The agency shall also apply a one percent adjustment for real case mix change. By February 28, 2017, the agency shall perform a reconciliation and apply positive or negative adjustments to the reimbursements comparing actual to predicted case mix in aggregate. Actual case mix will be measured using admissions between April 1, 2015, and March 31, 2016, from both the fee-for-service and managed care programs. Actual case mix in state fiscal year 2016-2017 will be assumed to be higher than measured case mix by between zero and three percent based on case mix trending. Effective March 1, 2017, adjustments will be performed prospectively to the fee-for-service DRG payment parameters and will be applied for the remainder of the fiscal year. Adjustments applied must maintain budget neutrality for the fiscal year. No recalculation of managed care capitation payments will be made based upon these adjustments.</p>

Model includes the follow assumptions:
Updated for SFY 2016-17 FMAP

LIP Program redesigned to meet new federal CMS standards				
New program pays hospitals based on their charity care cost only				
Hospitals are ranked from high to low based on their percentage of charity care cost to commercial charges				
Hospitals are then divided into four tiers based on the level of charity care cost to commercial charges and all hospitals are paid a prescribed percentage of their charity care cost				
Tier 1 - charity care to commercial charges greater than 6.20%				
Tier 2 - charity care to commercial charges less than 6.20% and greater than 5.40%				
Tier 3 - charity care to commercial charges equal to or less than 5.40% but greater than 3.70%				
Tier 4 - charity care to commercial charges equal to or less than 3.70%				
Tier Payments				
Tier 1 - paid 100% of charity care cost				
Tier 2 - paid 67% of charity care cost				
Tier 3 - paid 14% of charity care cost				
Tier 4 - paid 1.87% of charity care cost				
The DSH funding includes general revenue free standing children's hospitals of \$6.5M.				
The DSH programs for public, teaching, PSN and children's were combined into one DSH fund for SFY 2016-17				
No changes were made to the rural DSH program for SFY 2016-17				
Funding was redistributed in SFY 2016-17 in an attempt to mitigate hospital losses due to the reduction in the LIP program

Low Income Pool Parameters

Funds in the Low Income Pool (LIP) will be distributed to qualifying hospitals based on their charity care cost multiplied by the percentage established for the tier in which the hospital qualifies, as described below.

Hospitals qualify for LIP funding if they are a Medicaid provider and have a minimum of a one-percent inpatient Medicaid utilization rate.

The LIP is divided into four tiers, and the hospitals qualifying for each tier shall be paid the following percentage of their charity care cost:

Tiers and Percentage of Payment

- Tier 1 – Hospitals will be paid up to 100% of their charity care cost.
- Tier 2 – Hospitals will be paid up to 67.0% of their charity care cost.
- Tier 3 – Hospitals will be paid up to 14.0% of their charity care cost.
- Tier 4 – Hospitals will be paid up to 1.87% of their charity care cost.

Hospitals will be arrayed from high to low based on their percentage of charity care cost divided by gross total commercial charges and then assigned to a specific tier based on the following criteria.

- Tier 1 – Hospitals whose percentage of charity care cost to gross total commercial charges equals or is greater than 6.20%
- Tier 2 – Hospitals whose percentage of charity care cost to gross total commercial charges is less than 6.20% but greater than 5.40%
- Tier 3 – Hospitals whose percentage of charity care cost to gross total commercial charges is equal to or less than 5.40% but greater than 3.70%
- Tier 4 – Hospital whose percentage of charity care cost to gross total commercial charges is equal to or less than 3.70%

The LIP payments are contingent on the state share being provided through grants and donations from state, county, or other local governmental funds. In the event that the local funds provided as state share are insufficient to fully fund the LIP, payments will be distributed in order of priority with Tier 1 being the highest priority. Local funds will first be applied to Tier 1 payments up to 100% of their charity care cost (subject to availability of intergovernmental transfers). After Tier 1 is fully funded, any additional local funds will be applied to Tier 2 payments up to 67% of their charity care cost (subject to availability of intergovernmental transfers). After Tiers 1 and 2 are fully funded, any additional local funds will be applied to Tier 3 payments up to 14% of their charity care cost (subject to availability of intergovernmental transfers). Any remaining local funds will be applied to funding Tier 4

Medicaid Hospital Funding Programs Fiscal Year 2016-2017

payments up to 1.87% of their charity care cost (subject to availability of intergovernmental transfers). The state is not obligated to provide any other state funds to account for uncollected intergovernmental transfers.

Data used to determine the charity care cost and gross commercial charges and any other required data, will be based on averaging the 2013 and 2014 Florida Hospital Uniform Reporting System (FHURS) reports accepted by the Agency for Health Care Administration. However, in the event that a hospital's FHURS data are unavailable for one of those two years, the single year of available data will be used, without averaging.

