The State Board of Education must consider the appeal within 60 days of its receipt, and the decision of the state board shall be final.

~~(6)(5)~~ RESPONSIBILITIES OF THE DEPARTMENT OF EDUCATION.—

(a) By May 1 of each year, each supplemental educational services provider must report to the Department of Education, unless a prior agreement has been made with the local school district, in an electronic form prescribed by the department, the following information regarding services provided to public school students in the district:

1. Student learning gains as demonstrated by mastery of applicable benchmarks or access points set forth in the Sunshine State Standards;
2. Student attendance and completion data;
3. Parent satisfaction survey results;
4. School district satisfaction survey results received directly from the school district; and
5. Satisfaction survey results received directly from the school district which were completed by principals in whose schools onsite supplemental educational services were provided.

The department shall post a uniform survey on its Internet website to be completed online by principals and school districts.

(b) The department shall evaluate each state-approved provider using the information received pursuant to paragraph (a) and assign a service designation of excellent, satisfactory, or unsatisfactory for the prior school year. However, if the student population served by the provider does not meet the minimum sample size necessary, based on accepted professional practice for statistical reliability and the prevention of the unlawful release of personally identifiable student information, the provider will not receive a service designation. The State Board of Education shall specify, by rule, the threshold requirements for assigning the service designations; however, the service designations must be based primarily on student learning gains. By July 1 of each year, the department must report the service designation to the supplemental

educational services providers, the school districts, parents, and the public.

~~(c) For the 2012-2013 school year, school districts shall use an amount equivalent to 15 percent of the Title I, Part A funds allocated to Title I schools to meet the requirements for supplemental educational services. Supplemental educational services shall be provided in Title I schools to students who are performing at Level 1 or Level 2 on the FCAT. Each school district shall contract with supplemental educational service providers that have been approved by the department. Each school district shall reserve an amount equal to 8 percent of the amount that the school district receives under Title I, Part A of the federal Elementary and Secondary Education Act, for each fiscal year, for supplemental educational services pursuant to this section to be provided by state-approved providers, including school districts.~~

(d) The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer the provisions of this subsection.

(e) The board's rules shall establish an internal complaint procedure to resolve disputes regarding the state approval process, the termination of state approval, and the assignment of a service designation. The internal complaint procedure must provide for an informal review by a hearing officer who is employed by the department and, if requested, a formal review by a hearing officer who is employed by the department, and shall recommend a resolution of the dispute to the Commissioner of Education. The internal complaint procedure is exempt from the provisions of chapter 120. The decision by the commissioner shall constitute final action.

(f) By September 1, 2011, the department shall approve and a district may select acceptable premethods and postmethods for measuring student learning gains, including standardized assessments, diagnostic assessments, criterion-referenced and skills-based assessments, or other applicable methods appropriate for each grade level, for use by supplemental educational services providers and local school districts in determining student learning gains. Each method must be able to measure student progress toward mastering the benchmarks or access points set forth in the Sunshine State Standards and the student's supplemental educational services plan. The use of a diagnostic and assessment instrument, which is aligned to a provider's curriculum, is an acceptable premethod and postmethod if the provider can demonstrate that the assessment meets the requirements in this paragraph and is not deemed unreliable or invalid by the department.

(g) As a condition for state approval, a provider must use a method for measuring student learning gains which results in reliable and valid results as approved by the department.

(h) The provider shall report data on individual student learning gains to the department, unless a prior agreement has been made with the local school district to report such student achievement data. The report must include individual student learning gains as demonstrated by mastery of applicable benchmarks or access points set forth in the Sunshine State Standards.

*(i) The department shall create an external complaint procedure for complaints against state-approved supplemental educational services providers. If the department finds that a state-approved supplemental educational services provider is found to have violated a provision specified in paragraph (3)(i), the department shall terminate the provider pursuant to the internal complaint procedure in this subsection.*

~~(7)(6)~~ RULES.—The State Board of Education may adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this section and may enforce the provisions of this section pursuant to s. 1008.32.

443.036 Definitions.—As used in this chapter, the term:

(30) "Misconduct," irrespective of whether the misconduct occurs at the workplace or during working hours, includes, but is not limited to, the following, which may not be construed in pari materia with each other:

(a) Conduct demonstrating conscious disregard of an employer's interests and found to be a deliberate violation or disregard of the reasonable standards of behavior which the employer expects of his or her employee. *Such conduct may include, but is not limited to, willful damage to an employer's property that results in damage of more than \$50; or theft of employer property or property of a customer or invitee of the employer.*

(e)1. A violation of an employer's rule, unless the claimant can demonstrate that:

a.1. He or she did not know, and could not reasonably know, of the rule's requirements;

b.2. The rule is not lawful or not reasonably related to the job environment and performance; or

c.3. The rule is not fairly or consistently enforced.

2. *Such conduct may include, but is not limited to, committing criminal assault or battery on another employee, or on a customer or invitee of the employer; or committing abuse or neglect of a patient, resident, disabled person, elderly person, or child in her or his professional care.*

Section 41. Paragraphs (b), (c), and (d) of subsection (1) of section 443.091, Florida Statutes, are amended to read:

443.091 Benefit eligibility conditions.—

(1) An unemployed individual is eligible to receive benefits for any week only if the Department of Economic Opportunity finds that:

(b) She or he has *completed the department's online work registration registered with the department for work* and subsequently reports to the one-stop career center as directed by the regional workforce board for reemployment services. This requirement does not apply to persons who are:

1. Non-Florida residents;

2. On a temporary layoff;

3. Union members who customarily obtain employment through a union hiring hall; ~~or~~

4. Claiming benefits under an approved short-time compensation plan as provided in s. 443.1116; or

5. *Unable to complete the online work registration due to illiteracy, physical or mental impairment, a legal prohibition from using a computer, or a language impediment. If a person is exempted from the online work registration under this subparagraph, then the filing of his or her claim constitutes registration for work.*

(c) To make continued claims for benefits, she or he is reporting to the department in accordance with this paragraph and department rules, and participating in an initial skills review, as directed by the department. Department rules may not conflict with s. 443.111(1)(b), which requires that each claimant continue to report regardless of any pending appeal relating to her or his eligibility or disqualification for benefits.

1. For each week of unemployment claimed, each report must, at a minimum, include the name, address, and telephone number of each prospective employer contacted, or the date the claimant reported to a one-stop career center, pursuant to paragraph (d).

2. The administrator or operator of the initial skills review shall notify the department when the individual completes the initial skills review and report the results of the review to the regional workforce board or the one-stop career center as directed by the workforce board. The department shall prescribe a numeric score on the initial skills review that demonstrates a minimal proficiency in workforce skills. The department, workforce board, or one-stop career center shall use the initial skills review to develop a plan for referring individuals to training and employment opportunities. The failure of the individual to comply with this requirement will result in the individual being determined ineligible for benefits for the week in which the noncompliance occurred and for any subsequent week of unemployment until the requirement is satisfied. However, this requirement does not apply if the individual ~~is able to affirmatively attest to being unable to complete such review due to illiteracy or a language impediment or~~ is exempt from the work registration requirement as set forth in paragraph (b).

3. Any individual who falls below the minimal proficiency score prescribed by the department in subparagraph 2. on the initial skills review shall be offered training opportunities and encouraged to participate in such training at no cost to the individual in order to improve his or her workforce skills to the minimal proficiency level.

4. The department shall coordinate with Workforce Florida, Inc., the workforce boards, and the one-stop career centers to identify, develop, and utilize best practices for improving the skills of individuals who choose to participate in training opportunities and who have a minimal proficiency score below the score prescribed in subparagraph 2.

5. The department, in coordination with Workforce Florida, Inc., the workforce boards, and the one-stop career centers, shall evaluate the use, effectiveness, and costs associated with the training prescribed in subparagraph 3. and report its findings and recommendations for training and the use of best practices to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2013.

(d) She or he is able to work and is available for work. In order to assess eligibility for a claimed week of unemployment, the department shall develop criteria to determine a claimant's ability to work and availability for work. A claimant must be actively seeking work in order to be considered available for work. This means engaging in systematic and sustained efforts to find work, including contacting at least five prospective employers for each week of unemployment claimed. The department may require the claimant to provide proof of such efforts to the one-stop career center as part of reemployment services. *A claimant's proof of work search efforts may not include the same prospective employer at the same location in three consecutive weeks, unless the employer has indicated since the time of the initial contact that the employer is hiring.* The department shall conduct random reviews of work search information provided by claimants. As an alternative to contacting at least five prospective employers for any week of unemployment claimed, a claimant may, for that same week, report in person to a one-stop career center to meet with a representative of the center and access reemployment services of the center. The center shall keep a record of the services or information provided to the claimant and shall provide the records to the department upon request by the department. However:

1. Notwithstanding any other provision of this paragraph or paragraphs (b) and (e), an otherwise eligible individual may not be denied benefits for any week because she or he is in training with the approval of the department, or by reason of s. 443.101(2) relating to failure to apply for, or refusal to accept, suitable work. Training may be approved by the department in accordance with criteria prescribed by rule. A claimant's eligibility during approved training is contingent upon satisfying eligibility conditions prescribed by rule.

2. Notwithstanding any other provision of this chapter, an otherwise eligible individual who is in training approved under s. 236(a)(1) of the Trade Act of 1974, as amended, may not be determined ineligible or disqualified for benefits due to enrollment in such training or because of leaving work that is not suitable employment to enter such training. As used in this subparagraph, the term "suitable employment" means work

of a substantially equal or higher skill level than the worker's past adversely affected employment, as defined for purposes of the Trade Act of 1974, as amended, the wages for which are at least 80 percent of the worker's average weekly wage as determined for purposes of the Trade Act of 1974, as amended.

3. Notwithstanding any other provision of this section, an otherwise eligible individual may not be denied benefits for any week because she or he is before any state or federal court pursuant to a lawfully issued summons to appear for jury duty.

4. Union members who customarily obtain employment through a union hiring hall may satisfy the work search requirements of this paragraph by reporting daily to their union hall.

5. The work search requirements of this paragraph do not apply to persons who are unemployed as a result of a temporary layoff or who are claiming benefits under an approved short-time compensation plan as provided in s. 443.1116.

6. In small counties as defined in s. 120.52(19), a claimant engaging in systematic and sustained efforts to find work must contact at least three prospective employers for each week of unemployment claimed.

7. *The work search requirements of this paragraph do not apply to persons required to participate in reemployment services under paragraph (e).*

Section 42. Subsection (13) is added to section 443.101, Florida Statutes, to read:

443.101 Disqualification for benefits.—An individual shall be disqualified for benefits:

(13) *For any week with respect to which the department finds that his or her unemployment is due to a discharge from employment for failure without good cause to maintain a license, registration, or certification required by applicable law necessary for the employee to perform her or his assigned job duties. For purposes of this paragraph, the term "good cause" includes, but is not limited to, failure of the employer to submit information required for a license, registration, or certification; short-term physical injury which prevents the employee from completing or taking a required test; and inability to take or complete a required test that is outside the employee's control.*

Section 43. Paragraph (b) of subsection (4) of section 443.1113, Florida Statutes, is amended to read:

Section 44. Subsection (5) of section 443.131, Florida Statutes, is amended to read:

443.131 Contributions.—

(5) ADDITIONAL RATE FOR INTEREST ON FEDERAL ADVANCES.—

(a) When the Unemployment Compensation Trust Fund has received advances from the Federal Government under the provisions of 42 U.S.C. s. 1321, each contributing employer shall be assessed an additional rate solely for the purpose of paying interest due on such federal advances. The additional rate shall be assessed no later than February 1 in each calendar year in which an interest payment is due.

(b) The Revenue Estimating Conference shall estimate the amount of such interest due on federal advances by ~~no later than~~ December 1 of the calendar year before ~~preceding~~ the calendar year in which an interest payment is due. The Revenue Estimating Conference shall, at a minimum, consider the following as the basis for the estimate:

1. The amounts actually advanced to the trust fund.
2. Amounts expected to be advanced to the trust fund based on current and projected unemployment patterns and employer contributions.
3. The interest payment due date.
4. The interest rate that will be applied by the Federal Government to any accrued outstanding balances.

(c) ~~(b)~~ The tax collection service provider shall calculate the additional rate to be assessed against contributing employers. The additional rate assessed for a calendar year is ~~shall be~~ determined by dividing the estimated amount of interest to be paid in that year by 95 percent of the taxable wages as described in s. 443.1217 paid by all employers for the year ending June 30 of the ~~previous immediately preceding~~ calendar year. The amount to be paid by each employer is ~~shall be~~ the product obtained by multiplying such employer's taxable wages as described in s. 443.1217 for the year ending June 30 of the ~~previous immediately preceding~~ calendar year by the rate as determined by this subsection. ~~An assessment may not be made if the amount of assessments on deposit from previous years, plus any earned interest, is at least 80 percent of the estimated amount of interest.~~

(d) The tax collection service provider shall make a separate collection of such assessment, which may be collected at the time of employer contributions and subject to the same penalties for failure to file a report, imposition of the standard rate pursuant to paragraph (3)(h), and interest if the assessment is not received on or before June 30. Section 443.141(1)(d) and (e) does not apply to this separately collected assessment. The tax collection service provider shall maintain those funds in the tax collection service provider's Audit and Warrant Clearing Trust Fund until the provider is directed by the Governor or the Governor's designee to make the interest payment to the Federal Government. ~~Assessments on deposit must be available to pay the interest on advances received from the Federal Government under 42 U.S.C. s. 1321. Assessments on deposit may be invested and any interest earned shall be part of the balance available to pay the interest on advances received from the Federal Government under 42 U.S.C. s. 1321.~~

(e) ~~Four months after~~ ~~In the calendar year that~~ all advances from the Federal Government under 42 U.S.C. s. 1321 and associated interest are repaid, ~~if there are assessment funds in excess of the amount required to meet the final interest payment, any such excess assessed funds in the Audit and Warrant Clearing Trust Fund, including associated interest, shall be transferred to credited to employer accounts in the Unemployment Compensation Trust Fund. Any assessment amounts subsequently collected shall also be transferred to the Unemployment Compensation Trust Fund in an amount equal to the employer's contribution to the assessment for that year divided by the total amount of the assessment for that year, the result of which is multiplied by the amount of excess assessed funds.~~

(f) ~~If~~ ~~However, if~~ the state is permitted to defer interest payments due during a calendar year under 42 U.S.C. s. 1322, payment of the interest assessment is ~~shall not be~~ due. If a deferral of interest expires or is subsequently disallowed by the Federal Government, either prospectively or retroactively, the interest assessment shall be immediately due and payable. Notwithstanding any other provision of this section, if interest due during a calendar year on federal advances is forgiven or postponed under federal law and is no longer due during that calendar year, no interest assessment shall be assessed against an employer for that calendar year, and any assessment already assessed and collected against an employer before the forgiveness or postponement of the interest for that calendar year shall be credited to such employer's account in the Unemployment Compensation Trust Fund. However, such funds may be used only to pay benefits or refunds of erroneous contributions.

Senator Hukill moved the following amendment to **Amendment 1** which was adopted:

**Amendment 1A (735928) (with title amendment)**—Between lines 291 and 292 insert:

Section 6. Effective April 30, 2014, paragraph (kkk) is added to subsection (7) of section 212.08, Florida Statutes, to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(7) MISCELLANEOUS EXEMPTIONS.—Exemptions provided to any entity by this chapter do not inure to any transaction that is otherwise taxable under this chapter when payment is made by a representative or employee of the entity by any means, including, but not limited to, cash, check, or credit card, even when that representative or employee is subsequently reimbursed by the entity. In addition, exemptions provided to any entity by this subsection do not inure to any transaction that is otherwise taxable under this chapter unless the en-

tity has obtained a sales tax exemption certificate from the department or the entity obtains or provides other documentation as required by the department. Eligible purchases or leases made with such a certificate must be in strict compliance with this subsection and departmental rules, and any person who makes an exempt purchase with a certificate that is not in strict compliance with this subsection and the rules is liable for and shall pay the tax. The department may adopt rules to administer this subsection.

(kkk) *Certain machinery and equipment.*—

1. *Industrial machinery and equipment purchased by eligible manufacturing businesses which is used at a fixed location within this state for the manufacture, processing, compounding, or production of items of tangible personal property for sale shall be exempt from the tax imposed by this chapter. If at the time of purchase the purchaser furnishes the seller with a signed certificate certifying the purchaser's entitlement to exemption pursuant to this paragraph, the seller is relieved of the responsibility for collecting the tax on the sale of such items, and the department shall look solely to the purchaser for recovery of the tax if it determines that the purchaser was not entitled to the exemption.*

2. *For purposes of this paragraph, the term:*

a. *"Eligible manufacturing business" means any business whose primary business activity at the location where the industrial machinery and equipment is located is within the industries classified under NAICS codes 31, 32, and 33. As used in this subparagraph, "NAICS" means those classifications contained in the North American Industry Classification System, as published in 2007 by the Office of Management and Budget, Executive Office of the President.*

b. *"Primary business activity" means an activity representing more than fifty percent of the activities conducted at the location where the industrial machinery and equipment is located.*

c. *"Industrial machinery and equipment" means tangible personal property or other property that has a depreciable life of 3 years or more and that is used as an integral part in the manufacturing, processing, compounding, or production of tangible personal property for sale. A building and its structural components are not industrial machinery and equipment unless the building or structural component is so closely related to the industrial machinery and equipment that it houses or supports that the building or structural component can be expected to be replaced when the machinery and equipment are replaced. Heating and air conditioning systems are not industrial machinery and equipment unless the sole justification for their installation is to meet the requirements of the production process, even though the system may provide incidental comfort to employees or serve, to an insubstantial degree, nonproduction activities. The term includes parts and accessories for industrial machinery and equipment only to the extent that the parts and accessories are purchased prior to the date the machinery and equipment are placed in service.*

3. *This paragraph is repealed effective April 30, 2017.*

And the title is amended as follows:

## PRAYER

The following prayer was offered by Reverend Dr. Marcius O. King, WGCL (1360 AM), Jacksonville:

Dear Heavenly Father, maker and creator of all mankind and in whom our very being is. It is with the greatest sense of gratitude that we acknowledge your many blessings upon each of us. We realize that you have allowed us to see the dawning, not only of another session, but the blessings also of a new day.

We ask that you will guide our hearts and minds as we go about to do the work for the people for this, our great State of Florida. We ask if you would be in every vote that is cast and in every decision that is made. Guide our hearts and minds that we might make the right decisions for all of the people of this great state.

We realize, Heavenly Father, that you have already blessed us, but for the good that each of us will endeavor to do for every citizen of this state, we ask if you would bless us even the more. By faith, we believe that you

have accepted our humble request, and we ask that you grant us your continued love and care. Amen.

Section 1. Effective June 1, 2013, paragraph (n) of subsection (2), paragraph (b) of subsection (4), paragraphs (b) and (d) of subsection (6), and present subsection (16) of section 215.555, Florida Statutes, are amended, and subsections (17) and (18) of that section are renumbered as subsections (16) and (17), respectively, to read:

215.555 Florida Hurricane Catastrophe Fund.—

(2) DEFINITIONS.—As used in this section:

(n) "Corporation" means the *State Board of Administration Florida Hurricane Catastrophe Fund Finance Corporation* created in paragraph (6)(d).

(4) REIMBURSEMENT CONTRACTS.—

(b)1. The contract shall contain a promise by the board to reimburse the insurer for 45 percent, 75 percent, or 90 percent of its losses from each covered event in excess of the insurer's retention, plus 5 percent of the reimbursed losses to cover loss adjustment expenses.

2. The insurer must elect one of the percentage coverage levels specified in this paragraph and may, upon renewal of a reimbursement contract, elect a lower percentage coverage level if no revenue bonds issued under subsection (6) after a covered event are outstanding, or elect a higher percentage coverage level, regardless of whether or not revenue bonds are outstanding. All members of an insurer group must elect the same percentage coverage level. Any joint underwriting association, risk apportionment plan, or other entity created under s. 627.351 must elect the 90-percent coverage level.

3. The contract shall provide that reimbursement amounts shall not be reduced by reinsurance paid or payable to the insurer from other sources.

~~4. Notwithstanding any other provision contained in this section, the board shall make available to insurers that purchased coverage provided by this subparagraph in 2008, insurers qualifying as limited apportionment companies under s. 627.351(6)(c), and insurers that have been approved to participate in the Insurance Capital Build Up Incentive Program pursuant to s. 215.5595 a contract or contract addendum that provides an additional amount of reimbursement coverage of up to \$10 million. The premium to be charged for this additional reimbursement coverage shall be 50 percent of the additional reimbursement coverage provided, which shall include one prepaid reinstatement. The minimum~~

retention level that an eligible participating insurer must retain associated with this additional coverage layer is 30 percent of the insurer's surplus as of December 31, 2008, for the 2009 2010 contract year; as of December 31, 2009, for the 2010 2011 contract year; and as of December 31, 2010, for the 2011 2012 contract year. This coverage shall be in addition to all other coverage that may be provided under this section. The coverage provided by the fund under this subparagraph shall be in addition to the claims paying capacity as defined in subparagraph (c)1., but only with respect to those insurers that select the additional coverage option and meet the requirements of this subparagraph. The claims paying capacity with respect to all other participating insurers and limited apportionment companies that do not select the additional coverage option shall be limited to their reimbursement premium's proportionate share of the actual claims paying capacity otherwise defined in subparagraph (c)1. and as provided for under the terms of the reimbursement contract. The optional coverage retention as specified shall be accessed before the mandatory coverage under the reimbursement contract, but once the limit of coverage selected under this option is exhausted, the insurer's retention under the mandatory coverage will apply. This coverage will apply and be paid concurrently with mandatory coverage. This subparagraph expires on May 31, 2012.

(6) REVENUE BONDS.—

(b) Emergency assessments—

1. If the board determines that the amount of revenue produced under subsection (5) is insufficient to fund the obligations, costs, and expenses of the fund and the corporation, including repayment of revenue bonds and that portion of the debt service coverage not met by reimbursement premiums, the board shall direct the Office of Insurance Regulation to levy, by order, an emergency assessment on direct premiums for all property and casualty lines of business in this state, including property and casualty business of surplus lines insurers regulated under part VIII of chapter 626, but not including any workers' compensation premiums or medical malpractice premiums. As used in this subsection, the term "property and casualty business" includes all lines of business identified on Form 2, Exhibit of Premiums and Losses, in the annual statement required of authorized insurers by s. 624.424 and any rule adopted under this section, except for those lines identified as accident and health insurance and except for policies written under the National Flood Insurance Program. The assessment shall be specified as a percentage of direct written premium and is subject to annual adjustments by the board in order to meet debt obligations. The same percentage shall apply to all policies in lines of business subject to the assessment issued or renewed during the 12-month period beginning on the effective date of the assessment.

2. A premium is not subject to an annual assessment under this paragraph in excess of 6 percent of premium with respect to obligations arising out of losses attributable to any one contract year, and a premium is not subject to an aggregate annual assessment under this paragraph in excess of 10 percent of premium. An annual assessment under this paragraph shall continue as long as the revenue bonds issued with respect to which the assessment was imposed are outstanding, including any bonds the proceeds of which were used to refund the revenue bonds, unless adequate provision has been made for the payment of the bonds under the documents authorizing issuance of the bonds.

3. Emergency assessments shall be collected from policyholders. Emergency assessments shall be remitted by insurers as a percentage of direct written premium for the preceding calendar quarter as specified in the order from the Office of Insurance Regulation. The office shall verify the accurate and timely collection and remittance of emergency assessments and shall report the information to the board in a form and at a time specified by the board. Each insurer collecting assessments shall provide the information with respect to premiums and collections as may be required by the office to enable the office to monitor and verify compliance with this paragraph.

4. With respect to assessments of surplus lines premiums, each surplus lines agent shall collect the assessment at the same time as the agent collects the surplus lines tax required by s. 626.932, and the surplus lines agent shall remit the assessment to the Florida Surplus Lines Service Office created by s. 626.921 at the same time as the agent remits the surplus lines tax to the Florida Surplus Lines Service Office. The emergency assessment on each insured procuring coverage and fil-

ing under s. 626.938 shall be remitted by the insured to the Florida Surplus Lines Service Office at the time the insured pays the surplus lines tax to the Florida Surplus Lines Service Office. The Florida Surplus Lines Service Office shall remit the collected assessments to the fund or corporation as provided in the order levied by the Office of Insurance Regulation. The Florida Surplus Lines Service Office shall verify the proper application of such emergency assessments and shall assist the board in ensuring the accurate and timely collection and remittance of assessments as required by the board. The Florida Surplus Lines Service Office shall annually calculate the aggregate written premium on property and casualty business, other than workers' compensation and medical malpractice, procured through surplus lines agents and insureds procuring coverage and filing under s. 626.938 and shall report the information to the board in a form and at a time specified by the board.

5. Any assessment authority not used for a particular contract year may be used for a subsequent contract year. If, for a subsequent contract year, the board determines that the amount of revenue produced under subsection (5) is insufficient to fund the obligations, costs, and expenses of the fund and the corporation, including repayment of revenue bonds and that portion of the debt service coverage not met by reimbursement premiums, the board shall direct the Office of Insurance Regulation to levy an emergency assessment up to an amount not exceeding the amount of unused assessment authority from a previous contract year or years, plus an additional 4 percent provided that the assessments in the aggregate do not exceed the limits specified in subparagraph 2.

6. The assessments otherwise payable to the corporation under this paragraph shall be paid to the fund unless and until the Office of Insurance Regulation and the Florida Surplus Lines Service Office have received from the corporation and the fund a notice, which shall be conclusive and upon which they may rely without further inquiry, that the corporation has issued bonds and the fund has no agreements in effect with local governments under paragraph (c). On or after the date of the notice and until the date the corporation has no bonds outstanding, the fund shall have no right, title, or interest in or to the assessments, except as provided in the fund's agreement with the corporation.

7. Emergency assessments are not premium and are not subject to the premium tax, to the surplus lines tax, to any fees, or to any commissions. An insurer is liable for all assessments that it collects and must treat the failure of an insured to pay an assessment as a failure to pay the premium. An insurer is not liable for uncollectible assessments.

8. When an insurer is required to return an unearned premium, it shall also return any collected assessment attributable to the unearned premium. A credit adjustment to the collected assessment may be made by the insurer with regard to future remittances that are payable to the fund or corporation, but the insurer is not entitled to a refund.

9. When a surplus lines insured or an insured who has procured coverage and filed under s. 626.938 is entitled to the return of an unearned premium, the Florida Surplus Lines Service Office shall provide a credit or refund to the agent or such insured for the collected assessment attributable to the unearned premium prior to remitting the emergency assessment collected to the fund or corporation.

10. The exemption of medical malpractice insurance premiums from emergency assessments under this paragraph is repealed May 31, 2016 ~~2013~~, and medical malpractice insurance premiums shall be subject to emergency assessments attributable to loss events occurring in the contract years commencing on June 1, 2016 ~~2013~~.

(d) ~~State Board of Administration Florida Hurricane Catastrophe Fund~~ Finance Corporation.—

1. In addition to the findings and declarations in subsection (1), the Legislature also finds and declares that:

a. The public benefits corporation created under this paragraph will provide a mechanism necessary for the cost-effective and efficient issuance of bonds. This mechanism will eliminate unnecessary costs in the bond issuance process, thereby increasing the amounts available to pay reimbursement for losses to property sustained as a result of hurricane damage.

b. The purpose of such bonds is to fund reimbursements through the Florida Hurricane Catastrophe Fund to pay for the costs of construction, reconstruction, repair, restoration, and other costs associated with damage to properties of policyholders of covered policies due to the occurrence of a hurricane.

c. The efficacy of the financing mechanism will be enhanced by the corporation's ownership of the assessments, by the insulation of the assessments from possible bankruptcy proceedings, and by covenants of the state with the corporation's bondholders.

2.a. There is created a public benefits corporation, which is an instrumentality of the state, to be known as the *State Board of Administration Florida Hurricane Catastrophe Fund Finance Corporation*.

b. The corporation shall operate under a five-member board of directors consisting of the Governor or a designee, the Chief Financial Officer or a designee, the Attorney General or a designee, the director of the Division of Bond Finance of the State Board of Administration, and the *Chief Operating Officer senior employee of the State Board of Administration responsible for operations* of the Florida Hurricane Catastrophe Fund.

c. The corporation has all of the powers of corporations under chapter 607 and under chapter 617, subject only to the provisions of this subsection.

d. The corporation may issue bonds and engage in such other financial transactions as are necessary to provide sufficient funds to achieve the purposes of this section.

e. The corporation may invest in any of the investments authorized under s. 215.47.

f. There shall be no liability on the part of, and no cause of action shall arise against, any board members or employees of the corporation for any actions taken by them in the performance of their duties under this paragraph.

3.a. In actions under chapter 75 to validate any bonds issued by the corporation, the notice required by s. 75.06 shall be published in two newspapers of general circulation in the state, and the complaint and order of the court shall be served only on the State Attorney of the Second Judicial Circuit.

b. The state hereby covenants with holders of bonds of the corporation that the state will not repeal or abrogate the power of the board to direct the Office of Insurance Regulation to levy the assessments and to collect the proceeds of the revenues pledged to the payment of such bonds as long as any such bonds remain outstanding unless adequate provision has been made for the payment of such bonds pursuant to the documents authorizing the issuance of such bonds.

4. The bonds of the corporation are not a debt of the state or of any political subdivision, and neither the state nor any political subdivision is liable on such bonds. The corporation does not have the power to pledge the credit, the revenues, or the taxing power of the state or of any political subdivision. The credit, revenues, or taxing power of the state or of any political subdivision shall not be deemed to be pledged to the payment of any bonds of the corporation.

5.a. The property, revenues, and other assets of the corporation; the transactions and operations of the corporation and the income from such transactions and operations; and all bonds issued under this paragraph and interest on such bonds are exempt from taxation by the state and any political subdivision, including the intangibles tax under chapter 199 and the income tax under chapter 220. This exemption does not apply to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations other than the *State Board of Administration Florida Hurricane Catastrophe Fund Finance Corporation*.

b. All bonds of the corporation shall be and constitute legal investments without limitation for all public bodies of this state; for all banks, trust companies, savings banks, savings associations, savings and loan associations, and investment companies; for all administrators, executors, trustees, and other fiduciaries; for all insurance companies and associations and other persons carrying on an insurance business; and for all other persons who are now or may hereafter be authorized to

invest in bonds or other obligations of the state and shall be and constitute eligible securities to be deposited as collateral for the security of any state, county, municipal, or other public funds. This sub-subparagraph shall be considered as additional and supplemental authority and shall not be limited without specific reference to this sub-subparagraph.

6. The corporation and its corporate existence shall continue until terminated by law; however, no such law shall take effect as long as the corporation has bonds outstanding unless adequate provision has been made for the payment of such bonds pursuant to the documents authorizing the issuance of such bonds. Upon termination of the existence of the corporation, all of its rights and properties in excess of its obligations shall pass to and be vested in the state.

