Give the Senators cool heads and discerning spirits, and keep before them constantly the needs of the least of your children. In your holy name, we pray. Amen.

The program must verify telephonically visits for the delivery of home health services using voice biometrics. The agency may seek amendments to the Medicaid state plan and waivers of federal laws, as necessary, to implement or expand the pilot project. Notwithstanding s. 287.057(3)(e) ~~287.057(3)(f)~~, the agency must award the contract through the competitive solicitation process and may use the current contract to expand the home health agency monitoring pilot project to include additional counties as authorized under this section.

Section 19. Subsection (3) of section 427.0135, Florida Statutes, is amended to read:

427.0135 Purchasing agencies; duties and responsibilities.—Each purchasing agency, in carrying out the policies and procedures of the commission, shall:

(3) Not procure transportation disadvantaged services without initially negotiating with the commission, as provided in s. 287.057(3)(e)12. ~~287.057(3)(f)12~~, or unless otherwise authorized by statute. If the purchasing agency, after consultation with the commission, determines that it cannot reach mutually acceptable contract terms with the commission, the purchasing agency may contract for the same transportation services provided in a more cost-effective manner and of comparable or higher quality and standards. The Medicaid agency shall implement this subsection in a manner consistent with s. 409.908(18) and as otherwise limited or directed by the General Appropriations Act.

Section 20. Paragraph (c) of subsection (5) of section 445.024, Florida Statutes, is amended to read:

445.024 Work requirements.—

(5) USE OF CONTRACTS.—Regional workforce boards shall provide work activities, training, and other services, as appropriate, through contracts. In contracting for work activities, training, or services, the following applies:

(c) Notwithstanding the exemption from the competitive sealed bid requirements provided in s. 287.057(3)(e) ~~287.057(3)(f)~~ for certain contractual services, each contract awarded under this chapter must be awarded on the basis of a competitive sealed bid, except for a contract with a governmental entity as determined by the regional workforce board.

Section 21. Paragraph (c) of subsection (5) of section 627.311, Florida Statutes, is amended to read:

627.311 Joint underwriters and joint reinsurers; public records and public meetings exemptions.—

(5)

(c) The operation of the plan shall be governed by a plan of operation that is prepared at the direction of the board of governors and approved by order of the office. The plan is subject to continuous review by the office. The office may, by order, withdraw approval of all or part of a plan if the office determines that conditions have changed since approval was granted and that the purposes of the plan require changes in the plan. The plan of operation ~~must shall~~:

1. Authorize the board to engage in the activities necessary to implement this subsection, including, but not limited to, borrowing money.

2. Develop criteria for eligibility for coverage by the plan, including, but not limited to, documented rejection by at least two insurers which reasonably assures that insureds covered under the plan are unable to acquire coverage in the voluntary market.

3. Require notice from the agent to the insured at the time of the application for coverage that the application is for coverage with the plan and that coverage may be available through an insurer, group self-insurers' fund, commercial self-insurance fund, or assessable mutual insurer through another agent at a lower cost.

4. Establish programs to encourage insurers to provide coverage to applicants of the plan in the voluntary market and to insureds of the plan, including, but not limited to:

a. Establishing procedures for an insurer to use in notifying the plan of the insurer's desire to provide coverage to applicants to the plan or existing insureds of the plan and in describing the types of risks in which the insurer is interested. The description of the desired risks must be on a form developed by the plan.

b. Developing forms and procedures that provide an insurer with the information necessary to determine whether the insurer wants to write particular applicants to the plan or insureds of the plan.

c. Developing procedures for notice to the plan and the applicant to the plan or insured of the plan that an insurer will insure the applicant or the insured of the plan, and notice of the cost of the coverage offered; and developing procedures for the selection of an insuring entity by the applicant or insured of the plan.

d. Provide for a market-assistance plan to assist in the placement of employers. All applications for coverage in the plan received 45 days before the effective date for coverage shall be processed through the market-assistance plan. A market-assistance plan specifically designed to serve the needs of small, good policyholders as defined by the board must be reviewed and updated periodically.

5. Provide for policy and claims services to the insureds of the plan of the nature and quality provided for insureds in the voluntary market.

6. Provide for the review of applications for coverage with the plan for reasonableness and accuracy, using any available historic information regarding the insured.

7. Provide for procedures for auditing insureds of the plan which are based on reasonable business judgment and are designed to maximize the likelihood that the plan will collect the appropriate premiums.

8. Authorize the plan to terminate the coverage of and refuse future coverage for any insured that submits a fraudulent application to the plan or provides fraudulent or grossly erroneous records to the plan or to any service provider of the plan in conjunction with the activities of the plan.

9. Establish service standards for agents who submit business to the plan.

10. Establish criteria and procedures to prohibit any agent who does not adhere to the established service standards from placing business with the plan or receiving, directly or indirectly, any commissions for business placed with the plan.

11. Provide for the establishment of reasonable safety programs for all insureds in the plan. All insureds of the plan must participate in the safety program.

12. Authorize the plan to terminate the coverage of and refuse future coverage to any insured who fails to pay premiums or surcharges when due; who, at the time of application, is delinquent in payments of workers' compensation or employer's liability insurance premiums or surcharges owed to an insurer, group self-insurers' fund, commercial self-insurance fund, or assessable mutual insurer licensed to write such coverage in this state; or who refuses to substantially comply with any safety programs recommended by the plan.

13. Authorize the board of governors to provide the goods and services required by the plan through staff employed by the plan, through reasonably compensated service providers who contract with the plan to provide services as specified by the board of governors, or through a combination of employees and service providers.

a. Purchases that equal or exceed \$2,500 but are less than or equal to \$25,000, shall be made by receipt of written quotes, telephone quotes, or informal bids, ~~if whenever~~ practical. The procurement of goods or services valued over \$25,000 is subject to competitive solicitation, except in situations in which the goods or services are provided by a sole source or are deemed an emergency purchase, or the services are exempted from competitive-solicitation requirements under s. 287.057(3)(e) ~~287.057(3)(f)~~. Justification for the sole-sourcing or emergency procurement must be documented. Contracts for goods or services valued at or over \$100,000 are subject to board approval.

b. The board shall determine whether it is more cost-effective and in the best interests of the plan to use legal services provided by in-house attorneys employed by the plan rather than contracting with outside counsel. In making such determination, the board shall document its findings and shall consider the expertise needed; whether time commitments exceed in-house staff resources; whether local representation is needed; the travel, lodging, and other costs associated with in-house representation; and such other factors that the board determines are relevant.

14. Provide for service standards for service providers, methods of determining adherence to those service standards, incentives and disincentives for service, and procedures for terminating contracts for service providers that fail to adhere to service standards.

15. Provide procedures for selecting service providers and standards for qualification as a service provider that reasonably assure that any service provider selected will continue to operate as an ongoing concern and is capable of providing the specified services in the manner required.

16. Provide for reasonable accounting and data-reporting practices.

17. Provide for annual review of costs associated with the administration and servicing of the policies issued by the plan to determine alternatives by which costs can be reduced.

18. Authorize the acquisition of such excess insurance or reinsurance as is consistent with the purposes of the plan.

19. Provide for an annual report to the office on a date specified by the office and containing such information as the office reasonably requires.

20. Establish multiple rating plans for various classifications of risk which reflect risk of loss, hazard grade, actual losses, size of premium, and compliance with loss control. At least one of such plans must be a preferred-rating plan to accommodate small-premium policyholders with good experience as defined in sub-subparagraph 22.a.

21. Establish agent commission schedules.

22. For employers otherwise eligible for coverage under the plan, establish three tiers of employers meeting the criteria and subject to the rate limitations specified in this subparagraph.

a. Tier One.—

(I) Criteria; rated employers.—An employer that has an experience modification rating shall be included in Tier One if the employer meets all of the following:

(A) The experience modification is below 1.00.

(B) The employer had no lost-time claims subsequent to the applicable experience modification rating period.

(C) The total of the employer's medical-only claims subsequent to the applicable experience modification rating period did not exceed 20 percent of premium.

(II) Criteria; non-rated employers.—An employer that does not have an experience modification rating shall be included in Tier One if the employer meets all of the following:

(A) The employer had no lost-time claims for the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan.

(B) The total of the employer's medical-only claims for the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan did not exceed 20 percent of premium.

(C) The employer has secured workers' compensation coverage for the entire 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan.

(D) The employer is able to provide the plan with a loss history generated by the employer's prior workers' compensation insurer, except if the employer is not able to produce a loss history due to the insolvency of an insurer, the receiver shall provide to the plan, upon the request of the employer or the employer's agent, a copy of the employer's loss history from the records of the insolvent insurer if the loss history is contained in records of the insurer which are in the possession of the receiver. If the receiver is unable to produce the loss history, the employer may, in lieu of the loss history, submit an affidavit from the employer and the employer's insurance agent setting forth the loss history.

(E) The employer is not a new business.

(III) Premiums.—The premiums for Tier One insureds shall be set at a premium level 25 percent above the comparable voluntary market premiums until the plan has sufficient experience as determined by the board to establish an actuarially sound rate for Tier One, at which point the board shall, subject to paragraph (e), adjust the rates, if necessary, to produce actuarially sound rates, provided such rate adjustment shall not take effect prior to January 1, 2007.

b. Tier Two.—

(I) Criteria; rated employers.—An employer that has an experience modification rating shall be included in Tier Two if the employer meets all of the following:

(A) The experience modification is equal to or greater than 1.00 but not greater than 1.10.

(B) The employer had no lost-time claims subsequent to the applicable experience modification rating period.

(C) The total of the employer's medical-only claims subsequent to the applicable experience modification rating period did not exceed 20 percent of premium.

(II) Criteria; non-rated employers.—An employer that does not have any experience modification rating shall be included in Tier Two if the employer is a new business. An employer shall be included in Tier Two if the employer has less than 3 years of loss experience in the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan and the employer meets all of the following:

(A) The employer had no lost-time claims for the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan.

(B) The total of the employer's medical-only claims for the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan did not exceed 20 percent of premium.

(C) The employer is able to provide the plan with a loss history generated by the workers' compensation insurer that provided coverage for the portion or portions of such period during which the employer had secured workers' compensation coverage, except if the employer is not able to produce a loss history due to the insolvency of an insurer, the receiver shall provide to the plan, upon the request of the employer or the employer's agent, a copy of the employer's loss history from the records of the insolvent insurer if the loss history is contained in records of the insurer which are in the possession of the receiver. If the receiver is unable to produce the loss history, the employer may, in lieu of the loss history, submit an affidavit from the employer and the employer's insurance agent setting forth the loss history.

(III) Premiums.—The premiums for Tier Two insureds shall be set at a rate level 50 percent above the comparable voluntary market premiums until the plan has sufficient experience as determined by the board to establish an actuarially sound rate for Tier Two, at which point the board shall, subject to paragraph (e), adjust the rates, if necessary, to produce actuarially sound rates, provided such rate adjustment shall not take effect prior to January 1, 2007.

c. Tier Three.—

(I) Eligibility.—An employer shall be included in Tier Three if the employer does not meet the criteria for Tier One or Tier Two.

(II) Rates.—The board shall establish, subject to paragraph (e), and the plan shall charge, actuarially sound rates for Tier Three insureds.

23. For Tier One or Tier Two employers which employ no nonexempt employees or which report payroll which is less than the minimum wage hourly rate for one full-time employee for 1 year at 40 hours per week, the plan shall establish actuarially sound premiums, provided, however, that the premiums may not exceed \$2,500. These premiums shall be in addition to the fee specified in subparagraph 26. When the plan establishes actuarially sound rates for all employers in Tier One and Tier Two, the premiums for employers referred to in this paragraph are no longer subject to the \$2,500 cap.

24. Provide for a depopulation program to reduce the number of insureds in the plan. If an employer insured through the plan is offered coverage from a voluntary market carrier:

- a. During the first 30 days of coverage under the plan;
- b. Before a policy is issued under the plan;
- c. By issuance of a policy upon expiration or cancellation of the policy under the plan; or
- d. By assumption of the plan's obligation with respect to an in-force policy,

that employer is no longer eligible for coverage through the plan. The premium for risks assumed by the voluntary market carrier must be no greater than the premium the insured would have paid under the plan, and shall be adjusted upon renewal to reflect changes in the plan rates and the tier for which the insured would qualify as of the time of renewal. The insured may be charged such premiums only for the first 3 years of coverage in the voluntary market. A premium under this subparagraph is deemed approved and is not an excess premium for purposes of s. 627.171.

25. Require that policies issued and applications must include a notice that the policy could be replaced by a policy issued from a voluntary market carrier and that, if an offer of coverage is obtained from a voluntary market carrier, the policyholder is no longer eligible for coverage through the plan. The notice must also specify that acceptance of coverage under the plan creates a conclusive presumption that the applicant or policyholder is aware of this potential.

26. Require that each application for coverage and each renewal premium be accompanied by a nonrefundable fee of \$475 to cover costs of administration and fraud prevention. The board may, with the prior approval of the office, increase the amount of the fee pursuant to a rate filing to reflect increased costs of administration and fraud prevention. The fee is not subject to commission and is fully earned upon commencement of coverage.

Section 22. Paragraph (e) of subsection (6) of section 627.351, Florida Statutes, is amended to read:

627.351 Insurance risk apportionment plans.—

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(e) Purchases that equal or exceed \$2,500, but are less than \$25,000, shall be made by receipt of written quotes, written record of telephone quotes, or informal bids, ~~if whenever~~ practical. The procurement of goods or services valued at or over \$25,000 ~~is shall be~~ subject to competitive solicitation, except in situations where the goods or services are provided by a sole source or are deemed an emergency purchase; the services are exempted from competitive solicitation requirements under s. 287.057(3)(e) ~~287.057(3)(f)~~; or the procurement of services is subject to s. 627.3513. Justification for the sole-sourcing or emergency procurement must be documented. Contracts for goods or services valued at or over \$100,000 are subject to approval by the board.

Section 23. Subsection (2) of section 765.5155, Florida Statutes, is amended to read:

765.5155 Donor registry; education program.—

(2) The agency and the department shall jointly contract for the operation of a donor registry and education program. The contractor shall be procured by competitive solicitation pursuant to chapter 287, notwithstanding ~~an any~~ exemption under ~~in~~ s. 287.057(3)(e) ~~287.057(3)(f)~~. When awarding the contract, priority shall be given to existing nonprofit groups that are based within the state, have expertise working with procurement organizations, have expertise in conducting statewide organ and tissue donor public education campaigns, and represent the needs of the organ and tissue donation community in the state.

Section 24. Subsection (10) of section 893.055, Florida Statutes, is amended to read:

893.055 Prescription drug monitoring program.—

(10) All costs incurred by the department in administering the prescription drug monitoring program shall be funded through federal grants or private funding applied for or received by the state. The department may not commit funds for the monitoring program without ensuring funding is available. The prescription drug monitoring program and the implementation thereof are contingent upon receipt of the nonstate funding. The department and state government shall cooperate with the direct-support organization established pursuant to subsection (11) in seeking federal grant funds, other nonstate grant funds, gifts, donations, or other private moneys for the department ~~if so long as~~ the costs of doing so are not considered material. Nonmaterial costs for this purpose include, but are not limited to, the costs of mailing and personnel assigned to research or apply for a grant. Notwithstanding the exemptions to competitive-solicitation requirements under s. 287.057(3)(e) ~~287.057(3)(f)~~, the department shall comply with the competitive-solicitation requirements under s. 287.057 for the procurement of any goods or services required by this section. Funds provided, directly or indirectly, by prescription drug manufacturers may not be used to implement the program.

Section 25. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2013.

Senator Garcia moved the following amendment:

**Amendment 1 (638138) (with title amendment)**—Between lines 126 and 127 insert:

Section 2. *A person who is sentenced under this section for a crime he or she committed when he or she was under the age of 18 is entitled to a review of his or her sentence as follows:*

(1) *A person sentenced to life in prison without parole, life in prison, or a term of 50 years or greater shall have his or her sentence reviewed after 25 years. The sentencing court shall retain original jurisdiction for the duration of the sentence for this purpose. The Department of Corrections shall notify juvenile offenders who are committed to the department of their eligibility to participate in a resentencing hearing 18 months prior to the beginning of their 25th year of incarceration. The juvenile offender may apply to the court of original jurisdiction requesting that a resentencing hearing be held.*

(a) *An offender is entitled to be represented by counsel, and the court shall appoint a public defender to represent the offender if the offender cannot afford an attorney.*

(b) *The court shall hold a resentencing hearing to determine whether the offender's sentence should be modified. The resentencing court shall consider all of the following:*

1. *Whether the offender demonstrates maturity and rehabilitation.*

2. *Whether the offender remains at the same level of risk to society as he or she did at the time of the initial sentencing.*

3. *The opinion of the victim or the victim's next of kin. The absence of the victim or the victim's next of kin from the resentencing hearing may not be a factor in the court's determination under this section. If the victim or the victim's next of kin chooses not to participate in the hearing, the court may consider previous statements made by the victim or the victim's next of kin during the trial or initial sentencing phase.*

4. *Whether the offender was a relatively minor participant in the criminal offense or acted under extreme duress or the domination of another person.*

5. Whether the offender has shown sincere and sustained remorse for the criminal offense.

6. Whether the offender's age, maturity, and psychological development at the time of the offense affected his or her behavior.

7. Whether the offender has successfully obtained a general educational development certificate or completed another educational, technical, work, vocational, or self-rehabilitation program, if such a program is available.

8. Whether the offender was a victim of sexual, physical, or emotional abuse before he or she committed the offense.

9. The results of any mental health assessment, risk assessment, or evaluation of the offender as to rehabilitation.

(c) If the court determines at the resentencing hearing that the offender has been rehabilitated and is reasonably believed to be fit to reenter society based on these factors, a term of probation of at least 5 years shall be imposed. If the court determines that the offender has not demonstrated rehabilitation and is not fit to reenter society based on these factors, the court shall issue an order in writing stating the reasons the sentence is not being modified.

(d) An offender who is not resentenced under this subsection at the initial resentencing is eligible for up to three additional sentencing reviews. A minimum of 5 years must pass before the individual is eligible for the sentencing review. An offender sentenced to a term of years less than life may not petition the court for a review of his or her sentence if he or she is in the last 5 years of his or her sentence.

(2) If the person convicted is sentenced to a term of years greater than 25 years but less than 50 years, the person shall be entitled to a single review hearing at the midpoint of his or her sentence. The person shall be subject to the resentencing guidelines set forth in paragraph (b). If the judge at the resentencing hearing determines that the original sentence is appropriate, no other reviews shall be granted.

(3) This section is retroactive to the extent necessary to comply with the ruling of the United States Supreme Court in *Miller v. Alabama*, 567 U.S. \_\_\_\_, No. 10-9646 (2012) and *Graham v. Florida*, 560 U.S. \_\_\_\_, No. 08-7412 (2010).

(b)1. The Legislature intends to replace the county percentage share provided in subparagraph (a)3. with percentage shares based upon each county's proportion of the total statewide amount of county billings made under this section from April 1, 2012, through March 31, 2013, for which the state ultimately receives payment.

2. By February 1 of each year and continuing until a certification is made under sub-subparagraph b., the agency shall report to the President of the Senate and the Speaker of the House of Representatives the status of the county billings made under this section from April 1, 2012, through March 31, 2013, by county, including:

a. The amounts billed to each county which remain unpaid, if any; and

b. A certification from the agency of a final accounting of the amount of funds received by the state from such billings, by county, upon the expiration of all appeal rights that counties may have to contest such billings.

3. By March 15 of the state fiscal year in which the state receives the certification provided for in sub-subparagraph (b)2.b., the Social Services Estimating Conference shall calculate each county's percentage share of the total statewide amount of county billings made under this section from April 1, 2012, through March 31, 2013, for which the state ultimately receives payment.

4. Beginning in the state fiscal year following the receipt by the state of the certification provided in sub-subparagraph (b)2.b., each county's percentage share under subparagraph (a)3. shall be replaced by the percentage calculated under subparagraph (b)3.

5. If the court invalidates the replacement of each county's share as provided in this paragraph, the county share set forth in subparagraph (a)3. shall continue to apply.

(4) By June 1 of each year, the Department of Revenue shall notify each county of its required annual contribution. Each county shall pay its contribution, by check or electronic transfer, in equal monthly installments to the department by the 5th day of each month. If a county fails to remit the payment by the 5th day of the month, the department shall reduce the monthly distribution of that county pursuant to s. 218.61 and, if necessary, by the amount of the monthly installment pursuant to s. 218.26. The payments and the amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

(1) Each county shall participate in the following items of care and service:

(a) For both health maintenance members and fee for service beneficiaries, payments for inpatient hospitalization in excess of 10 days, but not in excess of 45 days, with the exception of pregnant women and children whose income is in excess of the federal poverty level and who do not participate in the Medicaid medically needy program, and for adult lung transplant services.

(b) For both health maintenance members and fee for service beneficiaries, payments for nursing home or intermediate facilities care in excess of \$170 per month, with the exception of skilled nursing care for children under age 21.

(2) A county's participation must be 35 percent of the total cost, or the applicable discounted cost paid by the state for Medicaid recipients enrolled in health maintenance organizations or prepaid health plans, of providing the items listed in subsection (1), except that the payments for items listed in paragraph (1)(b) may not exceed \$55 per month per person.

(3) Each county shall set aside sufficient funds to pay for items of care and service provided to the county's eligible recipients for which county contributions are required, regardless of where in the state the care or service is rendered.

(4) Each county shall contribute its pro rata share of the total county participation based upon statements rendered by the agency. The agency shall render such statements monthly based on each county's eligible recipients. For purposes of this section, each county's eligible recipients shall be determined by the recipient's address information contained in the federally approved Medicaid eligibility system within the Department of Children and Family Services. A county may use the process developed under subsection (10) to request a refund if it determines that the statement rendered by the agency contains errors.

(5) In any county in which a special taxing district or authority is located which benefits will benefit from the Medicaid program medical assistance programs covered by this section, the board of county commissioners may divide the county's financial responsibility for this purpose proportionately, and each such district or authority must furnish its share to the board of county commissioners in time for the board to comply with subsection (4) (3). Any appeal of the proration made by the board of county commissioners must be made to the Department of Fi-

financial Services, which shall ~~then~~ set the proportionate share for of each party.

~~(6) Counties are exempt from contributing toward the cost of new exemptions on inpatient ceilings for statutory teaching hospitals, specialty hospitals, and community hospital education program hospitals that came into effect July 1, 2000, and for special Medicaid payments that came into effect on or after July 1, 2000.~~

(6)(7)(a) By August 1, 2012, the agency shall certify to each county the amount of such county's billings from November 1, 2001, through April 30, 2012, which remain unpaid. A county may contest the amount certified by filing a petition under the applicable provisions of chapter 120 on or before September 1, 2012. This procedure is the exclusive method to challenge the amount certified. In order to successfully challenge the amount certified, a county must show, by a preponderance of the evidence, that a recipient was not an eligible recipient of that county or that the amount certified was otherwise in error.

(b) By September 15, 2012, the agency shall certify to the Department of Revenue:

1. For each county that files a petition on or before September 1, 2012, the amount certified under paragraph (a); and

2. For each county that does not file a petition on or before September 1, 2012, an amount equal to 85 percent of the amount certified under paragraph (a).

(c) The filing of a petition under paragraph (a) ~~does shall~~ not stay or stop the Department of Revenue from reducing distributions in accordance with paragraph (b) and subsection (7) (8). If a county that files a petition under paragraph (a) is able to demonstrate that the amount certified should be reduced, the agency shall notify the Department of Revenue of the amount of the reduction. The Department of Revenue shall adjust all future monthly distribution reductions under subsection (7) (8) in a manner that results in the remaining total distribution reduction being applied in equal monthly amounts.

(7)(8)(a) Beginning with the October 2012 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one thirty-sixth of the amount certified by the agency under subsection (6) (7) for that county, minus any amount required under paragraph (b). Beginning with the October 2013 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one forty-eighth of two-thirds of the amount certified by the agency under subsection (6) (7) for that county, minus any amount required under paragraph (b). However, the amount of the reduction may not exceed 50 percent of each county's distribution. If, after 60 months, the reductions for any county do not equal the total amount initially certified by the agency, the Department of Revenue shall continue to reduce such county's distribution by up to 50 percent until the total amount certified is reached. The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.26 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.

~~(9)(a) Beginning May 1, 2012, and each month thereafter, the agency shall certify to the Department of Revenue by the 7th day of each month the amount of the monthly statement rendered to each county pursuant to subsection (4). Beginning with the May 2012 distribution, the De-~~

~~partment of Revenue shall reduce each county's monthly distribution pursuant to s. 218.61 by the amount certified by the agency minus any amount required under paragraph (b). The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.~~

(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.61 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.

(10) The agency, in consultation with the Department of Revenue and the Florida Association of Counties, shall develop a process for refund requests which:

(a) ~~Allows counties to submit to the agency written requests for refunds of any amounts by which the distributions were reduced as provided in subsection (9) and which set forth the reasons for the refund requests.~~

(b) ~~Requires the agency to make a determination as to whether a refund request is appropriate and should be approved, in which case the agency shall certify the amount of the refund to the department.~~

(c) ~~Requires the department to issue the refund for the certified amount to the county from the General Revenue Fund. The Department of Revenue may issue the refund in the form of a credit against reductions to be applied to subsequent monthly distributions.~~

(8)(11) Beginning in the 2013-2014 fiscal year and each year thereafter through the 2020-2021 fiscal year, the Chief Financial Officer shall transfer from the General Revenue Fund to the Lawton Chiles Endowment Fund an amount equal to the amounts transferred to the General Revenue Fund in the previous fiscal year pursuant to subsections (4) and (7) subsections (8) and (9), reduced by the amount of refunds paid pursuant to subsection (10), which are in excess of the official estimate for medical hospital fees for such previous fiscal year adopted by the Revenue Estimating Conference on January 12, 2012, as reflected in the conference's workpapers. By July 20 of each year, the Office of Economic and Demographic Research shall certify the amount to be transferred to the Chief Financial Officer. Such transfers must be made before July 31 of each year until the total transfers for all years equal \$350 million. ~~If in the event that~~ such transfers do not total \$350 million by July 1, 2021, the Legislature shall provide for the transfer of amounts necessary to total \$350 million. The Office of Economic and Demographic Research shall publish the official estimates reflected in the conference's workpapers on its website.

(9)(12) The agency may adopt rules to administer this section.

Section 2. *The Agency for Health Care Administration shall provide a data report to the Florida Association of Counties which includes such information as may be necessary for a comprehensive evaluation of the cost and utilization of health services by Medicaid enrollees in each county by service type. The data report shall be provided at least annually at the request of the association. Copies of the data report shall also be provided to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The agency shall provide other information and assistance requested by the association in order to assess the impact on counties of the changes to the methodology for determining county contributions to Medicaid made by this act and to evaluate the impact of various Medicaid policies, including the use of diagnosis-related groups on the reimbursement of hospital inpatient services and the im-*

Year-round enrollment shall only be held if the Social Services Estimating Conference determines that sufficient federal and state funds will be available to finance the increased enrollment.

(b) The application for the Florida Kidcare program is valid for a period of 120 days after the date it was received. At the end of the 120-day period, if the applicant has not been enrolled in the program, the application is invalid and the applicant shall be notified of the action. The applicant may reactivate the application after notification of the action taken by the program.

(c) Except for the Medicaid program, whenever the Social Services Estimating Conference determines that there are presently, or will be by the end of the current fiscal year, insufficient funds to finance the current or projected enrollment in the Florida Kidcare program, all additional enrollment must cease and additional enrollment may not resume until sufficient funds are available to finance such enrollment.

7. The child has exhausted coverage under a COBRA continuation provision;

9. Domestic violence led to loss of coverage.

~~(5) A child who is otherwise eligible for the Florida Kidcare program and who has a preexisting condition that prevents coverage under another insurance plan as described in paragraph (4)(a) which would have disqualified the child for the Florida Kidcare program if the child were able to enroll in the plan is eligible for Florida Kidcare coverage when enrollment is possible.~~

~~(5)(6)~~ A child whose household's modified adjusted gross family income is above 200 percent of the federal poverty level or a child who is excluded under the provisions of subsection (4) may participate in the Florida Kidcare program as provided in s. 409.8132 or, if the child is ineligible for Medikids by reason of age, in the Florida Healthy Kids program, subject to the following:

Enrollment may occur directly, through the services of a third-party administrator, referrals from the Department of Children and Families, and the exchange as defined by the federal Patient Protection and Affordable Care Act. As an enrollee disenrolls, the corporation must also provide the enrollee with information about other insurance affordability programs and electronically refer the enrollee to the exchange or other programs, as appropriate. The earliest coverage effective date under the program shall be January 1, 2014.

(5) **DELIVERY OF SERVICES.**—The corporation shall contract with authorized insurers licensed under chapter 627; managed care organizations authorized under chapter 641; and provider service networks authorized under ss. 409.912(4)(d) and 409.962(13) which are prepaid plans. These insurers, managed care organizations, and provider service networks must meet standards established by the corporation to provide comprehensive health care services to enrollees who qualify for services under this section. The corporation may contract for such services on a statewide or regional basis. To encourage continuity of care among enrollees who may transition across multiple insurance affordability programs, the corporation is encouraged to contract with those insurers and managed care organizations that participate in more than one such program.

(a) The corporation shall establish access and network standards for such contracts and ensure that contracted providers have sufficient providers to meet enrollee needs. Quality standards must be developed by the corporation, specific to the adult population, which take into consideration recommendations from the National Committee on Quality Assurance, stakeholders, and other existing performance indicators from both public and commercial populations. separate subcapitation process to its contracted providers if it is determined that such services are required by federal law. Such services would be covered when deemed medically necessary on an individual basis. (b) The corporation shall establish a program integrity process to ensure compliance with program guidelines. At a minimum, the corporation shall withhold benefits from an applicant or enrollee if the corporation obtains evidence that the applicant or enrollee is no longer eligible, submitted incorrect or fraudulent information in order to establish eligibility, or failed to provide verification of eligibility. The corporation shall notify the applicant or enrollee that, because of such evidence, program benefits must be withheld unless the applicant or enrollee contacts a designated representative of the corporation by a specified date, which must be within 10 working days after the date of notice, to discuss and resolve the matter. The corporation shall make every effort to resolve the matter within a timeframe that will not cause benefits to be withheld from an eligible enrollee. The following individuals may be subject to specific prosecution in accordance with s. 414.39:

1. An applicant who obtains or attempts to obtain benefits for a potential enrollee under the Healthy Florida program when the applicant knows or should have known that the potential enrollee does not qualify for the Healthy Florida program.

The corporation shall submit monthly enrollment reports to the President of the Senate, the Speaker of the House of Representatives, and the Minority Leaders of the Senate and the House of Representatives. The corporation shall submit an interim independent

evaluation of the Healthy Florida program to the presiding officers no later than July 1, 2015, with annual evaluations due July 1 each year thereafter. The evaluations must address, at a minimum, application and enrollment trends and issues, utilization and cost data, and customer satisfaction.

(11) **PROGRAM EXPIRATION.**—The Healthy Florida program shall expire at the end of the state fiscal year in which any of these conditions occur, whichever occurs first:

L. No. 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152.

(c) The federal match for the Healthy Florida program and the Medicaid program are blended under federal law or regulation in such a way that causes the overall federal contribution to diminish when compared to separate, nonblended federal contributions.

Section 16. The Florida Healthy Kids Corporation may make changes to comply with the objections of the federal Department of Health and Human Services to gain approval of the Healthy Florida program in compliance with the federal Patient Protection and Affordable Care Act, upon giving notice to the Senate and the House of Representatives of the proposed changes. If there is a conflict between a provision in this section and the federal Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152, the provision must be interpreted and applied so as to comply with the requirement of the federal law.

Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool or spa or its associated equipment.~~

The scope of work of the plumbing contractor applies to private property and public property, including any excavation work incidental thereto, and includes the work of the specialty plumbing contractor. Such contractor shall subcontract, with a qualified contractor in the field concerned, all other work incidental to the work but which is specified as being the work of a trade other than that of a plumbing contractor. This definition does not limit the scope of work of any specialty contractor certified pursuant to s. 489.113(6), and does not require certification or registration under this part of any authorized employee of a public natural gas utility or of a private natural gas utility regulated by the Public Service Commission when disconnecting and reconnecting water lines in the servicing or replacement of an existing water heater. A plumbing contractor may perform drain cleaning and clearing and install or repair rainwater catchment systems; however, a mandatory licensing requirement is not established for the performance of these specific services.

However, an underground utility and excavation contractor may install empty underground conduits in rights-of-way, easements, platted rights-of-way in new site development, and sleeves for parking lot crossings no smaller than 2 inches in diameter if each conduit system installed is designed by a licensed professional engineer or an authorized employee of a municipality, county, or public utility and the installation of such conduit does not include installation of any conductor wiring or connection to an energized electrical system. An underground utility and excavation contractor may not install piping that is an integral part of a fire protection system as defined in s. 633.021 beginning at the point where the piping is used exclusively for such system.

(o) "Solar contractor" means a contractor whose services consist of the installation, alteration, repair, maintenance, relocation, or replacement of solar panels for potable solar water heating systems, swimming pool solar heating systems, and photovoltaic systems and any appurtenances, apparatus, or equipment used in connection therewith, whether public, private, or otherwise, regardless of use. A contractor, certified or registered pursuant to this chapter, is not required to become a certified or registered solar contractor or to contract with a solar contractor in

order to provide services enumerated in this paragraph that are within the scope of the services such contractors may render under this part.

(p) "Pollutant storage systems contractor" means a contractor whose services are limited to, and who has the experience, knowledge, and skill to install, maintain, repair, alter, extend, or design, if not prohibited by law, and use materials and items used in the installation, maintenance, extension, and alteration of, pollutant storage tanks. Section 10. Paragraphs (c) and (f) of subsection (5) and subsection (6) of section 489.127, Florida Statutes, are amended to read:

#### 489.127 Prohibitions; penalties.—

(5) Each county or municipality may, at its option, designate one or more of its code enforcement officers, as defined in chapter 162, to enforce, as set out in this subsection, the provisions of subsection (1) and s. 489.132(1) against persons who engage in activity for which a county or municipal certificate of competency or license or state certification or registration is required.

(c) The local governing body of the county or municipality ~~may is~~ ~~authorized to~~ enforce codes and ordinances against unlicensed contractors under the provisions of this subsection and may enact an ordinance establishing procedures for implementing this subsection, including a schedule of penalties to be assessed by the code enforcement officer. The maximum civil penalty which may be levied ~~may shall~~ not exceed \$2,000 ~~\$500~~. Moneys collected pursuant to this subsection shall be retained locally, as provided for by local ordinance, and may be set aside in a specific fund to support future enforcement activities against unlicensed contractors.

(f) If the enforcement or licensing board or designated special magistrate finds that a violation exists, the enforcement or licensing board or designated special magistrate may order the violator to pay a civil penalty of not less than the amount set forth on the citation but not more than \$2,500 ~~\$1,000~~ per day for each violation. In determining the amount of the penalty, the enforcement or licensing board or designated special magistrate shall consider the following factors:

1. The gravity of the violation.

3. Any previous violations committed by the violator.

(6) Local building departments may collect outstanding fines against registered or certified contractors issued by the Construction Industry Licensing Board and may retain 75 ~~25~~ percent of the fines they are able to collect, provided that they transmit 25 ~~75~~ percent of the fines they are able to collect to the department according to a procedure to be determined by the department.

