Excused: Senators Jones and Yarborough

PRAYER

The following prayer was offered by Senior Pastor Dr. Shaun Ferguson, Faith Temple Christian Center, Rockledge:

Our Father in heaven, holy is your name. We stand so honored to stand during this time of Holy Week. Today, within these sacred chambers, we declare: great is the Lord and greatly to be praised.

We lift up in prayer every Senator, every public servant within these chambers. Father, we ask that you would grant them the wisdom, the strength, and the clarity as they lead. May they trust in you fully, seeking your guidance in every decision they make. Thank you for their service and the sacrifice of time away from their families. Bless their homes, Father, with peace, their hearts with grace, and their work with purpose. Let every relationship in this chamber be marked by unity and respect. May cooperation, kindness, and honor guide their interactions for we are reminded that where your presence is, there is unity. Father, we ask you also to bless every staff member working diligently behind the scenes. Encourage and strengthen them in their roles.

Lord, give each Senator courage to stand firm, even when the path is difficult. Let them represent the people of this state with boldness, compassion, and integrity. Lord, we speak blessings over today's ses-

sion, over our Senators, our Governor, and the great State of Florida. It is in your holy precious name, the name of Jesus, we pray. Amen.

By Senator Burgess—

SR 1886—A resolution commending the University of South Florida for its achievements as a national leader in academic and research excellence and designating April 15, 2025, as “USF Day” at the Capitol.

WHEREAS, in 1956, the Tampa campus of the University of South Florida (USF) was founded with the approved name of “University of South Florida,” in part, because it was the southernmost state university in Florida at the time, and

WHEREAS, now, in 2025, the USF Sarasota-Manatee campus is celebrating 50 years of serving the communities of Manatee and Sarasota Counties, and

WHEREAS, USF St. Petersburg, situated on 52 waterfront acres in the heart of downtown St. Petersburg, hosts the state’s repository for human trafficking data, an important tool in assisting law enforcement with fighting this crime, and

WHEREAS, in addition to collecting and analyzing statewide data, USF’s Trafficking in Persons Risk to Resilience Research Lab is tasked with evaluating the effectiveness of state-funded initiatives to combat human trafficking and working with law enforcement and state agencies to report data on human trafficking investigations and prosecutions, and

WHEREAS, USF Health has tripled its research funding over the last decade, with seven academic departments ranked among the top 50 in the nation in funding from the National Institutes of Health as the university continues to move forward on a bold path of innovation and exploration, and

WHEREAS, USF is recognized as the fifth-youngest institution welcomed into the Association of American Universities and one of only two institutions in the State University System to have membership, and

WHEREAS, USF has been recognized as a preeminent university by the State of Florida, and

WHEREAS, USF ranks 45th among U.S. public institutions, marking the 11th consecutive year it has been ranked in the top 50, according to *U.S. News & World Report’s* annual ranking of best colleges, and

WHEREAS, USF achieved a record-breaking \$738 million in research funding during fiscal year 2024, up nearly 7 percent over the previous year and an impressive increase of 35 percent since 2022, and

WHEREAS, USF has a total annual economic impact of \$6.01 billion and supports 68,704 jobs in this state, and

WHEREAS, USF was ranked by the *Princeton Review* as a top 50 best value college among public institutions for providing students with high-quality education and career readiness at an affordable cost, and was ranked among the best in the *U.S. News & World Report* Online Education Program rankings, with education, engineering, and business programs in the top 100 and the online MBA program in the top 25, and

WHEREAS, the USF Health Morsani College of Medicine is the top-ranked medical school in this state and is one of only 16 nationally, and the only one in this state, to be placed in *U.S. News & World Report's* highest tier of medical schools, and

WHEREAS, USF's 2024-2025 freshman class welcomed approximately 6,700 students across all three campuses, a 14 percent increase from last year, and the new class entered USF with an impressive academic profile, including an average high school GPA of 4.23, ACT score of 28.2, and SAT score of 1306, and came from across the state of Florida, all 50 states, and 73 countries, and included approximately 750 students that joined the Judy Genshaft Honors College and 54 National Merit Scholars, and

WHEREAS, USF takes pride in its vast network of nearly 400,000 alumni who are creating meaningful impacts in their communities throughout Florida and beyond, exemplifying the university's dedication to cultivating graduates who lead with purpose and serve with distinction, and

WHEREAS, that same pride and purpose has led USF to new heights in sports, with the football team earning the record for the largest shutout victory in bowl history with a 45–0 win against Syracuse in the 2023 Boca Raton Bowl, and in 2024, claiming victory over the San Jose State Spartans in a five-overtime thriller at the Hawaii Bowl, the longest game in bowl history at the time, making USF one of only 15 teams in college football to win back-to-back bowl games, NOW, THEREFORE,

PRAYER

The following prayer was offered by Pastor Terry Collins, Southpoint Baptist Church, Jacksonville:

Our Heavenly Father, maker of us all. Lord, today I begin by thanking you for allowing our elected leaders and choice servants of the people of the great State of Florida to meet here today. They are tasked today to oversee and assist in the needs and concerns and, in great part, the hopes and dreams of our citizens who live here. Lord, I also know that their job today and other days is not always easy in these times, but what they do is a noble calling and a good endeavor in life. Our state needs these good servants to serve others for a greater good.

Lord, we'll always draw attention and be blessed by you. For that, Lord, I also thank you. They have sought knowledge and counsel and wisdom from many sources that will help us forge ahead into the future; and, no doubt many have sought guidance from you as we do today. Give them what they need, and impress upon their hearts and minds the direction these sessions need to go for this state of over 23 million precious souls. Some in our state need someone fighting for them as they may not have the means and strength others have. May they know when they help the ones unable to help themselves, that they echo the words of our Lord Jesus Christ when he said, "When you have done it unto the least of these my brothers, you have done it unto me."

Also, Father, be with the families of each one here, who too have sacrificed and been there for them along the way. May these families feel your blessings and give them divine protection as they support their family members, and give them encouragement. And Lord, grant them your grace and peace.

Father God, I give this moment in time, and this place in time, and these servants made for this time, to you. Blessed be the name of the Lord. Amen.

WHEREAS, the Taiwan Relations Act was signed into United States law in 1979, formally establishing the basis for the continued commercial and cultural relations between the people of the United States and Taiwan, and

WHEREAS, the new administration of Taiwan launched its signature Integrated Diplomacy in 2024 as proposed by President Lai Ching-te, demonstrating that Taiwan is a pivotal force for stability and prosperity in the Indo-Pacific, and

WHEREAS, China frequently misrepresents the United Nations General Assembly (UNGA) Resolution 2758, which was never intended to address Taiwan's political status, in the international community by conflating the resolution with China's "one China principle" and falsely claiming that Taiwan is an inseparable part of the People's Republic of China, and

WHEREAS, the United States Department of State, while stating that China was using the UNGA Resolution 2758 as a tool to falsely portray Taiwan's status as illegitimate as a means to suppress Taiwan in September 2024, also reaffirmed the unwavering United States commitment to Taiwan and the long-standing efforts to preserve peace and stability across the Taiwan Strait, and

WHEREAS, Hurricane Helene and Hurricane Milton made landfall in Florida in September and October 2024, respectively, impacting vast areas and causing casualties and damage, and the Government of Taiwan donated \$300,000 through the Taipei Economic and Culture Office in Miami to the Florida Disaster Fund, and

WHEREAS, Taiwan is the United States' seventh-largest trading partner, as well as Florida's fourth-largest bilateral merchandise trading partner in the Asia-Pacific region, and

WHEREAS, the economy of Taiwan has benefited from the rising global demand for high-performance computing and artificial intelligence, reaching a growth rate exceeding 4 percent in 2024, and

WHEREAS, a Florida high-tech delegation led by SelectFlorida visited Taiwan in May 2024 to explore the feasibility of Taiwan-Florida semiconductor industry cooperation, successfully establishing another connection between Taiwan and Florida, and

WHEREAS, Taiwan and Florida signed the Memorandum of Understanding on bilateral economic and trade cooperation on January 8, 2025, embodying the determination of both sides to advance toward a stronger partnership on mutual trade, industry, and investment activities, and

WHEREAS, in November 2024, the Taiwanese Chambers of Commerce of North America for the first time held its annual meeting in Fort Lauderdale with more than 500 global delegates in attendance, an indication of the global recognition of Florida's role as a hub for trade and investment in the Western Hemisphere, and

WHEREAS, since November 1, 2012, Taiwan has been a member of the United States Visa Waiver Program, which enhances the convenience of two-way travel for business and tourism, reflecting the cooperation between the United States and Taiwan, and

WHEREAS, the launch of FORMOSAT-7/COSMIC-2 on June 25, 2019, a joint United States-Taiwan collaborative space mission consisting of a constellation of six satellites designed to enhance the accuracy of atmospheric weather prediction, has demonstrated the mutual benefit born from the relations between Florida and Taiwan, and

WHEREAS, Taiwan actively participates in international organizations, including the World Health Assembly, the United Nations, the International Criminal Police Organization, and the United Nations Framework Convention on Climate Change, while also maintaining its membership status in both the Asia-Pacific Economic Cooperation and the World Trade Organization, as well as participating, observing, and cooperating with more than 50 additional international organizations, and

WHEREAS, the economic bonds between the United States and Taiwan continue to flourish, embodied by the signing of the U.S.-Taiwan Initiative on 21st-Century Trade First Agreement Implementation Act in August 2023; the extension of the Economic Prosperity Partnership Dialogue Memorandum of Understanding for an additional 5 years; Taiwan's inclusion in the Indo-Pacific Economic Framework for Prosperity; and the introduction of the U.S.-Taiwan Expedited Double-Tax Relief Act in Congress in January 2025, and

WHEREAS, since the establishment of the Taipei Economic and Cultural Office in Miami in 1988, Taiwan has developed multiple sister state and sister city relations with Florida, and this state is proud of its 33-year-long sister state relationship with Taiwan, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

125.01055 Affordable housing.—

(7)

(k) This subsection does not apply to:

1. Airport-impacted areas as provided in s. 333.03.
2. Property defined as recreational and commercial working waterfront in s. 342.201(2)(b) in any area zoned as industrial.

125.01055 Affordable housing.—

(7)(a) A county must authorize multifamily and mixed-use residential as allowable uses in any area zoned for commercial, industrial, or mixed use, and in portions of any flexibly zoned area such as a planned unit development permitted for commercial, industrial, or mixed use, if at least 40 percent of the residential units in a proposed multifamily development are rental units that, for a period of at least 30 years, are affordable as defined in s. 420.0004. Notwithstanding any other law, local ordinance, or regulation to the contrary, a county may not require a proposed multifamily development to obtain a zoning or land use change, special exception, conditional use approval, variance, transfer of density or development units, amendment to a development of regional impact, or comprehensive plan amendment for the building height, zoning, and densities authorized under this subsection. For mixed-use residential projects, at least 65 percent of the total square footage must be used for residential purposes. *The county may not require that more than 10 percent of the total square footage of such mixed-use residential projects be used for nonresidential purposes.*

(b) A county may not restrict the density of a proposed development authorized under this subsection below the highest currently allowed, or allowed on July 1, 2023, density on any unincorporated land in the county where residential development is allowed under the county's land development regulations. For purposes of this paragraph, the term "highest currently allowed density" does not include the density of any building that met the requirements of this subsection or the density of any building that has received any bonus, variance, or other special exception for density provided in the county's land development regulations as an incentive for development.

(c) A county may not restrict the floor area ratio of a proposed development authorized under this subsection below 150 percent of the highest currently allowed, or allowed on July 1, 2023, floor area ratio on any unincorporated land in the county where development is allowed under the county's land development regulations. For purposes of this paragraph, the term "highest currently allowed floor area ratio" does not include the floor area ratio of any building that met the requirements of this subsection or the floor area ratio of any building that has received any bonus, variance, or other special exception for floor area ratio provided in the county's land development regulations as an incentive for development. For purposes of this subsection, the term "floor area ratio" includes floor lot ratio.

