From the funds in Specific Appropriation 210, the calculations of the Medicaid Hospital Funding Programs for the 2013-2014 fiscal year are incorporated by reference in Senate Bill 1502. The calculations are the basis for the appropriations made in the General Appropriations Act.

From the funds in Specific Appropriation 210, the agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

From the funds in Specific Appropriation 210, in the event that the amount of approved nonfederal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient nonfederal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local nonfederal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received.

From the funds in Specific Appropriation 210, the agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis subject to the availability of state, local and federal funds.

Funds provided in Specific Appropriation 210, are contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. In the event the nonfederal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income

## CORRECTIONS, DEPARTMENT OF

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS  
SPECIFIC  
APPROPRIATION

From the funds in Specific Appropriations 602 through 736, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2014.

From the funds in Specific Appropriations 602 through 736, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget and the chairs of the Senate Appropriations Committee and the House Appropriations Committee for review.

Funds in Specific Appropriation 602 through 736 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2013, and for which it has been determined by the Secretary of the department that there is no longer a need.

From the funds in Specific Appropriations 644K , 644X and 644AK, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as State Government property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Corrections for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

Funds and positions in Specific Appropriations 602 through 678 and 701 through 736 support the state's inmate population. These funds and positions are sufficient to provide housing and security for 100,359 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 100,028 inmates.

Funds and positions in Specific Appropriations 602 through 678 and 701 through 736 are provided to address security needs for the prison population expected in Fiscal Year 2013-2014, as projected by the Criminal Justice Estimating Conference.

From the funds in Specific Appropriations 602 through 678 and 701 through 736, the Department of Corrections shall open the 432-bed Gadsden Re-Entry Center as a substance abuse treatment and vocational training center serving inmates within three years of release from prison. The Department of Corrections will issue a competitive solicitation for program services for inmates at the Gadsden Re-Entry Center. The program will be performance-based to maximize the number of inmates receiving treatment. At least 70 percent of the inmate population shall be actively enrolled in treatment programs. In addition, an advisory group for the re-entry program will be established by the Department of Corrections to provide accountability through oversight in program planning, design and evaluation to ensure that the re-entry program provides the optimal performance.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1128 through 1152, the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriation 1128 through 1152, in order to maximize the number of filled beds and reduce the number of vacant beds in their programs statewide, the Department of Juvenile Justice shall use economies of scale in each judicial circuit when procuring residential bed contracts. In addition, the department shall ensure that educational services are consolidated commensurate with the effort to maximize filled beds. In order to maximize cost savings, the consolidation must include educational services in neighboring counties or where department facilities are within 30 miles of each other. In making these determinations, the department shall consider the type of program and level of commitment. Finally, the department must report their program consolidation results to the Governor's Office of Policy and Budget and the chairs of the Senate Appropriations Committee and the House Appropriations Committee by January 1, 2014.

A review by a Department of Education/Department of Juvenile Justice interagency workgroup shall occur prior to the 2014 Legislative session to provide further guidance on how educational services in residential programs will be provided. Finally, the workgroup must report their recommendations and results to the Governor's Office of Policy and Budget and the chairs of the Senate Appropriations Committee and the House Appropriations Committee by January 1, 2014.

From the Funds in Specific Appropriation 1544, \$10,000,000 from the Florida Forever Trust Fund is provided for land acquisitions from the most recent list of the Board of Trustees of the Internal Improvement Trust Fund Florida Forever Priority List that protect Florida's military installations against encroachment. The Division of State Lands shall coordinate the prioritization of land acquisitions with the Department of Economic Opportunity for this purpose.