Section 11. Paragraph (a) of subsection (7) of section 489.131, Florida Statutes, is amended to read:

#### 489.131 Applicability.—

(7)(a) It is the policy of the state that the purpose of regulation is to protect the public by attaining compliance with the policies established in law. Fines and other penalties are provided in order to ensure compliance; ~~however, the collection of fines and the imposition of penalties are intended to be secondary to the primary goal of attaining compliance with state laws and local jurisdiction ordinances. It is the intent of the Legislature that a local jurisdiction agency charged with enforcing regulatory laws shall issue a notice of noncompliance as its first response to a minor violation of a regulatory law in any instance in which it is reasonable to assume that the violator was unaware of such a law or unclear as to how to comply with it. A violation of a regulatory law is a "minor violation" if it does not result in economic or physical harm to a person or adversely affect the public health, safety, or welfare or create a significant threat of such harm. A "notice of noncompliance" is a notification by the local jurisdiction agency charged with enforcing the ordinance, which is issued to the licensee that is subject to the ordinance. A notice of noncompliance should not be accompanied with a fine or other disciplinary penalty. It should identify the specific ordinance that is being violated, provide information on how to comply with the ordinance, and specify a reasonable time for the violator to comply with the ordinance. Failure of a licensee to take action correcting the violation within a set period of time would then result in the institution of further disciplinary proceedings.~~

Pursuant to Rule 7.1(1), there being no objection, consideration of the following late-filed amendment was allowed:

Senator Hukill moved the following amendment which was adopted:

**Amendment 1 (760430) (with title amendment)**—Delete lines 1053-1133 and insert:

**Section 3. Opt out from long-term care products standards.**—Pursuant to Article VII of the Interstate Insurance Product Regulation Compact, adopted by this act, this state prospectively opts out of all uniform standards adopted by the Interstate Insurance Product Regulation Commission involving long-term care insurance products, and such opt out may not be treated as a material variance in the offer or acceptance of this state to participate in the compact.

**Section 4. Effective date of compact standards; opt out procedures; state law exemptions; legislative notice.**—

(1) Except as provided in section 3 of this act and this section, all uniform standards adopted by the Interstate Insurance Product Regulation Commission as of March 1, 2013, are adopted by this state.

(2) Notwithstanding subsections (3), (4), (5), and (6) of Article VII of the Interstate Insurance Product Regulation Compact as adopted by this act, it is the policy of this state as a participant in the compact:

(a) To opt out, and for the Office of Insurance Regulation to opt out, of any new uniform standard, or amendments to existing uniform standards, adopted by the Interstate Insurance Product Regulation Commission after March 1, 2013, if such amendments substantially alter or add to existing uniform standards adopted by this state pursuant to subsection (1) until such time as this state enacts legislation to adopt or opt out of, adopts rules to adopt or opt out of, or executes an order to adopt or opt out of new uniform standards or amendments to existing standards adopted by the commission after March 1, 2013.

(b) That, notwithstanding the adoption of the Interstate Product Regulation Compact pursuant to this act, participation in the compact is contingent upon a determination by the Commissioner of Insurance Regulation that the uniform standards of the compact provide consumer protections equivalent to those under state law and, if the commissioner determines otherwise, an order issued by the Office of Insurance Regulation constitutes the action required by the commission to not join the compact, to opt out of, or to stay the effect of, any uniform standard not otherwise opted out of pursuant to this act.

(c) That the authority under the compact to opt out of a uniform standard includes an order issued under chapter 120, Florida Statutes, of the Administrative Procedure Act.

(3) In addition to any other uniform standards the state may opt out of pursuant to subsection (2), effective July 1, 2014, this subsection con-

stitutes the legislation required to be enacted pursuant to subsections (4) and (5) of Article VII of the Interstate Insurance Product Regulation Compact by which this state opts out of the following uniform standards adopted by the Interstate Insurance Product Regulation Commission:

a. The 10-day period for the unconditional refund of premiums, plus any fees or charges under s. 626.99, Florida Statutes.

b. Underwriting criteria limiting the amount, extent, or kind of life insurance based on past or future travel in a manner that is inconsistent with s. 626.9541(1)(dd), Florida Statutes, as implemented by the Office of Insurance Regulation.

(4) It is the policy of this state that the exclusivity provision of paragraph (2)(b) of Article XVI of the Interstate Insurance Product Regulation Compact applies only to those uniform standards adopted by the Interstate Insurance Product Regulation Commission in accordance with the terms of the compact and does not apply to those standards that this state has opted out of pursuant to this act or the compact. In addition, it is the policy of this state that under the exclusivity provision, standards adopted by this state are not limited or rendered inapplicable by the absence of a standard adopted by the commission. Notwithstanding paragraph (2)(b) of Article XVI of the compact, standards adopted by this state continue to apply to the content, approval, and certification of products in this state, including, but not limited to, the following:

a. Prohibition of a surrender or deferred sales charge of more than 10 percent pursuant to s. 627.4554, Florida Statutes.

b. Notification to an applicant of the right to designate a secondary addressee at the time of application under s. 627.4555, Florida Statutes.

c. Notification of secondary addressees at least 21 days before the impending lapse of a policy under s. 627.4555, Florida Statutes.

d. Inclusion of a clear statement pursuant to s. 627.803, Florida Statutes, that the benefits, values, or premiums under a variable annuity are indeterminate and may vary.

e. Interest on surrender proceeds pursuant to s. 627.482, Florida Statutes.

(5) After enactment of this section, if the Interstate Insurance Product Regulation Commission adopts any new uniform standard or amendment to the existing uniform standard as specified in subsection (2), the Office of Insurance Regulation shall immediately notify the Legislature of such new standard or amendment. If the office or the court finds that the procedure specified in subsection (2) has not been followed, notice shall be given to the Legislature.

**Section 5. Notwithstanding subsection (4) of Article XII of the Interstate Insurance Product Regulation Compact, the Interstate Insurance Product Regulation Commission is subject to:**

(1) State unemployment or reemployment taxes imposed pursuant to chapter 443, Florida Statutes, in compliance with the Federal Unemployment Tax Act, for any persons employed by this commission who perform services for it within this state.

(2) Taxation on any commission business or activity conducted or performed in this state.

**Section 6. Access to records.**—

(1) Notwithstanding subsections (1) and (2) of Article VIII, subsection (2) of Article X, and subsection (6) of Article XII of the Interstate Insurance Product Regulation Compact, a request by a resident of this state for public inspection and copying of information, data, or official records that include:

(a) An insurer's trade secrets shall be referred to the Commissioner of Insurance Regulation who shall respond to the request, with the cooperation and assistance of the Financial Services Commission, in accordance with s. 624.4213, Florida Statutes; or

(b) Matters of privacy of individuals shall be referred to the Commissioner of Insurance Regulation who shall respond to the request, with the cooperation and assistance of the Financial Services Commission, in accordance with s. 119.07(1), Florida Statutes.

(2) *This act does not abrogate the right of a person to access information consistent with the State Constitution and laws of this state.*

Section 7. *The Financial Services Commission may adopt rules to administer this act.*

Section 8. *If any part of section 3 or section 4 of this act is invalidated by the courts, such ruling renders the entire act invalid.*

Each calendar year, the department shall determine the tax rate applicable to the sale of natural gas fuel for the following 12-month period beginning January 1, rounded to the nearest tenth of a cent, by adjusting the initially established tax rate of 5.8 cents per gallon by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30.

(e)1. An additional tax is imposed on each motor fuel equivalent gallon of natural gas fuel for the privilege of selling natural gas fuel. Each calendar year, the department shall determine the tax rate applicable to the sale of natural gas fuel, rounded to the nearest tenth of a cent, for the following 12-month period beginning January 1. The tax rate is calculated by adjusting the initially established tax rate of 9.2 cents per gallon by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30.

2. The department is authorized to adopt rules and publish forms to administer this paragraph.

(3) Unless otherwise provided by this chapter, the taxes specified in subsection (2) are imposed on natural gas fuel when it is placed into the fuel supply tank of a motor vehicle as defined in s. 206.01(23). Any use of the proceeds or interest for purposes of landfill closure before July 1, 1993, is ratified. The proceeds and any interest may not be used for the operational expenses of infrastructure, except that a county that has a population of fewer than 75,000 and that is required to close a landfill may use the proceeds or interest for long-term maintenance costs associated with landfill closure. Counties, as defined in s. 125.011, and charter counties may, in addition, use the proceeds or interest to retire or service indebtedness incurred for bonds issued before July 1, 1987, for infrastructure purposes, and for bonds subsequently issued to refund such bonds. d. Any fixed capital expenditure or fixed capital outlay associated with the improvement of private facilities that have a life expectancy of 5 or more years and that the owner agrees to make available for use on a temporary basis as needed by a local government as a public emergency shelter or a staging area for emergency response equipment during an emergency officially declared by the state or by the local government under s. 252.38. Such improvements are limited to those necessary to comply with current standards for public emergency evacuation shelters. The owner must enter into a written contract with the local government providing the improvement funding to make the private facility available to the public for purposes of emergency shelter at no cost to the local government for a minimum of 10 years after completion of the improvement, with the provision that the obligation will transfer to any subsequent owner until the end of the minimum period.

e. Any land acquisition expenditure for a residential housing project in which at least 30 percent of the units are affordable to individuals or families whose total annual household income does not exceed 120 percent of the area median income adjusted for household size, if the land is owned by a local government or by a special district that enters into a written agreement with the local government to provide such housing. The local government or special district may enter into a ground lease with a public or private person or entity for nominal or other consideration for the construction of the residential housing project on land acquired pursuant to this sub-subparagraph.

2. For the purposes of this paragraph, the term “energy efficiency improvement” means any energy conservation and efficiency improve-

3. Notwithstanding any other provision of this subsection, a local government infrastructure surtax imposed or extended after July 1, 1998, may allocate up to 15 percent of the surtax proceeds for deposit into ~~in~~ a trust fund within the county's accounts created for the purpose of funding economic development projects having a general public purpose of improving local economies, including the funding of operational costs and incentives related to economic development. The ballot statement must indicate the intention to make an allocation under the authority of this subparagraph.

Section 15. Paragraph (a) of subsection (4) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(4) EXEMPTIONS; ITEMS BEARING OTHER EXCISE TAXES, ETC.—

(a) Also exempt are:

1. Water delivered to the purchaser through pipes or conduits or delivered for irrigation purposes. The sale of drinking water in bottles, cans, or other containers, including water that contains minerals or carbonation in its natural state or water to which minerals have been added at a water treatment facility regulated by the Department of Environmental Protection or the Department of Health, is exempt. This exemption does not apply to the sale of drinking water in bottles, cans, or other containers if carbonation or flavorings, except those added at a water treatment facility, have been added. Water that has been enhanced by the addition of minerals and that does not contain any added carbonation or flavorings is also exempt.

2. All fuels used by a public or private utility, including any municipal corporation or rural electric cooperative association, in the generation of electric power or energy for sale. Fuel other than motor fuel and diesel fuel is taxable as provided in this chapter with the exception of fuel expressly exempt herein. *Natural gas and natural gas fuel as defined in s. 206.9951(2) are exempt from the tax imposed by this chapter when placed into the fuel supply system of a motor vehicle.* Motor fuels and diesel fuels are taxable as provided in chapter 206, with the exception of those motor fuels and diesel fuels used by railroad locomotives or vessels to transport persons or property in interstate or foreign commerce, which are taxable under this chapter only to the extent provided herein. The basis of the tax shall be the ratio of intrastate mileage to interstate or foreign mileage traveled by the carrier's railroad locomotives or vessels that were used in interstate or foreign commerce and that had at least some Florida mileage during the previous fiscal year of the carrier, such ratio to be determined at the close of the fiscal year of the carrier. However, during the fiscal year in which the carrier begins its initial operations in this state, the carrier's mileage apportionment factor may be determined on the basis of an estimated ratio of anticipated miles in this state to anticipated total miles for that year, and subsequently, additional tax shall be paid on the motor fuel and diesel fuels, or a refund may be applied for, on the basis of the actual ratio of the carrier's railroad locomotives' or vessels' miles in this state to its total miles for that year. This ratio shall be applied each month to the total Florida purchases made in this state of motor and diesel fuels to establish that portion of the total used and consumed in intrastate movement and subject to tax under this chapter. The basis for imposition of any discretionary surtax shall be set forth in s. 212.054. Fuels used exclusively in intrastate commerce do not qualify for the proration of tax.

3. The transmission or wheeling of electricity.

Section 16. *The Office of Program Policy Analysis and Government Accountability shall complete a report reviewing the taxation of natural gas fuel used to power motor vehicles under chapters 206 and 212, Florida Statutes. The report must, at a minimum: evaluate growth trends in the use of natural gas fuel; survey how other states tax natural gas fuel and the energy content related to compressed natural gas, liquefied natural gas, and liquefied petroleum gas, and incentives provided to consumers of such fuels; and survey consumers and suppliers of natural gas fuel. The report shall be submitted to the President of the Senate and the Speaker of the House of Representatives by December 1, 2017.*

Section 17. *Natural gas fuel fleet vehicle rebate program.—*

(1) **CREATION AND PURPOSE OF PROGRAM.**—*There is created within the Department of Agriculture and Consumer Services a natural gas fuel fleet vehicle rebate program. The purpose of this program is to help reduce transportation costs in this state and encourage freight mobility investments that contribute to the economic growth of the state.*

(2) **DEFINITIONS.**—*For purposes of this section, the term:*

(a) *“Conversion costs” means the excess cost associated with retrofitting a diesel or gasoline powered motor vehicle to a natural gas fuel powered motor vehicle.*

(b) *“Department” means the Department of Agriculture and Consumer Services.*

(c) *“Eligible costs” means the cost of conversion or the incremental cost incurred by an applicant in connection with an investment in the conversion, purchase, or lease lasting at least 5 years, of a natural gas fleet vehicle placed into service on or after July 1, 2013. The term does not include costs for project development, fueling stations, or other fueling infrastructure.*

(d) *“Fleet vehicles” means three or more motor vehicles registered in this state and used for commercial business or governmental purposes.*

This term includes, but is not limited to, all forms of fuel commonly or commercially known or sold as natural gasoline, butane gas, propane gas, or any other form of liquefied petroleum gas, compressed natural gas, or liquefied natural gas. This term does not include natural gas or liquefied petroleum placed in a separate tank of a motor vehicle for cooking, heating, water heating, or electric generation.*

(3) **NATURAL GAS FUEL FLEET VEHICLE REBATE.**—*The department shall award rebates for eligible costs as defined in this section. Forty percent of the annual allocation shall be reserved for governmental applicants, with the remaining funds allocated for commercial applicants. A rebate may not exceed 50 percent of the eligible costs of a natural gas fuel fleet vehicle with a dedicated or bi-fuel natural gas fuel operating system placed into service on or after July 1, 2013. An applicant is eligible to receive a maximum rebate of \$25,000 per vehicle up to a total of \$250,000 per fiscal year. All natural gas fuel fleet vehicles eligible for the rebate must comply with applicable United States Environmental Protection Agency emission standards.*

## PRAYER

The following prayer was offered by Dr. Marvin C. Zanders II, Pastor, St. Paul A.M.E. Church, Jacksonville:

God of our weary years and God of our silent years, God of our state and our nation, we honor you for your majesty, dominion, and authority. Gracious God, we come strongly looking to you as our sovereign creator of our state.

We come today petitioning you and your presence and your peace among this body of the Florida State Senate. God, we understand they have a great responsibility. We ask that you would grant them wisdom and courage for the facing of this hour and the living of these days. As we take a glance at our economy, the challenges, the health issues, and vast tragedies that daily fill up our newspapers and televisions, God, this Senate needs your protection, needs your wisdom, needs your discernment. Bless them, God, with wisdom to make wise decisions, hearts of sincerity, and genuine concerns. Help them to raise their voices of justice for all. Give them a mind to fight for what is right and honorable. Let discrimination, hatred of justice, fascism, racism, ageism, be put aside as they stand up for the common good of all. Bless their families, even as they are absent from them.

God, send your power among us this day. Give us peace and unity, guidance and courage. In thy name, we pray. Amen.

## RECONSIDERATION OF AMENDMENT

On motion by Senator Detert, the Senate reconsidered the vote by which **Amendment 1 (117882)** as amended was adopted April 29.

Pursuant to Rule 7.1(1), there being no objection, consideration of the following late-filed amendment was allowed:

Senator Altman moved the following amendment to **Amendment 1** which was adopted by two-thirds vote:

**Amendment 1D (206388) (with title amendment)**—Delete lines 5-64 and insert:

Section 1. Section 125.022, Florida Statutes, is amended to read:

125.022 Development permits.—When a county denies an application for a development permit, the county shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit. As used in this section, the term “development permit” has the same meaning as in s. 163.3164. For any development permit application filed with the county after July 1, 2012, a county may not require as a condition of processing or issuing a development permit that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the county action on the local development permit. Issuance of a development permit by a county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A county ~~shall~~ ~~may~~ attach such a disclaimer to the issuance of a development permit and ~~shall~~ ~~may~~ include a permit condition that all other applicable state or federal permits be obtained before commencement of the development. This section does not prohibit a county from providing information to an applicant regarding what other state or federal permits may apply.

Section 2. Section 162.12, Florida Statutes, is amended to read:

162.12 Notices.—

(1) All notices required by this part must be provided to the alleged violator by:

(a) Certified mail, *return receipt requested*, to the address listed in the tax collector's office for tax notices; or to ~~the address listed in the county property appraiser's database. The local government may also provide an additional notice to any other address it may find for~~ ~~provided by the property owner in writing to the local government for the purpose of receiving notices.~~ For property owned by a corporation, notices may be provided by certified mail to the registered agent of the corporation. If any notice sent by certified mail is not signed as received within 30 days after the *postmarked* date of mailing, notice may be provided by posting as described in subparagraphs (2)(b)1. and 2.;

(b) Hand delivery by the sheriff or other law enforcement officer, code inspector, or other person designated by the local governing body;

(c) Leaving the notice at the violator's usual place of residence with any person residing therein who is above 15 years of age and informing such person of the contents of the notice; or

(d) In the case of commercial premises, leaving the notice with the manager or other person in charge.

(2) In addition to providing notice as set forth in subsection (1), at the option of the code enforcement board ~~or the local government~~, notice may ~~also~~ be served by publication or posting, as follows:

(a)1. Such notice shall be published once during each week for 4 consecutive weeks (four publications being sufficient) in a newspaper of general circulation in the county where the code enforcement board is located. The newspaper shall meet such requirements as are prescribed under chapter 50 for legal and official advertisements.

2. Proof of publication shall be made as provided in ss. 50.041 and 50.051.

(b)1. In lieu of publication as described in paragraph (a), such notice may be posted at least 10 days prior to the hearing, or prior to the expiration of any deadline contained in the notice, in at least two locations, one of which shall be the property upon which the violation is alleged to exist and the other of which shall be, in the case of municipalities, at the primary municipal government office, and in the case of counties, at the front door of the courthouse or the main county governmental center in said county.

2. Proof of posting shall be by affidavit of the person posting the notice, which affidavit shall include a copy of the notice posted and the date and places of its posting.

(c) Notice by publication or posting may run concurrently with, or may follow, an attempt or attempts to provide notice by hand delivery or by mail as required under subsection (1).

Evidence that an attempt has been made to hand deliver or mail notice as provided in subsection (1), together with proof of publication or posting as provided in subsection (2), shall be sufficient to show that the notice requirements of this part have been met, without regard to whether or not the alleged violator actually received such notice.

Section 3. Section 166.033, Florida Statutes, is amended to read:

166.033 Development permits.—When a municipality denies an application for a development permit, the municipality shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit. As used in this section, the term “development permit” has the same meaning as in s. 163.3164. For any development permit application filed with the municipality after July 1, 2012, a municipality may not require as a condition of processing or issuing a development permit that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the municipal action on the local development permit. Issuance of a development permit by a municipality does not in any way create any right on the part of an applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the municipality for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A municipality ~~shall~~ ~~may~~ attach such a disclaimer to the issuance of development permits and ~~shall~~ ~~may~~ include a permit condition that all other applicable state or federal permits be obtained before commencement of the development. This section does not prohibit a municipality from providing information to an applicant regarding what other state or federal permits may apply.

And the title is amended as follows:

Delete lines 1328 and 1329 and insert: 125.022, F.S.; requiring counties to attach certain disclaimers and include certain permit conditions when issuing development permits; amending s. 162.12, F.S.; revising notice requirements in the Local Government Code Enforcement Boards Act; amending s. 166.033, F.S.; requiring municipalities to attach certain disclaimers and include certain permit conditions when issuing development permits;

121.021 Definitions.—The following words and phrases as used in this chapter have the respective meanings set forth unless a different meaning is plainly required by the context:

(45) “Vested” or “vesting” means the guarantee that a member is eligible to receive a future retirement benefit upon completion of the required years of creditable service for the employee’s class of membership, even though the member may have terminated covered employment before reaching normal or early retirement date. Being vested does not entitle a member to a disability benefit. Provisions governing entitlement to disability benefits are set forth under s. 121.091(4).

(a) Effective July 1, 2001, through June 30, 2011, a 6-year vesting requirement shall be implemented for the Florida Retirement System Pension Plan:

1. Any member employed in a regularly established position on July 1, 2001, who completes or has completed a total of 6 years of creditable service is considered vested.

2. Any member *initially enrolled in the Florida Retirement System before July 1, 2001, but not employed in a regularly established position on July 1, 2001*, shall be deemed vested upon completion of 6 years of creditable service if such member is employed in a covered position for at least 1 work year after July 1, 2001. However, a member is not required to complete more years of creditable service than would have been required for that member to vest under retirement laws in effect before July 1, 2001.

3. Any member initially enrolled in the Florida Retirement System on July 1, 2001, through June 30, 2011, shall be deemed vested upon completion of 6 years of creditable service.

121.051 Participation in the system.—

Employees initially enrolled in the Florida Retirement System prior to July 1, 2014, may retain their membership in the pension plan or investment plan and are eligible to use the election opportunity specified in s. 121.4501(4)(f). Employees initially enrolled on or after July 1, 2014, are not eligible to use the election opportunity specified in s. 121.4501(4)(f).*

The department may cancel an application for retirement benefits when the member or beneficiary fails to timely provide the information and documents required by this chapter and the department's rules. The department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application when the required information or documents are not received.

(4) DISABILITY RETIREMENT BENEFIT.—

1.a. A member who becomes totally and permanently disabled, as defined in paragraph (b), after completing 5 years of creditable service, or a member who becomes totally and permanently disabled in the line of duty regardless of service, is entitled to a monthly disability benefit; except that any member with less than 5 years of creditable service on July 1, 1980, or any person who becomes a member of the Florida Retirement System on or after such date must have completed 10 years of creditable service before becoming totally and permanently disabled in order to receive disability retirement benefits for any disability which occurs other than in the line of duty. However, if a member employed on July 1, 1980, who has less than 5 years of creditable service as of that date becomes totally and permanently disabled after completing 5 years of creditable service and is found not to have attained fully insured status for benefits under the federal Social Security Act, such member is entitled to a monthly disability benefit.

b. Effective July 1, 2001, a member of the pension plan *initially enrolled before July 1, 2014*, who becomes totally and permanently disabled, as defined in paragraph (b), after completing 8 years of creditable service, or a member who becomes totally and permanently disabled in the line of duty regardless of service, is entitled to a monthly disability benefit.

c. *Effective July 1, 2014, a member of the pension plan initially enrolled on or after July 1, 2014, who becomes totally and permanently disabled, as defined in paragraph (b), after completing 10 years of creditable service, or a member who becomes totally and permanently disabled in the line of duty regardless of service, is entitled to a monthly disability benefit.*

2. If the division has received from the employer the required documentation of the member's termination of employment, the effective retirement date for a member who applies and is approved for disability retirement shall be established by rule of the division.

3. For a member who is receiving Workers' Compensation payments, the effective disability retirement date may not precede the date the member reaches Maximum Medical Improvement (MMI), unless the member terminates employment before reaching MMI.

Section 6. Subsection (1), paragraph (i) of subsection (2), paragraph (b) of subsection (3), subsection (4), paragraph (c) of subsection (5), subsection (8), and paragraphs (a), (b), (c), and (h) of subsection (10) of section 121.4501, Florida Statutes, are amended to read:

121.4501 Florida Retirement System Investment Plan.—

(1) The Trustees of the State Board of Administration shall establish a defined contribution program called the "Florida Retirement System Investment Plan" or "investment plan" for members of the Florida Retirement System under which retirement benefits will be provided for eligible employees who elect to participate in the program and *for employees initially enrolled on or after July 1, 2014, in positions covered by the Elected Officers' Class or the Senior Management Service Class and are compulsory members of the investment plan unless otherwise eligible to withdraw from the system under s. 121.052(3)(d) or s. 121.055(1)(b)2., or to participate in an optional retirement program under s. 121.051(1)(a), s. 121.051(2)(c), or s. 121.35. Investment plan membership continues if there is subsequent employment in a position covered by another membership class.* The retirement benefits shall be provided through member-directed investments, in accordance with s. 401(a) of the Internal Revenue Code and related regulations. The employer and employee shall make contributions, as provided in this section and ss. 121.571 and 121.71, to the Florida Retirement System Investment Plan Trust Fund toward the funding of benefits.

(2) DEFINITIONS.—As used in this part, the term:

(i) "Member" or "employee" means an eligible employee who enrolls in *or is defaulted into* the investment plan as provided in subsection (4), a terminated Deferred Retirement Option Program member as described in subsection (21), or a beneficiary or alternate payee of a member or employee.

## (3) RETIREMENT SERVICE CREDIT; TRANSFER OF BENEFITS.—

(b) Notwithstanding paragraph (a), an eligible employee who elects to participate in *or is defaulted into* the investment plan and establishes one or more individual member accounts may elect to transfer to the investment plan a sum representing the present value of the employee's accumulated benefit obligation under the pension plan, *except as provided in paragraph (4)(b)*. Upon transfer, all service credit earned under the pension plan is nullified for purposes of entitlement to a future benefit under the pension plan. A member may not transfer the accumulated benefit obligation balance from the pension plan after the time period for enrolling in the investment plan has expired.

1. For purposes of this subsection, the present value of the member's accumulated benefit obligation is based upon the member's estimated creditable service and estimated average final compensation under the pension plan, subject to recomputation under subparagraph 2. For state employees, initial estimates shall be based upon creditable service and average final compensation as of midnight on June 30, 2002; for district school board employees, initial estimates shall be based upon creditable service and average final compensation as of midnight on September 30, 2002; and for local government employees, initial estimates shall be based upon creditable service and average final compensation as of midnight on December 31, 2002. The dates specified are the "estimate date" for these employees. The actuarial present value of the employee's accumulated benefit obligation shall be based on the following:

a. The discount rate and other relevant actuarial assumptions used to value the Florida Retirement System Trust Fund at the time the amount to be transferred is determined, consistent with the factors provided in sub-subparagraphs b. and c.

b. A benefit commencement age, based on the member's estimated creditable service as of the estimate date.

c. Except as provided under sub-subparagraph d., for a member initially enrolled:

(I) Before July 1, 2011, the benefit commencement age is the younger of the following, but may not be younger than the member's age as of the estimate date:

(A) Age 62; or

(B) The age the member would attain if the member completed 30 years of service with an employer, assuming the member worked continuously from the estimate date, and disregarding any vesting requirement that would otherwise apply under the pension plan.

(II) On or after July 1, 2011, the benefit commencement age is the younger of the following, but may not be younger than the member's age as of the estimate date:

(A) Age 65; or

(B) The age the member would attain if the member completed 33 years of service with an employer, assuming the member worked continuously from the estimate date, and disregarding any vesting requirement that would otherwise apply under the pension plan.

d. For members of the Special Risk Class and for members of the Special Risk Administrative Support Class entitled to retain the special risk normal retirement date:

(I) Initially enrolled before July 1, 2011, the benefit commencement age is the younger of the following, but may not be younger than the member's age as of the estimate date:

(A) Age 55; or

(B) The age the member would attain if the member completed 25 years of service with an employer, assuming the member worked continuously from the estimate date, and disregarding any vesting requirement that would otherwise apply under the pension plan.

(II) Initially enrolled on or after July 1, 2011, the benefit commencement age is the younger of the following, but may not be younger than the member's age as of the estimate date:

(A) Age 60; or

(B) The age the member would attain if the member completed 30 years of service with an employer, assuming the member worked continuously from the estimate date, and disregarding any vesting requirement that would otherwise apply under the pension plan.

e. The calculation must disregard vesting requirements and early retirement reduction factors that would otherwise apply under the pension plan.

2. For each member who elects to transfer moneys from the pension plan to his or her account in the investment plan, the division shall recompute the amount transferred under subparagraph 1. within 60 days after the actual transfer of funds based upon the member's actual creditable service and actual final average compensation as of the initial date of participation in the investment plan. If the recomputed amount differs from the amount transferred by \$10 or more, the division shall:

a. Transfer, or cause to be transferred, from the Florida Retirement System Trust Fund to the member's account the excess, if any, of the recomputed amount over the previously transferred amount together with interest from the initial date of transfer to the date of transfer under this subparagraph, based upon the effective annual interest equal to the assumed return on the actuarial investment which was used in the most recent actuarial valuation of the system, compounded annually.

b. Transfer, or cause to be transferred, from the member's account to the Florida Retirement System Trust Fund the excess, if any, of the previously transferred amount over the recomputed amount, together with interest from the initial date of transfer to the date of transfer under this subparagraph, based upon 6 percent effective annual interest, compounded annually, pro rata based on the member's allocation plan.

3. If contribution adjustments are made as a result of employer errors or corrections, including plan corrections, following recomputation of the amount transferred under subparagraph 1., the member is entitled to the additional contributions or is responsible for returning any excess contributions resulting from the correction. However, any return of such erroneous excess pretax contribution by the plan must be made within the period allowed by the Internal Revenue Service. The present value of the member's accumulated benefit obligation shall not be recalculated.

4. As directed by the member, the state board shall transfer or cause to be transferred the appropriate amounts to the designated accounts within 30 days after the effective date of the member's participation in the investment plan unless the major financial markets for securities available for a transfer are seriously disrupted by an unforeseen event that causes the suspension of trading on any national securities exchange in the country where the securities were issued. In that event, the 30-day period may be extended by a resolution of the state board. Transfers are not commissionable or subject to other fees and may be in the form of securities or cash, as determined by the state board. Such securities are valued as of the date of receipt in the member's account.

5. If the state board or the division receives notification from the United States Internal Revenue Service that this paragraph or any portion of this paragraph will cause the retirement system, or a portion thereof, to be disqualified for tax purposes under the Internal Revenue Code, the portion that will cause the disqualification does not apply. Upon such notice, the state board and the division shall notify the presiding officers of the Legislature.

choose to move from the pension plan to the investment plan or from the investment plan to the pension plan. Eligible employees may elect to move between plans only if they are earning service credit in an employer-employee relationship consistent with s. 121.021(17)(b), excluding leaves of absence without pay. Effective July 1, 2005, such elections are effective on the first day of the month following the receipt of the election by the third-party administrator and are not subject to the requirements regarding an employer-employee relationship or receipt of contributions for the eligible employee in the effective month, except when the election is received by the third-party administrator. This paragraph is contingent upon approval by the Internal Revenue Service. *This paragraph does not apply to compulsory investment plan members under paragraph (g).*

1. If the employee chooses to move to the investment plan, the provisions of subsection (3) govern the transfer.

2. If the employee chooses to move to the pension plan, the employee must transfer from his or her investment plan account, and from other employee moneys as necessary, a sum representing the present value of that employee's accumulated benefit obligation immediately following the time of such movement, determined assuming that attained service equals the sum of service in the pension plan and service in the investment plan. Benefit commencement occurs on the first date the employee is eligible for unreduced benefits, using the discount rate and other relevant actuarial assumptions that were used to value the pension plan liabilities in the most recent actuarial valuation. For any employee who, at the time of the second election, already maintains an accrued benefit amount in the pension plan, the then-present value of the accrued benefit is deemed part of the required transfer amount. The division must ensure that the transfer sum is prepared using a formula and methodology certified by an enrolled actuary. A refund of any employee contributions or additional member payments made which exceed the employee contributions that would have accrued had the member remained in the pension plan and not transferred to the investment plan is not permitted.

3. Notwithstanding subparagraph 2., an employee who chooses to move to the pension plan and who became eligible to participate in the investment plan by reason of employment in a regularly established position with a state employer after June 1, 2002; a district school board employer after September 1, 2002; or a local employer after December 1, 2002, must transfer from his or her investment plan account, and from other employee moneys as necessary, a sum representing the employee's actuarial accrued liability. A refund of any employee contributions or additional ~~member participant~~ payments made which exceed the employee contributions that would have accrued had the member remained in the pension plan and not transferred to the investment plan is not permitted.

4. An employee's ability to transfer from the pension plan to the investment plan pursuant to ~~paragraphs (a) and (b) paragraphs (a)-(d)~~, and the ability of a current employee to have an option to later transfer back into the pension plan under subparagraph 2., shall be deemed a significant system amendment. Pursuant to s. 121.031(4), any resulting unfunded liability arising from actual original transfers from the pension plan to the investment plan must be amortized within 30 plan years as a separate unfunded actuarial base independent of the reserve stabilization mechanism defined in s. 121.031(3)(f). For the first 25 years, a direct amortization payment may not be calculated for this base. During this 25-year period, the separate base shall be used to offset the impact of employees exercising their second program election under this paragraph. The actuarial funded status of the pension plan will not be affected by such second program elections in any significant manner, after due recognition of the separate unfunded actuarial base. Following the initial 25-year period, any remaining balance of the original separate base shall be amortized over the remaining 5 years of the required 30-year amortization period.

5. If the employee chooses to transfer from the investment plan to the pension plan and retains an excess account balance in the investment plan after satisfying the buy-in requirements under this paragraph, the excess may not be distributed until the member retires from the pension plan. The excess account balance may be rolled over to the pension plan and used to purchase service credit or upgrade creditable service in the pension plan.

(g) All employees initially enrolled on or after July 1, 2014, in positions covered by the Elected Officers' Class or the Senior Management Service Class are compulsory members of the investment plan, except those eligible to withdraw from the system under s. 121.052(3)(d) or s. 121.055(1)(b)2., or those eligible for optional retirement programs under s. 121.051(1)(a), s. 121.051(2)(c), or s. 121.35. Employees eligible to withdraw from the system under s. 121.052(3)(d) or s. 121.055(1)(b)2., may choose to withdraw from the system or to participate in the investment plan as provided in those sections. Employees eligible for optional retirement programs under s. 121.051(2)(c) or s. 121.35, except as provided in s. 121.051(1)(a), may choose to participate in the optional retirement program or the investment plan as provided in those sections. Investment plan membership continues if there is subsequent employment in a position covered by another membership class. Membership in the pension plan is not permitted except as provided in s. 121.591(2). Employees initially enrolled in the Florida Retirement System prior to July 1, 2014, may retain their membership in the pension plan or investment plan and are eligible to use the election opportunity specified in s. 121.4501(4)(f).

1. Officers and employees initially enrolled on or after July 1, 2014, who are in positions within the Elected Officers' Class or the Senior Management Service Class are not permitted to use the election opportunity specified in paragraph (f).

2. The amount of retirement contributions paid by the employee and employer, as required under s. 121.72, shall be placed in a default fund as designated by the state board, until an account is activated in the investment plan, at which time the member may move the contributions from the default fund to other funds provided in the investment plan.

#### (5) CONTRIBUTIONS.—

(c) The state board, acting as plan fiduciary, must ensure that all plan assets are held in a trust, pursuant to s. 401 of the Internal Revenue Code. The fiduciary must ensure that such contributions are allocated as follows:

1. The employer and employee contribution portion earmarked for member accounts shall be used to purchase interests in the appropriate investment vehicles as specified by the member, or in accordance with paragraph (4)(c) ~~(4)(d)~~.