(d)1. A county may not restrict the height of a proposed development authorized under this subsection below the highest currently allowed, or allowed on July 1, 2023, height for a commercial or residential building located in its jurisdiction within 1 mile of the proposed development or 3 stories, whichever is higher. For purposes of this paragraph, the term "highest currently allowed height" does not include the height of any building that met the requirements of this subsection or the height of any building that has received any bonus, variance, or other special exception for height provided in the county's land development regulations as an incentive for development.

2. If the proposed development is adjacent to, on two or more sides, a parcel zoned for single-family residential use which is within a single-family residential development with at least 25 contiguous single-family homes, the county may restrict the height of the proposed development to 150 percent of the tallest building on any property adjacent to the proposed development, the highest currently allowed, or allowed on July 1, 2023, height for the property provided in the county's land development regulations, or 3 stories, whichever is higher, but not to exceed 10 stories. For the purposes of this paragraph, the term "adjacent to" means those properties sharing more than one point of a property line, but does not include properties separated by a public road.

(e) A proposed development authorized under this subsection must be administratively approved ~~without and no~~ further action by the board of county commissioners or any quasi-judicial or administrative board or reviewing body ~~is required~~ if the development satisfies the county's land development regulations for multifamily developments in areas zoned for such use and is otherwise consistent with the comprehensive plan, with the exception of provisions establishing allowable densities, floor area ratios, height, and land use. Such land development regulations include, but are not limited to, regulations relating to setbacks and parking requirements. A proposed development located within one-quarter mile of a military installation identified in s. 163.3175(2) may not be administratively approved. Each county shall maintain on its website a policy containing procedures and expectations for administrative approval pursuant to this subsection. *For the purposes of this paragraph, the term "allowable density" means the density prescribed for the property without additional requirements to procure and transfer density units or development units from other properties.*

(f)1. A county must, upon request of an applicant, reduce ~~consider reducing~~ parking requirements by 10 percent for a proposed development authorized under this subsection if the development:

a. Is located within one-quarter mile of a transit stop, as defined in the county's land development code, and the transit stop is accessible from the development;—

2. ~~A county must reduce parking requirements by at least 20 percent for a proposed development authorized under this subsection if the development:~~

~~b.a.~~ Is located within one-half mile of a major transportation hub that is accessible from the proposed development by safe, pedestrian-friendly means, such as sidewalks, crosswalks, elevated pedestrian or bike paths, or other multimodal design features; or ~~and~~

~~c.b.~~ Has available parking within 600 feet of the proposed development which may consist of options such as on-street parking, parking lots, or parking garages available for use by residents of the proposed development. However, a county may not require that the available parking compensate for the reduction in parking requirements.

~~2.3.~~ A county must eliminate parking requirements for a proposed mixed-use residential development authorized under this subsection within an area recognized by the county as a transit-oriented development or area, as provided in paragraph (h).

~~3.4.~~ For purposes of this paragraph, the term “major transportation hub” means any transit station, whether bus, train, or light rail, which is served by public transit with a mix of other transportation options.

(k) Notwithstanding any other law or local ordinance or regulation to the contrary, a county may allow an adjacent parcel of land to be included within a proposed multifamily development authorized under this subsection.

(m) The court shall give any civil action filed against a county for a violation of this subsection priority over other pending cases and render a preliminary or final decision as expeditiously as possible.

(n) If a civil action is filed against a county for a violation of this subsection, the court must assess and award reasonable attorney fees and costs to the prevailing party. An award of reasonable attorney fees or costs pursuant to this subsection may not exceed \$200,000. In addition, a prevailing party may not recover any attorney fees or costs directly incurred by or associated with litigation to determine an award of reasonable attorney fees or costs.

A parcel zoned to permit such uses by right without the requirement to obtain a variance or waiver is considered commercial use for the purposes of this section, irrespective of the local land development regulation’s listed category or title. The term does not include home-based businesses or cottage food operations undertaken on residential property, public lodging establishments as described in s. 509.242(1)(c), or uses that are accessory, ancillary, incidental to the allowable uses, or allowed only on a temporary basis.

The term does not include uses that are accessory, ancillary, incidental to the allowable uses, or allowed only on a temporary basis.

3. “Mixed use” means any use that combines multiple types of approved land uses from at least two of the residential use, commercial use, and industrial use categories. The term does not include uses that are accessory, ancillary, incidental to the allowable uses, or allowed only on a temporary basis.

(8)(a) A proposed development on a parcel of land primarily developed and maintained as a golf course, a tennis court, or a swimming pool, regardless of the zoning category assigned to such parcel, may use the approval process provided in subsection (7).

(b) If the proposed development is on a parcel that is adjacent to, on two or more sides, a parcel zoned for single-family residential use, the county may restrict the height of the proposed development to 150 percent of the tallest residential building on any property adjacent to the proposed development, the highest currently allowed, or allowed on July 1, 2023, height for the property provided in the county’s land development regulations, or 3 stories, whichever is higher. For the purposes of this paragraph, the term “adjacent to” means those properties sharing more than one point of a property line, but does not include properties separated by a public road or body of water, including manmade lakes or ponds.

(b) A county may, by ordinance, impose or enforce such a building moratorium for no more than 90 days in any 3-year period. Before adoption of such a building moratorium, the county shall prepare or cause to be prepared an assessment of the county’s need for affordable housing at the extremely-low-income, very-low-income, low-income, or moderate-income limits specified in s. 420.0004, including projections of such need for the next 5 years. This assessment must be posted on the county’s website by the date the notice of proposed enactment is published, and presented at the same public meeting at which the proposed ordinance imposing the building moratorium is adopted by the board of county commissioners. This assessment must be included in the business impact estimate for the ordinance imposing such a moratorium required by s. 125.66(3).

(c) If a civil action is filed against a county for a violation of this subsection, the court must assess and award reasonable attorney fees and costs to the prevailing party. An award of reasonable attorney fees or costs pursuant to this subsection may not exceed \$200,000. In addition, a prevailing party may not recover any attorney fees or costs directly incurred by or associated with litigation to determine an award of reasonable attorney fees or costs.

(d) This subsection does not apply to moratoria imposed or enforced to address stormwater or flood water management, to address the supply of potable water, or due to the necessary repair of sanitary sewer systems, if such moratoria apply equally to all types of multifamily or mixed-use residential development.

(a) Any land development regulation or element of a local comprehensive plan in the Florida Keys Area may be enacted, amended, or rescinded by a local government, but the enactment, amendment, or rescission becomes effective only upon approval by the state land planning agency. The state land planning agency shall review the proposed change to determine if it is in compliance with the principles for guiding development specified in chapter 27F-8, Florida Administrative Code, as amended effective August 23, 1984, and must approve or reject the requested changes within 60 days after receipt. Amendments to local comprehensive plans in the Florida Keys Area must also be reviewed for compliance with the following:

1. Construction schedules and detailed capital financing plans for wastewater management improvements in the annually adopted capital improvements element, and standards for the construction of wastewater treatment and disposal facilities or collection systems that meet or exceed the criteria in s. 403.086(11) for wastewater treatment and disposal facilities or s. 381.0065(4)(l) for onsite sewage treatment and disposal systems.

Section 7. It is the intent of the Legislature that the amendment made by this act to s. 380.0552, Florida Statutes, will accommodate the building of additional developments within the Florida Keys to ameliorate the acute affordable housing and building permit allocation shortage. The Legislature also intends that local governments subject to the hurricane evacuation clearance time restrictions on residential buildings manage growth with a heightened focus on long-term stability and affordable housing for the local workforce.

Section 8. Section 420.5098, Florida Statutes, is created to read:

420.5098 Public sector and hospital employer-sponsored housing policy.—

(1) The Legislature finds that it is in the best interests of the state and the state’s economy to provide affordable housing to state residents employed by hospitals, health care facilities, and governmental entities in order to attract and maintain the highest quality labor by incentivizing such employers to sponsor affordable housing opportunities. Section 42(g)(9)(B) of the Internal Revenue Code provides that a qualified low-income housing project does not fail to meet the general public use requirement solely because of occupancy restrictions or preferences

that favor tenants who are members of a specified group under a state program or policy that supports housing for such specified group. Therefore, it is the intent of the Legislature to establish a policy that supports the development of affordable workforce housing for employees of hospitals, health care facilities, and governmental entities.

(2) For purposes of this section, the term:

(a) “Governmental entity” means any state, regional, county, local, or municipal governmental entity of this state, whether executive, judicial, or legislative; any department, division, bureau, commission, authority, or political subdivision of the state; any public school, state university, or Florida College System institution; or any special district as defined in s. 189.012.

(b) “Health care facility” has the same meaning as provided in s. 159.27(16).

(c) “Hospital” means a hospital under chapter 155, a hospital district created pursuant to chapter 189, or a hospital licensed pursuant to chapter 395, including corporations not for profit that are qualified as charitable under s. 501(c)(3) of the Internal Revenue Code and for-profit entities.

(3) It is the policy of the state to support housing for employees of hospitals, health care facilities, and governmental entities and to allow developers in receipt of federal low-income housing tax credits allocated pursuant to s. 420.5099, local or state funds, or other sources of funding available to finance the development of affordable housing to create a preference for housing for such employees. Such preference must conform to the requirements of s. 42(g)(9) of the Internal Revenue Code.

Section 9. Section 760.26, Florida Statutes, is amended to read:

760.26 Prohibited discrimination in land use decisions and in permitting of development.—It is unlawful to discriminate in land use decisions or in the permitting of development based on race, color, national origin, sex, disability, familial status, religion, or, except as otherwise provided by law, the source of financing of a development or proposed development or the nature of a development or proposed development as affordable housing.

Section 10. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon becoming a law, this act shall take effect July 1, 2025.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to affordable housing; amending ss. 125.01055 and 166.04151, F.S.; revising applicability; requiring counties and municipalities, respectively, to authorize multifamily and mixed-use residential as allowable uses in portions of flexibly zoned areas under certain circumstances; prohibiting counties and municipalities from imposing certain requirements on proposed multifamily developments; prohibiting counties and municipalities from requiring that more than a specified percentage of a mixed-use residential project be used for certain purposes; revising the density, floor area ratio, or height below which counties and municipalities may not restrict certain developments; defining the term “story” for a proposed development located within a municipality within a certain area of critical state concern; requiring the administrative approval of certain proposed developments without further action by a quasi-judicial or administrative board or reviewing body under certain circumstances; requiring counties and municipalities to reduce parking requirements by a specified percentage for certain proposed developments under certain circumstances; requiring counties and municipalities to allow adjacent parcels of land to be included within certain proposed developments; requiring a court to give priority to and render expeditious decisions in certain civil actions; requiring a court to award reasonable attorney fees and costs to a prevailing party in certain civil actions; providing that such attorney fees or costs may not exceed a specified dollar amount; prohibiting the prevailing party from recovering certain other fees or costs; defining terms; authorizing the use of a specified approval process for a proposed development on a parcel of land primarily developed and maintained for specified facilities; authorizing counties and municipalities to restrict the height of such proposed developments under certain circumstances; prohibiting counties and municipalities from imposing certain building moratoriums; providing an exception, subject to certain requirements; providing applicability; authorizing applicants for certain proposed de-

PRAYER

The following prayer was offered by Pastor Derrick Gray, River of Life Church, Crawfordville:

Heavenly Father, your word instructs us to pray for those in authority over us, so we stand here today in obedience to that command. We thank you for the freedom and the privilege to do that in a public setting.

Those who serve in this chamber have been given a noble and weighty responsibility—to serve the common good of the State of Florida. As they attend to the work before them on this day, I pray that you grant them patience, wisdom, and courage—patience to work with one another, while remembering that every person here is made in the image of God; wisdom to come to the right decisions; and the courage to carry them out. May they be guided by your providence and strengthened by your common grace, in order to fulfill your purposes in the work that they do.

Let us always remember that to you, and you alone, we must all one day stand and give account. God, bless them and bless this great state. It's in Christ's name, I ask these things. Amen.

SR 1892—A resolution affirming the importance of the Florida Wildlife Corridor and its significant environmental, cultural, economic, and tourism value as a unique natural resource and recognizing April 22, 2025, as “Florida Wildlife Corridor Day.”

