 So thank you. Next we have Beatriz Macia,
20 I hope I am saying that correctly, and after
21 that we have Brian Lupiani.

22 Ms. Macia, thank you for being here today,
23 and we would love to hear from you. You are
24 recognized.

25 MS. MACIA: Thank you, Representatives. I

1 guess I need to let you know something. It is
2 Macia, but I will say Macia, and being Cuban,
3 Macia is a whole other family. The accent on
4 the I, not the A.

5 CHAIRMAN WEATHERFORD: I am sinking in my
6 chair as you are talking, so thank you.

7 MS. MACIA: How would you know that. Good
8 evening, Senators and Representatives. As I
9 said, I am Beatriz Macia, I am a Board member
10 of the Tallahassee Tea Party and I am a
11 Hispanic voter.

12 I know that Florida is a long narrow and
13 diverse state. It is difficult. I recognize
14 the fact that whether you all held these
15 listening meetings or not you were going to be
16 criticized, and I appreciate the fact that you
17 chose to listen to us anyway.

18 I understand that you are going to be
19 looking at a lot of factors and I hope that one
20 of the things that you will look at is the
21 concept just like that when our Congress was
22 originated it had two Houses to balance the
23 needs of the large states with the small
24 states.

25 We have large counties, urban and diverse

1 and we have small rural counties that have less
2 resources and are just important that they are
3 heard and represented.

4 I know that there are interests in the
5 different regions that need to be acknowledged,
6 you know, we have tourism, we have fishing, we
7 have agricultural, we have new technologies
8 that are coming.

9 Our Governor is working hard to bring, you
10 know, interesting businesses to Florida, as
11 well as many of our regional development
12 councils.

13 I have worked in a lot of different parts
14 of government. I have worked in Departments of
15 State, in the Legislature, I have worked in the
16 Governor's Office, and I am a small business
17 owner, so I have, you know, a pretty
18 appreciative understanding and working
19 knowledge of the processes that you work in and
20 how those policies and all of those things are
21 actually implemented, and then the affects on
22 the diverse folks that are impacted.

23 So I look forward to the day that we don't
24 have to talk about minorities and that we
25 didn't have to talk about selfish interests.

1 I really look forward to the day that we
2 are talking about building a better Florida. I
3 just want you to know that I choose to put my
4 faith in your good intentions. I have watched
5 you all. I was here during the session. I
6 have watched you all talk to each other.

7 I have watched you work through problems,
8 and very difficult issues. I have an
9 appreciation for what you do, and also know
10 that I will also still be involved and I will
11 be a part of the process, so thank you very
12 much.

13 CHAIRMAN WEATHERFORD: Thank you very
14 much. We appreciate you being here. Next up
15 we have Mr. Brian Lupiani, followed by
16 Mr. Eutn, and I would try to read your first
17 name, but I can't make it out. So Mr. Eutn,
18 but first we have Brian.

19 Thank you for being here, sir, you are
20 recognized.

21 MR. LUPIANI: Thank you, gentlemen and
22 ladies. I wasn't necessarily going to say
23 anything. I just wanted to be sure that I had
24 a chance to if something came up, but having
25 only gotten into the room just a couple minutes

1 ago, I am not sure what has come before.

2 But first I appreciate ya'll having these
3 hearings. I wish there were drafts that we had
4 a chance to respond to. Maybe there will be a
5 second round that you all can come around the
6 state with a proposal and get some comments on
7 it.

8 I would just like to say that it is
9 paramount to me that you all go by the
10 amendments that the citizens just recently put
11 into the Constitution. I don't like that it is
12 being challenged and delayed by some. It was
13 overwhelmingly approved by voters and I have
14 been in favor of those standards, not that it
15 matters to you what I have done, but I have
16 been a Democrat since I could vote and I was
17 originally for these standards back in 1978,
18 when the Democrats ran everything.

19 I think it is good for everyone. It needs
20 to be fair and we really need to just go by as
21 much as possible just based on raw population,
22 demographics, racial demographics to the extent
23 that we need to to comply with the Voting
24 Rights Act, but there should be no -- and I
25 realize it is, this isn't going to count for

1 much with many of you, but there should be no
2 consideration given to partisan registration or
3 to incumbents current location.

4 Some of the things we see on the current
5 map, it is -- it is almost incredible to have
6 to point out anything like this, finger for a
7 Congressional District, whatever it is, from
8 Jacksonville that comes cutting across, snakes
9 into all of the way over into Leon County.

10 There is a State House District X and I
11 don't mean this, I am not picking on anybody in
12 particular here, but it is insane to me that
13 somebody in Apalachicola is in the same State
14 House District as people I know in Ocala.

15 It is, you know, you have to do better. I
16 plan on -- I haven't had a chance yet to look
17 at the software you all have made available. I
18 appreciate that that is out there and I, you
19 know, I hope a number of groups will use it,
20 but as I said, just keep partisan political
21 party affiliation completely off the table.

22 Go strictly by population and follow
23 existing political and geographic boundaries as
24 much as possible. Thank you.

25 CHAIRMAN WEATHERFORD: Thank you very

1 much, sir, and it is not too much to ask that
2 we keep partisan politics out of this process.
3 We believe that is exactly what this body will
4 do. It is what the Constitution asked us to do
5 and it is a very good suggestion and we will
6 certainly take it to heart and make sure that
7 we do so.

8 Next up we have Mr. Eutn. In fact this is
9 the last card that we have and if you are here
10 and you would like to speak and we have not
11 called your name, please raise your hand and we
12 will find someone who will give you a card to
13 fill out.

14 We want to make sure that everyone here
15 has the opportunity to speak and while we are
16 looking for that, Mr. Eutn, you are recognized
17 to speak. Thank you for being here, sir.

18 MR. EUTN: Thank you. I would only like
19 to say is this, that the people of Florida are
20 watching what your body does today. And we do
21 not want to see a situation where this body
22 decides to take political affiliation into
23 consideration when it comes to setting up these
24 districts.

25 The people of the state have voted on this

1 matter. The people of this state have made
2 decisions how they want to have their districts
3 drawn, and I think this body should adhere to
4 that.

5 And it concerns me that this body has done
6 things that usurp, usurp the rights of the
7 people. And so I would hope and I would hope
8 that everyone here takes it very serious to do
9 the right thing and do the thing that the
10 people of Florida, this fine state of Florida
11 have asked you to do. Thank you very much.

12 CHAIRMAN WEATHERFORD: Thank you, sir, and
13 that is the last, I think that is the last of
14 our public testimony.

15 We do have someone, okay, great, while we
16 are waiting for that, as mentioned earlier, as
17 people e-mail us or give us information they
18 would like to make on the record but could not
19 be here, we want to oblique them.

20 Mimi Jones, who sent us an e-mail saying
21 she could not be here, wanted us to know that
22 she wanted us to follow the Constitution and we
23 plan on following that.

24 And then we also were reached via Facebook
25 from a lady by the name of Diane

1 Blackford-Wilson who just wanted to restate
2 that Wakulla County is an extension of Leon for
3 all practical purposes and should have the same
4 Representatives as Leon County, and we
5 appreciate them contacting us and knowing that
6 not everybody can be at a meeting, but that
7 their comments can be on the record.

8 So last up we have Ralph Wilson.
9 Mr. Wilson, we would love to have you come
10 forward. Thank you for being here, and you are
11 recognized to address the Committee.

12 MR. WILSON: Thank you very much. Thanks
13 for holding this hearing. I really appreciate
14 it, and I think a lot of us are here for a
15 pretty simple reason.

16 I feel like the voters have spoken and
17 feel like it is just another of many affronts
18 to the voter's will and the people's will in
19 the state for this to be challenged in the way
20 it is.

21 So I think, yes, I think that that is
22 really all there is to say, so I thank you for
23 your time.

24 CHAIRMAN WEATHERFORD: Thank you very
25 much, Mr. Wilson. We appreciate your comments.

1 Any other comments from the public, last call?

2 Okay.

3 Any comments and/or questions from members
4 of the Committee?

5 REPRESENTATIVE WILLIAMS: Mr. Speaker.

6 CHAIRMAN WEATHERFORD: Yes, Representative
7 Williams, you are recognized.

8 REPRESENTATIVE WILLIAMS: Thank you,
9 Chair. I just want to say for the record that
10 I was glad to see so many individuals from this
11 area, parts of which I am proud to represent,
12 along with Senator Montford.

13 Had an opportunity to come out and share
14 their thoughts and concerns about this process
15 that we take very serious, and thank you for
16 the opportunity given to this area for them to
17 be heard. Thank you.

18 CHAIRMAN WEATHERFORD: Thank you,
19 Representative and thank you for hosting us
20 here in Tallahassee. We are very grateful for
21 that. Senator Gaetz, I think you had a comment
22 that you --

23 CHAIRMAN GAETZ: Just quickly,
24 Mr. Speaker, I wanted to thank you for
25 presiding over the hearings today. Some of

1 those who were here tonight were not able to be
2 here earlier today.

3 We certainly are not going to repeat all
4 of the comments that we made about the process
5 and the schedule, but I think given that some
6 of the comments that were made tonight, it is
7 only fair that we indicate the process and
8 schedule in a couple of ways.

9 So let me, let me refer to introductory
10 comments that were made at the very beginning
11 of the session today so that those who may not
12 have been able to hear those comments would
13 have the benefit of knowing which way we are
14 headed.

15 The redistricting schedule under which we
16 are operating is imposed not by our own wishes,
17 but by the State Constitution. The
18 Constitution does not permit the Legislature to
19 act on legislative maps before the second year
20 after the census.

21 In other words, until 2012, but we did
22 accelerate the process as much as possible by
23 moving up the 2012 session, from March to
24 January, and by beginning our statewide
25 hearings five months in advance of the 2012

1 session.

2 It has been suggested by some that the
3 Legislature should draw maps first and then put
4 them out and ask the public to comment.

5 We believe that that puts the answer ahead
6 of the question. There should be in our view
7 no preconceptions created by politicians, but
8 rather public testimony and public input should
9 be free and unrestrained.

10 Our intent is to use the recommendations
11 made at all 26 of the public hearings we will
12 be holding and to use the input we are
13 receiving over the Internet, and I might
14 mention, Mr. Chairman, that we have been
15 heavily followed on-line this afternoon and
16 this evening, very heavy on-line traffic with
17 individuals saying they want to participate
18 on-line, they want to submit plans, they want
19 to offer comments and we welcome that.

20 And our intent is to use all of that input
21 we are gathering as the basis for developing
22 one or more options for district maps, and then
23 we will share those options in open public
24 meetings before any votes are taken, even in
25 Committee.

1 Let me state that again. First we are
2 asking for public input via the Internet,
3 getting heavy Internet traffic and via our 26
4 public hearings, and then once we have that
5 information and as we develop one or more
6 options for district maps, we will share those
7 options in open public meetings before any
8 votes are taken even in Committee.

9 Throughout the process we will solicit
10 additional public comment so that all proposed
11 maps can mature with the public involved, all
12 before the Legislature approves final maps.

13 And finally, Mr. Speaker, just for the
14 record and for those who may not have been able
15 to be here this afternoon, whatever the
16 Legislature then votes on, it is submitted for
17 judicial review at the State and Federal level
18 to insure that final plans meet every legal
19 requirement.

20 So on behalf of our Senate colleagues,
21 Senate members of the Committee, Mr. Speaker,
22 thank you for doing a great job today, and we
23 look forward to seeing you tomorrow morning in
24 Pensacola as we continue our statewide tour.

25 CHAIRMAN WEATHERFORD: Thank you very

1 much, Mr. Chairman, for those comments, and
2 members, if I could have everyone's attention
3 for one minute before we break.

4 I think everyone knows that we have
5 several days ahead of us. We are now moving
6 tonight to head over to Pensacola where we will
7 meet with citizens in Pensacola tomorrow
8 evening.

9 We will be in our good Senator's backyard
10 in Ft. Walton Beach, and then finally finishing
11 Wednesday in Panama City, but I want to thank
12 the staff for putting this together. This was
13 very well orchestrated, it was perfectly placed
14 where people could see what the maps look like,
15 you could get information, everything was
16 waiting for folks and I just really thank the
17 staff for making this a seamless process.

18 I also want to thank the members who are
19 here, not just the members on the Committee,
20 but we have dozens of members who traveled from
21 all over the state of Florida who don't even
22 sit on this Committee that wanted to be a part
23 of this process to see how it works and it
24 engage the public and I thank them for that as
25 well.

1 Lastly, and most importantly, we want to
2 thank the public who is here tonight and who
3 were here earlier this afternoon.

4 We are going to make this process the most
5 open, the most transparent, the most engaging
6 process, not only that Florida has ever had,
7 but anyone in the country has ever had, and
8 that is our goal and we will fulfill it and we
9 thank you for being here today and with that,
10 Senator Gaetz moves we rise.

11 (Whereupon, the proceedings were
12 concluded.)

13

14

REDISTRICTING COMMITTEE

TUESDAY, JUNE 21, 2011

7:00 P.M.

FORT WALTON BEACH HIGH SCHOOL

FORT WALTON BEACH, FLORIDA

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 CHAIRMAN GAETZ: Good evening, everyone,
3 we are delighted that we have such a good large
4 and obviously interested crowd here tonight.

5 The Joint Senate House Redistricting
6 hearing is called to order, and we want to
7 thank Principal Charlene Cuveon of Ft. Walton
8 Beach High School, Dr. Alexis Tibbets, the
9 Superintendent of Schools here.

10 In case you didn't know, this is Ft.
11 Walton Beach High School, the home of the
12 Vikings, one of the historically highest
13 performing schools in the United States, not
14 just once, but for year after year after year,
15 so you are in a great school.

16 And we thank the administration of Ft.
17 Walton Beach High School and Superintendent
18 Tibbets for allowing us to use this facility
19 this evening for what is our third public
20 hearing in a series of 26.

21 We started yesterday in Tallahassee. We
22 had a hearing earlier today in Pensacola. This
23 is our third hearing, and tomorrow we will be
24 in Panama City, and then on to the rest of the
25 state.

1 Thank you all for being here, especially
2 members of the public who have come to share
3 their comments and recommendations to help
4 shape Congressional Senate and House Districts
5 for the next decade.

6 My name is Don Gaetz. I serve as Chairman
7 of the Senate Reapportionment Committee.
8 Typically the Speaker Designate of the Florida
9 House, Will Weatherford, would be with us
10 tonight. He has been with us in the preceding
11 hearings and he will be with us going forward,
12 but he had a family commitment come up and so I
13 can guarantee you that he will be watching the
14 pod cast of this hearing and he will be fully
15 informed by professional staff and given copies
16 of all of the testimony that is being given
17 tonight.

18 Tonight's hearing is being webcast
19 statewide by the Florida Channel and over the
20 Internet, and I can report to you that we have
21 extraordinarily heavy Internet traffic for this
22 issue, and for our Joint Committee hearings,
23 and we are delighted to report that to you.

24 Before we go further I would like to ask
25 each member of the Committee if they would just

1 identify themselves as to whether they are a
2 Representative or a Senator and indicate where
3 in the state you live, where you represent, so
4 that the folks here in northwest Florida and
5 Okaloosa County can have an opportunity to see
6 how diverse the House and Senate Committees
7 are.

8 And if we may start with our Former Senate
9 President, and still Senator, Senator Gwen
10 Margolis.

11 Senator, would you, and I apologize that
12 we don't have microphones, so we are
13 politicians, so we will talk loud.

14 SENATOR MARGOLIS: My name is Gwen
15 Margolis, and I represent the eastern part of
16 Broward and Miami-Dade.

17 SENATOR HAYS: I am Alan Hays from
18 Umatilla. I am a Senator from District 20,
19 which represents a portion of five counties.

20 SENATOR DEAN: My name is Charlie Dean,
21 and I am Senator for District III. I have the
22 largest Senatorial district east of the
23 Mississippi River. It goes from Palmetto,
24 Citrus to the Hernando County line, to Baker,
25 and Duval County lines, all a part of 13

1 counties.

2 REPRESENTATIVE GAETZ: I am Representative
3 Matt Gaetz, and I live two miles down the road.

4 REPRESENTATIVE PASSIDOMO: I am Kathleen
5 Passidomo, representing Collier County,
6 representing parts of Collier County,
7 representing Naples, Marco Island.

8 REPRESENTATIVE GOODSON: My name is Tom
9 Goodson, District 29.

10 REPRESENTATIVE CRUZ: My name is Janet
11 Cruz, and I represent District 58.

12 A VOICE: (Inaudible).

13 REPRESENTATIVE CALDWELL: Matt Caldwell,
14 District 73, that would be Ft. Myers.

15 REPRESENTATIVE STARGEL: I am
16 Representative Kelli Stargel, north of Polk
17 County, Lakeland.

18 REPRESENTATIVE HOOPER: I am Ed Hooper,
19 Representative from Clearwater and Pinellas
20 County, the most district populated county.

21 A VOICE: (Inaudible)

22 REPRESENTATIVE BURGIN: Hello, my name is
23 Rachel Burgin, and I represent District 56.

24 SENATOR THRASHER: Thank you, I am Senator
25 John Thrasher. I live in St. Augustine. I

1 represent District 8, which is parts of Nassau
2 County that starts at Fernandina Beach, parts
3 of Duval County, parts of St. Johns County,
4 which is where St. Augustine is located, part
5 of Flagler County and I end up in Volusia
6 County at the International Speedway.

7 REPRESENTATIVE FORD: Clay Ford,
8 Representative for District 3, ninety-five
9 percent of Pensacola, five percent Gulf Breeze,
10 I talk just like ya'll do. People down south
11 have trouble understanding me.

12 REPRESENTATIVE PRECOURT: I am
13 Representative Steve Precourt from down south
14 at House District 41, a little area that
15 includes University Studios and Walt Disney
16 World.

17 REPRESENTATIVE ADKINS: Hi, I am Janet
18 Adkins, Florida District 12.

19 REPRESENTATIVE CLARKE-REED: I am
20 Representative Gwendolen Clarke-Reed, Broward
21 County, House District 92. I serve seven
22 cities, Deerfield Beach, Pompano Beach, Oakland
23 Park, Rose Manor, Tamarac (inaudible).

24 REPRESENTATIVE ROGERS: Hazel Rogers,
25 Representative of District 94, parts of Broward

1 County.

2 REPRESENTATIVE BERNARD: Mack Bernard,
3 Representative for West Palm Beach.

4 SENATOR MONTFORD: Senator Bill Montford,
5 District 6, (inaudible).

6 A VOICE: My name is (inaudible). I
7 represent the most conservative county in the
8 state, Broward County.

9 A VOICE: (Inaudible)

10 A VOICE: (Inaudible).

11 A VOICE: (Inaudible).

12 A VOICE: (Inaudible)

13 CHAIRMAN GAETZ: Thank you all very much.
14 I am sorry, fire away, we got the second row.

15 REPRESENTATIVE DRAKE: Brad Drake,
16 Representative for House District 5, and I am
17 also very privileged to represent Okaloosa
18 County, as well as Holmes, Washington. My
19 district runs all the way to the Georgia line,
20 up in Marianna.

21 CHAIRMAN GAETZ: Senator Evers.

22 SENATOR EVERS: I am Senator Evers and I
23 cover everything north of Senator Don Gaetz,
24 Escambia, Santa Rosa, Okaloosa, Walton,
25 Washington, Holmes and north Bay.

1 REPRESENTATIVE ABRUZZO: I am Joseph
2 Abruzzo from District 85, which is Palm Beach
3 County (inaudible).

4 CHAIRMAN GAETZ: Anyone else? If not,
5 thank you very much, Senators and
6 Representatives for introducing yourself to the
7 folks here in Okaloosa County where I am very
8 proud to live and proud to represent.

9 Our sole purpose tonight is to hear from
10 the public about how you believe the legal
11 standards governing redistricting should be
12 applied in your community, in this community so
13 that you are represented in Washington and
14 Tallahassee fairly, equitably and sensibly.

15 And I know there may be folks who are
16 already prepared to admonish us that Amendments
17 V and VI need to be followed.

18 Let me tell you on behalf of Speaker
19 Weatherford and myself and every member of this
20 Committee, we all took an oath to preserve,
21 protect and defend the Constitution of the
22 United States and of the State of Florida.

23 Those two provisions are in our
24 Constitution. They will be faithfully adhered
25 to and they will be followed, and any

1 redistricting plan that this Legislature
2 presents to the Supreme Court of Florida will,
3 in our judgment, and to the best of our
4 ability, follow every constitutional and legal
5 requirement.

6 Our procedures tonight are simple, but
7 they are important. It is important, as I said
8 before, that you sign in so we can create an
9 accurate public record of all attendees and
10 speakers, and also you may opt to join our
11 e-mail lists or our mail lists so that we can
12 keep you informed about how the redistricting
13 process is working.

14 If you haven't signed in, please do so,
15 please raise your hand at any point tonight if
16 you wish to speak and a staff member will come
17 to you and pick up your card, either your
18 appearance card or your attendance card.

19 Before we begin I would like to recognize
20 Representative Steve Precourt who will give us
21 a few introductory comments on behalf of the
22 House of Representatives.

23 Representative Precourt will explain how
24 today's hearing fits into the redistricting
25 process. You are recognized, Representative.

1 REPRESENTATIVE PRECOURT: Thank you, Chair
2 Gaetz, and as the Chairman said, I am Steve
3 Precourt, House District 41 from central
4 Florida, filling in for Chair Weatherford.

5 I am Vice-Chair of the House Redistricting
6 Committee and just wanted to give you a little
7 outline of where we are going in today's
8 meeting and of the overall process.

9 Every ten years the Legislature is
10 required by our Constitution to redistrict the
11 state based on increases, decreases and
12 movements around the state of the population.

13 Now, because Florida has grown more than
14 the other states over the last ten years, we
15 will be growing from 25 Congressional Seats to
16 27 members of the U.S. House of
17 Representatives. That is one of the major
18 things that we will have to do in this process.

19 Now, because some of our -- parts of our
20 state have either increased or decreased
21 disproportionately in population, many of our
22 Senate and House Districts are going to have to
23 change.

24 We are not going to get any new House or
25 Senate Seats, but we are going to have to move

1 the boundaries around because they have either
2 added too much or too little population.

3 Now, when the redistricting process is
4 completed the Congressional Districts must be
5 equal in size of population and each contain
6 696,345 people.

7 The 40 Senate Districts must also be
8 nearly equal at 470,033 people, and our 120
9 House Districts must also be nearly equal at
10 156,678 people.

11 Now, there is some maps over on the side
12 of the room that there to ya'll's left as you
13 are facing us showing this area of the state,
14 and the current boundaries, the current
15 boundaries of the districts, and the number of
16 people which must be added or subtracted from
17 those districts to achieve that equal
18 representation.

19 Now, the equality of representation isn't
20 the only legal requirement that our
21 redistricting plans must meet. The laws and
22 important court cases governing redistricting
23 are explained in detail on the House and Senate
24 websites.

25 Now, those websites are listed on the

1 Redistricting 2012 brochure that was available
2 when you came in, and if you don't have one,
3 staff has them available for you as well.

4 Please make sure and pick one up before
5 you leave. Our Redistricting 2012 brochure
6 summarizes the Federal and State laws and
7 outlines the topics that we hope that you will
8 discuss here at today's meeting as well.

9 If you didn't go a brochure, as I said,
10 they are available from staff, but also on the
11 tables outside of the meeting hall, and if you
12 want one right now our staff would be happy to
13 get a copy for you. If you need it just wave
14 to them.

15 Those websites that we have, we have made
16 available to the public all of the demographic
17 information from the U.S. Bureau of Census that
18 will be used in drawing the districts and used
19 in the redistricting software that we as
20 Legislators will be using.

21 Now, these websites will allow any member
22 of the public to see all of the district maps
23 that are being proposed by the Legislators and
24 for the citizens, ya'll, to propose your own
25 district maps for your own communities or for

1 the whole state if you would like, using those
2 same tools that are available to us as
3 Legislators and to our staff.

4 Now, before, during and after this hearing
5 tonight the Senate and House professional staff
6 are available to actually show you the simple
7 steps to getting on-line and making your
8 submission either now if you care to or in the
9 weeks to come.

10 We want to assure you that every
11 recommendation from any member of the public or
12 any group will be made publicly available.

13 In fact, we already have some public
14 submissions available on the web for review.
15 The submission of proposed maps, the drawings
16 that you might come up with is one of the most
17 effective, if not the single most effective
18 form of public participation in the
19 redistricting process. That is why we
20 encourage you strongly to avail yourself of
21 these resources that we put out there for you.

22 The redistricting schedule under which we
23 are operating is imposed by our State
24 Constitution. The Constitution does not permit
25 the Legislature to act on legislative maps

1 before the second year after the census, in
2 other words, before 2012.

3 Now, we have accelerated this process as
4 much as we possibly can by moving up the 2012
5 legislative session from, where typically it is
6 in March and April, to January and February of
7 next year, by beginning our statewide hearings.

8 We have also accelerated the process by
9 beginning our statewide hearings five months in
10 advance of that 2012 advanced session.

11 Now, it has been suggested that the
12 Legislature should draw maps first and then ask
13 the public to comment. We believe that puts
14 the answer ahead of the question.

15 There should be no preconceived notions,
16 no preconceptions created by politicians or
17 anyone else, but rather your public testimony
18 should be free and unrestricted and untainted
19 and give us something to work with.

20 Now, our intent is to use the
21 recommendations made by you tonight and at our
22 other 25 public hearings, as well as
23 information that we get through the Internet
24 and social networking and stuff that is hard
25 copy that is mailed to us and any other way

1 that we get it, as the basis for developing one
2 or more options for these district maps as we
3 go forward.

4 And once we developed those options we
5 will discuss them in open public meetings
6 before any votes are taken, even in committee
7 votes.

8 Now, throughout the process we will
9 solicit additional public input, not just these
10 initial meetings so that the proposed maps can
11 mature and develop with the public involved
12 deeply in the process.

13 All of this is going to be done before the
14 Legislature votes on or finally approves any of
15 those maps.

16 Whatever the Legislature votes on during
17 session next year is then going to be submitted
18 for judicial review to insure that the final
19 plans meet every legal requirement, not only in
20 our State Constitution, but the Federal laws as
21 well.

22 Now, because our mission today is to hear
23 from you, 100 percent of the time tonight
24 between now and I believe 9:00 o'clock as we
25 are scheduled will be used to ensure that every

1 member of the public who is here and wishes to
2 speak will have time to present the testimony
3 they would like heard and will be listened to
4 respectfully without interruption or argument.

5 And if after every citizen has had his or
6 her say there is still some time remaining
7 before our scheduled adjournment, any member of
8 the Committee may make any statements or offer
9 any observation, and we are also going to read
10 some feedback that we have recently gotten via
11 social media.

12 Of course, any member of the Legislature
13 may today or at any time propose maps or plans
14 or we will make all of that available to the
15 public as it is prepared and developed.

16 Mr. Chairman, I hope this description of
17 our schedule and the process helps to stage
18 tonight for a successful hearing and I will
19 turn the microphone back to you.

20 CHAIRMAN GAETZ: Thank you very much.
21 Let's get into it with those who have signed up
22 to speak. We have at the moment 24 individuals
23 who wish to speak.

24 What that means is that we will have time
25 for everybody. If everybody can keep their

1 comments to say three to five minutes, and we
2 are not going to be really restrictive on time,
3 but if we get more people who show up later in
4 the hearing and they would like to speak, then
5 I hope you will forgive me if I try to hold
6 people to a time limit, because I am an
7 advocate for the last person on this list just
8 like I am an advocate for the first person to
9 be able to speak and let everyone on the
10 Committee know what their views are.

11 President Margolis has admonished me to
12 make sure that you know that the maps that are
13 there on my right and on that side of the room
14 are available for you to look at so that you
15 will see what the current districts are.

16 So there are maps and we can use those
17 maps as a take off point to either criticize or
18 find fault or find value or virtue in any of
19 the districts that exist now.

20 If Chairman Weatherford were here he would
21 remind us all that none of us, nobody in the
22 Legislature, has a district. The districts are
23 developed based on the population data and
24 based on the redistricting software that is
25 used in conformance with the law.

1 So this is not about trying to find a way
2 to protect somebody's district. It is to find
3 a way to listen to your views as to how the
4 laws ought to be carried forward here in
5 northwest Florida.

6 With that said, what we will do is I will
7 call two testifiers at once so that the second
8 person can be on deck and ready, and our first
9 testifier are Mary Blackwell representing the
10 League of Women Voters of Okaloosa County.

11 Ms. Blackwell, it is good to see you
12 again.

13 MS. BLACKWELL: It is good to see you,
14 too, Don. First, I would like to thank the
15 Committee members for being here and for
16 providing this opportunity to comment on
17 redistricting, and I commend you for
18 encouraging citizen participation in the
19 process and I thank everybody who has come.

20 This is really important and I am glad you
21 are a part of it. I only have three points to
22 make.

23 First, the Legislature's timeline for
24 drawing the districts is too slow. The last of
25 the scheduled public hearings is September 1st.

1 Your timeline shows four months, as you
2 mentioned, for interim committee meetings, from
3 September through December.

4 Your own Committee staffs who work on the
5 redistricting and reapportionment issues year
6 around and some of whom, like John Guthrie, for
7 example, have been there for decades, should be
8 able to present you with several options right
9 now.

10 But as you said, you wanted to start with
11 a clean slate, that is fine, but after the end
12 of the hearings on the first of September, and
13 you absorb the public input, you mentioned
14 yesterday, Don, at the hearing that this is the
15 Internet age.

16 So I would like to see some options for
17 maps out there for comment and by the end of
18 September, so the public can have a chance to
19 influence the actual maps and not just talk in
20 generalities about what we would like to see.

21 And actually, I don't think there is any
22 secret about what we want to see, since the
23 Fair District Amendments received about
24 63 percent approval rating from voters in
25 November.

1 So please get all of those things done
2 where you are looking at the maps and making
3 those up, that is the time, that four months of
4 interim Committee meetings so you can be ready
5 to vote in January.

6 Please don't be wringing your hands next
7 spring and saying there is not enough time.
8 There is plenty of time, so let's not waste it,
9 it is not fair to candidates, it is not fair to
10 constituents.

11 The second point, the Legislature
12 shouldn't be spending taxpayer money to oppose
13 implementation of the Fair District Standards.
14 As you all know, Representatives Brown and
15 Diaz-Balart have sued to have Florida's new
16 redistricting standards declared
17 unconstitutional even though they were approved
18 by the state Supreme Court before they were put
19 on the ballot.

20 The Florida House has joined this lawsuit
21 and the Secretary of State, Kurt Browning, is
22 the Defendant in the case. So this means
23 Florida taxpayers are now paying both to
24 prosecute and defend the same lawsuit. It is
25 just not right.

1 Senator Gaetz, you already said that you
2 and your colleagues were going to be upholding
3 the Constitution. I am counting on you, so
4 please stop spending our money trying to
5 undermine the provisions that were placed there
6 by 63 percent of the voters last November.

7 The final point, you mentioned you didn't
8 want to start out with any maps, and you are
9 having these 26 hearings, that is really
10 fabulous, but no maps are provided for citizen
11 comment.

12 Your Committee staffs, you already have
13 staffs working full time year round on these
14 issues, and I am sure they already have some
15 working drafts. I thank you again for taking
16 the time for citizen input and for the citizens
17 for making it, but it is hard to make
18 substantive constructive comments in a vacuum.

19 We have the technology as you mentioned,
20 to make the maps quickly with the available
21 census data. So I charge you to develop the
22 maps as soon as possible after the public
23 hearings conclude and you absorb all of that
24 citizen input so they can be out there for the
25 citizens to see well before you vote on them in

1 January.

2 And we do need to be ready to vote on them
3 in January, because only then will the public
4 have an opportunity for meaningful comment on
5 the real maps that are under consideration.
6 Thank you.

7 CHAIRMAN GAETZ: Thank you very much,
8 Mary. We appreciate you being here. Henry
9 Kelley is our next speaker, and following
10 Mr. Kelley, Patricia Rowe. Henry Kelley and
11 then Patricia Rowe.

12 Mr. Kelley, thank you for being here
13 tonight for taking your time, and you are
14 recognized.

15 MR. KELLEY: Thank you, Senator. On
16 behalf of the Committee I saw you yesterday in
17 Tallahassee and had the chance to address it
18 and said I would be back in Ft. Walton with a
19 few comments.

20 On behalf of the Ft. Walton Beach Tea
21 Party I am still disappointed to see criticisms
22 leveled at the Committee.

23 I appreciate that we are starting with a
24 blank slate. I mentioned yesterday that I have
25 gone in and used the software. I have drawn

1 Congressional Districts and I have drawn Senate
2 Districts.

3 The 120 House Districts, it is a little
4 daunting, but there is no reason that we cannot
5 -- that any group that has a staff can --
6 everyone can participate in this after about 15
7 minutes of using the software. So a few
8 particulars.

9 Mary Blackwell just mentioned the Fair
10 Districts was approved by 63 percent, and
11 Senator, you referred to the Constitution which
12 I just happen as a Tea Party guy to bring one
13 with me, and as I have been drawing up the maps
14 I call attention to the Tenth Amendment of the
15 Constitution which reserves the power of this
16 to the states.

17 And it is my belief that there is going to
18 be a major conflict between the Fair Districts
19 Amendment and some of the Federal rulings that
20 have resulted in gerrymandering districts, and
21 I encourage you to listen to the will of the
22 voters because this has now been codified in
23 our Constitution.

24 And I would ask that you take the will of
25 the Florida voters into consideration above

1 that of what a Federal Court Judge says in
2 keeping with the Tenth Amendment to the
3 Constitution, and nowhere in the United States
4 Constitution does it give the Federal
5 government the right to draw our districts.

6 Now, a few particulars for the northwest
7 Florida area. As I said, I have drawn the
8 maps several times, and particularly as we look
9 at the Senate and House Districts, and as we
10 look at the maps, one of the things that the
11 Fair District Amendments does say that the
12 media has made a lot of comments on is the use
13 of geographic boundaries.

14 But Amendments V and VI also say existing
15 political boundaries, and I would ask you to
16 consider that due to the unique nature of our
17 geography that our interests have more in
18 common horizontally across northwest Florida
19 than we do vertically.

20 In other words, Pensacola beach, Ft.
21 Walton Beach and Panama City Beach, they all
22 have something in common, and despite what our
23 friend from Daytona Beach says, you know, we
24 are kind of proud of this stretch of beaches,
25 and if you are not familiar with northwest

1 Florida along I-10 is mostly agricultural and
2 rural interests.

3 And I believe in looking at the
4 populations that our region should be drawn
5 horizontally, both within the Florida House
6 Districts and within the Florida Senate
7 Districts.

8 And on that note I wish to thank the
9 Committee for their time and the hard work. We
10 intend to participate on behalf of Tea Parties
11 around the state at as many of the hearings as
12 possible.

13 We will be submitting plans on-line and
14 like I said, I am thankful we are starting with
15 a blank slate and I appreciate your time.
16 Thank you, Senator.

17 CHAIRMAN GAETZ: Thank you very much,
18 Mr. Kelley. Next is Patricia Rowe and after
19 Ms. Rowe, Jan Dale.

20 MR. ROWE: I am Patricia Rowe, and I pass.
21 The people have pretty much said more than I
22 could possibly.

23 CHAIRMAN GAETZ: As we say in the Senate,
24 those who pass give eloquent testimony. Thank
25 you. Jane Dale, no, no, no. Let's not let

1 this become a habit. Anybody who wants to
2 speak.

3 MS. DALE: I am just going to do it right
4 here.

5 CHAIRMAN GAETZ: Jane, we can't have you
6 do it there because we want to carry you on
7 statewide television. No pressure. No
8 pressure, and after Ms. Dale is Edward
9 Armbruster, please.

10 MS. DALE: It is too bad you know me so
11 well, sir.

12 First I want to thank everybody for being
13 here tonight, and please, you all, it is very,
14 very important that we, the grassroots as we
15 always say, we really need to come with an open
16 mind and learn and listen to what everybody has
17 to say tonight and the other meetings, and that
18 is very very important and I hope we all use
19 both of our ears. Thank you all very much.

20 CHAIRMAN GAETZ: Thank you, Jane. Next,
21 Edward Armbruster and following Ed's comments,
22 we have, I believe it is Al, K-a-u-s-e-s.

23 MR. KAUSES: Al Kauses.

24 CHAIRMAN GAETZ: Al Kauses, of course. I
25 am sorry, Al, my handwriting is even worse than

1 yours. Ed, please go ahead.

2 MR. ARMBRUSTER: Thank you, Senator, I am
3 going to give back my time because your staff
4 out here answered my questions, and I thank
5 you.

6 CHAIRMAN GAETZ: Thank you very much, sir,
7 we appreciate your being here. Al, you are up,
8 followed by Howard Hill. Thank you very much
9 for being here tonight, Al, we appreciate your
10 presence and you are recognized.

11 MR. KAUSES: Well, thank you, and I thank
12 you all, ladies and gentlemen, for coming up
13 here and giving us a chance to yap before you.

14 I am here with the Florida Panhandle
15 Patriots as well as the Republican Party, and
16 as well as me, 23-year citizen of Okaloosa
17 County.

18 And we have one minor little thing here in
19 Okaloosa County that I would like to see taken
20 care of if at all possible.

21 We have got a little tail that runs in
22 Fred Drake's district out of Defuniak down here
23 in Okaloosa County, and being on just west of
24 Hurlburt here and I am on the shore side there,
25 I get caught up in this three or four-mile

1 segment down there.

2 And Brad gives me great service, and I
3 thank you, sir, and Matt, who's district kind
4 of runs up to that point and he has to jump
5 over my house to get to the rest of his
6 district, west of there, gives me great service
7 also. Thank you.

8 And we -- I would like to see that taken
9 care of. I think that would be very easy for
10 the Redistricting Committee and everybody else
11 to look into that and take care of it.

12 I totally agree with the beaches are the
13 beaches and the north end are the north end,
14 and I think those representing both up north
15 and down south have that in common and they can
16 take care of it a lot better.

17 I haven't had a chance to check out the
18 rest of the state, but I am going to do so,
19 your Redistricting cite is outstanding. It is
20 a little more construction coming up on it, but
21 I am going to delve into the south end down
22 there as well.

23 I think we will look at Daytona Beach as a
24 matter of fact. Again, I want to thank you
25 all, Magnolia Grill is outstanding, and enjoy

1 yourselves while you are up here and thank you,
2 Senator.

3 CHAIRMAN GAETZ: Thank you very much, Al,
4 we appreciate your testimony. Next we will be
5 privileged to hear from Howard Hill.

6 MR. HILL: As a retired politician, I
7 pass.

8 CHAIRMAN GAETZ: Howard passes, and next
9 we hear from Judy Burn-Riley, and following
10 Judy Burn-Riley, we will hear from Don Riley.

11 MS. BURN-RILEY: No relation.

12 CHAIRMAN GAETZ: No relation, at least as
13 far as we know. Mr. Riley is from Miramar
14 Beach, and Judy, of course, is from Niceville.

15 MS. BURN-RILEY: I am from Niceville, born
16 and raised in Okaloosa. First of all I just
17 want to say thank you for coming here.

18 Personally, I haven't seen so many elected
19 Democrats in Okaloosa County in, oh, too long,
20 and therein lies the issue, I suppose.

21 I want to thank you also for not skipping
22 Ft. Walton. I realize your Chair has a certain
23 bit weight and usually they go from Pensacola
24 to Panama City, and we have to travel if we
25 want anybody to hear what we have to say. So I

1 really appreciate what -- that you are here.

2 I have the same thing to say in terms of
3 the maps as has been said before. It is very
4 hard -- I went on the website. I found it a
5 little cumbersome quite frankly, and every
6 place it said it is under construction, it is
7 going to get better, trust us.

8 And so I will go back to it to try to see
9 what kind of input I can put to -- and put in
10 the numbers and see if we can get rid of the
11 rat tails and the packing and the stacking and
12 the things that have been done in the past.

13 I would caution you that the \$30 million
14 as I understand is what the redistricting costs
15 us, has been allotted in a budget that has
16 taken money from teachers and from a lot of
17 different areas that are very dear to our
18 heart.

19 If that is an incorrect figure, I
20 apologize, but there is a lot of money involved
21 in the hearings that you are going around 26
22 places in the state, and I would hope that, I
23 don't know if, now that you have come to Ft.
24 Walton, I don't care where you go, but if you
25 -- if you can cut those down.

1 I am concerned about the timing, excuse
2 me, but I am a little skeptical. When someone
3 says they are dragging their feet because they
4 don't want to get finished until it is so close
5 to the deadline that they won't have lines in
6 place.

7 So only an incumbent will have a real
8 advantage or will have a certain advantage and
9 that people who want to run won't know what the
10 districts are, they won't know where the lines
11 are, and a lot of time is being taken up by 26
12 public hearings.

13 And while I applaud the openness, I would
14 urge you to be ready on January when you do go,
15 be ready with your committees. Don't -- don't
16 -- don't make them right, make them wrong and
17 that is what I would like to say, thank you.

18 CHAIRMAN WEATHERFORD: Thank you very
19 much, Judy. Appreciate your testimony, and
20 next we will hear from Don Riley and following
21 Mr. Riley will Susan Harris be on deck and
22 ready, please.

23 Thank you, Mr. Riley, for being here, and
24 you are recognized.

25 MR. RILEY: Thank you, sir. Thank you,

1 Senator Gaetz and the other members of the
2 Committee, both for your public service as well
3 as for allowing me to offer my thoughts here
4 tonight regarding Florida's redistricting
5 process.

6 My name is Don Riley, and I live in
7 Miramar Beach. I am President of the Grand
8 Dunes Condominium Association.

9 I have one simple request for the
10 Committee. Please keep the legislative
11 districts in northwest Florida as close as you
12 can to where they are today.

13 Our Constitution requires that no district
14 lines be drawn to favor or disfavor any
15 political party or an incumbent, and to me the
16 solution seems rather simple. Move the
17 district lines as little as possible and little
18 credence can be given to any charges that lines
19 were moved for anyone's benefit.

20 Further, the current legislative district
21 lines have worked well. In the Florida Senate,
22 the similar towns along the Gulf of Mexico and
23 south of the Eglin Reservation, such as Miramar
24 Beach, Niceville, Shalimar, Navarre, Pensacola
25 Beach have one Senator whom we like,

1 incidentally, Don Gaetz.

2 The similar towns in the northern
3 panhandle, Milton, Defuniak Springs, Pace and
4 Crestview are represented by Senator Evers.

5 Currently the boundary between Senator
6 Gaetz and Senator Evers' districts runs
7 parallel to the Gulf of Mexico as others have
8 noted before me, creating a coastal district
9 and a northern district.

10 And I think it is far preferable to having
11 the boundary between their two districts
12 running vertically, perpendicularly to the
13 gulf, creating eastern and western districts
14 instead.

15 Radically changing the district lines
16 would be devastating to our coastal community
17 interests and would weakened our representation
18 in the Legislature, and it would similarly
19 disserve the interests of our neighbors living
20 in the northern part of this part of the
21 Florida panhandle.

22 I would urge you, please, keep the
23 district lines as they are now. Thank you.

24 CHAIRMAN GAETZ: Thank you very much,
25 Mr. Riley. We appreciate your testimony.

1 Next, Suzanne Harris, please, Ms. Harris, and
2 following Ms. Harris, Ed Winkelseth. Suzanne,
3 thank you for being here tonight and we
4 appreciate your testimony before the Committee.
5 You are recognized.

6 MS. HARRIS: Thank you. I want to thank
7 all of ya'll for coming. I think it is a
8 wonderful open process and that makes me feel
9 so good about our government that people care
10 to hear what we have to say.

11 My name is Suzanne Harris, and I am a
12 Walton County resident, and I represent
13 Edgewater Beach Condominium Association Resort.

14 As a local business woman I see how
15 economically diverse the panhandle of Florida
16 is. I live in a condominium on the Gulf Coast.

17 When I walk outside of my condominium and
18 I stand on the beach and I look up and down the
19 beach as far as I can see in any direction, I
20 see like property of mine, condominiums, rental
21 resorts, houses, but they are all basically the
22 same.

23 If I were north of the bay I would see a
24 totally different geographical dimension. I
25 would see farm land instead of sand and I would

1 see cattle and chickens and I would see a lot
2 of different things that are due to farming and
3 not that relate to the sand and the beach and
4 the tourist industry that we have here.

5 Currently the legislative districts are
6 mostly drawn in a way that recognizes the
7 uniqueness of our coastal areas. For example,
8 Senator Gaetz is my Senator. He is always
9 there for the coastal community. It doesn't
10 matter when we ask him to come, day or night,
11 he is always available. Most of us have his
12 cell phone number plugged into our cell phone
13 and I can tell you, he will tell you, I have
14 called him many a night saying, help, we need
15 something done for us.

16 He understands our district. His district
17 line is along the coast from Pensacola, Ft.
18 Walton, Destin, South Walton and into Panama
19 City. He understands us. I can't say that to
20 you enough.

21 Likewise, Senator Evers represents the
22 northern portion of Walton County, along with
23 the northern portions of our panhandle
24 counties.

25 This should not change. Please, I am

1 begging you, do not replace the current
2 district lines with a strict adherence to
3 county boundaries, instead, link together the
4 cities, the towns and the communities along the
5 coast wherever possible for Legislative and
6 Congressional Districts.

7 This will also allow you to link together
8 communities in the northern panhandle that
9 share the same economic interests.

10 The Florida Constitution requires the
11 Legislature to respect geographical boundaries
12 when drawing districts. In the Florida
13 panhandle the most significant boundary is
14 created by the vast land owned by the United
15 States Department of Defense north of Freeport,
16 Niceville and Navarre.

17 If the Legislature will draw the districts
18 either north or south of the military land, the
19 district community south along the coast and
20 north along the Alabama border will be best
21 represented.

22 I thank all of you. I used to live in Ft.
23 Myers, Florida, I still have a condo in Sanibel
24 Island, so I am very familiar with your
25 district.

1 I just came back from Palm Beach, not West
2 Palm, but Palm Beach, and I think all of ya'll
3 that live along there understand that everybody
4 doesn't have the same interest, and the beach
5 communities are only interested in bringing
6 tourism here and prospering for businesses and
7 the northern part of our district is interested
8 in totally different areas, and it would be
9 such a shame to combine them.

10 Now, I am going to leave you with one last
11 thing. I live in Walton County on the beach.
12 All of my County Commissioners live over an
13 hour away from Walton County that represent
14 Walton County.

15 It is very hard when you go to a County
16 Commissioner meeting in Walton County and you
17 have people from Paxton and Mosey Head and
18 Freeport on the Commission. They don't really
19 have the true understanding, and I can tell you
20 this firsthand because I am also on the Tourist
21 Development Council of Walton County.

22 I can tell you firsthand, it is very
23 difficult for them to understand the problems
24 that we in the beach front communities have.

25 Thank you.

1 CHAIRMAN GAETZ: Thank you very much,
2 Suzanne. Mr. Winkelseth, please, and following
3 Ed, Brenda Hall, Brenda Hall would be on deck,
4 please. Mr. Winkelseth, thank you for being
5 here.

6 MR. WINKELSETH: I am Ed Winkelseth, I
7 live over in Shalimar. I appreciate seeing all
8 of you folks. I am a 31-year -- 31 and-a-half
9 years in the military taught me to have fun.
10 So I am going to throw a hand grenade just like
11 I did at the staff meetings, and say I disagree
12 with all of the folks.

13 I believe in vertical alignment of the
14 counties. All I -- I live in the south end and
15 all I hear about is the beaches and we got to
16 refurbish the beaches, and we got to do this
17 for the tourists.

18 I believe if our Representatives are
19 representing north to south in the county, they
20 will learn the south part. They will know the
21 north part, and they will be fighting for their
22 whole counties.

23 I have got things drawn up just with
24 numbers. I won't hit a whole lot, but the big
25 thing is, Escambia County has got two

1 Representatives.

2 It would be slightly less than the ideal
3 district population. Hopefully the Committee
4 is smart enough to realize ideal is something
5 to go with.

6 Somebody like Matt, he picked, he would be
7 24,000 people over, but he is young and he can
8 handle that kind of thing. Brad Drake, he
9 wouldn't have to run out to see Al. I wouldn't
10 want to go see Al anyhow, but I have laid it
11 out, I have laid out the numbers. I have laid
12 out the differences.

13 The biggest thing is, we are counties, our
14 Representatives should be fighting for the
15 whole county, not for the beach people, not for
16 the tourism.

17 We have got people that live here year
18 round, and I did the same thing with the
19 Senators' list and I changed the one for
20 Congressman Miller, took one county away so
21 maybe he will be available to conduct Town Hall
22 meetings in our various counties.

23 Like I say, I just believe we got to get
24 over this north end of the county and south
25 end. I went to high school in that quote,

1 unquote, conservative district down there in
2 Broward County, south Broward. I learned
3 enough to get out of Florida because them
4 people are flaming Liberal.

5 No offense to you flaming Liberals on the
6 panel, and I went in the military for 31
7 and-a-half years and then eight and-a-half
8 years civil service. I screamed at the TV and
9 I did everything.

10 When I finally retired I ran into guys
11 like Henry. We still disagree a lot. Al, the
12 other folks, folks in the Republican Party, and
13 I decided to get involved.

14 Five years ago you wouldn't have seen me
15 at one of these meetings. I would have been
16 sitting home drinking a beer and cussing you
17 people out for not doing what I think should be
18 done. So as a result I have laid it out.

19 You can look at it, Henry will probably
20 crucify me when I leave here but that is
21 another story.

22 CHAIRMAN GAETZ: Ed, thank you very much.

23 MR. WINKELSETH: I have got it on a USB,
24 too.

25 CHAIRMAN GAETZ: Okay. Thank you, thank

1 you, and we will make this information
2 available to all members of the public.

3 Brenda Hall is next. Can we have a little
4 order there in south Florida? Thank you.

5 Brenda Hall is next and following
6 Ms. Hall, Mayor Sam Seevers from the City of
7 Destin.

8 Brenda, you are recognized. Thank you for
9 being here tonight.

10 MS. HALL: Brenda Hall. I have lived in
11 this area for 45 years, and I would like to
12 reiterate just a little bit about the maps not
13 being available and the public hearings before
14 the maps.

15 I think the public has already voted and
16 provided you with the guidelines for
17 redistricting. We paid for the software and
18 these engineers that are going to run it to
19 build new districts.

20 Until you provide the maps for comment,
21 this hearing process is a waste of precious
22 time and money. However, I would like to use
23 some of you time and my money.

24 CHAIRMAN GAETZ: Yes, for a sham it is
25 pretty well attended.

1 MS. HALL: Well, it is a shame, because on
2 June 8th, I would like to remind you that you
3 came and met with the Democrat Women's Club and
4 that you agreed that we would have hearings
5 like this after the maps were made.

6 So I just wanted to remind you that you
7 made that commitment, and -- but what I would
8 like to tell you all is what hasn't been said
9 is that what we voted for, what the public
10 voted for, what the citizens wanted was a fair
11 process.

12 I think that came out in fair districting,
13 and what we feel is always seems to be the most
14 important thing to you folks in the Legislature
15 is what the party wants, not what the citizens
16 want.

17 It is what the party wants, and I am here
18 to say that if -- and Mr. Gaetz said that when
19 his Senate Committee took this up we would not
20 be using party modifiers in deciding who was
21 going to go in which little box on the page.

22 And I would like some sort of a commitment
23 from the House of Representatives that they
24 would do the same thing.

25 If we don't have -- if we take away and

1 make ourselves color blind to red or blue, I
2 think that everybody in the state would agree
3 that they are getting a fair process.

4 We are just working with numbers. I
5 realize that we have to work with other
6 modifiers. We have to work with
7 African-American and Hispanic modifiers, but
8 there is nowhere in our Constitution that says
9 we have to work with Republicans, Democrats,
10 Independent modifiers.

11 So if we just got rid of those modifiers I
12 feel like we would get fair districts. We
13 would get rid of all of those little tail ends,
14 those little rat ends, those little squirrels
15 over on the side, and I think that both our
16 Legislators and the citizens would be happier,
17 and I know the Supervisor of Elections would be
18 a lot happier.

19 So that is my comment and I would like to
20 thank you.

21 CHAIRMAN GAETZ: Thank you very much,
22 Ms. Hall. We appreciate your testimony. Next
23 we will hear from Mayor Sam Seevers from the
24 City of Destin and following the Mayor, William
25 White, please.

1 Madam Mayor, thank you for being here and
2 you are recognized.

3 MAYOR SEEVERS: Thank you so much for
4 allowing me this opportunity to speak. First
5 of all I would like to thank each and every one
6 of you guys for all of the time that you are
7 spending up here and hopefully you will be able
8 to go fishing in the morning, red snapper are
9 biting right now like crazy. So if you get
10 that opportunity, do that and we have got
11 fabulous restaurants all over this area, so
12 please take advantage of it. We could
13 certainly use the income, especially after the
14 oil spill last year.

15 Senator Gaetz, again, thank you so much
16 for your leadership on this Committee. We
17 greatly appreciate it. On behalf of the Destin
18 City Council, we respectfully request that in
19 our city, our small city of 12,305 people, that
20 we have one House District, one Congressional
21 District and one Senate District.

22 Even though we are a very, very small
23 city, an example of one of the issues that we
24 have is Congressman Southerland has about 19
25 homes in our city in his district, and

1 Congressman Miller has all of the rest.

2 It may not -- it may seem like a really
3 good thing, having all of that representation,
4 but what happens is when individual citizens go
5 to vote, they get very confused. And in our
6 last election we had people standing in City
7 Hall wanting to know why they couldn't vote
8 when their neighbors across the street voted,
9 you know, for certain individuals and it just
10 makes it difficult.

11 And if you look on the maps it is really
12 interesting how they have these little tiny
13 juggernauts drawn on it. So we are just asking
14 it to clean it up, no one is asking for a
15 particular person, a particular party,
16 anything, just that the City of Destin is under
17 one House District, under one Senate District
18 and under one Congressional District.

19 So I appreciate your time this evening and
20 you guys have a good night.

21 CHAIRMAN GAETZ: Thank you, Madam Mayor,
22 we appreciate your testimony. William White is
23 next and following Mr. White's testimony, we
24 will hear from Mary Nielsan.

25 Mr. White, thank you for being here, and

1 you are recognized.

2 MR. WHITE: My pleasure. Just as a favor
3 to me, would all of the Democrats on the panel
4 please raise your left hands? Okay. That
5 wasn't exactly an aphrodisiac, but as a Liberal
6 who has lived in Okaloosa County for 35 years I
7 can assure you it is a difficult row to hoe.

8 What I would like to say, it is probably
9 early on in the game if we were to really
10 change the system out of this castle like
11 grotesqueries that get to be districts
12 sometimes and we have got a lot, a lot more
13 shovels full after tonight.

14 Perhaps seeing as no one can comment, I
15 would just like to ask the question
16 rhetorically, perhaps if we were sinical we
17 would say what we are doing here tonight is
18 rearranging the seats on the Titanic.

19 Particularly in a nation where democracy
20 has been shredded to the point where, for
21 example, it takes \$80 million to run for a
22 Senate Seat.

23 We are missing something, and I hope that
24 when it all comes out in the wash, mixes into
25 your equation, because the popular

1 misconception is that, you know, we do have the
2 best government money can buy. Let's prove
3 they are wrong. Thank you.

4 CHAIRMAN GAETZ: Thank you very much,
5 Mr. White. We appreciate your testimony. Mary
6 Nielsan is next and following Ms. Nielsan, Jim
7 Bagby, also with the City of Destin.

8 Ms. Nielsan, you are recognized. Thank
9 you for being here.

10 MS. NIELSAN: Thank you, thank you. Thank
11 you all for coming. This is a wonderful
12 opportunity. My name is Mary Nielsan, and I am
13 a resident of Walton County, in a community
14 along the beaches of south Walton.

15 We would like, many of us in this area
16 would like to have our beaches along the Gulf
17 of Mexico more contiguous with our
18 representation, and although that differs for
19 many people who spoke earlier, I believe that
20 there is opportunity to align things more
21 horizontally as compared to vertically.

22 I don't see that. Another gentleman spoke
23 about it being incongruous and we should all
24 run north, south, but there is opportunity to
25 be had by those communities that differ so

1 greatly amongst themselves from the north to
2 the south.

3 So sometimes you can look at something
4 that seems wrong or seems to be divisive, and
5 instead, you can take that and make a wonderful
6 opportunity out of it. So I would like our
7 leaders to be along the beaches where they have
8 common interest, common problems, and they are
9 working with all of these communities towards a
10 similar goal instead of being fractionated.

11 So that was my theory and I think we
12 should look horizontally a little bit. Thank
13 you.

14 CHAIRMAN GAETZ: Thank you very much,
15 Ms. Nielsan. We appreciate your testimony, and
16 Jim Bagby, a member of the City Council, City
17 of Destin, thank you for your service to our
18 community, and you are recognized.

19 COUNCILMAN BAGBY: Well, thank you,
20 Senator Gaetz, and I want to thank you. One
21 thing you didn't mention is you were
22 Dr. Tibbett's predecessor, and one of the
23 reasons we have great schools in this county is
24 in large part due to your efforts and your work
25 and I just wanted to thank you for everything

1 you have done for this county and for this
2 school in particular where two of my daughters
3 graduated.

4 I would like to thank all of you for
5 coming from all across the state to take time
6 out of your busy summer schedule. Some of you
7 may be off or whatever, and to come and just
8 spend a little time with us to learn our
9 interests, I appreciate it.

10 My name is Jim Bagby. I do sit on the
11 Destin City Council, our Mayor, our beautiful
12 Mayor, just spoke. I am also -- that is my non
13 paying job.

14 My paying job is I am the Town Manager of
15 Rosemary Beach, a little community down in
16 Walton County, as another bench front community
17 and so I go about 30 miles every day along the
18 beach, along the beautiful beaches of northwest
19 Florida.

20 And your job is difficult. I know it is,
21 because you have a lot of things you have to
22 deal with. You have to balance populations,
23 you have to look at geographic boundaries, you
24 have to make sure everything is contiguous.

25 You have to protect the rights of

1 minorities, you have to look at communities of
2 common interest and existing political
3 boundaries and make sure these districts are
4 compact, and a million other things, and I
5 understand that.

6 You know, Representative Ford would
7 understand where Mayor Seevers and I are coming
8 from as a former member of the Florida League
9 of Cities, because Destin is, we have got 12 or
10 13,000 people, and I live in Steve
11 Southerland's Congressional District, and I am
12 happy to live in Steve Southerland's
13 Congressional District and I live in Marti
14 Coley's House District.

15 And I am glad to live in Marti Coley's
16 House District, even though she lives about two
17 hours east of me, okay, but if I go about a
18 mile to the west of me I would be in Matt
19 Gaetz's, excuse me, Legislative District, and I
20 would be in Jeff Miller's Congressional
21 District.

22 And a town that small shouldn't be split
23 that many ways, that many times. And so I
24 would ask you to really look at putting all of
25 Destin in one district.

1 The other thing I would ask you to do is
2 put a lot of weight on these communities of
3 common interest. I think there have been some
4 people that alluded to it, you know, if you
5 represent a beach community in south Florida,
6 just think if you went due east or due west for
7 40 miles into that, into the heartland of
8 Florida as opposed to right there in Pinellas
9 County or around the Tampa Bay or whatever.

10 Entirely different issue, entirely
11 different issues being dealt with by those
12 Representatives.

13 We have three main communities of interest
14 in northwest Florida. We have our agriculture
15 on the north, we have our military slash
16 industrial, but mainly military in the center
17 and we do have our tourism, and while I respect
18 the gentleman's view that, well, you know, just
19 keep it in Okaloosa County or keep it in Santa
20 Rosa County, that makes your job harder, okay,
21 because that makes you a mile wide and a
22 quarter of an inch thin, when you are trying to
23 represent interests, our interests in
24 Tallahassee and you have to be an expert in
25 military affairs, you have to be an expert in

1 tourism, you have to be an expert in
2 agriculture.

3 You have to be an expert in 40 other
4 different topics, that, that is not fair to you
5 and that is not fair to us, fair to us, the
6 people that we -- you are representing.

7 So I would ask that you not spread
8 yourself too thin, that you keep Senator Evers
9 in the north who does a great job representing
10 agricultural interests and the interest of our
11 farmers, and you keep Senator Gaetz in the
12 south representing the beach communities, the
13 military and they both do a great job with the
14 military, but we are communities of common
15 interest and I just ask that you put at least
16 as much weight, if not more on that, than you
17 do on some artificial geographic boundary that
18 was created 150 years ago. Thank you very
19 much.

20 CHAIRMAN GAETZ: Thank you very much,
21 Councilman. Next we will hear from Charlotte
22 Flynt, and after Ms. Flynt speaks we will hear
23 from Christy Walker, please.

24 Ms. Flynt, I am sorry, I didn't give
25 Ms. Flynt as much warning as I would have

1 liked, but we are delighted to have you here,
2 and we welcome your testimony. You are
3 recognized.

4 MS. FLYNT: My name is Charlotte Flynt. I
5 am in Precinct 29, Walton County, and a lot of
6 things have been said tonight and I concur with
7 the vast majority of them, but I do hope that
8 you will also keep your hearts that in the
9 south part of the counties not only do we have
10 tourism, we have permanent residents, too, who
11 fund these counties. Thank you.

12 CHAIRMAN GAETZ: Thank you very much,
13 Ms. Flynt. Christy Walker, Ms. Walker?

14 MS. WALKER: I will pass, thank you.

15 CHAIRMAN GAETZ: Thank you very much,
16 Ms. Walker, thanks for being here tonight.

17 Next, Morgan Doolittle and following
18 Morgan Doolittle, and I think it is Ann, is it
19 Ann Hering, yes, it is. Morgan Doolittle.

20 Thank you very much for being here,
21 Mr. Doolittle, and we appreciate your testimony
22 and you are recognized.

23 MR. DOOLITTLE: Well, I actually live in
24 Panama City, Florida, but I work over here in
25 Okaloosa County, and I probably wouldn't have

1 come up and said anything, but I wanted to go
2 on record saying thank you very much for doing
3 this.

4 But also I wanted to support that the
5 Council member's testimony there from Destin.
6 I have heard a lot of different ideas about the
7 vertical separation and all of the ways to
8 break the districts down, but I would also like
9 to, I guess ask that when we do go through this
10 redistricting process, that we -- we cut off
11 those little tidbits, and, you know, you know,
12 like how neighborhoods have sort of been broken
13 up.

14 And I think that is, when you look at some
15 of these maps, you wonder how were these drawn
16 and maybe ya'll weren't there. I think when
17 you look at them yourselves, and you go, well,
18 some of this needs to be fixed obviously, and I
19 would just like to go on record as requesting
20 that and supporting his testimony right there.
21 That was excellent.

22 CHAIRMAN GAETZ: Thank you, Mr. Doolittle.
23 We appreciate it. And for the record, none of
24 us were here. That is a great thing about term
25 limits, we can blame our predecessors and our

1 successors. Ann Hering, Ms. Hering? We will
2 come back to Ann Hering if she had to step out
3 for a moment.

4 Next, Brenda Rees, Ms. Rees. It is great
5 to see you again and thank you very much for
6 being here tonight. You are recognized to
7 speak before the Committee, and following
8 Ms. Rees by the way, is Vickie Ritchson.
9 Ms. Ritchson, if you could be on deck.

10 MS. REESE: Thank you, Senator Gaetz and
11 Committee members and Representatives. I am a
12 Walton County native. I was born in Defuniak
13 Springs but I live on the beach off of 30A in
14 South Walton, so I know the area well.

15 I also would like to let you know that
16 haven't been here before that Walton County is
17 the eighth county created in Florida, nearly
18 200 years old.

19 But thank you for holding these 26 or so
20 redistricting meetings across the state. They
21 are very helpful and will help Floridians and
22 you as we craft our fair districts.

23 I would like to ask you to consider
24 perhaps adding two or five super regional
25 meetings at the end so that those of us that

1 are here early might benefit from all of the 26
2 Committee groups that testify so that we might
3 update our comments somewhat.

4 You have provided maps and I thank you.
5 By taking these current maps into consideration
6 with the census numbers and extensive
7 redistricting guidelines, an individual can
8 quickly see where some changes need to be made.

9 Congressional District I is 2,000 short,
10 and Congressional District II is 45,000 over.
11 That is 696,000 ideal district. Obviously,
12 changes need to be made.

13 You have also offered generous tools for
14 individuals to construct their own maps. I
15 hope to do so soon. Thank you.

16 A quick look at the State House and Senate
17 maps you have provided, along with the numbers
18 indicate change. The 10 percent deviation
19 should be utilized here. Thomas Hanna was a
20 Speaker of the House, by the way, from Pointe
21 Washington, some of you might know that.

22 Congressional District I should take back
23 Blue Water Bay and consolidate as much as
24 Okaloosa County as possible. Congressional
25 District II may need to continue to look to its

1 historical roots. South Walton even has a long
2 history of being with the county next to it,
3 Bay County for a long time.

4 So keeping South Walton with Congressional
5 District II would meet not only the new state
6 requirements of compactness, but also Federal
7 redistricting guidelines of ensuring one
8 person, one vote. Following the Voting Rights
9 Act of 1964, as amended in 1965, being compact
10 and contiguous to name some of the guidelines
11 used for many years in case law by the United
12 States Department of Justice.

13 Two new areas that are very blue, this is
14 a map that I printed off your website so it is
15 very helpful to go on to that Florida
16 Redistricting.org and people can go to that and
17 print material and see all of the very helpful
18 U-Tube explanations of how to draw their maps.

19 But if you look on this map, it is very
20 obvious, there is a very blue area that is
21 extremely over populated that the new
22 Congressional Districts, perhaps one of them
23 may need to come from that area. Maybe the
24 Orlando and the Tampa areas particularly look
25 like that is where you might need to be working

1 on those Congressional Districts.

2 It is practicable to make substantive
3 comments now. It will be good to wait and see
4 what some of the citizens come up with in areas
5 we aren't familiar with, especially the House
6 and Senate Districts where we can have a
7 10 percent deviation.

8 In the Congressional Districts it might be
9 a little bit hard because there is only that
10 one vote that separates them. So once you get
11 to Pensacola you can't go any further west, and
12 so, but again, with the State and House Seats
13 having a 10 percent deviation, that will help
14 us later on to do that.

15 So I look forward to meeting you with
16 again and participating and continuing dialogue
17 to produce a fair redistricting plan for
18 Florida. Thank you very much.

19 CHAIRMAN GAETZ: Thank you very much,
20 Ms. Rees, and Ms. Rees makes a good point when
21 she asks about being able to update your
22 comments based on information that might be
23 presented on the web, or presented by
24 Legislators in Committee.

25 You will have the opportunity to do that

1 either by e-mail and the e-mail lists e-mail
2 addresses for the Senate and House Committees
3 are listed on the brochure that you got when
4 you came in, or the Snail Mail addresses are
5 listed as well.

6 And as a previous speaker from the
7 Democratic Committee indicated, there will be
8 additional opportunities for public input after
9 these hearings are concluded and after maps are
10 presented.

11 Thank you very much, Ms. Rees.
12 Ms. Ritchson, it is good to see you again.

13 MS. RITCHSON: It is good to see you
14 again, Senator Gaetz.

15 CHAIRMAN GAETZ: And thank you very much
16 for being here. You are recognized.

17 MS. RITCHSON: Thank you. I am Vickie
18 Ritchson and I am a concerned citizen. That is
19 how I am here today. I live in the city of
20 Niceville.

21 I happen to be running for the City
22 Council in the election in July, but I am just
23 here as a citizen right now.

24 I just read the article in the newspaper
25 that Senator Gaetz had put in and felt like I

1 needed to be here and be involved, and I want
2 to thank you for this opportunity and I want to
3 say, you know, I hadn't come here with any
4 preconceived notions, but it is wonderful to
5 listen to the people's perspectives to gather
6 my knowledge to be able to go later to the
7 website and give an informed opinion.

8 And I was listening to the vertical and
9 horizontal and I can see both points, and I was
10 thinking that it might be difficult if some
11 line took Eglin and split it down the middle,
12 that you might have two Representatives working
13 together, but at the same time you might end up
14 with two people butting heads.

15 And so in that respect I could see that
16 boundary lines being continuous in a certain
17 like category would make it much easier for
18 representation, making -- I draw maps for my
19 job.

20 I work for a contractor on Base, and part
21 of what I do is draw footprints for the
22 missions out on the property that they do, and
23 in that I do a lot of map drawing. So I am
24 looking forward to going out to your software
25 and playing with it, and I do know it is much

1 easier for me to draw to boundaries that are
2 locateable, a river, a road, an air space,
3 county line.

4 And that makes sense to me, and most
5 cities are not split by county lines. So
6 following, following boundaries makes sense to
7 not split groups of people with like interests.

8 I had a misconception maybe like other
9 people that the last time we had a
10 redistricting, that it was a power play for
11 political power play to grab new areas with new
12 people and for there to be a juggling of
13 Republican and Democratic powers, and I feel
14 like your process here is going to be a more
15 transparent process that will prevent people
16 from feeling that they are being over powered
17 by some political game.

18 The logical lines, the military presence,
19 the beaches and tourist industry are all
20 pertinent things to consider, and I will be
21 taking the rest of the comments that come today
22 and what you present for us in software and
23 maps, and I will be involved in that and make
24 some comments at a later time that where I have
25 an informed decision.

1 But I do appreciate the process you have
2 here, opening it up to just normal people as
3 well as power -- people in power for the cities
4 and the Representatives, but I was just very
5 impressed that there were so many of you who
6 came out tonight for us.

7 CHAIRMAN WEATHERFORD: Thank you,
8 Ms. Ritchson, appreciate it very much. Next we
9 will hear from Aaron Thrush, Aaron Thrush, and
10 following Aaron Thrush, from Jeanne Ashley,
11 please. Mr. Thrush, are you here?

12 MR. THRUSH: I pass.

13 CHAIRMAN GAETZ: Thank you very much, sir,
14 for being here tonight. Jeanne Ashley,
15 Ms. Ashley, and following Ms. Ashley, Ben
16 White, Mr. White. If you will be on deck.

17 Ms. Ashley, thank you for being here, you
18 are recognized.

19 MS. ASHLEY: Thank you, I appreciate it.
20 I have lived all over the country, mostly in
21 cities, so I have not really been part of the
22 gerrymandering until now, and I found out
23 accidentally the night before we were to vote
24 for our delegates, I had been, immediately when
25 I moved here, registered to vote, joined a

1 political party, got to know the people, was
2 anxious to vote for the delegates.

3 The night before I was to go to Crestview
4 I thought I found out that I was in that little
5 split of land right off of 98 that is in a
6 totally different district.

7 And then I was expected to go to
8 Tallahassee to vote for people I have never met
9 and had no clue, you know, who they were and
10 certainly was going to be out voted.

11 I felt disenfranchised. I felt taken,
12 really. I understand that the beach issues are
13 much different from the northern part, and I
14 would like to keep that maintained, but to have
15 an area so spread out that you go from Destin
16 to Tallahassee, that gives us no representation
17 whatsoever.

18 We are totally outvoted. So if you can
19 possibly do something with, I don't know,
20 Walton, Okaloosa, maybe even closer to
21 Pensacola, at least it is not 150 miles away,
22 you know, I would very much like to have a
23 personal relationship with my representation
24 rather than somebody who is way off in the wild
25 somewhere. Thank you very much. Appreciate

1 it.

2 CHAIRMAN GAETZ: Thank you, Ms. Ashley.
3 We appreciate you being here tonight. Next may
4 we please hear from Ben White? Ben White?

5 Mr. White, thank you for coming all the
6 way down from Crestview. We appreciate you
7 being here, and you are recognized.

8 MR. WHITE: Thank you, Representatives,
9 and Senators as well, that make up our
10 government for the State of Florida.

11 One of the things from representing the
12 North Okaloosa Republican Club in Crestview,
13 one of the things that the north looks at if
14 you sat in the middle of 85, on the left is
15 Brad Drake, I mean, on the right is Brad Drake
16 and on the left is Doug Broxson, and then we
17 have Senator Evers.

18 One of the three common, one of the common
19 denominator between those three Representatives
20 is they all live in our district. They know
21 what we are dealing with. They understand it.

22 If I go to the south I do have Matt Gaetz,
23 Mr. Gaetz, and Don Gaetz, that represent the
24 south.

25 They live down there. They understand the

1 rules and problems that those individuals have.
2 So being in Crestview, it doesn't matter
3 whether you turn right or turn left, those two
4 individuals understand the north end of the
5 county.

6 They live it, they understand it, most of
7 them is also born and raised in that area, or
8 grown up from there. I moved in from Crestview
9 from Panama City Beach after serving 23 years
10 in the military and I made it my home, but I
11 can talk to all three of those individuals and
12 they all understand what we are going through.

13 Now, if you do go vertical, not to say
14 Mr. Gaetz isn't a smart man, but his whole idea
15 is that the tourist industry down there and he
16 can flip it down there, but at the same token I
17 want to say this, every one of you represent
18 every one of us.

19 At the end of the day it is your vote that
20 represents the State of Florida, whether you
21 are a Liberal, whether you are a Democrat,
22 whether you are a Republican or Conservative,
23 whatever it be, we are looking for you to lead
24 the State of Florida, so thank you, sir.

25 CHAIRMAN GAETZ: Thank you very much,

1 Mr. White, we appreciate you. Our next two
2 testifiers are Mike Brown and Kim Christopher.
3 Mike Brown and then if Kim Christopher would be
4 on deck, please.

5 Mr. Brown? Mike Brown? If not, Kim
6 Christopher, are you ready? May we take you
7 next? And following Kim Christopher we will
8 hear from Diana Van Oeveren.

9 MS. CHRISTOPHER: Good evening. Thank you
10 all for being here. I really appreciate seeing
11 all of these great faces. I know what you do
12 for us is a tough job, it is a good job and
13 often not rewarding.

14 What you are doing here should be very
15 rewarding for what you are doing for the state
16 of Florida and the citizenry.

17 I have lived in Florida since 1986. I
18 married a native. I came from Texas and I now
19 call myself a Floridian after all these years,
20 and Senator Montford, thank you, I have a
21 doctor in my family because of you as
22 Superintendent of Leon County Schools.

23 I have been through this process three
24 times. this is the third time since 1986.
25 This is probably the most clear and fluid

1 process since I have watched it happen, and I
2 know that the media, the system is better, more
3 transparent because we do have things like the
4 Internet.

5 We do have more conversation, we do have
6 hopefully all of the papers on board, but one
7 thing that I noticed when they were doing the
8 census, I own a piece of rental property. When
9 they did the census they counted my renter.

10 My renter no longer lives in the State of
11 Florida. That happens frequently when you are
12 in areas that surround military bases. It is a
13 very transient population that I don't think
14 has been considered.

15 The renters that I have currently will not
16 be here to vote in the next election, though
17 they are registered to vote. They are required
18 by their military mission for their time here.

19 That is causing issues that I can see. We
20 have across the state of Florida, specifically
21 the panhandle, a large number of people that
22 are on a limited military mission. It could be
23 as short as eight months, or as long as 18 to
24 24 months.

25 Those are for the people being trained in

1 the special missions at Eglin, Tyndall, White,
2 name them all.

3 I would ask, caution you to please
4 consider that demographic when you are drawing
5 these lines, because what we are having now is
6 the influx coming from the new mission at Eglin
7 of a large number of people.

8 Those persons were not counted in the
9 census. So your numbers immediately are
10 inaccurate. So with that I would thank you
11 very much again for your time for being here,
12 for your tremendous effort and I look forward
13 to following your progress. Thank you.

14 CHAIRMAN WEATHERFORD: Thank you,
15 Ms. Christopher. Thank you very much. Very
16 thoughtful testimony. Diana, are you ready?
17 Very good, and following Diana, Dick Troop.
18 Thank you for being here tonight and you are
19 recognized.

20 MS. VAN OEVEREN: Diana Van Oeveren, I
21 live in Destin, and I would like to reiterate
22 what Mayor Seevers and our Destin Councilman
23 said about a small community that usually talks
24 to each other should be able to talk to each
25 other about who to vote for, and it didn't work

1 this time, either in the House race or the
2 Congressional race.

3 So, and as an example, I wanted to talk
4 only about House District 7, Marti Coley's
5 district. It would be 106 miles for a Destin
6 constituent to drive to Marianna to contact
7 Ms. Coley about anything.

8 If you went 100 miles in the other
9 direction or north, you would be in Alabama.
10 So I think you ought to keep that in mind.

11 The media covers areas perhaps differently
12 than county lines, differently than district
13 lines, but I think that may be something that
14 you should consider as much as you can. Is
15 Ms. Coley covered in the Panama City or the
16 Marianna paper? I don't know, because I don't
17 even have access to those papers unless I can
18 find them on-line. They are not sold in
19 Destin.

20 Our local newspaper tries to cover about
21 three counties, but that is only about half of
22 Marti Coley's district. Her district includes
23 nine counties. The main parts of two and lots
24 of little pieces of seven others, I believe.

25 So I think that is something you should

1 consider. The compactness just is not there.
2 Horizontal districts could be more compact,
3 vertical districts could be more compact in a
4 different way, but right now we have got these
5 little tails and Destin got caught in two of
6 the tails.

7 The suburbs of Marianna, for an example,
8 don't even have Marti Coley as their
9 representative. They are in another district.
10 So give her all of Marianna and take us off and
11 add us to somebody else.

12 The same thing happens in Tallahassee with
13 Steve Southerland's district. Their
14 Congressman on the east side of Tallahassee is
15 not Steve Southerland. He is the Congressman
16 only for a piece of Tallahassee. So I think
17 you ought to keep that in mind and when you get
18 to Tallahassee or near Marianna I am sure they
19 will be addressing these issues in the same
20 way. Thank you.

21 CHAIRMAN WEATHERFORD: Thank you very
22 much. We appreciate your testimony. Dick
23 Troop is next and following Mr. Troop is Sabu
24 Williams from the Okaloosa County NAACP.
25 Mr. Troop.

1 MR. TROOP: The first thing I would like
2 to thank everybody that came from the long
3 distances to be with us tonight. I know you
4 would rather be somewhere else.

5 Something that came up early in the
6 meeting was a discussion of the imaging
7 software, and as I look around, I am happy to
8 see some young people in the group.

9 There is also some of us older folks, and
10 so I started with software when new versions
11 come out. You have imaging software, as I
12 understand it, that is, you know, being built
13 now and so I would like to know that every one
14 of you, all of the Representatives, can turn on
15 your computer, boot up the software, go through
16 and run the software and show how the lines are
17 manipulated north, south, east or west.

18 And it is fine to get help from your staff
19 to learn it, you know, that is part of the
20 game, but I would like to know if you come in
21 by yourself in the morning at 7:00 o'clock, you
22 got it up and you can see how the numbers move
23 around. Thank you.

24 CHAIRMAN GAETZ: Thank you very much,
25 Mr. Troop. I will tell you, Mr. Troop, that

1 when this software was first developed we did
2 get an orientation and we got individual
3 tutoring. So if we don't know how to do it, it
4 is our fault. Sabu Williams, Mr. Williams, and
5 following Mr. Williams we will go back to those
6 individuals who we called earlier who were not
7 able to be present. Perhaps they were out of
8 the room.

9 Mr. Williams, thank you for being here.
10 You are recognized.

11 MR. WILLIAMS: Thank you for having me,
12 Senator Gaetz and I thank all of you for being
13 here. I just walked in the door and somewhat
14 just got home from New York and thought I had
15 to be here and I wanted to make sure that the
16 NAACP's points were made clear to this
17 Committee in terms of how we feel about
18 redistricting.

19 Number one the state of Florida we believe
20 should ensure transparency and fairness in
21 compliance with the Voting Rights Act and with
22 equal protection. You should ensure one
23 person, one vote. You should redistrict in a
24 way that avoids minority vote delusion and you
25 should avoid drawing district lines so that the

1 minority population is over concentrated or
2 packed into election districts.

3 You should also be careful to avoid
4 cracking or fracturing, if you will, which is
5 drawing district lines so that an area of
6 concentrated, concentrated minority population
7 which is large enough for separate
8 representation in that it could constitute one
9 or more majority, minority or majority black
10 districts is divided and spread among several
11 districts that are predominantly White.

12 You should be careful to avoid stacking,
13 which is drawing district lines so that a large
14 minority population concentration is included
15 with a larger white population with a purpose
16 or effect of depriving minority voters of a
17 voting majority.

18 We also respectfully request that you
19 avoid drawing plans that erode minority rights
20 relative to the status quo. That is, that you
21 avoid creating retrogressive redistricting
22 plans.

23 A key traditional redistricting principles
24 to respect for communities of interest. These
25 are defined by three characteristics, the

1 extent to which non members identify members as
2 a distinct community. The extent to which
3 members identify themselves as a distinct
4 community, and the extent to which members are
5 similarly affected by governmental action.

6 African-American citizens form one of the
7 strongest communities of interest in this
8 state, and the redistricting plan should have
9 as a priority the fashioning of districts that
10 accord appropriate representation to
11 communities of interest.

12 We are aware of the redistricting
13 principles outlined in Sections 20 and 21 of
14 the Florida Constitution and they must be
15 adhered to. Specifically, it says, districts
16 should not be drawn with the intent or result
17 of denying or abridging the equal opportunity
18 of racial or language minorities to participate
19 in the political process, or to diminish their
20 ability to elect representatives of their
21 choice.

22 In addition, districts shall be compact
23 and contiguous. Additionally, we want to
24 ensure that the long established principles by
25 the Constitution and the Voting Rights Act of

1 1965 are continued, such as, ensuring one
2 person, one vote and avoiding minority vote
3 delusion.

4 Finally, in producing the data for the
5 maps we ask that you include precinct and
6 district voting age population, VAP, if will,
7 de-aggregated by race or national origin, and
8 would ask that the data also include VAP of
9 citizens who can vote, that is, the position,
10 if you will, of not only the Okaloosa County
11 NAACP, but the Florida State Conferencing
12 NAACP, and thank you for this opportunity.

13 CHAIRMAN GAETZ: Thank you very much, Mr.
14 Williams. I appreciate your testimony. Now we
15 will go back to two individuals who's name we
16 called originally, but they weren't able to be
17 present in the room or perhaps they stepped
18 out. We want to hear from them if they are
19 here.

20 Ann Hering, Ms. Hering?

21 Mike Brown, Mr. Brown? Okay. This
22 concludes all of the individuals who signed up.
23 Now let me ask this. Are there any -- are
24 there any people here tonight who wish to speak
25 and did not have the opportunity to sign up?

1 If so, if you will raise your hand we will
2 get you a speaker card and we will call on you,
3 because we want to make sure everyone has the
4 opportunity to speak if you wish to speak.
5 There is a lady back there.

6 Will a member of our staff please get a
7 speaker card to her? Is -- someone over here
8 as well, and a gentleman in the back, and a
9 gentleman over on the couch.

10 All right. While we are waiting to
11 collect those speaker cards and we will hear
12 from those individuals, let me recognize
13 Vice-Chair Precourt because we, while we have
14 been in session tonight we have received some
15 comments from people who have been following us
16 on the Internet and wish to have their comments
17 registered as well.

18 These may be people from our area who
19 weren't able to come to the hearing tonight,
20 but they want their comments read aloud,
21 Mr. Vice-Chair.

22 VICE-CHAIR PRECOURT: Thank you Mr. Chair,
23 and, yes, in fact, one of them is from this
24 area via Twitter from the Destin Chamber of
25 Commerce.

1 We have the following comment. The --
2 they want to notify everyone that redistricting
3 meetings are taking place. Let's hope that
4 they put the entire city of Destin into one
5 district, not split, and in a coastal district.

6 That is a great comment, and I want to add
7 a little commentary to it, because that is a
8 little bit open to interpretation.

9 This is a really good point to reiterate
10 that the single most effective way to have an
11 immediate impact on this as I believe the
12 gentleman, Al, did tonight, is to submit an
13 actual map.

14 You know, we have all heard over the
15 course of time, a picture paints a thousand
16 words, but it is also usually a lot clearer and
17 less open to misinterpretation. So to the
18 degree that you can submit maps I wanted to
19 reiterate that point. These aren't comments,
20 these are specific issues.

21 CHAIRMAN GAETZ: Okay, we will hear from
22 Tony, and is it Lengyel?

23 MR. LENGYEL: Lengyel.

24 CHAIRMAN GAETZ: Lengyel, I am sorry for
25 mispronouncing your name, Tony. Would you

1 please come forward? We are delighted you are
2 here tonight and anxious to recognize you and
3 hear your testimony.

4 And following his testimony, Jann Coulson,
5 please, would be on deck.

6 MR. LENGYEL: Thank you, sir. Thank you,
7 Senator, my name is Tony Lengyel and I am with
8 the Florida Panhandle Patriots.

9 I appreciate you all being here as well
10 and I see a lot of friends here and I really
11 appreciate the representation by the people and
12 you folks here this evening.

13 I would just, you know, I want to get to
14 these maps and look at these things and I just
15 want to say that I am, you know, a southern
16 California beach boy kid and I gravitated to
17 Florida and I love it here and I live down by
18 the beach.

19 To keep things simple with this process,
20 to look at things from a perspective that
21 everything doesn't need to be changed.
22 Possibly do some tweaking and look at the
23 things like some of the other folks here said
24 tonight, you know, where you have these tails
25 and this and that needs to be -- things need to

1 be straightened up or cleaned up.

2 I don't know that, how many people in the
3 room like all of the changes that have been
4 going on here lately, but, you know, I do think
5 that there needs to be some correction in the
6 process. I think that if you take that into
7 consideration. Let's not overhaul the entire
8 system, but let's kind of do the tweaking and
9 fix things as need be.

10 And by the way, I just wanted to stress
11 that this is my opinion, it is not that of the
12 Panhandle Patriots I am a member. If you ever
13 get a chance you ought to come to one of our
14 meetings.

15 But and also while you are doing this
16 redistricting, you might take a look at putting
17 all of the Tea Parties in one district. It
18 wouldn't be a real tough thing to do, I mean,
19 just keep it in mind.

20 CHAIRMAN GAETZ: We might get some support
21 for that from some people that would surprise
22 you.

23 MR. LENGYEL: Thank you so much, Senator.
24 Thank you all for being here, and we do
25 appreciate your time.

1 CHAIRMAN GAETZ: Thank you, Mr. Lengyel,
2 we appreciate your comments. And now, Jann
3 Coulson and followed by Steve Czonstka. Jann,
4 thank you very much for being here tonight, and
5 you are recognized.

6 MS. COULSON: Thank you. I came to
7 listen, and now that I have listened, my
8 greatest concern I don't hear being
9 articulated, and that is that I am hoping that
10 all of you will listen very carefully to the
11 local officials, especially your County
12 Supervisor of Election officials, because you
13 can draw pretty maps and you can do a lot of
14 things, but when you have a confused
15 electorate, they either don't show up or they
16 show up in the wrong place or they get
17 confused.

18 And in the last Presidential election we
19 turned 100 people away from our precinct
20 because they were confused about where they
21 voted. Because of early voting we were very,
22 very fortunate that none of those who were
23 turned away without an opportunity to vote, but
24 as it got closer and closer to 7:00 o'clock I
25 had real concern that we were going to

1 disenfranchise somebody because those maps are
2 sad.

3 And unless there is a compelling reason to
4 make them long and squiggly, please make the
5 lines logical and reasonable, and I understand
6 that each of you is, by charge, must represent
7 all of the people in your area, and when I see
8 a Senatorial District I know that they are
9 going to be representing not just the beach,
10 contrary to what people may attribute to you.

11 I know your view is broader than that,
12 Senator Gaetz. I am far more concerned that it
13 makes sense. I actually worked for another
14 election authority earlier in my life and I am
15 still trying to figure out what all of the
16 districts are that I live in, and I am very
17 frustrated by that.

18 Literally I have gotten an invitation to
19 go to the Supervisor of Elections Office and
20 look at maps in their office because it is so
21 complex. So please listen to your Supervisor
22 of Elections across the state. Thank you.

23 CHAIRMAN GAETZ: Thank you, and
24 Ms. Coulson, before you leave, let me just say
25 because just you raised the issue that indeed

1 John Guthrie who is our professional staff
2 director in the Senate, has met with the
3 Supervisors of Elections statewide and they
4 were all invited to attend these hearings as
5 the hearings move into their communities.

6 So we are very interesting in their
7 feedback. So thank you for making that point.

8 MS. COULSON: Thank you.

9 CHAIRMAN GAETZ: Thank you, and next,
10 Steve Czonstka, and following Mr. Czonstka,
11 Gayle Jacobson.

12 Steve, thank you for being here, and you
13 are recognized.

14 MR. CZONSTKA: Thank you for giving us the
15 opportunity to speak. I think that the fact
16 that Okaloosa County is represented by four
17 members of the House, Florida House of
18 Representatives, two Senators and two
19 Congressmen is a positive thing, and so I would
20 just as like to keep that representation. It
21 gives us a voice on things that may come up in
22 the future.

23 I am -- also work for the Supervisor of
24 Elections and am a Precinct Clerk, and I want
25 to echo what the lady before me just said. We

1 had a special election for House District 4,
2 and I live out in Blue Water Bay, Precinct 46,
3 which is split by House District 4 and House
4 District 5.

5 Half of the people who wanted to vote for
6 Representative Gaetz couldn't because they were
7 in Brad Drake's district. Now I know you got
8 to worry about the School Board, you got to
9 worry about County Commission, you got to worry
10 about House and Senate Districts, but I want to
11 again emphasize that if there anyway possible
12 to coordinate with the Supervisors of Elections
13 when they are drawing their precincts, I think
14 that would really minimize voter confusion when
15 they come.

16 Now, a lot of it is the voter's fault.
17 They should know who their Representative is,
18 but we can't always educate the voter as much
19 as we can, so thank you for your opportunities.

20 CHAIRMAN GAETZ: Thank you very much,
21 Steve. I appreciate your testimony. Next,
22 Gayle Jacobson and following Ms. Jacobson,
23 Albert Perez. Gayle, it is great to see you as
24 always, and you are recognized. Thank you for
25 being here.

1 MS. JACOBSON: Thank you all for being
2 here. We really appreciate you visiting our
3 pretty little corner of the world, and we thank
4 you for your service to this state. We realize
5 sometimes it is a very unthankful job.

6 I don't have a lot of comments. I just
7 have a couple. You know how hesitant I am to
8 speak in public. One thing that has been
9 mentioned tonight a couple of times is that
10 some people wish that you had maps already
11 drawn.

12 Now, we -- I happen to like this open
13 forum, this transparency that you are coming
14 with open minds to get our input.

15 We know that if you came with the maps
16 already drawn there would be those who thought
17 deals had been struck, and you know, in smoke
18 filled back rooms. So you kind of are in a no
19 win situation, but I personally appreciate this
20 opportunity for everyone to have input.

21 I feel kind of like I did in elementary
22 school. I live in the same house and I went to
23 three different elementary schools because the
24 boundary got moved several times, and that is
25 what happened to me in the last redistricting.

1 I am one mile from the Walton County line
2 and I am inside CD 2 by one mile. I have had
3 great representation no matter who's district I
4 was in.

5 I can honestly say that I have dealt with
6 Congressmen of both parties, certainly you are,
7 and I call on you a lot, so I have no complaint
8 on a party issue, but we do have some real
9 problems in these little key holes that were
10 cut out last time.

11 You have heard this all before, so we hope
12 that you will, and I know this isn't the only
13 area of the state that has these problems. So
14 I will reiterate what so many others have said.

15 Please keep that in mind, please try to
16 make it a little more compact and easier for
17 those at the polls, because it is problematic
18 for the voters and those who work at the polls,
19 and thank you again for your time.

20 CHAIRMAN GAETZ: Thank you so much,
21 Ms. Jacobson. It is great to have you here.
22 And now, Albert Perez, Albert Perez.

23 Thank you very much for your testimony
24 tonight. We are anxious to hear from you, and
25 you are recognized, sir.

1 MR. PEREZ: Thank you. I just wanted to
2 say good evening to everyone here on the
3 Committee for traveling so far, most of you,
4 and to my fellow neighbors. I haven't had a
5 chance to, but it is great to see all of you
6 here.

7 I think I have a fairly unique
8 perspective. I am not originally from Florida,
9 but I have been here five years, but to this
10 area, but I did graduate from Barry University
11 in Miami Shores, Florida, very close to North
12 Miami.

13 So I am happy to see people from south
14 Florida up here, I am very proud of that, and I
15 am a four-year veteran in the Air Force, I am a
16 member of the Civil Air Patrol here in Eglin.
17 I work at Hurlburt. I served active duty in
18 Eglin, and I am a member of the Okaloosa Young
19 Democrats here.

20 My plead is simple, keep it simple, try
21 and respect county lines as much as possible.
22 I live and work in Okaloosa County. I am very
23 proud of that. I would not -- I know that a
24 lot of people here, my neighbors, some of them
25 work here in Okaloosa, they live in Walton,

1 some live in Santa Rosa.

2 That is great, that works for them and
3 that is great, but for my perspective, I am
4 very proud to live and work in Okaloosa County.
5 I wouldn't have it any other way.

6 So when I invest in my county I want to
7 invest in my county, whether it be property
8 taxes or whether it be working there, even just
9 going to lunch during my lunch break. I would
10 rather keep it that way. So by respecting
11 county lines, it also diversifies.

12 I know the status quo is one
13 Representative for the coast, one
14 Representative north for the north areas, the
15 more agrarian areas, the more agricultural
16 ones. I don't think monopolizing something
17 like that is going to work.

18 I probably agree with the person, the
19 gentleman who stood before me probably an hour
20 ago and threw the grenade. He said, keep, keep
21 it vertical. I am going to elaborate and I am
22 going to go into detail. Just say keep it
23 simple and try and respect county lines.

24 If we have -- during the BP Oil Spill that
25 occurred fairly recently, we only had one

1 Representative who really cared, just one,
2 because it affected their district and maybe
3 the Senator who it affected his district.

4 We won't have gone far, but if we four or
5 three Representatives or Senators who actually
6 cared, I think we would have accomplished much
7 more in the Florida Legislature.

8 Monopolizing has never got this country
9 far, monopolizing representation has never
10 gotten this country far. It is competition and
11 through diversification that we excel. So,
12 yes, we do need to challenge our
13 Representatives. We need to challenge our
14 Senators to diversify.

15 People, people who live in Okaloosa, they
16 should know who their Senator is. They should
17 know who their Representative is, there should
18 not be this crooked line somewhere in the
19 north, somewhere in the south. We have an
20 extension somewhere over here and for the
21 people that spoke on behalf of Destin, the
22 mayor of Destin, exactly, I don't see any
23 reason why Destin needs to be separated in
24 representation.

25 They deserve to be sovereign. I am very

1 proud that Destin is my choice city. That is
2 where I go clubbing, that is where I go
3 dancing. I am very proud of the culture of Ft.
4 Walton Beach.

5 If I wanted something a little more small
6 town, a little more simple, I will go north. I
7 will go to Crestview, I will go to Laurel Hill.
8 I am proud of Okaloosa County. I am proud to
9 know, and from a Civil Air Patrol perspective I
10 get to see it from the sky.

11 I like to keep it that way. It is simple
12 for them, it is simple for my neighbors, it is
13 simple for you, and I definitely also agree
14 with the Tea Party patriot who spoke a few
15 minutes ago.

16 We, if they can get one district, that
17 would be great, because one, you know, you can
18 give them one Senator, one Representative, that
19 is great. You could spread the Democrats out,
20 you know, give them more representation, that
21 would be great, I would go for that, too. So
22 keep Okaloosa sovereign.

23 CHAIRMAN GAETZ: Thank you, Mr. Perez, and
24 thank you, Mr. Perez, for your service as well
25 in uniform and to our country.

1 This -- unless there is someone else who
2 wishes to speak tonight, this concludes the
3 public. Is there a hand up in the back? If
4 not -- yes, there is, there is a hand up in the
5 back, someone wishes to give the benediction.

6 Please, please come forward and we are
7 delighted to have your testimony, and if you
8 would simply articulate your name.

9 MS. GOSSOM: I can do that.

10 CHAIRMAN GAETZ: And address for everyone,
11 because I don't have your card yet, you are
12 recognized.

13 MS. GOSSOM: I can do that, thank you,
14 Senator Gaetz. My name is Joyce Gilley-Gossom.
15 I serve on the Ft. Walton Beach City Council,
16 although I am not representing the City Council
17 this evening. I need to make that very clear.

18 I am maybe not as smart as Mr. Kelley and
19 I may not be as smart as some of the other
20 individuals who said that they have gone on to
21 the website and have used the Map Builder
22 software program.

23 I attempted to do that. I was on a panel
24 earlier today and was asked to share my
25 thoughts about the process, and in preparation

1 for that I did go on to the website,
2 registered, received my certification, went
3 back in and started trying to construct a map.

4 After several days and at least eight to
5 ten hours, I was more frustrated than when I
6 was writing my dissertation. It was easier for
7 me to write my dissertation and do my
8 statistical analyzes myself than it was to use
9 that software program.

10 Now, I am not an IT person, and I am not
11 technological savvy or advanced, however, I do
12 know how to point and click, and I do know how
13 to read all of the symbols.

14 I couldn't even find the information I
15 needed in the 190-page help manual. So I would
16 ask respectfully, just as Mr. Perez said
17 earlier, please keep it simple.

18 When people face a daunting task that is
19 overwhelming to them, a paralysis sets in, and
20 they throw up their hands and say, I can't do
21 this. I don't know how. I don't know what to
22 do.

23 Fortunately I didn't do that. I went to
24 another site, printed a map, took some colored
25 markers and drew my lines on the map. I am

1 going to scan that and I am going to e-mail it
2 to you.

3 CHAIRMAN GAETZ: Okay.

4 MS. GOSSOM: So you will get my map, but
5 my plea is for not just the constituents in Ft.
6 Walton Beach that I represent and serve, but
7 for everyone in the panhandle area. Please
8 make it simple. Please simplify the process.

9 Yes, you had tutorial sessions and you had
10 orientation. We don't, we don't have that. I
11 even looked at the U-Tube videos trying to
12 follow the process and I will give you one
13 example.

14 There were 15 pages I had to go through
15 telling me to open this, click that, go back in
16 now and select this, name it this, name it
17 that, before I ever got to the sentence that
18 said, now it is time for you to draw your
19 lines, 15 pages it took me to do that.

20 So my request, whether it is vertical or
21 horizontal, I think that will come through the
22 process, especially for this area, make it
23 simple and keep it simple for people.

24 CHAIRMAN GAETZ: Thank you,
25 Dr. Gilley-Gossom and I appreciate your

1 comments, but perhaps you weren't here earlier
2 when we did make an offer. We have
3 professional staff who are able, willing and
4 can meet with you if you have 15 minutes.

5 MS. GOSSOM: I do.

6 CHAIRMAN GAETZ: Afterwards they will be
7 happy to sit down with you and, believe me, as
8 un-tech savvy as I am, if I can draw district
9 lines with a Doctorate and your high
10 intelligence, I know we can help you, too.

11 Thank you very much. I appreciate it. Is
12 there anyone else who would like to testify
13 tonight? I am sorry, you have had your shot,
14 sir, we don't do second rounds unless you want
15 to come to Panama City tomorrow, and you are
16 welcome to do that.

17 Anyone else who has not had a chance to
18 speak who would like to speak? If not, let us
19 conclude just by getting back to a couple of
20 things that were raised, and before I do that,
21 let me ask if there are any members, and we are
22 going to defer to Chair Precourt as to the
23 House members, are there any members of the
24 Senate Committee who are here who would like to
25 make any observations or ask any questions.

1 Senator Hays, you are recognized.

2 SENATOR HAYS: Cay you all hear me back
3 over here in the corner? Thank you, Senator
4 Gaetz, and I want to say a sincere thank you to
5 each and everyone of you who come out tonight,
6 particularly for those of you who spoke to the
7 group, because many times public speaking is a
8 very intimidating experience, and you had the
9 necessary fortitude to put your fears behind
10 you and come up and speak, and I thank you for
11 that.

12 I am from central Florida. I grew up in
13 central Florida, but I truly, truly enjoy
14 coming to the panhandle for two major reasons.
15 First and foremost is the unashamed, unabashed
16 proud military presence up here in the
17 panhandle of Florida.

18 Thank each and everyone of you who served
19 our country and for those of you who did not
20 serve our country, you make this a wonderful
21 place for those who do serve, and I thank you.

22 It was my privilege to serve in the United
23 States Coast Guard for four years, some of the
24 finest years of my life, but this is America,
25 folks, and there is no finer country anywhere,

1 and I thank each and every one of you for
2 coming out tonight when you could have been
3 doing anything else, but you chose to exercise
4 democracy and that is what it is all about, and
5 I sincerely thank you.

6 We have heard several, several different
7 points yesterday in Tallahassee, today in
8 Pensacola and again here tonight. None of
9 those points are invalid. Many of those points
10 that we have heard are uninformed, but or
11 misinformed, whichever you might choose to
12 classify them as, but that is not important.

13 The important thing is, everybody needs to
14 realize, we as a group up here are tasked with
15 making the most fair division of this state
16 into Legislative and Congressional Districts
17 that we can.

18 And there is one, actually, there are two
19 foundational elements. First and foremost is
20 our Constitution, and the second is a spin off
21 of the Constitution which is one vote for one
22 person, which dictates the entire population of
23 the state must be divided by 120, and that is
24 the number of 156,000 plus, that goes into each
25 House District.

1 The Constitution doesn't say anything at
2 all about the city lines, the county lines, the
3 precinct lines or anything at all like that.

4 Now, Amendment V directs us to make them
5 as contiguous as we can, as compact as we can
6 and that sort of thing, but the 156,000 in the
7 House Districts and the 470,000 in the Senate
8 Districts, those are the two numbers we have to
9 deal with. Regardless of any other factor,
10 those are the two factors, 470 and 156.

11 My Senate District has to divest itself of
12 106,000 people. In the last ten years we have
13 grown that much in the central Florida district
14 that I am privileged to serve.

15 So instead of serving parts of five
16 counties, I am going to have to consolidate my
17 geographical district. Right now it is
18 85 miles east and west and 55 miles north and
19 south. So if I look at Amendment V and take
20 just two counties.

21 I live in Lake County. I can take the
22 adjacent county of Sumter County and if I take
23 the entire geographical area, those two
24 counties, I still have to go get 80,000 people
25 from some other county. There is not an

1 adjacent county that has only 80,000 people in
2 it, so I can't take just one whole county, and
3 have three county districts.

4 That is just a small glimpse of the
5 daunting task that we have. We absolutely have
6 to draw district lines. There are going to be
7 times when you live on one side of the street
8 and your neighbor on the other side of the
9 street is in a different district.

10 That is life, folks. As I told my three
11 daughters, deal with it. I still love you,
12 honey, but you got to deal with it.

13 It is not as simple -- Mr. Perez says keep
14 it simple. Believe me, I have found in my 65
15 years that is usually the best solution, and I
16 try to keep it simple, but this is not a simple
17 process. It is very, very complicated.

18 After we finish our task we then have to
19 have the Governor accept it or reject it, but
20 if he rejects it we have to go back to work
21 again. If he accepts our work then it goes to
22 the Florida Supreme Court. Then it goes to the
23 United States Department of Justice.

24 There, you know, that old adage about too
25 many cooks spoil the soup. It may very well

1 may be happening, so we need to keep it simple.
2 I say all of this not to, not to try to make
3 any excuses whatsoever.

4 Every one of us asked for the privilege of
5 serving the people whom we represent and we are
6 honored to be here. We are somewhat humbled by
7 your presence, and thank you for the
8 participation, but we just ask you for some
9 understanding, that this is far, far more
10 complicated than it really appears on the
11 surface, and you must dig into it, and so thank
12 you for being here, and when all else fails,
13 pray for us, people, we sincerely need your
14 prayers.

15 CHAIRMAN GAETZ: Thank you. Senator
16 Thrasher.

17 SENATOR THRASHER: Thank you, Senator
18 Gaetz. I will try to talk loud so I don't have
19 to use the microphone. I have visited with
20 Senator Gaetz many, many times over the last
21 two and a half, three years that I have been in
22 the Senate, and he talks constantly about the
23 folks in this area, and having come here
24 tonight and seeing the servility, the
25 incredible ideas that you have presented to us

1 for consideration only goes to show that he is
2 absolutely right about the folks that he
3 represents.

4 And it is an honor and privilege, I know
5 for me and I think for probably all of our
6 colleagues who have sat here and listened to
7 the incredible amount of good ideas in a civil
8 manner in which you have presented them to us,
9 and I appreciate that more than I can tell you,
10 I really do.

11 It means a lot to all of us. It means --
12 it makes this effort that we are going through
13 to go around the state and listen to folks so
14 much more enjoyable, but also beneficial for
15 the end product that we will ultimately come up
16 with.

17 Senator Hays is absolutely right. We have
18 got to draw 40 Senate Seats. We got to draw
19 120 House Seats, we got to draw 27
20 Congressional Seats for 18 million people in
21 the state of Florida.

22 There are how many here tonight, 250. How
23 many will we reach in our 26 Senate and House
24 tour, who knows, several thousand perhaps, but
25 we have got to draw those lines for 18 million

1 people who reside in this great and wonderful
2 state.

3 But you have given us tonight the hope, I
4 think that we can get the job done, because you
5 have done it in a civil way, you have given us
6 ideas that make, that are material ideas that
7 will go to help us when we get ready to start
8 doing the process of drawing the maps to make
9 it, to understand what you all have cared
10 about, what you have said, what you have
11 pleaded to us for and what your dreams and
12 hopes are for this area.

13 Every single member, every single member
14 of this group, I don't know that I am the
15 oldest, maybe -- maybe there are a couple other
16 that may be a little older, but I want to give
17 you some example of the diversity of this
18 Committee.

19 This young lady right here is an
20 incredible Representative in the House of
21 Representatives. She is 28 years old. The
22 last time those maps were drawn she was 18. I
23 will be 68 years old this year. So there is an
24 incredible amount of diversity, there is an
25 incredible amount of new ideas, she has got two

1 computers here.

2 I wouldn't know how in the world to begin,
3 to begin to each begin what she has been doing.
4 She drew my district while we were sitting
5 here, and I drew my district earlier, and it
6 was on this map right here. So let me tell you
7 something.

8 We care about what you came here to talk
9 to us about, and I thank Senator Gaetz for
10 bringing us here. I thank each and everyone of
11 you for coming here. I can assure you that
12 this will continue to be a transparent process.

13 I have been around the Legislature in
14 different capacities for a long time.
15 Somebody, the lady who was the last speaker
16 said she had drawn a map with crayons or
17 colored pens or whatever, that is the way it
18 used to be done in the Florida Legislature.

19 These kinds of hearings and these kinds of
20 meetings were never done. The maps were drawn
21 in the backs of rooms at the end of the session
22 and presented to the Legislature for voting.

23 This is going to be entirely different.
24 It will be in my opinion the most transparent
25 process in this, in this type of activity that

1 the Florida Legislature has ever engaged in.

2 So God bless you for being here and thank
3 you for your great community interest, and I
4 promise you, we will do the best we can. Thank
5 you.

6 CHAIRMAN GAETZ: Chair Precourt, let me
7 yield to you for any comments that you and
8 members of the House of Representatives might
9 wish to make, comments or questions.

10 CHAIR PRECOURT: Thanks, and I will hold
11 my comments until after any of the other
12 Representatives that want to speak. Anyone,
13 Representative Gaetz?

14 REPRESENTATIVE GAETZ: Thank you,
15 Representative Precourt, and I sit right in
16 front of Representative Kair on the Florida
17 House of Representatives. We used to go back
18 and forth about how great our districts are.

19 So I hope that all of my colleagues in the
20 House can see how proud I am of the folks that
21 I continue to represent, and just on behalf of
22 the Representative Ford and Senator Evers, I
23 wanted to thank everyone who has come here from
24 all parts of the state to the panhandle. It
25 means so much to us.

1 It is unique for us to have so many
2 leaders all across Florida comment and
3 participate and to listen to our people and I
4 would say this.

5 We have heard a lot about north Florida
6 tonight and I hope that members of the
7 Redistricting Committee have heard what many of
8 us who represent this area know, and that is
9 that we don't have an entirely different
10 culture in northwest Florida, but there are
11 distinctions and differences just like there
12 are in your parts of the state.

13 So I have tremendous trust in my
14 colleagues on both sides of the aisle for all
15 of the state to take this input and put it to
16 use for some good for the people. Thank you
17 all very much.

18 CHAIRMAN GAETZ: Zack Taylor.

19 A VOICE: Thank you for the introduction,
20 ya'll, I wasn't able to finish and I started
21 talking about Daytona Beach.

22 CHAIRMAN GAETZ: I guess we don't need
23 that police escort after all.

24 A VOICE: I don't know. I don't know.

25 CHAIRMAN GAETZ: Representative Ford, you

1 are recognized.

2 REPRESENTATIVE FORD: I am going to use
3 the mike. I am not going to talk that long,
4 but Senator Thrasher and I were talking up here
5 earlier. We met in my district in the last
6 meeting this morning, and I just sincerely wish
7 I could have brought everybody at my district
8 meeting here so they could learn some
9 servility. We, and that is a sincere
10 statement.

11 There is a reporter here from Miami, I
12 hope she is not going to print this in the
13 paper. I see you, Mary Ellen, don't do that.
14 I would like to be reelected if I can next
15 time. I am in trouble. But I am sincere in
16 that.

17 You have given us good ideas. I have
18 served, personally served 16 years on the Local
19 City Council and many people here, Mayor
20 Anderson, Sam, of course, Mayor Sam and others
21 I served with many years. So I can appreciate
22 the problems that the cities face.

23 I can assure you that I will do everything
24 I can to avoid those problems. Small cities,
25 and I have two cities in my district, Gulf

1 Breeze and most of Pensacola. Pensacola is too
2 big for us to say we are not going to be able
3 to peel off some parts of that. It is
4 impossible to do.

5 Small cities though, that is something
6 that is doable and you have got a perfect right
7 to ask that we take a look at that, a valid
8 point and I appreciate the fact that it was
9 brought up here.

10 I can assure you that I and I think I can
11 speak for most everybody else, we are going to
12 try to avoid those kind of problems. There is
13 no, no use in doing that and it serves no
14 purpose, and I thank so much for having us
15 here. I appreciate the courtesy that you have
16 shown us since we have been here. Thank you.

17 CHAIR PRECOURT: Thank you. I believe
18 that is most of the Representatives that want
19 to talk. I just want to, if I could, Chair
20 Gaetz, address a few issues that were raised
21 here tonight.

22 CHAIRMAN GAETZ: Of course.

23 CHAIR PRECOURT: Thank you, and we have
24 actually heard some of these things around the
25 state and other places and in the media as

1 well, and I hope that we can clarify just a
2 half dozen brief items.

3 One thing that keeps getting kicked around
4 is that the Florida House has 20 million-dollar
5 or 30 million-dollar legal fund for
6 redistricting. That is just inaccurate.

7 We do have reserves, but they are for many
8 contingencies and I think this is just a news
9 report that was inaccurate from the start and
10 unfortunately it has been repeated frequently.

11 We in the House side have chosen to
12 include party data in the, that data that is
13 available for redistricting. We do have to
14 have this by Federal government dictate to test
15 the map alternatives against the requirements
16 of the Federal Voting Rights Act. So that data
17 will have to be accessed one way or another so
18 we are, our decision was to make it available
19 to everyone.

20 Another thing that has been kicked around
21 out there is that there is a gag order on
22 members of the Committee. I believe clearly
23 tonight we have established that there is no
24 gag order.

25 Also, this issue, and we heard both sides

1 of it tonight and you all did a terrific job,
2 several of you, of addressing this. The issue
3 of whether or not there are maps here that we
4 already have drawn and provided to you without
5 letting the public speak first.

6 If we did it any other way there would be
7 a huge criticisms of us. In fact, this process
8 that we are using as tried and true process and
9 for those of you who like the Federal
10 government's dictates, it is very similar to
11 the NEPA permitting process where we collected
12 the data.

13 The data wasn't available until April or
14 from the census, and presented you with the
15 existing conditions and the data so that we
16 could get feedback from you before we start
17 drawing lines.

18 It always, the general public brings more
19 information to the table than a bunch of
20 analysts sitting behind their computers are
21 going to have.

22 We are going to get public comment
23 throughout the process. That is another thing
24 that people think that this is their only
25 opportunity to speak to this issue now. That

1 is absolutely untrue. This is the beginning of
2 it. This is the data collection phase.

3 Once we have this we will prepare a number
4 of alternatives that you will have the
5 opportunity to look at again and that will be
6 in the various forms that Chair Gaetz
7 mentioned, as well as in the public hearing
8 process that is the normal process of passing a
9 bill in Tallahassee.

10 And then finally, to this, to this
11 question that we are moving too slow, again, we
12 have only had the information available to
13 present to you for a number of weeks and we are
14 trying, doing the best we can with a bunch of
15 really good staff to get this process moving as
16 quickly as possible. So, in fact, we can have
17 a credible process that meets all of the
18 requirements.

19 And then finally just from a personal
20 standpoint, being from central Florida as well,
21 this has been a great meeting.

22 Ya'll have been very, very constructive in
23 engaging in this conversation that we hope to
24 use to develop the best set of maps for the
25 citizens of Florida that we can. Thank you,

1 Chair Gaetz.

2 CHAIRMAN GAETZ: Thank you very much. Are
3 there any other comments from members of the
4 Committee? If not, Representative Precourt
5 moves we rise.

6 (Whereupon, the proceedings were
7 concluded.)

REDISTRICTING COMMITTEE
TUESDAY, JUNE 21, 2011
10:00 A.M.
WSRE-TV AMOS STUDIO
PENSACOLA, FLORIDA

Transcribed by:
CLARA C. ROTRUCK
Court Reporter

1 T A P E D P R O C E E D I N G S

2 CHAIRMAN GAETZ: Good morning, ladies and
3 gentlemen. The Joint Florida Senate, Florida
4 House of Representatives Redistricting Hearing
5 is called to order.

6 We want to thank WSRE Public Television,
7 Pensacola Jr. College, Pensacola State College
8 now, for allowing us to use this facility, and
9 thank you all for being here, especially
10 members of the public who have come to share
11 your comments and your recommendations to help
12 shape Congressional Senate and House Districts
13 for the next decade.

14 My name is Don Gaetz. I am proud to be
15 the Senator for northwest Florida, and along
16 with my House colleague, the Speaker Designate
17 of the Florida House of Representatives, Will
18 Weatherford, who is to my left and that is
19 interesting because often he is to my right,
20 but today he is to my left.

21 We are chairing today's hearing and we are
22 delighted to be here. This hearing is being
23 webcast throughout the state by the Florida
24 Channel over the Internet and we welcome the
25 many, many people who are following us today on

1 the Internet or over the Florida Channel.

2 Our sole purpose today is to hear from the
3 public about how you believe the legal
4 standards governing redistricting should be
5 applied in your community so that you are
6 represented in Washington and in Tallahassee
7 fairly, equitably and sensibly.

8 It is not debatable as to whether
9 Amendments V and VI will be applied. They are
10 in the Constitution and they will be applied.
11 The question is how those legal standards
12 should be applied to make sure that your
13 community is fairly, equitably and sensibly
14 represented.

15 Our procedures today are simple but
16 important. It is important that if you want to
17 speak, and we hope you do, that you will sign
18 in so that we can create an accurate public
19 record of all attendees and all speakers, and
20 also you may opt to join our e-mail list.

21 We hope you will so that we can keep you
22 informed about how the redistricting process is
23 working over the next several months.

24 This is hearing two of a 26 public hearing
25 tour that the House and Senate Committees are

1 taking together to hear from the people of
2 Florida.

3 If you have not signed in and you wish to
4 speak, please raise your hand now and a
5 professional staff member will get you a
6 speaker card because we want to hear from you.

7 Is there anybody here who wishes to speak
8 who has not filled out a card or who has not
9 signed in? Anybody? Great.

10 Well, if there are people who come in late
11 we will make that offer again. Before we
12 begin, the Chair would like to recognize the
13 Speaker Designate, Will Weatherford, to explain
14 how today's hearing fits into the redistricting
15 process. Mr. Speaker.

16 SPEAKER WEATHERFORD: Thank you very much,
17 Mr. Chairman. It certainly is an honor today
18 to be in God's country, the panhandle. We are
19 in step two of our process here.

20 We had a great day yesterday in
21 Tallahassee of public comment and input and we
22 certainly look forward to it today here in
23 Pensacola.

24 Ladies and gentlemen, every ten years the
25 Legislature is required by our Constitution to

1 redistrict the state based on increases,
2 decreases and movements of population.

3 Because Florida has grown more than other
4 states in the last ten years we will move up
5 from 25 Congressional Seats to 27 Congressional
6 Seats.

7 Because some parts of our state have
8 increased or decreased disproportionately in
9 population, many Senate and House Districts
10 will change, either adding or losing
11 population.

12 When redistricting is completed,
13 Congressional Districts must be equal in size
14 and contain 696,345 people. The 40 Senate
15 Districts must also be nearly equal and will
16 contain 470,033 people, and our 120 House
17 Districts must also contain nearly equal
18 amounts in population and will be at 156,678
19 persons.

20 There is a map at the front of the room
21 showing this area of the state. The current
22 boundaries of all of the Districts and the
23 number of the persons which must also be added
24 or subtracted from current districts to achieve
25 equal representation.

1 Equality of representation isn't the only
2 legal requirement that redistricting plans must
3 meet. The laws and important court cases
4 governing redistricting are explained in detail
5 on the House and Senate websites.

6 Those websites are listed on the
7 Redistricting 2012 brochure that was available
8 to you when you came in. Our Redistricting
9 2012 brochure summarizes Federal and State laws
10 and outlines the topics we hope you will
11 discuss here at today's hearing.

12 If you did not get a brochure they are
13 available on the tables outside the hall and
14 our staff would be happy to get you a copy of
15 that brochure if needed.

16 Those same websites have been available to
17 the public and all of the demographic
18 information from the U. S. Bureau of Census
19 that will be used to draw districts and the
20 redistricting software that Legislators will be
21 using.

22 These websites will allow any member of
23 the public, and hopefully you, to see all of
24 the district maps that are proposed by
25 Legislators and for the citizens, themselves,

1 to propose their own district maps for their
2 own communities or for the whole state using
3 all of the tools that are available to us as
4 Legislators.

5 Before and during and after this hearing,
6 Senate and House professional staff are
7 available to show you and anyone who wants to
8 see the simple steps in getting on-line and
9 making your submission for maps in the coming
10 weeks.

11 Every recommendation from any member of
12 the public or any group will be made public.
13 In fact, some public submissions of maps have
14 already been available on the web, and one I
15 will mention to everyone today is we had a
16 college student who is from Florida who goes to
17 Columbia University and weeks ago submitted a
18 Congressional map for the entire state of
19 Florida.

20 It was a very -- a lot of work that went
21 in to that, but that is the type of
22 participation that this body is looking for.

23 The submission of proposed maps that makes
24 sense for your community is the single most
25 effective form of public participation in the

1 redistricting process.

2 The redistricting schedule under which we
3 are operating is imposed by our State
4 Constitution. The Constitution does not permit
5 the Legislature to act on legislative maps
6 before the second year after the census is
7 done. In other words, before 2012.

8 We accelerated this process as much as we
9 possibly could by moving the 2012 Legislative
10 Session from March to January, and beginning
11 our statewide hearings five months in advance
12 of the 2012 session.

13 It has been suggested that the Legislature
14 should draw maps first and then ask the public
15 for comment. We believe that puts the answer
16 ahead of the question.

17 There should be no preconceptions created
18 by politicians, but rather public testimony
19 should be free and unrestricted. Our intent is
20 to use the recommendations made at our 26
21 hearings and through our Internet sites as the
22 basis for developing one or more options for
23 district maps.

24 We will discuss those options in open
25 public meetings before any votes are taken even

1 in a Committee. Throughout the process we will
2 solicit additional public comment so that
3 proposed maps can mature and with public
4 involvement all before the Legislature approves
5 any final maps.

6 Whatever the Legislature votes on, it is
7 submitted for judicial review to insure that
8 the final plans meet every legal requirement.
9 Because our mission today is to hear from you,
10 100 percent of the time between now and then,
11 and between now and 1:00 p.m. will be used to
12 insure that every member of the public who is
13 here and wishes to speak will have time to
14 present testimony and be listened to
15 respectfully without interruption or argument.

16 If, after every citizen has had his or her
17 say, there is time remaining before our
18 scheduled adjournment, any member of this
19 Committee may make a statement or offer any
20 observation.

21 Of course, any member of the Legislature
22 may today or at any time propose a map that
23 will be made available to the public.

24 Mr. Chairman, thank you very much for
25 giving me these few moments. I hope this

1 description of our schedule and the process
2 helps set the stage for a very successful
3 hearing. Thank you.

4 CHAIRMAN GAETZ: Thank you, Mr. Speaker,
5 by Senate and House rules we will adjourn
6 promptly today at 1:00 p.m. There are so far
7 36 individuals signed up to speak.

8 We hope more people who may come in a
9 little later will let professional staff know
10 if they would like to speak, but to ensure that
11 each person is heard, and I am an advocate for
12 the last person who signed up, I want to make
13 sure they get a chance to speak, just as I am
14 an advocate for the first person.

15 So to ensure that each person is heard we
16 will try to divide the time equitably and I
17 would ask each testifier to try to limit her or
18 his remarks to somewhere between three and five
19 minutes.

20 Now, if later we pick up additional people
21 who would like to testify, and therefore, we
22 get pushed on a time crunch I may have to be a
23 little bit more specific about the time frame,
24 but if you would be cognizant that there are
25 people who also came here and want to testify

1 who are waiting behind you, I am sure everybody
2 will be civil and courteous and there will be
3 time for everyone.

4 What we would like to do is call out two
5 speakers at a time so that the first speaker
6 who is the Honorable Lynn Laird from the
7 Escambia Soil and Water Conservation District,
8 if Commissioner Laird will come forward, and
9 then behind Commissioner Laird is Stephen Rome,
10 and we will let you know if you are on deck and
11 next in line.

12 Commissioner, are you here? Thank you
13 very much. Welcome to the Committee, and you
14 are recognized, sir.

15 COMMISSIONER LAIRD: I am a supervisor.

16 CHAIRMAN GAETZ: Supervisor. We, I don't
17 know if we demoted you or promoted you there,
18 but we welcome you to the Committee.

19 COMMISSIONER LAIRD: For the record, my
20 name is Lynn Laird. I am Vice-Chairman of the
21 Soil and Water Conservation District Board of
22 Supervisors. Elected, this elected office is
23 for Escambia County voters only. The candidate
24 must be a resident of Escambia County.

25 Escambia County population is 297,619

1 residents according to the recent census.

2 Registered voters, Democrat, No Party,

3 Minority, et cetera, 110,000. Republicans,

4 84,000.

5 Escambia County, unfortunately, has been
6 divided into two Senatorial districts, both of
7 them held by Republicans. Three State
8 Representative Districts, all held by
9 Republicans. That means 212,791 individuals,
10 or 67 percent of Escambia County population is
11 disenfranchised, because in 2000 Escambia
12 County was divided up so that there would be
13 two Senatorial districts versus one, because
14 prior to 2000, Escambia County was a Senatorial
15 district.

16 Prior to that, State House Representative
17 District III was all of Pensacola, some of
18 Escambia County, but they had to cut that up
19 and now we got some of Santa Rosa. The
20 minority representation for Escambia County is
21 about 23 percent African-American.

22 Currently there are no minority
23 Representative in the State House, none,
24 period. Who are Escambia County State
25 Senators? I happen to live in south of

1 Escambia County, never met my State Senator,
2 hardly know where he is from, but he is Senator
3 Gaetz, our Chairman, hello. He lives in
4 Niceville, Niceville, wherever that is.

5 His District Office is in Destin, that is
6 over an hour away from Escambia County, I don't
7 know if I could find it if I get there. Greg
8 Evers, the other State Senator, he lives in
9 Baker, up in the country somewhere in another
10 county. His District Office is in Crestview.

11 How do the people from Escambia County who
12 would like to drop in, say something, give him
13 something, not too many people are going to
14 drive to Crestview if they could find it, it is
15 over an hour away.

16 We have a State Representative who basic
17 some of the districts in northern Escambia
18 County, Doug Broxson, I have no idea where he
19 is from. I have no idea where his office is,
20 and I don't know if anybody in Escambia --
21 maybe some of the people up north do. I don't.

22 Then, of course, we have Representative
23 Clay Ford, and most of us know, that is
24 District III. Almost 90 percent of the
25 geographical area and population lives in

1 Escambia County. Clay Ford lives in Gulf
2 Breeze. Until a number of years ago it wasn't
3 part of District III. Thirty percent of the
4 population in Pensacola is African-American.

5 Clay Ford lives in Gulf Breeze, which only
6 has one or two at the most African-Americans.
7 Basically Gulf Breeze is 100 -- almost
8 100 percent white, and Clay Ford lives over
9 there, and I do not believe the Pensacola
10 residents have any input at all, and only one
11 Representative, and I think he is here, Clay
12 Ingram, he lives in Escambia County, and he is
13 elected by the people of Escambia County.
14 Thank you for that person.

15 In other words, I will sum it up, 212,791
16 people in Escambia County or 67 percent of
17 Escambia County population is totally
18 disenfranchised. That means they are not
19 represented by the individuals who are sitting
20 at the round table up there.

21 We are supposed to have representation in
22 state government. I cannot feel that this
23 would go very far when 67 percent feel they are
24 disenfranchised. So all I can say is I hope
25 whoever is going to draw the lines will take

1 that into fact that Escambia County, the
2 largest county in the panhandle, should be a
3 State District by itself and should have at
4 least a minimum of not two, but maybe three
5 State Representative Districts so that the
6 221,000 people who are currently
7 disenfranchised might have a chance to, one,
8 run a candidate, and two, vote for the
9 individual who actually does and will represent
10 their ideology. Thank you.

11 CHAIRMAN GAETZ: Thank you very much,
12 Mr. Laird. We appreciate your testimony, very,
13 very kind of you to come today, and now our
14 next presenter is Stephen Rome. Mr. Rome, and
15 behind Mr. Rome is Diane Mack from the Women's
16 Civic Forum.

17 Mr. Rome, you are recognized. Thank you
18 very much for being here today.

19 MR. ROME: Good morning, my name is
20 Stephen Rome. I reside in Pensacola, in
21 Escambia County. I appear today as an AARP
22 volunteer. I urge the Legislature to make the
23 redistricting process all it can be.

24 As you exercise your constitutional duty
25 to draw voting districts applicable for the ten

1 years beginning with the 2012 election, AARP
2 urges you to, first, insure transparency of the
3 legislative redistricting process every step of
4 the way.

5 Transparency means that redistricting
6 discussions among members and by members should
7 be noticed and open to the public.
8 Transparency means that the public has the
9 opportunity to comment and to have those
10 comments meaningfully considered by the
11 Legislature during all legislative
12 redistricting proceedings, and on
13 redistricting, on redistricting proposals,
14 interim and final.

15 This is before the Legislatures make any
16 decisions. We must ensure the timeliness of
17 the redistricting process and ensure public
18 input.

19 The Legislature has an obligation to meet
20 the constitutional dictates as already
21 expressed by 63 percent of Florida voters. The
22 Legislature owes Florida's residents and voters
23 professionalism and timely completion of their
24 redistricting process, hopefully before the
25 filing for the 2012 elections.

1 The Legislature knows the procedural
2 steps, legislative and non legislative, that
3 redistricting plans will need to complete in
4 order for there to be timely qualifications for
5 the 2012 candidates under the new districts,
6 and for vigorous campaigns before voters can
7 cast their ballots.

8 That means the Legislature should
9 consider, complete, should consider completing
10 its portion of the process sooner rather than
11 later.

12 Please take steps to ensure that the
13 redistricting process -- to prevent the
14 redistricting process from the appearance of
15 conflict of interest.

16 For example, subcommittees of Legislatures
17 could research, develop alternate district
18 proposals for the area of the state remote from
19 the member's geographic residencies.

20 Perhaps four areas of the state, and then
21 redefine, reconcile for two halves of the state
22 and then redefine and reconcile by the full
23 Chamber into one state plan.

24 It is now legislative's command
25 performance time. Your audience is Florida's

1 voters. We will not contenance undue expense
2 and delay in that performance. It is up to the
3 Legislature.

4 What will it be, redistricting
5 presentation or voter resentment? I am
6 confident that the Legislature and its staff
7 have the professional competence and technical
8 assistance to research and analyze and propose
9 new voting districts in accord with the
10 constitutional and Federal requirements.

11 Please make your best effort. Thank you
12 for the time to address the panel.

13 CHAIRMAN GAETZ: Thank you very much, Mr.
14 Rome, we really appreciate your testimony
15 today. Our next testifier is Diane Mack from
16 the Women's Civic Forum, followed by Claudia
17 Curry from the Democratic Executive Committee.

18 Ms. Mack, thank you for being here and you
19 are recognized.

20 MS. MACK: Thank you, Senator Gaetz,
21 Honorable Senators, members, staff members, let
22 me first express my appreciation for this
23 public hearing for the numbers of you who are
24 here.

25 When I entered I had no idea that we would

1 be in such august company. My remarks will be
2 brief.

3 The Women's Civic Forum is an informal
4 organization who's mission is to help
5 interested women learn about our community, to
6 further their civic interests, and in the end
7 also to further their political interests.

8 We want to see more women elected to
9 office. However, that is not the purpose of
10 redistricting. Those -- those goals have to be
11 accomplished in a much different way.

12 My remarks are simply brief. I am
13 concerned about the past horizontal divisions
14 in forming our districts. For different
15 reasons as our previous speaker said, I would
16 certainly ask this body to consider forming
17 districts with Escambia County, Santa Rosa
18 County vertically and not across the north part
19 of the counties and then the south part.

20 I realize communities of interest are
21 something you take into consideration, but I
22 believe that was in a Tier II criteria.

23 Finally, I realize the Constitution
24 requires that the process neither favor nor
25 disfavor incumbents, but we are human and I

1 would simply ask all of you to be statesmen,
2 stateswomen, not politicians. Put aside your
3 own interests and do what is best for the state
4 of Florida, but in this case also for northwest
5 Florida. Thank you.

6 CHAIRMAN GAETZ: Thank you very much, Ms.
7 Mack. We appreciate you being here. Our next
8 speaker is Claudia Curry from the Democratic
9 Executive Committee, and followed by Paula
10 Montgomery from the League of Women Voters.

11 Ms. Curry, you are recognized. Thank you
12 for being here.

13 MS. CURRY: Good morning, my name is
14 Claudia Brown-Curry and I represent the
15 Escambia County Executive, Democratic Executive
16 Committee, but I don't want to be redundant at
17 this time. Everything has been well said, so I
18 pass. Thank you.

19 CHAIRMAN GAETZ: Well, thank you for being
20 here. We really appreciate it. Next is Paula
21 Montgomery from the League of Women Voters, and
22 Ms. Montgomery, you will be followed by Richard
23 Mills.

24 Ms. Montgomery, we are grateful that you
25 took the time to come today, and you are

1 recognized.

2 MS. MONTGOMERY: Okay. Thank you, and
3 thank you for your attention. I am one of the
4 Co-Presidents this year of the League of Women
5 Voters of the Pensacola Bay area. Excuse me.
6 And I am speaking on behalf of the League in
7 general. I would like to make the following
8 three points.

9 The Legislature's timeline for drawing
10 districts is really unfair to the Florida
11 voters. The Legislature should not be spending
12 taxpayer money to oppose fair districts as
13 described in Amendments V and VI, and we would
14 like to know where our maps for us to
15 reasonably be expected to respond to.

16 First, according to the current plan, the
17 Legislature will be discussing new districts in
18 January and pass them in March of 2012. This
19 does not leave enough time for possible
20 litigation and the required pre-clearance of
21 plans before the date in June, when candidates
22 have to qualify to run for elections.

23 Therefore, potential candidates won't know
24 if they can run and voters will not know for
25 whom they can vote in time to prepare

1 adequately for the fall election.

2 Unfortunately it will result in chaos and
3 gives the impression that the timeline was
4 designed to benefit incumbents, which is
5 prohibited by the Constitution and its
6 amendments.

7 Secondly, the voters have already spoken
8 in their overwhelming support for Amendments V
9 and VI. This is the voter input to the
10 Legislature. It is what you need to hear from
11 us, that is that we really want redistricting.
12 We need to stop wasting time and money by
13 fighting these amendments and just, just do it.

14 Third, these hearings would be more useful
15 and provide more meaningful voter input if
16 there were maps to which we could respond. We
17 pay our Legislators and their staff to do the
18 work of the people.

19 Why are we being asked to provide you with
20 maps? What will be done with these maps? You
21 may get thousands of them. What will you do
22 with them?

23 We ask that you provide maps that we can
24 respond to. These hearings give the appearance
25 that you are listening to the citizens of

1 Florida, but in reality, they deny us means of
2 useful input. Thank you.

3 CHAIRMAN GAETZ: Thank you very much,
4 Ms. Montgomery. We appreciate you being here.
5 Next we have Richard Mills, and following Mr.
6 Mills is Deborah Nelson from the Santa Rosa
7 Democratic Party.

8 Mr. Mills, thanks for being here, and you
9 are recognized.

10 MR. MILLS: Thank you for the opportunity
11 to speak. I am Richard Mills, resident of
12 Escambia County.

13 First let me say I am not here to
14 represent any ideological group. I am just a
15 plain citizen, I certainly, most of all, do not
16 envy you people in the job that you have ahead
17 of you.

18 I know you are not going to make very many
19 people happy. That is just the nature of the
20 beast that you have to attack, and I just want
21 you to know that many of us will be praying
22 that you will do this job with the best of your
23 ability and with great consideration to the
24 rights of our citizens, and that you will act
25 in accordance with the constitutional

1 requirements upon you. Thank you.

2 CHAIRMAN GAETZ: Thank you very much, Mr.
3 Mills. We appreciate those kind sentiments.

4 Deborah Nelson with the Santa Rosa
5 Democratic Party and then following Ms. Nelson
6 will be Jerry Couey with Santa Rosa Week TV.

7 Ms. Nelson, thanks a lot for being here,
8 and you are recognized.

9 MS. NELSON: Thank you very much, I am
10 Deborah Nelson, I am Chair of the Santa Rosa
11 Democrats. I also co-host Santa Rosa Week TV
12 on Media Com Channel 27.

13 I would just point out to you that
14 currently the population of Democrats in the
15 state versus the population of registered
16 Republicans is not reflected in the makeup of
17 Florida's House of Representatives and Florida
18 Senate, and I would just suggest that perhaps,
19 perhaps there is a political reasons for that,
20 but then again, maybe you need to seriously
21 consider that you have a gerrymandering problem
22 in the state when you go about this
23 redistricting process.

24 What happens when you have gerrymandering
25 present is that the populous is not accurately

1 represented in their political bodies, the
2 political bodies that belong to them.

3 When you have that problem it leads to
4 things like cronyism, it leads to special
5 interests being perhaps represented a little
6 more heavily than the people.

7 It leads to corruption. We have certainly
8 seen indications of corruption problems coming
9 out of Tallahassee in recent years.

10 We have had -- I would call it a
11 disastrous legislative session this year. We
12 have had a legislative session that I don't
13 believe in any way, shape or form reflects the
14 wants and needs of the Florida population.

15 You all passed SB 430 which will just
16 about guarantee to raise homeowner insurance
17 policy rates, at least by double over the next
18 five years. I don't believe any Floridian
19 wanted you to do that, and you did it anyway.

20 To me it represents a problem with special
21 interest influence. Maybe that is related to
22 gerrymandering, maybe it isn't. You have just
23 about destroyed growth management process in
24 this state.

25 CHAIRMAN GAETZ: Ms. Nelson, I apologize

1 for interrupting. Because today's hearing is
2 about redistricting, if you could narrow your
3 comments to redistricting. We would be
4 delighted to hear from you about these other
5 issues, and you are welcome to come to the
6 Legislative Delegation meeting that will be a
7 public meeting and discuss those or we will
8 provide other venues, but today just to respect
9 the other people who are behind you who wish to
10 speak, could you confine your comments to the
11 purpose of the hearing today, please?

12 MS. NELSON: I appreciate that. And my
13 point was that those problems do point to the
14 gerrymandering situation, but I will go ahead
15 and move on.

16 I would just ask you all if you could
17 answer at least, do you have any idea of a time
18 frame when you think this process is going to
19 be finished as far as how far in advance of the
20 2012 elections people are going to know where
21 the districts are?

22 Do you all have any plan for that or any
23 idea when that is going to happen?

24 CHAIRMAN GAETZ: Well, Ms. Nelson, we have
25 a website that lists the schedule. It is

1 flsenate.gov/redistricting. You can go to that
2 and see the schedule, but also Speaker
3 Weatherford will remark at the end of the
4 willing to our timeline in case you didn't hear
5 his comments at the beginning.

6 MS. NELSON: Do you have a specific date?

7 CHAIRMAN GAETZ: Ma'am, the date, the
8 dates depend upon when the hearings are
9 concluded, when Bills are introduced. Any
10 member of the Legislature can introduce a Bill
11 at any time, but any other comments you have,
12 ma'am?

13 MS. NELSON: Well, I would just again,
14 just like other speakers have done, just urge
15 you to be very transparent with this process.
16 I think there is a lot of mistrust of the
17 current sitting Legislature and I think that,
18 you know, it is not going to help you any if
19 you are behind closed doors making this happen.
20 So please, you know, just make sure people know
21 what is going on. Thank you.

22 CHAIRMAN GAETZ: Thank you very much,
23 Ms. Nelson, for being here and for your
24 comments. Jerry Couey, who is perhaps your
25 co-host on Santa Rosa Week TV, and then

1 following Mr. Couey, Dr. Calvin Avant, who is
2 with the Escambia Pensacola Human Relationship
3 Commission.

4 Mr. Couey, you are recognized. Thanks for
5 being here.

6 MR. COUEY: Thank you, and I appreciate
7 the opportunity to be here. There have been a
8 few things swirling, so I would like to get,
9 and Ms. Nelson asked a question and she didn't
10 get an answer. So let me just ask what a lot
11 of people are wanting to know.

12 Is anybody here going to answer a question
13 today with the cameras rolling?

14 CHAIRMAN GAETZ: I am sorry, sir?

15 MR. COUEY: Will any question be answered
16 by any of our elected officials today, because
17 that seems to be a real concern for the
18 citizens of the state of Florida.

19 CHAIRMAN GAETZ: Well, let's spike that
20 rumor right now. At the end of this hearing,
21 assuming everyone in the public has the
22 opportunity to speak, we will invite any member
23 of this Committee to make any comment, answer
24 any question that has come up today if they
25 would like, or to offer any proposal they would

1 like, but now we would love to hear your
2 testimony, sir, and we are now up to 44
3 individuals.

4 So I am going to have to ask you to, if
5 you can, be as succinct as you possibly are
6 able to be.

7 MR. COUEY: Well, again, I will certainly
8 push forward the idea that this needs to be
9 transparent, but apparently what we are hearing
10 is true. Although you say questions will be
11 answered, you have been asked a question
12 already and you really didn't answer it. You
13 just put it off.

14 I would like to second the thought that it
15 is too late in the process. I see it as real
16 gamesmanship again. We really won't know until
17 late in next year, and I just really encourage
18 this Committee to reconsider that immediately
19 and not drag it out so long.

20 How -- how are we as voters going to --
21 how is anybody going to prepare a campaign?
22 How is anybody going to know who is running? I
23 just have some real doubts in this whole
24 process.

25 I realize it appears it be transparent. I

1 will tell you my perception is, and some of the
2 things that we are hearing now that questions
3 don't get answered, there is no maps available.

4 You know, I think it is kind of ridiculous
5 that the people that are going to be proposing
6 this haven't furnished a map yet, and I would
7 also like to second the thought that I don't
8 appreciate districts that are split north and
9 south.

10 I want you to truly consider that and I
11 will reserve any additional time in case
12 somebody will answer a question. Thank you.

13 CHAIRMAN GAETZ: Thank you very much,
14 Mr. Couey, and next we have Doctor, is it
15 Dr. Avant or Avant?

16 DR. AVANT: Avant.

17 CHAIRMAN GAETZ: Yes, sir, and following
18 you, Doctor, is Ray, I believe it is Ray
19 Huggins or Hudkins, with the Coffee Party.

20 Doctor, you are recognized. Thanks for
21 being here.

22 DR. AVANT: I am Dr. Calvin Avant,
23 Executive Director for the Escambia Pensacola
24 Human Relations Commission, and I come to speak
25 to -- the last time you redistrict, made your

1 redistricting, you took as a part of those who
2 would represent us in the Florida State, State
3 House, our State Representatives, and diluted
4 the minority vote in District III.

5 You took and the two, one of the two
6 larger and older minority communities and took
7 them out of District III and put them in
8 District II. That was communities of Wedgewood
9 and Lincoln Park.

10 Both of those communities were taken and
11 put into, and when I say diluted, these are
12 voters, these are people who are a larger block
13 of minority voters who actually vote, and they
14 were taken out of District II and put into, I
15 mean, out of District III and put into District
16 II.

17 Then they took and brought in Gulf Breeze,
18 which was explained to you which is the great
19 majority of the people who live in Gulf Breeze
20 are from the majority community, and we have
21 been -- the minority, as has been stated, the
22 minority community here in Escambia County has
23 not had a Representative in Tallahassee ever.

24 And to take and take, to move where there
25 was an opportunity, I think, I don't know if it

1 was the last time they voted or the time
2 before, but one of the candidates lost by about
3 800 votes, and it is well over about four or
4 five thousand votes out in the area that I just
5 got through speaking of.

6 And if we are looking at having an
7 opportunity for everyone to be represented, we
8 need to go back and revisit how you move, how
9 you set that district up and to assure that
10 minorities have an opportunity to have
11 representation in Tallahassee out of Escambia
12 County. Thank you.

13 CHAIRMAN GAETZ: Thank you very much,
14 Doctor. That is very helpful testimony. Next,
15 is it Ray Hawkins, and I apologize if I messed
16 up your name?

17 MR. HUDKINS: That is all right, it has
18 happened before.

19 CHAIRMAN GAETZ: And my handwriting is
20 even worse than yours, sir. Thank you for
21 being here, and we welcome you and you are
22 recognized, and following Mr. Hawkins will be
23 Dustin Ponder.

24 MR. HUDKINS: Thank you very much. If
25 your handwriting is worse than mine, I hope you

1 use a computer.

2 My name is Ray Hudkins. I live here in
3 Pensacola. As you stated, I am a member of the
4 Coffee Party USA, which is a nationwide
5 organization that is only 15 months old.

6 I coordinate the activities, both here in
7 Pensacola and for the state of Florida, and our
8 group is a democracy movement that seeks to
9 give voice to people of all political
10 persuasions.

11 We are grassroots volunteer, non partisan
12 citizens who are independent of all political
13 parties and labels. We strive to restore
14 stability to the political process to reduce
15 the extreme polarization of interest where both
16 Republicans and Democrats too often act in the
17 interest of their parties rather than of
18 people, and you have heard previous speakers
19 state to that fact.

20 One statement in the Declaration of
21 Independence stands out that essentially says
22 your task is to listen to the people, and I
23 quote, "Governments instituted by men derive
24 their just powers from the consent of the
25 governed."

1 My goal here today is to add to the voices
2 that you have heard and will hear following me
3 to take a message to your leadership and to
4 you, listen to the people.

5 Recent legislative actions by the
6 Legislature and the Governor indicate you are
7 not listening. Please do so.

8 You have heard a lot about the timeline
9 already, and I will echo the comments of the
10 folks that preceded me. And I have to ask, it
11 only took you 60 days to modify our election
12 laws which are probably in violation of the
13 Voting Rights Act.

14 Why can't you give us maps in 60 days? I
15 don't understand the process. I understand the
16 process that you would like to hear from the
17 public, but it is almost like a poker game.
18 You want us to show our hand before you show
19 yours, and I would offer that you have the
20 experts on the staff to come up with the maps
21 and then put those forward for public hearings.

22 These public hearings essentially are very
23 difficult for us as citizens who are not
24 familiar with the software, not familiar with
25 all of the demographics that go into that, and

1 I think it would be so much more open and
2 transparent if you actually provided the maps,
3 and I would ask you to think about suspending
4 public hearings until you can provide the maps
5 and then go back and do the hearings.

6 I wasn't aware of the comment that was
7 made about the Constitution forbidding the
8 Legislature from taking action until 2012.

9 I would assume taking action is actually
10 finalizing something. Preliminaries are not
11 action taken, they are action proposed. So
12 notwithstanding the 2012 Constitutional
13 requirement, I don't think there is any problem
14 with you providing maps prior to 2012.

15 And as previous speakers have said, you
16 essentially are putting a person who wants to
17 run for office in a position of not knowing who
18 their constituents are, and that is kind of
19 important when you are running for office.

20 The sad but true fact is that a lot of the
21 redrawn districts possibly will end up in
22 court. I think a way to avoid that is to have
23 the public input on what you are proposing,
24 because ultimately you are going to take your
25 version of the public input to the review

1 process, and if you get the public input you
2 can start building a consensus of the public
3 that ought to short circuit some of the
4 potential litigation.

5 And quite frankly, I with rather have the
6 Legislature and the citizens making decisions,
7 not lawyers and judges.

8 As a Coffee Party activist I am pledged to
9 support leaders who work towards positive
10 solutions and hold accountable those who
11 obstruct them. Please be leaders that we can
12 support and thank you very much for allowing me
13 to comment.

14 CHAIRMAN GAETZ: Thank you very much, sir.
15 We appreciate you being here. Our next speaker
16 is Dustin Ponder, who comes all of the way from
17 Gainesville. Thank you for driving all this
18 way to talk to us here in northwest Florida,
19 and following Mr. Ponder is Janet, I believe it
20 is Delorge, Janet Delorge. So if Ms. Delorge,
21 if you will be on deck. Mr. Ponder.

22 MR. PONDER: Thank you.

23 CHAIRMAN GAETZ: It is good to see you
24 again.

25 MR. PONDER: It is good to see you again.

1 I was in Tallahassee yesterday, so I got to see
2 some of the process and full disclosure, I am
3 writing a story about it. So you will probably
4 be seeing more of me as we go on, hopefully not
5 speaking as much, but since there is no maps to
6 talk on today, I want to talk on the two points
7 that Representative Weatherford brought up, and
8 I want to talk about this process here today,
9 because ultimately if we want to get the
10 process of redistricting right, I mean, as
11 Weatherford said, it is going by public input.

12 It is going by what has to happen here
13 today. So this has to be correct, this actual
14 meeting, these 26 meetings, but first, the
15 first point that Representative Weatherford
16 brought up was that we are bound by the
17 Constitution, we can't act on maps until 2012,
18 because we can't vote on them, but that doesn't
19 mean we can't start the process now of looking
20 at maps.

21 Nobody is asking from the public to vote
22 on maps right now. I mean, I just don't think
23 that is a legitimate reason not to have maps,
24 and I would hope at the next meeting that that
25 is not brought up, because to me, that just

1 sounds like a sort of misleading talking point.

2 The second reason is that we don't want
3 any preconceived notions. That is why
4 supposedly we are having these 26 meetings, so
5 the voice of the people can be heard and this
6 process can be correct.

7 And if I was to take your word, that might
8 be a legitimate reason, but I would say the
9 actions here today say otherwise, and as great
10 as it is to see so many retirees and some paid
11 lobbyists from Tallahassee here, this meeting
12 is at 10:00 a.m. to 1:00 p.m., and I know we
13 have 17 percent real unemployment right now,
14 and some of those folks might have been able to
15 make it if they weren't looking for jobs that
16 don't exist.

17 But the question I have and I would like
18 answered and I would like somebody to maybe
19 write it down if you want and make comments at
20 the end, is if you want public input from the
21 vast majority of people who work for a living,
22 how can you schedule a meeting at 10:00 a.m. to
23 1:00 p.m., and multiple meetings throughout the
24 process.

25 I mean, there is many more, I think my

1 actual meeting in Gainesville, I believe is at
2 10:00 to 1:00. That might be 6:00 to 9:00, but
3 one of those in my home district is actually
4 going to basically disenfranchise all of the
5 people who work for a living from being part of
6 this process, and that just tells me that we
7 don't care about working families here.

8 And it tells me that we don't care about
9 the people at NAS, the Naval Air Station or
10 military veterans, farmers, like Senator Evers,
11 we don't care about those people's input, you
12 know, and that is sad to see.

13 So one thing I propose, I encourage all
14 areas that are having meetings to have evening
15 sessions. I appreciated that in Tallahassee
16 yesterday, so that everybody could have their
17 input, because if we have a public meeting with
18 no working people, with none of the vast
19 majority of people you represent here, that
20 means we have a flawed process.

21 I mean, today is a failure in my opinion,
22 and if we have a flawed process, we are going
23 to have flawed districts, again, that
24 disenfranchise exactly who has been coming up
25 and saying here.

1 So I mean, that is all I got to say today
2 and hopefully we will see some maps and we will
3 see some working people here and we can have a
4 legitimate discourse and move forward. Thank
5 you.

6 CHAIRMAN GAETZ: Thank you, Mr. Ponder,
7 and we look forward to seeing you tonight at
8 6:00 o'clock at Ft. Walton Beach.

9 MS. DELORGE: Hi.

10 CHAIRMAN GAETZ: Janet, how do you
11 pronounce your last name?

12 MS. DELORGE: Delorge, Delorge.

13 CHAIRMAN GAETZ: Delorge, and following
14 Ms. Delorge is Lonnie Hawkins.

15 MS. DELORGE: Thank you for allowing me to
16 express a couple of my concerns about
17 redistricting in Florida.

18 The Florida voters have spoken. Last year
19 Florida voters passed Amendments V and VI
20 setting standards for redrawing boundaries the
21 Census. These Amendments passed with a
22 63 percent favorable vote, greater than
23 lawmakers consider to be a super majority in
24 legislative settings.

25 Please recall that you as Legislators

1 increase the requirement that citizen initiated
2 proposals would have to meet the super majority
3 standards for approval rather than a simple
4 majority vote.

5 Supposedly this change was made so that we
6 could prevent frivolous issues from becoming
7 part of our State Constitution.

8 The citizens of Florida have met and
9 extended that requirement or those
10 requirements. Thus, as members of the
11 Redistricting Committee, have an obligation to
12 follow the constitutionally approved standards
13 of these Amendments.

14 Among the standards to be taken into
15 account is that of geographical boundaries.
16 That includes city and county boundaries. I
17 want to address that aspect of the provision.

18 At the present time, Escambia County, the
19 largest county in the area with the largest
20 population has no representation in the Florida
21 Senate.

22 Escambia County has a population of almost
23 300,000, and Santa Rosa's population is
24 slightly greater than 150,000.

25 That gives these two counties almost

1 enough population for one State Senate seat.
2 Only a small portion of Okaloosa County, of
3 their population would need to be added to
4 these two counties to reach the approximate
5 470,000 population that would be required for a
6 State Senate District. I encourage you to
7 consider that.

8 Further, a district drawn in this way
9 would meet the standards of being compact.
10 That was one of the standards approved by the
11 voters in Amendments V and VI. The entire
12 populations of Escambia and Santa Rosa would be
13 in one Senate District rather than having the
14 southern part of Escambia County in another
15 district as it is under the current designation
16 from the last census.

17 I understand your concerns about
18 incumbency and political party affiliation.
19 However, the Constitution is the document by
20 which we as Florida citizens live and our
21 future is dependent on it.

22 It is imperative that you set aside your
23 personal considerations, incumbency and that
24 you act as statesmen rather than political
25 politicians with party -- party affiliations

1 and follow the dictates of the voters when you
2 redraw the boundaries of the Florida
3 Legislature. Thank you.

4 CHAIRMAN GAETZ: Thank you very much,
5 Ms. Delorge. We appreciate your testimony, and
6 next is Lonnie Hawkins, and behind Mr. Hawkins
7 is Bea Thomas. Mr. Hawkins, welcome, you are
8 recognized.

9 MR. HAWKINS: Thank you. Let me give you
10 a proper welcome which has not been done yet,
11 and Mayor Vince Webbs is no longer with us, so
12 let me welcome you to the western gate to the
13 sunshine state.

14 This morning I had the privilege of
15 sitting on the shores of Pensacola Bay watching
16 the Blue Angels as they practiced. And now I
17 have the privilege of addressing our elected
18 representative government. What other country
19 in the world has that opportunity?

20 My concerns are that most of the people I
21 have heard speak today have it backwards. You
22 represent us. We are here to propose to you
23 our ideas, not you to come down and dictate to
24 us, here is the pre-drawn maps, what do you
25 think of the work I did.

1 We are to let you know what we think. So
2 let me tell you what I have done. Yesterday I
3 got on to the My District Builder, didn't quite
4 understood how it worked, so this morning I
5 came and asked, tell me how it works.

6 So I played with Escambia County just to
7 start. Mr. Laird, you are not going to get
8 three Representative Districts. You don't have
9 the numbers for two. So you going to have to
10 share with other counties.

11 The way they run now, I am not real
12 excited about long wide districts, but I
13 understand the logic from ten years ago that
14 the rural farming districts had a lot in common
15 and maybe they needed a farmer representative.
16 The southern districts that deal with tourism
17 and business, maybe they needed their own
18 Representative or Senator.

19 We could compact them and I have looked at
20 the maps and, yes, it will work compacted, but
21 in doing so do we dilute the representation
22 from the north and the south in our diverse
23 counties.

24 So I don't envy the job that you have to
25 do. I have heard this morning what you did ten

1 years ago. I look at our local delegation and
2 I think two members were freshmen ten years
3 ago, they didn't do anything. They sat back
4 and watched the process.

5 Now you have grown up and you get to deal
6 with it. Again, I don't envy what you are
7 doing, and yes, I do have a job, I took a
8 personal day of leave to be here today, and
9 also Mr. Laird, let me save you that drive to
10 Crestview. Senator Evers does have a Pensacola
11 office.

12 And the other thing I am confused about,
13 when I got here this morning, the doors weren't
14 closed, they were open. There is nothing here
15 but transparency. So thank you for doing open
16 transparent hearings. The good news is, two
17 down, 24 to go. Thank you.

18 CHAIRMAN GAETZ: Thank you very much,
19 Mr. Hawkins. We appreciate your testimony.
20 Next is Bea Thomas, and following Bea Thomas is
21 Susan Watson from the ACLU. Bea Thomas, you
22 are recognized, and thank you very much.

23 MS. THOMAS: Hi, and good morning to
24 everyone, and I just want to make it real, real
25 brief. I really thank God for people, thank

1 God for this awesome creation of the United
2 States of America, but we have to make sure
3 that we -- we step on people toes because we
4 always are voicing our opinion.

5 Somehow or another you never get it right,
6 okay. I represent District III, and I do see
7 my Representative. I do see the County
8 Commissioners at the County Commission, the
9 woman that is over District III. District III
10 do have some problems. It has got to be worked
11 out.

12 The redistricting of it, I have to study
13 it. The word of God say study thy self, show
14 thy self the proof, but you have to have wisdom
15 and knowledge of how to do it.

16 So what I represent is this is my motto to
17 everybody, we have what we voted for, we had a
18 chance, we voted, so what we have and we voted
19 for, we got to work with it one way or another.
20 Thank you.

21 CHAIRMAN GAETZ: Thank you very much,
22 Ms. Thomas. We appreciate you being here, and
23 next up is Susan Watson with the ACLU of
24 Florida, and behind Ms. Watson is Jerry, I
25 believe it is either, I think it is Jerry David

1 from the Florida Farm Bureau, and I apologize,
2 Mr. David, if I -- if I am misunderstanding the
3 writing of your last name.

4 But Ms. Watson, thank you for being here
5 and you are recognized.

6 MS. WATSON: Thank you. Chairman Gaetz,
7 Chairman Weatherford and Committee members. It
8 was my honor a couple of weeks ago to attend a
9 public meeting when Chairman Gaetz was the
10 featured speaker.

11 Fortunately, Chairman Gaetz was not under
12 a gag order then, for he cheerfully explained
13 the process of redistricting, telling us that
14 if things go well and without a hitch, and
15 there is always a hitch, but if things go well
16 without a hitch, we should know nine days prior
17 to qualifying where the district lines are
18 going to be drawn.

19 Why, I wonder? If this isn't a recipe for
20 chaos, then I don't know what is. Florida's
21 process is one of the slowest, most secretive
22 in the country. There is no reason that it
23 needs to be like this, unless the goal is to
24 keep the people in the dark and confuse them.

25 Show us the maps now. You say that you

1 invite us to draw the maps, but that is your
2 job. It is your job. It is our job to comment
3 on them and give meaningful input.

4 We can't do that if we don't have maps.
5 It is a slap in the face to the voters of
6 Florida to cut us out of the process. You are
7 holding meaningless hearings with no proposals
8 and nothing for us to comment on.

9 The voters overwhelmingly approved the new
10 rules for redistricting. It is an insult for
11 you to ignore us and to play games with us.
12 Please stop playing games now. Please stop the
13 charade, please show us the maps. Thank you.

14 CHAIRMAN GAETZ: Thank you very much,
15 Ms. Watson. It is good to see you again.
16 Next, is it Jerry David?

17 MR. DAVIS: Davis.

18 CHAIRMAN GAETZ: Davis, I am sorry,
19 Mr. Davis. And following Mr. Davis is Brett
20 Ward, and Mr. Davis, it says here you are with
21 Farm Bureau, is that right, sir?

22 MR. DAVIS: Yes, I represent -- I am a
23 Director for Florida Farm Bureau, and represent
24 Escambia, Okaloosa and Santa Rosa Counties.

25 CHAIRMAN GAETZ: Well, you are recognized

1 and we are delighted you are here, sir.

2 MR. DAVIS: Thank you, and one thing I
3 wanted to say to the delegation that we
4 appreciate when we call that a Representative
5 or one of ya'll contact us back and we have
6 never had any problem having any communication
7 with our Representatives and Senators, and we
8 appreciate that fact.

9 And we represent agriculture in the rural
10 communities of the area, and agriculture is the
11 second leading economic generator for the state
12 of Florida, and we would like to see that
13 recognized, as well as the fact and appreciate
14 Mr. Hawkins' comment about the districting.
15 They are giving the rural areas a voice in the
16 Legislature.

17 Without these horizontal areas of it we
18 would be leaving off the large expanse of the
19 state that is rural and agricultural, and we
20 appreciate the continued focus on that through
21 the state, and also this redistricting process.

22 And as you see, we are working farmers and
23 several of us have taken off our days to come
24 down here because this is very important for us
25 to have a voice in our state government, too,

1 and we appreciate the fact that ya'll are here
2 to do that.

3 And we represent thousands of working farm
4 families there and we would like to continue
5 representation of them, and one of the
6 definitions of a good compromise is when all
7 parties go away semi mad and we don't, we do
8 not envy your job here of doing this
9 redistricting, but we appreciate your efforts
10 and we would like ya'll to keep these points in
11 mind as you go through the process.

12 CHAIRMAN GAETZ: Thank you very, very
13 much, sir. Next is Brett Ward, Mr. Ward, and
14 following Mr. Ward is Mike Godwin.

15 Mr. Ward, thank you for being here with us
16 this morning and you are recognized.

17 MR. WARD: Mr. Chairman, ladies and
18 gentlemen. It is a pleasure to speak with you
19 today on this redistricting. I guess I will be
20 in the minority.

21 I have heard a lot of speakers speak about
22 the south end of the county and how they would
23 like to encompass the north end into their
24 district.

25 We are Americans first, Floridians second

1 and that is about where it stops when it comes
2 to this county. The south end is the south end
3 and the north end is the north end. I am very
4 pleased right now with the way the district is,
5 the district lines are drawn. We have
6 representation.

7 If Escambia County is put together and
8 Santa Rosa County is put together, we will lose
9 our voice on the north end because the south
10 end of both counties is where the population
11 is.

12 Right now we can pick up the phone, call
13 Representative Broxson, Senator Evers, we can
14 get a response, they know who we are. That is
15 a good thing in state government.

16 The goals are different. The lifestyle is
17 different. Let us keep the districts where the
18 rural area is represented. If the districts
19 are put together we will lose our voice, and as
20 a member of Escambia County Farm Bureau Board
21 of Directors, we choose to lead and not follow
22 in this.

23 We will give you a map as it presents, as
24 it pertains to our rural area, not for the
25 whole county, but just for our area, and how we

1 would like to see it drawn. Thank you for your
2 time.

3 CHAIRMAN GAETZ: Thank you very much, sir.
4 We appreciate your being here. Mike Godwin is
5 our next speaker and following Mr. Godwin is
6 David A. Nelson.

7 Mr. Godwin, we appreciate your taking time
8 to come to speak to the Committee today and you
9 are recognized, sir.

10 MR. GODWIN: Thank you very much. I am a
11 farmer in the north end of the county and also
12 a Board member of the Farm Bureau. I have no
13 problem with the east/west boundary lines
14 district and the way it is laid out, because
15 that gives agricultural its representation and
16 that is why I came today to tell you that
17 agriculture needs its representation.

18 I am probably a minority here. I doubt if
19 anybody else has got spray planes and we
20 service two or three counties in the north end
21 of the county with ag planes and we don't need
22 to be tied in with Pensacola, because I doubt
23 if anybody down there has any concern other
24 than not to use it.

25 But we would like to stay in the north

1 end, all agricultural areas across the north
2 end of the counties be represented by one
3 Representative. Thank you very much.

4 CHAIRMAN GAETZ: Thank you very much, sir.
5 Our next speaker is David A. Nelson and
6 following Mr. Nelson, Ellen, I believe it is
7 Ellen Roston.

8 Mr. Nelson, thank you for being here
9 today. We appreciate your taking your time and
10 you are recognized in front of the Committee.

11 MR. NELSON: Thank you very much, Senator,
12 and Representative Weatherford and the rest of
13 the panel. I certainly appreciate the
14 opportunity to have this venue and have a
15 chance to make some comments about this
16 process.

17 It is a heck of a thing to follow these
18 three gentlemen who just talked eloquently
19 about the needs and the special demands of
20 farmers and we respect that.

21 However, going forward we all know that we
22 are in a tremendous crunch as it relates to
23 revenue. Our cost of everything is rising, and
24 unfortunately, even though for those who have
25 special interests in the south end of these

1 counties, like Escambia, Santa Rosa and
2 Okaloosa, the north very definitely has those
3 same kind of issues and respect that.

4 But unfortunately our counties are not put
5 together that way, and I think that it is
6 important that your emphasis be put on how we
7 can encourage the integration of these counties
8 in order to maximize our potential to develop
9 revenue, to encourage development and hold on
10 to our citizens.

11 Having grown up here and had to leave for
12 many, many years to make a living, I see that
13 process. I have got four kids, they are spread
14 all over the country. We need to keep our
15 people home, and I think we have to have
16 vehicles put in place that help to encourage
17 understanding and representation that brings
18 counties together and I don't think that your
19 job is going to be easy.

20 I certainly don't envy you, and this job
21 of redistricting is only a precursor to the
22 problems that you are going to face or those
23 who will sit in your seat will face in
24 providing for our government, and providing for
25 the needs of the citizens.

1 And I think the only way that is going to
2 happen is if we can find a way to bring
3 together these divergent needs and divergent
4 priorities and make the county entities that we
5 have, and unless we are going to change that,
6 unless we are going to redraw the lines of
7 counties, then I think it is incumbent upon all
8 of us to give the input and for you to do the
9 job to bring our alignment of districts back to
10 respect and maintain the integrity of our
11 counties and our communities. Thank you very
12 much.

13 CHAIRMAN GAETZ: Thank you very much, Mr.
14 Nelson, for your testimony. Next is Ellen, I
15 think it is Roston. Did I get that right,
16 many?

17 MS. ROSTON: Yes.

18 CHAIRMAN GAETZ: And following Ms. Roston
19 is Muriel Wagner. Ms. Roston, we appreciate
20 your being here, and you are recognized.

21 MS. ROSTON: Thank you. Escambia County
22 lacks full and fair representation in the State
23 Legislature. This is a statement made by when
24 Dr. Wynn Teasley, former Head of the University
25 of West Florida Whitman Center for Public

1 Service, and I agree with his statement.

2 The Senate District II is currently drawn
3 so that the northern sections of Escambia,
4 Santa Rosa, Okaloosa, Walton and Bay Counties
5 are in District II.

6 Senate District IV is currently drawn so
7 that the southern portion of Escambia, Santa
8 Rosa, Okaloosa, Walton and Bay Counties are in
9 District IV.

10 The counties are effectively split between
11 north and south for their Senate Districts.
12 District IV is approximately 115 miles long. I
13 can tell you that as a resident of Escambia
14 County I rarely go to Bay County and feel I
15 have little in common with them.

16 I would like to see the district lines
17 drawn not between north and south, but county
18 by county. A combination of Escambia and Santa
19 Rosa Counties would nearly equal the population
20 required for one Senate Seat.

21 Escambia County residents do have a lot in
22 common with Santa Rosa County residents. We
23 are neighbors. Many people live in one county
24 and work in the other. Basing the Senate
25 District on county boundaries rather than an

1 artificial split between north and south, not
2 only makes more sense, but follows the
3 requirements of the Constitutional Amendments
4 passed in 2010 by the voters, that districts be
5 compact, contiguous and use existing political
6 boundaries. Thank you.

7 CHAIRMAN GAETZ: Thank you very much,
8 Ms. Wagner. We appreciate your coming today.
9 Next is Beatrice, I think it is, is it Belous?

10 MS. BELOUS: Yes.

11 CHAIRMAN GAETZ: I am sorry, ma'am, could
12 you pronounce your name for us?

13 MS. WAGNER: My name is Muriel Wagner.

14 CHAIRMAN GAETZ: I am sorry, behind
15 Ms. Wagner is Beatrice Belous. I apologize,
16 Ms. Wagner, you are recognized. I am glad that
17 you are here.

18 MS. WAGNER: And her name -- her name is
19 pronounced Belous.

20 CHAIRMAN GAETZ: Is that right?

21 MS. WAGNER: Yes.

22 CHAIRMAN GAETZ: Well, we are delighted to
23 have you here to help us pronounce the name of
24 the person behind you.

25 MS. WAGNER: I am a former Escambia County

1 Commissioner. And I was the first woman
2 elected, woman elected in her own right, and I
3 ran a grassroots campaign.

4 So that meant that I had to have a very
5 experienced group of people mapping out my walk
6 routes, because you don't do grassroots
7 campaigns without walking.

8 That was a while back, and I don't intend
9 to do that again, but I just want to remind you
10 that I ran into a great many problems.

11 One of them was the fact that I would
12 sometimes have one side of the street but not
13 the other, and when you got into the northern
14 part of the District it was very confusing and
15 I found other candidates who were also
16 confused.

17 I just want to point out that Escambia
18 County's Districts are not perfect, and Wynn
19 Teasley's column about perfect districts should
20 be examined a little more carefully.

21 When I moved to the congregate living
22 facility where I live now I found out that I
23 live in a gerrymandered district. That the
24 person, a person running for School Board, I
25 guess, didn't want those old folks voting for

1 them. So I mean, I have in a gerrymandered
2 district.

3 I think we should look at the districts in
4 Escambia County with an eye to using the
5 natural resources to determine the boundaries
6 so that people can have a logical way of
7 examining them. And that is all I have to say.
8 Thank you.

9 CHAIRMAN GAETZ: Thank you very, very much
10 for being here and for your service to this
11 community.

12 And now Beatrice, you are up, and behind
13 her is Barbara Goggins, I believe it is,
14 Barbara Goggins.

15 Thank you very much for being here today,
16 ma'am, and you are recognized to speak before
17 the Committee.

18 MS. BELOUS: Well, I don't have much to
19 say, but I read in the paper that only the
20 leaders can make, can answer questions. So I
21 want to know why the others have taken the
22 Fifth Amendment so as not to be able to answer
23 our questions.

24 CHAIRMAN GAETZ: Well, ma'am, let me spike
25 that rumor for the second time. It is not true

1 and any member of this Committee will have the
2 opportunity after the public has been heard to
3 make any comments they wish. The floor is
4 yours.

5 MS. BELOUS: Well, all I want to say is
6 that we do need the fifth -- the fair
7 amendments to the Constitution of Florida and
8 hope that we can get a fair district and not
9 gerrymandering. Thank you.

10 CHAIRMAN GAETZ: Thank you. Thank you
11 very much, ma'am, for being here. Next is
12 Barbara Goggins and behind Ms. Goggins is
13 Rosemary Hays-Thomas, with the League of Women
14 Voters. Ms. Goggins.

15 MS. GOGGINS: Yes, I am Barbara Goggins.
16 At one time I lived in the south part of
17 Escambia County and I was in a snake and the
18 snake went from the Alabama line all the way
19 down to Panama City.

20 Now, there is very little that the western
21 side of Pensacola has to do with Panama City.
22 I don't know whether you saw the joke, that
23 really the districting was a joke in the
24 newspaper where some of our districts looked
25 like Barney and some of our districts looked

1 like the Enterprise taking off someplace.

2 I would like to say that we live in a
3 county, this is Escambia County. We have
4 county government, we have county police and
5 the least we can do is have districts that are
6 within our county and close.

7 We have a lot in common with Santa Rosa
8 County and I am not even sure where Baker
9 County is. So the only thing I ask you is to
10 put our governments together, and I would like
11 to pass my thing to this gentleman and maybe
12 you can look at my jokes.

13 CHAIRMAN GAETZ: We will be happy to. We
14 will be happy to. We need a little good humor.
15 Now, Rosemary Hays-Thomas from the League of
16 Women Voters, and beyond Ms. Thomas, the next
17 speaker is Jack Livingston, if you can be
18 ready, Mr. Livingston.

19 Ms. Hays-Thomas, thank you for being here
20 and you are recognized.

21 MS. HAYS-THOMAS: You are welcome, thank
22 you for giving us the opportunity to talk to
23 you today. My name is Rosemary Hays-Thomas. I
24 am Co-President with Dr. Paula Montgomery of
25 the League of Women Voters of the Pensacola Bay

1 area. The following comments are made on
2 behalf of our local League.

3 First we would like to make the point that
4 the timeline sent by the Legislature is
5 unrealistic and seems designed to cause massive
6 voter confusion, which is a quote from the
7 House's own redistricting attorney, Miguel
8 DeGrande.

9 The legislative plan to pass the maps in
10 March of 2012, at the end of the session does
11 not leave enough time for court approval and
12 Department of Justice review before the end of
13 the period to qualify to run for the election
14 in June, which is going to cause a lot of
15 confusion.

16 This seems calculated, regardless of what
17 the motive was, the appearance is that it is
18 calculated to give a big advantage to
19 incumbents, since challengers will not know the
20 districts nor have time to campaign.

21 This contradicts Amendments V and VI which
22 were passed as has been said previously by
23 almost two-thirds of the voters of the state.

24 Other states are drawing their maps early.
25 Why can't Florida? Prepare the maps earlier,

1 debate them in the fall and pass them at the
2 beginning of the session, which would double
3 the time available for challenges and
4 pre-clearance by the U. S. Department of
5 Justice.

6 Second, as other speakers have asked,
7 where are the maps? These hearings are not in
8 my opinion a good use of taxpayer time and
9 money, and I have thought a little bit today
10 about what it is costing the state to have
11 these hearings, looking around at the numbers
12 of those of you who have had to travel
13 distances to be here and the audio visual
14 equipment and the software, all of that stuff.
15 It seems to me pretty expensive.

16 There aren't my maps on which we can
17 comment. Legislators and their staff are paid
18 by us to do things, like draw maps for
19 redistricting and we are curious why you are
20 asking us to do it.

21 Considerable time and money has been spent
22 to develop the software for the public to play
23 with, drawing maps that give them the illusion
24 of inclusion. What will be done with these
25 maps drawn by citizens who do sign up to use

1 the system?

2 I also call your attention to the fact
3 that this system is restricted to people who
4 are computer literate and have access to
5 computer facilities. Why are maps not
6 available to which we can react?

7 Other states use hearings to solicit
8 public comment on maps. Why can't Florida? If
9 maps have been drawn, where are they? Why
10 aren't they made available to us for public
11 comment?

12 These hearings are spending our time and
13 money to give the illusion that the Legislators
14 are listening to the citizens, and I grant you
15 the attribution that that is what you are doing
16 today, listening to us, but the voters of
17 Florida have spoken loud and clear in approving
18 Amendments V and VI, and we expect our
19 Legislature to implement them.

20 Third, in this time of financial austerity
21 why is the Legislature spending taxpayer money
22 to oppose fair districts, as were specified in
23 Amendments V and VI which were overwhelmingly
24 approved by the voters?

25 The Legislature has hired expensive

1 lawyers and held Committee meetings to fight
2 the Amendments, argued to the Supreme Court
3 that they should be stricken from the ballot,
4 tried to confuse voters by adding a misleading
5 Amendment VII, which was stricken.

6 Worked to avoid pre-clearance by the U. S.
7 Justice Department, joined a lawsuit
8 challenging their constitutionality, thus using
9 taxpayer money to challenge Amendments that
10 were passed by two-thirds of our voters, and
11 finally chosen a course that requires the state
12 both to attack and defend these Amendments,
13 because our Secretary of State, Kurt Browning,
14 is the Defendant in this case.

15 This appears to me to be a giant waste of
16 money, which I wish you could spend for other
17 purposes, such as maintaining and creating
18 employment for our citizens. I thank you for
19 the opportunity to speak today.

20 CHAIRMAN GAETZ: Thank you very much,
21 Ms. Hays-Thomas. Next is Jack Livingston and
22 following Mr. Livingston is Patti Hightower.
23 Mr. Livingston, thank you for being here.

24 MR. LIVINGSTON: Good morning.

25 CHAIRMAN GAETZ: And you are recognized.

1 MR. LIVINGSTON: Good morning, thank you,
2 sir. I am Jack Livingston. I am the President
3 of Escambia County Farm Bureau and we have over
4 4,900 members in Escambia County.

5 We have already had three of my friends
6 speak for Farm Bureau, and one of the persons
7 before I came up was talking about he didn't
8 know where the districts where, didn't know
9 where people's offices were. Jeff Miller, I
10 have called him numerous time, Greg Evers, I
11 did him when he was in the House. I visited
12 with him several times. I never called him
13 when he didn't help me out, didn't help out the
14 farmers of Escambia County.

15 Doug Broxson is new, Clay Ingram, Clay
16 Ford, I visited with all of them in Tallahassee
17 and in their offices locally, and speaking on
18 behalf of Escambia County Farm Bureau, we like
19 the way the districts are east or west and for
20 the benefit of the farmers, the people who grow
21 our food, we would appreciate it if it would
22 stay that way. Thank you.

23 CHAIRMAN GAETZ: Thank you very much,
24 Mr. Livingston, for your comments. And next is
25 Patti Hightower. It is good to see you again,

1 Patti. Thank you for being here. You are
2 recognized.

3 MS. HIGHTOWER: Thank you for this
4 opportunity, and just as a disclaimer, I am
5 speaking as Patti Hightower. Some of you may
6 know me as a School Board member in Escambia
7 County, and I need to tell Ms. Wagner I did not
8 draw those lines.

9 All of our School Board members are
10 involved in this process even as we speak. So
11 we know what an awesome task you have laid in
12 front of you and you know that you will be
13 lucky if you can please one or two people, but
14 I did want to get -- so many people have spoken
15 so eloquently about the issue here of trying to
16 draw the lines vertically rather than
17 horizontally.

18 I respect our Farm Bureau people because I
19 understand what their needs are, too, but I
20 would like to say that I would like to concur
21 in creating the Escambia, Santa Rosa County
22 District, if that is at all possible.

23 I would also like to ask you to be sure
24 that you publicize the hearings after the maps
25 are drawn as well as you have done this. I

1 really appreciate as a taxpayer, I know it is a
2 lot of money, but the opportunity to see where
3 our population is, how it has grown, be able to
4 play with the lines.

5 We have been doing that as our school
6 districts and it is a valuable tool and I want
7 us to be able to also be able to comment once
8 those lines are committed to paper or to the
9 computer, so that we all have the same
10 opportunity since the maps are not drawn now to
11 be involved afterwards.

12 And the other thing is, again, about the
13 contiguous lines and using the geographical
14 boundaries. So thank you very much.

15 CHAIRMAN GAETZ: Thank you, Ms. Hightower.
16 Thank you for your service to the people of
17 Escambia County. Next we have Jeremy Evans and
18 behind Mr. Evans is Jeff Bergosh.

19 Mr. Evans, thank you for taking the time
20 to come today. You are recognized. We are
21 delighted to have you.

22 MR. EVANS: Thank you very much. First
23 off I am the Vice Chairman of the local
24 Republican Party in the nature of full
25 disclosure, and I have been involved in

1 politics since I was a little kid and this is
2 the first time I have ever heard of anybody,
3 any organization, government organization,
4 supplying the data to the citizens so the
5 citizens can then go and make the maps
6 themselves.

7 On top of that you are going to as many
8 places as you can throughout the state to speak
9 to anybody who wants to come and let us tell
10 you what we think, and I have never heard of
11 anybody being more transparent than that, and
12 there always can be calls for more
13 transparency, but I think you have done more
14 than anyone has ever done before, so for that I
15 thank you.

16 There has been several things said today
17 that I would just like to kind of offer a
18 rebuttal to.

19 The first is there has been a lot of talk
20 about vertical lines for the Senate and I would
21 like to remind the Committee as you know, and
22 everybody here, that you have to draw lines for
23 an entire state and if you make a vertical line
24 of Escambia and Santa Rosa, there has huge
25 population centers in the panhandle, the next

1 district over has to be ginormous in order to
2 encompass as many people as is necessary to
3 create a district.

4 And I think if, as many people get on to
5 My District Builder as they can, they will find
6 that it is not easy to do to make districts
7 that are geographically concise and have a
8 population, the population necessary to create
9 districts.

10 It is also true in the, with House
11 Districts. You have, you know, Escambia County
12 with a large part of the population in
13 Pensacola. So if you are going to have
14 multiple districts, a large parts are going to
15 come in and encompass part of Pensacola in
16 order to make the population centers necessary
17 to have a vote -- to have a district.

18 And the final statement I would like to
19 say, there has been a lot of talk about
20 disenfranchising voters based on, based on
21 partisanship, and I think that a lot of times
22 we cannot define people in their political
23 views by the party they choose to be registered
24 by.

25 If that were the case in the 2010

1 election, we have more Democrats registered
2 statewide than we do Republicans. I think we
3 have 4.7 million Democrats and 4 million
4 Republicans, and yet in the statewide election
5 that doesn't have anything to do with
6 geographical boundaries we elected an entire
7 Republican Cabinet for the first time, and by
8 the Democratic candidates in most of those
9 races garnered under 40 percent of the vote,
10 and what that says to me, at least somewhat, is
11 that if all Democrats voted for all Democratic
12 candidates, then we wouldn't have had that
13 election result.

14 And not at all times can we look at
15 people, look at, look at race, creed,
16 partisanship and say those are the people that
17 they choose to vote by and I think when we do
18 that we start to box people in unnecessarily
19 and I hope that as you move forward you choose
20 to look at more than just race, partisanship,
21 gender, whatever it is, and try to create
22 districts that best suit the state.

23 And I know that you are going to have
24 challenges, because the Supreme Court and the
25 courts are going to have to say whether or not

1 you chose to favor or disfavor any individual
2 or candidate.

3 So I don't envy you for the rest of what
4 you are doing. Thank you for being here today.
5 I appreciate it.

6 CHAIRMAN GAETZ: Thank you very much,
7 Mr. Evans. Next, Jeff Bergosh who says he is
8 here on his own behalf as a private citizen,
9 but I know that people also are aware that you
10 are a public servant and an elected official,
11 serve with great distinction here in Escambia
12 County.

13 MR. BERGOSH: Thank you very much, Senator
14 Gaetz. First I want to welcome everyone to
15 Pensacola, again, I want to echo that
16 sentiment.

17 As Ms. Hightower mentioned, the School
18 Board and our counterparts and the County
19 Commission are doing a similar exercise on a
20 much smaller scale, thankfully, and so I know
21 what you are doing is difficult.

22 I appreciate the fact that you have taken
23 the time to come to Pensacola, and I appreciate
24 the fact that you are going to listen to all of
25 the people that want to speak.

1 I came in here with some things that I
2 wanted to say. I am glad that I am further
3 down the line so I could hear some of the other
4 folks speak, but I do have one thought and I
5 would like to leave that with you.

6 When you look at Escambia and Santa Rosa
7 County, there is a lot of similarities and
8 there is a lot synergy between those two
9 counties.

10 We have our news channel, we have our
11 newspaper. When you move over to Okaloosa you
12 lose a little bit of that. They have their own
13 identity, their own major newspaper.

14 When you go through the process I would
15 just like to say, there is enough population
16 there that we could do three State Reps Seats,
17 two from Escambia and one from Santa Rosa, and
18 a majority of one Senate District, and I have
19 heard the compelling arguments from the Farm
20 Bureau.

21 It makes sense to me, however, what I
22 would say to that is if you look at any group
23 of people you are going to have a Doctor living
24 next to a lawyer living next to a mechanic.

25 Just because you are a farmer doesn't mean you

1 are entitled to something special.

2 I mean, we all appreciate what you do,
3 believe me, I do when I go to Walmart and I buy
4 corn, but with that said I think it is more
5 important to keep geographic boundaries in
6 tact, and also as a School Board member I will
7 say this, too.

8 When you start moving things all of the
9 way over to Destin and Panama City, Okaloosa,
10 Walton county, when it comes to issues that
11 relate to schools, issues that we confront as
12 School Board members and representatives, we
13 have some unique challenges here in Escambia
14 County.

15 We have poverty. We have demographics
16 that are quite different. I think if you
17 consolidate the seats and you are able to put
18 one Senator and two Reps from Escambia, I feel
19 we would have a better connection with our
20 Legislators.

21 So I appreciate you coming here. Please
22 give some thought to what I said and thank you
23 for your time.

24 CHAIRMAN GAETZ: Thank you. Thank you
25 very much, Jeff. Marilyn Badessa is our next

1 speaker, Marilyn Badessa, and behind

2 Ms. Badessa is Vivian Faircloth.

3 Ms. Badessa, thank you for taking time to
4 be here today, and you are recognized.

5 MS. BADESSA: Okay, thank you. I just
6 want to say I agree.

7 CHAIRMAN GAETZ: Would one of the
8 Sergeants or one of the staff members please
9 pull the microphone down. There you go.
10 Sometimes those are hard to pull up and down.
11 I didn't know how flexible it was, but thank
12 you for being here and please start again.

13 MS. BADESSA: Well, I agree with many of
14 the other speakers, Lynn Laird, Paula
15 Montgomery and Jeff Bergosh.

16 I really think that it is unfair. The
17 current districting is unfair to the people in
18 Escambia County as a whole, and I really would
19 like to see the districting be more compact and
20 vertical, and also I would like to see, I hope
21 that you all would not keep fighting the
22 passage of Amendments V and VI.

23 That you would go ahead and let, get on
24 with the process so that we can get these
25 districts done in a good time.

1 CHAIRMAN GAETZ: Thank you very much,
2 Ms. Badessa. Vivian Faircloth is our next
3 speaker, Ms. Faircloth, and behind her is Don
4 Richards.

5 Thank you for being here, Ms. Faircloth,
6 we are anxious to hear your testimony, and you
7 are recognized.

8 MS. FAIRCLOTH: Thank you very much. I am
9 Vivian Faircloth and I am a resident of the
10 city of Pensacola. I had looked forward to
11 being able to see your initial maps to get an
12 idea of your philosophy on how the lines for
13 the redistricting would be done, would be
14 drawn.

15 The differing points that prior speakers
16 have pointed to showing the different
17 philosophies really illustrates the fact that
18 we really need to have something tangible so
19 that we could have the beginning of a
20 conversation.

21 Escambia County is a population of
22 297,619. It is the largest county in the area
23 and has sufficient population for two
24 Representatives.

25 At the present time Escambia County has

1 one Representative in the House and none in the
2 Senate. At the same time, Okaloosa County,
3 population 180,822, has two Senators and one
4 House Representative.

5 Santa Rosa County, about half the size of
6 Escambia County with a population of 151,372,
7 has two House members residing.

8 The present structure is not really fair
9 in my view. The population in Escambia County
10 is 68.9 percent white, 22.9 percent black, and
11 9.2 percent of other races.

12 Santa Rosa County has 87.8 percent white
13 with 5.4 black and 6.8 other races. Using
14 existing count, Escambia County boundaries
15 would allow racial minorities to having more
16 equal opportunity to elect representatives of
17 their choice. Thank you for allowing me to
18 speak.

19 CHAIRMAN GAETZ: Thank you very much,
20 Ms. Faircloth. We are delighted that you were
21 here, and Don Richards is our next speaker, and
22 following Mr. Richards is David Radcliffe.

23 Don Richards, thank you for being here, we
24 are grateful for your testimony.

25 MR. RICHARDS: Senator, thank you very

1 much, and Chairman, I appreciate you allowing
2 us the opportunity. I understand that
3 Representative Broxson must have known that I
4 was going to have a comment to say about him.

5 One of our previous speakers talked about
6 some of you in your freshman stint not
7 accomplishing much, and I was just going to say
8 and his ears were probably going to be burning
9 now that he is gone and I see Clay Ingram has
10 left as well, so they obviously knew I was
11 going to speak.

12 Representative Broxson was clearly a
13 statesman this year representing his people on
14 the south end of his area, and I just want to
15 say thanks for doing that.

16 Another spokesperson, I believe the first
17 person up was here chastising quite a few of
18 you in terms of what you have attempted to do.
19 If you listen to what went on today so far, you
20 have an unenviable task, a task of you can't
21 satisfy all of these people any of the time and
22 only some of them some of the time, and that is
23 going to be the way it is.

24 I live on the south end of Santa Rosa
25 County and I don't object to the districts the

1 way they are at all. I was born and raised in
2 Escambia County, and like one of the other
3 speakers, had to leave to earn a living. I,
4 too, have five kids and they are all in
5 Atlanta, not here.

6 Vertical districting, if you go back to
7 vertical districting, there are going to be
8 people that don't understand what they are
9 about to get into with that. Maybe it is
10 better representation.

11 I have no complaints and I can name
12 everyone of you and everyone of you can name me
13 because I have spoken and met with you on
14 numerous occasions from first year
15 Representatives to Representative Evers when he
16 represented us and now Senator Evers,
17 Representative Gaetz and Senator Gaetz, all of
18 you, I don't have any trouble getting access to
19 any of you.

20 I applaud you for being able to on one
21 hand represent farmers that have a very diverse
22 need for this county and the other counties,
23 and to some of the other gentlemen that have
24 been here, and ladies that have spoken about
25 this, think about what you said.

1 You want vertical districts and I want
2 Escambia and Santa Rosa County to come together
3 with one Senator.

4 Do you really? I am not sure that Santa
5 Rosa County would enjoy a one-third, two-third
6 representation. Maybe that is not the way that
7 it should be done, and I believe you have got
8 more representation right now with horizontal
9 districts, even though it is played forward
10 from the City of Gulf Breeze, that is the City
11 of Gulf Breeze with 5,000 some odd people, not
12 in proper Gulf Breeze that has 50,000 plus
13 people.

14 I happen to live out there, and we don't
15 have a problem saying we are from Gulf Breeze.
16 Some people have a problem understanding we
17 don't necessarily live in the city of, but I
18 have never had a problem of contacting
19 Representative Clay Ford and talking with him
20 about all of the interests of northwest
21 Florida, not just the city of Gulf Breeze.

22 Senator Evers, former Representative Evers
23 represented Gulf Breeze on the south end
24 equally well, although he is a farmer and I
25 happen to know where Okaloosa is and Baker,

1 been through them quite a bit, every week back
2 and forth to Atlanta.

3 I go right through the whole stretch of
4 Santa Rosa County. It is extremely diverse,
5 and the south end and the north end happens to
6 be represented right now by Representative
7 Broxson.

8 We have two Senators that we can call on
9 to help get together to be a block vote in
10 bringing some interest to something in the
11 state of Florida. If you go to all vertical
12 boundaries you are going to have Santa Rosa
13 County and Escambia County and that is the far
14 west.

15 It is fun to say we are the western gate
16 of the sunshine state, but it is also kind of
17 an appalling task if you are having to compete
18 for monies, as Senator Gaetz has found out on
19 the BP Oil Spill, the impact for the south
20 Florida people where the oil never got to.

21 So I think it is really a daunting task
22 that you have. I hope you will listen to what
23 has been heard loud and clear today by a
24 majority of the people, and that is we would
25 like to see some idea of what you have in mind

1 as far as maps go. I think that is kind of
2 important.

3 I have gone on My District Map and I have
4 played with that and I am fairly computer
5 literate, and I would venture to say that quite
6 a few people here would have a challenge
7 working on that if they even had the computer
8 to go on and get on that and not be confused
9 with exactly what that meant.

10 So please, think about that and when you
11 complete these, get back out as quickly as you
12 can with your ideas of what is going on.

13 And thank you all so much, you are elected
14 people representing us. Most of you, while we
15 may not always agree, I certainly applaud you
16 for the efforts that you have done this past
17 year and thanks again ever so much.

18 CHAIRMAN GAETZ: Thank you very much.
19 Thank you, Mr. Richards. Next is David
20 Radcliffe, Mr. Radcliffe, you are recognized
21 and after Mr. Radcliffe is through we have John
22 W., I think it is Baker, from Pensacola.
23 Mr. Radcliffe, thank you for coming today.

24 MR. RADCLIFFE: Thank ya'll, thank ya'll
25 for letting me speak. I am from south Santa

1 Rosa County. I have no problems with the way
2 the Senate Districts are aligned and
3 everything. South Santa Rosa County though, I
4 felt for many years and everything, having us
5 split up into having three different
6 Representatives from our area and everything, I
7 do like to see it go back and have the
8 horizontal lines.

9 I think that the tourism, the financial,
10 the retail interests of the south Santa Rosa
11 County, south Escambia County, and if it
12 stretches far enough to get over into south
13 Okaloosa County, all of those people have the
14 same interest and everything and they are very
15 diverse from our, the interest of the rural
16 north of the county.

17 While I have had great results and great
18 communications with Representative Broxson and
19 Representative Ford, I do feel like
20 Representative Broxson's district goes way up
21 to much, way too far north and everything and
22 takes into too many, too much of the rural area
23 to represent of the interest of south Santa
24 Rosa County. Thank you.

25 CHAIRMAN GAETZ: Thank you very much, sir.

1 Next -- is it Mr. Baker? Thank you very much,
2 Mr. Baker, for being here, and behind Mr. Baker
3 is Robert Rollo.

4 Mr. Baker, thank you for taking the time
5 to come before the Committee today, and we look
6 forward to your testimony. You are recognized.

7 MR. BAKER: Thank you so much. Thank you
8 for having this meeting to let the citizens
9 actually be involved and have some say. I
10 surely don't envy your task, because it reminds
11 me of a retarded school teacher mathematician
12 that says I am going to give you a test. You
13 have to give me the answer to these ten
14 numbers, but I am only going to give you seven.

15 So it is, you kind of got to get started
16 before you get started. So I don't envy your
17 process. All you need is a little magic.

18 I would like to say that in the interest
19 of public awareness that we, the notification
20 that I got of these hearings indicate that they
21 are going to be numerous and they are going to
22 go into the night. So the poor people that
23 work in the day time can also be heard if they
24 would like.

25 And I believe Senator Evers does have an

1 office here in Pensacola, down on Palafox and
2 he has been extremely responsive to any of our
3 needs, I believe.

4 I am here as a citizen. I have lived in
5 Pensacola for eight years, and the -- I am a
6 member and on the National Leadership Council
7 of the Social Citizens Group that numbers over
8 30 million people.

9 I have been at meetings with some of these
10 people at national meetings around the country,
11 and they all have the same problems that we are
12 having right here right now.

13 Everybody wants to be involved in the
14 process, but we want the process to be
15 completed so we can see what it looks like
16 before we get involved in it to see if we want
17 to be involved in it and it is kind of a
18 ridiculous situation.

19 So most of what I wanted to be said has
20 already been said and there is no need to
21 belabor that, but I do think that we should
22 give strong consideration to the farm industry
23 in the north end of our counties up here,
24 because they can't really move their farms and
25 come down to be included.

1 So I think we are going to have to give a
2 little bit and I would highly recommend strong
3 consideration to some east/west districts, that
4 the farmers are absolutely essential, and by
5 the way, I am not a farmer.

6 And in the interest of total disclosure
7 now that the Coffee Party has been recognized
8 here, our group here is the Tea Party. Thank
9 you so much.

10 CHAIRMAN GAETZ: Thank you very much, sir.
11 Appreciate your being here. Mr. Rollo, you are
12 up next and following that is Ronald McCollum.
13 Mr. Rollo, we appreciate your taking time to
14 come here today and you are recognized.

15 MR. ROLLO: Thank you, sir. My name is
16 Robert Rollo. I am a native of Santa Rosa
17 County. I didn't just come here over the
18 weekend to be a part of this thing.

19 I would like to say that I am here as a
20 member of the Tea Party. Like the Coffee
21 Party, the reason the Tea Party exists today is
22 we have not been totally happy with what our
23 elected officials have been doing.

24 I would say that I wrote several of you,
25 ya'll have responded nicely, I got no problem

1 with that, but the fact that you are having
2 these meetings, we don't have maps, we are
3 somewhat not informed as much as we would like
4 to be.

5 That is the reason the Tea Party exists
6 today. We exist to hold your feet to the fire
7 that you would do what you said you would do
8 during an election.

9 I for one am in favor of the east/west
10 districts, not up and down the county lines. I
11 think that would be a disaster for everybody.
12 I think that Representative Senator Evers is
13 doing a good job.

14 I think what happened last year was a sure
15 Bill to, the Septic Tank Bill tells me what
16 would happen if I had the municipal Pensacola
17 or municipal Gulf Breeze representing me.

18 Now I have got to dig up my septic tank
19 once every five years and have it inspected.
20 So I don't need no more of the city politicians
21 telling me.

22 I think you draw the districts to
23 represent the people, and as far as the people
24 I think they have the obligation to dig into
25 your backgrounds, all of the candidates and try

1 to find out how you would vote in similar
2 situations, educate the voters.

3 That is our responsibility, and I think we
4 should do it and then when politicians come
5 around knocking on our doors, we can ask them
6 educated questions about their philosophies and
7 try to determine how they are going to vote,
8 because so far we have been sorely
9 misrepresented.

10 I have been represented and everybody in
11 the state of Florida has, so they don't have a
12 problem with that, but I think there is a lot
13 of responsibility to be answerable to the
14 people and that is one of the reasons I am
15 here.

16 But I would like to challenge the audience
17 to get involved in the process and if you don't
18 like the way it is going, 2012 is when you have
19 your chance to make it right, and not only
20 that, people that ask for your vote in 2012,
21 they need to know that you are not going to
22 forget it and go home and go fishing, which I
23 love to do, or go hunting, which I love to do,
24 but I still want to know and am deeply
25 disappointed that I got to dig up my septic

1 tank every five years.

2 I don't have a problem with it, and I
3 don't like Tallahassee telling me I got a
4 problem with it, but I would just like to say
5 that I don't envy your job.

6 I have had the fortune or misfortune or
7 whatever it may be to be in sort of the same
8 situation, but I am looking forward to the
9 results. I personally would have loved to have
10 seen some kind of a map.

11 I think that would have been highly
12 helpful and I ask that you provide them as soon
13 as possible and then not go back to Tallahassee
14 and hold your hearings.

15 I attended hearings in Tallahassee over
16 the Septic Tank Bill, in the pecking order in
17 which people speak in Tallahassee is not what
18 it is in Pensacola or Ft. Walton Beach. The
19 lobbyists, the pecking order down there is
20 entirely different.

21 We were put at the end of the speaking
22 schedule and most of the time as you referred
23 to several times today, time cut us off. We
24 would have like 15 seconds to have our speech.

25 So I don't envy your job, but please take

1 into consideration the east/west, get the
2 Representatives to represent the districts such
3 as the farmers or what-have-you and I would
4 appreciate it very much. Thank you.

5 CHAIRMAN GAETZ: Thank you very much,
6 Mr. Rollo, appreciate your comments. Next
7 Ronald McCollum, and after Mr. McCollum speaks
8 we have Martin Simmons, but before Mr. Simmons
9 speaks, after Mr. McCollum speaks we will take
10 a very short break.

11 We will take a five minute break for
12 members of the audience and Legislators to use
13 the facilities if they care to or stretch their
14 legs.

15 But right now, Mr. McCollum, we are
16 delighted you are here and you are recognized.

17 MR. MCCOLLUM: Thank you, Senator Gaetz.
18 In all of the years that I have been down here,
19 lived here, we moved here in '04, I have not
20 had any problems getting in touch with my
21 Senator or Representative, as some of the other
22 earlier speakers have.

23 When you look at the past history of this
24 nation we have always had gerrymandering
25 throughout the history of this nation. When

1 the Democrats were in power and those of you
2 who spoke earlier in this hearing who have a
3 Liberal view point. I used to be a member of
4 the Union, 34 years in a trade.

5 About midway I changed parties and now
6 consider myself a Conservative, but when you
7 look back at the Liberals they were promoting
8 gerrymandering.

9 We have Liberals here today who are
10 arguing about the way it is done now, and have
11 tried to work to change the laws. I have an
12 ACLU member right next to me here who is very
13 opposed to what is going on here, and I oppose
14 the ACLU.

15 I think we have a party in control of this
16 nation right out of the White House who is very
17 difficult to work with, and I just want to
18 thank each of you. I feel for what you are
19 going through. It is difficult times we are
20 living in, we are trying to get men to work,
21 people with jobs and stuff in the state.

22 We have expenditures that have grown
23 beyond what is coming into the state and I want
24 to thank each one of you for what you are
25 doing, the way you are working hard for this

1 state, and that is about it today. Thank you,
2 again.

3 CHAIRMAN GAETZ: Thank you very much, sir,
4 for your testimony today. Representatives and
5 Senators, I would ask that we stay pretty
6 close, but we will take a five minute recess
7 and my clock says 11:42. So we will back here
8 at 11:47 and commence. This Committee stands
9 in recess.

10 (Brief recess taken.)

11 CHAIRMAN GAETZ: Ladies and gentlemen, we
12 are going to reconvene. If you would all
13 please take your seats. If you will all please
14 take your seats we ask the Committee members if
15 they will find their spot as well. Thank you
16 all.

17 During the break there were -- there were
18 two suggestions just of procedure that were
19 made and we are going to follow those
20 suggestions.

21 The first was that there were folks who
22 thought that all of the people up here who did
23 not have name tags in front of them were staff.

24 That is not true. The fact is that
25 Speaker Designate Weatherford being a true

1 Conservative decided not to afford name tags
2 for the House members, but all of these folks
3 are members of the Florida Legislature.

4 They are elected Representatives or
5 Senators, and they have been chosen by their
6 respective presiding officers by Speaker Cannon
7 and President Haridopolos to serve on the
8 Redistricting Committee of the House and the
9 Reapportionment Committee of the senate.

10 So you may feel free to chat with any of
11 them about anything you would like after the
12 hearing or during any breaks we might take.

13 The second suggestion that was made to me
14 by several people was to ask that there be some
15 clarification at the end of the meeting, and I
16 will ask the Speaker Designate to do this.

17 A clarification as to the timeline of the
18 process, whether or not it is really true that
19 somehow it is preordained that maps would not
20 come out until the end of the process, to try
21 to provide a little information about that
22 since there seems to be some either
23 misconceptions or some scripts that were
24 written without knowledge as to -- as to what
25 the real facts are.