2. The employer contribution portion earmarked for administrative and educational expenses shall be transferred to the Florida Retirement System Investment Plan Trust Fund.

3. The employer contribution portion earmarked for disability benefits shall be transferred to the Florida Retirement System Trust Fund.

(8) INVESTMENT PLAN ADMINISTRATION.—The investment plan shall be administered by the state board and affected employers. The state board may require oaths, by affidavit or otherwise, and acknowledgments from persons in connection with the administration of its statutory duties and responsibilities for the investment plan. An oath, by affidavit or otherwise, may not be required of a member at the time of enrollment. Acknowledgment of an employee's election to participate in the program shall be no greater than necessary to confirm the employee's election *except for members initially enrolled on or after July 1, 2014, as provided in paragraph (4)(g)*. The state board shall adopt rules to carry out its statutory duties with respect to administering the investment plan, including establishing the roles and responsibilities of affected state, local government, and education-related employers, the state board, the department, and third-party contractors. The department shall adopt rules necessary to administer the investment plan in coordination with the pension plan and the disability benefits available under the investment plan.

(a)1. The state board shall select and contract with a third-party administrator to provide administrative services if those services cannot be competitively and contractually provided by the division. With the approval of the state board, the third-party administrator may subcontract to provide components of the administrative services. As a cost of administration, the state board may compensate any such contractor for its services, in accordance with the terms of the contract, as is deemed necessary or proper by the board. The third-party administrator may not be an approved provider or be affiliated with an approved provider.

2. These administrative services may include, but are not limited to, enrollment of eligible employees, collection of employer and employee contributions, disbursement of contributions to approved providers in accordance with the allocation directions of members; services relating to consolidated billing; individual and collective recordkeeping and accounting; asset purchase, control, and safekeeping; and direct disbursement of funds to and from the third-party administrator, the division, the state board, employers, members, approved providers, and beneficiaries. This section does not prevent or prohibit a bundled provider from providing any administrative or customer service, including accounting and administration of individual member benefits and contributions; individual member recordkeeping; asset purchase, control, and safekeeping; direct execution of the member's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to member account information; or periodic reporting to members, at least quarterly, on account balances and transactions, if these services are authorized by the state board as part of the contract.

(b)1. The state board shall select and contract with one or more organizations to provide educational services. With approval of the state board, the organizations may subcontract to provide components of the educational services. As a cost of administration, the state board may compensate any such contractor for its services in accordance with the terms of the contract, as is deemed necessary or proper by the board. The education organization may not be an approved provider or be affiliated with an approved provider.

2. Educational services include, but are not limited to, disseminating educational materials; providing retirement planning education; explaining the pension plan and the investment plan; and offering financial planning guidance on matters such as investment diversification, investment risks, investment costs, and asset allocation. An approved provider may also provide educational information, including retirement planning and investment allocation information concerning its products and services.

(c)1. In evaluating and selecting a third-party administrator, the state board shall establish criteria for evaluating the relative capabilities and qualifications of each proposed administrator. In developing such criteria, the state board shall consider:

a. The administrator's demonstrated experience in providing administrative services to public or private sector retirement systems.

b. The administrator's demonstrated experience in providing daily valued recordkeeping to defined contribution programs.

c. The administrator's ability and willingness to coordinate its activities with employers, the state board, and the division, and to supply to such employers, the board, and the division the information and data they require, including, but not limited to, monthly management reports, quarterly member reports, and ad hoc reports requested by the department or state board.

d. The cost-effectiveness and levels of the administrative services provided.

e. f. Any other factor deemed necessary by the state board.

2. In evaluating and selecting an educational provider, the state board shall establish criteria under which it shall consider the relative capabilities and qualifications of each proposed educational provider. In developing such criteria, the state board shall consider:

a. Demonstrated experience in providing educational services to public or private sector retirement systems.

b. Ability and willingness to coordinate its activities with the employers, the state board, and the division, and to supply to such employers, the board, and the division the information and data they require, including, but not limited to, reports on educational contacts.

The third-party administrator shall retain all member records for at least 5 years for use in resolving any member conflicts. The state board, the third-party administrator, or a provider is not required to produce documentation or an audio recording to justify action taken with regard to a member if the action occurred 5 or more years before the complaint is submitted to the state board. 121.591 Payment of benefits.—Benefits may not be paid under the Florida Retirement System Investment Plan unless the member has terminated employment as provided in s. 121.021(39)(a) or is deceased and a proper application has been filed as prescribed by the state board or the department. Benefits, including employee contributions, are not payable under the investment plan for employee hardships, unforeseeable emergencies, loans, medical expenses, educational expenses, purchase of a principal residence, payments necessary to prevent eviction or foreclosure on an employee's principal residence, or any other reason except a requested distribution for retirement, a mandatory de minimis distribution authorized by the administrator, or a required minimum distribution provided pursuant to the Internal Revenue Code. The state board or department, as appropriate, may cancel an application for retirement benefits if the member or beneficiary fails to timely provide the information and documents required by this chapter and the rules of the state board and department. In accordance with their respective responsibilities, the state board and the department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application if the required information or documents are not received. The state board and the department, as appropriate, are authorized to cash out a de minimis account of a member who has been terminated from Florida Retirement System covered employment for a minimum of 6 calendar months. A de minimis account is an account containing employer and employee contributions and accumulated earnings of not more than \$5,000 made under the provisions of this chapter. Such cash-out must be a complete lump-sum liquidation of the account balance, subject to the provisions of the Internal Revenue Code, or a lump-sum direct rollover distribution paid directly to the custodian

of an eligible retirement plan, as defined by the Internal Revenue Code, on behalf of the member. Any nonvested accumulations and associated service credit, including amounts transferred to the suspense account of the Florida Retirement System Investment Plan Trust Fund authorized under s. 121.4501(6), shall be forfeited upon payment of any vested benefit to a member or beneficiary, except for de minimis distributions or minimum required distributions as provided under this section. If any financial instrument issued for the payment of retirement benefits under this section is not presented for payment within 180 days after the last day of the month in which it was originally issued, the third-party administrator or other duly authorized agent of the state board shall cancel the instrument and credit the amount of the instrument to the suspense account of the Florida Retirement System Investment Plan Trust Fund authorized under s. 121.4501(6). Any amounts transferred to the suspense account are payable upon a proper application, not to include earnings thereon, as provided in this section, within 10 years after the last day of the month in which the instrument was originally issued, after which time such amounts and any earnings attributable to employer contributions shall be forfeited. Any forfeited amounts are assets of the trust fund and are not subject to chapter 717.

(2) **DISABILITY RETIREMENT BENEFITS.**—Benefits provided under this subsection are payable in lieu of the benefits that would otherwise be payable under the provisions of subsection (1). Such benefits must be funded from employer contributions made under s. 121.571, transferred employee contributions and funds accumulated pursuant to paragraph (a), and interest and earnings thereon.

(b) *Disability retirement; entitlement.*—

2. In order for service to apply toward the 8 years of creditable service required for regular disability benefits, or toward the creditable service used in calculating a service-based benefit as provided under paragraph (g), the service must be creditable service as described below:

a. The member's period of service under the investment plan shall be considered creditable service, except as provided in subparagraph d.

b. If the member has elected to retain credit for service under the pension plan as provided under s. 121.4501(3), all such service shall be considered creditable service.

c. If the member elects to transfer to his or her member accounts a sum representing the present value of his or her retirement credit under the pension plan as provided under s. 121.4501(3), the period of service under the pension plan represented in the present value amounts transferred shall be considered creditable service, except as provided in subparagraph d.

d. If a member has terminated employment and has taken distribution of his or her funds as provided in subsection (1), all creditable service represented by such distributed funds is forfeited for purposes of this subsection.

Section 8. Section 238.072, Florida Statutes, is amended to read:

Within 30 days after the effective date of this act, each blind licensee who is eligible to maintain membership in the Florida Retirement System under s. 121.051(7)(b)1. ~~121.051(6)(b)1.~~, but who elects to withdraw from the system as provided in s. 121.051(7)(b)3. ~~121.051(6)(b)3.~~, must, on or before July 31, 1996, notify the Division of Blind Services and the Department of Management Services in writing of his or her election to withdraw. Failure to timely notify the divisions shall be deemed a decision to remain a compulsory member of the Florida Retirement System. However, if, at any time after July 1, 1996, sufficient funds are not paid by a blind licensee to cover the required contribution to the Florida Retirement System, that blind licensee shall become ineligible to participate in the Florida Retirement System on the last day of the first month for which no contribution is made or the amount contributed is insufficient to cover the required contribution. For any blind licensee who becomes ineligible to participate in the Florida Retirement System as described in this subsection, no creditable service shall be earned under the Florida Retirement System for any period following the month that retirement contributions ceased to be reported. However, any such person may participate in the Florida Retirement System in the future if employed by a participating employer in a covered position.

Section 10. *Effective July 1, 2013, the Pension Reform Study Committee is created for the purpose of reviewing, analyzing, and evaluating the sustainability of the Florida Retirement System and to recommend reforms to maintain and enhance the long-term viability and sustainability of the system.*

(2) *Members of the study committee must be appointed by July 31, 2013. By August 31, 2013, the study committee shall meet to establish procedures for the conduct of its business and to elect a chair and vice chair. The study committee shall meet at the call of the chair. A majority of the members constitutes a quorum, and a quorum is necessary for the purpose of voting on any action or recommendation of the study committee. All meetings shall be held in Tallahassee, unless otherwise decided by the study committee; however, no more than two such meetings may be held in other locations for the purpose of taking public testimony.*

(3) *The President of the Senate and the Speaker of the House of Representatives shall designate legislative staff knowledgeable in public pensions and the Florida Retirement System to assist the study committee and provide all necessary data collection, analysis, research, and support services.*

(4) *Study committee members shall serve without compensation but are entitled to be reimbursed for per diem and travel expenses as provided under s. 112.061, Florida Statutes.*

(5) *In reviewing, analyzing, and evaluating the sustainability of the Florida Retirement System, and recommending reforms to maintain and enhance the long-term viability and sustainability of the system, the study committee shall, at a minimum, consider the funding structure of the system, system funding levels, benefits provided, and the benefits of reforming the system structure, which must include the benefits of provid-*

ing a hybrid or cash-balance option in lieu of or in addition to the current plan choices.

(6) *The study committee shall submit a final report of its recommendations to the President of the Senate and the Speaker of the House of Representatives by January 1, 2014.*

Section 11. *The Legislature finds that a proper and legitimate state purpose is served when employees and retirees of the state and its political subdivisions, and the dependents, survivors, and beneficiaries of such employees and retirees, are extended the basic protections afforded by governmental retirement systems. These persons must be provided benefits that are fair and adequate and that are managed, administered, and funded in an actuarially sound manner, as required by s. 14, Article X of the State Constitution and part VII of chapter 112, Florida Statutes. Section 1. Paragraph (c) of subsection (2) of section 121.051, Florida Statutes, is amended, subsections (3) through (9) of that section are renumbered as subsections (4) through (10), respectively, and a new subsection (3) is added to that section, to read:

121.051 Participation in the system.—

(2) OPTIONAL PARTICIPATION.—

(c) Employees of public community colleges or charter technical career centers sponsored by public community colleges, designated in s. 1000.21(3), who are members of the Regular Class of the Florida Retirement System and who comply with the criteria set forth in this paragraph and s. 1012.875 may, in lieu of participating in the Florida Retirement System, elect to withdraw from the system altogether and participate in the State Community College System Optional Retirement Program provided by the employing agency under s. 1012.875.

1.a. Through June 30, 2001, the cost to the employer for benefits under the optional retirement program equals the normal cost portion of the employer retirement contribution which would be required if the employee were a member of the pension plan’s Regular Class, plus the portion of the contribution rate required by s. 112.363(8) which would otherwise be assigned to the Retiree Health Insurance Subsidy Trust Fund.

b. Effective July 1, 2001, through June 30, 2011, each employer shall contribute on behalf of each member of the optional program an amount equal to 10.43 percent of the employee’s gross monthly compensation. The employer shall deduct an amount for the administration of the program.

c. Effective July 1, 2011, through June 30, 2012, each member shall contribute an amount equal to the employee contribution required under s. 121.71(3). The employer shall contribute on behalf of each program member an amount equal to the difference between 10.43 percent of the employee’s gross monthly compensation and the employee’s required contribution based on the employee’s gross monthly compensation.

d. Effective July 1, 2012, each member shall contribute an amount equal to the employee contribution required under s. 121.71(3). The employer shall contribute on behalf of each program member an amount equal to the difference between 8.15 percent of the employee’s gross monthly compensation and the employee’s required contribution based on the employee’s gross monthly compensation.

e. The employer shall contribute an additional amount to the Florida Retirement System Trust Fund equal to the unfunded actuarial accrued liability portion of the Regular Class contribution rate.

2. The decision to participate in the optional retirement program is irrevocable as long as the employee holds a position eligible for participation, except as provided in subparagraph 3. Any service creditable under the Florida Retirement System is retained after the member withdraws from the system; however, additional service credit in the system may not be earned while a member of the optional retirement program.

3. *Effective July 1, 2003, through December 31, 2014*, an employee who has elected to participate in the optional retirement program shall have one opportunity, at the employee’s discretion, to transfer from the optional retirement program to the pension plan of the Florida Retirement System or to the investment plan established under part II of this chapter, subject to the terms of the applicable optional retirement program contracts. *Except as provided in subsection (3), an employee participating in the optional retirement program on or after January 1, 2015, is not eligible to transfer to the Florida Retirement System.*

a. If the employee chooses to move to the investment plan, any contributions, interest, and earnings creditable to the employee under the optional retirement program are retained by the employee in the optional retirement program, and the applicable provisions of s. 121.4501(4) govern the election.

b. If the employee chooses to move to the pension plan of the Florida Retirement System, the employee shall receive service credit equal to his or her years of service under the optional retirement program.

(I) The cost for such credit is the amount representing the present value of the employee’s accumulated benefit obligation for the affected period of service. The cost shall be calculated as if the benefit commencement occurs on the first date the employee becomes eligible for unreduced benefits, using the discount rate and other relevant actuarial assumptions that were used to value the Florida Retirement System Pension Plan liabilities in the most recent actuarial valuation. The calculation must include any service already maintained under the pension plan in addition to the years under the optional retirement program. The

present value of any service already maintained must be applied as a credit to total cost resulting from the calculation. The division must ensure that the transfer sum is prepared using a formula and methodology certified by an enrolled actuary.

(II) The employee must transfer from his or her optional retirement program account and from other employee moneys as necessary, a sum representing the present value of the employee's accumulated benefit obligation immediately following the time of such movement, determined assuming that attained service equals the sum of service in the pension plan and service in the optional retirement program.

4. Participation in the optional retirement program is limited to employees who satisfy the following eligibility criteria:

a. The employee is otherwise eligible for membership or renewed membership in the Regular Class of the Florida Retirement System, as provided in s. 121.021(11) and (12) or s. 121.122.

b. The employee is employed in a full-time position classified in the Accounting Manual for Florida's Public Community Colleges as:

(I) Instructional; or

(II) Executive Management, Instructional Management, or Institutional Management and the community college determines that recruiting to fill a vacancy in the position is to be conducted in the national or regional market, and the duties and responsibilities of the position include the formulation, interpretation, or implementation of policies, or the performance of functions that are unique or specialized within higher education and that frequently support the mission of the community college.

c. The employee is employed in a position not included in the Senior Management Service Class of the Florida Retirement System as described in s. 121.055.

5. Members of the program are subject to the same reemployment limitations, renewed membership provisions, and forfeiture provisions applicable to regular members of the Florida Retirement System under ss. 121.091(9), 121.122, and 121.091(5), respectively. A member who receives a program distribution funded by employer and required employee contributions is deemed to be retired from a state-administered retirement system if the member is subsequently employed with an employer that participates in the Florida Retirement System.

6. Eligible community college employees are compulsory members of the Florida Retirement System until, pursuant to s. 1012.875, a written election to withdraw from the system and participate in the optional retirement program is filed with the program administrator and received by the division.

a. A community college employee whose program eligibility results from initial employment shall be enrolled in the optional retirement program retroactive to the first day of eligible employment. The employer and employee retirement contributions paid through the month of the employee plan change shall be transferred to the community college to the employee's optional program account, and, effective the first day of the next month, the employer shall pay the applicable contributions based upon subparagraph 1.

b. A community college employee whose program eligibility is due to the subsequent designation of the employee's position as one of those specified in subparagraph 4., or due to the employee's appointment, promotion, transfer, or reclassification to a position specified in subparagraph 4., must be enrolled in the program on the first day of the first full calendar month that such change in status becomes effective. The employer and employee retirement contributions paid from the effective date through the month of the employee plan change must be transferred to the community college to the employee's optional program account, and, effective the first day of the next month, the employer shall pay the applicable contributions based upon subparagraph 1.

7. Effective July 1, 2003, through December 31, 2008, any member of the optional retirement program who has service credit in the pension plan of the Florida Retirement System for the period between his or her first eligibility to transfer from the pension plan to the optional retirement program and the actual date of transfer may, during employment, transfer to the optional retirement program a sum representing the

present value of the accumulated benefit obligation under the defined benefit retirement program for the period of service credit. Upon transfer, all service credit previously earned under the pension plan during this period is nullified for purposes of entitlement to a future benefit under the pension plan.

### (3) INVESTMENT PLAN MEMBERSHIP COMPULSORY.-

Employees initially enrolled on or after January 1, 2015, are not eligible to use the election opportunity specified in s. 121.4501(4)(e).

A retiree who is initially reemployed in a regularly established position on or after July 1, 2010, is not eligible to be enrolled in renewed membership.~~

~~(e)(g) After the period during which an eligible employee initially enrolled before January 1, 2015, had the choice to elect the pension plan or the investment plan, or the month following the receipt of the eligible employee's plan election, if sooner, the employee shall have one oppor-~~

tunity, at the employee's discretion, to choose to move from the pension plan to the investment plan or from the investment plan to the pension plan. Eligible employees may elect to move between plans only if they are earning service credit in an employer-employee relationship consistent with s. 121.021(17)(b), excluding leaves of absence without pay. Effective July 1, 2005, such elections are effective on the first day of the month following the receipt of the election by the third-party administrator and are not subject to the requirements regarding an employer-employee relationship or receipt of contributions for the eligible employee in the effective month, except when the election is received by the third-party administrator. This paragraph is contingent upon approval by the Internal Revenue Service.

1. If the employee chooses to move to the investment plan, the provisions of subsection (3) govern the transfer.

2. If the employee chooses to move to the pension plan, the employee must transfer from his or her investment plan account, and from other employee moneys as necessary, a sum representing the present value of that employee's accumulated benefit obligation immediately following the time of such movement, determined assuming that attained service equals the sum of service in the pension plan and service in the investment plan. Benefit commencement occurs on the first date the employee is eligible for unreduced benefits, using the discount rate and other relevant actuarial assumptions that were used to value the pension plan liabilities in the most recent actuarial valuation. For any employee who, at the time of the second election, already maintains an accrued benefit amount in the pension plan, the then-present value of the accrued benefit is deemed part of the required transfer amount. The division must ensure that the transfer sum is prepared using a formula and methodology certified by an enrolled actuary. A refund of any employee contributions or additional member payments made which exceed the employee contributions that would have accrued had the member remained in the pension plan and not transferred to the investment plan is not permitted.

3. Notwithstanding subparagraph 2., an employee who chooses to move to the pension plan and who became eligible to participate in the investment plan by reason of employment in a regularly established position with a state employer after June 1, 2002; a district school board employer after September 1, 2002; or a local employer after December 1, 2002, must transfer from his or her investment plan account, and from other employee moneys as necessary, a sum representing the employee's actuarial accrued liability. A refund of any employee contributions or additional member participant payments made which exceed the employee contributions that would have accrued had the member remained in the pension plan and not transferred to the investment plan is not permitted.

4. An employee's ability to transfer from the pension plan to the investment plan pursuant to ~~paragraph (a)~~ paragraphs (a)-(d), and the ability of a current employee to have an option to later transfer back into the pension plan under subparagraph 2., shall be deemed a significant system amendment. Pursuant to s. 121.031(4), any resulting unfunded liability arising from actual original transfers from the pension plan to the investment plan must be amortized within 30 plan years as a separate unfunded actuarial base independent of the reserve stabilization mechanism defined in s. 121.031(3)(f). For the first 25 years, a direct amortization payment may not be calculated for this base. During this 25-year period, the separate base shall be used to offset the impact of employees exercising their second program election under this paragraph. The actuarial funded status of the pension plan will not be affected by such second program elections in any significant manner, after due recognition of the separate unfunded actuarial base. Following the initial 25-year period, any remaining balance of the original separate base shall be amortized over the remaining 5 years of the required 30-year amortization period.

5. If the employee chooses to transfer from the investment plan to the pension plan and retains an excess account balance in the investment plan after satisfying the buy-in requirements under this paragraph, the excess may not be distributed until the member retires from the pension plan. The excess account balance may be rolled over to the pension plan and used to purchase service credit or upgrade creditable service in the pension plan.

(f) All eligible employees, except those eligible to withdraw from the system under s. 121.052(3)(d) or s. 121.055(1)(b)2., or those eligible for

*optional retirement programs under s. 121.051(1)(a), s. 121.051(2)(c), or s. 121.35, initially enrolled on or after January 1, 2015, are compulsory members of the investment plan. Employees eligible to withdraw from the system under s. 121.052(3)(d) or s. 121.055(1)(b)2., may choose to withdraw from the system or to participate in the investment plan as provided in those sections. Employees eligible for optional retirement programs under s. 121.051(2)(c) or s. 121.35, except as provided in s. 121.051(1)(a), may choose to participate in the optional retirement program or the investment plan as provided in those sections. Membership in the pension plan is not permitted except as provided in s. 121.591(2).*

1. Employees initially enrolled on or after January 1, 2015, are not permitted to use the election opportunity specified in paragraph (e).

2. The amount of retirement contributions paid by the employee and employer, as required under s. 121.72, shall be placed in a default fund as designated by the state board, until an account is activated in the investment plan, at which time the member may move the contributions from the default fund to other funds provided in the investment plan.

#### (5) CONTRIBUTIONS.—

(c) The state board, acting as plan fiduciary, must ensure that all plan assets are held in a trust, pursuant to s. 401 of the Internal Revenue Code. The fiduciary must ensure that such contributions are allocated as follows:

1. The employer and employee contribution portion earmarked for member accounts shall be used to purchase interests in the appropriate investment vehicles as specified by the member, or in accordance with paragraph (4)(b) ~~(4)(d)~~.

2. The employer contribution portion earmarked for administrative and educational expenses shall be transferred to the Florida Retirement System Investment Plan Trust Fund.

3. The employer contribution portion earmarked for disability benefits shall be transferred to the Florida Retirement System Trust Fund.

(8) INVESTMENT PLAN ADMINISTRATION.—The investment plan shall be administered by the state board and affected employers. The state board may require oaths, by affidavit or otherwise, and acknowledgments from persons in connection with the administration of its statutory duties and responsibilities for the investment plan. An oath, by affidavit or otherwise, may not be required of a member at the time of enrollment. For members initially enrolled before January 1, 2015, acknowledgment of an employee's election to participate in the program shall be no greater than necessary to confirm the employee's election. The state board shall adopt rules to carry out its statutory duties with respect to administering the investment plan, including establishing the roles and responsibilities of affected state, local government, and education-related employers, the state board, the department, and third-party contractors. The department shall adopt rules necessary to administer the investment plan in coordination with the pension plan and the disability benefits available under the investment plan.

(a)1. The state board shall select and contract with a third-party administrator to provide administrative services if those services cannot be competitively and contractually provided by the division. With the approval of the state board, the third-party administrator may subcontract to provide components of the administrative services. As a cost of administration, the state board may compensate any such contractor for its services, in accordance with the terms of the contract, as is deemed necessary or proper by the board. The third-party administrator may not be an approved provider or be affiliated with an approved provider.

2. These administrative services may include, but are not limited to, enrollment of eligible employees, collection of employer and employee contributions, disbursement of contributions to approved providers in accordance with the allocation directions of members; services relating to consolidated billing; individual and collective recordkeeping and accounting; asset purchase, control, and safekeeping; and direct disbursement of funds to and from the third-party administrator, the division, the state board, employers, members, approved providers, and beneficiaries. This section does not prevent or prohibit a bundled provider from providing any administrative or customer service, including accounting and administration of individual member benefits and con-

tributions; individual member recordkeeping; asset purchase, control, and safekeeping; direct execution of the member's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to member account information; or periodic reporting to members, at least quarterly, on account balances and transactions, if these services are authorized by the state board as part of the contract.

(b)1. The state board shall select and contract with one or more organizations to provide educational services. With approval of the state board, the organizations may subcontract to provide components of the educational services. As a cost of administration, the state board may compensate any such contractor for its services in accordance with the terms of the contract, as is deemed necessary or proper by the board. The education organization may not be an approved provider or be affiliated with an approved provider.

2. Educational services shall be designed by the state board and department to assist employers, eligible employees, members, and beneficiaries in order to maintain compliance with United States Department of Labor regulations under s. 404(c) of the Employee Retirement Income Security Act of 1974 and to assist employees in their choice of pension plan or investment plan retirement alternatives. Educational services include, but are not limited to, disseminating educational materials; providing retirement planning education; explaining the pension plan and the investment plan; and offering financial planning guidance on matters such as investment diversification, investment risks, investment costs, and asset allocation. An approved provider may also provide educational information, including retirement planning and investment allocation information concerning its products and services.

(c)1. In evaluating and selecting a third-party administrator, the state board shall establish criteria for evaluating the relative capabilities and qualifications of each proposed administrator. In developing such criteria, the state board shall consider:

a. The administrator's demonstrated experience in providing administrative services to public or private sector retirement systems.

b. The administrator's demonstrated experience in providing daily valued recordkeeping to defined contribution programs.

c. The administrator's ability and willingness to coordinate its activities with employers, the state board, and the division, and to supply to such employers, the board, and the division the information and data they require, including, but not limited to, monthly management reports, quarterly member reports, and ad hoc reports requested by the department or state board.

d. The cost-effectiveness and levels of the administrative services provided.

e. The administrator's ability to interact with the members, the employers, the state board, the division, and the providers; the means by which members may access account information, direct investment of contributions, make changes to their accounts, transfer moneys between available investment vehicles, and transfer moneys between investment products; and any fees that apply to such activities.

f. Any other factor deemed necessary by the state board.

2. In evaluating and selecting an educational provider, the state board shall establish criteria under which it shall consider the relative capabilities and qualifications of each proposed educational provider. In developing such criteria, the state board shall consider:

a. Demonstrated experience in providing educational services to public or private sector retirement systems.

b. Ability and willingness to coordinate its activities with the employers, the state board, and the division, and to supply to such employers, the board, and the division the information and data they require, including, but not limited to, reports on educational contacts.

c. The cost-effectiveness and levels of the educational services provided.

d. Ability to provide educational services via different media, including, but not limited to, the Internet, personal contact, seminars, brochures, and newsletters.

- e. Any other factor deemed necessary by the state board.
- 3. The establishment of the criteria shall be solely within the discretion of the state board.

(d) The state board shall develop the form and content of any contracts to be offered under the investment plan. In developing the contracts, the board shall consider:

- 1. The nature and extent of the rights and benefits to be afforded in relation to the contributions required under the plan.
- 2. The suitability of the rights and benefits provided and the interests of employers in the recruitment and retention of eligible employees.

(e)1. The state board may contract for professional services, including legal, consulting, accounting, and actuarial services, deemed necessary to implement and administer the investment plan. The state board may enter into a contract with one or more vendors to provide low-cost investment advice to members, supplemental to education provided by the third-party administrator. All fees under any such contract shall be paid by those members who choose to use the services of the vendor.

2. The department may contract for professional services, including legal, consulting, accounting, and actuarial services, deemed necessary to implement and administer the investment plan in coordination with the pension plan. The department, in coordination with the state board, may enter into a contract with the third-party administrator in order to coordinate services common to the various programs within the Florida Retirement System.

(f) The third-party administrator may not receive direct or indirect compensation from an approved provider, except as specifically provided for in the contract with the state board.

(g) The state board shall receive and resolve member complaints against the program, the third-party administrator, or any program vendor or provider; shall resolve any conflict between the third-party administrator and an approved provider if such conflict threatens the implementation or administration of the program or the quality of services to employees; and may resolve any other conflicts. The third-party administrator shall retain all member records for at least 5 years for use in resolving any member conflicts. The state board, the third-party administrator, or a provider is not required to produce documentation or an audio recording to justify action taken with regard to a member if the action occurred 5 or more years before the complaint is submitted to the state board. It is presumed that all action taken 5 or more years before the complaint is submitted was taken at the request of the member and with the member's full knowledge and consent. To overcome this presumption, the member must present documentary evidence or an audio recording demonstrating otherwise.

#### (9) INVESTMENT OPTIONS OR PRODUCTS; PERFORMANCE REVIEW.—

(a) The state board shall develop policy and procedures for selecting, evaluating, and monitoring the performance of approved providers and investment products under the investment plan. In accordance with such policy and procedures, the state board shall designate and contract for a number of investment products as determined by the board. The board shall also select one or more bundled providers, each of which may offer multiple investment options and related services, if such approach is determined by the board to provide value to the members otherwise not available through individual investment products. Each approved bundled provider may offer investment options that provide members with the opportunity to invest in each of the following asset classes, to be composed of individual options that represent a single asset class or a combination thereof: money markets, United States fixed income, United States equities, and foreign stock. The state board shall review and manage all educational materials, contract terms, fee schedules, and other aspects of the approved provider relationships to ensure that no provider is unduly favored or penalized by virtue of its status within the investment plan. *Additionally, the state board, consistent with its fiduciary responsibilities, shall develop one or more investment products to be offered in the investment plan.*

(h) *A self-directed brokerage account shall be offered as a service to investment plan members.*

In case of conflict with other provisions of law authorizing investments, the investment and fiduciary standards set forth in this subsection shall prevail.

(c) Subparagraph (8)(b)2. and paragraph (b) incorporate the federal law concept of participant control, established by regulations of the United States Department of Labor under s. 404(c) of the Employee Retirement Income Security Act of 1974 (ERISA). a. Electronically-delivered documents are prepared and provided consistent with style, format, and content requirements applicable to printed documents;

Any amounts transferred to the suspense account are payable upon a proper application, not to include earnings thereon, as provided in this section, within 10 years after the last day of the month in which the instrument was originally issued, after which time such amounts and any earnings attributable to employer contributions shall be forfeited. Any forfeited amounts are assets of the trust fund and are not subject to chapter 717.

c.2. A partial lump-sum payment whereby a portion of the accrued benefit is paid to the deceased member's surviving spouse or other designated beneficiaries, less withholding taxes remitted to the Internal Revenue Service, and the remaining amount is transferred directly to the custodian of an eligible retirement plan, if permitted, as described in s. 402(c)(8)(B) of the Internal Revenue Code, on behalf of the surviving spouse. The proportions must be specified by the member or the surviving beneficiary.

For any blind licensee who becomes ineligible to participate in the Florida Retirement System as described in this subsection, no creditable service shall be earned under the Florida Retirement System for any period following the month that retirement contributions ceased to be reported. However, any such person may participate in the Florida Retirement System in the future if employed by a participating employer in a covered position.

3. This paragraph does not waive a district school board's sovereign immunity.

4. A Florida College System institution may work with the school district or school districts in its designated service area to develop charter schools that offer secondary education. These charter schools must include an option for students to receive an associate degree upon high school graduation. *If a Florida College System institution operates an approved teacher preparation program under s. 1004.04 or s. 1004.85, the institution may operate no more than one charter school that serves students in kindergarten through grade 12. A charter school may use, but may not be required to use, a school district for these services. The interlocal agreement must include, but need not be limited to, the identification of fees that charter schools will be charged for such services. The fees must consist of the governmental entity's fees plus a fee for the school district to recover no more than actual costs for providing such services. These services and fees are not included within the services to be provided pursuant to subsection (20).*

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using an evaluation instrument developed by the Department of Education. A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted ~~applications~~ later than August 1 ~~this date~~ if it chooses. *In order to facilitate greater collaboration in the application process, an applicant may submit a draft charter school application on or before May 1 with an application fee of \$500. If a draft application is timely submitted, the sponsor shall review and provide feedback as to material deficiencies in the application by July 1. The applicant shall then have until August 1 to resubmit a revised and final application. The sponsor may approve the draft application.* A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a ~~final an~~ application upon the promise of future payment of any kind. Before approving or denying any final application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 60 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the charter application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application does not materially comply with the requirements in paragraph (a);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application directly to the State Board of Education pursuant to sub-subparagraph (c)3.b.

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of a charter application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. Upon approval of a charter application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted unless the sponsor allows a waiver of this subparagraph for good cause.

(c1). An applicant may appeal any denial of that applicant's application or failure to act on an application to the State Board of Education no later than 30 calendar days after receipt of the sponsor's decision or failure to act and shall notify the sponsor of its appeal. Any response of the sponsor shall be submitted to the State Board of Education within 30 calendar days after notification of the appeal. Upon receipt of notification from the State Board of Education that a charter school applicant is filing an appeal, the Commissioner of Education shall convene a meeting of the Charter School Appeal Commission to study and make recommendations to the State Board of Education regarding its pending decision about the appeal. The commission shall forward its recommendation to the state board ~~at least no later than~~ 7 calendar days before ~~prior to~~ the date on which the appeal is to be heard. *An appeal regarding the denial of an application submitted by a high-performing charter school pursuant to s. 1002.331 shall be conducted by the State Board of Education in accordance with this paragraph, except that the commission shall not convene to make recommendations regarding the appeal. However, the Commissioner of Education shall review the appeal and make a recommendation to the state board.*

2. The Charter School Appeal Commission or, in the case of an appeal regarding an application submitted by a high-performing charter school, the State Board of Education may reject an appeal submission for failure to comply with procedural rules governing the appeals process. The rejection shall describe the submission errors. The appellant shall have 15 calendar days after notice of rejection in which to resubmit an appeal that meets the requirements set forth in State Board of Education rule. An appeal submitted subsequent to such rejection is considered timely if the original appeal was filed within 30 calendar days after receipt of

notice of the specific reasons for the sponsor's denial of the charter application.

3.a. The State Board of Education shall by majority vote accept or reject the decision of the sponsor no later than 90 calendar days after an appeal is filed in accordance with State Board of Education rule. The State Board of Education shall remand the application to the sponsor with its written decision that the sponsor approve or deny the application. The sponsor shall implement the decision of the State Board of Education. The decision of the State Board of Education is not subject to the provisions of the Administrative Procedure Act, chapter 120.

b. If an appeal concerns an application submitted by a high-performing charter school identified pursuant to s. 1002.331, the State Board of Education shall determine whether the sponsor has shown, by clear and convincing evidence, that:

(I) The application does not materially comply with the requirements in paragraph (a);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

The State Board of Education shall approve or reject the sponsor's denial of an application no later than 90 calendar days after an appeal is filed in accordance with State Board of Education rule. The State Board of Education shall remand the application to the sponsor with its written decision that the sponsor approve or deny the application. The sponsor shall implement the decision of the State Board of Education. The decision of the State Board of Education is not subject to the Administrative Procedure Act, chapter 120.