WHEREAS, the campaign to establish the Florida Wildlife Corridor began 15 years ago, and supporters saw their vision become reality with passage of the Florida Wildlife Corridor Act of 2021, and

WHEREAS, the Florida Wildlife Corridor establishes a geographic area of more than 18 million acres of land, of which 10 million acres are public conservation lands that could be permanently disconnected from each other without the additional conservation of nearly 8 million acres of opportunity areas connecting them, and

WHEREAS, Florida’s population has grown from 21.8 million when the Florida Wildlife Corridor Act was signed to more than 23.4 million today, resulting in urban and suburban sprawl consuming rural and natural land within and adjacent to the corridor, and

WHEREAS, the nearly 8 million acres of opportunity areas still needing protection consist largely of working ranches, farms, and forests, the majority of which can be protected through conservation easements with willing landowners, thereby supporting the state’s agricultural economy and contributing to the long-term food security of Florida and the nation, and

WHEREAS, the Legislature has appropriated significant funding for the state’s conservation programs, providing incentive for conservation and sustainable development while preserving the green infrastructure that is the foundation of this state’s economy and quality of life, and

WHEREAS, since July 2021, more than 300,000 acres of land in the Florida Wildlife Corridor have been approved for protection by Governor Ron DeSantis and the Cabinet, including Commissioner of Agriculture Wilton Simpson, who made the corridor a priority during his term as Senate President, with funding appropriated by the Legislature from the Department of Environmental Protection’s Florida Forever Program and the Department of Agriculture and Consumer Services’ Rural and Family Lands Protection Program, and

WHEREAS, a number of federal and local programs have increased their investment in Florida conservation, following the lead of the state in prioritizing the framework of the Florida Wildlife Corridor, and

WHEREAS, these programs share the state’s goal of protecting an additional 600,000 acres in the Florida Wildlife Corridor by 2030, balancing this commitment to urgent conservation with the demand for development to accommodate the more than 2 million new residents projected to move to this state within the next 5 years, and

WHEREAS, public access to the Florida Wildlife Corridor was greatly expanded in 2023 with the Legislature passing, and Governor DeSantis signing, legislation that connects the corridor to the Florida Greenways and Trails System and the Florida Shared-Use Nonmotorized (SUN) Trail Network, as well as additional pathways to heritage small towns throughout this state, and

WHEREAS, with the state's funding commitment in recent years to such projects, the Department of Environmental Protection and the Department of Transportation have coordinated the establishment of multiuse trails, including investment in the planning, design, and construction of the SUN Trail Network and the campaign to recognize various communities as "Trail Towns," in conjunction with Visit Florida's promotion of trail-based tourism, and

WHEREAS, connecting trails with the Florida Wildlife Corridor creates a means to preserve many natural areas and provides expanded access for Floridians and visitors to hike, run, and bike between trail destinations and see firsthand this state's unique natural habitat and picturesque small towns, and

WHEREAS, the Florida Wildlife Corridor provides strong protection of other tourism and recreation destinations, such as spring vents, rivers, estuaries, and wetlands, which are home to fisheries, carbon sequestration, nutrient capture and cycling, groundwater recharge critical to water supply, and water storage, and

6. An aggrieved party may appeal a final administrative order consistent with the process provided in s. 162.11.

(c) Any hearing for a contested notice of violation that has not been conducted before July 1, 2025, may be conducted pursuant to the procedures in this subsection within 1 year after such date.

(9)(8) A uniform traffic citation must be issued by mailing the uniform traffic citation by certified mail to the address of the registered owner of the motor vehicle involved in the violation if, *within 60 days after notification under subsection (5)*, payment has not been made, ~~within 30 days after notification under subsection (5) and if~~ the registered owner has not submitted an affidavit in accordance with subsection (11), *or the registered owner has not requested an administrative hearing with the school district or county, as applicable, contesting the notice of violation pursuant to subsection (6) (10).*

(a) Delivery of the uniform traffic citation constitutes notification of a violation under this subsection. If the registered owner or co-owner of the motor vehicle; the person identified as having care, custody, or control of the motor vehicle at the time of the violation; or a duly authorized representative of the owner, co-owner, or identified person initiates a proceeding to challenge the citation, such person waives any challenge or dispute as to the delivery of the uniform traffic citation.

(b) In the case of joint ownership of a motor vehicle, the uniform traffic citation must be mailed to the first name appearing on the motor vehicle registration, unless the first name appearing on the registration is a business organization, in which case the second name appearing on the registration may be used.

(c) The uniform traffic citation mailed to the registered owner of the motor vehicle involved in the violation must be accompanied by information described in paragraphs (5)(a)-(f).

(11)(10) To establish such facts under subsection (10) (9), the registered owner of the motor vehicle must, within ~~60~~ 30 days after the date of issuance of the notice of violation or the uniform traffic citation, furnish to the law enforcement agency that issued the notice of violation or uniform traffic citation an affidavit setting forth information supporting an exception under subsection (10) (9).

(a) An affidavit supporting the exception under paragraph (10)(a) ~~(9)(a)~~ must include the name, address, date of birth, and, if known, the driver license number of the person who leased, rented, or otherwise had care, custody, or control of the motor vehicle at the time of the alleged violation. If the motor vehicle was stolen at the time of the alleged violation, the affidavit must include the police report indicating that the motor vehicle was stolen.

(b) If a uniform traffic citation for a violation of s. 316.172(1)(a) or (b) was issued at the location of the violation by a law enforcement officer, the affidavit must include the serial number of the uniform traffic citation.

(c) If the motor vehicle's owner to whom a notice of violation or a uniform traffic citation has been issued is deceased, the affidavit must include a certified copy of the owner's death certificate showing that the date of death occurred on or before the date of the alleged violation and one of the following:

1. A bill of sale or other document showing that the deceased owner's motor vehicle was sold or transferred after his or her death but on or before the date of the alleged violation.

2. Documented proof that the registered license plate belonging to the deceased owner's motor vehicle was returned to the department or any branch office or authorized agent of the department after his or her death but on or before the date of the alleged violation.

3. A copy of the police report showing that the deceased owner's registered license plate or motor vehicle was stolen after his or her death but on or before the date of the alleged violation.

Upon receipt of the affidavit and documentation required under paragraphs (b) and (c), or ~~60~~ 30 days after the date of issuance of a notice of violation sent to a person identified as having care, custody, or control of the motor vehicle at the time of the violation under paragraph (a), the law enforcement agency must dismiss the notice or citation and provide proof of such dismissal to the person who submitted the affidavit. If, within ~~60~~ 30 days after the date of a notice of violation sent to a person under subsection (12) ~~(11)~~, the law enforcement agency receives an af-

fidavit under subsection (13) ~~(12)~~ from the person who was sent a notice of violation affirming that the person did not have care, custody, or control of the motor vehicle at the time of the violation, the law enforcement agency must notify the registered owner that the notice or citation will not be dismissed due to failure to establish that another person had care, custody, or control of the motor vehicle at the time of the violation.

(12)(11) Upon receipt of an affidavit under paragraph (10)(a) ~~(9)(a)~~, the law enforcement agency may issue the person identified as having care, custody, or control of the motor vehicle at the time of the violation a notice of violation pursuant to subsection (5) for a violation of s. 316.172(1)(a) or (b). The affidavit is admissible in a proceeding pursuant to this section for the purpose of providing evidence that the person identified in the affidavit was in actual care, custody, or control of the motor vehicle. The owner of a leased motor vehicle for which a uniform traffic citation is issued for a violation of s. 316.172(1)(a) or (b) is not responsible for paying the uniform traffic citation and is not required to submit an affidavit as specified in subsection (11) ~~(10)~~ if the motor vehicle involved in the violation is registered in the name of the lessee of such motor vehicle.

(13)(12) If a law enforcement agency receives an affidavit under paragraph (10)(a) ~~(9)(a)~~, the notice of violation required under subsection (5) must be sent to the person identified in the affidavit within 30 days after receipt of the affidavit. The person identified in an affidavit and sent a notice of violation may ~~also~~ affirm he or she did not have care, custody, or control of the motor vehicle at the time of the violation by furnishing to the appropriate law enforcement agency within ~~60~~ 30 days after the date of the notice of violation an affidavit stating such.

(h) *For purposes of determining adjacency under this subsection:*

1. *A parcel is adjacent to another parcel if it shares a continuous boundary of at least 100 feet, including where such parcels are separated by a public street or other public right-of-way.*

2. *A retention pond, stormwater area, park, or other designated common area of a community counts toward the 100-foot boundary requirement provided in subparagraph 1. if the parcel has the same or substantially similar zoning classification as the parcel being used by the agricultural enclave for density purposes. This applies to a parcel, regardless of whether such parcel contains residential lots, provided the parcel has the same or similar zoning as the parcels containing residential lots and was part of the development review of the adjoining subdivision.*

3. *Multiple parcels aggregated within a single unified application concerning an enclave parcel or development site satisfy the adjacency requirements of this subsection if, in the aggregate, the combined parcels meet the 100-foot boundary requirement provided in subparagraph 1*
~~**AMENDMENT TO LOCAL GOVERNMENT COMPREHENSIVE PLAN.** The owner of a parcel of land defined as an agricultural enclave under s. 163.3164 may apply for an amendment to the local government comprehensive plan pursuant to s. 163.3184. Such amendment is presumed not to be urban sprawl as defined in s. 163.3164 if it includes land uses and intensities of use that are consistent with the uses and intensities of use of the industrial, commercial, or residential areas that surround the parcel. This presumption may be rebutted by clear and convincing evidence. Each application for a comprehensive plan amendment under this subsection for a parcel larger than 640 acres must include appropriate new urbanism concepts such as clustering, mixed use development, the creation of rural village and city centers, and the transfer of development rights in order to discourage urban sprawl while protecting landowner rights.~~

(a) ~~The local government and the owner of a parcel of land that is the subject of an application for an amendment shall have 180 days following the date that the local government receives a complete application to negotiate in good faith to reach consensus on the land uses and intensities of use that are consistent with the uses and intensities of use of the industrial, commercial, or residential areas that surround the parcel. Within 30 days after the local government's receipt of such an application, the local government and owner must agree in writing to a schedule for information submittal, public hearings, negotiations, and final action on the amendment, which schedule may thereafter be altered only with the written consent of the local government and the owner. Compliance with the schedule in the written agreement constitutes good faith negotiations for purposes of paragraph (c).~~

(b) ~~Upon conclusion of good faith negotiations under paragraph (a), regardless of whether the local government and owner reach consensus on the land uses and intensities of use that are consistent with the uses and intensities of use of the industrial, commercial, or residential areas that surround the parcel, the amendment must be transmitted to the state land planning agency for review pursuant to s. 163.3184. If the local government fails to transmit the amendment within 180 days after receipt of a complete application, the amendment must be immediately transferred to the state land planning agency for such review. A plan amendment transmitted to the state land planning agency submitted under this subsection is presumed not to be urban sprawl as defined in s. 163.3164. This presumption may be rebutted by clear and convincing evidence.~~

(c) ~~If the owner fails to negotiate in good faith, a plan amendment submitted under this subsection is not entitled to the rebuttable presumption under this subsection in the negotiation and amendment process.~~

PRAYER

The following prayer was offered by Rabbi Moshe Matz, Agudath Israel of Florida, Aventura:

I am once again honored to have been invited by my dear, dear friend, Senator Jason Pizzo, to open today's session with a prayer. I would also like to express my appreciation to Senate President Albritton for his warm welcome and friendship.

I would like to take a moment, if I may, to share a thought and then a quick prayer. The Jewish people just concluded the Passover holiday. As we sat around our tables with our families, recounting the story of the Exodus, we were instructed to continue to bear witness to our history and to remain faithful to the lessons of our past and allow them to define us in the present.

Today, there are approximately 250,000 or so Holocaust survivors left in the world. They are the last that can remind us of the atrocities of that dark chapter in history. They are the only ones who can show us their scars and tattooed numbers on their arms. And yet, there are those that deny the Holocaust today—even wish to resurrect the hatred

and anti-semitism that gave birth to an evil that left my people in ashes. But we, the Jewish people, rise from the ashes because we have a divine promise that guarantees our eternity and a divine providence that envelops and protects us.