1 But now why don't we continue with our --
2 with our public testimony and Martin Simmons,
3 thank you very much for being here today, and
4 you are recognized.

5 MR. SIMMONS: Glad to be here. Thank you
6 all for being here. Full disclosure, I am
7 State Committee man for the Santa Rosa County
8 for the Republican party, but in my opinion on
9 this issue, I don't know if it is partisan or
10 not, because I haven't asked anybody, nobody
11 has told me anything about the lines, drawing
12 of the lines, the directions.

13 No matter where you draw the lines, north
14 or south, east or west you are going to have
15 Representatives and Senators that are going to
16 live in one county but have part of their
17 district that is in another unless you drew
18 them according to county lines.

19 For instance, Greg Evers, of course, as
20 Senator when he was Representative he lived in
21 Okaloosa County, but he represented the other
22 counties, did a fine job doing the same thing.

23 You are going to live, I know, Senator
24 Thrasher, you live in one county and others,
25 and no matter how you draw the lines, there is

1 not going to be county lines, east or west.

2 If the things are going correct now and
3 granted, we do have to trust that if you live
4 in one county and it is not our county, you
5 will still represent us, but I don't think that
6 drawing, changing the line direction is going
7 to change that much if any. Thank you very
8 much.

9 CHAIRMAN GAETZ: Thank you very much, sir.
10 We appreciate your testimony. Next we will
11 hear from Lee Smith and following Mr. Smith or
12 Ms. Smith, whichever it is, we will hear from
13 Jewel Cannada-Wynn. And so next, Lee Smith,
14 please, Mr. Smith, quite obviously.

15 You are recognized. Thanks for being
16 here, and we welcome your testimony.

17 MR. SMITH: Thank you, Mr. Chairman, and
18 members of the Committee and staff. My name is
19 Lee Smith, I am a resident of Escambia County,
20 here not representing any group or
21 organization, as a private citizen.

22 However, I am a professional engineer, and
23 I am working today, I am approved leave so I
24 made time to come down here to be heard.

25 I am just, very briefly, wanted to speak

1 in support of the communities of interest of
2 the fact that coast communities have different
3 interests, different goals, different values
4 than the rural communities in the north.

5 Just the fact that I think the north part
6 of the county should have their own district
7 and this other their own. I wanted to thank
8 you all for allowing input before the maps are
9 drawn, but I would encourage you to make maps
10 available, you know, sooner than later. I
11 think the balance of having both is a good
12 thing.

13 Not wanting to be redundant I will
14 conclude and thank you all for your time.

15 CHAIRMAN GAETZ: Thank you very much, sir.
16 We really appreciate your comments today. Next
17 it is Jewel Cannada-Wynn, and following her,
18 Steve Bogan, please.

19 Thank you very much, ma'am, and you are
20 recognized.

21 MS. CANNADA-WYNN: Thank you, Jewel
22 Cannada-Wynn. Thank you so very much for
23 having this here and I know the question of the
24 process has been questioned. However, you have
25 to get all phases of opinions from everyone,

1 and thank you very, very much.

2 It had been mentioned in previous
3 speakers, they have covered most of the things
4 that I wanted to cover. This is not about
5 whether or not I can contact my Representative,
6 because I have contacted my Representative.

7 My Representative is Representative Clay
8 Ford, and his office has been very, very
9 helpful. However, the two main concerns that I
10 have is one, District III, a little history and
11 research on your part will go back to ten years
12 ago when that district was redistricted and you
13 took out a predominantly black district and
14 included the Gulf Breeze district which was a
15 predominantly white district.

16 I felt as a simple citizen that that was
17 wrong and that was a disenfranchise of my vote
18 personally that to have an opportunity for an
19 African-American to be elected from this
20 district was taken away from me by that
21 particular action by our State Legislature.

22 The second thing is the way in which the
23 districts are done now with the Senators. Here
24 in Escambia County sometimes I felt like we had
25 an absence of power to make things happen

1 economically.

2 I think the way the districts are run now
3 it impacts us economically. To our west we
4 have a state and counties who vigorously
5 support economic development in that area.

6 I feel like Escambia County does not get
7 its representation because of the way the lines
8 are drawn and focuses effort on increasing our
9 economic development so that we can be
10 competitive here in Escambia County when
11 compared to our sister county to the west.

12 Santa Rosa and Escambia County, we are
13 sisters, we do have many things in common and I
14 would hope that we can come together to have
15 one voice so that we can strengthen our
16 position in reference to economic development.
17 Thank you.

18 CHAIRMAN GAETZ: Ms. Cannada-Wynn, thank
19 you very much for being here today and for your
20 testimony.

21 Next, Steve Bogan. Mr. Bogan? We will
22 come back to Mr. Bogan in case he had to step
23 out for a moment.

24 Next is Anthony Washnool, Mr. Washnool.

25 And following Mr. Washnool will be Bessie

1 Vallianos, I believe and I apologize if I
2 butchered that name.

3 Mr. Washnool, thank you for being here.
4 You are recognized.

5 MR. WASHNOOL: May it please the public
6 servants and the public for which they serve,
7 D. Anthony Washnool, I am a trial attorney in
8 Arkansas, Tennessee and the state of Florida.

9 I reside in Chumuckla with my wife on a
10 family farm. Since the Spaniards occupied
11 Pensacola these people have been on this land
12 and I am humbled today to talk about the change
13 in a ten-year redistricting plan.

14 I think that over the last ten years the
15 logic for which the lines were drawn has
16 probably changed. I would ask that in the next
17 ten years we take greater concern for future
18 generations.

19 That we consider the economic
20 opportunities and growth. While dealing with
21 the actual line drawing, one of the things that
22 I noted from the charts that you had was that
23 for the most part in this north part of the
24 state, the districts aren't going to change
25 that much in terms of population.

1 I think the largest deviations in
2 populations are Districts III and IV in the
3 State House. The rest of it is pretty
4 standard, about the same. There is not a
5 tremendous need for redrawing the lines, except
6 under the considerations previously named.

7 And as an overarching principle I would
8 just have this prayer, that the special
9 interests not be the drive, that the actual
10 demographics be for a cross section of the
11 community and that our future generations are
12 considered when making any change, whether it
13 be specifically on redistricting or any other
14 vote for which you serve the public.

15 CHAIRMAN GAETZ: Thank you, Mr. Washnool,
16 we appreciate your testimony very much, and I
17 apologize, is it Bessie, V-a-l-l-i-a-n, I think
18 o-s? Is she here? We will come back to her if
19 she had to step out for a moment.

20 Our next speaker then would be Art Rucker,
21 and following Mr. Rucker would be Johnny
22 Blackman. Mr. Rucker, if you are here we would
23 be delighted to hear from you. We will give
24 you a moment to come down.

25 We gave you no warning here, I am sorry.

1 You are Mr. Blackman. Is Mr. Rocker here? All
2 right, we will come back to Mr. Rocker as well.

3 Mr. Blackman, you were recognized. We are
4 delighted that you are here today, and
5 following your testimony we will hear from Gail
6 Honea, please.

7 MR. BLACKMON: Johnny Blackmon, Escambia
8 County, Pensacola. I am here to speak on
9 something that I wasn't aware of until probably
10 now, because I wasn't aware of the fact that
11 Wedgewood and Lincoln Park was taken out of
12 District III, in which Gulf Breeze was added
13 and I am here I think Dr. Avant and Ms. Jewel
14 Cannada-Wynn spoke to this, so I won't go any
15 further, other than to say that I wish you
16 would put Wedgewood and Lincoln Park back,
17 which is a black voting district, heavily black
18 voting district.

19 I am not asking you to take Gulf Breeze
20 out, but I am asking you to put back Lincoln
21 Park and Wedgewood, thank you.

22 CHAIRMAN GAETZ: Thank you very much for
23 your testimony, sir. Next is Gail, is it Honea
24 or Honea?

25 MS. HONEA: Honea.

1 CHAIRMAN GAETZ: Thank you for being here,
2 and you are recognized before the Committee,
3 ma'am.

4 MS. HONEA: Thank you. My name is Gail
5 Honea. I am not here representing any group.
6 I worked in state government, actually, in
7 Virginia. I have worked in the private sector,
8 and I just retired from managing a non profit
9 in Escambia County for 15 years.

10 And when we were always worrying about
11 efficiencies, this is a little off the side,
12 but I would want to let you know that if you
13 want to have efficient people in office you
14 might want to try to recruit people from the
15 non profit sector, because they are the hardest
16 working and most efficient people I know.

17 For those of us who love and believe in
18 our democracy, we feel that enhancing the
19 ability for more citizens to participate in the
20 process of citizenship and feeling connected to
21 our government is a positive thing.

22 So I concur with previous speakers, that
23 districts should be drawn keeping counties
24 together and with folks that have something in
25 common together rather than the north/south

1 divisions that we currently have.

2 I would ask our elected officials to draw
3 lines that are conducive to citizenship
4 participation in government rather than
5 enhancement of the reelection of incumbents as
6 some folks feel is currently done.

7 This year unfortunately, our officials
8 have taken steps that many of us feel make it
9 each more difficult for citizens to vote and
10 feel connected to the process of citizenship.
11 And now that our elected officials are wasting
12 tax dollars fighting Amendments that two-third
13 of our citizens have passed, to me this shows a
14 disrespect for the citizens of the state of
15 Florida.

16 I hope that maps will be available sooner
17 than later so that we can see them and make
18 decisions and give you feedback.

19 I hope the process of giving feedback will
20 not be limited to Tallahassee where everyone
21 will have to travel in order to talk to you.
22 And while the work you have ahead of you is
23 difficult, I do remind you that you chose to
24 run for this office and do the work you have to
25 do. Thank you.

1 CHAIRMAN GAETZ: Thank you, Ms. Honea.
2 Thanks for reminding us we are all volunteers.
3 Clorissti Mitchell, Clorissti Mitchell? Thank
4 you for being here, Ms. Mitchell, and behind
5 Ms. Mitchell is Rebekah Johanson, who will be
6 our next speaker.

7 Ms. Mitchell, we appreciate you taking
8 time from your day and you are recognized
9 before the Committee.

10 MR. MITCHELL: Thank you, I took the day
11 off, because at 10:00 I am usually at work. I
12 do respect that there is a lot to consider in
13 drawing the lines, and I am going to be very
14 brief because I really do hope that you guys
15 address and answer some questions at the end.

16 One, the state of Florida should ensure
17 transparency, fairness in compliance with the
18 Voting Rights Act and with equal protection.
19 You should ensure one person, one vote.

20 You should redistrict in a way that avoids
21 minority vote delusion which to me is what
22 happened with District III. You should avoid
23 drawing district lines so that minority
24 population is over concentrated or packed into
25 election districts.

1 You should also be careful to avoid
2 cracking or fracturing, which is drawing
3 district lines so that an area of concentrated
4 minority population which is large enough for
5 separate representation and that it could
6 constitute one or more majority, minority or
7 majority black district is divided and spread
8 among several districts that are predominantly
9 white.

10 I also respectfully request that you avoid
11 drawing lines, drawing plans that erode
12 minority rights relative to the status quo,
13 that is, that you avoid creating retrogressive
14 redistricting plans.

15 I am aware of the redistricting principles
16 outlined in Section 20 and 21 of the Florida
17 Constitution and they must be adhered.

18 Districts shall not be drawn with the
19 intent or result of denying or abridging the
20 equal opportunity of racial or language
21 minorities to participate in the political
22 process, or to diminish their ability to elect
23 a representation of their choice.

24 In addition, districts shall be compact
25 and contiguous. Additionally, I want to ensure

1 that the long established principles by our
2 Constitution and the Voting Rights Act of 1965,
3 are continued and we ensure one person one vote
4 and avoid minority vote delusion. That is all.

5 CHAIRMAN GAETZ: Thank you very much for
6 your comments. Next is Rebekah Johanson.
7 Ms. Johanson, you are our next speaker, and
8 then we are going to go back to those who we
9 missed.

10 Ms. Johanson, thank you for being here and
11 you are recognized.

12 MS. JOHANSON: Thank you. First of all, I
13 have to say, I live in Cantonment right now,
14 but I did grow up in Barineau Park. I think
15 Senator Evers might know where that is, but I
16 don't know if many of you do.

17 But it is north, it is in the north end of
18 the county, and I have to say that in contrast
19 to what a lot of speakers have said, there are
20 differences county to county, and I would
21 really like to encourage you all to keep that
22 in mind.

23 I live in Cantonment and when I go
24 downtown or when I go to the beach, I love that
25 part of my county, but I know it is very, very

1 different from where I live and from where many
2 of my fellow citizens live, and please keep in
3 mind the demographics and the interest of the
4 area and not just the arbitrary county lines in
5 moving forward, because it is very, very
6 different.

7 So you might be surprised to know this,
8 but I am not a farmer, I am a college student.
9 I just got my BA in Political Science Prelaw
10 and I am pursuing a Master's degree in
11 Political Science Public Administration, and I
12 find redistricting extremely confusing and
13 tedious and I -- you have my sympathy in moving
14 forward.

15 But please keep in mind that the vast
16 majority of the people you represent are most
17 likely going to be even more confused by this
18 process.

19 People don't choose to do this stuff and
20 the average citizen really doesn't know a lot
21 about what is going on as you, as you
22 redistrict. And so I would encourage you to
23 keep those concerns in mind while moving
24 forward. I am not here to complain.

25 I really appreciate you all being here,

1 but if I did have one complaint it would be the
2 time for now the fact that I am unemployed
3 during the summer until the fall term starts
4 has worked in my favor, but the majority of the
5 people my age, the people who are like me can't
6 be here because we do have jobs or class or
7 responsibilities.

8 So please keep that in mind while moving
9 forward. It is great to have this meeting, but
10 it would be even better if the average citizen
11 could attend. So do keep that in mind that the
12 citizens, the people are listening and we are
13 paying attention.

14 We are here to help, we appreciate the
15 chance to help, but we are also here to hold
16 your feet to the fire, because that is what you
17 elected us to do. I mean, that is what we
18 elected you to do, something like that. Thank
19 you.

20 CHAIRMAN GAETZ: Thank you very, very
21 much, Rebekah, for your testimony. We would
22 like to go back now to those who we missed who
23 may have stepped out. We want to make sure
24 everyone has an opportunity. Steve Bogon, if
25 Mr. Bogon is here we will take his testimony.

1 All right, Bessie Vallianos,
2 Ms. Vallianos, are you here? I thought that
3 was you, Ms. Vallianos, you held us in thrall.

4 Art Rucker, is Mr. Rucker here? If not,
5 that concludes the public testimony for those
6 who have turned in cards.

7 Let me ask, is there anybody here who
8 would like to testify but didn't turn in a
9 card?

10 If you are a little bit shy but you have
11 heard the testimony and now you would like to
12 testify, we are here to listen, is there
13 anybody? If so, would you raise your hand, we
14 will get to you with a card and take your
15 testimony now. Is there anyone?

16 Well, if not we thank all of those who
17 have testified, and also point out that the
18 face-to-face hearings are not the only way that
19 people are following the redistricting process
20 or having input into the redistricting process.
21 We have a very active on-line presence by many,
22 many, many Floridians.

23 We are picking up scores more almost by
24 the minute who are following us on the web and
25 through the Florida Channel and are giving us

1 their views by e-mail, by Snail Mail and by
2 telephone. So we thank, thank them very much
3 for that.

4 We would like to now go to any comments or
5 questions from any members, any Representatives
6 or Senators who are here that you would like to
7 make.

8 Okay. I would like now to turn to our
9 Speaker Designate, and I have asked him to be
10 prepared to answer some of the questions of
11 fact that have come up. I realize that some
12 folks may have had a script prepared for them
13 or in advance of the meeting and may not have
14 had the chance to hear the Speaker Designate's
15 explanation of the process and the timeline and
16 the calendar that he gave at the beginning.

17 So I would ask him to reprise some of
18 those key points and respond to the points of
19 information that we have had raised by
20 testifiers today. Mr. Speaker.

21 SPEAKER WEATHERFORD: Thank you very much,
22 Mr. Chairman. I want to thank again the
23 members of the public who took time to be here
24 today. We got a lot of offers of sympathy, and
25 I wish I could get the same sympathy from my

1 wife being gone so much, but she is not quite
2 as sympathetic.

3 So I will tell you that the members of
4 this body and this Committee, we have dedicated
5 ourselves and sacrificed a lot of time and
6 effort to be here today with you and with other
7 people around the state of Florida, because we
8 recognize how important it is that we get your
9 input and we thank you for taking time from
10 coming from the north end of the county or the
11 south end of the county to be here and to be a
12 part of this process.

13 I would like to, if I could, Mr. Chairman,
14 answer a few quick questions that were brought
15 up during the hearing to see if I can't clear
16 up a few things.

17 The first thing is in regards to
18 Amendments V and VI. We heard that referenced
19 many times. Make no mistake about it, the
20 Amendments V and VI were voted overwhelmingly
21 by the public to pass.

22 The Senator and myself and every member of
23 this chamber, both the House and the Senate
24 swears every two years to uphold and defend the
25 Constitution of the State of Florida, we will

1 do that and we will faithfully uphold the
2 Amendments V and VI that have gone into law.

3 They are the law. They are the
4 Constitution, we will faithfully uphold it and
5 I want to make sure that is extremely clear.

6 The second thing is, there was a term that
7 was used a few times today and I want to be
8 very clear on this, and that was in regards to
9 a gag order, or that somehow members were asked
10 not to speak.

11 As you noticed just now, the Chairman of
12 the Committee asked if any member wanted to
13 speak or have thoughts or ask questions.

14 Yesterday in Tallahassee we had some
15 questions that were asked from members of the
16 Committee and we answered those questions.

17 There is no gag order. We have not asked
18 members not to speak, simply we have reminded
19 them that this is a listening tour. This is
20 one of the few times I have seen in politics
21 where you don't sit back and listen to
22 politicians give speeches or pontificate for
23 hours and hours on end.

24 This is your opportunity to give input to
25 us and you have done so in a very thoughtful

1 manner today and we appreciate that very much.
2 So there is no gag order whatsoever.

3 Thirdly, in regards to the maps. There
4 has been a lot of questions in regards to the
5 maps and why we don't have them here today, and
6 I just want to point out a few things.

7 First of all, we believe in the
8 Legislature that allowing the citizens of
9 Florida to start the conversation first about
10 what you think before we start drawing the
11 first line is of the utmost importance.

12 Imagine if we would have shown up today
13 and said, here are the maps that we have drawn,
14 you know, here they are, what do you think. We
15 would have probably spent an hour of people
16 saying, how did you draw these maps and why
17 didn't you ask anyone who lives here their
18 opinion first before you drew them.

19 So we feel it is of the utmost importance
20 to make sure that we seek public input first as
21 opposed to coming before you and asking for a
22 rubber stamp from the public on maps that have
23 already been drawn without input whatsoever.

24 I also would like to point out that in a
25 letter that was sent to the Legislature just

1 recently from the crafters of the Amendments V
2 and VI and Fair Districts, they asked us to
3 produce maps and to bring them to the public
4 hearings, and what was interesting about that
5 was over a year and-a-half ago when they
6 testified before the Legislature under oath,
7 they specifically said when we asked them if
8 they could help us draw fair districts, they
9 said they could not even attempt to do it, both
10 Ms. Freeman and Former Speaker Mills
11 specifically said they could not even attempt
12 to do it until they got public testimony from
13 the citizens of Florida.

14 So we are simply doing what they stated
15 two years ago, which is seeking the public
16 testimony from you, and we are grateful that we
17 have gotten it here today.

18 Lastly, in regards to the timeline which
19 is very, very important, and I want to make
20 sure that I am clear about this as well.

21 In regards to the timeline it is important
22 to know, we were one of the last states to get
23 the census data from the Federal government.

24 We did not get the official census data
25 until April, which were in the middle of the

1 Legislative Session that went into the second
2 week of May. So we were not able to do
3 anything with that data and start to have
4 public hearings until the summer, which we are
5 now doing.

6 On top of that, the Constitution says very
7 clearly that we cannot take action on any maps
8 until January of 2012. And so what we are
9 doing is we starting seven months before then.

10 We are taking three and-a-half months of
11 testimony in every pocket of the state of
12 Florida and then we are going to take the Bills
13 that are filed by members and by the Committees
14 and they are going to work their way through
15 the process with public input at every step of
16 the way.

17 And finally go when we get to January and
18 have our session, that we have moved up two
19 months just so we could do this early, we will
20 then take action on formal maps and plans.

21 I think those are very important things to
22 bring to the light. We encourage you to
23 continue to be a part of this process. This is
24 the most interactive redistricting process that
25 the country has seen.

1 We have websites, we have social media, we
2 have e-mail, we have public hearings and all of
3 this public comment will take place throughout
4 the entire process, not in the beginning, but
5 through the middle and all of the way up until
6 the very end, and lastly, Mr. Chairman, I will
7 just say this.

8 I believe it is incumbent upon this body
9 to make sure that politics and partisan
10 politics specifically is not a part of this
11 process. The Constitution is clear about that.

12 We do not believe that politics has any
13 reason to be a part of this process and I think
14 it is incumbent upon us as Chairs and the
15 members of this Committee to make sure that we
16 put the citizens first and that we put the
17 voters and the districts and what is right for
18 the state of Florida ahead of anything that is
19 political, and I know that you will do that and
20 I will work with you as well and I look forward
21 to working with you and your leadership and
22 thank you very much for having us here in God's
23 country today.

24 Thank you, members, for being a part of
25 this process. I can assure you, we heard you

1 loud and clear. Thank you.

2 CHAIRMAN GAETZ: Thank you very much,
3 Mr. Speaker, and there being no further
4 comments from members, President Margolis moves
5 we rise.

6 (Whereupon, the proceedings were
7 concluded.)

REDISTRICTING COMMITTEE

WEDNESDAY, JUNE 22, 2011

11:00 A.M.

GULF COAST COMMUNITY COLLEGE

PANAMA CITY, FLORIDA

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 CHAIRMAN GATES: Thank you all for being
3 here this morning. The Joint House/Senate
4 Redistricting Hearing is called to order.

5 We want to first of all thank Gulf Coast
6 State College, the Board of Trustees and the
7 Administration for allowing us to use this
8 facility today.

9 And thank all of you for being here,
10 especially members of the public who have come
11 to help us by sharing your comments and your
12 recommendations to assist in shaping
13 Congressional Senate and House Districts in
14 Florida for the next decade.

15 My name is Don Gates. I Chair the Senate
16 Reapportionment Committee. My colleagues to my
17 immediate left is the Speaker Designate of the
18 Florida House of Representatives,
19 Representative Will Weatherford, he Chairs the
20 House Redistricting Committee, and together we
21 are chairing these hearings around the state.

22 This -- this hearing is one of a series.
23 We started in Tallahassee, then went to
24 Pensacola yesterday, then to Ft. Walton Beach.

25 Today we are fortunate to be in Panama

1 City, in Bay County, and then we will move on
2 to the rest of the state, and ultimately we
3 will be all of the way south to Key West. So
4 we will cover the State of Florida and hope to
5 hear from many, many people.

6 I would like to begin today so that you
7 will know who is here and where they have come
8 from, to ask the members of the House
9 Redistricting Committee and the Senate
10 Reapportionment Committee if they would just
11 state their name, whether they are a member of
12 the House or the Senate, and the community that
13 they represent.

14 And Mr. Guthrie, if you would hand the
15 microphone to our first member.

16 REPRESENTATIVE KIAR: Thank you,
17 Mr. Chairman. My name is Martin Kiar, and I
18 represent an area in south Florida called
19 Broward County, and thank you all very much for
20 giving us the opportunity to come and hear your
21 voices.

22 SENATOR MONFORD: I am Bill Monford. I
23 represent District 6, Senate District 6 and it
24 stretches from Madison County, that is Madison,
25 Jefferson, Leon, Wakulla, Franklin, Gulf,

1 Calhoun, Liberty, Jackson, Gadsden and a little
2 bit part of Bay, right down the street down
3 here.

4 So if you are my constituent, glad you are
5 here. If you are not, I wish you were. Glad
6 to be here.

7 REPRESENTATIVE ADKINS: Hi, my name is
8 Janet Adkins, I serve in the Florida House and
9 I represent Nassau County, Baker, Bradford,
10 Clay, Union and Duval Counties.

11 REPRESENTATIVE NEHR: Good morning, my
12 name is Peter Nehr, and I am from District 48.
13 I represent Pinellas County.

14 SPEAKER WEATHERFORD: Hello, my name is
15 Will Weatherford. I am in the State House of
16 Representatives. I represent District 61,
17 which is in Pasco County.

18 REPRESENTATIVE MARGOLIS: Good morning, my
19 name is Sandra Gwen Margolis. I represent the
20 east side of Miami Dade County and a little bit
21 of Broward, just a very little bit.

22 REPRESENTATIVE FORD: I am Clay Ford,
23 Representative for District 3.
24 Ninety-five percent of my district is
25 Pensacola, five percent is Gulf Breeze, and we

1 have got a beach up in that area, too, sort of
2 like Panama City. I feel at home here.

3 REPRESENTATIVE WILLIAMS: Good morning, my
4 name is Alan Williams, native, north Floridian.
5 I represent parts of Tallahassee, Leon County
6 and parts of Gadsden county. It is great to be
7 here.

8 REPRESENTATIVE COLEY: I am Marti Coley.
9 I represent District 7 here and the panhandle,
10 including Bay County and encompassing nine
11 counties in the panhandle.

12 REPRESENTATIVE HOOPER: Good morning,
13 everyone, I am Ed Hooper, Florida House, I
14 represent District 50, which is about one
15 fourth of Pinellas County.

16 REPRESENTATIVE FRISHE: Good morning, I am
17 State Representative Jim Frishe, I am from
18 District 54 which is the western edge of
19 Pinellas County, all of the beaches. I feel
20 right at home here.

21 REPRESENTATIVE CHESTNUT: Good morning,
22 Chuck Chestnut, District 23, a portion of
23 Alachua County and a portion of Marion County.

24 REPRESENTATIVE REED: Good morning, I am
25 Betty Reed, I represent part of east Tampa,

1 Hillsborough County, parts of Riverview, and a
2 snibbling of west Tampa, and glad to be here.

3 REPRESENTATIVE CLARKE-REED: Good morning,
4 I am State Representative Gwyndolen
5 Clarke-Reed. Don't let the New York accent
6 fool you, I am a native Floridian. I represent
7 House District 92, which is in Broward County,
8 representing the cities of Deerfield Beach,
9 Pompano Beach, Oakland Park, Wilton Manors,
10 Tamarac, and part of north Lauderdale, Victoria
11 Park area of Ft. Lauderdale. Thank you, I am
12 glad to be here.

13 REPRESENTATIVE CAMPBELL: Good morning, my
14 name is Daphne Campbell, I represent District
15 108, part of Miami, Dade County, and as we have
16 four municipalities, North Miami. We have four
17 municipalities, North Miami, North Miami --
18 North Miami, Miami Shores, El Portal and
19 Biscayne Park and I am glad to be here.

20 REPRESENTATIVE ROGERS: Good morning,
21 State Representative Hazel Rogers representing
22 areas of Broward County. Seven cities,
23 Lauderdale Lakes, Lauderhill, Oakland Park,
24 North Lauderdale, Tamarac, Sunrise, Plantation
25 and, of course, Broward County, 1.8 million

1 residents.

2 It is good to be here. We are State
3 Representatives, representing the entire State
4 of Florida, so I thank you for being here.

5 REPRESENTATIVE BURGIN: Hello, I am State
6 Representative Rachel Burgin from the Tampa Bay
7 area, representing District 56 in Hillsborough
8 County.

9 REPRESENTATIVE BERNARD: Good morning,
10 State Representative Mack Bernard, representing
11 District 84 in Palm Beach County.

12 REPRESENTATIVE JULIEN: Good morning, my
13 name is John Patrick Julien, proudly
14 representing the Florida House of
15 Representatives District 104 which encompasses
16 North Miami beach, North Miami, Miami Gardens,
17 Opa Locka, the City of Miami, the City of
18 Hialeah and Unincorporated Miami-Dade, and it
19 is truly an honor and a privilege to be here.

20 REPRESENTATIVE PASSIDOMO: Good morning,
21 my name is Kathleen Passidomo, House District
22 76, which is Collier County and it includes the
23 City of Naples, the City of Marco Island,
24 Everglades City and as I indicated, less than a
25 ton of alligators. Thank you.

1 REPRESENTATIVE GOODSON: Good morning, my
2 name is Tom Goodson, I represent House District
3 29, which runs from Mims, Florida through the
4 Space Coast, Brevard County down into Indian
5 River County. Thank you for having us.

6 REPRESENTATIVE HAYS: Good morning, and
7 thank you for being here. I am Alan Hays,
8 State Senator from District 20 which includes
9 parts of Volusia, Seminole, Lake, Sumter and
10 Marion Counties, right in the heart of Florida.
11 Thanks are being here.

12 REPRESENTATIVE BAXLEY: Good morning, I am
13 Dennis Baxley, a country undertaker from Ocala,
14 Marion County, representing District 24 there
15 for the folks there, fourth generation
16 Floridian. Love to be back in Panama City
17 today. Thank you for coming and talking to us.

18 SENATOR THRASHER: Good morning, I am
19 State Senator John Thrasher in District 8. I
20 live in St. Augustine, Florida, and I represent
21 parts of Nassau County, Duval County, St. Johns
22 County, Flagler County, and I end up at the
23 International Speedway in Daytona Beach, and it
24 is great to be here and thank you all for
25 coming this morning.

1 REPRESENTATIVE CRUZ: Good morning, I am
2 State Representative Janet Cruz. I, along with
3 my colleagues, Representative Reed and
4 Representative Burgin, represent a portion of
5 Tampa, Hillsborough County. It is an honor and
6 a privilege to be here. For those of you who
7 took time off of work, I appreciate you being
8 here.

9 For those of you that took time from your
10 golf game or time from the beach, I appreciate
11 you being here even more. Have a good day.

12 REPRESENTATIVE STARGILL: Good morning, I
13 am Representative Kelli Stargel from District
14 64, which is North Polk County and a lot of the
15 City of Lakeland.

16 REPRESENTATIVE TAYLOR: Good morning, I am
17 State Representative Dwayne Taylor from Daytona
18 Beach, Florida, where the world center of
19 racing and the world's most famous beach on the
20 Atlantic, on the Atlantic side.

21 CHAIRMAN GATES: He got in real trouble in
22 Ft. Walton Beach last night.

23 REPRESENTATIVE DRAKE: Thank you, I am
24 Brad Drake. I represent House District 5. I
25 live about 45 miles down the road in Walton

1 County. I have five counties here in the
2 panhandle, Okaloosa, Walton, Holmes, Washington
3 and Jackson. So thank you for letting me be
4 here with you today.

5 REPRESENTATIVE PATRONIS: Good morning.
6 Thank you all for coming today. Welcome to Bay
7 County, members. Constituents, I want to tell
8 you, this is probably the largest assembling
9 you have had of State Legislators in Bay
10 County's history, and please take your
11 opportunities to vet to them.

12 I am humble to have so many here in Bay
13 County and as I look at the audience, there is
14 members, you have the highest quality of folks
15 you are going to get testimony from here today,
16 and I am glad to be here with you.

17 I guess it would help, Peter Nehr pointed
18 out to me, I am State Representative Jimmy
19 Patronis, representing Bay County, proudly.

20 SENATOR EVERS: I am Senator Greg Evers, I
21 represent the northern portion of Escambia,
22 Santa Rosa, Okaloosa, Walton, Washington,
23 Holmes and North Bay County. So I cover
24 everything between Senator Gates and the
25 Alabama line.

1 That is in District 2, and it is always a
2 pleasure to come to Bay County. I really enjoy
3 it. I guess I am from the what you call it,
4 the Sand Hills portion of Bay County is where I
5 represent. So thank you very much. It is a
6 pleasure to be here today.

7 CHAIRMAN GATES: Well, there are more than
8 one way to follow the redistricting process.
9 We have obviously a number of people who are
10 here today. We want to hear from you in a
11 couple of moments, but we also want to let you
12 know that the Florida Channel is broadcasting
13 these hearings, and there are literally
14 thousands of people following us on the
15 Internet.

16 We have had very heavy Internet traffic
17 for which we are immensely grateful, and if you
18 are interested in following the other hearings
19 on the Internet or through the Florida Channel,
20 before you leave today you might want to ask
21 one of the Florida Channel people for the way
22 to do that or check with one of our
23 professional staff.

24 Our sole purpose today is to hear from the
25 public about how you believe the legal

1 standards governing redistricting should be
2 applied in this community so that you can be
3 represented sensibly, fairly, equitably in
4 Washington and in Tallahassee.

5 Our procedures for today's hearing are
6 simple, but important. It is important that
7 you sign in so that we can create a record, an
8 accurate public record of all attendees and
9 speakers, and also you may opt to join our
10 e-mail list or our Snail Mail list so we can
11 keep you informed about the redistricting
12 process and how it will be working, and your
13 opportunities for further input.

14 If you have not signed in, please raise
15 your hand. If you want to speak, if you have
16 not filled out one of these speaker cards and
17 you would like to speak, we want to hear from
18 you.

19 So if you have not done that and you still
20 would like to speak, please just raise your
21 hand and we will have a member of our staff
22 come around and get you to sign a speaker card
23 so that we can add you to the list.

24 Is there anybody else who would like to
25 speak? We will ask later in case there are

1 some people who come in late and that often
2 happens.

3 Before we begin I would like to recognize
4 the Speaker Designate of the Florida House,
5 Representative Will Weatherford, and ask the
6 Speaker D to explain how today's hearing fits
7 into the redistricting process. Mr. Speaker.

8 SPEAKER WEATHERFORD: Thank you very much,
9 Mr. Chairman, and it is an honor to be here in
10 Bay County. We are very pleased with the
11 tremendous turn out that we have today.

12 We are wrapping up our tour of God's
13 country starting in the panhandle and we start
14 here and are working our way south, but we are
15 very happy to be here today in Bay County.

16 And I think it is important that we take
17 just a moment to walk everyone through why we
18 are here today and some of the laws and
19 specific things that we have to do as a body to
20 make these decisions and why we are here
21 listening to you first.

22 Every ten years the Legislature is
23 required by our Constitution to redistrict the
24 state based on increases, decreases and
25 movements in population. Because Florida has

1 grown so significantly over the last ten years
2 we are actually picking up two new
3 Congressional seats in the State of Florida.

4 Because some of our parts of our state
5 have increased or decreased disproportionately
6 in population, many House and Senate seats,
7 along with Congressional seats, will either be
8 adding population or losing population.

9 When redistricting is completed,
10 Congressional Districts must be equal in size
11 and each contain 696,345 people. The 40 Senate
12 Districts must also be nearly equal at 470,033
13 people and our 120 House Districts must also be
14 nearly equal at 156,678 persons.

15 There is a map at the front of the room,
16 right here behind us here, showing this area of
17 the state. The current boundaries of the
18 Districts and the numbers of persons which must
19 be added or subtracted from the current
20 Districts to achieve equal representation.

21 Equality of representation isn't the only
22 legal requirement that redistricting plans must
23 meet. The laws and important court cases
24 governing redistricting are explained in detail
25 on the House and Senate websites.

1 Those websites are listed on the
2 Redistricting 2012 brochure that was available
3 to you when you came in, and if you would like
4 a copy of that brochure and you do not have
5 one, this is what it looks like and we will
6 make sure that they are passed out to you as
7 well.

8 Our redistricting 2012 brochure summarizes
9 Federal and State laws and outlines topics we
10 will hope to be discussed here today at the
11 hearing. If you didn't get -- those same
12 websites have available to all of the public
13 the demographic information from the U. S.
14 Bureau of Census that will be used in drawing
15 districts and redistricting software that
16 Legislators will be using to draw maps.

17 These websites will allow any member of
18 the public to see all district maps proposed by
19 the Legislature and also citizens, themselves,
20 to propose their own district maps for their
21 own communities, or for the whole state using
22 the very tools that the Legislators are using
23 themselves.

24 Before and during this hearing Senate and
25 House professional staff are available to show

1 anyone the simple steps into getting on-line
2 and to making your submissions in the weeks to
3 come.

4 Every recommendation from the public will
5 be made available to the public, and in fact,
6 some public submissions have already been made
7 on the web. The submission of proposed maps
8 that makes -- that makes sense for your
9 community is the single most effective tool
10 that you can use to have a voice on how the
11 districts are drawn in the future.

12 The redistricting schedule under which we
13 are operating is imposed by our State
14 Constitution. The Constitution does not allow,
15 it does not allow us to act on legislative maps
16 before the second year after the census.

17 In other words, that means the 2012
18 legislative session. Now, this body and the
19 Legislature has accelerated that process as
20 much as we possibly can by moving the session
21 up from what is normally in March, up until
22 starting in January in 2012.

23 It has also been suggested that the
24 Legislature should draw maps first and then ask
25 the public to comment. And ladies and

1 gentlemen, we believe that that puts the answer
2 ahead of the question.

3 There should be no preconceptions created
4 by politicians, but rather testimony should be
5 free and unrestricted for you. Our intent is
6 to use those recommendations made at the 26
7 hearings around the state and through our
8 Internet sites and the base -- as a basis for
9 developing one or more of our district maps.

10 We will discuss those options in open
11 public meetings before any votes are taken on
12 the maps even in committee.

13 Throughout the process we will solicit
14 additional public comment so that proposed maps
15 can mature with the public's involvement. All
16 the public will have final approval and will
17 have final transparency before we vote on any
18 maps.

19 Whatever the Legislature votes on is then
20 submitted for judicial review to the courts to
21 insure that final plans meet every single legal
22 requirement.

23 Because our mission today is to hear from
24 you, 100 percent of the time between now and
25 1:00 p.m., will be used to insure that every

1 member here has the opportunity to speak and to
2 present public testimony and to be listened to
3 respectfully without interruption or argument.

4 If after every citizen has had his or her
5 say and there is time remaining before our
6 schedule is here for adjournment, any member of
7 the committee may make any statement or offer
8 observation.

9 Of course, any member of the Legislature
10 may also today or at any time propose a map or
11 a plan and we will make it available to you and
12 the public.

13 Mr. Chairman, thank you for indulging me.
14 I hope that this description of our schedule
15 and our process helps set the stage for a very
16 successful hearing.

17 CHAIRMAN GATES: Thank you very much,
18 Mr. Speaker, and let's get at it in terms of
19 public testimony. By Senate and House rules as
20 Representative Weatherford indicated, we will
21 adjourn promptly at 1:00 o'clock.

22 There are already over 20 individuals
23 signed up to speak. We hope more will sign up
24 to speak as we go. The last person who is
25 signed up to speak so far is Jamie Shepard, and

1 I am an advocate for Jamie Shepard.

2 I want to make sure she has just as much
3 time as Barbara Day, who is the first speaker.
4 And so what that means is that we ask you to
5 impose on yourself a polite and civil
6 respectful time limit of say, three or four or
7 five minutes. Try to get it said in that
8 period of time.

9 If someone else has said what you were
10 going to say, maybe you can think of something
11 else that might add value to the discussions
12 here today.

13 If we get closer to our adjournment time
14 and more people have come in and have signed
15 up, then Speaker Weatherford and I will
16 probably ask you to observe a tighter time
17 frame just so that everybody gets an
18 opportunity to speak.

19 Our first speaker, as I indicated, is
20 Barbara Day, and I am going to call two
21 speakers at once so that you will know who is
22 on deck and you can be ready.

23 John McDonald from the Bay County
24 Democratic Executive Committee is second, and
25 Ms. Day, representing the AARP, is first.

1 Ms. Day, thank you for being here today, and
2 you are recognized.

3 MS. DAY: Thank you. Good morning,
4 Chairman Gates and Chairman Weatherford and to
5 the Committee members.

6 My name is Barbara Day and I do reside in
7 Panama City. I appear today as an AARP
8 volunteer.

9 I urge the Legislature to make the
10 redistricting process to be all it can be. As
11 you exercise your constitutional duty to draw
12 voting districts for ten years, beginning with
13 the 2012 election, AARP urges you to insure
14 transparency of the legislative redistricting
15 process, every step of the way.

16 Keep transparency in place with
17 redistricting discussions among members and by
18 members should be noticed and open to the
19 public.

20 Also keep transparency in place, meaning
21 the public has the opportunity to comment and
22 to have those comments meaningfully considered
23 by the Legislature during all legislative
24 redistricting proceedings and redistricting
25 proposals, that is before Legislators make

1 decisions.

2 Insure timeliness of the redistricting
3 process and insure public input. The
4 Legislature has an obligation to meet the
5 Constitutional dictates as already expressed by
6 the Florida voters.

7 The Legislature owes Florida's residents
8 and voters professionalism and timely
9 completion of the redistricting process. The
10 Legislature should know the procedural steps
11 that redistricting plans will need to complete
12 in order for there to be a timely qualification
13 of the 2012 candidates, under the new district
14 and for vigorous campaigns before voters cast
15 their ballots.

16 That means the Legislature should complete
17 its portion of the process sooner than later.
18 Remember to take steps to insulate the
19 redistricting process from the appearance of
20 conflict of interest.

21 For example, subcommittees of Legislators
22 could research and develop alternative
23 redistricting proposals for the areas of the
24 state remote from subcommittee members.

25 Geographic residences, perhaps, example,

1 four areas of the state then refine and
2 reconciled for two halves of the state, then
3 refine and reconcile by the full chambers into
4 one state plan.

5 When it is time for your performance the
6 Florida voters will not favor undue expense and
7 delay in that performance. It is up to the
8 Legislator. What will it be, redistricting,
9 presentment or voter resentment?

10 I am confident that the Legislators, the
11 Legislature and its staff have the professional
12 competence and technical assistance to research
13 and propose new voting districts in accord with
14 all of the Constitutional and Federal
15 requirements. Wishing you good luck and you
16 make your best effort.

17 Thank you for your attention.

18 CHAIRMAN GATES: Thank you, Ms. Day. It
19 was great to see you again. And next we will
20 have John McDonald from the Democratic
21 Executive Committee, and behind John, Ray
22 Gaggis, please. Please be on deck. Thank you
23 for being here and we look forward to your
24 testimony, you are recognized.

25 MR. MCDONALD: Thank you, Senator. I

1 appreciate this opportunity and I would just
2 like to introduce myself.

3 My name is John McDonald, I am a Panama
4 City native, and, you know, I don't have a
5 prepared speech or anything. I am pretty much
6 an average Joe and that is what I look out for.

7 I ran against Mr. Patronis in the last
8 general election, Jimmy is a good guy. I am
9 not here to talk politics. I just want people
10 to understand what is going on.

11 We have got -- we are spending a lot of
12 money on this right now. I mean, upwards of
13 \$30 million is being spent on this process. At
14 the same time, we got state workers, teachers
15 being laid off. We have got an attack on
16 social services, our law enforcement, you know,
17 I think this is unacceptable, because I live
18 here and I know what the economy is like, and,
19 you know, our state economy, our state workers
20 are a big part of this economy.

21 CHAIRMAN GATES: And John, I apologize.
22 We would love to hear your views on economic
23 issues and you can come at a delegation meeting
24 or contact any of us, but if you could possibly
25 work your comments back into the purpose of the

1 hearing, the redistricting just to be fair to
2 the others who are waiting to speak.

3 MR. MCDONALD: Well, I did get this in the
4 mail the other day and it is from Nature Coast
5 Conservatives, and it says that as Tallahassee
6 politicians decide our future it is time we are
7 heard, Bay County needs a voice. Bay County
8 deserves our own State Senator and
9 Representative, and with all due respect,
10 Senator, your family has representation in both
11 the House and the Senate, but Bay County does
12 not.

13 So what I am wondering here is what is
14 going to happen, you know, what is this process
15 going to lead to? I am just concerned once
16 again about, I grew up here, I want this area
17 to succeed, and I just don't want, you know, so
18 much money being spent on a process of drawing
19 maps when we have teachers being laid off. We
20 have law enforcement being threatened, and, you
21 know, I am just -- I am sorry. I hope you
22 listen and I hope you heed the word of the
23 common man. Thank you, sir.

24 CHAIRMAN GATES: Thank you so much for
25 being here. We appreciate your testimony, and

1 Ray Gaggis is next and following Ray we have --
2 we have Larry who gave us his first name, but
3 not his last name. So we are going to ask to
4 know more about Larry when he speaks, but Ray
5 Gaggis, you are up.

6 Would you please come down here, sir,
7 because we want to put you on statewide
8 television. No pressure, no pressure.

9 MR. GAGIS: No pressure, but don't say
10 nothing about me, because --

11 CHAIRMAN GATES: Thank you for being here
12 and you are recognized, sir.

13 MR. GAGIS: Well, I am like the last man.
14 I am not for people being laid off, because if
15 you look, the money today is troubling. It is
16 poured out in sacks from the government in
17 Washington, and I would say today, everybody,
18 everybody should cut back. If we don't, we are
19 going to go like Greek.

20 Now, we got a Greek man back there. I
21 never can get to him, but I am a Greek. I
22 didn't mean to say this much.

23 CHAIRMAN GATES: When you are a hole now,
24 quit digging.

25 MR. GAGIS: But if we don't and you are

1 redistricting, back to that, are we going to
2 get more Representatives? Why? Why not use
3 the same amount of Representatives or cut back
4 on them or cut back on their pay?

5 I am not against anybody getting fired
6 from anything, if they can't do their job, they
7 can go. They should go. I spent 20 years in
8 the Navy. I learned all I could about my job.
9 I done as much as I could for my job.

10 I have run a business for 26 years after I
11 got out. I have never found the time that I
12 could not get a job, never, and today, the
13 people that is fed that won't work should not
14 be fed. It is a fact. Should not be fed.
15 Welfare is eating you to death.

16 CHAIRMAN GATES: Thank you very much,
17 Mr. Gaggis and thank you for your service to our
18 country.

19 Larry, can we learn more about you?
20 Larry, we hardly knew you. We will come back
21 to you in case you would like to come out of
22 the shadows.

23 Jean Miller is our next presenter, and
24 following Ms. Miller is Carolyn Herrera, if you
25 would be on deck, please, Ms. Herrera.

1 Ms. Miller, thank you for being here
2 today. We appreciate your taking time and you
3 are recognized.

4 MS. MILLER: Thank you, sir. I appreciate
5 you having this hearing. The only thing I have
6 to say is I am a common citizen. Please, when
7 you redistrict, try to make the districts as
8 equal as can be with different groups of
9 people.

10 Do not make beaches one and farmers one,
11 because then you have unequal money that can
12 buy influence. Please remember this is for all
13 the state of Florida, not just one district or
14 one group of people. Thank you.

15 CHAIRMAN GATES: Ms. Miller, thank you
16 very much for your testimony. Carolyn Herrera
17 is next, and following her Wayne Garnett,
18 please, Mr. Garnett, if you will be on deck.

19 Thank you, ma'am, for coming today. We
20 look forward to what you have to say and you
21 are recognized.

22 MS. HERRERA: Well, thank you very much
23 for having me here. I -- forgive the northern
24 accent, I will never lose it, okay. But I do
25 want to say that while you are cutting back on

1 everything, it needs to be cut back in
2 Tallahassee, too, as far as the government
3 goes.

4 But setting up the voting things I would
5 like to see it done by county. Keeping one
6 county together. I live in northern Bay
7 County, and I have no Representative, you know,
8 it is spread out over the whole area, and it is
9 very, very frustrating.

10 I would just like to see if they could set
11 like a block coming down from the Alabama
12 border to the Gulf of Mexico and fit in the
13 number of people that you need in that area and
14 then move over to the next block and do that so
15 we can keep as many counties together as we
16 possibly can, where the whole county has one
17 group. And that is all I would like to say.

18 CHAIRMAN GATES: Thank you, that is very
19 helpful. We appreciate it. And Mr. Garnett,
20 if you would come forward and behind
21 Mr. Garnett, Brenda Rees.

22 Mr. Garnett, we appreciate you taking time
23 from your day and you are recognized.

24 MR. GARNETT: Thank you, sir, I appreciate
25 being here. I thought I was signed up for a

1 drawing for a boat or fruit. I didn't know I
2 was really going to be on the program.

3 CHAIRMAN GATES: You are, you will see
4 Representative Patronis and his fellow Greek
5 afterwards.

6 MR. GARNETT: All right.

7 CHAIRMAN GATES: They have a bunch of
8 devalued drachmas for you.

9 MR. GARNETT: If I would have known you
10 was going to put me on television I would have
11 waited to come tomorrow, because I get better
12 looking every day.

13 CHAIRMAN GATES: And I thought we would
14 handle the jokes. Would you like to travel
15 with us?

16 MR. GARNETT: Well, in fact, I was just
17 looking at your itinerary. You are starting
18 off eating shrimp in Pensacola and you are
19 going to wind up eating conch in the Keys.
20 Now, that ain't a bad way to spend the summer.

21 CHAIRMAN GATES: Come on along.

22 MR. GARNETT: If you have time though, you
23 ought to stop by Tampa, go by Ebor City and get
24 you some Pompano and populi and some black bean
25 soup, black beans, white rice and onions.

1 I really, I came over here today because
2 when there is this many politicians all at one
3 place, you need to watch them. And I apologize
4 for the crowd because there is more of ya'll
5 than there are of us.

6 But I think what you are doing is a very
7 serious thing and I just want to say, just try
8 to do something that makes sense. That is all
9 I ask of you. Thank you very much.

10 CHAIRMAN GATES: Thank you, sir. We
11 really appreciate you being here. Next is
12 Brenda Rees, it is nice to see you again,
13 Ms. Rees, and following Brenda will be Roger, I
14 believe it is Straley or Stanley, if you will
15 be on deck, please.

16 Brenda, nice to see you, you are
17 recognized.

18 MS. REES: Senator Gates, Representative
19 Weatherford and Senate and House Committee
20 members, thank you for coming over to this part
21 of northwest Florida.

22 I live in Walton county, which is in the
23 middle, so part of my district is over there
24 and part is impacted over here, so I thought it
25 was important to come to both.

1 I will try to say something a little bit
2 different today and not the same testimony that
3 I gave last night.

4 But I am a Florida native. My family has
5 been here about seven generations, so there has
6 been a lot of map changes in the time that my
7 family has been in Florida, but thank you for
8 holding these statewide public redistricting
9 meetings. I believe you are getting
10 substantial evidence that you will be able to
11 use in your redistricting process.

12 I have lived in several states and have
13 witnessed several redistricting processes. In
14 Alaska I was on the State Redistricting Board
15 appointed by the Governor.

16 The five member Board redistricted, not
17 the Legislature. We had rules to follow just
18 as you. My brother is an NFL Referee. He was
19 the head referee for the Super Bowl this year.
20 He had rules to follow, and just like him, at
21 the end of the game I hope it is a good game
22 called, well done by the players in taking care
23 of the people at hand.

24 The ball is in the citizen's hand right
25 now and this is our chance to speak to you, so

1 thank you very much for giving us this
2 opportunity to come to you and give you our
3 opinions in developing the important
4 redistricting plans for the state of Florida.

5 I know how important redistricting
6 hearings are in Alaska. One day it was
7 50 degrees below zero and with had to go to
8 Fairbanks and the heat went out in the hotel
9 and people showed up. So I hope your weather
10 fares well for you in all of your meetings.

11 Follow the rules by adhering to one
12 person, one vote. The Voting Rights Act of
13 1964 as amended in 1965, that districts are
14 compact, contiguous and reflect communities of
15 interest as much as is practical as you heard
16 last night.

17 Follow the rule of 10 percent deviation
18 for the state Senate and House Districts. We
19 have 67 counties now in Florida. Well, we have
20 40 Senators, 120 Representatives and we will be
21 having 27 Congressional leaders. There is
22 going to have to be -- 29, have to be some
23 mixing of counties.

24 There is no way to divide 18 million
25 Floridians up with those numbers without some

1 cross counties. One vote difference for
2 Congressional will be challenging.
3 Redistricting by census block, what some people
4 don't understand is, you have to do it by
5 census block. The census wasn't by counties,
6 it wasn't by cities. It wasn't by other
7 municipalities. It was by census block.

8 So sometimes you may get that odd squiggly
9 little line that makes no sense, but you might
10 have to use it. I hope you can keep them as
11 compact as possible and contiguous, but the
12 public needs to understand, it is by census
13 block.

14 Thank you for providing maps, numbers and
15 extensive information. We know that our
16 Congressional District 1 is 2,000 short and
17 Congressional District 2 is 41,000 over the
18 ideal 696,000 ideal district. CD 1 is 2,000
19 short and CD 2 is about 41,000 over. So there
20 will have to be some adjustments made there.

21 Please try to keep South Walton. That is
22 where I live. I was born in Defuniak Springs
23 on the north end, but I live in South Walton on
24 the south end and it is a historical community
25 of interest.

1 It is -- I brought this picture here. It
2 is a beautiful little community, even Thomas
3 Hannah of Pointe Washington was a one time
4 Speaker of the House from Pointe Washington, a
5 little known fact. So we do, even though we
6 are small and we get juggled around a little
7 bit, we have had political importance.

8 Also, in redistricting South Walton it is
9 very important to keep us together as we are
10 down here, and what separates us from the
11 northern end is a large bay and also Eglin Air
12 Force Base which is one of the largest the Air
13 Force Bases in America and it is also a bombing
14 range. So sometimes roads are closed, so that
15 is just something to keep, keep in mind.

16 Congressional District 1, you heard last
17 night, should consolidate Okaloosa County as
18 much as possible, and Congressional District 2,
19 I have already discussed that.

20 You will eventually have to make the final
21 call on the redistricting plan going forth,
22 make the right call and follow the rules.
23 Thank you.

24 CHAIRMAN GATES: Thank you very much,
25 Ms. Rees. We appreciate your testimony.

1 Mr. Roger, I believe it is Straley. I think,
2 could I possibly have that wrong. You are
3 going to help me out.

4 MR. STRALEY: It is Roger Straley.

5 CHAIRMAN GATES: Thank you, sir, welcome,
6 and you are recognized.

7 MR. STRALEY: I am from Bay County, a long
8 time resident of Florida. The only thing that
9 I would ask is it has been touched on here
10 before by previous people. Is that you would
11 make your districts based on common sense on
12 county lines, on geographic features that would
13 make sense and not consider the party
14 representation necessarily within the
15 districts.

16 I think that has been a great cause for
17 the spread out districts. No common sense at
18 all is purely political considerations, but I
19 would ask you to try to make them using common
20 sense and not political considerations. Thank
21 you very much.

22 CHAIRMAN GATES: Thank you, Mr. Straley,
23 we appreciate your comments.

24 Next is Dr. Rufus Wood, I believe, and
25 following Dr. Wood is Jim Anders.

1 Dr. Wood? As we are waiting for Dr. Wood
2 to approach the podium, President Margolis, our
3 former Senate President has admonished me to
4 point out that the maps that are behind us
5 which were in the front previously and will be
6 -- a number of people were looking at them and
7 they will be available later, are maps that
8 show the current districts, Congressional
9 Senate and House Districts, and those maps can
10 be used by you as a point of departure, a take
11 off point for where you specifically think
12 changes ought to be made.

13 Thank you very much, Doctor, for being
14 here, and you are recognized to speak, sir.

15 DR. WOOD: Thank you, Chairman and to all
16 of our Representatives and our Senators. We
17 are so delighted to have you in our community
18 and to all of the citizens who have come today
19 to share with, I appreciate this opportunity.

20 I am Reverend Dr. Rufus L. Wood, Jr. I
21 represent the Bay County Branch National
22 Association for the Advancement of Colored
23 People.

24 It was Dr. James Cone who once said that
25 we can never understand the political process

1 until we become active and be a part of that
2 process.

3 We are here today to that political power
4 is essential for all people in the state of
5 Florida and throughout this great nation. As
6 you all know, the 1965 Voters Right Act was a
7 landmark national piece of legislation which
8 was passed that outlawed discriminative
9 practices in the voting procedures, which had
10 been responsible for many years for the
11 wide-spread disenfranchisement of
12 African-Americans.

13 So we have come today to say again that we
14 believe that political power is essential for
15 African-Americans and, in fact, it is essential
16 for all of the citizens of the state of
17 Florida.

18 We appreciate this opportunity today to
19 appeal to our State Legislators, we want to
20 appeal to you first of all as you travel
21 throughout the great state of Florida to
22 conduct meaningful hearings. We want
23 meaningful dialogue.

24 Unfortunately, in Bay County and some of
25 our political forums that we have had here and

1 public hearings, we have had political leader
2 who have said, my mind is already made up. So
3 we are here today to request that your minds
4 are open to the input that is being given in
5 these hearings.

6 I believe that time is a gift from God.
7 Somebody once said yesterday is a cancelled
8 check, tomorrow is a promissory note, today is
9 cash, and that is all you have, so spend it
10 wisely.

11 So we hope and pray that as you travel
12 throughout the state that you will certainly
13 not waist the time of the citizens of the
14 various communities throughout this state.

15 Time is so important and is so valuable
16 and we hope that you are open to hear what is
17 being shared.

18 Secondly, we appeal to you, don't play,
19 with all due respect, don't play political
20 games with the citizens of this state. Certain
21 parties drawing lines to advantage themselves
22 and to benefit themselves, so that they are
23 more likely to have officials elected, so that
24 they are more likely to control the committee,
25 so they are more likely to control the

1 procedures.

2 So they are more likely to past the laws
3 which support their particular point of views.
4 So once again, with all due respect we do hope
5 and pray that you will not play games with the
6 citizens of the state of Florida.

7 Thirdly, we appeal to you to provide
8 equity in terms of representation for all of
9 the citizens of the state of Florida.

10 In Bay County, in the past ten years there
11 has been an increase in the African-American
12 population, 10 percent. There has been
13 114 percent increase in terms of the Latino and
14 Hispanic, and we certainly hope that as you
15 make plans to redraw the lines, that that will
16 be taken into consideration, and that there
17 will not be minority delusion in this process
18 as you redraw the lines in this state.

19 Finally, we appeal to you at the end of
20 the process that you again will remember all of
21 the citizens and we would love to have the
22 vital information which has already been stated
23 that after the maps have been drawn up, that
24 there still will be an opportunity for input.

25 We would like to know in terms of the

1 demographics, in terms of race, in terms of
2 national origin, in terms of the age, and in
3 terms of all of those people who will be
4 allowed and permitted to vote.

5 Thank you so very much, and as I go to my
6 seat, I always remember the words of the late
7 Reverend Dr. Martin Luther King, Jr., who once
8 said, injustice anywhere is a threat to justice
9 everywhere. So we only appeal to you to please
10 be fair in this process.

11 CHAIRMAN GATES: Thank you very much,
12 Dr. Wood. Our next speaker is Jim Anders.
13 Mr. Anders, and following Mr. Anders is Wanda
14 Raley, who is the Supervisor of Elections here
15 in Bay County. Jim, it is good to see you.

16 MR. ANDERS: Good to see you.

17 CHAIRMAN GATES: And you are recognized.

18 MR. ANDERS: All right, thank you. Again,
19 I am Jim Anders and I am from South Walton
20 County over to the county to the west, Seagrove
21 Beach, but I was raised in Blountstown. As a
22 matter of fact, Bill Monford over there, he was
23 Student Body President and I was a
24 Representative of his in that class back in the
25 60's, so -- but having grown up in the rural

1 areas in the Florida here, north Florida and
2 living along the coast, I see a need to keep
3 the issues separate.

4 That we have coastal issues that are
5 needed to be done by Representatives who are
6 familiar with the coast, and then we have the
7 rural areas that need to be represented by
8 people that have an interest and need in the
9 rural areas.

10 So I think that was what I really wanted
11 to say, having lived in this area all my life
12 and all, and so I would like to make that
13 statement.

14 But also I just like the process, the way
15 you all allow people to open up and come and
16 speak and all. I can remember 30 years ago
17 when we had and I was a support of his, Senator
18 Barron, he, back then, you know, I think he was
19 President of the Senate, and I think there were
20 three Senators in north Florida.

21 You had W. D. Childers in Pensacola, you
22 had Pat Thomas in Quincy, and you had Senator
23 Barron here in Panama City, and back then I
24 think you could push a button, and I think
25 Dempsey got 70 percent of the vote where he got

1 70 percent of the vote and it was his district,
2 you know.

3 So, I mean, it has changed a lot. I think
4 that was done I think all over, but back then
5 we didn't have the process like we have now,
6 and what I am saying is, thank you all for
7 allowing the people to come and have public
8 input and all. I think that is much needed.

9 CHAIRMAN GATES: Thank you very much, Jim.
10 Appreciate it. And now our Supervisor of
11 Elections. Thank you very much for taking time
12 from your day and we look forward to hearing
13 your testimony.

14 I know that our professional staff has had
15 an opportunity to meet with many of the
16 Supervisors of Elections and we look forward to
17 your guidance. You are recognized.

18 MS. RALEY: Thank you. First of all, I
19 would like to say that I am not the Supervisor
20 of Elections. I am representing him today.
21 Our Supervisor is Mark Anderson.

22 CHAIRMAN GATES: That is what I thought,
23 but I thought perhaps Mr. Anderson went fishing
24 and you -- there was a codetta or something.

25 MS. RALEY: While he was away.

1 CHAIRMAN GATES: Well, since there was no
2 codetta, please give, please give him our best
3 wishes.

4 MS. RALEY: I will.

5 CHAIRMAN GATES: And I am glad that -- I
6 am glad there was not a power struggle or
7 anything like that in the office, but you are
8 here representing him.

9 MS. RALEY: Yes.

10 CHAIRMAN GATES: And nonetheless, we are
11 delighted to have your testimony.

12 MS. RALEY: Thank you very much. He is
13 not able to be here so I would like to read a
14 prepared statement for him.

15 CHAIRMAN GATES: Please.

16 MS. RALEY: First I send my regrets for
17 being unable to attend this meeting. I am
18 currently at the State Association Conference
19 where Supervisors around the state are also
20 addressing redistricting issues.

21 For conducting elections, it is beneficial
22 to use large arterial boundaries, such as main
23 roads or county lines as much as possible to
24 ease and tabulation of voter population for
25 precinct districts.

1 With the current timeline and possible
2 legal challenges, as well as public concerns,
3 it is imperative to move as quickly as possible
4 to complete this task. This will allow
5 adequate time for my office to prepare for the
6 2012 primary election. Respectfully, Mark
7 Anderson, Bay County Supervisor of Elections.

8 CHAIRMAN GATES: Thank you very much, and
9 please give Mr. Anderson our best, and thanks
10 for your testimony today.

11 MS. RALEY: I will, thank you.

12 CHAIRMAN GATES: Next we have, I believe
13 we have someone who's handwriting is almost as
14 bad as mine. I think it is Richard, is it
15 Plant, or -- what is it, sir?

16 MR. PLANTEC: Plantec.

17 CHAIRMAN GATES: Plantec, okay. Well,
18 thank you very much for being here, and Danny
19 Smith is recognized following Mr. Plantec.
20 Thank you for taking time from your day. You
21 are recognized before the Committee.

22 MR. SMITH: Yes, I am retired. I could be
23 out at the beaches right now, but I came here
24 instead.

25 First of all I want to thank all of you.

1 I think this is a wonderful thing that you are
2 doing and I think it will really help your
3 process.

4 I know that the Constitution tells you to
5 consider geographical and political boundaries,
6 but I would also like you to think about
7 community boundaries, which may be different
8 from what some of the other people have said,
9 because I know for example, out on Panama City
10 Beach, parts of it are represented.

11 We have two wonderful State Reps and they
12 are both great, but parts of the beach are
13 represented by different ones. They are
14 basically, it is one community, you should have
15 one, one representative there.

16 By the same token, even the beach, Panama
17 City Beach and Panama City, Lynn Haven, are
18 part of the same community. People belong to
19 the same clubs, give to the same charities, go
20 to the same fundraisers and things. So there
21 is a lot in common beyond what the -- beyond
22 what the legal boundaries may be and the
23 geographical boundaries, and I would like you
24 to keep that in mind.

25 And also when you are grouping, you are

1 grouping communities together, group similar
2 communities together as much as possible,
3 because I have been around, I have seen a lot
4 of the Congressional District which is very
5 large so you have to diversify to a certain
6 extent, but I know like communities such as,
7 you know, the Panama City Beaches and the
8 Panama City downtown, it is still they have a
9 lot of the roots and the background with the
10 rural communities around here.

11 I see a lot less of a connection with
12 Tallahassee. You should keep in mind how the
13 communities blend, try to put people together.
14 I -- I guarantee you if you do this it will
15 make your jobs a lot easier, because you will
16 have those common interests together, and once
17 again I would like to thank you for this
18 opportunity.

19 CHAIRMAN GATES: Thank you very much for
20 your testimony. Very well said. Next is Danny
21 Smith and then after Mr. Smith is Tim Pugh.
22 Mr. Smith, thank you for coming, and you are
23 recognized.

24 MR. SMITH: Good morning, Senator Gates
25 and thanks for all of you for taking the time

1 to come here. I think you have put together a
2 wonderful process and I think most of us have
3 to remember that it is, you know, we really
4 want compact districts easy to understand where
5 you got to go to vote and all of that sort of
6 thing.

7 We don't want anymore of those snakes
8 along from one city to the other just to get
9 certain people in there, of course, and I know
10 you are not going to do that, because this
11 process that you have set up is really good and
12 it is open for everyone to speak.

13 Yes, it may be a little expensive to do,
14 but I think you are doing the right thing and
15 we appreciate the opportunity to come here and
16 just give you our little two cents worth, so
17 thank you.

18 CHAIRMAN GATES: Thank you very much, sir.
19 We really appreciate your time. Mr. Pugh?

20 MR. PUGH: Yes.

21 CHAIRMAN GATES: Thank you very much for
22 taking time from your day and you are
23 recognized to speak, sir.

24 MR. PUGH: Good morning, Senator Gates and
25 thanks for all of the communication, the

1 updated information that you give me all of the
2 time. I appreciate that.

3 Most everything I wanted to say was
4 already said today. The process should be
5 common sense, community based, and I hope that
6 through the whole process that gerrymandering
7 never comes up. We shouldn't have a bunch of
8 squiggly lines.

9 And the other thing I have to say is that
10 as an IT person, your online tools are
11 terrible. I mean, the interface is terrible,
12 and if there is anything we can do about that
13 to make it easier, because --

14 CHAIRMAN GATES: You are hired.

15 MR. PUGH: Huh? But, yes, it -- they are
16 just really clumsy at best.

17 CHAIRMAN GATES: Would you do us a favor?

18 MR. PUGH: Sure.

19 CHAIRMAN GATES: Since you are an IT
20 person and we have heard, you know, we had a
21 gentleman testify yesterday who said he spent
22 15 minutes with them and was able to navigate
23 easily and, in fact, had already drawn
24 Congressional and Senate Districts.

25 So would you -- where is John Guthrie? Do

1 you see that gentlemen right over there?

2 MR. PUGH: Yes.

3 CHAIRMAN GATES: Would you mind spending
4 10 or 15 minutes with him now or after the
5 hearing and share some of your concerns and
6 maybe he can offer you a couple of suggestions
7 as well, and I am sure you can have some
8 recommendations that will help us, because in
9 general we are getting very good responses, but
10 if there are difficulties and there are two
11 cites, a House cite and a Senate cite. So
12 anxious to have your help there, but please go
13 ahead, sir.

14 MR. PUGH: Okay, I will do, I will be with
15 you, but that is basically all I had to say,
16 just make sure it is a common sense approach
17 and that gerrymandering doesn't come up during
18 this entire process.

19 CHAIRMAN GATES: Okay, thank you, and if
20 you would spend some time with Mr. Guthrie,
21 that would benefit everybody.

22 MR. PUGH: Okay, thanks.

23 CHAIRMAN GATES: Thank you so much.

24 William Pritchard is next and then Candice
25 Harbison.

1 William Pritchard and then Ms. Harbison,
2 if you would be on deck, please.

3 MR. PRITCHARD: I thought I was going to
4 get the on deck sign ahead of time.

5 CHAIRMAN GATES: Well, it was my fault. I
6 was so wrapped up in trying to get some free
7 help here that I --

8 MR. PRITCHARD: Yes, I understand.

9 CHAIRMAN GATES: I am a conservative,
10 understand. Mr. Pritchard, you are recognized,
11 and thanks so much for coming today.

12 MR. PRITCHARD: Good morning, my name is
13 Bill Pritchard and I am representing myself, as
14 well as our Greater Bay Chapter of the ACLU of
15 Florida which I am President of.

16 Of course, you all know, everybody knows
17 that anybody that has been paying attention
18 anyway, that the majority of voters, in fact,
19 almost two-thirds voted for Amendments V and VI
20 to create compact, contiguous districts and to
21 put an end to gerrymandering no matter which
22 side you are on.

23 This is a non-partisan thing, it is
24 supposed to be anyway, and the thing that
25 bothers me about this process is that where are

1 the maps?

2 It is a good question, because all we have
3 is the old maps and ultimately you people are
4 going to draw the maps and vote on them, and I
5 think it would have been better had you
6 presented us with at least tentative maps that
7 we could comment on, because otherwise all we
8 can comment on here is the process.

9 And as some other people have said, they
10 have gotten right to work on this in other
11 states and why in Florida does it take so long
12 to develop maps of House, Senate and
13 Congressional Districts.

14 That information has been available for
15 months and if anybody can use the Internet to
16 draw a map, why can't you use the Internet to
17 draw a map so that we could see what your
18 intentions are?

19 But this is going to take too long, and I
20 understand that you can't vote on maps ahead of
21 time, but there is no reason why you can't
22 create some, because there is going to be a lot
23 of confusion and last minute problems because
24 people who want to run for office aren't going
25 to know what district they are in, and I won't

1 know who my Representative is going to be ahead
2 of time, and let me see here.

3 Another thing that I find as a problem
4 with this process is that after the maps are
5 proposed, are you going to conduct hearings
6 after that so that people can actually comment
7 on the maps that you are going to vote on?

8 I think people would want to know that.
9 The Florida process is one of the slowest and
10 most secretive in the country, and there is no
11 reason this needs to be like this unless the
12 goal is to keep people in the dark and confuse
13 them, and that leads us to more things about
14 Fair Districts Florida.

15 I am troubled that so many of you have
16 opposed, fought and continued to fight against
17 these amendments, and it is pretty much an
18 insult to the voters who overwhelmingly
19 approved these rules that you are trying to
20 ignore them or play games with them, and why
21 are you spending so much of my money and other
22 taxpayers' money to try to undermine my vote
23 and the vote of the majority of Floridians for
24 a fair process and fair districts.

25 I understand that there has been maybe as

1 much as \$30 million put away to try to work
2 against the Fair District Amendment. Still it
3 would be better to stop spending money on
4 lawyers and just to draw the maps.

5 If you are planning to spend that kind of
6 money to defend the kind of districts that you
7 are going to come up with in court, then people
8 are going to suspect that there is something
9 wrong with this process.

10 If you draw -- if you drew good fair maps
11 I think perhaps nobody would sue you, so that
12 is what I have to say.

13 CHAIRMAN GATES: Well, thank you,
14 Mr. Pritchard and you raised some very
15 interesting questions from your script that
16 others from the ACLU have raised and we are
17 going to ask the Speaker Designate to comment
18 on those because I think we want to make sure
19 that there are no questions of fact that remain
20 at the end of the hearing.

21 Thank you very much, Ms. Harbison, for
22 being here, and you are recognized to speak,
23 and behind you is James Gould.

24 MS. HARBISON: Thank you. I don't want to
25 sound like a broken record, but the reason we

1 are doing this now is because we have new
2 census data, and I don't understand why those
3 data weren't put together to draw up some
4 logical, sensible maps that we could all
5 comment on.

6 Perhaps this expensive process could be
7 drawn a little shorter and something more
8 meaningful to comment on could be proposed to
9 us.

10 Locally, a properly compact district would
11 not include a rat tail. It would not
12 concentrate special interests, but it would
13 represent the variety of interests in the
14 district.

15 It has been very confusing for the people
16 of Bay County to have been split up into
17 various districts. Unless there is a really
18 good reason for it, a county should be kept in
19 tact.

20 CHAIRMAN GATES: Thank you, and it is good
21 to see you again, Ms. Harbison. James Gould is
22 our next speaker and following Mr. Gould, Gary
23 Bechler, please.

24 Mr. Gould, thank you for taking time to
25 come, and we appreciate your presence today.

1 You are recognized.

2 MR. GOULD: Thank you all for coming and
3 opening up this to public comment. My name is
4 James Gould. I live in Southport, Florida.

5 My wife and I run a Tea Party and I would
6 just like to admonish you, the Constitution,
7 the Federalist papers say the end goal of the
8 Constitution is justice, that is justice for
9 all.

10 It also says that a Republic, which is a
11 form of government that we have, cannot stand
12 unless there is a self-reliant and virtuous
13 citizenry.

14 I admonish you as you go through this
15 process to put principle and high moral
16 standards above cheap partisan goals. Thank
17 you.

18 CHAIRMAN GATES: Thank you very much,
19 Mr. Gould. Good words for all of us. Gary
20 Bechler, please, and following Mr. Bechler,
21 Jamie Shepard would be on deck, and Jamie is
22 also with the League of Women Voters.

23 Mr. Bechler, thank you for coming, and you
24 are recognized.

25 MR. BECHLER: Thank you. I would also

1 like to ask where the maps are, why the other
2 states can get this stuff done and let their
3 constituents see what is being proposed or what
4 we are looking at. I feel like this is more or
5 less a farce.

6 We will not even get to comment on these
7 maps once you Legislators draw them up. So we
8 are being put out of the process, I feel like.
9 I feel like when you do redistrict you should
10 take into account how some of these counties
11 are split up.

12 As far as our Senate District here, if you
13 are not in the tourist industry you have no
14 representation. If the counties are kept more
15 whole you have the tourist industries in the
16 south of the counties, you have the farmers in
17 the north, you have, you know, other -- other
18 citizens involved. I don't even have access to
19 my State Senator, which is you, Mr. Gates.

20 By your own words, you know, I tried to
21 talk to you in Tallahassee when we had
22 sessions, after the sessions, when everybody
23 talks to their Representatives.

24 You flat out told me and my business
25 partner that you knew we were in the Union, you

1 knew we didn't vote for you, and you knew, and
2 you didn't have time for us.

3 CHAIRMAN GATES: Now, sir, sir --

4 MR. BECHLER: And I feel, I feel like no
5 matter what --

6 CHAIRMAN GATES: Excuse me. We are not
7 going to have an argument today, but --

8 MR. BECHLER: I am not having an argument.
9 I am making a statement.

10 CHAIRMAN GATES: Yes.

11 MR. BECHLER: I feel like rather I am an
12 Independent, a Democrat or a Republican. If I
13 vote, you know, if I am an Independent and I
14 vote Republican and a Democrat gets elected, I
15 should still have access to my Representative,
16 and I don't. That is all I have to say, thank
17 you.

18 CHAIRMAN GATES: Thank you for your time.
19 And Jamie Shepard is our next speaker, and
20 following Jamie Shepard we will hear from
21 Celia, I think it is either Fith or Fitz, and
22 Ms. Shepard is as well a representative of the
23 League of Women Voters. Nice to see you again.

24 MS. SHEPARD: Nice to see you.

25 CHAIRMAN GATES: Please, you are

1 recognized.

2 MS. SHEPARD: Thank you very much. On
3 behalf of the League of Women Voters of Bay
4 County and all of our citizens, we welcome the
5 committee.

6 We sincerely hope you will come back to
7 Patronis country. As you may very well know,
8 the League of Women Voters of Florida has been
9 front and center on this issue for 70 years.
10 We have been fighting for this for 70 years.

11 Fair election districts are a good
12 government, non-partisan issue, just like the
13 League. We have supported this measure,
14 regardless of which party was in control of the
15 State Legislature.

16 The League of Women Voters was, was not,
17 has not been and is not anti incumbent, because
18 we have a long history of opposing term limits
19 because we understand the importance of time in
20 office for clarity on the issues and
21 familiarity with the concerns of your
22 constituents.

23 We thank you for your website, Florida
24 Redistricting.org, which will allow us all to
25 monitor what the Legislature and our fellow

1 citizens are proposing, but we encourage the
2 Committee to go ahead and put something on
3 paper.

4 Everybody knows it is easier to edit than
5 create. We encourage the Committee to move the
6 timeline up as your own attorney suggested, to
7 preclude chaos and confusion in 2012.

8 This is kind of what we are paying you
9 for, and so as our Governor has succinctly
10 said, let's get to work on it. We encourage
11 you to drop your lawsuit. Sixty-three percent
12 of the voters has spoken, we passed Amendments
13 V and VI last fall. This is a waste of
14 taxpayer dollars to combat this.

15 What is the logic of this? Minority
16 districts are protected already, communities of
17 interest are a concern, but our compliance with
18 the national voting rights laws must take
19 precedence.

20 We thank you again for your time, your
21 time here across the state to listen to all of
22 us. Your consideration is truly appreciated
23 and we are hoping for the best. Thank you.

24 CHAIRMAN GATES: Thank you so much for
25 being here, and it is good to see you again.

1 Now, Celia Fitz, nice to see you again. This
2 is like old home week, and Frederick, I think
3 its Croon or Crown may be next, please. You
4 are recognized, and thanks for being here.

5 MS. FITZ: I am a resident of Bay County.
6 I have been a citizen here for many years and I
7 just wanted to say a few things.

8 One, that Fair Districts was the will of
9 the vast majority of Floridians and I would
10 like very much for you to simply follow the
11 Fair District laws and to draw the maps first
12 before.

13 I know you have made up your mind and you
14 are going do this and I know I am not going to
15 change your mind, but I really wish you would
16 have drawn the maps first. I think it would
17 have made the process much more meaningful and
18 efficient.

19 And I am very concerned with the number of
20 cuts down to the bone for education and many
21 other agencies in Florida that we are spending
22 so much money. I assume taxpayers are paying
23 for all of you to travel all around the state
24 and do all of this, and that lady I am sure
25 gets paid quite well and other folks.

1 We don't have the money in Florida to be
2 just wasting it, and let's make the process
3 more meaningful and more efficient. Let's move
4 it forward. Let's move it along, and it will
5 be a real problem if we don't have these
6 districts drawn and in place in plenty of time
7 for people to decide who is going to qualify
8 for that district, what district, with won't
9 have any districts if you take until June to
10 make a decision.

11 The courts are going to have to review it.
12 So we really wish you would go ahead and draw
13 the maps and then let us speak on it. Okay.

14 Well, that was pretty much it, and also I
15 did want to bring up the legal challenges. I
16 have been very resentful of the State
17 Legislature using our tax dollars to go after
18 Fair Districts when it is the will of the
19 people. Thank you.

20 CHAIRMAN GATES: Thank you, Celia, and I
21 should have, I apologize, I should have
22 mentioned that Celia as well represents the
23 League of Women Voters or is a member. I am
24 sorry, you are wearing your League button and I
25 apologize.

1 Frederick Croon, and following Mr. Croon,
2 Beth Oltman from the Panama City Beach Chamber.
3 You are recognized, sir, thank you for being
4 here.

5 MR. CROON: Thank you, good morning to
6 everyone. I am with the Union, I am Union,
7 too, so but irregardless, my number one thing
8 is I am a citizen of the United States and I am
9 definitely a citizen of Bay County.

10 This -- we appreciate ya'll coming. This
11 is very important. You can tell by the number
12 of people here that it is important, but really
13 I think it should be more people here.

14 Even the local news here evidently didn't
15 think it was important enough, because it is
16 not on the front page, it is not on the local,
17 but I request that this Committee put the
18 information out to the people of the state of
19 Florida that how important this is.

20 How this will subject to effect our way of
21 life in the state of Florida for the next 10
22 years or even longer, because right now by the
23 number of people here, local newspaper, et
24 cetera, the people don't think it is important
25 as it is, and you up here do know that it is

1 important on how we draw our district lines and
2 who our leaders are for the state of Florida.

3 And I live in Bay County. I live on the
4 southeast portion of the county, and we have
5 three Senators in Bay County, and most people
6 in Bay County do not have a clue who the three
7 Senators are, and the only reason I know who
8 they are, because I do visit Tallahassee pretty
9 frequently, and Gates, yes, you are my Senator
10 according to my residential location.

11 I think Patronis is for the Callaway area
12 and the Tyndall Air Force base is our
13 Representative, but earlier people spoke on the
14 part that it needs to be made equally fair
15 where the people of the counties or the cities
16 will actually know who their Representatives
17 are and who their State Senators are.

18 And I know Mr. Evers, who is a Senator and
19 he quoted earlier in his comment earlier, he
20 said but he have the Sand Hills of Bay County.

21 He lives in Milton, Florida. You live in
22 Pensacola, but irregardless where you live at,
23 we need to know who represents us, and
24 Mr. Monford, when I was in Tallahassee he is
25 the only one that I got a chance to talk to. I

1 didn't get a chance to talk to you. I didn't
2 get a chance to talk to Mr. Evers.

3 Now, last year, Mr. Evers, I did talk to
4 you when you was a Representative, but as a
5 Senator I did not, but the people needs to know
6 who their Representatives are, not just Union
7 members or the League Voters or people that
8 have groups or organizations, but all of the
9 citizens need to know who their leaders are.

10 So when you are doing these redistricting
11 and setting these boundary lines or the area
12 you cover, try to think about we need the
13 citizens to know who we are, who we can e-mail
14 to, who we can write a letter to if we are
15 having a problem, and, you know, some things
16 are gripes or some grievances or whatever you
17 want to say about the problem, but with need to
18 know who you all are.

19 So if ya'll would think about that while
20 you are traveling the state of Florida, that
21 the people need to know who their leaders are.
22 Thank you.

23 CHAIRMAN GATES: Thank you very much,
24 Mr. Croon. And Mr. Croon raises an interesting
25 point, and just informationally, is Nick Abrams

1 here, Nick? Do you see the tall guy in the
2 back, Mr. Croon, Nick Abrams, right back here,
3 I apologize, sir.

4 If there is anybody here who would like an
5 appointment with either their Representative or
6 their Senator, and perhaps when they were in
7 Tallahassee they didn't get a chance because of
8 a committee meeting or a conflict, if you would
9 like an appointment to see Senator Evers or
10 Representative Coley or Representative Patronis
11 or myself, that tall fellow back there, just
12 keep him in mind, give him your name and
13 number, we will call and set up an appointment
14 for any of you.

15 Ms. Oltman, thank you very much for being
16 here, you are recognized.

17 MS. OLTMAN: Well, hello there. My name
18 is Beth Oltman, and I am the President of the
19 Panama City Beach Chamber of Commerce.

20 I actually live in Lynn Haven. I am a
21 very proud resident of Bay County, and I want
22 to thank all of you for coming to our beautiful
23 part of the state, and I, too, wish that I know
24 all of your intentions are very positive, but I
25 want you to show your true leadership skills

1 and try to expedite this process.

2 Make quick decisions for the entire state,
3 because I know you all can, take away the
4 self-interests and do what is best for our
5 state as a whole.

6 Now, speaking for Bay County, I do wish
7 that we would hold -- keep all of Bay County
8 together. As Bay County has changed throughout
9 the years we now have our airport, we are
10 growing economically. We have our beach, we
11 care so much about our education system.

12 We have many of us are moving into this
13 area from other parts of the country and are
14 very proud to call this home. So I, too, wish
15 to ask that all of Bay County stays together,
16 even though I love Marti and Jimmy and Don, all
17 of you, I sincerely hope that we can expedite
18 this entire situation and keep Bay County whole
19 so we keep our power and grow continually.

20 Thank you for coming once again.

21 CHAIRMAN GATES: Thank you very much, and
22 I should have said also that Senator Monford I
23 am sure takes the same view that if there are
24 any citizens here who may have attempted to
25 reach him when he was in Tallahassee, we get

1 called away a lot for votes on the floor or
2 committee votes and you couldn't reach him, see
3 the tall guy in the back, Nick Abrams, and he
4 will make sure that Senator Monford gets your
5 name and number so that you can get a meeting
6 with him if you would like.

7 Next is Alvin Peters, and following Alvin
8 Peters is Kristy Terry from the Calhoun Chamber
9 of Commerce.

10 Alvin Peters, if you are here, we would be
11 delighted to hear from you.

12 I am sorry I didn't give you as much of a
13 heads up as you might have liked, but you are
14 moving quickly to the floor here and we
15 appreciate that.

16 MR. PETERS: Thank you, Senator Gates, and
17 thank you all of you panel members for
18 attending Panama City's public forum. It is
19 great to see you.

20 It is impressive to see so many of you
21 putting so much time into listening. I think I
22 echo some of the other comments that you may
23 have heard, that this conversation might have
24 been a little more substantive if we had had
25 some proposals and then we could talk about how

1 this might specifically impact different
2 issues, but since we are on the general level I
3 guess we can't help but have the conversation
4 be fairly general.

5 And the good news I think for all of you
6 is that Florida has spoken in a bi-partisan
7 way, I think, to encourage you to draw
8 districts that are contiguous and that show
9 communities of interest. And that is a good
10 thing.

11 I think each of you will have to deal with
12 a little bit of the history of how Florida has
13 gotten to where it is, and one of the things
14 that I would urge you to do is to think of your
15 self as Judges.

16 How would a Judge decide this matter of
17 drawing districts. Think about it. Think
18 about how a Judge would do it, not a
19 politician, you know, and what factors would
20 you consider.

21 Obviously they are different, so if you
22 think of, for example, how would it effect me,
23 that might not be a real judicial approach to
24 deciding, you know, the proper drawing of a
25 line.

1 If you allow factors to effect your
2 consideration, such as how would it effect my
3 party, right, that wouldn't be something that a
4 Judge might realistically consider or properly
5 consider in drawing these districts.

6 So I would ask each of you to put on a
7 Judge's hat as you make these decisions of
8 drawing, you know, these lines. Think about it
9 as a Judge and think about it in a non-partisan
10 uninvolved fashion where you are basically
11 creating fair districts, and to do so in good
12 spirit, not contesting the constitutional
13 changes that mandate you to do so, so that is
14 the first thing.

15 The second thing I think that you need to
16 think about a little bit is how we got here.
17 Florida has drawn these districts. A lots of
18 districts have been drawn largely based on
19 party and race, and I haven't really heard
20 enough of that in this conversation so far
21 today and I would encourage each of you to
22 openly acknowledge the history of how these
23 districts have been drawn.

24 I think Senator Monford comes in to Panama
25 City to get a couple of precincts, and you

1 basically your district goes, was Al Lawson's
2 district and it goes down the train tracks of
3 231.

4 Many of you will leave town and you will
5 drive up 231 on your way out and you will be
6 passing Senator Monford's district. Now, no
7 one lives there, but it goes down the train
8 tracks to get to a couple of precincts that are
9 predominantly African-American in Panama City.

10 And so what you are going to be doing is
11 deciding how to reshape that, and it will make
12 some sense probably for Senator Monford's
13 odometer if he doesn't have to do that, but how
14 will that effect each and every, you know,
15 district and how will that then, you decide,
16 how does it effect me.

17 How does that effect the amount of
18 minority representation in the Florida
19 Legislature. To what extent is that an
20 important factor in deciding how to draw these
21 districts. To what extent should we just go
22 across the state of Florida and draw straight
23 lines every time we get, you know, the right
24 number.

25 To what extent should we create districts

1 that are actually communities of interest that
2 relate to like the beach. Mr. Anders was
3 talking for example, sensibly, you could draw
4 bubbles across Panama City and Panama City
5 Beach and say that is a community of interest.
6 Those people are interested along the coast,
7 they share a community of values, draw that
8 district. Let the rural areas and cut the
9 county in half if necessary on the northern
10 side or respect the county line to the extent
11 you can, which I think everybody says makes
12 some sense.

13 So I would encourage you to have an open
14 conversation about the history and how much
15 party and race have affected the drawing of the
16 current lines. How much the citizens of
17 Florida have spoken to you to do less of that,
18 to weight that less importantly. To create
19 communities of interest and give it a try.

20 Let's see how grown up, how responsible,
21 how open minded, how less subject to party and
22 race the current voters are and we will see
23 where it goes, and that is what I would urge
24 you to do.

25 CHAIRMAN GATES: Thank you so much for

1 your testimony. Good testimony. Next is
2 Kristy Terry, and next after Ms. Terry would
3 be, I think it is Betty, and she has lovely
4 handwriting, Betty Briard, is it Briard?
5 Ms. Briard will be after Kristy Terry.

6 Ms. Terry, thank you for being here. You
7 are recognized.

8 MR. TERRY: Thank you. I want to tell all
9 of you how much we appreciate you coming and
10 listening.

11 CHAIRMAN GATES: Would you pull your mike
12 up because that way all of Florida can hear
13 you.

14 MR. TERRY: Wonderful. Thank you all for
15 coming. We certainly appreciate your
16 willingness to sit through these and listen and
17 take into account everybody's opinions and how
18 they feel about this issue.

19 I am just here to ask you to as you move
20 through this process, to consider the rural
21 counties. We -- it works well for us that we
22 are all in districts where we can partner
23 together and have a stronger voice when we are
24 partnered together.

25 We are limited in our resources. It is to

1 our benefit that we are able to join together
2 and work as a stronger, a stronger voice, and
3 so I just ask that as you move forward you keep
4 that in the back of your mind, that we have a
5 voice, too, and we have to kind of group
6 together, but that works for us. So please
7 just consider that as you move forward.

8 CHAIRMAN GATES: Thank you very, very much
9 for being here and for your testimony. And
10 now, Ms. Briard, if you are still here, ma'am?
11 Did I pronounce your name correctly?

12 MS. BRIARD: Briard.

13 CHAIRMAN GATES: Briard, yes, okay.

14 Well, thank you for being here in any
15 case, appreciate it.

16 Next is Art Kimbrough with the Jackson
17 County Chamber of Commerce. Art, it is good to
18 see you. Thanks for coming all this way and we
19 appreciate your testimony. You are recognized.

20 MR. KIMBROUGH: It is always good to see
21 you, Senator, especially when we are not having
22 to battle over money.

23 CHAIRMAN GATES: That is right.

24 MR. KIMBROUGH: In a discussion we have
25 been through those wars before. My name is Art

1 Kimbrough, I am the President and CEO of the
2 Jackson County Chamber of Commerce up in
3 Marianna.

4 I was born and raised here in Panama City,
5 Lisnby Hospital just down the road longer ago
6 than I would like to remember, Jimmy, but I am
7 a seventh generation native of the panhandle
8 with roots in Jackson, Bay, Calhoun and Gulf
9 Counties.

10 So my family, my heritage, my history is
11 all about what we are trying to do today to
12 have good government and representing the
13 texture and culture of our communities.

14 I have got three messages that I have
15 crafted that are aimed at protecting and/or
16 strengthening the voice of Jackson County and
17 rural Florida in the Legislature.

18 These three positions or principles are
19 deliberately broad, but also very specific
20 and measurable in their goals, and I have extra
21 copies of this for you, Senator, for you to
22 take with you.

23 My basis for these messages includes years
24 of dialogue with Chamber members who have
25 watched the influence of rural Florida dwindle,

1 as well as discussions with our legislative
2 delegations and many other civic and business
3 leaders throughout Jackson County and beyond.

4 First, I believe rural areas do constitute
5 a community of interest that would benefit if
6 their influence is concentrated rather than
7 disbursed.

8 The beach economy, the bigger city markets
9 and rural markets each have unique needs and
10 concerns best served by the Legislators focused
11 on those needs and concerns.

12 Districts aligned according to these
13 communities of interest will be better equipped
14 to articulate their common cause and aggregate
15 the power needed to make sure their voice is
16 heard and their needs addressed.

17 Second, legislation and representation is
18 as much as about relationships as it is
19 district maps. Considering very personally
20 here, we have two Representatives in Jackson
21 County, Marti and Brad, and I can tell you,
22 they don't care where that line falls in
23 Jackson County in terms of representing Jackson
24 County in the state.

25 They don't know it. In fact, I can even

1 reach down and know that Jimmy Patronis, our
2 neighbor right there, he doesn't care about the
3 boundary either. If we need a voice I can call
4 on Jimmy just as well.

5 Senator Monford, you cover the whole
6 county, but Senator Gates I know I can call you
7 just as well. Those relationships are as
8 important into a community as the district
9 boundaries, but we do understand those district
10 boundaries play a key role and that is part of
11 what you are dealing with today.

12 But Jackson County currently benefits from
13 having two Representatives with a strong
14 understanding of rural needs. If we were to be
15 sent back to just one Representative for one
16 county it would further weakened the political
17 influence of rural areas like Jackson County
18 and shift more power to larger markets.

19 Without strong voices from rural
20 Representatives it is very easy for rural
21 concerns to be overrun by large market needs
22 and political power.

23 We need to maintain coverage by two
24 Representatives with a mutual focus on rural
25 needs.

1 Third, and last, two-mile wide, 200 long
2 winding districts with multiple environments,
3 rural, big city and beach, make it very
4 difficult for a Representative or a Senator to
5 stay closely connected to their constituents
6 and deliver a focused message.

7 Creating more compact geographical
8 districts is beneficial from a travel logistics
9 and access perspective so long as those
10 boundaries take into account the previous two
11 concerns.

12 Concentrations of communities of interest
13 and keeping our multiple representation in
14 Jackson County.

15 If the Redistricting Committee and the
16 Legislature adhere to these three principles,
17 the specifics of where the actual lines are
18 drawn will less likely be a cause for concern
19 and more likely be a cause for some
20 celebration.

21 On behalf of the Jackson County Chamber of
22 Commerce and myself, I respectfully request
23 that the spirit of these three principles be
24 incorporated into the strategic framework for
25 developing this plan for redistricting.

1 Thank you for your time and consideration.

2 CHAIRMAN GATES: Thank you, Art, it is
3 good to see you and excellent points.
4 Appreciate it.

5 MR. KIMBROUGH: Who would I give these to?

6 CHAIRMAN GATES: If you will give them to
7 me I will make sure that all members of the
8 Committee get them and we will post them on the
9 website so that -- okay, John will make sure
10 that we all get them. We will put them on the
11 website and that way everybody can see them.
12 Thanks a million, Art.

13 Our next two speakers are Kylel Hall and
14 Jerry Gerde. Kylel Hall?

15 MS. HALL: Actually, it is Kyle.

16 CHAIRMAN GATES: Kyle, you and I both need
17 to go back to penmanship school, I think.

18 MS. HALL: Yes, I am working on it.

19 CHAIRMAN GATES: Kyle, it is good to see
20 you notwithstanding that. And you are
21 recognized for your remarks to the Committee.

22 MR. HALL: Thank you. I was just looking
23 around the room and I noticed that there is not
24 very many college students that took advantage
25 of this great opportunity. Shame on them,

1 first of all.

2 But as a recent graduate from Gulf Coast,
3 then Community College, now State College, I
4 just wanted to kind of focalize my experience
5 that I heard from different students in some of
6 my classes, specifically in my state and local
7 government where we looked into great detail
8 the districting of Florida.

9 And the biggest comments that everyone
10 made, it is something very somewhat simple and
11 I know that there is reasons perhaps behind it,
12 but the biggest concern that the students had
13 was the complexity of the redistricting.

14 As many have mentioned, the snaking and
15 the -- it is very complex and I just wanted to
16 mention to you that as kind of representing the
17 Student Body, that was somewhat of a big
18 concern of theirs.

19 And then also just as a little side note I
20 would just like to say, because I don't know if
21 you hear it that much, that thank you for the
22 2011 legislative session and I was very proud
23 of all of you.

24 CHAIRMAN GATES: Thank you, and Kyle, we
25 just might mention that if you go on to either

1 the House or Senate websites you will see that
2 a group of students from Columbia University
3 took on as a project redistricting in Florida,
4 and they have already developed using our
5 websites, they have already developed
6 redistricting plans for our consideration.

7 We would welcome students that you know
8 doing the same thing either individually or as
9 a group, and if you would be interested in
10 doing that we would be very interested in that
11 input.

12 MR. HALL: It looks like I am going to
13 have to call them because they are not here.

14 CHAIRMAN GATES: Good, good, Jerry Gerde
15 is next, and following Mr. Gerde is Cecile, I
16 think it is Scoon. I apologize if I messed
17 that name up.

18 Mr. Gerde, thank you for being here, and
19 you are recognized.

20 MR. GERDE: Thank you, Senator, thank you,
21 visitors. I think it is important to recognize
22 that some traditions, such as judicial circuits
23 go back for, in some cases, generations, and as
24 all of you know, the 14th Judicial Circuit is
25 part of the web that binds Holmes and Gulf and

1 Bay, Jackson and Calhoun and Washington
2 together.

3 Those are established and functioning
4 entities. The judicial circuits have their own
5 budgets, they have their own, of course,
6 judicial staff, so that Judges who are -- who
7 reside in Panama City have duties in Poplar
8 Springs and Bethlehem, in Jacob and in the most
9 rural of areas of our circuit.

10 So that I encourage -- and there tends to
11 be a, we over use the word perhaps, community,
12 but there tends to be a sense of community.

13 For example, as all of you undoubtedly
14 know, the Circuit Judges every two years change
15 divisions and rotate through the divisions so
16 that the less desirable kind of work is only
17 borne for two years and the more desirable kind
18 of judicial work is enjoyed for two years.

19 So I encourage, I encourage you to think
20 of judicial districts, because it does bind us
21 together already and for the -- for the
22 Legislature in 2000, to have fragmented the,
23 particularly the Fourteenth and the Third
24 Circuits was harmful and tended to dampen the
25 sense of community.

1 I know Al Lawson had the eastern one
2 quarter by geography of Bay County. I think it
3 was really an eighth by population, but where
4 on Tram Road did that begin and end? I don't,
5 I expect Mr. Lawson and his staff knew, but
6 most of us didn't know.

7 So that I encourage you to look to the
8 Judicial Circuits as part of the fabric, in
9 which we function in our Sheriffs in our six
10 counties in our circuits tend to be, cooperate
11 and work together. The other judicial
12 officials do, also, so that is really one sense
13 of community that I encourage each of you to
14 give weight and respect.

15 And talk about compact, the Fourteenth
16 Circuit happens to compact. The first happens
17 to be about as compact as you can make those
18 western most counties as you know, and so there
19 was some sense given to the use of those
20 district boundaries in order to -- so that a
21 Circuit Judge from Marianna could cover a
22 matter in St. Joe or could cover a matter in
23 Panama City and so on.

24 So there is already some logic to the way
25 those Judicial Circuits were drawn and I

1 encourage you to consider that as you move
2 through this time consuming process. Thank
3 you.

4 CHAIRMAN GATES: Thank you, Mr. Gerde. We
5 appreciate you being here and your testimony.
6 Cecil, is it Scoon?

7 MS. SCOON: Scoon.

8 CHAIRMAN GATES: Scoon, I am sorry,
9 Ms. Scoon. Thank you for being here. We are
10 delighted to have your testimony and look
11 forward to it, and following Ms. Scoon would be
12 Jennifer Jones.

13 MS. SCOON: Good morning. I have to say
14 it is very exciting to see all of you here
15 today. It is a great opportunity for us in Bay
16 County to be in the presence of so much
17 leadership of our state. So I welcome you and
18 I am very appreciative.

19 I am a little concerned though that we
20 were not presented with even just a basic map
21 or of an idea for us to kind of discuss. I
22 think that would have been more substantive and
23 a better use of the time, and when I sit down
24 at some point I would like to hear exactly how
25 the public is going to have input after the

1 preliminary maps are drawn.

2 Because it was mentioned, but, I mean, it
3 with have been great to have the maps and have
4 that discussion, you know, at this time while
5 you are here, and I don't know if there is the
6 expense is going to be borne for you to come
7 back again for us to be before you, which is a
8 wonderful opportunity after the maps. So that
9 is really weighing on my mind very heavily.

10 A comment that I would like to make, I
11 think that any county that has three
12 Representatives, I think that is too much. It
13 is very, very difficult for citizens, local
14 citizens to get together efficiently and
15 effectively to talk and have the common
16 interests when you are split in three. It is
17 just kind of crazy.

18 I mean, you talk to people and you are
19 like, well, he is not -- she or he is not my
20 Representative. Boom. There -- that
21 connection, that ability to build and share
22 information is kind of blown away.

23 I respect what the gentleman said a few
24 speakers before. He gave the perspective of
25 what it is like for a rural county, and for

1 them, I mean, I guess that is something you
2 will have to weight, but I don't think we need
3 that in Bay County. I think we need basic -- I
4 would like to see Bay County be whole.

5 That would be my personal wish, and I
6 think you need to respect what people from the
7 rural counties, if it is better for them to
8 have two Representatives, then you need to take
9 that into consideration for them.

10 I am also would like someone to speak to
11 what is going on with the litigation that is
12 being, I guess involving the Amendment that was
13 passed by almost two-thirds of the voters, why
14 is there litigation?

15 It seemed that the Amendment was very
16 straightforward, it said compact, contiguous,
17 you know, basic and follow the Voters Rights
18 Act. I mean, basically that is my
19 understanding of what the Amendment stood for
20 and I am wondering what is the purpose of the
21 litigation, where is that going?

22 I mean, it seems like we are headed for a
23 really serious train wreck in terms of the maps
24 not being presented early for all of us people.
25 I am off my job. I work in a place where if I

1 am not in the office I lose money.

2 I mean, and I -- but this is that
3 important for me to be here and to be in your
4 presence and I really appreciate your being
5 here for me to take the time to do that.

6 My background is, I don't have seven
7 generations of Bay County. I was given a
8 little slip of paper by Catherine Wineberger.

9 I was active duty at Tyndall Air Force
10 Base and I was a Judge Advocate General. My
11 husband and I, when we looked at this
12 environment we got here 26 years ago, it was
13 very different from the home where we come
14 from, the D. C. area, but it was, people were
15 so friendly and so open and there was so much
16 that seemed to -- work to be done and things to
17 be done in the community we decided to stay and
18 raise our families.

19 So that is the perspective that I have and
20 we love this community and I think Bay County
21 being one voting block basically I think it
22 would be better for us, thank you.

23 CHAIRMAN GATES: Thank you so much, ma'am,
24 and you did raise a couple of questions that
25 the Speaker Designate I think will intend to

1 address at the end of the hearing, because I
2 think there may have been a little
3 misinformation planted.

4 Jennifer Jones is next. And Ms. Jones, if
5 you would just wait one second, Ms. Jones is
6 our last speaker who has turned in a card.

7 So now if there are people who, having
8 heard what you have heard, would like to speak
9 and you were a little shy maybe before and
10 weren't sure, we still would like to hear from
11 you. We will have time.

12 So if you would like to speak and haven't
13 had a chance yet, please raise your hand and
14 that gentleman right over there, let's give him
15 a speaker card, anybody else need a speaker
16 card?

17 The gentleman right over here in the red
18 tee-shirt, the AARP tee-shirt. Anybody else
19 would like to have an opportunity to speak?
20 Okay.

21 Thank you, Ms. Jones, for your
22 forbearance. I am sorry, there is a gentleman
23 over here, late breaking news, he would like to
24 speak.

25 Ms. Jones, thank you very much, and she

1 represents the Bay Arts Alliance. It is good
2 to see you and you are recognized.

3 MS. JONES: Thank you, I have several
4 Board members and former Board members here and
5 I think, unless I have just been
6 misunderstanding, I am going to say something
7 that hasn't been said.

8 So it is going to be maybe unpopular based
9 on the comments, so no tomatoes, if the State
10 Trooper will come stand right here.

11 CHAIRMAN GATES: You are well protected.

12 MS. JONES: Thank you. I -- my job
13 requires that I advocate for the arts in
14 Florida and in Bay County. I like having
15 several Representatives in the House and
16 Senate, because the odds of my Representative
17 being on a committee that has an impact on an
18 issue that influences me are greater.

19 I have a Representative on an education
20 committee, I have a Representative on a
21 transportation and economic and tourism
22 committee. I like knowing that I have got
23 several people I can call, because if I got one
24 and they are on a committee that has no
25 influence on the issues that concern my

1 industry, then you have no -- I feel like I
2 have no influence.

3 And this is politics, I mean, that is what
4 this is, right? So if you can operate
5 politically to further your cause I think that
6 is important, not just as a geographic
7 district, but as an industrial interest.

8 And I also believe that we should not
9 discount the value diversity in the districts.
10 It keeps our Representatives accountable to
11 several groups of people.

12 If they only have one interest, one
13 industry at heart, then you have winners and
14 losers when the session is over, and they may
15 be better able to weight the interest of
16 multiple groups within their district and be a
17 Solomon when it comes to making decisions, and
18 I recognize Senator Margolis.

19 Her name is very popular in my statewide
20 conference calls. She is -- she is a good
21 friend to the arts and I appreciate what our
22 Representatives have done this year for the
23 arts and education and I just, I want to say
24 thank you and I like having lots of people I
25 can contact, and maybe if it doesn't work out

1 that way, if we have, you know, common, the
2 little bubbles, the geographic lines that maybe
3 we should consider the region as our
4 Representatives in all of the districts also
5 come together and communicate as a region
6 because we are terribly diverse when you go
7 from north to south and east to west.

8 It is not just where the great population
9 exists that we need to have influence. Thank
10 you.

11 CHAIRMAN GATES: Thank you very much for
12 your testimony. We are glad to have you here.
13 Now we have some additional individuals who
14 wanted to testify, and I think, I think Larry
15 has resurfaced, and Larry, I apologize. I
16 can't, I can't do justice to your last name.
17 So if you will share it with us, that would be
18 helpful, but we are delighted to have you here.
19 What is your last name, sir?

20 MR. SUGGS: Suggs.

21 CHAIRMAN GATES: Suggs.

22 MR. SUGGS: S-u-g-g-s.

23 MR. SUGGS: I ain't got much education.

24 CHAIRMAN GATES: Are you a physician?

25 MR. SUGGS: No, I am a welder.

1 CHAIRMAN GATES: All right.

2 MR. SUGGS: I am a welding company owner.

3 CHAIRMAN GATES: Well, it is good to have
4 you here.

5 MR. SUGGS: Or must I say, used to be.

6 CHAIRMAN GATES: Used to be, well, it is
7 good to have you here and you are recognized.

8 MR. SUGGS: I still got -- I still got the
9 welding company and I named it Ark On Welding
10 and Crane Service, not Ark Off. So it spirally
11 went downhill since 2007, when I had 60
12 employees, and I also was taking in \$4 a year.

13 So we have got great Representatives
14 representing our area as far as I am concerned,
15 Mr. -- Ms. Marti Coley. I have spoken with her
16 on the phone several times when I actually got
17 kicked off of my county property I had my
18 welding company on.

19 And so now I am down to two employees and
20 that is my wife and myself. So I think you
21 guys need to speak to the bald headed guy in
22 Tallahassee and get us some work going like he
23 said we were voting him in for doing.

24 Instead of worrying about the regulations
25 of the land and all of this kind of stuff is

1 at, we need work in Bay County as well as
2 Florida and the guy in the office up there
3 ain't doing --

4 CHAIRMAN GATES: You mean Senator Monford,
5 right?

6 MR. SUGGS: No, I mean --

7 CHAIRMAN GATES: Just checking, just
8 checking.

9 MR. SUGGS: Scott, the Governor, so if
10 ya'll could put all of ya'll selves together
11 and go before him and get some work for this
12 area, I got an 11-year-old son I got to raise
13 and I am not taking in enough to even feed my
14 family.

15 So we need to look at these issues,
16 because I can't be the only one in Bay County
17 in this situation, and Bay County is down and
18 out. So I would appreciate any thought you
19 guys could give to that.

20 CHAIRMAN GATES: Thank you very much. We
21 appreciate you being here. And you are not the
22 only one. Patrick McGann is our next speaker,
23 Mr. McGann followed by Scott Kilpatrick.

24 Thank you for being here, Mr. McGann, you
25 are recognized.

1 MR. MCGANN: Thank you for offering me
2 this opportunity. I hadn't intended to speak
3 but there is something that hasn't been
4 stressed enough that I think needs to be
5 stressed at these hearings.

6 And that is that the people of Florida
7 like people all over this country are looking
8 for a level playing field. When they voted on
9 this, on these Amendments it was because they
10 wanted a level playing field and they wanted
11 everybody to work together.

12 I know and I think everybody in this room
13 knows that the -- all of you politicians who
14 are going to make these decisions in the first
15 instance are going to have to almost have a
16 stem cell injection, because you have to
17 overcome 175 years of history.

18 Gerrymandering has been business as usual
19 all over this country, as well, certainly in
20 the state of Florida throughout its history,
21 whether the Democrats were in power or the
22 Republicans were in power, the same thing
23 happens.

24 They draw the lines to advantage
25 themselves, and the inertia is huge to do the

1 same thing this year.

2 What the people of Florida, two-thirds of
3 the people of Florida, and I think it would
4 have been 100 percent if people knew what they
5 were voting for, really want, is a government
6 that works for them, not for interest groups.

7 We want the games to end. We want
8 fairness and we don't see fairness, frankly, we
9 are suspect. I certainly am suspect that there
10 will be fairness in this enterprise, because of
11 the inertia of 175 years of history.

12 This is something that I ask you to bear
13 in mind. I ask all of our audience to bear in
14 mind and I ask all of the people of Florida to
15 bear in mind, because we have to watch you
16 closely because we don't have any reason to
17 expect that you will be fair, because of your
18 history, and I hope you can appreciate that.

19 And that is why it is imperative that you
20 come out with maps as soon as possible so that
21 the people of Florida can react to those maps
22 and there can be a full and frank discussion of
23 what is taking place. That is all I have to
24 say, thank you.

25 CHAIRMAN GATES: Thank you very much.

1 Before you leave the podium, sir, would you
2 mind -- would you mind writing down your
3 residence here just so we can keep a record of
4 your appearance?

5 MR. SUGGS: I have another form that I
6 filled out.

7 CHAIRMAN GATES: Okay, just so we have got
8 your full contact information.

9 MR. SUGGS: I have E-mail and everything.

10 CHAIRMAN GATES: Thank you, sir, Scott
11 Kilpatrick is next, followed by Pam Dorwarth.
12 Scott, it is good to see you again and thanks
13 very much for being here.

14 MR. KILPATRICK: Thank you, thank you for
15 coming here today. I wasn't prepared to speak,
16 but after listening to some of the things that
17 were said, some of them I just want to repeat
18 in a way.

19 I am from Jackson County. There has been
20 a lot of changes affecting Jackson County and I
21 would like to ask that when you redraw these
22 districts, do what is right, not along
23 political and party lines, that is very
24 important.

25 The history is, you know, like it has been

1 said before, you know, we don't want -- we
2 don't want to repeat history on this, because
3 we want to do it the right way. We want to
4 follow the Constitution, and earlier you
5 mentioned this Committee was here and you
6 mentioned some of the rules you were following
7 from the Constitution.

8 I would like to ask that you follow those
9 throughout the process, and also follow the
10 Fair Districts. I believe that is very
11 important, because we are going to have to live
12 with these changes for ten years. It is not
13 something that goes away right away. It is ten
14 years from now that we will still be living
15 with it. On the maps, do you have a date that
16 the maps will be available?

17 CHAIRMAN GATES: The Speaker Designate can
18 remark again to the schedule. You might not
19 have been at the very beginning where he kind
20 of laid out what the schedule was, but we will
21 be happy to articulate it again before the end
22 of the meeting after everybody else had a
23 chance to speak.

24 MR. KILPATRICK: And also if maybe those
25 maps could be e-mailed to the people that left

1 their e-mail address, that way everyone would
2 know what is going on.

3 I wasn't aware of this meeting, except for
4 through some people that I knew told me about
5 it, but as far as, you know, in the paper or
6 the news or anything, I wasn't aware of this
7 meeting today. Just some other people told me
8 about it, so I came down.

9 I had a very interesting time a little
10 while back. I was in the Senate Chambers for
11 the last day of the legislative session and
12 there were a lot of changes there, and there
13 may be a lot of back lash from those changes.

14 I really think -- I don't think Floridians
15 wanted as much change as they are getting.
16 There are a lot of changes in that legislative
17 session.

18 We do need jobs, we don't need pink slips,
19 and in Jackson County where I live there are
20 some -- there is quite a few issues there. We
21 have got Sunland that has been in the news up
22 there.

23 The Dozier School I understand is closed,
24 and I know that some of you have worked on that
25 trying to help out the situation there. There

1 is a lot of prisons. So when you put those
2 three things together, Jackson County is going
3 to take a serious hit.

4 So we need some help up there with that,
5 and I am a Union member, I have been since
6 1977, and I think Legislators should work more
7 closely with Union members, make sure you do
8 talk to them when they come down there in a
9 legislative session or at any time.

10 Unions do provide a lot of good things.
11 We work hard to provide pensions and healthcare
12 for people and those are some of the same
13 issues that you are fighting right now is
14 pensions and healthcare. And there might be a
15 common ground there where everyone could work
16 together and make that work, and that is all I
17 got to say.

18 CHAIRMAN GATES: Thank you. Thanks very
19 much for taking the time to speak. And next,
20 Pam Dorwarth, and following Pam Dorwarth, John
21 Salak.

22 MS. DORWARTH: It is already on, thank
23 you.

24 CHAIRMAN GATES: Yes, ma'am, you are
25 recognized. Thank you for being with us today.

1 MS. DORWARTH: And I thank you for
2 accommodating me as ADA requires for my hearing
3 impairment and my other disabilities.

4 I have represented people with
5 disabilities for over 20 some years. I have
6 held five State positions and I was appointed
7 by the President, former President Bush to the
8 U.S. Access Board. I have been very involved
9 with my community.

10 Disabilities doesn't care if you are a
11 Union member, if you are a Democrat,
12 Republican, if you are a black, if you are
13 white, it hits everybody.

14 I represent a large body of people that
15 don't understand, they vote, but they don't
16 understand what you are doing today and the
17 importance of it. So I think it is critical
18 that you make it more understandable for
19 everybody on the process.

20 I was aware that there was Amendments
21 passed. Are you following those Amendments
22 that were passed in this process? I didn't
23 hear when I first came in, you are going to
24 address that, correct?

25 CHAIRMAN GATES: I think the Speaker

1 Designate indicated in the beginning that we
2 intend to follow every aspect of the
3 Constitution and he will reiterate that at the
4 end.

5 MS. DORWARTH: And the Voters Rights. I
6 just wanted to thank you all for being here and
7 recognize that you have a large body of
8 population. You have Floridians like myself
9 that don't understand this process and would
10 like to participate, but they don't understand
11 exactly what is going on and how they can voice
12 their opinions.

13 So if you could make that a little more
14 out there and not through the Internet. A lot
15 of people cannot afford an Internet, you know,
16 the computers and all of that. So your
17 newspapers are critical and any other way you
18 want to put it up in the grocery store or
19 whatever, a notice, I don't care how you do it,
20 but get it out to the people that also need to
21 speak and give you some advice.

22 CHAIRMAN GATES: Thank you.

23 MS. DORWARTH: Thank you.

24 CHAIRMAN GATES: Yes, ma'am, thank you for
25 your contribution to this discussion. John

1 Salak, Mr. Salak?

2 Sir, thank you for being here. We look
3 forward to your testimony and you are
4 recognized.

5 MR. SALAK: Thank you, Senator Gates and
6 Representative Weatherford. I really
7 appreciate you all taking the time to do this
8 and to hear the voices of the people of the
9 state of Florida and what they have to say
10 about redistricting.

11 This is important and I did want to talk a
12 little bit about Amendment V and VI and the
13 impact that I view that it has on this.

14 I did not support V or VI. I liked some
15 of the ideas in it, but from a practical
16 standpoint, some ideas are good, but when it
17 comes down to actually executing it, it leaves
18 a lot of stuff that is well, well undefined.

19 Things like drawing district lines compact
20 along natural lines, I certainly agree with
21 that -- that concept, but from a legal
22 standpoint it is ill-defined, what is it?

23 It is whatever you happen to like on that
24 particular day, and unfortunately, these
25 situations, you know, we elect you to go out

1 there and draw these lines, not the courts to
2 sit here and decide whether this stuff is
3 right.

4 And all that this is really aimed at I
5 think in a lot of cases is getting us into
6 court and letting Judges make the decision
7 rather than the people and the elected
8 Representatives that the people have.

9 So in that respect I didn't support V and
10 VI, but I did like the idea of citizen
11 involvement and this is a great avenue for
12 getting the citizens' input.

13 As I mentioned, I would like to see our
14 districts redrawn along compact lines and to
15 follow natural boundaries. If you look at the
16 current -- the current situation you will see a
17 lot of the little carve outs, particularly
18 things like Congressional District II is a good
19 example where some of it extends into Walton
20 County and Okaloosa County, a very small part
21 of it, and, you know, that district is very
22 wide, about 200 miles wide.

23 And why we carved out that little bit and
24 don't go north, I am not sure why. So when we
25 redraw these lines I would like to see the

1 lines drawn to where it is a little more, you
2 essentially take a ruler, start at the west
3 side of Florida, draw a line from the north,
4 north border of Florida down to the coast and
5 say here is this district and keep moving, you
6 know, west and then down south and kind of take
7 that approach to it.

8 The main idea that I would really like to
9 see that is our districts not become
10 vulcanized. I think that is a very dangerous
11 political situation when we draw districts and
12 we say, all right, this is going to be a safe
13 Democrat district, this is going to be a safe
14 Republican district.

15 We have got this group we want in this
16 district and that group we want in that
17 district, and I think that is what some of the
18 language in V and VI was intended to do, and
19 that is what I really think from a political
20 standpoint, that is a very dangerous situation
21 for a democratic society to get into.

22 So I would like to see the lines drawn to
23 where we have a broad range of people involved
24 in these, you know, in particularly in western
25 Florida here in the panhandle, you know, we

1 have a lot of agriculture in the northern part
2 of the panhandle, and then along the coast it
3 is all tourism, or mainly tourism and then some
4 military mixed in with that.

5 So I would like to see the districts have
6 a good mix of representation so that you as
7 Representatives represent a cross section of
8 people, not just one particular group, and that
9 way when you go into the Legislature and make
10 decisions in the Legislature, you are having to
11 consider the farmers as well as the people that
12 own condos on the beach when you make a
13 decision.

14 I think that is a far better balance as
15 far as representation goes than having a
16 district and say, all right, this is all beach
17 people here and I am only going to interest the
18 interest of restaurants and the tourism
19 industry and, you know, the agriculture people
20 can take care of themselves. I think that is a
21 good example.

22 I would like to see the elimination of
23 these strange lines, you know. Panama City is
24 a good example, the Panama City annexation, if
25 you are not familiar, runs along the railroad

1 tracks for a number of miles to get to another
2 part of Panama City.

3 And it is a strange, it as very strange
4 looking map and a strange way to annex a city,
5 and I really don't want to see that happen with
6 these districts.

7 So hopefully, the other piece I would like
8 to mention is, I think the nature, particularly
9 in the panhandle here of a Democrat only or a
10 Republican only district is kind of a fallacy.

11 Most of the north Florida is majority
12 Democrat registration, yet just about all of
13 our Representatives are Republican and we vote
14 Republican in presidential elections, we vote
15 Republican in gubernatorial elections.

16 So I think, you know, when you look purely
17 at party, if you just look purely at party
18 affiliations, that is not really a good
19 indication of how the people are voting. So
20 that is, again, going back to V and VI, that is
21 not a good -- a good quality of those things.

22 Anyways, I hope you all do nice compact
23 districts and get a broad, a broad cross
24 section of people in them. So thank you very
25 much.

1 CHAIRMAN GATES: Thank you, John, very
2 good testimony. We appreciate it. Is there
3 anyone else who had not filled out a card who
4 would like to testify in today's hearing?

5 Well, if you are shy or if you wake up in
6 the middle of the night and say, gee, there is
7 something I really wanted to share, we still
8 would be happy to get your input all the way
9 through this process.

10 This isn't the end of public input. This
11 is the beginning of public input. If you
12 didn't speak, but would like to add your
13 opinion at any time in the future, you can
14 either e-mail to us, you can Snail Mail to us
15 at the address listed on your brochure and we
16 will place your comments on-line.

17 Yes, sir, did you wish to address the
18 session?

19 MR. HABER: Don, I just want to ask a
20 question.

21 CHAIRMAN GATES: Please come forward and
22 give us your name and we are happy to take your
23 question as testimony and see if we can answer
24 it if no one else wishes to testify.

25 MR. HABER: I filled out a card in the

1 front, but I didn't put down I wanted to speak.

2 CHAIRMAN GATES: Well, we are delighted to
3 have you anyway.

4 MR. HABER: My name is Wallace Haber.

5 CHAIRMAN GATES: Yes, sir.

6 MR. HABER: A 22-year resident of
7 Marianna, Florida. We have a terrific
8 Representative in Marti Coley and also in
9 Senator Monford.

10 I am sorry, I have got a Bachelor's degree
11 from the University of Miami, but I don't
12 understand why we are using State taxpayer
13 money to put aside the Amendments V and VI
14 which were voted on by the majority of the
15 registered voters.

16 It don't make sense to me anymore than us
17 suing the Federal government because Washington
18 put in a law about Medicare.

19 I mean, I don't understand this. How can
20 we take taxpayer money and sue the taxpayers,
21 and that is what we are doing. I am an
22 ignorant man. I have got a college education.

23 I just don't understand, who's side are we
24 on? Who's side are we on? Does anybody know
25 what is going on in Florida?

1 It is bad enough we are sending \$12
2 billion a month over to Afghanistan and we
3 don't know where that money is going on.

4 CHAIRMAN GATES: Well, we may be getting a
5 little far afield. Afghanistan is a little far
6 away from our redistricting.

7 MR. HABER: Let's stick to Florida. Why
8 are we suing to do away with Amendment V and
9 VI?

10 CHAIRMAN GATES: That question has been
11 asked and thank you for asking it again. I
12 think the Speaker Designate will take that
13 question.

14 MR. HABER: Thank you.

15 CHAIRMAN GATES: And make sure that we
16 provide you with whatever information we have,
17 as well as the other questions that have been
18 raised.

19 But before we go to comments by members of
20 the House or Senate Committees, is there anyone
21 else who wishes to comment? If not, let me
22 make the offer again to you that if you have
23 comments or if you want to follow the comments
24 that others are making, you can go on-line if
25 you use on-line services, and the on-line

1 addresses are in the Redistricting 2012
2 brochure you were handed when you came in the
3 door.

4 You can Snail Mail to us at the Snail Mail
5 address that is listed on those brochures and
6 your comments will be included in the public
7 record and made public for all of the people of
8 Florida, including all members of the
9 Legislature who will have those comments at
10 hand.

11 All of the legal records from today's
12 meeting, the video, the pod cast, the
13 transcripts will be available in the coming
14 days via the Senate and Houses respective
15 redistricting websites and those cites are
16 listed on the brochure that you got when you
17 came in.

18 Now I would like to, before I go to the
19 Speaker Designate and ask him if any of his
20 colleagues from the House have any comments or
21 questions. Let me go to members of the Senate
22 who are here from the Senate Reapportionment
23 Committee to ask if they have any comments or
24 questions before we go forward.

25 And I apologize, I may not be able to see

1 all of our Senators.

2 Senator Thrasher, you are recognized.

3 SENATOR THRASHER: Thank you,
4 Mr. Chairman, and -- first of all, this is our
5 fourth visit, I guess, in the last two
6 and-a-half days, and again I said last night in
7 Ft. Walton, I thought the input tonight and
8 this morning was incredible and we appreciate
9 it.

10 We are here to listen to you for ideas,
11 and I think you gave us all a bunch of ideas on
12 how to get started in the process, and that is
13 what we intend to do.

14 I can tell you as one Senator and I think
15 I speak for everybody here, we are going to
16 follow the Constitution, but we are going to do
17 it in the right way. We are going to do it in
18 an effective way that meets the needs of the
19 people of the state of Florida.

20 When the day is over, I guarantee you, we
21 will have a good map, good maps. Remember, by
22 the way, we are drawing 40 Senate seats, 120
23 House seats, 27 Congressional seats for over
24 18 million people in the state of Florida.

25 Twenty-seven -- I said -- it is 27, okay.

1 But in any event, we got to take into
2 consideration 18 million people. A couple
3 hundred people were here today, a couple
4 hundred were there last night. We are going to
5 have 24 or 25 more of these hearings throughout
6 the state of Florida.

7 We are going to listen to the input of the
8 people of the state of Florida and at the end
9 of the day I promise you we are going to do the
10 best job we can under the constitutional
11 constraints that have been placed upon us by
12 the people of the state of Florida.

13 I remember somebody referenced earlier on,
14 Dempsey Barron. I knew Dempsey Barron. I have
15 been in and out of this process for a number of
16 years. I can tell you, 20 or 30 years ago, in
17 all due respect to the great Senator from this
18 area, when maps were drawn they were usually
19 done at the late night. They were usually done
20 at late session, very little input from the
21 people of the state of Florida.

22 This will be the most transparent process
23 in my opinion of redistricting that we have
24 ever had in the state of Florida, and it is due
25 because of your input and your concern and you

1 as citizens of the state of Florida who have
2 come out to give us your guidance and it is
3 very appreciated. Thank you very much.

4 CHAIRMAN GATES: Thank you, Senator
5 Thrasher. Other members of the Senate wish to
6 speak? Senator Monford, you are recognized,
7 Senator Monford.

8 SENATOR MONFORD: Thank you, Senator
9 Gates, and just to make it real brief, thank
10 you for your participation. I can assure you
11 that your voice has been heard today. We are
12 taking good notes. We will go back and we will
13 review those and we will take everything that
14 you have said into consideration, but you also
15 realize that some of you are conflicting here
16 today. Some of you want one thing and one
17 another. You can imagine what is going to
18 happen when we go from here to Miami.

19 There will be differences of opinion all
20 over this state, but I promise you, we will do
21 our dead level best.

22 Someone asked me, as a Democrat will you
23 have any chance, and I said I have total
24 confidence in my colleagues in the Republican
25 Party, and I believe and sincerely believe that

1 all of us are going to do what is best for the
2 people of Florida.

3 Thank you for being here and we look
4 forward to seeing you on down the road.

5 CHAIRMAN GATES: Thank you very much,
6 Senator Monford. Any other members of the
7 Senate? If not, let me turn to the Speaker
8 Designate.

9 Did somebody else in the back? See, this
10 is why we let you talk first, because in the
11 Senate there is no time limit. In the House
12 they put a time limit on them.

13 Senator Evers, you are recognized.

14 SENATOR EVERS: I just wanted to be sure
15 everyone understood that we did not have a gag
16 order, absolutely, because in other places we
17 have been asked that if we were scripted or if
18 we had a gag order and I just wanted to be
19 perfectly clear that there was no gag order.

20 And also, as a member of the delegation
21 that represents Bay County, in fact, thanks to
22 Jimmy Patronis, I am the Chair of the Bay
23 County delegation, make that perfectly clear,
24 and if you have a concern and you are a
25 resident of Bay County, or if you are a

1 resident of Jackson County, even though I do
2 not represent Jackson County, but if you need a
3 voice in Tallahassee, trust me, I am there.

4 But I would ask my Aide, Molly, to please
5 stand up, and if you need to have an
6 appointment with any of the delegation and you
7 feel like that, you know, you haven't been
8 represented and you need a voice, see Molly and
9 we will -- we will work through that process to
10 see that you have a voice in Tallahassee or in
11 this, in this redistricting.

12 We will see that you do have a voice. You
13 know, we are very fortunate here in the
14 panhandle that the delegations, whether it is
15 in Escambia County, whether it is Okaloosa,
16 whether it is Bay County, whether it is even
17 Washington and Holmes county and Jackson
18 County, that the delegations work hand in hand
19 here in the panhandle.

20 So, you know, it doesn't matter to us
21 where the district lines are. That has never
22 affected any of our decisions. We work as a
23 unit for you and we are proud to have the
24 opportunity to work together, to represent you
25 and take your plight to Tallahassee, and with

1 that, Senator Gates, thank you for the
2 opportunity to speak, and thank you all for
3 coming. You could have been on the beach or
4 fishing. Thank you.

5 CHAIRMAN GATES: Thank you very much,
6 Senator Evers, and now I would yield to the
7 Speaker Designate of the House and ask him if
8 he would -- he has taken some notes during the
9 meeting, so that we can provide some answers to
10 some of the factual questions that were raised,
11 as well as maybe spike a couple of rumors that
12 may have crept into the process.

13 Mr. Speaker, thank you.

14 SPEAKER WEATHERFORD: My name is Will
15 Weatherford. Thank you. Thank you very much,
16 Mr. Chairman. Before I go into answering some
17 questions we had some tremendous questions and
18 frankly input today, but there was an
19 announcement that Representative Patronis
20 forgot to make early on this afternoon.

21 He and I were chatting earlier today and
22 he told me that anyone who actually sat through
23 this entire hearing got a free meal at Captain
24 Anderson's this evening, so congratulations.
25 What a guy.

1 Just -- just do me a favor and save me one
2 of those Scamp Imperials, would you,
3 Representative Patronis. You have not lived
4 until you have had a Scamp Imperial from that
5 wonderful restaurant.

6 But in all seriousness, it really has been
7 a pleasure today and what a pleasant group of
8 folks who have taken the time to be here and we
9 are just very grateful for that.

10 I am going to touch on a couple of things,
11 I am going to try not to talk too long, but I
12 certainly want to make sure everyone has
13 clarity on what we are doing and why the
14 decisions that have been made thus far about
15 this process are being made.

16 The first is there were several people who
17 mentioned money that was being spent, like a
18 \$30 million pot of money that is being spent.

19 There is no \$30 million pot of money.
20 That doesn't exist. Apparently some newspaper
21 wrote that somewhere some time ago and it has
22 continued to trickle into the process in the
23 conversation. There is no \$30 million and it
24 is not being spent. Your tax dollars are not
25 being spent on anything like that.

1 Certainly we have to have attorneys, this
2 process is legal in nature, we have to have
3 staff, so resources are being addressed, but
4 there is no large pot of money that is out
5 there that is fighting anything.

6 But also I want to talk a little bit about
7 the timeline. The timeline seems to be
8 something that everywhere we go we hear a lot
9 about in regards to why we are doing things in
10 the order that we are doing them.

11 First of all, the state of Florida is one
12 of the last states to have received its census
13 data. So you cannot even begin to draw maps or
14 do anything of that nature until you actually
15 have data from the Census Bureau.

16 We did not get that data until just about
17 60 days ago or so, and so we have been -- we
18 have just now finished putting together our
19 what we have in the House is My District
20 Builder, the Senate has a very similar format
21 that allows us to draw districts.

22 We are just now bringing those on-line as
23 of late, so we can start this process. So I
24 want you to know, it is not like we have been
25 sitting on data for a year and have chose to

1 ignore it. We have just recently been in
2 receipt of it.

3 Also in regards to the timeline, the
4 Constitution, and I said this earlier, but the
5 Constitution tells us that we cannot take
6 action on any maps until 2012, and what we have
7 already done is moved up our legislative
8 session by two months so that we can pass those
9 maps out as quickly as we possibly can to give
10 our Supervisors of Elections, to give our
11 constituents to have certainty in knowing who
12 they are voting for and what the districts are
13 going to look like.

14 That is very very important. So what we
15 are doing really in regards to a timeline, is
16 we are starting now, and we started this week
17 and we are going to spend three months on a
18 listening tour, and we are going to listen to
19 the desires, to the input, and to the counsel
20 of citizens across the state of Florida to tell
21 us what they think districts should look like.

22 We are going to let you start the
23 conversation and I don't know about you, but
24 historically when I have been around
25 politicians and politics, we seem to do all of

1 the talking and we are always asking everybody
2 else to do the listening.

3 This is one of the few instances I have
4 been around where we are letting you start the
5 conversation and we are doing the listening,
6 and I think that is what the citizens of
7 Florida want from their elected officials.

8 Also, in regards to the maps, we heard
9 several people say today, where are the maps.
10 We want to see the maps. It would have been
11 more productive if you would have put maps in
12 front of us.

13 Well, we do have maps here. They are the
14 current existing maps. They are not the new
15 maps, but the reason for that is, if we were to
16 show up with maps today and tell you, here is
17 what our maps are going to look like, everybody
18 would be upset and say, what do you want us to
19 do, rubber stamp with the decision that you
20 already made?

21 We have made the decision that we are
22 going to let you start this conversation and I
23 want to really, really put an emphasis on this.
24 The input that you will have on this process
25 does not end today.

1 As Senator Gates mentioned just a moment
2 ago, we are going to be gathering public input
3 in forums in Tallahassee, via e-mail, via Snail
4 Mail, everything, throughout this entire
5 process, so this is not the end.

6 This is only the beginning, and I want to
7 point out one other thing in regards to
8 Amendments V and VI, and that is this. The
9 drafters of Amendments V and VI, a lady by the
10 name of Ellen Freidin, who was the leader of
11 Fair Districts and a former Speaker of the
12 House, Speaker Mills, testified before a Joint
13 Hearing of our colleagues here, and
14 specifically stated when they were asked if
15 they could give us some examples.

16 We specifically asked them, could you give
17 us some examples of what you think a fair
18 district looks like.

19 Their comments under oath, I will tell
20 you, both of them, said, we would not even
21 begin that process until we had had public
22 hearings around the state of Florida. And so
23 now we are hearing after we are doing exactly
24 what they asked us to do, is to have public
25 hearings, now they are saying they want us to

1 produce the maps first, and frankly we just
2 think that that is putting the question ahead,
3 -- the answer ahead of the question.

4 In regards to litigation, there were
5 several questions about why are taxpayers
6 fighting Amendments V and VI that have passed.

7 Congressman Mario Diaz-Balart, who is a
8 Republican from Miami, Dade County, along with
9 a Democratic Congresswoman, Karen Brown, from
10 Jacksonville, actually are the ones who filed a
11 lawsuit only in regards to Amendment VI, and it
12 deals with a Federal constitutional issue.

13 It only deals with the Congressional maps,
14 and it is whether or not the U. S. Constitution
15 had been impeded -- has been impeded by that
16 constitutional amendment that passed in
17 Florida, and I won't get you into the details,
18 but we will give you all of the information on
19 that case if you want it.

20 But just so it is clear, the two
21 Congressmen, a Republican and a Democrat were
22 the ones who originally filed that lawsuit, and
23 I think that is very important. I think there
24 has been some misinformation out there about
25 that as well.

1 Long story short, to kind of put a bow on
2 everything, I want to go back to something that
3 Reverend Wood said.

4 Reverend Wood, thank you for being here
5 today and you made a comment, sir, early on in
6 your comment, in your thoughts that you wanted
7 to make sure that our minds were open and that
8 they were not closed and that decisions had not
9 been made.

10 And, sir, that is exactly what this is
11 about. This is the reason we are doing this,
12 the reason we are traveling the state,
13 Reverend, is because our minds are open, and we
14 are here to listen and we are here to make
15 decisions after, after we have heard from
16 everyone around the state of Florida.

17 I want to thank you for those words and we
18 will take those to heart as we go through this
19 process. You have my word. You have the word
20 of the Senator and the rest of this body that
21 we will abide by Amendments V and VI.

22 They are the law. We raise our right hand
23 every two years and promise to uphold and
24 protect the Constitution of the State of
25 Florida, and we will do so, and we will make

1 this process, as it has already been, the most
2 transparent, the most accountable and what I
3 believe to be the most open process it has ever
4 been and we will follow the law.

5 So thank you very much, Mr. Chairman,
6 again, for that indulgence. I hope that
7 cleared up some issues. If you still have
8 concerns, stick around afterwards, we will have
9 staff and many other people to talk with you
10 directly. Thank you.

11 CHAIRMAN GATES: Thank you. Before we end
12 today, as we begin our hearing we thank Gulf
13 Coast State College for their generosity and
14 their hospitality in allowing us to use these
15 facilities.

16 We are delighted to be joined now by the
17 President of Gulf Coast State College, Dr. Jim
18 Curley, Dr. Curley, thank you so much for being
19 here.

REDISTRICTING COMMITTEE

MONDAY, JULY 11, 2011

2:00 P.M. and 6:00 P.M.

FLORIDA STATE COLLEGE JACKSONVILLE DOWNTOWN CAMPUS

JACKSONVILLE, FLORIDA

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 REPRESENTATIVE WEATHERFORD: If we could
3 get everyone to grab their seats, we would like
4 to start here momentarily. Members, please
5 find your chair. Okay, if we could get
6 everyone to please grab their seats.

7 Thank you very much. Please call the
8 roll. Okay, we are not doing a roll yet, I'm
9 sorry.

10 Ladies and gentlemen, the Joint
11 Senate/House Redistricting Committee is called
12 to order. We are pleased to be joined today by
13 several members of both the House and the
14 Senate, and what we would like to do is to take
15 just a brief moment to allow each one to
16 introduce themselves to you.

17 They have come from near and far, many
18 from right here in Duval County, you've got a
19 great delegation here, but also we have
20 Legislators from all over the state of Florida.

21 We would like to just take a few moments
22 to allow them to introduce themselves, let you
23 know who they are and where they are from, and
24 I think we will start down at the end.

25 REPRESENTATIVE WILLIAMS: Good afternoon,

1 my name is Alan Williams, State Representative
2 from Tallahassee, Florida, and it is great to
3 see so many of you out here concerned about the
4 process.

5 REPRESENTATIVE CALDWELL: Thank you.
6 Representative Matt Caldwell, Ft. Myers, Lee
7 County, down in the southwest corner of the
8 state.

9 REPRESENTATIVE BOYD: Good afternoon, Jim
10 Boyd, Representative from Manatee County, which
11 is Bradenton, down below Tampa on the west
12 coast.

13 REPRESENTATIVE PASSIDOMO: Kathleen
14 Passidomo, District 76, which is Naples,
15 Everglades City, Marco Island.

16 REPRESENTATIVE CHESTNUT: Representative
17 Chuck Chestnut, District 23, a portion of
18 Gainesville and a portion of Ocala.

19 REPRESENTATIVE TAYLOR: Representative
20 Dwayne Taylor representing House District 27,
21 the world center of racing and the world's most
22 famous beach, Daytona Beach.

23 REPRESENTATIVE NEHR: Representative Peter
24 Nehr from District 48, Pinellas County, home of
25 another famous beach, Clearwater Beach.

1 SENATOR THRASHER: I am Senator John
2 Thrasher. I represent parts of Nassau, Nassau
3 here, Duval County, St. Johns County, Volusia
4 County and Flagler County, and we have some of
5 the greatest beaches in the world right here in
6 north Florida.

7 REPRESENTATIVE HOOPER: Hi, everybody. I
8 am Ed Hooper from District 50, which is
9 Pinellas County, predominantly Clearwater.

10 REPRESENTATIVE FRISHE: I am
11 Representative Jim Frishe. I represent the
12 beaches of Pinellas County, and we don't get to
13 compete for the world's best beaches anymore,
14 because we've been retired.

15 REPRESENTATIVE ADKINS: Hi, I am Janet
16 Adkins. I represent House District 12, which
17 is Nassau, Baker, Bradford, Clay, Union and a
18 bit of Duval, and it is wonderful to see so
19 many people here from the outlying rural
20 counties. Thank you for coming.

21 SENATOR MONTFORD: Thank you. I am Bill
22 Montford, Senator from District 6, which is 11
23 counties, Tallahassee is the center of it.

24 Obviously we have state government, but we
25 also have some of the world's most beautiful

1 beaches on the Gulf of Mexico, I believe, for
2 clarification.

3 REPRESENTATIVE LOGAN: Thank you. I am
4 Representative Ana Rivas Logan from Miami-Dade
5 County from the best beach in the world, South
6 Beach.

7 REPRESENTATIVE FORD: Clay Ford, I
8 represent District 3 in Pensacola, the other
9 north Florida anchor, other end of the state.

10 SENATOR DEAN: My name is Charlie Dean, I
11 am Senator, District 3. I represent all or
12 part of 13 counties. I represent interior
13 rural Florida.

14 We don't have any beaches. I go from
15 Baker County to the steps of the Capitol, down
16 to 98 and 19 just to the south end of Citrus
17 County. I am from Inverness, Florida.

18 SENATOR LYNN: I am Senator Evelyn Lynn.
19 I represent Clay, Marion, Putnam and Volusia
20 Counties, and we are so diverse from party to
21 nature, from beaches to jungle, you can't beat
22 it.

23 REPRESENTATIVE SCHENCK: Rob Schenck, I
24 represent the metropolitan areas of Hernando
25 County.

1 SENATOR BRAYNON: Oscar Braynon, Senator,
2 District 33, representing Miami-Dade County.

3 REPRESENTATIVE WEINSTEIN: Mike Weinstein
4 representing part of Duval, Clay and St. Johns
5 County, and thanks for coming.

6 SENATOR HAYS: Thank you all for being
7 here this afternoon. I am Alan Hays, State
8 Senator from District 20, which I live in
9 Umatilla, and it is 85 miles east and west and
10 55 miles north and south.

11 REPRESENTATIVE KIAR: Hello, everybody, my
12 name is Martin Kiar. I represent District 97
13 in the Florida House of Representatives, which
14 is all within Broward County, Florida. Thanks
15 for having us.

16 REPRESENTATIVE JULIEN: Good afternoon,
17 everyone. My name is John Patrick Julien
18 representing District 104, and Representative
19 Ana Rivas Logan told me that the entire
20 Miami-Dade County delegation represents the
21 best beach in the world, that being South
22 Beach.

23 REPRESENTATIVE HUKILL: Hi, everyone, I am
24 Dorothy Hukill. I am the State Representative
25 from District 28, which is southeast and

1 southwest Volusia, and I actually represent the
2 most number of miles of beaches in Volusia
3 County.

4 REPRESENTATIVE McBURNEY: I am Charles
5 McBurney. I represent District 16, which is
6 the greatest city in the state of Florida, the
7 City of Jacksonville, Florida.

8 REPRESENTATIVE THURSTON: Good afternoon,
9 I am State Representative Perry Thurston from
10 Ft. Lauderdale, Florida, District 93. We refer
11 to it as God's country.

12 REPRESENTATIVE RAY: Good afternoon, I am
13 Lake Ray. I represent District 17, kind of the
14 northeast quarter of the county here. It is a
15 pleasure to see everybody. And to my
16 colleagues, welcome to Jacksonville.

17 REPRESENTATIVE BERNARD: State
18 Representative Mack Bernard from West Palm
19 Beach, Florida.

20 REPRESENTATIVE ROGERS: State
21 Representative Hazelle Rogers from Broward
22 County, 1.79 million residents in Broward
23 County. It is good to be here.

24 REPRESENTATIVE YOUNG: Hello, and thank
25 you all for being here. I am State

1 Representative Dana Young, and I represent the
2 City of Tampa and surrounding areas, and we
3 just have little beaches, but we are close to a
4 lot of really good ones. Thank you for coming.

5 REPRESENTATIVE REED: Good afternoon, I am
6 State Representative Gwyndolen Clarke-Reed, and
7 I represent Broward County, northeast quadrant
8 of Broward County, where we have the best
9 beach, Deerfield Beach.

10 SENATOR EVERS: I am State Senator Greg
11 Evers, and I represent Senate District 2, which
12 encompasses north Escambia, Santa Rosa,
13 Okaloosa, Walton, Washington, Holmes Counties,
14 which is also referred to as God's country, but
15 yet also the great northwest, as far north and
16 far west you can go in Florida without being in
17 Alabama.

18 Okay. I am here representing the folks
19 that grow the best cotton and peanuts in the
20 state of Florida. Thank you all.

21 REPRESENTATIVE GOODSON: I don't think I
22 can pass that. My name is Representative Tom
23 Goodson. I represent District 29, which at one
24 time was the gateway to space, but after our
25 last shuttle, it is no longer that. But I go

1 from North Mims all the way down to the St.
2 Lucie County line, wonderful people and 300,000
3 cows. Thank you.

4 REPRESENTATIVE DRAKE: My name is Brad
5 Drake. I represent House District 5, which is
6 in northwest Florida: Okaloosa, Walton,
7 Holmes, Washington, Jackson. My district is
8 the only House District that borders two
9 states.

10 REPRESENTATIVE TRUJILLO: Good afternoon
11 and thank you for being here. My name is
12 Carlos Trujillo. I represent southwest
13 Miami-Dade County. It is a pleasure to be here
14 in Jacksonville.

15 REPRESENTATIVE JONES: Good afternoon,
16 State Representative Mia Jones, just thanking
17 you so much for being here in great numbers.
18 We are excited for the delegation members
19 across the state to hear from you, and so it is
20 a pleasure for me to be able to be here, and I
21 represent District 14, north and west of
22 Jacksonville.

23 REPRESENTATIVE DAVIS: Good afternoon, my
24 name is Daniel Davis. I am the Representative
25 from District 13. I am proud to represent the

1 west portion of Jacksonville and Clay Counties,
2 and it is an honor to see all of my friends
3 here today. Thank you.

4 REPRESENTATIVE FULLWOOD: Good afternoon,
5 Representative Reggie Fullwood, District 15,
6 and we are happy to have you here in
7 Jacksonville where Florida officially begins,
8 right here.

9 REPRESENTATIVE CORCORAN: Representative
10 Richard Corcoran from Pasco and Pinellas
11 Counties. Thank you.

12 SENATOR ALTMAN: Thad Altman, State
13 Senator from east central Florida where we have
14 the Space Coast, but I have to put a big kudo
15 here for Jacksonville, because our first
16 commercially rated space center is right here
17 at Cecil Field, so we have a lot in common.

18 REPRESENTATIVE WEATHERFORD: All right.
19 We were trying to set the record for the
20 Guinness Book of Records of squeezing the most
21 politicians into one room. We are close. We
22 are going to get an official count before the
23 end of the day.

24 But, no, seriously, members, thank you for
25 being here, and Senators, for taking the time

1 to hear from the constituents here in northeast
2 Florida. We are honored to be here.

3 And I want to make a special thanks to
4 Florida State College for allowing us to use
5 this beautiful facility. Thank you all for
6 taking the time to be here, because this is
7 important.

8 It is important, and the sole purpose of
9 what we are here for is to hear from you and to
10 give your input and to hear what you think the
11 legal standards that are set before the
12 Legislature and how those can be applied to
13 districts that represent you here in northeast
14 Florida.

15 My name is Will Weatherford, and along
16 with my colleague, Senator Don Gaetz, I will be
17 chairing today's hearing, which is being
18 webcast statewide by the Florida Channel over
19 the Internet.

20 I also want to make sure that everyone can
21 hear us okay. If you are in the back of the
22 room, can you hear us okay on the microphone?
23 Wonderful. Thank you.

24 Our procedures here today, ladies and
25 gentlemen, are very simple, but they are very,

1 very important. It is important that you sign
2 in so we can create an accurate public record
3 of all the attendees and speakers. Also, you
4 may opt to join our e-mail list so that we can
5 keep you informed about how the redistricting
6 process is working over the next several
7 months. If you have not signed in, please
8 raise your hand, and a staff member will give
9 you an attendance card for you to fill out. If
10 you wish to speak today, and you have not
11 filled out an attendance card, please also
12 raise your hand, and we will make sure we get
13 you a card so that we cannot miss your
14 testimony. It is the same attendance card
15 whether you speak or if you plan to sit, but
16 please raise your hand either way.

17 I also want to point out that the
18 microphone is kind of in the middle of the
19 room, it is a little different than the way we
20 have done it historically, but I think that is
21 the best-placed position. So as you are coming
22 up to speak and we read out your name, you will
23 go to this microphone.

24 But before we go to public testimony, I
25 would like to turn the microphone over to my

1 co-Chair, Senator Don Gaetz, who will explain
2 how today's hearing fits into the redistricting
3 process.

4 Senator Gaetz, you are recognized.

5 SENATOR GAETZ: Thank you very much,
6 Mr. Chairman. I am Don Gaetz. I represent the
7 coastal counties of northwest Florida.
8 Jacksonville is, as my wife, Vicky, says, our
9 second home. It is where we met, it is where
10 we feel in love, and we love Jacksonville.

11 Let me just say that there is one person
12 here who -- let me depart, if I can,
13 Mr. Chairman, from the script to say there is
14 one person here who has not been introduced who
15 has served this community and served the State
16 of Florida effectively and well. He's now
17 moved on to another important assignment within
18 the City of Jacksonville. We are going to miss
19 him, and I want to recognize him, and that is
20 Senator Tony Hill. Senator Hill.

21 Mr. Chairman, and members, and members of
22 the public who are here, every ten years the
23 Legislature is required by our Constitution to
24 redistrict the state based on increases or
25 decreases or movements of population within the

1 state, and because Florida has grown more than
2 other states in the last ten years, we will
3 move up from 25 to 27 members of the U.S. House
4 of Representatives, and up to 29 electoral
5 votes in the presidential election.

6 Now, because some parts of our state have
7 increased or decreased disproportionately to
8 the rest of the state, many Senate and House
9 Districts will change, either adding or losing
10 population. You can see a chart over there on
11 the wall. A number of you have had a chance to
12 review it before we started. Please take a
13 look at it during the meeting, after the
14 meeting, and you will see the districts and
15 which districts have to gain or lose population
16 in order to be equal in size, which is one of
17 the requirements of law.

18 We also have displays at the front of the
19 room showing the current boundaries of
20 districts in this area of the state. Those are
21 the maps, the maps of our current districts, so
22 that is a good point of departure for those who
23 have testimony today to indicate if you believe
24 that there are changes that need to be made.

25 Those are the maps that we have right now, and

1 those are the same maps that we will be looking
2 at as your Legislators as we consider the
3 public testimony that has been provided around
4 the state. We are doing 26 public hearings.

5 When redistricting is completed,
6 congressional districts must be equal in
7 population, and each congressional district
8 must contain 696,345 people. Now, past law and
9 court cases have indicated that congressional
10 districts that are even 11 individuals
11 different, one from the other, are not equally
12 divided. So with congressional districts, it
13 is pretty important that each one be just about
14 on the money at 696,345 people.

15 The 40 Senate districts must also be
16 nearly equal at about 470,000 people each, and
17 our 120 House districts must be nearly equal at
18 about 156,700 people.

19 Equality of representation, though, is not
20 the only legal requirement that redistricting
21 plans have to meet. The laws and important
22 court cases governing redistricting are
23 explained in detail on the House and the Senate
24 websites. Those websites are listed in the
25 redistricting 2012 brochure that was available

1 to you when you came in, will be available to
2 you as you leave. Our redistricting 2012
3 brochure summarizes federal and state laws, and
4 outlines topics we hope that you will discuss
5 here today at our hearing. If you didn't get a
6 copy when you came in, our staff will be happy
7 to give you one. The brochure also lists the
8 House and Senate websites, and the websites are
9 packed with information about redistricting in
10 Florida. You will see that it is some what
11 complex and somewhat simple, but we urge you to
12 look at the websites and look at the laws that
13 governing redistricting. The two websites, the
14 House and Senate, are complementary and are
15 updated very frequently. Visit both, check
16 back often. It is a great way to stay current
17 about how your new congressional Senate and
18 House districts are taking shape.

19 The websites deliver to your fingertips
20 also all of the demographic information that
21 comes from the U.S. Bureau of the Census that
22 will be used in drawing districts, and the same
23 computer programs and the same computer
24 software that courts would be using or that
25 policy makers would be using are overlaid on

1 all the demographic information. This means
2 that any member of the public or any interest
3 group can participate by building plans or
4 seeing maps submitted by other interest groups,
5 other citizens or by Legislators themselves.
6 There have already been maps submitted.
7 Before, during and after this hearing, Senate
8 and House professional staff are available to
9 show anyone the simple steps to getting
10 on-line, building districts and submitting a
11 plan now or in the weeks to come, and you can
12 submit a plan for northeast Florida, for your
13 county, for your neighborhood or for the whole
14 state. If you would like to have direct input,
15 the most important thing you could do is to
16 say, "Here's how we think the lines ought to be
17 drawn to take care of problems or to make sure
18 there is equal representation in our area, in
19 our community." The submission of proposed
20 maps that makes sense for your community is the
21 single most effective form of public
22 participation in the redistricting process.

23 Now, the redistricting schedule that we
24 are operating under is imposed by the state
25 Constitution. We can't change it. Nobody who

1 testifies today can change it. The
2 Constitution does not permit the Legislature to
3 act on state legislative maps before the second
4 year after the census; in other words, before
5 2012. We have accelerated the process as much
6 as possible by moving up the 2012 legislative
7 session from March, when it usually starts, to
8 January, and by beginning our statewide
9 hearings five months in advance of the 2012
10 session.

11 Now, it's been suggested that the
12 Legislature ought to draw the maps first and
13 then ask the public to comment. We believe
14 that puts the answer ahead of the question.
15 There ought to be no preconceptions or
16 preconceived notions or pre-drawn maps created
17 entirely by politicians, but rather public
18 testimony should be free and unrestricted. In
19 fact, that is the position taken by the head of
20 the Fair Districts movement statewide who
21 testified before the House and Senate
22 committees, and she is on record as saying that
23 new maps should not be drawn until after the
24 public has had an opportunity to comment in
25 public hearings. And we agree with Ms. Freidin

1 in her public testimony that that is exactly
2 what should be done, and that is what we are
3 doing.

4 Our intent is to use the recommendations
5 made at the 26 public hearings and through the
6 input we receive on our Internet sites and
7 information that you might send us through
8 snail mail or input to your legislator as the
9 basis for developing one or more options for
10 district maps.

11 Now, here is the procedure: Once we have
12 public testimony and public input, we have
13 already gotten an enormous amount in the first
14 four hearings that we have held, we will hold
15 22 more hearings including today, then we will
16 develop options, and those options will be
17 available to the public, and before one single
18 vote is taken on any of those options, the
19 public will see them all. We will discuss any
20 option, any plan, any proposal, in open public
21 meetings before any votes are taken, even in
22 committee. Throughout the process, we will
23 solicit additional public input so that any
24 proposed maps can mature with the public
25 involved, all before the Legislature approves

1 any maps. Whatever the Legislature approves is
2 then submitted for judicial review to insure
3 that the final plans meet every single
4 requirement of law.

5 Because our purpose today is to hear from
6 you, all the time when I am finished between
7 then and four o'clock today, and then between
8 six and eight o'clock today, will be used to
9 insure that every member of the public who is
10 here and wishes to speak will have time to
11 present testimony and be listened to
12 respectfully, without interruption and without
13 argument. And you can see that if we let
14 politicians take over and talk, you know, we
15 would hear about beaches all over Florida until
16 tomorrow morning.

17 If after every citizen who wants to speak
18 has had his or her say there is time remaining,
19 if there is time remaining then before our
20 scheduled adjournment, then, of course, any
21 member of the committee may make any statement,
22 offer any proposal or any suggestion.

23 There, of course, is no gag order. Any
24 member of the Legislature, any interest group,
25 any citizen, may today or at any time propose a

1 map or a plan, and we will instantly make it
2 available to the public for your comment and
3 review.

4 And, Mr. Chairman, I hope this description
5 of our schedule and our process and our time
6 table helps set the stage for a successful
7 hearing.

8 REPRESENTATIVE WEATHERFORD: Thank you
9 very much, Senator, for that thorough
10 explanation of today's hearing.

11 I would like to take a brief moment. We
12 always like to save the best for last and the
13 most prestigious for last, and we also want to
14 make sure that there is a person who came a
15 very long way to be here and I think may even
16 have a vote to make this evening, and that is
17 our Congresswoman Corrine Brown.

18 Congresswoman, thank you very much for being
19 here this evening, we appreciate it. We are
20 going to have the opportunity to hear from the
21 Congresswoman soon, and so we appreciate your
22 participation here.

23 We are going to adjourn promptly at 4:00
24 p.m., but as the Senator stated, we will be
25 back at 6:00 p.m. Currently we have 51 people

1 who have signed up to speak. Ladies and
2 gentlemen, we would like to try to limit each
3 speaker to three minutes, if you possibly
4 could. We are not going to be overly strict
5 about it, but the further and further we get
6 down, we just want to make sure that every
7 person who has made the effort to be here has
8 the opportunity to speak for at least three
9 minutes, so please be cognizant of that.

10 Our first speaker today is going to be a
11 Mr. Michael Yost, and following Mr. Yost -- and
12 this is all in the order that people signed
13 up -- there will be Ms. Tammy Hardin.

14 Mr. Yost, the floor is yours and you are
15 recognized for three minutes. And just so
16 everyone knows, what we are going to do, as I
17 call out the name of the next speaker, I will
18 call out a name after that so you can kind of
19 get on deck and be prepared.

20 Mr. Yost, the floor is yours. Thank you
21 for being here.

22 MR. YOST: They said give me about five
23 seconds. Now it is working.

24 Mr. Chairman and Mr. Chairman, and members
25 of the House and Senate committee, I want to

1 thank you for giving me this opportunity to
2 address this meeting here today.

3 Ladies and gentlemen, sadly, there is an
4 issue in the state of Florida, and I think
5 nationwide, but sometimes we as legislatures
6 and also people who are in the public sometimes
7 wish to put blinders on and not think about,
8 and that is the issue of race in politics.

9 Unfortunately, it seems to have been a
10 division that has been created, for whatever
11 reason, in this nation, and I think we first
12 need to recognize that we are Americans first,
13 and that if we will keep these things in mind,
14 I think that redistricting will be something
15 that this committee and committees can do and
16 do in a way in which all people in the state of
17 Florida are properly represented.

18 Unfortunately, there have been some
19 Supreme Court cases that have come down the
20 pipe that are going to restrict you, and I am
21 going to try to address these very briefly.
22 The first one is Thornburg versus Gingles, and
23 I am sure you gentlemen are very familiar with
24 that, in which it sets three basic tenets that
25 must happen on a Section 2 Voting Rights Act

1 claim, 1965 Voting Rights Act, also as amended
2 throughout the years.

3 First of all, there must be a
4 demonstration that a majority group is large
5 enough and compact enough to constitute a
6 majority if they were placed in a single member
7 district. Secondly, they must demonstrate that
8 the minority group is politically cohesive.
9 And third, they must demonstrate that while a
10 white majority votes together in enough numbers
11 to defeat the minority's preferred candidates.
12 If those requirements are met, the court will
13 then examine the totality of the circumstances
14 to determine if a violation is -- it was --
15 occurred.

16 Voinovich versus Quilter also influenced
17 another Section 2 violation, I am sure you are
18 aware of that one.

19 Johnson v. DeGrandy was another Section 2
20 violation that was settled by the Supreme
21 Court.

22 The Lulac decision, this was a Section 5
23 that was also -- Section 5 and Section 2 was
24 addressed in both of that, which takes us then
25 to one other decision fairly recently was the

1 Georgia v. Ashcroft. I want to discuss that
2 for just a moment.

3 In that particular ruling, it was the
4 desire of the State of Georgia to unpack these
5 minority and majority districts in order that
6 minorities could better represent and have
7 better effectiveness throughout the State of
8 Georgia.

9 One thing that they discovered in the
10 State of Georgia by doing this, the minorities
11 became better represented, not worse. They had
12 a better influence throughout the political
13 spectrum.

14 Let's face some realities, and I want to
15 read the very last sentence in this analysis,
16 because I think it comes into play, and that
17 analysis came from none other than Chief
18 Justice John Roberts, and he said, "The most
19 effective way to prevent discrimination on the
20 basis of race is to stop propagating laws that
21 discriminate on the basis of race."

22 We need to be Americans, folks, first and
23 foremost, in which we have communities that are
24 represented by the district boundaries that are
25 drawn by these committees, and that we have an

1 effective representative voice in which whoever
2 is elected by the majority of the voters
3 represents all the people of these districts,
4 not just the ones who can cast a ballot for
5 you. And this is why the Barnett v. Strickland
6 ruling was so important. I am going to leave a
7 copy of the entire ruling with the committee
8 before I leave today, I think that it is
9 applicable in this case, in which that it
10 allows this Legislature to draw the types of
11 compact districts that these Fair Districts
12 amendments have put you under the onus of
13 having to follow. And I think that these
14 district boundaries can be drawn, and can be
15 drawn fairly.

16 I do not envy your job, particularly in
17 congressional districts in which you have to
18 put 697,345 people in one congressional
19 district, and you have to do that 27 times. So
20 I don't envy your job one bit.

21 I commend you. I believe that this
22 committee is doing the right thing by taking
23 public input, and I believe that if they will
24 take what the people are saying and apply those
25 beliefs and those feelings that we have, not

1 only as communities, but as Americans, I think
2 you will find that we will have better
3 congressional districts, we will have better
4 state House districts and we will have better
5 Senate districts. And we will have districts
6 in which the public debate becomes something
7 that, instead of dividing us, brings us
8 together and allows us to vote and elect
9 representatives of our choice which best
10 represents the views that we have and beliefs
11 that we have as Americans, and we can end once
12 and for all these racial divisions that have
13 continually seemed to infect our population.
14 Let's face it, we all love America.

15 REPRESENTATIVE WEATHERFORD: Mr. Yost, I
16 am going to ask you to try to wrap it up there.

17 MR. YOST: Thank you.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much, sir. Appreciate your comments.

20 MR. YOST: Thank you very much.

21 REPRESENTATIVE WEATHERFORD: Thank you,
22 Mr. Yost. Next up we have Tammy Hardin.
23 Following Tammy Hardin, we have Barbara
24 Wisnosky.

25 MS. HARDIN: How lucky am I to draw the

1 second one, right?

2 First, thanks for allowing the voters the
3 opportunity to voice our opinions and concerns
4 about redistricting. I am a St. Johns County
5 resident, and I would like to remark on
6 District 19, if I may.

7 According to the last census, District 19
8 needs to shed about 19,000 voters, while
9 District 16 needs to add a little bit over
10 16,000. In my opinion, the best and most
11 practical solution seems to be making the
12 geographical boundary to the north end of
13 District 19 at I-295. The trade-off almost
14 balances.

15 Here is my fear: That the Township of
16 South Mandarin, Fleming Island and Julington
17 Creek, and even parts of IGP, which is
18 International Golf Parkway, becomes disrupted
19 if any other option comes to the table. Having
20 a son who participates in Creeks Lacrosse and
21 Mandarin sports, and a husband who coached, I
22 know there is a sharing of resources in that
23 area, in District 19, like sports fields and
24 sponsorships for athletic programs.

25 A disruption could have also an economic

1 impact on the district. I will stick to sports
2 as an example. Just about a month ago, Fleming
3 Island held the lacrosse tournament, which had
4 an estimated impact on District 19 of over two
5 million dollars. District 19 cannot afford to
6 lose those businesses that support us, and, in
7 turn, we support them. The kids not only play
8 sports together, they attend schools, both
9 public and private. We shouldn't separate this
10 township and community that has been built
11 around not just sports, but businesses. The
12 redistricting board should do whatever it can
13 to preserve this working, thriving township
14 that has developed over the past years.
15 Families play sports together, shop and eat all
16 within their district, and it should stay that
17 way.

18 I know what happens personally when you
19 break up townships. Just within our school
20 district, there was a battle not too long ago
21 where we were separated by a road, and I know
22 the upheaval it caused, and I would like to
23 preserve District 19.

24 In short, since all these areas share in
25 so much, the district boundaries which affect

1 representation should mirror the community.

2 Thanks for your consideration.

3 REPRESENTATIVE WEATHERFORD: Thank you
4 very much, Ms. Hardin.

5 Next up we have Barbara Wisnosky, followed
6 by Ms. Helen Ludwig with the League of Women
7 Voters.

8 MS. WISNOSKY: Good afternoon. Tammy
9 Hardin and I are actual neighbors in our St.
10 Johns community, and we both feel very strongly
11 about how we live in a big town/small town.
12 Our community of St. Johns County, District 19,
13 consists of South Mandarin, Julington Creek,
14 County Road 210, and we have the International
15 Golf Parkway. And I can say I am a PTO mom and
16 I have been business liaison for our school for
17 the last almost four years, and when I go
18 looking at fundraisers and donations from local
19 businesses, I go to every single one of those
20 areas within our county, and they view the
21 schools in the area as one big community. We
22 are one tight community. We go back and we
23 thank all our businesses and we think of them
24 as our sponsors for this one tight area that we
25 participate in. Our children do go to the same

1 athletic activities, we shop in the same area
2 and it is all familiar faces.

3 It would be very disruptive to our
4 neighborhoods if we were divided, and as Tammy
5 stated, our proposal is that we cut off the
6 northern part of the county, 295 corridor, and
7 that would probably alleviate roughly 19,000
8 residents, and which District 16 needs probably
9 in that area, 16,000 plus residents. So that
10 would be a solution to both our districts.
11 And, again, that would be the least disruptive.
12 It would allow students in our community to
13 participate in the athletic activities that we
14 have, especially in Julington Creek. And
15 basically we would very much appreciate you
16 taking our comments seriously. And, again,
17 talking from a -- just a parent, a PTO mom who
18 really values our beautiful area, thank you,
19 and thank you for hearing our comments and our
20 recommendations. We appreciate it.

21 REPRESENTATIVE WEATHERFORD: Thank you
22 very much, Ms. Wisnosky.

23 Next up we have Ms. Helen Ludwig with the
24 League of Women Voters. Following Ms. Ludwig
25 will be our Congresswoman here, Corrine Brown.

1 While we are waiting for Ms. Ludwig to get up
2 there, I just want to mention earlier Mr. Yost
3 talked specifically about some court cases, and
4 there is a website you can go to,
5 Floridareistricting.org, that will provide a
6 the lot of that background and information. So
7 for those of you who heard about those court
8 cases, or any other information you hear about
9 today, most of it can be found on-line at
10 Floridareistricting.org. I just want to point
11 that out.

12 Mrs. Ludwig, you are recognized. Thank
13 you for being here.

14 MS. LUDWIG: Thank you, and I didn't take
15 as long as you thought I would.

16 Am I missing something? Is there some
17 reason why we are behind Arkansas, Colorado,
18 Indiana, Iowa, Louisiana, Minnesota,
19 Mississippi, Nebraska, Nevada and Oklahoma in
20 completing or almost completing the maps for
21 redistricting? Is there some reason why you
22 doubt the intelligence of we, the citizens,
23 when we overwhelmingly passed Constitutional
24 Amendments 5 and 6? Does it seem right to you
25 to use our tax money to fight against complying

1 with 5 and 6? Does it seem right that you may
2 not have drawn the new districts in time for
3 the candidates to know which district they
4 should file for and campaign for the 2012
5 election?

6 I guess that after you have studied the
7 answers to these and other questions, we may
8 know just what thinking process you were using
9 to justify all this. Thank you very much.

10 REPRESENTATIVE WEATHERFORD: Thank you
11 very much, Ms. Ludwig.

12 Next up we have Congresswoman Corrine
13 Brown. Congresswoman, thank you very much for
14 being here. We are grateful for your presence
15 and look forward to hearing from you. You are
16 recognized.

17 CONGRESSWOMAN BROWN: Thank you very much,
18 and thank you all for having this listening
19 tour prior to making a decision of how you are
20 going to draw the districts.

21 I represent the Third Congressional
22 District of Florida, and I got to say it is
23 probably the most popular district, not just in
24 Florida, but the entire country, and so, you
25 know, I wonder why, because I look at some of

1 the other districts, it is not the -- I don't
2 have more counties than anybody else, you know,
3 I have nine. There are several districts that
4 have more than nine. The numbers are the same.

5 But the most important thing I want to
6 point out is that -- the law of the land, you
7 know. When you listen and -- to people talk,
8 you would think that I drew the district. The
9 district was drawn based on the 1965 Voting
10 Rights Act. And so I want to submit to the
11 record the votes of the members that
12 participate in the '65 Voting Right Act, and
13 that is the basis of, you know, how people
14 voted. And Florida has always been kind of
15 progressive, because during that time, we had
16 13 members. Seven of them voted against it and
17 six voted for it. And so -- but I can report
18 that all of the members voted to re-enact the
19 Voting Rights Act, all of the members of the
20 congressional delegation, which I think is very
21 important.

22 Let me tell you something. You all were
23 talking about the beaches. I don't represent
24 the beaches. When America have a cold, the
25 African-American community have pneumonia. We

1 have a high unemployment rate. And it is very
2 important that we remain in the room. I feel
3 very strongly about that. Basically I want to
4 put in the record -- where is -- where is -- I
5 have something that I want to give you. Ken,
6 where is it? Okay. Where is the book? I want
7 to give you a copy of the book. This book is
8 America -- *Black America in Congress from 1870*
9 *to 2007*, and there was a period of 28 years
10 when the United States Congress went dark,
11 meaning it was no African-Americans in
12 Congress. For Florida, it was 129 years when I
13 got elected.

14 I am committed that we will never go dark
15 again in the United States Congress, never.
16 And it is not just about the congressional
17 seat, because when you draw the congressional,
18 you draw the House, you draw the Senate, you
19 draw the school boards, you draw city council.
20 So everything is based on how you draw those
21 districts based on communities of interest.

22 And so I feel very strongly that the
23 paramount reason that when you start drawing,
24 that you consider communities of interest. I
25 am putting in the record the fact is how those

1 members -- you talked about Georgia, Florida,
2 the different states, how they voted in '65 and
3 how they voted to date, the last time we voted,
4 and I want to tell you, the reason -- one of
5 the reasons why they passed the 1965 Voting
6 Rights Act is because there was not one single
7 African-American in the southern states, all 11
8 of them. Now ten of them have had at least one
9 representation, one, but the rest of them had
10 absolutely none. To date, Arkansas still have
11 never elected an African-American. It was 129
12 years since we elected one, and that one was
13 from Gainesville. We will never go back.

14 It is very important when you draw
15 districts -- and let me clear something up for
16 my friends in the room. I want to elect
17 Democrats; in fact, I wouldn't care if all 27
18 of them was Democrats. Not quite true, I want
19 a few Republicans, but we got too many in
20 Washington right now. But the point is, that
21 is not what we are talking about. What we are
22 talking about is including the principles of
23 the 1965 Voting Rights Act when you draw those
24 districts. Yes, we have come a long way. I
25 know we all are excited that the fact that we

1 have an African-American as President. Well,
2 he didn't carry none of those southern states.
3 So keep in mind -- well, Florida don't think
4 they are a southern state, and I don't either,
5 but the point is -- but the point is that we've
6 got to make sure that when we draw districts,
7 that we consider the law. And nothing has
8 changed as far as the voting rights is
9 concerned, we just re-enacted it, and we did it
10 for 25 years after having hearings all over the
11 country because there was a need.

12 And so with that, that is my position
13 on -- as you draw districts, and we will be
14 monitoring it, and certainly, you know, a lot
15 of people wanted to imply that I have something
16 to do with drawing the districts. I haven't
17 been in Tallahassee in almost 20 years, so
18 clearly I have not had anything to do with
19 drawing of the districts.

20 REPRESENTATIVE WEATHERFORD: Thank you,
21 Congresswoman.

22 CONGRESSWOMAN BROWN: The districts have
23 been -- you drew the districts based on the
24 law. Thank you.

25 REPRESENTATIVE WEATHERFORD: Thank you

1 very much. Thank you very much for your
2 comments.

3 I apologize, I didn't read the name after
4 Congresswoman, but it is Mr. Jim Last. Jim,
5 you are up, and after Mr. Last, I apologize, I
6 cannot read the last name here, but the first
7 name, I believe, is Marcie. If that is right,
8 if there is a Marcie here, you are next, and
9 you are from Fernandina Beach, and we will try
10 to get to you next, but until then, Mr. Last,
11 you are recognized. Thank you for being here,
12 sir.

13 MR. LAST: Thanks. I just want to say
14 that John Thrasher is my Senator, and very
15 happy to have him, but the main thought I want
16 to get across here is that I would like to see
17 Nassau County be whole. When you redistrict, I
18 would like to see Nassau County be in one
19 district, not separated beach from the west
20 side.

21 I also wanted to say that I really -- and
22 this is so wonderful to get to follow Corrine
23 Brown for this -- I really think that
24 gerrymandering is bad for all reasons, and I do
25 not want you to do it. One of the things that

1 Mike Yost said about the Supreme Court ruling,
2 or one of the rulings, on the reason for
3 gerrymandering districts was that, you know,
4 you couldn't feel like white people would vote
5 for a minority. I think we can safely throw
6 that out the window now as a reason to
7 gerrymander.

8 REPRESENTATIVE WEATHERFORD: Thank you
9 very much, sir.

10 Next up, Ms. Marcie, it could be Mary, I
11 apologize. Is it Mary? Okay. No problem, no
12 problem. You are recognized. Thank you very
13 much for being here.

14 After Ms. Mary, we've got Sherry Behning.
15 Sherry, you will be next.

16 You are recognized.

17 MS. DOWNEY: Thank you very much, and
18 thank you very distinguished representatives,
19 my wonderful Senator Thrasher, my State
20 Representative, Janet Adkins.

21 We are here -- I wish to echo Jim Last's
22 comments and to say that we are all Americans
23 and we come from Nassau County, and our mission
24 is to keep it whole. So thank you again for
25 all of your time in giving up your summer for

1 us. Thank you.

2 REPRESENTATIVE WEATHERFORD: Thank you
3 very much.

4 Next up we have Ms. Sherry Behning,
5 followed by Katie Ross. Ms. Sherry, thank you
6 for being here. You are recognized.

7 MS. BEHNING: I appreciate you holding
8 these hearings ahead of time. It is very
9 important to me that you hear our voices, and I
10 believe you are.

11 I have lived in beautiful Clay County for
12 37 years. When I first came here, we were the
13 bedroom of Jacksonville, and over the time, I
14 have seen Clay County develop into its own
15 unique county, style, culture. We are a
16 community. No matter where we think Clay
17 County, we are of like mind, we want the same
18 things. We want certain things taken care of
19 within our community.

20 I believe that Clay County should be held
21 as a county, as one spot, keeping really
22 distinct boundaries, not dividing gated
23 communities and neighborhoods, because we are
24 so much on the same like mind.

25 I work in one of the biggest retail

1 salers -- stores in our community, and I can't
2 tell you how many times I have heard people
3 talk about we really need to have one voice,
4 one person, that we can feel like represents
5 us, Clay County. Thank you.

6 REPRESENTATIVE WEATHERFORD: Thank you
7 very much.

8 Next up we have Ms. Katie Ross, followed
9 by Linda Storey.

10 MS. ROSS: Thank you, ladies and
11 gentlemen, for allowing us to speak today, and
12 I want to thank also everyone in the audience
13 for caring so much about this issue.

14 My name is Katie Ross, and I am the
15 President of the League of Women Voters,
16 Jacksonville First Coast. The League of Women
17 Voters seeks to improve our systems of
18 government and impact public policy through
19 education and advocacy.

20 For the past 70 years, the League of Women
21 Voters has been working on the issue of
22 redistricting here in Florida. It is one of
23 the first issues we brought to the Florida
24 Legislature. There have been four petition
25 drives over the past years, and last November,

1 Amendments 5 and 6 were on the ballot, and they
2 passed by 63 percent.

3 The League worked with the coalition of
4 organizations, including the NAACP and
5 democracy to advocate on behalf of the
6 amendments.

7 Up until this past November, there have
8 been no rules in terms of redistricting. Now
9 there are guidelines, simple, simple
10 straight-forward rules as to how districts
11 should be drawn.

12 That being said, I urge you and your staff
13 to draw these districts as soon as you can.
14 The proposed timeline has the Legislature
15 reviewing the maps and voting the second week
16 of March. This does not leave enough time for
17 candidates to file for office, mount their
18 campaigns, accommodate a constructive review
19 process and any litigation that might occur.
20 We urge you to draw these maps soon and review
21 them in committee in the fall. That way, the
22 Legislature can vote on them the first week of
23 session, giving candidates plenty of time to
24 file and mount their campaigns. In the words
25 of one of your own attorneys, the current

1 timeline will cause chaos and voter confusion.

2 The Legislature says they want to honor
3 the voice of the people, and we appreciate
4 that, but I do ask you to stop using taxpayers'
5 money to fight redistricting in court. These
6 amendments were passed by 63 percent of Florida
7 voters. Stop these lawsuits.

8 Finally, these hearings need to be
9 productive. Citizens are expressing their
10 opinions, and we want to know what is on your
11 mind, too. Again, I encourage you to draw
12 these maps in a timely manner, and I appreciate
13 you visiting our fair city, Jacksonville,
14 today. Thank you.

15 REPRESENTATIVE WEATHERFORD: Thank you
16 very much, Ms. Ross.

17 Ms. Linda Storey, you are next, also with
18 the League of Women Voters, followed by Ben
19 Chavis. Ms. Storey.

20 MS. STOREY: Hi. Thank you again for
21 being here.

22 The most important thing I feel is that
23 the districts be contiguous. The communication
24 with your elected people is the most important
25 thing. Some districts have so much spaces in

1 terms of miles, that it is very hard to keep in
2 touch. I know you have -- it must be fair, not
3 only for the number of people, but also for the
4 amount of miles that each representative has to
5 represent. Sixty-three percent of the voters
6 voted for this, so I appreciate your efforts in
7 making it fair for the people and doing it in a
8 timely manner for the candidates that are
9 trying to run for the next election. Thank
10 you.

11 REPRESENTATIVE WEATHERFORD: Thank you
12 very much.

13 Mr. Chavis, you are recognized, sir,
14 followed by Mr. Spencer Meeks. Thank you for
15 being here.

16 MR. CHAVIS: Thank you. I am a resident
17 of Broward County. I have been involved in the
18 civil rights movement in the United States for
19 over 50 years. The Voting Rights Act was not
20 just enacted by the Congress of the United
21 States, but it came as a consequence of a lot
22 of sacrifice, a lot of struggle.

23 When each of you introduced yourselves at
24 the beginning of the hearing, I said to myself,
25 Florida is a very diverse state. I want to

1 thank you for having us here.

2 At the end of the day, it will be the map,
3 the map that we started with and the map that
4 you end with. The outcome of the new map
5 should reflect the growing diversity of the
6 state of Florida. It should not reflect less
7 diversity. It should reflect more diversity.

8 I am hoping, and I appeal to each of you
9 who are decision-makers in the state
10 Legislature that the redistricting not only
11 ought to be fair, but it ought to be
12 representative of the increased diversity of
13 the state of Florida.

14 Earlier a speaker mentioned race and
15 politics. I noticed some people kind of shook
16 their heads, but I don't think we should fear
17 what happened in the past, and I don't think we
18 should fear the future. Racial diversity is
19 not -- or should not be a huge hurdle. It
20 should be seen as a blessing. Some of you
21 introduced yourself saying, "I represent God's
22 district." This ought to be God's state, and
23 in God's state, all of God's children ought to
24 be treated fairly, without discrimination of
25 race, without discrimination of any other

1 barrier.

2 What we are hoping is that at the end of
3 the day, the new redistricting in the State of
4 Florida would not have any regression, would
5 not have less minorities being in the House or
6 being in the Congress of the United States. We
7 should start there. The congressional
8 districts should not be less minority
9 representation. They should be more.

10 We celebrate the journey that Florida has
11 just arrived. Let's move forward and not move
12 backwards.

13 The Voting Rights Act of 1965 is still the
14 law of the land as amended. The reason why
15 there are a lot of court cases, somebody made
16 reference, is because there are continuing
17 attempts to dismantle the Voting Rights Act,
18 and that is why the federal courts are
19 available to protect citizens' rights.

20 I commend this committee, and I hope and
21 pray that the state Legislature will do what is
22 right, and that is to pass and put a new map up
23 that will be more reflective of the diversity
24 and of the journey of the State of Florida to
25 insure equal voting rights for all of its

1 citizens.

2 REPRESENTATIVE WEATHERFORD: Thank you
3 very much, Mr. Chavis.

4 Next we have Mr. Spencer Meeks, Jr.,
5 followed by Andrew Curtin with the Nassau
6 Patriots Tea Party. You are recognized, sir.

7 MR. MEEKS: Thank you, Mr. Chairman.
8 First of all, I don't have a lot of statistics
9 to give you, but I want to just say two things.

10 One thing, I want to acknowledge our
11 Congresswoman, Corrine Brown, because I know
12 how dedicated she has been for equality in the
13 state of Florida. I know how hard she has
14 worked so many years to see that every
15 individual had a chance to be what they wanted
16 to be in the state of Florida.

17 Secondly, I would like to ask this board,
18 this committee here, to think about our future
19 and the future we are coming, that we have to
20 face that we do not leave an example of going
21 backwards. Whatever we do, let it be a
22 progress made forward, so that instead of
23 losing delegation, instead of losing
24 minorities, that we do all we can to build a
25 bridge to make and create more position for

1 minorities. Thank you.

2 REPRESENTATIVE WEATHERFORD: Thank you,
3 Mr. Meeks.

4 Next up we have Andrew Curtin. After
5 Mr. Curtin will be Barbara Engle. Mr. Curtin
6 is with the Nassau Tea Party Patriots. Thank
7 you for being here, sir.

8 MR. CURTIN: Good afternoon. Thank you
9 very much for holding this meeting.

10 I am speaking as a long-time resident of
11 Nassau County. I would like to reemphasize
12 what Mr. Last and Ms. Downey said about the
13 integrity of Nassau County and the
14 redistricting process. We are located at the
15 far end of the state, and any events where we
16 get fragmented into multiple districts, I feel
17 that we lose the effectiveness of our
18 representation both at the state level and the
19 congressional level. So I would urge you,
20 whatever the redistricting process requires,
21 that the county be held -- because of the way
22 it is structured and the population -- be held
23 intact throughout the redistricting process.
24 Thank you.

25 REPRESENTATIVE WEATHERFORD: Thank you,

1 sir.

2 Ms. Barbara Engle is next, followed by
3 Raymond Chute.

4 MS. ENGLE: Good afternoon. Thank you for
5 this opportunity. I am here as a concerned
6 citizen and as an active member of the
7 Northeast Florida Chapter of the American Civil
8 Liberties Union.

9 The process and the hearings have been
10 troubling to me, and I am trying to understand
11 the process as best I can. I don't understand
12 why it takes so long to develop the maps. You
13 have had information from the census for
14 months. And I heard your comments earlier
15 prior to this portion of the meeting, but I
16 really don't feel that this is a conversation.
17 I would like to be able to meet and talk to
18 some of the people who will be running to
19 represent me, but you have to draw the maps and
20 draw the districts to let me know who they are.
21 I am looking forward to you making those maps,
22 to present it to the public to start a
23 conversation; otherwise, I am afraid we are
24 just wasting everyone's time.

25 The new rules overwhelmingly approved by

1 the voters last November mean that you can't
2 make a district to favor any political party.
3 I am troubled that so many of you opposed,
4 fought and continue to fight these
5 voter-approved fair district rules. Please
6 don't confuse fair districts with minority
7 districts. Remember, the Florida House's own
8 special council on redistricting told this
9 committee on April 28th that the intent of the
10 Fair District amendments is to enhance minority
11 protections beyond what is provided in the
12 Voting Rights Act. In fact, if followed
13 correctly, the Fair District amendments should
14 lead to more diversity and more districts being
15 represented by minorities, not fewer, by
16 placing significant numbers of minority voters
17 in more districts throughout the state rather
18 than the existing super-majorities that exist
19 in just a few districts.

20 Keep in mind that not only were the Fair
21 District amendments approved by 63 percent of
22 Florida's voters, they were also supported by
23 the state's leading civil and voting rights
24 groups: The NAACP, ACLU and League of Women
25 Voters as examples.

1 Why are you spending my money and that of
2 other Florida taxpayers to undermine my vote
3 and the vote of the overwhelming majority of
4 Floridians for a fair reapportionment process
5 and fairer districts? Maybe it would be better
6 to stop spending money on lawyers and just draw
7 fair maps. Thank you very much for hearing me
8 out.

9 REPRESENTATIVE WEATHERFORD: Thank you,
10 Ms. Engle.

11 Next up we have Mr. Raymond Chute. After
12 Mr. Chute, we have Thomas Watson. You are
13 recognized, sir.

14 MR. CHUTE: Thank you, sir, and I would
15 like to thank the committee for holding these
16 hearings so that everyone can have a chance to
17 voice their opinions.

18 I would like to refer back to this lady
19 over here that lived on Fleming Island and
20 spoke about living there 35 years. Well, I
21 have been living -- she said 37. I have been
22 living there 35 years. And, unfortunately, I
23 live on the east side of Pine Avenue, which
24 runs down Fleming Island, and I am not in the
25 same congressional district as everyone else

1 who lives on Fleming Island. My daughter lives
2 on the other side of Pine Avenue, about a
3 quarter of a mile from me, and she has a
4 different Congressperson than I do.

5 Now, I can tell by looking at that and
6 after having read about it for so many years
7 that many of these districts are gerrymandered
8 to force a particular result whenever people
9 are voting. I don't think that gerrymandering
10 is a fair way of doing things. I think there
11 -- I agree with the lady about fair districts,
12 but I don't know that we are all -- when we say
13 "fair," I didn't know that we all have the same
14 definition.

15 I would like to see the redistricting maps
16 drawn so that they use -- make use of natural
17 boundaries, county line boundaries, city
18 boundaries, river boundaries, that sort of
19 thing, in so far as possible. I recognize it
20 can't happen totally in all cases, but it
21 should be something that is reasonable and
22 sensible, not this meandering district running
23 through Fleming Island.

24 Thank you for your attention.

25 REPRESENTATIVE WEATHERFORD: Thank you,

1 sir. We appreciate your comments.

2 Next up we have Thomas Watson, followed by
3 Sandra Jones. Mr. Watson.

4 MR. WATSON: Thank you very much. I am
5 another member of Fleming Island, and I live on
6 that little tiny strip that runs from Duval
7 County all the way down to Putnam County is in
8 my case, where I live, about 2,000 feet wide,
9 and I am completely divorced from all the
10 things that I do in Clay County. I beg you to
11 please get rid of that little strip of shame
12 and give me some representation back. Thank
13 you.

14 REPRESENTATIVE WEATHERFORD: Thank you,
15 Mr. Watson, and we always give bonus points to
16 brevity, sir, so thank you very much.

17 Next up we have Sandra Jones, followed by
18 Chris Chambless. Ms. Jones?

19 Okay. We like that even better than
20 brevity, so thank you very much. We appreciate
21 that, Ms. Jones.

22 We have Mr. Chris Chambless. After
23 Mr. Chambless, we are going to have James
24 Minion.

25 You are recognized, sir. Mr. Chambless is

1 with the Clay County Elections Office.

2 MR. CHAMBLESS: Good afternoon,
3 distinguished members of the committee. I
4 certainly want to speak to you as the
5 Supervisor of Elections of Clay County, as well
6 as the Florida State Association of Supervisors
7 of Elections, District 5, Board of Directors.
8 District 5 represents eight counties in
9 northeast Florida and nearly one million
10 registered voters.

11 To that point, over 20,000 of those
12 registered voters are overseas civilian and
13 military absentee voters who continue to foot
14 the bill of freedom of this great country.

15 This afternoon I wish to take a -- take
16 the discussion to a different area of concern
17 than has been discussed thus far, a discussion
18 which focuses more on the process, specifically
19 the time lines, then the districting lines
20 themselves. I am asking that greater
21 consideration is given to the time lines of
22 redistricting, and where possible, that the
23 process be expedited to allow more time to
24 adjust precinct lines to the new district
25 lines.

1 To conduct elections efficiently and
2 accurately, election officials need time to
3 adjust precinct lines to the new districts,
4 gain approval of those districts and precincts
5 by the Board of County Commissioners, secure
6 additional polling locations, notify all voters
7 well in advance of election day.

8 If the Legislature, the Attorney General,
9 Supreme Court and Justice Department all
10 complete their work on schedule, elections
11 administrators will have less than two weeks to
12 adjust the records of Florida's 11 million
13 voters before the first absentee ballot must be
14 mailed. The calendar provided by legislative
15 staff indicates that final Justice Department
16 review of the new districts will likely be
17 completed after candidate qualifying. That has
18 the potential of confusing candidates and
19 delaying ballot printing.

20 In addition to that, I wish to discuss the
21 district lines themselves. Please respect
22 communities when drawing your district lines.
23 For the first time, in my opinion, legislative
24 staff worked with elections office and census
25 officials to establish the Voting Tabulation

1 Districts, or VTDs, which take into
2 consideration intact communities, traffic
3 patterns, physical boundaries. Please adhere
4 to these lines wherever possible.

5 Currently in Clay County, there are 291
6 different representation splits, which each
7 require a different ballot style in a primary
8 election, 97 in a general election. The best
9 place to draw a district line is along the
10 county line. Please divide districts along the
11 county lines whenever possible.

12 While there is much attention to Florida's
13 meandering districts, there are many more
14 examples of small cities that are being
15 separated into three or four districts, or
16 gated communities with district lines running
17 right through them. The best way to avoid this
18 is by following those established VTD lines.

19 I certainly appreciate your commitment and
20 your long-standing interest in this process, as
21 it is very important. Thank you so very much.

22 REPRESENTATIVE WEATHERFORD: Thank you,
23 Mr. Chambless. We appreciate the input from
24 the elections office.

25 Next up we have Mr. James Minion from

1 Florida Prospers. After Mr. Minion, we have
2 Frank Farrell.

3 You are recognized, sir.

4 MR. MINION: Thank you very much, and I
5 would like to thank the entire committee for
6 appearing and touring the state in this way,
7 allow us all our input. But I will just simply
8 reiterate what many of the previous speakers
9 have said in that it was a super-majority of
10 Florida voters who did approve the Fair
11 District amendments for Congress and for state
12 Legislators. I would say that is a high
13 margin, it is a high standard, and I would say
14 it is tough to get elected with 63 percent,
15 don't you think?

16 So I think when I hear and I read things
17 about how the state at a time where Tallahassee
18 is telling us we cannot fund our schools, that
19 we are squirreling away millions and millions
20 of dollars to -- to attack these districts with
21 lawsuits or defend the maps that are drawn, it
22 just makes it seem like the process has gotten
23 off on the wrong foot, that you are kind of
24 preparing for the worst when you should be
25 engaged in doing the best.

1 And I would certainly concur with the
2 previous speaker that -- and some other
3 speakers that we do need -- as voters, we do
4 need a significant timeline. We have a
5 presidential election in the year coming up,
6 and the folks below that on the ticket have
7 enough trouble getting in front of their
8 constituents and their voters than to continue
9 to -- then to delay that timeline right up to
10 the -- right up to the horn, right up to the
11 gun, and it just doesn't allow us to even find
12 out who can run for the seats. We won't even
13 know who can run for the seats until you guys
14 are done. So we would appreciate the most
15 accelerated timeline you can provide.

16 And I would just also like to mention
17 something that is interesting, this for the
18 first time ever in the redistricting process,
19 we talk about a state that is slightly majority
20 Democrat, majority Republican in the House and
21 Senate, but what we have is a plurality now of
22 the fastest-growing party affiliation, which is
23 no party affiliation. We now have a couple of
24 million voters, about 22 percent of our
25 registered voters in the state are no party

1 affiliation. So I think that is something
2 important to keep in mind, I think, when you
3 are -- when you are putting the demographics
4 together in the districts. And, again, please
5 accelerate that timeline as fast as you can and
6 let's try to stay out of court. Thank you very
7 much.

8 REPRESENTATIVE WEATHERFORD: Thank you
9 very much, Mr. Minion.

10 Next we have Frank Farrell, who is
11 followed by -- I believe it's Arie Rodriguez,
12 could be Annie Rodriguez, I apologize if I
13 misstated that.

14 But, Frank, you are up. Thank you, sir.

15 MR. FARRELL: Good afternoon. My name is
16 Frank Farrell, and I live in Orange Park,
17 Florida. I have the privilege of serving as
18 the current Chairman of the Clay County School
19 Board, as Vice-Chairman of the Northeast
20 Coalition of School Boards, and on the Board of
21 Directors of the Clay County Educational
22 Foundation. In addition to that, I serve on a
23 number of other community-based boards and
24 committees. Thank you for the opportunity to
25 address the redistricting of the Florida

1 legislation.

2 As you know, Clay County is currently
3 represented in the House by five
4 representatives, Ms. Adkins and Messrs.
5 Weinstein, Daniels, Van Zant and Proctor, and
6 in the Senate by Mr. Wise and Ms. Lynn.

7 Clay County has its own unique
8 personality, if you will. We are urban and
9 very rural, spread over 661 square miles. Our
10 perspective, values, outlook and character are
11 old Florida, influenced, of course, by new
12 arrivals, and largely influenced by the number
13 of military, both active duty and retired. We
14 are fiercely patriotic and very supportive of
15 our military. Clay County folks are
16 conservative, church-going and family-oriented.
17 You will see these values celebrated at the
18 Clay County Fair, recently at our Fourth of
19 July celebrations throughout the county, and
20 literally in every observance of every holiday
21 throughout the year.

22 Now, we enjoy our proximity to
23 Jacksonville and Duval County and everything
24 that that has to offer by way of recreation,
25 sports, theater, restaurants, shopping, and, of

1 course, the beaches. We do not have a beach.
2 The pace is vibrant, sometimes too much so, but
3 always exciting.

4 As communities, we share many of the same
5 problems and many of the same challenges.
6 Others are unique to our own community.

7 There is a risk, and that risk is that
8 Clay County's issues and concerns and needs
9 could -- could become sublimated to those of
10 Duval County.

11 I would hope that Clay County citizens are
12 an important part and percentage of each and
13 every newly redrawn district, preserving our
14 perspective, our values, our outlook. The
15 voice of Clay County with responsive
16 representation in Tallahassee is my message and
17 my request to the Legislature. Thank you very
18 much.

19 REPRESENTATIVE WEATHERFORD: Thank you,
20 Mr. Farrell.

21 Next up we have Annie Rodriguez, followed
22 by Lynn Watson.

23 I would like to take just a brief moment
24 to let everybody know where we are. We are
25 looking at 3:05. This is our 21st speaker. We

1 have just about 55 or 56 speakers, so were are
2 on a very tight time frame. I would ask you to
3 please try to keep your comments within three
4 minutes, and just so everyone knows, we will be
5 back at 6:00, 6:00 to 8:00, so if we do not get
6 to everyone, it will carry forward to the next
7 hearing.

8 But with that, Ms. Annie, you are
9 recognized. Thank you.

10 MS. RODRIGUEZ: Thank you. Thank you for
11 this opportunity. I moved to Jacksonville
12 about three and a half years ago, so I am
13 fairly new to the area.

14 When I hear us talk about the minority
15 community, that word really makes me tense. I
16 want to say if -- when we refer to the minority
17 community, I am assuming we are talking about
18 the people of color. If we were all to come
19 together, all those people that we keep calling
20 minority, will we truly be the minority? I
21 want to put that out there.

22 What I want to say is in the
23 redistricting, a lot of us are talking about
24 diversity, and I want to -- for you all to
25 consider the Latino/Hispanic community when you

1 are looking at the redistricting, especially
2 with the statistics showing that so many of us
3 are moving down south.

4 REPRESENTATIVE WEATHERFORD: Thank you
5 very much.

6 Okay. We have Lynn Watson. Ms. Watson is
7 followed by Carolyn Woods from the Atlantic --
8 who is an Atlantic Beach commissioner.

9 You are recognized, Ms. Watson.

10 MS. WATSON: I -- in the sake of brevity,
11 I will say just very few things.

12 One, I am a resident of Fleming Island,
13 the east side. Across the street is a totally
14 different district.

15 Fleming Island, a sliver of Orange Park,
16 the sliver of Fleming Island and the portion of
17 Green Cove Springs, all in Clay County, to
18 use -- to speak of Ms. Congresswoman Brown's
19 commonality of interest, it does not exist in
20 that sliver. We would like to be in Clay
21 County as one district. Thank you.

22 REPRESENTATIVE WEATHERFORD: Thank you.
23 Carolyn Woods, who is -- I should say
24 Commissioner Woods is next up, and after
25 Commissioner Woods, we will have Tamara

1 Pendleton.

2 Commissioner, you are recognized. Thank
3 you for being here.

4 COMMISSIONER WOODS: Thank you very much.
5 I want to thank all of you for coming out,
6 participating in this and allowing all of the
7 citizens to come and speak.

8 I agree with a lot of what has been said
9 today, and I just want to add one brief comment
10 to the subject of Amendments 5 and 6, and that
11 is basically that I feel it is one thing for
12 the people to sue the government, but it is
13 quite another for the government to sue its
14 people, and I am hoping that all of these
15 workshops and public gatherings are your good
16 faith effort to move forward with Amendments 5
17 and 6. Thank you very much.

18 REPRESENTATIVE WEATHERFORD: Thank you.

19 Ms. Tamara Pendleton, and after
20 Ms. Pendleton, we have Benetta Standly with the
21 ACLU of Northeast Florida.

22 You are recognized.

23 MS. PENDLETON: Hi, Tammy Pendleton with
24 the Nassau County Supervisor of Elections
25 Office. Thank you for the opportunity to speak

1 today.

2 On behalf of the Florida State Association
3 of Supervisors of Elections and the Nassau
4 County Supervisor of Elections Office, Vicki P.
5 Cannon, Supervisor of Elections, we would like
6 to submit the following input for inclusion in
7 the record: We echo the two important areas
8 and consideration regarding the redistricting
9 process, the first one being time. In order to
10 conduct successful elections in 2012, election
11 officials do need time to complete the required
12 tasks. To conduct elections efficiently and
13 accurately, election officials need time to
14 adjust the precinct lines to new districts,
15 gain approval of those precincts by the Board
16 of County Commissioners and notify voters well
17 in advance of election day. If the
18 Legislature, Attorney General, Supreme Court
19 and Justice Department all complete their work
20 on schedule, administrators will have less than
21 two weeks to adjust the records of Florida's
22 11 million voters before the first absentee
23 ballots must be mailed. The calendar provided
24 by legislative staff indicates that final
25 Justice Department review of new districts will

1 likely be completed after candidate qualifying.
2 This has the potential, of which you have
3 heard, that it could be confusing to candidates
4 and delay ballot printing.

5 As you are aware, there are many
6 activities that go into preparing for elections
7 after the redistricting process: Notifying
8 voters, securing polling locations, voting
9 equipment programming, typesetting ballots,
10 preparation and mailing of absentee ballots,
11 the law requires mailing 45 days prior to the
12 election to uniform service voters and overseas
13 voters who have requested absentee ballots, and
14 training poll workers are just a few. It is
15 our mission to ensure that the voters are
16 well-informed and prepared for the voting
17 process, and that the integrity of the voting
18 process is protected.

19 The second most important area, district
20 lines. Please respect communities when you do
21 draw the district lines. We greatly appreciate
22 that for this redistricting process,
23 legislative staff worked with election and
24 census officials to establish Voting Tabulation
25 Districts which take into consideration intact

1 communities, traffic patterns and physical
2 barriers. We respectfully request that you
3 adhere to these lines whenever possible.
4 Traffic -- I'm sorry. Much time and thought
5 was invested so that the best possible product
6 could be produced to assist in the
7 redistricting and election processes.

8 While there is much attention to Florida's
9 meandering districts, there are many more
10 examples of small cities being separated into
11 three or four districts, or gated communities
12 with district lines running right through them.
13 The best to avoid this is by following the
14 Voting Tabulation District lines. The best
15 place to draw the line, a district line, is
16 along county line. Please divide districts
17 along county lines whenever possible.

18 Again, thank you for the opportunity to
19 speak with you today and to provide our input
20 into the process.

21 REPRESENTATIVE WEATHERFORD: Thank you.

22 Ms. Standly, thank you very much for being
23 here with the ACLU of the northeast region.

24 Followed by Ms. Standly, we will have
25 Vincent Schuppert.

1 MS. STANDLY: Good afternoon. So my name
2 is Benetta Standly. I am with the ACLU of
3 Florida. I want to welcome those of you in the
4 Legislature who are not from Duval County here
5 to Jacksonville. Glad to have you. So I will
6 make my remarks very brief. I am going to
7 touch five quick points.

8 One, we need to protect minority
9 districts; two, you need to follow the will of
10 the voters; three, I need to know that this
11 process is deeply flawed; and also you need to
12 stop being wasteful of taxpayers' monies, and
13 you need to show me a map, quite frankly.