(h) The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor ~~may~~ **shall** not impose unreasonable rules or regulations that violate the intent of giving charter schools greater flexibility to meet educational goals. The sponsor ~~has 30 days after approval of the application to provide an initial proposed charter contract to the charter school.~~ The applicant and the sponsor ~~have 40 days thereafter to negotiate and notice the charter contract for final approval by the sponsor unless both parties agree to an extension.~~ The proposed charter contract shall be provided to the charter school at least 7 calendar days prior to the date of the meeting at which the charter is scheduled to be voted upon by the sponsor. The Department of Education shall provide mediation services for any dispute regarding this section subsequent to the approval of a charter application and for any dispute relating to the approved charter, except disputes regarding charter school application denials. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge ~~has final order authority to~~ **may** rule on issues of equitable treatment of the charter school as a public school, whether proposed provisions of the charter violate the intended flexibility granted charter schools by statute, or on any other matter regarding this section except a charter school application denial, a charter termination, or a charter nonrenewal and shall award the prevailing party reasonable attorney's fees and costs incurred to be paid by the losing party. The costs of the administrative hearing shall be paid by the party whom the administrative law judge rules against.

(7) CHARTER.—The major issues involving the operation of a charter school shall be considered in advance and written into the charter. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school's mission, the students to be served, and the ages and grades to be included.

2. The focus of the curriculum, the instructional methods to be used, any distinctive instructional techniques to be employed, and identification and acquisition of appropriate technologies needed to improve educational and administrative performance which include a means for promoting safe, ethical, and appropriate uses of technology which comply with legal and professional standards.

a. The charter shall ensure that reading is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are reading below grade level. The curriculum and instructional strategies for reading must be consistent with the *Next Generation Sunshine State Standards* and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. Students in a blended learning course must be full-time students of the charter school and receive the online instruction in a classroom setting at the charter school. Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

The district school board is required to provide academic student performance data to charter schools for each of their students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. The methods shall provide a means for the charter school to ensure accountability to its constituents by analyzing student performance data and by evaluating the effectiveness and efficiency of its major educational programs. Students in charter schools shall, at a minimum, participate in the statewide assessment program created under s. 1008.22.

5. In secondary charter schools, a method for determining that a student has satisfied the requirements for graduation in s. 1003.428, s. 1003.429, or s. 1003.43.

6. A method for resolving conflicts between the governing board of the charter school and the sponsor.

7. The admissions procedures and dismissal procedures, including the school's code of student conduct.

8. The ways by which the school will achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other public schools in the same school district.

9. The financial and administrative management of the school, including a reasonable demonstration of the professional experience or competence of those individuals or organizations applying to operate the charter school or those hired or retained to perform such professional services and the description of clearly delineated responsibilities and the policies and practices needed to effectively manage the charter school. A description of internal audit procedures and establishment of controls to ensure that financial resources are properly managed must be included. Both public sector and private sector professional experience shall be equally valid in such a consideration.

10. The asset and liability projections required in the application which are incorporated into the charter and shall be compared with information provided in the annual report of the charter school.

11. A description of procedures that identify various risks and provide for a comprehensive approach to reduce the impact of losses; plans to ensure the safety and security of students and staff; plans to identify, minimize, and protect others from violent or disruptive student behavior; and the manner in which the school will be insured, including whether or not the school will be required to have liability insurance, and, if so, the terms and conditions thereof and the amounts of coverage.

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for 4 or 5 years. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the district school board. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the district school board. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but only according to the provisions set forth in subsection (8).

13. The facilities to be used and their location. *The sponsor may not require a charter school to have a certificate of occupancy or a temporary certificate of occupancy for such a facility earlier than 15 calendar days before the first day of school.*

14. The qualifications to be required of the teachers and the potential strategies used to recruit, hire, train, and retain qualified staff to achieve best value.

15. The governance structure of the school, including the status of the charter school as a public or private employer as required in paragraph (12)(i).

16. A timetable for implementing the charter which addresses the implementation of each element thereof and the date by which the charter shall be awarded in order to meet this timetable.

17. In the case of an existing public school that is being converted to charter status, alternative arrangements for current students who choose not to attend the charter school and for current teachers who choose not to teach in the charter school after conversion in accordance with the existing collective bargaining agreement or district school board rule in the absence of a collective bargaining agreement. However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. For the purpose of this subparagraph, the term "relative" means

father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister.

19. Implementation of the activities authorized under s. 1002.331 by the charter school when it satisfies the eligibility requirements for a high-performing charter school. A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(c) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both parties to the agreement. *Modification may include, but is not limited to, consolidation of multiple charters into a single charter if the charters are operated under the same governing board and physically located on the same campus, regardless of the renewal cycle.*

#### (8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(a) *The sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate the charter. The sponsor may also choose not to renew or may terminate the charter for any of the following grounds:*

1. Failure to participate in the state's education accountability system created in s. 1008.31, as required in this section, or failure to meet the requirements for student performance stated in the charter.
2. Failure to meet generally accepted standards of fiscal management.
3. Violation of law.
4. Other good cause shown.

#### (9) CHARTER SCHOOL REQUIREMENTS.—

(g)1. In order to provide financial information that is comparable to that reported for other public schools, charter schools are to maintain all financial records that constitute their accounting system:

~~a.1.~~ In accordance with the accounts and codes prescribed in the most recent issuance of the publication titled "Financial and Program Cost Accounting and Reporting for Florida Schools"; or

~~b.2.~~ At the discretion of the charter school's governing board, a charter school may elect to follow generally accepted accounting standards for not-for-profit organizations, but must reformat this information for reporting according to this paragraph.

2. Charter schools shall provide annual financial report and program cost report information in the state-required formats for inclusion in district reporting in compliance with s. 1011.60(1). Charter schools that are operated by a municipality or are a component unit of a parent nonprofit organization may use the accounting system of the municipality or the parent but must reformat this information for reporting according to this paragraph.

3. *A charter school shall provide the sponsor with a concise, uniform, monthly financial statement summary sheet that contains a balance sheet and a statement of revenue, expenditures, and changes in fund balance. The balance sheet and the statement of revenue, expenditures, and changes in fund balance shall be in the governmental funds format prescribed by the Governmental Accounting Standards Board.* ~~A charter school shall provide a monthly financial statement to the sponsor unless the charter school is designated as a high-performing charter school pursuant to s. 1002.331, in which case the high-performing charter school may provide a quarterly financial statement in the same format and requirements as the uniform monthly financial statement summary sheet. The financial statement required under this paragraph shall be in a form prescribed by the Department of Education.~~

4. *A charter school shall maintain and provide financial information as required in this paragraph. The financial statement required in subparagraph 3. must be in a form prescribed by the Department of Education.*

(n)1. The director and a representative of the governing board of a charter school that has earned a grade of "D" or "F" pursuant to s. 1008.34(2) shall appear before the sponsor to present information concerning each contract component having noted deficiencies. The director and a representative of the governing board shall submit to the sponsor for approval a school improvement plan to raise student achievement. Upon approval by the sponsor, the charter school shall begin implementation of the school improvement plan. The department shall offer technical assistance and training to the charter school and its governing board and establish guidelines for developing, submitting, and approving such plans.

2.a. If a charter school earns three consecutive grades of "D," two consecutive grades of "D" followed by a grade of "F," or two non-consecutive grades of "F" within a 3-year period, the charter school governing board shall choose one of the following corrective actions:

(I) Contract for educational services to be provided directly to students, instructional personnel, and school administrators, as prescribed in state board rule;

(II) Contract with an outside entity that has a demonstrated record of effectiveness to operate the school;

(III) Reorganize the school under a new director or principal who is authorized to hire new staff; or

(IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action in the school year following receipt of a third consecutive grade of "D," a grade of "F" following two consecutive grades of "D," or a second non-consecutive grade of "F" within a 3-year period.

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is subject to subparagraph 4.

d. A charter school is no longer required to implement a corrective action if it improves by at least one letter grade. However, the charter

school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 5.

e. A charter school implementing a corrective action that does not improve by at least one letter grade after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve a letter grade if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 4.

3. A charter school with a grade of "D" or "F" that improves by at least one letter grade must continue to implement the strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 5.

4. The sponsor shall terminate a charter if the charter school earns two consecutive grades of "F" unless:

a. The charter school is established to turn around the performance of a district public school pursuant to s. 1008.33(4)(b)3. Such charter schools shall be governed by s. 1008.33;

b. The charter school serves a student population the majority of which resides in a school zone served by a district public school that earned a grade of "F" in the year before the charter school opened and the charter school earns at least a grade of "D" in its third year of operation. The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. Section 17. Section 337.25, Florida Statutes, is amended to read:

337.25 Acquisition, lease, and disposal of real and personal property.—

(1)(a) The department may purchase, lease, exchange, or otherwise acquire any land, property interests, or buildings or other improvements, including personal property within such buildings or on such lands, necessary to secure or utilize transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, in a rail corridor, or in a transportation corridor designated by the department. Such property shall be held in the name of the state.

(b) The department may accept donations of any land or buildings or other improvements, including personal property within such buildings or on such lands with or without such conditions, reservations, or reverter provisions as are acceptable to the department. Such donations may be used as transportation rights-of-way or to secure or utilize transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in a transportation corridor designated by the department.

(c) When lands, buildings, or other improvements are needed for transportation purposes, but are held by a federal, state, or local governmental entity and utilized for public purposes other than transportation, the department may compensate the entity for such properties by providing functionally equivalent replacement facilities. The providing of replacement facilities under this subsection may only be undertaken with the agreement of the governmental entity affected.

(d) *The department may contract pursuant to s. 287.055 for auction services used in the conveyance of real or personal property or the conveyance of leasehold interests under the provisions of subsections (4) and (5). The contract may allow for the contractor to retain a portion of the proceeds as compensation for the contractor's services.*

(2) A complete inventory shall be made of all real or personal property immediately upon possession or acquisition. Such inventory shall include a statement of the location or site of each piece of realty, structure,

or severable item an itemized listing of all appliances, fixtures, and other severable items; a statement of the location or site of each piece of realty, structure, or severable item; and the serial number assigned to each. Copies of each inventory shall be filed in the district office in which the property is located. Such inventory shall be carried forward to show the final disposition of each item of property, both real and personal.

(3) The inventory of real property which was acquired by the state after December 31, 1988, which has been owned by the state for 10 or more years, and which is not within a transportation corridor or within the right-of-way of a transportation facility shall be evaluated to determine the necessity for retaining the property. If the property is not needed for the construction, operation, and maintenance of a transportation facility, or is not located within a transportation corridor, the department may dispose of the property pursuant to subsection (4).

(4) The department may convey sell, in the name of the state, any land, building, or other property, real or personal, which was acquired under the provisions of subsection (1) and which the department has determined is not needed for the construction, operation, and maintenance of a transportation facility. ~~With the exception of any parcel governed by paragraph (c), paragraph (d), paragraph (f), paragraph (g), or paragraph (i), the department shall afford first right of refusal to the local government in the jurisdiction of which the parcel is situated.~~ When such a determination has been made, property may be disposed of through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest, with due advertisement for property valued by the department at greater than \$10,000. A sale may not occur at a price less than the department's current estimate of value, except as provided in paragraphs (a)-(d). The department may afford a right of first refusal to the local government or other political subdivision in the jurisdiction in which the parcel is situated, except in conveyances transacted under paragraph (a), paragraph (c), or paragraph (e). ~~in the following manner:~~

(a) ~~If the value of the property has been donated to the state for transportation purposes and a facility has not been constructed for a period of at least 5 years, plans have not been prepared for the construction of such facility, and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives is \$10,000 or less as determined by department estimate, the department may negotiate the sale.~~

(b) ~~If the value of the property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity exceeds \$10,000 as determined by department estimate, such property may be sold to the highest bidder through receipt of sealed competitive bids, after due advertisement, or by public auction held at the site of the improvement which is being sold.~~

(c) ~~If the property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive no less than its investment in such property or the department's current estimate of value, whichever is lower. It is expressly intended that this benefit be extended only to persons actually displaced by the project. Dispositions to any other person must be for no less than the department's current estimate of value; in the discretion of the department, public sale would be inequitable, properties may be sold by negotiation to the owner holding title to the property abutting the property to be sold, provided such sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of the abutting land. If negotiations do not result in the sale of the property to the owner of the abutting land and the property is sold to someone else, the cost of the independent appraisal shall be borne by the purchaser; and the owner of the abutting land shall have the cost of the appraisal refunded to him or her. If, however, no purchase takes place, the owner of the abutting land shall forfeit the sum paid by him or her for the independent appraisal. If, due to action of the department, the property is removed from eligibility for sale, the cost of any appraisal prepared shall be refunded to the owner of the abutting land.~~

(d) ~~If the department determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may~~

~~use the projected maintenance costs over the next 10 years to offset the property's value in establishing a value for disposal of the property, even if that value is zero property acquired for use as a borrow pit is no longer needed, the department may sell such property to the owner of the parcel of abutting land from which the borrow pit was originally acquired, provided the sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of such abutting land.~~

(e) ~~If, in the discretion of the department, a sale to anyone other than an abutting property owner would be inequitable, the property may be sold to the abutting owner for the department's current estimate of value. the department begins the process for disposing of the property on its own initiative, either by negotiation under the provisions of paragraph (a), paragraph (c), paragraph (d), or paragraph (i), or by receipt of sealed competitive bids or public auction under the provisions of paragraph (b) or paragraph (i), a department staff appraiser may determine the fair market value of the property by an appraisal.~~

(f) ~~Any property which was acquired by a county or by the department using constitutional gas tax funds for the purpose of a right of way or borrow pit for a road on the State Highway System, State Park Road System, or county road system and which is no longer used or needed by the department may be conveyed without consideration to that county. The county may then sell such surplus property upon receipt of competitive bids in the same manner prescribed in this section.~~

(g) ~~If a property has been donated to the state for transportation purposes and the facility has not been constructed for a period of at least 5 years and no plans have been prepared for the construction of such facility and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives.~~

(h) ~~If property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity.~~

(i) ~~If property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive no less than its investment in such properties or fair market value, whichever is lower. It is expressly intended that this benefit be extended only to those persons actually displaced by such project. Dispositions to any other persons must be for fair market value.~~

(j) ~~If the department determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 5 years to offset the market value in establishing a value for disposal of the property, even if that value is zero.~~

(5) The department may convey a leasehold interest for commercial or other purposes, in the name of the state, to any land, building, or other property, real or personal, which was acquired under the provisions of subsection (1). ~~However, a lease may not be entered into at a price less than the department's current estimate of value.~~

(a) ~~A lease may be through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest. The department may negotiate such a lease at the prevailing market value with the owner from whom the property was acquired; with the holders of leasehold estates existing at the time of the department's acquisition; or, if public bidding would be inequitable, with the owner holding title to privately owned abutting property, if reasonable notice is provided to all other owners of abutting property. The department may allow an outdoor advertising sign to remain on the property acquired, or be relocated on department property, and such sign shall not be considered a nonconforming sign pursuant to chapter 479.~~

(b) ~~If, in the discretion of the department, a lease to a person other than an abutting property owner or tenant with a leasehold interest in the abutting property would be inequitable, the property may be leased to the abutting owner or tenant for no less than the department's current estimate of value. All other leases shall be by competitive bid.~~

(c) No lease signed pursuant to paragraph (a) ~~or paragraph (b)~~ shall be for a period of more than 5 years; however, the department may renegotiate *or extend* such a lease for an additional term of 5 years *as the department deems appropriate without rebidding*.

(d) Each lease shall provide that, *unless otherwise directed by the lessor*, any improvements made to the property during the term of the lease shall be removed at the lessee's expense.

(e) If property is to be used for a public purpose, ~~including a fair, art show, or other educational, cultural, or fundraising activity~~, the property may be leased without consideration to a governmental entity ~~or school board~~. *A lease for a public purpose is exempt from the term limits in paragraph (c).*

(f) Paragraphs (c) and (e) ~~(d)~~ do not apply to leases entered into pursuant to s. 260.0161(3), except as provided in such a lease.

(g) No lease executed under this subsection may be utilized by the lessee to establish the ~~4 years'~~ standing required by s. 73.071(3)(b) if the business had not been established for *the specified number of 4 years* on the date title passed to the department.

(h) The department may enter into a long-term lease without compensation with a public port listed in s. 403.021(9)(b) for rail corridors used for the operation of a short-line railroad to the port.

(6) Nothing in this chapter prevents the joint use of right-of-way for alternative modes of transportation; provided that the joint use does not impair the integrity and safety of the transportation facility.

(7) *The department's estimate of value, required by subsections (4) and (5), shall be prepared in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property exceeds \$50,000, as determined by the department estimate, the sale or lease must be at a negotiated price not less than the estimate of value as determined by an appraisal prepared in accordance with department procedures, guidelines, and rules for valuation of real property, the cost of which shall be paid by the party seeking the purchase or lease of the property. Appraisal required by paragraphs (4)(e) and (d) shall be prepared in accordance with department guidelines and rules by an independent appraiser who has been certified by the department. If federal funds were used in the acquisition of the property, the appraisal shall also be subject to the approval of the Federal Highway Administration.*

(8) A "due advertisement" under this section is an advertisement in a newspaper of general circulation in the area of the improvements of not less than 14 calendar days prior to the date of the receipt of bids or the date on which a public auction is to be held.

(10) The department is authorized to purchase title insurance in those instances where it is determined that such insurance is necessary to protect the public's investment in property being acquired for transportation purposes. The department shall adopt procedures to be followed in making the determination to purchase title insurance for a particular parcel or group of parcels which, at a minimum, shall set forth criteria which the parcels must meet.

(11) *This section does not modify the requirements of s. 73.013.*

(2) DESIGNATION.—

(a)1. An M.P.O. shall be designated for each urbanized area of the state; however, this does not require that an individual M.P.O. be designated for each such area. ~~The M.P.O. Such~~ designation shall be accomplished by agreement between the Governor and units of general-purpose local government ~~that together represent representing~~ at least 75 percent of the population, ~~including the largest incorporated municipality, based on population, of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the M.P.O. jurisdiction, as named defined by the United States Bureau of the Census, must be a party to such agreement.~~

2. To the extent possible, only one M.P.O. shall be designated for each urbanized area or group of contiguous urbanized areas. More than one M.P.O. may be designated within an existing urbanized area only if the Governor and the existing M.P.O. determine that the size and complexity of the existing urbanized area makes the designation of more than one M.P.O. for the area appropriate.

(b) Each M.P.O. designated in a manner prescribed by Title 23 of the United States Code shall be created and operated under the provisions of this section pursuant to an interlocal agreement entered into pursuant to s. 163.01. The signatories to the interlocal agreement shall be the department and the governmental entities designated by the Governor for membership on the M.P.O. Each M.P.O. shall be considered separate from the state or the governing body of a local government that is represented on the governing board of the M.P.O. or that is a signatory to the interlocal agreement creating the M.P.O. and shall have such powers and privileges that are provided under s. 163.01. If there is a conflict between this section and s. 163.01, this section prevails.

(c) The jurisdictional boundaries of an M.P.O. shall be determined by agreement between the Governor and the applicable M.P.O. The boundaries must include at least the metropolitan planning area, which is the existing urbanized area and the contiguous area expected to become urbanized within a 20-year forecast period, and may encompass the entire metropolitan statistical area or the consolidated metropolitan statistical area.

(d) In the case of an urbanized area designated as a nonattainment area for ozone or carbon monoxide under the Clean Air Act, 42 U.S.C. ss. 7401 et seq., the boundaries of the metropolitan planning area in existence as of the date of enactment of this paragraph shall be retained, except that the boundaries may be adjusted by agreement of the Governor and affected metropolitan planning organizations in the manner described in this section. If more than one M.P.O. has authority within a metropolitan area or an area that is designated as a nonattainment area, each M.P.O. shall consult with other M.P.O.'s designated for such area and with the state in the coordination of plans and programs required by this section.

(e) The governing body of the M.P.O. shall designate, at a minimum, a chair, vice chair, and agency clerk. The chair and vice chair shall be selected from among the member delegates comprising the governing board. County commission members shall compose not less than one-third of the M.P.O. membership, except for an M.P.O. with more than 15 members located in a county with a 5-member county commission or an M.P.O. with 19 members located in a county with no more than 6 county commissioners, in which case county commission members may compose less than one-third percent of the M.P.O. membership, but all county commissioners must be members. All voting members shall be elected officials of general-purpose local governments, except that an M.P.O. may include, as part of its apportioned voting members, a member of a statutorily authorized planning board, an official of an agency that operates or administers a major mode of transportation, or an official of Space Florida. (c) Any other provision of this section to the contrary notwithstanding, a chartered county with a ~~population of more than over~~ 1 million ~~population~~ may elect to reapportion the membership of an M.P.O. whose jurisdiction is wholly within the county. The charter county may exercise the provisions of this paragraph if:

1. The M.P.O. approves the reapportionment plan by a three-fourths vote of its membership;

2. The M.P.O. and the charter county determine that the reapportionment plan is needed to fulfill specific goals and policies applicable to that metropolitan planning area; and

3. The charter county determines the reapportionment plan otherwise complies with all federal requirements pertaining to M.P.O. membership.

A ~~any~~ charter county that elects to exercise the provisions of this paragraph shall notify the Governor in writing.

(d) Any other provision of this section to the contrary notwithstanding, a ~~any~~ county chartered under s. 6(e), Art. VIII of the State Constitution may elect to have its county commission serve as the M.P.O., if the M.P.O. jurisdiction is wholly contained within the county. The method ~~must~~ ~~shall~~ be set forth as a part of the interlocal agreement describing the M.P.O.'s membership or in the M.P.O.'s operating procedures and bylaws. The governmental entity so designated shall appoint the appropriate number of members to the M.P.O. from eligible officials. Representatives of the department shall serve as nonvoting advisers to the M.P.O. governing board. Additional nonvoting advisers may be appointed by the M.P.O. as deemed necessary; however, to the maximum extent feasible, each M.P.O. shall seek to appoint nonvoting representatives of various multimodal forms of transportation not otherwise represented by voting members of the M.P.O. An M.P.O. shall appoint nonvoting advisers representing major military installations located within the jurisdictional boundaries of the M.P.O. upon the request of the aforesaid major military installations and subject to the agreement of the M.P.O. All nonvoting advisers may attend and participate fully in governing board meetings but may not vote or be members of the governing board. ~~The Governor shall review the composition of the M.P.O. membership in conjunction with the decennial census as prepared by the United States Department of Commerce, Bureau of the Census, and reapportion it as necessary to comply with subsection (3).~~

(c)(b) Except for members who represent municipalities on the basis of alternating with representatives from other municipalities that do not have members on the M.P.O. as provided in paragraph (3)(a), the members of an M.P.O. shall serve 4-year terms. Members who represent municipalities on the basis of alternating with representatives from other municipalities that do not have members on the M.P.O. as provided in paragraph (3)(a) may serve terms of up to 4 years as further provided in the interlocal agreement described in paragraph (2)(b). The membership of a member who is a public official automatically terminates upon the member's leaving his or her elective or appointive office for any reason, or may be terminated by a majority vote of the total membership of the entity's governing board represented by the member. A vacancy shall be filled by the original appointing entity. A member may be reappointed for one or more additional 4-year terms.

(d)(e) If a governmental entity fails to fill an assigned appointment to an M.P.O. within 60 days after notification by the Governor of its duty to appoint, that appointment ~~must~~ ~~shall~~ be made by the Governor from the eligible representatives of that governmental entity.

(10) “Revenues” means the tolls, revenues, rates, fees, charges, receipts, rentals, contributions, and other income derived from or in connection with the operation or ownership of a regional system, including the proceeds of any use and occupancy insurance on any portion of the

**345.0003 Regional transportation finance authority; formation; membership.—**

(1) A county, or two or more contiguous counties, may, after the approval of the Legislature, form a regional transportation finance authority for the purposes of financing, constructing, maintaining, and operating transportation projects in a region of this state. An authority shall be governed in accordance with the provisions of this chapter. An authority may not be created without the approval of the Legislature and the approval of the county commission of each county that will be a part of the authority. An authority may not be created to serve a particular area of this state as provided by this subsection if a regional transportation finance authority has been created and is operating within all or a portion of the same area served pursuant to an act of the Legislature. Each authority shall be the only authority created and operating pursuant to this chapter within the area served by the authority.

(2) The governing body of an authority shall consist of a board of voting members as follows:

(a) The county commission of each county in the area served by the authority shall each appoint a member who must be a resident of the county from which he or she is appointed. The county commission of each county with a total population of more than 250,000 shall appoint a second member who must be a resident of the county. If possible, the member must represent the business and civic interests of the community.

(b) The Governor shall appoint an equal number of members to the board as those appointed by the county commissions. The members appointed by the Governor must be residents of the area served by the authority.

(c) The secretary of the Department of Transportation shall appoint one of the district secretaries, or his or her designee, for the districts within which the area served by the authority is located.

(4) A member may not hold an elected office.

(5) A vacancy occurring in the governing body before the expiration of the member's term shall be filled by the respective appointing authority in the same manner as the original appointment and only for the balance of the unexpired term.

(6) Each member, before entering upon his or her official duties, must take and subscribe to an oath before an official authorized by law to administer oaths that he or she will honestly, faithfully, and impartially perform the duties devolving upon him or her in office as a member of the governing body of the authority and that he or she will not neglect any duties imposed upon him or her by this chapter.

(7) A member of an authority may be removed from office by the Governor for misconduct, malfeasance, misfeasance, or nonfeasance in office.

(8) The members of the authority shall designate one of its members as chair.

(9) The members of the authority shall serve without compensation, but shall be entitled to reimbursement for per diem and other expenses in accordance with s. 112.061 while in performance of their duties.

(10) A majority of the members of the authority constitutes a quorum, and resolutions enacted or adopted by a vote of a majority of the members present and voting at any meeting become effective without publication, posting, or any further action of the authority.

**345.0004 Powers and duties.—**

(b) An authority may not exercise the powers in paragraph (a) with respect to an existing system for transporting people and goods by any means that is owned by another entity without the consent of that entity. If an authority acquires, purchases, or inherits an existing entity, the authority shall also inherit and assume all rights, assets, appropriations, privileges, and obligations of the existing entity.

(2) Each authority may exercise all powers necessary, appurtenant, convenient, or incidental to the carrying out of the purposes of this section, including, but not limited to, the following rights and powers:

(e) To sell, convey, exchange, lease, or otherwise dispose of any real or personal property acquired by the authority, which the authority and the department have determined is not needed for the construction, operation, and maintenance of the system, including air rights.

(f) To fix, alter, charge, establish, and collect rates, fees, rentals, and other charges for the use of any system owned or operated by the authority, which rates, fees, rentals, and other charges must always be sufficient to comply with any covenants made with the holders of any bonds issued pursuant to this act; however, such right and power may be assigned or delegated by the authority to the department.

(g) To borrow money, make and issue negotiable notes, bonds, refunding bonds, and other evidences of indebtedness or obligations, in temporary or definitive form, for the purpose of financing all or part of the improvement of the authority's system and appurtenant facilities, including the approaches, streets, roads, bridges, and avenues of access for the system and for any other purpose authorized by this chapter, the bonds to mature in not exceeding 30 years after the date of the issuance thereof, and to secure the payment of such bonds or any part thereof by a pledge of its revenues, rates, fees, rentals, or other charges, including municipal or county funds received by the authority pursuant to the terms of an agreement between the authority and a municipality or county; and, in general, to provide for the security of the bonds and the rights and remedies of the holders of the bonds; however, municipal or county funds may not be pledged for the construction of a project for which a toll is to be charged unless the anticipated tolls are reasonably estimated by the governing board of the municipality or county, at the date of its resolution pledging said funds, to be sufficient to cover the principal and interest of such obligations during the period when the pledge of funds is in effect. An authority shall reimburse a municipality or county for sums expended from municipal or county funds used for the payment of the bond obligations.

(k) To accept funds or other property from private donations.

(l) To do all acts and things necessary or convenient for the conduct of its business and the general welfare of the authority, in order to carry out the powers granted to it by this act or any other law.

(3) An authority does not have the power at any time or in any manner to pledge the credit or taxing power of the state or any political subdivi-

sion or agency thereof. Obligations of the authority may not be deemed to be obligations of the state or of any other political subdivision or agency thereof. The state or any political subdivision or agency thereof, except the authority, is not liable for the payment of the principal of or interest on such obligations.

(4) An authority has no power, other than by consent of the affected county or an affected municipality, to enter into an agreement that would legally prohibit the construction of a road by the county or the municipality.

(5) An authority formed pursuant to this chapter shall comply with the statutory requirements of general application which relate to the filing of a report or documentation required by law, including the requirements of ss. 189.4085, 189.415, 189.417, and 189.418.

(1)(a) Bonds may be issued on behalf of an authority pursuant to the State Bond Act.

(b) An authority may also issue bonds in such principal amount as is necessary, in the opinion of the authority, to provide sufficient moneys for achieving its corporate purposes, including construction, reconstruction, improvement, extension, and repair of the system; the cost of acquisition of all real property; interest on bonds during construction and for a reasonable period thereafter, and establishment of reserves to secure bonds; and all other expenditures of the authority incident to and necessary or convenient to carry out its corporate purposes and powers.

(2)(a) Bonds issued by an authority pursuant to paragraph (1)(a) or paragraph (1)(b) must be authorized by resolution of the members of the authority and must bear such date or dates; mature at such time or times, not exceeding 30 years after their respective dates; bear interest at such rate or rates, not exceeding the maximum rate fixed by general law for authorities; be in such denominations; be in such form, either coupon or fully registered; carry such registration, exchangeability and interchangeability privileges; be payable in such medium of payment and at such place or places; be subject to such terms of redemption; and be entitled to such priorities of lien on the revenues and other available moneys as such resolution or any resolution subsequent to the bonds' issuance may provide. The bonds shall be executed either by manual or facsimile signature by such officers as the authority shall determine, provided that such bonds bear at least one signature that is manually executed thereon. The coupons attached to such bonds shall bear the facsimile signature or signatures of such officer or officers as designated by the authority. Such bonds shall have the seal of the authority affixed, imprinted, reproduced, or lithographed thereon.

(b) Bonds issued pursuant to paragraph (1)(a) or paragraph (1)(b) must be sold at public sale in the same manner provided in the State Bond Act. Pending the preparation of definitive bonds, temporary bonds or interim certificates may be issued to the purchaser or purchasers of such bonds and may contain terms and conditions as the authority may determine.

(3) A resolution that authorizes any bonds may contain provisions that must be part of the contract with the holders of the bonds, as to:

(a) The pledging of all or any part of the revenues, available municipal or county funds, or other charges or receipts of the authority derived from the regional system.

(b) The construction, reconstruction, improvement, extension, repair, maintenance, and operation of the system, or any part or parts of the system, and the duties and obligations of the authority with reference thereto.

(c) Limitations on the purposes to which the proceeds of the bonds, then or thereafter issued, or of any loan or grant by any federal agency or the state or any political subdivision of the state may be applied.

(d) The fixing, charging, establishing, revising, increasing, reducing, and collecting of tolls, rates, fees, rentals, or other charges for use of the services and facilities of the system or any part of the system.

(e) The setting aside of reserves or of sinking funds and the regulation and disposition of the reserves or sinking funds.

- (f) *Limitations on the issuance of additional bonds.*
- (g) *The terms and provisions of any deed of trust or indenture securing the bonds, or under which the bonds may be issued.*
- (h) *Any other or additional matters, of like or different character, which in any way affect the security or protection of the bonds.*
- (4) *The authority may enter into any deeds of trust, indentures, or other agreements with any bank or trust company within or without the state, as security for such bonds, and may, under such agreements, assign and pledge any of the revenues and other available moneys, including any available municipal or county funds, pursuant to the terms of this chapter. The deed of trust, indenture, or other agreement may contain provisions that are customary in such instruments or that the authority may authorize, including, but without limitation, provisions that:*
  - (a) *Pledge any part of the revenues or other moneys lawfully available therefor.*
  - (b) *Apply funds and safeguard funds on hand or on deposit.*
  - (c) *Provide for the rights and remedies of the trustee and the holders of the bonds.*
  - (d) *Provide for the terms and provisions of the bonds or for resolutions authorizing the issuance of the bonds.*
  - (e) *Provide for any other or additional matters, of like or different character, which affect the security or protection of the bonds.*
- (5) *Any bonds issued pursuant to this act are negotiable instruments and have all the qualities and incidents of negotiable instruments under the law merchant and the negotiable instruments law of the state.*

(6) *A resolution that authorizes the issuance of authority bonds and pledges the revenues of the system must require that revenues of the system be periodically deposited into appropriate accounts in such sums as are sufficient to pay the costs of operation and maintenance of the system for the current fiscal year as set forth in the annual budget of the authority and to reimburse the department for any unreimbursed costs of operation and maintenance of the system from prior fiscal years before revenues of the system are deposited into accounts for the payment of interest or principal owing or that may become owing on such bonds.*

(7) *State funds may not be used or pledged to pay the principal or interest of any authority bonds, and all such bonds must contain a statement on their face to this effect.*

#### 345.0006 Remedies of bondholders.—

(1) *The rights and the remedies granted to authority bondholders under this chapter are in addition to and not in limitation of any rights and remedies lawfully granted to such bondholders by the resolution or indenture providing for the issuance of bonds, or by any deed of trust, indenture, or other agreement under which the bonds may be issued or secured. If an authority defaults in the payment of the principal of or interest on any of the bonds issued pursuant to this chapter after such principal of or interest on the bonds becomes due, whether at maturity or upon call for redemption, as provided in the resolution or indenture, and such default continues for 30 days, or in the event that the authority fails or refuses to comply with the provisions of this chapter or any agreement made with, or for the benefit of, the holders of the bonds, the holders of 25 percent in aggregate principal amount of the bonds then outstanding shall be entitled as of right to the appointment of a trustee to represent such bondholders for the purposes of the default provided that the holders of 25 percent in aggregate principal amount of the bonds then outstanding first gave written notice of their intention to appoint a trustee, to the authority and to the department.*

(2) *The trustee, and any trustee under any deed of trust, indenture, or other agreement, may, and upon written request of the holders of 25 percent, or such other percentages specified in any deed of trust, indenture, or other agreement, in principal amount of the bonds then outstanding, shall, in any court of competent jurisdiction, in his, her, or its own name:*

- (a) *By mandamus or other suit, action, or proceeding at law, or in equity, enforce all rights of the bondholders, including the right to require*

*the authority to fix, establish, maintain, collect, and charge rates, fees, rentals, and other charges, adequate to carry out any agreement as to, or pledge of, the revenues, and to require the authority to carry out any other covenants and agreements with or for the benefit of the bondholders, and to perform its and their duties under this chapter.*

- (b) *Bring suit upon the bonds.*

(c) *By action or suit in equity, require the authority to account as if it were the trustee of an express trust for the bondholders.*

(d) *By action or suit in equity, enjoin any acts or things that may be unlawful or in violation of the rights of the bondholders.*

(3) *A trustee, if appointed pursuant to this section or acting under a deed of trust, indenture, or other agreement, and whether or not all bonds have been declared due and payable, shall be entitled as of right to the appointment of a receiver. The receiver may enter upon and take possession of the system or the facilities or any part or parts of the system, the revenues and other pledged moneys, for and on behalf of and in the name of, the authority and the bondholders. The receiver may collect and receive all revenues and other pledged moneys in the same manner as the authority. The receiver shall deposit all such revenues and moneys in a separate account and apply all such revenues and moneys remaining after allowance for payment of all costs of operation and maintenance of the system in such manner as the court directs. In a suit, action, or proceeding by the trustee, the fees, counsel fees, and expenses of the trustee, and said receiver, if any, and all costs and disbursements allowed by the court must be a first charge on any revenues after payment of the costs of operation and maintenance of the system. The trustee also has all other powers necessary or appropriate for the exercise of any functions specifically set forth in this section or incident to the representation of the bondholders in the enforcement and protection of their rights.*

(4) *This section or any other section of this chapter does not authorize a receiver appointed pursuant to this section for the purpose of operating and maintaining the system or any facilities or parts thereof to sell, assign, mortgage, or otherwise dispose of any of the assets belonging to the authority. The powers of the receiver are limited to the operation and maintenance of the system, or any facility or parts thereof and to the collection and application of revenues and other moneys due the authority, in the name and for and on behalf of the authority and the bondholders. A holder of bonds or any trustee does not have the right in any suit, action, or proceeding, at law or in equity, to compel a receiver, or a receiver may not be authorized or a court may not direct a receiver to, sell, assign, mortgage, or otherwise dispose of any assets of whatever kind or character belonging to the authority.*

#### 345.0007 Department to construct, operate, and maintain facilities.—

(1) *The department is the agent of each authority for the purpose of performing each phase of a project, including, but not limited to, constructing improvements and extensions to the system. The authority shall provide to the department complete copies of the documents, agreements, resolutions, contracts, and instruments that relate to the project and shall request that the department perform the construction work, including the planning, surveying, design, and actual construction of the completion, extensions, and improvements to the system. After the issuance of bonds to finance construction of an improvement or addition to the system, the authority shall transfer to the credit of an account of the department in the State Treasury the necessary funds for construction. The department shall proceed with construction and use the funds for the purpose authorized and as otherwise provided by law for construction of roads and bridges. An authority may alternatively, with the consent and approval of the department, elect to appoint a local agency certified by the department to administer federal aid projects in accordance with federal law as the authority's agent for the purpose of performing each phase of a project.*

(2) *Notwithstanding the provisions of subsection (1), the department is the agent of each authority for the purpose of operating and maintaining the system. The department shall operate and maintain the system, and the costs incurred by the department for operation and maintenance shall be reimbursed from revenues of the system. The appointment of the department as agent for each authority does not create an independent obligation of the department to operate and maintain a system. Each authority shall remain obligated as principal to operate and maintain its system, and an authority's bondholders do not have an in-*

dependent right to compel the department to operate or maintain the authority's system.