7. *The State Board of Administration Finance Corporation is for all purposes the successor to the Florida Hurricane Catastrophe Fund Finance Corporation.*

#### ~~(16) TEMPORARY EMERGENCY OPTIONS FOR ADDITIONAL COVERAGE.~~

##### ~~(a) Findings and intent.~~

##### ~~1. The Legislature finds that:~~

~~a. Because of temporary disruptions in the market for catastrophic reinsurance, many property insurers were unable to procure reinsurance for the 2006 hurricane season with an attachment point below the insurers' respective Florida Hurricane Catastrophe Fund attachment points, were unable to procure sufficient amounts of such reinsurance, or were able to procure such reinsurance only by incurring substantially higher costs than in prior years.~~

~~b. The reinsurance market problems were responsible, at least in part, for substantial premium increases to many consumers and increases in the number of policies issued by the Citizens Property Insurance Corporation.~~

~~c. It is likely that the reinsurance market disruptions will not significantly abate prior to the 2007 hurricane season.~~

~~2. It is the intent of the Legislature to create a temporary emergency program, applicable to the 2007, 2008, and 2009 hurricane seasons, to address these market disruptions and enable insurers, at their option, to procure additional coverage from the Florida Hurricane Catastrophe Fund.~~

~~(b) Applicability of other provisions of this section. All provisions of this section and the rules adopted under this section apply to the program created by this subsection unless specifically superseded by this subsection.~~

~~(c) Optional coverage. For the contract year commencing June 1, 2007, and ending May 31, 2008, the contract year commencing June 1, 2008, and ending May 31, 2009, and the contract year commencing June 1, 2009, and ending May 31, 2010, the board shall offer for each of such years the optional coverage as provided in this subsection.~~

##### ~~(d) Additional definitions. As used in this subsection, the term:~~

~~1. "TEACO options" means the temporary emergency additional coverage options created under this subsection.~~

~~2. "TEACO insurer" means an insurer that has opted to obtain coverage under the TEACO options in addition to the coverage provided to the insurer under its reimbursement contract.~~

~~3. "TEACO reimbursement premium" means the premium charged by the fund for coverage provided under the TEACO options.~~

~~4. "TEACO retention" means the amount of losses below which a TEACO insurer is not entitled to reimbursement from the fund under the TEACO option selected. A TEACO insurer's retention options shall be calculated as follows:~~

~~a. The board shall calculate and report to each TEACO insurer the TEACO retention multiples. There shall be three TEACO retention multiples for defining coverage. Each multiple shall be calculated by~~

dividing \$3 billion, \$4 billion, or \$5 billion by the total estimated mandatory FHCF reimbursement premium assuming all insurers selected the 90 percent coverage level.

b. The TEACO retention multiples as determined under sub-subparagraph a. shall be adjusted to reflect the coverage level elected by the insurer. For insurers electing the 90 percent coverage level, the adjusted retention multiple is 100 percent of the amount determined under sub-subparagraph a. For insurers electing the 75 percent coverage level, the retention multiple is 120 percent of the amount determined under sub-subparagraph a. For insurers electing the 45 percent coverage level, the adjusted retention multiple is 200 percent of the amount determined under sub-subparagraph a.

c. An insurer shall determine its provisional TEACO retention by multiplying its estimated mandatory FHCF reimbursement premium by the applicable adjusted TEACO retention multiple and shall determine its actual TEACO retention by multiplying its actual mandatory FHCF reimbursement premium by the applicable adjusted TEACO retention multiple.

d. For TEACO insurers who experience multiple covered events causing loss during the contract year, the insurer's full TEACO retention shall be applied to each of the covered events causing the two largest losses for that insurer. For other covered events resulting in losses, the TEACO option does not apply and the insurer's retention shall be one-third of the full retention as calculated under paragraph (2)(c).

5. "TEACO addendum" means an addendum to the reimbursement contract reflecting the obligations of the fund and TEACO insurers under the program created by this subsection.

6. "FHCF" means the Florida Hurricane Catastrophe Fund.

(c) TEACO addendum.—

1. The TEACO addendum shall provide for reimbursement of TEACO insurers for covered events occurring during the contract year, in exchange for the TEACO reimbursement premium paid into the fund under paragraph (f). Any insurer writing covered policies has the option of choosing to accept the TEACO addendum for any of the 3 contract years that the coverage is offered.

2. The TEACO addendum shall contain a promise by the board to reimburse the TEACO insurer for 45 percent, 75 percent, or 90 percent of its losses from each covered event in excess of the insurer's TEACO retention, plus 5 percent of the reimbursed losses to cover loss adjustment expenses. The percentage shall be the same as the coverage level selected by the insurer under paragraph (4)(b).

3. The TEACO addendum shall provide that reimbursement amounts shall not be reduced by reinsurance paid or payable to the insurer from other sources.

4. The TEACO addendum shall also provide that the obligation of the board with respect to all TEACO addenda shall not exceed an amount equal to two times the difference between the industry retention level calculated under paragraph (2)(c) and the \$3 billion, \$4 billion, or \$5 billion industry TEACO retention level options actually selected, but in no event may the board's obligation exceed the actual claims paying capacity of the fund plus the additional capacity created in paragraph (g). If the actual claims paying capacity and the additional capacity created under paragraph (g) fall short of the board's obligations under the reimbursement contract, each insurer's share of the fund's capacity shall be prorated based on the premium an insurer pays for its mandatory reimbursement coverage and the premium paid for its optional TEACO coverage as each such premium bears to the total premiums paid to the fund times the available capacity.

5. The priorities, schedule, and method of reimbursements under the TEACO addendum shall be the same as provided under subsection (4).

6. A TEACO insurer's maximum reimbursement for a single event shall be equal to the product of multiplying its mandatory FHCF premium by the difference between its FHCF retention multiple and its TEACO retention multiple under the TEACO option selected and by the coverage selected under paragraph (4)(b), plus an additional 5 percent for loss adjustment expenses. A TEACO insurer's maximum reimbursement under the TEACO option selected for a TEACO insurer's

two largest events shall be twice its maximum reimbursement for a single event.

(f) TEACO reimbursement premiums.—

1. Each TEACO insurer shall pay to the fund, in the manner and at the time provided in the reimbursement contract for payment of reimbursement premiums, a TEACO reimbursement premium calculated as specified in this paragraph.

2. The insurer's TEACO reimbursement premium associated with the \$3 billion retention option shall be equal to 85 percent of a TEACO insurer's maximum reimbursement for a single event as calculated under subparagraph (c)6. The TEACO reimbursement premium associated with the \$4 billion retention option shall be equal to 80 percent of a TEACO insurer's maximum reimbursement for a single event as calculated under subparagraph (c)6. The TEACO premium associated with the \$5 billion retention option shall be equal to 75 percent of a TEACO insurer's maximum reimbursement for a single event as calculated under subparagraph (c)6.

(g) Effect on claims paying capacity of the fund.—For the contract term commencing June 1, 2007, the contract year commencing June 1, 2008, and the contract term beginning June 1, 2009, the program created by this subsection shall increase the claims paying capacity of the fund as provided in subparagraph (4)(c)1. by an amount equal to two times the difference between the industry retention level calculated under paragraph (2)(c) and the \$3 billion industry TEACO retention level specified in sub-subparagraph (d)4.a. The additional capacity shall apply only to the additional coverage provided by the TEACO option and shall not otherwise affect any insurer's reimbursement from the fund.

Section 2. Subsection (4) of section 626.752, Florida Statutes, is amended to read:

626.752 Exchange of business.—

(4) The foregoing limitations and restrictions shall not be construed and shall not apply to the placing of surplus lines business under the provisions of part VIII or to the activities of Citizens Property Insurance Corporation in placing new and renewal business with authorized insurers in accordance with s. 627.3518.

Section 3. Present subsections (11), (15), and (17) of section 626.854, Florida Statutes, are amended, and a new subsection (17) is added to that section to read:

626.854 "Public adjuster" defined; prohibitions.—The Legislature finds that it is necessary for the protection of the public to regulate public insurance adjusters and to prevent the unauthorized practice of law.

(11)(a) If a public adjuster enters into a contract with an insured or claimant to reopen a claim or file a supplemental claim that seeks additional payments for a claim that has been previously paid in part or in full or settled by the insurer, the public adjuster may not charge, agree to, or accept from any source any compensation, payment, commission, fee, or any other thing of value based on a previous settlement or previous claim payments by the insurer for the same cause of loss. The charge, compensation, payment, commission, fee, or any other thing of value must be based only on the claim payments or settlement obtained through the work of the public adjuster after entering into the contract with the insured or claimant. Compensation for the reopened or supplemental claim may not exceed 20 percent of the reopened or supplemental claim payment. In no event shall the contracts described in this paragraph exceed are not subject to the limitations in paragraph (b).

(b) A public adjuster may not charge, agree to, or accept from any source any compensation, payment, commission, fee, or any other thing of value in excess of:

1. Ten percent of the amount of insurance claim payments made by the insurer for claims based on events that are the subject of a declaration of a state of emergency by the Governor. This provision applies to claims made during the year after the declaration of emergency. After that year, the limitations in subparagraph 2. apply.

2. Twenty percent of the amount of insurance claim payments made by the insurer for claims that are not based on events that are the subject of a declaration of a state of emergency by the Governor.

(c) *Any maneuver, shift, or device through which the limits on compensation set forth in this subsection are exceeded is a violation of this chapter punishable as provided under s. 626.8698.*

(15) ~~A public adjuster must ensure prompt notice of property loss claims submitted to an insurer by or through a public adjuster or on which a public adjuster represents the insured at the time the claim or notice of loss is submitted to the insurer.~~ The public adjuster must ensure that *prompt* notice is given of the claim to the insurer, the public adjuster's contract is provided to the insurer, the property is available for inspection of the loss or damage by the insurer, and the insurer is given an opportunity to interview the insured directly about the loss and claim. The insurer must be allowed to obtain necessary information to investigate and respond to the claim.

(a) The insurer may not exclude the public adjuster from its in-person meetings with the insured. The insurer shall meet or communicate with the public adjuster in an effort to reach agreement as to the scope of the covered loss under the insurance policy. *The public adjuster shall meet or communicate with the insurer in an effort to reach agreement as to the scope of the covered loss under the insurance policy.* This section does not impair the terms and conditions of the insurance policy in effect at the time the claim is filed.

(b) A public adjuster may not restrict or prevent an insurer, company employee adjuster, independent adjuster, attorney, investigator, or other person acting on behalf of the insurer from having reasonable access at reasonable times to *any* ~~an~~ insured or claimant or to the insured property that is the subject of a claim.

(c) A public adjuster may not act or fail to reasonably act in any manner that obstructs or prevents an insurer or insurer's adjuster from timely conducting an inspection of any part of the insured property for which there is a claim for loss or damage. The public adjuster representing the ~~insureds~~ *insured* may be present for the insurer's inspection, but if the unavailability of the public adjuster otherwise delays the insurer's timely inspection of the property, the public adjuster or the ~~insureds~~ *insured* must allow the insurer to have access to the property without the participation or presence of the public adjuster or ~~insureds~~ *insured* in order to facilitate the insurer's prompt inspection of the loss or damage.

(17) *A public adjuster shall not acquire any interest in salvaged property, except with the written consent and permission of the insured through a signed affidavit.*

(18)(17) The provisions of subsections (5)-(17) ~~(5)-(16)~~ apply only to residential property insurance policies and condominium unit owner policies as defined in s. 718.111(11).

Section 4. *The Legislature intends to enhance the expertise immediately available to the commission by increasing the membership of the Florida Commission on Hurricane Loss Projection Methodology to provide for the appointment of an additional member with special qualifications or attributes.*

Section 5. Subsection (2) of section 627.0628, Florida Statutes, is amended to read:

the phased-in rate filing. The insurer may include in its rate the actual cost of private market reinsurance that corresponds to available coverage of the Temporary Increase in Coverage Limits, TICL, from the Florida Hurricane Catastrophe Fund. The insurer may also include the cost of reinsurance to replace the TICL reduction implemented pursuant to s. 215.555(16)(d)9. ~~215.555(17)(d)9.~~ However, this cost for reinsurance may not include any expense or profit load or result in a total annual base rate increase in excess of 10 percent.

Section 7. Paragraphs (a), (c), (i), (k), and (q) of subsection (6) of section 627.351, Florida Statutes, are amended, and paragraphs (gg) and (hh) are added to that subsection, to read:

627.351 Insurance risk apportionment plans.—

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(a) The public purpose of this subsection is to ensure that there is an orderly market for property insurance for residents and businesses of this state.

1. The Legislature finds that private insurers are unwilling or unable to provide affordable property insurance coverage in this state to the extent sought and needed. The absence of affordable property insurance threatens the public health, safety, and welfare and likewise threatens the economic health of the state. The state therefore has a compelling public interest and a public purpose to assist in assuring that property in the state is insured and that it is insured at affordable rates so as to facilitate the remediation, reconstruction, and replacement of damaged or destroyed property in order to reduce or avoid the negative effects otherwise resulting to the public health, safety, and welfare, to the economy of the state, and to the revenues of the state and local governments which are needed to provide for the public welfare. It is necessary, therefore, to provide affordable property insurance to applicants who are in good faith entitled to procure insurance through the voluntary market but are unable to do so. The Legislature intends, therefore, that affordable property insurance be provided and that it continue to be provided, as long as necessary, through Citizens Property Insurance Corporation, a government entity that is an integral part of the state, and that is not a private insurance company. To that end, the corporation shall strive to increase the availability of affordable property insurance in this state, while achieving efficiencies and economies, and while providing service to policyholders, applicants, and agents which is no less than the quality generally provided in the voluntary market, for the achievement of the foregoing public purposes. Because it is essential for this government entity to have the maximum financial resources to pay claims following a catastrophic hurricane, it is the intent of the Legislature that the corporation continue to be an integral part of the state and that the income of the corporation be exempt from federal income taxation and that interest on the debt obligations issued by the corporation be exempt from federal income taxation.

2. The Residential Property and Casualty Joint Underwriting Association originally created by this statute shall be known as the Citizens Property Insurance Corporation. The corporation shall provide insurance for residential and commercial property, for applicants who are entitled, but, in good faith, are unable to procure insurance through the voluntary market. The corporation shall operate pursuant to a plan of operation approved by order of the Financial Services Commission. The plan is subject to continuous review by the commission. The commission may, by order, withdraw approval of all or part of a plan if the commission determines that conditions have changed since approval was granted and that the purposes of the plan require changes in the plan. For the purposes of this subsection, residential coverage includes both personal lines residential coverage, which consists of the type of coverage provided by homeowner's, mobile home owner's, dwelling, tenant's, condominium unit owner's, and similar policies; and commercial lines residential coverage, which consists of the type of coverage provided by condominium association, apartment building, and similar policies.

3. With respect to coverage for personal lines residential structures:

a. Effective January 1, 2014 ~~2009~~, a ~~personal lines residential~~ structure that has a dwelling replacement cost of \$1 ~~\$2~~ million or more, or a single condominium unit that has a combined dwelling and contents replacement cost of \$1 ~~\$2~~ million or more is not eligible for coverage by the corporation. Such dwellings insured by the corporation on December 31, 2013 ~~2008~~, may continue to be covered by the corporation until the

end of the policy term. ~~However, such dwellings may reapply and obtain coverage if the property owner provides the corporation with a sworn affidavit from one or more insurance agents, on a form provided by the corporation, stating that the agents have made their best efforts to obtain coverage and that the property has been rejected for coverage by at least one authorized insurer and at least three surplus lines insurers. If such conditions are met, the dwelling may be insured by the corporation for up to 3 years, after which time the dwelling is ineligible for coverage.~~ The office shall approve the method used by the corporation for valuing the dwelling replacement cost for the purposes of this subparagraph. If a policyholder is insured by the corporation ~~before~~ ~~prior to~~ being determined to be ineligible pursuant to this subparagraph and such policyholder files a lawsuit challenging the determination, the policyholder may remain insured by the corporation until the conclusion of the litigation.

b. *Effective January 1, 2015, a structure that has a dwelling replacement cost of \$900,000 or more, or a single condominium unit that has a combined dwelling and contents replacement cost of \$900,000 or more, is not eligible for coverage by the corporation. Such dwellings insured by the corporation on December 31, 2014, may continue to be covered by the corporation only until the end of the policy term.*

c. *Effective January 1, 2016, a structure that has a dwelling replacement cost of \$800,000 or more, or a single condominium unit that has a combined dwelling and contents replacement cost of \$800,000 or more, is not eligible for coverage by the corporation. Such dwellings insured by the corporation on December 31, 2015, may continue to be covered by the corporation until the end of the policy term.*

d. *Effective January 1, 2017, a structure that has a dwelling replacement cost of \$700,000 or more, or a single condominium unit that has a combined dwelling and contents replacement cost of \$700,000 or more, is not eligible for coverage by the corporation. Such dwellings insured by the corporation on December 31, 2016, may continue to be covered by the corporation until the end of the policy term.*

*The requirements of sub-subparagraphs b.-d. do not apply in counties where the office determines there is not a reasonable degree of competition. In such counties a personal lines residential structure that has a dwelling replacement cost of less than \$1 million, or a single condominium unit that has a combined dwelling and contents replacement cost of less than \$1 million, is eligible for coverage by the corporation.*

4. It is the intent of the Legislature that policyholders, applicants, and agents of the corporation receive service and treatment of the highest possible level but never less than that generally provided in the voluntary market. It is also intended that the corporation be held to service standards no less than those applied to insurers in the voluntary market by the office with respect to responsiveness, timeliness, customer courtesy, and overall dealings with policyholders, applicants, or agents of the corporation.

5.a. Effective January 1, 2009, a personal lines residential structure that is located in the "wind-borne debris region," as defined in s. 1609.2, International Building Code (2006), and that has an insured value on the structure of \$750,000 or more is not eligible for coverage by the corporation unless the structure has opening protections as required under the Florida Building Code for a newly constructed residential structure in that area. A residential structure is ~~shall be~~ deemed to comply with this subparagraph if it has shutters or opening protections on all openings and if such opening protections complied with the Florida Building Code at the time they were installed.

b. *Any major structure as defined in s. 161.54(6)(a) for which a permit is applied on or after July 1, 2014, for new construction or substantial improvement as defined in s. 161.54(12) is not eligible for coverage by the corporation if the structure is seaward of the coastal construction control line established pursuant to s. 161.053 or is within the Coastal Barrier Resources System as designated by 16 U.S.C. ss. 3501-3510.*

~~6. For any claim filed under any policy of the corporation, a public adjuster may not charge, agree to, or accept any compensation, payment, commission, fee, or other thing of value greater than 10 percent of the additional amount actually paid over the amount that was originally offered by the corporation for any one claim.~~

(c) The corporation's plan of operation:

1. Must provide for adoption of residential property and casualty insurance policy forms and commercial residential and nonresidential property insurance forms, which must be approved by the office before use. The corporation shall adopt the following policy forms:

a. Standard personal lines policy forms that are comprehensive multiperil policies providing full coverage of a residential property equivalent to the coverage provided in the private insurance market under an HO-3, HO-4, or HO-6 policy.

b. Basic personal lines policy forms that are policies similar to an HO-8 policy or a dwelling fire policy that provide coverage meeting the requirements of the secondary mortgage market, but which is more limited than the coverage under a standard policy.

c. Commercial lines residential and nonresidential policy forms that are generally similar to the basic perils of full coverage obtainable for commercial residential structures and commercial nonresidential structures in the admitted voluntary market.

d. Personal lines and commercial lines residential property insurance forms that cover the peril of wind only. The forms are applicable only to residential properties located in areas eligible for coverage under the coastal account referred to in sub-subparagraph (b)2.a.

e. Commercial lines nonresidential property insurance forms that cover the peril of wind only. The forms are applicable only to nonresidential properties located in areas eligible for coverage under the coastal account referred to in sub-subparagraph (b)2.a.

f. The corporation may adopt variations of the policy forms listed in sub-subparagraphs a.-e. which contain more restrictive coverage.

g. Effective January 1, 2013, the corporation shall offer a basic personal lines policy similar to an HO-8 policy with dwelling repair based on common construction materials and methods.

2. Must provide that the corporation adopt a program in which the corporation and authorized insurers enter into quota share primary insurance agreements for hurricane coverage, as defined in s. 627.4025(2)(a), for eligible risks, and adopt property insurance forms for eligible risks which cover the peril of wind only.

a. As used in this subsection, the term:

(I) "Quota share primary insurance" means an arrangement in which the primary hurricane coverage of an eligible risk is provided in specified percentages by the corporation and an authorized insurer. The corporation and authorized insurer are each solely responsible for a specified percentage of hurricane coverage of an eligible risk as set forth in a quota share primary insurance agreement between the corporation and an authorized insurer and the insurance contract. The responsibility of the corporation or authorized insurer to pay its specified percentage of hurricane losses of an eligible risk, as set forth in the agreement, may not be altered by the inability of the other party to pay its specified percentage of losses. Eligible risks that are provided hurricane coverage through a quota share primary insurance arrangement must be provided policy forms that set forth the obligations of the corporation and authorized insurer under the arrangement, clearly specify the percentages of quota share primary insurance provided by the corporation and authorized insurer, and conspicuously and clearly state that the authorized insurer and the corporation may not be held responsible beyond their specified percentage of coverage of hurricane losses.

(II) "Eligible risks" means personal lines residential and commercial lines residential risks that meet the underwriting criteria of the corporation and are located in areas that were eligible for coverage by the Florida Windstorm Underwriting Association on January 1, 2002.

b. The corporation may enter into quota share primary insurance agreements with authorized insurers at corporation coverage levels of 90 percent and 50 percent.

c. If the corporation determines that additional coverage levels are necessary to maximize participation in quota share primary insurance agreements by authorized insurers, the corporation may establish additional coverage levels. However, the corporation's quota share primary insurance coverage level may not exceed 90 percent.

d. Any quota share primary insurance agreement entered into between an authorized insurer and the corporation must provide for a uniform specified percentage of coverage of hurricane losses, by county or territory as set forth by the corporation board, for all eligible risks of the authorized insurer covered under the agreement.

e. Any quota share primary insurance agreement entered into between an authorized insurer and the corporation is subject to review and approval by the office. However, such agreement shall be authorized only as to insurance contracts entered into between an authorized insurer and an insured who is already insured by the corporation for wind coverage.

f. For all eligible risks covered under quota share primary insurance agreements, the exposure and coverage levels for both the corporation and authorized insurers shall be reported by the corporation to the Florida Hurricane Catastrophe Fund. For all policies of eligible risks covered under such agreements, the corporation and the authorized insurer must maintain complete and accurate records for the purpose of exposure and loss reimbursement audits as required by fund rules. The corporation and the authorized insurer shall each maintain duplicate copies of policy declaration pages and supporting claims documents.

g. The corporation board shall establish in its plan of operation standards for quota share agreements which ensure that there is no discriminatory application among insurers as to the terms of the agreements, pricing of the agreements, incentive provisions if any, and consideration paid for servicing policies or adjusting claims.

h. The quota share primary insurance agreement between the corporation and an authorized insurer must set forth the specific terms under which coverage is provided, including, but not limited to, the sale and servicing of policies issued under the agreement by the insurance agent of the authorized insurer producing the business, the reporting of information concerning eligible risks, the payment of premium to the corporation, and arrangements for the adjustment and payment of hurricane claims incurred on eligible risks by the claims adjuster and personnel of the authorized insurer. Entering into a quota sharing insurance agreement between the corporation and an authorized insurer is voluntary and at the discretion of the authorized insurer.

3.a. May provide that the corporation may employ or otherwise contract with individuals or other entities to provide administrative or professional services that may be appropriate to effectuate the plan. The corporation may borrow funds by issuing bonds or by incurring other indebtedness, and shall have other powers reasonably necessary to effectuate the requirements of this subsection, including, without limitation, the power to issue bonds and incur other indebtedness in order to refinance outstanding bonds or other indebtedness. The corporation may seek judicial validation of its bonds or other indebtedness under chapter 75. The corporation may issue bonds or incur other indebtedness, or have bonds issued on its behalf by a unit of local government pursuant to subparagraph (q)2. in the absence of a hurricane or other weather-related event, upon a determination by the corporation, subject to approval by the office, that such action would enable it to efficiently meet the financial obligations of the corporation and that such financings are reasonably necessary to effectuate the requirements of this subsection. The corporation may take all actions needed to facilitate tax-free status for such bonds or indebtedness, including formation of trusts or other affiliated entities. The corporation may pledge assessments, projected recoveries from the Florida Hurricane Catastrophe Fund, other reinsurance recoverables, policyholder surcharges and other surcharges, and other funds available to the corporation as security for bonds or other indebtedness. In recognition of s. 10, Art. I of the State Constitution, prohibiting the impairment of obligations of contracts, it is the intent of the Legislature that no action be taken whose purpose is to impair any bond indenture or financing agreement or any revenue source committed by contract to such bond or other indebtedness.

b. To ensure that the corporation is operating in an efficient and economic manner while providing quality service to policyholders, applicants, and agents, the board shall commission an independent third-party consultant having expertise in insurance company management or insurance company management consulting to prepare a report and make recommendations on the relative costs and benefits of outsourcing various policy issuance and service functions to private servicing carriers or entities performing similar functions in the private market for a fee, rather than performing such functions in-house. In making such re-

commendations, the consultant shall consider how other residual markets, both in this state and around the country, outsource appropriate functions or use servicing carriers to better match expenses with revenues that fluctuate based on a widely varying policy count. The report must be completed by July 1, 2012. Upon receiving the report, the board shall develop a plan to implement the report and submit the plan for review, modification, and approval to the Financial Services Commission. Upon the commission's approval of the plan, the board shall begin implementing the plan by January 1, 2013.

4. Must require that the corporation operate subject to the supervision and approval of a board of governors consisting of ~~nine~~ <sup>eight</sup> individuals who are residents of this state ~~and who are;~~ from different geographical areas of the ~~this~~ state, ~~one of whom is appointed by the Governor and serves solely to advocate on behalf of the consumer. The appointment of a consumer representative by the Governor is in addition to the appointments authorized under sub-subparagraph a.~~

a. The Governor, the Chief Financial Officer, the President of the Senate, and the Speaker of the House of Representatives shall each appoint two members of the board. At least one of the two members appointed by each appointing officer must have demonstrated expertise in insurance and is deemed to be within the scope of the exemption provided in s. 112.313(7)(b). The Chief Financial Officer shall designate one of the appointees as chair. All board members serve at the pleasure of the appointing officer. All members of the board are subject to removal at will by the officers who appointed them. All board members, including the chair, must be appointed to serve for 3-year terms beginning annually on a date designated by the plan. However, for the first term beginning on or after July 1, 2009, each appointing officer shall appoint one member of the board for a 2-year term and one member for a 3-year term. A board vacancy shall be filled for the unexpired term by the appointing officer. The Chief Financial Officer shall appoint a technical advisory group to provide information and advice to the board in connection with the board's duties under this subsection. The executive director and senior managers of the corporation shall be engaged by the board and serve at the pleasure of the board. Any executive director appointed on or after July 1, 2006, is subject to confirmation by the Senate. The executive director is responsible for employing other staff as the corporation may require, subject to review and concurrence by the board.

b. The board shall create a Market Accountability Advisory Committee to assist the corporation in developing awareness of its rates and its customer and agent service levels in relationship to the voluntary market insurers writing similar coverage.

(I) The members of the advisory committee consist of the following 11 persons, one of whom must be elected chair by the members of the committee: four representatives, one appointed by the Florida Association of Insurance Agents, one by the Florida Association of Insurance and Financial Advisors, one by the Professional Insurance Agents of Florida, and one by the Latin American Association of Insurance Agencies; three representatives appointed by the insurers with the three highest voluntary market share of residential property insurance business in the state; one representative from the Office of Insurance Regulation; one consumer appointed by the board who is insured by the corporation at the time of appointment to the committee; one representative appointed by the Florida Association of Realtors; and one representative appointed by the Florida Bankers Association. All members shall be appointed to 3-year terms and may serve for consecutive terms.

(II) The committee shall report to the corporation at each board meeting on insurance market issues which may include rates and rate competition with the voluntary market; service, including policy issuance, claims processing, and general responsiveness to policyholders, applicants, and agents; and matters relating to depopulation.

5. Must provide a procedure for determining the eligibility of a risk for coverage, as follows:

a. Subject to s. 627.3517, with respect to personal lines residential risks, if the risk is offered coverage from an authorized insurer at the insurer's approved rate under a standard policy including wind coverage or, if consistent with the insurer's underwriting rules as filed with the office, a basic policy including wind coverage, for a new application to the corporation for coverage, the risk is not eligible for any policy issued by

the corporation unless the premium for coverage from the authorized insurer is more than 15 percent greater than the premium for comparable coverage from the corporation. *Whenever an offer of coverage for a personal lines residential risk is received for a policyholder of the corporation at renewal from an authorized insurer, if the offer is equal to or less than the corporation's renewal premium for comparable coverage, the risk is not eligible for coverage with the corporation.* If the risk is not able to obtain such offer, the risk is eligible for a standard policy including wind coverage or a basic policy including wind coverage issued by the corporation; however, if the risk could not be insured under a standard policy including wind coverage regardless of market conditions, the risk is eligible for a basic policy including wind coverage unless rejected under subparagraph 8. However, ~~a policyholder of the corporation or a policyholder removed from the corporation through an assumption agreement remains eligible for coverage from the corporation until the end of the assumption period remains eligible for coverage from the corporation regardless of any offer of coverage from an authorized insurer or surplus lines insurer.~~ The corporation shall determine the type of policy to be provided on the basis of objective standards specified in the underwriting manual and based on generally accepted underwriting practices.

(I) If the risk accepts an offer of coverage through the market assistance plan or through a mechanism established by the corporation *other than a plan established by s. 627.3518*, before a policy is issued to the risk by the corporation or during the first 30 days of coverage by the corporation, and the producing agent who submitted the application to the plan or to the corporation is not currently appointed by the insurer, the insurer shall:

(A) Pay to the producing agent of record of the policy for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record of the policy to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-sub-paragraph (A).

(II) If the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on the policy, and the insurer shall:

(A) Pay to the producing agent of record, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-sub-paragraph (A).

b. With respect to commercial lines residential risks, for a new application to the corporation for coverage, if the risk is offered coverage under a policy including wind coverage from an authorized insurer at its approved rate, the risk is not eligible for a policy issued by the corporation unless the premium for coverage from the authorized insurer is more than 15 percent greater than the premium for comparable coverage from the corporation. *Whenever an offer of coverage for a commercial lines residential risk is received for a policyholder of the corporation at renewal from an authorized insurer, if the offer is equal to or less than the corporation's renewal premium for comparable coverage, the risk is not eligible for coverage with the corporation.* If the risk is not able to obtain any such offer, the risk is eligible for a policy including wind coverage issued by the corporation. However, ~~a policyholder of the corporation or a policyholder removed from the corporation through an assumption agreement remains eligible for coverage from the corporation until the~~

end of the assumption period ~~remains eligible for coverage from the corporation regardless of an offer of coverage from an authorized insurer or surplus lines insurer.~~

(I) If the risk accepts an offer of coverage through the market assistance plan or through a mechanism established by the corporation *other than a plan established by s. 627.3518*, before a policy is issued to the risk by the corporation or during the first 30 days of coverage by the corporation, and the producing agent who submitted the application to the plan or the corporation is not currently appointed by the insurer, the insurer shall:

(A) Pay to the producing agent of record of the policy, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record of the policy to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-sub-paragraph (A).

(II) If the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on the policy, and the insurer shall:

(A) Pay to the producing agent of record, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-sub-paragraph (A).

c. For purposes of determining comparable coverage under sub-paragraphs a. and b., the comparison must be based on those forms and coverages that are reasonably comparable. The corporation may rely on a determination of comparable coverage and premium made by the producing agent who submits the application to the corporation, made in the agent's capacity as the corporation's agent. A comparison may be made solely of the premium with respect to the main building or structure only on the following basis: the same coverage A or other building limits; the same percentage hurricane deductible that applies on an annual basis or that applies to each hurricane for commercial residential property; the same percentage of ordinance and law coverage, if the same limit is offered by both the corporation and the authorized insurer; the same mitigation credits, to the extent the same types of credits are offered both by the corporation and the authorized insurer; the same method for loss payment, such as replacement cost or actual cash value, if the same method is offered both by the corporation and the authorized insurer in accordance with underwriting rules; and any other form or coverage that is reasonably comparable as determined by the board. If an application is submitted to the corporation for wind-only coverage in the coastal account, the premium for the corporation's wind-only policy plus the premium for the ex-wind policy that is offered by an authorized insurer to the applicant must be compared to the premium for multiperil coverage offered by an authorized insurer, subject to the standards for comparison specified in this subparagraph. If the corporation or the applicant requests from the authorized insurer a breakdown of the premium of the offer by types of coverage so that a comparison may be made by the corporation or its agent and the authorized insurer refuses or is unable to provide such information, the corporation may treat the offer as not being an offer of coverage from an authorized insurer at the insurer's approved rate.