The remaining \$50,000,000 from the Florida Forever Trust Fund is provided from the proceeds of surplus lands identified by this assessment and determined to no longer be needed for conservation purposes by the Board of Trustees of the Internal Improvement Trust Fund. By September 1, 2013, the Division of State Lands within the Department of Environmental Protection, working in cooperation with managing agencies and stakeholders, shall conduct an assessment to identify any state-owned land no longer needed for conservation purposes for submission to the Board of Trustees of the Internal Improvement Trust Fund. The Division of State Lands, acting on behalf of the Board of Trustees of the Internal Improvement Trust Fund, shall proceed with the disposition of surplus state lands in order to provide up to \$50,000,000. These funds shall be distributed only to the Division of State Lands for land acquisitions with priority given to Florida's military installations against encroachment in order to achieve the state's economic development goals. All other land acquisitions shall be for conservation lands needed for springs protection or water resource protection, or for land acquisitions that are less-than-fee interest or for partnerships where the state's portion of the acquisition cost is no more than 50 percent. Prior to any land acquisitions for conservation lands using these funds, a report must be submitted to the Board of Trustees of the Internal Improvement Trust fund detailing the estimated costs to comply with the short-term and long-term management goals for the parcels.

SECTION 5 - NATURAL RESOURCES/ENVIRONMENT/GROWTH MANAGEMENT/TRANSPORTATION  
SPECIFIC  
APPROPRIATION

Funding Assistance Program (BMFAP) for the Fiscal Year 2013-2014 to be as follows:

Funds shall be provided for those congressionally-authorized beach nourishment projects eligible for significant federal cost-sharing, specifically those experiencing storm damages from Hurricane Sandy and Tropical Storm Debby that have been determined to be eligible for 100 percent federal rehabilitation assistance funding for sand losses. Those projects include only: North/South Reaches-Brevard County Shore Protection Project, Ft. Pierce Shore Protection Project, Martin County Shore Protection Project, Jupiter/Carlin Segment-Palm Beach County Shore Protection Project, Delray Beach Shore Protection Project, North Boca Raton Shore Protection Project, and Segment II-Broward County Shore Protection Project, Treasure Island Segment-Pinellas County Shore Protection Project, Gasparilla Island-Lee County Shore Protection Project, Captiva/Sanibel Island Beach Nourishment, and Anna Maria Island-Manatee County Shore Protection Project. Total project costs and federal/non-federal cost-shares have been determined by the U.S. Army Corps of Engineers as part of favorable Project Implementation Reports (PIR). State matching dollars shall be used only for construction of the full project construction profile, if needed, and monitoring for all the above named projects.

Funds shall also be provided for federally-authorized beach projects included in the department's BMFAP that maximize federal funds and address storm damages. These projects include only: Venice Beach Segment-Sarasota County Shore Protection Project, Ocean Ridge Segment-Palm Beach County Shore Protection Project, and Long Key Segment-Pinellas County Shore Protection Project.

The funding provided for those projects reflects the ranking of local government funding requests and the department's Fiscal Year 2013-2014 project priority list; however, it also takes into account recent storm damages and storm impacts on project designs and costs. To address future situations, the department shall make recommendations as to how current statutory ranking criteria should be modified to accommodate storm damage and other beach impacts, as well as current department processing procedures and timetables for local government funding requests, in annual project rankings. The department's recommendations shall be provided to the President of the Senate and the Speaker of the House of Representatives no later than January 1, 2014.

Funding for post-construction project monitoring shall not exceed 50 percent of the department's request. Priority shall be given to projects in the BMFAP and other highly ranked projects in the department's funding request for other than first-year needs.

Funds shall be provided for engineering costs for the Collier County Beach Nourishment Project as part of the BMFAP.

From the funds in Specific Appropriation 1626 and Section 54, \$1,992,800 is provided for the three highest ranked inlet management projects in the BMFAP. These include St. Lucie Inlet IMP Implementation, Lake Worth Inlet Bypassing, and Sebastian IMP Implementation. From any unobligated state share balance, the department may use up to \$300,000 for regional sand source management.

Funds shall also be provided for non-federal beach nourishment and dune restoration projects damaged by Hurricane Sandy, as an alternative to FEMA funding, with a 50 percent local cost share. These projects include only: Mid-Reach and South County beaches/dunes in Brevard County; Wabasso/Sector III and Sebastian dune repair in Indian River County; South St. Lucie Dune Restoration in St. Lucie County; Jupiter Island Beach Nourishment and Bathtub Beach restoration in Martin County; Singer Island dune project, and Coral Cove Dune Nourishment in Palm Beach County; and Deerfield Beach in Broward County.