(3) Each authority shall fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the authority's facilities, as otherwise provided in this chapter.

**345.0008 Department contributions to authority projects.—**

(1) The department may agree with an authority to provide for or contribute to the payment of costs of financial or engineering and traffic feasibility studies and the design, financing, acquisition, or construction of an authority project or system included in the 10-year Strategic Intermodal Plan, subject to appropriation by the Legislature.

(a) In the manner required by chapter 216, the department shall include any issue in its legislative budget request for funding the payment of costs of financial or engineering and traffic feasibility studies and the design, financing, acquisition, or construction of an authority project or system. The request for funding may be included as part of the 5-year Tentative Work Program; however, it will be decided upon separately as a distinct funding item for consideration by the Legislature. The department shall include a financial feasibility test to accompany such legislative budget request for consideration of funding any authority project.

(b) As determined by the Legislature in the General Appropriations Act, funding provided for authority projects must be appropriated in a specific fixed capital outlay appropriation category that clearly identifies the authority project.

(c) The department may not request legislative approval of acquisition or construction of a proposed authority project unless the estimated net revenues of the proposed project will be sufficient to pay at least 50 percent of the annual debt service on the bonds associated with the project by the end of the 12th year of operation and to pay at least 100 percent of the debt service on the bonds by the end of the 30th year of operation.

(2) The department may use its engineering and other personnel, including consulting engineers and traffic engineers, to conduct feasibility studies under subsection (1). The department may participate in authority-funded projects that, at a minimum:

(a) Serve national, statewide, or regional functions and function as part of an integrated regional transportation system.

(b) Are identified in the capital improvements element of a comprehensive plan that has been determined to be in compliance with part II of chapter 163. Further, the project must be in compliance with local government comprehensive plan policies relative to corridor management.

(c) Are consistent with the Strategic Intermodal System Plan developed under s. 339.64.

(d) Have a commitment for local, regional, or private financial matching funds as a percentage of the overall project cost.

(3) Before approval, the department must determine that the proposed project:

(a) Is in the public's best interest;

(b) Would not require state funds to be used unless the project is on the State Highway System;

(c) Would have adequate safeguards in place to ensure that additional costs or service disruptions would not be realized by the traveling public and residents of the state in the event of default or cancellation of the agreement by the department; and

(d) Would have adequate safeguards in place to ensure that the department and the regional transportation finance authority have the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations.

(4) An obligation or expense incurred by the department under this section is a part of the cost of the authority project for which the obligation or expense was incurred. The department may require money contributed by the department under this section to be repaid from tolls of the project

on which the money was spent, other revenue of the authority, or other sources of funds.

(5) The department shall receive from an authority a share of the authority's net revenues equal to the ratio of the department's total contributions to the authority under this section to the sum of: the department's total contributions under this section; contributions by any local government to the cost of revenue producing authority projects; and the sale proceeds of authority bonds after payment of costs of issuance. For the purpose of this subsection, net revenues are gross revenues of an authority after payment of debt service, administrative expenses, operations and maintenance expenses, and all reserves required to be established under any resolution under which authority bonds are issued.

**345.0009 Acquisition of lands and property.—**

(1) For the purposes of this chapter, an authority may acquire private or public property and property rights, including rights of access, air, view, and light, by gift, devise, purchase, condemnation by eminent domain proceedings, or transfer from another political subdivision of the state, as the authority may deem necessary for any of the purposes of this chapter, including, but not limited to, any lands reasonably necessary for securing applicable permits, areas necessary for management of access, borrow pits, drainage ditches, water retention areas, rest areas, replacement access for landowners whose access is impaired due to the construction of a facility, and replacement rights-of-way for relocated rail and utility facilities; for existing, proposed, or anticipated transportation facilities on the system or in a transportation corridor designated by the authority; or for the purposes of screening, relocation, removal, or disposal of junkyards and scrap metal processing facilities. Each authority shall also have the power to condemn any material and property necessary for such purposes.

(2) An authority shall exercise the right of eminent domain conferred under this section in the manner provided by law.

(3) If an authority acquires property for a transportation facility or in a transportation corridor, it is not subject to any liability imposed by chapter 376 or chapter 403 for preexisting soil or groundwater contamination due solely to its ownership. This section does not affect the rights or liabilities of any past or future owners of the acquired property or affect the liability of any governmental entity for the results of its actions which create or exacerbate a pollution source. An authority and the Department of Environmental Protection may enter into interagency agreements for the performance, funding, and reimbursement of the investigative and remedial acts necessary for property acquired by the authority.

**345.0010 Cooperation with other units, boards, agencies, and individuals.—**A county, municipality, drainage district, road and bridge district, school district, or any other political subdivision, board, commission, or individual in, or of, the state may make and enter into a contract, lease, conveyance, partnership, or other agreement with an authority within the provisions and purposes of this chapter. Each authority may make and enter into contracts, leases, conveyances, partnerships, and other agreements with any political subdivision, agency, or instrumentality of the state and any federal agency, corporation, and individual, to carry out the purposes of this chapter.

**345.0011 Covenant of the state.—**The state pledges to, and agrees with, any person, firm, or corporation, or federal or state agency subscribing to, or acquiring the bonds to be issued by an authority for the purposes of this chapter that the state will not limit or alter the rights vested by this chapter in the authority and the department until all bonds at any time issued, together with the interest thereon, are fully paid and discharged insofar as the rights vested in the authority and the department affect the rights of the holders of bonds issued pursuant to this chapter. The state further pledges to, and agrees with, the United States that if a federal agency constructs or contributes any funds for the completion, extension, or improvement of the system, or any parts of the system, the state will not alter or limit the rights and powers of the authority and the department in any manner that is inconsistent with the continued maintenance and operation of the system or the completion, extension, or improvement of the system, or which would be inconsistent with the due performance of any agreements between the authority and any such federal agency, and the authority and the department shall continue to have and may exercise all powers granted in this section, so long as the powers are necessary or desirable to carry out the purposes of this chapter and the

purposes of the United States in the completion, extension, or improvement of the system, or any part of the system.

**345.0012 Exemption from taxation.**—The authority created under this chapter is for the benefit of the people of the state, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and because the authority will be performing essential governmental functions pursuant to this chapter, the authority is not required to pay any taxes or assessments of any kind or nature whatsoever upon any property acquired or used by it for such purposes, or upon any rates, fees, rentals, receipts, income, or charges received by it, and the bonds issued by the authority, their transfer and the income from their issuance, including any profits made on the sale of the bonds, shall be free from taxation by the state or by any political subdivision, taxing agency, or instrumentality of the state. The exemption granted by this section does not apply to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations.

**345.0013 Eligibility for investments and security.**—Any bonds or other obligations issued pursuant to this chapter are legal investments for banks, savings banks, trustees, executors, administrators, and all other fiduciaries, and for all state, municipal, and other public funds and are also securities eligible for deposit as security for all state, municipal, or other public funds, notwithstanding the provisions of any other law to the contrary.

**345.0014 Applicability.**—

(1) The powers conferred by this chapter are in addition to the powers conferred by other law and do not repeal the provisions of any other general or special law or local ordinance, but supplement such other laws in the exercise of the powers provided in this chapter, and provide a complete method for the exercise of the powers granted in this chapter. The extension and improvement of a system, and the issuance of bonds pursuant to this chapter to finance all or part of the cost thereof, may be accomplished upon compliance with the provisions of this chapter without regard to or necessity for compliance with the provisions, limitations, or restrictions contained in any other general, special, or local law, including, but not limited to, s. 215.821, and approval of any bonds issued under this act by the qualified electors or qualified electors who are freeholders in the state or in any political subdivision of the state is not required for the issuance of such bonds pursuant to this chapter.

(2) This act does not repeal, rescind, or modify any other law or laws relating to the State Board of Administration, the Department of Transportation, or the Division of Bond Finance of the State Board of Administration, but supersedes any other law that is inconsistent with the provisions of this chapter, including, but not limited to, s. 215.821.

**345.0015 Santa Rosa-Escambia Regional Transportation Finance Authority.**—

(1) There is hereby created and established a body politic and corporate, an agency of the state, to be known as the Santa Rosa-Escambia Regional Transportation Finance Authority, hereinafter referred to as the “authority.”

(2) The area served by the authority shall be Escambia and Santa Rosa Counties.

(3) The purposes and powers of the authority are as identified in the Florida Regional Transportation Finance Authority Act for the area served by the authority, and the authority operates in the manner provided by the Florida Regional Transportation Finance Authority Act.

**345.0016 Suncoast Regional Transportation Finance Authority.**—

(1) There is hereby created and established a body politic and corporate, an agency of the state, to be known as the Suncoast Regional Transportation Finance Authority, hereinafter referred to as the “authority.”

(2) The area served by the authority shall be Citrus, Levy, Marion, and Alachua Counties.

(3) The purposes and powers of the authority are as identified in the Florida Regional Transportation Finance Authority Act for the area served by the authority, and the authority operates in the manner provided by the Florida Regional Transportation Finance Authority Act.

**Section 59. Transfer to the Northwest Florida Regional Transportation Finance Authority.**—The governance and control of the Mid-Bay Bridge Authority System, created pursuant to chapter 2000-411, Laws of Florida, is transferred to the Northwest Florida Regional Transportation Finance Authority.

(1) The assets, facilities, tangible and intangible property and any rights in such property, and any other legal rights of the Mid-Bay Bridge Authority, including the bridge system operated by the authority, are transferred to the Northwest Florida Regional Transportation Finance Authority. All powers of the Mid-Bay Bridge Authority shall succeed to the Northwest Florida Regional Transportation Finance Authority, and the operations and maintenance of the bridge system shall be under the control of the Northwest Florida Regional Transportation Finance Authority, pursuant to this section. Revenues collected on the bridge system may be considered Northwest Florida Regional Transportation Finance Authority revenues, and the Mid-Bay Bridge may be considered part of the authority system, if bonds of the Mid-Bay Bridge Authority are not outstanding. The Northwest Florida Regional Transportation Finance Authority also assumes all liability for bonds of the Mid-Bay Bridge Authority pursuant to the provisions of subsection (2). The Northwest Florida Regional Transportation Finance Authority may review other contracts, financial obligations, and contractual obligations and liabilities of the Mid-Bay Bridge Authority and may assume legal liability for the obligations that are determined to be necessary for the continued operation of the bridge system.

(2) The transfer pursuant to this section is subject to the terms and covenants provided for the protection of the holders of the Mid-Bay Bridge Authority bonds in the lease-purchase agreement and the resolutions adopted in connection with the issuance of the bonds. Further, the transfer does not impair the terms of the contract between the Mid-Bay Bridge Authority and the bondholders, does not act to the detriment of the bondholders, and does not diminish the security for the bonds. After the transfer, until the bonds of the Mid-Bay Bridge Authority are fully defeased or paid in full, the department shall operate and maintain the bridge system and any other facilities of the authority in accordance with the terms, conditions, and covenants contained in the bond resolutions and lease-purchase agreement securing the bonds of the bridge authority. The Department of Transportation, as the agent of the Northwest Florida Regional Transportation Finance Authority, shall collect toll revenues and apply them to the payment of debt service as provided in the bond resolution securing the bonds. The Northwest Florida Regional Transportation Finance Authority shall expressly assume all obligations relating to the bonds to ensure that the transfer will have no adverse impact on the security for the bonds of the Mid-Bay Bridge Authority. The transfer does not make the obligation to pay the principal and interest on the bonds a general liability of the Northwest Florida Regional Transportation Finance Authority or pledge the authority system revenues to payment of the Mid-Bay Bridge Authority bonds. Revenues that are generated by the bridge system and other facilities of the Mid-Bay Bridge Authority and that were pledged by the Mid-Bay Bridge Authority to the payment of the bonds remain subject to the pledge for the benefit of the bondholders. The transfer does not modify or eliminate any prior obligation of the Department of Transportation to pay certain costs of the bridge system from sources other than revenues of the bridge system. With regard to the bridge authority's current long-term debt of \$9.5 million due to the department as of June 30, 2012, and to the extent permitted by the bond resolutions and lease-purchase agreement securing the bonds, the Northwest Florida Regional Transportation Finance Authority shall make payment annually to the State Transportation Trust Fund, for the purpose of repaying the Mid-Bay Bridge Authority's long-term debt due to the department, from any bridge system revenues obtained under this section which remain after the payment of the costs of operations, maintenance, renewal, and replacement of the bridge system; the payment of current debt service; and other payments required in relation to the bonds. The Northwest Florida Regional Transportation Finance Authority shall make the annual payments, not to exceed \$1 million per year, to the State Transportation Trust Fund until all remaining authority long-term debt due to the department has been repaid.

373.4137 Mitigation requirements for specified transportation projects.—

(1) The Legislature finds that environmental mitigation for the impact of transportation projects proposed by the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 can be more effectively achieved by regional, long-range mitigation planning rather than on a project-by-project basis. It is the intent of the Legislature that mitigation to offset the adverse effects

of these transportation projects be funded by the Department of Transportation and be carried out by the use of mitigation banks and any other mitigation options that satisfy state and federal requirements in a manner that promotes efficiency, timeliness in project delivery, and cost-effectiveness.

(2) Environmental impact inventories for transportation projects proposed by the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 shall be developed as follows:

The Department of Transportation and each transportation authority established pursuant to chapter 348 or chapter 349 may fund any mitigation activities for future projects using current year funds.

(b) The environmental impact inventory *must* ~~shall~~ include a description of ~~these~~ habitat impacts, including their location, acreage, and type; *the anticipated amount of mitigation needed based on the functional loss as determined through the Uniform Mitigation Assessment Method (UMAM) adopted in Chapter 62-345, F.A.C.; identification of the proposed mitigation option; state water quality classification of impacted wetlands and other surface waters; any other state or regional designations for these habitats; and a list of threatened species, endangered species, and species of special concern affected by the proposed project.*

(c) *Before projects are identified for inclusion in a water management district mitigation plan as described in subsection (4), the Department of Transportation must consider using credits from a permitted mitigation bank. The Department of Transportation must consider availability of suitable and sufficient mitigation bank credits within the transportation project's area, ability to satisfy commitments to regulatory and resource agencies, availability of suitable and sufficient mitigation purchased or developed through this section, ability to complete existing water management district or Department of Environmental Protection suitable mitigation sites initiated with Department of Transportation mitigation funds, and ability to satisfy state and federal requirements including long-term maintenance and liability.*

(3)(a) ~~To implement the mitigation option fund development and implementation of the mitigation plan for the projected impacts identified in the environmental impact inventory described in subsection (2), the Department of Transportation may purchase credits for current and future use directly from a mitigation bank; purchase mitigation services through the water management districts or the Department of Environmental Protection; conduct its own mitigation; or use other mitigation options that meet state and federal requirements. shall identify funds quarterly in an escrow account within the State Transportation Trust Fund for the environmental mitigation phase of projects budgeted by Funding for the identified mitigation option as described in the environmental impact inventory must be included in the Department of Transportation's work program developed pursuant to s. 339.135 for the current fiscal year. Any interest earnings from the escrow account shall remain with the Department of Transportation. The amount programmed each year by the Department of Transportation and participating transportation authorities established pursuant to chapter 348 or chapter 349 must correspond to an estimated cost per credit of \$150,000 multiplied by the projected number of credits identified in the environmental impact inventory described in subsection (2). This estimated cost per credit will be adjusted every 2 years by the Department of Transportation based on the average cost per UMAM credit paid through this section.~~

(b) Each transportation authority established pursuant to chapter 348 or chapter 349 that chooses to participate in this program shall create an escrow account within its financial structure and deposit funds in the account to pay for the environmental mitigation phase of projects budgeted for the current fiscal year. The escrow account shall be maintained by the authority for the benefit of the water management districts. Any interest earnings from the escrow account shall remain with the authority.

(c) *For mitigation implemented by the water management district or the Department of Environmental Protection, as appropriate, the amount paid each year must be based on mitigation services provided by the water management districts or Department of Environmental Protection pursuant to an approved water management district plan, as described in subsection (4). Except for current mitigation projects in the monitoring and maintenance phase and except as allowed by paragraph (d), the water management districts or the Department of Environmental Protection, as appropriate, may request payment a transfer of funds from an escrow account no sooner than 30 days before the date the funds are needed to pay for activities associated with development or implementation of the permitted mitigation meeting the requirements pursuant to this part, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332, in the approved mitigation plan described in subsection (4) for the current fiscal year, including, but not limited to, design, engineering, production, and staff support. However, the \$75,000 cost per acre does not constitute an admission against interest by the state or its subdivisions and is not admissible as evidence of full compensation for any property acquired by eminent domain or through inverse condemnation. Each July 1, the cost per acre shall be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996. Each quarter, the projected amount of mitigation must acreage of impact shall be reconciled with the actual amount of mitigation needed for acreage of impact of projects as permitted, including permit modifications, pursuant to this part and s. 404 of the Clean Water Act, 33 U.S.C. s. 1344. The subject year's programming transfer of funds shall be adjusted accordingly to reflect the mitigation acreage of impacts as permitted. The Department of Transportation and participating transportation authorities established pursuant to chapter 348 or chapter 349 are authorized to transfer such funds from the escrow accounts to the water management districts to carry out the mitigation programs. Environmental mitigation funds that are identified for or maintained in an escrow account for the benefit of a water management district may be released if the associated transportation project is excluded in whole or part from the mitigation plan. For a mitigation project that is in the maintenance and monitoring phase, the water management district may request and receive a one time payment based on the project's expected future maintenance and monitoring costs. If the water management district excludes a project from an approved water management district mitigation plan, cannot timely permit a mitigation site to offset the impacts of a Department of Transportation project identified in the environmental impact inventory, or if the proposed mitigation does not meet state and federal requirements, the Department of Transportation may use the associated funds for the purchase of mitigation bank credits or any other mitigation option that satisfies state and federal requirements. Upon final disbursement of the final maintenance and monitoring payment for mitigation of a transportation project as permitted, the obligation of the Department of Transportation or the participating transportation authority is satisfied and the water management district or the Department of Environmental Protection, as appropriate, will have continuing responsibility for the mitigation project, the escrow account for the project established by the Department of Transportation or the participating transportation authority may be closed. Any interest earned on these disbursed funds shall remain with the water management district and must be used as authorized under this section.*

(d) *Beginning with the March 2014 water management district mitigation plans, in the 2005-2006 fiscal year, each water management district or the Department of Environmental Protection, as appropriate, shall invoice the Department of Transportation for mitigation services to offset only the impacts of a Department of Transportation project identified in the environmental impact inventory, including planning, design, construction, maintenance and monitoring, and other costs necessary to meet requirements pursuant to this section, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332 be paid a lump sum amount of \$75,000 per acre, adjusted as provided under paragraph (c), for federally funded transportation projects that are included on the environmental impact inventory and that have an approved mitigation plan. Beginning in the 2009-2010 fiscal year, each water management district shall be paid a lump sum amount of \$75,000 per acre, adjusted as provided under paragraph (c), for federally funded and nonfederally funded transportation projects that have an approved mitigation plan. All mitigation costs, including, but not limited to, the costs of preparing conceptual plans and the costs of design, construction, staff support, future maintenance, and monitoring the mitigated acres shall be funded through these lump sum amounts. If the water management district identifies the use of mitigation bank credits to offset a Department of Transportation impact, the water management district shall exclude that purchase from the mitigation plan, and the Department of Transportation must purchase the bank credits.*

(e) *For mitigation activities occurring on existing water management district or Department of Environmental Protection mitigation sites initiated with Department of Transportation mitigation funds before July 1, 2013, the water management district or Department of Environmental Protection shall invoice the Department of Transportation or a participating transportation authority at a cost per acre of \$75,000 multiplied by the projected acres of impact as identified in the environmental impact inventory. The cost per acre must be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996. When implementing the mitigation activities necessary to offset the permitted impacts as provided in the approved mitigation plan, the water management district shall maintain records of the costs incurred in implementing the mitigation. The records must include, but are not limited to, costs for planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332.*

(f) *For purposes of preparing and implementing the mitigation plans to be adopted by the water management districts on or before March 1, 2013, for impacts based on the July 1, 2012, environmental impact inventory, the funds identified in the Department of Transportation's work program or participating transportation authorities' escrow accounts must correspond to a cost per acre of \$75,000 multiplied by the project acres of impact as identified in the environmental impact inventory. The cost per acre shall be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996. Payment as provided under this paragraph is limited to those mitigation activities that are identified in the first year of the 2013 mitigation plan and for which the transportation project is permitted and is in the Department of Transportation's adopted work program, or equivalent for a transportation authority. When implementing the mitigation activities necessary to offset the permitted impacts as provided in the approved mitigation plan, the water management district shall maintain records of the costs incurred in implementing the mitigation. The records must include, but are not limited to, costs for planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. To the extent moneys paid to a water management district by the Department of Transportation or a participating transportation authority exceed the amount expended by the water management districts in implementing the mitigation to offset the permitted impacts, these funds must be refunded to the Department of Transportation or participating transportation authority. This paragraph expires June 30, 2014.*

(4) *Before March 1 of each year, each water management district shall develop a mitigation plan to offset only the impacts of transportation projects in the environmental impact inventory for which a water man-*

agement district is implementing mitigation that meets the requirements of this section, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332. The water management-district mitigation plan must be developed, in consultation with the Department of Environmental Protection, the United States Army Corps of Engineers, the Department of Transportation, participating transportation authorities established pursuant to chapter 348 or chapter 349, and other appropriate federal, state, and local governments, and other interested parties, including entities operating mitigation banks, shall develop a plan for the primary purpose of complying with the mitigation requirements adopted pursuant to this part and 33 U.S.C. s. 1344. In developing such plans, the water management districts shall use sound ecosystem management practices to address significant water resource needs and consider ~~shall focus on~~ activities of the Department of Environmental Protection and the water management districts, such as surface water improvement and management (SWIM) projects and lands identified for potential acquisition for preservation, restoration, or enhancement, and the control of invasive and exotic plants in wetlands and other surface waters, to the extent that the activities comply with the mitigation requirements adopted under this part, and 33 U.S.C. s. 1344, and 33 C.F.R. s. 332. The water management district mitigation plan must identify each site where the water management district will mitigate for a transportation project. For each mitigation site, the water management district shall provide the scope of the mitigation services, provide the functional gain as determined through the UMAM per Chapter 62-345, F.A.C., describe how the mitigation offsets the impacts of each transportation project as permitted, and provide a schedule for the mitigation services. The water management districts shall maintain records of costs incurred and payments received for providing these services. Records must include, but are not limited to, planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. To the extent monies paid to a water management district by the Department of Transportation or a participating transportation authority exceed the amount expended by the water management districts in providing the mitigation services to offset the permitted transportation project impacts, these monies must be refunded to the Department of Transportation or participating transportation authority. ~~In determining the activities to be included in the plans, the districts shall consider the purchase of credits from public or private mitigation banks permitted under s. 373.4136 and associated federal authorization and shall include the purchase as a part of the mitigation plan when the purchase would offset the impact of the transportation project, provide equal benefits to the water resources than other mitigation options being considered, and provide the most cost effective mitigation option.~~ The mitigation plan shall be submitted to the water management district governing board, or its designee, for review and approval. At least 14 days before approval by the governing board, the water management district shall provide a copy of the draft mitigation plan to the Department of Environmental Protection and any person who has requested a copy. Subsequent to governing board approval, the mitigation plan must be submitted to the Department of Environmental Protection for approval. The plan may not be implemented until it is submitted to and approved, in part or in its entirety, by the Department of Environmental Protection.

~~(a) For each transportation project with a funding request for the next fiscal year, the mitigation plan must include a brief explanation of why a mitigation bank was or was not chosen as a mitigation option, including an estimation of identifiable costs of the mitigation bank and nonbank options and other factors such as time saved, liability for success of the mitigation, and long term maintenance.~~

~~(a)(b)~~ Specific projects may be excluded from the mitigation plan, in whole or in part, and are not subject to this section upon the election of the Department of Transportation, a transportation authority if applicable, or the appropriate water management district. The Department of Transportation or a participating transportation authority may not exclude a transportation project from the mitigation plan when mitigation is scheduled for implementation by the water management district in the current fiscal year, except when the transportation project is removed from the Department of Transportation's work program or transportation authority funding plan, the mitigation cannot be timely permitted to offset the impacts of a Department of Transportation project identified in the environmental impact inventory, or the proposed mitigation does not meet state and federal requirements. If a project is removed from the work program or the mitigation plan, costs expended by the water management

district prior to removal are eligible for reimbursement by the Department of Transportation or participating transportation authority.

~~(b)(c)~~ When determining which projects to include in or exclude from the mitigation plan, the Department of Transportation shall investigate using credits from a permitted mitigation bank before those projects are submitted for inclusion in a water management district mitigation plan. ~~The investigation shall consider the cost-effectiveness of mitigation bank credits, including, but not limited to, factors such as time saved, transfer of liability for success of the mitigation, and long term maintenance.~~ The Department of Transportation shall exclude a project from the mitigation plan if the investigation undertaken pursuant to this paragraph results in the conclusion that the use of credits from a permitted mitigation bank promotes efficiency, timeliness in project delivery, cost-effectiveness, and transfer of liability for success and long-term maintenance.

(5) The water management district shall ensure that mitigation requirements pursuant to 33 U.S.C. s. 1344 and 33 C.F.R. s. 332 are met for the impacts identified in the environmental impact inventory for which the water management district will implement mitigation described in subsection (2), by implementation of the approved mitigation plan described in subsection (4) to the extent funding is provided by the Department of Transportation, or a transportation authority established pursuant to chapter 348 or chapter 349, if applicable. In developing and implementing the mitigation plan, the water management district shall comply with federal permitting requirements pursuant to 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. During the federal permitting process, the water management district may deviate from the approved mitigation plan in order to comply with federal permitting requirements upon notice and coordination with the Department of Transportation or participating transportation authority.

(6) The water management district mitigation plans shall be updated annually to reflect the most current Department of Transportation work program and project list of a transportation authority established pursuant to chapter 348 or chapter 349, if applicable, and may be amended throughout the year to anticipate schedule changes or additional projects which may arise. Before amending the mitigation plan to include new projects, the Department of Transportation shall consider mitigation banks and other available mitigation options that meet state and federal requirements. Each update and amendment of the mitigation plan shall be submitted to the governing board of the water management district or its designee for approval. However, such approval shall not be applicable to a deviation as described in subsection (5).

(7) Upon approval by the governing board of the water management district and the Department of Environmental Protection ~~or its designee~~, the mitigation plan shall be deemed to satisfy the mitigation requirements under this part for impacts specifically identified in the environmental impact inventory described in subsection (2) and any other mitigation requirements imposed by local, regional, and state agencies for these same impacts. The approval of the governing board of the water management district ~~or its designee~~ and the Department of Environmental Protection shall authorize the activities proposed in the mitigation plan, and no other state, regional, or local permit or approval shall be necessary.

(8) This section shall not be construed to eliminate the need for the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 to comply with the requirement to implement practicable design modifications, including realignment of transportation projects, to reduce or eliminate the impacts of its transportation projects on wetlands and other surface waters as required by rules adopted pursuant to this part, or to diminish the authority under this part to regulate other impacts, including water quantity or water quality impacts, or impacts regulated under this part that are not identified in the environmental impact inventory described in subsection (2).

~~(9) The process for environmental mitigation for the impact of transportation projects under this section shall be available to an expressway, bridge, or transportation authority established under chapter 348 or chapter 349. Use of this process may be initiated by an authority depositing the requisite funds into an escrow account set up by the authority and filing an environmental impact inventory with the appropriate water management district. An authority that initiates the environmental mitigation process established by this section shall comply~~

~~with subsection (6) by timely providing the appropriate water management district with the requisite work program information. A water management district may draw down funds from the escrow account as provided in this section.~~

Section 81. Section 373.618, Florida Statutes, is amended to read:

373.618 Public service warnings, alerts, and announcements.—The Legislature believes it is in the public interest that ~~each~~ ~~all~~ water management ~~district districts~~ created pursuant to s. 373.069 own, acquire, develop, construct, operate, and manage public information systems. Public information systems may be located on property owned by the water management district, upon terms and conditions approved by the water management district, and must display messages to the general public concerning water management services, activities, events, and sponsors, as well as other public service announcements, including watering restrictions, severe weather reports, amber alerts, and other essential information needed by the public. Local government review or approval is not required for a public information system owned or hereafter acquired, developed, or constructed by the water management district on its own property. A public information system is exempt from the requirements of chapter 479; ~~however, a public information system that is subject to the Highway Beautification Act of 1965 must be approved by the Department of Transportation and the Federal Highway Administration if required by federal law and federal regulation under the agreement between the state and the United States Department of Transportation, and federal regulations enforced by the Department of Transportation under s. 479.02(1).~~ Water management district funds may not be used to pay the cost to acquire, develop, construct, operate, or manage a public information system. Any necessary funds for a public information system shall be paid for and collected from private sponsors who may display commercial messages.

Section 82. Subsection (3) of section 341.052, Florida Statutes, is amended to read:

341.052 Public transit block grant program; administration; eligible projects; limitation.—

(3) The following limitations shall apply to the use of public transit block grant program funds:

(a) State participation in eligible capital projects shall be limited to 50 percent of the nonfederal share of such project costs.

(b) State participation in eligible public transit operating costs may not exceed 50 percent of such costs or an amount equal to the total revenue, excluding farebox, charter, and advertising revenue and federal funds, received by the provider for operating costs, whichever amount is less.

(c) No eligible public transit provider shall use public transit block grant funds to supplant local tax revenues made available to such provider for operations in the previous year; however, the Secretary of Transportation may waive this provision for public transit providers located in a county recovering from a state of emergency declared pursuant to part I of chapter 252.

(d) *Notwithstanding any law to the contrary, no eligible public transit provider shall use public transit block grant funds in pursuit of strategies or actions leading to or promoting the levying of new or additional taxes through public referenda. To the extent that a public transit provider uses other public funds in pursuit of strategies or actions leading to or promoting the levying of new or additional taxes through public referenda, the amount of the provider's grant must be reduced by the same amount. As used in this paragraph, the term "public funds" means all moneys under the jurisdiction or control of a federal agency, the state, a county, or a municipality, including any district, authority, commission, board, or agency thereof for any public purpose.*

(e) The state may not give any county more than 39 percent of the funds available for distribution under this section or more than the amount that local revenue sources provide to that transit system.

Section 83. *The Florida Transportation Commission shall conduct a study of the potential for the state to obtain revenue from any parking meters or other parking time-limit devices that regulate designated parking spaces located within or along the right-of-way limits of a state*

*road. The commission may retain such experts as are reasonably necessary to complete the study, and the department shall pay the expenses of such experts. On or before August 31, 2013, each municipality and county that receives revenue from any parking meters or other parking time-limit devices that regulate designated parking spaces located within or along the right-of-way limits of a state road shall provide the commission a written inventory of the location of each such meter or device and the total revenue collected from such locations during the last 3 fiscal years. Each municipality and county shall at the same time inform the commission of any pledge or commitment by the municipality or county of such revenues to the payment of debt service on any bonds or other debt issued by the municipality or county. The commission shall consider the information provided by the municipalities and counties, together with such other matters as it deems appropriate, including, but not limited to, the use of variable rate parking, and shall develop policy recommendations regarding the manner and extent that revenues generated by regulating parking within the right-of-way limits of a state road may be allocated between the department and municipalities and counties. The commission shall develop specific recommendations concerning the allocation of revenues generated by meters or devices regulating such parking that were installed before July 1, 2013, and the allocation of revenues that may be generated by meters or devices installed after that date. The commission shall complete the study and provide a written report of its findings and conclusions to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of each of the appropriations committees of the Legislature by October 31, 2013.*

(2) *The Legislature finds that preservation of the status quo pending the commission's study and the Legislature's review of the commission's report is appropriate and desirable. From July 1, 2013, through July 1, 2014, a county or municipality may not install any parking meters or other parking time-limit devices that regulate designated parking spaces located within or along the right-of-way limits of a state road. This subsection does not prohibit the replacement of meters or similar devices installed before July 1, 2013, with new devices that regulate the same designated parking spaces.*

Section 84. *Sale of used tires.—*

(1) *It is unlawful for any used tire retailer in this state to sell unsafe used tires for the purpose of mounting on a vehicle as defined in s. 316.003, Florida Statutes. This section does not apply to a used tire retailer who sells used tires for recapping.*

(2) *For purposes of this section, a used tire is considered unsafe if the tire:*

(a) *Is worn to 2/32 of an inch tread depth or less on any area of the tread;*

(b) *Has any damage exposing the reinforcing plies of the tire, including any cuts, cracks, bulges, punctures, scrapes, or wear;*

(c) *Has had an improper repair including:*

1. *Any repair made in the tread shoulder or belt edge area of the tire;*

2. *Any puncture that has not been sealed or patched on the inside and repaired with a cured rubber stem through to the outside of the tire;*

3. *A repair to the sidewall or bead area of the tire; or*

4. *A puncture repair of damage larger than one-quarter of an inch;*

(d) *Has evidence of prior use of a temporary tire sealant without evidence of a subsequent proper repair;*

(e) *Has its tire identification number defaced or removed;*

(f) *Has inner liner or bead damage; or*

(g) *Has an indication of internal separation, such as bulges or local areas of irregular tread wear.*

(3) *A person who violates this section commits an unfair and deceptive trade practice as defined in part II of chapter 501, Florida Statutes.*

Section 85. Except as otherwise expressly provided in this act, this act shall take effect upon becoming law.

Section 19. Paragraphs (h) and (i) are added to subsection (1), and subsection (1) of section 337.403, Florida Statutes, is further amended to read:

337.403 Interference caused by ~~relocation of~~ utility; expenses.—

(1) If a utility that is placed upon, under, over, or along any public road or publicly owned rail corridor is found by the authority to be unreasonably interfering in any way with the convenient, safe, or continuous use, or the maintenance, improvement, extension, or expansion, of such public road or publicly owned rail corridor, the utility owner shall, upon 30 days' written notice to the utility or its agent by the authority, initiate the work necessary to alleviate the interference at its own expense except as provided in paragraphs (a)-(i) ~~(e)~~. The work must be completed within such reasonable time as stated in the notice or such time as agreed to by the authority and the utility owner.