6. Must include rules for classifications of risks and rates.

7. Must provide that if premium and investment income for an account attributable to a particular calendar year are in excess of projected losses and expenses for the account attributable to that year, such excess shall be held in surplus in the account. Such surplus must be available to defray deficits in that account as to future years and used for that purpose before assessing assessable insurers and assessable insureds as to any calendar year.

8. Must provide objective criteria and procedures to be uniformly applied to all applicants in determining whether an individual risk is so hazardous as to be uninsurable. In making this determination and in establishing the criteria and procedures, the following must be considered:

a. Whether the likelihood of a loss for the individual risk is substantially higher than for other risks of the same class; and

b. Whether the uncertainty associated with the individual risk is such that an appropriate premium cannot be determined.

The acceptance or rejection of a risk by the corporation shall be construed as the private placement of insurance, and the provisions of chapter 120 do not apply.

9. Must provide that the corporation make its best efforts to procure catastrophe reinsurance at reasonable rates, to cover its projected 100-year probable maximum loss as determined by the board of governors.

10. The policies issued by the corporation must provide that if the corporation or the market assistance plan obtains an offer from an authorized insurer to cover the risk at its approved rates, the risk is no longer eligible for renewal through the corporation, except as otherwise provided in this subsection.

11. Corporation policies and applications must include a notice that the corporation policy could, under this section, be replaced with a policy issued by an authorized insurer which does not provide coverage identical to the coverage provided by the corporation. The notice must also specify that acceptance of corporation coverage creates a conclusive presumption that the applicant or policyholder is aware of this potential.

12. May establish, subject to approval by the office, different eligibility requirements and operational procedures for any line or type of coverage for any specified county or area if the board determines that such changes are justified due to the voluntary market being sufficiently stable and competitive in such area or for such line or type of coverage and that consumers who, in good faith, are unable to obtain insurance through the voluntary market through ordinary methods continue to have access to coverage from the corporation. If coverage is sought in connection with a real property transfer, the requirements and procedures may not provide an effective date of coverage later than the date of the closing of the transfer as established by the transferor, the transferee, and, if applicable, the lender.

13. Must provide that, with respect to the coastal account, any assessable insurer with a surplus as to policyholders of \$25 million or less writing 25 percent or more of its total countrywide property insurance premiums in this state may petition the office, within the first 90 days of each calendar year, to qualify as a limited apportionment company. A regular assessment levied by the corporation on a limited apportionment company for a deficit incurred by the corporation for the coastal account may be paid to the corporation on a monthly basis as the assessments are collected by the limited apportionment company from its insureds, but a limited apportionment company must begin collecting the regular assessments not later than 90 days after the regular assessments are levied by the corporation, and the regular assessments must be paid in full within 15 months after being levied by the corporation. A limited apportionment company shall collect from its policyholders any emergency assessment imposed under sub-subparagraph (b)3.d. The plan must provide that, if the office determines that any regular assessment will result in an impairment of the surplus of a limited apportionment company, the office may direct that all or part of such assessment be deferred as provided in subparagraph (q)4. However, an emergency assessment to be collected from policyholders under sub-subparagraph (b)3.d. may not be limited or deferred.

14. Must provide that the corporation appoint as its licensed agents only those agents who also hold an appointment as defined in s.

626.015(3) with an insurer who at the time of the agent's initial appointment by the corporation is authorized to write and is actually writing personal lines residential property coverage, commercial residential property coverage, or commercial nonresidential property coverage within the state.

15. Must provide a premium payment plan option to its policyholders which, at a minimum, allows for quarterly and semiannual payment of premiums. A monthly payment plan may, but is not required to, be offered.

16. Must limit coverage on mobile homes or manufactured homes built before 1994 to actual cash value of the dwelling rather than replacement costs of the dwelling.

17. May provide such limits of coverage as the board determines, consistent with the requirements of this subsection.

18. May require commercial property to meet specified hurricane mitigation construction features as a condition of eligibility for coverage.

19. Must provide that new or renewal policies issued by the corporation on or after January 1, 2012, which cover sinkhole loss do not include coverage for any loss to appurtenant structures, driveways, sidewalks, decks, or patios that are directly or indirectly caused by sinkhole activity. The corporation shall exclude such coverage using a notice of coverage change, which may be included with the policy renewal, and not by issuance of a notice of nonrenewal of the excluded coverage upon renewal of the current policy.

20. As of January 1, 2012, must require that the agent obtain from an applicant for coverage from the corporation an acknowledgment signed by the applicant, which includes, at a minimum, the following statement:

**ACKNOWLEDGMENT OF POTENTIAL SURCHARGE AND ASSESSMENT LIABILITY:**

1. AS A POLICYHOLDER OF CITIZENS PROPERTY INSURANCE CORPORATION, I UNDERSTAND THAT IF THE CORPORATION SUSTAINS A DEFICIT AS A RESULT OF HURRICANE LOSSES OR FOR ANY OTHER REASON, MY POLICY COULD BE SUBJECT TO SURCHARGES, WHICH WILL BE DUE AND PAYABLE UPON RENEWAL, CANCELLATION, OR TERMINATION OF THE POLICY, AND THAT THE SURCHARGES COULD BE AS HIGH AS 45 PERCENT OF MY PREMIUM, OR A DIFFERENT AMOUNT AS IMPOSED BY THE FLORIDA LEGISLATURE.

2. I UNDERSTAND THAT I CAN AVOID THE CITIZENS POLICYHOLDER SURCHARGE, WHICH COULD BE AS HIGH AS 45 PERCENT OF MY PREMIUM, BY OBTAINING COVERAGE FROM A PRIVATE MARKET INSURER AND THAT TO BE ELIGIBLE FOR COVERAGE BY CITIZENS, I MUST FIRST TRY TO OBTAIN PRIVATE MARKET COVERAGE BEFORE APPLYING FOR OR RENEWING COVERAGE WITH CITIZENS. I UNDERSTAND THAT PRIVATE MARKET INSURANCE RATES ARE REGULATED AND APPROVED BY THE STATE.

3. I ALSO UNDERSTAND THAT I MAY BE SUBJECT TO EMERGENCY ASSESSMENTS TO THE SAME EXTENT AS POLICYHOLDERS OF OTHER INSURANCE COMPANIES, OR A DIFFERENT AMOUNT AS IMPOSED BY THE FLORIDA LEGISLATURE.

4. I ALSO UNDERSTAND THAT CITIZENS PROPERTY INSURANCE CORPORATION IS NOT SUPPORTED BY THE FULL FAITH AND CREDIT OF THE STATE OF FLORIDA.

a. The corporation shall maintain, in electronic format or otherwise, a copy of the applicant's signed acknowledgment and provide a copy of the statement to the policyholder as part of the first renewal after the effective date of this subparagraph.

b. The signed acknowledgment form creates a conclusive presumption that the policyholder understood and accepted his or her potential surcharge and assessment liability as a policyholder of the corporation.

(i)1. The Office of the Internal Auditor is established within the corporation to provide a central point for coordination of and responsibility for activities that promote accountability, integrity, and efficiency to the policyholders and to the taxpayers of this state. The internal auditor

shall be appointed by the board of governors, shall report to and be under the general supervision of the board of governors, and is not subject to supervision by ~~an~~ any employee of the corporation. Administrative staff and support shall be provided by the corporation. The internal auditor shall be appointed without regard to political affiliation. It is the duty and responsibility of the internal auditor to:

a. Provide direction for, supervise, conduct, and coordinate audits, investigations, and management reviews relating to the programs and operations of the corporation.

b. Conduct, supervise, or coordinate other activities carried out or financed by the corporation for the purpose of promoting efficiency in the administration of, or preventing and detecting fraud, abuse, and mismanagement in, its programs and operations.

c. Submit final audit reports, reviews, or investigative reports to the board of governors, the executive director, the members of the Financial Services Commission, and the President of the Senate and the Speaker of the House of Representatives.

d. Keep the board of governors informed concerning fraud, abuses, and internal control deficiencies relating to programs and operations administered or financed by the corporation, recommend corrective action, and report on the progress made in implementing corrective action.

e. ~~Cooperate and coordinate activities with the corporation's inspector general. Report expeditiously to the Department of Law Enforcement or other law enforcement agencies, as appropriate, whenever the internal auditor has reasonable grounds to believe there has been a violation of criminal law.~~

2. On or before February 15, the internal auditor shall prepare an annual report evaluating the effectiveness of the internal controls of the corporation and providing recommendations for corrective action, if necessary, and summarizing the audits, reviews, and investigations conducted by the office during the preceding fiscal year. The final report shall be furnished to the board of governors and the executive director, the President of the Senate, the Speaker of the House of Representatives, and the Financial Services Commission.

(k)1. The corporation shall establish and maintain a unit or division to investigate possible fraudulent claims by insureds or by persons making claims for services or repairs against policies held by insureds; or it may contract with others to investigate possible fraudulent claims for services or repairs against policies held by the corporation pursuant to s. 626.9891. The corporation must comply with reporting requirements of s. 626.9891. An employee of the corporation shall notify the corporation's Office of the ~~Inspector General~~ Internal Auditor and the Division of Insurance Fraud within 48 hours after having information that would lead a reasonable person to suspect that fraud may have been committed by any employee of the corporation.

2. The corporation shall establish a unit or division responsible for receiving and responding to consumer complaints, which unit or division is the sole responsibility of a senior manager of the corporation.

(q)1. The corporation shall certify to the office its needs for annual assessments as to a particular calendar year, and for any interim assessments that it deems to be necessary to sustain operations as to a particular year pending the receipt of annual assessments. Upon verification, the office shall approve such certification, and the corporation shall levy such annual or interim assessments. Such assessments shall be prorated as provided in paragraph (b). The corporation shall take all reasonable and prudent steps necessary to collect the amount of assessments due from each assessable insurer, including, if prudent, filing suit to collect the assessments, and the office may provide such assistance to the corporation it deems appropriate. If the corporation is unable to collect an assessment from any assessable insurer, the uncollected assessments shall be levied as an additional assessment against the assessable insurers and any assessable insurer required to pay an additional assessment as a result of such failure to pay shall have a cause of action against such nonpaying assessable insurer. Assessments shall be included as an appropriate factor in the making of rates. The failure of a surplus lines agent to collect and remit any regular or emergency assessment levied by the corporation is considered to be a violation of s. 626.936 and subjects the surplus lines agent to the penalties provided in that section.

2. The governing body of any unit of local government, any residents of which are insured by the corporation, may issue bonds as defined in s. 125.013 or s. 166.101 from time to time to fund an assistance program, in conjunction with the corporation, for the purpose of defraying deficits of the corporation. In order to avoid needless and indiscriminate proliferation, duplication, and fragmentation of such assistance programs, any unit of local government, any residents of which are insured by the corporation, may provide for the payment of losses, regardless of whether or not the losses occurred within or outside of the territorial jurisdiction of the local government. Revenue bonds under this subparagraph may not be issued until validated pursuant to chapter 75, unless a state of emergency is declared by executive order or proclamation of the Governor pursuant to s. 252.36 making such findings as are necessary to determine that it is in the best interests of, and necessary for, the protection of the public health, safety, and general welfare of residents of this state and declaring it an essential public purpose to permit certain municipalities or counties to issue such bonds as will permit relief to claimants and policyholders of the corporation. Any such unit of local government may enter into such contracts with the corporation and with any other entity created pursuant to this subsection as are necessary to carry out this paragraph. Any bonds issued under this subparagraph shall be payable from and secured by moneys received by the corporation from emergency assessments under sub-subparagraph (b)3.d., and assigned and pledged to or on behalf of the unit of local government for the benefit of the holders of such bonds. The funds, credit, property, and taxing power of the state or of the unit of local government shall not be pledged for the payment of such bonds.

3.a. The corporation shall adopt one or more programs subject to approval by the office for the reduction of both new and renewal writings in the corporation. Beginning January 1, 2008, any program the corporation adopts for the payment of bonuses to an insurer for each risk the insurer removes from the corporation shall comply with s. 627.3511(2) and may not exceed the amount referenced in s. 627.3511(2) for each risk removed. The corporation may consider any prudent and not unfairly discriminatory approach to reducing corporation writings, and may adopt a credit against assessment liability or other liability that provides an incentive for insurers to take risks out of the corporation and to keep risks out of the corporation by maintaining or increasing voluntary writings in counties or areas in which corporation risks are highly concentrated and a program to provide a formula under which an insurer voluntarily taking risks out of the corporation by maintaining or increasing voluntary writings will be relieved wholly or partially from assessments under sub-subparagraph (b)3.a. However, any "take-out bonus" or payment to an insurer must be conditioned on the property being insured for at least 5 years by the insurer, unless canceled or nonrenewed by the policyholder. If the policy is canceled or nonrenewed by the policyholder before the end of the 5-year period, the amount of the take-out bonus must be prorated for the time period the policy was insured. When the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on such policy, and the insurer shall either:

(I) Pay to the producing agent of record of the policy, for the first year, an amount which is the greater of the insurer's usual and customary commission for the type of policy written or a policy fee equal to the usual and customary commission of the corporation; or

(II) Offer to allow the producing agent of record of the policy to continue servicing the policy for a period of not less than 1 year and offer to pay the agent the insurer's usual and customary commission for the type of policy written. If the producing agent is unwilling or unable to accept appointment by the new insurer, the new insurer shall pay the agent in accordance with sub-sub-subparagraph (I).

b. Any credit or exemption from regular assessments adopted under this subparagraph shall last no longer than the 3 years following the cancellation or expiration of the policy by the corporation. With the approval of the office, the board may extend such credits for an additional year if the insurer guarantees an additional year of renewability for all policies removed from the corporation, or for 2 additional years if the insurer guarantees 2 additional years of renewability for all policies so removed.

c. There shall be no credit, limitation, exemption, or deferment from emergency assessments to be collected from policyholders pursuant to sub-subparagraph (b)3.d.

4. The plan shall provide for the deferment, in whole or in part, of the assessment of an assessable insurer, other than an emergency assessment collected from policyholders pursuant to sub-subparagraph (b)3.d., if the office finds that payment of the assessment would endanger or impair the solvency of the insurer. In the event an assessment against an assessable insurer is deferred in whole or in part, the amount by which such assessment is deferred may be assessed against the other assessable insurers in a manner consistent with the basis for assessments set forth in paragraph (b).

5. Effective July 1, 2007, in order to evaluate the costs and benefits of approved take-out plans, if the corporation pays a bonus or other payment to an insurer for an approved take-out plan, it shall maintain a record of the address or such other identifying information on the property or risk removed in order to track if and when the property or risk is later insured by the corporation.

6. Any policy taken out, assumed, or removed from the corporation is, as of the effective date of the take-out, assumption, or removal, direct insurance issued by the insurer and not by the corporation, even if the corporation continues to service the policies. This subparagraph applies to policies of the corporation and not policies taken out, assumed, or removed from any other entity.

7. *For a policy taken out, assumed, or removed from the corporation, the insurer may, for a period of no more than 3 years, continue to use any of the corporation's policy forms or endorsements that apply to the policy taken out, removed, or assumed without obtaining approval from the office for use of such policy form or endorsement.*

*(gg) The Office of Inspector General is established within the corporation to provide a central point for coordination of and responsibility for activities that promote accountability, integrity, and efficiency. The office shall be headed by an inspector general, which is a senior management position that involves planning, coordinating, and performing activities assigned to and assumed by the inspector general for the corporation.*

1. *The inspector general shall be appointed by the Financial Services Commission and may only be removed from office by the commission. The inspector general shall be appointed without regard to political affiliation.*

a. *At a minimum, the inspector general must possess a bachelor's degree from an accredited college or university and 8 years of professional experience related to the duties of an inspector general as described in this paragraph, of which 5 years must have been at a supervisory level.*

b. *The inspector general shall report to, and be under the supervision of, the chair of the board of governors. The executive director or corporation staff may not prevent or prohibit the inspector general from initiating, carrying out, or completing any audit, review, evaluation, study, or investigation.*

2. *The inspector general shall initiate, direct, coordinate, participate in, and perform audits, reviews, evaluations, studies, and investigations designed to assess management practices; compliance with laws, rules, and policies; and program effectiveness and efficiency. This includes:*

a. *Conducting internal examinations; investigating allegations of fraud, waste, abuse, malfeasance, mismanagement, employee misconduct, or violations of corporation policies; and conducting any other investigations as directed by the Financial Services Commission or as independently determined.*

b. *Evaluating and recommending actions regarding security, the ethical behavior of personnel and vendors, and compliance with rules, laws, policies, and personnel matters; and rendering ethics opinions.*

Section 8. Effective October 1, 2013, paragraphs (e) and (t) of subsection (6) of section 627.351, Florida Statutes, are amended to read:

627.351 Insurance risk apportionment plans.—

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(e) The corporation is subject to s. 287.057 for the purchase of commodities and contractual services except as otherwise provided in this paragraph. Services provided by tradepersons or technical experts to assist a licensed adjuster in the evaluation of individual claims are not subject to the procurement requirements of this section. Additionally, the procurement of financial services providers and underwriters must be made pursuant to s. 627.3513. Purchases that equal or exceed \$2,500, but are less than \$25,000, shall be made by receipt of written quotes, written record of telephone quotes, or informal bids, whenever practical. The procurement of goods or services valued at or over \$25,000 shall be subject to competitive solicitation, except in situations where the goods or services are provided by a sole source or are deemed an emergency purchase; the services are exempted from competitive solicitation requirements under s. 287.057(3)(f); or the procurement of services is subject to s. 627.3513. Justification for the sole sourcing or emergency procurement must be documented. Contracts for goods or services valued at or more than over \$100,000 are subject to approval by the board.

1. The corporation is an agency for purposes of s. 287.057, except that, for purposes of s. 287.057(22), the corporation is an eligible user.

a. The authority of the Department of Management Services and the Chief Financial Officer under s. 287.057 extends to the corporation as if the corporation were an agency.

b. The executive director of the corporation is the agency head under s. 287.057, except for resolution of bid protests for which the board would serve as the agency head.

2. The corporation must provide notice of a decision or intended decision concerning a solicitation, contract award, or exceptional purchase by electronic posting. Such notice must contain the following statement: "Failure to file a protest within the time prescribed in this section constitutes a waiver of proceedings."

a. A person adversely affected by the corporation's decision or intended decision to award a contract pursuant to s. 287.057(1) or s. 287.057(3)(c) who elects to challenge the decision must file a written notice of protest

with the executive director of the corporation within 72 hours after the corporation posts a notice of its decision or intended decision. For a protest of the terms, conditions, and specifications contained in a solicitation, including any provisions governing the methods for ranking bids, proposals, replies, awarding contracts, reserving rights of further negotiation, or modifying or amending any contract, the notice of protest must be filed in writing within 72 hours after the posting of the solicitation. Saturdays, Sundays, and state holidays are excluded in the computation of the 72-hour time period.

b. A formal written protest must be filed within 10 days after the date the notice of protest is filed. The formal written protest must state with particularity the facts and law upon which the protest is based. Upon receipt of a formal written protest that has been timely filed, the corporation must stop the solicitation or contract award process until the subject of the protest is resolved by final board action unless the executive director sets forth in writing particular facts and circumstances that require the continuance of the solicitation or contract award process without delay in order to avoid an immediate and serious danger to the public health, safety, or welfare. The corporation must provide an opportunity to resolve the protest by mutual agreement between the parties within 7 business days after receipt of the formal written protest. If the subject of a protest is not resolved by mutual agreement within 7 business days, the corporation's board must place the protest on the agenda and resolve it at its next regularly scheduled meeting. The protest must be heard by the board at a publicly noticed meeting in accordance with procedures established by the board.

c. In a protest of an invitation-to-bid or request-for-proposals procurement, submissions made after the bid or proposal opening which amend or supplement the bid or proposal may not be considered. In protesting an invitation-to-negotiate procurement, submissions made after the corporation announces its intent to award a contract, reject all replies, or withdraw the solicitation that amends or supplements the reply may not be considered. Unless otherwise provided by law, the burden of proof rests with the party protesting the corporation's action. In a competitive-procurement protest, other than a rejection of all bids, proposals, or replies, the corporation's board must conduct a de novo proceeding to determine whether the corporation's proposed action is contrary to the corporation's governing statutes, the corporation's rules or policies, or the solicitation specifications. The standard of proof for the proceeding is whether the corporation's action was clearly erroneous, contrary to competition, arbitrary, or capricious. In any bid-protest proceeding contesting an intended corporation action to reject all bids, proposals, or replies, the standard of review by the board is whether the corporation's intended action is illegal, arbitrary, dishonest, or fraudulent.

d. Failure to file a notice of protest or failure to file a formal written protest constitutes a waiver of proceedings.

3. Contract actions and decisions by the board under this paragraph are final. Any further legal remedy must be made in the Circuit Court of Leon County.

(t) For the purposes of s. 199.183(1), the corporation shall be considered a political subdivision of the state and shall be exempt from the corporate income tax. The premiums, assessments, investment income, and other revenue of the corporation are funds received for providing property insurance coverage as required by this subsection, paying claims for Florida citizens insured by the corporation, securing and repaying debt obligations issued by the corporation, and conducting all other activities of the corporation, and shall not be considered taxes, fees, licenses, or charges for services imposed by the Legislature on individuals, businesses, or agencies outside state government. Bonds and other debt obligations issued by or on behalf of the corporation are not to be considered "state bonds" within the meaning of s. 215.58(8). The corporation is not subject to the procurement provisions of chapter 287 as provided in paragraph (e), and policies and decisions of the corporation relating to incurring debt, levying of assessments and the sale, issuance, continuation, terms and claims under corporation policies, and all services relating thereto, are not subject to the provisions of chapter 120. The corporation is not required to obtain or to hold a certificate of authority issued by the office, nor is it required to participate as a member insurer of the Florida Insurance Guaranty Association. However, the corporation is required to pay, in the same manner as an authorized insurer, assessments levied by the Florida Insurance Guaranty Association. It is the intent of the Legislature that the tax exemptions provided in this paragraph will augment the financial resources of the

corporation to better enable the corporation to fulfill its public purposes. Any debt obligations issued by the corporation, their transfer, and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation of every kind by the state and any political subdivision or local unit or other instrumentality thereof; however, this exemption does not apply to any tax imposed by chapter 220 on interest, income, or profits on debt obligations owned by corporations other than the corporation.

Section 9. *The purchase of commodities and contractual services by Citizens Property Insurance Corporation commenced before October 1, 2013, is governed by the law in effect on September 30, 2013.*

Section 10. Section 627.3518, Florida Statutes, is created to read:

**627.3518 Citizens Property Insurance Corporation policyholder eligibility clearinghouse program.**—*The purpose of this section is to provide a framework for the corporation to implement a clearinghouse program by January 1, 2014.*

(1) *As used in this section, the term:*

(a) *“Corporation” means Citizens Property Insurance Corporation.*

(b) *“Exclusive agent” means any licensed insurance agent that has, by contract, agreed to act exclusively for one company or group of affiliated insurance companies and is disallowed by the provisions of that contract to directly write for any other unaffiliated insurer absent express consent from the company or group of affiliated insurance companies.*

(c) *“Independent agent” means any licensed insurance agent not described in paragraph (b).*

(d) *“Program” means the clearinghouse created under this section.*

(2) *In order to confirm eligibility with the corporation and to enhance access of new applicants for coverage and existing policyholders of the corporation to offers of coverage from authorized insurers, the corporation shall establish a program for personal residential risks in order to facilitate the diversion of ineligible applicants and existing policyholders from the corporation into the voluntary insurance market. The corporation shall also develop appropriate procedures for facilitating the diversion of ineligible applicants and existing policyholders for commercial residential coverage into the private insurance market and shall report such procedures to the President of the Senate and the Speaker of the House of Representatives by January 1, 2014.*

(3) *The corporation board shall establish the clearinghouse program as an organizational unit within the corporation. The program shall have all the rights and responsibilities in carrying out its duties as a licensed general lines agent, but may not be required to employ or engage a licensed general lines agent or to maintain an insurance agency license to carry out its activities in the solicitation and placement of insurance coverage. In establishing the program, the corporation may:*

(a) *Require all new applications, and all policies due for renewal, to be submitted for coverage to the program in order to facilitate obtaining an offer of coverage from an authorized insurer before binding or renewing coverage by the corporation.*

(b) *Employ or otherwise contract with individuals or other entities for appropriate administrative or professional services to effectuate the plan within the corporation in accordance with the applicable purchasing requirements under s. 627.351.*

(c) *Enter into contracts with any authorized insurer to participate in the program and accept an appointment by such insurer.*

(d) *Provide funds to operate the program. Insurers and agents participating in the program are not required to pay a fee to offset or partially offset the cost of the program or use the program for renewal of policies initially written through the clearinghouse.*

(e) *Develop an enhanced application that includes information to assist private insurers in determining whether to make an offer of coverage through the program.*

(f) *For personal lines residential risks, require, before approving all new applications for coverage by the corporation, that every application be*

*subject to a period of 2 business days when any insurer participating in the program may select the application for coverage. The insurer may issue a binder on any policy selected for coverage for a period of at least 30 days but not more than 60 days.*

(4) *Any authorized insurer may participate in the program; however, participation is not mandatory for any insurer. Insurers making offers of coverage to new applicants or renewal policyholders through the program:*

(a) *May not be required to individually appoint any agent whose customer is underwritten and bound through the program. Notwithstanding s. 626.112, insurers are not required to appoint any agent on a policy underwritten through the program for as long as that policy remains with the insurer. Insurers may, at their election, appoint any agent whose customer is initially underwritten and bound through the program. In the event an insurer accepts a policy from an agent who is not appointed pursuant to this paragraph, and thereafter elects to accept a policy from such agent, the provisions of s. 626.112 requiring appointment apply to the agent.*

(b) *Must enter into a limited agency agreement with each agent that is not appointed in accordance with paragraph (a) and whose customer is underwritten and bound through the program.*

(c) *Must enter into its standard agency agreement with each agent whose customer is underwritten and bound through the program when that agent has been appointed by the insurer pursuant to s. 626.112.*

(d) *Must comply with s. 627.4133(2).*

(e) *May participate through their single-designated managing general agent or broker; however, the provisions of paragraph (6)(a) regarding ownership, control, and use of the expirations continue to apply.*

(f) *Must pay to the producing agent a commission equal to that paid by the corporation or the usual and customary commission paid by the insurer for that line of business, whichever is greater.*

(5) *Notwithstanding s. 627.3517, any applicant for new coverage from the corporation is not eligible for coverage from the corporation, if provided an offer of coverage from an authorized insurer through the program at a premium that is at or below the eligibility threshold established in s. 627.351(6)(c)5.a. Whenever an offer of coverage for a personal lines risk is received for a policyholder of the corporation at renewal from an authorized insurer through the program, if the offer is equal to or less than the corporation’s renewal premium for comparable coverage, the risk is not eligible for coverage with the corporation. In the event an offer of coverage for a new applicant is received from an authorized insurer through the program, and the premium offered exceeds the eligibility threshold contained in s. 627.351(6)(c)5.a., the applicant or insured may elect to accept such coverage, or may elect to accept or continue coverage with the corporation. In the event an offer of coverage for a personal lines risk is received from an authorized insurer at renewal through the program, and the premium offered is more than the corporation’s renewal premium for comparable coverage, the insured may elect to accept such coverage, or may elect to accept or continue coverage with the corporation. Sub-sub-paragraph 627.351(6)(c)5.a.(I) does not apply to an offer of coverage from an authorized insurer obtained through the program. An applicant for coverage from the corporation who was previously declared ineligible for coverage at renewal by the corporation in the previous 36 months due to an offer of coverage pursuant to this subsection shall be considered a renewal under this section if the corporation determines that the authorized insurer making the offer of coverage pursuant to this subsection continues to insure the applicant and increased the rate on the policy in excess of the increase allowed for the corporation under s. 627.351(6)(n)6.*

(6) *Independent insurance agents submitting new applications for coverage or that are the agent of record on a renewal policy submitted to the program:*

(a) *Are granted and must maintain ownership and the exclusive use of expirations, records, or other written or electronic information directly related to such applications or renewals written through the corporation or through an insurer participating in the program, notwithstanding s. 627.351(6)(c)5.a.(I)(B) and (II)(B). Such ownership is granted for as long as the insured remains with the agency or until sold or surrendered in writing by the agent. Contracts with the corporation or required by the*

corporation must not amend, modify, interfere with, or limit such rights of ownership. Such expirations, records, or other written or electronic information may be used to review an application, issue a policy, or for any other purpose necessary for placing such business through the program.

(b) May not be required to be appointed by any insurer participating in the program for policies written solely through the program, notwithstanding the provisions of s. 626.112.

(c) May accept an appointment from any insurer participating in the program.

(d) May enter into either a standard or limited agency agreement with the insurer, at the insurer's option.

Applicants ineligible for coverage in accordance with subsection (5) remain ineligible if their independent agent is unwilling or unable to enter into a standard or limited agency agreement with an insurer participating in the program.

(7) Exclusive agents submitting new applications for coverage or that are the agent of record on a renewal policy submitted to the program:

(a) Must maintain ownership and the exclusive use of expirations, records, or other written or electronic information directly related to such applications or renewals written through the corporation or through an insurer participating in the program, notwithstanding s. 627.351(6)(c) 5.a.(I)(B) and (II)(B). Contracts with the corporation or required by the corporation must not amend, modify, interfere with, or limit such rights of ownership. Such expirations, records, or other written or electronic information may be used to review an application, issue a policy, or for any other purpose necessary for placing such business through the program.

(b) May not be required to be appointed by any insurer participating in the program for policies written solely through the program, notwithstanding the provisions of s. 626.112.

(c) Must only facilitate the placement of an offer of coverage from an insurer whose limited servicing agreement is approved by that exclusive agent's exclusive insurer.

(d) May enter into a limited servicing agreement with the insurer making an offer of coverage, and only after the exclusive agent's insurer has approved the limited servicing agreement terms. The exclusive agent's insurer must approve a limited service agreement for the program for any insurer for which it has approved a service agreement for other purposes.

Applicants ineligible for coverage in accordance with subsection (5) remain ineligible if their exclusive agent is unwilling or unable to enter into a standard or limited agency agreement with an insurer making an offer of coverage to that applicant.

(8) Submission of an application for coverage by the corporation to the program does not constitute the binding of coverage by the corporation, and failure of the program to obtain an offer of coverage by an insurer may not be considered acceptance of coverage of the risk by the corporation.

(9) The 45-day notice of nonrenewal requirement set forth in s. 627.4133(2)(b)4. b. applies when a policy is nonrenewed by the corporation because the risk has received an offer of coverage pursuant to this section which renders the risk ineligible for coverage by the corporation.

(10) The program may not include commercial nonresidential policies.

Section 11. Section 627.35191, Florida Statutes, is created to read:

627.35191 Annual report of aggregate net probable maximum losses, financing options, and potential assessments.—No later than February 1 of each year, the Florida Hurricane Catastrophe Fund and Citizens Property Insurance Corporation shall each submit a report to the Legislature and the Financial Services Commission identifying their respective aggregate net probable maximum losses, financing options, and potential assessments. Section 160. Subsection (2) of section 191.009, Florida Statutes, is amended to read:

191.009 Taxes; non-ad valorem assessments; impact fees and user charges.—

(2) NON-AD VALOREM ASSESSMENTS.—

(a) A district may levy non-ad valorem assessments as defined in s. 197.3632 to construct, operate, and maintain *those* district facilities and services *provided pursuant to the general powers listed in s. 191.006, the special powers listed in s. 191.008, any applicable general laws of local application, and a district's enabling legislation.* The rate of such assessments must be fixed by resolution of the board pursuant to the procedures contained in s. 191.011. Non-ad valorem assessment rates set by the board may exceed the maximum rates established by special act, county ordinance, the previous year's resolution, or referendum in an amount not to exceed the average annual growth rate in Florida personal income over the previous 5 years. Non-ad valorem assessment rate increases within the personal income threshold are deemed to be within the maximum rate authorized by law at the time of initial imposition. Proposed non-ad valorem assessment increases *that which* exceed the rate set the previous fiscal year or the rate previously set by special act or county ordinance, whichever is more recent, by more than the average annual growth rate in Florida personal income over the last 5 years, or the first-time levy of non-ad valorem assessments in a district, must be approved by referendum of the electors of the district. The referendum on the first-time levy of an assessment shall include a notice of the future non-ad valorem assessment rate increases permitted by this act without a referendum. Non-ad valorem assessments shall be imposed, collected, and enforced pursuant to s. 191.011.