14 So as you know, Amendments 5 and 6
15 actually added minority voting rights
16 protections into the Florida Constitution. It
17 had never been there before. So it actually
18 adds two provisions of the Florida -- the
19 Federal Voting Rights Act.

20 However, we need information from you as
21 our elected officials on how many
22 majority/minority districts exist in Florida.
23 Where are they located and how will your map
24 address those? You all have a legal obligation
25 to make sure that minority voters have the

1 opportunity to elect the persons that they
2 choose.

3 Secondly, the new rules for drawing
4 legislative boundaries have been overwhelmingly
5 approved by the Florida voters. As you know,
6 nearly 63 percent of Floridians, including
7 myself, agreed to amend our Florida
8 Constitution so that no political party would
9 be favored. We need you, the Florida
10 Legislature, to follow these rules. We elected
11 you. You have to follow the rules we set
12 forward.

13 Quite frankly, I am disappointed that many
14 in our state Legislature are not trying to
15 follow the rules. You are simply opposing them
16 and you are fighting them.

17 Three, the political party in charge,
18 quite frankly, who will be drawing the maps, is
19 probably likely to draw lines that favor
20 themselves. That is absolutely not okay. The
21 entire purpose of Amendments 5 and 6 was that
22 voters choose the politicians, not the other
23 way around. This is not -- this is supposed to
24 be a fair and nonpartisan process. We do not
25 want fake public hearings. We do not want

1 shady back-room deals. We want a fair process.

2 Four, please stop wasting my taxpayer
3 dollars. Stop wasting our dollars and stop
4 undermining our vote and our voice, and just
5 draw the maps. It is just that simple, draw
6 good maps, draw fair maps, and perhaps the
7 lawsuits will cease.

8 Finally, my last point is, with all due
9 respect, where are the maps? This is not a
10 real conversation. You bring us here, you
11 invite public comment and you give us nothing
12 to comment on. You have had this data from the
13 census for many months. You need to bring
14 something forward and stop wasting time. There
15 are people who are going to run for office.
16 They don't even know what district they are in.
17 They can't even campaign. We need to speed
18 this process up.

19 So, again, this isn't a conversation, and
20 quite frankly, I see it as this traveling tour
21 around the state on my taxpayer dime.

22 REPRESENTATIVE WEATHERFORD: Thank you,
23 Ms. Standly, for your comments, and a lot of
24 the questions that were brought forth I believe
25 Senator Gaetz is going to address at the end of

1 the hearing if they are not addressed before
2 that. So thank you very much for your
3 comments, and next up we have Mr. Schuppert,
4 retired from the United States Navy. Sir,
5 thank you for your service and thank you for
6 being here today.

7 MR. SCHUPPERT: Proud to be here. I am an
8 Orange Park resident of 29 years. I live along
9 the river with a one block neck of Congress,
10 U.S. Congress District 3, which was
11 gerrymandered to connect Jacksonville all the
12 way to Gainesville and Ocala. Unfortunately, I
13 now feel unrepresented. And if you reflect
14 just a little bit, my Congresswoman addressed
15 all of us a little bit earlier, very proud of
16 speaking about her representation of the
17 minority. Unfortunately, she never talked
18 about representing me. And so, therefore, I
19 feel, quite frankly, unrepresented, and that is
20 too bad.

21 The gerrymandered district has absolutely
22 no logical boundaries, and I am talking
23 Congressional District 3. We are symmetry in
24 its creation.

25 I have this suggestion for you in creating

1 the map, and that is we've got some fine
2 Florida universities, hand the project to them
3 and let them design and lay out the map. Thank
4 you.

5 REPRESENTATIVE WEATHERFORD: Thank you,
6 Mr. Schuppert. We appreciate your comments and
7 your ideas.

8 Next up we have Dee Lansford, I believe.
9 Ms. Dee, thank you very much, and followed by
10 Ms. Lansford will be Marge Hutton.

11 MS. LANSFORD: Thank you so very much for
12 coming and seeing us, giving us your ideas and
13 allowing us to give you ours.

14 I am from Orange Park, I live there and
15 have since 1964. We are a unique, and I am
16 sure all of us for every county, our counties
17 are unique. They belong to us, and that is the
18 way we look at them.

19 We have been growing and we are looking
20 forward to where we don't have to borrow
21 representation from one of our neighboring
22 counties. But the last -- we gave you -- you
23 are borrowing our Lieutenant Governor, Jennifer
24 Carroll, and I've got a wonderful replacement
25 for him, so I can't really fuss at you about

1 that, but, anyway, it is just, you know, we
2 want to be our own people, we want to be our
3 own selves. I think we are strong enough to do
4 that, and I think our neighbors will help us as
5 we help them. And a lot of times people will
6 say, "Hey, I was elected because of Clay
7 County," so -- and a lot of you, I recognize
8 your face right now.

9 Remember us when you put your maps
10 together. Let us know, and let us know more
11 what we can do for you as well. We put you
12 there, but we need to keep giving you our input
13 so you will know what we want you to do. Thank
14 you very much.

15 REPRESENTATIVE WEATHERFORD: Thank you,
16 Ms. Dee.

17 Next up we have Ms. Marge Hutton. After
18 Ms. Hutton, we have John Libby. Thank you for
19 being here.

20 MS. HUTTON: Hello, my name is Marge
21 Hutton, and I am a resident of Clay County and
22 Orange Park since 1975. My husband served 26
23 years with the United States Navy. I currently
24 sit as Town Councilwoman for the Town of Orange
25 Park, and I am also Chairman of the Clay County

1 Chamber of Commerce. So I bring a lot of
2 diverse reflections from Clay County.

3 I come today before you to say that we
4 have -- we request in your consideration to
5 consider Clay County with one voice, one
6 representation. We are a strong community. We
7 would ask that we have that reflection.

8 The next thing I would ask is please
9 didn't divide our community. We already heard
10 several people tell you how it has been divided
11 and has been for many years.

12 And then again, to echo the sooner rather
13 than later, not only for the consideration of
14 the people that are trying to run, but so that
15 the ballots get out in a timely manner, and
16 most importantly, so they get over to our
17 military that are asking for absentee ballots
18 so those votes can be counted, which are most
19 important.

20 And I thank you very much. I hope God
21 inspires you for the best opportunities and
22 decisions for the State of Florida. Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you.
24 Thank you, thank you.

25 Next up we have Mr. Libby. Followed by

1 John Libby, we have Darryl Register.

2 MR. LIBBY: This is a plan that I
3 submitted on Friday to the Florida House. It
4 is 27 congressional districts. The deviation
5 in population from the largest district to the
6 smallest district is three people. There are
7 11 districts that are ideal population. None
8 of the districts are under the ideal
9 population. Using the Fair Districts
10 principles that the voters of the State of
11 Florida approved last year, this is one
12 configuration of how our congressional
13 districts could look after redistricting.

14 Starting first at the county level, then
15 moving to the Voting Tabulation District level,
16 and only where necessary to the block level, I
17 redistricted, keeping counties intact, not
18 splitting consolidated communities, and
19 generally trying to find the little bits and
20 pieces of population that we -- were needed in
21 rural areas where you can go for miles and only
22 pick up one or two individuals.

23 So, as I said, these districts are exactly
24 equal in population, and I would like to focus
25 the attention on the two northeast Florida

1 districts. If you take Nassau County, Clay
2 County, St. Johns County, Putnam County and
3 Duval County, you have almost ideal population
4 for two districts. You need to remove about 20
5 people from someplace along the lines to come
6 up with different districts, or with two ideal
7 districts. In any case, the two districts on
8 this map are Districts 4 and 5 for northeast
9 Florida.

10 Now, I will say this about the plan. It
11 is regressive. District -- what is currently
12 District 3 under this configuration, which only
13 encompasses three counties, two of which are
14 intact completely, is roughly 31 percent
15 African-American voting age population. But as
16 we have heard from the various speakers today,
17 this is really where we face the metal meets
18 the road here in Florida, where under the '65
19 Voting Rights Act we need to have minority
20 access, and that needs to be defined by this
21 committee and both houses in Tallahassee.

22 Secondly, the Department of Justice has
23 pre-cleared our two constitutional amendments,
24 but there is still -- Florida still has to have
25 a review when our congressional plans were put

1 in, but I felt that at least people should have
2 an opportunity here in north Florida today to
3 see what a potential Fair Districts type of
4 plan would look like in regards to the
5 congressional districts. And like I said, the
6 deviation among the 27 districts is only three
7 people, so I think it meets all constitutional
8 criteria currently in effect under the Florida
9 Constitution, but it does run into the issue of
10 the Voting Rights Act of 1965 and whether
11 minority representation requires a
12 majority/minority population within a district.
13 Thank you very much.

14 REPRESENTATIVE WEATHERFORD: Thank you,
15 Mr. Libby. Mr. Libby, I would just like to
16 point out -- I want to thank you again for
17 taking the time, not only to be here today, but
18 for the effort you put into producing these
19 maps. It is a perfect example of redistricting
20 in the 21st century. Before we were not able
21 to get input from the public like this, because
22 the technology did not exist, but today we can.
23 And, Mr. Libby, that is a gold standard in
24 regards to working with us and giving us input
25 and giving us options and giving us your

1 opinion, not only in the form of the spoken
2 word, but on paper as a map, and I just want to
3 thank you again for taking the time to do that.
4 I know that took a lot of effort.

5 Next up we have got Mr. Darryl Register.
6 Following Mr. Register is Eric Haeseler. I
7 hope I didn't say that wrong, but that is the
8 way I read it, Eric Haeseler.

9 So, Mr. Register, you are up, sir. Thank
10 you.

11 MR. REGISTER: Thank you, Mr. Chairman. I
12 am a third-generation dairy farmer from Baker
13 County. I am also the Executive Director of
14 the Baker County Chamber of Commerce and the
15 Economic Development Commission.

16 I come before you today thanking you for
17 taking the time to come here to northeast
18 Florida, and I ask, as you draw the district
19 lines for the three distinguished governing
20 bodies that you are responsible for, that you
21 keep Baker County whole. We ask that we remain
22 as a single member of representation in the
23 three districts, and we ask, when possible, to
24 be grouped with counties of like demographics
25 with the small rural Baker County. Thank you

1 for your time.

2 REPRESENTATIVE WEATHERFORD: Thank you.

3 Great, thank you, Mr. -- Mr. Haeseler, did
4 I say that right? Okay, Mr. Haeseler, thank
5 you, you get bonus points today as well.

6 After Mr. Haeseler, we have Mike Griffis.
7 Mr. Griffis? Somebody told me Mike left. Oh,
8 he is here, he is here. Come on down, you are
9 the next contestant on the Price is Right.

10 MR. GRIFFIS: That is what I have been
11 waiting for.

12 REPRESENTATIVE WEATHERFORD: And after Mr.
13 Griffis, we have Jimmy Anderson.

14 So, Mr. Griffis, thank you for being here,
15 sir, you are recognized.

16 MR. GRIFFIS: Thank you very much. And
17 first I want to thank you guys, thank you,
18 Florida Legislature, for coming out and taking
19 this tour across the state of Florida,
20 listening to the people that you represent.
21 Thank you very much.

22 And really, I am Mike Griffis again, a
23 resident of Baker County, and right now Baker
24 County is represented by Congressman Ander
25 Crenshaw, Representative Janet Adkins and

1 Senator Charlie Dean. And if we had our way,
2 we would like to leave things just like they
3 are, but if Baker County has to be
4 redistricted, as Darryl Register has already
5 said, we want to be a whole county, we want to
6 be represented by one representative from each
7 branch.

8 With a county like Baker County, which has
9 limited resources, when an issue, whether it is
10 a federal issue or a state issue, comes up, it
11 is certainly easier for us to talk to one
12 person than it is to try to talk multiple
13 people. So we would ask for that, along with
14 being grouped, as Darryl said, with counties of
15 like interest. I think someone said earlier
16 that Clay County is like a rural county. Well,
17 Baker County folks go to Clay County for
18 entertainment. So just keep us with counties
19 like us. Thank you.

20 REPRESENTATIVE WEATHERFORD: Thank you,
21 Mr. Griffis.

22 We've got next up Jimmy Anderson.
23 Mr. Anderson, sir, thank you for being here.

24 Following Mr. Anderson is Wilbert River
25 Torres. You are recognized, sir.

1 MR. ANDERSON: I want to thank you for the
2 opportunity to speak here. I am Jimmy
3 Anderson. I am the Commissioner of Baker
4 County. And I just want to thank you for the
5 opportunity, and I echo basically what the
6 people before me said about Baker County. I do
7 think that we are God's country, but actually,
8 I think that the United States is God's
9 country, and I think -- I also wanted to say
10 that I like the single representation on all
11 three districts. I mean, it is just -- it's
12 the way to go. And I think that if we are
13 going to draw our lines, boundary lines, they
14 need to stay along your county lines as much as
15 possible.

16 Also, I need -- we need to get this
17 process done as quick as we can so, you know,
18 that the members can get out there and they can
19 try to drum up some support. And also I would
20 like for it to hurry up because I don't know if
21 y'all know, which I am sure you do, that when
22 y'all draw these lines, it is going to affect
23 each polling location. If Baker County gets
24 split, that means that Baker County
25 Commissioners are going to have to come up with

1 some more money to give to the Supervisor of
2 Elections to send out all the paperwork and
3 everything showing that their districts has
4 changed, and I would think and hope that y'all
5 would take that into consideration when you
6 split these small counties, that that is going
7 to be a cost that the small counties are going
8 to have to absorb if you split them. So that
9 is one thing.

10 And another thing, I want to say on a
11 personal note that it is sad for me to say that
12 we are here in 2011 and we still are talking
13 and speaking about the race card. My lord and
14 savior don't see color, and I don't think we
15 should neither.

16 REPRESENTATIVE WEATHERFORD: Thank you,
17 Mr. Anderson.

18 Next up, Wilbert River Torres, followed by
19 Nita Crawford.

20 Mr. Torres, you are recognized, sir.

21 MR. TORRES: I am speaking on behalf of
22 the Hispanic community. A lot of people tend
23 to -- tend to disregard it, especially in
24 northeast Florida. Too many times like people
25 aren't realizing that the population is

1 increasing up here. There's a lack of
2 Spanish-speaking voters. So if you could
3 please speed up the process so that way we can
4 get adequate translators at these locations.
5 Thank you.

6 REPRESENTATIVE WEATHERFORD: Thank you,
7 sir.

8 Ms. Nita Crawford is next, and following
9 Ms. Nita is C. J. Thompson.

10 MS. CRAWFORD: Good afternoon. I
11 represent Baker County as Supervisor of
12 Elections, and I would like to concur, first of
13 all, on what Chris, Supervisor of Elections of
14 Clay County, and Tammy, Assistant Supervisor of
15 Nassau County, had to say about the election
16 laws and how -- I know you've got a big job
17 ahead of you, but if there is anyway that you
18 can get your job completed in time to give us,
19 all of the Supervisors of Elections in Florida,
20 significant time to do our job, we would
21 appreciate it.

22 And also, I also concur with the other
23 members here representing Baker County that if
24 we could be left one district, then that way I
25 would not have to go back to Jim Anderson, our

1 county commissioner, and ask for more funds. I
2 would appreciate that.

3 And I would like to thank you again for
4 coming out and letting everyone give their say,
5 and you being patient and listening to
6 everyone. Thank you so much.

7 REPRESENTATIVE WEATHERFORD: Thank you,
8 Ms. Crawford, and thank you for your public
9 service to Baker County and the State of
10 Florida.

11 We have C. J. Thompson up next, and
12 following C. J., we have Mr. Larry Dixon.

13 Mr. Thompson, thank you for being here
14 today.

15 MR. THOMPSON: Thank you, Mr. Chairman. I
16 will keep it brief.

17 Like my fellow Baker County citizens, we
18 would -- obviously first we would like to keep
19 our current representation, if at all possible;
20 however, if changes are necessary, we ask that
21 we maintain our single representation and be
22 grouped with similar small, rural counties.
23 Thank you again for your time.

24 REPRESENTATIVE WEATHERFORD: Thank you
25 very much.

1 Mr. Larry Dixon is next, and then after
2 Mr. Dixon -- I am probably going to butcher
3 this name, but it is Doug Conkey, I believe. I
4 hope I have said that right. I got a thumbs
5 up, I said it right.

6 Mr. Dixon, you are first. Thank you for
7 being here, sir. You are recognized.

8 MR. DIXON: Thank you. I just want to say
9 that obvious in this process and all of the
10 difference of opinions, we are going to end up
11 with a bride and a bridesmaid, but hopefully,
12 you know, we can find some common ground in
13 this entire process. I think -- I am going to
14 be very brief. I have just three things I
15 think should be taken into consideration.

16 First, I want to thank you for the
17 transparency of this process. I think it is
18 important for everybody to be able to come
19 together and give their opinions in terms of
20 how the redistricting should take place.

21 I also think that it is important that you
22 do take time to get it as right as possible.
23 Obviously, it is a thing that everybody have an
24 opinion, different opinions, but I think it is
25 important that enough time is given to the

1 process that you can do it in the most
2 expedited time, but yet in fairness also to the
3 process.

4 And then lastly, I think one of the common
5 threads we hear individuals speaking of is
6 community. People want to stay connected in
7 terms of how you go about the redistricting
8 process. I think most people will find that
9 when you look east to west to your neighbors,
10 you develop a greater bond than sometimes going
11 too further north to south.

12 I think that you are doing an excellent
13 job of taking time to listen to the people
14 before you start drawing. I think that it is
15 going to impact the way you draw because you
16 took the time to listen to the people. So I
17 just want to thank you again for allowing me to
18 share my thoughts and continue to make the
19 process transparent in whatever way necessary.

20 REPRESENTATIVE WEATHERFORD: Thank you,
21 sir.

22 Next speaker is Mr. Doug Conkey, and then
23 following Mr. Conkey we have Jay McGovern.

24 COMMISSIONER CONKEY: Thank you for
25 allowing me to be here, and to the gentleman

1 who offered the universities to help, I will
2 offer up the naval academy to help in that
3 service.

4 I want to thank you for your service and
5 for taking the time to reach out to the public
6 and provide opportunities for verbal feedback
7 and electronic feedback, as we have seen. Your
8 task is daunting, to say the least, given your
9 mandate to follow federal law, state law, and
10 traditional principles.

11 In northeast Florida, as with our state,
12 there has been much growth over the last
13 decade, especially in the outlying counties
14 surrounding Duval, such as Clay County. Such
15 exercises, like the First Coast Reality Check,
16 reveal the desire to have multiple growth
17 centers or job centers, so to speak. In this
18 growth, you have transitions of urban to
19 suburban to rural. With budding economic
20 engines such as Jax Port and the Cecil Airport
21 and their connections to other growth centers,
22 are they better represented by one or two
23 champions or several that may have to learn
24 multiple interests due to population and other
25 directives impacting their district size?

1 You can build areas of expertise such as
2 rural experts, suburban experts and urban
3 experts, along with economic engine experts.
4 This will help compact some areas, while other
5 areas may grow, such as a rural area. That
6 person becomes the rural area champion.

7 This has worked well in Clay County, for
8 the most part. In Clay, we are represented by
9 seven representatives -- seven Legislators, two
10 Senators and five Representatives, and they are
11 all wonderful. Would we be better served with
12 just two or three to become our experts or
13 champions while trying to operate within the
14 checklist constraints of the federal law,
15 Florida Tier I and II law, and traditional
16 principles? Not sure, but it would be worth a
17 look from the input that we are getting today,
18 and also from the taking into account the
19 possible inter-jurisdictional impacts you have
20 in other counties or possible growth centers.

21 I will say our current legislators have
22 been wonderful and professional, and I truly am
23 thankful for their service and dedication to
24 the citizens of Clay County and the State of
25 Florida. I want to thank you again for your

1 service and this opportunity to speak, and,
2 again, I want to thank all veterans and those
3 who currently serve who protect our freedoms to
4 allow us and do and exercise these rights, so
5 thank you again.

6 REPRESENTATIVE WEATHERFORD: Thank you,
7 Commissioner. Thank you, and thank you for
8 your public service to the State of Florida.

9 Mr. Jay McGovern is next, and after
10 Mr. McGovern, we've got Clifford Johnson.

11 You are recognized, sir.

12 MR. McGOVERN: Thank you very much.
13 Thanks for coming.

14 I would like to point out that this
15 listening tour is the minimum required by law,
16 and of our leaders, of which most of us count
17 you, we expect more. We expect you to do more
18 than the minimum. As Doug was talking about,
19 we have men and women serving all over the
20 world who today are not doing the minimum that
21 was asked of them, they are doing so much more
22 than that, and we expect you to do the same
23 thing.

24 My second point is to stop fighting us
25 with our own money. We overwhelmingly approved

1 Amendments 5 and 6. We want you to follow
2 them.

3 Third point is you have talked about there
4 is no gag order, but your prompt end to this
5 hearing is in effect a gag order. Your not
6 showing us map is effectively a gag order. So
7 we really need you to do your jobs. We are
8 paying you for that.

9 And my fourth and last point is the
10 committee, by not speaking, is suggesting that
11 this whole issue is about black versus white,
12 and it is not. We don't see it that way. What
13 we see, the 800-pound gorilla in the room is
14 that it is about power and it is about
15 incumbents clinging to theirs.

16 The districts can be drawn, the districts
17 can be drawn responsibly, taking into account
18 the Voters Rights Act, but they just may not be
19 drawn so overwhelmingly for re-electing the
20 incumbents. So we really need you to get on
21 with drawing fair districts in accordance with
22 our Constitution, as amended. Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you,
24 Mr. Johnson.

25 Next up we have Robert Henning with the

1 National Association of Letter Carriers,
2 followed by Joan Carver with the League of
3 Women Voters.

4 Mr. Henning, you are recognized, sir.

5 MR. HENNING: Thank you, Mr. Chairman.

6 A couple things that -- the Legislature
7 plans to pass district maps at the end of 2012
8 session. According to this timeline, new
9 district maps will not be finalized and
10 approved before qualifying for the 2012
11 elections closes, which closes on June 8th, and
12 they may not be finalized until August. This
13 means that the voters will be voting for
14 candidates they have little opportunity to get
15 to know.

16 One of the -- I represent 1,100 letter
17 carriers in northeast Florida. Every one of
18 those congressional districts over there, I
19 have letter carriers in that we have to visit
20 on issues. I can't speak on the redistricting
21 or maps without the maps. That is what the
22 voters asked for. We want to see the maps
23 before we can informatively talk on it. Thank
24 you.

25 REPRESENTATIVE WEATHERFORD: Thank you,

1 sir.

2 Next up we have Ms. Joan Carver with the
3 League of Women Voters, and then after
4 Ms. Carver is Alberta Espie.

5 You are recognized.

6 MS. CARVER: Mr. Chairman and members of
7 the committee, I am here to urge you to draw
8 the new Florida House and Senate districts and
9 the congressional districts without
10 consideration of protection of incumbents and
11 for partisan advantage. I might note that most
12 of our peer democracies that use single member
13 districts select their legislators through a
14 neutral commissioner.

15 Gerrymandered districts have long been one
16 of the things Americans like least about their
17 government. They have good reason for this
18 dislike. For elections and the resulting
19 governing bodies to have legitimacy, elections
20 should be fair. If elections are to have
21 legitimacy, they should reflect the divisions
22 within the state.

23 A review of recent election results in
24 Florida indicates that this is not the case
25 currently. In recent statewide elections, the

1 parties' candidates have divided fairly evenly.
2 In the last three presidential elections, for
3 example, Gore and Bush had virtually the same
4 number of votes, Kerry and Bush were just five
5 percentage points apart, while Obama received
6 50.9 percent of the vote. In the recent
7 gubernatorial election, the difference between
8 Alex Sink and Governor Scott was one percent of
9 the vote, 48.7 percent to 47.7 percent. Yet
10 the Florida House and Senate have veto-proof
11 Republican majorities, 28 of the Senate seats
12 -- of the 40 Senate seats, and 81 of the 120
13 House seats. We find a similar situation in
14 the congressional delegation with 19 of 25
15 seats being held by Republicans. The
16 difference between statewide votes and those by
17 districts suggest Florida is among the least
18 fairly apportioned states currently.

19 Elections have consequences, and
20 gerrymandered districts, beyond casting doubt
21 on the fairness of the process, can lead to
22 several electoral and policy results. Such
23 districts squelch the development of a healthy
24 opposition, important to real democracy. Who
25 wants to run in an election in which you know

1 you have little chance of winning?

2 It also can lead to Legislators who do not
3 engage in that key component of politics:
4 Negotiation and compromise. If you do not have
5 to take account of the opposition in the
6 district election, you don't have to take
7 account of them in policy terms. In fact, it
8 may be a disadvantage to do so, because this
9 could anger your key supporters. Result: The
10 kind of stalemate found today in Minnesota.
11 If, however, you have a veto-proof majority, as
12 is the case in Florida today, policies may be
13 enacted that are more extreme than most of the
14 state desires.

15 Thus, for fundamental fairness and to
16 follow the mandate of the electorate in
17 Amendments 5 and 6, I urge you to make Florida
18 a model of fair reapportionment by drawing the
19 lines for state and legislative and
20 congressional districts without favoring
21 incumbents or political parties. Thank you
22 very much.

23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much.

25 Alberta Espie is next with the League of

1 Women Voters, and following Ms. Espie is Hanson
2 Gabriel.

3 You are recognized.

4 MS. ESPIE: I want to say thank you to the
5 Senate that made District Builder available. I
6 signed up and I already got an answer that I
7 can play with maps, too. That will be fun.

8 I am a minority. I might -- no, I am not
9 a minority, I am the majority. However, the
10 voter registration in the state of Florida is
11 46 percent Democrat, twenty -- 39 something
12 Republican, and growing, growing, the non-party
13 participation is 21 something percent. But our
14 state Legislature is -- got majorities for the
15 Republican party that are veto-proof. They can
16 do anything they want. And so I am a minority
17 because I am a Democrat and I have no -- the
18 Democrats that represent me have no chance to
19 do anything with the Governor. Nothing the
20 Governor wants -- anything the Governor wants
21 is passed, and I have very little voice. So we
22 do need fair districts.

23 One other point: We talked about --
24 several people mentioned all the states that
25 have already done it. Florida is hamstrung by

1 the fact that Florida's Constitution says that
2 you can't do it until the second year after,
3 you can't do it until next year. However, as
4 the President of the League of Women Voters
5 pointed out, you can do it in 2011 and act at
6 the very beginning of 2011, and that I beg of
7 you to do because -- well, so many people have
8 said it is so unfair, unfair to the military
9 and others who live abroad, just unfair to any
10 candidate. My party has not run in elections
11 because they -- in many districts because they
12 know that it is a Republican district, period.
13 I don't want it all to be Democrat, but I want
14 it all it be fair. Thanks.

15 REPRESENTATIVE WEATHERFORD: Thank you.

16 Next up we have Mr. Hanson Gabriel with
17 the Sierra Club of Northeast Florida, followed
18 by Rod Morrill with the Concerned Taxpayers of
19 Duval County.

20 You are recognized, sir.

21 MR. GABRIEL: Thank you very much. I have
22 been most active with the Sierra Club on the
23 Legislative Advisory Committee, which is the
24 statewide group that works with our lobbyist,
25 Dave Cullen, at the Florida Legislature. We

1 worked hard last year, along with several other
2 groups that we cooperated with, including the
3 League of Women Voters, to see that the issues
4 of our concern were paid attention to in the
5 Legislature, and I must say the outcomes were
6 terribly, terribly disappointing and a major
7 setback.

8 Now, I am -- all my life have been more of
9 a good government person than an
10 environmentalist, although I have been an
11 environmentalist all my life as well. I am
12 convinced through experience that you cannot
13 separate good government from good development
14 policy and good environmental policy, and that
15 is why I favor and worked for Amendments 5 and
16 6, and I am hoping that you will step up to
17 your responsibility and follow both the letter
18 and the spirit of the state law and these
19 amendments in the process of redistricting.
20 Thank you very much.

21 REPRESENTATIVE WEATHERFORD: Thank you,
22 sir.

23 Next up we have Rod Morrill with the
24 Concerned Taxpayers of Duval County. After
25 Mr. Morrill, we have Deborah Courtney.

1 Thank you for being here, sir.

2 MR. MORRILL: Good afternoon, and I
3 prepared for this, and like so often when I go
4 before government bodies, I wind up rewriting
5 everything I am going to say by the people that
6 precede me, and this certainly is one of those
7 cases. So many times I have heard today, "This
8 beach is God's country." No, this country is
9 God's country, and I am going to tell you
10 something else, this country is my country, the
11 taxpayers' country, and that is who owns this
12 country. And the -- soon as the politicians
13 find out that they are the employee and not the
14 employer, we will get along a lot better.

15 The next thing, we talked about diversity
16 and the voting rights and so forth. I would
17 like to welcome you to someone that maybe you
18 can use as an example. Jacksonville and Duval
19 County is an extremely diverse location. We
20 have urban, rural, suburban, and racial
21 diversity like you won't find in too many other
22 places, and yet look at our elected officials,
23 look at the people that are in the community
24 and see how exactly diversely we are
25 represented here in Duval County. And you know

1 what, we didn't have to zig and zag and change
2 any boundaries to accomplish that. We just had
3 to involve the voters and get out in front of
4 the voters and win their respect. Then
5 equality works.

6 The other thing I would like to remind
7 you, that the Superintendent of Elections have
8 been repeatedly here, and they know how to set
9 up the districts. That is what they do.
10 Listen to them, listen to the boundaries, the
11 geographic boundaries, the voting boundaries.
12 They have been doing this, they have been
13 shuffling this for years. They know how. How
14 many months have you spent doing that? Listen
15 to them, follow those boundaries. They take
16 into consideration the groups, the people, the
17 geography, the importance of how you are
18 drawing the lines. When you decide that you
19 know better how to do something than the people
20 that do it, you've got your shoes on backwards.

21 Again -- again, this is my country. We
22 are the people. We develop and govern the
23 government, and for the government to sue the
24 citizens is one step away from democracy and a
25 Republican.

1 You had John Libby here that took the time
2 to develop the districts. You had someone say,
3 what about the universities, why aren't you
4 putting task force out to start volunteering
5 these maps and publicizing the maps that you
6 receive? You have the websites, I have been on
7 those, the district programs. You needed to do
8 a little better PR on those availabilities, and
9 you need to have meetings like this more often
10 than every ten years. Maybe you should come
11 and listen to us just a little more often than
12 once every ten years. That would help you do
13 your job. Thank you.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much, sir.

16 Next up we have Deborah Courtney and Kevin
17 Hanley, I believe. I may be saying that
18 incorrectly, but Ms. Courtney, nonetheless,
19 thank you so much for being here. You are
20 recognized to speak.

21 MS. COURTNEY: Thank you, and good
22 afternoon, and I am a resident of Jacksonville
23 Beach. And ten years ago I stood before a
24 panel of Legislators at the last public hearing
25 on redistricting, and at that time, I asked the

1 leader of that panel, Stan Jordan, to make sure
2 that the Legislature ends gerrymandering and
3 draws the districts fairly, and he assured me
4 that the Legislature would do just that.

5 Well, this is an example of what I got for
6 my efforts. This is my Congressional District
7 4, which essentially stretches from
8 Jacksonville to Tallahassee. It spans
9 180 miles. And I would like to know what
10 Jacksonville and Tallahassee have in common.
11 So it makes a lot more sense to me to keep the
12 districts community based, and I really hope
13 that this time that this Legislature will do a
14 better job than they did last time.

15 And so here I am again asking the same
16 question, asking for you to please end the
17 gerrymandering and to draw the districts
18 fairly. But I do have to admit that I am a
19 little confused, because on the one hand, you
20 are doing such wonderful things, like you are
21 having these public hearings and you have the
22 software that I saw out in the hallway and you
23 are allowing citizens to submit their own
24 drawings, and that is all wonderful. And then
25 on the other hand, this same Legislature is a

1 party to the lawsuit against Amendments 5 and
2 6, which require the fair districting. So it
3 really makes me wonder about your commitment to
4 actually drawing the districts fairly. And I
5 would urge you to drop this lawsuit and listen
6 to the will of the voters and draw the
7 districts fairly like 63 percent of the people
8 of Florida do -- I mean want you to do.

9 So thank you so much for your time, and
10 just please know that the citizens of Florida
11 will be watching you.

12 REPRESENTATIVE WEATHERFORD: Thank you.

13 I apologize on this last name, but I
14 believe it is Kevin Hanley. Kevin, St.
15 Martin's Drive. I think we found him. After
16 Kevin, we've got Jacqui Lowe, okay. Jacqui,
17 you are recognized, and we will try to find
18 Kevin.

19 After Jacqui, we have Jeff Burgess, who is
20 a concerned citizen.

21 Jacqui, you are recognized. Thank you
22 very much.

23 MS. LOWE: Thank you. My name is Jacqui
24 Lowe, and I am a resident of Duval County. I
25 have been a resident for about 14 years. Thank

1 you so much for giving us the opportunity to
2 have our voices heard today. We appreciate all
3 of the open and honesty that you have allowed
4 us into giving us a little bit of insight into
5 what goes into drawing these maps. I
6 understand and appreciate the arduous task that
7 you have in front of you.

8 That being said, it feels like we are
9 putting the cart before the horse without
10 having an opportunity to see anything. I ask
11 that since Amendments 5 and 6 passed with over
12 63 percent of the vote, and is now law and
13 embedded into our Constitution, that we move
14 forward in a continued open and transparent
15 fashion, and that the maps are drawn in a
16 timely manner so that constituents and the
17 people that we are going to elect know who they
18 are running for and what they are supporting.
19 Thank you.

20 REPRESENTATIVE WEATHERFORD: Thank you.
21 Ladies and gentlemen, we have got about six or
22 seven minutes left. We are going to go right
23 up until four o'clock, and instead of allowing
24 members of the committee and Senator Gaetz and
25 others to address some of the issues, what we

1 are going to do is try to get through as much
2 public testimony as we can. There will
3 probably be 10 or 15 cards that we will not get
4 to that we will come back to at six o'clock, we
5 will hear from them and then we will also have
6 time, hopefully, for members of the committee
7 and my co-Chairman, Senator Gaetz.

8 So with that, Mr. Burgess, you are up
9 next. Following Mr. Burgess is Leslie Giller.
10 Jeff Burgess.

11 No, ma'am, not right now. We have six
12 minutes left, and we are going to try to hear
13 -- I -- ma'am, yes, we will try to do that, we
14 will try to do that, but first we are going to
15 hear from Mr. Burgess if he is here.

16 Mr. Burgess, are you here, sir? Okay,
17 Mr. Burgess is not here.

18 Leslie Giller. Ms. Giller, you are
19 recognized to speak. Thank you for being here.

20 MS. GILLER: Thank you. My name is Leslie
21 Giller, and I would like to address what was
22 said in the introduction, which made it sound
23 like to the public that you all weren't allowed
24 to have published the maps or the projected
25 maps until after the first of the year, and

1 that is incorrect. You could have had the maps
2 earlier, and these meetings, frankly, should
3 have been held earlier so that you could have
4 had public input, and we should be looking at
5 the maps now. And then you need to have
6 commentary about what we think about the maps.
7 So I object to how it was presented when we
8 started out where it was said that our
9 Constitution prevents you from being able to
10 have the maps at this point in time. That is
11 simply incorrect.

12 I wanted to also say that I am a white
13 woman who is in support of the Voting Rights
14 Act and is in support of the law, and that is
15 Amendments 5 and 6, which it stands now. And I
16 also do not appreciate that my government is
17 suing me for a law that has passed, and, you
18 know, when I don't like a law that is passed, I
19 obey it, but I might also try to work to do
20 something to have the law changed. That is
21 your all's business the next time you meet in
22 the Legislature. If you want to try to amend
23 the Constitution out of what we've passed as
24 citizenry, then that is your prerogative, but
25 you don't have the right to try to change the

1 law and use my money to sue me to get the law
2 changed.

3 The other thing in supporting diversity,
4 because diversity is a strength, and I don't
5 think you will ever find somebody that will say
6 that diversity is not a strength, and we have
7 diversity in our state, whether it is race,
8 whether it is sex, whether it is age, whatever
9 or not you want to say, whether it is religion,
10 we can name off all the projected classes, but
11 if the districts are drawn properly and the law
12 is followed, then the state Legislature will
13 reflect the diversity of our state. And in the
14 same percentage of existence, the same
15 percentage of diversity that is in Florida will
16 also be in the Legislature. Then you know you
17 have done the job right.

18 So please follow Amendment 5 and 6.
19 Please follow the Voting Rights Act. Thank
20 you.

21 REPRESENTATIVE WEATHERFORD: Thank you
22 very much.

23 Ladies and gentlemen, what we will do,
24 because we do understand there will be some
25 folks who cannot come back, we are not going to

1 get to all the cards. We are hoping if your
2 name has not been called, that you will come
3 back for the six o'clock hearing. We have run
4 out of time for this hearing; however,
5 Ms. Bruno actually made a good point, which was
6 to allow a member of the committee to address
7 some of the concerns that were brought up
8 today. I would like Senator Gaetz, who is
9 co-Chair of the committee, to take just a few
10 minutes to do that.

11 Senator Gaetz, you are recognized.

12 SENATOR GAETZ: Thank you very much,
13 Mr. Chairman, and there will be an opportunity
14 after we hear from everyone who wishes to speak
15 at the second part of our hearing for any
16 member to comment, to offer any proposals, and,
17 of course, any member, any legislator, any
18 special interest group, any citizen, and we saw
19 that with Mr. Dixon, can offer any map, any
20 proposal, at any time.

21 The first question that I would like to
22 respond to -- and I am not going to be -- try
23 to debate those who provided information,
24 because the information today was so hopeful
25 and relevant, but just in terms of providing

1 some information that would assist in a little
2 bit of perhaps fact-checking. First of all,
3 the question was asked, will the Legislature
4 follow the Fair Districts amendments to the
5 Constitution. The answer is, they are in the
6 Constitution, we have sworn an oath upon taking
7 office to preserve, protect and defend the
8 Constitution of the United States and of the
9 State of Florida, and so we will. But as you
10 have seen today, there are differences
11 expressed in how those legal standards, which
12 seem so simple when they roll off the tongue,
13 there are differences expressed in this
14 audience today about how those standards ought
15 to be applied to communities, to counties, to
16 geographic barriers, someone talked about
17 growth centers, so that is why we need to
18 listen to your views and not just presume that
19 we know.

20 Secondly, as to timing, and Mr. Chairman,
21 as was noted at the beginning of the meeting,
22 the timing for the drawing of maps and the
23 voting on maps is set out in our Constitution.
24 If our Fair District friends wanted to change
25 the timing so that we could vote on maps

1 earlier than 2012, they could have included
2 that in the Fair Districts amendment. They
3 didn't. So we are -- you know, there are many
4 of us who have ideas now as we have heard from
5 voters, maybe people on this committee want to
6 propose maps, like Mr. Dixon has, but we are
7 obliged to follow the Constitution.

8 Now, there's been some suggestion that no
9 voting can occur until March on maps. That is
10 simply not true. We can vote as soon as there
11 are maps presented. The League of Women
12 Voters, for example, ten years ago presented
13 maps. So far they have decided not to. We
14 hope they will. Any group can present a map,
15 and it can become the focus or locus of a bill
16 that then can be voted on. We don't have to
17 wait until March to vote. We can vote as soon
18 as there are maps that are available, and we're
19 already getting maps presented to us.

20 One gentleman said, and I think rightly
21 so, that we ought to look to our universities.
22 We have. Florida students attending Columbia
23 University have already proposed maps, and
24 those maps are on our website.

25 Another individual said, "Gee, if you are

1 getting maps that are proposed, they need to be
2 shown to the public." They are. If you go to
3 Flsenate.gov/redistricting, you will see all of
4 the maps that have been proposed, including
5 Mr. Dixon's that has been proposed today.

6 Community college students, state college
7 students, university students have already
8 indicated that they are working on or will
9 present maps, so our universities have been
10 invited, and we would like to invite today the
11 University of North Florida to present any maps
12 that they would like to present.

13 Mr. Chairman, there has been some
14 suggestion that there is a gag order. Those
15 who would like to stay to the end of the
16 hearing, we will want to hear from the public
17 first, not politicians first, but those who
18 want to stay until the end of the hearing,
19 Mr. Chairman, we are going to give an
20 opportunity for any member of the committee to
21 react to any of the testimony that we have
22 heard today.

23 Finally, Mr. Chairman, there's been a
24 suggestion from three Supervisors of Elections
25 that there will be -- could be problems with

1 ballot printing and distribution if the Supreme
2 Court of Florida, if the Federal Justice
3 Department, take all the time that they are
4 allowed under federal and state law. We hope
5 they don't. We hope they will take the advice
6 that you are giving us, and that is as soon as
7 proposals are received, to act in an
8 expeditious fashion, in a thoughtful fashion,
9 but in an expeditious fashion. Members of
10 these two committees work together to pass
11 legislation, making it possible for our
12 overseas citizens, whether they are in uniform
13 or not, to be able to use the overseas absentee
14 ballot to make sure that their votes get
15 counted. So every effort will be made to
16 ensure that overseas voters are included, and
17 the Supervisors of Elections' information and
18 their testimony today was well-taken,
19 well-spoken, but there is no reason why our
20 federal and state courts have to take
21 100 percent of the time that they are allowed
22 to take, and we certainly will -- will begin to
23 entertain proposals, in the Senate, and I am
24 sure, Mr. Chairman, you will in the House, as
25 soon as any member presents any plan or any

1 (Whereupon, the six o'clock session of the
2 redistricting committee convened.)

3 REPRESENTATIVE WEATHERFORD: If we could
4 get everyone's attention, please, to grab a
5 seat, we would like to start. Please grab a
6 seat. Lake Ray, if we could get the meeting
7 started. You always have to embarrass one
8 person.

9 Okay. Ladies and gentlemen, if we could
10 get everyone's attention. I know that we still
11 have people filtering into the room. Feel free
12 to grab a seat. We appreciate everyone being
13 here.

14 The Joint Senate/House Redistricting
15 Hearing is now called back into order. We had
16 meetings from two to four o'clock and had a
17 packed house and got a lot of great public
18 testimony, and we are excited about hearing
19 from you as well, and I think we have some
20 familiar faces from the earlier meeting, and we
21 welcome you back.

22 We first want to say thank you to Florida
23 State College for opening up this wonderful
24 facility, we are grateful for them and their
25 hospitality, but we also want to say thank you

1 to those of you who have taken time to be here
2 this evening to share with us your thoughts and
3 your ideas about what the state of Florida
4 should look like and what the districts should
5 look like. So thank you very much for being
6 here.

7 My name is Will Weatherford, and I
8 represent House District 61 down in Wesley
9 Chapel, which is in Pasco County, and I,
10 alongside with my co-Chair, Senator Don Gaetz
11 from the Panhandle, I will be Chairing today.
12 This entire process will be webcast on the
13 Florida Channel and over the Internet.

14 Our sole purpose here today is to hear
15 from you. It is to hear from you and to give
16 you an opportunity to give us feedback, to give
17 us input, and to make sure that this process is
18 open and transparent when it comes to public
19 input.

20 It is also important that we keep an
21 accurate public record of all attendees and
22 speakers. So we would ask that you -- you may
23 also opt to join our e-mail list so that we can
24 keep you informed about how the redistricting
25 process is working over the next several

1 months.

2 If you have not signed in, please raise
3 your hand, and a staff member will give you an
4 attendance card. Also, if you wish to speak
5 today and you have not filled out an attendance
6 card, please raise your hand, and we will make
7 sure that we get you a card to fill out so that
8 you can speak.

9 With that, I would like to just take a few
10 moments -- I know we have some new faces in
11 here, and I would like to take a few moments to
12 allow the members of the committee to introduce
13 themselves and let you know who they are and
14 the district that they represent within the
15 state of Florida. So, Chairman Gaetz, if you
16 could maybe kick us off and pass the mike.

17 SENATOR GAETZ: Sure. My name is Don
18 Gaetz. I am a state senator from the Panhandle
19 of Florida, the other side, northwest Florida,
20 coastal northwest Florida, and along with
21 speaker designate Weatherford, I Chair the
22 Senate Reapportionment Committee as he Chairs
23 the House Redistricting Committee.

24 Senator John Thrasher is here. He will be
25 back in a moment, he is doing an interview with

1 a Jacksonville TV station, but Senator Thrasher
2 represents northeast Florida and many of you
3 are very familiar with him.

4 REPRESENTATIVE HOOPER: Good evening,
5 everybody. I am Ed Hooper from Clearwater,
6 House District 50, and to speed the meeting
7 along, everyone here has great beaches and they
8 are all tied for number one.

9 REPRESENTATIVE FRISHE: I am
10 Representative Jim Frishe from Pinellas County,
11 and I do represent all the beaches in Pinellas
12 County, and I am the majority whip of the
13 Florida House.

14 REPRESENTATIVE ADKINS: Hi, my name is
15 Janet Adkins, and I represent Florida House
16 District 12, which is Nassau, Baker, Bradford,
17 Clay, Union and Duval, and thank you all so
18 much for coming out tonight.

19 SENATOR MONTFORD: I am Bill Montford from
20 Senate District 6, 11 counties, Tallahassee is
21 the center, everything around Tallahassee.
22 Glad to be here.

23 REPRESENTATIVE McBURNEY: I am Charles
24 McBurney. I represent District 16, which is
25 the great City of Jacksonville, Florida.

1 REPRESENTATIVE FORD: Clay Ford,
2 Representative from District 3, Pensacola, the
3 other end of the state.

4 SENATOR DEAN: My name is Charlie Dean, I
5 am State Senator for District 3. Start over
6 here at the county line in Baker County, go to
7 the courthouse, the Capitol steps on Monroe
8 Street, south to 98 and 19, and south central
9 Florida, I represent all or part of 13
10 counties. But the most important thing I
11 forgot to tell you a while ago this morning, we
12 were here this afternoon, and that's the fact
13 that I was born in Jacksonville.

14 SENATOR LYNN: Senator Evelyn Lynn. I
15 represent District 7, Clay, Marion, Putnam and
16 Volusia Counties, and it is very impressive to
17 see the crowds that we have here, not only this
18 afternoon, but tonight especially.

19 REPRESENTATIVE KIAR: Hello, everybody, my
20 name is Martin Kiar. I represent District 97
21 in the Florida House of Representatives, which
22 is located solely within Broward County. Thank
23 you so much for coming out tonight.

24 REPRESENTATIVE JULIEN: Good evening,
25 everyone. My name is John Patrick Julien. I

1 represent House District 104, which is in
2 Miami-Dade County, and it is a pleasure to be
3 here and it is great to see you all, looking
4 forward to hear what you have to say.

5 REPRESENTATIVE HUKILL: Hi, I am Dorothy
6 Hukill. I represent District 28, which is
7 parts of Volusia County, southeast and
8 southwest Volusia County, and I am so happy to
9 be here and grateful that all of you could come
10 out and talk to us tonight.

11 REPRESENTATIVE YOUNG: Hi, I am Dana
12 Young. I represent House District 57, which is
13 the City of Tampa and parts of Hillsborough
14 County. Thank you all for being here. We look
15 forward to hearing from you.

16 REPRESENTATIVE SCHENCK: Rob Schenck.

17 REPRESENTATIVE DORWORTH: He is from
18 Spring Hill on the west coast.

19 I am Chris Dorworth. I am from Orlando,
20 Florida, Seminole County and Orange County.
21 Thank you very much.

22 SENATOR BRAYNON: I am Senator Oscar
23 Braynon. I represent the central area of
24 Miami-Dade County, District 33.

25 REPRESENTATIVE RAY: Good evening, I am

1 Representative Lake Ray from Jacksonville,
2 District 17. It is great to see everybody out,
3 and I, of course, welcome my colleagues to
4 Jacksonville this evening. Thanks for being
5 here.

6 SENATOR HAYS: I am Alan Hays from Senate
7 District 20, which is parts of five counties:
8 Volusia, Seminole, Lake, Sumter and Marion
9 Counties.

10 REPRESENTATIVE THURSTON: Good evening,
11 everybody. I am Perry Thurston, District 93,
12 and that is Ft. Lauderdale, Florida. Looking
13 forward to hearing from you.

14 REPRESENTATIVE WEINSTEIN: I am Mike
15 Weinstein, House District 19, the privilege of
16 representing Duval, Clay and St. Johns
17 Counties.

18 REPRESENTATIVE BERNARD: Good evening,
19 State Representative Mack Bernard, District 84
20 in West Palm Beach, Florida.

21 REPRESENTATIVE ROGERS: Good evening, I am
22 Hazelle Rogers representing District 94 in
23 Broward County, I would say eight cities in
24 central Broward County, one of the most diverse
25 counties, a million point eight nine -- 1.89

1 million folks in my -- in Broward County.
2 Looking forward to hearing from you. Thank
3 you.

4 REPRESENTATIVE REED: Good evening, I am
5 State Representative Gwyndolen Clarke-Reed,
6 representing House District 92 in Broward
7 County, which is the northeast part of Broward
8 County from Deerfield Beach down to Victoria
9 Park, Ft. Lauderdale. Good evening.

10 SENATOR EVERS: State Senator Greg Evers,
11 I represent District 2, which encompasses
12 Escambia, Santa Rosa, Okaloosa, Walton,
13 Washington and Holmes and a little bit north of
14 Bay County, so it is known as the great
15 northwest, as far north, far away as you go in
16 Florida without being in Alabama. Thank you.

17 REPRESENTATIVE GOODSON: Good evening, my
18 name is Tom Goodson, House seat District 29,
19 which is in Brevard County from Mims to St.
20 Lucie County. Thank you for coming.

21 REPRESENTATIVE DRAKE: Brad Drake, I
22 represent the Fifth House District, central
23 time zone, Okaloosa, Walton, Holmes,
24 Washington, Jackson.

25 REPRESENTATIVE TRUJILLO: Good evening, my

1 name is Carlos Trujillo, I represent southwest
2 Miami-Dade County.

3 REPRESENTATIVE DAVIS: Good afternoon,
4 Daniel Davis. I represent Duval County and
5 Clay County.

6 REPRESENTATIVE CORCORAN: Richard
7 Corcoran, I represent Pasco and Pinellas
8 Counties.

9 REPRESENTATIVE LOGAN: Ana Rivas Logan, I
10 represent southwest Miami-Dade.

11 REPRESENTATIVE JONES: Good evening, State
12 Representative Mia Jones representing District
13 14, north and west of the city, and thank you
14 all so much for being here and showing your
15 commitment to being a part of the process.

16 REPRESENTATIVE FULLWOOD: Good evening,
17 Reggie Fullwood, representing Jacksonville,
18 District 15. Again, thank you for being here
19 tonight. We really appreciate your input.

20 REPRESENTATIVE CALDWELL: Good evening,
21 Representative Matt Caldwell, District 73 down
22 in southwest Florida, Lee County.

23 REPRESENTATIVE BOYD: Hi, I am Jim Boyd,
24 State Rep from District 68, which is Manatee
25 County, just south of Tampa on the south side

1 of Tampa Bay. Thanks again for coming tonight.

2 REPRESENTATIVE PASSIDOMO: Kathleen
3 Passidomo, House District 76, Collier County.
4 I represent the City of Naples, City of Marco
5 island, City of Everglades City and a gazillion
6 alligators.

7 REPRESENTATIVE CHESTNUT: Good afternoon,
8 Chuck Chestnut, House District 23, a portion of
9 Marion County and a portion of Alachua County.

10 REPRESENTATIVE TAYLOR: Good evening,
11 everyone. My name is Dwayne Taylor. I
12 represent House District 27, which is in
13 Volusia County. I am from Daytona Beach where
14 we have the world center of racing and the
15 world's most famous beach.

16 REPRESENTATIVE NEHR: My name is Peter
17 Nehr, and I represent Pinellas County and Pasco
18 County.

19 REPRESENTATIVE WEATHERFORD: Okay. Thank
20 you very much, members.

21 Before we go into the public testimony, I
22 would like to ask Senator Gaetz and recognize
23 him to explain how today's hearing fits into
24 the redistricting process and maybe explain a
25 little bit about the process that we are here

1 to do today and how it will be done. Senator,
2 you are recognized.

3 SENATOR GAETZ: Thank you very much,
4 Mr. Chairman.

5 Every ten years, the Legislature is
6 required by the Constitution to redistrict the
7 state based on increases, decreases and
8 movements of population. Our Constitution
9 requires this to be done by the Legislature,
10 not by a commission, not by anybody else. That
11 is because we are elected by you, and you can
12 un-elect us. You can't un-elect somebody who
13 is not elected. So that is why our
14 Constitution sets it up that way.

15 Florida has grown in the last ten years
16 more than other states. So we have picked up
17 two additional members of the U.S. House of
18 Representatives. We will go from 25 to 27
19 members of the U.S. House of Representatives,
20 and also we pick up two additional electoral
21 votes in the presidential election.

22 Now, some parts of our state have
23 increased or decreased disproportionately in
24 population, and many Senate and House districts
25 will have to change, either adding or losing

1 population. There is a chart over there, some
2 of you were looking at it before we started.
3 You can look at it during or after our hearing.
4 And in that chart, you will see the districts,
5 the congressional and Senate and House
6 districts in this area, and by law, how many
7 additional people will have to be picked up in
8 those districts or be lost, be subtracted from
9 those districts. That is because when
10 redistricting is completed, congressional
11 districts must be equal in population and must
12 contain 696,345 people each. It doesn't matter
13 how many counties are covered, doesn't matter
14 how dense the population is, how widespread it
15 is, it must have 696,345 people by federal law.
16 The 40 Senate districts must also be nearly
17 equal at about 470,000 people, and our 120
18 House districts must be nearly equal at about
19 156,700 people.

20 Now, there are displays that are over on
21 my right side that you can see that have maps
22 showing the districts. So those are the
23 district maps. Those are the maps. They are
24 here. You can look at those maps and use them
25 as a take-off point for what is right, what is

1 wrong, what should be changed, where are there
2 aberrations, where are there areas or
3 neighborhoods or communities that are
4 appropriately within a House, Senate or
5 congressional district.

6 Equality of representation is not the only
7 redistricting requirement that we have to meet
8 legally. The laws and the important court
9 cases governing redistricting are explained on
10 the House and Senate websites. Those websites
11 are listed on the redistricting brochure -- the
12 redistricting 2012 brochure that you were
13 offered on the way in. If you didn't get one,
14 you can get one on the way out. That brochure
15 briefly summarizes federal and state laws, and
16 outlines topics on which we really need your
17 input. If you did not get a copy when you came
18 in, there will be plenty on the way out. Our
19 staff has them. The brochure lists the Senate
20 and House websites. These websites are packed
21 with information about redistricting in
22 Florida, including the explanation of all the
23 laws, federal and state, and the court cases
24 governing redistricting. The two websites, the
25 House and Senate, are complementary and will be

1 updated frequently. We hope you will visit
2 them often and leave your comments and your
3 suggestions as well. It is a good way to stay
4 current on how the redistricting process moves
5 forward.

6 The websites also deliver to your
7 fingertips all of the demographic information
8 about the people of Florida, the information
9 that the Bureau of Census gives to us.

10 Someone asked a very good question earlier
11 today, and that was, "Well, why is Florida not
12 finished with its redistricting? It appears
13 like we are just in the process when some other
14 states have already finished." Two answers.
15 One is, first the Bureau of the Census releases
16 census information in groups of states, and
17 Florida is in the very last group, so there are
18 some states that are finished because they got
19 their demographic information, who lives where,
20 months before Florida did.

21 A second reason is because Florida has a
22 much more interactive and open process where
23 you can attend public hearings, you can provide
24 input on the Senate and House websites, you can
25 propose maps of your own communities, your own

1 neighborhoods, your own counties, your own
2 parts of the state or the whole state, and
3 that's never been done before in the United
4 States through an interactive web process, and
5 it is not being done by most other states. So
6 that is -- those are two reasons why this
7 appears to be a more thoughtful process.

8 Before, during and after this hearing,
9 Senate and House professional staff are
10 available to show anybody the simple steps to
11 getting on-line, building districts and
12 submitting a plan now or in the weeks to come.
13 And I am pleased to say that we had a plan
14 submitted earlier today, and while we have been
15 in session today in this committee, three more
16 plans have been submitted by interested
17 citizens or groups around the state. So these
18 websites are working, people are submitting
19 their plans, Legislators are seeing your ideas.

20 Recommendations from citizens and groups
21 of citizens will all be made publicly
22 available. Any plan that is developed by any
23 legislator or any interest group or any citizen
24 will instantly be made available to the public
25 so everybody can see it, everybody can comment

1 on it, criticize it, offer amendments to it or
2 suggestions for how it can be made even better.
3 The submission of proposed plans for your
4 community is the single most effective form of
5 public participation in this redistricting
6 process. The redistricting schedule under
7 which we are operating also raises some good
8 questions that we heard today, and questions
9 which, you know, require factual answers.

10 The redistricting process, the timeline is
11 actually imposed by our state Constitution.
12 Our Constitution does not permit the
13 Legislature to act on legislative maps before
14 the second year after the census; in other
15 words, the Constitution says the Legislature
16 can't vote until 2012. Now, if the Fair
17 Districts folks who proposed a couple of
18 amendments that were passed thought that
19 schedule should be changed, they could have
20 included a change in the schedule, but they
21 didn't. So, factually, we are stuck with the
22 same schedule that we've had before. But that
23 doesn't mean we can't begin working now.

24 So we have accelerated the process as much
25 as possible by moving up the 2012 session of

1 the Legislature from March, when we usually
2 start, to January, and by beginning our
3 statewide hearings five months in advance of
4 the 2012 session.

5 We also can begin committee hearings as
6 soon as September, and we will, and we can
7 begin to hear, debate, discussion, see
8 proposals, anyone, any legislator, any member
9 of the public, any interest group, can propose
10 a map, and it can be discussed and debated as
11 early as September.

12 And there is absolutely nothing that
13 requires that we hold off voting in the
14 Legislature until March. Somehow that's gotten
15 out into the bloodstream, and while March would
16 be the last time we could vote, it is not the
17 first time we can vote.

18 A principle -- it's been suggested that
19 the Legislature ought to draw the maps first
20 and then ask the public to comment on those
21 maps. We believe, frankly, that that puts the
22 answer ahead of the question. We believe there
23 ought to be no preconceptions, no created maps
24 developed by politicians and then handed to you
25 as a *fait accompli*, but rather, public

1 testimony should be free and unrestricted and
2 ought to come first. And I am pleased to say
3 that the head of the Fair Districts group not
4 only agrees with us, but also testified before
5 the House and the Senate saying that no new
6 maps could be drawn or should be drawn until
7 after public hearings have been held. So we
8 are taking the Fair District founder's advice
9 and we are following that advise to the "T" in
10 that regard.

11 Our intent is to use the recommendations
12 made at the 26 public hearings and the input
13 that we are getting already through our
14 Internet sites as the basis for developing one
15 or more options for district maps.

16 We will then discuss those options in open
17 public meetings. You will see all of the
18 options. They will be available on the
19 Internet before the first vote is cast even in
20 committee. And throughout the process, we will
21 solicit additional public comment so that
22 proposed maps can mature with the public
23 involved all before the Legislature approves
24 final maps.

25 And then whatever the Legislature approves

1 is subject to judicial review. We can't simply
2 decide what we want to decide. First we have
3 to follow the Constitution and the laws and the
4 court cases, and then we have to submit
5 anything that comes through the legislative
6 process, Republicans and Democrats, House and
7 Senate working together, everyone with having
8 their own ideas, you having your ideas, all of
9 that when synthesized has to be given to the
10 courts for their approval.

11 Because our purpose today is to hear from
12 you, all of the time taken when I conclude my
13 brief remarks until eight o'clock tonight will
14 be consumed by hearing from the public. We
15 want to hear from you. Anybody who is here
16 from the public and wishes to speak ought to
17 have time to present their testimony.

18 Obviously we want to make sure that the last
19 person who signed up is given the same chance
20 as the first person to offer testimony and to
21 be listened to respectfully without
22 interruption and without argument.

23 Now, after every citizen who is here has
24 had her say or his say, if there is time
25 remaining before our scheduled adjournment, and

1 we hope there will be, then any member of the
2 committee can offer any comments, any
3 rejoinder, any discussion, any proposal, any
4 maps that they wish to offer, any Democrat, any
5 Republican, any House member, any Senate
6 member.

7 Mr. Chairman, I hope this description of
8 our schedule, our process and the method of
9 operation of this hearing will help us be
10 successful this evening.

11 REPRESENTATIVE WEATHERFORD: Thank you
12 very much, Senator Gaetz. Moving forward,
13 before we start the public hearing process, I
14 would like to just mention that we have two
15 distinguished guests with us here. First we
16 have an old friend and -- State Representative
17 Audrey Gibson. Audrey, it is really good to
18 see you. Thank you for being here today. A
19 former colleague to the House.

20 And, of course, we also have -- we also
21 have a dear friend and a -- Congresswoman
22 Corrine Brown, who is here as well. She was
23 here earlier today. We appreciate you being
24 here today, and thank you for your service to
25 the State of Florida and our country.

1 Okay. First up I am going to read two
2 names at a time. The name -- the first name
3 will be the person coming to the microphone
4 right in front of me, and then we will read the
5 next name, who will be the person on deck to
6 speak. We are trying to limit each person to
7 three minutes so that everyone has an
8 opportunity to speak, so please be cognizant of
9 the folks behind you due to the fact that we do
10 have a limited amount of time.

11 First up we have Marsha Dean Phetts, and
12 after Marsha, we have James Howell.
13 Ms. Phetts, thank you for being here. I know
14 that you wanted to speak earlier today, and I
15 apologize that we did not get to you, but we
16 are happy that you are here tonight.

17 MS. PHETTS: I am a resident of Duval and
18 Nassau Counties, Representative Weatherford and
19 Senator Gaetz, as well as the members of the
20 redistricting committee, I am very happy to
21 have this opportunity to share with you the way
22 I feel about the job that you are doing for me.

23 Also, I want to say that many of my
24 neighbors are not here who were here earlier,
25 but because of previous commitments, they are

1 gone on to other things, and I must leave, too.

2 About redistricting, I have heard the
3 speakers, the more than 20 speakers before me,
4 and they talked about many things, specifically
5 race and being an American. And, of course, I,
6 too, am an American, and race has been an issue
7 in America for more than 500 years, and so I
8 cannot ignore it.

9 I want you as my Representatives to
10 represent me, because you are my voice. When
11 you call me on the telephone and when you send
12 mail to me and shake hands and lobby and
13 hobnob, you are telling me that you will
14 represent me, and that is exactly what I want.
15 I want my fair representation. I want my
16 cultural and historical heritage
17 representation.

18 Today I've never heard the word
19 "gerrymandering" sound so bad. It is like the
20 "L" word and a few other words that I won't
21 say. Call it what you want. As I listened to
22 you from all of your districts, you have
23 multiple counties, and we're trying to get,
24 what, 700,000 people for Congress, and so --
25 for a congressional district. And I want and I

1 hear that we have increased from 25 to 27
2 Representatives in Congress. Don't erase me
3 and don't erase my community. There are three
4 African-Americans, there are Hispanics, and I
5 would certainly not want to see less. I don't
6 want us to repeat history in Florida
7 especially, and I don't want Florida to be
8 tarnished politically again, and so I plead
9 with you to do what is right by me and my
10 constituents, and thank you very much.

11 REPRESENTATIVE WEATHERFORD: Thank you
12 very much.

13 Next up we have Mr. James Howell. Is
14 Mr. Howell here? I didn't see him stand up
15 earlier. We will try to find Mr. Howell, but
16 we will keep moving.

17 Lee Harris. Is Lee not here as well? We
18 will save him as well and hope we can get back
19 to him.

20 We have, I believe -- I believe it is a
21 Mr. Bussard from the Duval County National
22 Executive Committee -- Democratic Executive
23 Committee. I cannot make out the first name.
24 Billee, is it Billee? Not here?

25 Okay. Arnett Girardeau, former Senator

1 Arnett Girardeau. I should have introduced you
2 earlier, sir. Welcome to the committee. Thank
3 you for being here, thank you for your service
4 to Florida, and you are recognized, sir. I
5 apologize for missing you earlier.

6 MR. GIRARDEAU: Mr. Chairman, I probably
7 was not here earlier, because I just walked in,
8 but I was here early this morning.

9 I am Arnett Girardeau, former State
10 Senator, and I came in --

11 REPRESENTATIVE WEATHERFORD: Senator,
12 could we just wait just a second while they
13 adjust your mike? We want to hear everything
14 you have to say.

15 Go ahead, sir.

16 MR. GIRARDEAU: Testing, one, two, three,
17 four, testing. All right. I will do the best
18 I can with what I have left.

19 I came in a little early and I noticed
20 that most people who spoke said that they
21 were -- their name and where they are from and
22 they have resided in Florida for so many years.
23 Well, some of the people said 35 years or 45
24 years, and I remember some of those years as
25 people who we welcomed into Florida, because

1 after World War II, Florida began to grow.
2 Florida was the seventh-largest state up until
3 that time, and now it is the fourth. The point
4 being I have been a Florida resident all of my
5 life, and that is only 82 years.

6 I have also participated in this process
7 of redistricting twice. That is why I came
8 this evening to tell you what I thought of your
9 job, first of all. I commend all of you for
10 taking the opportunity, responsibility and the
11 time to be here, because it is one of the most
12 daunting tasks you will ever have.

13 Now, why do I say that? Everybody talking
14 about fairness, fairness, fairness in the
15 election. And the fairness is in the eyes of
16 the beholder. What was fair 50 years ago is no
17 longer fair today. What do I mean by that?
18 When I was a boy, well, let's look, I haven't
19 changed colors, but at the same time, my people
20 could not vote in primary elections. It was
21 only toward the end that -- of the
22 desegregation plans of this country that we
23 were able to vote in primary elections. We
24 could vote in a federal -- federal election,
25 but not in primaries.

1 REPRESENTATIVE WEATHERFORD: Maybe another
2 couple of minutes.

3 MR. GIRARDEAU: Notice what change that
4 has made. Forty to 50 years later, you now
5 have an African-American President. You may
6 not like that, some of you might, but the point
7 is this: Our lady this morning said, "Why
8 should I vote for somebody" -- no, "Why should
9 I run for office that I know I can't be
10 elected?" You think about that. That is very
11 serious. Most whites, Caucasians or otherwise
12 did not know enough about non-whites or blacks
13 in order to feel comfortable with voting for
14 them. We have turned that corner now, and as a
15 result, we have gone to the extreme in both
16 directions. You have people who are on the
17 extremist conservative side, and those who are
18 on the most liberal side. As I recall, we had
19 one in Congress that passed the voting right --
20 the Civil Rights Act and the Voting Rights Act
21 that they call liberal, and they voted them all
22 out of office. All of the liberals were out in
23 the early '70s.

24 Now, at that time, Florida's parties were
25 controlled by the Democrats, Florida's House

1 and Senate. Look what has happened in that
2 time. In that time, it has completely
3 back-flipped, just like the arbiter.

4 REPRESENTATIVE WEATHERFORD: Senator, if I
5 could, I am really enjoying this, I've got to
6 tell you, but I just want to make sure, we've
7 got a lot of speakers, probably 30 or so to get
8 to, I don't want to rush you, but at the same
9 time, I want to make sure we get all your
10 comments in. So if you could --

11 MR. GIRARDEAU: You won't get them all in,
12 but I will give you a few. And the reason for
13 that is because, as I said, you have the most
14 daunting task before you ever.

15 The main thing is when you come down to
16 what is fair districting, you have to consider
17 the demography as far as Republican, Democrats,
18 Independents, et cetera, and what is right for
19 one is not always right for the other. But the
20 most important one, I think, the United States
21 government has these, and that has to do with
22 the racial equality.

23 Last point would be this: Although you
24 are -- you are about 15 million people now in
25 Florida, of which you have about 11 million

1 votes, but at the same time, you don't measure
2 -- you don't redistrict along lines based on
3 votes. You redistrict based on population.
4 That is why a lot of these pine trees that is
5 used to vote in the old elections are no longer
6 voting.

7 REPRESENTATIVE WEATHERFORD: Yes, sir.
8 Thank you, Senator, thank you for your service
9 to the State of Florida.

10 Next up we have Ms. Lisa Bruno, who was
11 here earlier. I do not see her now. We will
12 probably save her and try to get back to her if
13 she is here later.

14 We also have next Bishop McKinley Young.
15 Bishop? Not here?

16 We had also another Bishop, but I
17 apologize, I can't see the first name.
18 McKossick? McKissick? Not here.

19 We have Ms. Glorious Johnson, city council
20 member from Jacksonville, former city council
21 member. Thank you very much, Ms. Johnson, for
22 being here. You are recognized.

23 MS. JOHNSON: Good evening, everyone. Can
24 you hear me?

25 REPRESENTATIVE WEATHERFORD: Yes.

1 MS. JOHNSON: You know, as I used to be a
2 politician, we always have plenty to say, but
3 there comes a time when you are just -- just
4 hoping for the best. My thing is, and my
5 concern, and I think Mr. Girardeau,
6 Dr. Girardeau, my former dentist at that time,
7 and Congresswoman Brown, they had some points
8 from my research when it talks about the
9 gerrymandering.

10 I, too, am a long resident of
11 Jacksonville. This month, I will be 64 years
12 old, and I have been here 64 years. And the
13 gerrymandering at that time was supposed to be
14 set up where we would have the right
15 representation, or we would have an opportunity
16 to be represented by people who we chose to
17 represent us.

18 Yes, we have a President that is black.
19 He is an American. Yes, we have a mayor who is
20 black and from this city. But the point is,
21 there's still some things that must be done in
22 representation, and that is having an
23 opportunity for us to choose who we want to
24 represent us, and what we want, not saying that
25 as a race based, because I am one of the last

1 to pull the race card out if I have to, but the
2 point is there comes a time, and that is why it
3 was written in the two ballots that, first of
4 all, one thing that they want considered is
5 that districts shall not be drawn to deny
6 racial or language minorities the equal
7 opportunity to participate in the political
8 process and elect representatives of our
9 choice. If you do in the pocket-size, like the
10 compact, the contingency, like it says in here,
11 if you do work it that way, make sure under
12 whoever -- whomever the recommendation is for
13 fairness, who knows what fairness really is,
14 but within your heart do like Dr. Martin Luther
15 King stated, and he said, "Cowardice asks the
16 question, is it safe. Expediency asks the
17 question, is it politic. Vanity asks the
18 question, is it popular. But conscience asks
19 the question, is it right." And there comes a
20 time when one must make a position that is
21 neither safe nor politic nor popular, but
22 because conscience tells one it is right.

23 I hope that you do understand why we as
24 black Americans -- Americans, period -- feel
25 the way we feel and we want representation.

1 And if we decide we want to have an American
2 who happens to be black to represent us, let us
3 have that. If we decide we want a white,
4 Hispanic, Asian, whatever it is, let us be the
5 one, the voters, who make the decision. Thank
6 you very much.

7 REPRESENTATIVE WEATHERFORD: Thank you,
8 Ms. Johnson.

9 Our next speaker is Sollie Mitchell,
10 followed by Judith Youngblood.

11 Ms. Mitchell? Mr. Mitchell, I'm sorry.

12 MR. MITCHELL: Thank you, Mr. Chairman,
13 and all of the representatives from the
14 different districts.

15 I am here to bring your attention to the
16 Voting Rights Act. As the new district lines
17 are drawn, to uphold the hard fought work that
18 we have made, it is absolutely an essential to
19 incorp the essence of the state Voting Right
20 Act into the way in which the State of Florida
21 political boundaries are drawn.

22 I am Sollie Mitchell, I live at 4009
23 Gillislee Drive. I am 93 years old. I
24 registered to vote in 1939, and have -- the
25 only time I missed voting was when I was in the

1 service, and I just want to thank the way that
2 you are operating now. I am energized,
3 energized to see what you are doing now.
4 Please, please, please. Thank you.

5 REPRESENTATIVE WEATHERFORD: Thank you,
6 Mr. Mitchell. God bless you, sir, and thank
7 you for your service to our great country.

8 Next up we have Ms. Judith Youngblood,
9 followed by Bobby Burton.

10 MS. YOUNGBLOOD: My name is Judy
11 Youngblood. I am feeling younger by the minute
12 as I see Doc and Holly. Gosh, you know, I am
13 only 75, so I am feeling pretty good about
14 that. Been a registered voter in Jacksonville
15 since 1960. Would have been that sooner, but I
16 missed by just a few days' vote turning 21 for
17 the '56 election. I go back a long way in the
18 city.

19 One of the things that I have always been
20 concerned about is having representative
21 government. That is what we were given in this
22 country by our founding fathers, and
23 "representative" means that you -- we get
24 together and we meet people and we say, "You
25 would be good to represent me since I can't go

1 there, so you go and represent me, then I tell
2 you what I want, then you come back and tell me
3 what happened and I tell you what I want
4 again." This means that I need to know my
5 representatives. Many of you, I do know, I
6 have known -- I have known your folks, like I
7 went to high school with Lake's mom and -- Lake
8 -- Representative Ray's mom and others that I
9 have known for a long time.

10 One of the things about representation, if
11 you do a good job and people know you, you
12 don't have to worry about getting reelected.
13 You don't need incumbency. If necessary, back
14 in this -- and I went to the University of
15 Florida back in the early '50s with many of our
16 elected politicians, many of whom are now
17 retired. There is a solution for that. You
18 just move or buy another house, and then you
19 are in the district again. It is not a problem
20 with redistricting. It is a problem with you.

21 I have felt for quite a bit of time -- I
22 have been divorced for over 20 years, was
23 married for over 30, lived on the south side,
24 knew all of my representatives, didn't matter
25 if they were mine or not. If I had a problem,

1 I could go to any of them and they didn't say,
2 "Well, go to yours, I am not yours." They
3 said, "Sure." And that is the way things made
4 it good and you felt like you had
5 representative government.

6 Unfortunately, when I moved where I could
7 afford after divorce to the west side, I found
8 that I had a Congressperson who didn't
9 acknowledge me, and still doesn't, except when
10 I get a card when he is running again. I have
11 even gone down to his office in Orange Park and
12 taken information to try to get answers to
13 questions. Never got the answers. Got them
14 from the other Congressmen in the area who
15 didn't really represent me supposedly, but I do
16 my voicing at the ballot box.

17 So, once again, if you represent people
18 who know you, if you say, "Yes, I know you are
19 in my district," not saying, "Well, I don't
20 think I represent way up there," you -- you
21 will be treated fairly by the voters as you
22 treat them fairly. So please keep in mind when
23 you are redistricting.

24 There used to be an old joke about you
25 could take a Spirograph, remember those, and

1 you could draw your districts, because
2 populations do run somewhat in concentric
3 circles. Should be community based where we
4 can know each other, where people have the
5 opportunity to know who they are voting for,
6 where those people have an opportunity to
7 know -- get input from more --

8 REPRESENTATIVE WEATHERFORD: Ms.
9 Youngblood, we are running over a little bit.

10 MS. YOUNGBLOOD: Right. So that the
11 Legislators have the opportunity to get input
12 from more of the lobbyists to get them from the
13 electors. Thank you for your time.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much.

16 Next we have Mr. Bobby Burton, followed by
17 Beth Davey, and before Mr. Burton gets up,
18 although I don't see him, I just want to remind
19 everyone we've got about an hour and a half and
20 we've got over 25 speakers, please be cognizant
21 of the folks behind you, and if someone said
22 what you planned to say, use brevity. We give
23 bonus points for that. So just be mindful.
24 Thank you very much.

25 Mr. Burton, is Mr. Burton here? Okay, we

1 will try to find him.

2 Ms. Davey, Beth Davey? Beth, thank you
3 very much for being here. Following Beth is
4 going to be Thomas Wing.

5 You are recognized, Beth.

6 MS. DAVEY: I just wanted to thank you
7 guys for coming to Jacksonville and allowing us
8 an opportunity to have input into this process.
9 I am coming more and representing hopefully
10 District 19. And my evaluation of this is as a
11 plan -- a possible plan would be to follow the
12 boundary line of I-295 and cut off everything
13 north of that and place it into District 16.
14 Given the fact that District 19 needs to lose
15 over 18,000 people and District 16 needs to
16 gain over 16,000 people, it would seem like a
17 help in both districts. This would also not
18 cause a ripple effect on either district. And
19 in keeping in line with Amendments 5 and 6, it
20 would allow northwest St. Johns and Mandarin
21 Township to stay together, which kind of goes
22 along with the lady that just spoke, it is
23 about keeping community together, and that is
24 my opinion. Thank you.

25 REPRESENTATIVE WEATHERFORD: Thank you

1 very much.

2 Thomas Wing? You are recognized, sir.

3 After Thomas, we have Mr. Ray Alford.

4 MR. WING: Thank you very much for this
5 opportunity to speak to the panel and to the
6 citizens here of Jacksonville.

7 Justice is blind, except probably when it
8 comes down to the final decision as to where
9 the actual demarcations of the different
10 districts will be and that type of thing. Now,
11 I hope the gerrymandering, that type of thing,
12 which is so prevalent in some of the districts
13 will be stopped, but it will take political
14 courage to do that, of course. Most people, as
15 I have discovered in Tallahassee and that type
16 thing, don't have that.

17 I've heard the -- for both of these
18 sessions, I have heard the race card pulled so
19 many times. It is time to get over it. Mayor
20 Brown won the election, not by a whole bunch,
21 but, you know, we have to start accepting that
22 we have this situation in this city like we
23 have. We have 47 percent of these kids doing
24 horrible in schools. To me, that is more
25 important than playing the race card.

1 REPRESENTATIVE WEATHERFORD: Mr. Alford, I
2 would like to keep your comments focused on the
3 redistricting, if you could.

4 MR. WING: It is, it is, it is.

5 REPRESENTATIVE WEATHERFORD: Help me get
6 to it.

7 MR. WING: Okay. In politics, everything
8 is about power and control, and I would hope
9 that the panel, the decision-makers, the people
10 who do the final analysis and vote on where --
11 what is going to where and that type thing,
12 will do it based on that justice is blind.
13 Thank you.

14 REPRESENTATIVE WEATHERFORD: Thank you,
15 sir.

16 Next up we have Ray Alford, and after
17 Mr. Alford, we have Mike Kuhn. Do we have Ray
18 Alford here?

19 Okay. How about Mike Kuhn, is Mike here?
20 Mike, thank you for being here, sir. You are
21 recognized.

22 MR. KUHN: Thank you. Thank you so much.

23 Senator Gaetz, I want to compliment you on
24 laying out the rules of the road and some of
25 the -- you did some good preemptive strikes, I

1 would say, on taking care of the issues that so
2 many people had during our first session.

3 I am Mike Kuhn, I am from a little
4 community called Orangedale, that is somewhere
5 in 19, and when I look at community, I guess I
6 look at it a little bit differently in the fact
7 where do I go to church, what is happening to
8 our St. Johns River, where do I go eat dinner,
9 and Representative Gwyn, she and I had to fight
10 over a chicken wing, I think, for dinner. When
11 I want to go to a fish restaurant, I go up to
12 Bonefish, which is just south of 295. If I
13 want to grab some quick Italian, I go across
14 the river and grab up some Olive Garden. And
15 if I want to fix something at the house, I go
16 to Home Depot. And when I go to church, I go
17 south to around World Golf Village, and that
18 church never was ever there before. And when I
19 want to go to the library, I go to a little
20 place around Fruit Cove. And so that is my
21 community.

22 And it is interesting, everybody that I
23 end up running into seems to have the same
24 concerns as I do. Is our properties being
25 taken care of, is the river being taken care

1 of, what's the education like, what is the
2 funding from the State, from the Feds, what are
3 the issues around the county? And so when I
4 look at the dilemma that you might face in our
5 arena, I look at 19, and there's, what, Mike,
6 16,000 extra that you've got sitting there, so
7 we could take that and move it into, what is
8 it, 16, Beth, I think, that would take care of
9 that issue, and everything south and everything
10 to my community over in Orange Park as it is
11 today all the way down to Fleming Island where
12 my Home Depot is, makes sense and we are all
13 very dumb, fat and happy.

14 So -- and Gwyndolen, all of my favorite
15 dining places are right there. I don't have to
16 go over 295, and all the sizing is correct.

17 And one thing I want to just share with
18 you all, sir, 93 years, wonderful, and the
19 history that some of our folks have shared with
20 us tonight is wonderful, and the traditions
21 that as a community you've all had. I come
22 from Colorado, so, my gosh, the Civil War, I
23 had to scratch my head on that one. But the
24 thing is, in my community, all of us take the
25 same approach in making sure that we want a

1 Representative who stands for the rights of the
2 people, who represents that all of us have a
3 proper place in our society, that we should all
4 be treated respectfully, and finally, we should
5 honor the individuality of each and every one
6 of us. And in my community, that is what
7 happens, and it doesn't make any difference
8 whether you are black, white, Ukrainian or
9 Hispanic, my community will represent all of
10 us, and that is what we expect. Thank you.

11 REPRESENTATIVE WEATHERFORD: Thank you.

12 Next up we have Mr. Richard Billings. I
13 apologize, Richard, I didn't give you a
14 heads-up. Thank you for being here. And after
15 Richard, we are going to have Jay McGovern.

16 Mr. Billings, you are recognized.

17 MR. BILLINGS: I am Richard Billings from
18 Fernandina, Nassau County, Representative
19 Adkins, and I want to score some points, so I
20 will be brief.

21 REPRESENTATIVE WEATHERFORD: Good.

22 MR. BILLINGS: Basically -- can everybody
23 here me? I just want to make one point and ask
24 one question. I would love to see when you
25 guys are done at the end of the day to have the

1 districts resemble something that it is either
2 geometric or follows natural boundaries. You
3 know, before the meeting, I was looking at the
4 Florida congressional districts, and I got a
5 chuckle out of District 3, look at that. And I
6 don't want to go into politics, but I hope we
7 don't see that when you folks are finished with
8 your deliberations.

9 The second thing -- and I hope politics
10 and party politics don't enter into the
11 equation, too much anyway. And my question is,
12 at the end of this session, can we get a little
13 update on Amendment 5 and 6, how will that
14 impact your thinking? If you could write that
15 down, if we have time. Thank you very much.

16 REPRESENTATIVE WEATHERFORD: Thank you.
17 To give you two quick answers, the first one to
18 your question is you can actually sign up on
19 this card and you can get updates via e-mail as
20 to what we are doing and the timing and
21 process.

22 Also, in regards to Amendments 5 and 6,
23 Senator Gaetz will touch on this at the end,
24 but to say it very briefly, we are going to
25 follow it. It is the law, it is the

1 Constitution and we will absolutely follow it.

2 Mr. McGovern, thank you for being back
3 this afternoon. You are recognized, sir.

4 MR. McGOVERN: Thank you.

5 REPRESENTATIVE WEATHERFORD: After
6 Mr. McGovern, we have Jonathan Loesche. I hope
7 I am saying that right. Mr. Loesche, you will
8 be next from the Libertarian Party of Duval
9 County.

10 You are recognized, sir.

11 MR. McGOVERN: Thank you. There's been a
12 lot of talk about having individuals or civic
13 organizations submit plans, and I would
14 certainly suggest that people do that, as you
15 have. We want that public input. But it
16 doesn't preclude you from giving us a look at
17 what you guys have in mind as members of the
18 committee. I think that is really important.
19 I mentioned earlier about it is effectively a
20 gag order by you not communicating with me. It
21 is important that I communicate with you, but I
22 need you to communicate with me as well. I
23 don't think it is the job of civic
24 organizations to submit a plan for you guys.
25 It is your job. That is what we pay you for.

1 The other part of that is, as a citizen,
2 it suggests to me that I have to have a special
3 interest group to be represented, that I have
4 to have some civic group submit a plan that
5 fits my needs, or I won't be represented. So
6 that is why it is so important for me to see
7 your plan.

8 And then in the introductory remarks, you
9 talked about the timeline and you consistently
10 say that you have accelerated the timeline, but
11 I would please like to clarify that is only the
12 final enactment of the districts that has to
13 wait until 2012.

14 What we didn't see was enough early on,
15 you know. The Governor sort of slow-rolled the
16 census data, and we are off to a start now, but
17 it is a late start, and I think that should be
18 acknowledged. And there are things that you
19 can do to speed the process. We don't need to
20 depend on the courts to have a speedy process
21 after January.

22 So the last thing I would like to point
23 out is there's a couple of people who have
24 talked about fairness is in the eye of the
25 beholder. The purpose of Fair Districts

1 Florida was to define fairness, and that is
2 codified now in our Constitution, that fairness
3 is defined, as one guy was talking about,
4 compact, geometric, blah, blah, blah. So that
5 is codified. And the last point of that
6 fairness is these districts can be done meeting
7 the requirements of the Voters Rights Act. We
8 just have to pay less attention to Republican
9 versus Democrat constituencies. Thank you.

10 REPRESENTATIVE WEATHERFORD: Thank you,
11 sir. Thanks for coming back.

12 Jonathan Loesche. After Mr. Loesche, I
13 hope I am saying that right, we have Craig
14 Shoup.

15 Jonathan, you are recognized, sir. Thank
16 you for being here today.

17 MR. LOESCHE: My name is Jonathan Loesche,
18 I am with the Libertarian Party of Florida, and
19 first off I just want to thank all of you for
20 making this process as seemingly open as
21 possible.

22 You know, like the other gentleman said,
23 it seems like the -- with the issue of
24 gerrymandering, this isn't an issue about race.
25 Somebody else said about District 3, the other

1 main thing about that district is that it is
2 almost primarily Democrat, and I would be
3 willing to wager that all -- I know at least
4 District 4 is Mr. Crenshaw, and I am not sure
5 about the others, but I am willing to bet
6 almost all of them are Republican, because
7 almost all the Democrats in this part of the
8 state are within District 3. As someone who is
9 a third party -- potential third-party
10 candidate, it is already tough enough for us to
11 try and get into the game and win a state like
12 Florida where it has one of the highest
13 incumbency rates in America, gerrymandering is
14 a real issue. So I just want to say that --
15 that is about it. So thank you very much.

16 REPRESENTATIVE WEATHERFORD: Thank you
17 very much.

18 Next we have Craig Shoup, and after Craig,
19 we've got Justin Taylor.

20 While we are waiting for Mr. Shoup, I just
21 want to take a moment to let everyone know,
22 unfortunately, the live webcast for this
23 meeting has failed due to a technical issue,
24 but we should be able to have video replay
25 available on the pod cast and on the web in the

1 next day or so. So we apologize for that
2 technical difficulty.

3 Mr. Shoup, you are recognized, sir.

4 MR. SHOUP: Thank you, Mr. Chairman. I
5 wanted to just express my gratitude to the
6 committee and to all of our Representatives and
7 Senators for this open process. I think we
8 have heard people talking that we need to have
9 openness, and I think you guys have listened
10 before anyone ever said anything about
11 openness, and creating this openness with the
12 web, let anyone be able to submit a plan, you
13 couldn't ask for a more open process. I just
14 want to say thank you for that and thank you
15 for coming over here to Jacksonville.

16 REPRESENTATIVE WEATHERFORD: Thank you
17 very much. Extra points for Mr. Shoup.

18 Justin Taylor is next. After Justin -- we
19 need you on the mike, because everything is on
20 the record. We want to make sure that you are
21 properly represented and your thoughts are
22 represented, sir, so go ahead.

23 MR. TAYLOR: Thank you. My name is Justin
24 Taylor, I am the President of the Nassau County
25 Young Republicans, and I just wanted to say

1 thank you very much for representing us and
2 thank you for all you do and for having this
3 night to hear testimony from the public, so
4 thank you.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much, Mr. Taylor.

7 We next have Mr. William Wright, and after
8 William Wright, Roger Thomas.

9 Mr. Wright, you are recognized, sir.

10 MR. WRIGHT: Thank you very much. I am
11 using this little form that Congressman Stern
12 sent out, so he said make sure you tell him who
13 you are and all that kind of stuff. So my name
14 is William Thomas Wright. Most people call me
15 Tom. I am here representing myself; however, I
16 am a proud member of the First Coast Tea Party.
17 Then it says tell them how long. All right, I
18 have been here since I was ten years old and I
19 have been in Jacksonville for 57 years,
20 graduated from a local high school, married an
21 Englewood girl. I have five grandchildren, one
22 great-grandchild. And I was one of those
23 people when I was working for a living, I was
24 too damn busy for politics, but since I
25 retired, I decided I would try to dabble in it

1 a little bit and I got involved with the First
2 Coast Tea Party and I started going to events
3 and I started meeting people and I started to
4 get a little enthused, but I had a real
5 awakening in our last mayoral election. I was
6 a poll watcher, and I was assigned to precinct
7 four. I learned so much about political
8 activism. These people know what they are
9 doing. They took us to the wood shed,
10 basically what happened.

11 REPRESENTATIVE WEATHERFORD: Mr. Wright,
12 we would like you to focus on the -- comments
13 on redistricting, if you could.

14 MR. WRIGHT: I am getting to that. I am
15 getting to that.

16 Now, item one on this sheet says "compact
17 of districts." Then number three says,
18 "preserve existing districts." Boy, I don't
19 know how y'all are going to do that. I'll tell
20 you one thing, I wouldn't want to be in your
21 shoes. It is a heck of a job. And if you have
22 to stick to this 696,000, no wonder the thing
23 looks like a jigsaw puzzle.

24 So I ask you, please do your due diligence
25 as much as you can, especially with cutting

1 into two new districts, and I hope you have
2 divine guidance, because I believe you are
3 going to need it. Thank you.

4 REPRESENTATIVE WEATHERFORD: Thank you
5 very much, Mr. Wright. Appreciate your
6 prayers.

7 Next up we have Mr. -- Mr. Thomas.

8 MR. THOMAS: Good evening, ladies and
9 gentlemen. I --

10 REPRESENTATIVE WEATHERFORD: And, excuse
11 me, Mr. Thomas, I'm sorry, after Mr. Thomas, we
12 have Donna Barrow, or Barrow.

13 You are recognized, sir.

14 MR. THOMAS: I am Mr. Roger Thomas, a
15 long-term resident of Jacksonville. I lived
16 down in Winter Park before that for many years.

17 I would say that the person that comes
18 closest to expressing my opinion tonight has
19 been Mr. McGovern, so that is just a second of
20 his position. I think the overall thing that I
21 have heard tonight is a request for fairness on
22 your part.

23 I can say that of the community here in
24 Jacksonville, that my experience as a campaign
25 worker was that some of my associates were run

1 out of some neighborhoods, and, therefore, to a
2 certain extent, representation fairly in
3 Jacksonville is still deficient. Whatever that
4 makes problems for you, Lake Ray or the other
5 people from Jacksonville, I'm sorry, but I do
6 know that it is not working as it exists now.
7 The Fairness in Representation Act needs to be
8 implemented in your absolute, most ethical and
9 scrupulous method that you can apply. Thank
10 you.

11 REPRESENTATIVE WEATHERFORD: Thank you.

12 Next up we have Donna Barrow, and after
13 that, we have John Libby who visited with us
14 earlier. Donna. Donna left, okay.

15 John? We would love to have you back
16 again, sir.

17 Are we going to put his maps up on -- if
18 we could. Give us one second, John, I think we
19 will get your maps up again.

20 Mr. Libby, for those of you who do not
21 know, submitted a full congressional map to
22 this committee as a -- now is probably a good
23 time to mention, in fact, just today we have
24 received three submissions of congressional
25 maps just today on-line, and one state Senate

1 map. So we are certainly appreciative of the
2 feedback we are getting, and Mr. Libby, we are
3 very grateful for yours, so you are allowed to
4 proceed.

5 MR. LIBBY: I just wanted to come forward
6 one last time and commend the committee for
7 holding these public hearings, and to suggest
8 to everyone that is present that the
9 opportunity exists here in Florida to have your
10 input and put it on paper, send it
11 electronically to these ladies and gentlemen
12 over in Tallahassee. And having been through
13 the redistricting process here in Florida in
14 1980, 1990 and 2000, we've never had this type
15 of opportunity as private citizens before. So
16 I would suggest as Americans we all take this
17 opportunity and be -- continue to follow this
18 process through to its conclusion, and
19 hopefully we will come up with districts that
20 everybody can live with and are agreeable to.
21 Thank you.

22 REPRESENTATIVE WEATHERFORD: Thank you
23 very much, Mr. Libby, and thank you for
24 submitting those maps to us. We are very
25 grateful, and we hope many more people will

1 follow suit.

2 After that, I believe we've got a Dwayne
3 Clarkson. Is that right?

4 MR. CLARK: Clark, Senior.

5 REPRESENTATIVE WEATHERFORD: Clark,
6 Senior. I'm sorry about that. Mr. Clark,
7 Senior, thank you very much for being here. We
8 welcome you, and after Mr. Clark, Senior, we've
9 got Brenda Simmons.

10 You are recognized, sir.

11 MR. CLARK: Again, my name is Dwayne
12 Clark, Sr. I am a resident of Jacksonville for
13 quite a few moons, and I would just like to
14 thank the Representatives and the Senators here
15 today for this transparent proceedings. And
16 also I would just like to mention, just to echo
17 what Dr. Girardeau said earlier, when you are
18 doing your redistricting, do it demographically
19 based upon the registered voters. That will
20 eliminate the gerrymandering, that will
21 eliminate the race issue, that will eliminate
22 everything and it would be -- everything would
23 be neutrally based upon that and your other
24 regulations that you are governed by, and I
25 think everything will be okay. God bless you.

1 REPRESENTATIVE WEATHERFORD: Thank you,
2 sir.

3 Next up we have Ms. Simmons. Thank you
4 for being here. And Arlyn Dockery will be
5 after Mr. Simmons.

6 You are recognized, ma'am.

7 MS. SIMMONS: Thank you, Representative
8 Weatherford, Senator Gaetz and distinguished
9 ladies and gentlemen of the Legislature.

10 I rise this evening to speak in favor of
11 abiding by the letter and the tenets of the
12 Voting Rights Act, first enacted in 1965 and
13 expanded in 1975.

14 Indulge me for a moment as a articulate
15 from my perspective. I am an English
16 literature professor by trade, and today's
17 debate reminds me of a poem written by Dudley
18 Randall at the turn of the 20th century. The
19 poem was about two 20th-century icons, Booker
20 T. Washington and W. E. B. Dubois. In
21 Randall's widely anthologized poem, Booker T.
22 and W. B., Washington argues that
23 African-Americans should go about their work
24 quietly and save money to buy a house, among
25 other things, as part of a fictional

1 conversation with his contemporary. He said
2 something like this: "It seems to me, said
3 Booker T., that all you folks have missed the
4 boat who shout about the right to vote, and
5 spend vain days and sleepless nights in uproar
6 over civil rights. Just keep your mouth shut
7 and do not grouse, but work and save and buy a
8 house."

9 W. B. Dubois constantly disagrees with
10 Mr. Washington, citing education as the goal to
11 which African-Americans should aspire. W. B.
12 Dubois makes a very salient point relative to
13 today's topic when he says in his poem, "For
14 what can property avail if dignity and justice
15 fail? Unless you help to make the laws, they
16 will steal your house with a trumped-up
17 clause."

18 Amendments 5 and 6 in all its geometry are
19 the trumped-up clauses of today that will
20 summarily strip African-Americans and Hispanics
21 from the ability to appropriately be
22 represented in the Legislature. Enactment of
23 these amendments will destroy the communities
24 of interest that comprise the minority access
25 districts. I am firm in my belief, because for

1 the balance of my adult life I have lived in
2 districts that were represented by people who
3 look like me, some of whom are in this very
4 room this evening. These Legislators
5 understand, can interpret, and most
6 importantly, can do and fervently fight for the
7 issues important to me. There is an ease in
8 this relationship, because similar backgrounds,
9 interests and aspirations make for a
10 synergistic relationship between legislator and
11 constituents. After all, this is what
12 democracy is about, persons duly elected to
13 ensure that genuine interests of constituents
14 are not compromised.

15 I ask myself the question: If I began my
16 statement today citing a turn of the 20th
17 century debate covering a similar topic,
18 knowing full well that twice in that century,
19 in 1965 and 1975, the issue was confronted and
20 handled head-on, why is it that we are here
21 today in the second decade of the 21st century
22 still debating an issue that is so clearly one
23 that is regressive instead of progressive?
24 But, alas, we are here, and I register my
25 sentiment and strong opinion that blatant

1 violation of the Voting Rights Act through the
2 enactment of Amendments 5 and 6 and creating
3 districts that are not representative of
4 communities of interest is degenerative,
5 insulting and it erodes the progress made by so
6 many of America's foreparents.

7 In a word, let us continue to uphold the
8 Voting Rights Act and ensure that any
9 redistricting maintains minority access
10 districts. Thank you very much.

11 REPRESENTATIVE WEATHERFORD: Thank you
12 very much.

13 Arlyn Dockery. After Ms. Dockery, we have
14 Beth Davey.

15 MS. DOCKERY: Thank you. My name is Arlyn
16 Dockery, I have lived in Jacksonville for over
17 45 years, and I thank you all for representing
18 us, and I hope and pray that when all is said
19 and done and all the redistricting has been
20 re-graphed, that all the people will be fairly
21 represented, equally and geographically from
22 Jacksonville to Orlando. Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much.

25 Beth Davey? Is Beth here? She already

1 spoke. We had her in here twice, okay. I
2 apologize for that. I thought I had seen that
3 before.

4 Robert, I want to say Sponsor, but I don't
5 think that is right.

6 SENATOR GAETZ: Lives on Forest Circle.

7 REPRESENTATIVE WEATHERFORD: Yes, on
8 Forest Circle. He left? Okay, he is not here.

9 Bruce Rockwell. Is Mr. Rockwell here?
10 Come on forward, Mr. Rockwell. You will be
11 followed up by the Vice-President of the city
12 council, Mr. Bishop. Mr. Bill Bishop, you are
13 next, sir.

14 You are recognized.

15 MR. ROCKWELL: Mr. Weinstein, you forgot
16 about us folks in Duval County when you
17 announced who you represented.

18 The young lady that just spoke before me
19 with the Voting Rights Act, we seem to forget
20 that we are all Floridians, we are supposed to
21 be representative of everyone. So my
22 suggestion to you gentlemen, which the State of
23 Florida residents voted for Amendment 5 and 6,
24 if you believe in democracy, then what is the
25 problem? What we need to do is have a computer

1 graphics giving us three or four choices,
2 leaves you gentlemen off the hook, and we do it
3 by population, not by black, white, green,
4 purple, Republican, Democrat or whatever you
5 happen to be. I am a registered Democrat, I
6 vote Republican, but I speak independently, so
7 I don't know --

8 REPRESENTATIVE WEATHERFORD: Sounds like
9 you got all the bases covered there, sir.

10 MR. ROCKWELL: Well -- and one last thing
11 that is not on subject. The Georgia-Pacific
12 redistribution of their waste into the St.
13 Johns River, you know, they are polluting
14 Wright's Creek, now we are all going to get a
15 little bit. Thank you for listening.

16 REPRESENTATIVE WEATHERFORD: Thank you,
17 Mr. Rockwell, we appreciate your comments.

18 We've got the Vice-President of the city
19 council, Mr. Bill Bishop. Councilman, thank
20 you very much for being here, and following
21 Mr. Bishop, we have Ms. Audrey Gibson, former
22 Representative.

23 COUNCILMAN BISHOP: Thank you,
24 Mr. Chairman and members of the committee.
25 Thank you all for being here and conducting

1 this hearing. You truly do have a daunting
2 task, and I am glad I don't have yours. We
3 have our own little redistrict thing going on,
4 and it is nothing like this, so my hat is off
5 to you, but my comment will be very brief.

6 Speaking as a resident of several of the
7 districts that exhibit what one might call
8 creative geometric properties, my hope is that
9 compactness is a principle that ranks very high
10 in the decision matrix in which you conduct
11 your business going forward, and thank you very
12 much.

13 REPRESENTATIVE WEATHERFORD: Thank you
14 very much, sir.

15 Yes? I think we have time for everybody.
16 We would love to here from you, Ms. Gibson. It
17 is good to see you again in your neck of the
18 woods. And after Ms. Gibson, we have got -- I
19 am going to ask Senator Gaetz to help me with
20 this one. I think it is Celia --

21 SENATOR GAETZ: Miller.

22 REPRESENTATIVE WEATHERFORD: -- Miller.
23 Celia Miller will be next.

24 Representative, thank you for being here,
25 and you have the floor.

1 MS. GIBSON: Thank you, and thank you all
2 for being here. I know it is very difficult to
3 leave family, particularly when session is over
4 and committees are over, so I appreciate all of
5 you all being here, and certainly all of you
6 all need to give yourselves a hand for being
7 here because you are interested in the process.
8 Go ahead and do that.

9 I just have a couple of comments. You
10 know I am a woman of many words, but I wrote
11 down today what I want to say, and I had some
12 dental work done, too, so that is going to cut
13 in really badly.

14 I think as you consider how the district
15 lines are going to be drawn, I hope that you
16 all will consider what is in the best interest
17 of all of the communities throughout this
18 state. Will the people who are drawn within
19 particular district lines have an opportunity
20 to elect someone who represents their
21 interests, the diversity of interests, where
22 the schools are going to be drawn, where the
23 libraries are going to be, and the trickle-down
24 effect of the lines that you draw on not only
25 congressional districts, but legislative

1 districts, school districts and city council
2 districts, and how that all plays into the
3 daily lives of the citizens of the state of
4 Florida.

5 I also would ask that you consider that
6 the census and redistricting is not only about
7 how many people there are in our state and
8 within district lines, but who those people
9 are. And, again, the overwhelming
10 consideration, I think, is whether or not they
11 have opportunity -- the opportunity to elect
12 people who represent their interests and their
13 needs, and then, again, remember the domino
14 effect. Thank you very much.

15 REPRESENTATIVE WEATHERFORD: Thank you,
16 Representative Gibson.

17 We have Ms. Celia Miller next, and after
18 Ms. Celia, we have Lisa King.

19 You are recognized, ma'am.

20 MS. MILLER: Good evening, Representative
21 Weatherford and distinguished other
22 Representatives and fellow citizens. I am
23 Celia Miller, practically a life-long resident,
24 native of Jacksonville, and I would like to
25 thank the Representatives and those people who

1 are responsible for making this process very
2 transparent and the many opportunities that we
3 will have to have input.

4 I think most of the speakers have made
5 very valid points, and I concur with most of
6 them, and I think all of us want fairness so
7 that we will all be represented.

8 This is a democratic democracy, but some
9 people have their own interpretation about with
10 democracy is. Some see it as being fair, and
11 some feel it and interpret it as not being fair
12 since it is a democracy, but we live in a
13 capitalistic society. So we are not always
14 certain that our best interests are
15 represented, but the voting process allows for
16 that to be accomplished if everyone is to use
17 their best judgment, their best knowledge and
18 their most earnest consciousness to accomplish
19 what all the people would want. Whether half
20 feel it is wrong or half feel it is right, we
21 want to be able to represent all the people,
22 and that is basically what I wanted to say
23 tonight, and hopefully from my community, which
24 is in the heart of Jacksonville, we will be
25 submitting suggestions, maps and ideas for the

1 committee to consider. And I like the idea of
2 having the final draft include three options at
3 least from which the people will have to
4 decide. Thank you and God bless all of you.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much, Ms. Miller.

7 We have Lisa King next, and after Lisa,
8 John Thomas.

9 MS. KING: Good evening.

10 REPRESENTATIVE WEATHERFORD: Good evening.

11 MS. KING: My name is Lisa King and I am a
12 native of Jacksonville, and I am here
13 representing little, tiny precinct 11-A, the
14 only precinct in Duval County that is in House
15 District 12, and -- all 315 of us. And we live
16 on Hecksher Drive, which is a 1920's toll road
17 that was built by a New York businessman. It
18 connects a string of islands. Out in my little
19 precinct, I have one gas station, the ferry, a
20 liquor store, a church, a surf shop and two
21 restaurants. However, we are -- yes, we do,
22 we've got the important bases covered. But
23 because of the way the district is drawn, our
24 Representative, who has, God bless her, more
25 counties than any one person should have -- and

1 I know some of you folks in the Panhandle know
2 what that is about -- we all work in
3 Jacksonville, we -- our children go to school
4 in Jacksonville. We really have no community
5 of interest with the rest of that district.
6 Our precinct has flip-flopped in between that
7 district and District 17. And I will never
8 forget meeting with Representative Davis one
9 time, God rest him, and arguing with him that I
10 was indeed in his district. He did not believe
11 me. I had to take out my voter card and show
12 him that I was indeed in House District 17. So
13 we would really like to be in House District
14 17. I am asking nicely.

15 Okay. That being said, trusting
16 government is at a record low. Florida is a
17 purple state, okay. We -- you know, we just
18 elected a Democrat president, a Democrat mayor
19 here in Jacksonville, barely, we have one U.S.
20 Senator who is Republican, one U.S. Senator who
21 is a Democrat. We have -- but yet the
22 Legislature, the makeup of the seats does not
23 reflect that kind of 50/50 atmosphere. That is
24 why we voted for fair districts. It was not an
25 accident. We knew what we were voting for. We

1 know that y'all can draw districts in a way
2 that reflects our voter performance, which kind
3 of goes back and forth, we are right there in
4 the middle, and also respects minority access
5 districts. We know it is possible and we
6 expect it from you.

7 We also expect that at this time where
8 money is so tight and we have such major
9 problems to deal with, we don't want to spend
10 our taxpayers' dollars watching you guys suing
11 yourselves. Enough, okay. So it is really
12 going to be really easy to judge the job y'all
13 are doing. So I just want you to know there's
14 a lot of folks watching you close. Thank you.

15 REPRESENTATIVE WEATHERFORD: Thank you.

16 We have John Thomas up next, and following
17 John is Tom Larson. Is John here? Maybe not
18 here.

19 Is Tom Larson here? Mr. Larson, thank you
20 for being here, sir.

21 After Mr. Larson, we have John Wehrung.

22 MR. LARSON: Thank you very much for
23 coming here from your far-flung districts
24 around the state. My name is Tom Larson. I
25 live in Jacksonville Beach. I am a life-long

1 American, though I am only in the Jacksonville
2 area for the last 13 years. I am here after
3 being in eight other cities following my
4 career, and I am glad to be here. I got here
5 as soon as I could.

6 I find the district shapes that we live
7 with today to be extreme. My Congressional
8 Representative has a district that spans from
9 the east side of Tallahassee all the way to
10 Ponte Vedra Beach. My state senatorial
11 district ranges from the Georgia border to
12 Ormond Beach, and it takes so long to drive
13 from one end to the other of these districts
14 that there's no way to know my neighbors. I
15 really urge you to undertake compact district
16 designs that reflect the community that people
17 live in and their interests that surround their
18 jobs, their schools, their families, and I hope
19 that you find the word "fair" to be your
20 mantra. I know that is subject to
21 interpretation, but we really seek a state
22 where we are all proud of the layout, we are
23 all proud to be represented by you, and urge
24 you to do your best to do us good service.
25 Thank you very much.

1 REPRESENTATIVE WEATHERFORD: Thank you,
2 sir.

3 John Wehrung, and with the desire to earn
4 bonus points has decided not to speak, so John,
5 thank you very much for being here.

6 Raymond Pringle is next, and after Mr.
7 Pringle, we have Tanya Bison. I do want to
8 mention that Tanya Bison is our last speaker,
9 and so if there's anyone here who wishes to
10 speak, but has not filled out a card, please
11 raise your right hand now. We will get a card
12 to you and give you an opportunity to speak.
13 Sir, I see someone right here. Could have been
14 one of the ones that was absent earlier when I
15 called your name. We will come back and look
16 for you, sir.

17 But Raymond Pringle. All right. Good to
18 see you, sir. Thank you for being here. I
19 guess we are in Gator country tonight.

20 MR. PRINGLE: Yes, sir.

21 REPRESENTATIVE WEATHERFORD: Go Gators.

22 MR. PRINGLE: Thank you, Mr. Chair and
23 distinguished panel. Welcome to the bold city
24 of the south, Jacksonville. I see some of you
25 ladies and gentlemen up there that I have known

1 for a long time, and we sure do appreciate you
2 coming.

3 Our town is a great military town, and
4 we -- we are so glad that we have such a
5 wonderful city that we live in, and one of the
6 things that I am really concerned about is our
7 community is changing, and I am just wondering
8 if we are cognizant of just what is going on in
9 our communities in trying to draw out some of
10 these maps.

11 Equality is one of the things that is very
12 important, I think, to each one of us as we sit
13 here and I have heard a lot of folks talking.
14 I live in the Dinsmore area, which is very
15 rural, and our community is changing really a
16 whole lot, and our community has been competing
17 with -- the way the districts are drawn, our --
18 competing with a lot of the downtown district,
19 and a lot of the amenities that go into that
20 district are winding up downtown and not in the
21 area that we live in, and a lot of -- if you
22 see on our map, Jacksonville has a tremendous
23 amount of rural territory, such a big city that
24 we live in, and our services are very sparse,
25 especially transportation. We get a bus down

1 through Dinsmore one time a day, salute. And
2 that is something that we really are concerned
3 about.

4 And another thing, as I look at the
5 drawing of these districts, it reminds me of a
6 drunk chicken, and I don't -- as he maybe drags
7 his tail along with ink on it and going through
8 the lines, it is very hard to get a grasp on
9 just where you are at. Unless you have your
10 voter's card and it will tell you what's going
11 on, you have to be a genius with a map to do
12 so.

13 And so -- but with that, we appreciate you
14 sitting here and listening to all of us and our
15 concerns and maybe a little bit of griping and
16 growling, which all Americans love to do, but
17 we appreciate your ear and thank you very much
18 for listening to us. God bless you one and
19 all.

20 REPRESENTATIVE WEATHERFORD: Thank you,
21 Mr. Pringle.

22 Okay, Tanya Bison. Ms. Bison, and then
23 following Tanya Bison, we have Kathy Davenport.

24 You are recognized.

25 MS. BYRON: Tanya Byron.

1 REPRESENTATIVE WEATHERFORD: Byron, I'm
2 sorry.

3 MS. BYRON: Yes.

4 REPRESENTATIVE WEATHERFORD: My apologies.

5 MS. BYRON: I never wanted to attend one
6 of these things before, it is not what I wanted
7 to do, but when the decisions that you folks
8 are making in Tallahassee are affecting my
9 daily life, I start to pay attention.

10 I second this gentleman's thoughts that I
11 don't quite understand why we, the people, are
12 being asked to put all this effort into this
13 redistricting. We have the expectation that
14 you have the -- that you have the smarts and
15 the know-how and the tools to do this. I would
16 say keep it simple, do it concentrically and
17 keep it simple.

18 I am a property owner. I am busy trying
19 to make my mortgage. I don't have time to do
20 this. But, again, we want you to know that we
21 are watching, the citizens are aware, and I
22 think there is a level of distrust that has
23 made probably a lot of these people show up
24 that would rather be home with their families.

25 You guys have cut more than a billion

1 dollars from Florida schools while you are not
2 making big corporations pay their taxes. Key
3 growth management rules protecting our natural
4 resources have been dismantled lately.

5 REPRESENTATIVE WEATHERFORD: Ma'am, if you
6 could please focus your comments on the
7 redistricting and the map specifically, that
8 would be great.

9 MS. BYRON: Okay. Well, I think this talk
10 about gerrymandering is coming from that place
11 of distrust. That is really all I have to say
12 besides to keep it simple and try and be fair.
13 Thank you.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much.

16 We've got Kathy Davenport, and after that,
17 Mr. Solomon.

18 Ms. Kathy, you are recognized.

19 MS. DAVENPORT: Thank you. Thank you very
20 much, and thank you all for your services.

21 This will be short. I just would like to
22 request that as much as is absolutely possible,
23 to keep Clay County all in one area, and not
24 broken up. I think it would be all in our best
25 interest.

1 And, also -- and I really appreciate you
2 folks working as fast as possible to get all
3 this done so that the information can get to
4 our soldiers overseas so they will have plenty
5 of time to vote and get back to the United
6 States. So thank you very much.

7 REPRESENTATIVE WEATHERFORD: Thank you
8 very much.

9 Mr. Solomon, I'm sorry if we missed you
10 earlier, sir, you are recognized, and thank you
11 for taking the time to be here tonight.

12 Mr. Solomon is our last speaker. If there
13 is anyone who would like to speak, we still
14 have time, please fill out a card and raise
15 your hand and we will get one to you. I see a
16 gentleman right here. I see two gentlemen. We
17 will get you a card. Thank you.

18 MR. SOLOMON: Thank you, Mr. Chairman. I
19 definitely need to attend these kind of
20 affairs, because recently I find myself serving
21 on the North Florida Transportation and
22 Planning Organization, and one of the things we
23 do, we articulate concerns for the year 2050.

24 So we are talking about redistricting,
25 which is good, but one of the things that has

1 to be noted is that there is too much
2 astounding levels of apathy that exists, not in
3 this room, within the general community. And
4 at the same time, there is an imperialistic
5 attitude that exists in some of our
6 Legislatorsures. We need to have a commonality
7 of bond and realize the fact that we are all
8 here together.

9 REPRESENTATIVE WEATHERFORD: Thank you,
10 Mr. Solomon.

11 We've got folks filling out cards right
12 now, so we will give them a minute to do so.

13 Go ahead and come up, sir. I will get
14 your name as you are walking up. Keith? I
15 will let you pronounce your last name for me.

16 MR. SEADORF: Seadorf.

17 REPRESENTATIVE WEATHERFORD: Seadorf.

18 MR. SEADORF: A little bit unique. I am
19 actually on the other end from most of the
20 people here. I have actually only been in the
21 Jacksonville area for a year now. I moved from
22 Atlanta.

23 My only thing is, I would just like to say
24 that I am an IT guy. I was a network engineer
25 for HP in my last job. I am now well on the

1 way to becoming a psychologist right now, so I
2 kind of switched careers, but the point I would
3 like to make from both sides of the House is
4 keep it simple, keep it very technical.

5 Concentric circles is what's been mentioned
6 before. I am sure something can come up with
7 it. That is it.

8 REPRESENTATIVE WEATHERFORD: Thank you,
9 sir.

10 The last person, Randy Covington.
11 Mr. Covington, sir, you are recognized.

12 MR. COVINGTON: My name is Randy
13 Covington. I am a citizen living in District
14 19 in northwest St. Johns County.

15 The first thing I want to do, Chairman
16 Weatherford, Chairman Gaetz and all the members
17 of the distinguished committee here tonight, is
18 take the opportunity to thank you for your
19 service this past session. This is a period of
20 dwindling resources, budgets are stretched to
21 the limit, and everything that you did
22 reflected the best of what we as citizens of
23 this state expect from State Representatives
24 and State Senators. Thank you very much.

25 Beyond that, I want to say this: Fairness

1 is a very difficult thing to really describe.
2 What I will say is this: At the end of the
3 day, what anybody who will be involved in this
4 process will have to make their judgment on is
5 the very open process and all the wonderful
6 tools and paths to participation you have
7 provided the citizens of this state. It is
8 only through open engagement that people can
9 come to understand how difficult the process
10 is, and all of you, we know, have good
11 intentions and will do your very best to serve
12 us in that regard. Thank you very much.

13 REPRESENTATIVE WEATHERFORD: Thank you,
14 sir.

15 The next speaker, the last name is
16 Pittman, I apologize, I can't make out the
17 first name, and after Pittman, we have James
18 Richardson.

19 Ms. Pittman? Thank you for being here,
20 ma'am.

21 MS. PITTMAN: Thank you so much. First of
22 all, I want to thank you all again for taking
23 time and including us in the process.

24 We hope that as you look at redistricting,
25 that you really be fair. We realize that over

1 the years what has worked in the community has
2 helped a lot of people and the residents in our
3 community. So we want you all to keep that in
4 mind, what has worked in our community, and we
5 want you to do this in a fair way that
6 represent and that is very inclusive of our
7 community. We want to thank you for your time
8 in being here, and thank you for giving us an
9 opportunity to speak and be a part of the
10 process.

11 REPRESENTATIVE WEATHERFORD: Thank you
12 very much.

13 Mr. Richardson, James Richardson, you are
14 recognized, sir.

15 MR. RICHARDSON: Thank you. I was born in
16 Jacksonville. I've lived in many other places,
17 mostly in Florida, and then here continuously
18 over the last several years, but one of the
19 reasons why I voted for the Fair District
20 amendments was because it has just become too
21 political and we have a situation where the
22 vast majority of members of the Legislature are
23 of a party that is actually a small -- is
24 actually an under 50 percent minority of the
25 total number of voters. And the reason that

1 can happen is that the few voters of the party
2 that are disapproved -- or the voters that are
3 disapproved by the people in charge are crowded
4 into a few districts where a few of their
5 members, a few of their citizens, can win
6 re-election very easily because of -- because
7 of the public sentiment in that area, whereas
8 the remaining members of the actually minority
9 party of voters are spread out over enough
10 districts to make sure that that -- the
11 minority party will win in almost every
12 district. They give a few incumbents of the
13 majority party and the majority interest, which
14 is the average working person, a few of those
15 people the plums of being able to constantly be
16 re-elected, maybe because of their racial
17 makeup or maybe because of various other
18 self-identification factors. And that doesn't
19 really help the people that belong to those
20 communities, because they get a few -- they can
21 point to a few inspirational members of
22 Congress and the State Legislature that always
23 get outvoted by the others, which doesn't
24 really do them any good. And I think it is
25 fairer to everyone, especially when

1 demographics do change periodically, to have
2 the voting districts drawn up without regard to
3 any demographics other than geographical
4 proximity and community of interest, as it is
5 called.

6 And as much as I love the fact that I, a
7 Caucasian, am in the district that -- where I
8 can vote for an African-American Congresswoman,
9 I would like to see more Congress people, more
10 State Representatives and more -- and more
11 State Senators that represent my views, because
12 so many of the people who represent my views
13 are spread throughout the state rather than
14 having a few that -- a few that always get
15 outvoted. Thank you.

16 REPRESENTATIVE WEATHERFORD: Thank you,
17 sir.

18 Okay. Thank you all so much for your
19 comment. Before we move forward and allow
20 Senator Gaetz to close us out, I would like to
21 give members of the committee an opportunity to
22 either ask questions and/or give input. So at
23 this moment, any members of the committee that
24 wish to speak, we would love to give you that
25 opportunity. Representative Julien? Any

1 members?

2 Representative Frishe, you are recognized,
3 sir.

4 REPRESENTATIVE FRISHE: Thank you, Mr.
5 Chairman. Okay, now we are on.

6 Ladies and gentlemen, thank you very much
7 for coming out. What we have heard today has
8 been very instructional. I don't come from the
9 Jacksonville area, and I am on the House
10 Subcommittee for Redistricting, and I have
11 learned a great deal about your interests here
12 locally. And I know I have a lot more to learn
13 about it, so please send your ideas in, send
14 your concerns in.

15 Freedom is a heavy lift, and as you
16 probably all know, we are part-timers up here,
17 we all have other full-time jobs that we try to
18 maintain. And as much as I love my job, my
19 wife likes me to earn a living, too.

20 So be involved, contribute to the process.
21 Freedom is a heavy lift, we need you to help.
22 But thank you very much for coming out tonight.
23 We appreciate it.

24 REPRESENTATIVE WEATHERFORD: Thank you,
25 Representative Frishe.

1 Members, any other comments or questions
2 tonight? Not seeing any.

3 Senator Gaetz, perhaps maybe -- there were
4 some questions that were raised during the
5 hearing. Perhaps maybe you could shed some
6 light on those for us and for the members of
7 the audience. You are recognized, sir.

8 SENATOR GAETZ: Thank you, Mr. Chairman,
9 and thank you all for being here.

10 We just concluded a series of hearings in
11 Senator Montford's, Senator Evers' and my home
12 territory, the Panhandle, and now we are here.
13 And as I was listening to all the input we got
14 in the Panhandle, I was so glad that my
15 colleagues from the rest of the state were
16 there and listening, because how else could
17 they appreciate some of the nuances, some of
18 the idiosyncrasies, some of the little
19 irritations that we have dealt with over the
20 past ten years?

21 And I am so glad that I am here in
22 northeast Florida tonight with my colleagues
23 from elsewhere in the state, because while
24 there may be some who would say, "Why didn't
25 you just bring us the maps and we would have a

1 *fait accompli*, and then we could either say we
2 like them or don't like them," you know, there
3 is something to be gained by listening first
4 and then sitting down and drawing conclusions.
5 How else could we have heard about or learned
6 about the specifics of your neighborhoods, of
7 your communities? I have taken eight pages of
8 notes just about specific neighborhoods, about
9 where District 16 and District 17 ought to be
10 -- ought to be divided. We couldn't -- we
11 couldn't have possibly accomplished receiving
12 that sort of input if we would have just sat in
13 Tallahassee in an echo chamber and didn't have
14 the benefit of your involvement. So thank you
15 for taking the time.

16 Let me comment on a couple of things,
17 again, just so that we can do a little
18 fact-checking. There have been a couple of
19 comments made tonight and today about some sort
20 of a gag order, suggesting that you are
21 communicating with us, but we are not
22 communicating with you, and, therefore, there
23 is a gag order. You heard the Chairman offer
24 the mike to any member of this committee,
25 Democrat or Republican, House member or

1 Senator, to offer any proposal, and what I am
2 hearing is that most are like me, and that is
3 we want to hear from people in the 26 public
4 hearings before we commit ourselves to
5 something that might not work for your
6 neighborhood or your community. But, you know,
7 I learned a long time ago that when both sides
8 are talking at the same time, that is not
9 communication. First somebody has to speak and
10 somebody has to listen. And I think it is our
11 view in Senate and in the House that it is
12 better for you to speak and us to listen.
13 There will be plenty of time for us to
14 communicate back, as I indicated at the
15 beginning of this hearing. We will be back in
16 Tallahassee in September. We will be holding
17 open committee meetings. Members will use all
18 of the input we have received to make
19 proposals, to propose maps. Believe me, we
20 will be communicating back. You don't need to
21 worry about politicians not having enough
22 interest in talking and making their proposals.
23 It is remarkable we have been able to be this
24 still this long.

25 And a comment was made, "Well, you know,

1 gosh, why are there references to special
2 interest groups and why they haven't made
3 proposals, why does it take a special interest
4 group to make a proposal?" It doesn't. We've
5 already had multiple submissions of plans for
6 the Senate, for the House, for congressional
7 districts, for particular areas of the state,
8 made by individuals, including an individual
9 who was here earlier today and as well tonight.
10 We simply wanted to make it obvious and
11 welcoming that the special interest groups who
12 are following us from hearing to hearing with
13 the same preordained scripts are also welcome
14 to make proposals if they would like. They
15 don't have to. It is absolutely true, we're
16 paid that huge salary of \$28,000 a year to be
17 state Legislators, and you are darn right we
18 are going to propose maps and we are going to
19 offer up bills, but that doesn't mean that you
20 don't have good ideas that we shouldn't listen
21 to first. And we have heard -- as I said, I've
22 got eight pages of good ideas that's come out
23 of today.

24 Then someone made the comment that the
25 Governor slow-rolled the census data. Well,

1 let's do a little fact-checking on that. The
2 Governor doesn't provide census data. That is
3 the Bureau of the Census, that is a federal
4 agency, and they provided the census data in
5 groups of states. Florida was in the last
6 group that received census data. That was a
7 federal decision. They don't release all the
8 census data at once. And as soon as we
9 received the census data, within hours, we had
10 all of the demographic information on our
11 websites available to every Floridian. The
12 Governor didn't tell us to do it, didn't tell
13 us not to do it, had absolutely no role in it.

14 The Senate and the House, in response to
15 another question, did offer to the United
16 States Justice Department, Amendments 5 and 6
17 for pre-clearance. It took a little while to
18 make sure that we could put down the legal
19 arguments that we thought were germane as to
20 why 5 and 6 should be pre-cleared, and we
21 offered them for pre-clearance and argued that
22 they should be pre-cleared, and they were
23 pre-cleared based on our submission.

24 You know, there are some who say, "Well,
25 we should have come here with preordained maps

1 and just put them down and then said, 'By
2 golly, take it or leave it.' My guess is if we
3 would have done that, we would have had
4 criticism from people who said, "Well, why
5 didn't you listen first?" And, frankly, and I
6 don't mean to be cynical, we might have heard
7 that criticism from some of the very same
8 people who are saying, "Why in the world are
9 you letting citizens speak first, why don't you
10 just come and give us the answer?"

11 There's someone who suggested there ought
12 to be -- that redistricting ought to be based
13 on registered voters only. Well, federal law
14 won't let us do that. Federal law says that
15 districts must be based on population, not just
16 on people who choose to vote. People who
17 choose not to vote have just as much right to
18 be represented equitably as people who do vote.
19 So it can't be based on registered voters or on
20 people who decide to vote.

21 And then someone else had an idea that I
22 wish we could do. They said, "Why don't you
23 just have computer graphics, just program this
24 into a computer, let the computer draw the
25 maps?" Well, first, we have had groups of

1 students from as far away as Columbia
2 University look at redistrict in Florida and
3 offer maps based on computer models. But the
4 Constitution says that it is the Legislature,
5 not the computer, that has to vote, because you
6 can vote us out if you don't like what we do,
7 but if we just trust it all to a computer, will
8 the computer take into account all of the
9 concerns that you have laid out in our hearing
10 today? I am not so sure.

11 So computer models are welcome. If you've
12 got one, send it in. We've had several people
13 who have done it. We will be using computer
14 models. We have provided the computer software
15 that would be used by policy makers, it is on
16 the website and you can use it. So if you
17 think a computer model might be useful, go
18 ahead. But at the end of the day, there still
19 have to be accountable decisions made by people
20 whom you elect.

21 Then there was -- there have been a couple
22 of comments made, and I find this to be
23 interesting as well, I am sure all of us do,
24 and that is, "Well, we really have a state here
25 where, you know, the plurality of voters are

1 Democrats, and the next group either are
2 Republicans or non-party affiliated, depending
3 upon where you count, and then the
4 fastest-growing group of voters are non-party
5 affiliated, so why can't the Legislature just
6 be divided that way?" Well, the reason is
7 because we can't guarantee how people are going
8 to vote. There are 40 Senate districts, and
9 there are 28 Republicans in those 40 Senate
10 districts, we have 28 Republican Senators. But
11 Barack Obama carried eight of the districts
12 that are represented by Republican Senators.

13 Now, you know, should we force people, go
14 to the polls and say, "Well, now, look, you are
15 Republicans, you can't vote for Barack Obama"?
16 You know, what happened was that Barack Obama
17 had, you know, a better campaign, a more
18 persuasive campaign, a better message in the
19 eyes of many, many Independents and Republicans
20 who voted for him.

21 So we can't -- we can't guarantee results.
22 We still have to allow Republicans, Democrats
23 and that growing group of voters who are
24 Independents to make their own decisions. And
25 I can tell you this, that there are many people

1 who will vote for a Democrat for one office, a
2 Republican for another office, because they are
3 looking at the individual and the campaign and
4 the message and the issues. Very few people
5 now vote a straight party line. And so we
6 can't guarantee that the state is going to come
7 out numerically exactly the way the voting
8 population does, because we can't force people
9 to vote a straight party line. And there is no
10 way to draw districts to do that.

11 There have been a couple of references
12 today to a lawsuit and the government suing its
13 citizens. Anybody here been served with a
14 lawsuit about redistricting? Anybody here
15 gotten the sheriff to come to your door and
16 tell you you are being served on a lawsuit
17 about redistricting? I don't think so. The
18 fact is that the government is not suing its
19 citizens. The real fact is that there is a
20 lawsuit. The lawsuit has been brought by two
21 members of the United States Congress, a
22 Democratic member of Congress and a Republican
23 member of Congress. The lawsuit has nothing to
24 do with state redistricting. It has to do with
25 only congressional redistricting. And I am not

1 a lawyer, but as I understand it, the lawsuit
2 seeks clarification as to any apparent
3 inconsistencies between the Voting Rights Act
4 and Amendment 6. And anybody has a right to do
5 is that.

6 My guess is that that won't be just the
7 first lawsuit. That will be one of many
8 lawsuits that might be filed, because now we
9 are in a time when, arguably, more people will
10 feel like they have standing to file a lawsuit
11 when, as the Constitution now says, "No line
12 may be drawn with the intent to either favor or
13 disfavor any incumbent or any political party."
14 That is what Amendments 5 and 6 say: "No line
15 may be drawn with the intent to either favor or
16 disfavor any incumbent or any political party."
17 Now draw the first line. You see, there will
18 be people who feel that they have a standing to
19 file a lawsuit. Two members of Congress have.
20 That is the lawsuit that people are talking
21 about.

22 Now, it is true that the House of
23 Representatives is an intervenor in that
24 lawsuit to seek this clarification. The Senate
25 choose not to be an intervenor. But I think

1 it -- we probably need a little fact-checking
2 on the assertion that somehow there's millions
3 and millions of dollars being spent by the
4 government suing its citizens. That is not
5 true. The lawsuit is by two members of
6 Congress, one a Democrat and one a Republican.

7 Lastly, Mr. Chairman, there are several
8 people who have said, "Keep it simple." We
9 sure would like to, we sure would like to, but
10 imagine today, and my eight pages of notes bear
11 this out, I am sure others have notes as well,
12 there's not agreement in this room. We might
13 keep it simple and make you happy or make you
14 happy, but I am not sure we could keep it
15 simple and make everybody happy.

16 What we have to do is follow Amendments 5
17 and 6, they are in the Constitution, but as we
18 have seen today, there's a lot of difference of
19 opinion about what those terms might really
20 mean. We have to follow the Voting Rights Act.
21 We have heard differences of opinion today
22 about what that might mean. You know, is it
23 communities of interest? Is it geographic
24 boundaries? Is it political boundaries? We
25 heard today about growth centers. Maybe growth

1 centers, that is a new term, ought to be used
2 to define communities and districts.

3 That is why we are doing the 26 hearings,
4 to hear from you. That is why we have the
5 Internet sites up, because we want you to
6 propose what you think makes sense. We are not
7 asking you to do our job. We are asking you to
8 do your job as a citizen in a town meeting to
9 stand up and say what you think ought to be
10 done with something that is critical to our
11 democracy, and that is the determination of how
12 we will be represented, a determination that we
13 make once every ten years.

14 I just want to thank you again. We have
15 received extraordinary input, input we couldn't
16 have received any other way other than you
17 being here. So thank you very much. Thank
18 you, Mr. Chairman, for allowing all of this
19 input today. And we hope that if you have
20 further comments to make -- this is not your
21 last time to have input. This is your first
22 time. You can have input through the Internet,
23 through snail mail, through additional public
24 hearings. We are going to be in St. Augustine
25 tomorrow. If you are part of the traveling

1 road show -- we have some folks who travel with
2 us and give the same testimony at every
3 hearing -- you are welcome to come to St.
4 Augustine. But thank you very, very much for
5 being citizens who cared and participated.
6 Thank you, Mr. Chairman.

7 REPRESENTATIVE WEATHERFORD: Thank you
8 very much, Mr. Chairman. Thank you all, ladies
9 and gentlemen, for being here and for your
10 input, and Chairman Gaetz moves we rise.

11 (Whereupon, the proceedings were
12 concluded.)

REDISTRICTING COMMITTEE

TUESDAY, JULY 12, 2011

6:00 P.M.

NEW JOURNAL CENTER AT DAYTONA STATE COLLEGE

DAYTONA BEACH, FLORIDA

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 REPRESENTATIVE HUKILL: Thank you,
3 members. The Joint Senate House Redistricting
4 Hearing is called to order. Several committee
5 members are here, as well as other
6 Representatives and Senators, and I am going to
7 ask that each introduce themselves and just
8 tell us where they are from. So if we could
9 past the mike around.

10 CHAIRMAN GAETZ: Could we begin with
11 Senator Lynn, in who's district we are
12 delighted to be, Senator Lynn.

13 SENATOR LYNN: I am so happy that you are
14 all here, and I want to thank the two Chairmen.
15 Is it on?

16 REPRESENTATIVE HUKILL: Yes, it is on.

17 SENATOR LYNN: Can you all hear me?

18 REPRESENTATIVE HUKILL: No.

19 SENATOR LYNN: Okay, now, we go. I want
20 to thank you all for being here, because
21 certainly this is an opportunity for you to
22 tell us whatever it is you think is important
23 as we look at redistricting, but I also want to
24 thank Representative Weatherford and Senator
25 Gaetz were kind enough and our own

1 Representative Hukill is a Co-Chair on the
2 House side, but they were kind enough to have a
3 meeting here in Daytona Beach which I very,
4 very much appreciated because I think it is so
5 important that we all have opportunities
6 throughout the state to have input.

7 There are very many meetings and we will
8 be going to a lot of them throughout the entire
9 state, but I thought it was very important,
10 because in this area we have reached a
11 diversity of opinion on so many things.

12 So I do thank you, Chairman, for doing
13 this and I thank you all for being willing to
14 come out and I look forward to hearing what you
15 have to say. Where would you like me to pass
16 this now?

17 CHAIRMAN GAETZ: Anywhere you want.

18 SENATOR HAYS: Do you want me to take it?
19 You can tell we get along well. Thank you for
20 being here. I am Alan Hays, Senator for
21 District 20, which includes the western half of
22 Volusia County and points on further west than
23 that, but we are glad you are here. We
24 appreciate you coming and we look forward to
25 hearing what you have to say.

1 REPRESENTATIVE HUKILL: Could we pass that
2 down here, because I would like to have
3 Representative Costello and Representative
4 Taylor introduce themselves since this is
5 Volusia County, and Representative Brodeur. I
6 am sorry, let's get Representative Brodeur, he
7 is right there, it is easier.

8 SENATOR THRASHER: I am Senator Thrasher.
9 I am John Thrasher. I represent Senate
10 District 8 which includes part of Nassau,
11 Duval, St. Johns, Flagler and I am proud to
12 say, Volusia County. Thank you for being here.
13 I appreciate it.

14 REPRESENTATIVE BRODEUR: Thank you, I am
15 Jason Brodeur, State Representative from
16 District 33. I represent, I live in Sanford in
17 Seminole County, but I represent parts of
18 Volusia County, in the western part, parts of
19 Deltona, Osteen and Enterprise. So very
20 excited to be here and thank you for coming
21 out.

22 REPRESENTATIVE HUKILL: Let's just keep
23 it, Representative Precourt, just take it. We
24 are moving around too much.

25 REPRESENTATIVE PRECOURT: Thank you, your

1 call. I am Steve Precourt, House
2 Representative from District 41 and Vice-Chair
3 of the House (inaudible).

4 A VOICE: Senator Caldwell.

5 REPRESENTATIVE CALDWELL: Representative
6 Matt Caldwell from southwest Florida, District
7 73, Lee County.

8 REPRESENTATIVE BOYD: Representative Jim
9 Boyd from District 68, Manatee County, which is
10 Bradenton, Florida, just south of Tampa Bay.

11 REPRESENTATIVE PASSIDOMO: Kathleen
12 Passidomo, Collier County. I represent the
13 City of Naples, Marco Island, Everglades City
14 and a lot of the Everglades.

15 REPRESENTATIVE NEHR: Representative Peter
16 Nehr from Pinellas County and Pasco County.

17 SENATOR EVERS: I am Representative Greg
18 Evers. I represent Senate District 2 in the
19 panhandle, great northwest.

20 REPRESENTATIVE ADKINS: Hi, my name is
21 Janet Adkins, I represent House District 12,
22 which is Nassau, Baker, Bradford, Clay, Union
23 and Duval County.

24 SENATOR MONTFORD: I am Bill Montford,
25 State Senator from District 6 with 11 counties,

1 rural counties and around Tallahassee, Leon
2 County, and ten others, all or a part of them.
3 Glad you are here, appreciate you coming and
4 sharing your ideas with us.

5 REPRESENTATIVE PLAKON: My name is Scott
6 Plakon, House District 37, and I represent
7 parts of Orange and Seminole Counties.

8 SENATOR DEAN: State Senator Charlie Dean.
9 I represent District 3, the Florida Senate from
10 Baker county west to Leon County, south to
11 Citrus County, Hernando County and all or part
12 of 13 counties.

13 REPRESENTATIVE DORWORTH: Hi there, my
14 name is Chris Dorworth. I am a Representative,
15 I serve in Seminole and Orange Counties.

16 REPRESENTATIVE LOGAN: Representative Ana
17 Rivas Logan and I represent parts of Miami Dade
18 County.

19 REPRESENTATIVE BAXLEY: Hi, I am Dennis
20 Baxley, House District 24, serving Ocala,
21 Marion County, and I am a graduate of Mainland
22 High School. It is great to be back.

23 REPRESENTATIVE KIAR: Hi everybody, my
24 name is Martin Kair, and I am The state
25 Representative for House District 97 which is

1 located solely within Broward County. Thank
2 you for coming today.

3 REPRESENTATIVE ROGERS: Good evening, I am
4 Hazelle Rogers. I represent eight cities in
5 Broward County, 1.8 million residents in
6 Broward County, one of the most diverse
7 counties in the State of Florida. Good to be
8 here. Thank you.

9 REPRESENTATIVE CLARKE-REED: Good evening,
10 I am State Representative Gwyndolen Clarke-Reed
11 and I represent House District 92, which is the
12 northeast part of Broward County down to Ft.
13 Lauderdale. Glad to be here and I want to hear
14 what you have to say.

15 REPRESENTATIVE CHESTNUT: Good evening,
16 Chuck Chestnut, House District 23, a portion of
17 Alachua County and a portion of Marion County.

18 REPRESENTATIVE JONES: Good afternoon,
19 State Representative Mia Jones from
20 Jacksonville.

21 REPRESENTATIVE BERNARD: Good evening,
22 State Representative Mack Bernard from West
23 Palm Beach, Florida.

24 REPRESENTATIVE FRISHE: Welcome, I am
25 Representative Jim Frishe, I represent the

1 western edge of Pinellas County, all of the
2 beaches.

3 REPRESENTATIVE JULIEN: Good evening. My
4 name is John Patrick Julien. I represent House
5 District 104. It is a pleasure to be here and
6 look forward to hearing what you all have to
7 say.

8 REPRESENTATIVE DRAKE: Brad Drake, Fifth
9 House District, panhandle Florida.

10 REPRESENTATIVE HOOPER: Good evening, Ed
11 Hooper, House District 50, part of Pinellas
12 County.

13 REPRESENTATIVE FORD: Clay Ford, House
14 District 3, parts of Escambia and Santa Rosa
15 County. It is the Pensacola area.

16 REPRESENTATIVE COSTELLO: Good evening,
17 everybody, Fred Costello, District 22, I am
18 honored to represent many of you. Let me just
19 tell you something. This is one group of
20 wonderfully honorable people. I want you to
21 give them a warm Daytona Beach, Volusia County
22 welcome.

23 REPRESENTATIVE YOUNG: Representative
24 Costello is hard to follow, but I am
25 Representative Dana Young. I represent the

1 City of Tampa and part of Hillsborough County.
2 Welcome. Thank you.

3 REPRESENTATIVE TAYLOR: Good evening,
4 everyone, I am Dwayne Taylor and I am proud and
5 honored to represent you here in Daytona Beach
6 and in Volusia County.

7 I just want you to know I have a bunch of
8 wonderful colleagues that I would like to
9 welcome, not only to my district, but my home
10 where I spent 43 years of my life here. I want
11 to thank the Chairs, chair Weatherford and
12 Chair Gaetz for honoring Daytona Beach by
13 bringing this House Redistricting Committee
14 here.

15 We need the money in this community, and
16 folks, please don't say anything to embarrass
17 me tonight. Thank you.

18 REPRESENTATIVE WEATHERFORD: Forty-three.
19 We thought he was a lot older than that. My
20 name is Will Weatherford. I am a State
21 Representative from District 61. It is in
22 Pasco County and part of Hillsborough County.
23 Honored to be here.

24 REPRESENTATIVE HUKILL: Thank you so much.
25 My name is Dorothy Hukill, and I represent

1 District 28, Volusia County. I am so proud
2 that so many of my fellow Volusians came out
3 tonight to greet us and to tell us how they
4 feel about this process and what they think is
5 important to them.

6 I, along with my Senate colleague, Don
7 Gaetz, sitting to my right, will be chairing
8 today's hearing which is being webcast
9 statewide by the Florida Channel over the
10 Internet.

11 Our sole purpose tonight is to hear from
12 the public about how you believe the legal
13 standards governing redistricting should be
14 applied in your community so that you will be
15 represented in Washington and Tallahassee
16 fairly, equitably and sensibly.

17 Our procedures today are simple but
18 important. It is important that you sign in so
19 that we create an accurate public record of all
20 attendees and speakers.

21 Also, you may opt to join our e-mail list
22 so that you can keep informed about the
23 redistricting process and how it is working
24 over the next several months.

25 If you have not signed in and we have many

1 people signed in, if you have not signed in to
2 speak tonight, please raise your hand and a
3 staff member will give you an attendance card.

4 If you wish to speak today and have not
5 filled it out, please do that now. Before we
6 begin the Chair will recognize Senator Gaetz to
7 explain how today's hearing fits into the
8 redistricting process. Chairman Gaetz.

9 SENATOR GAETZ: Thank you very much.
10 Thank you, Representative Hukill. I am Don
11 Gaetz and I represent five coastal counties in
12 northwest Florida in the panhandle, from
13 Pensacola to Panama City.

14 Every ten years the Legislature is
15 required by our State Constitution to
16 redistrict the state based on decreases,
17 increases or movements of population from one
18 place to another, and because Florida has grown
19 more than other states in the last ten years,
20 we also move up from 25 members of the U.S.
21 House of Representatives to 27 members, and we
22 also pick up two more electoral votes in the
23 electoral college as a result of our increased
24 population.

25 Now, because some parts of our state have

1 increased or decreased disproportionately to
2 others, many Senate and House Districts will
3 change either adding or losing population.

4 There is a chart in the back that many of
5 you I saw were looking at when you came in.
6 You can look at it during the hearing or on
7 your way out and it indicates all of the
8 Congressional House and Senate Districts in
9 this part of Florida, and how many additional
10 voters those districts will have to pick up or
11 lose in order to be equal in population.

12 Because when redistricting is done,
13 Congressional Districts must be equal in
14 population and every Congressional District in
15 America and every Congressional District, of
16 course, in Florida, must contain 696,345
17 people.

18 There are 40 Senate Districts in Florida,
19 and they must be nearly equal at about 470,000
20 people, and our 120 House Districts must also
21 be nearly equal at about 156,700 people.

22 There are displays that you can see.
23 There are maps in the back of the room showing
24 the current boundaries of our current districts
25 in this part of the state, and you can see over

1 on the chart over in that part of the room the
2 number of persons that have to be added to or
3 subtracted from current districts to achieve
4 equal representation. So those are the maps.

5 Those are the districts that we can use as
6 a take-off point to say, here is what is wrong
7 with this district, here is where that line
8 needs to be changed, here is where this makes
9 sense or doesn't make sense.

10 You have an opportunity to use that as a
11 take-off point for any of your comments tonight
12 or your comments going forward, but equality of
13 representation isn't the only legal requirement
14 that redistricting plans have to meet.

15 The laws and the important court cases
16 governing redistricting are explained in detail
17 on the House and Senate websites.

18 Those websites are listed on the
19 Redistricting 2012 brochure that was available
20 when you came in. The gentleman in the yellow
21 shirt down front has one. Would you hold it
22 up, just hold it up? There you go. That is
23 the brochure.

24 That brochure summarizes Federal and State
25 laws and outlines topics that we hope to hear

1 from you on tonight. If you did not get a copy
2 when you came in, they are available as you
3 leave, and our staff will be happy to get you a
4 copy.

5 The brochure lists our websites and the
6 websites are packed with information about
7 redistricting, including an explanation of the
8 laws and the important court cases governing
9 this topic.

10 You see the Legislature can't do what it
11 wants, we have to follow Federal law, State
12 law, constitutional requirements and applicable
13 court cases, and they are all listed in detail
14 on the website for you to look at if you would
15 like.

16 The website will also deliver to your
17 fingertips all of the demographic information
18 that is used to draw districts, and you will
19 also see overlaid on the demographic
20 information the same computer programs that
21 Legislators and policymakers would use to draw
22 lines.

23 So the demographic information provided to
24 Florida from the Bureau of the Census, and we
25 got our demographic information later than many

1 states. We got, got it in a later tranche.
2 That is why some states are ahead of us, but
3 all of that information is on the website, and
4 then the software that we will be using to draw
5 districts is there, so that you can use the
6 software if you would like and build districts
7 and submit a plan for your neighborhood, your
8 community, this part of the state or the whole
9 state if you would like.

10 Recommendations from citizens and from
11 groups of citizens, interest groups will be
12 made publicly available as soon as we get them
13 from you. In fact, some public submissions
14 already are available on the web.

15 We are delighted, yesterday when we were
16 in Jacksonville during our hearing there were
17 three maps submitted by groups, by individuals
18 in the state of Florida just dealing with
19 Senate Districts alone, and we received
20 Congressional District maps and other maps
21 during that hearing as well.

22 So we are already receiving a lot of
23 information and input. The maps are on the
24 website and we would be delighted for you to
25 look at them and comment on them.

1 The submission of proposed maps from
2 Legislators as well as from the public is the
3 best way for you to show your public
4 participation in the redistricting process.

5 Now, the redistricting schedule, the
6 timeline under which we are operating is
7 imposed by the State Constitution. We can't
8 change it. The Constitution does not permit
9 the Legislature to act on legislative maps. We
10 can't vote on them before the second year after
11 the census.

12 In other words, we can't vote until 2012.
13 Now, in order to accelerate that process
14 because we want to make sure that candidates
15 and incumbents and political parties and
16 citizens mostly know what the maps are and what
17 the process is as soon as possible, we have
18 accelerated the redistricting process as much
19 as we could by moving up the 2012 legislative
20 session from March, when we usually start to
21 January, the first time we could do it
22 constitutionally.

23 And we are beginning our statewide
24 hearings five months in advance of the 2012
25 session. Now, some folks have suggested that

1 the Legislature should just draw the maps and
2 bring them here and say, go ahead and you
3 comment on them and we will draw them, you
4 comment on them, but we believe that that puts
5 the answer ahead of the question.

6 We think there ought to be in this
7 important process no preconceptions created by
8 politicians. We already have maps that we can
9 use as a take-off point, but rather public
10 testimony should be free and unrestricted by
11 any political preconceptions that members of
12 the Legislature have.

13 In fact, Ellen Freidin, the Chairperson
14 for Fair Districts stated in testimony before
15 the Legislature last year that no maps could be
16 drawn. She wouldn't even attempt to draw maps
17 until after the public has had an opportunity
18 to comment, and we agree with Ms. Freidin in
19 Fair Districts on that issue.

20 Our intent is to use the recommendations
21 made of the 26 public hearings that we are
22 holding and the input we are receiving through
23 our Internet sites as the basis for developing
24 one or more options for district maps.

25 Then we will discuss those options in open

1 public meetings before any votes are taken. So
2 this is not your last opportunity for input.
3 It is your first opportunity for input, and any
4 map that is drawn or submitted by any member of
5 the Legislature, any interest group, any
6 citizen, you will see it and you will have a
7 chance to comment on it again before the first
8 committee vote is taken.

9 Whenever the Legislature passes a map or a
10 plan or looks at one or more options, then that
11 is submitted for judicial review to ensure that
12 a final plan meets every legal requirement. So
13 the Court has to review anything that we
14 finally do.

15 Because our purpose today is to hear from
16 you now that we have kind of laid out what the
17 process is going forward, all of the time
18 between now and our adjournment tonight at
19 9:00 will be used to ensure that every member
20 of the public who is here and wishes to speak
21 will have time to present testimony and be
22 listened to respectfully, without interruption
23 and without argument, but there is no gag rule.

24 Every, after every citizen has had his or
25 her say, then if there is time remaining and we

1 hope there will be before scheduled
2 adjournment, then any member of the committee
3 may make any statement, offer any observation,
4 answer any question or offer any proposal or
5 map.

6 Madam Chair, I hope that this description
7 of our schedule and the process going forward
8 helps set the stage for a successful hearing
9 and we look forward to hearing from the people
10 who have come here tonight to share their
11 views.

12 REPRESENTATIVE HUKILL: Thank you,
13 Mr. Chairman. Before we proceed with that
14 process I want to recognize one of our former
15 colleagues. We have now County Council Woman
16 Joyce Cusack, former State Rep. Joyce, could
17 you to stand up? Good to see you.

18 No, I didn't, and we also have, I can't
19 see with the lights, but Pat Patterson, former
20 State Rep Pat Patterson, where are you? There
21 you are. Welcome. Thank you for coming
22 tonight.

23 All right, we will adjourn promptly at
24 9:00 tonight. So far there are 36 individuals
25 -- Senator -- I am sorry. We have Senator

1 Baker, is Senator Carey Baker here?

2 CHAIRMAN GAETZ: Senator Baker.

3 REPRESENTATIVE HUKILL: Thank you for
4 coming. All right, we will adjourn promptly at
5 9:00 tonight. There are 36 individuals signed
6 up to speak so far.

7 Is there anyone else who wishes to speak,
8 please raise your hand and we will get a card
9 to you.

10 To ensure that each person is heard we are
11 going to divide the time equally and ask each
12 testifier to please limit your time to three to
13 five minutes.

14 Please be considerate of all of the people
15 behind you. We want the first person who
16 speaks and then the last person who speaks to
17 have the same amount of time. So please be
18 considerate.

19 I am going to call on a person and then
20 have the next up so that you know that you are
21 on deck and you will be ready.

22 Our first speaker tonight will be Jim
23 Cameron from the Daytona Regional Chamber,
24 followed by Sandra Rose.

25 Mr. Cameron, you are recognized. The

1 floor is yours.

2 MR. CAMERON: Thank you. I am Jim
3 Cameron, Senior Vice-President of Government
4 Relations, Daytona Regional Chamber, and I want
5 to say we are glad to have you in town tonight.

6 We appreciate you going on the road,
7 taking the input of people like we have out
8 here throughout the state. So we think this is
9 the right process, because you are getting the
10 input from the people.

11 Like Senator Gaetz said, you don't have
12 maps come in here already drawn, you are
13 getting the input first, so we like that
14 process there.

15 We, at the Chamber, as far as Volusia
16 County, we have had a nearly 12 percent
17 increase from the last process though, but we
18 have had some shifts in population, but we want
19 to support any type of plan that is going to
20 increase voter turn out.

21 We can't get enough of that, but we feel
22 that communities of like interests should be
23 well represented as a top priority. We want to
24 make sure that minorities, all constituencies
25 are represented in the Legislature as well as

1 Congress.

2 As for Volusia County, our Chamber, we
3 would like to see two to three Congressional
4 Districts and we would like to see these built
5 around strategic economic drivers. Our
6 beaches, our ports, airports, speedway,
7 industrial parks, higher educational
8 facilities. So that is what we are looking at,
9 two to three congressional districts.

10 As for Senate Districts, we are saying no
11 more than four Senate Districts with at least
12 one being Volusia majority based. As for the
13 House, no more than six House Seats in Volusia,
14 but with at least three of those being, again,
15 Volusia majority based.

16 I also want to commend, like I say, all of
17 you for coming here tonight. As I said earlier
18 for taking the time and doing this process. I
19 wanted to also thank your staff, because I have
20 been working with my District Builder, it is a
21 little bit different from the Fred System ten
22 years ago though, but Alex and Jason, they have
23 done -- they have been very patient and walked
24 me through the process and all. So I wanted to
25 thank them as well. Thank you for coming

1 tonight.

2 REPRESENTATIVE HUKILL: Thank you very
3 much, Mr. Cameron. Thank you for your
4 testimony. Next up we have Sandra Rose,
5 followed by Ann McFall. Ms. Rose, you are
6 recognized.

7 MS. ROSE: Good evening. As we know, the
8 Legislature cut \$300 million in corporate
9 taxes. Now you are suing us with our own
10 money. You have put up saying maybe up to \$30
11 million that you are willing to spend to sue
12 the taxpayers.

13 What I want to know, if we are supposed to
14 be cutting back, saving money, why are you
15 willing to spend \$30 million of my money, their
16 money, to sue us for Amendments that we have
17 already voted for and passed. Thank you.

18 REPRESENTATIVE HUKILL: Thank you very
19 much, Ms. Rose. Ann McFall and Ann is our
20 Volusia County Supervisor of Elections,
21 followed by Lynn Peterson. Ms. McFall.

22 MS. MCFALL: Thank you.

23 REPRESENTATIVE HUKILL: Thank you for your
24 service to our county and our state.

25 MS. MCFALL: Thanks. And Senators and

1 Representatives, welcome to Volusia County. I
2 have been to this rodeo before. In the '90s, I
3 served on the Volusia County School Board
4 during the reapportionment and the
5 redistricting. In 2000, I was the Chair of the
6 Volusia County Council when we redistricted,
7 and the most challenging job there ever is, is
8 to be Supervisor of Elections when lines are
9 drawn. It makes you a little testy, if you
10 will.

11 I just want to share a few minutes,
12 political jurisdictions going through Volusia
13 County and I don't want to sound selfish. This
14 is not exclusive to Volusia County. I think
15 everyone on the dais knows this happens in
16 their counties as well.

17 Volusia County shares political
18 jurisdictions with 13 other counties. We have
19 three Congressional Districts, 3, 7 and 24;
20 four State Senate seats, 1, 7, 8 and 20; six
21 State House seats, 21, 25, 26, 27, 28, 33; five
22 County Council districts; five School Board
23 districts, elected by zone; an elected hospital
24 district, going through half of Volusia County
25 alone, not all of Volusia County votes in the

1 west Volusia hospital district; five Soil and
2 Water seats elected county-wide.

3 We have 16 cities, four of which run by
4 zone, Daytona Beach, Deltona, Ormond Beach,
5 Orange City. Volusia County has 179 precincts.
6 It cost the general fund of Volusia County
7 about \$1,500 per precinct per election.

8 Of the 179 precincts, 43 precincts are
9 split. Well, what does that mean? That means
10 every time a line is drawn and then another
11 line is drawn and another line is drawn, you
12 have splits in that one precinct, because the
13 precinct is there for ten years as well.

14 Precinct 602 I think is probably the
15 poster child for split precincts. It has eight
16 different splits, and that is the Pelican Bay
17 area. The eight splits during our primary
18 means you have a Democratic ballot, a
19 Republican ballot and an MPA ballot. So three
20 times eight gives you 24 different ballots in
21 one precinct.

22 If Volusia County had no split precincts
23 we would have 290 precincts. Of those 290, 55
24 would have less than 100 voters. So you see
25 the impact and I am sure everyone on the dais

1 understands the impact of drawing a line, and
2 what impact it has for the next ten years on
3 every department of elections statewide.

4 So I ask that you look at the lines, maybe
5 be appreciative of political jurisdictions,
6 whether it is a county or a city. I don't care
7 how many districts there are, just let me know
8 in plenty of time, so ideally I -- actually,
9 the VTDs we presented last year to the
10 legislative staff, Volusia County, if things
11 were drawn a little clearer, would just need
12 129 precincts, we wouldn't need 179.

13 So I just ask that you be mindful of that.
14 I don't care where you draw the lines, but be
15 mindful of the political jurisdictions, and I
16 thank you.

17 REPRESENTATIVE HUKILL: Thank you very
18 much, Ms. McFall. All right, next up we have
19 Lynn Peterson, followed by Lisa Walker.
20 Ms. Peterson, you are recognized.

21 MR. PETERSON: Thank you. I received an
22 e-mail reply from Will Weatherford,
23 Redistricting Chair and Don Gaetz, the
24 Reapportionment Chair thanking me for my
25 interest in speaking at this hearing.

1 The e-mail describes this as the most open
2 transparent and interactive redistricting ever.

3 However, it did not claim to be efficient
4 or done in a timely manner, which is of huge
5 concern to me and others. The process seems to
6 be purposefully stalling, intentionally slow to
7 thwart the time and opportunities that new
8 legislative hopefuls will have to prepare and
9 execute an effective campaign for office.

10 In addition, voters' time to familiarize
11 themselves with candidates and issues will also
12 be curtailed. It feels as if the residents of
13 Florida are not your main concern, but that
14 favoring your reelection, with reelection of
15 incumbents seems most important.

16 And in speaking of voting, in 2002, the
17 people of Florida voted to limit public school
18 classroom size. Parents wanted small classes
19 so their kids could get more help, teachers
20 wanted it because they are more personally
21 interactive with 25 kids rather than 35 kids.

22 I am a teacher in Volusia County and right
23 now I am scheduled to have 178 students in my
24 six classes. This is because even though we
25 voted to limit class sizes, the Florida

1 Legislature defied our vote and has changed
2 what voters --

3 REPRESENTATIVE HUKILL: Ms. Peterson,
4 could you please limit your comments to
5 redistricting?

6 MR. PETERSON -- voted for. Oh, I am. I
7 have never taught 178 students before, and you
8 should tremble at the thought that I have that
9 much to do.

10 Now, you think I have gotten sidetracked.
11 Again, after 63 percent of the people of
12 Florida voted, voted for fair redistricting,
13 the Florida Legislature wants to ignore the
14 voters of Florida again and challenge in court
15 our wishes and fair, for fair and compact
16 redistricting.

17 We would like our Representatives to
18 represent Floridians, not extreme right wing
19 Floridians, not extreme left wing Floridians,
20 but just plain old every day Floridians. Thank
21 you.

22 REPRESENTATIVE HUKILL: Thank you very
23 much. All right, next we have Lisa Walker
24 followed by Robert Field. Ms. Walker, you are
25 recognized.

1 MS. WALKER: Good evening, everybody.
2 Thank you for allowing me to speak at this
3 meeting.

4 First of all, I want to say that I am for
5 the Amendments V and VI and hope that you all
6 will follow that law that was agreed on by
7 63 percent of the voters last November.

8 Specifically, what I would like to speak
9 about tonight is the town that I live in. I
10 live in the town of Deltona, and Deltona right
11 now is the largest city in Volusia County.

12 Deltona has almost 85,000 people. Back in
13 2000, when the redistricting was done, I don't
14 know why it was done the way that it was, but
15 Deltona was split in so many different ways
16 that Deltona now does not have any
17 Representatives.

18 Deltona has split into two Congressional
19 Districts, two State Senate Districts and four
20 State House Districts, and none of those
21 Representatives live within 30 miles of
22 Deltona.

23 They don't come to our City Commission
24 meetings. They basically, Deltona is being
25 ignored in the State House and the State Senate

1 and within our Congress, and I hope when you go
2 ahead and redraw the lines that you do follow
3 Amendments V and VI and follow the lines so
4 that you make Deltona be in a State House
5 District by itself, a State Senate District by
6 itself, and also a Congressional District by
7 itself, and that is basically what I have to
8 say. Thank you.

9 REPRESENTATIVE HUKILL: Thank you very
10 much, Ms. Walker, for your testimony. Next we
11 have Robert Field, followed by Charles
12 Moskowitz.

13 MR. FIELD: Thank you.

14 REPRESENTATIVE HUKILL: Mr. Field, you are
15 recognized.

16 MR. FIELD: I was a supporter of V and VI
17 and I support the aims of 20 and 21 for compact
18 and contiguous districts that are consistent
19 with existing political boundaries.

20 I think this is paramount, not just to
21 represent the voters, but also to encourage
22 turn out. When people know who their
23 Representatives are, when their Representatives
24 are the same as their neighbors, their
25 co-workers, their family members, they are more

1 likely to vote. They feel involved in the
2 process.

3 Now, I think some of the preliminary maps
4 that I have seen are encouraging in some
5 respect, but I have one major concern.

6 We have, it seems that we may continue
7 this practice of gerrymandering majority
8 minority seats. Now let me say right up front,
9 I am in favor of minorities in government. I
10 have worked for minority candidates in the
11 past. I will again in the future.

12 I am committed to the ideal of a
13 representation in our legislative bodies that
14 represent our demographics as a state and as
15 communities.

16 However, I think the cost that we pay for
17 these safe seats for candidates is too great,
18 because what it does, is at the cost of
19 offering representation to certain minority
20 groups, it then disenfranchises members of
21 those minority groups, because when people who
22 live in what should be three or four different
23 districts and you should be competitive in
24 those competitive districts, are instead,
25 sheppard into one district. Their votes are

1 neutered.

2 They don't have a real impact on the
3 future of their state or the future of their
4 nation. I think this is a grave problem. We
5 should address it aggressively. We should --
6 we should apply the ideals of 20 and 21 for
7 compact and contiguous districts with
8 consistency with existing political boundaries,
9 absolutely, thank you.

10 REPRESENTATIVE HUKILL: Thank you very
11 much, Mr. Field, for your testimony. Next we
12 have Charles Moskowitz, followed by Judy
13 Ngying. Am I saying that right, N-g-y-i-n-g?
14 All right, Mr. Moskowitz, you are recognized.

15 MR. MOSKOWITZ: Thank you. Good evening
16 everyone, we do appreciate everybody coming up
17 this evening to hear and answer questions.

18 I have two questions for you. Since
19 Amendments V and VI passed, I am a little
20 puzzled about why we, I guess the people, the
21 State, the Legislature, whatever, had to hire a
22 law firm to try to find fault with Amendments V
23 and VI. That is my first question.

24 The second question is, is, which law firm
25 did we have to pay \$300 per hour of taxpayer

1 money to try to find fault with Amendments V
2 and VI. I hope you have answers to that,
3 because there is a lot of other folks that are
4 going to ask me the same question and I
5 couldn't answer them. Thank you very much.

6 REPRESENTATIVE HUKILL: Thank you very
7 much, Mr. Moskowitz for your testimony. Judy
8 Ngying, followed by Candy Gilman.

9 MS. NGYING: Hi, I am Judy Ngying, and I
10 am a resident of Deltona and I am happy to be
11 here, and I am going to piggy-back a little bit
12 on Charles, what he just said.

13 I like my money and some of my money has
14 been taken away with the three percent on state
15 employee, with a three percent for my pension,
16 and then I am also seeing that \$30 million of
17 my tax money, not personally, of course, but of
18 Florida, is being used to fight that Amendment
19 that 63 percent of us voted for.

20 And we know that many of you sitting here
21 right now did not even get 63 percent of our
22 votes. So we have a super majority that have
23 voted for this Amendment, yet our tax dollars
24 are being spent to fight the Amendment and then
25 defend the Amendment.

1 It is very hard to explain to the upcoming
2 children who are going to be voters how such a
3 thing can happen. So that is my statement, and
4 my question and I hope that we do have a
5 resolution to that very quickly before that \$30
6 million is exhausted. Thank you.

7 CHAIRMAN GAETZ: Madam Chair.

8 REPRESENTATIVE HUKILL: Yes.

9 CHAIRMAN GAETZ: Just since that question
10 has been raised a couple of times at, you know,
11 our goal tonight is not to -- not to argue with
12 anybody but to listen, but everybody is
13 entitled to their opinion, but everybody is not
14 entitled to their own set of facts.

15 There is no \$30 million. I don't know who
16 told you that, ma'am, but there is no \$30
17 million that has been set aside to sue anybody.

18 There is a lawsuit that has been entered
19 into by two members of Congress, one a Democrat
20 and one a Republican, dealing with the Federal
21 issue in Amendment VI, but the lawsuit has
22 nothing to do with state redistricting.

23 The Senate is not a party to that lawsuit.
24 The House is an intervenor in the lawsuit. I
25 am not a lawyer, but my understanding is that

1 they are an intervenor in order to get
2 clarification as to any inconsistencies between
3 the Federal Voting Rights Act and Amendment VI,
4 but the lawsuit is not entered into, was not
5 started by the Legislature, and there is no \$30
6 million.

7 So whoever told you that, please encourage
8 them to give me a call and I would be happy to
9 share with them any information that I have.
10 Thank you, ma'am.

11 REPRESENTATIVE HUKILL: Thank you very
12 much, Mr. Chair. Next we have Candy Gilman,
13 followed by Ellen Darden.

14 MS. GILMAN: Well, first of all, I would
15 like to say thank you very much for giving us
16 the opportunity to come out and meet with you
17 and this is democracy in my opinion, and I
18 think we have got a great group of people
19 sitting on that table, at the stage, I am
20 sorry. And you have done an excellent job.

21 You have done a wonderful job for Florida
22 and I think our Governor has done an
23 outstanding job. He is cutting our cost --
24 folks -- shame, shame on you.

25 REPRESENTATIVE HUKILL: Ms. Gilman, Ms.

1 Gilman, just hang on one minute. Members of
2 the audience, please, out of respect for the
3 speaker, let's not have a reaction to what is
4 said.

5 Give her the opportunity to say what she
6 wishes to say just as you want that opportunity
7 when you are at the mike. Thank you very much.
8 Go ahead, Ms. Gilman.

9 MS. GILMAN: That was mainly what I want
10 to say. I have listened here and I am going to
11 go on home to my mom, but I want to say thank
12 you from the bottom of my heart, and if
13 Floridians do not understand what you go
14 through, they shouldn't be trying to wear your
15 shoes. Thank you.

16 REPRESENTATIVE HUKILL: Thank you very
17 much, Ms. Gilman for your comments and your
18 testimony. Next up we have Ellen Darden,
19 followed by Matty Rose. Ms. Darden, you are
20 recognized.

21 MS. DARDEN: Good evening, I am Ellen
22 Darden. I reside in New Smyrna Beach. I want
23 to thank you all so much for allowing me to
24 address you today.

25 I have got three brief points that I would

1 like to make, but the first one is the most
2 important one to me, and that is to
3 congratulate you and to thank you for being
4 here for us in this series of meetings around
5 the state.

6 I am here just as a concerned citizen, but
7 I have never in my life seen a redistricting
8 reapportionment process being carried on in
9 such a positive, open and transparent method.

10 You have to take my word for this, but I
11 spent my entire life interested in or
12 participating in good government, public policy
13 and politics, and straddled two redistricting
14 times in Tallahassee while I was working in and
15 around the Capitol.

16 This is unique and I think the people in
17 this audience and around the state need to
18 understand how unique it is for the
19 transparency, for the opportunity for
20 individual citizens who aren't anybody to get
21 up in front of you all and tell you what we
22 think for the site that you have up on the
23 website where you are even giving us the tools
24 to help law the lines. It is unbelievable.

25 Everybody has always thought of

1 redistricting as sneaky stuff done in back
2 doors and I, behind closed doors and dark rooms
3 and that sort of thing. I don't think there is
4 anyway that we can evaluate this process in
5 such a fashion.

6 Secondly, I want to address the protection
7 of the Voting Rights Act of 1965. The Voting
8 Rights Act, we all are proud of. It has been
9 in place for 45 years, but this process isn't
10 -- is about protecting the sacred rights of all
11 of us for an equal and fair opportunity to
12 vote.

13 So I am hoping that through this process,
14 given the fact that over the last 45 years, so
15 many of the people who were called minorities
16 have achieved magnificent positions of power
17 and responsibility and population and so on
18 that perhaps our districts could go away from
19 being those, some of those snaky little
20 squiggly things that I think dilute
21 representation, to be more of communities of
22 interest where the districts are more compact.

23 I think certainly our most recent
24 elections, just look at the evidence here in
25 Florida, where a minority gentleman, Marco

1 Rubio is now a State Senator, a U.S. State
2 Senator and Mr. Allen West is now a Congressman
3 in a district that demographically he may not
4 represent, shows how far we have come. So
5 perhaps we could get those districts a little
6 bit more compact.

7 And then finally just a couple of wishes
8 for my home county, Volusia County. We have
9 needs that are different in various
10 geographical areas of our county. As you
11 consider the House Districting, consider
12 perhaps a seat that represents the coastal
13 area.

14 The needs of the coast are different than
15 the more rural areas in the western part of our
16 state. And secondly, on the Senate side, if
17 there is anyway possible to dedicate a Senate
18 seat to Volusia County so that we don't have
19 people spiking in from other communities of
20 interest.

21 That is just a couple of points I wanted
22 to make, but most importantly, thank you all
23 for this process. It is amazing.

24 REPRESENTATIVE HUKILL: Thank you very
25 much, Ms. Darden, for your comments and your

1 testimony. Next we have Matty Rose, followed
2 by Ken Ali.

3 MR. ROSE: Good evening, stage people. My
4 name is Matty Rose, and I am a resident of
5 Volusia County, a long time resident in
6 Florida.

7 I come before you because I am a voter, a
8 registered voter, and I voted in the last
9 election and I voted on the prevailing side for
10 Amendment V and VI.

11 I also want to tell you my story. If you
12 turn around and look at the screen, it says
13 tell us your story. And I want to share
14 something with you, and then I will get into
15 the specifics of redistricting.

16 Many years ago when I was a young man I
17 joined the Army voluntarily because those that
18 were in the hierarchy of the military service I
19 admired. I admired because they always looked
20 good, they dressed in uniform and they made
21 decisions that I had to follow, and the
22 Congress of the United States and the President
23 of the United States were admired because those
24 in power, you had respect, due respect for
25 them.

1 And later on in life after I got out of
2 the service I started to become politically
3 involved and I start to admire in the same
4 respect those that were in the military, but
5 those that were in the political scene, and
6 because they always looked good and they always
7 talk good and you can always depend upon those
8 that were elected to do the right thing for
9 you, but those of you that are on the stage
10 that are representing this meeting here today,
11 I don't have that same feeling, and I am very
12 disappointed not only in the current
13 Congressional Districts that are gerrymandered
14 and have been for a long time, to just seek
15 different needs of different people or
16 different political parties.

17 You are gerrymandering the process,
18 although these are open meetings and they are
19 dragged out and the road show, to put all of
20 you on stage here to hear comments, I am of the
21 opinion that you your mind, your voting made up
22 and this is just an event and all of the other
23 events scheduled around the state to have
24 individuals come and speak and hear my story.

25 So what I would like to ask you to do

1 tonight and in the other hearings you go to is
2 not just listen, I would like to see some
3 action. I would like to see those maps drawn.

4 You have enough information, you are all
5 well-schooled and you are on the political
6 scene, you are behind the scenes, you know much
7 more than I do, and I would hope that you would
8 draw these district lines to represent the
9 people in Florida.

10 You don't need anymore information. You
11 should have been here already showing us what
12 you have done and not asking us what you should
13 have done. Thank you very much.

14 REPRESENTATIVE HUKILL: Thank you very
15 much, Ms. Rose. Next we have Ken Ali, followed
16 by Joe, I can't read the name, but is it
17 Siegmerster. Is that an S? S, okay, I am
18 sorry. All right, Mr. Ali, you are recognized.

19 MR. ALI: Thank you, I am Ken Ali and I am
20 glad to be here and I want to welcome you all
21 it Volusia County. I am a proud immigrant
22 American, and I want to say I am proud to be
23 American.

24 I came to this country legally. I crossed
25 legally, I went through the process and I

1 became a citizen. This is the first census
2 that I am experiencing as an American citizen
3 and I am proud of the process.

4 I have been to countries where
5 representatives don't get to come and meet the
6 people, and I welcome you. I want to thank you
7 for the work that you have been doing, and this
8 country is a great country, and we cannot
9 afford to lose it.

10 We cannot afford to slip, and you are our
11 representatives. You are charged with the
12 responsibility of representing us in
13 Tallahassee. I came to this country, I started
14 a business. I ran for office after I became a
15 citizen.

16 I was a candidate for City Commissioner in
17 this city and in no other country can you do
18 that, and I believe in the exceptionalism of
19 America and we got to continue going forward.

20 I appreciate each and every one of you,
21 regardless of which side of the aisle you are
22 on. We vote for who we want to represent us,
23 and I hope that this process will be a fair
24 one, that each group is represented.

25 I agree with Ms. McFall that precincts

1 should not be sub divided and it puts more
2 strain on her department and her budget cuts is
3 going to be tougher.

4 So I would ask that you look at that, and
5 as I always say, I always say, I wasn't born in
6 this country but I will die for this country.
7 My son has just back from Afghanistan, two
8 towers in Iraq, one in Afghanistan.

9 And to all of our sons and daughters, we
10 are proud of them, we are proud of our
11 veterans, I know there are veterans up there
12 that have served this country, who have given
13 their lives and we have got to continue moving
14 forward. Going back is not an option. Thank
15 you very much.

16 REPRESENTATIVE HUKILL: Thank you very
17 much, Mr. Ali. Thank you so much for your
18 testimony, and I want to thank you specifically
19 for your service to our country, and also your
20 family members. Thank you very much.

21 All right next, we have Joe Siegmerster.

22 MR. SIEGMERSTER: Siegmerster.

23 REPRESENTATIVE HUKILL: I am sorry, and
24 followed up by Patricia Drago.

25 MR. SIEGMERSTER: Yes.

1 REPRESENTATIVE HUKILL: Go ahead. You are
2 recognized.

3 MR. SIEGMERSTER: First off I would like
4 to thank all of you for coming. I know as you
5 go around the state that you will have people
6 that are on your side and people that are
7 against you, and to sit up and take some time
8 is not an easy thing. So as a voter and as a
9 citizen, I thank you for your citizen activist
10 in being in the place that you are.

11 I am a citrus farmer, an entrepreneur, a
12 former teacher. I am an agriculturalist and I
13 live and reside in Volusia County, and what I
14 would like to do is just say a little bit
15 tonight, as you go, and as you do these
16 districts, as well as your job, that you
17 remember that agriculture is an important part
18 of this state and this country.

19 We have always been a free country because
20 we are able to feed ourselves. At the time
21 when another country controls our food, we no
22 longer have that control.

23 As you go out and you go, most people do
24 not realize that agricultural is the second
25 leading industry in the state, and when we talk

1 about jobs and tourism and in building and in
2 the other legs of the stool of the support,
3 agriculture continues to do that.

4 So when you make these districts, I ask
5 that you take that one person who has talked
6 about the rural concerns, that you take that
7 into account, because I can tell you that my
8 concerns are not the same concerns as the
9 people of Daytona Beach.

10 I have had the opportunity to deal with
11 several of you, because I have agriculture
12 interest in other parts in other districts, and
13 I can say that the people that we have in
14 office, whether Democrat or Republican, have
15 always treated me with the utmost respect and
16 took notice of my concerns.

17 My concern is, is that with term limits
18 some of you on both sides will not be there in
19 the future, and if these districts aren't drawn
20 to take into those considerations, you could
21 have people put into or elected in the
22 districts that are split where that is not
23 taken into account.

24 The average American is more than three
25 generations from a farming background, and

1 most, I would venture to say that I could
2 probably find one person in any group that
3 thought that food came from Winn-Dixie or
4 Publix.

5 So as you do this and as you go, please
6 take heart and do that. Just to give you an
7 example, agriculture and related industries is
8 the number one employer in Volusia County,
9 okay. It is number two in the state.

10 We account for, you know, 40,000 jobs in
11 this county alone. And so please, you know,
12 thank you once again for doing that, and, you
13 know, people are going to agree with me and
14 disagree with me, that is fine, I can deal with
15 that, but thank you for coming, thank you for
16 listening, and please, you know, remember
17 agriculture as you sit down through this
18 process.

19 REPRESENTATIVE HUKILL: Thank you so much.
20 Very important comments. Thank you very much.
21 All right next we have Patricia Drago, followed
22 by Tony Ledbetter, and then just so you can get
23 ready, John Hoyt has a presentation. All
24 right, you are recognized, Ms. Drago.

25 MS. DRAGO: Thank you. I am speaking this

1 evening on behalf of the Volusia County League
2 of Women Voters. I have been designated. I
3 want to say as many of our other speakers did,
4 thank you for holding these hearings. I know
5 that it takes a great deal of time and energy
6 traveling the state and not all of what you
7 hear is what you want to hear and a lot of what
8 you hear is just a repeat, repeat, repeat. So
9 thank you for your patience.

10 As you hold these public hearings around
11 the state I know that a lot of the input in the
12 absence of maps is going to be generalities.

13 Well, the generalities really are in sync
14 with much of the language of Amendments V and
15 VI that passed recently in the 2010 election.
16 And just for your information, they passed by
17 greater than 70 percent in Volusia County.

18 So your audience has been strong
19 supporters of the change to the Constitution
20 with Amendments V and VI. We heard
21 compactness, we heard geographic contiguity and
22 we heard racial minorities and ethnic
23 minorities and making sure that those are
24 protected.

25 Please draft and publish the proposed maps

1 as soon after the conclusion of these hearings
2 in September as you can. This would facilitate
3 in another, I know we welcome it, another
4 citizen input prior to legislative session and
5 the committee hearings.

6 As I saw on your schedule, the committee
7 hearings are from the end of September to
8 December. So if the hearings conclude at the
9 end of September, that is a very short turn
10 around to get the maps out to the public and to
11 take that input.

12 I think we heard from our Supervisor of
13 Elections not just the number of --
14 presentation of the maps, taking input and then
15 adoption by the Legislature, reviewed by the
16 voting rights, compliance with the voting
17 rights by the Justice Department.

18 There are a lot of other steps in this
19 process, to make sure that not just Volusia
20 County Supervisor of Elections, but every
21 Supervisor in the state is able to prepare the
22 ballot for a good election.

23 Florida has not always had the smoothest
24 elections. Any delay would threaten that
25 process and if this is done smoothly with great

1 attention to the schedule, it is conceivable,
2 not probable, conceivable that the maps could
3 be adopted early in the legislative session.

4 We appreciate the fact that you scheduled
5 the session up. We hope that that would
6 expedite that. We also want to say, thank you,
7 Senator Gaetz, for clarifying about where the
8 role of the Senate and the House and the
9 litigation, but I think you heard from us as
10 taxpayers and as citizens that we have a
11 concern that taxpayer dollars are clearly spent
12 now in enforcement and defense of the
13 legislation that was adopted and not to go
14 further afield than that.

15 We feel very strongly that that has, it is
16 now law, and we look for you to implement it
17 and we thank you very much for your time.
18 Thank you.

19 REPRESENTATIVE HUKILL: Thank you very
20 much, Ms. Drago. Next up we have Tony
21 Ledbetter and then John Hoyt.

22 MR. LEDBETTER: My name is Tony Ledbetter.
23 I live in Ormond Beach. I would like to also
24 thank you for coming to have these hearings
25 here.

1 I think it is important. I want to echo
2 my friend, Ellen Darden, Candy Gilman and Ken
3 Ali. I had, I back up 100 percent what they
4 said.

5 I think this is the first time that we,
6 the people, have been involved in these kinds
7 of meetings, and I think that is important
8 because we, the people, are who you are
9 supposed to be listening to, and I am going to
10 make my comments short.

11 I believe that you have the ability to
12 look and draw the maps in a fair way. So I
13 would trust you to do that, you know, and it is
14 very important that the people have input and
15 that is what we are doing today, is having
16 input.

17 So I just believe that you have the
18 ability to take the information and draw the
19 maps fairly and I appreciate you coming and we
20 will see you in 2012.

21 REPRESENTATIVE HUKILL: Thank you,
22 Mr. Ledbetter, so much for your comments. Next
23 we have John Hoyt with a presentation, and then
24 we have -- let me just make a comment right
25 now.

1 We are going to need to limit this very
2 strictly to three minutes after your
3 presentation, because we have many, many more
4 people who have signed up, which I am really
5 happy about, but we have limited time. Go
6 ahead, you are recognized.

7 MR. HOYT: First of all, good evening, and
8 just, I think it is great that you all here to
9 listen to some specific proposals.

10 I hope they are of interest and are
11 reasonable. I have a partial redistricting
12 proposal for Volusia County and portions of
13 northeast Florida.

14 My name is John Hoyt, I am a resident of
15 Port Orange and I am the President of the FMO,
16 that is the Federation of Manufactured Home
17 Association in Florida, homeowners in Florida,
18 and my responsibility extends from Volusia
19 right up through the northern border of the
20 state.

21 My proposal suggests some boundary changes
22 for the House, Senate and U. S. Congress
23 Districts in Volusia County, as well some
24 changes in adjacent districts due to these
25 changes.

1 If you will look at the screen up there,
2 you are looking in the center there at House
3 District 25. Now, you will see on the eastern
4 boundary of that a little green area there
5 sticks out into Volusia County, picking up
6 Deberry and half of Deltona.

7 Now, that is problematical. I had someone
8 that lived in a mobile home park there and I
9 wanted to find out who their Representative was
10 so that they could promote something important
11 to mobile home owners, and I called three
12 different Representatives and they didn't know
13 from that address whether or not that person or
14 that park was represented in their district.

15 They said I have to contact their aides.
16 Well, I contacted the aides and the aides said,
17 well, I will call you back. I have to look it
18 up by the address to see if you are in my
19 district. That is ridiculous.

20 We need to have these boundaries along
21 geographical boundaries or political boundaries
22 that are easily recognizable. So if you come
23 from a given town, that is your Representative,
24 that is your Senator.

25 So Volusia County, the district boundaries

1 currently divide many cities that are currently
2 resulted from severe gerrymandering efforts
3 during the last redistricting effort. I hope
4 we get away from it this time around.

5 Now, my proposal attempts to realign
6 district boundaries along more logical
7 political and geological boundaries.

8 Now, Volusia County has natural
9 boundaries. You have a series of wildlife
10 management areas running north and south
11 dividing the state east and west. You have the
12 Spruce Creek area which is a logical division
13 between cities north of Ponce Inlet and south
14 of Ponce Inlet, and then you have St. Johns
15 River which is a natural boundary on the west,
16 and the ocean, of course, on the east.

17 The four major populations area are
18 Deltona, the Daytona Beach, Orlando area, a
19 cluster of towns along I-95 in the western part
20 of the state, and a string of towns from Ponce
21 Inlet down to the southern boundary from Spruce
22 Creek.

23 Now, House District 25 currently includes
24 the very end portion of Deltona. This boundary
25 should be moved westward to the St. Johns River

1 and compensating adjustments of District 25 can
2 be made to the west.

3 House District, next slide, please. House
4 District 26, now, look at that thing. It kind
5 of wraps around the center part of Daytona
6 Beach, and it actually includes part of Deland
7 and some of the north Deland area.

8 I suggest that that entire area be moved
9 eastward to the wildlife management areas so
10 that that section would be added to 26.

11 Now, compensating adjustments to 26 can be
12 made either on the northern boundary or down in
13 the south. You will see that 26 has half of
14 Deltona in there.

15 Now, we can either exclude Deltona and
16 move it over to 27 or move it down to Deberry
17 or back up, but one way or another we need to
18 do something about Deltona so that it is not
19 split into two districts. It can easily be
20 done.

21 Next slide, please. Now, 27, that is
22 where most of us live right here in the Port
23 Orange area. It is illogical to divide Port
24 Orange in half there.

25 You hear someone from Port Orange, you

1 don't know what Senate or House District they
2 are in. I recommend that the southern boundary
3 of District 27 be moved down to Spruce Creek.

4 That is natural geographic boundary, and
5 that compensating adjustment be made by
6 deleting Deland and just moving that whole
7 western boundary to the wildlife management
8 area. I believe that should be sufficient.
9 If you need more adjustment you can go up there
10 and adjust that northern boundary with Ormond
11 Beach.

12 Next slide, please. House District 28 is
13 reasonably well-founded. It takes in all of
14 south Volusia County, and it is well-designed,
15 except that I recommend moving that northern
16 boundary in my previous slide down to the
17 Spruce Creek area, the Ponce Inlet. Ponce
18 Inlet would be in there, but the New Smyrna
19 Beach down to Oak Hill would be still remain in
20 28.

21 And to compensate for that I would suggest
22 moving the western boundary over to pick up
23 Deltona or Deberry or both of them. You would
24 have to juggle the population figures to figure
25 out how best to do that, but I just mention

1 District 25. It is that little piece of green
2 there, that should be moved west so that we can
3 allow for some compensating area put in 28, and
4 perhaps 26.

5 Next slide, please. The Senate. This
6 needs some work. Look at that thing. That is
7 some of the worse gerrymandering I have ever
8 seen in my life. Look at the one in the middle
9 there, that gray thing. I don't know who
10 managed it, he must have had some political
11 pull, but he has got all of the center of
12 Jacksonville, comes right down through Flagler
13 and St. Johns and picks up the International
14 Airport and the Speedway.

15 Now, tax revenue or something, he had some
16 clout, I am telling you, but that needs some
17 work.

18 REPRESENTATIVE HUKILL: Mr. Hoyt,
19 Mr. Hoyt, we have so many people who are signed
20 up. I want do get to them. Please, can you --

21 MR. HOYT: Okay.

22 REPRESENTATIVE HUKILL: One minute.

23 MR. HOYT: One minute, you got it. Okay,
24 in summary, move the district that -- a
25 district that includes what some of the part of

1 Volusia, make that district all of Volusia, and
2 then District 8 along the coast, make that the
3 district above District 1 and District 1 would
4 lie between 8 and then adjust the boundaries
5 westward for the population centers.

6 For the U.S. Congress Districts, again,
7 District 24, U.S. Congressional District should
8 include all of Volusia, and to move the
9 boundaries westward and upward and make
10 compensating changes elsewhere.

11 District 3, again, District 3 slide. We
12 need to move that District 3 slide such that it
13 does no longer come down as a spike into
14 Volusia County. That should be moved right up
15 north of Volusia.

16 REPRESENTATIVE HUKILL: Okay, Mr. Hoyt, I
17 am going to have to stop you.

18 MR. HOYT: Okay, that completes my
19 presentation, thank you for listening to me.

20 REPRESENTATIVE HUKILL: Mr. Hoyt, if you
21 haven't done this already you can submit it
22 on-line, and submit it to staff, too, all
23 right. So just talk to one of our staff
24 members, please.

25 MR. HOYT: Yes, I submitted in an e-mail

1 to the staff.

2 REPRESENTATIVE HUKILL: Thank you very
3 much. Right, next we have Joe Stich followed
4 by Sally Gillies and then Tom McGurn. Mr.
5 Stich.

6 MR. STICH: Okay, everyone, please, let's
7 try to limit our comments because we have so
8 many people signed up. Thank you very much.
9 Mr. Stich, you are recognized.

10 MR. STICH: Thank you. My name is Joe
11 Stich. I live in New Smyrna Beach and I do
12 thank you all for showing up here this evening.
13 It is -- it is very well appreciated by the
14 community and I thank you for it.

15 What I wanted to address is something that
16 is going on in our country that affects where
17 the population lives. And what I am talking
18 about is Agenda 21, and Agenda 21 is a movement
19 inside the United States to move the population
20 to --

21 REPRESENTATIVE HUKILL: Mr. Stich, Mr.
22 Stich. You need to limit your comments to
23 redistricting.

24 MR. STICH: I am.

25 REPRESENTATIVE HUKILL: That is not

1 redistricting.

2 MR. STICH: It affects redistricting.

3 REPRESENTATIVE HUKILL: Could you talk
4 about the process of redistricting? Thank you
5 very much.

6 MR. STICH: The movement of people into a
7 confined area that is the process that is going
8 on with it affects how those districts are
9 going to be drawn, and what happens is the
10 people that are not in a confined district have
11 limited populations for their area. Five
12 people for 20 acres, whatever the case might
13 happen to be.

14 You are disenfranchising their votes,
15 because across the street is an apartment
16 complex that has 400 people living in it, and
17 if you don't take into consideration the
18 disenfranchisement of the voting population of
19 the people in conservation areas, which is what
20 is happening with this process, then you end up
21 with no option, except to gerrymander, because
22 there is no way to put the people anywhere
23 else, except to reach out and grab 300 people
24 over here and 200 people over there, to
25 compensate for the numbers that you need.

1 Presently 40 percent of the land in
2 Florida is owned by the government, and
3 40 percent of the land in Volusia County is
4 owned by the government, and that pushes people
5 into these confined areas and it makes it, in
6 my opinion, a bad situation for representative
7 government.

8 REPRESENTATIVE HUKILL: Thank you very
9 much, Mr. Stich. Next we have Sally Gillies,
10 followed by Tom McGurn. Ms. Gillies, you are
11 recognized.

12 MS. GILLIES: Thank you, Chairman Hukill.
13 And thank you all for being here to listen to
14 us. I had no idea so many of you would come
15 down, and I think that is pretty cool.

16 I hope that you do hear us though about
17 contiguous small districts. It is just insane
18 the way it has been going here. I lived in
19 Palm Beach County for 20 years. I don't want
20 to see that in my new county.

21 I have been up here in Volusia for, since
22 2003, and I love it. I think it is just a
23 great beautiful place, but I don't want to see
24 what happened down there happen up here, and
25 drawing the districts so that they are small,

1 contiguous, people are a community that have a
2 Representative or a Senator I think is very
3 important and I appreciate your interest very
4 much.

5 REPRESENTATIVE HUKILL: Thank you very
6 much, Ms. Gillies. Next we have Tom McGurn,
7 followed by James Harper. Mr. McGurn, you are
8 recognized.

9 MR. MCGURN: Thank you. Tom McGurn,
10 Daytona citizen for all of over 60 years, I
11 believe. Forty years ago I was a District
12 Manager for the Federal Census which all of you
13 realize takes place every ten years and I had
14 11 counties.

15 I had about 1,000 employees that I had to
16 find, I had to recruit, test and then have them
17 trained all in three months. We got -- we had
18 a successful census. I believe we had a
19 million people we counted at that time and we
20 covered from St. Augustine all of way down to
21 Brevard County, and all of the way across to
22 Pasco and Hernando.

23 Ever since that time I have been very
24 interested in the population process here in
25 Florida. I have been very dismayed at the

1 gerrymandering that has been going on and these
2 maps out here in front, to me, they are
3 reprehensible, and I wish that we would have
4 had a few sample maps here.

5 I heard some excuses saying, well, people
6 would be afraid if we had some type of pre -- I
7 can't think of the right word, but we could
8 have at least had some of the sample maps
9 sitting out here to look at.

10 I haven't had a chance to look on-line to
11 look at some of these things, but I will later
12 on. It would have been nice if I could have
13 looked at them and made some comments on them
14 this evening. Unfortunately that didn't
15 happen.

16 Long before Ann McFall became the
17 Supervision of Elections I was involved in the,
18 every so often when I wasn't on military duty I
19 would get involved in the election process
20 here, and I saw some of these split precincts
21 that she is talking about.

22 I think I have -- I worked in one of those
23 precincts, and it had six splits in it and I
24 was appalled. People were putting their
25 ballots in the machines, in the wrong machines,

1 this way and that way and the clerks didn't
2 have any idea on how to run things.

3 I hope that somebody will have enough
4 sense to do something about that. Deltona is
5 probably the biggest city in Volusia County
6 now. It has District 33, 25, 26. How many
7 people in Deltona know Dr. Costello?

8 They probably know Jason Brodeur because
9 he lives over there in that -- close to that
10 area there, okay. Somebody down there needs to
11 be in that one area there.

12 Geographical compactness, city, county
13 lines should be taken into effect. I think
14 that is all I can say right now.

15 REPRESENTATIVE HUKILL: Thank you very
16 much, Mr. McGurn. Next we have James Harper,
17 followed by Les Thackston. You are recognized,
18 Mr. Harper.

19 MR. HARPER: Good evening, my name is
20 James Harper, and I am a resident of Daytona
21 Beach, Florida. I want to take a 30 second
22 side bar.

23 Someone said something about the Voting
24 Rights Act earlier. Basically the purpose of
25 the Voting Rights Act wasn't so that blacks

1 could get elected to office, it was so that we
2 could vote, we would have the right to vote.

3 So just to say that very clearly, you
4 know, and having said that, I am glad to see so
5 many black Representatives up on the stage, and
6 unfortunate -- well, don't anybody take
7 anything I say personal, but unfortunately, a
8 lot of you are only window dressing.

9 You have no power, you have no voice,
10 because you are dominated by a Republican led
11 Senate and House.

12 So therefore, I say this only to go to the
13 redistricting point. The minority/majority
14 districts basically is legalized segregation.
15 That is basically what it is.

16 There was a point in time -- there was a
17 point in time when it was needed, because there
18 was no black representation in elected office,
19 but as we continued to do better, you know, it
20 is not the color of the person today
21 necessarily that needs to be voted into office.
22 It is the person, itself.

23 Now, let me qualify that. We need black
24 representation, we need minority representation
25 or women representation, but if their voices is

1 not heard, and I don't mean they can speak and
2 you hear them, it doesn't really mean a hill of
3 beans.

4 So they are now and now the lines are
5 drawn so that the majority Republican
6 districts, which are majority white districts,
7 do not have to cater to their black
8 constituents.

9 These white majority districts you all
10 have drawn them, I wouldn't call it a
11 conspiracy, but they have been drawn in such a
12 way that the blacks that vote do not, you do
13 not have to be accountable voters because your
14 districts are drawn so that there are no blacks
15 and Hispanics in them. All of the blacks and
16 Hispanics are in the minority/majority
17 districts.

18 So you all need to be accountable to all
19 of the residents of the state of Florida.
20 Again, we need, you need to cater to everybody.

21 Very quickly, and I am going to wrap this
22 up, because I see you all fumbling and jumbling
23 up there, which is fine, you know, because the
24 thing is, you need to be accountable to all of
25 us.

1 These white majority Republican districts
2 have got to stop. As I mentioned earlier, the
3 Voting Rights Act was important because at that
4 time we could not vote and it is important
5 today even more so because the Republican
6 Congress and House and Senate are doing things
7 and it is getting harder for people to vote
8 today.

9 You are making it harder for us to vote
10 today. You know what you --

11 REPRESENTATIVE HUKILL: Mr. Harper, please
12 stick to redistricting, and just can you wrap
13 up your comments, thank you.

14 MS. HARPER: Yes, ma'am, I will do that.
15 As I was saying, wrapping it up, and what I was
16 saying in tying it in was things that you all
17 have done recently in reference to the voter so
18 that we can vote you all in, okay, have been
19 done to make it harder for us to vote, and you
20 know what you have been doing.

21 And I will just say this real quickly and
22 I will get out of here, so that Barack Obama
23 isn't elected in 2012. We know what you are
24 doing, but I just -- I am partial, but having
25 said that I hope, you know, you do things that

1 make it easier for all of us to vote, for
2 people to get to vote easier, but also most
3 importantly, draw the districts so that these
4 white majority districts --

5 REPRESENTATIVE HUKILL: All right,
6 Mr. Harper, Mr. Harper.

7 MR. HARPER -- aren't drawn in such a way
8 that you all are not accountable to your
9 minority Representatives.

10 REPRESENTATIVE HUKILL: Thank you very
11 much. All right, next, could I please ask
12 members of the audience to refrain from the
13 whistles, et cetera, so we can get moving.

14 Mr. Thackston, followed by John Nicholson.

15 MR. THACKSTON: Good evening, Les
16 Thackston.

17 REPRESENTATIVE HUKILL: You are
18 recognized.

19 MR. THACKSTON: I live in the world's most
20 famous beach, that is Daytona Beach in case
21 anybody wants to know.

22 REPRESENTATIVE HUKILL: We can't hear you.
23 Can you talk into the mike, please?

24 MR. THACKSTON: Sure.

25 REPRESENTATIVE HUKILL: Thank you.

1 MR. THACKSTON: A little low. I live in
2 the world's most famous beach, that is Daytona
3 Beach. I got to say it twice.

4 I would like to speak on being in a state
5 that has a mandate, and I think ya'll know what
6 mandates are. Someone earlier said that most
7 of you probably didn't get in with 63 percent.
8 Well, if you don't do something about the
9 redistricting on V and VI, there will be
10 another mandate next year. I think there is
11 going to anyway.

12 So please make them compact, as compact as
13 you can. I would like to make an observation
14 on the maps, on the District Builder maps. I
15 asked the gentleman outside what they were
16 going to be used for and how they were going to
17 be aggregated to come up with something, and he
18 said they weren't. They were going to be
19 looked at by somebody.

20 I think that is a real waste of time. I
21 am not sure if it is just something to make
22 people feel good, but if you are not going to
23 do anything but just look at them and not use
24 the data that you get from them, and then what
25 happens if four million people send them again.

1 REPRESENTATIVE HUKILL: Thank you very
2 much. All right, next up we have
3 Mr. Nicholson, and then Mike Nolan. Mike
4 Nolan? Mike Nolan? I have to get my other
5 stack.

6 All right, we will put Mike Nolan aside.
7 Faye McHugh followed by Elizabeth Albert. Faye
8 McHugh? Do you want to waive your time?

9 Okay, next we have Elizabeth Albert,
10 followed by -- Matty Rose we had, no? Okay,
11 Elizabeth Albert.

12 MS. ALBERT: Yes.

13 REPRESENTATIVE HUKILL: You are
14 recognized.

15 MS. ALBERT: Good evening. Before I start
16 I want to just put a little sidebar in, not as
17 aggressive as our previous speaker, but a
18 moment ago the \$30 million was discussed, and I
19 excited the forum to check some sources.

20 And I just want to say that three
21 independent media outlets researched that \$30
22 million, and those would be the St. Peter
23 Times, the Orlando Sentinel and the Miami
24 Herald and they found the denial that there was
25 a fund to be false.

1 Now, this is a public input hearing. I am
2 a member of the public and I hope that you are
3 hearing me as I notice some of you are
4 participating in text messaging.

5 I am going to go ahead and read the
6 comments that I had prepared because I spent my
7 time preparing them, and I would hope that you
8 would just listen. If you don't like what I
9 say, that is fine, but I am going to start now.

10 REPRESENTATIVE HUKILL: Go ahead.

11 MS. ALBERT: Thank you so much. Good
12 evening, I would like to begin by saying thank
13 you, thank you all, the citizens of Florida who
14 sit here this evening.

15 Thank you to all of the members of the
16 audience who have given their time to exercise
17 their constitutional rights and participate in
18 this public hearing. Thank you for donating
19 time that should be spent with a spouse,
20 children or loved one.

21 Thank you for coming out to fight for what
22 63 percent of voters approved in 2010. My
23 focus this evening is on the current lawsuit
24 filed to oppose the implementation of Fair
25 Districts. I urge the Legislature to drop this

1 unnecessary and very expensive lawsuit.

2 The Legislature should be working to
3 uphold the Constitution, not working to protect
4 the interest of the incumbents by spending
5 \$30 million taxpayer dollars to fight what
6 approximately two-thirds of the voting public
7 approved.

8 I want to know how the taxpayers can
9 afford to fund this lawsuit during a time when
10 our state cut the education budget by \$1.3
11 billion. How can \$30 million be spent to fight
12 fair districts when 2,000 State employees will
13 be forced into unemployment?

14 Couldn't \$30 million be spent to avoid
15 layoffs for workers in State mental health
16 hospitals, juvenile justice facilities and
17 state prisons?

18 REPRESENTATIVE HUKILL: Ms. Albert, could
19 you limit your comments to redistricting,
20 please?

21 MS. ALBERT: I am wrapping it up, yes,
22 ma'am, I sure am.

23 REPRESENTATIVE HUKILL: Thank you.

24 MS. ALBERT: Thank you. How does the
25 Legislature justify spending \$30 million

1 taxpayer dollars when social services are being
2 cut to the most needy citizens of our state and
3 there are nearly one million Floridians out of
4 work.

5 To quote a former Governor of our great
6 state, this is a do nothing Legislature. Well,
7 it seems when referencing the implementation of
8 fair districts, you are still a do nothing
9 Legislature.

10 To quote the current Governor, let's get
11 to work. Why don't we get to work on stopping
12 this lawsuit and creating fair districts?
13 Thank you for hearing me.

14 REPRESENTATIVE HUKILL: Thank you very
15 much.

16 REPRESENTATIVE HUKILL: I am going to ask
17 the audience, please, let's refrain, it is
18 going to take time away from people who really
19 want to speak and we want to hear them.

20 All right, next we have Kathy, I can't
21 read it, from Ocean Terrace, Kathy. Is it
22 P-o-l.

23 MS. POGAS: P-o-g.

24 REPRESENTATIVE HUKILL: P-o-g, Pogas, I am
25 sorry. Followed by Michael Arth. You are

1 recognized.