Definitions

- A hospital's charity care cost equals total inpatient and outpatient charity care charges from the FHURS reports multiplied times the hospital's cost to charge ratio.
- A hospital's cost to charge ratio (CCR) equals the sum of total patient care services and total operating expenses divided by total gross inpatient and outpatient service revenues.
- The ratio to qualify hospitals for a tier is based on the hospital's percentage of charity care cost divided by the hospital's gross commercial charges.
- A hospital's gross commercial charges equals the total of the following inpatient and outpatient charges:
 - Health Insurance Charge-based
 - Commercial – HMO
 - Commercial – PPO
 - Other Charged-based Payers
 - Other Commercial Discount Payers

<p>Providers in the exemption category are those who qualified under the former exemption program parameters for ceiling and target-limitations for hospital reimbursement. Qualifying providers are allowed to receive a specific percentage of the exemption based on the provider's classification or as listed in Table 1.</p> <p>Hospitals qualifying based on utilization are determined using the average of the 2007, 2008, and 2009 audited Disproportionate Share Hospital (DSH) data available as of March 1, 2015. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for the three most recent years available. Designated trauma hospitals qualify when Medicaid days as a percentage of total hospital days are greater than 7.3 percent. Hospitals whose charity care and Medicaid days, as a percent of total adjusted hospital days, equaling or exceeding 11 percent are included in the Medicaid and Charity Utilization classification.</p> <p>Specific legislative qualifying hospitals include those meeting one or more of the following definitions:</p> <ul style="list-style-type: none"> • Level III Neonatal Intensive Care Units that have a minimum of three of the following designated tertiary services as regulated under the Certificate of Need Program: pediatric bone marrow transplantation, pediatric open heart surgery, pediatric cardiac catheterization, and pediatric heart transplantation. • Hospitals that have a minimum of ten licensed Level II Neonatal Intensive Care Beds and are located in Trauma Services Area 2. • Public hospitals that are not part of a public hospital system with multiple hospitals or hospitals specifically listed in Table 1. 			

**Medicaid Hospital Funding Programs
Fiscal Year 2016-2017**

- Hospitals with pediatric facilities are designated \$19,866,022 of the total exemption funds. This amount is included with the inpatient exemption costs in Table 1.

The calculation for inpatient and outpatient exemptions, for qualified hospitals, is as follows:

1. Qualified hospitals will be classified under percentages above, items (a) through (i) or as listed in Table 1.
2. The trauma add-on percent, item (j), will be applied to all hospitals that are qualified in the former exemption program parameters and that are also designated trauma centers.
3. The pediatric add-on is applied to the inpatient exemption for the hospitals listed in Table 1.

The hospitals qualifying for exemptions or a rate add-on are provided in Table 1. The exemptions list is all-inclusive; no additional providers may qualify for exemptions or an add-on during State Fiscal Year 2016-17.

DRG Add-on and Medicaid Trend Adjustment Buy-back

	<u>Inpatient</u>	<u>Outpatient</u>	<u>Total</u>
Provider Service Network (PSN)	\$19,115,450	\$4,171,234	\$23,286,684
Specialty Children's	\$19,548,786	\$5,641,392	\$25,190,178

Total Buy-back	\$104,174,781	\$26,371,673	\$130,546,454

The "Buy-back" mechanism allows for the partial or full restoration of the rate reductions applied to hospitals in previous years. The rate reductions were reflected as a Medicaid trend adjustment (MTA) on each hospital's rate sheet developed by the Agency for Health Care Administration as part of the cost-based hospital rate-setting methodology.

PSN hospitals include those who were part of a system that operated a provider service network. Specialty Children's hospitals include those licensed as a children's specialty hospital licensed as of January 1, 2013. Hospitals qualifying for the designated trauma buy-back must be designated as trauma hospitals on or before February 1, 2013. Statutory Teaching hospitals include those defined in s. 408.07(45), Florida Statutes.

The qualifying hospitals for the MTA buy-back through the LIP program are provided in Table 2. The MTA buy-back provider list for PSN and Trauma/Teaching is all inclusive; no additional providers may qualify for the MTA buy-back through the LIP program during State Fiscal Year 2016-2017. For the PSN, Trauma/Teaching MTA buy-back, those funds shall be distributed as specified in Table 2.

Liver	
Liver Transplant Global Fee	\$9,932,000
<p>Funds are provided to make Medicaid payments for multi-visceral transplant and intestine transplants in Florida. The Agency for Health Care Administration shall establish a reasonable global fee for these transplant procedures and the payments shall be used to pay approved multi-visceral transplant and intestine transplant facilities a global fee for providing transplant services to Medicaid beneficiaries. Payment of the global fee is contingent upon the nonfederal share being provided through grants and donations from state, county, or other governmental funds. The agency is authorized to seek any federal waiver or state plan amendment necessary to implement this provision</p> <p>The total amount of allowable funds is provided in Table 3, in the column entitled "Exemptions & Liver Global Fee."</p>	

Rural Disproportionate Share / Rural Hospital Financial Assistance	
Rural DSH / Rural Financial Assistance Program (RFAP)	\$10,260,193
<p>Funds are provided for a federally matched Rural Hospital Disproportionate Share program and a state funded Rural Hospital Financial Assistance program as provided in s. 409.9116, Florida Statutes.</p> <p>The distributions are incorporated in Table 1b. The individual amounts for Rural hospitals may be modified depending on updated Florida Hospital Uniform Reform System (FHURS) data. The calculations for Rural DSH may be found in s. 409.9116, Florida Statutes.</p>	

Disproportionate Share Hospital (DSH)	
Total DSH Distributions	\$237,285,095
<p>The DSH program for 2016-17 includes \$4,609,608 general revenue for All Children's Hospital and \$1,935,743 general revenue for Nicklaus Children's Hospital for the purpose of drawing federal DSH matching funds.</p> <p>Federal Minimum DSH Payments</p> <p>Included in the DSH funding is \$750,000 to be paid to those hospitals that meet the federal minimum requirements under the federal DSH statute. These funds shall be distributed to the qualifying hospitals based on each hospital's percentage of Medicaid and charity care days to the total Medicaid and charity care days for those hospitals meeting the federal minimum requirements. The Agency for Health Care Administration may use average of the 2007, 2008, and 2009 audited disproportionate share data to determine each hospital's Medicaid days and charity care.</p>