(b)1. *The non-ad valorem assessments in paragraph (a) may be used to fund emergency medical services and emergency transport services. However, if a district levies a non-ad valorem assessment for emergency medical services or emergency transport services, the district shall cease collecting ad valorem taxes under subsection (1) of this section for that particular service.*

2. *It is recognized that the provision of emergency medical services and emergency transport services constitutes a benefit to real property the same as any other improvement performed by a district, such as fire suppression services, fire protection services, fire prevention services, emergency rescue services, and first response medical aid.*

Section 161. Subsection (1) of section 191.011, Florida Statutes, is amended to read:

(1) A district may provide for the levy of non-ad valorem assessments under this act on the lands *within the district for and real estate benefited by* the exercise of the powers authorized by this act, or any part thereof, for all or any part of the cost thereof. ~~Non-ad valorem assessments may be levied only on benefited real property at a rate of assessment based on the special benefit accruing to such property from such services or improvements.~~ The district may use any assessment apportionment methodology that meets fair apportionment standards.

Section 162. Subsection (3) is added to section 191.014, Florida Statutes, to read:

191.014 District creation and expansion.—

(3) *Notwithstanding chapter 171 or any other applicable general law, special act, or ordinance, if a municipality annexes any unincorporated territory situated within the defined boundaries of a district and the district, under an automatic or mutual aid agreement, continues as a provider of fire, rescue, or emergency medical services for the annexed territory after the 4-year period provided in s. 171.093, the district shall be*

*entitled to payment for such services. Any municipality that annexes such territory may levy any applicable taxes, assessments or fees on the annexed territory but must, by May 1 of each subsequent year following such annexation, pay the district for its services in an amount equal to the amount of taxes, fees, or assessments which would have been collected by the district for such service from the annexed territory during that year had the territory not been annexed. Such payments shall continue unless the district is relieved of the fire, rescue, or emergency medical service responsibility in the annexed territory, with the exception of an isolated response to a local or areawide disaster, such as a hazardous material incident, natural disaster, or major fire.*

And the title is amended as follows:

## MESSAGES FROM THE GOVERNOR AND OTHER EXECUTIVE COMMUNICATIONS

The Governor advised that he had filed with the Secretary of State **CS for SB 2** which he approved on May 1, 2013.

### VETO OF CS FOR CS FOR SB 718

The Honorable Don Gaetz  
President of the Florida Senate

May 1, 2013

By the authority vested in me as Governor of the State of Florida, under the provisions of Article III, Section 8, of the Constitution of Florida, I do hereby veto and transmit my objections to Committee Substitute for Committee Substitute for Senate Bill 718, enacted during the 115th Session of the Legislature of Florida during the Regular Session of 2013 and entitled:

An act relating to family law . . .

Senator Stargel and Representative Workman are to be commended for their efforts in proposing changes to Florida alimony law. I appreciate Representative Workman reaching out to me to express his support of CS for CS for SB 718 and how he believes it will benefit Florida families. CS for CS for SB 718 seeks to modernize Florida's alimony system by leveling the playing field in divorce proceedings, and there are several forward looking elements of this bill. Alimony has long been a key component of our domestic relations law. It represents an important remedy for our judiciary to use in providing support to families as they adjust to changes in life circumstances.

Because the subject matter of this bill involves family relationships, numerous Floridians have forcefully expressed their views on the topic. Many Florida families have been impacted by the difficulties of marital issues, both concerning children and starting over. As a husband, father and grandfather, I understand the vital importance of family. In weighing the issues associated with this bill, however, I have concluded that I cannot support this legislation because it applies retroactively and thus tampers with the settled economic expectations of many Floridians who have experienced divorce.

The retroactive adjustment of alimony could result in unfair, unanticipated results. Current Florida law already provides for the adjustment of alimony under the proper circumstances. The law also ensures that spouses who have sacrificed their careers to raise a family do not suffer financial catastrophe upon divorce, and that the lower earning spouse and stay-at-home parent will not be financially punished. Flor-

idians have relied on this system post-divorce and planned their lives accordingly.

For the reasons stated above, I withhold my approval of Committee Substitute for Committee Substitute for Senate Bill 718, and do hereby veto same.

Sincerely,  
Rick Scott, Governor

## PRAYER

The following prayer was offered by Pastor Greg Johnson, Generations Christian Church, Trinity:

Heavenly Father, before this Senate session begins, it is fitting to pause for a moment and recognize your divine presence and power and our need for your guidance for our great State of Florida. You are the Holy One, the Beginning, and the End, and we praise and thank you for our nation, for our state, and for the freedom to pursue life, liberty, and happiness.

I want to thank you for each of our Senators. They spend much of their time away from home, away from family, in sessions, and on the road, and I am thankful for them, for their service to our country and to our state. I also pray for your protection and your blessing on their families. Now as this session draws to a close today, they have worked hard and accomplished much, so Lord, bless and refresh the Senators and their staff during this well deserved break.

God, we understand that power is temporary and leadership is sacred. Temporary, because each person serving in this Senate has a season of life, a period of time to lead. Sacred, because the decisions made in this room affect over 19 million people here in the State of Florida. Father,

may this distinguished body of leaders look to you for wisdom and insight so that all that is good, all that is just, all that is honorable, all that is merciful, and all that is righteous be reflected in the decisions made in this room.

The world we live in is complex, interdependent, and at times, even dangerous. As a company stands or falls based on leadership, so too, a nation stands or falls based on leadership; and so, O God, by your spirit of counsel, by your power of protection, lead our Senate, our House of Representatives, and our Governor, for their work is important and leading our state into the future is not an easy task.

Lord, I offer you this prayer in the only way I know how to pray, in Jesus name. Amen.

- Creates the Cancer Center of Excellence Award to recognize hospitals, treatment centers, and other providers in Florida that demonstrate excellence in patient-centered coordinated care for persons undergoing cancer treatment and therapy.
- Requires the Florida Cancer Control and Research Advisory Council and the Biomedical Research Advisory Council to form a joint committee that will develop rigorous performance measures, a rating system, and a rating standard that must be achieved to document and distinguish a cancer center that excels in providing quality, comprehensive, and patient-centered coordinated care.
- Requires the Dept. of Health to annually conduct two application cycles for the award. Requires the State Surgeon General to appoint a team of independent evaluators to assess applicants to determine eligibility for the award.
- Requires the State Surgeon General to notify the Governor regarding the providers that are eligible to receive the Cancer Center of Excellence Award. The award shall be recognized for a period of three years after the date of the award.
- Requires an entity that performs or is associated with cancer research or care that receives a specific appropriation must submit an annual fiscal-year progress report to the President of the Senate and the Speaker of the House of Representatives by December 15.
- Requires the Dept. of Health – in order to attract and retain experienced research talent and national grant-producing researchers to integrated cancer research and care institutions in Florida – to award endowments to integrated cancer research and care institutions for establishing a funded research chair, pursuant to the GAA specifying an appropriation for this purpose.
- The purpose of the endowment is to provide secure funding for at least seven years to attract an experienced and promising researcher who specializes in cancer-related research and whose continued employment for this period is not contingent upon grant awards associated with time-limited research projects.

**Conference Committee Amendment (443278)(with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. Section 381.925, Florida Statutes, is created to read:

**381.925 Cancer Center of Excellence Award.**—

(1) *The Legislature intends to recognize hospitals, treatment centers, and other providers in this state which demonstrate excellence in patient-centered coordinated care for persons undergoing cancer treatment and therapy in this state. The goal of this program is to encourage excellence in cancer care in this state, attract and retain the best cancer care providers to the state, and help Florida providers be recognized nationally as a preferred destination for quality cancer care. The Cancer Center of Excellence Award will recognize providers that exceed service standards and excel in providing quality, comprehensive, and patient-centered coordinated care.*

(2) *The Florida Cancer Control and Research Advisory Council, established in s. 1004.435, and the Biomedical Research Advisory Council, established in s. 215.5602, shall select seven members and six members, respectively, to form a joint committee.*

(a) *The joint committee, consisting of 13 members, shall:*

1. *By January 1, 2014, develop rigorous performance measures, a rating system, and a rating standard that must be achieved to document and distinguish a cancer center that excels in providing quality, comprehensive, and patient-centered coordinated care.*
2. *Review at least every 3 years and revise, if applicable, the performance measures, rating system, and rating standard to ensure providers are continually enhancing their programs to reflect best practices and advances in cancer treatment and care from the perspective of quality, comprehensive, and patient-centered coordinated care.*

3. *Submit its proposed performance measures, rating system, and rating standard to the Florida Cancer Control and Research Advisory Council and the Biomedical Research Advisory Council to be approved by both councils prior to the evaluation of any provider under such criteria.*

(b) *The criteria established by the joint committee must require, at a minimum, that each hospital, treatment center, or other provider:*

1. *Maintain a license in good standing in this state which authorizes health care services to be provided.*
2. *Be accredited by the Commission on Cancer of the American College of Surgeons.*
3. *Actively participate in at least one regional cancer control collaborative that is operating pursuant to the Florida Comprehensive Cancer Control Program's cooperative agreement with the Centers for Disease Control and Prevention's National Comprehensive Cancer Control Program.*
4. *Demonstrate excellence in and dissemination of scientifically rigorous cancer research.*
5. *Integrate training and education of biomedical researchers and health care professionals.*
6. *Meet enhanced cancer care coordination standards which, at a minimum, focus on:*
  - a. *Coordination of care by cancer specialists and nursing and allied health professionals.*
  - b. *Psychosocial assessment and services.*
  - c. *Suitable and timely referrals and followup.*
  - d. *Providing accurate and complete information on treatment options, including clinical trials, which consider each person's needs, preferences, and resources, whether provided by that center or available through other health care providers.*
  - e. *Participation in a comprehensive network of cancer specialists of multiple disciplines, which enables the patient to consult with a variety of experts to examine treatment alternatives.*

f. *Family services and support.*

g. *Aftercare and survivor services.*

h. *Patient and family satisfaction survey results.*

(c) *The members of the joint committee shall serve without compensation but may receive reimbursement as provided in s. 112.061 for travel and other necessary expenses incurred in the performance of their official duties.*

(d) *The Department of Health shall provide such staff, information, and other assistance as is reasonably necessary to assist the joint committee in carrying out its responsibilities.*

(3)(a) *A provider may apply to the Department of Health for a Cancer Center of Excellence Award. The joint committee must develop an application form to be used by the Department of Health that requires, among other things, submission of documentation by the provider which demonstrates that the criteria in subsection (2) have been met.*

(b) *After January 1, 2014, the Department of Health shall annually conduct two application cycles. The applications are not applications for licensure; the grant of the award by the State Surgeon General is not final agency action; and the Cancer Center of Excellence Award program is not subject to the provisions of chapter 120.*

(4)(a) *The State Surgeon General shall appoint a team of independent evaluators to assess applicants to determine eligibility for the award. An application is to be evaluated independently of any other application. The team shall consist of five evaluators to be selected, in any combination, from the following:*

1. No more than five health care practitioners or health care facilities not licensed in this state which provide health care services involving cancer diagnoses or treatment;

2. No more than three members from the Florida Cancer Control and Research Advisory Council;

3. No more than two members from the Biomedical Research and Advisory Council; and

4. No more than one layperson who has experience as a cancer patient or as a family member of a cancer patient if that person or his or her family member did not receive care from the applicant or providers being evaluated.

(b) Each evaluator must be independent and free of any conflict of interest with respect to a health care provider or facility licensed in this state. Each person selected to participate on the evaluation team must sign a conflict of interest attestation before being appointed to the evaluation team.

(5)(a) Two evaluation team members may, as necessary, conduct an onsite evaluation to verify submitted application documentation.

(b) Each member on the evaluation team shall report to the State Surgeon General those applicants that achieved or exceeded the required score based on the rating system developed in subsection (2) which demonstrates the cancer center excels in providing quality, comprehensive, and patient-centered coordinated care.

(6) The State Surgeon General shall notify the Governor regarding the providers that are eligible to receive the Cancer Center of Excellence Award.

(7) The award shall be recognized for a period of 3 years after the date of the award. A provider may reapply for subsequent awards.

(8) A provider that receives a Cancer Center of Excellence Award may use the designation in its advertising and marketing for up to 3 years after the date of the award. In addition, a provider that receives a Cancer Center of Excellence Award may be granted, for 3 years after the date of the award, a preference in competitive solicitations related to cancer care or research undertaken by a state agency or state university.

(9) The State Surgeon General shall report to the President of the Senate and the Speaker of the House of Representatives by January 31, 2014, the status of implementing the Cancer Center of Excellence Award program, and by December 15 annually thereafter, the number of applications received, the number of award recipients by application cycle, a list of award recipients, and recommendations to strengthen the program.

(10) The Department of Health shall adopt necessary rules related to the application cycles and submission of the application form.

Section 2. Paragraph (j) is added to subsection (4) of section 215.5602, Florida Statutes, and subsection (12) of that section is amended, to read:

(j) The council shall select, by majority vote, six members of the council who must combine with seven members of the Florida Cancer Control and Research Advisory Council to form a joint committee to develop performance measures, a rating system, a rating standard, and an application form for the Cancer Center of Excellence Award created in s. 381.925.

(12)(a) Beginning in the 2011-2012 fiscal year and thereafter, \$25 million from the revenue deposited into the Health Care Trust Fund pursuant to ss. 210.011(9) and 210.276(7) shall be reserved for research of tobacco-related or cancer-related illnesses. Of the revenue deposited in the Health Care Trust Fund pursuant to this section, \$25 million shall be transferred to the Biomedical Research Trust Fund within the Department of Health. Subject to annual appropriations in the General Appropriations Act, \$5 million shall be appropriated to the James and

(b) Beginning July 1, 2014, an entity which performs or is associated with cancer research or care that receives a specific appropriation for biomedical research, research-related functions, operations or other supportive functions, or expansion of operations in the General Appropriations Act without statutory reporting requirements for the receipt of those funds, must submit an annual fiscal-year progress report to the President of the Senate and the Speaker of the House of Representatives by December 15. The report must:

1. Describe the general use of the funds.

2. Specify the research, if any, funded by the appropriation.

3. Describe any fixed capital outlay project funded by the appropriation, the need for the project, how the project will be utilized, and the timeline for and status of the project, if applicable.

4. Identify any federal or private grants or donations generated as a result of the appropriation or activities funded by the appropriation, if applicable and traceable.

Section 3. Present subsection (4) of section 381.922, Florida Statutes, is renumbered as subsection (5), and a new subsection (4) is added to that section, to read:

381.922 William G. "Bill" Bankhead, Jr., and David Coley Cancer Research Program.—

(4) In order to attract and retain experienced research talent and attendant national grant-producing researchers to integrated cancer research and care institutions in this state, the Department of Health shall award endowments to integrated cancer research and care institutions for establishing a funded research chair, pursuant to the General Appropriations Act, specifying an appropriation for this purpose. Funding for the endowed chairs must be independent of funds appropriated pursuant to s. 215.5602(12). The purpose of the endowment is to provide secure funding for at least 7 years to attract an experienced and promising researcher whose continued employment for this period is not contingent upon grant awards associated with time-limited research projects. In addition, the Legislature intends for a research chair to specialize in a cancer-related research field that will facilitate coordination among research institutions within the state and attract other promising researchers and funding to the state.

(a) Upon selection of an endowed research chair, the institution shall notify the chairs of the appropriations committees of the Senate and the House of Representatives. An institution funded pursuant to this subsection shall provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives an annual progress report by December 15 that must, at a minimum, provide the research chair's name; the amount of the endowment fund used for the chair's salary; research responsibilities; the percentage of time devoted to research if the chair also serves as a member of the faculty; research progress; progress toward achieving the goals of this program; endowment expenditures; balance, interest rate, and interest earned on the endowment; and the amount of federal or private grants or donations generated, if any, as a result of the research chair's efforts.

(b) If an institution must replace an endowed research chair, the endowment must cease funding expenses associated with the endowed research chair, other than reasonable costs for recruitment, until a replacement chair has been retained. While the endowed research chair is vacant, the endowment must continue to earn interest and all earnings must be added to the balance of the endowment. A vacancy tolls the 7-year timeframe for the endowed research chair.

Section 4. Present paragraph (r) of subsection (4) of section 1004.435, Florida Statutes, is redesignated as paragraph (s), and a new paragraph (r) is added to that subsection, to read:

## DISCLOSURE

I have an ownership interest in Caregivers, Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers, Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **CS for CS for SB 1660** which comes before the Senate floor for a vote on May 3, 2013.

Therefore, I believe that, because Caregivers, Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

*Senator Don Gaetz, 1st District*

By direction of the President the following Conference Committee Report was read:

The Conference Committee Amendment for CS for SB 406, relating to economic development, provides for the following:

#### **Oversight of Economic Development Incentives**

The bill creates a rotating, 3-year review schedule for state incentives and economic development programs to be evaluated by the Office of Economic and Demographic Research (EDR) and the Office of Program Policy Analysis and Government Accountability (OPPAGA). The bill directs that all applicants for an incentive be evaluated for “economic benefits” in the same manner, and streamlines the reports and reporting dates that must be submitted by agencies administering economic development programs. The Department of Economic Opportunity is directed to publish on its website project-specific information about economic development incentives provided to businesses.

#### **Brownfields**

The bill limits where a project can be located in order to receive a sales tax refund for building materials and the brownfield redevelopment bonus refunds for jobs created. The project must be located on a site that has entered into a site rehabilitation agreement with DEP (or a local government delegated by DEP) or on a parcel of property that abuts the site.

#### **Cigarette Tax Distribution**

The bill delays the sunset date of the 1 percent cigarette tax distribution to the Sanford-Burnham Medical Research Institute from June 30, 2021, to June 30, 2033.

#### **Exemption for Natural Gas Used in Fuel Cells**

Natural gas used to generate electricity in a non-combustion fuel cell is exempt from sales tax.

#### **Rotary Wing Aircraft Sales Tax Exemption**

The bill reduces the maximum takeoff weight threshold for rotary wing aircraft to qualify for an exemption from sales and use tax on the parts and labor used in repair and maintenance.

#### **Spring Training Franchise Retention**

The bill creates a sales tax distribution to local governments for the purpose of constructing or renovating Major League Baseball spring training facilities.

#### **Qualified Target Industry and Qualified Defense and Space Contractor Tax Refunds**

The bill removes the individual company lifetime limit for both the Qualified Target Industry and Qualified Defense and Space Contractor tax refund programs.

#### **Enterprise Zone Tax Credit**

The bill provides that the cap on the enterprise zone tax credit for property taxes paid is applied at each eligible location rather than at the business entity level.

#### **Sales Tax Holiday**

The bill creates a three-day sales tax holiday beginning August 2, exempting certain clothing and shoes valued at \$75 or less, school supplies valued at \$15 or less, and personal computers for non-commercial use valued at \$750 or less.

#### **New Markets Development Program**

The bill increases the amount of tax credits that can be awarded by \$15 million.

**Conference Committee Amendment (127736)(with title amendment)**—Delete everything after the enacting clause and insert:

Water that has been enhanced by the addition of minerals and that does not contain any added carbonation or flavorings is also exempt.

The Conference Committee Amendment for SB 1522, relating to the Department of Highway Safety and Motor Vehicles, provides for the following:

- A recurring revenue source to support the Florida Highway Patrol – Office of Motor Carrier Compliance at the Department of Highway Safety and Motor Vehicles, *in lieu of* the annual transfer of funds from the Department of Transportation State Transportation Trust Fund; and
- Redirects \$1.00 of an existing \$2.00 fee charged on annual vehicle registrations, *from* the State Transportation Trust Fund in the Department of Transportation *to* the Highway Safety Operating Trust Fund in the Department of Highway Safety and Motor Vehicles.

The recurring annual revenue impact to the State Transportation Trust Fund is estimated to be negative \$18.4 million with a corresponding positive revenue impact of the same amount to the Highway Safety Operating Trust Fund.

In Fiscal Year 2013-14, the General Revenue Fund impact is estimated to be \$1.4 million, resulting from the Highway Safety Operating Trust Fund maintaining a general revenue service charge whereas the State Transportation Trust Fund is excluded.

**Conference Committee Amendment (352708)(with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. Section 320.0804, Florida Statutes, is amended to read:

320.0804 Surcharge on license tax; ~~transportation trust funds fund~~—There is hereby levied and imposed on each license tax imposed under s. 320.08, except those set forth in s. 320.08(11), a surcharge in the amount of \$4, which shall be collected in the same manner as the license tax. Of this amount, \$1 ~~\$2~~ shall be deposited into the State Transportation Trust Fund, \$1 *shall be deposited into the Highway Safety Operating Trust Fund*, and \$2 shall be deposited into the General Revenue Fund.

Section 2. This act shall take effect October 1, 2013.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to the Department of Highway Safety and Motor Vehicles; amending s. 320.0804, F.S.; revising and directing the distribution of the vehicle license tax surcharge into the State Transportation Trust Fund and the Highway Safety Operating Trust Fund; providing an effective date.

The Conference Committee Amendment for SB 1520, relating to Medicaid, provides for the following:

- Amends definition of “rural hospital” to provide that hospitals licensed as rural hospitals in the 2010-2011 or 2011-2012 fiscal years are deemed to continue to be rural hospitals from the date of designation through June 30, 2015, if they continue to have 100 or fewer beds and an emergency room.
- Deletes current law that directs the Agency for Health Care Administration (AHCA) to set inpatient hospital rates based on allowable costs. Requires the use of diagnosis-related groups (DRGs) for inpatient hospital reimbursement. Allows DRG reimbursement to be modified if authorized under the GAA. Maintains cost-based rates for hospital outpatient reimbursement.
- Creates the Statewide Medicaid Residency Program in the AHCA. For this program, graduate medical education (GME) dollars related to Medicaid are removed from regular hospital reimbursement payments and will instead be subject to a formula-based distribution. Each hospital participating in the program will receive an annual allocation determined by a calculation of the hospital’s percentage of total residents statewide and the hospital’s percentage of total Medicaid inpatient reimbursement among participating hospitals. Removes the obsolete Community Hospital Education Act from statute.
- Conforms Medicaid third-party liability statutes to a recent U.S. Supreme Court ruling.
- Updates the years of audited data that the AHCA uses to determine each hospital’s Medicaid days and charity care for the disproportionate share hospital (DSH) programs. Amends the DSH program for specialty hospitals to account for DSH dollars that previously went to A.G. Holley by redirecting those dollars to hospitals under contract with the Department of Health to provide those services.
- Removes the sunset from a provision in the Medicaid managed care selection and assignment statutes so that Medicaid recipients with HIV/AIDS who fail to choose a managed care plan on their own will continue to be assigned to an HIV/AIDS specialty plan.
- Replaces the current Medicaid county billing methodology with a new cost-sharing system.
- Repeals and replaces a paragraph of proviso in the General Appropriations Act to correct a scrivener’s error.

**Conference Committee Amendment (214070)(with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. *Section 381.0403, Florida Statutes, is repealed.*

Section 2. Paragraph (e) of subsection (2) of section 395.602, Florida Statutes, is amended to read:

395.602 Rural hospitals.—

(2) DEFINITIONS.—As used in this part:

(e) “Rural hospital” means an acute care hospital licensed under this chapter, having 100 or fewer licensed beds and an emergency room, which is:

1. The sole provider within a county with a population density of no greater than 100 persons per square mile;
2. An acute care hospital, in a county with a population density of no greater than 100 persons per square mile, which is at least 30 minutes of travel time, on normally traveled roads under normal traffic conditions, from any other acute care hospital within the same county;

3. A hospital supported by a tax district or subdistrict whose boundaries encompass a population of 100 persons or fewer per square mile;

4. A hospital in a constitutional charter county with a population of over 1 million persons that has imposed a local option health service tax pursuant to law and in an area that was directly impacted by a catastrophic event on August 24, 1992, for which the Governor of Florida declared a state of emergency pursuant to chapter 125, and has 120 beds or less that serves an agricultural community with an emergency room utilization of no less than 20,000 visits and a Medicaid inpatient utilization rate greater than 15 percent;

5. A hospital with a service area that has a population of 100 persons or fewer per square mile. As used in this subparagraph, the term “service area” means the fewest number of zip codes that account for 75 percent of the hospital’s discharges for the most recent 5-year period, based on information available from the hospital inpatient discharge database in the Florida Center for Health Information and Policy Analysis at the agency for Health Care Administration; or

6. A hospital designated as a critical access hospital, as defined in s. 408.07(15).

Population densities used in this paragraph must be based upon the most recently completed United States census. A hospital that received funds under s. 409.9116 for a quarter beginning no later than July 1, 2002, is deemed to have been and shall continue to be a rural hospital from that date through June 30, 2015, if the hospital continues to have 100 or fewer licensed beds and an emergency room, or meets the criteria of subparagraph 4. An acute care hospital that has not previously been designated as a rural hospital and that meets the criteria of this paragraph shall be granted such designation upon application, including supporting documentation, to the agency for Health Care Administration. *A hospital that was licensed as a rural hospital during the 2010-2011 or 2011-2012 fiscal year shall continue to be a rural hospital from the date of designation through June 30, 2015, if the hospital continues to have 100 or fewer licensed beds and an emergency room.*

Section 3. Paragraphs (c), (d), and (f) of subsection (5) and subsection (6) of section 409.905, Florida Statutes, are amended to read:

409.905 Mandatory Medicaid services.—The agency may make payments for the following services, which are required of the state by Title XIX of the Social Security Act, furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any service under this section shall be provided only when medically necessary and in accordance with state and federal law. Mandatory services rendered by providers in mobile units to Medicaid recipients may be restricted by the agency. Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, number of services, or any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216.

(5) HOSPITAL INPATIENT SERVICES.—The agency shall pay for all covered services provided for the medical care and treatment of a recipient who is admitted as an inpatient by a licensed physician or dentist to a hospital licensed under part I of chapter 395. However, the agency shall limit the payment for inpatient hospital services for a Medicaid recipient 21 years of age or older to 45 days or the number of days necessary to comply with the General Appropriations Act. Effective August 1, 2012, the agency shall limit payment for hospital emergency department visits for a nonpregnant Medicaid recipient 21 years of age or older to six visits per fiscal year.

(c) The agency shall implement a *prospective payment methodology* for establishing base reimbursement rates for inpatient hospital services ~~each hospital based on allowable costs, as defined by the agency. Rates shall be calculated annually and take effect July 1 of each year based on the most recent complete and accurate cost report submitted by each hospital. The methodology shall categorize each inpatient admission into a diagnosis-related group and assign a relative payment weight to the base rate according to the average relative amount of hospital resources used to treat a patient in a specific diagnosis-related group category. The agency may adopt the most recent relative weights calculated and made available by the Nationwide Inpatient Sample maintained by the Agency~~

for Healthcare Research and Quality or may adopt alternative weights if the agency finds that Florida-specific weights deviate with statistical significance from national weights for high-volume diagnosis-related groups. The agency shall establish a single, uniform base rate for all hospitals unless specifically exempt pursuant to s. 409.908(1).

1. Adjustments may not be made to the rates after October 31 of the state fiscal year in which the rates take effect, except for cases of insufficient collections of intergovernmental transfers authorized under s. 409.908(1) or the General Appropriations Act. In such cases, the agency shall submit a budget amendment or amendments under chapter 216 requesting approval of rate reductions by amounts necessary for the aggregate reduction to equal the dollar amount of intergovernmental transfers not collected and the corresponding federal match. Notwithstanding the \$1 million limitation on increases to an approved operating budget contained in ss. 216.181(11) and 216.292(3), a budget amendment exceeding that dollar amount is subject to notice and objection procedures set forth in s. 216.177.

2. Errors in source data or calculations ~~cost reporting or calculation of rates~~ discovered after October 31 must be reconciled in a subsequent rate period. However, the agency may not make any adjustment to a hospital's reimbursement rate more than 5 years after a hospital is notified of an audited rate established by the agency. The *prohibition against adjustments* ~~requirement that the agency may not make any adjustment to a hospital's reimbursement rate more than 5 years after notification a hospital is notified of an audited rate established by the agency~~ is remedial and applies to actions by providers involving Medicaid claims for hospital services. Hospital reimbursement is ~~rates are~~ subject to such limits or ceilings as may be established in law or described in the agency's hospital reimbursement plan. Specific exemptions to the limits or ceilings may be provided in the General Appropriations Act.

(d) The agency shall implement a comprehensive utilization management program for hospital neonatal intensive care stays in certain high-volume participating hospitals, select counties, or statewide, and replace existing hospital inpatient utilization management programs for neonatal intensive care admissions. The program shall be designed to manage *appropriate admissions and discharges* ~~the lengths of stay~~ for children being treated in neonatal intensive care units and must seek ~~the earliest~~ medically appropriate discharge to the child's home or other less costly treatment setting. The agency may competitively bid a contract for the selection of a qualified organization to provide neonatal intensive care utilization management services. The agency may seek federal waivers to implement this initiative.

~~(f) The agency shall develop a plan to convert Medicaid inpatient hospital rates to a prospective payment system that categorizes each case into diagnosis related groups (DRG) and assigns a payment weight based on the average resources used to treat Medicaid patients in that DRG. To the extent possible, the agency shall propose an adaptation of an existing prospective payment system, such as the one used by Medicare, and shall propose such adjustments as are necessary for the Medicaid population and to maintain budget neutrality for inpatient hospital expenditures.~~

1. The plan must:

a. Define and describe DRGs for inpatient hospital care specific to Medicaid in this state;

b. Determine the use of resources needed for each DRG;

c. ~~Apply current statewide levels of funding to DRGs based on the associated resource value of DRGs. Current statewide funding levels shall be calculated both with and without the use of intergovernmental transfers;~~

d. ~~Calculate the current number of services provided in the Medicaid program based on DRGs defined under this subparagraph;~~

e. ~~Estimate the number of cases in each DRG for future years based on agency data and the official workload estimates of the Social Services Estimating Conference;~~

~~f. Calculate the expected total Medicaid payments in the current year for each hospital with a Medicaid provider agreement, based on the DRGs and estimated workload;~~

~~g. Propose supplemental DRG payments to augment hospital reimbursements based on patient acuity and individual hospital characteristics, including classification as a children's hospital, rural hospital, trauma center, burn unit, and other characteristics that could warrant higher reimbursements, while maintaining budget neutrality; and~~

~~h. Estimate potential funding for each hospital with a Medicaid provider agreement for DRGs defined pursuant to this subparagraph and supplemental DRG payments using current funding levels, calculated both with and without the use of intergovernmental transfers.~~

2. The agency shall engage a consultant with expertise and experience in the implementation of DRG systems for hospital reimbursement to develop the DRG plan under subparagraph 1.

3. The agency shall submit the DRG plan, identifying all steps necessary for the transition and any costs associated with plan implementation, to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2013. The plan shall include a timeline necessary to complete full implementation by July 1, 2013. If, during implementation of this paragraph, the agency determines that these timeframes might not be achievable, the agency shall report to the Legislative Budget Commission the status of its implementation efforts, the reasons the timeframes might not be achievable, and proposals for new timeframes.

#### (6) HOSPITAL OUTPATIENT SERVICES.—

(a) The agency shall pay for preventive, diagnostic, therapeutic, or palliative care and other services provided to a recipient in the outpatient portion of a hospital licensed under part I of chapter 395, and provided under the direction of a licensed physician or licensed dentist, except that payment for such care and services is limited to \$1,500 per state fiscal year per recipient, unless an exception has been made by the agency, and with the exception of a Medicaid recipient under age 21, in which case the only limitation is medical necessity.