(a) If the relocation of utility facilities, as referred to in s. 111 of the Federal-Aid Highway Act of 1956, Pub. L. No. 627 of the 84th Congress, is necessitated by the construction of a project on the federal-aid interstate system, including extensions thereof within urban areas, and the cost of the project is eligible and approved for reimbursement by the Federal Government to the extent of 90 percent or more under the Federal Aid Highway Act, or any amendment thereof, then in that event the utility owning or operating such facilities shall perform any necessary work upon notice from the department, and the state shall pay the entire expense properly attributable to such work after deducting therefrom any increase in the value of a new facility and any salvage value derived from an old facility.

(b) When a joint agreement between the department and the utility is executed for utility work to be accomplished as part of a contract for construction of a transportation facility, the department may participate in those utility work costs that exceed the department's official estimate of the cost of the work by more than 10 percent. The amount of such participation shall be limited to the difference between the official estimate of all the work in the joint agreement plus 10 percent and the amount awarded for this work in the construction contract for such work. The department may not participate in any utility work costs that occur as a result of changes or additions during the course of the contract.

(c) When an agreement between the department and utility is executed for utility work to be accomplished in advance of a contract for construction of a transportation facility, the department may participate in the cost of clearing and grubbing necessary to perform such work.

(d) If the utility facility was initially installed to exclusively serve the authority or its tenants, or both, the authority shall bear the costs of the utility work. However, the authority is not responsible for the cost of utility work related to any subsequent additions to that facility for the purpose of serving others. *For a county or municipality, if such utility facility was installed in the right of way as a means to serve a county or municipal facility on a parcel of property adjacent to the right of way, and the intended use of the county or municipal facility is for other than transportation purposes, the obligation of the county or municipality to bear the costs of the utility work shall extend only to utility work on the parcel of property on which the facility of the county or municipality originally served by the utility facility is located.*

(e) If, under an agreement between a utility and the authority entered into after July 1, 2009, the utility conveys, subordinates, or relinquishes a compensable property right to the authority for the purpose of accommodating the acquisition or use of the right-of-way by the authority, without the agreement expressly addressing future responsibility for the cost of necessary utility work, the authority shall bear the cost of removal or relocation. This paragraph does not impair or restrict, and may not be used to interpret, the terms of any such agreement entered into before July 1, 2009.

(f) If the utility is an electric facility being relocated underground in order to enhance vehicular, bicycle, and pedestrian safety and in which ownership of the electric facility to be placed underground has been transferred from a private to a public utility within the past 5 years, the department shall incur all costs of the necessary utility work.

(g) An authority may bear the costs of utility work required to eliminate an unreasonable interference when the utility is not able to

establish that it has a compensable property right in the particular property where the utility is located if:

1. The utility was physically located on the particular property before the authority acquired rights in the property;

2. The utility demonstrates that it has a compensable property right in ~~an~~ adjacent properties along the alignment of the utility or, *after due diligence, certifies that the utility does not have evidence to prove or disprove that it has a compensable property right in the particular property where the utility is located*; and

3. The information available to the authority does not establish the relative priorities of the authority's and the utility's interests in the particular property.

*(h) If the relocation of utility facilities is necessitated by the construction of a commuter rail service project or an inter-city passenger rail service project and the cost of the project is eligible and approved for reimbursement by the Federal Government, then in that event the utility owning or operating such facilities located by permit on a department-owned rail corridor shall perform any necessary utility relocation work upon notice from the department, and the department shall pay the expense properly attributable to such utility relocation work in the same proportion as Federal funds are expended on the commuter rail service project or an inter-city passenger rail service project after deducting therefrom any increase in the value of a new facility and any salvage value derived from an old facility. In no event shall the state be required to use state dollars for such utility relocation work. This subsection shall not apply to any phase of the Central Florida Rail Corridor project known as SunRail.*

*(i) If a city or county owned utility is located in a rural area of critical economic concern, designated pursuant to s. 288.0656, and the department's comptroller determines that the utility is not able, and will not within the following 10 years be able, to pay for the cost of utility work necessitated by a department project on the State Highway System, the department may pay the cost of such utility work performed by the department or the department's contractor, in whole or in part.*

And the title is amended as follows:

Delete line 4487 and insert: lease must meet; amending s. 337.403, F.S.; revising the conditions under which an authority may bear the costs of utility work required to eliminate an unreasonable interference when the utility is unable to establish that it has a compensable property right in the property where the utility is located; requiring the department to pay the expenses of utility work necessitated by certain federally-funded projects under certain conditions; prohibiting the use of state dollars for such work; providing the subsection does not apply to any phase of the SunRail project; authorizing the department to pay the cost of utility work necessitated by a department project on the State Highway System for a city- or county-owned utility located in a rural area of critical economic concern designated pursuant to s. 288.0656, F.S. amending s. 338.161, F.S.;

2.—As an alternative to the credit allowed in subparagraph 1., an affiliated group of corporations which includes at least one insurance company writing premiums in Florida may elect to take a credit against the net tax imposed by this section in an amount that may not exceed 15 percent of the salary of the employees of the affiliated group of corporations who perform insurance related activities, are located or based within this state, and are covered by chapter 443. For purposes of this subparagraph, the term “affiliated group of corporations” means two or more corporations that are entirely owned directly or indirectly by a single corporation and that constitute an affiliated group as defined in s. 1504(a) of the Internal Revenue Code. The amount of credit allowed under this subparagraph is limited to the combined Florida salary tax credits allowed for all insurance companies that were members of the affiliated group of corporations for the tax year ending December 31, 2002, divided by the combined Florida taxable premiums written by all insurance companies that were members of the affiliated group of corporations for the tax year ending December 31, 2002, multiplied by the combined Florida taxable premiums of the affiliated group of corporations for the current year. An affiliated group of corporations electing this alternative calculation method must make such election on or before August 1, 2005. The election of this alternative calculation method is irrevocable and binding upon successors and assigns of the affiliated group of corporations electing this alternative. However, if a member of an affiliated group of corporations acquires or merges with another insurance company after the date of the irrevocable election, the acquired or merged company is not entitled to the affiliated group election and shall only be entitled to calculate the tax credit under subparagraph 1.

In no event shall the salary paid to an employee by an affiliated group of corporations be claimed as a credit by more than one insurer or be counted more than once in an insurer's calculation of the credit as described in subparagraph 1. or subparagraph 2. Only the portion of an employee's salary paid for the performance of insurance related activities may be included in the calculation of the premium tax credit in this subsection.

(b) For purposes of this subsection:

1.—The term “salaries” does not include amounts paid as commissions.

2.—The term “employees” does not include independent contractors or any person whose duties require that the person hold a valid license under the Florida Insurance Code, except adjusters, managing general agents, and service representatives, as defined in s. 626.015.

3.—The term “net tax” means the tax imposed by this section after applying the calculations and credits set forth in subsection (4).

4.—An affiliated group of corporations that created a service company within its affiliated group on July 20, 2002, shall allocate the salary of each service company employee covered by contracts with affiliated group members to the companies for which the employees perform services. The salary allocation is based on the amount of time during the tax year that the individual employee spends performing services or otherwise working for each company over the total amount of time the employee spends performing services or otherwise working for all companies. The total amount of salary allocated to an insurance company within the affiliated group shall be included as that insurer's employee salaries for purposes of this section.

a.—Except as provided in subparagraph (a)2., the term “affiliated group of corporations” means two or more corporations that are entirely owned by a single corporation and that constitute an affiliated group of corporations as defined in s. 1504(a) of the Internal Revenue Code.

b.—The term “service company” means a separate corporation within the affiliated group of corporations whose employees provide services to affiliated group members and which are treated as service company employees for reemployment assistance or unemployment compensation and common law purposes. The holding company of an affiliated group may not qualify as a service company. An insurance company may not qualify as a service company.

e.—If an insurance company fails to substantiate, whether by means of adequate records or otherwise, its eligibility to claim the service company exception under this section, or its salary allocation under this section, no credit shall be allowed.

5.—A service company that is a subsidiary of a mutual insurance holding company, which mutual insurance holding company was in existence on or before January 1, 2000, shall allocate the salary of each service company employee covered by contracts with members of the mutual insurance holding company system to the companies for which the employees perform services. The salary allocation is based on the ratio of the amount of time during the tax year which the individual employee spends performing services or otherwise working for each company to the total amount of time the employee spends performing services or otherwise working for all companies. The total amount of salary allocated to an insurance company within the mutual insurance holding company system shall be included as that insurer's employee salaries for purposes of this section. However, this subparagraph does not apply for any tax year unless funds sufficient to offset the anticipated salary credits have been appropriated to the General Revenue Fund prior to the due date of the final return for that year.

a.—The term “mutual insurance holding company system” means two or more corporations that are subsidiaries of a mutual insurance holding company and in compliance with part IV of chapter 628.

b.—The term “service company” means a separate corporation within the mutual insurance holding company system whose employees provide services to other members of the mutual insurance holding company system and are treated as service company employees for reemployment assistance or unemployment compensation and common law purposes. The mutual insurance holding company may not qualify as a service company.

e.—If an insurance company fails to substantiate, whether by means of adequate records or otherwise, its eligibility to claim the service company exception under this section, or its salary allocation under this section, no credit shall be allowed.

(c) The department may adopt rules pursuant to ss. 120.536(1) and 120.54 to administer this subsection.

(5)(6)(a) The total of the credit granted for the taxes paid by the insurer under chapter 220 and the credit granted by subsection (5) may not exceed 65 percent of the tax due under subsection (1) after deducting therefrom the taxes paid by the insurer under ss. 175.101 and 185.08 and any assessments pursuant to s. 440.51.

(b) To the extent that any credits granted by subsection (5) remain as a result of the limitation set forth in paragraph (a), such excess credits

related to salaries and wages of employees whose place of employment is located within an enterprise zone created pursuant to chapter 200 may be transferred, in an aggregate amount not to exceed 25 percent of such excess salary credits, to any insurer that is a member of an affiliated group of corporations, as defined in sub-subparagraph (5)(b)4.a., that includes the original insurer qualifying for the credits under subsection (5). The amount of such excess credits to be transferred shall be calculated by multiplying the amount of such excess credits by a fraction, the numerator of which is the sum of the salaries qualifying for the credit allowed by subsection (5) of employees whose place of employment is located in an enterprise zone and the denominator of which is the sum of the salaries qualifying for the credit allowed by subsection (5). Any such transferred credits shall be subject to the same provisions and limitations set forth within part IV of this chapter. The provisions of this paragraph do not apply to an affiliated group of corporations that participate in a common paymaster arrangement as defined in s. 443.1216.

(6)(7) Credits and deductions against the tax imposed by this section shall be taken in the following order: deductions for assessments made pursuant to s. 440.51; credits for taxes paid under ss. 175.101 and 185.08; and credits for income taxes paid under chapter 220 and the credit allowed under subsection (5), as these credits are limited by subsection (5) (6); all other available credits and deductions.

(7)(8) From and after July 1, 1980, the premium tax authorized by this section shall not be imposed upon receipts of annuity premiums or considerations paid by holders in this state if the tax savings derived are credited to the annuity holders. Upon request by the Department of Revenue, any insurer availing itself of this provision shall submit to the department evidence which establishes that the tax savings derived have been credited to annuity holders. As used in this subsection, the term "holders" shall be deemed to include employers contributing to an employee's pension, annuity, or profit-sharing plan.

(8)(9) As used in this section "insurer" includes any entity subject to the tax imposed by this section.

Section 14. Subsection (1) of section 624.5091, Florida Statutes, is amended to read:

624.5091 Retaliatory provision, insurers.—

(1)(a) When by or pursuant to the laws of any other state or foreign country any taxes, licenses, and other fees, in the aggregate, and any fines, penalties, deposit requirements, or other material obligations, prohibitions, or restrictions are or would be imposed upon Florida insurers or upon the agents or representatives of such insurers, which are in excess of such taxes, licenses, and other fees, in the aggregate, or which are in excess of the fines, penalties, deposit requirements, or other obligations, prohibitions, or restrictions directly imposed upon similar insurers, or upon the agents or representatives of such insurers, of such other state or country under the statutes of this state, so long as such laws of such other state or country continue in force or are so applied, the same taxes, licenses, and other fees, in the aggregate, or fines, penalties, deposit requirements, or other material obligations, prohibitions, or restrictions of whatever kind shall be imposed by the Department of Revenue upon the insurers, or upon the agents or representatives of such insurers, of such other state or country doing business or seeking to do business in this state. In determining the taxes to be imposed under this section, 80 percent and a portion of the remaining 20 percent as provided in paragraph (b) of the credit provided by s. 624.509(5), as limited by s. 624.509(6) and further determined by s. 624.509(7), shall not be taken into consideration.

(b) As used in this subsection, the term "portion of the remaining 20 percent" shall be calculated by multiplying the remaining 20 percent by a fraction, the numerator of which is the sum of the salaries qualifying for the credit allowed by s. 624.509(5) of employees whose place of employment is located in an enterprise zone created pursuant to chapter 200 and the denominator of which is the sum of the salaries qualifying for the credit allowed by s. 624.509(5).

Section 15. Subsection (1) of section 624.51055, Florida Statutes, is amended to read:

624.51055 Credit for contributions to eligible nonprofit scholarship-funding organizations.—

(1) There is allowed a credit of 100 percent of an eligible contribution made to an eligible nonprofit scholarship-funding organization under s. 1002.395 against any tax due for a taxable year under s. 624.509(1) after deducting from such tax deductions for assessments made pursuant to s. 440.51; credits for taxes paid under ss. 175.101 and 185.08; and credits for income taxes paid under chapter 220; and the credit allowed under s. 624.509(5), as these credits are such credit is limited by s. 624.509(5) s. 624.509(6). An insurer claiming a credit against premium tax liability under this section shall not be required to pay any additional retaliatory tax levied pursuant to s. 624.5091 as a result of claiming such credit. Section 624.5091 does not limit such credit in any manner.

Section 16. The amendments made by this act to ss. 624.509, 624.5091, and 624.51055 shall apply beginning in the 2013 insurance premium tax year.

Unless otherwise specifically provided for in this section, a combination of vehicles not qualifying as commercial motor vehicles may consist of no more than two units coupled together; such nonqualifying combination of vehicles may not exceed a total length of 65 feet, inclusive of the load carried thereon, but exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. Notwithstanding any other provision of this section, a truck tractor-semi-trailer combination engaged in the transportation of automobiles or boats may transport motor vehicles or boats on part of the power unit; and, except as may otherwise be mandated under federal law, an automobile or boat transporter semitrailer may

not exceed 50 feet in length, exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer. The 50-foot length limitation does not apply to non-stinger-steered automobile or boat transporters that are 65 feet or less in overall length, exclusive of the load carried thereon, or to stinger-steered automobile or boat transporters that are 75 feet or less in overall length, exclusive of the load carried thereon. For purposes of this subsection, a “stinger-steered automobile or boat transporter” is an automobile or boat transporter configured as a semitrailer combination wherein the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit. Notwithstanding paragraphs (a) and (b), any straight truck or truck tractor-semitrailer combination engaged in the transportation of horticultural trees may allow the load to extend up to an additional 10 feet beyond the rear of the vehicle, provided said trees are resting against a retaining bar mounted above the truck bed so that the root balls of the trees rest on the floor and to the front of the truck bed and the tops of the trees extend up over and to the rear of the truck bed, and provided the overhanging portion of the load is covered with protective fabric.

(a) *Straight trucks.*—A straight truck may not exceed a length of 40 feet in extreme overall dimension, exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. *A straight truck may attach a forklift to the rear of the cargo bed, provided the overall combined length of the vehicle and the forklift does not exceed 50 feet.* A straight truck may tow no more than one trailer, and the overall length of the truck-trailer combination may not exceed 68 feet, including the load thereon. Notwithstanding any other provisions of this section, a truck-trailer combination engaged in the transportation of boats, or boat trailers whose design dictates a front-to-rear stacking method may not exceed the length limitations of this paragraph exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer.

Section 14. Subsection (3) of section 316.545, Florida Statutes, is amended to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(a) When the excess weight is 200 pounds or less than the maximum herein provided, the penalty shall be \$10;

(b) Five cents per pound for each pound of weight in excess of the maximum herein provided when the excess weight exceeds 200 pounds. However, whenever the gross weight of the vehicle or combination of vehicles does not exceed the maximum allowable gross weight, the maximum fine for the first 600 pounds of unlawful axle weight shall be \$10;

(c) For a vehicle equipped with fully functional idle-reduction technology, any penalty shall be calculated by reducing the actual gross vehicle weight or the internal bridge weight by the certified weight of the idle-reduction technology or by 400 pounds, whichever is less. The vehicle operator must present written certification of the weight of the idle-reduction technology and must demonstrate or certify that the idle-reduction technology is fully functional at all times. This calculation is not allowed for vehicles described in s. 316.535(6);

(d) An *apportionable* ~~apportioned~~ ~~motor~~ vehicle, as defined in s. 320.01, operating on the highways of this state without being properly licensed and registered shall be subject to the penalties as ~~herein~~ provided in this section; and

(e) Vehicles operating on the highways of this state from nonmember International Registration Plan jurisdictions which are not in compliance with the provisions of s. 316.605 shall be subject to the penalties as herein provided.

(b)1. *The act of presenting to a law enforcement officer an electronic device displaying proof of insurance in an electronic format does not constitute consent for the officer to access any information on the device other than the displayed proof of insurance.*

If a person makes an election to attend a basic driver improvement course under this subsection, 18 percent of the civil penalty imposed under s. 318.18(3) shall be deposited in the State Courts Revenue Trust Fund; however, that portion is not revenue for purposes of s. 28.36 and may not be used in establishing the budget of the clerk of the court under that section or s. 28.35.

(10)(a) Any person who does not hold a commercial driver license *or commercial learner's permit* and who is cited while driving a non-commercial motor vehicle for an offense listed under this subsection may, in lieu of payment of fine or court appearance, elect to enter a plea of nolo contendere and provide proof of compliance to the clerk of the court, designated official, or authorized operator of a traffic violations bureau. In such case, adjudication shall be withheld; however, a person may not make an election under this subsection if the person has made

an election under this subsection in the preceding 12 months. A person may not make more than three elections under this subsection. This subsection applies to the following offenses:

Each separate dealer reassignment form issued by the department must also have the space referred to in this section. When a transfer of title is made at a motor vehicle auction, the reassignment must note the name and address of the auction, but the auction shall not thereby be deemed to be the owner, seller, transferor, or assignor of title. (8) Upon transfer or reassignment of a used motor vehicle through the services of an auction, the auction shall complete the information in the space provided for by subsection (7). 1. Fifty percent shall be distributed as provided in s. 320.08058 to the appropriate state or independent university, professional sports team, or branch of the United States Armed Forces.
2. Fifty percent shall be distributed to the department for costs directly related to the specialty driver license and identification card program and to defray the costs associated with production enhancements and distribution.

Section 41. Subsection (7) of section 322.212, Florida Statutes, is amended to read:

322.212 Unauthorized possession of, and other unlawful acts in relation to, ~~driver driver's~~ license or identification card.—

(7) In addition to any other penalties provided by this section, any person who provides false information when applying for a commercial ~~driver driver's~~ license or commercial learner's permit or is convicted of fraud in connection with testing for a commercial driver license or commercial learner's permit shall be disqualified from operating a commercial motor vehicle for a period of 1 year ~~60 days~~.

Section 42. Subsection (1) of section 322.22, Florida Statutes, is amended to read:

322.22 Authority of department to cancel or refuse to issue or renew license.—

(1) The department ~~may is authorized to~~ cancel or withhold issuance or renewal of any ~~driver driver's~~ license, upon determining that the licensee was not entitled to the issuance thereof, or that the licensee failed to give the required or correct information in his or her application or committed any fraud in making such application, or that the licensee has two or more licenses on file with the department, each in a different name but bearing the photograph of the licensee, unless the licensee has complied with the requirements of this chapter in obtaining the licenses. The department may cancel or withhold issuance or renewal of any ~~driver driver's~~ license, identification card, vehicle or vessel registration, or fuel-use decal if the licensee fails to pay the correct fee or pays for any ~~driver the driver's~~ license, identification card, vehicle or vessel registration, or fuel-use decal; pays any tax liability, penalty, or interest specified in chapter 207; or pays any administrative, delinquency, or reinstatement fee by a dishonored check.

Section 43. Subsection (3) of section 322.245, Florida Statutes, is amended to read:

322.245 Suspension of license upon failure of person charged with specified offense under chapter 316, chapter 320, or this chapter to comply with directives ordered by traffic court or upon failure to pay child support in non-IV-D cases as provided in chapter 61 or failure to pay any financial obligation in any other criminal case.—

(3) If the person fails to comply with the directives of the court within the 30-day period, or, in non-IV-D cases, fails to comply with the requirements of s. 61.13016 within the period specified in that statute, the depository or the clerk of the court shall *electronically* notify the department of such failure within 10 days. Upon *electronic* receipt of the notice, the department shall immediately issue an order suspending the person's ~~driver driver's~~ license and privilege to drive effective 20 days after the date the order of suspension is mailed in accordance with s. 322.251(1), (2), and (6).

Section 44. Subsection (7) of section 322.25, Florida Statutes, is amended to read:

322.25 When court to forward license to department and report convictions; temporary reinstatement of driving privileges.—

~~(7) Any licensed driver convicted of driving, or being in the actual physical control of, a vehicle within this state while under the influence of alcoholic beverages, any chemical substance set forth in s. 877.111, or any substance controlled under chapter 893, when affected to the extent that his or her normal faculties are impaired, and whose license and driving privilege have been revoked as provided in subsection (1) may be issued a court order for reinstatement of a driving privilege on a temporary basis; provided that, as a part of the penalty, upon conviction, the defendant is required to enroll in and complete a driver improvement course for the rehabilitation of drinking drivers and the driver is otherwise eligible for reinstatement of the driving privilege as provided by s. 322.282. The court order for reinstatement shall be on a form provided by the department and must be taken by the person convicted to a Florida driver's license examining office, where a temporary driving permit may be issued. The period of time for which a temporary permit issued in accordance with this subsection is valid shall be deemed to be part of the period of revocation imposed by the court.~~

Section 45. Section 322.2615, Florida Statutes, is amended to read:

322.2615 Suspension of license; right to review.—

(1)(a) A law enforcement officer or correctional officer shall, on behalf of the department, suspend the driving privilege of a person who is driving or in actual physical control of a motor vehicle and who has an unlawful blood-alcohol level or breath-alcohol level of 0.08 or higher, or of a person who has refused to submit to a urine test or a test of his or her breath-alcohol or blood-alcohol level. The officer shall take the person's ~~driver driver's~~ license and issue the person a 10-day temporary permit if the person is otherwise eligible for the driving privilege and shall issue the person a notice of suspension. If a blood test has been administered, the officer or the agency employing the officer shall transmit such results to the department within 5 days after receipt of the results. If the department then determines that the person had a blood-alcohol level or breath-alcohol level of 0.08 or higher, the department shall suspend the person's ~~driver driver's~~ license pursuant to subsection (3).

(b) The suspension under paragraph (a) shall be pursuant to, and the notice of suspension shall inform the driver of, the following:

1.a. The driver refused to submit to a lawful breath, blood, or urine test and his or her driving privilege is suspended for a period of 1 year for a first refusal or for a period of 18 months if his or her driving privilege has been previously suspended as a result of a refusal to submit to such a test; or

b. The driver was driving or in actual physical control of a motor vehicle and had an unlawful blood-alcohol level or breath-alcohol level of 0.08 or higher and his or her driving privilege is suspended for a period of 6 months for a first offense or for a period of 1 year if his or her driving privilege has been previously suspended under this section.

2. The suspension period shall commence on the date of issuance of the notice of suspension.

3. The driver may request a formal or informal review of the suspension by the department within 10 days after the date of issuance of the notice of suspension or may request a restricted license pursuant to s. 322.271(7), if eligible.

4. The temporary permit issued at the time of suspension expires at midnight of the 10th day following the date of issuance of the notice of suspension.

5. The driver may submit to the department any materials relevant to the suspension.

(2)(a) Except as provided in paragraph (1)(a), the law enforcement officer shall forward to the department, within 5 days after issuing the notice of suspension, the ~~driver driver's~~ license; an affidavit stating the officer's grounds for belief that the person was driving or in actual physical control of a motor vehicle while under the influence of alcoholic beverages or chemical or controlled substances; the results of any breath

or blood test or an affidavit stating that a breath, blood, or urine test was requested by a law enforcement officer or correctional officer and that the person refused to submit; the officer's description of the person's field sobriety test, if any; and the notice of suspension. The failure of the officer to submit materials within the 5-day period specified in this subsection and in subsection (1) does not affect the department's ability to consider any evidence submitted at or prior to the hearing.

(b) The officer may also submit a copy of the crash report and a copy of a ~~video recording~~ ~~videotape~~ of the field sobriety test or the attempt to administer such test. Materials submitted to the department by a law enforcement agency or correctional agency shall be considered self-authenticating and shall be in the record for consideration by the hearing officer. Notwithstanding s. 316.066(5), the crash report shall be considered by the hearing officer.

(3) If the department determines that the license should be suspended pursuant to this section and if the notice of suspension has not already been served upon the person by a law enforcement officer or correctional officer as provided in subsection (1), the department shall issue a notice of suspension and, unless the notice is mailed pursuant to s. 322.251, a temporary permit that expires 10 days after the date of issuance if the driver is otherwise eligible.

(4) If the person whose license was suspended requests an informal review pursuant to subparagraph (1)(b)3., the department shall conduct the informal review by a hearing officer ~~designated~~ ~~employed~~ by the department. Such informal review hearing shall consist solely of an examination by the department of the materials submitted by a law enforcement officer or correctional officer and by the person whose license was suspended, and the presence of an officer or witness is not required.

(5) After completion of the informal review, notice of the department's decision sustaining, amending, or invalidating the suspension of the ~~driver~~ ~~driver's~~ license of the person whose license was suspended must be provided to such person. Such notice must be mailed to the person at the last known address shown on the department's records, or to the address provided in the law enforcement officer's report if such address differs from the address of record, within 21 days after the expiration of the temporary permit issued pursuant to subsection (1) or subsection (3).

(6)(a) If the person whose license was suspended requests a formal review, the department must schedule a hearing ~~to be held~~ within 30 days after such request is received by the department and must notify the person of the date, time, and place of the hearing.

(b) Such formal review hearing shall be held before a hearing officer ~~designated~~ ~~employed~~ by the department, and the hearing officer shall be authorized to administer oaths, examine witnesses and take testimony, receive relevant evidence, issue subpoenas for the officers and witnesses identified in documents ~~provided under paragraph (2)(a) in subsection (2)~~, regulate the course and conduct of the hearing, question witnesses, and make a ruling on the suspension. ~~The hearing officer may conduct hearings using communications technology.~~ The party requesting the presence of a witness shall be responsible for the payment of any witness fees and for notifying in writing the state attorney's office in the appropriate circuit of the issuance of the subpoena. If the person who requests a formal review hearing fails to appear and the hearing officer finds such failure to be without just cause, the right to a formal hearing is waived and the suspension shall be sustained.

(c) ~~The failure of a subpoenaed witness to appear at the formal review hearing is not grounds to invalidate the suspension. If a witness fails to appear, a party may seek enforcement of a subpoena under paragraph (b) by filing a petition for enforcement in the circuit court of the judicial circuit in which the person failing to comply with the subpoena resides or by filing a motion for enforcement in any criminal court case resulting from the driving or actual physical control of a motor vehicle that gave rise to the suspension under this section. A failure to comply with an order of the court shall result in a finding of contempt of court. However, a person is not in contempt while a subpoena is being challenged.~~

(d) The department must, within 7 working days after a formal review hearing, send notice to the person of the hearing officer's decision as to whether sufficient cause exists to sustain, amend, or invalidate the suspension.

(7) In a formal review hearing under subsection (6) or an informal review hearing under subsection (4), the hearing officer shall determine by a preponderance of the evidence whether sufficient cause exists to sustain, amend, or invalidate the suspension. The scope of the review shall be limited to the following issues:

(a) If the license was suspended for driving with an unlawful blood-alcohol level or breath-alcohol level of 0.08 or higher:

1. Whether the law enforcement officer had probable cause to believe that the person whose license was suspended was driving or in actual physical control of a motor vehicle in this state while under the influence of alcoholic beverages or chemical or controlled substances.

2. Whether the person whose license was suspended had an unlawful blood-alcohol level or breath-alcohol level of 0.08 or higher as provided in s. 316.193.

(b) If the license was suspended for refusal to submit to a breath, blood, or urine test:

1. Whether the law enforcement officer had probable cause to believe that the person whose license was suspended was driving or in actual physical control of a motor vehicle in this state while under the influence of alcoholic beverages or chemical or controlled substances.

2. Whether the person whose license was suspended refused to submit to any such test after being requested to do so by a law enforcement officer or correctional officer.

3. Whether the person whose license was suspended was told that if he or she refused to submit to such test his or her privilege to operate a motor vehicle would be suspended for a period of 1 year or, in the case of a second or subsequent refusal, for a period of 18 months.

(8) Based on the determination of the hearing officer pursuant to subsection (7) for both informal hearings under subsection (4) and formal hearings under subsection (6), the department shall:

(a) Sustain the suspension of the person's driving privilege for a period of 1 year for a first refusal, or for a period of 18 months if the driving privilege of such person has been previously suspended as a result of a refusal to submit to such tests, if the person refused to submit to a lawful breath, blood, or urine test. The suspension period commences on the date of issuance of the notice of suspension.

(b) Sustain the suspension of the person's driving privilege for a period of 6 months for a blood-alcohol level or breath-alcohol level of 0.08 or higher, or for a period of 1 year if the driving privilege of such person has been previously suspended under this section as a result of driving with an unlawful alcohol level. The suspension period commences on the date of issuance of the notice of suspension.

(9) A request for a formal review hearing or an informal review hearing shall not stay the suspension of the person's ~~driver~~ ~~driver's~~ license. If the department fails to schedule the formal review hearing ~~to be held~~ within 30 days after receipt of the request therefor, the department shall invalidate the suspension. If the scheduled hearing is continued at the department's initiative ~~or the driver enforces the subpoena as provided in subsection (6)~~, the department shall issue a temporary driving permit that shall be valid until the hearing is conducted if the person is otherwise eligible for the driving privilege. Such permit may not be issued to a person who sought and obtained a continuance of the hearing. The permit issued under this subsection shall authorize driving for business or employment use only.

(10) A person whose ~~driver~~ ~~driver's~~ license is suspended under subsection (1) or subsection (3) may apply for issuance of a license for business or employment purposes only if the person is otherwise eligible for the driving privilege pursuant to s. 322.271.

(a) If the suspension of the ~~driver~~ ~~driver's~~ license of the person for failure to submit to a breath, urine, or blood test is sustained, the person is not eligible to receive a license for business or employment purposes only, pursuant to s. 322.271, until 90 days have elapsed after the expiration of the last temporary permit issued. If the driver is not issued a 10-day permit pursuant to this section or s. 322.64 because he or she is ineligible for the permit and the suspension for failure to submit to a breath, urine, or blood test is not invalidated by the department, the

driver is not eligible to receive a business or employment license pursuant to s. 322.271 until 90 days have elapsed from the date of the suspension.

(b) If the suspension of the ~~driver driver's~~ license of the person relating to unlawful blood-alcohol level or breath-alcohol level of 0.08 or higher is sustained, the person is not eligible to receive a license for business or employment purposes only pursuant to s. 322.271 until 30 days have elapsed after the expiration of the last temporary permit issued. If the driver is not issued a 10-day permit pursuant to this section or s. 322.64 because he or she is ineligible for the permit and the suspension relating to unlawful blood-alcohol level or breath-alcohol level of 0.08 or higher is not invalidated by the department, the driver is not eligible to receive a business or employment license pursuant to s. 322.271 until 30 days have elapsed from the date of the suspension.

(11) The formal review hearing may be conducted upon a review of the reports of a law enforcement officer or a correctional officer, including documents relating to the administration of a breath test or blood test or the refusal to take either test or the refusal to take a urine test. However, as provided in subsection (6), the driver may subpoena the officer or any person who administered or analyzed a breath or blood test. *If the arresting officer or the breath technician fails to appear pursuant to a subpoena as provided in subsection (6), the department shall invalidate the suspension.*

(12) The formal review hearing and the informal review hearing are exempt from the provisions of chapter 120. The department may adopt rules for the conduct of reviews under this section.

(13) A person may appeal any decision of the department sustaining a suspension of his or her ~~driver driver's~~ license by a petition for writ of certiorari to the circuit court in the county wherein such person resides or wherein a formal or informal review was conducted pursuant to s. 322.31. However, an appeal shall not stay the suspension. A law enforcement agency may appeal any decision of the department invalidating a suspension by a petition for writ of certiorari to the circuit court in the county wherein a formal or informal review was conducted. This subsection shall not be construed to provide for a de novo *review appeal*.

(14)(a) The decision of the department under this section or any circuit court review thereof may not be considered in any trial for a violation of s. 316.193, and a written statement submitted by a person in his or her request for departmental review under this section may not be admitted into evidence against him or her in any such trial.

(b) The disposition of any related criminal proceedings does not affect a suspension for refusal to submit to a blood, breath, or urine test imposed under this section.

(15) If the department suspends a person's license under s. 322.2616, it may not also suspend the person's license under this section for the same episode that was the basis for the suspension under s. 322.2616.

(16) The department shall invalidate a suspension for driving with an unlawful blood-alcohol level or breath-alcohol level imposed under this section if the suspended person is found not guilty at trial of an underlying violation of s. 316.193.

Section 46. Section 322.2616, Florida Statutes, is amended to read:

322.2616 Suspension of license; persons under 21 years of age; right to review.—

(1)(a) Notwithstanding s. 316.193, it is unlawful for a person under the age of 21 who has a blood-alcohol or breath-alcohol level of 0.02 or higher to drive or be in actual physical control of a motor vehicle.

(b) A law enforcement officer who has probable cause to believe that a motor vehicle is being driven by or is in the actual physical control of a person who is under the age of 21 while under the influence of alcoholic beverages or who has any blood-alcohol or breath-alcohol level may lawfully detain such a person and may request that person to submit to a test to determine his or her blood-alcohol or breath-alcohol level.

(2)(a) A law enforcement officer or correctional officer shall, on behalf of the department, suspend the driving privilege of such person if the person has a blood-alcohol or breath-alcohol level of 0.02 or higher. The

officer shall also suspend, on behalf of the department, the driving privilege of a person who has refused to submit to a test as provided by paragraph (b). The officer shall take the person's ~~driver driver's~~ license and issue the person a 10-day temporary driving permit if the person is otherwise eligible for the driving privilege and shall issue the person a notice of suspension.

(b) The suspension under paragraph (a) must be pursuant to, and the notice of suspension must inform the driver of, the following:

1.a. The driver refused to submit to a lawful breath test and his or her driving privilege is suspended for a period of 1 year for a first refusal or for a period of 18 months if his or her driving privilege has been previously suspended as provided in this section as a result of a refusal to submit to a test; or

b. The driver was under the age of 21 and was driving or in actual physical control of a motor vehicle while having a blood-alcohol or breath-alcohol level of 0.02 or higher; and the person's driving privilege is suspended for a period of 6 months for a first violation, or for a period of 1 year if his or her driving privilege has been previously suspended as provided in this section for driving or being in actual physical control of a motor vehicle with a blood-alcohol or breath-alcohol level of 0.02 or higher.