From the funds in Specific Appropriation 1830, in order to quantify the true unmet demand for services to support those individuals who are transportation disadvantaged, \$200,000 in nonrecurring funds from the Transportation Disadvantaged Trust Fund is provided for the Florida Commission for the Transportation Disadvantaged to conduct a study to define the unmet and latent travel demand and mobility needs for the Florida disadvantaged population who because of physical or mental disability, income status, or age are unable to transport themselves or purchase transportation. The study shall compare current assessments and future forecasts of transportation disadvantaged mobility needs to existing service capacity at both the county and statewide level. The study shall also include the review of existing requirements for background screening of direct service transit providers to determine whether adequate screening exists, and shall determine the costs of additional screening requirements.

The Commission shall report the findings to the chair of the Senate Appropriations Subcommittee on Transportation, Tourism and Economic Development, and the chair of the House Transportation and Economic Development Appropriations Subcommittee, and shall include a methodology to incorporate the unmet need as a part of the funding allocation formula.

## ECONOMIC OPPORTUNITY, DEPARTMENT OF

From the funds in Specific Appropriations 2131 through 2233, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation.

Before any funds are released by the Department of Children and Families, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee must certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It is the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2131 through 2233, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

SECTION 6 - GENERAL GOVERNMENT  
SPECIFIC  
APPROPRIATION

From the funds provided in Specific Appropriations 2215 through 2233, the Department of Economic Opportunity must competitively procure and execute a contract for an independent third-party to verify that each business that receives an economic development incentive satisfies all of the requirements of the incentive agreement, including job creation numbers. These comprehensive performance audit functions must include reviewing: 100 percent of all incentive claims, including audit confirmations; procedures used to verify incentive eligibility; and the department's records for accuracy and completeness. The independent third-party contractor must perform all functions and conduct all of the activities necessary to verify compliance with the performance terms of economic development incentive contracts. If there is insufficient operating budget authority in Specific Appropriation 2224 to pay for the independent third-party contractor, the department may submit a budget amendment in accordance with chapter 216, Florida Statutes, to transfer funds provided in Specific Appropriation 2220, or any other operating appropriation category within this budget entity, to implement the comprehensive performance audits.

guideline schedules, which will be conducted by the Office of Economic and Demographic Research. From the funds provided for this purpose, the department shall reimburse the Office of Economic and Demographic Research for contractual costs incurred to propose a revised Florida child support guideline schedule. The proposed revised guideline schedule shall more accurately reflect the costs of raising children in Florida, to ensure that the parents who are ordered to pay support do not fall below the federal poverty level by paying child support, and be based on parent-child time-sharing arrangements. A final report is due to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2014. The Office of Economic and Demographic Research may contract with a state university or a nationally recognized organization for the purpose of collecting and analyzing the economic data necessary for the development of the new child support guidelines.

## PROGRAM: TRIAL COURTS

The Office of Program Policy Analysis and Government Accountability (OPPAGA) shall evaluate the effectiveness of Florida's post-adjudicatory drug courts. The review shall assess performance based on program output metrics (e.g., program completion), cost metrics (e.g., cost per successful completion), and outcome metrics (e.g., re-arrest and re-incarceration rates of program participants). The report shall also compare program performance across the 8 post-adjudicatory drug court programs and identify reasons that performance may vary across programs. The report shall include recommendations for improving the effectiveness of these programs. OPPAGA shall report its findings and recommendations to the Speaker of the House of Representatives and the President of the Senate by January 13, 2014.

## SECTION 8. SALARIES AND BENEFITS - FISCAL YEAR 2013-2014

## Statement of Purpose:

This section provides instructions for implementing the Fiscal Year 2013-2014 salary and benefit adjustments provided in this act. All allocations, distributions and uses of these funds are to be made in

SECTION 8 - SALARIES AND BENEFITS - FISCAL YEAR 2013-2014  
 SPECIFIC  
 APPROPRIATION  
 strict accordance with the provisions of this act.