(b) The agency shall implement a methodology for establishing base reimbursement rates for outpatient services for each hospital based on allowable costs, as defined by the agency. Rates shall be calculated annually and take effect July 1 of each year based on the most recent complete and accurate cost report submitted by each hospital.

1. Adjustments may not be made to the rates after October 31 of the state fiscal year in which the rates take effect, except for cases of insufficient collections of intergovernmental transfers authorized under s. 409.908(1) or the General Appropriations Act. In such cases, the agency shall submit a budget amendment or amendments under chapter 216 requesting approval of rate reductions by amounts necessary for the aggregate reduction to equal the dollar amount of intergovernmental transfers not collected and the corresponding federal match. Notwithstanding the \$1 million limitation on increases to an approved operating budget under ss. 216.181(11) and 216.292(3), a budget amendment exceeding that dollar amount is subject to notice and objection procedures set forth in s. 216.177.

2. Errors in source data or calculations discovered after October 31 must be reconciled in a subsequent rate period. However, the agency may not make any adjustment to a hospital's reimbursement more than 5 years after a hospital is notified of an audited rate established by the agency. The prohibition against adjustments more than 5 years after notification is remedial and applies to actions by providers involving Medicaid claims for hospital services. Hospital reimbursement is subject to such limits or ceilings as may be established in law or described in the agency's hospital reimbursement plan. Specific exemptions to the limits or ceilings may be provided in the General Appropriations Act.

Section 4. Paragraph (a) of subsection (1) and subsection (23) of section 409.908, Florida Statutes, are amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth

in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(1) Reimbursement to hospitals licensed under part I of chapter 395 must be made prospectively or on the basis of negotiation.

(a) Reimbursement for inpatient care is limited as provided for in s. 409.905(5), except as otherwise provided in this subsection. ~~for:~~

2. *The agency may establish an alternative methodology to the DRG-based prospective payment system to set reimbursement rates for:*

- a. *State-owned psychiatric hospitals.*
- b. *Newborn hearing screening services.*
- c. *Transplant services for which the agency has established a global fee.*
- d. *Recipients who have tuberculosis that is resistant to therapy who are in need of long-term, hospital-based treatment pursuant to s. 392.62 Recognition of the costs of graduate medical education.*

3. *The agency shall modify reimbursement according to other methodologies recognized in the General Appropriations Act.*

~~During the years funds are transferred from the Department of Health, any reimbursement supported by such funds shall be subject to certification by the Department of Health that the hospital has complied with s. 381.0493. The agency may be authorized to receive funds from state entities, including, but not limited to, the Department of Health, local governments, and other local political subdivisions, for the purpose of making special exception payments, including federal matching funds, through the Medicaid inpatient reimbursement methodologies. Funds received from state entities or local governments for this purpose shall be separately accounted for and may shall not be commingled with other state or local funds in any manner. The agency may certify all local governmental funds used as state match under Title XIX of the Social Security Act, to the extent and in the manner authorized under that the identified local health care provider that is otherwise entitled to and is contracted to receive such local funds is the benefactor under the state's Medicaid program as determined under the General Appropriations Act and pursuant to an agreement between the agency for Health Care Administration and the local governmental entity. In order for the agency to certify such local governmental funds, a local governmental entity must submit a final, executed letter of agreement to the agency, which must be received by October 1 of each fiscal year and provide the total amount of local governmental funds authorized by the entity for that fiscal year under this paragraph, paragraph (b), or the General Appropriations Act. The local governmental entity shall use a certification form prescribed by the agency. At a minimum, the certification form must shall identify the amount being certified and describe the relationship between the certifying local governmental entity and the local health care provider. The agency shall prepare an annual statement of~~

(23)(a) The agency shall establish rates at a level that ensures no increase in statewide expenditures resulting from a change in unit costs effective July 1, 2011. Reimbursement rates shall be as provided in the General Appropriations Act.

(b) *Base rate reimbursement under a diagnosis-related group payment methodology shall be provided in the General Appropriations Act.*

(c)(b) This subsection applies to the following provider types:

1. Inpatient hospitals.
2. Outpatient hospitals.
3. Nursing homes.
4. County health departments.
5. Community intermediate care facilities for the developmentally disabled.
6. Prepaid health plans.

(d)(e) The agency shall apply the effect of this subsection to the reimbursement rates for nursing home diversion programs.

Section 5. Section 409.909, Florida Statutes, is created to read:

409.909 *Statewide Medicaid Residency Program.—*

(1) *The Statewide Medicaid Residency Program is established to improve the quality of care and access to care for Medicaid recipients, expand graduate medical education on an equitable basis, and increase the supply of highly trained physicians statewide. The agency shall make payments to hospitals licensed under part I of chapter 395 for graduate medical education associated with the Medicaid program. This system of payments is designed to generate federal matching funds under Medicaid and distribute the resulting funds to participating hospitals on a quarterly basis in each fiscal year for which an appropriation is made.*

(2) *On or before September 15 of each year, the agency shall calculate an allocation fraction to be used for distributing funds to participating hospitals. On or before the final business day of each quarter of a state fiscal year, the agency shall distribute to each participating hospital one-fourth of that hospital's annual allocation calculated under subsection (4). The allocation fraction for each participating hospital is based on the hospital's number of full-time equivalent residents and the amount of its Medicaid payments. As used in this section, the term:*

(a) *"Full-time equivalent," or "FTE," means a resident who is in his or her initial residency period, which is defined as the minimum number of years of training required before the resident may become eligible for board certification by the American Osteopathic Association Bureau of Osteopathic Specialists or the American Board of Medical Specialties in the specialty in which he or she first began training, not to exceed 5 years. A resident training beyond the initial residency period is counted as 0.5 FTE, unless his or her chosen specialty is in general surgery or primary care, in which case the resident is counted as 1.0 FTE. For the purposes of this section, primary care specialties include:*

1. *Family medicine;*
2. *General internal medicine;*
3. *General pediatrics;*
4. *Preventive medicine;*
5. *Geriatric medicine;*
6. *Osteopathic general practice;*
7. *Obstetrics and gynecology; and*
8. *Emergency medicine.*

(b) "Medicaid payments" means the estimated total payments for reimbursing a hospital for direct inpatient services for the fiscal year in which the allocation fraction is calculated based on the hospital inpatient appropriation and the parameters for the inpatient diagnosis-related group base rate, including applicable intergovernmental transfers, specified in the General Appropriations Act, as determined by the agency.

(c) "Resident" means a medical intern, fellow, or resident enrolled in a program accredited by the Accreditation Council for Graduate Medical Education, the American Association of Colleges of Osteopathic Medicine, or the American Osteopathic Association at the beginning of the state fiscal year during which the allocation fraction is calculated, as reported by the hospital to the agency.

(3) The agency shall use the following formula to calculate a participating hospital's allocation fraction:

$$HAF=[0.9 \times (HFTE/TFTE)] + [0.1 \times (HMP/TMP)]$$

Where:

HAF=A hospital's allocation fraction.

HFTE=A hospital's total number of FTE residents.

TFTE=The total FTE residents for all participating hospitals.

HMP=A hospital's Medicaid payments.

TMP=The total Medicaid payments for all participating hospitals.

(4) A hospital's annual allocation shall be calculated by multiplying the funds appropriated for the Statewide Medicaid Residency Program in the General Appropriations Act by that hospital's allocation fraction. If the calculation results in an annual allocation that exceeds \$50,000 per FTE resident, the hospital's annual allocation shall be reduced to a sum equaling no more than \$50,000 per FTE resident. The funds calculated for that hospital in excess of \$50,000 per FTE resident shall be redistributed to participating hospitals whose annual allocation does not exceed \$50,000 per FTE resident, using the same methodology and payment schedule specified in this section.

(5) The agency may adopt rules to administer this section.

Section 6. Subsection (17) of section 409.910, Florida Statutes, is amended to read:

409.910 Responsibility for payments on behalf of Medicaid-eligible persons when other parties are liable.—

(17) A recipient or his or her legal representative or any person representing, or acting as agent for, a recipient or the recipient's legal representative, who has notice, excluding notice charged solely by reason of the recording of the lien pursuant to paragraph (6)(c), or who has actual knowledge of the agency's rights to third-party benefits under this section, who receives any third-party benefit or proceeds therefrom for a covered illness or injury, ~~must~~ ~~is required either to pay the agency,~~ within 60 days after receipt of settlement proceeds, ~~pay the agency~~ the full amount of the third-party benefits, but not more than ~~in excess of~~ the full amount of the third-party benefits in an interest-bearing trust account for the benefit of the agency pending an ~~judicial or~~ administrative determination of the agency's right to the benefits ~~thereof~~. Proof that any such person had notice or knowledge that the recipient had received medical assistance from Medicaid, and that third-party benefits or proceeds therefrom were in any way related to a covered illness or injury for which Medicaid had provided medical assistance, and that any such person knowingly obtained possession or control of, or used, third-party benefits or proceeds and failed either to pay the agency the full amount required by this section or to hold the full amount of third-party benefits or proceeds in an interest-bearing trust account pending an ~~judicial or~~ administrative determination, unless adequately explained, gives rise to an inference that such person knowingly failed to credit the state or its agent for payments received from social security, insurance, or other sources, pursuant to s. 414.39(4)(b), and acted with the intent set forth in s. 812.014(1).

specified in paragraph (11)(f) by filing a petition under chapter 120 within 21 days after the date of payment of funds to the agency or after the date of placing the full amount of the third-party benefits in the trust account for the benefit of the agency. The petition shall be filed with the Division of Administrative Hearings. For purposes of chapter 120, the payment of funds to the agency or the placement of the full amount of the third-party benefits in the trust account for the benefit of the agency constitutes final agency action and notice thereof. Final order authority for the proceedings specified in this subsection rests with the Division of Administrative Hearings. This procedure is the exclusive method for challenging the amount of third-party benefits payable to the agency.

1. In order to successfully challenge the amount payable to the agency, the recipient must prove, by clear and convincing evidence, that a lesser portion of the total recovery should be allocated as reimbursement for past and future medical expenses than the amount calculated by the agency pursuant to the formula set forth in paragraph (11)(f) or that Medicaid provided a lesser amount of medical assistance than that asserted by the agency.

2. The agency's provider processing system reports are admissible as prima facie evidence in substantiating the agency's claim.

3. Venue for all administrative proceedings pursuant to this subsection lies in Leon County, at the discretion of the agency. 1.(b) The agency may ~~is authorized to~~ investigate and to request appropriate officers or agencies of the state to investigate suspected criminal violations or fraudulent activity related to third-party benefits, including, without limitation, ss. 414.39 and 812.014. - c.3- Until such time as an indictment or criminal information is filed by a state attorney in a criminal case; or
- d.4- At all times if otherwise protected by law.

Notwithstanding the provisions of s. 409.915, counties are exempt from contributing toward the cost of this special reimbursement for hospitals serving a disproportionate share of low-income patients.

(2) The Agency for Health Care Administration shall use the following actual audited data to determine the Medicaid days and charity care to be used in calculating the disproportionate share payment:

(a) The average of the ~~2004~~, 2005, ~~and 2006, and 2007~~ audited disproportionate share data to determine each hospital's Medicaid days and charity care for the ~~2013-2014 2012-2013~~ state fiscal year.

(4) The following formulas shall be used to pay disproportionate share dollars to public hospitals:

(d) Any nonstate government owned or operated hospital eligible for payments under this section on July 1, 2011, remains eligible for payments during the ~~2013-2014 2012-2013~~ state fiscal year.

(b)1. The Legislature intends to replace the county percentage share provided in subparagraph (a)3. with percentage shares based upon each county's proportion of the total statewide amount of county billings made under this section from April 1, 2012, through March 31, 2013, for which the state ultimately receives payment.

2. By February 1 of each year and continuing until a certification is made under sub-subparagraph b., the agency shall report to the President of the Senate and the Speaker of the House of Representatives the status of the county billings made under this section from April 1, 2012, through March 31, 2013, by county, including:

a. The amounts billed to each county which remain unpaid, if any; and

b. A certification from the agency of a final accounting of the amount of funds received by the state from such billings, by county, upon the expiration of all appeal rights that counties may have to contest such billings.

3. By March 15 of the state fiscal year in which the state receives the certification provided for in sub-subparagraph (b)2.b., the Social Services Estimating Conference shall calculate each county's percentage share of the total statewide amount of county billings made under this section from April 1, 2012, through March 31, 2013, for which the state ultimately receives payment.

4. Beginning in the state fiscal year following the receipt by the state of the certification provided in sub-subparagraph (b)2.b., each county's percentage share under subparagraph (a)3. shall be replaced by the percentage calculated under subparagraph (b)3.

5. If the court invalidates the replacement of each county's share as provided in this paragraph, the county share set forth in subparagraph (a)3. shall continue to apply.

(4) By June 1 of each year, the Department of Revenue shall notify each county of its required annual contribution. Each county shall pay its contribution, by check or electronic transfer, in equal monthly installments to the department by the 5th day of each month. If a county fails to remit the payment by the 5th day of the month, the department shall reduce the monthly distribution of that county pursuant to s. 218.61 and, if necessary, by the amount of the monthly installment pursuant to s. 218.26. The payments and the amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

(1) Each county shall participate in the following items of care and service:

(a) For both health maintenance members and fee for service beneficiaries, payments for inpatient hospitalization in excess of 10 days, but not in excess of 45 days, with the exception of pregnant women and children whose income is in excess of the federal poverty level and who do not participate in the Medicaid medically needy program, and for adult lung transplant services.

(b) For both health maintenance members and fee for service beneficiaries, payments for nursing home or intermediate facilities care in excess of \$170 per month, with the exception of skilled nursing care for children under age 21.

(2) A county's participation must be 35 percent of the total cost, or the applicable discounted cost paid by the state for Medicaid recipients enrolled in health maintenance organizations or prepaid health plans, of providing the items listed in subsection (1), except that the payments for items listed in paragraph (1)(b) may not exceed \$55 per month per person.

(3) Each county shall set aside sufficient funds to pay for items of care and service provided to the county's eligible recipients for which county contributions are required, regardless of where in the state the care or service is rendered.

(4) Each county shall contribute its pro rata share of the total county participation based upon statements rendered by the agency. The agency shall render such statements monthly based on each county's eligible recipients. For purposes of this section, each county's eligible recipients shall be determined by the recipient's address information contained in the federally approved Medicaid eligibility system within the Department of Children and Family Services. A county may use the process developed under subsection (10) to request a refund if it determines that the statement rendered by the agency contains errors.

(5) In any county in which a special taxing district or authority is located which benefits will benefit from the Medicaid program medical assistance programs covered by this section, the board of county commissioners may divide the county's financial responsibility for this purpose proportionately, and each such district or authority must furnish its share to the board of county commissioners in time for the board to comply with subsection (4) (3). Any appeal of the proration made by the board of county commissioners must be made to the Department of Fi-

financial Services, which shall then set the proportionate share for of each party.

~~(6) Counties are exempt from contributing toward the cost of new exemptions on inpatient ceilings for statutory teaching hospitals, specialty hospitals, and community hospital education program hospitals that came into effect July 1, 2000, and for special Medicaid payments that came into effect on or after July 1, 2000.~~

(6)(a) By August 1, 2012, the agency shall certify to each county the amount of such county's billings from November 1, 2001, through April 30, 2012, which remain unpaid. A county may contest the amount certified by filing a petition under the applicable provisions of chapter 120 on or before September 1, 2012. This procedure is the exclusive method to challenge the amount certified. In order to successfully challenge the amount certified, a county must show, by a preponderance of the evidence, that a recipient was not an eligible recipient of that county or that the amount certified was otherwise in error.

(b) By September 15, 2012, the agency shall certify to the Department of Revenue:

1. For each county that files a petition on or before September 1, 2012, the amount certified under paragraph (a); and

2. For each county that does not file a petition on or before September 1, 2012, an amount equal to 85 percent of the amount certified under paragraph (a).

(c) The filing of a petition under paragraph (a) ~~does shall~~ not stay or stop the Department of Revenue from reducing distributions in accordance with paragraph (b) and subsection (7) (8). If a county that files a petition under paragraph (a) is able to demonstrate that the amount certified should be reduced, the agency shall notify the Department of Revenue of the amount of the reduction. The Department of Revenue shall adjust all future monthly distribution reductions under subsection (7) (8) in a manner that results in the remaining total distribution reduction being applied in equal monthly amounts.

(7)(8)(a) Beginning with the October 2012 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one thirty-sixth of the amount certified by the agency under subsection (6) (7) for that county, minus any amount required under paragraph (b). Beginning with the October 2013 distribution, the Department of Revenue shall reduce each county's distributions pursuant to s. 218.26 by one forty-eighth of two-thirds of the amount certified by the agency under subsection (6) (7) for that county, minus any amount required under paragraph (b). However, the amount of the reduction may not exceed 50 percent of each county's distribution. If, after 60 months, the reductions for any county do not equal the total amount initially certified by the agency, the Department of Revenue shall continue to reduce such county's distribution by up to 50 percent until the total amount certified is reached. The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.

(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.26 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.

~~(9)(a) Beginning May 1, 2012, and each month thereafter, the agency shall certify to the Department of Revenue by the 7th day of each month the amount of the monthly statement rendered to each county pursuant to subsection (4). Beginning with the May 2012 distribution, the De-~~

~~partment of Revenue shall reduce each county's monthly distribution pursuant to s. 218.61 by the amount certified by the agency minus any amount required under paragraph (b). The amounts by which the distributions are reduced shall be transferred to the General Revenue Fund.~~

(b) As an assurance to holders of bonds issued before the effective date of this act to which distributions made pursuant to s. 218.61 are pledged, or bonds issued to refund such bonds which mature no later than the bonds they refunded and which result in a reduction of debt service payable in each fiscal year, the amount available for distribution to a county shall remain as provided by law and continue to be subject to any lien or claim on behalf of the bondholders. The Department of Revenue must ensure, based on information provided by an affected county, that any reduction in amounts distributed pursuant to paragraph (a) does not reduce the amount of distribution to a county below the amount necessary for the timely payment of principal and interest when due on the bonds and the amount necessary to comply with any covenant under the bond resolution or other documents relating to the issuance of the bonds. If a reduction to a county's monthly distribution must be decreased in order to comply with this paragraph, the Department of Revenue must notify the agency of the amount of the decrease and the agency must send a bill for payment of such amount to the affected county.

~~(10) The agency, in consultation with the Department of Revenue and the Florida Association of Counties, shall develop a process for refund requests which:~~

~~(a) Allows counties to submit to the agency written requests for refunds of any amounts by which the distributions were reduced as provided in subsection (9) and which set forth the reasons for the refund requests.~~

~~(b) Requires the agency to make a determination as to whether a refund request is appropriate and should be approved, in which case the agency shall certify the amount of the refund to the department.~~

~~(c) Requires the department to issue the refund for the certified amount to the county from the General Revenue Fund. The Department of Revenue may issue the refund in the form of a credit against reductions to be applied to subsequent monthly distributions.~~

(8)(11) Beginning in the 2013-2014 fiscal year and each year thereafter through the 2020-2021 fiscal year, the Chief Financial Officer shall transfer from the General Revenue Fund to the Lawton Chiles Endowment Fund an amount equal to the amounts transferred to the General Revenue Fund in the previous fiscal year pursuant to ~~subsections (4) and (7) subsections (8) and (9), reduced by the amount of refunds paid pursuant to subsection (10),~~ which are in excess of the official estimate for medical hospital fees for such previous fiscal year adopted by the Revenue Estimating Conference on January 12, 2012, as reflected in the conference's workpapers. By July 20 of each year, the Office of Economic and Demographic Research shall certify the amount to be transferred to the Chief Financial Officer. Such transfers must be made before July 31 of each year until the total transfers for all years equal \$350 million. ~~If in the event that~~ such transfers do not total \$350 million by July 1, 2021, the Legislature shall provide for the transfer of amounts necessary to total \$350 million. The Office of Economic and Demographic Research shall publish the official estimates reflected in the conference's workpapers on its website.

## DISCLOSURE

I have an ownership interest in Caregivers, Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers, Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **SB 1520** which comes before the Senate floor for a vote on May 3, 2013.

Therefore, I believe that, because Caregivers, Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Section 19. Paragraphs (f) and (i) of subsection (1) and paragraph (a) of subsection (9) of section 1011.62, Florida Statutes, are amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(f) Supplemental academic instruction; categorical fund.—

1. There is created a categorical fund to provide supplemental academic instruction to students in kindergarten through grade 12. This

paragraph may be cited as the “Supplemental Academic Instruction Categorical Fund.”

2. Categorical funds for supplemental academic instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. These funds shall be in addition to the funds appropriated on the basis of FTE student membership in the Florida Education Finance Program and shall be included in the total potential funds of each district. These funds shall be used to provide supplemental academic instruction to students enrolled in the K-12 program. For the 2012-2013, ~~and~~ 2013-2014, *and 2014-2015* fiscal years, each school district that has one or more of the 100 lowest-performing elementary schools based on the state reading assessment shall use these funds, together with the funds provided in the district's research-based reading instruction allocation and other available funds, to provide an additional hour of instruction beyond the normal school day for each day of the entire school year for intensive reading instruction for the students in each of these schools. This additional hour of instruction must be provided only by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers shall not be included in the 100 schools. After this requirement has been met, supplemental instruction strategies may include, but are not limited to: modified curriculum, reading instruction, after-school instruction, tutoring, mentoring, class size reduction, extended school year, intensive skills development in summer school, and other methods for improving student achievement. Supplemental instruction may be provided to a student in any manner and at any time during or beyond the regular 180-day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.

3. Effective with the 1999-2000 fiscal year, funding on the basis of FTE membership beyond the 180-day regular term shall be provided in the FEFP only for students enrolled in juvenile justice education programs or in education programs for juveniles placed in secure facilities or programs under s. 985.19. Funding for instruction beyond the regular 180-day school year for all other K-12 students shall be provided through the supplemental academic instruction categorical fund and other state, federal, and local fund sources with ample flexibility for schools to provide supplemental instruction to assist students in progressing from grade to grade and graduating.

4. The Florida State University School, as a lab school, is authorized to expend from its FEFP or Lottery Enhancement Trust Fund allocation the cost to the student of remediation in reading, writing, or mathematics for any graduate who requires remediation at a postsecondary educational institution.

5. Beginning in the 1999-2000 school year, dropout prevention programs as defined in ss. 1003.52, 1003.53(1)(a), (b), and (c), and 1003.54 shall be included in group 1 programs under subparagraph (d)3.

(i) Calculation of full-time equivalent membership with respect to dual enrollment instruction.—Students enrolled in dual enrollment instruction pursuant to s. 1007.271 may be included in calculations of full-time equivalent student memberships for basic programs for grades 9 through 12 by a district school board. Instructional time for dual enrollment may vary from 900 hours; however, *the full-time equivalent student membership value shall be subject to the provisions in school district may only report the student for a maximum of 1.0 full-time equivalent student membership, as provided in s. 1011.61(4).* Dual enrollment full-time equivalent student membership shall be calculated in an amount equal to the hours of instruction that would be necessary to earn the full-time equivalent student membership for an equivalent course if it were taught in the school district. Students in dual enrollment courses may also be calculated as the proportional shares of full-time equivalent enrollments they generate for a Florida College System institution or university conducting the dual enrollment instruction. Early admission students shall be considered dual enrollments for funding purposes. Students may be enrolled in dual enrollment instruction provided by an eligible independent college or university and may be included in calculations of full-time equivalent student memberships for basic programs for grades 9 through 12 by a district school board. However, those provisions of law which exempt dual enrolled and early admission students from payment of instructional materials and tuition and fees, including laboratory fees, shall not apply to students

who select the option of enrolling in an eligible independent institution. An independent college or university which is located and chartered in Florida, is not for profit, is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools or the Accrediting Council for Independent Colleges and Schools, and confers degrees as defined in s. 1005.02 shall be eligible for inclusion in the dual enrollment or early admission program. Students enrolled in dual enrollment instruction shall be exempt from the payment of tuition and fees, including laboratory fees. No student enrolled in college credit mathematics or English dual enrollment instruction shall be funded as a dual enrollment unless the student has successfully completed the relevant section of the entry-level examination required pursuant to s. 1008.30.

(9) RESEARCH-BASED READING INSTRUCTION ALLOCATION.—

(a) The research-based reading instruction allocation is created to provide comprehensive reading instruction to students in kindergarten through grade 12. For the 2012-2013, ~~and 2013-2014, and 2014-2015~~ fiscal years, in each school district that has one or more of the 100 lowest-performing elementary schools based on the state reading assessment, priority shall be given to providing an additional hour per day of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in each school. Students enrolled in these schools who have level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers shall not be included in the 100 schools. The intensive reading instruction delivered in this additional hour and for other students shall include: research-based reading instruction that has been proven to accelerate progress of students exhibiting a reading deficiency; differentiated instruction based on student assessment data to meet students' specific reading needs; explicit and systematic reading development in phonemic awareness, phonics, fluency, vocabulary, and comprehension, with more extensive opportunities for guided practice, error correction, and feedback; and the integration of social studies, science, and mathematics-text reading, text discussion, and writing in response to reading. For the 2012-2013 and 2013-2014 fiscal years, a school district may not hire more reading coaches than were hired during the 2011-2012 fiscal year unless all students in kindergarten through grade 5 who demonstrate a reading deficiency, as determined by district and state assessments, including students scoring Level 1 or Level 2 on FCAT Reading, are provided an additional hour per day of intensive reading instruction beyond the normal school day for each day of the entire school year.

1. 2. If the committee determines that the written statement is not sufficient, the committee may require the chair of the governing body of the state university or Florida College System institution, or the chair's designee, to appear before the committee.

3. If the committee determines that the state university or Florida College System institution has failed to take full corrective action for which there is no justifiable reason or has failed to comply with committee requests made pursuant to this section, the committee *shall refer the matter to the State Board of Education or the Board of Governors, as appropriate, to proceed in accordance with s. 1008.32 or s. 1008.322, respectively* ~~may proceed in accordance with s. 11.40(2).~~

(b) The program shall define those members of the Florida National Guard who are ineligible to participate in the program and those courses of study which are not authorized for the program.

1. Ineligible members include, but are not limited to, any member, commissioned officer, warrant officer, or enlisted person who has obtained a master's degree using the program.

2. Courses not authorized include noncredit courses, courses that do not meet degree requirements, courses that do not meet requirements for completion of career training, or other courses as determined by program definitions.

The commissioner shall prescribe the design and content of these reports, which must include descriptions of the performance of all schools participating in the assessment program and all of their major student populations as determined by the commissioner. The report must also include the percent of students performing at or above grade level and making a year's learning gains growth in a year's time in reading and mathematics. The provisions of s. 1002.22 pertaining to student records apply to this section.

(3) DESIGNATION OF SCHOOL GRADES.—

(a) *Beginning with the 2013-2014 school year, each school that has students who are tested and included in the school grading system shall receive a school grade if the number of its students tested on statewide assessments pursuant to s. 1008.22 meets or exceeds the minimum sample size of 10, except as follows:*

~~1. A school shall not receive a school grade if the number of its students tested and included in the school grading system is less than the minimum sample size necessary, based on accepted professional practice, for statistical reliability and prevention of the unlawful release of personally identifiable student data under s. 1002.22 or 20 U.S.C. s. 1232g.~~

~~1.2.~~ An alternative school may choose to receive a school grade under this section or a school improvement rating under s. 1008.341. For charter schools that meet the definition of an alternative school pursuant to State Board of Education rule, the decision to receive a school grade is the decision of the charter school governing board.

A collocated school is a school that has its own unique master school identification number, provides for the education of each of its enrolled students, and operates at the same facility as another school that has its own unique master school identification number and provides for the education of each of its enrolled students.*

The State Board of Education shall adopt appropriate criteria for each school grade. The criteria must also give added weight to student achievement in reading. Schools earning a grade of "C," making satisfactory progress, shall be required to demonstrate that adequate progress has been made by students in the school who are in the lowest 25th percentile in reading and mathematics on the FCAT and end-of-course assessments as described in s. 1008.22(3)(c)2.a., unless these students are exhibiting satisfactory performance. For schools comprised of high school grades 9, 10, 11, and 12, or grades 10, 11, and 12, the criteria for school grades must also give added weight to the graduation rate of all eligible at-risk students. In order for a high school to earn a grade of "A," the school must demonstrate that its at-risk students, as defined in this paragraph, are making adequate progress.

In addition, the system shall support, as feasible, the management decisions to be made in each division of the department and at the individual school and district levels. Similar data elements among divisions and levels shall be compatible. The system shall be based on an overall conceptual design; the information needed for such decisions, including fiscal, student, program, personnel, facility, community, evaluation, and other relevant data; and the relationship between cost and effectiveness. The system shall be managed and administered by the commissioner and shall include a district subsystem component to be administered at the district level, with input from the reports-and-forms control management committees. Each district school system with a unique management information system shall assure that compatibility exists between its unique system and the district component of the state system so that all data required as input to the state system is made available via electronic transfer and in the appropriate input format.

(a) The specific responsibilities of the commissioner shall include:

4. Developing standardized terminology and procedures to be followed at all levels of the system;

5. Developing a standard transmittal format to be used for collection of data from the various levels of the system;

6. Developing appropriate computer programs to assure integration of the various information components dealing with students, personnel, facilities, fiscal, program, community, and evaluation data;

7. Developing the necessary programs to provide statistical analysis of the integrated data provided in subparagraph 6. in such a way that required reports may be disseminated, comparisons may be made, and relationships may be determined in order to provide the necessary information for making management decisions at all levels;

8. Developing output report formats which will provide district school systems with information for making management decisions at the various educational levels;

9. Developing a phased plan for distributing computer services equitably among all public schools and school districts in the state as rapidly as possible. The plan shall describe alternatives available to the state in providing such computing services and shall contain estimates of the cost of each alternative, together with a recommendation for action. Initiating a reports-management and forms-management system to ascertain that duplication in collection of data does not exist and that forms and reports for reporting under state and federal requirements and other forms and reports are prepared in a logical and uncomplicated format, resulting in a reduction in the number and complexity of required reports, particularly at the school level; and

13. Initiating such other actions as are necessary to carry out the intent of the Legislature that a management information system for public school management needs be implemented. Such other actions shall be based on criteria including, but not limited to:

The Conference Committee Amendment for SB 1516, relating to the Internal Revenue Code, provides for the following:

Florida's corporate Income Tax Code uses the federal Internal Revenue Code as the starting point for determining a corporation's income for Florida corporate income tax purposes. The bill updates the Florida corporate Income Tax Code by adopting the Internal Revenue Code as in effect on January 1, 2013.

#### American Taxpayer Relief Act of 2012

The American Taxpayer Relief Act of 2012 granted extraordinary deductions for capital asset expensing and depreciation. Similar to past treatment, the bill requires Florida taxpayers to spread the benefit of these deductions over a 7-year period.

The Conference Committee Amendment for SB 1518, relating to Department of Children and Families, provides for the following:

- Allows managing entities under contract with the Department of Children and Families for the regional management of behavioral health and substance abuse services, to carry forward unspent state dollars from one fiscal year to the next, under specified parameters. Requires DCF to provide a two-month advance payment to a managing entity at the beginning of a fiscal year. These provisions mirror current law for community-based care lead agency contracts.
- Alters the weighting for DCF's allocations to community-based care lead agencies. Currently, the allocations are weighted 75% for recurring core services funding and 25% for the equity allocation model. The bill changes the weighting to 90% and 10%, respectively. This change – requested by the CBC lead agencies – will alter the allocations among the CBC lead agencies but will not require more state funding.