2 MS. POGAS: Most of what I want to talk
3 about has already been brought up, but I do
4 want to make a point.

5 Mr. Hoyt, who brought these maps up and
6 showed us what they look like, that had an
7 impact, we could see how things are drawn.

8 If you would please make some maps, get
9 them out to us and let us see what they are and
10 then we can make good comments and points
11 specific to what we are looking for.

12 Right now we are making general comments,
13 general ideas of what we want, but it is hard
14 to put that altogether. We need a place to
15 start and work together towards a goal where
16 everybody is represented. That is all we
17 really want.

18 We want everybody to be represented
19 fairly, and we want the people that represent
20 us to know who we are and be there for us.
21 Thank you.

22 REPRESENTATIVE HUKILL: Thank you very
23 much. All right, next we have Michael Arth,
24 Michael, followed by Reverend Victor Gooden.
25 You are recognized.

1 MR. ARTH: My name is Michael Arth, I am
2 an urban designer and a policy analyst, and I
3 have a bumper sticker that says if voting
4 actually worked, it would be illegal.

5 Why would I have such a bumper sticker? I
6 spent 17 years working as a policy analyst
7 trying to understand our system, and I also ran
8 for Governor. So I got an intimate look at how
9 our system works, and I voted for Amendments V
10 and VI because I think they are little baby
11 steps in the right direction, and I hope you
12 will implement the policy that has been voted
13 by a quorum of the voters.

14 But unfortunately, V and VI are not fair,
15 equitable or sensible. It is only slightly
16 better than what we had before. Much like when
17 we go to the polls and we vote for a Democrat
18 or Republican, we are usually voting a lesser
19 of two evils.

20 The system that is put before us, it is
21 sort of like a mommy with her two-year-old. Do
22 you want spinach or do you want broccoli. At
23 least that mommy cares about the two-year-old,
24 but when it comes to the political system, the
25 Democrats and the Republicans do not care about

1 the voters. They care about staying in power.

2 We have seen this because we have what is
3 called a winner take all system, which forces
4 us into a duopoly.

5 Now, we could take a little baby step
6 further and improve our districts by having
7 what is called instant run off voting where you
8 rank your candidates in order of preference.

9 REPRESENTATIVE HUKILL: Mr. Arth, can you
10 limit your comments to redistricting, please?

11 MR. ARTH: This is about redistricting,
12 this is how to have fair districts. May I
13 continue, please?

14 REPRESENTATIVE HUKILL: Well, can I --

15 MR. ARTH: The way you have a fair
16 district, all right, and the way you have a
17 fair district is you rank your candidates in
18 order of preference.

19 REPRESENTATIVE HUKILL: Mr. Arth, please
20 limit your comments to redistricting.

21 MR. ARTH: Okay.

22 REPRESENTATIVE HUKILL: It has been
23 adopted. It is in the Constitution. We are
24 going to follow it. So let's talk about
25 redistricting. Thank you.

1 MR. ARTH: What I am going to explain is
2 how to have fair districts, if you will just
3 give me a minute. This is how we can make V
4 and VI work even better.

5 Just like the Republicans in their own
6 internal election, this is how they elect the
7 Chair. They have what is called rank choice
8 voting, and they don't want most Americans to
9 know about this, but it is a fair, it is
10 called, it is a fair and equitable way and
11 sensible way to elect a leader.

12 The system we have only creates about
13 12 percent representation in Congressional
14 Districts, 12 percent. So if you want full
15 representation and you want a fair and sensible
16 and equitable system, then you implement and
17 this is something that could be done on the
18 legislative level.

19 You will have rank choice voting. You
20 don't have spoilers, parties are not so
21 important, and you will -- you will never have
22 to have a redistricting fight if you also
23 implement proportional representation, which
24 would take it even one step further. Thank
25 you.

1 REPRESENTATIVE HUKILL: Thank you very
2 much. Next we have Reverend Victor Gooden,
3 followed by Jim Oddie. Reverend, you have
4 signed up twice.

5 REVEREND GOODEN: Two different groups.
6 Going to speak once though.

7 REPRESENTATIVE HUKILL: Okay, thank you
8 very much. Go ahead, thank you, Reverend.

9 REVEREND GOODEN: Madam Chair, Mr. Chair,
10 Senators and Representatives, good evening.
11 First of all, thank you for all that you do and
12 we certainly appreciate it.

13 My name is Reverend Victor Gooden, I am
14 coordinator for Governmental Relations at the
15 great Bethune Cookman University, and I have
16 lived and voted in Daytona Beach for over 22
17 years.

18 Communities of interest should be
19 represented as a top priority over arbitrary
20 geographical boundaries. We want to make sure
21 that minorities are represented fairly in
22 Tallahassee and Washington, especially in the
23 area of higher education.

24 When you sit down to finally draw these
25 new lines, remember us here in Volusia County,

1 because of the factors that drive our economy
2 are diverse and different, such as our beaches,
3 the world's most famous beach, airports, the
4 speedway, other businesses and higher
5 education.

6 We need at least two to three
7 Congressional Districts, no more than four
8 Senate Districts, at least one of those would
9 be based in our county. No more than six House
10 Districts with at least three of those based in
11 our county, and fairness should be the major
12 issue throughout this whole process.

13 It is important for people to have a say
14 in how the district lines are drawn, and the
15 Legislature's redistricting hearing process
16 that we are having tonight is legitimate and
17 the best way to do it.

18 Judges, Commissions and Panels are okay,
19 but not for this particular situation. You are
20 the ones that we elected. You are the ones
21 that we are holding accountable, and again, we
22 thank you for all that you do, and please
23 remember Volusia County. Appreciate it.

24 REPRESENTATIVE HUKILL: Thank you very
25 much, Reverend, so much for your comments. We

1 are going to have adhere strictly to the clock
2 now. So please use your time wisely.

3 MR. ODDIE: Oh sure, when I get up here.

4 REPRESENTATIVE HUKILL: Starting with you,
5 Mr. Oddie, yes.

6 MR. ODDIE: Now we stick to the clock,
7 okay.

8 REPRESENTATIVE HUKILL: You are recognized
9 Mr. Oddie.

10 MR. ODDIE: That is okay.

11 REPRESENTATIVE HUKILL: Followed by Peter
12 Kouracos.

13 MR. ODDIE: I should be able to go under
14 the time because I have the benefit of being
15 able to reference to specific speakers.

16 My name is Jim Oddie, I am a long time
17 resident of Volusia County, a business owner
18 and a part of the Republican Executive
19 Committee.

20 And tonight I would like you to give
21 special weight to what Mr. Jim Cameron has said
22 about our business, and also Ms. Ann McFall,
23 our Supervisor of Election as far as making it
24 easier on their office and the complexities of
25 getting people out to vote.

1 I would also like to recognize what
2 Mr. Ken Ali said. He tied up a lot of things
3 about service to our country and what it means
4 to be an American, especially when you are not
5 born here.

6 And I would also you very much to consider
7 what the gentleman spoke about the agriculture.
8 I think that is very important. Since I had
9 the advantage of being able to reference off of
10 those people, now I would just like to get to
11 my own point.

12 And that is we saw the judicial, the
13 judicial branch keep some amendments off the
14 ballot in this last election, things that
15 referred to protecting us from healthcare
16 initiatives that were given to us from the
17 Federal government. Those weren't on the
18 ballot.

19 We saw V and VI that were allowed on the
20 ballot, and at the Federal level we see that
21 Amendment VI is being challenged, and that is
22 good, because this isn't a democracy.

23 This is a representative Republic, and we
24 did things for 140 years when one party was
25 making the decisions and now that the other

1 party is doing it the same way, it is being
2 challenged.

3 So I want you guys to do the same things
4 that they are doing in Congress for Amendment
5 VI, and challenge that, challenge Amendment V.
6 We elected you to go up there and make the
7 districts and I am asking you guys to keep it
8 out of the hands of the judiciary.

9 We already know it is going to be reviewed
10 by them, but let's play by the same rules that
11 worked for a long time and not change it just
12 because another party is doing the
13 redistricting or is in charge of it, because I
14 would like to reiterate one other speaker up
15 here.

16 We don't need black representation. We
17 don't need white representation. What we need
18 is good representation, and we have seen now
19 that that is good or bad is not limited by what
20 color they are or where they are from.

21 So with that in mind, let's use the rules
22 we had, but let's keep the districts compact
23 and fair so that we can avoid the judicial
24 review. Thank you.

25 REPRESENTATIVE HUKILL: Thank you,

1 Mr. Oddie, so much.

2 MR. ODDIE: Thank you for coming out
3 tonight for this transparent process.

4 REPRESENTATIVE HUKILL: Thank you. Next
5 we have Peter and then followed by Harry
6 Rosenthal. You are recognized.

7 MR. KOURACOS: Madam Chairman,
8 distinguished members of the State Legislature.
9 I am not sure if the public knows that we have
10 the incoming Senate President and the incoming
11 Speaker of the Florida House of Representatives
12 here, am I correct?

13 Anyway, I want to make this very brief.
14 The first thing that I would start at is, this
15 is a very big issue, and it has affected us a
16 number of times throughout the course of my
17 lifetime as redistricting has occurred at least
18 four times in my lifetime that I can recall.

19 I would like to start by asking the most
20 high Lord God to impart the wisdom of Solomon
21 upon the entire Legislature as it would relate
22 to the crafting of the districts in question
23 for this redistricting.

24 And I would like to touch on briefly the
25 Congressional Districts in this county which,

1 and my comments are basically reserved toward
2 Volusia County only. For many, many years in
3 the earlier part of my lifetime, probably about
4 35 years ago, Volusia County comprised one
5 county in whole as part of its Congressional
6 District.

7 At that time it was Congressional District
8 4. Throughout the course of several
9 redistrictings which really started to occur as
10 the Democrats started to lose their grip on
11 power maybe about 20 or so years ago, the
12 district or the county became carved up several
13 times and now we have at least three
14 Congressional Districts here. District 24,
15 Sandy Adams, District 7, John Mica and District
16 3, Corinne Brown. I think the time has come at
17 this particular point that Corinne Brown is
18 really living too far away to -- to have a
19 position in this county. She is too distant
20 and it is really too gerrymandered.

21 So Congressional District 3 needs to be
22 reformed out of this county and as far as the
23 remainder of the county, it really either needs
24 to fall into Congressional District 24 or
25 Congressional District 7, one or the other,

1 whichever is easier for the Legislature to do.

2 Insofar as the State Senate boundaries, I
3 am sure it is a hassle for Senator Thrasher to
4 come all the way down here and campaign in this
5 county. Senator Lynn has served us extremely
6 well as a Senator, I as an individual elector
7 in this county have been very pleased with her.

8 I don't know what you need to do with
9 that, but something needs to be done with it,
10 and I have to say, you know, 30 or so years ago
11 there were a lot of complaints from the four
12 towns area, which is Deltona, Deberry,
13 (inaudible) City and Enterprise.

14 During that time period the Democratic
15 Legislature refused to give a State House seat
16 over in that area over the complaints of many
17 of the residents of that time period,
18 principally because they were afraid that it
19 would create a Republican seat.

20 Well, that may or may not be the case
21 today, because of changes in the demographics
22 in the population in the city of Deltona.

23 REPRESENTATIVE HUKILL: I need to stop
24 you.

25 MR. KOURACOS: Okay.

1 REPRESENTATIVE HUKILL: Thank you very
2 much. Sorry. All right, Harry Rosenthal,
3 followed by Ed Kelley. And after Ed Kelley, we
4 have Andy Kelly. You are recognized,
5 Mr. Rosenthal.

6 MR. ROSENTHAL: My name is Harry
7 Rosenthal. For 53 years I have been a
8 registered voter in Daytona Beach. I want to
9 thank each of you for being here. I don't
10 remember this ever having occurred before.

11 I understand that Volusia County is
12 represented by four State Senators and six
13 State Representatives. That is 10 percent of
14 the State Senate and five percent of the State
15 House.

16 Are we over represented in the Senate or
17 are we under represented in the State House of
18 Representatives? One or the other has got to
19 be true.

20 The second is, if we have 40 Senators and
21 120 Representatives, then why not we have three
22 House seats in every Senatorial seat at our
23 district and therefore you have eliminated a
24 lot of this problems that you have with
25 overlapping. Thank you very much.

1 REPRESENTATIVE HUKILL: Thank you very
2 much for your comments, Mr. Rosenthal. Ed
3 Kelley. Good evening, Mayor.

4 MR. KELLEY: That followed up that pretty
5 easy, because one of the concerns that we have
6 and we adopted it at our Commission meeting,
7 that District 26 we feel would be well served
8 by combining that to have Ormond Beach in that
9 District 26.

10 I have nothing against Senator Thrasher.
11 He is my Senator. Senator Lynn also represents
12 Ormond Beach and I am sure that we will send a
13 letter supporting that as well. You have heard
14 from most everyone that that is part of the
15 problem.

16 We were told that we would be better off
17 having more people representing a smaller part.
18 Maybe it is time to look at the other way and
19 try to keep us all uniform. Thank you.

20 REPRESENTATIVE HUKILL: Thank you very
21 much, Mayor, for your comments. Andy Kelly.
22 Good evening to our County Council member.

23 MR. KELLY: Thank you very much. That is
24 what I came up to say was good evening to you
25 on behalf of the Volusia County Council. And

1 Co-Chair, I am looking for Ms. Joyce Cusach
2 right here, thank you very much, and
3 Ms. Alexander is here as well. Carl Persis is
4 here, thank you very much.

5 I would be happy to read this, thank you,
6 but if I may, I wanted to say welcome and I
7 wanted everybody on the floor, general floor
8 that are going to be redistricting in the
9 county, as well as your local cities are, and I
10 want to say thank you to each of the
11 Representatives past and present for serving us
12 as you have been serving us.

13 I think what you have heard the
14 predominant message is very loud and clear, is
15 that you hear us, and then please that you be
16 fair to our Volusia County. Ms. Cusach, would
17 you would like me to read this?

18 REPRESENTATIVE HUKILL: Mr. Kelly, do you
19 want to continue?

20 MR. KELLY: Dear Representative, this is
21 from the concurrent Chair, Frank Bruno. "Dear
22 Representative Taylor. The Volusia County
23 Council unanimously voted at its July 7th
24 meeting to let Florida Legislators know that
25 our preference to put boundary lines that will

1 be created for Florida Senate District 7. As
2 you know, Volusia County residents currently
3 are represented by four State Senators from
4 Districts 1, 7, 8 and 20.

5 Voters in the last election made it clear
6 that they wanted to have districts that are
7 more compact and follow natural boundaries.
8 The County Council agrees, and we request that
9 the new boundaries that are drawn and make
10 Volusia County the core of Senate District 7.
11 Thank you for your consideration."

12 REPRESENTATIVE HUKILL: Thank you very
13 much. Can we -- I have not seen a copy of
14 that. Has that been sent to us? All right,
15 if you could just leave us a copy of it, I
16 would appreciate it.

17 Next up we have Jerry, is it Doty, D-o-t
18 -- is that D-o-t-y? Jerry from Flushing
19 Avenue, Daytona Beach? Followed by Eddie
20 Stamm. Okay, Jerry not here? Jerry? No. All
21 right, Eddie Stamm. You are recognized, Mr.
22 Stamm, followed by Sussanne Jones.

23 MR. STAMM: First off, thank you for
24 coming. I moved here from Washington, D. C.,
25 about three years ago. I grew up in Baltimore,

1 Maryland, and I have to say this would have
2 never happened up there.

3 You guys could have been home doing
4 whatever you wanted to do. So I just wanted to
5 take the time to thank you. It is a
6 representative government, and since I have
7 been involved with some of the political
8 processes here, I know the people in their
9 candidacy to get elected, I have met these
10 people and I feel that, you know, I can speak
11 to any one of them or call their office if
12 there is something that I am not really
13 comfortable with.

14 I don't know a lot about the
15 redistricting. I know it is an issue that for
16 years has troubled depending on what side you
17 are on, but I think if, you know, the
18 transparency you are showing right now, we
19 couldn't ask for anything more, and, you know,
20 the industry of grievance continues on.

21 There is always going to be somebody that
22 has something that they don't like, and
23 hopefully, you know, that can get worked out,
24 so I want to thank you for coming. This is
25 something that is very hard for me to believe,

1 coming from Washington, D. C. It would be very
2 unlikely that this would happen, so thank you.

3 REPRESENTATIVE HUKILL: Thank you, Mr.
4 Stamm, for your comments and your testimony.
5 Next we have Susanne Jones, followed by Lois
6 Troxell. You are recognized, Ms. Jones.

7 MS. JONES: Thank you for allowing me to
8 give my opinion. My name is Susanne Jones and
9 I am from New Smyrna Beach. I have a question.

10 Why is the Legislature even drawing up
11 these districts when it should be done by a
12 nonpartisan commission, a computer could even
13 do it.

14 CHAIRMAN GAETZ: Madam Chair, let's give a
15 factual answer.

16 REPRESENTATIVE HUKILL: Go ahead.

17 CHAIRMAN GAETZ: Because the Constitution
18 of Florida requires the Legislature to do it,
19 and does not allow anyone else to do it. That
20 is the answer.

21 MS. JONES: I am glad I have my answer
22 then. Well, I believe that the districts
23 should be drawn geographically, contiguous with
24 the diverse people in our areas to prevent
25 safe, safe seats from being continuing forever.

1 That will make the politicians have to
2 understand all of the issues of the people in
3 this community so that they don't just address
4 the few.

5 The other comment I want to make is, and I
6 think that fair districting is appropriate, but
7 why on earth have you voted to suppress the
8 vote?

9 REPRESENTATIVE HUKILL: Thank you very
10 much for your comments. Next we have Lois
11 Troxell, followed by Harold Butts. You are
12 recognized, thank you.

13 MS. TROXELL: Hi, I am Lois Troxell from
14 Edgewater, Florida. It was very discouraging
15 to hear you when you were telling your -- who
16 you represent. A piece of this county, a piece
17 of that county, a piece of this city, a piece
18 of that city.

19 Doesn't that sound crazy to you? Doesn't
20 it sound crazy to you? And some of you were
21 probably involved in it before when it was done
22 this way. This is what we don't want.

23 We don't wouldn't you to do
24 gerrymandering. We don't want you to protect
25 your seat. Give us a little credit. You draw

1 fair districts and we will vote for the best
2 candidate, and that will be the best for the
3 state, and that is what you should be
4 interested in ethically, morally, every other
5 kind of way. Thank you.

6 REPRESENTATIVE HUKILL: Thank you very
7 much for your comments. Harold Butts, followed
8 by Kleu Nguyen. I might be misstating that. I
9 hope not.

10 MR. BUTTS: Good evening, honorable ladies
11 and gentlemen. I am from Daytona Beach. In
12 fact, I was born in Daytona Beach. How many in
13 the room were born in Daytona Beach? Five
14 other fellow members -- six. I compliment you
15 for being here.

16 I have been active in politics for
17 probably 30 years, both here, California, and
18 North Carolina. I have never seen a pamphlet
19 like this. I had no idea that the emphasis
20 would be so much on protecting minorities of
21 their representation, and I am appreciative
22 that probably the demographics of Florida are
23 somewhat represented by the whites and the
24 blacks up there.

25 However, there is one color I don't see on

1 that stage. What about the browns? How are
2 they represented if this purpose of this whole
3 effort is to give representation to minorities,
4 why are there no browns up there with you,
5 Latinos I am referring to. Have you thought
6 about that?

7 I don't know the demographics of the House
8 and the Senate. Is it roughly that proportion,
9 Hispanic? I ask you that. That is all. If
10 you don't have it, look with them.

11 REPRESENTATIVE HUKILL: Let me tell you,
12 we have a Hispanic member serving. He just may
13 not be here today, all right. Thank you. Do
14 you have further testimony?

15 MR. BUTTS: That is it.

16 REPRESENTATIVE HUKILL: Okay, thank you,
17 Mr. Butts. Next, how do you say your last
18 name, I am sorry. Nguyen all right, and
19 followed by Joyce Cusach. Thank you very much,
20 you are recognized. Ms. Nguyen.

21 MS. NGUYEN: Hello. I can't believe that
22 out of the all people here I am the shortest
23 one. Thank you. I am here representing the
24 City of Deland, Mayor Robert Apgar. He was
25 unable to attend tonight because of budget

1 meetings.

2 So I am just going to read a letter that
3 he drafted and I will sent the letter out to
4 the Representatives later on this week.

5 "Dear Representatives. As you begin your
6 deliberations on the establishment of new State
7 House and Senate Districts for the state of
8 Florida, we want to share with you our
9 thoughts.

10 Over the past decade Volusia County has
11 been served by six House members and four
12 Senators who's districts are spread across
13 several counties.

14 While we have always enjoyed good
15 representation by those elected to serve us, we
16 think that west Volusia and all of Volusia
17 County will be better served by fewer
18 districts.

19 West Volusia and Volusia County as a whole
20 have shared interests that are best represented
21 by having Representatives and Senators that are
22 solely dedicated to the needs, values and
23 aspirations of the people they serve.

24 Having fewer districts with the vast
25 majority of the people in it reside within west

1 Volusia and Volusia County would enable
2 Legislators to achieve compliance with
3 Amendments 5 and 6 and enable our
4 Representatives to focus more clearly on the
5 concerns of the people they serve.

6 As always, we appreciate your service and
7 for taking the time to weigh our thoughts and
8 concerns. Sincerely, Mayor Robert Apgar."

9 REPRESENTATIVE HUKILL: Thank you very
10 much. Please convey our thanks to the Mayor.
11 All right, next we have Joyce Cusack followed
12 by Charles, K-n-a-u-s-e, is that correct? From
13 Sunny Brook Circle. Good evening, you are
14 recognized.

15 MS. CUSACK: To the wonderful folk that
16 are before us, to the august body of the
17 Florida Legislature. I greet you in the
18 beautiful city of Daytona Beach and the home of
19 Volusia County. I am glad to see you.

20 It has been too long. I want you to know,
21 Baxley, it is good to see you. I want you to
22 know that we are honored that you are here in
23 Volusia County and I bring you greetings from
24 Volusia County Council where I was elected to
25 be a part of that august body this past

1 November. So I am still serving as you are
2 serving.

3 I want to talk, tell us your story, well,
4 I have a story to tell, but you probably know
5 my story, that I live in west Volusia and ended
6 up in east Volusia with the redistricting.

7 So I would want you to know that drawing
8 compact districts is very important. It is
9 just so that not every person that lives in
10 west Volusia would be able to represent east
11 Volusia, as it happened to me, Representative
12 Hukill, in 2000.

13 So just keep these districts compact,
14 contiguous and make sure that they are a
15 representative of the people, and I do not need
16 to have a minority district. I just need to
17 represent people, and so, and that is what
18 happened to me in 2000. I represented the
19 people, so make that happen.

20 Make that happen and the citizens in
21 Volusia County and the state of Florida will
22 always be eternally grateful for you and the
23 service that you provide for all of us. Thank
24 you, and God bless you all.

25 REPRESENTATIVE HUKILL: Thank you very

1 much. All right, next we have I believe
2 Charles has waived his time, so we have Carl
3 Persis, followed by Dana Swanson, followed by
4 Benetta Standly. Where is Mr. Persis? Did Mr.
5 Persis leave? Is Carl Persis back there?

6 All right, let's take Dana Swanson, can
7 you come, Dana, and we will come back to Mr.
8 Persis. You are recognized.

9 MS. SWANSON: Thank you very much for
10 coming out here tonight. Again, a lot of
11 people have said, you could have had other
12 things you could have been doing for your
13 evening.

14 And as a resident of Volusia County since
15 I was four years old, as a resident of west
16 Volusia County and also have also worked in the
17 east side, I also know that each side has its
18 own special unique qualities and its own
19 special unique traits, and that I hope that you
20 try to represent, draw the lines to best
21 represent both sides as fairly as possible.

22 And that I know sometimes you can't draw a
23 box and have everything work out perfectly,
24 especially like on our coast line, yes. So I
25 just would hope that you would try to draw them

1 as compact as possible, but still maintaining
2 the interests of that community. Thank you.

3 REPRESENTATIVE HUKILL: Thank you very
4 much, Ms. Swanson, for your comments. Next we
5 have Benetta Standly, followed by Anita
6 Lapidus. Ms. Standly, you are recognized.

7 MS. STANDLY: Thank you, Madam Chair.
8 Good evening, my name is Benetta Standly.
9 Welcome to Daytona Beach. I direct the
10 northeast Florida Office for the American's
11 Civil Liberties Union of Florida.

12 I am here tonight on behalf of Dr. Joyce
13 Hamilton Henry who directs our north central
14 Florida office and she is not able to be with
15 you tonight.

16 So I am here to hold you accountable. You
17 work for the voters across Florida. I am here
18 to give voice today to the voters who supported
19 Amendments 5 and 6 last November. The
20 disenfranchised and the folks who simply
21 couldn't be here tonight that needs to have
22 their voices heard.

23 I want to make sure that everyone
24 understands that Amendments 5 and 6 actually
25 adds minority voting rights protections into

1 the Florida Constitution for the first time,
2 which helps the provisions that are within the
3 Federal Voting Rights Act.

4 As I have said before to you all, to the
5 delegation, we need information from you on how
6 many majority, minority districts exist in
7 Florida, where they are located and how your
8 maps will protect them.

9 Perhaps you could do that through having
10 some sort of voter workshop across the state.
11 You know you have a legal obligation to make
12 sure that the minority voters have the
13 opportunity to pick the candidates of their
14 choosing.

15 As you know, the new rules for drawing the
16 legislative boundaries have been overwhelmingly
17 approved by the voters, but we need the Florida
18 Legislature to follow by these rules.

19 You said you will, but hear me, people do
20 not trust the work that you are going to do.
21 Quite frankly, I am disappointed that the House
22 has intervened in the Amendment 6 lawsuit, and
23 you guys continue to oppose and fight these new
24 rules.

25 Quite frankly, it is insulting to the

1 voters. We understand that when redistricting
2 happens all around this country, and Florida is
3 no different, that the political party in
4 charge is likely to draw lines that favor
5 themselves. That is not acceptable.

6 The entire purpose of Amendments 5 and 6
7 were for voters to choose their politicians,
8 not the other way around. This is supposed to
9 be a fair nonpartisan process. I trust that
10 you guys will make sure that that is adhered
11 to.

12 Again, as I have said before, these
13 hearings are window dressing, they are fake and
14 they are not really a conversation. We don't
15 want any insider back room deals. This is
16 quite frankly a slap in the face. You guys
17 haven't presented us with any information to
18 give you public comment on.

19 We want you to stop wasting taxpayer
20 money, because quite frankly, Senator Gaetz,
21 \$30 million in the State House has been set
22 aside in reserves to fight these Amendments,
23 and we know that in the Senate \$8 million has
24 been set aside.

25 So stop undermining the will of the voters

1 in Florida. It is your job to draw these maps,
2 not mine. Stop suggesting to the public that
3 we submit maps to you. It is your job. It is
4 written into the Constitution.

5 REPRESENTATIVE HUKILL: All right. I need
6 to cut you off. Your three minutes is up.
7 Thank you very much.

8 MS. STANDLY: Well, I am going to make one
9 final point. Let's have a real conversation.
10 Give us some maps, let us react to those.

11 REPRESENTATIVE HUKILL: Thank you very
12 much. All right, next we have Anita Lapidus,
13 Anita Lapidus, followed by Sally Sherman. You
14 are recognized.

15 MS. LAPIDUS: Hi, I am Anita Lapidus.
16 Good evening, and thank you for coming. Most
17 of what I would say has been said. I agree
18 with the League of Women Voters. I even find
19 myself tonight agreeing with Ann McFall that
20 precincts shouldn't be subdivided into postage
21 size voting areas.

22 We need sensible solutions, common sense
23 approaches, contiguous districts, and we need
24 to see them in order to have trust in this
25 process.

1 You have heard a lot of angry people.
2 Well, I was one of the people who sat in a
3 theater and handed out the little petitions to
4 get this on the ballot, to have it voted for,
5 and I want to see that it means something, that
6 it means we can have truly fair elections.

7 I am sure that is what you want, too, but
8 things get pulled to one way or another. Stand
9 firm. Look for the honest fair election.
10 Thank you.

11 REPRESENTATIVE HUKILL: Thank you very
12 much, Ms. Lapidus, for your comments. Next,
13 Sally Sherman, followed by Heidi Herzberg,
14 Herzberg, I am sorry. Ms. Sherman, you are
15 recognized.

16 MS. SHERMAN: Thank you. Good evening,
17 Madam Chair and to our distinguished panel. I
18 would like to bring you greetings from the
19 Flagler County Board of County Commissioners,
20 chaired by our own Alan Peterson, Commissioner.

21 On July 6th, our Board of County
22 Commissioners met and they sent me here to
23 deliver a very simple message that is important
24 and has a lot of impact. We ask as you go
25 through the redistricting process, please keep

1 Flagler County whole.

2 We ask again, for the Senate seat, keep
3 Flagler County whole, include any other whole
4 county districts as needed to make your numeric
5 thresholds.

6 As it relates to the House seat, we are
7 going to ask, please keep Flagler County whole,
8 to the extent possible. We do recognize that
9 in order to meet our numbers a few years ago we
10 were included as a part of St. Johns and
11 Volusia County, but again we say, please keep
12 Flagler County whole. Thank you.

13 REPRESENTATIVE HUKILL: Thank you very
14 much for your comments. Very good. All right,
15 next, we have Heidi Herzberg, followed by
16 Dennis Bonilla. You are recognized.

17 MS. HERZBERG: Thank you, good evening,
18 ladies and gentlemen, first of all, as a
19 Representative and a Commissioner of the City
20 of Deltona, I would like to thank you for
21 providing all of us, the residents of Volusia
22 County, this opportunity to speak to you and to
23 see all of you in person. We appreciate your
24 coming here and your representation.

25 I speak to you as a resident of 25 years

1 of the City of Deltona. We are the largest
2 city in Volusia County. We are the second
3 largest city in central Florida. We have a
4 population of 85,000 people.

5 Currently we are experiencing the three
6 levels of redistricting that many of our cities
7 are, city redistricting, county redistricting
8 and state redistricting for which you are here
9 this evening.

10 With each level of redistricting our
11 citizens become more and more limited and
12 diluted as to what their role is and to what
13 representation they have. They have city
14 redistricting, then we have county
15 redistricting and now state.

16 In the City of Deltona we have two
17 Congressional seats, we have two State Senate
18 seats and we have four State House
19 Representative seats. Not one of our
20 Representatives, as you heard here before this
21 evening, lives in the city of Deltona. Some of
22 them live as far away as Jacksonville.

23 Our Representatives, as some of you are
24 you up here, do the best with the limitations
25 that they have. We understand that it is very,

1 very difficult when most of you have a small
2 section of Deltona and many of our residents do
3 not know which Representative represents their
4 part of Deltona.

5 This evening you have heard one out of
6 every five speakers that have come up here
7 mention the city of Deltona, and almost every
8 map that was presented to you by the gentleman
9 prior mentioned Deltona and the fracturing that
10 has occurred in our city.

11 This fracturing is very confusing for our
12 residents. And it encourages, unfortunately
13 encourages voter apathy as well as
14 disenchantment in our elected officials as it
15 is very difficult for the residents of Deltona
16 to know who their Representatives are and who
17 to contact.

18 I encourage you to consider the city of
19 Deltona as the largest city in the county, the
20 second largest city in central Florida when you
21 are providing your redistricting. I would
22 encourage you to look at the lines and see how
23 we are fractured.

24 We have 85,000 people. It is a huge voter
25 base for everyone. You have the opportunity to

1 make history. This challenge of redistricting
2 and the census comes along once every ten
3 years, and it is your wisdom as Representatives
4 and your responsibility as Representatives of
5 the citizens of the state of Florida to shape
6 the future of our state, and I encourage you to
7 do so, and please look at Volusia County and
8 please look at the city of Deltona and try to
9 pause our Representatives to have better
10 representation for the citizens in our county,
11 because we do have a large voter block and I
12 thank you again very much for allowing all of
13 us to be a part of this opportunity.

14 REPRESENTATIVE HUKILL: Thank you. Thank
15 you for your service, too. Next we have Dennis
16 Bonilla, followed by Nick Koval. Dennis, you
17 are recognized.

18 MR. BONILLA: Thank you. My name is
19 Dennis Bonilla, and I am a brown man, and --
20 but that is how it was described, but I like to
21 think of myself as off white.

22 Now, I have lived in Volusia County for 41
23 years and consider myself almost a southerner.
24 My main concern here this evening is that the
25 work that you have been charged with that has

1 been spoken to by the voters be done so that it
2 is completed in time for the 2012 election, and
3 that would mean my understanding is that you
4 get through with these sessions by
5 September 1st, and you have upped the time for
6 your regular meetings through January, and this
7 should be the first order of business.

8 I am a great believer in the Constitution
9 and I do not feel our courts, I support them
10 and respect them. I want the opportunity to
11 see the work that you are going to do and if I
12 don't agree with it, have the opportunity to
13 challenge in court and then have the court
14 decide between them in time for the next
15 election. Thank you very much.

16 REPRESENTATIVE HUKILL: Thank you very
17 much for your comments. All right, next we
18 have Nick Koval and Amy -- I am sorry, Barry,
19 Barry Maquire. You are recognized.

20 MR. KIVAL: Good evening, ladies and
21 gentlemen, my name is Nick Koval. I live in
22 the city of Deberry.

23 REPRESENTATIVE HUKILL: A local elected
24 official.

25 MR. KOVAL: Thank you very much. There is

1 only a few things that I would like to comment
2 on, and I am listening here to all of these
3 folks give you ladies and gentlemen an idea
4 that we are here to try to re-enforce our duty
5 as citizens of Volusia County.

6 My suggestion, if anybody realizes or have
7 been involved in a redistricting plan, at best
8 it is a monumental task. My suggestion would
9 be to look at Volusia County and where at all
10 possible keep cities or municipalities or towns
11 intact, where possible.

12 Where that is not possible, use physical
13 feature boundaries so it doesn't confuse the
14 voters, and what I mean by physical feature
15 boundaries, streams, railroads, power lines and
16 major roads where possible. This way that
17 would set the lines of these alignments.

18 This way it gives the voters a clear idea
19 of where they are supposed to vote, who they
20 are supposed to vote for and give them a
21 general idea and understanding on what the
22 redistricting plan is.

23 Ladies and gentlemen, I know it is a
24 monumental task. I don't envy you, but one
25 that has been involved with the Census Bureaus

1 since 1970, and worked on redistricting plans
2 from where I originally came from, I know what
3 a difficult task it is, but I believe that if
4 you keep the population that is assigned to
5 each census tract within a municipality, within
6 a county, I think your job would be much easier
7 following those boundaries.

8 Thank you very much for listening to what
9 I have to say and my suggestions and I believe
10 that everybody here is all looking at the same
11 idea. Thanks very much, everybody.

12 REPRESENTATIVE HUKILL: Thank you very
13 much for your comments and for your service
14 also. All right, next we have Barry Maquire,
15 followed by Richard Gardner.

16 A VOICE: Barry Maquire waives his time.

17 REPRESENTATIVE HUKILL: Waive, thank you
18 very much. Richard Gardner, followed by
19 William Ternent. Richard Gardner? There is
20 Richard.

21 MR. TERNENT: Hello, I am Bill Ternent.
22 As many other folks have said, thank you for
23 being here and thank you for what you are
24 doing.

25 My message will be short, just really in

1 two parts. Many of you I have met and talked
2 to you on other issues before, so I have been
3 out talking with a number of different groups
4 and suggesting that they do get involved in
5 this process, urging them to be here tonight
6 and to be in contact with you as it moves
7 forward.

8 The first part of that message is just
9 simply follow through on what it is the voters
10 have asked you to do. It is not that
11 complicated. I know that there is some
12 ambiguities in it, but they are not excessive,
13 and I know that you are strong enough and
14 courageous enough and thoughtful enough to
15 follow through on what it is that they have
16 asked.

17 The second thing that I have found though
18 in talking with folks in various settings, I
19 have encouraged them to go out and get on-line
20 and try to use the materials that are there so
21 that they could directly participate, and I
22 think that that is very good that you have
23 tried to reach out to encourage people to
24 participate, but what I am finding from most
25 people is that they say, those materials are

1 very, very difficult to use.

2 That the instructions that are out there
3 are not adequate for them to be able to do what
4 it is that they intended to do when they moved
5 out to that. So I would encourage you to have
6 whomever is in charge of that part of the
7 project to really take a very close look at it
8 and see what can be done in order to make those
9 materials more useful and that would allow more
10 people to give you their direct input in a
11 meaningful way. Thank you.

12 REPRESENTATIVE HUKILL: Thank you very
13 much, and for clarification, that was William
14 Ternent. I happen to know Bill, so, and Bill,
15 I will give you a number of a person where you
16 can talk to someone from staff to give you
17 clarification.

18 All right, next we have Richard Gardner.
19 He just preempted you while you were working
20 your way down.

21 MR. GARDNER: That is quite all right.

22 REPRESENTATIVE HUKILL: Thank you, you are
23 recognized.

24 MR. GARDNER: Thank you, Representative
25 Hukill. My name is Richard Gardner. I live in

1 Ormond-by-the-Sea, and I am a registered
2 Independent and I vote. And the slide behind
3 you says tell us your story, and my story
4 tonight is one of perception.

5 62.6 percent of the voters voted to sort
6 of change the rules or to change the game a
7 little bit on setting up districts and
8 redistricting, and I think it is imperative
9 that the Legislature follow that, follow that
10 lead, and the perception out there though is
11 something I think quite different.

12 The perception, whether it is \$30 million
13 in reserve or the \$900,000 that has already
14 been spent to try to overturn this, or the
15 organization is that some of you up there on
16 the stage belong to that have contributed to
17 the Diaz Balart and Brown lawsuit, it all goes
18 to the perception that the Legislature is
19 trying something nefarious to overturn 62.6
20 percent of the public that voted for it.

21 And given the fact that we also have a
22 Supreme Court decision, Citizens United, now we
23 don't even know who might be out there
24 distributing money to overturn what actually is
25 an overwhelming number of people that voted to

1 change this. So I would urge all of you, urge
2 to look inside, urge you to work hard. As
3 Senator Gaetz pointed out, it is your job to
4 draw those districts.

5 While you might say, might be a good
6 little game for us to play that, to play
7 Legislator for a day and draw those districts,
8 it is really going to come down to what you all
9 do.

10 Please do the right thing. There is going
11 to be people that are going to be watching. We
12 have confidence in our form of government and I
13 want to make sure that that confidence remains
14 and destroy those perceptions that are out
15 there. Thank you.

16 REPRESENTATIVE HUKILL: Thank you so much,
17 Mr. Gardner, for your comments. All right,
18 next we have Judy Reiker, followed by Jane
19 Mealy. Judy, are you here, is Commissioner
20 Reiker here? No, okay, Jane Mealy, followed by
21 David Buldautt. Jane Mealy? Okay. You are
22 recognized, thank you.

23 MS. MEALY: Thank you, I am Jane Mealy, I
24 am the Commissioner in City of Flagler Beach,
25 which is the jewel of the east coast for the

1 people from Daytona Beach not to be
2 competitive.

3 We are the only beach that is three miles
4 from 95, so come visit us. Flagler Beach is
5 about the size of Deltona, so I can well relate
6 to my colleagues from Deltona who complained
7 about being split up, and in no way do I mean
8 to say anything negative about Dr. Costello or
9 Representative Taylor or any of our others, but
10 we are divided up and it doesn't work well.

11 Flagler County is a very small county. We
12 have about 90,000 people. Flagler Beach only
13 has 5,500. I am represented by a person who
14 represents part of Putnam County, part of St.
15 Johns County and on up the beach.

16 I don't have very much in common with the
17 people from Ponte Vedra, and I feel like I have
18 more in common with the people in Daytona. I
19 would like to see, as Sally Sherman said before
20 representing the County Commission, that
21 Flagler be made whole or become whole.

22 We have five cities in Flagler County,
23 some very small, one very large by comparison.
24 We are working very hard to work together to
25 come up with solutions to our common problems.

1 Parts of Flagler County are agriculture.
2 Parts are typical suburb area, coming from New
3 York, that is, compare Palm Coast to. Flagler
4 Beach is very much a beach community. Bunnell
5 is more an industrial and agricultural area.

6 So we are very diverse. We are very
7 diverse in our population as well, but we are
8 working very hard. We meet quarterly, each of
9 the city governments, to try and find ways that
10 we can help each other.

11 If we had one set of government people
12 that we could turn to, it would work better and
13 I see Dr. Costello agreeing. So I am hoping
14 that when you do your redistricting that you
15 will keep things like that in mind for the
16 citizens of Flagler County, and others that are
17 similar to us.

18 We may be small, but we have a lot of
19 voters, too, and they do vote, I can tell you.
20 And our votes count just as much as the people
21 from the big cities. So please keep this in
22 mind. Thank you.

23 REPRESENTATIVE HUKILL: Thank you very
24 much for those comments and for your service.
25 Thank you. Next we have David Buldautt

1 followed by Carolyn Morgan. Mr. Buldautt, you
2 are recognized. Good evening.

3 MR. BULDAUTT: Chairman Hukill, members of
4 the Volusia voters, legislative delegation,
5 Senator Gaetz, thank you for coming here.

6 Thank you for hearing us, my name is Dave
7 Buldautt, a life long resident of Deland. As
8 far as redistricting goes, I like what we have
9 here, because I actually think having nine
10 people on our legislative delegation gives more
11 count to Volusia than it would be having only a
12 few.

13 I kind of like it. I don't feel like I am
14 a disenfranchised voter. I love Deland and I
15 live in District 26, Fred Costello is my State
16 Representative. I live in State Senate 7.
17 Evelyn Lynn is my State Senator, and I live in
18 Congressional District 7, John Mica has been my
19 Congressman since the day I turned 18 and
20 registered to vote, so I like my
21 Representatives. I like where I live. I don't
22 want to see it changed. Thank you.

23 REPRESENTATIVE HUKILL: Thank you very
24 much, Mr. Buldautt, for your comments. Next we
25 have Carolyn Morgan, followed by Leslie Parent.

1 You are recognized, Ms. Morgan.

2 MS. MORGAN: Thank you. I am from Flagler
3 County. I work in Clay County. I have to
4 admit that I attended the Clay County
5 delegation meeting and was quite surprised to
6 see so many of our Flagler County
7 Representatives all of the way up in Clay
8 County.

9 But I think that the compact districts are
10 essential to what we are doing. I think that
11 the confusion that so many of our voters have
12 as to who they represent, who represents, whom
13 we would contact in terms of any issue that is
14 before the Legislature, it is just really hard
15 to keep track of.

16 The districts are extruded. They are
17 strange looking, I think they need to be
18 compact. They do need to watch reasonable
19 boundaries, the kinds of boundaries that people
20 can relate to. I think it would make a better
21 representative situation.

22 I think the Legislature needs to stop
23 fighting the Amendment 5 and Amendment 6, and I
24 will, as a Flagler County person I would say
25 that Flagler needs to have -- to be made whole.

1 It is too small a county to be separated
2 and parsed out into different districts the way
3 it is. We already I know from working in
4 Flagler and now in Clay, that we are pulled to
5 the north by regional transportation issues.
6 We are pulled to the south by the District 5
7 designation that we are following for
8 transportation at DOT.

9 We have got a media market that is
10 Orlando. We have got representation that is
11 Jacksonville. We don't, if you are listening
12 to Bright House television, you haven't got a
13 clue what is happening in Jacksonville. Nobody
14 will tell you what is even happening in St.
15 Augustine.

16 We really need to be put in one place.
17 Flagler suffers so badly from being pulled
18 apart. Thank you very much.

19 REPRESENTATIVE HUKILL: Thank you so much
20 for your comments. Next we have Leslie Parent,
21 followed by Alan Peterson. Leslie? Leslie
22 Parent? Alan?

23 MR. PETERSON: Good evening, Madam
24 Chairman, Senator Thrasher, Representative
25 Costello, my name is Alan Peterson. I am

1 Chairman of the Flagler County Board of County
2 Commissioners.

3 I am here tonight to represent all 95,000
4 residents of Flagler County. You have heard
5 other people speak tonight. Please keep
6 Flagler whole. We are represented by two
7 Representatives currently and two Senators, but
8 the Senate Districts for example run 100 miles
9 from Duval down into Volusia County. It makes
10 no sense in today's environment.

11 So please, as others have spoken tonight
12 from Flagler County, please keep Flagler County
13 whole, give us one Senator, one Representative.
14 Thank you.

15 REPRESENTATIVE HUKILL: Thank you,
16 Chairman, for your comments and for your
17 service. Now we have David Corcoran, David
18 Corcoran? Is Mr. Corcoran here?

19 MR. CORCORAN: Yes.

20 REPRESENTATIVE HUKILL: There you are.
21 Let me just say, there are certain people who
22 did not respond when I called their name. So
23 if they are here, Carl Persis, Mike Nolan,
24 Jerry Doty and Leslie Parent, we will get you
25 right after Mr. Corcoran, you are recognized.

1 MR. CORCORAN: Thank you very much,
2 Ms. Hukill, Senator Thrasher, members of this
3 Committee, and the citizens of Volusia and
4 Flagler and maybe Seminole County, wherever.

5 My name is David Corcoran. I live
6 occasionally in Daytona Beach, sometimes in
7 Orlando, and then sometimes I go to Phoenix,
8 Arizona area to work as a food service worker
9 during the fall football season.

10 So I have a lot of interest about the
11 redistricting and all of this stuff and
12 everything, and I know it is all part, you
13 know, the Constitution, you know, the census
14 every ten years it has to be done.

15 But let me give a little history lesson to
16 all of the people here, you know, in the good
17 old days they used to have the old good old boy
18 ways of politics. You know, they stack the
19 deck for however is in power.

20 Now, the Legislature, whether with the
21 Democrats or the Republicans and they are going
22 to make it all in favor of their, and maybe
23 give a little more for the minority candidate
24 districts, maybe here or there, but in these
25 days, now, I got to make one thing.

1 We know that the Republicans can throw the
2 cards for the next two years, we know Rick
3 Scott is the Governor and he was elected with
4 huge Tea Party support, that stands for tax,
5 enough already, and we know for a fact that in
6 2000 when George W. Bush was elected, that
7 Kathleen Harris had a large part with her dirty
8 old hands with the Secretary of state, and what
9 was her reward?

10 The Legislature, some of you guys went
11 out, made a special district in Sarasota just
12 for her, and to let the people know,
13 Representative Harris was so incompetent, she
14 got out real quick and got beat by Bill Nelson
15 a couple of years ago in a landslide.

16 To make it real short, ladies and
17 gentlemen, we know that everybody wants their
18 piece of the pie. Everybody knows they want
19 their little bit of the money coming from D. C.
20 and Tallahassee, so they can take care of their
21 little pet projects, but at the end of the day,
22 watch out for the lobbyists, watch out for the
23 attorneys, because if you go to Tallahassee
24 during the season, there is sometimes more
25 lobbyists and attorneys talking to all of you

1 guys that can fill the whole football stadium
2 at Doak Campbell Stadium when the Florida State
3 Seminoles play and that is about 90,000.

4 So a lots of eyes and ears. It is more
5 than we the people, sometimes follow the money.
6 Thank you very much.

7 REPRESENTATIVE HUKILL: Thank you very
8 much for your comments. All right, next Carl
9 Persis, is Carl here? Not here, okay, Mike
10 Nolan, Mike Nolan from New Smyrna Beach. Jerry
11 Doty, Jerry, from Daytona Beach? And Leslie
12 Parent? Who am I seeing? No, Leslie Parent
13 from Holly Hill.

14 All right, last call for those four. All
15 right, that concludes the list of those who
16 have already signed up who wish to speak. Yes,
17 sir.

18 MR. NICHOLSON: I had a card, John
19 Nicholson.

20 REPRESENTATIVE HUKILL: Yes, we did, I
21 think. Come forward, yes. I am sorry.

22 MR. NICHOLSON: Not a problem.

23 REPRESENTATIVE HUKILL: All right, John
24 Nicholson.

25 MR. NICHOLSON: John Nicholson, Daytona

1 Beach. I have four people up there that
2 represent me and I don't know whether you are
3 here or not. I mean, I have neighbors up
4 there, Dwight (inaudible) lives across the
5 bridge from me, but I don't know whether he
6 represents me or not. I have Fred that lives
7 up the road on Ormond, but I don't know whether
8 I am in his district or not, because they
9 gerrymander Daytona Beach in such a fashion
10 that they think they are doing the right thing,
11 but it really ends up that I am confused, and I
12 can tell you, I go to one or two meetings so I
13 am familiar with how politics works.

14 If I am confused, you can imagine what the
15 rest of the community is confused. They will
16 ask me and I will say how in the heck do I
17 know. I have to look at my card to let me know
18 who is where and what.

19 So what I am asking you is there used to
20 be a dirty word called gerrymandering. It was
21 wrong back then, and now gerrymandering is
22 okay. When you gerrymander, and I understand
23 you can look us straight in the face and say
24 that Corrine Brown's district had nothing to do
25 with race.

1 I am sorry, when you say that to me, I
2 know you are lying, okay. It had everything to
3 do with race. The Supreme Court says you can't
4 do it. If you look at it with the fact that,
5 well, she can't get elected any other way, what
6 I am telling you, that in Daytona Beach we have
7 70 percent white voters and the previous Mayor,
8 we had 60 percent of our City Council was
9 black, all right.

10 We had a Commissioner from a 99 percent
11 white district was voted in. It can happen.
12 Things are changing. This is 2012. You are
13 looking at 2020. Things are changing. We have
14 to look at who the person is, and if they can't
15 be qualified to get elected on any other reason
16 then they shouldn't be there in the first
17 place.

18 So I am asking you, I know you think you
19 are doing us a good favor by dividing us up
20 into 10, 12, 15 districts, and having that many
21 Representatives, but we really don't. You only
22 get a small portion of their time.

23 If Evelyn was for Volusia County only we
24 could go to her and we could know that she
25 backed us, but when she represents God knows

1 how many other counties, then where does her
2 allegiance lie.

3 That is the same thing when all of you get
4 divided up, where does your allegiance lie. I
5 know you want to represent all of us in
6 Florida, but we are distinct communities. So I
7 ask you to try to keep whole the cities, first
8 of all, and the counties, second of all. Try
9 to keep the communities together. Thank you.

10 REPRESENTATIVE HUKILL: Thank you very
11 much for your comments. All right, we have
12 Charles Field. Mr. Field wants to speak. Yes.
13 You are recognized, Mr. Field. Thank you.

14 MR. FIELD: Thank you. When I came here
15 tonight, I didn't know whether I would have
16 anything relevant to say that my son, Rob, Rob
17 Field is, you know, very active in the
18 community.

19 I am a retired labor economist from
20 northern Virginia, worked in Washington, D. C.,
21 for 30 years. When I try to synthesize what
22 has been said here tonight, I have two
23 additional things that I would like to say that
24 I think are relevant.

25 Number one, I have traveled all over the

1 country for many, many years. In this county
2 there must be at least 15 independent cities
3 involved.

4 Some of them are contiguous, some of them
5 aren't, that the other thing is, and what has
6 been, you know, most of the people say that
7 cities, I mean, if a city can't stand on its
8 own, it should be combined with the city next
9 to it, that so we don't have a lot of
10 gerrymandering.

11 On the other hand, we do have a lot of
12 minorities in this -- in this county. Many of
13 them, most of them I guess are located in
14 Daytona Beach, but there has been, I have
15 noticed over the 11 years that I have been here
16 that the minorities is spreading out to other
17 cities within the county, that -- but I would
18 like to see both of these concepts recognized
19 in redistricting.

20 That -- so that -- so that minorities have
21 an equal chance of being or a larger chance of
22 being elected and also that the districts are
23 (inaudible) so that, and consolidated.

24 I live in south Daytona which has 13,000
25 residents. Thank goodness, we only, you know,

1 that we are not divided. I would hate to see
2 something like that happen. Thank you for
3 listening to me.

4 REPRESENTATIVE HUKILL: Thank you very
5 much for your comments, Mr. Field, and
6 Mr. Field, I am going to have a staff member
7 bring a card over to you. We don't have a card
8 from you. We have one from your son. So I
9 would appreciate it if you would fill that out.
10 Thank you very much.

11 All right, is there anyone else in the
12 audience who would like to speak? I have
13 called all of the cards and we have recalled
14 people who did not -- who left the room or had
15 to leave completely.

16 Anyone else who would like to speak?
17 Going once, going twice, no. I just want to
18 tell you, especially representing Volusia
19 County, how proud I am for the input.

20 You have just turned out in mass, in
21 numbers, with wonderful ideas and I am so
22 proud. We have actually some time left. So I
23 am going to see if there are members, House
24 members who would like to speak and Senate
25 members. I think we will start with the Senate

1 first.

2 Any Senators which to say anything, or
3 comment? Okay, there being none, all right,
4 House members?

5 CHAIRMAN GAETZ: I think Senator Montford
6 has something.

7 REPRESENTATIVE HUKILL: I am sorry, go
8 ahead. You are recognized.

9 SENATOR MONTFORD: Thank you. This is the
10 first time I have taken the opportunity to
11 speak after a public hearing, but I felt moved
12 to do so, and if you may just bear with me just
13 for a moment.

14 My, I am a freshman. I may not look like
15 it, but I am a freshman among this group, but
16 my experience has been about 40 years in the
17 public school system, and two terms, two terms
18 as a County Commissioner, three terms elected
19 as School Superintendent, and I participated
20 over the 40 years in a lot of public hearings.

21 Public hearings about growth management
22 when we didn't have a Growth Management Act in
23 Florida, school rezonings, redistricting and
24 all of you have been through that, know how
25 tough that is, but I sat here tonight and this

1 is the ninth public hearing that I have
2 participated in with this group, especially
3 under the leadership of Senator Gaetz and
4 Representative Weatherford, and I am proud to
5 be a part of this process.

6 Going into this process when we began, I
7 anticipated and thought I would learn
8 something, and I have, but I have learned far,
9 far more than what I ever dreamed I would.

10 I thought I sort of knew it all, but from
11 Pensacola to Tallahassee, Ft. Walton Beach,
12 Panama City, Jacksonville, St. Augustine and,
13 where are we? I apologize, it has been a long
14 day.

15 This is the ninth one and I have learned
16 so much. So I want to say thank you. Every
17 time there has just been a different flavor and
18 what has been so important to us in this group
19 and I think I can speak for my colleagues, is
20 the sincerity and honesty with which we have
21 been granted the opportunity to learn from you,
22 but I also want to give, hopefully give you
23 some comfort.

24 And I am a Democrat, so I am -- I am one
25 the ones that asked to be on this Committee as

1 a freshman and was granted the opportunity, but
2 I, in all of my years I don't think I have
3 worked with a group of colleagues that have
4 been more dedicated and open to the process.

5 You talk about a transparent process.
6 This is transparent, but what goes even deeper
7 than that, and I have learned over these nine
8 public hearings and working with my colleagues
9 here how genuinely sincere they are in what I
10 call growing up, doing what is right.

11 Now, we all are not going to agree. I
12 don't think any of us will probably agree with
13 exactly what we come out with, but I can go to
14 sleep on tonight and when we finish the
15 process, I will know that I worked with some
16 colleagues that really honestly did it right,
17 and I have got, I have a lot of experience in
18 that.

19 Again, we may not all happy with the
20 process. I may not be happy with it, I mean
21 with the results, but I promise you, you can
22 sleep tonight knowing that these
23 Representatives and Senators will do what is
24 right in their heart and I honestly believe
25 that, and I promise you, I wouldn't say that if

1 I didn't believe it.

2 So thank you for the opportunity to say a
3 few. This is the first time I have done this.
4 Thank you.

5 REPRESENTATIVE HUKILL: Thank you so much,
6 Senator, for your comments. Thank you.
7 Representative Taylor.

8 REPRESENTATIVE TAYLOR: Thank you, Volusia
9 and Flagler for showing up tonight. It is
10 important that you did come out and you shared
11 your story. You have made me be envy of the
12 Legislature because I know all of my members
13 here are jealous that I have got the number one
14 group of people who have come out in support
15 and shared their stories.

16 So thank you for coming out. Thank you.

17 REPRESENTATIVE HUKILL: Thank you very
18 much, Representative Taylor. Representative
19 Costello.

20 REPRESENTATIVE COSTELLO: Thank you very
21 much for coming out. I want to thank Senator
22 Montford for his comments, because I echo that.
23 This is an outstanding group of people. I
24 mentioned that up front.

25 I just want to tell you and I know we are

1 not to get specific, Deltona, I represent, I
2 love it, I love them, I am honored to represent
3 them. They want one Representative.

4 Deberry, I represent part of Deberry. I
5 am honored to represent them, they want one
6 Representative. Deland, I am honored to
7 represent part of them, they want one
8 Representative. Ormond Beach, I represent part
9 of Ormond Beach. I am honored, I was Mayor
10 there for eight years, they want one
11 Representative.

12 Flagler County, I am honored to represent
13 part of Flagler County. They want one
14 Representative. Whatever I end up
15 representing, I am honored to represent you.

16 REPRESENTATIVE HUKILL: Very good. Thank
17 you, Representative Costello. Next we have
18 Representative Baxley.

19 REPRESENTATIVE BAXLEY: Thank you,
20 Chairman. First of all, I wanted to thank all
21 three of our fine Chairmen for the leadership
22 that we have had, the decorum with which these
23 meetings have been conducted for us to hear
24 things that we needed to hear, and I am very
25 grateful.

1 I hope many of you will come join this
2 fine crew as they get near my home at The
3 Villages tomorrow, a very different environment
4 and also in Gainesville tomorrow night. So you
5 come and travel with us, but thank you and for
6 the freedom that we have felt as members to
7 participate.

8 No one has ever told me that I shouldn't
9 say something, but I believe that this is,
10 there is a time to listen and there is a time
11 to speak, and for the bulk of these hearings it
12 has been a great time for us to listen. Thank
13 you, Chairman.

14 REPRESENTATIVE HUKILL: Thank you,
15 Representative Baxley, so much, for your
16 comments.

17 CHAIRMAN GAETZ: Madam Chair?

18 REPRESENTATIVE HUKILL: Yes, Chairman.

19 CHAIRMAN GAETZ: Thank you very much, and
20 thanks to all of you who have hung with us.
21 There are other things that you could have done
22 tonight that probably would have been even more
23 entertaining.

24 Let me just say as the Senate Chair of the
25 Reapportionment Committee, that this has been

1 extraordinarily helpful to me.

2 I think there is somebody who has been
3 traveling with us from hearing to hearing who
4 made the comment tonight that this was window
5 dressing, but yet it is her third hearing that
6 she has been to.

7 I can tell you that I took eight pages of
8 notes earlier today. I took four pages of
9 notes tonight. There are things that I have
10 learned from your testimony about -- about the
11 east and west Volusia County, about Deltona,
12 about the way that you look at your communities
13 that we couldn't have learned if we would have
14 sat in Tallahassee in an echo chamber and drew
15 some maps and said, well, here they are.

16 It is much better it seems to me, that we
17 should listen first and then make a proposal or
18 a series of proposals, and I want to emphasize
19 that any member of this committee can offer a
20 map at any time today, tomorrow, tonight.

21 Any member of the Legislature who is not
22 on this committee can offer a proposed map any
23 time they want to. Any member of this
24 audience, any special interest group who is
25 represented here tonight or who wasn't

1 represented here tonight can propose a map at
2 any time.

3 They will all be made public and we will
4 all have a chance to comment on them before any
5 votes are taken. So this isn't your last time
6 to participate. This is your first time to
7 participate in what we believe will be an open
8 process.

9 Someone mentioned earlier tonight that
10 Florida hasn't had the most, you know, perfect
11 record as far as elections are concerned. That
12 is true, but ten years ago when these maps were
13 drawn, by the way, I should say hardly anybody
14 in the Legislature was there ten years ago.

15 So I, for example, ran in a district that
16 somebody else drew, and that is the case with
17 all or most everybody on this stage. We didn't
18 create the districts we are running in. We are
19 running in districts that somebody else drew.

20 But I would tell you this, that the
21 redistricting process that Florida has used has
22 been honored nationally for being open and
23 transparent and this is more open and
24 interactive with the public than any in the
25 country.

1 There is a reason that some states have
2 finished earlier, and that is because they had
3 some people who went in a back room, drew some
4 maps, came out, voted, that was it. That was
5 Illinois.

6 There are other states that vote in off
7 years, like Louisiana and others, and they got
8 their census information before we did and they
9 were able to act before we did. We were one of
10 the last states to get our census data from the
11 Bureau of the Census, not the last, but one of
12 the last, and as soon as we got the census
13 information, the demographics information upon
14 which redistricting is based, it was
15 immediately put on the website so that the
16 people of Florida could see all of the
17 information that we would see, and then we
18 placed the software that we will use to draw
19 the maps on our websites so that you could look
20 at that software and we are delighted that
21 Mr. Hoyt tonight offered up his maps.

22 We had maps that have been offered in the
23 last two days. We have had three Senate maps
24 that have been proposed. We have had two
25 Congressional maps that have been proposed. We

1 have had a House map that was proposed by
2 Mr. Hoyt, as well as the Senate and the
3 Congressional map, and if you go on the
4 websites you will see that there are plenty of
5 maps to react to, and it is not that it is
6 going to be some official map that will be
7 drawn by some member of this committee.

8 Any member of this committee or member of
9 the Legislature or you can propose a map at any
10 time, but before any votes are taken those maps
11 will be publicly available and you will have a
12 chance to see them and you will have a chance
13 to react to them.

14 Let me mention a couple of other things,
15 Madam Chair. There was someone who said
16 tonight, and I wrote it down because I so wish
17 it were true. He said this is not a
18 complicated process, there are some
19 ambiguities.

20 Well, I wrote that next to all of the
21 specific requirements and recommendations that
22 people made for what ought to determine a
23 district line, and here they are.

24 Natural geographic boundaries, geological
25 boundaries, strategic economic driver

1 boundaries, county lines, city lines, racial
2 and ethnic minorities, contiguous lines,
3 communities of interest, streams, roads,
4 railroads, power lines.

5 Now, it would be hard to draw maps that
6 would make everyone happy using all of those
7 indicators, so I wish it were simple. I wish
8 everyone could agree, but if you have the
9 perspective tonight to listen as we did, and it
10 was such a great gift to listen to all of you,
11 gosh, we had people in this room who disagreed
12 strongly with each other.

13 We will have people on this committee,
14 Democrats and Republicans, House members and
15 Senators who will disagree with each other.
16 This Representative democracy stuff, it is a
17 little bit messy.

18 It probably would be easier if we had a
19 group of people who just said, here are the
20 maps, take them or leave them, if you don't
21 like it, sue us, but that is not the way we
22 have chosen to operate.

23 So we look forward to the interactive
24 process, and if the gentleman, the letter
25 carrier who came forward, I will tell you, that

1 was Americana when he said I want a chance to
2 see everything, and if I don't like it, I want
3 a chance to take my case to court, and that
4 opportunity will be there, too, because
5 anything we draw has to be submitted for
6 judicial review and anything that is drawn and
7 voted on, it can be submitted as well to the
8 courts under a legal case that any member of
9 the public wants to bring forward or any
10 special interest group wants to bring forward.

11 Finally, Madam Chair, I would just say
12 this. So many people said tonight, you know,
13 you just need to abide by Amendments 5 and 6,
14 quit fighting them.

15 Just a couple of notes. First, I hope we
16 have, I don't know where it got in the blood
17 stream that there was \$30 million in the House
18 and what was the number, eight or \$9 million in
19 the Senate dedicated to fighting Amendments 5
20 and 6. I don't know how it got in the blood
21 stream, but if I had a quarter for every rumor
22 that we heard in Tallahassee we wouldn't have
23 had a \$3.8 billion budget deficit last year.

24 I will just tell you this. It was the
25 House and Senate that submitted Amendments 5

1 and 6 for pre-clearance to the Department of
2 Justice. We submitted them through
3 pre-clearance, we made the arguments through
4 our lawyers that we paid with your money that
5 Amendments 5 and 6 would comply with the Voting
6 Rights Act and ought to be carried forward.

7 We submitted them and they were
8 pre-cleared. We took an oath to preserve and
9 protect and defend the Constitution of the
10 United States and of the State of Florida,
11 Democrats, Republicans, House and Senate
12 members, you know, that is in the Constitution.
13 We are going to follow our oath.

14 And finally I would just say this. You
15 will have a chance to see whether the final
16 products and it may not be one product, it may
17 be several options that are laid before the
18 Legislature and the courts, are faithful to
19 what you believe Amendments 5 and 6 were
20 intended to do, and if you don't like it you
21 will have the opportunity to stand up in public
22 and say you don't like it, and if you are part
23 of a group or even if you are an individual you
24 will have the opportunity to challenge it
25 politically and challenge it legally.

1 That also the way the process is supposed
2 to work. So thank you for helping us take the
3 first step toward a conversation that we
4 believe will end in plenty of time.

5 We don't plan to drag our feet a bit. We
6 are bound by the Constitution in terms of the
7 timeline, we can't vote until January. If the
8 fair districts people thought that it was wrong
9 and we should vote sooner, maybe they should
10 have included it in their Constitutional
11 amendments. They didn't.

12 So we can't vote until January, but by
13 golly, you will see plans, you will already, if
14 you go on the websites now, you will see plans
15 that are already available that people are
16 already debating and discussing and you will
17 have the opportunity to see those just as we
18 will.

19 So thank you, Representative Hukill, for
20 doing a good job chairing our meeting tonight.
21 Thank you, Senator Lynn and Senator Thrasher
22 for having us in your district. Thank you all
23 for being here, and God bless you. This is
24 what it is all about.

25 REPRESENTATIVE HUKILL: Thank you. Thank

1 you very much, Senator. I want to thank
2 Senator Gaetz's Chair and Chairman Weatherford
3 for the way they have conducted these meetings.

4 The committee will be moving on tomorrow
5 to two more meetings in different cities. Just
6 for you in the audience, I want to thank you
7 the most for your contributions, your comments.
8 This is truly representative democracy at its
9 best.

10 If you spoke and have more to say you want
11 to add, you can do a written extension of your
12 remarks on-line. If you did not speak and wish
13 to submit comments on-line, you can.

14 I do want to say that all of the records
15 from today's meeting, video, pod cast,
16 transcripts will be available in the coming
17 days via the Senate and House Redistricting
18 websites.

19 Please continue to follow us so we can
20 participate together to draw the lines that
21 will define our community and how we are
22 represented in Washington and Tallahassee in
23 the days and weeks to come.

24 Thank you once again, Volusia.

25 (Whereupon, the proceedings were

1 concluded.)

REDISTRICTING COMMITTEE
TUESDAY, JULY 12, 2011
FLAGLER COLLEGE (AUDITORIUM)
ST. AUGUSTINE, FL

Transcribed by:
CLARA C. ROTRUCK
Court Reporter

1 T A P E D P R O C E E D I N G S

2 CHAIRMAN GAETZ: Thank you very much. The
3 Joint Senate House Redistricting hearing here
4 in St. Augustine is called to order. We want
5 to thank our friends at Flagler College for
6 allowing us to use this outstanding facility.

7 Typically when we have meetings like this
8 we are in a much more intimate relationship
9 with the audience. I feel as though we have a
10 football field and a half between us and you,
11 and that is not the way we like it.

12 Usually we like to be where you can see
13 the whites of our eyes, but this is a beautiful
14 facility and we are extraordinarily grateful to
15 the folks at Flagler for making it available to
16 us.

17 Thank you all for being here, especially
18 the members of the public who have come to
19 share their comments and their recommendations
20 to help shape Congressional Senate and House
21 Districts for the next decade here in our
22 state.

23 My name is Senator Don Gaetz and along
24 with my colleague immediately to the left, the
25 Speaker Designate of the Florida House of

1 Representatives, Will Weatherford, I will be
2 chairing today's hearing which is webcast
3 statewide by the Florida Channel over the
4 Internet.

5 Our sole purpose today is to hear from the
6 public about how you believe the legal
7 standards governing redistricting ought to be
8 applied in your community and in your part of
9 Florida so that you are represented in
10 Washington and Tallahassee fairly, equitably
11 and sensibly.

12 Our procedures for today's hearing are
13 simple, but important. First, it is important
14 that you sign in so that we with can create an
15 accurate public record of all of who attended
16 and all who spoke, and also you may wish to
17 join our e-mail list so that we can keep you
18 informed about how the redistricting process is
19 working and moving forward.

20 If you have not signed in, please raise
21 your hand. If you haven't signed in and a
22 member of our staff will find you with a sign
23 in card. If you wish to speak today, but you
24 have not yet filled out a speaker card, please
25 raise your hand and we will get you a card so

1 that you can be called on in order and we won't
2 miss the benefit of your testimony.

3 It is the same attendance card, whether
4 you wish to speak or simply listen and record
5 your attendance.

6 Before we begin, the Chair recognizes
7 Speaker Designate Weatherford to explain how
8 today's hearing fits into the redistricting
9 process. Mr. Speaker.

10 REPRESENTATIVE WEATHERFORD: Thank you,
11 Chairman Gaetz, ladies and gentlemen, thank you
12 for being here and taking the time to share
13 with us your thoughts.

14 Every ten years the Legislature is
15 required by the Constitution to redistrict the
16 state based on increases and decreases in the
17 movements that are within our population.

18 Because Florida has grown so significantly
19 over the last ten years we are moved up from 25
20 Congressional Seats to 27 Congressional Seats.

21 Because some parts of our state have
22 increased or decreased disproportionately in
23 population, many Senate and House Districts
24 will change either adding or losing population.

25 When redistricting is completed,

1 Congressional Districts must be equal in
2 population and contain 696,345 people. The 40
3 Senate Districts must also be nearly equal and
4 contain about 470,000 people, and our 120 House
5 Districts must also be nearly equal at about
6 156,700 people.

7 We have displays at the very front of the
8 auditorium that show the current boundaries of
9 districts in this area of the state and the
10 number of persons which must be added or
11 subtracted from the current districts to
12 achieve equal population.

13 Equality of representation is not the
14 legal requirement redistricting plans must
15 meet. The laws and important court cases
16 governing redistricting are explained in detail
17 on both the House and the Senate websites.

18 Those websites are listed on the 2012
19 Redistricting brochure that was available to
20 you when you came in. Our Redistricting 2012
21 brochure summarizes Federal and State laws and
22 outlines topics we hope you will discuss here
23 at today's hearing.

24 If you did not get a copy when you came
25 in, they are available on the tables outside

1 the meeting and our staff would be happy to get
2 you a copy if you would just raise your hand.

3 The brochure also lists House and Senate
4 websites. The websites are packed with
5 information about redistricting in Florida,
6 including explanation of laws and important
7 court cases governing redistricting.

8 The two websites are complimentary and are
9 updated frequently. If you visit the two -- it
10 is a great way for you to stay current about
11 your new Congressional, new State Senate or new
12 House Districts as they are taking shape.

13 The websites also deliver to you at your
14 fingertips all of the demographic information
15 that will be used in drawing districts, and at
16 the end the exact same computer programmers,
17 programs that us as Legislators use to draw
18 districts within the state of Florida.

19 Any member of the public can participate
20 in building plans or seeing maps submitted by
21 Legislators or other citizens.

22 Before or during the hearing, Senate and
23 House professional staff are available to show
24 anyone the steps into getting on-line, building
25 districts and submitting a plan to us as the

1 Legislature in the weeks to come.

2 Recommendations from citizens and groups
3 of citizens will be made publicly available
4 immediately. In fact, just as of yesterday we
5 had four plans submitted before this committee,
6 three Congressional plans and one Senate plan
7 all during our hearing.

8 The submission of these proposed maps that
9 makes sense for your community is the single
10 most effective way that you can participate in
11 the redistricting process.

12 The redistricting schedule under which we
13 are operating is imposed by the State
14 Constitution. The Constitution does not allow
15 the Legislature to act on state maps before the
16 second year after the census.

17 In other words, 2012. I am going to say
18 that again. The Constitution does not permit
19 the Legislature to act on any state legislative
20 a maps before the second year after the census
21 which would be 2012.

22 We accelerated this process as much as we
23 possibly could by moving our session up from
24 what normally starts in March, to early
25 January. It has been suggested that the

1 Legislature should draw maps first and then ask
2 the public for comment.

3 We believe that that puts the answer ahead
4 of the question. There should be no
5 preconceptions created by politicians, but
6 rather public testimony that is free and
7 unrestricted from you.

8 In fact, a principle author of Florida's
9 new redistricting standards and the
10 Chairperson, the Florida Fair Districts dot
11 org, actually came and spoke before a committee
12 in Tallahassee and specifically told us that
13 she thought you could not draw any districts in
14 the state of Florida until you got public
15 testimony from people just like you and we
16 agree with her wholeheartedly.

17 Our intent is to use these recommendations
18 that have come from our 26 public hearings and
19 through our Internet sites and all of the other
20 ways that we are gathering information and to
21 use those to draw the maps for the state of
22 Florida.

23 Throughout the process we will solicit
24 additional public input so that proposed maps
25 can mature with public involvement all before

1 the Legislature approves them in 2012.

2 Whatever the Legislature passes, then it
3 is submitted for judicial review to ensure that
4 the final plans meet every single legal
5 requirement.

6 Because our purpose today is to hear from
7 you, all of the time between now and 11:00
8 will be used to ensure that every member of the
9 public who is here and who wishes to speak has
10 enough time to tell us their thoughts.

11 If after every citizen has had his or her
12 say and there is time remaining before the
13 scheduled adjournment, any member of this
14 committee may make a statement, may offer an
15 observation and, of course, any member of this
16 committee or any person here could submit a
17 plan or a map to this committee.

18 Mr. Chairman, I hope the description of
19 our schedule and the process helps set the
20 stage for a very successful hearing today.

21 CHAIRMAN GAETZ: Thank you very much,
22 Mr. Speaker. We will adjourn promptly at
23 10:00 this morning in order to move down the
24 road to our next hearing. There are a good
25 number of individuals, we are very grateful, a

1 large number of individuals who have signed up
2 to speak.

3 If there is anybody else who wishes to
4 speak during the course of the hearing, just
5 raise your hand if you came in late and we will
6 have somebody get to you with a speaker card so
7 that we can call on you.

8 And to ensure that we all have time to
9 speak, I want to take the prerogative of the
10 Chair and ask that everyone try to limit your
11 comments to about three minutes.

12 That way we can make sure that the last
13 person who is on the agenda, the last member of
14 the public has as much opportunity to speak as
15 the first person.

16 Before we begin, Mr. Speaker, I wanted to
17 ask if we could allow the members of the panel
18 to introduce themselves, just briefly indicate
19 what part of the state they come from. That
20 way the audience knows who they are talking to
21 and where they come from. If we could start
22 with Senator Lynn, please, John.

23 SENATOR LYNN: Good morning, all, thank
24 you for being here. I am Senator Evelyn Lynn.
25 I represent Volusia, Clay, Marion and Putnam

1 Counties in District 7.

2 SENATOR DEAN: Good morning, my name is
3 Charlie Dean, I am a Senator from District 3.
4 I represent all or part of 13 counties from
5 Baker County to Leon County, down to 98 and 19,
6 the Citrus and Hernando County line.

7 REPRESENTATIVE SCHENCK: Rob Schenck,
8 Hernando County.

9 REPRESENTATIVE JULIEN: Good morning, John
10 Patrick Julien, representing House District
11 104, which is basically northeastern Miami Dade
12 County. It is a pleasure to be here, and thank
13 you all for coming out.

14 REPRESENTATIVE KIAR: Hi, everybody, my
15 name is Martin Kiar. I am the State
16 Representative for House District 97, which is
17 solely within Broward County. Thank you so
18 much for coming today.

19 REPRESENTATIVE BERNARD: Good morning,
20 Mack Bernard, District 84, West Palm Beach,
21 Florida.

22 REPRESENTATIVE DRAKE: Brad Drake, Fifth
23 House District, panhandle.

24 REPRESENTATIVE GOODSON: Good morning, Tom
25 Goodson, District 29, House of Representatives

1 which is from Mims, Florida, to the St. Lucie
2 County line. Thank you.

3 SENATOR HAYS: Good morning, I am Alan
4 Hays, a State Senator for District 20 which
5 encompasses parts of Volusia County, Seminole
6 County, Lake County, Sumter County and Marion
7 County.

8 REPRESENTATIVE CHESTNUT: Good morning,
9 Representative Chuck Chestnut, House District
10 23, a portion of Marion County and a portion of
11 Alachua County.

12 REPRESENTATIVE REED: Good morning, state
13 Representative Gwyndolen Clarke-Reed, House
14 District 92, northeast Broward County.

15 SENATOR MONTFORD: Good morning, I am Bill
16 Montford, I am State Senator from District 6,
17 which is Tallahassee and the surrounding ten
18 counties.

19 REPRESENTATIVE ADKINS: Good morning, I am
20 Janet Adkins, representing House District 12,
21 which is Nassau, Baker, Bradford, Clay, Union
22 and a bit of Duval counties.

23 REPRESENTATIVE ROGERS: Good morning,
24 Hazelle Rogers, representing District 94,
25 Broward County, a population of 1.8 million and

1 very, very diverse. Thank you. Good morning.

2 REPRESENTATIVE NEHR: Good morning, State
3 Representative Peter Nehr, representing
4 Pinellas and Pasco County.

5 SENATOR THRASHER: Good morning, and first
6 of all, welcome to St. Johns County to all of
7 my colleagues. I am Senator John Thrasher from
8 District 8. I represent parts of Nassau,
9 Duval, St. Johns, Flagler and Volusia Counties.

10 REPRESENTATIVE BAXLEY: Thanks for the
11 home team, right, Senator. Great to be in your
12 district. I am Dennis Baxley from Florida
13 House District 24, that is Ocala, Marion
14 County. Thank you.

15 REPRESENTATIVE HOOPER: Good morning, I am
16 Ed Hooper, representing, a Representative from
17 District 50, part of Pinellas County.

18 REPRESENTATIVE WEINSTEIN: Good morning, I
19 am Mike Weinstein, House District 19,
20 representing parts of Duval, Clay and St. Johns
21 County.

22 REPRESENTATIVE McBURNEY: Charles
23 McBurney, District 16, from Jacksonville.

24 REPRESENTATIVE CALDWELL: Good morning,
25 Matt Caldwell, District 73 down in southwest

1 Florida, Lee County.

2 REPRESENTATIVE JONES: Good morning, State
3 Representative Mia Jones from Jacksonville,
4 north and west.

5 REPRESENTATIVE FORD: Representative Clay
6 Ford, Pensacola, the Florida's other oldest
7 city.

8 REPRESENTATIVE HUKILL: Good morning,
9 Dorothy Hukill, representing Volusia County,
10 District 28.

11 REPRESENTATIVE PASSIDOMO: Good morning,
12 Kathleen Passidomo, Collier County. I
13 represent the city of Naples, Marco Island,
14 Everglades City and a lot of the Everglades.

15 REPRESENTATIVE BOYD: Good morning, I am
16 Representative Jim Boyd. I am in District 68,
17 which is the south side of Tampa Bay, Manatee
18 County.

19 REPRESENTATIVE FRISHE: Good morning, I am
20 Jim Frishe, from Pinellas County. I represent
21 the beaches in Pinellas County, it is a tough
22 duty.

23 CHAIRMAN GAETZ: You may wonder why we
24 have joint hearings, House and Senate together.
25 It is because when Senators make statements,

1 then the House can correct them. I have
2 already made a misstatement.

3 We are happy to be here until 11:00 this
4 morning. I wish we could stay all day, I love
5 St. Augustine. But we will be here until 11:00
6 or as long as there is public testimony to be
7 heard or comments or observations or proposals
8 by members of this Committee.

9 Here is how we will proceed today. I am
10 going to call two names at a time. That way
11 you know you are next, you are on deck. So if
12 you could be ready, that way we could have
13 limited time between speakers.

14 We are going to start with Gloria LeBlanc,
15 representing the St. Augustine Coffee Party and
16 our next speaker will be Sandra Parks, with the
17 Stetson Kennedy Foundation.

18 So we will start with Gloria LeBlanc.
19 Ms. LeBlanc, thank you very much for being with
20 us this morning. I am sorry that you are so
21 far away from us, but we are delighted to have
22 you here and look forward to your testimony.
23 You are recognized.

24 MS. LEBLANC: Thank you, can you hear me?

25 CHAIRMAN GAETZ: Yes, ma'am, but you may

1 want to speak directly into the mike so that
2 everybody here can hear you.

3 MS. LEBLANC: Good morning, my name is
4 Gloria LeBlanc. I have been a resident of
5 Florida since 1970, and a resident of St.
6 Augustine for most of those years.

7 I am also the coordinator of the St.
8 Augustine Chapter of the National Coffee Party.
9 The Coffee Party is a transportation partisan
10 grassroots democracy movement which seeks to
11 empower citizens in the political process.

12 Our goal is an informed and involved
13 electorate that takes seriously the
14 responsibilities of citizenship, not only for
15 the purpose of winning elections, but to ensure
16 effective and just governance on behalf of we,
17 the people, and not on behalf of special
18 interests.

19 Gerrymandering of voting districts is an
20 assault on our democratic form of government,
21 and an insult to the voters of the state. I am
22 requesting that fair districts be created, not
23 only according to the letter of the law, but
24 according to the spirit of the law.

25 I am deeply concerned about the need to

1 speed up redistricting timelines. I, and also
2 I think we need to provide preliminary maps to
3 encourage meaningful discussion and feedback.

4 I strongly urge you to provide maps for
5 just consideration now so that there can be
6 sufficient time for thoughtful examination and
7 consensus building as well as the speeding up
8 of the current timeline.

9 The most important consideration in
10 creating the new districts should be a focus on
11 ensuring that the individual vote of each
12 citizen within a district counts. With that in
13 mind, districts should not be power blocks of
14 political, racial, economic, rural, urban or
15 other group interests.

16 I am asking you to set up districts in a
17 way that preserve as much as possible the one
18 person, one vote I deal for each district. As
19 we try to achieve consensus as to what is truly
20 a fair district, we would do well to consider
21 the guiding principles of our founding fathers
22 as outlined in the preamble to the
23 Constitution.

24 The preamble begins, "We, the people of
25 the United States", it does not say, we, a

1 select constituency group or special interest
2 group. It continues, "in order to form a more
3 perfect union", it does not say in order to
4 create imbalance, division and polarization
5 among groups and parties, or in order to form
6 power monopolies in voting districts.

7 To establish justice, gerrymandering is a
8 clear violation of justice that, in effect,
9 disenfranchises large segments of our
10 population.

11 Finally, creating truly fair districts
12 according to the spirit of the law is indeed a
13 challenging task. I would ask this committee
14 to keep in mind a long term vision as you
15 create the new maps.

16 Consider how the districts you set up now
17 will lead to a more perfect union in the years
18 to come. It is high time to end the
19 polarization that is infecting our politics and
20 our culture.

21 Please protect the power of one person,
22 one vote so that the form of democracy
23 envisioned by our founding fathers is restored
24 and preserved for future generations.

25 CHAIRMAN GAETZ: Thank you, Ms. LeBlanc,

1 very, very good testimony. And next Sandra
2 Parks from the Stetson Kennedy Foundation, and
3 then following Ms. Parks, Stetson Kennedy from
4 the Stetson Kennedy Foundation.

5 Sandra Parks, you are recognized. Thank
6 you very, very much for being here.

7 MS. PARKS: And thank you for this
8 opportunity and I know that there is going to
9 be a greater peace in the family if I invite my
10 husband, Stetson Kennedy, to speak first.

11 CHAIRMAN GAETZ: It is ladies first here,
12 but you are allowed to yield to your husband.
13 Mr. Kennedy, you are recognized.

14 MR. KENNEDY: Mr. Chairman, members of the
15 Commission, thank you for this opportunity to
16 be heard. My name is Stetson Kennedy, I reside
17 at Beluthalatchee Park, 1523 State Road 13, in
18 Fruit Cove, Florida.

19 I am here this morning primarily to say a
20 few words in behalf of the sanctity of the
21 referendum as an institution of higher
22 democracy.

23 At age 94, you can imagine how many
24 redistrictings I have lived through here in the
25 state of Florida. It is something of a Florida

1 and American history book.

2 I have -- I am painfully aware of the
3 historic fact that the Democratic Party for not
4 only decades, but generations, a century even,
5 was able to use redistricting in addition to
6 the poll tax and the white primary as a means
7 of manipulating the vote and the outcome of the
8 vote in many of the southern states.

9 These things went hand in hand. The poll
10 tax affecting whites as well as blacks,
11 cumulative in many states. The white primary,
12 it was a common custom to simply change the
13 location of the voting booth on the night
14 before the election and tell only the white
15 folks where the new location would be.

16 So that I born and witnessed all manner of
17 things under the heading of redistricting.
18 When I think of the word my first thought is of
19 that great Republican, Abraham Lincoln, who
20 said all of the people, by the people, for the
21 people will not perish from the earth, and I,
22 standing here in the year 2011, and continue to
23 share that concern.

24 Back in those days, as I said, the poll
25 tax, white primary, white supremacy and white

1 rule and enforced racial segregation,
2 residential segregation all went hand in hand.
3 They were all cornerstones in a political
4 edifice. The KKK and the FBI were quite right
5 in regarding me and thousands of other
6 southerners, Americans, of being subversive of
7 that system.

8 We were just as subversive a white rule as
9 we could be, and I am proud of the fact and
10 proud and very happy that I have lived this
11 long to see as many changes as we have, even
12 including my hometown of Jacksonville which we
13 often said would be the last place on earth --

14 CHAIRMAN GAETZ: And Mr. Kennedy, I
15 apologize. We have a large number of people
16 signed up behind you to speak and even
17 Mr. Lincoln kept it to less than five minutes
18 at Gettysburg.

19 So we thank you very, very much for your
20 testimony, and Ms. Parks, you are recognized to
21 speak, and thank you, Mr. Kennedy.

22 MS. PARKS: I come forward -- I come
23 forward this morning to suggest two principles
24 for redrawing districts that are bold, that are
25 rare and that are difficult.

1 The first is that the demographics of the
2 people that you represent should be the primary
3 consideration in how the districts are drawn.

4 I am asking you to put principle above
5 both personality and party, to assure that as
6 much as possible the people of St. Johns County
7 are well represented.

8 We have, this county of a little under
9 200,000 people, we have three Senators and
10 three Representatives. This means that we the
11 people have a very difficult time knowing who
12 to go to when we have issues we care about or
13 measures that we need to have addressed.

14 I would recommend this morning that as
15 much as possible that St. Johns County remain
16 intact within any redistricting plan and that
17 we be coupled whenever possible with our
18 neighbors to the south in Flagler County
19 because our issues are very similar.

20 Julington creek and Ponda Vedra are not
21 south Jacksonville. These are families who
22 have invested heavily in their tax dollars to
23 produce the finest school system in the state
24 of Florida, and we expect our Representatives
25 to protect that investment.

1 We have more in common with our neighbors
2 to the south in Flagler County because we share
3 beach issues. We share large farming
4 communities that need to be represented
5 somewhere in the body of politic in
6 Tallahassee.

7 We represent -- we share growth issues.
8 Our concerns are different from Duval County.
9 If district lines have to be drawn for the
10 proper numbers, we urge you to move them south
11 into Volusia County, keeping as much as
12 possible the integrity of the farm issues that
13 so many of our families pull to be important.

14 The second principle that I ask you to
15 consider as you are drawing redistricts is to
16 be sure that these districts are compact enough
17 that we know you and you know us.

18 While Senator Thrasher and his staff are
19 as conscientious as anyone could be in trying
20 to know and be known by the people that they
21 represent, when his district stretches from
22 Georgia to Volusia County, along a narrow
23 stretch of land, it is very difficult for him
24 to know us and for us to know him, inform him
25 of our needs and hold him responsible for what

1 we in our county need.

2 So I ask you as you draw these districts
3 to please consider the primary criterion, not
4 party, not self, but the people that you serve.
5 Thank you.

6 CHAIRMAN GAETZ: Thank you very much,
7 Ms. Parks, we appreciate your testimony. Next
8 we will have, and I apologize for not giving
9 you a heads up, Edwin Dupont, Edwin Dupont
10 would be next, followed by Benetta Standly with
11 the American Civil Liberties Union.

12 Mr. Dupont, if you are here, we would be
13 delighted to hear from you, and you are
14 recognized before the Committee, and
15 Ms. Standly, if you would be on deck, please.

16 MR. DUPONT: Thank you very each, and I
17 would like to go, I would prefer to go by Ed,
18 if you don't mind.

19 CHAIRMAN GAETZ: Yes, sir.

20 MR. DUPONT: Again, I am Ed Dupont and I
21 am a life long resident of St. Johns County and
22 I now reside in Pandra Vedra Beach. I would
23 like to thank the Committee for the service you
24 are doing to the state and to us for taking
25 time, not to rush into these decisions and put

1 in the effort you are doing right now.

2 I know you are sitting through a lot of
3 hearings and I know it is pretty tedious
4 because you are hearing a lot of the same
5 ideas, but it is appreciated.

6 Last November, Amendment 5 was passed by
7 the majority of voters by actually a margin of
8 almost, well, actually over three to two.
9 Amendment 5 reads something like this.

10 "Congressional districts or districting
11 plans may not be drawn to favor or disfavor an
12 incumbent or political party. Districts shall
13 not be drawn to deny racial or language
14 minorities the equal opportunity to participate
15 in the political process and elect
16 representatives of their own choice."

17 "Districts must be contiguous, unless
18 otherwise required, districts must be compact,
19 as equal in population as feasible and where
20 feasible, must make use of existing city,
21 county and geographical boundaries."

22 I don't want to lecture here, but, because
23 you know this better than me, but contiguous
24 means all parts must be attached. It does not
25 mean, and it does not mean by artificial means.

1 It must, compactness is -- has to do with
2 shape, a reasonable shape. You know, you could
3 say you have your basic circle and square or
4 even a rectangle, triangle or an oval, if the
5 proportions are not too extreme.

6 Equal in population as feasible basically
7 means one person, one vote, as feasible, as
8 feasible, and, of course, feasible might be up
9 to interpretation, and that is where you folks
10 come in.

11 And one more thing I would like to say,
12 whatever you do, if you must, you must if at
13 all possible keep this out of the courts. They
14 could abridge the will of the voters and delays
15 will reap havoc upon the next upcoming
16 elections. Thank you for your time.

17 CHAIRMAN GAETZ: Thank you, Mr. Dupont,
18 thanks, Ed, an Ms. Standly, with the ACLU is
19 next, and following Ms. Standly, Robert Veit.

20 Ms. Standly, thank you for being here, it
21 is good to see you, you are sort of traveling
22 with us from place to place and we are
23 delighted to have you here today.

24 MS. STANDLY: Absolutely. It is my job to
25 hold you accountable and I am happy to do it.

1 So good morning, my name is Benetta
2 Standly. I am with the American Civil
3 Liberties Union and I want to welcome members
4 of the Florida Legislature to the nation's
5 oldest city.

6 I direct the northeast Florida office for
7 the ACLU, and as you know, I testified
8 yesterday in Jacksonville and I will testify in
9 any corner of my region to represent voters who
10 passed Amendments 5 and 6 who could not be
11 here, who are disenfranchised or simply don't
12 have the courage to speak up and share their
13 voice.

14 As I mentioned yesterday, I need to
15 correct some misinformation. People are
16 stating that Amendments 5 and 6 will harm the
17 Federal Voting Rights Act.

18 That is absolutely not true. Amendments 5
19 and 6 actually added minority voting rights
20 protections into the Florida Constitution for
21 the first time. It adds to the provision of
22 the Federal Voting Rights Act.

23 You guys know this already. What we need
24 from you is to tell us how many majority
25 minority districts exist in Florida, where they

1 are located and how your map which you are
2 responsible for drawing, not me, how your map
3 will protect them.

4 You all have a legal obligation to make
5 sure that the minority voters in Florida have
6 the opportunity to elect their candidates of
7 their choosing.

8 Secondly, the new rules of drawing these
9 legislative boundaries have been overwhelmingly
10 approved by nearly 63 percent of Floridians,
11 and it said that no political party would be
12 favored.

13 We need you to follow those rules.
14 Actually, I am disappointed that you guys have
15 continued to oppose and fight these new rules
16 by entering into or intervening into
17 litigation.

18 Third, the political party in charge has
19 been known to draw maps that will likely favor
20 themselves. That is absolutely problematic. I
21 hope that you guys don't do that.

22 The entire purpose of Amendments 5 and 6
23 were for voters to choose their politicians,
24 not the other way around. This is supposed to
25 be a fair and nonpartisan process. We didn't

1 want fake public hearings where you guys are
2 not giving us feedback, we are not producing
3 map. We don't want any insider back room
4 deals. We want this to be a fully transparent
5 and informative process.

6 The ACLU strongly advises you to please
7 stop spending taxpayer dollars on lawyers and
8 lawsuits. Just simply draw fair maps. If you
9 draw good and fair maps perhaps there will be
10 no further lawsuits.

11 Five, quite frankly, and we talked about
12 this yesterday. Where are the maps? It is
13 your job to draw the maps, not mine. You
14 cannot have a really meaningful public
15 discussion when you invite the public here and
16 you have nothing for us to comment upon.

17 You have had the census information for
18 several months now. You need to present a map
19 to us. People, as you know, people are trying
20 to run for office. They need to figure out
21 what district they are in.

22 They need to start campaigning. The
23 sooner we can get that done, the better for all
24 of us. Thank you so much.

25 CHAIRMAN GAETZ: Thank you. It is good to

1 see you again, Ms. Standly. Next is Robert
2 Veit and following Mr. Veit we will have Susan
3 Godby.

4 Mr. Veit, thank you for being here this
5 morning, and you are recognized.

6 MR. VEIT: Thank you very much, my name is
7 Bob Veit pronounced but that is okay.

8 CHAIRMAN GAETZ: Is it Veit, sir?

9 MR. VEIT: That is right.

10 CHAIRMAN GAETZ: I apologize for
11 mispronouncing your name.

12 MR. VEIT: No problem, everybody has done
13 it all my life.

14 CHAIRMAN GAETZ: You should see what they
15 do to mine.

16 MR. VEIT: Just as an aside, I happened to
17 be an elected state assemblyman in New Jersey
18 during the redistricting based upon the 1970.

19 CHAIRMAN GAETZ: Your seat is right up
20 there at the end, sir.

21 MR. VEIT: 1970 census, and we were
22 essentially given a map that was carved out by
23 the leadership and the Congressional
24 delegation. So I applaud you for what you are
25 doing and going and listening to the public for

1 what they have to say prior to drawing up a
2 map.

3 A map will be useful in the future, but at
4 this point I applaud for what you are doing.
5 And I guess my only concern -- excuse me. My
6 only concern in the -- what will be considered
7 is the implementation of the racial and
8 language minority protections.

9 And in reading the 14th Amendment which is
10 overriding our Constitution it -- it is moot on
11 how you draw your districts, except that it
12 requires equal protection under the law.

13 So when you are drawing your districts, if
14 you are protecting one group against another,
15 that -- the one that is not protected is
16 certainly not getting equal, equal protection.
17 So I ask you to consider that in your
18 deliberations. Thank you.

19 CHAIRMAN GAETZ: Thank you very, very much
20 for your testimony, sir. And next is Susan
21 Godby, and then following Ms. Godby is Gail
22 Wadsworth, the Flagler County Clerk.

23 Ms. Godby, you are recognized. Thank you
24 for coming this morning.

25 MS. GODBY: Thank you very much. I am

1 with the St. Augustine Tea Party, the Molasses
2 Junction Tea Party and the Putnam County Tea
3 Party and I am sorry, I forgot to put that on
4 there.

5 I have been in Florida for 18 years and I
6 live in St. Johns County. District 19, I am
7 just going to give some figures, District 19
8 and 20 must shrink. District 18 is slightly
9 over population, and District 21 is under
10 population.

11 What we would like to see is that District
12 21 come down to the St. Johns County line, then
13 go all of the way down to Flagler County.
14 There is a lot of interests in tourism and they
15 have a lot of things in common.

16 Then we like to see 19 to come below 295,
17 and in the St. Johns County, and then it also
18 crosses Julington Creek area, we would like to
19 see that backed up.

20 We have three boundaries which is the
21 Atlantic ocean, St. Johns River and then I-95.
22 So we would like to see those changes made.
23 The Mandrian and Julington Creek areas have a
24 lot of things that are in common and if you
25 would coordinate those areas, that way it does

1 need to shrink in that area. That is all I
2 have to say. Thank you.

3 CHAIRMAN GAETZ: Thank you, thank you,
4 Ms. Godby, very helpful testimony. And next is
5 Gail Wadsworth, the Flagler County Clerk, and
6 behind Ms. Wadsworth will be Henry Lange.

7 Ms. Wadsworth, thank you for your service
8 to the people of Flagler County and we are
9 delighted to have you here today.

10 MS. WADSWORTH: Thank you, and thank you
11 for coming today. What you are doing isn't
12 easy. For a little history's sake, I was born
13 in Florida. I am one of those rare people, I
14 am an eighth generation Floridian.

15 And years ago in 1965, I was a teenager
16 working for my dad in the House during that
17 crazy reapportionment period when small
18 counties lost their House members.

19 However, we gained an alliance with St.
20 Johns County, and we were well represented then
21 by Charlie Eucena and later Gus Craig, and not
22 so long ago, Doug Wilds and today, Dr. Proctor,
23 and today, John Thrasher, but before him there
24 was Senator Polk.

25 I knew all of those people, and I cherish

1 the knowledge of those people and the
2 similarities between Flagler County and St.
3 Johns County. I know Flagler County hasn't
4 grown enough even since the last census to have
5 its own, but walking around Flagler County and
6 talking to people, all I hear is, we want to be
7 together, and, of course, we want to have our
8 own.

9 We are not large enough yet. So like
10 Ms. Parks, I would love to hear you say you are
11 going to scoop Flagler County up, keep its
12 wonderful relationship with St. Johns County,
13 understand its demographics, its agriculture,
14 its silviculture and its beautiful beaches in
15 the Hammock where we do have some wealthy
16 people, keep us whole.

17 More importantly, we want to be kept
18 whole, and more importantly to me, I like our
19 history with St. Johns County and would like
20 for you to keep us there, and that is really
21 all I have to say. Thank you so much.

22 CHAIRMAN GAETZ: Thank you so much. We
23 appreciate your testimony. Henry Lange is
24 next, and then John Webber is on deck.

25 Mr. Lange, we are grateful you took time

1 to come here this morning, and you are
2 recognized.

3 MR. LANGE: Yes. Good morning, and thank
4 you very much, members of the Committee, for
5 having us here.

6 My name is Henry Lange and I live in St.
7 Augustine, been a resident for 12 years. Prior
8 to that I was an executive with an
9 international high tech company and of all
10 places, Orlando.

11 And I am representing four members of my
12 family because at this early hour on a working
13 day prevents them from taking the morning off
14 from work to represent them.

15 Further, please recognize that this venue
16 here at the college requires those of us who
17 are here to pay for parking, when if it was
18 held in the St. Augustine regular offices, free
19 parking would be available.

20 This is an additional unnecessary burden
21 placed on the citizens of St. Augustine. You
22 didn't do this in Jacksonville.

23 The citizens of Florida last year with an
24 overwhelming 62 to 63 percent vote, voted for
25 the election districts to be -- to be

1 redistricted in a fair, compact, unambiguous
2 and continuous manner.

3 If you will look at the map of District 7
4 it is appalling, it is the most screwed up
5 arrangement, ranges the southern end down in
6 Longwood and area ranging all of the way to the
7 northern part of St. Johns County, is 135 miles
8 long.

9 I have a map of this district. You also
10 have one, I realize in front of us here. This
11 is not what the citizens of the state of
12 Florida want in the future.

13 More of the same is probably shown
14 elsewhere in Florida. We have so much of this,
15 we have had too much of this and this election
16 last year stated why we want it changed.

17 The legislation has a mandate. Waiting
18 like they are does not indicate that there are
19 -- may indicate that there are back room
20 arrangements that have been made or in the
21 works in spite of what you have said.

22 What are we to take from the delays of
23 showing us maps? You already know what you
24 have in mind. We need these maps now to be
25 able to take advantage of where we will be

1 called upon. Some of us may have to change
2 districts. Some of us may want to run for
3 political office.

4 We need to know in advance what these maps
5 will be. The Legislature needs to provide all
6 of the citizens a date certain when these maps
7 will be available for us to examine.

8 Please act in a responsible manner,
9 provide us with these maps before the months
10 that you are required by law so that we can
11 ascertain what our position would be like and
12 how we will act in the future. Thank you very
13 much for your time.

14 CHAIRMAN GAETZ: Thank you so much, Mr.
15 Lange. Our next speaker is John Webber, Mr.
16 Webber, representing the St. Johns Democratic
17 Executive Committee.

18 MR. WEBBER: Well, I am not exactly
19 representing them. I have a membership with
20 them.

21 CHAIRMAN GAETZ: I am sorry, that is what
22 you had written down.

23 MR. WEBBER: Yes.

24 CHAIRMAN GAETZ: And following, excuse me,
25 Mr. Webber, following Mr. Webber will be Vicky

1 Oakes, so if you could be on deck, Ms. Oakes.

2 Mr. Webber, you are recognized. Thank you.

3 MR. WEBBER: Okay, I have lived in the St.
4 Augustine area since 1987, and I just mention
5 that, and I worked in all parts of St. Johns
6 County and I have also worked in Flagler County
7 at times.

8 The one recommendation I would make for
9 the State House is that one seat come out of
10 St. Johns County which has more than enough
11 people for a State House member, and if Flagler
12 County likes to be a part of St. Johns County
13 in with its population in the State House, then
14 I would have no problem with that.

15 We should be able to come up with one
16 House seat that has nothing but St. Johns
17 County residents in it.

18 Now, there are approximately three State
19 Senators, a ratio of three to two when you are
20 dealing with Congress. Now, you come very
21 close to the population for two members of
22 Congress when you combine Nassau, Duval, Clay
23 and St. Johns counties.

24 You might have to add a small population
25 like Baker or Putnam County to get the two

1 Congressional seats.

2 Now, that, you should be able to come up
3 with a minority responsive Congressional seat
4 out of that area in the second one, without
5 running afoul of any kind of minority denial or
6 rights or anything like that, and you should be
7 able to come up with three State Senators out
8 of that same area. Thank you.

9 CHAIRMAN GAETZ: Thank you very much, sir.
10 We appreciate your being here, and Ms. Oakes
11 represents the Supervisor of Elections Office
12 in St. Augustine, and following her is Chris,
13 and I believe it is Ranung, R-a-n-o-n-g, if I
14 understand it correctly, representing the AITSI
15 Local 477.

16 So Ms. Oakes, thank you for being here,
17 and we are delighted to have somebody from the
18 Supervisors' Office to give us good guidance
19 this morning.

20 MS. OAKES: Thank you, and good morning,
21 Ms. Haliburton, the Supervisor, sends you her
22 greetings and her regrets that she could not
23 make it to the meeting today.

24 However, I would like to speak on behalf
25 of our election officials. We are entrusted

1 with conducting fair and impartial elections,
2 our voters expect no less.

3 It is very important for us as election
4 officials that you stick to a specific timeline
5 with the redistricting process. If the
6 Legislature, the Attorney General, Supreme
7 Court, Justice Department, all complete your
8 work on schedule as election officials we have
9 less than two weeks to adjust the records of
10 11 million Florida voters before the first
11 absentee ballots are scheduled to go in the
12 mail.

13 You see, when your work ends, our work
14 begins. Time for us is critical. We need time
15 to efficiently and effectively prepare for the
16 elections in order to be ready for our
17 August 12th primary election.

18 We have to redraw precinct lines,
19 establish new polling places, gain approval
20 from our local Board of County Commissioners
21 and our own public hearings. We also have to
22 verify the information is correct.

23 As local election officials we not only
24 deal with Congressional, Senate and House
25 lines, we also deal with County Commission,

1 School Board, municipal, special districts and
2 community development district lines.

3 It is critical in the election process
4 that we have time to make sure our information
5 and all of these lines are perfect. There is
6 no room for error.

7 We also must notify all of our registered
8 voters in advance of their new district lines,
9 through new precinct lines and their new
10 polling places in order to have our voters
11 prepared and ready for the election.

12 As you know, candidate qualifying occurs
13 the first week of June. From then our
14 tabulation systems must be programmed. Our
15 ballots laid out, proofed, printed, and
16 absentee ballots prepared and ready to mail 45
17 days prior to the election.

18 The first absentees that are mailed go to
19 our military and overseas voters. It is
20 Federal and State law that they be mailed 45
21 days before the election. That date is
22 June 30th.

23 Let's not disappoint our absentee voters,
24 our military overseas voters who are fighting
25 for our freedom.

1 Secondly, please respect communities when
2 drawing your district lines. Compact districts
3 are the best, including the lines for the
4 counties. While there is much attention to
5 Florida's meandering districts right here in
6 St. Johns County, in the city of St. Augustine,
7 we have a perfect example.

8 The city of St. Augustine has 9,000
9 registered voters. They are currently divided
10 into two Senate and two House Districts. This
11 happens too much of the time. Communities need
12 to be kept intact.

13 This year working with your legislative
14 staff we have had unprecedented opportunities
15 to establish voting tabulation districts.
16 These keep communities together. They keep our
17 cities together and we request that you please
18 adhere to these lines whenever possible.

19 It is in the best interest of the voters,
20 and same neighborhoods that have things in
21 common, to have the same Representatives, have
22 the same candidates on their ballots and be
23 able to vote on the same issues.

24 We all know that 2012, will be a very busy
25 election year and it will be a challenging one.

1 I do believe we share a common goal of wanting
2 Florida to have not just successful but
3 outstanding elections as we know the world
4 would be watching.

5 Thank you for the opportunity to speak,
6 and for having these meetings.

7 CHAIRMAN GAETZ: Thank you very, very
8 much. Excellent advice, and now, I apologize,
9 Chris, how do you pronounce your last name?

10 MR. RANUNG: It is Chris Ranung, and thank
11 you, Senator.

12 CHAIRMAN GAETZ: Thank you very much,
13 representing Local 477, and we are glad you are
14 here, and you are recognized.

15 MR. RANUNG: Thank you very much. I hope
16 I am close enough to this. Can you hear me?
17 Thanks.

18 Yes, I live in St. Augustine. I am Chris
19 Ranung. Like everybody in this room, I deeply
20 care about and love Florida, and, yes, I am
21 from organized labor. We are somewhat of a
22 minority --

23 CHAIRMAN GAETZ: Sir, I apologize, so that
24 everyone can hear your testimony, could you
25 speak up just a little more?

1 MR. RANUNG: How is that?

2 CHAIRMAN GAETZ: That is great. Thank
3 you. Thank you.

4 MR. RANUNG: Okay, good. I am from
5 organized labor. We are a bit of a minority in
6 this state, but that is okay. Some of my
7 points of view may not jive with yours, but
8 that is okay. I have the freedom to speak with
9 you any time. I have exercised that freedom
10 and I appreciate that you are here and giving
11 us all an opportunity to speak.

12 I am very aware that I am standing in
13 front of a mostly Republican panel. I may
14 wonder why Democrats are a minority majority in
15 this state, but that is all part of why we are
16 here this morning.

17 I know some of you well enough to respect
18 you very much. I know some of you well enough
19 to be wary of you. I don't know some of you
20 yet, but I intend to.

21 Some of you know that I go to Tallahassee
22 quite a lot. I still trust the fact that
23 ultimately we work together for the common
24 good. So there is much I would like to say but
25 probably the most important thing is this.

1 Our country, or democracy is always and
2 only at its finest when diversity is allowed a
3 clear and strong voice. The diversity between
4 those of us who are wealthy and those who
5 struggle, the diversity of religion over race,
6 that of sex, gender, age, political opinion,
7 philosophy, on and on, all of this is our
8 country speaking, and we need to allow it to
9 speak.

10 Your redistricting must respect and
11 incorporate this diversity because it gives our
12 democracy its strength. So we the people are
13 trusting you to protect the voice of diversity.
14 That is your job.

15 The purpose of redistricting is not to
16 preserve a veto proof majority for the next ten
17 years. It is to let the people speak, and I am
18 confident going forward that we all share this
19 very fundamental goal. Thank you.

20 CHAIRMAN GAETZ: Thank you, sir, very good
21 testimony. Next is William O'Malley, and
22 behind Mr. O'Malley is, I believe it is
23 Patricia, and I apologize, ma'am, I am sure it
24 is my eyes. I think it is Patricia Gill,
25 representing the League of Women Voters, living

1 at 218 B Street here in St. Augustine. You are
2 on deck, but Mr. O'Malley, you are next.

3 We will give you all of the time you need,
4 sir. While Mr. O'Malley is coming to the
5 microphone I want to thank those who have been
6 respectful of those speakers behind them who
7 want to speak and have stuck to our three
8 minute time limit. That way all of the members
9 of the public will have a chance to share their
10 opinions.

11 Mr. O'Malley, we are grateful you took
12 time to come this morning and you are
13 recognized.

14 MR. O'MALLEY: Well, you didn't give me a
15 little warning. That is why it took me so
16 long. I live in north St. Johns County and in
17 looking at the population maps I see that there
18 is a possibility we may lose our Congressman.

19 I am going to echo a lot of the things
20 previous speakers have said. I, too, would
21 like to see a tentative redistricting map some
22 time ahead of time so that we could have some
23 more input as we are today.

24 I am also obviously in St. Johns County,
25 and I agree with the lady that said, St. Johns

1 County has a fine school system, health system,
2 we would like to keep it that way, and we hope
3 you will respect our county lines, et cetera,
4 and I want to thank you for your patience.

5 I have been watching the videos and you
6 folks show a lot of patience. Thank you.

7 CHAIRMAN GAETZ: Thank you very much, sir.
8 We appreciate it, and Ms. Patricia, I
9 apologize, it is my bad eyes, I am sure I
10 couldn't read your last name. Could you please
11 tell us your last name, ma'am?

12 MS. GILL: My name is Patricia Gill,
13 G-i-l-l.

14 CHAIRMAN GAETZ: Thank you, Ms. Gill,
15 representing the League of Women Voters and you
16 are recognized.

17 MS. GILL: Thank you. There are three
18 areas of concern to the public that I would
19 like to discuss today at these public hearings.

20 Redistricting timeline which has been
21 mentioned by a number of people and certainly
22 the concern by our Supervisor of Elections'
23 Office into doing something about this
24 timeline, which is just crazy.

25 Taxpayer money to oppose the Fair District

1 Amendments and the gag order for the
2 Legislature on these issues.

3 Last night I participated in the ceremony
4 swearing in two new police officers in St.
5 Augustine Beach. Part of the ceremony these
6 new officers swore allegiance to defend the
7 Constitution of the State of Florida.

8 That is what I am here today, is to ask
9 you to defend the Constitution of the State of
10 Florida and the will of the people, as
11 63 percent of the voters approved Amendment 5
12 and 6.

13 The two Amendments outline standards for
14 establishing Congressional District boundaries
15 after the census of 2010. The current timeline
16 established by the Legislature is calculated to
17 protect incumbents by delaying finalization the
18 Congressional and Legislative districts, until
19 almost time for the election, which is
20 June 8th, sorry, the qualifying, which is
21 June 8th.

22 Legislative session begins January, and
23 the decisions will not be made until March. It
24 is submitted that we could delay finalization
25 of the qualifying. This timeline does not

1 allow for the public to provide adequate input,
2 confines the public since people will, or
3 potential candidates to express their opinion
4 to the people and unfairly benefits incumbents.
5 We do see the amount of time for potential
6 challenges to have a campaign.

7 Despite the clear will of the Florida
8 voters who approved the Fair District
9 Amendments in 2010, the Legislature is using
10 taxpayer dollars to fight the new standards at
11 every stage.

12 The Florida Legislature has taken
13 extraordinary steps using taxpayer money to
14 avoid having to follow the Fair District rules.

15 It is a party to two suits to keep
16 measures off the ballot after spending more
17 than 1 million in legal fees to find fault with
18 the Fair District Amendments, both Houses
19 approved a competing amendment which was
20 ultimately thrown out by the courts as
21 misleading.

22 Now the House of Representatives is using
23 more money, money to sue the State of Florida,
24 to stop implementation of reforms. Florida
25 taxpayers are paying large sums for lawyers to

1 represent both the Plaintiff and the Defendant
2 in this particular lawsuit while we are having
3 trouble with schools and so many other issues
4 as far as costs are concerned in the state.

5 Finally, lift the gag order you have
6 placed on Legislators for the hearings. You
7 have indicated that Legislators should not make
8 public statements about redistricting, least
9 they betray and tend to engage in political
10 favoritism.

11 You have recently written to your members
12 forbidding them to speak at the upcoming
13 hearings. We are hopeful that such intent to
14 draw districts to favor incumbent or parties
15 does not exist.

16 However, in order to remain silent creates
17 an impression that there is some, something to
18 hide. We urge you to reconsider the gag order
19 and encourage the productive give and take at
20 each of the hearings. This will give voter
21 confidence that the representation intended to
22 fully comply with the new redistricting
23 standards.

24 And I am asking you, please, to move that
25 timeline up so that we can get our election

1 moving, and there is no reason you can't do
2 that.

3 Now, you did say this morning in your
4 introduction that you can't do anything for two
5 years after the -- after the redistricting, but
6 you can do, you can do potential maps and we
7 need those maps right now, at least potential
8 maps and you have had a number of suggestions
9 at your hearings. Thank you very much.

10 CHAIRMAN GAETZ: Thank you very much,
11 Ms. Gill. Ms. Gill, it is possible that you
12 weren't here at the very beginning or maybe you
13 were, but I don't know if you have had a chance
14 to observe the web casts of the other hearings.

15 I am not sure where the gag order came
16 from, but I don't think you could keep all of
17 these people quiet. At every single hearing
18 from the very beginning in Tallahassee, until
19 the hearing yesterday, we have had members
20 speak.

21 What we are trying to do though is to make
22 sure that everybody in the public has a chance
23 to speak first, and then we give members a
24 chance to speak.

25 So thanks a lot for your comments and the

1 Speaker Designate will -- is also taking notes
2 so that we can respond to a couple of the
3 factual issues that have been raised today, not
4 to be argumentative with anybody.

5 Everybody is entitled to their opinion,
6 but everybody is not entitled to their own set
7 of facts, and the Speaker Designate will remark
8 to that at the end of the hearing, if there is
9 time, giving everybody a chance to speak.

10 Next we will hear from Mary Lou Woods and
11 follow is Ms. Woods, from Gina Burrell.

12 Ms. Woods, if you are here, we would love
13 to hear from you this morning. And Ms. Burrell
14 would be next, and following Ms. Burrell will
15 be Denise Caldewood, I believe, Denise
16 Caldewood, who also represents the League of
17 Women Voters.

18 Ms. Woods, thank you for being here. You
19 are recognized.

20 MS. WOODS: Thank you. My name is Mary
21 Lou Woods and I live in the same community as
22 that of John Thrasher, so we are on the same
23 page.

24 Right now it seems like the system is so
25 flawed. Instead of the voters choosing the

1 politicians, the politicians are literally
2 choosing the voters.

3 This is done by pre-determinating
4 districts whether it represents Republicans or
5 Democrats, so that they can get who they want
6 to vote for them.

7 Now, for example, Corrine Brown and John
8 Mica, one is a democrat, one is a Republican.
9 Corrine Brown lives in Jacksonville, yet she
10 represents all of the way down there in a part
11 of Orlando.

12 How are we supposed to know who is
13 representing us? And then you have John Mica
14 who drives over 100 miles every day to get to
15 his office in St. Augustine. This is not fair
16 representation.

17 We are trying to fix things here. More
18 than three million people in this state voted
19 to end gerrymandering last year and we
20 supported the Fair District Amendments to the
21 Constitution. That is more than 60 percent of
22 the voters demand that the future districts be
23 drawn upon compact geographical sense rather
24 than party affiliation.

25 It would be a very good day for democracy

1 when all is done fairly. However, I doubt very
2 seriously that Corrine Brown or Dean Cannon
3 will ever want that day to pass, because both
4 of them benefit from gerrymandering, and they
5 are trying to -- well, the Fair Districting
6 votes then in a falling outrageous thing our
7 Speaker Dean Cannon has decided the State
8 Legislature should join the lawsuit and spend
9 our money trying to overturn the vote that we
10 just passed.

11 This is still America, right? Think about
12 the park for a moment. If a dictator or
13 someone, some other third world leader spent
14 the public's money trying to overturn its own
15 vote, we as Americans would be appalled, but
16 yet business as usual in the state of Florida.

17 What I am asking seriously is I come from
18 New York, I have lived in Florida for several
19 years now. Let's be fair. Let's make it
20 compact so that we can all work together for a
21 better Florida. Thank you.

22 CHAIRMAN GAETZ: Thank you, Ms. Woods,
23 very helpful. Ms. Burrell, you are next, and
24 following Ms. Burrell will be Denise, I believe
25 it is Caldewood, with the League of Women

1 Voters.

2 Ms. Burrell, thank you so much for being
3 here, you are recognized.

4 MS. BURRELL: Thank you for being here.
5 My name is Gina Burrell, I live in the city of
6 St. Augustine. I have been here in the city
7 for 17 years and the state of Florida for 47.

8 When a group of us were asking St. Johns
9 voters to sign our petitions in support of
10 Amendments 5 and 6 redistricting, we had
11 Republicans and Democrats do so. We got a few
12 hundred petitions signed. They considered it a
13 fairness issue.

14 Neither political party should be in
15 complete control. In November 2010, Amendments
16 5 and 6 passed overwhelmingly with 63 percent
17 of the vote statewide.

18 Now in the Florida Constitution these
19 amendments prohibit political favoritism,
20 requires that districts be compact, continuous
21 and follow city or county lines where feasible.
22 Amendments 5 and 6 will stop the gerrymandering
23 and the splitting up of a city.

24 For example, here in St. Augustine Senate
25 District 8, Precinct 507, which has many black

1 voters is removed from District 8.

2 Florida House District 18 comes into St.
3 Augustine to May Street, Florida House District
4 20 continues from May Street south to the rest
5 of St. Augustine. This breaks up Precinct 503
6 and is confusing for voters.

7 On May 31st, 2011, U.S. Justice
8 Department, the civil rights section voting
9 rights, approved these two amendments for
10 preclearance stating they don't discriminate
11 against minorities.

12 Why does it have to take the Florida
13 Legislature so long to get redistricting done?
14 Many other states, including Alabama, Arkansas,
15 Colorado, Illinois, Indiana, Iowa, Louisiana,
16 Minnesota, Missouri, Nebraska, Nevada,
17 Oklahoma, have already completed or almost
18 completed their redistricting.

19 We hope this will get done as much faster
20 than you have said it. Thanks a lot.

21 CHAIRMAN GAETZ: Thank you so much. And
22 Ms. Burrell, you have raised a good question
23 which the Speaker Designate will remark to at
24 the end, and that is why Florida is later than
25 some other states in redistricting. Excellent

1 question.

2 Denise, is it Caldewood or Caldewell?

3 MS. CALDEWOOD: How about Caldewood.

4 CHAIRMAN GAETZ: Caldewood, and after
5 Ms. Caldewood, who represents the League of
6 Women Voters, we will have Annette Ackerman, if
7 you could be on deck.

8 Ms. Caldewood, thanks for taking time to
9 come today, and you are recognized.

10 MS. CALDEWOOD: Thank you very much, I
11 appreciate it. And it is the Flagler County
12 League of Women Voters.

13 CHAIRMAN GAETZ: And, ma'am, I apologize,
14 so that we can all hear your testimony, could
15 you speak directly into the microphone, maybe
16 someone could help you there to make sure you
17 got the mike right by your face.

18 MS. CALDEWOOD: Okay, thank you very much,
19 how about now?

20 CHAIRMAN GAETZ: Thank you, much better.

21 MS. CALDEWOOD: Okay, perfect. And it is
22 important to say that it is Flagler County and
23 I agree with the previous speaker. The
24 Legislature's timeline for drawing districts
25 has been unfair to Florida voters.

1 The Legislature plans to pass out the
2 district maps at the end of the 2012 session on
3 March 9th, expectedly, which means Florida maps
4 will be approved later than most every other
5 state in the nation.

6 That only gives us three months after that
7 to actually examine it and look at it, so that
8 becomes a question, and according to that
9 timeline the maps will not be finalized and
10 approved before qualifying closes on June 8th,
11 and that may not be finalized until even after
12 August, if everything goes well as planned
13 issues and that is, you know, a very short
14 timeline.

15 The House's own redistricting attorney,
16 Miguel De Grandy, has predicted that this
17 timeline will cause massive voter confusion.
18 Challengers or new candidates will have little
19 if any time to mount campaigns and voters will
20 be voting for candidates they have little
21 opportunity to get to know.

22 So why won't the Legislature prepare the
23 maps earlier, debate them in the fall, and pass
24 them the first week of the session, doubling
25 the time for the litigation and preclearance,

1 and it gives the appearance that the late maps
2 may help incumbents, you know, and this can be
3 construed as an incumbent protection plan, and
4 that is concerning.

5 The Florida Legislature should also not be
6 spending taxpayer money to oppose fair
7 districts. Currently the Legislature has spent
8 over \$1 million of taxpayer money hiring
9 lawyers to fight fair districts.

10 It helped -- it fought the approval of the
11 Amendments for the ballot in 2008, which the
12 Supreme Court ruled for fair districts anyway.
13 It held more than 30 hours of committee
14 meetings in 2009 and '10, to try to find fault
15 with the Amendments, and they tried to take a
16 second attempt at fixing the issue, arguing in
17 court that the Amendments should be stricken
18 from the ballot.

19 The Supreme Court also rejected that
20 argument. And it has tried to confuse voters
21 by placing Amendment 7 on the ballot with
22 misleading language and the Supreme Court
23 struck Amendment 7 from the ballot.

24 It even Representatives of the district
25 have sued the state, itself, and the

1 Legislature is using taxpayer money to attack
2 and invalidate a provision of our State
3 Constitution that was supported by 63 percent
4 of the voters. So it appears that the
5 Legislatures aren't even listening to Florida
6 voters.

7 It appears that the politicians feel free
8 to spend outrageous sums to protect their seats
9 while leaving the people of Florida
10 unprotected. We feel that the Legislature
11 should be working to uphold the Constitution,
12 not spending our money to protect their own
13 interest at the expense of the provision placed
14 there by almost two-thirds of the electorate
15 last November.

16 And then the other question is, where are
17 the maps? Other states have had hearings so
18 far in order to allow citizens the opportunity
19 to comment on the maps and we haven't seen
20 them, you know, so the comment, is where is the
21 beef, where is the maps?

22 Have Legislatures drawn the maps yet, and,
23 if so, why are they not showing them to us.
24 When will they show them to us, and if the maps
25 haven't been drawn yet, why not. We have GIS

1 systems that can produce them very easily
2 without input and without paying for
3 consultants, you know, so, you know, these
4 sessions are important, it is great to be
5 listened to, everybody wants to be listened to,
6 but they are just that.

7 It gives you the opportunity to listen to
8 us, but we need the time to actually, you know,
9 propose good input on the maps with good
10 information, and you can use Palm Coast as an
11 example.

12 They just went through their own city
13 redistricting and they actually, you know,
14 redistricted a candidate who was actually
15 already approved by the, you know, the -- yes,
16 was approved to run and they actually voted him
17 out of the process, the redistricting process
18 and he threatened a lawsuit to actually put
19 himself back on.

20 So that is an example of how this can
21 happen for the future. So please don't let
22 that happen to this state. Thank you very
23 much.

24 CHAIRMAN GAETZ: Thank you very much,
25 Ms. Caldewood, and you as well have raised some

1 interesting factual points which the Speaker
2 Designate and other members of the Committee
3 may wish to respond to after we hear from all
4 members of the public.

5 After Annette Akerman, our next speaker is
6 Robert Zeis who is with the AARP. Ms. Akerman,
7 thank you for coming this morning, and you are
8 recognized.

9 MR. AKERMAN: Thank you very much. I
10 really don't represent anyone. I do have to
11 say that my grandfather fought all through the
12 American Revolution and in two major battles in
13 New York, and I speak from the heart as a
14 concerned citizen.

15 What I have seen lately has been a
16 tremendous shift in the use and the definite
17 misuse of our Constitution. My biggest concern
18 here is what a serious overreach of
19 redistricting can mean to the freedoms that we
20 enjoy because there is a lot to be considered
21 here.

22 It cannot and must not be allowed through
23 any political ploys to fall into further decay
24 via special interests or subverting agendas.

25 Gentlemen, you have a job to do, ladies

1 and gentlemen, excuse me, you have a job to do
2 and I hope you take it seriously to heart.

3 Please use the truths that have been set
4 forth in the Constitution to make redistricting
5 fair and representative of each and every one
6 of us. That is your sworn commitment and we
7 will appreciate your upholding that. Thank you
8 very much.

9 CHAIRMAN GAETZ: Thank you, Ms. Akerman,
10 excellent guidance for all of us. Robert Zeis,
11 representing the AARP. Good to see you again,
12 and the next, Pam Linder, I believe it is,
13 would be on deck.

14 Mr. Zeis, you are recognized.

15 MR. ZEIS: Thank you, Mr. Chairman, I wish
16 to thank you and the entire Committee for
17 allowing so many people to come forward and
18 give their opinion.

19 AARP, of course, represents nearly four
20 million voters in the state of Florida.

21 CHAIRMAN GAETZ: And could you speak a
22 little closer into the mike so that we can
23 catch every word?

24 MR. ZEIS: I can do that and I can tell
25 that is much better, thank you, sir.

1 CHAIRMAN GAETZ: Thank you.

2 MR. ZEIS: Our concerns are much more
3 theoretical. We really believe that the
4 Committee needs to perform this redistricting
5 in a very timely manner, stay with the
6 constitutional requirements of contiguousness
7 and truly avoid any appearance of conflict of
8 interest.

9 It is most important that our local
10 communities and neighborhoods stay intact,
11 having subdivisions and smaller, small
12 neighborhoods even within cities to have
13 deferring representation literally across the
14 street is something that has to be avoided.

15 I think that you are all doing a job that,
16 as I understand, is actually quite unusual with
17 the rest of the states. Very few states are
18 having the opportunity for public access and
19 information, and I encourage everyone to
20 partake of the websites that are available and
21 they can really glean maybe a better handle on
22 how the redistricting process takes hold, and
23 input their own ideas. And I thank you very
24 much.

25 CHAIRMAN GAETZ: Thank you, sir, thank you

1 very much for your testimony. Pam Linder is
2 next, and following Ms. Linder, Connie White,
3 if you would be on deck.

4 Ms. Linder, thank you for coming this
5 morning, and you are recognized before the
6 Committee.

7 MS. LINDER: Thank you. I was hoping all
8 of my questions would be asked so that I
9 wouldn't have to talk, but I am here, because
10 four of my questions have not been answered.

11 I didn't quite understand at the
12 beginning. Would ya'll just raise your hand if
13 you represent more than three counties? Just a
14 quick raise of hands, one, two, three, four,
15 five, six, seven. Seven, okay.

16 And I also was wondering, how many people
17 were in the Legislature, legislation when the
18 2002 redistricting happened? Could you all
19 just raise your hands if anybody was there?
20 One, two, three -- three, okay, and I was also
21 wondering, how many of ya'll would actually be
22 opposed to working between now and January, so
23 that we could have preliminary maps ready in
24 January when the sessions started? Is anybody
25 opposed to doing that?

1 CHAIRMAN GAETZ: Well, I will tell you
2 what. We will ask the Speaker Designate to
3 respond to that in terms of the legal
4 requirements, as well as what the process and
5 schedule are. I think you will be placed with
6 the answer, at least I hope you will, but
7 please continue your testimony.

8 MS. LINDER: Okay, and I wondered, how
9 many people voted to oppose Amendment 5 and 6
10 and actually asked that money be spent?

11 CHAIRMAN GAETZ: Now, we don't, ma'am,
12 ma'am, ma'am, in the United States of America,
13 we don't ask people how they voted in a secret
14 ballot.

15 So you are welcome to talk to people
16 individually, but we are not going to anybody
17 on the spot today about how they voted in the
18 secret ballot. This is still America. Please
19 continue with your testimony.

20 MS. LINDER: Okay, and I was wondering if
21 anybody would consider suing the state if their
22 redistrict changed?

23 CHAIRMAN GAETZ: Again, ma'am, you know,
24 there are people in this audience who may have
25 a cause of action, special interest groups who

1 are here who followed us from hearing to
2 hearing who may file lawsuits.

3 We are not going to put them on the spot.
4 They have the right to file a suit. Your right
5 to access to the courts is guaranteed by the
6 Constitution. We are not going to put them on
7 the spot today or anybody else. Any other
8 testimony?

9 MS. LINDER: Yes, I did just want to say
10 that as a woman and a mother and a healthcare
11 provider and an educator, I am disenfranchised
12 in my district.

13 CHAIRMAN GAETZ: Thank you very much for
14 your testimony. Next we have Susan McCool.

15 MS. WHITE: Corrine White.

16 CHAIRMAN GAETZ: Connie White, I am
17 jumping ahead. Connie White and then Susan
18 McCool.

19 MS. WHITE: Corrine White.

20 CHAIRMAN GAETZ: Ms. White, thank you for
21 being here today and we are delighted to have
22 your testimony.

23 MS. WHITE: Thank you very much for the
24 opportunity, and thank you all for being here.

25 CHAIRMAN GAETZ: And could you speak

1 directly into the mike so we can all hear you?

2 MS. WHITE: Yes, sir.

3 CHAIRMAN GAETZ: I am sorry that the
4 acoustics here require you to do that.

5 MS. WHITE: Is this better? Is that
6 better?

7 CHAIRMAN GAETZ: Much better, thanks a
8 lot.

9 MS. WHITE: Okay. Thank you. I would ask
10 that you consider after the maps are submitted
11 and you have gotten all of the testimony from
12 across the state, that you turn over the
13 process of re, actually redrawing the
14 Congressional Districts to an independent
15 nonpartisan commission, because we have four
16 criteria that have been articulated here which
17 are population equality, contiguity, unity of
18 counties and cities and compactness.

19 And we have a goal of districts being
20 represented by a member of their own community
21 who are familiar with their concerns, which as
22 we all know, which is why the Constitution
23 requires that Senators and Representatives be
24 inhabitants of the state that elect them.

25 So attempts to lock out, to lock in party

1 advantage sacrifices the important
2 Constitutional guarantee that a Legislator
3 serve as the voice of the community.

4 As you probably well know, 13 states so
5 far have established nonpartisan redistricting
6 commissions, and two additional states have
7 created advisory commissions.

8 While the systems vary, some commissions
9 actually propose the plans the Legislators must
10 approve, others strip the Legislators from
11 redistricting authority. Each of these states
12 recognize that partisan drawing of
13 Congressional District boundaries has hurt the
14 democratic process, leaving elected officials
15 dependent and beholdng to the party bosses who
16 draw them.

17 So I ask you, please, to consider turning
18 over after you have done your marvelous work,
19 turning over the redistricting process in
20 Florida to an independent nonpartisan
21 commission. Thank you very much.

22 CHAIRMAN GAETZ: Thank you very much. And
23 that as well will be a -- that as well -- stay
24 calm, ma'am. That as well will be, will be a
25 question that we will ask the Speaker Designate

1 to take up.

2 Now we are delighted to have Susan McCool,
3 who is the Supervisor of Elections in Palatka
4 with us. Thank you for your service to the
5 people of that community, and you are
6 recognized.

7 MS. MCCOOL: Thank you very much, and that
8 is Putnam county, not just Palatka.

9 CHAIRMAN GAETZ: That is right, it is the
10 whole county.

11 MS. MCCOOL: I am Susan McCool, Supervisor
12 of Elections of Putnam county. I just want to
13 thank you for allowing the State Supervisor of
14 Elections to have a more, be more involved this
15 year in the process of redistricting by
16 allowing us to show you our voting tabulation
17 districts.

18 Remember the economic factor when
19 splitting and dividing counties and
20 municipalities. That hasn't been brought up
21 yet. And by the way, St. Johns County did a
22 wonderful job in the presentation and you are
23 going to hear this throughout the state. The
24 rest of the sessions that you have.

25 We all have the same agenda, as you well

1 know. We are concerned about the time frame
2 and about the splitting. So if you remember
3 the economic factor in that, because one thing,
4 it involves the more splits we have, the more
5 precincts are involved, the more ballot styles
6 we have.

7 The more ballot styles we have the more it
8 costs, and this -- the way that paper is now,
9 of course, you know, the state is a paper
10 ballot. We destroy many, many ballots, paper
11 ballots a year for those people who do not
12 vote.

13 And so the less ballot styles, the less
14 paper that we have to destroy. Well, if I let
15 go of it, I can't turn the page.

16 CHAIRMAN GAETZ: You are doing fine.

17 MS. MCCOOL: Okay. Just remember that
18 less is better. It has already been brought up
19 about the time frame. We want to make sure
20 that you definitely remember that, because in
21 the redistricting process it takes several
22 months to train our poll workers, move voters,
23 print the cards to give to the electors,
24 process the change, mail out the cards,
25 securing polling locations, which securing

1 polling locations you may think it doesn't
2 take, you know, just call them and say, okay, I
3 have got an election, but there is a lot of
4 things on the polling places calendars that
5 have to be cleared, so we have to remember that
6 also.

7 We have to type, proof and then print the
8 ballots, and that does take quite a bit of
9 time, so remember the time frame, and thank you
10 very much, appreciate it.

11 CHAIRMAN GAETZ: Thank you very much,
12 Ms. McCool, for being here today. Excellent
13 information.

14 Next we have Rebecca Johnston representing
15 the Young Democrats of St. Johns, and following
16 Ms. Johnston, Richard Hebert.

17 So Ms. Johnston, if you are here, we are
18 delighted to have your testimony this morning.
19 Thank you for coming.

20 MS. JOHNSTON: Hello, I am Rebecca
21 Johnston, and I am the President of the St.
22 Johns Young Democrats.

23 First of all, I am not attempting to do
24 your job but offer suggestions. I understand
25 you have a very difficult task as you consider

1 the 2010 census data that shows many districts
2 with increased population.

3 In St. Johns County, two of our three
4 State House Representatives live in
5 Jacksonville. The citizens in St. Johns County
6 feel like they are not being represented
7 sufficiently.

8 District 19, for instance, includes part
9 of northeast Clay, southwest Jaxs and northwest
10 St. Johns County, and currently it is 12.9
11 percent over the desired population for the
12 district.

13 All of St. Johns County districts are
14 currently over the population desired, and
15 districts north of us and west of us are under
16 the desired population.

17 District 20 is over 28.9 percent, and it
18 encompasses the majority of Flagler, St. Johns
19 and it continues into Clay County. Next to it
20 is District 21 of Putnam County and it is under
21 by 7.49 percent. Please consider pushing their
22 line east and north into the current District
23 20.

24 We currently do not appreciate our tax
25 dollars being used to conduct hearings where

1 we, the people are not receiving any
2 information from you, our Representatives, or
3 seeing any proposed plans for us to give input
4 on.

5 If this, if Amendments 5 and 6 are not
6 followed properly, there will most likely be
7 some challenges which will be time consuming
8 and costly.

9 This will also result in delay in the
10 redistricting and it will hinder citizens who
11 wish to file as a candidate for the 2012
12 election, because they will not know their
13 district.

14 Incumbents will be given an advantage over
15 their opponents, because campaign and
16 fundraising time will be constrained. We
17 understand that some districts may need to be
18 drawn cross counties.

19 We ask that when you do, you do not draw
20 the lines to cut in and out of a county where a
21 particular political party is favored. We ask
22 that you draw lines to encompass an area
23 containing people with similar interests, way
24 of life, job market, infrastructure and
25 monetary.

1 By doing these things and following your
2 legal obligation to the voters, it not only
3 benefits the people, but the elected
4 Representatives. They will be able to better
5 represent their constituents to a one person,
6 one vote standard.

7 America is about fairness and equality.
8 We the voters need to see that in Florida.
9 Thank you very much.

10 CHAIRMAN GAETZ: Thank you, Ms. Johnston,
11 we really appreciate you being here. Richard
12 Hebert is next, and following Mr. Hebert,
13 Annette Cappella, if you would be on deck,
14 please.

15 Mr. Hebert, thank you for taking time to
16 be with us this morning, and you are
17 recognized.

18 MR. HEBERT: Thank you, sir, I pronounce
19 it Hebert.

20 CHAIRMAN GAETZ: I am sorry, sir? Hebert.

21 MR. HEBERT: Hebert, thank you.

22 CHAIRMAN GAETZ: I apologize to you. I am
23 sorry for mispronouncing your name.

24 MR. HEBERT: That is okay, at least you
25 didn't say Herbert.

1 CHAIRMAN GAETZ: You are recognized.

2 Thanks from coming.

3 MR. HEBERT: You have heard a lot of anger
4 out here and you shouldn't be surprised at it,
5 considering the history of Amendments 5 and 6.
6 I second everything that you have been hearing.

7 I don't want it reiterate detail by
8 detail, but just remember that we have gone
9 through two years of collecting 1.7 million
10 signatures to put those two Amendments on the
11 ballot, and we faced nothing but obstruction
12 from the State Legislature, from lawsuits to
13 the Governor's refusal to submit it for
14 approval to the Department of Justice.

15 We had to go to court to enforce that.
16 The citizens are upset, and I think
17 understandably so. You just look at some of
18 these snake like districts that curl and carve
19 all the way around the state of Florida, it is
20 a sham, and without getting into more detail,
21 you have set aside, as I understand it, \$30
22 million to fight redistricting related
23 lawsuits.

24 Half of that is supposed to go to this
25 lawsuit that you have joined in with Corrine

1 Brown to basically again try to nullify. I
2 mean, how many times does the Supreme Court
3 have to tell you you don't have a case, but
4 they keep going back to court to fight the
5 voters, using taxpayers, using our money to pay
6 to sue ourselves and then to defend ourselves
7 against our own lawsuit.

8 And I think the voters have finally seen
9 through this sham and I beg you, please, do the
10 right thing, stop postponing the day of
11 reckoning.

12 It is time now, draw the districts, these
13 hearings are a waste of our own money and our
14 time. Thank you.

15 CHAIRMAN GAETZ: Thank you, thank you for
16 coming in any case. Next, Annette Cappella,
17 you are recognized, and following Ms. Cappella,
18 Nell Toensmann, I believe it is, and I want to
19 just indicate that we do have a number of other
20 speakers who would like to be heard.

21 So all of us and especially the people
22 behind you are grateful for your respect of the
23 three minute rule. Ms. Cappella, you are
24 recognized. Thanks for being here.

25 MS. CAPPELLA: Thank you, thank you for

1 having me here. I also thank you for
2 listening. I hope you are hearing as well. So
3 many good things were said today and I don't
4 want to re-echo or reiterate much of it which I
5 have in my notes.

6 However, I am a U. S. citizen. I love
7 this country and I love Florida. I adopted, I
8 adopted it in 1978, and have watched some
9 things happen that I am very concerned about.

10 One of the things now is we have an
11 Amendment 5 and 6 that has been passed in the
12 past 2010 election by 63 percent of the voters,
13 and as Richard Hebert just said, you are
14 fighting it. Why?

15 We have a problem with economics in this
16 state and in this country yet you chose to
17 spend over a million dollars to fight it, of
18 our money.

19 Also, you also have set aside about \$30
20 million to keep fighting it. Why? These are
21 questions I have. I hope you are able to
22 answer them.

23 I also want to know why close to a dozen
24 states have already mapped out what their plans
25 are for redistricting. I know Florida is a

1 large state, and now I know it is crucial to
2 the upcoming election, and we do have one party
3 in power.

4 Does that mean you want absolute control?
5 That is another question I have. We have major
6 problems in this country, and it is time we
7 looked at the U.S. Constitution and followed
8 it, and as you as citizens and as patriots, we
9 should be able to follow it and not try to buck
10 it, and I am afraid that is what has been
11 happening.

12 I want St. Johns County to be contiguous.
13 You heard the Supervisor of Elections and the
14 problems she has. I work very closely many
15 times with them on elections and I see the
16 problems and the confusion with the voters.

17 What you are doing right now by postponing
18 maps and getting them to the public is going to
19 confuse not only the voters, but also the rest
20 of the world.

21 What is Florida about? We are known for
22 our, in fact, we are notorious for the kinds of
23 elections we have held in the past. Are we
24 going to continue to do that? Come on now.
25 You represent us.

1 Do your job, please. Make Florida and
2 make St. Johns County proud of you. Keep us in
3 our diverse contiguous place, not with three
4 Senators who represent four or five or six or
5 seven districts from Nassau County all of the
6 way to Volusia, or three representatives who
7 represent three, four, different districts and
8 counties. I mean, these poor men are confused.

9 They don't even know who they are
10 representing, because they don't even have a
11 handle on who we are. St. Johns and Flagler do
12 have much in common, and I agree.

13 Look at that map. Put us together. We
14 make good buddies and good brothers, thank you.

15 CHAIRMAN GAETZ: Thank you, Ms. Cappella,
16 and Ms. Cappella, I hope you can stay until the
17 end of the hearing because I think some of the
18 points that you raised probably will be
19 remarked to.

20 MS. CAPPELLA: Thank you.

21 CHAIRMAN GAETZ: Our next speaker will be
22 Nell Toensmann, I believe, or Toensmann, and
23 following Nell will be Randy Covington, and I
24 apologize if I mispronounced your name. Could
25 you pronounce it for the record?

1 MR. TOENSMANN: Toensmann.

2 CHAIRMAN GAETZ: Thank you very much.

3 MR. TOENSMANN: It is a German name and I
4 have a German husband.

5 CHAIRMAN GAETZ: Thank you.

6 MR. TOENSMANN: I grew up in St.
7 Augustine, Florida, at a time when Berl Polk
8 was Senator and we could often find him sitting
9 on a park bench in the plaza.

10 He talked to the people he represented,
11 and he represented us very well. Since then I
12 have spent 32 years in Europe with a German
13 husband whom I brought over here about seven
14 years ago, and I have looked back at Florida
15 and I have looked back at the United States
16 sometimes in utter amazement at the kind of
17 things we do and how they reflect on the rest
18 of the world.

19 Florida is very well known not only around
20 the United States, but it is also known in
21 Europe, and I was over there in the 2000
22 election when the German American Club had a
23 party to celebrate the election of a new
24 President, which went on for a few months.

25 The party actually ended some time in the

1 wee hours of the morning, however, and it is
2 kind of -- it is the kind of thing that when
3 things are being done that are not well thought
4 out and for all of the people, it is not only
5 the people of the state of Florida that are
6 watching, it is the people outside of the
7 state.

8 They are looking at us from all around the
9 United States, but they are also looking at us
10 from Germany and France and Spain, and believe
11 me, their international news is a lot better
12 than our international news which is almost non
13 existent.

14 They know what is going on. They knew
15 everything about the whole election process in
16 2000, and this is why you guys and gals, men
17 and women have to do something right this time
18 around.

19 You have to do it soon, you have to do it
20 contiguously so that we have proper
21 representation, and believe me, when we have
22 three Senators that we almost never see and we
23 have three House members, one of which does
24 live in St. Augustine, but none of them really
25 properly represent us in St. Johns County.

1 We want it to be compact. We do not want
2 to have precincts that are divided among two
3 House seats or two Senate seats. We do not
4 want to have the Supervisor of Elections people
5 have to do an incredible amount of work to
6 divide and subdivide and re-subdivide and try
7 to get precincts contiguous with the House
8 seats or the Senate seats, et cetera.

9 It is not an easy process I know for you,
10 but the sooner you get it done the sooner our
11 Supervisor of Elections can get to work. The
12 sooner the people who want to run for office
13 will know what district they can run in, the
14 better it will be for all of the people in the
15 state of Florida. Thank you.

16 CHAIRMAN GAETZ: Thank you so much for
17 your testimony. Next is Randy Covington, and
18 following Randy Covington will be Julie
19 Penrod-Glenn. So Ms. Penrod-Glenn, if you
20 would be on deck.

21 Mr. Covington, thank you so much for being
22 here, and you are recognized before the
23 Committee.

24 MR. COVINGTON: Thank you, and I want to
25 thank the Committee first of all, all of you

1 for your service in this recent session. I
2 know you did struggle with a great many of the
3 things and at the end of the day you did the
4 best job that we could expect. We appreciate
5 your service. Thank you.

6 Secondly, it is really interesting to me,
7 I have heard a lot of people speak of
8 diversity. It seems they were all reading it
9 from the same piece of paper.

10 I will tell you for certainty I have to
11 take strong exception to this. I don't care
12 one wit what Spain and England and France care
13 about our electoral process. It is our
14 Constitution. The process belongs to us, not
15 to them.

16 Secondly, I heard a lot of talk yesterday
17 about concentric circles and geometry. I think
18 that would actually be rather fun if you
19 produced those maps so you could watch people's
20 heads explode seeing what they suggested.

21 And lastly, I would just say this, at the
22 end of the day the fairness of this process
23 will not be traced to the production of the
24 maps. It is going to be traced to how you
25 openly conducted these hearings and gave

1 everybody their input to this process.

2 That is what matters here. The Fair
3 Districts people clearly drew language that was
4 intended to force this process to end up being
5 decided by seven unelected people. We don't
6 want that. That would be the ultimate
7 unfairness.

8 We trust you, we believe you all to be of
9 good intent. Continue on your process, don't
10 pay attention to all of the continuous
11 criticisms of you fighting to represent
12 everybody in the state. Thank you.

13 CHAIRMAN GAETZ: Thank you very much,
14 Mr. Covington. Next, Julie Penrod-Glenn and
15 then following Ms. Penrod-Glenn, if William
16 McCormick would please be on deck.

17 Ms. Penrod-Glenn, thank you for coming
18 today and we look forward to your testimony.

19 MS. PENROD-GLENN: Thank you for having
20 us. Thank you for being here. I have been
21 thinking about what I wanted to say today in
22 three minutes and I will try to keep my time, I
23 will keep my time to three minutes.

24 All of you all and everyone in this room
25 has heard multiple times that in the United

1 States we have one of the lowest voter turn
2 outs in the world in democracies.

3 Voters say, my vote doesn't count. There
4 is no need for me to vote, nobody listens to
5 what I have to say. How many people have heard
6 that? I have heard it multiple times.

7 When the voters of Florida passed the Fair
8 District 5 and 6 Amendments to the Florida
9 Constitution, that represented voters saying,
10 hey, you all, I want my vote to count.

11 I don't want to continue to be apathetic
12 and believe that my vote won't be heard, my
13 vote doesn't matter. These two Amendments give
14 the Florida Legislature a chance to have every
15 single person that is eligible to vote in the
16 state of Florida to be heard.

17 What we have now in Florida is a gross
18 example of gerrymandering. Gerrymandering in
19 the United States has a long and very infamous
20 record. It goes back to the founding, before
21 the founding of the Constitution wherein slave
22 states, slave owners wanted to count
23 100 percent of their slaves as people, but the
24 Constitution said, hey, no, they only count for
25 a third.

1 Gerrymandering has continued all through
2 history. However, this is our opportunity to
3 change history, to change what we have been
4 doing in the past and make it right.

5 I urge you to have open hearings, to
6 release the maps, to speed up the process so
7 that people that want to run for election will
8 be able to have time. People that are running
9 elections will have time to let voters know who
10 is running, what the election process is all
11 about.

12 We have time to get it straight. Eighteen
13 states have already done it. It is time for
14 Florida to step up and do the right thing.
15 Thank you.

16 CHAIRMAN GAETZ: Thank you,
17 Ms. Penrod-Glenn. Excellent advice for us all.
18 William McCormick is next, and then following
19 Mr. McCormick, David Sullivan.

20 Mr. McCormick, thank you for coming this
21 morning. We look forward to your testimony.

22 MR. MCCORMICK: Well, can you hear me
23 okay?

24 CHAIRMAN GAETZ: Yes, sir.

25 MR. MCCORMICK: Thank you for letting us

1 speak at this public hearing. I want to begin,
2 by the way, I live in St. Augustine, 9224 July
3 Lane. I represent myself, but I want to begin
4 my statement with a quotation from, and I think
5 a very statesman like quotation, from a pretty
6 influential public servant, and the person I am
7 going to quote is George W. Bush.

8 So the following he his quote. "One way
9 to reduce the influence of ideological extremes
10 is to change the way we elect members of
11 Congress.

12 2006 only about 45 of 435 House races were
13 seriously contested. Some members in so-called
14 safe districts do not have to worry about a
15 challenge from the opposite party. Their
16 biggest vulnerability is getting out planked in
17 their own party.

18 This is especially true in the era of
19 bloggers who make national targets out of
20 politicians they deem ideologically impure.

21 The result is that members of Congress
22 from both parties can towards extremes as
23 insurance against primary challenges.

24 Our government would be more productive
25 and our politics more civilized if

1 Congressional Districts were drawn by panels of
2 nonpartisan elders instead of State
3 Legislators.

4 That would be, make for more competitive
5 general elections and a less polarized
6 Congress. Making the change would make
7 politicians, would require politicians to give
8 up some of their power, never an easy task, but
9 for future Presidents looking to tackle a big
10 problem, this would be a worthy one to take
11 on."

12 Using those quotations as by stepping up
13 point and I will keep this short, by the way,
14 those quotations are from George W. Bush,
15 decision twice, pages 306 and 307, 2010
16 copyright.

17 Using those statements as my starting
18 point, I want to emphasize five points.

19 First, the voters of Florida, 63 percent,
20 have spoken. They want -- they want the
21 Legislature and the Governor to follow the
22 wording and the intent of the specific
23 guidelines set forth in Amendments 5 and 6.

24 Two, they want those guidelines followed
25 in establishing the new districts in a timely

1 manner, well before the 2012 elections.

2 Third, borders clearly understand the;
3 polarizing and paralyzing effects that
4 gerrymandered districts have on the political
5 process.

6 And fourth, and I am going to quote a wise
7 man, one of our, by the way, one of our six
8 Legislators, State Legislators, that represents
9 part of St. Johns County, but basically they
10 understand the power that legislative leaders
11 have in affecting policy and funding.

12 As that wise State Legislator said in a
13 public discussion that we had prior to the
14 passage of the Amendments, Junior Legislators
15 accomplish little when they come to Tallahassee
16 and those in the minority party accomplish even
17 less.

18 He cited the example of one powerful
19 Committee Chairman who went against the wishes
20 of the leadership of the State Legislature and
21 put forth an amendment that they didn't want
22 put forth and the next day he was no longer
23 Chairman of that Committee. He wasn't even on
24 that Committee.

25 It shows you what kind of impact, a long

1 time in the Senate or in the House, whether you
2 are talking national or state, the power that
3 these people have.

4 Finally, you are among the parties'
5 leaders. Well, let me say this. One thing
6 that Bush, George Bush did not say, and he
7 could have, is that the reason why we have all
8 of this money funneled to special interests is
9 because of the gerrymandering that goes on.
10 Just look at what West Virginia, just look at
11 Mississippi. Just look at Alaska.

12 Who gets the money? Why? If you live
13 long enough, you are going to keep your office
14 in a gerrymandered district, and of course you
15 are going to get the money going to your
16 district.

17 CHAIRMAN GAETZ: Sir, in respect to the
18 people behind you, could I ask you to wrap it
19 up?

20 MR. MCCORMICK: All right, I will make my
21 last comment, I got off script. You are among
22 your parties' leaders and certainly party
23 leaders choose to circumvent the wishes of the
24 vast majority of Florida voters, you will
25 surely be reminded of that should they seek

1 re-election or election to higher office in the
2 future. Thank you.

3 CHAIRMAN GAETZ: Thank you very much, sir.
4 Appreciate your comments. Next is David
5 Sullivan and then following Mr. Sullivan is
6 Robert Phillips, if you will be ready,
7 Mr. Phillips.

8 Mr. Sullivan, thank you for coming today,
9 and we look forward to your testimony.

10 MR. SULLIVAN: Thank you for having me.
11 Dave Sullivan, I am a resident of Flagler
12 County, specifically Palm Coast, here on my
13 own, Volusia.

14 I appreciate the previous members who have
15 spoken for Flagler County and the city of Palm
16 Coast. I have some specific statistics I would
17 like to reiterate just to remind people of
18 where we are.

19 The 2010 Census is the reason we are doing
20 this redistricting. Flagler County has been
21 the fastest growing county in the United States
22 for four years in the mid-2000s.

23 The city of Palm Coast now has over 75,000
24 people. That comes as a shock to some people.
25 It is clearly the largest city between

1 Jacksonville and Orlando, and over the next few
2 years it will go over 100,000.

3 I, coming from Palm Coast and Flagler
4 County, want to make sure that we do stay
5 attached to St. Johns County. I think those
6 two counties have a lot in common, and so maybe
7 when you are doing the State and House and the
8 State senate redistricting, why not start
9 south?

10 Start at the Flagler County south border
11 and go north. When you get to 100 and,
12 whatever it is, 60,000 people, that is one
13 district and you continue on north and so
14 forth.

15 There is, it looks to me like there is
16 about room for two State Representatives in
17 that place and this, the two Senate Districts
18 make no sense at all right now, dividing it up,
19 coast and inland.

20 SENATOR GAETZ: Thank you, thank you very
21 much, Mr. Sullivan, excellent observations.
22 Next we will hear from Robert Phillips and
23 following Mr. Phillips, if Lee Owen
24 representing the Minorcan Families would be on
25 deck and ready to proceed, we would be

1 grateful.

2 Mr. Phillips, from the Duval County
3 Supervisor of Elections. Thank you very much
4 for being here and we look forward to your
5 testimony.

6 MR. PHILLIPS: Thank you very much, and
7 good morning, and I send regrets from
8 Mr. Holland, the Duval County Supervisor of
9 Elections.

10 He is actually out of the country right
11 now. He actually wanted me to attend
12 yesterday's meeting that you had in Duval
13 County, but I was actually down in our neighbor
14 Volusia County enjoying some of our wonderful
15 state parks.

16 So I saw the news last night so I know I
17 missed a good one, but after I saw, I wasn't
18 going to speak this morning, but when I saw
19 several members of the Duval delegation here,
20 including my Representative and then my
21 compatriots from Putnam and St. Jones County, I
22 just wanted to add, first of all, what St.
23 Johns County and what Putnam County said.

24 I don't have anything to add to that
25 because they said it so well. I would just

1 like to say that we, for the first time, the
2 state allowed us to produce those VTDs and all
3 of the Supervisors spent a lot of time last
4 year working with them.

5 We appreciate the fact that we have had
6 this input. This is actually my third
7 reapportionment that I am going through with
8 the state, and I could tell you some horror
9 stories from the '92 one that a lot of the
10 Supervisors talked about, how bad that one was.

11 It was also a Presidential year, and some
12 of you may remember, it was held out by
13 lawsuits and things like that. So I just
14 wanted to ask that you do take those VTDs into
15 consideration.

16 A lot of the supervisors put a lot of time
17 into them and also offer ourself as a resource
18 because we do have a lot of experience with the
19 precincts and we are the ones who get the
20 countless phone calls that say, I am
21 represented by this person and the person
22 across the street is represented by someone
23 else. How does that happen.

24 So just anything we could do to offer our
25 assistance, and also I would like to take this

1 opportunity to personally thank Mr. Guthrie who
2 I understand has been there quite a while.

3 He has always been very responsive when I
4 have called him and asked him for assistance,
5 so it is good that you have someone like that
6 as a guiding hand behind the process. Thank
7 you very much.

8 CHAIRMAN GAETZ: Thank you. Thank you
9 very much for your testimony today, and next is
10 Lee Owen from the, if I understand this
11 correctly, the Minorcan Families and after Mr.
12 Owen, John, I think it is Danahy, on Oglethorpe
13 Boulevard, if you could be on deck, please.

14 Mr. Owen, thank you for coming today.

15 MR. OWEN: Thank you. If many of you do
16 not know the Minorcans of this area have been
17 here before even the inception of Florida as a
18 territory to the United States.

19 We have seen political maps change. We
20 have seen districts change. We are what I
21 guess you can say closest to a true native of
22 Florida besides the Indian tribes that have
23 been here.

24 There has been the universal message
25 presented today that the left and the right of

1 our political spectrums can agree upon, and
2 that is the fact that we emphasize the need for
3 every district to be as local as possible and
4 every election to have local results.

5 It is a great feat when one man can shake
6 someone else's hand that they know, and they
7 can vote into office and I can say that,
8 because I have had the opportunity to shake
9 hands with Senator John Thrasher. I have had
10 the opportunity to vote for someone that I
11 know.

12 That is what we have to pursue in this
13 redistricting. A local election is an involved
14 election, an involved election is the true
15 meaning of a democratic republic. Thank you.

16 CHAIRMAN GAETZ: Thank you very much, Mr.
17 Owen, we appreciate it. Mr., is it Danahy?

18 MR. DANAHY: Yes, that is correct.

19 CHAIRMAN GAETZ: Mr. Danahy, thank you for
20 taking time to come this morning, and you are
21 recognized.

22 MR. DANAHY: Thank you very much.

23 CHAIRMAN GAETZ: And following Mr. Danahy,
24 if William Stuart will be on deck, and then
25 Mr. Stuart is our last signed up person who

1 wishes to speak. If there are other people who
2 have been inspired to share their views with us
3 and haven't signed up yet, if you will raise
4 your hand, we will have a House or Senate staff
5 person come and give you a card so that we can
6 hear from you as well.

7 Mr. Danahy, you are recognized. Thank you
8 for being here.

9 MR. DANAHY: Thank you. Before coming
10 into the auditorium I spent I think a fair good
11 amount of time with some of the folks that you
12 have out there giving me some background, et
13 cetera.

14 Also giving me some background as to what
15 is, I have to say, supposed to be because I
16 don't know whether it is going to work out that
17 way or not, how the redistricting law is going
18 to bring equity broadly, ethnically, racially,
19 well, not ethnically, because I would like to
20 have an Irish contingent, quite frankly.

21 But from what he said and how they are
22 going to form the -- assist the Committee in
23 helping to actually propose the redistricting,
24 when all is said and done, it is going to come
25 down to the decision of those who have the

1 vote, and if those that have the vote on the
2 results of this is not being proposed
3 satisfactorily, it is going to change.

4 You cannot sit there and tell me that you
5 are blankly going to assume and accept the
6 recommendations of those of the staff that are
7 putting the redistricting together according to
8 the law. I just, I just can't believe it.

9 I have lost faith and hope in so many
10 Legislators and I am going to stick strictly to
11 the state, and I have lost hope and faith in
12 our courts.

13 Not so much our local courts but our state
14 courts, and I have to go to the Federal court
15 as well, but I have lost faith in all of that,
16 because no matter what we have done and no
17 matter what we say, it is going to come down,
18 politics.

19 I don't care if you say it is going to be
20 helped put together by non voting. If you say
21 you don't have a partisan thought in this
22 thing, you are lying through your teeth.

23 Everyone has a partisan interest in
24 everything that is going on here, everything
25 that is said, and everything that is going to

1 come as a result of it. There is no way on
2 this earth that anyone of you can say, I am
3 going to set aside politics. It just cannot be
4 done.

5 You are human beings, you are political
6 human beings and it cannot be done. So my
7 interest is in a fair fight. That is all I
8 want, a fair fight.

9 We saw a fair fight in Jacksonville with
10 Mayor Brown, God I gloried in it, not because
11 he was black and he won, but he was an
12 underdog, big underdog, and he won. He won
13 because he had a fair fight.

14 Now, if the supporters are going to assume
15 in that fight that the opponent can't win,
16 well, that is their hard luck. It is up to the
17 -- not because you have an advantage in
18 redistricting.

19 Here in St. Johns County we have a
20 preponderance of Republican voters. Now, does
21 that mean that we are not going to have a fair
22 fight? If the issue, if the person is going to
23 create a fair fight, that person has every
24 right to win. So that is all I am looking for,
25 a fair fight.

1 CHAIRMAN GAETZ: Thank you very much. And
2 William Stuart is next, and if there is anyone
3 else, Mr. Stuart, before you begin, if there is
4 anyone else who would like to speak, if you
5 would raise your hand we will get to you.

6 Mr. Stuart, thank you very much for being
7 here. Thanks for your patience in waiting
8 through everybody else's testimony. We are as
9 anxious to hear from you as we were from the
10 very first person who testified.

11 MR. STUART: Well, thank you very much for
12 allowing me to testify. I am William Stuart.
13 I have lived all my life in Florida, I am a
14 Floridian and I have lived in the same Federal
15 Seventh District for half of my life, 54 years
16 old.

17 Needless to say, that is a safe district.
18 There hasn't been much competition for that
19 seat as long as I have lived there, and I have
20 seen the face of St. Johns County change so
21 much in the 34 years I have lived in St. Johns
22 County.

23 Before Flagler County was growing at the
24 rate it grew, and simultaneously, St. Johns
25 County has grown, and what I think the people

1 are asking for when they voted overwhelmingly
2 for redistricting, is just what my predecessor
3 have just said at this microphone today,
4 fairness and that is basically what I came
5 down.

6 I am not going to go into a long thing
7 about it. I think everybody here, that is what
8 they want, fairness. So when an incumbent is
9 so safe that he doesn't even have or she
10 doesn't even have to campaign, that is when we
11 know there is a problem, and I have seen that
12 election after election after election where if
13 you don't worry enough about competition that
14 you don't even air a commercial, put any signs
15 out, there is something, that is when I know
16 the system is broken.

17 So all I ask you is for you people to take
18 it seriously. There was a mandate, it wasn't
19 like the Governor's race, it was a mandate that
20 we won, this redistricting done and we want it
21 done fairly, and I also, I just wanted to say
22 in closing, I don't appreciate us having to
23 support a legal battle on both sides of the
24 issue. I don't think that is fair to the
25 voters of Florida, so.

1 CHAIRMAN GAETZ: Thank you, Mr. Stuart,
2 and as a reward for your hanging with us
3 through the whole hearing, we will certainly
4 get to a couple of the points, the very
5 important points that you made and see if we
6 can provide some factual information for you.

7 Is there anyone else who would like to
8 testify? Tommy, have you got somebody? Okay,
9 let's get that card up here, and, sir, you can
10 come to the microphone while your card is being
11 brought forward, and if you would kindly
12 identify yourself, sir, for the record?

13 MR. RETTY: My name is Dick Retty. I had
14 not intended to speak. I just want to make a
15 parallel to the Administrative Procedures Act
16 that governs all, all Federal government
17 agencies if the rulemaking process which begins
18 with a statute of and proposed rule to
19 implement the statute, a period of public
20 comment which may include hearings, an analysis
21 of all public comment and their agency response
22 and the publication or final rules.

23 One of the fundamental problems in this
24 morning's hearing, as I sat through this, is
25 you have gone from the requirement of a

1 regulation in this case, redistricting, to
2 public comment without a proposal, and without
3 the proposal the public comment has very little
4 meaning and you should have inverted the whole
5 thing and whether it is a charade or not it is
6 hardly the kind of procedure that is embedded
7 for now over 50 years, 60 years in Federal
8 government rulemaking. Just make that comment.

9 CHAIRMAN GAETZ: Thank you, Mr. Retty,
10 that is very kind of you. Is there anyone else
11 who, like Mr. Retty, was inspired to offer some
12 final comments? Anyone else? Third call?

13 First, let me as Chair of the Committee
14 and on behalf of the Speaker Designate,
15 Representative Weatherford, offer my thanks to
16 every single person who testified.

17 We couldn't have gained the specific
18 information about neighborhoods and counties
19 that we received today had we not come here and
20 had public hearings as the -- as the founder of
21 Fair Districts urged us to do prior to the
22 drawing of any maps.

23 I would like to now turn to members of the
24 Committee and start with House members to ask
25 if they have any observations, if they have any

1 suggestions or if they have any proposals to
2 make as a consequence of today's hearing or of
3 this process.

4 Any members of the House of
5 Representatives wish to make any comments?
6 Yes, sir, Speaker, go ahead.

7 REPRESENTATIVE BAXLEY: Thank you, I want
8 to thank both of our Chairmen for the
9 leadership that they have provided, and I want
10 to make it perfectly clear, no one has limited
11 my ability to speak. There has been no gag
12 order.

13 There is a time to listen and there is a
14 time to speak, and this has been a time to
15 listen and I thank everyone who contributed to
16 this. I think it is very important.

17 Chairman, I don't think people would have
18 been very happy if we would have just rolled
19 out a map and no one had a chance to comment on
20 this process beforehand, and so I am very
21 grateful for the way in which it has been
22 conducted and I am very grateful for the
23 information that I have gleaned from being a
24 part of this process. Thank you, sir.

25 CHAIRMAN GAETZ: Thank you very much. Any

1 other member of the House of Representatives
2 who is on the Committee, Democrat or Republican
3 from any state of the state?

4 Then let me turn to members of the Senate
5 who are on the Committee, Senator Hays, you are
6 recognized, sir.

7 SENATOR HAYS: Thank you, Mr. Chairman,
8 and I would like to thank each one of you who
9 did come out this morning and even listened,
10 but those especially who participated by giving
11 us your thoughts and your ideas.

12 I have something I would like for you to
13 consider though. Those who are advocating to
14 have only one Senator or only one
15 Representative for each county, or to have an
16 entire county under the district of only one
17 Senator or only one Representative.

18 The reality is, if that one Representative
19 or Senator that is -- that has your entire
20 county happens to not be of the same political
21 party that the leadership of their respective
22 House is, your county is probably going to be
23 toast until you get somebody in the Legislature
24 who is of the same political party that the
25 leadership is.

1 If your county, if your Legislator is the
2 only Legislator that represents your county and
3 they get cross ways with the leadership of
4 either House, you are probably toast. Your
5 interests are going to be ignored.

6 Now, is that the ideal way? No, that is
7 not the ideal way, but as I told you before, I
8 am giving you a taste of reality as it truly
9 is.

10 So you might want to really, really give
11 some serious consideration before you advocate
12 that your entire county have representation by
13 only one Legislator. That would be a very --
14 plus, if your county is split up into two or
15 three different districts, instead of having
16 only one voice in Tallahassee advocating for
17 you, you have multiple voices in Tallahassee
18 advocating for you.

19 I live in Lake County, and there are,
20 there is, I apologize, I don't know what the
21 number is now, but say roughly 200,000 people
22 in Lake County, enough for one whole House
23 District and a little bit more.

24 But Lake County has six Legislators, two
25 Senators and four Representatives that are

1 advocating for Lake County in Tallahassee, and
2 I don't care how strong that one person is,
3 four in the Legislature is, six in the
4 Legislator is a far sight better than only one.

5 So I really think you might want to give
6 some serious consideration to keeping the
7 counties with multiple districts in them.
8 Thank you, Mr. Chairman.

9 CHAIRMAN GAETZ: Other comments? Senator
10 Thrasher, you are recognized.

11 SENATOR THRASHER: Thank you, Senator
12 Gaetz and Representative Speaker Designate
13 Weatherford for your great leadership in
14 today's meeting.

15 Let me just say, first of all, the input
16 from all of you all has been incredibly
17 valuable. I don't think a member will leave
18 here today who hadn't been touched by some of
19 the comments that have been made and the
20 concerns and the passion for our process that
21 you all have exhibited here today.

22 This is the fifth of 26 hearings that this
23 Committee will hold around the state of Florida
24 in order to try to reach out to as many
25 citizens as we can, and I will tell you that I,

1 I can't speak for everybody here, but I think I
2 can on this one point.

3 That there is no member of this Committee
4 that does not intend and cares about upholding
5 the Constitution of the State of Florida.
6 Amendments 5 and 6 were voted on. They are the
7 law and we intend to stand by those Amendments
8 and do everything we can in our power to make
9 sure that we abide by them.

10 I know I do and I know every member of
11 this Committee does, and for you all who have
12 come here today and asked us to do that, I can
13 assure you that when we raise our hands and are
14 sworn into the Florida Legislature and agree to
15 uphold the Florida Constitution, we will
16 certainly do that in respect to these two
17 Amendments.

18 I will tell you the other thing. I have
19 been around a long time. I -- in and out of
20 the process of the Florida Legislature. I have
21 never seen this process be more transparent,
22 have more opportunities for citizen input from
23 the standpoint of technology.

24 I wish I understood it all, frankly, but I
25 am getting better, but it is, it is incredibly

1 transparent, and when we come back from these
2 hearings which I think end in August, we will
3 start the process of Committee hearings in
4 Tallahassee.

5 They are open to the public. They are
6 open to any citizen. We will begin that
7 process and we will begin the constructive
8 process and the dialogue of beginning to
9 understand the input that we have had from the
10 folks here.

11 I have heard you, and I think every member
12 here heard you, sooner than later. Contiguous
13 and compact, one person, one vote. Those are
14 all important principles and concepts that we
15 will be guided by.

16 The one thing I would remind you though,
17 and this is why we are doing these hearings
18 around the state. We have 27 Congressional
19 Districts to draw. We have 40 Senate Districts
20 to draw and 120 House Districts to draw, for
21 18 million people in the state of Florida.

22 I wish we could go back to the 60s. I
23 heard someone reference former Senator Berl
24 Polk, the lion of the St. Johns. I wish those
25 days were simpler, where we could simply, you

1 know, draw a contiguous district in a county,
2 in a county and-a-half or whatever, but
3 unfortunately, Florida has grown to the point
4 where we have 18 million people, and our job is
5 to try to -- try to do based upon the
6 principles that we have outlined, the best job
7 we can do based upon the input that you have
8 given us.

9 I can tell you, I wish Florida was a
10 square and that the population was all divided
11 out. It would make our job a lot easier, but
12 as you well know, the state of Florida ain't
13 drawn that way.

14 It is a different kind of state than most
15 states, and we have to deal with the
16 population, where they are, where they live,
17 and all of the considerations of contiguously
18 that you have pointed out to us.

19 None of us in here want to travel
20 150 miles probably from one point of our
21 district to the other point. It would be much
22 easier to do it in a more compact basis. So
23 those principles which have been outlined in 5
24 and 6 and some of the issues which
25 Representative Weatherford will address, I

1 think are the principles which we will be
2 guided by, but your input today has been
3 valuable. It has been professionally presented
4 and we thank you for it. God bless you, thank
5 you.

6 CHAIRMAN GAETZ: Thank you, Senator
7 Thrasher. Are there any other comments from
8 members of the Senate who are here? If not,
9 let me just say that you are welcome to contact
10 any member of this Committee to have a one on
11 one conversation, either by e-mail or on the
12 telephone, or by letter.

13 You are welcome to contact the House
14 Committee and the Senate Committee, the web
15 information, the Snail Mail information is on
16 the brochures that you received. This isn't
17 the beginning of our conversation. This is
18 just the beginning, it is not the end, and all
19 conversations start with somebody saying
20 something.

21 If we both talk at once, we can't hear
22 each other. So we have heard you today and you
23 will be hearing from us as we gather more input
24 from across the state.

25 And now, without objection, I would like

1 to turn to the Speaker Designate,
2 Representative Weatherford who Chairs the House
3 Committee.

4 Representative Weatherford has made some
5 notes so we can provide some factual
6 information in response to some of the comments
7 and questions that have been made today so that
8 we can all leave here with the same set of
9 facts.

10 Mr. Chairman, you are recognized.

11 REPRESENTATIVE WEATHERFORD: Thank you,
12 sir, thank your, Chairman, and I just want to
13 echo the comments that were made about how much
14 I learned today, frankly, about northeast
15 Florida and some of the issues and the
16 communities of interest of the surrounding
17 counties here in Flagler and St. Johns and
18 Clay, and I think every member of this
19 Committee is going to walk out of here with a
20 better understanding of the unique and special
21 nature that you have here.

22 It is a beautiful part of the state and it
23 was very enlightening for me to hear about
24 specifics and things that you wanted to see
25 this Committee consider as we are making

1 decisions. So thank you for doing that.

2 Mr. Chairman, I would like to just go over
3 a few facts to make sure that we all walk out
4 of this room with the same understanding about
5 what the law says and what we have to do and
6 what is incumbent upon us.

7 The first of which deals with the
8 timeline. The timeline seems to come up at
9 every hearing that we go to. It seems to be an
10 area that people appear to be scripted up to
11 talk about and mention at every hearing, but I
12 just want to make sure that everyone is clear
13 about this.

14 The Constitution of the State of Florida
15 tells us that we cannot redraw any districts or
16 vote on districts until the session starts in
17 2012.

18 Now, what we have done is we have moved up
19 our session two months, not in March, which was
20 mentioned earlier here today, we have moved our
21 session up to January, so that we can produce
22 the maps as soon as our Constitution allows us.

23 It is also important for you to know,
24 there are only two other states in the United
25 States of America that have similar timing

1 constraints as Florida, and they are Maryland
2 and Vermont.

3 And so Florida, not because we decide to,
4 but because the voters voted for a Constitution
5 that told us that we cannot redraw those maps
6 until January of 2012, it is the earliest we
7 can possibly do it.

8 So we are merely following the law and the
9 Constitution that is set out before us. I also
10 want to mention a lot of the states that were
11 talked about that have already drawn the maps,
12 that have already voted on maps and have passed
13 them, many of those states have off election
14 cycle elections, which what that means is,
15 their elections are this November, in 2011, not
16 in 2012.

17 And so states like Virginia, New Jersey,
18 Mississippi, Louisiana, those states got their
19 census data almost six or eight months ahead of
20 the state of Florida, Mr. Chairman, and
21 therefore, were able to vote on maps because
22 they had an election this year.

23 As we all know, the state of Florida is
24 not an off cycle state. Our election is in
25 November of 2012. So we got our census data in

1 the very last tranche of census data that went
2 out to the last block of states.

3 That came in late March. We have utilized
4 that data. We had it available to the citizens
5 of Florida immediately as soon as we possibly
6 could, and I think that is an important note to
7 make.

8 There was also some comment in regard to
9 the maps and whether or not we should produce
10 maps to show you first as opposed to take
11 public testimony, and I just have to tell you,
12 and I don't know if any member of this
13 Committee feels differently, I don't think they
14 do, but I don't want to speak for them, but to
15 me this is one of the rare opportunities for
16 politicians, public servants, where they are
17 actually listening first before we are making
18 decisions.

19 The most criticism I get back in my
20 district in Pasco County is that we make
21 decisions before we listen to the citizens of
22 Florida. This is a case where we have decided,
23 both Speaker Cannon and President Haridopolos,
24 myself and Senator Gaetz, that we are going to
25 listen first before we draw the first map, and

1 I think that is out of respect for you more
2 than anything.

3 Also, in regards to that, the framers, the
4 actual framers of Amendments 5 and 6, Ellen
5 Freidin and Former Speaker Mills, both stated
6 before a joint hearing in the Legislature that
7 they would not even try to attempt to draw maps
8 until they had heard from the public first.

9 These are the framers of Amendments 5 and
10 6 which I have sworn to defend and protect as
11 it is part of the Constitution. They said they
12 would hear from the public first and that is
13 why we are hearing from the public first as
14 well.

15 When it comes to Amendments 5 and 6, and I
16 think this was spoken very eloquently and I
17 will not try to belabor the point, but we did
18 take a constitutional oath last November in our
19 organizational session to uphold and protect
20 and defend the Constitution of the United
21 States and the Constitution of Florida, and I
22 want everyone to walk out of here with the
23 confidence that you understand that the
24 Amendments 5 and 6 which passed with
25 overwhelming majorities in the state of

1 Florida, will be upheld and will be protected
2 by this Committee and by the Florida House and
3 by the Florida Senate because it is the law of
4 the land in the state of Florida. I want you
5 to know that is going to be the case.

6 In regard to the gag order, again, I
7 thought Representative Baxley, you spoke to it
8 very eloquently. There is no gag order.
9 Again, there seem to be the same scripts that
10 are floating around that we hear at every
11 public hearing, but there is no gag order, and
12 as you heard today, there were multiple members
13 who spoke, if anyone wants to speak to us
14 individually after this hearing, we would be
15 more than willing to speak with you.

16 The gag order does not exist, it never
17 existed. And also, there were comments made in
18 regards to litigation and I want to be very
19 clear about the litigation.

20 The first is, there is no pot of money set
21 aside by the State legislature, House or
22 Senate, that is focused on spending money on
23 fighting Amendments 5 and 6. There is no pot
24 of money set aside, that does foot exist.

25 That being said, that being said, the

1 litigation that people have been talking about
2 and that newspapers have been writing about was
3 filed by two Congressmen, one Congressman and
4 one Congresswoman, a Republican and a Democrat.

5 They filed the litigation, the Florida
6 House chose to intervene in that litigation
7 because what we were doing is seeking
8 clarification as to whether or not Amendment 6,
9 which only deals with Congressional Seats, not
10 Amendment 5, but in regard to Amendment 6, as
11 to whether or not it is constitutional
12 according to the Federal Constitution, not the
13 State Constitution.

14 So we are seeking clarification on that.
15 We did not file the lawsuit because it affects
16 the Legislature, we have intervened in that
17 lawsuit and we are a partner in that, but that
18 is an important distinction that needs to be
19 discussed.

20 Someone else mentioned that we should
21 create an independent commission after we take
22 all of the public testimony, get all of the
23 data, hand it over to an independent commission
24 and let them do the work for us.

25 Ladies and gentlemen, I am sure there are

1 members on this Committee that would love to do
2 that, but there is a slight problem there, and
3 that is that the Constitution gives us the sole
4 authority to draw the maps.

5 We have a responsibility according to our
6 Constitution to draw the maps ourselves and not
7 to hand it over to a commission. If the
8 framers of Amendments 5 and 6 wanted it to be
9 an independent commission and not the
10 Legislature, they could have made it that way,
11 but they chose not to. So we have the sole
12 responsibility of drawing those maps.

13 Lastly, there was a point that was made in
14 regard to political registration and that that
15 can somehow guarantee political results.

16 I want people to understand that in the
17 Florida Senate, for example, there are 28
18 Republicans and there are 12 Democrats.
19 However, 20 of those seats were carried by
20 President Obama in 2008, when he ran for
21 President, 20 of them.

22 So that means there were eight seats where
23 there is a Republican sitting in the State
24 Senate where that same seat voted for a
25 Democratic President of the United States.

1 We all know that voters are independent.
2 We all know that not all Democrats vote for
3 Democrats. We all know that not all
4 Republicans vote for Republicans, and we
5 certainly know that Independents can go either
6 way, and it is important to understand that the
7 seats in the state of Florida are not drawn and
8 will not certainly be drawn with political
9 intent, and when I talk about us upholding the
10 law in regard to 5 and 6, you have to
11 understand, when the Constitution says that we
12 cannot show intent to favor or disfavor a
13 political party or a candidate or an incumbent,
14 we believe that. We know that.

15 I have told every member of this body that
16 we don't want to know where you live. We don't
17 want to know what your political agenda is. We
18 are here to do a job to draw the seats
19 according to what the law states and according
20 to what the law and the Constitution requires
21 us to do.

22 And so, Mr. Chairman, I hope that brings
23 some clarity. There was some great public
24 testimony today, but the facts have to be the
25 facts and we have to make sure that the

1 citizens of Florida and particularly the ladies
2 and gentlemen who took time out of their busy
3 day to be here understand what the facts are.

4 We are grateful for your participation
5 today. Thank you for giving us an opportunity
6 to present in this wonderful facility. We are
7 grateful to Flagler College and Mr. Chairman, I
8 will turn it back over to you, sir.

9 CHAIRMAN GAETZ: Thank you very much,
10 Mr. Speaker. Let me give you a little bit of
11 previous upcoming attractions.

12 As Senator Thrasher indicated, we will
13 continue having the public hearings that we
14 have publicly noticed to give people in
15 communities across the state the same
16 opportunity that you had today, to share your
17 views, whatever they might have been.

18 Then when we get back to Tallahassee,
19 contrary to what someone may have told you or
20 somebody may have scripted, the fact is there
21 is no requirement that votes can't be taken
22 until March.

23 Votes can be taken as soon as the
24 Legislature goes in to session, which by
25 Constitution, cannot occur until January.

1 Now, we will begin committee meetings in
2 September, votes can be taken in committee.
3 Any time anybody makes a proposal, any member
4 of the Florida Legislature, it can be a member
5 of the House or Senate Committee, it can be a
6 member of the Legislature who is not on the
7 Committee, can offer a proposal, could offer a
8 map, any time they want, and it can come before
9 the Redistricting Committee and the House
10 Reapportionment Committee and the Senate any
11 time that it is proposed.

12 Similarly, we have had individual citizens
13 and interest groups already propose maps.
14 Yesterday when we were in Jacksonville during
15 the time we were at the hearing, there were
16 three maps that were proposed by groups in the
17 state of Florida.

18 Those all will be publicly available and
19 can be brought before committees at any time by
20 members of the committee or by members of the
21 Legislature or brought in testimony by
22 individual citizens or special interest groups,
23 and when I say special interest groups, I don't
24 mean it as a pejorative, but rather there are
25 people who are a part of groups that have a

1 special interest in this issue. Nothing wrong
2 with that. That is America.

3 So votes can begin as soon as proposals
4 are made. As Chairman Weatherford has
5 indicated, we are having hearings around the
6 state to hear from voters, but at the same time
7 maps are already being proposed. So if you
8 want to know where the maps are, you may go
9 on-line to either the House or Senate websites
10 and you will already see proposed maps that you
11 can begin to comment on, that you can point
12 out, here is what is right about it, here is
13 what is wrong about it, here is where it takes
14 into account our concerns, here is where it
15 fails to take into account our concerns, and
16 you can convey your information and your input
17 to the House or Senate Committees.

18 You as Speaker Designate Weatherford said,
19 will have the opportunity as all citizens will
20 to comment on any map, any proposal that comes
21 before any committee before any vote is taken
22 and we will, we will move with all dispatch to
23 do that as soon as we have heard from the
24 public and as soon as we have proposals in
25 front of us.

1 To end our session this morning, we are
2 fortunate to have the Chancellor of Flagler
3 College and the State Representative from this
4 area, Dr. Bill Proctor here.

5 Dr. Proctor, if you could make your way to
6 the microphone we would love to have you give
7 us the benediction this morning in political
8 terms, of course.

9 Dr. Bill Proctor. Thank you for allowing
10 us to be here, Dr. Proctor, in this beautiful
11 auditorium and on your outstanding and
12 picturesque campus and you are recognized for
13 any comments you wish to make, sir.

14 DR. PROCTOR: Thank you so much. I don't
15 think that I am professionally qualified to
16 give benedictions, but I do want to welcome
17 you, glad to have you here.

18 I wish I could have been with you earlier,
19 but we did have a little illness in the family
20 that delayed my arrival, but I am so glad to
21 have you on the campus and I appreciate you
22 taking the time to be with us.

23 CHAIRMAN GAETZ: Thank you, Dr. Proctor,
24 and there being no business, Chairman
25 Weatherford moves we rise.

1 (Whereupon, the proceedings were
2 concluded.)

REDISTRICTING COMMITTEE
WEDNESDAY, JULY 13, 2011
6:00 P.M.
SANTE FE COLLEGE
GAINESVILLE, FLORIDA

Transcribed by:
CLARA C. ROTRUCK
Court Reporter

1 T A P E D P R O C E E D I N G S

2 CHAIRMAN GAETZ: My name is Don Gaetz. I
3 am Chairman of the Reapportionment Committee.
4 I serve five coastal counties in northwest
5 Florida, from Pensacola to Panama City, and
6 along with my -- with my colleague,
7 Representative Precourt, Chair Precourt, who is
8 here tonight, I will be chairing this evening's
9 meeting.

10 The meeting is being broadcast, webcast,
11 statewide by the Florida Channel over the
12 Internet, and podcasts will be available in
13 case you miss part of it, or in case you would
14 like to go back and relive part of it.

15 Those will be available to you on the
16 Internet. Our sole purpose tonight is to hear
17 from members of the public about how you
18 believe the legal standards governing
19 redistricting ought to be applied in your
20 community so that you are ably represented in
21 Washington and Tallahassee fairly, equitably
22 and sensibly.

23 Our procedures tonight are simple, but
24 important. It is important that you sign in so
25 that we can create an accurate public record of

1 all attendees and all speakers, and also you
2 may opt to join our e-mail lists so that we can
3 keep you informed as to the redistricting
4 process and how it is going forward.

5 If you have not signed in, we, and you
6 would like to speak or if you have not signed
7 in just period, we would hope you might raise
8 your hand and one of the House or Senate staff
9 members will come and give you a card. That
10 way if you choose to speak tonight we will be
11 able to have you in the stack and give you an
12 opportunity to have your opinions heard, which
13 is what we would like very much.

14 If you wish to speak tonight and have not
15 yet filled out an attendance card, we will get
16 you one so that you can be called on. We don't
17 want to miss your testimony.

18 It the same attendance card whether you
19 wish to speak or whether you just want to sit
20 and listen to your friends and neighbors give
21 their opinions.

22 Before we begin the Chair will recognize
23 Representative Precourt from the House of
24 Representatives.

25 This is a Joint House Senate hearing, and

1 Representative Precourt will explain how
2 today's hearing fits into the redistricting
3 process and schedule. Representative, you are
4 recognized.

5 REPRESENTATIVE PRECOURT: Thank you, Chair
6 Gaetz. I appreciate the opportunity to be here
7 with all of you as well tonight. Again, my
8 name is Steve Precourt and I represent the
9 southwest side of the Orlando area, as well as
10 all of the citizens in the state of Florida in
11 the Florida Legislature and I am Vice-Chair of
12 the overall House Redistricting Committee.

13 That great staff that the Chairman
14 mentioned has also provided some notes to make
15 sure that we touch on all of the key points to
16 keep you informed of what the process is and
17 how we are going to go through it and I don't
18 miss anything.

19 As many of you know, every ten years our
20 Legislature is required by our State
21 Constitution to redistrict the state based on
22 increases, decreases and movements in
23 population.

24 Because Florida has grown more than the
25 other states around the country in the last ten

1 years, we are going to add, move up from 25 to
2 27 members of the U. S. House of
3 Representatives. So we will get two new
4 districts, and therefore, have to redraw the
5 congressional lines statewide.

6 Because some parts of our state have also
7 increased more or decreased to a degree,
8 disproportionately in population, many of the
9 Senate and House Districts that are within the
10 state, the numbers remain the same, 40 Senate
11 seats, 120 House seats, but many of those
12 boundaries will have to change either adding or
13 losing population to make sure that at the end
14 of the day they all still have the same
15 population within them.

16 When our redistricting process is
17 completed the Congressional Districts must be
18 equal in population and contain 696,345 people.
19 The 40 Senate Districts must also be nearly
20 equal, at about 470,000 people, and our 120
21 House Districts must also be nearly equal at
22 about 156,700 people.

23 Now, we have some displays that you saw as
24 you came in there in the back corner of the
25 room right over there, showing the current

1 boundaries, the current boundaries of the
2 Districts in this area of the state and the
3 number of persons in that table beside them
4 which must be added or subtracted from the
5 current Districts to achieve equal
6 representation, which is a requirement of law.

7 Equal representation though isn't the only
8 legal requirement that our redistricting plans
9 must met. The laws and important court cases
10 governing redistricting are explained in great
11 detail in the House and Senate websites.

12 Those websites are listed in the brochures
13 that you should have received on the way in and
14 that are available and if you need one, just
15 raise your hand and our staff will make sure
16 that you have that information.

17 The particular redistricting 2012 brochure
18 that you will get, summarizes Federal and State
19 laws and outlines topics that we hope you will
20 discuss here at today's hearing.

21 If you didn't get copy when you came in
22 and I see a whole bunch of folks' hands up
23 right now, if staff can't get them to you as
24 soon as you need them here, they are also
25 available outside on the tables.

1 The brochures also list the House and
2 Senate websites and that is a key piece of
3 information in today's world. These websites
4 have a tremendous amount of information about
5 redistricting in Florida, including explanation
6 of the laws, important court cases governing
7 redistricting, as well as a lot of the data and
8 the geographic information associated with the
9 process.

10 The two websites, the House website and
11 the Senate website, and they are separate ones,
12 are complimentary and they are updated
13 frequently. So visit both and check back
14 often, because it is a great way to stay
15 current with about how your new congressional
16 State Senate and State House Districts are
17 taking shape as we move forward.

18 Also on these websites you can get all of
19 the demographic information that will be used
20 from the 2010 Census in drawing the districts
21 and the exact same computer programs, I want to
22 reemphasize that, you as individuals have
23 access to the exact same computer programs that
24 our Legislators and professional staff are
25 going to use in drawing these maps.

1 Any member of the public can participate
2 in building plans or seeing maps that were
3 submitted by citizens, by special interest
4 groups, by Legislators, by whoever, all of the
5 maps that are submitted will be there available
6 for your review.

7 Now, before, during and after this hearing
8 our professional staff in the House and the
9 Senate will be available to show you how to use
10 this information as well.

11 If you need to know some of the simple
12 steps about getting on-line, building districts
13 with the district builder tool that we have on
14 there for drawing and building districts or
15 submitting a plan, they are available now.
16 They will be available by phone and over the
17 Internet for the rest of this process for you
18 to use.

19 Now, recommendations from citizens and
20 groups of citizens will be made publicly
21 available. So when you or your neighbors
22 submit something, it will be up there for
23 everyone to see.

24 In fact, there are a number of public
25 submissions that are already available on the

1 website and we received a couple more today at
2 this morning's meeting. We hope to see a few
3 more today.

4 The submission of these proposed maps that
5 makes sense for your community is, and I can't
6 emphasize this more strongly, the single most
7 effective form of public participation in the
8 redistricting process in my opinion.

9 That is because, like the old saying goes,
10 a picture paints a thousand words. You can
11 describe how, what the community is in words,
12 but as soon as you draw those lines, then we
13 have, aha, that clear picture of what you
14 intend for a particular district.

15 The schedule of the redistricting process
16 under which we are operating is imposed by our
17 State Constitution. The Constitution does not
18 permit us as Legislators to act on State
19 Legislative maps before the second year after
20 the decennial census. In other words, we can't
21 act on the 2010 redistricting until 2012.

22 However, we have accelerated the process
23 as much as we possibly can by moving up the
24 2012 legislative session from when we usually
25 meet in March and April, we have moved it up to

1 January and February.

2 In addition, we are beginning this
3 statewide process by holding these public
4 hearings five months in advance of that newly
5 accelerated 2012 session.

6 Now, it has been suggested by some that
7 the Legislature should draw maps first and then
8 ask the public to comment. Now, we believe
9 that puts the cart before the horse. That puts
10 the answer ahead of the question.

11 There really should be no preconceptions
12 created by politicians or anyone else about
13 what the redistricting maps should look like
14 before you, the public, have an opportunity to
15 tell us what your opinion is. To provide us
16 with that additional information on your
17 communities.

18 In fact, one of the principle authors in
19 Florida's new redistricting standards and the
20 Chairperson for fair districts campaign, they
21 are on record as in agreement with the notion
22 that new maps should not be drawn until after
23 the public has had the opportunity to provide
24 comment and input.

25 Now, our intent is to use the

1 recommendations made at these meetings, and
2 there is 20 -- there is going to be 26 of them
3 scheduled formally, and through our Internet
4 sites and through any other way that you send
5 us information, whether it is by Snail Mail or
6 handing us, handing it here tonight, we are
7 going to use that as the basis for developing
8 one or more options for district maps.

9 Once we have those options developed we
10 will discuss those options in additional public
11 meetings before any votes are taken as part of
12 the committee process that we will be starting
13 in September.

14 Now, throughout this process we will
15 continue, we will continue to solicit
16 additional public comment so that proposed maps
17 can develop and mature with the public engaged
18 and involved in that process, all before, well
19 before the Legislature actually approves any
20 final maps.

21 Now, whatever the Legislature passes will
22 then be submitted for judicial review to insure
23 that the final plans meet every legal
24 requirement.

25 Now, because our purpose today is to hear

1 from you, all the time between now and when we
2 adjourn at 9:00 will be used to ensure that
3 every member of the public who is here and
4 wishes to speak will have time to present
5 testimony and be listened to respectfully and
6 without interruption or argument.

7 Now, if every, if after every citizen that
8 is here has had his or her say there is still
9 any time remaining, any member of the committee
10 may make a statement or offer any observation
11 subject to Chair Gaetz' discretion, and of
12 course, any members of the Legislature at any
13 time could submit a map or proposed man and we
14 -- if they do, make that available to the
15 public on our website almost immediately for
16 your review as well.

17 Chair Gaetz, I hope that this description
18 or our schedule and the process sets the stage,
19 so to speak, for a successful public hearing
20 today.

21 CHAIRMAN GAETZ: Thank you, Representative
22 Precourt. We have a large number of
23 individuals who want to speak tonight, and that
24 is great. We have a hearing that will last
25 three hours. We will adjourn promptly at 9:00

1 according to the public notice that we have
2 given for the hearing.

3 We have 58 people who have signed up to
4 speak so far. So let me be an advocate for
5 Dave Schneider. Dave Schneider so far is
6 number 58, and I think Mr. Schneider ought to
7 have the same chance as Ann stone, who is
8 number one.

9 And so, therefore, my hope is that
10 everybody will stick to and we have to do this
11 just to give everyone a chance. I hope that
12 you will stick to about two and-a-half minutes.
13 If you go to three minutes then Dave Schneider
14 won't have a chance to talk. So let's be an
15 advocate for Dave.

16 Now, before we begin, and I ask members to
17 be extraordinarily brief because of our time
18 tonight, please indicate so that the audience
19 will know who you are and what part of the
20 state you represent.

21 Let's start with Senator Thrasher on my
22 right.

23 SENATOR THRASHER: Hi, I am John Thrasher.
24 I represent Senate District 8 which includes
25 parts of Nassau, Duval, St. Johns, Flagler and

1 Volusia Counties.

2 SENATOR OELRICH: Hi, I am Steve Oelrich,
3 District 14, Senate District 14. I have half
4 of Lake City, all of Gainesville, half of
5 Ocala, over to Levy county and over to
6 Interlochen area, roughly a square box.

7 SENATOR EVERS: Hi, I am State, I mean, I
8 am State Senator Greg Evers. I represent
9 Senate District 2, which encompasses north
10 Escambia, Santa Rosa, Okaloosa, Walton,
11 Washington and Holmes counties.

12 REPRESENTATIVE DRAKE: Brad Drake
13 representing the Fifth House District,
14 panhandle of Florida. I am a graduate from the
15 University of Florida, and I represent
16 Okaloosa, Walton, Holmes, Washington and
17 Jackson Counties and I saw my Supervisor of
18 Elections here, Paul Lux, from Okaloosa County.

19 Paul, thank you for making the trip. We
20 look forward to tonight's proceedings.

21 SENATOR DEAN: Good evening, my name is
22 Charlie Dean, I am the District Senator
23 District 3. My district goes from Citrus,
24 Hernando County line and 98 and 19, to the
25 Baker and Duval County line, the Georgia line,

1 west to Monroe Street and the Capitol, the
2 largest district east of the Mississippi River.

3 SENATOR LYNN: Good evening, I am Senator
4 Evelyn Lynn. I represent District 7, and I
5 have large parts of Volusia, Clay, Marion and
6 Putnam Counties, and thank you all for being
7 here.

8 REPRESENTATIVE JULIEN: Good evening
9 everyone, my name is John Patrick Julien. I
10 represent House District 104, which is in Miami
11 Dade County, and earlier today after the
12 meeting that we had in The Villages I had a
13 pleasant conversation with several members of
14 the Citrus County Democratic Party, and they
15 recommended that each one of us mention our
16 party affiliation.

17 So keeping in light with that spirit, I am
18 a member of the Democratic Party.

19 REPRESENTATIVE KIAR: Hello, everybody, my
20 name is Martin Kiar. I represent District 97
21 in the Florida House of Representatives, which
22 is located solely within Brevard County,
23 Florida. Thank you all so much for coming out
24 tonight.

25 SENATOR ALTMAN: Thad Altman, Senate

1 District 24, which is east central Florida,
2 Brevard, Orange and Seminole County.

3 REPRESENTATIVE BERNARD: Mack Bernard,
4 State Representative from West Palm Beach,
5 Florida, and a graduate of the University of
6 Florida College of Law.

7 SENATOR MONTFORD: I am Bill Montford,
8 State Senator, District 6, which is all or part
9 of 11 counties, including, Leon, Tallahassee,
10 and the surrounding counties. Glad to be here.
11 Thank you for being here.

12 REPRESENTATIVE CLARKE-REED: Good evening,
13 I am State Representative Gwyndolen Clarke-Reed
14 representing House District 92 in Broward
15 County, the northeast quadrant. I represent
16 seven cities in that area.

17 REPRESENTATIVE JONES: Good evening, I am
18 State Representative Mia Jones from
19 Jacksonville, representing District 14.

20 REPRESENTATIVE ROGERS: Good evening,
21 Hazelle Rogers, State Representative for
22 District 94 in Broward County. The county that
23 boast 1.8 million residents, the most adverse
24 county in Broward County, representing eight
25 cities. Thank you.

1 REPRESENTATIVE BOYD: Good evening,
2 Representative Jim Boyd from District 68 which
3 is Manatee County, down south of Tampa Bay.
4 Thank you for being here tonight.

5 REPRESENTATIVE PASSIDOMO: Representative
6 Kathleen Passidomo from Collier County. I
7 represent the City of Naples, Marco Islands,
8 Everglades city. Thank you.

9 REPRESENTATIVE YOUNG: Hi, I am
10 Representative Dana Young, and I represent the
11 City of Tampa and parts of Hillsborough County.
12 Thank you for being here.

13 REPRESENTATIVE CALDWELL: Good evening,
14 Matt Caldwell, Representative of District 73
15 down in Lee County, Ft. Myers, but born here at
16 Shands Medical Hospital.

17 REPRESENTATIVE BEMBRY: Leonard Bembry,
18 District 10. I represent all or part of ten
19 small counties in north central Florida, that
20 is including Jefferson, Madison, Hamilton,
21 Taylor, Dixie, Levy, Franklin, Wakulla. So we
22 have a lot of good people in this part of the
23 world.

24 SENATOR HAYS: I am Alan Hays, I represent
25 Senate District 20 which is parts of Volusia,

1 Seminole, Lake, Marion and Sumter Counties, and
2 one proud graduate of the University of Florida
3 College of Dentistry, charter class.

4 REPRESENTATIVE TAYLOR: Good evening,
5 everyone, my name is Dwayne Taylor. I
6 represent House District 27 which is in Volusia
7 County, and I represent six cities in Volusia
8 County. Thank you for coming.

9 REPRESENTATIVE BAXLEY: Thank you. I am
10 Dennis Baxley, Florida House District 24,
11 Ocala, Marion County. Thank you.

12 REPRESENTATIVE LOGAN: Anna Rivas Logan,
13 Miami Dade County, House District 114, and I,
14 too, am a proud Gator, College of Engineering
15 and both my daughter and my son-in-law are both
16 Gators.

17 REPRESENTATIVE PORTER: Hi, Elizabeth
18 Porter, District 11, represent all or part of
19 Alachua, Suwannee, Gilchrist, Lafayette, a
20 little tiny bit of Dixie, part of here. So
21 happy to be here.

22 REPRESENTATIVE ADKINS: Hi, my name is
23 Janet Adkins. I represent House District 12,
24 which is Nassau, Baker, Bradford, Clay, Union
25 and Duval Counties.

1 REPRESENTATIVE PERRY: My name is Keith
2 Perry. I represent parts of Alachua, Levy and
3 Marion Counties and it gives me the distinct
4 honor and privilege to be your Representative
5 for some of you in this room. Thank you.

6 REPRESENTATIVE CHESTNUT: Good afternoon,
7 Chuck Chestnut, representing a portion of
8 Alachua County, Marion County, House District
9 23. Again, thank you all for coming and I
10 would like you all to help me welcome the
11 Legislature here to Gainesville and Alachua
12 County. And thank you for coming.