Our gratitude to this country for opening up its doors and providing us with a safe haven to rebuild our Jewish life is without words. Our people can practice our faith freely, we can worship and educate our children to follow our heritage, we can participate in society, and contribute to the betterment of all.

Now, our generation is being called upon to rise up and be the voice that does not let the world forget the destruction and pain the Holocaust brought. We must be the new generation of witnesses for those that can no longer speak for themselves. We must ensure that there is no room for this type of hatred to ever rear its ugly head ever again—whether on a college campus, or in media, or anywhere in society.

There is a fascinating prayer that we recite daily, "עושה שלום במרומיו", הוא יעשה שלום עלינו ועל כל ישראל. He who makes peace above should make peace for us and for all of Israel."

When we pray for peace, we pray for the same peace as they have in heaven. The peace of heaven is a peace where there is a common purpose, a peace without anger, jealousy, or rivalry. The only purpose is to bring honor to our Heavenly Father. Let us pray that we will experience such a peace in our lifetime. May G-d bless us all. May G-d bless the United States of America.

PLEDGE

Senate Pages, Gabriel Lopez of Lutz; Caroline McKeel of Lakeland; and Rebecca Sanchez-Pollack of Coral Gables, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

Senator Grall moved the following amendment which failed:

Amendment 2 (673850)—Delete lines 85-174 and insert:

e.(I) The identity of any officer, involved in a use of force incident and who becomes the victim of a crime in the course and scope of the officer's employment or official duties in the same or a related incident is confidential and exempt from the public records law as set forth in sub-subparagraphs (II) and (III).

(II) During the 72 hours immediately following an incident in which an officer becomes the victim of a crime, the identity of the officer contained in any public record that reveals that the officer was involved in such a use of force incident is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. At the expiration of the 72-hour period, the officer's identity shall be subject to s. 119.07(1) unless the employing agency head provides written findings setting forth the necessity for an extension of the confidentiality of the officer's identity.

(III) The employing agency head may extend the confidentiality of the identity of an officer contained in any public record that reveals that the officer was involved in such a use of force incident only upon written findings. The written findings by employing agency head shall state the necessity of extending the confidentiality of the officer's identity beyond the 72-hour period and the written findings must be made public before the 72-hour period expires. Such an extension may not exceed 60 days.

(IV) This sub-subparagraph is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed

on October 2, 2030, unless reviewed and saved from repeal through re-enactment by the Legislature.

2.a. Any information in a videotaped statement of a minor who is alleged to be or who is a victim of sexual battery, lewd acts, or other sexual misconduct proscribed in chapter 800 or in s. 794.011, s. 827.071, s. 847.012, s. 847.0125, s. 847.013, s. 847.0133, or s. 847.0145, which reveals that minor's identity, including, but not limited to, the minor's face; the minor's home, school, church, or employment telephone number; the minor's home, school, church, or employment address; the name of the minor's school, church, or place of employment; or the personal assets of the minor; and which identifies that minor as the victim of a crime described in this subparagraph, held by a law enforcement agency, is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. Any governmental agency that is authorized to have access to such statements by any provision of law shall be granted such access in the furtherance of the agency's statutory duties, notwithstanding the provisions of this section.

b. A public employee or officer who has access to a videotaped statement of a minor who is alleged to be or who is a victim of sexual battery, lewd acts, or other sexual misconduct proscribed in chapter 800 or in s. 794.011, s. 827.071, s. 847.012, s. 847.0125, s. 847.013, s. 847.0133, or s. 847.0145 may not willfully and knowingly disclose videotaped information that reveals the minor's identity to a person who is not assisting in the investigation or prosecution of the alleged offense or to any person other than the defendant, the defendant's attorney, or a person specified in an order entered by the court having jurisdiction of the alleged offense. A person who violates this provision commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

Section 2. *The Legislature finds that s. 16(b), Article I of the State Constitution mandates that crime victims have a right to be free from intimidation, harassment, and abuse and that it is a public necessity that information or records that may be used to locate, intimidate, harass, or abuse crime victims be made exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution. The Legislature further finds that exempting records or documents, which identify the crime victim, the victim's family, or any information that may be used to threaten or harass the victim or the victim's family, from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution is a public necessity to prevent the possibility of further trauma. The Legislature also finds that the release of such records or documents may deter crime victims from cooperating with law enforcement and reporting criminal acts.*

PRAYER

The following prayer was offered by Pastor Earl Glisson, Anchor Faith Church, St. Augustine:

Dear Heavenly Father, we come before you with humble hearts, acknowledging your sovereign authority over all creation as we pray for those who are in authority. We admonish people to respect their governmental leaders on every level as law abiding citizens. Lord, we encourage all to never tear down anyone with their words or quarrel, but instead be considerate, humble, and courteous to everyone.

As this day begins, I pray that we take into account the administration of your servant, Solomon, and acknowledge that the most prosperous administration on the earth started by acknowledging the need for both wisdom and an understanding heart to discern good and evil. This freed the leader from distraction and intimidation by those pretending to be wise; they were simply consumed with endless arguments of selfish ambition. May the men and women of this Senate have that same desire.

Your Word clearly states in Proverbs 2:6, "The Lord gives wisdom; from His mouth comes knowledge and understanding." With this being said, I pray that while debating legislation, these legislators would not lean to their own understanding, but follow the precedent established in Proverbs and seek you for guidance by laying their plans, concerns, and

paths before you. In doing so, I am confident that you will make their paths ethical, moral, and just. For they know that the work they accomplish this session not only governs their lives but the lives of all Floridians.

Father, cover them, their families, and staff members with your protection and deliver them from fear, danger, and every snare of the enemy. Strengthen all today as they are ready to fulfill their civic duty of the call to public service, serving with integrity. We ask all these things in the name of Jesus. Amen.

(9) *The commission may adopt rules to implement this section.*

Section 7. Subsection (2) of section 327.45, Florida Statutes, is amended to read:

327.45 Protection zones for springs.—

(2) The commission may establish by rule protection zones that restrict the speed and operation of vessels, or that prohibit or modify the allowable means of anchoring, mooring, beaching, or grounding of vessels, to protect and prevent significant harm to first, second, and third magnitude springs and springs groups, including their associated spring runs, as determined by the commission using the most recent Florida Geological Survey springs bulletin. Significant harm includes negative impacts to water quality, water quantity, hydrology, wetlands, and aquatic and wetland-dependent species where the operation, anchoring, mooring, beaching, or grounding of vessels is determined to be the predominant cause of negative impacts.

Section 8. Paragraph (c) of subsection (1) of section 327.54, Florida Statutes, is amended, and paragraph (d) of subsection (3) is reenacted to read:

327.54 Liveries; safety regulations; penalty.—

(1) As used in this section, the term:

(c) “Livery” means a person who advertises and offers a livery vessel for use by another in exchange for any type of consideration when such person does not also provide or does not require the lessee or renter to provide as a condition of the rental or lease agreement a person licensed by the United States Coast Guard to serve as master of the vessel or to with a captain, a crew, or any type of staff or personnel to operate, oversee, maintain, or manage the vessel. The owner of a vessel who does not advertise his or her vessel for use by another for consideration and who loans or offers his or her vessel for use to another known to him or her either for consideration or without consideration is not a livery. A public or private school or postsecondary institution located within this state is not a livery. A vessel rented or leased by a livery is a livery vessel as defined in s. 327.02.

(3) A livery may not knowingly lease or rent a vessel to any person:

(d) When the vessel is not seaworthy, is a derelict vessel as defined in s. 823.11, or is at risk of becoming derelict as provided in s. 327.4107.

Section 9. Section 327.56, Florida Statutes, is amended to read:

327.56 Safety and marine sanitation equipment inspections; probable cause; qualified.—

(1) ~~An officer may not shall board any vessel or perform a vessel stop in this state unless to make a safety or marine sanitation equipment inspection if the owner or operator is not aboard. When the owner or operator is aboard, an officer may board a vessel with consent or when the officer has probable cause or knowledge to believe that a violation of a provision of this chapter has occurred or is occurring.~~

(2) ~~An officer may not perform a vessel stop or board a vessel for the sole purpose of performing a safety or marine sanitation equipment inspection. A violation of safety or marine sanitation equipment requirements is a secondary offense, rather than a primary offense. An officer may board a vessel when the operator refuses or is unable to display the safety or marine sanitation equipment required by law, if requested to do so by a law enforcement officer, or when the safety or marine sani-~~

~~tation equipment to be inspected is permanently installed and is not visible for inspection unless the officer boards the vessel.~~

~~(2) Inspection of floating structures for compliance with this section shall be as provided in s. 403.091.~~

Section 10. Subsection (2) and paragraph (a) of subsection (3) of section 327.70, Florida Statutes, are amended, and paragraph (e) is added to subsection (3) of that section, to read:

327.70 Enforcement of this chapter and chapter 328.—

(2)(a)1. ~~The commission, in coordination with the Department of Highway Safety and Motor Vehicles, shall create a “Florida Freedom Boater” safety inspection decal for issue at the time of registration or renewal, signifying that the vessel is deemed to have met the safety equipment carriage and use requirements of this chapter. Upon demonstrated compliance with the safety equipment carriage and use requirements of this chapter at the time of registration or renewal during a safety inspection initiated by a law enforcement officer, the operator of a vessel shall be issued a “Florida Freedom Boater” safety inspection decal signifying that the vessel is deemed to have met the safety equipment carriage and use requirements of this chapter at the time and location of such inspection. The commission may designate by rule the timeframe for expiration of, and the specific design for, the Florida Freedom Boater safety inspection decal. However, a decal may not be valid for less than 1 calendar year or more than 5 years at the time of issue and, at a minimum, must meet the standards specified in this paragraph. All decals issued by the commission on or before December 31, 2018, are no longer valid after that date.~~

2. ~~The Florida Freedom Boater safety inspection decal, if displayed, must be located within 6 inches of the inspected vessel’s properly displayed vessel registration decal. For nonmotorized vessels that are not required to be registered, the Florida Freedom Boater safety inspection decal, if displayed, must be located above the waterline on the forward half of the port side of the vessel.~~

(b) ~~If a vessel properly displays a valid safety inspection decal created or approved by the division, a law enforcement officer may not stop the vessel for the sole purpose of inspecting the vessel for compliance with the safety equipment carriage and use requirements of this chapter unless there is reasonable suspicion that a violation of a safety equipment carriage or use requirement has occurred or is occurring. This subsection does not restrict a law enforcement officer from stopping a vessel for any other lawful purpose when the officer has probable cause to believe that a violation of this chapter has occurred or is occurring.~~

(3)(a) Noncriminal violations of the following statutes may be enforced by a uniform boating citation mailed to the registered owner of an unattended vessel anchored, aground, or moored on the waters of this state:

a. A vessel is wrecked if it is sunken or sinking; aground without the ability to extricate itself absent mechanical assistance; or remaining after a marine casualty, including, but not limited to, a boating accident, extreme weather, or a fire.

b. A vessel is junked if it has been substantially stripped of vessel components, if vessel components have substantially degraded or been destroyed, or if the vessel has been discarded by the owner or operator. Attaching an outboard motor to a vessel that is otherwise junked will not cause the vessel to no longer be junked if such motor is not an effective means of propulsion as required by s. 327.4107(2)(e) and associated rules.

c. A vessel is substantially dismantled if at least two of the three following vessel systems or components are missing, compromised, incomplete, inoperable, or broken:

- (I) The steering system;
- (II) The propulsion system; or
- (III) The exterior hull integrity.

Attaching an outboard motor to a vessel that is otherwise substantially dismantled will not cause the vessel to no longer be substantially dismantled if such motor is not an effective means of propulsion as required by s. 327.4107(2)(e) and associated rules.

2. At a port in this state without the consent of the agency having jurisdiction thereof.

3. Docked, grounded, or beached upon the property of another without the consent of the owner of the property.

(2)(a) A vessel owner as defined in s. 327.02 ~~person, firm, or corporation~~ may not leave any derelict vessel upon waters of this state. For purposes of this paragraph, the term “leave” means to allow a vessel to remain occupied or unoccupied on the waters of this state for more than 24 hours.