**Conference Committee Amendment (770848)(with title amendment)**—Delete everything after the enacting clause and insert:

Section 1. Present subsections (9) and (10) of section 394.9082, Florida Statutes, are renumbered as subsections (10) and (11), respectively, and new subsection (9) is added to that section, to read:

394.9082 Behavioral health managing entities.—

(9) **FUNDING FOR MANAGING ENTITIES.**—

(a) *A contract established between the department and a managing entity under this section shall be funded by general revenue, other applicable state funds, or applicable federal funding sources. A managing entity may carry forward documented unexpended state funds from one fiscal year to the next; however, the cumulative amount carried forward may not exceed 8 percent of the total contract. Any unexpended state funds in excess of that percentage must be returned to the department. The funds carried forward may not be used in a way that would create increased recurring future obligations or for any program or service that is not currently authorized under the existing contract with the department. Expenditures of funds carried forward must be separately reported to the department. Any unexpended funds that remain at the end of the contract period shall be returned to the department. Funds carried forward may be retained through contract renewals and new procurements as long as the same managing entity is retained by the department.*

(b) *The method of payment for a fixed-price contract with a managing entity must provide for a 2-month advance payment at the beginning of each fiscal year and equal monthly payments thereafter.*

Section 2. Subsections (3) and (4) of section 409.16713, Florida Statutes, are amended to read:

409.16713 Allocation of funds for community-based care lead agencies.—

(3) Beginning in the 2013-2014 ~~2011-2012~~ state fiscal year, 90 ~~75~~ percent of the recurring core services funding for each community-based care lead agency shall be based on the prior year recurring base of core services funds and 10 ~~25~~ percent shall be based on the equity allocation model.

(4) *Unless otherwise specified in the General Appropriations Act For the 2011-2012 state fiscal year, any new core services funds shall be allocated based on the equity allocation model. Such allocations must shall be proportional to the proportion of funding based on the equity model and allocated only to the community-based care lead agency contracts if where the current funding proportion is less than the proportion of funding based on the equity model.*

Section 3. This act shall take effect July 1, 2013.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to Department of Children and Families; amending s. 394.9082, F.S.; providing for the carrying forward, expenditure, and return of unexpended funds paid to entities contracting with the department to manage the delivery of behavioral health services; amending s. 409.16713, F.S.; revising recurring core services funding for community-based care lead agencies; providing an effective date.

## DISCLOSURE

I have an ownership interest in Caregivers, Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers, Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **SB 1518** which comes before the Senate floor for a vote on May 3, 2013.

Therefore, I believe that, because Caregivers, Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Senator Don Gaetz, 1st District

Unless otherwise specifically provided for in this section, a combination of vehicles not qualifying as commercial motor vehicles may consist of no more than two units coupled together; such nonqualifying combination of vehicles may not exceed a total length of 65 feet, inclusive of the load carried thereon, but exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. Notwithstanding any other provision of this section, a truck tractor-semitrailer combination engaged in the transportation of automobiles or boats may transport motor vehicles or boats on part of the power unit; and, except as may otherwise be mandated under federal law, an automobile or boat transporter semitrailer may not exceed 50 feet in length, exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer. The 50-foot length limitation does not apply to non-stinger-steered automobile or boat transporters that are 65 feet or less in overall length, exclusive of the load carried thereon, or to stinger-steered automobile or boat transporters that are 75 feet or less in overall length, exclusive of the load carried thereon. For purposes of this subsection, a "stinger-steered

automobile or boat transporter" is an automobile or boat transporter configured as a semitrailer combination wherein the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit. Notwithstanding paragraphs (a) and (b), any straight truck or truck tractor-semi-trailer combination engaged in the transportation of horticultural trees may allow the load to extend up to an additional 10 feet beyond the rear of the vehicle, provided said trees are resting against a retaining bar mounted above the truck bed so that the root balls of the trees rest on the floor and to the front of the truck bed and the tops of the trees extend up over and to the rear of the truck bed, and provided the overhanging portion of the load is covered with protective fabric.

(a) *Straight trucks.*—A straight truck may not exceed a length of 40 feet in extreme overall dimension, exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. *A straight truck may attach a forklift to the rear of the cargo bed, provided the overall combined length of the vehicle and the forklift does not exceed 50 feet.* A straight truck may tow no more than one trailer, and the overall length of the truck-trailer combination may not exceed 68 feet, including the load thereon. Notwithstanding any other provisions of this section, a truck-trailer combination engaged in the transportation of boats, or boat trailers whose design dictates a front-to-rear stacking method may not exceed the length limitations of this paragraph exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer.

(c) For a vehicle equipped with fully functional idle-reduction technology, any penalty shall be calculated by reducing the actual gross vehicle weight or the internal bridge weight by the certified weight of the idle-reduction technology or by 550 ~~400~~ pounds, whichever is less. The vehicle operator must present written certification of the weight of the idle-reduction technology and must demonstrate or certify that the idle-reduction technology is fully functional at all times. This calculation is not allowed for vehicles described in s. 316.535(6);

Such property shall be held in the name of the state.

(b) The department may accept donations of any land or buildings or other improvements, including personal property within such buildings or on such lands with or without such conditions, reservations, or reverter provisions as are acceptable to the department. Such donations may be used as transportation rights-of-way or to secure or utilize transportation rights-of-way for existing, proposed, or anticipated transportation facilities on the State Highway System, on the State Park Road System, or in a transportation corridor designated by the department.

(c) When lands, buildings, or other improvements are needed for transportation purposes, but are held by a federal, state, or local governmental entity and utilized for public purposes other than transpor-

(d) *The department may contract pursuant to s. 287.055 for auction services used in the conveyance of real or personal property or the conveyance of leasehold interests under the provisions of subsections (4) and (5). Such inventory shall include ~~a statement of the location or site of each piece of realty, structure, or severable item; an itemized listing of all appliances, fixtures, and other severable items; a statement of the location or site of each piece of realty, structure, or severable item; and the serial number assigned to each.~~ Copies of each inventory shall be filed in the district office in which the property is located. Such inventory shall be carried forward to show the final disposition of each item of property, both real and personal.

If the property is not needed for the construction, operation, and maintenance of a transportation facility, or is not located within a transportation corridor, the department may dispose of the property pursuant to subsection (4).

(4) The department may ~~convey sell~~, in the name of the state, any land, building, or other property, real or personal, which was acquired under the provisions of subsection (1) and which the department has determined is not needed for the construction, operation, and maintenance of a transportation facility. ~~With the exception of any parcel governed by paragraph (c), paragraph (d), paragraph (f), paragraph (g), or paragraph (i), the department shall afford first right of refusal to the local government in the jurisdiction of which the parcel is situated.~~ When such a determination has been made, property may be disposed of through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest, with due advertisement for property valued by the department at greater than \$10,000. A sale may not occur at a price less than the department's current estimate of value, except as provided in paragraphs (a)-(d). The department may afford a right of first refusal to the local government or other political subdivision in the jurisdiction in which the parcel is situated, except in conveyances transacted under paragraph (a), paragraph (c), or paragraph (e). ~~in the following manner:~~

As compensation, the state shall receive no less than its investment in such property or the department's current estimate of value, whichever is lower. It is expressly intended that this benefit be extended only to persons actually displaced by the project. Dispositions to any other person must be for no less than the department's current estimate of value; in the discretion of the department, public sale would be inequitable, properties may be sold by negotiation to the owner holding title to the property abutting the property to be sold, provided such sale is at a negotiated price not less than fair market value as determined by an~~

independent appraisal, the cost of which shall be paid by the owner of the abutting land. If negotiations do not result in the sale of the property to the owner of the abutting land and the property is sold to someone else, the cost of the independent appraisal shall be borne by the purchaser; and the owner of the abutting land shall have the cost of the appraisal refunded to him or her. If, however, no purchase takes place, the owner of the abutting land shall forfeit the sum paid by him or her for the independent appraisal. If, due to action of the department, the property is removed from eligibility for sale, the cost of any appraisal prepared shall be refunded to the owner of the abutting land.

(d) If the department determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 10 years to offset the property's value in establishing a value for disposal of the property, even if that value is zero. ~~property acquired for use as a borrow pit is no longer needed, the department may sell such property to the owner of the parcel of abutting land from which the borrow pit was originally acquired, provided the sale is at a negotiated price not less than fair market value as determined by an independent appraisal, the cost of which shall be paid by the owner of such abutting land.~~

(e) If, in the discretion of the department, a sale to anyone other than an abutting property owner would be inequitable, the property may be sold to the abutting owner for the department's current estimate of value. ~~the department begins the process for disposing of the property on its own initiative, either by negotiation under the provisions of paragraph (a), paragraph (c), paragraph (d), or paragraph (i), or by receipt of sealed competitive bids or public auction under the provisions of paragraph (b) or paragraph (i), a department staff appraiser may determine the fair market value of the property by an appraisal.~~

(f) ~~Any property which was acquired by a county or by the department using constitutional gas tax funds for the purpose of a right of way or borrow pit for a road on the State Highway System, State Park Road System, or county road system and which is no longer used or needed by the department may be conveyed without consideration to that county. The county may then sell such surplus property upon receipt of competitive bids in the same manner prescribed in this section.~~

(g) ~~If a property has been donated to the state for transportation purposes and the facility has not been constructed for a period of at least 5 years and no plans have been prepared for the construction of such facility and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives.~~

(h) ~~If property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity.~~

(i) ~~If property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive no less than its investment in such properties or fair market value, whichever is lower. It is expressly intended that this benefit be extended only to those persons actually displaced by such project. Dispositions to any other persons must be for fair market value.~~

(j) ~~If the department determines that the property will require significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 5 years to offset the market value in establishing a value for disposal of the property, even if that value is zero.~~

(5) The department may convey a leasehold interest for commercial or other purposes, in the name of the state, to any land, building, or other property, real or personal, which was acquired under the provisions of subsection (1). *However, a lease may not be entered into at a price less than the department's current estimate of value.*

(a) *A lease may be through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest. The department may negotiate such a lease at the prevailing market value with the owner from whom the property was acquired;*

with the holders of leasehold estates existing at the time of the department's acquisition; or, if public bidding would be inequitable, with the owner holding title to privately owned abutting property, if reasonable notice is provided to all other owners of abutting property. The department may allow an outdoor advertising sign to remain on the property acquired, or be relocated on department property, and such sign shall not be considered a nonconforming sign pursuant to chapter 479.

(b) *If, in the discretion of the department, a lease to a person other than an abutting property owner or tenant with a leasehold interest in the abutting property would be inequitable, the property may be leased to the abutting owner or tenant for no less than the department's current estimate of value. All other leases shall be by competitive bid.*

(c) No lease signed pursuant to paragraph (a) ~~or paragraph (b)~~ shall be for a period of more than 5 years; however, the department may renegotiate or extend such a lease for an additional term of 5 years *as the department deems appropriate without rebidding.*

(d) Each lease shall provide that, *unless otherwise directed by the lessor*, any improvements made to the property during the term of the lease shall be removed at the lessee's expense.

(e) If property is to be used for a public purpose, ~~including a fair, art show, or other educational, cultural, or fundraising activity~~, the property may be leased without consideration to a governmental entity ~~or school board~~. *A lease for a public purpose is exempt from the term limits in paragraph (c).*

(f) Paragraphs (c) and (e) ~~(d)~~ do not apply to leases entered into pursuant to s. 260.0161(3), except as provided in such a lease.

(g) No lease executed under this subsection may be utilized by the lessee to establish the ~~4 years'~~ standing required by s. 73.071(3)(b) if the business had not been established *for the specified number of 4 years* on the date title passed to the department.

(h) The department may enter into a long-term lease without compensation with a public port listed in s. 403.021(9)(b) for rail corridors used for the operation of a short-line railroad to the port.

(6) Nothing in this chapter prevents the joint use of right-of-way for alternative modes of transportation; provided that the joint use does not impair the integrity and safety of the transportation facility.

(7) *The department's estimate of value, required by subsections (4) and (5), shall be prepared in accordance with department procedures, guidelines, and rules for valuation of real property. If the value of the property exceeds \$50,000, as determined by the department estimate, the sale or lease must be at a negotiated price not less than the estimate of value as determined by an appraisal prepared in accordance with department procedures, guidelines, and rules for valuation of real property, the cost of which shall be paid by the party seeking the purchase or lease of the property. appraisal required by paragraphs (4)(c) and (d) shall be prepared in accordance with department guidelines and rules by an independent appraiser who has been certified by the department. If federal funds were used in the acquisition of the property, the appraisal shall also be subject to the approval of the Federal Highway Administration.*

(8) A "due advertisement" under this section is an advertisement in a newspaper of general circulation in the area of the improvements of not less than 14 calendar days prior to the date of the receipt of bids or the date on which a public auction is to be held.

(9) The department, with the approval of the Chief Financial Officer, is authorized to disburse state funds for real estate closings in a manner consistent with good business practices and in a manner minimizing costs and risks to the state.

(10) The department is authorized to purchase title insurance in those instances where it is determined that such insurance is necessary to protect the public's investment in property being acquired for transportation purposes. The department shall adopt procedures to be followed in making the determination to purchase title insurance for a particular parcel or group of parcels which, at a minimum, shall set forth criteria which the parcels must meet.

(11) *This section does not modify the requirements of s. 73.013.*

Section 17. Subsection (2) of section 337.251, Florida Statutes, is amended to read:

337.251 Lease of property for joint public-private development and areas above or below department property.—

A copy of the notice must be mailed to each local government in the affected area. ~~The department shall, by rule, establish an application fee for the submission of proposals pursuant to this section. The fee must be sufficient to pay the anticipated costs of evaluating the proposals. The department may engage the services of private consultants to assist in the evaluation. Before approval, the department must determine that the proposed lease:~~

- (a) *Is in the public's best interest;*
- (b) *Does not require state funds to be used; and*
- (c) *Has adequate safeguards in place to ensure that no additional costs are borne and no service disruptions are experienced by the traveling public and residents of the state in the event of default by the private lessee or upon termination or expiration of the lease.*

Section 18. Paragraphs (h) and (i) are added to subsection (1), and subsection (1) of section 337.403, Florida Statutes, is further amended to read:

337.403 Interference caused by ~~relocation of~~ utility; expenses.—

(1) If a utility that is placed upon, under, over, or along any public road or publicly owned rail corridor is found by the authority to be unreasonably interfering in any way with the convenient, safe, or continuous use, or the maintenance, improvement, extension, or expansion, of such public road or publicly owned rail corridor, the utility owner shall, upon 30 days' written notice to the utility or its agent by the authority, initiate the work necessary to alleviate the interference at its own expense except as provided in paragraphs (a)-(i) ~~(g)~~. The work must be completed within such reasonable time as stated in the notice or such time as agreed to by the authority and the utility owner.

(a) If the relocation of utility facilities, as referred to in s. 111 of the Federal-Aid Highway Act of 1956, Pub. L. No. 627 of the 84th Congress, is necessitated by the construction of a project on the federal-aid interstate system, including extensions thereof within urban areas, and the cost of the project is eligible and approved for reimbursement by the Federal Government to the extent of 90 percent or more under the Federal Aid Highway Act, or any amendment thereof, then in that event the utility owning or operating such facilities shall perform any necessary work upon notice from the department, and the state shall pay the entire expense properly attributable to such work after deducting therefrom any increase in the value of a new facility and any salvage value derived from an old facility.

(b) When a joint agreement between the department and the utility is executed for utility work to be accomplished as part of a contract for construction of a transportation facility, the department may participate in those utility work costs that exceed the department's official estimate of the cost of the work by more than 10 percent. The amount of such participation shall be limited to the difference between the official estimate of all the work in the joint agreement plus 10 percent and the amount awarded for this work in the construction contract for such work. The department may not participate in any utility work costs that occur as a result of changes or additions during the course of the contract.

(c) When an agreement between the department and utility is executed for utility work to be accomplished in advance of a contract for construction of a transportation facility, the department may participate in the cost of clearing and grubbing necessary to perform such work.

(d) If the utility facility was initially installed to exclusively serve the authority or its tenants, or both, the authority shall bear the costs of the utility work. However, the authority is not responsible for the cost of

utility work related to any subsequent additions to that facility for the purpose of serving others. *For a county or municipality, if such utility facility was installed in the right-of-way as a means to serve a county or municipal facility on a parcel of property adjacent to the right-of-way, and the intended use of the county or municipal facility is for other than transportation purposes, the obligation of the county or municipality to bear the costs of the utility work shall extend only to utility work on the parcel of property on which the facility of the county or municipality originally served by the utility facility is located.*

(e) If, under an agreement between a utility and the authority entered into after July 1, 2009, the utility conveys, subordinates, or relinquishes a compensable property right to the authority for the purpose of accommodating the acquisition or use of the right-of-way by the authority, without the agreement expressly addressing future responsibility for the cost of necessary utility work, the authority shall bear the cost of removal or relocation. This paragraph does not impair or restrict, and may not be used to interpret, the terms of any such agreement entered into before July 1, 2009.

(f) If the utility is an electric facility being relocated underground in order to enhance vehicular, bicycle, and pedestrian safety and in which ownership of the electric facility to be placed underground has been transferred from a private to a public utility within the past 5 years, the department shall incur all costs of the necessary utility work.

(g) An authority may bear the costs of utility work required to eliminate an unreasonable interference when the utility is not able to establish that it has a compensable property right in the particular property where the utility is located if:

1. The utility was physically located on the particular property before the authority acquired rights in the property;

2. The utility demonstrates that it has a compensable property right in ~~an~~ adjacent properties along the alignment of the utility *or, after due diligence, certifies that the utility does not have evidence to prove or disprove that it has a compensable property right in the particular property where the utility is located;* and

3. The information available to the authority does not establish the relative priorities of the authority's and the utility's interests in the particular property.

(h) *If the relocation of utility facilities is necessitated by the construction of a commuter rail service project or an inter-city passenger rail service project and the cost of the project is eligible and approved for reimbursement by the Federal Government, then in that event the utility owning or operating such facilities located by permit on a department-owned rail corridor shall perform any necessary utility relocation work upon notice from the department, and the department shall pay the expense properly attributable to such utility relocation work in the same proportion as Federal funds are expended on the commuter rail service project or an inter-city passenger rail service project after deducting therefrom any increase in the value of a new facility and any salvage value derived from an old facility. In no event shall the state be required to use state dollars for such utility relocation work. This subsection shall not apply to any phase of the Central Florida Rail Corridor project known as SunRail.*

(i) *If a city or county owned utility is located in a rural area of critical economic concern, designated pursuant to s. 288.0656, and the department's comptroller determines that the utility is not able, and will not within the following 10 years be able, to pay for the cost of utility work necessitated by a department project on the State Highway System, the department may pay the cost of such utility work performed by the department or the department's contractor, in whole or in part.*

Section 19. Subsection (5) of section 338.161, Florida Statutes, is amended to read:

338.161 Authority of department or toll agencies to advertise and promote electronic toll collection; expanded uses of electronic toll collection system; authority of department to collect tolls, fares, and fees for private and public entities.—

(5) If the department finds that it can increase nontoll revenues or add convenience or other value for its customers, and if a public or pri-

vate transportation facility owner agrees that its facility will become interoperable with the department's electronic toll collection and video billing systems, the department ~~may be authorized to enter into an agreement with the owner of such facility under which the department uses private or public entities for the department's use of its electronic toll collection and video billing systems to collect and enforce for the owner tolls, fares, administrative fees, and other applicable charges due imposed in connection with use of the owner's facility transportation facilities of the private or public entities that become interoperable with the department's electronic toll collection system.~~ The department may modify its rules regarding toll collection procedures and the imposition of administrative charges to be applicable to toll facilities that are not part of the turnpike system or otherwise owned by the department. Any funds remaining in the Everglades Fund may be used for environmental projects to restore the natural values of the Everglades, subject to compliance with any applicable federal laws and regulations. Projects ~~must~~ ~~shall~~ be limited to:

(a) Highway redesign to allow for improved sheet flow of water across the southern Everglades.

(b) Water conveyance projects to enable more water resources to reach Florida Bay to replenish marine estuary functions.

(c) Engineering design plans for wastewater treatment facilities as recommended in the Water Quality Protection Program Document for the Florida Keys National Marine Sanctuary.

(d) Acquisition of lands to move STA 3/4 out of the Toe of the Boot, provided such lands are located within 1 mile of the northern border of STA 3/4.

(e) Other Everglades Construction Projects as described in the February 15, 1994, conceptual design document.

(4) ~~The district may issue revenue bonds or notes under s. 373.584 and pledge the revenue from the transfers from the Alligator Alley toll revenues as security for such bonds or notes. The proceeds from such~~

~~revenue bonds or notes shall be used for environmental projects; at least 50 percent of said proceeds must be used for projects that benefit Florida Bay, as described in this section subject to resolutions approving such activity by the Board of Trustees of the Internal Improvement Trust Fund and the governing board of the South Florida Water Management District and the remaining proceeds must be used for restoration activities in the Everglades Protection Area.~~

339.175 Metropolitan planning organization.—

(2) DESIGNATION.—

(a)1. An M.P.O. shall be designated for each urbanized area of the state; however, this does not require that an individual M.P.O. be designated for each such area. ~~The M.P.O. Such~~ designation shall be accomplished by agreement between the Governor and units of general-purpose local government ~~that together represent representing~~ at least 75 percent of the population, ~~including the largest incorporated municipality, based on population, of the urbanized area; however, the unit of general-purpose local government that represents the central city or cities within the M.P.O. jurisdiction, as named defined by the United States Bureau of the Census, must be a party to such agreement.~~

2. To the extent possible, only one M.P.O. shall be designated for each urbanized area or group of contiguous urbanized areas. More than one M.P.O. may be designated within an existing urbanized area only if the Governor and the existing M.P.O. determine that the size and complexity of the existing urbanized area makes the designation of more than one M.P.O. for the area appropriate.

(b) Each M.P.O. designated in a manner prescribed by Title 23 of the United States Code shall be created and operated under the provisions of this section pursuant to an interlocal agreement entered into pursuant to s. 163.01. The signatories to the interlocal agreement shall be the department and the governmental entities designated by the Governor for membership on the M.P.O. Each M.P.O. shall be considered separate from the state or the governing body of a local government that is represented on the governing board of the M.P.O. or that is a signatory to the interlocal agreement creating the M.P.O. and shall have such powers and privileges that are provided under s. 163.01. If there is a conflict between this section and s. 163.01, this section prevails.

(c) The jurisdictional boundaries of an M.P.O. shall be determined by agreement between the Governor and the applicable M.P.O. The boundaries must include at least the metropolitan planning area, which is the existing urbanized area and the contiguous area expected to become urbanized within a 20-year forecast period, and may encompass the entire metropolitan statistical area or the consolidated metropolitan statistical area.

(d) In the case of an urbanized area designated as a nonattainment area for ozone or carbon monoxide under the Clean Air Act, 42 U.S.C. ss. 7401 et seq., the boundaries of the metropolitan planning area in existence as of the date of enactment of this paragraph shall be retained, except that the boundaries may be adjusted by agreement of the Governor and affected metropolitan planning organizations in the manner described in this section. If more than one M.P.O. has authority within a metropolitan area or an area that is designated as a nonattainment area, each M.P.O. shall consult with other M.P.O.'s designated for such area and with the state in the coordination of plans and programs required by this section.

(e) The governing body of the M.P.O. shall designate, at a minimum, a chair, vice chair, and agency clerk. The chair and vice chair shall be selected from among the member delegates comprising the governing board. The agency clerk shall be charged with the responsibility of preparing meeting minutes and maintaining agency records. The clerk shall be a member of the M.P.O. governing board, an employee of the M.P.O., or other natural person.

Each M.P.O. required under this section must be fully operative no later than 6 months following its designation.

(3) VOTING MEMBERSHIP.—

(a) The voting membership of an M.P.O. shall consist of not fewer than 5 or more than 19 apportioned members, the exact number to be determined on an equitable geographic-population ratio ~~basis by the Governor~~, based on an agreement among the affected units of general-purpose local government ~~and the Governor as required by federal rules and regulations. The voting membership of an M.P.O. that is re-designated after the effective date of this act as a result of the expansion of the M.P.O. to include a new urbanized area or the consolidation of two or more M.P.O.'s may consist of no more than 25 members.~~ The Governor, in accordance with 23 U.S.C. s. 134, may also provide for M.P.O. members who represent municipalities to alternate with representatives from other municipalities within the metropolitan planning area that do not have members on the M.P.O. County commission members shall compose not less than one-third of the M.P.O. membership, except for an M.P.O. with more than 15 members located in a county with a 5-member county commission or an M.P.O. with 19 members located in a county with no more than 6 county commissioners, in which case county commission members may compose less than one-third percent of the M.P.O. membership, but all county commissioners must be members. All voting members shall be elected officials of general-purpose local governments, except that an M.P.O. may include, as part of its apportioned voting members, a member of a statutorily authorized planning board, an official of an agency that operates or administers a major mode of transportation, or an official of Space Florida. As used in this section, the term "elected officials of a general-purpose local government" ~~excludes shall exclude~~ constitutional officers, including sheriffs, tax collectors, supervisors of elections, property appraisers, clerks of the court, and similar types of officials. County commissioners shall compose not less than 20 percent of the M.P.O. membership if an official of an agency that operates or administers a major mode of transportation has been appointed to an M.P.O.

(b) In metropolitan areas in which authorities or other agencies have been or may be created by law to perform transportation functions and are performing transportation functions that are not under the jurisdiction of a general-purpose local government represented on the M.P.O., they ~~may shall~~ be provided voting membership on the M.P.O. In all other M.P.O.'s where transportation authorities or agencies are to be represented by elected officials from general-purpose local governments, the M.P.O. shall establish a process by which the collective interests of such authorities or other agencies are expressed and conveyed.

(c) Any other provision of this section to the contrary notwithstanding, a chartered county with a population of more than ~~over~~ 1 million ~~population~~ may elect to reapportion the membership of an M.P.O. whose jurisdiction is wholly within the county. The charter county may exercise the provisions of this paragraph if:

1. The M.P.O. approves the reapportionment plan by a three-fourths vote of its membership;
2. The M.P.O. and the charter county determine that the reapportionment plan is needed to fulfill specific goals and policies applicable to that metropolitan planning area; and
3. The charter county determines the reapportionment plan otherwise complies with all federal requirements pertaining to M.P.O. membership.

A ~~Any~~ charter county that elects to exercise the provisions of this paragraph shall notify the Governor in writing.

(d) Any other provision of this section to the contrary notwithstanding, a ~~any~~ county chartered under s. 6(e), Art. VIII of the State Constitution may elect to have its county commission serve as the M.P.O., if the M.P.O. jurisdiction is wholly contained within the county. A ~~Any~~ charter county that elects to exercise the provisions of this paragraph shall so notify the Governor in writing. Upon receipt of ~~the such~~ notification, the Governor must designate the county commission as the M.P.O. The Governor must appoint four additional voting members to the M.P.O., one of whom must be an elected official representing a municipality within the county, one of whom must be an expressway authority member, one of whom must be a person who does not hold elected public office and who resides in the unincorporated portion of the county, and one of whom must be a school board member.

#### (4) APPORTIONMENT.—

(a) ~~Each M.P.O. in the state shall review the composition of its membership in conjunction with the decennial census, as prepared by the United States Department of Commerce, Bureau of the Census, and, with the agreement of the affected units of general-purpose local government and the Governor, reapportion the membership as necessary to comply with subsection (3). The Governor shall, with the agreement of the affected units of general-purpose local government as required by federal rules and regulations, apportion the membership on the applicable M.P.O. among the various governmental entities within the area.~~

(b) At the request of a majority of the affected units of general-purpose local government comprising an M.P.O., the Governor and a majority of units of general-purpose local government serving on an M.P.O. shall cooperatively agree upon and prescribe who may serve as an alternate member and a method for appointing alternate members who may vote at any M.P.O. meeting that an alternate member attends in place of a regular member. The method ~~must shall~~ be set forth as a part of the interlocal agreement describing the M.P.O.'s membership or in the M.P.O.'s operating procedures and bylaws. The governmental entity so designated shall appoint the appropriate number of members to the M.P.O. from eligible officials. Representatives of the department shall serve as nonvoting advisers to the M.P.O. governing board. Additional nonvoting advisers may be appointed by the M.P.O. as deemed necessary; however, to the maximum extent feasible, each M.P.O. shall seek to appoint nonvoting representatives of various multimodal forms of transportation not otherwise represented by voting members of the M.P.O. An M.P.O. shall appoint nonvoting advisers representing major military installations located within the jurisdictional boundaries of the M.P.O. upon the request of the aforesaid major military installations and subject to the agreement of the M.P.O. All nonvoting advisers may attend and participate fully in governing board meetings but may not vote or be members of the governing board. ~~The Governor shall review the composition of the M.P.O. membership in conjunction with the decennial census as prepared by the United States Department of Commerce, Bureau of the Census, and reapportion it as necessary to comply with subsection (3).~~

(c)~~(b)~~ Except for members who represent municipalities on the basis of alternating with representatives from other municipalities that do not have members on the M.P.O. as provided in paragraph (3)(a), the members of an M.P.O. shall serve 4-year terms. Members who represent municipalities on the basis of alternating with representatives from other municipalities that do not have members on the M.P.O. as provided in paragraph (3)(a) may serve terms of up to 4 years as further provided in the interlocal agreement described in paragraph (2)(b). The membership of a member who is a public official automatically terminates upon the member's leaving his or her elective or appointive office for any reason, or may be terminated by a majority vote of the total membership of the entity's governing board represented by the member. A vacancy shall be filled by the original appointing entity. A member may be reapportioned for one or more additional 4-year terms.

(d)~~(c)~~ If a governmental entity fails to fill an assigned appointment to an M.P.O. within 60 days after notification by the Governor of its duty to appoint, that appointment ~~must shall~~ be made by the Governor from the eligible representatives of that governmental entity.

Section 23. Paragraph (a) of subsection (1) and subsections (4) and (5) of section 339.2821, Florida Statutes, are amended to read:

Such loans:

b. Require application from the recipient to the department that includes documentation of damage claims filed with the Federal Emergency Management Agency or an applicable insurance carrier and documentation of the recipient's overall financial condition.

c. Are subject to approval by the Secretary of Transportation and the Legislative Budget Commission.

2. Loans provided under this paragraph must be repaid upon receipt by the recipient of eligible program funding for damages in accordance with the claims filed with the Federal Emergency Management Agency or an applicable insurance carrier, but no later than the duration of the loan.

(7) The department may consider, but is not limited to, the following criteria for evaluation of projects for assistance from the bank:

(i) The extent to which the project will provide for connectivity between the State Highway System and airports, seaports, *spaceports*, rail facilities, and other transportation terminals and intermodal options pursuant to s. 341.053 for the increased accessibility and movement of people and goods.

(11) "Intercity bus service" means regularly scheduled bus service for the general public which operates with limited stops over fixed routes connecting two or more urban areas not in close proximity; has the capacity for transporting baggage carried by passengers; and makes meaningful connections with scheduled intercity bus service to more

distant points, if such service is available; ~~maintains scheduled information in the National Official Bus Guide; and provides package express service incidental to passenger transportation.~~

Section 46. Subsection (3) of section 341.052, Florida Statutes, is amended to read:

(a) State participation in eligible capital projects shall be limited to 50 percent of the nonfederal share of such project costs.

(b) State participation in eligible public transit operating costs may not exceed 50 percent of such costs or an amount equal to the total revenue, excluding farebox, charter, and advertising revenue and federal funds, received by the provider for operating costs, whichever amount is less.

(c) No eligible public transit provider shall use public transit block grant funds to supplant local tax revenues made available to such provider for operations in the previous year; however, the Secretary of Transportation may waive this provision for public transit providers located in a county recovering from a state of emergency declared pursuant to part I of chapter 252.

(d) *Notwithstanding any law to the contrary, no eligible public transit provider or a person acting on behalf of a public transit provider shall use public transit block grant funds for a political advertisement or electioneering communication concerning an issue, referendum, or amendment, including any state question, that is subject to a vote of the electors. Section 47. Section 341.053, Florida Statutes, is amended to read:

341.053 Intermodal Development Program; administration; eligible projects; limitations.—

(1) There is created within the Department of Transportation an Intermodal Development Program to provide for major capital investments in fixed-guideway transportation systems, access to seaports, airports, *spaceports*, and other transportation terminals, providing for the construction of intermodal or multimodal terminals; and to *plan or fund construction of airport, spaceport, seaport, transit, and rail projects that otherwise* facilitate the intermodal or multimodal movement of people and goods.