13 CHAIRMAN GAETZ: All right, we have now
14 picked up seven more people, and now Michael
15 Bowie is number 70. So now we are going to, in
16 order to be fair to Mr. Bowie and make sure
17 everybody has a chance to speak we would like
18 to, we would like to move quickly.

19 Here is what we would like to do. You
20 will speak from there. So if Ann Stone will
21 come forward, followed by James Elland, Fred
22 Pratt, and James, I think it is Desjardin, and
23 those seats there will be on the deck seats.

24 So Ann Stone will speak first and then
25 Mr. Elland and Mr. Pratt and Mr. Desjardin if I

1 get that name correctly, if you will be on the
2 on deck circle we can move quickly.

3 And I apologize to you, but in order to be
4 fair to everyone who wants to speak, I would
5 ask that we hold our remarks as briefly as we
6 can. If somebody has already said what you
7 have said, you know, you don't have to feel
8 constrained to say it begin, and I know we all
9 want to express our views and our feelings
10 about our speakers, but the more we applaud or
11 boo or anything else, that takes time away from
12 the people who are at the back end.

13 So let's get started, and Ms. Stone, you
14 are recognized for two and-a-half minutes.

15 MS. STONE: Hi, I am very nervous so I
16 have written out what I want to say.

17 CHAIRMAN GAETZ: You are doing fine.

18 MS. STONE: My name is Ann Stone and we
19 live in Newberry, we have been there for 12
20 years. I want to thank you for this
21 opportunity to tell you how important the
22 redistricting is to my husband and me.

23 As you have guessed, we are retired and
24 that means Social Security. It is very
25 important to us to be able to communicate face

1 to face with those who represent us.

2 Steve Oelrich's district is perfect. We
3 don't have to use a week's allowance of gas to
4 meet with him. I believe that is the way it
5 should be for everyone. Thank you very much.

6 CHAIRMAN GAETZ: Thank you, Ms. Stone, and
7 next, James Elland.

8 MR. ELLAND: My name is James Elland.
9 First I would just like to say, thank you for
10 actually coming, and actually listening to us,
11 instead of a lot of the people in the County
12 Commission that we dealt with last night, they
13 want to argue with us and not try to move
14 anything, but we do want to thank you for
15 coming, and that is all I have to say.

16 CHAIRMAN GAETZ: Thank you very much, sir.
17 Mr. Pratt, you are recognized, sir. Thank you
18 for coming.

19 MR. PRATT: Is it on?

20 CHAIRMAN GAETZ: Yes, sir.

21 MR. PRATT: Thank you for being here. I
22 am really kind of puzzled, you know, there are
23 no maps. I mean, how are we supposed to make
24 -- how are you supposed to talk about things
25 when there is no maps, and I am really in favor

1 of the Fair Districts Florida plan which is
2 continuous districts that encompass a county, a
3 city.

4 Don't break up the county like you have
5 Alachua County where Alachua County is in, some
6 of it is in one district and some of it is in
7 another district and the same with Gainesville.
8 I mean, that is only fair. Thank you.

9 CHAIRMAN GAETZ: Thank you, Mr. Pratt, for
10 that good testimony. And I apologize, James
11 Desjardin, followed by John Reiskind from the
12 Alachua County Democratic Party, and then Dr.
13 Gunnar Paulson is on deck, and I, if I have
14 butchered your name, sir, I apologize.

15 MR. DESJARDIN: That is close enough. My
16 name is Jim Desjardin or Desjardin, and I am a
17 member of the League of Women Voters in this
18 county, and also a member of the Democratic
19 Party.

20 And along with many, many other people I
21 work very hard to get this amendment, well,
22 first of all, to get the amendment on and then
23 to get it passed, and I am here to plead that
24 you will perhaps follow the law and make
25 compact contiguous districts rather than having

1 them a yard wide and 200 miles long to pick up
2 parties, people from your party.

3 I think that the district should choose
4 the Representatives and not the different --
5 the Representatives pick out the voters they
6 would like to have voting for them.

7 So please, we could do a much better job
8 if we had maps that we could comment on, that
9 really is your job. Thank you.

10 CHAIRMAN GAETZ: Thank you, thank you so
11 much for that testimony, John. I think it is
12 Reiskind from the Alachua County Democratic
13 Party, and then Dr. Gunnar Paulson, and then
14 Roy Abshien, you are recognized, thank you for
15 being here tonight, sir.

16 MR. REISKIND: Sure, the name is Reiskind.
17 I wanted to go into a little history of
18 gerrymandering, which the change of our State
19 Constitution is going to make a lot more
20 difficult and hopefully ban.

21 There may be, there may often be good
22 idealistic reasons to produce geographically
23 distorted districts, but they are still
24 distortions and I wanted to talk about the very
25 first case of this in America that I believe

1 took place 25 years before Governor Jerry of
2 Massachusetts imposed such a districting plan
3 in his state and gave the name gerrymandering
4 to gerrymandering.

5 The perpetrator was the Governor of
6 Virginia, Patrick Henry. He was strongly
7 opposed to the new U.S. Constitution which he
8 felt could lead to a monarchy, a Constitution
9 that took too many rights away from the states.
10 A Constitution that did not have provision to
11 protect many of the rights of citizens. He was
12 considered at the time an anti Federalist.

13 Now, James Madison, the father of our
14 Constitution, was a Federalist who promised
15 that he would do his best to add as amendments
16 a Bill of Rights to the Constitution, but
17 Henry, Governor Henry was skeptical and blocked
18 Madison's Senatorial aspirations.

19 So James Madison decided to run for
20 Congress in 1789, the very first Congress.
21 Governor Henry then gerrymandered the first
22 Congressional District of Virginia, putting in
23 all of the anti Federalist counties he could,
24 in addition to the home county of James
25 Madison, and found a former tall General to run

1 against him by the name of James Monroe, but
2 Madison campaigned very hard.

3 It was in February, it was cold, and
4 Madison was a very slight, he was shorter than
5 I was, am, and he won that race in spite of
6 Patrick Henry's gerrymandering.

7 He fulfilled his promise, as politicians
8 should, and we have our Bill of Rights today.
9 So this is just a little story about I think
10 the dangers of gerrymandering.

11 Now we have for the first time criteria to
12 apply to redistricting, that we have neutral
13 districts, that they are compact, et cetera, as
14 in our amendments to the Constitution.

15 It should make our elected Legislators
16 more responsive to the communities they serve.
17 Maps would, of course, help us at this process,
18 but I understand your introduction.

19 This process, if done properly, will be a
20 very good thing. It is time to stop, to end
21 the distortions, whether it is to keep
22 incumbents in office, or to put as many of one
23 party into as few districts as possible.

24 I urge you to do your legal duty and do
25 your best this coming year. Thank you very

1 much.

2 CHAIRMAN GAETZ: Thank you, thank you for
3 some of that great background. And now
4 Dr. Gunnar Paulson, followed by Roy Abshien,
5 and then Robert Jordan would be next.
6 Dr. Paulson, thank you for being here.

7 DR. PAULSON: Thank you for being here
8 tonight. It is interesting what John was
9 talking about gerrymandering because you are
10 sitting in a county that is the epitomy of
11 gerrymandering.

12 Here we are in a county of a quarter of a
13 million people and we have four pieces of four
14 Representatives in the House. That is
15 gerrymandering. So I think the other thing is
16 about the maps, I disagree with you. If I was
17 going to do something I would have had maps
18 first.

19 I know when I had to write my dissertation
20 I didn't just -- I didn't just go around and
21 write it in pieces, I wrote it and then I had a
22 draft and then I corrected it from there, but
23 if you can't have the maps tonight, what really
24 needs to be done, and I would like you to think
25 about this.

1 I think you should give us a deadline that
2 you do have maps. Don't give us maps next
3 June. Don't give us maps at the end of the
4 legislative session. You could say you could
5 have maps to be ready in January. You could
6 say that you have maps that are debated and
7 given to us this fall and I hope you take that
8 into consideration, because I don't think then
9 if you say no to that, I don't think your
10 argument would be logical or valid what you are
11 giving to us tonight if you don't give it to
12 us.

13 The next thing is, you know, I looked at
14 this about setting boundaries. If you look at
15 Alachua County, Alachua County, like I said,
16 has a quarter of a million people, but we are
17 really unique in that we have 215,000 people in
18 the urban area.

19 I live right next door here. I don't live
20 in the City of Gainesville, but our urban area
21 has 215,000 people, and if you look at the map,
22 Marion County has 331,000 people. They have
23 three seats down there and two of them just
24 filled in their district and then you have
25 parts in ours.

1 We could have two full seats here, and I
2 hope that takes into consideration, or you can
3 look at, I was looking at it, it took me five
4 minutes to do this. I looked at us in
5 Gilchrist County and Levy county, there is
6 635,000 people, five seats are 650,000 people.

7 You have boundaries of four counties, you
8 have the river, Santa Fe and the Suwannee
9 river. These are the kinds of things that I
10 hope you look at.

11 Now, one of the last things is, I have got
12 all of my degrees from the University of
13 Florida and I am glad we have so many Florida
14 graduates up there. If you really care about
15 the University of Florida, and we need to be
16 guaranteed representation in this county and
17 this city.

18 We don't need to have parts of just all of
19 these different places where we have our seats,
20 and I hope you take that into consideration,
21 because it is the flagship University, we are
22 the major urban center in north central
23 Florida, and I hope we do have that, it is all
24 taken into consideration and I am a proponent
25 of the fair districts and for what that is, you

1 are trying to keep political and natural
2 boundaries and it is contiguous. I think I
3 have given you all of these when I spoke to
4 you.

5 Again, I appreciate it. I hope that you
6 can take it again, the last thing I want to
7 leave you with is, please, set a deadline for
8 the maps. Even if you have, if you feel like
9 you are entitled and not giving us maps
10 tonight, you don't need to give us maps in
11 April. You don't need to give us maps in May.

12 Set a deadline, let us know so that we
13 really can have an input. Again, thank you for
14 coming here tonight and I appreciate you
15 listening to us, and go Gators.

16 CHAIRMAN GAETZ: Thank you. Thank you,
17 Dr. Paulson. And Dr. Paulson, just so you
18 would know, just as a factual matter, there is
19 absolutely no prohibition to any maps being
20 introduced by any Legislator as soon as today.

21 So, you know, there is certainly no
22 requirement that maps be introduced late in the
23 process. They can be introduced today. In
24 fact, we have maps now that are on the website
25 that have been proposed.

1 Ray Abshien and then next, Robert Jordan
2 and following Mr. Jordan, Goldie Schwartz from
3 the Sierra Club.

4 Ray Abshien, you are recognized, and
5 thanks so much for coming tonight.

6 MR. ABSHIEN: Yes, sir, thank you,
7 Mr. Chairman, that is Roy Abshien. Before I
8 read this, for reasons that will be obvious, I
9 want to tell you who the signatories are on
10 this letter.

11 It is Reginald Landers, Jr.,
12 Vice-Chairman, Marion County Democrat Executive
13 Committee, and Roy Abshien, Chairman of the
14 Marion County Republican Executive Committee.

15 Mr. Chairman, on behalf of our Marion
16 County community, thank you for the opportunity
17 to address you and the committee members and to
18 provide input on this most important
19 redistricting process.

20 We implore you to consider the
21 significance of Marion County and its five
22 municipalities of Ocala, Bellview, Dunellen,
23 McIntosh, and Redding, as a designated
24 community of interest in your redistricting
25 process.

1 With the explosive growth over the past
2 ten years, and a current population of over
3 330,000 people, Marion County's land mass of
4 over 1,660 square miles makes us the fourth
5 largest county in Florida.

6 While we acknowledge and appreciate the
7 exceptional public service and I want to pause
8 here, there are four, we are blessed to have
9 four Senators and they are all on stage tonight
10 and we thank you for the job you are doing for
11 us.

12 While we acknowledge and appreciate these
13 folks, the public service of all of our
14 legislative delegation under present
15 conditions, we have only one member out of the
16 seven members that is from Marion County.

17 While all have been attentive, their
18 primary seat of interest is in another
19 community, and we have not yet had a Senator
20 from Marion County in over 20 years.

21 The county is currently divided into four
22 separate Senate Districts with each
23 representing only a portion of our community.

24 It is imperative that Marion County have
25 contiguous representation whenever possible.

1 These fractured districts preclude our ability
2 to speak with one voice as a community.

3 In addition, the current district
4 configuration has created a logistical hardship
5 in advancing our community issues and needs to
6 the Legislature.

7 The time to act is now. We, the citizens
8 of Marion County, together, speak as one voice
9 on this redistricting issue. Please assure
10 that our voices heard by giving us compact,
11 contiguous and equitable legislative
12 representation. Our economic vitality, our
13 prosperity and quality of life, our very future
14 is at stake.

15 Respectively submitted again, Reginald
16 Landers, Jr., Vice-Chairman, Marion County
17 Democratic Executive Committee, and Roy
18 Abshien, Chairman of the Marion County
19 Republican Executive Committee. Thank you.

20 CHAIRMAN GAETZ: Great bi-partisan
21 comments. Thank you. Robert Jordan is next,
22 and following Mr. Jordan, Goldie Schwartz, and
23 then Anna Jordan is next after Goldie Schwartz.

24 Mr. Jordan, thank you for being here
25 tonight. We look forward to your testimony.

1 MR. JORDAN: Thank you. My name is Robert
2 Jordan. I am a retired attorney and by the
3 way, Anna Jordan will not be speaking.

4 CHAIRMAN GAETZ: Thank you. Okay.

5 MR. JORDAN: My comments will be brief. I
6 am concerned about the constitutionality of
7 redistricting. You base your redistricting on
8 the U.S. Census which counts all of the
9 population of the state of Florida regardless
10 of citizenship.

11 Therefore, some districts are based on
12 people who are not legally allowed to be here
13 and are not legally allowed to vote.
14 Therefore, the people who legally can vote get
15 more representation than counties and areas
16 where everybody there is basically legally
17 there.

18 Instances of south Florida, Dade and
19 Broward County have a substantial amount of
20 representation. They also have a substantial
21 amount of illegal aliens. That is
22 unconstitutional.

23 I doubt that there is anything that you
24 can or will do about that, because you have to
25 base your numbers on the U. S. Census, but it

1 is not fair to counties like Levy County where
2 I am from, because we get less representation.
3 That is unconstitutional. Thank you very much.

4 CHAIRMAN GAETZ: Thank you, Mr. Jordan,
5 and next, Goldie Schwartz and following Goldie
6 Schwartz, Darlene, I think it is P-i-F-a-l-o,
7 and then Adelia Vachon, Vachon, is that right?

8 Ms. Schwartz, you are recognized. Thank
9 you for coming tonight.

10 MS. SCHWARTZ: Thank you so much for
11 coming here, too, and it was kind of a last
12 minute thing that I came and obviously from the
13 previous speakers, I didn't do a lot of
14 homework.

15 All I came to represent is my favor to
16 what the citizens passed, which was Amendment V
17 and VI, and I want you to, recommend that you
18 follow the actual language that was presented.

19 And I also would like to recommend that
20 cities not be separated, and I agree with a lot
21 of what the previous speakers have said about
22 natural areas, natural cities, boundaries being
23 kept as you are in the process of
24 redistricting. Thank you.

25 CHAIRMAN GAETZ: Thank you very much,

1 Ms. Schwartz. And now, is it Darlene, I
2 apologize, PiFalo, is that correct?

3 MS. PIFALO: Yes.

4 CHAIRMAN GAETZ: Thank you, Ms. PiFalo,
5 and then Adella Vachon is next, and then
6 Rosalie, I am not even going to try. We are
7 just going to call you Rosalie from the League
8 of Women Voters.

9 MS. PIFALO: Thank you, and that was a
10 very good pronunciation, but I go by Darlene.
11 Thank you for being here. It is an honor to
12 have you all sit and listen to us.

13 I was listening, when I was listening to
14 people and trying to figure out why am I here,
15 and I think about our Constitution, but someone
16 just brought up something, I won't take long,
17 but the Census.

18 I thought that was very interesting,
19 because I have been, I am a realtor, I have
20 been a realtor for 38 years in the state of
21 Florida, but with the Census it brought
22 something to mind, because actually the Census
23 takers, I called the National Association of
24 Real Attorneys, the Florida Association of
25 Realtors on this, because the Census, when

1 taking the Census, they were calling realtors
2 to ask them how many people lived in that
3 house.

4 And I took the liberty of saying I don't
5 have a right to tell you that, because I think
6 it would have skewed the numbers of the Census
7 and if they were doing it all over the country,
8 it frightens me that that is what they were
9 doing, because I didn't know if I had a house
10 listed, if there were five people in there, ten
11 people in there, or nobody in there.

12 So that kind of concerned me when the
13 Census was being taken. So I just want to
14 leave you with that question in your mind.
15 Thank you.

16 CHAIRMAN GAETZ: Very good point. Thank
17 you very much. Ms. Vachon, is it Vachon,
18 ma'am? Thank you very much and we look forward
19 to your testimony. Rosalie, you are on deck,
20 and then Jean Calderwood, would you please be
21 ready?

22 MS. VACHON: Yes, I am Adella Vachon and I
23 also live in Levy County and near the city of
24 Williston and that is one of the points I want
25 to make.

1 When you are talking about how lines are
2 drawn, my understanding is that right down
3 Noble Avenue, which is down the center of
4 Williston, one side is one district and the
5 other side is the other district.

6 And so obviously that is not a very
7 unified district in, group in that district
8 because you have one Representative on one side
9 of the street and the other one on the other
10 side. So it is a little hard for them to speak
11 for everybody if they are halfway divided.

12 So I think one of the things we need to
13 look at is to make sure that these are drawn
14 fair and equitable, so everybody has fair
15 representation regardless of whether it is a
16 political party, regardless of minority group
17 or whatever they are, all of us should be able
18 to be represented.

19 So I think that going along with the idea
20 of gerrymandering and all you have to do is to
21 look at our maps in color and it is very
22 obvious that what we have been dealing with
23 since 2000, there is a lot of gerrymandering in
24 Florida.

25 I think they should be contiguous, they

1 should be compact if it is possible. Honor
2 city lines, honor county lines to get your
3 people in a group so you are not dividing
4 cities, you are not dividing counties.

5 They have alluded to this, the County of
6 Alachua has four different districts, it should
7 never be like that. They should be able to
8 speak with one voice for that city.

9 It reminds me of a child playing baseball,
10 and Papa becomes the coach so the kid can play
11 even though he is not a good player. We go out
12 and we draw these lines so regardless of what,
13 you know, what you are doing, you are just
14 really not up to par representing everybody
15 equally, and I don't think that should be.

16 And this needs to be done in a timely
17 manner. As I understand that your maps can't
18 be out until 2012. Okay, that is fine, but
19 let's get them done because if you don't get
20 them done and then they have to be signed off
21 on by the Florida Supreme Court, they have to
22 be signed off by the Department of Justice.

23 My question to you is, what if they get
24 signed off by the Florida Supreme Court and
25 they go up and they don't get signed off by the

1 Justice Department and we are already up to
2 May, because you have to declare for your -- if
3 you are going to be a candidate to run in June.

4 So where is your time going to be to
5 redraw those and for people to know,
6 particularly in your Congressional Districts
7 when you are adding two districts. There are
8 people now in their districts, as you said,
9 they change in the population.

10 Somebody that is representing a district
11 may no longer live in the district they are
12 currently representing, and one map I want to
13 show you in particular, and we are up here in
14 the rural area, and I know that Representative
15 Bembry, if you look at his district, and if you
16 look at Senator Dean's district, all you have
17 to do is look at their districts in these
18 colored matches and you understand the
19 territory they cover.

20 How on earth can they represent people
21 over such an area? There isn't any way
22 possible they can ever meet with all of these
23 people in their district or even a very low
24 percentage of them.

25 But look at our Congressional District 6

1 and tell me this isn't gerrymandering.

2 CHAIRMAN GAETZ: Could somebody assist Ms.
3 Vachon to hold that up so that the audience can
4 see it? And Ms. Vachon, I would like to ask
5 you, just because of the large number of people
6 behind you, if you could wrap it up, please.

7 MS. VACHON: Yes, I am going to with this.
8 Look at the yellow, that is Congressional
9 District 6.

10 CHAIRMAN GAETZ: Yes.

11 MS. VACHON: I think it is very obvious
12 there has been gerrymandering there, and I have
13 other maps that show that --

14 CHAIRMAN GAETZ: Thank you very much,
15 ma'am, for your testimony. Thank you. And
16 just as a point of factual information, the
17 people who are on this stage didn't draw maps
18 and then run on the maps they drew.

19 Actually somebody else drew the maps in
20 the districts we had to run in. So we
21 understand that.

22 And now we would like to hear from
23 Rosalie, and Rosalie, out of curiosity, can you
24 help me with your last name?

25 BANDYODHYAY: Sure, absolutely. I am

1 Rosalie Bandyopadhyay, that is how you say my
2 name, Bandyopadhyay.

3 CHAIRMAN GAETZ: Bandyopadhyay.

4 MS. BANDYOPADHYAY: Uh-huh, perfect.

5 CHAIRMAN GAETZ: Got it, thank you very
6 much, and thanks for being here on behalf of
7 the League tonight.

8 MS. BANDYOPADHYAY: Thank you. I am a
9 member of the League of Women Voters for 37
10 years, and our members, we have about the first
11 three rows here, we are sitting all front and
12 center, and we would like to welcome you all to
13 Alachua County, Gainesville, on behalf of the
14 League and welcome to Gator country.

15 There is a great deal of interest and
16 concern in our area, as you hear, about the
17 redistricting process. As the Legislature
18 makes one of the most important decisions of
19 the decade, apportionment of legislative and
20 congressional lines.

21 Throughout these hearings you have been
22 hearing from citizens and League members about
23 how upset they are that the state of Florida is
24 spending taxpayer money to go to court to try
25 and invalidate the will of 63 percent of the

1 voters, 3.1 million, who voted in favor of the
2 Fair Districts Amendments in November.

3 Some have said that you are not spending
4 money to invalidate the will of the voters, but
5 that you have simply joined the lawsuit in
6 order to clarify how the amendments impact the
7 Federal Voting Rights Act.

8 As a long time resident of this area and a
9 past League president, I need to state that
10 this statement is contrary to the facts. I
11 have here the complaint and other legal papers
12 that have been filed by Gray Robinson of
13 Speaker Cannon's previous law firm on behalf of
14 the House.

15 Nowhere in these legal papers is there any
16 request for clarification as some of you have
17 said, that it is only for clarification, and in
18 fact the only thing the House is asking in
19 these papers for the Court to do is invalidate
20 Amendment VI by ruling it unconstitutional, and
21 I quote from these.

22 "Wherefore, the House of Representatives
23 respectfully request."

24 CHAIRMAN GAETZ: Let's let Rosalie talk,
25 please.

1 MS. BANDYOPADHYAY: Thank you. I am just
2 reading, quoting from here. "Wherefore, the
3 House of Representatives respectfully request
4 the Court to declare the Amendment facially
5 unconstitutional under the election clause of
6 the United States Constitution." This
7 specifically as it is addressed here is Article
8 1, section (4), clause 1 of the U.S.
9 Constitution.

10 Misrepresentation of the purpose of this
11 lawsuit gives the League members and the League
12 of Women Voters of Florida grave concern and
13 should be of concern to every Florida citizen.

14 So we now ask this committee and the
15 Legislature to drop the lawsuit, stop spending
16 taxpayer dollars for it, follow the law of the
17 land and let's get to work on drawing these
18 maps. Thank you.

19 CHAIRMAN GAETZ: Thank you very. Jean
20 Calderwood is next, Ms. Calderwood. And
21 following Ms. Calderwood, Alton Hines and
22 following Alton Hines, Alex Patton.

23 Ms. Calderwood, thank you for being here.
24 We look forward to your testimony.

25 MS. CALDERWOOD: Thank you, and thank each

1 and everyone of you for being here. We know
2 that a lot of you are far away from your homes
3 and this has been a very tedious and laborious
4 project that is again important for the future
5 generations of the state of Florida of Florida,
6 so we appreciate you being here and listening
7 to us.

8 I can tell you that I proudly served as
9 the Mayor of the City of Alachua, which
10 compared to Gainesville, we are the next
11 largest city in Alachua County, but even though
12 we only boast about 10,000 people, I formally
13 served about four years as Mayor and seven
14 years on the Commission.

15 And even though we are a small proud rural
16 community, we did end or act very much with the
17 urban areas and our representation with the
18 House and the Senate from the State standpoint
19 and Congressional standpoint, our interaction
20 there often meant that we had to make sure that
21 the voice of the rural folks was heard.

22 When you start looking at Amendment V and
23 Amendment VI and the compactness and the
24 contiguous lines around counties and city
25 borders, we don't want to sacrifice the vote or

1 the voice of the rural folks that are out
2 there.

3 If you will look at the City of Alachua,
4 we are 46 square miles. When you look at an
5 area, that sounds like a pretty decent amount
6 of land, but when you are competing with urban
7 areas, and that is the case throughout the
8 state of Florida, the rural concerns and the
9 rural needs can be very much different from
10 those in the urban areas.

11 We want all districts to be fair. We want
12 everyone to be represented. We want every
13 voice to be heard and every vote to count, but
14 let's not sacrifice those that cross county
15 lines into rural areas.

16 An example would be the legislation last
17 year that had to do with septic tanks in the
18 state of Florida. That was an issue that
19 probably didn't bother anybody at all in Miami,
20 Florida. It probably didn't bother a lot of
21 people in Jacksonville, but in the
22 unincorporated areas of many counties, that
23 became a very expensive contentious issue and
24 some of our Representatives, where they crossed
25 rural lines, heard that voice. So that

1 representation was extremely important,
2 Representative Porter, some of our people,
3 Representative Chestnut, Senator Oelrich from
4 these areas know, Representative Perry, know
5 firsthand what that means.

6 So we ask when you look at the appeal to
7 be compact and contiguous, don't exclude your
8 rural people from those lines. Don't set a
9 line that is going to make their voice not
10 heard when there is legislation enacted,
11 statewide or in the Congress. Thank you very
12 much.

13 CHAIRMAN GAETZ: Thank you. Thank you for
14 your service to your community. Next is Alton
15 Hines, please, and following Alton Hines, Alex
16 Patton and we have a very large number of
17 speakers.

18 So please, in deference to your friends
19 and neighbors, if somebody said it before,
20 maybe, maybe you can just say ditto, but
21 Mr. Hines, we are delighted to have you here
22 and look forward to what you have to say.

23 MR. HINES: Thank you very much for
24 allowing us this opportunity. I represent the
25 Columbia County Republican Executive Committee

1 and I would like to speak to you for just a
2 moment on our thoughts and views on the issue
3 before us.

4 In Columbia County, it has a population of
5 about 67,000 people, yet we have got four
6 Representatives in Tallahassee, and I guess you
7 could say that would be, that would be good,
8 but at the same time, we would prefer to see
9 Columbia County whole in a state and in the
10 State Senate and also in the State House of
11 Representatives.

12 I know that U. S. 90 is a good line of
13 demarcation for dividing the districts in half,
14 but at the same time, it is not necessarily
15 good for the citizens of Columbia County.

16 Columbia County takes our politics and our
17 politicking very seriously with a series of
18 rallies where we invite both the Democrats and
19 the Republicans to speak before the -- those
20 who come, and we will have in excess of 100 to
21 150 people come out on five or six different
22 nights all throughout the county.

23 And if Columbia county was all in one
24 State Senate seat, then we would be able to
25 have our Representative there all of the time

1 for all of the districts, for all of the
2 different precincts.

3 You know, the other issue that comes to
4 mind is the excess work that multiple Senate
5 and House seats puts on the Supervisor of
6 Election's Office, particularly when it comes
7 to tabulating the votes.

8 It delays the announcement of the final
9 results, but it also just puts additional work
10 on the Supervisor as far as training poll
11 workers and educating the public.

12 It is very often in Columbia County that
13 we have voters who are disappointed because for
14 one reason or the other they show up at the
15 wrong poll, and they try to vote in the wrong
16 district. If everybody was in the same
17 district, that problem would not exist.

18 And the other issue -- okay, I thank you
19 very much. To summarize, I could say we would
20 like it say that we would like to see the State
21 districts and the Senate seats all contiguous.

22 CHAIRMAN GAETZ: Thank you very much.
23 Next, Alex Patton, followed by Robert Hoffer
24 from the American Postal Workers Union, and
25 behind Mr. Hoffer, Kathy Kidder, another

1 representative of League of Women Voters.

2 Mr. Patton.

3 MR. PATTON: Thank you, Mr. Chairman. My
4 name is Alex Patton, I have been following the
5 redistricting debates since 1990, when I worked
6 on my very first campaign and I do not envy the
7 complex process that all of you are going
8 through.

9 In fact, I am starting to question who
10 each one of you individually made angry so that
11 you drew this short straw. However, we welcome
12 you to Gainesville and we are glad that you are
13 allowing us to have our input into this very
14 valuable process.

15 I am afraid that this process may be even
16 made more difficult with the Fair Districts
17 Amendments that were passed last year.

18 Obviously, fair districts are something
19 that sound like a really good thing. However,
20 and again, who wouldn't want these districts to
21 be drawn fairly? But at the end of the day I
22 just don't understand the language used in the
23 Amendment and exactly what they are trying to
24 intend to do.

25 For example, the law says these districts

1 may not be drawn with the intent to favor or
2 disfavor the incumbent or political party.
3 That language in itself is problematic.

4 It is like saying something is pink or
5 unpink. Now, I am a pretty bright guy. I went
6 to the University of Florida, and I don't know
7 what in the hell that means. So, again, I wish
8 you well. These laws, themselves, make
9 absolutely no sense to me, and I think that
10 that is the kind of confusion that these types
11 of rules and these types of amendments that are
12 passed that are feel good amendments that are
13 going to certainly lead me to not envy the task
14 that all of you are undertaking.

15 So I do thank you all very much for your
16 patience and your ability to listen to all of
17 us, and my only hope is, is that I wish you the
18 best of luck in drawing these maps.

19 However, I want you to pay particular
20 attention to protect our right to equally
21 proportional districts and there are strong
22 arguments made by minority participation in the
23 districts in the way that they are drawn, and
24 also something that respects the Voting Rights
25 Act of 1965. Thank you all very much, and I

1 wish you well.

2 CHAIRMAN GAETZ: Thank you, sir. Robert
3 Hoffer, and following Mr. Hoffer, Kathy Kidder
4 and then Laurie Newsom.

5 Mr. Hoffer, thank you for being here on
6 behalf of the Postal Workers Union. We look
7 forward to anything you might have to share
8 with us.

9 MR. HOFFER: Well, I appreciate the
10 opportunity to address the gathering here, and
11 I was going to go on a tirade about how this is
12 costing a lot of money and there is no maps.

13 So what are we talking about, but although
14 it is an expensive exercise in public
15 interaction with their Legislators, I won't get
16 into that.

17 I do appreciate the difficulty that you
18 are having. I know that maps are being drawn.
19 I mean, that anybody that sits here and thinks
20 that there aren't maps being drawn is pretty
21 naive.

22 And the previous speaker was talking about
23 how contiguous and just wants to be fair. I
24 know that as an objective person, when I look
25 at some of these districts, they look awfully

1 strange, and as an objective person, they don't
2 seem right.

3 It just seems like they have been drawn up
4 with a particular purpose in mind, and I won't
5 get into that, but we felt like there is
6 something needed to be done, that it just had
7 gotten out of hand, and that is why the
8 Amendments passed, and overwhelmingly.

9 So for our Legislature to be fighting it
10 and be hiring a legal team to be fighting it is
11 unconstitutional, you know, it is kind of hard
12 to swallow by most people.

13 The speaker did say something about how
14 you could contact these people by e-mail or
15 Snail Mail. Sir, Snail Mail goes pretty dang
16 fast compared to the Legislature and the postal
17 service is very secure.

18 As far as voting, I would like for
19 everyone to consider that vote by mail would
20 reduce the cost of a lot of -- the cost
21 incurred by the Supervisors of Elections and it
22 would make it where even people that are in
23 these big huge areas, it would make it easier
24 for them to get their votes cast and counted.

25 The mail is secure, it is inexpensive,

1 hopefully we will still be around for years
2 more to come and deliver your ballots by mail.
3 Thank you for my opportunity --

4 CHAIRMAN GAETZ: Thank you, and you get
5 the prize for the best one liner of the night
6 so far. And you are right, maps are being
7 drawn, there is about a dozen of them on the
8 websites now. Thank you, Mr. Hoffer.

9 Kathy Kidder, also from the League of
10 Women Voters, followed by Laurie Newsom and
11 then Nicholas Wilson and Ron Gonzalez, if you
12 will be ready as well. Ms. Kidder, thank you
13 so much for being here.

14 MS. KIDDER: Thank you. I am here to say
15 on behalf of the League that voters are
16 ill-served by the timeline you have set for
17 redistricting. The Legislature plans to adopt
18 redistricting maps in March, at the end of the
19 legislative session.

20 That is too late. Potential candidates
21 won't know the boundaries of the new districts
22 in time to effectively campaign and voters will
23 hardly have a chance to get to know the
24 candidates before fall elections.

25 One could think that this whole process is

1 simply designed to protect incumbents. Is
2 there an alternative? Of course. Other states
3 are already well into redistricting. Some have
4 completed it. Florida needs to get moving.

5 It is not an easy process and it takes
6 time. You have repeatedly said that the
7 Constitution prevents you from acting on
8 redistricting until the 2012 legislative
9 session.

10 Let's be very clear. You can do
11 everything but vote on the final plans right
12 now and through this year. Why can't you
13 advance the time table so that the Legislature
14 votes on redistricting in early January, staff
15 and committees could be drawing maps right now
16 as the hearings continue.

17 Perhaps that is occurring. Maps can
18 certainly be prepared and released soon after
19 the final hearing on September 1st. That
20 allows four months for citizen input, committee
21 work and legislative study to discuss and
22 refine the proposals so the lawmakers can vote
23 on them in the very first week of the January
24 session.

25 An extra two months will allow for the

1 litigation that is certain to come and for
2 court and Justice Department review. I was
3 appalled as I listened to yesterday's hearing
4 to hear the suggestion that the Court speed up
5 their process rather than taking the full time
6 allotted for their review.

7 You have the power to speed up your
8 process. The League wholeheartedly supports
9 the Supervisors of Election who have been
10 appearing regularly at these hearings to tell
11 you that conducting effective fair elections
12 under this timeline is going to be problematic.

13 Adopting a realistic, a redistricting plan
14 in January is realistic, very possible, and
15 eliminates the difficulties that Supervisors,
16 voters and candidates will have under your
17 plan.

18 Why can't you revise the redistricting
19 timeline so that Legislators can approve the
20 plan in the first week of the 2012 session?
21 The League of Women Voters urges you to make
22 your redistricting plans available soon, to
23 solicit citizen input on these maps and to
24 advance the date for adopting new districts.

25 Thank you.

1 CHAIRMAN GAETZ: Thank you, Ms. Kidder.
2 And again, factually, just so you will know,
3 Ms. Kidder, there is nothing that prevents any
4 member of the Legislature from offering a map
5 today or from votes being taken as early as
6 January. So you are exactly right.

7 Next is Laurie Newsom and then Nicholas
8 Wilson, and then Bud -- I am sorry, Rod
9 Gonzalez. Ms. Newsom, thank you for being
10 here, and you are recognized.

11 MS. NEWSOM: Thank you, I am Laurie
12 Newsom. A proud member of the Alachua County
13 Republican Executive Committee, and as such
14 have been intensely involved in this whole
15 process.

16 I will be brief because Mr. Alex Patton
17 voiced one of my concerns, which is the
18 ambiguousness of the language of the two
19 amendments, and I hope that that is dealt with
20 fairly, because I am concerned that the
21 intention of the Amendments will be distorted
22 and actually cause possibly the opposite of
23 what the intent was meant to be.

24 I also can be brief because former Mayor
25 Jean Calderwood summed up my feelings

1 completely when it comes to the redistricting.
2 I am very concerned that the rural concerns
3 will be set aside and not attended to properly
4 in the redistricting process.

5 I am very concerned and interested in the
6 benefit of our rural areas, the citizens
7 involved and the lands involved. So I would
8 hope that this would be something that would be
9 taken with grave concern and great sincerity
10 when you do apply your expertise, and thank you
11 very much.

12 CHAIRMAN GAETZ: Thank you very much,
13 Ms. Newsom. And next is Nicholas Wilson and
14 then Rod Gonzalez, and then I am sorry, Manny,
15 it could be Lucoff, at 5000 Southwest 25th
16 Boulevard. Your -- would you please be on
17 deck. Nicholas Wilson, thank you for coming.

18 MR. WILSON: Good evening, I am Nicholas
19 Wilson, I was born and raised here in Alachua
20 County. I just want to thank all of you for
21 taking the time tonight and the time that you
22 have continued to take by coming out and
23 listening to your community members and their
24 concerns.

25 The website that you have designed for us

1 is very informative, and the tools are very
2 helpful in allowing us to understand the
3 process.

4 It is frustrating though to hear of those
5 who are trying to slow and hinder your efforts
6 through to the Amendments passed last year and
7 I hope that when it is time to draw the new
8 districts that logic and common sense are used
9 and all of those involved will help instead of
10 hinder and allow the redistricting to move
11 quickly and smoothly.

12 I also want to say that I agree with
13 Ms. Calderwood and Mr. Patton in what they
14 said. So I don't really have much more to add
15 there. Thank you very much.

16 CHAIRMAN GAETZ: Thank you, Mr. Wilson.
17 Rod Gonzalez, you are up, and followed by Mr.,
18 I think it is Lucoff, and then Kathleen
19 Shiverick, I believe. Mr. Gonzalez, thank you
20 for coming tonight.

21 MR. GONZALEZ: Mr. Chairman, Senators,
22 Representatives, my name is Rod Gonzalez. I
23 appreciate you all being here today.

24 Call me sinical, I guess, but politics
25 being what they are, I can only assume that

1 those who started this whole process marketed
2 Amendment V and VI to the public who voted for
3 it, have defended it in court and are defending
4 it currently, must have had an image, a map
5 already drawn out.

6 You don't spend millions of dollars trying
7 to push this without already having something
8 in mind and kind of already knowing what the
9 outcome would be if you get it.

10 I mean, remember, this is politics,
11 nothing is left to chance. So I would only ask
12 that they already share those maps with the
13 public and with the committee.

14 These Amendments potentially mean a large
15 change to the state laws which are going to
16 cost us millions of dollars beyond what the
17 census would normally require we do every ten
18 years.

19 So I would ask that once again, those who
20 really were for this and pushed it initially
21 kind of perform a civic duty, save us time,
22 effort, money and litigation and share these
23 potential maps with us, the public and
24 yourself.

25 A lot of the individuals who are against

1 this are Democrats and Republicans, so
2 bipartisan. Thank you.

3 CHAIRMAN GAETZ: Thank you very much, sir.
4 And next is, is it Manny Lucoff? Mr. Lucoff,
5 thank you for your testimony tonight, and you
6 are recognized before the committee.

7 MR. LUCOFF: Thank you for coming. Thank
8 you for getting it right. When one goes into
9 public service and wants to pursue political
10 office, one wonders what is the reason behind
11 why you are there where you are sitting now.

12 Is it because you are primarily interested
13 in serving the general public, or is it because
14 you have other motives? I am a little sinical
15 about this, and because there is such a large
16 outpour of members of this Legislature who are
17 fighting the fair districting, one wonders what
18 your motives are, to protect your seat and not
19 serve the public.

20 I perceive this exercise as a kabuki
21 dance, that we could save a great deal of money
22 by doing away with this public relations effort
23 to tell the public we are going to listen to
24 you. What a joke.

25 If one follows the news, reads the papers,

1 listens to the people who are in public office,
2 there is not much doubt as to what it is you
3 are up to. The majority party would love to
4 kill fair districts.

5 They are interested in redistricting, not
6 fair districting. Thank you very much.

7 CHAIRMAN GAETZ: Thank you for your
8 testimony. Kathleen Shiverick, and after
9 Kathleen is Terry Martin-Back, and then Judy
10 Brumfield.

11 Ms. Shiverick, thank you for being here
12 tonight. We look forward to your comments.

13 MS. SHIVERICK: Yes, and thank you for
14 providing us with the opportunity to have
15 public input into this.

16 I have to confess, I was a little
17 skeptical coming here this evening, but
18 actually the statements for the bipartisan
19 impact of gerrymandering, it is really a
20 statement to the problems that we experience
21 locally here in Alachua County, and an
22 additional statement, the bipartisan letter
23 from Marion County.

24 There is no doubt that the redistricting
25 which took place ten years ago instituted in

1 Alachua County significant gerrymandering.

2 There are little slices of Gainesville
3 that go westward into very large multiple
4 county, very rural area, and it dilutes, it
5 dilutes out the voice of the cities within
6 Alachua County, as well as the University of
7 Florida which is a major economic enterprise.

8 So we would ask you to please consider
9 providing maps as soon as possible so that the
10 legal process that will need to take place next
11 spring will be done in a timely manner so that
12 fair elections can then take place in the 2012
13 election cycle. Thank you very much.

14 CHAIRMAN GAETZ: Thank you so much for
15 your testimony. Terry Martin-Back and then
16 Judy Brumfield, and then Tamara Fleischaker, I
17 believe, and I apologize if I have
18 mispronounced that name.

19 MS. MARTIN-BACK: Thank you, Mr. Chair,
20 and Representatives here. Unlike some of the
21 folks here, I actually went on and did some
22 homework looking at the districts, and I was
23 trying to give an idea or an example of how we
24 could draw, especially Congressional District 6
25 where we can combine Marion County, Alachua

1 County and Columbia County.

2 But one thing I did notice is, is that
3 Marion County is in the central Florida
4 district, and Alachua County is in the north
5 central Florida district.

6 I would like to see a plan where we can
7 conceive to have the people of Alachua County,
8 Columbia County and the counties that
9 represented in that north central Florida
10 district. That way when we want to see our
11 Representative, we don't have to drive to
12 Orlando or we don't have to drive to
13 Jacksonville.

14 I also would like to, I beg you to please,
15 do not, do not create districts like Florida's
16 Third Congressional District. How can you
17 possibly conceive that somebody on the north
18 side of 16th Avenue has something different
19 from the guy across the street on 16th Avenue.

20 Please, I am asking you to do this, please
21 keep in mind the representation of those in
22 Union County who only have like 17,000 people,
23 keep them in consideration, and thank you for
24 being here tonight.

25 CHAIRMAN GAETZ: Thank you, very useful

1 testimony. Judy Brumfield and then Tamara
2 Fleischhaker, I think and then Delena May.
3 Ms. Brumfield, thank you for being here for
4 your testimony.

5 MS. BRUMFIELD: Thank you very much. Judy
6 Brumfield. Most of my comments have already
7 been addressed. I just want to say that these
8 Amendments, V and VI, the redistricting have,
9 is all very confusing and I just hope that you
10 people are not confused by it, and that the new
11 districts that you are drawing are not in favor
12 or disfavor of incumbents.

13 That this is not in favor of one political
14 party or another political party, and we just
15 want our tax dollars saved. We don't want you
16 to spend more money.

17 We are tired of game playing. We see it
18 enough at the local level. So please don't do
19 this to us anymore. Thank you very much.

20 CHAIRMAN GAETZ: Thank you for your
21 comments. And Tamara, is it Tamara or Tamara?
22 And please help me with the last name. I
23 apologize.

24 MS. FLEISCHHAKER: It is Tamara
25 Fleischhaker.

1 CHAIRMAN GAETZ: Tamara, I am sorry.

2 MS. FLEISCHHAKER: Thank you, it was a
3 valiant effort. Good evening, and on behalf of
4 the Ocala, Marion County Chamber of Commerce,
5 our Board of Directors and members, I would
6 like to thank you for the opportunity to speak
7 with you this evening and present a resolution,
8 and given the time and the number of speakers I
9 am just going to present a few highlights from
10 a resolution that we have submitted to the
11 Joint Committees.

12 And under our redistricting resolution,
13 whereas, the Marion County, it is five
14 municipalities, is deemed a community of
15 interest and under the current district
16 boundaries, legislative representation at both
17 the State and Federal levels is fractured and
18 fragmented, and Marion County has experienced
19 exponential growth within the past ten years,
20 and is expected to experience additional growth
21 of nine percent over the next decade.

22 And given that, we are the fourth largest
23 county in the state of Florida, and given the
24 diversity of our economic base, coupled with
25 our strategic location in the heart of north

1 central Florida, we resolve that Marion County
2 has a significant community of interest, should
3 be maintained in a single district where
4 possible.

5 S unified legislative voice is crucial to
6 the future prosperity of Marion County, to
7 compliment the healthy business, legislative
8 voice, sorry, business environment and economy
9 as well as contribute to the quality of life
10 for all of its citizens.

11 Where possible, easily and identifiable
12 compact, contiguous geographic boundaries
13 should be followed, recognizing the districts
14 must be configured so that they are relatively
15 equal in total population according to the
16 latest census data and applicable statutory
17 guidelines.

18 Again, I would like to thank our Marion
19 County legislative delegation and the other
20 representation here from the Joint Committees
21 and I thank you for your time.

22 CHAIRMAN GAETZ: Thank you for that very
23 specific guidance. Delana May, please,
24 followed by Thomas Hayes- Morrison and then Bea
25 Byrum.

1 MS. MAY: Hi, there. I have been here for
2 55 years, mostly in this area, and I am here
3 today to speak on behalf of my five
4 grandchildren who were all born in Florida, all
5 live in Gainesville, and that is why I am not
6 in the south of France right now.

7 I am too worried about my state and my
8 government to leave the country and that is why
9 I am working so hard to make this place a
10 better Florida and a better country.

11 I have five grandchildren and that is,
12 that is the purpose. I want to thank you all
13 for taking the giant step of coming here
14 tonight. Everybody that gives it some thought
15 knows that you didn't have to.

16 A lot of people don't go to their town
17 meetings. They, we see this all over the
18 country. The things that go on in Washington
19 that we are just appalled by and when they go
20 home on break, nobody can find them. That is
21 not the case in Florida.

22 You have all taken a giant step forward
23 and I think that a lot of cooperation and a lot
24 of toning it down would be in order.

25 Again, the -- my only message to you is to

1 say, thank you for coming. We know you didn't
2 have to. This was a giant step and we
3 appreciate it, and I appreciate it for my five
4 grandchildren because they are probably not
5 going to leave Florida.

6 CHAIRMAN GAETZ: Thank you, we hope they
7 won't. We appreciate it. Thomas
8 Hayes-Morrison, and then Bea Byrum and then
9 Drollene Brown.

10 Mr. Hayes-Morrison, thank you for coming
11 tonight, we look forward to what you have to
12 say.

13 MR. HAYES-MORRISON: Thank you, my name is
14 Thomas Hayes-Morrison, and I would like to
15 thank you all for coming and giving us an
16 opportunity to voice our opinions.

17 And I have to share with you, I was a
18 registered Democrat in Alachua County for 19
19 and-a-half years, but I shifted my party
20 affiliation in May.

21 So I realize I may show the enthusiasm of
22 the newly converted, and if I do so, please
23 bear with me.

24 My sense is most people don't choose who
25 they vote for based solely on party

1 affiliation. We actually do choose our elected
2 officials based on what we think they as
3 individuals stand for, and we vote for
4 individual candidates, not just party, and as a
5 nation we voted that way for 235 years.

6 Unfortunately, that history looks as if it
7 is being ignored and the freedom and openness
8 of choice, that is how our electoral
9 foundation will be severely restricted, if not
10 entirely eliminated in Florida.

11 Amendments V and VI can be read in such a
12 manner as to promulgate arbitrary and
13 unfulfillable restrictions that essentially
14 handicap severely any effort towards fair
15 districting.

16 One of the most often Democrat affiliated
17 groups who support Amendments V and VI,
18 including many large ones from outside of
19 Florida, talking about leveling the playing
20 field, they are conceding their failure to
21 convince our voters that their proposed
22 policies are best for the people of our towns,
23 cities, counties and state as a whole.

24 They claim it is not their fault they
25 can't gain a majority, there must be something

1 inherently crooked about the current districts.
2 They say this must be so because the majority
3 of Florida voters are registered as Democrats.

4 This ignores the fact that the vast
5 majority of Florida's voters consistently poll
6 as well as vote as conservatives. Democratic
7 registration is simply an administrative
8 convenience for most and their party
9 memberships nominal at best.

10 I remind you that President Obama won 20
11 out of 40 State Senate Districts in Florida and
12 half the state in popular vote. It doesn't
13 sound crooked to me. Rather, it displays,
14 rather the efficacy of having a clear and
15 appealing message.

16 Republicans don't hold the seats they
17 don't because things aren't fair or the playing
18 field isn't level. The Democrat message simply
19 doesn't generally ring true with many of our
20 voters.

21 So rather than develop viable policies
22 that appeal to the majority, they are taking a
23 shot at developing a partisan quota system set
24 by the courts disguised in a sound good, feel
25 good package --

1 CHAIRMAN GAETZ: Mr. Hayes-Morrison, just
2 in fairness to everybody behind you, could you
3 bring it in for a landing?

4 MR. MORRISON: Absolutely.

5 CHAIRMAN GAETZ: Okay.

6 MR. HAYES-MORRISON: Actually, I think I
7 am at a minute and 55 seconds, but okay, we
8 will do it. Here is the landing, all right,
9 they are taking a shot at developing a partisan
10 quota system set by the courts, disguised in a
11 sound good feel good package, sold by millions
12 of dollars of false advertising to fair
13 districts.

14 I just urge the committee to follow the
15 rule of law. Thanks for letting me voice my
16 opinion.

17 CHAIRMAN GAETZ: Yes, sir, thank you very
18 much. Bea Byrum and then Drollene Brown and
19 then Hugh Calderwood. Thank you for coming.

20 MS. BROWN: Bea Byrum had to leave for a
21 few moments and I wonder if you could put her
22 card underneath the others. I am Drollene
23 Brown, I am the next person.

24 CHAIRMAN GAETZ: Thank you.

25 MS. BROWN: I campaigned for the Fair

1 District Amendment, not because it was very
2 clear. I as an editor I can tell you that any
3 phrase that says may or may not is redundant.
4 May implies may not.

5 So we can quibble about the wording, but
6 58 years ago I was in the eighth grade and I
7 had to take Civics in St. Auburns, West
8 Virginia, and Mr. Jones, our Civics teacher,
9 told us about gerrymandering, and as a
10 13-year-old I thought, this is really dumb, and
11 that is why I campaigned for the Fair District
12 Amendments.

13 I told every -- I would go to Walmart and
14 I would tell the clerk, vote yes on V and VI.
15 I told my ophthalmologist, vote yes on V and
16 VI, everywhere I went, I did, in my small way,
17 making people aware that we want fair
18 districts, and I think you understand what that
19 means.

20 You know that if you draw something that
21 looks like a dragon down the middle of the map
22 that is not right. We just want fairness. It
23 is not Democratic, it is not Republican, it is
24 non partisan, let's be fair. Thank you.

25 CHAIRMAN GAETZ: Thank you very much.

1 Hugh Calderwood is next, and following Hugh
2 Calderwood, Theonia Sunquist, and then if David
3 Nessler will be ready to come behind Theonia
4 Sunquist.

5 So mr. Calderwood, we are really grateful
6 that you took the time to come tonight, and you
7 are recognized.

8 MR. CALDERWOOD: Thank you very much. I
9 want to thank all of you for coming. I really
10 actually want to thank that you put our local
11 Representatives up front so that I can see some
12 friends of mine.

13 And I also again, as we get into this, we
14 are getting into more repeating, repeating,
15 repeating, and I also want to repeat, I don't
16 envy you, your job, and I apologize if you were
17 insulted by somebody up here as to what your
18 motives are for running for public office. I
19 am sure Representative Chestnut did not
20 appreciate that.

21 And again, people who know me, I always
22 hate to follow my wife because she is much more
23 articulate than I am, and then I always just
24 feel crazy.

25 CHAIRMAN GAETZ: You are not alone, you

1 are not the only guy.

2 MR. CALDERWOOD: And I do want to echo her
3 feelings about the rural, the people who are,
4 in this county is a perfect example of that we
5 have a large urban center, primarily Democratic
6 and then we have what we call around here, the
7 donut, the rest of the county around that, and
8 then there is always this argument going on
9 between the donut and the center.

10 And as an example, we recently had a
11 Charter Review Committee and there were those
12 of us who wanted to have single member
13 districts voting in the county for the -- for
14 elected offices, but, no, they didn't want
15 that, they wanted everybody to vote on
16 everybody.

17 So that we in the small towns didn't
18 really get a chance to have a Representative
19 that represented our interests versus the urban
20 interests. So I would encourage you to keep
21 that in mind.

22 I certainly don't like gerrymandering like
23 some of the districts and some of them are
24 Democratic and some of them are Republic, but I
25 don't like to see that, but I would like to see

1 interests put in protecting the rural voters.

2 We also see that in the state where we
3 have high populations in South Florida and we
4 in north Florida feel like we are not, we don't
5 have the power to really voice our concerns
6 when we are fighting the big population centers
7 in south Florida. So keep all of that in mind.
8 Thank you.

9 CHAIRMAN GAETZ: Thank you very much, sir.
10 Theonia Sunquist is next. Theonia Sunquist
11 going once, twice, Ms. Sunquist?

12 Then David Nessler, and following Mr. Nessler,
13 Jim Beniz, I believe it is, and then Paul Lux.
14 Thank you for coming today.

15 MR. NESSLER: Thank you, Mr. Chairman. I am
16 not here today as a Democrat or a Republican.
17 I kind of look back, you know, through my life
18 and I remember when the Democrats were in power
19 in this state and I remember the pork choppers
20 and they, then they made sure that they, to the
21 best of their ability, they could stay in power
22 and they did some gerrymandering, and then for
23 the last few, and that was wrong, and for the
24 last few decades we have had the Republicans,
25 and they have, your predecessors, I am not

1 going to blame you, did some gerrymandering and
2 that was wrong.

3 And as we teach our kids, two wrongs don't
4 make a right, we need to fix it. So the way it
5 looks to me is the adults decided to step up
6 and step in with the Fair Districts Amendment.

7 I also note that other states, they have
8 taken this exact same, many other states have
9 taken this exact same verbiage in these
10 Amendments and it has all passed Federal Court
11 system muster and so I am kind of confused
12 about why efforts are being made in the Federal
13 Courts to block this when it is already passed.

14 So it seems like it is kind of a futile
15 effort. I got to wonder if that is the reason
16 for that is just to run out the clock before
17 the next two-year election cycle.

18 So I would really ask you ladies and
19 gentlemen to be, is to step up and be
20 statesmen.

21 It is, you know, this is the way it is
22 going to play out. We already know that from
23 other states and other Federal Court approvals
24 of that. So step up, it is now part of the
25 Constitution, our State Constitution. So apply

1 both the spirit and the letter of the law.

2 Thank you.

3 CHAIRMAN GAETZ: Thank you very much,
4 Mr. Nessler. And again, Mr. Nessler, just so we
5 can do a little fact checking, just so you
6 would be aware of it, the -- it was the Florida
7 House of Representatives and the Florida
8 Senate, these committees that filed Amendments
9 V and VI for pre-clearance.

10 We asked the Justice Department to
11 pre-clear them and they agreed with our
12 recommendation and our appeal that they be
13 pre-cleared, so thank you very much.

14 Jim Beniz, you are next, and then Paul Lux
15 and then William Boyette.

16 MR. BENIZ: Hello. Thank you
17 Representatives and Senators for coming here
18 tonight and listening to us. I have lived all
19 my life in the state of Florida, part of in
20 Hillsborough County, the last 25 years here in
21 Alachua County.

22 But regardless of the county you live in,
23 we all love this state and we want to be
24 represented fairly. We are tired of the --
25 some of the ridiculous districts that have been

1 drawn in this state.

2 I would, regardless of party affiliation I
3 would like to see fair districts. I would like
4 to see everybody represented properly. I can't
5 add a lot to what people have said tonight.

6 Mr. Patton, Ms. Calderwood have pretty
7 well summed everything up that I had to say,
8 but we would ask that the political games cease
9 and we get down to the business of what the
10 people need and want in this country, in this
11 state.

12 We all love Florida and we want to see
13 what is best, we want to hear you do what is
14 best for Florida. I think this Amendment is
15 ambiguous in its wording.

16 I think you were given a moving target to
17 shoot at and maybe you will come up with
18 something that the originators of the Amendment
19 intended. It would have been nice to see
20 something of a sort of a map of what they
21 thought that they were going for when they --
22 when they went after this Amendment, but we
23 just want you to do the right thing for the
24 people of Florida, and that is all I have got
25 to say. Thank you.

1 CHAIRMAN GAETZ: Thank you very much.
2 Appreciate your testimony. And Paul Lux,
3 Supervisor of Elections from Okaloosa County,
4 my home county, came all of the way to Alachua
5 County to see me. How are you doing, Paul?

6 MR. LUX: Good evening, and thank you,
7 Mr. Chairman, Senators, Representatives, and
8 most notably, my two Senators, Senator Gaetz,
9 Senator Evers and my personal Representative,
10 Brad Drake from House District 5, and thank you
11 for having us here today.

12 Every bit as important as the time is
13 tonight so that everyone has a chance to speak,
14 I am just here to re-emphasize that time is
15 important to the Supervisors of Elections also.

16 The second speaker from the League of
17 Women Voters alluded to the fact that our time
18 crunch is very specific. If all of the
19 timelines that have been published go according
20 to schedule, we will have less than two weeks
21 to re-precinct.

22 Now, that means, our work can't start
23 until not only your work is done, but also the
24 work of the Department of Justice, the work of
25 the Court systems and their review and then we

1 can start. That gives us less than two weeks
2 to re-precinct.

3 Now, in addition to everything else that
4 we have to do, candidate qualifying which is
5 that very first week of June, is very important
6 because most candidates probably would like to
7 know what district they are running in by the
8 time they get around to running.

9 But much more important to me is the fact
10 that 21 days after qualifying closes, I have to
11 mail ballots to my overseas military voters.
12 Federal law requires that they get them 45 days
13 prior, and that is 21 days after qualifying
14 ends.

15 And so all of the work that has to be done
16 in between time and if some of the timelines
17 aren't met, then my re-precincting is going to
18 get pushed back after a candidate qualifying.

19 So again, I would just like to
20 re-emphasize the need for the timeliness of
21 this and that we get it done quickly so that we
22 can begin our work to make sure that Florida's
23 elections are run fairly and efficiently.

24 The other thing I would like to mention is
25 district lines, themselves. I know Mr. Boyetx,

1 who is the Chief Deputy here in Alachua County,
2 Supervisor of Elections and my counterpart, the
3 Honorable Pam Carpenter will be speaking
4 momentarily, but if you have been to Pelican
5 Beach Condominiums down on south Okaloosa
6 County, if you live in the condominiums to the
7 west, you are in Congressional District 1. If
8 you are on the wrong side of the entryway and
9 you live in the condominiums to the east, you
10 are in Congressional District 2, and heaven
11 forbid, you live on the west side of the Rocky
12 Bayou Bridge, those three streets there that
13 are just a little tiny enclave of Congressional
14 District2, not even all of the houses on that
15 little peninsula.

16 So just bear those thoughts in mind as you
17 go forward and thank you again for your time.

18 CHAIRMAN GAETZ: Sure, thank you, Paul. I
19 am in one of those three streets, as you know,
20 I am in that little nipple of Congressional
21 District 2, and you are exactly right, that if
22 everyone takes all of the time that they are
23 allotted, then there would only be two weeks
24 left in the process. Let's hope that everyone
25 doesn't take all of the time that they are

1 allotted, but that they do their job
2 thoroughly, but that they do their job as soon
3 as they can. Thanks, Paul.

4 MR. LUX: And the good news is it doesn't
5 look like there are any drunken monkeys up
6 there. So I know that is who they accused of
7 drawing the lines last time and I don't see any
8 up there, so very good, very good positive
9 direction.

10 CHAIRMAN GAETZ: You get the prize for the
11 second best line of the night. William Boyetx,
12 Mr. Boyetx, and you will be followed by Terry
13 Fleming and then Dave Danvers and then Pam
14 Carpenter.

15 MR. BOYETX: Thank you, Mr. Chair. As the
16 Honorable Paul Lux mentioned, I am the Chief
17 Deputy Supervisor of Elections here in Alachua
18 County. I brought some maps with me this
19 evening and I would love to leave them with
20 Mr. Guthrie or another Representative of your
21 staff. I am not sure if I have enough for all
22 of you, but I definitely have plenty to pass
23 around.

24 I would like to start with a little
25 southwest corner of Alachua County, the area

1 around the City of Archer.

2 I have got this color coded by the
3 different State House Districts, and I doubt
4 you can even see it from how close you are to
5 me, but if you look, there is this tiny bit of
6 green, State House 22, blipped off from the
7 rest of the green.

8 That is where the State House District
9 cuts one cul-de-sac inside the city limits of
10 Archer off from the rest of the City of Archer,
11 putting about four houses in a different House
12 District than the rest of the city.

13 And then we got a little V up here that
14 cuts in and takes a couple dozen voters on the
15 north edge of the city and puts them a third
16 State House District. So we have a
17 municipality with about 600 voters represented
18 by three of our Representatives on the podium
19 here this evening.

20 I am sure that they are well represented,
21 but I think they might prefer to have their
22 voice unified together.

23 Now, you will notice, the majority color
24 is the red of State House 10. If we look at
25 the county, you will see there is no further of

1 that red anywhere in the entire rest of our
2 county.

3 And no disrespect to the job that I am
4 sure that Representative Bembry does to his
5 constituents, but we would be thrilled if he
6 was not representing our county.

7 That small piece which represents less
8 than 1,000 voters in our county adds just as
9 much of a logistical overhead to every election
10 we prepare as Representative Chestnut's portion
11 of our county, and that is a burden on our
12 county every election that we prepare.

13 In a primary election, I have to prepare
14 as many as six different ballot styles for that
15 little area, the same number of ballot styles I
16 prepare for this area, and that is an amount of
17 proof reading, an amount of preparation time,
18 programming, equipment preparation, and that
19 just adds up.

20 And drawing back from those points, as
21 several other speakers have mentioned this
22 evening, the State Constitution of Florida puts
23 the Administration of Elections as a county
24 level office.

25 For that reason we feel it would be great

1 if the county limits could be the first
2 priority when drawing district lines, as that
3 would coincide with the administration of the
4 elections.

5 While the districts look great, this is
6 what we look at when we are administering it.
7 We don't see where the rest of these districts
8 go. We see it at this level in each county as
9 we prepare our elections.

10 If a county must be split, which in many
11 cases is unavoidable, then we would ask that
12 the next level down be respecting the
13 communities of interest in the municipal city
14 limits as I showed with my little demonstration
15 there on Archer, and when a city is too big to
16 be in one district, we ask if you could please
17 restrict to major arteries that are easy for us
18 to explain to the public, when they are trying
19 to ascertain their Representative.

20 If we look here, we are on the map, it is
21 pretty easy to see the interface between
22 Districts 22 and 23, but 34th Street runs right
23 here, and if I were to start at the south end
24 of Gainesville and drive north, at the
25 beginning I would be in State House 22. A

1 little bit further north to my west I would be
2 in State House 23. To my east, in 22, a little
3 bit further north, both sides I am in 23. A
4 little further north to my west, I am in 23, to
5 my east I am in 22. A little further north, to
6 both sides I am in 22. A little further north
7 to my east I am in 23. To my west I am in 22,
8 and a little further north I am back in 23 on
9 both sides.

10 CHAIRMAN GAETZ: I think we get the joke.

11 MR. BOYETX: So while looking at the map,
12 you know, a bird's eye view, it doesn't look
13 that bad. When we are communicating with our
14 public and trying to help them understand their
15 Representatives, it can very complicated very
16 fast, and I don't think that that serves our
17 public that you are elected to serve, my boss
18 is elected to serve and that I have chosen to
19 be in a field to serve the best possible.

20 CHAIRMAN GAETZ: Thank you very much for
21 your testimony, and could you make sure that
22 you leave the maps that you have for one of our
23 staff members?

24 This is exactly the kind of precision
25 testimony that we need, to see exactly where we

1 need to make changes.

2 And next, please, Terry Fleming and
3 following Mr. Fleming, then Dave Danvers, then
4 Pam Carpenter.

5 MR. FLEMING: Good evening, my name is
6 Terry Fleming. Thank you for the opportunity
7 to speak. Thank you for being here. You know,
8 a Supreme Court Justice famously observed that
9 I may not be able to define pornography but I
10 know it when I see it.

11 There is a lot in common with pornography
12 with this districting process, starting with
13 the fact that is so obscene. I appreciate the
14 presentation that was just provided because it
15 really made that point, how obscene the process
16 can be, the results can be.

17 I do ask you to consider all of the
18 requirements of the Fair District Amendments,
19 compact, contiguous, communities of interest
20 and I fully support the efforts of the fair
21 districts folks to make this a bipartisan
22 effort.

23 Certainly, as has been observed up here
24 this evening, both parties are guilty of that.
25 We see the results in the maps that we have

1 seen tonight and have been shown out in the
2 lobby.

3 Please, take those things into
4 consideration, communities of interest,
5 contiguous, compact geographical boundaries and
6 please draw districts that fairly represent the
7 communities in this state.

8 CHAIRMAN GAETZ: Thank you, Mr. Fleming,
9 and just one fact check, communities of
10 interest have been mentioned by a number of
11 folks tonight.

12 Communities of interest are not in
13 Amendments V and VI. There was an effort made
14 by a group to actually include communities of
15 interest as a criterion for drawing districts,
16 and that was struck down by the Florida Supreme
17 Court. So communities of interest are not part
18 of Amendments V and VI, but thank you.

19 Mr. Danvers, and then Pam Carpenter and
20 then Martin Luther King, III.

21 MR. DANVERS: I would like to thank all of
22 you for coming. I want to, I have read a lot
23 on the website, and I am a bit confused because
24 a lot of this is all weighted towards outside
25 interests suggesting how we do this thing.

1 In the explanation of the two Amendments,
2 the Fair Amendments, they are talking about,
3 you do this, and if we don't like it we will go
4 to court.

5 And my main reason for standing here, I
6 would like to see the people and their elected
7 representatives accomplish this redistricting
8 and not the courts. We have spent enough
9 money.

10 No offense, lawyers, but I think we can
11 get this done, but I would like some of the
12 people who backed the Amendments, spent all of
13 that money and time to step forward and help
14 your Representatives get this accomplished.
15 There is all I have to say.

16 CHAIRMAN GAETZ: Thank you very much, sir.
17 And next, Pam Carpenter, who is the Alachua
18 County Supervisor of Elections. Thank you for
19 your service, ma'am, we look forward to your
20 testimony.

21 MS. CARPENTER: Thank you. Good evening,
22 and welcome to Alachua County. My staff member
23 has made a presentation before me, and he is my
24 detail man. I would like to cover some more
25 general things with you.

1 Your legislative staff has worked with the
2 election officials and the census officials to
3 establish what we have called voting tabulation
4 districts, VTDs, which take into consideration
5 intact communities, traffic patterns and
6 physical barriers.

7 Please adhere to these lines when you are
8 redistricting and redrawing your maps. A lot
9 of work has gone into them on the part of the
10 Supervisors of Elections and the Census
11 representatives.

12 The best place to draw a district line is
13 along a county line, if it is at all possible
14 and we ask that you divide our districts along
15 county lines whenever that is available to you.

16 While there is much attention to Florida's
17 meandering districts there are many more
18 examples of our small cities being separated
19 into three or four districts, as Will had shown
20 you the examples previously.

21 Some of them running right through the
22 middle of the condominiums, as Paul mentioned.
23 The best way to avoid this, again, is to follow
24 the PTD lines whenever possible.

25 I want to reiterate the need for this

1 process to be completed in a timely manner. We
2 are up a -- we are up against some really hard
3 deadlines. We have to get those ballots out 45
4 days prior to the election. We have to have
5 time to notify all of the voters of the change
6 in their districts and precinct and by law that
7 means mailing them a new card, and we have to
8 have time to do that.

9 We have to have time to allow our voters
10 to become familiar with the districts that they
11 are going to be in and the candidates running
12 from those districts. So please, move this
13 process along as quickly as you can and vote on
14 it as quickly as you can.

15 One of the other things is just a
16 reminder. We as elected officials may have
17 been elected by a majority of our voters, but
18 once elected, we represent all of our citizens,
19 and we all need to remember that.

20 It is not a partisan thing. It is a
21 citizen thing. Thank you.

22 CHAIRMAN GAETZ: Thank you very much,
23 Ms. Carpenter, and now Martin Luther King, III,
24 following Mr. King, Marcel Verrando, and then
25 Shelia Paige. Mr. King, you are recognized.

1 MR. KING: Thank you, Mr. Chairman,
2 Mr. Chairman, and members of the committee. I
3 am certainly honored to participate in this
4 hearing this evening.

5 Very briefly and quickly, obviously I am
6 not a citizen of the state of Florida, but my
7 father led or was one of the leaders of the
8 modern Civil Rights Movement as well as he and
9 a team of many leaders worked to create the
10 climate so that the 1965 Voting Rights Act
11 would be passed in our nation which has been
12 extended over and over again by the United
13 States Congress.

14 He often said that injustice anywhere is a
15 threat to justice everywhere. Certainly I feel
16 this applies with special urgency to my
17 neighboring state of Florida, where there
18 appears to be a multi prong effort to dilute
19 voting power of people of color, poor people,
20 and reduce the number of African-Americans and
21 Latino elected officials.

22 I am referring specifically to several
23 measures. One of these would be shortening the
24 early voting periods from 15 to seven days.
25 Another measure forces voters to cast

1 provisional ballots instead of allowing them --

2 CHAIRMAN GAETZ: Mr. King, I am delighted
3 to hear your views on those matters, but in
4 deference and respect to those behind you,
5 could you keep your comments to redistricting
6 and I would be happy to meet with you
7 afterwards on the other matters.

8 MR. KING: Okay. Let me -- let me quickly
9 get to the issue of redistricting which very
10 simply, I know most importantly folks have
11 talked about the fair district Florida issue.

12 Obviously, redistricting is important to
13 all of us and certainly in this state and
14 really everyone across our nation, every year
15 we all want to make sure that all elected
16 officials who represent each and every one of
17 us can be elected fairly.

18 So the legislation sounds good, but I
19 think there are concerns about it. My
20 particular concern is that we ensure in this
21 state and in our nation that African-Americans,
22 Latinos and poor folk can be elected to office.

23 That is the only major issue of concern
24 that I have. So as you draw your districts,
25 and as you have done all of these years, you as

1 legislative members, I hope and pray that the
2 fair scenario really is fair for all
3 Floridians. Thank you.

4 CHAIRMAN GAETZ: Thank you very much,
5 Mr. King. Thank you for coming from Atlanta.
6 Marcel Verrando and then Shelia Paige and then
7 and then Khalil Quinan, I believe, from Santa
8 Fe College. Mr. Verrando, did I get your name
9 correctly, sir?

10 MR. VERRANDO: Yes, sir, you did.

11 CHAIRMAN GAETZ: You are recognized, and
12 we look forward to your comments.

13 MR. VERRANDO: Ladies and gentlemen of the
14 Legislature, my name is Butch Verrando, I am a
15 Director of Tea Party Solutions in Marion
16 County.

17 We have a membership of roughly 1,800
18 people that are Democrats, Republicans,
19 Libertarians, and a number of other parties.
20 We are a totally non partisan group.

21 I have been asked to come up here to speak
22 as one voice for many, and our quest is to
23 simply ask that Marion County be treated as a
24 single entity.

25 Currently our county is cut up into

1 pieces, much like a butcher's map, and we as a
2 group just ask you to treat us fairly and treat
3 us as one unit. Thank you.

4 CHAIRMAN GAETZ: Thank you very much, sir.
5 Next, Shelia Paige, Ms. Paige, are you here?
6 Shelia Paige? Going once, twice? Three times.
7 Then it, and I apologize, Khalil Quinan from
8 Santa Fe College, and then Karen Paige and then
9 Marihelen Wheeler, I think it is, and I
10 apologize if I have messed that name up.
11 Mr. Quinan, thank you for being here.

12 MR. QUINAN: You actually got my name
13 right, Mr. Chair.

14 CHAIRMAN GAETZ: Wonderful. That is one
15 out of 350.

16 MR. QUINAN: Yes, sir, probably in the
17 United States. First I would thank everyone
18 here. I would like to specifically really
19 quickly thank Senator Oelrich and
20 Representative Chestnut for our transportation
21 Bill that we recently got passed. It has been
22 something that I have done here since I started
23 in Santa Fe College. I am the Senate President
24 Pro Tempore of Student Government, and so as a
25 fellow elected official I would like to thank

1 you for that.

2 Now, touching on redistricting, one thing
3 that I make important with my job here, it is
4 in government is the letter of the law. We
5 have our Constitution, we have our laws, we
6 have our statutes.

7 We have the way that we do things outlined
8 much like you guys do as well, and with that I
9 would like to request that you guys follow
10 Amendments V and VI and I know that you guys
11 recommended it as well, and it is just as
12 important, because it makes sense.

13 I mean, there is a lots of things that
14 have been said about the tricky wording, but
15 there is not a may or may not. It simply says,
16 and maybe it is because I want to be a lawyer
17 one day, but it simply says that you can't
18 favor or not favor somebody.

19 It is just, you can't have a situation
20 where somebody will be elected just because of
21 where they are, and being somebody who wishes
22 to be a lawyer, I wish to be a lawyer because I
23 have a strong foundation of justice.

24 I have that strong desire for justice. I
25 did the Lincoln/Douglas debate in high school,

1 and the criterion was always justice.

2 And so the ultimate point is that, it is
3 to do the right thing. I am not -- I was not
4 born in the United States. I migrated to the
5 United States, and it is, this has been my
6 adopted home because of this overwhelming sense
7 of justice and righteousness in our country,
8 and I say with grade pride, our country,
9 because I feel like I am part of this melting
10 pot.

11 And with such I request that you guys
12 please stick to Amendments V and VI, please get
13 maps out early for us to be able to criticize
14 and scrutinize.

15 As an official I write Bills as well for
16 our Senate and people criticize and scrutinize
17 and find my errors, so I request the same of
18 you. Thank you.

19 CHAIRMAN GAETZ: Thank you very much for
20 your time for being here. Next we have Karen
21 Paige. Karen Paige? And following Karen
22 Paige, it is Marihelen Wheeler, Marihelen
23 Wheeler. I got it right.

24 Ms. Paige, thank you for being here
25 tonight. You are recognized.

1 MS. PAIGE: I am Karen Paige. I have
2 lived Gainesville 1955. I first became aware
3 of gerrymandering when I was in junior high
4 school and high school, I really wasn't
5 interested in politics or news much before
6 then, and I learned about the pork choppers and
7 who were Democrats and they were making
8 decisions and setting up political boundaries
9 so that they could get what they wanted and
10 their political contributors wanted.

11 And now we have the, our recent
12 Legislatures have done the same thing for the
13 Republican party. Regardless of whether it is
14 Democrats or Republicans, that is not fair, it
15 is not representative, it is not democracy.

16 I am totally flummoxed by people who say
17 they don't understand Fair District Amendments
18 V and VI. To me I graduated from the
19 University of Florida, also, they are very
20 simple to understand.

21 We want everyone's vote to be counted
22 equally and fairly. We want to not have our
23 districts cherry picked so that certain people
24 or certain parties will be elected regardless
25 of whether it is Democrats or Republicans.

1 The idea of fair is a very simple idea.
2 The -- this whole idea that the people
3 supporting fair districts already have maps in
4 mind, that is so untrue.

5 We want to have impartial committees,
6 impartial people look at all of the needs and
7 the outlines and what will be fair districts.
8 Then we want Legislators that will maybe become
9 again statesmen rather than politicians.

10 CHAIRMAN GAETZ: Thank you very much, Ms.
11 Paige. Marihelen Wheeler, followed by Jay
12 Shannon, with the University of Florida College
13 Democrats, and then Eric Brown with the
14 University of Florida College Democrats.

15 Marihelen, thank you for being here.

16 MS. WHEELER: Thank you. I put down on
17 there that I was a citizen. I didn't represent
18 anybody because I was afraid if I put veteran
19 teacher down there that I wouldn't get a chance
20 to speak.

21 CHAIRMAN GAETZ: No, no, citizen, citizen
22 is the, citizen is the highest post in this
23 republic.

24 MS. WHEELER: Show I chose well. I have
25 some concerns that I want to express first and

1 then I will go to a recommendation that I have
2 that maybe will make this go a little faster,
3 because --

4 CHAIRMAN GAETZ: Please.

5 MS. WHEELER -- my concern is speed as
6 well, that we get there done. Being a teacher
7 I am a little skeptical of the public forum,
8 and I must say it is because when the House and
9 Senate Bills came up legislating my profession
10 that we had -- that we were told that there was
11 teacher input to the process, and when I went
12 with the FEA group to Tallahassee we found out
13 that, yes, indeed, there was teacher input, but
14 none of the recommendations were accepted.

15 So this makes me a little skeptical about
16 a forum here with no maps and I am an art
17 teacher, so I am very visual. So having the
18 maps there or having the redrawing the census,
19 I would like to see where the demographics have
20 shifted around.

21 CHAIRMAN GAETZ: That is available, that
22 is available on the website. You can see all
23 of that.

24 MS. WHEELER: All right, good. So
25 according to what I, I watched the program on

1 Sunday about all of this, so I have a little
2 more information about representation for so
3 many thousand people, and I wanted to say 60 on
4 or 600, but anyway, I am an art teacher, not a
5 mathematician for sure.

6 Okay, but what I am concerned about, too,
7 is the timing on this, because it is an
8 election year, unfortunately, a national
9 election year, and Florida doesn't have a great
10 reputation when it comes to conspiracy theories
11 and things like that and elections, and I would
12 like to see this, which I know is a requirement
13 by law and it is something we have to do,
14 somehow interfere with that election and make
15 it controversial again.

16 Now, the recommendation that I have, the
17 recommendation that I have for maybe speeding
18 this up. I would really like to have seen what
19 our Senator Oelrich and our Representatives
20 could have maybe had a meeting with us first to
21 show us where those districts are and give us
22 their opinions about, you know, how it is
23 easier to manage or not manage.

24 Have some of us then also question those
25 things so that we had a better opportunity or

1 sounded more educated when we came here to say,
2 look, you know, this doesn't look right. You
3 see, as an art teacher, I think dragons look
4 really cool through the map, but, you know, for
5 -- I also taught in Levy County for ten years
6 before I came to Gainesville to teach another
7 20.

8 Yes, I am old, but the thing is, I know
9 there is a big difference in cattle farmers and
10 clammers and Town and Gown, so I would support
11 the fair districting at all costs, but the main
12 cost I think that is going to be for people
13 like me is the timing where we want to make
14 sure that our citizens have the opportunity to
15 vote without having any impediment.

16 CHAIRMAN GAETZ: Thank you, and you have a
17 very good suggestion, and a number of
18 Legislators have, I have done it in my
19 district, have met with groups, non partisan
20 groups as well I have met with, I happen to be
21 a Republican, but I met with the Democratic
22 party in my county and we went over all of this
23 as well as with Republican groups and many
24 Legislators are doing it, Senator Sachs in
25 South Florida is doing it, so that is an

1 excellent suggestion.

2 MS. WHEELER: That would speed things up.

3 CHAIRMAN GAETZ: Yes.

4 MS. WHEELER: And we would be able to get
5 with our voters.

6 CHAIRMAN GAETZ: Thank you very much. Our
7 teacher, good idea. Jay Shannon from the Young
8 Democrats, College Democrats, and then Eric
9 Brown from the College Democrats and then Helen
10 Warren from the Audubon Society.

11 Welcome, and thank you for being here
12 tonight.

13 MR. SHANNON: Thank you, I appreciate it.
14 I am, as you read, I am a member of the
15 University of Florida College Democrats and
16 also I am also an intern with (inaudible)
17 Florida, which means that most of you on the
18 stage don't like me, and that is really
19 unfortunate, but I really had to say a few
20 things about redistricting.

21 I spent a lot of time campaigning for Fair
22 Districts Florida. I understand that some of
23 the language has become under scrutiny and I
24 understand that there are members of both sides
25 of the aisle that are coming out against it and

1 for it.

2 But I do want to say a few things. In
3 terms of the touchy feely support that Fair
4 Districts sort of evokes with people like me,
5 Democrats who I spend time with, you know, I am
6 sorry that we have to do that, but the reason
7 we pass legislation like that is to make sure
8 that you guys don't make that mistake again,
9 because it happened last year, it happened in
10 2000, it happened in 1990.

11 Regardless of the party you are a part of,
12 and I am a Democrat, I admit that the choppers
13 were terrible, but regardless of the party you
14 are a part of, it is still happening and when
15 we talk about minority representation, whether
16 it is Hispanics or poors or African-Americans,
17 poor people, you know, I don't feel like they
18 are getting their fair shake at representation
19 when there are people in Tallahassee passing
20 legislation that cuts their access to voting or
21 their access to education, or their access to
22 community services.

23 And, you know, the system status quo just
24 simply doesn't work, and I get so infuriated
25 when I am sitting in the corner of the room

1 when I hear people like Alex Patton come up and
2 tell me that I am a touchy feely Democrat and I
3 am supporting legislation --

4 CHAIRMAN GAETZ: Mr. Shannon, why don't
5 you use what little time you have left to make
6 your point and not to make someone else's
7 point.

8 MR. SHANNON: Right, right, and I am sorry
9 about that. My point is, at the end of the day
10 I am a person, most recently an American
11 citizen, and I stand up for my fellow man and
12 woman, not my fellow Democrat or Republican and
13 I would really appreciate it if I felt the same
14 from you on stage, and so thank you for your
15 time.

16 CHAIRMAN GAETZ: Thank you so much,
17 Mr. Shannon, excellent points. Eric Brown,
18 also representing the College Democrats, Eric
19 Brown, are you here?

20 A VOICE: I think he waives in support.

21 CHAIRMAN GAETZ: A waive in support. Now,
22 we in Tallahassee say that is eloquent
23 testimony. Helen Warren is next, Helen Warren
24 and following Ms. Warren, Kyle Mitchell also
25 with the College Democrats and then Alden

1 Green. So if Alden Green will be on deck as
2 well.

3 Ms. Warren, thank you for being here, you
4 represent the Audubon Society, it says here.

5 MS. WARREN: I should probably correct
6 that, I am mostly representing just myself as a
7 citizen. Being President of the Audubon
8 Chapter I don't necessarily have views that
9 they have shared that I can say I am
10 representing them.

11 But as a citizen of this community, that
12 is what I would like to present, some of my
13 ideas and thoughts and support and thanks and
14 appreciation that you are here. It is amazing
15 to see this many people in one room without any
16 babies to kiss or dinners, meals and those kind
17 of things that usually bring a large collection
18 of politicians into one area, and really do
19 feel like you are here to hear the comments
20 from the public.

21 You have already heard many of the
22 concerns I think, I can't add anything to what
23 the Supervisors of Elections have said with
24 respect to the time of essence in this
25 situation, but the consideration when I looked

1 at the lines of where the maps are for the
2 State Districts and the Congressional
3 Districts, having previously been from Pinellas
4 County and seeing the way that those lines have
5 divided the county up with several districts
6 and then looking at the State Districts with,
7 in particular, District 3, 7, 1 and 8, it is
8 hard to imagine that there can be similar
9 representation for a group of people where you
10 have individuals living on the Georgia, Florida
11 border in District 3, as an example, that goes
12 all of the way down to possibly Cedar Key, and
13 I am not quite sure where the southern border
14 of District 3 is.

15 But I would ask for a consideration that
16 if we want to get the public, we have a very
17 large number of people who are disenfranchised
18 from the political process, which is the
19 essence of what makes this country as great as
20 it is, and when we see districts that are
21 established such as this, it is not hard to
22 imagine why so many people are feeling
23 separated from their politicians who are
24 supposed to be representing us regardless of
25 our party.

1 So I would ask for a consideration that
2 the lines look along, as well as what they are
3 saying with the county lines, but maybe the
4 consideration that there may be some kind of
5 compact 50-mile radius that could be considered
6 at sometimes, and inclusion of something
7 similar to what the Water Management Districts
8 provide so that we can have cohesion of area
9 community.

10 I think with the water issues that we have
11 got going on, there are certainly many issues
12 that surround the feelings and sentiments of
13 the public as to whether we are getting our
14 water privileges and environmental issues
15 related to that.

16 So in summary, I think you have pretty
17 well heard many of the similar things. I am
18 now rambling, but time is of the essence, let's
19 please get this done quickly and get
20 communities of the county lines more
21 coordinated.

22 CHAIRMAN GAETZ: Thank you very much,
23 Ms. Warren. Next, Kyle Mitchell from the
24 College Democrats, Kyle Mitchell. And then
25 following Mr. Mitchell, Alden Green, and then

1 Benetta Standly is here, an old friend that
2 follows us from city to city from the American
3 Civil Liberties Union. Kyle Mitchell.

4 MR. MITCHELL: Hello, thank you for your
5 time. Senator Gaetz, you have dismissed
6 multiple speakers' concerns about the speed of
7 adoption of district maps by saying that the
8 Legislature is free to adopt maps at any time.

9 If anyone in the audience believes that
10 the leadership in the Legislature will move any
11 faster than they are required to on this issue,
12 that is exceedingly wishful thinking.

13 The three-fifths of Florida voters that
14 supported Fair Districts know intrinsically
15 that Florida is defined by its cities,
16 counties, and natural boundaries, not community
17 dividing lines drawn as a partisan power grab.

18 Senator Gaetz, the people asked that you
19 and your committee reference not election
20 results but an Atlas when drawing districts.
21 There should be many left over to use after the
22 Legislature's attack on public education.

23 Fair Districts is the law. Please follow
24 it.

25 CHAIRMAN GAETZ: Thank you, Mr. Mitchell,

1 and next, Alden Green, and after Ms. Green, it
2 is Ms. Standly and then John Wasser.

3 Mr. Green, thank you for being here, and
4 you are recognized, sir.

5 MR. GREEN: Thank you. I have a couple of
6 points to make. One is I don't think that the
7 Fair Districts Amendment is ambiguous. I think
8 it is, your work is cut out for you in
9 complying with it, but I think it gives some
10 fairly simple guidelines to how to do it.

11 You know, one of the ways that Florida is
12 the laughing stock with some of my friends from
13 different states who are politically inclined,
14 I say, look at the District Map for 6, 3 and 4,
15 I think. One of them goes from Jacksonville to
16 Tallahassee. One of them goes from
17 Jacksonville to Orlando, and my own District 6,
18 it makes a sort of funny V-shape around it.

19 CHAIRMAN GAETZ: And to think we have
20 Patrick Henry to blame for all of this.

21 MR. GREEN: Well, if Patrick Henry needs
22 to be blamed, that is fine, but I think that
23 what has happened with, it is clear from
24 looking at our current map that the district
25 lines were politically drawn to protect both

1 Democrats and Republicans in the state, and I
2 think what has happened with districts that are
3 drawn with that as a basis, as a basis for
4 their being drawn, we end up in a United States
5 for Congress, for instance, of getting both
6 Democrats and Republicans who are further to
7 the left or to the right and it makes it
8 difficult, it makes it much more difficult, for
9 instance, in the current controversy about the
10 -- about the debt ceiling.

11 It makes it much more difficult for the
12 Congress to function for the benefits of the
13 citizens rather than for the parochial interest
14 of the members.

15 So I think it is important that you look
16 at the Fair Districts, you accept it as law and
17 not fight it and do your best to comply with
18 it. I know it is going to be hard, but I think
19 it is critical for the future of Florida and
20 for the future of the country. And thank you
21 very much.

22 CHAIRMAN GAETZ: Thank you, Mr. Green.
23 Now, Benetta Standly with the ACLU, and then
24 John Wasser, and then Samuel Welker with Fair
25 Districts, and then Whitney Markle with the

1 Sierra Club.

2 Ms. Standly, good to see you again.

3 MS. STANDLY: Good evening, and I will
4 continue to follow you around and I will follow
5 you around when you have real hearings when you
6 show us the maps so that we can have something
7 to comment on.

8 So I am here today to represent the
9 63 percent of Floridians who voted in favor of
10 Amendments V and VI, the disenfranchised, the
11 people who are distrustful of the Florida
12 Legislature, and the people who just simply
13 could not make it here today.

14 I am here to hold you all accountable. I
15 want to publicly say this entire process is a
16 farce. It is a waste of taxpayer's money and
17 time.

18 We, the people of Florida, truly
19 understand that Amendments V and VI actually
20 protect minority voting rights. They add two
21 protections that were never in the Florida
22 Constitution. We expect you to make sure that
23 minorities have the opportunity to elect the
24 candidates of their choice and not give us two
25 or three districts around the state.

1 The new rules are something that all of
2 Florida, most of Florida has agreed upon. We
3 need you to follow those rules, but you are not
4 hearing me when I say as I follow you around
5 the state, that we don't trust that you will
6 follow the rules.

7 I am quite frankly disappointed that many
8 in the Florida Legislature continue to oppose
9 and fight these new rules, and you are using my
10 taxpayer dollars to do so. This is obviously
11 unacceptable.

12 The entire purpose of Amendments V and VI
13 was that voters can choose their elected
14 officials and not the other way around. Stop
15 wasting taxpayer money. This is an absolute
16 insult to Florida voters.

17 We know that you have \$30 million in
18 reserve in the House, we know you have \$8
19 million in the Senate reserved to deal with
20 litigation related to V and VI. Stop
21 undermining the will of Florida voters. We
22 have spoken. Follow our Constitution.

23 People are trying to run for office in
24 this state, they don't know what district they
25 reside in and they can't campaign. You need to

1 get the ball rolling, you need to do your job
2 and stop asking us to give you a map.

3 You are required to give us the map, so
4 show us the map.

5 CHAIRMAN GAETZ: Ms. Standly, you are
6 getting, you are getting your act down very,
7 very well. Good to see you again. Ms. -- John
8 Wasser is next, and then Samuel Welker from
9 Fair Districts and then Whitney Markle from the
10 Sierra Club it says here. John Wasser.

11 MR. WASSER: My name is John Wasser. I am
12 a Yankee and some of you might call me a damn
13 Yankee. I am liberal even by Yankee standards,
14 and I am angry.

15 I moved nine years ago to Union County
16 where there was a guy named Alder Crenshaw who
17 claims to represent me in Washington. He is a
18 George W. Bush Republican. He is elected by
19 fat cats in Jacksonville, for gosh sakes, and
20 his district extends all of the way to Leon
21 County.

22 At some point it is only about four miles
23 high and it must be at least 150 or more miles
24 wide, and the only reason for a district like
25 that is to deny voting rights to the people in

1 this rural county out here when he gets elected
2 by a heavily populated area in Jacksonville, to
3 represent people in counties out here where a
4 majority of the voters are registered
5 Democrats.

6 That is specifically to deny the people
7 out here their rights and I am angry. We need
8 to do something about that, and part of the
9 reason why so many Republicans got elected
10 around here is because the Democrats did such a
11 bad job of fielding candidates, not only on the
12 state level but even locally, our --

13 CHAIRMAN GAETZ: No, no, no, let's let
14 Mr. Wasser talk, please.

15 MR. WASSER: In 2010 we had -- we had a
16 local candidate for State Senator, is a
17 Democrat who has been openly vindictive towards
18 gays and women and probably blacks as well, and
19 I work -- done some work for temporary agencies
20 and I have done --

21 CHAIRMAN GAETZ: Mr. Wasser, Mr. Wasser,
22 we are getting a little far afield, let's bring
23 it in for a landing, and the landing zone is
24 talking about redistricting.

25 MR. WASSER: Okay, I want to see the

1 redistricting, get these counties out here, a
2 Representative that they can be proud of and I
3 would be happy to join any lawsuit if it
4 doesn't work right. So get it right, please.

5 CHAIRMAN GAETZ: Thank you, Mr. Wasser.
6 Next is Samuel Welker, from Fair Districts,
7 then Whitney Markle with the Sierra Club, and
8 then Phoebe, I think it is Papadi, or Papadi.

9 Mr. Welker, thank you for being here. We
10 are delighted to have you here tonight.

11 MR. WELKER: Thank you, I am delighted to
12 be here. I am not here for Fair Districts.

13 CHAIRMAN GAETZ: I am sorry, it says it
14 here.

15 MR. WELKER: I know. I really --

16 CHAIRMAN GAETZ: I was just trying to be a
17 literalist.

18 MR. WELKER: I have taught in middle
19 school and high school for 37 years, most of my
20 students have been literalists. So I
21 understand that.

22 CHAIRMAN GAETZ: I hope they did well.

23 MR. WELKER: My children always do well.
24 I teach only beautiful, intelligent children.

25 CHAIRMAN GAETZ: There you go.

1 MR. WELKER: But they have changed a great
2 deal, our children have changed a great deal in
3 the past 37 years. One of the ways that they
4 have changed is their faith in politics and
5 faith in their political leaders, whereas 37
6 years ago my students felt that government
7 service and politicians and statesmen were
8 honored, respected individuals.

9 It was a career that they wanted to go
10 into. If I were to ask my students today what
11 they felt about politicians, political leaders
12 and people in government service, they would
13 not for the most part be very flattering.

14 They have lost a great deal of respect in
15 our government. I would recommend that there
16 is no possible way that you are going to
17 satisfy everyone. We know that in here, fair
18 districts to me sound like fair districts.
19 Fair means something different to other people,
20 I suppose, but the citizens of this state voted
21 63 percent for two amendments.

22 It seems to me it would help restore a
23 great deal of faith in a lot of people,
24 including my children who are not apathetic,
25 who really do care, if in redistricting we

1 followed those Amendments and you followed
2 those Amendments. Thank you.

3 CHAIRMAN GAETZ: Thank you very much,
4 Mr. Welker. Great testimony. Whitney Markle,
5 it says here representing the Sierra Club, and
6 then Phoebe, I apologize, I think it
7 is-PAP-a-p-a-d-i, and then if Jeremiah
8 Teddersol will be ready to speak. Ms. Markle,
9 Mr. Markle.

10 MR. MARKLE: thank you, sir, last time a
11 public official called me Mr. Markle, it was a
12 Judge.

13 CHAIRMAN GAETZ: Well, I am not a Judge.

14 MR. MARKLE: And it is Whitey, it is not
15 Whitney, my momma named me that and I can't
16 help it.

17 CHAIRMAN GAETZ: Oh, it is Whitey, I am
18 sorry, it is my bad eyes.

19 MR. MARKLE: That is okay.

20 CHAIRMAN GAETZ: My bad eyes, I apologize.

21 MR. MARKLE: My bad writing there. I am
22 the Conservation Chair for the Suwannee St.
23 Johns Sierra Club, and we represent 15 counties
24 here in north central Florida. A lot like
25 Charlie Dean's district, we are the biggest

1 Sierra Club group east of the Mississippi
2 River.

3 So we have resources that we are
4 concerned, our concern is conservation of
5 resources. We have the St. Johns, the Arakawa,
6 the Suwanee, Ichetucknee, Withlacoochee,
7 Crystal, Homosassa and the Chassahowitzka
8 Rivers that we have to deal with, and I would
9 like to ask you, unlike when I ran for State
10 Senate along with Senator Oelrich when he was
11 running for his first term as Sheriff in
12 Alachua County, I was running for State Senate
13 District 5 at the time against the last great
14 dean of the Florida Senate, George Kirkpatrick,
15 and I don't have to tell you who won that
16 election.

17 But I got a map from the Secretary of
18 State the day after I qualified and it was
19 about eight feet tall and about six feet wide,
20 and that map cut Palatka in half, it cut Lake
21 City in half, it cut Live Okay in half, it cut
22 Chiefland in half, it cut Bronson in half, it
23 cut Williston in half, and whoever has done the
24 rearranging at this point has done a pretty
25 good job.

1 We in Marion County would like to ask that
2 you kind of solidify Marion County rather than
3 having more than one Senator from Marion
4 County, but we would like to ask that it be a
5 continuous, like we said, compact geographical
6 boundaries, and we would like to ask you that
7 you represent not only all of the constituents
8 in your districts, but also those resources
9 that we just talked about. Thank you very
10 much.

11 CHAIRMAN GAETZ: Thank you very much,
12 Mr. Markle. And Ms. Phoebe, I apologize, could
13 you pronounce your last name for the committee?

14 MS. PAPADI: Sure, it is no problem. It
15 is Papadi, Phoebe Papadi.

16 CHAIRMAN GAETZ: Papadi, Ms. Papadi, thank
17 you for being here, and we look forward to what
18 you have to say.

19 MS. PAPADI: Thank you, good evening. So
20 many factors to consider, and the one I feel
21 most strongly about is the lack of partisan
22 politics.

23 If the United States is a melting pot,
24 then our redistricting map right now is a
25 goulash, it is a mess, and luckily, we have an

1 opportunity to fix it.

2 As a life long staunch liberal Democrat, I
3 would be delighted if every district turned out
4 to have a majority of Republicans, if the lines
5 were drawn with integrity and following the
6 rules.

7 So I would urge you in this process to
8 have that be your number one priority, is to
9 have integrity and follow the rules and I think
10 all of the rest would fall into place. Thank
11 you so much.

12 CHAIRMAN GAETZ: Thank you, Ms. Papadi.
13 Jeremiah Teddersol, Jeremiah Teddersol? Our
14 next line up then would be Dave Schneider.
15 Dave, we got to you, Students for a Democratic
16 Society. Dave, are you here, and then George
17 Papadi, I believe and then Stan McClain. Dave,
18 I am glad we got there.

19 MR. SCHNEIDER: Yes, I am, too.

20 CHAIRMAN GAETZ: I am an advocate for your
21 right to speak.

22 MR. SCHNEIDER: Yes, yes, absolutely, and
23 I was actually commenting to some friends, this
24 might be the only time you will ever hear a
25 Republican say, I am an advocate for Dave

1 Schneider, at least a lot of people know that.

2 CHAIRMAN GAETZ: For your right to speak,
3 for your right to speak. Dave.

4 MR. SCHNEIDER: Yes, yes, I appreciate it.
5 Thank you. You know, I think a lot of the
6 speakers here have really gotten to the points
7 that I wanted to emphasize, but I think I want
8 to clarify the issue here a little bit, because
9 we are not here just for unfair districts.

10 I think we are not here just because, you
11 know, these districts were drawn poorly. It is
12 because of what those districts being drawn
13 poorly results in, which is what we saw this
14 past legislative session where we saw unbridled
15 attacks on working families and students.

16 I, myself, am a student at the University
17 of Florida, Political Science and History
18 major. My Senator is Senator Oelrich up there.
19 Senator Oelrich, we appreciate you voting with
20 us on a lot of the Bills pertaining to graduate
21 students, graduate assistants, and especially
22 the Unions, and just the attacks that were
23 placed on people.

24 We saw this happen time and time again in
25 this past legislative session.

1 CHAIRMAN GAETZ: Mr. Schneider, as much as
2 an advocate as I am for your right to speak,
3 speak about redistricting.

4 MR. SCHNEIDER: Sir, sir, I am getting
5 there, because this --

6 CHAIRMAN GAETZ: Get there some time soon.

7 MR. SCHNEIDER: These two are closely
8 intertwined, you know, because when we don't
9 have fair districts, when we have is what one
10 gentleman brought up, when you driver up 34th
11 Street, a major street in Gainesville and you
12 are moving from one district to the next, to
13 the next, to the next, that is not -- those
14 districts weren't drawn to be fair.

15 They weren't drawn for people like us,
16 they were drawn from democracy, but democracy
17 for the powerful few who end up getting
18 reelected time and time again in Tallahassee
19 and never represent us.

20 They are the people who brought forth
21 these attacks time and time again on Unions,
22 they are the ones that slashed millions and
23 millions of dollars.

24 CHAIRMAN GAETZ: We are wondering far
25 afield again, let's get back to redistricting,

1 redistricts.

2 MR. SCHNEIDER: But Mr. Chair, these two
3 issues are so closely intertwined.

4 CHAIRMAN GAETZ: Well, you are going to
5 have to stick to the purpose of the hearing,
6 because have got 20 people behind you who want
7 to speak.

8 MR. SCHNEIDER: Yes, sir, yes, sir.

9 CHAIRMAN GAETZ: So you have got about ten
10 seconds.

11 MR. SCHNEIDER: My point is -- my point is
12 that we need fair districts here if we are
13 going to reclaim democracy for working
14 families, for students at the University of
15 Florida and elsewhere, and for the middle class
16 who has been under such gross attack from the
17 Florida State Legislature for far too long, and
18 that is why I am here tonight.

19 CHAIRMAN GAETZ: Thank you so much.
20 George, you are up, and then following George,
21 Stan McClain with the Marion County Board of
22 County Commissioners, then Richard Blake, and
23 then Carl Zalak.

24 MR. PAPADI: Yes, I ask that you
25 demonstrate some restraint and moderation in

1 redistricting efforts. I ask that you abide by
2 the Fair Districting Amendment, Amendments V
3 and VI, and I argue that as we all know, the
4 gerrymandering is a corrupting process and a
5 conscious focused effort to consolidate power
6 in a way that subverts our democracy.

7 I strongly disagree with the notion
8 presented by one speaker tonight that the Fair
9 District Amendments were merely a veiled
10 attempt at achieving quotas. Nothing could be
11 further from the truth.

12 The citizens who worked hard to achieve a
13 63 percent approval of that were -- were
14 focused on achieving or with the concern that
15 individual voters have the same.

16 CHAIRMAN GAETZ: George, could you speak
17 into the mike a little bit. We want to get
18 every word.

19 MR. PAPADI: Sure. That the individual
20 votes that -- that are placed have the same
21 political weight that all citizens' votes have
22 an equal power, and I thank you.

23 CHAIRMAN GAETZ: Thank you very, very much
24 for your testimony. Next is Stan McClain
25 followed by Richard Blake and then Carl Zalak,

1 and Mr. McClain, Commissioner McClain, thank
2 you for your service, and you are recognized.

3 COMMISSIONER MCCLAIN: Thank you, Chairman
4 Gaetz and members of the House and the Senate.
5 I had the, the Commission did put a letter
6 together to present to you. However, you have
7 already heard from three citizens from our
8 community, one representing non partisan, one
9 representing bipartisan and then also our own
10 chamber of commerce.

11 We would be in agreement with pretty much
12 anything that they have already said. What,
13 all I that would ask at this point would be
14 that the Commission be allowed to enter our
15 letter into the record and present that to a
16 clerk or whoever might be the appropriate
17 person.

18 CHAIRMAN GAETZ: Absolutely it would be,
19 we would look forward to that information.
20 Thank you, Commissioner.

21 COMMISSIONER MCCLAIN: Thank you.

22 THE COURT: Next is Richard Blake,
23 Mr. Blake? Richard Blake, are you here? If
24 not, then let's go to Carl Zalak with the
25 Marion County Board of County Commissioners.

1 Mr. Zalak, thank you for being here,
2 Commissioner, and thanks for your service to
3 the community.

4 MR. ZALAK: Honorable Senators and
5 Representatives, thank you so much for the
6 opportunity to speak this evening. Just two
7 thoughts on the redistricting.

8 If you would entertain, District 8 as it,
9 Congressional District 8 as it runs from part
10 of Marion County all of the way down to
11 Orlando, we think with the growth and the
12 statistics that is on your website, that we can
13 condense some of that, bring that a little more
14 north into Marion County, and with Marion
15 county and The Villages together in District 8,
16 it would be a great district for our future.

17 The second thing is, as our Senators are
18 so split, we would just ask that you would give
19 us a greater voice in the Senate with a
20 consolidated or a slightly consolidated Senate
21 District.

22 It is really interesting. I listened to
23 the lady a little while ago, and as a matter of
24 fact, when you guys take the time to serve and
25 come out here and listen to all of these

1 people, for someone to call this a farce, it is
2 pretty amazing to me.

3 I want to thank you for your service, and
4 it was pretty funny, because last night I had a
5 community meeting where we listened to the
6 people and we deliberated and we brought back
7 real results.

8 They called that a farce, too, it is
9 amazing. Thank you so much for your service.

10 CHAIRMAN GAETZ: Thank you, and
11 Commissioner, if you have any specifics about
12 the -- about the advice you just gave us, any
13 particular areas that you think need to be
14 included in particular lines, if you would give
15 that to us, we would be very grateful.

16 COMMISSIONER MCCLAIN: Thank you so much,
17 sir. We will get that to you.

18 CHAIRMAN GAETZ: Thank you, and now John
19 Schiffeamullon, John Schiffeamullon, please,
20 followed by Evelyn Foxx with the Alachua County
21 Branch of the NAACP, and then Kali Blount with
22 the Alachua County Housing Authority and Black
23 Nurses' Association. Mr. Schiffeamullon, did I
24 get that correctly, sir?

25 MR. SCHIFFEAMULLON: Close enough. Ladies

1 and gentlemen, thank you for giving us this
2 opportunity. Mr. Chairman, I would like to
3 thank you particularly for referring to my
4 country properly as a republic and not a
5 democracy. That all too often gets missed.

6 Fair districts, fair means different
7 things depending on who you ask. The
8 Supervisor of Elections for Alachua County
9 recently suggested that the county lines would
10 simplify the administration of the vote.

11 People who live in the City of Gainesville
12 would probably tell you that fair is the county
13 of Alachua. I live in that recently mentioned
14 city of Archer, in Precinct 11-A0, not A-1.

15 People who live in the rural districts
16 would tell you that a district that represents
17 the County of Alachua represents the City of
18 Gainesville, not the rural areas.

19 So fair depends on who you ask. I looked
20 at the -- at the Fair District Amendment and I
21 don't think very many people would have a
22 problem with the concept of compact, contiguous
23 geographic borders.

24 The rub is in the details. The exceptions
25 and I don't envy you that. The Voters Rights

1 Act of 1965 that has to be considered, the
2 exemptions for minorities, people who speak
3 different languages. That is not really your
4 fault. That is ours.

5 Theodore Roosevelt once said, in fact, he
6 said it more than once, I have no tolerance for
7 hyphenated Americanism. A man is an American
8 and he is nothing else, or he is no American at
9 all. Thank you for your time.

10 CHAIRMAN GAETZ: Thank you very much, sir.
11 I appreciate your comments. Evelyn Foxx with
12 the NAACP and then I think it is Kali or Kali
13 Blount, with the Housing Authority and then
14 John Martin.

15 Ms. Foxx, thank you for being here, and we
16 look forward to your testimony.

17 MS. FOXX: Thank you so much, Mr. Chair,
18 and members of this Committee. I welcome you
19 to Gainesville and Alachua County.

20 I am a little puzzled about this hearing
21 here tonight. I was present ten years ago when
22 we were at Key West and we had maps weeks
23 before the hearing.

24 Our state is made up of 16 percent
25 African-Americans, 22 percent Hispanics. My

1 challenge and my urge to you is to please be
2 fair, and then after hearing our Chair tonight
3 so abruptly cut off Dr. King's son, I don't
4 know if you could really be fair.

5 Anyway, please be fair and please do the
6 right thing. Thank you.

7 CHAIRMAN GAETZ: Thank you very much. I
8 am advised as a historical fact that the
9 earliest ever hearing that was held in
10 Gainesville at the last cycle in 2000, after
11 the 2000 census, was actually held in July.

12 So we are a little ahead of the game, but
13 thank you, Ms. Foxx, and Ms. Blunt, how do I --
14 Mr. Blunt, how do I pronounce your first name,
15 sir?

16 MR. BLOUNT: Kali.

17 CHAIRMAN GAETZ: Kali. Thank you for
18 being here, and you are recognized. John
19 Martin is next, and then after Mr. Martin, then
20 Peter Johnson.

21 MR. BLOUNT: I am Kali Blount, a
22 registered nurse and citizen planner. I live
23 and occasionally work here in Gainesville. I
24 work as an RN, so I can use my Master's in
25 planning according to its academic ideas

1 without distortion by pay checks from
2 politicals.

3 I have observed a lot as a Board member
4 for Public Housing and Workforce Development,
5 that is Florida Works in our areas and other
6 work in community funding and development,
7 poverty reduction, healthcare and affordable
8 housing. I am going to try to talk real fast
9 and say a whole lot.

10 So I appreciate the attention of all of
11 you who are not busy surfing the Internet right
12 now.

13 I have comments about the products of our
14 pattern of representation, but first I want to
15 Amen the call for speeding up the process, and
16 as the Chair has responded several times, any
17 member can offer a map or maps from the public
18 are on the website, that is a turkey shoot.

19 We want the institution, your committee
20 structure to produce faster, do your collective
21 job expeditiously.

22 Now, my story, your screen says, tell us
23 your story. So my story of experience and
24 representation has to do with being a member of
25 the Boards of both Housing Authorities locally

1 at different times.

2 We have an annual conference in D. C.
3 where people, Board members and residents and
4 Directors of Public Housing and Community
5 Development gather in D. C. every spring to do
6 a day on Capitol Hill.

7 We spend a month prior contacting our
8 people, so for Gainesville that means
9 contacting the Representatives of District 16
10 and 3 and then we go as a Florida delegation,
11 20 or 30 people sometimes to see each Senator
12 together.

13 Now, all, those four contacts for us
14 Gainesville folks have always yielded immediate
15 response, except for one Representative who
16 never answers us until the day before our
17 Capitol Hill visit, which means we are already
18 in D. C., practicing our talking points, and
19 then with different persons, sometimes we see
20 the esteemed person themselves, sometimes a
21 senior aid. This particular person, as I said,
22 never responds until the day before and we only
23 see a junior aid or student intern ever, and
24 that is the kind of responsiveness that I am
25 concerned about.

1 This same person also has closed their
2 local office in response to a visit by a local
3 group of persons on a particular issue where
4 they had stated their opinion and were not
5 willing to discuss it.

6 CHAIRMAN GAETZ: Mr. Blount, we are
7 getting a little far afield. If you could --

8 MR. BLOUNT: I am talking about the
9 results from a pattern --

10 CHAIRMAN GAETZ: I am talking about
11 redistricting and we would like you to
12 conclude, please, because we have a whole bunch
13 of people behind you and not too many minutes
14 left.

15 MR. BLOUNT: Okay, so that the pattern of
16 districting that we have has brought us,
17 supposedly has created opportunities for
18 minority representation. So I am talking about
19 the topic, but it also gets us, gets us stuck
20 with some unresponsive chaf in the bundle, and
21 that is why I am describing that person.

22 Your thing said tell us your story. That
23 is my story. This pattern also gets us the
24 politics that re-enforces poverty and
25 therefore, stunts development of individuals,

1 development of the state economy.

2 The Workforce Development folks have told
3 you that we get objections from recruiting
4 industries about our poor education rankings.
5 We have existing state legislation that has
6 said, break up economically segregated housing.
7 That has been on the books since '85.

8 CHAIRMAN GAETZ: I apologize, sir, we
9 really have a lot of people behind you, and if
10 you can't keep it to redistricting I will have
11 to thank you for your testimony.

12 MR. BLOUNT: Well, if fair districts can
13 evolve across Florida and much of this country,
14 maybe we can involve toward eight or 12 major
15 parties and even proportional representation
16 and coalitions and governments that function
17 and really respond to the people better than
18 what we are seeing here tonight.

19 CHAIRMAN GAETZ: Thank you. Thank you
20 very much. John Martin, you are next, and then
21 Peter Johnson, and following Peter Johnson,
22 Erin Murphy with the University of Florida
23 College of Democrats.

24 Mr. Martin, thank you for being here and
25 thanks for your patience. We look forward to

1 your testimony.

2 MR. MARTIN: Thank you, sir. I am from
3 Hawthorne, the City of Hawthorne where I served
4 as Mayor.

5 CHAIRMAN GAETZ: Thanks for your service
6 as Mayor, sir.

7 MR. MARTIN: Currently I am not on the
8 Commission currently. I am in House District
9 -- I mean Congressional District 3, probably
10 the most gerrymandered one maybe in the
11 country.

12 I am in Senate District 14 and House
13 District 23. My concern is actually similar to
14 what Mayor Calderwood said earlier in Alachua,
15 that -- that especially we haven't talked much
16 about the Congressional Districts.

17 When you look at the Congressional
18 Districts and you are from a very small
19 community and I am not be-smurfing anyone who
20 serves in that district, but I remember the
21 first time I called their office and identified
22 myself as the Mayor of Hawthorne, they said,
23 well, we need to check to see what
24 Congressional District you are in.

25 And I said, well, I have already done

1 that, but anyway, I really believe that when
2 you look at and when you take into the small
3 communities, you need to look not only at the
4 geographic, but what is the natural fit for
5 those communities, and a place like Hawthorne,
6 I think that we deserve to be in with the rest
7 of Alachua County or the majority of Alachua
8 County and not Jacksonville and Orlando,
9 because that -- I mean, pick one of the two,
10 but trying to be between both of them is very
11 difficult.

12 The other thing I want to say and this is
13 kind of more on the light side, you know, be
14 careful, as much as I respect the voters of
15 Florida, I mean, I grew up following the
16 Legislature around from a young kid.

17 We all, we are not only about this latest
18 thing, but we voted to put pigs in the
19 Constitution as well. So sometimes there are
20 unintended consequences, and I will tell you as
21 with someone who has followed politics in this
22 part of the state since I can remember, that
23 one of the unintended consequences of term
24 limits has been that you don't have the
25 representation for the rural areas and those

1 types of things, not that the men and women
2 that are there now are not capable, but without
3 the seniority that they had, it becomes a
4 numbers game.

5 So all I am saying to that is that when
6 you look at the vote that was taken and I
7 respect the vote for the two Amendments, there
8 will be unintended consequences, okay.

9 There was a time when the Democrats were
10 running the state of Florida for the most part,
11 they did redistricting. I am sure that they
12 didn't mean to redistrict in such a way that a
13 majority of Republicans came in. They came in
14 probably under districts that Democrats had
15 drawn for the most part.

16 So all I am saying as citizens, let's not
17 panic. With term limits, the next time that
18 this happens, with all due respect to you, most
19 of you won't be sitting here.

20 CHAIRMAN GAETZ: That is right.

21 MR. MARTIN: So things will change. Let's
22 take a deep breath, try to do what we think is
23 in the best interest of the citizens of the
24 state of Florida, and realize that they are,
25 all of those who are both for or opposed to

1 these Amendments, and I will close with this,
2 believe me, there will be consequences that are
3 unforeseen that you won't like if you supported
4 it or if you didn't support it, because
5 elections have consequences. Thank you.

6 CHAIRMAN GAETZ: Thank you, Mr. Mayor, we
7 appreciate it. Peter Johnson, you are next,
8 Peter Johnson? Is Peter Johnson here? How
9 about Erin Murphy with the College Democrats,
10 and then following Ms. Murphy, Reba, and I am
11 not going to take a shot at this, Reba, you are
12 going to have to help me. 1904 Northwest 11th
13 Road, and then Chris Ott is next. Ms. Murphy,
14 thank you for being here.

15 MS. MURPHY: Thank you. My name is Erin
16 Murphy and I am the President of the UF College
17 Democrats. Thank you all for being here this
18 evening.

19 As a UF student I go to campus every day
20 and go to class in one House District and that
21 is Representative Perry's, and then I go home
22 to my apartment in another House District,
23 which is Representative Chestnut's.

24 I am sure you are both wonderful
25 Representatives, but it can be confusing at

1 times because as a student and as someone who
2 is interested in politics, there are issues
3 that I would like to advocate on, especially as
4 a student at a university where I am facing
5 budget cuts to my university, hikes in tuition,
6 cuts to my Bright Future's funding, which is
7 the reason I am able to attend, able to attend
8 college.

9 And I think that it is difficult, because
10 sometimes I wonder who is really representing
11 me. The place I live or the place I go to
12 school. It can get, it is very confusing, and
13 so as a constituent, where should I turn, and
14 in going through all of this out of the blue
15 there came Fair Districts.

16 Amendments V and VI, they are going to be
17 on the ballot for 2010, and so, you know, I
18 advocated passionately for those Amendments in
19 the 2010 election, and I know that we worked
20 very hard on our campus to get students to
21 understand the issues and to vote and democracy
22 ran its course and Amendments V and VI were
23 adopted with 63 percent of the vote, and they
24 are now a part of the Florida Constitution.

25 And things that I find disheartening is

1 when I get the feeling that you as my elected
2 officials aren't really interested in enforcing
3 the will of the people. When I heard that
4 there is a \$30 million fund in the House and an
5 \$8 million fund in the Senate in preparation
6 for legal battles over this, which I understand
7 there are legal battles every time there is
8 redistricting, but I am pretty sure this is
9 more than the cost than it usually is, and it
10 is in anticipation of fighting Fair Districts,
11 I have to ask, please don't waste taxpayer
12 dollars in fighting something that the
13 taxpayers voted for.

14 And with that I would ask you to implement
15 Fair Districts Florida, as the people of
16 Florida have asked you to.

17 CHAIRMAN GAETZ: Thank you, Ms. Murphy.
18 And Ms. Murphy, again, not to be argumentative,
19 but just because sometimes something gets in
20 the blood stream and it is hard to get it out,
21 ten years ago in the Senate and I wasn't in the
22 Senate ten years ago, but ten years ago in the
23 Senate the legal costs associated with
24 redistricting, and there were I think three
25 court challenges, were \$10 million.

1 The \$9 million that are budgeted for over
2 a two-year period are not to fight Fair
3 Districts, but rather to make sure that we are
4 able to present the redistricting plans to the
5 various courts that we have to present them to
6 and defend them in front of those courts as
7 well as the United States Justice Department.

8 I can tell you that in the Florida Senate
9 there is not one penny in any line item, in any
10 budget, to fight Fair Districts. That is just
11 not true.

12 But thank you very much, Ms. Murphy, for
13 your testimony. And Reba, can you help me out
14 with that last name?

15 MS. BANDYOPADHYAY: I did it once. It is
16 Bandyopadhyay.

17 CHAIRMAN GAETZ: Do it again?

18 MS. BANDYOPADHYAY: Bandyopadhyay.

19 CHAIRMAN GAETZ: Bandyopadhyay.

20 MS. BANDYOPADHYAY: Yes, don't look at it,
21 it is easier.

22 CHAIRMAN GAETZ: Okay, I will just,
23 Bandyopadhyay. Thank you so much for being
24 here, again.

25 MS. BANDYOPADHYAY: I would like to thank

1 you for coming to Gainesville and to Alachua
2 County to listen to us and giving us the
3 opportunity to speak.

4 I agree with many other previous speakers
5 that this would have been a much more useful
6 exercise if we had all had maps to look at
7 beforehand.

8 And as has been pointed out, although the
9 previous last time you had the meetings in
10 July, they also had maps in July for people to
11 look at. So it is a little bit of an exercise.

12 On the other hand, I can point to one
13 thing that concerns me, is that the legislative
14 line for the Congressional Districts, the U. S.
15 Congress, goes down more or less 13th Avenue,
16 except for it carved out my neighborhood to
17 stick it on the east side of town, even though
18 it is on the west side.

19 What that does, it means that we have two
20 Representatives in Congress, one of whom is
21 described as D-Jacksonville, and the other one
22 is described as R-Ocala. That is who has --
23 who Gainesville has representing them in the
24 Congress, and that is actually important
25 because that splits, as has been talked about,

1 it splits the community of the University of
2 Florida in two, which is actually relevant to
3 how we get funding, not just at the state
4 level, but also in the Federal level because we
5 look at funding that comes from Congress
6 regarding scientific, medical research that
7 comes to the University of Florida and there is
8 a big economic engine here and if we don't have
9 a Representative in Gainesville, which I don't
10 really think has been maybe explicitly
11 mentioned, then it is very difficult to get
12 those points across to our Legislators because
13 we have to go to Ocala or we have to go to
14 Jacksonville.

15 They have local offices but that is not
16 the same thing as having their primary seat
17 here in Gainesville. And so I would just like
18 to urge that when we look at those lines in
19 this upcoming redistricting, that it is
20 considered that Gainesville, itself, is a city,
21 is a community of interest, and although that
22 exact terminology is not in the Fair Districts
23 legislation, that we actually consider that as
24 being a primary continuous boundary that we
25 would like to see in one district and not in

1 two. Thank you.

2 CHAIRMAN GAETZ: Thank you,
3 Ms. Bandyopadhyay. Now we have Michael Bowie
4 from Omega Psi Phi Fraternity and then James
5 Ingle and then Ron Thornton.

6 I apologize, I didn't mean to skip you,
7 Chris Ott. I had you right on top. Thank you
8 for being here.

9 MR. OTT: Well, thank you for being here.
10 I want to thank you for taking, for giving up
11 your evening. I am sure you have families and
12 things, I know I have a son out at, from out of
13 town.

14 It looks like he is out having fun with
15 his friends and I am going to miss him because
16 he is leaving in the morning, but this is an
17 important event.

18 I was at the last redistricting when it
19 was at the Doyle Conner Center ten years ago.
20 At that point I wondered why it was called a
21 hearing, because there wasn't much listening
22 going on, there was people texting and talking
23 and chatting, and I appreciate that you have
24 run a fair meeting, Mr. Gaetz. I appreciate
25 that.

1 I think what we need our districts that
2 elect Representatives that we can access
3 readily and we can meet them. Some of the --
4 some of the 150-mile long districts and things
5 we got, I know, I live in Gainesville and I
6 work in Archer, and every election I see
7 Mr. Bemby out there putting out his signs at
8 the Davis Center, and, you know, I say hi and
9 then I see him in Tallahassee, also, but it is
10 pretty ridiculous what we got.

11 And I think just common sense, just
12 showing those maps, that is why 63 percent of
13 Floridians have spoken through the ballot to
14 change the way that we redistrict things.

15 The first time the Fair Districts tried to
16 put this on the ballot they actually didn't,
17 they wanted to remove the redistricting from
18 the Legislature. They wanted to have an
19 impartial body to do the job, but the Courts
20 threw that out because they said that it was
21 two issues, multiple issues on a ballot, you
22 can only have a specific one issue on a ballot.

23 You know, I am trying to look at that
24 bumper sticker that says More Wag and Less
25 Bark, but what I see is that as a consequence

1 of having Representatives that I don't feel
2 really represent me, and I think this is just
3 another gentleman put it pretty well.

4 When you draw things to favor incumbents,
5 incumbents know they can win so they can go to
6 Tallahassee or Washington and they can say what
7 they want to say, and it makes our country get
8 more and more polarized and we are now at the
9 place where, I don't know, I am kind of fearful
10 about, you know, our country driving off the
11 cliff, playing chicken with the debt crisis and
12 what-not, because we can't sit down and have a
13 discussion about issues.

14 What we are doing now is we are picking
15 sides, and I have neighbors and I am tired of
16 picking sides. We are all Americans here, and
17 I think if you watched the World Cup the other
18 day when the Brazilian girl just dropped in the
19 box to waste time, and the fans in the stands
20 saw it, nobody heard her, she was faking it,
21 and she got put on the stretcher, took up two
22 minutes of time, Abby Wambach back said, watch
23 the time, please, Referee. As soon as that
24 stretcher got off the field, that girl jumped
25 off, ran around, tried to get back in the game.

1 Floridians are watching what is going on.
2 We don't want to be duked. And they are
3 watching because they want this to be a fair
4 process.

5 Where are the maps? Got maps? We should
6 be discussing the particulars of how to make
7 things fair. One thing that I have gotten here
8 tonight is the folks in the rural county
9 wanting to have a fair shake.

10 The other thing I have heard is we are
11 going to have water issues here. We are going
12 to have, you know, there is the old story, I
13 got good news and bad news about water. Do you
14 want the good news, the good news is where --

15 CHAIRMAN GAETZ: I apologize, Mr. Ott, you
16 are going to have to wind it up.

17 MR. OTT: I am wrapping it up. The good
18 news is we are going to be drinking sewage in
19 about 25 years. The bad news is there not
20 going to be enough to go around.

21 So we have some serious issues, we need to
22 start working on talking about the issues and
23 stop picking sides.

24 CHAIRMAN GAETZ: Thank you, Mr. Ott, very
25 much. Michael Bowie, Michael Bowie here? How

1 about James Ingle, James Ingle, then Ron
2 Thornton and then Mark Werner with the
3 Democratic Party. Mr. Ingle, thank you for
4 coming tonight.

5 MR. INGLE: I appreciate it, sorry, I am
6 actually a little bit under dressed than
7 everybody else, I woke up about --

8 CHAIRMAN GAETZ: You are a citizen, we
9 work for you, you are not under dressed. We
10 welcome you.

11 MR. INGLE: Thank you. I woke up about
12 4:00 this morning, drove to Crystal River,
13 worked a ten-hour shift in a power plant, drove
14 back and came to this meeting, so it has been
15 kind of a full day.

16 I wanted to tell you guys how impressed
17 and how much I like this process. That is what
18 I wanted to do, it is not true. I feel like it
19 is lacking a lot.

20 You know, this seems entirely backwards to
21 me, like we are here discussing the districts
22 and what they need to look like without a map,
23 with a giant blank 30-foot screen behind you.

24 It seems very hard to have a legitimate
25 conversation about it without the information

1 being out.

2 You have mentioned several times that
3 there is nothing stopping the Legislators from
4 putting maps out today or yesterday or the day
5 before, but the fact that there is nothing
6 stopping them and no maps have come out from
7 the Legislators, it seems to make it seem to me
8 that it is not a particular priority for the
9 leadership in the Legislature.

10 You know, I don't want to stand up here
11 and attack all Legislators, you know, I have
12 been to Tallahassee, I have sat in Mr. Evers's
13 office and Mr. Oelrich and Mr. Chestnut and
14 they seem like decent people and they have
15 always been honest and straight up with me and
16 I don't want to -- what I say sound like I am
17 attacking every single person standing up
18 there, because I am certainly not.

19 I also know you are great people, but the
20 Legislature as a whole, I have just not been
21 very impressed with them on this issue.

22 You know, Florida is already kind of a
23 laughing stock around the country for politics
24 and now we are in a position of Florida is
25 suing itself about fair districts.

1 So we as taxpayers get to pay both sides
2 of a lawsuit, like we are just throwing money
3 at lawyers, and it just seems like in a state
4 where we talk so much about budget crisis, that
5 seems like a bad place to be spending money
6 right now.

7 You know, and during the last election the
8 voters spoke, you know, and whether you agree
9 with the Fair Districts or not, two out of
10 three Floridians came out and said that is how
11 they wanted their districts done, before we had
12 a map that looked like that, and there is only
13 one reason a map like that gets drawn. It gets
14 drawn for political power.

15 The party in power draws that map to make
16 sure it maintains power, and I realize that
17 nobody standing on this stage had anything to
18 do with drawing that map. That was before
19 everybody's time, but at the same time,
20 everybody on this stage has had -- been
21 affected by how that map was drawn.

22 So, I mean, this is all of our problem and
23 I think that the voters need to be listened to,
24 and I worry that several of the kind of veins
25 the Legislature went in seem to be against the

1 will of the people.

2 It seemed like voter rights were under
3 attack and it doesn't seem like as much as
4 being done as could be to move forward with the
5 Fair Districts, and as I said I would love to
6 come up here and tell you how impressed I am
7 with this process, and I wish the process was
8 in place so I could be impressed with. Thank
9 you.

10 CHAIRMAN GAETZ: Thank you, thank you very
11 much for taking the time to come tonight. Now,
12 here is where we are. We have by my clock
13 about 14 minutes left. I have about 30 people
14 who want to talk.

15 So we are not going to get to everybody,
16 so here is what we can do, if we don't get to
17 you tonight, obviously it is not because we
18 didn't want to, we have heard, by my count,
19 gosh, 71 speakers so far.

20 So if we didn't get to you, you can still
21 submit your comments, they will be given to
22 every single member of the committee and every
23 member of the committee will have the benefit
24 of your wisdom and there will be other hearings
25 and other opportunities as well to speak if you

1 would like, but we are going to go as far as we
2 can with the people who are here. We ask you
3 to please be as brief as you can.

4 Ron Thornton? Ron Thornton? Once, twice,
5 three times, Mike Werner, representing the
6 Democratic Party. And then, Kim, I think it is
7 Popejoy, and then Tommy Langford.

8 Thank you very much for being here
9 tonight, Mr. Werner.

10 MR. WERNER: Thank you for giving me the
11 opportunity to speak, and I would like to thank
12 you, the Chairman, for your -- your demeanor
13 and the respect you have given to all of the
14 speakers and how you have made this more of an
15 affable and non partisan type of atmosphere.

16 First of all, I would like to have a
17 question. I didn't know before I came here and
18 I am rather new to this redistricting process,
19 I didn't know that there was some legal move
20 afoot that was put into place by the
21 Legislature to contest the legality of the Fair
22 Districting Amendment, and I just wonder how
23 many people on the stage now voted in favor of
24 contesting that Amendment or whether, what is
25 the, you know, whether they were in favor of

1 it.

2 Is there anyone on the stage who was in
3 favor of legally contesting the Fair
4 Districting Amendment?

5 CHAIRMAN GAETZ: I will tell you what we
6 can do. As opposed to giving everybody an
7 opportunity to explain their position, why
8 don't we give you, why don't we give you a
9 chance to talk afterwards with anybody you want
10 to talk to, but I think you will find that,
11 that there is a difference of opinion among
12 Senators, Representatives, Republicans,
13 Democrats. What else do you have for us
14 tonight?

15 MR. WERNER: Well, I would just like to
16 mention the main reason that I am here, and
17 that is because the gerrymandering process can,
18 by its very nature, dilute out whole sections
19 of the electorate and produce a result in which
20 there is, instead of which democracy instead of
21 being government by the majority, is government
22 by the minority.

23 And we have several examples of that in
24 recent and not so recent history, starting with
25 Samuel J. Tilden against Rutherford B. Hayes,

1 when Rutherford B. Hayes was named President,
2 even though he had a minority of the votes,
3 when Albert Gore got a majority of the votes of
4 the country and George Bush was proclaimed
5 President.

6 So I just want to make the point that you
7 have a very large responsibility in instituting
8 the fair districts to prevent this from
9 happening, because I am concerned that we are
10 moving more towards a democracy where there is
11 government by the minority instead of
12 government by the majority.

13 And lastly, I would like to echo the
14 sentiment about think globally but act locally,
15 and in that sense I think that there are, what
16 we do here has some bearing on really around
17 the world.

18 Right now in the Middle East there is a
19 tremendous upsurge of sentiment for democracy
20 and I think it is our responsibility to be a
21 beacon of democracy and be an example that
22 other people can follow and embrace.

23 And I think that is what we want to do and
24 that is what the voters of Florida wanted to do
25 with the Fair District Amendment, was to make

1 this a better democracy and that is why I would
2 urge you to go with the Amendment and the
3 spirit of the Amendment.

4 CHAIRMAN GAETZ: Thank you very much, sir.
5 Next, Kim, is it Popejoy, and then Tommy
6 Langford, and I hope we will have time for Ted
7 Yoho. Kim?

8 MS. POPEJOY: Kim Popejoy, citizen and for
9 those of you that are still able to listen,
10 thank you very much for being here to listen.

11 It has been said that if you have a varied
12 group of people it takes seven times and seven
13 different ways and I think that you have all
14 heard today that people want you to speed up
15 the process and I know you have heard that at
16 least seven times.

17 People want you to pay attention to the
18 county lines, you have heard that at least
19 seven times today. I think you have also heard
20 that people need you to try and keep rural
21 districts contiguous also, seven times.

22 So I urge you to take those particular
23 areas of concern back to your committees and
24 urge your staff to give us maps ASAP.

25 Secondly, I want to go to just very

1 briefly, the big picture, and it has been
2 mentioned a couple of times, that we are much
3 more of a polarized society today than we have
4 been in quite some time, and some of that may
5 be laid at the feet of how districting is done.

6 Without competitive districts, then we
7 have less opportunity for representing the
8 middle of the country, and if we go back to
9 1859 and 1860, we are a very polarized country.

10 I am sure that no one at that time thought
11 that it would explode in the way that it did.

12 I am sure that nobody thinks that the kind of
13 polarization that we have in the country today
14 is going to explode in anything kind of
15 similar, but I ask you to keep that in mind
16 that we want to make sure that we do not let
17 the polarization that is current in our country
18 continue to progress to the point where we are
19 actually at each other's throats as we were in
20 past.

21 And one of the ways that we can do that is
22 to create competitive districts, competitive
23 districts will give us middle of the road
24 candidates.

25 CHAIRMAN GAETZ: Thank you very, very much

1 for your comments. Next is Tommy Langford, and
2 then Ted Yoho and we are going to try to get to
3 D. J. Ferguson. Mr. Langford?

4 MR. LANGFORD: Thank you, sir, for the
5 honor to speak to you tonight. I appreciate
6 having the opportunity to be here.

7 Just a couple of words, I will be brief, I
8 am here to represent Gilchrist County. I want
9 to remind you and ask you to keep the rural
10 counties rural as much as you can, because our
11 wants and desires are a little bit different
12 than the urban areas and I am sure that you
13 understand that.

14 The other thing is, just make sure that we
15 try to keep it as fair as we can. I know ya'll
16 have been elected to go to Tallahassee. You
17 got the majority votes, that is the reason you
18 hold that seat. So I just ask that you do it
19 right, do it fair, abide by the law.

20 I appreciate your courage for being here
21 tonight. I know that you are in a situation
22 where you are going to hear good things, bad
23 things, everybody wants this, everybody wants
24 that, and you can't please them all, but do the
25 best you can with what you got and thank you,

1 sir.

2 CHAIRMAN GAETZ: Thank you very much, sir.
3 Ted Yoho and then D. J. Ferguson.

4 MR. YOHO: How are ya'll doing, appreciate
5 your time, Mr. Chairman, and the Honorable
6 Representatives.

7 I pretty much am going to defer to what
8 everybody said because they have covered all of
9 my points, but just a few things.

10 Especially in regards to Ms. Kidder,
11 especially in regards to a candidate, since I
12 am -- I am a candidate, and it is hard to
13 campaign without these lines drawn, and we have
14 been told it may be even up to November. It
15 just creates --

16 CHAIRMAN GAETZ: Let me disabuse you of
17 that. That is simply not true.

18 MR. YOHO: Well, that is good, that makes
19 me feel better, but it causes a lot of
20 confusion on the voter's side, too.

21 My encouragement is to be fair, equitable,
22 expedient and use common sense as Mr. Boyetx
23 pointed out here in the town of Archer and all
24 of the different districts in that, and I know
25 you will be.

1 It is hard to give an opinion and people
2 have brought this up over and over again
3 without seeing a map. It is kind of like going
4 out on a blind date and your buddy said, well,
5 what is it like, and I said well, I will tell
6 you after we go out on the date.

7 You would expedite this or make it faster
8 if we had the maps where we could just say
9 these look good, and, you know, I know that is
10 a tough thing with the demographics.

11 And so I encourage you to make it as, the
12 maps available as soon as possible and to bring
13 the process to a quick and equitable conclusion
14 and I appreciate your time and your service.

15 CHAIRMAN GAETZ: Thank you very much. D.
16 J. Ferguson, D. J. Ferguson? Okay, George
17 Tedford, George Tedford? Judith Etzler, Judith
18 Etzler, Judith Etzler. I -- is there -- are
19 you Ms. Etzler? Please come forward. You will
20 be our last speaker this evening.

21 First shall be last and the last shall be
22 first. We are delighted to have your
23 testimony.

24 MS. ETZLER: Thank you for holding this
25 meeting. I voted for Fair Districts, and I

1 really believe in one citizen, one vote. I am
2 getting pretty sinical about all of the ways
3 that I am being manipulated as a citizen, I am
4 just talking as one citizen.

5 I am a very serious citizen and I always
6 vote and I follow issues. I follow the news on
7 television, I follow local issues, I follow
8 Federal and I also try to pay attention to
9 national issues.

10 But I don't appreciate all of the
11 political games that are being played with me.
12 Word framing, not gerrymandering districts,
13 there are so many things that I don't
14 appreciate and I think it waste my time, it
15 waste your time and it also waste our citizens'
16 money.

17 Please, the last thing I will say is,
18 please treat us with respect. We need your
19 respect. We try to respect you, and also if
20 you would treat us as intelligent citizens.

21 I am very intelligent and I am tired of
22 being disregarded and I am tired of being, the
23 feeling of being sinical about my government.
24 I love my government. I am an American
25 citizen, I always vote.

1 I come from a long family of voters and I
2 was taught to love my country. So please allow
3 me to keep on doing that and keep on respecting
4 the people who make the laws and don't waste
5 our money, thank you.

6 CHAIRMAN GAETZ: Thank you, Ms. Etzler.
7 We have heard 70 -- by my reckoning, we have
8 called 79 names and I think we have heard 75
9 testifiers tonight.

10 We appreciate everyone's willingness to
11 come forward. There are maps available now on
12 the websites that have been submitted. There
13 are likely to be more maps submitted.

14 The one thing I would like to share with
15 you is that apparently there is some impression
16 that somehow this committee will -- will have a
17 map that springs fully grown from the Brow of
18 Suske (phonetic). That is simply not the case.

19 The fact is that there will be individual
20 maps generated by individual Legislators, just
21 like there are individual maps being generated
22 now by citizens and by interest groups.

23 The last time there was a public hearing
24 in Gainesville about this matter was in July,
25 in the last cycle. There were maps then, but I

1 will guarantee you that there will be maps long
2 before July, and, you know, unless the creek
3 rises, we will be long gone with this whole
4 issue long before July.

5 So we really appreciate your willingness
6 to come out tonight. We appreciate your
7 kindness to the individuals who spoke, whether
8 you agreed with them or whether you didn't
9 agree with them, and we are delighted to get
10 the kind of input that we could not have gotten
11 any other way or any other place than from
12 listening to the specifics about your
13 neighborhoods and your communities.

14 This is not your last time to have input.
15 This is your first time to have input, and
16 please continue to be involved in this
17 important process that defines our
18 representative government.

19 With that, Representative Precourt moves
20 we rise.

21 (Whereupon, the proceedings were
22 concluded.)

REDISTRICTING COMMITTEE
WEDNESDAY, JULY 13, 2011

8:00 A.M.

COLONY COTTAGE RECREATION CENTER
THE VILLAGES, FLORIDA

Transcribed by:
CLARA C. ROTRUCK
Court Reporter

1 T A P E D P R O C E E D I N G S

2 CHAIRMAN PRECOURT: Representative
3 Precourt, the Joint Senate House Redistricting
4 hearing is hereby called to order. We are also
5 pleased to be joined today by a number of other
6 members here, Senators and Representatives
7 alike, but first I would like Senator Alan Hays
8 here to have an opportunity to welcome everyone
9 and let other members introduce themselves.

10 Before we do that I am Steve Precourt,
11 State Representative from House District 41,
12 which includes south Lake County, parts of
13 Orange and west Orange County, and I will be
14 chairing today's meeting, and the -- with me
15 today from the Chair of the Senate
16 Redistricting Committee is Senator Gaetz who
17 will be Co-Chairing the meeting, and with that
18 let me turn it over to Alan to go ahead and
19 welcome everyone.

20 SENATOR HAYS: Thank you, Mr. Chairman,
21 and it is my privilege to welcome all of the
22 members from across the state to Senate
23 District 20. You are right in the heart of
24 God's country, and you are in, you are in House
25 District 42, Representative Marlene O'Toole's

1 district and we certainly want to thank each of
2 you for coming this morning to participate in
3 democracy.

4 It is great to look out there and see
5 Speaker Larry Cretul and Senator Carey Baker
6 with us today also. Thank you for joining us,
7 guys, but it is my privilege to be the Senator
8 for this area and certainly enjoy welcoming
9 each of you to hear some real good input today.

10 A VOICE: Good morning, and it is a great
11 day in The Villages, is it not? I am happy to
12 see you all here. It is like church, no one is
13 up front, but we will pass the plate back there
14 just the same.

15 Thank you for being here, and I am just
16 going to turn right back -- is everyone speak,
17 and this is Representative Passidomo from the
18 Naples area.

19 REPRESENTATIVE PASSIDOMO: Good morning,
20 Kathleen Passidomo, I am from Collier County, I
21 represent the City of Naples, Marco Island,
22 Everglades city and a lot of alligators.

23 REPRESENTATIVE BOYD: Good morning, I am
24 Jim Boyd. I am from Bradenton, which is
25 Manatee County, District 68, just south of

1 Tampa Bay on the other side of the, the other
2 part of the state over there. Thank you.

3 REPRESENTATIVE HOOPER: Good morning,
4 everyone, I am Ed Hooper from -- a
5 Representative from District 50, which is the
6 Clearwater area of Pinellas County, and I
7 purposely took my golf clubs out of the car
8 before I got here so I would make this meeting.

9 REPRESENTATIVE CHESTNUT: Good morning,
10 Representative Chuck Chestnut, House District
11 23, a portion of Alachua County and a portion
12 of Marion County.

13 REPRESENTATIVE GOODSON: Good morning,
14 Representative Tom Goodson, representing
15 Brevard County and Indian River County, House
16 Seat 29.

17 SENATOR MONTFORD: I am State Senator Bill
18 Montford, District 6. It is all or a part of
19 11 counties, all around Tallahassee, and we are
20 proud to say, well, I was proud to say that I
21 have a lot of relatives move down here but the
22 problem is they can't vote for me anymore, but
23 take good care of them.

24 REPRESENTATIVE NEHR: State Representative
25 Peter Nehr from Pinellas County and Pasco

1 County, Palm Harbor and the East Lake area.

2 Thank you.

3 REPRESENTATIVE KAIR: Hello, everybody, my
4 name is Martin Kair, I represent District 97 in
5 the Florida House of representatives, which is
6 located solely within Brevard County. Thank
7 you so much for coming today.

8 REPRESENTATIVE CALDWELL: Good morning,
9 Representative Matt Caldwell, District 73 down
10 in southwest Florida, Lee County.

11 REPRESENTATIVE FRISHE: Good morning, I am
12 Representative Jim Frishe, I am the majority
13 whip of the Florida House. I represent
14 District 54, which is the west coast of
15 Pinellas County, all of the beaches.

16 REPRESENTATIVE ADKINS: Hi, my name is
17 Janet Adkins, I represent House District 12,
18 which is in northeast Florida, Nassau, Baker,
19 Bradford, Clay, Union and Duval Counties.

20 REPRESENTATIVE STARGEL: Hi, my name is
21 Kelli Stargel, I am a State Representative for
22 District 64, which is north Polk County and my
23 grandfather actually was the Sheriff of Sumter
24 County back in the late 1800s, so I have roots
25 here.

1 SENATOR THRASHER: Hi, I am Senator John
2 Thrasher, Senate District 8, which includes
3 parts of Nassau County up in the north part of
4 Florida, Duval County, St. Johns County,
5 Flagler County and Volusia County, and honored
6 to be here today.

7 CHAIRMAN PRECOURT: Senator Evers.

8 SENATOR EVERS: And I am Senator Greg
9 Evers, I represent District 2 in the Senate,
10 which is up in the panhandle. It is north
11 Escambia, Santa Rosa, Okaloosa, Walton,
12 Washington, Holmes Counties, and it is a
13 pleasure to be here at The Villages.

14 CHAIRMAN PRECOURT: Okay, I think we got
15 everyone. Any other members? Terrific. So,
16 folks, you see that we have got members from
17 all over the state of Florida that are here.

18 The sole purpose is to hear you and to
19 hear your input from both parties as well,
20 there is Republicans and Democrats as well up
21 here.

22 We are trying to make this as open,
23 transparent and inclusive a process as
24 possible.

25 First I want to also say thanks to The

1 Villages, themselves, for allowing us to use
2 this beautiful facility. It is great to have
3 the opportunity to be in a place like this
4 where everybody can come and enjoy themselves
5 at meeting as well, and we want to thank you
6 all for being here.

7 You, the members of the public, you are
8 taking time out of your day to come and share
9 your comments and recommendations with us to
10 help us shape the Congressional Seats, State
11 Senate Seats, as well as the Representative
12 Seats.

13 Today's hearing is also being televised,
14 simulcast on Florida Channel over the Internet.

15 Once again, our sole purpose is to hear
16 from you about how you believe the legal
17 standards governing redistricting should be
18 applied in your community, as well as statewide
19 so that you are represented in Washington and
20 Tallahassee fairly, equitably and sensibly.

21 Now, our procedures today are very simple,
22 but they are going to be very important to
23 follow.

24 It is important that you sign in so we can
25 create an accurate public record of all of the

1 attendees and the speakers. You may also want
2 to as part of signing in, join our e-mail list
3 so that we can keep you informed about the
4 entirety of the redistricting process and all
5 of the developments along the way, whether it
6 be meetings, news or you get to see what other
7 people submit as far as maps and comments on
8 the redistricting process.

9 So if you are not signed in, please raise
10 your hand and one of our staff who are around
11 the room will give you an attendance card.

12 In addition, if you wish to speak today
13 and you have not filed out an attendance card,
14 make sure you do. They are like this. We need
15 these to make sure that we give you the
16 opportunity to speak.

17 Now, if you haven't filled one out and you
18 want to fill one out later on in the meeting,
19 because it comes to mind that you have
20 something more or different to say, you can do
21 that at any time as well by seeing one of our
22 staff and they will get those cards up to me
23 and get them in line.

24 Our job is going to be to sit here and
25 listen though, the folks up here on the dais,

1 but before we begin, I want to recognize
2 Senator Gaetz to explain how today's hearing
3 will fit into the overall redistricting
4 process. Senator Gaetz.

5 SENATOR GAETZ: Thank you very much,
6 Mr. Chairman, and it is good to be here. I am
7 Don Gaetz, I represent five coastal counties up
8 in northwest Florida, from Panama City to
9 Pensacola, and you stole my jeweler. Bill and
10 Suzie Houck came down here to live and they
11 closed their jewelry store and my wife's
12 birthdays haven't been the same since.

13 Every ten years the Legislature is
14 required by our Constitution to redistrict the
15 state based on increases, decreases and
16 movements of population. Because Florida has
17 grown more than other states in the last decade
18 we will move up, Florida will move up from 25
19 to 27 members of the U.S. House of
20 Representatives, and we get two more electoral
21 votes for President. So we are up to 29
22 electoral votes for President.

23 Now, because some parts of the state have
24 increased or decreased disproportionately in
25 population, many Senate and House Districts

1 will change either by adding or losing
2 population.

3 When redistricting is completed,
4 Congressional Districts have to be equal in
5 size. They have to be equal in population and
6 contain 696,345 people. That is a
7 Congressional District, no matter where it is
8 in America.

9 The 40 Senate Districts here in Florida
10 must also be nearly equal at about 44 hundred
11 and seventy thousand people and our 120 House
12 Districts must also be nearly equal at about
13 156,700 people.

14 Now, we have displays in the front of the
15 room here and in the back of the room as well
16 showing the current boundaries of districts in
17 this area of the state, and also the number of
18 persons who have to be added or subtracted from
19 current districts in order to achieve equal
20 representation.

21 So there are maps. We can use the current
22 maps as a take-off point for you to tell us
23 what is right, what is wrong, what should be
24 changed, what should be kept, and you will be
25 able to see how many additional people have to

1 be added or subtracted from every district.

2 But equality of representation is not the
3 only legal requirement redistricting plans must
4 meet. The laws and important court cases
5 governing redistricting are explained in detail
6 on the House and Senate websites.

7 Those websites are listed on the
8 Redistricting 2012 brochure that was available
9 when you came in. If you didn't get one of
10 those brochures you can get one during the
11 meeting, you can get one afterwards.

12 The brochure summarizes Federal and State
13 laws and outlines topics that we hope you will
14 discuss here at today's meeting. The brochure
15 also details what is on our websites. The
16 websites are packed with information about
17 redistricting in Florida, including an
18 explanation of laws and important court cases
19 governing this process.

20 The Legislature can't just draw lines the
21 way it wants to. We are obligated to follow
22 Federal laws, State laws, Constitutional
23 provisions, as well as be guided by important
24 court cases that have affected redistricting.

25 The websites also deliver to your

1 fingertips important demographics information
2 that will be used by us in drawing districts
3 and the exact same computer software that
4 Legislators and professional staff will use is
5 on the website.

6 As soon as we got the information from the
7 Bureau of the Census about Florida and the
8 descriptors about all of us as Floridians, we
9 put it on the website. we got our information
10 from the Census Bureau later than most states.

11 We put it on the website, and then also
12 the software that is used to draw the districts
13 is on the website so that anybody can take a
14 look at it, can draw districts that might be in
15 your area of the state, or if you want to, you
16 can draw the whole state.

17 Before, during and after this hearing
18 Senate and House staff are available to show
19 anybody the simple steps to getting on-line,
20 building districts and submitting a plan if you
21 want, now or in the weeks to come.

22 Recommendations from citizens or from
23 interest groups will be made publicly
24 available as soon as we get them. In other
25 words, as soon as you submit an idea for how

1 you think things ought to be changed we will
2 put it on the website so everybody can see it.

3 As soon as a Legislator submits a Bill or
4 a map, we will put it on the website so you can
5 see it and comment on it. In fact, some
6 submissions, some maps are already on the
7 website and available for you to look at.

8 The other day when we were in Jacksonville
9 literally during the hearing there were three
10 more maps that were placed on the website,
11 three more proposals that were submitted. So
12 there are some options to look at already.

13 The submission of proposed maps, whether
14 it is for your part of the state, whether it is
15 for your neighborhood, whether it is for the
16 whole state, submission of maps that makes
17 sense to you, to your community, is the single
18 most effective form of public participation in
19 the redistricting process.

20 Redistricting is also driven by a
21 schedule. The schedule we are operating under
22 is imposed by the State Constitution. We can't
23 change it without changing the Constitution and
24 we can't change the Constitution, only the
25 voters can do that.

1 The Constitution does not permit the
2 Legislature to act on state legislative maps
3 before the second year after the census. In
4 other words, before 2012.

5 Now, we have accelerated the process as
6 much as we could by moving up the 2012 session
7 of the Legislature from March, when it usually
8 starts, to January, and by beginning our
9 statewide hearings five months in advance of
10 the 2012 session.

11 Now, it has been suggested by some that
12 the Legislature ought to just draw the maps and
13 bring them here and say here they are and then
14 ask the public to comment and react to Feta
15 Compli.

16 We believe that puts the answer ahead of
17 the question. There should be no
18 preconceptions created by politicians, but
19 rather public testimony and your ideas should
20 be free and unrestricted. Believe me, there
21 will be plenty of time for all of the
22 politicians to make all of their speeches and
23 offer their observations, but first we want to
24 hear from you.

25 In fact, the author and Chair Person of

1 the Fair Districts Committee that put together
2 Amendments 5 and 6 that are now a part of our
3 Constitution testified before the House and
4 Senate and is on record as saying that new maps
5 could not be drawn.

6 She wouldn't even to try new maps without
7 public hearings first, without giving the
8 public an opportunity to comment. Our intent
9 is to use the recommendations made at these
10 hearings and through input from the Internet as
11 the basis for developing one or more options
12 for district maps.

13 We will discuss any option in open public
14 meetings before any votes are taken even in
15 committee. So this isn't your last time to
16 have input. This is your first time. Any maps
17 that come before the House or Senate
18 Redistricting Committees for votes will be
19 publicly available and publicly discussed and
20 the votes will all be taken in front of the
21 public so that if you have criticisms or
22 suggestions or observations you can offer them
23 to us by Snail Mail, by telephone, by hearings
24 such as this, or any other method of letting
25 your views be known.

1 And then whatever the Legislature passes
2 is submitted for judicial review to ensure that
3 the final plans meet every legal requirement.
4 Because our purpose today is to hear from you,
5 all of the time between now and noon, and we
6 will go all of the way to noon, if as long as
7 there is public testimony, all of the time will
8 be used to ensure that every member of the
9 public who is here and who wishes to speak will
10 have time to present testimony and be listened
11 to respectfully without interruption or
12 argument.

13 Now, after all of the citizens who are
14 here and want to speak have their say, if there
15 is time remaining before our scheduled
16 adjournment, then any member of the Committee
17 will have the opportunity to offer any
18 observations, answer any questions, ask any
19 questions, offer any proposals, react in any
20 way to anything that comes up in today's
21 meeting.

22 And, of course, any member of the
23 Legislature may today, or at any time, propose
24 a map or a plan and we will immediately make it
25 available to the public.

1 Mr. Chairman, I hope this description of
2 our schedule and our process helps set the
3 stage for a successful hearing.

4 REPRESENTATIVE PRECOURT: I really think
5 so and thank you very much, Senator Gaetz, for
6 that great introduction.

7 We have staff all around the room, and
8 again, they are great staff, they provide us
9 notes to make sure we don't miss anything, so
10 we give you the important information that you
11 need so we can have a successful meeting here
12 in which you can participate.

13 So if you need anything, again, walk to
14 the back of the room during the meeting, feel
15 free to get up and mill around and talk to
16 them, they can help you out.

17 I want to reiterate, as Senator Gaetz
18 mentioned, we are going to adjourn promptly at
19 12:00, but we still have three hours. That
20 will be a good amount of time to get
21 everybody's comments in.

22 However, we have already got over 40 cards
23 and typically we pick up a few more in the
24 process of people that want to speak. So if
25 you do want it speak and if there is anybody

1 else that wants to speak as you walk in, raise
2 your hand, and ask for a card and our staff
3 will walk over to you and help you out with
4 that.

5 To ensure that everybody gets the
6 opportunity to speak we are going to divide the
7 time equally and limit each person's testimony
8 to three to five minutes as a courtesy to all
9 of those behind you that wish to speak.

10 Sometimes we have to, you know, be a
11 little bit more hard on the rules, but we are
12 going to be as flexible as possible to make
13 sure that you have the opportunity to say
14 everything that you want, but if there is a
15 great deal of additional detail, please submit
16 something in writing, because as the Senator
17 said, those written comments and maps in
18 particular, a picture paints a thousand words,
19 so that will help us interpret what you say
20 much better.

21 Our first speaker is going to be Mr. Dan
22 Hahnfeldt. I believe I pronounced that
23 correctly. If you would step up to the
24 microphone, and let me, before he starts, I am
25 going to mention who comes next and if ya'll

1 can start lining up so that you can be prepared
2 to speak as soon as the previous speaker is
3 done and I introduce you we can get right to it
4 and we don't have to wait for people to come to
5 the microphone.

6 After Mr. Hahnfeldt will be Gail Boetty.
7 Okay, thank you. Mr. Hahnfeldt, the floor is
8 yours.

9 MR. HAHNFELDT: Good morning, good
10 morning, Mr. Chairman, and Committee,
11 distinguished members, Representatives and
12 Senators that have come to hear us and take
13 public input at The Villages.

14 First of all, on behalf of the 84,000
15 Villagers and voters from District 42, State
16 House District, I am the President of the
17 Villages' Homeowners Association and want to
18 thank you for taking that public input before
19 putting pen to paper and drawing those lines.

20 It is very important to us for a number of
21 reasons. A couple of comments about The
22 Villages and one simple request. The Villages,
23 one of the reasons why we are redrawing these
24 numbers, ten years ago at the previous census
25 we were small relative to today, retirement

1 community of about 11,000 homes and 22,000 in
2 population.

3 Since that time and in the current census
4 you see the result of quadrupling those roof
5 tops and population to now 84,000 and we are
6 still growing. We are about 75 percent to
7 80 percent done. There will be another 25,000
8 added by the next census and we look forward to
9 meeting you again in another ten years when you
10 are going to have to redraw those lines again.

11 In that time The Villages has become the
12 world's largest retirement community and grown
13 to a size in population where it is today, but
14 not in area. The area has not changed
15 markedly.

16 The circumference of The Villages is about
17 32 square miles, 1.6 times the size of
18 Manhattan, but it crosses boundaries of three
19 counties, Lake, Marion and Sumter County, two
20 cities, two water management districts and 12
21 community development districts.

22 That poses a bit of a challenge to us from
23 time to time in managing all of these
24 governmental entities to serve the general
25 interest of the population, growing to a

1 maximum within The Villages of about 109,000 in
2 five years.

3 That growth rate is unique in this period,
4 and I point that out because it has been very
5 significant to and to the benefit of Florida,
6 increasing the tax base, bringing resources to
7 the community, to our school districts, to the
8 general economy.

9 In fact, the last year the worst year in
10 47 years in the United States in new home
11 sales, The Villages was down selling maybe only
12 about 2,500 new homes out of the 321,000 in the
13 entire United States.

14 Now, while that is less than one percent
15 of the entire new home sales in the entire
16 United States, it is about two percent of the
17 new homes in the south eastern 17 states and
18 generated eight percent of the building permits
19 in the entire state of Florida. So we are
20 still growing, we are still contributing
21 greatly to the economy.

22 My simple request. We work very hard as a
23 community in the surrounding counties and
24 Representatives of the governmental entities
25 that serve work hard in this complex

1 governmental organization to serve this
2 community of interest.

3 The request is that, as you redraw the
4 lines, you keep us as a community of interest
5 and not divide us up. We are best served as a
6 community of interest. Thank you very much for
7 taking input.

8 REPRESENTATIVE PRECOURT: Thank you very
9 much, Mr. Hahnfeldt, and in furtherance,
10 calculating purposes, that was perfect. Right
11 at three minutes, if everybody that we have
12 down takes three minutes, we are going to make
13 it. If everybody takes five minutes we are
14 going to not have the opportunity to hear a
15 couple of people.

16 So with that, Gail Boetty is up, followed
17 by Fran Grossi.

18 MS. BOETTY: Yes, it is Gail Boetty.

19 REPRESENTATIVE PRECOURT: Boetty.

20 MS. BOETTY: I am looking at this as a
21 very good opportunity for all of you. You got
22 up this morning, you came out here and we thank
23 you for that. It is time to get it right this
24 time. No more spouting off a river off to the
25 right.

1 Lake County, when you look at District 8,
2 you got a beautiful square there and then all
3 of a sudden you got a line going here and a
4 river going there. Block it out, add a few
5 people, it is not rocket science, our children
6 are watching you.

7 We don't want games to be played with the
8 districts anymore. It is that simple. It is
9 not that scary to divide the state, and we just
10 would like you to show that to our children by
11 making it fair.

12 Show some integrity, no more running off
13 and grabbing certain areas that the votes look
14 good for certain people. We see what it looks
15 like. It is right there in the map in front of
16 you, and we thank you for doing justice this
17 time out. Okay.

18 REPRESENTATIVE PRECOURT: Well, thank you
19 very much, and thank you for keeping those
20 remarks focused on the redistricting process as
21 well. So we have got Fran Grossi, followed by
22 Leo Fallon.

23 MS. GROSSI: Thank you for giving us this
24 opportunity to come and talk with you today.
25 Ours is a government of the people. The

1 people's voice needs to be heard.

2 If you will look at our state, it is
3 divided up into different communities, okay,
4 different counties. I think we need to look at
5 those counties and try to keep them together as
6 possible, because the people of those counties
7 have issues that are different from maybe other
8 counties, and those voices need to be heard.

9 Okay, by dividing up those counties, by
10 shredding them into pieces, you are shredding
11 the voice of the people, and we are a
12 government of the people. We need to allow the
13 people's voices to be heard. Thank you for
14 this opportunity.

15 REPRESENTATIVE PRECOURT: Thank you very
16 much for speaking. Leo Fallon, followed by
17 Patricia Sullivan.

18 MR. FALLON: Yes, thank you very much for
19 coming, Senators and Representatives. I am Lee
20 Fallon, a resident of The Villages for 11
21 years. I have a very easy request, please keep
22 The Villages as a complete contiguous voting
23 district and not split as up. We are CCD and
24 we should keep that. Thank you very much for
25 your time.

1 REPRESENTATIVE PRECOURT: Thank you, now,
2 that is concise. Patricia Sullivan, followed
3 by Robert Carey.

4 MS. SULLIVAN: Good morning, my name is
5 Patricia Sullivan. I am from Lake County, I
6 live in Eustis. I am a mother of four and I
7 also teach them and so I appreciate the fact
8 that you haven't drawn maps ahead of schedule
9 for us to come in and criticize, because I
10 wouldn't do my children's school work for them.

11 I would give them the opportunity to take
12 personal responsibility in looking at the
13 fabulous website that you have created for us,
14 and then us taking the time as we should as it
15 is our duty as citizens to then draw maps.

16 And I have actually drawn a map, and it is
17 loading I am told, for all three districts.
18 And currently in Lake County, I believe that is
19 the Congressional map, Lake County is split
20 into four Congressional Districts.

21 As Fran eloquently stated, when we keep
22 our counties and our communities together, then
23 our voice is stronger and we bond together.

24 As you can see on that map, I have all of
25 Lake County in one district, which would be my

1 request, first off, and then I have Seminole
2 County basically because we have a lot of
3 similarities, but also in looking at projected
4 growth, Lake County is going -- is one of the
5 highest counties that will grow over the next
6 ten years. Seminole County is one of the
7 lower.

8 So to also keep it within the right
9 population that we desire to have in one
10 district, and then in the bottom of Seminole
11 County, I removed some of the voting districts
12 there simply because as the -- as we find here
13 in The Villages, it is one community, but it
14 crosses some political boundaries, and in that
15 area of Seminole County which I am familiar
16 with in the Winter Park, Maitland area, that
17 crosses two counties, but I took that out of
18 that district because there will be times when
19 we will expect you will have to cross political
20 boundaries in an effort to keep communities
21 together.

22 So the next map that I have that is going
23 to, I believe that is the House, Florida House
24 District. Again, Lake County in itself is
25 basically split into north Lake County and

1 south Lake County, and so the House District
2 there that I have chosen really just takes
3 north Lake County and its communities and keeps
4 them together in one district.

5 And then in the third map is the Senate,
6 and I just have Lake and I have Sumter County
7 together and there are areas in Orange County
8 around Mt. Plymouth and near Mt. Dora that are
9 a part of those communities, but I would not
10 object if you wanted to just then go north and
11 put The Villages, because -- and cross over
12 that political boundary and I will probably
13 redraw that map and takes parts of Orange
14 County out and include the parts of The
15 Villages to keep that together.

16 So again, I appreciate very much you
17 giving us the opportunity to speak. I
18 appreciate you giving us the opportunity to
19 draw our own maps before you do so, and thank
20 you for your time.

21 REPRESENTATIVE PRECOURT: Thank you,
22 Ms. Sullivan, thank you very much for
23 submitting those maps. It is very clear what
24 your intent is there.

25 Next we have Robert Carey, followed by

1 Andy Dubois.

2 MR. CAREY: Distinguished ladies and
3 gentlemen, I want to thank you for offering a
4 chance for a true Representative to democracy.
5 Your computer program, I was cussing you
6 yesterday.

7 I sat down and like most men, I didn't
8 bother to read the directions. I saw the
9 pictures you made a presentation the other
10 night, and I thought, well, this will be easy,
11 you just click around here and things disappear
12 and, well, it didn't work that way.

13 So after about an hour and-a-half I
14 decided to read the directions, and once I got
15 into it, it was fun, it is almost like a game,
16 and it is very educational.

17 I realized that we have to keep various
18 minorities and races and everything
19 represented, and so I tried to do that. I came
20 up with a plan for a Congressional District.

21 First off, Lake County with four
22 Congressional Districts running through it is
23 ridiculous. Congressional District 3 is an
24 abomination, as is District 8. So I tried to
25 keep things together, and like I haven't gotten

1 to the House and Senate yet, but after a few
2 hours of playing around I came up with a
3 Congressional District plan that keeps Lake
4 County and Sumter County together, along with
5 Marion County.

6 Of course, The Villages is included in all
7 of that, everything in Marion County except the
8 far western part, and as I was playing around
9 with it, the -- an outline of George Washington
10 started appearing, and, on Interstate 75 is the
11 bridge of his nose.

12 However, I couldn't get rid of his chin.
13 I would get rid of that, but that would put me
14 under or over and I still couldn't come up with
15 it. So you have to use your imagination. But
16 my request is to keep the counties together
17 wherever possible. Let's do away with this
18 cancerous finger here, finger there.

19 You know, as one of the previous speakers
20 said, it is not rocket science. You know, and
21 I do compliment you for giving us a chance for
22 this input and for having it fun, and making it
23 a game. I would encourage everybody to get
24 involved with it.

25 I intend to go back and do the House and

1 Senate Districts and do some more. I came up
2 with a plan, I will give you a couple of
3 copies. Anyway, I do want to compliment you
4 and let's keep it fair as far as minorities go,
5 and let's keep it simple. Thank you.

6 REPRESENTATIVE PRECOURT: Thank you very
7 much, and if one of our staff could grab that
8 input from you right beside you, thank you very
9 much.

10 Next we have Andy Dubois, I think I have
11 got that right, followed by Nancy Hurlbert.

12 MR. DUBOIS: Yes, you do, Representative
13 Precourt. My name is Andy Dubois, I want to
14 thank you for this opportunity to -- for
15 citizen input.

16 I am a resident of Lake County as well. I
17 live in Howie-in-the-Hills and my request is
18 that we keep the counties intact as much as
19 possible as opposed to the way it is now.

20 I am becoming familiar with the District
21 Builder Tool. I am also grateful for the
22 opportunity and the tools that you have made
23 available. I am looking forward to attending
24 other meetings as well, and I am just grateful
25 for the process that you have -- that you have

1 put forward in allowing us to have input rather
2 than just drawing the lines.

3 And I am hoping that we can end up with
4 some common sense in this and that we don't
5 lose, lose track of that in this process. I
6 want to thank you very much again for allowing
7 me to speak.

8 REPRESENTATIVE PRECOURT: Thank you for
9 being here, yes. Nancy Hurlbert followed by
10 Theodore Stratton.

11 MS. HURLBERT: Good morning, members of
12 the Legislature. Thank you for this
13 opportunity. My name is Nancy Hurlbert. I
14 live in Lake County and I want to talk just
15 briefly about two particular incidents in the
16 drawing of the districts.

17 Lake County, as you have heard several
18 times now, is represented by four members of
19 Congress. In one instance, in Corinne Brown's
20 district, which is House District, U. S. House
21 District 3, there is one precinct in Mt. Dora
22 that is in her district. All of the rest of
23 Mt. Dora is in Congressman Daniel Webster.

24 And the reason, I surmise, is that this
25 one precinct is in Corinne's district is that

1 it is a predominantly black district, and
2 predominantly Democrat.

3 So particularly partisan picked out to be
4 in that particular district. I would hope that
5 we do not split cities with this redrawing and
6 that we adhere to Amendments 5 and 6 that say
7 that cities and counties should be compact and
8 contiguous as much as possible.

9 In my -- I live in Leesburg, and as the
10 State House is represented, there are four
11 Representatives in Lake County, four. I live
12 in the east part of Leesburg, my Representative
13 is Larry Metz.

14 Friends of mine live in the gated
15 community of Plantation, which is also
16 Leesburg, and they have a different
17 Representative, and I have another friend that
18 lives in the city of Leesburg proper, and
19 another Representative.

20 So here we have Leesburg that is really
21 split up by three different Representatives.
22 That dilutes our representation and is really
23 unconscionable.

24 So again, adhering to Amendments 5 and 6,
25 and I really hope that you all take seriously

1 the voice of the people when they voted
2 63 percent for Amendments 5 and 6 that you
3 really look at these districts and you don't
4 split cities, you don't divide communities.

5 And when you are looking at areas like The
6 Villages that have three different counties,
7 even though they are in three different
8 counties, they are still a community of
9 interest, and as you heard from the homeowners
10 president, it is vital that communities of
11 interest also be kept together.

12 So in that particular case perhaps three
13 counties can be organized around The Villages,
14 but again, for Lake County that has less than
15 300,000 people, to have four U.S.
16 Representatives and four State Representatives
17 is just unconscionable, and I hope that you
18 seriously take into account compact and
19 contiguous when you look at the maps. Thank
20 you.

21 REPRESENTATIVE PRECOURT: Thank you for
22 being here, Ms. Hurlbert. Theodore Stratton,
23 followed by John Wood.

24 MR. STRATTON: Yes, good morning. I have
25 tried to figure out what law governs how you

1 people decide. It, at the end of this thing,
2 it says that they should be geographic, where
3 possible they should follow existing political
4 and geographic boundaries.

5 But then you have agenda six -- Amendment
6 6 and 7, and are the census blocks the basic
7 building blocks for how you people design these
8 different boundaries? I can't figure out how
9 the law, which law applies to what, and I have
10 no axe to grind. You guys have my sympathy.
11 Thank you.

12 CHAIRMAN GAETZ: Mr. Chairman, he raises a
13 great point. Thank you, Mr. Chairman, and just
14 for information purposes, let me, let me offer
15 a little explanation, and that is that there
16 appears to be to the normal person some
17 inconsistencies.

18 If you look at Amendments 5 and 6 and then
19 you look at the Federal Court cases, and then
20 you look at the applicable Federal and State
21 laws and then you listen to the interpretations
22 that individual citizens or even courts place
23 on terms, you would get the feeling that this
24 gentleman is exactly right.

25 And that is that there is no clear answer

1 to exactly what the building blocks should be.
2 Last night in Daytona Beach we had strong
3 testimony from a gentleman who said we need to
4 use rivers and power lines and railroads as the
5 lines that would determine where districts
6 would be.

7 We also heard testimony last night from
8 someone who said that we need to use economic
9 blocks. In other words, where people shop and
10 do their commerce, that that needs to be taken
11 into account as defining the boundaries.

12 And then, of course, you have the
13 testimony we have heard today where some people
14 say county lines and then someone else says,
15 well, except when it comes to The Villages,
16 then it is okay to cross county lines because
17 there is a community of interest.

18 That is why we have come here today,
19 because we are interested in finding out how
20 you believe these standards should be applied.

21 Now, however they are applied in the
22 development of maps, it is likely that somebody
23 will be unhappy and will challenge whatever
24 comes out the other end, but what we want to do
25 is make sure that any proposal that comes out

1 of the Legislature and does go to the courts is
2 defensible because we have listened to you and
3 we can hark to this hearing we had in The
4 Villages and we will be able to quote you,
5 because you have said keep The Villages
6 together or draw the lines this way or that
7 way.

8 But there is no definitive dispositive
9 building block, instead, there are
10 interpretations and those interpretations move
11 back and forth depending upon what court case
12 and what statute and what constitutional
13 provision you look at.

14 So thank you, you have put your finger
15 right on the problem that brings us here today.
16 Thank you, Mr. Chairman.

17 REPRESENTATIVE PRECOURT: Thank you,
18 Senator, and they did, in fact, when we got on
19 the Redistricting Committee, the first thing we
20 got was a textbook on reapportionment law, and
21 half of which is referenced to other books and
22 other law.

23 So there is a tremendous amount of
24 information out there and lots of experts on it
25 that we have to rely on as well. Mr. Wood,

1 followed by David VonGunten.

2 MR. WOOD: Yes, sir. I am John Wood from
3 Lake County, and I am going to just echo what
4 you heard so far. We would like you to keep
5 Lake County together as far as the
6 Congressional, Congressional District goes.

7 We want you to think about reducing Lake
8 County's representation from four
9 Representatives to two Representatives. We
10 feel like that would be much more beneficial to
11 Lake County, to the people of Lake County.

12 Also, what you heard about keeping The
13 Villages together, I echo that. That would be
14 separating a part from Lake County to keep The
15 Villages together, but it would also be within
16 the guidelines that you are supposed to be
17 following by keeping the city boundaries --
18 using city boundaries.

19 I understand you got a lot of boundaries
20 that you are thinking about that people are
21 talking about, but new district boundaries for
22 Lake County would require your reducing some of
23 the boundaries that go into Orange, Seminole,
24 Volusia and Marion County, to get our
25 population back to where we fit into the --

1 into the guidelines.

2 That is it. I did go on the computer and
3 try to draw up the maps three different times,
4 but I failed. So I hope next time like Bob
5 said, maybe I will follow the directions, get
6 the directions first. Thank you.

7 CHAIRMAN GAETZ: Patricia, you need to
8 hold a class.

9 REPRESENTATIVE PRECOURT: Thank you,
10 Mr. Wood, and speaking of classes, in addition
11 to written directions, there is some great
12 U-Tube type videos on there about how to use
13 the system as well.

14 So there is tremendous resources, and if
15 you need it, these guys are available via phone
16 and here today to work with you on the system
17 if you want to get a personal tutorial. Again,
18 thank you, Mr. Wood.

19 Next we have got Mr. VonGuntten, and
20 followed by John Riedel. Please, if you need
21 to adjust the microphone, by the way, please
22 feel free to adjust the microphone and speak,
23 you know, loudly into it so that we can get
24 that on the record as well.

25 MR. VONGUNTEN: First I want to thank

1 everyone who is here on the stage. As I look
2 at the stage, I can tell that our input is
3 important. I expected kind of this morning to
4 come and find maybe Representative Precourt,
5 and he says, don't worry, I will pass along
6 everything you have to say. We don't have to
7 worry about that, because everyone is here to
8 hear what we have to say, and I thank you for
9 that.

10 You probably heard someone say that a
11 presentation was made by Patricia Sullivan and
12 if she can do it, we can do it, and that is
13 true. We have done a little bit of training.

14 I am going to take some advice from Bob as
15 well and go back and read the directions. I
16 have gone into the system and kind of made up a
17 map, and I am going to go back and redo it and
18 learn to fine tune to get those numbers exactly
19 where they need to be, and I think what is
20 important, if I am going to do that and if I am
21 going to encourage the folks that come to our
22 meetings to do that, that in fact that is just
23 not a paper exercise for us, but really that
24 our input is going to -- that you will look at
25 those.

1 And I understand the problems that you
2 face, and we all do, but if, and again, I am
3 not a youngster, so if I am going to do that, I
4 encourage everyone here to go in and learn that
5 system and have direct input and I just really
6 appreciate the fact that you are listening to
7 us and do encourage you to take a look at the
8 maps that we do submit. Thank you very much.

9 REPRESENTATIVE PRECOURT: Thank you, sir,
10 John Riedel, followed by Mark, I think it is
11 Fisher.

12 MR. RIEDEL: Good morning, ladies and
13 gentlemen. Thank you for the opportunity to
14 address you all and to listen and the fact that
15 you are listening to our ideas.

16 Basically my name, I moved here from South
17 Florida in 1983, and I have yet to vote for a
18 U. S. Congressional candidate from Lake County.

19 I would appreciate and also would like to
20 reemphasize the fact that we would like to form
21 and vote with my neighbors and the people that
22 I correspond with on a daily basis.

23 Thank you once again for this opportunity
24 and I appreciate all of your efforts. Thank
25 you.

1 REPRESENTATIVE PRECOURT: Thank you,
2 Mr. Riedel. Mr. Fisher, followed by William
3 Stomp.

4 MR. FISHER: Yes, good morning. My name
5 is Mark Fisher, I am from Mt. Dora, Florida. I
6 have a couple of observations and some
7 questions that I want you to leave here with.

8 First of all, during your introduction the
9 reference was made to the fact that there is
10 participation on the panel by Representatives
11 of the political parties, the Republicans and
12 the Democrats.

13 I point out that just recently it was
14 published that the number of Independents,
15 registered Independents in Florida have
16 increased since 1990 from 430,000 to 2.4
17 million.

18 The number of people who do not affiliate
19 by choice, thereby eliminating their
20 opportunity to participate in the primary
21 system, should be something of great importance
22 and of consideration by you.

23 That means there are a lot of voters out
24 there who are qualified voters who have
25 registered to vote, who do not choose to

1 affiliate with either of your political
2 parties. You should pursue that.

3 REPRESENTATIVE PRECOURT: Sir, could I get
4 you to address your comment to the
5 redistricting process?

6 MR. FISHER: Sure.

7 REPRESENTATIVE PRECOURT: And this might
8 do it, but I just want to remind everyone that
9 we are here to hear about redistricting. Thank
10 you.

11 MR. FISHER: That relates to it because I
12 think most of us are very concerned and the two
13 Amendments that were passed by the citizens of
14 the State of Florida related to the fact that
15 we want you to take politics and self interest
16 out of the redistricting process.

17 My questions are this. Who is going to
18 vet the proposed plans to assure that they are
19 legally sufficient? When and where is that
20 vetting processing going to be undertaken and
21 what public participation in that review is
22 going to be allowed?

23 What is the process or what measures are
24 in place to assure that viable legally
25 qualifying submissions, regardless of their

1 source, are all given equal consideration?

2 And finally, once all of those legally
3 sufficient plans have been determined, who is
4 going to grade or rank those proposed
5 districts?

6 If you get several thousand of them, it is
7 not very logical to assume that between
8 January 10th and March 9th of 2012, that the
9 House and Senate are going to be able to go
10 through all 1,000 of those plans and decide
11 which one is going to be the one that is
12 finally implemented and submitted for court
13 review.

14 I will close with this comment. John
15 Adams wrote, "There is nothing which I dread so
16 much as a division of the republic into two
17 great parties. Each arranged under its leader
18 and concerting measures in opposition to each
19 other."

20 This, in his humble apprehension, is to be
21 dreaded as the greatest political evil under
22 our Constitution. Leave politics out of this.
23 We don't need people in Mt. Dora voting for
24 somebody who ostensibly lives in Jacksonville,
25 Florida.

1 REPRESENTATIVE PRECOURT: Thank you,
2 Mr. Fisher, and again, ladies and gentlemen, we
3 are here primarily to listen to your input at
4 Senator Gaetz's discretion. I am going to
5 recognize him if he would like to address any
6 issues as we go through the meeting.

7 CHAIRMAN GAETZ: Sure, and again, not in
8 any way to do -- to be argumentative, but
9 rather just to provide some data in answer to
10 your questions which are excellent questions.

11 Who vets plans to make sure that they are
12 legal? The Supreme Court of the State of
13 Florida and the Justice Department of the
14 United States.

15 When and where are the vetting, does the
16 vetting occur? It occurs as soon as the plans
17 are presented. There are also public hearings
18 that occur along the way.

19 In other words, if any Legislator or any
20 special interest group or any individual
21 citizen presents a plan and then that plan
22 takes the form of a Bill that goes before a
23 committee, the vetting occurs in public with
24 public hearings on that Bill in Tallahassee.

25 Those hearings would be open to the

1 public. Any member of the public can testify,
2 but the hearings will also be available so that
3 individuals who maybe can't come to Tallahassee
4 can share their views.

5 But the legal vetting, in answer to your
6 question, occurs after the plans are voted on
7 by the Legislature and they occur by the
8 Supreme Court and the Justice Department.

9 Are all plans given equal consideration?
10 No. There are 3,000 Bills introduced in the
11 Legislature every year, and thank God, only
12 about 240 of them get passed because a lot of
13 them are pretty stupid ideas.

14 So we can't guarantee that just because
15 someone proposes something that it will be
16 given equal consideration. That is the purpose
17 of Representative government, to make sure that
18 by your contacting your Legislators, that you
19 can say, look, this plan as it pertains to our
20 part of the state ought to be given more than
21 equal consideration.

22 It ought to be given preferential
23 consideration because we here in this community
24 understand how we want the maps drawn to make
25 sense in our community, but it is the

1 legislative process with open public input that
2 creates the vetting process, and really
3 indicates what is given consideration.

4 And then who grades or ranks the
5 districts, and I think, sir, you make an
6 excellent point that if we are fortunate, we
7 will be getting a lot of input.

8 You are right, if we waited until all of
9 the input was in before we began looking at any
10 of it or considering it or sort of seeing how
11 it fit with the other input we are receiving in
12 other parts of the state, it would be very
13 difficult to get it done.

14 That is why we have professional staff who
15 are here. That is why we are recording these
16 hearings. It is why instantly when we get a
17 proposal we put it up on our website, not just
18 for the public to see, but it is the obligation
19 of these two committees, the House Committee
20 and the Senate Committee to work on these plans
21 and listen to this input as we go, so that it
22 is not -- we don't light ourselves on fire at
23 the very end.

24 Instead, we are working right along
25 evaluating plans, but the final grading of the

1 work that is done has to be done by the voters,
2 themselves.

3 The Constitution of Florida says that the
4 Legislature is responsible for developing these
5 plans. We have chosen to make it a much more
6 open process than just Senators and
7 Representatives sitting in a room listening to
8 each other's echos, but rather to get out and
9 listen to the people of Florida first.

10 But at the end of the day, you grade and
11 you rank our work because you determine which
12 of your Representatives gets reelected or which
13 ones don't.

14 I would also make one final point just as
15 a factual matter, and that is that hardly any
16 of us, maybe none of us on this stage drew the
17 maps that exist now.

18 In other words, I ran for a Senate
19 District that somebody else drew years ago. I
20 didn't draw a district and then run for it. I
21 didn't draw a district that I am in now. I ran
22 for a district that somebody else drew.

23 So there is no pride of authorship of what
24 is. We are really interested in making changes
25 that make sense, and Mr. Chairman, I hope that

1 provides just some factual information in
2 answer to the gentleman's excellent questions.

3 REPRESENTATIVE PRECOURT: Thank you very
4 much, Senator Gaetz. In addition, several
5 other Representatives have arrived today. Is
6 there anyone that wants to introduce themselves
7 that didn't get a chance to earlier? We will
8 take a short break from the agenda here.

9 REPRESENTATIVE JONES: Good morning, State
10 Representative Mia Jones from Jacksonville.

11 REPRESENTATIVE CLARKE: Good morning,
12 state Representative Gwyndolen Clarke, District
13 92, Broward County, northeast quadrant.

14 REPRESENTATIVE TAYLOR: Good morning,
15 State Representative Dwayne Taylor from House
16 District 27, that is Daytona Beach and Volusia
17 County.

18 REPRESENTATIVE JULIEN: Good morning, John
19 Patrick Julien, representing House District
20 104, which is in Miami Dade County, it is a
21 pleasure to be here.

22 REPRESENTATIVE METZ: Good morning, ladies
23 and gentlemen. I am Larry Metz, representing
24 House District 25, which comprises portions of
25 Lake, Seminole and Volusia counties. Thank

1 you.

2 SENATOR LYNN: Senator Evelyn Lynn, I
3 represent District 7 and that is parts of Clay,
4 Marion, Putnam and Volusia.

5 REPRESENTATIVE DRAKE: Brad Drake, Fifth
6 House District, panhandle of Florida.

7 SENATOR DEAN: Good morning, my name is
8 Charlie Dean. I am a Senator from District 3,
9 I am your neighbor to the west. I am from
10 Citrus County, I am also one of the Senators
11 that represents the southwestern portion Marion
12 County.

13 My Senatorial district goes from Baker
14 County, just outside of Jacksonville, all the
15 way to Monroe Street, the Capitol steps in Leon
16 County, and south to Citrus, Hernando County
17 line, 98 and 19.

18 Glad you are here this morning, and I
19 would like to say also that as Senator Gaetz
20 said a while ago, many of us serve in districts
21 we had nothing to do with about who drew those
22 lines. If they did, they certainly didn't
23 figure out I was going to be there.

24 REPRESENTATIVE ROGERS: Hazelle Rogers,
25 good morning, representing eight cities in

1 Broward County, District 94, and of course,
2 Broward County, one of the most diverse
3 counties in the state of Florida with over 1.8
4 million residents. Thank you.

5 REPRESENTATIVE BAXLEY: Hi, I am Dennis
6 Baxley. I represent Florida House District 24,
7 Ocala, Marion County, and I am one of the few
8 people up here that actually operates a
9 business in The Villages, Hiers Baxley Funeral
10 Service, and glad to be home.

11 CHAIRMAN GAETZ: Was that a
12 pre-commercial?

13 REPRESENTATIVE LOGAN: Representative Ana
14 Rivas Logan, I represent parts of Miami Dade
15 County.

16 REPRESENTATIVE PRECOURT: So once again,
17 to reiterate what I mentioned earlier, we have
18 representation up here that is from all over
19 the state. We have men, women, minorities,
20 Republicans, Democrats, evening people and
21 morning people, and so we will get right back
22 to the agenda.

23 Mr. Stomp, followed by Robert Lewis.

24 MR. STOMP: Good morning, ladies and
25 gentlemen. Chairman, thank you very much for

1 this opportunity to speak. I have to really
2 compliment all of you Representatives and
3 Senators for coming here and just putting up
4 with what we have to say.

5 I have great confidence that you are going
6 to listen to people, and you are going to use
7 this input and I appreciate that very, very
8 much.

9 My comment, I want to focus my comment on
10 the fact that even though the Legislature, I
11 mean, the people have voted for these -- these
12 consolidated districts rather than the
13 gerrymandering things we have, there is one
14 exception that I see.

15 It is the gerrymandering that is set up
16 for the minority type districts. It is time we
17 move away from that, folks. If there is anyway
18 we can do that it would be wonderful if we
19 could just -- just become one nation again.
20 That just takes and splits everything all over
21 again.

22 If there is some way you can gently move
23 away from that, that method of dividing our
24 country, I would appreciate it very much.

25 Thank you very much.

1 REPRESENTATIVE PRECOURT: Thank you for
2 those comments. Robert Lewis, followed by
3 Thomas Edmonston.

4 MR. LEWIS: Good morning, thank you for
5 providing this opportunity for me to provide
6 some comments. Almost 63 percent of Floridians
7 who voted on the Constitutional Amendments
8 voted to affirm Amendments 5 and 6.

9 Fair minded Floridians of all political
10 persuasions want elections in which candidates
11 are honestly chosen and compete on even playing
12 fields.

13 It was time to put a stop to the practice
14 of gerrymandering. Legislative and conditional
15 Congressional Districts after each census. In
16 the past, the party in political power
17 brazenly redrew boundaries and laid out new
18 or changed boundaries to reflect population
19 changes in a manner primarily designed to best
20 assure it of victories in future elections.

21 The irregular and even illogical design of
22 some districts attest to this deliberate
23 manipulation which is contrary to the high
24 principles of our democracy.

25 I hope that your reports of these public

1 meetings will emphasize that Floridians want
2 the Amendments respected. We will be most
3 upset and disappointed if you fail to ensure
4 that the districts are compact, equal in
5 population, and make use of existing city,
6 county and geographical boundaries.

7 The Amendments prohibit drawing districts
8 to favor or disfavor an incumbent or political
9 party. It is your obligation to abide by the
10 Amendments even though there will be efforts by
11 some who try to thwart the Amendments by
12 claiming that adherence to the Amendments would
13 be unjust for various reasons. Thank you.

14 REPRESENTATIVE PRECOURT: Thank you very
15 much for those comments. And I might add, if
16 you have written comments that you want to
17 submit just to make sure that your comments are
18 accurately transcribed into the record, feel
19 free to leave those written comments with our
20 staff as well.

21 Mr. Edmonston, followed by Barbara Weese.

22 MR. STONE: I am Tom, I am also from Lake
23 County. A bunch of us, a whole of people here
24 from Lake County, obviously, and I am very
25 pleased to be here and be able to give a chance

1 to speak and I appreciate everything ya'll do,
2 and I know, having just recently gotten
3 involved in the political process, I don't want
4 to be up there with you.

5 But I have been known as a person of, not
6 known as a person of very few words, but I am
7 going to cut this real short because I am not
8 going to repeat everything that my fellow Tea
9 Party people have said, because everything is
10 true.

11 That picture on the screen right now looks
12 like the, one of mine, because it looks very
13 similar. Actually, I worked on the thing. The
14 Builder is real easy to use once you get to
15 using it, but the trouble is I did it the first
16 time on a laptop and I didn't have any programs
17 in the laptop in order to print it out or even
18 see the file, so it didn't work too well, and I
19 had to do it a second time.

20 And really what I did, just for that map,
21 I just start out with Lake County and took all
22 of Sumter County, and looked at what you had
23 left, and, you know, it had options of, when I
24 looked at Orange County, Orange County has
25 enough population that it has to have at least

1 three districts in it, because you could take
2 two full districts and then a partial one.

3 So I decided that I would use the old
4 lasso feature and I would lasso part of the top
5 of Orange County, and then when I got into the,
6 into the voting districts, I had a hard time
7 finding those until I found out that you have
8 to zoom in real quick and then they show up.

9 And so I intentionally over, over lassoed
10 and then I just started deleting districts and
11 I got it down to like 25, I still have 24 extra
12 people, but that is about it, but I really just
13 did it like everybody else has said, just to
14 keep communities together and keep everything
15 close-knit.

16 Everybody that pays taxes in Lake and
17 Sumter at least got the same voting district,
18 and sorry about Orange County, you have to be
19 split up a little bit. Thank you very much.

20 REPRESENTATIVE PRECOURT: Thank you, sir.
21 Barbara Weese, followed by Dan Eaton.

22 MR. WEESE: Good morning. I would like to
23 say one thing and then I would like to defer to
24 Cathy Williamson, and that is when you are out
25 trying to help voters to find out where and

1 whom they vote for, it is very difficult if one
2 side of the street has one Representative. I
3 am talking U.S., now, and the other side of the
4 street has another one.

5 Most of our voters or many of them in
6 central Florida come from other states. They
7 are confused and new to the Florida process,
8 but it is even more confusing when you don't
9 know for whom you should vote or where you
10 should vote. So please keep that in mind when
11 you are redistricting.

12 REPRESENTATIVE PRECOURT: Thank you, and
13 Ms. Williamson, if you could fill out a card if
14 you don't, and I will put it in line, but
15 everybody has gotten in line, I am going to
16 take them as they come. Okay, thanks. Don
17 Eaton, followed by Sam Green.

18 MR. EATON: Yes, Don Eaton. Thank you for
19 being here today. We really appreciate this.
20 I am caught sort of flatfooted. My wife put my
21 name down, but, thank you.

22 CHAIRMAN GAETZ: You are not the first
23 guy, you are not the first guy.

24 MR. EATON: I am in good company then.
25 Yes, we, we in The Villages really appreciate

1 you coming here, and as you gain age, you will
2 see our really great facilities and we hope
3 that you consider moving here, and I echo the
4 words from our homeowners' association
5 president.

6 He very eloquently told about The
7 Villages, and we, I am here for the
8 Conservative Liberty Alliance, also. We are a
9 group that, we are a conservative group that
10 will be out campaigning for candidates this
11 year, and we hope that we will be in
12 Tallahassee to see each one of you. Thank you.

13 REPRESENTATIVE PRECOURT: Thank you, sir.
14 Appreciate that, Mr. Sam Green, followed by
15 Ellen Green.

16 MR. GREEN: Good morning. Thank you very
17 much for the opportunity to have my input on
18 this today. Sixty-three percent of the voters
19 in this state voted for this, that is almost
20 two for one, and I feel that just about at
21 every point along the way the leaders of the
22 State House, Senate and also the Governor have
23 fought this process, tried to delay it, tried
24 to stop it in any way possible.

25 And that is very upsetting to me, because

1 of that, I don't really have confidence that
2 this is going to be a nonpartisan thing, and I
3 think it is extremely important that politics
4 is taken out of it totally, completely, and I
5 hope, I hope you all prove me wrong, totally.
6 I hope, I hope I am dead wrong about it not
7 being nonpartisan.

8 I think that it should be -- districts
9 should be drawn up considering city, county and
10 natural boundaries and again, totally
11 nonpartisan. Thank you very much.

12 REPRESENTATIVE PRECOURT: Thank you, sir,
13 Ellen Green followed by Suzanne Jantz.

14 MS. GREEN: Thank you. I am very proud
15 that my husband filled in a form for me so that
16 I could be here today. I agree with a lot of
17 what I have heard. I would think it is very
18 important that the districts be contiguous so
19 that we can talk to voters and help them with
20 voting.

21 I have lived in the Golden Triangle area.
22 I live in Eustis, sort of in Eustis the Golden
23 Triangle area is Eustis, Mt. Dora and Tavares.

24 We function as a community very much as
25 The Villages do, and it is important that we

1 all have as much as possible the same
2 representation and we do not.

3 We do have District 57, which is Corinne
4 Brown's district, but there are a lot of other
5 things that divide up. Even within our city,
6 people vote for different Congressmen or
7 different State legislators, and it just
8 doesn't make any sense.

9 You talk to your friends about a certain
10 candidate and they will say, I have never heard
11 of him or he doesn't represent me, I have this
12 other person that I never see because this
13 person lives so far from us, and it must be
14 very hard for you.

15 Like Mr. Metz, for example, he has to
16 represent a big chunk of our Golden Triangle
17 area, but not all of it, and then he has to go
18 over to neighboring counties, drive through the
19 woods to get there.

20 So it doesn't benefit the voter or the
21 candidate, either one. So please keep it
22 contiguous and fair. Thank you.

23 REPRESENTATIVE PRECOURT: Thank you,
24 ma'am. Suzanne Jantz, followed by Joanne Coen.

25 MS. JANTZ: Hello, hi, I live in Mt. Dora,

1 Lake County, and I want to thank you for
2 participating in this process, and I especially
3 want to thank anyone in this room who was part
4 of the countless volunteers who worked for
5 years to get Fair Districts on the ballot.

6 This was democracy at its best. I
7 appreciate Mr. Fisher's comments because I am
8 afraid this process will serve as a delay
9 tactic for special interests opposed to change,
10 where it is death by 1,000 cuts with endless
11 maps submitted by people without the subject
12 matter expertise, without the understanding of
13 the litigation, and then the state taxpayers
14 will be forced to defend litigation and spend
15 badly needed taxpayer money on litigation that
16 is pointless and groundless.

17 Will there be a deadline? Will there be a
18 process like this where a certain number of
19 proposed maps are then brought out to community
20 meetings like this before something gets
21 written in stone in Tallahassee?

22 I object to any idea that Tallahassee
23 could make these decisions without public input
24 of this nature, that this would have been a
25 waste of taxpayer money to have all of you here

1 traveling throughout the state on this
2 initiative and then drop the ball later when
3 maps are being finalized and there is a select
4 number of proposed maps that meet the criteria
5 for meeting the legal issues and so on.

6 So please tell me that there is a
7 deadline, that we will be seeing the results of
8 this, that you will be good stewards of the
9 taxpayer money at a time when we are being told
10 that the state has so little money that it
11 can't provide nursing home care to the frail
12 elderly on Medicaid and children's health needs
13 and other needs like unemployment being cut.

14 I want the taxpayer's money respected, but
15 I do want to see maps and have an opportunity
16 for input later instead of now. Thank you.

17 REPRESENTATIVE PRECOURT: Thank you,
18 ma'am. Joanne Coen, followed by Richard Coen.

19 MS. COEN: Good morning. On behalf of the
20 League of Women Voters of The Villages
21 tri-county area, which is a nonpartisan
22 organization, I want to thank the Committee for
23 an opportunity to speak to you.

24 I am a Sumter County resident of The
25 Villages. During the last election cycle, the

1 League actively supported Amendments 5 and 6
2 which were passed by 63 percent of the voters
3 in the November 2010, election.

4 Today voter registration shows that
5 Florida is a politically balanced state, but
6 the current representation in Tallahassee does
7 not reflect the balance.

8 In the past during every reapportionment,
9 majority party politicians in both parties have
10 taken advantage of the opportunity to pack
11 minority party voters into very few districts,
12 thus reducing their influence in government.

13 Florida's population has grown and our
14 congressional representation will increase.
15 Drawing new political boundaries to offset
16 population growth is a complicated process.

17 You must balance a myriad of demands from
18 Federal laws to prevent minority voting
19 disenfranchisement to individual ambitions of
20 your fellow lawmakers seeking higher office.

21 As a result I recognize that your job is
22 not easy, that the process is long and arduous
23 and there will likely be legal challenges no
24 matter the outcome.

25 The census data has been completed. The

1 information has been delivered to the Governor
2 and leaders of the Legislature. Many states
3 have already completed or almost completed the
4 redistricting process, yet in Florida no
5 proposed or draft maps have been drawn, thereby
6 precluding the public from making any meaning
7 full comments on what our Congressional
8 Legislative Districts will look like other than
9 our own suggestions.

10 As a result, and as I am doing today, I
11 can only appeal to your better nature and speak
12 in generalities. The maps referenced by Senate
13 Gaetz in his opening comments should be made
14 available going forward at all of the proposed
15 hearings that are on the schedule. Thank you
16 very much.

17 REPRESENTATIVE PRECOURT: Thank you for
18 those comments. And once again, if you would,
19 we have prepared written comments like that, if
20 you would submit it to the staff so that we can
21 accurately get them into the record, I would
22 appreciate that.

23 Richard Coen, followed by Linda or John
24 and Linda Stene.

25 MR. COEN: Good morning, my name is

1 Richard Coen, and as in most points of life I
2 follow my wife. I am Vice-President of the
3 League of Women Voters of The Villages
4 tri-county area. Thank you, I appreciate that.

5 Gentlemen and ladies, your own time table
6 which is posted on the Redistricting 2012
7 Florida Senate website shows that rather than
8 passing district maps at the beginning of the
9 legislative session in January 2012, district
10 maps are slated to be passed at the end of the
11 session on March 9th.

12 Even in the unlikely event that there is
13 no litigation over the newly drawn maps, final
14 rulings on the constitutionality of the new
15 districts will not occur until shortly before
16 the June 2012, qualifying deadline.

17 This delayed time table will only lead to
18 voter confusion. Some potential candidates may
19 not know their district boundaries in time to
20 decide whether to mount a campaign.

21 It is my understanding that Bills were
22 filed at the last session requiring the maps be
23 drawn earlier and that these bills did not even
24 get a hearing. Why was that?

25 You have told us that you will follow the

1 letter of the law and the will of the people on
2 redistricting, but you say that even as the
3 Legislature is joined in a lawsuit to fight
4 Florida Constitutional Amendment requiring new
5 boundaries be drawn with competition in mind,
6 not your own job security.

7 So, yes, you have created a situation
8 where the state is both the plaintiff and the
9 defendant, and so, yes, at a time when lower
10 revenues have been received and budgets have
11 been reduced, the state is spending taxpayer
12 money on both sides of the same question.

13 The Legislature should stop avoiding the
14 voters' decision and remember its obligation to
15 follow the Florida Constitution and support the
16 new fair district standards and apply the
17 dictate of those amendments when preparing
18 redrawn districts as the voters wanted. I
19 thank you for the time that you have given me
20 to speak to you today.

21 REPRESENTATIVE PRECOURT: Thank you again.
22 We appreciate those comments, Mr. Coen, and
23 once again, when you have written prepared
24 remarks like that, if you would please submit
25 them into the record so they can accurately be

1 reflected, I would appreciate it. John and
2 Linda Stene, followed by Roz Odell.

3 MR. STENE: I am John Stene, and my wife
4 has said she doesn't want to speak. Anyway,
5 thanks for the opportunity, and we have been in
6 The Villages for eight years.

7 Our main concern is that we have a
8 contiguous unit, you know, for our voting
9 block. And my mother once said years ago, the
10 mind can only stand what the rear end can
11 endure, so I will get down.

12 REPRESENTATIVE PRECOURT: Excellent
13 comments. Roz Odell, followed by Patricia
14 Hanley.

15 MS. ODELL: Hello, I am Roz Odell from
16 Citrus County. I was beginning to think we
17 weren't represented here, but Mr. Dean came in.

18 As you heard, when he described District
19 5, the size and direction is rather unruly, and
20 also, as you have heard, at the moment the
21 public perception is that our districts are
22 drawn with careers in mind, not the good of the
23 people, and I would like to ask that this not
24 happen.

25 Please remember that you are representing

1 a large group of people, both Democrat and
2 Republican. Please make it easy for people to
3 vote. Don't have one precinct in another
4 district.

5 We need to be able to talk amongst ourself
6 to decide who to vote for, and to do it where
7 we know where we can go and not one person on
8 one side of the street goes five miles away and
9 the other person on the other side of the
10 street goes 10 miles in the opposite direction.
11 Thank you.

12 REPRESENTATIVE PRECOURT: Thank you,
13 ma'am. Patricia Hanley, followed by Mike
14 Fahey.

15 MS. HANLEY: I would like to thank you for
16 being here and Senator Dean for being here as
17 well. He represents an entirely wide and long
18 district. It is very hard to campaign in his
19 district.

20 I don't necessarily support anybody that
21 is up there right now, but I do want to say
22 that it has got to be, you have got to use some
23 common sense in drawing these districts.