(c) The additional time provided in subparagraph (b)2. for an owner ~~or responsible party~~ to remove a derelict vessel from the waters of this

state or to repair and remedy the vessel’s derelict condition does not apply to a vessel that was derelict upon the waters of this state before the stated accident or event.

(d) Notwithstanding the additional 45 days provided in sub-subparagraph (b)2.b. during which an owner ~~or a responsible party~~ may not be charged for a violation of this section, the commission, an officer of the commission, a law enforcement agency or officer specified in s. 327.70, or, during a state of emergency declared by the Governor, the Division of Emergency Management or its designee, may immediately begin the process set forth in s. 705.103(2)(a) and, once that process has been completed and the 45 days provided herein have passed, any vessel that has not been removed or repaired such that it is no longer derelict upon the waters of this state may be removed and destroyed as provided therein.

(e) *The title of a derelict vessel is prima facie evidence of ownership for any derelict vessel left upon the waters of this state. An owner who attempts to transfer ownership of a vessel or derelict vessel through means other than the process outlined in s. 328.22 or s. 328.64 will not be exonerated from the responsibility of having a derelict vessel upon the waters of this state without a written agreement of ownership by the transferee or evidence of agreement to transfer ownership to the transferee and the exchange of consideration between the parties.*

(3) The commission, an officer of the commission, or a law enforcement agency or officer specified in s. 327.70 may relocate, remove, and store or cause to be relocated, removed, and stored a derelict vessel from waters of this state as defined in s. 327.02 if the derelict vessel obstructs or threatens to obstruct navigation or in any way constitutes a danger to the environment, property, or persons. The commission, an officer of the commission, or any other law enforcement agency or officer acting pursuant to this subsection to relocate, remove, and store or cause to be relocated, removed, and stored a derelict vessel from waters of this state shall be held harmless for all damages to the derelict vessel resulting from such action unless the damage results from gross negligence or willful misconduct.

(a) All costs, including costs owed to a third party, incurred by the commission, another law enforcement agency, or a governmental subdivision, when the governmental subdivision has received authorization from a law enforcement officer or agency, in the relocation, removal, storage, destruction, or disposal of a derelict vessel are recoverable against the vessel owner ~~of or the party determined to be legally responsible for~~ the vessel ~~on being upon~~ the waters of this state in a derelict condition. The Department of Legal Affairs shall represent the commission in actions to recover such costs. As provided in s. 705.103(4), a person who neglects or refuses to pay such costs may not be issued a certificate of registration for such vessel or for any other vessel or motor vehicle until such costs have been paid. A person who has neglected or refused to pay all costs of removal, storage, destruction, or disposal of a derelict vessel as provided in this section, after having been provided written notice via certified mail that such costs are owed, and who applies for and is issued a registration for a vessel or motor vehicle before such costs have been paid in full commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(4)

(c) The commission may establish a program to provide grants to local governments for the removal, storage, destruction, and disposal of derelict vessels from the waters of this state. This grant funding may also be used for the removal, storage, destruction, and disposal of vessels declared a public nuisance pursuant to s. 327.73(1)(aa) ~~or the derelict vessel prevention program established pursuant to s. 327.4107(7)~~. The program must be funded from the Marine Resources Conservation Trust Fund or the Florida Coastal Protection Trust Fund. Notwithstanding s. 216.181(11), funds available for these grants may only be authorized by appropriations acts of the Legislature. In a given fiscal year, if all funds appropriated pursuant to this paragraph are not requested by and granted to local governments for the removal, storage, destruction, and disposal of derelict vessels or vessels declared a public nuisance pursuant to s. 327.73(1)(aa) by the end of the third quarter, the Fish and Wildlife Conservation Commission may use the remainder of the funds to remove, store, destroy, and dispose of, or to pay private contractors to remove, store, destroy, and dispose of, derelict vessels or vessels declared a public nuisance pursuant to s. 327.73(1)(aa). The commission shall adopt by rule procedures for local governments to

submit a grant application and criteria for allocating available funds. Such criteria must include, at a minimum, *all of the following*:

1. The number of derelict vessels within the jurisdiction of the applicant.

2. The threat posed by such vessels to public health or safety, the environment, navigation, or the aesthetic condition of the general vicinity.

3. The degree of commitment of the local government to maintain waters free of abandoned and derelict vessels and to seek legal action against those who abandon vessels in the waters of this state as defined in s. 327.02.

(6) ~~A person, firm, or corporation violating this section commits a misdemeanor of the first degree and shall be punished as provided by law.~~ A conviction under this section does not bar the assessment and collection of a civil penalty. The court having jurisdiction over the criminal offense, notwithstanding any jurisdictional limitations on the amount in controversy, may order the imposition of such civil penalty in addition to any sentence imposed for the ~~first~~ criminal offense.

(a) *For a first offense, a vessel owner who violates this section commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.*

(b) *For a second offense, a vessel owner who violates this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.*

(c) *For a third or subsequent offense, a vessel owner who violates this section commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.*

(7) *A person may not reside or dwell on a vessel determined to be derelict by disposition of a court or administrative order, or where the vessel owner does not challenge the derelict determination pursuant to chapter 120. A person who violates this subsection commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. Law enforcement has the power and duty to issue orders, perform investigations, complete reports, and perform arrests in connection with such violations to enforce this provision. If a vessel is returned to the waters of this state in a condition that is no longer derelict, a person may reside or dwell on such vessel. The commission may adopt rules to implement this section.* ~~If an owner or a responsible party of a vessel determined to be derelict through an administrative or criminal proceeding has been charged by an officer of the commission or any law enforcement agency or officer as specified in s. 327.70 under subsection (6) for a violation of subsection (2), a person may not reside or dwell on such vessel until the vessel is removed from the waters of the state permanently or returned to the waters of the state in a condition that is no longer derelict.~~

Senator Avila moved the following amendment which was adopted:

Amendment 1 (740346) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 937.0401, Florida Statutes, is created to read:

937.0401 *Spectrum Alert.*—

(1) *The Legislature finds that autism spectrum disorder (ASD) significantly affects children in this country, creating unique challenges that can lead to critical safety risks, such as elopement or wandering behaviors in children. Children with ASD are prone to wander from safe environments at a higher rate than their non-autistic peers. Elopement frequently results in severe consequences, including fatal traffic accidents and drownings. Notably, drowning is the leading cause of death of children with ASD in this country, with Florida ranking fifth in the nation. The high propensity for elopement and the ineffectiveness of traditional search and response methods necessitate a robust system that will swiftly locate and ensure the safety of missing children with ASD. The Legislature finds that a standardized system is necessary to aid in the search for a missing child with ASD.*

(2) *By July 1, 2026, the Department of Law Enforcement, in cooperation with the Department of Transportation, the Department of Highway Safety and Motor Vehicles, the Department of the Lottery, and local law enforcement agencies, shall establish and implement the Spectrum Alert to enhance the safety and well-being of children with ASD through immediate and effective community and emergency response.*

(3) *By July 1, 2026, the Department of Law Enforcement, in cooperation with the Department of Transportation, the Department of Highway Safety and Motor Vehicles, the Department of the Lottery, and local law enforcement agencies, shall:*

(a) *Develop a training program and alert system for missing children with ASD which is compatible with existing alert systems. (5) SPONSOR; DUTIES.—

(b) Sponsor duties.—

1.a. The sponsor shall monitor and review the charter school in its progress toward the goals established in the charter.

b. The sponsor shall monitor the revenues and expenditures of the charter school and perform the duties provided in s. 1002.345.

c. The sponsor may approve a charter for a charter school before the applicant has identified space, equipment, or personnel, if the applicant indicates approval is necessary for it to raise working funds.

d. The sponsor may not apply its policies to a charter school unless mutually agreed to by both the sponsor and the charter school. If the sponsor subsequently amends any agreed-upon sponsor policy, the version of the policy in effect at the time of the execution of the charter, or any subsequent modification thereof, shall remain in effect and the sponsor may not hold the charter school responsible for any provision of a newly revised policy until the revised policy is mutually agreed upon.

e. The sponsor shall ensure that the charter is innovative and consistent with the state education goals established by s. 1000.03(5).

f. The sponsor shall ensure that the charter school participates in the state's education accountability system. If a charter school falls

short of performance measures included in the approved charter, the sponsor shall report such shortcomings to the Department of Education.

g. The sponsor is not liable for civil damages under state law for personal injury, property damage, or death resulting from an act or omission of an officer, employee, agent, or governing body of the charter school.

h. The sponsor is not liable for civil damages under state law for any employment actions taken by an officer, employee, agent, or governing body of the charter school.

i. The sponsor's duties to monitor the charter school do not constitute the basis for a private cause of action.

j. The sponsor may not impose additional reporting requirements on a charter school as long as the charter school has not been identified as having a deteriorating financial condition or financial emergency pursuant to s. 1002.345.

k. *The sponsor may not impose upon a charter school administrative deadlines that are earlier than the sponsor's own corresponding deadlines for similar reports or submissions. Any deadline imposed upon a charter school for financial audits or other administrative requirements may not be earlier than 15 days before the sponsor's own deadline for similar submissions to the department.*

l. ~~k.~~ The sponsor shall submit an annual report to the Department of Education in a web-based format to be determined by the department.

(I) The report ~~must~~ *shall* include the following information:

(A) The number of applications received during the school year and up to August 1 and each applicant's contact information.

(B) The date each application was approved, denied, or withdrawn.

(C) The date each final contract was executed.

(II) Annually, by November 1, the sponsor shall submit to the department the information for the applications submitted the previous year.

(III) The department shall compile an annual report, by sponsor, and post the report on its website by January 15 of each year.

2. Immunity for the sponsor of a charter school under subparagraph 1. applies only with respect to acts or omissions not under the sponsor's direct authority as described in this section.

3. This paragraph does not waive a sponsor's sovereign immunity.

4. A Florida College System institution may work with the school district or school districts in its designated service area to develop charter schools that offer secondary education. These charter schools must include an option for students to receive an associate degree upon high school graduation. If a Florida College System institution operates an approved teacher preparation program under s. 1004.04 or s. 1004.85, the institution may operate charter schools that serve students in kindergarten through grade 12 in any school district within the service area of the institution. District school boards shall cooperate with and assist the Florida College System institution on the charter application. Florida College System institution applications for charter schools are not subject to the time deadlines outlined in subsection (6) and may be approved by the district school board at any time during the year. Florida College System institutions may not report FTE for any students participating under this subparagraph who receive FTE funding through the Florida Education Finance Program.

5. For purposes of assisting the development of a charter school, a school district may enter into nonexclusive interlocal agreements with federal and state agencies, counties, municipalities, and other governmental entities that operate within the geographical borders of the school district to act on behalf of such governmental entities in the inspection, issuance, and other necessary activities for all necessary permits, licenses, and other permissions that a charter school needs in order for development, construction, or operation. A charter school may use, but may not be required to use, a school district for these services. The interlocal agreement must include, but need not be limited to, the

identification of fees that charter schools will be charged for such services. The fees must consist of the governmental entity's fees plus a fee for the school district to recover no more than actual costs for providing such services. These services and fees are not included within the services to be provided pursuant to subsection (20). Notwithstanding any other provision of law, an interlocal agreement or ordinance that imposes a greater regulatory burden on charter schools than school districts or that prohibits or limits the creation of a charter school is void and unenforceable. An interlocal agreement entered into by a school district for the development of only its own schools, including provisions relating to the extension of infrastructure, may be used by charter schools.

6. The board of trustees of a sponsoring state university or Florida College System institution under paragraph (a) is the local educational agency for all charter schools it sponsors for purposes of receiving federal funds and accepts full responsibility for all local educational agency requirements and the schools for which it will perform local educational agency responsibilities. A student enrolled in a charter school that is sponsored by a state university or Florida College System institution may not be included in the calculation of the school district's grade under s. 1008.34(5) for the school district in which he or she resides.

(c) Sponsor accountability.—

- b. The alignment of the sponsor's policies and practices to best practices for charter school authorization.
- c. The academic and financial performance of all operating charter schools overseen by the sponsor.
- d. The status of charter schools authorized by the sponsor, including approved, operating, and closed schools.

2. The department shall compile the results by sponsor and include the results in the report required under sub-sub-subparagraph (b) 1.1.(III) ~~(b) 1.1.(III)~~.