2. The suspension period commences on the date of issuance of the notice of suspension.

3. The driver may request a formal or informal review of the suspension by the department within 10 days after the issuance of the notice of suspension.

4. A temporary permit issued at the time of the issuance of the notice of suspension shall not become effective until after 12 hours have elapsed and will expire at midnight of the 10th day following the date of issuance.

5. The driver may submit to the department any materials relevant to the suspension of his or her license.

(c) When a driver subject to this section has a blood-alcohol or breath-alcohol level of 0.05 or higher, the suspension shall remain in effect until such time as the driver has completed a substance abuse course offered by a DUI program licensed by the department. The driver shall assume the reasonable costs for the substance abuse course. As part of the substance abuse course, the program shall conduct a substance abuse evaluation of the driver, and notify the parents or legal guardians of drivers under the age of 19 years of the results of the evaluation. The term "substance abuse" means the abuse of alcohol or any substance named or described in Schedules I through V of s. 893.03. If a driver fails to complete the substance abuse education course and evaluation, the ~~driver driver's~~ license shall not be reinstated by the department.

(d) A minor under the age of 18 years proven to be driving with a blood-alcohol or breath-alcohol level of 0.02 or higher may be taken by a law enforcement officer to the addictions receiving facility in the county in which the minor is found to be so driving, if the county makes the addictions receiving facility available for such purpose.

(3) The law enforcement officer shall forward to the department, within 5 days after the date of the issuance of the notice of suspension, a copy of the notice of suspension, the ~~driver driver's~~ license of the person receiving the notice of suspension, and an affidavit stating the officer's grounds for belief that the person was under the age of 21 and was driving or in actual physical control of a motor vehicle with any blood-alcohol or breath-alcohol level, and the results of any blood or breath test or an affidavit stating that a breath test was requested by a law enforcement officer or correctional officer and that the person refused to submit to such test. The failure of the officer to submit materials within the 5-day period specified in this subsection does not bar the department from considering any materials submitted at or before the hearing.

(4) If the department finds that the license of the person should be suspended under this section and if the notice of suspension has not already been served upon the person by a law enforcement officer or correctional officer as provided in subsection (2), the department shall issue a notice of suspension and, unless the notice is mailed under s.

322.251, a temporary driving permit that expires 10 days after the date of issuance if the driver is otherwise eligible.

(5) If the person whose license is suspended requests an informal review under subparagraph (2)(b)3., the department shall conduct the informal review by a hearing officer ~~designated~~ ~~employed~~ by the department within 30 days after the request is received by the department and shall issue such person a temporary driving permit for business purposes only to expire on the date that such review is scheduled to be conducted if the person is otherwise eligible. The informal review hearing must consist solely of an examination by the department of the materials submitted by a law enforcement officer or correctional officer and by the person whose license is suspended, and the presence of an officer or witness is not required.

(6) After completion of the informal review, notice of the department's decision sustaining, amending, or invalidating the suspension of the ~~driver~~ ~~driver's~~ license must be provided to the person. The notice must be mailed to the person at the last known address shown on the department's records, or to the address provided in the law enforcement officer's report if such address differs from the address of record, within 7 days after completing the review.

(7)(a) If the person whose license is suspended requests a formal review, the department must schedule a hearing to be held within 30 days after the request is received by the department and must notify the person of the date, time, and place of the hearing and shall issue such person a temporary driving permit for business purposes only to expire on the date that such review is scheduled to be conducted if the person is otherwise eligible.

(b) The formal review hearing must be held before a hearing officer ~~designated~~ ~~employed~~ by the department, and the hearing officer may administer oaths, examine witnesses and take testimony, receive relevant evidence, issue subpoenas, regulate the course and conduct of the hearing, and make a ruling on the suspension. *The hearing officer may conduct hearings using communications technology.* The department and the person whose license was suspended may subpoena witnesses, and the party requesting the presence of a witness is responsible for paying any witness fees and for notifying in writing the state attorney's office in the appropriate circuit of the issuance of the subpoena. If the person who requests a formal review hearing fails to appear and the hearing officer finds the failure to be without just cause, the right to a formal hearing is waived and the suspension is sustained.

(c) *The failure of a subpoenaed witness to appear at the formal review hearing shall not be grounds to invalidate the suspension. If a witness fails to appear, a party may seek enforcement of a subpoena under paragraph (b) by filing a petition for enforcement in the circuit court of the judicial circuit in which the person failing to comply with the subpoena resides. A failure to comply with an order of the court constitutes contempt of court. However, a person may not be held in contempt while a subpoena is being challenged.*

(d) The department must, within 7 *working* days after a formal review hearing, send notice to the person of the hearing officer's decision as to whether sufficient cause exists to sustain, amend, or invalidate the suspension.

(8) In a formal review hearing under subsection (7) or an informal review hearing under subsection (5), the hearing officer shall determine by a preponderance of the evidence whether sufficient cause exists to sustain, amend, or invalidate the suspension. The scope of the review is limited to the following issues:

(a) If the license was suspended because the individual, then under the age of 21, drove with a blood-alcohol or breath-alcohol level of 0.02 or higher:

1. Whether the law enforcement officer had probable cause to believe that the person was under the age of 21 and was driving or in actual physical control of a motor vehicle in this state with any blood-alcohol or breath-alcohol level or while under the influence of alcoholic beverages.

2. Whether the person was under the age of 21.

3. Whether the person had a blood-alcohol or breath-alcohol level of 0.02 or higher.

(b) If the license was suspended because of the individual's refusal to submit to a breath test:

1. Whether the law enforcement officer had probable cause to believe that the person was under the age of 21 and was driving or in actual physical control of a motor vehicle in this state with any blood-alcohol or breath-alcohol level or while under the influence of alcoholic beverages.

2. Whether the person was under the age of 21.

3. Whether the person refused to submit to a breath test after being requested to do so by a law enforcement officer or correctional officer.

4. Whether the person was told that if he or she refused to submit to a breath test his or her privilege to operate a motor vehicle would be suspended for a period of 1 year or, in the case of a second or subsequent refusal, for a period of 18 months.

(9) Based on the determination of the hearing officer under subsection (8) for both informal hearings under subsection (5) and formal hearings under subsection (7), the department shall:

(a) Sustain the suspension of the person's driving privilege for a period of 1 year for a first refusal, or for a period of 18 months if the driving privilege of the person has been previously suspended, as provided in this section, as a result of a refusal to submit to a test. The suspension period commences on the date of the issuance of the notice of suspension.

(b) Sustain the suspension of the person's driving privilege for a period of 6 months for driving or being in actual physical control of a motor vehicle while under the age of 21 with a blood-alcohol or breath-alcohol level of 0.02 or higher, or for a period of 1 year if the driving privilege of such person has been previously suspended under this section. The suspension period commences on the date of the issuance of the notice of suspension.

(10) A request for a formal review hearing or an informal review hearing shall not stay the suspension of the person's ~~driver~~ ~~driver's~~ license. If the department fails to schedule the formal review hearing ~~to be held~~ within 30 days after receipt of the request therefor, the department shall invalidate the suspension. If the scheduled hearing is continued at the department's initiative *or the driver enforces the subpoena as provided in subsection (7),* the department shall issue a temporary driving permit that is valid until the hearing is conducted if the person is otherwise eligible for the driving privilege. The permit shall not be issued to a person who requested a continuance of the hearing. The permit issued under this subsection authorizes driving for business or employment use only.

(11) A person whose ~~driver~~ ~~driver's~~ license is suspended under subsection (2) or subsection (4) may apply for issuance of a license for business or employment purposes only, pursuant to s. 322.271, if the person is otherwise eligible for the driving privilege. However, such a license may not be issued until 30 days have elapsed after the expiration of the last temporary driving permit issued under this section.

(12) The formal review hearing may be conducted upon a review of the reports of a law enforcement officer or correctional officer, including documents relating to the administration of a breath test or the refusal to take a test. However, as provided in subsection (7), the driver may subpoena the officer or any person who administered a breath or blood test. *If the officer who suspended the driving privilege fails to appear pursuant to a subpoena as provided in subsection (7), the department shall invalidate the suspension.*

(13) The formal review hearing and the informal review hearing are exempt from chapter 120. The department may adopt rules for conducting reviews under this section.

(14) A person may appeal any decision of the department sustaining a suspension of his or her ~~driver~~ ~~driver's~~ license by a petition for writ of certiorari to the circuit court in the county wherein such person resides or wherein a formal or informal review was conducted under s. 322.31. However, an appeal does not stay the suspension. This subsection does not provide for a *de novo review* ~~appeal~~.

(15) The decision of the department under this section shall not be considered in any trial for a violation of s. 316.193, nor shall any written

statement submitted by a person in his or her request for departmental review under this section be admissible into evidence against him or her in any such trial. The disposition of any related criminal proceedings shall not affect a suspension imposed under this section.

(16) By applying for and accepting and using a ~~driver's~~ license, a person under the age of 21 years who holds the ~~driver's~~ license is deemed to have expressed his or her consent to the provisions of this section.

(17) A breath test to determine breath-alcohol level pursuant to this section may be conducted as authorized by s. 316.1932 or by a breath-alcohol test device listed in the United States Department of Transportation's conforming-product list of evidential breath-measurement devices. The reading from such a device is presumed accurate and is admissible in evidence in any administrative hearing conducted under this section.

(18) The result of a blood test obtained during an investigation conducted under s. 316.1932 or s. 316.1933 may be used to suspend the driving privilege of a person under this section.

(19) A violation of this section is neither a traffic infraction nor a criminal offense, nor does being detained pursuant to this section constitute an arrest. A violation of this section is subject to the administrative action provisions of this section, which are administered by the department through its administrative processes. Administrative actions taken pursuant to this section shall be recorded in the motor vehicle records maintained by the department. This section does not bar prosecution under s. 316.193. However, if the department suspends a person's license under s. 322.2615 for a violation of s. 316.193, it may not also suspend the person's license under this section for the same episode that was the basis for the suspension under s. 322.2615.

Section 47. Subsections (4) and (5) of section 322.271, Florida Statutes, are amended, and subsection (7) is added to that section, to read:

322.271 Authority to modify revocation, cancellation, or suspension order.—

(4) If the court fails to order the mandatory placement of the ignition interlock device or fails to order for the applicable period the mandatory placement of an ignition interlock device under s. 316.193 or s. 316.1937 at the time of imposing sentence or within 30 days thereafter, the department shall immediately require that the ignition interlock device be installed as provided in this section, except that consideration may be given to those individuals having a documented medical condition that would prohibit the device from functioning normally. This subsection applies to the reinstatement of the driving privilege following a revocation, suspension, or cancellation that is based upon a conviction for the offense of driving under the influence which occurs on or after July 1, 2005.

(5) In addition to any fees authorized by rule for the installation and maintenance of the ignition interlock device, the authorized installer of the device shall collect and remit \$12 for each installation to the department, which shall be deposited into the Highway Safety Operating Trust Fund to be used for the operation of the Ignition Interlock Device Program.

(2) In a prosecution for a violation of s. 316.193 or former s. 316.1931, the following provisions apply:

(a) Upon conviction of the driver, the court, along with imposing sentence, shall revoke the driver ~~driver's~~ license or driving privilege of the person so convicted, effective on the date of conviction, and shall prescribe the period of such revocation in accordance with the following provisions:

1. Upon a first conviction for a violation of the provisions of s. 316.193, except a violation resulting in death, the driver ~~driver's~~ license or driving privilege shall be revoked for *at least not less than* 180 days but not ~~or~~ more than 1 year.

2. Upon a second conviction for an offense that occurs within a period of 5 years after the date of a prior conviction for a violation of the provisions of s. 316.193 or former s. 316.1931 or a combination of such sections, the driver ~~driver's~~ license or driving privilege shall be revoked for *at least not less than* 5 years.

3. For the purposes of this paragraph, a previous conviction outside this state for driving under the influence, driving while intoxicated, driving with an unlawful blood-alcohol level, or any other alcohol-related or drug-related traffic offense similar to the offense of driving under the influence as proscribed by s. 316.193 will be considered a previous conviction for violation of s. 316.193, and a conviction for violation of former s. 316.028, former s. 316.1931, or former s. 860.01 is considered a conviction for violation of s. 316.193.

(b) If the period of revocation was not specified by the court at the time of imposing sentence or within 30 days thereafter, and is not otherwise specified by law, the department shall forthwith revoke the driver ~~driver's~~ license or driving privilege for the maximum period applicable under paragraph (a) for a first conviction and for the minimum period applicable under paragraph (a) for any subsequent convictions. The driver may, within 30 days after such revocation by the department, petition the court for further hearing on the period of revocation, and the court may reopen the case and determine the period of revocation within the limits specified in paragraph (a).

(c) The forfeiture of bail bond, not vacated within 20 days, in any prosecution for the offense of driving while under the influence of alcoholic beverages, chemical substances, or controlled substances to the extent of depriving the defendant of his or her normal faculties shall be deemed equivalent to a conviction for the purposes of this paragraph, and the department shall forthwith revoke the defendant's driver ~~driver's~~ license or driving privilege for the maximum period applicable under paragraph (a) for a first conviction and for the minimum period applicable under paragraph (a) for a second or subsequent conviction; however, if the defendant is later convicted of the charge, the period of revocation imposed by the department for such conviction shall not exceed the difference between the applicable maximum for a first conviction or minimum for a second or subsequent conviction and the revoca-

(6) In a prosecution for a violation of s. 316.172(1), and upon a showing of the department's records that the licensee has received a second conviction within 5 years following the date of a prior conviction of s. 316.172(1), the department shall, upon direction of the court, suspend the ~~driver driver's~~ license of the person convicted for a period of ~~at least not less than~~ 90 days but not ~~or~~ more than 6 months.

(7) Following a second or subsequent violation of s. 796.07(2)(f) which involves a motor vehicle and which results in any judicial disposition other than acquittal or dismissal, in addition to any other sentence imposed, the court shall revoke the person's ~~driver driver's~~ license or

4. The temporary permit issued at the time of disqualification expires at midnight of the 10th day following the date of disqualification.

5. The driver may submit to the department any materials relevant to the disqualification.

(2)(a) Except as provided in paragraph (1)(a), the law enforcement officer shall forward to the department, within 5 days after the date of the issuance of the notice of disqualification, a copy of the notice of disqualification, the ~~driver's~~ license of the person disqualified, and an affidavit stating the officer's grounds for belief that the person disqualified was operating or in actual physical control of a commercial motor vehicle, or holds a commercial ~~driver's~~ license, and had an unlawful blood-alcohol or breath-alcohol level; the results of any breath or blood or urine test or an affidavit stating that a breath, blood, or urine test was requested by a law enforcement officer or correctional officer and that the person arrested refused to submit; a copy of the notice of disqualification issued to the person; and the officer's description of the person's field sobriety test, if any. The failure of the officer to submit materials within the 5-day period specified in this subsection or subsection (1) does not affect the department's ability to consider any evidence submitted at or prior to the hearing.

(b) The officer may also submit a copy of a ~~video recording~~ ~~wide~~ ~~stape~~ of the field sobriety test or the attempt to administer such test and a copy of the crash report, ~~if any~~. *Notwithstanding s. 316.066, the crash report shall be considered by the hearing officer.*

(3) If the department determines that the person arrested should be disqualified from operating a commercial motor vehicle pursuant to this section and if the notice of disqualification has not already been served upon the person by a law enforcement officer or correctional officer as provided in subsection (1), the department shall issue a notice of disqualification and, unless the notice is mailed pursuant to s. 322.251, a temporary permit which expires 10 days after the date of issuance if the driver is otherwise eligible.

(4) If the person disqualified requests an informal review pursuant to subparagraph (1)(c)3. ~~(1)(b)3.~~, the department shall conduct the informal review by a hearing officer ~~designated~~ ~~employed~~ by the department. Such informal review hearing shall consist solely of an examination by the department of the materials submitted by a law enforcement officer or correctional officer and by the person disqualified, and the presence of an officer or witness is not required.

(5) After completion of the informal review, notice of the department's decision sustaining, amending, or invalidating the disqualification must be provided to the person. Such notice must be mailed to the person at the last known address shown on the department's records, and to the address provided in the law enforcement officer's report if such address differs from the address of record, within 21 days after the expiration of the temporary permit issued pursuant to subsection (1) or subsection (3).

(6)(a) If the person disqualified requests a formal review, the department must schedule a hearing to be held within 30 days after such request is received by the department and must notify the person of the date, time, and place of the hearing.

(b) Such formal review hearing shall be held before a hearing officer ~~designated~~ ~~employed~~ by the department, and the hearing officer shall be authorized to administer oaths, examine witnesses and take testimony, receive relevant evidence, issue subpoenas for the officers and witnesses identified in documents *provided under paragraph (2)(a) as provided in subsection (2),* regulate the course and conduct of the hearing, and make a ruling on the disqualification. *The hearing officer may conduct hearings using communications technology.* The department and the person disqualified may subpoena witnesses, and the party requesting the presence of a witness shall be responsible for the payment of any witness fees. If the person who requests a formal review hearing fails to appear and the hearing officer finds such failure to be without just cause, the right to a formal hearing is waived.

(c) *The failure of a subpoenaed witness to appear at the formal review hearing shall not be grounds to invalidate the disqualification. If a witness fails to appear, a party may seek enforcement of a subpoena under paragraph (b) by filing a petition for enforcement in the circuit court of the judicial circuit in which the person failing to comply with the subpoena resides or by filing a motion for enforcement in any criminal court case resulting from the driving or actual physical control of a motor vehicle or commercial motor vehicle that gave rise to the disqualification under this section.* A failure to comply with an order of the court shall result in a finding of contempt of court. However, a person shall not be in contempt while a subpoena is being challenged.

(d) The department must, within 7 *working* days after a formal review hearing, send notice to the person of the hearing officer's decision as to whether sufficient cause exists to sustain, amend, or invalidate the disqualification.

(7) In a formal review hearing under subsection (6) or an informal review hearing under subsection (4), the hearing officer shall determine by a preponderance of the evidence whether sufficient cause exists to sustain, amend, or invalidate the disqualification. The scope of the review shall be limited to the following issues:

(a) If the person was disqualified from operating a commercial motor vehicle for driving with an unlawful blood-alcohol level:

1. Whether the ~~arresting~~ law enforcement officer had probable cause to believe that the person was driving or in actual physical control of a

commercial motor vehicle, or any motor vehicle if the driver holds a commercial ~~driver's~~ license, in this state while he or she had any alcohol, chemical substances, or controlled substances in his or her body.

2. Whether the person had an unlawful blood-alcohol level or breath-alcohol level of 0.08 or higher.

(b) If the person was disqualified from operating a commercial motor vehicle for refusal to submit to a breath, blood, or urine test:

1. Whether the law enforcement officer had probable cause to believe that the person was driving or in actual physical control of a commercial motor vehicle, or any motor vehicle if the driver holds a commercial ~~driver's~~ license, in this state while he or she had any alcohol, chemical substances, or controlled substances in his or her body.

2. Whether the person refused to submit to the test after being requested to do so by a law enforcement officer or correctional officer.

3. Whether the person was told that if he or she refused to submit to such test he or she would be disqualified from operating a commercial motor vehicle for a period of 1 year or, if previously disqualified under this section, permanently.

(8) Based on the determination of the hearing officer pursuant to subsection (7) for both informal hearings under subsection (4) and formal hearings under subsection (6), the department shall:

~~(a) sustain the disqualification for the time period described in 49 C.F.R. s. 383.51 a period of 1 year for a first refusal, or permanently if such person has been previously disqualified from operating a commercial motor vehicle under this section. The disqualification period commences on the date of the issuance of the notice of disqualification.~~

~~(b) Sustain the disqualification:~~

~~1. For a period of 1 year if the person was driving or in actual physical control of a commercial motor vehicle, or any motor vehicle if the driver holds a commercial driver's license, and had an unlawful blood alcohol level or breath alcohol level of 0.08 or higher; or~~

~~2. Permanently if the person has been previously disqualified from operating a commercial motor vehicle under this section or his or her driving privilege has been previously suspended for driving or being in actual physical control of a commercial motor vehicle, or any motor vehicle if the driver holds a commercial driver's license, and had an unlawful blood alcohol level or breath alcohol level of 0.08 or higher.~~

~~The disqualification period commences on the date of the issuance of the notice of disqualification.~~

(9) A request for a formal review hearing or an informal review hearing shall not stay the disqualification. If the department fails to schedule the formal review hearing ~~to be held~~ within 30 days after receipt of the request therefor, the department shall invalidate the disqualification. If the scheduled hearing is continued at the department's initiative ~~or the driver enforces the subpoena as provided in subsection (6)~~, the department shall issue a temporary driving permit limited to noncommercial vehicles which is valid until the hearing is conducted if the person is otherwise eligible for the driving privilege. Such permit shall not be issued to a person who sought and obtained a continuance of the hearing. The permit issued under this subsection shall authorize driving for business purposes only.

(10) A person who is disqualified from operating a commercial motor vehicle under subsection (1) or subsection (3) is eligible for issuance of a license for business or employment purposes only under s. 322.271 if the person is otherwise eligible for the driving privilege. However, such business or employment purposes license shall not authorize the driver to operate a commercial motor vehicle.

(11) The formal review hearing may be conducted upon a review of the reports of a law enforcement officer or a correctional officer, including documents relating to the administration of a breath test or blood test or the refusal to take either test. However, as provided in subsection (6), the driver may subpoena the officer or any person who administered or analyzed a breath or blood test. ~~If the arresting officer or the breath technician fails to appear pursuant to a subpoena as provided in subsection (6), the department shall invalidate the disqualification.~~

(12) The formal review hearing and the informal review hearing are exempt from the provisions of chapter 120. The department ~~may~~ ~~is authorized to~~ adopt rules for the conduct of reviews under this section.

(13) A person may appeal any decision of the department sustaining the disqualification from operating a commercial motor vehicle by a petition for writ of certiorari to the circuit court in the county wherein such person resides or wherein a formal or informal review was conducted pursuant to s. 322.31. However, an appeal shall not stay the disqualification. This subsection shall not be construed to provide for a ~~de novo review~~ ~~appeal~~.

(14) The decision of the department under this section shall not be considered in any trial for a violation of s. 316.193, s. 322.61, or s. 322.62, nor shall any written statement submitted by a person in his or her request for departmental review under this section be admissible into evidence against him or her in any such trial. The disposition of any related criminal proceedings shall not affect a disqualification imposed pursuant to this section.

(15) This section does not preclude the suspension of the driving privilege pursuant to s. 322.2615. The driving privilege of a person who has been disqualified from operating a commercial motor vehicle also may be suspended for a violation of s. 316.193.

Section 53. Section 323.002, Florida Statutes, is amended to read:

The release form must verify that the cost-recovery fine as provided in paragraph (b) has been paid to such authority. The vehicle must remain impounded until the cost-recovery fine has been paid or until the vehicle is sold at public sale pursuant to s. 713.78.

(b) Notwithstanding any other provision of law to the contrary, an unauthorized wrecker operator, upon retrieval of a wrecker, tow truck, or other motor vehicle removed or impounded pursuant to this section, in addition to any other penalties that may be imposed for noncriminal violations, shall pay a cost-recovery fine of \$500 for a first-time violation of subsection (2), or a fine of \$1,000 for each subsequent violation, to the authority that ordered the immediate removal and impoundment of the wrecker, tow truck, or other motor vehicle under this section. (a) A description of the vehicle (year, make, vehicle identification number) and its location.

(b) The name and address of the owner of the vehicle, the customer as indicated on the order for repair, and any person claiming an interest in or lien thereon.

(c) The name, address, and telephone number of the lienor.

(d) Notice that the lienor claims a lien on the vehicle for labor and services performed and storage charges, if any, and the cash sum which, if paid to the lienor, would be sufficient to redeem the vehicle from the lien claimed by the lienor.

(e) Notice that the lien claimed by the lienor is subject to enforcement pursuant to this section and that the vehicle may be sold to satisfy the lien.

(f) If known, the date, time, and location of any proposed or scheduled sale of the vehicle. No vehicle may be sold earlier than 60 days after completion of the repair work.

(g) Notice that the owner of the vehicle or any person claiming an interest in or lien thereon has a right to a hearing at any time prior to the scheduled date of sale by filing a demand for hearing with the clerk of the circuit court in the county in which the vehicle is held and mailing copies of the demand for hearing to all other owners and lienors as reflected on the notice.

(h) Notice that the owner of the vehicle has a right to recover possession of the vehicle without instituting judicial proceedings by posting bond in accordance with the provisions of s. 559.917.

(i) Notice that any proceeds from the sale of the vehicle remaining after payment of the amount claimed to be due and owing to the lienor will be deposited with the clerk of the circuit court for disposition upon court order pursuant to subsection (8).

(2) If attempts to locate the owner or lienholder are unsuccessful after a check of the records of the Department of Highway Safety and Motor Vehicles and any state disclosed by the check of the National Motor Vehicle Title Information System, the lienor must notify the local law enforcement agency in writing by certified mail or acknowledged hand delivery that the lienor has been unable to locate the owner or lienholder, that a physical search of the vehicle has disclosed no ownership information, and that a good faith effort, including records checks of the Department of Highway Safety and Motor Vehicles database and the National Motor Vehicle Title Information System, has been made. A description of the motor vehicle which includes the year, make, and identification number must be given on the notice. This notification must take place within 15 business days, excluding Saturday and Sunday, from the beginning date of the assessment of storage charges on said motor vehicle. For purposes of this paragraph, the term "good faith effort" means that the following checks have been performed by the company to establish the prior state of registration and title:

(a) A check of the Department of Highway Safety and Motor Vehicles database for the owner and any lienholder;

(b) A check of the federally mandated electronic National Motor Vehicle Title Information System to determine the state of registration when there is not a current title or registration record for the vehicle on file with the Department of Highway Safety and Motor Vehicles;

(3) If the date of the sale was not included in the notice required in subsection (1), notice of the sale must be sent by certified mail, return receipt requested, not less than 15 days before the date of sale, to the customer as indicated on the order for repair, and to all other persons claiming an interest in or lien on the motor vehicle, as disclosed by the records of the Department of Highway Safety and Motor Vehicles or of a corresponding agency of any other state in which the vehicle appears to have been registered after completion of a check of the National Motor Vehicle Title Information System. ~~After diligent search and inquiry, if the name and address of the registered owner or the owner of the recorded lien cannot be ascertained, the requirements for this notice may be disregarded.~~

(4) The lienor, at least 15 days before the proposed or scheduled date of sale of the vehicle, shall publish the notice required by this section once in a newspaper circulated in the county where the vehicle is held. A certificate of compliance with the notification provisions of this section, verified by the lienor, together with a copy of the notice and return receipt for mailing of the notice required by this section, ~~and~~ proof of publication, and checks of the Department of Highway Safety and Motor Vehicles and the National Motor Vehicle Title Information System, must be duly and expeditiously filed with the clerk of the circuit court in the county where the vehicle is held. The lienor, at the time of filing the

certificate of compliance, must pay to the clerk of that court a service charge of \$10 for indexing and recording the certificate.

(9) A copy of the certificate of compliance and the report of sale, certified by the clerk of the court, *and proof of the required check of the National Motor Vehicle Title Information System* shall constitute satisfactory proof for application to the Department of Highway Safety and Motor Vehicles for transfer of title, together with any other proof required by any rules and regulations of the department.

(13) A failure to make good faith efforts as defined in subsection (2) precludes the imposition of any storage charges against the vehicle. If a lienor fails to provide notice to any person claiming a lien on a vehicle under subsection (1) within 15 business days after the assessment of storage charges have begun, then the lienor is precluded from charging for more than 15 days of storage, but failure to provide timely notice does not affect charges made for repairs, adjustments, or modifications to the vehicle or the priority of liens on the vehicle.

Section 62. Section 713.78, Florida Statutes, is amended to read:

713.78 Liens for recovering, towing, or storing vehicles and vessels.—

(1) For the purposes of this section, the term:

(a) "Vehicle" means any mobile item, whether motorized or not, which is mounted on wheels.

(b) "Vessel" means every description of watercraft, barge, and airboat used or capable of being used as a means of transportation on water, other than a seaplane or a "documented vessel" as defined in s. 327.02(9).

(c) "Wrecker" means any truck or other vehicle which is used to tow, carry, or otherwise transport motor vehicles or vessels upon the streets and highways of this state and which is equipped for that purpose with a boom, winch, car carrier, or other similar equipment.

(d) "National Motor Vehicle Title Information System" means the federally authorized electronic National Motor Vehicle Title Information System.

(2) Whenever a person regularly engaged in the business of transporting vehicles or vessels by wrecker, tow truck, or car carrier recovers, removes, or stores a vehicle or vessel upon instructions from:

(a) The owner thereof;

(b) The owner or lessor, or a person authorized by the owner or lessor, of property on which such vehicle or vessel is wrongfully parked, and the removal is done in compliance with s. 715.07; ~~or~~

(c) *The landlord or a person authorized by the landlord, when such motor vehicle or vessel remained on the premises after the tenancy terminated and the removal is done in compliance with s. 715.104; or*

(d)(e) Any law enforcement agency,

she or he shall have a lien on the vehicle or vessel for a reasonable towing fee and for a reasonable storage fee; except that no storage fee shall be charged if the vehicle is stored for less than 6 hours.

(3) This section does not authorize any person to claim a lien on a vehicle for fees or charges connected with the immobilization of such vehicle using a vehicle boot or other similar device pursuant to s. 715.07.

(4)(a) Any person regularly engaged in the business of recovering, towing, or storing vehicles or vessels who comes into possession of a vehicle or vessel pursuant to subsection (2), and who claims a lien for recovery, towing, or storage services, shall give notice to the registered owner, the insurance company insuring the vehicle notwithstanding the provisions of s. 627.736, and to all persons claiming a lien thereon, as disclosed by the records in the Department of Highway Safety and Motor Vehicles or as disclosed by the records of any ~~of a~~ corresponding agency in any other state in which the vehicle is identified through a records check of the National Motor Vehicle Title Information System as being titled or registered.

(b) Whenever any law enforcement agency authorizes the removal of a vehicle or vessel or whenever any towing service, garage, repair shop, or automotive service, storage, or parking place notifies the law enforcement agency of possession of a vehicle or vessel pursuant to s. 715.07(2)(a)2., the law enforcement agency of the jurisdiction where the vehicle or vessel is stored shall contact the Department of Highway Safety and Motor Vehicles, or the appropriate agency of the state of registration, if known, within 24 hours through the medium of electronic communications, giving the full description of the vehicle or vessel. Upon receipt of the full description of the vehicle or vessel, the department shall search its files to determine the owner's name, the insurance company insuring the vehicle or vessel, and whether any person has filed a lien upon the vehicle or vessel as provided in s. 319.27(2) and (3) and notify the applicable law enforcement agency within 72 hours. The person in charge of the towing service, garage, repair shop, or automotive service, storage, or parking place shall obtain such information from the applicable law enforcement agency within 5 days after the date of storage and shall give notice pursuant to paragraph (a). The department may release the insurance company information to the requestor notwithstanding the provisions of s. 627.736.

(c) Notice by certified mail shall be sent within 7 business days after the date of storage of the vehicle or vessel to the registered owner, the insurance company insuring the vehicle notwithstanding the provisions of s. 627.736, and all persons of record claiming a lien against the vehicle or vessel. It shall state the fact of possession of the vehicle or vessel, that a lien as provided in subsection (2) is claimed, that charges have accrued and the amount thereof, that the lien is subject to enforcement pursuant to law, and that the owner or lienholder, if any, has the right to a hearing as set forth in subsection (5), and that any vehicle or vessel which remains unclaimed, or for which the charges for recovery, towing, or storage services remain unpaid, may be sold free of all prior liens after 35 days if the vehicle or vessel is more than 3 years of age or after 50 days if the vehicle or vessel is 3 years of age or less.

(d) If attempts to locate the name and address of the owner or lienholder prove unsuccessful, the towing-storage operator shall, after 7 working days, excluding Saturday and Sunday, of the initial tow or storage, notify the public agency of jurisdiction where the vehicle or vessel is stored in writing by certified mail or acknowledged hand delivery that the towing-storage company has been unable to locate the name and address of the owner or lienholder and a physical search of the vehicle or vessel has disclosed no ownership information and a good faith effort has been made, *including records checks of the Department of Highway Safety and Motor Vehicles and the National Motor Vehicle Title Information System databases*. For purposes of this paragraph and subsection (9), "good faith effort" means that the following checks have been performed by the company to establish prior state of registration and for title:

1. *Check of the Department of Highway Safety and Motor Vehicles database for the owner and any lienholder.*

2. *Check of the electronic National Motor Vehicle Title Information System to determine the state of registration when there is not a current registration record for the vehicle on file with the Department of Highway Safety and Motor Vehicles.*

~~3.1-~~ Check of vehicle or vessel for any type of tag, tag record, temporary tag, or regular tag.

~~4.2-~~ Check of law enforcement report for tag number or other information identifying the vehicle or vessel, if the vehicle or vessel was towed at the request of a law enforcement officer.

~~5.3-~~ Check of trip sheet or tow ticket of tow truck operator to see if a tag was on vehicle or vessel at beginning of tow, if private tow.

~~6.4-~~ If there is no address of the owner on the impound report, check of law enforcement report to see if an out-of-state address is indicated from driver license information.

~~7.5-~~ Check of vehicle or vessel for inspection sticker or other stickers and decals that may indicate a state of possible registration.

~~8.6-~~ Check of the interior of the vehicle or vessel for any papers that may be in the glove box, trunk, or other areas for a state of registration.

~~9.7-~~ Check of vehicle for vehicle identification number.

~~10.8-~~ Check of vessel for vessel registration number.

~~11.9-~~ Check of vessel hull for a hull identification number which should be carved, burned, stamped, embossed, or otherwise permanently affixed to the outboard side of the transom or, if there is no transom, to the outmost seaboard side at the end of the hull that bears the rudder or other steering mechanism.

(5)(a) The owner of a vehicle or vessel removed pursuant to the provisions of subsection (2), or any person claiming a lien, other than the towing-storage operator, within 10 days after the time she or he has knowledge of the location of the vehicle or vessel, may file a complaint in the county court of the county in which the vehicle or vessel is stored to determine if her or his property was wrongfully taken or withheld from her or him.

(b) Upon filing of a complaint, an owner or lienholder may have her or his vehicle or vessel released upon posting with the court a cash or surety bond or other adequate security equal to the amount of the charges for towing or storage and lot rental amount to ensure the payment of such charges in the event she or he does not prevail. Upon the posting of the bond and the payment of the applicable fee set forth in s. 28.24, the clerk of the court shall issue a certificate notifying the lienor of the posting of the bond and directing the lienor to release the vehicle or vessel. At the time of such release, after reasonable inspection, she or he shall give a receipt to the towing-storage company reciting any claims she or he has for loss or damage to the vehicle or vessel or the contents thereof.

(c) Upon determining the respective rights of the parties, the court may award damages, attorney's fees, and costs in favor of the prevailing party. In any event, the final order shall provide for immediate payment in full of recovery, towing, and storage fees by the vehicle or vessel owner or lienholder; or the agency ordering the tow; or the owner, lessee, or agent thereof of the property from which the vehicle or vessel was removed.