24 When we are in Citrus County in the middle
25 of the state, in our district, our Senatorial

1 District goes all of the way up to the Georgia
2 border, and all of the way over to Tallahassee,
3 that is ridiculous, especially if you are
4 paying for gasoline and you are trying to
5 campaign in an area that large.

6 I know you are bound by population, but I
7 am sure you can make some of these districts
8 more compact and that is all I want to say.
9 Let's be fair about things.

10 REPRESENTATIVE PRECOURT: Thank you very
11 much. Mike Fahey, followed by Kathleen Weaver.

12 MR. FAHEY: Hello. My name is Mike Fahey
13 and I am from Citrus County. I would just like
14 to thank you for having this hearing, and also
15 I would like to thank everyone else in this
16 room for taking their duty as citizens and
17 becoming well-informed people acting
18 responsibly.

19 Actually, I would like to see more people
20 in this room, but I have been on the website
21 and I know that operating this computer
22 applications and reading and writing and trying
23 to find solutions to complex problems, these
24 all point to a well-educated citizenry, and I
25 would encourage you not to balance the budget

1 on the backs of our students and our teachers.

2 But the -- my point today that I would
3 like to make about Citrus County, in looking at
4 the map, is the Congressional District, and our
5 Congressional District, the Fifth District, is
6 35 percent over population, and just to be
7 really simple, I would suggest that you just
8 cut Citrus County loose from the Fifth
9 District, because our geographically, we are
10 more in with Marion County and the north
11 central part of the state, and the marketing is
12 incorrect.

13 In lumping us in with Tampa Bay, I never
14 go to Tampa. I go to Marion County to do
15 shopping and to work and so on and so forth,
16 and that is my point. Thank you.

17 REPRESENTATIVE PRECOURT: Thank you, sir.
18 Kathleen Weaver followed Brian Corley, and once
19 again, I know it is tempting to get off topic,
20 but please keep your comments focused on
21 redistricting, thank you. Ms. Weaver.

22 MS. WEAVER: Thank you for coming here
23 today. We all appreciate it, I am sure. I
24 just will reiterate the same thing that other
25 people have said.

1 We would like the Legislature to please
2 drop the lawsuit against the Amendments that we
3 passed. It is a waste of our money. We would
4 also definitely like a nonpartisan group to be
5 choosing these, and please give us some maps
6 that we will be able to choose from before it
7 goes to the Legislature in Tallahassee.

8 Many of us will not be able to go to
9 Tallahassee to present our issues at that time.
10 Thank you.

11 REPRESENTATIVE PRECOURT: Thank you.

12 MR. CORLEY: Good morning, Mr. Chairman
13 and members, my name is Brian Corley. I am the
14 Supervisor of Elections for Pasco County. You
15 are probably asking yourself, what am I doing
16 here.

17 My children are with my grandparents over
18 at the pool right now. I am taking time from
19 vacation to be here with you all this morning.

20 I also serve on the Executive Committee
21 for the Florida State Association of
22 Supervisors of Elections.

23 I want to thank you all first for the
24 opportunity to provide input on the front end
25 of this very important topic, and I sincerely

1 applaud all of you for the unprecedented level
2 of transparency of this process.

3 I don't envy your task ahead.
4 Redistricting is not going to be fun, and for
5 many of my colleagues, including myself, this
6 is our first go around and my colleague sitting
7 next to me, Dee Brown, I asked her how many she
8 has been with, she is from Marion County, she
9 has been through four. Pretty impressive,
10 isn't it, and I am concerned about the stress,
11 because I can't lose much more hair going
12 through this.

13 I don't know if I am going to gain weight
14 or where we are going here, but I will say
15 this, ladies and gentlemen, I am confident that
16 when it is all said and done, we as elections
17 officials will continue to make Florida shine
18 with regards to elections in 2012 and beyond.

19 I want to slightly, obviously, deviate
20 from the topic today. I want to focus on two
21 issues that are important to elections
22 officials. Time and district lines.

23 Number one, time. To conduct successful
24 elections in 2012, we as elections officials
25 need time to complete required tasks. To

1 conduct our elections efficiently and
2 accurately, we need time to adjust precinct
3 lines to new districts, gain approval of those
4 precincts by our Board of County Commissioners,
5 and notify all voters well in advance of
6 election day.

7 And as you are well aware, we can't
8 re-precinct our counties until your work is
9 done. I realize that the Florida Constitution
10 specifies that reapportionment occur during the
11 2012 regular session.

12 However, as was stated earlier, the
13 earlier in the session the better. That will
14 give us more time to do what we need to do. It
15 is also my understanding that if the
16 legislature, Attorney General, Supreme Court
17 and Justice Department all complete their work
18 on schedule, the Supervisor of Elections will
19 have less than two weeks to adjust the records
20 of Florida's 11 million voters and nearly
21 300,000 in my county alone.

22 This is before the first absentee ballots
23 must be mailed to our military and overseas
24 voters, and this, of course, excludes any
25 litigation.

1 Also, the calendar provided by the
2 legislative staff indicates that final Justice
3 Department review of new districts will likely
4 be completed after a candidate qualifying.
5 This has the potential of confusing candidates
6 and delaying ballot printing.

7 The second issue I want to briefly touch
8 upon is we ask that you represent, excuse me,
9 in regards to district lines, that you respect
10 communities when you draw district lines.

11 I want to thank the legislative staff for
12 working with us in providing voting tabulation
13 districts, which, as you all know, take into
14 consideration intact communities, traffic
15 patterns and physical barriers, and we would
16 ask that you adhere to these lines wherever
17 possible.

18 Again, thank you for the opportunity to
19 provide some input on this important process,
20 as the Supervisor of Elections, I speak for my
21 colleagues when I say it is very much
22 appreciated. Thank you very, very much.

23 REPRESENTATIVE PRECOURT: Thank you, sir.
24 Next we have Al Butler, followed by Mary
25 O'Hanlon.

1 MR. BUTLER: Thank you very much. I want
2 to welcome all of the Legislators to The
3 Villages. My name is Al Butler. I am a
4 resident of The Villages and Chairman of the
5 Sumter County REC.

6 I want to reiterate a message that you
7 have heard from others today, and it would make
8 our political processes so much more effective
9 if you recognize The Villages as one entity,
10 and although we are unique and cross three
11 counties, I hope that you will take that into
12 consideration when you do the realignment.
13 Thank you very much.

14 REPRESENTATIVE PRECOURT: Thank you, sir.
15 Mary O'Hanlon, followed by Nancy Bell.

16 MS. O'HANLON: My name is Mary O'Hanlon
17 and I live in Clermont in District 5. I would
18 like to tell you something about several years
19 ago I arranged a meet the candidate event and
20 the then Representative for District 5, three
21 different people in his office told me that he
22 was not our Representative, but he was, and
23 that -- so that is no representation.

24 I would like to suggest that you follow
25 the kiss principle, and keep it simple.

1 Districts should not cross county lines,
2 Representatives should live within the counties
3 that they represent. They should not cover
4 three different counties that are so big that
5 they don't even know the parts of the counties
6 they represent.

7 And I really wonder why there even has to
8 be these meetings. I think it is great. The
9 people have an opportunity to speak. However,
10 I think they spoke loud and clear last November
11 about what we wanted in districts.

12 It is no secret that gerrymandering was
13 started 200 years ago, and the benefit of it,
14 of course, has always been to stack the
15 districts to suit the party in office, both
16 parties, and I think that is what really has to
17 be focused on and eliminated.

18 We need to have districts that are
19 contiguous and that are small enough that the
20 people can know their Representative and
21 vice-versa, and they should have the
22 opportunity to go to the polls feeling that
23 their vote is going to count.

24 I have spoken to many Democrats who don't
25 bother voting because they feel it is a waste

1 of their time, that they can't win and
2 certainly the last election proved that
3 statement.

4 So my request would be, keep it simple,
5 keep it compact and keep it fair. Thank you.

6 REPRESENTATIVE PRECOURT: Thank you. Next
7 we have Nancy Bell, followed by Charlene
8 Walker. Ms. Bell.

9 MS. BELL: Good morning, ladies and
10 gentlemen. Thank you for coming to our area to
11 listen to us, and I think you have done that.
12 It is worth repeating, I think, that in
13 November of 2010, 63 percent of Florida voters
14 approved the Constitutional Amendments for fair
15 districting.

16 On a personal note, if you had been
17 elected by 63 percent, I think you would be
18 pretty happy. I think you would feel like you
19 had a mandate, and that is what the voters in
20 Florida feel.

21 We feel that we have a mandate for fair
22 districts, and you wouldn't try to challenge or
23 change the vote because the voters' votes are
24 the wishes of the people and that is the way we
25 feel about the Fair Districts Amendment.

1 We expect you to follow the wishes of the
2 people on the issue of fair districts and we
3 certainly do not expect you to spend taxpayer
4 money to fight the fair districts.

5 The State Constitution requires that no
6 apportionment plan or district shall be drawn
7 with the intent to favor or disfavor a
8 political party or an incumbent.

9 Gerrymandering, as it has already been
10 said, is wrong, whether it is done by
11 Republicans or Democrats or Independents or
12 whoever, it is wrong, and it is time for the
13 voters to be able to choose their
14 Representatives rather than elected officials
15 choosing their voters.

16 We talked a lot about maps this morning.
17 One map I have seen is the one done by Columbia
18 University law student and Juris Doctorate
19 candidate, Nicholas Ortez (phonetic), working
20 under the direction of Columbia University law
21 professor, Nate Persily, who is a redistricting
22 expert the courts relied on to redraw lines in
23 four states following the 2000 census.

24 His map is very interesting and it is fair
25 with districts that are contiguous, compact and

1 with equal population, which follows
2 traditional redistricting principles.

3 If you attempt to redistrict based on
4 favoring one party or, in fact, if you do that,
5 we will be a whisper away from fascism.
6 Defined in the dictionary, as a system of
7 government characterized by a rigid one party
8 dictatorship and forcible suppression of the
9 opposition.

10 The people in our democratic republic and
11 the people of Florida will not stand for
12 fascism. Now, I beg you to do the right thing.

13 REPRESENTATIVE PRECOURT: Ma'am, I am
14 going to ask you keep the rhetorics --

15 MS. BELL: For the right reasons when you
16 draw the new districts.

17 REPRESENTATIVE PRECOURT: -- to a little
18 bit more higher standard. And once again,
19 ma'am, if you could, when you have written
20 prepared remarks like that, if you could submit
21 them to our staff so we can accurately reflect
22 them in the record, I would appreciate it.

23 Next we have Charlene Walker, and she will
24 be followed by Evelyn Arthur. Ms. Walker.
25 There she is.

1 MS. WALKER: I can't follow that. I
2 really, really just want to say and ask you to
3 please follow the requirements listed in the
4 Amendments, and if you do that I think we will
5 have a fair redistricting process, and that is
6 the important thing, especially Lake County.

7 I live in Lady Lake, Lake County and Lake
8 County is an absolute disaster, and that has
9 been discussed. So if we can correct those
10 kinds of things I would appreciate it. Thank
11 you.

12 REPRESENTATIVE PRECOURT: Thank you,
13 Ms. Walker, Evelyn Arthur followed by Albert
14 Exner.

15 MS. ARTHUR: Good morning, everyone, and
16 thank you for being here. In November 3.1
17 million Floridians voted and passed the
18 redistricting standard. The fact that the
19 Legislature has a suit or set aside money
20 basically is saying that we are suing
21 ourselves.

22 Sixty-three percent of us voted. We want
23 the districts to be fair, as a lot of people
24 have said, and I am just about convinced that
25 it should be done by a computer.

1 It should be done by a program that has
2 been proven before in various states. I just
3 think that the job is just really, really, just
4 too tremendous to be done in the time frame
5 that is necessary for the proper folks that
6 want to represent us be able to come forth and
7 know who they are representing.

8 Like a lot of others, I think we just need
9 to feel that it is going to be done fairly, and
10 I am not sure that individuals can do that. I
11 think a proper computer program by the person
12 that Ms. Bell said, talked about, would be the
13 proper way to go. Thank you for coming, and I
14 appreciate this opportunity.

15 REPRESENTATIVE PRECOURT: Thank you,
16 ma'am. Albert Exner, followed by Mike Archer.

17 MR. EXNER: I would like to start by
18 thanking the folks on the stage being here
19 today to listen to what the public has to say.

20 The most important thing I think that I,
21 it occurred to me was that the likelihood of
22 having every county and every community having
23 just the representation that belongs to it and
24 not sharing a legislative assistance by
25 devoting the -- the -- the -- the various

1 opportunities to gerrymander, there is no
2 possibility that these gentlemen on the stage
3 can possibly arrange to have every county only
4 represented by the folks within that county,
5 and the -- the -- not just the county, but the
6 individual localities.

7 I think that we all have to be realistic
8 that that can't happen, but we can certainly
9 work to approximate this by having, say, for
10 example, I am from Marion County, and in Marion
11 County we have three, I think four different
12 Senatorial districts representing us, and by
13 this, it occurs that there is a lack of
14 concentrated effort, concentrated knowledge,
15 concentrated work on the part of the folks
16 doing the job in the Senate.

17 With this in mind I would like to suggest
18 that we all get behind them and continue to
19 submit ideas and I thank you very much.

20 REPRESENTATIVE PRECOURT: Thank you, sir.
21 Mike Archer is next, followed by Linda Hobbs.

22 MR. ARCHER: Good morning. How are you
23 doing? Here we are 11 years later after what
24 many people believe, whether we agree or not,
25 many people believe was one of the most corrupt

1 elections in modern American history, took
2 place right here in Florida.

3 We developed widespread voter mistrust
4 following that, year after year after year.
5 Now, the process of redistricting is very
6 healthy, because it allows us to try to rebuild
7 some credibility into the political process in
8 Florida.

9 So it is something we all want to do, but
10 what I would like you to consider is this.
11 Your stated goal that you said several times
12 today is to remove politics from the process,
13 yet as many speakers have pointed out, the
14 Legislature, itself, is fighting the process.

15 That is just not helpful at all, fighting
16 those Amendments is not going to build
17 credibility.

18 Secondly, to remove politics from the
19 process, are you legally forbidden, I mean
20 legally forbidden from getting the services of
21 a politically neutral redistricting expert to
22 manage this process and see it through, through
23 all of the vetting and all of the Supreme Court
24 work so that the public has a full chance to
25 see every piece of this process, as many people

1 have mentioned.

2 I want to know and I would like an answer
3 from both a Democrat and a Republican, I would
4 like to know, are you legally forbidden from
5 doing that? Thank you.

6 REPRESENTATIVE PRECOURT: Thank you, sir,
7 and after the meeting, everyone here will be
8 available to meet with you at your convenience.

9 We are going to have people address issues
10 at that time. Again, thank you for your
11 comments.

12 MR. ARCHER: May I have an answer, please?

13 REPRESENTATIVE PRECOURT: We are at the
14 end of the meeting we are going to answer a
15 whole long laundry list of comments and we are
16 going to do it in that format.

17 MR. ARCHER: Okay, so you will answer that
18 question later, thank you.

19 REPRESENTATIVE PRECOURT: Thank you for
20 your time, sir. Linda Hobbs is up next,
21 followed by Sandy Trusso.

22 MS. HOBBS: Good morning.

23 REPRESENTATIVE PRECOURT: Good morning.

24 MS. HOBBS: My name is Linda Hobbs and I
25 live in Sumter county and I would like to thank

1 each of you for coming here this morning. You
2 probably got up earlier than I did. A number
3 of you probably had to drive quite a distance.

4 This issue is one of one nation or not,
5 divided or not. I would, for those of us who
6 have seen the present map districting, some
7 people have referred to it as having fingers.

8 For sure it is a strange map, and I
9 acknowledge that you -- that you did not draw
10 the map, but I also am aware that you may have
11 benefited from that map, and so, and what did
12 that strange map say?

13 And the question is, can redistricting be
14 used for voter suppression, and that is what we
15 are actually talking about today. And what did
16 the vote of the 63 percent of Floridians say
17 they wanted?

18 They want voter expression, not voter
19 suppression. They want every vote to count,
20 and they want every voter included. This is an
21 incredible opportunity that each of you have
22 now, and it is to right a wrong and it is to
23 say that you represent all of the people in
24 your district, not just some of them.

25 So I ask each of you to let the desire for

1 citizen representation and voter expression be
2 the guide for this new redistricting. Our
3 people, our country has been divided enough.
4 We are looking to you to bring us together.
5 Thank you.

6 REPRESENTATIVE PRECOURT: Thank you very
7 much for those comments. Sandy Trusso,
8 followed by Marguerite Cavanaugh.

9 MS. TRUSSO: Thank you for allowing our
10 input on this redistricting process. In my
11 opinion we need to draw the lines in compact
12 districts that are most convenient to local
13 voters and in districts that best serve the
14 needs of the majority of the communities in
15 each county.

16 This way it is much easier to know your
17 Legislators and they, in turn, are more
18 attentive to individual and community needs.
19 When you spread these geographic districts out
20 so far, it is almost impossible for a
21 Legislator to cover the territory so as to
22 really understand the needs of his or her
23 constituency.

24 Marion County is one of the largest of the
25 smaller Florida counties, and we should not be

1 so chopped up so as to render us insignificant.

2 For example, currently in Marion County we
3 have four Senators, each of whom slices off a
4 small piece of our county, and then in each of
5 these small pieces, each of them is thrown into
6 a mix of other counties, who's cultures are so
7 varied, everything from a portion of our State
8 Capitol, Senator Dean, college towns, to rural
9 farm land, to ocean life styles, none of which
10 is representative of the type of values,
11 culture and growth that is unique to Marion
12 County.

13 We need for our State Senators to
14 understand and represent the needs of Marion
15 County as their top priority.

16 Another example, one of our Congressmen is
17 mainly in Orange County, Orlando, an area so
18 far away and so culturally different, so as to
19 have very little in common with our needs. We
20 need for our Congressman to be geographically
21 more personally assessable which also enables
22 more accountability, especially within the
23 Federal government.

24 People already feel that the U.S. Senate
25 and Congress are so far away that they are out

1 of reach. Although we appreciate town
2 meetings, it is nearly impossible to explain a
3 specific problem in depth. While there are
4 Congressional District offices, most of the
5 time we have to drive to Orlando to meet with
6 our Congressman.

7 No matter how responsive our Congressman
8 tries to be, in a district this size, it is
9 extremely difficult to meet with many of his
10 constituents from further and smaller counties.

11 Therefore, it is essential to have a
12 smaller Congressional District, exclusive to
13 Marion County, which may or may not incorporate
14 small pieces of other bordering communities
15 who's communities are closer to our needs.

16 One other thing I would like to mention, I
17 wasn't going to mention it, but since it has
18 been brought up. Unless there is a massive
19 education program, we know by the pregnant pig
20 amendment that most of the voters here have not
21 been fully informed on a lot of the ballots and
22 so a lot of times they vote a straight yes.

23 Okay, so we aren't really sure that they
24 have agreed with Amendments 5 and 6, and
25 another thing is that the organization who

1 wants to define what is fair, despite the fact
2 that they claim nonpartisan, are very much in
3 line with a particular party, and I think that
4 this causes discrimination against the rest of
5 the races and the ethnicities.

6 So again, I would ask that you do it by
7 community need and compact, compactness. Thank
8 you.

9 REPRESENTATIVE PRECOURT: Thank you,
10 Ms. Trusso. Next we have Marguerite Cavanaugh,
11 followed by Marsha Shearer. Ms. Cavanaugh?
12 Has she left? Okay. Great. Marsha Shearer is
13 next, followed by Anne Schalet.

14 MS. SHEARER: Good morning, voters,
15 indeed, knew what they were voting for when
16 they voted for these two referenda. How many
17 times do we actually do it? How many times
18 does it take?

19 The Chair indicated that building blocks
20 were needed to look at the various issues
21 involved in coming up with these districts.

22 It seems to me that the major building
23 blocks are already there. First of all, common
24 sense, and secondly, the very specific
25 directions that were specified in the two

1 referenda. I frankly am very disappointed we
2 don't have a map to comment on today.

3 I -- perhaps if the Legislature had not
4 been so busy trying to avoid the
5 implementation, perhaps we would have one.

6 There is a concern I do have, now that I
7 got that out of my system, and that is the
8 timeline. This has been talked about before,
9 but there is an issue that does relate to
10 fairness, and that is that by the time these
11 districts are redrawn and comments are made and
12 then the districts are redrawn again, by the
13 time the election comes around, the candidates,
14 particularly those who are not incumbents of
15 either party, are going to have one heck of a
16 time getting their views known to the public.

17 So the timeline here that the way this is
18 going on is set right now in favor of
19 incumbents, regardless of party, and that I
20 feel is against the very issue that the
21 referenda tried to address. Thank you.

22 REPRESENTATIVE PRECOURT: Thank you very
23 much for those comments. Ann Schalet, followed
24 by Sam McConnell.

25 MS. SCHALET: I only came to Florida 18

1 months ago. I feel totally incompetent to say
2 anything more than I am in total culture shock
3 that 63 percent of the voters could vote for
4 something that is now being sued by the
5 Legislature. Thank you.

6 REPRESENTATIVE PRECOURT: Thank you. Sam
7 McConnell followed by Alan Wichman.

8 MR. MCCONNELL: Sam McConnell from Marion
9 County. I want to thank The Villages for
10 hosting us. We don't get our own community of
11 interest meeting, so I thank you for having us
12 as guests.

13 That is part of why I wanted to talk to
14 you. You know, I had a choice to go to
15 Daytona, a choice to come down to The Villages
16 and a choice to go up to Gainesville, so
17 therein lies part of the challenge.

18 We are so splintered, we are not a
19 community of interest in Marion County, we are
20 a community of pot pie. We just flat out do
21 not have that singleness of representation that
22 we need to have to show that we are a community
23 of interest.

24 Marion County I don't think has had a
25 State Senate probably since the '80s, that

1 lived there. You know, I was raised with a
2 statement that home is where the heart is.

3 I think in this redistricting it might be,
4 the heart is where the home is, and I am really
5 concerned that we haven't taken into effect
6 that Marion County has got four State Senators,
7 and they are all great State Senators, I
8 appreciate what they have done for our county,
9 and this is by no means a reflection upon the
10 current elected officials, but what I am saying
11 is that we need somebody that can stand up for
12 Marion County and can represent Marion County
13 and can put forth our wishes and concerns as a
14 community of interest.

15 You know, whether you are running for
16 political office or running the political
17 office or running from the political office,
18 you need to have a community of interest to
19 stand for.

20 We don't, we don't -- our elected
21 officials are so splintered that when we have
22 community activities it is hard for a State
23 Senator or a state Representative to be at some
24 of our community activities because they are so
25 from away.

1 It took me 48 minutes to drive here from
2 my house and I am an aggressive driver.
3 Daytona, if I would have went to that meeting
4 it would have took me 75 minutes to an hour
5 and-a-half to drive over there to that meeting.
6 If I go up to Gainesville, it is almost an
7 hour.

8 We are a community of interest in Marion
9 County, ladies and gentlemen. We do represent
10 a strong body of voters, and for you to have us
11 splintered the way we are is not fair to Marion
12 County.

13 I totally respect the State legislators
14 and the State Senators that have tried to
15 represent us, but it is time for a change and a
16 redistricting of Marion County, and I thank The
17 Villages in Lake County and Sumter County for
18 having us here.

19 REPRESENTATIVE PRECOURT: Thank you, sir.
20 And those were great comments, and, you know,
21 the home is where the heart is, is a great way
22 it look at it, and those comments truly came
23 from your heart, I could tell. Thank you.
24 Alan Wichman, followed by Joyce Hamilton Henry.

25 MR. WICHMAN: My name is Al Wichman, I

1 live in Grand Island, which is in Lake County,
2 and my wife and I are members of the League of
3 Women Voters and we certainly agree with the
4 comments that have been made by Mrs. and
5 Mr. Coen of the Lake County board.

6 The item of time seems to be mentioned by
7 most people. I was reading an article about
8 the number of states that have already adopted
9 their own redistricting, and we are falling by
10 the wayside.

11 Somehow as I watch television I see
12 candidates are now identifying that they wish
13 to run for particular offices. How do they
14 know what office they are running for? We
15 haven't identified what the districts are.

16 So this is the biggest situation that
17 faces people like yourselves to find out what
18 kind of representation you are going to have to
19 work with if you are elected.

20 Now, in addition to the 63 percent figure
21 which most people have been applauding all
22 meeting we see that our tax money is being
23 spent to fight what we want, and I think
24 63 percent majority of people that really
25 studied, really studied these Amendments back

1 in November, the League of Women Voters, one
2 agency that has worked diligently to get the
3 word out to the people.

4 So the comment that people didn't know
5 what they were voting for doesn't take any kind
6 of credence at all. We want fairness. We want
7 our tax money spent wisely. We want good
8 representative districts, not the
9 gerrymandering that we see when we look at our
10 present map which is an absolute disgrace.
11 Thank you.

12 REPRESENTATIVE PRECOURT: Thank you, sir.
13 Next we have Joyce Henry, followed by Marsha
14 Solms. Joyce, are you here? Thank you.

15 MS. HENRY: Good morning. My name is
16 Joyce Hamilton Henry, and I am the Director of
17 the Mid Florida Regional Office of the ACLU
18 which is based in Tampa, and I am here to speak
19 on behalf of the ACLU.

20 You have two mandates to uphold. The 1965
21 Voting Rights Act and the mandate from the
22 63 percent of Floridians who voted for
23 Amendments 5 and 6.

24 They both require that you draw the maps
25 for the new House Senate and Congressional

1 Districts that are compact, contiguous and
2 reflect the needs of communities of interest,
3 specifically, more specifically,
4 African-Americans and Latinos.

5 We want fair nonpartisan districts. It
6 should not favor or disfavor any political
7 party. We want a process that is truly, truly
8 transparent. We believe that lawmakers should
9 not be able to draw their own individual
10 districts.

11 That is the essence of insider and back
12 room deal and you also heard gerrymandering.
13 We are deeply troubled by this very slow and
14 what will amount to be a very expensive
15 process.

16 You have had the data, census data for
17 months. Our question to you is, where are the
18 maps? We have the technology, the software,
19 and we clearly have the intellectual capital to
20 draw the maps. This is not rocket science.

21 Where are the maps and why is it taking so
22 long? We are being asked to come in on a
23 process, but we are not given the opportunity,
24 the real opportunity to comment.

25 Citizen participation is at the heart of a

1 healthy democracy. On the surface, these
2 hearings may seem to engage people in a
3 democratic process, but in reality, without the
4 maps, it is a sham, a farce, a waste of
5 everyone's time and the taxpayer's dollar.

6 Floridians want to see the map. We want
7 to know who our Representatives will be.
8 Potential candidates want to know which
9 district they should run for and we just heard
10 from one Supervisor that Supervisor of
11 Elections need to know also so that they could
12 do their jobs.

13 If you are truly committed to making our
14 democracy work fairly, vibrantly and
15 inclusively, you need to make the map, present
16 it to the public, tell us why you draw the
17 districts and then invite our comments.

18 Only then can we have a real conversation,
19 unless the goal is to keep us in the dark,
20 confused and further delay the process. I hate
21 to resort to a colloquial kind of term, but I
22 will. Read our lips. Show us the maps. Thank
23 you.

24 REPRESENTATIVE PRECOURT: Thank you. Next
25 we have Ms. Marsha Solms, followed by Gary

1 Davis.

2 MS. SOLMS: My name is Marsha Solms, I
3 live in The Villages in Sumter County. I just
4 have two brief comments.

5 I am in District 42, and I would like to
6 urge that The Villages remain, remain in one
7 State House District.

8 My Congressional District, which is
9 District Number 5, I would like all of The
10 Villages to be, I would urge you to vote for
11 all of The Villages to be represented by one
12 Representative.

13 REPRESENTATIVE PRECOURT: Thank you,
14 ma'am. Next we have Gary Davis, followed by
15 Cheryl Borkowski.

16 MR. DAVIS: Good morning, everyone, thank
17 you for being here. I appreciate the
18 opportunity to be part of a public forum. I am
19 a unique Villager, I live in Sumter County here
20 in The Villages. I came here seven years ago,
21 moved north to come to The Villages, and I
22 didn't come here to retire, I came here to open
23 a business.

24 My business partner sent me up here to
25 establish this office. So over the last seven

1 years in building this office I have talked to
2 literally thousands of people, not only through
3 business, but my Rotary Club, my political
4 party affiliation and activity, as a
5 representative of one of our districts here in
6 The Villages, my church and other activities.

7 We are a unique community. We have a
8 common culture, we have common interest. We
9 came here for the lifestyle and what this
10 community represents, but being spread over
11 three counties and two municipalities makes it
12 a challenge.

13 So I would ask you to give serious
14 consideration that when you are looking at what
15 The Villages represents, now 83,000 and
16 growing, expected to peak out at around 105,000
17 residents, that you look at The Villages as one
18 voting block, for Legislative, Congressional
19 and Senatorial Districts.

20 And Mr. Baxley, like you, I share a target
21 rich environment here. Thank you very much.

22 REPRESENTATIVE PRECOURT: Cheryl
23 Borkowski, followed by Roger Kass.

24 MS. BORKOWSKI: I am Cheryl Borkowski from
25 Sumter County. I don't speak very well in

1 public. In fact, I am shaking, and I just --

2 CHAIRMAN GAETZ: You are doing great,
3 ma'am, but could you speak directly into the
4 mike, because I know all of these friends and
5 neighbors here --

6 MS. BORKOWSKI: Okay, I don't want to
7 sound too loud.

8 CHAIRMAN GAETZ: No, that is all right,
9 that is all right.

10 MS. BORKIWSKI: I am just very
11 disappointed that our Representatives have been
12 dragging their feet. I want fair
13 representation in the redistricting, and I have
14 been very disappointed in public officers and
15 people that have participated in running our
16 government in Florida.

17 I don't feel you have to be a Harvard
18 graduate to do what is right for the American
19 people, and on this small little redistricting
20 thing, I expect you people to do the right
21 thing, and you know you can do it by computer
22 and it is probably going to be the fairest way.
23 Thank you.

24 REPRESENTATIVE PRECOURT: Thank you. Next
25 we have Roger Kass, and I don't have any other

1 cards. So if anybody else wants to speak if
2 would you get with staff and fill out a card
3 and get it up with me, you still have that
4 opportunity. Mr. Kass.

5 MR. KASS: Good morning, and thank you for
6 the opportunity. My name is Roger Kass, and I
7 am the previous President, past, immediate past
8 President of The Villages Homeowners'
9 Association.

10 I happen to live in Marion County, but
11 when I was the Homeowners' President I
12 represented all of The Villages, and all of the
13 residents of The Villages.

14 As has been said, we are a unique
15 community, a community of common interest. Our
16 interests are similar and I believe it is
17 important that our representation reflect that.

18 I would ask that you consider the fact
19 that we are a community of common interest and
20 establish The Villages as part of a single
21 congressional legislative and represented
22 district, regardless of what county we live in,
23 because we do live in three counties, and we do
24 have -- and in two municipalities, and I thank
25 you for your consideration and time. Thank

1 you.

2 REPRESENTATIVE PRECOURT: Thank you, sir.
3 Now, I did have one lady who was not here when
4 I called her name earlier. Has Marguerite
5 Cavanaugh come back, last call? Okay. And
6 then I have Catherine Williamson, would you
7 like to speak, please step up to the -- thank
8 you.

9 MS. WILLIAMSON: Thank you, and thank you
10 all for coming here. The topic that this
11 reminds me of is one of the things that we see
12 all around the country, and that is the erosion
13 of our population's faith and trust in their
14 government and you guys probably experience it
15 all of the time, but many times people become
16 involved with government and their first
17 involvement is from a negative point of view,
18 because they basically have a very low level of
19 trust.

20 And I think this is a great opportunity
21 for you all, there is maybe in your daily work
22 you can only feel like you can make slight very
23 small steps towards improving that.

24 This is a big step you can make towards
25 improving our population's faith and trust in

1 government. Anybody who looks at a current map
2 has a -- an immediate sense that something
3 doesn't make sense here.

4 So, of course, the first thing that
5 everybody is looking for in redistricting is
6 districts that make sense. I think that it is
7 easy to understand that The Villages are a
8 community of interest and that it makes sense
9 that they are kept together in redistricting.

10 For the rest of us who live in Lake
11 County, it makes -- it would make more sense to
12 us if we were not represented by four different
13 U.S. Congress people, four different
14 Representatives, that if there were -- if it
15 was more along county lines, that would make
16 more sense to us.

17 The timeline is another area where you can
18 effect what people's perception of what you are
19 doing is. If this drags out to the point
20 where it becomes clear that the votes and the
21 late vote in the Legislature puts this in a
22 time frame where this gets finished up the day
23 or a week before ballots need to be put
24 together, this will be viewed as a general
25 public as a way that you could be -- that you

1 have caused difficulty for them, that you have
2 not enabled them to be positively involved with
3 government, but have made it more difficult.

4 The other thing that you can do is, it is
5 good to see so many people from different areas
6 up here. One of the things that I hope that
7 people from other parts of the state are here
8 for, is that we would like to see the people
9 from other parts of our state be involved with
10 drawing the lines in our state so that there is
11 no perception at all that any of you are
12 individually involved in drawing the districts
13 that you represent.

14 It needs to be something that is clearly
15 fair in how you do that. You are doing your
16 meetings in an open way. You need to keep that
17 going so that everything looks transparent.
18 This is a great opportunity. We hope that you
19 really follow through on that. Thank you.

20 REPRESENTATIVE PRECOURT: Thank you very
21 much for those kind words. I have got one
22 additional card here from Bud Mangels, and
23 again, anyone else that wants to speak, please
24 see our staff. They are handing me another
25 card right now and we will give you that

1 opportunity. Mr. Mangels.

2 MR. MANGELS: Yes, the name is Mangels.

3 REPRESENTATIVE PRECOURT: Mangels, I
4 mangled it, sorry.

5 MR. MANGELS: That is a grand old German
6 name and I am proud to be a first generation
7 American, and one of the things that I find
8 lacking in this discussion is we are talking
9 about Republicans, Democrats, Independents,
10 ethnic groups, but I haven't heard anybody
11 talking about we are all Americans.

12 Secondly, I think we talk about a republic
13 that is based upon a representative form of
14 government, and we need neighborhoods, I heard
15 the word compact made several times, but we
16 need to have an opportunity to be in contact
17 with our representatives because frankly, what
18 you think isn't very important.

19 What is important is that you know what we
20 think, so that when you have cast a ballot, so
21 that when you cast a ballot, whether it is in
22 the Federal government or the State government,
23 it is really responding to the basis of this
24 republic, and that is that we have somebody
25 that is going to represent us.

1 You don't have a job. You have an
2 assignment. You have a calling, and that
3 calling is to represent a group of American
4 people in a very wonderful form of government
5 and that is one that is based upon
6 representation of all of the people.

7 I neglected to say thank you for being
8 here. I appreciate you willing to serve as
9 part of that government process, and all of the
10 people that I sit with out here today, I am
11 thankful that they are taking part in this very
12 precious thing that we have. Thank you.

13 REPRESENTATIVE PRECOURT: Thank you, sir.
14 Now I have a card from Ms. Sandra Mott.
15 Ms. Mott. Followed by Harriet Heywood. Thank
16 you, ma'am.

17 MS. MOTT: Good morning, and thank you all
18 for being here and for offering us the
19 opportunity to tell you what we think, because
20 come next election, we are going to tell you
21 again what we think.

22 The things that seem to be important in
23 what I have heard here today about
24 redistricting are that we do need our -- keep
25 our communities of interest intact. We need to

1 keep our districts compact so that we can have
2 ready access to our Representatives, because it
3 is important.

4 I know you all think it is or you wouldn't
5 be here, to know what we think. The American
6 people are beginning to wake up and the next
7 ten years are going to be very critical years
8 in the future of our nation, so thank you.

9 REPRESENTATIVE PRECOURT: Thank you,
10 ma'am, I appreciate those comments. Next we
11 have Harriet Heywood, followed by Dave O'Neill.

12 MS. HEYWOOD: Thank you very much. You
13 will excuse me for being a skeptic about the
14 redistricting process. What I have seen is the
15 Governor and the Legislature fight it at every
16 turn.

17 Unfortunately, when you have districts
18 that are drawn by Representatives, you have
19 unrepresented citizens and that is what we have
20 in Florida today.

21 Sixty-three percent of the voters of this
22 state voted for fair districts, and what we
23 want to see is our wishes carried out, and what
24 we really are upset about is our tax dollars.

25 My tax dollars being used to fight a law

1 that I voted into effect. Ideally what we
2 would like to have is a nonpartisan commission
3 that is going to be voting on the maps.

4 At the very least, a computer program
5 which is not being gerrymandered by one party
6 or the other. I hope, I really hope that you
7 are not going to use my tax dollars to fight a
8 law that I voted, and I also want to add that
9 the people of Florida are going to be watching
10 you, and the people of the country are watching
11 us also. So please do the right thing. Thank
12 you.

13 REPRESENTATIVE PRECOURT: Thank you,
14 ma'am. Dave O'Neill. Mr. O'Neill. And again,
15 this is my final card that I have. So if you
16 want to speak, please see one of our staff
17 quickly. Mr. O'Neill.

18 MR. O'NEILL: Okay, glad to be here,
19 folks, and I have listened to the meetings that
20 I have been watching on TV every day, and a
21 point came out here that some of you people
22 have voted to tax or to spend our taxes against
23 the Amendments that were passed by 63 percent
24 of the vote.

25 Now, I wonder if you, Senator Hays, since

1 I am in your district, did you vote?

2 SENATOR HAYS: Did I vote on what?

3 MR. O'NEILL: On these taxes being paid
4 for the suit against --

5 REPRESENTATIVE PRECOURT: Okay, Senator
6 Hays, sir, I would like you to have that
7 conversation after the meeting here. We are
8 here to listen to your comments though, but we
9 are not going to engage in a debate from here.

10 MR. O'NEILL: I am asking you people a
11 question and I want to know. Did you --

12 REPRESENTATIVE PRECOURT: No, Alan, I am
13 not going to recognize you.

14 MR. O'NEILL: No, I will go on to the next
15 statement.

16 REPRESENTATIVE PRECOURT: Okay, thank you.

17 MR. O'NEILL: But at least I let you know
18 I am here.

19 REPRESENTATIVE PRECOURT: Okay.

20 MR. O'NEILL: Okay. So now it comes down
21 to everyone up there with a big smile on their
22 face, and I see it in meetings, where was it,
23 Panama City or up there in Pensacola, and
24 Jacksonville and that, and it looks like you
25 are laughing down at us.

1 You are really making us look like jerks
2 for coming up here to even have the audacity to
3 ask you super white folks, the super majority,
4 but you are not a majority, you are a minority,
5 and that is what this whole thing is about.

6 How could we -- how could a party that has
7 got half the population of the Democrats which
8 happens to be Republicans, why, how could they
9 possibly control both Houses?

10 So it turns out that it turns out that
11 over in Pensacola about, what was it, eight,
12 ten years ago when they had the redistricting,
13 they moved a black neighborhood out with 3,000
14 votes and the guy up there won by 400, and he
15 happened to be a Republican. And I thank you,
16 folks.

17 REPRESENTATIVE PRECOURT: Thank you very
18 much for your comments, sir. Okay. That was
19 the -- that was the last speaker card that we
20 had. That concludes our list of those who have
21 asked to speak. Aha, I have got some more
22 coming up, and then what we are going to do
23 after we get to the end of the speakers, is we,
24 if we don't have any written remarks that have
25 been submitted over social media and the like,

1 we are going to then proceed to having some of
2 our members up here answer some of the
3 questions that have been raised today and that
4 have been raised regularly over time, and once
5 I get to that we are going to start with
6 Senator Gaetz and then I have several others
7 who have already indicated that they wish to
8 speak. So, Heather Rabinowitz.

9 MS. RABINOWITZ: Thank you very much. I
10 am pleased to be here. I would like to give my
11 opinion about the fair districting. My
12 understanding of the Constitution is that
13 everyone in the country that is a citizen has
14 the opportunity and the right to vote.

15 And in order to do so they need candidates
16 of their choice, and districting is an
17 important element of this function. If the
18 maps for the districts are not presented early
19 enough in the process of elections, then
20 candidates do not have the opportunity to stand
21 forth and get support from the people in the
22 district that they hope to represent.

23 So my contention is that the maps for the
24 projected districts should be issued on the
25 early side rather than on the later side, so

1 that this American ideal can be fulfilled.

2 Thank you.

3 REPRESENTATIVE PRECOURT: Thank you very
4 much. Okay, that was the final card that I
5 have in my hand. Anyone else, raise your hand?
6 Okay, well, then we will go ahead and move to
7 the members of the panel that would like to
8 comment at this point in time.

9 First, thank you very much for being here.
10 We really appreciate all of the constructive
11 input that we have gotten and I was really
12 personally impressed with a lot of the maps
13 that we got. Representation Frishe, you are
14 recognized.

15 REPRESENTATIVE FRISHE: Thank you,
16 Mr. Chairman. First of all, thank you all for
17 coming out. I am a firm believer in that we
18 have a participatory system of government and
19 it doesn't work if you don't participate. So
20 thank you very much for participating.

21 There were a couple of questions raised
22 earlier today about whether the public could
23 intelligently submit maps and really start the
24 process.

25 Obviously, from the maps that have been

1 submitted today and over the last couple of
2 days, and also from everywhere from Tallahassee
3 to Pensacola to northeast Florida, and now The
4 Villages, obviously you have the intelligence
5 to do it. So those of you who don't think you
6 can, give it a shot.

7 We are, we are here to listen to what you
8 have to say because, as Mr. Mangels said, it is
9 not so important what we think coming out of
10 the box, it is important that we know what you
11 think locally, and I think that is very
12 important.

13 I am Vice Chairman of the House
14 Redistricting Committee. I live in Pinellas
15 County. I have to tell you, I have learned an
16 immense amount about the concerns of the
17 panhandle, of the northeast and now this area
18 in central Florida.

19 The Villages in particular are going to
20 have a problem because all of ya'll who
21 supported Amendment 5 and think it is wonderful
22 and it will solve your problems, you may have
23 just subdivided The Villages, because the use
24 of geographic and political boundaries were
25 feasible according to Amendment 5 is more

1 important than the preservations of communities
2 of interest.

3 But we are very glad to hear your input
4 there and we are going to try to do our very
5 best to accommodate those, but that is, you
6 know, the way Amendment 5 is worded, we may
7 have a problem there. So I hope you will help
8 us and give us some suggestions on how to
9 overcome that.

10 I thank you again for being here, freedom
11 is a heavy lift. It takes a lot of hands to
12 keep a country free, and I appreciate you
13 helping do some of the lifting. Thank you for
14 being here.

15 REPRESENTATIVE PRECOURT: Thank you,
16 Representative. Next we will go to
17 Representative Nehr. You are recognized.

18 REPRESENTATIVE NEHR: Thank you. I
19 appreciate that. My name is Representative
20 Nehr, and as Chairman of the Senate
21 Redistricting Committee in Tallahassee, I took
22 a few notes and I just want to make sure I
23 share some of that with you.

24 And I wanted to offer some clarification
25 regarding the redistricting timeline, because

1 there was some mention made of that a couple of
2 times.

3 Now, what you see on the websites as far
4 as the timeline, when action can occur is not
5 meant to suggest that the maps will definitely
6 pass on one day or another day or on a specific
7 day.

8 It is simply a range of dates that final
9 action by the Legislature, the courts and the
10 Department of Justice can occur. As long as it
11 is not in 2011, because our Constitution says
12 it cannot be acted on until 2012.

13 What that means is that after committee
14 meetings that started September, and go through
15 December, we will be discussing that, we will
16 be discussing the maps. We will have community
17 meetings where there will be public input at
18 all times for any votes are taken, that
19 everyone is allowed to do that.

20 If we get our work done early, we can
21 actually vote on the maps as early as the first
22 day of session, or if there is too many actions
23 that we need to do, if there is too many
24 questions by the public, we can wait until
25 later on, but that is not a definitive

1 timeline. It is just a timeline when they can
2 occur since we have certain laws that we have
3 to follow. So I just wanted to mention that to
4 everyone to clarify that situation. Thank you,
5 Mr. Chairman.

6 REPRESENTATIVE PRECOURT: Thank you,
7 Representative. Next on the list, I have
8 Representative Baxley. You are recognized.

9 REPRESENTATIVE BAXLEY: Thank you,
10 Mr. Chairman. I first want to thank our
11 Chairman for conducting these kind of meetings
12 that have been conducted with a proper decorum
13 and proper respect for many different opinions.

14 As you can hear, a lot of different
15 opinions are out there. I am very proud to
16 have all of these members in my area of the
17 state, you know, we do have different issues
18 here in north central Florida, and The Villages
19 is an incredibly unique event in the
20 demographics of Florida, and I think it is
21 absolutely necessary that they come and see
22 what is happening here before these maps are
23 drawn.

24 And so I am delighted that we were able to
25 get this tour of meetings. If we came here

1 with pre-drawn maps and telling you what we
2 plan to do, I don't think that would have been
3 proper.

4 You know, there is a time to listen and
5 there is a time to speak. Please remember,
6 this is the beginning of a process. This is
7 the beginning of a process that you can be part
8 of all of the way through.

9 I was one of the few people, I was a brand
10 new freshman when we did draw the maps in 2000,
11 and I can tell you, this has been the most
12 transparent experience of any state that I have
13 observed, especially knowing that we get our
14 information from the Census much, much later
15 than many of the states that are already
16 drawing maps.

17 How presumptuous of us to come here and
18 tell you, this is going to be your map. We
19 should come and listen to you first before we
20 draw maps, and that is exactly what is
21 happening.

22 I want to thank you for contributing to
23 that process and the things that you have
24 contributed. And also knowing, and Senator
25 Gaetz, I hope that you will explain the rules,

1 you know, when we can do what, and what our
2 Constitution requires.

3 We all swore to keep that Constitution and
4 I think you give the best explanation of why we
5 are doing what we are doing in this process,
6 but I am very proud of this participation.

7 I am very proud that these comments will
8 be on the record and part of the decision,
9 rather than already made the decision and just
10 informing you of something.

11 So I, having been through this process
12 before, I can tell you, this is a far more
13 transparent way to conduct this process and
14 this is only the beginning.

15 There will be open meetings at every venue
16 for you to come and participate and comment on
17 as we go through this process, and it is,
18 redistricting is very important. It has to do
19 the way, resources get allocated. It has to do
20 with so many things, and term limits, look,
21 most of us won't even run on these new maps.

22 Most of us, many of these people are
23 already term limited out. They won't even be
24 here. So in the case of Florida, eight years
25 is all you have, so you don't even run on those

1 maps.

2 Most of us run on maps that someone else
3 drew. You heard that, a point earlier. Term
4 limits has done that for Florida and it will
5 make this a more open process, because we are
6 not just preserving our own territory, because
7 most of us are going to go out of office.

8 So thank you for understanding that, and I
9 appreciate the Chairman for conducting these
10 meetings. This is a tremendous amount of
11 effort to have this many colleagues. You see,
12 I am the only one from Marion County and all of
13 these folks are people that we have to have a
14 discussion with.

15 Thankfully we have had great
16 representation in our delegation and I thank
17 them for their work, but I am excited about you
18 continuing to be a part of this process and
19 nothing will be passed that you won't have a
20 chance to comment to. Thank you.

21 REPRESENTATIVE PRECOURT: Thank you,
22 Representative Baxley. Senator Hays, you are
23 recognized.

24 SENATOR HAYS: Thank you, Mr. Chairman. I
25 want to thank each one of you for being here.

1 This is what democracy is all about, it is
2 called citizen participation.

3 I am very encouraged by the crowds that we
4 have gotten all across the state. Believe me,
5 this is not what we call a vacation at all. So
6 don't think the taxpayers are funding us a
7 great vacation.

8 We were in Jacksonville on Monday, we left
9 Jacksonville Monday night and drove to St.
10 Augustine, and we were at a meeting at 8:00
11 yesterday morning in St. Augustine. We left
12 Daytona Beach last night at 9:00 to come over
13 here for 8:00.

14 We will be in Gainesville this evening and
15 then we are through with this particular
16 circuit. So folks, it is not a glory tour at
17 all.

18 Believe you me, every one of us up here
19 just are thirsty for compact districts. My
20 particular Senate District in which we are
21 sitting right now is 85 miles east and west,
22 and I feel embarrassed to be commenting on it,
23 it is not complaining, but to be commenting on
24 it in the presence of Senator Dean who's
25 district goes all of the way to the Georgia

1 line, and he told you about that earlier.

2 But, you know, there are so many pine
3 trees out there and so few people out there
4 that we have to have that large area to meet
5 the numbers.

6 This whole process is numbers driven. The
7 founders of this country over 200 years ago
8 knew, I personally I believe it was with divine
9 wisdom that was given to those men that they
10 designed the reapportionment process the way
11 they did, so that every person would have equal
12 representation and they knew it had to be
13 adjusted periodically. That is what we are
14 going through.

15 We want the compact districts. Every one
16 of us up here have sworn to uphold the
17 Constitution of this state, and we are going to
18 honor Amendments 5 and 6.

19 To answer specifically that question of
20 the gentlemen a while ago, no, I did not vote
21 to spend money to fight that lawsuit. The
22 disappointing part of this whole thing, folks,
23 is the misinformation that is out there.

24 The Florida Legislature has not filed a
25 lawsuit to fight Amendments 5 and 6. The

1 Amendment 6 lawsuit was filed by one Republican
2 Congressman and one Democratic Congresswoman.
3 The Florida House chose to go, what is the
4 term, an intervenor. In seeking clarification,
5 the Florida House intervened, but your tax
6 dollars are not being used to sue you the
7 people who voted the 63 percent.

8 Believe me, I don't know where you got
9 your information, but it is incorrect. So, no,
10 I did not vote to waste that money.

11 One thing I would like to address is the
12 splintered counties. I can, I can understand
13 that, but consider this. When you have only
14 one Senator or only one Representative, that is
15 only one voice that you have advocating for you
16 in Tallahassee or in Washington.

17 I live in Lake County. We have six voices
18 in Tallahassee for Lake County, two Senators
19 and four members of the House represent parts
20 of Lake County.

21 That is a far better situation for the
22 people of Lake County than if we had only one,
23 because if that one gets cross-wise with the
24 leadership in Tallahassee, then Lake County's
25 interests are not going to be well represented,

1 and, you know, it is just better when you have
2 six people advocating for your position than it
3 is if you have only one person.

4 So it is not something that we do
5 intentionally. The media have led you to
6 believe that we are up here looking out for our
7 own self interest, and I would invite you to go
8 to the website and try to design the districts.
9 You will see that it is some what like handling
10 a water balloon. If you squeeze it here, it is
11 going to bulge out over there and back and
12 forth like that.

13 So we are dedicated to try to get the
14 districts as compact as we can. We appreciate
15 ya'll being here, and we did not file a
16 lawsuit.

17 REPRESENTATIVE PRECOURT: Senator Gaetz,
18 you are recognized.

19 SENATOR GAETZ: Thank you very much,
20 Mr. Chairman, and someone at some point during
21 this hearing made some comment about how the
22 hearing had no value.

23 Well, I can tell you, I have taken page
24 after page after page after page of notes about
25 local issues of concern that have to do with

1 how your district lines could be or should be
2 drawn or shouldn't be drawn.

3 Information that I as somebody who lives
4 way up in the panhandle of Florida, never could
5 have gotten if we were just sitting in
6 Tallahassee with Legislators talking to each
7 other in an echo chamber.

8 So the fact that you were here today and
9 provided this information makes this hearing
10 extraordinarily valuable to me as one person
11 who will vote on proposals that will come
12 before the Senate Reapportionment Committee.

13 The several folks who said this process
14 ought to be nonpartisan and, in fact, one
15 gentleman asked if we could please answer the
16 question, are we legally forbidden to have a
17 politically neutral person manage the
18 redistricting process and he wanted to hear
19 from a Republican and a Democrat.

20 I am a Republican and I would yield to any
21 of my Democratic colleagues. First of all, I
22 am 63 years old, and I am still looking for the
23 first politically neutral person.

24 I haven't found anybody who is without
25 opinions and without a point of view, but

1 secondly, the Florida Constitution requires
2 that the Legislature, made up of elected
3 individuals, people you can elect and un-elect,
4 actually manage and draw, manage the
5 redistricting process and draw the lines.

6 So I am not sure where we find these
7 political neutrals, if they are on an island
8 somewhere, they get no newspapers, they have no
9 opinions, I haven't found them yet, but if we
10 could find them we would have to I think amend
11 the Florida Constitution because it says now
12 that the Florida Legislature is the one that
13 must draw these lines.

14 Now, can we rely on experts to give us
15 advice and information? Absolutely, and we
16 are. We have I think someone mentioned it
17 earlier, we have had input from -- from folks
18 at Columbia University, and even though they
19 are Floridians by -- by citizenship, they
20 probably don't have too many dogs in the fight
21 here. They are looking at this as an academic
22 exercise.

23 We have had other universities express
24 interest and even offer maps for part of the
25 state or for just Senate Districts or just

1 Congressional Districts, and also there are
2 individuals who are political scientists and
3 they do have points of view, but they are
4 offering expert advice to us, to others, to the
5 Fair Districts group.

6 There is all kinds of advice that we can
7 get from people who have studied redistricting
8 and who are experts on redistricting in this
9 state and in other states, but it is a
10 constitutional requirement that we draw the
11 maps.

12 Now, if the Fair Districts folks felt that
13 was a bad idea, then they could have and still
14 can offer an amendment to the Constitution that
15 would establish some other group other than
16 people you elect to do this job.

17 There, I think, are one or two states that
18 use an unelected group that you don't really
19 have any accountability from or to that at
20 least put together plans or draw districts, and
21 if the Fair Districts folks meant to do that,
22 they didn't, but they certainly still could.

23 But right now, sir, the laws are that we
24 have to draw the districts and we certainly can
25 ask for expert advice from people who do this

1 as individuals who study redistricting across
2 the country.

3 And then someone also asked, a couple of
4 folks said, well, gosh, in fact, I wrote the
5 quote down, we shouldn't have quote, maps
6 submitted by people without subject area
7 expertise, as though we would have the subject
8 area expertise and I want to submit the only
9 people that would be submitting maps and that
10 folks sitting in the chairs here today don't
11 have that subject area expertise.

12 I think that was the implication of the
13 comment. I couldn't disagree more. We have
14 seen maps submitted today by people who have on
15 the ground expertise who know where communities
16 of interest are, who know where people go to
17 church, go to school, go to Synagogue, where
18 their commerce and industry is concentrated,
19 and where they have communities of interest.

20 And by the way, the most often repeated
21 phrase in this hearing today for describing how
22 districts ought to be drawn is the term,
23 communities of interest, the most often
24 repeated phrase.

25 And as another member of the committee has

1 pointed out, sadly, sadly, the term communities
2 of interest is not included in Amendments 5 and
3 6.

4 There was actually an effort made by
5 another group to have the term communities of
6 interest included in the Constitution, but the
7 Supreme Court of Florida said no, that that
8 amendment to the, or proposed amendment didn't
9 meet the ballot test.

10 And so we have contiguity, we have
11 political boundaries, we have natural
12 boundaries, those are all in Amendments 5 and
13 6, but communities of interest isn't there. So
14 there is a tension here, there is a need here
15 to sort of sort out what will work best for
16 you, and you have been extraordinarily helpful
17 in telling us how to sort it out.

18 You have told us, for example, that as to
19 The Villages, it is less important to pay
20 attention to county lines and more important to
21 pay attention to this community.

22 Sadly, Amendments 5 and 6 didn't take that
23 into account, and so, you know, we do have some
24 issues there to work through. Then there has
25 been a great deal of conversation about the

1 timeline, and believe me, it is an issue that
2 we share as well.

3 Let's see if, if we go back and look at
4 the facts and just maybe if I could provide you
5 with some data. The Bureau of the Census does
6 not release census information to all states
7 all at once.

8 The Bureau of the Census releases census
9 information in tranches or groups, and we
10 weren't the last state to receive census
11 information, but we were one of the last, and
12 we could not legally begin the process of
13 redistricting until we knew where Floridians
14 lived, because we have all moved around a lot.

15 In the last ten years a number of you
16 moved here, and a lot more people have moved
17 into Florida. There has been ebbs and flows of
18 population. So we had to have that
19 information.

20 Now, as soon as we got it, as soon as we
21 could convert it to something that could be
22 seen and understood, and believe me, our folks
23 worked around the clock, they worked at night
24 to do it, we immediately put all of that
25 demographic information from the Bureau of the

1 Census on the House and Senate websites, and
2 lots and lots and lots and lots of people have
3 viewed that data and used it as the basis for
4 their own comments or criticisms or suggestions
5 or proposals.

6 So the census data was provided as quickly
7 as we possibly could provide it, and then we
8 have overlaid on the census data the software,
9 a couple of folks talked about computer
10 programs.

11 We overlaid the computer program that is
12 used in redistricting on the census data and a
13 number of you have testified today that you are
14 using that computer program to make your own
15 proposals.

16 Now, there is a thing about computer
17 programs. They get programmed by people. The
18 programs get programmed by people. So again,
19 there is -- there is always a human element in
20 any kind of computer program, but the program
21 that we have provided you is the one that is
22 being used by the courts, it would be used by
23 the courts, it would be used by policymakers,
24 it would be used by Legislators, and it is the
25 same computer program that you can use.

1 So to the extent to which a computer
2 program would be useful and it is, it is on the
3 website, we are going to use it, there it is,
4 and you can use it as well.

5 I think that Senator Hays commented on the
6 lawsuits. Let me just say this. You know,
7 when a rumor, I don't know how it is in The
8 Villages, I can tell you in Niceville, Florida
9 where I live, down at Doris' Cafe, if somebody
10 saw something in the morning, no matter how
11 outrageous it is, it gets embroidered about
12 eight times during the day and by supper time
13 at Doris' Cafe, we got a heck of a rumor going.

14 If I could get a quarter for every rumor
15 that we had in Tallahassee about redistricting,
16 we wouldn't have had a \$3.8 billion budget
17 deficit. We could have funded it.

18 The fact is, as Senator Hays indicated,
19 that the lawsuit that has been filed wasn't
20 filed by the Legislature. Somebody put that in
21 the blood stream and I guess it is in some
22 scripts that people get sent so that they talk
23 about it at these hearings, but the hard fact
24 is that a Democratic member of Congress and a
25 Republican member of Congress filed a lawsuit,

1 but the lawsuit is not related to state
2 redistricting.

3 So the comment that was made that the
4 Legislature is funding lawsuits to quote, keep
5 our seats, is empirically wrong. The lawsuit
6 that was filed by two members of Congress has
7 only to do with the Federal districts. It has
8 nothing to do with Legislators' seats.

9 Now, the Senate is not in an intervenor in
10 that lawsuit. The House is, but the House
11 intervened because there is an apparent
12 conflict or at least some ambiguity between how
13 the Voting Rights Act might be interpreted in
14 terms of minority regression in districts, and
15 Amendments 5 and 6.

16 Now, that is not a bad thing. It is just
17 that Amendments 5 and 6 are brand new, folks,
18 no state has ever seen a template like this,
19 and so therefore, there is going to be some
20 interpretation by the courts as to how our
21 Federal and our State laws intersect.

22 That is not a bad thing. That is an
23 inevitable thing, but the lawsuit, per se, was
24 brought by two members of Congress.

25 Then I think the final comment that I

1 would make is back to a comment that someone
2 made earlier who said, you know, gosh, we have
3 got a state here where the Republicans have
4 barely half the voters in the state classify
5 themselves as Republicans, but how in the world
6 do the Republicans control both Houses of the
7 Legislature?

8 Well, let me just talk about the Senate,
9 because I am a Senator. There are 40 Senators,
10 28 of them are Republican. How could that be?
11 It must be gerrymandering. But wait, did you
12 realize, did you know, and I found out, I, you
13 know, was kind of interesting to me, that in 20
14 of those 40 Senate Districts, in other words,
15 including eight where there are Republican
16 Senators, Barrack Obama carried those Senate
17 Districts.

18 So what we had was, we had the phenomena
19 that we are seeing more and more in Florida,
20 that is, there are people who will vote for a
21 Democrat for one office, a Republican for
22 another office, and we have a growing number of
23 people who are Independents who don't have a
24 party loyalty and they largely pick the person,
25 not the party, and even among us Republicans,

1 and I defer to my Democratic colleagues for any
2 comments they make, it is occasionally the case
3 that Republicans will vote for a Democrat.

4 Many Republicans voted for Barack Obama
5 for President, and it is occasionally the case
6 that some Democrats will vote for a Republican,
7 Republican candidates have carried in
8 democratic areas.

9 Senator Charlie Dean is here. In Senator
10 Dean's district, first the largest number of
11 people of voters by far are Democrats. The
12 second largest number are people with no party
13 affiliation or Independents, and third are
14 Republicans.

15 So how does Charlie Dean, a Republican,
16 get elected? Well, he gets elected because he
17 was a dog-gone good Sheriff, he does a good job
18 as a Senator and so Democrats vote for Charlie
19 Dean, not because he is a Republican, but in
20 spite of the fact that he is a Republican.
21 They vote for him because they want to.

22 So, friends, there is no way to create a
23 redistricting scenario that guarantees that
24 Democrats will vote for Democrats and
25 Republicans will vote for Republicans and that

1 Independents will do what we tell them to.

2 There is no way to do that.

3 Instead, we have a secret ballot and no
4 matter how you district or redistrict, people
5 will still have the opportunity to choose their
6 own candidates.

7 This has been an extraordinary meeting
8 today. We have gotten a large amount of input.
9 I want to thank you for coming out. I want to
10 thank you for staying with the process, but
11 remember this, this is not the end of your
12 input. It is the beginning of your input.

13 Here is what will happen. After we do
14 these hearings we will go back to Tallahassee
15 and instead of starting in March, we will start
16 as early as the Constitution allows us to, and
17 that is in January.

18 We will start committee meetings months
19 before we typically would. We are going to
20 start them in September, and we can begin to
21 consider in September, in the Senate and House
22 Redistricting Committees, not only your ideas,
23 but the ideas we get from other public hearings
24 around the state.

25 We already have a number of plans that

1 have been submitted, and it is not like there
2 is some magic plan that will suddenly emerge.
3 Any member of this committee, Republican or
4 Democrat, can submit a plan today.

5 Any member can submit a map today. Any
6 member of the Legislature who is not on this
7 committee can submit a plan or a map today or
8 in September, but no vote will be taken in any
9 committee beginning in September, which is way
10 early in the process, that is not done publicly
11 with the opportunity for public input.

12 And there may be more than one plan that
13 advances to the House floor or the Senate floor
14 and gets debated and discussed in public
15 openly, and then if and after we pass a plan,
16 we don't have to wait until March. It would
17 drive the Supervisors of Elections crazy if we
18 waited until the end, but if, as soon as we can
19 get plans to the floor and debate them and vote
20 on them in public, then we can submit those
21 plans for a legal clearance.

22 Now, what I hope you will do, is I hope
23 you will put the pressure not just on us to do
24 our job thought fully but with all due speed,
25 but also let's not, you know, the Attorney

1 General doesn't have to take every day that is
2 allowed in statute.

3 She can move a little faster if it is
4 possible for her to do so. She has to submit
5 the plans for clearance to the Supreme Court.
6 The Supreme Court doesn't have to take every
7 single day that they are allowed. They can
8 take your advice and they can move a little bit
9 faster, and the Federal Justice Department in
10 Washington or the Federal courts don't have to
11 take every day that they are allowed. Instead,
12 they, you know, they can move a little bit
13 faster.

14 So it is my goal as Chairman of the Senate
15 Reapportionment Committee that we would have
16 proposals and maps to show you before any votes
17 are taken as soon as we possibly can, and as we
18 get input in these hearings, believe me,
19 members of the House, members of the Senate,
20 Democrats and Republicans, are studying this
21 input.

22 I was up last night until 2:00 in the
23 morning going through my notes from yesterday.
24 We are not waiting until the end to begin to
25 analyze the information that we are getting.

1 So thanks for participating. Democracy,
2 Representative, as you said, is a bit of a
3 heavy lift, particularly when it is a
4 representative republic.

5 Thank you for being part of this messy
6 process, and please, stay engaged and involved
7 all of the way through the end. I am sorry for
8 such a long set of comments, but the questions
9 you asked were very, very good questions.
10 Thank you, Mr. Chairman.

11 REPRESENTATIVE PRECOURT: Thank you,
12 Senator. And -- hold that out. I have got a
13 few more housekeeping comments to make just to
14 finish up business here, but since Senate
15 Dean's name was used in vein there, we are
16 going to give him one last opportunity to
17 comment on today's meeting. Senator Dean.

18 SENATOR DEAN: Thank you. Thank you,
19 Chairman Gaetz, for the kind comments. You
20 know, one of the things we have heard today
21 about a community base of interest, and I think
22 there is no way you can get away of the fact
23 that charity begins at home.

24 We are concerned most about those that are
25 closest to us. That is why it makes you want

1 to have your Representative close to you when
2 you go to vote for him where you can talk to
3 him and understand what is happening.

4 One of those things I want to clearly say
5 that this meeting today is the closest to my
6 home. I am from Citrus County, right across
7 the county line. I am also a Senator up in
8 Marion County, but I heard the same message
9 where I am a Senate in Leon County that I heard
10 the same message in Baker County when we were
11 in Duval County.

12 We do not want the people of Florida do
13 not want gerrymandering, period. I want to say
14 that I share with four Congressmen, five
15 Senators and ten House members if I counted
16 correctly in my district.

17 So I want to assure you again, we are
18 going to do the conscious thing, the right
19 thing to do about doing this district plan and
20 drawing the maps.

21 I appreciate you being here. I normally
22 stand up and speak up and shut up and it is my
23 time to shut up. Thank you for being here.

24 REPRESENTATIVE PRECOURT: Thank you,
25 Senator Dean. I appreciate that. And I want

1 to reiterate that I know that we -- there are
2 other opportunities to submit comments. We are
3 about done with the meeting and we are through
4 the public testimony process, but we are always
5 on a continuous basis taking information,
6 whether it is in writing, via e-mail, via
7 Twitter and all of these other uses that are
8 out there right now. So I strongly encourage
9 you, anyone else that wants to say more, even
10 if you stood up and spoke before, get with our
11 staff and get something in to us, preferably in
12 writing. It has so much additional impact that
13 way.

14 One clarification that staff has asked me
15 to address, and it is, because it is a
16 relatively significant issue, is the matter of
17 the lawsuit the House is an intervenor on.

18 The conflict that is trying to be resolved
19 there is a conflict between Amendment 6 and the
20 U.S. Constitution as opposed to the Voting
21 Rights Act.

22 The, and so now I will get to my closing
23 comments. Thank you, everyone, for your
24 contributions today. This was a great day here
25 in The Villages. This is the kind of thing

1 that is necessary for making a democracy,
2 representative democracy work in our state.

3 Again, you have the opportunity to provide
4 written comments, as well as written extensions
5 of your current comments to us, and we will
6 post it on-line.

7 If you didn't speak now, send an e-mail,
8 Snail Mail, to those addresses that are listed
9 on the website. They are in the brochures that
10 are in the back. You can pick up if you are
11 not an electronic person.

12 All of the records from today's meeting,
13 the video, pod-cast and transcripts will be
14 available in the next few days, via both the
15 Senate and the House Redistricting websites.

16 In particular, someone asked for maps to
17 look at today. They are on our website, so if
18 you can visit www.floridaredistricting.org, and
19 it is spelled the same way as the words sound,
20 Florida Redistricting, dot org, click on the
21 Plan Explorer and look at the maps that the
22 public have submitted.

23 It is a growing list of maps at this
24 point, as you saw today, and you have the
25 opportunity there to look at them, to comment

1 on them, to use them, to tweak up and submit
2 your own maps to share with others and the
3 like.

4 If you are not an electronic person,
5 again, talk to our staff. We will get you this
6 information in hard copy.

7 Please, I ask you to please stay engaged
8 in this process, because it is developing as we
9 go along, as you can see. Continue to follow
10 and participate as we get ready to draw those
11 lines that are going to define how your
12 community is going to be represented, not only
13 in Tallahassee, but in Washington.

14 Thanks again for being here. Some of us
15 as well as staff are going to be staying around
16 to answer any additional questions on the side.
17 That issue came up several times, that are,
18 whether they deal with redistricting or those
19 other peripheral issues or completely unrelated
20 if you would like, and with that we stand
21 adjourned.

22 (Whereupon, the proceedings were
23 concluded.)

REDISTRICTING COMMITTEE

MONDAY, JULY 25, 2011

2:00 A.M.

POLK STATE COLLEGE

LAKELAND, FLORIDA

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 SENATOR GAETZ: If Committee members will
3 please find their seats, and those of you who
4 would like to testify or participate or just
5 observe, if you will find a place to sit down,
6 we will begin.

7 The Joint House/Senate Redistricting
8 Hearing is called to order. We are pleased to
9 be joined today by so many of you from the Polk
10 County area and from areas beyond Polk County.

11 Thanks to Polk State College and USF
12 Polytechnic for allowing us to use this
13 facility. We are very grateful to them.

14 Thank you all for being here, especially
15 members of the public who have come to share
16 your comments and recommendations to help shape
17 Congressional Senate and House districts for
18 the next decade.

19 My name is Don Gaetz, I am a member of the
20 Senate, and along with my House colleague, the
21 Speaker Designate of the Florida House,
22 Representative Will Weatherford, who is right
23 here, we will be chairing today's meeting,
24 which is being webcast statewide by the Florida
25 Channel over the Internet.

1 So that you will know who is here and
2 where they are from -- and we have actually had
3 a request, you know, everybody can make
4 requests, we have had a request that when
5 members introduce themselves and indicate what
6 part of the state they are from, if they would
7 indicate their party affiliation.

8 Typically we don't do that in legislative
9 hearings, because 90 percent of the votes we
10 take in the Legislature are bipartisan, but in
11 response to the request we have had, I happen
12 to be a Republican.

13 And, Senator, why don't we start with you.

14 REPRESENTATIVE WILLIAMS: Good afternoon,
15 my name is Alan Williams, State Representative
16 from Tallahassee, Florida. I represent Leon
17 and Gadsden Counties. I am a proud Democrat,
18 and I am also proud to have my daughter,
19 Adriana Williams, who is here with me as well.

20 REPRESENTATIVE HORNER: My name is Mike
21 Horner, I represent State House District 79. I
22 live in Kissimmee, but I represent Osceola,
23 Orange, Okeechobee and Polk County.

24 REPRESENTATIVE NEHR: My name is Peter
25 Nehr. I am a State Representative in north

1 Pinellas County, District 48. Thank you. And
2 I am a Republican, thank you.

3 REPRESENTATIVE GOODSON: Good afternoon,
4 my name Tom Goodson, I represent Brevard
5 County, Indian River County, House State
6 District 29, I am a Republican.

7 REPRESENTATIVE ROUSON: Darryl Rouson. I
8 represent House District 55, which is Pinellas,
9 Manatee, Sarasota and Hillsborough Counties in
10 the House, and I am a Democrat.

11 REPRESENTATIVE LEGG: John Legg, I
12 represent west Pasco, and I am a Republican.

13 SENATOR JOYNER: Arthenia Joyner, I am a
14 Democrat from Tampa. I represent Hillsborough,
15 Pinellas and Manatee, but I was born in Polk
16 County.

17 REPRESENTATIVE CRUZ: Good afternoon.
18 Thank you all for taking your time coming here
19 today. My name is Janet Cruz. I am a State
20 Representative for District 58, which is the
21 central part of Tampa.

22 I was actually born in Betty Reed's
23 district, which is Ybor City, most of you
24 probably know that district, and I am happy to
25 be here. Thank you.

1 SENATOR SIPLIN: Good afternoon, State
2 Senator Gary Siplin, Orlando, Florida. I
3 represent both Osceola County and Orange
4 County, and I am a Democrat.

5 REPRESENTATIVE CRISAFULLI: Good
6 afternoon, Steve Crisafulli, representing House
7 District 32, which is Brevard and east Orange
8 County, and I am a Republican.

9 REPRESENTATIVE BURGIN: Good afternoon,
10 State Representative Rachel Burgin. I
11 represent District 56, which is eastern
12 Hillsborough County and the City of Tampa, and
13 I am a Republican.

14 REPRESENTATIVE WORKMAN: Ritch Workman,
15 represent District 30, all in Brevard County,
16 thanks. I am a Republican.

17 REPRESENTATIVE DORWORTH: I am Chris
18 Dorworth, I am in the State House, representing
19 District 34 from Seminole and Orange Counties.
20 I am a Republican.

21 REPRESENTATIVE EISNAUGLE: I am Eric
22 Eisnaugle, I represent House District 40 in
23 Orlando. It is -- the district is all in
24 Orange County, and I am a Republican.

25 REPRESENTATIVE GRIMSLEY: Good afternoon,

1 I am Denise Grimsley, I represent House
2 District 77, which is Highlands, Hendry, Glades
3 and Collier County. I am a Republican and I'm
4 a proud graduate of Polk State College.

5 REPRESENTATIVE PLAKON: Scott Plakon,
6 State House District 37, Orange and Seminole
7 Counties. I am a Republican and the proud
8 father of Jamison Plakon, who is here today.

9 REPRESENTATIVE CHESTNUT: Good afternoon,
10 Chuck Chestnut, House District 23, a portion of
11 Alachua County and a portion of Marion County,
12 Democrat.

13 REPRESENTATIVE BAXLEY: Hi, I am Dennis
14 Baxley, Florida House, District 24, Ocala,
15 Marion County, Republican. I am on the north
16 side of the green swamp.

17 REPRESENTATIVE MCKEEL: And I am Seth
18 McKeel from Lakeland, District 63 here, and I
19 am not on the Committee, but I have a keen
20 interest in what you are saying. So thanks for
21 -- thanks for taking your time to be here.
22 Excuse me, I am a Republican.

23 REPRESENTATIVE BERNARD: Good afternoon,
24 State Representative Mack Bernard, Democrat
25 from West Palm Beach, Florida, and former

1 resident of Lakeland, Florida.

2 REPRESENTATIVE JULIEN: John Patrick
3 Julien, good afternoon. I am a Democrat,
4 representing House District 104, which is in
5 Miami-Dade County, and it is a pleasure to be
6 here.

7 REPRESENTATIVE KIAR: Hello, everybody,
8 thank you so much for coming out. My name is
9 Martin Kiar, and I represent District 97 in the
10 Florida House of Representatives, which is
11 located solely within Broward County, and I am
12 a Democrat. Thank you.

13 REPRESENTATIVE CLARKE-REED: Good
14 afternoon, and thank you for being here. My
15 name is Betty Reed. I represent District 59,
16 which is the eastern part of Tampa/Hillsborough
17 County, and I am a proud Democrat.

18 REPRESENTATIVE ROGERS: Good afternoon, I
19 am Hazelle Rogers from Broward County, one of
20 the most diverse counties in the state of
21 Florida, representing over 1.8 million voters,
22 residents in Florida, I'm District 94, eight
23 cities in central Broward County. It is good
24 to be here, and I am a Democrat.

25 SENATOR GAETZ: But not a proud Democrat?

1 REPRESENTATIVE ROGERS: A very proud
2 Democrat.

3 REPRESENTATIVE FRISHE: I am State
4 Representative Jim Frishe. I represent the
5 western edge of Pinellas County, all the
6 beaches. It is a tough duty, I've worn out
7 seven pairs of flip-flops. I am a Republican
8 and I was raised in Winter Haven.

9 REPRESENTATIVE HOOPER: Good afternoon, my
10 name is Ed Hooper, I am a Representative from
11 District 50, which is about one-fourth of
12 Pinellas County, and I am a Republican.

13 REPRESENTATIVE CLARKE-REED: Good
14 afternoon, I am State Representative Gwyndolen
15 Clarke-Reed, representing House District 92,
16 northeast part of Broward County.

17 REPRESENTATIVE BRODEUR: Jason Brodeur,
18 representing District 33, which is parts of
19 Volusia, Seminole and Orange Counties, and I am
20 a Republican.

21 REPRESENTATIVE JENNE: Evan Jenne,
22 District 100, that is entirely within southeast
23 Broward County, and I am a Democrat.

24 REPRESENTATIVE TAYLOR: Good afternoon, I
25 am Dwayne Taylor, serving in the House of

1 Representatives in House District 27, which is
2 Volusia County, I serve six cities in Volusia
3 County, and I am a fiscal conservative
4 Democrat, proudly. Thank you.

5 SENATOR GAETZ: Did we miss anybody?

6 REPRESENTATIVE STARGEL: Good afternoon, I
7 am State Representative Kelli Stargel. I
8 represent north Polk County and a lot of the
9 City of Lakeland, and I am a Republican.

10 SENATOR GAETZ: Have we gotten everybody?

11 REPRESENTATIVE CAMPBELL: Good afternoon,
12 everyone, Daphne Campbell, District 108,
13 Democrats.

14 SENATOR GAETZ: Okay. Thank you very
15 much. Anybody else? Okay. Just in time for
16 your introduction. No. When you are done, we
17 are done.

18 REPRESENTATIVE PASSIDOMO: Hi, I am
19 Representative Passidomo from District 76,
20 which is Collier County. I represent Naples,
21 Marco Island, Everglades City and a bunch of
22 alligators. Thank you. I am a Republican.

23 SENATOR GAETZ: Okay. Now you know who we
24 are, and our sole purpose today is to hear from
25 you, to hear from the public about how you

1 believe the legal standards governing
2 redistricting should be applied in your
3 community and this community, so that you are
4 represented in Washington and in Tallahassee
5 fairly, equitably and sensibly.

6 Our procedures today are simple, but they
7 are important. It is important that you sign
8 in so that we can create an accurate public
9 record of all attendees and of all speakers.

10 Also, you may decide to join, if you wish,
11 our e-mail lists so we can keep you informed
12 about how the redistricting process is working.

13 If you have not signed in, please raise
14 your hand, and we will give you an attendance
15 card. If you wish to speak today and you
16 haven't signed in, we want to hear from you.

17 So if you've not filled out an attendance
18 card and you want to speak, please raise your
19 hand, we will get you one of these cards and we
20 would be delighted to hear from you. We don't
21 want to miss your testimony.

22 It is the same card whether you wish to
23 just attend and observe or whether you want to
24 speak.

25 Before we begin, I would like to call on

1 the Speaker Designate, Representative
2 Weatherford, to explain how today's hearing
3 fits into the redistricting schedule and
4 process and laws. Mr. Speaker.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much, Mr. Chairman. It is an honor to be
7 here. Again, my name is Will Weatherford, and
8 I didn't get a chance, I am from Pasco County.
9 My district is Pasco and Hillsborough County,
10 District 61, and very proud to be here today
11 with my good friends from Polk County.

12 I am going to try to set the table,
13 Mr. Chairman, if I could, for today's hearing,
14 and give everyone a perspective as to what we
15 are here to do.

16 I think you hit it in the very beginning,
17 which is our job here is to listen today. But
18 to give everyone a little baseline, every ten
19 years, the Legislature is required by the
20 Constitution to redistrict the state based off
21 of increases, decreases and movements in our
22 population.

23 Because Florida has grown so significantly
24 over the last ten years, we will move from
25 having 25 Congressional Seats in Florida to 27

1 Congressional Seats. Because parts of our
2 state have increased and decreased
3 disproportionately in population, many Senate
4 and House districts will change, either adding
5 or losing in population.

6 When redistricting is concluded,
7 congressional districts must be equal in
8 population and contain 696,345 people, 40
9 Senate districts must also be nearly equal at
10 about 470,000, and each one of our 120 House
11 districts must be also nearly equal at 156,700
12 people.

13 We have displays at the front of the room
14 showing the current boundaries of districts in
15 the area of the state and the number of persons
16 which must be added or subtracted from the
17 current districts to achieve that equal
18 representation.

19 Equality of representation is not the only
20 legal requirement that redistricting plans must
21 meet. The laws are important, and court cases
22 governing redistricting are explained in detail
23 in both the House and the Senate websites.

24 Those websites are listed on the
25 "Redistricting 2012" brochure that was

1 available to you when you came in. Our
2 "Redistricting 2012" brochure summarizes
3 federal and state laws, and outlines the topics
4 that you will hear today that we hope you
5 discuss.

6 If you did not get a copy when you came
7 in, they are available on the tables outside of
8 the meeting, and our staff would be happy to
9 get you a copy if you would just raise your
10 hand.

11 The brochure also lists House and Senate
12 websites. The websites are packed with
13 information about redistricting in Florida,
14 including explanations of laws and important
15 court cases governing redistricting. The two
16 websites are complementary and are updated
17 frequently.

18 If you visit both and check back often, it
19 is a great way to stay current about what is
20 happening in your congressional, Senate and
21 House maps.

22 The websites also deliver at your
23 fingertips all of the demographic information
24 that will be used in drawing districts over the
25 next six to nine months. The exact same

1 computer programs that Legislators and
2 professional staff use, you will have at your
3 fingertips.

4 Any number -- any member of the public can
5 participate in building plans or seeing maps
6 submitted to Legislators and to this body.

7 And, in fact, I would like to point, there are
8 six maps in the very back of the room.

9 If you look back there, you will actually
10 see different maps that have been drawn by
11 citizens all over the state just in the last
12 few weeks that have been submitted to us.

13 There are Congressional maps, Senate maps
14 and House maps, and we hope that before you
15 leave today, you will take time to see those.

16 Before and after this hearing, Senate and
17 House professional staff are available to show
18 anyone the simple steps of getting on-line,
19 building districts and submitting a plan in the
20 next few weeks.

21 Recommendations from citizens and groups
22 will be made publicly available, and, in fact,
23 many of them already are on our Web, as you
24 know. The submission of proposed maps that
25 makes sense for your community is the single

1 most effective way that you can communicate
2 with this body.

3 The redistricting schedule under which we
4 are operating is imposed by our State
5 Constitution. The Constitution does not permit
6 the Legislature to act on state legislative
7 maps before the second year after the census;
8 in other words, ladies and gentlemen, before
9 2012.

10 We have accelerated this process as much
11 as we possibly can by moving the session up
12 from what is normally in March, all the way up
13 into January in 2012.

14 It has been suggested that the Legislature
15 should draw maps first and then ask the public
16 for comment. We believe that puts the answer
17 ahead of the question.

18 There should be no preconceptions created
19 by politicians, but, rather, public testimony
20 should be free and unrestricted. And, in fact,
21 a member -- a principal author of Florida's
22 redistricting standards and Chairperson of the
23 Fairdistricts.org group, when they came and
24 spoke before a hearing actually spoke directly
25 to the fact that they thought in order for us

1 to draw good maps, we would have to seek public
2 input first, and we plan to follow that
3 recommendation.

4 Our intent is to use these 26 public
5 hearings and our Internet sites and all the
6 basis which we get information from you to come
7 up with good maps in the future that will move
8 through the committee process.

9 Throughout the process, we will continue
10 to solicit your public comment so that the
11 proposed maps can mature with the public
12 involved all before we take any final vote.

13 Whatever the Legislature passes, it is
14 then submitted for judicial review to ensure
15 that the final plans meet each and every single
16 legal requirement.

17 Because our purpose today is to hear from
18 you, between now and 5:00 we will use the
19 remainder of the time for the public who is
20 here who wishes to speak.

21 If after every citizen has had his or her
22 say, Mr. Chairman, and there is time before our
23 scheduled adjournment, any member of this
24 Committee may make any statement or any
25 observation.

1 Of course, any member of the Legislature
2 may today or at any time propose a map, a plan
3 or anything else, and we will make sure it is
4 available to you and the rest of the public.

5 Mr. Chairman, thank you for allowing me to
6 have a few moments. I hope this description of
7 our schedule and our process helps set the
8 stage for a successful hearing.

9 SENATOR GAETZ: Thank you very much,
10 Mr. Speaker. Those are kind of the ground
11 rules today and a little bit of upfront
12 information.

13 I would like to point out that two members
14 of this Committee who are Senators are not able
15 to be here today. Senator Jack Latvala is
16 recovering from orthopedic surgery. I spoke to
17 him this morning. He is recovering well, but
18 is in a great deal of pain, and his doctor
19 wouldn't let him get up on his hip. I think he
20 is about five days post-op.

21 Then Senator Evelyn Lynn, who is a member
22 of this Committee, was called yesterday to a
23 funeral in the Netherlands, a very important
24 member of her family, somebody she cares about
25 a great deal has died, and so Senator Lynn was

1 not able to be with us today.

2 Now, we are going to try to make it
3 possible for everybody who wants to speak, to
4 have a chance to speak, and if you don't get in
5 all the things you wanted to say, or if later
6 you think of something else that you wanted to
7 say, you can send that information to us.

8 It will be made available to every member
9 of the Committee. You can either e-mail it to
10 us or you can send it to us by U.S. Postal
11 Service. You can go on our website and you can
12 provide additional comments there as well.

13 Now, we have well over 30 people who have
14 already signed up to speak, and Karen Landers
15 is number 34, and so far she is the last
16 person.

17 I am an advocate for Karen Landers. I
18 want to make sure she gets a chance to speak.
19 So I would ask that you keep her in mind as you
20 speak so that we can make sure to get to her,
21 because I am sure she has good testimony for us
22 today.

23 We will impose a three to four-minute rule
24 on speakers so that we can be sure that we are
25 fair to everybody who is behind you.

1 So if you -- if you can abide by that
2 rule, then we can, I think, give everybody a
3 fair chance.

4 We are going to call people in threes. So
5 our first speaker will be Margaret Kara,
6 representing the Solivita Democratic Club, but
7 behind Margaret is Joyce Hamilton Henry
8 representing the American Civil Liberties Union
9 and Mary Jo Jarrett representing the League of
10 Women Voters.

11 So if Ms. Kara would come first and the
12 other two be on deck and ready to follow her,
13 then we can make best use of time.

14 Ma'am, you are recognized, and we are
15 delighted to have you here today.

16 MS. KARA: Thank you, sir, and thank you,
17 everyone, for allowing us to speak. And I live
18 in Solivita, which is a 55-and-over adult
19 active community in Poinciana.

20 We are very kind of isolated in Polk
21 County, because we are in a very one small area
22 and far away from everything.

23 With all due respect, you all know the
24 amendment that was voted for by 63 percent of
25 the people, and you don't really -- in my

1 opinion, you don't need the public to draw maps
2 for you.

3 The process seems as though it could go
4 more quickly if you would present the proposed
5 maps for discussion at this time. I understand
6 that, as you have said, that you can't vote on
7 anything until 2012. With that understood,
8 could it not still be debated?

9 What I am concerned about is taking up
10 precious time and money drawing maps according
11 to the law and then just make them available to
12 the public for comment then, and you can't
13 debate them this fall, but you can debate them
14 the very first thing in the new session.

15 The process seems to need to be completed
16 earlier, and my concern is for the Supervisor
17 of Elections and the timeline that they are
18 going to have, also for our candidates that are
19 going to be running for office, they won't know
20 their districts until so late that they won't
21 have the same advantage that the incumbents
22 have of making their names known to the public.

23 Please consider the fact that more time on
24 this -- on this step and less time is for the
25 Supervisor of Elections.

1 Since you are coming to the public for
2 answers, we would like to be able to interact
3 with you and get answers to our questions also.
4 As we are only allowed to talk, we may be
5 operating under false premises if you don't
6 reply to us.

7 Progress is made when ideas are exchanged
8 in conversation as instead of lecture. Thank
9 you very much.

10 SENATOR GAETZ: Ms. Kara, I apologize,
11 perhaps you weren't here when the Speaker
12 Designate indicated that after all members of
13 the public speak.

14 If you have any questions that you would
15 like to indicate now, we will make sure that
16 any member, Democrat or Republican, Senate or
17 House, can respond to any of your questions.
18 Did you have any?

19 Okay. Thank you very much. Thanks for
20 your testimony.

21 Joyce Hamilton Henry of the American Civil
22 Liberties Union, followed by Mary Jo Jarrett
23 with the League of Women Voters, followed by
24 Paula Mims from the League of Women Voters.

25 Ms. Henry, thank you for being here. We

1 look forward to your testimony.

2 MS. HENRY: Good afternoon. I am here, as
3 indicated, on behalf of the ACLU. I am with
4 the Mid-Florida Regional Office of the ACLU,
5 which is based in Tampa.

6 That office covers 20 counties, starting
7 with Marion, extending all of the way through
8 to Brevard and down to Hardee Counties, and I
9 will be attending all of the hearings in my
10 region.

11 And our position remains unchanged. We
12 are very concerned and troubled about this
13 process. I have indicated before that on the
14 surface, it allows for input, but real input
15 can be provided once we have the opportunity to
16 see the map, to be able to comment on it.

17 We are also concerned about the timeline
18 in which this is being done. We know that you
19 have the data since March of this year. You
20 have opened up processes to be able to provide
21 input, but we are also concerned that you will
22 not be able to really get information from the
23 general public to be able to incorporate in the
24 maps.

25 What has been provided to us so far are

1 maps drawn by individuals. We want the maps
2 drawn by you, the Legislators, and the
3 consultants that you hire to assist you in that
4 process.

5 We are also concerned about the time --
6 the cost in this process, the cost to this
7 process and cost to taxpayers that you are
8 engaging in. You have a mandate from
9 63 percent of Floridians, and the mandate is
10 that the maps should be drawn, that they should
11 be compact and contiguous and look out for the
12 interest of ethnic minorities, communities of
13 interest.

14 We want to make sure -- we want to make
15 sure that this process is fair and is
16 transparent.

17 And we are also concerned, and you have
18 heard it expressed and you will hear it
19 expressed by others, we are also concerned
20 about those of us who want to know who our
21 representatives will be, those who are running
22 for office who want to know what district they
23 will be running for, and you have heard and
24 will hear from Supervisors of Elections who
25 want to know the information as well so that

1 they can do their job.

2 So we implore you to please draw the maps,
3 make that available to us and do what
4 Floridians -- the 63 percent of Floridians have
5 mandated you to do, to make sure that the
6 process is fair, inclusive and also
7 transparent.

8 SENATOR GAETZ: Thank you, ma'am, very
9 much.

10 Next, Mary Jo Jarrett with the League of
11 Women Voters, then Paula Mims from the League
12 of Women Voters and then Jerry Weeks from the
13 League of Women Voters. I hope there's
14 somebody back at the office today.

15 MS. JARRETT: Welcome to imperial Polk
16 County, all of you, today.

17 SENATOR GAETZ: Thank you, ma'am.

18 MS. JARRETT: I am Mary Jo Jarrett. I am
19 the co-President of the Polk County League of
20 Women Voters.

21 The League of Women Voters is a
22 non-partisan organization. We are a political
23 organization that encourages informal and
24 active participation in government. We work to
25 increase understanding of public policy issues

1 through education and advocacy.

2 We are puzzled and we question why won't
3 the Legislature prepare the maps earlier,
4 debate them in the fall and pass them during
5 the first week of session.

6 The problem with the present Legislature's
7 timeline is that it is unfair to Florida
8 voters. Florida's maps will end up being
9 approved later than most every state in the
10 Union.

11 As districts may not be finalized until
12 August, the Legislature's own lawyer says this
13 will cause massive voter confusion. We do not
14 want to see Florida's election process become
15 the target of late-night comedy again.

16 The problem that needs to be solved has
17 been defined by the Legislators. The
18 Legislators plan to wait to finalize district
19 maps until at least the end of the session in
20 March 2012.

21 By law, the courts and the Department of
22 Justice have more than 90 days after passage to
23 review the maps.

24 The Legislators are saying they can do
25 nothing on redistricting until January, as the

1 Constitution requires them to draw the
2 districts during the 2012 regular session.

3 If the Legislature waits to finalize the
4 maps until the end of the session in March
5 2012, it is highly unlikely that districts will
6 be finalized and approved before the June 8,
7 2012, deadline for candidates to file their
8 paperwork.

9 The redistricting processing will include
10 not only the drawing of new district maps based
11 on the 2010 ten-year sentence, but
12 implementation of Section 20 and Section 21 of
13 the Florida Constitution, which contains
14 standards to be followed in the process.

15 The League believes that without violating
16 the Florida Constitution, the Legislature can
17 do the preparatory work to speed up the
18 process. In fact, Bills were filed last
19 session requiring that maps be drawn earlier
20 that didn't even get hearings.

21 The League proposes an open, transparent
22 work flow using another timeline. We propose
23 that the Legislature hold interim Committee
24 meetings from September through December and
25 use that time to present maps, allow for public

1 comment and prepare final plans to submit to
2 the full House and Senate before the
3 Legislature convenes in January.

4 We further propose that the Legislature
5 could bring the maps to the floor as a first
6 order of business, voting on them by the end of
7 the session's first week in early January.

8 This would create a real possibility that
9 the maps could be finalized and approved before
10 candidate-qualifying, and allow election
11 officials ample time to prepare by allowing
12 double the time for review by the courts and
13 the Department of Justice.

14 This would solve the problems created by
15 the proposed legislative timeline of a cold
16 start in January 2012. This would allow due
17 process procedurally to ensure all who have the
18 vote can participate substantially in the
19 elections of the redrawn districts.

20 This will improve greatly the timeline for
21 those the Legislature depends on to implement
22 and carry out the election process, the
23 Supervisors of Elections and their staff, and
24 those expected to participate in the process,
25 the registered voters and the candidates.

1 The League strongly believes that this is
2 a viable plan for implementing redistricting in
3 the Sunshine State. Thank you.

4 SENATOR GAETZ: Thank you very much. Very
5 useful suggestions, Ms. Jarrett.

6 Next, Paula Mims from the League of Women
7 Voters, then Jerry Weeks from the League of
8 Women Voters and then Lynn Dell.

9 Ms. Mims, thank you for being here. We
10 sure appreciate your testimony.

11 MS. MIMS: Well, thank you so much, and
12 good afternoon. My name is Paula Mims, and I
13 am co-President of the League of Women Voters
14 of Polk County.

15 We certainly welcome you and are glad to
16 see so many faces here. We do hope you will
17 stop and spend a little money while you are
18 here before you head back to your various parts
19 of the state.

20 As you are well aware, our organization is
21 entirely nonpartisan, yet vigorously political
22 in defending what is now our constitutional
23 right as citizens of Florida.

24 And I ask, where are these sample maps? I
25 did have some time to speak with Jason outside,

1 and got a nice perspective, not that I come
2 with any ignorance to this hearing, but we
3 would really like to see some sample maps
4 produced by the Legislature so that we are able
5 to comment on those maps.

6 And I was listening as well to your
7 opening comments, and I do understand that any
8 Legislature -- Legislator can produce a map or
9 a plan to be considered, and we really have
10 seen none from the Legislature, to my
11 knowledge.

12 On the one hand, who better to set these
13 districts than those respected Legislators
14 running our state government who are keenly
15 aware of the nuances of your own districts, the
16 surrounding ones, as well as potential pitfalls
17 of dividing certain constituencies.

18 On the other hand, it really is a little
19 like the fox guarding the hen-house, is it not?
20 No offense, of course. But we hope that the
21 foxes are keen and wise and transparent.

22 We hope that the fact that the Legislature
23 and the Governor's Office are fully controlled
24 by one party will put an even greater
25 responsibility on you, the golden

1 cartographers.

2 You must rise above the clear conflict of
3 interest you have in this job, and it is clear,
4 you must rise above the clear vested interest
5 you have in protecting your own districts, your
6 own reelection, your job and your potential
7 primary opponents.

8 Where are the maps? I have to say it is a
9 little naive to believe that none exist when
10 there are clearly staff and equipment on hand
11 dedicated to this process, and none of you have
12 seen and worked on the maps that you can't
13 produce for anyone to comment on.

14 We beseech the Legislature to provide at
15 least some sample maps for public comment prior
16 to the end of the statewide public hearing
17 tour.

18 Some time ago I was involved in the
19 reworking of attendant zones with regard to
20 elementary schools here in Polk County. Talk
21 about a volatile issue, not sure if you have
22 done that before.

23 SENATOR GAETZ: Yeah. No, we've got
24 former School Board members here.

25 MS. MIMS: Yes, in doing so --

1 SENATOR GAETZ: That is serious stuff.

2 MS. MIMS: It is serious, very serious.

3 In doing so, we met with School Board
4 members and district employees with computer
5 tools to help navigate the complicated task of
6 moving neighborhoods, addressing transportation
7 issues, and balancing racial legal
8 requirements.

9 We had to start with the map provided by
10 the district. We had to have a starting point
11 drawn from their perspective and their wisdom
12 from which to make comments, suggestions and
13 give practical input to a job that could have
14 just been done by a computer.

15 You are charged with making fair
16 districts. It is not just a phrase. It is an
17 imperative constitutional part, a new part of
18 your job description, and you are
19 constitutionally bound to draw districts,
20 implying the need to produce maps and get
21 input, which you are clearly doing, and we are
22 impressed by the number of people coming from
23 your committees.

24 It is not impossible. For example,
25 California got its census data within two weeks

1 of Florida, has held input hearings, drawn
2 sample maps, is holding more hearings and will
3 have final maps, we believe, in August.

4 We are asking you today, as we have every
5 day since the census data was generated, to
6 give us a map or maps that have been produced
7 by the Redistricting Committee and to let us
8 work from there for the citizens.

9 SENATOR GAETZ: And, ma'am, just because
10 of all the people behind you, could I ask if
11 you could bring it in for a landing?

12 MS. MIMS: Absolutely. I have some
13 perspective on this job that you have before
14 you, because my husband was in the Legislature
15 during the 1990 redistricting. It is a big
16 job, and you now have a constitutional
17 amendment requiring the equality of
18 representation.

19 And I will also before I say my closing
20 remarks, you all have been doing this for some
21 time, so you are probably somewhat bored by the
22 repetitive comments that you will hear today.

23 But I must say to you, it is as important
24 that each citizen in this room gets to say
25 their three minutes, and I'm sorry that you are

1 going to have to listen to it over and over
2 again, but that is why it is a public hearing.

3 So I would ask that you are just as
4 interested in every single person who comes up
5 here, because we do not travel the state to say
6 these things to you.

7 And we ask that you at the very best -- at
8 the very least produce the maps by October,
9 which will give you ample time to take all of
10 the information that you have garnered, analyze
11 it and produce maps to allow citizens to
12 comment and work on providing the best possible
13 opportunity for the drawing of truly fair
14 districting. Thank you so much.

15 SENATOR GAETZ: Thank you for your
16 testimony.

17 And now Jerry Weeks from the League of
18 Women Voters, and then Lynn Dell, please, and
19 then Bill Landes.

20 Mr. Weeks, thank you for coming, and we
21 are delighted to have your testimony today.

22 MR. WEEKS: And, don't worry, I won't ask
23 you where the maps are.

24 SENATOR GAETZ: Well, they are right back
25 there. They are right over there.

1 MR. WEEKS: My name is Jerry Weeks. I am
2 a proud member of the League of Women Voters of
3 Polk County, a nonpartisan organization that
4 has been fighting for fair districts for over
5 70 years.

6 We have had Republicans on our side, we
7 have had Democrats on our side, but never at
8 the same time.

9 I commend you for what you have done so
10 far. The website is very easy to deal with, it
11 is very informative. The hearings have been
12 open and transparent so far. I have followed
13 most of the hearings on the Internet, and think
14 you are getting pretty good input on local
15 issues.

16 You do have a public perception problem,
17 however. Much of the testimony throughout all
18 your meetings so far has reflected deep
19 distress and lack of faith that the process
20 will follow the intent of the new standards.

21 Part of that distrust is because the
22 Legislature has fought these standards in the
23 past and continues to fight them now.

24 My question is, why is the Legislature
25 continuing to spend money to oppose the will of

1 their constituents as expressed when 63 percent
2 voted for the Fair Districts standards?

3 In 2008, the Legislature fought approval
4 of the amendments for the ballot. The Supreme
5 Court ruled for the Fair Districts. In 2010,
6 the Legislature again tried in court. The
7 Supreme Court rejected that argument. Then the
8 Legislature tried to confuse voters by placing
9 Amendment 7 on the ballot. The Supreme Court
10 rejected that as misleading.

11 And this year, in 2011, the Florida House
12 joined a lawsuit filed by two Representatives
13 asking the court to strike down the Fair
14 District position, Amendment 6 and Florida
15 Constitution. Secretary of State Kurt Browning
16 is the Defendant in that case.

17 So Florida taxpayers are now both paying
18 to sue and to defend the same lawsuit. Members
19 deny they are spending money to avoid having to
20 follow the Fair Districts reforms.

21 They say they didn't bring the lawsuit,
22 they only joined it to seek clarification.
23 They say there is no \$30 million pot of money
24 for lawsuits.

25 Well, I did some fact-checking to find out

1 what reality is. PolitiFacts rates these
2 denials as false. *The Orlando Sentinel* rates
3 them as major malarkey. I have a handout that
4 I will provide to everyone up on the Committee
5 to find reference to those.

6 In summary, I am asking you and the
7 Legislature first to work to uphold the
8 constitutional provisions placed there by
9 63 percent of the voters, and not to spend our
10 tax money fighting it.

11 And secondly, to stop trying to get out of
12 following the Fair Districts standards and
13 apply them as the voters intended. Please
14 withdraw from the lawsuit. Thank you for your
15 efforts in these hearings and good luck.

16 SENATOR GAETZ: Thank you very much.
17 Thank you, Mr. Weeks. Earlier today,
18 Mr. Weeks, I was up in the area of The
19 Villages, and someone came out of a building
20 and said that the Suntrust Bank had just been
21 robbed, and I am sure *The Orlando Sentinel*
22 headline tomorrow will be "Republicans Arrive
23 and Bank Robbed."

24 Lynn Dell, you are next, and following
25 Lynn, Bill Landes and then Danette May.

1 Ms. Dell, thank you for coming, and we are
2 very grateful you took time to give us your
3 testimony today.

4 MS. DELL: Okay. Thank you for letting me
5 speak.

6 I do agree with everything that has been
7 said before. I think that 2012 is much too
8 late for districts to be redrawn and for the
9 Election Supervisors to do what they have to
10 do.

11 I think it will wind up in massive
12 confusion. And to be perfectly honest with
13 you, I can't help but wonder if this is what
14 you want, because I really don't have much
15 faith in what is happening in the Legislature.

16 I feel I have no representation,
17 especially when you are spending taxpayers'
18 money to defeat what the voters wanted. And
19 between this and all I have seen you do with
20 the changes to the voter requirements, which
21 will also create confusion in another way,
22 possibly decreasing the number of people that
23 vote --

24 SENATOR GAETZ: Ms. Dell, could we keep it
25 to redistricting today just because we have so

1 many people --

2 MS. DELL: Okay, to redistricting. I want
3 compact districts. And because of the way you
4 are fighting and have been fighting the
5 redistricting, I really have great difficulty
6 believing that you are sincerely going to get
7 the job done.

8 And I really would like to see the
9 suggestions made by the League of Women Voters
10 done, because they are very, very good. It is
11 very important that this be done way before
12 2012.

13 We should have maps for the voters to see,
14 and then you get our input, because you have
15 much more familiarity with the districts and
16 everything else than we do.

17 I would like to see maps. Then I would
18 provide additional comment. Thank you.

19 SENATOR GAETZ: Thank you very much,
20 ma'am. I appreciate your comments.

21 And we have been joined in the hearing by
22 Senator Ronda Storms, and Senator, we asked
23 each member of the Committee to introduce
24 themselves and also indicate the area of the
25 state that they represent, and there was a

1 request for an indication of party affiliation.

2 So, Senator, we will stop and defer to you.

3 SENATOR STORMS: I am Senator Storms, I
4 represent District 10, I am a Republican.

5 SENATOR GAETZ: And District 10 is, for
6 the record?

7 SENATOR STORMS: Hillsborough County, a
8 little bit of Polk County, near Wabash, if you
9 are familiar with it, and then a little bit of
10 Pasco County where Zephyrhills is. What's a
11 zephyr?

12 SENATOR GAETZ: Thank you very much,
13 Senator Storms. Did we have somebody else?

14 REPRESENTATIVE THURSTON: Thank you. I am
15 State Representative Perry Thurston from Ft.
16 Lauderdale, Broward County, and I am a
17 Democrat.

18 SENATOR GAETZ: Thank you very much,
19 Representative.

20 Bill Landes, you are up, and then -- oh,
21 somebody else. We've got them pouring in late
22 here.

23 REPRESENTATIVE DIAZ: Yes, I am State
24 Representative Jose Diaz from District 115 in
25 Miami, and I am a Republican.

1 SENATOR GAETZ: Anybody else? Going once,
2 twice. Because we want to hear from Bill
3 Landes, and behind Mr. Landes is Danette May
4 and then John Myrick, who says he represents
5 the AARP.

6 Mr. Landes, thank you for coming today.

7 MR. LANDES: I want to thank you for the
8 record. My name is Bill Landes. I live in
9 Lake Wales. I am a member of the Florida
10 Alliance Group.

11 First of all, I don't have a long speech.
12 I have nothing wrote down. I come here to say
13 thank you all for taking on this task. I know
14 that y'all with deep hearts will do your best
15 to make it ultimately fair to everyone.

16 We as a group throughout the state of
17 Florida and citizens really want it to be fair.

18 My question is, is this based on the count
19 of the census, and if so, how? Florida is
20 unique in so many ways. We are a state of many
21 opportunities and big in tourism, and with
22 tourists buying houses here, coming here and
23 buying summer houses and things like that from
24 Canada, UK, Australia, South America and all
25 that, are they counted in our census as voters?

1 Would somebody answer me that question,
2 because I am being told that the census is the
3 base of the redistricting?

4 SENATOR GAETZ: Representative Weatherford
5 and any other members of the Committee, we are
6 making a list of questions.

7 What we would like to do is see if we
8 can -- because now we are up way over 40 people
9 who want to testify. We will make a list of
10 questions and get to them at the end. We just
11 don't want to stand in the way of other people.

12 MR. LANDES: That is fine. I am cutting
13 it short anyhow, because I -- I just wanted to
14 get up here and say thank you all. I know the
15 job at hand is hard and y'all will be diligent
16 in it. Thank you.

17 SENATOR GAETZ: Thank you, and we will get
18 to your question.

19 Next is Danette May. Danette May? And
20 following Ms. May, John Myrick with the AARP
21 and then Esther Kirk.

22 Ms. May, we really are grateful you took
23 time from your day, and thanks for your
24 testimony.

25 MS. MAY: Well, thank you very much for

1 this opportunity to speak. I am going to speak
2 in terms of just general decision-making and
3 the quality of the decisions that are being
4 made and the ethics of the decisions that are
5 being made in terms of the redistricting
6 process.

7 Gaining power, wealth or any advantage by
8 any means possible regardless of direct injury
9 or collateral damage to others appears no
10 longer to be shameless behavior. Attempting to
11 do end runs around or circumvent the will of
12 Florida citizens as clearly defined and
13 expressed at the polls is shameless behavior.
14 This is not what we have endeavored to be as
15 Americans. It is not in keeping with the
16 Christian beliefs that so many of you ardently
17 profess to hold. Gaining advantage by any
18 means possible is not what most of us were
19 taught by our parents, nor is it what we, I
20 will go out on a limb to say, want to teach our
21 children.

22 The Florida Legislature is on probation.
23 Many citizens who are members of the majority
24 party are not happy with the product thus far.
25 It is not clear which spark will set the

1 citizens of this state ablaze. So as you move
2 forward with the redistricting process, know
3 that you have already run many red flags up the
4 flag pole with the 2011 legislative session.

5 Please think, if you can, in terms of the
6 larger impact that your behavior and
7 decision-making will have on our society, our
8 state and the process of government that we
9 hold dear in our country.

10 Thank you for your good services, and I am
11 going to leave you with this question: Will
12 your objectives and strategies be shameless, or
13 will they be of unquestionable integrity?

14 Again, I thank you for this opportunity to
15 speak. Thank you for being here.

16 SENATOR GAETZ: Thank you, Ms. May. I
17 appreciate it very much.

18 John Myrick is next from the AARP, and
19 then Esther Kirk, and following Ms. Kirk,
20 Maureen Siebold, if you will be on deck,
21 please.

22 Mr. Myrick, glad to have you here today.

23 MR. MYRICK: Thank you, sir. I am John
24 Myrick, a life-long Polk County resident, a
25 volunteer and representing AARP, and we would

1 like to ask that as you move through this
2 process, that you focus on a lot of things, but
3 specifically three things: One, ensure
4 transparency of the legislative redistricting
5 process every single step of the way. This is
6 a good start today. Second, ensure timeliness,
7 and we know that is going to be difficult, of
8 the redistricting process and ensure public
9 input. And, finally, take steps to insulate
10 the redistricting process from the appearance
11 of any conflict of information.

12 We are excited about what you are doing.
13 My granddaddy use to say, "You don't have to be
14 Alexander Graham Bell to know when the
15 telephone is ringing." Ladies and gentlemen,
16 the telephone is ringing, and we are excited as
17 can be to hear what your answer is going to be.
18 Thank you.

19 SENATOR GAETZ: Thank you very much, sir.
20 We appreciate your being here.

21 Esther Kirk is next, and Ms. Kirk,
22 following your testimony, we will hear from
23 Maureen Siebold and then Sylvia
24 Blackmon-Roberts with the Alpha Kappa Alpha
25 Sorority.

1 Ms. Kirk, thank you for coming today and
2 taking time from your busy schedule to be with
3 us.

4 MS. KIRK: I am retired, but, yes, I am
5 busy.

6 SENATOR GAETZ: Well, retired people have
7 the busiest schedules.

8 MS. KIRK: I don't represent any
9 particular group. I represent me. And I am
10 just here because when I look at some of the
11 districts, I am appalled. I live in Riverview,
12 and my Congressional Representative is this
13 fellow, Mr. Ross, over here, and I don't think
14 he knows anything about my area over in
15 Riverview, you know. You can see the map, and
16 I am over here, a little bit of his district is
17 here and then it kind of comes here and then
18 here is the major portion of it. I don't want
19 to see anymore of those. I want to see
20 logical, compact districts so that the people
21 who represent me know me, know my area. I know
22 Senator Storms represents me, and I have seen
23 her at meetings and so forth, so she does know
24 something about our area. I want everybody
25 that represents me to know me and my area.

1 Thank you.

2 SENATOR GAETZ: Thank you very much,
3 Ms. Kirk.

4 And next, Maureen Siebold, if you will
5 give us your testimony, then
6 Ms. Blackmon-Roberts and then Karen Welzel.

7 Ms. Siebold, thank you for coming today.

8 MS. SIEBOLD: I want to thank each and
9 every one of you for taking the opportunity to
10 come and hear we, the people. We live in a
11 republic, and we, the people of Florida, are
12 speaking.

13 I am representing the Florida Alliance,
14 the Tea Party network, and I am also the
15 founder of the Lakeland Tea Party and 9-12
16 project, of which we have 386 members, most of
17 whom work and were unable to come today. So I
18 would like for you to take that into account
19 when you hear what I have to say.

20 I will be using Henry Kelley's maps that
21 have been drawn based solely on population.
22 You have 47 whole counties out of 67, which
23 means that 70 percent of Florida's counties can
24 be represented by one Representative.

25 SENATOR GAETZ: Ma'am, I don't mean to

1 stop your flow, but the maps that you are
2 referring to I believe are maps that are in the
3 back --

4 MS. SIEBOLD: Yes, they are posted in the
5 back.

6 SENATOR GAETZ: -- proposed by Mr. Kelley,
7 who is with the Tea Party?

8 MS. SIEBOLD: Yes, he is with -- yes, with
9 the Tea Party Network.

10 Seven counties are too large to do that
11 due to population. So drawing as tightly as
12 possible leaves 80 percent of the state
13 represented by a minimum of Representatives.

14 On the existing map, the map that we are
15 using now, only 40 counties are whole, or
16 59 percent of the state is whole, and add in
17 the other seven counties leaves 47 out of 67
18 whole, or only 70 percent of the state as being
19 compact.

20 The rest of the state is gerrymandered,
21 gerrymandered to take into consideration
22 parties, races. We are all -- we are all
23 Americans. I don't care if we are green with
24 yellow polka dots, we are all Americans first.
25 We belong to the United States of America. And

1 using these -- I'm sorry, that was a soap box
2 moment.

3 Using -- using Henry's maps, it would --
4 using District 3 -- U.S. District 3 standards,
5 we actually decrease the number of Democratic
6 districts in the state of Florida the way we
7 are doing it now. However, using only the
8 population for our basis, the Democrats
9 actually benefit. You increase the number of
10 the Democratic majority or Democratic leaning
11 districts, thereby reducing the number of
12 Republican districts.

13 The way the Polk County is drawn on
14 Mr. Henry's maps is it takes in a small portion
15 of Hillsborough County, which is Plant City.
16 Polk County and that Plant City therefore
17 become one congressional district. Polk County
18 is an agricultural county. Plant City, you
19 know, Plant City, is agricultural. Therefore,
20 all of our needs and all of our interests are
21 the same. So you would lump us all in as a --
22 you know, the -- with the same interests and
23 needs. And so using population seems to be the
24 fairest way to do this.

25 My main question to the committee is, does

1 the federal court have the right to affect the
2 lives of approximately eight to ten million
3 Floridians by something that is happening in
4 Jacksonville? And, finally, it oversteps the
5 bounds of the Tenth Amendment, which reserves
6 the rights not appointed to the federal
7 government, to the states. And since when are
8 we, the people of Florida, ruled by the Supreme
9 Court of the United States instead of the
10 Constitution of the United States and the
11 Constitution of Florida? Thank you very much.

12 SENATOR GAETZ: Thank you. And,
13 Ms. Siebold, if there are people who are
14 interested in the maps that have been
15 submitted, Ms. Siebold, could you stay
16 afterwards and talk with folks if they are
17 interested in the map that you described?
18 Thank you.

19 Next we have Sylvia Blackmon-Roberts with
20 the Alpha Kappa Alpha Sorority, then Karen
21 Welzel, I believe, and then Donna Kinsey.

22 Ms. Blackmon-Roberts, thank you for being
23 here, and you are recognized.

24 MS. BLACKMON-ROBERTS: Thank you very
25 much. Let me say Alpha Kappa Alpha is a

1 nonpartisan service organization. Our concerns
2 were with the process maps, as well as the
3 timeline, and that -- those concerns have been
4 expressed so well by some of the other speakers
5 that I will yield my time to hopefully at the
6 end hear the feedback.

7 SENATOR GAETZ: Thank you very much,
8 ma'am. Eloquent testimony.

9 Karen -- in politics, we have a saying
10 that says we have reached the point of the
11 meeting where everything has been said, but not
12 by everybody. We say that about ourselves, not
13 about you.

14 Karen Welzel, then Donna Kinsey and then
15 Lori Edwards, the Polk County Supervisor of
16 Elections.

17 Thank you very much, ma'am, for being
18 here, and we look forward to what you have to
19 say with us.

20 MS. WELZEL: Thank you for allowing us
21 this time.

22 My name is Karen Welzel. I am the
23 Chairman of the Democratic Polk County Party,
24 and I live in the southeast side of Polk County
25 in Winter Haven. For me, it is partisan.

1 Polk County covers approximately 2,000
2 square miles. It is a large county
3 geographically with over 600,000 residents.
4 Residents here in Polk County are represented
5 by three Congressional districts. On the north
6 and east side, there is a small strip of the
7 county that falls under Congressional District
8 15. On the northwest side of Polk, a small
9 group of residents are in CD 5. And the
10 remainder of the county is in Congressional
11 District 12.

12 There are five House seats representing
13 the citizens of Polk County, two of whom are
14 not here tonight -- today. Winter Haven alone
15 is divided into two districts. That simply
16 should not be. Cities should not be split. It
17 does not provide a fair representation of the
18 residents in our area. Districts should be
19 compact and contiguous.

20 Additionally, I am very concerned with the
21 timeline for drawing the new districts. This
22 timeline is unfair to the voters who passed
23 Amendments 5 and 6 by 63 percent of the vote,
24 and is deliberately being drawn out to favor
25 the incumbents. If you take until March 2012

1 to have the maps drawn, that means that
2 Florida's maps will be approved later than
3 almost every other state in the nation. That
4 only gives three months for court approval.
5 Review by the Department of Justice will take
6 much more than three months. If this timeline
7 is followed, maps will not be finalized before
8 qualifying for the 2012 election closes on
9 June 8th. That will create massive voter
10 confusion. People who want to run for office
11 will not know which district they will be
12 running for. They will have little time to
13 start their campaign, and the voters will have
14 even less time to make an informed decision for
15 whom they will vote. Bills were introduced in
16 the last session to require that the maps be
17 drawn earlier, but those bills didn't even get
18 scheduled for hearings. Why is that?

19 And then there is the money. This
20 Legislature has spent over a million dollars of
21 taxpayer money to hire lawyers to fight the
22 very amendments that the citizens voted for.
23 This Legislature has been fighting this since
24 2008 before the amendments were even on the
25 ballot. They have already acknowledged that

1 there is over \$30 million ready to be spent to
2 continue the fight against Fair Districts.
3 They are using a lawyer from Speaker Cannon's
4 former law firm who bills at over \$300 an hour
5 to fight these amendments. They tried to place
6 a misleading and misworded Amendment 7 on the
7 ballot, but the Supreme Court said it was wrong
8 and had it removed.

9 The Florida House has joined a lawsuit
10 attempting to have the amendments declared
11 unconstitutional. The Legislature is using,
12 again, taxpayer money to attack and invalidate
13 the very provision that we approved.

14 In addition, the Secretary of State has
15 been named a defendant in that case. That is
16 the same Secretary of State who headed up the
17 opposition to Fair Districts during the
18 campaign. So now we, the taxpayers, are again
19 paying to sue and defend the same lawsuit. All
20 of this money is being spent while teachers are
21 being fired, social services for the poor and
22 the indigent are being cut, and not a
23 significant job has been created.

24 With all due respect, people have thanked
25 you for allowing them to express their opinions

1 about redistricting, and that is all well and
2 good, but I will say this: This hearing --
3 these hearings have no purpose other than to
4 make it appear that you are listening to the
5 people. If you really wanted to know what we
6 thought, you would have brought the maps with
7 you and moved this process along in a timely
8 manner that would benefit the citizens you
9 purport to represent. This is a waste of time
10 and money. Thank you.

11 SENATOR GAETZ: Thank you for wasting your
12 time and money in coming here, we appreciate
13 it.

14 Donna Kinsey is next, then Lori Edwards,
15 the Polk County Supervisor of Elections, and
16 then Diana Sen with LatinoJustice.

17 Ms. Kinsey, thank you for coming.

18 MS. KINSEY: Yes. I don't represent
19 anybody but myself.

20 SENATOR GAETZ: Good for you.

21 MS. KINSEY: And I am here mainly to
22 express a degree of frustration that I have in
23 not even being able to find out who my
24 Representatives are locally.

25 Three years ago, I moved down here from

1 the state of Maryland where, you know, I was
2 able to know who represented me, I was able to
3 contact them, and when I came here, I don't
4 even know where Bartow fits in the picture, I
5 guess we don't count, at least that is how I
6 feel about it. And it looks like it is about
7 to happen again because of the timeline,
8 because I did not realize until coming to this
9 meeting how little time there is. I had the
10 impression that -- you know, that the maps were
11 going to be finalized long before they
12 apparently are, and I find that very
13 disturbing. Thank you.

14 SENATOR GAETZ: Thank you very much. And
15 I hope, Ms. Kinsey, that you can stay to the
16 end of the hearing, because everybody -- this
17 is one of the great things about this country,
18 everybody is entitled to their opinion, but
19 everybody is not entitled to their own set of
20 facts. So we will hear some -- hopefully some
21 information at the end of this hearing that
22 will help disabuse you of maybe some of the
23 things put in the bloodstream by, you know,
24 folks who just have a different opinion.

25 Lori Edwards, the Polk County Supervisor

1 of Elections, thank you for your service to
2 Polk County, and we are honored to have you
3 here today, ma'am.

4 MS. EDWARDS: Thank you, Mr. Chair. It is
5 a pleasure.

6 As you mentioned, I am the Supervisor of
7 Elections for Polk County. I am also the
8 Reapportionment Chair for the Florida
9 Association of Supervisors of Elections, and as
10 a result, I am also representing them.

11 The first point that I would like to
12 address is time. To conduct successful
13 elections in 2012, election officials need time
14 to complete tasks that are required by state
15 law. Election officials need time to adjust
16 the precinct lines once we get the new district
17 lines, and then gain approval of those new
18 precincts from the Board of County
19 Commissioners.

20 Now, if the Legislature, the Attorney
21 General, the Supreme Court and the Justice
22 Department all complete their work on time,
23 election administrators will have less than two
24 weeks to adjust the records of Florida's
25 11 million voters. Then first absentees need

1 to be mailed.

2 The calendar that was provided by your
3 legislative staff indicates that the final
4 Justice Department review of new districts is
5 likely to be complete after, after qualifying,
6 and that, as has been mentioned a couple of
7 times, has the potential for confusing
8 candidates, in addition, of course, to voters.

9 I have just a list of the statutorily
10 created tasks that we must complete during that
11 two-week period in between when we get the
12 final and the first ballots need to be mailed.
13 We need to change all district lines in the
14 state on 67 different maps. We need to align
15 the precincts to the new districts. We then
16 need to submit those proposed precinct changes
17 to the Board of County Commissioners in 67
18 counties and have them approve those new
19 precincts. We then need to re-code every
20 voter's address with new district information
21 for Congressional districts, for state House
22 districts and state Senate districts. We need
23 to check and double-check that new voter data,
24 because computers do much of it, but they don't
25 do all of it. Then we need to issue new voter

1 registration cards, get those mailed, notify
2 voters of the precinct changes, order the
3 ballots and mail the absentee ballots all
4 within 15 or 16 days, best-case scenario.

5 The other point I wanted to address was
6 district lines. Please respect communities
7 when you draw those district lines. I think
8 you are probably well aware that your
9 legislative staff worked with election
10 officials, as well as the census, over the last
11 couple of years to establish for the first time
12 here in Florida voting tabulation districts.
13 They take into consideration intact
14 communities, traffic patterns, even physical
15 barriers that people working in an office in
16 Tallahassee probably wouldn't be aware of. So
17 please adhere to these lines whenever possible.
18 The truth is the best place to draw any of your
19 lines is along a county line. So please divide
20 districts along county lines whenever possible.

21 And, you know, there has been much
22 attention, not just during your public hearings
23 this go-round, but for years to Florida's
24 meandering districts. But there's many, many
25 more examples of small cities being separated

1 into three or four districts, small, little
2 cities get split apart into three or four
3 little districts, or gated communities have
4 state Senate lines running through the middle
5 of them. So although meandering is something
6 to worry about, the opposite of that can cause
7 just as clear of a problem to all concerned.
8 The way to avoid that, there is a way to avoid
9 that, that is what those voting tabulation
10 districts are about. So when you start
11 reviewing the maps that you are serious about,
12 please ask the question, are these aligning
13 with voting tabulation districts, that is all I
14 ask you to ask, are the lines on county lines
15 or are they aligning with voting tabulation
16 districts.

17 I do have a question for your list, and my
18 question to the committee is: If, as we
19 expect, the lines will be finalized around
20 June 16th, how do candidates, as well as party
21 precinct Committee people, qualify during the
22 qualifying period that your Legislature created
23 between the fourth and the eighth? If the
24 districts don't exist, how do they qualify for
25 a district? And I am just curious, I need an

1 answer to that at some point.

2 SENATOR GAETZ: Well, Ms. Edwards, I hope
3 you will stay, because I think, again, maybe
4 that somebody purposefully offered a little
5 confusing information or maybe there was
6 confusion coming out of some source somewhere
7 else, but there is no requirement that
8 best-case scenario maps are drawn in March or
9 that the process ends in June, but Speaker
10 Weatherford, I think, can explain that in more
11 detail.

12 But I have a favor for you. Ms. Kinsey,
13 who spoke just ahead of you, didn't know who
14 her State Representatives are and what voter
15 district she lived in. Would you mind talking
16 with her and helping her understand that,
17 please, ma'am?

18 MS. EDWARDS: I would be happy to. I do
19 want to remind you that the State Supreme Court
20 has 30 days to review the plans --

21 SENATOR GAETZ: Yes.

22 MS. EDWARDS: -- the Attorney General has
23 15 days, so that is 45 days, and then there's
24 60 days for the U.S. Justice Department. So I
25 think that the calendar does come out that way.

1 I have learned this, of course, from your
2 Mr. Guthrie.

3 SENATOR GAETZ: Well, all I would suggest
4 to you, and I don't mean to be argumentative,
5 is that there is -- ma'am, I don't mean to be
6 argumentative, but those -- some of those time
7 lines can run concurrently, and just as you
8 encourage us, rightly so, to move as quickly as
9 possible, we certainly would encourage those
10 review processes to move as quickly as
11 possible. We will count on you to contact them
12 with the same encouragement. And if you would
13 help Ms. Kinsey, we would be grateful.

14 MS. EDWARDS: Thank you.

15 SENATOR GAETZ: Thanks for your testimony.

16 MS. EDWARDS: Pleasure to be here.

17 SENATOR GAETZ: Sure. Diana Sen, with
18 LatinoJustice, and following Ms. Sen, Rita
19 Wings and then Tim, I think it's Heberlein.
20 And we have had a number of other people, and
21 we are delighted, sign up to testify, so we are
22 going to hold pretty tight to the three-minute
23 rule.

24 So you are recognized. Thank you for
25 being here.

1 MS. SEN: Thank you. Good afternoon. My
2 name is Diana Sen, and I am senior counsel to
3 LatinoJustice PRLDEF, formerly known as the
4 Puerto Rican Legal Defense and Education Fund.

5 LatinoJustice is a national,
6 not-for-profit, nonpartisan civil rights
7 organization that has conducted legal
8 education, advocacy and impact litigation since
9 1972.

10 We are promoting community participation
11 and monitoring compliance with the federal
12 Voting Rights Act throughout legislative and
13 Congressional redistricting in Florida. As you
14 know, we have brought numerous lawsuits
15 enforcing the Voting Rights Act. Most
16 recently, we sued Volusia County in 2008 for
17 not providing ballots in Spanish in violation
18 of federal law. That lawsuit was settled in
19 2010, with the county providing bilingual
20 ballots and additional language assistance.

21 We also in 2005 represented Hispanic
22 Kissimmee residents in a federal class action
23 lawsuit against the Kissimmee Board of City
24 Commissioners because their at-large election
25 process diluted the voting strength of

1 Hispanics.

2 These lawsuits are in addition to three
3 lawsuits filed by the Department of Justice in
4 central Florida, one against Orange County for
5 not having proper Spanish language assistance,
6 and two against Osceola County, one for hostile
7 treatment against Latinos, and another for
8 their at-large election process.

9 In addition to these lawsuits, you have
10 all heard from the community loud and clear
11 that Latinos need fair representation in
12 redistricting. The Voting Rights Act requires
13 Florida to protect minority voters from a
14 dilution of their voting rights.

15 While recent interpretations of the VRA
16 question the viability of minority districts
17 that are less than a majority, Florida is
18 required to provide opportunities to elect
19 districts to VRA-protected classes like
20 Hispanics.

21 Under Section 2, the Supreme Court has
22 said that minority dilution occurs if it is
23 shown by, one, large and geographically compact
24 majority districts; two, a politically cohesive
25 group; three, racially polarized voting. And

1 once those three jingles, preconditions, are
2 met, a totality of circumstances is viewed by
3 the court to see if minorities' voting strength
4 is being diluted.

5 In addition, there is Section 5 that
6 creates federal oversight of changes to
7 redistricting plans in parts of the country
8 with a history of discrimination.

9 SENATOR GAETZ: And, Ms. Sen, if I could
10 ask you to summarize just in fairness of all
11 the people who have signed up behind you.

12 MS. SEN: Florida's Latino communities
13 must have fair electoral opportunity. Their
14 rights and their ability to vote should not be
15 silenced.

16 Proportionality is a key factor in
17 redistricting, and the United States Supreme
18 Court in DeGrande has stated that
19 proportionality is important in redistricting,
20 because it links the number of
21 majority-minority voting districts to minority
22 members' share of the relevant population. We
23 urge that the state's legislative redistricting
24 maps be drawn that -- such that a proportionate
25 percentage of the total districts can be drawn

1 for majority-minority Latino districts.

2 LatinoJustice is working with Latinos
3 throughout the state. We are supporting the
4 creation of a Latino-anchored, central
5 Florida-anchored congressional district, and
6 are proud to unveil our plan this Wednesday in
7 Orlando.

8 We look forward to working with you all to
9 ensure that the Voting Rights Act is followed
10 and that Latinos are able to elect the
11 candidate of their choice. Thank you.

12 SENATOR GAETZ: Thank you very much, Ms.
13 Sen.

14 And next we will hear from Rita Wings and
15 then Tim, I think it is Heberlein, or
16 Herberlein, I apologize, and then Sidney
17 Rosen- -- and I'm sorry, it is my eyes, not
18 your writing, Sidney, with the Democratic Club
19 in Poinciana.

20 Ms. Wings.

21 MS. WINGS: Hi. My name is Rita Wings,
22 and I represent myself and my website,
23 coffeestraightup.com. I am here not only to
24 reiterate what other people said about how
25 there should have been maps for us to look at.

1 Forgive me if my assumption after watching you
2 fight our will in court, if my assumption is
3 that you will go out and take public testimony,
4 then do exactly what you please come next year
5 when there is no time to fix it. I make those
6 assumptions because one person, one vote, is
7 not just a Democratic ideal, it has
8 traditionally been a Republican ideal. The
9 Republican party should be hanging its head in
10 shame about what it has allowed the Tea Party,
11 which is controlled by huge corporate
12 interests --

13 SENATOR GAETZ: Ma'am --

14 MS. WINGS: -- to do to it --

15 SENATOR GAETZ: Ma'am, let's -- let's be
16 civil. Let's not -- let's not cast aspersions
17 on other people who speak. Why don't you keep
18 it to your opinion about redistricting. We
19 really want --

20 MS. WINGS: This is my opinion about
21 redistricting.

22 SENATOR GAETZ: Well, we don't want to
23 hear your opinion about other people, except
24 you can give your opinion about us. But we
25 would very much like you to talk about

1 specifically where you believe redistricting
2 laws and how they should be applied in this
3 particular case in this part of the state. You
4 are recognized for that purpose solely, ma'am.

5 MS. WINGS: And in your arrogance, you
6 will tell us at the end where we are all wrong
7 and put your spin on it as a fact.

8 SENATOR GAETZ: Thank you for your
9 testimony, ma'am. And now --

10 MS. WINGS: And I will continue by saying
11 and summing up that it is extremely important
12 that these laws that you are trying to make --
13 this adds to our skepticism as well, that the
14 laws you are trying to make right now will
15 address a nonexistent problem of voter fraud by
16 limiting --

17 SENATOR GAETZ: Now, ma'am --

18 MS. WINGS: -- people's right to vote.

19 SENATOR GAETZ: Ma'am, I am going to ask
20 you --

21 MS. WINGS: You are not --

22 SENATOR GAETZ: Ma'am --

23 MS. WINGS: -- standing up for Republican
24 ideals, nor for one person, one vote --

25 SENATOR GAETZ: Ma'am --

1 MS. WINGS: -- which is inherent in --

2 SENATOR GAETZ: Ma'am, we want to thank
3 you -- we want to thank you for your testimony.

4 MS. WINGS: I will finish.

5 SENATOR GAETZ: Ma'am --

6 MS. WINGS: That is inherent in the one
7 person, one vote ideal.

8 SENATOR GAETZ: Thank you very much,
9 ma'am, for your testimony.

10 Tim Heberlein is next. And Tim, if I have
11 mispronounced your name, it is because of my
12 bad eyesight, not your handwriting. And then
13 Sidney Rosenblatt, I think, or Rosenbent, and
14 then following Sidney, Debbie Hannifan.

15 Tim, you are recognized. Thank you for
16 being here.

17 MR. HEBERLEIN: Absolutely. It is
18 Heberlein, actually, it happens all the time.

19 SENATOR GAETZ: It is what, please, sir?

20 MR. HEBERLEIN: Heberlein. It is probably
21 my handwriting, but --

22 SENATOR GAETZ: No, no, it is my eyesight.

23 MR. HEBERLEIN: -- it's as German as it
24 gets.

25 Well, I would like to thank you all for

1 being here. This is a very important part of
2 the political process, especially
3 redistricting. Unfortunately, it is a very
4 politicized process as well.

5 I represent, and I apologize, I omitted it
6 on the form, but the Florida Consumer Action
7 Network, which is a bipartisan -- can you hear
8 me?

9 SENATOR GAETZ: Maybe, sir, if you could
10 speak right into the microphone, because there
11 are a lot of folks here, and they would --
12 everybody would like to hear your testimony.

13 MR. HEBERLEIN: How is this? Sound check.

14 SENATOR GAETZ: Much better.

15 MR. HEBERLEIN: All right.

16 SENATOR GAETZ: Much better.

17 MR. HEBERLEIN: I represent the Florida
18 Consumer Action Network, which is a nonpartisan
19 organization which protects the rights of
20 consumers, and we also do voter registration,
21 so we are very interested in this particular
22 process.

23 But I applaud the efforts of putting
24 together the software, the My District Builder,
25 you are allocating a lot of resources to these

1 public hearings, but you haven't done the
2 constitutional duty of drawing these maps. And
3 I can't emphasize how important that is to the
4 political process when it comes to public
5 participation is they -- a lot of times, I
6 personally don't even know what it is I am
7 supposed to make public comment on. I
8 appreciate that I think Kelley -- the
9 gentleman, Kelley, has produced these maps --

10 SENATOR GAETZ: He's produced one of them.
11 There are actually 12 maps that have been
12 produced over there, and then you have the
13 existing maps here, and you can speak to any
14 one of them or make any specific proposal of
15 your own, or any member of this committee can.

16 MR. HEBERLEIN: I propose that --
17 actually, I propose that the Legislature
18 produce the maps that is what I propose. It is
19 not Kelley's job. It is not my job to write
20 the software. Don't get me wrong, it is a
21 great software, you are doing a great job, but
22 it is not our job. You are asking for our
23 public input. My public input came last year
24 with Amendments 5 and 6. I actually went up to
25 Tallahassee -- thank you.

1 SENATOR GAETZ: Let's let him speak. You
2 are eating up his three minutes, sir.

3 MR. HEBERLEIN: I actually went to
4 Tallahassee because I opposed Amendment 7,
5 which was specifically put by the Legislature
6 to confuse voters and to basically negate
7 Amendments 5 and 6, and that was
8 unfortunately -- unfortunate part of this
9 politicized process.

10 So I encourage you to, again, I think
11 another speaker had mentioned it before, but
12 consider the fact of the -- the implications of
13 what you are doing with this process. And I
14 hope that, you know, come whenever these maps
15 are produced, hopefully it is not five months
16 before the 2012 election, that the headlines
17 read, you know, this was a fair process, this
18 was done appropriately. I would love to see
19 that. And I would please beg you to do
20 everything in your power to make sure that is
21 what the headline reads as soon as you afford
22 the -- produce these maps and vote on them and
23 make it official.

24 SENATOR GAETZ: I think it will be
25 "Republicans Arrived and Bank Robbed," but go

1 ahead.

2 MR. HEBERLEIN: Thank you.

3 SENATOR GAETZ: Thank you so much for your
4 testimony.

5 And, Sidney, I've got to beg your
6 forgiveness.

7 MR. ROSENBERG: My name is Sidney
8 Rosenberg.

9 SENATOR GAETZ: Rosenberg, I could have
10 read that if I had been good.

11 MR. ROSENBERG: I live in Polk County.

12 SENATOR GAETZ: Go ahead.

13 MR. ROSENBERG: I represent the Democratic
14 Club in Solivita, Florida.

15 Most of the people in this room have come
16 up -- and I am not going to belabor the fact or
17 repeat the requests -- the requests of the
18 people of this state.

19 Sixty-three percent of the people wanted
20 change. They want these maps drawn correctly.
21 We have to have them drawn at a logical time so
22 that I can go out and say "I have a candidate"
23 or "I want to be a candidate." I don't see
24 this here. I don't see a time frame that is
25 logical, how a voter is going to know who to

1 vote for. And I am going to leave it at that,
2 there are other people that want to speak,
3 there is no sense in laboring over things.

4 But I am asking you, ladies and gentlemen,
5 please stop trying to fight the amendment. The
6 amendment was passed by the people. Thank you.

7 SENATOR GAETZ: Thank you. Next we will
8 hear from Debbie Hannifan, then John Wing,
9 representing the Bahai faith, and then Ronald
10 Johnson.

11 Is it Ms. Hannifan, is that right?

12 MS. HANNIFAN: Yes, it is, thank you.

13 SENATOR GAETZ: You are recognized, and
14 thanks for coming today.

15 MS. HANNIFAN: Thank you very much. Thank
16 you to all of you for coming. I really
17 appreciate that. I am born and raised here in
18 Lakeland, Florida, and welcome to our city.

19 I want to, first of all, commend the
20 Committee for the use of technology. I've
21 recently heard on the news that we are among
22 the leaders in the country for the technology,
23 the website and the things that you are doing,
24 so thank you for that and allowing the
25 transparent process.

1 The other thing I would like to say is I
2 train advocates across the state, grass roots
3 organizing and coalition training for
4 individuals who are interested in becoming
5 engaged in the legislative process. So some of
6 you are familiar, and thank you for your help
7 along the years.

8 What I would like to say is we need to
9 make sure that we keep our eye on what this is
10 all about. It is very important that our
11 individual citizens have the opportunity to get
12 to know their Legislators, that they will be
13 able to become engaged when they have
14 individual issues, and some of the districts
15 have made it very difficult for your average
16 citizen to become engaged in that relationship,
17 because they do not live anywhere near their
18 districts, the constituency is not necessarily
19 close to the elected official. So we would
20 just ask that you would consider that when you
21 are drawing your lines, and try to keep to -- I
22 am not going to use the terms that we have
23 heard previously, but some -- you know, to
24 county districts, if at all possible, so that
25 people are not having to travel great lengths

1 to get to their legislator and that they will
2 be able to engage in that process a little bit
3 easier.

4 Also, people who are elderly, people who
5 have disabilities, who rely on public
6 transportation to get to their Representative's
7 office, should be fairly easy for that person
8 to do before work, after work, on their lunch
9 break, not necessarily having to take four
10 hours out of their day to travel a good two
11 hours, three hours, to get to an appointment.
12 So we would ask that, too.

13 The other thing is the financial impact of
14 that. Our Legislators or elected officials are
15 having to travel great deals to get to maybe
16 the areas where their constituency reside. So
17 that is a financial consideration as well.

18 And I think that is about it. I would ask
19 that you would consider maybe the common
20 threads that we have heard today, not
21 necessarily the drastic differences, but the
22 commonality. We are still asking for you to
23 make it a fairly swift process, to put them out
24 so that we are able to give input, and then if
25 there's a big variety of people who are not

1 able to come to the Committee meetings, please
2 consider our comments during your Committee
3 dialogue and discussion, because there are many
4 people across the state that will not be able
5 to come to Tallahassee in September to
6 readdress these issues with you again. Okay,
7 thank you.

8 SENATOR GAETZ: Thank you. Thank you very
9 much.

10 Next we will hear from John Wing.
11 Mr. Wing, are you still here? Very good. And
12 after Mr. Wing, Ronald Johnson and then Warner
13 Squire with the Polk Democratic Party.

14 Mr. Wing.

15 MR. WING: Good afternoon. A couple of
16 Sundays ago, our congregation was discussing an
17 issue that some of the members wanted to
18 contact their Congressman, and not everyone
19 knew who their Congressman was, which is
20 understandable, considering if they live a
21 dozen or so miles one way, they were in a
22 second district, if they lived a dozen or so
23 miles the other way, they were in a third
24 district, and I says, "Well, okay, I will check
25 into it and let you know." Turned out to be

1 quite a bit of research, and at the end, I gave
2 information about the three Congressmen, and I
3 said, "As far as the lines are concerned, you
4 are going to have to either call one of them or
5 go on-line and find out who your Congressman
6 really is." And I know that the state
7 districts are more or less as convoluted as
8 that, and it makes it difficult to know who our
9 Representative is, and for our Representatives
10 to understand who he is representing. So I ask
11 you to draw the lines in reasonable fashion to
12 assure that y'all represent us rather than make
13 sure that you get reelected.

14 SENATOR GAETZ: Well, thank you. And,
15 again, it is one of those inconvenient facts.
16 None of us up here drew these lines. We ran in
17 districts that somebody else drew.

18 Ronald Johnson is next, and following
19 Mr. Johnson, Warner Squire with the Polk DEC
20 and then Dena DeCamp.

21 Mr. Johnson, thank you for coming, and you
22 recognized, sir.

23 MR. JOHNSON: Good afternoon, and thanks
24 for coming, and thanks to all the people in the
25 audience, we appreciate all of you guys being

1 here, too.

2 My concern is this: We want you guys to
3 be honest and we want you guys to put forth the
4 maps and do it the right way. The people have
5 already spoken, 63 percent. So go about your
6 business, create the maps, don't be so
7 concerned about your reelection. You are going
8 to get reelected if the people are behind you.
9 If they want to support you, they will. Don't
10 cut out the districts through the
11 gerrymandering process. You know, you heard
12 the word "contiguous," you have heard the word
13 "gerrymandering," we all know what those words
14 mean.

15 And, historically, I want to bring up Tom
16 DeLay. Remember what happened in Texas years
17 ago, what happened to Mr. Tom DeLay in his
18 redistricting thing. Don't let that happen to
19 you guys. Do it the right way. Represent all
20 of us. Remember what Ms. Lori Edwards said,
21 she gave you a lot of statistics, you know
22 those things. Do it the right way. You guys
23 are honorable, you guys are officials. Do it
24 the right way. Present the maps. Have
25 continuous, contiguous districts that looks

1 real, not a piece here, a piece there, don't
2 worry about the demographics, about who -- who
3 is here, who is there, Democrat, Republicans,
4 do it the right way. Be honorable. Do the
5 right thing for the people, and we appreciate
6 it.

7 SENATOR GAETZ: Thank you very much, sir.

8 Warner Squire with the Polk Democratic
9 Executive Committee, and then Dena DeCamp, and
10 then Janell, I think it is Hedrin, although I
11 apologize if I have mispronounced.

12 Mr. Squire, thank you for coming, and you
13 are recognized before the Committee.

14 MR. SQUIRE: Okay. I just want to say
15 that -- it's like I've got to come down here,
16 adjust it, I don't want to take up my time. I
17 am new to this whole process.

18 SENATOR GAETZ: I think the mike will come
19 out there if you would like. There you go.

20 MR. SQUIRE: Okay. So, anyway, I am new
21 to the whole process, and I think that this is
22 very exciting, but at the same time, I think
23 that the concern that I had in reading about
24 this, following it in the paper, and a lot of
25 people have expressed today is fairness.

1 People want to feel like the Representatives
2 are treating the situation fairly, and at the
3 same time, we have to recognize that we send
4 you all to Tallahassee to win, or your
5 campaigns, the people who back you, we want you
6 to win. And so it is funny how at one point we
7 are saying be fair, but to our own
8 Representatives we are saying, stick it to
9 them, so to say. So I am asking you to kind of
10 hear that, but kind of let cooler heads
11 prevail, as they are saying on TV these days,
12 and not listen to the people who are saying use
13 your advantage against the people who were
14 against you. Do you follow what I am saying?
15 Just, you know, make it fair and win in a fair
16 way. And I am just thinking about how, you
17 know, back when I was growing up and the Tyson
18 fights were going on and everyone would get so
19 excited for the Tyson fight, and it would be
20 over in a minute or less. So I ask that, you
21 know, when you win, just win fairly and show
22 good sportsmanship. Thank you.

23 SENATOR GAETZ: Thank you.

24 REPRESENTATIVE WEATHERFORD: Mr. Chairman,
25 I think what he meant to say is don't bite your

1 opponent's ear.

2 SENATOR GAETZ: We will add that to the
3 record. No ear biting.

4 Ms. DeCamp, and then following Ms. DeCamp,
5 Janell, I apologize, Hendreu or Hedrin, and
6 then Nancy Sweeney.

7 Ms. DeCamp, thank you for coming, and you
8 are recognized.

9 MS. DeCAMP: Thank you so much. My name
10 is Dena DeCamp, and I am President of the
11 Republican Women's Club of Lakeland, and I
12 serve on the Board of Directors for the Florida
13 Federation of Republican Women. And I want to
14 say, first of all, thank you all very much for
15 being here. It says a lot for how important
16 redistricting is to see a bipartisan panel
17 sitting in front of us, and it means a lot to
18 all of us that you are all here. Thank you so
19 much.

20 We heard a lot today about how we haven't
21 got any maps. I do want to make one comment
22 about that. If they had brought maps, people
23 would be standing in this microphone saying you
24 already had your minds made up and you didn't
25 give us a chance to give input. So I am going

1 to tell you thank you for not bringing the
2 maps, and we can live with the other.

3 One of the things that has been brought up
4 before and I want to reinforce is the county
5 line rule seems to be a good one. In Polk
6 County, a number of the members of my club have
7 an issue with us because Senator Storms is over
8 on the west side of the county, a little
9 sliver, and we have Congressman Rich Nugent up
10 on the north side of Polk County in a little
11 bitty sliver, and we almost never get to see
12 them, not that we don't invite them, but we
13 tend to kind of forget about them because they
14 have such a tiny little sliver of Polk County,
15 and the people in their districts feel a little
16 left out because we invite in the people that
17 have the biggest portion of those districts.
18 And so it would be better for these people who
19 don't know who their Congressmen or
20 Representatives are if we had a more defined
21 line and it wasn't chopping up counties. The
22 cities, I know, would be difficult, but the
23 counties, I think, would be an important way to
24 try and keep -- keep it easier for the
25 constituency to know who you are. I know who

1 all my elected officials are, but then I am in
2 politics to a certain extent and I made a point
3 of it. But if you voted on somebody, you
4 should know who that person is. So, you know,
5 I just think that that is a matter of the
6 person finding out who they are. You guys are
7 in your constituencies, you are out in your
8 districts all the time, even though you are
9 part-time Legislators, and we thank you for
10 that, we know you have another life other than
11 those months you spend in Tallahassee, we know
12 that the rest of the year you are out there and
13 you are trying to meet as many people as you
14 can, and we thank you for that. Thank you
15 again for being here. Y'all are doing a great
16 job.

17 SENATOR GAETZ: Thank you very much,
18 Ms. DeCamp.

19 And Janell, I apologize to you, what's
20 your last name, ma'am?

21 MS. HENDREN: Hendren.

22 SENATOR GAETZ: Hendren, I had it right,
23 by golly.

24 And then following Ms. Hendren, Nancy
25 Sweeney and then Graham Moore.

1 Ms. Hendren, we are delighted you are
2 here, and you are recognized.

3 MS. HENDREN: Thank you, Senator. My name
4 is Janell Hendren, I am a resident of downtown
5 Lakeland, and I first want to thank everyone
6 that has come so far. I know you are from up
7 in the -- up in the Panhandle area, and you are
8 part-time Legislators, many people do not
9 realize that. The Representatives get paid
10 \$29,000 a year, that is it, they are part-time.
11 Some other people have mentioned other states
12 that have more advanced timelines on what they
13 do. They are full-time Legislators that -- by
14 the way, California pays their people over
15 \$100,000 a year, so you want to talk about a
16 waste of money.

17 Now, I want to say thank you for coming to
18 us --

19 SENATOR GAETZ: We are not worth that.

20 MS. HENDREN: I want to say thank you very
21 much for coming to us before you draw the maps,
22 because we all know how the human mind works,
23 and once your minds are made up, once the lines
24 are drawn, it becomes very difficult to say,
25 "No, we didn't really like this whole area,

1 let's redo this whole area." I would much
2 rather you have a blank slate to work from and
3 take our suggestions so that when you first
4 draw the maps, when you first set your minds to
5 how you want things to look, they are with our
6 opinions in mind, and I appreciate that.

7 I think I am going to be unique and give
8 the actual first suggestion that is Polk
9 County-specific and say please be careful when
10 you draw up Polk County. We have competing
11 economic interests between south Polk County
12 that is agriculture, east and west. And I feel
13 sometimes that the way that these districts are
14 currently drawn, that can be exacerbated, some
15 people feel a viable rate between Lakeland and
16 Winter Haven, and I would ask that the new
17 districts not make that situation worse with
18 the way that the districts are drawn. That is
19 all I have to say. Thank you for your time.

20 SENATOR GAETZ: Thank you, ma'am.

21 Nancy Sweeney is next. Ms. Sweeney, we
22 very much are -- appreciate your taking time to
23 come today, then Graham Moore, and following
24 Mr. Moore, Dr. Lydia Medrano.

25 Ms. Sweeney, you are recognized.

1 MS. SWEEZY: First of all, my name is
2 Nancy Sweezy.

3 SENATOR GAETZ: Sweezy.

4 MS. SWEEZY: S-w-e-e-z-y.

5 SENATOR GAETZ: I'm sorry. I'm sorry.

6 MS. SWEEZY: That is okay. You are not
7 the first person that's called me something
8 else.

9 SENATOR GAETZ: I have been called a lot
10 of things.

11 MS. SWEEZY: I have, too. I usually come,
12 whatever you call me.

13 I want to thank you all for coming. I was
14 surprised when I came here, this is the first
15 one I have been, but every year I have been
16 angry after the redistricting has been done,
17 and I wanted to come and have my say.

18 I am tired of the strange districts we see
19 through, and I would really like to see the
20 county not tore up as bad as sometime. I once
21 believed Polk County was divided into five
22 districts, so -- and it was split all over the
23 place like you wouldn't believe it. I know
24 that sometimes you can't put our county in a
25 district, you have to split places up, and I

1 understand that, but I would like you to really
2 consider trying to keep as much of the
3 population in an area together, because we do
4 -- each county has their own special problems,
5 and we would like you to, you know, consider
6 that if we have one legislator, he can listen
7 to us and our problems better than five people
8 who are only listening to a couple thousand
9 people in one corner, and five or six, because
10 they are worried more about the most of the
11 people than they are the small amounts, and I
12 understand that, too, but I would really like
13 to see a plan go together that the districts
14 are tried to be drawn as fairly as you can,
15 keeping the people together.

16 Somebody was saying that you didn't draw
17 the districts. I have voted in districts here
18 in Polk County that were Democrats and we put
19 Republicans in, and I voted in districts that
20 were Republicans, we put Democrats in, so I
21 don't find this that -- I have known this to be
22 a Democratic district, and I have seen
23 Republicans go sit right in there and take the
24 district out from underneath them, so I don't
25 find this, you know, is anything. I have seen

1 people of different races go into areas where
2 nobody said they would not elect a person of
3 that race, that color, that creed, that
4 religion, they go in there, they make an
5 impression on the people, the people vote for
6 them. All we want is a fair chance to vote for
7 our people who know us. And I thank you for
8 all that you are doing in these matters.

9 SENATOR GAETZ: Thank you, Ms. Sweezy.
10 Graham Moore? Mr. Moore, and then
11 Dr. Lydia Medrano and then Delma Rodriguez.

12 Mr. Moore, thank you for coming today.

13 MR. MOORE: Thank you. I would like to
14 first say thank you to all of you. I look
15 around this room and I see nothing but a
16 collection of citizens and activists who care
17 about issues that affect this state. I see our
18 Representatives sitting both up before me and
19 sprinkled throughout the rest of the room,
20 citizen activists, organizers, all who care
21 about this -- these issues, all who care about
22 what is represented by the two flags that are
23 behind you all, and I see that the parties,
24 mixed up amongst everybody and how we can all
25 sit together today. But that is today.

1 Next year when this issue is brought
2 forward into the State Legislature, when you
3 will be discussing this, it won't be the only
4 thing that will be discussed. Next year we
5 find ourselves in an election year when
6 early-on members of the Lincoln's party will be
7 battling amongst themselves to see who will
8 represent themselves in the great presidential
9 election. Next year when we see our current
10 President fight to put forward another
11 four-year vision for America, next year when we
12 see races amongst our -- for our U.S. Senate
13 seat, for our House seats, all battling, should
14 we really infuse the idea of redistricting in
15 that time period? Should we really battle a
16 bear when we are fighting a lion already? And
17 that is all I have to say.

18 SENATOR GAETZ: Thank you very much,
19 Mr. Moore.

20 And now Dr. Lydia Medrano, and then
21 following Dr. Medrano, Delma Rodriguez and then
22 Norma Reno, please.

23 Dr. Medrano, thank you for coming and
24 giving your time today to this process.

25 DR. MEDRANO: Thank you. My name is Lydia

1 Medrano. I am a District Director of the
2 League of United Latin American Citizens, also
3 known as LULAC, and LULAC is the national civil
4 rights organization, it is the oldest Hispanic
5 civil rights organization. My district covers
6 Polk County and Hillsborough County. And I
7 want to thank all of you for being here and
8 listening to what people have to say. I want
9 to believe that people's feedback is taken into
10 account. But to tell you the truth, we are
11 kind of frustrated with the county
12 redistricting, because the community is saying
13 one thing, and the commissioners are doing the
14 opposite, you know.

15 But, anyways, I don't want to repeat what
16 many people already said, but I would just want
17 to say that in Tampa Bay, we have developed a
18 coalition of Hispanic organizations and are
19 determined to participate in the redistricting
20 processes. We are receiving advice from
21 several organizations like the LatinoJustice,
22 New York-based civil rights organization from
23 New York, LULAC and some local attorneys.

24 Latinos have significantly contributed to
25 the growth of the population in the state, and

1 because of that, we have -- we are getting two
2 new -- two additional seats. And Hillsborough
3 County, Polk County, Pasco, Pinellas, have the
4 combined Hispanic populations of almost
5 541,000, and because of that, as I said before,
6 Florida is getting two additional seats. And
7 the reason why I am here is that we expect that
8 at least one of those seats is going to be here
9 in central Florida. Thank you.

10 SENATOR GAETZ: Thank you, Doctor.

11 And next, Delma Rodriguez, also with
12 LULAC, and then Norma Reno, also with LULAC,
13 and then Paul Anderson from the Sierra Club.

14 Ms. Rodriguez, thank you for coming.

15 MS. RODRIGUEZ: Thank you very much. I am
16 a native Floridian. I was born and raised in
17 Tampa, Florida. And to be very honest with
18 you, I am very proud of the state of Florida.
19 One of my responsibilities is voting, and I
20 have done that, I won't speak to that.

21 The other responsibility I think I have as
22 a citizen is to come here and to speak to you
23 about what is important to me, to LULAC, to the
24 council that I am President of, which is
25 Council 7069, and that is that you seriously

1 consider one of the two Congressional
2 districts, the new districts, that it be part
3 of central Florida, to include Hillsborough,
4 Pinellas, Polk, Manatee and the other one that
5 I can't remember at this time, but you get the
6 picture. We feel it is very important. We
7 have the count, we have the numbers and we ask
8 that you give us the district. Thank you.

9 SENATOR GAETZ: Thank you very much,
10 Ms. Rodriguez.

11 And next, Norma Reno with LULAC and then
12 Paul Anderson with the Sierra Club and then C.
13 L. Ergle.

14 MS. RENO: Good afternoon. My name is
15 Norma Reno, and I represent LULAC and I am the
16 Vice-President of Human Rights of Hillsborough
17 County and also the Director of Education for
18 the Hispanic Alliance of Tampa Bay.

19 I am here today to ask you to please
20 enforce the criteria of redistricting, which is
21 creating compact and contiguous districts,
22 trying to keep political units and community
23 within a single district and avoiding the
24 drawing of boundaries for purposes of partisan
25 advantage. It is the only way to avoid

1 manipulation of political boundaries,
2 gerrymandering and discrimination against
3 voters whose population has grown far more than
4 others.

5 The I-4 corridor represents the largest
6 growth of Latinos in the entire state. We
7 would like to have a more equitable
8 representation in the Florida Legislature.
9 Thank you very much.

10 SENATOR GAETZ: Thank you very much,
11 ma'am.

12 And now Paul Anderson from the Sierra
13 Club. Mr. Anderson? Thank you, Mr. Anderson,
14 thank you for being here today. And then next
15 C. L. -- is it Ergle? Mr. Ergle, if I
16 mispronounced your name, I beg your pardon,
17 sir.

18 MR. ERGLE: That is correct. A lot of
19 people have a problem with that name. I am a
20 member of the REC, the Republican Executive
21 Committee, and I am here to get more organized
22 as to what my duties are going to be as a
23 district Committeeman in my -- and
24 incidentally, I am 83 years old now, and I have
25 been around in Florida all my life, so I know a

1 lot about what's been going on in this state.

2 One of the things that concerns me at this
3 point is our government is going away from the
4 Constitution, and that is one of the reasons
5 why I am here is to reinvigorate our
6 Constitution here in the state and the United
7 States. So it is very important to me as to
8 what my duties are going to be and how this
9 redistricting is going to come to me in doing
10 my job. So thank you for hearing me and --
11 very much.

12 SENATOR GAETZ: Thank you very much, sir.

13 Next is Ray Dimbrath and then Karen
14 Landers and then Jerry -- I think it is Jerry
15 Showers.

16 Mr. Dimbrath, thank you very much for
17 being here today, and if you will come down
18 front, we would love to hear your testimony,
19 because it says you represent yourself, and
20 that is fantastic.

21 MR. DIMBATH: That is correct. I have
22 noticed -- this has been a very interesting
23 experience, because one thing, it seems like we
24 have a lot of what I would call special
25 interest groups that have been speaking and a

1 lot of -- a lot of pressure groups maybe, but I
2 just want to take the moment to thank all those
3 who came, those that are sitting out here and
4 those at the table up there.

5 I grew up in Miami. In 1964, I was 21,
6 and that is when you first were able to vote,
7 but I have always followed these things as much
8 as possible, and I think this has been one of
9 the most interesting and open discussions of
10 reapportionment I have ever seen in this state,
11 so I thank you for that.

12 Also, some people say it is hard to know
13 who their Congressman is. Mine used to be Adam
14 Putnam here in Polk County. Now we have Dennis
15 Ross, so I don't think that is so hard to know.

16 And, finally, I just -- I am a registered
17 Republican, but I wanted to thank Lori Edwards
18 here, who is our elections supervisor in Polk
19 County, she is Democrat, but she has done a
20 very good job, and a few years ago, I was a
21 poll worker -- I was a poll worker for one of
22 the elections, and I appreciate comments like
23 hers that were made, which I thought were very
24 well thought up and really addressed some of
25 the issues that are very important here. And I

1 can't help but say it seemed to contrast her
2 and then the other person who gets up and just
3 makes all these personal attacks on people they
4 don't like and disagree with. So, anyhow, I am
5 publicly thanking Lori Edwards for her job here
6 in Polk County.

7 SENATOR GAETZ: Thank you, sir.
8 Appreciate it very much.

9 Ms. Landers, you are up, and Jerry Showers
10 and then Steve Hall.

11 Ms. Landers, we appreciate your taking
12 your time to come before the Committee, and you
13 are recognized.

14 MS. LANDERS: Thank you. This issue I
15 have worked on since 2004, so it has been
16 longer than just what was on the ballot. It
17 has been a long, long process. We are thankful
18 to the voters of Florida for passing it with
19 63 percent of the vote. It was a heavy lift
20 that we didn't really, frankly, think we could
21 pull off, but it was done.

22 Now, I beg you to stop humiliating us
23 nationwide, late-night TV. Give us fair,
24 compact, contiguous districts, please.

25 SENATOR GAETZ: Thank you.

1 Is it Gary or Jerry, sir?

2 MR. SHOWERS: It is Gary.

3 SENATOR GAETZ: Gary Showers, then Steve
4 Hall and then Casey Welch with Florida Citrus
5 Mutual.

6 Mr. Showers, thank you for coming.

7 MR. SHOWERS: And certainly, I live in the
8 City of Bartow, Florida.

9 SENATOR GAETZ: Would you hold the
10 microphone up so -- I know everybody would want
11 you to hear you.

12 MR. SHOWERS: I am a citizen of Bartow,
13 Florida. My Representative is Seth McKeel, and
14 certainly he is not a part of this
15 redistricting committee or the process now.
16 And I think the overwhelming consensus of
17 the -- most of the majority of the people here
18 in the audience tonight is to go ahead and
19 formulate the maps.

20 At the end of the day, certainly we can
21 have input from the citizens, but at the end of
22 the day, the Legislature is responsible for
23 drawing those maps, and in order to have any
24 intelligent input into the way those maps are
25 drawn, then we would need to see those maps.

1 So we are going to ask that the process be
2 expedited and give every other agency the
3 opportunity to debate that process and to give
4 it a rubber stamp, and that would be my
5 comments today.

6 SENATOR GAETZ: Thank you very much,
7 Mr. Showers.

8 And next we are privileged to hear from
9 Steve Hall, then Casey Welch, and then if
10 Victor Story will be ready to speak.

11 Mr. Hall, we are grateful that you took
12 time to come today.

13 MR. HALL: Thank you. I appreciate the
14 time, and I also appreciate you all coming to
15 hear the public input about the redistricting.

16 But a lot of folks think that the
17 redistricting, in fact, is over, because they
18 voted for Amendment 5 and 6, and so a lot of us
19 are here today to just tell you all do what the
20 amendment said to do. That is why 63 percent
21 of the voters voted for it.

22 My concern is that the districts as they
23 stand today obviously are skewed. I remember
24 Dave Aronberg's district down in south Florida
25 goes all of the way from the east coast to the

1 west coast, with a lake in between. And it is
2 unreasonable to think that the constituents of
3 that district can go from one side of the state
4 to the other to actually talk to their
5 Representative without having to drive all the
6 way up to Tallahassee. So they need to be more
7 compact.

8 I supported Amendment 5 and 6, obviously,
9 and I have seen other states where they are
10 like that. It makes more sense. Our
11 districts, as they stand right now, don't even
12 make any sense.

13 But I am here today because one of my
14 biggest concerns is this \$30 million that was
15 appropriated to fight the districts that
16 everyone actually voted for. And then, of
17 course, on the other side, the State has an
18 obligation to defend the fight against
19 Amendment 5 and 6, but we passed the amendment
20 by 63 percent, that is more than most people
21 got in the last election, so obviously the
22 majority of the people want it done, and I
23 think that they've elected you all to do what
24 they want done and I think they have spoken
25 very loudly and we need to move on with it.

1 I disagree with anyone who doesn't think
2 that we should have example maps here today to
3 look at. I think that you could have brought
4 the maps so that we could look at what the
5 suggestion currently is in case there's any
6 problems, or would we have any problems with
7 the way any of the districts were drawn, then
8 we might could say, "Oh, well, maybe this one
9 shouldn't be that way, maybe the line should be
10 on the county line or on the ZIP code line or
11 some other line other than what you all may
12 have drawn the lines as," and then you could go
13 back and adjust them according to the input the
14 people give here in these hearings today and
15 throughout the state.

16 I applaud you for going around the state
17 and getting input, but it is hard for us to
18 look at the districts as we -- we feel they
19 should have been drawn the way we voted, as
20 opposed to just giving some input on something
21 that is not even there and just saying make
22 them simple. That is too easy. We would like
23 to look at the districts and have input as to
24 exactly how they are drawn.

25 But, again, I thank you all for coming. I

1 look forward to seeing you all again when you
2 get to Orlando, because I will be at theirs --
3 those too. Thank you.

4 SENATOR GAETZ: And, Mr. Hall, I hope you
5 can stay to the end of the hearing, because I
6 think some of the questions that you raised we
7 will be able to give some factual information
8 about that might help you.

9 MR. HALL: Okay, thank you.

10 SENATOR GAETZ: Thank you so much.

11 Next, Casey Welch with Florida Citrus
12 Mutual, followed by Victor Story with Florida
13 Citrus Mutual, followed by Carl J. Strang, Jr.

14 Mr. Welch, thank you for coming.

15 MR. STORY: You are going to catch a
16 break. Mr. Welch has yielded to me. I am
17 Victor Story, and I am President of Florida
18 Citrus Mutual.

19 SENATOR GAETZ: Glad to have you here,
20 sir.

21 MR. STORY: Okay, sir. So I am here -- I
22 am here today, I am a citrus grower from
23 primarily the southeast part of the county. I
24 am, as I said, President of Florida Citrus
25 Mutual, I am also past President of the Polk

1 County Farm Bureau, and I have also served in
2 some other elected positions in Polk County in
3 appointed positions, and I would just like to
4 represent the interest of the agricultural
5 community here in the county.

6 You know, we've got a rather diverse
7 county. We've got two population centers in
8 Lakeland and Winter Haven, and then we also
9 have an emerging population center to the
10 northeast part of the county, and then the rest
11 of the county is relatively rural, dominated by
12 agriculture, and I would just like to encourage
13 you as you make your deliberations that we are
14 well-represented, I think we are
15 well-represented now, we have five members of
16 the House, we have three members of the Florida
17 Senate and we have three members of the
18 Florida -- I mean, excuse me, of Congress in
19 Polk County, and I would encourage you not to
20 dilute that representation, because we are
21 large and diverse. And I would encourage you
22 to keep the Winter Haven area, the Lakeland
23 area and perhaps the northeast area that has
24 emerged as a population center as distinct
25 areas, and then the northwest side of the

1 county and the south side of our county are
2 rural and agricultural, and I would encourage
3 you not to dilute those by including them in
4 other population centers.

5 Okay. I would encourage you -- as you
6 well know, during this last recession, the ag
7 community has kind of held the state of Florida
8 together. We have provided jobs, we have
9 provided economic activity, and I would
10 encourage you very much not to dilute our
11 influence in the State Legislature and in the
12 United States Congress. Thank you very much.

13 SENATOR GAETZ: Thank you, Mr. Story.

14 Carl Strang is next, and then following
15 Mr. Strang is Andy, I think it is Crossfield,
16 and I apologize if I mispronounce that, and
17 then Rex Blenz.

18 Mr. Strang, thank you very much for coming
19 today. You are recognized.

20 MR. STRANG: Thank you, Mr. Chairman, and
21 thank you and your colleagues for your patience
22 and your good humor in tolerating all of this.

23 SENATOR GAETZ: That is why we get paid
24 the big bucks.

25 MR. STRANG: The reason I am here is that

1 if I let you all perpetuate or carry on the
2 present ridiculous, egregious districting that
3 we've got now, then I would kick myself for
4 another ten years if I didn't at least stand up
5 here today.

6 I am really impressed by the great number
7 of people who are here today. I think it is
8 wonderful that this many people care about
9 government. It also scares me a little bit
10 that there are that many people who are very
11 unhappy with the ruling class.

12 I urge you mainly to produce a districting
13 map that is compact and that is fair and
14 balanced and that does not take into account
15 ethnicity or race or any other consideration.
16 We want to comply with the Civil Rights Act
17 of -- the Voters Rights Act of 1965, but be
18 fair.

19 I want to urge you to rise above your own
20 personal interest, rise above the interest of
21 political parties, rise above the rights of the
22 claims of the incumbents and give us a product
23 that is -- that is fair and equitable and
24 passes. The state of Iowa, I understand, has
25 done a wonderful job in their redistricting

1 efforts, and if Iowa can do it, then Florida
2 can do it.

3 SENATOR GAETZ: And they grow good corn
4 there, too.

5 MR. STRANG: That's right.

6 And, in closing, I would like to echo and
7 parrot what Lori Edwards says: Please be
8 mindful of the boundaries of existing political
9 bodies here, because what -- the status quo or
10 districting without regard to existing
11 political boundaries certainly confounds and
12 requires Herculean work by the elections
13 supervisors, but it makes things -- it confuses
14 the voters in an awful lot of cases, and I urge
15 you please to keep that in mind. And here
16 endeth the lesson, thank you.

17 SENATOR GAETZ: Thank you very much. I
18 wish all epistles -- all epistle lessons were
19 that good.

20 And next -- is it Andy Crossfield? Did I
21 get that right, sir? Crossfield. And then Rex
22 Blenz and then Noah Bolin.

23 Mr. Crossfield, thank you for coming.

24 MR. CROSSFIELD: Thank you for coming. I
25 really appreciate the great turnout from the

1 elected officials in Tallahassee.

2 I am Andy Crossfield, I am the President
3 of the Lakeland Democratic Club, and I would
4 like to take issue a little bit with the
5 gentleman from Citrus Mutual. We do not have
6 good representation here in Polk County. There
7 are more registered Democrats here in Polk
8 County than Republicans, yet we have no
9 Democratic representation at all, have not for
10 years. Well, she is an elected official, but
11 not in Tallahassee, pardon me, from you guys
12 who make the laws up there.

13 My point though would be especially to
14 that, because you have seen how many people are
15 here?

16 SENATOR GAETZ: Could we have order?
17 Let's listen to Mr. Crossfield. He has
18 something he would like to say. Let's listen
19 to him.

20 MR. CROSSFIELD: You see how many people
21 are here? I hope that the rest of the meetings
22 that you have around the state are as well
23 attended, because this is a very important
24 issue. And the reason it is important -- and
25 let me illustrate how important this is,

1 because there are still more Democrats
2 registered in the state of Florida than
3 Republicans, and yet Democrats only make up
4 41 percent of the state houses, the House and
5 the Senate, and the all-important Chairs of
6 committees, Democrats are only five percent.
7 Now, this is wrong. We have to have more
8 representation. We have to have more
9 representation by party, we have to have more
10 equality in representation by race and we have
11 to have more representation in policy, because
12 there are people who live on the coast that
13 have separate understandings and issues than
14 the people who live in the center of the state,
15 as is to the insurance companies -- is it
16 Citizens Mutual or Citizens what -- there is no
17 reason that the people in the center of the
18 state should subsidize their insurance policies
19 to the people who live on the coast. We are
20 talking about -- we are talking about
21 representation.

22 SENATOR GAETZ: Andy, Andy, Andy, we would
23 love to hear your views about insurance, but
24 let's keep it to redistricting right now.

25 MR. CROSSFIELD: It all boils down to

1 representation. And if this is a fair and
2 transparent process, then we will all -- I hope
3 that everyone here recognizes how important
4 this is, and I will count this a success if the
5 results from the Legislature mirror the results
6 of the people who live in the state.

7 SENATOR GAETZ: Thank you very much,
8 Mr. Crossfield. We appreciate it.

9 And next is Rex Blenz, and following Mr.
10 Blenz is Noah Bolin and then Wayne Guest.

11 Mr. Blenz, thank you for taking time to
12 come here today. You are recognized, sir.

13 MR. BIENZ: It is Bienz, B-i-e-n-z.

14 SENATOR GAETZ: Bienz, yes, sir.

15 MR. BIENZ: You got the L in there.

16 First let's forget about politics. I
17 would like to address the subject of the
18 census. The census identifies populations by
19 population -- by census blocks, which you can
20 use then to count the people. But it also
21 identifies living units. Living units may or
22 may not have people in them. You need to count
23 those. You are working for ten years ahead.
24 Those living units, which now say vacant,
25 reposessed, for sale, will have people in

1 them. They need to be counted or at least
2 considered when you draw your lines, because
3 those are people of the future that will be
4 there for the ten years that we are talking
5 about.

6 I tried to follow the three Bs of public
7 speaking: Be brief, be sincere, be seated.
8 Thank you.

9 SENATOR GAETZ: Thank you. Thank you,
10 Mr. Bienz.

11 Noah Bolin. Mr. Bolin, and then Wayne
12 Guest with the Ft. Meade Historical Society,
13 and then Carol Ann Sargeant.

14 Mr. Bolin, it says here you represent the
15 redneck party.

16 MR. BOLIN: Yes, sir, that is correct.

17 SENATOR GAETZ: Let's see your neck. You
18 are recognized. Thank you for being here.

19 MR. BOLIN: Okay. Thank you very much.

20 First of all, I would like to take a
21 little time to remind the Legislature of one of
22 its most important duties. That is constituent
23 service. That means serving your electorate,
24 not the other way around. Asking us to draw
25 the lines and to do your jobs is a slap in the

1 face to Florida voters. I would like to ask
2 the Legislature, rhetorically, of course, why
3 is it that you ask us to do your jobs and to
4 hear our voices now when you have been
5 reluctant to do so in the past such as the cry
6 of teachers and students when you passed the
7 merit-pay bill.

8 Furthermore, I ask the Legislature to step
9 up to the plate, provide us with sample maps,
10 maps, I would like to add, that elaborate -- or
11 maps, I would like to add, that are fair to the
12 people of Florida, and to stop using taxpayer
13 money to fight the will of the people for your
14 own interests, and to move the process forward
15 in a timely manner as it should. Thank you.

16 SENATOR GAETZ: Thank you, Mr. Bolin.

17 Wayne Guest with the Ft. Meade Historical
18 Society, then Carol Ann Sargeant and then
19 Concepcion Scharan, I think, I'm sorry if I
20 mispronounced the last name.

21 Mr. Guest, thank you for coming, and we
22 are grateful for your testimony today.

23 MR. GUEST: Thank you, Senator. I need
24 more than three minutes, because I cannot
25 introduce myself in three minutes.

1 SENATOR GAETZ: Well, you got three, so
2 take your best shot.

3 MR. GUEST: My best shot is on
4 redistricting is to look at the districts and
5 look at the communities and look at the county
6 lines, all right. If you look at the
7 population of Polk County, for example, we've
8 got how many people now, approaching 600,000.
9 In this county, we've got 70,000 vets. If you
10 look at that population alone in this county,
11 we have a large group that's related to the
12 military, which our closest place is MacDill
13 Air Force Base. But if you look at the
14 districts and the way they should be drawn, and
15 the comments have been made earlier that if you
16 live in Ft. Myers, you got to go slap to the
17 east coast to see your Representative. If you
18 look at some areas of this county where it goes
19 from -- the state where it goes to Orlando to
20 Jacksonville, if you look at Polk County again,
21 how big this county is and the population and
22 the way we should be served by the folks we
23 send to Tallahassee, that is not happening,
24 period.

25 All I ask for is, number one, we have Fair

1 Districts. Those districts serve the
2 communities and the cities, and if you look at
3 Lakeland, Winter Haven, Haines City area
4 alone -- I am not going south in Polk County
5 where the agriculture is, because I was born
6 there. My grandfather was born down there in
7 1885, so I've got some roots here, I know
8 something about it.

9 What I see happening now at these hearings
10 and the way it is going, and I will sum up by
11 this, come next year, late spring, we are going
12 to be the same way in Tallahassee that we are
13 in Washington, DC, right now, very
14 dysfunctional. Look what's happened to our
15 national debt, what we're trying to do there,
16 and all of a sudden, we are going to
17 Tallahassee next spring, and redistricting is
18 going to be the same way because you won't do
19 it fair, and, therefore, I am going to send
20 money to somebody to take it to court to make
21 sure it is fair. It's got to be fair so that
22 we, the people -- if you notice my shirt with
23 the American flag on it, it says "United we
24 stand," I mean that. I have been shot at in a
25 foxhole more than once, and I believe we've got

1 to be together to do it, and right now we are
2 not. And if y'all do the redistricting wrong,
3 look at my shirt, we will not be united. Thank
4 you for your time.

5 SENATOR GAETZ: Thank you for your
6 service. Thank you for service to our country,
7 Mr. Guest.

8 Next, Carol Ann Sargeant, and then
9 Concepcion, and I apologize to -- to her for
10 mispronouncing her last name. I think it is
11 Scharan or Shawn.

12 Ms. Sargeant, thank you for coming today.

13 MS. SARGEANT: Thank you. I just briefly
14 would like to say please -- everyone else has
15 said it -- be fair, be fast, let's not wait
16 around on this.

17 I would love to see the lawsuit dropped.
18 I think it is ridiculous when the people have
19 voted one way for the state to -- people in the
20 state to try to change that. I think the
21 people have spoken, and people need to listen
22 to what has been said.

23 I was born in this county and have lived
24 on the west side of the county growing up and
25 back here now, but in the meantime, I spent 35

1 years on the east side of the county. I have
2 also been involved in many political campaigns
3 and some independent forums for all candidates,
4 and it has been so frustrating when you see
5 people, I mean, all the way to the east coast,
6 all the way to the west coast. Again, it is
7 not fair to the people who are campaigning to
8 have such drawn-out districts, it is not fair
9 to the people who are being represented who
10 cannot contact easily their Representative on
11 particular issues if they want to go see them.

12 Again, I would urge all of you, it's been
13 urged before, to not go with your own little
14 agendas, but to look at what the people of the
15 state are asking you to do, to be fair, to be
16 contiguous and to do it soon. Thank you.

17 SENATOR GAETZ: Thank you very much,
18 ma'am. Very helpful testimony.

19 And now I am going to make my apologies.
20 Concepcion, will you help me with your last
21 name, ma'am? I feel so badly that I can't read
22 it. It is my eyes.

23 MS. SCHARAR: It is a German name, and I
24 am from Cuba, so my pronunciation is Scharar.

25 SENATOR GAETZ: Scharar?

1 MS. SCHARAR: Yes, sir.

2 SENATOR GAETZ: Well, you are recognized,
3 and thank you very much for staying with us
4 during this hearing. We're delighted to hear
5 what you have to say.

6 MS. SCHARAR: Well, I really don't have
7 that much to say about the subject, but I do
8 have -- I do want to say, you know, I come from
9 Cuba, I was born in Cuba, I am an American
10 citizen, and I do not expect you or anybody
11 else to give me any special areas or any
12 special anything. All I want to do is to be a
13 citizen and to vote as a citizen of the United
14 States for people that are going to represent
15 them, represent me, who don't necessarily have
16 to be from Cuba, you know, because if they have
17 the same values and the same beliefs that I
18 have, that is all that I need. So when people
19 talk about all these civil rights and all those
20 things, I don't know what they are talking
21 about. As long as I have my right to vote, and
22 I have -- and I have -- I have always been
23 treated fairly in this country, and I don't --
24 I don't think you should have any special
25 districts going on race or national origin or

1 anything like that. Thank you.

2 And, by the way, to Andy, you know, who
3 was complaining that enough Democrats are in
4 the House and the Senate, maybe the Democrats
5 in this state are voting Republican.

6 SENATOR GAETZ: Thank you very much for
7 your testimony.

8 We have reached the place in our hearing
9 where everyone who has signed up to speak has
10 had the opportunity to speak. Is there anyone
11 who would like to speak who's not -- who did
12 not sign up, but now that you have heard
13 others, you would like an opportunity to speak?
14 This is not an opportunity for second chances
15 if you have already spoken.

16 Would a member of the Sergeant's office or
17 the Reapportionment Committee give this young
18 lady a card, please? Please come forward,
19 ma'am. You can fill the card out later. We
20 just want to know who you are. Thank you for
21 sitting through the hearing and thank you for
22 taking time to come with us today and talk
23 about this issue.

24 MS. BAILEY: Thank you, Senator. I would
25 like to say that I, too, am from Polk County,

1 and I would like to see a district that
2 reflects all the people in the county.

3 I am Doris Moore Bailey. I am the Chair
4 of the National Congress of Black Women, so I
5 speak for this organization. We just started
6 in February with more than 110 plus members,
7 and so today I stand because we will work with
8 the coalition to make sure the lines are decent
9 and the lines will represent all of us.

10 Civil rights is important to us, and I
11 think each of you know that as well it's
12 important to all of us, and so we can't
13 disregard that, as was stated before, because
14 we have had people to die for their rights.

15 So we appreciate you being here today,
16 thank each of you for listening, and God speed
17 to do the right thing.

18 SENATOR GAETZ: Thank you, ma'am. Thank
19 you.

20 Is there anyone else who would like to
21 speak who hasn't had the opportunity? Ma'am,
22 would you come forward, and would a member of
23 our staff please give this lady a card so that
24 she may fill it out? And would you identify
25 yourself, please, ma'am, for the Committee?

1 MS. STANLEY: I'm Zita Stanley, and I
2 represent the computer illiterate.

3 SENATOR GAETZ: A large -- a large and
4 influential constituency.

5 MS. STANLEY: I can send an e-mail, I can
6 check out a book from the library, but that is
7 it. But it seems to me that there should be
8 computer programs that could generate on the
9 basis of county lines and population, and
10 relieve you of the responsibility of
11 accusations of slander, you know, of being
12 unfair. And I was just wondering if you have
13 started with a computer program.

14 SENATOR GAETZ: Well, since you are the
15 last speaker -- is there anybody else who
16 wanted to speak? That might be a good place
17 for answers to some of the questions that have
18 been raised. The fact is that there are
19 computer programs, and they -- a member of our
20 staff -- believe me, I am pretty techno-stupid,
21 and they got me in 15 minutes to a place where
22 I could use the computer program to do exactly
23 what you are talking about. But our
24 Constitution says that at the end of the day
25 our elected representatives have to draw the

1 maps, but they can use computer programs.
2 Those programs are available, and if a member
3 of our staff would please talk with this lady
4 and show her -- do the 15 minutes if you have
5 the time, and you, too, can draw those maps
6 using the very ingredients you just described.

7 MS. STANLEY: Thank you.

8 SENATOR GAETZ: Thank you.

9 Let's go now to the part of our hearing
10 where we are able to have some feedback on some
11 of the questions or questions of fact that have
12 been raised, and let me first turn to any
13 members of the House of Representatives who are
14 with us today, any comments that you might wish
15 to make, any articulation of issues, any
16 proposals you might wish to make to this group.
17 Yes, sir, Representative Nehr.

18 REPRESENTATIVE NEHR: Thank you,
19 Mr. Chairman, and thank everybody for being
20 here today. I know there's lots of things you
21 could have been doing.

22 There have been some comments during the
23 meeting on questions about other states already
24 completing their redistricting plans, and the
25 question was why maybe -- why hasn't Florida

1 done the same thing, and I would like to
2 address those comments, if I could.

3 You are right, a handful of states have
4 already completed their redistricting, because
5 some of them have had odd-year elections, and
6 we have even-year elections, and that makes a
7 big difference. Or they also have very early
8 primaries, earlier than us, and they are
9 required, not because of expedient -- not
10 because they wanted to, just because they had
11 to do it out of necessity. And sometimes, I
12 just want to explain, that it wasn't always the
13 most open and transparent thing that was done.
14 States like Illinois, for example, where the
15 majority party went into a back room for a
16 couple of days, came out with some maps and
17 said, "Here's the maps, take them or leave
18 them," that was not very transparent at all,
19 did not allow any public input at all. You
20 know, Florida has one of the most public and
21 transparent process for redistricting in the
22 entire United States.

23 A VOICE: (Inaudible).

24 SENATOR GAETZ: Ma'am, now, we allowed you
25 to speak. Now, you have asked for feedback,

1 you have asked for questions to be answered.
2 We would appreciate your kindness in showing
3 the same respect the Committee showed to you.
4 Ma'am, ma'am, we would like to ask you to be
5 quiet for a moment, let the Representative
6 speak. We will let Representatives of both
7 parties speak, and then we will conclude our
8 hearing.

9 Representative Nehr, you are recognized.

10 REPRESENTATIVE NEHR: Thank you. The
11 Committee meeting has decided that we will have
12 what is called a listening tour to make sure
13 that everybody has an opportunity to let us
14 know how they feel that the districts should be
15 drawn. We are going to start our committee
16 meetings the first week in September, and as
17 one of the Chairmen of the Senate Redistricting
18 Committee, I can assure you that we will try to
19 get the maps done as quickly as possible to
20 give everybody an opportunity, not only the
21 Legislators, but also the public, to comment on
22 that, and we will also try to get the maps done
23 as quickly as possible so that we can vote on
24 them as soon as possible in the Legislature,
25 once it starts.

1 As it has been said before, and I just
2 want to reiterate, our Constitution does not
3 allow us to vote or act on the maps before
4 2012, and that is what we will do as soon as
5 possible. Thank you, Mr. Chairman.

6 SENATOR GAETZ: Thank you, Representative
7 Nehr.

8 Representative Legg, you are recognized.

9 REPRESENTATIVE LEGG: Thank you, Senator,
10 Mr. Chairman. First I just want to say thank
11 you for letting us start this process by
12 listening.

13 I come from west Pasco, and to be very up
14 front, I know very little about the
15 demographics of Polk County, you know, and I
16 have learned a lot today. I am hearing
17 especially individuals about how the county is
18 unique and from the north and the east and
19 west, how there's different populations, you
20 know.

21 I want to say thank you for letting us
22 start by listening first, listening, because I
23 feel as someone from west Pasco, I need to
24 listen to the people here in Polk County before
25 I produce or even look at anything on a map,

1 you know, before this Committee even started,
2 listening to people from Frostproof and Lake
3 Wales about how their community is a little bit
4 different than folks maybe from Bartow or from
5 Winter Haven or Auburndale. I greatly
6 appreciate the process of not forcing us to
7 come with a preconceived -- some hick from west
8 Pasco writing a map for someone in Polk County
9 without even listening to anyone here first. I
10 enjoy listening to the folks, and the first
11 time I ever heard that Polk County has some
12 unique communities that I've never heard of
13 before, and as I am learning this from this
14 community here, when I go back to Tallahassee
15 and as I start to put pen to paper, I have
16 learned a lot about how this community is
17 different and how they have some unique
18 representation that I didn't know before here
19 today. So thank you for letting us listen to
20 folks before we come with some preconceived
21 ideas.

22 SENATOR GAETZ: Thank you, Representative
23 Legg.

24 Other comments from members of the House
25 of Representatives?

1 Comments from members of the Senate who
2 are here? Senator Storms.

3 SENATOR STORMS: Thank you, Mr. Chair, and
4 can I say thank you for your unflappability.
5 You are pretty unflappable and unfeelingly
6 polite, and I appreciate that about you.

7 I would just like to say that even this
8 very morning, I took the opportunity to work on
9 drawing the maps, and I -- and I listened to
10 some of the comments that folks have made, and
11 it seems that some -- maybe because you are not
12 familiar with the process, that you are kind of
13 cavalier about "Just go draw the maps, how hard
14 is it and be fair about it." Let me just tell
15 you, it is very difficult. The reason why we
16 are asking you to go draw the map, at least
17 from Senator Storm's perspective, the reason
18 why I am asking you to go draw the map is so
19 that you will know the difficulty of the job
20 that you have tasked us to do.

21 It isn't as easy as you say. For
22 instance, I was -- just, for instance, right.
23 So if you draw a congressional district, it has
24 to be -- we are trying to get it within plus or
25 minus one, one person, one person, one vote.

1 So in order to do that, you can't just pick up
2 a county. I mean, this morning when I was
3 doing it, you can't point at the county and put
4 that into District 1, point at the next county,
5 put it into District 2, point at the next
6 county, because next thing you know, you have
7 6,000 extra people in that district. So now I
8 got to lose 6,000 extra people. Well, how do I
9 do that? Now I've got to go down, I can't go
10 down to the county, I've got to change the
11 program and go down to what are called the
12 VTDs. Those are the voter tabulation
13 districts. They are bigger than census blocks.
14 So then I might be able to lose 600 people from
15 my VTD. So I pick up two of them, but wait a
16 minute, it took me out of a city, it took out
17 part of a road of a city. So now we don't want
18 to do that, because you want to keep your
19 cities together, isn't that right? Isn't that
20 what you have asked? And you want it to be
21 compact. So now I go back and I say, okay,
22 well, now, let me go down by census block. I
23 will leave that VTD alone, because census block
24 is drilling down even smaller, so I am going to
25 try and put in the census block into it, and

1 now that is what I am trying to do. And then I
2 find out that now that I am 200 short. Now
3 I've got to add people back in.

4 When I finish this whole thing with this
5 district, now I -- now since I have been in
6 this small, little -- I have magnified it,
7 right? Now I have to come back and take the
8 zoom view and see what the thing looks like.
9 Because why? You are going to look at it and
10 say it is not compact, because I've had to draw
11 it according to how the people are, right, to
12 get the population. Now I look at it, and I go
13 well, it's got this funky little squiggly thing
14 over here. How do I square it up? And so I
15 say to my staff, "Let's square that up, let's
16 lose this little squiggly thing, get that out
17 and make it square," and now I have to go back.

18 That doesn't even include the things that
19 you are asking me to do about minority
20 population districts. As I understand, 5 and
21 6, the primary consideration is you want
22 compactness and communities of interest. Is
23 that about the size of it, or have I
24 misunderstood what you have asked? Is that
25 about the size of it? Just nod your heads or

1 shake them no. Okay. So that means that I am
2 not starting with minority access issues. I
3 didn't look at race, I didn't look at it, I
4 just looked at pure population. And in order
5 to do this with my state, I said, okay, what do
6 I do, do I start in the middle, pick a county
7 in the middle and go out that way with my
8 districts? Or is it better to swap out, do one
9 from the top of the state, one from the bottom,
10 one from the top of the state, one from the
11 bottom? That way I will meet in the middle,
12 and the likelihood is less that I will have a
13 district with 32 people in it and I've got to
14 change the whole thing all over again. Do you
15 understand?

16 I am telling you all this only to say that
17 I am not coming here, you know, I am not -- I
18 am working hard to do the thing that you have
19 asked me to do. Nobody here is working with
20 me. I am not working on some secret plan to
21 overthrow the government. I haven't even
22 looked at my own district. I have started in
23 another part of the state, and it -- let the
24 chips fall where they may. But as I understand
25 it, what you are about to do is put yourself in

1 contravention to people in -- particularly in
2 the minority communities who are very concerned
3 about not just whether they have a voting
4 right, not just whether or not they can vote
5 the person that they choose to, but whether or
6 not it matters if they have enough Senators
7 that look like them, that speak like them. And
8 in my district, I represent Beesville.
9 Beesville was settled by emancipated slaves
10 when Lincoln signed the Emancipation
11 Proclamation. It matters to them. If they
12 have -- if they can point to their sons and
13 say, "There is Senator Gary Siplin, and he is a
14 black man, and you can be a Senator, too, he
15 looks like you," and if that does not matter to
16 you, I am just here to tell you that people
17 that I represent, it does matter to some of
18 them. But I am doing what the voters asked me
19 in 5 and 6, and I just -- you may not trust me,
20 you may not vote for me for dog catcher, I
21 don't know. But I will just tell you, I am
22 here to say to you I am working as hard as I
23 can to do what you asked me to do, and I am not
24 trying to, you know, do anything bad here. I
25 am just trying to do my job.

1 SENATOR GAETZ: We have made a list --
2 Speaker Designate Weatherford has made a list
3 of the other comments that were made so that we
4 can at least provide some factual information.
5 Sometimes things get put in the bloodstream.
6 And I come from a little town called Niceville,
7 Florida. It really is. We've got Doris' Cafe
8 in Niceville, and if you start a rumor in
9 Doris' Cafe, if you say something is true at
10 breakfast time, by the end of the day,
11 everybody in Niceville will swear to God that
12 it is true, even if we have said that we are
13 going to move Niceville out in the middle of
14 the Gulf of Mexico. So sometimes things get
15 put in the bloodstream, somebody gets an e-mail
16 that says, "Go to the hearing and say these
17 things," sometimes it is true, but sometimes it
18 is not. But, Mr. Speaker, you are recognized
19 to provide any concluding comments.

20 REPRESENTATIVE WEATHERFORD: Thank you
21 very much, Mr. Chairman. I just -- I want to
22 echo a little bit of what's been said, which is
23 the value of the feedback we've gotten today.
24 I also am another person who did not have a
25 great understanding of the difference of the

1 dynamics of Polk County, and I think today we
2 have learned that, and you have a beautiful
3 county here, it is a wonderful place and I've
4 got some close friends here and it has been a
5 real pleasure to learn more about it.

6 Mr. Chairman, I do want to take just a
7 moment to walk through a few things and clear
8 up a few inconsistencies that have come up
9 throughout this process.

10 And I also want to say there may be people
11 here who had a question that they didn't ask,
12 maybe you were too shy and you didn't want to
13 speak, or maybe a question has come up since
14 the hearing has gotten towards the close. If
15 you have a question that you have not had an
16 opportunity to ask, please, on your way out,
17 find a staff person, find me, find someone who
18 is here, and we will try to answer that for
19 you. You can also e-mail us. There's a
20 tremendous amount of ways to get in touch with
21 us. As individuals and our Committee staff, we
22 want to make sure that is available to you.

23 So, first of all, I want to thank our
24 Supervisor of Elections, Ms. Edwards, thank you
25 for being here. You had some tremendous input.

1 Really, it was very helpful. Thank you.

2 We are extremely sensitive to the
3 challenge that you talked about in regard to
4 the timeline. We are extremely sensitive to
5 that. One thing I would point out, and I will
6 make sure our staff get with you as well so you
7 can talk very directly with them, but one thing
8 is that on-line, when they talk about the dates
9 of when we have to pass maps, those are
10 deadlines, but not necessarily our goals.
11 Obviously we want to pass them in a very
12 meaningful time frame so that we do make sure
13 that we are not putting ourselves in a
14 situation where we are past qualifying and
15 putting our Supervisors of Elections in a
16 position where you can't do your job. We want
17 you to look good, we want to give you the
18 resources and the ability to do your job, and
19 everyone on this Committee is focused on doing
20 that. And so thank you for bringing that issue
21 up, it is a real issue, we are sensitive to it,
22 we are doing everything we can to make sure
23 that does not happen.

24 Also, in regard to the timeline in
25 general, I thought -- Representative Nehr, you

1 touched on it very briefly, but there are other
2 states who have done this faster than we have,
3 but the reason they have done it faster and
4 voted faster is because they didn't take the
5 time to listen to the people. They didn't take
6 the time to hear from the citizens of their
7 state about what they thought in regard to how
8 the maps should look.

9 As it was stated at the very beginning
10 when I gave my opening comments, maps cannot be
11 voted on, two of the three maps, the
12 legislative maps, cannot be voted on until
13 January of 2012, and that is with us moving
14 session up quickly. But, again, very important
15 for everyone to understand, we are not trying
16 to drag this out, we are not trying to make
17 this a long process. But what we are trying to
18 do is take the summer to go around the state.
19 We have a diverse state, it is a geographically
20 unique state, and we are trying to travel the
21 state all the way from starting in Pensacola,
22 which we were there about a month and a half
23 ago, finishing in the Keys, we are going to hit
24 every pocket to hear from citizens who have
25 different ideas, different views, and want an

1 opportunity to explain to us the dynamics of
2 their county just like you have done for us
3 today.

4 There's been a lot of discussion about the
5 chicken versus the egg debate about the maps,
6 right? Should the chicken come first or should
7 the egg come first or vice-versa? Well, I want
8 to give everyone a little bit of insight on
9 that.

10 The first is I believe that it is always
11 better to give the citizens of Florida the
12 opportunity to start the conversation, as
13 opposed to politicians. We start a lot of
14 conversations first and we ask you to comment
15 later, if at all, but this is one rare instance
16 where we are asking you to start it for us.
17 And I think that is a noble cause, and we are
18 going to hold firm to that. But, also, we have
19 some people who agree with us and who are some
20 advocates, and in 2009, one of the principal
21 authors of Amendments 5 and 6, which every
22 person up here has sworn to uphold and defend,
23 a gentleman by the name of John Mills, a former
24 Speaker of the House, wrote that the intent of
25 the new redistricting standards is for the

1 public to have the opportunity to comment
2 before and after the Legislature draws initial
3 maps. That is coming from one of the -- one of
4 the directors and originators of Amendments 5
5 and 6. In 2010, the Chairperson for
6 Floridafairdistricts.org, a Ms. Ellen Freidin,
7 told a Joint Legislative Committee that it
8 would be impossible, ladies and gentlemen,
9 impossible to draw compliant or appropriate
10 maps until after the Legislature had first
11 heard from the public. Ladies and gentlemen,
12 these are the very people who created
13 Amendments 5 and 6, which 63 percent of my
14 county and our state voted for, and they agree
15 with us in regard to listening to you first.

16 There was a question, a very good
17 question, about the census, and I want to be
18 very clear about this. The census is taken,
19 obviously, every ten years, and the way it
20 works is every ten years, or this year -- it
21 was in 2010, it was April 2nd -- if you resided
22 in Florida on April 2nd, you were counted. It
23 didn't matter if you were legal, illegal,
24 hanging out for three or four months, if you
25 lived here on April the 2nd, you were counted.

1 That is the way -- that is a federal law about
2 how census is done. The states don't have
3 autonomy when they do that. So that is the way
4 it works. Someone brought up the case about if
5 there's a vacant home, can we count vacant
6 homes, because people will be living there one
7 day. I'm sorry, sir, but we can't do that.
8 Federal law does not allow us to do that. We
9 only count living people who are here on the
10 day of April the 2nd. So that is very -- I
11 wanted to make sure I clear that up.

12 There's been some comments about
13 litigation and lawsuits, and all I am going to
14 say about that is this: There's always
15 litigation, there's always lawsuits. Our job,
16 and, Mr. Chairman, I believe our creed as this
17 Committee is not to pay attention to litigation
18 or lawsuits, but to make sure that we uphold
19 the law. And every single person on this
20 Committee raises their right hand every two
21 years to promise to protect and to defend the
22 Constitution of the United States and of the
23 State of Florida. Amendments 5 and 6 are on
24 the Constitution of the State of Florida. We
25 will protect them, we will continue to serve

1 them and we will make sure that as they are the
2 law, we will treat them like the law and we
3 will follow them. And I want to be very clear
4 about that, Mr. Chairman as well.

5 Lastly, I want to say there's always going
6 to be people who say that the process isn't
7 open enough, that it is not transparent enough.
8 Well, ladies and gentlemen, 26 public hearings
9 at a minimum, e-mail participation, Facebook
10 participation, which we are getting a
11 tremendous amount of feedback on, maps that
12 have already been proposed to the Legislature,
13 I think we have had three or four times the
14 amount of maps proposed to the Legislature just
15 this session already, more than we had ten
16 years ago in its entirety, we are getting
17 participation, we are getting people giving us
18 feedback, and the back-end product that we come
19 up with is going to be better because of that.
20 At any point in time, any member of this
21 Committee, any member of the Legislature can
22 propose a map. There is nothing or no one
23 stopping them from doing that. And if any
24 member of this Committee wants to do that, they
25 have the ability to do so, and any member of

1 our Legislature, Republican and Democrat, can
2 do so as well.

3 But I just want to thank you for giving us
4 the opportunity to be here to listen to you, to
5 listen to your story, and Mr. Chairman, thank
6 you for running a great hearing. I think
7 everyone on this Committee knows more about
8 central Florida, having been a part of it. So
9 thank you very much.

10 SENATOR GAETZ: Thank you, Mr. Speaker.

11 One final comment, and that is there was a
12 gentleman who spoke very eloquently about the
13 fact that 42 percent -- I think he said
14 42 percent of the population were Republicans,
15 a larger percentage were Democrats. I would
16 just go on and add, the fastest-growing group
17 of voters in Florida have no party affiliation
18 or classify themselves as Independents. So
19 then that eloquent gentlemen, I think he was
20 Chairman of the Democratic party, said -- well,
21 was he not? Okay, he identified himself as an
22 officer with the Democratic party. Perhaps he
23 misidentified himself. In any case, he was
24 eloquent. And what he said was -- what he said
25 was that he wouldn't be satisfied until the

1 same proportion of Representatives and Senators
2 were Democrats as the proportion of the
3 population.

4 Let me just offer a fact for your
5 consideration. There are 40 Senate districts,
6 40 Senate districts, 28 of them are held by
7 Republicans. So how in the world could that
8 have happened? Well, Barack Obama in 2008
9 carried 20 Senate districts. He carried eight
10 districts that elected Republican Senators.
11 Now, you can look at that through the looking
12 glass either way. You can say maybe it was
13 that President Obama had a better, more
14 persuasive campaign, maybe he messaged better,
15 because he was able to get eight districts that
16 otherwise elect Republican Senators to vote for
17 him for President. Or you could look at it the
18 other way, you could say there are eight
19 districts where a majority of the people voted
20 for Barack Obama, but then they crossed party
21 lines and voted for Republican Senators. Here
22 is the message that I get out of it, and that
23 is this: We will never be able to draw a map
24 that forces Republicans to vote for Republicans
25 and Democrats to vote for Democrats. And God

1 knows we will never be able to tell the
2 Independents what to do.