(9) CHARTER SCHOOL REQUIREMENTS.—

(s) *A charter school governing board may adopt its own code of student conduct. The code of student conduct must meet or exceed the minimum standards set forth in the sponsor's code of student conduct. Any provision of the code of student conduct which is more stringent than the sponsor's code of student conduct must align with the mission of the charter school. The sponsor may review the code and offer recommendations. Any complaint or appeal related to the code of student conduct must be resolved by the charter school's governing board using the board's established procedures and must be in compliance with applicable law and rules.*

(10) ELIGIBLE STUDENTS.—

(d) A charter school may give enrollment preference to the following student populations:

1. Students who are siblings of a student enrolled in the charter school.

6. Students who are the children of an active duty member of any branch of the United States Armed Forces.

7. Students who attended or are assigned to failing schools pursuant to s. 1002.38(2).

8. Students who are the children of a safe-school officer, as defined in s. 1006.12, at the school.

9. Students who transfer from a classical school in this state to a charter classical school in this state. For purposes of this subparagraph, the term "classical school" means a traditional public school or charter school that implements a classical education model that emphasizes the development of students in the principles of moral character and civic virtue through a well-rounded education in the liberal arts and sciences which is based on the classical trivium stages of grammar, logic, and rhetoric.

(h) The capacity of the charter school shall be determined annually by the governing board, in conjunction with the sponsor, of the charter school in consideration of the factors identified in this subsection *and subsection (18)* unless the charter school is designated as a high-performing charter school pursuant to s. 1002.331. A sponsor may not require a charter school to waive the provisions of s. 1002.331 or require a student enrollment cap that prohibits a high-performing charter school from increasing enrollment in accordance with s. 1002.331(2) as a condition of approval or renewal of a charter.

(16) EXEMPTION FROM STATUTES.—

(b) Additionally, a charter school shall be in compliance with the following statutes:

9. Section 1006.07(7), relating to threat management teams.
10. Section 1006.07(9), relating to School Environmental Safety Incident Reporting.

A charter school must notify its sponsor in writing by March 1 if it intends to increase enrollment for the following school year. The written notice must specify the amount of the enrollment increase.

deleting obsolete provisions that provide legislative findings and require the Department of Environmental Protection to review and update a specified report; preempting the regulation of auxiliary containers to the state; permitting rules, regulations, or ordinances restricting the use of glass auxiliary containers within the boundaries of a public beach; authorizing the Division of Recreation and Parks to regulate auxiliary containers within state parks; amending ss. 403.706 and 403.707, F.S.; prohibiting a local government and the Department of Environmental Protection, respectively, from issuing a construction permit for certain solid waste disposal facilities in certain counties; providing applicability; conforming a provision to changes made by the act; conforming cross-references; amending ss. 403.7049 and 403.705, F.S.; conforming cross-references; providing an effective date.

—was read the second time by title.

Senator Smith moved the following amendment which failed:

Amendment 1 (225580) (with title amendment)—Delete lines 100-130 and insert: 403.7033 *Regulation of auxiliary containers* ~~Departmental analysis of particular recyclable materials. The Legislature finds that prudent regulation of recyclable materials is crucial to the ongoing welfare of Florida's ecology and economy. As such, the Department of Environmental Protection shall review and update its 2010 report on retail bags analyzing the need for new or different regulation of auxiliary containers, wrappings, or disposable plastic bags used by consumers to carry products from retail establishments. The updated report must include input from state and local government agencies, stakeholders, private businesses, and citizens and must evaluate the efficiency and necessity of both statewide and local regulation of these materials. To ensure consistent and effective implementation, the department shall submit the updated report with conclusions and recommendations to the Legislature no later than December 31, 2021. Until such time that the Legislature adopts the recommendations of the department,~~

(1) *The department shall develop uniform ordinances for the use, disposition, sale, or distribution of single-use, non recyclable auxiliary containers which may be adopted and enforced by local governments.*

(2) *The development of the uniform ordinances pursuant to this section must be a collaborative process that involves a broad range of stakeholders, with the objective of encouraging cooperation and achieving consensus on standards for auxiliary container regulation. In developing the uniform ordinances, the department shall hold at least two public workshops with stakeholders, local governments, environmental groups, businesses, and other members of the public. The department shall allow public participation in person and through communications media technology. To maximize public participation, a workshop may not be held in the same geographic region of this state more than once before all other regions have hosted a workshop.*

(3) *In developing the uniform ordinances pursuant to this section, the department shall consider all of the following:*

(a) *Limiting the distribution and use of single-use, non recyclable auxiliary containers by requiring that such containers be provided only upon customer request or for a mandatory fee.*

(b) *Promoting the use of recyclable or compostable auxiliary containers and encouraging businesses to offer voluntary incentives for customers using reusable auxiliary containers.*

(c) *Establishing waste reduction and collection programs for single-use auxiliary containers.*

(d) *Creating enforcement mechanisms, including penalties, for businesses that do not comply with auxiliary container ordinances.*

(4) *The department shall begin engaging with stakeholders to develop uniform ordinances no later than October 1, 2025, and shall enact them by October 1, 2026.*

(5) *A local government or, local governmental agency, or state governmental agency may not enact any rule, regulation, or ordinance regarding the use, disposition, sale, prohibition, restriction, or tax of such auxiliary containers which is inconsistent with the uniform ordinances developed pursuant to this section. This subsection does not apply to rules, regulations, or ordinances restricting the use of glass auxiliary*

containers within the boundaries of any public beach within the jurisdiction of a local government or local governmental agency; wrappings, or disposable plastic bags.

And the title is amended as follows:

Delete lines 8-14 and insert: update a specified report; requiring the department to develop uniform ordinances for the use, disposition, sale, or distribution of single-use, non recyclable auxiliary containers; requiring that the development of such ordinances be a collaborative process; requiring the department to hold a specified number of public workshops with certain groups; requiring the department to allow in-person and electronic public participation in the workshops; prohibiting a workshop from being held in the same geographic region more than once under certain circumstances; requiring the department to consider certain information when developing the uniform ordinances; requiring the department to engage with stakeholders and develop the uniform ordinances by a certain date; prohibiting certain entities from enacting certain laws relating to the use, disposition, sale, prohibition, restriction, or tax of auxiliary containers which are inconsistent with specified provisions; providing applicability; amending ss. 403.706 and 403.707, F.S.;

Pending further consideration of **CS for CS for SB 1822**, pursuant to Rule 3.11(3), there being no objection, **CS for HB 1609** was withdrawn from the Committee on Rules.

On motion by Senator Martin, the rules were waived and—

CS for HB 1609—A bill to be entitled An act relating to waste incineration; amending ss. 403.706 and 403.707, F.S.; prohibiting a local government or the Department of Environmental Protection, respectively, from issuing a construction permit for a certain new solid waste disposal facility or a waste-to-energy facility in specified areas; providing applicability; conforming cross-references; amending ss. 403.703, 403.7049, and 403.705, F.S.; conforming cross-references; providing an effective date.

—a companion measure, was substituted for **CS for CS for SB 1822** and read the second time by title.

Senator Martin moved the following amendment:

Amendment 1 (397706) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Present subsections (2) through (48) of section 403.703, Florida Statutes, are redesignated as sections (3) through (49), respectively, a new subsection (2) is added to that section, and present subsections (6), (7), (21), and (35) of that section are amended, to read:

403.703 Definitions.—As used in this part, the term:

(2) *“Auxiliary container” means a reusable or single-use bag, cup, bottle, can, or other packaging that meets both of the following requirements:*

(a) *Is made of cloth; paper; plastic, including, but not limited to, foamed plastic, expanded plastic, or polystyrene; cardboard; corrugated material; molded fiber; aluminum; glass; postconsumer recycled material; or similar material or substrates, including coated, laminated, or multilayer substrates.*

(b) *Is designed for transporting, consuming, or protecting merchandise, food, or beverages from or at a public food service establishment as defined in s. 509.013(5), a food establishment as defined in s. 500.03(1), or a retailer as defined in s. 212.02(13).*

(7)(6) *“Construction and demolition debris” means discarded materials generally considered to be not water-soluble and nonhazardous in nature, including, but not limited to, steel, glass, brick, concrete, asphalt roofing material, pipe, gypsum wallboard, and lumber, from the construction or destruction of a structure as part of a construction or demolition project or from the renovation of a structure, and includes rocks, soils, tree remains, trees, and other vegetative matter that normally results from land clearing or land development operations for a construction project, including such debris from construction of structures at a site remote from the construction or demolition project site. Mixing of construction and demolition debris with other types of solid*

waste will cause the resulting mixture to be classified as other than construction and demolition debris. The term also includes:

(a) Clean cardboard, paper, plastic, wood, and metal scraps from a construction project;

(b) Except as provided in s. 403.707(10)(j) ~~s. 403.707(9)(j)~~, yard trash and unpainted, nontreated wood scraps and wood pallets from sources other than construction or demolition projects;

(c) Scrap from manufacturing facilities which is the type of material generally used in construction projects and which would meet the definition of construction and demolition debris if it were generated as part of a construction or demolition project. This includes debris from the construction of manufactured homes and scrap shingles, wallboard, siding concrete, and similar materials from industrial or commercial facilities; and

(d) De minimis amounts of other nonhazardous wastes that are generated at construction or destruction projects, provided such amounts are consistent with best management practices of the industry.

(8)(7) “County,” or any like term, means a political subdivision of the state established pursuant to s. 1, Art. VIII of the State Constitution and, when s. 403.706(20) ~~s. 403.706(19)~~ applies, means a special district or other entity.

(22)(21) “Municipality,” or any like term, means a municipality created pursuant to general or special law authorized or recognized pursuant to s. 2 or s. 6, Art. VIII of the State Constitution and, when s. 403.706(20) ~~s. 403.706(19)~~ applies, means a special district or other entity.

(36)(35) “Solid waste” means sludge unregulated under the federal Clean Water Act or Clean Air Act, sludge from a waste treatment works, water supply treatment plant, or air pollution control facility, or garbage, rubbish, refuse, special waste, or other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from domestic, industrial, commercial, mining, agricultural, or governmental operations. Recovered materials as defined in subsection (29) ~~(28)~~ and post-use polymers as defined in subsection (25) ~~(24)~~ are not solid waste.

Section 2. Section 403.7033, Florida Statutes, is amended to read:

403.7033 *Preemption of regulation for auxiliary containers* ~~Departmental analysis of particular recyclable materials. The Legislature finds that prudent regulation of recyclable materials is crucial to the ongoing welfare of Florida's ecology and economy. As such, the Department of Environmental Protection shall review and update its 2010 report on retail bags analyzing the need for new or different regulation of auxiliary containers, wrappings, or disposable plastic bags used by consumers to carry products from retail establishments. The updated report must include input from state and local government agencies, stakeholders, private businesses, and citizens and must evaluate the efficacy and necessity of both statewide and local regulation of these materials. To ensure consistent and effective implementation, the department shall submit the updated report with conclusions and recommendations to the Legislature no later than December 31, 2021. Until such time that the Legislature adopts the recommendations of the department,~~

(1) *The regulation of auxiliary containers is expressly preempted to the state.* A local government, local governmental agency, or state governmental agency may not enact or enforce any rule, regulation, or ordinance regarding the use, disposition, sale, prohibition, restriction, or tax of such auxiliary containers *unless explicitly permitted by statute.*

(2) *Rules, regulations, or ordinances restricting the use of glass auxiliary containers within the boundaries of any public beach are explicitly permitted.*

(3) *The Division of Recreation and Parks of the Department of Environmental Protection may regulate auxiliary containers within state parks consistent with its grant of authority in s. 258.004, wrappings, or disposable plastic bags.*

Section 3. Present subsections (2) through (23) of section 403.706, Florida Statutes, are redesignated as subsections (3) through (24), re-

spectively, a new subsection (2) is added to that section, and present subsections (4), (6), (7), and (20) of that section are amended, to read:

403.706 Local government solid waste responsibilities.—

(2) *A local government may not issue a construction permit pursuant to this section for a new solid waste disposal facility that uses an ash-producing incinerator or for a waste-to-energy facility, if the proposed location of such facility is sited within a 1-mile radius of any school or any property zoned for residential use within that same county which has a density of one or more dwelling units per acre. The 1-mile radius must be measured from the stack of the facility. This subsection applies only to a county as defined in s. 125.011(1).*

(5)(a)(4)(a) ~~(4)(a)~~ In order to promote the production of renewable energy from solid waste, each megawatt-hour produced by a renewable energy facility using solid waste as a fuel shall count as 1 ton of recycled material and shall be applied toward meeting the recycling goals set forth in this section. If a county creating renewable energy from solid waste implements and maintains a program to recycle at least 50 percent of municipal solid waste by a means other than creating renewable energy, that county shall count 1.25 tons of recycled material for each megawatt-hour produced. If waste originates from a county other than the county in which the renewable energy facility resides, the originating county shall receive such recycling credit. Any byproduct resulting from the creation of renewable energy that is recycled shall count towards the county recycling goals in accordance with the methods and criteria developed pursuant to paragraph (3)(h) ~~(2)(h)~~.