(2) *The Intermodal Development Program shall be used for projects that support statewide goals as outlined in the Florida Transportation Plan, the Strategic Intermodal System Plan, the Freight Mobility and Trade Plan, or the appropriate department modal plan. In recognition of the department's role in the economic development of this state, the department shall develop a proposed intermodal development plan to connect Florida's airports, deepwater seaports, rail systems serving both passenger and freight, and major intermodal connectors to the Strategic Intermodal System highway corridors as the primary system for the movement of people and freight in this state in order to make the intermodal development plan a fully integrated and interconnected system. The intermodal development plan must:*

(a) ~~Define and assess the state's freight intermodal network, including airports, seaports, rail lines and terminals, intercity bus lines and terminals, and connecting highways.~~

(b) ~~Prioritize statewide infrastructure investments, including the acceleration of current projects, which are found by the Freight Stakeholders Task Force to be priority projects for the efficient movement of people and freight.~~

(c) ~~Be developed in a manner that will assure maximum use of existing facilities and optimum integration and coordination of the various modes of transportation, including both government owned and privately owned resources, in the most cost effective manner possible.~~

In determining the distribution of funds under the Intermodal Development Program in any fiscal year, the department shall assume that future appropriation levels will be equal to the current appropriation level.~~

(6) ~~The department may is authorized to~~ fund projects within the Intermodal Development Program, which are consistent, to the maximum extent feasible, with approved local government comprehensive plans of the units of local government in which the project is located. Projects that are eligible for funding under this program include *planning studies*, major capital investments in public rail and fixed-guideway transportation or *freight* facilities and systems which provide intermodal access; road, rail, intercity bus service, or fixed-guideway access to, from, or between seaports, airports, *spaceports*, *intermodal logistics centers*, and other transportation terminals; construction of intermodal or multimodal terminals, *including projects on airports, spaceports, intermodal logistics centers, or seaports which assist in the movement or transfer of people or goods*; development and construction of dedicated bus lanes; and projects which otherwise facilitate the intermodal or multimodal movement of people and goods.

The enterprise may adopt rules to administer such permits, including rules regarding the form, content, and necessary supporting documentation for permit applications; the process for submitting applications; and the application fee for a permit under s. 341.825. The enterprise shall provide a copy of a completed permit application to municipalities and counties where the high-speed rail system will be located. The enterprise shall allow each such municipality and county 30 days to provide comments to the enterprise regarding the application, including any recommendations regarding conditions that may be placed on the permit.

Section 50. Section 341.825, Florida Statutes, is created to read:

(2) **APPLICATION SUBMISSION.**—A railroad company may submit to the enterprise an application to obtain a permit to construct communication facilities within a new or existing high-speed rail system. The application shall include an application fee limited to the amount needed to pay the anticipated cost of reviewing the application, not to exceed \$10,000, which shall be deposited into the State Transportation Trust Fund. The application must include the following information:

(a) The location of the proposed communication facilities.

(b) A description of the proposed communication facilities.

(c) Any other information reasonably required by the enterprise.

(3) **APPLICATION REVIEW.**—The enterprise shall review each application for completeness within 30 days after receipt of the application.

Authority projects that are not transportation oriented and meet the definition of development pursuant to s. 380.04 shall be consistent with the local comprehensive plans. In carrying out its purposes and powers, the authority may request funding and technical assistance from the department and appropriate federal and local agencies, including, but not limited to, state infrastructure bank loans; ~~advances from the Toll Facilities Revolving Trust Fund;~~ and funding and technical assistance from any other source.

Section 53. Section 348.53, Florida Statutes, is amended to read:

Section 56. Section 373.4137, Florida Statutes, is amended to read:

373.4137 Mitigation requirements for specified transportation projects.—

(1) The Legislature finds that environmental mitigation for the impact of transportation projects proposed by the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 can be more effectively achieved by regional, long-range mitigation planning rather than on a project-by-project basis. It is

the intent of the Legislature that mitigation to offset the adverse effects of these transportation projects be funded by the Department of Transportation and be carried out by the use of mitigation banks and any other mitigation options that satisfy state and federal requirements *in a manner that promotes efficiency, timeliness in project delivery, and cost-effectiveness.*

(2) Environmental impact inventories for transportation projects proposed by the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 shall be developed as follows:

(a) By July 1 of each year, the Department of Transportation, or a transportation authority established pursuant to chapter 348 or chapter 349 which chooses to participate in the program, shall submit to the water management districts a list of its projects in the adopted work program and an environmental impact inventory of *habitat impacts and the anticipated amount of mitigation needed to offset impacts as described in paragraph (b). The environmental impact inventory must be based on habitats addressed in the rules adopted pursuant to this part, and s. 404 of the Clean Water Act, 33 U.S.C. s. 1344, and which may be impacted by the Department of Transportation's* its plan of construction for transportation projects in the next 3 years of the tentative work program. The Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 may also include in its environmental impact inventory the habitat impacts *and the anticipated amount of mitigation needed for* of any future transportation project. The Department of Transportation and each transportation authority established pursuant to chapter 348 or chapter 349 may fund any mitigation activities for future projects using current year funds.

(b) The environmental impact inventory *must* ~~shall~~ include a description of ~~these~~ habitat impacts, including their location, acreage, and type; *the anticipated amount of mitigation needed based on the functional loss as determined through the Uniform Mitigation Assessment Method (UMAM) adopted in Chapter 62-345, F.A.C.; identification of the proposed mitigation option;* state water quality classification of impacted wetlands and other surface waters; any other state or regional designations for these habitats; and a list of threatened species, endangered species, and species of special concern affected by the proposed project.

(c) *Before projects are identified for inclusion in a water management district mitigation plan as described in subsection (4), the Department of Transportation must consider using credits from a permitted mitigation bank. The Department of Transportation must consider availability of suitable and sufficient mitigation bank credits within the transportation project's area, ability to satisfy commitments to regulatory and resource agencies, availability of suitable and sufficient mitigation purchased or developed through this section, ability to complete existing water management district or Department of Environmental Protection suitable mitigation sites initiated with Department of Transportation mitigation funds, and ability to satisfy state and federal requirements including long-term maintenance and liability.*

(3)(a) ~~To implement the mitigation option fund development and implementation of the mitigation plan for the projected impacts identified in the environmental impact inventory described in subsection (2), the Department of Transportation may purchase credits for current and future use directly from a mitigation bank; purchase mitigation services through the water management districts or the Department of Environmental Protection; conduct its own mitigation; or use other mitigation options that meet state and federal requirements. *shall identify funds quarterly in an escrow account within the State Transportation Trust Fund for the environmental mitigation phase of projects budgeted by Funding for the identified mitigation option as described in the environmental impact inventory must be included in the Department of Transportation's work program developed pursuant to s. 339.135 for the current fiscal year. The escrow account shall be maintained by the Department of Transportation for the benefit of the water management districts. Any interest earnings from the escrow account shall remain with the Department of Transportation. The amount programmed each year by the Department of Transportation and participating transportation authorities established pursuant to chapter 348 or chapter 349 must correspond to an estimated cost per credit of \$150,000 multiplied by the projected number of credits identified in the environmental impact inventory described in subsection (2). This estimated cost per credit will be adjusted every 2 years by the Department of Transportation based on the average cost per UMAM credit paid through this section.*~~

(b) Each transportation authority established pursuant to chapter 348 or chapter 349 that chooses to participate in this program shall create an escrow account within its financial structure and deposit funds in the account to pay for the environmental mitigation phase of projects budgeted for the current fiscal year. The escrow account shall be maintained by the authority for the benefit of the water management districts. Any interest earnings from the escrow account shall remain with the authority.

(c) *For mitigation implemented by the water management district or the Department of Environmental Protection, as appropriate, the amount paid each year must be based on mitigation services provided by the water management districts or Department of Environmental Protection pursuant to an approved water management district plan, as described in subsection (4). Except for current mitigation projects in the monitoring and maintenance phase and except as allowed by paragraph (d), the water management districts or the Department of Environmental Protection, as appropriate, may request payment a transfer of funds from an escrow account no sooner than 30 days before the date the funds are needed to pay for activities associated with development or implementation of the permitted mitigation meeting the requirements pursuant to this part, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332, in the approved mitigation plan described in subsection (4) for the current fiscal year, including, but not limited to, design, engineering, production, and staff support. Actual conceptual plan preparation costs incurred before plan approval may be submitted to the Department of Transportation or the appropriate transportation authority each year with the plan. The conceptual plan preparation costs of each water management district will be paid from mitigation funds associated with the environmental impact inventory for the current year. The amount transferred to the escrow accounts each year by the Department of Transportation and participating transportation authorities established pursuant to chapter 348 or chapter 349 shall correspond to a cost per acre of \$75,000 multiplied by the projected acres of impact identified in the environmental impact inventory described in subsection (2). However, the \$75,000 cost per acre does not constitute an admission against interest by the state or its subdivisions and is not admissible as evidence of full compensation for any property acquired by eminent domain or through inverse condemnation. Each July 1, the cost per acre shall be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996. Each quarter, the projected amount of mitigation must acreage of impact shall be reconciled with the actual amount of mitigation needed for acreage of impact of projects as permitted, including permit modifications, pursuant to this part and s. 404 of the Clean Water Act, 33 U.S.C. s. 1344. The subject year's programming transfer of funds shall be adjusted accordingly to reflect the mitigation acreage of impacts as permitted. The Department of Transportation and participating transportation authorities established pursuant to chapter 348 or chapter 349 are authorized to transfer such funds from the escrow accounts to the water management districts to carry out the mitigation programs. Environmental mitigation funds that are identified for or maintained in an escrow account for the benefit of a water management district may be released if the associated transportation project is excluded in whole or part from the mitigation plan. For a mitigation project that is in the maintenance and monitoring phase, the water management district may request and receive a one time payment based on the project's expected future maintenance and monitoring costs. If the water management district excludes a project from an approved water management district mitigation plan, cannot timely permit a mitigation site to offset the impacts of a Department of Transportation project identified in the environmental impact inventory, or if the proposed mitigation does not meet state and federal requirements, the Department of Transportation may use the associated funds for the purchase of mitigation bank credits or any other mitigation option that satisfies state and federal requirements. Upon final disbursement of the final maintenance and monitoring payment for mitigation of a transportation project as permitted, the obligation of the Department of Transportation or the participating transportation authority is satisfied and the water management district or the Department of Environmental Protection, as appropriate, will have continuing responsibility for the mitigation project, the escrow account for the project established by the Department of Transportation or the participating transportation authority may be closed. Any interest earned on these disbursed funds shall remain with the water management district and must be used as authorized under this section.*

(d) *Beginning with the March 2014 water management district mitigation plans, in the 2005-2006 fiscal year, each water management district or the Department of Environmental Protection, as appropriate, shall invoice the Department of Transportation for mitigation services to offset only the impacts of a Department of Transportation project identified in the environmental impact inventory, including planning, design, construction, maintenance and monitoring, and other costs necessary to meet requirements pursuant to this section, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332 be paid a lump sum amount of \$75,000 per acre, adjusted as provided under paragraph (c), for federally funded transportation projects that are included on the environmental impact inventory and that have an approved mitigation plan. Beginning in the 2009-2010 fiscal year, each water management district shall be paid a lump sum amount of \$75,000 per acre, adjusted as provided under paragraph (c), for federally funded and nonfederally funded transportation projects that have an approved mitigation plan. All mitigation costs, including, but not limited to, the costs of preparing conceptual plans and the costs of design, construction, staff support, future maintenance, and monitoring the mitigated acres shall be funded through these lump sum amounts. If the water management district identifies the use of mitigation bank credits to offset a Department of Transportation impact, the water management district shall exclude that purchase from the mitigation plan, and the Department of Transportation must purchase the bank credits.*

(e) *For mitigation activities occurring on existing water management district or Department of Environmental Protection mitigation sites initiated with Department of Transportation mitigation funds before July 1, 2013, the water management district or Department of Environmental Protection shall invoice the Department of Transportation or a participating transportation authority at a cost per acre of \$75,000 multiplied by the projected acres of impact as identified in the environmental impact inventory. The cost per acre must be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996. When implementing the mitigation activities necessary to offset the permitted impacts as provided in the approved mitigation plan, the water management district shall maintain records of the costs incurred in implementing the mitigation. The records must include, but are not limited to, costs for planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332.*

(f) *For purposes of preparing and implementing the mitigation plans to be adopted by the water management districts on or before March 1, 2013, for impacts based on the July 1, 2012, environmental impact inventory, the funds identified in the Department of Transportation's work program or participating transportation authorities' escrow accounts must correspond to a cost per acre of \$75,000 multiplied by the project acres of impact as identified in the environmental impact inventory. The cost per acre shall be adjusted by the percentage change in the average of the Consumer Price Index issued by the United States Department of Labor for the most recent 12-month period ending September 30, compared to the base year average, which is the average for the 12-month period ending September 30, 1996. Payment as provided under this paragraph is limited to those mitigation activities that are identified in the first year of the 2013 mitigation plan and for which the transportation project is permitted and is in the Department of Transportation's adopted work program, or equivalent for a transportation authority. When implementing the mitigation activities necessary to offset the permitted impacts as provided in the approved mitigation plan, the water management district shall maintain records of the costs incurred in implementing the mitigation. The records must include, but are not limited to, costs for planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. To the extent moneys paid to a water management district by the Department of Transportation or a participating transportation authority exceed the amount expended by the water management districts in implementing the mitigation to offset the permitted impacts, these funds must be refunded to the Department of Transportation or participating transportation authority. This paragraph expires June 30, 2014.*

(4) *Before March 1 of each year, each water management district shall develop a mitigation plan to offset only the impacts of transportation projects in the environmental impact inventory for which a water man-*

agement district is implementing mitigation that meets the requirements of this section, 33 U.S.C. s. 1344, and 33 C.F.R. s. 332. The water management-district mitigation plan must be developed, in consultation with the Department of Environmental Protection, the United States Army Corps of Engineers, the Department of Transportation, participating transportation authorities established pursuant to chapter 348 or chapter 349, and other appropriate federal, state, and local governments, and other interested parties, including entities operating mitigation banks, shall develop a plan for the primary purpose of complying with the mitigation requirements adopted pursuant to this part and 33 U.S.C. s. 1344. In developing such plans, the water management districts shall use sound ecosystem management practices to address significant water resource needs and consider ~~shall focus on~~ activities of the Department of Environmental Protection and the water management districts, such as surface water improvement and management (SWIM) projects and lands identified for potential acquisition for preservation, restoration, or enhancement, and the control of invasive and exotic plants in wetlands and other surface waters, to the extent that the activities comply with the mitigation requirements adopted under this part, and 33 U.S.C. s. 1344, and 33 C.F.R. s. 332. The water management district mitigation plan must identify each site where the water management district will mitigate for a transportation project. For each mitigation site, the water management district shall provide the scope of the mitigation services, provide the functional gain as determined through the UMAM per Chapter 62-345, F.A.C., describe how the mitigation offsets the impacts of each transportation project as permitted, and provide a schedule for the mitigation services. The water management districts shall maintain records of costs incurred and payments received for providing these services. Records must include, but are not limited to, planning, land acquisition, design, construction, staff support, long-term maintenance and monitoring of the mitigation site, and other costs necessary to meet the requirements of 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. To the extent monies paid to a water management district by the Department of Transportation or a participating transportation authority exceed the amount expended by the water management districts in providing the mitigation services to offset the permitted transportation project impacts, these monies must be refunded to the Department of Transportation or participating transportation authority. ~~In determining the activities to be included in the plans, the districts shall consider the purchase of credits from public or private mitigation banks permitted under s. 373.4136 and associated federal authorization and shall include the purchase as a part of the mitigation plan when the purchase would offset the impact of the transportation project, provide equal benefits to the water resources than other mitigation options being considered, and provide the most cost effective mitigation option.~~ The mitigation plan shall be submitted to the water management district governing board, or its designee, for review and approval. At least 14 days before approval by the governing board, the water management district shall provide a copy of the draft mitigation plan to the Department of Environmental Protection and any person who has requested a copy. Subsequent to governing board approval, the mitigation plan must be submitted to the Department of Environmental Protection for approval. The plan may not be implemented until it is submitted to and approved, in part or in its entirety, by the Department of Environmental Protection.

~~(a) For each transportation project with a funding request for the next fiscal year, the mitigation plan must include a brief explanation of why a mitigation bank was or was not chosen as a mitigation option, including an estimation of identifiable costs of the mitigation bank and nonbank options and other factors such as time saved, liability for success of the mitigation, and long term maintenance.~~

~~(a)(b)~~ Specific projects may be excluded from the mitigation plan, in whole or in part, and are not subject to this section upon the election of the Department of Transportation, a transportation authority if applicable, or the appropriate water management district. The Department of Transportation or a participating transportation authority may not exclude a transportation project from the mitigation plan when mitigation is scheduled for implementation by the water management district in the current fiscal year, except when the transportation project is removed from the Department of Transportation's work program or transportation authority funding plan, the mitigation cannot be timely permitted to offset the impacts of a Department of Transportation project identified in the environmental impact inventory, or the proposed mitigation does not meet state and federal requirements. If a project is removed from the work program or the mitigation plan, costs expended by the water management

district prior to removal are eligible for reimbursement by the Department of Transportation or participating transportation authority.

~~(b)(c)~~ When determining which projects to include in or exclude from the mitigation plan, the Department of Transportation shall investigate using credits from a permitted mitigation bank before those projects are submitted for inclusion in a water management district mitigation plan. ~~The investigation shall consider the cost-effectiveness of mitigation bank credits, including, but not limited to, factors such as time saved, transfer of liability for success of the mitigation, and long term maintenance.~~ The Department of Transportation shall exclude a project from the mitigation plan if the investigation undertaken pursuant to this paragraph results in the conclusion that the use of credits from a permitted mitigation bank promotes efficiency, timeliness in project delivery, cost-effectiveness, and transfer of liability for success and long-term maintenance.

(5) The water management district shall ensure that mitigation requirements pursuant to 33 U.S.C. s. 1344 and 33 C.F.R. s. 332 are met for the impacts identified in the environmental impact inventory for which the water management district will implement mitigation described in subsection (2), by implementation of the approved mitigation plan described in subsection (4) to the extent funding is provided by the Department of Transportation, or a transportation authority established pursuant to chapter 348 or chapter 349, if applicable. In developing and implementing the mitigation plan, the water management district shall comply with federal permitting requirements pursuant to 33 U.S.C. s. 1344 and 33 C.F.R. s. 332. During the federal permitting process, the water management district may deviate from the approved mitigation plan in order to comply with federal permitting requirements upon notice and coordination with the Department of Transportation or participating transportation authority.

(6) The water management district mitigation plans shall be updated annually to reflect the most current Department of Transportation work program and project list of a transportation authority established pursuant to chapter 348 or chapter 349, if applicable, and may be amended throughout the year to anticipate schedule changes or additional projects which may arise. Before amending the mitigation plan to include new projects, the Department of Transportation shall consider mitigation banks and other available mitigation options that meet state and federal requirements. Each update and amendment of the mitigation plan shall be submitted to the governing board of the water management district or its designee for approval. However, such approval shall not be applicable to a deviation as described in subsection (5).

(7) Upon approval by the governing board of the water management district and the Department of Environmental Protection ~~or its designee~~, the mitigation plan shall be deemed to satisfy the mitigation requirements under this part for impacts specifically identified in the environmental impact inventory described in subsection (2) and any other mitigation requirements imposed by local, regional, and state agencies for these same impacts. The approval of the governing board of the water management district ~~or its designee~~ and the Department of Environmental Protection shall authorize the activities proposed in the mitigation plan, and no other state, regional, or local permit or approval shall be necessary.

(8) This section shall not be construed to eliminate the need for the Department of Transportation or a transportation authority established pursuant to chapter 348 or chapter 349 to comply with the requirement to implement practicable design modifications, including realignment of transportation projects, to reduce or eliminate the impacts of its transportation projects on wetlands and other surface waters as required by rules adopted pursuant to this part, or to diminish the authority under this part to regulate other impacts, including water quantity or water quality impacts, or impacts regulated under this part that are not identified in the environmental impact inventory described in subsection (2).

~~(9) The process for environmental mitigation for the impact of transportation projects under this section shall be available to an expressway, bridge, or transportation authority established under chapter 348 or chapter 349. Use of this process may be initiated by an authority depositing the requisite funds into an escrow account set up by the authority and filing an environmental impact inventory with the appropriate water management district. If the sign is not removed within 30 days, the department may remove the sign, and the costs incurred in connection with the sign removal shall be assessed against and collected from the sign owner.

Section 59. On or before August 31, 2013, each municipality and county that receives revenue from any parking meters or other parking time-limit devices that regulate designated parking spaces located within or along the right-of-way limits of a state road shall provide the commission a written inventory of the location of each such meter or device and the total revenue collected from such locations during the last 3 fiscal years. Each municipality and county shall at the same time inform the commission of any pledge or commitment by the municipality or county of such revenues to the payment of debt service on any bonds or other debt issued by the municipality or county. The commission shall consider the information provided by the municipalities and counties, together with such other matters as it deems appropriate, including, but not limited to, the use of variable rate parking, and shall develop policy recommendations regarding the manner and extent that revenues generated by regulating parking within the right-of-way limits of a state road may be allocated between the department and municipalities and counties. The commission shall develop specific recommendations concerning the allocation of revenues generated by meters or devices regulating such parking that were installed before July 1, 2013, and the allocation of revenues that may be generated by meters or devices installed after that date. The commission shall complete the study and provide a written report of its findings and conclusions to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairs of each of the appropriations committees of the Legislature by October 31, 2013.

(2) If, by August 31, 2013, a municipality or county does not provide the information requested by the commission, the department is authorized to remove the parking meters or parking time-limit devices that regulate designated parking spaces located within or along the right-of-

way limits of a state road, and all costs incurred in connection with the removal shall be assessed against and collected from the municipality or county.

(3) The Legislature finds that preservation of the status quo pending the commission's study and the Legislature's review of the commission's report is appropriate and desirable. From July 1, 2013, through July 1, 2014, a county or municipality may not install any parking meters or other parking time-limit devices that regulate designated parking spaces located within or along the right-of-way limits of a state road. This subsection does not prohibit the replacement of meters or similar devices installed before July 1, 2013, with new devices that regulate the same designated parking spaces.

2. After the distribution under subparagraph 1., 8.814 percent of the amount remitted by a sales tax dealer located within a participating county pursuant to s. 218.61 ~~must~~ be transferred into the Local Government Half-cent Sales Tax Clearing Trust Fund. Beginning July 1, 2003, the amount to be transferred ~~must~~ be reduced by 0.1 percent, and the department shall distribute this amount to the Public Employees Relations Commission Trust Fund less \$5,000 each month, which ~~must~~ be added to the amount calculated in subparagraph 3. and distributed accordingly.

3. After the distribution under subparagraphs 1. and 2., 0.095 percent ~~must~~ be transferred to the Local Government Half-cent Sales Tax Clearing Trust Fund and distributed pursuant to s. 218.65.

If a local or special law required that any moneys accruing to a county in fiscal year 1999-2000 under the then-existing provisions of s. 550.135 be paid directly to the district school board, special district, or a municipal government, such payment must continue until the local or special law is amended or repealed. The state covenants with holders of bonds or other instruments of indebtedness issued by local governments, special districts, or district school boards before July 1, 2000, that it is not the intent of this subparagraph to adversely affect the rights of those holders or relieve local governments, special districts, or district school boards of the duty to meet their obligations as a result of previous pledges or assignments or trusts entered into which obligated funds received from the distribution to county governments under then-existing s. 550.135. If the applicant is a beneficiary, the beneficiary must enter into an agreement with the department. The applicant's or beneficiary's agreement must also require the following:

The department shall summarize this information for inclusion in the report to the Legislature due February 1 under paragraph (4)(d).*

(b) *Every 5 years following the first month that an applicant receives a monthly distribution, the department must verify that the applicant is meeting the program requirements. If the applicant is not meeting program requirements, the department must notify the Governor and Legislature of the requirements not being met and must recommend future action as part of the report to the Legislature due February 1 pursuant to paragraph (4)(d). (b) *Implementation of corrective measures approved by the department which enable a system to conform to the standards and ensure the timeliness and accuracy of the casting and counting of ballots constitutes a cure of a defect.*

(5) *If after receiving a response from the vendor, the department determines that a defect does not exist or has been cured within the timeframe established by the department, the department shall take no further action.*

(6) *If the department determines that: a vendor failed to timely disclose a defect; or that a defect exists and a vendor has not filed a written response or has failed to cure within the timeframe established by the department, or if the defect cannot be cured, the department shall impose a civil penalty of \$25,000 for the defect plus an amount equal to the actual costs incurred by the department in conducting the investigation.*

(7) *If the department finds that a defect existed:*

(b) *If the department determines that a defect no longer exists in a voting system that has been suspended from use pursuant to paragraph (a), the department shall lift the suspension and authorize the sale, lease, and use of the voting system in any election in the state. The department shall provide written notice that the suspension has been lifted to each affected vendor and supervisor of elections.*

(c) *If the defect cannot be cured, the department may disapprove the voting system for use in elections in the state. The department shall provide written notice to all supervisors of elections that the system is no longer approved. After approval of a system has been withdrawn pursuant to this paragraph, the system may not be sold, leased, or used in elections in the state until it has been submitted for examination and approval and adopted for use pursuant to s. 101.5605.*

(d) *Any vendor against whom a civil penalty was imposed under this section may not submit a voting system for approval by the Department of State in accordance with s. 101.5605 or enter into a contract for sale or lease of a voting system in the state until the civil penalties have been paid*

If 1 percent of the precincts is less than one entire precinct, the audit shall be conducted using at least one precinct chosen at random by the county canvassing board or the local board responsible for certifying the election. Such precincts shall be selected at a publicly noticed canvassing board meeting.

(b) ~~An automated audit shall consist of a public automated tally of the votes cast across every race that appears on the ballot. The tally sheet shall include election day, absentee, early voting, provisional, and overseas ballots in at least 20 percent of the precincts chosen at random by the county canvassing board or the local board responsible for certifying the election. Section 11. Subsections (1) and (3) and paragraph (c) of subsection (4) of section 101.62, Florida Statutes, are amended to read:

101.62 Request for absentee ballots.—

(1)(a) The supervisor shall accept a request for an absentee ballot from an elector in person or in writing. One request shall be deemed sufficient to receive an absentee ballot for all elections through the end of the calendar year of the second ensuing regularly scheduled general election, unless the elector or the elector's designee indicates at the time the request is made the elections for which the elector desires to receive an absentee ballot. Such request may be considered canceled when any first-class mail sent by the supervisor to the elector is returned as undeliverable.

(b) The supervisor may accept a written or telephonic request for an absentee ballot to be mailed to an elector's address on file in the Florida Voter Registration System from the elector, or, if directly instructed by the elector, a member of the elector's immediate family, or the elector's legal guardian; if the ballot is requested to be mailed to an address other than the elector's address on file in the Florida Voter Registration System, the request must be made in writing and signed by the elector. However, an absent uniformed service voter or an overseas voter seeking an absentee ballot is not required to submit a signed, written request for an absentee ballot that is being mailed to an address other than the elector's address on file in the Florida Voter Registration System. For purposes of this section, the term "immediate family" has the same meaning as specified in paragraph (4)(c). The person making the request must disclose:

1. The name of the elector for whom the ballot is requested.
2. The elector's address.
3. The elector's date of birth.
4. The requester's name.
5. The requester's address.
6. The requester's driver's license number, if available.
7. The requester's relationship to the elector.
8. The requester's signature (written requests only).

(c) Upon receiving a request for an absentee ballot from an absent voter, the supervisor of elections shall notify the voter of the free access system that has been designated by the department for determining the status of his or her absentee ballot.

(3) For each request for an absentee ballot received, the supervisor shall record the date the request was made, the date the absentee ballot was delivered to the voter or the voter's designee or the date the absentee ballot was delivered to the post office or other carrier, the date the ballot was received by the supervisor, the absence of the voter's signature on the voter's certificate, if applicable, and such other information he or she may deem necessary. This information shall be provided in electronic format as provided by rule adopted by the division. The information shall be updated and made available no later than 8 a.m. of each day, including weekends, beginning 60 days before the primary until 15 days after the general election and shall be contemporaneously provided to the division. This information shall be confidential and exempt from the provisions of s. 119.07(1) and shall be made available to or reproduced only for the voter requesting the ballot, a canvassing board, an election official, a political party or official thereof, a candidate who has filed qualification papers and is opposed in an upcoming election, and registered political committees or registered committees of continuous existence, for political purposes only.

(4)

(c) The supervisor shall provide an absentee ballot to each elector by whom a request for that ballot has been made by one of the following means:

1. By nonforwardable, return-if-undeliverable mail to the elector's current mailing address on file with the supervisor or any other address the elector specifies in the request.

2. By forwardable mail, e-mail, or facsimile machine transmission to absent uniformed services voters and overseas voters. The absent uniformed services voter or overseas voter may designate in the absentee ballot request the preferred method of transmission. If the voter does not designate the method of transmission, the absentee ballot shall be mailed.

3. By personal delivery before 7 p.m. on election day to the elector, upon presentation of the identification required in s. 101.043.

4. By delivery to a designee on election day or up to 5 days prior to the day of an election. Any elector may designate in writing a person to pick up the ballot for the elector; however, the person designated may not pick up more than two absentee ballots per election, other than the designee's own ballot, except that additional ballots may be picked up for members of the designee's immediate family. For purposes of this section, "immediate family" means the designee's spouse or the parent, child, grandparent, or sibling of the designee or of the designee's spouse. The designee shall provide to the supervisor the written authorization by the elector and a picture identification of the designee and must complete an affidavit. The designee shall state in the affidavit that the designee is authorized by the elector to pick up that ballot and shall indicate if the elector is a member of the designee's immediate family and, if so, the relationship. The department shall prescribe the form of the affidavit. If the supervisor is satisfied that the designee is authorized to pick up the ballot and that the signature of the elector on the written authorization matches the signature of the elector on file, the supervisor shall give the ballot to that designee for delivery to the elector.

5. *Except as provided in s. 101.655, the supervisor may not deliver an absentee ballot to an elector or an elector's immediate family member on the day of the election unless there is an emergency, to the extent that the elector will be unable to go to his or her assigned polling place. If an absentee ballot is delivered, the elector or his or her designee shall execute an affidavit affirming to the facts which allow for delivery of the absentee ballot. The department shall adopt a rule providing for the form of the affidavit.*

Section 12. Section 101.65, Florida Statutes, is amended to read:

101.65 Instructions to absent electors.—The supervisor shall enclose with each absentee ballot separate printed instructions in substantially the following form:

**READ THESE INSTRUCTIONS CAREFULLY BEFORE MARKING BALLOT.**

1. **VERY IMPORTANT.** In order to ensure that your absentee ballot will be counted, it should be completed and returned as soon as possible so that it can reach the supervisor of elections of the county in which your precinct is located no later than 7 p.m. on the day of the election. *However, if you are an overseas voter casting a ballot in a presidential preference primary or general election, your absentee ballot must be postmarked or dated no later than the date of the election and received by the supervisor of elections of the county in which you are registered to vote no later than 10 days after the date of the election.*

2. Mark your ballot in secret as instructed on the ballot. You must mark your own ballot unless you are unable to do so because of blindness, disability, or inability to read or write.

3. Mark only the number of candidates or issue choices for a race as indicated on the ballot. If you are allowed to "Vote for One" candidate and you vote for more than one candidate, your vote in that race will not be counted.