3 So I think -- I think that we are back to
4 the secret ballot. There are Democrats who
5 will vote for Republicans, there are
6 Republicans who will vote for Democrats,
7 because we vote often for the person and not
8 the party, and that is the way it ought to be.
9 So I don't know that we will be able to satisfy
10 that eloquent gentleman's template, but we will
11 satisfy the requirement that we come here, we
12 listen to your views. And this is not your
13 last chance to participate in this process.
14 This is only one of your early chances. As the
15 Speaker Designate indicated, you can continue
16 to comment on-line, you can continue to contact
17 your Representative or Senator, and if you
18 don't know who that is, Supervisor of Elections
19 is here, and she can sure tell you.

20 And the other thing is that when there are
21 maps proposed, and there are already 12
22 proposed, some of them are in the back, when
23 there are maps proposed, you can see them, you
24 can evaluate them and you can offer your
25 comments. And as the Speaker Designate

1 indicated, when we get to Tallahassee in
2 September, preparing to vote as soon as we
3 can -- and the first time we could vote would
4 be January by our Constitution -- you will have
5 the opportunity there as well to have input.
6 And, frankly, if I have my way, we will be able
7 to get as much public input as possible before
8 we cast any vote in -- even at the Committee
9 level. Every vote that is cast in any
10 Committee will be done publicly. It will be
11 done after there is an opportunity for people
12 to come forward and testify either by mail, by
13 e-mail, by phone call, by letter or in person.
14 And that is very different than having a group
15 of unelected people go in a back room and close
16 the door, that is what they do in courts, and
17 then come out and tell you what the results
18 are.

19 So we thank you for your time, for your
20 patriotism, for your concern, and
21 Representative Weatherford moves we rise.

22 (Whereupon, the proceedings were
23 concluded.)

REDISTRICTING COMMITTEE

TUESDAY, JULY 26, 2011

8:00 A.M.

HARDEE COUNTY CIVIC CENTER

WAUCHULA, FLORIDA

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 SENATOR GAETZ: Good morning, everyone.

3 If you are here for the redistricting hearing,
4 if you could find a place, looks like we have
5 enough chairs for everybody and all of your
6 friends who stayed home, and also if our
7 members will be seated, please.

8 And before we begin our hearing this
9 morning, I wanted to, with Speaker Designate
10 Weatherford's permission, yield to
11 Representative Grimsley, whose hometown we are
12 in and who is well-known to many people here,
13 and ask her if she would make any opening
14 remarks. Representative.

15 REPRESENTATIVE GRIMSLEY: Thank you,
16 Senator Gaetz, and welcome to the redistricting
17 hearing.

18 Ten years ago we sat in this room, and I
19 remember it was full, but it wasn't at 8:00
20 a.m., so that may make a difference. My mom
21 called me on the way down and she said, "Where
22 is the meeting," and I told her, and she said
23 "Well, your dad didn't know where it was," and
24 I said, "I guess that means he is going to be
25 late." So he is retired, he says he can't get

1 anywhere at 8:00 a.m.

2 But thank you very much for coming out
3 this morning and participating in this event,
4 it is so important. And if you will recall,
5 ten years ago we sat in this room, and I heard
6 resident after resident come up and testify
7 about at the time Hardee County was paired with
8 the coast, and Highlands County was paired more
9 with Polk County, and everyone here was not
10 happy with that, and at the time, the
11 Legislature listened. I was out in the
12 audience with you at the time, and the
13 Legislature listened and made those changes,
14 and I believe we will probably hear some of the
15 same today.

16 We have already a contiguous, compact
17 district here in both the House and the Senate,
18 and I would appreciate all of you who are here,
19 if you would please be so kind as to give your
20 remarks to the panel.

21 And with that, I would like to welcome all
22 of the members to Hardee County. On behalf of
23 Representative Albritton, who couldn't be here
24 today because his grandfather is ill, he would
25 like to extend his welcome to Hardee County,

1 and we are glad that you guys are here and I
2 hope you spend a little money while you are
3 here, there's a lot of good restaurants and a
4 lot of good shopping, so please feel free to
5 contribute to our economy, and thank you again.

6 SENATOR GAETZ: Thank you very much, Chair
7 Grimsley. We appreciate being in your
8 hometown.

9 Ladies and gentlemen, we are pleased to be
10 here this morning, and I appreciate the Hardee
11 County Board of County Commissioners for
12 allowing us to use this facility. We want to
13 thank those who were able to come here. We are
14 having meetings in the morning, late in the
15 morning, in the early afternoon, late in the
16 afternoon and in the evening, all over Florida.
17 It happened that we have an early morning
18 meeting here this morning, but we really
19 appreciate those brave souls who came out and
20 have chosen to give us their opinions to help
21 shape congressional, Senate and House districts
22 for the next decade.

23 My name is Don Gaetz, I am a State Senator
24 from the Panhandle, from the central time zone.
25 I represent a district that stretches between

1 Pensacola and Panama City, and I appreciate the
2 chance to learn about concerns and specifics
3 about this part of Florida, very detailed
4 information that we have been getting in other
5 hearings that there is no way that we could
6 have gotten in an echo chamber in Tallahassee.
7 And along with my colleague, Speaker Designate
8 of the House of Representatives, Will
9 Weatherford, who is to my right, I will be
10 chairing today's hearing, which is being
11 webcast statewide by The Florida Channel over
12 the Internet.

13 And what we would like to do now so that
14 you know who you are chatting with today, we
15 would like to invite the members of the panel,
16 if they would please introduce themselves and
17 indicate what part of the state they represent.

18 Representative Nehr, can we start with
19 you, please, sir?

20 REPRESENTATIVE NEHR: Good morning, my
21 name is Representative Peter Nehr, and I
22 represent District 48, which is in Pinellas
23 County on the west coast.

24 REPRESENTATIVE ROGERS: Good morning, I am
25 Hazelle Rogers, State Representative for

1 District 94, representing eight cities in a
2 county that boasts approximately 1.8 million
3 residents, and the most diverse county in all
4 of the state of Florida. Thank you.

5 REPRESENTATIVE CLARKE-REED: That is
6 Broward County.

7 Good morning. I am State Representative
8 Gwyndolen Clarke-Reed, representing House
9 District 92 in the northeast part of Broward
10 County, representing seven cities.

11 REPRESENTATIVE BERNARD: Good morning,
12 State Representative Mack Bernard, District 84,
13 West Palm Beach.

14 REPRESENTATIVE GOODSON: Good morning,
15 Representative Tom Goodson, House Seat 29,
16 Brevard County, Indian River County.

17 REPRESENTATIVE CALDWELL: Good morning,
18 Representative Matt Caldwell, District 73,
19 which is Lee County, Lehigh Acres and Ft.
20 Myers.

21 REPRESENTATIVE ROBERSON: Good morning,
22 State Representative Ken Roberson. I represent
23 parts of Charlotte, Sarasota and Lee Counties.

24 REPRESENTATIVE STARGEL: Good morning,
25 State Representative Kelli Stargel from Polk

1 County. I represent Lakeland, Kathleen, Polk
2 City, a little bit of Davenport.

3 REPRESENTATIVE HORNER: Mike Horner, House
4 District 79, representing Osceola, Okeechobee,
5 Orange and Polk.

6 REPRESENTATIVE PASSIDOMO: Kathleen
7 Passidomo, State Representative, District 76 in
8 Collier County. I represent the cities of
9 Naples, Marco Island, Everglades City.

10 REPRESENTATIVE CHESTNUT: Good morning,
11 Chuck Chestnut, House District 23, a portion of
12 Alachua County and a portion of Marion County.

13 REPRESENTATIVE EISNAUGLE: Good morning,
14 Eric Eisnaugle, represent House District 40 in
15 Orlando.

16 REPRESENTATIVE WORKMAN: How are you
17 doing, Ritch Workman from Brevard County,
18 District 30.

19 REPRESENTATIVE BRODEUR: Good morning,
20 Jason Brodeur, I represent parts of Volusia,
21 Orange and Seminole County, House District 33.

22 REPRESENTATIVE CRISAFULLI: Good morning,
23 Steve Crisafulli, House District 32, which is
24 east Orange and Brevard County.

25 REPRESENTATIVE PLAKON: Good morning,

1 Scott Plakon, House District 37, Orange and
2 Seminole Counties.

3 REPRESENTATIVE LEGG: Good morning, John
4 Legg, represent west Pasco.

5 REPRESENTATIVE JENNE: Representative Evan
6 Jenne from District 100 -- I'm sorry, ma'am, I
7 will speak louder. Representative Evan Jenne,
8 District 100, from southeast Broward County.

9 REPRESENTATIVE ROUSON: Good morning,
10 Darryl Rouson, I represent District 55, which
11 is south Pinellas, north Manatee, north
12 Sarasota and southern Hillsborough Counties,
13 and we didn't say it today, we gave our party
14 affiliations yesterday, I am a member of the
15 party of humankind.

16 REPRESENTATIVE DIAZ: I am Jose Diaz,
17 representing District 115 in Miami, Florida.

18 REPRESENTATIVE CAMPBELL: This is Daphne
19 Campbell, District 108, Miami, Florida.

20 REPRESENTATIVE REED: Good morning, I am
21 Betty Reed. I represent the eastern part of
22 Hillsborough County, which is in Tampa.

23 REPRESENTATIVE GRIMSLEY: And I am Denise
24 Grimsley, I represent District 77 in the House,
25 which is Highlands, Hendry, Glades and Collier

1 Counties.

2 SENATOR GAETZ: Thank you all. This looks
3 like, so far, the smallest hearing that we have
4 had. This is hearing, I think, number 11. We
5 are having 26 hearings around the state.
6 Sometimes the room is packed, and sometimes the
7 room is not packed. Today is a small hearing,
8 but we have committed ourselves to being
9 accessible throughout the state of Florida, so
10 we are going to small towns, we are going large
11 cities, we are going to urban areas, we are
12 going to suburban areas, we are going to areas
13 that sometimes don't get the opportunity to
14 have citizens share their views with
15 legislators at least in this large a group. So
16 notwithstanding the fact that we don't have a
17 huge crowd today, we still will value the input
18 that you have given us.

19 Our sole purpose today is to hear from the
20 public about how you believe the legal
21 standards governing redistricting should be
22 applied in your community. We are all aware
23 that Amendments 5 and 6 passed. The question
24 is, given some of the apparent areas that
25 require clarification and that require

1 conformance with other parts of the law, we are
2 very interested in knowing how you believe
3 these standards should be sorted out and
4 applied in your community so that you are
5 represented in Washington and in Tallahassee
6 fairly, equitably and sensibly.

7 And our procedures today are simple, but
8 they are very important. First, it is
9 important that you sign in. If you haven't
10 signed in, would you please raise your hand,
11 and one of our folks will get to you with a
12 card. That way, we can keep track of who is
13 here, and also it gives you an opportunity to
14 sign up for our e-mail list so that you can
15 keep track of the redistricting process as it
16 moves forward. And, also, the cards that you
17 would sign in with are cards that, if you wish,
18 you can fill out, same card, so that you would
19 have the opportunity to speak. So is there
20 anybody here who has not filled out one of
21 these cards, either just to participate by
22 observing or because you want to speak? Young
23 lady up in the front on the right. Anybody
24 else? Anybody else need to fill out one of
25 these cards?

1 We don't want to miss your testimony, so
2 if during the hearing this morning you become
3 inspired to speak, maybe somebody said
4 something that inspires you to share your views
5 or to explain some particular part of your
6 community that you think ought to be in this
7 congressional district or that Senate district,
8 or that the House district ought to be drawn in
9 a certain way in this community, if you are
10 inspired to speak, then -- hello? Would you
11 just raise your hand at that point, and we will
12 get you a card and we can add you to the
13 speaker list.

14 Before we begin, the Chair would like to
15 recognize the Speaker Designate of the Florida
16 House of Representatives, Representative Will
17 Weatherford, and Representative Weatherford
18 will explain how today's hearing fits into our
19 schedule and into the legal processes that we
20 are obliged to follow. Mr. Speaker.

21 REPRESENTATIVE WEATHERFORD: Thank you
22 very much, Mr. Chairman. Ladies and gentlemen,
23 it is a pleasure to be here today. Again, my
24 name is Will Weatherford, and the district I
25 represent is District 61, which is

1 predominantly Pasco County, but also has
2 Hillsborough County in it, and I have the
3 pleasure to co-Chair this joint committee with
4 our chairman here, Mr. Gaetz. Thank you for
5 being here.

6 I wanted to, if I could just for a few
7 minutes, walk everybody through what we are
8 here to do today, and Mr. Chairman, if I may,
9 give every one a perspective as to why we are
10 here today. I think that is -- it is very
11 important to kind of step back for just a
12 moment. So if you will give me a few minutes,
13 I will walk through it with you.

14 The first is every ten years, the
15 Legislature is forced -- I say forced --
16 required to come by our Constitution and
17 redistrict the state based on increases and
18 decreases in movements that are in population.
19 Because Florida has grown dramatically over the
20 last ten years, we are adding two new
21 congressional seats, going from 25
22 congressional seats to 27.

23 When redistricting is completed,
24 congressional districts must equal in
25 population and contain 696,345 people. The 40

1 Senate districts must also be nearly equal at
2 470,000 per district, and then the 120 House
3 districts, they must be also nearly equal at
4 156,700 people.

5 As you know, we have displays at the back
6 of the room showing the current boundaries of
7 the districts in the area and the number of
8 persons which must be added or subtracted from
9 the current districts to achieve that equal
10 representation. You can see that in the back
11 of the room.

12 Equality of representation is not the only
13 legal requirement take we must follow in order
14 to make legal plans. The laws are important,
15 and the court cases that governing
16 redistricting are explained in detail in the
17 House and Senate websites. Those websites are
18 listed on the 2012 brochure, redistricting
19 brochure, that was available to you when you
20 came in. Our "Redistricting 2012" brochure
21 summarizes both federal and state laws, and it
22 outlines the topics that we hope you will be
23 discussing today at today's hearing.

24 Speaking of federal law, by the way, I do
25 think it is very important to point out this

1 morning, Mr. Chairman, that this is the first
2 meeting of five where we will be in a county
3 covered by the Section 5 of the Voting Rights
4 Act, those counties being Hardee, Hendry,
5 Collier, Hillsborough and Monroe.

6 Ladies and gentlemen, if you did not get a
7 copy of the brochure I was talking about a
8 minute ago when you came in, they are available
9 on the tables outside the meeting, and our
10 staff would be more than willing to bring you a
11 copy of that if you will just raise your hand.

12 The brochure also lists the House and
13 Senate websites. The websites are packed with
14 information about redistricting in Florida,
15 including explanations of laws and important
16 court cases governing redistricting. The two
17 websites are complementary and are updated
18 frequently. You can visit them both often, and
19 you can check back as we are adding new and
20 more relevant information of both the
21 congressional, Senate and House Districts as
22 they -- and you can watch them take shape.

23 The websites also deliver to your
24 fingertips all of the demographic information
25 that will be used in drawing districts and the

1 exact same computer programming that
2 legislators and professional staff will utilize
3 to actually draw the maps. Any member of the
4 public may participate in building plans or
5 seeing maps submitted by legislators or other
6 citizens.

7 Before, during and after this hearing,
8 Senate and House professional staff are
9 available to you or anyone to allow them to
10 show you how to utilize the simple steps of
11 going on-line, building districts and
12 submitting a plan in the weeks to come.

13 Recommendations from citizens and groups
14 of citizens will be made public -- will be
15 immediately made public. In fact, 14 public
16 submissions of partial or complete maps, and
17 about 70 written ideas for maps are available
18 on the Web today. The submission of proposed
19 maps that makes sense for your community is the
20 single most important way that you can have
21 public participation in the redistricting
22 process.

23 The redistricting schedule under which we
24 are operating is also imposed by the State
25 Constitution. The Constitution does not allow

1 us to act on state legislative maps before the
2 second year after the census. Ladies and
3 gentlemen, in other words, that means in 2012.
4 We have accelerated that process as much as we
5 possibly can by moving the 2012 session from
6 what normally starts in March up until January
7 so that we can do this as quickly as possible.

8 It has been suggested that the Legislature
9 should draw the maps first and then ask for
10 public comment. Ladies and gentlemen, we
11 believe that that puts the answer ahead of the
12 question. There should be no preconceptions
13 created by politicians or staff, but, rather,
14 public testimony should be free and
15 unrestricted. In fact, the principal author of
16 Florida's new redistricting standards and the
17 Chairperson for Fair Districts campaign are
18 both on record in agreement that the notion
19 that new maps should not be drawn before
20 getting hearings and hearing directly from the
21 public.

22 Our intent is to use the recommendations
23 made at these 26 public hearings and through
24 our Internet sites as the basis for developing
25 one or more options for district maps. We will

1 discuss those options in public meetings before
2 any single vote is taken, even in committee.
3 In other words, what we are literally saying is
4 if you look at those maps in the back of the
5 room, and they are all back there, the ones
6 that have actually been submitted to us
7 already, those are the maps that are starting
8 this process. Those are the maps and the
9 suggestions that are helping us start the
10 deliberations about what the state of Florida
11 should look like. And it is with those public
12 submissions and testimony from these meetings
13 and other public input that is throughout this
14 process that will help us and guide us to our
15 final destination.

16 So throughout this process, we hope that
17 you will continue to give us public comment, we
18 hope that you will continue to be involved and
19 we are very grateful that you are here today.

20 Mr. Chairman, I hope that this description
21 brings a little bit more clarity on the
22 schedule and the process here today, and we
23 look forward to a successful hearing. Thank
24 you.

25 SENATOR GAETZ: Thank you very much,

1 Representative Weatherford.

2 Our purpose today is now to hear from you
3 between now and the scheduled time that our
4 hearing would end, which is, I believe eleven
5 o'clock, and we will take public testimony as
6 long as there is anyone who wishes to share
7 public testimony with us.

8 If there is time remaining, and it looks
9 like there will be this morning, we will do
10 what we do at every hearing, and that is we
11 will ask any member of this panel, Democrat or
12 Republican, House member or Senator, to comment
13 on any of the issues that they wish to comment
14 on that were raised during the hearing, to
15 answer any questions that might have been
16 posed, and then after that is concluded, then I
17 will ask Speaker Designate Weatherford to go
18 back through any questions that arose, any
19 factual issues that came up, so that we can
20 make sure we have given you the best and most
21 up-to-date information as we conclude the
22 hearing.

23 We have a number of folks have already
24 signed up, and what I would like to do, if it
25 is -- unless there is objection, is I would

1 like to call people in twos; in other words,
2 Maureen McKenna is our first speaker this
3 morning, but Rick Haberman with the Highlands
4 County Democratic Party is our second speaker,
5 so, Mr. Haberman, if you will be on deck and be
6 ready, we will start with Ms. McKenna.

7 And, Ms. McKenna, you are recognized. We
8 would love to hear your testimony this morning.
9 Thank you for taking the time to come.

10 DR. MCKENNA: Thank you very much. Is the
11 microphone working?

12 SENATOR GAETZ: It is, indeed. Everybody
13 can hear you.

14 DR. MCKENNA: Thank you. Okay, thank you.

15 I am Dr. Maureen McKenna, and I am
16 President of the Democratic Women's Club of
17 Highlands County, and we have nine people here
18 today from Highlands County and Denise
19 Grimsley. So it's nice to see a familiar face
20 in the center.

21 I am here today to read a five-stanza
22 poem: On November 2nd, 2010, we took a big
23 vote to end all the sin. So gerrymander you
24 may do no more, though it will frighten you to
25 your very core. The voters have spoken, on

1 this they were clear. Now you do what is fair,
2 or your reputation you smear. You went to
3 Tally with a strong direction, to draw the maps
4 without thought to your next election. But
5 instead of complying, you wait and wait to
6 further delay the inevitable date, to draw the
7 maps, the missing maps, which might well exist,
8 but are kept under wraps. So on this merry
9 quest we go from hearing to hearing in hopes
10 they will show, but, alas, there are no maps to
11 see, so I guess the joke is on the voters like
12 me. But maybe I am wrong, so I will give one
13 last shout to find the darn maps and remove all
14 the doubt that these hearings are phony and for
15 show dog and pony. By denying our viewing of
16 maps you create, you disc Florida voters whose
17 anger won't abate. So where are the maps, both
18 compact and fair? I cannot find them here or
19 there. I cannot find them near or far, I
20 cannot find them in the car. I cannot find
21 them at the beach, I cannot find them, so to
22 you I beseech, where are the maps?"

23 Thank you.

24 SENATOR GAETZ: Henry Wadsworth

25 Longfellow, eat your heart out.

1 And now we will hear from Rick Haberman
2 with the -- also with the Highlands County
3 Democratic Party. And after Mr. Haberman, if
4 Joe Campbell, who is the Highlands County
5 Supervisor of Elections, Mr. Campbell, we thank
6 you for being here, and please be on deck, if
7 you can.

8 Mr. Haberman, thank you for coming this
9 morning. Do you have a poem?

10 MR. HABERMAN: I don't have a poem.

11 SENATOR GAETZ: Then please sit down. No.
12 We are delighted to here from you.

13 MR. HABERMAN: My only question for the
14 panel is, Amendments 5 and 6 were passed by an
15 overwhelming majority of people of the state of
16 Florida, we want to know why this Legislature
17 is fighting the amendments, why so much money
18 has been spent on lawsuits against it and is
19 going to be spent fighting it. The people want
20 it, and why don't you?

21 SENATOR GAETZ: Thank you very much, and
22 we will make a list of those questions, and
23 after the public has had a chance to speak,
24 then we will try to get back to any points that
25 anyone has made.

1 Mr. Campbell, are you here, sir? Thank
2 you for your service to the people of this
3 county, and we are delighted to see you here
4 this morning, you are recognized.

5 MR. CAMPBELL: Thank you. Can you hear
6 me?

7 SENATOR GAETZ: Yes, sir. And behind
8 Mr. Campbell, and I apologize if I mispronounce
9 this name, John Drezinski. John Drezinski
10 after Mr. Campbell.

11 Mr. Campbell, you are recognized.

12 MR. CAMPBELL: Thank you. Joe Campbell,
13 Supervisor of Elections of Highlands County,
14 and what I am going to say -- first I want to
15 say I appreciate what y'all are doing to
16 letting us come and speak to you about
17 redistricting. I have been through two
18 redistricting cycles before in the election
19 office, and I can tell you horror stories, but
20 we don't want to go there. We want to go with
21 the current and future.

22 And I want to tell you first off, John
23 Guthrie needs a raise. He is doing a great
24 job. We've worked with him for years and
25 years. John is doing a great job.

1 But we want to talk to you -- and I am
2 sure what I am going to say you have heard from
3 other supervisors throughout the state in
4 previous meetings and you are going to hear it
5 again. I want to talk to you about time and I
6 want to talk to you about Voting Tabulation
7 Districts.

8 Time-wise, from what we have been told, if
9 everybody, all the powers that be that actually
10 decide on the finalization of these lines, if
11 they simply meet their deadline, then we as
12 Supervisor of Elections are only going to have
13 two weeks to get those first ballots in the
14 mail to the overseas voters. Two weeks in
15 country terms ain't a lot of time. We are
16 going to -- you know, we've got to design the
17 ballot, get the ballot to the printer, get it
18 back, make sure that everybody is in the right
19 precincts, adjust our lines to go along with
20 the new legislative lines, so it is a lot to
21 do, and I know that you know that we've got a
22 big job.

23 So what we are asking is simply this:
24 Whenever you can, please speed the process up.
25 Whenever you can, please speed the process up.

1 That is all we want.

2 Plus, I want to talk about just the Voting
3 Tabulation Districts. I think that is a great
4 idea. Did you come up with that, John? Census
5 Bureau came up with it, okay, I wanted to give
6 you the credit for it. But Voting Tabulation
7 Districts, for those -- I am sure y'all know
8 what they are, the public probably don't know,
9 but those lines that we have drawn as local
10 administrators, we know where the growth is
11 going to be probably in our county in the
12 future, we know what is there now, we know
13 where -- if you are going to split us, and I
14 would like to say please keep Highlands County
15 in one congressional, one State Senate, one
16 State House, that would be great, I would love
17 y'all for that, but if you are going to split
18 me, please go along the Voting Tabulation
19 District lines.

20 And that is all we as supervisors
21 throughout the state are wanting is just to
22 remember the timelines, push the process up
23 whenever you can, give us preliminary lines,
24 anything we can work with ahead of the game and
25 go along the Voting Tabulation District lines.

1 No questions? That's all I got to say.

2 Thank you.

3 SENATOR GAETZ: Thank you very much,
4 Mr. Campbell, and let me just say that we have
5 heard this message from supervisors, and John
6 Guthrie is working with, as you probably know,
7 the state Supervisors of Elections
8 organization, and there is no intent to have
9 everybody, including the courts, play it out to
10 the last day. I think Representative
11 Weatherford or others may speak to that at the
12 end, but it is not as bad as some people may
13 have led you to believe.

14 And now we will hear from John Drezinski,
15 and I apologize if I mispronounce that name,
16 and following John, Jerry Kingsbury, if you
17 will be on deck.

18 Mr. Drezinski, how badly did I mess up
19 your name?

20 MR. DREZINSKI: Senator, you could have
21 from Warsaw, Poland. You hit it right on the
22 button.

23 SENATOR GAETZ: All right.

24 MR. DREZINSKI: First of all, I would like
25 to thank Joe Campbell. In my opinion, he is

1 probably the hardest-working Supervisor of
2 Elections I have ever come across. And he
3 stole my thunder. I agree with what he said.
4 Keep it, you know, the way it is, one, one,
5 one, you know. I see nothing wrong with our
6 districts, you know. It should just stay the
7 way it is, and that is from a Republican, and I
8 believe Highlands County is weighted slightly
9 in favor of the Democrats, but, you know, I
10 still say keep it the way we are.

11 SENATOR GAETZ: Thank you very much, sir.
12 And next, Jerry Kingsbury, and following
13 Mr. Kingsbury, Robert Gillmore, please.

14 Mr. Kingsbury, we are delighted you are
15 here, and thanks for taking time. You are
16 recognized.

17 MR. KINGSBURY: You're welcome, and I
18 thank you for having this meeting and inviting
19 the population to come in and offer our
20 opinions.

21 I am from Lake Placid in Highlands County,
22 and I would like to just add my support to
23 maintaining our current District 77 as it is.
24 It is my opinion that the current boundaries
25 serve the needs of our local population quite

1 well. Thank you.

2 SENATOR GAETZ: Thank you very much, sir.

3 Robert Gillmore is our next speaker, and

4 following Mr. Gillmore, Charles Grimsley.

5 Mr. Gillmore, thank you for coming, and

6 you are recognized.

7 MR. GILLMORE: Good morning, ladies and

8 gentlemen. Thank you for letting me speak

9 today.

10 I have lived in Avon Park now for 11

11 years, and I believe the current district we

12 have has suited our needs very well and should

13 be maintained as is. Thank you.

14 SENATOR GAETZ: Thank you very much. Not

15 only is this a small hearing, but we've got

16 people who are succinct and get right to the

17 point. I appreciate that.

18 Next -- so we heard -- that was

19 Mr. Gillmore. You are Mr. Gillmore.

20 MR. GRIMSLEY: Grimsley.

21 SENATOR GAETZ: Mr. Grimsley. Now, the

22 first thing I have to ask, Mr. Grimsley, is

23 there any connection between you and

24 Representative Grimsley? Because we heard that

25 there was a Grimsley who wanted to make sure

1 that he came here and, you know, might say
2 something that his daughter might agree with or
3 disagree with, but is that you, sir?

4 MR. GRIMSLEY: Yes, sir.

5 SENATOR GAETZ: It is?

6 MR. GRIMSLEY: That is me, yes.

7 SENATOR GAETZ: Well, I may have to let
8 your daughter speak after you.

9 MR. GRIMSLEY: Well, that is okay, too.

10 SENATOR GAETZ: Mr. Grimsley, it is great
11 to have you here, and I know you've got to be
12 very, very proud of Denise. She does a great
13 job in Tallahassee.

14 MR. GRIMSLEY: I am very proud of her,
15 and, no, we don't always agree, but we agree to
16 disagree sometimes. But she is my daughter,
17 and I am very proud of what she is doing.

18 Ladies and gentlemen, let me say to you
19 this morning that I am a life-long resident in
20 Hardee County, and this is the most
21 representation from Tallahassee that we have
22 ever had in Hardee County, I do believe, and we
23 welcome you to here this morning. This is a
24 promised land. This is the nearest thing you
25 will ever get to the promised land. So you are

1 welcome to come back and move here if you want
2 to and help us with our endeavors here.

3 But what I would like to say this morning,
4 though, Chairman, is in the years past, Hardee
5 County has been connected with coastal
6 counties, and our representation has not been
7 the best in the world. What I would like to
8 urge this committee to consider doing today in
9 your redistricting is to leave us with the
10 inland counties such as Polk, Highlands,
11 DeSoto, Glades, Hendry, those counties. Most
12 of those counties are agriculture based. And
13 our concerns doesn't always go with what the
14 coastal counties' concerns are.

15 And when it comes down to voting, when we
16 was with Manatee County, if our whole county
17 had voted for one person, we would have not had
18 any -- we would have not affected that election
19 whatsoever. In other words, we do not have the
20 population to vote head-to-head with any
21 coastal county. Their concerns is not our
22 concerns. And I would just like to urge this
23 morning that in your process, that you consider
24 keeping our counties with the agriculture
25 counties in the heartland, in the interior part

1 of the state.

2 And I will agree with the gentleman that
3 spoke earlier, if we can keep it by boundary
4 lines, by county boundary lines, it would be a
5 whole lot better than having two
6 Representatives for one small county. You
7 just -- you don't get much bang for your buck
8 that way.

9 So in your consideration, that is my
10 request this morning, that you keep us with the
11 agriculture based counties on the interior part
12 of the state. Thank you.

13 SENATOR GAETZ: Thank you very much,
14 Mr. Grimsley.

15 Our next speaker is Russell Graylin Smith,
16 who is a Wauchula City Commissioner. He is the
17 last person who has signed up to speak this
18 morning, so if there's anyone else who would
19 like to speak who may have been inspired by
20 what someone said or made a decision late that
21 you would like to share your views with the
22 House and Senate committees, please raise your
23 hand, and we will get you one of these speaker
24 sheets and you will have a chance to speak.

25 Mr. Smith, Commissioner Smith, thank you

1 very much for the warm hospitality that your
2 community has showed to the House and Senate
3 members, and thank you for your service to this
4 community, sir.

5 COMMISSIONER SMITH: Well, it is certainly
6 a pleasure to have all these people down here.
7 Mr. Charles Grimsley beat us to the punch, but
8 I would like to reiterate what he just said.

9 For a long, Hardee County has been
10 under-represented because we have been paired
11 with Sarasota and Manatee Counties in the
12 congressional districts, and oftentimes even in
13 the State House we were at one time paired with
14 those two counties.

15 Polk County, there's two sides to it, and,
16 of course, we are happy to have Mr. Ben
17 Albritton as our Representative, and he
18 represents south Polk County, which is far
19 different than the northern half of Polk
20 County. But Hardee, Highlands, DeSoto, are
21 similar in population, similar in economy,
22 similar in many other ways, and if you could
23 take that into consideration when drawing your
24 new district lines on all districts, we would
25 greatly appreciate it. Thank your, sir.

1 SENATOR GAETZ: Thank you very much. Let
2 me make another call for anybody who would like
3 to share their views who did not sign up to
4 speak yet. That young lady right over there,
5 would you please come forward, ma'am, and we
6 will get a slip from you so that we know who
7 you are? And was there somebody over here as
8 well?

9 Ma'am, if you would state your name, we
10 are delighted to have you here this morning and
11 look forward to your testimony.

12 MS. MILLION: Thank you. I hope you will
13 when I get through.

14 SENATOR GAETZ: Now, do you have a poem,
15 because you came from the poetry corner over
16 there?

17 MS. MILLION: That is right. I am Elli
18 Million, and I am Second Vice-President of the
19 Democratic Women's Club. And you notice the
20 word, "women's club."

21 Now, as we are dealing with our census, we
22 -- in our records right here this morning,
23 there's not ever a mention about consideration
24 of women in redistricting. Now, I know when we
25 work with Joe Campbell, he gives us figures

1 about the women and the breakdown in Highlands
2 County, but I just am posing the question, why
3 is that never considered in your redistricting?
4 Perhaps it is because Florida has not passed
5 the Equal Rights Amendment. Maybe we are
6 somehow or other -- you know, we don't have the
7 force that we are supposed to have with the
8 redistricting now and the Legislature. And I
9 feel that somehow or other that fact has been
10 left out in your figures. I am not certain how
11 it would affect redistricting, but in my mind,
12 it does. And I would hope that the Legislature
13 or someone who is in charge of reporting
14 statistics would consider the fact that we
15 should have a breakdown of women, especially
16 since we feel this year that we really had many
17 strikes against us through the Legislature. So
18 I bring that to your consideration, and thank
19 you.

20 SENATOR GAETZ: Thank you very much,
21 ma'am. And John Guthrie is the gentleman over
22 there, and Mr. Guthrie, can -- if you have a
23 couple of minutes, he can show you how we do
24 have data from the Census Bureau by gender, so
25 that that data is available for you to look at,

1 and it is certainly available for us to use,
2 but John can show you how to get to that data.
3 But it is available.

4 Sue Birge is a member of the county
5 commission in our county here, and we welcome
6 you, we thank you for your service and
7 appreciate your testimony.

8 COMMISSIONER BIRGE: Thank you. I
9 don't --

10 SENATOR GAETZ: Excuse me, Commissioner.
11 I believe there was a gentleman sitting right
12 behind Senator Neal, and he would like to
13 speak. Is that right, sir? Okay, you are
14 next.

15 COMMISSIONER BIRGE: Thank you, Chairman.
16 I didn't have anything to add to your agenda
17 necessarily, but I just wanted to thank you for
18 coming to Hardee County. I haven't seen this
19 many Representatives since I was in
20 Tallahassee, and thank you for coming to our
21 county. It is a small county, but like
22 Mr. Grimsley, it is God's country here. So
23 thank you for coming.

24 I realize this is a small representation
25 of us, and maybe the people do not necessarily

1 understand what is going on here, but I do want
2 to thank you for coming, and we do want to be
3 -- we do want to participate, we want to be
4 involved in what is going on and wish you the
5 best in redistricting.

6 I agree, I think it is fine just like it
7 is. If we can help you in any way, let us
8 know. Thank you.

9 SENATOR GAETZ: Thank you very much,
10 Commissioner. And, sir, if you would come
11 forward and identify yourself, we would be
12 delighted to here from you, and we thank you
13 for taking time to come today.

14 MR. PETRO: My name is Thomas Petro, I am
15 a private citizen here in Hardee County. My
16 wife and family farm citrus and cattle.

17 My question is, reading the information
18 here that it's -- the redistricting is based on
19 the latest census and the population, here in
20 Hardee County, I am sure as far as Polk and
21 Hendry and some of the other counties that are
22 involved in agriculture, we have a shifting
23 population. Every couple of months, as migrant
24 farm labor comes in and works, and then they
25 leave, and they come in and then they leave.

1 And that shift in population can number a
2 couple of thousands to a couple of hundreds.
3 Sometimes they become a majority in the county,
4 and then they come back to being a minority.
5 And at the time of the census, they could have
6 been a majority of the population here in
7 Hardee County or Collier or Glades as they come
8 in for the farming season and then they leave
9 for the season.

10 Does the legislation going to account for
11 that, that the inner counties, the central
12 counties of Hardee, Polk, Glades, Manatee, have
13 this shifting population of minorities, they
14 come and they go, when they determine the
15 redistricting?

16 SENATOR GAETZ: Representative Weatherford
17 will remark to that. We get that question more
18 often than you might think, and we do have an
19 answer for that, sir.

20 MR. PETRO: Thank you very much.

21 SENATOR GAETZ: Thank you for your
22 testimony.

23 Anybody else? Any shy souls would like to
24 come forward? Well, if not, then we have
25 reached the point in the hearing where,

1 Chairman Weatherford, with your permission, I
2 would like to turn to any House members who
3 would like to offer any comments, any
4 specifics, any proposals that they might wish
5 to make. Any members of the House wish to
6 speak? Yes, sir, Mr. Speaker, Speaker Baxley.
7 We call him Speaker because he was Speaker Pro
8 Tem team of the Florida House in a previous
9 life, and he has come back again and now he is
10 a Representative, but I still call him Speaker.

11 REPRESENTATIVE BAXLEY: Thank you,
12 Chairman, and I appreciate your leadership
13 again on this good day. Both of our Chairmen
14 have been incredibly gracious.

15 First of all, I just wanted to introduce
16 myself since I got in the building a little
17 late. Dennis Baxley, I am from Ocala, Marion
18 County, Florida House District 24. But I
19 wanted to connect with you that I have some
20 previous history. I lived here as a young
21 child. My father was pastor of one of the
22 community churches out here nearby, and
23 Representative Grimsley's parents were -- when
24 they were married, my father officiated that
25 ceremony. So it's been a great experience to

1 come back and reconnect and see the progress,
2 the activities that have gone on here.

3 I, too, live in an area that is more
4 rural. Ocala, Marion County, has that mix of
5 change, and I understand the dimension of
6 dealing with those different issues.

7 I wanted to thank you for the time that
8 you have spent in preparing for this meeting
9 and coming and contribute. We always hear some
10 things that we have heard a lot of other
11 places, but we also hear something unique every
12 place that we go. And so I wanted to just
13 express my appreciation to the community and to
14 the leadership for bringing me back to these
15 fond memories. Thank you.

16 SENATOR GAETZ: Representative Horner.

17 REPRESENTATIVE HORNER: Thank you very
18 much. I just wanted to comment, I really
19 appreciated the nice lady's poem, and I would
20 encourage everyone in the audience, the best
21 way to communicate with us is to submit maps.
22 If you haven't gone on the website yet and seen
23 the software they have put together, it is very
24 easy to use. Get on mydistrictbuilder.com and
25 put together maps.

1 What we are going to start with when we
2 begin the process is the maps that the public
3 submits. So when you ask, "Where are the
4 maps," they are basically in your hands. What
5 you create is what the Legislature is going to
6 start with. So I would really encourage you
7 after coming today, if you have caught the bug
8 at all, to go back home, spend a little time,
9 create some maps, and I can assure you that
10 will be where we start and that will certainly
11 be where I start in the process. Thank you.

12 SENATOR GAETZ: Any other members, any
13 other House members? Any Senators, anybody who
14 would like from the panel to offer any
15 comments? I'm sorry? We have another speaker.
16 The last shall be first, and the first shall be
17 last.

18 Casey Welch is with Florida Citrus Mutual,
19 and thanks, Casey, for bringing up the rear.
20 We're anxious to --

21 MR. WELCH: Thanks. I apologize for being
22 late. I'm coming down from Lakeland. I should
23 have caravaned with y'all.

24 I just want to say good morning, welcome
25 to Hardee County, the home of former Governor

1 Doyle Carlton. I just want to say thank you
2 very much for doing this road show.

3 I hope that you have seen, starting out in
4 the Panhandle and Pensacola and as you make
5 your way through the heartland here and been
6 through the coast and the population centers
7 and as you go down through south Florida and
8 hopefully, I guess, you're going to end up in
9 the Keys, right, you will see the different
10 communities of interest through this state.
11 And I think this morning as you saw driving
12 south through 17, I hope you saw that once you
13 left Lakeland and the Highland City area and
14 moved your way south through 17, that basically
15 from Bartow on through, and if you continue
16 from Wauchula here on down through Arcadia and
17 make your way on -- all to Punta Gorda, the
18 agricultural community of interest was the
19 same. You saw cattle, citrus and phosphate
20 mining. And those are the three main interests
21 of this area, and Wauchula is the center of all
22 of that. So if you step back from a map and
23 just look, as you drive down 17, all of those
24 communities of interest basically -- I will
25 just go through the city names, Bartow,

1 Wauchula, Arcadia and all the surrounding
2 areas, so eastern Hillsborough, eastern
3 Manatee, extreme eastern Sarasota and some
4 portion of the Charlotte County area before you
5 get into that metropolitan area, and the
6 surrounding counties, that is an agricultural
7 community of interest. And representing Citrus
8 Mutual here today, we just want to make sure
9 that the committee understands that it is
10 vitally important to our industry that we have
11 representation to recognize that, that while we
12 understand in the past it has been important to
13 be tied to the coast in regards to having some
14 political say, but we also want to make sure
15 that that is not diluted from having a say as
16 being a part of an agricultural community that
17 is central Florida. So that is just one thing
18 that I wanted to iterate for you this morning.

19 And, again, thank you for coming all the
20 way down to Wauchula and taking the time to go
21 all across the state and see first-hand these
22 communities of interest, because I think
23 getting away from the maps and getting away
24 from the -- looking on the -- on the computer
25 screens, and actually seeing these places

1 first-hand, you really get a feel of all these
2 communities, and I just want to thank you very
3 much. Thank you, Mr. Chairman.

4 SENATOR GAETZ: Thank you very much,
5 Mr. Welch, and we would hope that you would
6 have a look at some of the -- some or all of
7 the 15 maps that have already been submitted to
8 see if any of them meet the requirements that
9 you described, and then get your input
10 specifically related to the maps that are
11 available to look at.

12 Are there any other -- John has another
13 taker. Somebody else from the poetry corner.
14 Would you like to come forward, ma'am? We
15 would love to hear from you. And if you will
16 fill out a card, that way we can have your
17 name.

18 MS. OLDHAM: I have already filled out a
19 card. He is looking for it.

20 SENATOR GAETZ: Okay.

21 MS. OLDHAM: I am Alice Oldham from
22 Highlands County. I just wanted to beseech the
23 last speaker and for all you to realize that
24 Highlands County is also in this agricultural,
25 and we do not want to be disassociated from

1 Hardee and the other coun- -- we still have
2 more cattle in Highlands County than we have
3 people. So we are definitely agriculture. We
4 have a growing blueberry crop in our county
5 too, so were are very definitely agriculture.

6 But if I may add one more comment to the
7 census. Are you -- Representative Weatherford,
8 are you going to respond to that census
9 question? Okay, because I was privileged to
10 work on both parts of the census, and it is
11 very easily answered. If you are going to be
12 answering that, I won't bother.

13 SENATOR GAETZ: Well, ma'am, if you have a
14 comment that you would like to make --

15 MS. OLDHAM: Okay. Well, I was just going
16 to say that since 1780, by the Constitution,
17 the census is run according to the April 1st
18 population only. That is the only population
19 we could deal with, so what is in place on that
20 date is what sets the census and the
21 redistricting.

22 SENATOR GAETZ: Yes, ma'am. Thank you
23 very much for that information and your
24 testimony.

25 During the hearing, Representative Ronda

1 -- or Senator Ronda Storms came in in the back,
2 and, Senator, I don't know if you wanted to say
3 anything, but if -- she is the young lady in
4 the blue in the back, and Senator Storms is a
5 member of this committee, came in during the
6 hearing, but she did have a chance to hear many
7 of your testimonies.

8 Anything else that anybody would like to
9 share with us, members of the committee? Then
10 I will turn to our Speaker Designate, Will
11 Weatherford, and ask him to respond to any of
12 the factual issues that came up so that we can
13 all leave here with the same set of facts.
14 Mr. Speaker.

15 REPRESENTATIVE WEATHERFORD: Thank you
16 very much, Mr. Chairman. I want to thank again
17 the members of the public who took the time,
18 not just to be here, but also to offer up your
19 suggestions. I can assure you they are being
20 heard and they will be utilized as we go
21 forward and actually draw maps.

22 I think every member of this committee
23 would share my sentiments that I learned a lot
24 about this part of the world. I don't make it
25 down 17 all too often. I do know several of

1 the Representatives who represent this part of
2 the world. It is a beautiful, beautiful part
3 of Florida.

4 But some of the things I heard about, you
5 know, preserving the core of the existing
6 districts and keeping those certain agriculture
7 communities together and making sure those
8 communities of interest were protected, and,
9 frankly, hearing from you about the difference
10 in the coastal counties versus your counties,
11 the differences in the communities of interest,
12 those are the types of suggestions that really
13 give us guidance and help us make decisions as
14 we are going forward in this process. I just
15 want to thank you for making sure we understood
16 that, and I think everybody here gets that.

17 Ms. Alice, you -- Ms. Oldham, you stole my
18 thunder. You were absolutely correct in regard
19 to the census. We are not able to look at
20 trends. Sir, you talked about the census.
21 Basically, we are not able to -- we take a
22 snapshot, and it is not perfect. Of course,
23 the census is done only once every ten years.
24 It is not a perfect process, but the way that
25 they've found to do it is to take one snapshot

1 of one day, and wherever people are, no matter
2 what part of the trend you are in, whether it
3 is people coming in or leaving, those are the
4 numbers we have to utilize, and so it is not
5 perfect, but when you are counting 380 million
6 people, it is probably the best we can do right
7 now with the technology we have.

8 I just wanted to touch on a couple of
9 other things. Mr. Campbell, our Supervisor of
10 Elections, thank you for being here, sir. We
11 are very sensitive, and I said this yesterday
12 to Ms. Lori Edwards who spoke in Polk County,
13 your colleague there, we are very sensitive to
14 the timeline and we recognize the fact that it
15 is tight.

16 One thing that I would point out to you is
17 a lot of the dates that are being talked about,
18 particularly on websites and -- those are the
19 deadlines, they are not necessarily the target
20 date we are looking for. So our goal is to go
21 through this process, get a lot of public
22 testimony, work it through committee, have a
23 tremendous amount of input, and then have maps
24 that are drafted and signed and sealed and
25 passed with plenty of time to get through

1 qualifying. And so that is our goal, but,
2 again, there are deadlines that exist, and we
3 recognize the timeline is tight, and we are
4 going to be very careful as we go forward to
5 make sure that we do that right.

6 Also, your information on VTDs, the Voting
7 Tabulation Districts, we are very sensitive to
8 that as well. A lot of hard work went into
9 that to make sure that we factor that into the
10 census. We are sensitive to it. We will make
11 sure that we utilize that to the greatest
12 extent that we can.

13 There were some comments that were brought
14 up, and we hear this everywhere we go, about
15 both the timeline and the maps. There are some
16 folks -- there's kind of a chicken and the egg
17 debate taking place about the maps. Is it the
18 Legislature's responsibility to produce maps
19 first and tell you "Here's what we got," or is
20 it our responsibility to come to you and ask
21 for your guidance and your counsel and then go
22 and draw maps based on that? And I think that
23 this committee and the Legislature has made the
24 decision that, for once, the Legislature is
25 going to aim first and listen and hear from the

1 public first before we fire, and we want to
2 hear from you, and there's a couple of reasons
3 for that. But one of the biggest reasons is,
4 if you go back to 2009, the principal author of
5 Amendments 5 and 6, a gentleman by the name of
6 John Mills, former Speaker of the House,
7 specifically said, and I am going to read his
8 words, but he wrote that "The intent of the new
9 redistricting standards is for the public to
10 have the opportunity to comment before and
11 after the Legislature draws the maps." And in
12 2010, the Chairperson of
13 Floridafairdistricts.org, Ellen Freidin, told a
14 joint committee, this body, that it would be
15 impossible to draw compliant or appropriate
16 maps until after the Legislature had first
17 heard from the public. And so, ladies and
18 gentlemen, what we would tell you is that for
19 those who are still having the chicken and the
20 egg debate, to us it is very clear. Not only
21 do we feel like it is important to hear from
22 the public first before we draw maps, but the
23 drafters of Amendments 5 and 6, which passed
24 with 63 percent of the vote, also stated that.

25 And in regard to Amendments 5 and 6, I

1 want to also be clear that the Legislature has
2 every intention of upholding the Constitution,
3 both the Federal Constitution and the Voting
4 Rights Act, the State Constitution and the new
5 standards that were put on in Amendments 5 and
6 6, and all the laws and case law that exists.
7 There is a lot of it, but my co-Chairman and I
8 are committed to making sure that we follow the
9 law.

10 This is one of the most, if not the most
11 transparent redistricting process in the
12 country. We are proud of that. There are
13 other states, like Illinois and others, who
14 have already passed their maps and they are
15 already done, and they did it with almost
16 relatively no public input at all, and we just
17 don't think that is right.

18 So we appreciate your time today. We
19 appreciate your patience. We appreciate your
20 input. I look forward to working with you in
21 the future and the members of this committee.
22 And, Mr. Chairman, I hope that we were able to
23 clear up a few things, and we just encourage
24 you to work with us going forward to help us
25 make the product on the back end, which is the

1 actual maps that come out that we vote on, the
2 best that they can possibly be. Thank you very
3 much.

4 SENATOR GAETZ: Thank you, Mr. Speaker.

5 This may have been for some of you your
6 first opportunity to have input into this
7 process, but it won't be your last. As the
8 Speaker indicated, we will continue to take
9 public input over the next few weeks. That
10 doesn't mean that members of this committee
11 aren't thinking about, "Well, gee, based on
12 what I heard in Hardee County, I wonder, maybe
13 this approach or that approach might be best as
14 we draw maps." I think there are people who
15 are on the committee who are learning a great
16 deal. I certainly am. I have gotten page
17 after page after page of notes that I wouldn't
18 have otherwise gotten if I would have just been
19 in a Tallahassee echo chamber.

20 You will have opportunities to observe
21 this process and participate if you want.
22 Before my votes are taken on any proposed maps
23 in any committee, the public will have an
24 opportunity to speak. All of those meetings
25 will be held in the public, and the public will

1 be invited to give its input. And before any
2 maps are considered on the floor of the Senate
3 or the House, the public will see those maps,
4 they will be on the Internet. There may not be
5 one map, there may be two or three or four or
6 five options, and when we get to the floor,
7 there may be amendments that create additional
8 options, and all of that will be done in the
9 public.

10 So we hope that you will stay engaged in
11 the process. We hope that those of you who
12 say, "Where are the maps," will look at the
13 maps that there are. Already we've gotten 15
14 maps that have been proposed that are now part
15 of the legislative process. One was proposed
16 yesterday during the hearing that we had in
17 Polk County. My guess is that by the end of
18 today, we will have more maps proposed. And
19 any member of this committee, Democrat or
20 Republican, House member or Senator, may
21 propose any map at any time and make comment on
22 any maps that have been proposed.

23 If there are no other questions, no other
24 comments from any members of the committee or
25 the public, Representative Weatherford moves we

1 rise.

2 (Whereupon, the proceedings were

3 concluded.)

REDISTRICTING COMMITTEE

TUESDAY, JULY 26, 2011

6:00 P.M.

WIREGRASS RANCH HIGH SCHOOL

WESLEY CHAPEL, FLORIDA

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 REPRESENTATIVE WEATHERFORD: If we could
3 get everybody to find a seat, we are going to
4 start momentarily. If we could get everyone to
5 find their seat, please. If we could get
6 everyone to grab their seat, please, we are
7 ready to start. Please find a seat.

8 Okay. Ladies and gentlemen, if we could
9 please get everyone's attention, we are going
10 to go ahead and get started. My name is Will
11 Weatherford, and I would like to welcome
12 everyone to the Joint Senate/House
13 Redistricting Hearing, and it is now called to
14 order.

15 First of all, I want to thank everyone for
16 taking the time to come out tonight in
17 beautiful Wesley Chapel, and Pasco County is
18 doing us proud tonight, and as you can see, we
19 have brought a lot of friends from the
20 Legislature to meet you and to hear from you,
21 and we really appreciate your participation, so
22 thank you for being here. We also want to
23 thank Wiregrass High School for allowing us to
24 use this wonderful facility.

25 And I also want you to know that I, along

1 with my colleague and co-Chairman, Senator Don
2 Gaetz, will be chairing today's hearing. It
3 will also be webcast live by the Florida
4 Channel over the Internet.

5 Before we get started and start going into
6 the public testimony, I would like to give
7 every member of the committee a chance to very
8 briefly introduce themselves and let you all
9 know who they are and where they are from. We
10 have a very diverse group here from both
11 parties and from all over the state that have
12 come to listen to you and to listen to the
13 concerns of Pasco County, and so we would like
14 to give them an opportunity.

15 But before we do that, I would like to
16 allow Representative John Legg, who is also a
17 Representative of Pasco County and one of the
18 co-Chairs of our congressional committee, to
19 speak and welcome everyone. So if you would,
20 please, everyone recognize Representative John
21 Legg.

22 REPRESENTATIVE LEGG: Thank you, Speaker
23 Designate, Representative Weatherford. I just
24 want to say welcome, everyone, to Pasco County.
25 I am a little biased to this area. I think it

1 is one of the greatest places on earth. But
2 the thing that is even better about this place
3 is its people, and I think tonight that members
4 of this committee will see some very passionate
5 people who really care deeply about this state
6 and this country who have a variety of views
7 about the lines on how they should be drawn,
8 and I just want to welcome members of the
9 State, the legislative -- all over the state to
10 this area, and also the people of this county,
11 and you do us proud, you work hard, we all have
12 various views and I am very proud -- proud of
13 this group and I look forward to hearing from
14 you guys tonight.

15 And for those of you who don't know me, my
16 name is John Legg. I represent the west side
17 of the county.

18 REPRESENTATIVE CLARKE-REED: Good evening,
19 I am State Representative Gwyndolen
20 Clarke-Reed, and I represent House District 92,
21 which is the northeast portion of Broward
22 County.

23 REPRESENTATIVE ROGERS: Hazelle Rogers,
24 State Representative, District 94 in Broward
25 County that boasts 1.8 million residents, one

1 of the most diverse counties in the state of
2 Florida. It is good to be here.

3 REPRESENTATIVE REED: Good evening, I am
4 Betty Reed. I represent District 59 in
5 Hillsborough County, which is Tampa.

6 REPRESENTATIVE CAMPBELL: Good evening,
7 Representative Daphne Campbell, District 108
8 from Miami.

9 REPRESENTATIVE JENNE: State
10 Representative Evan Jenne, District 100 in
11 southeast Broward, and thank you all for having
12 us here.

13 REPRESENTATIVE CORCORAN: Representative
14 Richard Corcoran from District 45, which is
15 Pasco and Pinellas Counties. Thank you for
16 being here.

17 REPRESENTATIVE STARGEL: Good evening, I
18 am Representative Kelli Stargel from Polk
19 County, District 64, and I love Pasco County, I
20 actually graduated from Land O' Lakes High
21 School.

22 REPRESENTATIVE ROUSON: Good afternoon,
23 Darryl Rouson. I represent District 55, which
24 is south Pinellas County, north Manatee, north
25 Sarasota and one little precinct in

1 Hillsborough County.

2 SENATOR JOYNER: Good evening, my name is
3 Arthenia Joyner, I am State Senator, District
4 18, representing portions of Hillsborough,
5 Pinellas and Manatee Counties.

6 SENATOR NORMAN: Hello, I am Senator Jim
7 Norman, representing Senate District 12, and
8 members that are all here today, welcome to
9 God's country. This is my district, and thank
10 you all for coming out, what an absolutely
11 wonderful turn-out, and this is the kind of
12 leadership that we told everybody that attended
13 tonight that would be representing Pasco
14 County, and thank you all for being here
15 tonight.

16 SENATOR SIPLIN: Jim, they like you.
17 State Senator Gary Siplin, Orlando,
18 Florida, District 19, Democrat.

19 REPRESENTATIVE NEHR: My name is Peter
20 Nehr. I am a State Representative from
21 District 48, which encompasses north Pinellas
22 County and south Pasco.

23 REPRESENTATIVE PLAKON: Good evening, I am
24 Scott Plakon, Florida House District 37, Orange
25 and Seminole Counties.

1 REPRESENTATIVE PASSIDOMO: Kathleen
2 Passidomo, Representative, District 76, from
3 Collier County. I represent Naples, Marco
4 Island, Everglades City, and I just want you to
5 know I spent a good deal of money in your
6 wonderful mall here, so I helped your -- thank
7 you.

8 REPRESENTATIVE GOODSON: Good evening,
9 Representative Tom Goodson. I represent House
10 District 29, Brevard County and Indian River
11 County.

12 REPRESENTATIVE CALDWELL: Good evening,
13 Representative Matt Caldwell, District 73,
14 which is Lee County, Ft. Myers, Lehigh Acres.

15 REPRESENTATIVE BURGIN: Good evening,
16 Representative Rachel Burgin from the city of
17 Tampa and eastern Hillsborough County, District
18 56.

19 REPRESENTATIVE WORKMAN: Hello, Ritch
20 Workman, District 30, it is Brevard County, the
21 Space Coast.

22 REPRESENTATIVE BRODEUR: Good evening, my
23 name is Jason Brodeur, State Representative
24 from District 33, which I am proud to represent
25 parts of Volusia County, Seminole County and

1 Orange County. Thank you.

2 REPRESENTATIVE PRECOURT: Steve Precourt,
3 House District 41, from the heart of central
4 Florida, basically Disney World and that
5 environment.

6 REPRESENTATIVE HOOPER: I am Ed Hooper,
7 House District 50, which is central Pinellas
8 County.

9 REPRESENTATIVE FRISHE: I am
10 Representative Jim Frishe, and I represent the
11 western edge of Pinellas County, all the
12 beaches. It is a tough duty.

13 REPRESENTATIVE EISNAUGLE: Good evening,
14 Eric Eisnaugle from Orlando, representing
15 District 40, which is -- takes in a portion of
16 Orange County.

17 REPRESENTATIVE DIAZ: Good evening, Jose
18 Diaz. I am from Miami, Florida, and I
19 represent District 115.

20 REPRESENTATIVE JULIEN: Good evening, John
21 Patrick Julien, representing House District
22 104, Miami-Dade County. It is a pleasure to be
23 here.

24 REPRESENTATIVE BERNARD: Good evening,
25 State Representative Mack Bernard, District 84,

1 West Palm Beach, Florida.

2 REPRESENTATIVE CHESTNUT: Good evening,
3 Chuck Chestnut, House District 23, a portion of
4 Marion County and a portion of Alachua County.

5 REPRESENTATIVE BAXLEY: Good evening,
6 Dennis Baxley, Florida House District 24,
7 Ocala, Marion County.

8 REPRESENTATIVE HORNER: Ocala fans.

9 Mike Horner, District 79, Osceola,
10 Okeechobee, Orange and Polk County.

11 REPRESENTATIVE CRISAFULLI: Good evening,
12 Steve Crisafulli, House District 32, which is
13 Brevard and east Orange County.

14 REPRESENTATIVE TAYLOR: Good evening,
15 everyone. My name is Dwayne Taylor. I
16 represent House District 27, which is in
17 Volusia County, I represent six cities there,
18 and I am glad to be here tonight with you in
19 Weatherford Chapel -- I mean Wesley Chapel.

20 REPRESENTATIVE WEATHERFORD: All right.
21 Thank you very much, members. And ladies and
22 gentlemen, if we could, please, give a round of
23 applause. We have a lot of members came a long
24 way to hear you speak tonight. Thank you all
25 for being here. We are going to get moving

1 here, there's a lot to achieve and a lot of
2 people to hear from.

3 First I want folks to know that our sole
4 purpose here is to hear from the public about
5 how you believe the legal standards governing
6 redistricting should be applied in our
7 community here so that you are represented
8 properly both in Washington, DC, and in
9 Tallahassee. That is fairly, equitably and
10 sensibly, I might add.

11 Our procedures today are simple, but they
12 are very important. It is important that you
13 sign in so that we can create an accurate
14 public record of all the attendees and the
15 speakers. Also, you may opt to join our e-mail
16 lists so that we can keep you informed of how
17 the redistricting process is working
18 throughout. If you have not signed in, please
19 raise your hand, and a staff member will give
20 you an attendance card. If you wish to speak
21 today and you have not filled out an attendance
22 card, please raise your hand, and we will get
23 you a card and so we can make sure not to miss
24 your testimony.

25 Before we begin, for a few minutes I would

1 like to recognize my co-Chair, Senator Don
2 Gaetz, to explain today's hearing and how it
3 fits into the redistricting process. Senator
4 Gaetz.

5 SENATOR GAETZ: Thank you very much,
6 Mr. Chairman, and let me take a point of
7 personal privilege. I am from the Panhandle of
8 Florida. I represent five counties in coastal
9 northwest Florida. I am from the other
10 chamber, I am from the Senate, so I don't have
11 a dog in the fight down here, but let me say
12 this: You are extraordinarily fortunate to
13 have in your legislative delegation the next
14 Speaker of the House of the State of Florida,
15 the Honorable Will Weatherford.

16 Every ten years, the Legislature is
17 required by the Constitution to redistrict the
18 state based on increases, decreases and
19 movements of population. Now, because Florida
20 has grown more than other states in the last
21 ten years, we will move up from 25 members of
22 the U.S. House of Representatives representing
23 Florida to 27 members, and we get two more
24 electoral votes in the presidential election.
25 Because some parts of our state have increased

1 or decreased disproportionately in population,
2 many Senate and House districts will change
3 their boundaries, either adding or losing
4 population, or being changed in configuration
5 altogether.

6 When redistricting is completed,
7 congressional districts by federal law must be
8 equal in population, equal in population, and
9 contain 696,345 people. That is for one
10 congressional district, not more, not less.
11 The 40 Senate districts, the state Senate
12 districts, must be nearly equal at about
13 470,000 people, and the 120 House districts
14 must be nearly equal at about 156,700 people.

15 Now, there are displays at the front of
16 the room -- or the back of the room here when
17 you came in showing maps that have the current
18 boundaries of districts in this area of the
19 state, and also you can see over there a chart
20 showing the number of persons that have to be
21 added to or subtracted from current districts
22 to achieve equal representation. And this is a
23 part of the state that has grown substantially
24 in population in the last ten years.

25 But equality of representation is not the

1 only legal requirement that redistricting plans
2 have to meet. The laws and the important court
3 cases governing redistricting are explained in
4 detail on the House and the Senate websites.
5 Those websites are listed in the "Redistricting
6 2012" brochure that was available to all of
7 you -- I see many of you have it in your
8 hands -- it was available when you came in.
9 Now, this "Redistricting 2012" brochure
10 summarizes federal and state laws and outlines
11 topics which we really need to hear from you
12 about at today's hearing. If you did not get a
13 copy when you came in, you can certainly get a
14 copy on the way out, or our staff will be happy
15 to give you a copy while you are sitting here.

16 The brochure lists the House and Senate
17 websites, and these websites are really good,
18 they are packed with information about
19 redistricting in Florida, including an
20 explanation of the laws and important court
21 cases we have to follow governing
22 redistricting. The two websites are
23 complementary, they are updated frequently.
24 Visit both, check them out often. It is a
25 great way to stay current about how your new

1 congressional Senate and House districts are
2 taking shape.

3 The websites also deliver to your
4 fingertips all of the demographic information
5 that we received from the U.S. Bureau of the
6 Census, demographic information that will be
7 used in drawing districts, and the exact same
8 computer programs that legislators and
9 professional staff will use.

10 Any member of the public can participate
11 in building plans or in seeing plans that have
12 already been submitted -- submitted by
13 legislators or by citizens or interest groups.
14 Before, during and after this hearing, House
15 and Senate staff are available to show anybody
16 the simple steps to getting on-line, building
17 districts, observing the districts that are
18 already there that you can see, and if you
19 wish, submitting a plan of your own for this
20 area of the state or the whole state now and in
21 the weeks to come. And I can tell you that I
22 am techno stupid, and it took them 15 minutes
23 to get me familiar with these websites and how
24 to use them, so I know you will be able to do a
25 lot better.

1 Recommendations from citizens and groups
2 of citizens will be made publicly available as
3 soon as we get your input. In fact, there are
4 already 16 maps which have been submitted. So
5 if somebody says, "Show me the maps," there are
6 16 maps on the website. Most of them are also
7 depicted in charts and maps on that side of the
8 room as you came in. I saw many of you looking
9 at them. You can look at them as you go out as
10 well. And we have received already about 70
11 written ideas for maps that are available on
12 the Web. So we have gotten -- there are 16
13 maps already produced and available for you,
14 and about 70 written submissions that say,
15 "Here is how we think our community or our
16 districts ought to be drawn." The submission
17 of proposed maps that makes sense for this
18 community is the single most effective form of
19 public participation in the redistricting
20 process.

21 Now, the redistricting schedule under
22 which we are operating, the timeline is imposed
23 by the State Constitution. We can't change the
24 timeline. The Constitution does not permit the
25 Legislature to vote on state legislative maps

1 before the second year after the census.
2 Census was taken in 2010, so our Constitution
3 says we can't vote before 2012. But we have
4 accelerated the process, we have speeded it up
5 as much as legally possible by moving up our
6 2012 legislative session from March, when it
7 usually begins, to January, which is the first
8 time we can legally vote, and by beginning our
9 statewide hearings five months in advance of
10 the 2012 session, and beginning committee
11 meetings in September instead of December so
12 that we can move as quickly as we get maps
13 submitted by legislators, by interest groups or
14 by individual citizens.

15 Now, it's been suggested that the
16 Legislature itself should draw maps first, and
17 then ask the public for comment; in other
18 words, not to ask you for your opinions, just
19 to give you maps. We believe that puts the
20 answer ahead of the question. We think there
21 ought to be no preconceptions created by
22 politicians, but, rather, public testimony
23 should be free and unrestricted. If we came to
24 you tonight and said, "Here are the maps that
25 have already been put together by legislators,"

1 there would be people who would stand up and
2 say, "How dare you not listen to the people of
3 Florida before you picked up the pen." So
4 Chair Weatherford and the Democrats and
5 Republicans on the Senate and House committees
6 have decided to listen before we draw. In
7 fact, a principal author of Florida's new
8 redistricting standards and the Chairperson for
9 the Fair Districts campaign are on record with
10 an agreement that new maps should not be drawn
11 until after the public has an opportunity to
12 comment.

13 Our intent is to use the recommendations
14 made at the 26 public hearings and through our
15 Internet sites as the basis for developing one
16 or more options for district maps. We will
17 discuss those options in open public meetings
18 before any votes are taken even in committee.
19 In other words, what we are literally saying
20 is, if you look at the maps in the back of the
21 room and if you go on the websites and look at
22 the maps that are there now, those maps
23 actually submitted to the Legislature by
24 Florida citizens are the maps that we will
25 begin with and begin the legislative process

1 with. We will solicit other suggestions from
2 the public, but we think we ought to start with
3 what communities believe themselves makes
4 sense, and then we can improve on them, if we
5 can. So if you want to know where we will
6 begin our deliberations, it is with those
7 public submissions and testimony from these
8 meetings and other input that you will give us.
9 Throughout the process, we will solicit
10 additional public comment so that proposed maps
11 can mature with the public involved, all before
12 the Legislature approves final maps.

13 Whatever the Legislature passes is then
14 submitted for judicial review. So we don't get
15 to decide what we want to do all by ourselves.
16 First we listen to you. Then we take your
17 input, we develop maps, then we vote on them
18 after we have had public hearings at which
19 people can comment. And then our maps are
20 submitted for judicial review to ensure that
21 any plan that is approved by the Legislature
22 meets constitutional requirements at the state
23 level and meets legal requirements at the
24 federal level.

25 Because, Mr. Chairman, our purpose today

1 is to hear from those who come here in your
2 hometown to share their views, all the time
3 between now and adjournment would be used to
4 ensure that every member of the public who is
5 here and wishes to speak will have some time to
6 present testimony. If after every citizen has
7 had his or her say, if there is time remaining,
8 and we hope there will be, before our scheduled
9 adjournment, then any member of the committee
10 may make any statement, answer or ask any
11 question, make any proposal. Any member of the
12 Legislature, Democrat or Republican, House
13 member or Senator, may today or at any time
14 either propose a map or associate themselves
15 with maps that have already been proposed, and
16 we will make any map that any legislator
17 proposes immediately available to the public
18 just as you have the maps in the back of the
19 room.

20 Mr. Chairman, Mr. Speaker, I hope this
21 description of our schedule and process helps
22 set the stage tonight for a successful hearing.

23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much, Chairman Gaetz, for that thorough
25 explanation, and ladies and gentlemen, we are

1 going to go ahead and get started. We are
2 going to try to adjourn right at nine o'clock,
3 so there's over 60 individuals who signed up to
4 speak, and what we would ask is that you be
5 judicious with your time. We want to give
6 everyone the opportunity to say what they have
7 to say, but we try to ask everybody to hold it
8 to about three minutes, if possible.

9 I am going to call out two names at a
10 time, the speaker and then the person who is on
11 deck.

12 Our first speaker tonight is Mr. Cliff
13 McDuffie. Mr. McDuffie is Mayor of
14 Zephyrhills. Mayor, you are recognized here to
15 speak before the committee.

16 After Mr. McDuffie, we will have Mr. Wil
17 Nickerson.

18 You are recognized, sir.

19 MAYOR McDUFFIE: Thank you, I am not used
20 to being first.

21 My name is Cliff McDuffie. I am the Mayor
22 of Zephyrhills, and I have lived in Pasco
23 County for 14 years now. I came up from
24 Hillsborough County, so I am familiar with the
25 area.

1 I have a number of things. First I would
2 like to say I do not envy you at all at what
3 you are doing. I spent most of the day looking
4 at districts on the computer, and my eyes are
5 kind of blurry, but --

6 REPRESENTATIVE WEATHERFORD: If you could,
7 Mayor, I'm sorry, just speak up a little bit.
8 It is kind of hard to hear.

9 MAYOR McDUFFIE: Do I need to get right on
10 top of it? Okay.

11 I don't think that the current districts,
12 in my opinion, adequately represent the people
13 that y'all are supposed to serve, and I
14 understand you do this by the numbers, so my
15 biggest problem there is the fact that
16 Zephyrhills is thrown in with Hillsborough and
17 Polk County on the Senate side, the only place
18 in Pasco County that's done that.

19 Currently we have some six House
20 Representatives who represent Pasco as well as
21 other counties. I don't think that they can do
22 that adequately. The old saying is you can't
23 serve two masters.

24 I would prefer that Pasco County be more
25 strongly represented, and I know that we do

1 this by the numbers, but I think that we have
2 the numbers in Pasco County now that we can
3 hopefully, as far as the House goes anyway, cut
4 that up so that we can have our own
5 Representatives and not somebody else's.

6 And I hope that this particular trial
7 doesn't morph into what we see in Washington
8 right now. I hope that our elected legislators
9 can put this together in an ethic way -- an
10 ethical way, and I hope that the partisanship
11 is not going to be an issue here and that
12 personal politics is not going to be an issue
13 here. But, again, I appreciate what y'all are
14 doing and I hope that we get it done right, if
15 that -- if you can ever do that. Thank you
16 very much, and I thank you all for representing
17 the State of Florida. Thank you.

18 REPRESENTATIVE WEATHERFORD: Thank you,
19 Mayor, we appreciate your comments, sir.

20 Next up we have Mr. Wil Nickerson, and if
21 we could, I know there is some chatter in the
22 back, if we could take all the chatter kind of
23 outside the room. It is already hard to hear
24 in here, and we want to make sure that the
25 committee and all the members of the public can

1 hear our speakers.

2 Mr. Nickerson, you are recognized.

3 MR. NICKERSON: Well, thank you very much.

4 I would like to thank all the esteemed
5 legislators for coming out and hearing us, and
6 with that, I will get right into it.

7 I will have to agree somewhat with the
8 last speaker, we do have quite an abundance of
9 legislators in our county, but we also have a
10 very diverse county, and with that, I think we
11 have a good checks and balances with the
12 people.

13 We have extreme dense population on our
14 west side, we have farm, rural and industrial
15 on our east side, and right up the middle on
16 the 41 corridor we got quite a mixture. So we
17 are very diverse and we need diversity in our
18 legislators.

19 We also -- the one little corner, the
20 southeast corner, mostly Crystal Springs, parts
21 of Zephyrhills that Mayor just spoke to, we do
22 have two Representatives in that area, which
23 probably confuse the issue a little -- sorry,
24 Ronda -- but, you know, it is a very miniscule
25 in numbers compared to some of the other areas

1 of Pasco.

2 To get into some of the things on the --
3 the, yeah, minority groups, and Pasco also is
4 very diversified in that, instead of what I
5 have read in a lot of the redistricting, there
6 are needed areas that need -- minorities need
7 representation. In Pasco County, and I have
8 been here through in real estate back in the
9 '80s when the minority representation was under
10 .5 percent, now the Hispanic and blacks are
11 representing approximately 15 percent, if I am
12 correct on that figure. But it is a very
13 diverse representation, again, from the east to
14 the west, to the Wesley Chapel area, and we
15 need to keep that diversity so that we have
16 people looking for what they need from their
17 representation.

18 I understand the one person, one vote
19 premise of the whole thing of redistricting,
20 but when you look at the last elections in
21 Pasco County, and if I am going to read my crib
22 sheets here, the -- 19 percent came out in the
23 primary, 64 percent in the general, and in
24 2000, going back the ten years that we are
25 looking at redistricting, those numbers didn't

1 change a whole heck of a lot. A lot more
2 people came out for the primary and --

3 REPRESENTATIVE WEATHERFORD: Mr.
4 Nickerson, you know I love you, buddy, but you
5 are going to have to help me out, keep it under
6 three minutes. So if you could kind of put a
7 bow on it for me.

8 MR. NICKERSON: Okay. You know me, I
9 can't help myself.

10 But all things considered, I think we are
11 doing a good job here in Pasco, we got good
12 representation. We just need to watch that we
13 don't ruin the balance that we do have.

14 So thank you very much. Have a great
15 evening.

16 REPRESENTATIVE WEATHERFORD: Thank you
17 very much.

18 And I apologize, I didn't give this next
19 person a heads-up, that was my fault, but
20 Anthony Lister, Tony Lister, is next as our
21 speaker. Mr. Lister, you are recognized, sir,
22 and after Mr. Lister we are going to have
23 Mr. Ed Blommel.

24 Tony, thank you for being here, buddy.

25 MR. LISTER: I will try to hurry up. I

1 got my notes on my little iPad thing here,
2 sorry.

3 Good evening, my name is Anthony Lister.
4 I am a former city commissioner and Mayor of
5 the City of San Antonio, Florida. I want to
6 thank you all for being here this evening. I
7 know your job is very difficult, and with that,
8 I will get right to it.

9 I would like to speak to the differences
10 between east and west Pasco, not disrespecting
11 west or east Pasco, but just to draw some
12 differences between the two. I believe, you
13 know, in my times on the city commission that
14 east -- east Pasco is a very rural, very
15 agricultural type of community, and west Pasco
16 has just really exploded, and I think we have
17 -- because of that, we have a bunch of
18 differences that maybe the representation, you
19 know, should be like there are -- in east
20 Pasco, we have a lot of, again, rural and
21 agricultural, we have a lot of farms, we have a
22 lot of citrus -- citrus farms, we have
23 businesses that are not necessarily made and
24 bought and sold, but, rather, handed down from
25 generation to generation. And working with

1 these people, you know, on the city commission,
2 it is just a different type of lifestyle. It
3 is very wonderful, it is very laid back, it is
4 very refreshed, and in an attempt to try to get
5 like representation, the other speakers and
6 speakers, I think, will probably, you know,
7 outline those differences as well.

8 Another note is it is very difficult,
9 because Pasco County is so fragmented, to be
10 elected to, you know, Congress and -- you know,
11 and to have representation, you know, a strong
12 representation here in Pasco County, it is, I
13 think, very important, and east Pasco, just
14 trying to draw those differences.

15 So I don't know if I filled my three
16 minutes, but I do appreciate you all coming
17 down this evening. Thank you.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much, Mr. Lister. We appreciate your
20 comments.

21 Next up we have Mr. Ed Blommel. Followed
22 by that, we have Steve Grossenbacher. Steve,
23 if you could get ready to go.

24 Ed, thank you for being here, you are
25 recognized.

1 MR. BLOMMEL: Thank you. I want to
2 appreciate -- tell you how much I appreciate
3 what y'all are doing, it is an awesome task
4 that you have.

5 But I want to go back just a little bit in
6 history. Ten years ago when we went through
7 redistricting, afterwards it made no sense when
8 you looked at it on paper. And I do want to
9 say that my comments are not politically
10 motivated. So I have friends who are in all
11 the parties from municipalities all the way
12 through Congress. But I am the fourth speaker,
13 and I am already hearing a pattern being
14 developed over the difference in the east and
15 west of Pasco County, and even if you look at
16 Hernando and Sumter County, and if you take
17 into consideration communities of interest, you
18 can see some definitely difference in those
19 areas between east and west.

20 In the past, in dealing with a lot of
21 folks, you would ask them who their
22 Representative was, who their Senator was, who
23 their congressional representative was, they
24 weren't sure, and maybe part of that is because
25 they didn't get involved. But if you look at

1 the maps, it was really difficult to figure out
2 who is serving who.

3 I would encourage you to take into
4 consideration some geographical boundaries.
5 Look at something like either the Interstate or
6 the Suncoast Parkway, look at the counties that
7 I mentioned, Pasco, Hernando and Sumter, look
8 at the difference between what we see on the
9 east and west side and take into consideration
10 your communities of interest. I think it will
11 mean a lot if you do that, and I -- once again,
12 I want to thank you and I appreciate your time
13 and what you are doing. Thank you.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much, Mr. Blommel.

16 Mr. Grossenbacher, good to see you, sir,
17 you are up, and after that we have Ms. Jocelyn
18 Dickman. You are recognized, sir.

19 MR. GROSSENBACHER: Hi, my name is --

20 REPRESENTATIVE WEATHERFORD: Please speak
21 very close to the mike. We want to make sure
22 everybody can hear you.

23 MR. GROSSENBACHER: It kind of rattles
24 around.

25 My name is Steve Grossenbacher, and I live

1 at 26511 Whirlaway Terrace in Wesley Chapel,
2 beautiful downtown Wesley Chapel, I might add,
3 and I am a life-long Florida boy. I grew up in
4 Hillsborough County. I left there in some
5 dismay after a lot of things that I don't like
6 politically in Hillsborough County, and I'm
7 sorry, I had to say that, and I came to Pasco
8 County in 1990. And my discussion and my
9 comments are going to be very brief.

10 My wife asked me to speak on her behalf.
11 She is very capable, that is my beautiful bride
12 over there, and --

13 REPRESENTATIVE WEATHERFORD: That young
14 lady over there? How did you pull that off?

15 MR. GROSSENBACHER: To make this short, I
16 wanted to -- to speak, and she gave me
17 permission to do that, so I am happy about
18 that.

19 The point I would like to make, I am very
20 happy with my representation in Pasco County,
21 both in the House and in the Senate, and our
22 U.S. Representatives as well. So I don't like
23 the fluidity that I have seen in the past,
24 years back, where some areas, it looks like
25 jello when you look at a map. I would like to

1 see that condensed. I like Pasco County
2 geographically like it is.

3 So that is all I have to say, and thank
4 you all for hearing us.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much. We appreciate those comments. Next
7 up we have Ms. Jocelyn Dickman. Followed by
8 Ms. Dickman, we have Ronnie Deese.

9 Ms. Dickman, you are recognized. Thank
10 you for being here.

11 MS. DICKMAN: Thank you, and thanks
12 everyone for coming up to Wesley Chapel and
13 Pasco County. I am used to seeing everyone on
14 TV, so it is nice to see you all here.

15 The first thing is, I know you all are
16 sitting up there and we all are sitting back
17 here, but I think it is important, especially
18 in this process, to remember that people are
19 elected to serve the people, so we are here,
20 but we're your bosses. So this process is
21 being done for us, the voters, who in November
22 did vote overwhelmingly for the Fair Districts
23 legislation, which means we want our districts
24 drawn, key word, fairly, and we as citizens and
25 voters are here to say that we want to choose

1 our legislators and not have our legislators
2 choose their constituents. And I think my
3 friends on both sides of the aisle can agree
4 with this, that this is a small government
5 issue. The more government tells us what our
6 districts are and who our elected officials are
7 going to be, the worse it is for the people.

8 And I did note the little run -- I didn't
9 notice that -- maps of what it might be are not
10 here, and the maps are the old maps, and I
11 would really wonder where the maps are of what
12 it could be.

13 And, again, I welcome you and I thank you
14 for having these meetings and ask you to please
15 remember that it is about the citizens first.
16 Thank you.

17 REPRESENTATIVE WEATHERFORD: Thank you
18 very much.

19 Mr. Deese, you are recognized, sir, and
20 then following Mr. Deese, we have Ms. Vonnie
21 Mikkelson from the Greater Zephyrhills Chamber.

22 You are recognized.

23 MR. DEESE: Thank you, and good evening.
24 I want to thank the Florida Legislature for
25 going into the communities of Florida and

1 listening to input from the Florida residents.
2 I especially want to thank you tonight,
3 Representative Weatherford and other members
4 here, for coming into our local community.
5 Thank you.

6 My name is Ronnie Deese, and I have lived
7 and worked in the bay area for 40 years, and
8 prior to that, up around Panama City, Florida.

9 Pasco County is distinct and different
10 from Hillsborough and Pinellas Counties. While
11 those counties are becoming national urban
12 centers competing with each other and other
13 major metropolitan regions in terms of jobs,
14 art, sports and living conditions, Pasco County
15 retains two distinct communities: A small
16 urban west side of the county and a more rural,
17 small charm county located on the east side of
18 the county. You cannot compare Pasco with any
19 of its other neighbors. East Pasco is very
20 similar to the southern portions of Sumter
21 County; however, as a whole, I suspect Sumter
22 politics is increasingly dominated by The
23 Villages.

24 Hernando County shares the most similarity
25 to Pasco County. West Hernando has built along

1 Highway 19 and is comprised of large retirement
2 and urban communities very similar to west
3 Pasco.

4 East Pasco, on the other hand, with its
5 pure rural lifestyle and Tampa commuters is
6 very similar to east Pasco. Lake County and on
7 the other side of Pasco County will have some
8 rural areas adjacent to Pasco County. Lake as
9 a whole, the other areas of Lake County and its
10 representation is increasingly being dominated
11 by the metropolitan lifestyle of Orlando, its
12 tourist attractions and the commercial
13 attractions in the I-4 corridor.

14 In my experience working for 23 years with
15 the people of Pasco County, I find two distinct
16 groups of people with different views. East
17 Pasco, east Hernando, southern Sumter and west
18 Lake County are all currently rural and/or
19 small-town views and are comprised of a mixture
20 of rural and Tampa working adults. The west
21 Pasco population reflects a more urban and a
22 retiree lifestyle. Recent studies supporting
23 modifications to Pasco County impact fees
24 recognize these differences, and Pasco County
25 adopted ordinances that support the two

1 different populations and their different
2 lifestyles.

3 Because of the diversity of Pasco from
4 surrounding counties, and because of the two
5 different and distinct populations living
6 within Pasco County, in my opinion, Pasco
7 County needs to have their own representation
8 for these communities and not diluted with
9 votes from non-similar populations. Two
10 Senators, three House seats for Pasco County,
11 the Senate seats being divided along the same
12 line as currently separating the two lifestyles
13 within Pasco County, perhaps the Suncoast
14 Parkway.

15 Finally, as to our Washington
16 congressional seats, please give consideration
17 to the fact that the Pasco vote is so diluted
18 by the current arrangement, it is difficult to
19 impossible to elect someone from Pasco County
20 to represent the Pasco County residents.

21 I thank you for your time.

22 REPRESENTATIVE WEATHERFORD: Thank you,
23 Mr. Deese.

24 Next up we have Vonnie Mikkelson.

25 Followed by Ms. Vonnie, we have our Supervisor

1 of Elections, Brian Corley.

2 You are recognized, Vonnice. Thank you for
3 being here.

4 MS. MIKKELSON: Thank you, Chairman
5 Weatherford, committee and the Florida
6 Legislature for providing this opportunity for
7 citizens' input in this very important process.

8 I am Vonnice Mikkelson, Executive Director
9 of the Greater Zephyrhills Chamber of Commerce,
10 and on behalf of the more than 400 businesses
11 and community organizations served by the
12 Zephyrhills Chamber, I would like to present a
13 couple of our ideas.

14 I would, after hearing the last speaker,
15 in all due respect, would like to disagree with
16 the fact that the east side of Pasco is rural.
17 I actually live in central Pasco in Land O'
18 Lakes, and I have worked for the Greater
19 Zephyrhills Chamber of Commerce for the last
20 year and a half. I have been pleasantly
21 surprised on a daily basis of the activity and
22 the potential for growth in this side of the
23 county, and I think it is part of my job to
24 make sure that residents, visitors,
25 Congressmen, Congresswomen and Representatives

1 of our great county and our great area know
2 this and continue to look forward and
3 appreciate at least our perceptions and our
4 ideas to change these perceptions.

5 During the last year and a half as
6 Executive Director, I have come to understand
7 some of the interesting dynamics of this area.
8 As economic and business development has been
9 discussed with local businesses, business
10 owners, government staff, elected officials, it
11 has become and more evident that we must think
12 collectively and regionally.

13 It is obvious that we are a smaller part
14 of the Tampa Bay/west central Florida economic
15 region; however, over the past several years,
16 as growth has occurred in this region, the
17 central east Pasco area has become a more
18 significant player in the region for growth.
19 Based on the evolving submarket region,
20 business owners believe it to be imperative to
21 have representation on both the state and
22 national level that understands the
23 significance of this growth region.

24 We are centrally located in the state of
25 Florida to all regions. We have the ability to

1 capitalize on a variety of logistics from two
2 Interstates, rail, port access, air expansion
3 possibilities and the availability of land.

4 We are enthusiastic about our future, but
5 we can better utilize these resources with
6 Representatives that will work with our local
7 communities as a whole and understand these
8 attributes to develop them to the highest level
9 possible. In today's climate, many entities --

10 REPRESENTATIVE WEATHERFORD: Ms. Vonnice, I
11 am going to need you to wrap it for me.

12 MS. MIKKELSON: I will be wrapping it up,
13 thank you.

14 REPRESENTATIVE WEATHERFORD: Thank you.

15 MS. MIKKELSON: We are looking forward --
16 we are -- and many entities are looking to
17 forward-thinking leaders, not only at the local
18 government, that would represent the state and
19 national levels. We need local representation
20 to assist us in bettering our possibilities in
21 a very competitive market. While east Pasco is
22 a relevant submarket of central Florida and
23 Tampa Bay, we share many commonalities with our
24 partner communities of central and east Pasco.
25 Those would be Zephyrhills, Crystal Springs,

1 Wesley Chapel, Dade City and so forth. We --
2 however the lines are drawn, we are asking for
3 representation that makes sense, and sensible
4 representation.

5 I would like to invite everybody to the
6 greater Zephyrhills area, the best-kept secret
7 in Pasco County --

8 REPRESENTATIVE WEATHERFORD: All right.

9 MS. MIKKELSON: -- and thank you again for
10 your time.

11 REPRESENTATIVE WEATHERFORD: Thank you
12 very much, Ms. Vonnice, we appreciate your
13 comments.

14 Next up we have our wonderful Supervisor
15 of Elections, Brian Corley, and after Brian,
16 Ralph Grant. All right.

17 MR. CORLEY: Thank you Mr. Chairman, good
18 evening. Welcome, members of the Legislature,
19 welcome to the best county in Florida. Nice to
20 have y'all here.

21 I want to first thank you all for the
22 opportunity to provide input on the front end
23 of this very important topic, and I want to go
24 on record to applaud all of you for this
25 unprecedented level of transparency of the

1 process to date. The posting of
2 citizen-submitted district maps and comments
3 on-line and these meetings are to be commended.

4 As has already been stated, I don't envy
5 the daunting task that lies ahead for all of
6 you. However, I will say this: I am confident
7 when it is all said and done, my fellow
8 supervisors and I with my great staff will
9 continue to make Florida shine with elections
10 administration.

11 My comments are in a slightly different
12 light from the other speakers, Mr. Chairman. I
13 want to briefly focus on two issues that are
14 very important to my colleagues and I. First,
15 the issue of time. To conduct successful
16 elections in 2012, we as elections officials
17 need time to complete required tasks, time to
18 adjust precinct lines to new districts, gain
19 approval of those precincts by the Board of
20 County Commissioners and notify all voters, all
21 11 million plus, and nearly 300,000 in Pasco
22 alone, well in advance of election day. And as
23 you all are well aware, we can't re-precinct
24 our counties until your work is done.

25 As such, I would respectfully ask that you

1 approve the new maps as early as possible in
2 the 2012 session. The earlier in the session
3 you all approve the plans, the more it will
4 help us with our required tasks. We have a
5 very short window of time to do our part, to
6 get ourselves, and more importantly, the voters
7 ready in time for election day.

8 The second issue I would like to address
9 is district lines. In short, please respect
10 communities when you draw district lines. I
11 would like to thank the legislative staff, and
12 particularly Mr. John Guthrie, who has been a
13 great resource and has provided training for my
14 colleagues and I. For many of our supervisors,
15 including myself, this is our first go-round
16 with redistricting, and it is not a lot of fun
17 so far and I can only imagine what it is like
18 for you all. Also, by allowing us to provide
19 our county voting tabulation districts data,
20 which is a step in the right direction, as it
21 takes into consideration the following: Intact
22 communities, traffic patterns, physical
23 barriers. Ladies and gentlemen, please adhere
24 to these lines wherever possible. Ideally, we
25 would ask that you draw a district line along a

1 county line whenever possible.

2 Again, thank you for the opportunity to
3 provide some input on this very important
4 process. As an elections administrator, it is
5 very much appreciated. Thank you all very
6 much.

7 REPRESENTATIVE WEATHERFORD: Thank you
8 very much, Mr. Corley, and thank you very much
9 for your service to the state and to our
10 community.

11 Next up we have Ralph Grant. After
12 Mr. Grant, we have Milton Chojnowski. Ralph, I
13 saw you earlier. He may have stepped out for a
14 moment. How about Milton Chojnowski, is Milton
15 here? I hope I said your last name right
16 there, sir. If not, you can correct -- okay,
17 good.

18 Mr. Chojnowski, thank you for being here,
19 and we will try to get back to Ralph. You are
20 recognized, sir.

21 MR. CHOJNOWSKI: My comments are really an
22 approach that you should take, I think, to get
23 started. I would suggest that you look at this
24 whole process by way of the computer. Let the
25 computer by the various restraints you want to

1 put in it, east and west, rural, city wide,
2 whatever, and let that make the first cut, and
3 then after you do that, without getting into
4 too many side bars, I think you would be able
5 then to make some modifications to that and not
6 get into gerrymandering and all the rest of the
7 stuff. That is all I have to say. Thank you.

8 REPRESENTATIVE WEATHERFORD: Thank you
9 very much, sir. Brevity gets bonus points.
10 Good job.

11 Okay. I don't see Ralph here. Ralph
12 Grant, is he back? If not, we are going to
13 move on to Ms. Rachel O'Connor. Rachel, you
14 are recognized, and after Rachel, we will have
15 Fern Williams.

16 Rachel, thank you for being here.

17 MS. O'CONNOR: Hi. My name is Rachel
18 O'Connor. I have been a resident of Pasco
19 County for over 18 years, and I currently live
20 in Wesley Chapel. So, first of all, I would
21 like to thank you guys for taking the time to
22 get the input of the public, and second of all,
23 for entering into this public discourse without
24 pre-drawn maps, because I think that is
25 emblematic of your openness and willing to

1 consider and use the input of the public.

2 What I would like to say is when you are
3 drawing the new redistricting -- the new
4 districts is I think that Pasco County has
5 benefited greatly from having multiple
6 representation. As the people before me have
7 said, Pasco is very diverse, with the west side
8 being very urban, and the central and east side
9 still being agricultural based, even though it
10 is growing, and I would like the Board to
11 consider when drawing these new districts that
12 we should probably look at moving the --
13 looking north, drawing districts north, because
14 the counties north of us are also designed in
15 the same way, with the west coast being the
16 most populated and the east sides of the county
17 being very agricultural based, and I think they
18 would be best represented in that way, so thank
19 you.

20 REPRESENTATIVE WEATHERFORD: Thank you
21 very much, Rachel.

22 I see that Ralph is here, but you know
23 what, I believe that ladies always go first, so
24 we are going to let Fern -- come on, Ms. Fern,
25 you go first, and then after that, we will have

1 Ralph Grant.

2 Thank you very much for being here, Fern
3 Williams.

4 MS. WILLIAMS: Good evening. Thank you
5 for the time. My name is Fern Williams and I
6 live here in Pasco County now. I have been a
7 Florida resident and a voting resident for 50
8 years, and I have seen a lot of changes. I
9 have seen gerrymandering, both sides of the
10 aisle.

11 I brought a couple of maps that I got off
12 your website, and these are examples of what
13 the districts look like now. This is Florida
14 Senate 27, and it goes from the -- from the
15 Atlantic Ocean in Palm Beach County all the way
16 to the Gulf, and I just don't see that anybody
17 can adequately represent that area. It
18 certainly is diverse. This is -- this is in
19 Orange County, and this is two districts, 9 and
20 19, and as you can see, they are interesting.

21 The Fair District amendment is voted, was
22 bipartisan, it was voted by 63 percent of the
23 voters, and some of it says that the lines
24 cannot be drawn to favor a party or an
25 incumbent, and they must be contiguous,

1 compact, adhere to existing local boundaries,
2 and these obviously don't. I just hope that
3 you take that into consideration, and we will
4 have better districts and better
5 Representatives for all of us. Thank you.

6 REPRESENTATIVE WEATHERFORD: Thank you
7 very much, Ms. Williams. We appreciate those
8 comments.

9 Next up we have Mr. Ralph Grant, and then
10 after Ralph, we have Justin Cracchiolo. You
11 are recognized, sir.

12 MR. GRANT: Are you taking questions as
13 well, or just comments?

14 REPRESENTATIVE WEATHERFORD: I'm sorry,
15 sir?

16 MR. GRANT: Are you taking questions as
17 well, or just comments?

18 REPRESENTATIVE WEATHERFORD: You can ask
19 questions, yes, sir. In fact, what we will do,
20 and I probably didn't state that at the
21 beginning, if you have specific questions, as
22 opposed to getting in a back and forth, if you
23 state them, at the very end, we will try to
24 answer every single question that is asked
25 today.

1 MR. GRANT: My specific point is primarily
2 the Senate Districts with Pasco County, they
3 seem to be pretty well distributed right now,
4 with only one being down only seven percent in
5 population. Are you looking at population
6 growth within the districts? Because the next
7 time you do, are you looking to look at the
8 growth within each district before you start
9 the redistricting, before you start redrawing
10 the lines? If not, I would like to see if --
11 since we are so well represented as far as the
12 Senate is within the Pasco County, to keep
13 those districts as close as possible to what we
14 already have. Can you answer that as far as
15 looking at potential growth within those areas,
16 or --

17 REPRESENTATIVE WEATHERFORD: Yes, we will
18 get to that answer, and, in fact, with regard
19 to the growth specifically, I will go ahead and
20 do that. In the back, there is a chart, and
21 John Guthrie is here and can walk you through
22 it, it actually explains the deviation and who
23 is over-populated and who is under-populated.

24 MR. GRANT: Right, I understand that, but
25 as far as how far out are you looking at

1 growth?

2 REPRESENTATIVE WEATHERFORD: How are we
3 looking -- I'm sorry.

4 MR. GRANT: How far out are you looking at
5 the growth?

6 REPRESENTATIVE WEATHERFORD: We just look
7 at -- based on the census from 2010.

8 MR. GRANT: Okay. That is it. That is my
9 question.

10 REPRESENTATIVE WEATHERFORD: Okay. Thank
11 you very much, you got it.

12 Next up we have Justin Cracchiolo, and
13 after that we have Jim Cracchiolo. I'm sorry,
14 Justina. I said Justin.

15 Ms. Cracchiolo, how are you doing today?

16 MS. CRACCHIOLO: Good. How are you doing?

17 REPRESENTATIVE WEATHERFORD: Thank you for
18 being here.

19 MS. CRACCHIOLO: My name is Justina
20 Cracchiolo, and I live in Wesley Chapel,
21 Florida, and I have lived in the community for
22 31 years in east Pasco.

23 I want to thank the committee for allowing
24 the citizens to make a contribution with the
25 redistricting process. Truly an educated

1 citizen can understand the decisions that
2 ultimately become law. In fact, the My
3 District Builder software on the
4 floridaredistricting.org website has become the
5 hottest new game in my house.

6 This evening I would like to specifically
7 address the community of Wesley Chapel,
8 Zephyrhills and Dade City in east Pasco County,
9 because the needs of these east Pasco
10 communities are very different from those of
11 our neighbors to the west of the Veterans
12 Expressway.

13 In the course of drawing up my own maps, I
14 believe that the communities of interest and
15 compact geographic areas causes -- offer
16 compelling standards to apply to the east Pasco
17 County when drawing up the boundaries for our
18 district. It is my hope that you will keep the
19 communities of Zephyrhills, Wesley Chapel and
20 Dade City together and not split them up.
21 These communities are contiguous and are within
22 10 miles' drive from one to the other. I have
23 raised four children in this district.

24 My children were born in Dade City,
25 educated in San Antonio, Zephyrhills and Wesley

1 Chapel. Whether volunteering in the community,
2 at church, the PTA or school advisory council,
3 I have come to recognize that my fellow
4 citizens in Zephyrhills, Dade City and Wesley
5 Chapel share common interests and goals for
6 their families, neighbors and communities. I
7 hope that the committee will consider my
8 testimony this evening and to the best of their
9 abilities decide to keep Zephyrhills, Dade City
10 and Wesley Chapel communities together in one
11 district.

12 Thank you again for allowing me to express
13 my opinion on redistricting. I am proud to
14 live in a state that is giving the voters a say
15 in picking their lawmakers, rather than the
16 lawmakers picking their voters. Good evening
17 and God bless.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much, Ms. Cracchiolo, we appreciate that.

20 And now that we have heard from your boss,
21 Mr. Cracchiolo, you are now able to speak, so
22 you are recognized, sir. And after
23 Mr. Cracchiolo, we have Steve Van Gorden.

24 MR. CRACCHIOLO: That is a hard act to
25 follow. I didn't know we were going to put

1 that in line like that.

2 I want to thank the Legislature as well
3 for coming tonight. Welcome, everybody, to
4 Pasco County, great to have you here.

5 My first step in Pasco County was in 1973.
6 The first impression was memorable. It was
7 like a glimpse into the wild, wild west. There
8 were cowboys and cattle and Indian history, and
9 it was all surrounded by this little seasonal
10 midwestern retirement community called
11 Zephyrhills. Highway 54 was sparsely inhabited
12 with isolated dots of populations along the
13 way, Saddlebrook was just getting started, and
14 Bruce B. Downs was known as the road to nowhere
15 basically. Pasco County was completely
16 polarized really east and west as well, and
17 there was very little in between.

18 Moving here after getting married took
19 quite a bit of convincing, I might add. After
20 all, east Pasco was not quite the midwest urban
21 upbringing my wife was accompanied to. Feeling
22 pioneerish, we made the commitment and raised
23 our four children here in Pasco. Zephyrhills,
24 Dade City and Wesley Chapel, although somewhat
25 geographically isolated, became the communities

1 we were involved with, always driving long
2 distances, it seemed, from school to stores to
3 events and so forth.

4 Since these early days of isolated
5 population dots along Highway 54, growth has
6 connected the dots and the picture has changed
7 rather dramatically. With the growth over the
8 past ten years, these communities of
9 Zephyrhills, Dade City and Wesley Chapel have
10 now established a true sense of community.

11 During this redistricting process may this
12 sense of community that has been created over
13 the past couple of decades be preserved by a
14 redistricting plan that will enhance our
15 community by maintaining the current boundaries
16 rather than carving up our community we have
17 all worked so hard to create.

18 Thanks again for coming. We really
19 appreciate you being here.

20 REPRESENTATIVE WEATHERFORD: Thank you
21 very much.

22 Next up we have Mr. Steve Van Gorden.
23 Following Mr. Gorden, we have Ms. Doris Tosen,
24 I hope I say that right, Tosen.

25 Steve, thanks for being here.

1 MR. VAN GORDEN: Thank you, Representative
2 Weatherford, and thank you, legislative
3 redistricting committee. It is great to see
4 you guys out here to Wesley Chapel area and
5 taking your time and listening to the citizens.

6 I am going to be very brief with my
7 comments. I echo a lot which was already
8 previously stated. I am a current principal of
9 Zephyrhills High School. I was very privileged
10 also to be the principal of Hudson Middle
11 school. And there's been a lot already tonight
12 talked about east versus west, and there are
13 distinct differences. There's also very
14 distinct differences between Wesley Chapel --
15 Wesley Chapel, Land O' Lakes, the New Tampa
16 area, and then also the Dade City community,
17 San An, Zephyrhills, Crystal Springs and
18 Trilby.

19 I would like to see you when you go ahead
20 and start drawing these plans look at three
21 state House districts for Pasco County, one in
22 eastern Pasco, one in central Pasco and then
23 one on the west side. I would like to see us
24 look at two state Senate districts, with the
25 Suncoast Parkway being the dividing line. And

1 I would also like to see us have one
2 Representative for the U.S. Congress, and have
3 it a solely Pasco County seat to give Pasco
4 County what they deserve.

5 So with that, I -- as my colleagues
6 stated -- as my colleagues stated earlier, and
7 fellow citizens, I think you have a daunting
8 task, but I am confident in each one of your
9 leadership's ability to do what is best for all
10 the citizens of Florida, but particularly the
11 citizens of east Pasco County. So thank you
12 and God bless each one of you.

13 REPRESENTATIVE WEATHERFORD: Thank you,
14 Steve.

15 Next up we have Ms. Doris Tosen, and after
16 Ms. Tosen, we have Kim Irvine. Is Doris here?
17 There she is. I hope I didn't mess up your
18 name too bad; if I did, I apologize.

19 MS. ROSEN: I believe you meant to say
20 Rosen instead of Posen.

21 REPRESENTATIVE WEATHERFORD: I'm sorry.
22 It is misspelled, that is our fault, but,
23 Ms. Rosen, thank you very much for being here.
24 You are recognized.

25 MS. ROSEN: Okay. I am adaptable.

1 This is my third redistricting event and
2 the second time I have spoken in front of this
3 august body.

4 I want to tell you now that we have
5 Amendments 5 and 6 which were voted by
6 63 percent of the voters. The people have
7 spoken. We want fair and reasonable districts.
8 We don't want them to favor either party. I
9 was here in 1990 when it favored the Democrats,
10 I was here in 2000 when it favored the
11 Republicans, and it is time to get it right and
12 not favor any political party. It should be
13 fair and equitable.

14 There are no survivorship rights to
15 districts. There are no survivorship rights to
16 districts. No politician is entitled to grow
17 into a district. He has to earn it. We need
18 action and not words, we need the maps, we need
19 to get started and we need to move now. Thank
20 you.

21 REPRESENTATIVE WEATHERFORD: Thank you.

22 Next up we have Ms. Kim Irvine. After
23 Kim, we have Jim Mathieu.

24 Ms. Irvine, thank you for being here, you
25 are recognized.

1 MS. IRVINE: Thank you very much, and
2 thank you for taking the time to listen to us.
3 I really -- the public, we do appreciate you
4 taking the time and we appreciate the
5 opportunity to speak.

6 First of all, I am not unhappy with the
7 way the representation has gone at this point.
8 I do realize we are diverse, but I think our
9 government should be gender blind. I think it
10 should be race blind. We are all people. We
11 are all Americans. You should serve all of us
12 equally. Color shouldn't play into it. Gender
13 shouldn't play into it. Party shouldn't play
14 into it. We need representation from our
15 legislators that represent us all as Pasco
16 County residents.

17 I have been here over 18 years, I love
18 Pasco County, and I am thrilled to be here and
19 I trust that you will all make the effort
20 required to make sure that this is a fair
21 process and will represent the people of Pasco
22 County to the best of your ability. Thank you
23 again.

24 REPRESENTATIVE WEATHERFORD: Thank you,
25 Ms. Irvine.

1 Next up we have Jim Mathieu, followed by
2 Ilene Miller. And I just want to make a quite
3 point. We've got about 50 people still to go,
4 we've got two hours left, so you can run the
5 math. If we can keep it at two to three
6 minutes, that would be great. The last couple
7 of speakers have been wonderful. We just want
8 to give everybody the opportunity.

9 Mr. Mathieu, thank you very much for being
10 here, sir.

11 MR. MATHIEU: James Mathieu, I will be
12 brief in light of that comment. Thank you for
13 letting me speak, Representatives, Senators,
14 and thank you for this open process. It is
15 very impressive.

16 I am an attorney. I have been here in
17 Pasco County now for seven years. I have been
18 a city attorney in the city on the west side, I
19 have also been a city manager. I feel that I
20 have a pretty good feel for the wants, needs
21 and concerns of the people of Pasco County, and
22 my observation after seven years is that Pasco
23 County needs three separate legislative
24 districts at the Representative level and at
25 least two State Senators.

1 The western side of the county is
2 predominated by U.S. 19, which is a major
3 artery. It is somewhat of a retired area,
4 people with retirees, people do not commute
5 into Tampa, it is too far. It has one of the
6 highest crime levels. Just a quick check of
7 the sheriff's office will see that. It has
8 riparian water rights, it has access, it has
9 marinas. This is one type of -- one part of
10 the county.

11 When you go to the middle of the county,
12 it is, in my opinion, a bedroom community.
13 Many of the developments, as I call them, of
14 this area here are sandwiched between the
15 Suncoast and 75. That is what created these
16 communities. They have zoning issues, they
17 have commuter issues, they have transportation
18 issues. These are distinct, different issues
19 from those on the west side.

20 On the east side of the county, Sans --
21 Dade City, it is an agrarian area. They have
22 many different needs, wants and desires and
23 concerns.

24 And if you cannot statistically and
25 mathematically get three and two, then I think

1 if you are going to look one way or the other,
2 you have to push us to the north and hook up
3 with Hernando County as opposed to Tampa, which
4 has much different needs than we do. Thank you
5 very much in allowing me to speak.

6 REPRESENTATIVE WEATHERFORD: Thank you
7 very much, Jim. We appreciate that.

8 We have Ms. Ilene Miller, and after
9 Ms. Miller, we have Sandy Graves.

10 You are recognized. Thank you for being
11 here.

12 MS. MILLER: Hello. My name is Lavonne
13 Miller, but anyhow --

14 REPRESENTATIVE WEATHERFORD: I apologize.

15 MS. MILLER: No, no, it's fine.

16 REPRESENTATIVE WEATHERFORD: It is my
17 eyes, I can assure you.

18 MS. MILLER: I signed "Ilene L."

19 But I have been a resident of Pasco County
20 for thirty some years. I moved here when I was
21 ten. But, anyway, I would love to see our
22 county where we have a Representative that only
23 represents us here in Pasco County. I don't
24 know -- I don't know how -- I haven't looked at
25 the maps, I didn't know there were maps. They

1 are on -- and I will look at those tomorrow and
2 probably then make some comments to you all.
3 But what I would like to see is I would love to
4 see equitable, true Representatives of the
5 people here in Pasco County.

6 I realize that all of you have traveled to
7 be here tonight. I don't know what that is
8 costing you all, but some of that probably
9 would have been better off staying in the
10 budget and doing something else with it,
11 education, one thing and another.

12 But, anyway, just look carefully, make
13 certain that the -- that the districts are
14 equitable and that we have true representation
15 just for Pasco County.

16 REPRESENTATIVE WEATHERFORD: Thank you
17 very much.

18 Next up we have Sandy Graves. Following
19 Ms. Graves, we have Jarrod Scharber.

20 You are recognized.

21 MS. GRAVES: Hi, my name is Sandy Graves.
22 I live at 21946 Shamu Drive in Land O' Lakes,
23 Florida. I am a native Floridian, a native
24 laker and a native Pasco resident. I was
25 probably here when Mr. Cracchiolo came and saw

1 the cowgirls and cowboys. I was probably one
2 of them.

3 But, anyway, I want to thank the
4 delegation for allowing me to offer my two
5 cents' worth on redistricting, and because I
6 realize that the new amendments to our
7 Constitution will most likely end in
8 litigation, and I do not have the wherewithal
9 to litigate, hopefully my two cents will be
10 worth something now.

11 I am here for the representation of my one
12 vote because I feel the founding fathers were
13 quite specific that the vote be heard and
14 counted, a vote that represents me and my life
15 according to my community and what affects me.
16 Though there may be some here tonight that seek
17 to have that vote superseded by special
18 interests that do not have my vote or the best
19 interests of Pasco citizens in mind, I ask that
20 you look beyond their voices and consider some
21 very unique issues that face Pasco and the
22 people that live here, and why we need our
23 representation to have teeth and not to be
24 diluted by special interests or voters not
25 concerned with what face us daily.

1 Some Pasco-specific issues are insurance.
2 After 15 years with Liberty Mutual, I was
3 dropped and given reasons of sinkholes. Now I
4 am the proud owner of Citizens Insurance,
5 because of no choice of my own, though I
6 thought I lived in a country of free trade and
7 competition.

8 REPRESENTATIVE WEATHERFORD: Sandy, I love
9 you, but we got to keep it on redistricting.

10 MS. GRAVES: Okay, I am just going to pass
11 on, but basically Pasco has a lot of issues
12 that affect her, and we have neighbors to
13 either side that conflict with us sometimes.
14 So what I would like to ask is that you not
15 dilute our vote by having us with Hillsborough
16 or Pinellas so much, because we need to be
17 considered with what our issues are. We have
18 economic issues here that don't necessarily --
19 which conflicts with Hillsborough, sometimes in
20 Pinellas we have the water issue, and we have
21 the insurance issues. So I just ask that you
22 -- and I was getting to that point, but most of
23 all I want to thank you for being here and
24 listening to me, and though I think there is a
25 difference between east and west Pasco, there

1 is also a difference between our neighbors,
2 Hillsborough and Pinellas, so I want you to
3 consider that when you are thinking about us
4 and our representation. I also want to pray
5 for your discernment and your wisdom and your
6 mental health. Thank you very much.

7 REPRESENTATIVE WEATHERFORD: Thank you for
8 your prayers, Sandy, we appreciate that. We
9 all appreciate that.

10 Next up we have Mr. Scharber, followed
11 by -- I want to say this right, William
12 Peterseim I believe is how it is -- I believe
13 is how it is spelled.

14 Jarrod, you are up. Thanks for being
15 here.

16 MR. SCHARBER: Thank you. First I want to
17 thank Representative Weatherford again and the
18 remainder of the committee members for taking
19 the time to get some input from the public this
20 evening. It certainly means a lot to all of us
21 that you would take the time to listen to what
22 we have to say before acting on such an
23 important issue.

24 As stated, my name is Jarrod Scharber. I
25 am not here as a representative of any group or

1 organization. I am here tonight representing
2 Jarrod Scharber, and by extension, my family.
3 I am a fourth-generation resident of Pasco
4 County, and other than a brief period when I
5 left to pursue my education, I've resided in
6 the San Antonio and Dade City area my entire
7 life.

8 As you all know, as Will certainly knows,
9 there have been significant changes in our
10 county, especially this portion of our county,
11 over the past ten years, and there have been
12 developments in the patterns of growth such
13 that even an outsider could examine a map, take
14 a look at where the growth corridors are, what
15 goes on on the west side of the county, what
16 goes on on the east side of the county, and
17 make an analysis of what we need in terms of
18 our representation moving forward both at the
19 state and the national level.

20 Much of what I was going to say is going
21 to dovetail with what you've already heard.
22 The western side of our county is largely made
23 up of smaller urban centers, New Port Richey,
24 Hudson, Holiday, things -- getting on up in
25 Hernando, Weeki Wachee, Spring Hill. Those

1 communities, while they have their own
2 interests that are very important and specific
3 to them, they don't necessarily always align
4 with what we have in terms of our goals, our
5 needs and what we see as our future challenges
6 here on the east side of the county.

7 When you are making an analysis of what
8 our Representatives are going to be, I think it
9 is important that you make the distinction
10 between the types of communities and then the
11 types of people who actually reside in those
12 communities. Drawing district lines somewhere
13 near the center of the county, whether it is
14 U.S. 41, whether it is Suncoast Parkway, making
15 a distinction between the west side of the
16 county, the east side of the county, and
17 certainly I think there should be no question
18 that we need to have ourselves separate and
19 distinct from the northern portions of
20 Hillsborough County. Grouping this east side
21 of the county in with southern
22 Hernando/southern Sumter Counties I think is
23 going to give us what we all want, elected
24 officials, the one we send to Tallahassee and
25 the ones we send to Washington, are going to be

1 there to represent our interests, and that is
2 exactly what we are electing them to do is
3 represent our interests, not the interests of
4 north Tampa, not the interests of New Port
5 Richey, but the interests of east Pasco. And,
6 again, I think that -- again, some of my
7 thunder has been stolen this evening, but three
8 districts in the House, two districts for the
9 Senate, and trying to keep as much of east
10 Pasco independent of some of these other
11 competing interests as possible, that is going
12 to serve everybody's best interests. Thanks
13 again.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much.

16 Next up we have Mr. Peterseim, I believe,
17 I hope I said that right, followed by James D.
18 Porter, who I know -- I believe is Don Porter.
19 I hope I have that right.

20 MR. PETERSEIM: That is correct. How are
21 you?

22 REPRESENTATIVE WEATHERFORD: You're up.

23 MR. PETERSEIM: I am a -- my name is Bill
24 Peterseim. I am a certified financial planner,
25 economist, political analyst and 20th century

1 historian, and I broadcast daily into 38
2 nations on five continents about what is going
3 on in this country.

4 I thank you for being here because, quite
5 frankly, I don't think any time in the history
6 of our nation until the past four and a half
7 years have we had such a feeling of total
8 disconnect between the electorate and the
9 elected officials across this nation as a
10 disconnect between what we want, what we
11 believe in, and what the Legislatures are
12 voting. So I would remind you, it is a
13 republican form of government, and I thank you
14 for that.

15 I also thank you for the moment of levity
16 when we said there would be no political issues
17 involved in gerrymandering redistricting. It
18 was a good moment of levity.

19 And I do have one question that I really
20 would like clarified, because it really wasn't
21 that clear on the ballot in November, and I am
22 sure I am not alone on that, but there was a
23 specific proposal that was voted on and
24 approved that had direct influence on the
25 redistricting process, and I am sure you know

1 what I mean. If you would, please, take a
2 moment to explain that and clarify it for all
3 the voters. Thank you.

4 REPRESENTATIVE WEATHERFORD: Yes, sir.
5 Thank you very much, and Mr. Peterseim, we will
6 make sure and do that. We addressed it in the
7 very opening of our comments about Amendments 5
8 and 6, but I can assure you my colleague,
9 Chairman Gaetz, at the very end will make sure
10 that he goes through it one more time to
11 explain its impact on the process and how we
12 plan to follow it.

13 J. D. Porter, you are recognized here. In
14 fact, I will take a moment of privilege. We
15 are actually sitting on land that was donated
16 by the Porter family to allow Wiregrass to be
17 built. It is an honor to have you here, and
18 thank you all for your kindness in unofficially
19 hosting us tonight.

20 MR. PORTER: First of all, thank all of
21 y'all for coming out this evening. I really
22 appreciate it. As stated, my name is J. D.
23 Porter. I work for a small family business
24 here called Wiregrass Ranch. We happen to be
25 sitting on one of the pieces of property that I

1 grew up on. It has been in our family for
2 going on 80 years.

3 REPRESENTATIVE WEATHERFORD: Speak a
4 little closer to the mike, if you could, J. D.

5 MR. PORTER: Sorry about that.

6 This piece of property has been in our
7 family for around 80 years, and I think it is
8 important for everybody to know and everybody
9 to understand and recognize that Pasco itself
10 has been kind of in the background for an
11 extended period of time. We have been here
12 through that.

13 It is coming into the forefront now, and
14 it is important to the representation that
15 where we are seeing and one of the important
16 facts that was not mentioned is during the
17 growth boom, Pasco County was the second
18 fastest-growing county in the state. That kind
19 of growth everybody in this room felt and
20 everybody in this room saw. It is something
21 when those kind of people and when we get that
22 kind of density that you are seeing, whether it
23 is at the Shops at Wiregrass, the community
24 college that is coming up down the road, one
25 of the -- the best high school, in my opinion,

1 in the county that we are sitting in right now,
2 you are seeing growth that is taking place
3 during a depressed market. We need to make
4 sure that our representation is basically
5 correct and dead-on for the type of
6 constituents that are in the areas.

7 A lot of people said west Pasco is a lot
8 different than east. I agree with that, but we
9 are in central Pasco. Where we are at now, you
10 are seeing in a lot of the things that we have
11 done and a lot of the things that we feel and
12 that we have seen in the past, we came from a
13 ranching background, we came from a setup where
14 we still run cattle, we still have citrus
15 trees, but we are also seeing a lot of smart
16 growth and we are trying to do the right thing.
17 We are trying to protect the land and do things
18 that benefit the community.

19 I think a lot of the other communities
20 like Dade City, like Zephyrhills, like San
21 Antonio, they are going to feed off growth, and
22 we share a lot of the same community
23 backgrounds and values that have been here
24 forever, and a lot of the people that have
25 stand up all have made good points, but there

1 is a distinctive difference between the west
2 side and when you get on the other side of the
3 Suncoast, maybe even 41, but I think the
4 Suncoast is a good place to put that, a lot
5 different dynamics and a lot different
6 demographics there than what there is here.
7 There is a way -- if we are going to go anyway,
8 I think that we should go north and extend
9 districts northward, because they are going to
10 benefit off the growth and the change that we
11 are seeing, even during a downtime.

12 When you are looking at areas and when you
13 look at certain things, I like looking at the
14 past as being a historic example of what is
15 going on. This is very similar to a setup like
16 in Atlanta where you have Buckhead growing to
17 the north. That is a very good layout, that it
18 changed over time, and because of districts and
19 because of representation at the state level,
20 they were able to be successful, and I think
21 that is very important for all of y'all to take
22 into consideration. Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much, J. D. We appreciate that.

25 I apologize to the next speaker, I don't

1 think I gave you a heads-up, but Mike Pheneger,
2 President of the ACLU of Florida. Mike, are
3 you here, sir? I'm sorry that I did not give
4 you a heads-up on that. After Mr. Pheneger, we
5 have Georgiana Jones.

6 Mr. Pheneger, thank you very much for
7 being here, sir.

8 MR. PHENEGER: Yeah, actually, we are a
9 lot of things. I happen to be the President of
10 the ACLU of Florida. I am also a retired Army
11 colonel. I think elections are extremely
12 important. In 30 years in the Army, I managed
13 to vote each one of those 30 years, 15 of them
14 overseas from such unlikely places as Korea,
15 three years in Vietnam, Panama, Germany and
16 Saudi Arabia and Kuwait. I also managed to
17 spend the afternoon in church with Senator
18 Joyner and Representative Reed this afternoon.

19 Here -- the purpose of my appearance
20 tonight is to talk about Amendments 5 and 6,
21 which got almost no notice during your
22 introduction and no comment on what they all
23 mean. Now, I support Amendments 5 and 6, and
24 have since the outset. I actually am involved
25 in supporting the suit to oppose the suit

1 against Amendment 6, but I am doing it with my
2 money, not the taxpayers' money. I understand
3 that the House of Representatives is doing it
4 with about \$300,000 worth of taxpayer money,
5 according to the recent issue in *The New York*
6 *Times*.

7 So I think what we need to do is to focus
8 the Legislature on implementing the will of the
9 people in terms of Amendments 5 and 6, which,
10 to remind, have several things. They say that
11 you can't draw a district to favor or disfavor
12 an incumbent or a party. Districts should be
13 contiguous, they should be compact, they should
14 be roughly equal in population, they should use
15 existing city, county and natural boundaries,
16 and most of the time right now, if you look at
17 our district maps today, they don't do that,
18 and finally they should preserve the ability of
19 minorities, both language and racial, to vote
20 for Representatives of their choice.

21 Someone here earlier talked about the
22 possibility of litigation, but, frankly, if you
23 all fulfill your constitutional mandate in 5
24 and 6, you won't have to worry too much about
25 litigation, because you will have basically a

1 fireproof solution to the problem.

2 I think it is important for you all to
3 develop maps, simply because the Constitution
4 requires that in 2012, you actually vote on new
5 districts. It would be nice for us to see what
6 you are considering before you do it so we can
7 kind of advise your deliberations while you are
8 doing that in the legislative session early
9 next year.

10 And, finally, I would like to recommend
11 that in contrast to people that we have in
12 Washington nowadays, I wish you all would
13 refrain from taking any pledges before you
14 arrive there, because it is going to be hard
15 enough to draw these districts, and if you have
16 pledged yourself into a solution before you
17 have a chance to deliberate and debate, it is
18 not going to work very well. Thank you.

19 REPRESENTATIVE WEATHERFORD: Thank you,
20 sir. Thank you, Mr. Pheneger, and thank you
21 for your service to our country. We are very
22 grateful for that.

23 Next up we have Ms. Georgiana Jones, and
24 followed by Ms. Jones, we have Steve Graves.
25 Thank you for being here, ma'am.

1 MS. JONES: I want to tell you that I am
2 very pleased to see you all here today to
3 listen to all of us. I must say in confessing
4 that I have been in Tallahassee during sessions
5 during the past three years, and in the past
6 two years when we spoke as educators and others
7 working in public service, I don't feel that
8 there was listening.

9 I do want to say, as so many others have
10 spoken before me, that it is very important
11 that you understand that we speak and you are
12 working for us. We have already voted for
13 Amendments 5 and 6, and you have heard before
14 me exactly what that means and what your task
15 is for us.

16 I am very concerned, and this is my last
17 statement, that there seems to be another check
18 place that if you fairly redistrict, there are
19 new voter laws in place that will pull people
20 out of lines and ask for certain important
21 pieces of identification to prove themselves by
22 names, addresses, changes. I do not believe
23 that we are on the road to fairness and justice
24 in Florida, and I want you to know that we are
25 not going to go backwards. We are moving

1 forwards, and I hope that you will take into
2 consideration that you have been given a task
3 by us.

4 REPRESENTATIVE WEATHERFORD: Thank you
5 very much, Ms. Jones.

6 Next up we have Steve Graves, and after
7 Mr. Graves, we have Bill Bunting.

8 Steve, you are recognized, sir.

9 MR. GRAVES: Yes, thank you,
10 Representative Weatherford. I would like to
11 thank all the panel for being here and coming
12 to Pasco County and listening to the voters and
13 what we have to say.

14 My name is Steve Graves. I have lived in
15 Pasco County for approximately 16 years in the
16 Land O' Lakes area.

17 Just concerning the State Senate seat,
18 based upon the current amendment, each Senate
19 seat is supposed to have approximately 470
20 voters. Pasco has right now 464. I believe
21 that Pasco County should have at least one, or
22 only one Senate seat. However, if whenever the
23 grand scheme comes together you see that Pasco
24 has to be divided, I don't think that it should
25 be any more than two. Currently we have three,

1 and I think that is one too many.

2 For the State House, under the amendments,
3 it's 157,000 -- 157,000 citizens per seat.
4 Again, with the 464,000 citizens in Pasco
5 County, that equals to about three state seats.
6 That is what I think that the current number
7 should be. As of right now, it is six.

8 For the congressional seat, it is 696,000
9 citizens, with 464. Currently we have two
10 congressional seats. I think we should keep
11 that.

12 If there should be any type of divisions
13 that should be made, I agree with a lot of the
14 other past speakers about taking a look at
15 either 41, the Suncoast, as being maybe the
16 line of demarcation, and from there, take a
17 look at the west side and plus the central and
18 east together.

19 Again, I want to thank all of you for
20 being here and thank you so much for this time.

21 REPRESENTATIVE WEATHERFORD: Thank you
22 very much.

23 Next up we have Bill Bunting, and after
24 Bill, we have Ken Blankenship.

25 Bill, thank you for being here, sir.

1 MR. BUNTING: Well, thank all of you for
2 being here. You guys are doing a great job.
3 Now you will hear from me, and we will see how
4 great it is going to be.

5 Okay. One, I am going to be more specific
6 on the growth. First of all, I am a Pasco
7 resident for 23 years. I am on the
8 Governmental Affairs Board of Directors for
9 West Pasco Chamber with 1,400 businesses, and I
10 am on the Advisory Board of Directors for the
11 Salvation Army, so I am involved in my county.

12 One, we would like to see Richard
13 Corcoran's seat move up out of Pinellas.
14 Pinellas is going to lose their growth, they
15 have to give up ground, so there is no
16 question. Representative Corcoran has
17 represented Pasco very well, and we think he
18 should be a full Pasco legislator, just like
19 John Legg and hopefully Will Weatherford will
20 be out of Hillsborough and be a full
21 legislator, too.

22 The second part is extremely important,
23 and that is Congressman Bilirakis' district,
24 District 9. He represents three counties. It
25 would be -- behoove us if we could get

1 Mr. Bilirakis out of Hillsborough County and up
2 into east Pasco so he would only have two
3 counties to represent, it would be easier
4 access for all of the people to get in, and he
5 also is a great legislator.

6 And on the Senate seats that you are
7 hearing here, they are going to be contested in
8 Pasco, we have three precincts from a State
9 Representative whose name escapes me from
10 Hernando County, if we could push him back into
11 Hernando County, that would solidify what we
12 have to do.

13 And we think it is important that these
14 legislators come here, Mr. Weatherford is here
15 and John Legg is here and Mr. Corcoran is here.
16 Crime is an issue on the west side of Pasco
17 County, and the more we have legislators that
18 are directly involved in their own county and
19 they can work with our sheriff, we will be
20 better served. And I look forward to seeing
21 y'all on television when you have to redistrict
22 Corrine Brown's district. Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much, Bill. We appreciate that, sir.

25 Next up we have Ken Blankenship, and after

1 Mr. Blankenship, we have Nick Bliesner.

2 Mr. Blankenship, are you here, sir? There he
3 is. Mr. Blankenship had the misfortune of
4 having to teach many of my brothers and sisters
5 in Land O' Lakes High School. Thanks for
6 bearing with us then and we appreciate you
7 being here tonight, sir.

8 MR. BLANKENSHIP: I think I even got to
9 teach you one day as a sub.

10 I am Kenny Blankenship. I am from Land O'
11 Lakes, Florida, I am a teacher in Pasco County,
12 and I have lived here since there was one house
13 in Lake Padgett Estates. There was no Trinity,
14 there was no Wesley Chapel when I moved.

15 This -- you can answer something for me.
16 I am a bit confused. You and Mr. Legg must be
17 playing tag team with the chairmanship. I got
18 a letter stating Mr. Legg was going to be the
19 Chairman, so -- but no problem. I always enjoy
20 when you are Chair, too.

21 REPRESENTATIVE WEATHERFORD: He is a
22 Chair, he is a co-Chair.

23 MR. BLANKENSHIP: Co-Chair, okay.

24 To me, not having maps to comment on is
25 kind of confusing. I am a visual person, I

1 like to see things that I make comments on.
2 And I think -- I think it would have probably
3 been a little bit more prudent to have maps
4 drawn as other states have already done and
5 then take public comment on those maps and make
6 adjustments according to the public's desires
7 as you went along.

8 Will you be holding public hearings once
9 the maps are completed is one question that I
10 have. I would encourage you to complete the
11 maps -- the drawing of the maps and the
12 preliminary hearings that you are going to be
13 conducting that begin in September so that you
14 can vote on them during the first week of the
15 legislative session. I think waiting and
16 pushing it out to the last possible minute
17 would be confusing for voters and those who may
18 desire to run for office. I would like to know
19 which district I am going to be voting in well
20 in advance of any deadline to either register
21 to vote in or to run for office should I so
22 desire.

23 My desire is that you draw the maps
24 according to Amendments 5 and 6 that were
25 ratified by the people of Florida so that they

1 are equitable, that they are fair and that they
2 are contiguous. I hope that you will -- also
3 hope that you will withdraw from the lawsuit
4 that you entered into and that you would save
5 that \$30 million that you had set aside and
6 follow the Florida Constitution and the will of
7 the people in Florida. And thank you very
8 much, and thank you, ladies and gentlemen, for
9 being here.

10 REPRESENTATIVE WEATHERFORD: Thank you,
11 Mr. Blankenship. You brought up several
12 questions there, and I believe our co-Chairman,
13 Senator Gaetz, will make sure and try to
14 address each and every one of those questions,
15 so thank you very much for that.

16 Nick, you are up, sir, and after Nick, we
17 have -- I believe it is Maurice Massey. Thank
18 you for being here today.

19 MR. BLIESNER: Thank you, Chairman
20 Weatherford, Chairman Gaetz. I am actually --
21 lived for the last ten years on Indian Rocks
22 Beach, the beautiful pristine coast, the Gulf
23 Coast. There was no oil, I checked before I
24 left, but I -- the last four years, I have been
25 a resident of Pasco County, attending St. Leo

1 University. I am only 23 years old. I think
2 that is relevant, because it is a travesty that
3 there aren't more students, more younger people
4 my age involved in this process. And having
5 been in Pasco for the last four years, I have
6 noticed that it is -- it is a wonderful
7 community and it is a -- truly it is a
8 different community than the one that I grew up
9 in back in Pinellas, and it definitely
10 encompasses that melting pot that -- you know,
11 culture that the state prides itself on, and I
12 think that the biggest issue that we face is
13 trying to encompass all of that into one, you
14 know, area, and having one district, two
15 districts, even three I don't think is enough
16 to represent the wonderful aspects of Pasco
17 County.

18 But I think the other important thing,
19 too, is that we as residents and citizens of
20 the state of Florida, and you as the Board,
21 might -- we all might misunderstood, and I was
22 a history major at St. Leo, so I came across
23 this quote by James Madison that I think was
24 extremely relevant, and it says, "A dependence
25 on the people is no doubt the primary control

1 on government, but experience has taught
2 mankind the necessity of auxilliary
3 precautions." While, yes, we have the right to
4 express our opinions and we have the right and
5 the honor of electing you all, we also need to
6 know that we do need the help of you all.

7 So thank you for your time, and I know
8 that you all will make the right decisions.

9 REPRESENTATIVE WEATHERFORD: Thank you,
10 Nick.

11 Next up we have Maurice Massey. Is
12 Maurice here? All right. We will put him on
13 the side, we will keep moving.

14 Matt Edwards, I saw Matt was here earlier.
15 Is Mr. Edwards here? Okay, we will keep going.

16 Next up, Lutfi Jadallah. Mr. Jadallah,
17 sir, I'm sorry if I mispronounced that. It is
18 good to see you again. Thank you for being
19 here, you are recognized.

20 MR. JADALLAH: Yes, sir. My name is Lutfi
21 Jadallah. I have been a Wesley Chapel resident
22 since '97. I want to thank you for being here.
23 Welcome to Wesley Chapel.

24 You know, I am glad I am involved in this
25 thing, because I think we want to move forward.

1 I believe Amendment 5 and 6 says that you have
2 to follow contiguous, follow city lines,
3 counties, and where it's feasible, be feasible.
4 Right now we have Representative in -- for
5 Pasco that is part of Hillsborough or Polk
6 County, and even though I respect the other
7 counties, but we want to have a Representative
8 for the Pasco County.

9 Also I want to ask you all -- I believe
10 that you all are adults and mature, and I would
11 truly, truly appreciate that you will behave
12 that way in Tallahassee. I have been a
13 Republican since I was old enough to vote, so I
14 understand, but also we want to quit this us
15 and them, us and them. I think we should be
16 we.

17 So please keep in mind Amendment 5 and 6,
18 and keep in mind the people who put you there.
19 Thank you very much.

20 REPRESENTATIVE WEATHERFORD: Thank you,
21 sir.

22 And I apologize, next up we have David
23 Kulscar, or Kulcsar. Did I say it right? I'm
24 sorry, David. You are up, sir, and after that,
25 we will have Mr. Gary Willner.

1 MR. KULCSAR: Thank you for coming
2 tonight. A lot of people that spoke tonight
3 are acting like it is a turf war between east
4 Pasco and west Pasco, whatever. We are not
5 Europe, and I think we should act that we are
6 not like going to be having wars over this.

7 I see you right there, Mr. Weatherford, I
8 see you there, Mr. Norman, I see you there, Mr.
9 Gaetz. I know what each of your districts look
10 like. For example, Mr. Norman, you used to
11 represent in the County Commission of
12 Hillsborough County, north Tampa --

13 REPRESENTATIVE WEATHERFORD: Speak into
14 the mike a little bit. It is kind of hard to
15 hear you.

16 MR. KULCSAR: Sorry. And you represent
17 districts that are very much areas. For
18 example, Mr. Gaetz, your district is on the
19 coast in Pensacola, and you are probably not
20 going to be drawn into the areas of north
21 Escambia and north Santa Rosa, because they are
22 just too -- just different from where you are.

23 Mr. Weatherford, you represent Wesley
24 Chapel and the eastern part of this county.
25 These areas, they may have been scorned by the

1 people that voted for 5 and 6 about how they
2 are drawn for gerrymandering purposes, but I
3 think one thing is this: These districts can
4 be drawn fairly without much changing of the
5 status quo. For example, Mr. Norman, how often
6 have you gone up and down U.S. 41 and not even
7 notice the difference between Lutz and Land O'
8 Lakes? There's not much difference, is there?

9 So I think we should at least be
10 acknowledging about the way some areas are.
11 Some areas can't be drawn from another one.
12 For example, Mr. Rouson's district, his
13 district goes from Tampa to St. Petersburg to
14 Bradenton and Sarasota. Now, his district is a
15 little more complicated than most, but the
16 think of the contiguousness of 5 and 6 asking
17 for it. It says here in the pamphlet you gave
18 us that the districts have to be contiguous,
19 and a district is contiguous if all of its
20 territory is interrupted. And I think we need
21 to look into this more often because, well, we
22 have bridges in Florida, whatnot, but it is
23 kind of wrong to see a Representative
24 representing just a part of a city for
25 political purposes or whatever purposes, to get

1 the numbers up in a certain demographic, simply
2 out of political expediency. And I think that
3 perhaps by drawing your districts in a fair
4 way, at least think of like where the core of
5 the district would be, whether it be a House
6 district, a Senate district or congressional
7 district, that at least adheres to a bit of
8 compactness. And I think by doing that, it can
9 easily be achieved, voters can be happy, you
10 can be happy, of course, you will at least have
11 shorter places to drive when you have
12 constituent services, and we can at least have
13 some parity when it comes to our congressional
14 districts, State House districts and State
15 Senate districts. And I think that should be a
16 standard that we should try and strive for, and
17 for -- and it is probably the best for Florida
18 anyway. So thank you.

19 REPRESENTATIVE WEATHERFORD: Thank you
20 very much. Great comments.

21 Next up we have Mr. Gary Willner, and
22 after Mr. Willner, we have Mr. Charles Waller.

23 MR. WILLNER: Good evening, Gary Willner,
24 I live in Trinity.

25 First of all, I hope you all have tough

1 skin, because when this is over I figure six
2 million people are going to love you, six
3 million people are going to be angry at you,
4 and the six million that don't know what is
5 going on won't care.

6 REPRESENTATIVE WEATHERFORD: The question
7 is which one of those are you going to be?

8 MR. WILLNER: I am hearing two schools of
9 thought tonight. One is to sort of try and
10 keep counties together. I am not of that
11 school at all. What I would hope you would do
12 is consider areas of interest together. For
13 example, the coastal areas of Citrus, Hernando
14 and Pasco have a great deal in common. They
15 have issues around the Gulf, they have issues
16 in restoring beaches, they have issues in how
17 do you get away from a hurricane, which are
18 considerably different than the inland issues
19 of Citrus, Hernando and Pasco. Now, I am not
20 an expert on Hillsborough County, but I've got
21 to think that the people in Tampa have
22 different issues than the area where they grow
23 the strawberries. They are day and night. So
24 I would hope you would sort of not get hung up
25 on the counties, but keep in mind that the

1 areas of interest that people have.

2 Frankly, I am kind of happy that there's
3 three Senators in Pasco. I think that is three
4 votes we have in the Legislature. I am not
5 bothered by the fact that we have six, and I am
6 delighted that we are -- the next Speaker and a
7 future Speaker. I kind of like that. I love
8 my Congressman, and I hope I am -- I always
9 joke on Congressman Bilirakis -- I am the last
10 house in Congressman Bilirakis' district, and
11 when you are done, I would be very happy if I
12 am still the last house in Congressman
13 Bilirakis' district.

14 Thank you for what you are doing, but
15 please try and keep the common interests
16 together, more than county lines, because
17 there's a lot of different interests and issues
18 that can take place in the same county. Thank
19 you for being here tonight.

20 REPRESENTATIVE WEATHERFORD: Thank you
21 very much. We appreciate those comments,
22 Mr. Willner.

23 Next up we have Mr. Waller, and following
24 Mr. Waller, we have Peter Hanzel.

25 Thank you for being here, sir.

1 MR. WALLER: I realize the acoustics here
2 are not the best. I hope they are better up
3 there than they are back here.

4 I am Charles Waller. I would just like to
5 let you know that my children are
6 seventh-generation cattle ranchers here in
7 Pasco County, Florida. We are -- I've been an
8 attorney here in Pasco County for 41 years, I
9 served 12 years as city attorney, City of
10 Zephyrhills, I have been appointed by three
11 different Governors to the Tampa Bay Regional
12 Planning Council, so I have an interest in my
13 community.

14 What you might not know, and I am not
15 going to throw stones, but about 35 years ago
16 it went on a referendum here to actually
17 separate west Pasco from east Pasco. Thank
18 goodness it was defeated, but we do -- we do
19 have a diverse interest. And when I come to
20 you, I like to come with a solution. I don't
21 know if it is permissible to give a document,
22 Mr. Weatherford, or not, but if I can, I would
23 like to pass this around, because you need to
24 do some research, and I've come here to help
25 you, I have done the research for you. And

1 we've got communities here of like interest.

2 There is nothing wrong with the people in
3 New Port Richey and Hudson. We have -- in
4 addition to living in Dade City, we have a
5 weekend home over there, but we speak a
6 different language. Over there, they talk
7 about arts and crafts. Over here, we talk
8 about rodeos and county fairs. Someone said
9 this is not rural. I don't want to see rural
10 then. I still take in chickens and eggs for
11 making wills and doing divorces. But we need a
12 Representative who can talk our language, and I
13 say "ours." We have in northeast Pasco a huge
14 minority population who help us out and work in
15 our businesses and in our agricultural
16 business. They need representation.

17 So I've got a solution for you, and that
18 is simply take the Parkway, make that the
19 dividing line. That area over there has
20 similar interests up and down that coast, and
21 if you will take that Parkway and come forward
22 then through the rest of central and east
23 Pasco, come up through Sumter County and
24 Hernando County, we speak the same language.
25 We are farmers, we are ranchers, we are chicken

1 farmers, we are cattle farmers, we own groves,
2 and we need someone who can look out for our
3 interests. And in the past, you know, we have
4 had great representation, but it is not easy
5 trying to balance the interests of New Port
6 Richey and Dade City, and we need someone who
7 has an agricultural interest who can speak for
8 us.

9 And thank you for coming. I wish this
10 meeting were in Dade City, because in Dade
11 City, we have never seen this many suits and
12 ties in one place ever. And I know our
13 hospitality here in Pasco County, and I feel
14 assured that Representative Weatherford is
15 going to invite all of you over to his house
16 for dinner when this is over with, but if it is
17 permissible to hand something --

18 REPRESENTATIVE WEATHERFORD: Yes.

19 MR. WALLER: And maybe you can pass this
20 around so --

21 REPRESENTATIVE WEATHERFORD: Counselor, we
22 will make sure everybody gets a copy of that.

23 MR. WALLER: And that will solve the whole
24 constitutional issue that we have here of
25 community interest. Thank you for your time.

1 REPRESENTATIVE WEATHERFORD: Thank you,
2 Mr. Waller. We appreciate that.

3 All right. Next up we have Mr. Peter
4 Hanzel, and after that, we have -- I believe it
5 is J. Arnigale, Sr. I hope I said that right.

6 Peter, thanks for being here, sir, you are
7 recognized.

8 MR. HANZEL: I want to thank all of you
9 for coming out and listening to us tonight
10 before you produced any maps, and I would like
11 to say something to my friends over here to the
12 right. I don't know what it is, whether it is
13 optical illusion or not, but you all seem so
14 far away, so I hope you all listen to my
15 comments tonight, please, I need you, I need
16 your help. I do need you all.

17 I am here as an individual citizen, and my
18 concerns are -- and I am going to start with my
19 third concern and move my way up to my top
20 concern. My third concern deals with District
21 12. We already heard one remark tonight, how
22 it should include Zephyrhills, which is
23 currently in District 10, and I agree that it
24 should be moved into District 12. And to make
25 it fair and balanced, I would say let's take

1 that area that is represented currently in
2 District 12 and remove the areas of
3 Hillsborough into another district. That is
4 basically the New Tampa area.

5 The second request I have deals with one
6 of my favorite districts, House District 61. I
7 think that district does need to lose some
8 individuals. I don't mean lose them like in
9 lost. I mean reduce the number of people
10 there. I want to make myself clear on that. I
11 think the line needs to move east to Land O'
12 Lakes and delete that portion that currently is
13 in Hillsborough County.

14 And I apologize, I made a mistake earlier.
15 This area is in the New Tampa area that deals
16 in Hillsborough. The other area that was in
17 Senate District 12 was basically Citrus Park
18 and Northdale area and some other communities
19 over in that area. I apologize for that
20 mistake.

21 But I also agree, and it was mentioned
22 earlier, that the Crystal Springs area should
23 move into District 61. It is a very small area
24 and it is currently in House District 62.

25 Now, my other concern is this: I sit on a

1 community development district board, and, you
2 know, I don't have to say this, but that was
3 created by Florida Statute 190. And they are
4 basically -- I call them amoebas, but they are
5 very small governmental districts. And what I
6 would like to ask, and I need your help on this
7 one here, is to make sure that wherever you
8 draw those lines at for these larger districts,
9 the more important districts -- and you see
10 where I am going, don't you -- I am going to
11 make sure that when you do draw those lines,
12 that there is no line that would separate or
13 divide those CDD districts.

14 And, again, I want to take the opportunity
15 to thank all of you for being here, and thank
16 you all over there to my right for listening to
17 me. Don't forget, help me out on this issue,
18 please. Thank you.

19 REPRESENTATIVE WEATHERFORD: Thank you,
20 Peter. We appreciate that, sir.

21 Next, I don't know if I said the name
22 right, and I apologize, I am sure it's just my
23 eyes, J. Arnigale, Sr., from 2595 Southern Bell
24 Drive. I see somebody -- no? Okay, we will
25 put him off to the side for just a minute.

1 Next we've got Paul Waltenberg, Watenberg,
2 or Wartenberg, I'm sorry. Paul? Is Paul here?

3 Okay. Next up we have Sheada Madani
4 Practico. Sheada?

5 All right. Greg Lenners, I saw Greg
6 earlier. I don't know if he is still here.
7 Greg Lenners, is Greg here? Greg runs the mall
8 that Kathleen spent all her money at earlier
9 today. I don't see him here either.

10 Okay. Gary Worthley. Is Gary here?
11 Okay, he says he is not speaking, he is just
12 happy to be here. All right, we are happy to
13 have you.

14 Karen Hanzel, I know Karen is here. Is
15 Ms. Hanzel here? There she is. All right.
16 After Ms. Hanzel, we will have Emily Barsch.

17 Ms. Hanzel, thank you very much for being
18 here. We are excited to have you. You are
19 recognized, ma'am.

20 MS. HANZEL: Thank you. I am Karen
21 Hanzel. I live in Wesley Chapel. I have been
22 there for 11 years.

23 When possible, I would like to see the
24 Senate and House districts be drawn into one
25 county. For as an example, I think Pasco

1 District 61 should be exclusively represented
2 in central and east Pasco. The portion of
3 Hillsborough County which is now included in
4 61, which is south of Wesley Chapel, I believe
5 should be removed from that district.

6 Basically what I am saying is try to keep the
7 State Representatives in one county, rather
8 than spread out.

9 Thank you, and I really commend all of you
10 for being here. Thanks a lot for listening.

11 REPRESENTATIVE WEATHERFORD: Thank you
12 very much. We appreciate that.

13 Next up we have Ms. Emily Barsch.
14 Following Ms. Barsch, we have John Russell.

15 Emily, thank you for being here.

16 MS. BARSCH: Good evening, and thank you
17 all for coming. We really appreciate it.

18 I am a native Floridian, growing up in the
19 metropolitan area of Jacksonville, probably
20 only one of 20 people that ever lived in Two
21 Egg, Florida, and also I have lived in the
22 Marion County area and now in Pasco County.

23 Having been in such diverse areas of
24 Florida, rural opposed to metropolitan, I think
25 it is extremely important to keep that in mind

1 when redistricting Florida. As many have said
2 before me, it is very imperative that we
3 remember that there is a diverse group in this
4 county, and we need to make sure that people
5 are represented according to their diversity.

6 We appreciate the fact that you will
7 listen to us and not to groups that are -- that
8 have ulterior motives, and we trust that you
9 will do what is best for this county and what
10 is best for the people of this county. The
11 special interest groups do not always have our
12 best interest at heart, so we know that you
13 will listen to we, the people. Thank you very
14 much for being here, and we certainly
15 appreciate it.

16 REPRESENTATIVE WEATHERFORD: Thank you
17 very much, Emily, we appreciate that.

18 Next up we have Mr. John Russell.
19 Following Mr. Russell, we have Hugh Townsend.

20 Mr. Russell, you are recognized, sir.

21 MR. RUSSELL: Thank you very much. Of
22 course, we appreciate everyone being here. I
23 think some of you have driven some distance to
24 be here.

25 I would like to say how I would have done

1 this. No one has said this. I think we have
2 some people who have gone to business school
3 here, run some businesses, and quite frankly,
4 the parameters that are outlined in Amendments
5 5 and 6 are quite precise. So rather than have
6 this quite discombobulated effort of people
7 drawing up their own districts and -- I mean,
8 in reality, if people -- if a thousand people
9 drew districts, which wouldn't be an outrageous
10 number, you are on the Internet, what are you
11 going to do with those? The idea is to draw
12 fair districts. The parameters are quite
13 strict. So you draw the fair districts, you
14 come here with pro forma designs, which
15 Mr. Chojnowski said earlier in this program,
16 and you put it on a computer like they have
17 done in Hillsborough County to redo the county
18 commission districts, and then your task is
19 greatly simplified.

20 But, of course, we know this is political,
21 it is inherently political. And the bottom
22 line is, we know how -- those of us who have
23 run for office know how things work. With one
24 single variable being the great arbiter between
25 who gets elected, that being money, no one

1 knows better than Mr. Weatherford with \$927,000
2 for a \$30,000 --

3 REPRESENTATIVE WEATHERFORD: Mr. Russell,
4 we would like you to keep the focus of the
5 conversation on redistricting.

6 MR. RUSSELL: It is focused totally on
7 redistricting, Will, totally.

8 REPRESENTATIVE WEATHERFORD: Please do.

9 MR. RUSSELL: This is our political
10 system, which is sadly broken. And this is one
11 effort that the public of all political
12 persuasions have decided, they have had their
13 vote, they have had their vote counted, and it
14 is counted greatly in the majority to have the
15 districts fairly apportioned. It is your job,
16 because you work for us, as people have said,
17 but we know that, when we are in politics, we
18 understand that these people here don't get
19 great sums of money nearing a million dollars
20 or whatever to do the will of the people. It
21 is to do the will of the powers that be.

22 And so, quite frankly, I am going to hand
23 you this, and the guy's name is Dan Hardy. You
24 know, if you truly were interested in doing
25 this properly, you would give Dan a call. I

1 talked with Dan, and Dan ran this thing, it is
2 about being objective. There's nothing
3 subjective about doing this.

4 So I could go on and on about how broken
5 the political system is. Most people
6 understand it. It is money that is the
7 problem. But we have the people here who,
8 because of the money, they are mostly
9 appointed, you are appointed by virtue of the
10 amount of money that you receive from the
11 powers that be. Same with the judiciary where
12 this is going to go.

13 REPRESENTATIVE WEATHERFORD: Mr. Russell,
14 I think it is time to wrap up, sir.

15 MR. RUSSELL: Hold on one second, I am
16 almost done. Let me make my conclusion here,
17 Will.

18 REPRESENTATIVE WEATHERFORD: Okay.

19 MR. RUSSELL: The judiciary likewise is
20 appointed in the same way, so we know this is
21 going to the courts --

22 REPRESENTATIVE WEATHERFORD: Mr. Russell,
23 I think we get your point. We really
24 appreciate your comments tonight.

25 MR. RUSSELL: Will, I know. Just let me

1 complete my sentence.

2 REPRESENTATIVE WEATHERFORD: If you keep
3 it on redistricting, I will let you finish.

4 MR. RUSSELL: The bottom line is --

5 REPRESENTATIVE WEATHERFORD: Mr. Russell,
6 I will give you 15 seconds to wrap it up.

7 MR. RUSSELL: Exactly.

8 REPRESENTATIVE WEATHERFORD: There you go.

9 MR. RUSSELL: Shouldn't have been
10 interrupted in the first place.

11 The judiciary will see fit, and you are
12 going to run this thing through using our tax
13 dollars against us. I thank you very much.
14 This is a dog and pony show. It is a fig leaf
15 over what will be the end result. Thank you
16 very much.

17 REPRESENTATIVE WEATHERFORD: Thank you
18 very much, sir.

19 All right. Moving on, we are now going to
20 hear from Mr. Hugh Townsend. Hugh, thank you
21 for being here, sir. After Mr. Townsend, we
22 are going to hear from Tom Hanlon.

23 You are recognized.

24 MR. TOWNSEND: Well, first of all, good
25 evening and thank you all for coming out, both

1 our elected officials and our residents here.
2 My empathy to you. Having been on the Board of
3 Planning and Zoning, I have faced that same
4 type of interesting exchange.

5 But on a much brighter note, I came down
6 here to Pasco County in '93, and for almost the
7 entire time I have been the President of my
8 homeowners' association. We, however, in our
9 association, are split between two
10 congressional districts. If at all possible --
11 again, to reiterate -- to keep homeowner
12 associations and major communities intact with
13 representation from one congressional district
14 would be the first thing I would like to see,
15 if possible.

16 Secondly, I serve on the parish council of
17 St. George Greek Orthodox Church. I am very
18 active in the Greek community, despite the
19 name, and I would like to see an ethnic
20 community that we have established in this
21 greater west Pasco area and northern Pinellas
22 of Hellenic Americans continue to be
23 represented as they are currently with an
24 excellent congressional district that can
25 address the needs of not just the general

1 populi, but that of the specific Greek
2 community.

3 So I would like to see our congressional
4 district that is currently occupied by
5 Congressman Bilirakis to stay for the most part
6 intact and able to represent the Greek
7 communities that range from our church here in
8 Pasco County on the southwest side all the way
9 down through Clearwater.

10 I also am fortunate to serve as co-Chair
11 of the Juvenile Justice Board and on the
12 Juvenile Justice Council, because the Sixth
13 Judicial Circuit, as some of you are aware, is
14 all of Pasco and Pinellas, so in that respect,
15 moving on to a Representative seat, I would
16 like to see the existing Representative seat
17 continue to represent both this area. The fact
18 that we have three Representatives representing
19 Pasco actually makes a great deal of sense.
20 You have heard in great length about the
21 patrician families and the agriculture to the
22 east, which is true. We also have a growing
23 population of young, upward professionals
24 moving from north Tampa, and, of course, we
25 have the Hellenic community that I like to

1 represent, as well as the New York community
2 that's moved down and taken over the west side
3 of Pasco. So having three different State
4 Representatives would be essential to maintain
5 a homogenous representation for those
6 communities. If --

7 REPRESENTATIVE WEATHERFORD: Hugh, I am
8 going to have to ask you to wrap it up.

9 MR. TOWNSEND: Lastly --

10 REPRESENTATIVE WEATHERFORD: Okay.

11 MR. TOWNSEND: -- if we can get one Senate
12 seat representing all of Pasco, that would be a
13 wonderful conclusion to a good process every
14 ten years that we serve here. Thank you all
15 very much.

16 REPRESENTATIVE WEATHERFORD: Thank you
17 very much.

18 Next up we have Tom Hanlon, and after Tom,
19 we have Randy Hixson.

20 Tom, thanks for being here, sir. You are
21 recognized.

22 MR. HANLON: My name is Tom Hanlon. Thank
23 you --

24 REPRESENTATIVE WEATHERFORD: If you would
25 get real close to that mike. There you go.

1 MR. HANLON: My name is Tom Hanlon. I
2 appreciate you giving me the opportunity to
3 talk to you. We on the east side are happy to
4 give you the flavors we do on this side, and
5 they never will match that on the west side,
6 and you have to take that into account. We are
7 a rural company -- I mean part of the county.
8 We are happy to give you that, give you the
9 beauty. And just don't take -- what we need is
10 a Representative to represent our interests.
11 You know, the County -- the County just made
12 the growth in central Pasco -- they don't want
13 to have growth, and we are happy to do that,
14 and we ask you to do the same thing and take
15 care of our interests in east Pasco. Thank
16 you.

17 REPRESENTATIVE WEATHERFORD: Thank you
18 very much, Tom, we appreciate it.

19 Ladies and gentlemen, if we could ask
20 people in the back, if you are having a
21 conversation, it is getting a little hard to
22 hear in here, we would ask you to take it
23 outside. So please give the speakers the
24 respect that they deserve.

25 Mr. Hixson is up. After Mr. Hixson,

1 Ms. Alison Morano.

2 Randy, good to see you, sir. You are
3 recognized.

4 MR. HIXSON: Thank you. Thank you,
5 Representative Weatherford and members of this
6 Legislature. I just wanted to -- my name is
7 Randy Hixson. I am a Pasco County resident,
8 been here 11 years, live in Seven Oaks.

9 I just want to reiterate one of my
10 thoughts for you to take away from this
11 meeting. It has been said a couple of times
12 before, but I live in Seven Oaks, as you are
13 drawing these lines, I think it is very
14 critical and important that you don't just take
15 a pencil and draw through communities, that you
16 use community boundaries as a boundary so we
17 can keep communities together as they are CDD
18 communities that have common -- common
19 interests, and also to keep that community
20 unity together. So I think it is very critical
21 that you do that. There are some communities
22 that are divided. I would ask that you
23 consider putting those back together and then
24 not dividing any future communities.

25 I thank you for your time, and God bless

1 you and I thank you for your work here. Thank
2 you.

3 REPRESENTATIVE WEATHERFORD: Thank you,
4 Mr. Hixson. We appreciate it, sir.

5 Next up we have Ms. Alison Morano.
6 Alison, it is good to see you. Followed by
7 Alison, we have Mr. Robert Nathe.

8 MS. MORANO: Hi. Good evening,
9 Representative. Good evening, everybody. I am
10 a resident of Wesley Chapel, and I have lived
11 here for about 11, 12 years. I know this
12 county pretty well. I have served on the Board
13 of Pasco United Way, I have served on the Pasco
14 County Long-Range Library Planning Committee, I
15 have served on the Boards of Leadership Pasco,
16 I have served on Leadership Tampa Bay, I have
17 served on several other committees, including
18 being -- serving as the Chair of the Greater
19 Wesley Chapel Chamber of Commerce for three and
20 a half years. I was here before this high
21 school was built. I was here for the
22 groundbreaking of Wiregrass. So I know this
23 county pretty well.

24 One of the things I would like to disagree
25 with that's been brought up is that Wesley

1 Chapel actually is a very diverse, growing
2 community. I absolutely do believe that we
3 work with New Tampa and that we -- I have an
4 identity with Hillsborough County. I would not
5 like to see that cut off in any way.

6 But I would like to say thank you and that
7 I appreciate all the legislators that are here,
8 and I appreciate that you are taking this time
9 to listen to us.

10 I also appreciate the 63 percent of the
11 voters that came out in 2010 to pass Amendments
12 5 and 6, and I hope that you will all take the
13 time to implement what we have asked for and
14 what the voters have asked for.

15 And as far as the maps being drawn, I
16 think that 5 and 6 pretty much lay out the
17 makeup of what you need to do in order to draw
18 these maps, and it may be an arduous task, but
19 I think that the rules are there and the lines
20 are there to be drawn and the numbers are there
21 from the census and the demographics are there
22 to make this a lot easier than it would have
23 been if you are starting from scratch. And
24 what you have asked us to do basically is start
25 from scratch, because we -- we do not have your

1 knowledge of the census or the demographics,
2 and we can go on the software, and maybe it is
3 very advanced, but we believe that all of you
4 providing us the starting point and then we can
5 have our input is the way this process is
6 supposed to go.

7 Now, having said that, another thing that
8 was brought up this evening by our Supervisor
9 of Elections from Pasco County is the matter of
10 timing. I realize that the Legislature is
11 going to start in January 2012, as I believe
12 happens every time there is a redistricting
13 process, you start in 2012. I am not sure that
14 this year is an exception. But I think that if
15 you don't give us maps by August -- by January
16 when you are ready to meet, and you wait until
17 August, as Brian Corley brought up, you put us
18 in a very difficult position of being able to
19 tell people who they are voting for and where
20 they are voting. You are right on the tail of
21 the primary, which is only two weeks later,
22 given the date that I have been reading about,
23 and I don't know how we get through the court
24 process and then the Department of Justice
25 process and then the redistricting and the

1 precinct re-draws and notifying everybody where
2 it is they are supposed to vote in time to be
3 able to even think about a primary. That
4 doesn't even start with the fact that the vote
5 by mail ballots go out so soon after you are
6 talking about passing these maps. I just think
7 that the timing is very bad, and I would
8 appreciate it if you could come into the
9 January legislative session in 2012 with maps
10 drawn, put them on the table and let us start
11 from there. This process of going around the
12 state and holding these hearings is taking a
13 very long time, and I believe that we could
14 have maps in that process that you could be
15 bringing with you.

16 So thank you for your time and thank you
17 for coming out, and I hope you enjoy Wesley
18 Chapel.

19 REPRESENTATIVE WEATHERFORD: Thank you
20 very much, Alison.

21 Next up we have Robert Nathe, Jr.,
22 followed by Jeff Novotny.

23 Junior, good to see you, sir. You have
24 the floor.

25 MR. NATHE: Thank you all. Thank

1 everybody for being here. I am
2 fourth-generation native of Pasco County, Dade
3 City area, and I am not very good at speaking.

4 REPRESENTATIVE WEATHERFORD: You are doing
5 good.

6 MR. NATHE: Our family has been in ag, and
7 the east side of the county is heavy -- heavily
8 rural agriculture, and with -- the other
9 counties is Sumter and part of Hillsborough and
10 Hernando Counties, you have the same
11 demographics. The west side of Pasco County is
12 a lot different. I have seen this county
13 change dramatically over the years, and I just
14 bring that up. Thank you all.

15 REPRESENTATIVE WEATHERFORD: Yes, sir,
16 thank you very much. Great comments.

17 We have Jeff Novotny up, and after
18 Mr. Novotny, we have Robert Graydon.

19 Jeff, good to see you.

20 MR. NOVOTNY: Good to see you, too. Thank
21 you very much for coming out and for your time
22 and your patience to listen to all of us here
23 tonight. My name is Jeff Novotny, I live at
24 29725 Chapel Park Drive, Wesley Chapel. I am a
25 business owner here in Wesley Chapel, one of

1 the few ten years ago, but our area has changed
2 from being a pass-through zone to being an
3 origin point for many people. It is now
4 becoming a destination for many.

5 The boundaries between the counties
6 somewhat get muted. Other than our children
7 going to different schools and our taxes being
8 collected by a different tax collector, many of
9 the people that live here also commute down to
10 the New Tampa area. So I think it is important
11 that as you are drawing districts, you look at
12 different areas and the character of the
13 communities, the areas that you serve, the
14 needs and the interests of the people and how
15 they align. It is also important that you look
16 at communities and developments and keep those
17 common and together.

18 With that, I think if you were to look at
19 Wesley Chapel in ten years, maybe it serves its
20 own House district because it will be large
21 enough. However, until that point, if you were
22 to take Wesley Chapel and expand beyond that,
23 there are similarities with New Tampa, so it
24 does make sense to include New Tampa in some of
25 the discussions there.

1 There is a big difference between this
2 area and the western part of the county on the
3 other side of Suncoast Parkway, so a dividing
4 line makes sense at that point. As you expand
5 from Wesley Chapel, the Land O' Lakes and Lutz
6 area have a lot of similar character, as well
7 as Zephyrhills, so that becomes kind of a
8 contiguous zone with common interests.

9 So with that, I appreciate your time, and
10 have a good time.

11 REPRESENTATIVE WEATHERFORD: Thank you,
12 Jeff. We appreciate that.

13 Next up we have Mr. Robert Graydon. After
14 Robert, we have Cliff Gill.

15 MR. GRAYDON: Hello, my name is Robert
16 Graydon. I am actually a native Floridian,
17 born and raised in the Panhandle of Florida,
18 moved here in '88 and actually live in Wesley
19 Chapel now since '93, raising my family here.
20 It is a great place to raise your kids.

21 Like -- actually, like the previous
22 speaker, one thing I do want to say is I am
23 generally pretty happy with the way that our
24 district is. I do want to encourage you to
25 definitely keep in mind the types of

1 communities in the area. Obviously, western
2 Pasco is definitely different than central
3 Pasco, but we are also considerable different
4 than the rural farming areas. This area is
5 growing like crazy. It wasn't too long ago
6 that we would have been in a cow pasture right
7 here. I have seen all of that change since I
8 have been here. When I first moved here in
9 '93, again, Bruce B. Downs was a road to
10 nowhere.

11 So it is definitely growing. It is a
12 great place to be. We need representation that
13 recognizes that it is a growth area. It is
14 very important to us to continue that growth
15 and to make it even more of a destination
16 rather than just a bedroom community to Tampa.

17 That is all I have to say. Thank you.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much.

20 Next up we have Cliff Gill, and after
21 Cliff, we have Joe Worrell. Cliff? I don't
22 see Cliff, so we will put him to the side and
23 allow Joe to come up.

24 Joe, good to see you, sir, and after
25 Joe -- I apologize if I can't say this name

1 right, but Colleen Branch, maybe, or Calvin
2 Branch, on 12718 Sugar Creek Boulevard. There
3 we go. Sorry about that, sir. I'm sure it is
4 my eyes.

5 Joe, you are recognized.

6 MR. WORRELL: I'm Joe Worrell. I have
7 been a resident of Pasco County for 25 years.
8 I am glad to see all of you here. A lot of you
9 are from south Florida. You had a good trip
10 up, I hope.

11 When I moved to Pasco County, I closed on
12 my home in '87, I drove down Bruce B. Downs,
13 581 30th Street, met one car. The sign for
14 Wesley Chapel was at Smith Road. The rest of
15 it was all Zephyrhills. Now they have moved it
16 and they've got the sign up at Marsh Ridge
17 Road.

18 What I would like to see is if we are
19 going to have three Representatives, one for
20 the east, one for the central, one for the
21 west, but don't split communities, don't split
22 neighborhoods. We have the population now for
23 Senate seat for the entire county. We've got
24 the people say we've got a problem with the
25 east and the west. We already have to go to

1 New Port Richey every other week and then to
2 Dade City the other week for county business.
3 That's not going to change. Tom has to go both
4 sides to cover the news for *The Tribune*. The
5 rest of the county is used to the east and the
6 west working together. I think we deserve one
7 county, one Senate seat. Thank you.

8 REPRESENTATIVE WEATHERFORD: Thank you
9 very much.

10 Next up we have Calvin Branch, I believe,
11 and then after that Joel Coston, or Coston.

12 MR. BRANCH: Yes, thank you very much. I
13 have been watching you and listening to you,
14 and thank you for being here. And I started
15 doing a rough count, and you are just a little
16 bit larger than one of the last classes I ever
17 taught, which was on the introduction to
18 philosophy, which I taught for a quarter of a
19 century.

20 One of the classes -- one of the books we
21 taught in that class was a book called *Theory*
22 *of Justice* by John Rawls. And in that, there
23 was an interesting little experiment, and I am
24 going to ask you for a moment, because you have
25 been really good for the last three hours, I am

1 going to ask you for a moment just to play
2 along with me a bit.

3 In this *Theory of Justice*, Mr. Rawls said
4 consider yourself, and right now I am going to
5 draw a veil of ignorance across you. You do
6 not know what is on this side. Now, over there
7 on that side, you are responsible for setting
8 up a theory of justice, and you don't know what
9 you are going to be when that veil is down.
10 Male or female, rich or poor, whatever, you do
11 not know. The theory was that when you have to
12 do that, you will, in fact, set up the most
13 perfect theory of justice you can, because you
14 don't know what you are going to be here.

15 Now, here's where we get down to what you
16 are doing. You have to set up a theory,
17 redistricting. And I am going to suggest that
18 what you do is forget for a moment whether you
19 are a Democrat or Republican or whatever. What
20 you should do at this point is to say, "When
21 the veil of ignorance comes down, I don't know
22 what I am going to be here, I don't know what
23 community of interest I am going to be in," but
24 you should, in fact, pay attention to all the
25 communities of interest and then try to make

1 sure that the way you draw things up will serve
2 those communities of interest. Thank you.

3 REPRESENTATIVE WEATHERFORD: Thank you,
4 sir.

5 Joel, you are next, sir, and after Joel,
6 we have James Quinlon. Thank you for being
7 here.

8 MR. COSTON: Thank you, Mr. Chairman. You
9 are also my Representative, and I am very
10 pleased.

11 I, too, am a transplant to Pasco County,
12 originally born and raised in Tampa, Florida.
13 We came up from Tampa 32 years ago, live in a
14 little community in northeast Pasco called
15 Blanton. Some of you know who -- I know you
16 do, Will.

17 What I would like to say is in the past, I
18 also served in the political process in Pasco
19 County. From 1980 to 1984, I was Vice-Chairman
20 of the Republican party. I had the opportunity
21 to meet Governor Reagan three times before he
22 was elected President of the United States, and
23 supported his campaign in 1980. But I would
24 like to say that looking at the county now,
25 it's come a long ways, baby, and we have six

1 Representatives, three Senators and two
2 Congress members for the county.

3 I, too, agree with Mr. Van Gorden who
4 spoke before me, and Mr. Waller, about the
5 content and the characteristics of east Pasco
6 County. I hope at the end of this process we
7 can get a consideration up for that. We are a
8 rural community. I grew up in south Tampa,
9 went to Plant High School, the whole business
10 down there. Came up here a long time ago to
11 get in the country. I would like to keep it
12 that way like -- and others have done the same
13 as I. We are very pleased with the life up
14 here in Pasco, it is a wonderful place. We
15 would like to see it continue to be that way.
16 And let's have a haven for that lifestyle when
17 you're drawing these districts and setting the
18 lines.

19 And, Will, I hope you don't go away,
20 because I know you are over -- according to the
21 model out here, you are over the top, but I
22 hope you stay my guy and keep doing what you
23 are doing. And I thank every one of you for
24 coming. I know you came from a lot of far
25 distant places to be a part of this process.

1 And thank you, too, Ms. Storms.

2 REPRESENTATIVE WEATHERFORD: Thank you
3 very much. Thank you for your kind words. We
4 appreciate that.

5 Next we have James Quinlon, and after
6 James, we have Joe Wicker.

7 MR. QUINLON: I will be very brief since I
8 didn't actually sign up to speak, but in any
9 event, I am a little disappointed that -- I
10 understood Senator Gaetz's point about not
11 having come here with maps and giving us the
12 opportunity to give our input first, but I
13 really think that you all being the
14 professionals, it would have been more helpful
15 if you had the maps and we reacted to them.

16 In any event, I want to thank you for
17 being here, and I just want to point out that
18 Amendments 5 and 6 have been approved by a vast
19 majority, as everybody has pointed out, and I
20 beg you, please don't subvert them with
21 litigation, please implement them fairly and do
22 it soon, because time is running out. Thanks.

23 REPRESENTATIVE WEATHERFORD: Yes, sir,
24 thank you very much. We appreciate those
25 comments.

1 Joe Wicker, and followed by Joe, we have
2 Jim McBride. Joe, are you here, buddy? There
3 we go. And if we can get Jim McBride in the
4 queue. After Jim, it is going to be Greg
5 Armstrong. I saw Greg earlier.

6 Mr. Wicker, you are recognized, sir.
7 Thanks for being here.

8 MR. WICKER: All right. Thank you very
9 much. I am Joe Wicker. I am a former Army
10 officer, and now I am in business and one of
11 the 3.8 million new Floridians in the last --
12 over the last ten years, and I have been here
13 about three years now, trying to settle in and
14 finally live somewhere for a little while.

15 So here we are in this decennial process
16 of reapportionment, and we got organizations
17 from all over the place coming to Florida to
18 influence policy, and it is a difficult
19 process, so I appreciate what you guys are
20 going through, and, you know, it is the off
21 season and you are here and you're touring
22 Florida, and we appreciate that. Redistricting
23 is always difficult, it is going to be
24 difficult every single time.

25 And before I bring up gerrymandering,

1 which, you know, gets brought up every
2 redistricting process, I just want to remind
3 people that when you -- when you vote for a
4 constitutional amendment, those have second and
5 third order effects that are very serious, and
6 we are going to live through some of that. You
7 are going to get judges involved instead of
8 your Representatives who you can more directly
9 interact with. So we will see how that turns
10 out.

11 But it is natural for people to have a
12 distrust of government. I mean, were seeing
13 that more and more now. You all are aware of
14 that. But, you know, before the committee can
15 really get into some of what do seem like
16 legitimate issues, you know, having one Senate
17 seat or two Senate seats, Pasco and the
18 different lines, I mean, those are some
19 legitimate concerns, but before the committee
20 can even get into that, they have to deal with
21 a number of other issues, which is based off of
22 law, they have to deal with the
23 majority-minority district, the minority
24 crossover district, the minority coalition
25 district, meaning that if there's two or more

1 minority groups, they can make it a
2 majority-minority district, and then the
3 minority influence district, and all that
4 before they get into the compactness, the
5 contiguity, the preservation of the counties
6 and political subdivisions, before they can get
7 into preservation of communities of interest,
8 preservation of cores of prior districts and
9 compliance with Section 2 of the Voting Rights
10 Act, of which Hillsborough County has to
11 receive pre-clearance, and all this has to be
12 done within a very small deviation of the
13 population, so it is extremely difficult.

14 So just in closing, you know, for the
15 people, I would like to say that I am really
16 proud that we got this much involvement, and I
17 would ask that we realize that what we think is
18 fair tends to be from where we sit and not from
19 where someone else sits, and to remember that
20 you want your Representatives to be involved in
21 this process, you do not want the courts
22 deciding how you get represented.

23 And for the committee, with all the
24 back-door meetings that are going on in DC
25 right now, I am really appreciative that you

1 are doing this out in the open so everybody can
2 see it and we can put it on TV, there's no
3 back-door deals at least for right now. But
4 keep getting out in front of the people so that
5 we can be proud of the integrity that we have
6 in this process. Integrity was one of the key
7 values of being a military officer, and I
8 believe that Florida is going to be able to get
9 through this and show that value, and I know
10 that you will use common sense, even though
11 common sense is not very common, and I
12 appreciate your time. Thank you very much.

13 REPRESENTATIVE WEATHERFORD: Thank you
14 very much, Mr. Wicker. We appreciate that,
15 sir.

16 Next up we've got Mr. McBride, and after
17 Mr. McBride, we have Mr. Armstrong.

18 You are recognized, sir.

19 MR. McBRIDE: How do you do,
20 Mr. Weatherford?

21 REPRESENTATIVE WEATHERFORD: Please speak
22 into the mike.

23 MR. McBRIDE: Jim McBride, one of the few
24 people that you have heard here tonight that is
25 several generations of Floridians. In fact, I

1 have lived in the same house in excess of 50
2 years up near the intersection of 41 and 52,
3 and I want to tell you all it is a real
4 pleasure for a guy with this kind of gray hair
5 to stand out here this whole meeting and
6 identify with each one of you behind your
7 yellow name tag and let you know that a person
8 that has voted every year in the military
9 absentee in Pasco County, to thank you for
10 being out here.

11 In America at this time, we know what is
12 going on in Washington, there's a lot of tough
13 things going on. You all have got some of the
14 toughest decisions to make, and I want to tell
15 you this: My heart and my prayer goes out with
16 every one of you all. You've got a tough
17 decision to make. I have the utmost confidence
18 in every one of you all that you are going to
19 do what is right for Pasco County and Florida,
20 myself, my family and my grandchildren. Thank
21 you very much for coming out here tonight.

22 REPRESENTATIVE WEATHERFORD: Thank you,
23 Mr. McBride. And, most importantly, thank you
24 for your prayers, sir. We greatly appreciate
25 that.

1 Greg Armstrong, is Greg here? I saw him
2 earlier. We are going to put him to the side.

3 Next up we've got Jason Smith. Is Jason
4 here? Mr. Smith, welcome. After Mr. Smith,
5 we've got Mary Hanchan, I hope I said that
6 right, 5603 Grindstone Loop.

7 Mr. Smith, you are recognized, sir.

8 MR. SMITH: Thank you, and thank you guys
9 for being here, I really appreciate it. My
10 name is Jason Smith. I have lived in Pasco
11 County since the age of two, and I am a proud
12 resident of Pasco County and my family is
13 growing up here.

14 I do have some comments specifically on
15 how I would like to see the districts redrawn,
16 but I came here skeptical. Like a lot of
17 folks, I guess I just am not fully sure that I
18 can trust the process, but, actually, in
19 learning about the website and everything, I
20 did go on and register and try to do the
21 mapping. I found that very difficult to do, I
22 will be honest with you. I am going to keep
23 working with it and try to do it to where I
24 draw lines, but I did not find that process
25 very friendly.

1 District 9 specifically I would like to
2 speak to, Bilirakis' district. I would like to
3 see that actually moved out of Polk County
4 completely. I think we go too far away from
5 Pasco County with that. I would like to see it
6 move into Hillsborough County somewhere, maybe
7 go as far south as Tampa Road and then up to
8 Gunn Highway or something, and then maybe even
9 push it down south a little bit into St.
10 Petersburg.

11 If it is possible, based -- and another
12 thing I learned tonight is that you have
13 restrictions on -- your hands are tied
14 apparently on a lot of this as far as how you
15 are going to redraw the lines, and I actually
16 like that, I like that there are rules of the
17 road and that there's more -- that the citizens
18 have kind of tied your hands and that there's
19 more regulation around this and I am glad for
20 that because I think part of the skepticism
21 that I came here with and a lot of people came
22 here with was because in the past, things were
23 done in back rooms, you know, in smoke-filled
24 rooms, and I hope that if any of you are on a
25 committee that actually does draw some lines

1 and it is not your folks that, you know, like
2 smart people like Jason back there figuring out
3 everything for you, if you are actually in a
4 room and the moment comes when you are looking
5 at drawing some lines, I hope that politics
6 don't play a part in that. Please resist the
7 urge. That is why 63 percent of us voted for
8 this is because we want politics out of it. We
9 want that to stop. And I want to urge you
10 please keep the politics out of it, keep it
11 clean.

12 And if it is possible, one last thing, I
13 would like to see a Senate representative just
14 for Pasco, if that is possible, based on -- I
15 know you are restricted based on how many
16 people live there, and there is a population
17 number you have to meet, but as much as that as
18 possible, as close to that, because three
19 representatives all sprawled out, some in
20 Hillsborough, some representing other areas, we
21 have issues in Pasco that don't pertain to
22 places like Hillsborough. They got funding,
23 for instance, for schools, we didn't, and our
24 schools are funded differently. Our county
25 commissioners dictate, you know, how funding is

1 worked out. So I would like to keep us as
2 autonomous as possible so that we can deal with
3 our issues internally.

4 So I appreciate your time, thank you for
5 being here and I really appreciate you doing
6 this. Thank you.

7 REPRESENTATIVE WEATHERFORD: Thanks very
8 much. We appreciate it.

9 Mary -- Mary Hanchan. Is Mary here?

10 Okay, Dave Domino. Dave, are you here?

11 All right. Moving on, Suzanne Fulford.

12 Ms. Fulford? After Suzanne, we have her
13 husband, Kevin. And while we are waiting for
14 her to come down, after Kevin, we will have
15 Joyce Hamilton Henry.

16 Ms. Fulford, it is good to see you. You
17 are recognized.

18 MS. FUL.FORD: Hi, how are you?

19 First of all, I would like to thank you
20 all for coming. I know that you have taken a
21 lot of time out of your schedules to go around
22 the state and listen to everybody, and I would
23 like to -- I would like to thank you for the
24 transparency and actually coming and listening
25 to us and hearing what we have to say.

1 That being said, I am going to be short
2 and sweet, because a lot of people have said
3 exactly what I have been thinking, and the
4 first thing is basically the three separate
5 districts for Pasco County I think is
6 important, east, central and west, because of
7 the population, the way it is separated and the
8 different needs of the communities. So thank
9 you very much.

10 REPRESENTATIVE WEATHERFORD: Thank you
11 very much. We appreciate the brevity. We are
12 giving bonus points at this point for that, so
13 that was wonderful, Ms. Fulford.

14 Mr. Fulford, your boss has also gone
15 before you, so you are now recognized to speak.

16 MR. FULFORD: Good evening. Thank you all
17 for coming. I know this is a monumental task
18 and a rather unenviable task as well.

19 I am Kevin Fulford, and I live and work
20 here in Pasco County. Thank you. I just
21 wanted to not get hit by the microphone.

22 I just want to say a couple things. I
23 grew up in St. Petersburg, and then when I was
24 stationed at MacDill Central Command, I lived
25 in Valrico, but now I live and work in Pasco

1 County, and they are very different areas.

2 A couple of thoughts that I had is just to
3 consider not splitting a city right in the
4 middle. Hillsborough County is very different
5 than Pasco County when we look at drawing the
6 lines, and if you look at the makeup of the
7 areas, urban versus rural, and the Highway 19
8 corridor here in Pasco County versus the east
9 side. And I just looked at the numbers real
10 quick based on the population. It's gone from
11 344,000 in 2000 to 464,000 now based on the
12 2010 census. That gives us, based on the
13 recommended numbers of representation, three
14 Representatives and one State Senator. So the
15 three distinct areas in Pasco County, east,
16 central and west, would perhaps make a lot of
17 sense, and also one Senator seat. So thank you
18 for your consideration.

19 REPRESENTATIVE WEATHERFORD: Thank you
20 very much, Mr. Fulford. We appreciate that,
21 sir.

22 Next up we have Joyce Hamilton Henry with
23 the American Civil Liberties Union of Florida,
24 and after Ms. Joyce, we have Hutch Brock.

25 MS. HENRY: Good evening.

1 REPRESENTATIVE WEATHERFORD: Good evening.

2 MS. HENRY: My name is Joyce Hamilton
3 Henry, and I am here to speak on behalf of the
4 ACLU of Florida. I am the Director for the
5 mid-Florida regional office, which represents
6 20 counties, and so I am here and will continue
7 to be here as long as you are meeting in my
8 region.

9 The ACLU of Florida, as you know, is a
10 nonprofit, nonpartisan organization. We
11 protect and defend the American Constitution
12 and Bill of Rights.

13 I want to speak to an area of this issue
14 that I have not heard mentioned very often, and
15 part of it has to do with putting this issue in
16 context on behalf of a population of
17 individuals that have been historically
18 under-represented.

19 I want to speak to the Voting Rights Act.
20 I know many of you are already familiar with
21 it, but bear with me. I would like to review
22 some key components of this act. It was passed
23 in 1965, and stands as one of the most
24 important legislative achievements of this 20th
25 century. Signed into law shortly after the

1 murder of civil rights activists in Mississippi
2 and the unprovoked attack against peaceful
3 marchers across the Edmund Pettus Bridge in
4 Selma, Alabama, the Voting Rights Act outlawed
5 discriminatory tests like literacy tests, tests
6 of good character, racial gerrymandering and
7 the use of poll taxes in many southern states.

8 Coupled with intense and sustained
9 enforcement by the federal government, the
10 Voting Rights Act opened the door for millions
11 of blacks for the first time to be able to
12 participate in the political system. Over the
13 years, amendments to the Voting Rights Act have
14 been used to protect the voting rights of other
15 previously disenfranchised groups such as
16 language minorities. This act was intended to
17 create a level playing field to ensure that
18 under-represented and historically marginalized
19 Americans would have an opportunity to
20 participate fully in the Democratic process.

21 Every ten years, as you know, and we are
22 here because of that, due to the census, we
23 have to redraw the district lines, and for the
24 purpose of ensuring that we franchise our
25 growing citizenry, one person, one vote.

1 You have been hearing over the past couple
2 of weeks from everyone, groups of individuals,
3 their wish list as to what they want to see the
4 maps look like. You have a mandate from
5 63 percent of Floridians to draw the map, and
6 you have heard this already, compact,
7 contiguous, meet the interests of communities
8 of interest, but also does not favor or
9 disfavor any political group. I would like to
10 remind you of that mandate.

11 You have heard some great suggestions from
12 other groups, including the League of Women
13 Voters yesterday, about the timeline, some
14 ideas about expediting the timeline to ensure
15 that we all not only have an opportunity to
16 respond to the maps -- and, yes, we are still
17 waiting to see the maps -- but we also want to
18 make sure that when you do draw the maps, that
19 there is sufficient time for all of us to know
20 who our Representatives will be, for those who
21 are running for office to know which districts
22 they represent, and to also make sure that --
23 and you've heard from Supervisor of Elections,
24 that they know the parameters and timelines.

25 REPRESENTATIVE WEATHERFORD: Ms. Henry, I

1 am going to have to ask you to kind of wrap it
2 up. There are several speakers, and we want to
3 get to everybody.

4 MS. HENRY: And I will.

5 What I would like to close by saying is
6 this: You have also been hearing a lot of
7 distrust in government, and there is good
8 reason for that. And you have also been
9 hearing the importance of being fair and
10 transparent in the process. I implore that you
11 listen to what we, the citizens, have been
12 saying to you. Thank you.

13 REPRESENTATIVE WEATHERFORD: Yes, ma'am,
14 thank you very much. We appreciate that.

15 Next up we've got Hutch Brock, former
16 Mayor of Dade City. Mayor, it is good to see
17 you. And after Mr. Brock, we've got Ms. Annie
18 Baker.

19 Good to see you.

20 MR. BROCK: Thank you, Mr. Chair. Folks,
21 thanks for coming to Pasco County, we
22 appreciate your time. I know this has been an
23 enjoyable three hours. It is very important,
24 though, and we do appreciate your
25 attentiveness.

1 One of the things that I have not heard
2 for last three hours -- and by the way, I
3 didn't get the memo to show up early and sign
4 up early, but one of the things I have heard,
5 or have not heard in the last three hours is
6 that we are looking for an unfair line or we
7 are looking for gerrymandering or we are
8 looking for something that is going to create a
9 problem. I think we all have a common interest
10 that we want something that can be sustained
11 and that will be fair.

12 I have read the literature about what it
13 is that is going to direct and lead you all in
14 consideration of these very difficult
15 decisions, and what rings with me are the
16 issues of common interests, common
17 transportation corridors and common industry.
18 So let's talk about that.

19 If you are looking for common
20 transportation corridors and you are trying to
21 suggest that east Pasco and west Pasco are
22 common, I need you to go ride around the
23 county. I was talking to a friend of mine who
24 took his child up to the University of Florida
25 to look around the campus, and it was the first

1 time he had been there, and until he was there,
2 he didn't appreciate how broad it was and how
3 much transportation on that campus was
4 important. He didn't know until he went and
5 looked. I invite you to look. I think you
6 will see common industry runs on the spine of
7 301. Common industry runs on the spine of U.S.
8 19. There appears to be a divide. I sit on
9 Boards that are spanning the county and, quite
10 frankly, in the Tampa Bay area, and no one
11 likes to say we are divided, but there are some
12 natural divisions, whether it is the Parkway,
13 whether it is 41, certainly there is a division
14 on a perspective. So it applies to
15 transportation corridors and it certainly
16 applies to industry as well. If you look at
17 the industry of the 19 spine of U.S. 19, you
18 see a much different and dramatic picture than
19 what you see along the 301 corridor going up
20 into Sumter and Hernando County. I don't think
21 anyone will deny that.

22 So we are urging you, when you consider
23 these issues on the House side, and in
24 particular on the State Senate side, and even
25 when you are looking for the congressional

1 seat, that you follow these directives and you
2 look around and you consider the differences
3 between the east Pasco and the west Pasco side,
4 and you give us proper and adequate
5 representation.

6 Folks, thanks again for all of your time,
7 and good luck with the process.

8 REPRESENTATIVE WEATHERFORD: Thank you,
9 Mayor. Good to see you.

10 Next up we've got Ms. Annie Baker, and I
11 saw Ms. Baker earlier. I don't know if she is
12 still here. If she is not here, we will keep
13 moving. Mr. Colson, Clay Colson, I see you
14 back there, sir, and after Mr. Colson, we've
15 got George McDowell.

16 Clay, good to see you, sir. Thanks for
17 being here, and you have the floor, my friend.

18 MR. COLSON: Greetings. My name is Clay
19 Colson. I am a native Floridian and one of an
20 endangered species.

21 I would first like to say that I am not
22 going to come up here and tell you all how I
23 think you should draw districts or how it
24 should represent three parts of Pasco or any of
25 that stuff. I believe that y'all are all here

1 because you are going to carry out the will of
2 the people. That is your job, that is what got
3 you elected, and to do that, you only have to
4 do some very simple things.

5 First like to refer to our correspondence
6 that we had, Will. You tell me in your
7 correspondence that you wanted to make it clear
8 that what you wanted to do was to finalize the
9 redistricting process prior to June of 2012,
10 and that June of 2012 is a deadline and not a
11 goal. You are confident that the Legislature
12 can complete this work on the redistricting
13 plans prior to then. You also say you believe
14 that guidance from the Florida residents can
15 create new district maps that will represent
16 how it is that Floridians want their
17 communities to be represented in Tallahassee
18 and in Washington, DC. And you point out it is
19 important to note that Florida's redistricting
20 timeline is in part mandated by the Florida
21 State Constitution, cite Article III, Section
22 16. So I looked it up and checked it out. It
23 doesn't say you have to do it in 2012. It
24 doesn't say you can't do it beforehand.

25 So in that vein, I would like to give you

1 a little guidance. I ask that you act swiftly.
2 Florida has been one of the very last states to
3 complete redistricting historically. This
4 hurts candidates, voters and ultimately the
5 quality of our governing. Most of the states
6 complete their redistricting process this year.
7 It is time to bring Florida to the front of the
8 pack. The Legislature can speed up this
9 timetable, and they should work hard to do
10 exactly that.

11 Now, here is why I am not worried about
12 how you are going to draw these maps, you see,
13 because you are here to carry out the will of
14 the people, and 63 percent of the voters told
15 you what they wanted you to do. We now have a
16 constitutional amendments, 5 and 6, which are
17 part of the Constitution that you pointed out,
18 and all that you have to do is follow these
19 constitutional guidelines. That means that we
20 shall -- that -- all that means is that
21 districts shall be nearly equal in population
22 as is practicable, districts shall be compact,
23 districts shall, where feasible, utilize
24 existing political and geographical boundaries.
25 These standards make sense. I love the KISS

1 doctrine. I say keep it simple, stupid. It is
2 really simple.

3 I know that some of you don't feel too
4 much for John Russell, but he makes a very good
5 point. Let's take the politics out of this.
6 Hillsborough County is successfully doing their
7 redistricting of commission seats, using a
8 computer program where you just put in the
9 pertinent data and you put all the data in, and
10 the computer will draw the districts, and then
11 there is no politics involved. It is that
12 simple, and that is exactly what you should do.

13 Now, in closing, I would like to point out
14 the City of St. -- or *The St. Petersburg Times*
15 wrote an article back on the 20th of this month
16 talking about the fact that the Legislature has
17 spent our money fighting Amendment 6. So far
18 to date, you spent \$350,000 of our money when
19 63 percent of us told you what we wanted. What
20 gives you the right to spend our money? What
21 are you doing holding off money to do
22 litigation? You have no right to do that. You
23 are in violation of what people elected you to
24 do. You are here to carry out our will. Our
25 will is clear. Thank you for your time.

1 REPRESENTATIVE WEATHERFORD: Thank you,
2 Clay. Good to see you.

3 Next up we have George McDowell. After
4 George -- good to see you, sir -- we've got
5 Stephen Sarnoff.

6 MR. McDOWELL: I will keep this simple. I
7 am George McDowell from Land O' Lakes, I am a
8 Florida native.

9 REPRESENTATIVE WEATHERFORD: Please speak
10 into the mike, sir.

11 MR. McDOWELL: Thank you. I appreciate
12 your allowing this platform.

13 REPRESENTATIVE WEATHERFORD: We cannot
14 hear you, sir.

15 MR. McDOWELL: You can't hear me?

16 REPRESENTATIVE WEATHERFORD: No. Get
17 really close.

18 MR. McDOWELL: Okay.

19 REPRESENTATIVE WEATHERFORD: There you go.

20 MR. McDOWELL: Basically I want my
21 Representative to be local. I would hope that
22 you will take the information from the latest
23 census and draw up a plan so that when I call
24 my Representative, that he can have empathy for
25 my concerns because he is in the area. I live

1 in Land O' Lakes. I have nothing in common
2 with a guy from Gulfport. I know that isn't
3 relevant, but I think you get the picture.

4 So I am hoping that you will use due
5 diligence in drawing up the new districts.
6 Thank you.

7 REPRESENTATIVE WEATHERFORD: Yes, sir,
8 thank you very much.

9 Next up we have Stephen Sarnoff.
10 Following Mr. Sarnoff, we have David Bussey.

11 MR. SARNOFF: Good evening. As a child
12 growing up, I learned that before I was a
13 Floridian, a New Yorker, a Bronxite, a Jew, I
14 was an American. Some reason today, we have
15 the hardest the time remembering that we are
16 all Americans.

17 The reason why I supported and voted for
18 Amendment 5 and 6 was because about three years
19 ago, I sat in a schoolroom in a political
20 science seminar and demonstrated to me on a
21 screen was how political consultants decide how
22 to gerrymander. They have tremendous databases
23 of who is registered and what political party,
24 how often they vote in an election, and if I am
25 a well-financed candidate for office, I can pay

1 one of these people to show me the perfect
2 district that will get me elected every time.
3 That is why I believed that we needed Amendment
4 5 and 6, and many Floridians agreed and voted
5 the same way.

6 One of the hardest things that I can't
7 understand about this process was the fact that
8 if it was not for Amendment 5 and 6, I really
9 feel the process probably would be done by now,
10 or would have been well underway much more than
11 it is now. I understand that we had to go to
12 court to uphold the will of the people, and
13 even though I know there is some resentment or
14 some animosity towards the judicial, thank God
15 for the balance of power, because that is a
16 true American democracy.

17 Yesterday Lori Edwards, Supervisor of
18 Elections in Polk County, told this committee
19 -- told the committee that waiting until the
20 last deadline to approve the maps will force
21 election officials not to have or to have
22 barely enough time to change districts,
23 precincts and a myriad of other things, and if
24 the Legislature waits to the end of the
25 session, followed by the court review and the

1 Department of Justice 90-day, they take 90 days
2 to review, election supervisors in the state
3 could have only two weeks before the absentee
4 ballots have to be mailed for the August 14th
5 primary. If that happens, then during the
6 two-week period, we would have to change all
7 district maps, align the precincts and
8 boundaries with the new lines --

9 REPRESENTATIVE WEATHERFORD: Mr. Sarnoff,
10 I am going to have to ask you to wrap it up.
11 We are getting really tight on time here.

12 MR. SARNOFF: Thank you. Every court,
13 every -- each home in each district, check and
14 recheck voter rolls and notify the voters that
15 he or she is in a new district, all within two
16 weeks before the absentee ballots. That is not
17 American democracy, that is what we call
18 disenfranchisement, and it needs to be stopped
19 before it starts. Thank you.

20 REPRESENTATIVE WEATHERFORD: Thank you,
21 sir.

22 Okay. We've got Mr. David Bussey.
23 Mr. Bussey, good to see you, sir. After
24 Mr. Bussey, we have Jerry Marshall Hester.

25 Good to see you, sir.

1 MR. BUSSEY: Yes, good to see you all too,
2 Senator Storms. I will try and keep this -- I
3 will keep this under three minutes.

4 When I came in here tonight, I really
5 don't have a clue about what redistricting is
6 all about. I have learned a lot out in the
7 hallway and listening to everybody in here.

8 Kind of sounds like where I live. I live
9 in Zephyrhills in a retirement snowbird
10 community. I live there year-round. We have
11 about 300 residents there and we have a
12 homeowners' association and we are guided by
13 condominium rules. And basically what that
14 means is that each of us that live there can't
15 do things the way we think it ought to be done.
16 We have to give away some of our wants and
17 desires for the greater good of everyone that
18 lives there. I can't just go and plant a tree
19 on my neighbor's property without getting
20 permission, which I wouldn't get. Once in a
21 while, we get some people that do some things
22 like that, and then we have some real problems.

23 You folks have, from what I am seeing
24 here -- God bless you, and I mean that, we need
25 to be praying for our State Senators and

1 Representatives this coming session that they
2 are given the wisdom they need to do what needs
3 to be done, because if you do what we have all
4 asked you to do, boy, it is going to take a big
5 computer to figure that out. I have never -- I
6 have not been in a room where I have heard so
7 much personal agendas voiced, and rightly so, I
8 mean, I understand your concerns. I have
9 concerns, too. I am just praying that you will
10 lay down your -- set aside your political
11 agendas and do what is right for the farmer and
12 do what is right for the businessman and do
13 what is right for the hairdresser and do what
14 is right for the maid, try and put it all
15 together in a way where we all don't get what
16 we want, but some of us don't get screwed real
17 bad either, you know what I mean. You have a
18 tremendous undertaking, and I pray that
19 providence will be with you.

20 REPRESENTATIVE WEATHERFORD: Thank you,
21 Mr. Bussey.

22 Mr. Hester, we have been advocating for
23 you all night, because you are our last
24 speaker, we made it to you. So
25 congratulations, and you are recognized for the

1 floor.

2 MR. HESTER: Thank you, Mr. Chairman. My
3 name is Marshall Hester. I am a resident of
4 Wesley Chapel. I came up here tonight just to
5 represent myself and my family. I've got a
6 little bit different take perhaps on what some
7 other folks have said.

8 I believe the current structure of our
9 representation here in Pasco County is of great
10 benefit to me, and I prefer it not be changed,
11 and I will tell you why. Pasco County, as is
12 presently apportioned, is represented by six
13 State Representatives, three State Senators and
14 two Congressmen. This provides me and my
15 family with many different avenues of redress,
16 and it gives us a very powerful voice in
17 legislative matters. Thank you.

18 REPRESENTATIVE WEATHERFORD: Thank you,
19 sir. Thank you for your brevity. If we had a
20 balloon, we would give you one. That was
21 great. Thank you very much.

22 Ladies and gentlemen, that concludes the
23 public hearing portion of this. We have a few
24 minutes left. What I would like to do is if
25 there are any members on the body or in the

1 committee that would like to speak -- if we
2 could, Mr. Chairman, we will start off with
3 House members. Members, are there any House
4 members who would like to take just a minute or
5 two to speak or have something to add to the
6 conversation? Anyone, anyone? Yes, sir,
7 Representative Baxley. We will bring the
8 microphone to you.

9 REPRESENTATIVE BAXLEY: I want to thank
10 our Chairmen for their leadership tonight and
11 how orderly these meetings have run and how
12 patient people have been to hear one another.

13 One thing that I am -- I am one of the few
14 people on this line-up that's ever been through
15 redistricting, and what I would like to --
16 there is a great myth out there that everybody
17 is picking their own seat. Most of these
18 people ran for seats that somebody else drew.
19 I am probably the only -- is anybody else was
20 in the process last time, ten years ago? I am
21 it. And so they are not designing districts
22 for themselves. They are trying to design
23 districts that serve communities. Obviously a
24 lot of things go into that, but term limits
25 took care of that problem. Congressmen do not

1 draw districts. Your elected members draw that
2 map, trying to fit together all these different
3 parameters. I hope that gives you some
4 consolation about the myth of self-service in
5 this regard. Term limits has changed that
6 dimension already. Thank you.

7 REPRESENTATIVE WEATHERFORD: Okay. All
8 the House members, any other House members that
9 wish to speak? Okay, Representative Williams
10 and Representative Corcoran.

11 REPRESENTATIVE WILLIAMS: Thank you,
12 Mr. Chair. I just want to introduce myself.
13 My name is Alan Williams. I represent Leon
14 County, Tallahassee, Florida. I wasn't here on
15 the front end, because I got caught up in your
16 traffic on 75 north, and so I am hopeful that
17 DOT will get some more funding so we can fix
18 that process.

19 REPRESENTATIVE CORCORAN: Real fast, as
20 one of your Pasco Representatives, I just want
21 to say of how proud I am of all the testimony
22 that you guys gave today. This is my fifth
23 hearing from around the state, and I can
24 unequivocally say that over 90 percent of the
25 people that testified today gave us specifics

1 that we can start to work with on what the
2 communities of interest that matter to you.
3 That is a significant input that benefits all
4 of us, and I just want to thank you guys for
5 making this, for me, and I am very proud of
6 Pasco, one of the most informative
7 constituent-related public hearings that we
8 have had to date. Thank you very much.

9 REPRESENTATIVE WEATHERFORD: All right.
10 Any Senators? Any Senators that would like to
11 contribute? I'm sorry, we've got one more
12 Representative, Representative Workman. You
13 are recognized, sir, for very brief comments.

14 REPRESENTATIVE WORKMAN: Very brief. I
15 just wanted to tell Steve -- Representative
16 Steve Crisafulli, it is his 21st birthday
17 today -- Representative Crisafulli, happy
18 birthday.

19 REPRESENTATIVE WEATHERFORD: Happy
20 birthday, Representative, but I don't think it
21 is your 21st.

22 Okay. If we could, for just a moment, we
23 are almost done, ladies and gentlemen, there
24 were some statements that were made tonight and
25 some questions that were raised tonight that I

1 want to make sure we have clarification on. My
2 partner in this process, Chairman Gaetz,
3 Senator Gaetz, is going to take just a few
4 minutes to clarify a few of those points to
5 make sure everybody walks out of this room with
6 the same understanding as to where we go from
7 here and what this process will entail here on
8 the back end. I want to thank you again, and I
9 will turn it over to Senator Gaetz.

10 SENATOR GAETZ: Thank you, Mr. Speaker.
11 Let me just go briefly through some factual
12 questions that were raised so that, as the
13 Speaker indicated, we all have the same
14 understanding as we leave.

15 First, there were several speakers who
16 said 63 percent of the voters voted for fair
17 districts, why don't you just be precise and
18 implement fair districts. I have taken tonight
19 nine pages of notes, and those notes show that
20 even within this room, there is substantial
21 disagreement or at least a little bit of
22 tension as to what people think fair districts
23 means and how those standards ought to be
24 applied.

25 I will give you an example. We heard

1 tonight nine different times the term
2 "communities of interest," that it was very
3 important that communities that -- I believe
4 the phrase was had common interest, had common
5 transportation borders, had common industry,
6 went to school together, that that ought to be
7 the definition of an entity that then you would
8 use as a building block for representation.
9 Well, Amendments 5 and 6 don't talk about
10 communities of interest. As a matter of fact,
11 there was an effort made to add the term
12 "communities of interest" to the Constitution,
13 and the Supreme Court struck that down. And
14 so, therefore, what we are left with is on the
15 one hand, a number of people testifying
16 persuasively about the need to maintain
17 communities that have some integrity together,
18 and other people persuasively testifying that
19 it ought to be county lines that would be the
20 determining factor, not communities of
21 interest.