(6) Any vehicle or vessel which is stored pursuant to subsection (2) and which remains unclaimed, or for which reasonable charges for recovery, towing, or storing remain unpaid, and any contents not released pursuant to subsection (10), may be sold by the owner or operator of the storage space for such towing or storage charge after 35 days from the time the vehicle or vessel is stored therein if the vehicle or vessel is more than 3 years of age or after 50 days following the time the vehicle or vessel is stored therein if the vehicle or vessel is 3 years of age or less. The sale shall be at public sale for cash. If the date of the sale was not included in the notice required in subsection (4), notice of the sale shall be given to the person in whose name the vehicle or vessel is registered and to all persons claiming a lien on the vehicle or vessel as shown on the records of the Department of Highway Safety and Motor Vehicles or of ~~any the~~ corresponding agency in any other state in which the vehicle is identified through a records check of the National Motor Vehicle Title Information System as being titled. Notice shall be sent by certified mail to the owner of the vehicle or vessel and the person having the recorded lien on the vehicle or vessel at the address shown on the records of the registering agency and shall be mailed not less than 15 days before the date of the sale. After diligent search and inquiry, if the name and address of the registered owner or the owner of the recorded lien cannot be ascertained, the requirements of notice by mail may be dispensed with. In addition to the notice by mail, public notice of the time and place of sale shall be made by publishing a notice thereof one time, at least 10 days prior to the date of the sale, in a newspaper of general circulation in the county in which the sale is to be held. The proceeds of the sale, after payment of reasonable towing and storage charges, and costs of the sale, in that order of priority, shall be deposited with the clerk of the circuit court for the county if the owner or lienholder is absent, and the clerk shall hold such proceeds subject to the claim of the owner or lienholder legally entitled thereto. The clerk shall be entitled to receive 5 percent of such proceeds for the care and disbursement thereof. The certificate of title issued under this law shall be discharged of all liens unless otherwise provided by court order. The owner or lienholder may file a complaint after the vehicle or vessel has been sold in the county court of the county in which it is stored. Upon determining the respective rights of the parties, the court may award damages, attorney's fees, and costs in favor of the prevailing party.

(7)(a) A wrecker operator recovering, towing, or storing vehicles or vessels is not liable for damages connected with such services, theft of such vehicles or vessels, or theft of personal property contained in such vehicles or vessels, provided that such services have been performed with reasonable care and provided, further, that, in the case of removal of a vehicle or vessel upon the request of a person purporting, and reasonably appearing, to be the owner or lessee, or a person authorized by the owner or lessee, of the property from which such vehicle or vessel is removed, such removal has been done in compliance with s. 715.07. Further, a wrecker operator is not liable for damage to a vehicle, vessel, or cargo that obstructs the normal movement of traffic or creates a hazard to traffic and is removed in compliance with the request of a law enforcement officer.

(b) For the purposes of this subsection, a wrecker operator is presumed to use reasonable care to prevent the theft of a vehicle or vessel or of any personal property contained in such vehicle stored in the wrecker operator's storage facility if all of the following apply:

1. The wrecker operator surrounds the storage facility with a chain-link or solid-wall type fence at least 6 feet in height;
2. The wrecker operator has illuminated the storage facility with lighting of sufficient intensity to reveal persons and vehicles at a distance of at least 150 feet during nighttime; and
3. The wrecker operator uses one or more of the following security methods to discourage theft of vehicles or vessels or of any personal property contained in such vehicles or vessels stored in the wrecker operator's storage facility:
  - a. A night dispatcher or watchman remains on duty at the storage facility from sunset to sunrise;
  - b. A security dog remains at the storage facility from sunset to sunrise;
  - c. Security cameras or other similar surveillance devices monitor the storage facility; or
  - d. A security guard service examines the storage facility at least once each hour from sunset to sunrise.

(c) Any law enforcement agency requesting that a motor vehicle be removed from an accident scene, street, or highway must conduct an inventory and prepare a written record of all personal property found in the vehicle before the vehicle is removed by a wrecker operator. However, if the owner or driver of the motor vehicle is present and accompanies the vehicle, no inventory by law enforcement is required. A wrecker operator is not liable for the loss of personal property alleged to be contained in such a vehicle when such personal property was not identified on the inventory record prepared by the law enforcement agency requesting the removal of the vehicle.

(8) A person regularly engaged in the business of recovering, towing, or storing vehicles or vessels, except a person licensed under chapter 493 while engaged in "repossession" activities as defined in s. 493.6101, may not operate a wrecker, tow truck, or car carrier unless the name, address, and telephone number of the company performing the service is clearly printed in contrasting colors on the driver and passenger sides of its vehicle. The name must be in at least 3-inch permanently affixed letters, and the address and telephone number must be in at least 1-inch permanently affixed letters.

(9) Failure to make good faith best efforts to comply with the notice requirements of this section shall preclude the imposition of any storage charges against such vehicle or vessel.

(10) Persons who provide services pursuant to this section shall permit vehicle or vessel owners, lienholders, insurance company representatives, or their agents, which agency is evidenced by an original writing acknowledged by the owner before a notary public or other person empowered by law to administer oaths, to inspect the towed vehicle or vessel and shall release to the owner, lienholder, or agent the vehicle, vessel, or all personal property not affixed to the vehicle or vessel which was in the vehicle or vessel at the time the vehicle or vessel came into the custody of the person providing such services.

(11)(a) Any person regularly engaged in the business of recovering, towing, or storing vehicles or vessels who comes into possession of a vehicle or vessel pursuant to subsection (2) and who has complied with the provisions of subsections (3) and (6), when such vehicle or vessel is to be sold for purposes of being dismantled, destroyed, or changed in such manner that it is not the motor vehicle or vessel described in the certificate of title, shall report the vehicle to the National Motor Vehicle Title Information System and apply to the Department of Highway Safety and Motor Vehicles ~~county tax collector~~ for a certificate of destruction. A certificate of destruction, which authorizes the dismantling or destruction of the vehicle or vessel described therein, shall be reassignable a maximum of two times before dismantling or destruction of the vehicle shall be required, and shall accompany the vehicle or vessel for which it is issued, when such vehicle or vessel is sold for such purposes, in lieu of a certificate of title. The application for a certificate of destruction must include proof of reporting to the National Motor Vehicle Title Information System and an affidavit from the applicant that it has complied with all applicable requirements of this section and, if the vehicle or vessel is not registered in this state or any other state, by a statement from a law enforcement officer that the vehicle or vessel is not reported stolen, and shall be accompanied by such documentation as may be required by the department.

(b) The Department of Highway Safety and Motor Vehicles shall charge a fee of \$3 for each certificate of destruction. A service charge of \$4.25 shall be collected and retained by the tax collector who processes the application.

(c) The Department of Highway Safety and Motor Vehicles may adopt such rules as it deems necessary or proper for the administration of this subsection.

(12)(a) Any person who violates any provision of subsection (1), subsection (2), subsection (4), subsection (5), subsection (6), or subsection (7) is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(b) Any person who violates the provisions of subsections (8) through (11) is guilty of a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(c) Any person who uses a false or fictitious name, gives a false or fictitious address, or makes any false statement in any application or affidavit required under the provisions of this section is guilty of a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(d) Employees of the Department of Highway Safety and Motor Vehicles and law enforcement officers are authorized to inspect the records of any person regularly engaged in the business of recovering, towing, or storing vehicles or vessels or transporting vehicles or vessels by wrecker, tow truck, or car carrier, to ensure compliance with the requirements of this section. Any person who fails to maintain records, or fails to produce records when required in a reasonable manner and at a reasonable time, commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(13)(a) Upon receipt by the Department of Highway Safety and Motor Vehicles of written notice from a wrecker operator who claims a wrecker operator's lien under paragraph (2)(c) or paragraph (2)(d) for recovery, towing, or storage of an abandoned vehicle or vessel upon instructions from any law enforcement agency, for which a certificate of destruction has been issued under subsection (11) and the vehicle has been reported to the National Motor Vehicle Title Information System, the department shall place the name of the registered owner of that vehicle or vessel on the list of those persons who may not be issued a license plate or revalidation sticker for any motor vehicle under s. 320.03(8). If the vehicle or vessel is owned jointly by more than one person, the name of each registered owner shall be placed on the list. The notice of wrecker operator's lien shall be submitted on forms provided by the department, which must include:

1. The name, address, and telephone number of the wrecker operator.
2. The name of the registered owner of the vehicle or vessel and the address to which the wrecker operator provided notice of the lien to the registered owner under subsection (4).

3. A general description of the vehicle or vessel, including its color, make, model, body style, and year.

4. The vehicle identification number (VIN); registration license plate number, state, and year; validation decal number, state, and year; vessel registration number; hull identification number; or other identification number, as applicable.

5. The name of the person or the corresponding law enforcement agency that requested that the vehicle or vessel be recovered, towed, or stored.

6. The amount of the wrecker operator's lien, not to exceed the amount allowed by paragraph (b).

(b) For purposes of this subsection only, the amount of the wrecker operator's lien for which the department will prevent issuance of a license plate or revalidation sticker may not exceed the amount of the charges for recovery, towing, and storage of the vehicle or vessel for 7 days. These charges may not exceed the maximum rates imposed by the ordinances of the respective county or municipality under ss. 125.0103(1)(c) and 166.043(1)(c). This paragraph does not limit the amount of a wrecker operator's lien claimed under subsection (2) or prevent a wrecker operator from seeking civil remedies for enforcement of the entire amount of the lien, but limits only that portion of the lien for which the department will prevent issuance of a license plate or revalidation sticker.

(c)1. The registered owner of a vehicle or vessel may dispute a wrecker operator's lien, by notifying the department of the dispute in writing on forms provided by the department, if at least one of the following applies:

a. The registered owner presents a notarized bill of sale proving that the vehicle or vessel was sold in a private or casual sale before the vehicle or vessel was recovered, towed, or stored.

b. The registered owner presents proof that the Florida certificate of title of the vehicle or vessel was sold to a licensed dealer as defined in s. 319.001 before the vehicle or vessel was recovered, towed, or stored.

c. The records of the department were marked "sold" prior to the date of the tow.

If the registered owner's dispute of a wrecker operator's lien complies with one of these criteria, the department shall immediately remove the registered owner's name from the list of those persons who may not be issued a license plate or revalidation sticker for any motor vehicle under s. 320.03(8), thereby allowing issuance of a license plate or revalidation sticker. If the vehicle or vessel is owned jointly by more than one person, each registered owner must dispute the wrecker operator's lien in order to be removed from the list. However, the department shall deny any dispute and maintain the registered owner's name on the list of those persons who may not be issued a license plate or revalidation sticker for any motor vehicle under s. 320.03(8) if the wrecker operator has provided the department with a certified copy of the judgment of a court which orders the registered owner to pay the wrecker operator's lien claimed under this section. In such a case, the amount of the wrecker operator's lien allowed by paragraph (b) may be increased to include no more than \$500 of the reasonable costs and attorney's fees incurred in obtaining the judgment. The department's action under this subparagraph is ministerial in nature, shall not be considered final agency action, and is appealable only to the county court for the county in which the vehicle or vessel was ordered removed.

2. A person against whom a wrecker operator's lien has been imposed may alternatively obtain a discharge of the lien by filing a complaint, challenging the validity of the lien or the amount thereof, in the county court of the county in which the vehicle or vessel was ordered removed. Upon filing of the complaint, the person may have her or his name removed from the list of those persons who may not be issued a license plate or revalidation sticker for any motor vehicle under s. 320.03(8), thereby allowing issuance of a license plate or revalidation sticker, upon posting with the court a cash or surety bond or other adequate security equal to the amount of the wrecker operator's lien to ensure the payment of such lien in the event she or he does not prevail. Upon the posting of the bond and the payment of the applicable fee set forth in s. 28.24, the clerk of the court shall issue a certificate notifying

the department of the posting of the bond and directing the department to release the wrecker operator's lien. Upon determining the respective rights of the parties, the court may award damages and costs in favor of the prevailing party.

3. If a person against whom a wrecker operator's lien has been imposed does not object to the lien, but cannot discharge the lien by payment because the wrecker operator has moved or gone out of business, the person may have her or his name removed from the list of those persons who may not be issued a license plate or revalidation sticker for any motor vehicle under s. 320.03(8), thereby allowing issuance of a license plate or revalidation sticker, upon posting with the clerk of court in the county in which the vehicle or vessel was ordered removed, a cash or surety bond or other adequate security equal to the amount of the wrecker operator's lien. Upon the posting of the bond and the payment of the application fee set forth in s. 28.24, the clerk of the court shall issue a certificate notifying the department of the posting of the bond and directing the department to release the wrecker operator's lien. The department shall mail to the wrecker operator, at the address upon the lien form, notice that the wrecker operator must claim the security within 60 days, or the security will be released back to the person who posted it. At the conclusion of the 60 days, the department shall direct the clerk as to which party is entitled to payment of the security, less applicable clerk's fees.

4. A wrecker operator's lien expires 5 years after filing.

(d) Upon discharge of the amount of the wrecker operator's lien allowed by paragraph (b), the wrecker operator must issue a certificate of discharged wrecker operator's lien on forms provided by the department to each registered owner of the vehicle or vessel attesting that the amount of the wrecker operator's lien allowed by paragraph (b) has been discharged. Upon presentation of the certificate of discharged wrecker operator's lien by the registered owner, the department shall immediately remove the registered owner's name from the list of those persons who may not be issued a license plate or revalidation sticker for any motor vehicle under s. 320.03(8), thereby allowing issuance of a license plate or revalidation sticker. Issuance of a certificate of discharged wrecker operator's lien under this paragraph does not discharge the entire amount of the wrecker operator's lien claimed under subsection (2), but only certifies to the department that the amount of the wrecker operator's lien allowed by paragraph (b), for which the department will prevent issuance of a license plate or revalidation sticker, has been discharged.

(e) When a wrecker operator files a notice of wrecker operator's lien under this subsection, the department shall charge the wrecker operator a fee of \$2, which shall be deposited into the General Revenue Fund. A service charge of \$2.50 shall be collected and retained by the tax collector who processes a notice of wrecker operator's lien.

(f) This subsection applies only to the annual renewal in the registered owner's birth month of a motor vehicle registration and does not apply to the transfer of a registration of a motor vehicle sold by a motor vehicle dealer licensed under chapter 320, except for the transfer of registrations which includes the annual renewals. This subsection does not apply to any vehicle registered in the name of the lessor. This subsection does not affect the issuance of the title to a motor vehicle, notwithstanding s. 319.23(8)(b).

(g) The Department of Highway Safety and Motor Vehicles may adopt rules pursuant to ss. 120.536(1) and 120.54 to implement this subsection.

Section 63. Paragraph (aa) of subsection (7) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(7) MISCELLANEOUS EXEMPTIONS.—Exemptions provided to any entity by this chapter do not inure to any transaction that is otherwise taxable under this chapter when payment is made by a representative or employee of the entity by any means, including, but not limited to, cash, check, or credit card, even when that representative or

In addition, exemptions provided to any entity by this subsection do not inure to any transaction that is otherwise taxable under this chapter unless the entity has obtained a sales tax exemption certificate from the department or the entity obtains or provides other documentation as required by the department. Eligible purchases or leases made with such a certificate must be in strict compliance with this subsection and departmental rules, and any person who makes an exempt purchase with a certificate that is not in strict compliance with this subsection and the rules is liable for and shall pay the tax. The department may adopt rules to administer this subsection.

2. Such vehicle was titled and registered in this state at the time of the sale, lease, or rental; and

316.515 Maximum width, height, length.—

(3) **LENGTH LIMITATION.**—Except as otherwise provided in this section, length limitations apply solely to a semitrailer or trailer, and not to a truck tractor or to the overall length of a combination of vehicles. No combination of commercial motor vehicles coupled together and operating on the public roads may consist of more than one truck tractor and two trailing units. Unless otherwise specifically provided for in this section, a combination of vehicles not qualifying as commercial motor vehicles may consist of no more than two units coupled together; such nonqualifying combination of vehicles may not exceed a total length of 65 feet, inclusive of the load carried thereon, but exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. Notwithstanding any other provision of this section, a truck tractor-semitrailer combination engaged in the transportation of automobiles or boats may transport motor vehicles or boats on part of the power unit; and, except as may otherwise be mandated under federal law, an automobile or boat transporter semitrailer may not exceed 50 feet in length, exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer. The 50-foot length limitation does not apply to non-stinger-steered automobile or boat transporters that are 65 feet or less in overall length, exclusive of the load carried thereon, or to stinger-steered automobile or boat transporters that are 75 feet or less in overall length, exclusive of the load carried thereon. For purposes of this subsection, a “stinger-steered automobile or boat transporter” is an automobile or boat transporter configured as a semitrailer combination wherein the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit. Notwithstanding paragraphs (a) and (b), any straight truck or truck tractor-semitrailer combination engaged in the transportation of horticultural trees may allow the load to extend up to an additional 10 feet beyond the rear of the vehicle, provided said trees are resting against a retaining bar mounted above the truck bed so that the root balls of the trees rest on the floor and to the front of the truck bed and the tops of the trees extend up over and to the rear of the truck bed, and provided the overhanging portion of the load is covered with protective fabric.

(a) *Straight trucks.*—A straight truck may not exceed a length of 40 feet in extreme overall dimension, exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. *A straight truck may attach a forklift to the rear of the cargo bed, provided the overall combined length of the vehicle and the forklift does not exceed 50 feet.* A straight truck may tow no more than one trailer, and the overall length of the truck-trailer combination may not exceed 68 feet, including the load thereon. Notwithstanding any other provisions of this section, a truck-trailer combination engaged in the transportation of boats, or boat trailers whose design dictates a front-to-rear stacking method may not exceed the length limitations of this

paragraph exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer.

(5) **IMPLEMENTS OF HUSBANDRY AND FARM EQUIPMENT; AGRICULTURAL TRAILERS; FORESTRY EQUIPMENT; SAFETY REQUIREMENTS.**—

(c) The width and height limitations of this section do not apply to farming or agricultural equipment, whether self-propelled, pulled, or hauled, when temporarily operated during daylight hours upon a public road that is not a limited access facility as defined in s. 334.03(12), and the width and height limitations may be exceeded by such equipment without a permit. To be eligible for this exemption, the equipment shall be operated within a radius of 50 miles of the real property owned, rented, *managed, harvested*, or leased by the equipment owner. However, equipment being delivered by a dealer to a purchaser is not subject to the 50-mile limitation. Farming or agricultural equipment greater than 174 inches in width must have one warning lamp mounted on each side of the equipment to denote the width and must have a slow-moving vehicle sign. Warning lamps required by this paragraph must be visible from the front and rear of the vehicle and must be visible from a distance of at least 1,000 feet.

Upon cancellation of a certificate of title in the manner prescribed by this section, the department may cancel and destroy all certificates in that chain of title. The derelict motor vehicle certificate application shall be used by the seller or owner, the seller's or owner's authorized transporter, and the licensed salvage motor vehicle dealer to obtain a derelict motor vehicle certificate from the department. The derelict motor vehicle certificate application must be accompanied by a legible copy of the seller's or owner's valid Florida driver's license or Florida identification card, or a valid ~~driver's~~ *driver's* license or identification card issued by another state. If the seller is not the owner of record of the vehicle being sold, the dealer shall, at the time of sale, ensure that a smudge-free right thumbprint, or other digit if the seller has no right thumb, of the seller is imprinted upon the derelict motor vehicle certificate application and that a legible copy of the seller's ~~driver's~~ *driver's* license or identification card is affixed to the application and transmitted to the department. The licensed salvage motor vehicle dealer shall *make the required notification of the derelict motor vehicle to the National Motor Vehicle Title Information System* and secure the derelict motor vehicle for 3 full business days, excluding weekends and holidays, if there is no active lien or a lien of 3 years or more on the department's records before destroying or dismantling the derelict motor vehicle and shall follow all reporting procedures established by the department, including electronic notification to the department or delivery of the original derelict motor vehicle certificate application to an agent of the department within 24 hours after receiving the derelict motor vehicle. If there is an active lien of less than 3 years on the derelict motor vehicle, the licensed salvage motor vehicle dealer shall secure the derelict motor vehicle for 10 days. The department shall notify the lienholder that a derelict motor vehicle certificate has been issued and shall notify the lienholder of its intention to remove the lien. Ten days after receipt of the motor vehicle derelict certificate application, the department may remove the lien from its records if a written statement protesting removal of the lien is not received by the department from the lienholder within the 10-day period. However, if the lienholder files with the department and the licensed salvage motor vehicle dealer within the 10-day period a written statement that the lien is still outstanding, the department shall not remove the lien and shall place an administrative hold on the record for 30 days to allow the lienholder to apply for title to the vehicle or a repossession certificate under s. 319.28. (3)(a)1. As used in this section, a motor vehicle or mobile home is a "total loss":

- a. When an insurance company pays the vehicle owner to replace the wrecked or damaged vehicle with one of like kind and quality or when an insurance company pays the owner upon the theft of the motor vehicle or mobile home; or
- b. When an uninsured motor vehicle or mobile home is wrecked or damaged and the cost, at the time of loss, of repairing or rebuilding the vehicle is 80 percent or more of the cost to the owner of replacing the

wrecked or damaged motor vehicle or mobile home with one of like kind and quality.

2. A motor vehicle or mobile home shall not be considered a "total loss" if the insurance company and owner of a motor vehicle or mobile home agree to repair, rather than to replace, the motor vehicle or mobile home. However, if the actual cost to repair the motor vehicle or mobile home to the insurance company exceeds 100 percent of the cost of replacing the wrecked or damaged motor vehicle or mobile home with one of like kind and quality, the owner shall forward to the department, within 72 hours after the agreement, a request to brand the certificate of title with the words "Total Loss Vehicle." Such a brand shall become a part of the vehicle's title history.

(b) The owner, including persons who are self-insured, of any motor vehicle or mobile home which is considered to be salvage shall, within 72 hours after the motor vehicle or mobile home becomes salvage, forward the title to the motor vehicle or mobile home to the department for processing. However, an insurance company which pays money as compensation for total loss of a motor vehicle or mobile home shall obtain the certificate of title for the motor vehicle or mobile home, *make the required notification to the National Motor Vehicle Title Information System*, and, within 72 hours after receiving such certificate of title, shall forward such title to the department for processing. The owner or insurance company, as the case may be, may not dispose of a vehicle or mobile home that is a total loss before it has obtained a salvage certificate of title or certificate of destruction from the department. When applying for a salvage certificate of title or certificate of destruction, the owner or insurance company must provide the department with an estimate of the costs of repairing the physical and mechanical damage suffered by the vehicle for which a salvage certificate of title or certificate of destruction is sought. If the estimated costs of repairing the physical and mechanical damage to the vehicle are equal to 80 percent or more of the current retail cost of the vehicle, as established in any official used car or used mobile home guide, the department shall declare the vehicle unrebuildable and print a certificate of destruction, which authorizes the dismantling or destruction of the motor vehicle or mobile home described therein. However, if the damaged motor vehicle is equipped with custom-lowered floors for wheelchair access or a wheelchair lift, the insurance company may, upon determining that the vehicle is repairable to a condition that is safe for operation on public roads, submit the certificate of title to the department for reissuance as a salvage rebuildable title and the addition of a title brand of "insurance-declared total loss." The certificate of destruction shall be reassignable a maximum of two times before dismantling or destruction of the vehicle shall be required, and shall accompany the motor vehicle or mobile home for which it is issued, when such motor vehicle or mobile home is sold for such purposes, in lieu of a certificate of title, and, thereafter, the department shall refuse issuance of any certificate of title for that vehicle. Nothing in this subsection shall be applicable when a vehicle is worth less than \$1,500 retail in undamaged condition in any official used motor vehicle guide or used mobile home guide or when a stolen motor vehicle or mobile home is recovered in substantially intact condition and is readily resalable without extensive repairs to or replacement of the frame or engine. Any person who knowingly violates this paragraph or falsifies any document to avoid the requirements of this paragraph commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(4) It is unlawful for any person to have in his or her possession any motor vehicle or mobile home when the manufacturer's or state-assigned identification number plate or serial plate has been removed therefrom.

(a) Nothing in this subsection shall be applicable when a vehicle defined in this section as a derelict or salvage was purchased or acquired from a foreign state requiring such vehicle's identification number plate to be surrendered to such state, provided the person shall have an affidavit from the seller describing the vehicle by manufacturer's serial number and the state to which such vehicle's identification number plate was surrendered.

(b) Nothing in this subsection shall be applicable if a certificate of destruction has been obtained for the vehicle.

(5)(a) It is unlawful for any person to knowingly possess, sell, or exchange, offer to sell or exchange, or give away any certificate of title or manufacturer's or state-assigned identification number plate or serial plate of any motor vehicle, mobile home, or derelict that has been sold as salvage contrary to the provisions of this section, and it is unlawful for

any person to authorize, direct, aid in, or consent to the possession, sale, or exchange or to offer to sell, exchange, or give away such certificate of title or manufacturer's or state-assigned identification number plate or serial plate.

(b) It is unlawful for any person to knowingly possess, sell, or exchange, offer to sell or exchange, or give away any manufacturer's or state-assigned identification number plate or serial plate of any motor vehicle or mobile home that has been removed from the motor vehicle or mobile home for which it was manufactured, and it is unlawful for any person to authorize, direct, aid in, or consent to the possession, sale, or exchange or to offer to sell, exchange, or give away such manufacturer's or state-assigned identification number plate or serial plate.

(c) This chapter does not apply to anyone who removes, possesses, or replaces a manufacturer's or state-assigned identification number plate, in the course of performing repairs on a vehicle, that require such removal or replacement. If the repair requires replacement of a vehicle part that contains the manufacturer's or state-assigned identification number plate, the manufacturer's or state-assigned identification number plate that is assigned to the vehicle being repaired will be installed on the replacement part. The manufacturer's or state-assigned identification number plate that was removed from this replacement part will be installed on the part that was removed from the vehicle being repaired.

(6)(a) In the event of a purchase by a salvage motor vehicle dealer of materials or major component parts for any reason, the purchaser shall:

1. For each item of materials or major component parts purchased, the salvage motor vehicle dealer shall record the date of purchase and the name, address, and personal identification card number of the person selling such items, as well as the vehicle identification number, if available.

2. With respect to each item of materials or major component parts purchased, obtain such documentation as may be required by subsection (2).

(b) Any person who violates this subsection commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(7)(a) In the event of a purchase by a secondary metals recycler, that has been issued a certificate of registration number, of:

1. Materials, prepared materials, or parts from any seller for purposes other than the processing of such materials, prepared materials, or parts, the purchaser shall obtain such documentation as may be required by this section and shall record the seller's name and address, date of purchase, and the personal identification card number of the person delivering such items.

2. Parts or prepared materials from any seller for purposes of the processing of such parts or prepared materials, the purchaser shall record the seller's name and address and date of purchase and, in the event of a purchase transaction consisting primarily of parts or prepared materials, the personal identification card number of the person delivering such items.

3. Materials from another secondary metals recycler for purposes of the processing of such materials, the purchaser shall record the seller's name and address and date of purchase.

- 4.a. Motor vehicles, recreational vehicles, mobile homes, or derelict motor vehicles from other than a secondary metals recycler for purposes of the processing of such motor vehicles, recreational vehicles, mobile homes, or derelict motor vehicles, the purchaser shall *make the required notification to the National Motor Vehicle Title Information* record the date of purchase and the name, address, and personal identification card number of the person selling such items and shall obtain the following documentation from the seller with respect to each item purchased:

- (I) A valid certificate of title issued in the name of the seller or properly endorsed, as required in s. 319.22, over to the seller;

- (II) A valid salvage certificate of title issued in the name of the seller or properly endorsed, as required in s. 319.22, over to the seller;

- (III) A valid certificate of destruction issued in the name of the seller or properly endorsed over to the seller; or

- (IV) A valid derelict motor vehicle certificate obtained from the department by a licensed salvage motor vehicle dealer and properly reassigned to the secondary metals recycler.

- b. If a valid certificate of title, salvage certificate of title, certificate of destruction, or derelict motor vehicle certificate is not available and the motor vehicle or mobile home is a derelict motor vehicle, a derelict motor vehicle certificate application shall be completed by the seller or owner of the motor vehicle or mobile home, the seller's or owner's authorized transporter, and the registered secondary metals recycler at the time of sale, transport, or delivery to the registered secondary metals recycler to obtain a derelict motor vehicle certificate from the department. The derelict motor vehicle certificate application must be accompanied by a legible copy of the seller's or owner's valid Florida *driver driver's* license or Florida identification card, or a valid *driver driver's* license or identification card from another state. If the seller is not the owner of record of the vehicle being sold, the recycler shall, at the time of sale, ensure that a smudge-free right thumbprint, or other digit if the seller has no right thumb, of the seller is imprinted upon the derelict motor vehicle certificate application and that the legible copy of the seller's *driver driver's* license or identification card is affixed to the application and transmitted to the department. The derelict motor vehicle certificate shall be used by the owner, the owner's authorized transporter, and the registered secondary metals recycler. The registered secondary metals recycler *shall make the required notification of the derelict motor vehicle to the National Motor Vehicle Title Information System* and shall secure the derelict motor vehicle for 3 full business days, excluding weekends and holidays, if there is no active lien or a lien of 3 years or more on the department's records before destroying or dismantling the derelict motor vehicle and shall follow all reporting procedures established by the department, including electronic notification to the department or delivery of the original derelict motor vehicle certificate application to an agent of the department within 24 hours after receiving the derelict motor vehicle. If there is an active lien of less than 3 years on the derelict motor vehicle, the registered secondary metals recycler shall secure the derelict motor vehicle for 10 days. The department shall notify the lienholder of the application for a derelict motor vehicle certificate and shall notify the lienholder of its intention to remove the lien. Ten days after receipt of the motor vehicle derelict application, the department may remove the lien from its records if a written statement protesting removal of the lien is not received by the department from the lienholder within the 10-day period. However, if the lienholder files with the department and the registered secondary metals recycler within the 10-day period a written statement that the lien is still outstanding, the department shall not remove the lien and shall place an administrative hold on the record for 30 days to allow the lienholder to apply for title to the vehicle or a repossession certificate under s. 319.28. The registered secondary metals recycler must secure the derelict motor vehicle until the department's administrative stop is removed, the lienholder submits a lien satisfaction, or the lienholder takes possession of the vehicle.

- c. Any person who knowingly violates this subparagraph by selling, transporting, delivering, purchasing, or receiving a motor vehicle, recreational motor vehicle, mobile home, or derelict motor vehicle without obtaining a certificate of title, salvage certificate of title, certificate of destruction, or derelict motor vehicle certificate; enters false or fictitious information on a derelict motor vehicle certificate application; does not complete the derelict motor vehicle certificate application as required or does not make the required notification to the department; *does not make the required notification to the National Motor Vehicle Title Information System*; does not obtain a legible copy of the seller's or owner's *driver driver's* license or identification card when required; or destroys or dismantles a derelict motor vehicle without waiting the required time as set forth in sub-subparagraph b. commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

- (b) Any person who violates this subsection commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(8)(a) Secondary metals recyclers and salvage motor vehicle dealers shall return to the department on a monthly basis all certificates of title and salvage certificates of title that are required by this section to be obtained. Secondary metals recyclers and salvage motor vehicle dealers may elect to notify the department electronically through procedures established by the department when they receive each motor vehicle or mobile home, salvage motor vehicle or mobile home, or derelict motor vehicle with a certificate of title or salvage certificate of title through procedures established by the department. The department may adopt rules and establish fees as it deems necessary or proper for the administration of the electronic notification service.

(b) Secondary metals recyclers and salvage motor vehicle dealers shall keep originals, or a copy in the event the original was returned to the department, of all certificates of title, salvage certificates of title, certificates of destruction, derelict motor vehicle certificates, and all other information required by this section to be recorded or obtained, on file in the offices of such secondary metals recyclers or salvage motor vehicle dealers for a period of 3 years after the date of purchase of the items reflected in such certificates of title, salvage certificates of title, certificates of destruction, or derelict motor vehicle certificates. These records shall be maintained in chronological order.

(c) For the purpose of enforcement of this section, the department or its agents and employees have the same right of inspection as law enforcement officers as provided in s. 812.055.

(d) Whenever the department, its agent or employee, or any law enforcement officer has reason to believe that a stolen or fraudulently titled motor vehicle, mobile home, recreational vehicle, salvage motor vehicle, or derelict motor vehicle is in the possession of a salvage motor vehicle dealer or secondary metals recycler, the department, its agent or employee, or the law enforcement officer may issue an extended hold notice, not to exceed 5 additional business days, excluding weekends and holidays, to the salvage motor vehicle dealer or registered secondary metals recycler.

(e) Whenever a salvage motor vehicle dealer or registered secondary metals recycler is notified by the department, its agent or employee, or any law enforcement officer to hold a motor vehicle, mobile home, recreational vehicle, salvage motor vehicle, or derelict motor vehicle that is believed to be stolen or fraudulently titled, the salvage motor vehicle dealer or registered secondary metals recycler shall hold the motor vehicle, mobile home, recreational vehicle, salvage motor vehicle, or derelict motor vehicle and may not dismantle or destroy the motor vehicle, mobile home, recreational vehicle, salvage motor vehicle, or derelict motor vehicle until it is recovered by a law enforcement officer, the hold is released by the department or the law enforcement officer placing the hold, or the 5 additional business days have passed since being notified of the hold.

(f) This section does not authorize any person who is engaged in the business of recovering, towing, or storing vehicles pursuant to s. 713.78, and who is claiming a lien for performing labor or services on a motor vehicle or mobile home pursuant to s. 713.58, or is claiming that a motor vehicle or mobile home has remained on any premises after tenancy has terminated pursuant to s. 715.104, to use a derelict motor vehicle certificate application for the purpose of transporting, selling, disposing of, or delivering a motor vehicle to a salvage motor vehicle dealer or secondary metals recycler without obtaining the title or certificate of destruction required under s. 713.58, s. 713.78, or s. 715.104.

(g) The department shall accept all properly endorsed and completed derelict motor vehicle certificate applications and shall issue a derelict motor vehicle certificate having an effective date that authorizes when a derelict motor vehicle is eligible for dismantling or destruction. The electronic information obtained from the derelict motor vehicle certificate application shall be stored electronically and shall be made available to authorized persons after issuance of the derelict motor vehicle certificate in the Florida Real Time Vehicle Information System.

(h) The department is authorized to adopt rules pursuant to ss. 120.536(1) and 120.54 establishing policies and procedures to administer and enforce this section.

The licensed salvage motor vehicle dealer or registered secondary metals recycler may not cash the check that such dealer or recycler issued to the seller.

A description of the motor vehicle which includes the year, make, and identification number must be given on the notice. This notification must take place within 15 business days, excluding Saturday and Sunday, from the beginning date of the assessment of storage charges on said motor vehicle. For purposes of this paragraph, the term "good faith effort" means that the following checks have been performed by the company to establish the prior state of registration and title:

(a) *A check of the Department of Highway Safety and Motor Vehicles database for the owner and any lienholder;*

(b) *A check of the federally mandated electronic National Motor Vehicle Title Information System or an equivalent commercially available system to determine the state of registration when there is not a current title or registration record for the vehicle on file with the Department of Highway Safety and Motor Vehicles;*

(b) Certificates evidencing coverage under the policy are issued to residents of this state and contain in contrasting color and not less than 10-point type the following statement: "The benefits of the policy providing your coverage are governed primarily by the law of a state other than Florida"; and

"This policy is primarily governed by the laws of insert state where the master policy is filed. As a result, all of the rating laws applicable to policies filed in this state do not apply to this coverage, which may

result in increases in your premium at renewal that would not be permissible under a Florida-approved policy. Any purchase of individual health insurance should be considered carefully, as future medical conditions may make it impossible to qualify for another individual health policy. For information concerning individual health coverage under a Florida-approved policy, consult your agent or the Florida Department of Financial Services."

This paragraph applies only to group certificates providing health insurance coverage which require individualized underwriting to determine coverage eligibility for an individual or premium rates to be charged to an individual except for the following:

Section 57. Sections 627.42391 and 641.313, Florida Statutes, as created by this act apply to policies and contracts issued or renewed on or after that date.