(b) A county may receive credit for one-half of the recycling goal set forth in subsection (3) ~~(2)~~ from the use of yard trash, or other clean wood waste or paper waste, in innovative programs including, but not limited to, programs that produce alternative clean-burning fuels such as ethanol or that provide for the conversion of yard trash or other clean wood waste or paper waste to clean-burning fuel for the production of energy for use at facilities other than a waste-to-energy facility as defined in s. 403.7061. The provisions of this paragraph apply only if a county can demonstrate that:

1. The county has implemented a yard trash mulching or composting program, and

2. As part of the program, compost and mulch made from yard trash is available to the general public and in use at county-owned or maintained and municipally owned or maintained facilities in the county and state agencies operating in the county as required by this section.

(c) A county with a population of 100,000 or less may provide its residents with the opportunity to recycle in lieu of achieving the goal set forth in this section. For the purposes of this section, the “opportunity to recycle” means that the county:

1.a. Provides a system for separating and collecting recyclable materials prior to disposal that is located at a solid waste management facility or solid waste disposal area; or

b. Provides a system of places within the county for collection of source-separated recyclable materials.

2. Provides a public education and promotion program that is conducted to inform its residents of the opportunity to recycle, encourages source separation of recyclable materials, and promotes the benefits of reducing, reusing, recycling, and composting materials.

(7)(6) The department may reduce or modify the municipal solid waste recycling goal that a county is required to achieve pursuant to subsection (3) ~~(2)~~ if the county demonstrates to the department that:

(a) The achievement of the goal set forth in subsection (3) ~~(2)~~ would have an adverse effect on the financial obligations of a county that are directly related to a waste-to-energy facility owned or operated by or on behalf of the county; and

(b) The county cannot remove normally combustible materials from solid waste that is to be processed at a waste-to-energy facility because of the need to maintain a sufficient amount of solid waste to ensure the financial viability of the facility.

The goal shall not be waived entirely and may only be reduced or modified to the extent necessary to alleviate the adverse effects of achieving the goal on the financial viability of a county's waste-to-energy facility. Nothing in this subsection shall exempt a county from developing and implementing a recycling program pursuant to this act.

(8)(7) In order to assess the progress in meeting the goal set forth in subsection (3) ~~(2)~~, each county shall, by April 1 each year, provide information to the department regarding its annual solid waste management program and recycling activities.

(a) The information submitted to the department by the county must, at a minimum, include:

1. The amount of municipal solid waste disposed of at solid waste disposal facilities, by type of waste such as yard trash, white goods, clean debris, tires, and unseparated solid waste;

2. The amount and type of materials from the municipal solid waste stream that were recycled; and

3. The percentage of the population participating in various types of recycling activities instituted.

(b) Beginning with the data for the 2012 calendar year, the department shall by July 1 each year post on its website the recycling rates of each county for the prior calendar year.

(21)(20) In addition to any other penalties provided by law, a local government that does not comply with the requirements of subsections (3) and (5) ~~is (2) and (4) shall~~ not be eligible for grants from the Solid Waste Management Trust Fund, and the department may notify the Chief Financial Officer to withhold payment of all or a portion of funds payable to the local government by the department from the General Revenue Fund or by the department from any other state fund, to the extent not pledged to retire bonded indebtedness, unless the local government demonstrates that good faith efforts to meet the requirements of subsections (3) and (5) ~~(2) and (4)~~ have been made or that the funds are being or will be used to finance the correction of a pollution control problem that spans jurisdictional boundaries.

Section 4. Present subsections (6) through (14) of section 403.707, Florida Statutes, are redesignated as subsections (7) through (15), respectively, a new subsection (6) is added to that section, and paragraph (j) of present subsection (9) of that section is amended, to read:

403.707 Permits.—

(6) *The department may not issue a construction permit pursuant to this section for a new solid waste disposal facility that uses an ash-producing incinerator or for a waste-to-energy facility, if the proposed location of such facility is sited within a 1-mile radius of any school or any property zoned for residential use within that same county which has a density of one or more dwelling units per acre. The 1-mile radius must be measured from the stack of the facility. This subsection applies only to a county as defined in s. 125.011(1).*

(10)(9) The department shall establish a separate category for solid waste management facilities that accept only construction and demolition debris for disposal or recycling. The department shall establish a reasonable schedule for existing facilities to comply with this section to avoid undue hardship to such facilities. However, a permitted solid waste disposal unit that receives a significant amount of waste prior to the compliance deadline established in this schedule shall not be required to be retrofitted with liners or leachate control systems.

(j) The Legislature recognizes that recycling, waste reduction, and resource recovery are important aspects of an integrated solid waste management program and as such are necessary to protect the public health and the environment. If necessary to promote such an integrated program, the county may determine, after providing notice and an opportunity for a hearing prior to April 30, 2008, that some or all of the material described in s. 403.703(7)(b) ~~s. 403.703(6)(b)~~ shall be excluded from the definition of "construction and demolition debris" in s. 403.703(7) ~~s. 403.703(6)~~ within the jurisdiction of such county. The county may make such a determination only if it finds that, prior to June 1, 2007, the county has established an adequate method for the use or recycling of such wood material at an existing or proposed solid waste management facility that is permitted or authorized by the de-

partment on June 1, 2007. The county is not required to hold a hearing if the county represents that it previously has held a hearing for such purpose, or if the county represents that it previously has held a public meeting or hearing that authorized such method for the use or recycling of trash or other nonputrescible waste materials and that such materials include those materials described in s. 403.703(7)(b) ~~s. 403.703(6)(b)~~. The county shall provide written notice of its determination to the department by no later than April 30, 2008; thereafter, the materials described in s. 403.703(7) ~~s. 403.703(6)~~ shall be excluded from the definition of "construction and demolition debris" in s. 403.703(7) ~~s. 403.703(6)~~ within the jurisdiction of such county. The county may withdraw or revoke its determination at any time by providing written notice to the department.

Section 5. Subsection (5) of section 403.7049, Florida Statutes, is amended to read:

403.7049 Determination of full cost for solid waste management; local solid waste management fees.—

(5) In order to assist in achieving the municipal solid waste reduction goal and the recycling provisions of s. 403.706(3) ~~s. 403.706(2)~~, a county or a municipality which owns or operates a solid waste management facility is hereby authorized to charge solid waste disposal fees which may vary based on a number of factors, including, but not limited to, the amount, characteristics, and form of recyclable materials present in the solid waste that is brought to the county's or the municipality's facility for processing or disposal.

Section 6. Paragraph (c) of subsection (2) and subsection (3) of section 403.705, Florida Statutes, are amended to read:

403.705 State solid waste management program.—

(2) The state solid waste management program shall include, at a minimum:

Section 2. Section 403.7033, Florida Statutes, is amended to read:

403.7033 *Preemption of regulation for auxiliary containers*—~~Departmental analysis of particular recyclable materials. The Legislature finds that prudent regulation of recyclable materials is crucial to the ongoing welfare of Florida's ecology and economy. As such, the Department of Environmental Protection shall review and update its 2010 report on retail bags analyzing the need for new or different regulation of auxiliary containers, wrappings, or disposable plastic bags used by consumers to carry products from retail establishments. The updated report must include input from state and local government agencies, stakeholders, private businesses, and citizens and must evaluate the efficacy and necessity of both statewide and local regulation of these materials. To ensure consistent and effective implementation, the department shall submit the updated report with conclusions and recommendations to the Legislature no later than December 31, 2021. Until such time that the Legislature adopts the recommendations of the department,~~

(1) *The regulation of auxiliary containers is expressly preempted to the state.* A local government, local governmental agency, or state governmental agency may not enact or enforce any rule, regulation, or ordinance regarding the use, disposition, sale, prohibition, restriction, or tax of such auxiliary containers *unless explicitly permitted by statute.*

(2) *Rules, regulations, or ordinances restricting the use of glass auxiliary containers within the boundaries of any public beach are explicitly permitted.*

(3) *The Division of Recreation and Parks of the Department of Environmental Protection may regulate auxiliary containers within state parks consistent with its grant of authority in s. 258.004, wrappings, or disposable plastic bags.*

Section 3. Present subsections (2) through (23) of section 403.706, Florida Statutes, are redesignated as subsections (4) through (25), respectively, new subsections (2) and (3) are added to that section, and present subsections (4), (6), (7), and (20) of that section are amended, to read:

403.706 Local government solid waste responsibilities.—

(2) *A local government may not issue a construction permit pursuant to this section for a new solid waste disposal facility that uses an ash-producing incinerator or for a waste-to-energy facility, if the proposed location of such facility is sited within a 1-mile radius of any school or any property zoned for residential use within that same county which has a density of one or more dwelling units per acre. The 1-mile radius must be measured from the stack of the facility. This subsection applies only to a county as defined in s. 125.011(1).*

(3) *A local government may not issue a construction permit pursuant to this section for the expansion of any existing landfill that was permitted on or before December 2, 1970, the date on which the United States Environmental Protection Agency was established, and that is located within a 1-mile radius of any property zoned residential unless the entirety of the site is remediated and compliant with the department's environmental standards.*

(a) *A feasibility study must be conducted before the issuance of a permit to expand the existing landfill. The feasibility study must do all of the following:*

1. *Identify potential waste-to-energy technologies and processes that reduce landfill dependence and greenhouse gas emissions including, but*

not limited to, anaerobic digestion, plasma arc technology, and mixed waste processing.

2. *Evaluate the financial costs of using such technologies and processes and the benefits of local siting and government ownership.*

3. *Evaluate the technical feasibility of expansion, considering engineering requirements, infrastructure needs, technological advancements, and regulatory compliance.*

4. *Evaluate relevant and appropriate data and analyses, such as surveys, studies, community goals and vision, and data used in preparation of the comprehensive plan, from professionally accepted sources.*

5. *Identify and evaluate potential risks and challenges associated with the project.*

(b) *The local government shall review and discuss in a public meeting the results of the feasibility study and provide a rationale for expanding the landfill.*

(6)(a)(4)(a) *In order to promote the production of renewable energy from solid waste, each megawatt-hour produced by a renewable energy facility using solid waste as a fuel shall count as 1 ton of recycled material and shall be applied toward meeting the recycling goals set forth in this section. If a county creating renewable energy from solid waste implements and maintains a program to recycle at least 50 percent of municipal solid waste by a means other than creating renewable energy, that county shall count 1.25 tons of recycled material for each megawatt-hour produced. If waste originates from a county other than the county in which the renewable energy facility resides, the originating county shall receive such recycling credit. Any byproduct resulting from the creation of renewable energy that is recycled shall count towards the county recycling goals in accordance with the methods and criteria developed pursuant to paragraph (4)(h) ~~(2)(h)~~.*

(b) *A county may receive credit for one-half of the recycling goal set forth in subsection (4) ~~(2)~~ from the use of yard trash, or other clean wood waste or paper waste, in innovative programs including, but not limited to, programs that produce alternative clean-burning fuels such as ethanol or that provide for the conversion of yard trash or other clean wood waste or paper waste to clean-burning fuel for the production of energy for use at facilities other than a waste-to-energy facility as defined in s. 403.7061. The provisions of this paragraph apply only if a county can demonstrate that:*

1. *The county has implemented a yard trash mulching or composting program, and*

2. *As part of the program, compost and mulch made from yard trash is available to the general public and in use at county-owned or maintained and municipally owned or maintained facilities in the county and state agencies operating in the county as required by this section.*

(c) *A county with a population of 100,000 or less may provide its residents with the opportunity to recycle in lieu of achieving the goal set forth in this section. For the purposes of this section, the “opportunity to recycle” means that the county:*

1.a. *Provides a system for separating and collecting recyclable materials prior to disposal that is located at a solid waste management facility or solid waste disposal area; or*

b. *Provides a system of places within the county for collection of source-separated recyclable materials.*

2. *Provides a public education and promotion program that is conducted to inform its residents of the opportunity to recycle, encourages source separation of recyclable materials, and promotes the benefits of reducing, reusing, recycling, and composting materials.*

(8)(6) *The department may reduce or modify the municipal solid waste recycling goal that a county is required to achieve pursuant to subsection (4) ~~(2)~~ if the county demonstrates to the department that:*

(a) *The achievement of the goal set forth in subsection (4) ~~(2)~~ would have an adverse effect on the financial obligations of a county that are*

directly related to a waste-to-energy facility owned or operated by or on behalf of the county; and

(b) The county cannot remove normally combustible materials from solid waste that is to be processed at a waste-to-energy facility because of the need to maintain a sufficient amount of solid waste to ensure the financial viability of the facility.