References to "eligible" employees refer to employees who are, at a minimum, meeting their required performance standards, if applicable. If an ineligible employee achieves performance standards subsequent to the salary increase implementation date but on or before the end of the fiscal year, the employee may receive an increase; however, such increase shall be effective on the date the employee becomes eligible but not retroactively. In addition, any salary increase or bonus provided under this section shall be pro-rated based on the full-time equivalency of the employee's position. Employees classified as being other personnel services employees are not eligible for an increase or bonus.

#### Pay Grade and Pay Band Adjustments

It is the intent of the Legislature that the minimums for each pay grade and pay band shall not be adjusted during the 2013-2014 fiscal year and that the maximums for each pay grade and pay band shall be adjusted upward by 6.0 percent, effective July 1, 2013. In addition, the intent is for all eligible employees to receive the increases specified herein, even if they exceed the cap.

#### (1) EMPLOYEE AND OFFICER COMPENSATION

(a) For purposes of this subsection (1), "competitive pay adjustment" means:

1. For employees with a base rate of pay of \$40,000 or less on September 30, 2013, an annual increase of \$1,400.

2. For employees with a base rate of pay greater than \$40,000 on September 30, 2013, an annual increase of \$1,000; provided however, in no instance shall an employee's base rate of pay be increased to an annual amount less than \$41,400.

For the purpose of determining the applicable increase for part-time employees, the full-time equivalent value of the base rate of pay on September 30, 2013, shall be used; but the amount of the annual increase for a part-time employee shall be proportional to the full-time equivalency of the employee's position.

#### (b) CAREER SERVICE AND EMPLOYEES SUBJECT TO CAREER SERVICE

Funds are provided in Specific Appropriation 1950A for pay increases for all eligible employees represented by: (1) the Florida Police Benevolent Association, (2) the Teamsters Local Union No. 2011, (3) the Florida Nurses Association, (4) the American Federation of State County, and Municipal Employees, Council 79, and (5) the Florida State Fire Service Association, as well as all other eligible Career Service employees not included in a represented collective bargaining unit. Funds are to be distributed as follows:

Effective October 1, 2013, funds are provided to grant all eligible unit and non-unit Career Service employees a competitive pay adjustment.

#### (c) FLORIDA BOARD OF EDUCATION AND BOARD OF GOVERNORS

##### 1. Generally

Effective October 1, 2013, from the funds in Specific Appropriation 1950A, funds are provided to grant each eligible employee of the State University System whose position is funded by Education and General (E&G) Funds a competitive pay adjustment contingent upon all other eligible university employees receiving the competitive pay adjustment. No funds in Specific Appropriation 1950A have been provided for salary increases for personnel employed by developmental research schools associated with the universities.

##### 2. Graduate Assistants

Effective October 1, 2013, from the funds in Specific Appropriation 1950A, funds are provided to grant each eligible graduate assistant and graduate health profession assistant a competitive pay adjustment.

## DISCLOSURE

I have an ownership interest in Caregivers, Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the

disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers, Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **SB 1500** which comes before the Senate floor for a vote on May 3, 2013.

Therefore, I believe that, because Caregivers, Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

HOW TO FIND OR TRACE A BILL, RESOLUTION OR MEMORIAL

*When the bill, resolution or memorial number is unknown, use the:*

**SUBJECT INDEX OF SENATE AND HOUSE  
BILLS, RESOLUTIONS AND MEMORIALS.**

The subject matter of each bill is indexed and cross-indexed in an alphabetical arrangement, using topics of catchwords related closely to the subject matter. This is followed by the number of the bill, resolution or memorial.

*When the bill, resolution or memorial number is known, use the:*

**NUMERICAL INDICES OF SENATE AND HOUSE  
BILLS, RESOLUTIONS AND MEMORIALS.**

Each bill is listed in numerical order. Opposite each bill number is the subject, the name of introducer, the page numbers where the bill involved appears in the journal, and the final status of the bill.

**Tracing all Senate and House Actions**

It is possible to trace the progress of legislation from introduction to final disposition, step by step, as it is recorded on the various pages of the Senate Journal by looking at the pages referred to in the numerical index.

To follow the progress of Senate legislation passed by the Senate and sent to the House, use the indices contained in the House Journal to trace House action.