4. Place your marked ballot in the enclosed secrecy envelope.

5. Insert the secrecy envelope into the enclosed mailing envelope which is addressed to the supervisor.

6. Seal the mailing envelope and completely fill out the Voter's Certificate on the back of the mailing envelope.

7. **VERY IMPORTANT.** In order for your absentee ballot to be counted, you must sign your name on the line above (Voter's Signature). An absentee ballot will be considered illegal and not be counted if the signature on the voter's certificate does not match the signature on record. The signature on file at the start of the canvass of the absentee ballots is the signature that will be used to verify your signature on the voter's certificate. If you need to update your signature for this election, send your signature update on a voter registration application to your supervisor of elections so that it is received no later than the start of the canvassing of absentee ballots, which occurs no earlier than the 15th day before election day.

8. **VERY IMPORTANT.** If you are an overseas voter, you must include the date you signed the Voter's Certificate on the line above (Date) or your ballot may not be counted.

9. Mail, deliver, or have delivered the completed mailing envelope. Be sure there is sufficient postage if mailed.

10. **FELONY NOTICE.** It is a felony under Florida law to accept any gift, payment, or gratuity in exchange for your vote for a candidate. It is also a felony under Florida law to vote in an election using a false identity or false address, or under any other circumstances making your ballot false or fraudulent.

Section 13. Paragraphs (a) and (d) of subsection (1) of section 101.657, Florida Statutes, are amended to read:

101.657 Early voting.—

(1)(a) As a convenience to the voter, the supervisor of elections shall allow an elector to vote early in the main or branch office of the supervisor. The supervisor shall mark, code, indicate on, or otherwise track the voter's precinct for each early voted ballot. In order for a branch office to be used for early voting, it shall be a permanent facility of the supervisor and shall have been designated and used as such for at least 1 year prior to the election. The supervisor may also designate any city hall, ~~or~~ permanent public library facility, fairground, civic center, courthouse, county commission building, stadium, convention center, government-owned senior center, or government-owned community center as early voting sites; however, if so designated, the sites must be geographically located so as to provide all voters in the county an equal opportunity to cast a ballot, insofar as is practicable. *In addition, a supervisor may designate one early voting site per election in an area of the county that does not have any of the eligible early voting locations. Such additional early voting site must be geographically located so as to provide all voters in that area with an equal opportunity to cast a ballot, insofar as is practicable. Each county shall, at a minimum, operate the same total number of early voting sites for a general election which the county operated for the 2012 general election.* The results or tabulation of votes cast during early voting may not be made before the close of the polls on election day. Results shall be reported by precinct.

(d) Early voting shall begin on the 10th day before an election that contains state or federal races and end on the 3rd day before the election, and shall be provided for no less than 8 ~~6~~ hours and no more than 12 hours per day at each site during the applicable period. *In addition, early voting may be offered at the discretion of the supervisor of elections on the 15th, 14th, 13th, 12th, 11th, or 2nd day before an election that contains state or federal races for at least 8 hours per day, but not more than 12 hours per day.* The supervisor of elections may provide early voting for elections that are not held in conjunction with a state or federal election. However, the supervisor has the discretion to determine the hours of operation of early voting sites in those elections.

Section 14. Subsection (2) of section 101.67, Florida Statutes, is amended to read:

101.67 Safekeeping of mailed ballots; deadline for receiving absentee ballots.—

(2) *Except as provided in s. 101.6952(5),* all marked absent electors' ballots to be counted must be received by the supervisor by 7 p.m. the day of the election. All ballots received thereafter shall be marked with the time and date of receipt and filed in the supervisor's office.

Section 15. Subsections (1) and (4) of section 101.68, Florida Statutes, are amended, and subsection (2) of that section is reenacted and amended, to read:

**101.68 Canvassing of absentee ballot.—**

(1) The supervisor of the county where the absent elector resides shall receive the voted ballot, at which time the supervisor shall compare the signature of the elector on the voter's certificate with the signature of the elector in the registration books or the precinct register to determine whether the elector is duly registered in the county and may record on the elector's registration certificate that the elector has voted. However, effective July 1, 2005, an elector who dies after casting an absentee ballot but on or before election day shall remain listed in the registration books until the results have been certified for the election in which the ballot was cast. The supervisor shall safely keep the ballot unopened in his or her office until the county canvassing board canvasses the vote. *Except as provided in subsection (4)*, after an absentee ballot is received by the supervisor, the ballot is deemed to have been cast, and changes or additions may not be made to the voter's certificate.

(2)(a) The county canvassing board may begin the canvassing of absentee ballots at 7 a.m. on the 15th day before the election, but not later than noon on the day following the election. In addition, for any county using electronic tabulating equipment, the processing of absentee ballots through such tabulating equipment may begin at 7 a.m. on the 15th day before the election. However, notwithstanding any such authorization to begin canvassing or otherwise processing absentee ballots early, no result shall be released until after the closing of the polls in that county on election day. Any supervisor of elections, deputy supervisor of elections, canvassing board member, election board member, or election employee who releases the results of a canvassing or processing of absentee ballots prior to the closing of the polls in that county on election day commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(b) To ensure that all absentee ballots to be counted by the canvassing board are accounted for, the canvassing board shall compare the number of ballots in its possession with the number of requests for ballots received to be counted according to the supervisor's file or list.

(c)1. The canvassing board shall, if the supervisor has not already done so, compare the signature of the elector on the voter's certificate or on the absentee ballot affidavit as provided in subsection (4) with the signature of the elector in the registration books or the precinct register to see that the elector is duly registered in the county and to determine the legality of that absentee ballot. The ballot of an elector who casts an absentee ballot shall be counted even if the elector dies on or before election day, as long as, prior to the death of the voter, the ballot was postmarked by the United States Postal Service, date-stamped with a verifiable tracking number by common carrier, or already in the possession of the supervisor of elections. An absentee ballot shall be considered illegal if the voter's certificate or absentee ballot affidavit ~~it~~ does not include the signature of the elector, as shown by the registration records or the precinct register. However, an absentee ballot ~~is shall~~ not be considered illegal if the signature of the elector does not cross the seal of the mailing envelope. If the canvassing board determines that any ballot is illegal, a member of the board shall, without opening the envelope, mark across the face of the envelope: "rejected as illegal." *The absentee ballot affidavit, if applicable*, the envelope, and the ballot contained therein shall be preserved in the manner that official ballots voted are preserved.

2. If any elector or candidate present believes that an absentee ballot is illegal due to a defect apparent on the voter's certificate or the absentee ballot affidavit, he or she may, at any time before the ballot is removed from the envelope, file with the canvassing board a protest against the canvass of that ballot, specifying the precinct, the ballot, and the reason he or she believes the ballot to be illegal. A challenge based upon a defect in the voter's certificate or absentee ballot affidavit may not be accepted after the ballot has been removed from the mailing envelope.

(d) The canvassing board shall record the ballot upon the proper record, unless the ballot has been previously recorded by the supervisor. The mailing envelopes shall be opened and the secrecy envelopes shall be mixed so as to make it impossible to determine which secrecy envelope came out of which signed mailing envelope; however, in any county in which an electronic or electromechanical voting system is used, the ballots may be sorted by ballot styles and the mailing envelopes may

be opened and the secrecy envelopes mixed separately for each ballot style. The votes on absentee ballots shall be included in the total vote of the county.

(4)(a) The supervisor of elections shall, on behalf of the county canvassing board, notify each elector whose ballot was rejected as illegal and ~~provide the specific reason the ballot was rejected because of a difference between the elector's signature on the ballot and that on the elector's voter registration record.~~ The supervisor shall mail a voter registration application to the elector to be completed indicating the elector's current signature if the elector's ballot was rejected due to a difference between the elector's signature on the voter's certificate or absentee ballot affidavit and the elector's signature in the registration books or precinct register. This section does not prohibit the supervisor from providing additional methods for updating an elector's signature.

(b) *Until 5 p.m. on the day before an election, the supervisor shall allow an elector who has returned an absentee ballot that does not include the elector's signature to complete and submit an affidavit in order to cure the unsigned absentee ballot.*

(c) *The elector shall provide identification to the supervisor and must complete an absentee ballot affidavit in substantially the following form:*

**ABSENTEE BALLOT AFFIDAVIT**

*I, ..., am a qualified voter in this election and registered voter of .... County, Florida. I do solemnly swear or affirm that I requested and returned the absentee ballot and that I have not and will not vote more than one ballot in this election. I understand that if I commit or attempt any fraud in connection with voting, vote a fraudulent ballot, or vote more than once in an election, I may be convicted of a felony of the third degree and fined up to \$5,000 and imprisoned for up to 5 years. I understand that my failure to sign this affidavit means that my absentee ballot will be invalidated.*

*...(Voter's Signature)...*

*...(Address)...*

*(d) Instructions must accompany the absentee ballot affidavit in substantially the following form:*

**READ THESE INSTRUCTIONS CAREFULLY BEFORE COMPLETING THE AFFIDAVIT. FAILURE TO FOLLOW THESE INSTRUCTIONS MAY CAUSE YOUR BALLOT NOT TO COUNT.**

*1. In order to ensure that your absentee ballot will be counted, your affidavit should be completed and returned as soon as possible so that it can reach the supervisor of elections of the county in which your precinct is located no later than 5 p.m. on the 2nd day before the election.*

*2. You must sign your name on the line above (Voter's Signature).*

*3. You must make a copy of one of the following forms of identification:*

*5. Alternatively, you may fax or e-mail your completed affidavit and a copy of your identification to the supervisor of elections. If e-mailing, please provide these documents as attachments.*

*(e) The department and each supervisor shall include the affidavit and instructions on their respective websites. The supervisor must include his or her office's mailing address, e-mail address, and fax number on the*

page containing the affidavit instructions; the department's instruction page must include the office mailing addresses, e-mail addresses, and fax numbers of all supervisors of elections or provide a conspicuous link to such addresses.

(f) The supervisor shall attach each affidavit received to the appropriate absentee ballot mailing envelope.

Section 16. Subsection (2) of section 101.6923, Florida Statutes, is amended to read:

b. If you are an overseas voter, you must include the date you signed the Voter's Certificate on the line above (Date) or your ballot may not be counted.

c. An absentee ballot will be considered illegal and will not be counted if the signature on the Voter's Certificate does not match the signature on record. The signature on file at the start of the canvass of the absentee ballots is the signature that will be used to verify your signature on the Voter's Certificate. If you need to update your signature for this election, send your signature update on a voter registration application to your supervisor of elections so that it is received no later than the start of canvassing of absentee ballots, which occurs no earlier than the 15th day before election day.

In such event, the members of the county canvassing board shall meet and elect a chair.

(b) If the supervisor of elections is unable to serve or is disqualified, the chair of the board of county commissioners shall appoint as a substitute member a member of the board of county commissioners who is not a candidate with opposition in the election being canvassed and who is not an active participant in the campaign or candidacy of any candidate with opposition in the election being canvassed. The supervisor, however, shall act in an advisory capacity to the canvassing board.

The procurement of goods or services valued over \$25,000 is subject to competitive solicitation, except in situations in which the goods or services are provided by a sole source or are deemed an emergency purchase, or the services are exempted from competitive-solicitation requirements under s. 287.057(3)(e) ~~287.057(3)(f)~~. Justification for the sole-sourcing or emergency procurement must be documented. Contracts for goods or services valued at or over \$100,000 are subject to board approval.

At least one of such plans must be a preferred-rating plan to accommodate small-premium policyholders with good experience as defined in sub-subparagraph 22.a.

21. Establish agent commission schedules.

22. For employers otherwise eligible for coverage under the plan, establish three tiers of employers meeting the criteria and subject to the rate limitations specified in this subparagraph.

a. Tier One.—

(I) Criteria; rated employers.—An employer that has an experience modification rating shall be included in Tier One if the employer meets all of the following:

(A) The experience modification is below 1.00.

(B) The employer had no lost-time claims subsequent to the applicable experience modification rating period.

(C) The total of the employer's medical-only claims subsequent to the applicable experience modification rating period did not exceed 20 percent of premium.

(II) Criteria; non-rated employers.—An employer that does not have an experience modification rating shall be included in Tier One if the employer meets all of the following:

(A) The employer had no lost-time claims for the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan.

(B) The total of the employer's medical-only claims for the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan did not exceed 20 percent of premium.

(C) The employer has secured workers' compensation coverage for the entire 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan.

(D) The employer is able to provide the plan with a loss history generated by the employer's prior workers' compensation insurer, except if the employer is not able to produce a loss history due to the insolvency of an insurer, the receiver shall provide to the plan, upon the request of the employer or the employer's agent, a copy of the employer's loss history from the records of the insolvent insurer if the loss history is contained in records of the insurer which are in the possession of the receiver. If the receiver is unable to produce the loss history, the employer may, in lieu of the loss history, submit an affidavit from the employer and the employer's insurance agent setting forth the loss history.

(E) The employer is not a new business.

(III) Premiums.—The premiums for Tier One insureds shall be set at a premium level 25 percent above the comparable voluntary market premiums until the plan has sufficient experience as determined by the board to establish an actuarially sound rate for Tier One, at which point the board shall, subject to paragraph (e), adjust the rates, if necessary, to produce actuarially sound rates, provided such rate adjustment shall not take effect prior to January 1, 2007.

b. Tier Two.—

(I) Criteria; rated employers.—An employer that has an experience modification rating shall be included in Tier Two if the employer meets all of the following:

(A) The experience modification is equal to or greater than 1.00 but not greater than 1.10.

(B) The employer had no lost-time claims subsequent to the applicable experience modification rating period.

(C) The total of the employer's medical-only claims subsequent to the applicable experience modification rating period did not exceed 20 percent of premium.

(II) Criteria; non-rated employers.—An employer that does not have any experience modification rating shall be included in Tier Two if the employer is a new business. An employer shall be included in Tier Two if the employer has less than 3 years of loss experience in the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan and the employer meets all of the following:

(A) The employer had no lost-time claims for the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan.

(B) The total of the employer's medical-only claims for the 3-year period immediately preceding the inception date or renewal date of the employer's coverage under the plan did not exceed 20 percent of premium.

(C) The employer is able to provide the plan with a loss history generated by the workers' compensation insurer that provided coverage for the portion or portions of such period during which the employer had secured workers' compensation coverage, except if the employer is not able to produce a loss history due to the insolvency of an insurer, the receiver shall provide to the plan, upon the request of the employer or the employer's agent, a copy of the employer's loss history from the records of the insolvent insurer if the loss history is contained in records of the insurer which are in the possession of the receiver. If the receiver is unable to produce the loss history, the employer may, in lieu of the loss history, submit an affidavit from the employer and the employer's insurance agent setting forth the loss history.

(III) Premiums.—The premiums for Tier Two insureds shall be set at a rate level 50 percent above the comparable voluntary market premiums until the plan has sufficient experience as determined by the board to establish an actuarially sound rate for Tier Two, at which point the board shall, subject to paragraph (e), adjust the rates, if necessary, to produce actuarially sound rates, provided such rate adjustment shall not take effect prior to January 1, 2007.

c. Tier Three.—

(I) Eligibility.—An employer shall be included in Tier Three if the employer does not meet the criteria for Tier One or Tier Two.

(II) Rates.—The board shall establish, subject to paragraph (e), and the plan shall charge, actuarially sound rates for Tier Three insureds.

23. For Tier One or Tier Two employers which employ no nonexempt employees or which report payroll which is less than the minimum wage hourly rate for one full-time employee for 1 year at 40 hours per week, the plan shall establish actuarially sound premiums, provided, however, that the premiums may not exceed \$2,500. These premiums shall be in addition to the fee specified in subparagraph 26. When the plan establishes actuarially sound rates for all employers in Tier One and Tier

Two, the premiums for employers referred to in this paragraph are no longer subject to the \$2,500 cap.

24. Provide for a depopulation program to reduce the number of insureds in the plan. If an employer insured through the plan is offered coverage from a voluntary market carrier:

a. During the first 30 days of coverage under the plan;

b. Before a policy is issued under the plan;

c. By issuance of a policy upon expiration or cancellation of the policy under the plan; or

d. By assumption of the plan's obligation with respect to an in-force policy,

that employer is no longer eligible for coverage through the plan. The premium for risks assumed by the voluntary market carrier must be no greater than the premium the insured would have paid under the plan, and shall be adjusted upon renewal to reflect changes in the plan rates and the tier for which the insured would qualify as of the time of renewal. The insured may be charged such premiums only for the first 3 years of coverage in the voluntary market. A premium under this subparagraph is deemed approved and is not an excess premium for purposes of s. 627.171.

25. Require that policies issued and applications must include a notice that the policy could be replaced by a policy issued from a voluntary market carrier and that, if an offer of coverage is obtained from a voluntary market carrier, the policyholder is no longer eligible for coverage through the plan. The notice must also specify that acceptance of coverage under the plan creates a conclusive presumption that the applicant or policyholder is aware of this potential.

26. Require that each application for coverage and each renewal premium be accompanied by a nonrefundable fee of \$475 to cover costs of administration and fraud prevention. The board may, with the prior approval of the office, increase the amount of the fee pursuant to a rate filing to reflect increased costs of administration and fraud prevention. The fee is not subject to commission and is fully earned upon commencement of coverage.

893.055 Prescription drug monitoring program.—

(10) All costs incurred by the department in administering the prescription drug monitoring program shall be funded through federal grants or private funding applied for or received by the state. The department may not commit funds for the monitoring program without ensuring funding is available. The prescription drug monitoring program and the implementation thereof are contingent upon receipt of the nonstate funding. The department and state government shall cooperate with the direct-support organization established pursuant to subsection (11) in seeking federal grant funds, other nonstate grant funds, gifts, donations, or other private moneys for the department ~~if so long as~~ the costs of doing so are not considered material. Nonmaterial costs for this purpose include, but are not limited to, the costs of mailing and personnel assigned to research or apply for a grant. The corporation shall compare each clerk's prior year expenditures and unit costs for core services with a peer group of clerks' offices having a population of a similar size and a similar number of case filings. If the corporation finds that the expenditures, unit costs, or proposed budget of a clerk is significantly higher than those of clerks in that clerk's peer group, the corporation shall require the clerk to submit documentation justifying the difference in each core services category. Justification for higher expenditures may include, but is not limited to, collective bargaining agreements, county civil service agreements, and the number and distribution of courthouses served by the clerk. If the expenditures and unit costs are not justified, the corporation shall recommend a reduction in the funding for that core services category in the budget request to an amount similar to the peer group of clerks or to an amount that the corporation determines is justified.

(8) The Chief Financial Officer shall review the proposed unit costs associated with each clerk of court's budget request and make recommendations to the Legislature. The Chief Justice of the Supreme Court may request an audit of the corporation or any clerk of court by the Chief Financial Officer.

(9) The Legislature shall appropriate the total amount for the budgets of the clerks in the General Appropriations Act. The Legislature may reject or modify any or all of the unit costs recommended by the corporation. If the Legislature does not specify the unit costs in the General Appropriations Act or other law, the unit costs recommended by the corporation shall be the official unit costs for that budget period.

(10)(a) Beginning in the 2010-2011 fiscal year, the corporation shall release appropriations to each clerk quarterly. If funds in the Clerks of Court Trust Fund are insufficient to provide a release in a quarter in a single release, the corporation may release partial amounts for that quarter so long as the total of those partial amounts does not exceed that quarter's release. If funds in the Clerks of Court Trust Fund are insufficient for the first quarter release, the corporation may make a request to the Governor for a trust fund loan pursuant to chapter 215. The amount of the first three releases shall be based on one quarter of the estimated budget for each clerk as identified in the General Appropriations Act.

(b) The corporation shall estimate the fourth quarter's number of units to be performed by each clerk. The amount of the fourth quarter release shall be based on the approved unit cost times the estimated number of units of the fourth quarter with the following adjustment: the fourth quarter release shall be adjusted based on the first three quarters' actual number of service units provided as reported to the corporation by each clerk. If the clerk has performed fewer service units in the first three quarters of the year compared to three quarters of the estimated number of service units in the General Appropriations Act, the corporation shall decrease the fourth quarter release. The amount of the decrease shall equal the amount of the difference between the estimated number of service units for the first three quarters and the actual number of service units provided in the first three quarters times the approved unit cost.

(c) No adjustment for the fourth quarter release shall be made if the clerk has performed more units than the estimate for the first three quarters.

(d) If the clerk performs fewer units in the fourth quarter than estimated by the corporation, the corporation shall decrease the first quarter release for the clerk in the next fiscal year by the amount of the difference between the estimated number of service units for the fourth quarter and the actual number of service units performed in that quarter times the approved unit cost.

(e) The total of all releases to the clerks of court may not exceed the amount appropriated in the General Appropriations Act. If, during the year, the corporation determines that the projected releases of appropriations for service units will exceed the estimate used in the General

Appropriations Act and result in statewide expenditures greater than the amount appropriated by law, the corporation shall reduce all service unit costs of all clerks by the amount necessary to ensure that service units are funded within the total amount appropriated to the clerks of court. If such action is necessary, the corporation shall notify the Legislative Budget Commission. If the Legislative Budget Commission objects to the adjustments, the Legislative Budget Commission shall adjust all service unit costs by the amount necessary to ensure that projected units of service are funded within the total amount appropriated to the clerks of court at its next scheduled meeting.

(11) The corporation may submit proposed legislation to the Governor, the President of the Senate, and the Speaker of the House of Representatives relating to the preparation of budget requests of the clerks of court.

**Section 46** provides that funds appropriated for travel by state employees be limited to travel for activities that are critical to each state agency's mission. Prohibits funds from being used to travel to foreign countries, other states, conferences, staff-training or other administrative functions unless agency head approves in writing. Requires agency head to consider use of teleconferencing and electronic communication to meet needs of activity before approving travel.

**Sections 47 and 48** amend s. 282.401(4), F.S. to align data center consolidation schedule in statute to funding in GAA. From the funds provided in Specific Appropriations 7 and 87, juvenile justice education programs shall receive funds as provided in section 1003.52(12), Florida Statutes.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of section 1011.62(2), Florida Statutes.

From the funds provided in Specific Appropriations 7 and 87, \$45,754,378 is provided for the Sparsity Supplement as defined in section 1011.62(7), Florida Statutes, for school districts of 20,000 and fewer FTE in the 2013-2014 fiscal year.

The maximum nonvoted discretionary millage which may be levied pursuant to the provisions of section 1011.71(1), Florida Statutes, by district school boards in Fiscal Year 2013-2014 shall be 0.748 mills.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)  
SPECIFIC  
APPROPRIATION

If any school district levies the full 0.748 mill and it generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE, the school district shall receive from the funds provided in Specific Appropriations 7 and 87, a discretionary millage compression supplement that, when added to the funds generated by the district's 0.748 mill levy, shall be equal to the state average as provided in section 1011.62(5), Florida Statutes.

If any school district chooses to levy an amount not less than 0.498 mill and less than 0.748 mill, a compression supplement shall be calculated on a levy of 0.498. The salary increases shall be at least \$2,500 for personnel evaluated as "effective" and up to \$3,500 for personnel evaluated as "highly effective". Factors identified in the district-determined, state-approved evaluation system plans shall include scholastic achievement and academic performance indicators (e.g., results of juried competitions; results on Advanced Placement, International Baccalaureate, and Advanced International Certificate of Education assessments; results on state-approved industry certification assessments; and results on SAT, ACT, and state-approved end-of-course and FCAT assessments).

Each district school board or charter school board must develop a plan and affirm that it is based on student performance. At the discretion of the district school board or charter school board, the plan may take into account the relative difficulty of the teaching assignment, including but not limited to whether a teacher is assigned to special needs students, students achieving below grade level, or to a D or F school.

Each board shall vote on the plan and affirm that it is based on student performance. A copy of the plan must be provided to the Commissioner of Education to confirm that the plan is based on student performance. The district shall submit its plan as early as possible.

Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20(3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriations 7 and 87, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than three FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FBFP allocations for the students being served. The supplemental value shall not exceed three FTE.

A student in cooperative education or other types of programs incorporating on-the-job training shall not be counted for more than twenty-five (25) hours per week of membership in all programs when calculating full-time student membership, as provided in section 1011.61, Florida Statutes, for funding pursuant to section 1011.62, Florida Statutes.

From the funds in Specific Appropriations 7 and 87, \$64,456,019 is provided for Safe Schools activities and shall be allocated as follows: \$62,660 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total unweighted student enrollment. Safe Schools activities include: (1) after school programs for middle school students; (2) middle and high school programs for correction of specific discipline problems; (3) other improvements to enhance the learning environment, including implementation of conflict resolution strategies; (4) behavior driven intervention programs that include anger and aggression management strategies; (5) alternative school programs for adjudicated youth that may include a web-based virtual system that results in mastery and certification, competency or credentials in the following inter-related counseling disciplines necessary for success in education and the work environment, including adjustment, educational, employment and optimal mental health areas that will include, but are not limited to, anger and impulse control, depression and anxiety, self-esteem, respect for authority, personal behavior, goal setting, time and stress management, social and workplace adjustment, substance use and abuse, workplace soft skills, communication skills, work ethic, the importance of timeliness, attendance and the self-marketing skills for future educational and/or employment opportunities; (6) suicide prevention programs; (7) bullying prevention and intervention; and (8) school resource officers. Each district shall determine, based on a review of its existing programs and priorities, how much of its total allocation to use for each authorized Safe Schools activity. The Department of Education shall monitor compliance with reporting procedures contained in section 1006.147, Florida Statutes. If a district does not comply with these procedures, the district's funds from the Safe Schools allocation shall be withheld and reallocated to the other school districts. normal school day for each day of the entire school year for intensive reading instruction for the students in each of these schools. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 100 schools.

The Department of Education shall provide guidance to school districts for documentation of the expenditures for the additional hour of instruction to ensure that all local, state, and federal funds are maximized for the total instructional program and that the funds used for the additional hour of instruction in these 100 schools do not supplant federal funds. School districts shall submit a report to the Department of Education in a format prepared by the department that includes summary information, including funding sources, expenditures and student outcomes for each of the participating schools that shall be submitted to the Speaker of the House of Representatives, President of the Senate, and Governor by September 30, 2014. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

From the funds in Specific Appropriations 7 and 87, \$130,000,000 is provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$115,000 shall be allocated to each district and the remaining balance shall be allocated based on each district's proportion of the total K-12 base funding. From these funds, at least \$15,000,000 shall be used to provide an additional hour of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in the 100 lowest performing elementary schools based on the state reading assessment pursuant to sections 1008.22(3) and 1011.62(9), Florida Statutes. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 100 schools. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

From the funds provided in Specific Appropriations 7 and 87, \$217,277,372 is provided for Instructional Materials including \$11,734,710 for Library Media Materials, \$3,207,487 for the purchase of science lab materials and supplies, \$5,000,000 for dual enrollment instructional materials, and \$3,000,000 for the purchase of digital instructional materials for students with disabilities. The growth allocation per FTE shall be \$292.48 for the 2013-2014 fiscal year. School districts shall pay for instructional materials used for the instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in section 1011.62(1)(i), Florida Statutes.

From the funds provided for Instructional Materials, \$165,000,000 shall be available to school districts to purchase instructional content as well as electronic devices and technology equipment and infrastructure. The purchases made in the 2013-2014 fiscal year must comply with the minimum or recommended requirements for instructional content, hardware, software, networking, security and bandwidth and the number of students per device as developed and published by the department. Prior to release of the funds by the department to the school districts, each school district shall certify to the Commissioner of Education an expenditure plan for the purchase of instructional content and technology. If the district intends to use any portion of the funds for technology, the district must certify that it has the instructional content necessary to provide instruction aligned to the adopted statewide benchmarks and standards. If the district intends to use the funds for technology the district must include an expenditure plan for the purchase of electronic devices and technology equipment and infrastructure that demonstrates the alignment of devices and equipment with the minimum or recommended requirements. The department shall provide a report to the Legislature on or before March 1, 2014 that summarizes the district expenditures for these funds.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)  
SPECIFIC  
APPROPRIATION

From funds provided in Specific Appropriations 7 and 87, \$45,286,750 is provided for the Teachers Lead Program and shall be given to teachers pursuant to section 1012.71, Florida Statutes. The allocation shall not be recalculated during the school year.

Funds provided in Specific Appropriations 7 and 87 for the virtual education contribution shall be allocated pursuant to the formula provided in Section 1011.62(11), Florida Statutes. The contribution shall be based on \$5,200 per FTE.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

From the funds in Specific Appropriations 7 and 87, school districts may execute an appropriate contract for full-time virtual instruction through K-8 virtual schools that received funds from Specific Appropriation 93 of chapter 2008-152, Laws of Florida. School districts may expend a negotiated amount per student for each student who was enrolled and served during the 2012-2013 fiscal year and who is re-enrolled and eligible to be served during the 2013-2014 fiscal year. Each of the K-8 virtual schools shall provide to the Department of Education the name and address of each student who was enrolled and served during the 2012-2013 fiscal year and who is re-enrolled and is eligible to be served during the 2013-2014 fiscal year. The department shall verify the eligibility of the students, assist with placement of each student in a school district virtual instruction program regardless of the student's district of residence, and assist the school district with executing an appropriate contract with an approved K-8 virtual school for payment for virtual instruction for each student. The maximum number of students to be funded pursuant to this provision is the number of students served in the 2012-2013 fiscal year.

Department of Education to contract for the management and administration of the Digital Tools Certificate for middle school students. The digital tools program shall be cloud-based to enable students to access it 24 hours a day using multiple devices. The Digital Tool Certificate shall be made available to all middle schools on or before June 30, 2014.

From the funds in Specific Appropriation 102A for Digital Competency Development and Deployment, \$100,000 shall be provided by the Department of Education to develop appropriate applications to allow students with disabilities to access the Cyber Security Recognition, Digital Arts Recognition, and Digital Tools Certificate program.

Funds in Specific Appropriation 102A for Safe Schools Security Assessments shall be provided to the Department of Education (DOE) to contract with a security consulting firm to provide a risk assessment tool for conducting security assessments for use by school officials at each public school site in the state. Such a tool should be able to help school officials to identify threats, vulnerabilities and appropriate safety controls for the schools that they supervise. The department shall issue a request for proposals (RFP) to procure the assessment tool from a consulting firm that specializes in development of risk assessment software solutions with experience in conducting security assessments of public facilities. At a minimum, the assessments must address the following issues: (1) school emergency and crisis preparedness planning; (2) security, crime and violence prevention policies and procedures; (3) physical security measures; (4) professional development training needs; (5) an examination of support service roles in school safety, security, and emergency planning; (6) school security and school police staffing, operational practices, and related services; (7) school-community collaboration on school safety; and (8) return on investment analysis (ROI) of the recommended physical security controls. The selected software solution must be able to generate written automated reports on assessment findings for review by the DOE and school and district officials. The final report must identify the positive school safety measures in place at the time of the assessment, as well as the areas for continued school safety planning and improvement. Additionally, the selected firm should be able to provide training to the DOE and school officials in the use of the assessment tool.

Funds in Specific Appropriation 102A are provided for the acquisition of additional bandwidth capacity as determined from the results of the 2012-2013 Department of Education Technology Resources Survey and needed to ensure that, in conjunction with their Federal e-rate funding, schools have adequate bandwidth capacity for the implementation and usage of instructional technology and the administration of online assessments. The additional bandwidth capacity may be procured from the Department of Management Services contract number DMS 08-09-061 or through any other e-rate compliant competitive procurement or service substitution process. The calculation of funds provided for the additional bandwidth capacity for the 2013-2014 fiscal year are incorporated by reference in Senate Bill 1502. The calculations are the basis for the funds provided in Specific Appropriation 102A.

If the Department of Education, in collaboration with the Department of Management Services when appropriate, confirms that a school's or district's network is unable to support the additional bandwidth capacity for the 2013-2014 fiscal year, the school is authorized to use its portion of the funds provided for in Specific Appropriation 102A to purchase the network infrastructure necessary to ensure its compliance with the standard used to complete the calculations incorporated by reference in Senate Bill 1502. If the district is a member of one of the statutorily-established regional consortium service organizations, the school should work with the appropriate regional consortium service organization in the identification and acquisition of the required network infrastructure.