22 I only mention this to say that there was
23 one rather emotional young man who said that he
24 thought that -- that what we were doing tonight
25 and around the state wasn't very useful. I

1 think he called it a fig leaf. Well, the fact
2 is we have to hear from people at the local
3 level as to what they believe and how these
4 standards ought to be interpreted in order to
5 be faithful to the Constitution. The reason
6 why is because the language of Amendments 5 and
7 6 are brand-new. Taken together, altogether,
8 these templates or mandates have never been
9 applied to a single state before. So we can't
10 say, "Well, let's just do it the way Indiana
11 does it." Instead, we are charting new ground
12 now, and we have to be careful so that we are
13 faithful to our constitutional oaths and to the
14 will of the voters.

15 So as somebody from the Panhandle of
16 Florida who lives in the central time zone, I
17 couldn't have sat in Tallahassee in an echo
18 chamber just filled with legislators and
19 special interest groups and figured out all of
20 the nuances and particular concerns that all of
21 you expressed tonight. I've got page after
22 page about east Pasco and west Pasco and
23 Hernando versus Tampa and all of the things
24 that matter to you.

25 So I would simply say that Democrats and

1 Republicans, House members and Senators, all
2 are learning from these hearings, 26 of them,
3 to understand the local issues that will help
4 us properly and faithfully implement Amendments
5 5 and 6. But it isn't easy. Let me give you a
6 sentence from Amendments 5 and 6. This wasn't
7 quoted by the gentleman who described them.
8 Here it is, and it is a direct quote from the
9 Constitution, listen carefully: "No line -- no
10 line may be drawn with the intent to either
11 favor or disfavor any incumbent or any
12 political party." Now, draw the first line.
13 You can understand how there can be differences
14 of opinion as to what all of that might mean.
15 So that is why it is important to listen to
16 you.

17 Questions about the timeline. Other
18 states may have completed their redistricting
19 already. That is true. Illinois completed it
20 very early. They had a group of politicians,
21 went in a closed room, came out, said, "Here
22 are the maps, take them or leave them," and
23 that was that, and the one political party
24 dominated everything. We don't think that is
25 the right way to operate.

1 Also, Florida was one of the last states
2 to receive its census data from the U.S. Bureau
3 of the Census. Not all states got it at the
4 same time, it came in different tranches, and
5 we were not the last, but we were one of the
6 last. And you can't begin to draw any lines or
7 even conceive of where districts might be until
8 you know where the people live. And so that is
9 why we are a little bit later than some states,
10 first because we didn't believe in the back
11 room, and secondly, because we got our census
12 data later than many other states.

13 But the other thing is that there are some
14 states, for example, Louisiana, who completed
15 their redistricting earlier, and that is
16 because they have their elections on odd
17 numbered years, and so they completed theirs in
18 time for odd number year elections and they
19 were able to get their census data earlier and
20 get their process going earlier because of that
21 fact.

22 Contrary to what some may have thought and
23 maybe even said tonight, final deadlines for
24 action on maps do not prevent -- do not prevent
25 earlier action. We can vote as soon as

1 January. Can't vote earlier than that, because
2 of the State Constitution. If our Fair
3 Districts friends would have wanted to change
4 the Constitution so we could vote in September
5 or in August, they could have done that, but
6 they chose not to include such a change in
7 their amendment.

8 Those are -- who are concerned that the
9 Legislature shouldn't take all the time that it
10 legally can I think make a good point. We
11 would urge you to also encourage the other
12 parties, the Federal Justice Department, the
13 courts, the Attorney General, not to take all
14 the time they can, but, rather, to take the
15 time that they need, and that is what the
16 Legislature is going to do as well. As Speaker
17 Weatherford indicated, we can vote as early as
18 January. We can vote as early as members of
19 the Legislature and citizens come forward with
20 their individual maps and suggestions.

21 There were suggestions tonight that the
22 current maps are examples of gerrymandering.
23 Maybe they are, but only Representative Baxley
24 was in the Legislature when those maps were
25 drawn, so it is all his fault. No, not really.

1 The fact is that all of the rest of us ran in
2 districts where somebody else drew the lines.
3 So we didn't draw lines for ourselves. We ran
4 in districts that were drawn by others for
5 either good or bad reasons. We are trying to
6 correct that in this process.

7 There were several questions. Are we
8 looking at population growth in the future as a
9 way of articulating what kind of districts
10 there might be? Federal law doesn't let us do
11 that. The census is a federal function and
12 there is a snapshot taken, and it is who lives
13 where and how many people live there on that
14 first day in April when the census is taken.
15 That is the snapshot. So we can't -- we can't
16 count future growth. That is called rotten
17 boroughs. We can't say, "Well, some people
18 might live there, there are some chickens there
19 now, but some people might live there, let's
20 count the chickens." Federal law won't let us
21 do that. We can only count the people who are
22 there on April 1st, counted by the federal
23 government, they give us the numbers, those are
24 the numbers we live with.

25 And then, you know, we had a number of

1 folks who said it is good to have Pasco County
2 represented by several legislators, because
3 that gives us a stronger voice in Tallahassee,
4 and others said we want fewer legislators
5 representing us, because that will give us a
6 stronger voice. But you gave excellent reasons
7 for your points of view. I took notes, others
8 took notes. We want to take that information
9 and use it to try to not make everybody happy,
10 but try to make the wise decisions.

11 There are a couple of folks who said
12 tonight, "Where are the maps?" Well, the
13 answer is, there's a bunch of them in the back,
14 there's a bunch of them over there. If you go
15 to our website, you will see that there are 17
16 maps. Any Democrat, any Republican, any
17 Senator, any Representative, can propose any
18 map at any time. There seems to be some sense
19 that maybe there is a magic map that is going
20 to suddenly emerge fully grown, sprung from the
21 brow of Zeus, and that that is going to be the
22 map. Well, talk to these folks afterwards,
23 Democrats, Republicans, House members,
24 Senators, you are going to find that there are
25 many different opinions. I can tell you as

1 Chairman of the Senate committee, no Senate
2 maps have been drawn, but already I am starting
3 to like some of the maps that we are getting
4 from the general public, because members of the
5 general public are drawing maps without
6 necessarily having a dog in the fight. But it
7 is not as though there's suddenly going to be a
8 map that will emerge and everybody will agree.
9 There will be lively debate about all of these
10 issues.

11 Now, someone said, "Well, what will happen
12 if your -- will you be in the room, if any of
13 you are in the room when the maps are drawn?"
14 Well, the fact is, all of us are going to be in
15 the room, and the room is going to be on
16 television. So you are going to be able to see
17 the debates and you will be able to also see
18 Chairman Weatherford and me say, "Are there any
19 members of the public who want to testify? Did
20 we get any e-mails, did we get any information
21 that we can share with members of the
22 committee?" And there are 19 million auditors
23 to this process. All of you can see every
24 proposal before any votes are taken.

25 And then finally, Mr. Speaker, there was a

1 -- there was a suggestion that it is not us --
2 I'm sorry, let me hit one other thing. Someone
3 said -- I am glad to see the number keeps
4 moving around -- that there is \$30 million in
5 some special fund to fight lawsuits in the
6 House of Representatives. Well, by golly, when
7 I -- I am Chairman of the Appropriations
8 Committee in the Senate. When I was dealing
9 with some of these guys, they didn't tell me
10 they had \$30 million snuck away to fight
11 lawsuits. The fact is that that is an urban
12 legend. There is no \$30 million snuck away to
13 fight lawsuits. Instead, there is \$30 million
14 in reserves in the House of Representatives,
15 because we have a big state, we have a huge
16 budget and we have a lot of things that might
17 happen, the House has set aside money for
18 reserves. Now, some of those reserves will pay
19 for heat, lights and phone, some of them pay
20 for lawyers, some of them may pay for other
21 operational expenses, but it is absolutely an
22 urban legend that there is \$30 million that has
23 been designated to fight some sort of a
24 lawsuit.

25 And then, finally, Mr. Speaker and

1 members, I think there was -- there was an
2 eloquent point that was made by a gentleman who
3 wore a shirt that had a -- I think it had a
4 patriotic emblem on it, and he said, "It
5 shouldn't be us versus them, it should be we,"
6 and someone right behind him said that if you
7 drew an imaginary line and you had a theory of
8 justice on one side that could apply to people
9 that were invisible as to their race, creed,
10 color or political party on the other side, we
11 would do well, and then he used that term,
12 "communities of interest," which, sadly, is not
13 in the Constitution. I would just offer this
14 as a fact. There are Democrats and
15 Republicans, House members and Senators, who
16 will all have a role to play in creating the
17 "we," and then when we are done, it will be the
18 courts. So it will be the Legislature and the
19 courts. And we must all come together,
20 including the Federal Justice Department, in
21 order for a plan to actually be implemented.
22 So there are many, many checks and balances.

23 A gentleman said he hoped that we had
24 thick skin, that there wasn't six million
25 unhappy people and six million happy people,

1 though he thought it might happen. I used to
2 work for a guy named Everett McKinley Dirksen,
3 who was a Senator from Illinois. Dirksen said,
4 "When everyone is equally dissatisfied, justice
5 has been done." We hope we will do a little
6 bit better than that.

7 We thank you. I thank you as a Panhandle
8 Senator for making me aware of issues I never
9 would have learned about had I not come here
10 tonight.

11 REPRESENTATIVE WEATHERFORD: Thank you,
12 Senator, very timely. I think everybody in
13 Pasco now recognizes why you are going to be a
14 great Senate President. So tremendous job in
15 wrapping that up.

16 Ladies and gentlemen, thank you again for
17 tonight. We appreciate your input, continue to
18 work with us, and with that, Chairman Gaetz
19 moves we rise.

20 (Whereupon, the proceedings were
21 concluded.)

REDISTRICTING COMMITTEE
WEDNESDAY, JULY 27, 2011
BOB CARR PERFORMING ARTS CENTER
ORLANDO, FL

Transcribed by:
CLARA C. ROTRUCK
Court Reporter

1 T A P E D P R O C E E D I N G S

2 REPRESENTATIVE PRECOURT:

3 REPRESENTATIVE PRECOURT: Good afternoon,
4 ladies and gentlemen. Can we go ahead and take
5 our seats, members? Would you go ahead and
6 take your seats, please?

7 Ladies and gentlemen, welcome to the Joint
8 Senate House Redistricting Committee meeting.
9 We are now called to order, so everyone would
10 take their seats, members as well as the
11 general public. We appreciate you being here
12 this afternoon.

13 First, let me go ahead and say at the
14 outset that because we have got such a great
15 turn out here today, well over 100, closing at
16 150 requests, we are going to have to
17 abbreviate some of the script here that we have
18 got here on our side in order to allow as many
19 of you as possible the opportunity to share
20 your thoughts on redistricting.

21 That said, we are pleased to be joined
22 today by several members of the Florida House
23 and Florida Senate from throughout the state.

24 Since we do have a lot to do today we are
25 going to have, give them the opportunity to

1 introduce themselves, everybody up here on the
2 dais after the meeting, if we have a few
3 minutes of extra time.

4 First of all, we want to express our
5 thanks to the City of Orlando and Mayor Dyer in
6 particular for his office allowing us to use
7 this facility.

8 Thank you to all of the members of the
9 public for being here and coming to share your
10 comments and recommendations to help shape the
11 Congressional Districts, the State House
12 Districts and the State Senate Districts.

13 With that I believe the Mayor would like
14 to use one or two minutes to introduce -- here
15 he is, Mayor Dyer, we appreciate you being
16 here.

17 MAYOR DYER: Thank you. Wow, this is a
18 pretty impressive group here, and Senators and
19 Representatives. Well, on behalf of all of
20 those citizens that call Orlando home I want to
21 welcome you to the city beautiful.

22 A number of you represent the city and we
23 are proud of what you do. This is a process
24 that happens once every ten years. I had the
25 pleasure of participating in redistricting

1 matters twice. Once when I was running for
2 election the very first time and then when I
3 was leaving. I had much more interest the time
4 I was going to run for a seat than when I was
5 leaving to go do something else.

6 Just a little bit about the facility.
7 This building was built in 1926, and the last
8 major renovation was done in, about 33 years
9 ago, but we just broke ground on a brand new
10 Performing Arts Center which is up near City
11 Hall, and there is some State funding in that
12 that was allocated to UCF when Tony Jennings
13 was President and I was the Minority Leader in
14 the Senate. So that money has been sitting
15 there that long and now we are finally going to
16 be able to use it.

17 So hopefully in ten years if any of you
18 are on the Redistricting Committee you can come
19 back and use that fine facility instead of the
20 Bob Carr, and then secondly, hopefully you will
21 just be able to take the Sunrail from wherever
22 you are and come right downtown.

23 And let me thank you guys for the
24 legislation that you passed a couple of
25 December's ago in special session that led to

1 clearing the path for us be able to get
2 Sunrail.

3 The last thing I would like to mention is
4 the City is also going through a redistricting
5 process. We have grown significantly and
6 population has shifted. So we will be doing
7 our boundaries and we have a Redistricting
8 Advisory Board that meets and I would invite
9 the members of the public to come join us at
10 our meetings as well and if you go to City of
11 Orlando dot net you can get all of the
12 information on the meetings. So thank you for
13 coming to downtown for your meeting.

14 REPRESENTATIVE PRECOURT: Thank you, Mayor
15 Dyer. We appreciate you being here, too, as
16 well, and what a great job of helping to keep
17 our comments abbreviated so that we can get to
18 your input on this, but I will say that one
19 redistricting process is enough at a time for
20 me.

21 My name is Steve Precourt by the way,
22 Representative from House District 41, just
23 immediately west of the City of Orlando and I
24 will be chairing today's meeting along with my
25 colleagues that chair the Redistricting

1 Committees, themselves, Senator Don Gaetz and
2 Representative Will Weatherford, who is Speaker
3 Designate in the House and President Designate
4 in the Senate.

5 This hearing is also being webcast
6 statewide by the Florida Channel over the
7 Internet. So welcome to all of you out there
8 in cyber world that are listening in.

9 Our sole purpose here today is to hear
10 from the public about how you believe the legal
11 standards and all of the other requirements
12 that need to be applied to redistricting should
13 be required.

14 Now, we want to make sure that we apply
15 them and follow the law, not only to the
16 Congressional Districts, but to the House and
17 Senate Districts, fairly, equitably and
18 sensibly. That is our objective here today.

19 So we have got some procedures that we
20 have put in place to assure that we move
21 through that. They are fairly simple but they
22 are very important.

23 The first one is, it is really important
24 that we sign in, especially if you wish to
25 speak so we can create an accurate public

1 record and give you the opportunity to get up
2 to speak.

3 Also, please think about joining our
4 e-mail list so we can keep you informed about
5 how the redistricting process moves forward
6 over the next several months. If you have not
7 signed in, please see one of our staff. We
8 have got a bunch of folks floating around here
9 that can help you sign in, get more information
10 or fill out an attendance card.

11 For the details of what we are doing here
12 today, I am going to recognize Senator Gaetz to
13 explain how today's hearing fits into the
14 overall redistricting process. Senator Gaetz?

15 SENATOR GAETZ: Thank you very much,
16 Mr. Chairman. Every ten years the Legislature
17 is required by the Constitution to redistrict
18 the state based on increases or decreases or
19 movements of population within the state, and
20 because Florida has grown more than other
21 states in the last ten years, we get two more
22 members of Congress, two more U. S.
23 Congressmen.

24 We go up from 25 to 27, and because some
25 parts of the state have increased or decreased

1 disproportionately in population, many State
2 Senate and State House Districts will change,
3 either by adding or losing population and here
4 is the numbers that are important.

5 When redistricting is completed,
6 Congressional Districts by Federal law must be
7 equal in population, equal in population, and
8 must contain 696,345 people.

9 Now, the 40 Senate Districts, there are 40
10 Senators, the 40 Senate Districts must also be
11 nearly equal at about 470,000 people, and our
12 120 State House Districts must also be nearly
13 equal at about 156,700 people.

14 The laws and the Court cases governing
15 redistricting are explained in detail on the
16 House and Senate websites. It is not as simple
17 as sitting down with colored markers and
18 drawing maps or using an arithmetic or computer
19 program.

20 There are laws and requirements from the
21 Federal level and the State level that must be
22 followed and those are available so you can see
23 them on the House and Senate website and those
24 websites are listed on the Redistricting 2012
25 brochure that was available to you when you

1 came in.

2 I see a number of you have it. If you
3 don't have it and want it, you can get it on
4 the way out.

5 Now, before, during and after this
6 hearing, Senate and House professional staff
7 are available to show anybody the simple steps
8 to getting online so that you can see the same
9 data that members of the Legislature and
10 ultimately the members of the Court will see,
11 and you will be able to use the same computer
12 programs and software that members of the
13 Legislature and members of the Court would use
14 in drawing districts.

15 It is pretty simple to do. I am techo
16 stupid and it took staff about 15 minutes to
17 teach me. So I know you will be able to figure
18 it out in much less time. And then if you want
19 to, and only if you want to, you can submit
20 your ideas for how you believe districts ought
21 to be drawn in your part of the state.

22 Any recommendations from citizens, from
23 Legislators, or from special interest groups
24 will be made publicly available for everybody
25 to see.

1 In fact, there have already been 17 maps
2 drawn. There are already maps drawn of partial
3 or complete districts around the state, and
4 there are about six dozen written proposals for
5 how districts ought to be drawn.

6 Some of those have come from individual
7 citizens, some from interest groups. I have
8 looked at some of them and some of them really
9 show a lot of thought that have gone into them.

10 On your way into the theater you passed by
11 some of those submissions that are on display.
12 You can see all of them on the websites. We
13 are finding that we are getting more
14 submissions all of the time. We may get more
15 today.

16 If you want to see the maps, if you want
17 to see maps that the Legislature is
18 considering, then look at maps that are on
19 display in the building today and you will see
20 the maps that we are considering now, although
21 there are certainly going to be more maps that
22 are going to be created by Legislators, by
23 interest groups and by individual citizens as
24 we go through the process.

25 If you need any assistance with reviewing

1 the maps that are outside or on the Internet,
2 our staff at the display tables can help you
3 with that information. They will be available
4 to you after this hearing.

5 Now, it has been suggested by some folks
6 that only the Legislature should draw maps,
7 that only those sitting up here ought to draw
8 maps and we ought to not get any input from
9 people who are really our bosses, the public.

10 We think that puts the answer ahead of the
11 question. There should be no preconceptions
12 created by politicians in our view, but rather
13 public testimony should be free and
14 unrestricted and should come first.

15 In fact, the Chairperson for the Fair
16 Districts campaign, Helen Freidin, testified
17 before the House and Senate Redistricting
18 Committees that she felt that it would be
19 absolutely impossible to draw maps before
20 public comment was taken and we certainly agree
21 with Ms. Freidin with respect to that and are
22 following that advice.

23 Now, because our purpose today is to hear
24 from you, all of the time between now and 4:00,
25 and then later from 6:00 until 8:00 tonight, we

1 are dividing the hearing into two to be
2 accommodating to people who could come in the
3 afternoon and then some who could come this
4 evening, all of the time after these
5 introductory comments will be used to ensure
6 that members of the public who are here and
7 wish to speak will have time to present their
8 testimony.

9 If after every citizen has had his or her
10 say, if there is any time remaining and given
11 the large number of people who signed up, there
12 may not be time remaining, but if there is,
13 then any member of the Committee, Republican,
14 Democrat, House members, Senators, can respond
15 to any questions, can offer any opinions, or
16 can propose any plans today other than those
17 that have already been proposed that are on
18 display outside.

19 Mr. Chairman, I hope this description of
20 our schedule and process helps set the stage
21 for a successful hearing.

22 REPRESENTATIVE PRECOURT: Thank you, Chair
23 Gaetz, appreciate that. Okay, folks, we are
24 going to adjourn promptly at 4:00 from this
25 afternoon's session and then we are going to

1 have a second session from 6:00 to 8:00 p.m.

2 Now, there are almost 150 people signed up
3 already to speak, and if you are just signing
4 up now, please note that it is likely you will
5 be heard in the 6:00 to 8:00 block tonight.

6 We want to assure that each person is
7 given the opportunity to be heard. So we ask
8 that you limit your comments to two minutes,
9 and if you have some prepared remarks, please
10 just go ahead and give them to our staff as
11 well.

12 We have to do this as a courtesy to all of
13 the people who want to speak. We want to hear
14 from as many folks as possible, and of course,
15 we will use our discretion of that if there are
16 some key pieces of information that you are
17 bringing to the table.

18 If you feel that your thoughts have
19 already been conveyed you can opt to waive your
20 time and mention that you feel just like so and
21 so that may have already spoken and you can
22 still submit your prepared remarks to our staff
23 and they will definitely get in the record for
24 being utilized in drawing the maps and
25 throughout the entire process.

1 So with that our first speaker is going to
2 be Michele Levy, and I am going to go ahead and
3 name off two or three people at a time so you
4 can be working your way down here and getting
5 in line to speak, and we don't lose any time
6 with people working their way to the microphone
7 as well.

8 Following Ms. Levy will be Ann Hellmuth,
9 and after Ann, we will have Zorida Rios-Andino.
10 So if you three could start working your way up
11 to the front, we will go ahead and have Ann,
12 have Michele Levy kick off with her
13 contribution to our redistricting hearings.

14 Ms. Levy, the floor is yours. You are
15 recognized for two minutes.

16 MS. LEVY: Thank you. Hello, ladies and
17 gentlemen, my name is Michele Levy, and I am
18 the Vice-President of the Orange County League
19 of Women Voters.

20 I am very concerned that the Legislature
21 is holding these 26 hearings around the state
22 in an attempt to get useful feedback and
23 comments from the citizens, but no maps are
24 being provided by the Legislature for citizens
25 to comment on.

1 As it is now, this exercise is a total
2 waste of time and money. Other states have had
3 public hearings to allow citizens the
4 opportunity to comment and provide feedback on
5 the proposed maps.

6 Have Legislators drawn these maps yet, and
7 if so, where are they, and if not, what are
8 they waiting for? When do they plan to draw
9 them or have they already drawn them in some
10 back room in Tallahassee with the intent of
11 springing them on the public during the last
12 weeks of the session, leaving only three days
13 for statewide public comment.

14 This timeline is going to create chaos.
15 As it stands now these hearings have no purpose
16 other than to make Legislators appear to be
17 listening, but they are not giving the public
18 an opportunity for meaningful comment on real
19 maps.

20 Many states, including Arkansas, Colorado,
21 Indiana, Iowa, Louisiana, Minnesota, Missouri,
22 Nebraska and Oklahoma have already completed or
23 almost completed redistricting in an open and
24 accessible process. What are we waiting for in
25 Florida?

1 REPRESENTATIVE PRECOURT: Thank you,
2 Ms. Levy, and if you could leave those prepared
3 comments with our staff we will have them
4 accurately reflected in the record.

5 For those of you in the audience, please
6 note that we have got a lot of people to get
7 to. If you clap, we are just using up the time
8 so somebody's opportunity to speak will be
9 limited later on.

10 So thank you for representing the League
11 of Women Voters. Also from the League of Women
12 Voters we have Ms. Michele Levy and if Dennis
13 Freytes could also start working his way down
14 here, I would appreciate that. Ms. Hellmuth.

15 MS. HELLMUTH: Thank you, yes, we are out
16 in force today. My name is Ann Hellmuth. I am
17 President of the League of Women Voters of
18 Orange County.

19 My first question is to you, is why won't
20 you show us your maps? Are you still sticking
21 to the excuse that the Constitution requires
22 you to draw the districts during the 2012
23 regular session, because that is not true.

24 You may not vote on the maps before 2012,
25 but there is not legally stopping you from

1 drawing the maps now. By drawing the proposals
2 now you would give the public time to provide
3 meaningful informed input and the maps would be
4 brought to the floor as a first order of
5 business when the Legislature convenes in
6 January.

7 The Legislature would then be able to vote
8 on them by the end of the first week of the
9 session, January 13th. This would double the
10 90-day period time of review by the Courts and
11 the Department of Justice.

12 As it stands, it is highly unlikely that
13 districts will finally be approved before
14 June 8th, the filing deadline for candidates.
15 Is it even conceivable that districts may not
16 be finalized until August? Yes, it is.

17 The result of such a late finalization
18 would in the words of the Legislature's own
19 lawyer, be massive voter confusion. Is it your
20 intention to delay the maps until the last
21 moment to make it harder to challenge them? It
22 seems as if it is.

23 Is it your plan to give Election
24 Supervisors insufficient time to prepare for
25 elections, thereby affecting absentee and

1 overseas ballots, including those to the
2 military? It seems as if it is.

3 Is it your plan to give challengers or new
4 candidates little if any time to mount
5 campaigns, thus forcing voters to vote for
6 candidates they have had little opportunity to
7 get to know. It seems as if it is.

8 You promised a three-day public viewing
9 period before any notes are taken on the map
10 proposals. May I say, ladies and gentlemen,
11 your generosity is perfect nonsense.

12 Three days to absorb the details and then
13 give input on a compact subject like drawing
14 maps is ridiculous. Florida's Election
15 Supervisors and other officials have worked
16 hard to raise the memory of the 2000 hanging
17 chads debacle.

18 Don't set them up to fail in 2012 by
19 resorting to back room politics. Keep faith
20 with Florida voters.

21 REPRESENTATIVE PRECOURT: Thank you,
22 ma'am. Next up we have Zoraida Rios-Andino and
23 if Mr. Curt Levine would start working his way
24 down here as well.

25 Just as an aside, Senator Gaetz is taking

1 notes on a lot of the questions that are being
2 asked of us and at the end he will have a few
3 minutes to respond in general, but we want to
4 make sure that we move this along and give
5 everyone the opportunity to speak,
6 Ms. Hellmuth.

7 MS. RIOS-ANDINO: Good afternoon, my name
8 is Zoraida Rios-Andino. I am a member of the
9 Central Florida Redistricting Council which is
10 a bipartisan group organized to promote fair
11 districting within the Hispanic community of
12 Florida.

13 I am also Vice-President of the United
14 Front 436 which is a local community activist
15 organization fighting for the civil rights of
16 the Puerto Rican and Hispanic community in the
17 many issues that our people face, such as
18 discrimination in housing, education, and a
19 number of other issues.

20 I belong to more organizations, but I
21 didn't come here to talk to you about that.
22 What I did come to talk to you about is that as
23 a United States citizens and our people have
24 been citizens since 1917, it is very insulting
25 for me to see the atrocities taking place

1 because of the lack of our representation in
2 our community.

3 Recently my 15-year-old son lost a friend
4 who was walking to a bus stop locally here just
5 a few minutes away from where we are at this
6 moment. He was walking with his 15-year-old
7 brother to the bus stop and a reckless driver
8 killed him.

9 This is something that we see commonly
10 here in our community, and the reason I am
11 bringing this up is because -- because we don't
12 have any representation in Congress. We don't
13 have representation in the State Senate, the
14 State Representative and our Orange County
15 Commission, in our School Board.

16 The person who killed this, my son's
17 friend only got a \$1,000 bond. He is out loose
18 like nothing had happened. This is
19 unacceptable.

20 We Puerto Ricans here are contributing
21 millions of dollars in taxes and we should have
22 representation. Taxation without
23 representation is not acceptable.

24 Creating Puerto Rican Hispanic districts
25 is not only fair, it is the right thing to do.

1 Thank you.

2 REPRESENTATIVE PRECOURT: Thank you very
3 much. Next we have Mr. Dennis Freytes and if
4 Sheri Morton would also start working here way
5 down. Mr. Freytes.

6 MR. FREYTES: Hi. Thanks for selfishly
7 serving, working for beloved Florida. We all
8 love Florida here.

9 I am Colonel Dennis Freytes, U.S. Army
10 retired and community servant. I served on Jeb
11 Bush's transition team and I am here to say, we
12 need to support the Florida Civil Rights
13 Association and support the Central Florida
14 Redistricting Council, because American,
15 Hispanics, blacks and other minorities face
16 unfair political district lines that minimize
17 election opportunities, result in under
18 representation at the Congress, State, County
19 and City levels.

20 This inequality must end and it must end
21 now. District lines must be fairly drawn to
22 reflect the U.S. Census facts appeared in 1965
23 Voting Rights law and other laws. In Florida
24 we have 18.8 million population.

25 Minorities are 42 percent or about eight

1 million Americans and growing. Orange, Osceola
2 Florida counties are now minority majority.
3 This means why non Hispanic residents are less
4 than 50 percent of the county population,
5 minority, but they hold a super majority in
6 elected positions with little or no minority
7 representation.

8 We must advance a properly balanced
9 representative democracy with protected
10 individual civil rights, ensure political
11 empowerment opportunity with little or no, for
12 all citizens, not just for a privileged group
13 and abide by the laws that are for fair play.

14 Government officials should listen and
15 draw compact districts, but also proper
16 minority access districts, don't support bail
17 retrogression but fairly let lines fall where
18 they may.

19 Now, what we want is to, in the
20 redistricting and here in central Florida, we
21 want a Congressional Seat that is a minority
22 majority Congressional Seat, because we are a
23 minority majority Orange County and minority
24 majority Osceola County and we like to have
25 Hispanics represented there no less than

1 45 percent.

2 In the Redistricting Council has a great
3 proposal that we support. This is an American
4 Floridian bipartisan fairness issue. Support
5 the Central Florida Redistricting Council,
6 citizens' proposal, support the Florida Civil
7 Rights Association.

8 Work together for the good of all, family,
9 community, Florida, USA, and humanity. Thank
10 you.

11 REPRESENTATIVE PRECOURT: Thank you,
12 Mr. Freytes, and please be sure to submit those
13 prepared remarks to our staff.

14 Next we have Mr. Curt Levine and would
15 Nancy Smith also start working her way down.
16 Mr. Levine.

17 MR. LEVINE: Thank you, good afternoon,
18 Mr. Chairman and members, my name is Curt
19 Levine. I am an attorney in Orlando and I am a
20 former House member.

21 It is my understanding that the My
22 District Builder and the District Builder
23 software the state is using is modeled after a
24 national standard program called Aishwarya
25 Cicero District Builder that I understand also

1 talking to John Guthrie earlier today, he was
2 part of developing that original software.

3 The components of the Aishwarya Cicero
4 District Builder program included evaluational
5 programs that for compactness and also for
6 spacial analysis which generated a numerical
7 weight for compliance with fair districts'
8 requirements, such as not favoring incumbents
9 or a political party and containment within a
10 geographical county and city line area.

11 In other words, the Aishwarya Cicero
12 District Builder had an analysis tool that gave
13 a numerical rating for districts showing the
14 relative level of compliance with the Fair
15 Districts Amendment.

16 It is also my understanding that the State
17 Redistricting staff, both staffs, the House and
18 the Senate staffs have not included that
19 compactness and spacial analysis components
20 that are available online through the State
21 House and Senate websites.

22 On May 24th of this year, I contacted the
23 Redistricting staff for an answer and received
24 a return e-mail from the Speaker's office
25 saying the Speaker's office had its doubts that

1 it would implement those statistical evaluation
2 tools into the final software plans they were
3 using.

4 I was told that the staff members could
5 not comment to me and invited me today to
6 attend this hearing and ask the Committee about
7 this. So I am here, Mr. Chairman, and I have
8 got two questions today.

9 The first is, why are the compactness and
10 spacial analysis components which are already
11 existing and available in the original District
12 Builder software not contained in Florida's
13 District Builder and My District Builder
14 programs, and the second question, why not?

15 REPRESENTATIVE PRECOURT: Thank you for
16 those comments, Mr. Levine, appreciate that.

17 Also, would Mignon Kostamo start working
18 down. Representative Weatherford, you are
19 recognized.

20 REPRESENTATIVE WEATHERFORD: Thank you,
21 Mr. Chairman. I just want to take a brief
22 minute, Representative Levine, just to make a
23 comment in regard to that question.

24 There was a column that was written to the
25 Sun Sentinel and you may or may not be aware

1 but the Sun Sentinel has already ran a
2 correction to that column, and there were some
3 facts about the My District Builder that were
4 not accurate.

5 And basically what that is, is that there
6 have been no compactness requirements removed
7 from My District Builder.

8 In fact, what the Committee is going to
9 have is a report of the eight different types
10 of compactness. There are eight different
11 forms of compactness that the Courts have
12 created.

13 Every member of this Committee as a map is
14 drawn will have the ability to look at that,
15 but I believe there has been some confusion
16 about the District Builder that is from
17 Professor McDonald at George Mason and the My
18 District Builder which is not based off of his,
19 it is a product of the House of Representatives
20 and the Senate which has a separate program
21 called District Builder.

22 So the names may be the same. They are
23 different softwares and different programs and
24 the Sun Sentinel has already written a report
25 that their original language in that article

1 was not accurate. So I just wanted to point
2 that out, Mr. Chairman.

3 MR. LEVINE: Thank you for that comment,
4 sir. It is not fair to throw that out and
5 leave it open if it is not true.

6 REPRESENTATIVE PRECOURT: Thank you, Mr.
7 Levine, and please see our staff and we will
8 work this issue through.

9 Next I have Sheri Morton, and you are
10 recognized, Ms. Morton, and if Mignon Kostamo
11 would start working his way down here as well,
12 I would appreciate it. Thank you. You are
13 recognized, Ms. Morton.

14 MS. MORTON: Thank you, I am Sheri Morton
15 and I live in Unincorporated West Osceola
16 County, a suburb of Orlando near Kissimmee.

17 Osceola County is currently divided into
18 three Congressional Districts with much of
19 Osceola, including where I live in District 15.
20 Most of the population of Congressional
21 District 15 is from Brevard and Indian River
22 Counties which are far away from where I live
23 and with which Osceola shares little in common.

24 Brevard and Indian River Counties are
25 focused on NASA. In contrast, the focus in

1 Osceola is on metropolitan Orlando, including
2 both Osceola and Orange Counties.

3 Osceola is a majority minority county with
4 over a quarter of a million people, high
5 unemployment and urban problems, including
6 transportation, gangs, grid lock on Interstate
7 4. People in Osceola generally work in the
8 tourism industry, including theme parks and
9 hotels.

10 Having a Congressman from far away on the
11 east coast who is focused on NASA, I-95 and the
12 beaches doesn't give my community the
13 representation we need.

14 With Osceola County broken into three
15 Congressional Districts, the needs of Osceola's
16 largely Hispanic population are easily ignored
17 by central Florida's Congressmen.

18 Please follow the Fair District Amendments
19 of Florida's Constitution and keep Osceola
20 County intact in one Congressional District.

21 Please combine Osceola with Orange County
22 into a Congressional District together that has
23 similar community interests and populations.

24 Thank you.

25 REPRESENTATIVE PRECOURT: Thank you,

1 Ms. Morton. Very well said. Next we have
2 Ms. Nancy Smith and if Jack Jordan would also
3 start working his way down. Ms. Smith.

4 MS. SMITH: Ladies and gentlemen. Thank
5 you for the opportunity to speak. There are
6 many people who are not here today because they
7 don't think it would make a difference and they
8 may be right, but it never hurts to try.

9 I am a native Floridian and a resident of
10 Osceola County. At the outset let me tell you
11 how many people believe about our Fair
12 Districts. Over 60 percent of Floridians
13 passed the Fair Districts Amendment and we
14 recent the attempt by some Legislators using
15 our tax dollars to force its nullification.

16 Fair Districts -- Fair Districts must be
17 contiguous, share some commonality and
18 recognize existing geographic lines when
19 possible. We have nothing in common with
20 Okeechobee County and I want to tell you that I
21 go up and down there all of the time, because I
22 am a fisher person, an angler, and I have gone
23 all over all of these counties, and I know what
24 we have in common and where we have it.

25 We have one thing in common with

1 Okeechobee County and that is a river that runs
2 through it. We have nothing in common with
3 Brevard County where we are stuck with, that we
4 never see those people, except the need for
5 fresh water which we have to fight over, and we
6 have little in common with Polk County because
7 their rural lands are used for mining much more
8 than ours.

9 Most of Osceola County has already been
10 approved for development for the next 1,000
11 years, so we are developed. Osceola and Orange
12 Counties together meet the needs of the Fair
13 Districts criteria perfectly.

14 We share the same major employers. We
15 share the same environment and environmental
16 concerns. We are the head waters of the
17 Kissimmee River, Orange and Osceola. We share
18 the same diverse populations and most of us are
19 very, very proud of our diversity and support
20 our diversity.

21 We share the same judicial circuit. We
22 share transportation money and problems. We
23 share tourism as our major industry. We share
24 I-4 and its problems. We even are sharing the
25 Lake Nona community in Osceola County and the

1 traffic and development that comes with that.

2 We share so much that our county lines are
3 blurred and when I came here at 5:35 today I
4 saw a big sign that said Embassy Suites,
5 Orlando. It is on Osceola County land right
6 outside Kissimmee, not close to Orlando, but
7 that is us, we are Orlando a lot of the time.

8 We should be in the same district as
9 Orlando if you all follow the rules. I know it
10 may have to be divided according to numbers and
11 I haven't had an opportunity to divide the
12 numbers, but if we need additional population,
13 the next most common people with us is the
14 southwest side of Seminole County who has
15 similar demographics.

16 If you cut off Poinciana, which I have
17 seen proposed, or if you cut Buenaventura
18 Lakes, both in Osceola County mainly, then you
19 will be intentionally diluting our proud
20 Hispanic and African-American populations that
21 now together create almost a majority in
22 Osceola and Orange Counties, and we don't think
23 that is equitable or fair districting.

24 If you do that, it will be seen as the
25 gerrymandering that will be continuing and

1 which we voted against and hopefully will be
2 struck. Thank you.

3 REPRESENTATIVE PRECOURT: Thank you for
4 those comments. If you would leave that with
5 our staff that will help us with the record.

6 Mignon Kostamo is next and if Mr. Charles
7 Bibber would start working his way down, I
8 would appreciate that.

9 MS. KOSTAMO: Hi, I am Mignon Kostamo. I
10 am only here to say one thing. I hate to be a
11 one person issue, because that is really
12 against everything I have grown up with. Oh, I
13 am an old Floridian, too, an old Floridian, but
14 our issue right now is the little, what used to
15 be City of Orlovista.

16 It has been cut in pieces, it is cut in
17 half. Hopefully, and I am going to the meeting
18 that they are having at 6:00, hopefully the
19 county will keep Orlovista in one district, not
20 split them down the middle with Perkman Road
21 which is really high traffic.

22 We would like it in one district and that
23 is my concern for you today. Thank you for
24 being here. I know this is an awful job for
25 you, but I appreciate it very much and what

1 time I have left I will give to Charlie Bibber.

2 REPRESENTATIVE PRECOURT: Thank you.

3 MS. KOSTAMO: Thank you very much.

4 REPRESENTATIVE PRECOURT: Thank you.

5 Mr. Bibber, you are recognized.

6 MR. BIBBER: I am going to yield my time.

7 REPRESENTATIVE PRECOURT: Okay, thank you
8 very much. Appreciate the comments. Jack
9 Jordan is up next and would Eddie Moorer and
10 Emilio Perez start working their way down?
11 Mr. Jordan, thank you.

12 MR. JORDAN: Thank you. I am a -- I am
13 representing, here on behalf of the Board of
14 the Central Florida Chapter of the American
15 Civil Liberties Union and I am also -- and I am
16 also a professional story teller, and I think
17 in this case the story telling part may be the
18 most germane.

19 This plot actually has a story line that,
20 in spite of the money that was put in to oppose
21 Amendments 5 and 6, 63 percent of Floridians
22 saw the problems with gerrymandering,
23 Independents, Republicans and Democrats and
24 voted to end the practice.

25 Now, what has happened since then? Some

1 of the issues have been identified. We are
2 here appearing at hearings with no maps to
3 actually look at. That is pretty
4 unprecedented.

5 There is a lawsuit that this Legislature
6 has joined in and it is not simply to clarify
7 the Amendments. You are seeking to strike
8 Amendment 6, and that should not be tolerated,
9 and any denials to the contrary are just not
10 credible.

11 And I have another comment. There is also
12 in Amendment 6, apparently it is well known
13 that the districts, the purpose of these
14 Amendments are to create fair district lines,
15 including minority districts to achieve greater
16 diversity.

17 It is not part of the Voting Rights Act
18 and Corrine Brown is apparently confused. It
19 is not a part of the Voting Rights Act that she
20 would be guaranteed a Congressional Seat for
21 life.

22 So I would urge the Legislature, if you
23 really want to show good faith, is to
24 disassociate yourself from this lawsuit, stop
25 spending \$30 million of our money which

1 particularly in a time of budget cuts and state
2 deficits. Thank you very much.

3 REPRESENTATIVE PRECOURT: Thank you, sir.
4 Next we are going to have Mr. Eddie Moorer and
5 if Juan Cartagena and the Reverend Randolph
6 Bracy would start working their way down,
7 Bracy, if they would both start working their
8 way down, I would appreciate it.

9 Eddie Moorer is up next. Mr. Moorer, are
10 you working your way over here? Thank you,
11 sir. Mr. Moorer will go, then Mr. Perez and
12 then Mr. Cartagena.

13 MR. MOORER: Good evening, gentlemen. The
14 reason why I am here is basically because I saw
15 the redistricting information that came across
16 my computer and I thought it would be something
17 interesting to find out what the state is
18 actually doing for minorities as far as
19 redistricting is concerned with the State of
20 Florida.

21 So many times I agree with some of the
22 speakers that had come before me. We have a
23 situation whereas we have a lot of minority in
24 place in central Florida, but we don't have the
25 representation that goes with the people that

1 we have in the area.

2 You know, another problem that I see with
3 the problem that we have here now like the lady
4 spoke of earlier, was the fact that, you know,
5 these hearings are good, but really does it
6 really make any opinion to have one now when we
7 really don't have anything to base our
8 redistricting on.

9 We have to wait to see what you guys got
10 for us as far as redistricting, because you
11 apparently are supposed to be putting two more
12 Senators in or two more districts in, whatever
13 the case may be.

14 It would be nice if we had a map or
15 something to go on, something to look at that
16 we can do something constructive with. Then if
17 we had that then we could vote on that and come
18 back and give our favorable opinion of what we
19 would like to see done for our communities,
20 because as it stands right now we don't know,
21 you know, based on what I have been seeing out
22 there, it is all Greek to me.

23 So it is something that we are going to
24 have to come up with. If we put something
25 down, you know, it might sound good to us, but

1 are we going to get what we put down or are we
2 just going to be swept under the rug like so
3 many other opportunities?

4 REPRESENTATIVE PRECOURT: Thank you,
5 Mr. Moorer. Next we have Emilio Perez,
6 followed by Mr. Cartagena and Reverend Bracy
7 and then Cathy Kerns.

8 MR. PEREZ: Thank you, and hello,
9 everyone, welcome to Orlando. My name is
10 Emilio Perez and I am the Chairman of the
11 Central Florida Redistricting Council.

12 We are a not for profit bipartisan
13 organization, who's purpose is to create new
14 districts based on the 2010 Census.

15 Can we pass this slide? I have a slide, I
16 was hoping that you will see it, but
17 unfortunately it is in your backs.

18 But anyways, as we all know, the 2010
19 Census, can you pass --

20 REPRESENTATIVE PRECOURT: Yes, we have the
21 slide up on there.

22 MR. PEREZ: All right, but they need to
23 click it.

24 REPRESENTATIVE PRECOURT: Click it.

25 MR. PEREZ: All right. As we all know --

1 REPRESENTATIVE PRECOURT: Hopefully
2 somebody back there has a clicker.

3 MR. PEREZ: There you go. Let's go to the
4 next one, please, there you go. As we all
5 know, the 2010 Census showed us that the reason
6 of the addition of two new Congressional
7 Districts for the State of Florida are due
8 mostly of the growth of the Latino community.

9 We go to the next slide. Specifically,
10 the growth of our community, central Florida,
11 as you can see, the state population grew
12 55 percent of the total growth of the state was
13 the Latinos of central Florida and that is very
14 important.

15 What we are requesting is simple. We are
16 requesting that you consider the creation of a
17 new Congressional District for central Florida
18 with minority Latinos. As you all know, we are
19 driven by our common bonds of language,
20 culture, businesses and economic growth among
21 many other common bonds.

22 We can go to the next slides. All of them
23 reflect that in central Florida, only someone
24 that understand this culture or ties will be
25 able to properly represent us. Nobody else.

1 We, the Central Florida Redistricting
2 Council are the voice for all Latinos. We are
3 demanding that one of these new Congressional
4 Districts assigned to Florida rewards the
5 community that made it happen.

6 Let me repeat that again. One of this new
7 Congressional Districts assigned to Florida
8 rewards the community that made it happen. Not
9 awarding us with a Congressional District will
10 be like penalizing us for the growth that
11 landed the state with two new Congressional
12 Districts.

13 Can we go to the next slide, please. For
14 this reason we join by many national
15 organizations, but mostly importantly is our
16 partnership with Latino Justice. Latino
17 Justice is a civil right league organization
18 who will next introduce this new Congressional
19 District. Thank you very much.

20 REPRESENTATIVE PRECOURT: Thank you, sir.
21 Mr. Cartagena. And a if Nelson Pinder and
22 Diane Rambo can start working their way down, I
23 would appreciate it. Mr. Cartagena.

24 MR. CARTAGENA: Good afternoon, members of
25 the Florida State Senate and House. Thank you

1 very much. My name is Juan Cartagena. I am
2 the President and General Counsel of Latino
3 Justice Pearl Death, formerly known as the
4 Puerto Rican Legal Defense and Education Fund,
5 a National Civil Rights organization that is
6 based in New York.

7 I am here to introduce you as Emilio Perez
8 said, to the proposal that we want to advance
9 and it has already been accepted and on your
10 website and submitted according to your
11 protocols for a Latino anchored, central
12 Florida anchored new Congressional District.

13 This is my fourth round of redistricting.
14 I may not look it, gentlemen and ladies, but
15 this is my fourth round of this redistricting,
16 I have done it all over the country.

17 Florida is in a unique position. The
18 strong economic climate that you have built in
19 this state, the improvements to your
20 infrastructure, the public sector, the private
21 sector improvements have made Florida a very
22 important place and a very attractive place to
23 live.

24 You are very lucky. We work in
25 communities in which we lose Congressional

1 Seats, and we have to fight to save what we
2 have. You have the opportunity now to create
3 new opportunities.

4 So I speak to you about the important
5 topics of politics, demographics and political
6 opportunity. All of it is embroiled in what we
7 call redistricting, and it happens only once
8 every ten years.

9 Redistricting by definition reflects
10 demographic change and that change --

11 REPRESENTATIVE PRECOURT: Mr. Cartagena --

12 MR. CARTAGENA: I am almost finished.
13 Redistricting reflects demographic change and
14 that change as you have heard from the previous
15 speaker is pretty significant in central
16 Florida.

17 But redistricting also requires you to
18 comply with various laws. I will not get into
19 those laws because that is what I specialize
20 in, we could talk about that for hours.

21 However, the proposal that we give you for
22 you to consider is a proposal only. It will
23 have to be tweaked as we go, map the entire
24 state for Congressional Districts. The
25 preliminarily proposal would have a

1 Congressional District of 46.2 percent Latino,
2 12.3 percent black, about 34.8 white and about
3 4.2 percent Asian. We ask you to consider it
4 and consider it seriously. Thank you.

5 REPRESENTATIVE PRECOURT: Thank you very
6 much. We greatly appreciate that. Next we
7 have the Reverend Randolph Bracy, and he will
8 be followed by Cathy Kerns, and if Mr. Mike
9 Ketchum and John Quinones could start working
10 their way down as well. Reverend Bracy.

11 REVEREND BRACY: I am Reverend Randolph
12 Bracy, senior Pastor and founder of the New
13 Covenant Baptist Church of Orlando, a native
14 Floridian, born and reared in Duval County.

15 I am a graduate of three Florida schools,
16 the Great Bethune Cookman University, Florida
17 A&M University, and the University of Florida.

18 So I come as one who is now 66, going on
19 67 years. I know Florida and I love Florida.
20 I thank God for this privilege because I am
21 known locally as a Civil Rights activist.

22 We in Florida have the opportunity now to
23 do something that has not been done before, and
24 that is to respond to the very explosive growth
25 on the I-4 corridor. This going right now in

1 the center of the I-4 corridor happens to be
2 right here in Orlando.

3 Orlando, and I have heard about Osceola
4 County, deserves, deserves, because of the
5 burgeoning explosive population growth,
6 deserves the new Congressional Seat.

7 It should be a minority, i.e.,
8 African-American seat. I implore you, I
9 beseech you by the mercies of God, that you do
10 the right thing and give us a seat that has an
11 African-American Congressman.

12 REPRESENTATIVE PRECOURT: Thank you,
13 Reverend. Next we have Ms. Cathy Kerns, and
14 she will be followed by Nelson Pinder.

15 Ms. Kerns, thank you, and you can go ahead
16 and adjust that as well.

17 MS. KERNS: Thank you. Good afternoon,
18 Chairman and members. My name is Cathy
19 Williams-Kerns, and I am a resident of Orange
20 County, Florida, and today I am honored to
21 speak to you on behalf of AARP, a wonderful
22 organization, a bipartisan organization
23 dedicated to protecting seniors.

24 Transparency, timeliness and trust. These
25 principle elements of the redistricting process

1 must be adhered to. The voters of Florida have
2 spoken about fair districts, and we are
3 concerned the project is going to proceed
4 without full disclosure and public
5 presentation.

6 This openness must be achieved before
7 Legislators, you folks, make your decisions.
8 The public needs the opportunity to comment and
9 I thank you for giving us an opportunity today
10 to do that, and to have those comments be
11 meaningfully considered and not cast aside.

12 The timeliness of the process is crucial.
13 The Legislator owes Florida residents and
14 voters professionalism and timely completion of
15 this redistricting process.

16 All procedural steps, both legislative and
17 non legislative must be achieved in order for
18 there to be timely qualification of 2012
19 candidates under new districts, and for
20 campaigns prior to voters casting their
21 ballots.

22 We need to complete this project sooner
23 rather than later. We ask you to insulate the
24 process. Please avoid the appearance of
25 conflict of interest.

1 Negative voter perceptions of conflict can
2 only drag on and drag down the progress of this
3 important redistricting project. We ask you to
4 post the proposed map designs so they can be
5 reviewed by all and do so sooner than later.

6 On a personal note, I ask you not to tear
7 apart contiguous neighborhoods and establish
8 communities within the district lines. Please
9 respect the unique qualities of communities of
10 interest.

11 Uphold fair districts and maintain your
12 integrity in the process. I have reviewed the
13 current citizen map proposals on file and urge
14 you to strongly consider logic and the reason
15 for clean contiguous district lines so that the
16 entire state of Florida will benefit and not
17 just a few. Thank you very much for your time
18 and attention.

19 REPRESENTATIVE PRECOURT: Thank you,
20 ma'am, appreciate that. Next we have Nelson
21 Pinder, who will be followed by Diane Rambo and
22 if Stephen Cullum and Timothy Murray can start
23 working their way down as well, we would
24 appreciate that. Sir, you have the mike.

25 MR. PINDER: Honorable ladies and

1 gentlemen, my name is the Reverend Nelson W.
2 Pinder. I am an Episcopal Priest retired three
3 times. The Lord never lets you retire.

4 I woke up this morning in the greatest
5 country in the world, but in the greatest
6 country, I woke up in the greatest state in the
7 world, Florida, to celebrate my 79th birthday.

8 REPRESENTATIVE PRECOURT: Congratulations.

9 MR. PINDER: But I come here today to tell
10 you that this is the time for us to speak up,
11 to work up, and to be able to be honest among
12 ourselves so that we can sleep at night.

13 Ladies and gentlemen, I hope that you,
14 with this new Congressional District, don't
15 play the game of minority against minority.

16 I don't want you to fence me out. I want
17 you to fence me in. I want you to be able to
18 look at this whole picture and think what is
19 best for Florida and what is best for America.

20 This is a land of we the people, we the
21 people, all nationalities, all races, all
22 languages, make up this great Mosaic piece. I
23 hope and trust that when you go back to draw
24 your redistricting that you give us both, an
25 Hispanic district and a black district.

1 It can be done. It can be done, because
2 Florida has done it before and we can do it
3 again. I know we could, because you are
4 honorable and gentle people, with honorable and
5 gentle ways to carry out the state of Florida.
6 Thank you very much.

7 REPRESENTATIVE PRECOURT: Thank you very
8 much, Reverend. Next we have Diane Rambo
9 followed by Mike Ketchum and if Mable Butler
10 and the Reverend Ohara Black can start working
11 their way down. Madam, you have the mike.

12 MS. RAMBO: Good afternoon, my name is
13 Diane Rambo. I live in east Orlando or east
14 Orange County. I live in State Representative
15 District 32. My Representative lives in
16 Merritt Island.

17 My State Senator District is 24. My
18 Representative, excuse me, my Senator, he lives
19 in Melbourne. Melbourne is an hour away in
20 another county, Brevard County.

21 Neither of these two has ever come to
22 Union Park and had a town meeting. None of
23 them has ever knocked on my door. None of them
24 has ever represented me in Union Park or
25 Hispanic east Orange County in any way that we

1 can tell.

2 Our question today is will you draw us a
3 district that is east Orange County only? We
4 do not need to be lumped in with Brevard County
5 an hour away on the other side of the swamp.

6 Could you make this district follow
7 geographic areas and like stop at the swamp at
8 the St. Johns River?

9 And would you please give us six months to
10 raise up time to have candidates ready for the
11 new districts? This shouldn't effect the
12 incumbent, Mr. Crisafulli and Mr. Altman, they
13 can keep those districts over there, but we
14 just want representation over here. Thank you.

15 REPRESENTATIVE PRECOURT: Thank you,
16 ma'am. Okay, next we have Mr. Mike Ketchum and
17 he will be followed by John Quinones, and if I
18 could also have Jessica Hewkin and Chuck O'Neal
19 start working their way down. Mr. Ketchum.

20 MR. KETCHUM: Thank you, Mr. Vice
21 Chairman. I am Mike Ketchum and I serve as
22 Vice-President of the Orlando Regional Chamber
23 of Commerce.

24 While it may be my distinct pleasure to
25 welcome you today as the Chamber of Commerce,

1 it is also an even greater pleasure for me to
2 welcome and congratulate you on the
3 redistricting process you have put in place
4 which I am confident will result eventually in
5 a fair and equitable plan.

6 You have devised a transparent open
7 process unprecedented in our state's history
8 that is designed to encourage and solicit
9 important citizen input on how our political
10 boundaries should be drawn for the next decade.

11 I want to particularly commend you on the
12 innovative website you have created to enable
13 Floridians to propose their redistricting
14 recommendations for your consideration, and
15 also in your willingness to conduct numerous
16 public hearings throughout our state by this
17 diverse and bipartisan committee.

18 Members, it wasn't always done this way.
19 At your Daytona Beach hearing recently I had
20 the chance to reminisce with Senator Thrasher
21 about the redistricting process. We were both
22 young Florida Senate staffers many years ago.

23 Back then there were secret maps,
24 concocted in back room corridors, later tucked
25 away in coat pockets or filed away in the

1 basement of the Capitol, only to reappear at
2 the last possible moment and without any
3 appropriate public scrutiny.

4 I must also observe that some we are
5 hearing from on this process seem to have no
6 problem with that process at that time and, in
7 fact, were quite content with the previous
8 redistricting efforts, but today it appears
9 they want you to return to that discredited
10 process without -- and by producing
11 predetermined maps without the benefits of any
12 public input so as to invite and encourage the
13 litigation that they are seeking.

14 The reality is we have come so very far
15 from those days long ago and you are to be
16 congratulated for bringing the process into the
17 sunshine.

18 You have correctly taken a common sense
19 approach by seeking public input before the
20 maps are drawn and not afterwards.

21 Now, with respect to the redistricting
22 process to be undertaken and without
23 elaborating on the population numbers and the
24 trends before you, suffice it to say with the
25 Orlando metropolitan area and its surrounding

1 region have enjoyed substantial and significant
2 population growth in the last decade, which
3 clearly must be reflected in your forthcoming
4 recommendations and should result in an
5 enhanced Congressional and legislative
6 representation.

7 Additionally, the lines that are to be
8 drawn must unquestionably reflect and adhere to
9 represent Court decisions, requirements of the
10 Federal Voting Rights Act, as well as recently
11 approved Amendments to the Florida
12 Constitution.

13 As you proceed ahead there should be no
14 impediment to your granting a top priority in
15 redistricting to well-established communities
16 of interest as opposed to solely arbitrary
17 geographical boundaries.

18 Furthermore, as there is unique
19 opportunity and obligation in the Orlando area
20 as well as in other areas of the state to
21 properly recognize and protect the community
22 interests of minority groups in the
23 redistricting process in a manner that fully
24 satisfies Federal, as well as State
25 requirements.

1 Going forward, I am confident that a
2 redistricting plan can and will be drafted that
3 will reflect well on this Legislature and will
4 not result in unelected Judges, who are often
5 times not familiar with or fully appreciative
6 of the expressed wishes of the citizenry and
7 their duly elected representatives, imposing
8 their wishes on Florida by judicial decree.

9 Thank you very much for the opportunity to
10 appear today.

11 REPRESENTATIVE PRECOURT: Thank you,
12 Mr. Ketchum. Next, ladies and gentlemen, if we
13 would provide the, as a courtesy to other
14 speakers, not have that kind of commentary on
15 their presentations.

16 Everyone here is a citizen of the state of
17 Florida and we want to hear from all of them.
18 Mr. Quinones, thank you for being here.

19 MR. QUINONES: Well, thank you, and first
20 I must commend you because your pronunciation
21 of the Spanish last name is impeccable, and it
22 is a great honor to be here and also to see
23 some friends that I served in the past and
24 believe me, I do have a new found a
25 appreciation of the work that you do and it

1 certainly is appreciated.

2 I am John Quinones, I am a County
3 Commissioner in Osceola County. It was really
4 refreshing to hear from residents of Osceola
5 who I respect, like Nancy Smith and her points
6 are really well taken.

7 I think the commonalities between Osceola
8 and Orange are various and I am not going to
9 repeat them.

10 I will tell you that as you look at the
11 intent of our founders and as you look at the
12 great opportunity that Florida has of
13 redistricting, I would just hope that you keep
14 in mind the reason for the redistricting
15 process and how we may be blessed with the
16 opportunity to have more representation at the
17 Federal level.

18 And that you also look at what particular
19 groups actually helped with that increase in
20 population and representation.

21 I certainly appreciate the work that has
22 been done here locally by groups like the
23 Central Florida Redistricting Council, by
24 Nalaya, Latino Justice and others, and
25 certainly it may not be a perfect map, but I

1 would certainly ask you to at least consider
2 that the compact nature.

3 We just finished doing our own
4 redistricting in Osceola and certainly that was
5 a big consideration to make sure that it was
6 compact.

7 So I appreciate your efforts and certainly
8 hope that you as Abraham Lincoln told us,
9 provide the equality of opportunities for our
10 residents here in central Florida. Thank you.

11 REPRESENTATIVE PRECOURT: Thank you for
12 being here, Commissioner, great in-sights.

13 Next we have Mr. Stephen Cullum, who will
14 be followed by Timothy Murray.

15 Mr. Cullum, you worked your way down. The
16 microphone is yours. You will be followed,
17 again, by Timothy Murray and then Mable Butler.

18 MR. CULLUM: Good afternoon, my name is
19 Stephen Cullum, and I found out about this on
20 the Internet. I read a lot of newspapers on
21 the Internet and books and things like that.

22 I am one of the citizens that voted for
23 Fair Districts. I believe, you know, that it
24 would make the government more inclusive. I
25 want to have an aggregative representation,

1 every group of people here, you know, will be
2 represented, and also I believe that our
3 government, both locally and even on the state
4 and a national level is dysfunctional right now
5 because you have two extreme groups and the
6 reason why is because of gerrymandering in my
7 opinion.

8 I want to have politicians that are
9 elected from a more representation slice of
10 society so that they can be more moderate and
11 actually can come together and compromise and
12 get stuff done.

13 That was my thoughts when I voted, you
14 know, for those two Amendments and that is
15 really what I want this body of officials to
16 do, is to go ahead and create maps that will be
17 inclusive and put people together.

18 And also I know a lot of minorities want
19 to have representation, but you have to realize
20 that, you know, what we have been doing is
21 putting you in kind of like together in one
22 single district and diluting your voting power.
23 So you don't want every minority just in their
24 own separate district.

25 You all have a lot of influence, a lot of

1 voting power, but not when they do that to you,
2 it is actually, you know, it is actually not
3 doing you right, and I don't like that either.
4 That is really about all I have to say, sir.

5 REPRESENTATIVE PRECOURT: Thank you very
6 much, sir. Next we have Timothy Murray, who
7 will be followed by Mable Butler and then the
8 Reverend Ohara black. Mr. Murray.

9 MR. MURRAY: Hi, how are you doing today?
10 Timothy Murray, District 8. Real quick, I just
11 want everyone who voted for Fair Districts,
12 could you stand up real quick?

13 That is a pretty good majority in this
14 room and I just want to ask that during these
15 sessions you please address the fact and tell
16 these people why our state is, the taxpayer
17 dollars are being used to sue themselves and
18 defend themselves when 63 percent of the state
19 of Florida voted for these fair districts, why
20 are we here?

21 Real quickly, right on, people. Touching
22 on what Diane Rambo said, like I said, I am in
23 District 8. I would like you to draw me a
24 district for the City of Orlando so that my
25 Congressman doesn't have the chance to hide out

1 in Winter Garden and not come to see the people
2 that he is supposed to represent.

3 I believe we had one Town Hall meeting
4 kind of near Orlando downtown area, and it was
5 at noon, you know, it was pretty far to get to.
6 So just, you know, draw a district that is fair
7 for these people right here. Thanks, guys.

8 REPRESENTATIVE PRECOURT: Thank you,
9 Mr. Murray. Next we have Ms. Mable Butler, and
10 she will be followed by the Reverend Ohara
11 Black. Ms. Butler.

12 MS. BUTLER: Good afternoon, my name is
13 Mable Butler, and I want to talk about minority
14 access districts, if is a must.

15 In 1990, I was elected to Orange County,
16 the Board of County Commissioners. The first
17 black in the history of the county.

18 I was elected from a district, but I
19 served the whole county, all of Orange County
20 citizens, along with Osceola, Seminole, Lake
21 and Brevard, because I was black and they had
22 accessibility to me.

23 I did want you to know that some of those
24 counties still don't have representation. In
25 1992, because of minority access districts, the

1 citizens of Florida sent three blacks to
2 Congress. The first in my lifetime, which is
3 85 years.

4 So please, and I want you to remember, in
5 access districts you are allowing minorities to
6 have representation throughout the state and
7 have an option to choose. That is the word,
8 choose a Representative of their choice. Thank
9 you.

10 REPRESENTATIVE PRECOURT: Thank you,
11 Ms. Butler. Okay, next, we have the Reverend
12 Ohara Black, followed by Jessica Hewkin, and
13 Chuck O'Neal, and if Ida Escamoni, John Hoyt
14 and Allisha Douglas can start working their way
15 down, I would appreciate it. Mr. Black.

16 REVEREND BLACK: Good afternoon. My name
17 is Reverend Ohara C. Black. I am the Senior
18 Pastor at Mt. Pleasant Missionary Baptist
19 Church here in Orlando. I am also a native
20 Floridian.

21 I was born and raised in Gadsden County,
22 amen, Representative Williams. I had the
23 fortunate opportunity also of teaching our
24 young people Civics, American History, American
25 Government in Gadsden County schools.

1 One of the things I share with my Civics
2 students is that our government is about having
3 a voice. You have a republican form of
4 government, not necessarily that we are
5 Republicans, but we believe in a representative
6 voice, and you all know that when you go to
7 Tallahassee you do not speak for yourselves,
8 but you speak for the people you represent.

9 And as you redraw these districts, redraw
10 them in such a way that everyone regardless of
11 race and so forth has a voice. We want our
12 African-Americans to have a voice. That is all
13 I have to say.

14 REPRESENTATIVE PRECOURT: Thank you, sir.
15 Next Ms. Jessica Hewkin and she will be
16 followed by Chuck O'Neal.

17 Ms. Hewkin, are you working your way over?
18 And Mr. O'Neal would be followed by Ida
19 Escamoni. So Ms. Hewkin, you have the floor.

20 And folks, when you work your way down, if
21 you could come closer to the mike so that you
22 can get right to it as soon as we call your
23 name, I would appreciate it. Thank your,
24 Ms. Hewkin.

25 MS. HEWKIN: Hi, my name is Jessica

1 Hewkin, and I am a recent graduate at the
2 University of Central Florida. When speaking
3 to other politically active students across the
4 country it is unbelievable to them that Florida
5 is taking so long to draw our districts.

6 We voted for Fair Districts, and to leave
7 us with little or no time to prep our
8 candidates and voters inside districts is
9 simply not there.

10 I am an intern for an organization that
11 works to get women elected and the rights of
12 women represented, and this incumbent
13 protection plan that is created by this
14 unreasonable timeline of possibly August of
15 next year, is not what is best for women, and
16 therefore, not what is best for Florida.

17 Please take this into consideration and
18 please if nothing else think of the
19 repercussions for 2012. We want fair and
20 competitive elections, and most importantly, we
21 want Legislators who are not afraid of that.
22 Thank you.

23 REPRESENTATIVE PRECOURT: Thank you,
24 ma'am. Mr. Chuck O'Neal is up next, followed
25 by Ida Escamoni. Mr. O'Neal.

1 MR. O'NEAL: Yes, my name is Chuck O'Neal.
2 I have a question for Senator Gaetz.

3 REPRESENTATIVE PRECOURT: We are going --
4 please ask it, but again we are going to answer
5 questions at the end of the meeting.

6 MR. O'NEAL: I will wait around. If, as
7 you have said, this is a partially arithmetic
8 process and 51 percent of the registered voters
9 in the state are Democrat, will 51 percent of
10 the districts be predominantly Democrat?

11 REPRESENTATIVE PRECOURT: Thank you very
12 much, sir. Next we will have Ida Escamoni and
13 she will be followed by John Hoyt, and then
14 Allisha Douglas. And if also Kevin Cobaris and
15 Chester Glover can start working their way
16 down, I would appreciate it. Ma'am.

17 MS. ESCAMONI: Hello. My name is Ida
18 Escamoni, I am a student at the University of
19 Central Florida. I was born and raised in
20 Orlando, Florida, in my short 21 years of life.

21 I am here to send one word to many of our
22 Representatives and Senators in front of us,
23 and that is shame, shame for preventing us from
24 having our fair districts.

25 Shame from hiding these maps and shame for

1 trying to suppress the votes of students and
2 minorities. I go to a University with 60,000
3 students, voting age constituents, and we
4 deserve the right to be represented. You will
5 not split the student vote no more. Please,
6 let students vote, thank you.

7 REPRESENTATIVE PRECOURT: Thank you,
8 ma'am. Next we will have Mr. John Hoyt, and he
9 will be followed by Allisha Douglas, and if
10 also Michael Ertel and Bobby Olszewski can work
11 their way down to the front row, I would
12 appreciate it. Mr. Hoyt.

13 MR. HOYT: Good afternoon, Mr. Chairman
14 and members of the Committee. My name is John
15 Hoyt, and I am a resident of 7425 Barnacle
16 Court in Winter Park, and the zip is 32792,
17 which we will discuss a little bit in a minute.

18 First of all, I want to thank you for this
19 opportunity to appear before this Committee and
20 I appreciate the fact that you have been
21 meeting all over the state and are now about
22 half through, have about 13 more to go. Bless
23 you.

24 I think -- I think on my registration to
25 speak before you I indicated that I belong to

1 AARP and, in fact, I am a trained volunteer
2 AARP advocate, but today I speak on behalf of
3 myself and a resident living in zip code 32792.

4 Unfortunately, that doesn't tell you much,
5 because zip code 32792 is one of those many
6 throughout the state that crosses county lines
7 and has split legislative district.

8 I live in Congressional District 24, which
9 if you walk a little bit west of where I live
10 you practically have to walk sideways in order
11 to get through it before it opens back up
12 again.

13 I live in State Senate District 22 and
14 House District 34 and so on. I live in that
15 southwest corner of Seminole County that does
16 have a Winter Park mailing address, but it is
17 represented by eastern Florida Congressional
18 District and so on.

19 Different from my neighbors who I am
20 within walking distance of the county line with
21 the county of Orlando.

22 Hopefully redistricting will correct some
23 of that so that populations are fairly much
24 contingent geographically.

25 My neighborhood is probably one of the

1 most diverse in the county area with one of the
2 lowest crime rates, too. We are very
3 diversified with white, Latin, black,
4 nationality of different races and religions.
5 It is truly an American melting pot and we all
6 get along beautifully.

7 I have seen some of the proposed
8 redistricting efforts and the people are to be
9 commended for taking a very difficult task of
10 trying to suggest them.

11 I have yet to see one that fulfills
12 redistricting that gives contingent geographic
13 preferences, not a district that I would be in
14 that is represented by Jacksonville. Not a
15 district that I would be in that is represented
16 by Flagler Beach. Not a district that I am in
17 that as is currently represented by Melbourne
18 and the east coast of Florida.

19 I believe that geographic contingency is
20 important as population balance and both need
21 to be considered along with the other factors
22 that have been brought out here today.

23 REPRESENTATIVE PRECOURT: Mr. Hoyt, I am
24 going to have to ask you to finish up so that
25 we can get to our next speakers.

1 MR. HOYT: I wanted to make a point that
2 is frequently brought out, but if your efforts
3 ensure transparency, ensure timeliness of the
4 decision-making, insulate the redistricting
5 process from the conflict of interest and you
6 all know what I am talking about, then the
7 redistricting efforts will be a success.

8 Put your personal feelings and political
9 feelings aside.

10 REPRESENTATIVE PRECOURT: Mr. Hoyt, you
11 have got about ten seconds, and then I have to
12 move to the next speaker.

13 MR. HOYT: Do what the citizens of Florida
14 have dictated to you. Thank you.

15 REPRESENTATIVE PRECOURT: Thank you very
16 much, sir. Next we have Allisha Douglas and
17 she will be followed by Kevin Cobaris.

18 Mr. DOUGLAS: Good afternoon, and
19 unfortunately, I believe my wife card was
20 pulled instead of mine. Her name is Allisha,
21 and unfortunately she could not be here today
22 so I will speak on her behalf.

23 But I want to thank you all for being here
24 today and serving this need of redistricting
25 and I want to echo the thoughts of the Florida

1 League of Women Voters where they gave the
2 dismay towards the fact that we don't have
3 maps.

4 I agree with not having one map, but I
5 would like to see workable maps like every
6 other redistricting community has had.

7 In addition to that I want to speak in
8 regards to the often politically forgotten area
9 of four corners Florida, which is the area of
10 Polk, Orange, Osceola and Lake County.

11 Those districts are often thrown apart in
12 many different ways and I would like you to
13 consider keeping them together when you do your
14 redistricting effort. Thank you very much,
15 have a great day.

16 REPRESENTATIVE PRECOURT: Thank you, sir,
17 appreciate that. Next we have Kevin Cobaris,
18 and he will be followed by Chester Glover.
19 Kevin, are you not here, Mr. Cobaris? And if
20 Eugene Cloud and Bruce Mount could also start
21 working their way down, and when you come down,
22 please come and sit in the front row closer to
23 the microphone so we can go ahead and get to
24 each speaker as quickly as possible. We have
25 lots of folks. Sir.

1 MR. COBARIS: Good afternoon, ladies and
2 gentlemen of our legislation quorum, and good
3 afternoon to all of our constituents.

4 I stand, my name is Kevin Cobaris, Senior
5 Pastor and founder of Empowerment Ministries
6 Church of Orlando, Florida, in the Pine Hills
7 area, I am proud to say.

8 I stand today as a Pastor and I represent
9 the voice of God as it relates to ministering
10 to my congregation and the community.

11 Contrastingly, elected officials represent
12 the voice of their community. To lawmakers
13 without representation, how can change take
14 place? Be it from a spiritual or political
15 standpoint, representation is necessary, and I
16 stand this afternoon reiterating what has
17 before been said, standing on the shoulders of
18 Father Pinder and the other Pastors and others
19 who have got up to speak on behalf of
20 minorities.

21 And I don't stand for, to propose that we
22 should place minority against minority, but I
23 do stand to insist that this quorum of
24 legislation and our elected officials would
25 make a sensible decision to ensure that

1 minorities are represented properly, and we
2 send you back believing in you that after
3 hearing the voice of the constituency here
4 today, I believe a consensus would say that the
5 voice of the people need to be heard and we
6 need to respect that voice even with minorities
7 as well, and we ask you to do a fair job of
8 making sure that that is done. Thank you.

9 REPRESENTATIVE PRECOURT: Thank your, sir.
10 Next we have Chester Glover who will be
11 followed by Michael Ertel. Chester, are you --
12 Mr. Glover, are you here? I am going to go
13 ahead and move on to Michael Ertel. He will be
14 followed by Bobby Olszewski, and if Eugene
15 Cloud and Bruce Mount could start working their
16 way down as well. Mr. Ertel.

17 MR. ERTEL: Thank you, Senators,
18 Representatives, thanks for having this
19 meeting. It is a very interactive event here
20 at the Bob Carr, which is pretty awesome
21 instead of us just looking there.

22 I do notice that you are having an event
23 here in Orange County, you are having one in
24 Brevard County and you are having one in
25 Volusia County. So please do not leave out

1 Seminole County.

2 As you leave here today, please stop by
3 Altamonte Springs and go to the, go to the
4 Moses in the Town Center there, in uptown
5 Altamonte where Representative Plakon lives,
6 maybe stay in Lake Mary in Representative
7 Dorworth's 's district, and tomorrow morning
8 when you wake up please go to the Townhouse
9 Restaurant in Oviedo in Representative
10 Brodeur's district.

11 REPRESENTATIVE PRECOURT: All right, let's
12 focus our comments on redistricting.

13 MR. ERTEL: I do tell my candidates in
14 every single election that half of the
15 candidates are going to lose, and it is kind of
16 interesting to say that here today, because
17 well over half of the people that are here in
18 the audience today are going to feel when this
19 whole process is over, as if they have lost.

20 The process may be the process, but just
21 because it is not exactly everything we all
22 want it doesn't mean that the process, itself,
23 is broken.

24 No one is going to be 100 percent
25 satisfied, and in fact, I promise you, I

1 promise you that every single one of you at
2 some point or another in this process will be
3 sued by some organization.

4 In our office it is our job to make sure
5 that we can, you know, compensate for that. We
6 have eight word mission statement in the
7 office, the first two words are efficient
8 elections, the last two words are voter
9 confidence, if you want to know the middle
10 words, go follow us at Vote Seminole on Twitter
11 or you can print us at Facebook dot Com slash
12 vote Seminole. I want to confirm here, get
13 back to the point.

14 REPRESENTATIVE PRECOURT: You are running
15 out of time.

16 MR. ERTEL: Our timeline does not start
17 the day that yours finishes, and this is
18 something that I want to assure the voters.
19 The Supervisors of Elections in the State of
20 Florida, our timeline will not start when your
21 timeline ends.

22 So the first map that is drawn, we are
23 going to get to work. We are going to start
24 rolling up our sleeves and we are going to make
25 it happen and then all are going to get sued

1 and there is going to be a tweak to the map and
2 then we are going to tweak the map.

3 So please rest assured for ya'll up there
4 that you are not going -- that our timeline
5 doesn't start when yours ends, and when you get
6 sued, your Supervisors of Elections in this
7 state, all 67 of us are not going to allow the
8 fear of the result of that lawsuit to paralyze
9 us into inactivity.

10 We are going to start and for the voters
11 who are watching us online or that are here
12 behind me right now, just recognize that your
13 Supervisors of Elections will work very hard,
14 we are going to make it happen.

15 It is going to work, it is going to be
16 fine, and then ya'll do your job, the courts
17 will do their job, we will do our job, the
18 voters will do their job and Jay Leno and Conan
19 O'Brien can start making fun of Hollywood again
20 next year instead of Florida elections. Thank
21 your, Representatives.

22 REPRESENTATIVE PRECOURT: Thank you,
23 Mr. Ertel. Next we have Bobby Olszewski, he
24 will be followed by Eugene Cloud, and if Bruce
25 Mount and Sue Jantz can start working their way

1 down.

2 MR. OLSZEWSKI: Thank you, Mr. Chairman,
3 my name is Robert, Bobby Olszewski, and I am a
4 proud resident of the city of Winter Garden and
5 I have been a resident of southwest and west
6 Orange Counties for over 30 years.

7 I want to thank the Legislature for coming
8 to Orlando and listening to the citizens of
9 Florida before designing any maps. Your action
10 I believe is truly a testament to the
11 Constitution.

12 As a legislative branch, is a direct
13 connection to we the people. All Florida
14 residents should be proud of our Legislature
15 for this open and transparent process which
16 allows citizens to design their own maps before
17 submitting them online.

18 In the interest of serving the people of
19 the State of Florida I would encourage you to
20 consider having the cities of Winter Garden,
21 Ocoee, Oakland and Gotha together in a single
22 district as these communities share common
23 bonds, interests and history.

24 I fully support the government embracing
25 the will of the people, which is the hallmark

1 of our great democracy. However, I do have
2 some concerns regarding the language of
3 Amendments 5 and 6.

4 The requirement that incumbents cannot be
5 disfavored is confusing to me. Does that mean
6 if two incumbents in the same seat are in the
7 same seat they can even sue for being
8 disfavored?

9 Critical words of Amendments 5 and 6 are
10 undefined like compact, practicable, feasible
11 and existing political boundaries. I am not an
12 attorney but I would think that this ambiguity
13 would definitely lead to some great confusion
14 and then potentially lawsuits which would be
15 costly to the citizens of Florida.

16 Lastly I would like to ask what are
17 exactly existing political boundaries. Are
18 these boundaries current seats, because if
19 those boundaries are gerrymandered then why are
20 we using them, or are these existing political
21 boundaries city boundaries, because a lot of
22 times city boundaries may not be compact, which
23 should mean new districts would not fit the
24 vague intent of Amendments 5 and 6 either.

25 I fully support the government embracing

1 the will of the people which is the hallmark of
2 our great democracy. However, I think there is
3 some logical and legal concerns regarding
4 Amendments 5 and 6.

5 Thank you, Mr. Chairman and members of the
6 Committee for taking the time to listen to the
7 people of the great state of Florida. Thank
8 you.

9 REPRESENTATIVE PRECOURT: Thank your,
10 Mr. Olszewski. Next we have Eugene Cloud
11 followed by Bruce Mount and then if Astrid
12 Garcia and Tony Suarez can start working their
13 way down as well. Mr. Cloud.

14 MR. CLOUD: Yes, thank you very much for
15 being here. I am from Orange County, and when
16 I look at the --at the map of the Congressional
17 Districts with U.S. Congressional Districts
18 with respect to Orange County, I see that the
19 county is divided into four at least and maybe
20 five different Congressional Districts.

21 And to think that there is a logical
22 reason why the Representative from Jacksonville
23 has got a foot in Orange County makes no sense
24 to me whatsoever. So I think that kind of
25 thing needs to be fixed.

1 The next thing is I worry about the idea
2 of diversity and people claiming that there
3 isn't any and I look at this group of people
4 that are representing us. How much more
5 diverse do we need to be. Thank you very much.

6 REPRESENTATIVE PRECOURT: Thank you, sir.
7 Next we have Mr. Bruce Mount, and he will be
8 followed by Sue Jantz.

9 MR. MOUNT: Good evening. First of all,
10 thank you all for coming for us to go through
11 this process.

12 My name is Bruce Mount, Mayor of the
13 historic town of Eatonville, incorporated in
14 1887, the oldest African-American town in
15 America.

16 We are small, with a small budget, but we
17 have those same unfunded mandates. So it is
18 imperative that we be represented. We have to
19 be represented because we are very, very small,
20 but guess what, everybody matters. Every
21 single citizen matters.

22 So we have to be cognizant that we are
23 represented. I echo Reverend Bracy, echo
24 Father Pinder, but we need to be represented
25 not only in the Senate but in the House and the

1 Congress.

2 Minorities have to be represented, because
3 we are part of the process and we will be part
4 of the process. Although we are small, we are
5 very important, so remember us, the oldest
6 African-American town in America, and we must
7 be represented. Thank you.

8 REPRESENTATIVE PRECOURT: Thank you very
9 much, Mr. Mount. Next we have Sue Jantz. She
10 will be followed by Astrid Garcia and if Marion
11 Cannon and Terrence Brown can start working
12 their way down as well. Ms. Jantz.

13 MS. JANTZ: Hello, I live in Lake County.
14 I attended The Villages meetings and I stayed
15 right through to the end and my questions were
16 not answered, so I was disappointed by that.

17 I am back today with those same questions
18 again and we will see what happens. I disagree
19 with the gentleman from the Chamber who
20 believes that having public input into these
21 maps is a very valuable process.

22 I think it would be more valuable for
23 people to be able to see drafts of proposed
24 maps, especially some that might be made by
25 impartial third party professionals who

1 understand the legal and other implications of
2 this process.

3 I am concerned that organized stauling and
4 chaos serves those who don't want us to have
5 fair elections. I am concerned about
6 transparency and the process for the final map
7 selection.

8 The availability of your online map
9 program whereby any one from the public,
10 including school children, can create maps for
11 consideration could result in avoidable delays,
12 and death by a thousand cuts.

13 Negative impact of delays on your our next
14 election cycle if candidates for office can't
15 mount effective campaigns. It would be best if
16 districts were finalized in early January 2012,
17 not June of 2012.

18 My questions are, when will public
19 submission of maps end, and is that based on a
20 date deadline, or a limit on the number of map
21 submissions?

22 When and how will we see maps that meet
23 the Federal and State legal requirements? Will
24 you conduct another round of public hearings
25 like this to allow for public comment in

1 September perhaps, to facilitate preliminary
2 citizen reviews and comment of draft maps that
3 can provide some valuable input?

4 Thank you to all of the volunteers who
5 have worked for years to enhance democracy by
6 enabling us to put an end to gerrymandered
7 congressional and legislative boundaries that
8 prevent neighbors from getting together and
9 talking about different candidates and
10 advocating for people that they feel will
11 represent them well. Thank you.

12 REPRESENTATIVE PRECOURT: Thank you,
13 ma'am. Next we have Astrid Garcia, he will be
14 followed by Tony Suarez. Mr. Garcia, and if
15 Paul Spitzer and Linell Ela could start working
16 down, we would appreciate it. Ma'am.

17 MS. GARCIA: Thank you, good afternoon, my
18 name is Astrid Garcia, Director of State
19 Election Policy and Redistricting for NALFO
20 Educational Fund, the National Association of
21 Latino Elected and Appointed Officials.

22 Thank you so much. I have heard you have
23 had a grueling schedule, 26 hearings through
24 the summer, so thank you for your service and
25 for allowing the community to have input into

1 this important process.

2 The NALEO Educational Fund's mission is to
3 facilitate full Hispanic participation in
4 America's political process. Our members are
5 both Republican and Democrats and we are a
6 non-partisan, non profit organization.

7 We believe it is critical that Florida's
8 redistricting respects the voting rights of its
9 growing Hispanic population and that the maps
10 drawn by this Committee reflect this growth.

11 This Committee will be drawing lines for
12 the districts for the State House of
13 Representatives, Senate and Congress that will
14 determine the landscape for the state's
15 governance for the next ten years.

16 As this Committee proceeds with this
17 important task, we urge it to comply strictly
18 with the Federal Voting Rights Act of 1965,
19 which protects the rights of Hispanics and
20 other under represented groups to elect
21 candidates of their choice.

22 As the state's second largest and fastest
23 growing population, Florida's Hispanics must be
24 able to elect leaders that will be accountable
25 to the specific needs of this community.

1 We are a part of this great state and we
2 need to be part of this important dialogue. We
3 ask the Committee carefully, that the Committee
4 carefully consider the significant growth of
5 Florida's Hispanic population in central
6 Florida specifically.

7 We note that the area encompassing Orange,
8 Osceola and Polk grew by 30 percent in the last
9 decade and the Hispanic community was
10 responsible for 58 percent of the population
11 increase in this region.

12 Therefore, we believe that this Committee
13 should creating a Congressional District in the
14 area which reflects this growth and provide the
15 Hispanic community a strong voice in the
16 electorial process.

17 We believe that all communities deserve
18 this representation. Latino Justice has
19 presented where it is possible for this area we
20 ask that you consider that.

21 We also believe that this Redistricting
22 Committee shares our vision for a redistricting
23 process that will strengthen Florida's
24 democracy by providing fair electoral
25 opportunities for the state's residents.

1 We look forward to working with this
2 Committee to achieve this important work and we
3 thank you again for your service.

4 REPRESENTATIVE PRECOURT: Thank you,
5 ma'am, appreciate that. Tony Suarez is next,
6 followed by Marion Cannon. Mr. Suarez, thank
7 you for being here.

8 MR. SUAREZ: Good morning, everyone, my
9 name is Anthony Suarez, known as Tony Suarez,
10 and I was a member of the Florida House and
11 representing District 35 in '99 and 2000, and
12 since then I have taken as an adjunct professor
13 at Barry University School of Law,
14 incidentally, teaching redistricting in the
15 legislation class.

16 So I am very familiar with Thornburg
17 versus Gingles that came down since then
18 interpreting, and so we know, I know that you
19 have got a tough job in front of you to try to
20 balance what we are doing.

21 What I am suggesting to you is I am also a
22 member of the Central Florida Redistricting
23 Council which is a bipartisan, where both
24 Republicans and Democrats and Non Party
25 Affiliates, members in this group try to

1 propose a map which we have or you have already
2 seen and we will propose the data for you.

3 What we are trying to do with that is to
4 ensure the recognition that the growth, the
5 reason why we have two additional seats is
6 because we have this great increase and
7 55 percent of the total increase in the
8 population of Florida has come from the
9 Hispanic community and in central Florida,
10 reflects 58 percent of the growth in the
11 population comes from the Hispanic community.

12 So what we don't want is to be placed as
13 other speakers have said in a position of
14 minority versus minority. We would like to see
15 that there is a district that represent the
16 African-American community and a district that
17 represents the Hispanic community and these
18 giving the opportunity for those communities to
19 reach out to someone on the community of
20 interest as the words are, and these are the
21 community of interest.

22 That district which is drawn can be
23 mapped, I mean, the La Prensa, the Spanish
24 language newspaper, will have a route right
25 through the entire community from Haines City

1 up to Union Park.

2 I live in Union Park, so I like the
3 district. The -- but you also have the main
4 streets, Semoran Boulevard runs through it, you
5 have got business, you have got community, you
6 have got paper.

7 My radio show which I do on a daily basis,
8 the entire district is inside the signal of the
9 radio show. So this is a way that people can,
10 and I daresay that about six Hispanic or
11 Spanish language radio stations, all of the
12 signals concentrate on the east side of Orange
13 County, Osceola County.

14 So I suggest to you that the community of
15 interest is definitely there, and we of course
16 understand this is a political issue. The
17 Supreme Court of the United States has said it
18 is political and you have the right to draw,
19 use political considerations.

20 However, the '65 Civil Rights Act had
21 given us a situation in which it imposes upon
22 it the protection of the minority, minority
23 communities.

24 What we don't want is have a situation and
25 I ran as a Republican in the State Senate

1 against Senator Siplin who is here, a district
2 that was designed, designed for minorities, a
3 Democrat. A Democratic seat because the
4 Republicans wanted to ensure safe districts
5 around that Senate as a Democratic seat, but
6 the way it was designed it was designed to be
7 African-American heavy. In the primary, they
8 win the primary and that is the end of it, of
9 course, I ran as a Republican, came close but
10 didn't have enough bananas, so to make it
11 happen.

12 But that, we don't want that to happen
13 again. That is why we are in a situation, we
14 draw a district that is heavily Hispanic as we
15 have indicated in our map which is fair, it is
16 consistent, it is a community of interest, it
17 is contiguous, it has no problems.

18 It does not take away from any other
19 community. I think it is perfect and I urge
20 you to consider it with it, thank you very
21 much.

22 REPRESENTATIVE PRECOURT: Thank you,
23 Mr. Suarez. Next we have Marion Cannon. And
24 she will be followed by Terrance Brown and Paul
25 Spitzer. Ms. Cannon, and if Vern Ela and Sue

1 Casterline can start working their way down, I
2 would appreciate it. Thank your, ma'am.

3 MS. CANNON: Good afternoon, I am Marion
4 Cannon, and I am the President of the Retired
5 Educators of Orange County, and I have, I hope,
6 a simple request for you.

7 Even though we are retired, we go into
8 schools quite a lot. We mentor teachers. We
9 mentor students, we tutor and we hear the
10 problems of the schools today, and what we hear
11 is teachers who haven't had raises in a long
12 time.

13 We hear about students who have lost
14 beloved teachers because they can't afford to
15 stay in teaching anymore, and we have also
16 heard about schools lacking supplies and in the
17 case of Seminole County we heard about schools
18 that --

19 REPRESENTATIVE PRECOURT: Ma'am, I am sure
20 you are heading here, but --

21 MS. CANNON: I am getting there. I am
22 getting there.

23 REPRESENTATIVE PRECOURT: Thank you.

24 MS. CANNON: We even hear about schools
25 closing. So the request I have for you is, the

1 money that you set aside to deal with your
2 lawsuit, why don't you put it back into the
3 public schools?

4 REPRESENTATIVE PRECOURT: Thank you,
5 ma'am. Appreciate your time here. Terrance
6 Brown and he will be followed by Paul Spitzer
7 and then Linell Ela. Mr. Brown.

8 MR. BROWN: Hi, I am a member of a number
9 of Veterans Associations here in central
10 Florida. I am pretty much most of the time
11 that I have left Florida in the last 40 years
12 has been for military service which has taken
13 me to about 17 countries.

14 I want to congratulate you all for holding
15 these hearings, because these -- Amendment is
16 so ambiguous and so conflicting in its criteria
17 that it would be the same as if I had ordered
18 one of my military units to line up
19 alphabetically and in size order at the same
20 time. Thank you very much.

21 REPRESENTATIVE PRECOURT: Thank you, sir,
22 appreciate that. Next we have Paul Spitzer who
23 will be followed by Linell Ela. Mr. Spitzer.

24 MR. SPITZER: Thank you, Representative
25 Precourt, Senator Gaetz, Representative

1 Weatherford, and my Representative, Senator
2 Simmons and Representative Nelson who
3 disappeared and Speaker Cannon who is evidently
4 watching from an undisclosed location.

5 I would just like to say like so many
6 people before me, do not gerrymander. Please
7 stop this in our redistricting here in Florida.

8 REPRESENTATIVE PRECOURT: Thank you.

9 MR. SPITZER: I didn't bring a plan with
10 me, but I do have an example to use. Look at
11 the present Congressional U. S. District map.
12 Don't use that. Okay. Right now we are in the
13 Florida third, which makes its way all of the
14 way up to Jacksonville, via east Gainesville,
15 often less than a mile wide.

16 I understand that is a minority
17 represented district, but I just don't
18 understand why it has to stretch from here to
19 Jacksonville in order to accomplish that
20 unless, of course, it is meant to put a lot of
21 people into one district.

22 I live four blocks from here in the
23 Florida eighth. It meanders its way up to
24 north of Ocala, but in order for me to stay in
25 that district and drive up there, I have to

1 drive east, south eight miles, west a few miles
2 and then back up north.

3 It doesn't make sense, and the Florida
4 seventh starts in Winter Park, goes all of the
5 way up to east Jacksonville -- south
6 Jacksonville, and I am assuming this was
7 probably designed for the white minority
8 district, I am not too sure.

9 You know, I have been both Democrat and
10 Republican, I am neither now, okay. And I know
11 that on occasions both parties have known to
12 put politics before legislation, but this year
13 the Republicans have truly scared me.

14 With the legislation passed increasing
15 voting and registration restrictions for no
16 tangible reasons and the Governors and Attorney
17 Generals changes in rules that makes it more
18 restrictive for felons who have done their time
19 through --

20 REPRESENTATIVE PRECOURT: Sir, I need you
21 to keep your comments focused on redistricting.

22 MR. SPITZER: I am sorry about that.
23 Okay, but their rights are restricted for
24 voting purposes. That was my point.

25 And then there is Speaker Cannon's obvious

1 displeasure of Amendments 5 and 6 going so far
2 as to join the lawsuit against Amendment 6. I
3 believe he intimated it is splitting the
4 Supreme Court because of the disallowing
5 Amendment 7, not very comforting.

6 So I please ask you, respect what the
7 voters have asked for, abide by Amendments 5
8 and 6. Of course, abide by guidelines required
9 by the Voting Rights Act. Don't use that cover
10 for any shenanigans. We deserve better than
11 that.

12 In this January, please change the law so
13 that the next time in ten years you will be
14 able to show us proposed districts right now
15 and avoid the problem with the debacle that
16 shows up after the January legislative session.
17 Thank you.

18 REPRESENTATIVE PRECOURT: Thank you very
19 much, sir. Next we have Linell Ela who will be
20 followed by Vern Ela and Sue Casterline, and if
21 Doug Head and David Montanez can start working
22 their way down as well, I would appreciate it.

23 MR. ELA: My point has been well made sir.
24 I cede my time to someone else.

25 REPRESENTATIVE PRECOURT: Ms. Ela cedes

1 her time, thank you very much. Vern Ela.

2 MR. ELA: I cede as well.

3 REPRESENTATIVE PRECOURT: Similarly.

4 Thank you very much. Sue Casterline, are you
5 down here? Okay, here she comes and then
6 following Ms. Casterline will be Doug Head and
7 David Montanez, and if Stephanie Porta and Mark
8 Lainer start working their way down as well.
9 Ms. Casterline.

10 MS. CASTERLINE: At a time, I am Sue
11 Casterline from Orange County. At a time when
12 the Legislature just made huge cuts to social
13 services, schools, et cetera, I would like to
14 express my outrage that the Legislature has
15 been paying \$300 an hour to lawyers in-house
16 Speaker Cannon's former firm to try to find
17 fault with Amendments 5 and 6 passed in last
18 election.

19 It has been estimated that a million
20 dollars of taxpayer money has already been
21 spent to subvert the will of the people. If
22 you want to look for ways to redistrict to keep
23 incumbents in power, I would like to see that
24 you at least spend your own money rather than
25 the taxpayers.

1 At a time when our troops are in other
2 countries to spread democracy, quote, unquote,
3 it is extremely disturbing to see that
4 democracy is being subverted at home by your
5 resistance to fair districts and the voter
6 obstruction legislation passed in the last
7 section of the Senate. Thank you.

8 REPRESENTATIVE PRECOURT: Thank you,
9 ma'am. Next we have Douglas Head, followed by
10 David Montanez and Stephanie Porta, and if
11 Holmes McKoy and Ronita Sanders can start
12 working their way down as well. Mr. Head.

13 MR. HEAD: I am glad to be here this
14 afternoon to have this opportunity to publicly
15 call for you to draw rationale districts which
16 makes sense to voters.

17 Examples of the horrors of the last
18 redistricting process ten years ago abound, but
19 I want to point out the ridiculous districts
20 that the Legislature carved right here in
21 Orange County in 2001.

22 Districts were so distorted that they make
23 easy comic relief for a painful experience.
24 The dead dog district drawn for House -- as
25 District 35 represented by Mr. Cannon, the crab

1 drawn for House District 36, these should be
2 trashed.

3 The map of District 40 is really a
4 message. It really looks like a toilet, flush
5 it. In the Senate, it is no better.

6 For ten years central Florida has had a
7 district which is laughingly referred to as the
8 bunny rabbit district, two ears, four paws, a
9 tiny body, a big rump and a big foot, it is
10 literally looks like a bunny rabbit.

11 I don't need to show you the distortions
12 of the Congressional Districts, but I can tell
13 you that if you go to the intersection of
14 Limone Avenue and New York Avenue in the middle
15 of Winter Park, one community, you can cross
16 the streets and enter three different
17 districts, and walk a quarter of a mile north
18 and you enter a fourth.

19 This gives you a community with four
20 Congressmen and no voice. I believe that there
21 is a rationale space in Orange County to create
22 two State House Districts with a heavy Hispanic
23 voice.

24 I believe there is plenty of room for two
25 State House Districts with a heavy black voice.

1 In central Orlando there is a community of
2 interest that is integral and cohesive.

3 I believe that in central Orange there are
4 associated communities that deserve to be one
5 district, not three.

6 The people around Apopka deserve a
7 district and a voice, but they can best achieve
8 their voice and representation by joining
9 Winter Garden and other communities of west
10 Orange.

11 And in east Orange, where there is much
12 growth, the new communities need a voice and
13 will have it if they are drawn together around
14 Alafaya. That is another district.

15 The communities need a voice, please stop
16 the games in the defense of incumbents and give
17 us real districts with real candidates.

18 Orlando needs the two and-a-half Senate
19 Districts to which we are entitled, not more.
20 We need the eight House Districts to which we
21 are entitled in Orange County, not pieces of 11
22 separate districts.

23 We need to have rationale districts, three
24 Congressional rationale districts penetrating
25 the territory of Orange, not five. Give us

1 rationale districts, we will give the right
2 candidates the vote.

3 REPRESENTATIVE PRECOURT: Thank you, sir,
4 and if you have some maps and exhibits as I
5 see, if you could leave them with our staff,
6 that would be terrific.

7 David Montanez is up next, followed by
8 Stephanie Porta. Mr. Montanez, and -- he
9 yields his time. Thank you very much, sir.

10 Stephanie Porta followed by Mark Lainer.
11 Stephanie, thank you.

12 MS. PORTA: Hi, it is actually Stephanie
13 Porta. First I would like to thank the middle
14 class heros who fought hard for Floridians who
15 are here today.

16 Representatives Thompson, Thurston,
17 Steinberg, Williams, Jenne and Randolph, thank
18 you, thank you for standing up.

19 Secondly I want to ask that the rest of
20 you become heros to the rest of us. Almost
21 two-thirds who voted for Fair Districts. To
22 the members of the Florida House who voted to
23 spend my tax dollars to attack and invalidate a
24 provision of our State Constitution, and you
25 call yourself constitutionalists, supported by

1 the majority.

2 All of this money is being spent while the
3 teachers are being fired, social services are
4 being cut, and Florida still leads the country
5 in unemployment, and as apparently, apparently
6 now you are stopping dollars from coming to our
7 state to prevent child abuse. Where are your
8 priorities?

9 REPRESENTATIVE PRECOURT: Madam, I need
10 you to focus your comments on redistricting.

11 MS. PORTA: I am there, I am there.

12 REPRESENTATIVE PRECOURT: Thank you.

13 MS. PORTA: Why must you fight the voters?
14 If you don't like the voters and you don't want
15 to listen to them, then really why are you
16 here?

17 If the legislative majority would stop
18 trying to get out of following the new Fair
19 Districts standards and apply them as the
20 voters intended there would be no need for
21 litigation and no need for the massive amounts
22 of taxpayer money you are ready to spend.
23 Thanks.

24 REPRESENTATIVE PRECOURT: Thank you very
25 much. Next we have Mr. Mark Lainer and he will

1 be followed by Holmes McKoy, and then if I can
2 have Deirdre MacNab and Billy Butterfield work
3 their way down here, I would appreciate it.

4 Mr. Lainer.

5 MR. LAINER: Thank your, and thank you for
6 getting my name right. It is rare. I just
7 want to say with the very short time that it
8 looks like there is going to be between map
9 drawing and the elections, this really is
10 seeming like an incumbency protection program.

11 Safe districts have been drawn -- thank
12 you, safe districts have been drawn, extremes
13 more likely to win primaries and elections so
14 that we do end up with polarization.

15 We also have -- I live in the district
16 that Corrine Brown represents that runs from
17 Orlando to Jacksonville. I understand the need
18 for minority representation, but I also know
19 that there are like four safe Republican
20 districts around that district, so that even in
21 the state which has majority Democratic voters,
22 that we have a super majority of Republicans in
23 the House and the Senate which makes no sense
24 to me whatsoever.

25 Also, also I am very concerned about the

1 vote suppression bills that have been passed,
2 the shortening of the time of early voting, and
3 the difficulty --

4 REPRESENTATIVE PRECOURT: Sir, I need you
5 to focus on redistricting.

6 MR. LAINER: I understand that, but this
7 has to do with the redistricting. As you
8 redistrict, please make sure that you don't do
9 the same thing that you have done in terms of
10 -- in terms of suppressing voting and in terms
11 of disenfranchising voters.

12 And I would also finally say that even
13 though this doesn't have a lot to do with early
14 voting, we need public financing, we need
15 corporate money out of elections.

16 REPRESENTATIVE PRECOURT: Thank your, sir.

17 MR. LAINER: And we need this to change
18 now.

19 REPRESENTATIVE PRECOURT: We are going to
20 go ahead and move on to Mr. Holmes McKoy and he
21 will be followed, she will be followed by
22 Ronita Sanders and Deirdre MacNab. Ms. McKoy.

23 MR. MCKOY: Good afternoon, everyone, my
24 name is Alice Holmes McKoy. I am the former
25 Director of Special Projects and scheduling for

1 retired Congressman Diane Watson of Los
2 Angeles.

3 I am a new resident to Orlando, and today
4 I chose to come and speak on redistricting, as
5 it affects minority population and
6 representation in this community.

7 I am going to say that I believe this is
8 one of the most significant issues of the
9 current times and that there appears to be a
10 campaign to take us back to a period when we
11 were truly underserved.

12 Washington is based on seniority that
13 allows you access to leadership, you are sought
14 for your knowledge on the legislative process,
15 you are able to sit on key committees that
16 allow you to address issues that can affect
17 your district.

18 Indeed, it takes several years to achieve
19 enough seniority to really be effective in the
20 position. It is very important that whomever
21 represents the community to be seasoned and
22 skilled with the nuances of Congress while
23 being sensitive to important minority concerns.

24 The move toward fair representation could
25 come at considerable cost to the community

1 which has enjoyed robust and productive
2 constituent advocacy from events such as job
3 fairs, housing, healthcare, with the current
4 constituent leadership.

5 In that regard there has been an effective
6 stellar Representative already looking out for
7 constituents in the third district. With the
8 possible redistricting and redrawing of the
9 lines, which would remove Orlando from the
10 current configuration, possibly opening the
11 district to new and untested leadership at the
12 Federal level on issues such as appropriations
13 and legislative policy, it could dramatically
14 change the landscape to one that would effect
15 Orlando's minority population in an adverse
16 way.

17 To this end I am hoping that Orlando's
18 minority community would not fall victim to
19 this new idea of disenfranchisement and
20 retrogression as described in today's Orlando
21 Sentinel.

22 Indeed, my home state of California in the
23 33rd District there was one of the areas which
24 was about to go through a similar challenge.

25 However, I am happy to report with strong

1 rebuttal from the community they were able to
2 forestall this serious breach to the minority
3 population living in that district.

4 In closing one of my favorite statements
5 is that the more things change the more they
6 remain the same. However, the change must come
7 in a positive fashion and not at the cost of
8 hard work and hard fought victories which have
9 held constituents to achieve a better life in
10 the Third District of Orlando.

11 I would like to reference today's Orlando
12 Sentinel again, which in part references the
13 1965 Voting Rights Act.

14 Legislators have to consider race and
15 ethnicity as well as voting history. In three
16 decades of redistricting litigation since the
17 Federal Civil Rights legislation, courts have
18 permitted -- prohibited what is called
19 retrogression or the weakening of the ability
20 of minority groups to elect lawmakers of their
21 choice.

22 In short, Members of the Commission, it is
23 important to consider the minority
24 representation is essential as it relates to
25 the 1965 Voting Rights Act and we cannot afford

1 to lose knowledgeable and seasoned leadership
2 in these very difficult times for this key
3 constituency in Orlando.

4 Thank you for allowing me the opportunity
5 to voice my concerns on this most significant
6 issue.

7 REPRESENTATIVE PRECOURT: Thank you,
8 ma'am. Okay, folks, we only have a few more
9 minutes left in this afternoon's session of our
10 redistricting hearing.

11 I am going to call out a few names. I
12 understand a couple of them may have already
13 gone though. Ronita Sanders and she is going
14 to be followed by Deirdre MacNab. Ms. Sanders
15 is not here. Deirdre MacNab does not appear to
16 be here. Okay. Great, and then she will be
17 followed by Billy Butterfield and Robert
18 Spooney.

19 So if you guys would come down to the
20 front row so I know you are here, I would
21 appreciate it. Madam.

22 MS. MACNAB: Good afternoon, and welcome
23 to Orlando. I am the President of the League
24 of Women Voters of Florida. Here we are --
25 here we are at the halfway mark and as you

1 know, our organization has worked on this issue
2 for over 70 years.

3 You have heard from our members as well as
4 today at every spot, every stop, and we have
5 been paying close attention to all of the
6 hearings.

7 There have been several instances of
8 joking and with my two minutes today I would
9 like to share a relevant one of my own.

10 W. C. Fields was deathly sick while on
11 vacation. His close friend came in while he
12 was in bed waiting for the doctor and saw W. C.
13 Fields carefully reading the Bible.

14 W. C., he says, you know you have never
15 read the Bible in your whole life, why start
16 now? Looking for loopholes, looking for
17 loopholes says W. C. Fields.

18 Unfortunately, this is no laughing matter,
19 because that is precisely what we have seen the
20 leadership of this Committee to be doing,
21 looking for loopholes such as fighting the
22 Amendments in court.

23 Senator Gaetz, I have heard you several
24 times sum up by saying to those who have spoken
25 that while they are entitled to their own

1 opinion, they are not entitled to their own
2 facts.

3 Regretfully and I know once again you will
4 have the final word at today's meeting. We
5 must take a dose of your own medicine. Our
6 members in several other stops have clarified
7 some of the facts regarding litigation and the
8 constitutional timeline.

9 These jokes would be much more
10 entertaining if there was not so much at stake
11 and did not involve taxpayer money and the
12 critical integrity of Florida elections.

13 We have heard at every stop Supervisors of
14 Election expressing their concern about their
15 ability to properly run careful and ethical
16 elections because of the timeline that has been
17 proposed.

18 We have begun to hear suggestions that
19 that timeline might be changeable. I ask you
20 today as the President of the League of Women
21 Voters of Florida to take the responsible
22 course of action, to move the timeline up so
23 Florida is not last.

24 Ensure orderly elections in 2012, give
25 voters a real chance to comment on real maps

1 and I would like to ask you since the gag order
2 has been lifted, if all present today would be
3 willing to please raise their hand if you would
4 commit to moving up the timeline so there could
5 be a vote the first week of legislative session
6 in January, and I would like to see who among
7 you.

8 REPRESENTATIVE PRECOURT: Thank you,
9 Ms. MacNab, we are not going to go ahead and do
10 that at this particular hearing. We are not
11 here to vote. We are here to listen to you at
12 this time. So thank you for your comments.

13 I am going to go ahead and move on to
14 Mr. Billy Butterfield now.

15 MS. MACNAB: Thank you, Representative
16 Precourt, thank you.

17 REPRESENTATIVE PRECOURT: Mr. Butterfield,
18 Mr. Butterfield? Are you Mr. Butterfield? Is
19 Mr. Billy Butterfield here? Okay,
20 Mr. Butterfield, we are going -- next, Robert
21 Spooney. Mr. Spooney, and then the last for
22 this afternoon's session will then be Nelson
23 Betancourt.

24 I am going to make a couple of short
25 comments, Senator Gaetz is going to make a few

1 comments and then we will stand in recess, but
2 before we do that, Mr. Spooney.

3 MR. SPOONEY: Good afternoon, my name is
4 the Reverend Dr. Robert M. Spooney. I am
5 Pastor of the historic Mount Siani Missionary
6 Baptist Church which is located in historic
7 Paramore in part of Districts 3.

8 I am also the President of the
9 African-American Chamber of Commerce of central
10 Florida here in Orlando.

11 As a United States citizen, a life long
12 Floridian and a registered voter, I believe
13 that we are experiencing a defining moment in
14 our state's history.

15 In this particular case if minority access
16 for communities of interest and of color is not
17 preserved, is not preserved, when Florida
18 redraws the boundaries, African-Americans and
19 Hispanics who collectively make up over
20 two-thirds of our state's population, may be
21 finding themselves mired in a difficult
22 situation.

23 That being the case, I stand in complete
24 concurrence with the statements made by Father
25 Pinder, Reverend Ohara Black, Pastor Cabaris,

1 the Honorable Mable Butler and the new
2 Floridian, Ms. MacKoy, by changing the policy
3 and frame work already provided in Article III
4 of the Florida Constitution, we are definitely
5 dilute go the collective strength of
6 African-Americans in our governmental process.

7 Don't allow Florida's redistricting to
8 destroy the minority vote. Let us continue to
9 honor the spirit and intent of the Civil Rights
10 Act of 1965. Thank you, and God bless you.

11 REPRESENTATIVE PRECOURT: Thank your, God
12 bless you, too, Mr. Spooney. And finally, this
13 after, for this afternoon's session, we have
14 Nelson Betancourt, Mr. Betancourt.

15 MR. BETANCOURT: Thank you, historian
16 Lawrence Goodwin recently stated that the
17 economic fate of America's inherited democratic
18 process in the sense that a majority of us have
19 had, have always had, that we are in this thing
20 together. It is absolutely on the line right
21 now.

22 And the election of 2012, is going to
23 define the meaning of the American idea. I
24 therefore have no doubts that the current
25 leadership in Tallahassee will use this

1 districting process to manufacture a crisis in
2 the electoral process, in the electoral system
3 in order to continue to undermine our
4 democratic process as they are presently doing
5 in Washington, D. C.

6 Even though deception eventually contains
7 the seeds of its own destruction, at what cost
8 in suffering and strife to the American people?
9 And I hold in scathing contempt politicians of
10 both parties in Tallahassee and Washington who
11 purport to be Christians and Jews yet have no
12 compunction about reaping havoc with the least
13 of these, the elderly, the poor, the disabled,
14 the strangers.

15 These -- this redistricting process should
16 be about fairness, justice and opportunity, not
17 a naked power grab to cause chaos and
18 disruption in the 2012 elections. In 2012, the
19 fate of our Democratic process and dream is
20 absolutely on the line.

21 REPRESENTATIVE PRECOURT: Thank you,
22 Mr. Betancourt. Okay, one final administrative
23 task. I would like to recognize Ms. Daisy
24 Lynum who represents this area, the city of
25 Orlando. Commissioner, are you here? Hi, how

1 are you, do you want to stand up and wave to
2 everyone.

3 She represents this area of the city of
4 Orlando, thank you for letting us use this
5 facility, appreciate it.

6 Okay, and thanks to all of those folks
7 that have talked today for your contributions,
8 making representative democracy work in our
9 state.

10 If you have more to add we will accept
11 written extension of your remarks and we will
12 post these things online as well. If you
13 didn't speak now, but have signed up you will
14 be in line during the 6:00 to 8:00 period this
15 afternoon and we will also take comments any
16 other way you want to submit them. We have got
17 all sorts of things out there, from the
18 website, to social media and Twitter, e-mail,
19 Snail Mail and the list goes on.

20 All of the records for today's meetings
21 will be on video, podcast and transcripts via
22 the Senate and House Redistricting websites, so
23 please continues to follow us throughout this
24 process, and with that I am going to recognize
25 Chair Senator Gaetz for some final remarks

1 before we stand in recess.

2 SENATOR GAETZ: The kind of information
3 that we have received here today, Mr. Chairman,
4 particularly about neighborhoods and counties
5 and communities has been extraordinarily
6 helpful.

7 There is no way we could have received a
8 lot of that information about your localities
9 sitting in an echo chamber in Tallahassee. So
10 thank you.

11 As a person who lives in Niceville,
12 Florida, way up in the panhandle by Destin,
13 somebody is waving at me from Niceville, that
14 is good. This has been extraordinarily helpful
15 to me and I am sure to other members as well
16 who don't live in this area and really needed
17 to hear your points of view.

18 We received a number of questions that
19 have come in and we would like to just try to
20 provide some factual information which you can
21 use or not use as you choose.

22 Here are some questions that were, that
23 were submitted in writing. First, these are
24 from Susan Jantz. These questions are, am I
25 correct that the 2010 Census indicated a need

1 for a two seat increase for the U. S. House of
2 Representatives? Shouldn't one of those be in
3 central Florida?

4 The answer to the first part of the
5 question is yes. The answer to the second part
6 of the question would appear to be yes if you
7 look strictly at population and where the new
8 population would be.

9 The second question is, when will public
10 submission of maps end, and is that based on a
11 date deadline or on a limit on the number of
12 map submissions?

13 There is no limit on the number of
14 submissions that can be made by special
15 interest groups, by Legislators, by individual
16 citizens, and there will be no deadline on the
17 submission of maps by anyone until the last
18 vote is cast in the Legislature.

19 Next question, when and how will we see
20 maps that meet Federal and State requirements?

21 That is a difficult question because we
22 don't know if a map or maps meet all State and
23 Federal legal requirements until they are
24 submitted to the Florida Supreme Court and then
25 to the Justice Department or the Federal

1 Courts.

2 We don't get to draw the maps that even
3 you may want or that we may want. We have to
4 draw maps that then pass legal muster with the
5 Supreme Court and the Justice Department.

6 So we won't know what maps will pass that
7 muster until after the legal process is
8 completed and the courts get to, in many cases,
9 you know, set their own timelines, but our hope
10 would be that all of those legal clearances
11 would finish in the spring as soon as possible
12 and we would hope that those who have urged the
13 Legislature to move up its timeline would also
14 encourage our Attorney General and the courts
15 and the Justice Department not to take all of
16 the time they need but to take the time, all of
17 the time that they can, but rather to take only
18 the time that they need.

19 The next question, will we conduct other
20 public hearings to allow for public comment to
21 facilitate preliminary citizen reviews and
22 comments during October through December?

23 The answer to that question is yes. We do
24 intend, Chair Weatherford and I do intend that
25 there will be public hearings that will be held

1 on every map that comes forth to the
2 legislative committees in the form of Bills,
3 and Bills can be submitted by any Democrat, any
4 Republican, any House member, any Senator,
5 based on anything that comes from a member of
6 the public or an interest group or developed by
7 that Legislator and no maps will be voted on
8 even in Committee until there has been an
9 opportunity for public comment.

10 Now, we are holding 26 hearings around the
11 state. Several people here say today that
12 those hearings are not terribly useful, but, so
13 I am not sure that we can hold another 26
14 hearings around the state in October and
15 November, probably because there wouldn't be
16 time and then there would be those here that
17 would object and say now you are holding more
18 hearings.

19 We just want you to show us the maps that
20 you would like to see, but I can tell you that
21 it is our intention that no maps will be voted
22 on even in committee until there is an
23 opportunity for the public to comment. If you
24 wish to comment face to face, or if you wish to
25 comment by e-mail, by contacting your

1 Representative or Senator, and many
2 Representatives and Senators of both parties
3 are intending on holding their own meetings
4 later in the process to gather even more input
5 that can be used -- that can be used in the
6 legislative deliberations.

7 The next issue that came up was, what
8 about other states, aren't they completing the
9 process sooner and why is Florida dragging
10 behind?

11 Well, the U. S. Bureau of the Census does
12 not release census data to all of the states at
13 once. It releases census data in groups.

14 Now, Florida is not the last state to get
15 our census data, but we were one of the last.
16 So one of the reasons why some states are ahead
17 ever us is because some states got their census
18 data a long time before we got our census data.
19 As soon as we got ours, we put it on the
20 Internet and then we put the redistricting
21 software on the Internet as soon as that was
22 available, so that you, we and everyone could
23 begin to see that data as fast as possible.

24 But there are some states that are ahead
25 of Florida, even though they got their census

1 data late. Illinois is one of them. In
2 Illinois, it happens to be a state that is
3 dominated in the Legislature by one party. The
4 Legislators went quite literally into the back
5 room, developed a set of maps came out, said
6 here they are, they went to the floor of the
7 Legislature, cast votes in a record short
8 period of time and that was that.

9 We have decided here in Florida that that
10 is not a good idea, that it is better to do a
11 heavier lift, it is a bit of a messy process,
12 but representative government is a messy
13 process.

14 But the other point that we would make
15 about timing in other states is, and this is
16 not commonly known or thought about by
17 everybody, is that some states do off year
18 elections, like Illinois -- I am sorry,
19 Louisiana was one of the states mentioned.

20 Well, Louisiana does its elections on odd
21 numbered years. So therefore they get their
22 data and they are able to move their process
23 along to have elections on odd number years.

24 By our Constitution we have our elections
25 on even numbered years. So that is four

1 reasons why our process is a little different
2 from some other states, but there is no intent
3 to make the process anymore elongated than
4 possible.

5 The President of the League of Women
6 Voters who has traveled with us to other
7 hearings, spoke eloquently today and she asked,
8 would there be --

9 REPRESENTATIVE PRECOURT: All right,
10 ladies and gentlemen, if you would please take
11 your seats, we are going to try and get going.
12 We are going to dispense with any of the
13 introductions and the like, for those of you
14 who were here earlier, you have heard our
15 introduction already.

16 For others who would like to re-listen to
17 me speaking on the Internet, we will have it up
18 in the next day or so, but we are here to give
19 you all a chance to speak.

20 So we are going to go right to the cards.
21 We have about 90 of them. We have two hours to
22 get through this. Please keep your comments as
23 concise and direct as possible. We are going
24 to limit things to two or three minutes or so.

25 And first off we have Commissioner Daisy

1 Lynum. So we would love to have you come up
2 and give us your testimony, presentation.

3 Followed by Benjamin Chavis, and Eric
4 Gray, and for those of you who weren't here
5 earlier, if you can come down once your name is
6 called and sit in the front row so you can be
7 ready to get right to the microphone as soon as
8 we get to your name and then that will be just
9 that many more people that will get a chance to
10 speak.

11 Also, if Nancy Jacobson and Terry Gancarz
12 can come down. Ms. Lynum, thank you for being
13 here.

14 MS. LYNUM: Thank you for being in my
15 district and good evening. I just really
16 wanted to reiterate some of the folks who have
17 already spoken to you ladies and gentlemen,
18 thank you for the hard work that you do.

19 My mother and father were married in
20 Orange County in 1935, but I was born and
21 raised in Lake County 65 years ago, but I don't
22 tell anybody my age too often, but I am here to
23 look forward to a minority district.

24 I know that I am going to put the trust of
25 this community in your hands and I really

1 anticipate a good job that you are going to do.

2 The city is in the middle of redistricting
3 also. So I know the hard work you got to do.
4 Just sitting would drive me batty twice a day
5 for two hours at a time.

6 So enjoy, listen to our comments, over
7 90 percent of what was said earlier, I ditto,
8 particularly when it pertains to
9 African-American districts and Hispanic
10 districts, but particularly for the group of
11 people who have paved the road for the state
12 and for this country, African-Americans, thank
13 you.

14 REPRESENTATIVE PRECOURT: Thank you, and
15 thank you so much for what you have done for
16 this community. You really are a local icon
17 and thank you also for the use of this
18 facility. It is really helping us out a lot.

19 Next, Benjamin Chavis, followed by Eric
20 Gray.

21 MR. CHAVIS: Thank you, Mr. Chairman, I am
22 Benjamin F. Chavis, Jr. As a 50-year veteran
23 of the Civil Rights Movement and the former
24 National Executive Director and CEO of the
25 NAACP I am submitting this statement concerning

1 the fundamental redistricting question before
2 the Florida State Legislature.

3 Will you protect and reaffirm the 1965
4 Voting Rights Act that ensures the voting
5 rights of African-Americans and Latino
6 Americans as well as other minority voters in
7 the State of Florida?

8 Any proposed redistricting plan or map
9 that results in the decrease of
10 African-American or Latino American
11 Congressional representation from the State of
12 Florida is a serious violation of the Federal
13 Civil Rights law as specified by the 1965
14 Voting Rights Act.

15 Earlier today as I listened, Mr. Chairman,
16 many of the persons who testified asked for a
17 map. I think there is a map. The current map.
18 That is where you should start, because the
19 current map was found by the United States
20 Department of Justice to be under the Voting
21 Rights Act.

22 So any change to the current map should
23 build on the progress, not regress on the
24 progress. Given the fact that Florida's
25 African-American and Latino American

1 populations have increased according to the
2 2010 census, there cannot be any plan, map or
3 the slightest inference that the distinguished
4 officials of this Florida Legislature will
5 consider a redistricting plan that would
6 decrease, take away, step back or regress from
7 the current minority voter representation in
8 the Congress of the United States.

9 I am not only speaking for myself as a
10 registered resident of Florida, but I am also
11 speaking on behalf of other veterans of the
12 Civil Rights Movement, such as Congressman John
13 Lewis, Congresswoman Corrine Brown, the
14 Reverend Jessie Jackson and Martin Luther King,
15 Jr., III and many others who have fought hard
16 and sacrificed to get the Voting Rights Act
17 established.

18 The truth is the current number of
19 African-Americans and Latinos that are now
20 serving in the Congress of the United States
21 from Florida is a direct result of the Voting
22 Rights Act of 1965.

23 We know, Mr. Chairman, as has been pointed
24 out to this Committee before, prior to the
25 Voting Rights Act we did not have members from

1 our minority sector in the Congress of the
2 United States.

3 So we should build on what the progress
4 that has been made over the last years, not use
5 this as an opportunity. This is an opportunity
6 in redistricting, but it is also a
7 responsibility to follow the Federal and Civil
8 Rights law as the law of the land is today.

9 Lastly, it is a sad commentary that this
10 redistricting search is in a context of the
11 whole national debate about voter suppression,
12 and I know, Mr. Chairman, you want us to stay
13 on redistricting.

14 The reason why this is relevant to voting
15 suppression, because at the end of the day, if
16 the map that you draw, the new map winds up
17 decreasing or regressing African-American or
18 Latino voter representation in the Congress of
19 the United States, then that would, in fact, it
20 is tantamount to suppressing the vote of
21 Latinos and African-Americans.

22 We call this to your attention. Start
23 with the map that you have. Thank you.

24 REPRESENTATIVE PRECOURT: Thank you, sir,
25 thank you. And just as a reminder, ladies and

1 gentlemen, he made a couple of excellent
2 points.

3 One being, please stay focused on
4 redistricting, but he made a very clear
5 connection between the two issues. So that was
6 good testimony.

7 Also for those of you who weren't here
8 earlier, Senator Gaetz who is Chair of this
9 Committee is taking notes on all of the
10 questions that are brought up by speakers, and
11 at the end we are going to reserve a few
12 minutes for him to respond to those.

13 Next we have Eric Gray, who is going to be
14 followed by Nancy Jacobson. Is Mr. Gray here?
15 I know some people have gone home already.
16 Okay, so we will put that aside. Nancy
17 Jacobson, are you here?

18 Okay, Nancy will be followed by Terry
19 Gancarz and if Kevin Gaston and Anna Eskamani
20 could come down front, I would appreciate it.
21 Ma'am, you have the mike.

22 MS. JACOBSON: Good evening, my name is
23 Nancy Jacobson. I am a retired attorney and I
24 live in house District 35. I always vote.
25 However, I do not often have a real choice

1 among the candidates because our districts are
2 not competitive.

3 I live in the city of Orlando,
4 approximately half way between downtown Orlando
5 and Winter Park, and I know that my small
6 neighborhood is once again in the eye of the
7 storm, and a pawn in 2011, as it was in 2001,
8 when it was snipped off and put in Winter Park,
9 in a Winter Park district.

10 I believe we citizens must always try to
11 do whatever we can to be active to preserve our
12 democracy, and in accordance with that, I
13 worked very hard to get Amendments 5 and 6 on
14 the ballot and to get them approved, and I am
15 deeply disappointed but sadly not surprised
16 that you are fighting implementation of 5 and
17 6.

18 What is currently occurring in our
19 nation's Capitol is the strongest possible
20 argument against gerrymandering and in favor of
21 fair districts. There will always be safe
22 seats. However, there will be far fewer of
23 them and more competitive seats if the
24 districts are drawn according to the standards
25 in 5 and 6.

1 So I am here today to implore you to do
2 two things. One, please stop spending our tax
3 dollars to fight the will of the voters on 5
4 and 6.

5 And two, please do whatever it takes to
6 speed up the timeline on producing and
7 approving the maps. It is beyond the pale that
8 they will not be done until late spring. That
9 only serves to protect incumbents, and I am
10 sure you wouldn't want to do that. Thank you
11 for your time.

12 REPRESENTATIVE PRECOURT: Thank you,
13 ma'am. Next we will have Terry Gancarz,
14 followed by Kevin Gaston. Is Terry here?
15 Terry Gancarz, going once? Okay, great, Kevin
16 Gaston is next. Is Kevin here?

17 How about Anna Eskamani? Anna, thank you
18 for being here. And if Caroline Emmons-Schramm
19 and Randy Stephens and Elenita Brodie if they
20 can work their way down, I would appreciate it.
21 You have the mike, ma'am.

22 MS. ESKAMANI: Thank you so much. My name
23 is Anna Eskamani. I was born east Orlando and
24 raised there as well. I am now a senior at the
25 University of Florida and I am a proud member

1 of the League of Women Voters here in Orange
2 County.

3 I come to you as a very concerned student.
4 Obviously, based on the hearings that we have
5 had in the afternoon and today, Floridians want
6 fair districts and you had four months after
7 the census information has been made available
8 to us and with 26 district hearings in motion
9 we have yet to see a legitimate maps.

10 Instead, we see our money and time being
11 wasted and honestly I feel that many of you are
12 practicing in the ideology of convenience, and
13 it is extremely frustrating because here in the
14 State of Florida we have races that really
15 aren't that competitive, because politicians
16 are choosing the voters rather than the voters
17 choosing their politicians.

18 With Bills, like House Bill 1355 and
19 Senate Bill 2086, we are seeing student votes
20 being hurt and the voters registration being
21 criminalized --

22 REPRESENTATIVE PRECOURT: Ma'am --

23 MS. ESKAMANI -- which is extremely
24 frustrating. I am getting back on topic.

25 REPRESENTATIVE PRECOURT: I ask you, to

1 remind you to keep focused on redistricting.

2 MS. ESKAMANI: Thank you, Freedom of
3 Speech. Now, as I was saying, as a University
4 student from the University with 56,000
5 students I would encourage you to, one, not
6 divide our vote into two or more districts as
7 it is now.

8 And two, to perhaps use the money that you
9 are wasting to actually encourage voters and
10 give us more polling locations that you see
11 because students shouldn't have to wait three
12 to five hours to vote for their candidate.

13 If you are scared of voters, I would
14 suggest you not run for office. Thank you very
15 much.

16 REPRESENTATIVE PRECOURT: Thank you. So,
17 next we have Ms. Caroline Emmons-Schramm, is
18 Caroline here? Okay, no Caroline. Randy
19 Stephens. Oh, Caroline is here. And folks,
20 we, as a courtesy to the 100 more people that
21 we have to speak, the more that you applaud and
22 I love it, but you use up other people's time.

23 MS. EMMONS-SCHRAMM: Yes, it was hard to
24 hear my name over the applause.

25 REPRESENTATIVE PRECOURT: Caroline.

1 MS. EMMONS-SCHRAMM: Good evening, my name
2 is Caroline Emmons-Schramm and I am a Florida
3 citizen and a voter. I am pleased to see the
4 number of people attending the hearing. You
5 all are getting lots of stories.

6 I know you have been hearing a lot of
7 comments. Often focusing on what the speakers
8 don't want you to do. My comments tonight will
9 focus on what we do want you to do.

10 We want you to draw the maps quickly,
11 debate them in the fall and pass them the first
12 week of the session. We want you to follow the
13 spirit of the standards. Draw voting districts
14 that do not favor or disfavor a political party
15 or candidate.

16 Districts that utilize existing political
17 and geographic boundaries like counties and
18 cities and neighborhoods and are compact and
19 contiguous, and we want districts that will
20 continue to allow racial or language minorities
21 the equal opportunity to participate in the
22 political process and elect representatives of
23 their choice.

24 But most of all, we want you to do the
25 very best job that you can, to fulfill your

1 responsibility of drawing voting districts that
2 will allow the voters of Florida to choose
3 their representatives at the State and Federal
4 level. Thank you very much.

5 REPRESENTATIVE PRECOURT: Thank you very
6 much. Appreciate it. Next we have Randy
7 Stephens and he will be followed Elenita Brodie
8 and if Clay Selfridge and Maria Luyanda can
9 start working their way down I would appreciate
10 it. Mr. Stephens.

11 MR. STEPHENS: My name is Randy Stephens,
12 and again, I am very grateful that ya'll have
13 come to Orlando for this session.

14 As a voter, as a Florida resident, as an
15 American citizen, I am frustrated, I am
16 frustrated with a lot of things.

17 Part of my frustration is with you. One
18 of my frustrations is that the Speaker of the
19 House is not here, and he is from this area and
20 I am embarrassed that he does not show up for
21 this meeting, because he is primarily one of
22 the people responsible for the challenge of
23 Amendments 5 and 6 and he should at least have
24 the guts to show up here.

25 I am frustrated because I grew up in the

1 America that I learned as a kid. We were a
2 democracy, we have the best democracy in the
3 world, but it was based on fairness.

4 We have now alienated ourselves too much
5 from one party or another. We don't look at
6 the issues. We don't look at the people. We
7 look at the R or the D or the T or the I. We
8 have got to quit looking at that.

9 You cannot draw up these plans based upon
10 the R's and the D's. This is supposed to be
11 fairness.

12 Now, we definitely, I do not want anything
13 to dilute anything from the Civil Rights Act of
14 1965. Those districts should stay and I think
15 there is enough safeguards that we already have
16 that once it is passed by the Legislature, then
17 the Attorney General looks at it and it is
18 reviewed by the U.S. Department of Justice and
19 then it goes to the Governor.

20 So there are safeguards in there, but we
21 mostly are just frustrated right now that we
22 are having to go and going to spend up to \$30
23 million to challenge what the people of this
24 state voted for us to have for Amendments 5 and
25 6 for this fair district and I am very upset

1 that we have got a lot of needs in this state,
2 whether it be in education, whether it be in
3 disabilities or whatever, that we are going to
4 be wasting money on this.

5 You need to enact what the people wanted
6 you to do. Thank you for your time.

7 REPRESENTATIVE PRECOURT: Thank you, sir.
8 Okay, next, we have Elenita Brodie and she will
9 be followed by Clay Selfridge. Do I have
10 Elenita Brodie, is she here?

11 No, okay, Clay Selfridge, Clay Selfridge,
12 is Clay working his way down? No. Okay, Maria
13 Luyanda, Maria, are you here, if you are, wave.

14 Okay, Wardell Sims, Mr. Sims has left.
15 Jose Balasquide. He is gone. Anthony Borka,
16 do we have an Andy Dubois? All right, Andy
17 Dubois, and let me call a few additional names.

18 Anna Eskamani, who I think we just heard
19 from, great, and then Alita Chappell, Nancy
20 Rudmen, and Sylvia E-k-a-g, I think. If you
21 all can work your way down.

22 Mr. Dubois, and you have, I believe you
23 have several maps.

24 MR. DUBOIS: Mr. Chairman, I want to thank
25 you, distinguished Representatives, I want to

1 thank you for having these hearings. I am a
2 resident of Lake County, Florida. I live in
3 Howie-in-the-Hills.

4 I have found out how to use District
5 Builder after several attempts and I find it a
6 very useful tool. One of my concerns is the
7 map that I have up there now, and currently in
8 Lake County our Congressional, we have four
9 Congressional Representatives for Lake County,
10 and this map here is a suggestion on possibly
11 so how Lake County, Sumter County, and Citrus
12 County and pieces of Orange County can have
13 just one, one U. S. Congress Representative
14 rather than four. And that is just a
15 suggestion.

16 I understand after going through using the
17 District Builder, the huge task that you, that
18 you have in front of you, and I want to just
19 submit this as a suggestion.

20 I have another map that I drew and I am
21 anxious to see which one comes up. I think it
22 will be the State Senate, there is right there.
23 This is the State Senate.

24 Right now we have two Reps in Lake County,
25 and this map here, although Lake County is the

1 northeast corner of Lake County will be plopped
2 off and we will still have two Reps, but this
3 will give a suggestion that maybe the benefits
4 will be that Citrus, Sumter and the largest
5 portion of Lake County can be consolidated on
6 some contiguous boundaries, existing
7 boundaries.

8 I have one more map for the House, and
9 this map here takes Lake County and gives us
10 two Reps, one for the north and one for the
11 south, and I just wanted to submit these maps
12 to you guys.

13 I understand the huge undertaking that you
14 have, and hopefully this will -- this will help
15 as a suggestion. I want to thank you very
16 much.

17 REPRESENTATIVE PRECOURT: Well, thank you.

18 MR. DUBOIS: That is all I have got to
19 say.

20 REPRESENTATIVE PRECOURT: Thank you,
21 appreciate that, and I want to reiterate that
22 that is -- this mechanism is one of the best
23 ways of having an impact is to actually submit
24 maps with lines on them and that is not open to
25 the interpretation that a lot of the words are.

1 Next we have Alita Chappell, followed by
2 Nancy Rudmen. Alita Chappell, are you here?
3 No Alita Chappell.

4 Nancy Rudmen, there she is, okay.

5 A VOICE: She is not here today.

6 REPRESENTATIVE PRECOURT: Have you
7 submitted a card as well? Okay, well, why
8 don't you do that when your name is called.
9 Sylvia, E. K., I can't quite read the last
10 name, Glice, no. Rae Capen, Rae, C-a-p-e-n,
11 Bill Negron, is Bill Negron here? James
12 DeCocq, Karie Brown? Okay, great. I should
13 have just let you go before.

14 And if Gregory Teague, Richard McCay, Jill
15 Giese and N. Y. Nathiri can work their way
16 down, I would appreciate it. The microphone is
17 yours.

18 MS. TEAGUE: Well, I am super nervous to
19 be up here, but I do want to speak my heart in
20 this, and let me read Nancy's thing first and I
21 am super nervous but I think I might shake.

22 REPRESENTATIVE PRECOURT: You are doing
23 great.

24 MS. TEAGUE: I am a voter on paper, okay,
25 all right, so again this is Nancy. She asks

1 that you stop fighting the will of the voters.
2 She wants for us to stop using, for you to stop
3 using our money to fight your will and vote for
4 fair districts.

5 She says stop playing games, show us the
6 maps you give us, the voters, time and
7 meaningful chance to review and give input to
8 the maps that will either thwart or respect our
9 vote, and in your gerrymandered districts you
10 don't represent anyone because you elected
11 gerrymandering. And if you are worried you
12 can't win a fair race you shouldn't be running
13 at all.

14 She works with, I think, who else knows
15 Nancy here, she is with the League of Women
16 Voters? So she will be speaking from that
17 place.

18 REPRESENTATIVE PRECOURT: Okay.

19 MS. TEAGUE: I personally listening to the
20 discussions and I am really kind of speaking
21 off the cuff from my experience with that, and
22 it seems like there is a bit of a false
23 dichotomy.

24 I look at our representation and I see a
25 lot of white faces, no offense, you are

1 beautiful people, a lot of white, white faces
2 and I think if you respect our -- if you look
3 at our representation of people that is not
4 really the situation.

5 And I just would like to see, I feel that
6 gerrymandering is the very thing that I am
7 mostly frustrated with politics today and it is
8 politics for politics' sake, whereas I want to
9 see my vote count.

10 I want to see when I call my politicians
11 that they respond, and I have to say I am very
12 vocal and I very rarely get a response and I
13 think that is because you don't have to care
14 what we say, because you draw your own
15 districts, you get to do what you want.

16 You vote yourself in when you draw it this
17 way, and I think as a voter who, I vote
18 Republican, I think I would love to have my
19 Representatives care when I see something that
20 is happening and I don't feel that I have seen
21 that so far. So that is my statement.

22 REPRESENTATIVE PRECOURT: Thank you. Next
23 we have Karie Brown, Karie, got you, okay,
24 Gregory Teague, Gregory, are you here? Richard
25 McCay, no Richard McCay? Okay, Richard is

1 coming. And if then I could have, move up
2 front, Jose Balasguide and N. Y. Nathiri, which
3 I mentioned earlier, I would appreciate it.
4 Okay. Go ahead.

5 MR. MCCAY: All right, distinguished State
6 Representatives, not to offend you, but this is
7 kind of a traveling circus that you are going
8 on. So I can, you know, there is somewhat of
9 an attitude and I do have an attitude because
10 it is Richard Vogel McCay. So I have the
11 distinct so I have the distinct honor of coming
12 from an African-American information and a
13 Cuban and Panamanian mother.

14 And what, those that didn't come to the
15 2:00 to 4:00 session, we had two of some of the
16 greatest central Floridians to speak, and that
17 was the Honorable Mable Butler and the
18 Honorable Reverend Pinder, and Reverend Pinder
19 said that this should not be an issue putting
20 minority against minority because in the '70s,
21 the 60's, the '80s, it was, oh, God, here comes
22 the blacks, what do they want now.

23 And now the attitude is, oh, God, here
24 comes the Hispanics and Latinos, what do they
25 need now.

1 Now, the Hispanic population deserves a
2 Congressional seat. If we -- if you guys are
3 so skillful as making a third Congressional
4 District that goes all the way to Jacksonville,
5 cuts into Gainesville, into Eatonville, into
6 Sanford, all of the way down to Orlando, then
7 you can come up with a Congressional District
8 for Latinos in central Florida, because all of
9 the Congressional Districts for Latinos cannot
10 come from Miami-Dade and Broward County. We
11 live also up here in central Florida as well.

12 So that is all I have to say, and to those
13 that are clapping, I sure do hope that you all
14 are voting, because it is nice to come out
15 here, but you need to be going to the ballot
16 box. Thank you very much.

17 REPRESENTATIVE PRECOURT: Thank you, sir,
18 okay, Jill Giese, are you here, Jill? Okay,
19 and in addition, if Douglas DeClue could come
20 on down, DeClue, and Wesley Leonard. Jill.

21 MS. GIESE: First of all, I am very
22 impressed with the pronunciation. I am Jill
23 Giese, and I am a regular voter. I am a
24 20-year resident of Orange County in Orlando,
25 and I am here today because I think it is

1 absolutely critical that we have the dialogue
2 so that you understand where the people were
3 who voted for Amendments 5 and 6.

4 It is very clear to me by listening to all
5 of the other people that have spoken that we
6 are asking for the support of the overwhelming
7 majority that voted yes to those Amendments,
8 and what I keep hearing is frustration, and
9 that is probably I think that is the word I
10 wrote down first when I started thinking about
11 what the message was that I wanted to say.

12 Because the frustration from not feeling
13 like the way our districts are drawn makes
14 sense is something we would really like to see
15 go away, and it can make sense and fulfill what
16 we voted on, and it can fulfill the needs of
17 minorities.

18 The frustration in this process has as
19 much to do with the fact that we are here
20 today. It is great to have a forum, but I
21 think this is a waste of time. I think it is a
22 waste of money, and I really wish that rather
23 than fighting for what we asked for, we, the
24 voters, asked for, that you guys would get to
25 work, put together some maps, look at them,

1 check them against what we asked for.

2 Share them with us, then get our feedback
3 so we can move forward and have districts drawn
4 in time so that when we can get elected
5 officials to know where they are going to run.

6 I am really fearful that we are going to
7 have elections upon us next year and people
8 don't know where they are going to run, and
9 that is what I would ask for today. Thank you.

10 REPRESENTATIVE PRECOURT: Great, thank you
11 very much. N. Y. Nathiri, followed by Jose
12 Balasquide.

13 MS. NATHIRI: Good evening, Mr. Chairman,
14 and members of the Committee. The story I
15 would like to tell is a tale of two districts,
16 I am from Eatonville. I have a bias for
17 Congressmen Corrine Brown, because frankly, she
18 has given us an example of something that might
19 seem counterintuitive to you, because our
20 district is that off the line snaked district
21 which runs from Jacksonville to Eatonville.

22 I want to share with you a true story.
23 Eatonville is a little bit to the east or to
24 the west of Winter Park, and in the '70s and
25 '80s, we were represented by a gentleman who's

1 office was on Lee Road.

2 Now, for those of you who know Eatonville
3 and Lee Road, you know that we could probably
4 walk to Lee Road and to that Representative,
5 but that Representative held us in such
6 disregard that he may have well been in
7 Timbuktu.

8 Counterintuitive though it is,
9 Congresswoman Corrine Brown, who's -- who has
10 District offices so close to us, really has
11 served us very well. She has that district
12 that would seem to belie the fact that distance
13 works against good representation.

14 And so I just felt it incumbent to come
15 forward to say that there is a different
16 perspective perhaps that needs to be kept in
17 mind, and that is that an energetic and
18 concerned elected official will do everything
19 in her power to work on behalf of her
20 constituents no matter how much effort and
21 energy it takes.

22 And frankly, whatever you do with the map,
23 please keep our district in Congressman Corrine
24 Brown's office. Thank you.

25 REPRESENTATIVE PRECOURT: Thank you. Jose

1 Balasquide. Followed, he will be followed by
2 Doug DeClue.

3 MR. BALASQUIDE: Thank you. First of all,
4 I want to say good afternoon to all of the
5 Honorable Members of the Committee and all of
6 the respectful constituents who came today.

7 I am Jose Balasquide and Vice-President of
8 the Democratic Hispanic Caucus of Florida. I
9 am is a member of the committee of the Central
10 Florida Redistricting Council at Large.

11 First of all, I want to -- I want to
12 address one of the most important common
13 interests, if not the most important financial
14 and from the mental, especially the business
15 organization in our community of interest,
16 covering Osceola, Orange and Polk Counties
17 areas.

18 The Hispanic or Latino community
19 represents \$12 billion in purchasing power to
20 our region's economy. The area is a common
21 ground for supermarket chains like Brownells,
22 Sedanos, Publix and financial institutions like
23 Bank of Opalord, BB Banco and among others.

24 There are several Hispanic universities in
25 the regions, including the large universities

1 such as Ana Mendez University Systems and
2 Polytechnical University, Interamerican
3 University of Florida and Technical College and
4 soon to come, Mechanical and Technical College
5 among others, where professionals and technical
6 education is facilitated.

7 The Hispanic population was responsible
8 for 58.6 of the combined population growth of
9 Orange, Osceola and Polk Counties. The
10 community of interest in Orange, Osceola and
11 Polk Counties share a common professional
12 organizations, including the Hispanic Bar
13 Association, the Puerto Rican Chambers of
14 Commerce.

15 The Hispanic Chambers of Commerce among
16 others as the second largest population group
17 in Florida, the Hispanics will shape Florida's
18 future and are a community that contributed to
19 the reaches of the greatest state.

20 We have Hispanic Floridians that are
21 engineers, teachers, elected officials and much
22 more. As Hispanics contribute to the
23 prosperity and well-being of Florida, we must
24 have a fair opportunity to choose the leaders
25 that will govern this state.

1 We must be able to elect candidates of our
2 choice who understand the unique opportunities
3 and challenges facing our communities. I
4 respectfully urge this Redistricting Committee
5 to consider and create a Congressional District
6 in the region of Orange, Osceola and Polk
7 Counties in which Hispanics can elect
8 candidates of their choice.

9 The Redistricting Committee should
10 accomplish this by drawing a Congressional
11 District that in the area with as close of
12 50 percent of voting age population of Latino
13 as possible. Thank you.

14 REPRESENTATIVE PRECOURT: Thank you, sir.
15 Next we have Douglas DeClue, followed by Wesley
16 Leonard, and if George Hooper, Jose Fernandez
17 and Jose Bosque can head on down, I would
18 appreciate it. Thank you, sir, you are on.

19 MR. DECLUE: Yes, my name is Douglas
20 DeClue, and I am an engineer by trade so I know
21 numbers and computers and data, and in my spare
22 time I have become something of a political
23 consultant to Democrats in this area who work
24 on campaigns, and I would really like to see
25 this be a multi party democracy here in Florida

1 for a change, and so I brought a few maps.

2 These aren't maps for proposals. Just to
3 let everybody see how things are now, and some
4 numbers. What you see up here, this is
5 Congressional Districts as they are now, and
6 they are shaded. For, of course, my Democratic
7 friends, it is shaded blue, various degrees of
8 blue and pink, if you will, and you can see how
9 there is only, all of the Democrats have been
10 pushed into one little district. It is very
11 dark blue and this is District 3.

12 And if we could go to the next slide, the
13 Excel sheet there, it goes with this. You can
14 see here, this is in Orange County. District 3
15 is favorable to Democrats, at least in Orange
16 County by 53 percent, and there is no need to
17 make it 53, 54 percent in favor of one party or
18 the other party in order to assure that a
19 minority gets elected to office.

20 We could have both, we could have both a
21 minority get elected to office and make these
22 districts more competitive. There is no reason
23 to have these gerrymandered districts.

24 Next slide, please. This is the State
25 Senate and again, I am looking, this is our

1 famous bunny rabbit in Senate 19, okay. If you
2 -- if we go to the numbers.

3 The next slide, please, the Senate
4 spreadsheet, please. And again, here we see in
5 Senate 19 in Orange County, plus 37 percent.
6 Okay, there is no need to have plus 37 percent
7 in order to assure that we get a minority
8 elected to one of the Senate Districts in
9 Orange County in Florida. We can have fair
10 districts and we can satisfy the Civil Rights
11 Act.

12 Next slide. This slide is a little bit
13 more confusing because there are 12 House
14 Districts that you might be aware of that come
15 through Orange County, but now, this one is a
16 bit more favorable only because there are more
17 districts.

18 But let's go to the numbers slide, please.
19 Again, you will see there is a few districts
20 like 36 where I am represented by Scott
21 Randolph and 49 where my friend, Darren Soto is
22 in office, and 39 where Representative
23 Geraldine Thompson, excuse me, is in office,
24 where the Democrats have all been clustered
25 together and the other nine districts are not

1 nearly as competitive, or in many places, they
2 are just uncompetitive, because we have played
3 games with the numbers and I know and you know
4 about FRED'S and that you can use this program
5 to manipulate the numbers and draw districts to
6 down to households if you would like to
7 basically skew the numbers so that you can
8 gauge what is called pack and stack where you
9 put tons of minorities into single districts,
10 and thereby create a system that is not
11 competitive, not multi party.

12 I would like to be able to have an honest
13 debate about issues with my friend, Doug
14 Guetsloe over there, but instead, I have got to
15 play games with numbers, because you gentlemen
16 and you ladies are more concerned about
17 protecting your incumbency and protecting
18 control by one party in this state than you are
19 about the will of the voter, and the
20 willingness to be accountable to the voters.

21 And I would like to see you just for once
22 do what the voters ask and respect Amendments 5
23 and 6.

24 REPRESENTATIVE PRECOURT: Thank you, sir.

25 Next we have Wesley Leonard, is Mr. Leonard

1 here, Wesley Leonard? No Wesley Leonard,
2 George Hooper, Mr. Hooper, are you here? Jose
3 Fernandez.

4 Mr. Fernandez, will be followed by Jose
5 Bosque and then Tom Hill, Paul Lilling and
6 James Penna. Mr. Fernandez.

7 MR. FERNANDEZ: Good evening, Honorable
8 Legislative Redistricting Committee, elected
9 Officers, ladies and gentlemen.

10 My name is Jose A. Fernandez and I am the
11 State Director for the League of the United
12 Latin American Citizens. I am -- that is LULAC
13 Florida, and it is one of the oldest and
14 largest National Hispanic civil rights
15 organization at this moment.

16 I am here as a partner with the Central
17 Florida Redistricting Council, Inc., and I am a
18 Puerto Rican Hispanic and live in Orange County
19 for the past 15 years.

20 I retired from the government of Puerto
21 Rico and also from the Armed Forces. I am also
22 a veteran of the Viet Nam War.

23 I am the President of the Democratic
24 Hispanic Caucus of Florida, and as a concerned
25 Puerto Rican we want to ensure that the Florida

1 Congressional Redistricting Committee respects
2 the voting rights of the Hispanic by ensuring
3 that the state Hispanic community has a fair
4 opportunity to elect the candidate of its
5 choice.

6 The Hispanic population was responsible
7 for 58.6 percent of the combined population
8 growth of Orange, Osceola and Polk County. The
9 Hispanic population in Orange County, Orange,
10 Osceola and Polk Counties grew by 103 percent
11 from 2000 to 2010.

12 I respectfully urge the Redistricting
13 Committee to consider creating a Congressional
14 District in the region of Orange, Osceola and
15 Polk County in which Hispanics can elect a
16 candidate of their choice.

17 The Redistricting Committee should
18 accomplish this by drawing a Congressional
19 District in an area with a close to 50 percent
20 Latino voting age population as possible as a
21 group of interest.

22 As a partner with the Central Florida
23 Redistricting Committee, Inc., I strongly
24 recommend that the Congressional Redistricting
25 Committee here adopt the Central Florida

1 Redistricting Council, Inc., the Congressional
2 District recommendation map and data submitted
3 prior.

4 We want to ensure that the Congressional
5 District Committee adopt our accommodations for
6 the benefit of the Puerto Rican Hispanic
7 community group of interest. Thank you.

8 REPRESENTATIVE PRECOURT: Thank you, sir.
9 Okay, next we have got Jose Bosque. Is
10 Mr. Bosque here? No? Tom Hill? He has
11 already gone. Paul Lilling? James Penna,
12 Mr. Penna, and following Mr. Penna will be
13 Jimmy Perry, James Rutherford and Phillip
14 Fettig. Mr. Penna.

15 MR. PENNA: Good afternoon, good
16 afternoon. I am James Penna. I am from Ocala
17 in Marion County. I would like to ask that
18 Marion County with a population of over 300,000
19 people not be further cut up like the
20 proverbial chicken.

21 I am a member of the third party, neither
22 the donkey nor the elephant own my vote. My
23 national heritage is a Heinz 57 of all peoples
24 in the Mediterranean basin from Carthage to
25 Italy to France, Spain and Portugal.

1 I want to see a Florida where all of her
2 citizens gets a fair deal. As a member of the
3 Constitution Party I would like to see the
4 legislation -- Legislature consider a fusion as
5 a tool to help the voter know where the
6 candidates stand on issues not specifically
7 addressed by the two major parties. Thank you
8 for your time.

9 REPRESENTATIVE PRECOURT: Thank you,
10 Mr. Penna. If you could hand it to the staff
11 right over there.

12 Mr. Perry, Rue Jimmy Perry? No. Okay,
13 Reverend Jimmy Perry maybe. No. Okay, James
14 Rutherford. James Rutherford. No? Phillip
15 Fettig, Mayor Gary Bruhn, and I know he left.
16 Unita Orr. Delores Crosley, Delores.
17 Reverend, I think this is Reverend Randolph.
18 He has gone. Julius Melendez? Anthony Suarez.
19 Monty Knox, is Monty here?

20 Monty is coming on. While he is working
21 his way up, let me call another half dozen
22 names just to see if anybody can work their way
23 down here.

24 Charlie Gene Salter, Jacquelyn Shields,
25 Clint Salter, Samir Gupte and Mary Jane

1 Arrington. Mr. Knox, thank you.

2 MR. KNOX: Thank you, Mr. Chairman, how
3 are you doing?

4 REPRESENTATIVE PRECOURT: I am doing
5 great, thanks.

6 MR. KNOX: We grew up four doors down from
7 each other. I want to thank you all for
8 coming.

9 REPRESENTATIVE PRECOURT: In a different
10 world.

11 MR. KNOX: A very different world. I want
12 to thank you all for coming to Orange County.
13 I am the owner of the 99th largest nursery in
14 America. We are located in Winter Garden.

15 We are a very rural type of industry and a
16 very urban county. Orange County is the number
17 two nursery and landscape county in the state
18 of Florida only behind Miami-Dade, another very
19 urban county, and we, and the state of Florida
20 is the number two state in the country when it
21 comes to nursery and landscape.

22 What I am up here for is that we have a
23 voice in both Tallahassee and Washington when
24 it comes to rural issues and agricultural
25 issues.

1 Agriculture in the state of Florida is now
2 the number two segment of the state economy,
3 and we have been fairly steady in the last four
4 years, and we need to keep our voice in
5 Tallahassee and Washington. We have earned it.
6 We are a significant part of this state's
7 economy.

8 Now, agriculture is one of the reasons we
9 have all of these very strangely shaped
10 districts, but those strangely shaped districts
11 are basically designed to keep that economic
12 engine represented in both Tallahassee and
13 Washington, and it is in the best interest to
14 keep rural, rural issues, you know, represented
15 in Tallahassee and kind of a catch phrase, is
16 urban solutions for urban problems usually
17 create major headaches for rural people. Thank
18 you.

19 REPRESENTATIVE PRECOURT: Thank you very
20 much, Monty, good seeing you. Charlie Gene
21 Salter. Charlie Gene Salter. Okay, Jacquelyn
22 Shields. Is Jacquelyn Shields here? No.
23 Client Salter? Yes? Did I hear someone say
24 Clint Salter is here? Okay, great, and he will
25 be followed by Samir Gupte, Mary Jane

1 Arrington, Wesley Leonard, Todd Catella and Pam
2 Powell.

3 And if ya'll could come down and sit in
4 the front row to be prepared to come to the
5 mike, I would appreciate it. Mr. Salter.

6 MR. SALTER: Sorry for the delay in
7 reaching the podium. Thank you, Commissioner,
8 for allowing me to speak today, as you have
9 many of my neighbors, many of my friends today
10 earlier.

11 You heard from many of the faith based
12 community representatives of churches in our
13 community and community based organizations,
14 much like myself. I represent Cross Roads
15 Community Revitalization and Development, and
16 originally we were founded as a homeless
17 shelter.

18 One of the first, if not the first, in
19 central Florida, and we are located just at the
20 perimeter of the site we are on right now.

21 And I want to actually echo some of the
22 things and concerns that many of the
23 constituents from our districts shared with you
24 earlier, which is that, you know, I have heard
25 a lot of folks in their frustrations about not

1 being able to reach their Commissioners, not
2 being able to reach their Representatives for
3 service, not having a response because they are
4 so far disbursed or that their districts are so
5 disbursed, it is so wide ranging, as they say,
6 gerrymandering, that they don't have that in
7 touch feeling with their Representatives.

8 And like previously mentioned by a number
9 of folks, in particularly, in giving a
10 district, a group of citizens numbering, in
11 numbers upwards and in now in Orange County,
12 upwards of 250,000 people.

13 A voice in your board, in your chambers in
14 the State House and the Senate, as well as in
15 Washington, D. C., it is imperative that those
16 rights which were fought for for years that
17 came about in the last 30 years, that they be
18 continued and upheld by this board, by this
19 Commission.

20 I know your recommendations are going to
21 be ratified by the Justice Department, Attorney
22 General and many others. I think as a
23 Representative of community based community,
24 many of which, as I said earlier, were voiced
25 their opinions and their feelings, that our

1 district, the Third Congressional Seat, the
2 Congressional District of Florida, as well as
3 our State Senate and House of Representatives
4 seats be in touch for the reason that the Voter
5 Rights Act actually secured for our district an
6 opportunity for disenfranchised people to have
7 representation.

8 As Latino citizens, Afro Hispanic citizens
9 of our community we share with you, that is
10 vital, they want it, they need it. They need
11 to have an opportunity to reach out as members
12 of your communities have for you.

13 It doesn't seem like gerrymandering is as
14 helpful and needed as it has been for our
15 community, but when you look at the fact that
16 40 years ago you could count on one hand the
17 number of African-American voices that were
18 heard and had reasonably and more than
19 reasonably participated and gave great
20 contribution to the United States of America.

21 We think that in Florida there,
22 particularly in our county, there is 250,000
23 people that have swelled our county in the last
24 ten years.

25 When I grew up there was seven million

1 people in the state of Florida. Now it is
2 upwards of 18 million. This is a great place
3 to live. It didn't just happen to become a
4 great place to live, but it was because of the
5 many contributions that are reflected by this
6 Commission, white, black, Latino, Native
7 America, all of these people go into one pot
8 that is called America, and I think that it
9 would be a great disservice to undo the work,
10 undo the Voting Rights Act impact upon the
11 Third Congressional District in particular
12 because of what it has meant to the voters,
13 constituents in my district to whom I serve and
14 community based capacity.

15 It would be a disservice to them to undo
16 some of those things that I think are protected
17 by some type of mandate because it helped
18 disproportionately impacted people have
19 representation.

20 I thank you for your time and I pray that
21 God really blesses you with the temperament and
22 the patience to wade through some of the
23 things, some of the great suggestions that have
24 been heard from all of our communities, and I
25 think our Congresswoman as well as our State

1 Representatives have worked in a bipartisan
2 manner here in central Florida, as a result,
3 the recently communicated throughout the state
4 and the Sunrail project that will bring
5 millions and millions of dollars, thousands
6 upon thousands of jobs, and our Congressional
7 Representative was a part of that heart beat of
8 that, and I think that we have to take those
9 things into consideration and we do look
10 forward to having active participation.

11 I have other questions, too, which for you
12 can be answered later when you address us, is
13 that for the community based, faith based
14 leaders that have spoken today, will we be
15 included as part of that, that type of
16 communication as to what your recommendations
17 will be as far as the redistricting, because I
18 think that we have to have some say and some
19 type of approval process between us, because
20 our community is very much, very much involved
21 and interested in what is going on here.

22 REPRESENTATIVE PRECOURT: Well, thank you,
23 sir, we appreciate that. We will definitely
24 answer that question.

25 MR. SALTER: I look forward to it, thank

1 you.

2 REPRESENTATIVE PRECOURT: Okay, Samir
3 Gupte, is Samir here? Okay, great, and he will
4 be followed by Mary Jane Arrington and Wesley
5 Leonard. Mr. Gupte.

6 MR. GUPTE: Good evening, thank you for
7 the opportunity to speak and thank you for
8 taking the time to come listen to us.

9 My name is Samir Gupte and I am an eight
10 year resident of Orlando, Florida, the College
11 Park neighborhood and I am also the President
12 of the Central Chapter of the ACLU.

13 The ACLU promotes and protects
14 constitutional rights and liberties. We do our
15 work through education, supporting non-partisan
16 legislation and when necessary, through
17 litigation.

18 Our focus is on church, state role
19 clarity, women's health, LGBT quality and
20 voting rights. It is the last platform that
21 brings me here to speak to you today.

22 We partnered with many of the groups in
23 the people in this room on both the ballot
24 initiative as well as the Amendments 5 and 6
25 that were passed by approximately 63 percent of

1 the voters during the last election.

2 So clearly the voters are asking you, our
3 Representatives in Tallahassee, that we want
4 change, we want something different, that we
5 want a principle approach to redistricting that
6 is fair, that is consistent and that is
7 transparent.

8 I recognize that change is hard, but the
9 voters want a different Florida. They want a
10 different approach to politics in Florida and
11 that is what we are asking you to do.

12 As a life long student I also understand
13 that it is human nature to want to protect what
14 you have achieved, what you have gained, what
15 you have conquered, what you have acquired.

16 That goes back thousands of years in
17 humanity, and it is human nature to want to do
18 that. I am also a 20-year human resources
19 professional, and I, in a lot of ways, envy
20 your opportunity and your power to basically
21 define your own job security by taking a
22 scalpel of information and carving out these
23 districts that will ensure your reelection, but
24 I ask you to do something different.

25 We of the ACLU ask you to do something

1 different. We ask you to answer what the
2 voters have put forth in the spirit and the
3 letter of Amendments 5 and 6 to have districts
4 that actually make sense.

5 If you mapped out, put all of the maps of
6 the districts of every state in the country,
7 Florida is in the bottom five in terms of the
8 most gerrymandered, the most bazaar designs of
9 the districts.

10 The only explanation that one could have
11 is it is all politically based. We ask you to
12 do something different. We ask you to use
13 principles that are fair, consistent and
14 transparent, and we ask you as you get into the
15 process of drawing the maps and we ask you to
16 do it soon, if I was a confrontative person I
17 would say you are foot dragging, but I am not,
18 but I am saying it is taking too long.

19 As you sit down to draw the maps, ask
20 yourselves honestly in your head and your
21 heart, is this for the public good or is this
22 for my political party's good or is this for my
23 personal good.

24 We ask you to follow the spirit and the
25 letter and thank you for your time.

1 REPRESENTATIVE PRECOURT: Thank your, sir.
2 Okay, next, we have Mary Jane Arrington, and
3 she will be followed by Wesley Leonard, and if
4 the following folks can make their way down to
5 the front row, Denise Diaz, Linda Stewart,
6 Michael Sheils, Rosalyn Anderson-White and
7 Melinda McCurry.

8 MS. ARRINGTON: I am Mary Jane Arrington.
9 I am Supervisor of Elections at Osceola County
10 and I would like to address the process
11 tonight, mainly the timeline.

12 I am not super human nor are any of my
13 fellow supervisors, and the projected timeline
14 really does not give us much time once these
15 districts are adopted and approved.

16 It is about two weeks, and that really
17 isn't enough time for us to accurately draw new
18 precinct lines, notify the voters, mail
19 ballots, and in sometimes we are probably going
20 to have to find new voting locations.

21 So if possible I would love for ya'll to
22 expedite, compress this process wherever you
23 can so we will have more time to notify our
24 voters.

25 Come election day if they are confused

1 they are not going to be mad at you, they are
2 going to be mad at me.

3 Also, your redistricting legislative staff
4 and the census staff have drawn VTD's. Please
5 use them. They take into effect communities of
6 common interest, traffic patterns, natural and
7 physical barriers, and they also provide for
8 compactness, and a compact district is an
9 efficient district when it comes to operating
10 an election. It saves money.

11 I appreciate the work you are doing. None
12 of us are going to be happy with everything you
13 do, but try, let it be super human since I
14 can't be. Thank you, and I appreciate your
15 time.

16 REPRESENTATIVE PRECOURT: Thank your,
17 Ms. Arrington. Okay, next, we have Wesley
18 Leonard and he will be followed by Todd
19 Catella.

20 MR. LEONARD: Mr. Chairman and other
21 elected officials from all across this state.
22 I am Wesley T. Leonard, Senior Minister of the
23 Southside Church of Christ here in Orlando,
24 Florida, a native Floridian from Tallahassee,
25 Florida, Leon County, and -- amen.

1 I also represent the Florida Civil Rights
2 Association where I am currently serving as
3 Chairman of Religious Affairs.

4 As our state now approaches almost
5 19 million in population and 42 percent of that
6 population in the recent census revealing that
7 are minorities, it is our position that it is
8 unconscionable, immoral and unfair for the new
9 districts to be drawn and not reflect a
10 minority position where we have more elected
11 officials.

12 It is the position of the Florida Civil
13 Rights Association that those two Congressional
14 Seats should reflect the new census data that
15 we just received. That our minorities should
16 be represented in those seats.

17 We believe as it is constitutionally true
18 that taxation without representation is
19 charity, and we all are law abiding, tax
20 paying, church going, law abiding citizens of
21 this state, and we ask that you be fair in your
22 drawing of these lines, that they reflect the
23 new census.

24 And it is our position at the Florida
25 Civil Rights Association not only is this

1 reflective of the new census, but you all get
2 to do something that is rarely been able to
3 have been done in politics, which is you can
4 have the trifecta of good policy, good
5 principle and good politics at the same time.

6 It is good principle because it is moral
7 to do the right according to the minorities in
8 this state. It is good policy because it is
9 the right thing to do and it is about politics
10 for now and in the future many votes will lie
11 in our community.

12 So on behalf of myself as a representative
13 of the Florida Civil Rights Association, and as
14 a husband and as a Pastor, as a loyal citizen
15 of this state we ask you to do what is right.

16 We ask you to do what is fair, we ask you
17 to do what is principle. We ask you to do what
18 is good policy and what is good politics. God
19 bless you, thank you.

20 REPRESENTATIVE PRECOURT: Thank your, God
21 bless you, too. Todd Catella who will be
22 followed by Pam Powell. Mr. Catella, good to
23 see you.

24 MR. CATELLA: Thank you, sir, Todd
25 Catella, I live in Orlando. I have lived in

1 Orlando since 1966, when my folks moved here
2 from Vermont after the announcement of Disney,
3 and you asked for my story.

4 I am going to give you a little bit of my
5 political story. In 1980, was my first
6 election. As a Conservative I voted for Ronald
7 Reagan, proudly.

8 I have followed throughout the years as a
9 Republican, many of you, straight Republican as
10 many Democrats are straight democrats, and I
11 have the value of conservatism. I have the
12 value of fairness, I have the value of equal
13 rights. I do have also a value of protecting
14 our ecology.

15 If I pass a piece of paper on the street,
16 I pick it up and I put it where it should be.
17 I don't just walk by it if I at all can, and I
18 might even be walking with somebody of
19 importance and I will stop and I will pick up
20 that piece of paper and I will do what I need
21 to do, because that is good citizenship.

22 Now, there is amiss -- well, let me back
23 up just a hair. I was never politically active
24 in any way, ever, other than --

25 REPRESENTATIVE PRECOURT: Mr. Catella, I

1 need you to get to the redistricting part. I
2 know you are.

3 MR. CATELLA: I am. This is important.
4 This is important.

5 REPRESENTATIVE PRECOURT: Okay.

6 MR. CATELLA: Two years ago, a little over
7 two years ago I was throwing things at the TV
8 as the conversations were going on, and was at
9 the first Tea Party at Lake Eola, all right,
10 because I felt I needed to take action.

11 My -- the Republican Party that I knew was
12 not representing me anymore at all, and I felt
13 I needed to take hold of that again. So I
14 became active and I was very active, and there
15 was a Congressional Democrat that I wasn't
16 happy with and I worked against him, because he
17 was way out there.

18 Now, I said all of that to say that there
19 is a current conversation of Hispanic
20 representation. I want you to know that I
21 believe in fairness. I believe that the
22 Hispanic people in this area, even though they
23 are a Democrat, have the right to try and solve
24 their own problems, okay.

25 So if it is at all possible to get a

1 Congressional District that represents them,
2 that they can solve their problems with, please
3 do so.

4 REPRESENTATIVE PRECOURT: Thank you. Next
5 we have Pam Powell. Pam, are you here? Great,
6 and she will be followed by Denise Diaz and
7 then Linda Stewart, and if --

8 REVEREND POWELL: Good evening, everyone.

9 REPRESENTATIVE PRECOURT: Thank you.

10 REVEREND POWELL: I am the Reverend Pam
11 Powell. I am here today to just perhaps give
12 you some of my thoughts regarding the
13 redistricting.

14 When I thought about the whole plan and
15 the Voting Rights Acts of 1965, I was reminded
16 that the word redistrict spells what it is all
17 about anyway and I wanted to just kind of
18 re-enforce and speak a word regarding that,
19 because it is very important for our society
20 and I just want to take the word redistrict and
21 remind you and us that the R, it is about our
22 right to be counted.

23 The E is about equal representation of our
24 African-America and minority communities as
25 well.

1 The D is Dr. King's dream that the
2 diversities of our communities would always be
3 represented fairly.

4 The I, it is time for us to be in-tensed
5 rather than tensed and participate in the
6 process of voting.

7 The S, we must stand for the Voting Rights
8 Act of 1965, because if we don't stand for
9 something we will fall for anything.

10 The I is as I look at the district, it
11 talks about the fact that together we stand and
12 divided we fall.

13 The R is resurrection time. It is time
14 for us to look up, hook up, so we can go up to
15 the next level.

16 And I, when we look at that, we must
17 insist on fairness for all of our voters.

18 C, I think about Congresswoman Corrine
19 Brown, someone who has always fought a
20 courageous fight, someone who has never quit
21 and we need her in our district. I don't know
22 whether we can clap for her, but we should clap
23 for Congresswoman Corrine Brown and the work
24 that she has provided in this community.

25 And last, but not least, the T in

1 district, it is not time to take a giant leap
2 backwards. As our foremothers and forefathers
3 have fought a great fight, and when we look
4 hard we must tell the world that we are not
5 looking back, turning back, backing back,
6 falling back, crawling back, we are pressing on
7 the upward way and new heights we should be
8 gaining every day, still praying as we are
9 onward bound, Lord plant our feet on higher
10 ground. We need to be fair with redistricting.
11 Thank you so much and have a good evening.

12 REPRESENTATIVE PRECOURT: Thank you.
13 Denise Diaz with be our next presenter. Is
14 Ms. Denise Diaz here? Linda Stewart? Is Linda
15 here? Michael Sheils? Rosalyn Anderson-White.
16 Melinda McCurry. Holly Winsman, Andrew Bell?
17 A. C. Janney, Amy Ritter, Reverend Leroy
18 Powell, Amy? We got a couple of them coming?
19 Okay.

20 REVEREND POWELL: Good evening.

21 REPRESENTATIVE PRECOURT: Reverend Powell.

22 REVEREND POWELL: Mr. Chairman, to all of
23 you who are present tonight, I stand as one who
24 has come through the struggle, come through the
25 fight for equality and for civil rights.

1 I stand as one who had been born
2 injustices from the day that I knew myself up
3 until the Civil Rights Acts and the Civil
4 Rights Movement and all of the gains that we
5 have made, and I stand today to appeal to the
6 could common decency of those in charge of
7 making this decision, that you would just be
8 fair and think about if you were a victim of
9 racism and inequality or a victim of poverty or
10 struggling to live and to have a decent quality
11 of life, that you would put yourself, that you
12 would empathize with those who are affected
13 negatively by the decisions that we make.

14 And I feel that if you would honestly and
15 earnestly do that, that you would make the
16 right choice. So again, I appeal to all of you
17 who are in control of the process to do the
18 right thing. God bless you, God be praised and
19 heaven continue to smile upon you.

20 REPRESENTATIVE PRECOURT: Thank you, sir,
21 blessings to you as well. Amy Ritter. While
22 Amy is working her way over here, Carmen
23 Torres, Mayor Ken Bradley, Lynn Veitch and
24 Louise Turner. Ms. Ritter.

25 MR. RITTER: Hi. I just have two really

1 quick questions that I am expecting to be
2 answered since you are going to be answering
3 questions at the end of this testimonial
4 session.

5 But question one, is there a private non
6 government entity that is holding the maps that
7 the legislative leadership has drafted already
8 and to be clear, I don't mean people or groups
9 that have gone on the website, the District
10 Builder online, but actual special interest
11 groups that are holding already drawn maps?

12 Question two is, is there any other
13 entity, public or private besides the state of
14 Florida, that has contributed financially in
15 the States's lawsuit against Amendments 5 and
16 6. So two easy questions that I expect to be
17 answered. So thank you.

18 REPRESENTATIVE PRECOURT: Thank you.
19 Carmen Torres, is Carmen Torres Here? And she
20 will be followed by Mayor Ken Bradley and Lynn
21 Veitch. Ms. Torres.

22 MR. TORRES: Mr. Chair, thank you for the
23 opportunity to come before this committee. My
24 name is Carmen Torres and I have been a
25 resident of Orlando for 18 years.

1 We all know that historically incumbents
2 control the process. It occurs in both
3 parties, Democrats and Republicans alike. For
4 now Republicans rule in the Florida Legislature
5 and actually seek to preserve and expand GOP
6 representation through gerrymandering.

7 You may not be aware of this, but the
8 Speaker of the House and leadership has pulled
9 the wool over your eyes, Senate Chair.

10 I am personally offended as are most folks
11 in this room that this Legislature has set
12 aside \$30 million, and yes, I heard earlier
13 that this was not so.

14 You plan to spend \$30 million taken from
15 schools, from the medically needy, from working
16 families of this state to fight against the
17 will of the people.

18 The people of this state voted for Fair
19 Districts Amendments 5 and 6 by an overwhelming
20 majority of 63 percent of the vote and we
21 expect that our votes be honored.

22 I appeal to this body, please honor our
23 votes, draw compact contiguous districts
24 representative of our communities. I ask that
25 you respect the growth of the Hispanic

1 community and take into consideration
2 communities of interest between Osceola and
3 Orange Counties when considering the newly
4 created Congressional District.

5 I ask that you do this in a timely manner
6 and not three months before an election cycle.
7 Thank you very much.

8 REPRESENTATIVE PRECOURT: Thank you.
9 Okay, Mayor Ken Bradley. I believe he left.
10 Mayor Bradley? No? Lynn Veitch, Lynn Veitch,
11 Louise Turner? Louise Turner here? Ernie
12 Langda, Daniel Fisher, Oliver Finnigan?

13 We have a Daniel Fisher? Okay, and then I
14 am going to call out a half dozen other names
15 while he is working his way down here.

16 Oliver Finnigan, Charles Jackson, John
17 Farah, Patricia Graves and David Tropf.

18 If ya'll could start working your way down
19 to the front if you are here so we can get more
20 folks to speak. I still have a pretty good
21 sized stack of folks that would like to speak.
22 Mr. Fisher.

23 MR. FISHER: Hi. All right, well, as I
24 have been waiting, I have been here since 2:00.
25 I have heard a lot of people speak and express

1 their discontent with the political fear that
2 is going on right about now, and so I can rant
3 about two or three minutes on this, but they
4 have already exposed the fraud of the process
5 this is.

6 So I am going to go and tell a story like
7 your projection wants me to tell. So I am an
8 Independent from Ormond Beach, Florida. I was
9 raised by a single mother. She had two jobs
10 and she went to college while doing so.

11 I was able to make it through this process
12 and these hard times because she was promised
13 to me how special and how powerful democracy is
14 and how powerful education is, and so I always
15 had that in the back of my mind.

16 I always knew if I had democracy and
17 education I would be able to overcome these
18 struggles. Today those premises are in doubt.

19 With our spending \$30 million today wasted
20 on this process, \$30 million can pay for about
21 680 teachers, about 25,000 students, that is
22 25,000 dreams that we are destroying today.
23 That is 25,000 layers of hope that we are
24 ripping away due to political greed and power
25 grabbing.

1 I implore you to stand with the will of
2 the people. Shame on anybody who stands in the
3 way of the will of the people.

4 Shame on all of you who try and silence
5 the majority, 63 percent to be exact, and shame
6 on all of you who oppose this process. Thank
7 you.

8 REPRESENTATIVE PRECOURT: Thank you. Next
9 we have Oliver Finnigan, Mr. Finnigan here?
10 Oliver Finnigan, I don't see him. Charlie
11 Jackson. Is there a Charlie Jackson? John
12 Farah, Mr. Farah, Patricia Graves.

13 While Ms. Graves is heading over here,
14 David Tropf, Peter Lee, Kelli McNair-Lee,
15 Kenneth Dwyer and Fedorah Philppeaux. Ma'am,
16 you have the mike.

17 MS. GRAVES: Ladies and gentlemen, good
18 evening, thank you for coming to Orlando. I am
19 the President of the Seminole County League of
20 Women Voters and a resident of northwest
21 Seminole County for 20 years.

22 I am here today to encourage you to speed
23 up your timeline of drawing districts so that
24 you can vote on them in January of 2012.

25 I know that the Florida Constitution

1 mandates that the vote can be no earlier than
2 that, but we have five full months until then
3 where much can be done to make an early January
4 vote doable.

5 As an aside, this is a side bar, I also
6 know that the process includes the Justice
7 Department and others. So it would be
8 beneficial if that reach information of those
9 entities and people were posted on your
10 redistricting websites so citizens could hurry
11 them along after we are finished with hurrying
12 you along.

13 Back on point, keeping your current
14 timeline will reap havoc on the 2012 elections,
15 making Florida once again the laughing stock of
16 our country.

17 Your current timeline also provides scant
18 time for candidates to file and for citizens to
19 learn about their candidates so they can make
20 an informed vote.

21 Most importantly, under your current
22 timeline, the absentee ballots, especially for
23 our service people overseas, may not make the
24 deadline effectively disenfranchising the very
25 mean and women who are fighting for democracy.

1 Please don't take that chance.

2 Second point, any monies you have set
3 aside and are using to pay for the litigation
4 for both striking down and defending Amendment
5 6 should be sent, should be sent and used for
6 more worthy causes, such as schools, services,
7 job creation.

8 Seminole County schools could really use
9 the help. Lawyers and their firms already have
10 jobs, so stop financing them. So please
11 respect our vote from last November. Please
12 respect the votes that will be cast in 2012,
13 and get to work in Tallahassee.

14 Work in the sunshine, work with citizen
15 input in good faith. Most importantly, let's
16 get to work now.

17 REPRESENTATIVE PRECOURT: Thank you.
18 Okay, next we have David Tropf. David, are you
19 here? David Tropf? No? Peter Lee, and Peter
20 will be followed by Kelli McNair-Lee. Mr. Lee.

21 MR. LEE: Thank you for having this
22 hearing. I really do appreciate it. I have
23 been relatively disgusted from what I have
24 heard.

25 I have been a central Florida resident for

1 about ten years. I lived in Miami-Dade before
2 that. I have lived in Pine Hills area and my
3 neighbors have always been my neighbors.

4 I have Hispanics living right next to me.
5 I have a black couple lives two doors down. I
6 have got college kids that live across the
7 street from me. That is my community.

8 Apparently I am hearing that the
9 African-Americans in my community are not
10 really part of my community. The Hispanics
11 that come over and play dominoes with us, they
12 are not really part of my community.

13 You know, is this not the United States of
14 America, the melting pot? Now, we are pretty
15 much all here because, okay, yes, it has gotten
16 a little political, so fine, let's redraw
17 districts, we have to anyway.

18 We are going to get two more
19 Representative seats, which that is a good
20 thing. Let's have the Post Office do it. They
21 don't care about who is, you know, what
22 politician they are putting mail into. They
23 don't care about what color that person's, you
24 know, the residents of the house are.

25 So, you know, for those who want to make

1 this about identity politics, you should be
2 ashamed of yourselves.

3 I live in District 24. In 2008, we had a
4 Democrat in office. In 2010, we have a
5 Republican in office. It is the same people.
6 If you want to change who is elected in office,
7 guess what, you have to get up and you have to
8 do something, you have to knock on doors and
9 you have to make a difference. That is the way
10 it is done in America.

11 We can't make you guys do our work for us.
12 Thank you very much.

13 REPRESENTATIVE PRECOURT: Thank you,
14 Mr. Lee. Kelli McNair-Lee. Are you here?
15 Kelli. She will be followed by Kenneth Dwyer
16 and Fedorah Philppeaux.

17 MS. LEE: Hi. That is my husband. I am
18 very proud of him. I live in east Orange
19 County and I bought the house 16 years ago. My
20 neighbor, Alma, a Puerto Rican woman, I would
21 give her a kidney if she needed it.

22 She takes care of me after I have surgery.
23 She came to my wedding. Her Cuban boyfriend, I
24 would bleed for either one of them.

25 My black neighbors, the white guy across

1 the street and half the UCF population that the
2 party, parks and vomits in my yard, I don't
3 care if they have to stand there for four hours
4 waiting to vote. I am a little fed up with it,
5 quite frankly.

6 France Cabru wrote a book called Stolen
7 History. It gives more factual history of our
8 nation and how strong we have been in civil
9 rights and we need to honor that history, and I
10 look at you and I am very proud of the
11 different colors of faces and the women, that
12 just really, I was a women's studies major, I
13 am sorry, minor in college. I couldn't even
14 put it on my resume when I graduated in 1986,
15 because I couldn't get a job up in D. C. with
16 it.

17 So I want to encourage you to end
18 segregation once and for all. Stop the
19 identity politics. We are Americans. Make it
20 about being an American and not a separate
21 American.

22 Let us work on issues. Senator Siplin, I
23 actually want to thank you for that baggy pants
24 thing, because I am a public school teacher,
25 honey, and let me tell you, I am tired of

1 seeing their underwear, okay. Thank you.

2 REPRESENTATIVE PRECOURT: All right, let's
3 focus on redistricting here.

4 MS. LEE: It is on redistricting.
5 Representative Republicans is what we are. So
6 it is like the squirrel thing out of one of
7 those movies recently, squirrel.

8 All right, redistricting. I don't want it
9 to be a racial thing. I want it to be a
10 contiguous area thing. I want it to represent
11 my neighborhood in east Orange County, my area.

12 You can take the students out as far as I
13 am concerned, but my area. That is what I
14 want it to be. I don't want to be voting
15 against my neighbors just because we are
16 different colors. We are Americans. Let's
17 remember that, please. Thank you.

18 REPRESENTATIVE PRECOURT: Thank you.
19 Great testimony. Kenneth Dwyer, Mr. Dwyer. Is
20 Kenneth Dwyer here? Fedorah Philppeaux. She
21 is, Fedorah, okay, great, you are next and then
22 let me call out a couple more names, Susanne
23 Carrion, Kevin Gustafson, William Breazeale,
24 Clinton Salter and Reginald McGill, if you can
25 come forward. Fedorah.

1 MS. PHILIPPEAUX: Thank you. Good
2 evening, my name is Fedorah Philppeaux and I am
3 currently a student at the University of
4 Central Florida.

5 I simply want to discuss my views on this
6 issue which have been important to me from the
7 minute I stepped on to campus as a freshman in
8 2008.

9 The rally and cry behind Fair Districts
10 was that we wanted our voices to be heard and
11 we wanted to be represented by Legislators who
12 actually lived somewhere near us instead of
13 over a bridge or across a lake or across 15
14 counties or on the other side of the swamp.

15 We wanted transparency and we wanted
16 actual representation rather than listening to
17 more lies about how we would be represented
18 fairly or more lies about why we aren't being
19 shown maps, but overall the point was to have a
20 greater voice in the voter inclusion, not voter
21 suppression.

22 So I am here to ask you today to keep that
23 into account as you redraw your districts. I
24 am in District 24 and as I am at UCF, we have
25 been separated into two State House Districts,

1 33 and 35.

2 But again, splitting up the youth vote and
3 splitting up the University vote would not be
4 the way to follow the voter inclusion.

5 So I ask I tonight that if you truly care
6 about anything that is being said, then I ask
7 you to demonstrate the fairness as the title of
8 the Amendments called for and to heed the
9 requests of the 63 percent of your constituents
10 who have voted for compact maps.

11 And ideally, if you would, please get
12 these maps done on time so that we can have
13 some candidates out there who will actually
14 represent us rather than figuratively
15 representing us.

16 I ask you tonight to bear in mind that we
17 want voter expression, not voter suppression.
18 Thank you.

19 REPRESENTATIVE PRECOURT: Thank you.
20 Susanne Carrion, Susan or Susanne Carrion.
21 Okay, Kevin Gustafson, William Breazeale? No?
22 Clinton Salter? I think he spoke, yes.
23 Reginald McGill, and Elizabeth Buckley will
24 follow that and Barbara Young. Mr. McGill.

25 MR. MCGILL: Mr. Chairman, and members of

1 the Committee. I am Reginald B. McGill, a
2 product of Orange County for over half of a
3 century. I am concerned, committed contributor
4 of this community, and this is, in order for me
5 to tell my story I have to tell my struggle and
6 I understand I only have two minutes.

7 The point that I want to raise is, this is
8 the third time that I have been through this
9 process. In 1990, with the census, I Chaired
10 one of our subcommittees. In 2000, I actually
11 was the Chair of our Orange County Orlando
12 Complete Count Committee, and then just last
13 year I was, I Chaired two of our committees.

14 I say all of that to say that I have been
15 active, actively involved in this community. I
16 want to raise two things I just now heard.

17 The one thing that I do understand that
18 you are mandated to do that you must divide 27
19 districts in the state of Florida. In order to
20 do that when we look at the panhandle, you will
21 have to, because by doing this, the numbers in
22 the districts have to be about the same, around
23 600,000 people.

24 The only way that you are going to do that
25 in the panhandle, you will have to pull

1 several, several counties together to come up
2 with those numbers.

3 I hear so much conversation about District
4 3, but I would venture to say that most of the
5 people who have voiced concerns about District
6 3 don't live in District 3 like I do.

7 So when I see the district up in the
8 panhandle that goes from Panama City all of the
9 way to Lake City, and then I see another
10 district that goes from West Palm Beach all the
11 way down to Key West, there has not been a
12 whole lot of conversation about those
13 districts. It is about service and
14 representation.

15 For several years I was privileged to
16 serve as the Human Relations individual, I had
17 over-site for the Human Relations operation.
18 So there is no way that I can say that I want
19 African-American districts without also wanting
20 Hispanic districts, because the numbers in this
21 region demands that if we are going to be fair.

22 And so as I get ready to take my seat I
23 would ask that you not take steps back. I have
24 been fortunate to live in this community where
25 I had -- where I, my delegation, the

1 Congressional Delegation had no
2 African-Americans and no Hispanics.

3 I have been fortunate to live in a time
4 where we have four African-Americans and three
5 Hispanics. And as I take my seat, I live in a
6 county where we have an African-American
7 Sheriff, not because he is black, but because
8 he is qualified, but unfortunately he is the
9 very first that we have ever had county-wide in
10 this county.

11 So I say we have extreme talent throughout
12 this country and when I look at the diversity
13 of even this committee I recognize that many of
14 you sit here because of minority districts and
15 I applaud that.

16 As I take my seat, the last thing I really
17 want to say to you is, I live about 10 minutes,
18 really about 15 minutes from where I grew up,
19 but on about another 15 minutes on the other
20 side, there are homes that are 1.5 to five
21 million dollars.

22 Other than good human beings, that is
23 about all that we really have in common, and so
24 when we talk about communities of interest,
25 let's be honest. It is not about who is next

1 to you. It is about the issues that you are
2 concerned about that make what our community
3 is.

4 And so I understand that you have a
5 tremendous mandate, but I would ask you as we
6 move forward and progress not let us -- and we
7 stand on the shoulders of those who have
8 sacrificed to get us to this point, let us
9 think about our children and our children's
10 children so that we will be reflective,
11 realizing that Orlando has been voted the
12 number, the vacation capital of this whole
13 world, which means that people from all over
14 this world come to Orlando.

15 We want to make sure that we have a
16 representation on all levels from Congressional
17 to our city that reflects our community.

18 REPRESENTATIVE PRECOURT: Thank you,
19 Mr. McGill. Appreciate it. Okay, next we have
20 Elizabeth Buckley, and is Elizabeth here?
21 Barbara Young? Is Barbara here? Jackie Colon?
22 Jackie Colon? Jim Callahan? Mr. Callahan, are
23 you here? Okay.

24 While he is working down here, Charlie
25 Williams, Mary Yasgur, Doug Guetsloe, David

1 Rucker, Bobby Beagles, and the other thing,
2 folks, I want everyone to keep in mind, we have
3 got about 20 minutes or so of testimony time
4 left.

5 We have probably got about 45 cards or so,
6 so if somebody has already said it, please be
7 very brief and concise. Mr. Callahan, go
8 ahead.

9 MR. CALLAHAN: Yes, thank you,
10 Mr. Chairman. I live in downtown Orlando a few
11 blocks from here. Before that I lived in
12 Maitland, and at that time --

13 REPRESENTATIVE PRECOURT: Go ahead.

14 MR. CALLAHAN: At that time that was a
15 piece of Congressional District 3, and I was
16 very ably represented by Congresswoman Corrine
17 Brown and her staff, Anita Saunders and Reggie
18 McGill and Chester Glover.

19 In terms of the House -- we have a
20 different situation with respect to the House,
21 the Florida House districts, the smaller
22 districts and the larger districts, because of
23 the way the numbers fall out in Orange County.

24 The Congressional District is just under
25 700,000 people. We have about 1.2 million

1 people here in Orange County, so you won't be
2 able to fit two Congressional Districts in
3 there, but there is enough room for one.

4 The city of Orlando's population is just
5 under 240,000. So if the Amendment is binding
6 and that is a political district we have to
7 obey, that could cause some problems with the
8 larger districts, the Congressional District
9 and the Senate District.

10 There could be a conflict between do we
11 obey those boundaries, those political
12 boundaries as suggested by the Amendments or do
13 we obey the Voting Rights Act where the
14 demographic groups are.

15 There is always competing interests in
16 redistricting. I have been involved in the
17 process two previous cycles. I helped do the
18 Public Records Act to get the FRED software
19 released.

20 I want to second the comments made by my
21 friend, Doug Head this afternoon. There is the
22 possibility of two African-American districts
23 and two Hispanic districts, House Districts,
24 State House Districts here in Orange County.

25 The African-American districts, one would

1 be in, centered in the city of Orlando and the
2 other would be in the unincorporated area of
3 Pine Hills, possibly taking in Eatonville.

4 And on the east side there is a
5 possibility of two Hispanics districts. If you
6 look at the census designated places, there is
7 a large census designated place in the northern
8 part of the county. I believe it is Azalea
9 Park and there is a large Hispanic census
10 designated place, neither of these are
11 Incorporated, Meadow Woods and each of those
12 could be a component of a House District.

13 REPRESENTATIVE PRECOURT: Can I ask you to
14 go ahead and make your final points, because I
15 have got a lot of people to go to and if
16 somebody has already said it, it is on the
17 record.

18 MR. CALLAHAN: Well, I wanted it to be a
19 bit more specific then.

20 REPRESENTATIVE PRECOURT: Please get with
21 our staff to submit very detailed stuff and it
22 will be on the record and we will consider it.

23 MR. CALLAHAN: Okay, thank you very much.

24 REPRESENTATIVE PRECOURT: Thank you, sir.

25 Next, Charlie Williams. And again, several

1 Representatives have asked me to bring other
2 people up. I have got to take them in the
3 order that they have come in.

4 So the more concise you can be the more
5 people can speak. Charlie.

6 MR. WILLIAMS: Thank you, Chairman
7 Precourt, good to see you. My name is Charlie
8 Williams. I am a Florida native and a resident
9 of Winter Park here in Orange County. My
10 Representative in the Florida House is Speaker
11 Cannon, although I don't see him on the dais or
12 in the audience, I am sure he may be watching
13 via the Florida Channel tonight and I have some
14 concerns I would like to express with the
15 Speaker and members of the House.

16 Like many of you today, I have been
17 watching the 13 days of hearings conducted by
18 our Redistricting Chairs and Co-Chairs. To
19 quote FSU Professor Lance deHaven-Smith,
20 Amendments 5 and 6 are the most significant
21 reforms in Florida since the 1968 revisions to
22 the Florida Constitution.

23 As I have watched these hearings I have
24 one question that has been asked many times, in
25 which I don't think we have been answered

1 truthfully. Why is the legislature continuing
2 to spend taxpayer dollars to oppose the will of
3 the people as expressed when 63 percent have
4 voted for fair districts standards?

5 And Senator Gaetz, I have been watching
6 you wrap up during each panel discussion and I
7 have been paying attention, but what I have
8 been hearing in the House participation with
9 the lawsuit filed by Diaz Balart and Brown
10 against Amendment 6 which is congressional
11 reapportionment is that it was orchestrated by
12 the House to clarify Amendment 6 and not to
13 challenge its constitutionality.

14 From reading the Court filings which I
15 have brought today, this is simply not true.
16 To the Florida Senate's credit, it declined to
17 join the Balart/Brown lawsuit and it has no
18 intention to do so according to President
19 Haridopolos.

20 President Haridopolos said the voters
21 spoke, we want to respect the voters, end of
22 quote. This is how it should be. Thank you to
23 the Senate members that are here today for
24 following his lead.

25 I have with me three of the Court

1 documents that have been filed by the House of
2 Representatives, using attorneys from Orlando
3 law firm, Gray, Harris, Gray Robinson,
4 Attorneys George Meros and Alan Windsor.

5 I have looked at the document that
6 contained the House complaint and the
7 intervention. The House's motion to intervene
8 and the Motion for Summary Judgment filed by
9 all Plaintiffs, including the House.

10 Let me just read and underscore a few
11 points from the complaint to intervene.

12 Whereas the Florida House of
13 Representatives respectfully request the Court
14 to --

15 REPRESENTATIVE PRECOURT: Charlie, if that
16 is actually in the record, it would be much
17 easier if we would just submit it to staff.

18 MR. WILLIAMS: I will continue, but wrap
19 up.

20 REPRESENTATIVE PRECOURT: But again, we
21 have a whole bunch of folks that I need to get
22 to.

23 MR. WILLIAMS: For the Senator because I
24 know this is a part of his wrap up. The other
25 language in the House Motion to Intervene, the

1 House has a considerable interest in
2 establishing the unconstitutionality of the
3 Amendment.

4 To cut to the chase, there is never a
5 mention of clarification. It is about the
6 unconstitutionality of Amendment 6. So here is
7 the question.

8 There is nothing for the courts to
9 clarify. Speaker Cannon, you are my
10 Representative, I ask you to stop wasting
11 taxpayer dollars on this pursuit.

12 And I thank Senator Storms, Margolis,
13 Siplin, Gardner and others who are here for not
14 entertaining this pursuit. The fact is, and it
15 has been in the media, you all read about it.

16 We spent in the House close to a million
17 dollars engaging the services of firms like
18 Gray Robinson, Latham & Watkins and Miguel
19 DeGrande to fight redistricting and challenge
20 Amendment 6.

21 This is not leadership on the part of this
22 Legislature. This is fiscal irresponsibility
23 and misplaced stewardship of the taxpayers of
24 Florida.

25 REPRESENTATIVE PRECOURT: Thank you,

1 Charlie. We are now going to have to move on
2 to the next speakers now.

3 MR. WILLIAMS: When I saw the voters
4 accept Amendments 5 and 6 I thought we were all
5 in. So my message tonight to the Speaker, my
6 Representative and members of the House, this
7 is not acceptable. This must stop. Let's move
8 forward.

9 REPRESENTATIVE PRECOURT: Thank you,
10 Charlie. Next we have Mary Yasgur. Is Mary
11 here? Doug Guetsloe, is Mr. Guetsloe still
12 here? Yes, he is, and while he works down he
13 will be followed by David Rucker, Bobby
14 Beagles, Elmo Dunn, Zulayka Costillo and Victor
15 Sanchez. Mr. Guetsloe.

16 MR. GUETSLOE: Mr. Chairman, Legislators,
17 I am Doug Guetsloe, I am Chairman of a group
18 called Acts Attacks, many of you are familiar
19 with it.

20 We have been fighting taxpayer issues
21 since 1982, so I come to you not only as a
22 leader of anti tax organization that has had 17
23 successful victories helping to save taxpayers
24 47.5 billion dollars, but also as a citizen,
25 and I want to thank all of you for being here

1 today, because free speech has been under
2 attack in this community lately, even as late
3 as yesterday when a man was sent to jail for
4 passing out campaign leaflets, but that is
5 another issue.

6 The fact that you all are here, I was also
7 struck by the fact you are in a theatrical
8 area. And most of the theaters really come
9 from behind me, among the people, and quite
10 frankly, I think that is refreshing to see the
11 expression that we have had of the different
12 view points and things of that nature and I
13 want to commend all of you for being as patient
14 as you have, because I know what it is like to
15 be, you know, be vilified and attacked on a
16 different, a different level.

17 But the one thing that has also struck me
18 about the redistricting process is that the
19 only way for there not to be fair districts in
20 the state of Florida is for the folks behind me
21 and their neighbors to not become activists and
22 to not become involved.

23 If they will not become a statistic or an
24 R or a D or a number, then there will be fair
25 districts throughout the state of Florida,

1 because it is up to the people to make those
2 kind of decisions, and quite frankly, some of
3 the attacks on you all I will
4 uncharacteristically defend all of you
5 collectively and I know for some of you that
6 will be unusual, but you all are the people.

7 You represent the people of the state of
8 Florida. You all were elected to represent the
9 people, and that is one thing that some of the
10 discussion of the percentages here in
11 63 percent and you are not representing the
12 people, you are the people, and I commend you
13 all for coming.

14 But getting right to the point, the other
15 800-pound gorilla in the room which no one
16 really wants to address is partisanship. When
17 I got, when the first campaign I ever ran was
18 in 1972, for a guy named Curt Keiser and some
19 of you Legislators probably know Curt as a
20 lobbyist now.

21 I ran his campaign and we were in Young
22 Republicans together and he won, he beat an
23 incumbent, got elected in 1972. He went to
24 Tallahassee and to hear some of the Democrats
25 talk about it, it was somewhat humorous.

1 His office was a broom closet, literally a
2 broom closet in the Old Capitol, and none of
3 you I don't think were around. I know some of
4 the guys that worked in the Sergeant's Office
5 are still there, but I came up there to
6 Tallahassee, worked in the Senate in 1975, and,
7 oh, Senator Margolis, of course, was there.
8 Yes, you are back.

9 REPRESENTATIVE PRECOURT: Doug, get to the
10 point on redistricting.

11 MR. GUETSLOE: The bottom line, yes, we
12 will get to the point, is that partisanship is
13 part of the process. So I have created, I
14 spent a great deal of time creating a map for
15 you.

16 I have taken every street and every person
17 and this is what I recommend you do to save
18 everyone a lot of trouble, is we have got good
19 representation in Congressman Webster, Mica,
20 Adams, Posey, and you take their districts and
21 create a nice big district right in the middle
22 and regardless of race, creed, color or
23 national origin, put every Democrat you can
24 find in that district. This is, this is our
25 new -- this is my district map.

1 REPRESENTATIVE PRECOURT: Okay.

2 MR. GUETSLOE: I knew they would love it.
3 But this is my official map. We are going to
4 submit that. But anyway, I think you all are
5 doing a great job and I appreciate you all
6 being here.

7 REPRESENTATIVE PRECOURT: Thank you, Doug.
8 David Rucker is up next. Mr. Rucker, are you
9 here? I am going to start moving fast, so if
10 you are here, yell. Bobby Beagles, are you
11 here? All right, Bobby is here, and Elmo Dunn,
12 Zulayka Costillo, Victor Sanchez, Nadia
13 Douglas, come on down. Mr. Beagles.

14 MR. BEAGLES: Thank you, Steve. You know,
15 it is a pleasure to stand here tonight and see
16 so many friendly faces. I am a resident of
17 Orange County since 1942, which will soon be 70
18 years.

19 I can tell you that we have the best
20 elected officials in central Florida that we
21 have ever had. I can pick up the phone and
22 call my Representative who is in Brevard County
23 on the Senate side, or I can pick up the phone
24 and call Andy Gardner, or I can pick up the
25 phone and call Gary Siplin.

1 The same way with the House. I can get
2 the information I want when I want it and we
3 appreciate that, but being in the agricultural
4 community and being in the agriculture since
5 1956, my family started a cow/calf operation in
6 east Orange County.

7 Today we have a fight every way we look
8 trying to stay in business. We have good
9 representation. We have good elected
10 officials, and my good Representative,
11 Mr. Steve Precourt, excuse me, Jason Brodeur,
12 who took over Sandy Adams's seat, then we sent
13 Sandy to Washington along with Dan Webster.

14 I had an opportunity to visit both of
15 them. My heart goes out to them. My heart
16 goes out to ya'll for having to listen to what
17 you have to listen to.

18 It is a shame that you have to put up with
19 what you have to put up with. For the amount
20 of pay that you get, it is a shame that the
21 voters in the state of Florida treat you the
22 way they treat you.

23 It isn't very fair, and let me say, I have
24 come to the solution if ya'll would pass a Bill
25 in Tallahassee that we would not develop no

1 more wetlands and put houses in it, we could
2 stop some of this.

3 REPRESENTATIVE PRECOURT: Redistricting,
4 focus on redistricting.

5 MR. BEAGLES: But our district has been
6 cut out to help the agricultural and
7 representative, the agricultural. We are the
8 number two commodity in this state. For years
9 we was number one.

10 After 911 we bounced back to number one in
11 the state. Please, look at these districts,
12 keep us together because the only way we are
13 going to be strong is to have good
14 Representative in Tallahassee and good
15 Representative in Washington, and I urge you to
16 get this done as soon as possible.

17 REPRESENTATIVE PRECOURT: Thank you.

18 MR. BEAGLES: Because where we can hit the
19 campaign trail and see that we get the people
20 we need in those positions. Thank you.

21 REPRESENTATIVE PRECOURT: Thank you,
22 Mr. Beagles. Elmo Dunn. Is Mr. Dunn here?
23 Okay, we are within the last couple of people
24 that we are going to have time to speak. So
25 please come down quickly. Mr. Dunn.