The goal shall not be waived entirely and may only be reduced or modified to the extent necessary to alleviate the adverse effects of achieving the goal on the financial viability of a county's waste-to-energy facility. Nothing in this subsection shall exempt a county from developing and implementing a recycling program pursuant to this act.

(9)(7) In order to assess the progress in meeting the goal set forth in subsection (4) ~~(2)~~, each county shall, by April 1 each year, provide information to the department regarding its annual solid waste management program and recycling activities.

(a) The information submitted to the department by the county must, at a minimum, include:

1. The amount of municipal solid waste disposed of at solid waste disposal facilities, by type of waste such as yard trash, white goods, clean debris, tires, and unseparated solid waste;

2. The amount and type of materials from the municipal solid waste stream that were recycled; and

3. The percentage of the population participating in various types of recycling activities instituted.

(b) Beginning with the data for the 2012 calendar year, the department shall by July 1 each year post on its website the recycling rates of each county for the prior calendar year.

(22)(20) In addition to any other penalties provided by law, a local government that does not comply with the requirements of subsections (4) and (6) ~~is (2) and (4) shall not be eligible for grants from the Solid Waste Management Trust Fund, and the department may notify the Chief Financial Officer to withhold payment of all or a portion of funds payable to the local government by the department from the General Revenue Fund or by the department from any other state fund, to the extent not pledged to retire bonded indebtedness, unless the local government demonstrates that good faith efforts to meet the requirements of subsections (4) and (6) (2) and (4) have been made or that the funds are being or will be used to finance the correction of a pollution control problem that spans jurisdictional boundaries.~~

Section 4. Present subsections (6) through (14) of section 403.707, Florida Statutes, are redesignated as subsections (8) through (16), respectively, new subsections (6) and (7) are added to that section, and paragraph (j) of present subsection (9) of that section is amended, to read:

403.707 Permits.—

(6) *The department may not issue a construction permit pursuant to this section for a new solid waste disposal facility that uses an ash-producing incinerator or for a waste-to-energy facility, if the proposed location of such facility is sited within a 1-mile radius of any school or any property zoned for residential use within that same county which has a density of one or more dwelling units per acre. The 1-mile radius must be measured from the stack of the facility. This subsection applies only to a county as defined in s. 125.011(1).*

(7) *The department may not issue a construction permit pursuant to this section for the expansion of any existing landfill that was permitted on or before December 2, 1970, the date on which the United States Environmental Protection Agency was established, and that is located within a 1-mile radius of any property zoned residential unless the entirety of the site is remediated and compliant with the department's environmental standards.*

(a) *A feasibility study must be conducted before the issuance of a permit to expand the existing landfill. The feasibility study must do all of the following:*

1. *Identify potential waste-to-energy technologies and processes that reduce landfill dependence and greenhouse gas emissions including, but not limited to, anaerobic digestion, plasma arc technology, and mixed waste processing.*

2. *Evaluate the financial costs of such technologies and processes and the benefits of local siting and government ownership.*

3. *Evaluate the technical feasibility of expansion, considering engineering requirements, infrastructure needs, technological advancements, and regulatory compliance.*

4. *Evaluate relevant and appropriate data and analyses, such as surveys, studies, community goals and vision, and data used in preparation of the comprehensive plan, from professionally accepted sources.*

5. *Identify and evaluate potential risks and challenges associated with the project.*

(b) *The department shall review and discuss in a public meeting the results of the feasibility study and provide a rationale for expanding the landfill.*

(11)(9) The department shall establish a separate category for solid waste management facilities that accept only construction and demolition debris for disposal or recycling. The department shall establish a reasonable schedule for existing facilities to comply with this section to avoid undue hardship to such facilities. However, a permitted solid waste disposal unit that receives a significant amount of waste prior to the compliance deadline established in this schedule shall not be required to be retrofitted with liners or leachate control systems.

(j) The Legislature recognizes that recycling, waste reduction, and resource recovery are important aspects of an integrated solid waste management program and as such are necessary to protect the public health and the environment. If necessary to promote such an integrated program, the county may determine, after providing notice and an opportunity for a hearing prior to April 30, 2008, that some or all of the material described in s. 403.703(7)(b) ~~s. 403.703(6)(b)~~ shall be excluded from the definition of "construction and demolition debris" in s. 403.703(7) ~~s. 403.703(6)~~ within the jurisdiction of such county. The county may make such a determination only if it finds that, prior to June 1, 2007, the county has established an adequate method for the use or recycling of such wood material at an existing or proposed solid waste management facility that is permitted or authorized by the department on June 1, 2007. The county is not required to hold a hearing if the county represents that it previously has held a hearing for such purpose, or if the county represents that it previously has held a public meeting or hearing that authorized such method for the use or recycling of trash or other nonputrescible waste materials and that such materials include those materials described in s. 403.703(7)(b) ~~s. 403.703(6)(b)~~. The county shall provide written notice of its determination to the department by no later than April 30, 2008; thereafter, the materials described in s. 403.703(7) ~~s. 403.703(6)~~ shall be excluded from the definition of "construction and demolition debris" in s. 403.703(7) ~~s. 403.703(6)~~ within the jurisdiction of such county. The county may withdraw or revoke its determination at any time by providing written notice to the department.

Section 5. Subsection (5) of section 403.7049, Florida Statutes, is amended to read:

403.7049 Determination of full cost for solid waste management; local solid waste management fees.—

(5) In order to assist in achieving the municipal solid waste reduction goal and the recycling provisions of s. 403.706(4) ~~s. 403.706(2)~~, a county or a municipality which owns or operates a solid waste management facility is hereby authorized to charge solid waste disposal fees which may vary based on a number of factors, including, but not limited to, the amount, characteristics, and form of recyclable materials present in the solid waste that is brought to the county's or the municipality's facility for processing or disposal.

Section 6. Paragraph (c) of subsection (2) and subsection (3) of section 403.705, Florida Statutes, are amended to read:

403.705 State solid waste management program.—

(2) The state solid waste management program shall include, at a minimum:

(3) The department shall evaluate and report biennially to the President of the Senate and the Speaker of the House of Representatives on the state's success in meeting the solid waste recycling goal as described in s. 403.706(4) ~~s.~~

And the title is amended as follows:

Delete lines 322-327 and insert: state parks; amending s. 403.706, F.S.; prohibiting a local government from issuing a construction permit for certain solid waste disposal facilities in certain counties; providing applicability; prohibiting a local government from issuing a permit for the expansion of certain existing landfills unless a feasibility study is conducted; specifying requirements for the feasibility study; requiring the local government to review and discuss at a certain meeting the results of the feasibility study and provide a rationale for expanding the landfill; amending s. 403.707, F.S.; prohibiting the Department of Environmental Protection from issuing a construction permit for certain solid waste disposal facilities in certain counties; providing applicability; prohibiting the department from issuing a permit for the expansion of certain existing landfills unless a feasibility study is conducted; specifying requirements for the feasibility study; requiring the department to review and discuss at a certain meeting the results of the feasibility study and provide a rationale for expanding the landfill; conforming a provision to changes made

Amendment 1 (253202) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Effective July 1, 2026, upon legislative ratification of rules of the Financial Services Commission and the Chief Financial Officer as provided in section 17 of this act, paragraph (j) of subsection (1) of section 212.05, Florida Statutes, is amended to read:

212.05 Sales, storage, use tax.—It is hereby declared to be the legislative intent that every person is exercising a taxable privilege who engages in the business of selling tangible personal property at retail in this state, including the business of making or facilitating remote sales; who rents or furnishes any of the things or services taxable under this chapter; or who stores for use or consumption in this state any item or article of tangible personal property as defined herein and who leases or rents such property within the state.

(1) For the exercise of such privilege, a tax is levied on each taxable transaction or incident, which tax is due and payable as follows:

(j)1. Notwithstanding any other provision of this chapter, there is hereby levied a tax on the sale, use, consumption, or storage for use in this state of any coin or currency, whether in circulation or not, when such coin or currency:

- a. Is not legal tender;
- b. If legal tender, is sold, exchanged, or traded at a rate in excess of its face value; or
- c. Is sold, exchanged, or traded at a rate based on its precious metal content.

2. Such tax shall be at a rate of 6 percent of the price at which the coin or currency is sold, exchanged, or traded, except that, with respect to a coin or currency that ~~which~~ is legal tender of the United States or any gold coin or silver coin recognized as legal tender in this state pursuant to s. 215.986 and that ~~which~~ is sold, exchanged, or traded, such tax shall not be levied. *The person who claims the sales tax exemption bears the burden of determining whether the gold coin or silver coin meets the definitions provided in s. 215.986. In the absence of evidence to the contrary, there is a presumption that the gold coin or silver coin meets the percent purity requirements provided in s. 215.986 based upon:*

- a. *The purity imprinted or stamped on the gold coin or silver coin; or*
- b. *An electronic transfer, as defined in s. 215.986(1)(b), of a gold coin or silver coin or any fraction thereof.*

3. There are exempt from this tax exchanges of coins or currency which are in general circulation in, and legal tender of, one nation for coins or currency which are in general circulation in, and legal tender of, another nation when exchanged solely for use as legal tender and at an exchange rate based on the relative value of each as a medium of exchange.

4. With respect to any transaction that involves the sale of coins or currency taxable under this paragraph in which the taxable amount represented by the sale of such coins or currency exceeds \$500, the entire amount represented by the sale of such coins or currency is exempt from the tax imposed under this paragraph. The dealer must maintain proper documentation, as prescribed by rule of the department, to identify that portion of a transaction which involves the sale of coins or currency and is exempt under this subparagraph.

Section 2. Effective July 1, 2026, upon legislative ratification of rules of the Financial Services Commission and the Chief Financial Officer as provided in section 17 of this act, section 215.986, Florida Statutes, is created to read:

(a) “Debt” means an obligation for the payment of money under express contract.

(b) “Electronic transfer” means any instruction, other than a transaction by check, draft, or similar paper instrument, which is initiated through debit card, mobile application, or computer to order, instruct, or authorize a financial institution as defined in s. 655.005(1)(i) or a money services business as defined in s. 560.103 to debit or credit an account with gold coin or silver coin or any fraction thereof, or the equivalent coin or currency of the United States or foreign currency converted at current market price. An “electronic transfer” includes, but is not limited to, an instruction in a debit card transaction that authorizes the debit or credit of an account in a single, integrated step at the point of sale.

(c) “Gold coin” means a precious metal with the chemical element of atomic number 79 in solid form, in the shape of rounds, bars, ingots, or bullion coins, which is valued for its metal content and stamped or imprinted with its weight and purity and which solid form of chemical element atomic number 79 consists of at least 99.5 percent purity. The term does not include any goods as defined in s. 672.105(1), such as jewelry, other items of utility, such as picture frames, or collectables.
